University of Pittsburgh Nondiscrimination Policy Statement

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, as fully explained in Policy 07-01-03, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity and expression, genetic information, disability, or status as a veteran. The University also prohibits and will not engage in retaliation against any person who makes a claim of discrimination or harassment or who provides information in such an investigation. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. This policy applies to admissions, employment, access to and treatment in University programs and activities. This is a commitment made by the University and is in accordance with federal, state, and/or local laws and regulations.

For information on University equal opportunity and affirmative action programs, please contact: University of Pittsburgh, Office of Affirmative Action, Diversity and Inclusion, Pamela W. Connelly, Associate Vice Chancellor, 500 Craig Hall, Pittsburgh, PA 15260 (412) 648-7860.

For complete details on the University's Nondiscrimination Policy, please refer to Policy 07-01-03. For information on how to file a complaint under this policy, please refer to Procedure 07-01-03.

About the University of Pittsburgh

The University of Pittsburgh is an internationally respected center of learning and research, offering exceptional educational opportunities in the arts, sciences, and professions.

Mission

The University of Pittsburgh, founded in 1787, is one of the oldest institutions of higher education in the United States. As one of the nation's distinguished comprehensive universities, the resources of the University constitute an invaluable asset for the intellectual, economic, and social enrichment of Pennsylvania, while the international prestige of the University enhances the image of Pennsylvania throughout the world.

The University's mission is to:

• Provide high-quality undergraduate programs in the arts and sciences and professional fields, with emphasis upon those of special benefit to the citizens of Pennsylvania;

• Offer superior graduate programs in the arts and sciences and the professions that respond to the needs of Pennsylvania, as well as to the broader needs of the nation and the world;

• Engage in research, artistic, and scholarly activities that advance learning through the extension of the frontiers of knowledge and creative endeavor;

• Cooperate with industrial and governmental institutions to transfer knowledge in science, technology, and health care;

• Offer continuing education programs adapted to the personal enrichment, professional upgrading, and career advancement interests and needs of adult Pennsylvanians; and

• Make available to local communities and public agencies the expertise of the University in ways that are consistent with the primary teaching and research functions and contribute to social, intellectual, and economic development in the Commonwealth, the nation, and the world.

The trustees, faculty, staff, students, and administration of the University are dedicated to accomplishing this mission, to which they pledge their individual and collective efforts, determined that the University shall continue to be counted among the prominent institutions of higher education throughout the world.

History

The University began in the Pennsylvania wilderness as the Pittsburgh Academy in 1787, the year the U.S. Constitution was adopted. Thirty-two years later, the Pittsburgh Academy became the Western University of Pittsburgh, and in 1908, the school changed its name to the University of Pittsburgh. Graduate degrees have been conferred since 1836, and the first doctoral program was developed in 1884. A private institution for most of its past, the University of Pittsburgh became state-related in 1966, establishing a relationship with the Commonwealth of Pennsylvania that continues to benefit both partners. Today, as an elected member of the prestigious Association of American Universities, the University of Pittsburgh claims its place among the top public research universities in the nation.

Accreditation

The University of Pittsburgh is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104, (267) 284 - 5000. In addition, programs may be accredited by discipline-specific accrediting bodies. See Schools, Departments, and Programs section of this catalog for this information.

Academic Organization and Pittsburgh Campus Overview
As a state-related, coeducational institution, the University of Pittsburgh's Pittsburgh campus offers a multitude of degree-granting and other programs housed in 16 undergraduate, graduate, and professional schools. The University system includes the Pittsburgh campus and four regional campuses at Bradford, Greensburg, Johnstown, and Titusville.

There are more than 100 academic, research, and administrative buildings and residence halls located on the Pittsburgh campus, which covers 132 acres in the culturally rich Oakland neighborhood. At the heart of the campus stands a central landmark—the Cathedral of Learning, a 42-story Gothic tower, which is the tallest school building in the Western Hemisphere. The Cathedral contains the Nationality Rooms, 27 classrooms, each designed to reflect a distinct culture and providing an overall, multidimensional understanding of America's heritage.

At the Pittsburgh campus, over 4,900 faculty serve over 28,500 students, including 9,500 graduate and more than 19,000 undergraduate students. Alumni accomplishments range from managing Fortune 500 corporations, to writing best-selling novels, to unlocking the secrets of DNA ... and more.

Web Address

For more information on the University of Pittsburgh, see the University's Web site at www.pitt.edu.
Administrative Officers, Schools, and Campuses

Administrative Officers of the University of Pittsburgh

Patrick D. Gallagher, PhD, Chancellor and Chief Executive Officer

Ann Cudd, PhD, Provost and Senior Vice Chancellor

Kathy W. Humphrey, PhD, Senior Vice Chancellor for Engagement, Chief of Staff and Secretary of the Board of Trustees

Cynthia C. Moore, JD, Deputy Secretary of the Board of Trustees

Greg Schuler, MBA, Chief Investment Officer

Paul Lawrence, MBA, Treasurer

University of Pittsburgh Board of Trustees

The Board of Trustees is responsible for advancing the purposes of the University; promoting and protecting its independence, academic freedom, and integrity; and enhancing and preserving its assets for the benefit of future students and society at large. In addition, because the University of Pittsburgh is a state-related institution, the trustees ensure that Pitt meets its obligations both to the Commonwealth of Pennsylvania and to society generally.

General administrative, academic, and management authority is delegated to the chancellor. However, the board retains ultimate responsibility for all University affairs.

There are three or more regular meetings of the Board of Trustees each year, including an annual meeting. Special meetings also may be called. Much of the board's work is carried out by committees; many of these committees include faculty, staff, and students as non-voting representatives.

Eva Tansky Blum, Chairperson

Patrick Gallagher, Chancellor of the University of Pittsburgh, Member Ex-Officio (voting)

Academic Regulations

Advising

Academic advising is a key part of every undergraduate's experience at the University of Pittsburgh. An academic advisor helps a student determine the appropriate academic path to further the student's educational and career goals. To be a success, the advising process must work both ways: The advisor will be there to help when the student needs it, and the student must actively seek out an advisor for help. Before signing up for classes each term, students meet with their advisors. Though each school may have different advising requirements, students are generally required to meet with their advisors at least two times per term for an advising appointment and a subsequent registration appointment. Consult with the individual school for school-specific advising services.

Allowable Credits (Credit and Course Limitations)

There are certain limitations on credits, other than those earned as part of regular undergraduate courses taken at the University, that may be applied toward a degree. Those limitations are detailed below.

Advanced Standing Credits

Each school determines whether and under what circumstances the advanced standing credits listed below will be awarded toward a University of Pittsburgh degree or certificate offered by the school. Contact the individual schools for details.

Transfer Credit

The University will grant credit earned at other institutions based on course equivalencies, including expected learning outcomes, with those of the University curriculum and standards, subject to University policy and individual school requirements. The University will not refuse to consider a transfer credit based on the accreditation of the sending institution. Transfer credit is subject to University policy and individual school requirements.

Advanced Placement

Credits may be earned toward a University of Pittsburgh degree or certificate through standardized examinations such as the College-Level Examination Program (CLEP), Occupational Competency, Excelsior College Examination Program, and Advanced Placement (AP) Exams. In addition, some schools give credit for the International Baccalaureate Higher-Level Examinations. Students should contact their school to determine how credit may be granted based on completion of these examinations.

Credit by Examination

In some cases, students may earn credits toward a University of Pittsburgh degree or certificate by passing a course examination without registering for the course. Contact the individual department or school for information, as each sets its own policies as to the specific courses for which students may request credit by examination.

Career Development Courses

Noncredit, career development courses are not applicable to the bachelor's degree but may be included among the requirements for certain professional certificates.

Cooperative Programs
The University has established some arrangements with industries that permit students to rotate four-month terms between the workplace and the classroom. These are paid positions related to the student's field of study. These programs are administered by the Swanson School of Engineering and are available to any student with a science-related major. The experience normally starts in the sophomore or junior year. Students should contact their school or department to determine the maximum number of credits that may be earned toward their degree requirements through cooperative programs. Call 412-624-9826 for more information.

**Duplication of Course Content**

Students may not earn credit for courses that substantially duplicate the content of other courses for which they have already received credit.

**Directed Reading and Research, Independent Study, Internships**

Some schools offer individually designed study other than regular courses. Students are limited by the individual schools as to how many such independent study, directed reading, directed research, and internship credits can be counted among the required credits for the degree. Requirements and procedures may also differ. Contact school for details.

**Directed Reading**

The student undertakes a specified course of study comparable to a regular course under the direct supervision of a faculty member.

**Directed Research**

The student pursues a defined research project on campus under the guidance of a faculty member.

**Independent Study**

Independent study involves an independent program of study, research, or creative activity designed under specified conditions and is usually conducted off campus with less immediate direction by the sponsoring faculty member.

**Internships**

Some schools provide internship experiences appropriate to the student's academic discipline. An internship is a supervised, work-related experience, either volunteer or compensated. It is intended to be a new experience, not an existing position in which the student is already working. Students will only get internship credit for a current employment situation that has been pre-approved as an internship by the relevant school or department.

**English Language Institute Courses**

Credit for certain English Language Institute courses may be applied toward the undergraduate degree. See school for details.

**Enrollment in Graduate Courses**

University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need fewer than 15 credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate degree program. This privilege should not be granted if the proposed total program exceeds a normal full-time load.
Although these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate transcript.

**Reserve Officer Training Corps (ROTC) Credits**

Students may elect to participate in either the Air Force ROTC or Army ROTC Programs at the University of Pittsburgh or the Navy ROTC Program at Carnegie Mellon University. Contact individual schools to determine which credits earned in ROTC courses may be applied toward a degree. (For more information on ROTC, see the Special Academic Opportunities section of this catalog.)

**Registration**

For additional registration information, visit the University registrar's Web site at www.registrar.pitt.edu

**Full-Time and Part-Time Study**

Full-time study is defined as enrollment for 12 to 18 credits per term, and part-time study is defined as enrollment for one to 11 credits per term. Students are charged a flat tuition rate for full-time study in the fall and spring terms. For part-time students, tuition payment is on a per-credit basis. Students may exceed the 18-credit limit with written permission from the dean of their school, but they will be billed on a per-credit basis for each additional credit. University fees and other applicable charges are assessed on student statements. Some schools within the University may also apply academic limitations on the number of credits for which a student is permitted to enroll each term. For instance, students in Arts and Sciences must get permission to enroll for more than 18 credits. During the summer term and summer sessions, most students are billed on a per-credit basis regardless of the number of credits taken.

