Communication Science and Disorders - Speech-Language Pathology Concentration, MA/MS

Program Requirements

Clinical Practicum

Clinical practicum requirements are met through the SLP Network, Outplacements, and Practicum in the Schools. These community-based sites consist of more than 100 facilities in Western Pennsylvania with which the program is affiliated. These include varied settings such as hospitals, rehabilitation centers, home based services, specialty clinics, not-for-profit clinics, early intervention, private practices, and schools.

SLP Summative Assessment Project for Master of Arts (MA) degree

All students in the Master of Arts program are required to successfully complete a Summative Assessment Project. This project assesses students' ability to think critically, communicate their thoughts in written and oral form, and demonstrate their grasp of the major academic and clinical content provided in their graduate program. Students pursuing the Master of Arts (MA) degree in communication disorders with a concentration in speech

language pathology must satisfactorily complete a one-credit course, typically taken in the fall or spring term of their last year in the graduate program. Requirements for passing the Summative Assessment Project are provided in the course syllabus.

Program Electives

Thesis Option for Master of Science (MS) degree

Students pursuing the Master of Science degree in speech-language pathology must successfully complete a thesis project. Students who complete a master's thesis are exempt from the Summative Assessment Project. Thesis students will have an examining committee of at least three University of Pittsburgh faculty members, including the research director, who serves as chair. Additional requirements are outlined in the academic handbook, which is distributed to students at the beginning of their academic programs.

Optional Coursework

The master's degree program with a concentration in speech-language pathology has a generally predefined curriculum. For students interested in obtaining school certification, students must complete the regular master's degree requirements plus the following: a 3 credit child/human development course (typically taken as an undergraduate); a language development course (typically taken through the CSD undergraduate program); and CSD 2067 SLP School Practicum (4 days per/ week for a full semester). Additionally, the student must pass specific Praxis examinations as required by the Pennsylvania Department of Education (PDE).

Curriculum

The program is designed to be completed within 5 terms, although some students will elect to complete the program in 6 terms. The program requires 60 credits typically distributed as follows: Required Coursework (47 credits), Clinic

Practicum (minimum of 10 credits), and additional/optional credits (minimum 3 credits). Course work must be passed with a C- grade or better to count for graduation.

The progression of courses for the general clinical requirements are outlined on the Department's web site, and includes the following Program Curriculum:

- CSD 2028 - AUTISM
- CSD 2039 - MOTOR SPEECH DISORDERS
- CSD 2055 - PEDIATRIC AUDIOLOGIC REHABILITATION
- CSD 2064 - INTRO CLINICAL DECISION-MAKING
- CSD 2070 - ARTICULATION AND PHONOLOGICAL DISORDERS
- CSD 2071 - CHILD LANGUAGE DISORDERS 1
- CSD 2072 - STUTTERING
- CSD 2073 - VOICE DISORDERS
- CSD 2076 - DYSPHAGIA
- CSD 2077 - AUGMENTATIVE COMMUNICATION
- CSD 2079 - PEDIATRIC FEEDING AND SWALLOWING
- CSD 2081 - RESEARCH STRATEGIES AND TACTICS
- CSD 2082 - PROFESSIONAL ISSUES 1
- CSD 2083 - PROFESSIONAL ISSUES 2
- CSD 2086 - SLP SCREENING AND PREVENTION SKILLS LAB
- CSD 2120 - PRINCIPLES OF AUDIOLOGY FOR SPEECH-LANGUAGE PATHOLOGISTS
- CSD 2130 - NEUROGENIC LANGUAGE AND COGNITIVE COMMUNICATION DISORDERS 1
- CSD 2162 - COUNSELING STRATEGIES FOR AUD AND SLP
- CSD 2230 - NEUROGENIC LANGUAGE AND COGNITIVE COMMUNICATION DISORDERS 2
- CSD 2250 - CHILD LANGUAGE DISORDERS 2

- CSD 2514 - SCHOOL BASED SERVICE DELIVERY

Optional

- CSD 2500 - MEDICAL SPEECH-LANGUAGE PATHOLOGY 3

Clinical Practice

- CSD 2065 - SLP NETWORK PRACTICUM
- CSD 2066 - SLP OUTPLACEMENT PRACTICUM
- CSD 2067 - SLP SCHOOL PRACTICUM

Other Requirements

- CSD 2069 - SLP SUMMATIVE ASSESSMENT PROJECT

Thesis Option

- CSD 2000 - RESEARCH & THESIS MASTER'S DEGR

Department of Health Information Management

Master of Science Degree in Health Informatics with a Track in Health Informatics (HI), Data Science (DS) or Registered Health Information Administrator (RHIA) or Health Care Supervision and Management (HSAM)

The Department of Health Information Management (HIM) offers four tracks leading to the Master of Science degree in Health Informatics (HI), Data Science (DS), Registered Health Information Administrator (RHIA) and Health Care Supervision and Management (HSAM).

Contact Information:

Bambang Parmanto, PhD, Chair
 Department of Health Information Management
 6051 Forbes Tower
 412-383-6650
 Fax: 412-383-6655
 E-mail: him@pitt.edu
<http://www.shrs.pitt.edu/HIM/>

Admission Requirements for Health Informatics (HI), Data Science (DS), Registered Health Information Administrator (RHIA), and Health Care Supervision and Management (HSAM)

- A baccalaureate degree from an accredited institution:
- A minimum grade point average (GPA) of 3.0 (on a 4.0 scale) is required. Admission may be considered for applicants with a GPA of less than 3.0 if other supporting evidence of their ability to complete the graduate program is provided.

Application Process for HI, DS, RHIA & HSAM

- Complete the application for admission
 - Applications to attend the program on-campus are submitted through GradCAS
 - Applications to attend the program online are submitted through TargetX
- Application fee of \$50
- Two Letters of Recommendation are required. These recommendations should be from college level instructors or employers/professionals who have supervised your work in a paid or volunteer capacity. These individuals should be able to comment on your academic,

professional and interpersonal abilities. People submitting recommendation letters on your behalf are encouraged to send their letters to our admissions office electronically through our application system. For those people who wish to submit their letter of recommendation on paper, please forward them a copy of our Recommendation Form and follow the directions for paper recommendations.

- Statement of Purpose/Essay
- Transcripts from all institutions attended
- International applicants must provide English Language Proficiency scores (Duolingo, IELTS, or TOEFL) and an Academic Credential Evaluation from Educational Credential Evaluators, Inc. or World Education Services (WES), Inc.

Financial Aid

There are scholarships and loan opportunities available to graduate students from the American Health Information Management Association (AHIMA). Further information can be obtained from the AHIMA web site at www.ahima.org under the career and student center tab. Additionally, the Pennsylvania Health Information Management Association (PHIMA) awards scholarships to qualified students in Pennsylvania. Further information can be obtained from PHIMA's web site at <http://www.phima.org/members/scholarships/>.

The Healthcare Information and Management Systems Society (HIMSS) also awards scholarships to HIMSS student members who have achieved academic excellence and have the potential to be future leaders in the health care information and management systems industry. Visit the HIMSS site at <http://www.himss.org/> and navigate to "Scholarships" under the Professional Development menu.

In addition, HIM provides endowment scholarships for both undergraduate and graduate studies.

Certificate

Health Data Analytics Certificate

In the Department of Health Information Management, there are four certificate programs: Health Data Analytics, Health Information Cybersecurity, Revenue Cycle Management, and Leadership in Health Informatics.

These certificate programs can help students open doors in new fields. All students enrolled in these certificate programs are required to complete 12 credits, or four 3-credit courses. A certificate program can be finished in one or two terms.

There are online and on-campus versions of these certificates. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of these certificates.

Program Requirements

The admission requirements for these certificate programs are identical to our Master of Science in Health Informatics (MSHI) program. All students enrolled in a certificate program are required to complete 12 credits. For students who pursue a MS degree in MSHI program, the credits obtained from these certificate programs can be counted toward the MSHI program. The required courses for each of the four certificate programs are listed below.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Required Health Informatics Courses (12 credits)

- HI 2022 - INTRODUCTION TO PYTHON FOR HEALTH INFORMATICS
- HI 2451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 2454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 2453 - MACHINE LEARNING IN HEALTH SCIENCE

Health Information Cybersecurity Certificate

In the Department of Health Information Management, there are four certificate programs: Health Data Analytics, Health Information Cybersecurity, Revenue Cycle Management, and Leadership in Health Informatics.

These certificate programs can help students open doors in new fields. All students enrolled in these certificate programs are required to complete 12 credits, or four 3-credit courses. A certificate program can be finished in one or two terms.

There are online and on-campus versions of these certificates. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of these certificates.

Program Requirements

The admission requirements for these certificate programs are identical to our Master of Science in Health Informatics (MSHI) program. All students enrolled in a certificate program are required to complete 12 credits. For students who pursue a MS degree in MSHI program, the credits obtained from these certificate programs can be counted toward the MSHI program. The required courses for each of the four certificate programs are listed below.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Required Health Informatics Courses (12 credits)

HI-2450 - Security, Privacy, Legal & Ethical Issues in Health IT (3 credits)

HI-2210 - Health Information and the Health Care System (3 credits)

HI-2452 - Digital Health (3 credits)

HI-2021 - Practical Statistics and Programming Using R (3 credits) or

HI-2650 - Practical Research and Evaluation Methods (3 credits)

Leadership in Health Informatics Certificate

In the Department of Health Information Management, there are four certificate programs: Health Data Analytics, Health Information Cybersecurity, Revenue Cycle Management, and Leadership in Health Informatics.

These certificate programs can help students open doors in new fields. All students enrolled in these certificate programs are required to complete 12 credits, or four 3-credit courses. A certificate program can be finished in one or two terms.

There are online and on-campus versions of these certificates. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of these certificates.

Program Requirements

The admission requirements for these certificate programs are identical to our Master of Science in Health Informatics (MSHI) program. All students enrolled in a certificate program are required to complete 12 credits. For students who pursue a MS degree in MSHI program, the credits obtained from these certificate programs can be counted toward the MSHI program. The required courses for each of the four certificate programs are listed below.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Required Health Informatics Courses (12 credits)

HI-2210 - Health Information and the Health Care System (3 credits)

HI-2632 - Leadership and Project Management (3 credits)

HI-2231 - Talent Management and Human Resources (3 credits)

HI-2230 - Financial Management and Health Care Reimbursement (3 credits)

Revenue Cycle Management Certificate

In the Department of Health Information Management, there are four certificate programs: Health Data Analytics, Health Information Cybersecurity, Revenue Cycle Management, and Leadership in Health Informatics.

These certificate programs can help students open doors in new fields. All students enrolled in these certificate programs are required to complete 12 credits, or four 3-credit courses. A certificate program can be finished in one or two terms.

There are online and on-campus versions of these certificates. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of these certificates.

Program Requirements

The admission requirements for these certificate programs are identical to our Master of Science in Health Informatics (MSHI) program. All students enrolled in a certificate program are required to complete 12 credits. For students who pursue a MS degree in MSHI program, the credits obtained from these certificate programs can be counted toward the MSHI program. The required courses for each of the four certificate programs are listed below.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Required Health Informatics Courses (12 credits)

HI-2210 - Health Information and the Health Care System (3 credits)

HI-2410 - Health Vocabulary, Terminology & Classification Systems (3 credits)

HI-2230 - Financial Management and Health Care Reimbursement (3 credits)

HI-2452 - Digital Health (3 credits)

Master's

Health Informatics, MS

Data Science Concentration

Data Science (DS), a concentration in the Master of Science in Health Informatics program, is housed in the Department of Health Information Management, School of Health and Rehabilitation Sciences (SHRS).

The Data Science (DS) concentration prepares students responsible for the development, evaluation, and management of health information technologies and systems. Graduates of this concentration analyze, design, implement, and evaluate health information systems. They will also have

the ability to conduct in-depth data analytics projects to improve the quality of health care and reduce the cost of health care services. Students enrolled full-time can complete the program in 3-4 consecutive semesters.

There are online and on-campus versions of this concentration. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of the concentration.

Program Requirements

All students enrolled in the Data Science concentration are required to complete 36 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Data Science considering student's previous academic preparation and experience.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

DS Curriculum

The Data Science curriculum allows students to choose from required courses and elective courses. Elective courses can be chosen from other health informatics concentrations in the department, other departments in the SHRS or other academic programs within the University.

Required Health Informatics Courses (36 credits)

Please note: All students are required to finish one Health Informatics capstone/internship and one course in medical terminology if they do not have that course or clinical background. Pitt offers a Coursera course in medical terminology that can meet this program requirement and can be found at this link <https://www.coursera.org/learn/clinical-terminology>, however the student can choose another medical terminology course as well.

Required Courses (21 Credits)

- HI 2210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 2250 - FOUNDATIONS OF HEALTH INFORMATICS
- HI 2451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 2453 - MACHINE LEARNING IN HEALTH SCIENCE
- HI 2454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 2670 - HEALTH INFORMATICS CAPSTONE/INTERNSHIP

Elective Courses (15 Credits)

- HI 2230 - FINANCIAL MANAGEMENT AND HEALTH CARE REIMBURSEMENT
- HI 2231 - TALENT MANAGEMENT AND HUMAN RESOURCES
- HI 2236 - QUALITY AND PERFORMANCE IMPROVEMENT IN HEALTHCARE: METHODOLOGIES, CORE SKILLS, AND LEAN GREEN BELT C
- HI 2410 - HEALTH VOCABULARY, TERMINOLOGY AND CLASSIFICATION SYSTEMS
- HI 2450 - SECURITY, PRIVACY, LEGAL, AND ETHICAL ISSUES IN HEALTH INFORMATION SYSTEMS
- HI 2452 - DIGITAL HEALTH
- HI 2632 - LEADERSHIP AND PROJECT MANAGEMENT
- HI 2650 - PRACTICAL RESEARCH AND EVALUATION METHODS

Health Services Analytics Concentration

In Fall 2022, the Registered Health Information Administrator (RHIA) concentration was renamed to Health Services Analytics (HSA) concentration. All students in the RHIA ARCO will have until December 2024 to complete their training.

The Health Services Analytics (HSA) concentration leading to a Master of Science degree in Health Informatics prepares students responsible for the development and management of health information systems consistent with the clinical, fiscal, administrative, ethical, and legal requirements of healthcare institutions. Graduates of this program analyze, design, implement, and evaluate health information systems. As members of the healthcare team, they interact with other healthcare professionals and administrators, and provide healthcare data for patient care, research, quality improvement, strategic planning, reimbursement, and related managerial functions.

HSA graduates work in a variety of settings, such as hospitals, health planning agencies, computer companies, consulting firms, information systems vendors, ambulatory care centers, research centers, rehabilitation facilities, and insurance companies.

The Health Services Analytics (HSA) Option

We offer courses within the HSA track for students who are seeking eligibility to sit for the American Health Information Management (AHIMA) credentialing examination to become a Health Services Analytics (HSA) administrator.

The HSA concentration leading to a Master of Science degree in Health Informatics is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Results from the 2019 outcomes assessment reported to CAHIIM in the 2020 Annual Program Report (APAR) indicate:

- Graduation Rate: 100%
- Employment Rate: 100%
- National Certification Exam (HSA) Pass Rate: 100%

There are online and on-campus versions of this concentration. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of the concentration.

Program Requirements - HSA

All students enrolled in the HSA concentration are required to complete 36 credits (students enrolled full-time normally complete the program in 3-4 consecutive semesters). Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Informatics considering student's previous academic preparation and experience.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Please note, before graduation, students are required to demonstrate a body of knowledge in math statistics, computer programming, anatomy, and physiology, medical terminology, pathophysiology, and pharmacology.

HSA Track Internship

Students in the HSA track are required to complete an internship as part of their curriculum requirements. The overall goal of the internship is to provide students with practical experiences to apply their knowledge and skills that they learn in their respective graduate programs. The internship is 3 credits, and requires a minimum of 180 hours of student participation.

Required Courses for All Students (24 credits)

Students must complete the following 8 courses:

- HI 2021 - PRACTICAL STATISTICS AND PROGRAMMING USING R
- HI 2210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 2230 - FINANCIAL MANAGEMENT AND HEALTH CARE REIMBURSEMENT

- HI 2236 - QUALITY AND PERFORMANCE IMPROVEMENT IN HEALTHCARE: METHODOLOGIES, CORE SKILLS, AND LEAN GREEN BELT C
- HI 2250 - FOUNDATIONS OF HEALTH INFORMATICS
- HI 2410 - HEALTH VOCABULARY, TERMINOLOGY AND CLASSIFICATION SYSTEMS
- HI 2455 - DATABASE DESIGN AND MANAGEMENT FOR HEALTHCARE
- HI 2457 - HEALTH ANALYTICS AND DATA VISUALIZATION

Elective Courses for All Students (12 Credits)

Students can choose 4 electives from the following list of courses:

- HI 2022 - INTRODUCTION TO PYTHON FOR HEALTH INFORMATICS
- HI 2231 - TALENT MANAGEMENT AND HUMAN RESOURCES
- HI 2450 - SECURITY, PRIVACY, LEGAL, AND ETHICAL ISSUES IN HEALTH INFORMATION SYSTEMS
- HI 2452 - DIGITAL HEALTH
- HI 2453 - MACHINE LEARNING IN HEALTH SCIENCE
- HI 2454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 2456 - HEALTHCARE IT TRENDS AND INNOVATION
- HI 2632 - LEADERSHIP AND PROJECT MANAGEMENT
- HI 2650 - PRACTICAL RESEARCH AND EVALUATION METHODS

Healthcare Supervision and Management Concentration

Health Care Supervision and Management (HSAM), a concentration in the Master of Science in Health Informatics program, is housed in the Department of Health Information Management, School of Health and Rehabilitation Sciences (SHRS).

The Health Care Supervision and Management (HSAM) concentration provides students an opportunity for knowledge, skills, and career advancement. Qualified students with interests in administration and supervisory management in health care, long-term care, and rehabilitation may pursue this 36 credit concentration in HSM. Students enrolled full-time normally complete the program in 3-4 consecutive semesters.

This program is designed for students who wish to attain knowledge and skills at the graduate level to prepare for a supervisory management position or to upgrade competencies developed earlier in his/her career.

There are online and on-campus versions of this concentration. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of the concentration.

Program Requirements

All students enrolled in the Health Care Supervision and Management concentration are required to complete 36 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Care Supervision and Management considering student's previous academic preparation and experience.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

HSM Curriculum

The Health Care Supervision and Management curriculum allows students to choose from required courses and elective courses. Elective courses can be chosen from other health informatics concentrations in the department, other departments in the SHRS or other academic programs within the University.

Please note: All students are required to finish one Health Informatics capstone/internship and one course in medical terminology if they do not have that course or clinical background. Pitt offers a Coursera course in medical terminology that can meet this program requirement and can be found at this link <https://www.coursera.org/learn/clinical-terminology>, however the student can choose another medical terminology course as well.

Required Courses (30 Credits)

- HI 2210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 2230 - FINANCIAL MANAGEMENT AND HEALTH CARE REIMBURSEMENT
- HI 2231 - TALENT MANAGEMENT AND HUMAN RESOURCES
- HI 2236 - QUALITY AND PERFORMANCE IMPROVEMENT IN HEALTHCARE: METHODOLOGIES, CORE SKILLS, AND LEAN GREEN BELT C
- HI 2250 - FOUNDATIONS OF HEALTH INFORMATICS
- HI 2452 - DIGITAL HEALTH
- HI 2455 - DATABASE DESIGN AND MANAGEMENT FOR HEALTHCARE
- HI 2632 - LEADERSHIP AND PROJECT MANAGEMENT
- HI 2670 - HEALTH INFORMATICS CAPSTONE/INTERNSHIP

Electives (6 Credits)

- HI 2410 - HEALTH VOCABULARY, TERMINOLOGY AND CLASSIFICATION SYSTEMS
- HI 2450 - SECURITY, PRIVACY, LEGAL, AND ETHICAL ISSUES IN HEALTH INFORMATION SYSTEMS
- HI 2451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 2453 - MACHINE LEARNING IN HEALTH SCIENCE
- HI 2454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 2650 - PRACTICAL RESEARCH AND EVALUATION METHODS

Health Informatics Concentration

Health Informatics (HI), a concentration in the Master of Science in Health Informatics program, is housed in the Department of Health Information Management, School of Health and Rehabilitation Sciences (SHRS).

The Health Informatics (HI) concentration prepare students responsible for the evaluation and management of health information technologies and systems. Graduates of this track analyze, design, and evaluation health information systems. They may also perform data analytics projects to improve the quality of health care and reduce the cost of health care services. Student enrolled full-time can complete the program in 3-4 consecutive semesters.

There are online and on-campus versions of this concentration. The curriculum and course contents are identical in these two versions. Domestic students can choose either of them according to their situation or preference before the enrollment. International students are required to attend the on-campus version of the concentration.

Program Requirements

All students enrolled in the Health Informatics concentration are required to complete 36 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Care Supervision and Management considering student's previous academic preparation and experience.

Around half of our courses are only offered once per academic year. In this case, if a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

HI Curriculum

The Health Informatics curriculum allows students to choose from required courses and elective courses. Five elective courses are required to be chosen from courses offered in the department and two elective courses can be chosen from courses offered in the department, other departments in the SHRS or other academic programs within the University.

Please note: All students are required to finish one course in medical terminology if they do not have that course or clinical background. Pitt offers a Coursera course in medical terminology that can meet this program requirement and can be found at this link <https://www.coursera.org/learn/clinical-terminology>, however the student can choose another medical terminology course as well.

The HIM department has affiliation agreements with approximately 120+ clinical sites for student internships. The following list provides a sample of these sites:

- 3M/M*Modal
- Allegheny Health Network
- Center for Connected Medicine
- Excela Health
- Highmark
- Loma Linda University Medical Center
- OhioHealth
- Pitt CTSI
- Pittsburgh VA Hospital
- UPMC Health Care Organizations and Information Services Division
- UPMC Health Plan

Prerequisites for Graduate Internships

If a student chooses to complete their internship/capstone at a site that is under contract with the HIM department (or any other site where a contract is required, the items listed below are required. If a contract is not required, the student must sign a waiver. The student's advisor will provide detailed information and time guidelines for completion of the requirements once the student matriculates into the graduate program.

- Physical examination including proof or completion of specific immunizations
- TB test, 2-step
- Pennsylvania Criminal Record Check
- Pennsylvania Child Abuse Clearance
- Recognizing and Reporting Child Abuse Training
- FBI Background Check (includes fingerprinting)
- HIPAA Training and Certification
- Students must carry personal health insurance while participating in an internship

Students must carry professional student liability insurance coverage while participating in an internship. The University provides liability insurance for internships covered by clinical affiliation contracts.

Some sites may have additional requirements (i.e. drug screen, Covid-19 vaccine, influenza vaccine, or orientation programs specific to their organization).

Internship sites may not allow a student to participate in an internship at their site if the background check reports that they have been convicted of a misdemeanor; a felony; or a felonious or illegal act associated with alcohol and/or substance abuse.

Additional Information:

Travel to internship sites is the responsibility of the student. Students are expected to have a car or to provide their own transportation to all remote sites; no exceptions will be made. Not all sites are accessible by public transportation.

All expenses for transportation, parking, meals, and costs of prerequisites associated with clinical education are the responsibility of the student.

The HIM Department utilizes an outside document management vendor, EXXAT, to collect and track student compliance with internship/capstone requirements. Cost for creating an Exxat account is \$25/student. Approximate cost for clearances is \$125, and costs for physical exam and immunization status are dependent on health insurance coverage and provider costs.

Approximate cost for drug screen is \$60.

The internship is 3 credits, and requires a minimum of 180 hours of student participation.

For more information on internships students are encouraged to contact their academic advisor.

Required Health Informatics Courses (15 Credits)

- HI 2210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 2250 - FOUNDATIONS OF HEALTH INFORMATICS
- HI 2451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 2455 - DATABASE DESIGN AND MANAGEMENT FOR HEALTHCARE
- HI 2670 - HEALTH INFORMATICS CAPSTONE/INTERNSHIP

Elective Courses (21 Credits)

- HI 2230 - FINANCIAL MANAGEMENT AND HEALTH CARE REIMBURSEMENT
- HI 2231 - TALENT MANAGEMENT AND HUMAN RESOURCES
- HI 2236 - QUALITY AND PERFORMANCE IMPROVEMENT IN HEALTHCARE: METHODOLOGIES, CORE SKILLS, AND LEAN GREEN BELT C
- HI 2410 - HEALTH VOCABULARY, TERMINOLOGY AND CLASSIFICATION SYSTEMS
- HI 2450 - SECURITY, PRIVACY, LEGAL, AND ETHICAL ISSUES IN HEALTH INFORMATION SYSTEMS
- HI 2452 - DIGITAL HEALTH
- HI 2454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 2632 - LEADERSHIP AND PROJECT MANAGEMENT
- HI 2650 - PRACTICAL RESEARCH AND EVALUATION METHODS

Total Credits: 36

Department of Occupational Therapy

Doctor of Occupational Therapy (OTD)

The Doctor of Occupational Therapy (OTD) Program is an entry-level educational program, which prepares students for careers as occupational therapists.

The Doctor of Occupational Therapy (OTD) Program is a 32 month (8 term) professional course of study requiring 99 credits, including fieldwork education, an experiential preceptorship, and a capstone project.

Admission to the OTD Program is only available on a full-time basis. The OTD Program begins at the end of August (fall term).

The entry-level occupational therapy doctoral degree program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is 301-652-AOTA and its Web address is www.acoteonline.org. Graduates of the OTD Program are eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

PLEASE NOTE: The OTD Program requires students to complete fieldwork education and an experiential preceptorship at facilities external to the University of Pittsburgh. All OTD students are responsible for securing required resources and completing required documents to participate in fieldwork and experiential preceptorship experiences including but not limited to transportation, physical examinations and associated testing (i.e., drug screen, vaccinations), health insurance, liability insurance, background clearances, CPR/AED training, first aid training, education modules, parking, housing, food, and clothing. Additionally, certification and licensure requirements include inquiries as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act, including those associated with alcohol and/or substance abuse.

[Admission Requirements and Application Process](#)

We welcome applicants of all abilities/disabilities, religions, marital statuses, familial statuses, sexes, ages, sexual orientations, veteran statuses, national origins, ancestries, races, colors, genetic information, and gender identities and expressions.

[Prerequisite Courses](#)

Completion of the following prerequisite courses within the past 5 years with a minimum grade of B and a minimum GPA in these prerequisites of 3.00 (based on a 4.00 scale).

- Human Anatomy & Physiology (with a laboratory component), 8 credits
- Lifespan Human Development, 3 credits
- Psychopathology/Abnormal Psychology, 3 credits
- Statistics, 3 credits

Note: AP credits are not accepted as fulfillment of prerequisite courses. S grades are not accepted as fulfillment of prerequisite courses (with the exception of prerequisite courses taken during Spring 2020).

[Additional Requirements](#)

- Completion of a baccalaureate degree: Students are admitted into the Doctor of Occupational Therapy (OTD) Program after successful completion of a baccalaureate degree with a minimum cumulative GPA of 3.0 (based on 4.0).
- Experience in occupational therapy: Complete a minimum of 40 hours of volunteer, paid work or telehealth experience. These experiences should occur in at least two different occupational therapy practice areas (e.g., children and youth/pediatrics, health and wellness, productive aging/geriatrics, rehabilitation, mental health, work/industry, home care). NOTE: Applicants having difficulty obtaining volunteer, paid work or telehealth experience hours may view approved videos to obtain up to 12 experience hours. See OT Video Attestation for the list of approved videos. After viewing the videos, upload the signed attestation form to your OTCAS application.
- Letters of recommendation: Submission of three letters of recommendation (evaluations) attesting to the applicant's academic and professional abilities. Letters of recommendation are submitted through the Occupational Therapy Centralized Application Service (OTCAS).
 - Letter #1 - from an occupational therapist (OTR) who was involved in the applicant's occupational therapy experience hours.
 - Letter #2 - from a college-level instructor who instructed the applicant in one or more classes.
 - Letter #3 - from an individual who can attest to the skills, abilities, and professionalism of the applicant.
- Evidence of graduate level writing skills in response to self-evaluation essay questions. Applicants will submit an essay (personal statement), discussing their strengths, skills, and experiences that will contribute to their success in the OTD Program and their professional goals for becoming an occupational therapist, and submit responses to Pitt-OT essay questions. All essays are submitted through the OTCAS application.
- Attest to satisfactory performance of the technical standards/essential skills required for successful completion of the OTD curriculum. Students admitted to the OTD Program must review the Technical Standards and submit a signed form at the time of matriculation. View more on Technical Standards/Essential Skills.

[Application Procedures](#)

Application Deadline: Applications must be e-submitted in OTCAS no later than February 1 to be considered for admission. Applicants are encouraged to apply by November 1 as the Admissions Committee begins reviewing and offering admission in November/December. The OTCAS application cycle opens in mid-July. Prerequisite courses must be completed by January 1.

All applicants must:

- Apply online using the Occupational Therapy Centralized Application Service (OTCAS). To learn more about the application process and to create your account, please visit the OTCAS portal.
- Submit three letters of recommendation (evaluations).
- Provide evidence of graduate level writing skills in responses to self-evaluation essay questions.
- See below for additional requirements for internationally educated students.

Additional Information

Admission to the OTD Program is only available on a full-time basis. The OTD Program begins in August (Fall Term) of each year. Official transcripts must be sent directly to OTCAS. OTCAS does not accept paper recommendations. Letters of recommendation are submitted electronically through the OTCAS system. Applications are reviewed when all materials, including transcripts and letters of recommendation, have been received and verified by OTCAS. OTCAS uses a verification process that can take several weeks. OTCAS will verify your documents before releasing them to the University of Pittsburgh. Applicants should confirm their status as verified with OTCAS. The Department of Occupational Therapy begins reviewing complete and verified applications and offering admission in November for the program starting the following August.

For questions about the receipt, processing, and verification of your application, please contact OTCAS Customer Service at 617-612-2860, otcasinfo@otcas.org.

International Students

In addition to the above, internationally educated students will be required to provide:

Academic Credential Evaluation:

- Applicants who have completed the equivalent of a baccalaureate degree or higher at an institution outside of the United States are required to provide an official third-party course-by-course evaluation of those academic credentials verifying Grade Point Average (GPA) on a 4.0 scale. The evaluation is an application requirement.
- Upon admission official transcripts of all original language academic records for all post-secondary educational endeavors are required. If original documents are issued in a language other than English, certified English translations must also be submitted. A final transcript or diploma showing completion of the undergraduate degree must be submitted prior to starting all SHRS graduate programs.
- The School of Health and Rehabilitation Sciences (SHRS) requires credential evaluations from one of the companies listed below. Electronic submission is preferred.
 - Educational Credential Evaluators, Inc.
 - World Education Services (WES), Inc.
- International applicants are not required to submit an evaluation for degrees earned in the United States. Applicants who have attended an English Canadian institution should contact the SHRS Admissions Office.

Verification of English Language Proficiency:

- International graduate applicants must possess proficiency in English at a level that enables them to succeed in graduate-level studies. Applications will not be processed until the required test results are submitted, or eligibility for an exemption has been verified. Only original official test scores received directly from test administration agencies are accepted. Electronic submission is preferred. Copies of test results are not acceptable.
- Request official English Language Proficiency test scores be sent to the University of Pittsburgh from one of the following options. Minimum scores accepted and instructions for sending official test scores follow:
 - Duolingo English Test: 110. Scores should be made available electronically to "University of Pittsburgh - School of Health and Rehabilitation Sciences"
 - International English Language Testing System (IELTS): 7. Scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences"
 - Test of English as a Foreign Language (TOEFL): 90. Scores should be submitted electronically through ETS to institution code "2927".

Verification is required unless the following apply:

- The applicant is a citizen of a country whose official language is English.
- The applicant has completed a degree program at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English.

PLEASE NOTE: Applicants who already have a baccalaureate degree in occupational therapy and are interested in obtaining a master's degree should apply to the Master of Science (MS) Program in Occupational Therapy.

Master of Science (MS) in Occupational Therapy

The Master of Science (MS) in Occupational Therapy program is a one-year graduate program housed within the Department of Occupational Therapy. This advanced practice program is designed for those with a baccalaureate degree in occupational therapy. Students begin the MS in Occupational Therapy program in the fall term (August). The MS in Occupational Therapy program requires the completion of 12 core credits of advanced evidence-based rehabilitation coursework. The MS in Occupational Therapy program offers exposure to a wide variety of occupational therapy practice and research. A Comprehensive Examination is required prior to graduation at the end of the last term.

Admission Requirements and Application Process

We welcome applicants of all abilities/disabilities, religions, marital statuses, familial statuses, sexes, ages, sexual orientations, veteran statuses, national origins, ancestries, races, colors, genetic information, and gender identities and expressions.

Qualified applicants for the Master of Science (MS) Program in Occupational Therapy must meet the following admission requirements:

- Bachelor's degree in occupational therapy. For international students, a bachelor's degree or diploma must be from a school/university approved by the World Federation of Occupational Therapists (WFOT) in the year that the applicant graduated and/or national governmental institutions that approve/accredit occupational therapy programs to grant a degree in occupational therapy (e.g., Ministry of Health).
- Minimum cumulative grade point average of 3.00 (based on a 4.00 scale).
- Evidence of graduate level writing skills in a self-evaluation essay that discusses goals, strengths, skills, and experiences that will contribute to success in the program and in the profession. The essay should also include a brief statement discussing interest in the field of study and reasons for applying to the University of Pittsburgh.
- Documented evidence of knowledge of rehabilitation through previous paid work experiences, internships or field experiences, or volunteer work experiences.
- Three letters of recommendation, preferably from individuals who have taught the applicant in an academic setting and/or supervised clinical activities. Letters of recommendation should address academic, professional and personal attributes, and potential for successful graduate education.
- Unofficial transcripts from all U.S. institutions attended.
- A course by course evaluation with GPA conversion for all higher level institutions attended outside the US. The evaluation may be from World Education Services (WES), Inc. or Educational Credential Evaluators, Inc. (ECE).
- Verification of English Language Proficiency is required unless the following apply:
 - the applicant is a citizen of a country whose official language is English
 - the applicant has completed a degree program at a regionally accredited institution in the U.S., or
 - the applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English.
- Interview (personal or virtual) with the MS Program Director and at least one other faculty member from the Department of Occupational Therapy.
- **All admitted students will be required to provide official transcripts to the SHRS Admissions Office prior to enrolling in classes.**

If applicable:

- Request official English Language Proficiency test scores be sent to the University of Pittsburgh from one of the following options. Minimum scores accepted and instructions for sending official test scores follow:
 - Duolingo English Test: 105. Scores should be made available electronically to "University of Pittsburgh - School of Health and Rehabilitation Sciences"
 - International English Language Testing System (IELTS): 6.5. Scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences"
 - Test of English as a Foreign Language (TOEFL): 80. Scores should be submitted electronically through ETS to institution code "2927".
 - Unofficial scores may be provided via GradCAS (in addition to the official scores required).

Your application will be reviewed once it is complete.

Admitted students who are citizens of a country whose official language is not English, and who score below 120 on the Duolingo English Test, below 100 on the TOEFL iBT, or overall band 7.0 or lower on the IELTS, will be required to take an English Language Proficiency Test to better assess their English Language skills when they arrive at the University of Pittsburgh. The results of this exam may be used to recommend (not require) additional English language instruction that may supplement your education. If you have additional questions about the test, please [click here](#).

Application Information

All applicants must:

- Complete the online GradCAS application
- Submit the GradCAS application fee of \$50 (U.S)
- Submit required documents (Admission Requirements) through the GradCAS application portal

[Application Deadlines](#)

Applications are accepted for enrollment beginning in the Fall term only (August). The GradCAS cycle will open for applications beginning in September and the deadline for submitting the application and all materials is May 1.

For information about our program, please contact the Department of Occupational Therapy at OTpitt@shrs.pitt.edu.

[Doctor of Clinical Science \(CScD\) in Occupational Therapy](#)

The Doctor of Clinical Science (CScD) program in Occupational Therapy, delivered 100% online, provides post-professional, doctoral-level training to eligible or already credentialed or licensed occupational therapists to practice clinically with competencies above and beyond those expected of entry-level professionals. The highly personalized curriculum focuses on implementation of evidence, assessment, intervention, evidence-based protocols and guidelines and data-based decision making. Degree-seeking students culminate their matriculation through the program with an eight-credit capstone project. With the support of a faculty mentor, students will individually design and complete a capstone project that demonstrates their advanced knowledge for implementing evidence into practice.

This program also offers an Advanced Practice Certificate in Implementation of Evidence in Clinical Practice, which is earned upon completion of the CScD in Occupational Therapy degree or can be earned on a standalone basis.

[Admission Requirements and Application Process](#)

We welcome applicants of all abilities/disabilities, religions, marital statuses, familial statuses, sexes, ages, sexual orientations, veteran statuses, national origins, ancestries, races, colors, genetic information, and gender identities and expressions. The CScD in Occupational Therapy advanced-practice program is designed for occupational therapists who are seeking advanced knowledge and skills. There are no prerequisite courses for the degree or Advanced Practice Certificate, however, degree-seeking applicants must have an entry-level master's degree in occupational therapy (e.g., MOT) from a program accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) or a baccalaureate degree in occupational therapy from an ACOTE-accredited program and a master's degree in occupational therapy or another field of study. Applicants who received their occupational therapy training outside of the United States must have completed their occupational therapy training from a World Federation of Occupational Therapy (WFOT)-approved program and meet all necessary requirements for admission to the University of Pittsburgh. U.S. applicants are required to have initial NBCOT certification (or eligibility). International applicants must provide equivalent certification documentation from country of residence.

Please note that the GRE is not required for admission to the program.

[Occupational Therapists with Baccalaureate Degrees](#)

Occupational therapists with a baccalaureate degree in occupational therapy, and no additional graduate degrees, should apply to the Master of Science (MS) in Occupational Therapy program.

[Occupational Therapists with Master's Degrees](#)

Occupational therapists with 1) an entry-level master's degree in occupational therapy, or 2) a baccalaureate degree in occupational therapy and an advanced master's degree in occupational therapy (or another field) may be able to transfer up to 30 credits from their master's degree, providing that these credits meet requirements in the CScD in Occupational Therapy curriculum.

[Application Information](#)

All Applicants

To apply to the online CScD in Occupational Therapy program, you must complete and submit the following:

- Online application
- Resume
- Official transcripts
- National certification in occupational therapy (NBCOT) or eligibility; equivalent documentation from country of residence for international applicants
- Minimum cumulative graduate GPA of 3.00 on a 4.00 point scale
- Evidence of graduate level writing skills in an essay that outlines: 1) why you are interested in pursuing the Doctor of Clinical Science in Occupational Therapy degree or Certificate in Implementation, 2) why you are interested in advancing your education through the University of Pittsburgh, 3) what makes you a good fit for an advanced training education program that is delivered online and 4) the future professional goals that you hope to achieve as a result of this advanced training*
- Two professional letters of recommendation that attest to your professional abilities and conduct, collegiality, oral and written communication skills and leadership*
- A virtual interview with the CScD in Occupational Therapy program director*

- An application fee of \$50 (waived if application is submitted by priority deadline)

*Note: the personal essay, professional letters of recommendation and virtual interview are NOT required for Advanced Practice Certificate ONLY applicants.

Additional Requirements for International Applicants

- Academic Credential Evaluation
- Verification of English Language Proficiency

[Application Deadlines](#)

Applications are accepted on a rolling basis for students intending to start the program in August of the same calendar year or January of the following calendar year.

[For More Information](#)

Contact the Department of Occupational Therapy at OTpitt@shrs.pitt.edu.

Doctoral

Doctor of Clinical Science (CScD) in Occupational Therapy

Program Requirements

The Doctor of Clinical Science (CScD) program in Occupational Therapy is offered 100% online on a part-time basis and requires completion of 72 credits. Students with an entry-level master's degree in occupational therapy or a baccalaureate degree in occupational therapy and an advanced level master's degree in occupational therapy or another field may be eligible to transfer up to 30 credits from their master's degree, leaving a remaining 42 credits. With a transfer of 30 credits, students will be able to complete the program in as little as 7 terms or 28 months.

This program also offers an Advanced Practice Certificate in Implementation of Evidence in Clinical Practice, which is earned upon completion of the CScD in Occupational Therapy degree or can be earned on a standalone basis.

Curriculum and Course Descriptions

The program requires the completion of 72 credits (up to 30 credits may be transferred from a master's degree, potentially leaving a remaining 42 credits in the CScD in Occupational Therapy program). Each student will be paired with a faculty mentor who will oversee the development, implementation and grading of Preliminary and Comprehensive Examinations necessary to complete the program. Required courses are held in the fall, spring and summer terms.

[Preliminary Examination](#)

The preliminary examination is a requirement for doctoral studies at the University of Pittsburgh and is intended to assess the breadth of the student's knowledge of the discipline, the student's achievement following the first year of graduate study, and the potential to apply knowledge appropriately. In the CScD in Occupational Therapy program, the preliminary examination is a writing assignment in response to a writing prompt created by a preliminary examination committee composed of occupational therapy graduate faculty. Questions may address assessment concepts, intervention/education concepts, and/or implementation of evidence. The preliminary examination is typically administered following the student's first year of study and is graded by the preliminary examination committee. Students must successfully pass the preliminary examination at least six months before they graduate.

[Capstone Doctoral Committee](#)

Each student will be supervised by a doctoral committee that will be formed before or at the successful completion of the preliminary examination. The doctoral committee will be comprised of three to four members with the chair of this committee being the student's faculty mentor and at least one of the other members being faculty appointed in the Department of Occupational Therapy. Additional members will be determined

collaboratively by the student and mentor and can include external stakeholders. This committee will oversee the development, implementation and grading of the capstone project.

[Comprehensive Examination](#)

The capstone project serves as the basis of the comprehensive examination and will be developed and implemented in collaboration with the doctoral committee. The comprehensive examination includes a written paper and a presentation of the capstone project, both of which are graded by the student's doctoral committee. Students must successfully pass both the written and oral components of the comprehensive examination to complete the CScD in Occupational Therapy program. Students must be registered for at least one course credit during the semester in which they will graduate from the CScD in Occupational Therapy program.

Plan of Study

[CScD in Occupational Therapy Degree Courses](#)

All students will take the following courses:

- OT 3000 - ADVANCED ASSESSMENT
- OT 3010 - EVIDENCE INTERPRETATION FOR IMPLEMENTATION *
- OT 3020 - FOUNDATIONS IN IMPLEMENTATION *
- OT 3030 - THE BUSINESS OF IMPLEMENTATION *
- OT 3040 - ADVOCACY FOR IMPLEMENTATION *
- OT 3100 - EVIDENCE ANALYSIS AND SYNTHESIS
- OT 3200 - EVIDENCE-BASED PROTOCOLS AND PRACTICE GUIDELINES
- OT 3300 - CONCEPTUALIZING AND ASSESSING QUALITY IMPROVEMENT
- OT 3400 - THEORIES OF CHANGE
- OT 3500 - IMPLEMENTATION EVIDENCE

Following completion of the 34 credits of online courses, CScD in Occupational Therapy students will culminate their matriculation through the program with an eight-credit capstone project. With the support of a faculty mentor, students will individually design and complete a capstone project that demonstrates their advanced knowledge for implementing evidence into practice.

- OT 3600 - CAPSTONE PHASE 1
- OT 3700 - CAPSTONE PHASE 2

*Required courses for the Advanced Practice Certificate in Implementation of Evidence in Clinical Practice.

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the CScD in Occupational Therapy program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the policies and procedures in the SHRS Graduate Student Handbook and the CScD in Occupational Therapy Student Manual.

Doctor of Occupational Therapy (OTD)

Program Requirements

The OTD program is a 32 month (8 term) professional course of study requiring 99 credits, including fieldwork education, an experiential preceptorship, and a capstone project. Students in the OTD program must successfully complete all didactic coursework, Level II fieldwork, and pass a competency examination prior to the commencement of the experiential preceptorship. Students must complete Level II fieldwork and the experiential preceptorship within 24 months following completion of the didactic portion of the program.

Curriculum and Course Descriptions

Plan of Study

Year 1 - Fall Term - 15 Credits

- OT 2200 - FOUNDATIONS OF OCCUPATION
- OT 2201 - BODY FUNCTIONS AND STRUCTURES: ANATOMY **
- OT 2202 - THERAPEUTIC APPROACHES 1 **
- OT 2203 - CLINICAL SEMINAR 1
- OT 2207 - PRINCIPLES OF ASSESSMENT **
- OT 2208 - CRITICAL APPRAISAL OF EVIDENCE
- OT 2234 - HUMAN PERFORMANCE ANALYSIS **

Year 1 - Spring Term - 15 Credits

- OT 2205 - NEUROBEHAVIORIAL SCIENCE **
- OT 2209 - CLINICAL SEMINAR 2
- OT 2210 - PSYCHOSOCIAL/COGNITIVE THEORY AND PRACTICE **
- OT 2213 - OCCUPATIONAL THERAPY AND THE HEALTH SYSTEM
- OT 2214 - THERAPEUTIC APPROACHES 2 **
- OT 2215 - FIELDWORK EDUCATION A (FW I)**
- OT 2235 - CLINICAL CONDITIONS 1
- OT 2236 - ACTIVITY/CONTEXT THEORY AND PRACTICE

Year 1 - Summer Term - 11 Credits

- OT 2216 - CLINICAL SEMINAR 3
- OT 2217 - NEUROREHABILITATION THEORY AND PRACTICE **
- OT 2218 - BIOMECHANICAL THEORY AND PRACTICE **
- OT 2219 - FIELDWORK EDUCATION B (FW I)**
- OT 2237 - CLINICAL CONDITIONS 2
- OT 2238 - ADAPTATION/TECHNOLOGY THEORY AND PRACTICE

Year 2 - Fall Term - 13 Credits

- OT 2220 - CLINICAL SEMINAR 4
- OT 2221 - DEVELOPMENTAL THEORY AND PRACTICE **
- OT 2222 - PRODUCTIVE AGING THEORY AND PRACTICE **
- OT 2224 - MANAGEMENT OF OCCUPATIONAL THERAPY PRACTICE
- OT 2226 - FIELDWORK EDUCATION C (FW I)**
- OT 2239 - PROJECT DEVELOPMENT 1
- OT 2244 - CLINICAL CONDITIONS 3

Year 2 - Spring Term - 13 Credits

- OT 2228 - FIELDWORK EDUCATION D (FW II)**
- OT 2229 - FIELDWORK EDUCATION E (FW II)**

Year 2 - Summer Term - 7 Credits

- OT 2229 - FIELDWORK EDUCATION E (FW II)**

Year 3 - Fall Term - 12 Credits

- OT 3206 - ADVANCED THEORY AND PRACTICE **

- OT 3207 - PROJECT DEVELOPMENT 2
- OT 3210 - ADVANCED CONCEPTS IN PROFESSIONAL AND CLINICAL REASONING
- OT 3211 - ADVANCED CONCEPTS IN HEALTH POLICY AND ADVOCACY
- OT 3212 - LEADERSHIP DEVELOPMENT

Year 3 - Spring Term - 13 Credits

- OT 3208 - EXPERIENTIAL PRECEPTORSHIP **
- OT 3213 - PROFESSIONAL DEVELOPMENT SEMINAR

**Course includes laboratory, fieldwork, or experiential component.

PLEASE NOTE: The OTD program requires students to complete fieldwork education and an experiential preceptorship at facilities external to the University of Pittsburgh. All OTD students are responsible for securing required resources and completing required documents to participate in fieldwork education and the Experiential Preceptorship experiences including but not limited to transportation, physical examinations and associated testing (i.e., drug screen, vaccinations), health insurance, liability insurance, background clearances, CPR/AED training, first aid training, education modules, parking, housing, food, and clothing. Additionally, certification and licensure requirements include inquiries as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act, including those associated with alcohol and/or substance abuse. Note that a felony conviction may affect a graduate's ability to sit for the certification examination or attain state licensure.

Fieldwork Education and Experiential Preceptorship

Fieldwork education and the Experiential Preceptorship are essential components of professional doctoral preparation and are integrated in the curriculum design. They are an extension of the OTD program within the clinical/community setting. Fieldwork experiences provide the OTD student with the opportunity to learn professional responsibilities through modeling by qualified and experienced personnel and to practice these responsibilities in a supervised setting. The Experiential Preceptorship provides an in-depth professional experience and the completion of a capstone program and culminating (capstone) project. Fieldwork education and the Experiential Preceptorship are only conducted in sites that have a signed agreement (Memorandum of Understanding) with the School of Health and Rehabilitation Sciences. This agreement formally identifies the responsibilities of the University and the site.

Fieldwork education includes Level I and Level II experiences. Level I fieldwork is integrated with coursework during Term 2 (OT 2215 - Fieldwork Education A), Term 3 (OT 2219 - Fieldwork Education B), and Term 4 (OT 2226 - Fieldwork Education C). Level I fieldwork is designed to enrich didactic coursework through direct observation and participation. Level I fieldwork is supervised by qualified personnel (e.g., currently licensed or otherwise regulated occupational therapy practitioners, psychologists, physician assistants, teachers, social workers, nurses, and other health or education professionals). OTD students are assigned to Level I fieldwork sites in the Greater Pittsburgh Area by the Academic Fieldwork Coordinator in collaboration with the occupational therapy faculty. The qualifications of individuals supervising students during Level I fieldwork are reviewed by the Academic Fieldwork Coordinator to ensure that a meaningful learning experience can be provided.

Level II fieldwork is completed in Terms 5 and 6 (OT 2228 - Fieldwork Education D; OT 2229 - Fieldwork Education E). Level II fieldwork is distinct from Level I fieldwork. Students must successfully complete Level I fieldwork experiences prior to enrolling in Level II fieldwork. Level II fieldwork is an in-depth experience in delivering occupational therapy services to clients in traditional and/or emerging settings consistent with our OTD program's curriculum design. Each OTD student is assigned to specific Level II fieldwork sites to ensure exposure to a variety of clients across the life span and to a variety of settings. Students can complete Level II fieldwork in a minimum of one setting if it is reflective of more than one practice area, or in a maximum of four different settings. The OTD program only uses sites within the United States that allow for supervision by an occupational therapist who meets state regulations and has a minimum of one year of practice experience, following initial certification. Level II fieldwork is a minimum of the equivalent of 24 full-time work weeks. Level II fieldwork may be completed on a part-time basis as long as it is at least 50% of a full-time equivalent at the site. The OTD student is assigned to a Level II fieldwork site by the Academic Fieldwork Coordinator and the student signs the Level II Fieldwork Acknowledgment Agreement. The performance of a student who does not successfully complete Level II fieldwork is critically reviewed by the Academic Fieldwork Coordinator and occupational therapy faculty. Satisfactory completion of targeted interventions by the student may be required prior to enrolling in a subsequent Level II fieldwork. The faculty reserves the right to place a student at a site in the Greater Pittsburgh Area based on the student's academic performance and/or professional behavior.

After successful completion of Level II fieldwork (OT 2228; OT 2229), the OTD student engages in didactic coursework and training of advanced skills beyond the generalist level of an occupational therapist. OTD students enroll in OT 3208-Experiential Preceptorship (doctoral experiential component) (Term 8) after they have successfully completed all didactic coursework, Level I and Level II fieldworks, and a competency

requirement. The Experiential Preceptorship (OT 3208) is a 14-week (560 hour) in-depth experience in clinical practice skills, research skills, administration, leadership, program and policy development, advocacy, and/or education and includes the completion of a culminating (capstone) project. The focus of the Experiential Preceptorship is on the development of skills for increased autonomy as a contributor to advancing occupational therapy practice. The Experiential Preceptorship is completed in a novel practice setting or a traditional setting with a novel program, and has a connection with community issues and needs. Students are assigned a faculty mentor who oversees their Experiential Preceptorship, including the development of individual learning objectives and plans for supervision. The Experiential Preceptorship is distinct from Level I and Level II fieldwork and is the final step in the preparation of the OTD student for entry-level practice. These learning experiences (Fieldwork education and Experiential Preceptorship) prepare the OTD student to assume the roles of practitioner, manager, and contributor upon graduation from the OTD program. Prior fieldwork, volunteer, and/or work experience hours cannot be applied towards the Experiential Preceptorship hours, and a student's current work setting cannot serve as a site for their Experiential Preceptorship. The Experiential Preceptorship may be completed on a part-time basis.

The doctoral capstone is a multi-faceted investigative assignment that students begin associated coursework for in Term 1. It is designed to encourage students to think critically, solve challenging problems, collaborate with professionals, and develop advanced skills in communication, research, teamwork, planning, leadership, self-reliance, professionalism, and advocacy - skills that will prepare them to respond positively and confidently to the many opportunities and challenges in today's evolving and increasingly complex practice settings. Although, the learning objectives for the Experiential Preceptorship and capstone program and culminating project address all three roles of the occupational therapist - practitioner, manager, and contributor - the focus is on the development of skills for increased autonomy as a contributor to advancing occupational therapy practice.

Level II fieldwork (OT 2228; OT 2229) and the Experiential Preceptorship (OT 3208) must be completed within 24 months following completion of the didactic portions of the OTD program (Term 4).

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the OTD program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the policies and procedures in the SHRS Graduate Student Handbook and the OTD Student Manual.

Graduate Certificate

Advanced Practice Certificate in Implementation of Evidence in Clinical Practice

Certificate Requirements

The Advanced Practice Certificate in Implementation of Evidence in Clinical Practice is offered 100% online on a part-time basis and requires completion of 12 credits. Students with an entry-level doctoral degree in occupational therapy, a post-professional doctoral degree in occupational therapy, a master's degree in occupational therapy or a baccalaureate degree in occupational therapy and an advanced level master's degree in occupational therapy or another field are eligible to apply. View admission requirements here. Students who complete the Advanced Practice Certificate may choose to apply and transition into the Doctor of Clinical Science (CScD) in Occupational Therapy degree program and the 12 certificate credits will be applied toward the degree.

Curriculum and Course Descriptions

The Advanced Practice Certificate in Implementation of Evidence in Clinical Practice requires completion the following four 3-credit courses:

- OT 3010 - EVIDENCE INTERPRETATION FOR IMPLEMENTATION
- OT 3020 - FOUNDATIONS IN IMPLEMENTATION
- OT 3030 - THE BUSINESS OF IMPLEMENTATION
- OT 3040 - ADVOCACY FOR IMPLEMENTATION

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the CScD in Occupational Therapy program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the policies and procedures in the SHRS Graduate Student Handbook and the CScD in Occupational Therapy Student Manual.

Master's

Master of Science (MS) in Occupational Therapy

Program Requirements

The Master of Science (MS) in Occupational Therapy program begins in the fall term (August). The MS in Occupational Therapy program requires the completion of 12 core credits of advanced evidence-based rehabilitation coursework. The MS in Occupational Therapy program offers exposure to a wide variety of occupational therapy practice and research. The MS in Occupational Therapy program is 30 credits/2 terms (Fall and Spring). Additionally, the MS in Occupational Therapy program also offers a Research with Scholarly Project (ARCO) plan of study, which provides an opportunity to complete a scholarly project under the guidance of a faculty mentor. The Research with Scholarly Project (ARCO) is 30 credits/3 terms (Fall, Spring, and Summer). A Comprehensive Examination, which is different from the scholarly project, is required prior to graduation at the end of the last term.

Curriculum and Course Descriptions

Plan of Study: Clinical (30 credits / 2 terms)

Term 1 - Fall Term - 15 Credits

- OT 2207 - PRINCIPLES OF ASSESSMENT
- OT 2221 - DEVELOPMENTAL THEORY AND PRACTICE **OR** OT 2222 - PRODUCTIVE AGING THEORY AND PRACTICE
- OT 2224 - MANAGEMENT OF OCCUPATIONAL THERAPY PRACTICE
- OT 2241 - CLINICAL PRECEPTORSHIP 1
- OT 3206 - ADVANCED THEORY AND PRACTICE
- OT 3010 - EVIDENCE INTERPRETATION FOR IMPLEMENTATION

Term 2 - Spring Term - 15 Credits

- OT 2210 - PSYCHOSOCIAL/COGNITIVE THEORY AND PRACTICE
- OT 2213 - OCCUPATIONAL THERAPY AND THE HEALTH SYSTEM
- OT 2242 - CLINICAL PRECEPTORSHIP 2
- OT 2248 - PROFESSIONAL REASONING IN OCCUPATIONAL THERAPY
- OT 2249 - SPECIAL TOPICS IN OCCUPATIONAL THERAPY: CLINICAL
- OT 3200 - EVIDENCE-BASED PROTOCOLS AND PRACTICE GUIDELINES

Plan of Study: Research (30 credits / 2 terms)

Term 1 - Fall Term - 15 Credits

- HRS 2927 - STATISTICAL METHODS FOR HEALTH SCIENCE RESEARCH 1
- OT 3010 - EVIDENCE INTERPRETATION FOR IMPLEMENTATION
- OT 3206 - ADVANCED THEORY AND PRACTICE
- OT 2221 - DEVELOPMENTAL THEORY AND PRACTICE **OR** OT 2222 - PRODUCTIVE AGING THEORY AND PRACTICE
- OT 2246 - RESEARCH PRECEPTORSHIP 1
- OT 2245 - SPECIAL TOPICS IN OCCUPATIONAL THERAPY: RESEARCH

Term 2 - Spring Term - 15 Credits

- OT 2210 - PSYCHOSOCIAL/COGNITIVE THEORY AND PRACTICE

- OT 2213 - OCCUPATIONAL THERAPY AND THE HEALTH SYSTEM
- OT 2247 - RESEARCH PRECEPTORSHIP 2
- OT 3100 - EVIDENCE ANALYSIS AND SYNTHESIS
- OT 3200 - EVIDENCE-BASED PROTOCOLS AND PRACTICE GUIDELINES

Plan of Study: Research with Scholarly Project (ARCO) - (30 credits / 3 terms)

Term 1 - Fall Term - 12 Credits

- HRS 2927 - STATISTICAL METHODS FOR HEALTH SCIENCE RESEARCH 1
- OT 2221 - DEVELOPMENTAL THEORY AND PRACTICE **OR** OT 2222 - PRODUCTIVE AGING THEORY AND PRACTICE **OR** OT 3206 - ADVANCED THEORY AND PRACTICE
- OT 2245 - SPECIAL TOPICS IN OCCUPATIONAL THERAPY: RESEARCH
- OT 2246 - RESEARCH PRECEPTORSHIP 1
- OT 3010 - EVIDENCE INTERPRETATION FOR IMPLEMENTATION

Term 2 - Spring Term - 15 credits

- OT 2210 - PSYCHOSOCIAL/COGNITIVE THEORY AND PRACTICE
- OT 2213 - OCCUPATIONAL THERAPY AND THE HEALTH SYSTEM
- OT 2251 - SCHOLARLY PROJECT
- OT 3100 - EVIDENCE ANALYSIS AND SYNTHESIS
- OT 3200 - EVIDENCE-BASED PROTOCOLS AND PRACTICE GUIDELINES

Term 3 - Summer Term - 3 Credits

OT 2251 - SCHOLARLY PROJECT

Preceptorship

The MS in Occupational Therapy program offers clinical and research preceptorships.

Clinical preceptorship provides a structured exposure to the U.S. health care system. Students are exposed to occupational therapy practice in various health care settings (e.g., acute and inpatient rehabilitation hospitals, outpatient clinics) under the supervision of a licensed occupational therapist.

Research preceptorships provide exposure to clinical research in the field of occupational therapy. Students are exposed to occupational therapy research in a variety of areas (e.g., pediatrics, neurology, geriatrics, health systems).

For all preceptorship experiences, in addition to the site mentor, students are assigned a faculty mentor who guides them through the preceptorship. The student and faculty mentor meet prior to the start of the preceptorship to discuss goals for the preceptorship, a plan of action for achieving the goals, and the evaluation process. The student and faculty mentor meet throughout the preceptorship to discuss the student's progress. Students find the preceptorships to be rewarding experiences that advance their clinical or research skills and career development.

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the MS in Occupational Therapy program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the policies and procedures in the SHRS Graduate Student Handbook and the MS in Occupational Therapy Student Manual.

Department of Physical Therapy

The Department of Physical Therapy offers three academic programs of study:

- DPT program leading to the DPT degree
- Joint DPT/PhD program leading to a DPT degree and a PhD in Bioengineering

- M.S. in Health & Rehabilitation Sciences with a concentration in neuromuscular or musculoskeletal physical therapy

Doctoral

Physical Therapy, DPT - Hybrid Program

Doctor of Physical Therapy (DPT) Degree (Hybrid Option)

The Doctor of Physical Therapy (DPT) program is the entry-level educational program which prepares students for a career as a physical therapist in the United States. Upon successful completion of the curriculum, graduates of the program are eligible for the licensure examination (NPTE), which is required to practice as a practicing physical therapist. The goal of the DPT curriculum is to prepare students to become self-directed, self-accountable physical therapists who can function in a cost-effective manner in all settings, and with persons of all ages. Graduates of the program will be prepared to enhance human movement and function through the use of evidence-based practice principles. Graduates of the Doctor of Physical Therapy program will have a foundation on which to base further knowledge and skills in specialty areas and to contribute to development of the art and science of physical therapy. Students should note that the requirements for professional licensure could vary drastically by state as well as by country. Because such requirements can change frequently and often without notice, it is strongly encouraged, and is the responsibility of the student, to ensure the degree they earn will meet the requirements for licensure in the state or country in which they seek licensure.

Fax: 412-648-5970
E-mail: ptinfo@shrs.pitt.edu
<https://www.shrs.pitt.edu/dpt>

Application Process

Admission to the Doctor of Physical Therapy program is only available on a full-time basis. The DPT program begins each year with the start of the Fall Term. All applicants must apply to the program through the PT Centralized Application Service (PTCAS). This information is located on the Department website. Within the PTCAS application, applicants will be required to select the specific program (Residential / Hybrid / Either) for which they wish to be considered for admission.

Admissions Requirements

Admission requirements and procedures listed below are for the DPT Residential and Hybrid program formats. Applicants, Residential and Hybrid, will select the University of Pittsburgh Doctor of Physical Therapy program in the PTCAS application portal. In the portal, applicants will be asked to select the specific program format (Residential or Hybrid) to which they wish to apply.

Applicants who are interested in the dual degree Doctor of Physical Therapy/PhD in Bioengineering program must apply directly to that program in the PTCAS application portal. NOTE: There is a specific designation for the Pitt DPT/PhD dual degree program and at this time, the dual degree DPT/PhD program is only available to students participating in the DPT Residential option.

- A bachelor's degree from an accredited institution
Undergraduate degrees MUST be conferred and final transcripts received two months (July) prior to the start of the program
- Minimum GPA of 3.0 (based on a 4.0 scale)
- Minimum of three letters of recommendation

- One letter **MUST** be from academic reference - a professor/instructor from a course(s) for which the applicant was enrolled. The academic course must either be a pre-requisite for the DPT program OR a course associated with student's major area of study. The letter should include insights regarding the applicant's potential for successful navigation through a graduate-level professional degree program and provide specific examples of observed characteristics that support such insights.
 - The additional two letters of recommendation may be completed by any of the following: physical therapist, professor/instructor, academic advisor, minister, employer/supervisor, life coach/mentor, research faculty, internship supervisor/faculty, or athletic coach. While it is preferred that the letters of recommendation be completed by individuals from a variety of settings, it is permissible to submit 2 letters from a similar source (i.e. two different physical therapists, or two different employers/supervisors, two different professors, etc...).
- Demonstrated evidence of adequate exposure to the field of physical therapy and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a physical therapy setting; there is no minimum number of hours required, however 150 hours are **recommended**. It is preferable for applicants to show evidence of the willingness to work with a variety of patients in different physical therapy settings.
 - Complete PTCAS Application
 - Application Fee
 - PTCAS Personal Statement
 - University of Pittsburgh Essay Question (Included in PTCAS Application)
 - Official transcripts from every U.S. college and university attended
 - **Optional** GRE scores completed in the last five years can be submitted to institution code 7754
 - Please note that many clinical sites will require a Child Abuse clearance (Act 33), Criminal Background check (Act 34), and a drug screen prior to participation in a clinical education experience. **If you do not** have a clean background check for either Act 33/34 clearance, or a clean drug screen you may not be able to participate in Clinical Education and therefore will not be able to meet the DPT requirements for graduation.

If applicable:

- Enter all international (non-United States/foreign) institutions you have attended on your PTCAS application. Order a WES ICAP Course-by-Course evaluation from World Education Services (WES) through the PTCAS application.
- Verification of English Language Proficiency is required unless the following apply:
 - the applicant is a citizen of a country whose official language is English
 - the applicant has completed a degree program at a regionally accredited institution in the U.S., or
 - the applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English.
- If required, provide Test of English as a Foreign Language (TOEFL) scores in your PTCAS application, and request an official TOEFL scores report be sent to TOEFL code "5312" by the application deadline.

The Department faculty have outlined the Technical Standards deemed essential for successful completion of the DPT curriculum. Students admitted to the DPT program must review the Technical Standards and submit a signed form indicating that they meet the Technical Standards at the time of matriculation into the program.

Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act and if you have a criminal record you **may** not be able to become licensed to practice as a physical therapist after graduation. Should you have concerns regarding your eligibility, we recommend you contact your state licensing board for further clarification.

Prerequisite Coursework (minimum credit hours listed is based on a semester system equivalent)

- Chemistry I and II sequence with labs, 8 credit hours.
- Physics I and II sequence with labs, 8 credit hours.
- Biology I and II sequence with labs, 8 credit hours.
- Anatomy (human, vertebrate, comparative or anatomical kinesiology), 3 credit hours.
- Physiology (human physiology preferred), 3 credit hours.
*A two course sequence of anatomy/physiology may meet the anatomy and physiology requirements as long as there is a total of 6 credit hours.
- **Science courses must be for science majors or pre-med majors. Introductory or remedial courses are not accepted as prerequisites.
- Two courses in Psychology that should include a general psychology course and a specialized psychology course such as developmental psychology, abnormal psychology, psychology of disability, sports psychology - 6 credit hours.
- Statistics, 3 credit hours.

- English Writing (English composition or an upper-division writing course), 3 credit hours.

While not required, faculty have found taking an undergraduate course in Exercise Physiology benefits students during their first term in the DPT program. At the time of application no more than 4 courses can be outstanding or in progress. Any offer of admission will be contingent upon the successful completion of any remaining prerequisites by July 1 prior to the start of the DPT Program. Academic performance on outstanding coursework should not deviate from the performance reflected in the application materials. While not required, it is preferable that courses be completed within the past 5 years.

Academic Standards

In addition to the University-wide academic rules and regulations as detailed in the *General Academic Regulations* section of this catalog, the DPT program is regulated by the *SHRS Academic Standards*.

Statute of Limitations

All requirements of the DPT must be completed within three years. Extension of the statute of limitations may be granted if there are extenuating circumstances. Such requests, listing reasons for the extension and the amount of additional time needed, must be approved by the department chair.

Comprehensive Examinations

Students in the DPT program are required to pass a written comprehensive examination before the Doctor of Physical Therapy degree can be awarded. The written comprehensive examination is a cumulative examination covering the core clinical sciences and focusing on physical therapy practice.

Community Engagement & IPE Requirement

Prior to graduation, students in the DPT Program are required to engage in at least 3 Community Engagement activities, 3 Interprofessional Education experiences, and 2 "self-selected" activities in either of these categories - totaling 8 unique activities across the 7-term program. More information about this requirement can be found in the Student Handbook.

Degree Requirements

The Doctor of Physical Therapy program is a 2.3 year (7 semester*) professional course of study including clinical internships.

**From an Academic Proposal approved in May 2021, the terms were reduced from 8 to 7. This change is effective beginning Fall 2021.*

DPT Curriculum

Our rigorous curriculum is built around 4 key areas: basic science, clinical science, leadership & professional development, and critical inquiry. The DPT plan of study integrates the basic sciences and clinical practice, emphasizes evidence based practice and includes a comprehensive array of course offerings in musculoskeletal, neuromuscular, integumentary, cardiopulmonary, geriatric, and pediatric physical therapy, as well as course content related to leadership & professional development.

We want to make sure our graduates are well prepared to enter the workforce so we complement our didactic education program with a clinical program that includes 42 weeks of full-time clinical internships. The curriculum is designed to emphasize early and intensive integration of our students into the clinical environment throughout their educational program. Our students begin their clinical affiliations during the 2nd semester in the program and conclude with two 15-week terminal clinical education experiences.

Physical Therapy, DPT - Residential Program

Doctor of Physical Therapy (DPT) Degree

The Doctor of Physical Therapy (DPT) program is the entry-level educational program which prepares students for a career as a physical therapist in the United States. Upon successful completion of the curriculum, graduates of the program are eligible for the licensure examination (NPTE), which is required to practice as a practicing physical therapist. The goal of the DPT curriculum is to prepare students to become self-directed, self-accountable physical therapists who can function in a cost-effective manner in all settings, and with persons of all ages. Graduates of the program will be prepared to enhance human movement and function through the use of evidence-based practice principles. Graduates of the Doctor of Physical Therapy program will have a foundation on which to base further knowledge and skills in specialty areas and to contribute to development of the art and science of physical therapy. Students should note that the requirements for professional licensure could vary drastically by state as well as by country. Because such requirements can change frequently and often without notice, it is strongly encouraged, and is the responsibility of the student, to ensure the degree they earn will meet the requirements for licensure in the state or country in which they seek licensure.

Prior to graduation, students in the DPT Program are required to engage in at least 3 Community Engagement activities, 3 Interprofessional Education experiences, and 2 "self-selected" activities in either of these categories - totaling 8 unique activities across the 7-term program. More information about this requirement can be found in the Student Handbook.

Degree Requirements

The Doctor of Physical Therapy program is a 2.3 year (7 semester*) professional course of study including clinical internships.

**From an Academic Proposal approved in May 2021, the terms were reduced from 8 to 7. This change is effective beginning Fall 2021.*

DPT Curriculum

Our rigorous curriculum is built around 4 key areas: basic science, clinical science, leadership & professional development, and critical inquiry. The DPT plan of study integrates the basic sciences and clinical practice, emphasizes evidence based practice and includes a comprehensive array of course offerings in musculoskeletal, neuromuscular, integumentary, cardiopulmonary, geriatric, and pediatric physical therapy, as well as course content related to leadership & professional development.

We want to make sure our graduates are well prepared to enter the workforce so we complement our didactic education program with a clinical program that includes 42 weeks of full-time clinical internships. The curriculum is designed to emphasize early and intensive integration of our students into the clinical environment throughout their educational program. Our students begin their clinical affiliations during the 2nd semester in the program and conclude with two consecutive 15-week termal clinical education experiences.

Joint Degree

Physical Therapy/Bioengineering, DPT/PhD

Program Overview

The Doctor of Physical Therapy (DPT) - PhD in Bioengineering program combines the entry-level DPT leading to licensure as a physical therapist, with a PhD in Bioengineering that will prepare the student to become an independent researcher. The program will integrate clinical and research

experiences, with students receiving mentorship from faculty in the departments of Physical Therapy and Bioengineering. Students should have a Bachelor's degree or higher in engineering or engineering-related discipline, with a strong interest in physical therapy.

Contact Information

Patrick Sparto, PhD, PT
Co-Director, DPT-PhD Program
Department of Physical Therapy
Bridgeside Point 1, Suite 210
Pittsburgh, PA 15219-3130
Phone: 412-383-6732
E-mail: psparto@pitt.edu

Application Process

Applications will need to be submitted through the PT Centralized Application Service (PTCAS) by December 1 for admission to the program the following August. The application is reviewed by faculty in both departments.

Admission Requirements

Students will need to meet the admission requirements of both programs. Applicants must have a minimum of a Bachelor's degree in a field of engineering or closely related (e.g. physics, or applied mathematics, kinesiology). Applicants must demonstrate evidence of exposure to the field of Physical Therapy (PT) through volunteer or work experience. Applicants must submit 3 letters of reference: one physical therapist with whom the student has volunteered or worked for, one academic advisors, and one research supervisor. A minimum GPA of 3.0 is required but competitive applicants typically have a 3.5 GPA or greater. Reporting of GRE scores is optional; typically, admitted students have GRE scores greater than the 50th percentile.

Prerequisite Coursework (minimum credit hours listed is based on a semester system equivalent)

- Chemistry I and II sequence with labs - 8 credit hours
- Physics I and II sequence with labs - 8 credit hours
- Biology I and II sequence with labs - 8 credit hours
- *Anatomy (human, vertebrate, comparative or anatomical kinesiology) - 3 credit hours
- *Physiology (human physiology preferred) - 3 credit hours
- Exercise Physiology - 3 credit hours
- Two courses in Psychology: should include a general psychology course and a specialized psychology course such as: developmental psychology, abnormal psychology, psychology of disability, sports psychology - 6 credit hours
- Statistics - 3 credit hours
- English Writing (English composition or an upper-division writing course) - 3 credit hours
- **Engineering Statics - 3 credit hours
- **Advanced Mathematics (e.g. calculus) - 3 credit hours

*A two-course sequence of anatomy/physiology may meet the anatomy and physiology requirements as long as there is a total of 6 credit hours.

**Enrollment in PhD part of the program can be deferred until courses are completed.

Academic Standards

In addition to the University-wide academic rules and regulations as detailed in the *General Academic Regulations* section of this bulletin, the DPT program is regulated by the *SHRS Academic Standards*.

Curriculum Overview

Students will follow the typical plan of study for DPT residential students for the initial seven terms (i.e., 2.3 years) of the program. Then students will follow the plan of study for PhD students in Bioengineering. Clinical internships and research experiences will be performed throughout the program. At a minimum, the program will take 6 years to complete. After completing the didactic and clinical requirements of the DPT program, the student will be allowed to take the licensing exam. Students are required to write and orally defend a dissertation to complete their PhD degree.

DPT Curriculum

Our rigorous curriculum is built around 4 key areas: basic science, clinical science, leadership & professional development, and critical inquiry. The DPT plan of study integrates the basic sciences and clinical practice, emphasizes evidence based practice and includes a comprehensive array of course offerings in musculoskeletal, neuromuscular, integumentary, cardiopulmonary, geriatric, and pediatric physical therapy, as well as course content related to leadership & professional development.

We want to make sure our graduates are well prepared to enter the workforce so we complement our didactic education program with a clinical program that includes 42 weeks of full-time clinical internships. The curriculum is designed to emphasize early and intensive integration of our students into the clinical environment throughout their educational program. Our students begin their clinical affiliations during the 2nd semester in the program and conclude with two consecutive 15-week termal clinical education experiences.

PhD Requirements

The Department of Bioengineering follows university guidelines on students working toward joint degrees like the DPT-PhD in Bioengineering. Typically, we have waived the life science requirement (6 credits) as comparable coursework is covered in the physical therapy curriculum. The remaining course requirements closely follow requirements for the PhD in Bioengineering.

- Bioengineering Track Courses - 9 credits
- Graduate Electives - 6 credits
- Graduate Engineering Mathematics - 3 credits
- Statistics for Bioengineers - 3 credits
- Societal, Political, and Ethical Issues in Bioengineering (or equivalent bioethics course) - 3 credits
- Seminar - 6 credits total, 4 credits must be the Bioengineering Seminar, which is BIOENG 2023 or BIOENG 2024 . One of the four seminars can be substituted with a Preparation for STEM academic career course, when combined with appropriate certification. The other 2 credits may be from BIOENG 2023, BIOENG 2024 or any other seminars deemed appropriate by the Graduate Program Director. Please see list of Approved Seminar Courses for suggestions.
- Grant Writing in Bioengineering - 1 credit
- Doctoral Dissertation Research, BIOENG 3997 and BIOENG 3999 - 12 credits of 3999 to be taken after the proposal - 35 credits

Total number of credit hours: 72 credits minimum, which includes 6 credits to fulfill life science requirement but does not include credits from foundational courses if applicable.

DPT/PhD students are also required to complete two teaching practicums before presenting their PhD proposal (comprehensive examination). No more than one practicum can be undertaken in a semester. There is no course registration for this educational experience, and fulfillment is monitored by the department. Students typically take the PhD preliminary exam in the next summer term after they have completed 2 full terms in the program but may be taken after only one term if approved by the Department. The PhD proposal (comprehensive examination) is presented generally at the end of the second year. A final public PhD defense is made by each PhD candidate based on the student's research work.

Please see the Department of Bioengineering's PhD Requirements page for more details.

Master's

Musculoskeletal Physical Therapy, MS

This program is designed for the practicing physical therapy professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Musculoskeletal Physical Therapy is designed to provide advanced clinical skills in the areas of musculoskeletal physical therapy.

Spring Term

- HRS 2372 - ADVANCED CLINICAL PRACTICE: THE LOWER QUARTER
- HRS 2305 - ADVANCED NEUROSCIENCE
- HRS 2362 - EVIDENCE BASED PRACTICE: CLINICAL CONSIDERATIONS LOWER EXTREMITY
- HRS 2907 - CLINICAL INVESTIGATIONS

Summer Term

- HRS 2307 - FALLS AND BALANCE DYSFUNCTION: PHYSICAL THERAPY MANAGEMENT AND INTERVENTION
- HRS 2309 - ANALYSIS OF NEUROMUSCULAR SIGNS AND SYMPTOMS IN CLINICAL DECISION MAKING
- HRS 2313 - PHYSICAL THERAPY SPECIAL TOPICS SEMINAR
- HRS 2361 - EVIDENCE BASED PRACTICE: CLINICAL CONSIDERATIONS LUMBOPELVIC SPINE
- HRS 2373 - ADVANCED MUSCULOSKELETAL CLINICAL PRACTICE

Fall Term

- HRS 2308 - CLINICAL PRACTICE SEMINAR
- HRS 2374 - CLINICAL ROUNDS AND CASE PRESENTATION
- HRS 2380 - EVIDENCE BASED PRACTICE: CLINICAL CONSIDERATIONS FOR CERVICAL AND THORACIC SPINE
- HRS 2381 - EVIDENCE BASED PRACTICE: CLINICAL CONSIDERATIONS FOR UPPER EXTREMITY

Total Credits: 33

Neuromuscular Physical Therapy, MS

This program is designed for the practicing physical therapy professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Neuromuscular Physical Therapy is designed to provide advanced clinical skills in the areas of musculoskeletal physical therapy.

Spring Term

- HRS 2305 - ADVANCED NEUROSCIENCE
- HRS 2306 - MOTOR LEARNING AND CONTROL OF MOVEMENT/HEALTH PROMOTION
- HRS 2372 - ADVANCED CLINICAL PRACTICE: THE LOWER QUARTER
- HRS 2907 - CLINICAL INVESTIGATIONS

Summer Term

- HRS 2307 - FALLS AND BALANCE DYSFUNCTION: PHYSICAL THERAPY MANAGEMENT AND INTERVENTION
- HRS 2309 - ANALYSIS OF NEUROMUSCULAR SIGNS AND SYMPTOMS IN CLINICAL DECISION MAKING
- HRS 2313 - PHYSICAL THERAPY SPECIAL TOPICS SEMINAR
- HRS 2356 - CONCEPTS AND PRINCIPLES RELATED TO SENSORY MOTOR CONTROL I
- HRS 2373 - ADVANCED MUSCULOSKELETAL CLINICAL PRACTICE

Fall Term

- HRS 2312 - SEMINAR IN NEUROLOGIC PHYSICAL THERAPY
- HRS 2364 - EVIDENCE BASED MEDICAL AND PHYSICAL THERAPY INTERVENTIONS FOR PERSONS WITH NEUROMUSCULAR DISEASE
- HRS 2365 - CASE STUDIES OF PERSONS WITH NEUROMUSCULAR DISORDERS
- HRS 2374 - CLINICAL ROUNDS AND CASE PRESENTATION

Total Credits: 33

Physical Therapy - Musculoskeletal Physical Therapy Concentration, MS

In the Summer 2022 the Physical Therapy - Musculoskeletal Physical Therapy Concentration, MS was terminated. Students that are currently in the program will be given the option to have their designation remain as an area of concentration or change to the new major.

This program is designed for the practicing physical therapy professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Health and Rehabilitation Science program offers a choice of concentrations in Physical Therapy: Musculoskeletal Physical Therapy and Neuromuscular Physical Therapy. This program is designed to provide advanced clinical skills in the areas of musculoskeletal and neuromuscular physical therapy. The program leads to a professional clinical degree at the post baccalaureate level. The program is 12 months in length and 33 credit hours.

Contact Information

Program Director
Department of Physical Therapy
School of Health and Rehabilitation Sciences
Bridgeside Point 1
100 Technology Drive Room 242
Pittsburgh, PA 15219
Phone: 412-383-8169
Fax: 412-648-5970
E-mail: ptinfo@shrs.pitt.edu

Application Process

All applicants must:

- Apply online using GradCAS
- Submit the application fee of \$50 (US)
- Submit an essay-a description of educational and long-term professional goals
- Submit two letters of recommendation. At least one letter must be from a former professor or instructor. The letters should address the applicant's academic, professional and personal attributes and potential for successful graduate study
- Submit official transcripts/marksheets from all colleges and universities attended.

Admission Requirements

For admission to full graduate status an applicant must demonstrate:

- A minimum grade point average (GPA) of 3.0 from their entry-level professional physical therapy program (equivalent GPA determined via credential evaluation)
- Evidence of potential for success in a graduate program that can be demonstrated through past work experiences, continuing education, and letters of recommendation

Admissions decisions will be based on an overall evaluation of all credentials submitted and the availability of space in the class.

Additional requirements for International Applicants:

Academic Credential Evaluation

- Evaluations are accepted from Educational Credential Evaluators, Inc. (ECE) or World Education Services, Inc. (WES)
- A course by course evaluation including a grade point average equivalent is required
- A final transcript/marksheet and diploma (degree certificate) showing completion of the undergraduate degree must be submitted prior to starting the program
- If an international student has earned an undergraduate or graduate degree in the United States, this evaluation is not required
- If you are a US Citizen who earned their degree outside the US an academic credential evaluation IS required

English Language Proficiency Scores

The University of Pittsburgh will accept the following as verification of English language proficiency:

- Duolingo English Test - minimum score accepted is 105. Scores should be made available electronically to "University of Pittsburgh - School of Health and Rehabilitation Sciences"
- TOEFL - minimum scores accepted are 80 ibt (internet based test) or 550 pbt (paper based test). TOEFL scores must be sent via ETS to the University of Pittsburgh, institution code 2927
- IELTS - minimum score accepted is Overall Band 6.5. IELTS scores Scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences"

Verification of English Language Proficiency is required unless the following apply:

- The applicant is a citizen of a country whose ONLY official language is English
- The applicant has completed a degree at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English

Note: Application can be submitted while the first professional degree is in progress provided the applicant will be able to provide evidence of successful degree completion prior to starting the program.

Application deadline: August 1. Applications submitted and/or completed after the deadline will be reviewed on a case by case basis. Please contact admissions@shrs.pitt.edu.

We encourage international student applications.

Program Requirements

Examination and Testing

Throughout the plan of study, a series of written and/or oral-practical examinations are integrated within the formal course work. These examinations are used to determine mastery of the core elements of the plan of study.

The written examination will cover the levels of "application and analysis" and "synthesis and analysis" so as to gauge the student's ability to utilize information in their clinical decision making.

The practical examinations will focus on the clinical application of therapeutic assessment and treatment techniques. Students will be expected to demonstrate appropriate patient handling, awareness of safety issues, application of technique, and decision-making rationale at the level of an advanced clinician.

Failure to meet any of the above requirements may result in the student not being recommended for graduation from the program.

Curriculum and Course Descriptions

Students in the MS in Health and Rehabilitation Sciences can choose from either a Musculoskeletal PT concentration or a Neuromuscular PT concentration. Upon completion of either one, students will be awarded a Master of Science (MS) degree in Health and Rehabilitation Sciences.

The MS in Health and Rehabilitation Sciences requires the minimum completion of 33 credits. Students must maintain an overall 3.0 GPA in their required plan of studies in order to be considered a candidate for graduation.

Musculoskeletal Concentration Curriculum

Spring

- HRS 2305 - Advanced Neuroscience, 4 credits
- HRS 2362 - Evidence Based Practice - Clinical Considerations for the Lower Extremity, 3 credits
- HRS 2372 - Advanced Clinical Practice, The Lower Quarter, 3 credits
- HRS 2907 - Clinical Investigations, 2 credit

Summer

- HRS 2307 - Falls & Balance Dysfunction: PT Management and Intervention, 3 credits
- HRS 2309 - Analysis Neuromusculoskeletal Signs/Symptoms in Clinical Decision Making, 3 credits
- HRS 2361 - Evidence Based Practice - Clinical Considerations for the Lumbo Pelvic Spine, 3 credits
- HRS 2373 - Advanced Clinical Practice: The Upper Quarter, 3 credits

Fall

- HRS 2308 - Clinical Practice Seminar, 2 credits
- HRS 2374 - Clinical Rounds and Case Presentations, 1 credit
- HRS 2380 - Evidence Based Practice - Clinical Considerations for the Cervical and Thoracic Spine, 3 credits
- HRS 2381 - Evidence Based Practice - Clinical Considerations for the Upper Extremity, 3 credits

*

Note that each course in the plan of study is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence, (e.g. failure to receive a passing grade of 'C' or better; leave of absence from program) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Physical Therapy - Neuromuscular Physical Therapy Concentration, MS

In the Summer 2022 the Physical Therapy - Neuromuscular Physical Therapy Concentration, MS was terminated. Students that are currently in the program will be given the option to have their designation remain as an area of concentration or change to the new major.

This program is designed for the practicing physical therapist professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Health and Rehabilitation Science program offers a choice of concentrations in Physical Therapy: Musculoskeletal Physical Therapy and Neuromuscular Physical Therapy. This program is designed to provide advanced clinical skills in the areas of musculoskeletal and neuromuscular physical therapy. The program leads to a professional clinical degree at the post baccalaureate level. The program is 12 months in length and 33 credit hours.

Application Process

All applicants must:

- Apply online using GradCAS
- Submit the application fee of \$50 (US);
- Submit an essay-a description of educational and long-term professional goals;
- Submit two letters of recommendation. At least one letter must be from a former professor or instructor. The letters should address the applicant's academic, professional and personal attributes and potential for successful graduate study;
- Submit official transcripts/marksheets from all colleges and universities attended.

Admission Requirements

For admission to full graduate status an applicant must demonstrate:

- A minimum grade point average (GPA) of 3.0 from their entry-level professional physical therapy program (equivalent GPA determined via credential evaluation)
- Evidence of potential for success in a graduate program that can be demonstrated through past work experiences, continuing education, and letters of recommendation

Admissions decisions will be based on an overall evaluation of all credentials submitted and the availability of space in the class.

Additional requirements for International Applicants:

Academic Credential Evaluation

- Evaluations are accepted from Educational Credential Evaluators, Inc. (ECE) or World Education Services, Inc. (WES)
- A course by course evaluation including a grade point average equivalent is required
- A final transcript/marksheet and diploma (degree certificate) showing completion of the undergraduate degree must be submitted prior to starting the program
- If an international student has earned an undergraduate or graduate degree in the United States, this evaluation is not required
- If you are a US Citizen who earned their degree outside the US an academic credential evaluation IS required

English Language Proficiency Scores

The University of Pittsburgh will the following as verification of english language proficiency:

- Duolingo English Test: minimum score accepted is 105. Scores should be made available electronically to "University of Pittsburgh - School of Health and Rehabilitation Sciences"
- TOEFL - minimum scores accepted are 80 ibt (internet based test) or 550 pbt (paper based test). TOEFL scores must be sent via ETS to the University of Pittsburgh, institution code 2927
- IELTS - minimum score accepted is Overall Band 6.5. IELTS scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences"

Verification of English Language Proficiency is required unless the following apply:

- The applicant is a citizen of a country whose ONLY official language is English
- The applicant has completed a degree at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English

For detailed information about these requirements and additional helpful information for international applicants please visit the International Applicants information on the SHRS website.

Note: Application can be submitted while undergraduate degree is in progress provided the applicant will be able to provide evidence of successful degree completion prior to starting the program.

Application deadline: August 1. Applications submitted and/or completed after the deadline will be reviewed on a case by case basis. Please contact admissions@shrs.pitt.edu.

We encourage international student applications.

Program Requirements

Examination and Testing

Throughout the plan of study, a series of written and/or oral-practical examinations are integrated within the formal course work. These examinations are used to determine mastery of the core elements of the plan of study.

The written examination will cover the levels of "application and analysis" and "synthesis and analysis" so as to gauge the student's ability to utilize information in their clinical decision making.

The practical examinations will focus on the clinical application of therapeutic assessment and treatment techniques. Students will be expected to demonstrate appropriate patient handling, awareness of safety issues, application of technique, and decision-making rationale at the level of an advanced clinician.

Failure to meet any of the above requirements may result in the student not being recommended for graduation from the program.

Curriculum and Course Descriptions

Students in the MS in Health and Rehabilitation Sciences can choose from either a Musculoskeletal PT concentration or a Neuromuscular PT concentration. Upon completion of either one, students will be awarded a Master of Science (MS) degree in Health and Rehabilitation Sciences. The MS in Health and Rehabilitation Sciences requires the minimum completion of 33 credits. A comprehensive examination sequence is required following completion of the core coursework in each of the separate concentrations. Students must maintain an overall 3.0 GPA in their required plan of studies in order to be considered a candidate for graduation.

Neuromuscular Concentration Curriculum

Spring

- HRS 2305 - Advanced Neuroscience, 4 credits
- HRS 2306 - Motor Learning and Control of Movement/Health Promotion, 3 credits
- HRS 2372 - Advanced Clinical Practice: The Lower Quarter, 3 credits
- HRS 2907- Clinical Investigations, 2 credits

Summer

- HRS 2307 - Falls & Balance Dysfunction: PT Management and Intervention, 3 credits
- HRS 2309 - Analysis Neuromusculoskeletal Signs/Symptoms in Clinical Decision Making, 3 credits
- HRS 2356 - Concepts and Principles Related to Sensorimotor Control, 3 credits
- HRS 2373 - Advanced Clinical Practice: The Upper Quarter, 3 credits

Fall

- HRS 2312 - Seminar in Neurologic PT, 2 credits
- HRS 2364 - Evidence Based Medical & Physical Therapy Interventions for Persons with Neuromuscular Disease, 3 credits
- HRS 2365 - Case Studies of Persons with Neuromuscular Disorders, 3 credits
- HRS 2374 - Clinical Rounds and Case Presentations, 1 credit
- Comprehensive Exam Sequence

Note that each course in the plan of study is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence, (e.g. failure to receive a passing grade of 'C' or better; leave of absence from program) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Department of Physician Assistant Studies

Award-winning and internationally recognized faculty and staff prepare you to become a highly qualified physician assistant ready to serve as a future leader in the delivery of health care, patient education and professional service. Pitt's Department of Physician Assistant Studies is deeply committed to graduating a workforce of diverse and inclusive certified PAs to serve our communities here in our city, across the nation and around the world.

By instilling a lifelong desire for continued learning and scholarly productivity, our alumni contribute to advances and advocacy in the profession long after graduation. Together, our faculty, staff, students and alumni help shape PA professional research that informs the science, delivery and administration of health care reaching patients everywhere.

Doctoral

Doctor of Physician Assistant Studies

The Doctor of PA Studies Program meets the following requirements for professional doctoral degrees as stipulated in the *Regulations Governing Graduate Study at the University of Pittsburgh* through:

- Matriculation through a coherent program designed to assure the mastery of a substantial and complex body of knowledge that will serve as preparation for leadership and excellence in the practice of the profession
- A research component to achieve the goal of research competence including a report demonstrating mastery of the subject matter and a high level of communication skills,
- Minimum admission requirements that will align with all graduate programs at the University of Pittsburgh,
- Completion of a defined set of prerequisites so that all students will enter with required basic knowledge, and
- Maintenance of a 3.00 GPA to remain in good standing and be graduated.

Additionally, all potential matriculants should have already completed a clinical component of their education. This component would have been guided by clear goals and objectives as part of their degree as is required by ARC-PA accreditation standards. These clinical education components would be accepted as transfer credits for matriculants in the DPAS program.

Program Duration

Due to the rigorous and uniform nature of PA studies programs that are accredited by the Accreditation Review Commission on Education for the Physician Assistant, Inc., all potential matriculants will possess the same level of required knowledge for admission into this doctoral program. Nationally, the mean credits required for completion of the entry-level PA degree is 112.7. For this reason, the DPAS program will accept the application of 30 credits from University of Pittsburgh PA program alumni to the DPAS degree and the transfer of 30 credits from other matriculants who have graduated from an ARC-PA accredited PA program to the DPAS degree.

Program Characteristics, Type of Instruction, & Level of Instruction

The Doctor of PA Studies Program graduate-level coursework will consist of online courses and will culminate in a Scholarly Practice Capstone Project. The core curricular concepts will be presented primarily asynchronously, similar to an in-class lecture, but using interactive online educational activities to promote knowledge acquisition. This knowledge will be reinforced with synchronous, instructor-led, online activities to facilitate application and synthesis of the knowledge acquired through the asynchronous online activities. Additionally, each matriculant will work closely with an assigned faculty advisor who will help guide their studies and mentor them in their Scholarly Practice Capstone Project. This individualized and learner-centered approach will allow matriculants to engage in scholarly activity that will have a direct and positive impact in their daily work.

Assessments

Assessments will be competency- based and scaffolded to support completion of the Scholarly Practice Capstone. Such assessments will include:

- Reflective writing assignments,
- Scholarly writing assignments,
- Written evidence of literature review,
- Stakeholder assessments,
- Oral presentations, and

- Written defense of the Scholarly Practice Capstone.

Plan of Studies

Courses will be offered in consecutive semesters in the Spring, Fall, and Summer Terms. It is recommended that students proceed sequentially, as a cohort, through the program. This program is intended to be a post-professional degree program for full-time practicing PAs. The advantage of this design is to allow learners to remain in their clinical practice full-time, while earning their degree part-time, so that they can apply their classroom learning to their clinical practice in a meaningful and impactful way. The curriculum is designed to help students be informed by, and to inform, their current practice as they learn. This design allows for a balanced curriculum that helps working professionals stay on track. Individualized plans of study will be considered for students who experience extenuating circumstances that require individualized or personalized plans to meet their academic goals. Per the *Regulations Governing Graduate Study at the University of Pittsburgh*, this professional doctoral degree program, the statute of limitations for students for completion of all DPAS degree requirements will be set at 8 years and will not be extended beyond the expectation for a Doctor of Philosophy student. Courses and their sequencing are presented in Table 1.

Table 1. DPAS Program Plan of Studies

COURSE NUMBER	TITLE OF COURSE	CREDIT HOURS
PAS 3001	Core Concepts of Scholarly Practice	4
PAS 3002	Examining Supporting Evidence	4
PAS 3003	Internship Experience 1	6
PAS 3004	Personalized Elective (Academic or Administrative)	4
PAS 3005	Scholarly Practice Capstone Phase 1	4
PAS 3006	Internship Experience 2	6
PAS 3007	Scholarly Practice Capstone Phase 2	8
PAS 3008	Internship Experience 3	6
	DPAS credits	42
	Graduate transfer credits	30
	Total credits for DPAS degree	72

Requirements

- PAS 3001 - CORE CONCEPTS OF SCHOLARLY PRACTICE
- PAS 3002 - EXAMINING SUPPORTING EVIDENCE
- PAS 3003 - INTERNSHIP EXPERIENCE 1
- PAS 3004 - PERSONALIZED ELECTIVE
- PAS 3005 - SCHOLARLY PRACTICE CAPSTONE PHASE 1
- PAS 3006 - INTERNSHIP EXPERIENCE 2
- PAS 3007 - SCHOLARLY PRACTICE CAPSTONE PHASE 2
- PAS 3008 - INTERNSHIP EXPERIENCE 3

Master's

Physician Assistant Studies, MS

Program Requirements

Prerequisite course work

- Anatomy with lab and Physiology, two semesters*
 - This requirement may be met by taking either one semester of Anatomy with lab and one semester of Physiology or two semesters of Anatomy & Physiology combined, each with a lab.
- General Biology with lab, two semesters*
- Chemistry with lab, two semesters*
- English Composition/Writing, two semesters
- Microbiology with lab, one semester*
- Chemistry, Upper Level with lab, one semester*
- Psychology, Introduction, one semester
- Psychology, Upper Level, one semester
- Statistics, one semester
- Medical Terminology, one semester, at least one college credit (certification courses not accepted)

*Prerequisite Science Courses cumulative GPA of 3.0 or higher is required

Other admission criteria

Successful completion of an undergraduate degree at an accredited institution

- A valid Healthcare Provider BLS course certification from the American Heart Association (AHA). BLS certification must be maintained throughout the two year program. BLS certifications from organizations other than the AHA will not be accepted.
- Overall grade-point average (GPA) of 3.0 (based on a 4.0 scale) in all college-level course work and a minimum (GPA) of 3.0 (based on a 4.0 scale) in the prerequisite science courses marked above with an asterisk (*).
- Three letters of recommendation, one from a former college/university instructor and one from a supervisor of the required clinical experience.
- Completion of an additional personal statement in CASPA focusing on the mission of the PA Studies Program.
- A minimum of 500 hours of hands-on patient care experience.

The patient care experience must be direct, "hands-on" patient contact e.g., RN, EMT or paramedic, patient care attendant or CNA, Patient Care Technician, clinic assistant, Peace Corps volunteer or other cross-cultural health care experience, therapist, clinical research assistant, respiratory therapist/aide, medical assistant, PT/OT assistant.

All coursework, requirements, and degree must be completed by August 31st of the application year in order to be considered for a seat in the class that will begin the following January.

Interview Process

Applications for admission will be reviewed by the PA Program Admissions Committee. Candidates selected will be required to meet with the Admissions Committee. The University of Pittsburgh's PA program finds the interview to be a necessary and important component to the admission process. The faculty looks for such personal attributes as maturity, empathy, compassion, motivation, ability to communicate, cultural sensitivity, critical thinking skills and the potential to achieve career fulfillment within the PA role. Interviews will be conducted either in-person or virtually at the discretion of the Program and will provide the candidate and faculty an opportunity to meet and discuss the program objectives, student's goals, rationale for choosing the PA profession and more specifically the program at the University of Pittsburgh.

Program and Admission Notes

- The program is two full years (six consecutive semesters) and classes start each January (spring semester)
- Applications will be considered only until the class is filled
- Students are highly encouraged to apply early
- The program does not offer advanced standing
- All courses within the curriculum are required
- No credit is granted for pre-admission experiential learning
- Only full-time students are admitted

Plan of Study

The Physician Assistant curriculum is comprised of a rigorous 24 month Master of Science Program. The goals and objectives of our program are guided by the criteria set forth in the Standards and Guidelines for an Accredited Educational Program for the Physician Assistant as established by ARC-PA. The first three semesters (12 months) are made up of primarily classroom instruction. Course content is presented through traditional lecture, integrated instruction, case based and hands on skills labs. The clinical year is comprised of rotations in inpatient medicine, primary care, emergency medicine, general surgery, OB/GYN, pediatrics, and behavioral health. The curriculum is presented by practicing physician assistants, medical and surgical physicians, and other health care providers who have expertise in their respective specialties.

Each course in the program is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence (e.g. failure to receive a passing grade of 'C' or better; leave of absence from program) will result in the delay of completion of program requirements and graduation from the program.

Didactic Year 1:

Semester 1:

Course Credits

- PAS 2101 - INTRODUCTION TO THE PHYSICIAN ASSISTANT PROFESSION
- PAS 2102 - HUMAN ANATOMY
- PAS 2105 - HEALTH POLICY
- PAS 2106 - INTERPRETING AND EVALUATING THE MEDICAL LITERATURE
- PAS 2108 - INTRODUCTION TO CLINICAL MEDICINE WITH LAB
- PAS 2109 - MEDICAL PHYSIOLOGY AND PATHOPHYSIOLOGY

Semester Total Credits: 15

Semester 2:

Course Credits

- PAS 2104 - GENETIC AND MOLECULAR MECHANISMS OF HEALTH AND DISEASE
- PAS 2107 - PATIENT EDUCATION AND COUNSELING
- PAS 2201 - HISTORY TAKING AND PHYSICAL EXAMINATION 1
- PAS 2202 - CLINICAL MEDICINE 1
- PAS 2203 - DIAGNOSTIC & THERAPEUTIC PROCEDURES IN MEDICINE 1
- PAS 2204 - PHARMACOLOGY 1

Semester Total Credits: 15

Semester 3:

Course Credits

- PAS 2301 - HISTORY TAKING AND PHYSICAL EXAMINATION 2
- PAS 2302 - CLINICAL MEDICINE 2
- PAS 2303 - DIAGNOSTIC AND THERAPEUTIC PROCEDURES IN MEDICINE 2
- PAS 2304 - PHARMACOLOGY 2
- PAS 2305 - HEALTH ISSUES ACROSS THE LIFESPAN
- PAS 2306 - FUNDAMENTALS OF SURGERY

Semester Total Credits: 15

Year 1 Total Credits: 45

Clinical Year 2:

Semester 4:

Course Credits

- PAS 2701 - CLINICAL ROTATION 1
- PAS 2702 - CLINICAL ROTATION 2
- PAS 2703 - CLINICAL ROTATION 3

Semester Total Credits: 12

Semester 5:

Course Credits

- PAS 2704 - CLINICAL ROTATION 4
- PAS 2705 - CLINICAL ROTATION 5
- PAS 2706 - CLINICAL ROTATION 6

Semester Total Credits: 12

Semester 6:

Course Credits

- PAS 2707 - CLINICAL ROTATION 7
- PAS 2713 - CLINICAL ROTATION 8
- PAS 2709 - CLINICAL ROTATION 9
- PAS 2712 - SUMMATIVE EVALUATION

Semester Total Credits: 13

Year 2 Total Credits: 37

Program Credits Total: 82

Certification

Graduates of the professional program are eligible to sit for the Physician Assistant National Certification Exam (PANCE) administered by the National Commission on Certification of the Physician Assistant (NCCPA). All States and the District of Columbia have legislation governing the qualifications or practice of physician assistants. All jurisdictions require physician assistants to pass the Physician Assistant National Certifying Examination. Only those successfully completing the examination may use the credential "Physician Assistant-Certified." To remain certified, PAs must complete 100 hours of continuing medical education every 2 years. Every 10 years, they must pass a recertification examination.

Physician Assistant Studies, MS - Hybrid Program

Program Requirements

PAS-Hybrid applicants need to have completed the following prerequisites:

- Biology with lab designed for science majors, two semesters*
- Chemistry with lab designed for science majors, two semesters*
- Microbiology with lab, one semester*
- Chemistry with lab, Upper level, one semester*
- Anatomy with lab and Physiology* (This requirement may be met by taking either one semester of Anatomy with lab and one semester of Physiology or two semesters of Anatomy with lab & Physiology combined.)
- Statistics, one semester
- Medical Terminology, one semester for at least 1 college credit
- English Composition/writing, two semesters
- Psychology, Introduction, one semester
- Psychology, Upper level, one semester

*Both prerequisite science courses and cumulative GPA of 3.0 or higher is required

There is no expiration date for prerequisite courses.

Other Admission Criteria

Successful completion of an undergraduate degree (BS or BA) at an accredited institution

- **Online Application:** Upload all application materials through Centralized Application Service for Physician Assistants (CASPA).
- **Patient Care Experience:** A minimum of 500 hours of direct, "hands-on," patient care experience is required by the application deadline. Examples of eligible experiences may include work as an RN, EMT, paramedic, medical assistant, physical therapy or occupational therapy assistant.
- **Personal Statements:** Students must provide two personal statements in CASPA. Your first essay should be a personal statement focusing on why you want to become a PA. The second essay should reflect the mission of the PA Studies Hybrid program and commitment to Diversity, Equity and Inclusion.
- **Healthcare Provider BLS Certification:** Applicants must upload a valid Healthcare Provider BLS Certification from the American Heart Association to the CASPA application.
- **Letters of Recommendation:** Submit three letters of recommendation including one (1) from a former college/university instructor, one (1) from a supervisor of the required patient care experience and one (1) character reference describing your commitment to leadership and service.

All coursework, requirements, and degree must be completed by August 31st of the application year in order to be considered for a seat in the class that will begin the following January.

Virtual Interview Process

Interviews for seats in our program are performed and scored by the program director, faculty, and practicing PAs. They include the following parts and scoring:

- **Essay:** Higher scores are awarded based on apparent appreciation for the state of the PA profession, passion for pursuing PA school to positively impact the profession, language and writing skills, and editorial care
- **Individual interview:** Higher scores are awarded based on the strength of demonstration of the following qualities: adaptability/stress management, conflict resolution, and technical and professional knowledge/ability to learn
- **Group interview:** Higher scores are awarded based on the strength of demonstration of the following qualities: active listening, conflict management, probing the group to maximize performance, leadership skills, clarification of group responses, encouraging and harmonizing with fellow group members, articulation, drawing others into the conversation, offering ideas, and summarizing

Program and Admission Notes

- The program is two full years (six consecutive semesters) and classes start each January (spring semester)
- Applications will be considered only until the class is filled
- Students are highly encouraged to apply early
- The program does not offer advanced standing
- All courses within the curriculum are required

- No credit is granted for pre-admission experiential learning
- Only full-time students are admitted
- All applicants need to identify as U.S. citizens, have documentation of permanent residency or have dual citizenship status

Accreditation

The University of Pittsburgh PA Studies Hybrid Program has applied for Accreditation - Provisional from the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). The University of Pittsburgh PA Studies Hybrid Program anticipates matriculating its first class in January 2023, pending achieving Accreditation - Provisional status at the September 2022 ARC-PA meeting. Accreditation - Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding accreditation-provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students.

In the event that the program does not achieve accreditation all students who have deposited a seat in the program will receive a full refund. The program will not accept the class until which time provisional accreditation has been granted.

Plan of Study

The University of Pittsburgh PA Studies Hybrid Program is a 24-month program that awards a Master of Science degree upon successful completion. The goals and objectives of the program are guided by the criteria set forth in the Standards and Guidelines for an Accredited Educational Program for the Physician Assistant as established by ARC-PA.

The first three semesters (12 months) are made up of didactic instruction. This didactic component will consist of asynchronous and synchronous online didactic courses. The didactic content will be presented using interactive online educational activities to promote knowledge acquisition. Synchronous, instructor-led, online activities will facilitate application and synthesis of the knowledge acquired through the asynchronous online activities. The onsite intense immersion laboratory experiences will be utilized to master the development of clinical skills necessary for examination, evaluation, diagnosis, prognosis, intervention, and assessment of outcome. The curriculum is presented by practicing physician assistants, medical and surgical physicians, and other health care providers who have expertise in their respective specialties. All didactic component courses are sequential and must be successfully completed in order to progress to the next term of the curriculum.

The last three semesters (12 months) are made up of a clinical component and will consist of Supervised Clinical Practice Experiences (SCPE) in Internal Medicine, Family Medicine, Emergency Medicine, Pediatrics, Surgery, Behavioral Health, Obstetrical and Gynecological Medicine, and an Elective. There is also a Transition to Professional Practice course at the end of the clinical curriculum.

Since each course in the program is offered only once during each academic year, any departure from completing a course in its planned sequence (e.g. failure to receive a passing grade of 'C' or better, leave of absence from the program) will result in a delay by retaking the course the following year, as well as delays in completing the program and graduating with the Master of Science degree.

Didactic Year 1:

Semester 1:

Course Credits

- PAS 2401 - INTRODUCTION TO THE PA PROFESSION
- PAS 2402 - HUMAN ANATOMY AND LAB
- PAS 2403 - HEALTH POLICY
- PAS 2404 - INTERPRETING AND EVALUATING THE MEDICAL LITERATURE
- PAS 2405 - INTRODUCTION TO CLINICAL MEDICINE
- PAS 2406 - MEDICAL PHYSIOLOGY AND PATHOPHYSIOLOGY

Semester Total Credits: 15

Semester 2:

Course Credits

- PAS 2407 - GENETIC AND MOLECULAR MECHANISMS OF HEALTH AND DISEASE
- PAS 2408 - PATIENT EDUCATION AND COUNSELING
- PAS 2409 - HISTORY TAKING AND PHYSICAL EXAMINATION 1 AND LAB
- PAS 2410 - CLINICAL MEDICINE 1 AND LAB
- PAS 2411 - DIAGNOSTIC & THERAPEUTIC PROCEDURES IN MEDICINE 1 AND LAB
- PAS 2412 - PHARMACOLOGY 1

Semester Total Credits: 15

Semester 3:

Course Credits

- PAS 2413 - HISTORY TAKING AND PHYSICAL EXAMINATION 2 AND LAB
- PAS 2414 - CLINICAL MEDICINE 2 AND LAB
- PAS 2415 - DIAGNOSTIC AND THERAPEUTIC PROCEDURES IN MEDICINE 2 AND LAB
- PAS 2416 - PHARMACOLOGY 2
- PAS 2417 - HEALTH ISSUES ACROSS THE LIFESPAN
- PAS 2418 - FUNDAMENTALS OF SURGERY

Semester Total Credits: 15

Year 1 Total Credits: 45

Clinical Year 2:

Semester 4:

Course Credits

- PAS 2421 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 1
- PAS 2422 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 2
- PAS 2423 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 3

Semester Total Credits: 12

Semester 5:

Course Credits

- PAS 2424 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 4
- PAS 2425 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 5
- PAS 2426 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 6

Semester Total Credits: 12

Semester 6:

Course Credits

- PAS 2427 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 7
- PAS 2428 - SUPERVISED CLINICAL PRACTICE EXPERIENCE 8
- PAS 2429 - TRANSITION TO PROFESSIONAL PRACTICE

Semester Total Credits: 13

Year 2 Total Credits: 37

Program Credits Total: 82

Certification

Graduates of the professional program are eligible to sit for the Physician Assistant National Certification Exam (PANCE) administered by the National Commission on Certification of the Physician Assistant (NCCPA). All States and the District of Columbia have legislation governing the qualifications or practice of physician assistants. All jurisdictions require physician assistants to pass the Physician Assistant National Certifying Examination. Only those successfully completing the examination may use the credential "Physician Assistant-Certified." To remain certified, PAs must complete 100 hours of continuing medical education every 2 years. Every 10 years, they must pass a recertification examination.

Overview

The Clinical Rehabilitation and Mental Health Counseling (CRMHC) program delivers an innovative educational experience by integrating training in rehabilitation and mental health counseling into a holistic and cohesive graduate program for future professional counselors. We strive to be a world class educational program, preparing our students to address the complex challenges faced by people of diverse backgrounds living with disabilities including mental and behavioral health challenges. CRMHC emphasizes experiential training in evidence-based practices while advancing the field through clinical research. We are committed to community engagement, advocacy, and promoting diversity, inclusion, and cultural humility.

This program prepares students for clinical practice in rehabilitation and mental health counseling. The five term, 60-credit hour curriculum includes courses on foundations of rehabilitation and mental health counseling, human development across culture and the lifespan, individual, group, family and couples counseling, substance abuse, evidence based practice in counseling, crisis management, risk assessment and disaster preparedness, clinical assessment and diagnosis, case conceptualization and treatment planning, medical and psycho-social aspects of disability, case management, vocational and career development, job development and placement, and assistive technology. Individualized and group professional mentorship over five terms of study is a hallmark of the program.

The Program is accredited by the Council for Accreditation of Counseling and Related Education Programs (CACREP) through October 2023.

Graduates meet the education eligibility criteria for national certification in counseling (i.e., national certified counselor, NCC, or certified rehabilitation counselor, CRC) and the pre-clinical service and educational requirements for licensure as a professional counselor (LPC).

Prerequisites

The curriculum of study for clinical rehabilitation and mental health counseling relies upon having experienced a strong undergraduate education that has provided a sound foundation in knowledge, methods, and attitudes. Students must possess foundational knowledge of the concepts and terminology in medical, psychological, and sociological sciences on which to build the knowledge and skills of the rehabilitation and mental health counseling curriculum.

Students must have the ability to communicate in a clear, organized, and logical fashion with appropriate grammar, both verbally and in writing.

Admission is available on a full-time or part-time basis. Exceptions may be granted to outstanding students who do not meet all of the prerequisite requirements.

Admission Requirements

- Baccalaureate degree in psychology, human services, rehabilitation sciences, social sciences, or related field of study from an accredited post-secondary institution
- Minimum overall undergraduate GPA of 3.00.
- Applicants must demonstrate that they possess foundation knowledge of the concepts and terminology in medical, psychological, and sociological sciences on which to build the rehabilitation counseling curriculum. Students must have the ability to communicate in a clear, organized, and logical fashion with appropriate grammar, both verbally and in writing.

All applicants must:

- Complete the GradCAS application
- Submit the \$50 application fee (U.S.)
- Submit official transcripts from all colleges and universities attended
- Submit a minimum of three letters of recommendation - Preferably from individuals who have instructed you in academic settings and/or supervised research activities
- Submit a personal statement - Description of educational and long-term professional goals
- Curriculum Vitae or Resume
- International applicants must submit English Language Proficiency scores (Duolingo, IELTS, or TOEFL) and an Academic Credential Evaluation from Educational Credential Evaluators, Inc. or World Education Services (WES), Inc.
- Participate in an interview - Applicants may be required to complete a group interview with the counseling faculty as a part of the application process. Face to face interviews are preferred but other means can be arranged if indicated.

This program requires that student's complete clinical internships at facilities external to the University, and such facilities may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether the student is qualified to participate in the clinical internships. Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Master of Rehabilitation Technology

Contact Information

RST Admin
University of Pittsburgh
6425 Penn Avenue, Suite 401
Pittsburgh, PA 15206
412-383-1150
E-mail: rstinfo@shrs.pitt.edu
<http://www.shrs.pitt.edu/RST/>

Application Requirements

All applicants must:

- Complete the GradCAS application;
- Submit the application fee of \$50 (U.S.);
- Submit an essay-a description of educational and long-term professional goals;
- Submit three letters of reference, preferably from individuals who have instructed you in academic settings. These letters should address the applicant's academic, professional, and personal attributes and potential for meaningful graduate study;
- Submit official transcripts from all colleges and universities you have attended;

- Additional requirements for international applicants

Note: Application can be submitted when course requirements are in progress.

Please note this program requires that you complete clinical internships at facilities external to the University, and such facilities will or may require a criminal background check, an Act 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the clinical internships.

Master of Science in Prosthetics and Orthotics

Contact Information

RST Admin

University of Pittsburgh

6425 Penn Avenue, Suite 401

Pittsburgh, PA 15206

412-383-1150

E-mail: rstinfo@shrs.pitt.edu

<http://www.shrs.pitt.edu/po/>

Program Overview

Orthotics and Prosthetics is the evaluation, fabrication, and custom fitting of orthoses (orthopedic braces) and prostheses (artificial limbs). Artificial limbs, or prostheses, are used to replace missing limbs or portions of limbs, and to improve function of the upper or lower extremities. Orthopedic braces, or orthoses, are used to stabilize or unload joints, normalize motion and stresses on tissue, substitute for muscle weakness or paralysis, and assist in normal growth, development, and function. Orthoses can be applied to the head, neck, trunk, or limbs. Orthotists and prosthetists work in a variety of settings, including private practice, hospitals, rehabilitation facilities, nursing homes, and home health settings. Orthotists and prosthetists are currently in high demand, and the demand is expected to increase in the future.

Orthotists and prosthetists are part of the health care team, and as such, work with physicians, therapists, and other health care professionals to provide the orthotic and prosthetic services to users. Orthotists and prosthetists are responsible for

- 1) Performing a comprehensive assessment of the orthotic/prosthetic users needs.
- 2) Creating a comprehensive orthotic/prosthetic treatment plan to meet the needs and goals of the user.
- 3) Performing the necessary procedures to deliver the appropriate orthotic/prosthetic services, which may include fabrication of the orthosis/prosthesis.
- 4) Providing continuing patient care and periodic evaluation to assure/maintain/ document optimal fit and function of the orthosis/prosthesis.
- 5) Participating in personal and professional development through continuing education, training, research and organizational affiliations, and
- 6) Developing, implementing and/or monitoring policies and procedures regarding human, business, and organizational management.

The MSPO program is five consecutive terms in length, including one summer term, and requires a total of 65 credits. It is designed to meet all standards for accreditation by the National Commission on Orthotic and Prosthetic Education (NCOPE) and for preparing students to complete residencies and take the American Board for Certification in Orthotics and Prosthetics examinations.

During the last term of the Program, students complete a clinical internship, typically where they gain exposure to a real-world clinical setting. Most students will relocate out of the Pittsburgh area during this term. MSPO currently has agreements with clinical sites across the country and we can work with the student to set up additional internship sites for this final term if necessary.

Accreditation Status

The Master of Science Program in Prosthetics and Orthotics has been granted accreditation by the National Commission on Orthotic and Prosthetic Education (NCOPE). Our graduates are eligible for NCOPE residencies, and, upon successful completion of an NCOPE residency, they are eligible to take the certification examinations of the American Board for Certification in Orthotics, Prosthetics & Pedorthics (ABC).

Admission Requirements and Application Process

Admissions Application Deadline

Prerequisite courses

1. Baccalaureate Degree. No specific major is mandated; however, the degree should include a well-rounded general education with a distribution of courses in the sciences, mathematics, psychology, social sciences, and humanities.
2. Prerequisite coursework includes foundation courses in the following areas:

Physics with lab	4 credits
Biology with lab	4 credits
Chemistry with lab	4 credits
General Psychology	3 credits
Mathematics (algebra or higher)	3 credits
Human anatomy	3 credits
Human physiology	3 credits
Statistics	3 credits

3. Candidates who apply to the program with the latter will be asked to retake said courses prior to enrolling in the program.
4. Recommended minimum overall grade point is a 3.0 grade-point average in all college-level courses and a 3.0 average in prerequisite courses. Applicants with less than a 3.0 but with other outstanding qualifications will be considered.
5. Demonstration of knowledge of the profession of orthotics and/or prosthetics through volunteer or work experience. We suggest 250 hour minimum of O&P shadowing to allow the practitioner plenty of time to write a recommendation.
6. Recommendations: (Three): At least one academic reference from a college instructor, and at least two references from a health-care professional (preferably a certified orthotist or prosthetist).
7. Essay describing background leading to the choice of this profession and long-term goals.
8. Completed Application form.
9. Official transcriptions from all college level course work.

Applicants applying to the Prosthetics and Orthotics (MS) program will apply online using the Orthotics & Prosthetics Centralized Application Service, known as (OPCAS), <https://portal.opcas.org/> submit one copy of their official transcript, letters of recommendation, and other required information directly to OPCAS.

To be assured inclusion in the review process, applications should be completed by the date posted on the MSPO website (<http://www.shrs.pitt.edu/po>). Application information which must be submitted includes:

- Completed application form
- Official transcriptions of all college-level courses
- Letters of recommendation (three)
 - At least one from a college instructor
 - At least two from a health care professional (preferably a certified orthotist or prosthetist)
- Essay describing background leading to your choice of this profession and your long-term goals.
- Record of work, shadowing, or volunteer experience related to the profession of orthotics and prosthetics
- Additional requirements for international applicants

Please note that the University of Pittsburgh's program requires that you complete clinical internships at facilities external to the University, and such facilities will or may require a criminal background check, an Act 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the clinical internships. Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Admissions process, application deadline and prerequisites requirements are available on the Prosthetics and Orthotics webpage.

The School of Health and Rehabilitation Sciences does not require a supplemental application. It is the responsibility of the applicant to complete all admission requirements prior to enrollment.

Tuition and Fees

Tuition and Fee rates for the MSPO program can be found at the following websites:

In addition to University Fees, some of the MSPO courses have lab fees associated with them. Current Fees are available on the Prosthetics and Orthotics webpage.

Certificate

Assistive Technology Certificate

This certificate is designed for graduate students who wish to increase their knowledge of assistive technology, and to work directly or indirectly with people with disabilities. It consists of 12 credits of core courses, and 3 elective credits for a total of 15 graduate-level credits.

Eligibility

To be eligible for admission into the certificate program, a student must:

- Be currently be enrolled in a Masters or PhD program in RST, physical or occupational therapy, communication science and disorders, or engineering program or
- Possess an MS, PhD, or MD degree in an appropriate health-related or technology field

Program Requirements

The certificate will be awarded upon completion of a Master's or higher degree and completion of 15 credits. The following courses are required:

- HRS 2705 - PRACT REHAB ENGR & ASSISTV TECHN
- HRS 2921 - CLINICAL INTERNSHIP or
- HRS 2748 - ASSISTIVE TECHNOLOGY PRACTICUM

And at least three credits must be completed from any combination of the following courses:

(or other courses if approved by the Chair of the Department of Rehabilitation Science and Technology)

- HRS 2709 - MANUAL WHEELCHAIR DESIGN
- HRS 3705 - WHEELCHAIR BIOMECHANICS
- HRS 3702 - SOFT TISSUE BIOMECHANICS
- HRS 3710 - CLINICAL APPLICATIONS AND SEATING

Disability Studies Certificate

The School of Health and Rehabilitation Sciences offers a 15-credit certificate program in disability studies. This multidisciplinary field of inquiry examines how psychosocial and societal participation issues potentially affect the estimated 45 million people with disabilities.

Eligibility

Students enrolled in MS, PhD, or MD degree programs in health-related or technology fields and professionals working in a variety of fields (minimum of bachelor degree required) are eligible to apply for this certificate program. Admission is offered on a rolling basis.

Program Requirements

The certificate will be awarded upon completion of the following courses. These 15 credits can be taken over two or more semesters:

- LAW 5339 - LAW OF DISABILITY DISCRIMINATION or
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE or
- HRS 2902 - TOPICS IN HEALTH CARE

- HRS 2475 - DISABILITY RELATIONS AND SERVICES INTERNSHIP

Master's

Clinical Mental Health Counseling, MS

In Summer 2022 the Clinical Rehabilitation and Mental Health Counseling, MS was renamed to Clinical Mental Health Counseling, MS. Students may choose to stay enrolled in the current Clinical Rehabilitation and Mental Health Counseling, MS. They may also move to the new program name and are encouraged to talk to their academic advisor or program chair to discuss these options.

The Clinical Mental Health Counseling (CMHC) program delivers an innovative educational experience by integrating training in rehabilitation and mental health counseling into a holistic and cohesive graduate program for future professional counselors. We strive to be a world class educational program, preparing our students to address the complex challenges faced by people of diverse backgrounds living with disabilities including mental and behavioral health challenges. CMHC emphasizes experiential training in evidence-based practices while advancing the field through clinical research. We are committed to community engagement, advocacy, and promoting diversity, inclusion, and cultural humility.

This program prepares students for clinical practice in rehabilitation and mental health counseling. The five term, 60-credit hour curriculum includes courses on foundations of rehabilitation and mental health counseling, human development across culture and the lifespan, individual, group, family and couples counseling, substance abuse, evidence based practice in counseling, crisis management, risk assessment and disaster preparedness, clinical assessment and diagnosis, case conceptualization and treatment planning, medical and psycho-social aspects of disability, case management, vocational and career development, job development and placement, and assistive technology. Individualized and group professional mentorship over five terms of study is a hallmark of the program.

This program prepares students to practice the profession of rehabilitation and mental health counseling. The five term, 60-credit hour curriculum is accredited by the Council for Accreditation of Counseling and Related Education Programs (CACREP) through October 2023.

Graduates meet the education eligibility criteria for national certification in counseling (i.e., national certified counselor, NCC, or certified rehabilitation counselor, CRC) and the pre-clinical service and educational requirements for licensure as a professional counselor (LPC).

Requirements:

Curriculum and Course Descriptions

Fall Term - Year 1

- COUN 2720 - FOUNDATIONS OF COUNSELING
- COUN 2721 - CULTURAL CONSIDERATIONS IN COUNSELING
- COUN 2733 - COUNSELING SKILLS & TECHNIQUES

- COUN 2738 - DIAGNOSIS & TREATMENT OF COGNITIVE AND MENTAL HEALTH DISORDERS
- COUN 2742 - LEGAL, ETHICAL & PROFESSIONAL ISSUES IN COUNSELING
- COUN 2765 - CLINICAL COUNSELING MENTORSHIP

Spring Term - Year 1

- COUN 2732 - HUMAN DEVELOPMENT ACROSS THE LIFESPAN
- COUN 2734 - COUNSELING THEORIES AND TECHNIQUES
- COUN 2736 - CRISIS COUNSELING, RISK MANAGEMENT AND DISASTER PREPAREDNESS
- COUN 2737 - CLINICAL, DIAGNOSTIC AND FUNCTIONAL ASSESSMENT IN COUNSELING
- COUN 2739 - GROUP COUNSELING
- COUN 2765 - CLINICAL COUNSELING MENTORSHIP

Summer Term - Year 1

- COUN 2746 - COUNSELING PRACTICUM
- COUN 2765 - CLINICAL COUNSELING MENTORSHIP

Fall Term - Year 2

- COUN 2740 - CLINICAL APPLICATIONS IN COUNSELING
- COUN 2747 - CONCEPTUALIZATION, TREATMENT PLANNING, & CASE MANAGEMENT
- COUN 2748 - EVIDENCE BASED PRACTICE AND RESEARCH METHODS IN COUNSELING
- COUN 2749 - CLINICAL COUNSELING INTERNSHIP
- COUN 2765 - CLINICAL COUNSELING MENTORSHIP
- COUN 2714 - MEDICAL, PSYCHOSOCIAL, AND ASSISTIVE TECHNOLOGY CONSIDERATIONS IN DISABILITY
- COUN 2766 - INTRODUCTION TO ASSESSMENT AND TREATMENT FOR CHILDREN AND ADOLESCENTS
- COUN 2767 - TRAUMA AND GRIEF COUNSELING

Spring Term - Year 2

- COUN 2724 - CAREER COUNSELING & VOCATIONAL ISSUES
- COUN 2726 - SUBSTANCE ABUSE AND ADDICTIONS COUNSELING
- COUN 2743 - FAMILY AND COUPLES COUNSELING
- COUN 2749 - CLINICAL COUNSELING INTERNSHIP
- COUN 2751 - CLINICAL COUNSELING CAPSTONE EXAM

Clinical Capstone Examination

All Counseling students are required to pass a clinical competency examination. The Clinical Counseling Capstone Exam requires student demonstration of knowledge and skills that reflect entry-level competencies of a rehabilitation and mental health counselor. Students are assessed on knowledge and skills accumulated through coursework and clinical experiences. The Capstone requires students to synthesize and apply advanced concepts into clinical practice.

The Capstone employs a clinical case study approach. Students are charged with researching and completing a written review on a client issue or population with the expectation of demonstrating expertise. Students are provided a case study in their area of expertise to demonstrate their knowledge and skills. Students are expected to analyze and synthesize case materials for case conceptualization and then develop appropriate, realistic, and evidence-based intervention plans. Students are expected to apply appropriate counseling techniques included in their intervention plan via role-play simulations. Successful completion of the Capstone is needed for the student to demonstrate mastery of graduate study.

Total Credits: 60

Prosthetics & Orthotics Concentration, MS

Program Requirements/Minimum Credits

Students enrolled in the MSPO Program are required to complete 65 credits to meet degree requirements. The curriculum meets all requirements for students to do NCOPE residencies and take the American Board of Certification in Prosthetics, Orthotics, and Pedorthics certification examinations. Specific courses include:

Fall term, year one

- HRS 2771 - FUNCTIONAL ANATOMY AND KINESIOLOGY
- HRS 2772 - PATHOLOGY IN ORTHOTICS AND PROSTHETICS
- HRS 2773 - INTRODUCTION TO MATERIALS, EQUIPMENT, AND FABRICATION
- HRS 2774 - REHABILITATION BIOMECHANICS FOR THE HEALTH CARE PROFESSIONS

- HRS 2776 - PROFESSIONAL ISSUES IN PROSTHETICS AND ORTHOTICS
- HRS 2779 - PATIENT MANAGEMENT IN ORTHOTICS AND PROSTHETICS
- RT 2105 - INTRODUCTION TO EVIDENCE-BASED PRACTICE & RESEARCH METHODOLOGIES

Spring term, year one

- HRS 2727 - CAPSTONE FOR PROSTHETICS AND ORTHOTICS
- HRS 2775 - INTRODUCTION TO EVIDENCE - BASED PRACTICE IN ORTHOTICS AND PROSTHETICS
- HRS 2785 - LOWER EXTREMITY ORTHOTICS 1
- HRS 2883 - TRANS-TIBIAL PROSTHETICS
- RT 2208 - ETHICAL ISSUES IN HEALTHCARE

Summer term, year one

- HRS 2783 - SPINAL ORTHOTICS
- HRS 2786 - LOWER EXTREMITY ORTHOTICS 2
- HRS 2885 - TRANS-FEMORAL PROSTHETICS

Fall term, year two

- HRS 2933 - UPPER EXTREMITY ORTHOTICS
- HRS 2934 - UPPER EXTREMITY PROSTHETICS
- HRS 2903 - ISSUES IN THE HEALTH SYSTEM
- RT 2101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
- RT 2103 - INDIVIDUAL & SOCIAL EXPERIENCE OF DISABILITY

Spring term, year two

- HRS 2921 - CLINICAL INTERNSHIP (340 hours)
- HRS 2926 - SCHOLARLY PAPER
- HRS 2777 - PRACTICE MANAGEMENT IN PROSTHETICS AND ORTHOTICS

Program Total = 65 credits

*Each course is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence (for example: failure for any reason, to satisfactorily complete a required course; an unresolved "G" or "Incomplete" grade) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Comprehensive Exam

At the end of the fourth term of study, a comprehensive examination will be given, covering all aspects of the Program. All students are required to pass this examination prior to graduation.