**Registering for Classes**

After students are admitted to a school they will be assigned an academic advisor. All Undergraduate students must meet with their academic advisor each term prior to enrolling in classes. Most students have the ability to use the self-service enrollment tools available through the Student Portal or Pitt PS Mobile.

Continuing students with the ability to utilize self-service enrollment will be assigned an enrollment appointment during the first two weeks of the enrollment period. Students in programs that do not permit self-service enrollment should contact their academic advisor regarding the enrollment process for their program. The enrollment period for a term or session is published in the University's *Academic Calendar*.

Once students have enrolled they may view their class schedules online via the Student Portal or Pitt PS Mobile.

**Adding and Dropping Courses**

Students may add or drop courses from the start of their enrollment appointment until the end of the add/drop period. The dates for the add/drop periods are published in the University's *Academic Calendar*. Students are encouraged to consult their academic advisors regarding the impact of course changes on their academic career. Students who no longer wish to remain enrolled in a course after the add/drop period has ended may withdraw from the course or resign from the University. See Monitored Withdrawal from a Course and Resigning from the University.

**Extended Drop Period**

Under special circumstances, undergraduate students may be eligible to drop a course in the third week of the fall or spring semester, effective with the Spring 2018 semester. Students must meet all of the following criteria to drop a course during the extended drop period:

- Undergraduate students at all campuses
- Undergraduate courses
- Fall and spring semesters
• Students must remain in full-time status after dropping the course(s).
• The student's advisor must provide permission to drop.

Students must review the proposed drop with their academic advisor. If the student's advisor finds that the student is eligible, the advisor will process the drop(s). If the student's advisor cannot process the drop for any reason, then the advisor will request that the Registrar's Office at the student's campus process it.

Cross-Registration

Cross-registration provides students with the opportunity to enroll in courses at member institutions of the Pittsburgh Council on Higher Education (PCHE). The designated colleges and universities at which undergraduate students may cross-register include Carlow University, Carnegie Mellon University, Chatham University, Community College of Allegheny County, Duquesne University, La Roche College, Pittsburgh Theological Seminary, Point Park University, and Robert Morris University. Only full-time students may cross-register. Please note that students must maintain a full-time course load (at least 12 credits as an undergraduate) at Pitt while cross-registered. Students who cross-register do not pay tuition to the host institution; however, they are responsible for any additional fees associated with the course such as laboratory fees, books, and the like. Students normally may register for only one course off campus in a given term. The grades and credits earned at the host institution are transferred to the home school. The academic policies of the host institution prevail.

Cross-registration is only available in the fall and spring terms. During the summer, students may attend one of the above colleges as guest students, but they must pay that institution's tuition and fees. Students are discouraged from cross-registering during their term of graduation to avoid any delays in the receipt of course credit needed to graduate. Students should meet with their advisors or a school representative before they cross-register. For more information on cross-registration, visit www.pchepa.org.

Monitored Withdrawal from a Course

After the add/drop period has ended, students may withdraw from a course that they no longer wish to attend by completing a Monitored Withdrawal Request form in the office of the school offering the course. Students must process the Monitored Withdrawal Request form within the first nine weeks of the term in the fall and spring. Because summer sessions vary in length, students should check the University's Academic Calendar for those deadlines. Students should check with the school offering the course for the last day to submit a Monitored Withdrawal Request form. The grade W will appear on the student's grade report and transcript. There is no financial adjustment to students' tuition or fee obligations involved in withdrawing from courses, but withdrawing may jeopardize satisfactory academic progress, financial aid, and athletic eligibility.

Resigning from the University/Termination of Registration

If students decide to drop all of their courses after the add/drop period has ended and before 60 percent of the term or session has been completed, they must resign from the University for that term. Official resignation from the University requires students to contact the Student Appeals Office. Students have several options. They may resign in person, by mail, or by calling 412-624-7585, where students may leave a message 24 hours a day, including weekends and holidays. An R grade will appear on the student's academic transcript for each course in the term of resignation. Tuition is prorated from the date of the student's notification to the Student Appeals Office of the student's desire to resign, unless 60 percent of the term has been completed, in which case there is no refund.

After the 60 percent point in time of the term or session has passed, students who wish to terminate their registration may process withdrawal from all classes only with the permission of the academic dean. If the reason for withdrawal is medical or psychological in nature, the academic dean may consult with the director of Student Health Service prior to making a determination. There is no financial adjustment associated with this procedure, which results in the assignment of W grades for the courses.

Grading and Records

For additional grading and records information, visit the University Registrar's Web site at www.registrar.pitt.edu.

GPA
The Grade Point Average (GPA) is the numeric indication of a student's academic achievement based on a 4.00 grade point scale. Undergraduates must have a 2.00 GPA in order to graduate from the University of Pittsburgh. The value is the average of total letter grades earned and is available by term or career. Some academic centers may also maintain degree and/or major/departmental GPA values.

**Grading System**

The University of Pittsburgh has a standard letter grade system (see Letter Grade Option). Some additional grading options are available in some courses as determined by the school and the instructor (see Grading Options below). Finally, undergraduate students may choose to audit a course. Students must complete Grade Option/Audit Request forms to request a grading option available in a particular course.

**Grading Options**

Individual schools may elect to offer a course with the following grade options:

- **LG**  Letter grade
- **H/S/U**  Honors/Satisfactory/Unsatisfactory
- **S/NC**  Satisfactory/No-Credit (Formerly the S/N Option)

LG and H/S/U: Letter grade and Honors/Satisfactory/Unsatisfactory

LG and S/NC: Letter grade and Satisfactory/No-Credit

Students may select a grade option for those courses that offer more than one option at the point of enrollment or by submitting a Grade Option/Audit Request form by the established deadline to the school offering the course (generally four weeks from the start of the term, but check with the school for specific deadlines). If the student does not select a grade option for a course when more than one grade option is available, the default option (generally the letter grade option) will automatically apply.

**Letter Grade Option**

The University's letter grade system identified below will be followed without exception:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>4.00 Superior</td>
</tr>
<tr>
<td>A-</td>
<td>3.75</td>
</tr>
<tr>
<td>B+</td>
<td>3.25</td>
</tr>
<tr>
<td>B</td>
<td>3.00 Meritorious</td>
</tr>
<tr>
<td>B-</td>
<td>2.75</td>
</tr>
<tr>
<td>C+</td>
<td>2.25</td>
</tr>
<tr>
<td>C</td>
<td>2.00 Adequate</td>
</tr>
<tr>
<td>C-</td>
<td>1.75</td>
</tr>
<tr>
<td>D+</td>
<td>1.25</td>
</tr>
</tbody>
</table>
D = 1.00 Minimal
D- = 0.75
F = 0.00 Failure

H/S/U Grade Option

Certain courses are offered on the H/S/U (Honors/Satisfactory/Unsatisfactory) grade option. Under this option, students earn an H if they do exceptional work (equivalent to an A- or higher under the letter grade system), an S if they do satisfactory work (equivalent to grades from a C up to a B+), or a U if they do unsatisfactory work (equivalent to a C- or lower). The H and S grades received under this option are counted toward graduation but are not computed in the student's GPA. The U grade is counted toward neither graduation nor the GPA.

S/NC Grade Option (Formerly the S/N Option)

Certain courses are offered on the S/NC (Satisfactory/No-Credit) grade option. This option was designed to encourage students to explore new and potentially difficult subjects without fear of the risks of failure. Under this option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (No Credit) is given. Courses for which an S is received are counted toward graduation, but are not computed in the GPA. Courses in which an NC is received are counted toward neither graduation nor the GPA.

Other Grades: Unfinished, Resign, Withdraw

Upon a student's completion of a course, one of the grades listed below may appear on the student's transcript in lieu of one of the options selected by the student and/or instructor (the options are listed under Grading Options). None of these grades carries quality points:

G Grade
The G grade signifies unfinished course work due to extenuating personal circumstances. Students assigned G grades are required to complete course requirements no later than one year after the term or session in which the course was taken. Some schools have a shorter deadline for completion of G grades; see school for details.

Once the deadline has passed, the G grade will remain on the record, and the student will be required to reregister for the course if it is needed to fulfill requirements for graduation.

R Grade
The R grade signifies that a student resigned from the University for the term. (See Resigning from the University for more information.)

W Grade
The W grade signifies that a student has withdrawn from a course. (See Monitored Withdrawal from a Course for more information.)

Auditing a Course

With the consent of the school and instructor, students may choose to audit a course. To audit a course, a student must register and pay tuition for the course. The audit grade (N) is not counted toward graduation or the GPA.
Repeating Courses

Students may elect to repeat a course, subject to the following stipulations. Students should check with their individual schools for other school-specific rules on repeating courses, including the need to submit appropriate forms.

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The grade earned by repeating a course is used instead of the grade originally earned. W, R, or N grades reported for the repeated course will not be identified as a course repeat, and therefore the original grade earned will continue to be counted in the GPA. Incomplete grades (G and I) are not identified as repeated courses until the course work is completed.
- Students are only permitted to repeat a course twice. Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.

Grade Changes

The instructor of a course may change a student's grade by submitting a Grade Change Request Form which can be found on the Faculty Portal. All grade changes require the authorization of the dean of the school from which the original grade was issued. Students can verify grade changes for the terms available online via Student Portal at my.pitt.edu or via Pitt PS Mobile.

Viewing Grades

Students can access their grades online via the Student Center at my.pitt.edu or via Pitt PS Mobile. Grade submission deadlines can be found in the University's Academic Calendar.

Transcripts

An academic transcript serves as a permanent record of a student's academic progress. The transcript is a cumulative record of the student's GPA, as well as a record of the department, title, and grade for each course in which the student has enrolled and summary advanced standing information. Students may request an official transcript that bears the seal and signature of the University registrar. Upon graduation, the transcript reflects a student's degree and date, major, minor, or certificate, and, if applicable, honors, area of concentration.

Academic Record

The academic record is not an official University transcript, but a document containing a student's complete University of Pittsburgh academic history. In addition to the information provided on the transcript, the academic record may display additional course details, certain academic events and detailed advanced standing/placement/transfer credit information. Students can view a copy of their academic record in the Student Center at my.pitt.edu.

Academic Standing

Undergraduate students' academic standing is maintained and monitored each term by the school in which a student is enrolled. Students who are not on academic probation or academic suspension (i.e., students who maintain a cumulative grade point average of 2.00 or higher) are considered to be in good academic standing.

Dean's List
Students whose grades indicate outstanding academic achievement are recognized on their school's Dean's List. The following schools have a Dean's List:

- Dietrich School of Arts and Sciences
- College of Business Administration
- School of Dental Medicine
- Swanson School of Engineering
- College of General Studies
- School of Health and Rehabilitation Sciences
- School of Information Sciences
- School of Nursing
- School of Pharmacy

Other Academic Honors

Schools and programs may have additional ways of recognizing academic achievement by students, such as Phi Beta Kappa, Tau Beta Pi, or a Term Honor List. More information about these opportunities is available through the school.

Probation, Suspension, and Dismissal

Students who fail to make satisfactory progress may be subject to academic probation and/or suspension and dismissal. Students who have completed at least 12 quality point credits and whose GPA falls below 2.00 will be placed on academic probation by the dean of the school. After a certain period of time on academic probation (determined by the student's school), a student is subject to academic suspension and restricted from registering for classes in that school. Details of the undergraduate school's probation system are available through that school.

Effect on Financial Aid

Conditions for financial aid eligibility usually require students to complete a specified number of credits each year and maintain a specified grade point average (GPA: credits counting toward the degree). Questions about the effect of unsatisfactory academic standing on financial aid should be directed to the Office of Admissions and Financial Aid in Alumni Hall at 412-624-7488.

Graduation

Requirements for Graduation

Graduation requirements differ among schools. However, all undergraduate schools require a minimum of 120 passing credits to graduate, as well as a GPA of at least 2.00. (See specific schools and programs for detailed graduation requirements.)

Application to Graduate

Students must file an application for graduation through their college or school. Generally, students must apply for graduation before the end of the term preceding the one during which they expect to complete all degree requirements. Each school establishes its own deadline by which students must apply for graduation. Students should check with their schools for the deadlines.

Graduation with Honors

Undergraduate members of a graduating class who have attained an outstanding scholastic record may be graduated with University honors. To be eligible, a student must complete at least 60 letter-graded credits at the University of Pittsburgh. All degree-related course work completed at the
University is calculated in the grade point average. Receipt of University honors is based on having obtained the following grade point average at graduation:

- Summa Cum Laude 3.75
- Magna Cum Laude 3.50
- Cum Laude 3.25

The honor status achieved by a student will appear on the student's official University transcript and diploma.

Each school may award undergraduate program honors based on the major GPA and other criteria, as determined by the school and department.

**Commencement**

Candidates for graduation are encouraged to appear in person at commencement, usually held the Sunday after the spring term ends. Although degrees are conferred at commencement for all graduation periods, the official certification for April and May graduates occurs several weeks after the ceremony.

With the exception of students who receive their diplomas at individual school ceremonies, all diplomas are mailed to students approximately four weeks after the official certification date for each graduation period.

**Student Rights and Responsibilities**

The University has a number of official policies affecting students. For complete and current text on all University policies, please see www.cfo.pitt.edu/policies/.

The information that follows summarizes several key University-wide policies affecting undergraduate students, but students are also responsible for being cognizant of those University, school, and departmental regulations relevant to their programs of study.

**Academic Integrity Policy**

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures here.

**Computing Use Policy**

Every member of the University community has two basic rights regarding computing: privacy and a fair share of resources. It is unethical for another person to violate these rights. All users, in turn, are expected to exercise common sense and decency with regard to the campus computing resources. Please read Acceptable Computing Access and Use, available in campus computing labs or online at technology.pitt.edu/security/acceptable-computing-access-and-use for details.

Students are subject to the rules and regulations as described in the University of Pittsburgh Student Code of Conduct. Students should realize that any misuse of computing resources may result in the suspension of their computing privileges.

**Student Code of Conduct**

The Student Code of Conduct is an outline of the nonacademic rights and responsibilities of University students. The code defines offenses by and against students. A student or University official may file a complaint of violation of the Student Code of Conduct at the University Student Judicial
System. For a copy of the code, please contact the judicial system office in 738 William Pitt Union at 412-648-7910 or see www.studentaffairs.pitt.edu/studentconduct.

Judicial System

The Office of Student Conduct of the University Student Judicial System coordinates the Campus Judicial Board. It also receives, previews, and acts upon complaints of violations of the Student Code of Conduct. Its purpose is to provide due process and fair treatment in adjudicating charges filed for violations of the code. All complaints about nonacademic student behavior should be filed here.

Pitt Promise: A Commitment to Civility

The University of Pittsburgh is committed to the advancement of learning and service to society. This is best accomplished in an atmosphere of mutual respect and civility, self-restraint, concern for others, and academic integrity. Students are asked to accept the obligation to live by these common values and commit themselves to principles of behavior that contribute to a civil campus environment and to support this behavior in others. The Pitt Promise is online at www.studentaffairs.pitt.edu/pitt-promise/.

Other Policies

Affirmative Action and University of Pittsburgh Nondiscrimination Policy Statement

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, as fully explained in Policy 07-01-03, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity and expression, genetic information, disability, or status as a veteran. The University also prohibits and will not engage in retaliation against any person who makes a claim of discrimination or harassment or who provides information in such an investigation. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University’s mission. This policy applies to admissions, employment, access to and treatment in University programs and activities. This is a commitment made by the University and is in accordance with federal, state, and/or local laws and regulations.

For information on University equal opportunity and affirmative action programs, please contact: University of Pittsburgh, Office of Affirmative Action, Diversity and Inclusion, Pamela W. Connelly, Associate Vice Chancellor, 500 Craig Hall, Pittsburgh, PA 15260 (412) 648-7860.

For complete details on the University’s Nondiscrimination Policy, please refer to Policy 07-01-03. For information on how to file a complaint under this policy, please refer to Procedure 07-01-03.

Drug-Free School and Workplace Policy

The University of Pittsburgh prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on University property or as part of any University activity. Faculty, staff, and students of the University must also comply with the laws of the Commonwealth of Pennsylvania on the possession and consumption of alcohol.

Violation of this policy will result in disciplinary action within 30 days, including, but not limited to, a warning, written reprimand, suspension, dismissal, expulsion, and/or mandatory participation and successful completion of a drug abuse assistance or rehabilitation program approved by an appropriate health or law-enforcement agency.

Any University employee paid from federally funded grants or contracts, or any students participating in any federally funded or guaranteed Student Loan Program, must notify the University of any criminal drug statute conviction for a violation occurring at the University or while engaged in University activities. For more information, see www.cfo.pitt.edu/policies/procedure/06/06-02-01.html.
E-mail Communication Policy

The University of Pittsburgh has established e-mail as an official means of communication with students. For more information, see www.cfo.pitt.edu/policies/policy/09/09-10-01.html.

Faculty-Student Relationships

The University's educational mission is promoted by professional relationships between faculty members and students. Relationships of an intimate nature (that is, sexual and/or romantic) compromise the integrity of a faculty-student relationship whenever the faculty member has a professional responsibility for the student. The University prohibits intimate relationships between a faculty member and a student whose academic work, teaching, or research is being supervised or evaluated by the faculty member.

If an intimate relationship should exist or develop between a faculty member and a student, the University requires the faculty member to remove himself/herself from all supervisory, evaluative, and/or formal advisory roles with respect to the student.

Definition note: In this policy, the definition of faculty member refers to anyone appointed by the University as a teacher, researcher, or academic administrator, including graduate and undergraduate students so appointed. For complete text on this policy, see www.cfo.pitt.edu/policies/policy/02/02-04-03.html.

Family Educational Rights and Privacy Act (FERPA)

In compliance with the Family Educational Rights and Privacy Act of 1974, the University guarantees that students have the right to inspect all personally identifiable records maintained by the institution and may challenge the content and accuracy of those records through appropriate institutional procedures. It is further guaranteed by the University that student records containing personally identifiable information will not be released except as permitted by the Family Educational Rights and Privacy Act. See www.registrar.pitt.edu/ferpa.html for more information.

Harassment Policies

Harassment

No University employee, student, or individual on University property may intentionally harass or abuse a person (physically or verbally) with the purpose or effect of unreasonably interfering with such person's work or academic performance, or of creating an intimidating, hostile, or offensive work or academic environment.

Sexual Harassment

The University of Pittsburgh is committed to the maintenance of a community free from all forms of sexual harassment. Sexual harassment violates University policy as well as state, federal, and local laws. It is neither permitted nor condoned.

It is also a violation of the University of Pittsburgh's policy against sexual harassment for any employee or student at the University of Pittsburgh to attempt in any way to retaliate against a person who makes a claim of sexual harassment. Any individual who, after thorough investigation and an informal or formal hearing, is found to have violated the University's policy against sexual harassment will be subject to disciplinary action, including, but not limited to, reprimand, suspension, termination, or expulsion.

Any disciplinary action taken will depend upon the severity of the offense. For more information, see www.cfo.pitt.edu/policies/documents/policy06-05-01web.pdf.

Immunization Policy
The University requires the immunization of all incoming freshmen against measles, mumps, and rubella as a condition of attendance at the University of Pittsburgh. Incoming freshmen must provide to the University Student Health Service documentation of immunization that includes the month, day, and year that the immunizations were administered. Completed immunization forms must be kept on file in the Student Health Service.

Exemptions may be granted based on a written statement from a physician that the immunization may be detrimental to the health of the student or on a student's objection to immunization on religious grounds or on the basis of a strong moral or ethical conviction similar to a religious belief. However, if an outbreak of measles, mumps, or rubella occurs, the State Health Department may exclude from classes students who do not provide proof of immunity to these diseases. For more information, see www.cfo.pitt.edu/policies/policy/06/06-01-02.html.

Patent Policy

A University student, during his or her period of enrollment, may be responsible for new discoveries and inventions that could have commercial value and contribute to scientific, technological, social, and cultural progress. Those accomplishments should be patented in the best interest of the student, the University, the public, and the government. The University's policy on patents determines the rights and obligations of the student and the University in any technology the student may invent while enrolled in the University. Details of this University policy are available from the Office of Technology Management or at www.cfo.pitt.edu/policies/policy/11/11-02-01.html.