Thesis/Non-thesis Options

All MSPO students are required to complete at least a Capstone Project, under the direction of a faculty advisor and an additional faculty reader. However, as a substitute for the Capstone Project, the student may elect to complete a master's thesis, under the direction of a faculty advisor and thesis committee. Students electing to pursue the thesis option will complete 3 credits of Graduate Research Proposal (RT 2413) in place of the 3 credit Capstone Project (HRS 2926) and will also complete 3 credits of Graduate Research (RT 2414).

Rehabilitation Technology, MRT

The 35-credit Master of Rehabilitation Technology program can be completed in 1 year (3 semesters), or 2 years (research track).

Fall Courses

- RT 2101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
- RT 2102 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN
- RT 2103 - INDIVIDUAL & SOCIAL EXPERIENCE OF DISABILITY
- RT 2104 - FUNCTIONAL & MEDICAL ASPECTS OF DISABILITY RELATED TO ASSISTIVE TECHNOLOGY
- RT 2105 - INTRODUCTION TO EVIDENCE-BASED PRACTICE & RESEARCH METHODOLOGIES

Spring Courses

- RT 2206 - REHABILITATION & ASSISTIVE TECHNOLOGY PRACTICES
- RT 2207 - CLIENT CENTERED REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN
- RT 2208 - ETHICAL ISSUES IN HEALTHCARE
- RT 2209 - CLINICAL APPLICATIONS OF SEATING AND MOBILITY
- RT 2210 - ASSISTIVE TECHNOLOGY FUNDING, POLICY, & MANAGEMENT

Fall, Spring, Summer Courses*

*Most students choose to complete during the Summer term

- RT 2311 - CLINICAL INTERNSHIP
- RT 2312 - SCHOLARLY PAPER

Elective Options

Students completing the 1-year, 35-credit program are not required to take electives in order to graduate. However, students pursuing the research track in 2 years may be recommended to take elective courses. Below are some recommended options. If there is another course you wish to take, please seek approval from your advisor prior to registration.

- RT 2415 - SOFT TISSUE BIOMECHANICS
- RT 2416 - WHEELCHAIR BIOMECHANICS
- RT 2999 - INDEPENDENT STUDY
- RT 2922 - TEACHING INTERNSHIP
- HRS 2774 - REHABILITATION BIOMECHANICS FOR THE HEALTH CARE PROFESSIONS
- LAW 5339 - LAW OF DISABILITY DISCRIMINATION
- HI 2210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 2451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 2452 - DIGITAL HEALTH

Department of Sports Medicine and Nutrition

In Pitt's Department of Sports Medicine and Nutrition (SMN), there's a vision for the future. It's a place where scientists, using contemporary, state-of-the-art practices have the potential to extend the careers of elite athletes and weekend warriors, where human performance optimization translates to injury prevention and military operational success, where exercise and diet help to prevent and manage disease and nutrition information impacts the well-being of the community and informs public policy.

It's a place where innovative and multidisciplinary research makes an immediate connection to real-world practices. Proof lies in the Department's growing number of regional, national and international partners as well as the quantity and quality of funding from prestigious organizations such as the National Institutes of Health, U.S. Department of Defense, NASA and others.

Through the use of technology and collaborative science, the Department of Sports Medicine and Nutrition is improving the quality of life and resiliency of people from all walks of life and abilities today, and championing health and wellness for life.

The department aims to meet these objectives by:

- developing cognitive skills, psychomotor mastery and affective values in students through the delivery of a proven formula of sound classroom education, combined with invaluable clinical education experiences, for the promotion of competent entry-level clinicians and enhancing the health and well-being of individuals and diverse populations
- becoming thoughtful leaders by advancing the state of the science through evidenced-based practice, rigorous curricula, interdisciplinary collaboration and innovative technology
- mitigating injury and disease and optimize human performance by conducting innovative, multidisciplinary basic and applied research and contributing to the scientific community in order to enhance clinical decisions and education

Accelerated

Athletic Training, BS-MS

[In Spring of 2021, the bachelor of science degree in Athletic Training was approved to transition to the master's level. Beginning in the fall of 2021, the university began offering an Accelerated BS-MS in Athletic Training for students interested in pursuing a degree in Athletic Training.](#)

The athletic training degree program earned initial accreditation in 1997 and continuing accreditation in 2004 and 2012 through the Commission on Accreditation of Athletic Training Education (CAATE). Prior to this, the curriculum had been National Athletic Trainers' Association approved since 1978. The athletic training curriculum is defined by the current Board of Certification, Inc. Role Delineation Study/Practice Analysis, which consists of five performance domains to include: (1) Risk Reduction, Wellness, and Health Literacy; (2) Assessment, Evaluation, and Diagnosis; (3) Critical Incident Management; (4) Therapeutic Intervention; (5) Healthcare Administration and Professional Responsibility. The curriculum is structured to provide both academic and clinical instruction. The academic curriculum includes such courses as anatomy, kinesiology, human and exercise physiology, injury evaluation, medical and pharmacological principles, administrative aspects, among others. The course work provides a foundation for hands-on clinical experiences provided in the clinical education setting. The students' clinical requirements include direct patient care with athletes and physically active patients and evaluation of skills by preceptors who supervise each student's clinical experience. Students rotate through four on-campus athletic training facilities and several off-site affiliated settings during the clinical education component acquiring valuable skills under the direct supervision of certified athletic training staff, team physicians and other allied health professionals. Upon successful completion of the program, students are eligible to sit for the BOC, Inc. certification examination. Successful completion of this exam affords the candidate a variety of employment opportunities including athletic training positions at the high school, college, or university level; sports medicine and

rehabilitation clinics; and professional athletic teams. Additionally, many students pursue graduate education opportunities in a number of sports medicine-related professions.

Admission Requirements

SHRS is updating our General Education requirements. Students entering the University of Pittsburgh in Fall 2021 as first-year students, and students currently enrolled at the University of Pittsburgh and external transfer students entering the upper-level programs offered at SHRS in Fall 2023, must complete the new general education requirements before graduating. Our General Education Requirements are included in our upper-level program prerequisites and curriculum requirements; therefore, changes will be reflected in prerequisites and curriculum requirements.

Prerequisite Courses

Requirements for students entering the University of Pittsburgh in Fall 2021 as first-year students, and students currently enrolled at the University of Pittsburgh and external transfer students entering the upper-level programs offered at SHRS in Fall 2023:

Basic Athletic Training, ATHLTR 1811	<i>Transfer credit not accepted</i>
Basic Athletic Training Lab, ATHLTR 1812	<i>Transfer credit not accepted</i>
Seminar in Composition*	1 course
Writing Intensive	1 course (<i>ENGCMP 0400 recommended</i>)
Oral Communication	1 course (COMMRC 0520 preferred; COMMRC 0500, <i>COMMRC 0510, COMMRC 0530 acceptable</i>)
College Algebra	1 course (MATH 0031 or higher math required. <i>Exemption accepted</i>)
Statistics	1 course (STAT 0200 or STAT 1000 required)
Diversity*	1 course
Social Sciences*	1 course
Foundations of Biology 1	BIOSC 0150
Foundations of Biology 1 Lab	BIOSC 0050, BIOSC 0057 or BIOSC 0058
General Chemistry 1 and Lab	CHEM 0110
Introduction to Physics	PHYS 0110
Introduction to Psychology	PSY 0010
Developmental Psychology (PSY 0310) or other upper level Psychology	3 credits

Cross-Cultural Awareness*, Global Issues* or Specific Geographic Region*	1 course
--	----------

* See the Dietrich School of Arts and Sciences General Education Course Catalog.

Additional Requirements

- Required credits for admission: 60 (Applications may be submitted while prerequisite coursework is in progress).
- Grades of C- or better (C for transfer) in all prerequisite coursework with the exception of ATHLTR 1811 and ATHLTR1812, where a grade of B or better must be earned.
- EMT certification through course for credit or other qualified course leading to EMT credential. Verification of completion of EMT certification must be provided to the program director.
- Minimum cumulative GPA of 2.8 (based on 4.0).
- Submit admissions application including technical standards for admission document.
- Personal interview with athletic training faculty.

The Athletic Training Program at the University of Pittsburgh is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education [CAATE]).

The following abilities and expectations must be met by all students admitted to the Athletic Training Program. Candidates for selection to the Athletic Training Program must demonstrate:

- The mental capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
- Sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely, and efficiently use equipment and materials during the assessment and treatment of patients.
- The ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.
- The ability to record the physical examination results and a treatment plan clearly and accurately.
- The capacity to maintain composure and continue to function well during periods of high stress.
- The perseverance, diligence, and commitment to complete the athletic training program as outlined and sequenced.
- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
- Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Application Procedures

Application Deadline: March 1

Pitt Students (including regional campuses)

SHRS is moving to a new application platform. Please visit the SHRS website to access information about applying to enter our programs.

Transfer Student Information

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Athletic Training as their intended field of study. International transfer students click here. Transfer students must also provide application materials directly to SHRS.

All admission criteria applies to transfer students in the same way as students enrolled at the Pittsburgh campus. Students with prior athletic training experience seeking to transfer to the University of Pittsburgh for admission to the Athletic Training Program must complete the same prerequisite requirements as all other candidates including the Basic Athletic Training (ATHLTR 1811) and Basic Athletic Training Lab (ATHLTR 1812) courses and all observation hours. If admitted to the program, all students must complete University of Pittsburgh core athletic training courses. In some instances, credit may be given for other coursework taken at another institution and will be evaluated on an individual case basis. International transfer students click here.

Curriculum

Coursework for the professional BS-MS in Athletic Training program is divided into two phases: Pre-Professional Phase and the Professional Phase. Students applying for the Accelerated BS-MS in Athletic Training program will complete prerequisite coursework during the first two years of their undergraduate degree. At the conclusion of their sophomore year, students will apply to the Accelerated BS-MS in Athletic Training program. Upon successful application and acceptance into the program, students will complete one year (two semesters) of pre-professional curriculum. During their last two years, students will complete the professional (graduate) curriculum.

Pre-professional Phase

During the pre-professional phase students complete prerequisite and general education courses along with specific Athletic Training-related prerequisites.

First Semester (Fall)

- REHSCI 1200 - HUMAN ANATOMY
 - REHSCI 1201 - HUMAN ANATOMY LAB
 - HRS 1023 - HUMAN PHYSIOLOGY
 - REHSCI 1235 - MEDICAL TERMINOLOGY
 - NUTR 1006 - INTRO TO HUMAN NUTRITION
 - ATHLTR 1813 - INTRODUCTION TO CLINICAL ATHLETIC TRAINING 1
 - ATHLTR 1816 - MEDICAL ETHICS
- 16 Credits**

Second Semester (Spring)

- REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY
 - REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
 - REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB
 - REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
 - REHSCI 1215 - EXERCISE PHYSIOLOGY
 - ATHLTR 1814 - INTRODUCTION TO CLINICAL ATHLETIC TRAINING 2
 - ATHLTR 1833 - STRENGTH AND CONDITIONING
- 15 Credits**

Professional Phase

The following courses are to be completed in four semesters and are graduate-level curriculum.

First Semester (Fall)

- ATHLTR 2801 - CLINICAL PRACTICUM 1
 - ATHLTR 2805 - INJURY/EVAL 1 - LOWER EXTREMITY
 - ATHLTR 2807 - THERAPEUTIC INTERVENTIONS 1
 - ATHLTR 2809 - FUNCTIONAL HUMAN ANATOMY
 - ATHLTR 2810 - EVIDENCE BASED PRACTICE IN ATHLETIC TRAINING
- 15 Credits**

Second Semester (Spring)

- ATHLTR 2802 - CLINICAL PRACTICUM 2

- ATHLTR 2806 - INJURY/EVAL 2 - UPPER EXTREMITY
 - ATHLTR 2813 - GENERAL MEDICAL AND PHARMACOLOGICAL CONDITIONS
 - ATHLTR 2808 - THERAPEUTIC INTERVENTIONS 2
- 15 Credits**

Third Semester (Fall)

- ATHLTR 2803 - CLINICAL PRACTICUM 3
 - ATHLTR 2811 - GRADUATE RESEARCH 1
 - ATHLTR 2814 - ADVANCED CLINICAL PROCEDURES
 - ATHLTR 2815 - CURRENT CONCEPTS IN SPORTS MEDICINE
 - ATHLTR 2816 - ADMINISTRATIVE ASPECTS OF ATHLETIC TRAINING
- 15 credits**

Fourth Semester (Spring)

- ATHLTR 2804 - CLINICAL PRACTICUM 4 - CLINICALLY IMMERSIVE SEMESTER
 - ATHLTR 2812 - GRADUATE RESEARCH 2
 - ATHLTR 2817 - LEADERSHIP AND PROFESSIONAL DEVELOPMENT
 - ATHLTR 2818 - BOARD OF CERTIFICATION (BOC) PREPARATION
 - Elective of choice, 3 credits
- 15 Credits**

Nutrition and Dietetics, BS-MS

Students who choose to pursue Pitt's Dietitian Nutritionist Program degree are ahead of the game! In 2024, all Registered Dietitian/Nutritionists (RDNs) entering the field will be required to have a masters level degree to enter the profession. The program is a competency-based educational program that integrates experiential learning with didactic coursework to enable students to demonstrate the higher level of competence that will be needed for future practice as a Registered Dietitian Nutritionist.

Interested students will apply in the Spring Term of each year to begin the program as juniors or graduate students in Fall Term. For incoming Pitt freshmen, a guaranteed admit will be available to enable students to complete the BS/MS degree in 5-years by following the recommended course schedule.

For more information, please contact:

Deborah A. Hutcheson, DCN, RDN, LDN
 Program Director, Dietitian Nutritionist Program
 6038 Forbes Tower
 412-383-6747
 Fax: 412-383-6636
 E-mail: dhutches@pitt.edu

About

The Dietitian Nutritionist Program, housed within the Department of Sports Medicine and Nutrition, is an accelerated BS/MS graduate degree program accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) as a Future Education Model Graduate Degree Program (FG). The competency-based educational program that integrates experiential learning with didactic coursework affording graduates a strong foundation in medical nutrition therapy, public health nutrition and food service. Students may apply for a specialty rotation option that provides an immersive experience in a specialty practice area.

This accelerated program offers points of entry for:

- qualified undergraduates
- post-baccalaureate candidates

- graduates of Didactic Programs in Dietetics (DPD)

Undergraduate students will earn both Bachelor of Science and Master of Science degrees. Students who enter the program with a bachelor's degree will earn a Master of Science. Preparation for a career in dietetics as a Registered Dietitian Nutritionist (RDN) requires the following:

- completion of an ACEND accredited degree-granting program
- completion of an ACEND accredited supervised experiential practice meeting all required competencies*
- successful performance on the national Registration Examination for Dietitians**

No matter your professional goals in the Dietetics profession, this program offers an entry-level advanced degree option to provide a competitive edge for today's health care environment. Upon successful completion of the master's program graduates are eligible to take the national registration examination for Dietitians. Graduates passing the registration exam are eligible for licensure in Pennsylvania by the Board of Nursing. For licensing information please visit Instructions for Licensed Dietitian-Nutritionist (LDN) Applicants.

*This program provides supervised experiential practice required to become an RDN. The supervised experiential practice sites are randomly assigned and public transportation is not available to all sites. All students should anticipate the necessity of having access to their own transportation for Year 2 and Year 3 of the program. Please review the experiential practice information.

**The credentialing exam requirements are set by the Commission on Dietetic Registration (CDR).

For more information on becoming an RDN, visit www.eatright.org.

Program Requirements

Admission

There are three ways to enter the Dietitian Nutritionist Program. As an undergraduate, a post-baccalaureate, and as a graduate of a Didactic Program in Dietetics (DPD). The application deadline for all entry points is March 1. Application review begins in January. Admission is for the fall term only. Applications can be submitted when course requirements are in progress.

Entry Point for Undergraduate Students to the Accelerated BS-MS Program

Prerequisites must be completed for a letter grade, minimum grade of C- (C for transfer) unless otherwise noted; with the exception of AP/IB credits and/or exemptions awarded by the University of Pittsburgh. Courses listed below are offered at the Pittsburgh Campus, courses taken at the regional Pitt campuses or external institutions must be evaluated as equivalent to satisfy these requirements.

- General Chemistry 1 with lab, CHEM 0110
- General Chemistry 2 with lab, CHEM 0120
- Foundations of Biology 1, BIOSC 0150
- Foundations of Biology 2, BIOSC 0160
- Biology Lab, BIOSC 0057 or BIOSC 0058
- Organic Chemistry, CHEM 0350, or CHEM 0310 and CHEM 0320
- Biochemistry, BIOSC 1000*
- Introduction to Microbiology, BIOSC 1850 or HRS 1025
- College Algebra, MATH 0031 or higher math required. Exemption accepted.
- Statistics, STAT 0200 or STAT 1000
- English Composition, ENGCOMP 0200 or equivalent
- English Writing, any "W" or upper-level writing course
- Communications, any COMMRC course
- Business, any Business or Economics course
- Sociology/ Social Science/ Humanities, any
- Psychology, PSY 0010
- Introduction to Nutrition, HRS 1006 or NUTR 1006*
- Introduction to Dietetics, NUTR 1600+
- Food and Culture, NUTR 1600+

*These courses need to have been completed within the past five years.

+These courses can be taken in the first year of the Dietitian Nutritionist Program.

Additional Requirements

- Minimum cumulative and prerequisite GPA of 3.0 (based on 4.0)
- Personal interview with nutrition faculty
- 61-63 credits are required to begin the program

Application Requirements

- Complete the application for admission. SHRS is moving to a new application platform. Please visit the SHRS website to access information about applying;
- Self-evaluation essay, discussing strengths, skills, and experiences that will contribute to success in the program and your professional goals as a registered dietitian;
- Resume demonstrating evidence of adequate exposure to the field of dietetics and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a nutrition and dietetics related settings; there is no minimum number of hours required;
- Three letters of recommendation: one from a registered dietitian, one from a supervisor in volunteer or work experience and one from a college professor. These letters should address the applicant's academic, professional and personal attributes and potential for meaningful graduate study. At least one letter should speak to your leadership experience and commitment to service;
- Transcripts from all institutions attended. Pitt students do not have to provide transcripts they have already submitted to Pitt. SHRS General Education Requirements are included in our upper-level program prerequisites and curriculum requirements.

Entry Point for Post Baccalaureate Students to the MS Program

Prerequisites must be completed for a letter grade, minimum grade of C. Coursework will be evaluated at time of application for equivalency to Pitt courses.

- General Chemistry 1 with lab
- General Chemistry 2 with lab
- Foundations of Biology 1
- Genetics or Foundations of Biology 2
- Biology Lab
- Organic Chemistry 1
- Organic Chemistry 2
- Biochemistry*
- Introduction to Microbiology
- College Algebra or higher math
- Statistics
- English Composition
- English Writing
- Communications
- Business
- Sociology/ Social Science/ Humanities
- Psychology
- Introduction to Nutrition*
- Introduction to Dietetics+
- Food and Culture+

*These courses need to have been completed within the past five years.

+These courses can be taken in the first year of the Dietitian Nutritionist Program.

Additional Requirements

- Baccalaureate degree from an accredited institution
- Minimum cumulative and prerequisite GPA of 3.0 (based on 4.0)
- Personal interview with nutrition faculty

Application Requirements

- Complete the GradCAS application;

- Self-evaluation essay, discussing strengths, skills, and experiences that will contribute to success in the program and your professional goals as a registered dietitian;
- Resume demonstrating evidence of adequate exposure to the field of dietetics and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a nutrition and dietetics related settings; there is no minimum number of hours required;
- Three letters of recommendation: one from a registered dietitian, one from a supervisor in volunteer or work experience and one from a college professor. These letters should address the applicant's academic, professional and personal attributes and potential for meaningful graduate study. At least one letter should speak to your leadership experience and commitment to service;
- Transcripts from all institutions attended.
- Additional requirements for international applicants
 - Academic Credential Evaluation from World Education Services (WES), Inc. or Educational Credential Evaluators, Inc. A course by course evaluation with GPA conversion is required for baccalaureate degree or higher completed at an institution outside of the United States.
 - English Language Proficiency scores. Minimum scores accepted:
 - TOEFL: 100. Submit electronically to institution code 2927.
 - IELTS: 7.0. Scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences".
 - Duolingo: 120. Scores should be made available electronically to "University of Pittsburgh - Health and Rehabilitation Sciences".

Entry Point for DPD Graduates to the MS Program

Prerequisites must be completed for a letter grade, minimum grade of C. Coursework will be evaluated at time of application for equivalency to Pitt courses.

- Foundations of Biology 1 with Lab, 4 credits
- Genetics or Foundations of Biology 2, 3 credits
- Human Physiology, 4 credits
- Introduction to Microbiology, 3 credits
- General Chemistry 1 with Lab, 4 credits
- General Chemistry 2 with Lab, 4 credits
- †Organic Chemistry 1, 3 credits
- †Organic Chemistry 2, 3 credits
- *Biochemistry, 3 credits
- Communications, 3 credits
- Business or Economics, 3 credits
- Humanities or Social Science, 3 credits
- Introduction to Psychology, 3 credits
- English Composition/Writing, 6 credits
- Algebra, 2-4 credits
- *Introduction to Nutrition, 3 credits
- Introduction to the Profession of Dietetics, 1 credit
- Food and Culture, 3 credits
- Nutrition Assessment, 3 credits
- Nutrition Education, 3 credits
- Nutrient Metabolism, 3-6 credits
- Food Applications with Lab, 4 credits
- Food Service Management, 3 credits
- Life Cycle Nutrition, 3 credits
- Nutrition Therapy, 3 credits

*These courses need to have been completed within the past five years.

†CHEM 0350 (3 cr.) offered each Spring Term will satisfy the Organic Chemistry requirement. Students who do not take CHEM 0350 must take OCHEM 1 & 2 (6 cr.).

+Genetics is preferred; however, a Biology 2 course with a strong genetics component will fulfill the requirements.

Additional Requirements

- Baccalaureate degree from an accredited institution
- Verification Statement from accredited program
- Minimum cumulative and prerequisite GPA of 3.0 (based on 4.0)
- Personal interview with nutrition faculty

Application Requirements

- Complete the GradCAS application;
- Submit a self-evaluation essay, discussing strengths, skills and experiences that will contribute to success in the program and your professional goals as a registered dietitian;
- Submit resume demonstrating evidence of adequate exposure to the field of dietetics and an appreciation of the breadth, depth and scope of practice. This can be accomplished through either volunteer or paid work experience in a nutrition and dietetics related settings; there is no minimum number of hours required;
- Submit three letters of recommendation: one from a registered dietitian, one from a supervisor in volunteer or work experience and one from a college professor. These letters should address the applicant's academic, professional and personal attributes and potential for meaningful graduate study. At least one letter should speak to your leadership experience and commitment to service;
- Submit official transcripts from all colleges and universities attended;
- Additional requirements for international applicants
 - Academic Credential Evaluation from World Education Services (WES), Inc. or Educational Credential Evaluators, Inc. A course by course evaluation with GPA conversion is required for baccalaureate degree or higher completed at an institution outside of the United States.
 - English Language Proficiency scores. Minimum scores accepted:
 - Duolingo: 120. Scores should be made available electronically to "University of Pittsburgh - Health and Rehabilitation Sciences".
 - IELTS: 7.0. Scores should be made available electronically to "University of Pittsburgh Health and Rehabilitation Sciences".
 - TOEFL: 100. Submit electronically to institution code 2927.

Essential Standards

This information is provided to inform applicants of the non-academic technical performance and expectation standards required to complete the program successfully. Applicants should review the essential program standards to ensure that they are able to meet and maintain the standards program. The University fosters a culture of inclusiveness and is committed to providing an accessible environment for its faculty, staff and students. Please note, the Dietitian Nutritionist Program is committed to non-discrimination, including on the basis of disability. Individuals with disabilities are encouraged to apply and reasonable accommodations will be provided as appropriate. The following link provides detailed information on Essential Program Standards.

Please note that this program requires students to complete portions of their education (e.g., supervised experiential practice experiences) at facilities external to the University to meet requirements for graduation. Many of these external facilities require screening measures such as, but not limited to, criminal background check, child abuse clearance, health appraisal, fingerprint-based background check and/or drug test prior to placement at the facility. The results of these requirements may limit and potentially eliminate placement options for the student which can, in turn, result in an inability to meet graduation requirements. Additionally, a conviction of a misdemeanor, felony, or felonious or illegal act abuse may prevent the student from becoming credentialed and/or licensed to practice in the field.

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability, or status as a disabled veteran or a veteran of the Vietnam era. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. For information on University equal opportunity and affirmative action programs and complaint/grievance procedures, contact the Office of Affirmative Action, 901 William Pitt Union, University of Pittsburgh, Pittsburgh, PA 15260, 412-648-7860/412-648-7860.

The Dietitian Nutritionist Program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) the accrediting agency for the Academy of Nutrition and Dietetics (A.N.D.), (ACEND@eatright.org), phone (1-800-877-1600 or 1-800-877-1600 x5400), or mail (120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995).

Program Mission, Goals and Objectives

The mission of the Dietitian Nutritionist Program is the development of graduates with the competence and advanced skills to practice effectively as entry-level Registered Dietitian Nutritionists (RDN) to enhance the health and wellbeing of individuals and diverse populations. In addition, the vision is to lead among dietetics programs in advancing knowledge, skills, and evidence-based practice of RDNs.

The program goals are:

1. Development of graduates with the competence and advanced skills to practice effectively as entry-level Registered Dietitian Nutritionists (RDN).
2. To prepare entry-level graduates with advanced knowledge and skills that contribute to the evidence-informed practice of RDNs.

Program outcomes are available upon request.

Curriculum

Students entering as a junior will complete 156 credits and students entering with a baccalaureate degree that is not from a Didactic Program in Dietetics (DPD) will complete 93-95 credits during this three-year program. Didactic Program in Dietetics (DPD) graduates will complete Year 2 & Year 3 of the program fulfilling a 60-credit course of study.

First Year

Fall Term

- NUTR 1000 - INTRODUCTION TO RESEARCH
- NUTR 1602 - NUTRITION ASSESSMENT
- NUTR 1620 - NUTRIENT METABOLISM
- NUTR 1622 - LIFE CYCLE NUTRITION
- HRS 1023 - HUMAN PHYSIOLOGY
- NUTR 1600 - INTRODUCTION TO DIETETICS (if not taken previously)

Spring Term

- NUTR 1605 - PRINCIPLES OF NUTRITION EDUCATION
- NUTR 1604 - FOOD SERVICE MANAGEMENT WITH LAB
- NUTR 1614 - NUTRITION CRITICAL THINKING OR NUTR 1612 - FOOD AND CULTURE (If not taken previously)
- NUTR 1610 - FOOD APPLICATION
- NUTR 1613 - FOOD APPLICATION LAB
- NUTR 1625 - NUTRITION THERAPY

*Students must maintain a 3.0 minimum GPA to matriculate from Year 1 to Year 2 of the program.

Second Year

Didactic Program in Dietetics (DPD) graduates will enter the Dietitian Nutritionist Program here.

Fall Term

- HRS 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
- HRS 2623 - ADVANCED MEDICAL NUTRITION THERAPY 1
- HRS 2631 - NUTRITION FOCUSED PHYSICAL EXAMINATION
- HRS 2635 - PROFESSIONAL DEVELOPMENT
- Elective, 3 credits - Advisor approved

Spring Term

- HRS 2612 - ADVANCED MEDICAL NUTRITION THERAPY 2
- HRS 2625 - COUNSELING METHODS
- HRS 2646 - INTRODUCTION TO FUNCTIONAL NUTRITION WITH LAB
- NUR 2034 - ADVANCED PHARMACOLOGY ACROSS THE LIFESPAN
- HRS 2655 - RESEARCH METHODOLOGY AND APPLIED STATISTICS

Undergraduate students will receive a BS in Nutrition Science after successful completion of the Year 2.

Third Year

Fall Term

- HRS 2654 - PRACTICUM IN DIETETICS 1
- HRS 2647 - EXPERIENTIAL PRACTICE: COMMUNITY NUTRITION
- HRS 2657 - EXPERIENTIAL PRACTICE 1
- HRS 2658 - CAPSTONE PROJECT

Spring Term

- HRS 2656 - PRACTICUM IN DIETETICS 2
- HRS 2671 - EXPERIENTIAL PRACTICE 2
- HRS 2652 - EXPERIENTIAL PRACTICE 3

Master's

Athletic Training, MS

The athletic training degree program earned initial accreditation in 1997 and continuing accreditation in 2004 and 2012 through the Commission on Accreditation of Athletic Training Education (CAATE). Prior to this, the curriculum had been National Athletic Trainers' Association approved since 1978. The MS in Athletic Training program will undergo re-accreditation in 2022.

The athletic training curriculum is defined by the current Board of Certification, Inc. Practice Analysis, which consists of five performance domains that include: (1) Injury and Illness Prevention and Wellness Promotion; (2) Examination, Assessment, and Diagnosis; (3) Immediate and Emergency Care; (4) Therapeutic Intervention; (5) Healthcare Administration and Professional Responsibility. The curriculum (both didactic and clinical) requirements for programs at the Masters level is outline in the CAATE's 2020 Standards for Professional Programs. The program's didactic curriculum includes courses that will provide foundational knowledge in injury evaluation and treatment, general medical principles, pharmacological intervention, emergency response, statistics, research design, epidemiology, pathophysiology, biomechanics and pathomechanics, exercise physiology, nutrition, human anatomy, pharmacology, public health, and health care delivery and payor systems. This foundational knowledge will prepare the student to:

- evaluate and manage patients with acute conditions, including triaging conditions that are life threatening or otherwise emergent
- perform an examination to formulate a diagnosis and plan of care for patients with health conditions commonly seen in athletic training practice
- perform or obtain the necessary and appropriate diagnostic or laboratory tests to facilitate diagnosis, referral, and treatment planning
- advocate for the health needs of clients, patients, communities, and populations
- identify health care delivery strategies that account for health literacy and a variety of social determinants of health
- incorporate patient education and self-care programs to engage patients and their families and friends to participate in their care and recovery

- communicate effectively and appropriately with clients/patients, family members, coaches, administrators, other health care professionals, consumers, payors, policy makers, and others
- practice in collaboration with other health care and wellness professionals
- practice in a manner that is congruent with the ethical standards of the profession

The students' clinical requirements include direct patient care with athletes and physically active patients. The requirements also include an evaluation of skills by preceptors who supervise each student's clinical experience. Students rotate through four on-campus athletic training facilities and several off-site affiliated settings during the clinical education component acquiring valuable skills under the direct supervision of certified athletic training staff, team physicians and other allied health professionals. In addition to the four clinical rotations, the MS in AT degree will also include a 4-week (at minimum) immersive clinical experience. This immersive experience is a practice-intensive experience that allows the student to experience the totality of care provided by athletic trainers. Students will participate in the day-to-day and week-to-week role of an athletic trainer.

Upon completion of the MS in Athletic Training, students are eligible to sit for the BOC, Inc. certification examination. Successful completion of this exam affords the candidate a variety of employment opportunities including athletic training positions at the high school, college/university level; sports medicine/rehabilitation clinics; and professional athletic teams.

Admissions Requirements

Students will be admitted into the MS in Athletic Training program in SHRS after the successful completion of the following prerequisites:

A. Successful completion of a Baccalaureate degree from a nationally accredited institution

B. Prerequisites coursework for admission include:

1. Human Anatomy* (4 credits minimum)
2. Human Physiology* (4 credits minimum)
3. Exercise Physiology (3 credits minimum)
4. Introduction to Biology* (4 credits minimum)
5. Introduction to Physics (3 credits minimum)
6. Introduction to Chemistry* (4 credits minimum)
7. Kinesiology or Biomechanics (3 credits minimum)
8. Mathematics or Statistics (3 credits minimum)
9. English Composition (6 credits minimum)
10. Psychology (6 credits minimum, must include Introduction to Psychology)
11. Public Speaking (3 credits)
12. Humanities and Social Sciences Electives (6 credits minimum)
13. Nutrition (3 credits minimum)

A grade of C or better is needed in all prerequisite coursework *Human Anatomy, Physiology, Biology and Chemistry must include a laboratory

Recommended Electives:

1. Medical Terminology
2. Medical Ethics
3. Strength and Conditioning

C. Overall cumulative grade point average (GPA) and a prerequisite GPA of 3.0 on a four-point scale

D. Undergraduate coursework completed no longer than 10 years prior to application

E. EMT certification is required either through a course for credit or another qualified course leading to NR-EMT credential

F. A minimum of 65 hours of clinical observation under the direct supervision of a certified athletic trainer in at least two different settings

G. Graduate Record Examination (GRE) not required

H. Completion of admissions application including Technical Standards for admissions document

I. Successful completion of interview (skype, phone or in person)

Program Curriculum

Year 1 (Summer) - 5 Credits

- ATHLTR 1811 - BASIC ATHLETIC TRAINING
- ATHLTR 1812 - BASIC ATHLETIC TRAINING LAB
- ATHLTR 1815 - FOUNDATIONS IN EVALUATION AND TREATMENT

Year 1 (Fall) - 15 Credits

- ATHLTR 2801 - CLINICAL PRACTICUM 1
- ATHLTR 2805 - INJURY/EVAL 1 - LOWER EXTREMITY
- ATHLTR 2807 - THERAPEUTIC INTERVENTIONS 1
- ATHLTR 2809 - FUNCTIONAL HUMAN ANATOMY
- ATHLTR 2810 - EVIDENCE BASED PRACTICE IN ATHLETIC TRAINING

Year 1 (Spring) - 15 Credits

- ATHLTR 2802 - CLINICAL PRACTICUM 2
- ATHLTR 2806 - INJURY/EVAL 2 - UPPER EXTREMITY
- ATHLTR 2808 - THERAPEUTIC INTERVENTIONS 2
- ATHLTR 2813 - GENERAL MEDICAL AND PHARMACOLOGICAL CONDITIONS

Year 2 (Fall) - 15 Credits

- ATHLTR 2803 - CLINICAL PRACTICUM 3
- ATHLTR 2811 - GRADUATE RESEARCH 1
- ATHLTR 2814 - ADVANCED CLINICAL PROCEDURES
- ATHLTR 2816 - ADMINISTRATIVE ASPECTS OF ATHLETIC TRAINING

Year 2 (Spring) - 15 Credits

- ATHLTR 2804 - CLINICAL PRACTICUM 4
- ATHLTR 2812 - GRADUATE RESEARCH 2
- ATHLTR 2815 - CURRENT CONCEPTS IN SPORTS MEDICINE
- ATHLTR 2817 - LEADERSHIP AND PROFESSIONAL DEVELOPMENT
- ATHLTR 2818 - BOARD OF CERTIFICATION (BOC) PREPARATION
- ATHLTR ELECTIVE (3 Credits)

Total Credits: 65

Nutrition and Dietetics, MS

Sports Medicine and Nutrition - Sports Medicine Concentration, MS

In the Summer 2022 the Sports Medicine and Nutrition - Sports Medicine Concentration, MS was terminated. Students that are currently in the program will be given the option to have their designation remain as an area of concentration or change to the new major.

The Sports Medicine (SM) program focuses on enhancing the knowledge base in the prevention, assessment, treatment and rehabilitation of athletic injuries and illness. Athletic Trainers, other health care professionals, and individuals interested in sports medicine will find the curriculum well-suited to meet their post-professional goals and objectives.

For more information, please contact:

About

The Sports Medicine (SM) concentration leading to a Master of Science degree in Health and Rehabilitation Sciences is a two-year graduate program housed within the Department of Sports Medicine and Nutrition.

Program Summary
36 credits (full-time-only)
4 terms
Program starts fall term only

Sports medicine is a multidisciplinary field that focuses on health care issues for athletes and physically active individuals. The SM program has a research focus and provides a core curriculum that is central to the pathokinesiology of joint injury and the principles by which restoration of joint function is accomplished. Graduates of the program seek appointments in both clinical and educational settings at colleges and universities, high schools and private sports medicine clinics. Individuals who have successfully completed our program include athletic trainers, physical therapists, bioengineers and exercise physiologists.

Research

Students are provided with a research experience within the Neuromuscular Research Laboratory/Warrior Human Performance Research Center that focuses on issues central to clinical research in orthopedics and sports medicine. Research includes the use of electromyography, motion analysis, isokinetic dynamometry, physiological, proprioceptive, and balance assessment modalities for the purpose of defining and restoring function as well as optimizing performance in military personnel, injured athletes, and in physically active individuals.

The NMRL boasts:

- 30 years of comprehensive, relevant sports medicine research as part of the University of Pittsburgh
- A 10-year history of Department of Defense (DoD) Human Performance Operation and Injury Prevention Research
- Unique understanding of DoD Human Performance Operation and Injury Prevention needs
- Multi-disciplinary, team-centric approaches to research

- Cutting-edge and innovative research capabilities

Admission Requirements:

All applicants must:

- Complete the GradCAS application
- Submit the application fee of \$50 (U.S.)
- GRE scores are not required
- Submit a self-evaluation essay addressing your purpose for applying to the program, your ability to successfully complete the program, and your goals (short and long term)
- Submit three letters of reference, preferably from individuals who have instructed you in academic settings and/or supervised research activities. These letters should address the applicant's academic, professional, clinical (as appropriate) and personal attributes; as well as potential for meaningful graduate study
- Submit official transcripts from all colleges/universities attended
- Additional requirements for international applicants can be found on the SHRS website

Application deadline is March 15.

Early application deadline of January 15 to be considered for program scholarships.

Students may be eligible for the following scholarships:

Sports Medicine Resource Fund

This graduate scholarship was created to help defray the cost of professional development activities. Eligible students are those individuals who have completed their undergraduate Athletic Training degree at the University of Pittsburgh and are now continuing their education at Pitt through the Master's in Sports Medicine Program. This scholarship can be used toward travel and attendance at a professional meeting.

Freddie H. Fu, MD Graduate Research Award

The award is named for and presented in honor of Freddie H. Fu, MD for the continued support of research in the field of Sports Medicine. The purpose of this award is to encourage graduate research activity by recognizing exceptional student research projects and defraying some of the expenses associated with the student research. The number of awards presented each year will be contingent on the number of quality proposals submitted and monies available.

American College of Sports Medicine (ACSM)

The ACSM provides research grants and scholarships from various endowments and funds including education, minority scholarships, and Foundation Research Grants. For more information.

NATA Research and Education Foundation Graduate/Doctoral Scholarship

The National Athletic Trainers' Association provides a number of scholarships to eligible students on the basis of academic and clinical excellence as well as participation in campus and community activities that demonstrate qualities of leadership and service. Applicants must be student members of the NATA by November 1 of the year preceding submission of the application, be enrolled in an accredited curriculum program and intend to pursue the profession of athletic training as their means of livelihood and have a minimum GPA of 3.2 or higher. Completed applications must include a statement of support by a certified athletic trainer and verification of academic standing. The amount of each scholarship is \$2,300.00. Applications will be posted on the NATA website approximately September 1. Go to NATA Foundation for additional application information. Deadlines for portions of the application begin in January. Learn more about this scholarship.

NATA Research & Education Foundation Master's/Doctoral Research Grant

View more about this grant here.

Financial Aid

Tuition scholarships are available to master's candidates and may include appointments at the University of Pittsburgh, NMRL or UPMC Sports Medicine. The yearly scholarships vary.

Academic Standards

An average of at least B (GPA=3.00) is required in all courses that make up the MS emphasis in sports medicine. A student who receives a grade lower than a C is required to retake the course according to the School of Health and Rehabilitation Sciences policy.

Student Scholarship Appointment Standards

The Department of Sports Medicine and Nutrition, in accordance with the University of Pittsburgh and School of Health and Rehabilitation Sciences, defines a student scholarship as a teaching assistant, teaching fellow, graduate student assistant, or student employee trainee (TA/TS/GSA/SET). Although student scholarship appointments may not be made for more than one year, a student may be reappointed. While it is impossible to guarantee reappointments, most students making satisfactory progress toward a graduate degree and whose teaching or other service performance is satisfactory will receive at least one renewal of their appointment or an offer of other financial assistance. If it is impossible to offer renewal or other appointments, priority will be given to those with superior academic, teaching, and service qualifications.

The criteria for reappointment are the quality of assigned work and academic achievement. Unsatisfactory academic performance is a cumulative GPA below 3.00 or completion of fewer than 9 credits of graduate work per term. As such, students who have a cumulative GPA below 3.00 at the time of scholarship reappointment will not receive reappointment of their scholarship. This policy is in accordance with the University of Pittsburgh Policy Statement for Teaching Assistants, Teaching Fellows, and Graduate Student Assistants.

Program Requirements

The concentration in sports medicine requires a student to successfully complete a minimum of 36 credits and is available with a thesis and non-thesis option. Master's degree candidates must successfully defend a thesis research project or scholarly paper (non-thesis track) in the second year for completion of the program.

Curriculum and Course Descriptions

Sports Medicine Core (Required)

- HRS 3896 - RESEARCH SEMINAR SPORTS MEDICINE
- HRS 2869 - ANATOMICAL BASIS SPORTS MEDICINE
- HRS 3898 - LAB TECHNIQUES SPORTS MEDICINE 1
- HRS 2867 - PATHOKIN ORTHOPADC/ATHL INJURIES
- HRS 3897 - LAB TECHNIQUES SPORTS MEDICINE 2
- HRS 2655 - RESEARCH METHODOLOGY AND APPLIED STATISTICS
- HRS 2908 - MUSCULOSKELETAL ASSESSMENT AND INJURY PREVENTION
- HRS 2017 - INJURY EPIDEMIOLOGY
- HRS 2868 - SEMINAR IN SPORTS MEDICINE

Electives (Highly Recommended - Others Available)

- HRS 2650 - EXERCISE PHYSIOLOGY
- HRS 2922 - TEACHING INTERNSHIP
- HRS 2921 - CLINICAL INTERNSHIP
- HRS 2628 - NUTRITION AND PERFORMANCE WITH LAB
- HRS 2629 - DIETARY SUPPLEMENTS FOR HEALTH AND PERFORMANCE
- HRS 2660 - ADVANCED HUMAN PERFORMANCE AND TESTING
- HRS 2999 - INDEPENDENT STUDY

Thesis Track

- HRS 2925 - GRADUATE RESEARCH

Nonthesis Track

- HRS 2926 - SCHOLARLY PAPER

Sports Medicine and Nutrition - Sports Science Concentration, MS

In the Summer 2022 the Sports Medicine and Nutrition - Sports Science Concentration, MS was terminated. Students that are currently in the program will be given the option to have their designation remain as an area of concentration or change to the new major.

The Sports Science concentration in the Master of Science in Health and Rehabilitation Sciences program is designed for students seeking graduate training to advance their knowledge and skills related to understanding and improving sports performance. Primary areas of focus pertaining to education and training in sports science, nutrition, sports medicine, and research. The curriculum integrates coursework, research, and practical application experiences pertaining to multiple aspects of athletic and human performance. All students will complete a 1-year sports science practical experience with a designated sports team or organization and will also have access to the Sports Medicine and Nutrition research facilities and faculty.

For more information, please contact:

About

The Sports Science (SS) Concentration leading to a Master of Science degree in Health and Rehabilitation Sciences is a one-year graduate program housed within the Department of Sports Medicine and Nutrition.

Program Summary
33 credits (Full or part-time)
1-3 years (varies)
Program starts fall term only

The curriculum integrates coursework, research, and practical application experiences pertaining to multiple aspects of athletic and human performance.

Students will have access to the Department of Sports Medicine and Nutrition research facilities and faculty.

Admission Requirements

Prerequisites (satisfactory grades must be earned in all courses)

- Exercise Physiology (3 credits)
- Introduction to Nutrition (3 credits)
- Introduction to Statistics (3 credits)
- Human Anatomy and Physiology I (3 credits)

Applications may be submitted while prerequisite coursework is in progress.

Additional Requirements

Bachelor's degree from an accredited institution.

Minimum undergraduate GPA of 3.0 (out of 4.0). Admission may be considered for applicants with a GPA of less than 3.0 if other supporting evidence of their ability to complete the graduate program is provided.

An interview may be required.

Application Procedures

Application Deadline: March 15. If spots are available after the deadline applications will be considered on a rolling basis until the class is full.

Application Deadline for highly competitive practical experience positions: January 15. Some of the practical experiences are highly competitive and may require an on-campus interview. Qualified applicants will be contacted by the department to schedule an interview.

All applicants must:

- Complete the GradCAS application
- Submit the application fee of \$50 (U.S.)
- Submit an essay - a description of professional and educational goals that are realistically attainable during enrollment in the graduate program
- Submit three letters of reference, preferably from individuals who have instructed you in academic settings and/or supervised research activities. These letters should address the applicant's academic, professional, and personal attributes and potential for meaningful graduate study.
- Submit official transcripts from all colleges/universities you **have attended**
- Additional requirements for international applicants may be found on the SHRS website

Curriculum:

Sports Science MS Curriculum (33 credits)

- HRS 2868 - SEMINAR IN SPORTS MEDICINE
- HRS 3896 - RESEARCH SEMINAR SPORTS MEDICINE
- HRS 3898 - LAB TECHNIQUES SPORTS MEDICINE 1 *
- HRS 3897 - LAB TECHNIQUES SPORTS MEDICINE 2 *
- HRS 2650 - EXERCISE PHYSIOLOGY
- HRS 2628 - NUTRITION AND PERFORMANCE WITH LAB *
- HRS 2660 - ADVANCED HUMAN PERFORMANCE AND TESTING
- HRS 2664 - SPORTS SCIENCE DATA ANALYTICS
- HRS 2655 - RESEARCH METHODOLOGY AND APPLIED STATISTICS
- HRS 2665 - APPLIED SPORTS SCIENCE

Applied Sports Science Experience (9 credits)

- HRS 2661 - SPORTS SCIENCE PRACTICUM 1, 3 credits
- HRS 2662 - SPORTS SCIENCE PRACTICUM 2, 3 credits
- HRS 2663 - SPORTS SCIENCE PRACTICUM 3 (Capstone), 3 credits

Capstone Project

Master's degree candidates must successfully complete a capstone project in the last term for completion of the program. The capstone project may be a data-based project, a literature review, program development, or other project as approved by members of the student's advisory committee.

Sample Curriculum Plan Sports Science Full-Time

Fall Term - Core 12 credits

- HRS 2661 SPORTS SCIENCE PRACTICUM 1
- HRS 3896 RESEARCH SEMINAR SPORTS MEDICINE
- HRS 2655 RESEARCH METHODOLOGY AND APPLIED STATISTICS
- HRS 2665 APPLIED SPORTS SCIENCE

Fall Electives (select one) 3 credits

- HRS 3898 LAB TECHNIQUES SPORTS MEDICINE 1
- HRS 2628 NUTRITION AND PERFORMANCE WITH LAB
- HRS 2650 EXERCISE PHYSIOLOGY

Spring Term 15 credits

- HRS 2662 SPORTS SCIENCE PRACTICUM 2
- HRS 2660 ADVANCED HUMAN PERFORMANCE AND TESTING
- HRS 2868 SEMINAR IN SPORTS MEDICINE
- HRS 2664 SPORTS SCIENCE DATA ANALYTICS
- HRS 3897 LAB TECHNIQUES SPORTS MEDICINE 2

Summer Term 3 credits

- HRS 2663 SPORTS SCIENCE PRACTICUM 3

Sports Science Practicum

The Sports Science Practicum provides students with a valuable one year supervised practice experience with a designated sports team or organization. The practicum offers students the opportunity to apply their knowledge of sports science, performance, and testing/monitoring in an athletic setting. This involves planned learning experiences with an athletic team at various stages of the training program and season. Students will have the opportunity to observe and then model the functions of a performance specialist. Through the combination of planned learning activities and professional interaction, the students will demonstrate increasing level of proficiency in providing and evaluating comprehensive training to athletes and teams within the athletic setting.

Sports Medicine, MS

The Sports Medicine (SM) program focuses on enhancing the knowledge base in the prevention, assessment, treatment and rehabilitation of athletic injuries and illness. The SM program has a research focus and provides a core curriculum that is central to the pathokinesiology of injury, injury prevention, and the principles by which restoration of joint function is accomplished.

Fall Term

- HRS 2869 - ANATOMICAL BASIS SPORTS MEDICINE
- HRS 3896 - RESEARCH SEMINAR SPORTS MEDICINE
- HRS 3898 - LAB TECHNIQUES SPORTS MEDICINE 1

Spring Term

- HRS 2655 - RESEARCH METHODOLOGY AND APPLIED STATISTICS
- HRS 2867 - PATHOKIN ORTHOPADC/ATHL INJURIES
- HRS 3897 - LAB TECHNIQUES SPORTS MEDICINE 2

Fall Term

- HRS 2017 - INJURY EPIDEMIOLOGY
- HRS 2908 - MUSCULOSKELETAL ASSESSMENT AND INJURY PREVENTION

Spring Term

Students will register for either HRS 2925 Graduate Research or HRS 2926 Scholarly Paper depending on the project that is selected.

- HRS 2868 - SEMINAR IN SPORTS MEDICINE
- HRS 2925 - GRADUATE RESEARCH
- HRS 2926 - SCHOLARLY PAPER

Approved Electives

Students can take 3 credits of elective courses during the fall and spring terms of the second year of the program. The following courses have been approved as electives.

- HRS 2628 - NUTRITION AND PERFORMANCE WITH LAB
- HRS 2629 - DIETARY SUPPLEMENTS FOR HEALTH AND PERFORMANCE
- HRS 2650 - EXERCISE PHYSIOLOGY
- HRS 2660 - ADVANCED HUMAN PERFORMANCE AND TESTING
- HRS 2921 - CLINICAL INTERNSHIP
- HRS 2922 - TEACHING INTERNSHIP
- HRS 2999 - INDEPENDENT STUDY

Total Credits: 36

Sports Science, MS

The Sports Science concentration in the Master of Science in Health and Rehabilitation Sciences program is designed for students seeking graduate training to advance their knowledge and skills related to understanding and improving sports performance. Primary areas of focus pertaining to education and training in sports science, nutrition, sports medicine, and research. The curriculum integrates coursework, research, and practical application experiences pertaining to multiple aspects of athletic and human performance. All students will complete a 1-year sports science practical experience with a designated sports team or organization and will also have access to the Sports Medicine and Nutrition research facilities and faculty.

Sports Science Full-Time

Sample curriculum for full-time Sports Science students

- **Fall Term - Core** Credits / Units: 12 HRS 2661 - SPORTS SCIENCE PRACTICUM 1
- HRS 3896 - RESEARCH SEMINAR SPORTS MEDICINE
- HRS 2655 - RESEARCH METHODOLOGY AND APPLIED STATISTICS
- HRS 3898 - LAB TECHNIQUES SPORTS MEDICINE 1
- *Fall Electives (select one)* Credits / Units: 3 HRS 2628 - NUTRITION AND PERFORMANCE WITH LAB
- HRS 2650 - EXERCISE PHYSIOLOGY
- **Spring Term** Credits / Units: 15 HRS 2662 - SPORTS SCIENCE PRACTICUM 2
- HRS 2660 - ADVANCED HUMAN PERFORMANCE AND TESTING
- HRS 2868 - SEMINAR IN SPORTS MEDICINE

- HRS 2664 - SPORTS SCIENCE DATA ANALYTICS
- HRS 3897 - LAB TECHNIQUES SPORTS MEDICINE 2
- **Summer Term** Credits / Units: 3 HRS 2663 - SPORTS SCIENCE PRACTICUM 3

Total Credits: 33

Rehabilitation Science Doctor of Philosophy (PhD)

Doctoral

Rehabilitation Science, PhD

The mission of the PhD program in Rehabilitation Science is to advance the frontiers of knowledge underlying the practice of rehabilitation disciplines and professions through research, teaching, and professional development.

This PhD is an interdisciplinary degree. Students enter the program through the following SHRS departments or programs: Health Information Management, Occupational Therapy, Physical Therapy, Rehabilitation Counseling, Rehabilitation Science and Technology, and Sports Medicine and Nutrition. Upon degree completion, you will have mastered a specific area of expertise in rehabilitation science and carry an expansive core of related knowledge.

Contact Information:

Courtney Fleck
 Assistant to the Associate Dean of Graduate Studies
 4022 Forbes Tower
 Phone: 412-624-6538
 Fax: 412-383-6535
 Email: courtney.fleck@pitt.edu
 www.shrs.pitt.edu

Program Summary

Program starts fall, spring or summer terms

- Statute of limitation is 8 years (with approved credit transfer) or 10 years (without credit transfer)
- Minimum of 72 credits required to graduate (some areas of focus may require more credits)

The Primary Goals of the PhD program in Rehabilitation Science are to:

1. Provide core content in theories and models of rehabilitation, disability and/or assistive technology that underpin rehabilitation science;
2. Provide in-depth, state of the science, content in basic, clinical, social, medical and/or engineering sciences that support the dissertation research;
3. Provide mentorship opportunities for immersion in rehabilitation science research laboratories, projects, and/or ongoing studies;
4. Prepare students to conduct and disseminate original research that will advance rehabilitation science;
5. Promote interdisciplinary research in preparation for becoming a research team member;
6. Promote knowledge, behaviors and skills consistent with the responsible conduct of research;
7. Provide opportunities to teach content in an area of expertise.

The doctoral degree in Rehabilitation Science is an interdisciplinary research degree offered by SHRS and not by individual departments within the school. Graduates of this program will have a specific area of expertise in rehabilitation science as well as a core of interdisciplinary knowledge related to this specific area. They will become the researchers, scholars, teachers, thinkers, and planners in the demanding and changing field of rehabilitation science.

Areas of Study

- Assistive technology

- Biomechanics
- Evidence-based practice and epidemiology of disability
- Functioning, disability and health
- Psychosocial, cultural, and behavioral aspects of rehabilitation and disability
- Health information systems and information technology related to health and rehabilitation sciences
- Neural basis of sensory and motor function and dysfunction
- Neuromuscular aspects of sports injuries
- Health Services Research in Rehabilitation

Admission Requirements/ Application Process

Applicants should have a strong interest in rehabilitation research as well as a master's degree in an area related to rehabilitation science. The exceptional student with a bachelor's degree, six or more credits of graduate course work, and compelling clinical/research experience in rehabilitation science will be considered.

Resources, including research mentors, must be available to enable the student to engage in a plan of study in the student's major area of interest in rehabilitation research. Therefore, it is important that there is a match between the research interests of an applicant and an SHRS graduate faculty member.

Admission Requirements

Successful applicants will have a minimum GPA of 3.0 (based on a 4.0 scale) in all college work. We do not require the GRE in our admissions applications. Submission of GRE scores with the application is completely voluntary. Students for whom English is a foreign language must have a minimum Duolingo English Test score of 120, TOEFL score of 100 (internet), 600 (paper); or Band 7.0 on the IELTS (reading and writing modules).

Application Requirements

Applicants are required to submit the following:

- Completed SHRS on-line application form
- An essay stating career goals, specific research interests and experience, and clinical interests and experience;
- Three to five academics or work-related letters of recommendation (at least one academic reference must be included as well as a letter of support from the identified Research Mentor. The Research Mentor's letter should indicate how the student is known to the Mentor, a description of the student's potential for success in the program and as a rehabilitation scientist, and how the Mentor will support the student's dissertation research project (funding/resources))
- A résumé, including work history, formal education, continuing education, licensing and certification, professional organizations, honors and awards, publications, presentations, and grants;
- Official transcripts from all colleges attended; transcripts must be sent directly from the institution to the University of Pittsburgh
- Verification of English language proficiency. (Duolingo English Test, TOEFL or IELTS scores (for candidates whose native language is not English)
- At least one example of written work (class project, course assignment, publication for which candidate is first author, etc.)
- See the SHRS website for additional requirements for international applicants

Applications are accepted at any time and Applicants are encouraged to apply at least 6 months prior to the term in which they will begin classes.

Applicants are evaluated by the PhD Admissions Committee. Admission to the program requires (1) the applicant to meet the standards for a PhD student in SHRS, and (2) that a faculty member of the PhD program has an opening for an additional PhD student and agrees to be the Academic Advisor for that applicant.

For more information about admission to the PhD program contact:

Office of Admissions
 School of Health and Rehabilitation Sciences
 4020 Forbes Tower
 412-383-6558
 Fax: 412-383-6535
 E-mail: admissions@shrs.pitt.edu
 Website: www.shrs.pitt.edu

Financial Aid

Financial assistance is often available from a variety of sources, including graduate student assistantships and teaching assistantships. These assistantships typically require 20 hours per week of research, teaching, or clinical service in exchange for a tuition, health insurance, and an annual salary. Other forms of financial assistance, including fellowships, may be available through individual faculty grants. Applicants interested in financial support should indicate this on their applications for admission. Acceptance into the PhD program does not assure that a student will be offered financial aid. Depending on the availability of financial aid, the offer of financial support to an applicant may be deferred until a later date. Since financial aid is limited, applicants who desire financial aid are encouraged to apply early.

Transfer Credits

If a student wishes to transfer credits, the student and the student's Academic Advisor must submit a Credit Transfer Request Form to Student Services during the first year of study. Transcripts verifying the graduate courses and course descriptions must accompany the petition. The student and student's Academic Advisor will be informed by the Associate Dean of Graduate Studies which courses are acceptable as transfer credits, and this information will be placed in the student's file. Based on University guidelines, students who transfer any credits from a master's degree must complete the PhD within 8 years; students who do not transfer credits must complete the PhD within 10 years.

Academic Advisor

Students admitted to the PhD program are assigned an Academic Advisor who is a member of the Graduate Faculty in SHRS. He/she will have research interests similar to the student's interests and will have agreed to be the student's Research Mentor.

The Academic Advisor and student will determine the Plan of Study for the student. They will also plan course work or other experiences to enable the student to demonstrate competency in the proposed content supporting the dissertation, as well as statistics/research methodology content in preparation for the Comprehensive Examination and Dissertation Proposal Defense. It is the responsibility of the Academic Advisor to provide advice to the student during the PhD program, especially with the following steps.

1. Petitioning the Associate Dean of Graduate Studies for transfer of credits
2. Preparing a Plan of Study outlining course work and dissertation credits leading to the PhD Degree
3. Locating research opportunities
4. Revising the Plan of Study as needed as the dissertation topic is formulated
5. Finding a Primary Research Mentor

Plan of Study

The student and Academic Advisor will prepare a tentative Plan of Study within the first term of enrollment. If a Plan of Study has not been submitted by the end of the first term, the student will not be permitted to enroll in the subsequent term. The Plan of Study Form can be obtained on-line on the SHRS website. The Plan of Study should include transfer credits, course work to date, future course work, and dissertation credits leading to the PhD degree. A copy of the Plan of Study will be placed in the student's file. The Plan of Study should be reviewed each term at registration and updated as needed by the student and Academic Advisor. A final updated Plan of Study must be on file in the student's permanent file in Student Services in the term in which the student graduates, or the student cannot be certified by the Registrar for graduation.

More information regarding the following can be found in the PHD handbook on the SHRS website:

- SHRS Student Statistical Support
- Annual Review/Progress Reports
- Preliminary Examination
- Primary Research Mentor
- Comprehensive Examination
- Dissertation Proposal Defense
- Admission to Candidacy
- Dissertation
- Electronic thesis and Dissertation (ETD)
- Final Oral Defense of Dissertation
- Continued Use of Data After Leaving the University of Pittsburgh

Program Requirements

A minimum of 72 credits beyond the bachelor's degree level is needed for the PhD degree at the University of Pittsburgh. Some areas of focus within the PhD Program may require more than 72 credits. Up to 30 credits taken at the graduate level towards a master's degree may be accepted for

transfer. In recognition of graduate study beyond the master's degree, no more than 12 additional credits may be accepted at the time of admission to meet the minimum credit requirement. Credit transfer requests are evaluated by the Associate Dean of Graduate Studies after matriculation.

In all cases, at least 36 credits must be completed as a PhD student at the University of Pittsburgh. No undergraduate credits (1000 level courses) may be applied towards the doctoral degree. Please note, credits transferred from another institution may not be used to substitute for credits of courses required in the degree study plan. For example, credits transferred for a statistics course taken at another institution will not count toward the 9 credits of statistics required in the PhD program here at the University of Pittsburgh. The student will still need to take 9 credits of statistics at the University of Pittsburgh.

The overall form and content of each student's program is the responsibility of the Graduate Faculty of SHRS. To carry out this responsibility, each student has an Academic Advisor who, in consultation with the student, plans a program of study and research in accordance with SHRS guidelines.

Course and Competency Requirements

The following requirements apply to all PhD in Rehabilitation Science students:

HRS 3000 - Doctoral Seminar: 4 credits

Core Areas

There are two Core Areas which are required for all students in the PhD in the Rehabilitation Science Program - Methods of Inquiry for Rehabilitation Sciences and Core Concepts in Disability and Rehabilitation Sciences.

All students pursuing a Doctor of Philosophy in Rehabilitation Science degree will be required to demonstrate basic competency in designing and appraising research studies and to demonstrate basic competency in understanding the fundamentals of disability and rehabilitation sciences.

CORE: Methods of Inquiry for Rehabilitation Sciences

Upon completion of the courses, students will be able to design a research study to answer a specific research question, including the best design for the question asked, sampling, controls for bias or confounding, and basic statistical analysis. They will be able to critically appraise research and apply it to clinical practice.

CORE: Core Concepts in Disability and Rehabilitation Sciences

Upon completion of the modules, students will be able to describe and discuss core concepts in disability and rehabilitation sciences, and analyze and synthesize multiple perspectives on the current and future state-of-the science.

A grade of B or better for each term of the Methods of Inquiry for Rehabilitation Scientists Core and Core Concepts in Rehabilitation and Disability Core (2 terms, 2 credits)

- HRS 3002 - Methods of Inquiry I - 1 credit
- HRS 3003 - Core Concepts I - 2 credits
- HRS 3004 - Methods of Inquiry II - 1 credits
- HRS 3005 - Core Concepts II - 2 credits

HRS 3001 - Dissertation Research: 18 credits

Preliminary Examination for the Methods of Inquiry Core and the Core Concepts in Rehabilitation and Disability Core requires an unconditional PASS

Comprehensive Written and Oral Examinations in the content area of the dissertation requires an unconditional PASS

Content in the areas of research design and statistics: 9 credits

Participate in the teaching of at least one course

Successful completion of manuscript submission requirement

Manuscript Submission Requirements

Prior to scheduling the dissertation defense, each PhD student will demonstrate a minimum amount of experience in manuscript writing and submission by completing:

- 1 co-author manuscript accepted for publication
- 1 first author manuscript submitted and reviewed by a peer-reviewed journal
- Data-based manuscripts are strongly preferred.

Successful completion of grant application submission requirement

Grant Submission Requirement

Prior to scheduling the dissertation defense, each PhD student will demonstrate a minimum experience with grant writing and submission by completing one of the following:

- Submission and peer-review of a Doctoral Research or Research Fellowship Grant applications (Can be NIH or Private Foundations)
- Submission and peer-review of Pilot study grant applications (e.g., foundations, professional societies, the UPMC Rehab Institute Pilot Award)
- Completion of a grant writing course
- Submission of a provisional and non-provisional patent application
- Submission and peer-review of an SBIR like applications, or other options to secure funding for technology development (pitching an idea for commercial development, etc.)

Note: The peer-review may be internal or external peer review. A copy of the summary report from the review should be submitted with a copy of the grant application to Debby Keelan (dkeelan@pitt.edu) to be kept in the student's file.

Also, note: Submission to the \$1,000.00 SHRS scholarship award will NOT qualify for satisfying the grant submission requirement. A new SHRS Doctoral Scholarship Award will be available fall term 2017, that will satisfy this requirement.

Successful defense of the dissertation research

Note: PhD students are required to maintain a 3.000 Cumulative GPA and receive a grade of C or better in all courses required by their program curriculum.

Students who receive a grade below a C in a required course must repeat that course and attain a grade of C or better to graduate. (Note: University regulations state that a student may repeat any course in which a grade of B- or lower is received **if an authorization to repeat the course is given by the student's adviser/faculty.**) Students will not be permitted to register for a course until they attain a C or better in its prerequisites. Failure to receive an acceptable grade after the second opportunity to complete a required course may result in the student being dismissed from the program and SHRS.

The essential mission of the University of Pittsburgh School of Law is to help lawyers and legal institutions to meet the demands of a rapidly changing legal and professional environment. Pitt Law excels in teaching the next generation of diverse legal professionals; producing research of impact and contributing to society through public service.

In serving its students, the school is committed to an active and inclusive spirit of community and to the effective, efficient, and congenial provision of service. In teaching, research, and public service, the School of Law aspires to conduct all of its programs at a nationally prominent level of quality that adds luster to the legal and business communities of Pittsburgh; that makes the school relevant to the key needs of this region's private, public, and nonprofit sectors; and that distinguishes it as one of the finest public urban law schools in the United States.

For more than 110 years, the School of Law has prepared students to become excellent attorneys and leaders in both the legal profession and in society. Today, Pitt Law builds on this proud history by training lawyers to take on the opportunities and challenges of 21st century legal practice in the United States and around the world.

At Pitt Law we turn out practice-ready lawyers by providing students with both traditional law school classroom experiences designed to develop and hone analytical and communication skills and with experiential learning opportunities in one of our six clinics, which range in subject area from Environmental Law to Family Law to Health Law. Students who wish to focus their studies can enjoy the numerous benefits of enrolling in one of our five certificate programs, with their opportunities for international externships, instruction in litigation skills by teams of top practicing litigators, or membership on an intellectual property moot court team. Seven joint degree programs, including two partnerships with Carnegie Mellon University, permit students to craft discipline-bridging courses of study in areas including public health, business administration, and international affairs. And Pitt Law students can serve as editors at the award-winning website JURIST, the world's only Web-based, student-powered legal news source, which is viewed weekly by 100,000 viewers and is based right here at the School of Law.

Among its first-professional degrees, the School of Law offers the Juris Doctor (JD) degree; a number of joint degree programs with other schools of the University and Carnegie Mellon University, leading to both a JD and a master's degree; and LLM degrees for foreign law graduates as well as several certificate programs. The School of Law also offers graduate programs leading to a Master of Studies in Law (MSL) and a Doctor of Jurisprudence (SJD) degree. *For further information on the graduate programs, see the School of Law-Graduate Programs section of this bulletin.*

Contact Information

Financial Aid and Admissions are located in the same office at the University of Pittsburgh School of Law.

Office of Admissions and Financial Aid
Barco Law Building
3900 Forbes Avenue
Pittsburgh, PA 15260

Website: www.law.pitt.edu

General Information: (412) 648-1413
Admissions Information: (412) 648-1805
Financial Aid Information: (412) 648-1415
Fax: (412) 648-1318

Email Admissions: admitlaw@pitt.edu
Email Financial Aid: lawfa@pitt.edu

Office Hours: 8:00 a.m. - 5:00 p.m. Monday through Friday

Walk in appointments are available during office hours; however, scheduling an appointment is encouraged. To schedule an appointment, please email or call our office.

Admissions

Pitt Law is highly competitive, and we base admissions decisions on many factors. Our admissions committee will carefully evaluate your graduate work, professional experience, and undergraduate GPA and make a decision on a rolling basis, or you may request a priority decision within 14 business days. Each program, degree and certificate has various requirements. Please see each program's requirements.

Qualifications for Admission to the Bar: In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

Transfer Students

The University of Pittsburgh School of Law will accept transfer students after those students have successfully completed the first year of academic study at another law school. Applicants must complete the law school application and submit the following:

- Application fee
- Official LSDAS report
- Letter of good standing from the current law school dean
- Certified law school transcript
- Letter of recommendation from a current law school professor
- Final official undergraduate transcript

The deadline for submitting an application is June 1st of every year. Decisions made on transfer students depends on the number of seats available at Pitt Law, the QPA from the current law school and the competitiveness of the current law school.

If admission is granted, the transfer student's completed law school work will be evaluated for transfer credit in light of the curricular offerings at Pitt Law. Only up to 32 transfer credits will be accepted. However, only up to 29 credits will be accepted in the case of (1) a transfer student admitted from a U.S. law school that is not approved by the American Bar Association, (2) a transfer student who is a graduate of a foreign law school and who is admitted after completion of the Pitt Law LL.M. program, or (3) a transfer student who has not completed the Pitt Law LL.M. program and who is a graduate of a foreign law school for law school work done outside of the United States. All transferred credits must comply with the restrictions in ABA Standard 505.

In keeping with the requirements of The Order of the Coif, students are eligible for Coif membership only if they complete at least 75% of their law studies in graded courses. For transfer students, any credits transferred without grades will not count toward this requirement.

Visiting Students

A student may apply to visit at Pitt Law if he/she has completed two years of law study at another law school and has the permission of the dean of their current school. Applicants must complete the law school application and submit the following:

- Application fee
- Copy of your LSDAS report
- Letter from the dean stating the third year at Pitt Law will count toward a degree from the previous school
- Certified law school transcript.

The deadline for submitting an application is June 1st of every year. Decisions made on visiting students depends on the number of seats available at Pitt Law, the QPA from the current law school and the competitiveness of the current law school.

Scholarships and Financial Aid

All admitted students are reviewed for merit scholarship awards at time of admissions to Pitt Law. The merit scholarships are renewable for the second and third years of law school provided the recipient maintains a cumulative grade point average of 2.8 in their legal studies. Scholarship renewal review is conducted at the end of the academic year. Students whose scholarship is not renewed may request to have their scholarship reinstated at any time based upon earning the cumulative 2.8 grade point average in their legal studies.

Approximately 70 percent of the student body receives scholarship funds from the School of Law in the form of merit or need-based scholarship awards. The Law School offers various merit scholarships at the time of admissions. Some scholarship require an additional application and others are based on the materials submitted in your admissions application. If admitted, you will be emailed any scholarship application that requires additional materials.

Please visit the Pitt Law website for more details on available scholarships or contact the School of Law Financial Aid Office.

Loans

For most students the major portion of law school costs are met through the Federal Unsubsidized Stafford Loan, Federal Graduate PLUS Loan, and alternative educational loan programs.

Generally, to be considered for an educational loan as a law student, you must:

- Complete the Free Application for Federal Student Aid (FAFSA)
- Be a U.S. Citizen, permanent resident, or other eligible non-citizen
- Enrolled at least half-time in a degree program
- Registered with the Selective Service, if required
- Not owe a refund on a federal grant or be in default on a prior federal loan
- Maintain Satisfactory Academic Progress.

Loan Counseling

Before federal loan funds can be released, all incoming students must complete a Loan Entrance Counseling session, regardless of whether they have borrowed in the past. This counseling session is a federal requirement for all students to insure that they understand their rights and responsibilities as a borrower. Loan counseling can be completed online at www.studentloans.gov.

All students who have borrowed through the Federal Loan Program are required to attend a Loan Exit Counseling session before they graduate or drop below half time. The counseling sessions will be schedule in April for all third year students. All third year students will receive notification of the time of the counseling sessions. The counseling sessions informs students of their rights and responsibilities as a borrower as well as giving students information on their repayment options.

Flex-time Program

The flex-time program is offered to students whose outside obligations necessitate a more flexible program of study than is traditionally available. All classes are still held during the daytime; however, hours may be planned according to personal needs and interests. The pace is intended to be less strenuous than the regular program. Course loads are optimally designed to result in graduation in four years rather than three with no fewer than 10 credits per semester. The option to accelerate is also available to flex-time students after the first year of study. Flex-time students are still required to pay full tuition. Applicants to the flex-program must include a letter with their application explaining their individual circumstances. The application process is otherwise the same.

Please note that flex-time is not a part-time program.

Academic Standards

The School of Law Policy on Written Work for Credit, its Standards of Academic Integrity, the Grading Guidelines, and other academic policies of the school are included in the Academic Rules section of the School of Law's web site.

Professional and Career Development

The Professional Development Office is dedicated to providing students and graduates with the information and tools necessary for successful career development and advancement. Our office assists students and graduates in their pursuit of careers in a wide variety of settings, including private law firms, public interest organizations, government agencies, corporate and business environments, judicial clerkships, academia, and non-traditional careers.

Through an extensive array of services including individual counseling, educational programming, interviewing opportunities, printed and online resources, job posting databases, and a substantial alumni network, the PDO helps educate students and graduates for a lifetime of successful career management.

The PDO also serves as an intermediary between prospective employers and law students. By posting job vacancies, scheduling on-campus interviews, sponsoring programs, and participating in and promoting off-campus job fairs, we provide a range of employment prospects. Through ongoing outreach, the PDO Staff endeavors to create ever-increasing employer interest in Pitt Law students and graduates.

Each student will meet with a Career Counselor during their first year and is encouraged to meet with the counselor as often as needed. As a student begins to develop his or her legal career path they are able to work with an PDO counselor whose background mirrors the student's desired path. Our office is open Monday- Friday 8:30 a.m. - 5:00 p.m. Additionally, PDO has daily walk-in hours and hosts "Facetime" in the student lounge.

Programs and Course Offerings

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

School of Law's Programs

You expect the Juris Doctor (JD) program at Pitt Law to offer a solid foundation in the basics of legal education. You might not expect the opportunity to specialize in areas like environmental and energy law; health law; and intellectual property, technology, and innovation law.

You might not expect to be able to pursue both a JD and a second master's degree at another Pitt school-in an area such as bioethics, business, public health, and social work-or at nearby Carnegie Mellon University in less time than it would normally take to complete two consecutive degrees.

You might not expect a 30-credit Master of Studies in Law advanced degree designed for graduates and mid-career professionals seeking to enhance their careers with a versatile alternative to the traditional three-year Juris Doctor degree. Or a Master of Laws degree to provide foreign law graduates with critical training in the common law legal tradition and the U.S. legal system during an academic year. Or even a completely-online Health Care Compliance Online Graduate Certificate Program developed by experts in compliance, law, and online education.

And you might not expect how quickly and the extent to which you'll get to apply those classroom lessons. Assisting the public through work with a clinic (health law, elder law, the environment, immigration, and more); serving as a full-time extern on Capitol Hill or throughout Washington, D.C., as part of the Semester in D.C. Program; interning with a federal agency, nonprofit, or corporation; and participating in a national or international moot court competition are just some of the opportunities you'll have to practice your skills and hone your expertise even before you graduate.

Certificate

Law - Environmental and Energy Law Programs

The School of Law is currently in the process of transitioning its longstanding Environmental Law, Science & Policy Certificate Program into a new Energy & Environmental Law Area of Concentration:

Students who were admitted with the Class of 2016 or earlier classes can choose either to pursue the Certificate or the Area of Concentration. Whichever choice a student makes, the student must register for, and complete the requirements of, the chosen program in order to have completion of that program reflected on their transcripts.

Students who are admitted with the Class of 2017 or later classes may only enroll in the Area of Concentration.

The law around the development, sale, use and preservation of natural resources is the practice framework for energy and environmental lawyers. Pitt Law offers a flexible concentration that allows students to pursue transactional, regulatory, litigation, or policy-based courses in the area of energy & environmental law. Students pursuing this concentration may explore the law of shale plays, utility law, international commercial transactions, pollution control laws, conservation statutes, renewable energy incentives, and climate law and policy.

Energy and environmental law is often practiced in or through interactions with administrative agencies and tribunals. The Concentration exposes students to administrative decisionmaking, statutory interpretation, rulemaking and adjudication, and judicial review of agency decisions.

Area of Concentration

All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, students may pursue this concentration by taking foundational courses in environmental or energy law, 5-6 credits of electives, and 4-6 skills-based credits.

Please note that this program may require that you complete an internship, externship, or other field work at a facility or facilities external to the University and that such facility or facilities may require a criminal background check, an Act 33/34 clearance (if applicable), and perhaps a drug screen to determine whether you are qualified to participate.

- LAW 5340 - ENVIRONMENTAL LAW
Or
- LAW 5038 - ENERGY LAW AND REGULATION
Elective Courses (5-6 credits required)
- LAW 5201 - ADMINISTRATIVE LAW
- LAW 5099 - OIL AND GAS LAW

- LAW 5433 - OCCUPATIONAL SAFETY & HEALTH
Skills Component (4-6 credits required)
- LAW 5883 - ENVIRONMENTAL LAW CLINIC
Environmental Moot Court Competition
Energy Law Moot Court Competition
Externship in the area of Environmental Law or Energy Law
- LAW 5955 - D.C. EXTERNSHIP

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Health Law Certificate

Students enrolled in a degree program at the University of Pittsburgh School of Law can develop an expertise in the rapidly changing, steadily growing field of health law through the Law School's Health Law Certificate Program.

Pitt's program, one of the oldest in the country, is intended to give students interested in health law a basic grounding in the field, complemented by clinical experience and more in-depth study of advanced topics and closely related areas of law. Students are encouraged to obtain the same broad background in law expected of all graduates for the University of Pittsburgh School of Law.

The health care industry comprises more than one-sixth of the entire economy-larger even than the automobile industry. It is also a large consumer of legal services. Law firms ranging from the largest to the smallest provide legal services to hospitals, health insurance companies, nursing homes, physicians' practices, home health agencies, and pharmaceutical and device manufacturers, to name some of the more prominent. In addition, many federal and state agencies and many of the larger providers of health care goods and services employ a large number of lawyers in house. Although there are a few areas that are substantively unique-such as Medicare and Medicaid reimbursement, certificate of need requirements, and fraud and abuse prohibitions-much of health law involves the application of other areas of law, such as corporate law, employment law, and real estate law, to the health care industry's special circumstances.

The Health Law Program provides students with a strong foundation in health law that will enable them to practice in a variety of contexts, including law firms, health care management firms and insurers, government, and health care institutions. A combination of classroom and skills components acquaints students with everything from complex business and legal transactions, to bioethics and patient care issues, to the variety of legal issues that arise in the operation of a health care institution. Students gain hands-on experience in these areas through their work in the Law School's clinics and practicums, and in externships and summer jobs available in the health care setting.

In addition to courses taught by regular law school faculty, leading practitioners in various fields of health law such as fraud and abuse, business transactions, compliance, disabilities law, nonprofit organizations, and privacy teach courses designed to relate theory to practice. In addition, Current Issues in Health Law, a required course for all Health Law Certificate Program students, is taught by renown practitioners of health law and by health care professionals and executives.

Requirements

The Health Law Certificate Program is an educational program of concentration in health law for students in their second and third years of the JD curriculum. Admission is available to all students entering their second year in the JD program.

Students must complete the following requirements to receive a Certificate in Health Law:

- Complete a minimum of 18 credits in courses in health law, including Health Law and Policy, and Current Issues in Health Law;
- Write their faculty-supervised paper on a topic in health law;
- Complete a clinic, externship, or practicum;
- Take a minimum of two health law electives.
Required Level Courses (register for 2 courses)
- LAW 5731 - CURRENT ISSUES IN HEALTH LAW
- LAW 5395 - HEALTH LAW AND POLICY
Core Elective Courses (register for 2 courses)
- LAW 5464 - BIOETHICS AND LAW *
- LAW 5811 - HLTH CARE BUS TRANSACTIONS *
- LAW 5284 - HEALTH CARE COMPLIANCE *
- LAW 5089 - PUBLIC HEALTH LAW *
Skills Course (register for at least 2 credits)
- LAW 5955 - D.C. EXTERNSHIP
- LAW 5391 - ELDER LAW CLINIC
- LAW 5393 - HEALTH LAW CLINIC
- LAW 5497 - HEALTH LAW PRACTICUM: ADR
- LAW 5538 - MEDICARE & MEDICAID PRACTICUM
- LAW 5875 - SOCIAL SECURITY DISABILITY PRACTICUM
- LAW 5973 - VETERAN'S PRACTICUM

National Health Law Transactional Competition
Additional Electives (register for at least 2 related courses)

- LAW 5251 - BIOTECHNOLOGY LAW
- LAW 5212 - BUS PLANNING, ENTREP & TECHN
- LAW 5135 - COMMERCIALIZING NEW TECS
- LAW 5672 - IMPLICIT BIAS IN HEALTH CARE *
- LAW 5430 - INFORMATION PRIVACY: LAW AND PRACTICE
- HPM 2133 - LAW IN PUBLIC HEALTH PRACTICE
Law in Public Health Practicum (GSPH)
- LAW 5339 - LAW OF DISABLTY DISCRIMINATION
- LAW 5283 - MENTAL HEALTH LAW
- LAW 5355 - NON-PROFIT ORGANIZATIONS
- LAW 5313 - REPRDCTV LAW & POLICY

* This course may be used to satisfy the Additional Electives requirement or the Core Elective requirement, but not both.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Intellectual Property, Technology & Innovation Law

The Intellectual Property and Innovation Law Area of Concentration is designed to allow students to obtain a focused introduction to these bodies of law and practice while simultaneously getting a broad grounding in modern law practice generally. No scientific or technical background is required to pursue the Area of Concentration or to practice law in any of the related fields, though students who wish to practice law as a patent prosecutor do need to have an engineering degree or other, similar technical qualification.

Students may pursue this concentration by taking foundational courses in intellectual property law, 5-6 credits of electives, and 4-6 skills-based credits.

Certificate Requirements

All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, students must have a minimum of 14 credits and meet the below course requirements. In addition, students can opt to use one of the following as a Skills Component:

- Giles Sutherland Rich Moot Court Competition (1 credit)
- Cardozo/BMI Moot Court Competition (1 credit)
- Externships with government agencies or other organizations that focus on intellectual property and/or technology law, practice, and/or policy (4 credits)
- Semester in DC externship with a focus on intellectual property and/or technology law, practice, and/or policy (13 credits)

Foundational Courses (2 courses totaling 5-6 credits required)

- LAW 5328 - COPYRIGHT *
 - LAW 5260 - INTELLECTUAL PROPERTY *
 - LAW 5210 - PATENT LAW *
 - LAW 5694 - TRADEMARK LAW *
- * may be taken as elective if not taken as a foundational

Elective Courses (5-6 credits required)

- LAW 5895 - ARTIFICIAL INTEL & LGL RES SEM
- LAW 5251 - BIOTECHNOLOGY LAW
- LAW 5212 - BUS PLANNING, ENTREP & TECHN
- LAW 5380 - CYBERCRIME
- LAW 5620 - CYBERSECURITY & PRIVACY REGLN
- LAW 5671 - CYBERSECURITY, PRIVACY, AND AMERICAN DEMOCRACY

- LAW 5404 - CYBERSPACE AND THE LAW
- LAW 5862 - FDS INTELCL PROPERTY LAW SEM
- LAW 5430 - INFORMATION PRIVACY: LAW AND PRACTICE
- LAW 5547 - INT'L INTELLECTUAL PROPRTY LAW
- LAW 5631 - LAW AND ENTREPRENEURSHIP
- LAW 5717 - TELECOMMUNICATIONS LAW
- LAW 5984 - TRADE SECRETS LAW
- **Skills Component (4-6 credits required)**
- LAW 5719 - APPLIED LEGAL DATA ANALYTICS AND AI
* may be taken as an elective if not taken as a skill.
- LAW 5135 - COMMERCIALIZING NEW TECS
- LAW 5481 - INTELLCTL PROPERTY LICENSING
- LAW 5647 - INTRODUCTORY ENTERTAINMENT LAW
- LAW 5839 - LAW ENTRTAINMNT SCL ENTRP PRAC
- LAW 5242 - PATENT LAW PRACTICE
- LAW 5276 - PATENT LITIGATION
- LAW 5695 - TRADEMARK LAW PRACTICE

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - International and Comparative Law Certificate

The International & Comparative Law Certificate program is intended to provide a foundation for careers and further study in the application of legal regimes to transnational and international relationships. Students should keep in mind that in order to be a good international or comparative lawyer, one must first be a good domestic lawyer. Thus, students in the certificate program are expected and encouraged to obtain the same broad background in law expected of all graduates of the University of Pittsburgh School of Law.

Requirements

To receive the International & Comparative Law Certificate upon graduation, students must complete:

- the required courses (below);
- satisfy the Upper Level Writing Requirement (ULW) with a paper focused on international or comparative law content;
- complete twelve credits of elective courses (below);
- and attenda two designated CILE programs in each of the candidate's 2L and 3L years at the School of Law.

The courses that qualify as international and comparative law electives for purposes of the Certificate requirements are determined annually. In general, a course will satisfy the elective requirement if at least 25 percent of its content is in the areas of international or comparative law. Listed below are courses offered in recent years that have satisfied this elective requirement - you should consult the schedule of courses for any given term to determine what courses are being offered and the credits awarded. For new course offerings, you should contact CILE to determine if a given course will satisfy the elective requirement. Courses in the School of Law that do not have a predominantly international or comparative law subject matter may be approved for elective purposes on a case-by-case basis at the discretion of the CILE Academic Director if, in practice, the student's work in the class included that element in a particularly substantial manner; for example, the student satisfies the written requirement of a "W" course with a paper using a comparative law approach. (Note this would not be permitted if the given paper was also being used to satisfy the ULW requirement.)

Coursework outside the School of Law may also be eligible to satisfy up to 3 elective credits if the CILE Academic Director determines that at least 25 percent of its content is in international topics, that it otherwise is an appropriate course for these purposes, and the use of these credits has been approved by the Associate Dean of the School of Law as qualifying under School policy for the six credits of non-School of Law coursework

permitted to be credited towards the JD degree. Proposed elective courses outside the School of Law must be approved in advance by the CILE Academic Director as well as in accordance with general School of Law policies.

Required Courses

- LAW 5226 - INTERNATIONAL LAW
- LAW 5225 - INTERNATNL BUSINESS TRANSACTNS

Example Electives

- LAW 5618 - ARABIC FOR LAWYERS 1
- LAW 5619 - ARABIC FOR LAWYERS 2
- LAW 5124 - THE CIVIL LAW TRADITION IN U.S. COURTS
- LAW 5304 - COMMERCIAL TRANSACTIONS
- LAW 5213 - CONFLICT OF LAWS
- LAW 5307 - FOREIGN AFFAIRS, INTERNATIONAL LAW AND THE CONSTITUTION
- LAW 5469 - FRENCH FOR LAWYERS 1
- LAW 5471 - FRENCH FOR LAWYERS 2
- LAW 5986 - INTERNATIONAL ARBITRATION SEM
- LAW 5043 - INT'L COMMERCIAL ARBITRATION
- LAW 5275 - INT'L & FOREIGN LEGAL RESEARCH
- LAW 5653 - INTERNATIONAL HUMAN RIGHTS
- LAW 5547 - INT'L INTELLECTUAL PROPRTY LAW
- LAW 5858 - INTERNATIONAL SALES SEMINAR
- LAW 5841 - INTERNATIONAL TAX
- LAW 5365 - INTRO RUSS & UZBEK LEGAL SYS
- LAW 5866 - ISLAMIC LAW AND JURISPRUDENCE SEMINAR
- LAW 5873 - PRIVATE INTERNATIONAL LAW SEMINAR
- LAW 5475 - SPANISH FOR LAWYERS 1
- LAW 5476 - SPANISH FOR LAWYERS 2
- LAW 5694 - TRADEMARK LAW
- LAW 5453 - TRANSNATIONAL LITIGATION

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - J.G. Civil Litigation Certificate Program

In the Fall of 2021, the J.G. Civil Litigation Certificate Program was inactive for students to enroll in. Students who were enrolled prior to the Fall 2021 must complete the program by Spring 2023 term.

Are you drawn to the real life drama of the courtroom? Do you have dreams of becoming a trial attorney? If so, then the University of Pittsburgh School of Law (PittLaw) may just be the place for you. Through its unique John P. Gismondi Civil Litigation Certificate Program, PittLaw can provide you with a unique curriculum devoted exclusively to training the trial lawyers of tomorrow.

During the first year of law school, all students take the same courses. Those students who wish to register for the Gismondi program, do so at the beginning of their second year of law school. During their second and third years, all students enrolled in the certificate program will take certain required foundational core courses, a clinic or practicum, as well as a number of specialized classes. The heart of the Gismondi program is a collection of specialized courses taught exclusively by a pre eminent group of practicing trial attorneys whose insight and experience offer an invaluable perspective in the classroom. Together with our core courses, these select courses provide a level and depth of litigation training unlike that available at most any other law school.

In each of these specialized skills courses, class size is kept small so as to enrich the learning experience. Students not only are taught legal rules and principles in a typical lecture format, but more importantly, they are assigned to "role play" in a variety of real world litigation scenarios, each designed to develop specific skills which are essential to successful trial work.

Students complete their training by taking a required litigation skills clinic or practicum selected from this group of options: Civil Practice Clinic (Health Law or Elder Law), Tax Clinic, Immigration Clinic, Environmental Law Clinic, PA Practice Practicum, Lawyering III Clinic, Unemployment Compensation Practicum, Criminal Prosecution Practicum, Veterans Practicum or Family Law Clinic. In all of these clinics, students have the potential of representing real clients in actual court proceedings.

The students in the John P. Gismondi Civil Litigation Certificate Program will complete their law school education having developed a set of skills which better prepares them to do courtroom work than traditional law school graduates, and that advantage, in turn, makes the Gismondi certificate students more attractive to law firms seeking to hire young and enthusiastic litigation associates.

Certificate Requirements

All students must follow the JD degree requirements in order to graduate. To qualify for this certificate, students must complete the Core Courses and Required Specialized Skills Courses listed below. In addition, students must take a litigation skills clinic or practicum, or a combination thereof, approved by the Director of Civil Litigation Program for a minimum of four credits.

Students must participate in the Murray S. Love Trial Moot Court Program during their second or third year or the Interscholastic Mock Trial Team (enroll in the attendant seminar Mock Trial Strategy and Practice).

Students must participate in the Program's Court Observation. Students will spend a day organized by the Academy of Trial Lawyers of Allegheny County observing court proceedings. Students will fulfill this requirement in their third year. Students must sign up with the Program Director in order to participate on one of these dates.

Students are required to complete an Upper Level Writing Requirement of 2 credits. Students may satisfy this requirement by taking any seminar or undertaking an independent study project if the paper they write is on an unresolved litigation related issue and the issue is approved by the Director of the Civil Litigation Certificate Program and the faculty member supervising the seminar or independent study project. The paper must comply also with applicable requirements of the professor and the Student Handbook relating to the Upper Level Writing Requirement.

- LAW 5103 - EVIDENCE
- LAW 5407 - TRIAL ADVOCACY
- Or
- LAW 5616 - MOCK TRIAL STRATEGY AND PRACTICE
- LAW 5129 - FEDL COURTS & FEDL LITIGATION
- Or
- Students must take four of these five courses:
- LAW 5320 - LITIGATION STRATEGY AND PLANNING
- LAW 5295 - EXPERT WITNESS
- LAW 5236 - PRE-TRIAL PRACTICE-PLEADINGS AND DISCOVERY
- LAW 5223 - ADVANCED TRIAL EVIDENCE
- LAW 5197 - ADVANCED TORTS

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Public Policy Concentration

You can earn the Public Policy Concentration by completing the Policy Track of the Semester in DC Program in the spring semester of your 2L or 3L year.

While law students learn many skills that are useful for policy-related work, they do not typically learn how to apply those skills in a policy context, for example by analyzing a government agency report, mapping the stakeholders on a particular issue, preparing questions for a Senate hearing, writing a short policy brief, or developing an advocacy campaign.

The Semester in DC Program Policy Track is designed to fill this gap by teaching you how to apply your legal advocacy, research, and writing skills in the policy context, so that you can successfully engage in policy-related work after graduation. The Policy Track is offered each spring semester jointly with the Graduate School of Public and International Affairs (GSPIA) at Pitt's Washington Center in downtown Washington, DC.

Highlights of the Semester in DC Program Policy Track include:

- A policy-related externship with a government or nonprofit organization in Washington, DC
- Classes that are focused on learning from policy experts who regularly visit as guest speakers and on attaining pragmatic policy advocacy, analysis, and writing skills
- Joint classes with GSPIA students, so that both policy and law perspectives are represented in each class
- An individual alumni mentor for each student, as well as connections with Law and GSPIA's alumni network of hundreds of attorneys and policy practitioners in the Washington, DC area

Semester in DC Program alumni have gone on to do all kinds of policy work after graduation, including positions:

- With the U.S. Departments of State and Health and Human Services
- With U.S. Senate and House offices
- In healthcare policy for Johnson & Johnson, the Maryland Department of Health, and the Legal Resource Center for Public Health Policy
- In environmental policy for the Sierra Club, the Environmental Investigation Agency, and Voices for Progress
- In child/family policy for the Children's Law Center and First Focus
- In labor policy for the AFL-CIO

Requirements

You can earn the Public Policy Concentration by completing the Policy Track of the Semester in DC Program after taking the required 1L Legislation and Regulation course.

The Public Policy Concentration requires students to earn 15 credits in the policy-related classes listed below. Students will have already completed the 3-credit foundational course in Legislation and Regulation in their 1L year. Students can complete the 12 remaining credits by participating in the Semester in DC Program Policy Track, which offers the listed courses. Only the courses listed below may be used to fulfill the requirements of this concentration; other courses may not be substituted.

Foundational Course

- LAW 5032 - LEGISLATION AND REGULATION

Electives (up to 7 credits)

- LAW 5877 - PUBLIC POLICY SEMINAR
- LAW 5666 - LOBBYING AND ADVOCACY
- LAW 5668 - POLICY COLLOQUIUM

or

- LAW 5954 - D.C. SEMINAR

(Students may apply 1 credit from the DC Seminar to the Public Policy Concentration if their seminar papers are approved in advance as policy-focused.)

Skills Component (6 credits required)

- LAW 5667 - POLICY EXTERNSHIP *
- LAW 5955 - D.C. EXTERNSHIP *

* must be approved in advance as policy focused.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Tax Law Program

The Area of Concentration in Tax Law is intended to provide students with a solid foundation in tax law that can be used either to enter a career in tax law, as a basis for pursuing further study in tax law, or as an adjunct to a career in another area of law. Tax law is unique in that it intersects with

every area of the law—from energy and environmental law to corporate law to health law to personal injury law, just to name a few examples. Knowledge of tax law is thus important whether one wishes to specialize in tax law or whether one wishes to gain a deeper knowledge of tax law to improve skills in another area of law (e.g., in advising corporations, partnerships, and other businesses).

Students may pursue this concentration by taking a foundational course in tax law, six credits of elective courses, and three credits of skills-based courses.

Area of Concentration

All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, the Tax Law Area of Concentration requires a minimum of 13 credits. The requirements for the program are divided into three categories—foundational, elective, and skills. Students must take a foundational course in tax law, 6 credits from among the listed elective courses, and 3 credits from among the listed skills courses.

Foundational Course (Required)

- LAW 5105 - FEDERAL INCOME TAXATION

Elective Courses (6 credits required)

- LAW 5817 - CORPORATE TAXATION
- LAW 5371 - PARTNERSHIP TAXATION
- LAW 5259 - ESTATE AND GIFT TAX
- LAW 5841 - INTERNATIONAL TAX *
- LAW 5325 - FEDERAL TAX PRACTICE & PROCEDURE
- LAW 5355 - NON-PROFIT ORGANIZATIONS
- LAW 5273 - STATE AND LOCAL TAX
- LAW 5511 - TAX LAW & POLICY SEMINAR
- LAW 5931 - PITTSBURGH TAX REVIEW

*Only one credit maximum of work on the Pittsburgh Tax Review can count toward the concentration.

Skills Component (3 credits required)

- LAW 5425 - LOW-INCOME TAX CLINIC
Tax Law Moot Court Competition
- LAW 5414 - ESTATE PLANNING
Externship in the area of tax law
- LAW 5955 - D.C. EXTERNSHIP
* may be alternately used as a Skills Component

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Doctoral

Law - Juridical Science, SJD

Program Information

The Doctor of Juridical Science (SJD) is the Law School's most advanced degree, which is designed for legal academics who wish to pursue advanced independent study, research and writing. The Law School's SJD program offers candidates the opportunity to become active members of a vibrant legal community.

Degree Requirements

The SJD is a research degree. There is no formal requirement for candidates to pursue course work, whether for credit or otherwise, other than required participation in a non-credit, ungraded colloquium for SJD students during their first year in the program. However, a candidate may be required by his advisor to take or audit courses and participate in seminars and discussions which will further the student's understanding of his or her field of knowledge and its relation to other fields. Each candidate will be allowed 2-4 years to complete the program, the first year of which must be spent in residency at the University of Pittsburgh School of Law. The year of residency is in addition to the LLM year for Pitt Law LLM graduates. A candidate is required to conduct rigorous research and produce an original dissertation that will contribute significantly to legal scholarship and further understanding of the law. Specifically, a candidate is required to submit a dissertation overview, defend that overview, submit a doctoral dissertation, and successfully defend the dissertation. The SJD degree must be completed under the supervision of a faculty member who has consented to serve as the faculty advisor.

Graduate Certificate

Law - Corporate Compliance Certificate

The Online Graduate Certificate in Corporate Compliance seeks to fill a growing need for compliance professionals and leverage the Law School's reputation and expertise in this area.

As international trade and globalization continues to grow, U.S. corporations doing business abroad and foreign corporations doing business with U.S. corporations find themselves subject to a multitude of U.S. legal compliance requirements. Organizations are starting to recognize reputational risk can be as great as or greater than strategic, financial or operational risks. As a result, compliance programs are growing as many organizations implement them to prevent and detect misconduct and to protect the interests of employees, shareholders, and businesses and to guard against reputational risk.

Compliance professionals are key to ensuring that organizations are complying with their own policies and procedures as well as applicable legal statutes, regulations, and judicial decisions.

The Online Graduate Certificate in Corporate Compliance is designed for U.S. and foreign corporate employees who work or wish to work in the corporate compliance area, such as lawyers, paralegals, and other compliance professionals in finance, internal audit, human resources and environmental sustainability, in order to enhance their careers by expanding their knowledge, skills, and professional understanding of corporate compliance.

The program will cover key foundational topics in corporate compliance, and it will enhance the ability of students to understand the fundamentals of corporate compliance, to design a compliance program as well as related policies and procedures, and to evaluate the effectiveness of ethics and compliance programs. Faculty - both full-time and part-time - who teach or practice corporate compliance will teach the four mandatory and one elective 3-credit courses over the course of the 40-week program. The required curriculum will cover legal aspects of corporate compliance; ethics and compliance; designing, measuring effectiveness, and auditing compliance programs; and conducting investigations and risk assessments. In addition, there will be several electives available to students who wish to specialize in a particular area of compliance such as Foreign Corrupt Practices Act, Antitrust, International Trade and Export, Pharmaceutical and Medical Devices, and Securities compliance.

Students will learn how to establish an effective program to monitor organizational misconduct; to ensure that employees and third parties have mechanisms in place to report misconduct and seek advice; to audit compliance and ethics risks; and to evaluate the effectiveness of the ethics and compliance program as well as other issues around public company disclosures and compliance programs. The potential clientele discussed will include individuals, as well as for-profit and nonprofit corporations, and hybrid and governmental entities.

The program will help position students for leadership in:

- Corporate compliance and ethics
- Regulatory affairs
- Compliance program training
- Policy development, including CSR (Corporate Social Responsibility) and ESG (Environmental, Social and Governance)
- Auditing and monitoring
- Financial fraud
- Environmental and other corporate compliance

Curriculum:

- LAW - Conducting Investigations and Risk Assessments
- LAW - Designing, Measuring Effectiveness, and Auditing Compliance Programs (based on US DOJ guidance)
- LAW - Ethics and Compliance
- LAW - Legal Aspects of Corporate Compliance
- LAW - Special Topics in Corporate Compliance

Law - Certificate in Disability Legal Studies

The law exerts a powerful and direct impact on the lives of persons with disabilities. It is estimated that close to 20 percent of the US population, nearly 54 million people, have a disability, with a dramatic increase in the proportion since 1970. People with disabilities comprise one of the largest, least employed, and most disenfranchised minority groups in society.

This 15-credit certificate program is a unique effort to provide legal education to those working in the administration of and provision of services in disabilities programs. Administrators, educators, health practitioners, advocates, social workers, architects, city planners, attorneys, and business leaders, among others, could potentially benefit from the program's instructional content.

Requirements

Students enrolled in the certificate program are required to take four core courses.

- LAW 2814 - U.S. LEGAL SYSTEM
 - LAW 5395 - HEALTH LAW AND POLICY
 - LAW 5339 - LAW OF DISABILITY DISCRIMINATION
 - LAW 5028 - TORTS
- Or another first-semester required course if the Certificate Director deems it preferable for a particular student's interest

The remaining 3 credits (minimum) may be satisfied by any of the following (or similar) courses which are offered as instructor availability permits:

- LAW 5464 - BIOETHICS AND LAW
- LAW 5283 - MENTAL HEALTH LAW

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Health Care Compliance Online Graduate Certificate Program

The Health Care Compliance Graduate Certificate Program is a fully online, accelerated 10-month graduate certificate program designed for working professionals. This advanced, accelerated program will support you as you take on more strategic compliance roles. In this program, you will:

- Learn the relevant law, practical applications of compliance, best practices and explore current issues;
- Interact with expert faculty-professors from the School of Law and School of Public Health, current and former federal regulators, and compliance industry experts;
- Network and collaborate with your peers in other industries and locations through innovative online applications; and
- Work on weekly assignments when and where you choose.

This program is designed for:

- Compliance professionals who wish to enhance their understanding and professional development;
- Attorneys who wish to acquire an appreciation of the compliance industry, client needs, and issues;
- Health care professionals who must understand compliance;
- Industry administrators and leaders; and/or
- Those interested in an exciting career change.

HCC Online course work is asynchronous, meaning there are no scheduled meeting times or locations. You will complete each course in the program within eight weeks, working through weekly modules, based on your own schedule and from any location.

The objectives of the Health Care Compliance Online program are to:

- Provide an understanding of the laws that shape the health care industry in general, and compliance in particular;
- Help students acquire a deeper understanding of the regulatory context of compliance;
- Help students develop the skills and knowledge necessary to identify compliance issues, guide change, and navigate complexity while supporting an ethical culture;
- Identify best practices in compliance management;
- Enhance critical thinking and problem solving skills in a compliance context;
- Help students acquire knowledge and skills to manage conflict;
- Improve students' communication and presentation skills; and
- Facilitate peer-to-peer learning and networking opportunities.

Requirements

Applicants must have earned a baccalaureate degree at an accredited institution. Admissions decisions will be made based on professional experience, academic credentials, and a personal statement. In some instances an interview (online or via phone) may be required.

To apply for the program, complete the Health Care Compliance Online Application available at Pitt Online's website.

Note: Please visit the Pitt Online State Authorization page to be sure your state is authorized to enroll students online. Currently, pursuant to state laws and regulations, online programs at the School of Law are authorized to enroll students from all states with the exception of: Arkansas, Kentucky, Minnesota, Missouri, Oregon, Washington State. Maryland Residents: the University of Pittsburgh is registered with the Maryland Higher Education Commission.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Human Resources Law Certificate

The program will be a ten-month, accelerated program. It will offer five courses designed to be taken in order. Each is eight weeks in length. At the completion of the program, students will be eligible to sit for some of the industry-based human resources certification exams offered by the Society for Human Resource Management (SHRM) and the HR Certification Institute.

The HRLC courses will be taught by industry experts and Pitt Law Faculty. In addition, the program will seek to create an advisory committee composed of Pitt law and business faculty, program faculty, and human resources professionals.

We do not expect an increase in need for student aid and minimal or no need for additional library resources. As this is a distance-learning program, we do not expect there to be any significant impact on office, laboratory, or classroom space. Instructors will need to coordinate with the Barco Law Library staff concerning planned student projects to ensure that digital resources will be available remotely to students where ever that may be. The Library staff can arrange for 30 students to access the library's existing Lexis and Westlaw databases, and by March 2019 all of the databases the Law Library subscribes to will be available to all students, whether on-campus or off-campus. All students in the program will have a "library liaison" at the Barco Law Library available to them for assistance.

Required Courses

Law - International Business Law & Dispute Resolution

The IBL/DR Certificate will be a ten-month, accelerated program. It will consist of five courses designed to be taken in order. Each is eight weeks long.

The IBL/DR courses will be taught by experienced legal professionals serving as part-time professors, and by Pitt Law Faculty.

Students in this program will not be eligible for financial aid from the School of Law. As this is a distance-learning program, we expect there will be no impact on office, laboratory, or classroom space. There will be a minimal need for additional library resources. Instructors will need to coordinate with Barco Law Library staff for student projects to ensure that digital resources will be available remotely to students wherever, and in whatever time zone, they may be. Students will have access to the library's existing digital databases. All students in the IBL/DR will be assigned a "library liaison" at the Barco Law Library available to them for assistance.

Law - Practical Business Law Graduate Certificate

The Online Graduate Certificate in Practical Business Law is designed for business employees, for those who wish to work in business, and for paralegals, who seek to enhance their careers by expanding their knowledge, skills, and professional understanding of general business law.

The program will cover key foundational topics in business law, and it will enhance the ability students to understand the fundamentals of business law. Faculty - both full-time and part-time - who teach or in some area of business law will teach the five required 3-credit courses over the course of the 40-week program.

Requirements:

- Business Organizations and Tax Law
- Commercial Law and Technology Law
- Human Resources Law
- Regulatory Law
- Dispute Resolution
- LAW 2057 - COMMERCIAL & TECHNOLOGY LAW
- LAW 2074 - SELECTED TOPICS IN HUMAN RESOURCES LAW
- LAW 2422 - ALTERNATIVE DISPUTE RESOLUTION

Total Credits: 15

Law - Sports, Entertainment & Arts Law Graduate Certificate

This online graduate certificate (SEAL) will fill a gap in the legal education market and leverage the strengths of the University of Pittsburgh School of Law, the larger University and its alumni, and the region. Our University and region have long produced leaders in sports, entertainment, and arts, from Panther to Steeler Nation, Fred Rogers to George Romero, and August Wilson to Andy Warhol. In today's rapidly changing, increasingly intersecting, and highly competitive sports, entertainment, and arts industries, leaders also need legal skills, knowledge, understanding and connections to succeed. By launching the SEAL certificate program, Pitt Law will help to ensure that our graduates, University and region will receive their cultural, social and economic return on investment.

The SEAL certificate is a ten-month, accelerated program that will target the market of business, legal and creative professionals who are currently working or planning to work in sports, entertainment, and or arts/sectors, and who wish to expand their legal skills, knowledge and understanding of these industries. These three synergistic sectors present similar legal issues, involving labor and employment, intellectual property, corporate, and commercial transactions law. Pitt Law Faculty with expertise in these fields will oversee the development and implementation of the SEAL courses, which will be taught by regular and adjunct Pitt Law faculty with industry experience.

By combining the study of sports, entertainment, and arts law into one program, the SEAL certificate will seize an opportunity to fill a gap left in the fields of sports, entertainment, and arts law education. Currently, the only programs offered by U.S. law schools that cover all three sectors are costly, in-person, full-time programs limited to lawyers or law students seeking degrees. Although a number of part-time, online programs in these legal fields do now exist, these programs force students to choose one or two sectors, despite the increasing intersection of all three of these competitive industries. By covering the law and providing connections in all three sectors, the SEAL certificate will increase the size of our target market and expand employment opportunities for our graduates. This is an ideal time to launch this program, which would distinguish it as the first online program to cover all three fields, and incoming SEAL students would be well-positioned to apply for impending employment opportunities that will open post-pandemic.

The SEAL certificate will also advance the long-term goals of the Law School and University. The program will "Advance Educational Excellence" by preparing our graduates to "lead lives of impact" through the appropriate use of technology and increased and affordable access to professional education. The SEAL program will "Strengthen Communities" by ensuring that our students understand the legal issues that they must address to fully benefit from the economic impact of their work. The program will "Advance Diversity and Inclusion" by empowering our students to serve as social justice warriors, legally protected from discrimination, censorship and exploitation. And the program will allow our students to "Embrace the World" by understanding the international legal issues presented in this truly global industry.

Finally, offering this new program will positively impact existing University programs and students. SEAL students will be able to apply their credits towards fulfilling the requirements in our Master of Studies in Law (MSL) degree. The SEAL program will also leverage opportunities to work with the Pitt Athletic, Music, Studio, and Theater Arts Departments and with the Film and Media Studies Program to increase the social, cultural and economic impact of our University and region.

Course Requirements: 15 Credits

- Law - Intellectual Property in Sports, Entertainment and the Arts
- Law - Introduction to the Law and Business of Sports, Entertainment and the Arts
- Law - Labor & Employment Law in Sports, Entertainment and the Arts
- Law - Organization, Finance & Distribution Law in Sports, Entertainment and the Arts
- Law - Special Topics in Sports, Entertainment and the Arts Law

Joint Degree

Law and Arts Management (Carnegie Mellon), JD/MAM

The University of Pittsburgh School of Law and Heinz College offer a joint degree program designed to train students for careers in which arts management and law overlap. This program, spanning four years, prepares you for careers in which arts management and law overlap. You must satisfy both schools' degree requirements, but some credit is given by each school for completing the other school's program.

The joint degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

Law Arts Management Requirements

The Heinz School of Public Policy and Management and the Law School have different degree requirements. Carnegie Mellon courses are counted in units and University of Pittsburgh courses are counted in credits. A 12-unit course is the equivalent of a 4-credit course. To fulfill the program requirements for the Law School, students have to complete 88 credits while the Heinz School requires 198 units for the MAM degree. Students in the joint degree program are able to transfer 30 units to the Heinz School degree after completing their JD degree and 14 credits to the JD degree after completing their MAM degree.

Students are required to register for a minimum of one class per semester at Heinz College during years 3 and 4 in order to qualify for the transfer of credits between institutions. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the [Graduation Requirements page](#).

Before selecting courses for each program, students are required to meet with their Academic Advisors at both programs to map out a course of study. In addition to the course work for both programs, Heinz School students are required to complete a summer internship after their first year at the Heinz School. Students can receive assistance from the Career Services Office in securing an internship.

Since degrees in the joint programs are awarded concurrently, it is important to note that a student who resigns from one program will be subject to all the requirements for graduation from the remaining degree program.

Note

For detailed term-specific course descriptions, please go to the [Schedule of Classes Course Lists](#) on the Law School web site.

Law and Bioethics, JD/MA

Program Overview

JD/MA, University of Pittsburgh School of Arts and Sciences and the Center for Bioethics and Health Law

The School of Law and the School of Arts and Sciences (A&S) offer a joint degree program in law and bioethics. Graduates of the program receive the Juris Doctor (JD) degree, the basic professional degree in law, and the Master of Arts (MA) degree from FAS, in bioethics. The joint degree program is directed by Alan Meisel, JD, in cooperation with Lisa S. Parker, PhD, who directs the interdisciplinary Master of Arts in Bioethics.

The joint degree program has been established in recognition of the extensive and increasing overlap between law and bioethics. The objective of this educational program is to prepare graduates with an interdisciplinary background in law and bioethics so they can address those issues and situations that require knowledge of and expertise in both. Graduates will be academically prepared for professional roles as bioethicists in health care institutions, in public policy working for government or philanthropic organizations, or in the practice of law, for example, giving counsel to health care institutions.

Contact Information

University of Pittsburgh School of Law
Professor Alan Meisel
3900 Forbes Avenue
Pittsburgh, PA 15260
(412) 648-7120
meisel@law.pitt.edu

Requirements

The sequence of the curriculum is designed to allow students maximum flexibility. Students may either take the entire first-year School of Law curriculum intact, or they may take one bioethics course - Theoretical Foundations of Applied Ethics - in place of Criminal Law (which would then be taken in their second year of law school). Students should discuss this plan of study with Prof. Alan Meisel, Director of this joint program.

Writing Requirements

The writing requirements for both degrees are simultaneously satisfied by completion of the master's thesis requirement in a subject in the field of law and bioethics.

Practica

The Clinical Practica ensure that students will be comfortable in and knowledgeable about the clinical setting by learning how to identify the normative issues in clinical cases and to be able to give practical advice regarding difficult bioethical dilemmas. Students are scheduled for six credits of clinically-based work, which may be reduced to three for students with previous health care training. In Clinical Practica I and II students acquire familiarity with the clinical setting by

- rounding in specified services with residents, attending physicians, and other health care professionals, including one night on call per service
- participating in twice weekly seminars on medical sociology and clinical ethics and to fulfill those seminar requirements of reading, writing, discussion, and case presentations
- observing ethics consultations and clinical ethics teaching sessions
- completing a self-paced programmed text covering basic medical terminology

In Clinical Practicum II, students participate in an intensive four-week rotation in the clinical area of their choice, allowing in-depth development in an area of clinical medicine. Students should relate this intensive clinical experience to their thesis topic.

In addition to meeting the specifically required coursework for the JD degree and the MA degree, students will select electives from among an array of courses available in the two separate degree programs and in other parts of the University. For an up-to-date list of law school courses considered to be especially appropriate for students in this joint degree program, students should consult the courses listed as electives for the Health Law Certificate Program.

Students in the joint law and bioethics program will ordinarily fulfill the requirements of the Health Law Certificate Program in the law school and may obtain this certificate concurrent with the joint degree.

Advising

Students are required to consult with the Director of the Joint Degree Program during or prior to the spring registration period each year in order to assure that they meet all requirements of the Joint Degree program.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in this joint degree program unless they limit the number of credits from outside the Law School that count toward their JD degree to no more than 12. See New York Rules of Court § 520(c)(5).

Credits

Students enrolled in the joint degree program accomplish in three to four years what would take four or more years if the two degrees were obtained separately. The total required number of credits 100, as compared with 118 credits if the two degrees were taken separately. The 100 credits include 34 credits of specifically prescribed* law courses, the Bioethics and Health Law Clinical Practicum (3 credits), and 18 specifically prescribed credits in bioethics. Within the remaining 45 credits, students must satisfy requirements for their law degree, take a course from the list of Restricted Elective courses for the bioethics degree, and take at least 3 credits in a course relevant to bioethics (either in the law school or not).

Taken as a joint degree program, the two degrees are ordinarily earned in 7 semesters and one summer.

During at least 5 semesters, joint degree students must be coded by the University Registrar as "primary law." During these semesters, they pay tuition at the Law School rate. They must enroll in at least 10 credits of law school courses.

Specifically Prescribed Law Courses

- LAW 5020 - CONTRACTS
- LAW 5046 - CRIMINAL LAW
- LAW 5720 - LEGAL ANALYSIS AND WRITING (Fall Term)
- LAW 5076 - LEGAL ANALYSIS AND WRITING (Spring Term)
- LAW 5028 - TORTS

- LAW 5033 - CIVIL PROCEDURE
- LAW 5101 - CONSTITUTIONAL LAW
- LAW 5032 - LEGISLATION AND REGULATION
- LAW 5024 - PROPERTY
- LAW 5061 - PITT LAW ACADEMY (Fall Term)
- LAW 5062 - PITT LAW ACADEMY (Spring Term)
- BIOETH 2604 - CLINICAL PRACTICUM 1
- BIOETH 2904 - MA THESIS IN BIOETHICS
- BIOETH 2606 - CLINICAL PRACTICUM 2
- BIOETH 2664 - BIOETHICS
- BIOETH 2658 - PHILOSOPHY OF MEDICINE
- BIOETH 2661 - THEORETICAL FOUNDATIONS

Additional credits to complete the graduation requirement may include courses service as a bioethics restricted elective or a bioethics elective.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Business Administration (Carnegie Mellon), JD/MBA

The daily interaction of Law and Business in our society presents attorneys, entrepreneurs, and other professionals with a diverse set of challenges arising from public and private institutions, policies, and practices. A joint degree program can provide valuable interdisciplinary skills to tackle these challenges. To prepare the next generation of leaders, the University of Pittsburgh School of Law offers an outstanding joint degree program in Law and Business with a unique option.

Students may combine a Juris Doctor (JD) degree with a Master in Business Administration (MBA) from Carnegie Mellon University Tepper School of Business, which is in the top 20 of all U.S. business schools according to the the U.S. News rankings. The JD/MBA program enables students to receive integrated training in Law and Business while reducing the amount of time ordinarily necessary to earn the two degrees from five years to four years.

Requirements

Students in the JD/MBA program complete the joint degree in either eight (8), nine (9), or ten (10) semesters. During the first four (4) semesters of the program, students must enroll full-time for one (1) entire year at the School of Law and for one (1) entire year at the appropriate School of Business. Students have an option of enrolling either at the School of Law or the School of Business for the first-year of the program. During the third- and fourth-years of the program students enroll in courses at both schools, subject only to availability and each school's respective upper-level requirements. To graduate from the Law School, students in the JD/MBA program must have five semesters of full-time enrollment (minimum of 10 credits per semester) at the Law School (rather than the six that is normally required).

School of Law

Details about the first-year program at the School of Law can be found on the First-Year Curriculum page. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Tepper School of Business

To graduate with a JD/Tepper MBA degree students must acquire a total 88 credits from the School of Law and 64 credits (or 192 units) from Tepper. However, completing the MBA degree entitles the student to 15 credits of advanced standing at the School of Law, resulting in an actual total of 73 credits; and completing the JD degree entitles the student to 10 credits (or 30 units) at Tepper, resulting in an actual total of 54 credits (or 162 units). This means that, after a year at the School of Law and a year at Tepper, a student must acquire at least 40 additional credits from the School of Law and 22 credits (or 66 units) in electives from Tepper to graduate with a JD/MBA.

More information can be found on their website.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in a joint degree program that entitles the student to more than 12 credits of advance standing at the Law School (i.e., the JD/MBA with the Tepper School of Business). See New York Rules of Court § 520.3(c)(5).

MBA Degree Requirements

In Fall 2022, modifications were approved for the MBA Degree Requirements. Students will have until Summer 2023 to complete old program curriculum requirements

The following core courses are required of all full-time MBA students:

Accelerated MBA, Signature MA, Part-Time MBA and Dual-Degree MBA/MS programs; MBA with Business Analytics students also complete the MBA Core Curriculum with additional credits required from business analytics curriculum. Joint-Degree MBA students also complete the MBA Core Curriculum, with some exceptions.

- BACC 2401 - FINANCIAL ACCOUNTING
- BECN 2401 - ECONOMIC ANALYSIS FOR MANAGERIAL DECISION: FIRMS AND MARKETS
- BQOM 2401 - STATISTICAL ANALYSIS: UNCERT
- BQOM 2421 - DECISION TECH IN MFG & OPS MGT
- BFIN 2409 - FINANCIAL MANAGEMENT 1
- BMIS 2409 - INFORMATION SYSTEMS
- BMKT 2409 - MARKETING MANAGEMENT
- BSPP 2409 - STRATEGIC MANAGEMENT
- BOAH 2409 - ORGANIZATIONAL BEHAVIOR: LEADERSHIP AND GROUP EFFECTIVENESS
- BSEO 2401 - BUSINESS ETHICS & SOCIAL PERFORM
- BIND 2454 - INTEGRATED MBA CAPSTONE

MBA Professional Courses

In addition to the MBA Core Curriculum, MBA students also complete "professional" coursework:

- Quant Methods for Business
- Programming for Business
- Business Communications

The content of these courses is designed to accelerate a students' academic and personal development as a business professional. The timing, delivery, and credit-load may vary by program (i.e. Accelerated v. Signature v. Part-Time MBA). Any credits earned count toward the minimum 45-credits required for the MBA degree.

- BIND 2404 - PROBABILITY & STATISTICS: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
- BIND 2406 - BUSINESS MATH: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
- BIND 2506 - TIME VALUE OF MONEY: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
- BMIS 2402 - COMPUTATIONAL THINKING FOR BUSINESS LEADERS
- BOAH 2528 - ORGANIZATIONAL BEHAVIOR- COMMUNICATING STRATEGICALLY

Law and Information Security Policy (Carnegie Mellon), JD/MSISPM

Building on their longstanding and successful partnership, the University of Pittsburgh School of Law and Heinz College offer a joint degree program designed to train students for careers in which management, information security, and law overlap. This joint degree offering is particularly beneficial to many students' careers because legal considerations affect many management and policy decisions, and the practice of law is enhanced by a clear understanding of the policy and security concerns facing the public, private, and nonprofit sectors. Participants in the program will emerge with a broad knowledge of the fundamental intersections of law, government, privacy and information security, and management. The fields of cybersecurity, information privacy, intellectual property law, cybercrime, and other IT-related sectors are growing rapidly. There are many job opportunities in this emerging space. Many of those jobs have legal dimensions and will be filled by people with legal training. Graduates of the joint degree program will be better prepared to compete for those jobs and to succeed in them because of their broader, interdisciplinary training. Furthermore, the interdisciplinary nature of this program allows for practical skill sets to solve economic and social problems that require technological, managerial, and legal expertise.

The joint-degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and International Affairs, JD/MPIA

This program provides rigorous, integrated training for students preparing for a professional career that combines law and public and international affairs. Increasingly, lawyers in the public and nonprofit private sectors work in managerial and policy-making capacities for which legal training alone does not prepare them. At the same time, legal considerations impinge more than ever on the work of public managers and planners, although most of them have had no exposure to legal training. Students in the joint-degree program gain a broadened knowledge base and a cross disciplinary approach to solving problems involving the intersection of law, policy, and management. They also develop more marketable professional skills than are usually acquired through single-degree programs. Professionals trained in both law and public and international affairs thus enjoy expanded career opportunities. The University of Pittsburgh's program is unique because of the range of master's degree options available.

Students in the MPIA degree program pursue majors in Global Political Economy or Security and Intelligence Studies. Students interested in international development have a choice of two major fields, which include Development Planning and Environmental Sustainability or Non-Governmental Organizations (NGOs) and Civil Society.

Curriculum & Requirements

The structuring of this four-year degree program is flexible. A student may begin study in either school. The only requirement in this connection is that the first year in the School of Law be taken in its entirety, with no outside courses. GSPIA also expects joint-degree program students to complete the required master's degree core courses early in their program in GSPIA.

Degrees in the joint-degree program are awarded concurrently. Therefore, it is important to note that a student who resigns from one program and elects to remain in the other will be subject to all the requirements of that particular degree program. The previously described arrangement for awarding advanced-standing credits will no longer be in effect.

Each student must satisfy both schools' requirements as modified by participation in the joint-degree program. The credit requirements are as follows:

Program	Joint Degree Credits
Juris Doctor (JD)	79 Credits
Master of Public and International Affairs	36 Credits
Total Credits for Joint Degree	115 Credits

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

The previously described arrangement for awarding advanced-standing credits will no longer be in effect.

Each student must satisfy both schools' requirements as modified by participation in the joint-degree program. The credit requirements are as follows:

Program	Joint Degree Credits
Juris Doctor (JD)	79 Credits
Master of Public Administration	36 Credits
Total Credits for Joint Degree	115 Credits

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Public Health, JD/MPH

The School of Public Health, Health Policy & Management and the School of Law at the University of Pittsburgh offer a cooperative educational program, through which students may earn both the Juris Doctor (JD) degree, the first professional degree in law, and the Master of Public Health (MPH) degree, the primary professional degree in public health. Students have the option of selecting between two areas of concentration pursuing their MPH degree: health policy and management or public health sciences. The joint-degree program has been established in recognition of extensive and increasing connections between law and the broad range of health services, both public and private, in the United States.

The objective of this specialized educational program is to provide graduates with an inter-disciplinary education to prepare them to address issues and situations that affect personal and public health. Graduates of this joint-degree program are academically prepared for the practice of law with private clients, serving as house counsel with health organizations and systems, and as attorneys representing state, county and local health departments. The threat of bioterrorism and the need to balance both individual rights and public protection in establishing public health preparedness has made public health law an even more vital professional focus for attorneys.

For Additional Information

For information regarding entrance examinations, tuition and financial aid, writing requirements and field experience, please visit the GSPH website.

Requirements

Students enrolled in the joint-degree program receive integrated training in law and public health. Students must complete 37 credits in the MPH curriculum, and 8 JD credits will be applied toward the MPH degree in order to meet the required 45 credits for the MPH degree. Students must complete 76 credits in the JD curriculum, and 12 MPH credits will be applied toward the JD degree in order to meet the required 88 credits for the JD degree. The first year of law school must be completed in a single academic year before embarking on studies in public health. Neither degree may be granted prior to the fulfillment of all requirements for the joint-degree program.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Public Policy and Management (Carnegie Mellon), JD/MSPPM

The University of Pittsburgh School of Law and Heinz College offer a joint-degree program designed to train students for careers in which management, public policy and law overlap. A successful partnership that has been in existence for over a decade, this program offers students a comprehensive education that marries the analytic and quantitative strength of the Heinz School with the rigorous legal training afforded by the School of Law. This joint degree offering is particularly beneficial to many students' careers since legal considerations affect many public management and policy decisions, and the practice of law is enhanced by a clear understanding of public policy and management concerns. Participants of the program emerge with a broad knowledge of the fundamental intersections of law, government, policy analysis and management. Furthermore, the interdisciplinary nature of this program allows for practical skill sets to solve economic and social problems that require technological, managerial, and legal expertise.

The joint-degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

Curriculum & Requirements

The Heinz School of Public Policy and Management and the Law School have different degree requirements. Carnegie Mellon courses are counted in units and University of Pittsburgh courses are counted in credits. A 12-unit course is the equivalent of a 4-credit course. To fulfill the program requirements for the Law School, students have to complete 88 credits while the Heinz School requires 198 units for the MSPPM degree. Students in the joint degree program are able to transfer 30 units to the Heinz School degree after completing their JD degree and 14 credits to the JD degree after completing their MSPPM degree.

Students are required to register for a minimum of one class per semester at Heinz College during years 3 and 4 in order to qualify for the transfer of credits between institutions. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Before selecting courses for each program, students are required to meet with their Academic Advisors at both programs to map out a course of study. In addition to the course work for both programs, Heinz School students are required to complete a summer internship after their first year at the Heinz School. Students can receive assistance from the Career Services Office in securing an internship.

Since degrees in the joint programs are awarded concurrently, it is important to note that a student who resigns from one program will be subject to all the requirements for graduation from the remaining degree program.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Social Work, JD/MSW

The School of Social Work (SSW) and the School of Law offer a cooperative educational program through which students may earn both the Master of Social Work (MSW), the primary professional degree in social work, and the Juris Doctor (JD) degree, the first professional degree in law. The MSW-JD program will enable students with interests in a wide range of areas where law and social work converge - such as child welfare, aging, health, mental health, juvenile and criminal justice, family issues, and housing - to engage in a highly integrative educational experience that will

include academic courses, field placements, and research opportunities at the intersection of both professions. The joint degree program allows one to earn both degrees in four years rather than five.

Increasingly, social work professionals and attorneys are working together to promote the well-being of their clients. These areas of convergence exist in practice with individuals, families, and groups as well as with communities and organizations. The intersection of legal and social work concerns is also evident at the policy level, and research from both professional disciplines has been used to inform these activities. It is not uncommon for practitioners from both fields to work in concert to draft, implement, and/or advocate for legislation at the local, state, and federal levels.

The MSW-JD program is one among several programs that the Schools of Social Work and Law have jointly established throughout their long and rich history of collaboration.

Faculty Advisors

University of Pittsburgh School of Law

Professor Kevin Deasy, MSW, JD

University of Pittsburgh School of Social Work

Professor Jeffrey Shook, MSW, JD, PhD
2117 Cathedral of Learning
Pittsburgh, PA 15260
(412) 648-9365
jes98@pitt.edu

Requirements

Students enrolled in the joint degree program will receive integrated training in social work and law over a four year period. The combined credit-hour requirements for the MSW and JD degrees obtained separately is 148 credits (60 for the MSW, usually completed in four full-time semesters, and 88 for the JD, usually completed in six full-time semesters). In the joint degree program, the two degrees are awarded for a combined total of 121 credits (46 in Social Work and 75 in Law). This reduction in credit-hour requirements is achieved through the acceptance of up to 14 credit hours of JD course work receiving a grade of C or higher toward the MSW degree and the acceptance of up to 13 credit hours of MSW work receiving a grade of B or higher toward the JD degree. All didactic foundation SW courses must be completed in a single academic year; likewise, all first-year JD courses must be completed in a single academic year. Neither degree may be granted prior to the fulfillment of all requirements for the joint degree program.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in a joint degree program that entitles the student to more than 12 credits of advance standing at the Law School (i.e., the JD/MSW with the School of Social Work). See New York Rules of Court § 520(c)(5).

Integrative seminar

All students must complete an Integrative Seminar, to be jointly presented by the School of Social Work and Law School, during each Fall and Spring semester of their enrollment in the MSW-JD program. The integrative seminar will meet twice each Fall and Spring semester. The goal of the seminar will be to allow students the space to discuss issues related to integration and to listen to and have a dialogue with outside speakers who have integrated law and social work in their practice, research, and/or teaching.

Required electives in the Law School

Students must complete at least 2 courses from the Law School menu of MSW-JD "required electives."

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Master's

Law - Foreign Law Graduates, LLM

The Master of Laws (LLM) degree provides foreign law graduates with critical training in the common law legal tradition and the U.S. legal system during an academic year at the University of Pittsburgh, located in Pittsburgh's vibrant Oakland neighborhood. Pitt Law's LLM program provides lawyers who have completed their law degree outside the United States with an opportunity to study the common law legal tradition and the U.S. legal system in the United States.

Degree Requirements

Students must complete a minimum of 24 credits to graduate. The program is completed in one academic year from August to May. Part-time admission is considered on a case-by-case basis. The CILE Academic Director, Executive Director and Program Administrator take an active role in personally counselling each LLM student on their course choices, helping you to plan a course of study that is uniquely tailored to your personal needs. Courses taken must include:

- LAW 5977 - INTRODUCTION TO AMERICAN LAW
- LAW 5820 - LL.M COLLOQUIUM
Writing Requirement - Choose one of the following:
- LAW 5902 - INDEPENDENT STUDY
or a Seminar Course (Usually 3 credits-various courses are offered each semester). In seminars, the class will meet once a week for two hours with the guidance of a faculty member. The students will conduct research on the seminar topic and prepare drafts of their paper throughout the semester. Each student will present their paper in class and submit a final paper at the end of the semester.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Professional Master's of Studies in Law

The Professional Master's of Studies in Law at the University of Pittsburgh School of Law is a 30-credit advanced degree designed for graduates and mid-career professionals seeking to enhance their careers with a versatile alternative to the traditional three-year Juris Doctor degree. The degree can be earned in one academic year (August to May) full-time or two to four years in a flexible part-time schedule.

Professional Master's students seek to gain foundational and specialized knowledge of laws and legal systems. Law is a pervasive influence on almost all aspects of life across the globe, but higher education often ill-prepares students and professionals for navigating laws and legal dynamics in business and life. The degree addresses this critical knowledge gap.

Pitt Law commands one of the oldest Professional Master's of Studies in Law programs in the country. Only a handful of students are admitted per year. Pitt Law offers a large number of areas of specialization from which to choose, including a self-designed specialization.

This is not an online program. Professional Master's students take the same vast array of courses as Juris Doctor candidates taught by world-class legal scholars, judges and attorneys, and they gain the advantages and benefits of attending the University of Pittsburgh.

Degree Requirements

Applicants must have completed at least an undergraduate bachelors degree. Applicants need to provide official transcripts of all college, graduate and professional studies, whether a degree was obtained or not. No standardized test is required.

International students are welcome and encouraged to apply. They must have completed the equivalent of a US bachelors degree, and they must submit a TOEFL score. The minimum acceptable TOEFL scores are 600 paper, 250 computer, 110 internet. IELTS scores are also accepted in lieu of

TOEFL. International students are encouraged to apply as early as possible because of greater amount of time needed to process the application, obtain visas, and obtain housing.

Students must complete 30 course credits in the School of Law to receive the MSL degree. Students are required to take U.S. Legal System, one first-year JD course, and the required courses in their selected area of specialization.

The areas of specialization from which students may choose are as follows:

- Biomedical & Health Services Research
- Business Law
- Commercial Law
- Corporate Law
- Criminal Law and Justice
- Disability Law
- Elder and Estate Planning Law
- Employment and Labor Law
- Energy Law
- Environmental Law
- Family Law
- Health Care Compliance
- Health Law
- Human Resources Law
- Intellectual Property and Technology Law
- International Business Law
- International and Human Rights Law
- Jurisprudence
- Real Estate Law
- Self-Design
- Sports and Entertainment Law
- Tax Law

Students may also design their own unique concentration.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Micro-Credential

Law - Cyber Law and IT, Micro-Credential

The Micro-credential in Cyber Law and IT will focus on subjects relating to the regulation of technology and cyberspace, privacy law and intellectual property. Credits taken in this micro-credential will also count toward the student's general LL.M. degree. Because all Micro-credit courses are also regular law school courses, and because the LL.M. degree is usually completed within 12 months, there is no limit on the number of credits that can count toward both a Micro-credential and the general LL.M degree. All Micro-Credential credits earned (with a grade of C or higher) will be valid to count toward the LL.M. degree for two years. 9 required credits for the micro-credential.

Curriculum:

Completion of this micro-credential will require that students take at least nine credit hours, with a grade of C or higher, in courses of which at least one is drawn from each of the following two rubrics:

Cyber Law:

Classes focusing on cyber law, including, for example, Cybersecurity, Privacy, and Democracy, Cyber Law and Policy Seminar, Cyberspace and the Law, or similar courses approved by the CILE Director.

- LAW 5671 - CYBERSECURITY, PRIVACY, AND AMERICAN DEMOCRACY
- LAW 5685 - CYBER LAW & POLICY SEMINAR
- LAW 2404 - CYBERSPACE AND THE LAW

IT Law:

Courses focusing on the IT Law, including, for example, Information Privacy Law and Practice, Commercializing New Technologies, Technology, Law, and Leadership, Intellectual Property, Technology and Employment Law, Applied AI.

- LAW 2430 - INFORMATION PRIVACY: LAW AND PRACTICE
- LAW 2135 - COMMERCIALIZING NEW TECHNOLOGIES
- LAW 5754 - TECHNOLOGY, LAW & LEADERSHIP
- LAW 2260 - INTELLECTUAL PROPERTY
- LAW 2718 - TECHNOLOGY AND EMPLOYMENT LAW
- LAW 5719 - APPLIED LEGAL DATA ANALYTICS AND AI

Law - Energy and Environmental Law, Micro-Credential

The Micro-credential in Energy and Environmental Law will focus on subjects relating to energy regulation and environmental policy. Credits taken in this micro-credential will also count toward the student's general LL.M. degree. Because all Micro-credit courses are also regular law school courses, and because the LL.M. degree is usually completed within 12 months, there is no limit on the number of credits that can count toward both a Micro-credential and the general LL.M degree. All Micro-Credential credits earned (with a grade of C or higher) will be valid to count toward the LL.M. degree for two years. 9 required credits for the micro-credential.

Curriculum:

Completion of this micro-credential will require that students take at least nine credit hours, with a grade of C or higher, in courses of which at least one is drawn from each of the following two rubrics:

Energy Law:

Energy Law and Regulation, Climate Change and the Law, Oil and Gas Law, or similar courses approved by the CILE Director.

- LAW 2038 - ENERGY LAW AND REGULATION
- LAW 2082 - CLIMATE CHANGE AND THE LAW
- LAW 2099 - OIL AND GAS LAW

Environmental Law:

Environmental Law, Environmental Law, Policy, and Politics, Environmental Justice Law Seminar, Environmental Policy & Practice, Land Use or similar courses approved by the CILE Director.

- LAW 2340 - ENVIRONMENTAL LAW
- LAW 5247 - ENVIRONMENTAL POLICY, POLITICS, AND PRACTICE
- LAW 2807 - ENVIRONMENTAL JUSTICE LAW SEMINAR
- LAW 2336 - LAND USE
- LAW 5714 - ENVIRONMENTAL POLICY AND PRACTICE

Law - Health Care Law and Regulation, Micro-Credential

This program requires a minimum of six credit hours of coursework chosen from a menu of courses currently offered on a regular basis by the School. If taken by an LL.M. student or a non-degree student wishing to preserve the ability to transfer credits to the LL.M. program, all requirements must be met on a graded rather than pass-fail basis. Admissions requirements for non-degree students in these micro-credentials will be identical to those for LL.M. students.

Completion of this micro-credential will require that students take at least six credit hours, with a grade of C or higher, in courses of which at least one is drawn from each of the following two rubrics:

Note: This micro-credential program was approved on October 1, 2021 in order to maintain accurate records, the program was added to the catalog on October 25, 2021.

The Landscape of US Health Care Law:

Current Issues in Health Law, Health Law & Policy, or an equivalent course approved by the CILE Academic Director if neither is offered during a student's time in residence.

US Health Law Issues Encountered by Foreign Counsel:

Health Care Business Transactions, Biotechnology Law, Law of Disability Discrimination, or similar courses approved by the CILE Academic Director.

Law - Human Rights Law, Micro-Credential

The Micro-credential in Human Rights Law will focus on subjects relating to the protection of human rights under domestic and international law. Credits taken in this micro-credential will also count toward the student's general LL.M. degree. Because all Micro-credit courses are also regular law school courses, and because the LL.M. degree is usually completed within 12 months, there is no limit on the number of credits that can count toward both a Micro-credential and the general LL.M. degree. All Micro-Credential credits earned (with a grade of C or higher) will be valid to count toward the LL.M. degree for two years. 9 required credits for the micro-credential.

Curriculum:

Completion of this micro-credential will require that students take at least nine credit hours, with a grade of C or higher, in courses drawn from the following rubric: Philosophy of Crime and Punishment - National and International Perspective, Legal Institutions and the Holocaust, Conflict of Laws, International Human Rights Law, International Law, Law of Slavery, Abolition & Freedom Seminar, Federal Hate Crimes, Islamic Law and Jurisprudence Seminar, or similar courses approved by the CILE Director.

- LAW 2644 - PHILOSOPHY OF CRIME & PUNISHMENT - NATIONAL & INTERNATIONAL PERSPECTIVE
- LAW 2686 - LEGAL INSTITUTIONS & THE HOLOCAUST
- LAW 2213 - CONFLICT OF LAWS
- LAW 2653 - INTERNATIONAL HUMAN RIGHTS
- LAW 2226 - INTERNATIONAL LAW
- LAW 5709 - LAW OF SLAVERY, ABOLITION & FREEDOM SEMINAR
- LAW 2642 - FEDERAL HATE CRIMES
- LAW 5866 - ISLAMIC LAW AND JURISPRUDENCE SEMINAR

Law - Intellectual Property Law, Micro-Credential

The Micro-credential in Intellectual Property Law will focus on subjects relating to technology policy, patent, trademark and copyright law. Credits taken in this micro-credential will also count toward the student's general LL.M. degree. Because all Micro-credit courses are also regular law school courses, and because the LL.M. degree is usually completed within 12 months, there is no limit on the number of credits that can count toward both a

Micro-credential and the general LL.M degree. All Micro-Credential credits earned (with a grade of C or higher) will be valid to court toward the LL.M. degree for two years. 9 required credits for the micro-credential.

Curriculum:

Completion of this micro-credential will require that students take at least nine credit hours, with a grade of C or higher, in courses drawn from the following rubric: Foundations of Intellectual Property Law Seminar, Commercializing New Technologies, Technology, Law, and Leadership, Foundations of Intellectual Property Seminar, Copyright Law, Patent Law Practice, Trademark Law, or similar courses approved by the CILE Director.

- LAW 2862 - FOUNDATIONS OF INTELLECTUAL PROPERTY SEMINAR
- LAW 2135 - COMMERCIALIZING NEW TECHNOLOGIES
- LAW 5754 - TECHNOLOGY, LAW & LEADERSHIP
- LAW 2328 - COPYRIGHT LAW
- LAW 2242 - PATENT LAW PRACTICE
- LAW 2694 - TRADEMARK LAW

Law - International Arbitration Micro-Credential

The micro-credential in International Arbitration will focus on subjects relating to the settlement of disputes outside of national courts and before arbitral fora, and will include specific courses on how to structure international transactions to prepare for arbitration, the practice and theory of international arbitration, and substantive international law related to state-to-state and investor-state arbitration.

Requirements:

Micro-credential in International Arbitration: Completion of this micro-credential requires that students take at least nine credit hours, with a grade of C or higher, in courses drawn from each of the following three rubrics as well as an internship/externship:

International Law:

- LAW 5040 - PUBLIC INTERNATIONAL LAW ADVOCACY or, if not offered in a given term, or another course approved by the CILE Executive Director that provide a comparable introduction to commercial and business law.

Commercial Law:

- LAW 2225 - INTERNATIONAL BUSINESS TRANSACTION or, if not offered in a given term, or another course approved by the CILE Executive Director that provide a comparable introduction to commercial and business law.

Dispute Resolution:

- LAW 5986 - INTERNATIONAL ARBITRATION SEM, The Practice of International Litigation and Arbitration, or another course approved by the CILE Executive Director that provide a comparable introduction to one or more forms of alternative dispute resolution.

Internship/Externship:

An off-campus internship/externship approved by the CILE Executive Director that provides a practical and skills-based introduction to international arbitration.

Total Credits: 9

Law - International Arbitration, Micro-Credential

The Micro-credential in International Arbitration will focus on subjects relating to the settlement of disputes outside of national courts and before arbitral fora, and will include specific courses on how to structure international transactions to prepare for arbitration, the practice and theory of international arbitration, and substantive international law related to state-to-state and investor-state arbitration. Curriculum:

Completion of this micro-credential requires that students take at least nine credit hours, with a grade of C or higher, in courses drawn from each of the following three rubrics as well as an internship/externship:

International Law

Public International Law or, if not offered in a given term, or another course approved by the CILE Executive Director that provide a comparable introduction to commercial and business law.

- LAW 5226 - INTERNATIONAL LAW

Commercial Law:

International Business Transactions or, if not offered in a given term, or another course approved by the CILE Executive Director that provide a comparable introduction to commercial and business law.

- LAW 5225 - INTERNATNL BUSINESS TRANSACTNS

Dispute Resolution:

International Commercial Arbitration, The Practice of International Litigation and Arbitration, or another course approved by the CILE Executive Director that provide a comparable introduction to one or more forms of alternative dispute resolution.

- LAW 5043 - INT'L COMMERCIAL ARBITRATION
- LAW 5697 - PRACTICAL ASPECTS OF GLOBAL DISPUTES

Internship/Externship:

An off-campus internship/externship approved by the CILE Executive Director that provides a practical and skills-based introduction to international arbitration.

Unlike other Law micro-credentials, this one will require an externship or internship for credit. CILE has relationships with a number of externship providers in this field who offer regular, academic-year externships to students so long as those students are earning credit for the work. Satisfaction of the micro-credential will require each student to secure and complete one of these programs, or another suitable externship in the field of international arbitration.

Law - International Commercial Law and Dispute Resolution, Micro-Credential

This program requires a minimum of six credit hours of coursework chosen from a menu of courses currently offered on a regular basis by the School. If taken by an LL.M. student or a non-degree student wishing to preserve the ability to transfer credits to the LL.M. program, all

requirements must be met on a graded rather than pass-fail basis. Admissions requirements for non-degree students in these micro-credentials will be identical to those for LL.M. students.

Completion of this micro-credential will require that students take at least six credit hours, with a grade of C or higher, in courses of which at least one is drawn from each of the following two rubrics:

Note: This micro-credential program was approved on October 1, 2021 in order to maintain accurate records, the program was added to the catalog on October 25, 2021.

Commercial Law:

International Business Transactions or, if not offered in a given term, one or more other courses approved by the CILE Academic Director that provide a comparable introduction to commercial and business law.

Dispute Resolution:

International Commercial Arbitration or, if not offered in a given term, one or more other courses approved by the CILE Academic Director that provide a comparable introduction to one or more forms of alternative dispute resolution.

Law - Tax Law, Micro-Credential

The Micro-credential in Tax Law will focus on subjects relating to personal and corporate, domestic and international tax law. Credits taken in this micro-credential will also count toward the student's general LL.M. degree. Because all Micro-credit courses are also regular law school courses, and because the LL.M. degree is usually completed within 12 months, there is no limit on the number of credits that can count toward both a Micro-credential and the general LL.M. degree. All Micro-Credential credits earned (with a grade of C or higher) will be valid to count toward the LL.M. degree for two years. 9 required credits for the micro-credential.

Curriculum:

Completion of this micro-credential will require that students take at least nine credit hours, with a grade of C or higher, in courses drawn from the following rubric: Corporate Taxation, Federal Income Taxation, Low-Income Tax Clinic, Nonprofit Exempt Organizations, Pittsburgh Tax-Review, State and Local Tax, Estate and Gift Tax, Partnership Tax, International Tax, or similar courses approved by the CILE Director.

- LAW 2817 - CORPORATE TAXATION
- LAW 2105 - FEDERAL INCOME TAX
- LAW 2425 - LOW INCOME TAX CLINIC
- LAW 2355 - NON-PROFIT ORGANIZATIONS
- LAW 5931 - PITTSBURGH TAX REVIEW
- LAW 2273 - STATE AND LOCAL TAX
- LAW 2259 - ESTATE AND GIFT TAX
- LAW 2371 - PARTNERSHIP TAX
- LAW 2841 - INTERNATIONAL TAX

Law - U.S. Business and Entrepreneurial Law, Micro-Credential

This program requires a minimum of six credit hours of coursework chosen from a menu of courses currently offered on a regular basis by the School. If taken by an LL.M. student or a non-degree student wishing to preserve the ability to transfer credits to the LL.M. program, all requirements must be met on a graded rather than pass-fail basis. Admissions requirements for non-degree students in these micro-credentials will be identical to those for LL.M. students.

Completion of this micro-credential will require that students take at least six credit hours, with a grade of C or higher, in courses of which at least one is drawn from each of the following two rubrics:

Note: This micro-credential program was approved on October 1, 2021 in order to maintain accurate records, the program was added to the catalog on October 25, 2021.

Structures of Business:

Classes focusing on the law of business entities and their ownership, including, for example, Business Organizations, Agency & Partnership, and Securities Regulation.

Commercial Relations:

Courses focusing on the contractual relations of business entities, including, for example, Contracts, Commercial Transactions in Goods, Secured Transactions, and International Business Transactions.

Professional

Law - Juris Doctor (JD)

Pitt Law offers the Juris Doctor (JD) degree as well as a number of joint degree programs with other Pitt schools, which lead to both a JD and a second master's degree.

In all of these programs, Pitt Law's essential mission is to help lawyers and legal institutions to meet the demands of a rapidly changing legal and professional environment.

The program's first-year curriculum offers a solid foundation in legal analysis and reasoning through courses in subject areas traditionally viewed as basic for legal education.

Pitt Law JD students enjoy a large degree of latitude in designing courses of study that meet their individual goals and interests, with only a handful of graduation requirements beyond the first year.

Pitt Law offers particularly rich opportunities in:

- International law, featuring prominent international/comparative law faculty, a rich international and comparative law curriculum, several courses each year taught by visiting foreign law professors, internships abroad, internationally focused scholarships and fellowships, Languages for Lawyers courses, strong University programs (including area studies certificate programs), and international moot law competitions.
- "Live-client" clinics in a range of substantive areas and practice settings, giving students opportunities to develop valuable lawyering skills in the context of real-life, not simulated, legal disputes and transactions. Students grapple with legal, ethical, and practical issues, under the supervision of - and in close counsel with - a seasoned attorney faculty member.
- The Semester in D.C. Program, during which students spend a semester in Washington, D.C., earning a full semester's worth of academic credit while working full-time as an extern with a non-profit organization or government agency.
- Seven certificate programs/areas of concentration enabling students to concentrate their studies in particular areas of law. These programs include specialized advanced courses that incorporate lawyering skills relevant to particular areas of practice.
- Cross-disciplinary learning - Pitt Law students may take courses in other schools at Pitt or other local colleges and universities (up to six non-law graduate credits can be used toward the JD requirements).

Some Pitt Law courses incorporate multiple disciplines, such as Law & Human Behavior and Law & Economics Seminar, or are jointly taught by law faculty and faculty from other disciplines to classes comprising both law and other graduate/professional students - for example, Commercializing New Technologies.

Pitt Law joint degree programs enable students to earn the JD as well as a master's degree in another discipline through an integrated program, more quickly than earning the two degrees separately.

Degree Requirements

Admission applications for the Pitt Law JD program will be accepted starting September 1 through our deadline of April 1. Applications are considered only for the current year for the fall semester. We require all applicants submit their applications on-line through the Law School Admission Council (LSAC). Pitt Law is highly competitive and decisions are based upon many factors. Once your application is complete, our Admissions Committee will review your application. Once we are able to make a decision, you will be notified by mail within several weeks. You can also verify your application status on-line with a user name and password, which will be sent to you electronically once you apply. We ask for your patience during the admissions cycle as it can become very busy during key times of the year.

Application Requirements:

- Applicants must submit a \$65 application fee
- Applicants must have completed a bachelor's degree from a regionally accredited college or university in the United States before the first day of law school.
- In cases where an applicant has completed studies outside the United States, the requirement is education deemed by the University of Pittsburgh to be comparable to a bachelor's degree from a regionally accredited college or university in the United States. [Click here for more information](#)
- When evaluating an undergraduate degree, the committee pays careful attention to the strength of the major field of study, as evidenced by the courses listed on the undergraduate transcript. Pitt Law is looking for applicants who have demonstrated the discipline and ability to handle a rigorous and demanding program. The admissions committee carefully evaluates graduate work and professional experience, although utilizes the undergraduate GPA.
- Applicants are required to register with the Credential Assembly Service (CAS) through LSAC and must take the LSAT. If an applicant takes the LSAT more than one time the highest score is considered by the admissions committee when making a decision. The latest test score that will be considered for all entrance is the score from the previous February examination. Scores from tests taken more than four years prior to the current admissions year will not be considered. More information can be obtained from the Law School Admission Council (LSAC).
- A required personal statement gives the committee a view into the non-academic world of the applicant and serves as the interview. This is critical in our ability to enroll a diverse class. We ask that you keep your personal statement to no more than two pages, typed, double spaced.
- Letters of recommendation play an equally important role in this process as they can reveal the strengths of the academic achievements of the applicant. We recommend three letters, although none are required. Letters should be submitted through the LSAC letter of recommendation service.
- We encourage applicants to submit a Resume, as they highlight for the admissions committee a broader view of your achievements.
- In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

In order to graduate, a student pursuing a JD must complete 88 credits, including the following:

- A prescribed first-year curriculum, as follows: Contracts, Criminal Law, Legislation and Regulation, Torts, Civil Procedure, Constitutional Law, Property, and Legal Analysis and Writing, as well as attendance at a minimum of five programs (for students entering Fall 2019 or later) or six programs (for students entering before Fall 2019) in the Pitt Law Academy speaker series
- The upper-level writing requirement
- A course in Legal Profession
- Six credits in a course designated as satisfying the professional skills requirement
- The one-credit Foundations of Legal Research course
- A course designated as satisfying the international/comparative law requirement
- A course designated as satisfying the writing ("W") requirement

Additional graduation requirements apply for those students whose grade point averages place them in the bottom 15% of their class at the end of their first or second year. The upper-level writing requirement and other academic requirements are described in the Academic Rules and Graduation sections of the School of Law's web site.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

First-Year Curriculum

The first-year curriculum is comprised of the following required courses, as well as attendance at a minimum of five programs (for students entering Fall 2019 or later) or six programs (for students entering before Fall 2019) in the **Pitt Law Academy**:

Fall:

- LAW 5020 - CONTRACTS
- LAW 5046 - CRIMINAL LAW
- LAW 5720 - LEGAL ANALYSIS AND WRITING
- LAW 5032 - LEGISLATION AND REGULATION
- LAW 5028 - TORTS

Spring:

- LAW 5033 - CIVIL PROCEDURE
- LAW 5101 - CONSTITUTIONAL LAW
- LAW 5076 - LEGAL ANALYSIS AND WRITING
- LAW 5024 - PROPERTY

Year Long Program

- LAW 5061 - PITT LAW ACADEMY

John P. Gismondi Concentration in Civil Litigation (15-20 Credits)

Through its unique John P. Gismondi Concentration in Civil Litigation, PittLaw provides law students with a unique curriculum devoted exclusively to training the trial lawyers of tomorrow.

During the first year of law school, all students take the same courses. Those students who wish to register for the Gismondi Concentration in Civil Litigation, do so at the beginning of their second year of law school. During their second and third years, all students enrolled in the Concentration will take certain required foundational core courses, a clinic or practicum, as well as a number of specialized classes. The heart of the Gismondi program is a collection of specialized courses taught exclusively by a preeminent group of practicing trial attorneys whose insight and experience offer an invaluable perspective in the classroom. Together with our core courses, these select courses provide a level and depth of litigation training unlike that available at most any other law school.

In each of these specialized skills courses, class size is kept small so as to enrich the learning experience. Students not only are taught legal rules and principles in a typical lecture format, but more importantly, they are assigned to "role play" in a variety of real world litigation scenarios, each designed to develop specific skills which are essential to successful trial work.

Students complete their training by taking a required litigation skills clinic or practicum selected from this group of options: Elder Law Clinic, Health Law Clinic, Tax Clinic, Immigration Clinic, Environmental Law Clinic, Securities Arbitration Clinic, PA Practice Practicum, Lawyering III Clinic, Criminal Prosecution Practicum, Criminal Defense Practicum or Family Law Clinic. In all of these clinics, students have the potential of representing real clients in actual court proceedings.

The students in the John P. Gismondi Civil Litigation Certificate Program will complete their law school education having developed a set of skills which better prepares them to do courtroom work than traditional law school graduates, and that advantage, in turn, makes the Gismondi certificate students more attractive to law firms seeking to hire young and enthusiastic litigation associates.

Core Courses (5 Credits)

- LAW 5103 - EVIDENCE
- LAW 5407 - TRIAL ADVOCACY
OR
- LAW 5616 - MOCK TRIAL STRATEGY AND PRACTICE

Specialized Skills Courses (Must take 3) (6 cr).

(one of the courses marked with * may be substituted for one of the specialized skills course upon request to Director)

- LAW 5223 - ADVANCED TRIAL EVIDENCE

- LAW 5197 - ADVANCED TORTS
- LAW 5295 - EXPERT WITNESS
- LAW 5320 - LITIGATION STRATEGY AND PLANNING
- LAW 5236 - PRE-TRIAL PRACTICE-PLEADINGS AND DISCOVERY
- LAW 5422 - ALTERNATIVE DISPUTE RESOLUTION *
- LAW 5630 - FEDERAL CIVIL LITIGATION SKILLS *

A Clinic or Practicum (min. of 3 credits)

- LAW 5939 - CRIMINAL DEFENSE PRACTICUM
- LAW 5952 - CRIMINAL PROSECUTION PRACTICUM AND
- LAW 5953 - CRIMINAL PROSECUTION PRACTICUM
- LAW 5391 - ELDER LAW CLINIC
- LAW 5883 - ENVIRONMENTAL LAW CLINIC
- LAW 5398 - FAMILY LAW CLINIC take for 2 semesters
- LAW 5393 - HEALTH LAW CLINIC
- LAW 5880 - IMMIGRATION LAW CLINIC
- LAW 5429 - LAWYERING PROCESS CLINIC
- LAW 5929 - PA PRACTICE PRACTICUM
- LAW 5425 - LOW-INCOME TAX CLINIC
- LAW 5874 - SECURITIES ARBITRATION CLINIC

Trial Competitions (1 credit)

- LAW 5926 - MURRAY S. LOVE TRIAL MOOT CRT
OR
- LAW 5908 - INTERSCHOLASTIC MOCK TRIAL

School of Law Faculty

Full Time

Jessie Allen, Associate Professor of Law
JSD, Columbia University School of Law
JD, Brooklyn Law School

Chaz Arnett, Assistant Professor of Law
JD, Harvard Law School

Kevin D. Ashley, Professor of Law and Intelligent Systems
JD, Harvard Law School
PhD, University of Massachusetts and Amherst

Elena A. Baylis, Associate Professor of Law
JD, Yale Law School

Deborah L. Brake, John E. Murray Faculty Scholar and Professor of Law
Associate Dean for Research & Faculty Development
JD, Harvard Law School

Ronald A. Brand, Professor of Law
Academic Director, CILE
Chancellor Mark A. Nordenberg University Professor and John E. Murray Faculty Scholar
JD, Cornell University

Ben Bratman, Professor of Legal Writing
JD, Vanderbilt University Law School

Teresa Kissane Brostoff, Professor of Legal Writing
JD, University of Pittsburgh School of Law

Tomar Pierson-Brown, Clinical Assistant Professor of Law
Director - Health Law Clinic
JD, Case Western Reserve University School of Law
LLM, University of the District of Columbia, David A. Clarke School of Law

William M. Carter, Jr., Professor of Law
JD, Case Western Reserve University School Of Law

Pat K. Chew, Judge J. Quint Salmon and Anne Salmon Chaired Professor
JD, University of Texas
M.Ed, University of Texas

Mary Crossley, Professor of Law
JD, Vanderbilt University

Vivian Curran, Distinguished Professor of Law
JD, Columbia University
PhD, Columbia University
MPhil, Columbia University

Kevin Deasy, Associate Professor of Legal Writing
Associate Dean of Students
JD, University of Pittsburgh School of Law

Gerald S. Dickinson, Assistant Professor of Law
JD, Fordham Law

Greer Donley, Assistant Professor of Law
JD, University of Michigan Law School

Jasmine B. Gonzales Rose, Assistant Professor of Law
JD, Harvard Law School

Philip Hackney, Associate Professor of Law
LLM, (Tax), New York University School of Law
JD, LSU Paul M. Herbert Law Center

Haider Ala Hamoudi, Professor of Law
Vice Dean of the University of Pittsburgh School of Law
JSD, Columbia University
JD, Columbia University

David A. Harris, Sally Ann Semenko Endowed Chair, Professor of Law
John E. Murray Faculty Scholar
LLM, Georgetown University
JD, Yale Law School

Bernard J. Hibbitts, Professor of Law
LLM, Harvard University
LLM, University of Toronto
LLB, Dalhousie University
BA (Juris.), Oxford University

David J. Hickton, Professor of Law
Founding Director, Institute for Cyber Law, Policy and Security
JD, University of Pittsburgh School of Law

Anthony C. Infanti, Professor of Law
Affiliate Faculty, Gender, Sexuality & Women's Studies Program
Buchanan, Ingersoll & Rooney Faculty Scholar
LLM (Taxation), New York University
JD, University of California, Berkeley

Jules Lobel, Professor of Law
JD, Rutgers University

Grant MacIntyre, Assistant Professor of Law
JD, University of Pittsburgh School of Law

Michael J. Madison, Professor of Law
Faculty Director, Innovation Practice Institute
JD, Stanford Law School

Martha M. Mannix, Clinical Associate Professor of Law
JD, Hastings College of the Law

Alan Meisel, Professor of Law and Psychiatry
Dickie, McCamey & Chilcote Professor of Bioethics
Director of MSL Program, Health Law Certificate Program, and Certificate in Disability Legal Studies
JD, Yale University

Peter B. Oh, Professor of Law
JD, The University of Chicago

Ann Sinsheimer, Professor of Legal Writing
PhD, Rhetoric, Carnegie Mellon University
JD, University of Pittsburgh School of Law

Matiangai Sirleaf, Assistant Professor of Law
JD, Yale Law School

George H. Taylor, Professor of Law
JD, Harvard University

David Thaw
Assistant Professor of Law and Information Sciences
JD, Berkeley Law
PhD, University of California, Berkeley

Lu-in Wang, Professor of Law
JD, University of Michigan Law School

Sheila I. Velez Martinez, Clinical Assistant Professor of Law
Director of Clinical Programs

Rhonda Wasserman, Professor of Law
JD, Yale Law School

Amy J. Wildermuth, Professor of Law
Dean of the University of Pittsburgh School of Law
JD, College of Law, University of Illinois

Professor Emeritus of Law

Douglas M. Branson, W. Edward Sell Professor of Business Law
LL.M, University of Virginia
JD, Northwestern University

William J. Brown
LLM, Yale University
Certificate in International Business Law, City of London College

Nancy M. Burkoff
JD, University of Pittsburgh

John M. Burkoff
LL.M, Harvard University
JD, University of Michigan

Richard Delgado
JD, University of California - Berkeley

Harry M. Flechtner
JD, Harvard Law School

Cyril A. Fox, Jr.
JD, University of Pittsburgh School of Law

School of Medicine

The mission of the University of Pittsburgh School of Medicine is to improve the health and well-being of individuals and populations through cutting-edge biomedical research, innovative educational programs in medicine and biomedical science, and leadership in academic medicine. We strive to implement this mission with the highest professional and ethical standards, in a culture of diversity and inclusiveness, and in an environment that enables each individual to develop to his or her fullest potential.

School of Medicine Faculty

First Professional Program (MD)

The mission of the University of Pittsburgh School of Medicine is to improve the health and well-being of individuals and populations through cutting-edge biomedical research, innovative educational programs in medicine and biomedical science, and leadership in academic medicine. We strive to implement this mission with the highest professional and ethical standards, in a culture of diversity and inclusiveness, and in an environment that enables each individual to develop to his or her fullest potential.

UPSOM has a well-developed curricular infrastructure that combines a lecture- and problem-based curriculum with early and in-depth clinical experiences and an integrated organ systems approach to the preclinical sciences. The clinical years are characterized by an integrated clerkship structure and an emphasis on student flexibility. The UPSOM educational objectives, which are used to guide course content and learning objectives, underwent a school-wide review and update in 2017.

The current UPSOM curriculum was implemented in 2004 and features active, participatory learning; a problem-based approach; an early introduction to the patient and the community; and the integration of a rigorous foundation in basic and clinical biomedical sciences with the social and behavioral aspects of medicine. Key subject matter is longitudinally integrated throughout the curriculum, building upon a foundation of prior learning while providing a level-appropriate and well-synchronized introduction of new content.

Scheduled instructional time in the first two years of the curriculum is a mix of lecture; small group learning (much of which is problem-based learning; the remainder includes demonstrations, faculty-directed problem-solving exercises, skill-practice sessions, and other activities); and other activities (which includes observation of and appropriate participation in patient care, community-site visits, experiences with standardized patients, high-fidelity simulations, patient conferences, laboratory exercises, and other activities). Student achievement of course objectives is supported by a host of technologies, including the online curriculum and podcasts. A longitudinal performance-based assessment program provides formative support as students hone their clinical skills.

The patient focus of the UPSOM curriculum begins on day one, in the Introduction to Being a Physician course. Students interview patients about their experience of illness and experiences with their physicians, to develop an understanding of their roles as medical professionals. Medical interviewing and physical examination courses follow, along with exercises examining the many facets of physician life-in society, ethical and legal settings, and at the patient bedside.

Throughout the first two years, students apply their new skills in local practices and hospitals one afternoon per week. The Foundations of Medicine block runs through three-fourths of the first year and provides language and concepts that underlie the scientific basis of medical practice. Organ Systems block courses integrate physiology, pathophysiology, pharmacology, and introduction to medicine with concurrent courses in the Introduction to Patient Care and Patient, Physician and Society blocks. Weekly discussions, patient interviews, and examination of hospitalized patients reinforce essential clinical skills.

The third-year curriculum consists of ten required clerkships. They are designed to optimize the balance between out-of-hospital and inpatient learning opportunities, eliminate unintentional curriculum redundancy, and optimize opportunities for student-designed curricula in the junior and senior years. The third year is punctuated by three one-week clinical focus courses.

Every student engages in a mentored longitudinal research project conducted longitudinally throughout the four-year curriculum. Completion and presentation of the longitudinal research project is due in the spring of the senior year and is a requirement for graduation. Students pursue their projects through several program options, which may include areas of concentration. An innovative system of web-based learning portfolios facilitates learner-mentor communication and enriches the possibilities for collaboration within and beyond the University.

Many key topics are integrated throughout the curriculum as longitudinal themes. These topics include attributes of professional behavior; communication skills; cultural competence; disabilities medicine; geriatric medicine; interprofessional education; opioid epidemic and addiction; population medicine and public health; prevention; social medicine; ultrasound at the point of care; and women's health.

The information above details the school's MD program.

Requirements for Admission

Admission Process

The admissions process is described in great detail on the Office of Admissions and Financial Aid web site.

The by-laws of the Admissions Committee specifically state the school's criteria for selecting students for admissions. The by-laws are reviewed and updated at the year-end business meeting of the UPSOM Admissions Committee.

<https://www.medadmissions.pitt.edu/admissions/you-apply/policies-restrictions>

Financial Aid

Financial aid for medical students is available in the form of scholarships, need-based grants, and loans (federal, private, and institutional resources). For maximum consideration of all resources, students should complete the CSS Profile and the Free Application for Federal Student Aid (FAFSA). These applications should include the student's information, spouse's information (if applicable), and both parents' information. Signed copies of federal tax returns (for student/spouse and parents) must be provided to the financial aid office. Aid is awarded on the basis of financial need, as determined from the financial aid applications and supporting documentation.

Newly admitted students should apply by March 1, or if admitted after February 15 no later than two weeks after acceptance, to ensure that an award letter is provided prior to the national decision date of April 15th.

Upperclassman should provide all required information no later than March 1. The Free Application for Federal Student Aid (FAFSA) should be submitted prior to March 1 to ensure results are available prior to the deadline.

Students who do not wish to provide parental information are still considered for Federal Direct Unsubsidized loans, Federal Direct Graduate PLUS loans, and private loans; these students should complete the FAFSA and provide a signed copy of their federal tax return but do not have to submit parent information or the CSS Profile.

The financial aid process is described in detail on the Office of Financial Aid's website.

Academic Standards

The University of Pittsburgh School of Medicine offers a centrally governed, integrated, interdisciplinary curriculum that emphasizes problem solving and self-directed learning. The academic year is in session between 10 and 12 months, depending on the level of study. Academic calendars specific to each year can be found on the Office of Medical Education's web site. The first three years is a set curriculum and the fourth year is a combination of both set and elective offerings. To be considered to be making satisfactory academic progress, the student must complete the first two years of the curriculum by the end of the third year after initial enrollment. The full text of the guidelines for student promotion can be found in the medical student handbook on the Office of Student Affairs web site. Students are governed by an Honor Code, which seeks to support and sustain respect for each other as well as for patients. The full text of the Honor Code can be found in the student handbook.

Grading

The UPSOM makes use of a 2 tiered grading system.

The first two years of the curriculum are graded as Satisfactory/Unsatisfactory.

In the second two years of the curriculum, all clinical rotations and most electives are graded using a five-tiered grading system, with narrative comments: Honors, High Pass, Pass, Low Pass, or Unsatisfactory.

Degree Requirements

To receive the MD degree, students must:

1. Successfully complete curricular requirements for each of the four years.

First year: Courses in foundations of medicine including medical anatomy, pharmacology, tissues in health and disease, human genetics, fuel metabolism, immunology in health and disease, tissues in health and disease, medical microbiology; organ systems including neuroscience, introduction to psychiatry; evidence and discovery including evidence-based medicine-fundamentals and evidence-based medicine-applied; patient, physician and society courses including introduction to being a physician; ethics, law, and professionalism, behavioral medicine; and the introduction to patient care courses.

Second year: Course work in organ systems including body fluid homeostasis, digestion and nutrition, hematology, endocrine, reproductive and developmental biology, skin and musculoskeletal diseases, and integrated case studies; investigation and discovery; population health, racism in medicine; and introduction to patient care courses.

Third year: Rotations in inpatient medicine; family medicine; pediatrics; obstetrics and gynecology; neurology; psychiatry; surgery, anesthesiology; and outpatient medicine; emergency medicine; otolaryngology; dental medicine; and ophthalmology. The third and fourth year schedule is viewed as a continuum and designed so students may enroll in clinical or research electives at any time during the third or fourth years.

Fourth year: An acting internship in either internal medicine, pediatrics, family medicine, cardiothoracic surgery, physical medicine and rehabilitation, otolaryngology, or surgery; four weeks of an integrated life science course of the student's selection; a boot camp; and seven to eight months of clinical and/or research elective experiences. Pass the United States Medical Licensing Examination, both Steps 1 and 2 (CK and CS).

2. Pass the United States Medical Licensing Examination, both Steps 1 and 2 CK, as well as an internal clinical skills competency assessment.
3. Complete a Longitudinal Research Project and waiver training for buprenorphine prescribing.
4. Pass the United States Licensing Examination, both Steps 1 and 2 CK.

Degree Options

In addition to the MD program, the UPSOM offers a structured MD/PhD dual degree program, an MD/MA in Bioethics, a certificate program in Clinical Research, and a five-year non-degree-granting program for physician-scientists. Students can also participate in a joint degree program with the School of Public Health, earning a MPH, MMPH, or MS degree. The school encourages and facilitates students completing other degree programs during the MD curriculum, such as a MBA or MPA.

Professional Enrichment Courses

Doctoral

First Professional Program, MD Curriculum

MS-1

Patient, Physician & Society Block (PPS)

- Introduction to Being a Physician - MED 5124

- Ethics, Law & Professionalism - MED 5124
- Behavioral Medicine - MED 5128

Foundations of Medicine Block (FOM)

- Medical Anatomy - MED 5112
- Human Genetics - MED 5127
- Fuel Metabolism - MED 5127
- Immunology in Health and Disease - MED 5116
- Medical Microbiology - MED 5116

Organ Systems Pathophysiology Block (OSP)

- Neuroscience - MED 5133
- Introduction to Psychiatry - MED 5133

Introduction to Patient Care Block (IPC)

- Introduction to Medical Interviewing - MED 5137
- Introduction to Physical Examination - MED 5137
- Advanced Physical Examination 1 - MED 5138
- Clinical Experiences 1 - MED 5138

Evidence and Discovery Block (E&D)

- Evidence-Based Medicine - Fundamentals - MED 5180
- Evidence-Based Medicine - Applied - MED 5181

MS-3

Clerkships

- Adult Inpatient Medicine
- Adult Outpatient Medicine
- Anesthesiology
- Family Medicine
- Neurology
- Obstetrics and Gynecology
- Pediatric Medicine
- Psychiatry
- Specialty Care
- Surgery

Clinical Clerkships

Ten required clerkships form the core of the combined clinical years. The overall aim of the clerkship experience is to provide students with the essential experiences where they will apply their knowledge and skills as they develop competence in the care of patients. Together, the clerkships, and all other clinical experiences, share a fundamental set of objectives.

Overall, the objectives of the required clerkships are for students to be able to:

- Integrate basic science concepts with clinical reasoning.
- Establish and maintain appropriate therapeutic relationships with patients.
- Obtain a sensitive and thorough medical history.
- Perform a sensitive and accurate physical examination.
- Perform general clinical procedures.
- Participate in discussions and decision-making with patients and families.
- Clearly communicate medical information in spoken and written form.
- Develop knowledge, skills, and attitudes to practice the basic principles of prevention.
- Demonstrate sound clinical reasoning.
- Appropriately assess patients with common signs and symptoms.
- Appropriately use testing to guide diagnostic and therapeutic decisions.
- Diagnose and demonstrate basic understanding of common diseases and conditions.
- Describe therapeutic options and participate in the care of patients with common problems.
- Recognize acute life-threatening medical problems and initiate care.
- Develop the knowledge and exhibit the skills necessary to assist in the management of chronic diseases.
- Participate in care in a variety of settings.
- Develop the knowledge, skills and attitudes necessary to provide culturally competent care.
- Recognize and develop approaches to mitigate bias, social inequities, and systemic racism that undermine health and create challenges to achieving health equity at individual, organizational, and societal levels.
- Use information and educational technology to facilitate research, education and patient care.
- Incorporate ethical and legal principles in clinical practice and research.
- Demonstrate professional behaviors.
- Work effectively with others as a member or leader of a health care team or other professional group.
- Develop an understanding of the impact of nonmedical determinants of health on health outcomes and health equity.

Clinical Focus Courses

The third year is punctuated by three one-week learning experiences, spread over the 48 weeks of the third year.

1. The Preclerkship Course is an introduction that is presented immediately prior to the start of the third year. It includes aspects of clinical, humanistic, and administrative preparation for clinical experiences.
2. The Interprofessional Geriatrics Course uses a combination of learning formats, including classroom sessions and experiences at clinical sites, to provide a highly focused exposure to key topics in this important discipline. A major emphasis is on developing skills to succeed in and lead inter-professional teams. This curriculum builds upon the new perspectives gained by students during the first six rotations of the third year.
3. Assessment Week is conducted at the time of transition from third to fourth year. Students complete a series of structured assessments and participate in focused review sessions. Together these activities provide students with timely and specific formative feedback about their progress toward the objectives of the curriculum.

MS-4

General Schedule for Fourth Year

Clerkship Period	1	2	3	4	5	6	7	8	9	10	11	12	12.5
Length (in Weeks)	4	4	4	4	4	4	4	4	4	4	4	4	4

During the combined clinical years (MS-3 & MS-4) students rotate through 10 required clerkships in any sequence. Additional requirements are 1 Acting Internship, 1 Integrated Life Sciences Selective, 1 Boot Camp Selective, 8 electives, and 3 Clinical Focus Courses.

What do the 12.5 Periods in the MS-4 year include?

- Eight electives
- One acting internship
- One integrated life science course
- One boot camp course
- Two recess/interview periods
- One recess week in the fall

Acting Internship

An acting internship (sub-internship) of four-week duration is required during the senior year. An AI is a clinical rotation offered on an in-patient service in which one or more attending physicians have overall responsibility for coordinated patient care. The service will be structured with both attending staff and house staff.

The acting internship should include the assignment to the student of specific groups of patients upon whom he or she completes an initial history and physical examination, constructs a differential diagnosis, formulates a treatment plan, writes orders, and carries out necessary therapy, all under careful supervision.

Acting internships that fulfill this requirement are offered in:

- Cardiothoracic Surgery
- Family medicine
- Medicine
- Otolaryngology
- Pediatric
- Physical Medicine and Rehabilitation
- Surgery

Search the Course Catalog for more information on Acting internships.

Acting internships in other departments or out of the city will not fulfill the AI requirement.

Integrated Life Science Course

The fourth year Integrated Life Science (ILS) Program includes a choice of courses that revisit some aspect of basic science after students have had several years of clinical experience. Because of the level of sophistication that students have developed by this stage in their medical education, they can better understand the relevance of basic science to clinical problems. Each student is required to complete one ILS course.

ILS Courses

- Changing Science, Changing Society: A Guide to 21st Century Medicine - MSELCT 5700
- Clinical Pharmacology - MED 5710
- Genetics/Genomics in Primary Care - PEDS 5715
- Immunization, Immune Deficiency, and Inflammation in Kids - PEDS 5710
- Infectious Disease in Obstetrics, Gynecology and Reproductive Medicine - OBGYN 5725
- Neoplasia and Neoplastic Disease - MED 5715
- Neurosurgery and Head and Neck Dissection - NSURG 5705
- Science of Resuscitation - EMED 5735

Boot Cam

A Residency Boot Camp of four-week duration is required during the senior year.

Boot Camps that fulfill this requirement are offered in:

- Anesthesiology
- Emergency Medicine
- Internal Medicine
- Obstetrics & Gynecology
- Pediatrics
- Psychiatry
- Surgery

Recommended Electives

In order to provide diversity, it is strongly recommended that you take at least one elective in each of the following blocks:

1. Medicine or neurology
2. Pediatrics, pediatric neurology, pediatric pathology, pediatric surgery
3. Surgery or surgical subspecialties, obstetrics and gynecology
4. Ambulatory care, community medicine, or psychiatry.

Clinical Competency Assessment (CCA)

- Clinical Competency Assessment Orientation Handbook

Joint Degree

Bioethics, MD/MA

Students enrolled in the University of Pittsburgh School of Medicine may elect to earn the Master of Arts in Bioethics in conjunction with their medical degree. This allows the 30 credit MA degree to be earned in an accelerated program, taking a year away from the MD program, usually between the second and third years of medical school. During this one year, the student will follow the Dietrich School of Arts and Sciences calendar for the fall and spring terms, pay tuition at the in-state tuition rate set for Dietrich School graduate students, and must adhere to the rules, regulations, policies, and procedures of the Dietrich School. Applicants must complete the on-line application and provide official transcripts from

their undergraduate and graduate studies, 3 letters of recommendation, a personal statement, writing sample, and official MCAT or GRE scores. Additional information about the MD/MA program may be found [here](#).

Core Course Requirements

The following courses are required for the degree:

- BIOETH 2658 - PHILOSOPHY OF MEDICINE
- BIOETH 2661 - THEORETICAL FOUNDATIONS
- BIOETH 2664 - BIOETHICS
- OR
- LAW 5464 - BIOETHICS AND LAW

Clinical Practica

The following courses are required for the degree:

- BIOETH 2604 - CLINICAL PRACTICUM 1

Thesis Research

Students must complete a research project and write a thesis under the supervision of an advisor, and defend it before a committee. Students may register for up to 6 course credits related to their thesis research.

Restrictive Electives

Students choose one elective from a list of "restricted elective" courses. Courses placed on this list pursue ethical issues related to a particular area in substantial depth, or employ a particular disciplinary perspective to explore issues in medicine and research. In recent years, restricted electives have included:

- Ethics and Aging
- Gender, Ethics, and the Body
- Medical Anthropology
- Medical Sociology
- Mental Health Law
- New Reproductive Practices and Law
- Philosophy of Psychiatry
- Public Health Law and Ethics
- Special Topics in Bioethics

Electives

The remaining credits may be taken in electives approved by the program director. Students work with the program director and their thesis advisor to pursue their particular interests. Students may take a Special Topics in Bioethics or Directed Reading in Bioethics course, or may identify relevant elective courses from various departments and schools of the University, including:

- Anthropology
- Communication
- Cultural Studies
- English
- Film Studies
- Gender, Sexuality, and Women's Studies

- History and Philosophy of Science
- Law
- Philosophy
- Psychology
- Public Health
- Sociology
- Women's Studies

In addition, through the Pittsburgh Council on Higher Education, full-time students may take courses at ten consortium-affiliated institutions, including Carnegie Mellon University, Duquesne University, and the Pittsburgh Theological Seminary.

Clinical Science Training Program, MD/MS

The Clinical Scientist Training Program (CSTP) offers clinical research training and scholarships to University of Pittsburgh medical students who are committed to careers in clinical investigation. Students may complete the dual MD/MS in clinical research or the MD/Certificate in clinical research.

The CSTP involves a research year between third and fourth year of medical school, typically scheduled July 1 - June 30. We expect students to take their research year after completing their core clerkships in the third year of medical school in order to ensure that their research will be informed by their clinical knowledge. The research year includes:

- Formal coursework: Students complete the ICRE core curriculum (11 credits). Those completing the MD/Certificate complete 7 additional elective credits. Those completing the dual MD/MS program complete 6 units of thesis research and 10 additional track-specific required and elective credits.
- Mentored clinical research: Students complete a mentored clinical research project with their SP mentor.
- Financial support: During the research year, students receive a living stipend, health insurance, and travel funds. Additionally, they receive a full tuition scholarship for the cost of the Certificate. The cost of the additional credits for the MS are the student's responsibility to pay. Students who successfully complete their research year objectives additionally receive a substantial tuition scholarship toward the fourth year of medical school upon returning from the research year.

For more information, contact us.

Core Curriculum

All CSTP students complete the core curriculum during the CSTP research year.

- CLRES 2005 - COMPUTER METHODS FOR CLINICAL RESEARCH
- CLRES 2010 - CLINICAL RESEARCH METHODS
- CLRES 2020 - BIOSTATISTICS
- CLRES 2040 - MEASUREMENT IN CLINICAL RESEARCH
- CLRES 2075 - SEMINAR FOR UNDERSTANDING PRINCIPLES AND PRACTICES OF RESEARCH TECHNIQUES (SUPPORT)
- MEDEDU 2140 - SCIENTIFIC WRITING & PRESENTATION SKILLS (ONLINE)
or
- NROSCI 2014 - SPEAKING OF SCIENCE

MD/Certificate

Students completing the dual MD/Certificate register for 18 units during their CSTP research year (9 units in Summer, 4.5 units in Fall, and 4.5 units in Spring). These credits include the 11-credit core curriculum and 7 credits of elective credits.

MD/MS

Students completing the dual MD/MS degree receive 3 credits from pre-clinical courses in the MD curriculum (MED 5180, MED 5181, & MED 5265) toward the 30-credit MS degree. Students register for the remaining 27 credits during their CSTP research year (9 credits in Summer, 6 credits in Fall, and 6 credits in Spring) and after returning to medical school.

Law and Bioethics, JD/MA

Program Overview

JD/MA, University of Pittsburgh School of Arts and Sciences and the Center for Bioethics and Health Law

The School of Law and the School of Arts and Sciences (A&S) offer a joint degree program in law and bioethics. Graduates of the program receive the Juris Doctor (JD) degree, the basic professional degree in law, and the Master of Arts (MA) degree from FAS, in bioethics. The joint degree program is directed by Alan Meisel, JD, in cooperation with Lisa S. Parker, PhD, who directs the interdisciplinary Master of Arts in Bioethics.

The joint degree program has been established in recognition of the extensive and increasing overlap between law and bioethics. The objective of this educational program is to prepare graduates with an interdisciplinary background in law and bioethics so they can address those issues and situations that require knowledge of and expertise in both. Graduates will be academically prepared for professional roles as bioethicists in health care institutions, in public policy working for government or philanthropic organizations, or in the practice of law, for example, giving counsel to health care institutions.

Contact Information

University of Pittsburgh School of Law
Professor Alan Meisel
3900 Forbes Avenue
Pittsburgh, PA 15260
(412) 648-7120
meisel@law.pitt.edu

Requirements

The sequence of the curriculum is designed to allow students maximum flexibility. Students may either take the entire first-year School of Law curriculum intact, or they may take one bioethics course - Theoretical Foundations of Applied Ethics - in place of Criminal Law (which would then be taken in their second year of law school). Students should discuss this plan of study with Prof. Alan Meisel, Director of this joint program.

Writing Requirements

The writing requirements for both degrees are simultaneously satisfied by completion of the master's thesis requirement in a subject in the field of law and bioethics.

Practica

The Clinical Practica ensure that students will be comfortable in and knowledgeable about the clinical setting by learning how to identify the normative issues in clinical cases and to be able to give practical advice regarding difficult bioethical dilemmas. Students are scheduled for six credits of clinically-based work, which may be reduced to three for students with previous health care training. In Clinical Practica I and II students acquire familiarity with the clinical setting by

- rounding in specified services with residents, attending physicians, and other health care professionals, including one night on call per service
- participating in twice weekly seminars on medical sociology and clinical ethics and to fulfill those seminar requirements of reading, writing, discussion, and case presentations
- observing ethics consultations and clinical ethics teaching sessions
- completing a self-paced programmed text covering basic medical terminology

In Clinical Practicum II, students participate in an intensive four-week rotation in the clinical area of their choice, allowing in-depth development in an area of clinical medicine. Students should relate this intensive clinical experience to their thesis topic.

In addition to meeting the specifically required coursework for the JD degree and the MA degree, students will select electives from among an array of courses available in the two separate degree programs and in other parts of the University. For an up-to-date list of law school courses considered

to be especially appropriate for students in this joint degree program, students should consult the courses listed as electives for the Health Law Certificate Program.

Students in the joint law and bioethics program will ordinarily fulfill the requirements of the Health Law Certificate Program in the law school and may obtain this certificate concurrent with the joint degree.

Advising

Students are required to consult with the Director of the Joint Degree Program during or prior to the spring registration period each year in order to assure that they meet all requirements of the Joint Degree program.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in this joint degree program unless they limit the number of credits from outside the Law School that count toward their JD degree to no more than 12. See New York Rules of Court § 520(c)(5).

Credits

Students enrolled in the joint degree program accomplish in three to four years what would take four or more years if the two degrees were obtained separately. The total required number of credits 100, as compared with 118 credits if the two degrees were taken separately. The 100 credits include 34 credits of specifically prescribed* law courses, the Bioethics and Health Law Clinical Practicum (3 credits), and 18 specifically prescribed credits in bioethics. Within the remaining 45 credits, students must satisfy requirements for their law degree, take a course from the list of Restricted Elective courses for the bioethics degree, and take at least 3 credits in a course relevant to bioethics (either in the law school or not).

Taken as a joint degree program, the two degrees are ordinarily earned in 7 semesters and one summer.

During at least 5 semesters, joint degree students must be coded by the University Registrar as "primary law." During these semesters, they pay tuition at the Law School rate. They must enroll in at least 10 credits of law school courses.

Specifically Prescribed Law Courses

- LAW 5020 - CONTRACTS
- LAW 5046 - CRIMINAL LAW
- LAW 5720 - LEGAL ANALYSIS AND WRITING (Fall Term)
- LAW 5076 - LEGAL ANALYSIS AND WRITING (Spring Term)
- LAW 5028 - TORTS
- LAW 5033 - CIVIL PROCEDURE
- LAW 5101 - CONSTITUTIONAL LAW
- LAW 5032 - LEGISLATION AND REGULATION
- LAW 5024 - PROPERTY
- LAW 5061 - PITT LAW ACADEMY (Fall Term)
- LAW 5062 - PITT LAW ACADEMY (Spring Term)
- BIOETH 2604 - CLINICAL PRACTICUM 1
- BIOETH 2904 - MA THESIS IN BIOETHICS
- BIOETH 2606 - CLINICAL PRACTICUM 2
- BIOETH 2664 - BIOETHICS
- BIOETH 2658 - PHILOSOPHY OF MEDICINE
- BIOETH 2661 - THEORETICAL FOUNDATIONS

Additional credits to complete the graduation requirement may include courses service as a bioethics restricted elective or a bioethics elective.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Medical Scientist Training Program, MD/PhD

The Medical Scientist Training Program (MSTP) offers exceptionally talented individuals the opportunity to undertake a physician-scientist training program tailored to their specific research interests. Our primary directive is to create future biomedical investigators by providing the highest quality graduate medical training. This program offers a range of special services and opportunities to facilitate the completion of a dual degree (MD/PhD). In addition to efficiency, the close integration of clinical and basic science training better reflects the future careers of biomedical scientists. Information regarding the application process can be found on the MSTP web site.

Admissions Process: Prospective students must apply individually to the University of Pittsburgh School of Medicine through the American Medical College Application Service (AMCAS) and complete the MSTP online application. The criteria for acceptance to the MSTP include an outstanding academic record and letters of recommendation, positive personal interviews, and significant prior research experience. Admission to the MSTP is competitive, as is admission to graduate school, with students applying to the PhD programs of their choice after the first year of medical school.

Every year the program receives approximately 600 applications for a maximum of 15 available positions. The application review committee screens each completed application and well-qualified applicants are invited for an interview in Pittsburgh. Students recently enrolled in the MSTP have an average undergraduate GPA of 3.78 (This is for general assessment purposes only; applications are considered holistically.) We also review the letters of recommendation that are submitted to the medical school as part of candidates' School of Medicine application. Please be sure to include two letters of recommendation from faculty and/or scientists who are conversant with your research training. Previous research experience and commitment to a career as a physician-scientist are crucial in the evaluation of applications. Please convey your anticipated research interests and plans as well as past work. Additionally, a bachelor's degree or equivalent must be completed prior to matriculating.

1. **MSTP Application Deadline:** Applicants must submit an initial application through AMCAS by October 1. In order to be considered for the MSTP, your MD application along with the supplemental application for Pitt-CMU MSTP and all supporting documents, including letters of recommendation, are due no later than 11:59 PM on **OCTOBER 15**. We do not grant application deadline extensions. Early applications is strongly encouraged, as interview offers are made on a rolling basis. Our MSTP admits only U.S. citizens and U.S. permanent residents; international students are ineligible for the MSTP.
2. **Acceptances:** We accept students on a rolling basis; therefore, it is very important to complete the application, including recommendation letters, as early as possible. Applicants must complete their MD secondary application as soon as possible. Starting October 17, those who were chosen for interviews will be informed of their acceptance status to our program within roughly three weeks of their interview date. Applicants are ranked and notified of the following action:
 1. Acceptance into MSTP with full funding for all years of medical school and graduate school (including tuition and stipend)
 2. Wait-listed for acceptance into MSTP with funding
 3. Not accepted into MSTP

A second group of students is placed on the wait list that is considered depending on spots available after admitted student decisions. The University of Pittsburgh MSTP also accepts a small number of matriculated second-year medical students into the dual-degree program based upon their outstanding performance and developing interest in research pursuits during their medical school experience. Once admitted to the program, we do not accept any transfer credits from undergraduate or graduate courses to fulfill the MSTP course requirements.

The University of Pittsburgh and Carnegie Mellon University MSTP recognizes that our training environment is positively enriched by trainees with diverse backgrounds and needs. Our program considers all eligible applicants and does not discriminate on the basis of race, color, sex, veteran status, disability, national origin, creed, marital status, age, disability, gender identity, or sexual orientation.

Tuition and Fees:

MSTP students are fully supported through the entire program. Tuition, health insurance, and stipend are supported by a combination of funds from a National Institute of Health training grant, individual graduate programs, and School of Medicine funds.

Degree and Program Requirements

The MSTP program has many unique aspects of the curriculum, designed to integrate MSTP education through courses such as molecular medicine, the research basis of medical knowledge, professional development, ethics, and longitudinal clinical clerkships. MSTP students begin training to become physician-scientists from the very first week, and are well advised about possible courses and research opportunities. Descriptions of additional MSTP courses are listed below:

- MSTP 5015 - MSTP LABORATORY RESEARCH ROTATION
- MSTP 5010 - MOLECULAR MEDICINE
- MSTP 5290 - RESEARCH BASIS OF MEDICAL KNOWLEDGE
- MSTP 5973 - PROFESSIONAL DEVELOPMENT II: METHODS AND ANALYSIS
- MSTP 5971 - MSTP PROFESSIONAL DEVELOPMENT
- MSTP 5983 - ETHICS FOR MEDICAL SCIENTISTS

- MSTP 5990 - LONGITUDINAL CLINICAL COURSE
- MSTP 5993 - LONGITUDINAL CLN CLERKSHIP 3
- MSTP 5955 - MSTP WORKSHOPS
- MSTP 5975 - CAREER-RELATED RESEARCH

Non-Degree

Physician Scientist Training Five-Year Non-Degree Program

Overview: The Physician Scientist Training Program (PSTP) at the University of Pittsburgh School of Medicine is a five-year tuition assistance non-degree granting program through which students with a strong basic/translational research interest can start to build careers as physician-scientists. The PSTP website is located at pstp.pitt.edu.

Tuition Assistance: Medical school tuition is partially covered by the program (\$10,000 for each of the four years of medical school). Students do not pay tuition during their research year between MS2 and MS3.

Admissions Process: Applicants invited for an interview at the University of Pittsburgh School of Medicine are eligible to apply to the PSTP. A completed PSTP application consists of both the PSTP supplemental application and two research-focused letters of recommendation.

The PSTP interviews approximately 20 qualified candidates per year. Qualified applicants demonstrate a high degree of scholastic excellence, a sincere commitment to a career in academic medicine, and the potential to be a leader in biomedical research.

Program Completion Requirements

All PSTP students successfully complete paid research rotations during the summer before and after the first year of medical school, and a paid research year between the second and third years of medical school. PSTP students also participate in a longitudinal enrichment curriculum of research-oriented classes:

- MSELCT 5100 - PSTP PROFESSIONAL DEVELOPMENT 1
- MSELCT 5120 - PSTP PROFESSIONAL DEVELOPMENT 2
- MSELCT 5130 - PSTP RESEARCH BASIS OF MEDICAL KNOWLEDGE
- MSELCT 5950 - PSTP WORK IN PROGRESS SEMINAR
- MSELCT 5100 - PSTP PROFESSIONAL DEVELOPMENT 1
- MSELCT 5120 - PSTP PROFESSIONAL DEVELOPMENT 2
- MSELCT 5130 - PSTP RESEARCH BASIS OF MEDICAL KNOWLEDGE
- MSELCT 5950 - PSTP WORK IN PROGRESS SEMINAR

Graduate Programs

The University of Pittsburgh School of Medicine has a long tradition of research excellence and training by world-class faculty committed to mentoring the next generation of scientists. The School of Medicine offers a variety of programs leading to the Doctor of Philosophy, the Master of Science, or a certificate. In addition, it works with other schools of the University through collaborative graduate programs. The School of Medicine also offers an MD degree as well as a joint MD/PhD program enabling exceptionally able students to earn both degrees simultaneously. These programs are described in the First Professional Program section of the School of Medicine catalog.

Degree Requirements

In addition to School of Medicine requirements, all University requirements as detailed in the *Regulations Governing Graduate Study at the University of Pittsburgh* section of this catalog apply.

Graduate Programs (PhD, MS, Certificate)

Biomedical Informatics (PhD, MS, Certificate)

Biomedical Sciences (MS)

Computational Biology (PhD)

Computational Biomedicine and Biotechnology (MS)

Institute for Clinical Research Education

Clinical & Translational Science (PhD)

Clinical Research (MS, Certificate)

Medical Education (MS, Certificate)

Integrative Systems Biology (PhD)

Interdisciplinary Biomedical Graduate Program

Cell Biology & Molecular Physiology (PhD)

Cellular & Molecular Pathology (PhD)

Molecular Genetics & Developmental Biology (PhD)

Molecular Pharmacology (PhD)

Microbiology and Immunology (PhD)

Molecular Biophysics and Structural Biology (PhD)

Neurobiology/Neuroscience (PhD)

Certificate

Biomedical Informatics Certificate

Certificate Requirements

The biomedical informatics certificate is a 15-credit (minimum) experience. The curriculum of all students in this program will have the following general structure: required Foundation (9 credits); electives (minimum 3 credits); and research project (3 credits)

Research Project: The research project should be summarized in a report commensurate with its scope, one copy of which must be submitted to the training program coordinator after approval by the student's research advisor.

Additional Requirements for Master's, Doctoral, and Certificate Students in Biomedical Informatics

Instruction in the Responsible Conduct of Research: This Web-based set of instructions and evaluation modules may be accessed at <http://www.ctsi.pitt.edu/RCR/index.shtml>.

Attendance at and participation in the Department of Biomedical Informatics' invited lectures, symposia, conferences, etc. (particularly the Annual Training Program Retreat and special departmental lectures). Such lectures are considered important educational experiences, as well as introducing students to primary researchers and their work in the field of biomedical informatics.

Clinical Research (Certificate)

The Certificate in Clinical Research Program is aligned with the mission of the Institute for Clinical Research Education to offer the highest-caliber training and education in clinical research and to enhance collaboration among trainees from multiple disciplines. This program is geared toward clinicians who are pursuing a research career, and can be completed over a year of part-time study.

Admissions

Admissions Criteria

- Applicants must meet the following requirements before filling out an online application.
- Candidates are encouraged, but not required, to have completed a graduate or professional degree.
- Candidates must have a high level of interest and potential for the pursuit of innovative clinical research as a major focus of their career plan.
- Candidates from departments who ensure 50%-75% of protected time during their pursuit of the degree.
- A minimum GPA of 3.2 on a 4.0 scale
- TOEFL, IELTS, and Duolingo scores (when applicable)
- GRE and MCAT scores are not accepted

Timeline

The Certificate in Clinical Research Program accepts applications from December 15 through February 28 each year. In order to guarantee that you are considered for admission, we must receive your application and all component parts by February 28. Students will be notified via email of admission decisions approximately 1-2 months following the close of the application cycle.

Financial Assistance

The Institute for Clinical Research Education does not provide financial aid. Unless students have other funding sources, they are responsible for covering the tuition costs, taxes, and fees associated with their course enrollment.

Degree Requirements

Coursework Requirement:

Core Curriculum

The purpose of the core curriculum is to provide trainees with the basic set of skills that are required by clinical investigators in all fields of interest. These skills include an understanding of research design, epidemiologic methods, biostatistics, study and survey design, and measurement of outcomes.

The four core courses that comprise the core curriculum are offered in July and August. They are commonly taken together but can be distributed over two summer terms with the guidance of an academic advisor.

CLRES 2005 - COMPUTER METHODS FOR CLINICAL RESEARCH

CLRES 2010 - CLINICAL RESEARCH METHODS

CLRES 2020 - BIostatISTICS

CLRES 2040 - MEASUREMENT IN CLINICAL RESEARCH

Electives

Students collaborate with your academic advisor to enroll in ICRE courses that most benefit their research and future career goals. Certificate students take a minimum of 6 elective credits.

Responsible Conduct of Research (RCR) Requirement:

Clinical Research Certificate students are required to attend eight 1-hour CTSI Responsible Conduct in Research workshops or enroll in the ICRE course CLRES 2050: Ethics and Responsible Conduct of Research. At the time of graduation, students must have at least 8 hours of RCR training through CTSI or have successfully completed CLRES 2050 in order to be eligible to graduate.

More Information:

For additional program details, please visit the certificate program page and review the program handbook.

Comparative Effectiveness Research (Certificate)

The Certificate in Comparative Effectiveness Research aims to teach trainees the skills necessary to design and conduct high quality comparative effectiveness research. The program is for advanced clinical researchers who have already completed the Institute for Clinical Research Education core curriculum. Since this program is highly specialized, please contact the ICRE using the contact information below for further program details.

200 Meyran Ave, Suite 300
Pittsburgh, PA 15213
Phone: 412-586-9632
Fax: 412-586-9672

Medical Education (Certificate)

This certificate program is flexible and allows students to choose courses within the Medical Education program that align with their learning and professional goals. Students in this program typically choose courses in teaching and learning to enhance their skills as a clinician-educator at either a university or community-based program. The program is typically completed over one year of part-time study.

Admissions

Admissions Criteria

Applicants must meet the following requirements before filling out an online application.

- Candidates must have completed one of the following degrees: MD, DDS, DMD, DO, ND, OD, PharmD, PhD, DNS in nursing, PhD with clinical responsibilities, or other professional degree as deemed appropriate by the selection committee.
- Candidates must have a clinical appointment within UPMC (faculty, fellow, or resident) and/or an academic appointment within a University of Pittsburgh Health Sciences school. Since successful participation in and completion of our courses depend on having clinical and classroom environments in which to teach, concurrent with the program.
- Candidates must have a high level of interest in and potential for the pursuit of innovative medical education as a major focus of their career plan.
- Candidates must be based in departments that ensure adequate protected time to participate in courses and complete a research project during their pursuit of the degree.
- A minimum GPA of 3.2 on a 4.0 scale
- TOEFL, IELTS, and Duolingo scores (when applicable)
- We do not accept GRE or MCAT scores

Timeline

The Certificate in Medical Education Program has two application cycles per year. The application period for the Spring Term occurs from September 1 through October 31. The application period for the Summer Term occurs from December 15 through February 28. In order to guarantee that you are considered for admission, we must receive your application and all component parts by the last day of the admission cycle. Students will be notified via email of admission decisions 1-2 months following the close of the application cycle.

Financial Assistance

The Institute for Clinical Research Education does not provide financial aid. Unless students have other funding sources, they are responsible for covering the tuition costs, taxes, and fees associated with their course enrollment.

Degree Requirements

The Certificate in Medical Education offers a very flexible curriculum. Students are required to complete 15 credits, but are able to choose courses based on their individual educational interests and research goals. A minimum of 9 credits out of the 15 must be Medical Education courses. Please see the ICRE courses page for a complete list of our courses.

More information

To learn more about the Medical Education Program at the Institute for Clinical Research Education, please visit the program [page](#) and review the program handbook.

Doctoral

Biomedical Informatics (PhD, MS, Certificate)

Biomedical informatics is the science and engineering of information handling in health care delivery and biomedical research, studying and developing models of the various aspects of health care delivery and biomedical research in order to better understand how they operate. Those models suggest interventions that may improve health care delivery and biomedical research, including new methods for capturing, organizing, analyzing, and conveying clinical information to clinicians and researchers. Experiments are performed in which the effect of promising interventions on health care delivery or biomedical research are observed and compared to existing methods, which serve as controls. The analysis of the results of such experiments can lead to greater understanding of health care delivery and biomedical research, and thereby to methods with which to improve them.

Example areas of investigations in biomedical informatics at the University of Pittsburgh include the development and evaluation of new computer-based methods for (1) analyzing proteomic data to diagnosis disease, (2) supporting clinical trials, (3) providing clinical information to patients, (4) understanding the mechanism of diseases from genomic data, (5) natural language processing of electronically available medical text to extract important clinical features, (6) alerting clinicians when patient care appears atypical, (7) real-time detection and assessment of outbreaks of infectious disease and (8) teaching clinical trainees.

This program offers both master's and doctoral degrees. Most students choose to follow a general course of study in biomedical informatics; some, however, elect a specialization in one of the following areas: bioinformatics, clinical informatics, image informatics, or biosurveillance/infectious disease informatics. The specific curricula for the specializations, which are variations of the general course of study in biomedical informatics, can be found on the Training Program Web site at <http://dbmi.pitt.edu>.

Individuals who want a less intensive exposure to informatics may seek a 15-credit certificate in lieu of an academic degree. The biomedical informatics certificate can be a means of augmenting professional training in fields related to informatics and/or fulfilling educational needs associated with a professional position. Trainees across all health professions are welcome.

More information on Admissions, Financial Aid, Curriculum, Courses, Degree Requirements, and Faculty, can be found at <http://dbmi.pitt.edu>.

PhD Requirements

Credits: To earn the PhD degree in biomedical informatics, a student must complete a program of study approved by a committee of biomedical informatics faculty. The program requirements include a minimum of 72 credits consisting of a required Foundations course (15 credits); Research

Skills (5 credits); Teaching Practicum (3 credits); doctoral dissertation research (18 credits), elective courses (12 credits); additional electives and/or independent study (19 credits); successful completion of a preliminary evaluation; successful completion of a doctoral comprehensive examination; and research work leading to an acceptable dissertation. All required courses must be taken for a letter grade, with the exception of the Journal Clubs/Colloquiums and some independent and/or dissertations studies (to be determined by the faculty advisors). A minimum "B" grade is required in all graduate courses.

Admission to Candidacy/Dissertation: To qualify for admission to candidacy, a student must have completed formal coursework with a 3.3 GPA or higher, passed the comprehensive examination, and received approval of the proposed subject and plan for the dissertations from their dissertation committee following a prospectus meeting. The dissertation committee usually includes the principal dissertation advisor and three additional faculty (a majority of the committee must be biomedical informatics core faculty, and have University graduate faculty status).

An appropriate dissertation project involves a substantive piece of original and independent biomedical informatics research, grounded in an appropriate mode of literature and providing a significant contribution to the field. The dissertation must be successfully defended in a public oral defense. The dissertation process will follow the applicable regulations and procedures of the University and the School of Medicine, as described in the Regulations Pertaining to Doctoral Degrees section of this document.

MS Requirements

Credits: The Master of Science in Biomedical Informatics requires a minimum of 36 credits consisting of required biomedical informatics core Foundation (15 credits); Research Skills (4 credits); electives/independent study (14 credits); and Research (3 credits).

All required courses must be taken for a letter grade, with the exception of the Journal Clubs/Colloquiums and some independent and/or dissertation studies (to be determined by faculty advisors). A minimum "B" grade is required in all graduate courses.

Research Project or Thesis: A key element of the program is a research project with two key deliverables: (1) the writing and submission of a paper of publishable quality based upon the research and (2) the completion of an oral examination on its contents. A master's project committee will oversee the student's research progress, including the oral comprehensive examination. Students have the option of developing their projects into a formal master's thesis.

Successful completion of the oral examination on the research project satisfies the comprehensive examination requirement of the University's Committee on Graduate Studies. Final certification of the completion of the master's degree requires submission of the hard copy of the master's research project to the program coordinator.

Certificate Requirements

The biomedical informatics certificate is a 15-credit (minimum) experience. The curriculum of all students in this program will have the following general structure: required Foundation (9 credits); electives (minimum 3 credits); and research project (3 credits)

Research Project: The research project should be summarized in a report commensurate with its scope, one copy of which must be submitted to the training program coordinator after approval by the student's research advisor.

Additional Requirements for Doctoral, Master's, and Certificate Students in Biomedical Informatics

Instruction in the Responsible Conduct of Research: This Web-based set of instructions and evaluation modules may be accessed at <http://www.ctsi.pitt.edu/RCR/index.shtml>.

Attendance at and participation in the Department of Biomedical Informatics' invited lectures, symposia, conferences, etc. (particularly the Annual Training Program Retreat and special departmental lectures). Such lectures are considered important educational experiences, as well as introducing students to primary researchers and their work in the field of biomedical informatics.

Cell Biology and Molecular Physiology (PhD)

The graduate program in Cell Biology and Molecular Physiology has a rich tradition of scientific training and discovery. Graduates of the PhD program have gone on to become chairs of departments at six major U.S. medical schools and are represented at all levels of academic and

biomedical research. The program combines basic and clinical research faculty who are dedicated to the training of students. Faculty employ an integrative biology focus: combining tools of imaging, genetics, biochemistry, molecular biology, structural biology, computational modeling and physiological approaches to understand the functions of cells, tissues and organisms. Both basic scientists and clinical researchers seek to investigate dysregulation of normal cell biological functions in human disease. The program is home to the Center for Biologic Imaging, a state-of-the-art imaging center and the NIH-supported, O'Brien Kidney Center. Students in the CBMP are supported in part by a T32 training grant from NIGMS. Areas of expertise in the program include the cellular trafficking of proteins and lipids, genetic disorders of ion channels, fundamental mechanisms of cell-cell adhesion and cell polarity, DNA damage repair and cancer, models of neurodegeneration and aging, signal transduction in diabetes, cell biology and physiology of renal diseases and the regulation of male and female reproduction systems.

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, all Cell Biology and Molecular Physiology (CBMP) students are required to take the following core courses:

- MSCBMP 2880 - CELLULAR BIOLOGY OF NORMAL AND DISEASE STATES
- INTBP 3240 - GRANT WRITING FOR GRADUATE STUDENTS
And one of the following imaging courses
- MSCBMP 2885 - IMAGING CELL BIOLOGY IN LIVING SYSTEMS

OR

- MSCBMP 2860 - MULTIPARAMETRIC MICROSCOPIC IMAGING

Other electives include:

- MSCBMP 2870 - HISTOLOGY
- MSCBMP 2840 - REGULATION OF MEMBRANE TRAFFIC
- MSCBMP 2875 - EXPERIMENTS AND LOGIC IN CELL BIOLOGY
- MSCBMP 2852 - RESEARCH SEMINAR IN CELLULAR BIOLOGY

Cellular and Molecular Pathology (PhD)

The Cellular and Molecular Pathology program integrates the fields of cell biology, molecular biology, and innate immunity with the study of human disease, primarily in the context of translationally relevant Regenerative Medicine. Utilizing the latest technologies, the program combines both basic science and clinical research to explore fundamental questions related to the biology of normal tissue growth and embryonic development, current best practices in tissue engineering, and the cellular and molecular pathways that lead to the development of disease. Active research programs investigate diverse topics such as liver development, disease and transplantation in the NIH-funded Pittsburgh Liver Research Center; developmental neuroscience and neurological diseases; mechanisms of gene regulation; cancer biology; angiogenesis; pulmonary disease; inflammation and autoimmunity; genetics; bioinformatics; and molecular diagnostics. Research laboratories are located throughout the medical center campus and research studies involve both basic research scientists (PhD's) and clinician scientists (MD's, PhD's, and MD/PhD's).

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses for the Cellular and Molecular Pathology program:

- INTBP 3240 - GRANT WRITING FOR GRADUATE STUDENTS
- MSCMP 2730 - MOLECULAR MECHANISMS OF TISSUE GROWTH & DIFFERENTIATION AND EITHER
- MSCMP 3710 - CANCER BIOLOGY AND THERAPEUTICS or
- MSCMP 2740 - MOLECULAR PATHOBIOLOGY or

- MSCMP 3790 - BASICS OF PERSONALIZED MEDICINE

Additionally we require at least 5 terms of:

- MSCMP 2750 - RESEARCH SEMINAR

As well as two electives of your choice

from either the above electives or from courses throughout the School of Medicine on diverse topics of interest to students such as the following CMP-sponsored courses (partial listing):

- MSCMP 3735 - EXTRACELLULAR MATRIX IN TISSUE BIOLOGY AND BIOENGINEERING
- MSCMP 3740 - STEM CELLS
- MSCMP 3750 - ANGIOGENESIS
- MSCMP 3770 - CELL THERAPY

Clinical and Translational Science (PhD)

The Institute for Clinical Research Education at the University of Pittsburgh has designed the PhD Program in Clinical and Translational Science to train researchers in this emerging field that aims to close the gap between basic science and clinical research. This rigorous and advanced training program is intended primarily for clinicians, and aims to substantially enhance the capabilities of scientists to conduct high-quality clinical and translational research.

Admissions

Admissions Criteria

Applicants must meet the following requirements before filling out an online application.

- Candidates must have completed one of the following degrees: MD, DDS, DMD, DO, ND, OD, PharmD, PhD, DNS in nursing, PhD with clinical responsibilities, or other professional degree as deemed appropriate by the selection committee.
- Candidates must have a high level of interest and potential for the pursuit of innovative clinical research as a major focus of their career plan.
- Candidates from departments who ensure 50%-75% of protected time during their pursuit of the degree.
- A minimum GPA of 3.5 on a 4.0 scale
- TOEFL, IELTS, or Duolingo scores (when applicable)
- MCAT or GRE scores are not accepted

Timeline

The PhD Program in Clinical and Translational Science accepts applications from September 1 through January 31 each year. In order to guarantee that you are considered for admission, we must receive your application and all component parts by January 31. Students will be notified via email of admission decisions approximately 1-2 months following the close of the application cycle.

Financial Assistance

The Institute for Clinical Research Education does not provide financial aid. Unless students have other funding sources, they are responsible for covering the tuition costs, taxes, and fees associated with their course enrollment.

Degree Requirements

The PhD in Clinical and Translational Science curriculum is organized into 4 categories of coursework: Core, Advanced Selectives, Research Specialization, and Dissertation Research. While students advance through the program they will also complete the Preliminary Evaluation, Comprehensive Exam, and Dissertation Milestone.

To view the curriculum in detail, please visit [this page](#).

Non-credit Requirements/Milestones

Responsible Conduct of Research (RCR) Requirement

PhD in CTS students are required to attend eight 1-hour CTSI Responsible Conduct in Research workshops or enroll in the ICRE course CLRES 2050: Ethics and Responsible Conduct of Research. At the time of graduation, students must have at least 8 hours of RCR training through CTSI or have successfully completed CLRES 2050 in order to be eligible to graduate.

Comprehensive Examination

PhD in CTS students are required to complete a Comprehensive exam. This exam consists of a written examination in the form of an NIH R01-style proposal (including, at a minimum, specific research aims, background and significance, and research methods) and an oral defense of the written portion.

Doctoral Prospectus and Dissertation

PhD in CTS students must complete both a Doctoral Prospectus and successfully complete and defend a Doctoral Dissertation.

- Individuals must prepare a dissertation proposal for presentation to a doctoral dissertation committee at a formal dissertation overview meeting. At this meeting, the dissertation committee members will provide guidance in shaping the conceptualization and methodology for the individual's Doctoral Dissertation.
- The proposal, writing, and defense of a culminating research project. The written work must conform to the University of Pittsburgh style manual. The Final Oral Defense is a public defense of the Doctoral Dissertation.

[More information:](#)

Please view the PhD in CTS Program Handbook for complete program details.

Computational Biology (PhD)

Computational biology is defined as the development and application of data-analytical and theoretical methods, mathematical modeling, and computational simulation techniques to the study of biological, behavioral, and social systems.* It is an interdisciplinary approach that draws from specific disciplines such as mathematics, physics, computer science and engineering, biology, and behavioral science.

The Joint Pitt-CMU PhD Program in Computational Biology is an intensive, interdisciplinary training program that provides students with a deep understanding of the current state of the art in computational biology. Students in this program acquire the quantitative background and research skills needed to advance the field of computational biology. In addition, they develop the critical thinking skills needed to appreciate the potential, strength, and limitations of computational, mathematical, and engineering tools for tackling biological problems.

*NIH Working Definition, July 17, 2000.

Program Website:

Admissions

The interdisciplinary character of the program is unique and distinct from many other programs that are focused toward a specific discipline. The program seeks outstanding students from the biological, physical and computational sciences, and engineering. For example, computational biology majors, or double majors in biology and quantitative sciences are ideal candidates.

Recommended Prerequisites

For students planning their undergraduate course schedules in anticipation of applying for the PhD in computational biology, prerequisites in life sciences, computer science, physical sciences, mathematics, statistics, and computational biology are recommended. Students whose background does not include these courses may be admitted with the additional requirement to take appropriate compensating classes. For more information on prerequisites, see http://www.compbio.cmu.edu/?page_id=91.

Application

REQUIRED MATERIALS - Deadline December 10, 2019

- The Online Application
- Statement of Purpose
- Three letters of Recommendation
- Unofficial Transcripts (submitted online)
- Conversion of GPA (for international students only)
- Unofficial TOEFL Scores (submitted online)
- Application Fee

Applications are reviewed by the Joint CMU-Pitt PhD Program in Computational Biology. Each admitted student is assigned an initial university of matriculation, and receives an admissions offer letter from that university. Incoming students can be placed directly in a laboratory (if mutual interest exists between a student and an advisor), or go through a period of three rotations, after which the student chooses an advisor. Students have the ability to change advisors (subject to agreement of the new advisor and availability of support) and to transfer between the two universities to reflect advisor changes.

For more information on application process, see www.compbio.pitt.edu/?page_id=163

Financial Aid

All students are provided with a stipend and full tuition remission. Assistance is also provided for health insurance.

Teaching Assistantships

Although all students are supported as research assistants throughout their time in the program, students are required to TA for one semester. There are also opportunities to assist in the teaching courses of the program. Students are also encouraged to develop teaching skills by mentoring other students and passing on their knowledge to lab mates and fellow students.

Curriculum

The curriculum is designed to train students who will shape the next generation of discovery in computational biology in academia and industry. Students are required to complete 72 credit hours of academic work toward partial fulfillment of the requirements for completion of dissertation study. Of these, 30+ are formal coursework, and the remaining to be completed with full-time research.

All students are required to take five core graduate courses. The core courses aim at providing a strong common background in computational biology before they specialize in particular research areas

Core Courses

- Machine Learning
- Introduction to Computational Structural Biology
- Computational Genomics
- Cellular and Systems Modeling
- Laboratory Methods for Computational Biologists

In addition, all students are required to take three graduate elective courses: a life science/physical science course; an advanced interdisciplinary elective specified for the student's chosen area of specialization; and one general elective.

Specialization Areas

- Computational Genomics
- Computational Structural Biology
- Cellular and Systems Modeling
- Bioimage Informatics

For more information on the curriculum, see www.compbio.pitt.edu/?page_id=87

Other Courses

In addition to core and elective courses, students take complementing courses, if needed, and participate in program seminar, journal clubs, ethics courses and directed studies toward their dissertation projects.

Program Seminar Series

Students enrolled in the program are expected to attend scientific seminars during all years of training. Beginning in their second year and ending in the year before their thesis defense, students present their research progress to fellow students and the faculty on at least an annual basis.

CPCB Course

Effective presentation of scientific data is an invaluable aspect of graduate training. Therefore, all first- and second-year students must present a scientific article on a topic (selected by a faculty member) that introduces students to the methodology and applications of computational biology. The talk is made in a format that allows the student to develop basic presentation skills. Students subsequently receive feedback on their talks, thereby improving their presentations skills as their graduate training advances.

Training in Ethics

Ethical conduct and scientific integrity is an essential aspect of research. This is especially important given the competitive nature of funding processes and the high demand for productivity. Hence, the program instructs students on the significance and practice of ethical conduct.

Directed Study

Credits are given for laboratory projects (wet or computer labs) under the direction of the dissertation advisor prior to admission to candidacy for the doctorate.

Scheduling

We anticipate two types of course schedules for students in the program. The default for students who have taken the prerequisites will be to take three courses in each of the first two terms (50-75% time) and spend the remaining time on research. Such students would normally take the core courses in the first year along with one additional course. The third and fourth terms would be split between taking electives and doing research.

Students who enter with some biology or computer science or physical science background but not with sufficient background to take all of the core courses would take a mix of missing prerequisites and core courses in each of the first two terms (approx. 90% time) and spend 10% time on research. These students would then take a mix of remaining core courses and electives in the third and fourth terms (along with 30% research) and finish electives in the fifth and/or sixth terms.

Comprehensive Examination

Students are required to pass a comprehensive examination after completion of their courses, prior to being officially admitted to candidacy to the PhD degree. Students are expected to complete this examination no later than the beginning of the spring term of their third year. The comprehensive examination consists of two parts: a 12-page "grant-style" written proposal of the proposed research, followed by an oral defense of the proposed research.

Post-Comprehensive Qualifying Examination

Students who have been accepted to PhD candidacy conduct research on a full time basis, and are required to complete a minimum of 40 credit hours (9-14 credits per term) of full-time dissertation study in order to meet the criteria for dissertation defense. Hence, all students will have completed at least 72 credit hours of study prior to graduation, including 29 credit hours of core + elective courses, and at least 40 credit hours of dissertation research.

Completion of Degree

The program is structured in such a way that students can finish their degree within four years of entering their dissertation laboratory. However, it is recognized that the actual time required to attain the degree depends on the specific type of research undertaken and how quickly progress is made in completing the experimental program.

Terminal Master's Degree

The Program does not admit students whose goal is to attain a MS degree. However, it might become necessary for a PhD student to transfer to an MS track for academic reasons or reasons beyond the student's control, e.g., medical circumstances or a change in family circumstances necessitating a long-distance move.

For more information on the program, such as list of training faculty, please see www.compbio.cmu.edu/?page_id=31615

Integrative Systems Biology (PhD)

ISB is an innovative program in graduate training that rapidly immerses students into a research environment, then mentors them to become independent scientific practitioners, skilled not only in the art of technical execution but in the creative multidisciplinary thinking required to address important questions in systems biology. Students receive a PhD in Integrative Systems Biology.

Integrative Systems Biology is a field of study that has emerged within the last decade as a unifying discipline that focuses on placing the molecules that comprise living systems within functional and organism contexts. The goal of ISB is to utilize all of our available resources to create a training and research environment to answer challenging questions of fundamental importance in biomedical and life sciences. The ISB faculty are drawn from cellular, developmental, molecular and systems biologists across the University of Pittsburgh campus and are distributed between research foci:

- Quantitative Biology
- Translational Medicine

Contact Information

Integrative Systems Biology Program
 Shari Murphy - Program Administrator
 Biomedical Science Tower 3, 5th floor, 5061
 3501 5th Avenue
 University of Pittsburgh
 Pittsburgh, PA 15213
 412-383-4318
 Fax: 412-383-2211
 E-mail: sas101@pitt.edu
<http://www.isb.pitt.edu>

Admission Requirements and Procedures

Students most likely to gain admittance will have a baccalaureate degree from a natural science, physical science, or engineering program, a grade point average of 3.0 (on a scale of 4), and three letters of recommendation. As this is an accelerated program, students should have prior immersive experience in research studies. Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 650 (paper), IELTS score of at least 7.50 or iBT score of at least 100 is required for admission to the Program.

Additional information and a link to the online application can be found at <http://www.isb.pitt.edu/how-apply>

Financial Assistance

All full-time students receive a stipend, educational enrichment fund, computing and network service, and individual health insurance (with option to purchase additional family coverage) during their graduate training.

Degree Requirements

This is an accelerated program that provides the opportunity for students to complete their degrees in approximately 4 years. Students enter the program in the fall session, and after performing three rotations identify an advisor and area of research dissertation research project. Areas of research focus include Cell, Development, and Molecular Biology, Quantitative Biology, Translational Medicine, and Genes and Evolution. Required course work is completed during the first two years. After Spring of the students' second year, they take a comprehensive examination that includes the generation of a research proposal ready for submission to national fellowship programs. Students receive career mentoring throughout their ISB training to ensure a seamless transition to the postdoctoral level. Additional information can be found in the Student Handbook: https://www.isb.pitt.edu/sites/default/files/ISB-Handbook_4-13-21.pdf.

A minimum of 72 credits beyond the baccalaureate degree is required for the PhD degree. 32 of these credits are completed taking required and elective course work, and 40 of these credits are taken as dissertation research credits upon completing the comprehensive examination and advancing to candidacy. Required course work includes the following:

- ISB 2000 - LABORATORY RESEARCH ROTATION
- ISB 2070 - THE BEDSIDE TO BENCH
- INTBP 3240 - GRANT WRITING FOR GRADUATE STUDENTS
- MSCBIO 2025 - INTRODUCTION TO BIOINFORMATICS PROGRAMMING IN PYTHON
- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
- ISB 2020 - SYSTEMS BIOLOGY I
- ISB 2035 - SYSTEMS BIOLOGY II

- ISB 2060 - ISB CONFERENCE
- ISB 3090 - PHD DISSERTATION RESEARCH

Microbiology and Immunology (PhD)

The Program in Microbiology and Immunology (PMI) is an innovative program in graduate education that is administered through the School of Medicine of the University of Pittsburgh. The program aims to train highly motivated PhD students as self-reliant scholars in an environment where they have ready access to the breadth of expertise, approaches and sub-disciplines of microbiology and immunology. Students in this program will gain broad knowledge of diverse fields within microbiology and immunology, which is supplemented by seminars, journal clubs and laboratory rotations. The program rapidly immerses students into a research environment, and mentors them to become independent and creative scientists.

PMI brings together faculty in basic and translational sciences, including researchers from the University of Pittsburgh School of Medicine (Departments of Microbiology & Molecular Genetics and Immunology; Center for Vaccine Research; Microbiome Center), Magee-Women's Research Institute, Rangos Research Center at the Children's Hospital of Pittsburgh, and the University of Pittsburgh Cancer Center (e.g. Cancer Virology and Cancer Immunology Programs).

Faculty research interests in the PMI can be broadly divided into the following areas:

- Autoimmunity
- Basic immunological mechanisms
- Bacteriology
- Cancer immunology
- Discovery and development of novel antimicrobial therapies
- Host-pathogen interactions
- Immunology of organ transplantation
- Innate Immunity
- Parasitology
- Viral and bacterial pathogenesis
- Virology

Admission Requirements and Procedures

Students with at least a baccalaureate degree in biological or physical science or in mathematics, computer science or engineering are encouraged to apply. Admissions are based upon the student's academic record, letters of recommendation, previous research experience, written statement of interest and a personal interview. Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English Language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 600 (paper) or 100 (iBT), or IELTS score of at least 7.00 is required for admission to the Program. Applicants who have earned a bachelor's degree or a higher degree from a regionally accredited institution in the United States are exempt from submitting English language proficiency test results.

Additional information and a link to the online application can be found at <https://www.pmi.pitt.edu/admissions>

Financial Assistance

All full-time students receive a stipend, educational enrichment fund, computing and network service, and individual health insurance (with option to purchase additional family coverage) during their graduate training.

Degree Requirements

This is an accelerated program that provides the opportunity for students to complete their degrees in approximately 4-6 years. Students enter the program in the summer or fall sessions and perform four research rotations during their first year. It is expected that four rotations of seven weeks each will be performed in different laboratories of members of the PMI training faculty, but there are several circumstances where the requirement for four rotations or laboratories might be relaxed. Additional information can be found in the Student Handbook: https://www.pmi.pitt.edu/sites/default/files/KristinD-Files/Handbook_PMI_05.18.21.pdf

A minimum of 72 credits is required for graduation with a PhD. Of these, 32 credits must come from approved courses, both required and elective course work, and 40 of these credits are taken as dissertation research credits upon completing the comprehensive examination, to be held during the fall term of the second year and advancing to candidacy. Required course work includes the following:

- MSMI 2100 - FIRST PMI LABORATORY ROTATION and
- MSMI 2110 - SECOND PMI LABORATORY ROTATION (taken during fall and spring terms of the first year)
- MSMI 2000 - PRINCIPLES OF MICROBIOLOGY AND IMMUNOLOGY (taken during the fall of the first year)
- MSMI 2200 - COMPREHENSIVE MICROBIOLOGY: MOLECULAR VIROLOGY & MOLECULAR PATHOGENESIS and/or
- MSMI 2210 - COMPREHENSIVE IMMUNOLOGY (taken during the spring of the first year)
- MSMI 2250 - TA: MEDICAL MICROBIOLOGY (taken during the spring of the second and third years)
- MSMI 2300 - SCIENTIFIC WRITING IN MICROBIOLOGY AND IMMUNOLOGY (taken during the summer of the first year)
- MSMI 2350 - INTRODUCTION TO BIostatISTICS FOR MICROBIOLOGY AND IMMUNOLOGY GRADUATE STUDENTS (taken during the summer of the first year)
- INTBP 2290 - SCIENTIFIC ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH (taken during the summer of the first year)
- MSMI 2450 - IMMUNOLOGY RESEARCH SEMINAR (taken every fall and spring term from the second year through graduation)
- MSMI 2460 - MICROBIOLOGY AND RELATED TOPICS SEMINAR SERIES (taken every fall and spring term from the second year through graduation)
- MSMI 3220 - CONTEMPORARY TOPICS - IMMUNOLOGY (taken during the fall and/or spring terms of the second and/or third years)
- MSMI 3230 - MICROBIOLOGY RESEARCH IN PROGRESS (taken every fall and spring term from the second year through graduation)

Molecular Biophysics and Structural Biology (PhD)

The Molecular Biophysics and Structural Biology graduate program at the University of Pittsburgh and Carnegie Mellon University educates students to conduct research at the interface between biology, chemistry, and physics. The disciplines of Molecular Biophysics and Structural Biology aim to unravel and explain biological phenomena and processes in atomic and molecular detail. Research carried out by program faculty covers a diverse range of topics in Molecular Biophysics and Structural Biology. Areas of study focus on understanding fundamental principles involved in reactions and regulatory interactions in biological systems. Our research projects attempt to answer key questions, such as: How do proteins fold and can we prevent misfolding? Can we design proteins with novel functions? How does the coordinated interaction between proteins and nucleic acids lead to cellular differentiation and the formation of an organism? How do macromolecules assemble into molecular machines and viruses? How do these assemblies operate? How do signals traverse membranes?

E-mail: MBSBinfo@medschool.pitt.edu
www.mbsb.pitt.edu

Admission Requirements and Procedures

Students with at least a baccalaureate degree in physics, chemistry and mathematics or cellular and molecular biology are encouraged to apply. Admissions are based upon the student's academic record, CV, letters of recommendation, previous research experience, written statement of interest, and a personal interview. Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English Language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or Duo Lingo. A minimum TOEFL score of 600 (paper) or 100 (iBT), IELTS score of at least 7.00, or a minimum Duo Lingo score of 120 is required for admission to the Program. We actively seek qualified applicants from underrepresented minorities and students with disability.

Additional information and a link to the online application can be found at <http://www.mbsb.pitt.edu/index.php/apply-here>.

Financial Assistance

All students receive complete financial support in the form of stipend, tuition, and health insurance.

Degree Requirements

All students enter the Program in the fall session and after performing three rotations identify an advisor and area of research. Areas of research focus include: Macromolecular recognition; Virus, lipid and protein structure and interactions; Principles of protein structure and dynamics; Membrane proteins; Gene regulation and signaling; Cellular biophysics; Chemical structure and dynamics. Methodologies employed comprise NMR spectroscopy, X-ray crystallography, cryo electron microscopy, atomic force microscopy, mass spectrometry, infrared spectroscopy and computational molecular biology. Required coursework is completed during the first two years. Students are required to complete the Comprehensive Exam by August 31 of their second year in the graduate program.

A minimum of 72 credits beyond the baccalaureate degree is required for the PhD degree. The 72 credits are completed by taking required and elective course work as well as dissertation research credits upon being admitted to candidacy.

- MSMBPH 2000 - LABORATORY RESEARCH ROTATIONS or
- MOLBPH 2000 - LABORATORY RESEARCH ROTATIONS - taken during the first fall, spring & summer term of the first year.

- INTBP 2000 - FOUNDATIONS OF BIOMEDICAL SCIENCE - taken during the fall term of the first year

- MSMBPH 2001 - MOLECULAR BIOPHYSICS 1: STRUCTURE or
- MOLBPH 2001 - MOLECULAR BIOPHYSICS 1: STRUCTURE - taken during the fall term of the first year

- MSMBPH 2012 - MOLECULAR BIOPHYSICS 2: MOLECULAR INTERACTIONS AND DYNAMICS or
- MOLBPH 2012 - MOLECULAR BIOPHYSICS 2: MOLECULAR INTERACTIONS AND DYNAMICS - taken during the spring term of the first year

- 09763 - MOLECULAR MODELING AND COMPUTATIONAL CHEMISTRY taken during the spring of the first year

- INTBP 2290 - SCIENTIFIC ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH - taken during the summer term of the first year

- INTBP 2013 - D2K: FROM DATA TO KNOWLEDGE- BIOMEDICAL EXPERIMENTAL DESIGN AND ANALYSIS - taken during the summer term of the first year

- MSMBPH 2020 - STRUCTURAL BIOLOGY/MOLECULAR BIOLOGY SEMINAR or
- MOLBPH 2020 - STRUCTURAL BIOLOGY/MOLECULAR BIOPHYSICS SEMINAR - taken every fall and spring term through graduation

- MSMBPH 2030 - DATA AND LITERATURE CLUB or
- MOLBPH 2030 - DATA AND LITERATURE CLUB - beginning with the spring term of the first year, D&L Club is taken every fall and spring term through graduation

- MSMBPH 2040 - TA: MBSB or
- MOLBPH 2040 - TA: MBSB taken once in any term

Advanced Elective Courses (6 Credits Total)

The courses taken here will be chosen on an individual basis based on the background and interests of the individual student. During the first year, the choice will be made by the student in consultation with the First Year Advisor or Dissertation Advisor. Upon proper approval, the elective

courses can be taken either at the University of Pittsburgh (both the Dietrich School of Arts & Sciences and the School of Medicine) as well as Carnegie Mellon University.

Additional information on the core curriculum can be found at <http://www.mbsb.pitt.edu/index.php/training/curriculum>.

Molecular Genetics and Developmental Biology (PhD)

The Molecular Genetics and Developmental Biology (MGDB) graduate program provides an exciting and vigorous academic environment for highly motivated and qualified students to prepare for a rewarding career in biomedical research. The MGDB program brings together faculty in both basic and applied sciences, including researchers from the School of Medicine, the School of Arts and Sciences, the UPMC Hillman Cancer Center, the Children's Hospital of Pittsburgh, the Magee-Womens Research Institute and the Department of Biological Sciences. MGDB faculty have a wide diversity of interests and are pursuing research projects that address fundamental, contemporary issues in biology and medicine. MGDB research is at the cutting edge of many emerging fields, including developmental and reproductive biology, stem cell biology, aging, proteomics, computational biology, genomics and DNA replication, damage and repair. Our work has direct relevance to acute injury, cancer, diabetes, muscular dystrophy, heart disease, kidney disease, fertility/infertility, congenital disorders and other genetic diseases and regenerative medicine. We are committed translating lab bench discoveries to the bedside and graduate students are fully integrated in all aspects of our investigative work.

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in the Molecular Genetics and Developmental Biology program:

- MSMGDB 2525 - DEVELOPMENTAL MECHANISMS OF HUMAN DISEASE
- MSMGDB 2535 - MODEL ORGANISMS
- MSMGDB 2550 - RESEARCH SEMINAR
- INTBP 3240 - GRANT WRITING FOR GRADUATE STUDENTS

Molecular Pharmacology (PhD)

Biomedical research in the Molecular Pharmacology program is focused on cutting-edge discovery of molecular and cellular mechanisms of intracellular signaling using a combination of biochemical, molecular biological, biophysical, ultrastructural, and imaging approaches. Basic research into cellular communication in health and disease is the main emphasis of the program with the added advantage of an array of translational opportunities into the development and testing of novel therapeutic agents. Applications of this common theme are directed toward research in molecular biology of cancer, neuropharmacology, cell and organ system pharmacology, signal transduction, neurodegenerative diseases and drug discovery. Formal collaborative interactions with the Pittsburgh Cancer Institute, the Center for Neuroscience, the Pittsburgh Institute for Neurodegenerative Diseases (PIND), the Division of Clinical Pharmacology, the University of Pittsburgh Drug Discovery Institute, University of Pittsburgh Structural Biology Imaging Center, the Vascular Medicine Institute and the Center for Biological Imaging provide a broad multidisciplinary approach to training in modern molecular pharmacology.

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in the molecular pharmacology program:

- INTBP 3240 - GRANT WRITING FOR GRADUATE STUDENTS
- MSMPHL 2310 - PRINCIPLES OF PHARMACOLOGY
- MSMPHL 3360 - MOLECULAR PHARMACOLOGY
- MSMPHL 2360 - BIOLOGY OF SIGNAL TRANSDUCTION
- MSMPHL 3310 - CANCER BIOLOGY AND THERAPEUTICS
OR
- MSMPHL 3375 - NEUROPHARMACOLOGY
OR

- MSMPHL 2370 - DRUG DISCOVERY
- MSMPHL 3340 - FOUNDATIONS OF SUCCESSFUL CAREER PLANNING AND DEVELOPMENT PART 1
- MSMPHL 3341 - FOUNDATIONS OF SUCCESSFUL CAREER PLANNING AND DEVELOPMENT PART 2

Neurobiology/Neuroscience (PhD)

The Center for Neuroscience (CNUP) Training Program is an interschool PhD degree-granting program offered cooperatively by the School of Medicine (Neurobiology, MSNBIO) and the Dietrich School of Arts and Sciences (Neuroscience, NROSCI). The program introduces students to the fundamental issues and experimental approaches in neuroscience and trains them in the theory and practice of laboratory research. Research interests of the training faculty focus on several prominent themes, including behavioral/systems/cognitive, cell and molecular, development/plasticity/repair, and the neurobiology of disease.

We are highly invested in enhancing diversity, which is expressed in multiple forms - race, ethnicity, gender and gender identity, sexual orientation, socioeconomic status, language, culture, national origin, religious commitments, age, (dis)ability status and political perspective. In addition, we strive to create a community that is equitable, so that all persons have equal opportunity, and inclusive, so that everyone feels welcomed. We hope you share our values and goals.

This large research-based training program offers outstanding opportunities for students to pursue research in laboratories within more than 30 different departments and University centers. Major features of the program include extensive collaborative interactions among its faculty members and its affiliation with Auditory Neuroscience, the Brain Institute, the Center for the Neural Basis of Cognition (a joint program with Carnegie Mellon University), Conte Center for Translational Mental Health Research, Pittsburgh Hearing Research Center, Pittsburgh Institute for Neurodegenerative Diseases, Pittsburgh Center for Pain Research, and other on-campus research centers.

Contact Information

Center for Neuroscience
 E1440 Thomas E. Starzl Biomedical Science Tower
 200 Lothrop Street
 Pittsburgh, PA 15261
 412-648-9537
 Fax: 412-648-1441
<http://cnup.pitt.edu/>
argenzio@pitt.edu

Admission Requirements and Procedures

Students are admitted into the CNUP training program on the assumption that they will be able to meet all requirements for the PhD degree. Those who are selected show evidence of a high level of intellectual talent, a strong interest in neuroscience, and a commitment to scholarship and research.

Admission decisions are based on many factors including the candidate's statement of interest and goals in the field of neuroscience, evidence of research experience and accomplishment, letters of recommendation, test scores, grades, and personal interviews. An outstanding record in one of these areas may compensate for poorer performance in another area. In general, successful applicants have a BS degree in biology, chemistry, computer science, mathematics, neuroscience, or psychology with a cumulative grade point average (GPA) of at least 3.40 (on a 4.00 scale). Applicants with a GPA below 3.0 will not be considered.

Additional information and a link to our on-line application can be found at: <https://www.cnup.pitt.edu/phd-program-training/prospective-students>

Financial Assistance

All students receive full stipend support and individual health benefits. This support is derived from University fellowships and numerous grants funded by the federal government and private agencies. Students in the program also have access to sponsorship on NIH training grants.

PhD Degree Requirements

<https://www.cnup.pitt.edu/phd-program-training/current-students/phd-requirements>

Credits: A minimum of 72 credit hours, including a 23-credit course requirement covering fundamental material in cellular and molecular neurobiology, systems neuroscience, and several elective courses.

Core courses:

- MSNBIO 2010 - SCIENTIFIC ETHICS or
- NROSCI 2010 - SCIENTIFIC ETHICS

- MSNBIO 2100 - CELLULAR AND MOLECULAR NEUROBIOLOGY 1 or
- NROSCI 2100 - CELLULAR AND MOLECULAR NEUROBIOLOGY 1

- MSNBIO 2101 - CELLULAR & MOLECULAR NEUROBIOLOGY 2 or
- NROSCI 2101 - CELLULAR & MOLECULAR NEUROBIOLOGY 2

- MSNBIO 2102 - SYSTEMS NEUROBIOLOGY or
- NROSCI 2102 - SYSTEMS NEUROBIOLOGY

- MSNBIO 2624 - GRANT WRITING

Other requirements:

In addition to University requirements for graduate degrees, students are also required to complete a graduate level statistics course, obtain research experience in at least two separate laboratories; attend journal clubs and research seminars; pass a reprint exam following their first year of study, a comprehensive exam, and a doctoral dissertation and defense; and, to serve as a teaching assistant for at least one term (or course).

A list of CNUP Training Faculty may be viewed at: <https://www.cnup.pitt.edu/people/core-faculty-members>

A complete list of courses may be viewed at: <https://www.cnup.pitt.edu/phd-program-training/current-students/curriculum>

Master's

Biomedical Sciences (MS)

The Biomedical Master's Program (BMP) is designed to develop critical scientific thinking skills and train students for successful application to professional degree programs in the health sciences. Biomedicine is the centerpiece of the health sciences, interconnecting everything from medicine, dentistry and pharmacy, to clinical and biomedical research. The field of Biomedicine ultimately studies and advances understanding of the human body, how it works in health and how it goes awry in disease. The BMP at the University of Pittsburgh School of Medicine offers educational and experiential training in Biomedicine as preparation for successful careers in the health sciences within a faculty mentored community individualizing each student's success.

Contact Information

Biomedical Masters Program
3500 Fifth Avenue, Suite 206

Pittsburgh, PA 15213 USA

412-383-3265
Fax: 412-648-1077

Admissions

Admissions Criteria:

The BMP welcomes candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold, or can obtain a J-1, H1-B, or F1 transfer visa.

The program is designed for applicants with long-term goals of entering careers in the health sciences, or applying to DO and MD, PA, DMD/DDS, PhD, other health science degree programs or seeking a master's degree in the Biological Sciences.

Candidates must have distinguished personal qualifications of past academic ability and references. Application requirements include a bachelor's degree with at least a cumulative 3.0 GPA; a 3.3 or higher GPA is preferred. Completion of pre-requisite courses for application to future professional degree programs are required. MCAT, DAT, PCAT, or GRE scores are not required for admission, but should be reported by any applicant who has taken one of these tests. Candidates with community service, clinician shadowing, patient volunteering, clinical or basic research experiences, and strong academic performance will be viewed very favorably.

Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) and are seeking their first degree in the United States are required to submit evidence of English Language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 600 (paper) or 100 (iBT), a nIELTS score of at least 7.00, or a Doulingo score of 120 is required for admission to the Program. We actively seek qualified applicants from underrepresented minorities and students with disabilities.

Application Process:

- The online application process starts October 1st and closes on June 1st the following year. Admissions is conducted on a rolling basis. Responses to offers are required within 30 days of an offer being extended, or the final responses deadline of June 15th, whichever is first. Students matriculate for the beginning of the fall semesters. A focus on ensuring student success is employed in the admissions process.
- Admissions are based upon the student's academic record, letters of recommendation, previous experience, written statement of interest, an updated resume/CV, and an online or in-person interview.

The online application is available at: <https://admissions.gradbiomed.pitt.edu/>

Financial Assistance

Financial guidance is available through the University of Pittsburgh Office of Admissions and Financial Aid: <http://oafa.pitt.edu/learn-about-aid/>. The BMP offers scholarships to select students. Awards are determined based on a holistic evaluation and amounts are based on financial need. All students are responsible for ensuring their tuition is paid.

Degree Requirements

All requirements detailed in the Regulations Governing Graduate Study at the University of Pittsburgh will be met. The MS in Biomedical Sciences requires the completion of a minimum of 32 credits with a GPA of 3.0 or higher. Maximum credits allowed per term will be 15, and a typical course load will be 15 credits for the fall and spring terms and 2 credits for the summer term.

Foundational Components:

The Curriculum: The BMP employs science-based instruction designed to improve student preparation for professional degree programs in medicine, dentistry, research, and other related health science professions. By emphasizing understanding and how to think in addition to what to know, the BMP promotes the development of study habits that enable our students to excel and thrive in the first two years of these demanding professional degree programs. These goals will be achieved through an integrated series of required core courses and elective courses and

experiential training opportunities together with dedicated one-on-one advising and mentorship that will enable students to successfully apply to and perform well in their chosen professional school.

Experiential Training. The BMP affords opportunities for experiential training specifically tailored to the strengths and weaknesses of each individual student. The areas selected correspond to the typical aspects considered in the review of standard professional school applications: community service, patient volunteering, clinical shadowing, and research training.

Mentoring and Coaching. The BMP provides a multi-tiered mentoring and coaching model to all students. Each student will meet with their assigned faculty advisor during the initial phase of the program in order to identify strengths and weaknesses of the previous training received by the student. The student and faculty advisor will identify the best selection of academic courses and experiences to maximize long term student learning and success. Career and professional development coursework and access to an internal International Coaching Federation career coach will support individual growth including many of the AAMC Core Competencies. Access to an external International Coaching Federation life coach is also provided to address broader challenges such as limiting beliefs. In addition, near-peer mentoring is facilitated by the BMP Alumni Mentor Network. Students also engage in large group lectures, larger group discussions, small group discussions, and peer-to-peer writing-and-reflection coursework, with a focus on developing competencies in written and verbal professional communication skills. These activities are specifically targeted to develop the quality of students' professional program application materials.

Expanding on these three components, the BMP enables the student to differentiate with elective courses, experiential opportunities and mentoring to focus on specialized interests. These Areas of Concentration (AOCs) are in Medicine, Dentistry, or Biomedical Research. The AOCs are designed to individualize the program for students seeking future professional programs leading to the MD, DMD, or PhD degree, respectively.

Successful completion of the BMP results in conferral by the University of Pittsburgh of the Master of Science (MS) degree in the major of Biomedical Sciences. The BMP is a 12 month program. Applicants who are working may complete the program part-time over the course of two academic years

Curriculum

The BMP curriculum includes three major components: core, electives, and experiential activities. A common "core" has been designed to provide the foundational sciences for students who have a minimal level of basic science training as well as advanced education in health science thinking skills to serve students well into the first two years of professional degree programs. These courses are complemented by electives and experiential activities that are chosen based on each student's interests in his/her AOC.

Core Courses: Biochemistry and Physiology; Method and Logic in Biomedicine; Cell Signaling and Pharmacology; Comprehensive Analysis of Disease 1 and 2; Foundations of Successful Career Planning and Development 1 and 2, Professionalism and Non-cognitive Development 1 and 2.

Elective Courses: Human Anatomy; Histology and Cell Function in Health and Disease; Cell Biology Pathways in Treatment of Disease; Organ Systems Physiology; Neurophysiology; Clinical Pharmacology; Diversity Awareness Exploration in the Biomedical Sciences.

Additional Elective Courses: Additional graduate level courses are available with written approval from the student's academic advisor and permission from the instructor and/or department offering the course.

Experiential Courses: The BMP will provide ample opportunities in community service, hospital volunteering, and clinical shadowing. Available opportunities are matched each term to optimize the experiential benefit for all students during their tenure in the program. Research training experiences are also available in a wide range of biomedical and clinical research laboratories. Students are expected to take the initiative, guided by their faculty advisor, to find suitable matches and schedule experiential education and training sessions during the Fall, Spring, and/or Summer terms.

Training in Ethics: Ethical conduct and scientific integrity is an essential aspect of the health sciences. The BMP program instructs students on the significance and practice of ethical conduct in an annual workshop.

Academic Standards

All graduate students must maintain a minimum cumulative GPA of 3.0 in order to stay in good academic standing and be eligible for graduation.

Clinical Research (MS)

The Master of Science in Clinical Research Program is aligned with the mission of the Institute for Clinical Research Education to offer the highest-caliber training and education in clinical research and to enhance collaborations among trainees from multiple disciplines. This program is geared toward clinicians who are pursuing a research career, and can be completed over 2 years of part-time study.

Contact Information

Institute for Clinical Research Education
200 Meyran Ave, Suite 300
Pittsburgh, PA 15213
Phone: 412-586-9632
Fax: 412-586-9672

Email: icre@pitt.edu
[Learn more.](#)

Admissions

Admissions Criteria

- Applicants must meet the following requirements before filling out an online application.
- Candidates are encouraged, but not required, to have completed a graduate or professional degree.
- Candidates must have a high level of interest and potential for the pursuit of innovative clinical research as a major focus of their career plan.
- Candidates from departments who ensure 50%-75% of protected time during their pursuit of the degree.
- A minimum GPA of 3.2 on a 4.0 scale
- TOEFL, IELTS, and Duolingo scores (when applicable)
- GRE and MCAT scores are not accepted

Timeline

The Master of Science in Clinical Research Program accepts applications from December 15 through February 28 each year. In order to guarantee that you are considered for admission, we must receive your application and all component parts by February 28. Students will be notified via email of admission decisions approximately 1-2 months following the close of the application cycle.

Financial Assistance

The Institute for Clinical Research Education does not provide financial aid. Unless students have other funding sources, they are responsible for covering the tuition costs, taxes, and fees associated with their course enrollment.

Degree Requirements

Core Curriculum

The purpose of the core curriculum is to provide trainees with the basic set of skills that are required by clinical investigators in all fields of interest. These skills include an understanding of research design, epidemiologic methods, biostatistics, study and survey design, and measurement of outcomes.

The four core courses that comprise the core curriculum are offered in July and August. They are commonly taken together but can be distributed over two summer terms with the guidance of an academic advisor.

CLRES 2005 - COMPUTER METHODS FOR CLINICAL RESEARCH

CLRES 2010 - CLINICAL RESEARCH METHODS

CLRES 2020 - BIOSTATISTICS

CLRES 2040 - MEASUREMENT IN CLINICAL RESEARCH

Advanced Grant Writing Course

This course focuses on research design and development and is a two-part course offered during the fall and spring terms. The Advanced Grant Writing course is taken by MS students during year 2.

CLRES 2071 ADVANCED GRANT WRITING PART 1

CLRES 2072 - ADVANCED GRANT WRITING PART 2

Specialty Track Requirements:

Students who enter the Master of Science in Clinical Research Program will select a curriculum track that offers specialized training in a specific clinical research area. Each specialty track offers a different curriculum of required courses, which can be viewed in the Program Handbook. The MS program has 5 specialty tracks:

- Clinical Trials Research Track
- Comparative Effectiveness Research Track
- Health Services Research Track
- Translational Research Track
- Innovation Track
- Implementation Science Track
- Data Science Track

Each of these tracks has a distinct set of required courses that allow students to specialize in an area of clinical research. All MS students will also take a selection of elective courses to reach the 30 credit minimum required for this degree.

Comprehensive Competency Review:

The Comprehensive Competency review is a program check-in completed at the midpoint of a student's degree progress. The MS in Clinical Research Program is designed to train students in the skills, knowledge, and professional norms for clinical researchers and the Comprehensive Competency Review helps students be confident that they are on track to develop competence in all key areas.

Thesis or Substantive Research Project:

The MS in Clinical Research requires each student to complete a formal thesis or substantive research project. Students are able to write a standard thesis, grant proposal, or 2 manuscripts to fulfill this requirement.

Students must successfully defend their research project to a review committee as required by the University's Committee on Graduate Studies.

Responsible Conduct in Research (RCR) Requirement

Clinical Research Master of Science students are required to attend eight 1-hour CTSI Responsible Conduct in Research workshops or enroll in the ICRE course CLRES 2050: Ethics and Responsible Conduct of Research. At the time of graduation, students must have at least 8 hours of RCR training through CTSI or have successfully completed CLRES 2050 in order to be eligible to graduate.

[More Information:](#)

For additional program details, please visit the Master of Science in Clinical Research Program page and review the Program Handbook.

Computational Biomedicine and Biotechnology (MS)

The Computational Biomedicine and Biotechnology (CoBB) Master's of Science program trains leaders who can translate cutting-edge computational technologies into real-world advances in biomedicine and biotechnology. Seated in the Department of Computational and Systems Biology, the program focuses on the interface between computer science and applied biology. It is appropriate for students with backgrounds in either quantitative disciplines (computer science, engineering) or biological sciences and who seek to have an impact in the rapidly evolving field of computational biotechnology. Students in the CoBB program will learn to develop and apply novel computational, mathematical, statistical, and *in silico* techniques to meet current challenges in biotechnology. Our trainees will be equipped with the necessary skills for successful biomedical data science and biocomputing technology careers in the health care and biotechnology industry, government, and academia.

Contact Information

Executive Director:

Tim Lezon, PhD

Department of Computational and Systems Biology

800 Murdoch I Building

3420 Forbes Avenue

Pittsburgh, Pennsylvania 15213-3203

lezon@pitt.edu

Master's Program Administrator:

cobb@pitt.edu

Executive Committee:

Joseph Ayoob, PhD

Ivet Bahar, PhD

Chakra Chennubhotla, PhD

James Faeder, PhD

Program Website:

www.csb.pitt.edu/cobb/

Admissions

CoBB welcomes students from various backgrounds, including life science, computer science, physical science, mathematics and statistics, and engineering majors, students with interdisciplinary or multi-disciplinary backgrounds.

Application

Required Materials:

- The Online Application
- Statement of Purpose
- Three letters of Recommendation
- Unofficial Transcripts
- Unofficial TOEFL Scores/IELTS/Duolingo Scores (for international applicants)
- Application Fee

Financial Assistance

Financial guidance is available through the University of Pittsburgh Office of Admissions and Financial Aid: <http://oafa.pitt.edu/learn-about-aid/>. All students are responsible for their own tuition.

Degree Requirements

To receive the CoBB MS, all students are required to complete a minimum of 30 credits of masters-level coursework and to maintain an overall GPA of 3.0 or higher.

Curriculum

- At least 4 research credits of independent study
- A summer internship or additional directed study, worth 3 credits
- 3 credits of Fundamentals of Computational Biology
- 2 credits of Professional Development
- One course (taken or waived) from each of the five groups
 - Computational Biophysics
 - Computational Systems Biology
 - Computational Genomics
 - Computer Science
 - Electives

Directed Study

Gaining hands on experience in solving problems in computational biology is an essential part of CoBB training. Each student is therefore required to take a minimum of 4 credits of directed study with a University of Pittsburgh faculty member. Students are expected to select a research mentor for the directed study in their first semester, and to complete the research requirement in the second and/or third semesters.

Internship

To gain experience in the professional application of computational biology, students are encouraged to participate in a 2 to 3 month summer internship at a company of their choosing. Acceptable internship sites include industrial labs, biotech/pharma companies, and governmental organizations.

Students will present a written report with well-defined structure and content at the end of their internship to summarize their experience and the skills they acquired during their experiential training, and to make recommendations for future work. They will also make an oral presentation to share their experience with others.

Completion of Degree

The program is structured in such a way that students can finish their degree within 12-20 months, depending on the background of the student. To complete the degree in one year, students must demonstrate proficiency in programming, calculus and linear algebra.

For more information on the program, please visit www.csb.pitt.edu/cobb/

Medical Education (MS)

The Master of Science in Medical Education Program is designed to help academically oriented health care professionals enhance their education, strengthen their teaching skills, and expand their ability to facilitate the learning process of students and residents in a variety of clinical teaching environments. This program is typically completed over 2 years of part-time study. Alumni of this program have gone on to make valuable contributions to the field of medical education, many of them through leadership positions in top training programs across the country.

Institute for Clinical Research Education
200 Meyran Ave., Suite 300
412-586-9632
Fax: 412-586-9672

Email: icre@pitt.edu
Learn more.

Admissions

Admissions Criteria

- Candidates must have completed one of the following degrees: MD, DDS, DMD, DO, ND, OD, PharmD, PhD, DNS in nursing, PhD with clinical responsibilities, or other professional degree as deemed appropriate by the selection committee.
- Candidates must have a clinical appointment within UPMC (faculty, fellow, or resident) and/or an academic appointment within a University of Pittsburgh Health Sciences school, since successful participation in and completion of our courses depend on having clinical and classroom environments in which to teach, concurrent with the program.
- Candidates must have a high level of interest in and potential for the pursuit of innovative medical education as a major focus of their career plan.
- Candidates must be based in departments that ensure adequate protected time to participate in courses and complete a research project during their pursuit of the degree.
- A minimum GPA of 3.2 on a 4.0 scale
- TOEFL, IELTS, or Duolingo scores (when applicable)
- GRE and MCAT scores not accepted

Timeline

The Master of Science in Medical Education Program has two application cycles per year. The application period for the Spring Term occurs from September 1 through October 31. The application period for the Summer Term occurs from December 15 through February 28. In order to guarantee that you are considered for admission, we must receive your application and all component parts by the last day of the admission cycle. Students will be notified via email of admission decisions 1-2 months following the close of the application cycle.

Financial Assistance

The Institute for Clinical Research Education does not provide financial aid. Unless students have other funding sources, they are responsible for covering the tuition costs, taxes, and fees associated with their course enrollment.

Degree Requirements

The University requires the successful fulfillment of a minimum of 30 credits for awarding a Master of Science in Medical Education. The degree is granted upon the completion of a tightly integrated curriculum with three components: (1) coursework plus observed teaching activities focusing on adult learning, classroom and clinical teaching skills, curriculum development, innovation in medical education, professional development, and medical administration; (2) additional courses to provide trainees with fundamental research skills; and (3) a project on curriculum development or a mentored research project.

Core Curriculum

All Master of Science trainees in the Medical Education Program enroll in 11 required courses that cover the fundamental aspects of the field of medical education. Below are the required courses:

MEDEDU 2005 - COMPUTER METHODS FOR CLINICAL RESEARCH

MEDEDU 2010 - CLINICAL RESEARCH METHODS

MEDEDU 2020 - BIOSTATISTICS

MEDEDU 2040 - MEASUREMENT IN CLINICAL RESEARCH

MEDEDU 2080 - MASTERS RESEARCH

MEDEDU 2100 - ENHANCING TEACHING SKILLS

MEDEDU 2111 - FUNDAMENTALS OF ADULT LEARNING PART 1

MEDEDU 2120 - PROFESSIONAL DEVELOPMENT

MEDEDU 2125 - ASSESSMENT OF MEDICAL LEARNERS

MEDEDU 2130 - CURRICULUM DEVELOPMENT & EVALTN

MEDEDU 2140 - SCIENTIFIC WRITING & PRESENTATION SKILLS (ONLINE)

Electives

Trainees choose elective coursework to reach the required 30 credits. These courses may be offered through the Medical Education or Clinical Research program.

Independent Research Project

Trainees pursuing the Master of Science in Medical Education are required to complete a substantive research project. This thesis requirement can take the form of a curriculum development project, survey research, qualitative research, or other type of research project. The trainee must be the principal investigator for their thesis project and plan to publish their research in a peer-reviewed journal.

More Information

To learn more about the Medical Education Academic Programs, please visit the program [page](#) and review the [program handbook](#)

Non-Degree

Institute for Clinical Research Education

The Institute for Clinical Research Education (ICRE) is the home for the University of Pittsburgh's premier clinical and translational research training programs. The ICRE offers a variety of educational, training, and career development programs for researchers in clinical and translational science as well as medical education. The degree programs of the ICRE emphasize the multidisciplinary nature of clinical research, translational science, and medical education while engaging adult learners through the use of applied approaches to build skills. Learn more.

Graduate Training Programs:

- **Clinical and Translational Science (PhD)**
- **Clinical Research (MS)**
- **Clinical Research (Certificate)**
- **Medical Education (MS)**
- **Medical Education (Certificate)**
- **Certificate in Clinical and Translational Science for Doctoral Students in the Health Sciences**

PhD

Interdisciplinary Biomedical Graduate Program

Through the Interdisciplinary Biomedical Graduate Program, students may be admitted into one of the following 4 PhD degree-granting programs in the School of Medicine:

- **Cell Biology and Molecular Physiology (PhD)**
- **Cellular and Molecular Pathology (PhD)**
- **Molecular Genetics and Developmental Biology (PhD)**
- **Molecular Pharmacology (PhD)**

Students will not be admitted to pursue a master's degree. However, students who cannot complete the PhD program due to extenuating personal, financial, academic, or medical reasons may be awarded a master's degree.

The Interdisciplinary Biomedical Graduate Program is flexible and accommodates students whose research interests are still evolving by introducing them to a variety of fields through interdisciplinary courses and laboratory experiences. For those students who have a clearly defined research interest, the program offers the opportunity to move quickly into a laboratory and accelerate their study.

For more information on Admissions, Financial Assistance, Training Faculty, etc. please visit www.gradbiomed.pitt.edu

Academic Standards

Students must maintain a minimum overall cumulative GPA of 3.00. In addition, a minimum of a B grade must be earned in each of the required courses and in each of the degree-granting program core courses.

General Degree Requirements - All Interdisciplinary Biomedical Graduate Students

The first term core course, Foundations of Biomedical Science, is required of all students and is followed by increasingly specialized course work in the discipline-specific program the student has chosen. A course in biomedical experimental design and analysis and a course in research ethics are also required of all students. The first year includes three laboratory research rotations. (*See listing of Required Courses below.*) Students are guided through their first year of graduate study by a faculty mentor assigned by the program.

The mentor helps to identify rotation laboratories, provides advice on classes, and ensures that students reach appropriate milestones in the first year of the program. At the end of the first year, a preliminary student performance evaluation is conducted by the Program Steering Committee. When a student has successfully completed the preliminary evaluation and chosen a dissertation advisor, the student transfers into one of the degree-granting programs.