Research Integrity

The University of Pittsburgh seeks excellence in the discovery and dissemination of knowledge. Excellence in scholarship requires all members of the University community to adhere strictly to the highest standards of integrity with regard to research, instruction, and evaluation. Research misconduct carries potential for serious harm to the University community, to the integrity of science, and to society as a whole. The University's Research Integrity Policy is available online at www.cfo.pitt.edu/policies/policy/11/11-01-01.html.

Smoking Policy

Smoking is prohibited in all University-owned and -leased facilities, including residence halls and off-campus housing facilities, and in all University vehicles, including motor pool vehicles, campus buses, and vans, with explicit limited exceptions described in University Policy 04-05-03. For complete policy text, see www.cfo.pitt.edu/policies/policy/04/04-05-03.html.

Student Service Indicators Policy

Access to many student services including registration and access to grades may be delayed for a number of reasons ranging from financial liability to missing data. Complete information on this policy is available online at www.cfo.pitt.edu/policies/policy/09/09-04-09.html.

Use of Alcohol Policy

The University of Pittsburgh prohibits use and dispensing of alcohol in compliance with the laws of the Commonwealth of Pennsylvania. For more information, see www.cfo.pitt.edu/policies/policy/04/04-05-02.html.

Student Rights and Responsibilities

The University has a number of official policies affecting students. For complete and current text on all University policies, please see http://www.bc.pitt.edu/policies/.

The information that follows summarizes several key University-wide policies affecting undergraduate students, but students are also responsible for being cognizant of those University, school, and departmental regulations relevant to their programs of study.

Academic Integrity Policy
Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures at www.provost.pitt.edu/info/ai1.html.

**Computing Use Policy**

Every member of the University community has two basic rights regarding computing: privacy and a fair share of resources. It is unethical for another person to violate these rights. All users, in turn, are expected to exercise common sense and decency with regard to the campus computing resources. Please read *Ethical Guidelines for Computing*, available in campus computing labs or online at www.technology.pitt.edu/subpages/ethics.html for details.

Students are subject to the rules and regulations as described in the University of Pittsburgh *Student Code of Conduct*. Students should realize that any misuse of computing resources may result in the suspension of their computing privileges.

**Student Code of Conduct**

The *Student Code of Conduct* is an outline of the nonacademic rights and responsibilities of University students. The code defines offenses by and against students. A student or University official may file a complaint of violation of the *Student Code of Conduct* at the University Student Judicial System. For a copy of the code, please contact the judicial system office in 738 William Pitt Union at 412-648-7910 or see www.studentaffairs.pitt.edu/studentconduct.

**Judicial System**

The Office of Student Conduct of the University Student Judicial System coordinates the Campus Judicial Board. It also receives, previews, and acts upon complaints of violations of the Student Code of Conduct. Its purpose is to provide due process and fair treatment in adjudicating charges filed for violations of the code. All complaints about nonacademic student behavior should be filed here.

**Pitt Promise: A Commitment to Civility**

The University of Pittsburgh is committed to the advancement of learning and service to society. This is best accomplished in an atmosphere of mutual respect and civility, self-restraint, concern for others, and academic integrity. Students are asked to accept the obligation to live by these common values and commit themselves to principles of behavior that contribute to a civil campus environment and to support this behavior in others. The Pitt Promise is online at www.studentaffairs.pitt.edu/pittpromise.

**Academic Standing**

Undergraduate students' academic standing is maintained and monitored each term by the school in which a student is enrolled. Students who are not on academic probation or academic suspension (i.e., students who maintain a cumulative grade point average of 2.00 or higher) are considered to be in good academic standing.

**Dean's List**

Students whose grades indicate outstanding academic achievement are recognized on their school's Dean's List. The following schools have a Dean's List:

- Dietrich School of Arts and Sciences
- College of Business Administration
Other Academic Honors

Schools and programs may have additional ways of recognizing academic achievement by students, such as Phi Beta Kappa, Tau Beta Pi, or a Term Honor List. More information about these opportunities is available through the school.

Probation, Suspension, and Dismissal

Students who fail to make satisfactory progress may be subject to academic probation and/or suspension and dismissal. Students who have completed at least 12 quality point credits and whose GPA falls below 2.00 will be placed on academic probation by the dean of the school. After a certain period of time on academic probation (determined by the student's school), a student is subject to academic suspension and restricted from registering for classes in that school. Details of the undergraduate school's probation system are available through that school.

Effect on Financial Aid

Conditions for financial aid eligibility usually require students to complete a specified number of credits each year and maintain a specified grade point average (GPA: credits counting toward the degree). Questions about the effect of unsatisfactory academic standing on financial aid should be directed to the Office of Admissions and Financial Aid in Alumni Hall at 412-624-7488.

Allowable Credits (Credit and Course Limitations)

There are certain limitations on credits, other than those earned as part of regular undergraduate courses taken at the University, that may be applied toward a degree. Those limitations are detailed below.

Advanced Standing Credits

Each school determines whether and under what circumstances the advanced standing credits listed below will be awarded toward a University of Pittsburgh degree or certificate offered by the school. Contact the individual schools for details.

Transfer Credit

Credit may be earned at other appropriately accredited institutions and accepted for transfer to the University of Pittsburgh, subject to University policy and individual school requirements.

Advanced Placement

Credits may be earned toward a University of Pittsburgh degree or certificate through standardized examinations such as the College-Level Examination Program (CLEP), Occupational Competency, Excelsior College Examination Program, and Advanced Placement (AP) Exams. In addition, some schools give credit for the International Baccalaureate Higher-Level Examinations. Credit is given for the following AP Exam scores:

- Students will have to check with the department to determine credit or waiver.
- Students wishing to take German language courses must still take the German Placement Exam at their orientation session.

**Credit by Examination**
In some cases, students may earn credits toward a University of Pittsburgh degree or certificate by passing a course examination without registering for the course. Contact the individual department or school for information, as each sets its own policies as to the specific courses for which students may request credit by examination.

Career Development Courses

Noncredit, career development courses are not applicable to the bachelor's degree but may be included among the requirements for certain professional certificates.

Cooperative Programs

The University has established some arrangements with industries that permit students to rotate four-month terms between the workplace and the classroom. These are paid positions related to the student's field of study. These programs are administered by the Swanson School of Engineering and are available to any student with a science-related major. The experience normally starts in the sophomore or junior year. Students should contact their school or department to determine the maximum number of credits that may be earned toward their degree requirements through cooperative programs. Call 412-624-9826 for more information.

Duplication of Course Content

Students may not earn credit for courses that substantially duplicate the content of other courses for which they have already received credit.

Directed Reading and Research, Independent Study, Internships

Some schools offer individually designed study other than regular courses. Students are limited by the individual schools as to how many such independent study, directed reading, directed research, and internship credits can be counted among the required credits for the degree. Requirements and procedures may also differ. Contact school for details.

Directed Reading

The student undertakes a specified course of study comparable to a regular course under the direct supervision of a faculty member.

Directed Research

The student pursues a defined research project on campus under the guidance of a faculty member.

Independent Study

Independent study involves an independent program of study, research, or creative activity designed under specified conditions and is usually conducted off campus with less immediate direction by the sponsoring faculty member.

Internships

Some schools provide internship experiences appropriate to the student's academic discipline. An internship is a supervised, work-related experience, either volunteer or compensated. It is intended to be a new experience, not an existing position in which the student is already working. Students will only get internship credit for a current employment situation that has been pre-approved as an internship by the relevant school or department.

English Language Institute Courses
Credit for certain English Language Institute courses may be applied toward the undergraduate degree. See school for details.

**Enrollment in Graduate Courses**

Undergraduate students with sufficient preparation are permitted to enroll in graduate courses, and credits earned may be counted toward the undergraduate degree following procedures determined by each school. Credits earned in graduate courses taken by an undergraduate student typically cannot be counted subsequently toward a graduate degree. Consult the appropriate graduate or professional school bulletin for rules governing transfer credits for graduate-level courses taken by an undergraduate student.

**PittOnline (formerly External Studies)**

The PittOnline Program offers most courses to students in a Web-based environment. Most course materials can be accessed through CourseWeb, the University's course management system. Web courses feature Web-based instruction and interaction. Students interact with their instructors and other students through the class Web site. Students complete the course requirements within one term and move through the course materials as a cohort. Hybrid courses combine Web-based interaction and face-to-face instruction. Students are required to attend scheduled workshops and participate in online discussions and activities.

Self-paced courses utilize a flexible format where students move through assigned course materials at their own pace. Workshops and Web-based activities are features of some courses. The course syllabus provides more information about workshops and Web-based activities for these courses. Self-paced courses without CourseWeb are indicated with a SPW designation.

For additional information on PittOnline courses, contact the College of General Studies at 412-624-7210.

**Reserve Officer Training Corps (ROTC) Credits**

Students may elect to participate in either the Air Force ROTC or Army ROTC Programs at the University of Pittsburgh or the Navy ROTC Program at Carnegie Mellon University. Contact individual schools to determine which credits earned in ROTC courses may be applied toward a degree. (For more information on ROTC, see the Special Academic Opportunities section of this bulletin.)

**Other Policies**

**Affirmative Action and University of Pittsburgh Nondiscrimination Policy Statement**

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, as fully explained in Policy 07-01-03, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity and expression, genetic information, disability, or status as a veteran. The University also prohibits and will not engage in retaliation against any person who makes a claim of discrimination or harassment or who provides information in such an investigation. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. This policy applies to admissions, employment, access to and treatment in University programs and activities. This is a commitment made by the University and is in accordance with federal, state, and/or local laws and regulations.

For information on University equal opportunity and affirmative action programs, please contact: University of Pittsburgh, Office of Affirmative Action, Diversity and Inclusion, Carol W. Mohamed, Director (and Title IX, 504 and ADA Coordinator), 412 Bellefield Hall, Pittsburgh, PA 15260 (412) 648-7860.

For complete details on the University's Nondiscrimination Policy, please refer to Policy 07-01-03. For information on how to file a complaint under this Policy, please refer to Procedure 07-01-03.
Drug-Free School and Workplace Policy

The University of Pittsburgh prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on University property or as part of any University activity. Faculty, staff, and students of the University must also comply with the laws of the Commonwealth of Pennsylvania on the possession and consumption of alcohol.