Evaluation following the first year is undertaken by the degree-granting program and includes course performance and a comprehensive exam at the end of the second year of study. The comprehensive exam is in the form of an original research proposal followed by an oral examination before a faculty committee. Upon successful completion of the comprehensive exam, the student nominates a dissertation advisory committee composed of a minimum of 5 members. A majority of the committee (including the major advisor) must have graduate faculty status. The student then presents a dissertation proposal to the committee and is admitted to candidacy. The training program is completed by execution of an original and independent research project and defending a dissertation. *Please see Regulations Pertaining to Doctoral Degrees.*

Required Courses-All Students

The following courses are required of all students in the Interdisciplinary Biomedical Graduate Program:

INTBP 2000 - FOUNDATIONS OF BIOMEDICAL SCIENCE

INTBP 2005 - FOUNDATIONS CONFERENCE

INTBP 2013 - D2K: FROM DATA TO KNOWLEDGE- BIOMEDICAL EXPERIMENTAL DESIGN AND ANALYSIS

INTBP 2290 - SCIENTIFIC ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH

INTBP 2010 - LABORATORY RESEARCH ROTATION

A minimum of 72 credits (32 course credits and 40 PhD dissertation research credits) beyond the baccalaureate degree is required for the PhD degree.

Scholarly Project

Background

Our mission, first and foremost, is to educate the finest clinicians and investigators. To be successful in either - or, in some cases, both - of these ventures requires nothing less than outstanding creativity and leadership. One needs to be creative as a clinician because, despite all of the advances we have made in medicine, it is still quite often a mystery and diagnoses are not always obvious. One needs to be creative as an investigator because

research, by its very nature, involves a quest for that which is hidden and, if discovered, constitutes one more bit of the vast, intricate puzzle we call life.

Implementation

For Pitt medical students since 2004, part of their training is to meet the new curricular requirement of formulating and completing a scholarly project of personal interest to them. The scholarly project was incorporated longitudinally throughout the curriculum as an indispensable component of medical education and has been broadly defined to provide a wide range of opportunities (including laboratory-based or clinical research experiences as well as less traditional choices) to appeal to individual students' interests and aspirations. The intent is to expose students to the mechanics of scientific investigation; teach them how to develop a hypothesis and how to collect, analyze, and interpret data to support it; encourage them to pursue research opportunities; and help them understand the structure of thought underlying the practice of medicine.

Among the program's distinctive elements are thorough preparatory course work designed to foster the skills that students need to conduct scholarly work successfully and an emphasis on developing technology to promote longitudinal reporting, learning, and mentorship. Many students initiate their scholarly project by participating in a summer research program, while others might take a year off to pursue an intensive research program at Pitt or elsewhere. Some students find the experience so rewarding that they consider a career as a physician-scientist. The goal in every case, however, is to enhance their ability to think independently, critically, and creatively and, thereby, become better equipped to practice medicine in the 21st century.

Outcomes

The class of 2008 was the first to complete the scholarly project experience. Students worked with mentors from virtually all medical school departments and an array of institutions across the US. Students chose their mentored research theme from a wide array of possibilities, from outcomes research to evolutionary molecular biology. The endeavors of this first graduating class resulted in 13 fellowships, grants, or other national awards; 20 School of Medicine awards; co-authorship of 42 peer-reviewed papers; and more than 46 national presentations and abstracts.

Students are able to be highly productive on scholarly projects during the four-year medical curriculum. These projects and their outcomes demonstrate the achievability of the scholarly project program goals, including development of in-depth knowledge in a focused area, the ability to synthesize and critically evaluate published work by others, and the generation and completion of new studies that advance the health sciences. The scholarly project represents a novel (and perhaps even prototypical) way to increase the number of medical students who pursue research-based careers or clinical careers grounded in evidence-based medicine. It endows all of our graduates with the confidence needed to be creative and analytical clinicians - and those are the kinds of doctors we want.

Adult Inpatient Medicine

Course Description

This 8-week interdisciplinary clerkship is divided into two blocks of 4 weeks each. During each block the student is assigned to an inpatient rotation at a local hospital. On the first day of each block students participate in case-based workshops led by faculty in Emergency Medicine and Geriatric Medicine. During this inpatient rotation, students are assigned their own patients and apply their clinical skills under resident and faculty supervision. Students learn how to take an accurate and pertinent history, conduct a physical examination, recognize patterns of illness, and acquire approaches to disease management. All students participate in four critical care medicine simulation sessions at the WISER Center, where they have hands-on experience evaluating and treating acute cardiopulmonary conditions.

The objectives of the course are that students should become able to:

1. outline the diagnostic evaluation and initial management of common medical symptoms.
2. demonstrate understanding of the historical features, physical examination findings and underlying pathophysiology of common medical conditions, and particularly of disease processes present in encountered patients.
3. formulate an appropriate differential diagnosis, and create and implement the diagnostic evaluation and therapeutic plan for encountered patients.
4. recognize the need for patient resuscitation and initiate appropriate initial treatment in unstable patients.
5. Clerkship locations include UPMC Montefiore, UPMC Shadyside, UPMC Mercy, and the VA Pittsburgh Healthcare System.

Educational Methods

- Inpatient patient care
- Case-based workshops
- Simulation sessions
- Lectures
- Student teaching attending conferences
- Standardized patient sessions

Evaluation

Each 4-week Clinical Block contributes 40% of the clerkship grade. The Clinical Block grades are from the evaluations of the ward attending (50% of the block grade), the student teaching attending (25% of the block grade), and the resident (25% of the block grade). The final written examination is a National Board of Medical Examiners subject exam that constitutes 20% of the clerkship grade.

Grading: The clerkship is graded Honors, High Satisfactory, Satisfactory, Low Satisfactory, Unsatisfactory.

Faculty Note

Clerkship Director Thomas Painter, MD, is a recipient of the Kenneth E. Schuit Master Educator Award. Clerkship Co-Director Melissa McNeil, MD, is a recipient of the Kenneth E. Schuit Master Educator Award, the Donald S. Fraley Award for Medical Student Mentoring, and multiple Excellence in Education Awards for Small Group Facilitator. Clerkship Co-Director Brian Heist, MD, is a recipient of the Clerkship Preceptor of the Year Award. Clerkship Co-Director Erika Hoffman, MD, is a recipient of the Clerkship Preceptor of the Year Award. Clerkship Co-Director Susan Dunmire, MD, is a recipient of the Provost's Innovation in Education Award; and multiple Clinical Educator of the Year Awards, Clinical Golden Apple Awards. Clerkship Co-Director Adam Yares, MD, is a recipient of the Sheldon Adler Award for Innovation in Medical Education. In addition, Drs. Painter, McNeil, Dunmire, and numerous clerkship faculty are members of the UPSOM Academy of Master Educators.

Neurology

Course Description

The Neurology Clerkship (3 weeks) integrates experience in neurology, neurosurgery, neuropathology, and neuroradiology. Clinical teaching with attendings and residents takes place in inpatient and ambulatory settings.

The objectives of the course are for students to be able to:

1. perform a detailed and focused neurologic history and physical exam.
2. describe the presentations, course, and treatment of common neurologic disorders.
3. understand and use tests to localize and diagnose neurologic diseases.
4. recognize and understand how to manage neurologic emergencies.

Clinical sites include Children's Hospital of Pittsburgh of UPMC, Magee-Womens Hospital of UPMC, UPMC Montefiore, UPMC Presbyterian, UPMC Shadyside, Shadyside Neurology Center, and the VA Pittsburgh Healthcare System.

Clinical experiences are augmented by a focused classroom curriculum that includes lectures, small group discussions, and case presentations. During the formative standardized patient encounters students refine their skills in neurologic assessment and patient management. Students also attend neuropathology workshops, and have the option of attending neurosurgery operating-room sessions.

Educational Methods

- Inpatient patient-care activities
- Ambulatory patient-care activities

- Workshops
- Medical record review
- Structured readings
- Standardized patient encounters
- Lectures
- Diagnostic imaging workshops

Evaluation

The Neurology clerkship grade is based on clerkship-preceptor evaluation (50% of the Neurology final grade), the National Board of Medical Examiners subject exam score (30%), the Neurology Patient Exam (10%), the Medical Record Review (5%), and professionalism (5%).

Grading: The clerkship is graded Honors, High Satisfactory, Satisfactory, Low Satisfactory, Unsatisfactory.

Faculty Note

Clerkship Director Laurie Knepper, MD, is a recipient of the Clerkship preceptor of the Year Award. Clerkship faculty Drs. Paula Clemens, John Doyle, Robert Kaniecki, and Angela Lu are also recipients of the Clerkship Preceptor of the Year Award.

Combined Ambulatory Medicine and Pediatrics

Course Description

This 8-week combined ambulatory course provides students with 4-week experiences in medicine and in pediatrics. During one half-day per week, students participate in a longitudinal curriculum that covers topics common to both disciplines. The clerkship curriculum is presented in an integrated fashion across both disciplines, and incorporates many cross-cutting themes, such as evidence-based medicine, health-care finance, tobacco cessation, women's health, geriatrics, wellness and prevention, and interpersonal communications.

The objectives of the course are that students should become able to:

1. assess the well patient in the ambulatory setting.
2. evaluate common acute clinical problems in the ambulatory setting.
3. participate in the longitudinal care of patients with chronic conditions.
4. incorporate cost-effective, age-specific, preventive strategies into routine care.

Students participate in patient care at offices and clinics throughout the region, including hospital-based sites and a variety of community-based locations, in generalist and/or specialist settings.

Educational Methods

- Ambulatory patient-care activities
- Critically appraised topic assignments
- Standardized patient sessions
- Multimedia modules
- Lectures
- Web-based CLIPP cases
- Structured readings
- Learning logs
- Workshops

Evaluation

Evaluation in this course is based on medicine preceptor evaluations (30%), pediatrics preceptor evaluations (30%), written exam (15%), standardized patient OSCE (15%), and professionalism (10%).

Grading: The Clerkship is graded Honors, High Pass, Pass, Low Pass, or Unsatisfactory.

Faculty Note

Clerkship Co-Director Elmer Holzinger, MD, is a recipient of the Chancellor's Distinguished Teaching Award, the Donald S. Fraley Award for Medical Student Mentoring, and the Clerkship Preceptor of the Year Award. Philip Kaleida, MD, is the recipient of multiple Provost's Innovation in Education Awards. Melissa McNeil, MD, is a recipient of the Kenneth E. Schuit Master Educator Award. Eric J. Anish, MD is the recipient of the Clerkship Preceptor of the Year Award. In addition, Clerkship Director Michael Elnicki, MD, and Drs. Holzinger, Kaleida, McNeil, Anish, and Phrampus are members of the UPSOM Academy of Master Educators.

Family Medicine

Course Description

The Family Medicine Clerkship is a 4-week rotation that encompasses the comprehensive and longitudinal care of patients with a special emphasis on care of individuals in the context of families and communities.

The objectives of the course are for students to:

1. demonstrate knowledge and implementation of comprehensive evidence-based, gender- and age-specific individualized care.
2. outline treatment strategies for the patient as a "whole person," addressing acute and chronic diseases, health promotion and disease prevention in the context of each patient's social, economic, cultural and religious background.
3. recognize the complex interactions among culture, literacy, community, race, age, gender, education, and language on an individual patient's experience with health care.

Students participate in patient care at offices and clinics throughout the region, including hospital-based sites and a variety of community-based locations.

Educational Methods

- Ambulatory and inpatient clinical experiences
- Case-based workshops
- Patient-centered medical home exercises
- Home visit and family and community assessment
- Clinical skills workshops
- Lectures
- Required readings

Evaluation

Evaluation in this course is based on evaluation of clinical performance by preceptors at community-based sites (70%), modified chart simulated recall oral exam (10%), written exam consisting of 50 multiple-choice items (10%), and documentation of family and community assessments (10%).

Grading: The clerkship is graded Honors, High Pass, Pass, Low Pass, Unsatisfactory.

Obstetrics and Gynecology

Course Description

This 4-week clerkship emphasizes health care for women of reproductive and postmenopausal ages. Students will rotate through three clinical segments, including outpatient services (emergency department, outpatient clinics and offices), obstetrics (labor and delivery suite), and gynecology (private service and university service). Daily schedules include teaching rounds, evaluation of outpatients, preparation of patients for surgery and assisting at surgery and deliveries, postoperative and postpartum care.

The objectives of the course are that students:

1. adequately perform a thorough and organized menstrual, obstetric, gynecologic, contraceptive and sexual history.
2. demonstrate competency in the performance of breast and pelvic exams.
3. recognize the presentation and course of common diseases specific to women.
4. demonstrate understanding of the physiologic changes of normal pregnancy.

The clerkship takes place at Magee-Womens Hospital of UPMC.

Educational Methods

- Inpatient patient care activities
- Outpatient patient care activities
- Workshops
- Lectures
- Structured readings
- Small group didactic sessions
- Conferences
- Grand Rounds

Evaluation

Evaluation of the clerkship is based on preceptor evaluations of clinical performance (50%); small group performance (25%); and a final exam consisting of multiple-choice, extended-matching, and short-answer questions (25%).

Grading: The clerkship is graded Honors, High Pass, Pass, Low Pass, Unsatisfactory.

Pediatric Inpatient Medicine

Course Description

This 4-week clerkship exposes students to inpatient pediatrics. Students are assigned to one pediatric inpatient team and participate in all aspects of patient care and management, including performing histories and physical examinations; writing progress notes; and communicating with other members of the medical team, attending physicians, referring physicians, consultants, families, and patients.

Students read the current literature and standard pediatric textbooks in order to understand childhood growth and development, and major pediatric disease processes and therapies. In addition, students attend conferences, lectures, and rounds that are held throughout the rotation.

During the inpatient rotation, students work as part of the floor medical team. Each student presents a clinicopathologic conference (CPC).

The objectives of the course are that the student will:

1. increase his/her knowledge base in pediatrics; specifically he/she will become familiar with anticipatory guidance, nutrition and common pediatric health problems.
2. develop an understanding of the growth and development unique to children, with particular attention paid to the attainment of developmental milestones as well as the effect of illness on the child's growth and development.

3. develop an understanding of the importance of psycho-social factors, their influence on a child's growth and development and various somatic complaints.
4. learn how to interview effectively the patients and their families and be able to adapt the interview to the particular age group and developmental level of the patient.
5. be able to obtain and organize a complete and relevant history.
6. develop basic skills in pediatric physical examination and will attain facility with the evaluation of infants, children, and adolescents.
7. enhance his/her problem-solving and critical-thinking skills and be able to develop a reasonable differential diagnosis, an appropriate assessment, and a coherent plan, using evidence whenever possible.
8. develop skills in both oral and written presentations and be able to present information in a succinct, organized manner.
9. develop an understanding of the therapeutic role of the patient-family-physician relationship.
10. explore ethical issues as they relate to the patient-family-physician relationship.
11. understand the roles of the pediatrician caring for hospitalized children.
12. demonstrate professional attitudes and behavior.

The clerkship takes place at Children's Hospital of Pittsburgh of UPMC.

Educational Methods

- Inpatient patient care activities
- CLIPP cases
- Workshops
- Lectures
- Structured readings
- Learning logs
- Conferences

Evaluation

Evaluation of the clerkship is based on preceptor evaluations (65%), participation/presentation at student morning report (10%), completing the required CLIPP cases (10%), and a multiple-choice, written exam (15%).

Grading: The clerkship is graded Honors, High Pass, Pass, Low Pass, Unsatisfactory.

Faculty Note

Clerkship Director Michael J. Decker, MD, is a recipient of multiple Clerkship Preceptor of the Year Awards.

Psychiatry

Course Description

The Psychiatry Clerkship is a five-week experience that mixes inpatient, ambulatory exposure to provide a broad view of behavioral health care. Students attend a neuropathology workshop and an AA/NA meeting. Students have the option of attending neurosurgery operating-room sessions and the psychiatric emergency room overnight. Integrated teaching sessions consist of psychiatry core material as supported by evidence-based medicine, involving topics that highlight clinical conditions common to these areas of medicine. Students also participate in formative standardized patient encounters, to develop higher-level skills in psychiatric assessment and patient management.

The objectives of the course are that students should become able to:

1. describe the presentations, course, and treatment of common neuropsychiatric disorders.

2. improve clinical skills by being observed by a faculty member while performing a history (focused or complete), neurological exam (focused or complete), and a psychiatric assessment (including mental status examination).
3. establish rapport and a therapeutic alliance with patients/families.
4. recommend, implement, and assess the benefits of common/important biopsychosocial treatments for specific disorders.

Educational Methods

- Inpatient patient-care activities
- Ambulatory patient-care activities
- Workshops
- Structured readings
- Standardized patient encounters
- Lectures

Evaluation

The Psychiatry Clerkship grading system is comprised of four components:

- Core Clinical Experience (50% of Final Grade)
- Reflective Statement (10%)
- Performance Based Video Exam (10%)
- National Board of Medical Examiners Exam (30%)

The clerkship is graded Honors, High Satisfactory, Satisfactory, Low Satisfactory, Unsatisfactory.

Faculty Note

Course Director Jason Rosenstock, MD, is a recipient of the Kenneth E. Schuit Master Educator Award, the Sheldon Adler Award for Innovation in Medical Education, and the Excellence in Education Award for Course Director. In addition, Dr. Rosenstock is a member of the UPSOM Academy of Master Educators and is the current chair of the UPSOM Curriculum Committee.

Specialty Care

Course Description

This 4-week clerkship is designed to provide students with the opportunity to see patients in specialty-care settings. Students hone their skills in the performance of focused histories and physical examinations, and participate in the development of a plan for the patients. Students rotate for one week each through the specialties of adult emergency medicine, pediatric emergency medicine, ophthalmology, and otolaryngology. They work closely with residents and faculty, and participate as the first point of contact for many patient encounters. In addition, there are workshops in select areas, including dermatology, detailed examination of the musculoskeletal system, suturing/splinting, and interpretation of electrocardiograms. A longitudinal didactic series focuses on topics in ophthalmology and otolaryngology.

The objectives of the course are that students should become able to:

1. perform an accurate and focused history and physical examination on acute, undifferentiated patients, based on presenting complaint and degree of urgency.
2. develop initial treatment plans for common conditions encountered in the Emergency Department.
3. recognize acutely dangerous health problems and prioritize decisions accordingly.
4. develop proficiency in the comprehensive ophthalmologic examination.
5. recognize common ophthalmologic conditions and describe their treatment.
6. recognize ophthalmologic emergencies.

7. develop proficiency in the comprehensive examination of the head and neck.
8. demonstrate an understanding of the presentation and treatment of common otolaryngologic conditions.

Sites for the clerkship include specialist settings in numerous offices and clinics throughout the region, and emergency departments at UPMC Presbyterian, UPMC Mercy, and Children's Hospital of Pittsburgh of UPMC.

Educational Methods

- Clinical experiences
- Lectures
- Workshops
- VpSim Online Cases

Evaluation

Evaluation in this course is based on adult emergency medicine preceptor evaluations (15%), ophthalmology preceptor evaluations (15%), otolaryngology preceptor evaluations (15%), pediatric emergency medicine preceptor evaluations (15%), one written exam composed of multiple-choice and short-answer questions (20%), learning logs (10%), and professionalism (10%).

Grading: The clerkship is graded Honors, High Pass, Pass, Low Pass, Unsatisfactory.

Faculty Note

Clerkship Co-Director Stephanie Gonzalez, MD is a recipient of the Donald S. Fraley Award for Medical Student Mentoring. Clerkship Co-Director David Eibling, MD, is a recipient of the Kenneth E. Schuit Master Educator Award and the Clinical Golden Apple Award. Clerkship Co-Director Evan Waxman, MD, PhD, is a recipient of the Kenneth E. Schuit Award and multiple Clerkship Preceptor of the Year Awards. In addition, Drs. Gonzalez, Eibling, and Waxman are members of the UPSOM Academy of Master Educators.

Surgery and Perioperative Care

Course Description

This 6-week clerkship covers the discipline of general surgery. Students are assigned to general surgery service (3 weeks) and a surgical specialty service (3 weeks). Teaching with attending physicians and residents occurs in conferences, on rounds, in the operating room, at the bedside, and in small groups.

The objectives of the clerkship are for students to:

1. explain the etiology, differential diagnosis and management of common diseases requiring surgical care.
2. recognize the need for routine, urgent and emergent surgical referrals.
3. demonstrate proficiency in common bedside procedures, and simple suturing.
4. demonstrate proficiency in the approach to preoperative evaluation of patients for surgery.

Additional goals include developing skills in the management of acute pain and postoperative complications. Overall the course is primarily designed to prepare students to assume the role of a primary care physician and to become familiar with the clinical presentations and management of common surgical problems.

Clinical sites include Children's Hospital of Pittsburgh of UPMC, Magee-Womens Hospital of UPMC, UPMC Montefiore, UPMC Presbyterian, UPMC Shadyside, UPMC Mercy, UPMC Passavant, and the VA Pittsburgh Healthcare System. Every student participates in hands-on simulation sessions at the WISER Center, where they gain experience in airway management and trauma resuscitation. The laparoscopic skills lab provides students with an opportunity to practice laparoscopic techniques on specialized simulators. During the mid-clerkship OSCE, students refine their skills in the evaluation of common surgical conditions.

Educational Methods

- Clinical experiences
- Lectures
- Workshops
- Simulations
- Oral presentations
- Conferences
- Ward rounds
- Standardized patient sessions (OSCE)
- Web-based palliative care modules

Evaluation

The Surgery evaluation is based on feedback from faculty and residents (70%), a National Board subject exam (20%), and two formal surgery case presentations (Walk Rounds and Saturday Case Conference, 10%).

Grading: The clerkship is graded Honors, High Satisfactory, Satisfactory, Low Satisfactory, Unsatisfactory.

Faculty Note

Clerkship Director Gregory A. Watson, MD, is a two-time recipient of the Clerkship Preceptor of the Year Award, and was honored with the 2016 Simmons Mentorship Award in Surgery. The former Clerkship Director Peter F. Ferson, MD, is a recipient of the Kenneth E. Schuit Master Educator Award, the Sheldon Adler Award for Innovation in Medical Education and the Clerkship Preceptor of the Year Award. In addition, Drs. Kevin Garrett, Giselle Hamad, Kenneth Lee, Andrew Peitzman, and Peter Ferson are members of the UPSOM Academy of Master Educators.

Preclerkship Course

Course Description

The overall goal of this course is for students to gain a basic knowledge and understanding of core topics that will prepare them to get the most from the clerkship experience.

Specific objectives include preparing students to:

1. recognize the requirements for successful completion of each clerkship rotation.
2. clearly communicate medical information in spoken and written form, and write progress notes, orders, and prescriptions.
3. learn the requirements for successful use of electronic medical records.
4. use information and educational technology to facilitate patient care.
5. function as an ombudsman for the patient's welfare.
6. initiate prompt treatment for acute medical problems, including performing CPR.
7. comprehend the basic approach to management of medical disasters and pandemics.
8. incorporate the tenets of the Honor Council into their daily behaviors.
9. recognize where to go to get help through the SHARP program.
10. complete N95 respirator testing and understand how to effectively use these protective devices.
11. initiate key actions after a blood or body fluid exposure.
12. follow basic infection control procedures against current pathogenic threats, such as MRSA and C. diff.
13. make appropriate referral to and utilization of the services of other members of the health care team.
14. understand the importance of and have respect for all members of the health care delivery team.
15. recognize the key roles of cooperation, collaboration, communication, and leadership in healthcare endeavors.

The course also includes sessions on various administrative necessities, such as pager use and tuberculosis testing, and gives an overall orientation to the clinical years.

The 34 faculty in this course are drawn from departments throughout the School of Medicine and from other health care disciplines and are assisted by fourth year medical students.

Educational Methods

- Lecture
- Workshops
- Pandemic simulation exercise
- Skills sessions
- Small-group cases
- Pre-class preparation exercises

Evaluation

Evaluation for this course is based on attendance and participation in the course sessions.

Grading: This course is graded Satisfactory / Unsatisfactory.

Faculty Note

Course Director Joe Suyama, MD, is a recipient of the Clerkship Preceptor of the Year Award. Course Director John Mahoney, MD, is a recipient of the Carnegie Science University/Post-Secondary Educator Award. Peter Ferson, MD; Donald Middleton, MD; Thomas Painter, MD; and Jason Rosenstock, MD, are recipients of the Kenneth E. Schuit Master Educator Award. In addition, Drs. Mahoney, Ferson, Middleton, Painter, and Rosenstock; Peter Bolova, MD; and Elmer Holzinger, MD, are members of the UPSOM Academy of Master Educators.

Geriatrics Course

Course Description

The Geriatrics course focuses on an interprofessional team approach to complex issues related to aging, which span the basic sciences, clinical acumen, and profound socioeconomic issues for our society. The course is intended to help medical students, as well as selected nursing and pharmacy students, understand the critical issues of aging, and the importance of team-based health care for geriatric patients in long term care facilities.

This course is placed in the curriculum at the mid-point of the third year, which is a unique teachable moment where students can benefit from focused instruction on key topics which are commonly encountered during the core clerkships.

The Geriatrics course is designed to provide students with the knowledge, skills, and experience to recognize and approach common problems in older adults in inpatient and outpatient settings as well as in the nursing home.

Specific objectives include preparing students to:

1. be aware of the great spectrum of health, functional, and cognitive states among individuals as they age.
2. be able to define the word geriatric syndrome, identify a patient with a geriatric syndrome, and develop a rational approach to the work-up and management.
3. be able to describe changes in pharmacologic parameters that occur with aging, obtain a medication history from a geriatric patient, and recognize common drug-related problems in older patients.
4. be able to discuss an approach to a patient with possible cognitive impairment including clinical exam, lab testing, and imaging.
5. be able to list treatments for dementia and describe their use.

6. be able to list hazards of hospitalization and strategies to minimize their occurrence.
7. be able to explain similarities and differences between assisted living, post-hospital rehabilitation, and a dementia unit, and the patient characteristics associated with each.
8. be able to describe the difficulties encountered during transitions of care.
9. be able to describe elements of a patient discharge plan with a focus on patient safety.
10. be able to conduct a basic functional and cognitive assessment of a patient.

The course faculty members are drawn from the Schools of Medicine, Nursing, and Pharmacy.

Educational Methods

- Lectures
- Clinical site visits
- Patient case sessions
- team-based assignments
- Workshops
- Small-group cases

Evaluation

Evaluation for this course is based on the course individual and group assignments, the course examination, and attendance and participation in the various course sessions.

Grading: This course is graded Satisfactory / Unsatisfactory.

Faculty Note

Robert Arnold, MD, is a member of the UPSOM Academy of Master Educators.

Assessment Week

Course Description

The overall goal of this course is to have students complete a series of structured assessments and participate in focused review sessions designed to enhance their preparation for the Step 2 Clinical Knowledge and Clinical Skills exams.

Specific objectives include:

1. Reviewing common important dermatological conditions and how to describe skin lesions
2. Reviewing common radiologic findings that every graduating student should know how to identify
3. Interpreting common and life-threatening EKG findings
4. Practicing with Step 2 CK exam questions to better understand content and timing of the exam
5. Practicing common clinical procedures often performed in acting internships
6. Reflect on personal strengths and opportunities for growth, as part of establishing one's own educational agenda for the senior year

Educational Methods

- Practice exams
- Skills sessions
- Small group cases

- Self-assessment sessions
- Standardized patient examination (OSCE)

Evaluation

Evaluation for this course is based on attendance and participation in the course sessions.

Grading

This course is graded Complete/Incomplete. Any session that is not attended must be made up before a grade of "Complete" will be registered on the transcript.

Faculty Note

Course Director Reed Van Deusen, MD, is a recipient of the Cohen Award for Excellence in Clinical Skills Instruction. Course Co-Director John Mahoney, MD, is a recipient of the Carnegie Science University/Post-Secondary Educator Award. In addition, Drs. Van Deusen and Mahoney are members of the University of Pittsburgh School of Medicine Academy of Master Educators.

Mini-Electives

Medical student curricula are packed with essential courses and content that all students must master, yet most students find time to pursue areas of personal interest. A goal of the recent curricular revision was to provide increased opportunities for such exploration and growth. We believe, and students confirm, that pursuing studies beyond the required curriculum helps students understand the connection between their basic science coursework and medical practice, and provides exposure to topics and specialties that cannot readily be included in the core curriculum. A mini-elective structure was developed to provide well-structured, rigorous and high quality experiences in areas not typically available to students (especially students in the pre-clinical years).

These courses are offered to any first- or second-year student who is able to commit to attending all course sessions, typically four to eight of them. Most mini-electives are only offered during the Spring Term of each academic year. Updates to the course list as well as date changes typically occur in the late Fall. An email is sent to students in early December announcing registration dates. Please note that the longitudinal mini-electives begin in the fall and registration for those mini-electives are made separately by contacting the course director listed on the course description.

Students who have other assigned academic commitments at the course times must meet those commitments. Therefore, some students may not be able to enroll in some mini-electives.

Course space is limited, based on the maximum number of students designated by the course director.

Students who successfully complete a mini-elective course will receive a certificate of completion. It will not be shown on their official University transcript.

For a complete list of courses, please click [here](#).

Additional questions about mini-elective courses should be directed to Betsy Nero in the Office of Medical Education at 412-648-9829 or betsy@medschool.pitt.edu.

School of Medicine Faculty

Name	Department	Rank	Primary Degree	Conferring School
Aarabi, Mahmoud	Pathology	Faculty.Professor.Assistant	M.D.	Shaheed Beheshti Medical University
Abdel Massih, Rima	Medicine	Faculty.Professor.Assistant	M.D.	Lebanese University
Abdel-Hamid, Hoda, Zakaria	Pediatrics	Faculty.Professor.Associate	M.D.	Cairo University
Abdelsamed, Hossam Aly	Surgery	Faculty.Professor.Research Assistant	Ph.D.	University of Tennessee Health Science Center
Abdulmajeed, Firas	Critical Care Medicine	Faculty.Professor.Assistant	M.B.Ch.B.	University of Baghdad/College of Medicine
Abebe, Kaleab, Z	Medicine	Faculty.Professor.Associate	Ph.D.	University of Pittsburgh
Abel, Taylor John	Neurological Surgery	Faculty.Professor.Assistant	M.D.	University of Washington
Abesamis, Michael, Gary	Emergency Medicine	Faculty.Professor.Assistant	M.D.	Wayne State University
Abo, Steven, R	Medicine	Faculty.Professor.Assistant	M.D.	Albert Einstein College of Medicine
Abou Daya, Khodor	Surgery	Faculty.Professor.Research Assistant	M.D.	American University of Beirut
Abrahamson, Eric, E	Neurology	Faculty.Professor.Research Assistant	Ph.D.	University of Pittsburgh
Abrams, Gordon, S	Radiology	Faculty.Professor.Associate	M.D.	University of Connecticut
Ackenbom, Mary Fleming	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	Ohio State University
Ackerman, Kurt	Psychiatry	Faculty.Professor.Associate	M.D.	University of Rochester
Adams, Phillip Scott	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	D.O.	LECOM
Agarwal, Vikas	Radiology	Faculty.Professor.Professor	M.D.	Boston University
Aggarwal, Nidhi	Pathology	Faculty.Professor.Associate	M.B.B.S.	University of Delhi
Aggarwal, Rohit	Medicine	Faculty.Professor.Professor	M.B.B.S.	University of Delhi
Agha, Mounzer, E	Medicine	Faculty.Professor.Associate	M.D.	Aleppo University
Agnihotri, Sameer	Neurological Surgery	Faculty.Professor.Assistant	Ph.D.	Unviersity of Toronto
Ahmad, Syeda Behjat	Medicine	Faculty.Professor.Assistant	M.D.	St. George's University School of Medicine
Ahmari, Susanne E.	Psychiatry	Faculty.Professor.Associate	M.D.	Stanford University
Ahmed, Bestoun H.	Surgery	Faculty.Professor.Associate	M.B.B.Ch.	Unviersity of Mosul
Ahmed, Hesham, Mohamed	Radiology	Faculty.Professor.Associate	M.B.B.Ch.	Zagazig University
Ahn, Jinwoo	Structural Biology	Faculty.Professor.Associate	Ph.D.	The Ohio State University

Name	Department	Rank	Primary Degree	Conferring School
Ahonen, Lia	Psychiatry	Faculty.Professor.Assistant	Ph.D.	Orebro University
Aird, Katherine Marie	Pharmacology and Chemical Biology	Faculty.Professor.Associate	Ph.D.	Duke University
Airik, Rannar	Pediatrics	Faculty.Professor.Assistant	Ph.D.	Hannover Medical School
Aiyer, Aryan, Narayan	Medicine	Faculty.Professor.Assistant	M.D.	Albert Einstein College of Med
Aizenman, Elias	Neurobiology	Faculty.Professor.Professor	Ph.D.	Johns Hopkins University
Aizenstein, Howard, Jay	Psychiatry	Faculty.Professor.Professor	M.D.	Univeristy of Illinois
Akilov, Oleg, Eugeniemich	Dermatology	Faculty.Professor.Assistant	M.D.	Ural State Medical Academy
Al Diri, Issam	Ophthalmology	Faculty.Professor.Assistant	Ph.D.	University of Utah
Al Ghouleh, Imad	Medicine	Faculty.Professor.Assistant	Ph.D.	McGill University
Al Hashash, Jana Ghazi	Medicine	Faculty.Professor.Assistant	M.D.	American University of Beirut
Alarcon, Louis, H	Surgery	Faculty.Professor.Professor	M.D.	University of Pittsburgh
Al-Bataineh, Mohammad Mahmmoud	Medicine	Faculty.Professor.Assistant	D.V.M.	Jordan University of Science and Technology
Albers, Kathryn	Neurobiology	Faculty.Professor.Professor	Ph.D.	SUNY at Stony Brook
Albright, Deborah Dawn	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Pittsburgh SoM
Alcorn, John, Francis, Jr	Pediatrics	Faculty.Professor.Professor	Ph.D.	Duke University
Alder, Jonathan Kimball	Medicine	Faculty.Professor.Assistant	Ph.D.	Johns Hopkins University SoM
Aldewereld, Zachary	Critical Care Medicine	Faculty.Professor.Assistant	M.D.	University of Alabama at Birmingham
Alexander, Peter	Orthopaedic Surgery	Faculty.Professor.Assistant	Ph.D.	Thomas Jefferson University
Alfaras-Melainis, Konstantinos	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	University of Crete Faculty of Medicine
Ali Pascoal, Tharick	Psychiatry	Faculty.Professor.Assistant	M.D.	Federal University of Pelotas
Alie-Cusson, Fanny S	Surgery	Faculty.Professor.Assistant	M.D.	University of Montreal
Alissa, Feras, Tawfiq	Pediatrics	Faculty.Professor.Associate	M.B.B.S.	University of Jordan
Alkawadri, MHD Rafeed	Neurology	Faculty.Professor.Associate	M.D.	University of Damascus
Al-Khafaji, Ali, H	Critical Care Medicine	Faculty.Professor.Professor	M.B.Ch.B.	Al-Mustansiriya University
Al-Khoury, Georges, Elie	Surgery	Faculty.Professor.Assistant	M.D.	Lebanese University
Al-Lahham, Tawfiq	Neurology	Faculty.Professor.Assistant	M.D.	Damascus Univ Med Sch

Name	Department	Rank	Primary Degree	Conferring School
Allen, Sarah Elizabeth	OB-Gyn & Reproductive Science	Faculty.Instructor.Visiting	M.D.	University of Alabama
Allen, Steven	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Tennessee Health Science Center
Allen, Timothy A	Psychiatry	Faculty.Professor.Assistant	Ph.D.	University of Minnesota
Alper, Cuneyt, Metin	Otolaryngology	Faculty.Professor.Professor	M.D.	Hacettepe University
Alper, Gulay	Pediatrics	Faculty.Professor.Professor	M.D.	Hacettepe University
Alsaied, Tarek	Pediatrics	Faculty.Professor.Assistant	M.D.	Damascus University Medical School
Altamirano-Espinoza, Alain	Psychiatry	Faculty.Instructor.Research	Ph.D.	CINVESTAV
Alter, Benedict	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	Washington University School of Medicine
Althouse, Andrew, D	Medicine	Faculty.Professor.Assistant	Ph.D.	University of Pittsburgh
Altschuler, Daniel, Leonardo	Pharmacology and Chemical Biology	Faculty.Professor.Associate	Ph.D.	University of Buenos Aires
Alvarado, John, J	Microbiology and Molecular Genetics	Faculty.Professor.Research Assistant	Ph.D.	Purdue University
Ambrose, Zandrea	Microbiology and Molecular Genetics	Faculty.Professor.Associate	Ph.D.	University of Washington
Ambrosio, Fabrisia	Physical Medicine & Rehabilitation	Faculty.Professor.Associate	Ph.D.	University of Pittsburgh
Amesur, Nikhil, B	Radiology	Faculty.Professor.Professor	M.D.	Tufts University School of Medicine
Amin, Priyanka R	Psychiatry	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Amin, Rajnikant, M	Pathology	Faculty.Professor.Associate	M.B.B.S.	Baroda Medical College
Anderst, William J.	Orthopaedic Surgery	Faculty.Professor.Assistant	Ph.D.	University of Pittsburgh
Andrescu, Carmen	Psychiatry	Faculty.Professor.Associate	M.D.	University of Medicine and Pharmacy
Andrews, Carol L.	Radiology	Faculty.Professor.Associate	M.D.	University of Utah
Andrews, Glenn S.	Radiology	Faculty.Professor.Assistant	M.D.	Eastern Virginia Medical School
Aneja, Rajesh, K	Critical Care Medicine	Faculty.Professor.Professor	M.B.B.S.	Christian Medical College
Anetakis, Katherine Melonakos	Neurological Surgery	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Angus, Derek	Critical Care Medicine	Faculty.Professor.Distinguished	M.B.Ch.B.	University of Glasgow SOM
Anish, Eric, J	Medicine	Faculty.Professor.Associate	M.D.	University of Pittsburgh

Name	Department	Rank	Primary Degree	Conferring School
Anslow, Melissa J	Pediatrics	Faculty.Professor.Assistant	M.D.	Temple University
Antonucci, Maria C	Pediatrics	Faculty.Professor.Assistant	M.D.	Ross University
Antony, Arun Raj	Neurology	Faculty.Professor.Associate	M.B.B.S.	Kerala University
Apetrei, Cristian	Medicine	Faculty.Professor.Professor	M.D.	University if Iasi
Apodaca, Gerard, L	Medicine	Faculty.Professor.Professor	Ph.D.	University of California
Aponte, Maria Camila	Psychiatry	Faculty.Professor.Assistant	M.D.	Pontificia Universidad Javeriana
Appleman, Leonard, J	Medicine	Faculty.Professor.Associate	M.D.	New York University
Arani, Keerthi Narasimhulu	Radiology	Faculty.Professor.Assistant	M.D.	University of Washingtontn
Arbely, Yael	Pharmacology and Chemical Biology	Faculty.Professor.Assistant	Ph.D.	The Hebrew University of Jerusalem
Arefan, Dooman	Radiology	Faculty.Instructor.Research	Ph.D.	Shahid Beheshti University
Arias, Valerie	Neurology	Faculty.Professor.Assistant	M.D.	University of Illinois College
Aridor, Meir	Cell Biology	Faculty.Professor.Associate	Ph.D.	Weizmann Institute of Science
Arjunan, Palaniappa	Pharmacology and Chemical Biology	Faculty.Instructor.Instructor	Ph.D.	Indian Institute of Science
Arnold, Georgianne L.	Pediatrics	Faculty.Professor.Professor	M.D.	SUNY
Arnold, Robert, M	Medicine	Faculty.Professor.Distinguished Service	M.D.	University of Missouri SOM
Aronis, Konstantinos	Medicine	Faculty.Professor.Assistant	M.D.	University of Patras Medical School
Arora, Gaurav	Pediatrics	Faculty.Professor.Associate	M.D.	Baylor College
Arslanian, Silva, A	Pediatrics	Faculty.Professor.Professor	M.D.	American University of Beirut
Arteel, Gavin E	Medicine	Faculty.Professor.Professor	Ph.D.	University of North Carolina
Arteel, Juliane Ingeborg	Medicine	Faculty.Professor.Assistant	Ph.D.	Heinrich Heine Universitat
Artsen, Amanda Michelle	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	Washington University School of Medicine
Ascherman, Dana, Preis	Medicine	Faculty.Professor.Professor	M.D.	Stanford Univ
Ashokkumar, Chethan, Shrvanabelagola	Surgery	Faculty.Professor.Research Assistant	Ph.D.	Mysore University
Atianand, Maninjay K	Immunology	Faculty.Professor.Assistant	Ph.D.	Albany Medical College
Atwood, Charles, W, Jr	Medicine	Faculty.Professor.Associate	M.D.	University of Albama School of Medicine

Name	Department	Rank	Primary Degree	Conferring School
Au, Alicia Ka Win	Critical Care Medicine	Faculty.Professor.Assistant	M.D.	Jefferson Medical College
Aung, Thandar	Neurology	Faculty.Professor.Assistant	M.B.B.S.	Institute of Medicine
Austin, Kelly Miller	Surgery	Faculty.Professor.Associate	M.D.	Temple University
Awais, Omar	Cardiothoracic Surgery	Faculty.Professor.Assistant	D.O.	New York College of New York
Ayoob, Joseph, C	Computational and Systems Biology	Faculty.Professor.Associate	Ph.D.	Johns Hopkins University
Azhdam, Devora Bitá	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Tel Aviv
Azzuqa, Abeer Aref	Pediatrics	Faculty.Professor.Associate	M.B.B.S.	University of Science & Tech
Babbar, Jatinder, Pal	Psychiatry	Faculty.Professor.Assistant	M.B.Ch.B.	University of Pune
Babcock, Melanie	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	Ph.D.	Albert Einstein College of Medicine
Badrane, Hassan	Medicine	Faculty.Professor.Research Assistant	Ph.D.	University Paris XI
Badylak, Stephen Francis	Surgery	Faculty.Professor.Professor	M.D.	Indiana University
Bae, Kyong, Tae	Radiology	Faculty.Professor.Professor	M.D.	University of Chicago
Baek, Dusan	Medicine	Faculty.Professor.Research Assistant	Ph.D.	University of Pennsylvania
Bagic, Anto, Ivo	Neurology	Faculty.Professor.Professor	M.D.	University of Zagreb Medical School
Bahar, Ivet	Computational and Systems Biology	Faculty.Professor.Distinguished	Ph.D.	Istanbul Technical University
Bai, Shoumei	OB-Gyn & Reproductive Science	Faculty.Professor.Research Assistant	Ph.D.	The Ohio State University
Bailey, Kelly Margaret	Pediatrics	Faculty.Professor.Assistant	M.D.,Ph.D.	West Virginia University
Bailey, Nathanael G.	Pathology	Faculty.Professor.Associate	M.D.	West Virginia University
Bain, William George	Medicine	Faculty.Professor.Assistant	M.D.	Columbia University
Baker, Evan, E	Pathology	Faculty.Professor.Assistant	M.D.	University of Pittsburgh School of Medicine
Baker, Nicholas	Cardiothoracic Surgery	Faculty.Professor.Assistant	M.D.	West Virginia University
Bakkenist, Christopher, James	Radiation Oncology	Faculty.Professor.Professor	Ph.D.	University of London
Balaban, Carey	Otolaryngology	Faculty.Professor.Professor	Ph.D.	University of Chicago
Baldisseri, Marie, R	Critical Care Medicine	Faculty.Professor.Professor	M.D.	University of Navarra
Balest, Arcangela Lattari	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Pittsburgh

Name	Department	Rank	Primary Degree	Conferring School
Ball, Ryan D.	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	University of Kentucky
Balsan, Michael, J	Pediatrics	Faculty.Professor.Associate	M.D.	Medical College of Wisconsin
Balzer, Jeffrey	Neurological Surgery	Faculty.Professor.Associate	Ph.D.	University of Pittsburgh
Bangert, Lauren R	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant	Ph.D.	University of North Carolina @ Chapel Hill
Banihashemi, Layla	Psychiatry	Faculty.Professor.Assistant	Ph.D.	University of Pittsburgh
Bansal, Amar Deep	Medicine	Faculty.Professor.Assistant	M.D.	New York University School of Medicine
Bansal, Anita	Immunology	Faculty.Professor.Research Assistant	Ph.D.	University of Alabama
Bantaganahalli Ningappa, Mylarappa	Surgery	Faculty.Professor.Research Assistant	Ph.D.	University of Mysore
Bao, Riyue	Medicine	Faculty.Professor.Research Associate	Ph.D.	Wayne State University
Barak, Yaacov	OB-Gyn & Reproductive Science	Faculty.Professor.Associate	Ph.D.	Weizman Institute of Science
Barbash, Ian Joseph	Medicine	Faculty.Professor.Assistant	M.D.	Harvard Medical School
Barnum, Jessie Lee	Pediatrics	Faculty.Professor.Assistant	M.D.	Creighton University School of Medicine
Barot, Niravkumar	Neurology	Faculty.Professor.Assistant	M.D.	Gujarat University
Barr, Karen P	Physical Medicine & Rehabilitation	Faculty.Professor.Associate	M.D.	Northeastern Ohio Universities
Barretto, Greg Alcantara Jr.	Pediatrics	Faculty.Professor.Assistant	M.D.	De La Salle University Health Sciences Institute
Barrie, Arthur, M, III	Medicine	Faculty.Professor.Assistant	M.D.	University of Cincinnati
Barrington, William, Walker	Medicine	Faculty.Professor.Professor	M.D.	Ohio State University College of Medicine
Bart III, Robert D	Critical Care Medicine	Faculty.Professor.Visiting Associate	M.D.	John A. Burns School of Medicine
Bartholow, Tanner Levi	Pathology	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Bartlett, Stacy	Family Medicine	Faculty.Professor.Assistant	M.D.	Brown University
Bastacky, Sheldon, Ira	Pathology	Faculty.Professor.Professor	M.D.	Case Western Reserve School of Medicine
Basu, Dipanjan	Pathology	Faculty.Professor.Research Assistant	Ph.D.	Visva-Bharati University
Bataller Alberola, Ramon	Medicine	Faculty.Professor.Professor	M.D.	University of Valencia

Name	Department	Rank	Primary Degree	Conferring School
Bates, Carlton, M	Pediatrics	Faculty.Professor.Professor	M.D.	Ohio State University
Batmanghelich, Kayhan	Biomedical Informatics	Faculty.Professor.Assistant	Ph.D.	University of Pennsylvania
Baty, Catherine, Jackson	Medicine	Faculty.Professor.Research Assistant	Ph.D.	North Carolina State
Baumann, Barbara, Lynn	Psychiatry	Faculty.Instructor.Research	Ph.D.	University of Pittsburgh
Bauza, Graciela Maria	Surgery	Faculty.Professor.Assistant	M.D.	Universidad Central del Caribe
Bayir, Hulya	Critical Care Medicine	Faculty.Professor.Professor	M.D.	Hacettepe University
Bazaz, Raveen, Raj	Medicine	Faculty.Professor.Assistant	M.B.B.S.	Grant Medical College
Beaman, Shawn, T	Anesthesiology and Perioperative Medicine	Faculty.Professor.Associate	M.D.	State University of New York
Bean, Allison C	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Bear, Todd, M	Family Medicine	Faculty.Professor.Assistant		
Beasley, Harley, Scott	Radiology	Faculty.Professor.Associate	M.D.	Indiana University
Becich, Michael, J	Biomedical Informatics	Faculty.Professor.Distinguished	M.D.	Northwestern University Medical School
Beck, Stacy L	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	University of Toledo
Beckel, Jonathan Maxwell	Pharmacology and Chemical Biology	Faculty.Professor.Research Assistant	Ph.D.	University of Pittsburgh
Becker, Devra B	Plastic Surgery	Faculty.Professor.Associate	M.D.	Washington University School of Medicine
Becker, Dorothy, J	Pediatrics	Faculty.Professor.Professor	M.B.B.Ch.	University of Witwatersrand Med School
Becker, James, T	Psychiatry	Faculty.Professor.Professor	Ph.D.	Johns Hopkins University
Becker, Jason Robert	Medicine	Faculty.Professor.Associate	M.D.	Tulane University
Bedoyan, Jirair Krikor	Pediatrics	Faculty.Professor.UCR Visiting Associate	M.D.	Wayne State University
Beerman, Lee, B	Pediatrics	Faculty.Professor.Professor	M.D.	University of Pittsburgh SOM
Beers, Sue, R	Neurological Surgery	Faculty.Professor.Professor	Ph.D.	University of Pittsburgh
Begum, Gulnaz	Neurology	Faculty.Professor.Research Assistant	Ph.D.	NIMHANS
Behari, Jaideep	Medicine	Faculty.Professor.Associate	Ph.D.	Sawai Man Singh Medical Center
Beigi, Richard, H	OB-Gyn & Reproductive Science	Faculty.Professor.Professor	M.D.	Hahnemann University

Name	Department	Rank	Primary Degree	Conferring School
Bell, Aaron, W	Pathology	Faculty.Professor.Research Assistant	Ph.D.	University of Pittsburgh School of Medicine
Bell, Phoenix D	Pathology	Faculty.Professor.Assistant	M.D.	St. George's University School of Medicine
Bell-Cheddar, Yolande Rena	Critical Care Medicine	Faculty.Professor.Assistant	M.B.B.S.	University of West Indies
Bellissimo, Daniel B.	OB-Gyn & Reproductive Science	Faculty.Professor.Associate	Ph.D.	Duke University
Benam, Kambez H	Medicine	Faculty.Professor.UCR Visiting Associate	Ph.D.	University of Oxford
Bender, Daniel Jeffrey	Psychiatry	Faculty.Professor.Assistant	D.O.	LECOM at Seton Hill University
Bender, Filitsa, H	Medicine	Faculty.Professor.Associate	M.D.	Aristotelian University SOM
Bendon, Robert William	Pathology	Faculty.Professor.UCR Visiting	M.D.	Hahnemann Medical College
Bennet, Kenneth	Radiology	Faculty.Professor.Assistant	M.D.	St. George's University
Benoit, Ronald, M, Jr	Urology	Faculty.Professor.Associate	M.D.	University of Pittsburgh School of Medicine
Benos, Panagiotis	Computational and Systems Biology	Faculty.Professor.Professor	Ph.D.	University of Crete
Benosman, Benjamin	Ophthalmology	Faculty.Professor.Professor	Ph.D.	University Pierre and Marie Curie
Berg, Jeremy Mark	Computational and Systems Biology	Faculty.Professor.Professor	Ph.D.	Harvard University
Berg, Wendie Anderson	Radiology	Faculty.Professor.Professor	M.D.	Johns Hopkins University
Berger, Jessica Layne	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	Medical College of Wisconsin
Berger, Rachel, Pardes	Pediatrics	Faculty.Professor.Professor	M.D.	Columbia College of Physicians & Surgeon
Bergman, Ira	Pediatrics	Faculty.Professor.Professor	M.D.	University of Chicago Pritzker SOM
Berlacher, Kathryn, L	Medicine	Faculty.Professor.Assistant	M.D.	The Ohio State University
Berliner, Jennifer, I	Medicine	Faculty.Professor.Assistant	M.D.	Yeshiva University
Berman, Sarah, Beth	Neurology	Faculty.Professor.Associate	M.D.	University of Pittsburgh
Bernstein, Cheryl, Denise	Anesthesiology and Perioperative Medicine	Faculty.Professor.Associate	M.D.	University of Rochester
Bernstein, Kara Anne	Pharmacology and Chemical Biology	Faculty.Professor.Associate	Ph.D.	Yale University

Name	Department	Rank	Primary Degree	Conferring School
Berry, Jessica Brooke	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant	M.CH.	University of Maryland School of Medicine
Bertocci, Michele Ann	Psychiatry	Faculty.Professor.Research Assistant	Ph.D.	University of Pittsburgh
Bertoni, Colleen Briana	Pediatrics	Faculty.Professor.Assistant	M.D.	SUNY
Bertrand, Carol, Ann	Pediatrics	Faculty.Professor.Research Assistant	Ph.D.	Case Western Reserve Univ
Best, Michael	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Betegon, Miguel	Ophthalmology	Faculty.Professor.Research Assistant	Ph.D.	University of California
Beverley, Rachel	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	Temple University
Bhargava, Rohit	Pathology	Faculty.Professor.Professor	M.B.B.S.	Sawai Man Singh
Bhatnagar, Sonika	Pediatrics	Faculty.Professor.Associate	M.D.	MCP Hahnemann University
Bhojak, Tejal, Jitendra	Psychiatry	Faculty.Professor.Assistant	M.D.	University of Bombay
Bhonsale, Aditya	Medicine	Faculty.Professor.Assistant	M.D.	Seth G.S. Medical College
Bhuiyan, Mohammad Iqbal Hossain	Neurology	Faculty.Professor.Research Assistant	Ph.D.	University of Science and Techonology
Bhushan, Bharat	Pathology	Faculty.Professor.Assistant	Ph.D.	University of Kansas
Bigley, Joel David	Urology	Faculty.Professor.Assistant	M.D.	West Virginia University
Biller, Aimee, Beth	Pediatrics	Faculty.Professor.Associate	M.D.	University of Pittsburgh
Billiar, Timothy, R	Surgery	Faculty.Professor.Distinguished	M.D.	University of Chicago Pritzker SOM
Bina, James E.	Microbiology and Molecular Genetics	Faculty.Professor.Professor	Ph.D.	University of British Columbia
Bina, Xiaowen Renee	Microbiology and Molecular Genetics	Faculty.Professor.Research Assistant	Ph.D.	University of British Columbia
Binder, Robert, Julian	Immunology	Faculty.Professor.Professor	Ph.D.	Fordham University
Binion, David, G	Medicine	Faculty.Professor.Professor	M.D.	SUNY
Binstock, Anna Berlyn	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	University of Maryland
Birder, Lori, Ann	Medicine	Faculty.Professor.Professor	Ph.D.	University of Pittsburgh School of Medicine
Birmaher, Boris	Psychiatry	Faculty.Professor.Distinguished	M.D.	Valle College of Medicine
Bisello, Alessandro	Pharmacology and Chemical Biology	Faculty.Professor.Professor	Ph.D.	University of Padova

Name	Department	Rank	Primary Degree	Conferring School
Bishop, Christine E	Pediatrics	Faculty.Professor.Assistant	M.D.	The Ohio State University
Bishop, Jonathan M	Critical Care Medicine	Faculty.Professor.Associate	M.D.	Ohio State University
Biswas, Partha Sarathi	Medicine	Faculty.Professor.Associate	Ph.D.	University of Tennessee
Bittencourt, Marcio Sommer	Medicine	Faculty.Professor.UCR Visiting Associate	M.D.	Parana's Federal University
Bitterman, Jason	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant	M.D.	University of Connecticut
Blair, Harry, Colbert	Pathology	Faculty.Professor.Professor	M.D.	Washington University
Blair, Kimberly, A	Psychiatry	Faculty.Professor.Associate	Ph.D.	George Mason University
Blasiolo, Brian	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	Pennsylvania State University
Bobrow, Michael Lorne	Radiology	Faculty.Professor.Assistant	M.D.	Drexel University College of Medicine
Bochkoris, Matthew, J	Critical Care Medicine	Faculty.Professor.Assistant	M.D.	Temple University
Boggs, Kristy D.	Pediatrics	Faculty.Professor.Research Assistant	Ph.D.	University of South Carolina
Boisen, Michael L.	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	University of Wisconsin-Madison
Boisen, Michelle M.	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	University of Wisconsin
Bolland, Monica, A	Anesthesiology and Perioperative Medicine	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Bomberger, Jennifer	Microbiology and Molecular Genetics	Faculty.Professor.Associate	Ph.D.	Michigan State University
Bonatti, Johannes	Cardiothoracic Surgery	Faculty.Professor.UCR Visiting	M.D.	Innsbruck University
Bond, Geoffrey, James	Surgery	Faculty.Professor.Assistant	M.B.B.S.	Sydney University
Bondarenko, Vasyl	Anesthesiology and Perioperative Medicine	Faculty.Instructor.Research	Ph.D.	B. Verkin Institute-National Academy of Sciences of Ukraine
Bondi, Corina, Oana	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant	Ph.D.	University of Texas
Bondi, Corry D	Medicine	Faculty.Professor.Research Assistant	Ph.D.	Duquesne University
BonHomme, Gabrielle, Rachele	Ophthalmology	Faculty.Professor.Assistant	M.D.	University of Pennsylvania
Bonidie, Michael, J.	OB-Gyn & Reproductive Science	Faculty.Professor.Associate	M.D.	University of Pittsburgh

Name	Department	Rank	Primary Degree	Conferring School
Bonifacino, Eliana	Medicine	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Boninger, Michael, Lee	Physical Medicine & Rehabilitation	Faculty.Professor.Professor	M.D.	Ohio State University College of Med
Bontempo, Franklin, A	Medicine	Faculty.Professor.Associate	M.D.	Hahnemann University SOM
Boone, David N.	Biomedical Informatics	Faculty.Professor.Assistant	Ph.D.	Vanderbilt University School of Medicine
Borghesi, Lisa, Ann	Immunology	Faculty.Professor.Professor	Ph.D.	University of Connecticut
Borrero, Sonya, B	Medicine	Faculty.Professor.Professor	M.D.	Case Western Reserve
Bostan, Andreea Christina	Neurobiology	Faculty.Professor.Research Assistant	Ph.D.	University of Pittsburgh
Both, Camila	Surgery	Faculty.Professor.Research Associate	M.D.	Catholic University of Sao Paulo
Boucek, Charles, D	Anesthesiology and Perioperative Medicine	Faculty.Professor.Associate	M.D.	Temple University SOM
Bovbjerg, Dana, H	Psychiatry	Faculty.Professor.Professor	Ph.D.	University of Rochester
Bowen, Susan Renee	Physical Medicine & Rehabilitation	Faculty.Professor.Assistant		
Boyce, Richard, David	Biomedical Informatics	Faculty.Professor.Associate	Ph.D.	University of Washington
Brackney, Christopher	Critical Care Medicine	Faculty.Professor.Assistant	D.O.	Arizona College of Osteo Medicine
Bradley, Megan Sara	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	University of Pittsburgh
Brancolini, Scott, A	Anesthesiology and Perioperative Medicine	Faculty.Professor.Associate	M.D.	Pennsylvania State College of Medicine
Brand, Randall, E	Medicine	Faculty.Professor.Professor	M.D.	University of Michigan
Brand, Rhonda, Metter	Medicine	Faculty.Professor.Associate	Ph.D.	University of Michigan
Branstetter, Barton, F	Radiology	Faculty.Professor.Professor	M.D.	Unviersity of California, San Diego
Brant, Emily	Critical Care Medicine	Faculty.Professor.Assistant	M.D.	Jefferson Medical College
Braverman, Erica	Pediatrics	Faculty.Instructor.Instructor	M.D.	Brown University
Brent, David, A	Psychiatry	Faculty.Professor.Distinguished	M.D.	Jefferson Medical College
Brieno-Enriquez, Miguel	OB-Gyn & Reproductive Science	Faculty.Professor.Assistant	M.D.	Universidad Autonoma de San Luis Potosi
Britton, Cynthia, A	Radiology	Faculty.Professor.UCR Visiting	M.D.	Pennsylvania State University College of Med
Brode, Susan, Elizabeth	Medicine	Faculty.Instructor.Instructor	M.D.	New York University School of Medicine

Name	Department	Rank	Primary Degree	Conferring School
Broniscer, Alberto	Pediatrics	Faculty.Professor.Professor	M.D.	Sao Paulo University Meidcal School
Brooks, Robert, C	Medicine	Faculty.Professor.Professor	M.D.	University of North Carolina
Brosenitsch, Teresa, A	Structural Biology	Faculty.Professor.Research Assistant	Ph.D.	Case Western Reserve University
Brothers, Kimberly, M	Orthopaedic Surgery	Faculty.Professor.Research Assistant	Ph.D.	University of Maine
Brown, Aaron M	Emergency Medicine	Faculty.Professor.Assistant	M.D.	University of Pennsylvania
Brown, Amanda Worf	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Tennessee
Brown, Charlotte	Psychiatry	Faculty.Professor.Associate	Ph.D.	American University
Brown, Joshua B	Surgery	Faculty.Professor.Assistant	M.D.	University of Rochester
Brown, Vanessa M	Psychiatry	Faculty.Professor.Assistant	Ph.D.	Virginia Tech
Bruder Do Nascimento, Thiago	Pediatrics	Faculty.Professor.Assistant	Ph.D.	University of Sao Paulo
Brufsky, Adam, M	Medicine	Faculty.Professor.Professor	M.D.	University of Connecticut SOM
Brummitt, Kelley Anderson	Orthopaedic Surgery	Faculty.Professor.Assistant	D.O.	Lake Erie College of Osteopathic Medicine
Bruno, Tullia C	Immunology	Faculty.Professor.Assistant	Ph.D.	Johns Hopkins University
Brzoska, Tomasz	Medicine	Faculty.Professor.Research Assistant	Ph.D.	Hamanatsu University School of Medicine
Buchert, Andrew, R	Pediatrics	Faculty.Professor.Assistant	M.D.	University of North Carolina
Buckanovich, Ronald J	Medicine	Faculty.Professor.Professor	M.D.	Cornell University Weill Medical College
Buckley, Martin S	Pharmacology and Chemical Biology	Faculty.Professor.Visiting Assistant	Ph.D.	Michigan State University
Buell, Thomas	Neurological Surgery	Faculty.Professor.Assistant		
Bueno Fernandez, Marta	Medicine	Faculty.Professor.Research Assistant	Ph.D.	University of Zaragoza
Buffer, Sam A Jr.	Medicine	Faculty.Professor.Assistant	M.D.	University of Pittsburgh SOM
Bui, Diemthuy, Duc	Medicine	Faculty.Professor.Associate	M.D.	Washington University School of Medicine
Buj Gomez, Raquel	Pharmacology and Chemical Biology	Faculty.Instructor.Research	Ph.D.	University of Barcelona and Germans Trias I Pujol Health Sciences Research Institute
Bukowinski, Andrew J.	Pediatrics	Faculty.Professor.Assistant	M.D.	University of Buffalo

School of Nursing

<http://www.nursing.pitt.edu/>

The School of Nursing was established as an independent school of the University by action of the Board of Trustees in April 1939 and was opened in September of the same year. The University conferred the degree Bachelor of Science in Nursing Education for the first time in August 1939. The University conferred the first Bachelor of Science in Nursing degrees in February 1942.

The first Master's degree was awarded in 1944, and the first Doctor of Philosophy degree in 1957. The first Doctorate of Nursing Practice degree was awarded in 2008

Mission

The University of Pittsburgh School of Nursing, founded in 1939, is one of the oldest programs in baccalaureate and doctoral education in nursing in the United States. As one of the nation's distinguished schools of nursing, the resources of the School constitute an invaluable asset for the intellectual, scientific, and economic enrichment of health care in Pennsylvania, the nation, and throughout the world.

The School of Nursing's mission is to:

- provide high-quality undergraduate education in nursing;
- maintain and develop superior graduate programs in nursing that respond to the needs of health care in general and nursing in particular within Pennsylvania, the nation, and the world;
- engage in research and other scholarly activities that advance learning through the extension of the frontiers of knowledge in health care;
- cooperate with health care, governmental, and related institutions to transfer knowledge in health sciences and health care;
- offer continuing education programs adapted to the professional upgrading and career advancement interests and needs of nurses in Pennsylvania; and
- make available to local communities and public agencies the expertise of the School of Nursing in ways that are consistent with the primary teaching and research functions and contribute to the intellectual and economic development in health care within the commonwealth, the nation, and the world.

Master's Program Admission Process and Admission Criteria

<http://www.nursing.pitt.edu/degree-programs/master-science-nursing-msn/msn-applicationadmission>

Applications are available online at www.nursing.pitt.edu. Admission criteria are described on the school's Web site (<http://www.nursing.pitt.edu/degree-programs/master-science-nursing-msn/msn-applicationadmission>). Complete applications will be reviewed and interviews (face to face or by telephone) will be conducted prior to an admission decision. The application deadlines are as follows: Fall Term admission June 15, Spring Term admission October 1, and Summer Term admission March 1. International students are advised to apply by the February 15 deadline. Applicants must apply online at Nursing Online Application.

Applications to the Master Program in nursing are reviewed by the faculty in the applicant's Major/Area of Concentration. Applicants must meet the criteria listed below. Qualified applicants are considered without regard to race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability, or status as a disabled veteran or a veteran of the Vietnam era.

Applicants must have:

- A baccalaureate degree in nursing from an ACEN, NLN, ACICS, or CCNE accredited program.
- Current RN license in U.S. state/territory or locale where student will complete clinical requirements.
- A GPA of 3.0 or higher in the undergraduate degree.
- A pre-admission interview. If the applicant resides at a great distance, a telephone interview may be conducted.
- Official scores on the Graduate Record Examination (GRE). The GRE may be waived if the GPA is 3.5 or higher.
- Pre-requisite statistics course with a grade of B- or better.
- Three letters of recommendation attesting to the applicant's capacity and potential for master's study from each of the following (these can be uploaded into the Nursing Online Application): the director or a faculty member from the most recent academic program attended (if applicant has been a nursing student in the last 5 years), a recent employer, and a person who can speak to the applicant's professional work.
- A typed essay (500-word minimum) stating your philosophy of nursing, reasons for wanting to study in a particular area of concentration, what you expect from the master's program, and your future career goals

RN-MSN

Applicants to the RN-MSN program must graduate from a CCNE, ACICS, ACEN or NLN accredited associate degree program or diploma school of nursing. A student may be admitted to the MSN program pending satisfactory completion of the 24 graduate bridge credits and completion of the BSN.

Doctor of Nursing Practice (DNP) Admission Process and Admission Criteria

<http://www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp>

Application

Pitt Nursing accepts applications for admission to all areas of the DNP Program via NursingCAS. Each applicant must complete and submit the following:

1. Complete official transcripts of **all** undergraduate and graduate education (sent by the institution at which courses were taken)
2. Official GRE Scores (per Admission Criteria)
3. Three letters of professional recommendation indicating the reviewer's support of the student's ability to successfully complete a demanding graduate level academic and clinical program. At least one recommendation should come from a current or recent direct supervisor. Before you submit your application, ask your references in which form they wish to submit their recommendation -- by paper or electronically. For both paper and electronic submission of recommendation letters, please follow the instructions outlined on NursingCAS.
4. Personal essay stating one's philosophy of nursing, reasons for wanting to study in a particular major or concentration, expectation of the DNP program, and future career goals. The essay should include a proposed area of interest for the DNP project.
5. Current CV or resume

Admission

You may apply to the DNP program at various points in your educational career. The school offers both *BSN to DNP* and *MSN to DNP* pathways; your choice will depend upon which degrees you previously earned and which majors/concentrations you select.

Students, who are currently enrolled in their last term of a BSN program, may apply to the BSN to DNP focus areas which do not require clinical experience beyond the BSN educational experiences. If offered admission, it would be contingent on the student's (1) successful completion of the BSN and (2) obtainment of the RN license.

BSN-prepared students, who are currently enrolled in their last term of a MSN or MS program in a related focus, may apply to the MSN to DNP pathway. If offered admission, it would be contingent on the student's (1) successful completion of the MSN or MS in a related focus and (2) fulfillment of all admission criteria.

The University of Pittsburgh School of Nursing admits a **FALL COHORT ONLY** to all DNP Program areas of concentration except the Nurse Anesthesia BSN to DNP major which admits a **SPRING TERM COHORT** only. The application deadlines for all areas are February 15th and May 1st. International students are advised to apply by the February 15th deadline. Complete applications received by February 15th will be reviewed and an admission decision will be made by June 1. Complete application received by the May 15th deadline will be reviewed and admission decisions made by June 30th.

Applicants must apply online at <https://nursingcas.liaisoncas.org/apply/>

Admission to the DNP Program

The DNP Program admits BSN graduates and, advanced practice nurses and nursing administrators who have completed a graduate degree in nursing from a CCNE, ACICS, or ACEN [NLN] accredited program in nursing.*

* BSN graduates with a master's in other areas may be considered for admission.

BSN to DNP

- Current RN license in U.S. state/territory or locale where student will complete clinical requirements
- ≥ 3.0 GPA in BSN (from ACEN [NLN], ACICS, or CCNE accredited program)
- GRE: Verbal & Quantitative sections (competitive scores), Analytical Writing (≥ 3)
- Pre-requisite statistics course with a grade B or better
- Clinical experience for select focus areas ** required or preferred for selected majors and concentrations

MSN to DNP

- Current RN license in U.S. state/territory or locale where student will complete clinical requirements
- ≥ 3.0 GPA in MSN from an accredited program or master's in related field (must have BSN from an accredited program)
- GRE: Verbal and Quantitative sections (competitive score), Analytical Writing (≥ 3)
(may be waived if MSN or master's in related field with GPA ≥ 3.5)
- Pre-requisite statistics course with a grade B or better
- Clinical experience for select focus areas**
- Nurse Anesthesia MSN to DNP (additional requirements)
 - 1) current Nurse Anesthetist certification in US state/territory or locale where student will complete the DNP Scholarly Project
 - 2) Minimum of 3.0 GPA in MSN or MS in Nurse Anesthesia from an accredited program

RN-DNP

Applicants to the RN-DNP program must graduate from a CCNE, ACICS or ACEN [NLN] accredited associate degree program or diploma school of nursing. A student may be admitted to the DNP program pending satisfactory completion of the 24 graduate bridge credits and completion of the BSN.

**Clinical Experience for Select Focus Areas

- **Neonatal NP:** Equivalent of 2 years full time (within last 5 years) nursing experience in the care of critically ill newborns, infants, and children in critical care inpatient settings (preferably Level III NICU) Students may enroll in pre-clinical courses while obtaining practice experience
- **Health Systems Executive Leadership:** 2 years of management experience preferred.
- **Nurse Anesthesia BSN to DNP:** Minimum of 1 year full-time ICU/critical care nursing experience (within last 5 years) by start of program (may apply if employed in ICU/critical care and will have required experience before admission term)

Doctor of Philosophy (PhD) Admission Process and Admission Criteria

<http://www.nursing.pitt.edu/degree-programs/doctor-philosophy-phd>

The PhD program follows a FALL TERM ONLY COHORT ADMISSIONS process. Applications to the PhD program are accepted on a rolling basis throughout the year and will receive an admission decision usually within 4-6 weeks of receiving completed application materials. Application decisions will be communicated electronically (by e-mail). Applicants must apply online at <https://nursingcas.liaisoncas.org/apply/>. The School offers BSN-PhD and MSN-PhD options, and a dual DNP/PhD option. Applicants are expected to be RNs. The School of Nursing also offers a currently matriculating BSN to PhD option, in which a student who has not yet completed the BSN can be admitted conditionally into the PhD program pending successful completion of their BSN. Interested applicants should contact the Student Affairs & Alumni Relations Office at 412-624-4586 for further information.

Admission to the PhD Program

Admission to the PhD program is assessed through interviews, references, standardized testing, an essay that provides a written statement of goals, and a second sample of writing ability. Documentation of academic success and achievement of competitive scores on the Graduate Record Examination (GRE) taken within the last five years are required.

The doctoral faculty strongly recommends that students develop knowledge of and experience with word processing, database management, and computerized literature searches prior to applying to the PhD program.

Length of Program

The post-master's full-time curriculum (MSN to PhD) is comprised of 48 credits minimum, and students may complete the program in a minimum time of approximately two and a half years depending on the nature and complexity of research for the dissertation. Twenty-four credits are granted from the prior master's program. For prior courses taken, an evaluation of the content of a course taken elsewhere must be approved by the Director of the PhD Program to determine its comparability with the coursework at the University of Pittsburgh. Students entering the MSN to PhD program will work with their academic advisor to conduct a gap analysis to review prior research-related coursework to determine if additional research core coursework is needed beyond that specified in the MSN to PhD curriculum plan. The part-time student may complete the program in three to four years. The statute of limitations for completion of the MSN to PhD track is eight consecutive calendar years from the first term of registration for credits that are in the required curriculum plan for the doctoral degree.

The BSN to PhD program requires 72 credits minimum. Students admitted to the BSN to PhD track are expected to enroll full-time, and the program can be completed in a minimum of three years, depending on the complexity of research for dissertation. Students are also encouraged to consider obtaining a simultaneous master's degree such as the Clinical Nurse Leader. The statute of limitations for completion of the BSN to PhD track is 10 consecutive calendar years from the first term of registration for credits that are in the required curriculum plan for the doctoral degree.

For more information, see Policy 208.

Doctor of Philosophy (PhD)

Doctor of Philosophy

The Doctor of Philosophy (PhD) program prepares nurse scholars who will discover and extend scientific knowledge that advances the science and practice of nursing and contributes to other disciplines. Graduates can assume leadership roles within research teams, health care systems, industry, and schools of nursing in academic institutions.

The PhD program of study provides a coherent series of courses, seminars, and discussions designed to develop in the student a mature understanding of content, methods, and values of the discipline of nursing and its relation to other fields. The curriculum includes courses in the philosophical underpinnings and theoretical foundations for research, and research design, measurement and intervention development. Courses also include advanced statistics, advanced quantitative methods, the responsibilities and activities of scientists, and the art and science of teaching and learning. Students work closely with research faculty members from nursing and other disciplines. Each student also participates in two mentored research

experiences. The first is the Apprenticeship Practica, wherein students affiliate with a mentor's established research team over time to explore the scientific literature, develop, plan, and implement an apprenticeship research project, and disseminate findings. This experience allows for the opportunity to acquire individualized and tangible research skills within a mentored application environment, which is additive to and precedes the dissertation experience. The second mentored research experience is the students' development and implementation of their independent dissertation project, culminating in dissertation defense. Students prepare and submit applications for competitive research funding.

Admission of Students from Other Countries (MSN, DNP, and PhD)

Students from other countries applying to the School of Nursing should apply using the same admissions process and admissions criteria described above. The application should be completed in English and be accompanied by official academic credentials with notarized English translations. Applicants must successfully complete the TOEFL, IELTS or Duolingo English Test (DET) if English is a second language. Applicants must also have a professional nursing license. The following links specify the licensure requirement for the MSN, DNP, and PhD programs. Applicants who need to apply for a professional nursing license are encouraged to visit the Pennsylvania State Board website which contains information for internationally educated nurses applying to take the NCLEX-RN examination.

Insurance and Health Care Requirements

All admitted students are required to submit a School of Nursing Initial Health Form with documentation of health insurance; and Act 33, 34 and 73 clearances prior to beginning their program of study. Once enrolled, students must submit the School of Nursing's Annual Health Form with verification of health insurance each year and have an annual influenza vaccination (unless a requested exemption is submitted and approved). Individual students must meet additional health requirements of clinical agencies such as drug testing. Current CPR certification is required prior to enrollment in all clinical courses. Students are required to carry health insurance for the duration of their study, which will cover payment for treatment and follow-up procedures related to injury or medical problems incurred during graduate study. The University of Pittsburgh makes insurance programs available to graduate students (see: <http://www.hr.pitt.edu/benefits/student-in>). All students admitted with full or provisional status are automatically enrolled in a University liability insurance policy annually which only covers a student acting within the scope of their duties as a student in the School of Nursing.

Financial Assistance

<http://www.nursing.pitt.edu/scholarship-opportunities>

The sources of awards and aid may include: professional nurse traineeships, graduate student assistant positions, graduate student researcher positions, teaching assistant positions, teaching fellow positions, school scholarships, pre- and postdoctoral training grant fellowships, federal Stafford Loans, private loans, and emergency aid.

Academic Policies

<http://www.nursing.pitt.edu/resources-students/policies>

All students in the School of Nursing are governed by School of Nursing and University policies. Therefore, it is essential that students regularly review and familiarize themselves with those policies, both general and graduate. Question about policies should be directed to the academic advisor or to their respective program, major or area of concentration director/coordinator. Policies of particular importance deal with admission criteria, registration processes, transfer of credits, clinical requirements, acceptable academic status, warning and probation, readmission, requirements for degree completion, academic integrity, unsafe clinical performance, and impaired clinical performance.

Advising

Each new student who is admitted to the graduate program is assigned a faculty advisor from the specific program, major or area of concentration to which the student is admitted. The faculty advisor provides initial orientation to the school, the University, and the program requirements. Each student is required to meet with their advisor prior to course selection and enrollment for each term. It is also recommended that they meet with their advisor at least one other time each term to review their academic progress and any other time they have questions or concerns about their program of study. The advisor is actively involved if there are academic concerns.

Students also can use the staff in the Student Affairs & Alumni Relations Office in the School of Nursing to obtain information about sources of financial aid, scholarships, school policies, registration, course availability, University resources, and community resources for help with personal problems. An online general orientation program is mandatory for all new students.

General Degree Requirements

To earn the Master of Science in Nursing (MSN), the Doctor of Nursing Practice (DNP) and Doctor of Philosophy (PhD), the student must demonstrate satisfactory academic achievement in required coursework prescribed by the curriculum with an overall academic achievement of a minimum Grade Point Average (GPA) of 3.00. Successful completion of a comprehensive examination is also required for the MSN, BSN to DNP and PhD in nursing. The DNP requires successful completion of a DNP project and the PhD requires successful defense of a dissertation.

Application for Graduation

Each candidate for graduation must file an official Application for Graduation in the Nursing Student Affairs & Alumni Relations Office at least three months before the degree is to be completed. A fee will be assessed after the deadline for application. All students must be registered for at least one credit during the 12 months prior to graduation and must be registered for at least one credit in the term in which they take their comprehensive examination. International students must be registered according to the conditions of their visa.

Major and Degree Options

The School of Nursing offers the following graduate degrees:

- The Master of Science in Nursing with majors and areas of concentration in the following areas:
 - Nurse Practitioner
 - Neonatal Nurse Practitioner* (no longer accepting applications as of December 2018)
 - Nurse Specialty Role
 - Clinical Nurse Leader
 - Nursing Informatics
 - School Nurse

**not currently accepting applications*

- The Doctor of Nursing Practice (DNP)
 - MSN to DNP Options
 - Nurse Practitioner
 - Adult-Gerontology Acute Care Nurse Practitioner
 - Adult-Gerontology Primary Care Nurse Practitioner
 - Family (Individual Across the Lifespan) Nurse Practitioner
 - Pediatric Acute Care Nurse Practitioner
 - Pediatric Primary Care Nurse Practitioner
 - Neonatal Nurse Practitioner
 - Psychiatric Mental Health Nurse Practitioner
 - Clinical Nurse Specialist
 - Adult-Gerontology (CNS)
 - Nurse Specialty Role
 - Health Systems Executive Leadership
 - Nurse Anesthesia
 - BSN to DNP Options
 - Nurse Practitioner
 - Adult-Gerontology Acute Care Nurse Practitioner
 - Adult Gerontology Primary Care Nurse Practitioner
 - Family (Individual Across the Lifespan) Nurse Practitioner
 - Pediatric Primary Care Nurse Practitioner
 - Neonatal Nurse Practitioner

- Psychiatric Mental Health Nurse Practitioner
- Clinical Nurse Specialist
 - Adult-Gerontology (CNS)
- Nurse Anesthesia
- Nurse-Midwife

The Doctor of Philosophy (PhD) in Nursing (including the BSN to PhD and MSN to PhD options.)

**not currently accepting applications*

Special Academic Opportunities/Programs

The School of Nursing offers a variety of special programs within its master's and doctoral programs:

Minors

Students in the Master's program, the DNP program and the PhD program have the option of completing a minor in nursing education, nursing informatics, nursing research, nursing administration, and gerontology for nurse practitioners, or health care genetics. The minimum credits required to obtain a minor is 9-12 credits.

Post-Professional Certificates

Post-professional certificates are available in nursing education, school nursing, health care genetics, nursing informatics, and gerontology for nurse practitioners, as well as an adult-gerontology acute care nurse practitioner, pediatric acute care nurse practitioner, neonatal nurse practitioner, and psychiatric mental health nurse practitioner. The certificate options require a minimum of 10 credits; additional credits may be required depending on the certificate program and previous graduate course work. All students admitted to a nurse practitioner certificate program must meet all curriculum requirements of the full graduate degree program, either through previous course work or credits earned during the certificate program. Individual review of transcripts will determine the exact number of credits needed to meet curriculum requirements.

Admission criteria for master's level certificate programs include:

Evidence of successful completion of MSN, DNP or other relevant first professional degree

Relevant work experience

Three letters of recommendation

Satisfactory interview with program faculty

Current RN license if the certificate program includes clinical experiences.

School of Nursing Faculty

School of Nursing Faculty

Program and Course Offerings

Certificate

Adult-Gerontology Acute Care Nurse Practitioner Certificate

Post-Professional Certificate in Adult-Gerontology Acute Care Nurse Practitioner

This non-degree certificate is designed for nurse practitioners or clinical nurse specialists with a previous Master of Nursing or Doctor of Nursing Practice who are seeking to expand their roles via nurse practitioner certification in Adult-Gerontology Acute Care. The total credits required are 24.

Overview

The Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) Post-Professional Certificate is designed for graduate prepared Nurse Practitioners (NP) or Clinical Nurse Specialists (CNS) who are seeking to expand their roles via nurse practitioner certification in Adult-Gerontology

Acute Care. The curriculum prepares nurse practitioners to function as generalist, principal providers of care for adults and older adults with acute, critical and complex chronic health problems across the continuum of acute care services.

AG-ACNP students may choose a clinical emphasis in cardiopulmonary, critical care, oncology, trauma and emergency preparedness or directed study. The directed study allows students to design clinical experiences around a particular area of interest (i.e. internal medicine, general surgery). The curriculum consists of NP and AG-ACNP specialty courses and clinical practice hours.

Graduates of the AG-ACNP Post-Professional Certificate are eligible to sit for a national nurse practitioner certification examination in Adult-Gerontology Acute Care offered by either the American Nurses Credentialing Center or American Association of Critical Care Nurses. Successful passing of the national certification examination entitles the graduate to apply for certification as a Certified Registered Nurse Practitioner (CRNP) in Adult-Gerontology Acute Care by the State Board of Nurse Examiners of the Commonwealth of Pennsylvania or by the Board of Nursing in the student's state of employment.

Curriculum Format

- Course work may be completed in 3 terms (or can be extended out to 5 terms of study)
- 540 clinical hours**
- Online or onsite
- Students are required to attend a 3-day onsite laboratory intensive, usually scheduled in the Summer term, 2nd term of study (availability of the lab intensive is pending current COVID travel restrictions). Each student will be responsible for transportation costs and for room and board costs during the lab intensive.
- Students will need to arrange for clinical placements and appropriate physician or nurse practitioner preceptors, as directed by their academic advisor.
- An Affiliation Agreement between the University and the clinical site is required before clinical hours can begin. This often takes some time to finalize, so applicants are highly encouraged to apply early and begin this process as soon as accepted into the program so that there will be no delay in beginning clinical rotations.

Program Outcomes

Graduates of the AG-ACNP Post-Professional Certificate are prepared to accomplish the following:

- Assume responsibility for promoting, maintaining and restoring health to acutely ill, critically ill and complex chronically ill adults and older adults
- Identify health risks, promote wellness, and diagnose and manage acute and chronic illness
- Participate in multi-disciplinary research and provide leadership in mobilizing health services

Admission Criteria

- Valid registered nurse license in state where clinical experiences are performed
- Minimum of one year nursing experience recommended
- BSN required
- Previous MS, MSN or DNP as a NP or CNS [from accredited program: ACEN, NLN, ACICS, or CCNE]
- GPA \geq 3.0 in the MS, MSN or DNP degree
- Pre-admission interview
- Complete online application
- *International applicants: see www.nursing.pitt.edu and www.ois.pitt.edu*
- Spring Term Admission Only

Courses with a "D" can be delivered synchronously via distance technology. Such courses are open only to qualified on-site, in-state students as per Policy 438

Curriculum (subject to change)

Spring

- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE
- NURNP 2100 - MANAGEMENT OF ADULT EPISODIC/CHRONIC HEALTH PROBLEMS IN ACUTE CARE THEORY

- or
- NURNP 2100D - MANAGEMENT OF ADULT WITH EPISODIC/CHRONIC HEALTH PROBLEMS IN ACUTE CARE THEORY
- NURNP 2101 - MANAGEMENT OF ADULT EPISODIC/CHRONIC HEALTH PROBLEMS IN ACUTE CARE CLINICAL
- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
- or
- NUR 2682D - HUMAN GENETICS AND CLINICAL APPLICATIONS

Summer Term

- NURNP 2104 - MANAGEMENT OF COMPLEX HEALTH PROBLEMS OF THE ACUTELY AND CRITICALLY ILL ADULT
- or
- NURNP 2104D - MANAGEMENT OF COMPLEX HEALTH PROBLEMS OF THE ACUTELY AND CRITICALLY ILL ADULT
- NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
- or
- NURNP 2526D - MANAGEMENT: GERIATRIC HEALTH
- NURNP 2028 - ROLE PRACTICUM *

Fall Term

- NURNP 2102 - MANAGEMENT OF COMPLEX HEALTH PROBLEMS OF THE ACUTELY AND CRITICALLY ILL ADULT 2
- or
- NURNP 2102D - MANAGEMENT OF COMPLEX HEALTH PROBLEMS OF THE ACUTELY AND CRITICALLY ILL ADULT 2
And one of the Clinical Emphasis* Clinical Courses

Choose one of the following*: (3 cr. each)

- NURNP 2105 - CLINICAL EMPHASIS - CARDIOPULMONARY
- NURNP 2106 - CLINICAL EMPHASIS - CRITICAL CARE
- NURNP 2107 - CLINICAL EMPHASIS - ONCOLOGY
- NURNP 2109 - CLINICAL EMPHASIS - DIRECTED STUDY
- NURNP 2194 - CLINICAL EMPHASIS: TRAUMA EMERGENCY PREPAREDNESS

Notes

Successful completion of the AG-ACNP Specialty Comprehensive Exam is required.

* Dependent on the individual's previous role, population of patients and years of experience as a nurse practitioner in an acute or critical care setting with adult/gerontology patients, up to 300 clinical hours may be completed through the option of credit by course examination.

The total credits required will vary based on evaluation of the student's previous coursework. Applicants must have completed courses in their prior MSN or DNP nurse practitioner program that meet the core course requirements to sit for the AG-ACNP certification examination (Advanced Pathophysiology across the Lifespan, Advanced Pharmacology across the Lifespan, Advanced Health Assessment across the Lifespan, and Health Promotion). Additional coursework may be required and/or credit may be given for previous coursework that meets the core curriculum requirements.

Total Credits: 24

Certificate in Gerontology for Nurse Practitioners

The online Post-Professional Certificate in Gerontology for Nurses Practitioners is a non-degree certificate designed for graduate-prepared Family, Adult Primary Care, Psychiatric Mental Health, and Adult Acute Care Nurse Practitioners who seek to increase their formal education as a principal provider of primary health care in the care of older adults.

The curriculum includes a total of 11 credits; five (5) credits of core advanced nursing practice and six (6) approved elective credits. The core advanced nursing practice courses are specifically designed to enable Nurse Practitioners to increase their capacity in the complex care of older adults. The curriculum includes a clinical practicum to provide students with the opportunity to synthesize and integrate concepts learned in the delivery of primary health care to older adults across a variety of settings.

Students will select six (6) credits of elective courses related to their career goals or interests (some taught through other departments).

Upon successful completion of all requirements students will receive a Certificate in Gerontology for Nurse Practitioners. Certificate in Gerontology for Nurse Practitioners will appear on the student transcript.

Graduates will increase their marketability across health care settings with expertise in geriatrics and will enhance their clinical practice to better meet the complex health care needs of our aging population.

Curriculum Format

- 100% online delivery (no onsite campus requirements)
- Part time (2-3 terms)
- 11 credits (students may add up to 180 hours of optional practicum in student's locale)
- Rolling admission

Program Outcomes

Graduates of the Certificate in Gerontology for Nurse Practitioners will be prepared to:

- Apply advanced knowledge about gerontology and geriatrics, and specialized knowledge of aging and the aging process
- Bring expertise to the NP role that includes the diagnosis and management of acute, chronic, and preventive health care needs of the older adult population
- Collaborate with and lead inter-disciplinary health care teams in the care of older adults.

Admission Criteria

- Current RN license in U.S. state/territory where student will complete practicum requirement
- ≥ 3.0 GPA in MSN or DNP as a Family, Adult Primary Care, Psychiatric Mental Health, or Adult Acute Care NP program from ACEN, NLN, ACICS, or CCNE accredited program
- Pre-admission interview
- Short essay

Core Advance Nursing Practice (Required): 5 Credits

- NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
- NURNP 2527 - ADVANCED MANAGEMENT: COMPLEX GERIATRIC HEALTH ISSUES

Electives: 6 Credits

Choose two courses from the following:

- GERON 2001 - ETHICS AND AGING
- GERON 2002 - PREVENTION AND HEALTHY AGING
- GERON 2004 - MENTAL HEALTH AND MENTAL ILLNESS IN LATE-LIFE
- GERON 2005 - PERSPECTIVES IN AGING
- GERON 2006 - MULTI-DISCIPLINARY ASPECTS OF DEMENTIA
- GERON 2008 - HUMAN PERFORMANCE, NUTRITION AND AGING
- GERON 2009 - AGING AND COMMUNICATION
- NURNP 2529 - GERONTOLOGY CLINICAL PRACTICUM

Total Credits: 11 cr.

Certificate in Health Care Genetics

Genetic based health care is routinely becoming a part of daily health care, having major impacts on patient diagnosis, prognosis and treatment. The Certificate in Health Care Genetics is designed for health care workers who are seeking focused, graduate-level education in the specialty of genetics. Knowledge gained through coursework will enable healthcare workers to better care for and educate their patients..

Admission Criteria

- Healthcare worker with a Bachelor's or Master's Degree
- GPA \geq 3.0 in the Bachelor's or Master's Degree
- Pre-admission interview
- Complete online application
- Fall, Spring, Summer Term Admission

Curriculum

This curriculum is currently only offered in person. The curriculum includes courses in genetics (taught through the School of Nursing) and choice of 3 courses related to the student's career goals or interests (taught through other departments in the Schools of the Health Sciences). Learning experiences may be enriched through Clinical Genetics Case Conferences, Human Genetics Research Seminar, Human Genetics Journal Club, Genetics Grand Rounds, and a Research Practicum in a molecular genetics laboratory.

- Full-time or Part-time (~ 3 terms)
- Electives (per approval of Coordinator) **9 cr.**
- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
or
- NUR 2682D - HUMAN GENETICS AND CLINICAL APPLICATIONS
- NUR 2681 - ADV TOPICS IN HUMAN GENETICS

Total Credits: 15

Program Outcomes

Graduates of the Certificate in Health Care Genetics are prepared to:

- Guide patients in their understanding of the genetic basis of disease as well as providing patient education and guidance in the areas of available genetic testing, interpretation of testing, recurrence risks, and genetic based therapies
- Provide advocacy for patients and families with genetic conditions
- Utilize family histories to determine disorders for which the patient is at risk
- Utilize a variety of resources to stay up to date with advances in genetic based medicine
- Determine when patient referral to a genetic professional is required
- Utilize a variety of resources to provide patients and their families with support mechanisms
- Interpret genetic research findings

Neonatal Nurse Practitioner Certificate

The Neonatal Nurse Practitioner (NNP) Post-Professional Certificate is designed for graduate prepared nurse practitioners who are seeking to expand their roles via nurse practitioner certification in neonatal critical care. The NNP is prepared to manage the health care of high-risk infants, their families and children up to 2 years of age. This expanded role is performed in collaboration with neonatologists and other pediatric clinicians. NNPs

are primarily employed in neonatal intensive care units (NICUs) and are involved in coordinating and managing care for infants with chronic health problems and providing continuity for these children from hospital to home.

The NNP curriculum provides students with course work and clinical experiences focusing on the care and management of critically ill and convalescent premature and full-term infants. The sequence of courses provides for a logical building of the clinical decision making skills necessary to function as a neonatal nurse practitioner. Clinical experiences may be in a variety of clinical settings, which include newborn nurseries, intensive care nurses of various levels and out-patient clinics.

Graduates are prepared to perform acts of medical diagnosis and prescribe medical therapeutics and corrective measures. In addition, the NNP selects and performs clinically advanced diagnostic and therapeutic invasive procedures on newborns in the intensive care setting.

Graduates are eligible for both legal certification as a Certified Registered Nurse Practitioner (CRNP) and prescriptive authority by the Commonwealth of Pennsylvania, as well as other states and national professional certification as an NNP offered by the National Certification Corporation.

Curriculum Format

- Full-time or part-time (length depends on prior academic preparation)
- 660 clinical hours (neonatal-specific)

Program Outcomes

Graduates of the Post-Professional NNP area of concentration are prepared to accomplish the following:

- Assume responsibility for promoting, maintaining, and restoring health to infants from the newborn period up to 2 years of age
- Identify health risks, promote wellness, and diagnose and manage acute and chronic illness
- Participate in quality improvement projects and provide leadership in mobilizing health care resources in the community

Admission Criteria

- A baccalaureate degree in nursing
- MSN or DNP preparation as a nurse practitioner from accredited program (ACEN, NLN, ACICS, or CCNE)
- Valid registered nurse license in state where clinical experiences are performed
- Equivalent of 2 years full-time, recent (within past 5 years) practice experience as a registered nurse in the care of critically ill newborns, infants or children in critical inpatient settings, primarily in Level III or IV NICU. Applicants must have acquired this experience or be currently employed in the indicated settings
- GPA>3.0 in MSN or DNP program
- Pre-admission interview
- Complete online application
- *International applicants: see www.nursing.pitt.edu and www.ois.pitt.edu*

Curriculum

- NURNP 2570 - COMPREHENSIVE NEONATAL ASSESSMENT THEORY
- NURNP 2571 - GENERAL MANAGEMENT OF THE SICK NEONATE - THEORY
- NURNP 2572 - GENERAL ASSESSMENT AND MANAGEMENT OF THE SICK NEONATE - CLINICAL
- NURNP 2028 - ROLE PRACTICUM
- NURNP 2573 - NEONATAL DISEASE PROCESS 1 - THEORY
- NURNP 2574 - NEONATAL DISEASE PROCESS 2 - THEORY

Total Credits: 25 (minimum) **

**The total credits required will vary based on evaluation of the student's previous coursework.

Nursing Education Certificate

The Post-Professional Certificate in Nursing Education combines didactic courses and two field-based practica in clinical and academic settings aligned with the student's interest. The online curriculum prepares students to apply instructional theory and research in the following types of educational settings and roles: schools of nursing, health care agency staff development, continuing education departments, advanced practice nursing and patient and community education agencies. The certificate involves the completion of 10 credits of coursework. The Nursing Education certificate is available to nurses with an MSN, DNP, or PhD.

Upon completion of the certificate, graduates with a valid RN license may be eligible to take the Certified Nurse Educator (CNE) Exam offered by the National League of Nursing (NLN). (Note: visit the NLN website for eligibility requirements).

Program Outcomes

Graduates of the Post-Professional Certificate in Nursing Education are prepared to:

- design current, progressive nursing education programs using research and theories of learning instruction, curriculum, evaluation, and measurement.
- utilize a variety of teaching strategies and media appropriate to learner characteristics, instructional objectives, and nursing or health-related content.
- plan the learning activities of individuals and groups of students in clinical and didactic settings.
- guide the performance of learners in settings where nurses function as educators for nurse colleagues, students, patients, families, and communities.
- apply principles of measurement and evaluation to the development of learner assessment procedures for didactic and educational instruction.
- utilize computer technology and educational informatics as integral components of nursing education and training.
- articulate the role of the nurse educator within the health professions, schools of nursing, and community.
- perform the role of education consultant in settings where nurses, patients, families, and communities participate in education activities.

Admission Criteria

- Valid registered nurse license in state where clinical practica are performed
- GPA \geq 3.0 from an MSN, DNP or PhD program
- Pre-admission interview with program coordinator
- International applicants: Applications from international students are reviewed according to the admission criteria stated above, and admissions deadlines for all programs are available online. The on-line application must be completed in English. See the School of Nursing International Applicants page for specific admission requirements and www.nursing.pitt.edu and www.ois.pitt.edu for additional information.
- Online application: Apply Now.

Curriculum Format Total 10 Credits (150 Practicum Hours)

- Part-time (~ 3-4 terms)
- Courses are taught online
- Fall or Spring admission.
- Three of the four required courses are to be completed in sequence and are offered once a year (NUR 3293 in Spring, NUR 2084 in Summer and NUR 2183 in Fall); the 4th required course (NURSP 2093) can be taken any term.
- Practica are arranged based on student's needs.
- Applicants must have the curriculum plan approved by the Nursing Education program coordinator.

Required courses and scheduled terms include:

- NURSP 2093 - EDUCATION AND MENTORING IN THE CLINICAL SETTING
(3 credits any term; 60 hours clinical)
- NUR 3293 - ART AND SCIENCE OF TEACHING AND LEARNING

- (2 credits Spring)
- NUR 2084 - MEASUREMENT AND EVALUATION IN TEACHING
(2 credits Summer)
- NUR 2183 - PRACTICUM: TEACHING IN ACADEMIC SETTINGS
(3 credits Fall; 90 hours clinical)

Total Credits: 10

Nursing Informatics Certificate

The Post-Professional Certificate in Nursing Informatics is a combination of cognitive science, computer science, information science, and nursing science. It includes the development, analysis, and evaluation of information systems that support, enhance and manage patient care. Informatics nurses are involved in practice, education, research, administration, and consultation and can work in public, private, or corporate settings. Career opportunities for graduates of this specialty are numerous.

The curriculum includes course work in introduction to informatics, clinical information systems, and project management. Practicums are designed to enhance the students' knowledge and skill set through active participation in a selected informatics role.

Curriculum Format

- Part-time (~ 4 terms)
- 240 practicum hours (minimum)
- 15 course credits
- Online only

Program Outcomes

Graduates of the Post-Professional Certificate in Nursing Informatics are prepared to:

- Analyze clinical information systems for adoption by healthcare systems
- Manage projects in a multidisciplinary integrated healthcare informatics environment
- Consult with companies in the design of healthcare information systems
- Plan and develop informatics applications for telehealth, consumer health, and community-based care

Admission Criteria

- Valid registered nurse license in state where clinical experiences are performed
- 3.0 or higher in MSN, DNP or higher nursing degree (from accredited program (ACEN, NLN, ACICS, or CCNE)
- Satisfactory resume
- Pre-admission interview
- Complete online application
- *International applicants: see Pitt's Office of International Services*
- Fall term admission

Admission of International Applicants

Applications from international students are reviewed according to the admission criteria stated above, and admissions deadlines for all programs are available online. The on-line application must be completed in English. See the School of Nursing International Applicants page for specific admission requirements for international applicants.

Curriculum

- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NURSP 2076 - CLINICAL INFORMATION SYSTEMS
- NURSP 2070 - INFORMATION TECHNOLOGY PROJECT MANAGEMENT
- NURSP 2085 - NURSING INFORMTCS PRACTICUM 1
- NURSP 2086 - NURSING INFORMTCS PRACTICUM 2

Total Credits: 15

Psychiatric Mental Health Nurse Practitioner Certificate

The Psychiatric Mental Health Nurse Practitioner Post-Professional Certificate is designed for graduate prepared Nurse Practitioners (NP) or Clinical Nurse Specialists (CNS) who are seeking to expand their roles via nurse practitioner certification in Psychiatric Mental Health Care.

The curriculum includes foundational and psychiatric care content providing students with the advanced practice skills to effectively manage persons with psychiatric disorders across the lifespan. Emphasis is placed on psychobiologic diagnosis and treatment, including psychotherapies for these individuals and their families to promote mental health and prevent subsequent mental disorders.

Clinical experiences are designed so that students provide comprehensive management to psychiatric clients with mental illness in intensive and varied clinical experiences. Culminating clinical management practice provides students with the opportunity to synthesize and integrate concepts from primary health care with their psychiatric knowledge base.

Graduates are eligible for national certification offered by the American Nurses Credentialing Center (ANCC) and legal certification as a CRNP and prescriptive authority through the State Board of Nursing of the Commonwealth of Pennsylvania.

Curriculum Format

- Full-time or part-time (length depends on prior academic preparation)
- 640 clinical hours (length depends on prior academic preparation)

Program Outcomes

Graduates of the PMHNP are prepared to accomplish the following:

- Provide comprehensive care to psychiatric clients
- Conduct psychotherapies for psychiatric clients and their families

Admission Criteria

- Valid registered nurse license (all students must obtain a Pennsylvania license)
- Previous MS or MSN as a NP or CNS (from accredited program (ACEN, NLN, ACICS, or CCNE)
- GPA \geq 3.0 in the MS or MSN degree
- Official GRE scores (may be waived if GPA \geq 3.5)
- Minimum of one year nursing experience recommended
- Prerequisite statistics course (within 10 years) with a grade of B- or higher
- Pre-admission interview
- Complete online application
- International applicants: see www.nursing.pitt.edu and www.ois.pitt.edu
- Rolling admissions

Curriculum

*Courses with a "D" can be delivered synchronously via distance technology. Such courses are open only to qualified on-site students as per Policy 438.

- NURNP 2026 - ROLE SEMINAR 1
or
- NURNP 2026D - ROLE SEMINAR 1

- NURNP 2029 - ROLE SEMINAR 2
or
- NURNP 2029D - ROLE SEMINAR 2

- NURNP 2320 - NEUROBIOLOGY OF PSYCHIATRIC DISORDERS

- NURNP 2325 - PSYCHOPHARMACOLOGY

- NURNP 2330 - PSYCHIATRIC DIAGNOSIS THEORY

- NURNP 2331 - PSYCHIATRIC DIAGNOSIS PRACTICUM
- NURNP 2340 - MANAGEMENT OF ACUTE HEALTH PROBLEMS OF PSYCHIATRIC PATIENTS
- NURNP 2341 - MANAGEMENT PRACTICUM OF ACUTE HEALTH PROBLEMS OF PSYCHIATRIC PATIENTS
- NURNP 2345 - MANAGEMENT OF CHRONIC HEALTH PROBLEMS OF PSYCHIATRIC PATIENTS
- NURNP 2346 - MANAGEMENT PRACTICUM CHRONIC HEALTH PROBLEMS OF PSYCHIATRIC PATIENTS
- NURNP 2520 - MGT: PEDIATRIC HEALTH THEORY
or
- NURNP 2520D - MGT: PEDIATRIC HEALTH THEORY
- NURNP 2521 - MANAGEMENT: PEDIATRIC HEALTH CLINICAL
- NURNP 2540 - PEDIATRIC WELL CHILD CARE THEORY
or
- NURNP 2540D - PEDIATRIC WELL CHILD CARE THEORY
- NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
or
- NURNP 2526D - MANAGEMENT: GERIATRIC HEALTH
- NURCNS 2352 - FAMILY THEORY/THERAPY TECHNIQUES / NURCNS 2353 - FAMILY THERAPY ROLE SEMINAR AND CLINICAL PRACTICUM
- NURCNS 2354 / NURCNS 2354D - INDIVIDUAL PSYCHOTHERAPY THEORY * / NURCNS 2355 - INDIVIDUAL PSYCHOTHERAPY PRACTCM

School Nurse PK-12 Certificate -online

Currently in Pennsylvania, completion of an approved **School Nurse PK- 12 Certificate** program is required to practice as a school nurse. The School Nurse PK-12 Certificate fulfills the educational requirements for the School Nurse Certificate (Education Specialist 1) issued by the PA Department of Education (PDE).

This online School Nurse PK-12 Certificate from the School of Nursing, a 15-credit (three-term) curriculum, is designed for graduates of BSN programs and students and/or graduates of MSN, DNP, or PhD programs. This program will prepare registered nurses to meet the health needs of children of all ages in diverse school settings. The curriculum includes a School Nurse Seminar course which covers the true essentials of school nursing, taught by a certified school nurse. Practicums are completed in diverse elementary and secondary school settings including special needs students. Three nurse practitioner courses enhance student's knowledge of health promotion and disease prevention in culturally diverse populations and their skills in physical assessment and working with psychiatric conditions.

Upon completion of the School Nurse Certificate curriculum, you will be eligible to apply for the School Nurse PK-12 Certificate (Education Specialist 1) issued by the Pennsylvania Department of Education (PDE). In addition to meeting PDE educational requirements, Pennsylvania requires certified school nurses to have a BSN and a valid RN license. (Visit education.pa.gov or your home state's Board of Nursing website for state-specific requirements.)

Program Outcomes

- Graduates of the School Nurse Certificate will be prepared to apply nursing knowledge, skills, and abilities in the care of school age children in diverse elementary and secondary school settings.
- This program will help prepare school nurses who in the future may decide to take the National Certification Examination for School Nurses (NCSN). You must have completed 1000 hours working as a school nurse. This test is administered by the National Board for Certification of School Nurses (NBCSN).

Admission Criteria

- Pre-admission Interview

- Current RN license in U.S. state/territory or location where student will complete clinical requirements
- ≥ 3.0 GPA in BSN or higher nursing degree from an ACEN, ACICS, CCNE, or NLN accredited program
- Current Criminal Record Clearance (ACT 34 and ACT 73)
- Current Pennsylvania Child Abuse History Clearance (ACT 33)
- Current American Heart Association - BLS Healthcare Provider Course Certification
- Online application
- Application Deadlines: August 1 (Fall Term), December 1 (Spring Term), and April 1 (Summer Term)

Curriculum Format

- Online* (no on-site campus requirements)
- Full-time (3 terms) / Part-time (varies)
- 15 credits (includes 120 practicum hours with a Certified School Nurse)
- Fall, Spring and Summer Term admission

Curriculum

- NUR 2176 - SEMINAR SCHOOL NURSE
- NUR 2179 - PRACTICUM SCHOOL NURSE
- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
- NUR 2031 - THE DIAGNOSTIC PHYSICAL EXAM ACROSS THE LIFE SPAN
- NURNP 3025 - DIAGNOSIS AND MANAGEMENT OF PSYCHIATRIC CONDITIONS IN PRIMARY CARE

Total Credits: 15

Doctoral

DNP

- Clinical Nurse Specialist
- Nurse Practitioner
- Nurse Specialty Role
- Nurse-Midwife, BSN to DNP
- Nursing Anesthesia

Nurse Anesthesia BSN to DNP Concentration

The University of Pittsburgh Nurse Anesthesia BSN to DNP Degree Program prepares registered nurses for entry into anesthesia practice. Through an integrated program of classroom and clinical instruction, students develop the didactic knowledge base and clinical skills necessary for safe and effective practice. Graduates are prepared to administer a full range of anesthetics to a wide variety of patients across the life span.

Students progress through a series of structured and scaffolded classroom and laboratory learning activities prior to embarking upon clinical learning experiences. Students rotate through numerous clinical sites in Pittsburgh and around the region including the UPMC hospitals, which are nationally known for surgical innovation, trauma medicine, organ transplantation, evidence-based anesthesia practice, research, and biomedical technology. Rotations include specialized experiences in cardiothoracic, neurosurgical, dental, regional anesthesia, organ transplantation, pediatrics, obstetrics, burns, and pain management. An array of additional clinical opportunities in community environments and other unique settings help to enrich the curriculum and prepare the graduate for the full scope of anesthesia practice. Upon completion, graduates are well-prepared to safely manage simple-to-extremely complex patients across the lifespan.

Nurse Anesthesia Curriculum

The nurse anesthesia program doctoral curriculum is offered in a full time format over 36 months (9 terms) and classes begin each January. The curriculum consists of 84 credits (class and clinical). After the first two terms, the curriculum design integrates classroom and clinical experiences. The curriculum consists of 39 core credits and 45 anesthesia specialty credits.

Clinical practice begins as two days/week in the third term and increases in both frequency and intensity throughout the course of study. Course work in the final year includes completion of the DNP scholarly project and preparation for the DNP Program Comprehensive Examination, the specialty area Comprehensive Exam, the NBCRNA Self Evaluation Exam and the National Certification Examination. Anesthesia classes are typically held during daylight hours and students with core courses scheduled both during the daylight and evening hours. In either case, student clinical schedules will be adjusted accordingly to maximize success.

Candidates who have been accepted for admission are assigned a faculty advisor and can discuss enrolling in approved DNP core courses prior to entering the full-time curriculum. This allows the student to lessen future academic requirements within the full time program. (note: we recommend meeting with a counselor from the Office of Financial Aid in order to review the financial aid implications of taking coursework prior to the full-time start)

Anesthesia BSN to DNP Program: Sample Full Time Curriculum

Spring Term (YR 1)

- NURSAN 3785 - INTRODUCTION TO THE NURSE ANESTHETIST ROLE
- NUR 2011 - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
- NUR 3099 - THE SCIENCE OF HEALTH CARE DELIVERY
- NUR 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE

Summer Term (YR 1)

- NUR 2034 - ADVANCED PHARMACOLOGY ACROSS THE LIFESPAN
- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
- NUR 2031 - THE DIAGNOSTIC PHYSICAL EXAM ACROSS THE LIFE SPAN
- NUR 3013 - ETHICS IN HEALTHCARE
- NUR 3031 - METHODOLOGIES FOR DNP PROJECTS

Fall Term (Yr 1)

- NURSAN 3786 - BASIC PRINCIPLES OF ANESTHESIA
- NURSAN 3787 - BASIC PRINCIPLES OF ANESTHESIA LAB
- NURSAN 3788 - CHEMISTRY AND PHYSICS IN ANESTHESIA
- NURSAN 3789 - PHYSICAL DIAGNOSIS- ANESTHESIA
- NURSP 2388 - DATABASE MANAGEMENT
- NURSAN 3790 - BASIC CLINICAL CARE 1: INTRO TO TECHNOLOGY, MONITORING, AND PRACTICE

Spring Term (YR 2)

- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
- NUR 3032 - DATA ANALYSIS FOR DNP PROJECTS
- NURSAN 3791 - ADVANCED PRINCIPLES ANATOMY, PHYSIOLOGY & PATHOPHYSIOLOGY 1
- NURSAN 3751 - TEAM TRAINING IN PATIENT SAFETY
- NURSAN 3792 - BASIC CLINICAL CARE 2: BASIC PRE-OPERATIVE, INTRAOPERATIVE, AND POST-OPERATIVE CARE

Summer Term (YR 2)

- NURSAN 3793 - ADVANCED PRINCIPLES OF ANESTHESIA 1

- NURSAN 3795 - ADVANCED PRINCIPLES OF ANATOMY, PHYSIOLOGY, AND PATHOPHYSIOLOGY 2
- NURSAN 3796 - ADVANCED PHARMACOLOGY FOR NURSE ANESTHETISTS
- NURSAN 3797 - ADVANCED CLINICAL CARE 1: PAIN MANAGEMENT, ULTRASOUND, REGIONAL ANESTHESIA, PEDIATRICS, & OBSTETRIC

Fall Term (YR 2)

- NURSAN 3798 - ADVANCED PRINCIPLES OF ANESTHESIA 2
- NURSP 2062 - ORGANIZATIONAL AND SYSTEMS MANAGEMENT FOR HEALTHCARE LEADERS
- NUR 3012 - PUBLIC POLICY IN HEALTH CARE
- NURSAN 3800 - NURSE ANESTHETIST ROLE SEMINAR
- NURSAN 3801 - ADVANCED CLINICAL CARE 2: CARDIOTHORACIC, CARDIOVASCULAR AND VASCULAR

Spring Term (YR 3)

- NURSP 2099 - FINANCIAL, BUSINESS, AND ECONOMICS DRIVERS IN HEALTHCARE MANAGEMENT
- NURSAN 3802 - ADVANCED PRINCIPLES OF ANESTHESIA 3
- NUR 3036 - CAPSTONE PROJECT
- NURSAN 3803 - ADVANCED CLINICAL CARE 3: NEUROSURGICAL, TRAUMA, AND EMERGENCY

Summer Term (YR 3)

- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NUR 3037 - DNP PROJECT CLINICAL
- NUR 3052 - MANUSCRIPT DEVELOPMENT
- NURSAN 3804 - ADVANCED CLINICAL CARE 4: SYNTHESIS OF PERIOPERATIVE CARE

Fall Term (YR 3)

- NURSAN 3805 - COMPREHENSIVE ANESTHESIA REVIEW SEMINAR
- NURSAN 3806 - TRANSITION TO CLINICAL PRACTICE

Total Credits: 84

Nurse Anesthesia MSN to DNP Concentration

This on-line, practice-focused 36 credit doctoral program will prepare nursing leaders for the highest level of clinical nursing practice beyond the initial preparation in the discipline. Applicants will be CRNAs with a master's degree. Throughout the program students will develop clinical, organizational, economic, and leadership skills. Specialty focused and core courses of the University of Pittsburgh School of Nursing Nurse Anesthesia Program MSN to DNP curriculum will focus on evidence-based practice, organizational and systems leadership, informatics, health care policy and finance, patient safety and population health, interprofessional collaboration for improving patient and population health outcomes and genetics and molecular therapeutics.

Directed cognates may be used to expand upon the students' knowledge base within the DNP project focus area. The program will culminate in a DNP project that reflects the synthesis and application of knowledge gained throughout the curriculum. Project areas will include quality improvement projects, policy analysis, clinical demonstration projects, clinical program development and projects focused on improved patient care and safety.

A sample program plan for full time study is provided below. Depending on courses completed during the previous MSN program, additional coursework may be required.

Anesthesia MSN to DNP Program online: Sample Full Time Curriculum

<http://www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp/crna-msn-dnp-nurse-anesthesia-curriculum-online>

Fall Term (YR 1)

- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE
- NUR 3099 - THE SCIENCE OF HEALTH CARE DELIVERY
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS

Spring Term (YR 1)

- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
- NUR 3031 - METHODOLOGIES FOR DNP PROJECTS

Summer Term (YR 1)

- NURSAN 3782 - DIRECTED SEMINARS IN NURSE ANESTHESIA PRACTICE
- NURSP 2092 - LEADERSHIP DEVELOPMENT

Fall Term (YR 2)

- NUR 3032 - DATA ANALYSIS FOR DNP PROJECTS

Fall Term (Year 3)

- NURSAN 3784 - CURRICULUM, INSTRUCTION AND EVALUATION IN NURSE ANESTHESIA EDUCATION
- NUR 3012 - PUBLIC POLICY IN HEALTH CARE
- NUR 3036 - CAPSTONE PROJECT

Spring Term (Year 3)

- NUR 3037 - DNP PROJECT CLINICAL
- NUR 3052 - MANUSCRIPT DEVELOPMENT

Total Credits: 36

*If the MSN was earned at the University of Pittsburgh and these courses were taken during that program they will be replaced by NURSP 2092 , Leadership Development (3cr) and a 1 credit cognate.

PhD

- Nursing - BSN to PhD Track
- Nursing - Post-MSN to PhD Track

Dual

Doctor of Nursing Practice and Doctor of Philosophy (PhD) Dual Program

Your options for education in nursing research and practice don't end with a singular terminal degree. There is an increasing need for doctorally prepared nurses, and an especially crucial need for nursing scientists and nursing faculty.

The University of Pittsburgh School of Nursing offers you a journey to get there, through the new dual degree Doctor of Nursing Practice/Doctor of Philosophy program.

This program admits baccalaureate-prepared nurses to simultaneously achieve their PhD and DNP degrees, from which they emerge as both nurse researchers and advanced practice nurses. Students graduate with two separate degrees, but 30 credits are shared between the two degrees.

You will join as a dedicated, passionate nurse with a drive and desire to impact nursing research and how health care is delivered, and you will leave with a range of career opportunities available to you, including:

- Nursing faculty at a range of highly ranked universities
- Nurse leaders of health systems and organizations
- Advanced practice nurses who bring highly advanced skills in nursing research and clinical practice to their role

At present, the dual DNP/PhD program is available in these areas of Doctor of Nursing Practice concentrations

- Adult-Gerontology Clinical Nurse Specialist (<https://www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp/dnp-clinical-nurse-specialist-major>)

The DNP/PhD Program admits BSN graduates to the BSN to DNP/PhD track. Applicants for the program must satisfy the requirements for both PhD and DNP program admission. The DNP/PhD program follows a FALL TERM ONLY COHORT ADMISSIONS process. Applicants to the program must submit their completed applications by February 1 or May 1. Complete applications received by February 1 or May 1 will be reviewed and admission decisions made prior to June 1. Application decisions (except for international applicants) will be communicated electronically (by e-mail). Applicants must apply online at <https://nursingcas.liasoncas.org/apply/>.

Applications to the programs are reviewed in their entirety and appraised for evidence of intellectual inquisitiveness and rigor, and commitment and motivation for scholarship and the development of nursing science.

Interested applicants should contact the Student Affairs & Alumni Relations Office at 412-624-4586 or more information.

Curriculum

BSN-DNP/PhD for AG-CNS Concentration

(Students are expected to enroll Full Time)

The BSN Track consists of a minimum of 121 credits (cr):

- 104 cr of Didactic courses from the Nursing PhD and AG-CNS DNP Curriculum
- 17 cr. of Clinical Hours (1020)

Fall Term (YR 1)

- NUR 3285 - PHILOSOPHICAL UNDERPINNINGS OF NURSING RESEARCH
- NUR 3291 - RESPONSIBILITIES AND ACTIVITIES OF SCIENTISTS 1
- NUR 3010 - PHD DISSERTATION
- NUR 3071 - PHD RESEARCH APPRENTICESHIP
- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE

Spring Term (YR 1)

- NUR 3113 - APPLIED PARAMETRIC AND NON-PARAMETRIC STATISTICS FOR THE HEALTH SCIENCES 2
- NUR 3286 - THEORETICAL FOUNDATIONS FOR RESEARCH
- NUR 3287 - RESEARCH DESIGN & METHODS
- NUR 3071 - PHD RESEARCH APPRENTICESHIP
- NUR 3010 - PHD DISSERTATION

Summer Term (YR 1)

- NUR 3114 - APPLIED REGRESSION FOR HEALTH SCIENCE RESEARCH
- NUR 3288 - RESEARCH MEASUREMENT
- NUR 3289 - INTERVENTION DEVELOPMENT
- NUR 3071 - PHD RESEARCH APPRENTICESHIP
- NUR 3010 - PHD DISSERTATION

Fall Term (YR 2)

- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
- NUR 3099 - THE SCIENCE OF HEALTH CARE DELIVERY
- NUR 3290 - ADVANCED QUANTITATIVE ANALYTIC METHODS SEMINAR
- CLRES 2107 - COMPARATIVE EFFECTIVENESS RESEARCH AND PCOR
- CLRES 2120 - COST EFFECTVNS ANAL HLTH CARE
- NUR 3010 - PHD DISSERTATION

Spring Term (YR 2)

- NUR 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
- NURSP 2098 - HEALTHCARE QUALITY
- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
- NUR 3292 - RESPONSIBILITIES AND ACTIVITIES OF SCIENTISTS 2

Summer Term (YR 2)

- NUR 2034 - ADVANCED PHARMACOLOGY ACROSS THE LIFESPAN
- NUR 2031 - THE DIAGNOSTIC PHYSICAL EXAM ACROSS THE LIFE SPAN
- NUR 3031 - METHODOLOGIES FOR DNP PROJECTS
- NURCNS 2850 - CNS ROLE IMPLEMENTATION
- NUR 3010 - PHD DISSERTATION

Fall Term (YR 3)

- NUR 2033 - DIFFERENTIAL DIAGNOSIS THEORY ACROSS THE LIFE SPAN

- NURCNS 2851 - CNS CLINICAL PRACTICUM 1
- NUR 3010 - PHD DISSERTATION

Spring Term (YR 3)

- NURNP 2100 - MANAGEMENT OF ADULT EPISODIC/CHRONIC HEALTH PROBLEMS IN ACUTE CARE THEORY
- NURCNS 2852 - CNS CLINICAL PRACTICUM 2
- NUR 3293 - ART AND SCIENCE OF TEACHING AND LEARNING
- NUR 3010 - PHD DISSERTATION

Summer Term (YR 3)

- NURNP 2104 - MANAGEMENT OF COMPLEX HEALTH PROBLEMS OF THE ACUTELY AND CRITICALLY ILL ADULT
- NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
- NURSP 2388 - DATABASE MANAGEMENT
- NUR 3010 - PHD DISSERTATION

Fall Term (YR 4)

- NURCNS 2853 - CLINICAL EMPHASIS SPECIALTY
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NURSP 3096 - DATA ANALYTICS AND CLINICAL SYSTEMS DESIGN
- NURCNS 3039 - DNP-CNS ROLE PRACTICUM
- NUR 3010 - PHD DISSERTATION

Spring Term (YR 4)

- NURCNS 3039 - DNP-CNS ROLE PRACTICUM
- NUR 3037 - DNP PROJECT CLINICAL
- NUR 3052 - MANUSCRIPT DEVELOPMENT
- NUR 3032 - DATA ANALYSIS FOR DNP PROJECTS
- NUR 3010 - PHD DISSERTATION

Optional Breakout

YR 04 OPTIONAL breakout for Full Time Dissertation (FTDS) If so, insert last 2 Dissertation Credits scheduled for YR 04 into YR 03.

PhD MILESTONE ORAL DEFENSE IN SUMMER TERM Clinical practice clerkship-ND 1 day per week

Total Credits: Minimum of 122 Credits

Preliminary and Comprehensive Examinations and Dissertation Overview

The preliminary examination is taken after completing the following required courses.

- NUR 3285 - PHILOSOPHICAL UNDERPINNINGS OF NURSING RESEARCH
- NUR 3286 - THEORETICAL FOUNDATIONS FOR RESEARCH
- NUR 3287 - RESEARCH DESIGN & METHODS
- and Statistics Courses
 - NUR 3112 - APPLIED PARAMETRIC AND NON-PARAMETRIC STATISTICS FOR THE HEALTH SCIENCES 1

○ NUR 3113 - APPLIED PARAMETRIC AND NON-PARAMETRIC STATISTICS FOR THE HEALTH SCIENCES 2

By following the established curriculum plan, all full-time students should sit for their Preliminary Examination in their third term of study. The examination is designed to assess the student's breadth of knowledge of the discipline of nursing and potential ability to apply research methods independently. Remediation work may be required if deficiencies are identified that may impede the student's success in program completion. See School of Nursing Policy 230.

The comprehensive examination assesses the student's mastery of the general field of doctoral study, acquisition of depth and breadth of knowledge in a focused area of study, and the ability to use the research methods of the discipline. The comprehensive examination is taken after completion of all required course work and concurrent with the dissertation overview. See School of Nursing Policy 235.

The dissertation overview requires the student to formulate a research plan and to justify the selected approach for studying the topic before the student's dissertation committee.

Dissertation Committee

Prior to the comprehensive examination and the dissertation overview, the student and research advisor propose, subject to approval by the director of the PhD program and the dean, a committee of four or more members, one of whom must be from another school within the University and the majority of whom must be from the School of Nursing. A majority, including the major advisor, must also be full members of the Graduate Faculty of the University.

See Doctoral Committee under Regulations Pertaining to Doctoral Degrees of the University catalog.

Admission to Candidacy for the Doctor of Philosophy

Admission to candidacy for the Doctor of Philosophy degree constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to the research and the writing of the dissertation. To qualify for admission to candidacy, students must be in full graduate status, have satisfied the requirement of the preliminary examination, have completed formal courses with a minimum grade point average of 3.00, have passed the comprehensive examination, and have received approval of the proposed dissertation research by the dissertation committee. Admission to candidacy is granted by the Dean.

Residency Requirement

Students seeking the PhD degree are required to engage in a minimum of one term of full-time doctoral study (nine credits), which excludes any other employment except as approved. The doctoral student must notify the PhD program director in writing the term that this occurs.

Dissertation and Abstract

The date and title of the dissertation defense must be submitted to the PhD program director one month prior to the final defense. *For definitions and detail on what constitutes an acceptable dissertation, please see Dissertation and Abstract under Regulations Pertaining to Doctoral Degrees of this catalog.*

Research Apprenticeship Model

The PhD program includes an apprenticeship model of research training that combines rigorous coursework and an apprenticeship with successful research mentors. This model includes a formalized series of Apprenticeship Practica (minimum of 6 credits under the direction of a research mentor), with recommended experiences and a series of defined deliverables. This experience allows for the opportunity to acquire individualized and tangible research skills within a mentored research application environment which is additive to and precedes the dissertation experience.

All mentors are experienced nurse researchers. During their apprenticeships, students acquire tangible skills in research methodology, grantsmanship, professional skills, the responsible conduct of research, and dissemination of research findings through publications and presentations. Students receive an intense and comprehensive research experience resulting in publications and pilot data to support applications for independent research funding and dissertation work.

Adult-Gerontology CNS-BSN to DNP Concentration

The Adult-Gerontology (CNS) concentration prepares nurses as expert providers of care to patients/families across the continuum of healthcare services (from wellness through acute care). The CNS functions as a developer and manager of programs of care for populations of patients; as a mentor who provides support to nurses caring for patients at the bedside; as a leader of multidisciplinary groups driving change throughout the organization ; and as a developer of evidence-based projects to ensure best patient outcomes.

CNS students choose a clinical emphasis of choice to focus their studies such as: general medicine or surgery, cardiopulmonary, critical care, oncology, or trauma and emergency preparedness (TEP). Graduates are eligible for national certification by the American Nurses Credentialing Center or the American Association of Critical Care Nurses.

Graduate Certificate

Pediatric Acute Care Nurse Practitioner Certificate

This non-degree certificate is designed for nurses with previous Master's or Doctor of Nursing Practice preparation as another type of nurse practitioner who are seeking to expand their role by certification in Pediatric Nurse Practitioner Acute Care. The Pediatric Acute Care Nurse Practitioner Post-graduate Certificate is designed for MSN- or DNP-prepared nurse practitioners who want to obtain the education necessary to be eligible to take the certification exam to become a pediatric acute care nurse practitioner (CPNP-AC).

Pediatric acute care nurse practitioner students are prepared to provide quality health care to acutely, critically, and chronically ill children, birth through emerging adulthood, and their families. CPNP-ACs work in collaboration with other health care professionals, most often in inpatient pediatric settings as well as pediatric emergency rooms. The sequence of courses provides for a logical building of the clinical decision making skills necessary to function as a pediatric acute care nurse practitioner. Clinical experiences may be in a variety of general or specialty pediatric acute care settings.

Graduates are eligible for national certification offered by the Pediatric Nursing Certification Board (PNCB) and legal certification as a CRNP and prescriptive authority through the State Board of Nursing of the Commonwealth of Pennsylvania.

Curriculum Format

- Course work may be completed in as few as two terms
- A minimum of 500 clinical hours
- Onsite
- Clinical placements will be provided by the program

Program Outcomes

Graduates of the Pediatric Acute Care Nurse Practitioner Post-graduate Certificate are prepared to accomplish the following:

- Assume responsibility for promoting, maintaining and restoring health to acutely ill, critically ill and complex chronically ill pediatric patients
- Identify health risks, promote wellness, and diagnose and manage acute and chronic illness
- Participate in quality improvement projects and provide leadership for interprofessional health care teams

Admission Criteria

- Valid registered nurse license in the state where clinical experiences are performed
- A baccalaureate degree in nursing

- MSN or DNP preparation as a nurse practitioner from an accredited program (ACEN, NLN, ACICS, or CCNE)
- Minimum of one year nursing experience recommended
- GPA \geq 3.0 in the MSN or DNP program
- Pre-admission interview
- Complete online application
- International applicants: see www.nursing.pitt.edu and www.ois.pitt.edu

Sample Full time Curriculum (subject to change)

Spring

- NURNP 2531 - PEDIATRIC ACUTE CARE 1
or
- NURNP 2531D - PEDIATRIC ACUTE CARE 1
- NURNP 2533 - MANAGEMENT: PEDIATRIC ACUTE CARE CLINICAL 1
- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
or
- NUR 2682D - HUMAN GENETICS AND CLINICAL APPLICATIONS
- NURNP 2028 - ROLE PRACTICUM

Summer

- NURNP 2532 - PEDIATRIC ACUTE CARE 2
or
- NURNP 2532D - PEDIATRIC ACUTE CARE 2
- NURNP 2534 - MANAGEMENT: PEDIATRIC ACUTE CARE CLINICAL 2
- NURNP 2028 - ROLE PRACTICUM

Total Credits: 18-21

Notes:

Successful completion of the Pediatric Acute Care Nurse Practitioner Specialty Comprehensive Exam is required.

The total credits required will vary based on evaluation of the student's previous coursework.

Joint Degree

Public Policy and Management/Doctor of Nursing Practice, MPPM/DNP

MASTERS OF PUBLIC POLICY AND MANAGEMENT IN THE GRADUATE SCHOOL OF PUBLIC AND INTERNATIONAL AFFAIRS (GPSIA) AND THE DOCTOR OF NURSING PRACTICE HEALTH SYSTEMS EXECUTIVE LEADERSHIP (HSEL) IN THE GRADUATE SCHOOL OF NURSING

There is a real and increasingly urgent need for nursing professionals to have a strong understanding of nonprofit management techniques and international development strategies, particularly if they seek employment in not-for-profit hospital systems or charitable organizations that provide health care services to underdeveloped communities at home or abroad.

The University of Pittsburgh is uniquely positioned to train leaders for such positions. GSPIA is nationally renowned as a center for the study of international development, human rights, poverty, and the administration of nonprofit organizations. The School of Nursing is consistently ranked as one of the leading schools of its type in the world, and nurses seek out its graduate programs as a credential of choice to advance their careers.

The intention of this joint degree program is to enable students who are in the process of acquiring professional training as health care executive leaders to obtain simultaneously a substantial knowledge of public and nonprofit management tools and techniques that will be useful to them in their careers leading healthcare organizations.