Violation of this policy will result in disciplinary action within 30 days, including, but not limited to, a warning, written reprimand, suspension, dismissal, expulsion, and/or mandatory participation and successful completion of a drug abuse assistance or rehabilitation program approved by an appropriate health or law-enforcement agency.

Any University employee paid from federally funded grants or contracts, or any students participating in any federally funded or guaranteed Student Loan Program, must notify the University of any criminal drug statute conviction for a violation occurring at the University or while engaged in University activities. For more information, see www.bc.pitt.edu/policies/policy/06/06-02-01.html.

E-mail Communication Policy

The University of Pittsburgh has established e-mail as an official means of communication with students. For more information, see www.bc.pitt.edu/policies/policy/09/09-10-01.html.

Faculty-Student Relationships

The University's educational mission is promoted by professional relationships between faculty members and students. Relationships of an intimate nature (that is, sexual and/or romantic) compromise the integrity of a faculty-student relationship whenever the faculty member has a professional responsibility for the student. The University prohibits intimate relationships between a faculty member and a student whose academic work, teaching, or research is being supervised or evaluated by the faculty member.

If an intimate relationship should exist or develop between a faculty member and a student, the University requires the faculty member to remove himself/herself from all supervisory, evaluative, and/or formal advisory roles with respect to the student.

Definition note: In this policy, the definition of faculty member refers to anyone appointed by the University as a teacher, researcher, or academic administrator, including graduate and undergraduate students so appointed. For complete text on this policy, see www.bc.pitt.edu/policies/policy/02/02-04-03.html.

Family Educational Rights and Privacy Act (FERPA)

In compliance with the Family Educational Rights and Privacy Act of 1974, the University guarantees that students have the right to inspect all personally identifiable records maintained by the institution and may challenge the content and accuracy of those records through appropriate institutional procedures. It is further guaranteed by the University that student records containing personally identifiable information will not be released except as permitted by the Family Educational Rights and Privacy Act. See www.registrar.pitt.edu/ferpa.html for more information.

Harassment Policies

Harassment

No University employee, student, or individual on University property may intentionally harass or abuse a person (physically or verbally) with the purpose or effect of unreasonably interfering with such person's work or academic performance, or of creating an intimidating, hostile, or offensive work or academic environment.

Sexual Harassment
The University of Pittsburgh is committed to the maintenance of a community free from all forms of sexual harassment. Sexual harassment violates University policy as well as state, federal, and local laws. It is neither permitted nor condoned.

It is also a violation of the University of Pittsburgh's policy against sexual harassment for any employee or student at the University of Pittsburgh to attempt in any way to retaliate against a person who makes a claim of sexual harassment. Any individual who, after thorough investigation and an informal or formal hearing, is found to have violated the University's policy against sexual harassment will be subject to disciplinary action, including, but not limited to, reprimand, suspension, termination, or expulsion.

Any disciplinary action taken will depend upon the severity of the offense. For more information, see www.bc.pitt.edu/policies/policy/07/07-06-04.html.

Immunization Policy

The University requires the immunization of all incoming freshmen against measles, mumps, and rubella as a condition of attendance at the University of Pittsburgh. Incoming freshmen must provide to the University Student Health Service documentation of immunization that includes the month, day, and year that the immunizations were administered. Completed immunization forms must be kept on file in the Student Health Service.

Exemptions may be granted based on a written statement from a physician that the immunization may be detrimental to the health of the student or on a student's objection to immunization on religious grounds or on the basis of a strong moral or ethical conviction similar to a religious belief. However, if an outbreak of measles, mumps, or rubella occurs, the State Health Department may exclude from classes students who do not provide proof of immunity to these diseases. For more information, see www.bc.pitt.edu/policies/policy/06/06-01-02.html.

Patent Policy

A University student, during his or her period of enrollment, may be responsible for new discoveries and inventions that could have commercial value and contribute to scientific, technological, social, and cultural progress. Those accomplishments should be patented in the best interest of the student, the University, the public, and the government. The University's policy on patents determines the rights and obligations of the student and the University in any technology the student may invent while enrolled in the University. Details of this University policy are available from the Office of Technology Management or at www.bc.pitt.edu/policies/policy/11/11-02-01.html.

Research Integrity

The University of Pittsburgh seeks excellence in the discovery and dissemination of knowledge. Excellence in scholarship requires all members of the University community to adhere strictly to the highest standards of integrity with regard to research, instruction, and evaluation. Research misconduct carries potential for serious harm to the University community, to the integrity of science, and to society as a whole. The University's Research Integrity Policy is available online at www.bc.pitt.edu/policies/policy/11/11-01-01.html.

Smoking Policy

Smoking is prohibited in all University-owned and -leased facilities, including residence halls and off-campus housing facilities, and in all University vehicles, including motor pool vehicles, campus buses, and vans, with explicit limited exceptions described in University Policy 04-05-03. For complete policy text, see www.bc.pitt.edu/policies/policy/04-04-05-03.html.

Student Service Indicators Policy

Access to many student services including registration and access to grades may be delayed for a number of reasons ranging from financial liability to missing data. Complete information on this policy is available online at www.bc.pitt.edu/policies/policy/09/09-04-09.html.

Use of Alcohol Policy
The University of Pittsburgh prohibits use and dispensing of alcohol in compliance with the laws of the Commonwealth of Pennsylvania. For more information, see www.bc.pitt.edu/policies/policy/04/04-05-02.html.

Advising

Academic advising is a key part of every undergraduate's experience at the University of Pittsburgh. An academic advisor helps a student determine the appropriate academic path to further the student's educational and career goals. To be a success, the advising process must work both ways: The advisor will be there to help when the student needs it, and the student must actively seek out an advisor for help. Before signing up for classes each term, students meet with their advisors. Though each school may have different advising requirements, students are generally required to meet with their advisors at least two times per term: for an advising appointment and a subsequent registration appointment. The online Schedule of Classes can be a useful advising tool (see www.registrar.pitt.edu/schedule_of_classes.html). Consult with the individual school for school-specific advising services.

Registration

For additional registration information, visit the University registrar's Web site at www.registrar.pitt.edu

Full-Time and Part-Time Study

Full-time study is defined as enrollment for 12 to 18 credits per term, and part-time study is defined as enrollment for one to 11 credits per term. Students are charged a flat tuition rate for full-time study in the fall and spring terms. For part-time students, tuition payment is on a per-credit basis. Students may exceed the 18-credit limit with written permission from the dean of their school, but they will be billed on a per-credit basis for each additional credit. University fees and other applicable charges are assessed on student statements. Some schools within the University may also apply academic limitations on the number of credits for which a student is permitted to enroll each term. For instance, students in Arts and Sciences must get permission to enroll for more than 18 credits. During the summer term and summer sessions, all students (except co-op students who are doing an academic rotation) are billed on a per-credit basis regardless of the number of credits taken.

Registering for Classes

After being admitted to a school, students may register for classes after consultation with their academic advisors. The registration period for a term or session is published in the University's Schedule of Classes, in course descriptions, on calendars (including the University's Academic Calendar at www.pitt.edu/calendars.html), and in numerous other publications.

Many students have the convenience of submitting their registration forms online to a school's or advisor's office. Students may also process their registration forms in the Registration Office, G-3 Thackeray Hall. Students are required to have the signature of their academic advisors on the registration form. The student's signature on the registration form creates a financial obligation to the University of Pittsburgh. Once students have registered, they may view their class schedules online via the University Portal at www.my.pitt.edu.

Adding and Dropping Courses

Students may add and drop course(s) only during the add/drop period. The dates for the add/drop period are published in University publications, in the University's Schedule of Classes, in course descriptions, on calendars (including the University's Academic Calendar at www.pitt.edu/calendars.html), and in numerous other publications. Students not enrolled in Arts and Sciences and students who are student athletes or participants in Academic Resource Center programs must have their academic advisors sign all add/drop forms. Students who no longer wish to remain enrolled in a course after the add/drop period has ended may withdraw from the course or resign from the University. See Monitored Withdrawal from a Course and Resigning from the University.

Cross-Registration
Cross-registration provides students with the opportunity to enroll in courses at member institutions of the Pittsburgh Council on Higher Education (PCHE). The designated colleges and universities at which undergraduate students may cross-register include Carlow University, Carnegie Mellon University, Chatham University, Community College of Allegheny County, Duquesne University, La Roche College, Pittsburgh Theological Seminary, Point Park University, and Robert Morris University. Only full-time students may cross-register. Please note that students must maintain a full-time course load (at least 12 credits as an undergraduate) at Pitt while cross-registered. Students who cross-register do not pay tuition to the host institution; however, they are responsible for any additional fees associated with the course such as laboratory fees, books, and the like. Students normally may register for only one course off campus in a given term. The grades and credits earned at the host institution are transferred to the home school. The academic policies of the host institution prevail.

Cross-registration is only available in the fall and spring terms. During the summer, students may attend one of the above colleges as guest students, but they must pay that institution's tuition and fees. Students are discouraged from cross-registering during their term of graduation to avoid any delays in the receipt of course credit needed to graduate. Students should meet with their advisors or a school representative before they cross-register. For more information on cross-registration, visit www.pchepa.org.

**Monitored Withdrawal from a Course**

After the add/drop period has ended, students may withdraw from a course that they no longer wish to attend by completing a Monitored Withdrawal Request form in the office of the school offering the course. Students must process the Monitored Withdrawal Request form within the first nine weeks of the term in the fall and spring. Because summer sessions vary in length, students should check the summer Schedule of Classes for those deadlines. Students should check with the school offering the course for the last day to submit a Monitored Withdrawal Request form. The grade W will appear on the student's grade report and transcript. There is no financial adjustment to students' tuition or fee obligations involved in withdrawing from courses, but withdrawing may jeopardize satisfactory academic progress, financial aid, and athletic eligibility.

**Resigning from the University/Termination of Registration**

If students decide to drop all of their courses after the add/drop period has ended and before 60 percent of the term or session has been completed, they must resign from the University for that term. Official resignation from the University requires students to contact the Student Appeals Office. Students have several options. They may resign in person, by mail, or by calling 412-624-7585, where students may leave a message 24 hours a day, including weekends and holidays. An R grade will appear on the student's academic transcript for each course in the term of resignation. Tuition is prorated from the date of the student's notification to the Student Appeals Office of the student's desire to resign, unless 60 percent of the term has been completed, in which case there is no refund.

After the 60 percent point in time of the term or session has passed, students who wish to terminate their registration may process withdrawal from all classes only with the permission of the academic dean. If the reason for withdrawal is medical or psychological in nature, the academic dean may consult with the director of Student Health Service prior to making a determination. There is no financial adjustment associated with this procedure, which results in the assignment of W grades for the courses.

**Grading and Records**

For additional grading and records information, visit the University registrar's Web site at www.registrar.pitt.edu.

**GPA**

The Grade Point Average (GPA) is the numeric indication of a student's academic achievement based on a 4.00 grade point scale. Undergraduates must have a 2.00 GPA in order to graduate from the University of Pittsburgh. The value is the average of total letter grades earned and is available by term or career. Some academic centers may also maintain degree and/or major/departmental GPA values.

**Grading System**
The University of Pittsburgh has a standard letter grade system (see Letter Grade Option). Some additional grading options are available in some courses as determined by the school and the instructor (see Grading Options below). Finally, undergraduate students may choose to audit a course. Students must complete Grade Option/Audit Request forms to request a grading option available in a particular course.

**Grading Options**

Individual schools may elect to offer a course with the following grade options:

- LG Letter grade
- H/S/U Honors/Satisfactory/Unsatisfactory
- S/NC Satisfactory/No-Credit (Formerly the S/N Option)

LG and H/S/U Letter grade and Honors/Satisfactory/Unsatisfactory

LG and S/NC Letter grade and Satisfactory/No-Credit

Students may select a grade option for those courses that offer more than one option by submitting a Grade Option/Audit Request form by the established deadline to the school offering the course (generally four weeks from the start of the term, but check with the school for specific deadlines). If the student does not fill out a Grade Option/Audit Request form for a course in which more than one grade option is available, the default option (generally the letter grade option) will automatically apply.

**Letter Grade Option**

The University's letter grade system identified below will be followed without exception:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00 Superior</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.75</td>
</tr>
<tr>
<td>B+</td>
<td>3.25</td>
</tr>
<tr>
<td>B</td>
<td>3.00 Meritorious</td>
</tr>
<tr>
<td>B-</td>
<td>2.75</td>
</tr>
<tr>
<td>C+</td>
<td>2.25</td>
</tr>
<tr>
<td>C</td>
<td>2.00 Adequate</td>
</tr>
<tr>
<td>C-</td>
<td>1.75</td>
</tr>
<tr>
<td>D+</td>
<td>1.25</td>
</tr>
<tr>
<td>D</td>
<td>1.00 Minimal</td>
</tr>
<tr>
<td>D-</td>
<td>0.75</td>
</tr>
<tr>
<td>F</td>
<td>0.00 Failure</td>
</tr>
</tbody>
</table>

**H/S/U Grade Option**
Certain courses are offered on the H/S/U (Honors/Satisfactory/Unsatisfactory) grade option. Under this option, students earn an H if they do exceptional work (equivalent to an A- or higher under the letter grade system), an S if they do satisfactory work (equivalent to grades from a C up to a B+), or a U if they do unsatisfactory work (equivalent to a C- or lower). The H and S grades received under this option are counted toward graduation but are not computed in the student's GPA. The U grade is counted toward neither graduation nor the GPA.

**S/NC Grade Option (Formerly the S/N Option)**

Certain courses are offered on the S/NC (Satisfactory/No-Credit) grade option. This option was designed to encourage students to explore new and potentially difficult subjects without fear of the risks of failure. Under this option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (No Credit) is given. Courses for which an S is received are counted toward graduation, but are not computed in the GPA. Courses in which an NC is received are counted toward neither graduation nor the GPA.

**Other Grades: Incomplete, Resign, Withdraw**

Upon a student's completion of a course, one of the grades listed below may appear on the student's transcript in lieu of one of the options selected by the student and/or instructor (the options are listed under Grading Options). None of these grades carries quality points:

**G Grade**

The G grade signifies unfinished course work due to extenuating personal circumstances. Students assigned G grades are required to complete course requirements no later than one year after the term or session in which the course was taken. Some schools have a shorter deadline for completion of G grades; see school for details.

Once the deadline has passed, the G grade will remain on the record, and the student will be required to reregister for the course if it is needed to fulfill requirements for graduation.

**I Grade**

The I grade signifies incomplete course work due to the nature of the course, clinical work, or incomplete research work in individual guidance courses or seminars.

**R Grade**

The R grade signifies that a student resigned from the University for the term. (See Resigning from the University for more information.)

**W Grade**

The W grade signifies that a student has withdrawn from a course. (See Monitored Withdrawal from a Course for more information.)

**Auditing a Course**

To audit a course, a student must register and pay tuition for the course. A Grade Option/Audit Request form must be submitted for undergraduate courses by the established deadline. Students who audit a course are given an N grade.

**Repeating Courses**
Students may elect to repeat a course, subject to the following stipulations. Students should check with their individual schools for other school-specific rules on repeating courses, including the need to submit appropriate forms.

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The grade earned by repeating a course is used instead of the grade originally earned. W, R, or N grades reported for the repeated course will not be identified as a course repeat, and therefore the original grade earned will continue to be counted in the GPA. Incomplete grades (G and I) are not identified as repeated courses until the course work is completed.
- Students are only permitted to repeat a course twice. Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.

Changing Grades

The instructor of a course may change a student's grade by submitting a Change of Grade Card. All grade changes require the authorization of the dean of the school from which the original grade was issued. Students can verify grade changes for the terms available online via the secure server at my.pitt.edu

Grade Reports

Shortly after the term ends, students can access their grades online via the University Portal at www.my.pitt.edu.

Transcripts

An academic transcript serves as a permanent record of a student's academic progress. The transcript is a cumulative record of the student's GPA, as well as a record of the department, title, and grade for each course in which the student has enrolled and summary advanced standing information. Students may request an official transcript that bears the seal and signature of the University registrar. Currently enrolled students may also receive one unofficial copy of their transcripts per term for personal use. Upon graduation, the transcript reflects a student's degree and date, major, and, if applicable, honors, area of concentration, and minor.

Academic Record

The academic record is not an official University transcript, but a document containing a student's complete University of Pittsburgh academic history. In addition to the information provided on the transcript, the academic record provides students and advisors with admission data, academic events, detailed advanced standing/placement/transfer credit information, and standardized test scores. Students with no outstanding financial obligations to the University can receive one free copy of their academic records each term in G-3 Thackeray Hall.

Graduation

Requirements for Graduation

Graduation requirements differ among schools. However, all undergraduate schools require a minimum of 120 passing credits to graduate, as well as a GPA of at least 2.00. (See specific schools and programs for detailed graduation requirements.)

Application to Graduate
Students must file an application for graduation through their college or school. Generally, students must apply for graduation before the end of the term preceding the one during which they expect to complete all degree requirements. Each school establishes its own deadline by which students must apply for graduation. Students should check with their schools for the deadlines.

**Graduation with Honors**

Undergraduate members of a graduating class who have attained an outstanding scholastic record may be graduated with University honors. To be eligible, a student must complete at least 60 letter-graded credits at the University of Pittsburgh. All degree-related course work completed at the University is calculated in the grade point average. Receipt of University honors is based on having obtained the following grade point average at graduation:

- Summa Cum Laude 3.75
- Magna Cum Laude 3.50
- Cum Laude 3.25

The honor status achieved by a student will appear on the student's official University transcript and diploma.

Each school may award undergraduate program honors based on the major GPA and other criteria, as determined by the school and department.

**Commencement**

Candidates for graduation are encouraged to appear in person at commencement, usually held the Sunday after the spring term ends. Although degrees are conferred at commencement for all graduation periods, the official certification for April and May graduates occurs several weeks after the ceremony.

With the exception of students who receive their diplomas at individual school ceremonies, all diplomas are mailed to students approximately four weeks after the official certification date for each graduation period.
Application for Admission

Most undergraduate admissions to the University of Pittsburgh's Pittsburgh campus are handled by the Office of Admissions and Financial Aid. This section details the general requirements and procedures for admissions to the University through that office and also provides admissions information for prospective students whose applications are not handled by that office. Some schools and programs require supplemental application materials or admission requirements in addition to those requested by the Office of Admissions and Financial Aid. Those requirements are listed within the Schools and Academic Programs section of this bulletin.

The admissions information in this section is subject to change at any time. It is intended to serve only as a general source of information.

Pittsburgh Campus Freshman Admissions

Prospective students who have not earned college credits since graduating from high school with a diploma or GED should consult this section for information on admission to the University of Pittsburgh.

Admissions Contact Information

University of Pittsburgh
Office of Admissions and Financial Aid
Alumni Hall
4227 Fifth Ave.
Pittsburgh, PA 15260-6601
412-624-PITT (7488)
Admissions: oafa@pitt.edu
Financial Aid: finaid@pitt.edu
oafa.pitt.edu

High School Preparation

Freshman applicants to the University of Pittsburgh should have completed a minimum of 15 units of credit in college preparatory courses. Flexibility exists within this requirement, however:

- Swanson School of Engineering applicants should have completed four units of mathematics through trigonometry/pre-calculus-as well as a unit each of chemistry and physics.
- School of Nursing applicants should have three units of laboratory science, including one year of chemistry with a lab, and four units of mathematics.
- School of Pharmacy applicants seeking freshman guaranteed admission should have completed one year of high school biology with laboratory, chemistry with laboratory, and either a second-level biology course, second-level chemistry course.
- Dietrich School of Arts and Sciences applicants should have completed three years of mathematics, three years of science (with labs), and three years of a single second language with a B average or better (or make up the deficit with one year of college-level study).
- College of Business Administration applicants should have completed four units of mathematics, including algebra I and II and geometry, and another math course such as trigonometry, pre-calculus, or calculus in their senior year, as well as two years of a lab science.

Application Procedures

Students seeking admission to the University of Pittsburgh must complete the online application, a Self-Reported Academic Record or an official high school transcript, SAT or ACT results, and the $45 application fee. The Short Answer Questions, included with the Freshman Application, are optional but required for scholarship candidates.
Exceptions: Applicants to the Dental Hygiene Program, and students seeking special or non-degree status should see the application procedures outlined under their respective admissions sections (Dental Hygiene Program-School of Dental Medicine Admissions, and Special and Non-Degree Status).