Students will be informed of the joint degree option upon interview, and they will be able to enter the joint program at any time during their course of study. Students in the DNP program move between full- and part-time enrollment depending on concurrent employment demands, this will continue to be facilitated in the School of Nursing. The joint program between the MPPM program in GSPIA and the HSEL DNP program in the School of Nursing is offered both on-campus and as a distance learning option.

Applicants will apply separately to both schools, and they must meet all of the usual admissions requirements for both. The schools will make their admissions decisions independently. Any applicant accepted to both schools will have the option of pursuing the joint degree. Applicants may apply to both schools at the same time. Students enrolled in the MPPM program may apply to the DNP before completing their first 24 credits at GSPIA. Students enrolled in the DNP may apply to GSPIA before completing their first 24 credits at the School of Nursing.

Students may apply to GSPIA at www.gspia.pitt.edu. A complete application to the MPPM program at GSPIA consists of a personal statement, resume, two letters of recommendation, and transcripts showing prior undergraduate and graduate-level work. Successful MPPM candidates must have at least five years of full-time work experience in positions with some management or budgetary responsibility.

Students may apply to SON DNP HSEL at www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp/dnp-admission. A complete application to the DNP HSEL program at the SON consists of a personal essay stating one's philosophy of nursing, reasons for wanting to study in a particular major or concentration, expectation of the DNP program, and future career goals. This essay should include a proposed area of interest for the DNP project, current CV or resume, three letters of professional recommendation indicating the reviewer's support of the student's ability to successfully complete a demanding graduate level academic and clinical program, official transcripts showing prior undergraduate and graduate-level work, and official GRE Scores (per Admission Criteria).

Candidates for the joint degree program must have at the time of admission at least 5 years of full time work experience in positions with supervisory or budgetary responsibility as defined in the GSPIA MPPM admission requirements.

Sample Curriculum Plan

A sample curriculum plan of the joint program is outlined below.

NOTE: Actual courses and sequencing may vary.

Year 1: Fall Term

- NUR 3099 - THE SCIENCE OF HEALTH CARE DELIVERY
- NUR 2011 - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
- NUR 3012 - PUBLIC POLICY IN HEALTH CARE

Year 1: Spring Term

- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
- NUR 3013 - ETHICS IN HEALTHCARE

Year 1: Summer Term

- NUR 3031 - METHODOLOGIES FOR DNP PROJECTS

- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS

Year 2: Fall Term

- PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS
- GSPIA Elective

Year 2: Spring Term

- PIA 2104 - FINANCIAL MANAGEMENT
- PIA 2117 - PROGRAM EVALUATION

Year 2: Summer Term

- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS
- GSPIA Elective

Year 3: Fall Term

- PIA 2896 - MPPM POLICY SEMINAR
- GSPIA Elective

Year 3: Spring Term

- NURSP 2388 - DATABASE MANAGEMENT
- NUR 3032 - DATA ANALYSIS FOR DNP PROJECTS

Year 3: Summer Term

- Introduction to Informatics
- DNP Residency
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NURSP 3097 - DNP RESIDENCY: ADMINISTRATION

Year 4: Fall Term

- NURSP 3096 - DATA ANALYTICS AND CLINICAL SYSTEMS DESIGN
- NURSP 3094 - EVIDENCE-BASED MANAGEMENT AND QUALITY IMPROVEMENT

Year 4: Spring Term

- NUR 3052 - MANUSCRIPT DEVELOPMENT
- NURSP 3092 - LEADERSHIP IN COMPLEX SYSTEMS

Year 4: Summer Term

- NURSP 3097 - DNP RESIDENCY: ADMINISTRATION
- NUR 3037 - DNP PROJECT CLINICAL

37 Credits SON; 24 Credits GSPIA = Total 61 credits for Joint Degree

NOTE: PIA 2020 meet the School of Nursing requirements for NURSP 2062 - ORGANIZATIONAL AND SYSTEMS MANAGEMENT FOR HEALTHCARE LEADERS

PIA 2024 meets the School of Nursing requirements for NURSP 2099 - FINANCIAL, BUSINESS, AND ECONOMICS DRIVERS IN HEALTHCARE MANAGEMENT .

Master's

Masters Neonatal Nurse Practitioner

We are no longer accepting admissions to the MSN Neonatal Nurse Practitioner Program, as of December 31, 2018. Applicants interested in becoming a neonatal nurse practitioner who have an earned BSN are encouraged to apply to the Doctor of Nursing Practice (DNP) Neonatal Nurse Practitioner BSN to DNP Concentration program. Those with and earned MSN as a neonatal nurse practitioner may add the DNP degree by applying to the Neonatal Nurse Practitioner MSN to DNP Concentration .

The Neonatal Nurse Practitioner (NNP) is prepared to manage the health care of high-risk infants within families and children up to 2 years of age. This expanded clinician role is performed in collaboration with neonatologists and other pediatric clinicians. Graduates assume leadership roles in a variety of clinical settings including intensive care nurseries of various levels, newborn nurseries and high-risk follow-up clinics. Course work and clinical experiences focus on the care and management of critically ill and convalescent premature and full-term infants. Graduates select and perform diagnostic and therapeutic invasive procedures on newborns in the intensive care setting. Students are also prepared to participate in research.

The NNP area of concentration offers both full and part time study on the main campus in Pittsburgh. A post master's option is also available. Selected core courses may be transmitted to distance students (additional fees apply). Graduates are eligible to take the NNP certification examination offered by the National Certification Corporation (NCC) and for legal certification as a CRNP and prescriptive privileges through the State Board of Nursing of the Commonwealth of PA.

Applicant Requirements

A baccalaureate degree in nursing from a CCNE, ACICS or ACEN [NLN] accredited program in nursing An RN-Option, Early Admission to MSN/DNP is available for this Area of Concentration. Other requirements for admission include an application, transcripts, professional references, an essay, a resume/CV, a prerequisite statistics course within the last 10 years with a grade of B- or better, and a copy of a current license to practice nursing in a state or territory of the United States. All students must obtain a Pennsylvania license prior to beginning clinical courses. Official scores on the Graduate Record Examination (GRE).The GRE may be waived if the BSN GPA IS 3.5 or higher.

Relevant clinical experience: Equivalent of 2 year full time recent (within past 5 years) practice experience as a registered nurse in the care of critically ill newborns, infants, or children in critical care inpatient settings , primarily Level III or IV NICU is required before a student begins the clinical courses

NNP Full-Time Sample Curriculum Plan:

Fall Term (YR 1)

- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE

- NUR 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
or
- NUR 2004D - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN

- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
or

- NUR 2010D - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
- NUR 2011 - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
or
- NUR 2011D - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
- NURNP 2026 - ROLE SEMINAR 1
or
- NURNP 2026D - ROLE SEMINAR 1

Spring Term (YR 1)

- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
or
- NUR 2000D - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
- NUR 2034 - ADVANCED PHARMACOLOGY ACROSS THE LIFESPAN
or
- NUR 2034D - ADVANCED PHARMACOLOGY ACROSS THE LIFESPAN
- NURNP 2540 - PEDIATRIC WELL CHILD CARE THEORY
or
- NURNP 2540D - PEDIATRIC WELL CHILD CARE THEORY
- NURNP 2570 - COMPREHENSIVE NEONATAL ASSESSMENT THEORY

Summer Term (YR 1)

- NUR 2031 - THE DIAGNOSTIC PHYSICAL EXAM ACROSS THE LIFE SPAN
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
or
- NURSP 2075D - INTRODUCTION TO HEALTH INFORMATICS

Fall Term (YR 2)

- NUR 2032 - DIFFERENTIAL DIAGNOSIS CLINICAL
or
- NUR 2032D - DIFFERENTIAL DIAGNOSIS CLINICAL
- NUR 2033 - DIFFERENTIAL DIAGNOSIS THEORY ACROSS THE LIFE SPAN
or
- NUR 2033D - DIFFERENTIAL DIAGNOSIS THEORY ACROSS THE LIFE SPAN
- NURNP 2571 - GENERAL MANAGEMENT OF THE SICK NEONATE - THEORY
- NURNP 2572 - GENERAL ASSESSMENT AND MANAGEMENT OF THE SICK NEONATE - CLINICAL

Spring Term (YR 2)

- NURNP 2573 - NEONATAL DISEASE PROCESS 1 - THEORY

- NURNP 2028 - ROLE PRACTICUM
- NURSP 2098 - HEALTHCARE QUALITY

Summer Term (YR 2)

- NUR 2008 - ETHICS FOR ADVANCED PRACTICE NURSING
- NUR 2009 - LEADERSHIP AND HEALTHCARE SYSTEMS: POLICY, ORGANIZATION, AND FINANCING OF HEALTH CARE
- NURNP 2574 - NEONATAL DISEASE PROCESS 2 - THEORY
- NURNP 2028 - ROLE PRACTICUM
- NURNP 2029 - ROLE SEMINAR 2
or
- NURNP 2029D - ROLE SEMINAR 2
- Comprehensive Exam

Total Credits: 58

* Courses with a "D" are delivered synchronously via distance education for qualified students per Policy 438

Nurse Specialty Role

- Clinical Nurse Leader Concentration
- Nursing Informatics Concentration

School Nursing, MSN

School Nursing Concentration

The School Nursing online concentration will prepare licensed registered nurses to work in the specialty practice of school nursing, which requires advanced skills to address the complex health needs of students within a school community setting. This innovative online program is a continuation of our online School Nurse PK-12 Certificate. Students will receive a personalized educational experience tailored to school nursing. This program will include evidence-based practice, compassionate care, communication, clinical judgment, diversity, public policy, ethics and social determinants of health. The Future of Nursing Report 2020-2030 notes that school nurses play a vital role in advancing health equity.

The School Nursing concentration will meet the need of nurses looking for programs offering online school nurse certificate (Level 1) as well as online MSN programs to allow them to get credits needed for their Level 2 school nurse certificate. Theory and practicum courses in school nursing provide opportunities to meet the school nurse competencies. The practicum in school nursing is completed in person in a school district selected by the student and approved by the course faculty. Career opportunities for graduates with this specialty are numerous in elementary, middle, and high schools in both public and private school settings.

School Nursing Applicant Requirements

A baccalaureate degree in nursing from CCNE, ACICS, ACEN, or NLN accredited program in nursing. Other requirements for admission include an application, official transcripts, professional references, an essay, a resume/CV, pre-requisite statistics course with a grade of B- or better, and a copy of a current license to practice nursing in the state or U.S. territory where the clinical practicum requirements will be completed. A GRE score may be required.

The school nursing concentration is only offered online. It can be completed on a full- or part-time basis.

Course Curriculum

Fall

- NUR 2011 - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
- NUR 3012 - PUBLIC POLICY IN HEALTH CARE
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NUR 2044 - NURSING GRADUATE ORIENTATION MODULE
- NUR 2176 - SEMINAR SCHOOL NURSE

Credits: 11

Spring

- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
- NURSP 2098 - HEALTHCARE QUALITY
- NURSP 2099 - FINANCIAL, BUSINESS, AND ECONOMICS DRIVERS IN HEALTHCARE MANAGEMENT
- NUR 2010 - HEALTH PROMOTION AND DISEASE PREVENTION IN CULTURALLY DIVERSE POPULATIONS
- NUR 2179 - PRACTICUM SCHOOL NURSE

Credits: 11

Total Credits: 33

Minor

Gerontology Minor for Nurse Practitioners

A 8-credit Gerontology Minor for Nurse Practitioners (NP) can be obtained by DNP students who are enrolled in the Family (Individual Across the Lifespan) Nurse Practitioner (FNP) DNP or the Psychiatric Mental Health Nurse Practitioner (PMHNP) DNP area of concentration.

The Nurse Practitioner functions in an expanded role that includes the diagnoses and management of health care needs of a specific population and this curriculum will prepare the Nurse Practitioner to develop expertise in the care of older adults. The gerontology courses are specifically designed to address the needs of the older adult in regard to the common geriatric syndromes, geriatric economic and social issues and the unique presentation of disease. Content includes an emphasis on chronic conditions, multi-morbidity, and internal medicine.

The diagnosis and management of these conditions will be emphasized in keeping with the role of the Nurse Practitioner. The courses were designed using national standards for nurse practitioner education through a combination of didactic and clinical learning experiences.

The Gerontology Minor is an 8 credit curriculum available to DNP students currently enrolled in the Family (Individual Across the Lifespan) Nurse Practitioner (FNP) DNP or Psychiatric Mental Health Nurse Practitioner (PMHNP) DNP programs who want to increase their knowledge and expertise related to the diagnosis and management of health care needs in the care of older adults.

Curriculum Format

- ~ 3 Terms
- Onsite
- 180 Practicum Hours

Program Outcomes

Graduates of the Gerontology Minor are prepared to accomplish the following:

- Provide comprehensive, evidence-based geriatric focused care for elderly patients and their caregivers based on physical, mental, emotional and functional changes
- Practice culturally sensitive care in regard to ethnicity, religion, gender and socio-economic status
- Identify available community resources to promote health, safety, function and independence
- Provide leadership to other members of the interdisciplinary team that is focused on the needs and wishes of the patient
- Assume the role of advocate for patients and caregivers in regard to access and transitions within the health care system

Curriculum: Gerontology Minor (subject to change)

- NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
or
- NURNP 2526D - MANAGEMENT: GERIATRIC HEALTH
- NURNP 2527 - ADVANCED MANAGEMENT: COMPLEX GERIATRIC HEALTH ISSUES
or
- NURNP 2527D - ADVANCED MANAGEMENT: COMPLEX GERIATRIC HEALTH ISSUES
- NURNP 2529 - GERONTOLOGY CLINICAL PRACTICUM

Total Credits: 8

*Courses with a "D" can be delivered synchronously via distance technology. Such courses are open only to qualified on-site students as per Policy 438.

Health Care Genetics Minor

Genetic based health care is routinely becoming a part of daily health care, having major impacts on patient diagnosis, prognosis and treatment. The curriculum is designed for health care workers who are seeking focused, graduate-level education in the specialty of genetics. Knowledge gained through coursework will enable healthcare workers to better care for and educate their patients.

The Minor in Health Care Genetics is available to enrolled University of Pittsburgh graduate students. Students should consult with their academic advisor. The Minor includes courses in genetics (taught through the School of Nursing) and choice of 2 courses related to the student's career goals or interests (taught through other departments in the Schools of the Health Sciences). Learning experiences may be enriched through Clinical Genetics Case Conferences, Human Genetics Research Seminar, Human Genetics Journal Club, Genetics Grand Rounds, and a Research Practicum in a molecular genetics laboratory.

Curriculum Format

- Full-time or Part-time (~ 3 terms)
- This curriculum is currently only offered in person.

Program Outcomes

Graduates of the Minor in Health Care Genetics are prepared to accomplish the following:

- Guide patients in their understanding of the genetic basis of disease as well as providing patient education and guidance in the areas of available genetic testing, interpretation of testing, recurrence risks, and genetic based therapies
- Provide advocacy for patients and families with genetic conditions
- Utilize family histories to determine disorders for which the patient is at risk
- Utilize a variety of resources to stay up to date with advances in genetic based medicine
- Determine when patient referral to a genetic professional is required
- Utilize a variety of resources to provide patients and their families with support mechanisms
- Interpret genetic research findings

Admission Criteria

- GPA \geq 3.0 in current graduate program

Curriculum

- NUR 2682 - HUMAN GENETICS AND CLINICAL APPLICATIONS
or
- NUR 2682D - HUMAN GENETICS AND CLINICAL APPLICATIONS

- NUR 2681 - ADV TOPICS IN HUMAN GENETICS

Total Credits: 12

Nursing Administration

The Minor in Nursing Administration is available to enrolled University of Pittsburgh School of Nursing graduate students pursuing education in advanced clinical specialty roles who want the opportunity to also obtain knowledge and experience pertinent in management and leadership. Students should consult with their academic advisor. The minor will prepare nurses to assume positions as advanced practice nurses with some management and/or leadership responsibility.

The curriculum focuses on management in complex social and operational systems for healthcare delivery. Attention is given to applying role-related knowledge and skills in diverse settings and populations, including acute care, long term care, psychiatric, and community settings. The culminating practicum is a uniquely designed mentored clinical experience that provides students with an opportunity to experience a leadership role.

Curriculum Format

- Part-time (~ 2 terms)
- 180 Clinical hours

Program Outcomes

Graduates of the Minor in Nursing Administration are prepared to accomplish the following:

- Assume leadership for clinical initiatives and outcomes within their area of clinical focus
- Develop a business case for change within their area of clinical focus

Curriculum

* These courses are available via distance education for qualified students per Policy 438

- NURSP 2062 - ORGANIZATIONAL AND SYSTEMS MANAGEMENT FOR HEALTHCARE LEADERS
or
- NURSP 2062D - ORGANIZATIONAL AND SYSTEMS MANAGEMENT FOR HEALTHCARE LEADERS

- NURSP 2099 - FINANCIAL, BUSINESS, AND ECONOMICS DRIVERS IN HEALTHCARE MANAGEMENT
or
- NURSP 2099D - FINANCIAL, BUSINESS, AND ECONOMICS DRIVERS IN HEALTHCARE MANAGEMENT

- NURSP 2092 - LEADERSHIP DEVELOPMENT
or
- NURSP 2092D - LEADERSHIP DEVELOPMENT

- NURSP 2064 - NURSING ADMINISTRATION SEMINAR AND PRACTICUM

Total Credits: 12

Nursing Education Minor

The Nursing Education Minor combines didactic courses and two field-based practica in clinical and academic settings aligned with the student's interest. The online curriculum prepares students to apply instructional theory and research in the following types of educational settings and roles: schools of nursing, health care agency staff development, continuing education departments, advanced practice nursing, and patient and community education agencies. The Nursing Education Minor is available to graduate students enrolled at the University of Pittsburgh School of Nursing. The minor involves the completion of a minimum of 10 credits of coursework. Active students, including those in the Nurse Faculty Loan Program, should consult with their respective academic advisor and the coordinator of the Nursing Education Minor to develop their curriculum plan.

Upon completion of the minor, graduates with a valid RN license may be eligible to take the Certified Nurse Education Exam offered by the National League of Nursing (NLN) (Note: visit the NLN website for eligibility requirements)

Program Outcomes

Graduates of the Nursing Education Minor are prepared to:

- design current, progressive nursing education programs using research and theories of learning instruction, curriculum, evaluation, and measurement.
- utilize a variety of teaching strategies and media appropriate to learner characteristics, instructional objectives, and nursing or health-related content.
- plan the learning activities of individuals and groups of students in clinical and didactic settings.
- guide the performance of learners in settings where nurses function as educators for nurse colleagues, students, patients, families, and communities.
- apply principles of measurement and evaluation to the development of learner assessment procedures for didactic and educational instruction.
- utilize computer technology and educational informatics as integral components of nursing education and training.
- articulate the role of the nurse educator within the health professions, schools of nursing, and community.
- perform the role of education consultant in settings where nurses, patients, families, and communities participate in education activities.

Admission Criteria

- Valid registered nurse license may be required in state where clinical practica will be performed.
- GPA \geq 3.0 in current MSN, DNP, or PhD program at the University of Pittsburgh, School of Nursing

Curriculum Format Total 10 Credits (150 Practicum Hours)

- Part-time (~ 3-4 terms)
- Courses are taught online

- Fall or Spring admission. Starting the coursework in Spring will enable completion of the minor in three consecutive terms.
- Three of the four required courses are to be completed in sequence and are offered once a year (NUR 3293 in Spring, NUR 2084 in Summer and NUR 2183 in Fall); the 4th required course (NURSP 2093) can be taken any term.
- Practica are arranged based on student's needs.
- Applicants must have the curriculum plan approved by the coordinator of the Nursing Education Minor and student's advisor

Required courses and scheduled terms include:

- NURSP 2093 - EDUCATION AND MENTORING IN THE CLINICAL SETTING
(3 credits any term; 60 hours clinical)
- NUR 3293 - ART AND SCIENCE OF TEACHING AND LEARNING
(2 credits Spring)
- NUR 2084 - MEASUREMENT AND EVALUATION IN TEACHING
(2 credits Summer)
- NUR 2183 - PRACTICUM: TEACHING IN ACADEMIC SETTINGS
(3 credits Fall; 90 hours clinical)

Total Credits: 10

Nursing Informatics Minor

The Minor in Nursing Informatics is a combination of cognitive science, computer science, information science, and nursing science. It includes the development, analysis, and evaluation of information systems that support, enhance and manage patient care. Informatics nurses are involved in practice, education, research, administration, and consultation and can work in public, private, or corporate settings. Career opportunities for graduates of this specialty are numerous.

The Minor in Nursing Informatics is available to enrolled University of Pittsburgh School of Nursing graduate students. The Nursing informatics curriculum includes introduction to informatics, clinical information systems, database management, and project management courses. Students should consult with their academic advisor.

Curriculum Format

- Part-time (2-3 terms)
- 11 course credits
- Online

Program Outcomes

Graduates of the Minor in Nursing Informatics are prepared to:

- Analyze clinical information systems for adoption by healthcare systems
- Manage projects in a multidisciplinary integrated healthcare informatics environment
- Consult with companies in the design of healthcare information systems
- Assist in the planning and development of informatics applications for telehealth, consumer health, and community-based care

Curriculum

- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NURSP 2388 - DATABASE MANAGEMENT
- NURSP 2076 - CLINICAL INFORMATION SYSTEMS
- NURSP 2070 - INFORMATION TECHNOLOGY PROJECT MANAGEMENT

Total Credits: 11

Nursing Research Minor

The Minor in Nursing Research is available to students pursuing education in advanced clinical specialty roles who want the opportunity to also obtain training pertinent to conduct and coordinate clinical research. Students should consult with their academic advisor. The curriculum focuses on research methodology and statistics. The Minor will enable graduates to apply their clinical and research skills in the following types of positions: clinical trial interventionists, research consultants, adverse events coordinators, and research project managers.

Graduates of the Minor in Nursing Research are eligible for National Certification as a Certified Clinical Research Coordinator by the Association of Clinical Research Professionals (ACRP) after successful completion of the Clinical Research Coordinator (CRC) Certification Exam. (Note: clinical research coordinator experience is required for the exam).

Curriculum Format

- Part-time (~ 4 terms)
- Online classes

Program Outcomes

Graduates of the Minor in Nursing Research are prepared to accomplish the following:

- Apply research principles to the management of clinical investigations
- Participate in the research process including the development of reviews of literature, research protocols, and human subjects protection protocols
- Participate in recruitment of research subjects, data collection, and dissemination of research findings
- Utilize computer technology and informatics as an integral component of a research program or project
- Articulate the role of the clinical researcher within the health professions and society
- Perform the role of nurse researcher within clinical research settings

Curriculum

- Elective - (approval by Coordinator, Nursing Research Concentration) **3 cr.**
- NUR 2011 - APPLIED STATISTICS FOR EVIDENCE-BASED PRACTICE
- NURSP 2075 - INTRODUCTION TO HEALTH INFORMATICS
- NUR 3052 - MANUSCRIPT DEVELOPMENT
- NUR 2800 - COORDINATING CLINICAL TRIALS

Total Credits: 12

School of Nursing Faculty

Full-Time Faculty

- Sheila A. Alexander, PhD, University of Pittsburgh
- Marianne Allen, DrNP, Drexel University
- Salah S. Al-Zaiti, PhD, University of Buffalo
- Maighdlin Anderson, DNP, University of Pittsburgh
- Sarah Belcher, PhD, University of Pittsburgh
- Jenna Bench, DNP, University of Pittsburgh
- Victor R. Bench DNP, University of Pittsburgh
- Catherine M. Bender, PhD, University of Pittsburgh
- Alice M. Blazcek, DNSc, University of Pennsylvania

- Betty J. Braxter, PhD, University of Pittsburgh
- Amy Bowser, PhD, University of Pittsburgh
- Marnie L. Burkett, DNP, Chatham University
- Yurun Cai, PhD, University of Massachusetts
- Judith A. Callan, PhD, University of Pittsburgh
- Brenda L. Cassidy, DNP, University of Pittsburgh
- Denise Charron-Prochownik, PhD, University of Michigan
- Cynthia Chew, DNP, University of Pittsburgh
- Tim M. Coleman, DNP, Carlow University
- Yvette P. Conley, PhD, University of Pittsburgh

- Mary Wilcher, DNP, Robert Morris University

School of Pharmacy

Chartered in 1878, the School of Pharmacy has a tradition of developing leaders and innovators that drive the future of pharmacy. We investigate, discover, and create ways to improve patient health and, through partnerships, change practice and improve efficiency of care. We also use computational and bench research methods to discover and develop drugs and drug delivery systems, and optimize drug therapy. The School of Pharmacy leads the way in education, personalizing education and getting students to expert faster. The School of Pharmacy is among the oldest pharmacy schools in the country. Pitt Pharmacy is in the top tier of schools of pharmacy in US News & World Report rankings and NIH-funded research.

Mission

The School of Pharmacy is committed to improving health through excellence, innovation, and leadership in education of pharmacists and pharmaceutical scientists, in research and scholarship, in care of patients, and in service to our communities.

Vision

To be an outstanding school of pharmacy renowned for excellence in discovery and advancement of science-based use of medicines and other interventions to enhance the vitality and quality of life.

Values

Integrity guides our daily work. We foster:

Passion, commitment, and diligence

Creativity and personal growth

Collaboration and teamwork

A culture of respect for the individual.

Doctor of Pharmacy (PharmD) Program

The professional curriculum is composed of a course of study requiring sixty-two (62) credits of pre-professional study followed by four years of professional courses. The four-year professional curriculum emphasizes problem solving and critical thinking, blending classroom and laboratory learning with experiential learning in practice. The required component of experiential learning is designed to facilitate progress from initial stages of making meaningful connections with patients to caring for complex patients with acute and chronic diseases. Experiences include patient care in communities, in hospitals, and during transitions of care. This experiential education begins in the first weeks of the first professional (P1) year.

Through our commitment to personalizing education, PittPharmacy inspires students to use their unique interests and talents to improve the lives of people through the safe, effective, and responsible use of medications and other interventions.

The PharmD program prepares students to be practitioners who advance the profession by fostering innovation, leadership, interprofessional collaboration, civic engagement, advocacy, life-long learning, and a professional attitude of inclusion.

Accreditation Council for Pharmacy Education

The University of Pittsburgh School of Pharmacy's Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, 190 South LaSalle Street, Suite 2850, Chicago, IL 60503, 312/664-3575; FAX 866/228-2631, web site www.acpe-accredit.org.

Pittsburgh, PA 15261

Admissions: 412-383-9000

E-mail: rxschool@pitt.edu

www.pharmacy.pitt.edu

Special Academic Opportunities

PittPharmacy provides opportunities to personalize students' education and get them to expert faster.

Areas of Concentration

Areas of Concentration (ARCOs) provide ways to tailor education to explore personal and professional interests. During pharmacy school, students can pursue an area of pharmacy in depth through specialized courses and experiences, mentoring, and a scholarly project. Students may apply for an ARCO during their second professional (P2) year of PharmD training. Each ARCO has specific requirements.

- Community Leadership, Innovation, and Practice
- Geriatrics and Palliative Care
- Global Health
- Pediatrics
- PharmacoAnalytics
- Pharmacotherapy Scholars
- Pharmacy Business Administration
- Research

International Pharmacy Travel

Pitt student pharmacists have the opportunity to gain exposure to diverse practices of pharmacy and global cultures through international experiences.

Student-Driven Independent Study

Students have the opportunity to work directly with a faculty member to design an elective Special Topics course organized around a specific project, inquiry, or experience. Unlike traditional electives, students play an active role in establishing the goals and parameters of the course and generate a specific product at its conclusion, such as a research poster, article, or teaching resource.

PharmD/PhD Combined Program

If students are committed to extending their research education, we offer an opportunity for a pathway to obtain a Doctor of Philosophy in Pharmaceutical Sciences (PhD) degree.

Selecting Experiential Rotations

Students can design an individualized combination of core and elective rotations that are unique to their professional interests, talents, and goals. Students are able to choose from over 1,000 rotations in a wide range of pharmacy careers locally, nationally, and internationally.

[Admissions](#)

The School of Pharmacy admits students to its programs under one of two pathways - guarantee or open. Those two admission pathways are detailed below:

Pharmacy Guarantee First Year Admission

All students should first submit an application to the University of Pittsburgh, Office of Admissions and Financial Aid. The School offers a guaranteed acceptance to a limited number of high school seniors who enroll at one of the University of Pittsburgh campuses. The number of guaranteed offers is limited and offered on a rolling basis. Students who have demonstrated academic success in high school, score 1330 or higher on the SAT I (Math and Critical Reading sections), with a minimum of 660 in the Math section, and specify Pharmacy on the application will be offered the guaranteed admission, if available.

Students who receive the guaranteed admission are expected to perform well in their pre-professional courses. In order to secure a place in the PharmD Program, students must earn:

- a letter grade of a C or better in all preprofessional courses with no repeated courses
- a 3.25 or greater overall GPA in preprofessional courses
- a competitive Math and Science GPA of 3.0

NOTE: Required Math and Science courses must be taken at the University of Pittsburgh (AP credits are acceptable).

Test optional applicants are eligible for this guarantee.

To exercise the Pharmacy guarantee, all applicants must:

- submit a completed PharmCAS application and fee
- participate in a satisfactory interview prior to School of Pharmacy Admission
- submit the Pharmacy College Admissions Test (PCAT) scores (PCAT for Fall 2023 Admissions see below)
- writing assessment

Pharmacy Guarantee students who meet these performance criteria will be admitted into the PharmD Program.

Open Admission

Students admitted to the program through open admission compete for remaining spaces in the class. The requirements to be considered a competitive applicant for the School of Pharmacy's professional program are:

- completion of the pre-professional requirements
- competitive Math and Science GPA of 3.0
- submission of the Pharmacy College Admission Test (PCAT) scores
- submit a completed PharmCAS application and fee
- selected applicants will be required to participate in a satisfactory interview (interviews are by invitation only)

More information about PharmCAS and deadlines for application can be found at www.pharmcas.org.

Students applying for admission must apply through PharmCAS, the Web-based Pharmacy College Application Service.

Visit the School of Pharmacy Web site at www.pharmacy.pitt.edu.

Application Procedures and Deadlines

All applicants must file an application through PharmCAS, a Web-based Pharmacy College Application Service, by March 1, 2022.

The application process, application deadlines, and other admission requirements are summarized on the School of Pharmacy Web site.

Throughout the application process, it is the student's responsibility to follow all instructions and meet all deadlines. Failure to do so might result in their application being canceled. It is highly recommended that students apply early to ensure that all application materials are received by the March deadline.

Preparing to Complete the Application

The School of Pharmacy recommends that students thoroughly review the application process before entering data or filling out forms so that they are aware of all the information they will need to gather and how much time the entire process will take. Visit the PharmCAS Web site at www.pharmcas.org and review the "Preparing to Apply" tab. Then review the Checklist, PharmCAS Instructions, and the Applicant Code of Conduct links. Review the time line for the application process: Admissions Calendar

Complete Pre-professional Courses and Minimum Eligibility Requirements: Math & Science course requirements must be completed by the end of Spring term and all other courses must be completed by the end of the Summer term before students begin the first Fall semester of the PharmD program.

Register to take the PCAT (Pharmacy College Admission Test): The PCAT is optional for the Fall 2022 Admissions cycle and will be considered in the holistic application review process for applicants who have reported scores. Applicants who are unable to complete an exam or choose not to report exam scores will not be disadvantaged.

Visit the PCAT web site for registration deadlines for test dates and register as early as possible since the test sites have a limited number of examinee seats for each exam date. Register to take the PCAT and have your scores sent to PharmCAS, code 104.

Only completed applications are considered for an interview invitation. NOTE: Since the January PCAT scores will not be received until after interviews are offered, the Admissions Committee recommends an earlier PCAT testing date.

Completing the Application Process

The application process consists of one application.

PharmCAS (Pharmacy College Application Service): This service enables students to generate one primary application that can be submitted to multiple PharmD degree programs. For the University of Pittsburgh School of Pharmacy, the application must be electronically submitted on or before midnight Eastern Standard Time on March 1, 2022.

To eliminate any unforeseen problems, it is recommended that students submit their application early; i.e., November 1st. This will ensure eligibility to update fall grades and, if issues arise, they can be investigated and resolved before the March deadline.

After electronically submitting the PharmCAS application and fee for the PharmD program, there are follow-up steps that applicants must address to be certain that all the required documents (such as transcripts to PharmCAS) have been received on time.

Tuition and Financial Aid

Students should investigate their eligibility for federal and state programs by calling the Office of Admissions and Financial Aid at 412-624-PITT or e-mail oafa@pitt.edu.

The University's financial advisors are the best source of information about local grants or scholarships that extend beyond federal and state programs. Students are encouraged to look outside of the health professions for additional support. Students may be able to compete successfully for economically or academically awarded scholarships from private groups and associations.

In addition, the School of Pharmacy has a number of general scholarships provided through the generosity of the School's alumni and friends. These are described in detail on the school's Web site at <http://www.pages.pharmacy.pitt.edu/pharmdhandbook/the-pharmd-student-handbook/admissions/scholarships/>

Tuition Rates and Fees can be found on the school's Web site at <https://oafa.pitt.edu/financialaid/costs/>.

Academic and Professional Standards

Academic Integrity

School of Pharmacy students are responsible for upholding the standards of behavior outlined in the University's Guidelines on Academic Integrity, the University's policy on sexual harassment, and other policies related to student behavior.

Enrollment in the School of Pharmacy carries with it obligations of conduct within and outside of the classroom. Professional students are expected to maintain the highest standards of personal integrity and conduct themselves in a manner that is a credit to themselves, the school, and the profession.

Students sign a copy of the University of Pittsburgh School of Pharmacy Code of Conduct that affirms their commitment to ethical and professional behavior. Details of the Code are outlined on the school's Web site.

Grading System

Doctor of Pharmacy students are subject to the provisions of the Guidelines and Regulations for the Promotion of Students in force at the time. All students will be given a copy of these guidelines and regulations upon entry into the program.

Calculation of grade point average (GPA) will include all required professional courses and approved electives taken while enrolled in the PharmD program. Cumulative GPA will be calculated at the end of each term. All PharmD students must maintain a cumulative GPA of 2.00. Students who fail to maintain a cumulative GPA of 2.00 or above will be placed on academic probation and given one opportunity to repeat selected courses in order to raise their cumulative GPA above 2.00. Students failing to increase their cumulative GPA above a 2.00 during this period of academic probation will be dismissed from the PharmD program. Term GPA will be calculated at the end of each term. Students with a term GPA under 2.00 will be placed on academic probation and must achieve a GPA of 2.00 or above during the following term. Students failing to achieve a term GPA of 2.00 or above during this period of academic probation will be dismissed from the PharmD program.

It is the responsibility of students to monitor their academic progress and become familiar with the program degree requirements and academic regulations.

Clearance and Immunization Policy

The Office of Experiential Learning manages learning experiences in communities and professional practice environments that are embedded across all four years of the PharmD program. Because these experiences involve direct patient contact, the practice sites where students are placed require proof of immunization to communicable diseases, fingerprinting, background checks, and drug screens. Students who fail to complete these prerequisites no later than two weeks prior to the start of classes will not be able to fulfill their experiential learning requirements. PittPharmacy works with CastleBranch, a background screening and compliance tracking solutions company, to collect and manage the documentation of all such prerequisites. Each student has access to his or her information through the secure CastleBranch web site both as a student and after graduation. CastleBranch maintains a secure site to which only the Office of Experiential Learning Office and the student have access.

A positive criminal history and/or positive drug screen may disqualify a student from completing required experiential learning and may prevent successful completion of the PharmD program. Many of the sites used for experiential learning require students to meet certain prerequisites. These prerequisites may include showing proof of immunization to communicable diseases, undergoing criminal background checks, and drug screening. Failure to meet these prerequisites can result in students being unable to complete their experiential learning requirements.

Additionally, in order to become a licensed pharmacist, many states will inquire as to whether the applicant has been convicted of any misdemeanor, felony, or any illegal act associated with alcohol and/or substance abuse. A criminal history may delay or prevent licensure.

PhD or MS in Pharmaceutical Sciences

The School of Pharmacy offers graduate level training to highly motivated individuals. Our mission is to train the next generation of leaders and decision makers seeking to improve the health of the community through outstanding basic and clinical research. Major strengths include highly accomplished, well-funded research faculty, multidisciplinary training opportunities, and cutting-edge technologies.

Training consists of required core courses, elective courses, journal clubs, research presentations, and an original faculty-advised research project leading to a final thesis or dissertation. Students may select to enroll in one of six tracks: clinical pharmaceutical sciences, medicinal chemistry, health outcomes and policy research, pharmaceuticals, biochemical pharmacology, or pharmacometrics and systems pharmacology (PSP).

Contact Information

Lori Altenbaugh
Graduate Program Coordinator
University of Pittsburgh
School of Pharmacy

altenbaughlm@pitt.edu

Application Process

Applications must be submitted electronically at the Pharmacy College Application Service for Graduate Programs (PharmGrad). Application to our program requires a \$50.00 fee that cannot be waived.

Applications for the fall term must be submitted no later than January 5, 2022. Applications are reviewed on a first-come, first-served basis so it is wise to apply as early as possible. Applications for spring term admission are not accepted.

The School of Pharmacy highly recommends that applicants to the PhD program have research experience and that students mention specific faculty with whom they would like to work in their Personal Statement.

When complete, student applications are reviewed. No preliminary assessments are made on individuals applying to the program until all application requirements are complete. The GRE is no longer required.

We require three references that **MUST** be submitted online. Written references are not accepted.

IMPORTANT: WE DO NOT ACCEPT ANY DOCUMENTS SENT VIA MAIL TO OUR DEPARTMENT. You will be notified if your application is reviewed and you are invited for an interview. At that time, you will need to supply an official transcript.

International Students

For the Test of English as a Foreign Language (TOEFL), a minimum result of 100 on the iBT (Internet-based test) is required. For IELTS the minimum acceptable score is 7.0. You must submit TOEFL (or IELTS) scores to the University of Pittsburgh, institution code is 2927. You do not need a department code. TOEFL scores are good for two years; the ETS will not release TOEFL scores after 2 years from the date of the exam. **If you have graduated from a U.S. institution OR if English is the official language of your country then proof of English proficiency is not required.**

Financial Assistance and Tuition

Most students accepted to our PhD program are offered full tuition scholarship plus a teaching assistant stipend. Teaching assistant experience is not necessary as you will be trained upon acceptance into the program.

For the 2021-2022 academic year we granted scholarships and TA positions to 18 new admissions from a pool of approximately 170 applications. No financial assistance is available to MS students. Tuition Rates and Fees can be found on the school's Web site at <https://oafa.pitt.edu/financialaid/costs/>. NOTE: Health insurance is REQUIRED for all students.

All fees are the same for those students who are not offered a scholarship.

Length of Programs

The PhD Program requires a minimum of 72 credits. Most students complete the PhD degree within five years. The statute of limitations for completion of the PhD degree is ten years. (See Statute of Limitation/Leaves of Absence in the University catalog for more information.)

The MS (thesis-based) program requires a minimum of 30 credits. Most students complete the MS degree in two academic years. The statute of limitations for completing the MS degree is four consecutive calendar years from the first term of registration.

The Non-Thesis MS program requires a minimum of 34 credits and is usually completed within one calendar year (three semesters). The statute of limitations for completing the MS degree is four consecutive calendar years from the first term of registration.

Academic Standards

School of Pharmacy students are responsible for upholding the standards of behavior outlined in the University's Guidelines on Academic Integrity, the University's policy on sexual harassment, and other policies related to student behavior.

Master of Pharmacy Business Administration

The 12-month executive style Master of Pharmacy Business Administration (MPBA) program consists of 36 credits that build critical skills and expertise for pharmacy professionals seeking to substantially increase their business acumen and marketability.

Application and Requirements

Prerequisite

- Candidates with a PharmD or BS in Pharmacy will receive preferential admission

To apply to the program, you must complete the following requirements:

- Completed Application Form (Application PDF)
- Résumé or CV
- One self-nomination letter describing:

- Current job responsibilities and assignments
- Finest achievements and greatest disappointments
- Challenges met within current organization
- Civic and community activities and any offices held
- Reasons and motivations for entering the MPBA program
- Professional and personal goals and plans
- Two letters of professional reference
- College or university transcripts
- Graduate school admission exam scores (recommended)
 - GMAT
- TOEFL or the IELTS examination (for anyone who speaks English as a second language)
- In-person interview with MPBA program representatives

Applicants will be contacted for scheduling of an on-site interview following receipt of complete packet of information

Tuition and Financial Aid

Tuition

Tuition Rates and Fees can be found on the school's Web site at <https://mpba.pitt.edu/tuition/>. Tuition is paid in equal parts per term for three terms.

All students, including students traveling from out of town, are responsible for all travel expenses.

The MPBA program will provide a list of hotels that offer University rates from which students can select and reserve rooms.

Financial Aid

Federal Stafford loans are available to U.S. citizens for up to \$20,500 per academic year. Refer to the University's Office of Admissions and Financial Aid for information on how to apply. U.S. citizens who are funding the degree in full, in part, or whose employer reimburses only after the end of a term, may consider financing. Furthermore, students may also finance their costs through standard loans.

Tuition Includes

- All books, cases, and simulations; meals during class sessions
- Microsoft Windows and Program Bundle software packages
- Access to all University of Pittsburgh student resources such as libraries, fitness facilities, and public transportation while on campus

Certificate in Pharmacy Business Administration

A new and unique executive-style certificate education program designed for working professionals striving to obtain an in-depth understanding of the Business of Medicines. The Certificate program consists of 18 credits and is designed to be completed in one year.

- Learn to Innovate and Solve Real World Healthcare Problems
- Focus in Specialized Areas of Concentration
- Increase your Pharmacy Business Acumen

Focused Tracks

- Advanced Community Pharmacy Management
- Specialty Pharmacy Management
- Managed Care Pharmacy

Application and Requirements

Criteria for qualified candidates for admission into the PBA certificate program include:

- Candidates with a PharmD or BS in Pharmacy will receive preferential admission

Students enrolled in another graduate program at the University of Pittsburgh are able to apply for concurrent enrollment in the PBA Certificate program. Tuition for the PBA Certificate program will be in addition and separate from the other graduate degree program.

To apply to the program, you must complete the following requirements:

- Completed Application Form (Application PDF)
- Résumé or CV
- One self-nomination letter describing:
 - Current job responsibilities and assignments
 - Finest achievements and greatest disappointments
 - Challenges met within current organization
 - Civic and community activities and any offices held
 - Reasons and motivations for entering the MPBA program
 - Professional and personal goals and plans
- Two letters of professional reference
- College or university transcripts
- Graduate school admission exam scores (recommended)
 - GMAT
- TOEFL or the IELTS examination (for anyone who speaks English as a second language)
- In-person interview with MPBA program representatives

Applicants will be contacted for scheduling of an on-site interview following receipt of complete packet of information.

Tuition & Financial Aid

Tuition Rates and Fees can be found on the school's Web site at <https://oafa.pitt.edu/financialaid/costs/>. Tuition is charged at a per credit rate each term.

Students should investigate their eligibility for federal and state programs by calling the Office of Admissions and Financial Aid at 412-624-PITT or e-mail oafa@pitt.edu. U.S. citizens who are funding the degree in full, in part, or whose employer reimburses only after the end of a term, may wish to consider financing. Students may also finance their costs through standard loans.

The University's financial advisors are the best source of information about local grants or scholarships that extend beyond federal and state programs. Students are encouraged to look outside of the health professions for additional support. Students may be able to compete successfully for economically or academically awarded scholarships from private groups and associations.

All students, including students traveling from out of town, are responsible for all travel expenses.

The MPBA program will provide a list of hotels that offer University rates from which students can select and reserve rooms.

School of Pharmacy Faculty

Accreditation

Accreditation Council for Pharmacy Education

The University of Pittsburgh School of Pharmacy's Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, 190 South LaSalle Street, Suite 2850, Chicago, IL 60503, 312/664-3575; FAX 866/228-2631, web site www.acpe-accredit.org.

Program and Course Offerings

Concentration

Doctor of Pharmacy - Community Leadership, Innovation, and Practice ARCO

The Area of Concentration in Community Leadership, Innovation, and Practice (ARCO-CLIP) provides students with mentoring and learning experiences to cultivate advanced patient care, develop health service innovations, acquire leadership and management skills, and enhance community health. Students completing the ARCO-CLIP will be well prepared to enter leadership and patient care roles in community practice and will be highly competitive for residencies and other advanced practice training opportunities.

ARCO-CLIP Academic Requirements

The ARCO-CLIP consists of six (6) credits of approved elective classroom-based courses, four Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 21 credits of coursework and rotations in the ARCO-CLIP are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- PHARM 5819 - COMMUNITY LEADERSHIP INNOVATION & PRACTICE (CLIP)
- PHARM 5812 - HEALTHCARE INNOVATIONS 1
- PHARM 5820 - PHARMACY INNOVATION 1
- PHARM 5821 - PHARMACY INNOVATION 2

OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Geriatrics & Palliative Care ARCO

The purpose of the Area of Concentration in Geriatrics and Palliative Care (ARCO-GPC) is to allow students to pursue an area of emphasis with geriatrics and palliative care consistent with their professional interests during their Doctor of Pharmacy (PharmD) education. The ARCO-GPC is intended to give students an in-depth exposure to geriatrics and palliative care pharmacy practice.

ARCO-GPC Academic Requirements

The ARCO-GPC consists of six (6) credits of approved elective classroom-based courses, two Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 16 credits of coursework and rotations in the ARCO-GPC are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- BCHS 2532 - DIMENSIONS OF AGING: CULTURE AND HEALTH
 - BIOETH 2001 - ETHICS AND AGING
 - CLRES 2601 - PRINCIPLES AND PRACTICES OF PALLIATIVE CARE PART 1
 - CLRES 2602 - PRINCIPLES AND PRACTICES OF PALLIATIVE CARE PART 2
 - EPIDEM 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
 - EPIDEM 2900 - ADVANCED EPIDEMIOLOGY OF AGING
 - GERON 2001 - ETHICS AND AGING
 - GERON 2006 - MULTI-DISCIPLINARY ASPECTS OF DEMENTIA
 - GERON 2008 - HUMAN PERFORMANCE, NUTRITION AND AGING
 - GERON 2011 - NAVIGATING GRIEF AND LOSS IN OLDER ADULTS
 - NURNP 2526 - MANAGEMENT: GERIATRIC HEALTH THEORY
 - PHARM 2003 - PHARMACOEPIDEMOLOGY
 - PHARM 5811 - CLINICAL NUTRITION
 - PHARM 5851 - SPECIAL TOPICS 1
 - PHARM 1095 Community Connector Course
 - PSY 1230 Psychology of Death and Dying
 - SOC 1307 Sociology of Health Illness and Disease
 - SOC 1450 Health and Illness
- OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Global Health ARCO

The purpose of the Area of Concentration in Global Health (ARCO-GH) is to allow students to pursue an area of emphasis within global health consistent with their professional interests and while completing their PharmD degree. The ARCO-GH is intended to give students an in-depth exposure to global health pharmacy practice.

ARCO-GH Academic Requirements

The ARCO-GH consists of six credits of approved elective classroom-based courses, two Advanced Pharmacy Practice Experiences (APPEs) in global health, and an approved project conducted under the guidance of an advisor. A minimum of 16 credit hours of coursework and rotations in the ARCO-GH are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- BIOINF 2124 - PRINCIPLES OF GLOBAL HEALTH INFORMATICS
 - PHARM 5801 - PHARMACEUTICAL CARE TO UNDERSERVED POPULATIONS
 - PHARM 5814 - GLOBAL HEALTH: DETERMINANTS AND APPLICATION
 - PHARM 5818 - MEDICAL PARASITOLOGY
 - PHARM 5831 - HEALTHCARE FOR LGBTQIA COMMUNITY
 - PHARM 5891 - INTERNATIONAL PHARMACY SCHOLARLY EXPERIENCE 2 (IPSE)
 - PHARM 5851 - SPECIAL TOPICS 1
 - PUBHLT 2025 - CONCEPTS AND METHODS IN GLOBAL HEALTH
- OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Pediatrics ARCO

The purpose of the Area of Concentration in Pediatrics (ARCO-PED) is to allow students to pursue an area of emphasis in pediatric pharmacy practice so as to prepare them to better meet the specialization of pediatric pharmacy while completing the PharmD degree.

ARCO-PED Academic Requirements

The ARCO-PED consists of six credits of approved elective classroom-based courses, two Advanced Pharmacy Practice Experiences (APPEs) in pediatrics, and an approved project conducted under the guidance of an advisor. A minimum of 16 credit hours of coursework and rotations in the ARCO-PED are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- PHARM 5806 - PEDIATRIC PHARMACEUTICAL CARE
- PHARM 5826 - ADVANCED PEDIATRIC PHARMACEUTICAL CARE
- PHARM 5851 - SPECIAL TOPICS 1

OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - PharmacoAnalytics ARCO

The purpose of the Area of Concentration in Pharmacoanalytics (ARCO-PA) in the School of Pharmacy is to allow students to learn and implement data analysis techniques while completing their PharmD degree. The ARCO-PA is designed to help students utilize data and technology to enhance pharmaceutical use, operations, and outcomes and drive better quality patient care while also providing pharmacists with the tools and knowledge necessary to analyze trends from large data sets and then interpret these trends in a way that allows them to improve their daily practice. Students will become acquainted with big data sources, managing data, data analytic techniques from experience with statistical and analytics software to apply towards decision-making processes in the pharmacy field, including drug development, drug pricing and acquisition, and patient care outcomes.

ARCO-PA Academic Requirements

The ARCO-PA consists of six credits of approved elective classroom-based courses, two Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 16 credit hours of coursework and rotations in the ARCO-PA are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- PHARM 3045 - ADVANCED STATISTICAL METHODS
- PHARM 3073 - APPLIED MULTIVARIATE STATISTICAL ANALYSIS IN PHARMACEUTICAL SCIENCES
- PHARM 5830 - DISCOVERING SCIENTIFIC INQUIRY (DSI)
- PHARM 5834 - PYTHON FOR DATA MANAGEMENT AND ANALYTICS
- PHARM 5851 - SPECIAL TOPICS 1

OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Pharmacotherapy Scholars Program ARCO

The purpose of the Area of Concentration - Pharmacotherapy Scholars Program (ARCO-PT) is to prepare pharmacy students to become highly proficient patient care providers and for a successful transition into competitive post-graduate residency training programs.

ARCO-PT Academic Requirements

The ARCO-PT consists of six (6) credits of approved elective classroom-based courses, four Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 16 credits of coursework and rotations in the ARCO-PT are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- PHARM 5813 - ACUTE CARE PHARMACOTHERAPY SIMULATION

- PHARM 5830 - DISCOVERING SCIENTIFIC INQUIRY (DSI)
OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Pharmacy Business Administration ARCO

The purpose of the Area of Concentration in Pharmacy Business Administration (ARCO-PBA) is to allow students to pursue an area of emphasis within management consistent with their professional interests and expose students to an area of pharmacy practice that may best suit their interests. Student leaders and informal organizers may discover that pharmacy leadership provides an energizing career path.

ARCO-PBA Academic Requirements

The ARCO-PBA consists of six (6) credits of approved elective classroom-based courses, four Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 16 credits of coursework and rotations in the ARCO-PBA are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- BCHS 2558 - HEALTH PROGRAM EVALUATION
- PHARM 2510 - EXECUTIVE BOARDROOM
- PHARM 5805 - COMMUNITY PHARMACY MANAGEMENT
- PHARM 5812 - HEALTHCARE INNOVATIONS 1
- PHARM 5815 - CONCEPTS OF MANAGED CARE PHARMACY
- PHARM 5851 - SPECIAL TOPICS 1

BUSERV 1915 Introduction to Management

COMMRC 1102 Organizational Communication

COMMRC 1106 Small Group Communication

NUR 1900 Global Health Care

OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctor of Pharmacy - Research ARCO

The purpose of the Area of Concentration in Research (ARCO-RES) in the University of Pittsburgh School of Pharmacy Doctor of Pharmacy (PharmD) program is to provide students exposure to research fundamentals, cultivate an appreciation for clinical and translational research, and to help position students as highly competitive candidates for formal post-PharmD research education and training.

ARCO-RES Academic Requirements

The ARCO-RES consists of six (6) credits of approved elective classroom-based courses, four Advanced Pharmacy Practice Experiences (APPEs), and an approved project conducted under the guidance of an advisor. A minimum of 16 credits of coursework and rotations in the ARCO-RES are required. It does not require the student to take additional credits, but rather is a way for students to concentrate their classroom and experiential learning experiences in a focused way to meet the intent of the area of concentration.

Choose six credits from pre-approved courses inside and outside of the School of Pharmacy:

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 2003 - PHARMACOEPIDEMIOLOGY
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3025 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3034 - TOPICS IN TRANSLATIONAL RESEARCH
- PHARM 3040 - STATISTICAL METHODS
- PHARM 3068 - COMPUTATIONAL SYSTEMS PHARMACOLOGY

- PHARM 3069 - PHARMACOMETRICS
 - PHARM 3072 - TOPICS IN PHARMACOKINETICS/PHARMACODYNAMICS JOURNAL CLUB
 - PHARM 3140 - INTRODUCTION TO TRANSLATIONAL RESEARCH IN THE HEALTH SCIENCES
 - PHARM 5819 - COMMUNITY LEADERSHIP INNOVATION & PRACTICE (CLIP)
 - PHARM 5820 - PHARMACY INNOVATION 1
 - PHARM 5821 - PHARMACY INNOVATION 2
 - PHARM 5822 - RESEARCH FUNDAMENTALS
 - PHARM 5824 - MENTORED RESEARCH
 - PHARM 5834 - PYTHON FOR DATA MANAGEMENT AND ANALYTICS
 - PHARM 5851 - SPECIAL TOPICS 1
 - PHARM 5891 - INTERNATIONAL PHARMACY SCHOLARLY EXPERIENCE 2 (IPSE)
- OR Additional courses inside or outside the School of Pharmacy may also be accepted on a case-by-case basis with prior approval of the oversight group, the course instructor, and the School of Pharmacy Curriculum Committee

Doctoral

Pharmaceutical Sciences - Biochemical Pharmacology Track, PhD

Biochemical Pharmacology

The biochemical pharmacology track focuses on the biochemical mechanisms responsible for drug and other xenobiotic, and gene actions on living systems, both healthy and compromised.

- You will have the opportunity to study with faculty in multiple areas including behavioral, cardiovascular and endocrine pharmacology, neuropharmacology, immunopharmacology, chemotherapy, toxicology, and metabolic diseases.
- Your research opportunities include studying the biochemical mechanism of drugs and genes in cell cultures and/or healthy and compromised animal models.
- You will have the opportunity to create and/or use genetically engineered animals that include transgenic and knockout mice, as well as to integrate disease models into the animal models in order to study the gene function in diseases.
- You will develop a broad knowledge of the regulation of drug metabolizing enzymes and transporters and the implications of this regulation in drug metabolism.

PhD Comprehensive Exam and Dissertation

Requirements:

Students must complete a total of 72 credit hours to fulfill the requirements for the PhD. Required courses for all PhD students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and dissertation research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area. For students interested in the Clinical Pharmaceutical Scientist Track, you may find the curriculum here:

http://www.pharmacy.pitt.edu/research/clinical_pharma_science.php

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3043 - TEACH ME TO TEACH YOU
- PHARM 3042 - RESEARCH PRACTICUM

1st Year: Spring

- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Fall

- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3038 - ESSENTIALS COMPETITIVE GRANT WRITING 1
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 3039 - ESSENTIALS COMPETITIVE GRANT WRITING 2
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

3rd Year: Fall

- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

PhD Comprehensive Exam and Dissertation

Each student follows a program of study developed in conjunction with the major advisor with input from the student's doctoral committee. The program of study must contain all of the program core courses as well as elective courses specific to the student's focus area.

Following completion of course work, students are required to complete a comprehensive examination. To be eligible for the comprehensive examination, students must be in full graduate status and have completed didactic course work with a minimum grade point average (GPA) of 3.00. To qualify for advancement to candidacy for the Doctor of Philosophy degree the student must pass the comprehensive examination.

Admission to PhD candidacy constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to research and writing of the dissertation.

Each PhD student must write a dissertation that presents the results of research carried out by the student. An appropriate research project involves a substantive piece of original and independent research grounded in an appropriate body of literature. It is relevant to an identifiable field as it is currently practiced. It represents a hypothesis tested by collection and analysis of data and provides a significant contribution or advancement to that field.

See Regulations Pertaining to Doctoral Degrees for a full overview of regulations and procedures for PhD candidates.

Further information is available on the School of Pharmacy website: http://www.pharmacy.pitt.edu/programs/grad/grad_index.php.

Pharmaceutical Sciences - Clinical Pharmaceutical Scientist Track, PhD

Clinical Pharmaceutical Scientist

The clinical pharmaceutical scientist is a specialty track in which students with expertise in pharmacotherapeutics investigate both the clinical and mechanistic elements of drug therapy issues.

- You will learn experimental design, experimental methods, data analysis, and data interpretation of human-based research projects.
- You will study how research discoveries are translated into practices that promote health and prevent disease.
- You will learn the process required to implement new therapies as standards of care through human-based research projects.

Pharmaceutical Sciences - Medicinal Chemistry Track, PhD

Medicinal Chemistry

The medicinal chemistry track is a complex scientific discipline whose focus is to develop molecules that can impact human health by discovering, designing, synthesizing and characterizing safe and effective agents for disease therapy and diagnosis. The research involves a multidisciplinary approach encompassing chemistry and biology, and includes organic synthesis, protein and nucleic acid chemistry, natural product chemistry, computational chemistry, molecular biology, cell biology, structural biology, pharmacology and proteomics.

- You will learn to design, synthesize and characterize new medicinal agents and enhance the biological activity of existing pharmaceutical agents.
- You will learn to use computational, biophysical, structural biology and cell-based screening technologies to identify natural and synthetic compounds for pharmacological activity and to conduct structure-based drug design.
- You will isolate, characterize, and synthesize compounds based on natural products, as well as target identification for biologically active natural products.

Pharmaceutical Sciences - Pharmaceutical Outcomes and Policy Research Track, PhD

Pharmaceutical Outcomes and Policy Research

Pharmaceutical Outcomes and Policy Research (POPR) is a specialty track/program in Pharmaceutical Sciences. The POPR track will train students to investigate the impact and outcomes of pharmaceutical products, pharmacy services, and pharmaceutical policies across health care systems. The core mission of POPR is the advancement of knowledge about the safety and effectiveness of medicines, and pharmacy's role in improving population health. POPR students most often focus on patient-centered outcomes such as access, safety, quality of care, costs, and patient-reported health. Graduates will be trained to work in a broad range of settings, including: academia; pharmaceutical industry; government organizations such as FDA, AHRQ, NIH; contract research organizations; and health care systems

- You will learn epidemiological study designs, data management, data analysis, and data interpretation.
- You will develop strong quantitative methodological skills in pharmaceutical outcomes and health services research.
- You will apply social/behavioral theory to the study of patient, provider, and organizational behaviors as it relates to pharmaceuticals and pharmacy practice.
- You will learn how pharmaceutical outcomes research is used to inform clinical practice and guide health policy decisions.

PhD Comprehensive Exam and Dissertation

Requirements

Students must complete a total of 72 credit hours to fulfill the requirements for the PhD. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
 - EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
 - EPIDEM 2185 - INTRODUCTION TO SAS
 - PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- Journal Club
Electives

1st Year: Spring

- BIOST 2042 - INTRODUCTION TO STATISTICAL METHODS 2
 - BIOST 2049 - APPLIED REGRESSION ANALYSIS
 - EPIDEM 2180 - FUNDAMENTALS OF EPIDEMIOLOGICAL METHODS
 - PHARM 2003 - PHARMACOEPIDEMOLOGY
 - PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
 - CLRES 3140 - INTRODUCTION TO TRANSLATIONAL RESEARCH IN HEALTH SCIENCES
- Journal Club

2nd Year: Fall

- BIOST 2046 - ANALYSIS OF COHORT STUDIES
 - PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
 - PHARM 3038 - ESSENTIALS COMPETITIVE GRANT WRITING 1
 - PHARM 3043 - TEACH ME TO TEACH YOU
- Journal Club

2nd Year: Spring

- PHARM 3039 - ESSENTIALS COMPETITIVE GRANT WRITING 2
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3062 - ADVANCED METHODS IN PHARMACEUTICAL OUTCOMES & POLICY RESEARCH
- CLRES 2050 - ETHICS & RESPONSIBLE CONDUCT OF RESEARCH (ONLINE)
Journal Club
Electives

3rd Year: Fall

- PHARM 3042 - RESEARCH PRACTICUM
Track-Specific and/or Electives

Pharmaceutical Sciences - Pharmaceutics Track, PhD

Pharmaceutics

The pharmaceutics track is concentrated on the study of the design of pharmaceutical dosage forms and their interaction with the human body. Topics included are physical pharmacy, bioanalysis, drug delivery and targeting, drug metabolism, drug transport, pharmacokinetics and pharmacodynamics.

- You will develop a thorough understanding of how to apply principles of physical pharmacy to dosage form design and optimization of drug product performance.
- You will develop the fundamentals required for design of both traditional and complex state-of-the-art drug delivery systems and skills essential for the advancement of targeted drug therapies using small molecules, proteins, peptides and other biomolecules, probiotics, and tissue engineered platforms.
- You will gain knowledge of the human body and the interaction of medications with the human body including metabolism, pharmacokinetics and pharmacodynamics.
- Your research opportunities include formulation of dosage forms, development of novel delivery systems and development of complex new therapies for site specific action, establishing novel markers for disease, study of metabolic pathways, development of bioanalytical techniques, and evaluation of absorption, distribution, and elimination of drug substances and their regulation.

Pharmaceutical Sciences - Pharmacometrics and Systems Pharmacology Track, PhD

The Pharmacometrics and Systems Pharmacology (PSP) is an interdisciplinary science to study drug actions and rational development of new drugs through network analysis, multitype-multiscale modeling and simulations "**mechanism-driven**", as well as data analysis "**data-driven**". The PSP track focuses on applying Pharmacometrics and System Pharmacology techniques to facilitate the development of novel drug candidates that are less likely to fail during clinical trials and to provide a better understanding of drug mechanisms of action and therapeutic effects at the systems pharmacology level.

- You will develop a broad knowledge of pharmacometrics and systems pharmacology to develop drug candidates that are less likely to fail during clinical trials.
- You will develop strong computational modeling and simulation expertise from drug target fishing, to drug lead identification, to drug profile optimization.
- You will develop strong computational expertise on pharmacokinetics (PK) and pharmacodynamics (PD) modeling and simulation.
- You will develop skills on multiscale modeling of biological processes at the molecular, gene, organ and organism levels.
- You will have opportunities to study with faculty from a variety of background including computer-aided drug design, computational and systems biology/pharmacology, population PK/PD modeling, computational chemical genomics, computational biophysics, etc.
- Candidates with programming experience, basic/intermediate knowledge in statistics and/or hands-on modeling experience are highly desired.

This program is associated with the Computational Chemical Genomics Screening Center. More about this program track is [here](#).

Graduate Certificate

Pharmacy Business Administration Graduate Certificate

Certificate in Pharmacy Business Administration

A new and unique executive-style certificate education program designed for working professionals striving to obtain an in-depth understanding of the Business of Medicines. The Certificate program consists of 18 credits and is designed to be completed in one year.

- Learn to Innovate and Solve Real World Healthcare Problems
- Focus in Specialized Areas of Concentration
- Increase your Pharmacy Business Acumen

Focused Tracks

- Advanced Community Pharmacy Management
- Specialty Pharmacy Management
- Managed Care Pharmacy

Contact Information

Bridget T. Regan, MBA, RPh

Application and Requirements

Criteria for qualified candidates for admission into the PBA certificate program include:

- Candidates with a PharmD or BS in Pharmacy will receive preferential admission

Students enrolled in another graduate program at the University of Pittsburgh are able to apply for concurrent enrollment in the PBA Certificate program. Tuition for the PBA Certificate program will be in addition and separate from the other graduate degree program.

To apply to the program, you must complete the following requirements:

- Completed Application Form (Application PDF)
- Résumé or CV
- One self-nomination letter describing:
 - Current job responsibilities and assignments
 - Finest achievements and greatest disappointments
 - Challenges met within current organization
 - Civic and community activities and any offices held
 - Reasons and motivations for entering the MPBA program
 - Professional and personal goals and plans

- Two letters of professional reference
- College or university transcripts
- Graduate school admission exam scores (recommended)
 - GMAT
- TOEFL or the IELTS examination (for anyone who speaks English as a second language)
- In-person interview with MPBA program representatives

Applicants will be contacted for scheduling of an on-site interview following receipt of complete packet of information.

Tuition & Financial Aid

Tuition Rates and Fees can be found on the school's Web site at <https://oafa.pitt.edu/financialaid/costs/>. Tuition is charged at a per credit rate each term.

Students should investigate their eligibility for federal and state programs by calling the Office of Admissions and Financial Aid at 412-624-PITT or e-mail oafa@pitt.edu. U.S. citizens who are funding the degree in full, in part, or whose employer reimburses only after the end of a term, may wish to consider financing. Students may also finance their costs through standard loans.

The University's financial advisors are the best source of information about local grants or scholarships that extend beyond federal and state programs. Students are encouraged to look outside of the health professions for additional support. Students may be able to compete successfully for economically or academically awarded scholarships from private groups and associations.

All students, including students traveling from out of town, are responsible for all travel expenses.

The MPBA program will provide a list of hotels that offer University rates from which students can select and reserve rooms.

Tuition Includes

- All books, cases, and simulations; meals during class sessions
- Microsoft Windows and Program Bundle software packages
- Access to all University of Pittsburgh student resources such as libraries, fitness facilities, and public transportation while on campus

Requirements

Pharmacy Administration Core Courses

- PHARM 5910 - US HEALTHCARE SYSTEM
- PHARM 5911 - HEALTHCARE SALES AND MARKETING
- PHARM 5912 - LEADERSHIP AND ETHICS IN HEALTHCARE
- PHARM 5914 - GRADUATE EXECUTIVE BOARDROOM
- PHARM 5915 - EXECUTIVE HEALTHCARE INNOVATIONS
- PHARM 5916 - PREDICTIVE ANALYTICS IN PHARMACY AND KNOWLEDGE DISCOVERY FROM BIG DATA

Focused Areas

Choose two paired and sequenced courses from:

- PHARM 5926 - ADVANCED COMMUNITY PHARMACY MANAGEMENT 1
- PHARM 5927 - ADVANCED COMMUNITY PHARMACY MANAGEMENT 2
- PHARM 5928 - SPECIALTY PHARMACY MANAGEMENT 1
- PHARM 5929 - SPECIALTY PHARMACY MANAGEMENT 2
- PHARM 5930 - PHARMACY BENEFITS MANAGEMENT 1
- PHARM 5931 - PHARMACY BENEFITS MANAGEMENT 2

Master's

Pharmaceutical Sciences - Biochemical Pharmacology Track, MS

Biochemical Pharmacology

The biochemical pharmacology track focuses on the biochemical mechanisms responsible for drug and other xenobiotic, and gene actions on living systems, both healthy and compromised.

- You will have the opportunity to study with faculty in multiple areas including behavioral, cardiovascular and endocrine pharmacology, neuropharmacology, immunopharmacology, chemotherapy, toxicology, and metabolic diseases.
- Your research opportunities include studying the biochemical mechanism of drugs and genes in cell cultures and/or healthy and compromised animal models.
- You will have the opportunity to create and/or use genetically engineered animals that include transgenic and knockout mice, as well as to integrate disease models into the animal models in order to study the gene function in diseases.
- You will develop a broad knowledge of the regulation of drug metabolizing enzymes and transporters and the implications of this regulation in drug metabolism.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Clinical Pharmaceutical Scientist Track, MS

Clinical Pharmaceutical Scientist

The clinical pharmaceutical scientist is a specialty track in which students with expertise in pharmacotherapeutics investigate both the clinical and mechanistic elements of drug therapy issues.

- You will learn experimental design, experimental methods, data analysis, and data interpretation of human-based research projects.
- You will study how research discoveries are translated into practices that promote health and prevent disease.
- You will learn the process required to implement new therapies as standards of care through human-based research projects.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Medicinal Chemistry Track, MS

Medicinal Chemistry

The medicinal chemistry track is a complex scientific discipline whose focus is to develop molecules that can impact human health by discovering, designing, synthesizing and characterizing safe and effective agents for disease therapy and diagnosis. The research involves a multidisciplinary approach encompassing chemistry and biology, and includes organic synthesis, protein and nucleic acid chemistry, natural product chemistry, computational chemistry, molecular biology, cell biology, structural biology, pharmacology and proteomics.

- You will learn to design, synthesize and characterize new medicinal agents and enhance the biological activity of existing pharmaceutical agents.
- You will learn to use computational, biophysical, structural biology and cell-based screening technologies to identify natural and synthetic compounds for pharmacological activity and to conduct structure-based drug design.
- You will isolate, characterize, and synthesize compounds based on natural products, as well as target identification for biologically active natural products.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Non -Thesis, MS

The Graduate Program in Pharmaceutical Sciences is pleased to offer the new Non-Thesis MS degree to qualified students.

Why choose the non-research based thesis?

Students will be able to complete the MS degree in one calendar year. Our MS in Pharmaceutical Sciences attracts students interested in drug discovery, delivery, and metabolism in addition to pharmacology, pharmacokinetics, and pharmacodynamics. Graduating with the MS in Pharmaceutical Sciences will prepare you for employment in pharmaceutical manufacturing plants and labs. Pharmaceutically-trained professionals are involved in biotechnology, research, synthesizing and testing new compounds, in marketing and sales of pharmaceuticals and biomedical devices, and in pharmaceutical benefit management. Some areas where graduates with degrees in Pharmaceutical Sciences are sought after are Cosmetic Science, Industrial Pharmacy, and University-based laboratory areas.

Non-Thesis MS Academic Requirements for Acceptance

- A BS or BA in biochemistry, biology, chemistry, pharmacy, pharmaceutical sciences or a related field is required.
- Applications must be submitted electronically.
- We require three references that MUST be submitted online. Written references are not accepted.
- Successful applicants will be admitted for fall 2012. We do not accept Spring Admissions.
- The Graduate Record Examination (GRE) is required and must have been taken within the past three years. Subject specific tests are not required.
- International applicants with English as a second language must complete the TOEFL or IELTS. For TOEFL a minimal score of 80 (Internet-based test), 550 (Paper-based test), or 213 (Computer-based test) is required. For IELTS the minimum acceptable score is 6.5.
- You must submit GRE and TOEFL (or IELTS) scores to the University of Pittsburgh, institution code is 2927. You do not need a department code. TOEFL scores are good for two years; the ETS will not release TOEFL scores after 2 years from the date of the exam.
- If you have graduated from a U.S. institution OR if English is the official language of your country then TOEFL or IELTS scores are not required.
- IMPORTANT: WE DO NOT ACCEPT ANY DOCUMENTS SENT VIA MAIL TO OUR DEPARTMENT. You will be notified if your application is reviewed and you are invited for an interview. At that time you will need to supply an official copy of your transcript.
- Application to our program requires a \$50.00 fee which cannot be waived. Credit cards are accepted. To apply, go to: http://www.pharmacy.pitt.edu/programs/grad/ms_nonthesis.php; click Apply On-line!

Program Requirements for Graduation

- 30 credits are required for graduation. A minimum of 10 credits must be taken in any given semester.
- In lieu of an original research study the student would complete a written project consisting of a comprehensive literature review of a topic of current interest in pharmaceutical sciences. The student would defend the project as an oral examination before their MS committee and major advisor.
- The MS committee will consist of the Director of the Graduate Program in Pharmaceutical Sciences, the student's major advisor and one other member of the faculty chosen by the student and major advisor and approved by the Program Director and Senior Associate Dean.
- Students would be required to attend the training courses offered by the University.
 - Small Animal Training
 - Bloodborne Pathogens Training
 - Chemical Hygiene Plan & Formaldehyde Awareness
 - Radiation Safety Course

Sample Curriculum for Non-Thesis MS

Fall Term

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-4 credits

Spring Term

- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-4 credits

Summer Term

- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-9 credits

Pharmaceutical Sciences - Pharmaceutics Track, MS

Pharmaceutics

The pharmaceutics track is concentrated on the study of the design of pharmaceutical dosage forms and their interaction with the human body. Topics included are physical pharmacy, bioanalysis, drug delivery and targeting, drug metabolism, drug transport, pharmacokinetics and pharmacodynamics.

- You will develop a thorough understanding of how to apply principles of physical pharmacy to dosage form design and optimization of drug product performance.
- You will develop the fundamentals required for design of both traditional and complex state-of-the-art drug delivery systems and skills essential for the advancement of targeted drug therapies using small molecules, proteins, peptides and other biomolecules, probiotics, and tissue engineered platforms.
- You will gain knowledge of the human body and the interaction of medications with the human body including metabolism, pharmacokinetics and pharmacodynamics.
- Your research opportunities include formulation of dosage forms, development of novel delivery systems and development of complex new therapies for site specific action, establishing novel markers for disease, study of metabolic pathways, development of bioanalytical techniques, and evaluation of absorption, distribution, and elimination of drug substances and their regulation.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Pharmacometrics and Systems Pharmacology Track, MS

The Pharmacometrics and Systems Pharmacology (PSP) is an interdisciplinary science to study drug actions and rational development of new drugs through network analysis, multitype-multiscale modeling and simulations "**mechanism-driven**", as well as data analysis "**data-driven**". The PSP track focuses on applying Pharmacometrics and System Pharmacology techniques to facilitate the development of novel drug candidates that are less likely to fail during clinical trials and to provide a better understanding of drug mechanisms of action and therapeutic effects at the systems pharmacology level.

- You will develop a broad knowledge of pharmacometrics and systems pharmacology to develop drug candidates that are less likely to fail during clinical trials.
- You will develop strong computational modeling and simulation expertise from drug target fishing, to drug lead identification, to drug profile optimization.
- You will develop strong computational expertise on pharmacokinetics (PK) and pharmacodynamics (PD) modeling and simulation.
- You will develop skills on multiscale modeling of biological processes at the molecular, gene, organ and organism levels.
- You will have opportunities to study with faculty from a variety of background including computer-aided drug design, computational and systems biology/pharmacology, population PK/PD modeling, computational chemical genomics, computational biophysics, etc.
- Candidates with programming experience, basic/intermediate knowledge in statistics and/or hands-on modeling experience are highly desired.

This program is associated with the Computational Chemical Genomics Screening Center. More about this program track is [here](#).

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3068 - COMPUTATIONAL SYSTEMS PHARMACOLOGY
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3040 - STATISTICAL METHODS
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club Courses:
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE
- PHARM 3048 - DRUG DESIGN AND DEVELOPMENT JOURNAL CLUB
Track-specific and/or Electives

1st Year: Spring

- PHARM 3071 - FOUNDATIONS OF PHARMACEUTICAL SCIENCES
- PHARM 3025 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club courses:
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3048 - DRUG DESIGN AND DEVELOPMENT JOURNAL CLUB
- PHARM 3072 - TOPICS IN PHARMACOKINETICS/PHARMACODYNAMICS JOURNAL CLUB
Track-specific and/or Electives

2nd Year: Fall

- PHARM 3069 - PHARMACOMETRICS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
Choose one of the following Journal Club courses:
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - ADVANCES IN DRUG DELIVERY AND REGENERATIVE MEDICINE
- PHARM 3048 - DRUG DESIGN AND DEVELOPMENT JOURNAL CLUB
Track-specific and/or Electives

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- PHARM 3025 - PHARMACEUTICAL SCIENCES SEMINAR
Choose one of the following Journal Club courses:
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3072 - TOPICS IN PHARMACOKINETICS/PHARMACODYNAMICS JOURNAL CLUB
- PHARM 3048 - DRUG DESIGN AND DEVELOPMENT JOURNAL CLUB
Track-specific and/or Electives

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

PharmacoAnalytics - Pharmaceutical Outcomes Research, MS

This online MS program in PharmacoAnalytics-Pharmaceutical Outcomes Research provides students the opportunity to develop expertise in the application of data science and technology to optimize pharmaceutical use and enhance patient care and outcomes.

The program will provide students with the tools and knowledge necessary to analyze trends from large data sets and then interpret these trends in a way that allows them to improve their daily practice. Students will be competent with identifying big data sources, managing data, using various data analytic techniques from experience with statistical and analytics software to apply towards decision-making processes in the pharmacy field, including drug development, drug pricing and acquisition, and patient care outcomes. Students will work directly with highly accomplished, well-funded research faculty; will have multidisciplinary training opportunities; and gain experience with cutting-edge technologies.

Knowledge of data manipulation in some platform (STATA, SAS, Python, R, Tableau); secondary data sources, methods and tools are preferred prior to enrollment. Courses will be 100% online.

Core Courses PharmacoAnalytics

Core Courses PharmacoAnalytics (19.5 credits)

- PHARM 2003 - PHARMACOEPIDEMIOLOGY
- PHARM 3040 - STATISTICAL METHODS
- PHARM 3045 - ADVANCED STATISTICAL METHODS
- PHARM 3049 - SCIENTIFIC WRITING SKILLS
- PHARM 3301 - SECONDARY DATABASE APPLICATIONS
- PHARM 3302 - CONDUCTING RESEARCH WITH LARGE BIOMEDICAL DATABASES
- PHARM 3304 - RESEARCH METHODS FOR PHARMACEUTICAL PRACTICE AND POLICY
- PHARM 3306 - INTRODUCTION TO THE UNITED STATES HEALTHCARE SYSTEM AND PHARMACEUTICALS

- PHARM 3308 - DATA PRIVACY AND SECURITY
- PHARM 3310 - SECONDARY DATA SOURCES, METHODS AND TOOLS
- PHARM 3312 - COMMUNICATING DATA
- PHARM 3303 - TOPICS AND METHODS FOR SECONDARY DATABASE EVALUATIONS
- PHARM 3052 - TOPICS AND METHODS IN PHARMACEUTICAL OUTCOMES AND POLICY RESEARCH

Electives

Choose Electives (minimum 9.5 credits)

- PHARM 3042 - RESEARCH PRACTICUM
- PHARM 3073 - APPLIED MULTIVARIATE STATISTICAL ANALYSIS IN PHARMACEUTICAL SCIENCES
- PHARM 3300 - CONCEPTS IN PHARMACOECONOMIC AND OUTCOME EVALUATIONS IN HEALTH AND MEDICINE
- PHARM 5834 - PYTHON FOR DATA MANAGEMENT AND ANALYTICS
- PHARM 5916 - PREDICTIVE ANALYTICS IN PHARMACY AND KNOWLEDGE DISCOVERY FROM BIG DATA
Required for those without a Pharmacy background, otherwise Elective:
- PHARM 3078 - MEDICATION PHARMACOLOGY: A PHARMACOLOGIC FRAMEWORK FOR UNDERSTANDING DRUG ACTION

Thesis

Thesis (minimum 1 credit)

- PHARM 2010 - MASTER OF SCIENCE THESIS

Total Credits: 30

Pharmacy Business Administration, MPBA

Master of Pharmacy Business Administration

The 12-month executive style Master of Pharmacy Business Administration (MPBA) program consists of 36 credits that build critical skills and expertise for pharmacy professionals seeking to substantially increase their business acumen and marketability.

MPBA Value

- Designed for emerging pharmacy professionals seeking executive positions.
- Obtain an in-depth understanding of the business of medicines.
- Learn to innovate and solve real-world problems.
- Focus in specialized area of either Specialty or Community Pharmacy.

MPBA Fit

- Synergistically fusing the expertise of the Schools of Pharmacy and Business
- Efficiently formatted for working professionals
- Friday and Saturday every other week for 12 months.

Requirements

1st Semester

- BACC 2401 - FINANCIAL ACCOUNTING
- BMIS 2409 - INFORMATION SYSTEMS
- BMKT 2409 - MARKETING MANAGEMENT
- BOAH 2801 - ORG BEHAV: LDRSHP & GRP EFFECT
- PHARM 5911 - HEALTHCARE SALES AND MARKETING
- PHARM 5915 - EXECUTIVE HEALTHCARE INNOVATIONS

2nd Semester

- BACC 2528 - MANAGERIAL ACCOUNTING
- BFIN 2306 - FINANCIAL MANAGEMENT
- PHARM 5912 - LEADERSHIP AND ETHICS IN HEALTHCARE
- PHARM 5914 - GRADUATE EXECUTIVE BOARDROOM
- Choose One:
- PHARM 5924 - HEALTH SYSTEM PHARMACY MANAGEMENT 1
OR
- PHARM 5926 - ADVANCED COMMUNITY PHARMACY MANAGEMENT 1
OR
- PHARM 5928 - SPECIALTY PHARMACY MANAGEMENT 1
OR
- PHARM 5930 - PHARMACY BENEFITS MANAGEMENT 1

3rd Semester

- BIND 2444 - MANAGEMENT SIMULATION CAPSTONE
- BSPP 2409 - STRATEGIC MANAGEMENT
- PHARM 5910 - US HEALTHCARE SYSTEM
- PHARM 5916 - PREDICTIVE ANALYTICS IN PHARMACY AND KNOWLEDGE DISCOVERY FROM BIG DATA
- Choose One:
- PHARM 5925 - HEALTH SYSTEM PHARMACY MANAGEMENT 2
OR
- PHARM 5927 - ADVANCED COMMUNITY PHARMACY MANAGEMENT 2
OR
- PHARM 5929 - SPECIALTY PHARMACY MANAGEMENT 2
OR
- PHARM 5931 - PHARMACY BENEFITS MANAGEMENT 2

Professional

Doctor of Pharmacy, PharmD

Doctor of Pharmacy (PharmD) Program

The professional curriculum is configured in a course of study requiring two years (62 credits) of pre-professional study followed by four years of professional courses. The four-year professional curriculum emphasizes problem solving and critical thinking, blending classroom and laboratory learning with experiential learning practice. The required component of experiential learning is designed to facilitate progress from initial stages of making meaningful connections with patients to caring for complex patients with acute and chronic diseases. Experiences include patient care in communities, in hospitals, and during transitions of care. This experiential education begins in the first weeks of your P1 year.

Through our commitment to personalizing education, PittPharmacy inspires students to use their unique interests and talents to improve the lives of people through the safe, effective, and responsible use of medications and other interventions.

The PharmD program prepares students to be practitioners who advance the profession by fostering innovation, leadership, interprofessional collaboration, civic engagement, advocacy, life-long learning, and a professional attitude of inclusion.

Program Accreditation

University of Pittsburgh's Doctor of Pharmacy Program is accredited by the Accreditation Council for Pharmacy Education, 190 South LaSalle Street, Suite 2850, Chicago, IL 60603, 312/664-3575; FAX 866/228-2631, web site www.acpe-accredit.org

Pre-Professional Requirements

Applicants to the professional pharmacy program must have successfully completed, or be in the process of completing, all prerequisite mathematics and science subjects no later than the spring term of the year of admission. All other pre-professional courses should be completed no later than the first day of the fall term of admission. Pre-professional courses must be taken for a letter grade.

Pre-Professional Courses:

- General Biology (with lab) - 8 credits
- General Chemistry (with lab) - 8 credits
- Organic Chemistry (with lab) - 8 credits
- English Composition - 6 credits
- Calculus - 3-4 credits
- Statistics - 3-4 credits
- Elective courses+ - 24 credits

Total: 60-62 credits

+At least 9 credits must be in the humanities and 9 credits in the social sciences. A course in Public Speaking is recommended.

Non-native English-speaking applicants must supply evidence of their proficiency in the English language.

Degree Requirements

To earn the degree of Doctor of Pharmacy, the student must demonstrate satisfactory achievement in required course work prescribed by the curriculum (*detailed below under Program Description*), earning an overall GPA of 2.00 or higher. Refer to the school's Student Handbook for the guidelines for academic progress.

Program Description

The professional curriculum leads to the Doctor of Pharmacy (PharmD) degree and requires completion of 134.5 credits (note: this curriculum is subject to change):

Fall Term-First Professional Year (P-1)

- PHARM 5110 - PHARMACIST PATIENT CARE 1: PROCESS AND SKILLS
- PHARM 5112 - COMMUNITY HEALTH 1: COMMUNICATION AND WELLNESS
- PHARM 5114 - ANATOMY AND PHYSIOLOGY 1
- PHARM 5116 - BIOCHEMISTRY 1
- PHARM 5118 - PRINCIPLES OF DRUG ACTION
- PHARM 5120 - THE EMERGING PROFESSIONAL
- PHARM 5122 - CASE CONFERENCE SERIES 1

Total: 16 credits

Spring Term-First Professional Year (P-1)

- PHARM 5111 - PHARMACIST PATIENT CARE 2: SKILLS AND ENVIRONMENTS
- PHARM 5113 - COMMUNITY HEALTH 2: CULTURAL AWARENESS AND BEHAVIOR
- PHARM 5115 - ANATOMY AND PHYSIOLOGY 2
- PHARM 5117 - BIOCHEMISTRY 2
- PHARM 5219 - DOSAGE FORM DESIGN AND DELIVERY
- PHARM 5121 - CASE CONFERENCE SERIES 2

Total: 16 credits

Fall Term-Second Professional Year (P-2)

- PHARM 5210 - NONPRESCRIPTION THERAPIES AND SELF-CARE PRACTICE
- PHARM 5212 - COMMUNITY PHARMACIST PRACTICE 1: PATIENT-CENTERED CARE AND SILVER SCRIPTS
- PHARM 5216 - PHARMACOTHERAPY OF CARDIOVASCULAR DISEASE
- PHARM 5218 - PHARMACOKINETICS AND DRUG RESPONSE
- PHARM 5220 - CASE CONFERENCE SERIES 3
- PHARM 5222 - FUNDAMENTALS OF IMMUNOLOGY

Total: 15 credits

Spring Term-Second Professional Year (P-2)

- PHARM 5211 - DRUG LITERATURE ANALYSIS AND EVALUATION
- PHARM 5213 - COMMUNITY PHARMACIST PRACTICE 2: MEDICATION THERAPY MANAGEMENT- IMMERSION IN PRACTICE
- PHARM 5119 - DRUG DEVELOPMENT 1
- PHARM 5223 - GASTROENTEROLOGY/NUTRITION
- PHARM 5227 - CASE CONFERENCE SERIES 4
- PHARM 5229 - FUNDAMENTALS OF NEPHROLOGY/PULMONOLOGY
- PHARM 5231 - PHARMACOTHERAPY OF INFECTIOUS DISEASE 1: COMMUNITY-BASED

Total: 16 credits

Fall Term-Third Professional Year (P-3)

- PHARM 5312 - HEALTH SYSTEM PHARMACY 1: OPERATIONS AND DISPENSING
- PHARM 5316 - PULMONOLOGY/RHEUMATOLOGY
- PHARM 5318 - ENDOCRINOLOGY
- PHARM 5320 - POPULATION HEALTH AND MANAGEMENT
- PHARM 5322 - PHARMACY LAW
- PHARM 5324 - CASE CONFERENCE SERIES 5
- PHARM 5328 - ADVANCED THERAPEUTICS: IMMUNOLOGY
- PHARM - Professional Elective - 3 credits

Total: 16.5 credits

Spring Term-Third Professional Year (P-3)

- PHARM 5311 - SAFE MEDICATION USE AND PHARMAECONOMICS
- PHARM 5313 - HEALTH SYSTEM PHARMACY 2: ADVANCED PRACTICE & MANAGEMENT
- PHARM 5315 - ONCOLOGY/HEMATOLOGY
- PHARM 5319 - NEUROLOGY/PSYCHIATRY
- PHARM 5321 - CRITICAL CARE AND ADVANCED NEPHROLOGY
- PHARM 5323 - CASE CONFERENCE SERIES 6
- PHARM - Professional Electives - 3 credits

Total: 15 credits

Fourth Professional Year (P-4)

Spans 3 semesters (SUMMER, FALL, SPRING) with several options for credits earned per semester, for a total of 40 weeks

- PHARM 5401 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 1
- PHARM 5402 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 2
- PHARM 5403 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 3
- PHARM 5404 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 4
- PHARM 5405 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 5
- PHARM 5406 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 6
- PHARM 5407 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 7
- PHARM 5408 - PHARMD ADVANCED PHARMACY PRACTICE EXPERIENCE 8

Total: 40 credits

Total Professional Credits: 134.5 credits

School of Pharmacy Faculty

Title	Name	Degree	Conferring School
Dean	Patricia D. Kroboth	PhD	University of Pittsburgh
Senior Associate Dean	Randall B. Smith	PhD	University of Texas
Associate Dean for Community Partnerships, Professor	Melissa A. McGivney	PharmD	University of Pittsburgh
Associate Dean of PharmcoAnalytics	Xiang-Qun Xie	MD, PhD	Second Military Medical University in Shanghai China; University of Connecticut
Associate Dean of Students	Sharon E. Corey	PhD	West Virginia University
Associate Dean for Academic Affairs	Denise L. Howrie	PharmD	University of Cincinnati
Chair of Pharmaceutical Sciences, Professor	Wen Xie	MD, PhD	Peking University; University of Alabama at Birmingham

Chair of Pharmacy and Therapeutics, Professor	Amy L. Seybert	PharmD	University of Pittsburgh

Graduate School of Public and International Affairs

The mission of the Graduate School of Public and International Affairs (GSPIA) is to prepare students to make substantive contributions to society through careers as managers, advisors, and policy analysts in government and nonprofit organizations in a multitude of geographic locations throughout the world. This mission is accomplished through dedication to quality teaching that builds skills and commitments to the core values, challenges, and rewards of public service. It is supported through basic and applied research on timely issues of public management; international, regional, and urban affairs; and policy making. The school and faculty are committed to making a difference in the world by drawing on diverse skills and knowledge to improve the performance of public and nonprofit organizations that contribute to free and just societies in the United States and abroad. To accomplish these ends, GSPIA teaches, conducts research, and performs public service in the following areas:

- The management and administration of public and nonprofit agencies
- The growth and sustainable development of urban metropolitan regions throughout the world
- The economic and social development of newly independent and developing states
- The emerging dynamics that are shaping today's international political economy
- Threats to and issues in international security

The mission of GSPIA stresses the importance of democratic responsibilities and personal integrity in the management of human affairs as well as the professional qualifications required for managing constructive change. Students and faculty alike are required to:

- Demonstrate the highest standards of ethical and professional conduct
- Use critical thinking and problem solving skills in addressing public policy issues
- Consider the international and intersectoral aspects of public affairs
- Develop partnerships with others both internal and external to the University of Pittsburgh

Admissions

<https://www.gspia.pitt.edu/about>

GSPIA admits persons who have demonstrated intellectual competence and high motivation in an academic and/or professional environment and who will enrich the quality of life in the school. Individuals from varied cultural, academic, and social backgrounds provide an exciting frame of reference for the stimulating exchanges so vital to a dynamic academic process. The following are required of all Master applicants: transcripts, application and fee, TOEFL, Duolingo or IELTS score (if international), letters of recommendation, essays, and resume.

Admission Prerequisites

It is desirable, but not mandatory, that PhD applicants have an earned master's degree in public and international affairs or a degree in one of the social sciences and work experience prior to undertaking doctoral study. PhD applicants are required to submit a GRE score.

Admission Requirements

All applicants must have earned a bachelor's degree from a regionally accredited U.S. institution or a degree that is equivalent to a four-year U.S. bachelor's degree. Applicants are expected to have a B+ or better average (3.0 GPA) in their work to date. To be competitive for merit scholarships, applicants normally need at least a 3.5 GPA. The admissions committee also takes into consideration GPA within the major, GPA within the last two years, extenuating circumstances, length of time since graduation from college, rigor of the undergraduate program, and other factors.

Doctoral applicants are only eligible for admission to full-time status in the Fall Term.

Application Requirements

Online Application

Complete and submit the online application in its entirety. All application materials can be submitted electronically using the online system, with the exception of official academic transcripts.

Application Fee

The non-refundable application fee may be paid by credit card. You will be prompted to pay the fee at the end of the online application process. The application fee is waived for Returned Peace Corps Volunteers, AmeriCorps Volunteers, Truman Scholars, Pickering Fellows, Coro Fellows, Rangel Fellows, McNair Fellows, Teach for America alumni, City Year alumni, Payne Fellows, Catholic Volunteer Network alumni, and veterans/active duty members of the US Armed Forces.

TOEFL, IELTS, or Duolingo English Language Test Scores (International Applications Only)

International applicants must submit either the TOEFL, Duolingo, or the IELTS. Contact Educational Testing Services directly to request that an official score report be sent to GSPIA. The minimum TOEFL score required for admission is 80 on the Internet-based test, although 90 or above is strongly preferred. The minimum IELTS score required for admission is 7.0 (overall, and in each of the subsections). The minimum Duolingo English test score required for admission is 105.

The scores must be sent directly from the testing agency to GSPIA. GSPIA's institutional code is 2574.

Exceptions: International students who completed a degree at a regionally accredited college or university in the United States are not required to submit a TOEFL/IELTS score. Students from certain English-speaking countries are also exempt (see this link for a list of exempt countries). All US citizens and permanent residents are exempt.

GRE

The GRE is only required for PhD applications.

Résumé

All applicants should upload a current résumé/curriculum vitae, showing relevant awards, academic achievements, full- and part-time job experience, internships, and volunteer work.

Personal Essay - (Master & PhD applicants)

Introduce yourself to the admissions committee. Discuss your professional goals and why you feel a GSPIA degree can help you attain them. Describe your background, interests, and motivation for pursuing graduate work in public & international affairs. There is a 5,000 character limit (approximately two double-spaced, typed pages).

Optional Essay - (Master applicants)

If there are any special circumstances you would like the admissions committee to consider, highlight them in the optional essay. Use this essay to include any information that you feel is important, but that you were not able to include elsewhere on the application. There is no penalty for leaving this blank.

PhD Applicant - Second Essay (PhD applicants only)

All PhD applicants must submit a single-authored writing sample in English that is 25 pages or less. The writing sample does not need to be a published paper but it should demonstrate academic or professional research. It must be uploaded as a PDF.

PhD Applicant - Third Essay (PhD applicants only)

PhD applicants are required to submit a third essay that discusses your potential dissertation research. Describe the idea and why it's important. Further, discuss the main questions to be investigated and the types of evidence that would be needed to support conclusions. Finally, identify the GSPIA faculty with whom you would like to work. There is a 5,000 character limit (approximately two double-space, typed pages).

Academic Transcripts

When completing the online application, you will be asked to upload copies of official transcripts from all colleges and universities you have attended, whether or not you earned a degree. You should upload a scanned copy of an official transcript generated by your university's registrar's office. Self-reported transcripts, student grade reports, or copies of unofficial transcripts are not acceptable.

It is not necessary to submit hard copies of your transcripts at the time of application, as long as your scanned copies have uploaded successfully. If you are admitted, you will then be required to submit final, official transcripts directly from your university's registrar's office to GSPIA. The official copy must exactly match the scanned copy that you submitted at the time of application.

If you do not have access to technology that will allow you to submit a scanned copy of your transcript at the time of application, you may submit an official copy instead. The official copy must be sent by mail directly from your university's registrar's office to: University of Pittsburgh, GSPIA, 230 S. Bouquet St., 3601 Posvar Hall; Pittsburgh, PA 15260

Two Letters of Recommendation

Letters should be written by professors who have taught you or supervisors who have overseen your work, either professionally or in a volunteer capacity. If you graduated from college less than three years ago, at least one, if not both, of your letters should be from professors. Letters written by friends, family members, work colleagues, or anyone who has not taught or supervised you are not acceptable.

All letters must be submitted online. When you complete the online application, you will be prompted to enter the names and email addresses of your recommenders. The system will automatically send them an email explaining how they can upload their letters.

Admission Deadlines

GSPIA does not consider applications on a rolling basis. International students are strongly encouraged to submit application materials at least one month prior to the stated deadlines.

Application Deadlines: Fall Term

US Citizens/Permanent Residents:

January 15 - PhD applicants

February 1 - MPA, MPIA, MID

June 1 - MPPM applicants

August 1 - Non-degree applicants

International Students:

January 15 - MPA, MPIA, MID, PhD, and MPPM applicants

Application Deadlines: Spring Term

US Citizens/Permanent Residents:

November 1 - MPA, MPIA, MID, and MPPM applicants

December 1 - Non-degree applicants

International Students:

August 1 - MPA, MPIA, MID, and MPPM applicants

Application Deadlines: Summer Term

US Citizens/Permanent Residents:

March 1 - MPPM applicants

April 1 - Non-degree applicants

International Students:

January 15 - MPPM applicants

School-Based Funding

GSPIA offers competitive, merit-based scholarships to its most outstanding master's degree applicants. All applicants for fall admission are automatically considered for merit funding, as long as they are planning to pursue full-time study and have submitted a complete application by the February 1 deadline. There is no separate application for GSPIA merit funding.

Typically, awards are renewed for the student's second year, as long as the student has earned at least 24 credits and maintained an overall GPA of 3.5 or better.

Tuition

2022-2023 Academic Year Tuition*

Per Term Rate for Fall & Spring

PA Resident - \$12,059

Out-of-State - \$20,447

Per Credit and Summer Term

PA Resident - \$970

Out-of-State - \$1,670

2022-2023 Academic Year Mandatory Fees*

	Full-Time Per Term	Part-Time Per Term
Student Activity Fee	\$30	\$15

Wellness Fee	\$230	\$115
Computing & Network Services Fee	\$175	\$100
Security, Safety & Transportation Fee	\$130	\$130

*Subject to change based on University of Pittsburgh tuition rates and fees

Academic Standards

Students are in good academic standing when they earn acceptable grades for graduate work and make normal progress toward the degree. Specifically, full-time students must earn a minimum of 9 credits per term with a minimum cumulative GPA of 3.5 in all courses. Part-time students are held to the same standards. However, they are expected to do so while carrying less than 9 credits per term. Full- or part-time students admitted with provisional status must maintain a minimum cumulative GPA of 3.0 in all courses in their first 12 credits.

Students receiving school-based funding are held to higher standards. Master's students must earn, after two terms, 24 credits and a cumulative GPA of 3.0. Doctoral students must earn 24 credits and a cumulative GPA of 3.0.

Probation

Students are automatically placed on academic probation when they fail to maintain a minimum GPA of 3.00 and earn the appropriate number of credits for their status. Students are also placed on academic probation automatically if they receive two G or I grades in one term and/or earn a grade of U, C- or lower.

Dismissal

Students who fail to correct the deficiencies of their academic probation within a specified time period (normally one term) are subject to dismissal. Should a student be dismissed, students may appeal the decision to the associate dean.

For additional information on academic standards and procedures, students are referred to GSPIA's Handbook of Academic Policies and Procedures for Master's Degree Programs, GSPIA's Handbook of Academic Policies and Procedures for the Doctor of Philosophy, and the University's Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.

Acceptance of Transfer Credits from Outside Institutions

Students who have completed graduate courses in degree-granting graduate programs at other accredited institutions prior to admission to GSPIA should submit official transcripts from those institutions at the time they apply so that the courses can be evaluated for transfer credits or waivers. If the source institution is located in the United States, the institution must be regionally accredited in order for the credits to be transferrable. Graduate-level courses taken while a student was enrolled in an undergraduate program are generally not eligible to be transferred into GSPIA. Under normal circumstances, only graduate-level courses taken after a student has earned a bachelor's degree may be evaluated as transfer credits. (See "Enrollment in Graduate Courses as an Undergraduate" above.) A maximum of 12 credits can be transferred for students enrolled in the MPA, MPIA, and MID degree programs. A maximum of 6 credits can be transferred for students enrolled in the MPPM program. Students admitted with provisional status cannot transfer credits until full graduate student status has been granted.

Official transcripts certifying graduate courses completed at another regionally accredited institution can be evaluated for acceptability as transfer credits, provided grades of B or better (GPA = 3.0) or its equivalent has been earned. Other documentation such as course syllabi and descriptions will be required to support the student's request. The documents must prove that the course(s) are substantially similar in content to existing GSPIA course(s) in order for the transfer to be approved. Transfer (advanced standing) credits are entered as block transfer credits (advanced standing) on the student's transcript. Grades and quality points are not recorded for credits accepted by transfer.

The completion of requirements for advanced degrees must be satisfied through registration at the Pittsburgh campus of the University. Graduate students already enrolled, may, when approved in advance by the director of student services, spend a term or more at another graduate institution, to

obtain training or experience not available at the University, and transfer those credits toward the requirements for a GSPIA degree. In such instances, neither the University nor GSPIA is responsible for any financial assistance to the graduate student.

No credits will be granted toward a GSPIA degree for work completed in extension courses, correspondence courses, or those offered in the off-campus center of another institution unless those credits are approved for equivalent graduate degrees at that institution, and provided that the institution has a regionally accredited program.

Acceptance of Transfer Credits from Other Graduate Schools at the University of Pittsburgh

With the exception of students enrolled in formal joint-degree programs, students who earn/have earned credits while enrolled as a graduate student at another University of Pittsburgh school may petition for some of their credits to count toward the GSPIA degree. Typically, no more than six credits earned while enrolled in another graduate program at the University of Pittsburgh may be counted toward the GSPIA degree. In most cases, such credits will not be listed as transfer credits on the student's GSPIA transcript, and will count only as free electives. The final decision on course acceptability rests with the GSPIA director of student services and the University of Pittsburgh Registrar.

Statute of Limitations

The purpose of the statute of limitations is to ensure that a graduate degree from GSPIA represents mastery of current knowledge in the student's field of study.

Requirements for the professional master's degrees must be completed within a period of five consecutive calendar years from the students' initial registration for graduate study. Joint degrees that require coursework in excess of 50 credits may be granted a longer statute of limitations.

Under exceptional circumstances a candidate may apply for an extension of the statute of limitations. The request must be approved by the division director and submitted to the dean for final action. Each student who requests an extension of the statute of limitations must be prepared to demonstrate proper preparation for the completion of all current degree requirements.

Advising and Career Services

Academic Advising: Each student is assigned a faculty advisor based on, whenever possible, the compatibility of student and faculty academic interests. Faculty advisors assure that students, through proper course selection, can make productive use of the resources of the school and the University during their period of residence. In addition, faculty advisors are responsible for counseling their advisees about career opportunities in the student's area of study; for counseling advisees who have been placed on probation; and for approving the advisee's school-wide required and elective courses, proposed thesis or dissertation topics, and supervised internships. Advisors and students monitor academic progress and identify areas where corrective action on the part of students may be required. It is essential, therefore, that students consult periodically with their advisors. Unless students subsequently request a change, faculty members originally assigned will continue as advisors throughout the students' program of study. If, however, a change in faculty advisor is requested, students must obtain the signed approval of the new advisors. . Based on a student-focused approach, we provide students with a Graduate Enrollment Counselor who serves as the first point of contact for class registration, financial aid application and preparation for graduation. Additionally, graduate enrollment counselors support students by providing information necessary to navigate the logistical challenges of graduate school and connect students to resources at the University of Pittsburgh.

Professional Development and Career Services: GSPIA places great emphasis on assisting students in determining the best and most appropriate positions available. In addition to faculty advisors, the school provides resources and guidance for students throughout their course of study as they devise strategies to identify professional opportunities. Among the many services offered through the Office of Career Services are individual career advising, internship and job search assistance, and a series of career-related workshops and special events. Extensive reference materials on jobs, fellowships, and internships are made available in a variety of ways, including Career Connections, GSPIA's online career management system for students and alumni. Workshops cover such topics as resume preparation, job search strategies, negotiation skills, networking, and using technology in securing employment. Special events include Foreign Service information sessions, mock interviews for the Presidential Management Fellowship Program, an internship fair, and networking events with alumni, foundations, and agency representatives on campus and in Washington, D.C. All students are required to participate in the Professional Development Program. In this course, students will gain the knowledge and resources necessary to begin to plan their career and internship searches. This graduation requirement covers job search techniques, resume and cover letter review, interviewing skills, internship and company searches and much more.

Concentration and Degree Options

GSPIA offers the following degrees:

Master of Public Administration (MPA), including concentrations in:

Energy & Environment

Governance & International Public Management

Policy Research & Analysis

Public & Nonprofit Management

Social Policy

Urban Affairs & Planning

This is a 48 credit program. The average length of time normally required to obtain this degree is 2 years.

Master of Public and International Affairs (MPIA), including concentrations in:

International Political Economy

Security and Intelligence Studies

Human Security

This is a 48 credit program. The average length of time normally required to obtain this degree is 2 years.

Master of International Development (MID), including concentrations in:

Energy & Environment

Governance & International Public Management

Human Security

Nongovernmental Organizations & Civil Society

Social Policy

Urban Affairs & Planning

This is a 48 credit program. The average length of time normally required to obtain this degree is 2 years.

Master of Public Policy and Management (MPPM) -

Traditional accelerated mid-career master program or

Online mid-career master program

This is a 30 credit program. The average length of time normally required to obtain this degree is 2 years.

Doctor of Philosophy (PhD)

Minors

Students have the flexibility to customize their education as any concentration can be taken as a minor. Adding a minor will help differentiate your education, deepen your knowledge base and broaden professional marketability. Each minor consists of a 9-credit sequence of courses within your chosen subject area. This is taken in addition to general required courses and courses for your area of concentration. Any course taken to fulfill a requirement for your degree or concentration cannot count towards your minor. A course may not be double-counted. An approved course must be substituted.

MID, MPIA, and MPA students may select a minor from among the nine listed below.

Cyber Security, Policy and Law

Energy & Environment

Governance & International Public Management

Human Security

International Political Economy

Nongovernmental Organizations & Civil Society
Policy Research & Analysis
Public & Nonprofit Management
Security & Intelligence Studies
Social Policy
Urban Affairs & Planning

Joint Degrees

GSPIA students may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements (including entrance exams like the GRE, GMAT, and LSAT, where applicable). If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed on year 9or, in the case of current law students, two years) of full-time study.

Full-time students in the MPA, MPIA, or MID programs are eligible to participate in the following joint programs:

Juris Doctor with University of Pittsburgh School of Law: The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Master of Business Administration with University of Pittsburgh Katz Graduate School of Business - MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Master of Public Health with University of Pittsburgh School of Public Health: Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Master of Social Work with University of Pittsburgh School of Social Work: Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Master of Science in Information Science with University of Pittsburgh School of Information Science: The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Joint Degrees at Kobe University, Japan: Through a special partnership, students may combine their GSPIA degrees with one of several degrees offered by the Graduate School of International Cooperative Studies at Kobe University: the Master of International Affairs, Master of Laws, Master of Economics, or Master of Political Science. The Kobe GSICS curriculum is in English.

4+1 Accelerated Program for Pitt undergraduate students to complete their bachelor's degree while working on a master's degree at GSPIA. Once a student has completed 24 credits in GSPIA, they may apply and obtain their bachelor's degree.

To be eligible undergraduate University of Pittsburgh students must be enrolled in The Dietrich School of Arts and Sciences or the College of General Studies, be in good academic standing with a minimum overall GPA of 3.5, have a minimum of 96 credits, have completed all Skills and General Education requirements and have no "I" or "G" grades.

Applicants must submit an online application through www.gspia.pitt.edu, in essay #3 make reference that you are applying for the 4+1 Accelerated Program, submit a letter from your Academic/Faculty Advisor stating that you have completed all courses in your major(s), and that they satisfy the above eligibility requirements and may enter our masters program.

Special Academic Opportunities/Programs

GSPIA offers a variety of academic programs to complement the degree programs offered, including area studies, exchange programs, and research and travel grants.

Centers, Institutes and Initiatives

The Matthew B. Ridgway Center for International Security Studies - educates the next generation of security analysts and produces scholarship and impartial analysis that informs the options available to policymakers who must confront diverse challenges to international and human security on a global scale.

The Ford Institute for Human Security - conducts research that focuses on a series of transnational threats to the human rights of civilian populations and makes independent research and policy papers available to both domestic and international policymakers.

The Johnson Institute for Responsible Leadership - reaffirms GSPIA's commitment to creating ethical leaders and provides an institutional platform from which to launch an innovative program of teaching, research, and public service on issues of ethics and accountability in all areas of public life.

Center for Analytical Approaches to Social Innovation (CAASI) - translates a real-world problem from the community into a set of quantitative research questions and engages experts across disciplines to solve them.

Center for Governance and Markets - to understand the diverse institutions and governance arrangements that affect social order and human well-being in the United States and around the world. Generating knowledge of ways in which individuals and communities overcome challenges to living free, prosperous, and peaceful lives.

The Roscoe Robinson Jr. Memorial Lecture Series - promotes discussion and understanding of key issues related to diversity in public service. The series features at least two lectures per year in honor of the late Roscoe Robinson Jr, the first African American, U.S. Army four-star general.

The Philanthropy Forum - provides a university-based platform for national dialogue with leading thinkers and practitioners in the field of philanthropy and engages in significant research on the history and contemporary contributions of philanthropy to our local, national, and global communities.

Congress of Neighboring Communities (CONNECT) - brings together the City of Pittsburgh and surrounding municipalities to identify common public-policy challenges.

Frances Hesselbein Leadership Forum reflects the vision of a university-based center for teaching, applied research, and public service where leaders and aspiring leaders from around the world can gather to advance the art and science of leadership and put these principles to practice in public service.

The Gender Inequality Research lab (GIRL) - is an interdisciplinary research forum for scholars and practitioners collaborating on policy-relevant research on gender inequality.

Area Studies

The University of Pittsburgh is home to several internationally recognized area studies centers. Many of these centers have been designated National Resource Centers (NRCs) by the US Department of Education, certifying their status as leading centers of their kind in the United States. The NRCs sponsor numerous programs and offer Foreign Language and Area Studies (FLAS) Fellowships for which GSPIA students (U.S. citizens only) are eligible. The area studies centers and programs include:

- African Studies Graduate Certificate
- Graduate Certificate in Advance Asian Studies
- Latin American Studies Graduate Certificate
- Latin American Social & Public Policy Graduate Certificate
- Graduate Certificate in Advanced Russian, East European & Eurasian Studies

European Studies Graduate Certificate
Global Studies Graduate Certificate

UCIS offers graduate certificates that GSPIA students can pursue concurrently with their degrees, allowing them to focus their studies on a particular region or theme. It is normally possible to complete the requirements for a GSPIA master's degree and a UCIS certificate in two years. For further information, see UCIS' section of this catalog.

GSPIA Programs Abroad

GSPIA has developed a number of international partnerships that offer students the possibility to study abroad for a regular academic term, during the summer, or-in a double degree program-for an entire year or more:

[International Development and Asian Affairs in Kobe, Japan](#)

This program enables students to earn a Certificate in International Development and Asian Affairs from GSICS at Kobe University while completing their masters degree from GSPIA.

[Public Administration and/or International Studies in Seoul, Korea](#)

This program enables students to earn credits toward their GSPIA degree by taking courses in the Graduate School of Public Administration and/or the Graduate School of International Studies at Seoul National University. Coursework can be completed in English or Korean.

[Public Policy and International Affairs in Paris, France](#)

This program enables students to earn credits toward their GSPIA degree by taking courses at the Institut d'Etudes Politiques de Paris (in French), or at its English-language wing, the Paris School of International Affairs.

[Government or Political Science in Bogota, Colombia](#)

This program enables students to earn credits toward their GSPIA degree by taking courses at the Department of Political Science at the University of the Andes, one of Latin America's leading institutions. Coursework is in Spanish.

[Public Management in Nanjing, China](#)

This program enables students to earn credits toward their GSPIA degree by taking courses at Nanjing University's School of Public Management. Coursework is in Chinese.

[International Relations, Madrid, Spain](#)

This program allows students to earn credits toward their GSPIA degree by taking courses at the School of International Relations, IE University. Coursework is in English.

Budget permitting, each year the Office of the Dean and the school's academic programs make available small grants to students. Uses for these grants can include attending professional development conferences, presenting papers, and supporting internships and study abroad activities. These grants are awarded through a highly competitive selection process.

Faculty

Lisa S. Alfredson, Professor, PhD, London School of Economics

Ariel Armony, Professor, PhD, University of Pittsburgh

Luke Condra, Assistant Professor, PhD, Stanford University

Sabina E. Deitrick, Associate Professor, PhD, University of California, Berkeley

George W. Dougherty, Assistant Professor, PhD, University of Georgia

Nicola Foote, Professor, PhD, University College London

Melinda Haas, Assistant Professor, JD, PhD, University of Pennsylvania Law School, Princeton University

Certificate

Cybersecurity, Policy and Law Certificate

To be a leader in cybersecurity requires more than just technical knowledge - it also requires a deeper understanding of the of the cyber challenges surrounding law, policy, regulations, and ethics. We are offering a Graduate Certificate in Cybersecurity, Policy and Law from three schools within the University of Pittsburgh: the Graduate School of Public & International Affairs, School of Law and the School of Computing and Information.

Cybersecurity is a multidisciplinary field that involves technical issues, security policies, regulation and law. Our integrated curriculum provides students with the skills to develop comprehensive cybersecurity policies and strengthen cybersecurity environments to minimize risk.

As part of the certificate's multidisciplinary approach, the certificate requires courses to be taken from all three Pitt schools. Students must complete a minimum of three courses from the School of Computing and Information, one course from the Graduate School of Public and International Affairs, and one course from the School of Law to earn the certificate.

Applicants must have a Bachelor's degree. All students are expected to complete the progma within one to two years.

Students enrolled in a Graduate School of Public & International (GSPIA) degree program may count no more than six (6) of the certificate credits (two courses) toward their degrees.

Students will need to contact the School of Law or School of Computing & Information to obtain permission to take courses from those schools.

The Certificate curriculum, comprising of 15 credits, follows:

Program Requirements

Courses

School of Computing and Information courses

INFSCI 2150 - INFORMATION SECURITY AND PRIVACY
TELCOM 2821 - NETWORK SECURITY
INFSCI 2620 - DEVELOPING SECURE SYSTEMS
TELCOM 2811 - HACKING FOR DEFENSE
INFSCI 2621 - SECURITY MANAGEMENT AND COMPUTER FORENSICS
CS 2053 - APPLIED CRYPTOGRAPHY AND NETWORK SECURITY
CS 2530 - COMPUTER AND NETWORK SECURITY
CS 3525 - ADVANCED TOPICS IN SECURITY AND PRIVACY

Graduate School of Public and International Affairs courses

PIA 2156 - ETHICS AND POLICY IN CYBER SPACE
PIA 2379 - INTRODUCTION TO CYBER CRIMES
PIA 2360 - CYBER SECURITY POLICY
PIA 2389 - CRIMINAL OPERATIONS IN THE CYBERWORLD
PIA 2327 - TERRORISM AND COUNTER TERRORISM
PIA 2346 - INTRODUCTION TO AMERICAN INTELLIGENCE
PIA 2365 - TRANSNATIONAL CRIME
PIA 2041 - POLICY ANALYSIS FOR CYBERSECURITY AND INTELLIGENCE STUDIES

School of Law courses

LAW 5623 - CYBER POLICY, CRIME & NATIONAL SECURITY
LAW 5380 - CYBERCRIME
LAW 5404 - CYBERSPACE AND THE LAW
LAW 5430 - INFORMATION PRIVACY: LAW AND PRACTICE
LAW 5260 - INTELLECTUAL PROPERTY
LAW 5877 - PUBLIC POLICY SEMINAR

Doctoral

Public and International Affairs, PhD

Whether you want to teach, conduct research, or work in a policy environment, our Ph.D. program will equip you with the skills, tools, and knowledge to succeed in highly competitive environments such as leading universities, government agencies, and nonprofit and nongovernmental organizations around the world.

To apply to the PhD program, you must have a bachelor's degree. Before undertaking doctoral study, it's beneficial, but not mandatory, to have a master's degree in public and international affairs or in one of the social sciences. Once you're accepted, you must complete 67 hours of coursework and a six-credit dissertation. If you have earned a master's degree, you may be able to transfer 30 credits.

We've designed our doctoral studies program to ensure a high-quality education that also expedites your time to degree. To do so, we've implemented the following procedures:

We limit the number of students we admit to ensure that virtually all admitted students will receive at least four years of financial support, contingent on their academic performance.

We review student progress annually, offering constructive feedback to students about their progress and providing an appropriate strategy for completing the program.

We streamline and clarify the comprehensive exam format to expedite the completion of this requirement, so that students can move on to preparing their dissertation proposals.

We develop strong partnerships with other academic units in the University of Pittsburgh to collaborate in offering a wider range of doctoral courses.

Requirements

PhD program requires the completion of 67 credits of course work and 6 credits for the dissertation for a total of 73 credits. The curriculum for doctoral students is outlined as follows:

Doctoral Core Courses: 19 credits

PIA 2028 - PUBLIC POLICY ANALYSIS

PIA 3121 - POLICY THEORY

PIA 3050 - QUALITATIVE RESEARCH: DESIGN AND METHODS

PIA 3XXX - PhD PROFESSIONALIZATION WORKSHOP (1 credit)

PIA 3XXX - PhD RESEARCH PROCESS AND DESIGN WORKSHOP

PIA 3097 - INDEPENDENT STUDY PHD

PIA 2032 - ADVANCED QUANTITATIVE METHODS: CAUSAL INFERENCE FOR POLICY ANALYSIS

Electives: 48 credits (including transfer credits)

Note that students can transfer up to 30 credits from a relevant master's program (and up to 36 for a graduate from GSPIA). Students would use electives to fill remaining credits.

PIA 3099 Dissertation: 6 credits

Students must be admitted to candidacy and must be writing their dissertation to be eligible to register for PIA 3099 Dissertation. Six (6) credits of PIA 3099 Dissertation are required to graduate.

PIA 3099 - DISSERTATION PHD

Minimum Required Credits: 73 credits

Students must complete 67 credits of course work, excluding the 6 dissertation credits, with a minimum GPA of 3.0. Students must meet this requirement in order to qualify for final approval of their comprehensive examinations. Students are required to maintain full-time status while completing the 67 credits of coursework.

Doctoral Milestones

1. Comprehensive Exam requirement: After the end of the final semester of coursework (typically May following 2nd year of program), students take a comprehensive exam.
2. Second Year paper requirement: In the first month of the semester following the completion of coursework (typically the Fall semester of the 3rd

year), students submit a completed draft of a second year paper to two faculty readers and is then presented orally to those readers in a presentation open to attendance from others within a month of submission. The second year paper is a standalone piece of research. It is not required to be part of the dissertation.

3. Defense of a Dissertation Proposal: Students orally present their dissertation proposal to a dissertation committee after a committee review of the dissertation proposal.

4. Final Dissertation Defense and electronic submission of dissertation: Students orally present their dissertation proposal to a dissertation committee after a committee review of the dissertation proposal. After approval of the dissertation all candidates are required to publish the document electronically via d-scholarship.

Master's

Dual Degree with Seoul National University

GSPIA and Seoul National University have offered a one-semester exchange program for over ten years. This proposal expands the agreement to include a dual-degree program that will give students the option to earn both a Master of Public Administration from Seoul National University and one of GSPIA's four master's degrees.

Requirements

PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS
PIA 2021 - INTERNATIONAL AFFAIRS
PIA 2025 - MICROECONOMICS
PIA 2027 - MACROECONOMICS
PIA 2117 - PROGRAM EVALUATION
PIA 2501 - DEVELOPMENT POLICY AND ADMINISTRATION
PIA 2896 - MPPM POLICY SEMINAR

Electives: 18 Credits

Students will also take an additional 18 credits worth of electives, six of which will be transfer credits from completed SNU coursework.

Minor

Cybersecurity, Policy, and Law Minor

GSPIA Cyber Course

Choose 1 course:

PIA 2156 - ETHICS AND POLICY IN CYBER SPACE
PIA 2360 - CYBER SECURITY POLICY
PIA 2379 - INTRODUCTION TO CYBER CRIMES
PIA 2389 - CRIMINAL OPERATIONS IN THE CYBERWORLD
PIA 2327 - TERRORISM AND COUNTER TERRORISM
PIA 2346 - INTRODUCTION TO AMERICAN INTELLIGENCE
PIA 2041 - POLICY ANALYSIS FOR CYBERSECURITY AND INTELLIGENCE STUDIES

Information Science Course

Choose 1 course:

INFSCI 2955 - SPECIAL TOPICS: SYSTEMS
INFSCI 2149 - INTRODUCTION TO INFORMATION SECURITY
INFSCI 2150 - INFORMATION SECURITY AND PRIVACY
INFSCI 2620 - DEVELOPING SECURE SYSTEMS
INFSCI 2621 - SECURITY MANAGEMENT AND COMPUTER FORENSICS
INFSCI 2731 - SECURITY IN E-COMMERCE
INFSCI 2625 - CYBERSECURITY AND PRIVACY REGULATION
TELCOM 2821 - NETWORK SECURITY
TELCOM 2811 - HACKING FOR DEFENSE

Additional

One additional GSPIA cyber course or additional approved course from another unit.

Social Policy Minor

The Social Policy minor is 9 credits (three courses). Because some of the listed courses are required for some students in MPA, there will be some variation in requirements for the minor. Students must complete either of the required courses. For students who are not in the MPA program, the Social Policy minor requires PIA 2117 - PROGRAM EVALUATION. Students in MPA (who already take Program Evaluation as a required course) will be required to complete three course from the list of courses above. No more than one methods course can be used to complete the Social Policy minor.

Public Administration Program

Master of Public Administration (MPA)

Public administration is a field practiced at the intersection of the government, nonprofit, and private sectors. GSPIA's MPA program trains managers to balance the needs of each community with its resources, promoting neighborhood development, effective local government, ethical leadership, and responsible business practices. Students acquire an incredibly diverse and flexible set of professional skills appropriate for careers in nonprofit agencies, government offices, and private businesses worldwide.

The 48-credit MPA degree is designed to advance the core value of social equity fundamental to today's public management. GSPIA's programs in urban affairs and nonprofit management are consistently ranked among the very best in the country. Additionally, GSPIA's Center for Metropolitan Studies and the Johnson Institute for Responsible Leadership bridge the gap between theory and practice, allowing students to work directly with local government and nonprofit leaders.

Degree Requirements and Concentrations

MPA students may choose one of six concentrations: Energy & Environment, Governance & International Public Management, Policy Research & Analysis, Public & Nonprofit Management, Social Policy and Urban Affairs & Planning. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MPA students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MPA/law degree (JD), MPA/Master of Public Health (MPH), MPA/Master of Science in Information Science (MSIS), and MPA/Master of Social Work (MSW). They may also pursue a joint master's degree through the Graduate School of International Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.

Area Studies Certificate Options

MPA students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies.

Accreditation

GSPIA's Master of Public Administration degree is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). NASPAA accreditation recognizes that a master's program in public affairs has gone through a rigorous process of voluntary peer review conducted by the Commission on Peer Review and Accreditation (COPRA), and has met NASPAA's Standards for Professional Master's Degree Programs in Public Affairs, Policy, and Administration.

Joint Degree

Energy and Environment, JD/MPA

Joint Degree

Full-time GSPIA students in the MPA, MPA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre req: PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 9 credits

PIA 2104 - FINANCIAL MANAGEMENT
PIA 2117 - PROGRAM EVALUATION (pre-requisite: PIA 2022)
PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 3 credits

Minimum Required GSPIA Credits: 36 credits

Juris Doctor requirements: 79 credits

(see Law's website for requirements)

Total Number of Credits for Joint Degree: 115

Major Specific Requirements:

Students must take three of the following six courses & one additional approved E&E major courses.

Energy and Environment

PIA 2xxx Energy & Environment Approved Course

PIA 2231 - CONTEMPORARY US ENERGY POLICY
PIA 2115 - ENVIRONMENTAL ECONOMICS
PIA 2502 - ENVIRONMENTAL POLICY: US AND GLOBAL
PIA 2164 - NATURAL RESOURCES GOVERNANCE AND MANAGEMENT
PIA 2522 - CLIMATE POLICY-LOCAL & GLOBAL

Energy and Environment, MPA/MIS

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students

spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Policy Research and Analysis, JD/MPA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

Master of Public Administration and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master of Public Administration and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Total Number of Credits for Joint Degree: 87

Major Specific Requirements:

Public & Nonprofit Management

PIA 2103 - MANAGING PEOPLE IN THE PUBLIC AND NON-PROFIT SECTOR

PIA 2185 - STRATEGIC MANAGEMENT

(pre-requisites: PIA 2020 or 2170)

PIA 2xxx - Approved PNM Major Course

PIA 2xxx - Approved PNM Major Course

Urban Affairs & Planning, JD/MPA

Joint Degree

Full-time GSPIA students in the MPA, MPJA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre req: PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 9 credits

PIA 2104 - FINANCIAL MANAGEMENT

PIA 2117 - PROGRAM EVALUATION (pre-requisite: PIA 2022)

PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 3 credits

Minimum Required GSPIA Credits: 36 credits

Juris Doctor requirements: 79 credits

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Master's

Energy and Environment, MPA

In Spring 2022 the Energy and Environment, MPA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Energy & Environment (E&E)

Energy & Environment explores the politics and policies of the worldwide energy industry, examining ways to meet global energy needs in a sustainable, environmentally conscious way. Pittsburgh is a global epicenter of one of the biggest energy revolutions of the 21st century - the shale gas boom. New technologies like "fracking" are making billions of dollars of natural gas accessible to world markets for the first time, generating thousands of new jobs from Europe to North America. Western Pennsylvania sits atop one of the largest and most productive shale deposits anywhere on the planet, raising major questions about how to extract the gas responsibly, how to protect communities from environmental harm, and how to tax and regulate the rapid growth. GSPIA Students study the economics of the global energy industry, environmental sustainability, and regulatory policy in one of the world's best living laboratories. Graduates are prepared for jobs at environmental protection agencies, energy corporations, and a host of local, state, and national government offices that make energy policy.

The major curriculum, comprising 12 credits, follows:

PIA 2502 - ENVIRONMENTAL POLICY: US AND GLOBAL
PIA 2231 - CONTEMPORARY US ENERGY POLICY

Electives: 15 credits

Minimum Required Credits: 48 credits

Governance & International Public Management, GIPM/MPA

Governance and International Public Management provides a comparative perspective on international development, focusing on the ways in which public and nonprofit organizations must adapt to meet the different cultural, political, and economic circumstances of the communities they serve.

It explores how public agencies around the globe, faced with similar problems like poverty, illiteracy, and inequality, have addressed those issues differently in different countries. Students confront the challenges of implementing complex policies in a global, multicultural context. This major focuses on developing the management and analytical skills necessary to take leadership roles in the multilateral sector, governments abroad, or any organization that delivers services internationally. Graduates are well-prepared to pursue careers at the United Nations, the U.S. Agency for International Development, and similar organizations.

Core: Governance & International Public Management(GIPM)

Policy Research and Analysis, MPA

Policy Research and Analysis (PRA)

Today's policymakers require analytical skills from a variety of disciplines: quantitative, economic, political, and organizational. Students in the policy research & analysis major enjoy access to a rich array of resources to help them prepare for careers in both the public and private sectors. Recent graduates of our program have gone on to work in such careers as budget examiners for the state of New York, analysts for the Government Accountability Office and the U.S. Mint and consultants for the leading firm Booz Allen Hamilton.

Motivated and inquisitive people looking to acquire the technical skills and knowledge to contribute to research and policymaking decisions will appreciate our curriculum. It is infused with a rich variety of interdisciplinary viewpoints to give students a well-informed view of policy analysis that is both national and international in scope.

Minimum Required Credits: 48 credits

Public Administration, MPA

Public administration is a field practiced at the intersection of the government, nonprofit, and private sectors. GSPIA's MPA program trains managers to balance the needs of each community with its resources, promoting neighborhood development, effective local government, ethical leadership, and responsible business practices. Students acquire an incredibly diverse and flexible set of professional skills appropriate for careers in nonprofit agencies, government offices, and private businesses worldwide.

The 48-credit MPA degree is designed to advance the core value of social equity fundamental to today's public management. GSPIA's programs in urban affairs and nonprofit management are consistently ranked among the very best in the country. Additionally, GSPIA's Center for Metropolitan Studies and the Johnson Institute for Responsible Leadership bridge the gap between theory and practice, allowing students to work directly with local government and nonprofit leaders. In 2012 US News ranked GSPIA #19 among all MPA programs for "City Management and Urban Policy."

A major reason for this strength is GSPIA's relationship with Pitt's University Center for Social and Urban Research (UCSUR), where students and faculty engage in scholarly analysis of urban and regional issues. UCSUR promotes a multidisciplinary research agenda centered on economic, demographic, and social change in cities and regions.

Required Courses

Along with the Required MPA courses, all students must complete a 300-hour internship with approval from GSPIA career services.

PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS
PIA 2022 - QUANTITATIVE METHODS
PIA 2025 - MICROECONOMICS

48 Credits

Public and Nonprofit Management, MPA

In Spring 2022 the Public and Nonprofit Management, MPA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Public and Nonprofit Management (PNM)

Public service is a discipline practiced at many levels: local, national and international often with ripple effects across each. Through grassroots contributions and global applications, GSPIA students pursuing a public & nonprofit management major acquire a deep understanding of the many contexts in which public and nonprofit organizations operate. Many look forward to the opportunity to leverage change in a mixed economy.

Our curriculum stresses responsible leadership and our students develop the skills to diagnose leadership challenges and opportunities from a variety of ethical and moral frameworks. Our interdisciplinary approach draws from a variety of fields such as philosophy, law, organizational design and political science. Our approach gives students the skills they need to meet the challenges of a world in which services increasingly span boundaries among business, government and nonprofit organizations.

The major curriculum, comprising 12 credits, follows:

Urban Affairs & Planning, MPA

In Spring 2022 the Urban Affairs & Planning, MPA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Urban Affairs & Planning (UAP)

The major in Urban Affairs and Planning takes a city-focused perspective on international development. More than half of the world's people now live in urban areas, raising important questions about how governments should meet the public's needs for transportation, health and sanitation, education, and other essential services.

As the developing world urbanizes, booming cities like Shanghai, Mumbai, Buenos Aires, and Johannesburg face critical challenges, including poverty, homelessness, and pollution. The major prepares students to confront those problems on an international scale, while developing valuable skills in Geographic Information Systems (GIS), regional economic planning, and sustainable development management. Students take advantage of GSPIA's highly regarded Center for Metropolitan Studies, participating in cutting-edge research alongside faculty experts.

The major curriculum, comprising 12 credits, follows:

Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

Public and International Affairs Program

[Master of Public and International Affairs \(MPIA\)](#)

From the halls of the United Nations to the streets of war-torn conflict zones, the modern international system is in a state of rapid flux that demands versatile, well-educated professionals. The MPIA degree is a multidisciplinary program designed to prepare students for careers of influence in the international arena - as government policymakers, diplomats, intelligence officials, global business leaders, nonprofit managers, and policy researchers. The program emphasizes practical skills and knowledge necessary to participate in the world policy process and shape its future. The MPIA curriculum includes traditional courses on world history, economics, and international relations theory, along with practical courses on

intelligence collection and analysis, diplomacy, and international finance. It also includes one of the country's only graduate specializations in Human Security - a unique field that focuses on the security of civilian populations and human rights.

Degree Requirements and Majors

Students must complete at least 48 credits in public and international affairs and may choose one of three concentrations: International Political Economy, Human Security, or Security & Intelligence Studies. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MPIA students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MPIA/law degree (JD), MPIA/Master of Business Administration (MBA), MPIA/Master of Public Health (MPH), MPIA/Master of Science in Information Science (MSIS), and MPIA/Master of Social Work (MSW). They may also pursue a joint master's degree through the Graduate School of Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.

Area Studies Certificate Options

MPIA students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies.

Joint Degree

Human Security, JD/MPIA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional lecture)

PIA 2025 - MICROECONOMICS

OR

PIA 2027 - MACROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre-req. PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

PIA 2021 - INTERNATIONAL AFFAIRS

One of the following based on major:

PIA 2301 - INTERNATIONAL POLITICAL ECONOMY or

PIA 2303 - SECURITY AND INTELLIGENCE STUDIES or

PIA 2307 - HUMAN SECURITY

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 3 credits

Total Number of Credits for Joint Degree: 115

Major Specific Requirements:

Human Security

PIA 2xxx - Approved HS Major Course

PIA 2xxx - Approved HS Major Course

Human Security, MBA/MPIA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Business Administration

For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/MBA

Student is required to take one of the following depending on major:

If SIS major: PIA 2303 Security & Intelligence Studies

If IPE major: PIA 2301 International Political Economy

If HS major: PIA 2307 Human Security

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

OR

PIA 2027 - MACROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre-req: PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

PIA 2363 - INTERNATIONAL HISTORY

One of the following based on major:

PIA 2301 - INTERNATIONAL POLITICAL ECONOMY or

PIA 2303 - SECURITY AND INTELLIGENCE STUDIES or

PIA 2307 - HUMAN SECURITY

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 3 credits

Minimum Required GSPIA Credits: 36 credits

Master of Business Administration requirements: 33

In Fall 2022, modifications were approved for the MBA Degree Requirements. Students will have until Summer 2023 to complete old program curriculum requirements.

The following core courses are required of all full-time MBA students:

Accelerated MBA, Signature MA, Part-Time MBA and Dual-Degree MBA/MS programs; MBA with Business Analytics students also complete the MBA Core Curriculum with additional credits required from business analytics curriculum. Joint-Degree MBA students also complete the MBA Core Curriculum, with some exceptions.

BACC 2401 - FINANCIAL ACCOUNTING

BECN 2401 - ECONOMIC ANALYSIS FOR MANAGERIAL DECISION: FIRMS AND MARKETS

BQOM 2401 - STATISTICAL ANALYSIS: UNCERT

BQOM 2421 - DECISION TECH IN MFG & OPS MGT

Master of Public and International Affairs and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Master of Public & International Affairs and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Security and Intelligence Studies, MPIA/MPH

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/MPH

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. if waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

OR

PIA 2027 - MACROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre-req: PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

PIA 2021 - INTERNATIONAL AFFAIRS

PIA 2363 - INTERNATIONAL HISTORY

Master of Public & International Affairs and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master's

Human Security, MPIA

In Spring 2022 the Human Security, MPIA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Human Security

Because the globalization process has made the world seem exponentially smaller, threats from tsunamis, earthquakes, disease and starvation are arriving faster and in more dramatic fashion than ever before. One of the most innovative, forward-thinking disciplines in international affairs today, the human security major covers a wide swath of issues critical to the safety of people worldwide.

GSPIA's program, one of the first of its kind in the United States, emphasizes the development of peacekeeping and peace-building skills. Students study threats to individuals from nongovernmental, nonmilitary sources. Examples of threats include civil wars, international migration and crime, global climate changes and natural disasters. We teach students to focus on the human condition as a planet, resulting in a new generation of leaders able to guide our global community through some of the most perilous times it has ever experienced.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 12 credits

Degree Core Courses: 9 credits

PIA 2021 - INTERNATIONAL AFFAIRS
PIA 2307 - HUMAN SECURITY
PIA 2363 - INTERNATIONAL HISTORY

Electives: 15 credits

Minimum Required Credits: 48 credits

International Political Economy, MPIA

In Spring 2022 the International Political Economy, MPIA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

International Political Economy

From the Euro to the yen, today's global economy operates in a climate of change. The international global political economy (IPE) major teaches students to understand globalization and the role the state plays, as well as market strategies for corporations and their corporate identities. Courses target competencies in finance, economics, international trade and development. Specific topics range from the work of nongovernmental organizations (NGOs) to political climates in post-Communist states and the role of women in developing countries.

GSPIA IPE students are idealistic, curious about the world and eager to put their vision into practice. Recent IPE graduates include a treasury expert with the Republic of Turkey, a project manager specialist for the U.S. Agency for International Development's Mission in Moscow, a presidential management fellow with the U.S. Department of Commerce, and a United Nations Fulbright Fellow with the Department of Social and Economic Affairs.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 12 credits

Electives: 15 credits

Minimum Required Credits: 48 credits

Public and International Affairs, MPIA

From the halls of the United Nations to the streets of war-torn conflict zones, the modern international system is in a state of rapid flux that demands versatile, well-educated professionals. The MPIA degree is a multidisciplinary program designed to prepare students for careers of influence in the international arena - as government policymakers, diplomats, intelligence officials, global business leaders, nonprofit managers, and policy researchers. The program emphasizes practical skills and knowledge necessary to participate in the world policy process and shape its future. The MPIA curriculum includes traditional courses on world history, economics, and international relations theory, along with practical courses on intelligence collection and analysis, diplomacy, and international finance. It also includes one of the country's only graduate specializations in Human Security - a unique field that focuses on the security of civilian populations and human rights.

Required Courses

Along with the Required MPIA courses, all students must complete a 300-hour internship with approval from GSPIA career services.

Security and Intelligence Studies, MPIA

In Spring 2022 the Security and Intelligence Studies, MPIA program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Security and Intelligence Studies

The post-9/11 world has brought remarkable change to national and international security. Issues of strategy, weapons systems, national defense and the role of government are being redefined every day. GSPIA's major in security & intelligence studies (SIS) approaches issues within an international context and covers a variety of topics including transnational organized crime, terrorism, weapons of mass destruction and competition for natural resources.

SIS students are interested in the use of technology, investigation and discovery and often have a desire to travel internationally. Our program prepares students for careers in the security or intelligence fields with various think tanks or intelligence agencies, such as the FBI or CIA.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 12 credits

Degree Core Courses: 9 credits

PIA 2021 - INTERNATIONAL AFFAIRS
PIA 2303 - SECURITY AND INTELLIGENCE STUDIES

Minor

Security and Intelligence Studies Minor

The requirements for the Security and Intelligence minor are:

PIA 2303 Security & Intelligence (3cr)

PIA 2XXX Approved SIS course (3cr)

PIA 2XXX Approved SIS course (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

International Development Program

Master of International Development (MID)

MID students promote respect for human life and human rights, often working behind the scenes to bring real improvements to the human condition through hands-on careers in public service. They work face-to-face with underprivileged and vulnerable populations, in the front offices of aid agencies, and in international organizations dedicated to protecting those who need help most.

The 48-credit MID degree is designed to prepare students to make a difference locally, nationally, and globally by emphasizing intellectual rigor and practical skills. Students study development theoretically, but also learn concrete technical and managerial skills necessary to work in organizations that promote equality in the developing world. Graduates exit the program prepared for professional work in the United Nations, public aid agencies, and charities of all sizes. Often, they pursue work in the private sector, research groups, and prominent nongovernmental organizations.

Degree Requirements and Majors

Students must complete at least 48 credits in international development and may choose one of six concentrations: Energy & Environment, Governance & International Public Management, Human Security, Nongovernmental Organizations & Civil Society, Social Policy and, Urban Affairs & Planning. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MID students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MID/law degree (JD), MID/Master of Business Administration (MBA), MID/Master of Public Health (MPH), MID/Master of Science in Information Science (MSIS), and MID/Master of Social Work (MSW). They may also pursue a joint master's degree through the Graduate School of Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.

Area Studies Certificate Options

MID students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies.

Human Security, JD/MID

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MID/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

Master of International Development and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease

recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master of International Development and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the

degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MID/MIS

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre req: PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

PIA 2501 - DEVELOPMENT POLICY AND ADMINISTRATION

PIA 2510 - ECONOMICS OF DEVELOPMENT

(pre-req: PIA 2025)

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 6 credits

Minimum Required GSPIA Credits: 36 credits

PIA 2xxx - Approved NGOCS Major Course

PIA 2xxx - Approved NGOCS Major Course

PIA 2xxx - Approved NGOCS Major Course

Nongovernmental Organizations and Civil Societies, MID/MPH

Joint Degree

Full-time GSPIA students in the MPA, MPA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the

degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Master's

Energy & Environment, MID

Energy and Environment explores the politics and policies of the worldwide energy industry, examining ways to meet global energy needs in a sustainable, environmentally conscious way. Pittsburgh is a global epicenter of one of the biggest energy revolutions of the 21st century - the shale gas boom. New technologies like "fracking" are making billions of dollars of natural gas accessible to world markets for the first time, generating thousands of new jobs from Europe to North America. Western Pennsylvania sits atop one of the largest and most productive shale deposits anywhere on the planet, raising major questions about how to extract the gas responsibly, how to protect communities from environmental harm, and how to tax and regulate the rapid growth. GSPIA Students study the economics of the global energy industry, environmental sustainability, and regulatory policy in one of the world's best living laboratories. Graduates are prepared for jobs at environmental protection agencies, energy corporations, and a host of local, state, and national government offices that make energy policy.

Energy & Environment (E&E)

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 12 credits

Degree Core Courses: 6 credits

PIA 2501 - DEVELOPMENT POLICY AND ADMINISTRATION

PIA 2231 - CONTEMPORARY US ENERGY POLICY

PIA 2502 - ENVIRONMENTAL POLICY: US AND GLOBAL

PIA 2522 - CLIMATE POLICY-LOCAL & GLOBAL

Electives: 18 credits

Minimum Required Credits: 48 credits

Governance & International Public Management, GIPM/MID

Governance and International Public Management provides a comparative perspective on international development, focusing on the ways in which public and nonprofit organizations must adapt to meet the different cultural, political, and economic circumstances of the communities they serve.

It explores how public agencies around the globe, faced with similar problems like poverty, illiteracy, and inequality, have addressed those issues differently in different countries. Students confront the challenges of implementing complex policies in a global, multicultural context. This major focuses on developing the management and analytical skills necessary to take leadership roles in the multilateral sector, governments abroad, or any organization that delivers services internationally. Graduates are well-prepared to pursue careers at the United Nations, the U.S. Agency for International Development, and similar organizations.

Core: Governance & International Public Management(GIPM)

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 12 credits

Human Security, MID

In Spring 2022 the Human Security, MID program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Human Security (HS)

Because the globalization process has made the world seem exponentially smaller, threats from tsunamis, earthquakes, disease and starvation are arriving faster and in more dramatic fashion than ever before. One of the most innovative, forward-thinking disciplines in international affairs today, the human security major covers a wide swath of issues critical to the safety of people worldwide.

GSPIA's program, one of the first of its kind in the United States, emphasizes the development of peacekeeping and peace-building skills. Students study threats to individuals from nongovernmental, nonmilitary sources. Examples of threats include civil wars, international migration and crime, global climate changes and natural disasters. We teach students to focus on the human condition as a planet, resulting in a new generation of leaders able to guide our global community through some of the most perilous times it has ever experienced.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements: 12 credits

(See Master's Degree Requirements)

Degree Core Courses: 6 credits

PIA 2501 - DEVELOPMENT POLICY AND ADMINISTRATION

PIA 2510 - ECONOMICS OF DEVELOPMENT

PIA XXXX Approved HS major course

PIA XXXX Approved HS major course

Electives: 18 credits

Minimum Required Credits: 48 credits

International Development, MID

MID students promote respect for human life and human rights, often working behind the scenes to bring real improvements to the human condition through hands-on careers in public service. They work face-to-face with underprivileged and vulnerable populations, in the front offices of aid agencies, and in international organizations dedicated to protecting those who need help most.

The 48-credit MID degree is designed to prepare students to make a difference locally, nationally, and globally by emphasizing intellectual rigor and practical skills. Students study development theoretically, but also learn concrete technical and managerial skills necessary to work in organizations that promote equality in the developing world. Graduates exit the program prepared for professional work in the United Nations, public aid agencies, and charities of all sizes. Often, they pursue work in the private sector, research groups, and prominent non-governmental organizations.

Required Courses

Along with the Required MID courses, all students must complete a 300-hour internship with approval from GSPIA career services.

PIA 2022 - QUANTITATIVE METHODS
PIA 2025 - MICROECONOMICS

Nongovernmental Organizations and Civil Society, MID

In Spring 2022 the Nongovernmental Organizations and Civil Society, MID program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

NGOs and Civil Society (NGOCS)

Much of the work that has defined change around the world has been the domain of nongovernmental organizations (NGO's). The nongovernmental organizations and civil society (NGOCS) major prepares students for a future in a world where NGO's are committed to social change in the shifting landscape of the human condition. Students acquire knowledge in management strategies and politics and courses cover such topics as alleviating hunger, advocating for human rights and promoting public health.

GSPIA NGOCS students have the opportunity to develop experience through internships, both domestic and international, as well as the change to build expertise in issues such as grant writing, education or health care that will serve them well following graduation. Our approach is to act as advocates of change with our courses and faculty inspiring and empowering students to make a difference. Graduates go on to work with individual governments, regions and communities around the globe to improve the quality of life.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements: 12 credits

Social Policy, MPA/MID

Gain the quantitative, political, administrative and legal skills to analyze social needs and policy impact on human lives worldwide. You'll learn to monitor, evaluate, and communicate data to convey the consequences of policy development and implementation.

MPA Track:

PIA 2210 - RACE, GENDER, LAW AND POLICY
PIA 2216 - ECONOMICS OF SOCIAL POLICY

MID Track:

PIA 2512 - POVERTY AND INEQUALITY
PIA 2117 - PROGRAM EVALUATION

For Both Tracks

Choose two additional Approved Social Policy Courses

Master's Degree Requirements - MPA

A minimum of 48 credits is required for the completion of the Master of Public Administration (MPA) degree. All MPA students are to complete the following 9 credits.

PIA 2020 - ADMINISTRATION OF PUBLIC AFFAIRS
PIA 2104 - FINANCIAL MANAGEMENT
PIA 2117 - PROGRAM EVALUATION (pre-req: PIA 2022)

Master's Degree Requirements - MID

A minimum of 48 credits is required for the Master of International Development (MID) degree. All MID students are to complete the following 6 credit requirement.

PIA 2501 - DEVELOPMENT POLICY AND ADMINISTRATION
PIA 2510 - ECONOMICS OF DEVELOPMENT (pre req: PIA 2025)

Urban Affairs & Planning, MID

In Spring 2022 the Urban Affairs & Planning, MID program was terminated. Current students will be given the option to switch to the new structure. By default, students will be allowed to complete the program as it existed when they enrolled until Spring 2027.

Urban Affairs & Planning (UAP)

Urban Affairs and Planning takes a city-focused perspective on international development. More than half of the world's people now live in urban areas, raising important questions about how governments should meet the public's needs for transportation, health and sanitation, education, and other essential services.

As the developing world urbanizes, booming cities like Shanghai, Mumbai, Buenos Aires, and Johannesburg face critical challenges, including poverty, homelessness, and pollution. The major prepares students to confront those problems on an international scale, while developing valuable skills in Geographic Information Systems (GIS), regional economic planning, and sustainable development management. Students take advantage of GSPIA's highly regarded Center for Metropolitan Studies, participating in cutting-edge research alongside faculty experts.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 12 credits

Degree Core Courses: 6 credits

Major Courses: 12 credits

PIA 2125 - CITY AND REGION THEORY AND PRACTICE
PIA 2715 - GIS FOR PUBLIC POLICY
PIA 2740 - PLN & ANAL SUSTAINABLE REGIONS
PIA 2xxx - Approved UAP Major Course

Electives: 18 credits

Minimum Required Credits: 48 credits

Minor

Nongovernmental Organizations and Civil Society Minor

The requirements for the Nongovernmental Organizations & Civil Society Minor are:

PIA 2526 Micropolitics: NGO's, Development & Civil Society (3cr)
PIA 2528 Governance, Local Government, & Civil Society (3cr)
PIA 2552 Managing Organizations in Development (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

Public Policy and Management Program

Master of Public Policy & Management (MPPM)

- Traditional Master of Public Policy and Management (MPPM)

The accelerated, 30-credit Master of Public Policy and Management (MPPM) degree provides mid-career professionals an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners. The program is designed to help enhance and advance the careers of professionals in the public and nonprofit sectors. It is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service. Degree requirements can be completed within one year of full-time study or two years of part-time study.

- Online Master of Public Policy and Management (MPPM)

The online Master of Public Policy and Management (MPPM) degree is a part-time, 30-credit program for mid-career professionals with at least five years of full-time work experience. It is an online version of the MPPM program that GSPIA has offered to talented mid-career students for more than a decade. Students who apply to the MPPM program may now choose whether they want to pursue the degree in its traditional, on-campus format or in a 100% online format.

[Special Admissions Requirements](#)

The MPPM program seeks applicants with a bachelor's degree and a minimum of five or more years of experience beyond an entry-level position. Candidates' experience should demonstrate increasing levels of responsibility, leadership, and professional competence, particularly in areas such as budgeting and finance, human resource management, or policy formulation or implementation. Candidates with fewer than five years of such experience should not apply to the MPPM program, but should apply instead to one of GSPIA's other, 48-credit master's degree programs. The flexible curriculum of the MPPM program is ideal for full-time and part-time students, as it allows them to take any of the courses offered at GSPIA. Students are free to study international affairs, international development, or public administration, and may focus their course selection on any of the fields of study offered under GSPIA's traditional, 48-credit master's degree programs.

Joint Degree

International Political Economy, JD/MPIA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public and International Affairs and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

[Note](#)

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/JD

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional lecture)

PIA 2025 - MICROECONOMICS

OR

PIA 2027 - MACROECONOMICS

PIA 2028 - PUBLIC POLICY ANALYSIS (pre-req. PIA 2022)

PIA 2096 - CAPSTONE SEMINAR: (24 credits)

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public and International Affairs and Master of Business Administration

For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/MBA

Student is required to take one of the following depending on major:

If SIS major: PIA 2303 Security & Intelligence Studies

If IPE major: PIA 2301 International Political Economy

If HS major: PIA 2307 Human Security

GSPIA Core Requirements: 12 credits

PIA 2022 - QUANTITATIVE METHODS (students may waive PIA 2022 if they pass the waiver exam. If waived, the class must be replaced by an additional elective)

PIA 2025 - MICROECONOMICS

OR

PIA 2027 - MACROECONOMICS

OR

PIA 2099 - THESIS (24 credits prior + PIA 2003 + approval by graduate enrollment counselor)

Internship Requirement: All students must complete an approved internship of at least 300 hours while enrolled at GSPIA. The internship must be approved by the student's career advisor in advance. Students with at least three years of relevant full-time work experience may petition their career advisor for a waiver of this requirement during their first semester.

Degree Core Courses: 6 credits

PIA 2363 - INTERNATIONAL HISTORY

One of the following based on major:

PIA 2301 - INTERNATIONAL POLITICAL ECONOMY or
PIA 2303 - SECURITY AND INTELLIGENCE STUDIES or
PIA 2307 - HUMAN SECURITY

Major Courses: 12 credits

(see Major-Specific requirements)

Electives: 3 credits

Minimum Required GSPIA Credits: 36 credits

Master of Business Administration requirements: 33

In Fall 2022, modifications were approved for the MBA Degree Requirements. Students will have until Summer 2023 to complete old program curriculum requirements.

The following core courses are required of all full-time MBA students:

Accelerated MBA, Signature MA, Part-Time MBA and Dual-Degree MBA/MS programs; MBA with Business Analytics students also complete the MBA Core Curriculum with additional credits required from business analytics curriculum. Joint-Degree MBA students also complete the MBA Core Curriculum, with some exceptions.

BACC 2401 - FINANCIAL ACCOUNTING
BECN 2401 - ECONOMIC ANALYSIS FOR MANAGERIAL DECISION: FIRMS AND MARKETS
BQOM 2401 - STATISTICAL ANALYSIS: UNCERT
BQOM 2421 - DECISION TECH IN MFG & OPS MGT
BFIN 2409 - FINANCIAL MANAGEMENT I
BMIS 2409 - INFORMATION SYSTEMS
BMKT 2409 - MARKETING MANAGEMENT
BSPP 2409 - STRATEGIC MANAGEMENT
BOAH 2409 - ORGANIZATIONAL BEHAVIOR: LEADERSHIP AND GROUP EFFECTIVENESS
BSEO 2401 - BUSINESS ETHICS & SOCIAL PERFORM
BIND 2454 - INTEGRATED MBA CAPSTONE

MBA Professional Courses

In addition to the MBA Core Curriculum, MBA students also complete "professional" coursework:

Quant Methods for Business
Programming for Business
Business Communications

The content of these courses is designed to accelerate a students' academic and personal development as a business professional. The timing, delivery, and credit-load may vary by program (i.e. Accelerated v. Signature v. Part-Time MBA). Any credits earned count toward the minimum 45-credits required for the MBA degree.

BIND 2404 - PROBABILITY & STATISTICS: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
BIND 2406 - BUSINESS MATH: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
BIND 2506 - TIME VALUE OF MONEY: FUNDAMENTALS OF MBA QUANTITATIVE METHODS
BMIS 2402 - COMPUTATIONAL THINKING FOR BUSINESS LEADERS
BOAH 2528 - ORGANIZATIONAL BEHAVIOR- COMMUNICATING STRATEGICALLY

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master of Public & International Affairs and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Public Policy and Management, MPPM

Master of Public Policy and Management (MPPM)

Accelerated Mid-Career Masters (Traditional)

The accelerated mid-career, 30-credit Master of Public Policy and Management (MPPM) degree provides mid-career professionals an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners.

The program is designed to help enhance and advance the careers of professionals in the public and nonprofit sectors. It is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service. Degree requirements can be completed within one year of full-time study or two years of part-time study. Students may specialize in security & intelligence, global political economy, human security, development planning & environmental sustainability, non-governmental organizations & civil society, urban & regional planning, public & nonprofit management, and policy research & analysis.

The MPPM program seeks applicants with a bachelor's degree and a minimum of five or more years of experience beyond an entry-level position. Candidates' experience should demonstrate increasing levels of responsibility, leadership, and professional competence, particularly in areas such as budgeting and finance, human resource management, or policy formulation or implementation. Candidates with fewer than five years of such experience should not apply to the MPPM program, but should apply instead to one of GSPIA's other, 48-credit master's degree programs.

Online Accelerated Mid-Career Masters

The online Master of Public Policy and Management (MPPM) degree is a part-time, 30-credit program for mid-career professionals with at least five years of full-time work experience. It is an online version of the MPPM program that GSPIA has offered to talented mid-career students for more than a decade. Students who apply to the MPPM program may now choose whether they want to pursue the degree in its traditional, on-campus format or in a 100% online format.

The program provides mid-career professionals with an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners. It is designed to help enhance and advance the careers of working professionals in the public and nonprofit sectors, but is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service.

Online Program Structure

As an online MPPM student, you will enroll in two web-based courses (for a total of 6 credits) per term. You will be able to complete the 30-credit degree in just five terms. By taking courses during the spring, summer, and fall terms, you can earn your degree in just 20 months. You may, if you prefer, complete the program at a slower pace by taking just one course at a time.

You will follow a set curriculum of online courses, all of which are taught by regular GSPIA faculty who are dedicated to your success, wherever you are. You will complete your coursework using the Pitt Online Website, where you can login at your convenience to view course material and submit assignments.

In addition to the professors teaching your courses, you will be assigned to a faculty advisor and a full-time enrollment counselor who will be able to assist you by phone, Skype, or email with any questions you may have. Your advisor and enrollment counselor will help you navigate the registration process and work with you throughout your time at GSPIA to ensure your success.

School of Public Health

In Spring 2022, the Graduate School of Public Health was renamed to School of Public Health.

Note: Students should refer to the catalog in use in their year of matriculation for course and credit requirements. All other information should be obtained from the current catalog.

The School of Public Health consists of graduate programs offered by the Departments of Behavioral and Community Health Sciences, Biostatistics, Environmental and Occupational Health, Epidemiology, Health Policy and Management, Human Genetics, and Infectious Diseases and Microbiology, the Multidisciplinary MPH program for doctoral-level health professionals, and nine certificates. Programs and specialty tracks, including joint programs, are detailed under individual department sections. The School of Public Health also offers an undergraduate degree in public health (BSPH).

The mission of the School of Public Health (Pitt Public Health) is to promote health, prevent disease, and achieve health equity for everyone through leadership in education, research, and service. Visit our website, www.publichealth.pitt.edu, for more information.

Health Systems Leadership and Management
Lesbian, Gay, Bisexual, and Transgender (LGBT) Individuals' Health and Wellness
Public Health Genetics

Admissions

Application instructions differ depending on whether you are applying for a degree, a certificate, or for non-degree coursework. Please follow the application instructions for your plan of study when applying to Pitt Public Health.

Pitt Public Health has general admission requirements for all applicants, plus each department has requirements specific to their programs. It's important to review both requirements before applying.

Accelerated Bachelor's/Master's Degree Program

University of Pittsburgh undergraduates may apply for admission to a number of accelerated bachelor's/master's programs. Designed to allow students to complete a bachelor's and master's degree in approximately 5 years. Students must have completed the number of undergraduate credits required by their program (minimum of 96 credits) before they can become a Pitt Public Health student. Besides the regular admission requirements, undergraduates must also meet additional requirements, which are specific to this program.

Non-Degree Status

Non-degree students can take up to 12 credits (cumulative maximum). If a non-degree student is later accepted into a degree program, that program will decide which of those credits may be applied to the degree requirements.

Requirements

A U.S. bachelor's degree or the equivalent foreign degree is required to become a non-degree student. Official transcripts must be submitted for all education, as well as a WES evaluation for study outside of the U.S. and TOEFL scores, if applicable.

Non-degree applicants must be U.S. citizens or permanent residents. In some cases, local applicants currently holding an F or J visa status may be eligible to apply; however, these applicants must contact the Office of Student Affairs for approval before submitting an application. Pitt Public Health does not sponsor I-20s for non-degree study.

How to Apply

Apply online through SOPHAS Express and complete required sections only

Pay application fee online directly to SOPHAS Express

Submit official transcripts for all education in the United States and/or Canada to Pitt Public Health Office of Student Affairs

Submit a course-by-course WES evaluation for all education outside of the United States (excluding study abroad but including non-English speaking Canadian institutions) to Pitt Public Health Office of Student Affairs

Submit official TOEFL scores (if applicable) to the University of Pittsburgh institution code 2927, with no department code. IELTS or Duolingo scores may be substituted for the TOEFL.

Note: *Non-degree applicants are not required to submit recommendations, upload transcripts through SOPHAS Express, submit test scores, or submit any non-required sections of the SOPHAS Express application.*

What classes should I take?

If you're planning to apply and you know which department you're interested in, you should contact that department directly for suggestions about classes. Many non-degree students choose to enroll in the Pitt Public Health core courses (unless restricted) as a way to learn more about our various programs and/or to start working towards a degree.

Here's a sample of courses that may interest you:

Principles of Epidemiology (EPIDEM 2110)*

Introduction to Public Health Genetics (HUGEN 2049)

Public Health Biology (PUBHLT 2015)*

Social and Behavioral Sciences and Public Health (BCHS 2509)*

Health Policy and Management in Public Health (HPM 2001)*

Environmental Health and Disease (EOH 2013)*

Principles of Statistical Reasoning (BIOST 2011)*

Foundations in Public Health (PUBHLT 2033)

**part of the Pitt Public Health Core Curriculum*

Note: *Pitt Public Health encourages non-degree students to apply to a degree program, but acceptance as a non-degree student does not guarantee admission to a degree program. Non-degree students are encouraged to reach out to program directors to discuss future degree options.*

Financial Aid

Almost all Pitt Public Health doctoral students and many master's students receive financial aid. Most financial aid is provided through the departments, and the amount of aid available varies among programs. Applicants should contact departments directly for information about available financial aid.

Academic Standards and Academic Integrity

Students are expected to exhibit academic honesty and to uphold the ethical standards of public health professionals. A student who is not in satisfactory academic standing will be placed on probation and may be subject to dismissal. Students should refer to the Pitt Public Health Academic Handbook for complete information on the school's academic performance standards.

Grading Policies

The School of Public Health follows the University's letter grade system in evaluating student performance in course work, though a variety of options are detailed below.

Pitt Public Health school-wide core courses are graded A, B, C, etc.

Students electing to audit a course must register for the course as for any other course, and must also complete a grade option form in the Office of Student Affairs and obtain the instructor's permission to audit the course. Students receive a grade of N for audited courses and receive no academic credit for the course.

See the Grading and Records section of this bulletin for detailed discussion of University Grading System and Grading Options.

Withdrawal and Resignation

To withdraw from a class after the official add/drop period while still enrolled in other classes, you must process a Monitored Withdrawal Request Form through the dean's office of the school offering the class.

If you wish to drop all of your classes after the end of the add/drop period, you must resign from the term. Adjustments to tuition charges resulting from official resignation (dropping of all courses for the term) are based on the effective date of resignation and in accordance with the federally mandated calculation. If you decide to resign, call the resignation hotline immediately to leave your name and contact information (412-624-7585), as the refund amount is calculated from the date of resignation.

Course Repeat

A student may repeat a course in which a grade of B- or lower is received if authorized by the student's advisor. Students may not repeat a school-wide core course or required departmental course more than once (i.e., course may only be taken twice), and students who fail a school-wide core course or required departmental course twice are subject to dismissal. (*See Pitt Public Health academic dismissal and probation guidelines in the Pitt Public Health Academic Handbook. See also Repeating Courses for more information.*)

GPA Calculation

In general, a student's Grade Point Average (GPA) is obtained by dividing the total number of letter grade credits taken in the graduate program into the total number of quality points earned in the graduate program.

All University of Pittsburgh courses taken as a Pitt Public Health student are included in the calculation of GPA.

Advanced Standing and Transfer Credits

For details on advanced standing and transfer credits, students should consult the Pitt Public Health Academic Handbook and their academic advisor. Acceptance of transfer credits is at the discretion of the program.

Acceptance of a maximum of 12 credits taken as a non-degree student at Pitt Public Health is at the discretion of the program.

Students enrolled at Pitt Public Health may take credits in another school or institution, providing that their department has approved application of those credits to the degree requirements. In all cases, any combination of advanced standing credits and credits taken from another school or institution during enrollment at Pitt Public Health may not exceed the limits established by the University or the Regulations Governing Graduate Study at the University of Pittsburgh.

Academic Advising

The School of Public Health considers effective academic advising an essential component of educating students. Departments have the primary responsibility for identifying and assigning to each student a major advisor, who, in consultation with the student, plans a program of study and research in accord with school and departmental guidelines. Departments are expected to provide students with a copy of school and departmental regulations appropriate for their program, and students are expected to become familiar with University, school, and department regulations concerning graduate study and to accept responsibility for the completion of all degree requirements.

The student's academic advisor is to direct and assist the student in the selection of classes and the conduct of research. Waivers from program requirements are processed at the program level, and waivers from school requirements by the Office of Student Affairs provided the student has met CEPH competencies. The Application for Graduation is processed through the Pitt Public Health Office of Student Affairs after clearance has been received from the academic advisor. A student will be certified for graduation only after the academic advisor has confirmed that all degree requirements have been met.

For students required to take preliminary, comprehensive, or defense examinations, the academic advisor, in consultation with the student, designates faculty members to act as the examining committee.

Each doctoral student is required to complete an Independent Development Plan per year and to submit it to his/her advisor. A suggested template is provided.

Each doctoral student, together with the student's doctoral committee, is responsible for assuring accomplishment of all elements of the student's course of studies, including the core requirements, the research tools requirement, course work in the field of specialization, advanced standing, the qualifying and comprehensive examinations, and the dissertation overview and its final oral defense.

Career Services

Pitt Public Health Career Services is dedicated to providing informative programs, individualized career counseling services, and networking opportunities to help masters and doctoral students effectively prepare for, develop and manage a career related to their field of study. We offer a broad range of resources to achieve these goals including participation in Handshake, Pitt's comprehensive career services platform and job board. A career counselor is available to meet with students and alumni on a daily basis. Appointments can be scheduled online.

Faculty

School of Public Health Primary Faculty

Program and Course Offerings

A number of courses of general interest to all departments are offered. Course descriptions and interactive class schedules are available to students on the Pitt Public Health website. A list of course offerings by department can also be accessed through the departmental sections of this catalog.

Certificate

Global Health Certificate

This program educates students about current health patterns and transitions occurring globally, as well as about the role of dynamic global environmental, political, economic, health care, and social changes to these patterns.

Coursework consists of 7 credits of core courses and 8 credits of additional coursework aligned with the individual student's specific area of interest and intended skillset. Students must complete a field experience, which can be combined with the required practicum for the degree program

provided the experience is relevant to global health. Students have the opportunity to complete this global health practicum in the form of local opportunities or in an international setting.

Required Courses

The certificate core courses cannot overlap with any other departmental requirement. Overlap is permitted for the remaining required courses and these may also fulfill departmental requirements.

PUBHLT 2025 - CONCEPTS AND METHODS IN GLOBAL HEALTH

PUBHLT 2027 - TRANSFORMING GLOBAL HEALTH EDUCATION INTO ACTION

One course from the Graduate School of Public and International Affairs is required from the list of approved classes (3 credits)

Master's

Multidisciplinary, MPH

The mission of the Multidisciplinary Master of Public Health (MMPH) degree program is to prepare doctoral level health professionals to practice in community, public, and global health settings. They will use population-based concepts, health education, health promotion and the preventive components of public and personal health care and practice. The educational program provides these individuals who have varied health science backgrounds with the advanced public health training in which they can incorporate and apply the public health knowledge and skills in a public or private setting. The program is designed to foster a comprehensive overview to bridge the gaps among public health disciplines and subdisciplines. The MMPH is uniquely designed for individuals with advanced degrees (MD, RN, DDS, DO...) and allows them the freedom to design their MPH. Comprised of the Pitt Public Health core curriculum (21 credits) the students are encouraged to choose electives from varied public health departments to form an area of focus of relevance to them. This degree gives the student the flexibility necessary to work around busy clinical schedules. Upon completion of the MMPH, students will have an understanding of statistics, health policy, research design and the ability to contribute to new research in their chosen fields of interest.

In addition to the Public Health core courses, students must complete a master's essay under the guidance of a faculty committee and register for a practicum experience. The curriculum consists of 42 credits and can be completed in a year.

Although the program has a 42 credit requirement, six credits of advanced standing or transfer credits may be applied, making it possible for an eligible student to complete 36 credits.

Pitt Public Health Core Requirements

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

*Students must take either BIOST 2011 or BIOST 2041

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

MMPH Requirements

PUBHLT 2002 - ESSAY-MMPH

Students must complete a master's essay, and register for 1-2 credits of PUBHLT 2002. The essay serves as the synthesizing document and should demonstrate a mastery of public health concepts, principles and practice. The essay may be based upon the practicum experience or

may be another related or unrelated research product, program proposal, or literature review. The essay topic and committee members must be chosen in concert with the program director, ideally, as early as possible in the student's path in the program. Research involving human subjects must be approved by the University of Pittsburgh's Institutional Review Board.

PUBHLT 2029 - MMPH PRACTICUM

Students are required to complete a practicum and, depending upon other course credits, will register for 1-3 credits of PUBHLT 2029. The practicum is individually arranged between the student, practicum advisor, and MMPH program director. Depending on student interest, the practicum can blend the student's existing clinical or professional work with additional experience that has a public health focus. The practicum requires a minimum of 200 hours and be documented in the student's e-Portfolio. The learning agreement must be completed before initiating the practicum experience. Students are responsible for completing the requirements of the e-Portfolio. The Academic Advisor is responsible for verifying that all required paperwork has been submitted and that all necessary school and departmental competencies have been met.

MMPH Electives

Add electives as recommended by academic advisors to earn total credits required for the program.

Department of Behavioral and Community Health Sciences

The Department of Behavioral and Community Health Sciences at the University of Pittsburgh examines the social determinants of health, that is, the set of social and behavioral factors that either promote or threaten public health. Our interventions alter these social and behavioral factors (such as housing, health literacy, or care management) to assess effects on community health. The BCHS mission statement summarizes our approach:

VISION

Healthy people living in thriving and equitable communities.

MISSION

Improve and promote health and equity by engaging individuals, communities, and systems through our research, teaching, and practice.

VALUES

Open communication; active collaboration; integrated and strength-based approaches; social justice and health equity; application of knowledge in the context of people's lives.

The primary educational mission of the Department is to prepare students for positions of responsibility and leadership in public health practice, research, and training. Our students learn to employ the most current health behavior theories and community development strategies in approaching public health challenges. They develop applied research skills in community health assessment and planning, program implementation and evaluation, health education, and health communication. They learn how to design programs and conduct community-based research, and to work as part of interdisciplinary teams examining behavioral interventions and community assessment strategies. These educational and practice experiences prepare our graduates to move into leadership positions at the local, national, and international levels.

The department has a world-class faculty that is involved in teaching, research, and community service on the local, national, and international level. We collaborate with local and regional public health systems, and many of the leadership staff in these organizations also have faculty appointments and teach classes in the department.

Contact Information

Velpandi Ayyavoo, PhD
2117 Public Health Building
412-624-3070
E-mail: velpandi@pitt.edu
www.bchs.pitt.edu

For additional information concerning specific degrees, contact the following: MPH-Elizabeth Felter, 6122 Public Health Building, 412-383-9629 or emfelter@pitt.edu; MPH/PhD in Social Work and MPH/MSW in Social Work-Steven Albert, 6126 Public Health Building, 412-383-8693 or smalbert@pitt.edu; PhD and DrPH-Patricia Documet, 6133 Public Health Building, 412-624-1601 or pdocumet@pitt.edu; Admission and Registration, 412-624-3107.

Admission: All Applicants

Applications for admission to the Department of Behavioral and Community Health Sciences are processed through the Office of Student Affairs at Pitt Public Health. You must apply for the MPH and PhD programs through SOPHAS, the centralized application service for graduate schools of public health.

Please review the Pitt Public Health requirements for admission before applying.

Application instructions differ depending on whether you are applying for a degree, a certificate, or for non-degree coursework. Please follow the application instructions for your plan of study when applying to Pitt Public Health.

Department requirements- BCHS doctoral applicants:

PhD applicants: a master's degree in a discipline relevant to public health is required.

A minimum grade point average of 3.3.

Completed 3 credits of college math passed with a C or better

Department requirements- BCHS MPH applicants:

At least a 3.0 GPA on a 4.0 scale

Completed 3 credits of college math passed with a C or better

Completed 6 credits of social sciences passed with a C or better

The BCHS department requires a minimum TOEFL score of 100 on the IBT or a minimum IELTS score of Band 7.0, if applicable. TOEFL or IELTS must be taken within two years of application.

Financial Assistance

Although resources for master's students are limited, the program makes every effort to assist students in accessing some level of financial aid. Small grants and awards are available from the Department, the School of Public Health, and from the University, and many BCHS students have been successful in competing for these awards. In addition, a small number of Graduate Student Assistant and Graduate Student Researcher positions are available for full-time doctoral students. There are also opportunities for paid field practicum positions, and many students are able to supplement their income through part-time employment on public health-related service or research projects conducted within the Graduate School, the University, or in the community.

Graduate Programs

Educational programs of the Department of Behavioral and Community Health Sciences build upon a common body of public health knowledge and social/behavioral science concepts, theories and applied research methods. The Master of Public Health (MPH) Program prepares students to assess the health status and needs of populations, develop public health interventions, and evaluate these interventions as well as develop recommendations for improvement. Students learn and put into practice assessment and research skills in the context of social and behavioral change at the individual, organizational, and community levels with an emphasis on social ecology and social justice. Three joint degree options are also available. Two programs with the School of Social Work, the MPH/PhD and the MPH/MSW in Public Health Social Work, train social workers for leadership positions in public health systems and prepare them for research and teaching posts. Students also have the option to receive the MPH and the Master of Public Administration (MPA), the Master of Public and International Affairs (MPIA), or the Master of International Development (MID) through a joint program with the School of Public and International Affairs. Finally, students can earn an MPH and a PhD in anthropology in cooperation with the Dietrich School of Arts and Sciences. The Department also offers a PhD (doctor of philosophy) program. See Doctoral Program section below for description.

Research Focus

The Department of Behavioral and Community Health Sciences has an extensive array of funded research and training projects. BCHS faculty and staff are skilled in the use of both quantitative and qualitative research methods, and the Department is particularly well known for its community-based participatory research strategies and modeling-simulation efforts designed to improve the health and welfare of communities.

Areas of research strengths include:

Diabetes and Chronic Disease Prevention

Cancer Screening Behavior

Health Equity

Public Health and Aging

HIV/AIDS and Sexually Transmitted Diseases

Maternal and Child Health
Evaluation Science
Global Health
Modeling of health behavior and linked disease dynamics
Mental Health

Research and training projects are funded by organizations such as:

National Institutes of Health (NIH)
Centers for Disease Control and Prevention (CDC)
National Cancer Institute (NCI)
National Institute on Aging (NIA)
National Institute of Nursing (NINR)
Health Resources and Services Administration, U.S. Department of Health & Human Services (HRSA)
Pennsylvania Department of Health
Local and National Philanthropic Organizations

Doctoral Programs

The Doctor of Philosophy (PhD) Program prepares students to conduct research in the social and behavioral sciences areas of public health in a variety of settings as well as teach in academic settings. The PhD curriculum is formed by a social-ecological perspective regarding the determinants of health and opportunities for intervention. Within this overarching framework, the curriculum also emphasizes theory-driven research, addressing health issues across the developmental life span of populations, examining variation across socio-demographic categories such as gender, age, and sociocultural status as it affects health and health disparities. The curriculum addresses the following areas: individual behavior, population health, research design and methods, statistical analysis; behavioral interventions; and the integration of public health research and practice. The PhD Program is a 72 credit program designed to be completed in 2 years full-time coursework in addition to 2 years for completion of dissertation research.

Master's Degree

The MPH Program is a 45-credit program requiring students to complete the Pitt Public Health core courses (18-19 credits), the departmental core courses (17-18 credits), and elective courses. The departmental core courses cover social/behavioral theory and concepts; applied social/behavioral research methods; program planning, implementation and evaluation; health communication; community development approaches and experience in applying social/behavioral theories and methods through the completion of a 200 hour practicum/internship. School core courses include Biostatistics, Epidemiology, Public Health Biology, Environmental and Occupational Health, Health Policy and Management, and Capstone.

Electives are selected from a range of approved courses that pertain to a student's area of concentration or interest. Students are required to complete a practicum in a public health setting and prepare an essay or thesis that addresses an issue of public health significance and that demonstrates the ability to synthesize information from numerous sources. The MPH program is designed to be completed in four semesters of full-time study. An option does exist for finishing in three semesters.

A number of joint degrees programs are also offered. See joint degree information below.

Joint Degrees

Students in the BCHS MPH program can pursue two graduate degrees simultaneously, through partnerships with other schools and departments at the University of Pittsburgh. Joint programs typically reduce the number of credits needed for each degree, allowing students to earn two degrees in three years for master's programs and four to five years for MPH/PhD programs.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements (including entrance exams like the GRE). If admitted to both schools, students alternate their primary program of study by semester or by year.

Although it is possible to apply to both schools at the same time, currently enrolled students can still apply for a joint degree as long as they have not yet completed one year of full-time study.

Certificates/Specialized Study

The Department of Behavioral and Community Health Sciences offers opportunities for certificates or specialized study in the following areas:

Lesbian, Gay, Bisexual, and Transgender Health and Wellness
Health Equity
Evaluation of Public Health Programs
Community-Based Participatory Research and Practice (CBPRP)

Certificate

Community-Based Participatory Research and Practice Certificate

In the past 10 years, Community-based Participatory Research and Practice (CBPRP) has emerged as a core discipline in behavioral and social science departments within schools of public health. CBPRP is a collaborative process of research and practice that includes both researchers and community representatives. Communities are generally defined as those that share a unit of identity (e.g., social ties, geographical locations). The CBPRP process involves engaging community members, using local knowledge in the understanding of health problems, and a long-term commitment to partnership. CBPRP is oriented towards holistic interventions informed by social ecology modeling, a widely recognized approach that not only targets knowledge, attitudes, and behaviors of individuals, but also includes social factors such as family and friendship ties, community norms, and the structure of community services.

Requirements for the Certificate

This program provides a comprehensive set of courses that will prepare students for a career in community-based participatory research and practice. As part of the program, student interns will work with local community agencies to collaboratively address identified community public health issues.

Applicants must meet the requirements for admission to the MPH program in the Department of Behavioral and Community Health Sciences and be accepted into the certificate program.

Students must complete 15 credits, including 9 credits of coursework and a six-credit internship/ practicum. The certificate program is designed to be completed in four semesters of full-time study. An option does exist for finishing in three semesters.

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

Required Courses

BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH
BCHS 2135 - LEADERSHIP
BCHS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH
BCHS 2609 - TRANSLATING RESEARCH FOR POLICY AND PRACTICE
BCHS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD
BCHS 2503 - PRACTICUM

Evaluation of Public Health Promotion and Health Education Programs Certificate

Demand for comprehensive program evaluations is rising in a range of public and private organizations dealing with the health and social welfare needs of populations in the United States as well as worldwide. Graduates with a specialization in program evaluation in public health have expanded opportunities for employment in organizations such as health departments and ministries of health, health and hospital systems, educational programs, philanthropic foundations, and consulting firms. Students in the BCHS program evaluation certificate study under expert faculty and research staff. Students are trained in the application of both quantitative and qualitative methods for evaluation, and have the opportunity to participate directly on interdisciplinary evaluation teams on actual community-based projects. The evaluation concentration typically involves taking courses in basic and advanced evaluation methods, qualitative approaches, health survey methods, and the evaluation practicum.

Requirements for the Certificate

This program trains students to apply both quantitative and qualitative methods for interdisciplinary evaluation of a range of community-based public health projects.

Applicants must meet the requirements for admission to Pitt Public Health.

Masters students must complete 15 graduate credits, including a 3-credit (400 hours) applied evaluation internship under the supervision of a designated faculty member, and 6 credits of electives.

Doctoral students must complete 15 graduate credits, including a 3 credit (320 hour) applied evaluation internship under the supervision of a designated faculty member, and 6 credits of electives including 3 credits of seminar in advanced evaluation techniques.

The certificate program is designed to be completed in four semesters of full-time study, but completion time may vary.

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

Required Courses

BCHS 2525 - INTRODUCTION TO APPLIED RESEARCH

BCHS 2558 - HEALTH PROGRAM EVALUATION

BCHS 2503 - PRACTICUM (masters students) or

BCHS 3703 - EXECUTIVE MANAGEMENT PRACTICUM (doctoral students)

*Doctoral students enrolled in the certificate are required to take as 3 of the elective credits:

BCHS 3003 - SEMINAR IN ADVANCED EVALUATION TECHNIQUES

Certificate Electives

Students choose 6 credits from the following courses for their evaluation electives requirement:

BCHS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH

BCHS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD

BCHS 2612 - PROJECT MANAGEMENT IN PUBLIC HEALTH

BCHS 2990 - SOCIAL DYNAMICS IN PUBLIC HEALTH

BCHS 3002 - HEALTH SURVEY METHODS

BCHS 3003 - SEMINAR IN ADVANCED EVALUATION TECHNIQUES

BCHS 3007 - ETHNOGRAPHIC AND QUALITATIVE METHODS

BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS

BCHS 3030 - MEASUREMENT IN THE SOCIAL AND BEHAVIORAL SCIENCES

PIA 2730 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS

OR

NUR 3055 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS: PREPARATION, FACILITATION AND APPLICATION

BCHS 2511 - INDEPENDENT STUDY

Some students may qualify for independent study in evaluation as determined by the certificate program director.

Health Equity Certificate

This innovative certificate program was created to address the systemic root causes of health disparities. While racial and ethnic health disparities are examples of the consequences of social and economic disadvantages, disparities may also be related to sexual orientation, religion, gender, native language, age, and disability status. The certificate provides students with an academic foundation for achieving health equity through assessing the complexity of inequities among diverse groups of marginalized populations, mobilizing communities where disparities exist, developing/evaluating culturally tailored interventions, and advocating for healthy public policy. The program is designed to increase the cultural competency of public health and other professionals and provide an interdisciplinary vehicle for individuals to pursue and strengthen their career interests relevant to health equity.

Requirements for the Certificate

This program addresses the systemic root causes of health disparities by providing trainees with an academic foundation for the promotion of health equity through conducting/evaluating culturally tailored community-based interventions, mobilizing communities where disparities exist, and advocating for healthy public policy.

Applicants must meet the requirements for admission to the MPH program.

Students must complete 15 credits, including Overview of Health Equity, Introduction to Community Health, Health Equity: Research and Interventions (or approved methods class substitute), and the Integrative Seminar in Health Equity. A field experience such as an equity-focused MPH practicum or participation in the Health Equity Journal Club is required. The certificate program is designed to be completed in four semesters of full-time study. An option does exist for finishing in three semesters.

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

Required Courses

BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH
BCHS 2524 - OVERVIEW OF HEALTH EQUITY
PUBHLT 2501 - HEALTH EQUITY RESEARCH: METHODS AND INTERVENTIONS
PUBHLT 2500 - INTEGRATIVE SEMINAR IN HEALTH EQUITY

Methods Course Substitute

Students may substitute BCBS 2526 Health Equity Research: Methods and Interventions for one of the approved methods courses.

BCBS 2523 - PUBLIC HEALTH PROGRAM PLANNING AND PROPOSAL WRITING (non-BCBS students)
BCBS 2525 - INTRODUCTION TO APPLIED RESEARCH (non-BCBS students)
BCBS 2558 - HEALTH PROGRAM EVALUATION
BCBS 3003 - SEMINAR IN ADVANCED EVALUATION TECHNIQUES
BCBS 3007 - ETHNOGRAPHIC AND QUALITATIVE METHODS

BCBS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH
and
BCBS 2609 - TRANSLATING RESEARCH FOR POLICY AND PRACTICE
and
BCBS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD

BCBS 3030 - MEASUREMENT IN THE SOCIAL AND BEHAVIORAL SCIENCES
BCBS 3002 - HEALTH SURVEY METHODS
BCBS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS
BCBS 3503 - PREVENTION SCIENCE: TRANSLATING KNOWLEDGE TO PRACTICE
BIOST 2016 - SAMPLING DESIGN AND ANALYSIS
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
BIOST 2062 - CLINICAL TRIALS: METHODS AND PRACTICE
EPIDEM 2161 - METHODS INFECTIOUS DISEASES EPIDEMIOLOGY
EPIDEM 2180 - FUNDAMENTALS OF EPIDEMIOLOGICAL METHODS
EPIDEM 2181 - DESIGN AND CONDUCT OF CLINICAL TRIALS
EPIDEM 2981 - EPIDEMIOLOGY OF AGING-METHODS
HPM 2064 - HEALTH POLICY ANALYSIS (master's students)
HPM 3064 - HEALTH POLICY ANALYSIS (doctoral students)
HPM 2063 - THE POLITICS OF HEALTH POLICY
HPM 2028 - MICROECONOMICS APPLIED TO HEALTH
HPM 2220 - COST EFFECTIVENESS ANALYSIS HEALTH CARE
HPM 2905 - QUASI-EXPERIMENTAL DESIGN FOR HEALTH SERVICES RESEARCH
HPM 3125 - INTERMEDIATE HEALTH ECONOMICS
PIA 2730 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS

Certificate Electives

BCHS 2532 - DIMENSIONS OF AGING: CULTURE AND HEALTH
BCHS 2560 - INTRODUCTION TO POPULATION PROBLEMS
BCHS 2575 - SEMINAR MATERNAL AND CHILD HEALTH
BCHS 2599 - PUBLIC HEALTH APPROACHES TO WOMEN'S HEALTH
BCHS 2995 - GLOBAL PERSPECTIVES ON WOMEN'S HEALTH: EMPOWERMENT, GENDER EQUALITY, AND HEALTH
EPIDEM 2143 - SOCIAL EPIDEMIOLOGY
EPIDEM 2400 - PSYCHOSOCIAL FACTORS IN DISEASE
IDM 2032 - HUMAN DIVERSITY AND PUBLIC HEALTH
CLRES 2200 - INTRODUCTION TO RESEARCH DISPARITIES ON HEALTH CARE
MEDEDU 2240 - CULTURAL COMPETENCE MEDICAL EDUCATION
PUBHLT 2025 - CONCEPTS AND METHODS IN GLOBAL HEALTH

Lesbian, Gay, Bisexual, and Transgender (LGBT) Health and Wellness Certificate

The interdepartmental (BCHS, EPID, IDM) Certificate Program will prepare students to collaborate and conduct independent research designed to improve the understanding of unique health concerns among lesbian, gay, bisexual, and transgender (LGBT) populations; participate in agency or organization planning, training, and delivery of health care for LGBT populations; work with local, state, and federal agencies in developing LGBT competent health care providers; provide leadership in public and private sector organizations serving the health and wellness needs of LGBT populations; and evaluate the effectiveness of health care delivery systems to meet the needs of LGBT populations.

In the United States, public health professionals seek to address health disparities. Students enrolled in this program will be prepared to address health disparities affecting subpopulations who may be experiencing a lower quality of health and wellness, due in part, to historic discrimination, with a focus on lesbian women, gay men, bisexuals, and transgender/transsexual individuals. As such, the certificate will offer courses that include information on identifying and documenting health disparities; impact of historical stigmatizing politics that contribute to development of health disparities; impact of politics and policy to improve means of addressing health disparities; design of appropriate research programs to address health disparities; theories behind intervention programs that work among disparate populations; and means to develop competency skills in working with stigmatized populations.

Requirements for the Certificate

This interdepartmental (BCHS, Epid, IDM) certificate program prepares students to conduct research designed to improve the understanding of unique health concerns among lesbian, gay, bisexual, and transgender populations, to participate in organized planning and delivery of health care for LGBT populations, and to provide leadership in organizations serving the health and wellness needs.

Applicants must meet the requirements for admission to Pitt Public Health.

Students must complete 15 graduate credits, a practicum, and a thesis or project related to LGBT health and wellness and oral presentation of the thesis or project for peers and members of the Center for LGBT Health Research, or at approved scientific meeting. The certificate program is designed to be completed in four semesters of full-time study. An option does exist for finishing in three semesters.

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

Required Courses

PUBHLT 2018 - OVERVIEW OF LESBIAN, GAY, BISEXUAL AND TRANSGENDER HEALTH DISPARITIES
BCHS 3503 - PREVENTION SCIENCE: TRANSLATING KNOWLEDGE TO PRACTICE
PUBHLT 2020 - ADVANCED TOPICS IN LESBIAN, GAY, BISEXUAL, AND TRANSGENDER RESEARCH
PUBHLT 2019 - PUBLIC HEALTH SPECIAL STUDIES **This may be substituted with departmental independent studies/ thesis/ dissertation credits if approved by advisor.

Certificate Electives

A minimum of seven credits in elective courses must be completed. For a list of approved electives see below. Other electives may be taken with the approval of one of the certificate directors.

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION
BCHS 2525 - INTRODUCTION TO APPLIED RESEARCH
BCHS 2558 - HEALTH PROGRAM EVALUATION
BCHS 3002 - HEALTH SURVEY METHODS
EPIDEM 2160 - EPIDEMIOLOGY OF INFECTIOUS DISEASES
EPIDEM 2400 - PSYCHOSOCIAL FACTORS IN DISEASE
HPM 2010 - ORGANIZATION STUDIES: THEORY AND APPLICATIONS TO HEALTH CARE SYSTEMS
IDM 2032 - HUMAN DIVERSITY AND PUBLIC HEALTH
IDM 2034 - CONTROL AND PREVENTION OF HIV/AIDS
IDM 2161 - METHODS OF INFECTIOUS DISEASE EPIDEMIOLOGY

Doctoral

Behavioral and Community Health Sciences, PhD

The Doctor of Philosophy (PhD) Program prepares students to conduct research in the social and behavioral sciences areas of public health in a variety of settings as well as teach in academic settings. The PhD curriculum is formed by a social-ecological perspective regarding the determinants of health and opportunities for intervention. Within this overarching framework, the curriculum also emphasizes theory-driven research, addressing health issues across the developmental life span of populations, examining variation across socio-demographic categories such as gender, age, and sociocultural status as it affects health and health disparities. The curriculum addresses the following areas: individual behavior, population health, research design and methods, statistical analysis; behavioral interventions; and the integration of public health research and practice.

The minimum credit requirement for the PhD program is 72 credits of completed course work and independent research. Twenty-four credits may be awarded for a previously earned master's degree. Twelve (transfer or advance standing) credits may be allowed for graduate work taken after earning the master's degree. All students must complete a common core of courses in the following categories:

Theories of behavior and community (6 credits)
Research design and methods (11 credits)
Elective theory and methods (3 credits)
Statistical analysis (12 credits)
Interventions (6 credits)
Integration of public health research and practice (3-8 credits)
Milestones (0-4 credits)

PhD students will typically earn 3 credits preparing for their comprehensive exam and a minimum of 1 dissertation credit must be earned. All PhD students must be enrolled as a full-time student at least 1 semester during their program. Registration for FTDR (i.e. Full-time Dissertation Research) after completion of 48 credits of coursework will fulfill this requirement. The program is designed to be completed in 2 years full-time coursework in addition to 2 years for completion of dissertation research.

BCHS PhD Requirements

Behavior & Community (6 credits)

BCHS 3555 - DOCTORAL SEMINAR IN BEHAVIORAL AND COMMUNITY HEALTH SCIENCES THEORIES AND MODELS
BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH

Research Design & Methods (11 credits)

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

BCHS 2525 - INTRODUCTION TO APPLIED RESEARCH
BCHS 3007 - ETHNOGRAPHIC AND QUALITATIVE METHODS
BCHS 3030 - MEASUREMENT IN THE SOCIAL AND BEHAVIORAL SCIENCES

Elective: Theory & Methods Examples (Choose any 3 credit graduate course at Pitt)

BCHS 3002 - HEALTH SURVEY METHODS
BCHS 3003 - SEMINAR IN ADVANCED EVALUATION TECHNIQUES
BCHS 3504 - DOCTORAL SEMINAR ON HEALTH COMMUNICATIONS
Advanced Methods in CBPR series
BCHS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH
BCHS 2609 - TRANSLATING RESEARCH FOR POLICY AND PRACTICE
BCHS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD
BCHS 2991 - MULTILEVEL ANALYSIS IN PUBLIC HEALTH
TBD: Students may choose any graduate course at the University - 3 credits

Statistical Analysis (12 credits)

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS or
EFOP 2018 - STATISTICS 1: DESCRIPTIVE AND INFERENTIAL STATISTICS

EFOP 2019 - STATISTICS 2: ANALYSIS OF VARIANCE

BIOST 2049 - APPLIED REGRESSION ANALYSIS or
EFOP 2410 - APPLIED REGRESSION ANALYSIS

BCHS 3707 - APPLIED MULTIPLE REGRESSION ANALYSIS AND CAUSAL MODELING FOR THE BEHAVIORAL AND
COMMUNITY HEALTH SCI

Interventions (6 credits)

BCHS 2558 - HEALTH PROGRAM EVALUATION
BCHS 3503 - PREVENTION SCIENCE: TRANSLATING KNOWLEDGE TO PRACTICE

Integration of Public Health Research and Practice (3-8 credits)

BCHS 3004 - INTEGRATIVE RESEARCH SEMINAR: GRANT WRITING

* Students enroll in two semesters of BCHS 3004.

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH (required if no MPH)

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

FACDEV 2200 - PRACTICUM ON UNIVERSITY TEACHING or

BCHS 2511 - INDEPENDENT STUDY

5 CIDDE Workshops

Research Competency Requirement

Electives

Milestones (0-4 credits)

BCHS 3888 - PREPARATION FOR COMPREHENSIVE EXAMINATION

FTDR 3999 - FULL-TIME DISSERTATION STUDY or

Additional Requirements

Both DrPH and PhD students take a preliminary (qualifying) examination at the end of the first year of full-time course work and a comprehensive examination when the student has completed all of the required course work. Following successful completion of the dissertation overview, the student is admitted into candidacy and begins dissertation study under the direction of a dissertation committee. The dissertation and oral defense of the dissertation must be completed within five years of the comprehensive examination. See General Requirements for Doctoral Degrees for further information.

Joint Degree

Behavioral and Community Health Sciences, MPH/MID; MPH/MPA; MPH/MPIA

The MPH/MID, MPH/MPA and MPH/MPIA joint degree programs prepare students for careers as public health practitioners in emerging economies where health issues are closely linked to social, political, and economic problems.

The MPH/MPA, MPH/MPIA and MPH/MID joint degree requirements are listed below. Students should refer to the Graduate School of Public and International Affairs page for the most current program checklists. The joint degree programs are designed to be completed in three years of full-time study.

78 credits, including coursework and one 300 contact hour field placement

Foundational public health courses

Advanced courses in health communications, program planning, and behavioral theories

Advanced courses in public and international affairs; international development; or public administration

Health-related field placement experiences

Advanced thesis or essay research synthesizing public health core concepts with issues relevant to public and international affairs

GSPH Core Requirements

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING or

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH

PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

BCHS MPH/MID; MPH/MPA; MPH/MPIA Core Requirements

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION

BCHS 2992 - SYSTEMS THEORIES AND APPROACHES

BCHS 2990 - SOCIAL DYNAMICS IN PUBLIC HEALTH

BCHS 2525 - INTRODUCTION TO APPLIED RESEARCH

BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH

BCHS 2503 - PRACTICUM

BCHS 2521 - ESSAY

Required Electives

Pick a minimum of 6 credits.

BCHS 2504 - OVERVIEW OF HEALTH COMMUNICATION
BCHS 2523 - PUBLIC HEALTH PROGRAM PLANNING AND PROPOSAL WRITING
BCHS 2524 - OVERVIEW OF HEALTH EQUITY
BCHS 2526 - HEALTH EQUITY RESEARCH: METHODS AND INTERVENTIONS
BCHS 2558 - HEALTH PROGRAM EVALUATION
BCHS 2572 - RISK COMMUNICATION
BCHS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH
BCHS 2609 - TRANSLATING RESEARCH FOR POLICY AND PRACTICE
BCHS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD
BCHS 2612 - PROJECT MANAGEMENT IN PUBLIC HEALTH
BCHS 2991 - MULTILEVEL ANALYSIS IN PUBLIC HEALTH
BCHS 3002 - HEALTH SURVEY METHODS
BCHS 3003 - SEMINAR IN ADVANCED EVALUATION TECHNIQUES
BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS
PIA 2730 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS
OR
NUR 3055 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS: PREPARATION, FACILITATION AND APPLICATION

Additional Electives

Students must reach the 45 credit minimum with remaining approved electives taken within any graduate school at the university.

Behavioral and Community Health Sciences, MPH/MSW

What is the MPH/MSW joint degree program?

The joint degree program is collaboration between the School of Social Work and the School of Public Health, Department of Behavioral and Community Health Sciences. Students graduate with both Master of Social Work and Master of Public Health degrees and are prepared to pursue a wide range of social work and public health careers to improve the health of a target population and/or community. Students participate in class work, field placements, and leadership seminars to acquire the knowledge and skills to address health problems.

What principles guide this program?

The program has a strong commitment to social justice, the elimination of health disparities, and a holistic definition of community and population health, including individuals' physical health conditions and the behavioral and social ecological determinants of health. Moreover, both social work and public health share a commitment to involving consumers/community members in the development of policies and in the planning, delivery and evaluation of health promotion interventions, health behavior change, and health education.

What are the advantages of the program?

Students develop knowledge, values and skills for both professional social work practice and (e.g. direct practice or community organization/social administration) and community public health practice (e.g. primary, secondary, and tertiary prevention). Advising and mentoring focuses on supporting students to achieve their professional goals (e.g., selection of field placements, papers written as part of course-work, leadership training activities, focus of final thesis/essay in the MPH program). Students increase their career marketability as a result of being able to work from a cross disciplinary perspective. Students have gone on to jobs, for example, in various social service organizations, health departments, other government agencies, academic institutions, think tanks, and the Centers for Disease Control and Prevention.

What competencies will individuals gain as a result of the program?

Application of theoretical principles to primary, secondary, and tertiary health interventions targeting the promotion of health behavior change, enhancement of the environment, and the elimination of risk factors in neighborhoods and communities that contribute to disease and poor health status outcomes
Application of principles of community-based participatory research and practice to community health assessment
Application of quantitative and qualitative skills to program planning and evaluation research
Processes involved in community health planning, program implementation, and program evaluation

Written communication to inform the public, policymakers, and other key-stakeholders
Other leadership skills in micro practice with individuals, families, and groups or macro practice.
All graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

What are the requirements of the program?

The BCHS MPH/MSW joint degree typically is completed with a three-year curriculum plan for Direct Practice or COSA (2.5 years for advanced standing students). The BCHS MPH/MSW in Social Work requirements are listed below. Students should refer to the School of Social Work for the most current program checklist.

33 Social Work credits (plus 18 field placement credits)

36 Public Health credits

Some highlights of the program are:

18 field placement credits representing two separate field placement experiences, foundation and concentration, coordinated by the School of Social Work, Office of Field Education.

Leadership Seminars for students participating in the Juanita C. Evans Fellowship Program

Final essay or thesis

What types of careers do graduates of the MSW/MPH joint degree program engage in?

Patient Services Managers

Research Scientist

Policy Advocates

Program Directors

Communication Directors

Adjunct and part-time faculty in MSW and BSW degree programs

Bridging the gap between the public's health and social work practice

Program Planners

Application Process

Students must apply separately to the School of Social Work and the School of Public Health (SPH).

GSPH Core Requirements

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING or
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH
PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

BCHS MPH/MSW Core Requirements

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION
BCHS 2992 - SYSTEMS THEORIES AND APPROACHES
BCHS 2990 - SOCIAL DYNAMICS IN PUBLIC HEALTH
Please choose a second-level research course to satisfy the BCHS 2525 requirement.
BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH
BCHS 2503 - PRACTICUM or
BCHS 2511 - INDEPENDENT STUDY and/or coursework depending on circumstances.
BCHS 2521 - ESSAY

Behavioral and Community Health Sciences, MPH/PhD, Anthropology

This joint degree program with the Department Anthropology in the Dietrich School of Arts and Sciences prepares anthropologists for research, teaching, and program planning/evaluation for specialization in the cultural, social, and behavioral aspects of health and health care in either a domestic or international setting.

Competencies

Graduates will be able to:

- Demonstrate ability to apply principles of community-based participatory research and practice to community health assessment
- Develop quantitative and qualitative skills that can be applied to program planning and evaluation
- Communicate in writing information to the public, stakeholders and policymakers
- Apply theory to program planning and evaluation

All graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

The MPH/PhD joint degree requirements are listed below. Students should refer to the Department of Anthropology for the most current program checklist.

- 87 credits, including coursework, research and fieldwork
- Foundational public health courses
- Courses in health communication, program planning, methods, community development and behavioral theories
- Advanced courses in anthropology
- Advanced dissertation research that includes at least one year of fieldwork in an area of specialization

MPH students enrolled in the MPH/PhD program in anthropology fulfill the course work requirements for both BCHS and anthropology and earn both degrees for a total of 87 credits. The MPH essay/thesis requirement is met by the PhD dissertation. The practicum requirement is met through fieldwork. The joint degree program is designed to be completed in four to five years including time for dissertation research.

GSPH Core Requirements

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING or
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

Behavioral and Community Health Sciences, MPH/PhD, Social Work

This joint program with the University of Pittsburgh School of Social Work prepares students to fulfill leadership roles in public health systems or academic settings. Students in this program, have opportunities to work with local organizations on a variety of planning, evaluation, and research activities.

Competencies

Graduates will be able to:

Demonstrate ability to apply principles of community-based participatory research and practice to community health assessment
Develop quantitative and qualitative skills that can be applied to program planning and evaluation
Demonstrate process of planning, implementing, and evaluating programs and policies
Communicate in writing information to the public, to stakeholders and to policymakers
Apply theory to program planning and evaluation

All graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

The BCHS MPH/PhD in Social Work requirements are listed below. Students should refer to the School of Social Work for the most current program checklist. The joint degree program is designed to be completed in four to five years including time for dissertation research.

Requirements

72 credits, including coursework and research
Foundational public health courses
Advanced courses in health communications, program planning, and behavioral theories
Advanced courses in research methods and statistics
Advanced dissertation research in an area of specialization

GSPH Core Requirements

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING or
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

Master's

Behavioral and Community Health Sciences, MPH

The MPH Program is a 45-credit program requiring students to complete the Pitt Public Health core courses (18 credits), the departmental core courses (11-15 credits), required electives, and open electives.

Electives are selected from a range of approved courses that pertain to a student's area of concentration or interest. Students are required to complete a practicum in a public health setting and prepare an essay or thesis that addresses an issue of public health significance and that demonstrates the ability to synthesize information from numerous sources. The MPH program is designed to be completed in four semesters of full-time study. An option does exist for finishing in three semesters.

Please refer to the MPH Handbook found on our website.

GSPH Core Requirements

Required coursework for the BCHS MPH degree

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING or
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS
PIA 2730 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS
OR
NUR 3055 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS: PREPARATION, FACILITATION AND APPLICATION

Additional Electives

Students must reach the 45 credit minimum with remaining approved electives taken within any graduate school at the university.

Department of Biostatistics

Biostatistics is an innovative field that involves the design, analysis, and interpretation of data for studies in public health and medicine. Biostatistics experts arrive at conclusions about disease and health risks by evaluating and applying mathematical and statistical formulas to the factors that impact health.

Students at Pitt Public Health benefit from collaboration with UPMC, Pennsylvania's largest academic medical center, and have access to extensive University computing facilities. Through rigorous courses, students gain a comprehensive understanding of statistical methods in the context of public health and medical problems; work with faculty on developing new and innovative methodologies and analytical techniques; and have the opportunity through both research and service to apply these methods to current and pressing concerns in biomedicine and public health.

Faculty & Administration

Pitt Public Health Primary Faculty

Department Student Services Staff

Admissions

In addition to the school-wide admissions requirements, admission to all Biostatistics degree programs requires two semesters of calculus, a course in biology, and a basic computing course. In some cases, course deficiencies can be satisfied the first term.

Applying for Admission to Pitt Public Health

Early Admission

University of Pittsburgh undergraduates may apply for early admission to the Biostatistics MS Program. Students must have completed the number of undergraduate credits required by their school before they can become a Biostatistics MS student.

Accelerated Bachelor's/Master's Program

Accelerated Bachelor's/Master's Program Admission Requirements

Financial Aid

The department provides full financial aid for approximately 55 PhD students per year. The most common form of financial aid is as a graduate student assistant (GSA). A GSA is expected to work as a teaching assistant and/or student researcher working on one of the many funded research projects maintained by the Department of Biostatistics or collaborators in other departments. Financial aid includes a stipend, tuition waiver, and medical benefits.

The department awards financial aid to applicable MS students at the time of admission. Many MS students obtain jobs in the University or surrounding area performing data analysis and other statistical tasks. The department circulates job advertisements when available to all students.

Tuition and Billing

Tuition & Financial Aid

Advanced Standing and Credit Transfer

Acceptance of a maximum of 12 credits taken as a non-degree student at Pitt Public Health is at the discretion of the department and program.

Students enrolled at Pitt Public Health may take credits in another school or institution, providing that their department has approved application of those credits to the degree requirements. In all cases, any combination of advanced standing credits and credits taken from another school or institution during enrollment at Pitt Public Health may not exceed the limits established by the University or the Regulations Governing Graduate Study at the University of Pittsburgh.

Students with previous graduate experience in Biostatistics or a related field may apply to transfer credits for graduate-level coursework successfully completed with a grade of B or better. PhD students may apply to transfer up to 24 credits and MS students 6 credits. The course credits to be transferred must be reviewed and approved by the student's academic advisor. Students who receive transfer credits for a public health core course must complete a Core Course Exemption Form in addition to the credit transfer paperwork to exempt out of those classes. Students who receive transfer credits for BIOST 2087 must complete a Course Exemption Form in addition to the credit transfer paperwork to exempt out of the course. All transfer credit and course exemption paperwork must be completed by the end of a student's first term of study.

Doctoral

Biostatistics, PhD

General Requirements for Doctoral Degrees

For an overview of University-wide regulations for doctoral students, see Regulations Pertaining to Doctoral Degrees.

Requirements

Coursework

A minimum total of 72 credits are required.

PhD candidates normally complete graduation requirements in four to five years.

Core Courses

- BIOST 2025 - BIOSTATISTICS SEMINAR (3 terms required)
- BIOST 2037 - FOUNDATIONS OF STATISTICAL THEORY
- BIOST 2039 - BIOSTATISTICAL METHODS
- BIOST 2044 - INTRODUCTION TO STATISTICAL THEORY 2
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- BIOST 2050 - LONGITUDINAL AND CLUSTERED DATA ANALYSIS

BIOST 2051 - STATISTICAL ESTIMATION THEORY
BIOST 2054 - SURVIVAL ANALYSIS
BIOST 2061 - LIKELIHOOD THEORY AND APPLICATION
BIOST 2083 - LINEAR MODELS
BIOST 2086 - MIXED MODELS
BIOST 2087 - BIOSTATISTICS CONSULTING PRACTICUM
BIOST 2093 - SAS FOR DATA MANAGEMENT AND ANALYSIS
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY *
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH *
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS * (2 terms required)

Note:

*Pitt Public Health Core Courses

Electives

In situations where a student's special interests or needs indicate an alternative course is more appropriate it may be substituted with the permission of the student's academic advisor and department chair.

Department Electives

Students must complete six Biostatistics elective courses. Current electives are:

BIOST 2016 - SAMPLING DESIGN AND ANALYSIS
BIOST 2036 - INTRODUCTION TO HEALTH DATA SCIENCE
BIOST 2040 - ELEMENTS OF STOCHASTIC PROCESSES
BIOST 2052 - MULTIVARIATE ANALYSIS
BIOST 2056 - STATISTICAL EVALUATION OF BIOMARKERS AND CLASSIFICATION TOOLS
BIOST 2062 - CLINICAL TRIALS: METHODS AND PRACTICE
BIOST 2063 - BAYESIAN DATA SCIENCE
BIOST 2065 - ANALYSIS OF INCOMPLETE DATA
BIOST 2068 - INTRODUCTION TO CAUSAL INFERENCE
BIOST 2069 - STATISTICAL METHODS FOR OMICS DATA
BIOST 2079 - INTRODUCTORY STATISTICAL LEARNING FOR HEALTH SCIENCES
BIOST 2080 - ADVANCED STATISTICAL LEARNING
BIOST 2094 - ADVANCED R COMPUTING
BIOST 2096 - NUMERICAL METHODS BIOSTATISTICS

Outside Electives

Students must complete at least three credits outside of the Department of Biostatistics.

Dissertation Research Credits

Students must complete three credits of BIOST 3010 or one term of FTDR 3999. Please see guidelines for both courses below.

Independent Study (BIOST 2021/3010) Guidelines

It is recommended that students should give priority to completing core and elective coursework before registering for independent study (BIOST 2021/BIOST 3010). Specifically, no more than 3 credits of independent study (BIOST 2021/BIOST 3010) should be taken in terms when core and elective courses are offered that a student needs take to complete coursework requirements.

Before passing the dissertation overview and comprehensive examination, a doctoral student can register for BIOST 2021 for his/her independent PhD level research. After passing the dissertation overview and comprehensive examination, a student is permitted to take BIOST 3010 which can fulfill the dissertation research credit requirement while providing credits toward the 72 credit requirement for the PhD degree.

In situations where a student's special interests or needs indicate more credits of independent study (BIOST 2021/BIOST 3010) appropriate approval must be obtained from the student's academic advisor and department chair.

FTDR 3999 Guidelines

Upon enrollment in 72 credits and successful completion of all required coursework, PhD students are required to register for Full-time Dissertation Study (FTDR 3999). FTDR 3999 carries no credits or letter grade, but provides students with fulltime status. Students enrolled in FTDR 3999 are assessed a special tuition fee.

Preliminary (Qualifying) Examination

The preliminary examination is designed to assess the breadth of the student's knowledge of the discipline, the student's achievement during the first year(s) of graduate study, and the potential to apply research methods independently. The preliminary examination is used to identify those students who may be expected to complete the doctoral program successfully and also to reveal areas for improvement in the student's preparation.

The Biostatistics PhD preliminary examination is typically offered annually in June. The examination consists of two separate components: theory and application (including public health based on epidemiology). In order to pass the preliminary examination, students must receive passing scores for both components of the examination. Eligible students are permitted to retake the portions of the examination they did not pass when the examination is offered again the following year. Students who do not pass the examination on the second attempt will be released from the PhD Program in accordance with the Pitt Public Health Probation and Dismissal Guidelines.

Once a student passes the preliminary examination, the student may begin working on his/her dissertation. Students should not begin dissertation work before they pass the preliminary examination.

Eligibility

A student is eligible to take the preliminary examination if the student:

- is enrolled in the Department of Biostatistics PhD Program with good standing (3.00 QPA or greater)
- did not fail the preliminary examination more than once; and
- completed the required courses (listed below) with a B or better, or equivalent coursework which the student has obtained transfer credits or exemption for

Required Coursework

Theory

Part 1 of 2

- BIOST 2044 - INTRODUCTION TO STATISTICAL THEORY 2
- BIOST 2051 - STATISTICAL ESTIMATION THEORY
- BIOST 2061 - LIKELIHOOD THEORY AND APPLICATION
- BIOST 2083 - LINEAR MODELS
- BIOST 2086 - MIXED MODELS

Application

Part 2 of 2

- BIOST 2039 - BIOSTATISTICAL METHODS
- BIOST 2049 - APPLIED REGRESSION ANALYSIS

Doctoral Dissertation

Students must write a dissertation that presents the results of a research project carried out by the student. An appropriate research project involves a substantive piece of original and independent research grounded in an appropriate body of literature. The PhD dissertation should consist of material sufficient for at least two publications in peer-reviewed journals. At least one of the manuscripts, based on the dissertation and first authored by the student, must be submitted before the PhD dissertation defense. For PhD students matriculated prior to fall 2015, it is recommended that at least one of the manuscripts be submitted before the PhD dissertation defense. It is the responsibility of the student's dissertation committee to evaluate the dissertation in these terms and to recommend the awarding of the doctoral degree only if the dissertation is judged to demonstrate these qualities.

Before the student's dissertation overview and comprehensive examination, the student's dissertation advisor proposes for the approval of the Department Chair and the Pitt Public Health Office of Student Affairs, a doctoral dissertation committee.

Dissertation Overview & Comprehensive Examination

Doctoral students must prepare and present a dissertation proposal. The dissertation proposal consists of two parts: (i) a presentation of a dissertation overview to members of the student's doctoral committee and all interested members of the Department of Biostatistics and (ii) a comprehensive examination attended only by the student and his/her doctoral committee. The purposes of the overview and the comprehensive exam are for a student to demonstrate that he/she is prepared to complete a dissertation by showing a general breadth of biostatistical knowledge and deep understanding of particular area(s) of biostatistics, demonstrating the ability to use biostatistical research methods and presenting a carefully formulated plan of novel dissertation research. An announcement advertising the time and location of the dissertation overview should be disseminated to the Department at least one week prior to the presentation. The doctoral committee must unanimously approve the dissertation topic and research plan before the student is admitted to candidacy for the doctoral degree. Approval of the overview does not imply either the acceptance of a dissertation prepared in accord with the overview or the restriction of the dissertation to its original overview. The dissertation overview and comprehensive examination should be passed at least one academic term before scheduling the dissertation defense.

Admission to Candidacy

Admission to candidacy for a doctoral degree constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to the research and the writing of the dissertation.

Eligibility

To qualify for admission to candidacy a student must:

- be in full graduate status
- have satisfied the requirement of preliminary examination
- have completed all required coursework with a minimum quality point average (QPA) of 3.00
- shown proficiency in a research or investigative tool
- have received approval of the proposed dissertation subject and plan following successful completion of the dissertation overview and comprehensive examination requirements

Students are informed of admission to candidacy by written notification from the Assistant Dean for Student Affairs.

Admission to candidacy should occur at least one academic term before the defense of the dissertation in order to provide an opportunity for the dissertation committee members to review, criticize, and monitor the proposed research.

Meetings of the dissertation committee and student must occur at least annually from the time the student gains admission to doctoral candidacy. During these meetings, the dissertation committee should assess the student's progress toward the completion of degree requirements and discuss objectives for the following year and a timetable for completing degree requirements.

Doctoral Dissertation Defense

The final oral examination in defense of the doctoral dissertation is conducted by the student's dissertation committee. One copy of the dissertation must be submitted to each member of the dissertation committee at least two weeks before the scheduled doctoral defense. The defense may not be scheduled earlier than two weeks following submission of the dissertation but must be held at least two weeks before the degree is conferred.

At least one month before the scheduled defense, the student must provide the department registrar with the defense time, date, place, dissertation title and abstract for school-wide advertisement. More information on defense announcement guidelines can be found by viewing the Pitt Public Health Graduation page.

The final copy of the dissertation must be prepared and submitted according to University Guidelines for Electronic Theses and Dissertations (ETD). Detailed dissertation rules can be found in the Pitt Public Health Handbook.

Graduation

All PhD students must register for at least one credit or FTDR 3999 during the term in which they intend to graduate.

Master's

Biostatistics, MS

General Requirements for Master's Degrees

For an overview of University-wide regulations for master's students, see Regulations Pertaining to Master's Degrees.

Requirements

Coursework

A minimum of 40 credits are required.

Full-time students normally complete graduation requirements for the MS degree within three to five terms (18 to 24 months).

MS, MS-HDS, MS-SCG Core Courses

BIOST 2025 - BIOSTATISTICS SEMINAR

BIOST 2050 - LONGITUDINAL AND CLUSTERED DATA ANALYSIS
BIOST 2066 - APPLIED SURVIVAL ANALYSIS: METHODS AND PRACTICE
BIOST 2093 - SAS FOR DATA MANAGEMENT AND ANALYSIS

MS Electives

Students must complete Biostatistics elective credits to bring the total number of course credits to 40. In situations where a student's special interests or needs indicate an alternative, non-Biostatistics, course is more appropriate it may be substituted with the permission of the student's academic advisor. BIOST 2025 cannot fulfill elective credits.

Health Data Science Concentration Required Courses

BIOST 2036 - INTRODUCTION TO HEALTH DATA SCIENCE
BIOST 2079 - INTRODUCTORY STATISTICAL LEARNING FOR HEALTH SCIENCES
BIOST 2094 - ADVANCED R COMPUTING

Health Data Science Concentration Electives

Students must complete HDS elective credits to bring the total number of course credits to 40. In situations where a student's special interests or needs indicate an alternative course is more appropriate it may be substituted with the permission of the student's academic advisor. BIOST 2025 cannot fulfill elective credits.

BIOST 2063 - BAYESIAN DATA SCIENCE
BIOST 2080 - ADVANCED STATISTICAL LEARNING
BIOST 2093 - SAS FOR DATA MANAGEMENT AND ANALYSIS
BMIS 2542 - DATA PROGRAMMING ESSENTIALS WITH PYTHON
BMIS 2588 - DATA BASE MANAGEMENT
INFSCI 2160 - DATA MINING
INFSCI 2410 - INTRODUCTION TO NEURAL NETWORKS
INFSCI 2595 - MACHINE LEARNING
INFSCI 2725 - DATA ANALYTICS
Prior R, Java, or Python programming experience required
PHARM 5834 - PYTHON FOR DATA MANAGEMENT AND ANALYTICS
STAT 2270 - DATA MINING

Statistical and Computational Genomics Concentration Required Courses

BIOST 2069 - STATISTICAL METHODS FOR OMICS DATA
BIOST 2079 - INTRODUCTORY STATISTICAL LEARNING FOR HEALTH SCIENCES
BIOST 2094 - ADVANCED R COMPUTING

Statistical and Computational Genomics Concentration Electives

Students must complete SCG elective credits to bring the total number of course credits to 40. In situations where a student's special interests or needs indicate an alternative course is more appropriate it may be substituted with the permission of the student's academic. BIOST 2025 cannot fulfill elective credits.

BIOSC 2140 - GENOMICS
BIOSC 2940 - MOLECULAR BIOLOGY
BIOST 2080 - ADVANCED STATISTICAL LEARNING
HUGEN 2022 - HUMAN POPULATION GENETICS
HUGEN 2029 - INTRODUCTION TO GENE MAPPING
HUGEN 2071 - GENOMIC DATA PROCESSING AND STRUCTURE
HUGEN 2072 - GENOMIC DATA PIPELINES AND TOOLS
HUGEN 2073 - GENOMIC DATA VISUALIZATION AND INTEGRATION
HUGEN 2080 - STATISTICAL GENETICS

Master's Comprehensive Examination

MS students must pass a written comprehensive examination that is given annually at the end of the first year of study in early May. The MS comprehensive examination will cover applied methods as well as theoretical concepts. The examination is a proctored closed book exam.

Eligible students who fail the examination on the first attempt will be permitted to take the examination a second time during the summer. The summer examination is only for eligible first-year students who did not pass the examination on the first attempt in order not to delay graduation or decisions about continuation in the program. Eligible students who fail the examination on the first attempt may also choose to wait until the following May to retake the exam. Students who do not pass the examination on the second attempt will be released from the MS Program in accordance with the Pitt Public Health Probation and Dismissal Guidelines.

Once a student passes the comprehensive examination, the student may take Capstone BIOST 2099 to work on his/her thesis. Students cannot register for Capstone before they pass the comprehensive examination.

Eligibility

A student is eligible to take the comprehensive examination if the student:

- is enrolled in the Department of Biostatistics MS Program with good standing (3.00 QPA or greater)
- did not fail the comprehensive examination more than once
- completed the required courses (listed below) with a B or better, or equivalent coursework which the student has obtained transfer credits or exemption for

Required Coursework

- BIOST 2039 - BIOSTATISTICAL METHODS
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

Master's Thesis

MS students must register for Capstone BIOST 2099 after successful completion of the MS Comprehensive Examination requirement. Capstone is a required two-credit course that meets the master's thesis requirement. Capstone credits cannot fulfill elective credit requirements. MS students are required to write and defend a master's thesis. The master's thesis must be in accord with specifications stipulated in the Pitt Public Health Detailed Essay, Thesis, and Dissertation Rules. Thesis work, including analysis, writing, defending and presenting is done within Capstone.

Capstone is a heavily directed, mentored, fast-paced and intense data analysis/writing course with the goal of producing an ETD-formatted thesis document containing rigorous analytic methods, appropriately summarized analysis results with logical, statistically and scientifically valid conclusions. Capstone projects are based on student work with a faculty member, access to a dataset with a research question from an outside source, or work done on a student internship. In addition, if none of these options apply to an individual student, open access datasets from previously funded research projects in the department or open access databases will also be available for students to use. All projects must have a public health focus.

Because of the fast pace and rigor necessary to complete Capstone within one term, it is critical that students prepare in advance of the course. In the semester prior to taking the course but only after passing the MS Comprehensive exam, students must register for the Capstone Preparation BIOST 2022. This preparation will occur with one of the course instructors to discuss possible data sets, potential research questions, prepare preliminary data and complete a project prospectus. As part of the prep, students will be required to take a free writing tutorial such as ones on Coursera or EdX. This preparation time will also be used to request a Pitt faculty member who is not on the Biostatistics faculty core to serve as an external reviewer as required by Pitt Public Health.

In the first two weeks of Capstone, students finalize their data set and write thesis research question(s). Also during this time, the Capstone director requests approval from the Department Chair and the Pitt Public Health Office of Student Affairs, for a master's thesis committee for each student enrolled in Capstone. This committee will be the instructors of Capstone, the thesis advisor, if applicable, as well as a Pitt faculty member who is not on the Biostatistics faculty core. Students may select a Biostatistics faculty member other than Capstone instructors as their thesis advisor. This is not required, but if a different thesis advisor is selected, the faculty member must sign a memo of understanding in which they agree to adhere to the pace of the course. It will be the students' responsibility to gain the faculty members signature.

The MS thesis committee will judge the adequacy of the MS thesis by the final oral presentation/examination covering the subject of the thesis, which will occur in the final week of Capstone. Successful completion of the MS thesis requires unanimous agreement by the MS thesis committee.

It is required that all students follow the Pitt Public Health Detailed Essay, Thesis, and Dissertation Rules and work in the ETD template when they start to write their thesis. The final copy of the thesis must be prepared and submitted according to University Guidelines for Electronic Theses and Dissertations (ETD).

Graduation

All MS students must register for at least one credit during the term in which they intend to graduate.

Department of Environmental and Occupational Health

The mission of the Department of Environmental and Occupational Health (EOH) is to study and elucidate the health effects of exposure to chemical, physical, and biological agents encountered in the workplace or general environment. Intrinsic to this research mission is that fundamental information regarding actions of environmental toxicants will provide insight into basic human biology in health and disease. Accordingly, current research includes fundamental studies on free radical biology and especially oxidative lipidomics and mitochondrial function, genetic basis of susceptibility to injurious agents including gene x environment approaches, cellular and molecular regulation of reparative response to injury including mesenchymal stem cells as modifying biological therapeutic agents, cardiopulmonary toxicology of heavy metals and particulate matter including nanoparticles, molecular carcinogenesis including metabolism of telomeres and DNA damage and repair, genetic and epigenetic contributions to neurodegenerative disease with focus on cholesterol dyshomeostasis and integrated studies in complex disorders such as environmental induced interstitial pulmonary fibrosis. In addition, a focus on exposure science and environmental epidemiology supports efforts into the health effects of air pollution and public health concerns associated with energy procurement including unconventional natural gas development. Translation of these collective efforts in basic and applied research is in part provided by members of EOH active in environmental policy, risk assessment, and community behavioral sciences. These efforts coincide and are coordinated with mentoring and educational programs for PhD, MS and MPH students.

For information on admission or registration, contact Bryanna Snyder at bms85@pitt.edu

Admissions

Course work in mathematics and the physical, chemical, and biological sciences must be documented in the undergraduate transcript. Acceptable undergraduate training includes a bachelor's degree in the physical, chemical, or biological sciences with a minimum of two courses each in organic chemistry, biology, physics, and calculus.

Applicants for admission must also take the Graduate Record Examination (GRE). The MPH program also accept MLATS and DATS. If the candidate already has a graduate or professional degree a waiver may be approved by the department. Consistent with Pitt Public Health requirements, students are ordinarily required to have at least a 3.00 (on a 4.00 scale) overall undergraduate GPA, and a 3.00 GPA in the basic science courses (chemistry, physics, biology, mathematics).

Financial Assistance

Financial support is available for tuition and stipend for PhD students through a graduate research assistance program from the University of Pittsburgh School of Public Health. Stipends are made available from the Department of Environmental and Occupational Health, and from individual research laboratories. Although master's students in the environmental health and/or environmental health risk assessment programs are eligible for support, in general it is expected that tuition and stipends for these students will be derived from external sources.

PhD and MS Programs

The PhD in Environmental Health Sciences is designed to provide a broad theoretical and practical education for individuals who desire positions in academic, industrial or government laboratories as teachers and/or researchers in the multifaceted discipline of Environmental Health Science with an emphasis on environmental impact on human disease and disease susceptibility. The Environmental Health Sciences program is an integrated modern curriculum combining training in the toxicological and environmental biophysics disciplines that are traditional to the Department of Environmental and Occupational Health with the new and continually developing fields of cellular and molecular pathobiology of environmental disease and gene-environment interactions. The program provides an understanding of how relevant environmental exposures, laboratory based model systems, and gene-environment responses can be interpreted and applied to the study of disease etiology in exposed and potentially exposed human populations. Master of Science degree in Environmental Health Sciences may be pursued and obtained along the way or independently.

EOH MS and PHD Handbook

MPH Program

The Master of Public Health in Environmental and Occupational Health is a key component of Public Health. Local environmental health professionals are the "front line troops" in the public health battle to prevent disease. The Department of Environmental and Occupational Health offers an MPH degree program to provide professional education for individuals who desire positions in environmental health or who already have environmental health positions and are seeking to strengthen their professional competency. The Doctor of Public Health in Environmental and Occupational Health provides further advanced professional education for those individuals who desire leadership positions in public health practice, policy analysis, professional communication, program management, high-level administration, and/or decision-making in an environmental health setting.

EOH MPH Handbook

Certificate Programs

The certificate in **Environmental Health Risk Assessment** is offered for interested students and for professionals currently employed in environmental health positions. The risk assessment certificate program provides concentrated coursework relevant to human health risk evaluation and is an efficient means for achieving proficiency in this area of environmental health.

Certificate

Environmental Health Risk Assessment Certificate

The aim of this certificate program is to provide concentrated graduate education in a well-defined area of environmental health. By means of highly focused course work, the objective of the program is to impart proficiency in the risk sciences for individuals who desire positions involving risk assessment strategies or already have such positions and are seeking to strengthen their professional competency. These include the following groups:

- Public and private sector professionals who evaluate scientific data in the context of risk assessment and management,
- Health and safety professionals, including industrial hygienists and Environmental and occupational health professionals who need to acquire or strengthen training in the risk sciences,
- Environmental scientists, engineers, policy analysts, and health and safety professionals,
- Occupational physicians.

The certificate program includes not only an updated concentration in Risk Assessment fundamentals, but also an expanded selection of Electives that includes new choices reflecting fast moving environment-related knowledge.

General Requirements

Students must have a graduate degree or be pursuing one concurrently. Students must complete 15 credits: 11 credits of required courses plus 4 elective credits.

Required Core

EOH 2175 - PRINCIPLES OF TOXICOLOGY
EOH 2181 - RISK ASSESSMENT PRACTICUM
EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE
EOH 2122 - TRANSPORT AND FATE OF ENVIRONMENTAL AGENTS

Suggested Electives

Sample Elective Courses (choose at least 4 credits)

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
EOH 2180 - INTRODUCTION TO RISK SCIENCES
EOH 2309 - ENVIRONMENTAL HEALTH CHEMISTRY
BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS
BCHS 2572 - RISK COMMUNICATION
LAW 5340 - ENVIRONMENTAL LAW

Doctoral

Environmental and Occupational Health, PhD

The PhD in environmental and occupational health provides a broad theoretical and practical education for individuals who desire positions in academic, industrial, or government laboratories in the multifaceted discipline of environmental health sciences. The program combines training in classical toxicological and environmental biophysics with the new and continually developing fields of cellular and molecular pathobiology of environmental disease. Training is geared toward an understanding of how relevant environmental exposures, laboratory based model systems, and gene-environment responses can be interpreted and applied to the study of disease etiology in exposed and potentially exposed human populations.

Program Requirements

PhD students must complete coursework and research for a total of 72 credits. Attendance and participation in departmental seminars and journal clubs is required. During the first two years of study, students will take the majority of their coursework and have an opportunity to rotate in three different research laboratories. After the first year, students are expected to engage in independent research projects oriented towards their thesis research. Preliminary qualifying examinations for the PhD degree occur in the second year after all core courses have been taken. Students spend the remainder of the graduate program completing the research project and taking selected elective courses. Dissertation preparation and defense complete the PhD requirements. *See General Requirements for Doctoral Degrees and Regulations Pertaining to Doctoral Degrees for more information*

EOH PhD Core Requirements

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
BIOST 2049 - APPLIED REGRESSION ANALYSIS
EOH 3210 - PATHOPHYSIOLOGY OF ENVIRONMENTAL DISEASE
EOH 2310 - MOLECULAR FUNDAMENTALS
EOH 2175 - PRINCIPLES OF TOXICOLOGY
EOH 2109 - ENVIRONMENTAL AND OCCUPATIONAL HEALTH SCIENCES JOURNAL CLUB minimum 4 semesters
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

EOH 2110 - ROTATION/PRACTICUM at least 2 semesters
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS 2 Semesters
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE OR
EOH 2122 - TRANSPORT AND FATE OF ENVIRONMENTAL AGENTS
EOH 3010 - RESEARCH AND DISSERTATION PHD Credits / Units: 1-9

Electives

Students must take 12 credits in electives from University wide graduate level courses

Environmental and Occupational Health, PhD, Public Health Practice

The PhD in environmental and occupational health provides a broad theoretical and practical education for individuals who desire positions in academic, industrial, or government laboratories in the multifaceted discipline of environmental health sciences. This program will provide a degree that emphasizes a practice-oriented, interdisciplinary approach to research that encompasses in its coursework the competencies of the five core areas of Public Health: environmental health, biostatistics, epidemiology, health policy and management, and behavioral and community health aspects of Public Health. It further includes courses to develop proficiencies in one of several high-level career directions.

Public Health Core

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH
PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS
PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

Concentration Core

BIOST 2049 - APPLIED REGRESSION ANALYSIS
EOH 2021 - SPECIAL STUDIES
EOH 2108 - ENVIRONMENTAL AND OCCUPATIONAL HEALTH PRACTICUM
EOH 2122 - TRANSPORT AND FATE OF ENVIRONMENTAL AGENTS
EOH 2175 - PRINCIPLES OF TOXICOLOGY
EOH 2180 - INTRODUCTION TO RISK SCIENCES
EOH 2181 - RISK ASSESSMENT PRACTICUM
EOH 2309 - ENVIRONMENTAL HEALTH CHEMISTRY
EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE

Electives

11 credits of elective courses

Special Studies & Dissertation

EOH 2021 - SPECIAL STUDIES
EOH 3010 - RESEARCH AND DISSERTATION PHD

Master's

Environmental and Occupational Health, MPH

The MPH program provides an opportunity for students interested in environmental and occupational health to become familiar with the relevant concepts as they apply to public health practice. The program will also be an opportunity for working health professionals to achieve an in-depth environmental perspective as well as a degree in public health. The degree may be tailored more toward either environmental health science or risk assessment depending on the choice of electives and desire of the student.

Program Requirements

MPH students must complete the prescribed coursework. In addition, they must complete an independent study under the supervision of a faculty member and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree. MPH students are also required to write an essay that is submitted to an examination committee for approval. The curriculum consists of **47 credits** and the degree normally takes two years.

GSPH Core Requirements

Required coursework for EOH MPH degree

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH
PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS
PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH
PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH Core Requirements

EOH 2180 - INTRODUCTION TO RISK SCIENCES
EOH 2175 - PRINCIPLES OF TOXICOLOGY
EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE
EOH 2122 - TRANSPORT AND FATE OF ENVIRONMENTAL AGENTS
EOH 2309 - ENVIRONMENTAL HEALTH CHEMISTRY
EOH 2108 - ENVIRONMENTAL AND OCCUPATIONAL HEALTH PRACTICUM
EOH 2021 - SPECIAL STUDIES 2 Credit Essay
BIOST 2049 - APPLIED REGRESSION ANALYSIS

Electives - Total 6 Credits

Students are required to take 6 credits of electives (school wide graduate level). Detailed below are some of the suggested electives students can take.

EOH 2310 - MOLECULAR FUNDAMENTALS
CEE 2501 - ENVIRONMENTAL ENGINEERING CHEMISTRY
BCHS 2572 - RISK COMMUNICATION
GEOL 2449 - GIS, GPS, AND COMPUTER METHODS
EOH 2181 - RISK ASSESSMENT PRACTICUM
BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS
LAW 5340 - ENVIRONMENTAL LAW

Environmental and Occupational Health, MS

The emphasis of the MS in environmental and occupational health is directed towards the theoretical underpinnings of environmental health sciences and toxicology with more limited involvement in laboratory-based research. The program is designed as an integrated modern curriculum combining the training in the toxicological and environmental biophysics disciplines that are traditional to the Department of Environmental and Occupational Health with the new and continually developing fields of cellular and molecular pathobiology of environmental disease and gene-environment interactions. The program provides an understanding of how relevant environmental exposures, laboratory based model systems, and gene-environment responses can be interpreted and applied to the study of disease etiology in exposed and potentially exposed human populations. The MS degree may be awarded as a terminal degree to students who do not enter the PhD program.

Program Requirements

MS students will follow the same coursework as the PhD students. They will, however, finish their program with 42 credits and a thesis. The degree takes approximately two years to complete. Students are also subject to a comprehensive exam. PhD students who do not progress to admission to candidacy may obtain a Master of Science with the completion of the MS requirements including a thesis.

MS Core Course Requirements

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS 2 Semesters
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
BIOST 2049 - APPLIED REGRESSION ANALYSIS
EOH 2175 - PRINCIPLES OF TOXICOLOGY
EOH 2109 - ENVIRONMENTAL AND OCCUPATIONAL HEALTH SCIENCES JOURNAL CLUB Minimum 4 Semesters
EOH 3210 - PATHOPHYSIOLOGY OF ENVIRONMENTAL DISEASE
EOH 2310 - MOLECULAR FUNDAMENTALS
EOH 2021 - SPECIAL STUDIES Credits / Units: 1-6
EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE OR
EOH 2122 - TRANSPORT AND FATE OF ENVIRONMENTAL AGENTS

MS Electives

Students must take 10 credits in electives from University wide graduate level courses

Department of Epidemiology

Epidemiology is the application of the scientific method to the study of disease in populations for the purpose of prevention or control. It is a key basic science of public health and preventive medicine. Epidemiologists play a fundamental role in public health and preventive medicine by identifying variabilities in human situations that may have a critical influence on the occurrence of disease within populations.

The epidemiological method for studying a problem involves three approaches:

- Description of the frequency and determinants of a disease in a defined population;
- Evaluation of factors that may cause a disease; and
- Experimental studies of the effects of modifying risk factors on the subsequent frequency of a disease.

Admissions

Applying for Admission to Pitt Public Health

The department accepts students with a variety of prior health-related professional degree backgrounds, prior graduate degrees, and superior students who have completed a bachelor's degree. Students may matriculate for the MPH, MS, or PhD degree. A joint MD/PhD program is also available. Major areas of emphasis within the department are aging, psychiatric, social epidemiology, cancer, injury prevention, applied public health cardiovascular and diabetes, clinical trials and methods, infectious disease, molecular and genetic epidemiology, environmental epidemiology, global health, prevention lifestyle and physical activity, neuroepidemiology, nutritional epidemiology, reproductive, perinatal, and pediatric epidemiology, and women's health.

Financial Assistance

Graduate Student Researcher (GSR) Appointment Information for doctoral program applicants and students only: Graduate Student Researcher Position

Financial Assistance: Tuition & Financial Aid

Minority Student Support Information: <http://www.healthequity.pitt.edu/funding-opportunities>

Research

In fiscal year 2020-2021, the faculty within the Department of Epidemiology received approximately \$29 million in research funds. These projects, mostly federally funded, included activity in the major areas of focus within the department. For additional information, review details about our

research practices and our numerous Areas of Research Emphasis .Degree Requirements: Master's and Doctoral Program Curricula

The student's course of study includes School of Public Health core courses, department core courses, electives drawn from our frequently used courses, and other appropriate selections throughout the University. The sequencing of courses is developed in conjunction with the academic advisor, taking into account background, area of focus, degree program, and Pitt Public Health requirements.

The minimum credit requirement is 30 for the MS program for health professionals and 72 for the PhD. A 45-credit MPH or MS is available for students who are not health professionals. This is a 16-month or 20-month program; MPH students will be involved in a hands-on internship. Master's students must complete a (MS) thesis or essay (MPH) and doctoral students (PhD) must complete a dissertation and one-semester Teaching Practicum experience.

The following are courses offered by the Department of Epidemiology.

Doctoral

Epidemiology, PhD

The Epidemiology PhD program provides students with an advanced level of academic preparation to conduct research, teach, and mentor students. This includes concentrated training in epidemiological concepts and methodology and the completion of a research-based dissertation. Students may choose from a number of areas of research emphasis as they plan coursework with their faculty mentors, and prepare for dissertation collaboration with their mentors and faculty committee members.

Please note that the Epidemiology PhD can be adapted to have an applied focus. Through elective coursework, internship opportunities, and the dissertation, PhD candidates can obtain the essential skills required for public health practice.

Graduates are employed at federal governmental agencies including the US Centers for Disease Control and Prevention, the US Food and Drug Administration, National Institute for Occupational Safety and Health, the Epidemic Intelligence Service, and the US Department of Health and Human Services, in addition to local and state departments of health, and the consulting, insurance and pharmaceutical industries.

Alumni are also leading research efforts at universities across the US and internationally, and inspiring students in the classroom as faculty instructors who are sharing their cutting-edge training, wealth of experience, and accomplishments with future public health leaders.

Pitt Public Health Requirements

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

This training requirement must also be completed:
Academic Integrity Training

Department of Epidemiology Requirements

EPIDEM 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
OR
EOH 3210 - PATHOPHYSIOLOGY OF ENVIRONMENTAL DISEASE
EPIDEM 2160 - EPIDEMIOLOGY OF INFECTIOUS DISEASES
EPIDEM 2170 - CHRONIC DISEASE EPIDEMIOLOGY
EPIDEM 2180 - FUNDAMENTALS OF EPIDEMIOLOGICAL METHODS

PhD students who completed a comparable course in their master's-level training are not required to enroll in EPIDEM 2180. Those with master's degrees in non-Epidemiology areas and those with Epidemiology master's degrees that did not cover topics presented in this course must enroll. Students and their academic advisors should consult the Epidemiology doctoral program director concerning registration for this course.

EPIDEM 2181 - DESIGN AND CONDUCT OF CLINICAL TRIALS

Primary Data Collection Requirement

Competency in Communication Requirement

Electives

Add electives as recommended by academic advisors to earn total credits required for the program. All Pitt Public Health course descriptions may be found on the Department of Epidemiology course offerings.

Total Credits: 72

Master's

Epidemiology, MPH

The Epidemiology MPH program provides a strong foundation in epidemiology and biostatistics, as well as the other core competencies of public health. It provides a clinically relevant educational and practical experience based on research excellence. Students are trained to engage in research and/or applied public health practice activities that impact public health by evaluating and responding to important public health issues such as infectious diseases, aging, and chronic disease prevention, global, reproductive, or environmental health, population neuroscience, and injury prevention.

Recent graduates are employed at state, county, and local health departments, the Centers for Disease Control and Prevention, the National Institutes of Health, hospitals, pharmaceutical and consulting companies. Some pursue medical or dental careers or doctoral programs in epidemiology or biostatistics.

Total Credits: 45

Epidemiology, MS (30 Credit)

For those who hold a professional health degree or a related doctoral degree, the department offers a 30 credit condensed MS program that provides concentrated training in epidemiological concepts, skills, and methodology with a research focus. A 45 credit Epidemiology MS program is available for those with a similar research focus who do not already hold a professional health degree or a related doctoral degree. Both MS programs require completion of a flexible mix of courses in epidemiology and biostatistics. Applicants may reference the credit option that best fits their qualifications and needs in the application goals statement, although this is not required.

Recent graduates are employed at universities and governmental agencies as well as pharmaceutical and consulting companies.

Pitt Public Health Requirements

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

This training requirement must also be completed:
Academic Integrity Training

Internal Review Board (IRB) Training
Competency in Communications Requirement

Electives

Add electives as recommended by academic advisors to earn total credits required for the program. All Pitt Public Health course descriptions may be found on the Department of Epidemiology course offerings.

Total Credits: 30

Epidemiology, MS (45 Credit)

The 45 credit Epidemiology MS program provides concentrated training in epidemiological concepts, skills, and methodology with a research focus. It includes a flexible mix of courses in epidemiology and biostatistics. For those who hold a professional health degree or a related doctoral degree, the department offers a 30 credit condensed MS program. Applicants may reference the credit option that best fits their qualifications and needs in the application goals statement, although this is not required.

Recent graduates are employed at universities and governmental agencies, as well as pharmaceutical and consulting companies. Some pursue medical or dental careers or doctoral programs in epidemiology or biostatistics.

Department of Health Policy and Management

The Department of Health Policy and Management prepares individuals to assume roles of leadership, policy development, and management within the health care system and public health. Its educational programs are grounded in the faculty's contributions in advancing the state of knowledge and professional practice in institutional and system health care management and the development, advocacy, analysis, and implementation of health policy. The HPM Faculty are engaged in interdisciplinary research addressing a range of problems relevant to public policy, organization, and management as applied to health care organizations and systems and in various professional and community service activities.

Graduate Degree Programs

The Department of Health Policy and Management offers the following graduate degree programs: Master of Health Administration (MHA), Master of Public Health (MPH), Master of Health Administration and Master of Business Administration (MHA/MBA), Juris Doctor/Master of Public Health (JD/MPH), Master of Science in Health Services Research and Policy (MS), a Doctor of Philosophy (PhD) in Health Services Research and Policy, a Doctor of Medicine/Doctor of Philosophy (MD/PhD) in Health Services Research and Policy, a Graduate Certificate in Health Care Systems Engineering, and a Graduate Certificate in Health Systems Leadership and Management.

The MHA program offers a graduate education relevant to both the aspiring and already practicing health care management/policy professional; a curriculum that anchors the program in its public health tradition while also providing the students with necessary tools, technologies, and knowledge in organizational and system management and policy analysis. Career and professional development activities are provided through the professional practice component of the curriculum which includes a Management Residency, the Executive in Residence program, professional mentorship, and participation in the HPMA Student Chapter and other networking and professional development opportunities.

The MPH Program in the Department of Health Policy and Management in the School of Public Health at the University of Pittsburgh provides advanced education for recent graduates, entry-level, and mid-career professionals to facilitate their career development as leaders and managers, health professionals, policy analysts, and advocates for various roles and contexts in public health and health care.

The MHA/MBA joint degree program offered by the Department of Health Policy and Management and the Katz Graduate School of Business provides an outstanding professional development opportunity for high-achieving applicants. This program prepares graduates to assume fast-track

middle management and executive leadership positions in health care organizations. This rigorous program combines the expertise of the Katz faculty in finance, marketing, business operations and strategic planning with that of the HPM faculty in health care structures and policy, outcomes measures, data analytics and patient safety and quality management. This three-year, 73-credit program includes a required management residency in the form of two separate field placements during the summer terms or one extended residency experience.

The department also offers a joint degree program with the School of Law, the JD/MPH program in law and health policy. This joint degree program was developed in recognition of the important area of intersection between the practice of law, health policy and health care delivery in the United States. Graduates of this program are provided the academic foundation for professional roles in public policy analysis and development, the practice of law for private clients with specialization in health law, and as inhouse counsel for health care organizations and systems and regulatory agencies. Applicants must be admitted to both the School of Public Health and the School of Law.

The MS in Health Services Research and Policy program prepares graduates for positions in health services research and policy, analytics and also prepares them for higher level education (such as a PhD). This MS program is primarily intended for students interested in pursuing a PhD but who would benefit from additional preparation before beginning doctoral studies. Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The PhD in Health Services Research and Policy provides advanced educational and professional development opportunities for individuals entering a career in health services research and policy. The program meets an ongoing need for public health researchers who focus on cost, access, and quality of the health care system. Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services. The goals of the program are to provide graduates with contemporary training in research design and methods appropriate for studying the health care system, experience in developing an NIH style grant proposal, and experience writing for publication, presenting results at a scientific meeting, and teaching. Students identify an area of focus that informs the substance and provides the theoretical framework for their research. Upon completing the program, graduates will be prepared for positions in academia, government or the private sector as experts in health services research and policy.

The MD/PhD in Health Services Research and Policy is part of the Medical Scientist Training Program (MSTP) of the University of Pittsburgh and Carnegie Mellon University, which offers exceptionally talented individuals the opportunity to undertake a physician-scientist training program tailored to their specific research interests. The PhD Program in Health Services Research and Policy at the University of Pittsburgh's School of Public Health, in the Department of Health Policy and Management, is one of 22 graduate programs participating in the MSTP that foster the development of future biomedical researchers by providing the highest quality of graduate medical training. The PhD program in Health Services Research and Policy was created to meet an ongoing need for public health researchers who focus on cost, access and quality of the health care system.

The Graduate Certificate in Health Care Systems Engineering is offered jointly by the School of Public Health and the Swanson School of Engineering. This certificate is designed for students in the Department of Health Policy & Management (Pitt Public Health) and the Department of Industrial Engineering (Swanson) and provides students with specific experiences and analytical tools required for effective problem solving relative to quality improvement and process engineering in the health care industry. Students are equipped to serve as leaders in addressing the challenges health care faces in the twenty-first century. Health care management students will learn engineering principles, models, and tools following a systems approach to analysis, problem solving, and project implementation, while engineering students gain knowledge of health care operations, the organizational culture, and the strategic issues facing the industry. With a focus on innovation, effectiveness, and efficiency in health care and public health, the certificate nurtures well-educated professionals and leaders in their disciplines. Contact Jessica Dornin for more information.

The Graduate Certificate in Health Systems Leadership and Management provides rigorous training for healthcare clinicians and providers looking to enhance their careers and improve healthcare delivery through strengthened leadership and management skills. The certificate is primarily designed for physicians, but is open to all healthcare clinicians and providers. The curriculum of 15-16 total credits consists of coursework in the following areas: Leadership Theory and Practice, Strategic Management, Financial Management, Health Policy, Quality and Patient Safety, and an applied project. Contact Jessica Dornin for more information.

Admission Requirements

Masters Degree Programs: The School of Public Health requires that students apply online for all degree programs. Requirements for admission include a bachelor's degree from an accredited college or university; GRE scores are not a required component for the MS, MHA and MPH applications. (For those students who feel that their past academic performance and/or prior work history do not adequately represent their skill set (or strength of their application), the GRE may be submitted for additional consideration. A strong test score can help offset the lack of industry experience and/or previous academic success); and successful completion of: three postsecondary (college/university)-level semester credits in biology; three post-secondary (college or university) level semester credits in mathematics (algebra or higher); and 6 post-secondary (college/university) level semester credits in social and behavioral sciences, preferably including one course in economics.

In addition, the Admissions Committee cites the following as important factors in the admissions decision: undergraduate performance, GRE scores (optional), letters of recommendation, relevant work (or volunteer) experience, and good interpersonal and communication skills. Most applicants are

interviewed as part of the application review process. Students enroll in August of each year. Although a rolling admissions process is in place, applicants are encouraged to apply as soon as possible and prior to the end of May. International University of Pittsburgh students should apply by February 1.

Doctoral Degree Program: Applicants to the PhD Program in Health Services Research and Policy must hold a baccalaureate degree with a GPA of at least 3.3 desirable; college level coursework in calculus with a grade of 3.0 or better is a prerequisite; GRE scores are not a required component for the PhD application. Applicants who feel that their past academic performance and/or prior work history do not adequately represent their skill set may submit GRE scores for consideration; Applicants for whom English is not their first language must submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam. Students must score a minimum of 213 on the computerized TOEFL (or 550 on the paper-based version). The minimum score for the IELTS is 65.

In addition, applicants must demonstrate in their personal statement that they have a clear understanding of how the program of study will benefit them in achieving their career goals. Three letters of recommendation are required from individuals who are in a position to judge the applicant's professional and or academic abilities. At least one recommendation should be from an individual who can comment on the applicant's academic qualifications (e.g., former instructor or advisor).

Certificate Program in Health Care Systems Engineering: Applicants to this program must be admitted to or enrolled in the MHA program, the HPM-MPH program, or the MS program in industrial engineering.

Certificate Program in Health Systems Leadership and Management: All Certificate applicants, except those already enrolled in GSPH, need to apply through SOPHAS. In addition, the Certificate applicant will submit a brief statement addressing: interest in health systems leadership and management; previous experience; areas of interest; and the relation of the Certificate to career goals.

The admission requirements for applicants are based on completion of at least an advanced health care provider degree (e.g. MD, RN, PharmD, PT, OT) or appropriate job experience.

Financial Assistance

The Department of Health Policy and Management has limited scholarship funds and these funds are allocated separate from admission decisions. The scholarship funds are mainly awarded to incoming high caliber students on an annual basis. Graduate student assistantship and research positions are periodically available on a competitive basis.

Department Web site: www.hpm.pitt.edu

Certificate

Health Care Systems Engineering Certificate

Offered jointly by the University of Pittsburgh Swanson School of Engineering and Pitt Public Health, this program provides students with specific competencies and analytical tools required for effective problem solving relevant to quality improvement and process engineering in the health care industry. Students are equipped to serve as quality champions and agents of change in addressing the challenges health care faces in the twenty-first century. Engineering students gain knowledge of health care operations, the organizational culture, and the strategic issues facing the industry. Health care management students will learn engineering principles, models, and tools within a systems approach to analysis, problem-solving, and project implementation.

This certificate is intended for individuals pursuing careers in the management, redesign, and improvement of the health care industry. Designed for master's students in the Department of Health Policy and Management and the Department of Industrial Engineering, this program provides a rigorous and multidisciplinary education as a complement to the core curriculum of both programs. With a focus on innovation, effectiveness, and efficiency in health care and public health, the certificate nurtures well-educated professionals and leaders in their disciplines.

Students in this certificate program will be able to:

- Demonstrate knowledge of the structures, performance, quality, policy and environmental context of health and health care to formulated solutions for health policy problems,
- Design and implement projects, including collecting, analyzing, interpreting data and offering sound evidence-based recommendations, and
- Summarize and present health care engineering-related research orally and in writing.

Required Courses

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING

or

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

HPM 2105 - INTRODUCTION TO THE US HEALTHCARE DELIVERY SYSTEM 1

HPM 2106 - HEALTH SYSTEMS LEADERSHIP AND PROFESSIONAL DEVELOPMENT 2

HPM 2050 - HEALTH SYSTEMS ENGINEERING SEMINAR

HPM 2017 - QUANTITATIVE METHODS: DECISION TECHNOLOGIES AND OPERATIONS MANAGEMENT IN HEALTH CARE

HPM 2207 - QUALITY ASSESSMENT AND PATIENT SAFETY

HPM 2220 - COST EFFECTIVENESS ANALYSIS HEALTH CARE

IE 2001 - OPERATIONS RESEARCH

IE 2102 - LEAN SIX SIGMA I (GREEN BELT)

IE 2108 - HEALTH SYSTEMS ENGINEERING: QUANTITATIVE ANALYTICS

IE 2303 - WORK DESIGN

IE 2998 - GRADUATE PROJECTS/PRACTICUM

Health Systems Leadership and Management Certificate

General Requirements

This graduate certificate provides rigorous training for health care clinicians and providers looking to enhance their careers and improve health care delivery through strengthened leadership and management skills. The certificate was initially designed for physicians in the School of Medicine, but is open to all health care clinicians and providers.

The admission requirements for applicants are based on completion of at least an advanced health care provider degree (e.g. MD, RN, PharmD, PT, OT), job experience, and career plans.

The curriculum requires 15-16 total credits and consists of coursework in leadership theory and practice; strategic management; financial management; health policy; quality and patient safety; and one applied project.

Required Courses

HPM 2012 - FINANCIAL MANAGEMENT FOUNDATIONS HEALTH CARE AND PUBLIC HEALTH

or

HPM 2014 - APPLICATIONS AND ISSUES IN FINANCIAL MANAGEMENT OF HEALTH CARE INSTITUTIONS

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

or

HPM 2064 - HEALTH POLICY ANALYSIS

HPM 2017 - QUANTITATIVE METHODS: DECISION TECHNOLOGIES AND OPERATIONS MANAGEMENT IN HEALTH CARE

or

HPM 2207 - QUALITY ASSESSMENT AND PATIENT SAFETY

HPM 2150 - STRATEGIC MANAGEMENT OF HEALTH SERVICE ORGANIZATIONS

HPM 2700 - SEMINAR IN HEALTH SYSTEMS LEADERSHIP

HPM 2275 - HPM SPECIAL STUDIES

*Applied Project

Doctoral

Health Services Research and Policy, PhD

Required Public Health Core Courses

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

Required HPM Core Courses

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

BIOST 2049 - APPLIED REGRESSION ANALYSIS

BIOST 2050 - LONGITUDINAL AND CLUSTERED DATA ANALYSIS

HPM 2905 - QUASI-EXPERIMENTAL DESIGN FOR HEALTH SERVICES RESEARCH

HPM 3000 - DOCTORAL RESEARCH AND PROFESSIONAL DEVELOPMENT SEMINAR PART 1

HPM 3001 - DOCTORAL RESEARCH AND PROFESSIONAL DEVELOPMENT SEMINAR PART 2

HPM 3010 - SEMINAR ON ORGANIZATIONAL STUDIES: HEALTHCARE ORGANIZATIONS AND ENVIRONMENTS

*HPM 3010 and HPM 3125 are offered alternating years; taken in either the first or second year

HPM 3064 - HEALTH POLICY ANALYSIS

HPM 3065 - ADVANCED HEALTH POLICY ANALYSIS: IMPLEMENTATION, EVALUATION, AND TRANSLATION

HPM 3125 - INTERMEDIATE HEALTH ECONOMICS

*HPM 3010 and HPM 3125 are offered alternating years; taken in either the first or second year

HPM 3501 - SEMINAR IN HEALTH SERVICES RESEARCH METHODS 1

HPM 3502 - SEMINAR IN HEALTH SERVICES RESEARCH METHODS 2

HPM 3505 - ADVANCED EMPIRICAL MICROECONOMICS METHODS WITH APPLICATIONS FOR HEALTHCARE RESEARCH

HPM 3506 - DISSERTATION GRANT WRITING CAPSTONE

Other Requirements

*HPM 3064: Health Policy Analysis is the prerequisite to HPM 3065 and must be taken during the spring term of the first year. In addition to required courses, students must have a minimum of 72 credits to graduate. Full Time Dissertation Study; Current Topics - Must attend all semesters and register for at least 2 Semesters; Teaching (1 credit) - Must serve as teaching assistant at least one semester; Area of Focus (Minimum 12, including electives)

Note:

- (a) Students without previous experience in health care are expected to take HPM 2105: Health and Medical Care Organization
- (b) Students must register for 3 dissertation credits or one semester of Full Time Dissertation Research (FTDR).

Requirements for the Ph.D. Degree:

(Note: This is not a complete list of requirements.)

For an overview of University-wide regulations for doctoral students, see Regulations Pertaining to Doctoral Degrees. All Pitt Public Health doctoral students must:

Complete specific courses as determined by the program or the school, including at least 3 credits of 3100 (dissertation) or one term of FTDR (full-time dissertation research).

Fulfill the University's residency requirement.

Satisfactorily complete the preliminary/qualifying examination, the comprehensive examination, the dissertation overview, the dissertation defense, and the annual Individual Development Plan.

Meet the requirement for proficiency in tools of research.

Register for two terms of Public Health Grand Rounds.

Complete the online Academic Integrity Modules in the first semester.

Individual programs will provide specific information on fulfillment of these requirements.

The Health Services Research and Policy (HSRP) PhD program meets an ongoing need for public health researchers who focus on cost, access and quality of the health care system. Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The PhD requires a minimum of 72 credits. Students will work with their academic advisors to develop an area of focus with at least 12 credits (included in the 72 credit total) that focuses on a discipline or area of interest. The area of focus is the opportunity for students to gain specialized

skills and knowledge relevant to their chosen research area. The courses for the area of focus can be based in a traditional discipline, an established field, or can be thematically linked based on the students' interests and goals. For example, students may choose from a traditional discipline such as economics, psychology, sociology or bioethics. Others may choose to focus on a technical area such as quantitative or qualitative research methods or survey design, or a substantive area such as quality and patient safety, gerontology, pharmacoeconomics, substance abuse, or mental health. Students must successfully pass a preliminary exam given after the first year, a comprehensive exam given after the second year, and typically present their dissertation overview towards the end of the third year. The doctoral dissertation will take the form of three thematically linked manuscripts of publishable quality.

PhD Curriculum

Joint Degree

Health Policy and Management, JD/MPH

Program Requirements

MPH students must complete the prescribed coursework. In addition, they must complete a capstone intellectual product (master's essay) under the guidance of a faculty committee and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree.

Pitt Public Health requires the completion of 45 credits to receive a Master of Public Health (MPH) degree, including 40 hours of required courses and 5 elective credits. However, joint degree participants may cross-count up to 8 hours of law school credits towards their MPH.

The School of Law requires 88 credits for the Juris Doctor. Of these, 12 credits may be cross-counted from Pitt Public Health. Overall a total of 113 credit hours is required for completing the joint degree program, which is 20 credits fewer than completing all of the coursework independently.

Pitt Public Health Core Requirements

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING

*Students must take either BIOST 2011 or BIOST 2041

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

HPM Core Requirements

HPM 2012 - FINANCIAL MANAGEMENT FOUNDATIONS HEALTH CARE AND PUBLIC HEALTH

HPM 2020 - PROFESSIONAL DEVELOPMENT SEMINAR 1

HPM 2021 - PROFESSIONAL DEVELOPMENT SEMINAR 2

HPM 2025 - HPM PRACTICUM

HPM 2028 - MICROECONOMICS APPLIED TO HEALTH

HPM 2037 - ESSAY-HA

HPM 2049 - HUMAN RESOURCES MANAGEMENT FOR HEALTH CARE AND PUBLIC HEALTH PROFESSIONALS

HPM 2063 - THE POLITICS OF HEALTH POLICY

HPM 2064 - HEALTH POLICY ANALYSIS

HPM 2081 - PUBLIC HEALTH AGENCY MANAGEMENT

Requirements for the JD/MPH Degree:

For the JD/MPH degree, students enrolled in the joint-degree program receive integrated training in law and public health over a four year period. Students must apply to, and be accepted into, both the School of Law and the School of Public Health. Once admitted, the student completes the first year of law school before registering for courses in public health. During subsequent semesters students are encouraged to integrate coursework between the schools to best accommodate the students learning objectives. If obtained separately, the combined credit-hour requirements for the JD and MPH degrees is 133 credits (88 for the JD, and 45 for the MPH). Students enrolled in this joint-degree program, however, are able to apply a number of courses toward fulfillment of both degrees simultaneously thereby reducing the total required credits to 113.

JD/MPH Curriculum

Health Policy and Management, MHA/MBA

Required Public Health Core Courses

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

- Complete the school-wide core courses required for their program, and complete and submit the thesis or essay
- Fulfill the program's core course requirements, including required courses, and any field work, and examinations
- Register for two terms of Public Health Grand Rounds
- Complete the online Academic Integrity Module in the first semester
- Submit a master's thesis or essay

Thesis or Essay

All master's students must complete a minimum of one essay/special study credit and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to the Office of Student Affairs by the deadline posted for that graduation term.

MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MHA/MBA Degree:

An outstanding opportunity to become highly skilled in the management of health care processes, quality, and finances, the MHA/MBA joint degree program is designed to create future leaders in the management of health care organizations. Uniting the strengths of the University of Pittsburgh's School of Public Health and Joseph M. Katz Graduate School of Business, the program blends outstanding training in management and finance with the content expertise in health care quality improvement, outcomes measurement, and analytics.

Our highly trained graduates will be fully prepared to assume fast-track leadership positions in a variety of health care organizations. The Bureau of Labor Statistics estimates that the demand for health care managers will grow by 17 percent in the next decade. The U.S. health care system is the largest industry in the United States, currently consuming nearly 18 percent of GDP. At the same time, there remain significant problems with access and quality. The joint training in business and health care management should provide a strong foundation for a variety of positions in health care finance, insurance, operations, disease and population health management.

The standard full-time curriculum is a three-year, 73-credit course of study leading to the joint degree. The competency-based curriculum emphasizes both professional and leadership development, as well as functional management skills, blending courses across both the Katz School (MBA) and Pitt Public Health's Department of Health Policy and Management (MHA) in six academic terms.