**Application Deadlines**

The University of Pittsburgh practices a rolling admissions policy, meaning there is not a specific deadline by which prospective students must apply. Applicants are considered and informed of admission decisions on a first-come, first-served basis. However, applicants who want to be automatically reviewed for institutional merit scholarships must submit applications by December 15. See Academic Merit Scholarships.

Note: International students must apply by:

- April 1: for fall and summer term admission
- October 1: for spring term admission

**Academic Merit Scholarships**

Applicants are automatically considered for Pitt academic merit scholarships if their applications and all supporting materials are received by December 15. The University awards hundreds of academic scholarships, all of which are renewable for three years after the freshman year, provided the student maintains satisfactory academic progress and is enrolled full-time.

**Graduate School Guarantees**

Outstanding freshman applicants who indicate certain professional programs as their intended field of study on their application will automatically be reviewed for guaranteed admission into that professional program. We offer guarantees for 18 graduate programs, including business, law, medicine, dental medicine, and physician assistant studies.

A separate application is not necessary, although some programs have additional application requirements. Pitt Freshmen Guarantees are competitive, so we highly recommend you apply for admission early in your senior year of high school. Early application is recommended as spaces are limited. Please note that the Medical School Guarantee has a deadline of November 15.

**Enrollment Fee/Tuition Deposit**

Once accepted, students must reserve their positions in the upcoming class by submitting a nontransferable, nonrefundable $300 enrollment fee by May 1 for the fall term. This fee is a combined $100 tuition deposit and a $200 PittStart fee. Residence hall accommodations on the Pittsburgh campus are guaranteed to freshmen admitted for the fall term who pay the $300 enrollment fee by May 1. Housing is guaranteed for three full years from the time admission is offered. After that housing is available on a first-come, first-served basis.

**Deferred Admission**

Freshmen applicants who are interested in deferring University of Pittsburgh admissions may do so for up to one academic year following the term for which admission was offered, provided the enrollment fee has been paid by the May 1 deadline.

Examples of deferrals may include, but are not limited to a religious activity, community service, or world travel. Students may only defer to the same term as their original admission. For example, spring term admission students may only defer to the following spring term.

International freshmen are eligible for deferral but must work with the Office of International Services regarding visas.

**Regional Campus Admissions**
Listed below is the contact information for the admissions offices of the University of Pittsburgh's four regional campuses. Contact the regional campuses for more information on their particular requirements:

**University of Pittsburgh at Bradford**

Office of Admissions and Financial Aid  
300 Campus Dr.  
Bradford, PA 16701-2898  
1-800-872-1787  
admissions@upb.pitt.edu  
upb.pitt.edu

**University of Pittsburgh at Greensburg**

Office of Admissions  
Rossetti House  
150 Finoli Dr.  
Greensburg, PA 15601-5898  
724-836-9880  
upgadmit@pitt.edu  
upg.pitt.edu

**University of Pittsburgh at Johnstown**

Office of Admissions  
157 Blackington Hall  
450 Schoolhouse Rd.  
Johnstown, PA 15904  
814-269-7050  
upjadmit@pitt.edu  
upj.pitt.edu

**University of Pittsburgh at Titusville**

Office of Admissions and Financial Aid  
504 E. Main St.  
Titusville, PA 16354  
814-827-4509  
uptadm@pitt.edu  
upt.pitt.edu

**Transfer Student Admissions**

Prospective students who are high school graduates and have attended postsecondary institutions, colleges, or universities (except those who took college classes while in high school and are considered freshmen with advanced standing) apply for admission as transfer students through the Office of Admissions and Financial Aid. Transfers between University of Pittsburgh schools or campuses are handled through the school or campus.

**Application Procedures**
Degree-seeking transfer students who wish to be considered for admission to the University of Pittsburgh must complete an online application, an official high school transcript or GED, an official transcript from each postsecondary institution attended (whether or not it is intended that all courses will be counted toward a degree at the University of Pittsburgh), official SAT or ACT test result score if either test was taken, and the $45 application fee.

Exceptions: Applicants to the Dental Hygiene Program, and students seeking special or non-degree status should see the application procedures outlined under their respective admissions sections (PharmD Program, Dental Hygiene Program-School of Dental Medicine Admissions, and Special and Non-Degree Status).

NOTE: International transfer students must apply online.

Admission Deadlines

The University of Pittsburgh practices a rolling admissions policy, meaning there is not a specific deadline by which transfer students must apply. Applicants are considered and informed of admission decisions as they apply. The following schools practice rolling admission for all three terms, except where noted: Dietrich School of Arts and Sciences, College of Business Administration, Swanson School of Engineering, College of General Studies, School of Nursing (fall and spring term admission only) and the School of Social Work (fall and spring term admission only). However, there are several schools and programs that have definitive deadlines by which applications must be submitted for consideration. You can verify deadlines for your school of interest online.

NOTE: International applicants must apply by the deadlines specified or the specific program deadline, whichever comes first.

Articulation Agreements and Transfer Credit Guide Summaries

The University of Pittsburgh has formal articulation agreements with various higher education institutions throughout the state of Pennsylvania to facilitate the transfer of students from one institution to the other as they pursue their educational goals. The table lists the current articulation agreements and their specific requirements.

Transfer Scholarships

Transfer scholarships are available to College of General Studies students who are U.S. citizens and eligible non-citizens. Degree-seeking applicants are automatically reviewed for eligibility. These annual scholarships range in value from $600 to $2,500. The scholarships are offered through: the CGS Alumni Endowment Scholarship Fund including John O. Bolvin and Anne E. Levenson scholarships, The Brackmann and Saalbach Family Endowed Scholarship, Joan C. Dash Scholarship, Bruce P. McGough Scholarship, Tom R. Slone Scholarship (designated for students who are active in the Big Brothers Big Sisters youth mentoring organization), and the Grace C. Stewart Fund. Awarding of these scholarships is handled through the Office of Admissions and Financial Aid.

Evaluation of Transfer Credits

Credits earned at another accredited institution are evaluated by the admitting school, which determines the number of advanced standing credits the transfer student will be awarded and the distribution of these credits in relation to the school's degree requirements and University policy. See the appropriate school's information in this bulletin.

Deferred Admission

The University does not offer deferred admission for a subsequent term to admitted students not enrolling for the term of their admission. However, students wishing to have their applications re-reviewed for another term may submit a request in writing to the Office of Admissions and Financial Aid.

Readmission
Students who previously attended the University of Pittsburgh then attended other institutions and wish to return to the University are considered transfer students and must reapply following the guidelines for transfer students. The admitting school will evaluate the credits previously earned at the University of Pittsburgh along with credits earned elsewhere to determine the number of credits the transfer student will be allowed. Acceptable credits from institutions other than Pitt will appear on the student transcript as advanced standing credits and will not count in the GPA calculation. Credits earned at the University of Pittsburgh will appear as term entries on the student transcript, and courses accepted toward the degree will be used when calculating the student's GPA.

Former University of Pittsburgh students who have not attended another institution may be reinstated through the dean's office of the school in which they were previously enrolled.

Dental Hygiene Program-School of Dental Medicine

Admissions

The School of Dental Medicine offers a two-year (six consecutive terms) Associate of Science Degree in Dental Hygiene. The program is designed to fulfill the professional and academic requirements of the Commission on Dental Accreditation. Completion of the program prepares the student for licensure as a dental hygienist in most states.

Admissions Contact Information

University of Pittsburgh
School of Dental Medicine
Dental Hygiene Program
B-82 Salk Hall
Pittsburgh, PA 15261-1937
412-648-8432
hygieneadmissions@pitt.edu
dental.pitt.edu/students/dental-hygiene-program

Admission Requirements

Applicants to the Dental Hygiene Program must fulfill the following criteria before applying: have a high school diploma, have a minimum GPA of 3.0 at all academic institutions, have a minimum SAT I combined math and verbal score of 1200 or ACT score of 24, have successfully completed chemistry and biology courses with laboratory components, and have successfully completed a college-level English composition course and a college-level introduction to sociology course.

Application Procedures

Applicants to the Dental Hygiene Program must submit the following items to the School of Dental Medicine by November 1 for early decision review: a completed Dental Hygiene Program application, including the Personal Essay; three professional references; transcripts from all academic institutions attended; 15 hours of job shadowing with a practicing dental hygienist; and SAT I/ACT scores. Once the application materials have been received, the qualified applicant will be invited to attend a mandatory Applicant Seminar and participate in a personal interview with the admissions committee.

Students who complete this program also have the option of completing a Bachelor of Science in Dental Hygiene offered by the College of General Studies (see the College of General Studies listing in the Schools and Academic Programs section of this bulletin for information on BS degree completion option).

School of Nursing-RN Options (Early admissions To MSN Or DNP)
The University of Pittsburgh RN Options (Early Admission to MSN or DNP) curriculum is designed for registered nurses, who obtained their initial nursing education through either a CCNE, ACICS or ACEN [NLN] accredited diploma or associate degree or diploma program and want to pursue undergraduate education with early admission to graduate nursing program. Courses are taught by nursing leaders who are experts in their field. Faculty serve as educators, role models and mentors for their students. The RN Options curriculum builds upon the individual professional nurse’s strengths and experiences to expand professional knowledge and practice skills. Graduates of the University of Pittsburgh School of Nursing possess critical appraisal/thinking skills, sophisticated clinical practice knowledge, and the ability to integrate the latest research findings to provide quality, safe and effective patient care.

Course offerings are flexible and students may begin coursework in any term (fall/spring/summer).

Applicants should apply using the online application.

Contact Information

University of Pittsburgh
School of Nursing
239 Victoria Hall
Pittsburgh, PA 15261
1-888-747-0794 or 412-624-4586
sao50@pitt.edu
www.nursing.pitt.edu

Admission Requirements and Application Procedures

Application Guidelines

RN-MSN or DNP early admission track:

- Successful completion of a nursing diploma or associate degree program submitting official Transcripts from institution.
- Cumulative Grade Point Average (GPA) of 3.0 for previous college and/or coursework, which must be semester credits or the equivalent.
- Copy of current RN license (All students must obtain a Pennsylvania license) (students may be permitted to take theory courses only until evidence of successful completion of NCLEX is provided)
- Successful completion of all prerequisite courses
- ≥ 3.0 GPA in Associate Degree or nursing diploma (from ACEN (NLN), ACICS, or CCNE accredited program)
- Graduate Record Exam (GRE):
  - MSN track - may be waived if the RN program GPA is 3.5 or higher; or DNP track - no waiver, Verbal & Quantitative sections (competitive score), Analytical Writing (≥ 3)
- Brief type written essay (as needed DNP project statement)
- Current resume
- Three letters of professional recommendation, one from current manager
- Completed online application
- International applicants: consult nursing.pitt.edu & ois.pitt.edu

Formal interview*

Applicants must meet the admission criteria for the BSN Program and simultaneous conditional admission to the preferred graduate program. If admitted they will complete the remaining 24 credits will be at the graduate level. Full and part-time schedules are available.