Students are required to complete a management residency in the first summer term that may be extended into the second summer term. These supervised placements in health care services or health-related practice sites are an invaluable experience for professional development and networking. The student must also complete a master's essay and an applied management project at the residency site.

MHA/MBA Curriculum

Admissions

Students must complete applications for, and be accepted into, both the School of Public Health and the Joseph M. Katz Graduate School of Business. Application to Pitt Public Health must be submitted through SOPHAS at www.sophas.org. Application to the Katz Graduate School of Business should be made at www.business.pitt.edu/katz/apply.

*Must register for two terms

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

- Complete the school-wide core courses required for their program, and complete and submit the thesis or essay
- Fulfill the program's core course requirements, including required courses, and any field work, and examinations
- Register for two terms of Public Health Grand Rounds
- Complete the online Academic Integrity Module in the first semester
- Submit a master's thesis or essay

Thesis or Essay

All master's students must complete a minimum of one essay/special study credit and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to the Office of Student Affairs by the deadline posted for that graduation term.

MHA students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MHA Degree:

The MHA program offers students a competency-based curriculum and an array of professional development resources and activities to prepare graduates for managerial roles in health care systems and networks, managed care, health insurance, and long-term care organizations. The broad curriculum provides students with a foundation of knowledge, analytical and communication skills, and core values for ongoing career growth and professional and leadership development. Upon completion of the MHA program, our graduates obtain post-graduate fellowships or full-time employment in hospitals, academic medical centers, physician practices, long-term care facilities, health plans, and consulting firms.

The mission of the Masters in Health Administration (MHA) Program is to provide students with the competencies necessary for early to mid-level management positions and provide the foundation for subsequent professional development, leadership and executive management in organizations involved in the delivery or financing of health care services. The program's curriculum is based on evidence-based practice enriched by the research activity of the faculty.

In order to be eligible for graduation, students must complete 60 credit hours with a B average or better including a supervised management residency, which is typically scheduled during the summer term, and prepare a scholarly master's essay relating to the culminating experience. The curriculum includes select Pitt Public Health core courses, the required health management core, and elective credits offered within and outside the schools of the health sciences.

MHA Curriculum

Health Policy and Management, MPH

Program Requirements

MPH students must complete the prescribed coursework. In addition, they must complete a capstone intellectual product (master's essay) under the guidance of a faculty committee and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree. The curriculum consists of 45 credits typically completed over two years.

Pitt Public Health Core Requirements

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING

*Students must take either BIOST 2011 or BIOST 2041

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

*Must register for two terms

PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

HPM Core Requirements

HPM 2012 - FINANCIAL MANAGEMENT FOUNDATIONS HEALTH CARE AND PUBLIC HEALTH

HPM 2020 - PROFESSIONAL DEVELOPMENT SEMINAR 1

HPM 2021 - PROFESSIONAL DEVELOPMENT SEMINAR 2

HPM 2025 - HPM PRACTICUM

HPM 2028 - MICROECONOMICS APPLIED TO HEALTH

HPM 2037 - ESSAY-HA

HPM 2055 - MANAGING HEALTH PROGRAMS AND PROJECTS

HPM 2063 - THE POLITICS OF HEALTH POLICY

HPM 2064 - HEALTH POLICY ANALYSIS

HPM 2081 - PUBLIC HEALTH AGENCY MANAGEMENT

HPM 2105 - INTRODUCTION TO THE US HEALTHCARE DELIVERY SYSTEM 1

HPM 2108 - LEADERSHIP
HPM 2131 - PUBLIC HEALTH LAW AND ETHICS
HPM 2220 - COST EFFECTIVENESS ANALYSIS HEALTH CARE

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

- Complete the school-wide core courses required for their program, and complete and submit the thesis or essay
- Fulfill the program's core course requirements, including required courses, and any field work, and examinations
- Register for two terms of Public Health Grand Rounds
- Complete the online Academic Integrity Module in the first semester
- Submit a master's thesis or essay

Thesis or Essay

All master's students must complete a minimum of one essay/special study credit and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to the Office of Student Affairs by the deadline posted for that graduation term.

MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MPH Degree:

The MPH in Health Policy and Management (HPM) prepares students for careers as public policy analysts, advocates for public health and high quality care, and professionals engaged in the development and implementation of health policies. The program provides professional development through a combination of coursework, a health policy or management related practicum, a Public Health Leader-in-Residence, and other curricular activities.

This two-year, 45-credit Program prepares students for careers in both health policy development, analysis and advocacy and program and organization management in public health agencies, foundations, other nonprofits and the private sector. Graduates of our MPH Program should be well-prepared to pass the Certification in Public Health (CPH) exam, pursue related Doctoral studies and/or obtain professional employment in public health and related sectors, nationally and globally.

In order to be eligible for graduation, students must complete 45 credit hours with a B average or better including a supervised practicum, and prepare a scholarly master's essay relating to culminating experience. The curriculum includes the GSPH core courses, the required MPH core and elective courses offered within and outside of the schools of health sciences.

MPH Curriculum

Health Services Research and Policy, MS

Required Public Health Core Courses

- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- BIOST 2050 - LONGITUDINAL AND CLUSTERED DATA ANALYSIS
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
HPM 2905 - QUASI-EXPERIMENTAL DESIGN FOR HEALTH SERVICES RESEARCH
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
HPM 3508 - RESEARCH AND DISSERTATION PHD

Decision Sciences Area of Emphasis Courses

HPM 2124 - AN INTRODUCTION TO SIMULATION MODELING IN PUBLIC HEALTH
HPM 2217 - CLINICAL DECISION ANALYSIS
HPM 2220 - COST EFFECTIVENESS ANALYSIS HEALTH CARE
IE 2086 - DECISION MODELS

Decision Sciences Suggested Elective Courses

IE 2001 - OPERATIONS RESEARCH
CLRES 2023 - SURVIVAL ANALYSIS
CLRES 2026 - ANALYSIS OF CORRELATED DATA
CLRES 2107 - COMPARATIVE EFFECTIVENESS RESEARCH AND PCOR
HPM 2028 - MICROECONOMICS APPLIED TO HEALTH
HPM 2215 - COMPUTER METHODS IN DECISION AND COST-EFFECTIVENESS ANALYSIS
HPM 3501 - SEMINAR IN HEALTH SERVICES RESEARCH METHODS 1
IE 2188 - SIMULATION MODELING AND APPLICATIONS

Health Policy and Economics Area of Emphasis Courses

CLRES 2107 - COMPARATIVE EFFECTIVENESS RESEARCH AND PCOR
HPM 2028 - MICROECONOMICS APPLIED TO HEALTH
HPM 2220 - COST EFFECTIVENESS ANALYSIS HEALTH CARE
HPM 2064 - HEALTH POLICY ANALYSIS
HPM 2216 - HEALTH INSURANCE: FINANCING HEALTH CARE

Health Policy and Economics Suggested Electives Courses

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION
BCHS 3002 - HEALTH SURVEY METHODS
BIOST 2046 - ANALYSIS OF COHORT STUDIES
HPM 3125 - INTERMEDIATE HEALTH ECONOMICS
HPM 3501 - SEMINAR IN HEALTH SERVICES RESEARCH METHODS 1
HPM 3505 - ADVANCED EMPIRICAL MICROECONOMICS METHODS WITH APPLICATIONS FOR HEALTHCARE RESEARCH
PIA 2028 - PUBLIC POLICY ANALYSIS
PIA 2117 - PROGRAM EVALUATION

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

Complete the school-wide core courses required for their program, and complete and submit the thesis or essay
Fulfill the program's core course requirements, including required courses, and any field work, and examinations
Register for two terms of Public Health Grand Rounds
Complete the online Academic Integrity Module in the first semester
Submit a master's thesis or essay

Thesis or Essay

All master's students must complete a minimum of two essay/special study credits and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to the Office of Student Affairs by the deadline posted for that graduation term.

MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MS Degree:

The Master of Science in Health Services Research and Policy program prepares graduates for positions in health services research and policy, analytics and also prepares them for higher level education (such as a PhD). Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The MS requires a minimum of 42 credits. The program includes coursework in statistics and research methods as well as foundations in public health. Students must successfully pass a comprehensive exam given during the second year and submit and successfully defend a master's thesis.

MS Decision Sciences Area of Emphasis

MS Health Policy and Economics Area of Emphasis

Department of Human Genetics

The Department of Human Genetics provides graduate training in the fields of human genetics, public health genetics, and genetic counseling. The mission of the department is to discover new knowledge about the genetic determinants of human health and disease through basic and applied research; to educate students, trainees, and other interested persons in that knowledge; and to apply that knowledge to improve the health of populations, families, and patients.

Contact Information

ATTN: Noel Harrie
Department Office: 1135 Public Health
412-624-3066
Fax: 412-624-3020
E-mail: nce1@pitt.edu
<http://publichealth.pitt.edu/hugen>

Admission

In addition to meeting the School of Public Health's general admission requirements, applicants to the MS and PhD programs should have completed courses in calculus and genetics. For the genetic counseling program, the preferred undergraduate background includes courses in each of the following: genetics, organic chemistry-general biochemistry, calculus, statistics, and a behavioral or social science. In some cases, deficiencies can be made up after admission. For applicants to the MPH program, these courses are suggested but not required. For the MS in genome bioinformatics, applicants should have complete courses in calculus, genetics, and programming or coding. For information on admission and registration contact the Department of Human Genetics at 412-624-3066 or nce1@pitt.edu.

Financial Assistance

Financial aid in the form of graduate student assistantships is often available for PhD students. For other degree programs, aid is not usually available, although it is often possible to arrange for hourly wage/stipend support from research mentors or other faculty.

Major Educational Areas and Programs

Courses offered by the department address the areas of human population and quantitative genetics, biochemical and molecular genetics, cytogenetics, bioinformatics, genome sequence analysis, public health genetics, and genetic counseling. In addition, courses aimed at genetic counseling students provide training in clinical genetics, cytogenetics/molecular diagnostics techniques, risk communication, counseling, and ethics.

The principle objective of the courses in human genetics is to train students to critically examine the role of genes and genetic variation in determining the distribution of health and disease in the general population.

To achieve this objective, training is provided in both experimental and statistical approaches to the direct detection or estimation of the impact of genes on the health of individuals, families and populations. Such approaches include the evaluation of the relative roles of genetic and environmental factors and their interaction in determining the distribution of disease in the population. The department offers degree programs in four areas: human genetics (MS, PhD), genetic counseling (MS), public health genetics (MPH), and genome bioinformatics (MS).

Human Genetics - PhD and MS

This area is concerned with the study of the mechanisms of genetic variability and its impact on health at the individual and population level. An important component is the study of the fraction of genetic variability that leads directly to disease or determines an individual's susceptibility to diseases caused by pathogens or adverse environments.

A PhD track in human genetics with an emphasis on genetic counseling is available to applicants with three to five years of work experience as a genetic counselor and who are certified in genetic counseling by the American Board of Genetic Counseling (ABGC) or the American Board of Medical Genetics (ABMG).

Genome Bioinformatics - MS

The Master of Science in Genome Bioinformatics (MSGB) program prepares students for careers analyzing the human genome both in academia and in pharmaceutical and genomic testing industries. Graduates of the program will meet the growing need for computational analysts with expertise in manipulating, annotating, and interpreting human genome data. In addition to coursework and hands-on training, students will participate in a structured internship experience in industry or other non-academic setting to provide real world exposure to genome bioinformatics and hone analytic and communication skills in preparation for entering the job market.

Genetic Counseling - MS

The objectives of the program are:

- To provide a balanced program of study integrating courses in molecular genetics, medical genetics, and psychosocial and multicultural counseling including biomedical ethics.
- To provide extensive direct patient contact experience in a variety of clinical placements so that the student gains an appreciation of how the practicing genetic counselor functions in different work settings.
- To prepare students at the Master of Science level for entering the profession of genetic counseling and assuming the role of a professional in medical, research, and academic settings.

This is a full-time, two-year program. The majority of the course work occurs in the first year, and is followed by 11-months of clinical rotations. The clinical internship involves laboratory experience and direct patient contact.

Public Health Genetics - MPH

The MPH program integrates genetics and the public health science disciplines of epidemiology, biostatistics, environmental health, and health services research, focusing on phenotypic disease prevention in populations.

Research

Research in the Department of Human Genetics includes studies of basic genetic mechanisms of segregation and recombination; family and population studies of normal and disease phenotypes; chromosome structure and chromosomal mechanisms in disease; physical and genetic mapping of genes; interaction of genes with the environment; bioinformatics and sequence analysis; assessment of genetic risk; community outreach regarding genetics; educational projects for the public health care professionals; the process of genetic counseling including decision making, communication, and satisfaction with clinical service; and the detection of genetic disease. Application of this research is explored with research in ethics, genetic counseling and screening. The focus of faculty research is on human genetics but includes experimental studies in appropriate non-human animals and methodological work in statistical genetics.

Certificate

Public Health Genetics Certificate

Advances in genetics are occurring at a pace that challenges our collective ability to respond to the many social, legal, ethical, and public health policy implications generated by this revolution of knowledge. Consequently, there is a compelling need to prepare future public health professionals in the biology, technology, applications, responsibilities, and issues of genetic information, which will play an increasing role in our understanding of health and disease. All areas of public health can be improved and expanded by examining the role of genetics in public health issues.

The purpose of the Certificate in Public Health Genetics is to provide graduates with a basic grounding in public health genetics that will enable them to function as public health professionals at the cutting edge of this important new area. Students enrolled in this certificate program are trained to incorporate knowledge of how genes, together with the environment and behavior, influence health and apply this insight into their area of practice or research. Students will be able to:

Demonstrate basic knowledge of the role that genetics plays in the development of disease.

Identify the limits of his/her genetic expertise.

Identify ethical and medical limitations to genetic testing, including uses that don't benefit the individual

Identify the role of cultural, social, behavioral, environmental, and genetic actors in the development and prevention of genetic-related diseases

More information regarding the program can be found on the Pitt Public Health website under the Academics tab, Degree Programs, and clicking on the Certificates designation.

Certificate Requirements

The curriculum consists of 15 credits, of which at least 12 must be traditional classroom courses. The remaining three credits can be seminar, project, or practicum work.

In addition, all students receiving the certificate must give a presentation in a public health genetics course.

Other courses may be permitted, but must be pre-approved by the director of the MPH in the Department of Human Genetics.

1) All students must take:

HUGEN 2049 - INTRODUCTION PUBLIC HEALTH GENETICS

2) At least six credits from the following five courses are required to achieve competency in the basic science of genetics:

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION

HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1

HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2

3) A maximum of 3 credits may come from the following courses:

HUGEN 2047 - CLINICAL GENETICS CASE CONFERENCE

HUGEN 2050 - PUBLIC HEALTH GENETICS PRACTICUM

HUGEN 2052 - ETHICAL ISSUES IN CLINICAL AND PUBLIC HEALTH GENETICS

4) Additional courses permitted for the certificate include the following:

EPIDEM 2601 - MOLECULAR EPIDEMIOLOGY TOOLS & TECHNIQUES

BCHS 2572 - RISK COMMUNICATION

**Other courses may be permitted, but must be pre-approved by the Director of the MPH in Public Health Genetics Program in the Department of Human Genetics.*

Students enrolled in Human Genetics degree programs other than the MPH in Public Health Genetics may receive the certificate, with the stipulation that the certificate curriculum must include at least six credits of coursework that is not part of the coursework for their degree and three credits of project or practicum work. The requirements for current Human Genetics students include:

Six additional credits of coursework not already required by the student's degree program *Three of these credits must be HUGEN 2049: Introduction to Public Health Genetics and the additional three can come from the approved list of additional courses above or otherwise must be approved by the Directors of the MPH in Public Health Genetics program.*

Three credits of a project or practicum work *A paper (10 double-spaced page minimum, plus references) describing the project or practicum is required to receive a grade for these credit hours. Writing guidelines will be provided.*

Students must give a presentation in a public health genetics course on a topic decided by the course instructor.

Competencies

Graduates will be able to:

- (1) Apply knowledge of inheritance, including basic cellular and molecular mechanisms, and risk factors for disease to understanding a variety of rare and common health conditions.
- (2) Identify interactions among genes, environmental factors, and behaviors, and their effects on public health.
- (3) Assess the ethics of the application of genetic technologies to public health

Doctoral

Human Genetics, PhD

The Doctoral Program in Human Genetics prepares students for careers leading genetics and genomics research in academia or industry. The flexible curriculum provides a broad background in the field while allowing customized emphasis on molecular genetics/genomics, statistical genetics and genetic epidemiology, or genetic counseling. Typically four to ten doctoral students are admitted each year, including external applicants and internal applicants currently pursuing Master's degrees within the department. In addition to core coursework and advanced classes in a chosen area of interest, doctoral students pursue mentored research projects culminating in the production and defense of a dissertation.

AREAS OF STRENGTH

The doctoral program offers training in molecular genetics, statistical genetics and genetic epidemiology, and genetic counseling. This includes advanced coursework and outside-of-the-classroom training and research experiences. For example, during the second year and beyond, doctoral students will choose advanced courses in Human Genetics and elective courses across the Schools of the Health Sciences pertaining to their area of interest. Across all years, students will participate in workshops, laboratory meetings, and scientific conferences, and attend seminars offered to the University community, that enhance knowledge and skills in their chosen area of study. Research experiences including dissertation research will provide in-depth, hands-on training in the chosen area.

Students entering the doctoral program can tailor their training based on their research interests and career goals:

Molecular Genetics

Students pursuing training in molecular genetics or cytogenetics will carry out research projects performing benchtop experimental studies in laboratories within the department or across the Schools of the Health Sciences. Students can further customize their training by choosing among many elective courses in Cell Biology and Molecular Physiology, Cellular and Molecular Pathology, Immunology, Molecular Genetics and Developmental Biology, Molecular Pharmacology, and Molecular Virology and Microbiology.

Statistical Genetics, Genome Bioinformatics, and Epidemiology

Students pursuing training in statistical genetics, genome bioinformatics, and genetic epidemiology, will carry out applied analysis or methodological research projects related to clinical or epidemiological studies. Students will work as members of statistical and computational research groups within the department or across the School of the Health Sciences. Students can further customize their training by choosing advanced coursework in Biostatistics, Biomedical Informatics, Computational and Systems Biology, and Epidemiology.

Genetic Counseling

Students holding a MS-GC degree who wish to pursue a doctoral degree with a focus in genetic counseling will carry out original research in their area(s) of interest. In addition to addressing basic science or clinical research questions, students' projects will explore the medical, psychological, and familial implications of genetic contributors to human health and disease. Students can further customize their training by choosing elective courses from across the Schools of the Health Sciences in consultation with the Director and Assistant Director of the Genetic Counseling Program.

DOCTORAL COMPETENCIES

Students will gain proficiency in the knowledge, skills, and abilities required to begin a career as an independent scientist. These educational goals are organized into seven doctoral program competencies. After successful completion of the doctoral program, students will be able to:

Describe basic genetic mechanisms and how they affect proteins, chromosomes, cells, individuals, and populations of organisms in normal and disease states

Describe mechanisms by which genes and the environment interact to affect the distribution of health and disease in human populations

Apply a broad range of molecular and analytical methodologies to design genetic studies.

Use their conceptual and methodological knowledge to analyze data and interpret research results.

Analyze and communicate published research in human genetics at the level needed for effective research and teaching

Apply fundamental principles of ethical research practice.

Query bioinformatic resources to facilitate clinical decision-making or interpret research results.

More information about the program can be found by visiting the Pitt Public Health website, Department of Human Genetics, and accessing the Doctor of Philosophy (PhD) in Human Genetics program designation.

Required Human Genetics Courses

COURSEWORK

Coursework for doctoral students is typically undertaken during the first two years in the program, although advanced courses may be taken in later years. All doctoral students will complete the core Human Genetics courses as well as the core Public Health curriculum. Advanced courses offered through Human Genetics and other departments will provide students instruction in their chosen area of concentration. Certificate programs offered through the School of Public Health can be pursued to further customize the education of doctoral students.

A minimum of 72 credits is required.

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2011 - SCIENTIFIC WRITING IN HUMAN GENETICS

HUGEN 2021 - SPECIAL STUDIES - *variable*

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2025 - HUMAN GENETICS SEMINAR

HUGEN 2028 - HUMAN GENETICS JOURNAL CLUB AND PEER REVIEW

HUGEN 2029 - INTRODUCTION TO GENE MAPPING

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2051 - INBORN ERRORS OF DEVELOPMENT

HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION

HUGEN 2071 - GENOMIC DATA PROCESSING AND STRUCTURE

HUGEN 2072 - GENOMIC DATA PIPELINES AND TOOLS

HUGEN 2073 - GENOMIC DATA VISUALIZATION AND INTEGRATION

HUGEN 2080 - STATISTICAL GENETICS

HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1

HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2

HUGEN 3010 - RESEARCH AND DISSERTATION PH.D. - *variable*

HUGEN 3020 - DOCTORAL RESEARCH AND PROFESSIONAL SKILLS DEVELOPMENT

School Core Course Requirements

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

(must be taken for the first two semesters)

PUBHLT 2030 - RESEARCH ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH

Joint Degree

Genetic Counseling and Public Health Genetics Dual-Degree Program, MS/MPH

The University of Pittsburgh established the MPH in Public Health Genetics and MS in Genetic Counseling dual degree program in 2004, which was the first program of its kind to be offered to students pursuing a genetic counseling degree. The dual degree program enables students to build upon the clinical skills that they acquire through the Genetic Counseling Program to understand the importance of genetics, genomics, and genetic counseling in the field of public health.

Given the rapid expansion of available genetic and genomic testing, the current focus on precision medicine, and the increasing interest of national organizations, state public health offices, and hospitals in the application of genomics to public health, there is a growing need for professionals with skills in both disciplines. Graduates of the dual degree program are well-prepared to integrate public health genetics into clinical, research, public health, and industry settings. The dual degree program also benefits students by broadening their areas of expertise and career qualifications in other areas of public health including program development, evaluation, and policy.

There are a variety of options for completing the dual degree, which depend in part on the timing of the student entering the program. However, most students are able to complete the dual degree program in 22 months, which is one additional summer session beyond the typical completion time for the MS in Genetic Counseling degree program.

More information regarding the program can be found on the Pitt Public Health website, Department of Human Genetics, under the Dual MPH/MS Genetic Counseling program designation.

Dual-Degree Course Requirements

Students interested in both genetic counseling and public health genetics can pursue both degrees in a combined 62-credit program. All requirements for each individual program must be completed.

All required courses for both degrees must be taken by dual degree students, with the exception of PUBHLT 2011, Essentials of Public Health. Given that some of the curriculum overlaps, the dual degree requires the completion of 62 credits. In addition to completing all of the requirements for the MS in Genetic Counseling degree, students enrolled in the dual degree will take additional courses required by the MPH curriculum and fulfill the MPH practicum and MPH essay requirements.

The schedule below illustrates one possible schedule that would allow students to complete the Dual Degree Program in 22 months. Schedules are discussed on an individual basis with the Program Directors of the MPH in Public Health Genetics and MS in Genetic Counseling Programs.

Required Human Genetics Courses

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2011 - SCIENTIFIC WRITING IN HUMAN GENETICS

HUGEN 2021 - SPECIAL STUDIES - *variable*

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2025 - HUMAN GENETICS SEMINAR

(must take two times)

HUGEN 2032 - GENETIC TECHNIQUES

HUGEN 2035 - PRINCIPLES OF GENETIC COUNSELING

HUGEN 2036 - GENETIC COUNSELING INTERNSHIP

(must take two times - fall and spring term of 2nd year)

HUGEN 2038 - INTERVENTION SKILLS FOR GENETIC COUNSELING

HUGEN 2039 - RISK CALCULATION GENETIC COUNSELING

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2047 - CLINICAL GENETICS CASE CONFERENCE

(must take four times but formally register once)

HUGEN 2049 - INTRODUCTION PUBLIC HEALTH GENETICS

HUGEN 2050 - PUBLIC HEALTH GENETICS PRACTICUM

HUGEN 2052 - ETHICAL ISSUES IN CLINICAL AND PUBLIC HEALTH GENETICS

(must take two times but formally register once)

HUGEN 2054 - APPLICATIONS IN PUBLIC HEALTH GENETICS AND GENOMICS

HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION

HUGEN 2061 - CANCER GENETIC COUNSELING

HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1

HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2

School Core Course Requirements

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

**(students in the Public Health Genetics program with adequate prior background may apply to be exempted from the requirement to take PUBHLT 2015)*

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

(must take two times)

PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

Thesis and Essay

Students in the dual degree program will complete both the thesis requirement for the MS in Genetic Counseling degree and the Essay requirement for the MPH in Public Health Genetics degree. Depending on the thesis and essay topics, sometimes these documents can be combined into one document comprising the student's thesis project with additional background on public health genetics relevance and, at least, one additional, extensive chapter focusing on an application of public health genetics. The student's thesis committee and the Program Director for the MPH in Public Health Genetics will work with the student to identify the additional components or topics that are needed to satisfy the MPH Essay requirement.

Human Genetics and Medicine, PhD/MD

The joint MD/PhD program is a unique arrangement between the Department of Human Genetics and the Medical Scientist Training Program (MSTP), a collaboration between the University of Pittsburgh and Carnegie Mellon University. The program provides the opportunity for students to undertake a physician-scientist training program tailored to specific research interests, provided by the wide range of research that primary and secondary Human Genetics faculty are involved in within Pitt Public Health and the University of Pittsburgh School of Medicine.

Students in this program begin by completing two years of the MD program in the School of Medicine. Then they come to Pitt Public Health for three years to complete the PhD program. Students then return to the School of Medicine to finish the last two years of medical training.

The required core curriculum for the joint PhD/MD program is the same as the requirements for the PhD in Human Genetics.

Master's

Genetic Counseling, MS

The Genetic Counseling Graduate Program at the University of Pittsburgh is committed to providing cutting-edge training in the complex science of genetics while fostering a strong foundation in counseling. This unique program is constantly evolving to ensure the continued success of graduates entering a dynamic workforce. Each year between 10 and 12 students are welcomed into the incoming class to be trained by world-renowned faculty. The Genetic Counseling Program is grounded in three important elements: scientific training in human genetics and genomics, comprehensive clinical experience, and understanding the psychological and social aspects of counseling, with an added focus on integrating up to the minute discoveries in genetics and genomics as well as valuable concepts from other academic disciplines.

The Genetic Counseling Program is fully accredited by the Accreditation Council for Genetic Counseling, Inc. (ACGC), 7918 Jones Branch Drive, Suite 300 McLean, VA 22102; Phone: 703-506-7667. Our comprehensive program helps students to achieve and often surpass the standards outlined by the ACGC.

More information regarding the program can be found on the Pitt Public Health website, Department of Human Genetics, under the Master of Science (MS) in Genetic Counseling program designation. Please explore our website to learn more about what sets our program and our graduates apart! We hope you will consider joining our challenging and exciting program.

Required Human Genetics Courses

A minimum total of 38 credits is required for the M.S. in Genetic Counseling.

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2025 - HUMAN GENETICS SEMINAR

(must take two times)

HUGEN 2032 - GENETIC TECHNIQUES

HUGEN 2035 - PRINCIPLES OF GENETIC COUNSELING

HUGEN 2036 - GENETIC COUNSELING INTERNSHIP

(must take two times - fall and spring term of 2nd year)

HUGEN 2038 - INTERVENTION SKILLS FOR GENETIC COUNSELING

HUGEN 2039 - RISK CALCULATION GENETIC COUNSELING

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2047 - CLINICAL GENETICS CASE CONFERENCE

HUGEN 2052 - ETHICAL ISSUES IN CLINICAL AND PUBLIC HEALTH GENETICS

HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION

HUGEN 2061 - CANCER GENETIC COUNSELING

*Embryology (Online Modules)

School Core Course Requirements

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

(must be taken for the first two semesters)

Clinical Rotations

Genetic counseling students have the opportunity to participate in patient care at world-renowned medical facilities. They typically see 150-200 cases or more and are exposed to a variety of genetic referral types as well as diverse medical systems.

Rotation schedules are divided into 13 blocks, with each block lasting three weeks. All students will spend three blocks in Cancer genetics, three blocks in Prenatal genetics, three blocks in Pediatric genetics as well as one block in Adult/Specialty genetics, Primary Care, and a thesis focused block. In addition, students spend three weeks (one block) at an optional rotation site. This allows students the opportunity to select specific training experiences to develop a higher level of expertise based on their interests.

Thesis Project

Designing, conducting, and interpreting research studies are important skills for success as a genetic counselor. The completion of a thesis project is an integral component of a student's education in the Pitt Genetic Counseling Program. The thesis project allows students to understand the research process, develop their research skills, and collaborate with faculty across diverse disciplines.

Students are encouraged to develop a project according to their interests and research goals. Many previous students have published their thesis projects in peer-reviewed journals and have presented their research at conferences both nationally and internationally.

Core Values

The University of Pittsburgh Genetic Counseling Program's core values are:

Speak with Integrity and Compassion - We are committed to honesty, transparency and respect in every interaction.

Commit Everyday - We take personal responsibility to achieve excellence in everything we do.

Reach Out - We embrace collaboration and partnership to enhance professional possibilities

Embrace the Unknown - We believe that curiosity leads to lifelong learning.

Be Bold - We are inspired by innovation and change.

Genome Bioinformatics, MS

The Master of Science in Genome Bioinformatics (MSGB) program prepares students for careers analyzing the human genome both in academia and in pharmaceutical and genomic testing industries. Graduates of the program will meet the growing need for computational analysts with expertise in manipulating, annotating, and interpreting human genome data. In addition to coursework and hands-on training, students will participate in a structured internship experience in industry or other non-academic setting to provide real world exposure to genome bioinformatics and hone analytic and communication skills in preparation for entering the job market.

Vision

Our MSGB graduates will be experts in applying computation tools for studying and interpreting the human genome in a future where genomics is central to precision medicine and biomedical research.

More information about the program can be found by visiting the Pitt Public Health website, Department of Human Genetics, and accessing the Master of Science (MSGB) in Genome Bioinformatics program designation.

MS in Genome Bioinformatics Program Requirements

MS in GENOME BIOINFORMATICS COMPETENCIES

The goal of the MS in Genome Bioinformatics program is to prepare students for careers analyzing the human genome both in academia and in pharmaceutical and genomic testing industries. Toward this end, students will gain proficiency in the knowledge and skills required to manipulate, annotate, and interpret human genome data. These educational goals are organized into eight program-specific competencies. After successful completion of the MS in Genome Bioinformatics program, students will be able to:

- Describe the methods for generating genomic data
- Describe data structures for holding genetic and genomic data
- Process genetic and genomic data
- Construct pipelines for high-throughput analysis of data
- Analyze genetic and genomic data to address research questions
- Annotate analysis results using contemporary bioinformatic resources
- Visualize quality metrics and analysis results
- Communicate analysis methods and results to stakeholders

Human Genetics Competencies

In addition to gaining expertise in genome data analysis and interpretation, students completing the MS in Genome Bioinformatics program will gain proficiency in the foundations of the field of Human Genetics. Specifically, after completing the program, students will be able to:

- Describe basic genetic mechanisms and how they affect proteins, chromosomes, cells, individuals, and populations of organisms in normal and disease states
- Describe mechanisms by which genes and the environment interact to affect the distribution of health and disease in human populations
- Describe the importance of ethical principles, diversity, and inclusion in genetics research

COURSEWORK

Coursework for students in the MS in Genome Bioinformatics program is typically undertaken across two years (four semesters) with an industry internship after the first year. Three core didactic courses covering data processing and structures, genomic analysis pipeline and tools, and genomic data visualizations and annotation are taken during the first year of the graduate program. These courses, along with foundational knowledge of

human genetics and biostatistics obtained through the Pitt Public Health curriculum, will prepare students to succeed in their summer internships. During the second year of the program students will expand their repertoire of analysis skills and communicate the results of their internship as part of the Bioinformatics Capstone course. Finally, students will develop their internship-based bioinformatics analysis project into an industry style data report, serving as the MS thesis and culminating experience of the degree program.

Required Human Genetics Courses

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS
HUGEN 2021 - SPECIAL STUDIES - *variable*
HUGEN 2022 - HUMAN POPULATION GENETICS
HUGEN 2025 - HUMAN GENETICS SEMINAR
(must take two times)
HUGEN 2029 - INTRODUCTION TO GENE MAPPING
HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE
HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION
HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1
HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2
HUGEN 2071 - GENOMIC DATA PROCESSING AND STRUCTURE
HUGEN 2072 - GENOMIC DATA PIPELINES AND TOOLS
HUGEN 2073 - GENOMIC DATA VISUALIZATION AND INTEGRATION
HUGEN 2074 - GENOME BIOINFORMATICS CAPSTONE
HUGEN 2075 - GENOME BIOINFORMATICS THESIS AND WRITING

School Core Course Requirements

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
(must be taken for the first two semesters)
PUBHLT 2030 - RESEARCH ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH

Elective Courses and Internship

In addition to the required courses listed above, M.S. in Genome Bioinformatics students are expected to select 2-17 credits of elective courses and must complete an bioinformatics internship in an industry, academic, or governmental setting after the first year.

Human Genetics, MS

The Master of Science program in Human Genetics prepares students for careers as contributing members of genetics and genomics research teams in academia or industry. Graduates of the program often go on to PhD level study and become independent scientists. The flexible curriculum provides a broad background in the field while allowing customized emphasis on laboratory genetics or genetic data analysis. In addition to core coursework and advanced classes in a chosen area of interest, MS students pursue mentored research projects culminating in the production and defense of a thesis.

More information about the program can be found by visiting the Pitt Public Health website, Department of Human Genetics, and accessing the Master of Science (MS) in Human Genetics program designation.

MS Program Requirements

COMPETENCIES

Students will gain proficiency in the knowledge, skills, and abilities required to begin a career as a scientist. These educational goals are organized into five MS program competencies. After successful completion of the Master of Science program, students will be able to:

Describe basic genetic mechanisms and how they affect proteins, chromosomes, cells, individuals, and populations of organisms in normal and disease states

Describe mechanisms by which genes and the environment interact to affect the distribution of health and disease in human populations

Use their conceptual and methodological knowledge to analyze data and interpret research results.

Apply fundamental principles of ethical research practice.

Query bioinformatic resources to facilitate clinical decision-making or interpret research results.

COURSEWORK

Coursework for MS students is typically undertaken during the first year in the program, although advanced courses may be taken in the second year. All MS students will complete the core Human Genetics courses as well as the core Public Health curriculum. Advanced courses offered through Human Genetics and other departments will provide students instruction in their chosen area of concentration. Certificate programs offered through the School of Public Health can be pursued to further customize the education of MS students.

Required Human Genetics Courses

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2011 - SCIENTIFIC WRITING IN HUMAN GENETICS

HUGEN 2021 - SPECIAL STUDIES - *variable*

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2025 - HUMAN GENETICS SEMINAR

(must take two times)

HUGEN 2028 - HUMAN GENETICS JOURNAL CLUB AND PEER REVIEW

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2060 - CHROMOSOMES - STRUCTURE AND FUNCTION

HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1

HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2

School Core Course Requirements

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

(must be taken for the first two semesters)

PUBHLT 2030 - RESEARCH ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH

Public Health Genetics, MPH

The Master of Public Health in Public Health Genetics Program integrates human genetics and the public health science disciplines of epidemiology, pathobiology, biostatistics, environmental health, and health services research with ethics, social sciences, public affairs, economics and law to prepare students for a career in the evolving field of public health genetics. Public health genetics integrates genetics with multiple public health disciplines to address society's legal, ethical, financial, regulatory, and organizational responsibilities in offering genetic services and developing interventions to bring genetic services to the public.

A detailed program description can be found on the Pitt Public Health website, Department of Human Genetics, under the Master of Public Health (MPH) in Public Health Genetics designation.

MPH Requirements

The MPH in Public Health Genetics curriculum is designed to give students a strong knowledge base in Human Genetics with a broad understanding of the field of public health. Through the coursework, students are immersed in current topics in human genetics, public health, and the ethical, legal and social issues important to the field of public health genetics. The curriculum, practicum experience, and public health essay focus on the development of skills that are desirable to employers after graduation including critical thinking, scientific writing, and statistical analysis.

A minimum of 47 credits is required for the MPH. This total is made up of school core courses, a core of required courses in the department of Human Genetics, and electives relevant to the student's program goals. The entire program can be completed in 1 1/2 years, although most students prefer to spread it out over two years. There is also the option to complete the program on a part-time basis.

The MPH in Public Health Genetics course schedule can be customized to meet individual student goals, interests, and circumstances.

Required Human Genetics Courses

HUGEN 2010 - BIOINFORMATIC RESOURCES FOR GENETICISTS

HUGEN 2011 - SCIENTIFIC WRITING IN HUMAN GENETICS

HUGEN 2021 - SPECIAL STUDIES

(variable, or can be replaced by elective courses)

HUGEN 2022 - HUMAN POPULATION GENETICS

HUGEN 2025 - HUMAN GENETICS SEMINAR

(must take two times)

HUGEN 2040 - MOLECULAR BASIS OF HUMAN INHERITED DISEASE

HUGEN 2049 - INTRODUCTION PUBLIC HEALTH GENETICS

HUGEN 2050 - PUBLIC HEALTH GENETICS PRACTICUM

HUGEN 2052 - ETHICAL ISSUES IN CLINICAL AND PUBLIC HEALTH GENETICS

HUGEN 2054 - APPLICATIONS IN PUBLIC HEALTH GENETICS AND GENOMICS

HUGEN 2090 - GENETICS OF COMPLEX DISEASES 1

HUGEN 2091 - GENETICS OF COMPLEX DISEASES 2

School Core Course Requirements

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS

EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH

PUBHLT 2015 - PUBLIC HEALTH BIOLOGY

**(students in the Public Health Genetics program with adequate prior background may apply to be exempted from the requirements to take PUBHLT 2015)*

PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS

(must be taken for the first two semesters)

PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH

PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS

PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

Public Health Essay and Practicum

Students must write a master's essay, which may be based on the practicum experience or on another topic related to public health genetics. All essays must include analysis of data. The essay topic must be approved by the Directors of the MPH in Public Health Genetics program. The essay is read and approved by an MPH Essay Committee that must consist of at least one of the Public Health Genetics faculty members in Human Genetics and one from outside the department. The MPH Essay Committee must be approved by the Office of Student Affairs. The essay must be approved by unanimous vote of the committee.

All students in the MPH in Public Health Genetics program are required to complete a Practicum. The Practicum is a supervised practice experience of at least 200 hours, providing students an opportunity to learn how genetics is applied in a public health setting and in the formulation and application of public health policy. MPH students are encouraged to seek out opportunities that fit their interests and goals with guidance provided by program leadership. Students may choose to complete their practicum in the city of Pittsburgh or in a location outside of the city. Many students will complete the practicum during their summer semester, but scheduling is flexible based on student needs.

MPH in Human Genetics Program-Specific Competencies

A student completing the MPH program in Public Health Genetics will be able to:

- (1) Apply knowledge of inheritance, including basic cellular and molecular mechanisms, and risk factors for disease to understanding a variety of rare and common health conditions.
- (2) Identify interactions among genes, environmental factors, and behaviors, and their effects on public health.
- (3) Assess the ethics of the application of genetic technologies to public health
- (4) Communicate genetic and genomic principles to the general public as part of current public health initiatives
- (5) Evaluate how genetic principles/technologies apply to diagnosis, screening, and interventions for disease prevention and health promotion programs

Department of Infectious Diseases and Microbiology

The mission of the Department of Infectious Diseases and Microbiology is to conduct research, teaching, and service that will enhance the control of infectious diseases in the human population. Our goals to accomplish this mission include:

Research programs that focus on understanding the mechanisms of pathogenesis of microbial infections at the cellular and molecular level as they relate directly to developing methods for disease prevention and treatment.

Integrated teaching programs that are devoted to the education and training of graduate students in various molecular, immunologic and biologic aspects of microbial pathogenesis, as well as disease control and prevention.

Programs that focus on population-based education and prevention for control of infectious diseases.

We have a commitment to high quality graduate education that is consistent with our leading cutting-edge research and behavioral health and community education programs. The degree programs draw upon the disciplines of molecular biology, immunology, epidemiology, medicine, health education, and community intervention to provide our students with opportunities to participate in cross-disciplinary research into multiple aspects of infectious diseases. As a graduate of our program you will be prepared for careers in academia, industry, government, and community service sectors. Our graduates have obtained professional positions with prestigious employers in the USA and worldwide. Examples include the National Institutes of Health, the Centers for Disease Control and Prevention, state and local health departments, pharmaceutical companies, hospitals, and major universities and other academic institutions.

The Department offers Master of Public Health (MPH), Doctor of Philosophy (PhD), and Master of Science (MS) degree programs. Students in the MPH program can pursue one of two concentrations: Infectious Disease Pathogenesis, Eradication, and Laboratory Practice (PEL) or Infectious Disease Management, Intervention, and Community Practice (MIC).

For more information on admissions and registration contact the department at 412-624-3331 or idm@pitt.edu.

Financial Assistance

Financial support (through stipends and tuition waivers) is available for full-time doctoral students. A limited number of partial scholarships are available to outstanding new MS and MPH students.

Doctoral

Infectious Diseases and Microbiology, PhD

The PhD program in the Department of Infectious Diseases and Microbiology prepares students for competitive research and teaching careers in academia, government agencies, and private industry. Our PhD students complete coursework that emphasizes the fundamentals of pathogen biology, immunology, cell biology, and molecular biology, which provides the necessary educational basis to conduct independent research mentored by our faculty.

PROGRAM REQUIREMENTS

- 72 credits total
- Preliminary exam
- Comprehensive exam
- Research project and Dissertation
- First author publication

PROGRAM LENGTH

Students complete the PhD program on an average of 6 years.

PhD PROGRAM COMPETENCIES

1. Demonstrate knowledge of the molecular biology of hosts and pathogens and how pathogenesis of infectious diseases evolves from the interactions of organisms on a molecular level.
2. Demonstrate comprehensive knowledge of the mechanisms of innate and acquired immunity and the role of immune functions in health and disease.
3. Demonstrate an ability to analyze and interpret data from scientific publications in the field of molecular biology, microbiology, immunology, or infectious diseases.
4. Show an ability to think independently and demonstrate comprehensive knowledge in a specific area of microbiology related to the student's dissertation work.
5. Conduct independent laboratory-based research leading to a first author publication in a professional peer-reviewed journal.

PhD Program Requirements:

IDM 2041 - RESEARCH ETHICS AND SCIENTIFIC COMMUNICATION
IDM 2021 - SPECIAL STUDIES IN MICROBIOLOGY
IDM 2023 - MICROBIOLOGY LABORATORY
IDM 2025 - MICROBIOLOGY SEMINAR
IDM 2001 - MOLECULAR BIOLOGY OF MICROBIAL PATHOGENS
IDM 2002 - MOLECULAR VIROLOGY
IDM 2003 - HOST RESPONSE TO MICROBIAL INFECTION
IDM 2004 - VIRAL PATHOGENESIS
IDM 2014 - FUNCTIONAL GENOMICS OF MICROBIAL PATHOGENS
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EPIDEM 2160 - EPIDEMIOLOGY OF INFECTIOUS DISEASES

GSPH Required Courses

The following are GSPH required courses for the IDM PhD program:

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

Master's

Infectious Diseases and Microbiology, MPH

The Department of Infectious Diseases and Microbiology offers two (2) MPH programs: MIC (Management, Intervention, and Community Practice) and PEL (Pathogenesis, Eradication, and Laboratory Practice). Continue reading below for a description of each MPH program:

The MPH with a concentration in **Infectious Disease Management, Intervention, and Community Practice (MIC)** provides a tailored educational experience to foster competencies for practice, research, and education in public health. Students take courses that focus on global and domestic infectious diseases including HIV, and assists students in designing interventions, approaches, and policies to address the increase in infectious diseases as well as emerging infectious disease threats to public health. This coursework paired with hands-on practicum experience particular to the student's interest prepares students for careers in public health education, program development and management, or further education.

The MPH with a concentration in **Infectious Disease Pathogenesis, Eradication, and Laboratory Practice (PEL)** enables students a unique educational experience, which brings together pathogen biology, immunology, and epidemiology within the broader framework of public health. Students then have the opportunity to apply what they learn in a laboratory setting. Students graduate from the MPH PEL program with the expertise necessary for occupations in public health education, analysis, and research in the non-profit, government, or private sectors. The program also prepares students for further education in medical or graduate programs.

MPH-MIC Departmental Requirements:

PROGRAM REQUIREMENTS

- 42 credits total
- Written essay OR thesis
- 200 hour practicum

PROGRAM LENGTH

- Full-time students complete the program in 2 years or less
- Part-time students complete the program in 3-4 years on average

MPH-MIC PROGRAM COMPETENCIES

1. Demonstrate knowledge of local, regional, national and global infectious diseases.
2. Demonstrate knowledge of social, economic, and cultural factors for the prevention, control and/or elimination of the emergence and spread of infectious diseases in specific populations and communities.
3. Demonstrate knowledge of infectious disease pathogenesis, prevention, clinical diagnosis, and treatment in relevant populations in domestic and international settings.
4. Demonstrate knowledge of clinical, behavioral, epidemiological aspects of infectious disease prevention

and treatment interventions for health services, systems of care, organizations, institutions, communities, and governments.

5. Demonstrate knowledge and skills in recognizing, assessing, evaluating scientific research and best practices to make evidence-based public health recommendations for infectious disease planning, interventions, research, and policies.

The following courses are IDM departmental required courses:

**Note: this list does not include electives*

IDM 2038 - PREVENTION, TREATMENT, AND CONTROL OF GLOBAL INFECTIOUS DISEASES
IDM 2021 - SPECIAL STUDIES IN MICROBIOLOGY
IDM 2025 - MICROBIOLOGY SEMINAR
IDM 2032 - HUMAN DIVERSITY AND PUBLIC HEALTH
IDM 2034 - CONTROL AND PREVENTION OF HIV/AIDS
IDM 2069 - INFECTION PREVENTION AND CONTROL IN HEALTH CARE SETTINGS
IDM 2007 - PUBLIC HEALTH COMMUNICABLE DISEASE PRACTICUM

MPH-PEL Departmental Requirements:

PROGRAM REQUIREMENTS

- 42 credits total
- Written essay OR thesis
- 200 hour practicum
- OPTIONAL lab rotation

PROGRAM LENGTH

- Full-time students complete the program in 2 years or less
- Accelerated schedule available: 1.5 years
- Part-time students complete the program in 3-4 years on average

The following are IDM departmental required courses:

**Note: this list does not include electives*

IDM 2021 - SPECIAL STUDIES IN MICROBIOLOGY
IDM 2025 - MICROBIOLOGY SEMINAR
IDM 2003 - HOST RESPONSE TO MICROBIAL INFECTION
IDM 2007 - PUBLIC HEALTH COMMUNICABLE DISEASE PRACTICUM
IDM 2010 - PATHOGEN BIOLOGY

GSPH Required Courses for MPH-MIC Students:

The following are GSPH required courses for the MPH-MIC program:

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH
PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS
PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

GSPH Required Courses for MPH-PEL Students:

The following are GSPH required courses for the MPH-PEL program:

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EOH 2013 - ENVIRONMENTAL HEALTH AND DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
HPM 2001 - HEALTH POLICY AND MANAGEMENT IN PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PUBLIC HEALTH GRAND ROUNDS
PUBHLT 2033 - FOUNDATIONS IN PUBLIC HEALTH
PUBHLT 2034 - PUBLIC HEALTH COMMUNICATIONS
PUBHLT 2035 - APPLICATIONS IN PUBLIC HEALTH

Infectious Diseases and Microbiology, MS

The Master of Science program within the Department of Infectious Diseases and Microbiology provides students with a unique basic science education within the School of Public Health. Graduates of our MS program develop skills and experience to become more competitive applicants for medical school and doctoral programs, as well as qualified researchers in academia, government and industry. This two year program emphasizes coursework in immunology, cell biology, and virology, and enables students to apply their coursework to their thesis research projects completed under a faculty advisor.

PROGRAM REQUIREMENTS

- 36 credits total
- Comprehensive exam
- Research project
- Written thesis & defense

PROGRAM LENGTH

- Full-time students complete the program in 2 years or less
- Part-time students complete the program in 3-4 years on average

MS PROGRAM COMPETENCIES

1. Demonstrate knowledge of the molecular biology of hosts and pathogens and the pathogenesis of host/pathogen interactions.
2. Demonstrate knowledge of the mechanisms of innate and acquired immunity and their roles in health and disease.
3. Demonstrate an ability to analyze and interpret data from scientific publications covering molecular biology, microbiology, immunology, and infectious diseases.
4. Show an ability to think independently and demonstrate comprehensive knowledge in a specific area related to the student's thesis research.
5. Demonstrate an ability to conduct relatively independent laboratory-based research.

MS Program Requirement:

Below are the IDM departmental requirements for the MS program:

**Note: this list does not include electives*

IDM 2021 - SPECIAL STUDIES IN MICROBIOLOGY
IDM 2023 - MICROBIOLOGY LABORATORY
IDM 2025 - MICROBIOLOGY SEMINAR
IDM 2001 - MOLECULAR BIOLOGY OF MICROBIAL PATHOGENS
IDM 2002 - MOLECULAR VIROLOGY
IDM 2003 - HOST RESPONSE TO MICROBIAL INFECTION
IDM 2004 - VIRAL PATHOGENESIS
BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS
EPIDEM 2160 - EPIDEMIOLOGY OF INFECTIOUS DISEASES
IDM 2041 - RESEARCH ETHICS AND SCIENTIFIC COMMUNICATION

GSPH Required Courses

The following are GSPH required courses:

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

Zmuda, Joseph M. | Epidemiology | Associate Professor | PhD, University of Pittsburgh; MPH, University of Pittsburgh; MS, University of Rhode Island

School of Social Work

The University of Pittsburgh's School of Social Work, successor to the Division of Social Work in the Department of Sociology of the University, was founded in September 1918, and accepted its first class of MSW students that year. The school shares with the University a commitment to the advancement and application of knowledge. Students in Pitt's School of Social Work learn the knowledge, skills, and values to engage in culturally competent practice with diverse populations and communities. They learn to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques, and to advocate for those who confront barriers to fulfilling their potential.

The school's students and faculty members also engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems. In addition, school students, alumni, and personnel serve local, national, and international communities by developing and participating in collaborations with social agencies, community-based organizations, government, and foundations.

The mission of the School of Social Work is to advance knowledge and to apply that knowledge for the fulfillment of human potential through the prevention and amelioration of social problems. The school is committed to promoting the values of social and economic justice. Recognizing the complexities of contemporary society, the school dedicates itself through its educational, research, and public service activities to advocating for a society that respects the dignity and achievement of all individuals, families, and communities.

In furtherance of its mission, the School of Social Work strives to:

- Educate professional social workers with the knowledge, skills, and values needed to engage in culturally competent practice with diverse populations and communities; to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques; and to advocate for those who confront barriers to maximizing the achievement of their fullest potential.

- Engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems.

- Provide service to local, national, and international communities through the development of and participation in collaborations with social agencies, community-based organizations, government, and foundations.

The school offers a full continuum of social work educational programs at the undergraduate, master's, and doctoral levels (as well as a continuing education program for practicing social workers). The school's bachelor's and master's programs in social work are accredited by the Council on Social Work Education, and graduates are eligible for full membership in the National Association of Social Workers.

Degree Options

The School of Social Work offers the Master of Social Work (MSW) and the Doctor of Philosophy (PhD) degrees. MSW students may combine their degree work with course work leading to a certificate. In addition, the School of Social Work has joint and cooperative degree options with other schools in the University as well as external institutions. The degree options include:

Master of Social Work

<http://www.socialwork.pitt.edu/academics/master-social-work-msw>

Skill Concentrations (one is required)

- Direct Practice with Individuals, Families, and Groups
- Community, Organization, and Social Action (COSA)

Direct Practice Certificate Programs

- Gerontology Certificate
- Home and School Visitor/School Social Worker Certificate
- Children Youth and Families Certificate
- Mental Health Certificate
- Integrated Healthcare Certificate
- Human Services Management Certificate

Doctor of Philosophy

<http://www.socialwork.pitt.edu/academics/doctorate-social-work-phd>

Joint and Cooperative Degrees

<http://www.socialwork.pitt.edu/academics/msw/dualjoint-cooperative-degrees>

MSW

Master of Social Work/Master of Divinity
Master of Social Work/Master of Public Administration
Master of Social Work/Master of Public and International Affairs
Master of Social Work/Master of International Development
Master of Social Work/Doctor of Philosophy (PhD) in Social Work
Master of Social Work/Master of Public Health
Master of Social Work/Juris Doctorate
Master of Social Work/Certificate of Advanced Study in Teaching
Master of Social Work/Master of Business Administration

PhD

Master of Social Work/Doctor of Philosophy (PhD) in Social Work
Master of Public Health/Doctor of Philosophy (PhD) in Social Work

Specific details regarding course requirements are described in this bulletin and on the School of Social Work Web site and in the Student Handbook.

Admissions

Admission to the MSW and PhD programs is for fall term (September) only. Applicants seeking full-time or part-time admission should submit the application far in advance of their expected entry into the program; all application materials are due no later than May 31 for the MSW program and December 31 for the PhD program of the year in which entry is expected. Applications are reviewed only upon receipt of all required materials. Application forms are available from:

School of Social Work
Office of Admissions

2101 Cathedral of Learning
412-624-6302
E-mail: sswadmissions@pitt.edu
www.socialwork.pitt.edu/admissions/

Online applications are accepted via the MSW or PhD sections of our website located at <http://www.socialwork.pitt.edu>

For more specifics on admissions requirements for the MSW or the PhD, consult the description of the relevant degree program.

Admission of Students from Other Countries

The School of Social Work welcomes applications from students in other countries whose credentials meet the requirements and the standards of the School of Social Work and the Office of International Services of the University.

MSW and PhD applicants from other countries must apply directly to the School of Social Work. Applicants must submit the completed application form, additional required forms, and other required materials in English. Additional University of Pittsburgh application procedures for international students are described at <http://www.socialwork.pitt.edu/admissions-aid/international-students>. Other information and assistance for international students can be found online at www.ois.pitt.edu/intladmissions.html.

For MSW applicants only: International students who hold a baccalaureate degree in social work from a program that is not accredited by the Council on Social Work Education and who are interested in obtaining advanced standing credit must submit their transcript to the council for a determination of equivalency. Further Information can be found online at www.cswe.org.

Financial Assistance

Students interested in financial assistance to meet tuition and/or living costs should direct inquiries to both the Office of Admissions of the School of Social Work and the University's Office of Admissions and Financial Aid.

Students should be advised that limited resources often preclude any one funding source from granting awards that meet total financial needs. As a result, students are strongly encouraged to seek financial aid packages consisting of partial awards (including loans and scholarships) from a variety of sources, including the Office of Admissions and Financial Aid in Alumni Hall (412-624-PITT) and the School of Social Work Financial Aid

Sources, Office of Admissions, Room 2104 Cathedral of Learning (412-624-6302; <http://www.socialwork.pitt.edu/admissions-aid/financial-aid> . See also the *University-wide information on Financial Aid*.

Applications for financial assistance are accepted only after an admissions decision has been made. Awards are made for a one-year period. New applications are required for each succeeding period.

Academic Standards

The School of Social Work's expectations for student and faculty conduct are described in school policies and embody the standards of professional social work. Students in the School of Social Work are required to adhere to the NASW Code of Ethics.

Academic Review Policy

The school maintains an academic review policy that applies to all degree students in the school and that seeks to ensure academic standards of achievement (i.e., satisfactory performance in the field, satisfactory grades for academic course work, and reasonable rates of progress toward completion of degree requirements). The policy statement on academic review appears in the Student Handbook.

Academic Integrity Policy

The school also has an academic integrity policy that applies to all students and faculty members in the school and seeks to ensure that students and faculty members respect the ethical standards expected of them in the performance of their duties and responsibilities. The policy statement on academic integrity appears in the School of Social Work Student Handbook.

Statute of Limitations for School of Social Work Degrees and Leaves of Absence

MSW Program

There is a four-year limitation on the earning of the MSW degree. The four-year period is counted from the date of entry into the program for four full academic calendar years. Under extenuating circumstances (listed below), an advisor can recommend an extension of time to the MSW program director and the associate dean for academic affairs. If approved, the period of extension and the conditions for completing the program will be recorded in the student's folder, with a copy sent to the student. Extenuating circumstances include the following:

- extended illness of the student,
- extended personal emergency,
- involuntary mobilization into a U.S. military unit, and
- death of a close family member.

Under special conditions, MSW students may be granted one leave of absence. A maximum leave of one full academic year may be granted to master's students. A student wishing to take a leave of absence must submit in advance to the MSW program director a written request that indicates the length and rationale for the leave. The MSW program director and the associate dean for academic affairs will review the request. If approved, the time of the leave will not count against the total time allowed for the degree being sought by the student. Readmission following an approved leave of absence is a formality.

PhD Program

There is an eight-year statute of limitations for the completion of the PhD for students who enter with an MSW and who are not pursuing an MPH. There is a 10-year statute of limitations for students in the MSW/PhD program or the MPH/PhD program. Course work and the comprehensive examinations should be completed within three years and the dissertation within five. Under exceptional circumstances, a candidate for the PhD may apply for an extension of the statute of limitations. Requests for an extension of the statute of limitations must be submitted to the doctoral program director and must be approved by the doctoral committee and the dean. The request must be accompanied by a program assessment of the work required of the student to complete the degree and evidence of the extenuating circumstances leading to the requested extension. Students who request an extension of the statute of limitations must demonstrate proper preparation for the completion of all current degree requirements.

Under special conditions, doctoral students may be granted one leave of absence. A maximum leave of two academic calendar years may be granted to doctoral students. A student wishing to take a leave of absence must submit in advance to the doctoral program director a written request that indicates the length and rationale for the leave. The doctoral program director and the associate dean for academic affairs will review the request. If

approved, the time of the leave will not count against the total time allowed for the degree being sought by the student. Readmission following an approved leave of absence is a formality.

NASW Code of Ethics

Professional ethics are at the core of social work. The profession has an obligation to articulate its basic values, ethical principles, and ethical standards. The NASW Code of Ethics sets forth these values, principles, and standards to guide social workers' conduct. The Code is relevant to all social workers and social work students, regardless of their professional functions, the settings in which they work, or the populations they serve. The NASW code of ethics can be viewed online at www.naswdc.org/pubs/code/default.asp.

Advising

Students are assigned a faculty advisor at the beginning of the student's matriculation into the MSW or PhD program. Students in the MSW program are assigned an advisor from among the faculty and professional staff. The assignment is made by the MSW program director and remains in effect until changed after a request by an advisor or advisee, as indicated by field assignment or program change, or due to a change in the advisor's assignment.

Special Academic Opportunities

The school offers several academic resources and programs for its students, as detailed below:

Student Participation on School Committees

Students have opportunities to participate in the governance of the School of Social Work by serving on school committees. Information about the purposes and functions of the committees is distributed during the beginning of each fall term. Through the Office of the Associate Dean for Admissions and Student Affairs, students can volunteer to serve on committees and become full members of those committees.

Student Executive Council (SEC)

All degree students in the School of Social Work comprise the membership of the student organization that elects the Student Executive Council. The council concerns itself with student life and serves as a liaison with the administration and faculty.

The Student Executive Council relies heavily on student participation and it endeavors to be of service to the student body. Activities include the publication of a student newsletter, the development of discussion sessions around critical social issues, the provision of opportunities for social action, the participation in planning for orientation, and the planning of a variety of social events.

In addition, SEC members, representing the student body, are appointed to serve in the following organizations and/or committees: Black Action Society; Student Chapter, NASW; Student Chapter, NABSW; Alumni Association (Liaison); BASW Club; and Graduate and Professional Student Association (GPSA).

The Student Executive Council is working to strengthen its involvement in diversity initiatives to benefit the student body. More information regarding the activities and goals regarding diversity initiatives will be published as they are created.

The Student Executive Council supports the MSW student body and welcomes any feedback from all students. The SEC Office is located in Room 2201B CL. Please reach us at our e-mail address at pitt.sec@gmail.com.

SEC's website can be found at: <http://www.socialwork.pitt.edu/student-resources/student-executive-council>

Buhl Library

The Buhl Library of Social Work is a special collection of books, journals, and other resource materials specifically focused on social work. The Buhl Library is located on the first floor of Hillman Library and is staffed by a full-time social work librarian. Additionally, students at the School of Social Work have full access to the wide range of services provided by the University of Pittsburgh library system.

School of Social Work Faculty

Yodit Betru, *Director, MSW Program and Assistant Professor, DSW*, University of Pennsylvania

Jaime Booth, *Associate Professor*, PhD, Arizona State University

Program and course Offerings

Master of Social Work Program

MSW Mission and Goals

The University of Pittsburgh's School of Social Work, successor to the Division of Social Work in the Department of Sociology of the University, was founded in September 1918, and accepted its first class of MSW students that year. The school shares with the University a commitment to the advancement and application of knowledge. Students in Pitt's School of Social Work learn the knowledge, skills, and values to engage in culturally competent practice with diverse populations and communities. They learn to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques, and to advocate for those who confront barriers to fulfilling their potential.

The school's students and faculty members also engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems. In addition, school students, alumni, and personnel serve local, national, and international communities by developing and participating in collaborations with social agencies, community-based organizations, government, and foundations.

The mission of the School of Social Work is to advance knowledge and to apply that knowledge for the fulfillment of human potential through the prevention and amelioration of social problems. The school is committed to promoting the values of social and economic justice. Recognizing the complexities of contemporary society, the school dedicates itself through its educational, research, and public service activities to advocating for a society that respects the dignity and achievement of all individuals, families, and communities.

In furtherance of its mission, the School of Social Work strives to:

- Educate professional social workers with the knowledge, skills, and values needed to engage in culturally competent practice with diverse populations and communities; to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques; and to advocate for those who confront barriers to maximizing the achievement of their fullest potential.

- Engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems.

- Provide service to local, national, and international communities through the development of and participation in collaborations with social agencies, community-based organizations, government, and foundations.

The school offers a full continuum of social work educational programs at the undergraduate, master's, and doctoral levels (as well as a continuing education program for practicing social workers). The school's bachelor's and master's programs in social work are accredited by the Council on Social Work Education, and graduates are eligible for full membership in the National Association of Social Workers.

[MSW Admissions](http://www.socialwork.pitt.edu)

<http://www.socialwork.pitt.edu>

The following section details admissions information particular to applicants to the MSW program.

Persons seeking admission to the MSW program must exhibit potential and professional capabilities essential to function effectively in a graduate school environment.

An applicant must meet the following requirements:

A bachelor's degree from an accredited college or university.

A minimum average of a B (3.0 GPA on a 4.0 scale) in all undergraduate work.

A student with a grade point average of less than 3.0 may be admitted provisionally to the program. Applicants with grade point averages of less than 3.0 may be required to interview with the school's admissions office.

Successful completion of 3-credit coursework in statistics or quantitative analysis (If a student does not have a course in Statistics, this requirement must be completed before enrollment)

A minimum of 60 undergraduate (or undergraduate plus graduate) divided into 30 credits in the liberal arts and 30 credits in the social sciences is recommended, not required.

Liberal Arts classes include:

Humanities-English, fine arts, languages, literature, philosophy, religion, and communication.

Fine Arts- Art, photography, dance, and theater

Natural science-biology, chemistry, physics, mathematics, and statistics.

Social Sciences courses include:

Psychology

Sociology

Anthropology

Economics

Political Science

Social Work

History

Criminal Justice

(Human Biology no longer required effective November 2007)

Applicants applying for advanced standing must have earned a BSW degree from an accredited Council on Social Work Education (CSWE) baccalaureate program within seven years of their scheduled enrollment dates.

School of Social Work Policy #25:4: Consistent with the Council on Social Work Education's Educational Policies and Accreditation Standards, the School of Social Work's MSW Program does not grant course credit, transfer credit, or exemptions for prior life, volunteer, or employment experience

We do not require GRE Scores.

Bradford & Johnstown Campuses

The School of Social Work offers its MSW degree program at both the University of Pittsburgh's Bradford and Johnstown campuses. Admissions requirements at those two campuses are the same as at the Pittsburgh campus, except that the Bradford and Johnstown campuses offer the MSW degree in a part-time-only program format. In addition, the Bradford and Johnstown campuses will only admit students once every other year (in 2020, 2022, 2024, etc.).

Readmission

Formerly enrolled students who withdrew from Pitt's MSW program for more than one year and wish to be readmitted to the school must resubmit an MSW application. In addition, such students must submit a two-page, double spaced personal statement stating why they are requesting readmission and why they believe they will be successful this time around. Also, one new letter of recommendation (not from a reference previously submitted upon initial enrollment to the school) must be submitted.

Transfer Applications

Applicants who within the past seven academic years have completed graduate-level coursework may be granted transfer credit. For applicants requesting transfer credit from non-social work graduate degree programs, a maximum of 12 credits can be transferred. Applicants transferring from other Council on Social Work Education (CSWE) accredited schools can receive a maximum of 30 transfer credits.

School of Social Work Policy #25:4: Consistent with the Council on Social Work Education's Educational Policies and Accreditation Standards, the School of Social Work's MSW Program does not grant course credit, transfer credit, or exemptions for prior life, volunteer, or employment experience

Application and Admission Materials

Completed applications include the school online application form, transcripts, three letters of reference, a written statement, a resume, an agreement to participate in field education form and a \$40 application fee. Applicants may request an interview, but this is not required. The director of admissions and student affairs may also request an interview.

Applications and other admissions information are available from:

Office of Admissions
School of Social Work
412-624-6302
E-mail: sswadmissions@pitt.edu
Online applications are accepted at:
<http://www.socialwork.pitt.edu/admissions/msw/application-process>

Application materials may also be downloaded from the School of Social Work Web site or applications may be completed directly online. These materials are available at www.socialwork.pitt.edu/admissions/.

Each year, the school has a priority admissions deadline of January 10, 2020. All first time MSW applicants to the school who complete their application by the priority deadline, and have a minimum 4 year undergraduate GPA of 3.4 are guaranteed both acceptance and a scholarship assistance. The school's regular application deadline is May 31.

Selection of Skill Concentration

At the time of admission, students are required to designate a skill specialization. Students can choose to specialize in either:

Direct Practice with Individuals, Families, and Small Groups (Direct Practice)
Community, Organization, and Social Action (COSA)

The two skill specialization curricula build on foundation curriculum content and prepare students for autonomous social work practice at an advanced level. The specializations expose students to: specific practice roles; the uses and applications of research for practice; practice with and on behalf of the welfare of the poor and oppressed; practice with diverse populations; policy, organizational, and environmental influences on practice; and advanced practice theories, methods, and strategies.

Admissions Interview

Admissions interviews may be initiated by the admissions officer of the school in some special circumstance. Decisions on applications for admission are usually made without such an interview. All applicants are welcome to seek information-sharing interviews.

Financial Assistance for MSW Students

The University of Pittsburgh School of Social Work recognizes that financing graduate education is extremely important, especially because the cost of higher education continues to increase each year. Please note that it is the University's Financial Aid Office that administers the process of awarding loans to graduate students. The School of Social Work awards scholarships to its master's level students and scholarship and assistantships to its PhD students.

Financial aid is not awarded to any student until admission to the School has been granted. Early application for financial aid is strongly encouraged.

Each year, the school has a priority admissions deadline of January 10, 2020. All first time MSW applicants to the school who complete their application by the priority deadline, and have a minimum 4 year undergraduate GPA of 3.4 are guaranteed both acceptance and a scholarship assistance. The school's regular application deadline is May 31.

Students applying for financial aid must complete the Free Application for Federal Student Aid (FAFSA) form. Pitt's federal school code is **008815**. The FAFSA form is not available until January for those applying for the next academic year.

MSW Degree Requirements

The MSW curriculum is designed to provide students, who enter with a liberal arts perspective, a professional education that includes both breadth and depth of knowledge and skills development. The Generalist Curriculum addresses the acquisition of knowledge, skills, and values that comprise the generalist social work perspective.

Upon this common foundation rests the curricula for the two advanced Skill Specializations:

Direct Practice with Individuals, Families, and Small Groups » (Direct Practice)

Community, Organization, and Social Action » (COSA)

Employees of public child welfare agencies interested pursuing an MSW degree should visit the CWEL home page.

Those interested in working with older adults should visit the Aging Initiatives & Programs page.

The MSW degree requires completion of a minimum of 60 credits-42 class and 18 field practicum. Both the class and field requirements include foundation and skill concentration curricula. Please refer to the MSW Student Handbook (PDF) to obtain more detailed information on course of study plans for the various MSW curricula options.

Field education is an important component of the MSW educational experience. Students complete both a foundation and a concentration-specific placement as part of their MSW studies.

The School of Social Work offers seven joint degree options for master's level students. Learn more about these dual, joint and cooperative degree program options.

[MSW Academic Standards: Probation](#)

A student in the MSW program will be placed on academic probation if:

after completing at least nine (9) quality point credits, the student's cumulative GPA falls below 3.00;

the student receives a grade lower than a B- in a required course (including the five foundation courses, the required concentration skill courses, the second-level human behavior, policy, and research courses, and any specific courses needed to fulfill specialization or certificate requirements), or

the student receives an NC grade for field placement (SWGEN 2099, SWINT 2099, or SWCOSA 2099).

The MSW program director will send a letter to the student and the student's advisor notifying them of the student's placement on academic probation. The letter will advise the student and the student's advisor of the date and location of an academic review meeting, to be convened by the MSW program director, to discuss the terms of the student's academic probation. A copy of this letter will be placed in the student's folder.

Depending on the outcome of the meeting, a student placed on academic probation may be required to modify the student's course of study in the MSW program, including changing the academic courses for which the student is registered and/or delaying entry into or suspending field placement.

[Part-Time MSW Students](#)

Students pursuing a part-time course of study must complete the MSW degree in four academic years.

The school offers part-time study for persons seeking to earn the master's degree whose economic, occupational, or familial situation precludes their current enrollment on a full-time basis. Preference for admission to part-time study will be given to persons currently employed in social service positions or to persons whose social service careers were interrupted by family responsibilities. Others interested in social work as a career are, of course, welcome to apply and will be given full consideration.

To the extent feasible, courses will be offered during evenings. However, part-time students must be prepared to take some courses during the day. Part-time students will have to make accommodations and be flexible in scheduling field instruction since field placement sites that offer evening or weekend instruction are very limited.

Part-time students will need to enroll in at least two courses a term during two of the three terms each academic year in order to qualify for the MSW degree. The following options are acceptable:

Two courses (three credits per course)

OR

One course (three credits) plus a minimum of three field credits

OR

A minimum of six field credits (equivalent to two courses)

Part-time students must complete all of the MSW degree requirements in four years.

Advanced Standing and Exemptions for MSW Course Work

Students entering the MSW program may be granted advanced standing, receive transfer credit, or be exempt from specific course requirements if their coursework was completed within the past 7 years. The definition for each is:

Advanced Standing is defined as the awarding of academic credit toward a degree by the School of Social Work for prior baccalaureate course or field work completed at an undergraduate social work program accredited by the Council on Social Work Education when such work is evaluated as entirely comparable. Those granted advanced standing during the admission process can receive up to 12 academic credits and six field education credits. In addition, they can also receive an exemption from Foundations of Social Work Practice with Diverse Populations (SWGEN 2034). Full-time students who have advanced standing graduate in December of their second year. Students who have advanced standing are allowed to pursue their MSW degree on a part-time basis, but must complete all of the requirements for the MSW degree in four years.

Transfer Credit is defined as the awarding of academic credit toward a degree by the School of Social Work for post-baccalaureate course or field work completed at an accredited academic institution when such work is evaluated as entirely comparable.

Exemption is defined as the waiving of a required academic course by the School of Social Work following an evaluation of the student's previous course work that is determined to be essentially identical to the required course being waived. Such an exemption does not, however, reduce the number of credits required for graduation.

Specific details and limitations regarding this policy and related procedures are described in the Student Handbook and on the School of Social Work Web site, <http://www.socialwork.pitt.edu/academics/policies-handbooks>.

Consistent with the Council on Social Work Education's (CSWE's) Educational Policies and Accreditation Standards, the School of Social Work's MSW program does not grant advanced standing, transfer credit, or exemption for prior life, volunteer, or employment experience.

Generalist Curriculum

The generalist curriculum is designed to provide all incoming master's students with the basic values, knowledge, and skills needed to gain competence in applying the generalist social work perspective to practice. An understanding of the profession's values orientation, history and philosophy, and frames of reference for practice establishes a basis for students to progress through the MSW Program's advanced concentration curricula. All MSW students must complete the MSW Generalist requirements listed below unless they are exempted via advanced standing credit or testing.

Required Generalist Courses

SWRES 2021 Generalist Social Work Research 3 crs.

SWGEN 2034 Social Work Practice with Diverse Populations 3 crs.

SWBEH 2063 Human Behavior and the Social Environment 3 crs.

SWWEL 2081 Social Welfare 3 crs.

SWGEN 2098 Generalist Social Work Practice 3 crs.

SWGEN 2099 Generalist Field Education 6 crs.

Certificate

Children, Youth and Families Certificate

The Children Youth and Families Certificate is designed to prepare graduates of the MSW program to provide services to at-risk children and families through a wide range of public and private agencies. Through specialized coursework and internship opportunities, students are prepared for professional practice in settings such as family service agencies, child protection, the courts, early intervention, community-based treatment, and other child and family-focused programs. The Children, Youth and Families Certificate is awarded by the School of Social Work, and provides students with the opportunity to enhance professional competency in providing services to young persons and their families.

COSA Community Organizing and Practice Certificate

The MSW Program at the School of Social Work is accredited to offer two advanced specializations: Direct Practice with Individuals, Families, and Small Groups (DP) and Community, Organization, and Social Action (COSA). All students in the MSW must select a single specialization when they matriculate. The proposed COSA Community Organizing and Practice Certificate will be part of the COSA specialization.

COSA specialization students pursuing this proposed certificate will complete twelve course credits and twelve field credits in the areas of community organizing; community planning; community development; and community social change. For the course work, students must complete the following four courses: (1) SWCOSA 2084: Human Services Organization Management (3 crs.); (2) SWCOSA 2088: Community Organizing and Planning (3 crs.); (3) SWCOSA 2090: Working with Group/Intergroup Relations: Facilitation, Negotiation and Mediation (3 crs.); and (4) SWCOSA 2096: Community Planning and Development (3 crs.). Students must also complete a COSA specialization field placement (12 credits - 720 clock hours) in a community organizing and practice setting to apply the knowledge, values, and skills they are learning through their coursework. This proposed certificate builds on the School's existing field placement opportunities around community organizing and practice.

Required Core Courses

SWCOSA 2084 - HUMAN SERVICE ORGANIZATION MANAGEMENT
SWCOSA 2088 - COMMUNITY ORGANIZING AND PLANNING

COSA Skill Electives

SWCOSA 2090 - WORKING WITH GROUP AND INTERGROUP RELATIONS: FACILITATION/NEGOTIATION/MEDIATION
SWCOSA 2096 - COMMUNITY PLANNING AND DEVELOPMENT

COSA Specialization Field Placement

SWINT 2099 - FIELD WORK

Total Credits: 24

COSA Gerontology Certificate

The MSW Program at the School of Social Work is accredited to offer two advanced specializations: Direct Practice with Individuals, Families, and Small Groups (DP) and Community, Organization, and Social Action (COSA). All students in the MSW must select a single specialization when they matriculate. The proposed COSA Community Organizing and Practice Certificate will be part of the COSA specialization.

The proposed COSA Gerontology Certificate is designed to prepare students for professional practice in communities and organizations addressing the needs of older adults. Knowing how to work with older adults as a social work professional offers many opportunities in an era when that segment of the population continues to increase steeply.

Through specialized courses and a dedicated field placement experience, the proposed COSA Gerontology Certificate students will be exposed to the various roles and settings that constitute contemporary social work practice in aging.

Required Courses

SWBEH 2077 - HUMN BHVR: ADLT DVLP AGING
SWWEL 2039 - SOCIAL POLICY AND GERONTOLOGY

Elective Courses

At least one SWCOSA elective (3 credits) where student completes a gerontology project or assignment and presents this to their academic advisor and the Gerontology Certificate Chair. Possible courses are:

SWCOSA 2040 - GRANT PROPOSAL WRITING
SWCOSA 2090 - WORKING WITH GROUP AND INTERGROUP RELATIONS: FACILITATION/NEGOTIATION/MEDIATION

SWCOSA 2096 - COMMUNITY PLANNING AND DEVELOPMENT

A 2nd above SWCOSA elective or 3 credits of other graduate level gerontology coursework from the wider university.

Specialized Field Placement

SWCOSA 2099 - FIELD WORK

Total Credits: 24

COSA Human Services Management Certificate

The MSW Program at the School of Social Work is accredited to offer two advanced specializations: Direct Practice with Individuals, Families, and Small Groups (DP) and Community, Organization, and Social Action (COSA). All students in the MSW must select a single specialization when they matriculate. The proposed COSA Community Organizing and Practice Certificate will be part of the COSA specialization.

Students pursuing the proposed Human Services Management Certificate will complete twelve course credits and twelve field credits covering the Community, Organization, and Social Action (COSA) MSW competencies in areas of executive leadership; resource management; strategic management and community collaboration. Students will enroll in and successfully complete the following COSA core and skill electives courses: (1) SWCOSA 2084 Human Service Organization Management (3 crs.); (2) SWCOSA 2088 Community Organizing & Planning (3 crs.); (3) SWCOSA 2086: Human Resources, Supervision and Financial Management (3 crs.); and (4) SWCOSA 2040: Grant and Proposal Writing (3 crs.). Students will also complete their second (specialized COSA) field placement (12 credits - minimum 720 clock hours) in a community-based or human services organization where they will have the opportunity to apply and build on organizational management theories and skills they are learning in their courses.

Required Courses

SWCOSA 2084 - HUMAN SERVICE ORGANIZATION MANAGEMENT

SWCOSA 2088 - COMMUNITY ORGANIZING AND PLANNING

COSA Electives

SWCOSA 2086 - HUMAN RESOURCE/SUPERVISION AND FINANCIAL MANAGEMENT

SWCOSA 2040 - GRANT PROPOSAL WRITING

COSA Specialization Field Placement

SWCOSA 2099 - FIELD WORK

Total Credits: 24

DP-Children, Youth, & Families Certificate

The MSW Program at the School of Social Work is accredited to offer two advanced specializations: Direct Practice with Individuals, Families, and Small Groups (DP) and Community, Organization, and Social Action (COSA). All students in the MSW must select a single specialization when they matriculate. The proposed COSA Community Organizing and Practice Certificate will be part of the COSA specialization.

The proposed Children, Youth, and Families certificate is designed to prepare students to provide services to diverse child, adolescent, young adult, and family populations through a wide range of public and private agency settings. Students in this certificate will deepen their knowledge and skills in social work practice with at-risk children and families through coursework and field placement experiences in settings which serve vulnerable children and their families. Students wishing to obtain the proposed CYF certificate must complete Children and Families at Risk (SWBEH 2062) as

their second-level human behavior course and Child and Family Policy (SWWEL 2059) as their second-level policy course. They will also be required to complete two children, youth, or family-focused courses as direct practice skill electives as well as complete their 12 credit specialized field placement in a setting/program serving children, youth, parents, families, and groups.

Required Courses

SWWEL 2059 - CHILD AND FAMILY POLICY
SWBEH 2062 - HUMN BHVR: CHLD FMLY AT RISK

Direct Practice Skill Electives - Choose two courses from the following list:

SWINT 2011 - SOCIAL WORK PRACT WITH FAMILIES
SWINT 2035 - INTIMATE PARTNER VIOLENCE
SWINT 2042 - SOCIAL WORK WITH SUBSTANCE USE AND OTHER ADDICTIVE DISORDERS
SWINT 2049 - DIRECT PRACTICE WITH CHILDREN
SWINT 2063 - ISSUES IN CHILD MALTREATMENT
SWINT 2072 - SOCIAL WORK PRACTICE AND TRAUMATIC STRESS
SWINT 2096 - CLIN SOCL WRK AFRCN AMERCN FMLY

Specialized Field Placement

SWINT 2099 - FIELD WORK

Total Credits: 24

DP-Gerontology Certificate

[*In Fall 2022, the Gerontology Certificate was renamed to the DP Gerontology Certificate.*](#)

The Certificate Program in Aging has been in place since 1980 and continues to attract numerous MSW students. The goals of the DP Gerontology Certificate program are to enhance students' understanding of the aging process and to provide them with the skills relevant to practice with and/or on behalf of the elderly and their family members. Knowing how to work with the elderly as a social work professional offers many opportunities in an era when that segment of the population continues to increase steeply.

Through courses and the field placement experience, DP Gerontology Certificate students are exposed to the various roles and settings that constitute contemporary social work practice in aging. Emphasis is given to understanding client and family strengths; diversity among the aged population; the social, cultural, community, and policy contexts of aging; and how these factors inform, and may be influenced by, social work practice. DP Gerontology Certificate students are encouraged to apply to the Hartford Program Partnership in Aging Education Fellowship.

DP-Home and School Visitor/ School Social Worker Certificate

The MSW Program at the School of Social Work is accredited to offer two advanced specializations: Direct Practice with Individuals, Families, and Small Groups (DP) and Community, Organization, and Social Action (COSA). All students in the MSW must select a single specialization when they matriculate. The proposed COSA Community Organizing and Practice Certificate will be part of the COSA specialization.

The proposed Home and School Visitor/ School Social Work Certificate is designed to enhance professional competency in the development and delivery of high-quality social work services to diverse student populations in both public and private elementary and secondary schools. Through coursework and direct practice specialized field placements, students will gain advanced knowledge and skills in social work practice with individuals, families, and small groups in educational settings. Students in the proposed certificate will complete HBSE-Children and Families at Risk (SWBEH 2062) as their second-level human behavior course and Child and Family Policy (SWWEL 2059) as their second-level policy course. They will also complete the existing (SWINT 2058) Social Work in a School Setting as one of their direct practice skill electives. The HSV/SSW certificate is a part of the Direct Practice (DP) specialization and consistent with that, students must complete their 12 credits of specialized field placement in a school-based setting serving individuals, families, and groups.

Additionally students who elect the HSV/SSW certificate will complete the following four courses from the School of Education: (TLL 2500) Foundations of Special Education, (TLL 2257) Instructing English Language Learners, (TLL 2101) PA School Law, and (TLL 2501) Students with Disabilities in the Classroom or (TLL 2502) Students with Disabilities in the Secondary Classroom.

Required Core Courses

SWWEL 2059 - CHILD AND FAMILY POLICY
SWBEH 2062 - HUMN BHVR: CHLD FMLY AT RISK

Direct Practice Skill Elective

SWINT 2058 - SOCIAL WORK EDUCATIONAL SETTINGS

Specialized Field Placement

SWINT 2099 - FIELD WORK

Required School of Education Courses

TLL 2101 - PENNSYLVANIA SCHOOL LAW
TLL 2257 - TEACHING ENGLISH LANGUAGE LEARNERS
TLL 2500 - FOUNDATIONS OF SPECIAL EDUC
TLL 2501 - STUDENT W/DISAB IN ELEM CLSSRM
TLL 2502 - STUDNT W/DISAB IN SECNDRY CLSSRM

Total Credits: 33

DP-Integrated Health Care Certificate

[*In Fall 2022, the Integrated Health Care Certificate was renamed to the DP Integrated Health Care Certificate.*](#)

The DP Integrated Health Care Certificate Program prepares graduate social work students specializing in direct practice with the knowledge and skills necessary to work with individuals, families, groups, and communities in a variety of institutional and community-based health-related settings. With a focus on leadership and advocacy, the goal of the certificate program is to increase the number of students focused on health and social work. Master's level social work training (MSW), along with a Certificate in DP Integrated Health Care, provides the knowledge and skills to work in a variety of integrated health care settings. Students completing the DP Integrated Health Care Certificate Program will have a deeper understanding of the relationship between behavioral health (.e., mental health, substance use) and physical health. New opportunities abound in health care for social workers trained in an interdisciplinary approach who are prepared to bridge the gap between health care providers and patient needs within a coordinated system of care.

Students interested in integrated health care may also apply for the Edith Baker Behavioral Health Care Fellowship, a competitive program that will provide successful applicants with stipends of \$10,000 during their concentration field placement

For more information regarding this fellowship, please e-mail BHWET@pitt.edu.

DP-Mental Health Certificate

The Mental Health Certificate is designed to prepare students for professional practice with individuals, families, and/or small groups with mental/behavioral health challenges. Mental health practice can be found in a wide range of social and human services agencies. Through courses and field placement experiences, students are exposed to a wide range of mental health conditions and disorders and contemporary modalities to address these conditions and disorders. Students in this proposed certificate will complete Human Behavior: Mental Health (SWBEH 2065) as their second-level human behavior course and Mental Health and Public Policy (SWWEL 2057) as their second-level policy course. They will also be

required to complete two mental health focused courses as direct practice skill electives as well as complete their 12 credit specialized field placement in a mental health setting.

Required Core Courses

SWBEH 2065 - HUMAN BEHAVIOR: MENTAL HEALTH
SWWEL 2057 - MENTAL HEALTH AND PUBLIC POLICY

Direct Practice Skill Electives - Choose two courses from the following list:

SWINT 2007 - INTRO PSYPMCLGY SOCL WRK PRACT
SWINT 2011 - SOCIAL WORK PRACT WITH FAMILIES
SWINT 2018 - CLINICAL SKILLS IN SOCIAL WORK PRACTICE FOR MENTAL HEALTH RECOVERY
SWINT 2042 - SOCIAL WORK WITH SUBSTANCE USE AND OTHER ADDICTIVE DISORDERS
SWINT 2046 - PLANNED SHORT-TERM TREATMENT
SWINT 2049 - DIRECT PRACTICE WITH CHILDREN
SWINT 2053 - GROUP INTERVENTIONS WITH HIGH-RISK POPULATIONS
SWINT 2072 - SOCIAL WORK PRACTICE AND TRAUMATIC STRESS
SWINT 2031 - ADV DRCT PRAC: COGNITV/BEHVRL
SWINT 2032 - ADV DRCT PRAC: SOCIAL SYSTEMS
SWINT 2033 - ADV DRCT PRAC: PSYCHODYNAMIC

Specialized Field Placement

SWINT 2099 - FIELD WORK

Total Credits: 24

Home and School Visitor Certificate

Since the 1930s, the School of Social Work has offered a Home and School Visitor/School Social Worker certificate. The program was started by pioneering social work practitioner and educator Marion Hathway. The H&SV/SSW is an interprofessional Educational Specialist certificate program, operated jointly with the University of Pittsburgh School of Education and the Pennsylvania Department of Education, and is intended for students who plan to deliver social work services in elementary or secondary schools. There are three models for certification:

Certification earned while earning the MSW
Certification earned post-MSW
Certification earned without an MSW

The H&SV/SSW certificate program is designed to enhance professional competency in the development and delivery of high quality social work services to diverse student populations in both public and private elementary and secondary schools. The certificate program is organized around the Direct Practice concentration and offers students the opportunity to gain advanced knowledge and skills via courses taken in the Schools of Social Work and Education and a field placement in an educational setting.

For further information, please contact Deborah Robinson, MSW, LSW, Director, dcr16@pitt.edu.

Home and School Visitor/School Social Worker Certificate

The Home and School Visitor/School Social Worker (H&SV/SSW) certificate, a joint effort with the University of Pittsburgh School of Education that is accredited by the Pennsylvania Department of Education, prepares students for professional practice in both public and private educational settings throughout Pennsylvania. The H&SV/SSW certificate program is designed to enhance professional competency in the development and delivery of high-quality social work services to diverse student populations in elementary and secondary schools.

Human Services Management Certificate

Many MSW's often find themselves moving up quickly into supervisor, management, and even executive positions. The generalist perspective and systems knowledge from their social work education provides a strong basis for leadership growth in a range of social work settings. However, to better prepare macro practice/COSA students to take advantage of leadership opportunities and enhance their personal and professional development, the School now offers the Human Services Management Certificate in collaboration with the Network of Social Work Management under a new University partnership initiative.

This national Human Services Management Certificate can be completed by COSA students in the course of their MSW studies. Students pursuing this certification option must complete twelve credits through the following COSA core and skill electives course work covering Network of Social Work Management (NSWM) competency and practice behaviors in the areas of:

- Social Administration/Human Services Management
- Community Organizing (Community Collaboration)
- Human Resources & Financial Management with Supervision
- Grants, Proposals, and Funding Development

COSA students are encouraged to take other skill electives in COSA, as well as skills courses in other schools. For more information on the NSWM competencies: <https://socialworkmanager.org/competencies>

In addition, COSA student in Social Administration/Human Service Management must also complete a COSA concentration field placement (12 credits) in a community-based or human services organization to apply their course knowledge, values, and skills in the organizational setting.

For more information on the Human Services Management Certificate, please contact the Community Organization, and Social Action Concentration Chair, Tracy M. Soska, at 412-624-3711 or tsssw@pitt.edu.

Mental Health Certificate

The Certificate in Mental Health is designed to prepare MSW graduates for professional practice with individuals, families, and/or groups with mental and/or behavioral health challenges through a wide range of social and human service agencies. Students in the MSW Program take a series of required and elective courses leading to the Certificate in Mental Health within the normal MSW requirements and need not exceed the length of the degree program. Direct practice social workers in mental health services have a wide array of career opportunities across a range of public and private settings, including psychiatric inpatient services, outpatient psychotherapy services, child and family services, partial hospitalization and case management services, drug and alcohol services, and private practice.

Joint Degree

Social Work, MSW/MBA

The MBA/Master of Social Work joint degree program is designed to provide students with a unique combination of social work knowledge and skills, with exceptional strength in management decision-making and leadership. The degree is offered jointly through the University of Pittsburgh School of Social Work and the Joseph M. Katz Graduate School of Business.

Faced with an increasingly competitive market, nonprofit organizations are beginning to emulate management methods and paradigms being practiced by for-profit companies, such as financial operations, human resource and data management, market and economic analysis, and evidence-based strategic planning. As philanthropic organizations become more concerned about their accountability and utility of financial supports provided to various human service organizations, they are beginning to evaluate nonprofits beyond program outcomes or average cost per client to more advanced assessments, such as cost-efficiency and effectiveness and cost-benefit ratio. Unfortunately, such analytic methodologies are rarely offered to social work students by the traditional social work curriculum.

Initially, the proposed MSW/MBA dual-degree program will be open to the SSW's Community Organization and Social Action (COSA) students. Upon successful execution of this initiative, the school plans to open the program to all MSW full-time students (COSA and Direct Practice students).

Students who want to earn a dual-degree must gain acceptance into both graduate degree programs by applying separately to each school. The joint-degree program applicants will also be required to submit their Graduate Management Admission Test (GMAT) or Graduate Records Exam (GRE) examination scores to both schools. MSW/MBA Joint Degree Admissions Criteria

SSW Requirement

A Baccalaureate degree that must be completed prior to the program start date. Applications must include transcripts of coursework completed at the time of submission of the application. Admission will be contingent upon submission of an official, final transcript of the completed Bachelors program before the start of the MSW program.

Undergraduate students with social work and human service backgrounds are preferred.

In general, we would expect an undergraduate GPA of 3.0 or better for admission.

International students must submit originals or certified copies of transcripts/mark sheets and degree/diploma certificate in the original language plus a certified English translation (if the original is not in English).

Paid work experience is preferred but not required.

GMAT/GRE scores are not required for regular MSW students applicants but for the joint degree applicants in MSW and MBA must have their official Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) score reports forwarded directly to the University of Pittsburgh, Katz Graduate School of Business (KGSB), by the admission deadline.

Applicants will submit a 3-5 page double spaced typed personal statement describing their post-graduate career goals, skills in which they excel, and key accomplishments.

Applicants will submit three recommendations from persons who have known the applicant in academic or professional capacities. At least one from a faculty member is preferred. (Recommendations from friends and family will not be accepted.)

Applicants will submit their current resume.

English Proficiency Exams (for international applicants who are citizens of countries where the official language is not English)- the Test of English as a Foreign Language (TOEFL) with minimum acceptable score: Internet-based test: 100; paper-based test: 600.

Non-refundable application fee is \$40.

Prospective candidates, domestic or international, may be interviewed before admission, in person or by telephone.

Submission of online MSW application form by the admissions deadline date of **May 31**.

Katz GSB Requirement

A Baccalaureate degree that must be completed prior to the program start date. Applications must include transcripts of coursework completed at the time of submission of the application. Admission will be contingent upon submission of an official, final transcript of the completed Bachelors program before the start of the MBA program.

Undergraduate students with strong analytical backgrounds are preferred.

In general, we would expect an undergraduate GPA of 3.0 or better for admission.

International students must submit originals or certified copies of transcripts/mark sheets and degree/diploma certificate in the original language plus a certified English translation (if the original is not in English).

Work experience is not necessary, though highly desirable.

GMAT/GRE scores: Applicants must have their official Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) score reports forwarded directly to the University of Pittsburgh, Katz Graduate School of Business, by the admission deadline. In general, we would expect a GMAT score of 600 or higher for admission. (Corresponding GRE scores will be equivalent to these levels, after conversion.)

Applicants will submit a 250 word essay describing their post-graduate career goals, skills in which they excel, and key accomplishments.

Applicants will submit two recommendations from persons who have known the applicant in academic or professional capacities. At least one from a faculty member is preferred. (Recommendations from friends and family will not be accepted.)

Applicants will submit their current resume.

English Proficiency Exams (for international applicants who are citizens of countries where the official language is not English): Either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing Systems (IELTS) is required.

TOEFL Minimum acceptable score: Internet-based test: 100; paper-based test: 600.

IELTS Minimum acceptable score: 7.0

\$50 non-refundable application fee.

Prospective candidates, domestic or international, may be interviewed before admission, in person or by Skype.

Learning outcome goals

The MSW/MBA dual-degree program is designed to provide students with a unique combination of social work knowledge and skills, with exceptional strength in management decision-making and leadership. In addition to the MSW learning outcomes that are already in place, supplementary MSW/MBA objectives include:

Proficiency in the management functions of accounting, finance, computer information systems, marketing, operations management, organizational behavior, human resource management, and social enterprise.

Special emphasis on development of skills and abilities to lead strategically and to position an organization effectively for continued growth and development in both for-profit and nonprofit sectors.

Knowledge and understanding of complex organizations, their development and transformation, administrative principles, the decision-making process, and competence in managerial functions.

To provide applied learning experiences, the required field practicum will include professional supervision through appropriate concentration settings that will focus on community and human service organization management.

Program requirements

A graduate-level course grade of B or higher must be maintained throughout the joint-degree program.

The MBA program requires a minimum 45 credits for the part-time or one-year program, of which at least 33* credits must be from KGSB courses, while the balance maximum of 17 credits may be from other graduate programs.

**On July 27, 2021 the program requirements for the program were approved to be decreased from 34.5 to 33 to align with the overall MBA redesign approved in 2019.*

**In Fall 2022, modifications were approved for the MBA Degree Requirements, retroactive to Fall 2021. Students will have until Summer 2023 to complete old program curriculum requirements. In order to maintain accurate records, updates were made in the catalog on September 14, 2022.*

Core Courses

The following MBA "core" courses (total of 19.5 credits) are required:

BACC 2401 - FINANCIAL ACCOUNTING

BECN 2401 - ECONOMIC ANALYSIS FOR MANAGERIAL DECISION: FIRMS AND MARKETS
BQOM 2401 - STATISTICAL ANALYSIS: UNCERT
BQOM 2421 - DECISION TECH IN MFG & OPS MGT
BFIN 2409 - FINANCIAL MANAGEMENT I
BMKT 2409 - MARKETING MANAGEMENT
BOAH 2409 - ORGANIZATIONAL BEHAVIOR: LEADERSHIP AND GROUP EFFECTIVENESS
BSPP 2409 - STRATEGIC MANAGEMENT
BMIS 2409 - INFORMATION SYSTEMS
BSEO 2401 - BUSINESS ETHICS & SOCIAL PERFORM
BIND 2454 - INTEGRATED MBA CAPSTONE

Program requirements

All MSW/MBA joint degree students will be required to take at least 34.5 credits of KGSB credits, consisting of the above 22.5 credits of core courses plus an additional 12 credits of KGSB electives. Thus, up to 16.5 credits will be accepted from courses successfully completed in the MSW program to achieve the total of 51 credits required for the completion of the Katz MBA degree.

All MSW/MBA joint degree students will be required to take a course entitled Social Entrepreneurship (1.5 credits) from the KGSB.

The following KGSB courses will count as credits towards the MSW degree:

BACC 2401 - FINANCIAL ACCOUNTING will qualify as equivalent to SWCOSA 2085 - FINANCIAL MANAGEMENT SOCIAL SERVICE INSTITUTIONS (3 credits), and will count as 3 credits for both the MSW and MBA programs,

BOAH 2409 - ORGANIZATIONAL BEHAVIOR: LEADERSHIP AND GROUP EFFECTIVENESS and Strategic Management (1.5 credits) will qualify as equivalent to SWRES Organizational Research, and will count as 3 credits for both the MSW and MBA programs (SA track only),

SW General Elective 1-One 3-credit or two 1.5-credit required MBA courses (e.g., BECN 2401 - ECONOMIC ANALYSIS FOR MANAGERIAL DECISION: FIRMS AND MARKETS), which will count as 3 credits for both the MSW and MBA programs, and

SW General Elective 2- One 3-credit or two 1.5-credit required MBA courses (e.g., BIND 2444 - MANAGEMENT SIMULATION CAPSTONE), which will count as 3 credits for both the MSW and MBA programs.

Thus, the double-counted credits make it possible for students to earn both degrees without having to take the total sum of credits required for completing the two degree programs separately.

It should be noted that a long-standing educational policy of the SSW is that students who, within the past seven academic calendar years, have received a social work degree from a CSWE-accredited undergraduate program are eligible for advanced standing. Those granted advanced standing during the admission process can receive up to 12 academic credits and six field education credits that will count towards completion of the MSW program.

Thus, full-time COSA students with advanced standing must earn grand total of 64.5 credits for CO students, and 61.5 credits for SA students (adding all MSW and MBA courses). This means total of 30 social work credits (including total of 12 field credits) to be taken by CO students and 27 credits (including total of 12 field credits) to be taken by SA students. Additionally, they must take minimum of 34.5 credits of MBA courses, which includes 22.5 and 12 credits of required and electives, respectively.

Full-time COSA students **without** advanced standing must earn grand total of 85.5 credits for CO students, and 82.5 credits for SA students (adding all MSW and MBA courses). This means total of 51 social work credits to be taken by CO students and 48 credits to be taken by SA students. Additionally, they must take minimum of 34.5 credits of MBA courses, which includes 22.5 and 12 credits of required and electives, respectively.

Master's

Social Work - Community, Organization, and Social Action Concentration, Community Organization Track, MSW

Community, Organization, and Social Action (COSA) Concentration Curriculum Requirements

COSA offers concentration courses in Human Behavior and the Urban Environment, Organizational Policy Analysis, and a social work research course related to either of the two COSA specialization tracks from which students may choose: Community Organization or Social Administration. Students must take one of the required specialization core skill courses; however, many students prefer to pursue both COSA specializations.

Students fulfill their remaining credits from a range of COSA skill elective courses, which include such topics as Supervision and Personnel Management, Financial Management, Public Relations/Marketing, Issue-Based Organizing, Community and Economic Development, and Grants, Proposals and Social Work, Social Work and the Law, and Race and Social Problems. Students may also pursue elective courses in other related professional schools. All students must complete six credits of foundation field work followed by twelve credits of concentration field placement in a range of organizational settings across an array of social work issues and program areas.

Required Skill Courses

SWCOSA 2084 - HUMAN SERVICE ORGANIZATION MANAGEMENT
SWCOSA 2088 - COMMUNITY ORGANIZING AND PLANNING

Second-Level HBSE Course

SWBEH 2008 - HUMN BHVR: URBAN ENVIRONMENT

Second-Level HBSE Course

SWWEL 2087 - ORGANIZATIONS AND PUBLIC POLICY

Second-Level Research Course

Select one of the two courses below based on your specialized track (CO or SA)

SWRES 2009 - ORGANIZATIONAL AND COMMUNITY DEVELOPMENT RESEARCH (SA)
SWRES 2023 - DIRECTED STUDY IN RESEARCH (CO)

Electives and Field Placement

COSA Skill Electives - 6 credits (two courses related to CO or SA track - see below)
General Electives - 6 credits
SWCOSA 2099 - FIELD WORK - 12 credits (related to CO or SA track)

Community Organizing Electives

SWCOSA 2090 - WORKING WITH GROUP AND INTERGROUP RELATIONS: FACILITATION/NEGOTIATION/MEDIATION **
SWCOSA 2096 - COMMUNITY PLANNING AND DEVELOPMENT

Note:

**Courses required for Human Services Management Certificate (COSA or DP)*

*** Courses can count for either Social Administration or Community Organizing*

Social Work - Community, Organization, and Social Action Concentration, MSW

Foundation Requirements

All MSW students must complete the MSW Foundation requirements listed below before being permitted to take concentration skill courses; second-level human behavior and the social environment, social welfare, or research courses; skill electives; and concentration field practicum, unless they are exempted via Advanced Standing credit or examination or an academic plan that is approved by the advisor and the program director.

The foundation course requirements (15 credits total) are:

SWRES 2021 - GENERALIST SOCIAL WORK RESEARCH
SWBEH 2063 - HUMAN BEHAVIOR & SOCIAL ENVRNMNT
SWWEL 2081 - SOCIAL WELFARE
SWGEM 2098 - GENERALIST SOCIAL WORK PRACTICE
SWGEM 2034 - SOCIAL WORK PRACTICE WITH DIVERSE POPULATIONS

Note:

In addition to the five courses listed above, students must complete 6 credits of Foundation Field Work. Students entering with advanced standing may be exempted from part or all of the Foundation Field Work requirement.

Skill Concentration Curricula

Upon completion of the foundation requirements, students begin course work in either of the two skill concentrations: Direct Practice with Individuals, Families, and Groups or Community, Organization, and Social Action (COSA). In each skill concentration, students can opt to choose a University of Pittsburgh certificate program, or a School of Social Work certificate program.

Community, Organization, and Social Action

The **Community, Organization, and Social Action (COSA)** specialization in the MSW Program (*formerly Community Organization and Social Administration*) is seeking socially-active and civically-engaged students who seek leadership careers in community human services, community development, and community change/social policy practice as professional social workers. Graduates pursue established and emerging professional opportunities in public and private, profit, nonprofit and community-based organizations in such fields as health, children and youth, family services, disability services, community revitalization and development, philanthropy, policy and advocacy, community and social planning, community/neighborhood centers, human resources and community affairs, and more. In COSA, we see our work as:

community Organizing, Planning, Development, and Change
organizational Leadership and Human Services Management
social Policy & Advocacy Practice in the Social Policy Arena
action as Activist social workers leading change in
communities, organizations, & policy arenas

COSA Curriculum

The MSW in COSA can be generally completed in two-years of graduate study; however, students have options for either part-time study (must be completed in four years) and a new one-year option (for students with advanced standing from an undergraduate social work degree). *See Curriculum Requirements.*

COSA Specialization - Human Services Management Certificate

Our School of Social Work is one a number of leading macro social work program in schools of social work to offer a national Human Services Management Certificate in partnership with the Network of Social Work Management, a national organization supporting education and practice for human services management competency. *See Human Services Management Certificate Requirements.*

COSA Joint Degrees

Many COSA students pursue joint degree study with other professions, including a new joint MSW/MBA option, as well as long-standing joint degree studies in Public Health (MSW/MPH), Public and International Affairs (MSW/MPA, MID, or MPIA), Law (MSW/JD), and Divinity (MSW/MDiv) in partnership with the Pittsburgh Theological Seminary. The School of Social Work and COSA strong support and seek to develop opportunities for inter-professional study and practice for social workers. *See Joint Degree Opportunities.*

Celebrating 60 Years of Community Organizing (CO)

The School of Social Work has the first and long-standing program in Community Organizing (CO) in any social work or professional school in the country. In fall 1958, the School launched its first two-year curriculum in Community Organizing, and with our 100th Anniversary as a school of social work in 2018 we are also celebrating our 60th year of CO. Read a history of the community organizing program.

Social Work - Direct Practice with Individuals, Families, and Groups Concentration, MSW

Foundation Requirements

All MSW students must complete the MSW Foundation requirements listed below before being permitted to take concentration skill courses; second-level human behavior and the social environment, social welfare, or research courses; skill electives; and concentration field practicum, unless they are exempted via Advanced Standing credit or examination or an academic plan that is approved by the advisor and the program director.

The foundation course requirements (15 credits total) are:

SWRES 2021 - GENERALIST SOCIAL WORK RESEARCH
SWBEH 2063 - HUMAN BEHAVIOR & SOCIAL ENVRNMNT
SWWEL 2081 - SOCIAL WELFARE
SWGEM 2098 - GENERALIST SOCIAL WORK PRACTICE
SWGEM 2034 - SOCIAL WORK PRACTICE WITH DIVERSE POPULATIONS

Note:

In addition to the five courses listed above, students must complete 6 credits of Foundation Field Work. Students entering with advanced standing may be exempted from part or all of the Foundation Field Work requirement.

Skill Concentration Curricula

Upon completion of the foundation requirements, students begin course work in either of the two skill concentrations: Direct Practice with Individuals, Families, and Groups or Community, Organization, and Social Action (COSA). In each skill concentration, students can opt to choose a University of Pittsburgh certificate program, or a School of Social Work certificate program.

Direct Practice with Individuals, Families, and Groups

The Direct Practice specialization is designed to develop students' advanced practice skills to prepare them for autonomous practice, grounded in the values and ethics of the social work profession using a strengths-based, person-in-the-environment perspective. Through course work and field education, students are equipped with the knowledge and skills needed to engage in direct practice with diverse populations of individuals, families, and small groups. The specialization focuses on evidence-based modalities and provides students with community-based learning opportunities. Consistent with an emphasis on strengths perspective, students become skilled at assisting clients to address their needs and realize their potential.

Direct practice certificates entail a specific array of courses and field placement experiences that permit students to tailor their education and professional preparation.

Five certification programs are available to direct practice students. Direct practice students in the MSW program can elect to pursue a certificate in:

Children, Youth and Families Certification (School of Social Work Certificate)

Gerontology (University of Pittsburgh Certificate)

Home and School Visitor (School of Social Work, School of Education, and PA Department of Education Certificate)

Integrated Health Certificate (University of Pittsburgh Certificate)

Mental Health Certification (School of Social Work Certificate)

Students are not required to pursue a certificate. Those who choose to do so, must declare their choice of a certificate program no later than the end of the first term of full-time study. Individuals intending to complete the Home and School Visitor certificate must declare their interest in their application for admission to the MSW program. Information about curriculum requirements, specialization, and certificate programs are available on the school's Web site, <http://www.socialwork.pitt.edu/academics/msw/concentrations/direct-practice>

Electives:

MSW Courses

Social Work, MSW

Students who have received a social work degree within the past seven academic calendar years from a CSWE-accredited undergraduate program (or one recognized by the Council on Social Work Education's International Social Work Degree Recognition and Evaluation Service, or covered under a memorandum of understanding with international social work accreditors) are eligible for advanced standing. The students who are granted advanced standing during the admission process can receive up to 15 academic credits. The number of advanced standing credits granted depends on the comparability of the student's undergraduate courses to this Program's generalist courses and on the grades they earned in those undergraduate courses (i.e., must be a "B-" grade or higher). Such students also may be granted an exemption from a diverse populations course. Eligibility for a course exemption is contingent upon the comparability of the student's undergraduate course(s) to this Program's generalist course and on the grade(s) obtained (i.e., "B-" grade or higher). If an exemption is granted, the student must fulfill the three academic credits through additional coursework, typically by enrolling in another elective course.

In addition, students entering with advanced standing can receive six (6) field education credits. The six (6) credits of field education are granted based on the number of hours of field experience completed at the undergraduate level, provided that the undergraduate social work practicum totals a minimum of 400 clock hours and the student has achieved a passing grade or at least a "B-" grade or better.

The proposal will increase the maximum number of credits awarded for advanced standing from 18 to 21. This would reduce the minimum number of credits a student takes in our MSW program from 42 to 39. The key rationale informing this policy change is curricular alignment and recognition of demonstrated competency between undergraduate and graduate social work diversity courses.

Previously students have an exemption from our Social Work Practice with Diverse Populations course (SWGEM 2034) as part of their advanced standing, removing the requirement to take the course but not receiving the 3-credits applied to their 60 credit MSW. This policy change would allow for the full recognition of a student's competency in this requirement (demonstrated through an earned B- or better in the undergraduate comparable social work diversity course).

Doctorate in Social Work Program

We are committed to training the next generation of scholars in social work, whose research will inform policy and practice addressing society's most pressing problems.

Doctoral education in Social Work prepares students for leadership roles in social work research, social work education, social policy, planning, and administration. We provide students with advanced academic training that will allow them to contribute to the knowledge base of our profession.

Our faculty includes nationally recognized leaders in every area of social work practice and research, and we take a hands-on, supportive approach to doctoral education.

The doctoral program is open to applicants who have demonstrated intellectual capacity, critical thinking skills, and potential for research and scholarship.

Why Pitt?

Nationally recognized leaders in every area of social work practice and research

Supportive, hands-on approach to doctoral education

Opportunities to collaborate through three world-class centers that address race and social problems, behavioral health practice in community settings, and child welfare

Four years of funding and health insurance

The University of Pittsburgh's social work doctoral program is among the oldest and most-respected in the United States. Our full time program is highly competitive, and we accept 6-8 students each year. Students are fully funded with tuition and stipend support for four years of study. Tuition support includes health insurance, and our wonderful Social Work Library is part of Pitt's world-class University Library System.

The doctoral program is open to applicants who have demonstrated intellectual capacity, critical thinking skills, and potential for research and scholarship.

Please visit our PhD Admissions webpage for admissions-related information.

In addition to the description of the PhD in Social Work given below, doctoral students should consult the Regulations Pertaining to Doctoral Degrees in the General Academic Regulations section of this document.

Admission to Doctoral Program

Persons seeking admission to the PhD Program must demonstrate the potential for doctoral studies. All applicants to the Doctoral Program in Social Work must provide the following:

Completion of the PhD Application.

Official copies of all official undergraduate and graduate transcripts.

GREs taken within the last five years.(Use code **2927**).

A general statement of the applicant's academic and professional experience, including future career goals. This statement should relate past and current experience to the applicant's future educational and career objectives.

A short analysis of a social policy issue.

Three letters of reference from professors and persons who have known the applicant in a professional capacity. Do not include personal references.

\$50 application fee.

Apply to the School of Social Work PhD Program

Application components should be sent to:

Admission to the program is for the fall term only and the deadline for the application is December 15. To apply to the program, please access our [online application](#). Log into your online application frequently to monitor your progress.

Certificate in Gender, Sexuality, and Women's Studies

In addition, the University Of Pittsburgh School Of Social Work is one of a few schools to offer doctoral students the option to simultaneously obtain a certificate in Certificate in Gender, Sexuality, and Women's Studies and a PhD in social work.

This certificate is based on a strong interdisciplinary program focusing on new scholarship concerning women and gender. The University of Pittsburgh Gender, Sexuality, and Women's Studies Program provides opportunities for students to explore the historical development, cultural variations, and changing representations of gender and sexuality as they organize identities, interactions, and institutions and intersect in complex ways with sex, race, class, ethnicity, ability, age, religion, and nation.

Program Transfer Credits

Students who have earned doctoral-level credits at the University of Pittsburgh or at another accredited institution within seven years preceding entry to the doctoral program may be eligible for advanced standing. Advanced standing consists of awarding academic credit toward the degree for post-master's work completed when such work is evaluated as entirely comparable. Official transcripts certifying graduate course work completed in a degree-granting graduate program should be submitted at the time of application. The maximum number of credits that can be transferred and accepted for advanced standing is 12.

See Allowable Credits in the General Academic Regulations section of this bulletin for more details on requirements for transfer credits.

Financial Support for Doctoral Students

Doctoral students are supported in years 1 and 2 by research-based graduate student assistantships (GSAs) and in years 3 and 4 by teaching assistantships (TAs). Exceptional students with post-master's teaching experience and who have defended their overviews may apply for our teaching fellowships (TFs). Both GSAs and TA/TFs provide tuition remission and stipends for the fall, spring and summer terms. There is a 20-hour-per-week work requirement for both GSR and TA appointments.

Students receive GSA or TA support for four years as long as they are making satisfactory progress toward their doctoral degrees. If a fifth year is required, it is usually supported by adjunct teaching. Students are also encouraged to apply for pre-doctoral research traineeships and other awards.

In addition to the above, we offer some support for conference travel after the first year.

Doctoral Curriculum Objectives

The program curriculum strongly emphasizes social problem areas, as well as coordinating themes in theory, research methodology, and social policy courses. The overall goal is to integrate the acquisition of basic advanced knowledge, methods of empirical testing, and application to real-world situations. Course materials draw heavily on several priority areas of social work concern, including aging, mental health, income maintenance, child welfare, women's issues, child and family policy, and health services, and social justice. diversity issues.

By the time students have completed the program, they should have acquired the following:

- Knowledge of relevant social science theory
- Advanced skills in research methodology and statistics
- Advanced knowledge of social welfare policy (historical and contemporary) and policy analysis
- Knowledge of relevant fields of practice, theoretical and policy perspectives, and research findings

Exposure to an interdisciplinary frame of reference through mechanisms provided internally by the doctoral program and externally through access to other disciplines and professions in the wider University

Although entering students are not required to have completed course work or other experience relevant to computer literacy, possessing basic computer skills will be an asset to students beginning the program.

Doctoral

Social Work, PhD

PhD Degree Requirements

The PhD program requires 10 core courses, one policy elective, plus a minimum of five electives, which may be 2-, 3- or 4-credit courses. During their first year, all students are required to take the Doctoral Seminar (0 credits). Students will spend two years meeting their course requirements. Full-time status is defined as nine or more credit hours per semester. Fifty (50) credit hours must be completed before students are permitted to take the comprehensive examination.

Doctoral Requirements

During the first two academic years in the program, full-time students are primarily involved in taking the required courses in the four essential areas of study: social welfare, social science theory, research methods, and social policy. Students take courses in the fall and spring terms of their first and second years; summer courses are necessary if a student is enrolled in one of our joint degree programs or desires a nine-credit schedule for the fall and spring terms.

Curriculum

Courses are taken in the fall and spring terms during the student's first and second years; summer courses are needed if a student desires a nine-credit schedule for fall and spring terms and/or is enrolled in one of the joint degree programs (no more than 12 credits are recommended for the student's first semester in the program). Learn more about our curriculum.

Comprehensive Examination

Students take a comprehensive examination after completion of all required and elective courses. The Comprehensive examination is taken in the summer of the second year. For students in the MSW/PhD program, the comprehensive examination is taken in the summer of the 3rd year.

Doctoral Dissertation

The doctoral dissertation involves:

Dissertation Research: begins after passing the comprehensive examination

Defense of a Dissertation Overview: occurs after a committee review of the dissertation overview and includes an introduction to the problem, a literature review, and a detailed methodology (admission to PhD candidacy)

Final Dissertation Defense: occurs at least one year following admission to candidacy

Grades in Course Work

It is required that students will maintain an average grade point average of 3.00 or better in all course work. If a student receives a grade lower than B- in a required course, the course will have to be repeated. Whether the courses are required or elected, more than one grade of C+ or lower will be the basis for a formal Academic Review.

Program Flexibility and Individualization

An individual student's program should reflect the student's developing professional expertise, career goals, and personal interest. This program, therefore, maintains as much flexibility and individualization as possible.

This individualization is built upon the core curriculum through planning for elective course work and enrichment experiences, including teaching and research assistantships. The PhD program provides a set of structured and integrated core courses that can be applied to each students' area of specialization. This core curriculum is supplemented by six elective courses that allow students to obtain more depth in their specialization areas. Faculty advisors work closely with students in planning their course work and progress through the doctoral program.

A minimum of three years of full-time study is required for doctoral program completion. The curriculum is distributed between a nine-course core curriculum and elective courses followed by the comprehensive examination and doctoral dissertation.

Core Doctoral Curriculum

During the first two academic years in the program, students are primarily involved in taking the required courses in the four essential areas of study: social welfare, social science theory, research methods and statistics, and social policy. These core courses are provided by the doctoral program. A brief description of each area of study follows with a listing of credits awarded and terms offered. All 1st year students are required to take the non-credit Doctoral Seminar. More information on each doctoral course is available in the Student Handbook.

Required (Core) Courses

Research Methods (17 total credits)

SWRES 3020 - RESEARCH METHODS 1
SWRES 3029 - INFERNTL STAT SOCL WORKERS
SWRES 3021 - MULTIVARIATE ANALYSIS
SWRES 3022 - RESEARCH METHODS: CAPSTONE SEMINAR 1
SWGEN 3066 - SEMINAR IN SOCIAL WORK EDUCATION
SWRES 3023 - RESEARCH METHODS: CAPSTONE SEMINAR 2
Doctoral Seminar - 0 credits

Theory (6 total credits)

SWGEN 3044 - THEORY 1
SWGEN 3053 - THEORY 2

Policy (6 total credits)

SWWEL 3030 - EVAL OF AMERICAN SOCIAL WELFARE
SWWEL 3037 - SOCIAL POLICY ANALYSIS

Elective Courses (21 credits)

In addition to the above core course requirements, the student selects seven elective courses to pursue more specialized interests. All electives must be at least 2 credit graduate level courses with a credit total = 21 credits. Elective options available in the program, including the Joint Public Health Master's/Social Work PhD option and the graduate certificate in women studies offer particular advantages but tend to restrict the number of electives open to students. Although some doctoral elective courses are offered within Social Work, students are encouraged to take relevant course work in other schools and departments of the University. Many social welfare-related fields are open: sociology, economics, women's studies, political science, law, urban affairs, public health, and others. The student can choose his or her courses from all graduate programs in the University. The students may take no more than two MSW courses for elective credit. All electives must be approved by the student's advisor as contributing to the student's area of specialization.

Interdisciplinary Components of Doctoral Curriculum

In addition to the core doctoral courses, the student has seven elective course selections to pursue more specialized interests. Certain options available in the program, especially the Joint Public Health Master's/Social Work PhD option and the graduate certificate in women's studies, offer particular advantages but tend to restrict the number of electives open to students. Students are encouraged to take graduate-level course work in other schools and departments of the University insofar as this is feasible within their program requirements. Many social welfare-related fields are

open: sociology, economics, women's studies, social psychology, political science, law, urban affairs, public health, and others. The student can choose his or her courses from all graduate programs in the University. The student may take no more than two MSW courses as electives.

Cooperative Degrees Program

<http://www.socialwork.pitt.edu/academics/master-social-work-msw>

In addition to the MSW and PhD degrees, graduate students in the School of Social Work have the opportunity to select from several unique dual degree programs. MSW students can avail themselves of one of the eight joint or cooperative degree programs; two joint degree programs are available to PhD students.

Detailed below are joint degree programs offered by the School of Social Work in tandem with the Graduate School of Public and International Affairs, the School of Public Health, the School of Law, the School of Education, the School of Business, and the Pittsburgh Theological Seminary.

MSW/Master of Public Administration, MSW/Master of Public and International Affairs, and MSW/Master of International Development

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

Graduate School of Public and International Affairs

Complex and emerging issues influence us, our towns, our countries, and our world: Fair housing. Economic and community development. Environmental sustainability. Emergency preparedness. Disaster response. Human rights. International security.

We live in a world both illuminated by great hope and darkened by great conflict. Make a difference and take the lead. Prepare yourself with a comprehensive education from the Graduate School of Public and International Affairs (GSPIA) at the University of Pittsburgh.

Your academic options begin with GSPIA's integrated academic structure of three distinct master's degree programs offering eight different majors. Click on the links below to learn more about GSPIA's academic programs and related learning and research opportunities at GSPIA and the University of Pittsburgh. And-as always-we're ready to answer any questions you may have! Contact the Office of Student Services at 412-648-7640 or by email, gspia@pitt.edu.

The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

MSW/Master of Public Health program

What is the MSW/MPH joint degree program?

The joint degree program is collaboration between the School of Social Work and the School of Public Health, Department of Behavioral and Community Health Sciences. Students graduate with both a Master of Social Work and Master of Public Health degrees and are prepared to pursue a wide range of social work and public health careers to improve the health of a target population and/or community. Students participate in class work, field placements, and leadership seminars to acquire the knowledge and skills to address health problems.

White Paper Stemming from the National Public Health Social Work Summit

What principles guide this program?

The program has a strong commitment to social justice, the elimination of health disparities, and a holistic definition of community and population health, including individuals' physical health conditions and the behavioral and social ecological determinants of health. Moreover, both social work and public health share a commitment to involving consumers/community members in the development of policies and in the planning, delivery and evaluation of health promotion interventions, health behavior change, and health education.

What are the advantages of the program?

Students develop knowledge, values and skills for *both* professional social work practice and (e.g. direct practice or community organization/social administration) and community public health practice (e.g. primary, secondary, and tertiary prevention).

Advising and mentoring focuses on supporting students to achieve their professional goals (e.g., selection of field placements, papers written as part of course-work, leadership training activities, focus of final thesis/essay in the MPH program).

Students increase their career marketability as a result of being able to work from a cross disciplinary perspective. Students have gone on to jobs, for example, in various social service organizations, health departments, other government agencies, academic institutions, think tanks, and the Centers for Disease Control and Prevention.

What competencies will individuals gain as a result of the program?

Application of theoretical principles to primary, secondary, and tertiary health interventions targeting the promotion of health behavior change, enhancement of the environment, and the elimination of risk factors in neighborhoods and communities that contribute to disease and poor health status outcomes

Application of principles of community-based participatory research and practice to community health assessment

Application of quantitative and qualitative skills to program planning and evaluation research

Processes involved in community health planning, program implementation, and program evaluation

Written communication to inform the public, policymakers, and other key-stakeholders

Develop skills in micro practice with individuals, families, and groups or macro practice

What are the requirements of the program?

Typically a three-year curriculum plan for Direct Practice or COSA (2.5 years for advanced standing students)

MSW/ MPH DP Course Requirements

MSW/MPH COSA Course Requirements

33 Social Work credits (plus 18 field placement credits) **NOTE: Beginning 2019-20 academic year, the required BCHS 2525 Applied Research Methods course(3crs.) fulfills the SWRES 2021 Foundation of Social Work Research course (3crs.) In addition,**

MSW/MPH students who are pursuing the IHC certification are not permitted to take SWBEH 2066HB as a second-level HBSE course. The content of SWBEH 2066HB significantly overlaps with the course content of BCHS2520. Students are required to choose another second-level HBSE course.

36 Public Health credits

Some highlights of the program are:

18 field placement credits representing two separate field placement experiences, foundation and concentration, coordinated by the School of Social Work, Office of Field Education.

Several certification programs are offered at each School

Public Health final essay or thesis

Note: Students register for two years (two fall and spring semesters) through the School of Social Work and one year (one fall and spring semester) through the School of Public Health. You are eligible for funding through the School of Social Work for a maximum of 2 years (these are the two years you register through that school). You must be registered for **at least 9 credits** in the School of Social Work during the two years you register in that school to be eligible for funding from the School of Social Work. **You must have both school advisors approve your course schedule each term. Your advisor in the School of Social Work will lift your "hold" to register each term.**

What types of careers do graduates of the MSW/MPH joint degree program engage in?

Patient Services Managers

Research Scientist

Policy Advocates

Program Directors

Communication Directors

Adjunct and Part-time faculty in MSW and BSW degree programs

Bridging the gap between the public's health and social work practice

Program Planners

Application Process

Students must apply separately to the School of Social Work and the School of Public Health's Office of Admissions (GSPH). The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application, and to apply to the Master's Degree of Public Health in Behavioral and Community Health Sciences, School of Public Health (SPH) use online application.

MSW/Juris Doctorate

The School of Social Work (SSW) and the School of Law offer a cooperative educational program through which students may earn both the Master of Social Work (MSW), the primary professional degree in social work, and the Juris Doctor (JD) degree, the first professional degree in law. The MSW-JD program will enable students with interests in a wide range of areas where law and social work converge - such as child welfare, aging, health, mental health, juvenile and criminal justice, family issues, and housing - to engage in a highly integrative educational experience that will include academic courses, field placements, and research opportunities at the intersection of both professions. The joint degree program allows one to earn both degrees in four years rather than five.

Increasingly, social work professionals and attorneys are working together to promote the well-being of their clients. These areas of convergence exist in practice with individuals, families, and groups as well as with communities and organizations. The intersection of legal and social work concerns is also evident at the policy level, and research from both professional disciplines has been used to inform these activities. It is not uncommon for practitioners from both fields to work in concert to draft, implement, and/or advocate for legislation at the local, state, and federal levels.

The MSW-JD program is one among several programs that the Schools of Social Work and Law have jointly established throughout their long and rich history of collaboration.

Neither degree may be granted prior to fulfillment of all requirements for the joint degree program.

Master of Social Work/Master of Business Administration

The MBA/Master of Social Work joint degree program is designed to provide students with a unique combination of social work knowledge and skills, with exceptional strength in management decision-making and leadership. The degree is offered jointly through the University of Pittsburgh School of Social Work and the Joseph M. Katz Graduate School of Business.

Faced with an increasingly competitive market, nonprofit organizations are beginning to emulate management methods and paradigms being practiced by for-profit companies, such as financial operations, human resource and data management, market and economic analysis, and evidence-based strategic planning. As philanthropic organizations become more concerned about their accountability and utility of financial supports provided to various human service organizations, they are beginning to evaluate nonprofits beyond program outcomes or average cost per client to more advanced assessments, such as cost-efficiency and effectiveness and cost-benefit ratio. Unfortunately, such analytic methodologies are rarely offered to social work students by the traditional social work curriculum.

Initially, the proposed MSW/MBA dual-degree program will be open to the SSW's Community Organization and Social Action (COSA) students. Upon successful execution of this initiative, the school plans to open the program to all MSW full-time students (COSA and Direct Practice students).

Students who want to earn a dual-degree must gain acceptance into both graduate degree programs by applying separately to each school. The joint-degree program applicants will also be required to submit their Graduate Management Admission Test (GMAT) or Graduate Records Exam (GRE) examination scores to both schools. Specific questions may be addressed to:

Daniel Rosen

MSW/MBA Joint Degree Admissions Criteria

A. SSW Requirement

1. A Baccalaureate degree that must be completed prior to the program start date. Applications must include transcripts of coursework completed at the time of submission of the application. Admission will be contingent upon submission of an official, final transcript of the completed Bachelors program before the start of the MSW program.

- a) Undergraduate students with social work and human service backgrounds are preferred.
- b) In general, we would expect an undergraduate GPA of 3.0 or better for admission.
- c) International students must submit originals or certified copies of transcripts/mark sheets and degree/diploma certificate in the original language plus a certified English translation (if the original is not in English).
- d) Paid work experience is preferred but not required.

2. GMAT/GRE scores are not required for regular MSW students applicants but for the joint degree applicants in MSW and MBA must have their official Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) score reports forwarded directly to the University of Pittsburgh, Katz Graduate School of Business (KGSB), by the admission deadline.

3. Applicants will submit a 3-5 page double spaced typed personal statement describing their post-graduate career goals, skills in which they excel, and key accomplishments.

4. Applicants will submit three recommendations from persons who have known the applicant in academic or professional capacities. At least one from a faculty member is preferred. (Recommendations from friends and family will not be accepted.)

5. Applicants will submit their current resume.

6. English Proficiency Exams (for international applicants who are citizens of countries where the official language is not English)-- the Test of English as a Foreign Language (TOEFL) with minimum acceptable score: Internet-based test: 100; paper-based test: 600.

7. Non-refundable application fee is \$40.

8. Prospective candidates, domestic or international, may be interviewed before admission, in person or by telephone.

9. Submission of online MSW application form by the admissions deadline date of **May 31**.

B. Katz GSB Requirement

1. A Baccalaureate degree that must be completed prior to the program start date. Applications must include transcripts of coursework completed at the time of submission of the application. Admission will be contingent upon submission of an official, final transcript of the completed Bachelors program before the start of the MBA program.

- a) Undergraduate students with strong analytical backgrounds are preferred.
- b) In general, we would expect an undergraduate GPA of 3.0 or better for admission.
- c) International students must submit originals or certified copies of transcripts/mark sheets and degree/diploma certificate in the original language plus a certified English translation (if the original is not in English).
- d) Work experience is not necessary, though highly desirable.

2. GMAT/GRE scores: Applicants must have their official Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) score reports forwarded directly to the University of Pittsburgh, Katz Graduate School of Business, by the admission deadline. In general, we would expect a GMAT score of 600 or higher for admission. (Corresponding GRE scores will be equivalent to these levels, after conversion.)
3. Applicants will submit a 250 word essay describing their post-graduate career goals, skills in which they excel, and key accomplishments.
4. Applicants will submit two recommendations from persons who have known the applicant in academic or professional capacities. At least one from a faculty member is preferred. (Recommendations from friends and family will not be accepted.)
5. Applicants will submit their current resume.
6. English Proficiency Exams (for international applicants who are citizens of countries where the official language is not English): Either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing Systems (IELTS) is required.
 - a) TOEFL Minimum acceptable score: Internet-based test: 100; paper-based test: 600.
 - b) IELTS Minimum acceptable score: 7.0
7. \$50 non-refundable application fee.
8. Prospective candidates, domestic or international, may be interviewed before admission, in person or by Skype.

Learning outcome goals

The MSW/MBA dual-degree program is designed to provide students with a unique combination of social work knowledge and skills, with exceptional strength in management decision-making and leadership. In addition to the MSW learning outcomes that are already in place, supplementary MSW/MBA objectives include:

- Proficiency in the management functions of accounting, finance, computer information systems, marketing, operations management, organizational behavior, human resource management, and social enterprise.
- Special emphasis on development of skills and abilities to lead strategically and to position an organization effectively for continued growth and development in both for-profit and nonprofit sectors.
- Knowledge and understanding of complex organizations, their development and transformation, administrative principles, the decision-making process, and competence in managerial functions.
- To provide applied learning experiences, the required field practicum will include professional supervision through appropriate concentration settings that will focus on community and human service organization management.

Program requirements

A graduate-level course grade of B or higher must be maintained throughout the joint-degree program.

The MBA program requires 51 credits for the part-time or one-year program, of which at least 34 credits must be from KGSB courses, while the balance maximum of 17 credits may be from other graduate programs.

The following MBA "core" courses (total of 22.5 credits) are required:

- a. BACC 2401 Financial Accounting (3 credits)
- b. BECN 2401 Economic Analysis for Managerial Decisions (3 credits)
- c. BQOM 2401 Statistical Analysis (3 credits)
- d. BFIN 2409 Financial Management 1 (1.5 credits)
- e. BMKT 2409 Marketing Management (1.5 credits)
- f. BOAH 2409 Organizational Behavior (1.5 credits)
- g. BQOM 2421 Decision Technologies (1.5 credits)
- h. BSPP 2409 Strategic Management (1.5 credits)
- i. BMIS 2409 Information Systems (1.5 credits)
- j. BSEO 2401 Business Ethics & Social Performance (1.5 credits)
- k. BIND 2444 Management Simulation Capstone (3 credits)

4. All MSW/MBA joint degree students will be required to take at least 34.5 credits of KGSB credits, consisting of the above 22.5 credits of core courses plus an additional 12 credits of KGSB electives. Thus, up to 16.5 credits will be accepted from courses successfully completed in the MSW program to achieve the total of 51 credits required for the completion of the Katz MBA degree.

5. All MSW/MBA joint degree students will be required to take a course entitled Social Entrepreneurship (1.5 credits) from the KGSB.

6. The following KGSB courses will count as credits towards the MSW degree:

a) BACC-2401 Financial Accounting (3 credits) will qualify as equivalent to SWCOSA-2085 Financial Management (3 credits), and will count as 3 credits for both the MSW and MBA programs,

b) BOAH-2409 Organizational Behavior (1.5 credits) and Strategic Management (1.5 credits) will qualify as equivalent to SWRES Organizational Research, and will count as 3 credits for both the MSW and MBA programs (SA track only),

c) SW General Elective 1-One 3-credit or two 1.5-credit required MBA courses (e.g., BECN-2401 Economic Analysis for Managerial Decisions, 3 credits), which will count as 3 credits for both the MSW and MBA programs, and

d) SW General Elective 2- One 3-credit or two 1.5-credit required MBA courses (e.g., BIND-2444 Competitive Management Simulation, 3 credits), which will count as 3 credits for both the MSW and MBA programs.

Thus, the double-counted credits make it possible for students to earn both degrees without having to take the total sum of credits required for completing the two degree programs separately.

a. It should be noted that a long-standing educational policy of the SSW is that students who, within the past seven academic calendar years, have received a social work degree from a CSWE-accredited undergraduate program are eligible for advanced standing. Those granted advanced standing during the admission process can receive up to 12 academic credits and six field education credits that will count towards completion of the MSW program.

b. Thus, full-time COSA students with advanced standing must earn grand total of 64.5 credits for CO students, and 61.5 credits for SA students (adding all MSW and MBA courses). This means total of 30 social work credits (including total of 12 field credits) to be taken by CO students and 27 credits (including total of 12 field credits) to be taken by SA students. Additionally, they must take minimum of 34.5 credits of MBA courses, which includes 22.5 and 12 credits of required and electives, respectively.

c. Full-time COSA students **without** advanced standing must earn grand total of 85.5 credits for CO students, and 82.5 credits for SA students (adding all MSW and MBA courses). This means total of 51 social work credits to be taken by CO students and 48 credits to be taken by SA students. Additionally, they must take minimum of 34.5 credits of MBA courses, which includes 22.5 and 12 credits of required and electives, respectively.

Master of Social Work with a Secondary Education Teaching Certificate

Overview

The Master of Social Work with a Certificate of Advanced Study in Teaching in Secondary Education (MSW/CAST) combined program is designed to cultivate school-based practitioners that will have a wide range of skills for supporting vulnerable adolescents and families in urban school contexts. The MSW/CAST curriculum design incorporates the person-in-context approach of social work with culturally relevant secondary teaching methods. As such, graduates will be trained to identify, design, and facilitate programmatic responses to the unique needs of children in schools in urban communities, and also to enhance classroom teaching and student learning through their specialized evidence-based expertise.

The program is efficiently designed to be completed in two calendar years (5 semesters), and has two distinct components. First, the teaching certification portion is a two-semester fall-spring full-time program preparing students to be secondary education teachers (grades 7-12) in one of 5 core disciplines: English, Mathematics, Science, Social Studies, or Foreign Language. Then starting in the summer of year two, the 3-semester MSW degree experience prepares students for leadership roles in urban education in high need communities. By combining courses of study in the School of Education and School of Social Work, graduates will:

- 1) Understand the learning environment of students in the urban settings
- 3) Understand schools as organizations in context

- 2) Utilize culturally relevant classroom instruction to promote academic growth of adolescents
- 4) Facilitate intervention programs and student support services that focus on the social and emotional needs of students

Upon successful completion of this combined program graduates will be awarded a Masters Degree in Social Work (MSW) from our direct practice concentration, and certifications in secondary school teacher (grades 7-12) and school social work (pending praxis and licensure exams for relevant certifications).

Admissions and Prerequisites

Candidates for this combined program will need to enter having completed sufficient credits at the baccalaureate or higher level in fields relevant to one of the five secondary teaching disciplines: English, Mathematics, Science, Social Studies or Foreign Language. If a candidate is from a related field and just shy of credits (e.g. political science), they may choose to take relevant courses prior to enrollment. Also, two education courses (6 total credits) are also required as prerequisites and are available the summer before the start of the program (Foundations of Special Education; Teaching English Language Learners). All prerequisites must be met by the start of the first fall semester of year 1.

Interested candidates should apply to the School of Social Work MSW program and the School of Education Instruction 1 program separately, indicating their interest in the MSW/CAST program where asked in the respective application materials. Applicant qualifications for each school will be reflective of the general standards of each individual program. Candidates who are accepted to both programs will be accepted to the combined program, and will be notified and welcomed to the upcoming cohort.

Program Requirements

Coursework. In this uniquely rigorous and efficient program, students will meet an adapted set of the core requirements of both schools, whereby a number of pre-approved courses electives in one program count dually toward course requirements in the other. The total number of credits taken will be 51-54 in Social Work and 22-25 in Education. These credits include required field experiences for both programs.

Fieldwork. The Professional Year (year 1) School of Education field experiences will consist first of ten hours a week during the fall semester observing and teaching in a grade 7-12 classroom alongside an experienced mentor teacher. In the spring semester, the students will complete a full-time student teaching experience in the same classroom. Then in the summer semester following year 1, students will complete their foundation field placement for the School of Social Work. Finally, the concentration field practicum for social work will occur in the fall and spring semesters of year two. This field practicum will be in a primary social work role within a school setting.

Tuition

Students will pay the tuition of whichever school they are enrolled in for the majority of their credits that term. Specifically, fall and spring Year 1 students will pay School of Education tuition, and the remainder of the program will be paid to the School of Social Work. Significant scholarship support is available to students in the program.

Employment

The secondary education focus, along with the 2 calendar year quickened pace, makes MSW/CAST program one-of-a-kind nationally. Upon graduation, students will be prepared to serve as either a School Social Worker or a Classroom Teacher. To the teaching profession, graduates bring therapeutic, person-in-context, and family-relations perspectives that will uniquely equip them to build positive relations and supports for students in particularly challenging contexts. Conversely, a school social worker with teacher training will have enhanced skills to support teachers in identifying effective interventions to address psychosocial issues in the classroom. More broadly, a social work with teacher training will be able to construct and deliver instruction more effectively to impact change and understanding amongst his/her clients, colleagues, and staff.

In sum, graduates of this program are uniquely qualified for, although not limited to, work in high need urban educational environments. Ultimately, this degree is a rare and powerful distinction for individuals looking for enhance their preparation and employability in secondary schools.

PhD Joint Degree Programs

The School of Social Work offers two joint degree programs to PhD students: one leading to the MSW and the PhD and another with the School of Public Health. (Separate applications are required for either MSW or MPH admission.)

Joint Degree

Social Work, JD/MSW

Master of Social Work/Juris Doctorate

The School of Social Work (SSW) and the School of Law offer a cooperative educational program through which students may earn both the Master of Social Work (MSW), the primary professional degree in social work, and the Juris Doctor (JD) degree, the first professional degree in law. The MSW-JD program will enable students with interests in a wide range of areas where law and social work converge - such as child welfare, aging, health, mental health, juvenile and criminal justice, family issues, and housing - to engage in a highly integrative educational experience that will include academic courses, field placements, and research opportunities at the intersection of both professions. The joint degree program allows one to earn both degrees in four years rather than five.

Increasingly, social work professionals and attorneys are working together to promote the well-being of their clients. These areas of convergence exist in practice with individuals, families, and groups as well as with communities and organizations. The intersection of legal and social work concerns is also evident at the policy level, and research from both professional disciplines has been used to inform these activities. It is not uncommon for practitioners from both fields to work in concert to draft, implement, and/or advocate for legislation at the local, state, and federal levels.

The MSW-JD program is one among several programs that the Schools of Social Work and Law have jointly established throughout their long and rich history of collaboration.

Neither degree may be granted prior to fulfillment of all requirements for the joint degree program.

Social Work, MID/MSW

Joint Degree Programs with the Graduate School of Public and International Affairs

Master of Social Work/Master of Public Administration

Master of Social Work/Master of Public and International Affairs

MSW/Master of International Development

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

Graduate School of Public and International Affairs

Complex and emerging issues influence us, our towns, our countries, and our world: Fair housing. Economic and community development. Environmental sustainability. Emergency preparedness. Disaster response. Human rights. International security.

We live in a world both illuminated by great hope and darkened by great conflict. Make a difference and take the lead. Prepare yourself with a comprehensive education from the Graduate School of Public and International Affairs (GSPIA) at the University of Pittsburgh.

Your academic options begin with GSPIA's integrated academic structure of three distinct master's degree programs offering eight different majors. Click on the links below to learn more about GSPIA's academic programs and related learning and research opportunities at GSPIA and the University of Pittsburgh. Social Work, MPH/MSW

MSW/MPH

MSW/Master of Public Health Program

What is the MSW/MPH joint degree program?

The joint degree program is collaboration between the School of Social Work and the School of Public Health, Department of Behavioral and Community Health Sciences. Students graduate with both a Master of Social Work and Master of Public Health degrees and are prepared to pursue a wide range of social work and public health careers to improve the health of a target population and/or community. Students participate in class work, field placements, and leadership seminars to acquire the knowledge and skills to address health problems.

White Paper Stemming from the National Public Health Social Work Summit

What principles guide this program?

The program has a strong commitment to social justice, the elimination of health disparities, and a holistic definition of community and population health, including individuals' physical health conditions and the behavioral and social ecological determinants of health. Moreover, both social work and public health share a commitment to involving consumers/community members in the development of policies and in the planning, delivery and evaluation of health promotion interventions, health behavior change, and health education.

What are the advantages of the program?

Students develop knowledge, values and skills for *both* professional social work practice and (e.g. direct practice or community organization/social administration) and community public health practice (e.g. primary, secondary, and tertiary prevention).

Advising and mentoring focuses on supporting students to achieve their professional goals (e.g., selection of field placements, papers written as part of course-work, leadership training activities, focus of final thesis/essay in the MPH program).

Students increase their career marketability as a result of being able to work from a cross disciplinary perspective. Students have gone on to jobs, for example, in various social service organizations, health departments, other government agencies, academic institutions, think tanks, and the Centers for Disease Control and Prevention.

What competencies will individuals gain as a result of the program?

Application of theoretical principles to primary, secondary, and tertiary health interventions targeting the promotion of health behavior change, enhancement of the environment, and the elimination of risk factors in neighborhoods and communities that contribute to disease and poor health status outcomes

Application of principles of community-based participatory research and practice to community health assessment

Application of quantitative and qualitative skills to program planning and evaluation research

Processes involved in community health planning, program implementation, and program evaluation

Written communication to inform the public, policymakers, and other key-stakeholders

Develop skills in micro practice with individuals, families, and groups or macro practice

What are the requirements of the program?

Typically a three-year curriculum plan for Direct Practice or COSA (2.5 years for advanced standing students)

MSW/ MPH DP Course Requirements

MSW/MPH COSA Course Requirements

33 Social Work credits (plus 18 field placement credits) **NOTE: Beginning 2019-20 academic year, the required BCHS 2525 Applied Research Methods course(3crs.) fulfills the SWRES 2021 Foundation of Social Work Research course (3crs.) In addition,**

MSW/MPH students who are pursuing the IHC certification are not permitted to take SWBEH 2066HB as a second-level HBSE course. The content of SWBEH 2066HB significantly overlaps with the course content of BCHS2520. Students are required to choose another second-level HBSE course.

36 Public Health credits

Some highlights of the program are:

18 field placement credits representing two separate field placement experiences, foundation and concentration, coordinated by the School of Social Work, Office of Field Education.

Several certification programs are offered at each School

Public Health final essay or thesis

Note: Students register for two years (two fall and spring semesters) through the School of Social Work and one year (one fall and spring semester) through the School of Public Health. You are eligible for funding through the School of Social Work for a maximum of 2 years (these are the two years you register through that school). You must be registered for **at least 9 credits** in the School of Social Work during the two years you register in that school to be eligible for funding from the School of Social Work. **You must have both school advisors approve your course schedule each term. Your advisor in the School of Social Work will lift your "hold" to register each term.**

What types of careers do graduates of the MSW/MPH joint degree program engage in?

Patient Services Managers

Research Scientist

Policy Advocates

Program Directors

Communication Directors

Adjunct and Part-time faculty in MSW and BSW degree programs

Bridging the gap between the public's health and social work practice

Program Planners

Application Process

Students must apply separately to the School of Social Work and the School of Public Health's Office of Admissions (GSPH). The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application, and to apply to the Master's Degree of Public Health in Behavioral and Community Health Sciences, School of Public Health (GSPH) use online application.

Social Work, MPH/PhD

The joint MPH/PhD program, is designed for social workers seeking administrative, policy, and/or academic positions.

Objectives

The program's overall educational objective is to train social workers for leadership positions in public health systems and prepare them for research and teaching posts.

This involves:

a primary focus on populations at risk rather than individuals

use of an interdisciplinary approach

a focus on primary prevention of social and health problems

reliance on systematic data collection and analysis for administrative decision making

The learning objectives include:

Understanding incidence, prevalence, prevention, treatment, and epidemiological trends of the health and social needs of vulnerable populations

Becoming aware of the health and social work systems available for prevention, treatment, and rehabilitation
Understanding the interrelationship of the identified population-at-risk with other populations
Understanding the impact of socioeconomic, racial, cultural, geographical, and financial factors on health service delivery and use
Understanding the technical and legal issues related to service delivery to the population-at-risk
Understanding the implications of legislation and policy on program funding, planning and development, and patterns of service delivery

It is expected that graduates also will be prepared through the educational experience to:

Coordinate population specific health services within primary, secondary, and tertiary sites
Develop social work consultation and training skills and apply them to interdisciplinary settings
Use epidemiological data and statistics, and conduct community needs assessments to support program and policy development
Prepare technical reports, proposals, and publications

Academic Curriculum

The MPH/PhD curriculum comprises core courses in public health and social work, with a heavy emphasis on research methods and statistics. The following list of courses is provided as an example, as the exact course requirements may vary by student.

GSPH Core & BCHS Core Courses (minimum 33 credits):

BIOST 2011 Principles of Statistical Reasoning (3 credits)
EOH 2013 Environmental & Occupational Health (2 credits)
EPID 2110 Principles of Epidemiology (3 credits)
HPM 2001 Health Policy & Management in Public Health (3 credits)
PUBHLT 2033 Foundations in Public Health (1 credit)
PUBHLT 2015 Public Health Biology (2 credits)

PUBHLT 2034 Public Health Communications (2 credits)

PUBHLT 2035 Applications in Public Health (2 credits)
BCHS 2520 Theories of Health Behavior and Health Education (1 credit)

BCHS 2992 Systems Theories and Approaches (1 credit)

BCHS 2990 Social Dynamics (1 credit)
BCHS 2525 Applied Research Methods (3 credits)

BCHS 2554 Intro to Community Health (3 credits)
BCHS 2521 Master's Essay/Thesis (1-3 credits)
BCHS 2503 Practicum (3 credits)

SSW Courses (50 credits):

SWRES 3029 Inferential Statistics (3 credits)
SWRES 3021 Multivariate Methods (4 credits)
SWRES 3020 Research Methods I (3 credits)
SWRES 3022 Capstone I (1 credit)
SWRES 3023 Capstone II (3 credits)
SWGGEN 3053 Social Science Theory I (3 credits)
SWGGEN 3044 Social Science Theory II (3 credits)
SWWEL 3030 Evaluation of American Social Welfare History and Policy (3 credits)
SWWEL 3037 Social Policy Analysis (3 credits)
SWGGEN Seminar in Social Work Education (3 credits)
One additional policy course (2-3 credits)

One additional statistics course

One additional methods course

General electives (12 credits)

Frequently Asked Questions

How long does it take to complete the program?

It takes two to three years for the PhD/MPH course work, and approximately two additional years to complete doctoral research.

What are the research areas of the faculty?

Read about the School of Social Work faculty or visit the School of Public Health web site for information about faculty research interests.

Tuition and fees

Read about the School of Social Work PhD funding or **Financial Aid**. Visit the School of Public Health Web site for information about their **tuition and fees**.

Admissions

Those students seeking the MPH/PhD are admitted to both the School of Public Health **and** the School of Social Work as joint students. Therefore, applicants must also meet the admission requirements of the doctoral program of the School of Social Work, and formal applications must be submitted to **both** programs.

Those seeking further information regarding the requirements and processes for this joint degree program are encouraged to contact:

Valire Carr Copeland
Professor
School of Social Work
University of Pittsburgh
2117 Cathedral of Learning
Pittsburgh, PA 15260
Email address: sswvcc@pitt.edu

or

Steven M. Albert
Professor and Chair
Behavioral and Community Health Sciences
6126 Public Health
Pittsburgh, PA 15261
412-383-8693
smalbert@pitt.edu

Requirements:

This joint degree requires the completion of a minimum of 81 credits, a comprehensive examination and successful defense of a dissertation. Graduate Students in the joint MPH/PhD program generally apply 12 credits from the MPH curriculum toward their elective course work for the PhD.

Social Work, MPIA/MSW

Joint Degree Programs with the Graduate School of Public and International Affairs

Master of Social Work/Master of Public Administration

Master of Social Work/Master of Public and International Affairs

MSW/Master of International Development

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills

than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

Graduate School of Public and International Affairs

Complex and emerging issues influence us, our towns, our countries, and our world: Fair housing. Economic and community development. Environmental sustainability. Emergency preparedness. Disaster response. Human rights. International security.

We live in a world both illuminated by great hope and darkened by great conflict. Make a difference and take the lead. Prepare yourself with a comprehensive education from the Graduate School of Public and International Affairs (GSPIA) at the University of Pittsburgh.

Your academic options begin with GSPIA's integrated academic structure of three distinct master's degree programs offering eight different majors. Click on the links below to learn more about GSPIA's academic programs and related learning and research opportunities at GSPIA and the University of Pittsburgh. And-as always-we're ready to answer any questions you may have! Contact the Office of Student Services at 412-648-7640 or by email, gspia@pitt.edu.

The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

Social Work, MSW/MDiv

Pittsburgh Theological Seminary and the Graduate School of Social Work at the University of Pittsburgh present the unique opportunity to receive a joint degree in Master of Divinity (M.Div.) and Master of Social Work (M.S.W.) for those students passionate about pursuing their call to social work both inside and outside of a church setting.

What Makes Us Special?

As the oldest continuous joint degree program in the country, established in 1967, the MDiv/ MSW joint Masters degree program allows students to complete their coursework and graduate in four years of post-baccalaureate study instead of the usual five. Within the joint program students will still be provided a full course of study in both theology and social work, along with the academic support and one-on-one attention given by our excellent

faculty. In order not to skip any required courses and still graduate in the four years, the MDiv/MSW program counts certain courses taught in one school as electives in the other and vice-versa, along with developing specialized field placements.

Who Is This Program For?

This joint masters program is built for those seeking to integrate their love of theology with their heart for social work and to make a change, along with those interested in pursuing a career in pastoral counseling or other forms of counseling. Positions that have been held by MDiv/MSW graduates in the past include: chaplain/clinical pastoral education supervisor for a health care facility, associate director of campus ministry, chaplain/chair committee holder at a nursing home, executive director of a pastoral institute, Christian counseling, various work with nonprofits, and so many more.

With the Seminary's campus located in the East Liberty / Highland Park neighborhood of Pittsburgh, PTS is within driving distance of other cities in Pennsylvania like Johnstown, Harrisburg, Philadelphia, State College, Allentown, Scranton, and other rural regions as well. Pitt classes meet at the University of Pittsburgh in Oakland.

How the MDiv/MSW Degree Works

Candidates for the joint degree who enter the program through the Seminary will concentrate on theological studies during the first two years. Application should be made to the University of Pittsburgh Graduate School of Social Work during the first term of the second year at the Seminary. The third and fourth years will be spent predominantly at the School of Social Work. Being that degrees in the joint program will be awarded concurrently, it is important to note that a student who resigns from one program will be subject to all requirements for graduation from the remaining degree program.

The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

After earning her joint Master of Divinity/Master of Social Work degrees in 2005 from Pittsburgh Theological Seminary and the University of Pittsburgh, alumna Elizabeth Trexler went on to be a missionary in Southeast Asia and then served as associate director of Catholic campus ministry at Bloomsburg University. She says, "The joint degree program with masters in social work and masters in divinity is something that you can't put a price on. It just works so well together."

MDiv Program Curriculum Sequence

Courses are generally three credit hours. When followed on a full-time basis (12-13 credits), the program is completed in three academic years. Student pastors are encouraged to spread their degree work over four academic years.

Social Work, MSW/PhD

An MSW degree from an accredited school of social work is required to be considered for admission to the PhD program. Applicants without an MSW degree who wish to pursue a social work academic career may apply to the joint MSW/PhD program. Such applicants typically are interested in grounding themselves in the practice base of the social work profession, while also seeking to develop their advanced research and teaching skills. Preference is given to MSW/PhD applicants who have prior social work-related professional experience.

Separate applications are required for admission to each program. Those seeking further information regarding this dual degree program are encouraged to contact Dr. Catherine Greeno, Associate Professor and Doctoral Program Director, at kgreeno@pitt.edu or 412-624-5292.

University Center for International Studies

The University Center for International Studies (UCIS) is the primary resource for initiating and managing international programs, studies and support services while promoting the University's reputation as a leader in global education. A key goal of UCIS is to cultivate globally capable and engaged students toward lives of impact in their community and beyond. In short, to prepare graduate students who are global ready. This is achieved by certificate programs, study abroad, curriculum development, and seminars. UCIS offers 7 graduate certificates, which are academic credentials that attest to acquisition of international knowledge about a particular world region or global issue, cross-cultural understanding, and language proficiency relevant for international careers or for advanced degrees. Certificates are available in:

- African Studies
- Asian Studies
- European Union Studies
- Global Studies
- Latin American Studies
- Mediterranean Studies
- Russian, East European and Eurasian Studies
- Transatlantic
- Transnational Asia Studies
- West European Studies

The certificates are administered through the African Studies Program, Asian Studies Center, European Studies Center, Global Studies Center, Center for Latin American Studies, and the Center for Russian, East European and Eurasian Studies. Four centers--European Studies Center, Global Studies, Latin American Studies, and Russian, East European and Eurasian Studies--are designated by the federal government as National Resource Centers.

UCIS certificates evidence language proficiency, regional knowledge and cultural competency that students find useful for international careers.

Admission to Certificate Programs

For admission, graduate students must first apply to the relevant professional school or academic department within the Dietrich School of Arts and Sciences. Applicants are encouraged to contact a UCIS international advisor as early as possible with questions about their interest in a world region or global issue. Formal admission to the UCIS certificate programs is accomplished by completing a simple application form. Generally, no additional tuition is charged for enrollment as a certificate student. Students holding a master's degree from an accredited institution may obtain any of the UCIS graduate certificates without enrolling in a graduate degree program at the University of Pittsburgh. They may apply directly to the UCIS center or program if they wish to enroll only in the certificate program.

Certificate Requirements

UCIS Graduate certificates are awarded after completion of all certificate requirements *as well as* completion of all requirements for the master's degree, or *after* the student has passed the comprehensive examinations for the doctorate. Upon graduation, both the academic degree and the certificate are posted on the student's transcript. Specific certificate requirements for each international studies certificate are listed under the program offerings below.

Advising

All UCIS certificate programs provide personalized advising services to students interested or registered in its programs in addition to those routinely offered by the students' major advisors. Center advisors assist in selecting courses, language training, and arranging internships or study abroad to fit the students' academic and personal interests. See the program offerings below for contact information.

The Graduate Certificate

The African Studies Program offers the graduate certificate in African Studies designed to provide students the opportunity for the interdisciplinary study of Africa. Students seeking a graduate degree at any school within the University may pursue a graduate certificate in African Studies by enrolling in the program and meeting the stipulated requirements. The Graduate Certificate program is specifically designed for graduate students who desire an opportunity to intensify their study of Africa and develop real insights into issues of critical importance in their fields of research and career interests as relates to Africa. The program provides students with fundamental grounding in African Studies through exposure to the major areas of research and knowledge on Africa in their respective disciplines. In addition, students are provided with opportunities to participate in research projects, symposia, lectures, conferences, and workshops on Africa. They are also encouraged to participate in internship opportunities with a specific focus on Africa.

Admission to the Certificate Program

Although formal admission to the program is allowed at any point in the student's academic career, students are encouraged to apply for admission early enough to allow them ample time to complete all the requirements in a timely manner. Application information can be obtained from the African Studies Web site or students can apply for admission to the program at our office.

The Graduate Certificate

The African Studies Program offers the graduate certificate in African Studies designed for students who wish to intensify their study of Africa as a world region. Students seeking a graduate degree at any school or department within the University may pursue a graduate certificate in African Studies by enrolling in the program and meeting the stipulated requirements. This certificate is specifically designed for graduate students who desire to develop real insights into issues of critical importance in their fields of research and career interests as relates to Africa. The program provides students with fundamental grounding in African Studies through exposure to the major areas of research and knowledge on Africa in their respective disciplines and professions. In addition, students are provided with opportunities to participate in research projects, symposia, lectures, conferences, fellowships, internships and workshops on Africa. Successful completion of a certificate in African Studies can provide an important building block for careers in international development, foreign service, government, business, law, academia and public service.

Certificate Requirements

To receive the Graduate Certificate in African Studies, students must complete the following requirements:

African Studies Courses: Students will complete six courses (18 credits) with at least 25% or more Africa related content. One of these courses must be taken from outside the student's department or professional school. Any Graduate Class can count towards the Certificate if there is at least 25% African content and individual students may focus on an issue or country in Africa while doing their project and or research paper for the class. In special instances, with the consent of the academic advisor, approved upper-level undergraduate courses may be accepted. For a full list of approved undergraduate courses, [click here](#).

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS must be in addition to the credits used to complete the student's

primary degree program. In consultation with the academic advisor, students may fulfill these standards through one of the following options, [click here](#)

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program*. At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits*

Language Proficiency: Students will complete two years (4 semesters) of college level study of an African language or equivalent Proficiency of a European language other than English relevant to African Studies as a consequence of Africa's historical experience—a student with two years or more of French, Portuguese, German or Spanish meets the language proficiency requirement.

Capstone Research Paper: Each student will complete a **capstone paper, which** will be the culmination of his or her learning experience in the African Studies program. Each student will select a topic focused on his or her area of concentration and work on this project under the supervision of an African Studies affiliated faculty.

GPA in African Studies Courses should be 2.5 or higher.

Academic Opportunities

Internships: There are several internship opportunities locally and in Africa for student internships. Meet with the academic advisors to learn about these opportunities and sources of funding.

Professional Development: The African Studies Program offers graduate fellowships every semester where a student is given full exposure to the field of African Studies while they also develop their professional skills such as networking, public speaking, communications, media relations, critical thinking, and knowledge of Africa through the various assignments. Graduate students will especially build their outreach, networking and organizational skills through coordinating and hosting community engagement programming.

UCIS International Career Toolkit Series: The Toolkit Series introduces students to the multitude of careers available by meeting and interacting with professionals in a variety of fields. Many of the guests are Pitt alumni and those that graduated with an International Studies Certificate. By attending one of these panels students will gain insight on career choices, what specific careers entail, how to articulate and prepare for short and long term career goals, and utilize resources at Pitt to make their goals a reality. Each year, students enrolled in the certificate program will have the opportunity to visit Washington, DC to interact with professionals and learn about a variety of opportunities for employment possibilities.

African Studies Certificate

The African Studies Program offers the Graduate Certificate in African Studies and the Advanced Certificate in African Studies designed for students who wish to intensify their study of Africa as a world region. Students seeking a graduate degree at any school or department within the University may pursue a graduate certificate in African Studies by enrolling in the program and meeting the stipulated requirements. These certificates are specifically designed for graduate students who desire to develop real insights into issues of critical importance in their fields of research and career interests as relates to Africa. The program provides students with fundamental grounding in African Studies through exposure to the major areas of research and knowledge on Africa in their respective disciplines and professions. In addition, students are provided with opportunities to participate in research projects, symposia, lectures, conferences, fellowships, internships, and workshops on Africa. Successful completion of a certificate in African Studies can provide an important building block for careers in international development, foreign service, government, business, law, academia, and public service.

Language Proficiency

Students must complete one year of the study of either an indigenous African language or a European language that is relevant to African studies. Native speakers of an African language, or relevant European language, can have the language requirement waived.

Content Courses

12 credits of content coursework are required. 9 credits can overlap with the major. 3 credits must be outside the student's major and in addition to the required credits in the major.

Students may contextualize non-credit-bearing internships that are required in various graduate degree programs as credit-bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Research Paper

This research paper/project is the culmination of the student's learning experience and clearly demonstrates in-depth knowledge of African studies issues in at least one academic discipline. The capstone must be an assignment submitted as part of coursework, such as a final term paper and must have received a B or above grade. The paper must be at least 7 to 10 pages long and contain a minimum of 10 references.

Graduation Presentation

The graduation presentation is an opportunity for students to reflect on the African Studies Certificate and how their years of study have culminated into enhancing their knowledge and understanding of Africa. The presentation contains 4 slides, where students are asked to reflect on their research paper, experiential learning, and growth in African Studies. They are asked to submit a 1-page reflection on their presentation. The ASP uses the presentation to evaluate the certificate program to examine if the students have enhanced their knowledge and understanding of Africa. Students can choose to do an online portfolio instead of the presentation and paper if they so wish.

The Asian Studies Center at the University of Pittsburgh is widely recognized as being among the best and most comprehensive in the country in research, public service, and teaching about East Asia. The center's mandate is to promote an enhanced understanding of East Asia, South Asia, Southeast Asia, and the Pacific Islands through exceptional undergraduate and graduate academic programs, strong interdisciplinary faculty development, and energetic community outreach. ASC has nationally recognized programs in Chinese and Japanese language and culture studies, with growing strengths in Indian and Korean studies. Its affiliated faculty spans the disciplines. Typically more than 3,500 graduate and undergraduate students enroll each year in Asia-related courses. Undergraduate students from any field or school interested in Asia can supplement and strengthen their major field of study by enrolling in the Asian Studies certificate program.

The East Asian Library (EAL)

<http://www.library.pitt.edu/east-asian-library>

Located in Hillman Library, the EAL contains significant collections of books and periodicals in both the Chinese and Japanese languages, in addition to materials in English and other Western languages housed in the general collections. Those pursuing research on current topics concerned with Japan can make use of the Japan Information Center (JIC), which gives users direct access to a wide array of government documents, economic reports, and a wide range of data related to social and economic issues.

Financial Assistance

Advanced Certificate Requirements

The Advanced Certificate in Asian Studies may be earned by U.S. and international students from any department or school at the University. The certificate combines the language training and multidisciplinary area studies necessary for both communicative and cultural competence. The certificate is designed for students who wish to intensify their study of Asia, either because they would like to be able to use their knowledge of that critical part of the world in their careers after graduation, or because they recognize the importance of an understanding of Asian history, language, and culture for all well-informed people.

A minimum of five upper-level courses or graduate seminars dealing with Asia, in at least two departments. The five courses must include one seminar outside the student's major department.

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program.* In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for "additional work beyond the graduate degree."

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program.* At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

A research paper. The student can fulfill this requirement by presenting either an interdisciplinary seminar paper or thesis (which draws upon more than one scholarly discipline). The paper can be used to complete departmental requirements for a graduate degree as well as for the certificate, but must include research using the student's approved Asian language.

Demonstration of proficiency in reading and speaking an approved Asian language related to one of the student's countries or regions of interest. Proficiency is interpreted to mean at least three years of study or the equivalent, and may be demonstrated by successfully completing courses or by passing a special examination.

GSPIA option: Students enrolled in the Graduate School of Public and International Affairs (GSPIA) may fulfill a more targeted set of requirements for their program. For details, visit <http://www.ucis.pitt.edu/asc/academics/certificate-program/graduate-certificate-program>

GPA requirement is 3.0 for all courses to be counted towards the Asian Studies Certificate.

Financial Assistance

Asian Studies Certificate Students are eligible for a variety of scholarships, grants, and fellowships for research, presentations at conferences, language learning, and tuition replacement. For information visit <http://www.ucis.pitt.edu/asc/funding/graduate>.

Asian Studies Certificate

The Certificate in Asian Studies may be earned by U.S. and international students from any department or school at the University. The certificate combines the language training and multidisciplinary area studies necessary for both communicative and cultural competence. The certificate is designed for students who wish to intensify their study of Asia, either because they would like to be able to use their knowledge of that critical part of the world in their careers after graduation, or because they recognize the importance of an understanding of Asian history, language, and culture for all well-informed people.

Language Proficiency

Students must demonstrate language proficiency in an Asian language equivalent to two years of a college language or higher. This can be demonstrated through language courses at Pitt, in the student's undergraduate institution or through transcripts of reputable language programs, or through examination of language proficiency.

Content Courses

Students must complete four courses with significant Asian Studies content. At least one of these courses must be taken in a discipline outside of the student's major.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for additional work beyond the graduate degree. Students may contextualize non-credit-bearing internships that are required in various graduate degree programs as credit-bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue these options.

Research Paper, Presentation, or Project

Students must submit a significant research paper, project, or presentation as a representation of their work in Asian area studies. Papers must demonstrate engagement with issues, regional concerns, and/ or languages of Asia. Students should consult with the advisor for Asian Studies about questions regarding the research paper, presentation, or project.

12 Credits

Transnational Asia Advanced Certificate

The new Transnational Asia certificate will focus on the expansive mobility, connectivity, and communication between Asia and the world, and the impact of these relationships in fields such as economics, history, business, anthropology, political science, and public policy, among others. This new graduate certificate program will help students prepare for international careers with a global or Asian focus. The Transnational Asia Advanced

Certificate would allow students with a strong linguistic background, or students who were working intensively on more than one Asian language to document their advanced skills in Asian languages and flows. The proposed Transnational Asia Certificate would complement, not replace, graduate programs in traditional academic disciplines, while also making certificate coursework more attainable and desirable graduate students in professional programs. The interdisciplinary and transnational nature of the certificate would encourage students to take courses in multiple departments and thus work to increase student exposure to departmental offerings outside of their majors and minors.

Course Requirements

EFOP 2106 - INTERNATIONAL AND GLOBAL EDUCATION
EFOP 2355 - ADVANCED QUALITATIVE RESEARCH
EFOP 3347 - INTERNATIONAL ORGANIZATION DEVELOPMENT EDUCATION
ANTH 2541 - REGIONAL SETTLEMENT PATTERNS
ANTH 2724 - THE ANTHROPOLOGY OF SCIENCE: GLOBAL PERSPECTIVES
CHIN 2047 - CHINESE AND WESTERN POETRY
CHIN 2059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
CHIN 2084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
CHIN 2089 - THE WORLD OF CHINA
EAS 2005 - APPROACHES TO EAST ASIA
EAS 2702 - READING JAPANESE 2
HAA 2612 - SPECIAL TOPICS-ASIAN
HAA 2641 - MODERN AND CONTEMPORARY CHINESE ART
HIST 2020 - INFORMATION ECOSYSTEMS: INTERDISCIPLINARY USES OF DIGITAL METHODS
HIST 2043 - SOCIAL MOVEMENTS
HIST 2400 - APPROACHES TO ASIAN HISTORY
HIST 2737 - HISTORY FROM BELOW
JPNSE 2035 - PRAGMATICS OF JAPANESE
JPNSE 2057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
JPNSE 2071 - THE WORLD OF JAPAN
JPNSE 2080 - GHOSTS, MASKS AND ACTORS
PIA 2301 - INTERNATIONAL POLITICAL ECONOMY
PIA 2308 - COVERT ACTION IN WORLD POLITICS
PIA 2370 - TERRORISM AS AN INTELLIGENCE PROBLEM
PIA 2424 - POLITICS ,DEVELOPMENT AND CONFLICT IN THE MIDDLE EAST
PIA 2530 - GENDER EQUALITY AND THE UNITED NATIONS

Transnational Asia Graduate Certificate

The new Transnational Asia certificate will focus on the expansive mobility, connectivity, and communication between Asia and the world, and the impact of these relationships in fields such as economics, history, business, anthropology, political science, and public policy, among others. This new graduate certificate program will help students prepare for international careers with a global or Asian focus. The proposed Transnational Asia Certificate would complement, not replace, graduate programs in traditional academic disciplines, while also making certificate coursework more attainable and desirable graduate students in professional programs. The interdisciplinary and transnational nature of the certificate would encourage students to take courses in multiple departments and thus work to increase student exposure to departmental offerings outside of their majors and minors. Similarly, the policy and professional orientation would encourage Dietrich School of Arts and Sciences students to explore graduate offerings in professional schools such as business, education or GSPIA, while simultaneously increasing the visibility of UCIS programs for students in those schools.

Required Courses

EFOP 2106 - INTERNATIONAL AND GLOBAL EDUCATION
EFOP 2355 - ADVANCED QUALITATIVE RESEARCH
EFOP 3347 - INTERNATIONAL ORGANIZATION DEVELOPMENT EDUCATION

<http://www.ucis.pitt.edu/esc/>

Since 1984, the European Studies Center formerly (ESC) has offered a strong curriculum on Europe by bringing together the rich assets of a major research university to create a unique learning community. The ESC has developed an international scholarly reputation in European Union studies and was selected by the European Commission to host one of only ten European Union Centers of Excellence in the United States.

Hillman Library at the University of Pittsburgh has been a depository library for EU publications since 1974. Dr. Phil Wilkin, the West European bibliographer, has developed the Archive of European Integration that provides a wide array of EU-related documents through the Web. Please visit <http://aei.pitt.edu> for details.

Financial Assistance

The ESC offers several possible funding opportunities to students in its certificate program. Please visit <http://www.ucis.pitt.edu/euce/content/graduate-student-funding-opportunities> for further details.

Graduate Certificate

Advanced European Union Studies Certificate

Graduate Advisor: Dr. Allyson Delnore
European Studies Center
4215 Wesley W. Posvar Hall
Phone: 412-624-5404
adelnore@pitt.edu
<http://www.ucis.pitt.edu/esc/>

The Certificate of Advanced Study-European Union Studies enables students to complement a graduate or professional degree in any discipline (including the sciences) with an interdisciplinary set of courses related to the EU and proficiency in a relevant language. Students may enroll in the Certificate through the European Studies Center (ESC) or the Center for Russian and Eastern European Studies(REES).

Requirements:

Students seeking the Certificate of Advanced Study-European Union Studies must fulfill the following requirements:

Complete **18 credits of EU studies courses** in at least two schools or disciplines, with at least nine credits from outside the student's home department or school. Six credits must be selected from the list of core courses. Courses must be approved by the ESC.

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program.* In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for "additional work beyond the graduate degree.

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program.* At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

For the approved course list, click here.

Write an **interdisciplinary research paper** of 15-25 pages that ideally entails the use of second language materials. The paper may be prepared for a course, but students are urged to conceptualize it with the certificate in mind.

Language proficiency: Students must have three years of progressive college-level instruction in an official EU Member State or official EU candidate country language other than English, or the equivalent proficiency. Students for whom English is a second language may use English to meet the requirement.

Participate in an EU-related cocurricular activity approved by the ESC's Graduate Advisor.

Be awarded a graduate or professional degree.

For the full requirements for the graduate certificate, please click here.

Advanced West European Studies Certificate

Graduate Advisor: Dr. Allyson Delnore

<http://www.ucis.pitt.edu/esc/>

Certificate of Advanced Study

The Certificate of Advanced Study-West European Studies enables students to complement a graduate or professional degree in any discipline (including the sciences) with an interdisciplinary set of courses related to Western Europe and proficiency in a relevant language.

Requirements:

Students seeking the Certificate of Advanced Study-West European Studies must fulfill the following requirements:

Complete **18 credits of West European Studies courses** in at least two schools or disciplines, with at least nine credits from outside the students home department or school. Distribution of these 18 credits is tailored to each academic program. Courses must be approved by the ESC.

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program.* In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for "additional work beyond the graduate degree.

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program.* At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

Write an **interdisciplinary research paper** of 15-25 pages that ideally entails the use of second language materials. The paper may be prepared for a course, but students are urged to conceptualize it with the certificate in mind.

Language proficiency: Students must have three years of progressive college-level instruction in a West European language other than English, or the equivalent proficiency. Students for whom English is a second language may use English to meet the requirement.

Be awarded a graduate or professional degree.

For the full requirements for the graduate certificate, please click [here](#).

European Union Studies Certificate

The University of Pittsburgh has long been a leader throughout the U.S. and the world in European Union Studies. Students interested in the politics, policies, or institutions of the EU, or in the history of and prospects for European integration can obtain a Pitt credential that signals to others a unique understanding of the EU and broad competence in international studies. The European Union Studies Certificate enables students to complement a graduate or professional degree in any discipline (including the sciences) with an interdisciplinary set of courses related to the EU or European integration, as well as proficiency in a relevant world language. The requirements for this certificate are tailored specifically to allow graduate students in 2- and 3-year Masters programs to complete the program without adding any additional time to degree completion.

Language Proficiency

Students must have two (2) years of progressive college-level instruction in an official EU Member State or official EU candidate country language other than English, or the equivalent proficiency. Students for whom English is a second language may use English to satisfy the requirement.

Content Courses

Students must complete 15 credits of EU studies related courses in at least two departments, with at least 3 credits of the course work in addition to the credits used to complete the student's major.

In consultation with the academic advisor, students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use third year or above (i.e. grammar, conversation, etc.) courses taught in the target language towards the content course requirements. Additionally, introductory courses in a second or third language (with a clear and stated relevance to their research or professional goals) will count.

Research Paper

Write an interdisciplinary research paper of 15-25 pages that ideally entails the use of second language materials. The paper may be prepared for a course, but students are urged to conceptualize it with the certificate in mind. Alternatively, students may choose to prepare a digital portfolio detailing courses and co-curricular experiences related to European Union studies and offering reflections on the development of specific competencies related to a detailed rubric.

15 Credits

Mediterranean Studies Advanced Certificate

The Advanced Certificate in Mediterranean Studies provides students with interests in Mediterranean history, culture, politics, and languages to complement their major with a regional specialization, and to explore the interconnectedness of North Africa, the Levant, Anatolia, Southern Europe, and the Balkans. The certificate is self-designed, and students may choose any theme to organize their studies and class choices. Examples of possible themes immigration, regional politics and security, ancient civilizations, and Mediterranean arts and architecture.

Required Courses

CLASS 2019 - GLOBAL ISSUES THROUGH CLASSICS 1
ENGLIT 2851 - GENDER, TECHNIQUES, AND MEDIA: FROM PLATO TO VIDEO GAMES
FR 2761 - FRENCH STUDIES GENDER STUDIES
HAA 2131 - ROMAN ART
HIST 2729 - SEAS, PEOPLES, AND EMPIRES
ITAL 2088 - TOPICS IN ITALIAN DIASPORA STUDIES
PHIL 2070 - ANCIENT PHILOSOPHY
THEA 2205 - WORLD THEATRE: 500 BCE TO 1640

Mediterranean Studies Certificate

The Certificate in Mediterranean Studies provides students with interests in Mediterranean history, culture, politics, and languages to complement their major with a regional specialization, and to explore the interconnectedness of North Africa, the Levant, Anatolia, Southern Europe, and the Balkans. The certificate is self-designed, and students may choose any theme to organize their studies and class choices. Examples of possible themes immigration, regional politics and security, ancient civilizations, and Mediterranean arts and architecture.

PIA 2327 - TERRORISM AND COUNTER TERRORISM
PS 2312 - COMPARATIVE PARTIES AND ELECTIONS
SOC 2035 - RACE & ETHNICITY

West European Studies Certificate

The Certificate in Western European Studies provides students with strong interests in predominantly Western European history, culture, politics, and languages to complement their major with a regional specialization. The certificate is self-designed, and students may organize their courses around themes and countries relevant to their broader career and research interests. Students in 2- and 3-year graduate degree programs with only basic understanding of a relevant foreign language can complete the certificate with no additional time to degree or expense. Contact the advisor to get started as soon as possible.

Language Proficiency

Two years or equivalent proficiency of a relevant West European language. Students whose first language is English must choose a language other than English. Students for whom English is a second language can use English proficiency or coursework to meet this requirement. (English is unarguably a language of Western Europe, but the purpose of the certificate is to showcase foreign language proficiency, so it is not an appropriate choice for native English speakers.)

Content Courses

15 credit hours; 9 within the major; 6 interdisciplinary credits from two different departments outside of the major.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for unique credits in addition to the degree program.

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue these options.

Research Paper

A 15-25 page research paper showing evidence of interdisciplinary and the use of foreign language sources and overseen by an Affiliated Faculty member of the European Studies Center in consultation with the graduate advisor of the European Studies Center. Alternatively, students may choose to complete an e-portfolio detailing courses and co-curricular experiences related to West European studies and offering reflections on development of specific competencies related to a detailed rubric. Students pursuing this second option are those likely to be considering careers outside of academia after graduation.

The Global Studies Program provides students with a "global competence," the ability to communicate effectively across cultural and linguistic boundaries and to focus on issues that transcend cultures and continents. The global studies graduate certificate is a joint offering of the University

Center for International Studies (UCIS) and the Graduate School of Public and International Affairs (GSPIA), and is open to all students enrolled in a graduate program at the University.

The Global Studies Program draws on the strengths of the Area Studies Centers within the University Center for International Studies and the departments and schools at the University of Pittsburgh. The Asian Studies Center, the Center for Latin American Studies, the Center for Russian and East European Studies, and the Center for West European Studies have been designated by the U.S. Department of Education as National Resource Centers. The University Library System possesses extensive holdings of books and journals to support research and study in these world areas.

Admission to Global Studies Program

Applications to the Global Studies Program may be submitted either at the same time as applications to the University or after the student has been admitted. In either case, students cannot be accepted until they have received notification of admission to the University of Pittsburgh.

Students holding a master's degree from an accredited institution may obtain the Graduate Certificate in Global Studies. They may apply directly to the program if they wish to enroll only for the graduate certificate.

Global Studies is an exciting - and evolving - interdisciplinary field. It is concerned with transnational structures, processes, and interactions, and how these affect social, economic, cultural, political, and ecological environments. Scholars of Global Studies understand and analyze how these structures, processes, and interactions both connect people and places and disrupt established norms, communities, institutions, and relationships. That is, they think globally about these processes.

Within the Global Studies Certificate, graduate students from the Dietrich School of Arts and Sciences can tailor a unique plan of interdisciplinary study within their field of interest drawn from more than 200 courses across 6 global concentrations. The certificate allows students to adopt a transnational lens that can inform their research projects, and to conduct research in one of 35 languages offered at Pitt.

Global Concentrations: To complete the certificate, student choose one of five global concentration/themes:

- Cultural Dynamics**
- Peace, Conflict, and Security**
- Ecology and Sustainability**
- Health and Well-Being**
- Politics and Economy**

In addition to the certificate, the Global Studies Center offer numerous complementary programs and opportunities that support students' intellectual and personal development: research skills, career exploration and career readiness, experiential education and civic engagement, and a critical understanding of current events. The center offers tuition remission for students studying less commonly taught languages and internship positions.

Certificate Requirements

Six Global Thematic Courses (18 credits): After students select a global concentration, they choose from a comprehensive and dynamic list of courses ensuring three disciplines are represented to provide an interdisciplinary perspective on their chosen global concentration.

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program.* In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for "additional work beyond the graduate degree.

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program.* At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

Language Proficiency: Building on Pitt's vast offering of over 30 languages, a minimum of three years of college-level study (six semesters) in a foreign language is required. Students can fulfill this requirement by passing a proficiency exam at the Intermediate mid proficiency level.

Global Studies Capstone Research Paper: This research paper is the culmination of a student's learning experience related to their global concentration. It demonstrates analytical skills within a transnational context. It must be written as part of a course and graded by a faculty member.

Global Studies Certificate

Global studies is the study of globalization - that is, of transnational processes and the connections, divisions, disruptions, inequalities, and productive possibilities they engender across time and space. This professional certificate is designed for students enrolled in any of Pitt's professional schools who desire a deeper understanding of global processes that spill over and cut across familiar political, cultural, economic, psychological, and environmental borders and boundaries. Students obtaining the certificate will be equipped to make sense of an increasingly complex world and to live and act effectively and impactfully within it.

Language Proficiency

Two years college level language proficiency (ACTFL Proficiency Guidelines -intermediate-low or intermediate-mid for LCTL languages)

Content Courses

12 credits of interdisciplinary coursework (6 credits from within the major, 6 credits from outside the major). After students select one from five global concentrations, they choose from a comprehensive and dynamic list of courses ensuring an interdisciplinary perspective on their chosen global concentration.

Students may contextualize non-credit-bearing internships that are required in various graduate degree programs as credit-bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

* Language courses may be used in the following circumstances:

Students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

Research Paper

10 page research paper written for a course.

University of Pittsburgh
University Center for International Studies
Center for Latin American Studies
Luis G. Van Fossen Bravo, Undergraduate Advisor
4202 Wesley W. Posvar Hall
Pittsburgh, PA 15260
412-648-7393
bravo@pitt.edu
www.ucis.pitt.edu/clas

The Center for Latin American Studies (CLAS), established in 1964, is internationally recognized for excellence in undergraduate, graduate, and professional education. In 1979 the U.S. Department of Education designated CLAS as a comprehensive National Resource Center (NRC) on Latin America—a distinction it has retained continuously to the present.

CLAS' programs cover the entire Latin American and Caribbean region. Two academic programs are especially noteworthy: The Latin American Archaeology Program, housed in the Department of Anthropology, involves research, training, and publications and emphasizes collaboration between North American and Latin American archaeologists. Fellowships and a bilingual publication series (funded by the Howard Heinz Endowment and The Andrew W. Mellon Foundation) further enhance this exceptional program. The Latin American Social and Public Policy Program draws on the impressive array of faculty and student expertise on Latin American policy issues available at the University of Pittsburgh. The program brings together researchers from different fields with the goal of contributing information of relevance to policy decisions facing Latin America. Social and Public Policy Fellowships are annually awarded to scholars interested in studying various dimensions of social policy at the University of Pittsburgh. The Latin American Social and Public Policy Graduate Certificate is available to students in this more specialized program.

Admission to the Center for Latin American Studies

http://www.ucis.pitt.edu/clas/grad_admissions

Applications to the Center for Latin American Studies may be submitted either at the same time as applications to the University or after the student has been admitted. In either case, the center cannot accept students until they have received notification of admission to the University.

Latin American Library Collection

<http://www.library.pitt.edu/eduardo-lozano-latin-american-collection>

One of the major resources on Latin America available to students at the University of Pittsburgh is the Eduardo Lozano Latin American Library Collection. Its resources include exceptional collections on Bolivia and Cuba as well as extensive holdings on Argentina, Brazil, Ecuador, Guatemala, Mexico, Peru, and Venezuela.

Financial Assistance

Latin American Studies offers a variety of financial assistance to students in its certificate programs. Please visit http://www.ucis.pitt.edu/clas/grad_funding for further details.

Graduate Certificate

Advanced Latin American Social & Public Policy Certificate

Language Proficiency

Equivalent of three years college level language skill in Spanish, Portuguese, Quechua, and Haitian Creole.

Content Courses

Total of six courses (18 credits). Three of these can overlap with their other credentials and three must be in at least two different departments/schools. At least 6 credits of the course work used to complete the requirements must be in addition to the credits used to complete the student's major.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for unique credits in addition to the degree program. Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue these options.

Research Paper

A final multidisciplinary research paper (10-15 pages in length, with 10+ references), a Master's thesis, or a Doctoral Dissertation will fulfill the requirement for the research paper.

Requirements for Certificates

CLAS offers two graduate certificates: the Certificate in Latin American Studies and the Certificate in Latin American Social and Public Policy. Requirements for each are detailed below. GPA requirement is 3.0 for all courses to be counted toward any Latin American Studies Certificate. For a list of approved courses, [click here](#).

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program*. In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for "additional work beyond the graduate degree."

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program*. At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

Graduate Certificate in Latin American Studies

To fulfill the requirements for this certificate, students must complete six Latin American area studies courses: two courses in the student's major department or school and four courses in at least two departments/schools other than that in which the student is receiving the advanced degree. The courses should total 18 credits. In addition, students are required to be proficient in a language of the area and to submit a research paper as detailed below.

Graduate Certificate in Latin American Social and Public Policy

To fulfill the requirements for this certificate, students must complete six courses focusing on social and public policy issues of Latin America: three courses should be in the student's major department or school and three courses should be in at least two departments/schools other than that in which the student is receiving the advanced degree. The courses should total 18 credits. In addition, students are required to be proficient in a language in their area and to present a research paper as detailed below.

Language Proficiency

The certificates in CLAS require three years, or the equivalent, of college-level Spanish, Portuguese, or an Amerindian language of the area. Students must have adequate proficiency to converse and conduct research in Latin America. A standardized examination is given to each candidate by a faculty member of the Department of Hispanic Languages and Literatures.

Interdisciplinary Research Paper

Students in CLAS certificate programs must complete a research paper on Latin America that reflects competence in at least two disciplines. The master's thesis or a revised research paper may be used to fulfill this requirement.

Latin American Social & Public Policy Certificate

The Certificate in Latin American Social & Public Policy Studies is a multidisciplinary program of study focused in social and public policy in Latin America, Caribbean and diasporic studies, and is designed for students who want to graduate with a credential that indicates a specialization on this region of the world as well as policy of that region in addition to their graduate degree. Students who complete this certificate will demonstrate advanced knowledge and a dimension of expertise on social and public policy in Latin America, Caribbean and Diaspora (such as Latinx Studies). The requirements for this certificate have three components: language proficiency, content courses and a research paper. GPA requirement is 3.0 for all courses to be counted toward any Latin American Studies Certificate.

Language Proficiency

Equivalent of two years college level language skill in Spanish, Portuguese, Quechua, and Haitian Creole.

Content Courses

Total of five courses (15 credits). Three different departments must be represented, and three courses can overlap with the student's major.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for unique credits in addition to the degree program. Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue these options.

Research Paper

A final multidisciplinary research paper (10-15 pages in length, with 10+ references), a Master's thesis, or a Doctoral Dissertation will fulfill the requirement for the research paper.

Phone: 412-648-7403

aeb72@pitt.edu

www.ucis.pitt.edu/crees

Established in 1965, the Center for Russian and Eastern European Studies (REES) at the University of Pittsburgh is designated by the U.S. Department of Education for Title VI funding as a National Resource Center.

There are three broad focus areas for the research conducted by faculty and graduate student specialists in the REES program. They are (1) contemporary Russian, East European, and Eurasian cultures, (2) politics, economics, and societies of Russia, Eastern Europe, and Eurasia (3) foreign policy issues as they relate to the REES world area.

The Center for Russian and East European Studies offers graduate certificates in East European Studies, Russian Studies, or Soviet Studies to students who successfully combine second language expertise and multidisciplinary area-focused courses.

Admission Information

Application for admission to graduate study is made directly to the academic department or graduate/professional school of the student's choice. The applicant should include a statement requesting admission to the REES certificate program.

To enroll in one of the certificate programs, admitted students should make an appointment with the REES graduate advisor as soon as possible after their arrival at the University.

Financial Assistance

The Center for Russian and East European Studies offers several means of financial assistance to students in its certificate program. Please visit <http://www.ucis.pitt.edu/main/scholarships> for further details.

Graduate Certificate

Advanced Russian, East European, and Eurasian Studies Certificate

Overview

REEES is one of a select few National Resource Centers for Russian, East European, and Eurasian Studies funded by the US Department of Education. REEES has 72 affiliated faculty members and has programs with 14 Arts and Sciences departments and five professional schools. Our many areas of focus include subjects such as the transformations of post-communist societies, history, foreign policy and international relations, anthropology, music, film, and contemporary culture and literatures. Recognizing that regional boundaries are constantly contested and redefined, our geographic scope includes Russia, Ukraine, Belarus, the Baltic states, Central Asia and the Caucasus, the Western Balkans, Poland, Hungary, Slovakia, Czech Republic, Romania, Bulgaria, Moldova, Mongolia, and Turkey. REEES currently offers Certificates in Advanced East European Studies, Russian Studies, or Soviet Studies, which may be earned in conjunction with most masters and doctoral programs in the School of Arts and Sciences and a number of professional schools.

Requirements for REEES Certificates

The requirements for each of the REEES graduate certificates are as follows:

Completion of **six approved Russian, East European, and Eurasian area studies courses**, including four courses from at least two departments other than the student's home department, for a total of 18 credits.

Graduate students should complete a minimum of 6 unique credits of coursework. In other words, at least 6 credits of the course work used to complete the requirements of any graduate level certificate in UCIS *must be in addition to the credits used to complete the student's primary degree program*. In consultation with the academic advisor, students may fulfill these standards through one of the following options:

Students may contextualize non-credit bearing internships that are required in various graduate degree programs as credit bearing experiences for UCIS certificate programs. Prior approval must be received from the academic advisor to pursue this option.

Students who can add content courses without affecting their tuition bill will be encouraged to do so.

Students who are exempt from the language requirement because of previous coursework or heritage language skills may use language course credits towards the requirement for additional work beyond the graduate degree.

The 6 credits may be comprised of the following combinations:

Two language courses (* see notes below)

A language course (* see notes below) and a content course

Two content courses

* Language courses may be used in the following circumstances:

For certificate programs that require three years of language proficiency, students may count language courses in the third year (i.e. grammar, conversation, courses taught in target language) that are above the intermediate level.

For students in any certificate program who are exempt from the language requirement due to previous coursework or as a heritage speaker, the introductory courses in a second language (either LCTLs, or a commonly taught language with a clear and stated relevance to their research or professional goals) will count.

For students completing two graduate level UCIS certificates, *at least nine (9) credits* of the course work used to complete the certificate requirements *must be in addition to the credits used to complete the student's primary degree program*. At least 3 of these credits must be in content coursework. *All 9 cannot be language course credits.*

Demonstration of **language proficiency** equivalent to three years of college-level study in a language of the former Soviet Union (plus Mongolia) or Eastern Europe (including Turkish).

Completion of a **research paper** of at least 15 pages in length, based substantially on primary sources in one or more languages of the REEES world area.

Students must maintain a minimum GPA of 3.0 in REEES-related coursework.

Russian, East European & Eurasian Studies Certificate

The Graduate Certificate in Russian, East European, and Eurasian Studies (REEES) may be earned in conjunction with most master's and doctoral programs in the School of Arts and Sciences and a number of professional schools. In order to receive the Graduate Certificate in Advanced REEES, students must complete area studies coursework and demonstrate proficiency in a language spoken in Russia, East Europe, and/or Eurasia. REEES is one of a select few National Resource Centers for Russian, East European, and Eurasian Studies funded by the US Department of Education. Our many areas of focus include subjects such as the transformations of post-communist societies, history, foreign policy and international relations, anthropology, music, film, and contemporary culture and literature's. Recognizing that regional boundaries are constantly contested and redefined, our geographic scope includes but is not limited to Russia, Eastern and East Central Europe, the Baltic states, Central Asia, the Caucasus, the Balkans, and Turkey.

Language Proficiency

Demonstration of language proficiency equivalent to two years of college-level study in a language of the former Soviet Union (plus Mongolia) or Eastern Europe (including Turkish and Greek).

Content Courses

Completion of five approved Russian, East European, and Eurasian area studies courses, including four courses from at least two departments other than the student's home department, for a total of 15 credits. A minimum of 6 credits must be unique (in addition to the credits used to complete the student's major).

Digital Portfolio

Creation of a personal website to highlight the student's research, coursework, co-curricular activity, and other certificate-related accomplishments.

Special Academic Opportunities

Special academic opportunities provide students with ways to augment their education and experience with expanded study programs both on and off campus, in both university and professional settings.

Area of Concentration (subplans) and Minors (plans)

Some graduate programs may include approved areas of concentration or minors. Areas of concentration define and describe the student's training and expertise within the broader discipline. Minors represent significant course work completed in an area related to the student's specialty. A graduate minor offered by the faculty at the Pittsburgh campus is available to any graduate student enrolled in an academic degree program on the campus provided that the school from which the student is graduating recognizes this minor. See the Schools, Departments, and Programs section of this bulletin for available areas of concentration and minors.

Certificate Programs

Students may enrich their educational experience by electing to take an academic interdisciplinary certificate program in the areas listed at the start of the Schools, Departments, and Programs section of this bulletin.

A certificate program at the graduate level is a coherent set of courses and related work in a particular area. Most certificate programs require a minimum of 15 credits, of which 12 credits must be earned at the University of Pittsburgh. The certificate may appear on the transcript as a degree goal and will appear on the final transcript as an awarded certificate.

A student must be formally admitted into a certificate program. The requirements for each certificate vary and students should contact the certificate program director.

Cross-Registration

Carnegie Mellon University, Duquesne University, the Pittsburgh Theological Seminary, Robert Morris University, and the University of Pittsburgh offer graduate students the opportunity for cross-registration in graduate programs in the five institutions in the fall and spring terms. See Cross-Registration in the Registration section of this bulletin for further details.

Two Independent Degree Programs Simultaneously

Students may pursue two independent graduate degrees simultaneously in two different schools within the University (joint degree) or two different departments within the same school (dual degree). Students desiring to enroll in two degree programs must have approval from both program faculties and their respective deans, must be admitted into both programs, and must satisfy the degree requirements of both programs. Students are billed at the tuition rate of the primary academic program. Normally, such students should be enrolled for no more than a total of 15 credits per term.

The same examination, thesis, or dissertation cannot be used to fulfill requirements for two independent degrees, although a maximum of 6 credits of course work may be used in partial fulfillment of the requirements of both degrees. It is the responsibility of the dean or deans, if two schools are involved, to ensure that this regulation is enforced.

Cooperative, Dual-Degree, and Joint-Degree Programs

Dual- and joint-degree programs result in two degrees being awarded. Requirements for these programs include all or most of the requirements of two distinct academic degree programs. These programs may result in a student earning two separate master's degrees, a master's and a first-professional degree, or a master's or first-professional degree and a doctoral degree, but never result in a student earning two separate doctoral degrees. Dual programs exist within a single school; joint programs exist between two or more schools; cooperative programs are administered by two or more institutions. The same course, examination, or thesis may be used to fulfill requirements only if so specified in the documents formally establishing the joint- or dual-degree program approved by the University.

Students must be admitted to both academic programs offering the dual or joint degrees being sought and must graduate from both degree programs at the same time. Students are advised to see the individual school for other specific requirements that apply.

Course Information

Please note, when searching courses by Catalog Number, an asterisk (*) can be used to return mass results. For instance a Catalog Number search of " 2* " can be entered, returning all 2000-level courses.

Anthropology

ANTH 2000 - RESEARCH AND THESIS MA DEGREE

Minimum Credits: 1

Maximum Credits: 9

This course involves directed research and writing oriented towards the completion of a master's thesis.

Academic Career: Graduate

Course Component: Thesis Research

Grade Component: Grad SN Basis

ANTH 2001 - NAVIGATING THE DISCIPLINE

Minimum Credits: 1

Maximum Credits: 1

This is the first part of a two-course sequence (one credit per term) required of all first-year anthropology graduate students. In the fall term, students will learn how to navigate the first years of the graduate program at Pitt, get to know the faculty and each other, begin discussing research interests and practicing presentation skills, learn some of the ins and outs of grants and publishing, and consider possible professional trajectories after the Ph.D.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2002 - ANTHROPOLOGICAL RESEARCH

Minimum Credits: 1

Maximum Credits: 1

This is the second part of a two-course sequence (one credit per term) required of all first-year anthropology graduate students. In the fall term, students will learn how to navigate the first years of the graduate program at Pitt, get to know the faculty and each other, begin discussing research interests and practicing presentation skills, learn some of the ins and outs of grants and publishing, and consider possible professional trajectories after the Ph.D.

Grade Component: Grad LG/SNC Basis

ANTH 2490 - LINGUISTICS ANTHROPOLOGY CORE COURSE

Minimum Credits: 4

Maximum Credits: 4

This course approaches language as a practice through which social relations, cultural models, and consciousness are constituted. Specific topics include: approaches to signs and significance; linguistic relativity (relationships between habits of speech, thought, and action); analysis of conversation and interaction; relationships between meaning and intention; models of variation and change; linguistic dimensions of cultural stereotypes; and the means by which languages, styles, and other aspects of cultural patterning, can be mapped onto populations. Throughout the course we pay particular attention to how tools from linguistic and semiotic anthropology can be applied to the study of topics other than language' as a framework for ethnography, for textual research, and for the study of material culture.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies

ANTH 2491 - LINGUISTICS ANTHROPOLOGY CORE COURSE

Minimum Credits: 3

Maximum Credits: 3

This course approaches language as a practice through which social relations, cultural models, and consciousness are constituted. Specific topics include: approaches to signs and significance; linguistic relativity (relationships between habits of speech, thought, and action); analysis of conversation and interaction; relationships between meaning and intention; models of variation and change; linguistic dimensions of cultural stereotypes; and the means by which languages, styles, and other aspects of cultural patterning, can be mapped onto populations. Throughout the course we pay particular attention to how tools from linguistic and semiotic anthropology can be applied to the study of topics other than language as a framework for ethnography, for textual research, and for the study of material culture.

ANTH 2513 - SELECTED ARCHEOLOGICAL PROBLEM

Minimum Credits: 3

Maximum Credits: 3

Examines current topics and controversies in anthropological archaeology. Special problem areas vary from year to year.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies

ANTH 2516 - CHIEFDOMS

Minimum Credits: 3

Maximum Credits: 3

Chiefdoms are defined more by what they are not than by what they are: societies whose hierarchical organization makes them non-egalitarian, but that lack the bureaucratic institutions of the state. Seen as stepping stones in the evolution of states or as part of another evolutionary trajectory entirely, chiefdoms are the subject of debate, including just in what sense, or even whether, the word "chiefdom" has any utility. This seminar discusses how chiefdoms can be investigated and understood archeologically, using materials from all the Americas, Polynesia, Europe, and other areas.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Asian Studies, Global Studies, Latin American Studies

ANTH 2517 - ARCHEOLOGICAL METHOD AND THEORY

Minimum Credits: 3

Maximum Credits: 3

This course surveys contemporary method and theory in anthropological archeology. It begins with varieties of high level theoretical approaches to a study of prehistory, including cultural historical, cultural evolutionary, cultural ecological systems-oriented, Marxist and post-Procession Archaeologies. It covers several methodological problems; construction of research designs, uses of analogy, style, classification and site level or regional level spatial analysis.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2524 - ARCHEOLOGICAL DATA RECOVERY AND ANALYSIS 2

Minimum Credits: 4

Maximum Credits: 4

Advanced analysis of archeological data, primarily quantitative. This course carries on where ANTH 1534 leaves off. Topics include sampling, design of variable sets, advanced database management, computer graphics (plotting, contouring, fishnet surfaces), multivariate statistics (factor analysis, cluster analysis, multi-dimensional scaling), and analysis of spatial distributions (nearest neighbor, clustering, and graphical approaches).

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2531 - HOUSEHOLD ARCHAEOLOGY

Minimum Credits: 3

Maximum Credits: 3

This seminar will explore the role of the household as an important analytical unit in anthropological archaeology. Topics to be addressed include: archaeological definition of residential units, modeling the evolution of domestic life, analysis of spatial patterns at the household level, and proxemic and symbolic approaches to the prehistoric dwelling. The seminar will also consider the relationship between households and larger societal structures and the cross-cultural compositional and dynamic characteristics of households will be examined.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies, Latin American Studies

ANTH 2532 - ADVANCED TOPICS IN GIS: ANALYSIS OF REGIONS AND RESOURCES

Minimum Credits: 3

Maximum Credits: 3

A brief introduction to GIS techniques in the context of archaeological analysis. The focus will be on how to accomplish analytical tasks of proven utility in archaeology, using autocad map when a vector-based program is most useful and Idris when a raster-based is better. The course is designed to complement ant 2541: regional settlement patterns, although the GIS techniques dealt with are applicable to other scales of analysis as well.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2533 - ANCIENT STATES IN THE NEW WORLD

Minimum Credits: 3

Maximum Credits: 3

Drawing on the fact that the ancient new world was a dazzling treasure house of non-Western political thought and organization, this course uses archaeology and ethnohistory to document and make comparative sense of the rich variety of political arrangements which existed among pre-Hispanic states in MesoAmerica and Andean South America. A special aim is to understand how Amer-Indian concepts about state craft and rulership mesh with anthropological and other theories about ancient states.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2534 - ARCHEOLOGICAL DATA ANALYSIS 1

Minimum Credits: 4

Maximum Credits: 4

An introduction to quantitative data analysis in archeology, this course covers basic principles of statistics, including exploratory analysis of batches, sampling, significance, t tests, analysis of variance, regression, chi-square, and estimating universe means and proportions from samples. The approach is practical, concentrating on understanding these principles so as to put them to work effectively in analyzing archeological data. Much of the statistical work is done by computer.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2536 - SPECIAL TOPICS IN COMPARATIVE ARCHEOLOGY PART 1

Minimum Credits: 1

Maximum Credits: 1

A research seminar in comparative archaeology led by a regular faculty member in anthropology and the visiting scholar in the center for comparative archaeology. The topic changes from year to year depending on the expertise of the visiting scholar. Meets about five times during the fall term, and is concluded during the spring term in ANTH 2537: special topics in comparative archaeology ii. In order to receive credit students must complete both parts of the seminar (I and II).

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2537 - SPECIAL TOPICS IN COMPARATIVE ARCHEOLOGY PART 2

Minimum Credits: 2

Maximum Credits: 2

A research seminar in comparative archaeology led by a regular faculty member in anthropology and the visiting scholar in the center for comparative archaeology. The topic changes from year to year depending on the expertise of the visiting scholar. Meets about five times during the spring term, and is the conclusion of ANTH 2536: special topics in comparative archaeology i offered during the preceding fall term. In order to receive credit students must complete both parts of the seminar I and II).

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2541 - REGIONAL SETTLEMENT PATTERNS

Minimum Credits: 3

Maximum Credits: 3

This seminar will take up both theoretical and methodological aspects of regional settlement pattern studies in archeology. Appropriate objectives for settlement patterns will be discussed. Advantages and disadvantages of different field and analytic methodologies in terms of their effectiveness in achieving clearly defined goals will be explored. This exploration will be pursued primarily through critical examination and reanalysis of data from primary reports of regional settlement patterns studies from different parts of the world.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies, Latin American Studies

ANTH 2550 - ETHNOARCHAEOLOGY

Minimum Credits: 3

Maximum Credits: 3

This course will focus on issues in ethnoarchaeology and archaeological implications. Some of these issues have to do with theory and the role of analogy in understanding the past. Others concern how we can use material remains to make inferences about social groups including kinship, organization, ethnicity, work groups, etc.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis
Course Attributes: Global Studies

ANTH 2551 - PEOPLES IN CONTACT

Minimum Credits: 3

Maximum Credits: 3

This course will examine contact between native and European cultures in the Americas from an archaeological and historical perspective. Prehistoric patterns of interaction including exchange and communication networks will be considered. The impact of this contact on both cultures will also be considered.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies

ANTH 2553 - ARCHAEOLOGICAL CERAMICS

Minimum Credits: 3

Maximum Credits: 3

This course is designed to provide you with a broad introduction to archaeological ceramics. We will cover a number of topics during the course so that you will be conversant in the archaeological literature on pottery and will have a greater understanding of the types of research problems that are most readily investigated through the analysis of archaeological ceramics. You will also gain experience in handbuilding pottery vessels so you have an understanding of pottery from the perspective of the potter and will know how the limitations and possibilities within this medium affect both the manufacture and processes used in creating pottery. We also discuss a variety of archaeological analyses of pottery. Readings drawn from archaeological, ethnoarchaeological, and material culture literature are an important component of this course.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2554 - HUMAN BEHAVIORAL ECOLOGY

Minimum Credits: 3

Maximum Credits: 3

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad Letter Grade

ANTH 2555 - WORKSHOP IN PUBLISHING

Minimum Credits: 2

Maximum Credits: 2

This one-credit graduate course is intended as a workshop for refining papers for publication as journal articles or edited book chapters. The course is intended for relatively advanced graduate students who have a good idea at the outset of what they plan to publish and have the support of their advisor in this plan. We will go through the process of identifying suitable publication venues, revising drafts and figures for publication, and understanding what to expect from the peer-review process. Because the class involves substantial peer feedback, students are asked to commit to supporting their fellow students' revision process as well as devoting time to their own. The aim is for every student to submit a paper for publication by the end of the semester.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2556 - ZOOARCHAEOLOGY

Minimum Credits: 4

Maximum Credits: 4

Animal remains are often some of the most frequently encountered material remains recovered from archaeological sites and therefore provide

crucial information relating to subsistence strategies, animal husbandry patterns, paleoenvironments and a wide range of other human behaviors. This course provides an introduction to the main elements of Zooarchaeology research and will focus on the recovery, identification and contextual analysis of animal remains. The course will provide both laboratory training as well as seminar discussions in order to evaluate the significance of Zooarchaeology within archaeological research. Participants will therefore have the opportunity to gain practical laboratory skills in identification and analysis and to learn how this information can be applied to the study of complex societies in both the Old and New World.

ANTH 2603 - HUMAN SKELETAL ANALYSIS

Minimum Credits: 4

Maximum Credits: 4

Make no bones about it--the human skeleton provides a range of information about the individual, such as their biological sex, activity level and health. The extraction of this information rests on the identification of each skeletal element. This methods course traces the development and growth of the human skeleton until it is fully mature. Participants will learn how to: identify complete and fragmentary adult bones; identify complete nonadult bones; and distinguish between animal and human bones. Additional topics may include normal and abnormal variation; the identification of muscle insertion sites and their implications for physical activity; the effect of disease on bone and the methods used to estimate the individual's profile (age at death, biological sex, stature and ancestry). This course is essential for students considering anthropological careers in forensic anthropology, bioarchaeology and paleontology, as well as students pursuing careers in health sciences, biomechanics and biology. The course

features lectures and required lab time with written and practical exams.

ANTH 2608 - PRIMATE BIOLOGY

Minimum Credits: 3

Maximum Credits: 3

This course is a survey of the major groups of living primates (including humans) and of the various hard and soft tissue, as well as physiological and biochemical, systems that distinguish the group as primates and further distinguish the diverse lot of primate subgroups.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2612 - EVOLUTIONARY THEORY 1: A HISTORY OF ALTERNATIVE IDEAS 18TH CENTURY UNTIL THE SYNTHESIS

Minimum Credits: 3

Maximum Credits: 3

This course will be an in-depth survey of the historical development of evolutionary thought, with emphasis on the alternatives to theories that became incorporated into the grand evolutionary synthesis and those alternatives that have emerged since. Students will read and annotate original works in comparative anatomy, embryology, paleontology, genetics and lead class discussion based on this literature.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2614 - HISTORY OF PALEOANTHROPOLOGY

Minimum Credits: 3

Maximum Credits: 3

In this course we will read primary literature that is relevant to the study of human evolution, both neo and paleobiologically. After a brief overview of the separate histories, and thus foci, of paleontology in general and human paleontology specifically, we will begin formal reading with Blumenbach's two major works, some Buffon, Linnaeus, and Lankester (and probably a few others), Huxley's essays of 1863, Darwin's descent these basically on the topic of "man's place in nature" and then delve into specific articles and monographs on the discovery, naming, and acceptance of human fossils. These readings will cover (but not necessarily be limited to) the debate between Schaffhausen and Fuhlrott, the naming by William, king of the first new hominid species (*Homo neanderthalensis*), the works of Eugene DuBois (*Homo erectus*) and Raymond Dart (*Australopithecus*) and reactions to them, the Leakeys' discoveries at Olduvai Gorge, and some of the more recent finds. We will also discuss *Ramapithecus* and its relevance to the still not satisfactorily answered question, "what is a hominid?" The thrust of the course will be to tease apart fact from assumption as they were cobbled together in promoting one's favorite scenario on human evolution. Students will be expected to hand in annotated bibliographies

based on the readings, and to take turns in leading discussion. Each student will also produce a term paper that will expand on a topic relevant to the course.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2617 - PALEOPATHOLOGY

Minimum Credits: 3

Maximum Credits: 3

Paleopathology is the study of disease and its process among ancient peoples using primary evidence from Human Skeletal remains. Additional lines of inquiry draw on archaeological, ethnographical, clinical and documentary sources to aid in our interpretation. In this course you will learn how to recognize abnormal bone, differentiate between disease processes, describe abnormal bone changes, evaluate recording methods and investigate the epidemiological history of various disease processes. The impact of disease upon the individual and ancient societies will be considered throughout the course and in student research. The combined lecture, seminar and laboratory format provides a comprehensive foundation of skeletal pathology, experience with recording methods and an understanding of the impact of disease on the individual and their community.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2619 - ADVANCED SKELETAL ANALYSIS

Minimum Credits: 3

Maximum Credits: 3

This course provides the student with an in-depth understanding of the skeletal features used to develop the osteobiographic profile (e.g., Age, sex, stature, ancestry, handedness, etc.) Of an individual. This analysis is essential for forensic identification and forms the foundation for the reconstruction of ancient individuals and their life-ways. Each student will select some aspect of skeletal analysis and present an overview of the bone biology, the history of the analytical methods, the problems and advantages of each method, modifications that others have made to address these issues, and the current state of knowledge. In the past, some students have proposed new methods of analysis. This will be complemented by a lab exercise designed by the student that will provide data for interobserver analysis of various techniques. The results of this lab will be presented as posters which will be posted on CW at the end of the term. Prior osteological experience is required.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2620 - SPECIAL TOPICS IN PHYSICAL ANTHROPOLOGY

Minimum Credits: 3

Maximum Credits: 3

Examines current topics and controversies in physical anthropology. Special problem areas vary from year to year.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2620 - SPECIAL TOPICS IN PHYSICAL ANTHROPOLOGY

Minimum Credits: 3

Maximum Credits: 3

Examines current topics and controversies in physical anthropology. Special problem areas vary from year to year.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2630 - PHYSICAL ANTHROPOLOGY RESEARCH

Minimum Credits: 3

Maximum Credits: 3

The student conducts independent research developed in consultation with, and carried out under the supervision of, a faculty member in biological anthropology.

Academic Career: Graduate

Course Component: Directed Studies

Grade Component: Grad LG/SNC Basis

ANTH 2687 - CORE COURSE IN PHYSICAL ANTHROPOLOGY

Minimum Credits: 4

Maximum Credits: 4

This course presents an integrated view of the diverse topics that biological anthropology encompasses. Emphasis is placed on how evolutionary, genetic and developmental processes shape human biology.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2688 - BIOLOGICAL ANTHROPOLOGY CORE COURSE

Minimum Credits: 3

Maximum Credits: 3

This course presents an integrated view of the diverse topics that biological anthropology encompasses. Emphasis is placed on how evolutionary, genetic and developmental processes shape human biology.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2688 - BIOLOGICAL ANTHROPOLOGY CORE COURSE

Minimum Credits: 3

Maximum Credits: 3

This course presents an integrated view of the diverse topics that biological anthropology encompasses. Emphasis is placed on how evolutionary, genetic and developmental processes shape human biology.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2715 - DIMENSIONS OF AGING: CULTURE AND HEALTH

Minimum Credits: 2

Maximum Credits: 2

Provides an overview of the aging experience from a cross cultural and a public health perspective. The ways in which people cope with and adapt to the aging process is the major theme.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Attributes: Asian Studies, Global Studies

ANTH 2720 - POETICS AND POLITICS OF ETHNOGRAPHY

Minimum Credits: 3

Maximum Credits: 3

The 1980s was described as "an experimental moment" in the human sciences and as a time of "crisis of representation" when anthropology has taken a literary, experimental, reflexive, modern, late-modern, postmodern, textualist turn. This seminar examines this experimental moment, its history and anthropological precursors, the critiques that have followed, and the suggestions for the future of ethnography and anthropological writing that

have ensued. Readings include a number of recent experimental ethnographies as well as a sample of older "classics".

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2724 - THE ANTHROPOLOGY OF SCIENCE: GLOBAL PERSPECTIVES

Minimum Credits: 3

Maximum Credits: 3

Science and technology are integral to contemporary societies. Understanding how science is produced and how it shapes daily life is a crucial challenge for anthropologists, who have studied the production of scientific knowledge in labs, hospitals, field sites, and elsewhere. While early studies of science as a cultural practice focused primarily on the U.S. and Europe, science and technology are produced and consumed globally. Through analyses of case studies of biotechnology, medicine, genetics, conservation, agriculture, energy, climate science, and computing around the world, this class will investigate the global dynamics of science and technology. Juxtaposing readings on different scientific fields from around the globe, we will look for recurring themes that connect these studies. What happens when science and technology travel, and how do new places emerge as centers of knowledge production? How are culture, identity, technology, and science linked?

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

ANTH 2725 - GLOBAL PHARMACEUTICALS

Minimum Credits: 3

Maximum Credits: 3

This course examines pharmaceuticals as cultural and social phenomena, following their development, production, marketing, and use around the globe. We will investigate a number of issues, including the growing number of drugs prescribed to Americans each year, the lack of access some populations have to essential medicines, the increasingly global nature of clinical trials, and the role of pharmaceutical companies in the opioid crisis. We will use the study of drugs and medicines to analyze the production of medical knowledge, changing perceptions of health and illness, and the role of the state and the market in the development and distribution of therapeutics. Pharmaceuticals bring together science, clinical practice, marketing, and consumerism, and this course will draw on anthropological research to trace the role they play in global flows of knowledge, capital, commodities, and people.

Academic Career: Graduate

Course Component: Seminar

Grade Component: LG/SNC Elective Basis

ANTH 2731 - MEDICAL ANTHROPOLOGY 2

Minimum Credits: 3

Maximum Credits: 3

This course deals with topics surveyed in medical anthropology 1, looking at them in more ethnographic depth and with greater attention to current research findings.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Global Studies

ANTH 2741 - ANTHROPOLOGY OF LAW

Minimum Credits: 3

Maximum Credits: 3

This course will examine anthropological analyses of law and law-like phenomena in a number of different societies, concentrating on the development of theory in this field. Since this theory reflects larger theoretical developments in anthropology and in post-war social science, the study of the anthropology of law is a case study in the development of modern theoretical paradigms.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Russian & East European Studies

ANTH 2744 - GRANTS AND RESEARCH DESIGN

Minimum Credits: 3

Maximum Credits: 3

This seminar will focus on the formulation of individual research problems and research designs in preparation for thesis research. Course requirements center around the development of a research proposal which will include a research design, area and theoretical background, field techniques and procedures, methodology, data analysis, and significance of the research. Grantsmanship, including how to submit proposals to various agencies, will be explored.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ANTH 2750 - CONTEMPORARY ANTHROPOLOGICAL THEORY

Minimum Credits: 3

Maximum Credits: 3

This seminar surveys recent developments in anthropological theory, with emphasis on social and cultural anthropology. Topics covered vary with interests of students and the instructor. The course centers on the close reading of several contemporary texts.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: African Studies, Global Studies

ANTH 2755 - THE ART OF PUBLICATION

Minimum Credits: 3

Maximum Credits: 3

This graduate course is intended as a workshop for refining papers for publication as journal articles or edited book chapters. The course is intended for relatively advanced graduate students who have a good idea at the outset of what they plan to publish and have the support of their advisor in this plan. We will go through the process of identifying suitable publication venues, revising drafts and figures for publication, and understanding what to expect from the peer-review process. Because the class involves substantial peer feedback, students are asked to commit to supporting their fellow students' revision process as well as devoting time to their own. The aim is for every student to submit a paper for publication by the end of the semester.

Course Component: Seminar

Grade Component: Grad LG/SNC Basis

Course Attributes: Asian Studies

ANTH 2788 - CULTURAL ANTHROPOLOGY CORE COURSE

Minimum Credits: 3

Maximum Credits: 3

This course is an introduction to the anthropological study of human culture and society. We will examine how different modes of description and explanation in contemporary cultural anthropology are applied to various domains (e.g., How different peoples feed themselves, mate and have children, cooperate and fight with one another, deal with the inevitability of death, etc.). By comparing the ways the human beings cope with the natural environment and each other, we will seek a better understanding of ourselves and what it is to be human.

Architectural Studies

ARC 2118 - ARCHITECTURE SINCE 1945

Minimum Credits: 3

Maximum Credits: 3

Treats the key developments in architecture throughout the world since World War II, including theory as well as practice. The course will focus on such figures as Frank Lloyd Wright, Mies Van der Rohe, Le Corbusier, James Stirling, Eero Saarinen, Louis Kahn, Kenzo Tange, Robert Venturi, Richard Rogers, and Norman Foster.

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ARC 2137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION

Minimum Credits: 3

Maximum Credits: 3

By 1880 traditional American architectural values had broken down under a barrage of ornament and imported European styles. But at the same moment a new American architecture was taking shape to express the new wealth of post-Civil War America and its new social order. The next hundred years would see a succession of brilliant architects in Sullivan, Wright, Mies, Johnson and the pluralists of today. These individual successes only partially mask some major problems; both constitute the underlying themes of this course.

ARC 2138 - BLACK BUILT AMERICA: ARCHITECTURES OF BLACK RESISTANCE IN THE UNITED STATES

Minimum Credits: 3

Maximum Credits: 3

This course offers a critical history of the Black labor, creativity, craftsmanship, engineering, and activism that built the United States of America. It is undeniable that Black Americans and African Americans have been brutally marginalized by the instruments of systemic racism including segregation, redlining, eviction, and more recently gentrification. In this class, however, that very real and continuing history of oppression is studied as the fuel for the creative agency of Black individuals and communities. Appropriating, intervening, and shaping the built environment became one of the many forms of Black resistance to racism and systemic injustices. In doing so, Black hands and Black minds shaped the very fabric of America's landscape. Our class begins and ends in Washington DC, posing important questions about the hidden and overt symbols of Black heritage in the nation's capital.

ARC 2152 - ROMAN ARCHITECTURE

Minimum Credits: 3

Maximum Credits: 3

The course will examine the development of roman architecture from its origins in Etruria and central Italy to the middle empire (ca. 150 Ad). Special attention will be given to the relationship of architectural forms, types and functions to changes in roman politics and society and the significance of materials and outside influences on the development of local Italian traditions and forms. The interaction between roman architectural forms and local traditions in the provinces to create a roman imperial "koine" will be treated only in passing.

ARC 2158 - ARCHITECTURE AND ENLIGHTENMENT

Minimum Credits: 3

Maximum Credits: 3

This course will examine architecture, city planning, interior design, and gardening in eighteenth-century Europe as the product of social, industrial, administrative, and intellectual transformations that began to radically challenge traditional spatial configurations and conventional approaches to building. In cosmopolitan centers like London and Paris, an unprecedented explosion of print media, rapid rises in literacy, and the development of a public sphere outside official power structures opened debate in the arts to previously marginal figures. A range of new voices thus emerged that impacted policy decisions in the urban realm and proffered advice and guidance in thinking about aesthetics and artistic production. The rise of science held out the possibility that cities and institutions could be reshaped to improve human welfare through better hygiene and the expansion of commerce. Influential new classes defined by wealth or specialized knowledge generated the creation of building types for a range of new activities. Elite domestic space in particular reflects a wholesale transformation of social priorities motivated by the novel concept of privacy. Narrowly defined Renaissance discourses on the arts founded exclusively on the model of ancient Rome collapsed under an avalanche of data gathered in remote sites around the Mediterranean and through contact with more far-flung civilizations around the world. New intellectual paradigms reconfigured the

relationship between individual and nature, between modern present and historical past. Consequently, the purpose of architecture mutated in the course of the eighteenth century as a bewildering range of new possibilities for shaping building and reshaping social relations were explored. Well before political revolution rocked European governments and toppled traditional hierarchies, the built environment served as a laboratory for experimentation and as a forum for reimagining society.

ARC 2162 - CAMPUS-COMMUNITY WORKSHOP

Minimum Credits: 3

Maximum Credits: 3

Architects and designers have a vital role to play as thinkers and advocates who work with organizations and communities to help imagine ways to reshape the environments in which we live and interact. Over the course of the term, students will investigate the Pitt campus and surrounding Oakland neighborhoods, conduct original research using primary and secondary sources, and think critically and creatively about ways the environment can be shaped to make positive change. Each student will develop an original, written proposal for either [1] an intervention that responds to a need, enhances the experience of being at the university, or improves the quality of life on campus or in an adjacent neighborhood; or [2] a research project that could be continued in a subsequent term for independent study credit.

Academic Career: Graduate

Course Component: Workshop

Grade Component: Grad Letter Grade

ARC 2180 - WORLD CITIES

Minimum Credits: 3

Maximum Credits: 3

This course establishes a set of issues and a chronological context through which to understand the main patterns of city development. Thus the paring of St. Petersburg and Brasilia, London and Los Angeles, Amsterdam and Chicago, points out similarities and differences in their shape and social context. Student reports on individual cities are an integral element of the course, and influence the choice of cities to be studied in detail.

Grade Component: Grad LG/SNC Basis

ARC 2181 - PITTSBURGH ARCHITECTURE/URBANISM

Minimum Credits: 3

Maximum Credits: 3

The course studies the physical environment of Pittsburgh; the topography, early settlement, the expansion of its industrial center, the post-war renewal, and the current shift from production to a service-based economy. A parallel study in the architectural history of Pittsburgh focuses on images of individual buildings from fort Pitt to the new skyscrapers. Student papers either expand research in building categories (industrial, domestic, etc.) or integrate the physical development of the region with its political and social history.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

ARC 2182 - PITTSBURGH NEIGHBORHOODS

Minimum Credits: 3

Maximum Credits: 3

Pittsburgh Neighborhoods is a course where students learn about people, culture, history, and current issues that confront under-represented communities and neighborhoods in Pittsburgh. Throughout the semester, with direction from the instructor, students learn about and employ ways to see, document, and interpret a neighborhood by engaging the built environment, historical documents, and community members in storytelling. They approach the built environment as a cultural product, explore place as a fusion of material culture and human perceptions and practices, and frame questions of power around the politics of the built environment. In this class, we will employ methods that help us transcend the realm of the visual and explore the experiential and ephemeral. We will learn to observe with all our senses, listen to community members, and document life when in the field, and excavate and explore visual and textual records when in the archive. In doing so, we will adopt theories and methodologies from

multiple fields, including urban/architectural history, cultural geography, anthropology, public history, and material culture studies.

ARC 2330 - GLOBAL PRESERVATION

Minimum Credits: 3

Maximum Credits: 3

The late-nineteenth and early-twentieth century debates regarding the role of the architectural monument as a signifier of the past, as a container of memory and more importantly authenticity, were the definitive moment in the institutionalization and professionalization of architectural preservation around the world. In a 1903 essay titled 'the modern cult of monuments,' art historian Alois Riegl claimed that while the creation of monuments (i.e. structures built to memorialize certain events or persons) had a long history that predates modernity, the 'cult of the monument' (i.e. the allocation of the monument as a unique and original object in a pre-ordained historical narrative of social and cultural evolution) came about as recently as the nineteenth-century. It is this coupling of the advent as well as the progress of modernity along with the formalization of systems of historic preservation that this course seeks to explore.

ARC 2340 - HERITAGE SITES

Minimum Credits: 3

Maximum Credits: 3

According to the United Nations Educational, Scientific and Cultural Organization (UNESCO), heritage sites encompass sites of "outstanding universal value from the historical, aesthetic, ethnological or anthropological point of view." This course will develop the fundamental themes, ideas, and case studies required to analyze, understand and critically engage with heritage sites in a comparative and global perspective. We will begin charting the European origins of the western understandings of heritage and exploring the development of national and international heritage legislation, charters and organizations. The course will then explore emerging trends that challenge Eurocentric notions of heritage: from critical heritage studies to approaches that specifically focus on minorities, women, and indigenous groups, and the broader issues of human rights and development. Starting from the second third of the semester, case studies from different geographic areas, time periods and themes will be discussed: heritage sites and national identity; heritage sites and tourism; heritage sites and sustainable development; threats to heritage; negative and difficult heritage; heritage and human rights; heritage futures. Finally, we will discuss the increasing interest in bottom-up initiatives that focus on grassroots, people-centered approaches to foster community engagement and participation in the management, programming and interpretation of heritage.

Athletic Training

ATHLTR 1811 - BASIC ATHLETIC TRAINING

Minimum Credits: 3

Maximum Credits: 3

This course is designed to provide the student with an introduction to the athletic training profession. Topics to include medical terminology, mechanisms of injury, and recognition and treatment of common athletic injuries to major body parts.

Academic Career: Undergraduate

Course Component: Lecture

Grade Component: Letter Grade

ATHLTR 1812 - BASIC ATHLETIC TRAINING LAB

Minimum Credits: 1

Maximum Credits: 1

An introduction to basic taping techniques and injury evaluation techniques used in the profession of athletic training. Basic supportive strappings and padding for immediate care and competition are presented as well as basic joint evaluation procedures, assessment of vital signs, and crutch fitting.

Academic Career: Undergraduate
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: CREQ: ATHLTR 1811

ATHLTR 1813 - INTRODUCTION TO CLINICAL ATHLETIC TRAINING 1

Minimum Credits: 1
Maximum Credits: 1

This course is designed to help prepare students for the demands associated with experiential learning and future clinical placements in the Athletic Training Education Program (ATP). The course will have a combined in-person meetings and associated class assignments that will include field observations at approved clinical education sites through the University of Pittsburgh. This course is a prerequisite for the Practicum I-IV Courses in the ATP.

ATHLTR 1815 - FOUNDATIONS IN EVALUATION AND TREATMENT

Minimum Credits: 1
Maximum Credits: 1

The objective of this course is to introduce and develop fundamental understanding of the component for evaluation and acute care. Specific objectives are to introduce the student to concepts related to patient interaction in regards to the evaluation process; the components and general principals of the evaluation process (patient observation, history, range of motion, strength, neurovascular, special tests, palpation, and diagnostics); a basic understanding and ability to perform range of motion and strength assessments and apply the appropriate grading tools. This course is a prerequisite for Therapeutic Interventions I-II courses in the Athletic Training Program.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (AT-MS) or SUBPLAN: Pre-Athletic Training (BSPATH-SP)

ATHLTR 1816 - MEDICAL ETHICS

Minimum Credits: 2
Maximum Credits: 2

This course addresses legal and ethical issues encountered by athletic trainers and other healthcare professionals who are part of the Sports Medicine team. Strong emphasis is placed on legal and ethical issues that occur within the realm of direct patient care. Additionally, the course will expose students with legal and institutional positions and examine relevant case studies. Students will also practice developing concrete logical arguments in support of a chosen ethical stance.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

ATHLTR 1833 - STRENGTH AND CONDITIONING

Minimum Credits: 2
Maximum Credits: 2

Instruction is provided describing the physiological basis for development of pre-season, in-season and off-season strength and conditioning programs. Laboratory experiences will include the theory and technique of operating contemporary isotonic, isokinetic and isometric strength training equipment.

ATHLTR 2807 - THERAPEUTIC INTERVENTIONS 1

Minimum Credits: 4

Maximum Credits: 4

The instruction and participation of this 4-credit course aim are to educate the student on intervention strategies for pre-operative, post-operative, and non-operative healthcare conditions. Students will develop the ability to implement an evidence-based care plan to address physical and social determinants of health needs through the introduction of therapeutic modalities and therapeutic exercise intervention for the lower extremity. The development of these skills will optimize the student's ability to critically think and apply skills to address a patient's or client's individual healthcare needs through prescription, administering, and assessment of therapeutic interventions. Topics in this course include but are not limited to tissue healing, pain control theory, lower extremity rehabilitation exercise, and foundations of therapeutic modalities. A combination of learning strategies from individual and group activities will allow students to establish and refine a clinical practice philosophy for injury/illness rehabilitation and prevention for the lower extremity.

Minimum Credits: 2

Maximum Credits: 2

This 2-credit course utilizes the basic structural knowledge provided in Human Anatomy and concepts learned in Kinesiology and Biomechanics to develop an understanding of the functional significance of the structures of the musculoskeletal system, within a movement setting (covering mechanical properties and functional characteristics). In addition to normal function, mechanisms of and adaptations to, common injuries, disease and rehabilitation is discussed.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Athletic Training (AT-MS) or SUBPLAN: Pre-Athletic Training (BSPATH-SP)

ATHLTR 2809 - FUNCTIONAL HUMAN ANATOMY

ATHLTR 2810 - EVIDENCE BASED PRACTICE IN ATHLETIC TRAINING

Minimum Credits: 2

Maximum Credits: 2

This 2-credit course provides athletic training students basic skills in reading, critiquing and applying research literature to patient care within athletic training. It will introduce the student to key concepts of EBP that are relevant to the field of athletic training and rehabilitation. This course will also review the principles and key components of clinical research, study design, and the differentiation between different levels of evidence. Students will learn how to appraise peer reviewed literature and apply to clinical practice. In this course students will identify and discuss evidence-based issues related to intervention and diagnosis through materials presented in lecture and the use of real-world clinical scenarios and literature. Topics will include but not be limited to cultural competency, diagnostic accuracy, clinical prediction rules, patient-oriented outcomes, disablement models/ICF codes, epidemiology & health informatics.

Academic Career: Graduate

Behavioral & Community Hlth Sci

BCHS 2135 - LEADERSHIP

Minimum Credits: 3

Maximum Credits: 3

This course examines theories about leadership and provides students with feedback on their own leadership styles. Leadership skills are defined and applied. Teams, as one context for demonstrating leadership, are explored in depth and methods for recognizing and managing group dynamics are introduced. Concepts regarding organization leadership are introduced. The course combines theory with practical application. It is highly participative and students are expected to join in a wide range of exercises and simulations. The two major assignments require that the students work in teams with other students.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2503 - PRACTICUM

Minimum Credits: 1

Maximum Credits: 3

Short term field placement relevant to the student's area of interest in an operating organization or agency.

Academic Career: Graduate

Course Component: Practicum

Grade Component: Grad SN Basis

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 2504 - OVERVIEW OF HEALTH COMMUNICATION

Minimum Credits: 3

Maximum Credits: 3

Health communication is the art and technique of informing, influencing, and motivating individual, institutional and public audiences about important health issues. The scope of health communication includes disease prevention, health promotion, health care policy and the business of health care as well as enhancement of the quality of life and health of individuals in the community. This class will introduce the theories and research that underlie health communication. The course will examine health communication campaigns, planning health communication and developing a health communication campaign.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (MPH, DPH)

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 2509 - SOCIAL AND BEHAVIORAL SCIENCES AND PUBLIC HEALTH

Minimum Credits: 3

Maximum Credits: 3

The core course provides an overview of the social and behavioral sciences and their importance in the inter-disciplinary field of public health. A primary emphasis is on the social-ecological model, its application to public health issues, and its use in the development of policies, strategies, interventions and programs. The course content will introduce students to several relevant social and behavioral theories as well as a range of community health assessment and planning models used by public health professionals in both domestic and international venues. Through a series of assigned readings, discussion exercises, group projects, quizzes and written assignments, students will enhance their knowledge and awareness of the role of social and behavioral sciences in public health and its relevance to their specific discipline. At the conclusion of the course students will be able to: identify the important social and behavioral determinants of health; describe the inter-relationships between the social, behavioral, bio-medical, physiological, and environmental factors related to individual and community health; identify the major health disparities related to social, behavioral and economic factors; describe the role of culture and socio-economic status in health behavior, access to services, and decision-making; and understand the importance of community partnerships and participatory approaches in the development, implementation, management and evaluation of community policies and programs.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PREQ: BCHS-MPH; EOH-MPH; EPIDEM-MPH; HPM-MPH; HUGEN-MS; IDM-MPH; MMPH-MPH

BCHS 2511 - INDEPENDENT STUDY

Minimum Credits: 1

Maximum Credits: 3

Students with major interests in specialty areas participate in courses of individual study, research activities, or advanced readings with a specified faculty member.

Academic Career: Graduate

Course Component: Independent Study

Grade Component: Grad SN Basis

BCHS 2516 - VIDEO FOR HEALTH PROMOTION

Minimum Credits: 3

Maximum Credits: 3

Video is an increasingly important media for the distribution of health promotion messages. The purpose of this class is to provide students with basic principles of script development and the video production process to be able to produce educational and persuasive short-form videos for health promotion. Students will develop, direct, and produce short-form health promotion videos for distribution on social media platforms.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION

Minimum Credits: 1

Maximum Credits: 1

The course is designed as an introduction to the major theories that are the foundation for most health promotion and health education interventions. It will provide the student with exposure to the current theories that are being used in health behavior and health promotion educational interventions. Also it will provide students with a theoretical foundation for designing, implementing and evaluating health promotion and education programs.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (MPH, DPH)

Course Attributes: Global Studies

BCHS 2521 - ESSAY

Minimum Credits: 1

Maximum Credits: 3

The essay requirement is designed to provide the student with an opportunity to integrate the major components of the public health learning experience. The student is expected to demonstrate verbal and technical proficiency in expository writing.

Academic Career: Graduate

Course Component: Thesis Research

Grade Component: Grad SN Basis

BCHS 2523 - PUBLIC HEALTH PROGRAM PLANNING AND PROPOSAL WRITING

Minimum Credits: 3

Maximum Credits: 3

This course is designed to expose students to critical health program planning, implementation and evaluation tools and strategies in a format that models actual program implementation. It is a required course for BCHS master's students and has been developed in response to requests from students for guidance in developing the skills necessary for the effective execution of public health interventions. This class complements other bchs coursework in that it gives the student the opportunity to apply theories and models learned in other classes. In particular, the socio-ecological theory heavily influences the content of this course. Through discussions, presentations, written assignments, and in-class activities, students will learn resources for, and gain practice in, the stages of program development, including budgets and use of logic models. Students will learn how to present their program proposals in both written and oral formats.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (MPH, DPH, PHD)

BCHS 2524 - OVERVIEW OF HEALTH EQUITY

Minimum Credits: 3

Maximum Credits: 3

Achieving health equity and understanding health disparities involve a critical analysis of historical, political, economic, social, cultural, and environmental conditions that have produced an inequitable health status for vulnerable populations in the United States. Health disparities are an important focus on improving population health and one of healthy people 2020's overarching goal is 'to achieve health equity, eliminate disparities, and improve the health of all groups'. The purpose of this class is to introduce basic issues that underlie health disparities. This course will include an

overview of current literature and foster discussions that will examine health disparities, explore social and environmental determinants of those disparities, critically review measurement issues, and determine public health's response to addressing these disparities and achieving health equity. Students should seek to critically reflect on their personal and professional roles in eliminating health disparities and achieving health equity.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2525 - INTRODUCTION TO APPLIED RESEARCH

Minimum Credits: 3

Maximum Credits: 3

The goal of the course is to give students a basic understanding of social and behavioral sciences research principles, as well as how these methods are implemented in the field of public health. Relationship of applied research to program evaluation, the link of theory to research, and the translation of research information to applied public health programs and policies will be emphasized. Participatory research will be highlighted. Quantitative and qualitative strategies, research designs, data collection methods, participant selection, and data analysis will be covered.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (MPH, DPH, PHD)

BCHS 2526 - HEALTH EQUITY RESEARCH: METHODS AND INTERVENTIONS

Minimum Credits: 3

Maximum Credits: 3

This course is one of the series of courses required for the certificate in health equity, and will examine the challenges in, and methods for, health inequities research and interventions. It is intended to both complement and expand upon the knowledge gained in other BCHS courses and/or professional exposure by focusing on a wide range of populations that experience health inequities. Inequities that we will explore include (but not be limited to) those evidenced by gender, ethnicity, disability, socioeconomic status, sexual orientation, and rural/urban living. Through discussions, presentations, written assignments, and in-class activities, students will gain exposure to methods and resources for research in health inequities. This will include ethics and research in diverse communities; barriers and facilitators to engaging diverse populations in health research; advisory boards and coalitions; data bases and research designs utilized in equities research, and the application of research findings to program development. Students will work both in interdisciplinary teams and individually to effectively present their work in written and oral presentations.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2528 - INTEGRATIVE SEMINAR IN HEALTH EQUITY

Minimum Credits: 1

Maximum Credits: 1

This one credit seminar serves as the integrative course for the health equity certificate. Students build upon and apply the knowledge and experiences gained from all of the previous certificate core and elective courses to specific public health problems while considering a health policy framework. The seminar is designed to expose students to the critical analysis of a health policy as it affects health equity, as well as provides an opportunity for students to network with a variety of academic and community leaders that can potentially further their knowledge and practical skills in this area.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad Letter Grade

BCHS 2532 - DIMENSIONS OF AGING: CULTURE AND HEALTH

Minimum Credits: 2

Maximum Credits: 2

Provides an overview of the aging experience from a cross cultural and a public health perspective. The ways in which people cope with and adapt to the aging process is the major theme.

Academic Career: Graduate

Course Component: Lecture
Grade Component: Grad Letter Grade
Course Attributes: Asian Studies, Global Studies

BCHS 2534 - CLINICAL ASPECTS OF DEMENTIA CARE

Minimum Credits: 2

Maximum Credits: 2

This course is designed as an independent study for students in the public health and aging program. Its focus is on the methods and technology for diagnosis and treatment of Alzheimer's Disease.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2551 - SOCIAL NETWORKS & HEALTH

Minimum Credits: 1

Maximum Credits: 1

This course is an introduction to the theory, methods, and procedures of network analysis with emphasis on applications to health and social behavior. The goal of the course is to provide a working knowledge of concepts and methods used to describe and analyze social networks so that professionals and researchers can understand the results and implications of this body of research. The course also provides the training necessary for scholars to conduct network analysis in their own research and practice careers.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2554 - INTRODUCTION TO COMMUNITY HEALTH

Minimum Credits: 3

Maximum Credits: 3

This course uses strengths-based and social ecological approaches to prepare students for practicing public health with communities. Through in-class activities, discussions, community-based experiences and written assignments students will learn appropriate ways to engage communities and assist them in building their own capacity to identify and address health issues. Students will also learn techniques for conducting community health assessments using both primary and secondary data.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (PHD, DPH, MPH)

Course Attributes: Community Element - Building Understanding

BCHS 2558 - HEALTH PROGRAM EVALUATION

Minimum Credits: 3

Maximum Credits: 3

Surveys the evaluation and policy research methods applied to health. Students learn to critically assess the adequacy of evaluations and how to plan and pilot test an evaluation.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2560 - INTRODUCTION TO POPULATION PROBLEMS

Minimum Credits: 3

Maximum Credits: 3

The impact of population growth, distribution, and change on social, economic, environmental, and health relationships is presented with a focus on the sociopolitical responses to population dynamics.

Academic Career: Graduate
Course Component: Seminar
Grade Component: Grad Letter Grade
Course Attributes: Global Studies

BCHS 2562 - SEMINAR IN FAMILY PLANNING

Minimum Credits: 3

Maximum Credits: 3

Participants explore the history of contraception and the birth control movement. Issues related to contraceptive care and the broader concerns of women's health are discussed.

Academic Career: Graduate
Course Component: Seminar
Grade Component: Grad Letter Grade

BCHS 2572 - RISK COMMUNICATION

Minimum Credits: 3

Maximum Credits: 3

Course focuses on risk communication within the context of terrorism and natural disasters. The didactic and experiential course will include core principles of risk communication, examine special challenges of risk communication with diverse audiences and media, and prepare students to create risk and crisis communication campaigns.

Academic Career: Graduate
Course Component: Lecture
Grade Component: Grad Letter Grade

BCHS 2575 - SEMINAR MATERNAL AND CHILD HEALTH

Minimum Credits: 3

Maximum Credits: 3

Seminar deals with current issues in society affecting the health of children and their families. For example, problems of adolescent pregnancy, child abuse and neglect, emotional abuse and sexual abuse; prevailing attitudes and responses; etiology and risk factors; and multidisciplinary preventive strategies.

Academic Career: Graduate
Course Component: Seminar
Grade Component: Grad Letter Grade

BCHS 2599 - PUBLIC HEALTH APPROACHES TO WOMEN'S HEALTH

Minimum Credits: 3

Maximum Credits: 3

Public health problems affecting women, i.e., Alcoholism, smoking, occupational health, reproductive health, aging and cancer, as well as health and social problems relating primarily to women are discussed. Etiology of health problems, prevention and treatment, high-risk groups, and controversies related to care are covered.

Academic Career: Graduate
Course Component: Lecture
Grade Component: Grad LG/SNC Basis

BCHS 2600 - HARM REDUCTION APPROACHES IN HEALTH AND PUBLIC HEALTH SETTINGS

Minimum Credits: 1.5

Maximum Credits: 1.5

The aims of this seven week course are to introduce students to harm reduction (HR) principles as a conceptual approach to care rather than simply as a set of strategies, like syringe exchange, and to challenge them to consider how HR-informed approaches to care may improve participant and provider outcomes. The approach to care builds on lessons learned from community and provider settings that have demonstrated success in engaging and caring for marginalized populations including those who use substances. However, this course extends the conversation about harm

reduction to aspects of care that can promote health improvement among all patient and client populations, not just those who use drugs. Concepts that will be discussed include universal harm reduction and herd harm reduction. The course will incorporate a number of speakers who will address the application of HR in specific settings.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2605 - COMMUNITY DEVELOPMENT AND FOCUS GROUPS: PREPARATION, FACILITATION AND APPLICATION

Minimum Credits: 1

Maximum Credits: 1

This workshop introduces students to the focus group as a data collection strategy and prepares them to use focus groups as a research tool. The workshop uses lectures, discussions and interactive exercises to familiarize students with all aspects of focus groups. Topics covered include the theoretical basis of focus groups, formulating questions, recruiting participants, designing sampling schemes, facilitating the discussion, taking notes and applying/reporting out on the data. Students will complete a series of assignments designed to sharpen their listening, facilitating and analytical abilities. Critical components of the class will be observation of and hands-on experience with facilitating discussions, taking notes and reporting.

Ability to role play highly desirable.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2608 - INTRODUCTION TO COMMUNITY BASED PARTICIPATORY RESEARCH

Minimum Credits: 1

Maximum Credits: 1

This course is organized around themes central to the conceptualization and implementation of community-based participatory research (CBPR). The goal of this course is to familiarize students with CBPR. Students will become conversant in seminal CBPR literature. Discussion, interactive learning exercises, and examples of current research will be used to provide an understanding of CBPR and the associated strengths and limitations.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 2609 - TRANSLATING RESEARCH FOR POLICY AND PRACTICE

Minimum Credits: 1

Maximum Credits: 1

This course provides an introduction to concepts and skills in knowledge translation (a coordinated, collaborative approach to ensure that research findings are utilized by key stakeholders) and to the role of research in changing policy and practice at local, regional, and national levels. This module will build on concepts in community-partnered research introduced in module a of this three-part sequence in community based participatory research. This skills-based module will introduce learners to theoretical concepts in knowledge translation (KT), dissemination and implementation science, and apply these concepts to practical exercises to translate research findings for relevance to other key stakeholders, including community partners, program developers, and policy makers. One session will be devoted specifically to skills building in legislative and media advocacy. The goal of this course is to familiarize learners with the critically important steps involved in translating research findings for relevance to stakeholders beyond academia. Discussion, interactive learning exercises, and examples of research dissemination and implementation science will be used to provide a foundation in kt as an aspect of community-partnered research.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 2610 - CONCEPT MAPPING: A PARTICIPATORY RESEARCH METHOD

Minimum Credits: 1

Maximum Credits: 1

This course provides hand-on training in the participatory research method known as concept mapping (cm). Cm gives community members and other stakeholders a unique chance to have their own words communicate ideas and concepts. Research participants contribute directly in the processing of this information as it directly relates to their community and intervention needs. The goal of the course is to familiarize students with example applications of the research method and to provide training related to concept mapping data collection and analysis. Discussion, interactive learning exercises, and examples of current research will be used to provide an understanding of cm and the associated strengths and limitations.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad LG/SNC Basis

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 2612 - PROJECT MANAGEMENT IN PUBLIC HEALTH

Minimum Credits: 2

Maximum Credits: 2

The purpose of the course is to prepare students to effectively manage a range of public health projects. The course is lecture/discussion/laboratory/application based. Project management software is used including Microsoft Project and Visio. Industry standard body of knowledge is the foundation of the course further illustrated with case studies and examples. There are no pre-requisite courses or software skills.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2660 - HARM REDUCTION APPROACHED IN HEALTH & PUBLIC HEALTH SETTINGS

Minimum Credits: 1

Maximum Credits: 1

The aims of this seven week course are to introduce students to harm reduction (HR) principles as a conceptual approach to care rather than simply as a set of strategies, like syringe exchange, and to challenge them to consider how HR-informed approaches to care may improve participant and provider outcomes. The approach to care builds on lessons learned from community and provider settings that have demonstrated success in engaging and caring for marginalized populations including those who use substances. However, this course extends the conversation about harm reduction to aspects of care that can promote health improvement among all patient and client populations, not just those who use drugs. BCHS 2990 - SOCIAL DYNAMICS IN PUBLIC HEALTH

Minimum Credits: 1

Maximum Credits: 1

This course is an introduction to historic and current concepts about complex, dynamic systems in public health research and practice. We will discuss the rationale for adopting systems thinking - an approach to analyzing the impact of systems within their social, spatial, and temporal context - in behavioral and community health research and practice and illustrate how this approach is critical for the development of public health policy. The course will include didactic sessions, guest lectures, hands-on engagement with tools that allow us to represent dynamic social systems, as well as seminar-style discussions of studies that examine dynamic social systems in public health. (Note: BCHS 2520 is recommended.)

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PROG: Graduate Sch of Public Health

BCHS 2991 - MULTILEVEL ANALYSIS IN PUBLIC HEALTH

Minimum Credits: 1

Maximum Credits: 1

Multilevel analysis is an essential statistical tool in public health that can simultaneously investigate the effects of factors at multiple social ecological levels on individual-level outcomes. In this course, students will learn to identify scientific problems that necessitate the use of multilevel statistical

modeling techniques and understand the essential theoretical underpinnings of multilevel analysis. Students will conduct multilevel statistical modeling procedures using Stata and interpret the statistical and practical meaning of fixed and random effect coefficients from the output of these models. Special emphasis will be placed on the strengths and limitations of multilevel analysis in investigating social and group-level determinants of health. BIOD 2041, PSYED 2018, or permission to enroll from the instructor required. Knowledge of linear regression, logistics regression or ANOVA strongly preferred.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 2992 - SYSTEMS THEORIES AND APPROACHES

Minimum Credits: 1

Maximum Credits: 1

Systems science approaches were developed to understand connections between a system's structure and its behavior over time. The use of such approaches within public health research and practice has grown tremendously over the past decade. Identifying and understanding the dynamic relationships between individuals and their social and physical environments can help us identify potential leverage points for intervention. This course provides an introduction to systems thinking and models in public health, explores the importance of associated theories and underscores the utility of systems science approaches within public health research and practice. We will highlight current systems science public health research and encourage students to think critically about the utility of systems theories and approaches within public health.

Academic Career: Graduate

BCHS 2995 - GLOBAL PERSPECTIVES ON WOMEN'S HEALTH: EMPOWERMENT, GENDER EQUALITY, AND HEALTH

Minimum Credits: 2

Maximum Credits: 2

Limited educational opportunities, financial dependence, and gender bias and discrimination are intersecting factors that contribute to poor health status and well-being among women around the world. This course examines the relationship between such macro-level factors and women's health and explores promising interventions and policy changes aimed at promoting women's empowerment, gender equality, and improved and sustained health outcomes for women. Specific attention is given to examining the connection between women's health and educational and legal initiatives and microfinance programming. Illustrative case examples are drawn from instructor global experience conducted on related research in Thailand, India, and Peru and relevant readings. Key health issues discussed will include gender-based violence, reproductive and sexual health, and pregnancy outcomes. To emphasize key points, guest speakers from diverse fields, including women's studies, ethics, law, and economics will be invited to provide additional insights regarding the complexities associated with the topic and with effective and innovative intervention development.

Academic Career: Graduate

Grade Component: Grad Letter Grade

BCHS 3004 - INTEGRATIVE RESEARCH SEMINAR: GRANT WRITING

Minimum Credits: 1

Maximum Credits: 1

Every graduate of a doctoral program needs to know how to write a successful grant application to fund their work. Whether you are a senior manager leading a public health program in the public or non-profit sectors or you are a researcher working in an academic setting, you will need funding to support your work! We begin this doctoral seminar by asking the question, "how do you write a grant proposal that will attract the attention of a funding agency and convince them that your application is significant and should be a priority for funding?" building on the ideas articulated in BCHS doctoral students' preliminary examination, we will focus on writing the specific aims and significance sections for an NIH grant proposal. The students' written work will be shared with and critiqued by other students and faculty participating in the seminar. Finally, we will review and critique examples of successful and unsuccessful grant applications "both program and research grants (especially research grants that the students will most likely be writing at the beginning of their academic careers" namely, ro-3s or r-21s).

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad SN Basis

Course Attributes: Global Studies

BCHS 3006 - INTEGRATIVE RESEARCH SEMINAR: WRITING FOR PUBLICATION

Minimum Credits: 1

Maximum Credits: 1

The Integrative Research Seminar: Writing for Publication focuses on the process of developing a manuscript for publication in a peer-reviewed journal. All doctoral students must develop the skills to enable them to write and publish the results of their work. The goal of this seminar is to provide students with the requisite knowledge and skills to develop a manuscript for submission to an appropriate journal for publication. As part of this process students will also learn about the peer review process and how reviewers rate manuscripts submitted for publication. It is expected that students in this seminar will work closely with their academic mentor(s) on the development of manuscripts throughout their doctoral program. And, this seminar will assist students in fulfilling the requirement to submit at least one first-authored manuscript-- ideally based on their dissertation research, before they graduate. The seminar content will be delivered via a series of faculty presentations and discussions. There are no prerequisites for this seminar.

Academic Career: Graduate

Minimum Credits: 1

Maximum Credits: 15

Academic Career: Graduate

Course Component: Thesis Research

Grade Component: Grad SN Basis

BCHS 3015 - COMMUNITY MAPPING AND INTRODUCTORY SPATIAL ANALYSIS

Minimum Credits: 3

Maximum Credits: 3

This course provides an introduction to the use of spatial data in public health. The two main goals are (1) to familiarize students with the use of geographic data in public health research and practice; and (2) to introduce basic spatial analytic skills applied to geographic and spatial data. Students will be taught how to use geographic information systems (GIS) to inform both community practice and research. They will learn how to create, manage, and analyze geographic data and gain hands-on experience applying these techniques to research questions. No previous knowledge of mapping or GIS is assumed. One lecture and one lab per week.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Attributes: Global Studies

BCHS 3021 - COMPUTER METHODS FOR SOCIAL NETWORKS

Minimum Credits: 1

Maximum Credits: 1

This course provides hands-on training in social network analysis using 3 different software packages: UCInet, R, and Gephi. It is intended for those students who are interested in conducting their own social network studies using the latest available software. It is a time-intensive lab and project course. Topics to be covered include: -How to use UCInet to conduct intermediate and advanced SNA -How to use R to use custom SNA packages - How to use Gephi to conduct basic SNA and generate descriptive network graphs This course consists of in-class examples using SNA software, designing a network analysis plan in consideration of software features, and a final project. Assignments are designed to build components of a full network study, using specific analytic features from available software, visualizing network(s), and culminating in the final project. Individual projects will use data that can be provided or is collected by the student themselves.

Grade Component: Grad LG/SNC Basis

BCHS 3030 - MEASUREMENT IN THE SOCIAL AND BEHAVIORAL SCIENCES

Minimum Credits: 2

Maximum Credits: 2

The goal of this two-credit course is to provide you with fundamental skills to identify, use and create scales and indices for research and evaluation. The course will be primarily based on classical measurement theory, yet we will discuss item response theory as well. We will also cover good measurement processes, including establishing and evaluating validity and reliability. We will address communication of measurement principles and applications to lay and scientific audiences. Throughout the course, materials will highlight the influence that culture and socio-demographics have on measurement tools and their validity.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 3503 - PREVENTION SCIENCE: TRANSLATING KNOWLEDGE TO PRACTICE

Minimum Credits: 3

Maximum Credits: 3

The purpose of this course is to provide a solid grounding in basic concepts, theories, practical approaches and methods associated with prevention (defined here as both problem prevention and health promotion). The course will focus on behavioral and psycho-social areas including substance abuse, mental health, victimization, and sexually transmitted infections, including HIV.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Attributes: Community Element - Building Understanding, Community Element -General Community Impact

BCHS 3504 - DOCTORAL SEMINAR ON HEALTH COMMUNICATIONS

Minimum Credits: 3

Maximum Credits: 3

This doctoral seminar provides an opportunity for in depth exploration of health communication topics with a particular emphasis on critical analysis of past and current health communication techniques and the application of current best practices in health communication. This class is required for DRPH students in BCHS and will allow students to explore health communication issues within their individual fields of interest.

Academic Career: Graduate

Course Component: Seminar

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (PHD or DPH)

BCHS 3506 - IMPLEMENTATION SCIENCE IN PUBLIC HEALTH

Minimum Credits: 3

Maximum Credits: 3

The purpose of this course is to prepare students with the knowledge and skills to conduct implementation science within the field of public health. Although evidence-based interventions are widely available, they are underutilized to address a wide variety of public health challenges. We will examine barriers that exist with respect to the implementation of evidence-based interventions (EBIs) and strategies to overcome these barriers. Specific topics include strategies to identify EBIs, assessing and strengthening organizations' and communities' readiness to utilize EBIs, dissemination and scaling up, cultural adaptation of EBIs, and implementation science theories and conceptual frameworks.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

BCHS 3555 - DOCTORAL SEMINAR IN BEHAVIORAL AND COMMUNITY HEALTH SCIENCES THEORIES AND MODELS

Minimum Credits: 3

Maximum Credits: 3

This course is a requirement for students in the doctoral program in the department of behavioral and community health sciences. The seminar is designed to stimulate critical thinking about specific public health issues from within the framework of various behavioral and community theories and models. The purpose of this doctoral seminar is to critically apply and evaluate specific conceptual models and theoretical frameworks to particular significant public health problems or issues. This requires that seminar participants acquire close working familiarity with various conceptual tools and substantive issues. One goal underlying the selection of the substantive issues has been to select those which challenge, provoke, confront, excite, and stimulate seminar participants about economic and political controversies in contemporary healthcare and public health. Similarly, the selection of issues and reading materials dealing with those issues, challenge taken-for granted assumptions with respect to health and illness, public health and medical care as well as health policies and health politics. A final objective of the seminar is to challenge participants to reassess their conception of the field of public health and their place in it. Is it a profession? A discipline? An applied social science? What are the implications/consequences of each?

Course Component: Seminar

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (PHD or DPH)

BCHS 3703 - EXECUTIVE MANAGEMENT PRACTICUM

Minimum Credits: 1

Maximum Credits: 3

The purpose of the executive management practicum is to provide a structure for students in the DRPH program to gain experience in the application of the core set of competencies in high level practice settings. The association of schools of public health has identified seven competencies that students are expected to master during their doctoral study. Four of these are the focus of the practicum: advocacy, communication, leadership, and management. Practicum sites will be chosen based on the mission of the organization and the opportunity for the student to be able to exercise and refine their skills in the areas of management, leadership, communication and advocacy.

Academic Career: Graduate

Course Component: Practicum

Grade Component: Grad SN Basis

BCHS 3707 - APPLIED MULTIPLE REGRESSION ANALYSIS AND CAUSAL MODELING FOR THE BEHAVIORAL AND COMMUNITY HEALTH SCI

Minimum Credits: 3

Maximum Credits: 3

This course was designed to teach advanced graduate students how to use applied multivariate regression analysis to design, propose, and test complex research questions using a causal modeling framework. The course will include a brief review of simple linear regression, and quickly move to advanced multiple regression analysis topics including multiple predictor regression, stepwise regression approaches, the analysis of longitudinal data with regression, and examining mediators, moderators and confounding variables and their relationship to the independent and dependent variables of interest. The course will also include several other brief seminars on regression diagnostics, dichotomous predictors and outcome variables, power analysis, and an introduction to other multivariate analysis frameworks including structural equation modeling and longitudinal growth modeling. Students will be required to bring their own multivariate data set and research questions to use for class assignments, preferably data directly related to their dissertation project.

Academic Career: Graduate

Course Component: Lecture

Grade Component: Grad Letter Grade

Course Requirements: PLAN: Behavioral & Community Hlth Sc (DPH or PhD)

BCHS 3888 - PREPARATION FOR COMPREHENSIVE EXAMINATION

Minimum Credits: 1

Maximum Credits: 3

This course is designed to be an independent study for BCHS doctoral students in order for them to be able to read and prepare for their comprehensive exam. The purpose of the BCHS comprehensive examination is to "to assess the student's mastery of the general field of doctoral study, the student's acquisition of both depth and breadth in the area of specialization within the general field, and the ability to use the research methods of the discipline".

Academic Career: Graduate

Course Component: Independent Study

Grade Component: Grad SN Basis

Bioengineering

BIOENG 1320 - BIOLOGICAL SIGNALS AND SYSTEMS

Minimum Credits: 3

Maximum Credits: 3

The theory and application of linear time-invariant (LTI) systems is explored, with emphasis on an appreciation of the description and analysis of biomedical signals and systems via LTI methods. After completing the course, the student should be able to state the properties of LTI systems; be able to test whether a system is LTI; know how to obtain, and interpret, the frequency response, impulse response, step response, and transfer function of a system. The student should also be able to demonstrate mastery of the mathematical skills of convolution and integral transform techniques

Academic Career: Undergraduate

Course Component: Lecture

Grade Component: Letter Grade

Course Requirements: PREQ: BIOENG 1310 and MATH 0240 and MATH 0290; PLAN: Bioengineering

Course Attributes: Hourly Final

BIOENG 2001 - MATHEMATICAL METHODS IN BIOENGINEERING 1

Minimum Credits: 3

Maximum Credits: 3

All you don't want to miss in mathematics will be covered in this first course of bioengineering graduate students. Solving systems of linear equations and ordinary differential equations will be covered with engineering examples and assignments. Finite difference methods for boundary value problems, Laplace equation, Poisson equation, parabolic partial differential equations, and hyperbolic differential equations will be discussed along with project assignments. Fourier series will be introduced as well.

Academic Career: Graduate
Course Component: Lecture
Grade Component: Grad Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 2005 - RADIOFREQUENCY MEDICAL DEVICES AND APPLICATIONS OF ELECTROMAGNETICS IN MEDICINE

Minimum Credits: 3

Maximum Credits: 3

The course will cover topics related to applied electromagnetics in medicine. Topics such as Maxwell equations, wave equations, transmission lines, electromagnetic theorems, introduction to antennas, and introduction to computational electromagnetics will be presented. The class will include analyses of several RF devices used in medical applications such as MRI, biological sensors, RF ablation.

Academic Career: Graduate