*Potential students will meet with the RN Options Coordinator for an interview and must meet with the coordinator of the graduate program.

School of Nursing - Accelerated 2nd Degree BSN Program
The Accelerated 2nd Degree BSN is designed to enable individuals with a Baccalaureate Degree in another discipline the ability to earn a Bachelor's of Science Degree in Nursing (BSN) in three consecutive full-time terms. The Accelerated 2nd Degree BSN requires 122 credits: 31 credits from a previous degree, 36 to 38 prerequisite credits, and 54 curriculum credits. The curriculum is fast-paced and designed to build upon the individual's previous education while providing additional science and nursing content. At the completion, graduates are eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Admission to the Accelerated 2nd Degree BSN is competitive and is based upon proven academic achievement and grades earned in prerequisite courses. The school admits three cohorts, Fall, Spring and Summer.

Contact Information

University of Pittsburgh
School of Nursing
239 Victoria Hall
Pittsburgh, PA 15261
1-888-747-0794
sao50@pitt.edu
http://www.nursing.pitt.edu

Admission Requirements and Application Procedures

The Accelerated 2nd Degree BSN requires an applicant to complete 36 prerequisite credits. These courses may be taken at any college or university. Courses from other institutions must be evaluated as equivalent to University of Pittsburgh courses. (Coursework taken at the University of Pittsburgh School of Nursing prior to admission may be taken as a non-degree seeking student.)

Required prerequisites include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General and Biological Chemistry *+ (includes a lab)</td>
<td>4</td>
</tr>
<tr>
<td>English Composition (scientific/technical)</td>
<td>3</td>
</tr>
<tr>
<td>Directed Elective</td>
<td>3</td>
</tr>
<tr>
<td>Psychology</td>
<td>3</td>
</tr>
<tr>
<td>Sociology</td>
<td>3</td>
</tr>
<tr>
<td>Statistics (descriptive, probability, &amp; inferential)</td>
<td>3</td>
</tr>
<tr>
<td>Human Anatomy &amp; Physiology *+ (includes a lab)</td>
<td>6 - 8</td>
</tr>
<tr>
<td>Human Genetics *+</td>
<td>3</td>
</tr>
<tr>
<td>Microbiology *+ (includes a lab)</td>
<td>4</td>
</tr>
<tr>
<td>Pathophysiology</td>
<td>4</td>
</tr>
</tbody>
</table>

*Should have been completed within the past ten years
+Should have achieved a grade of "B-" or better

Application Deadlines and Other Information

Early submission of an application is recommended. New classes begin in the Fall, Spring and Summer term. Accelerated 2nd Degree BSN applications are reviewed, and admission decisions made, based on the application deadlines: Fall Term -- February 15/June 1; Spring Term--June 1/October 1; Summer Term--October 1/February 15.
Prospective students must apply online to the School of Nursing.

School of Pharmacy PharmD Program

Transfer students, both within the Pitt system and from other colleges and universities, applying for admission to the School of Pharmacy must: (1) file an online PharmCAS application with all supporting credentials by the deadline; and (2) submit a School of Pharmacy Supplemental Application by the deadline specified in the online instructions. For more information on deadlines, online applications, admission calendar, and application instructions, please visit the school's "Admission Process" Web site.

Transfer within University Schools and Regional Campuses

Transfer between Schools

Students enrolled in an undergraduate school of the University who wish to transfer to another undergraduate school at the University should contact the school in which they are currently enrolled to request a transfer of their records. The student's records will be evaluated by the receiving school, which will then notify the student of acceptance or rejection.

Transfer between Campuses

Students enrolled in one campus of the University who wish to transfer to another campus of the University should contact the school at the campus in which they are currently enrolled to request a transfer of their records. The receiving schools will evaluate the records and notify students of acceptance or rejection.

Reinstatement

Students who have left the University for one calendar year or more (whether of their own volition or as a result of a suspension) and who wish to continue their studies must apply for reinstatement through the school to which they were previously admitted.

Second-degree Candidates

Previous Degree Earned Elsewhere

Students who have earned a previous undergraduate degree from an institution other than the University of Pittsburgh and wish to earn a second degree are treated as transfer students and must apply through the Office of Admissions and Financial Aid. (See Transfer Student Admissions.)

Previous Degree Earned at the University of Pittsburgh

Students who have earned an undergraduate degree from a school or campus of the University of Pittsburgh and who now wish to earn another bachelor's degree should apply as second-degree students directly through the desired school. This process may vary with some upper-level division schools.

Each school determines the number of previously earned credits that will apply. A minimum of 30 new credits must be earned to receive a second degree. In addition to those general rules, schools may have other requirements.

Special and NonDegree Admissions
College in High School

The College in High School Program, offered through the Dietrich School of Arts and Sciences, offers qualified area high school students the opportunity to earn college credits from the University during their regular school day. Courses in chemistry, communication, computer science, French, Latin, mathematics, physics, and statistics are offered. There is a registration process and fee for this program. For further information, contact the College in High School office at 412-624-6828.

Postbaccalaureate Students

Some of the schools at the University will allow students who have already earned a bachelor's degree to take courses at the University as nondegree students. Students should contact the appropriate school for information about admission requirements.

Students interested in the Dietrich School of Arts and Sciences or the College of General Studies should contact the College of General Studies, 412-624-6600, 407 Cathedral of Learning; College of Business Administration students should contact 412-383-9600, 2100 Sennott Square; Swanson School of Engineering students should contact the Engineering Administration Office 412-624-9800, 253 Benedum Hall.

NOTE: International applicants should file an online application.

Guest/Visiting Students

Guest students are those who are seeking a degree at another university but want to take courses at the University of Pittsburgh for credit with the expectation that the credits will transfer back to the student's home institution. Guest students must be in good academic standing and generally must apply at least a few weeks before the start of a given term. Contact the appropriate school for other admission requirements. Admission for the fall and spring terms is handled through the school. Summer admission for visiting students is handled through the College of General Studies.

NOTE: International applicants should file an online application.

Summer Visiting Students

Students who are seeking a degree at another university but want to take courses at the University of Pittsburgh for credit during the summer should apply through the College of General Studies (CGS). Contact CGS at 412-624-6600.

EXCEPTION: International students

Campus Facilities and Student Services

Academic Resources

A strong infrastructure of services is key to ensuring academic success at any institution of higher learning. The University of Pittsburgh has a wide variety of academic resources that provide that infrastructure to aid students with their research, computing, tutoring, and advising needs.

University Library System

271 Hillman Library
412-648-7710
feedback@library.pitt.edu
www.library.pitt.edu

The University of Pittsburgh libraries and collections provide an abundant amount of information and services to the University’s students, faculty, staff, administrators, and researchers. In fiscal year 2007, the University's 28 libraries and collections have surpassed 5.1 million volumes. In addition, they contain more than 5 million pieces of microforms, and more than 48,000 current serials.

Under the administration of the Hillman University Librarian and Director, the University Library System (ULS) includes the following libraries and collections: Hillman (main), African American, Allegheny Observatory, Archives Service Center, Buhl (social work), Center for American Music, Chemistry, Darlington Memorial (American history), East Asian, Engineering (Bevier Library), Frick Fine Arts, Government Documents, Katz Graduate School of Business, Langley (biological sciences, behavioral neuroscience), Mathematics, Music, Public and International Affairs/Economics, and Special Collections. Libraries are also located at each of the University's four regional campuses. The ULS maintains a high-density storage area at the Library Facility in the Point Breeze section of Pittsburgh.

The Hillman Library is the largest facility, with seating for 1,530 users. It offers an open stack arrangement and an extensive range of library services. Hillman Library houses collections in the humanities and social sciences and includes area studies, psychology, computer science, maps, and government documents. In addition to the ULS, the University offers the Barco Law Library and the Health Sciences Library System.

The Health Sciences Library System (HSLS) at the University of Pittsburgh comprises several libraries that support the educational, research, patient care, and service activities of the schools of the health sciences (Medicine, Dental Medicine, Pharmacy, Health and Rehabilitation Sciences, Nursing, and Public Health) as well as the hospitals of the University of Pittsburgh Medical Center. The HSLS includes Falk Library of the Health Sciences, The Western Psychiatric Institute and Clinic Library, The Libraries at UPMC Shadyside, and the Children's Hospital of Pittsburgh Libraries. The Computer and Media Center in Falk Library is the primary health sciences facility and service point for audiovisual and microcomputer resources. HSLS Online (www.hsls.pitt.edu) is the gateway to extensive electronic resources for clinical and research needs.

This year, the University of Pittsburgh's online library catalog, PITTCat, which provides access to materials held in all University libraries, has been updated. PITTCat+ now offers, in addition to the more than five million titles from PITTCat Classic, all items from the D-Scribe Digital Collections, along with enhanced book content such as integrated article searching, access to tables of contents, jacket covers, and book reviews. Further features are a word cloud of associated search terms, spelling variants, translated terms, and thesaurus terms, as well as refined search options that allow searches based on library location. Searches can also be saved as an RSS feed that will send notifications when new items are added to the catalog.

The ULS also provides access to a comprehensive journal and magazine article discovery tool, Zoom!, as well as other online resources such as: Web of Science, Science Direct, and Scopus in the physical sciences; PsycINFO, ERIC, and Congressional Quarterly for the social sciences; Historical Abstracts, Philosopher's Index, and RILM Abstracts of Music Literature in the arts and humanities; and additional collections of article and newspaper databases from EBSCO and Lexis-Nexis.

These and hundreds of other online resources are available via the Pitt Digital Library at www.library.pitt.edu. The University of Pittsburgh is a member of the Association of Research Libraries. Through membership in several Pennsylvania consortia of libraries (PALCI, PALINET, and the Oakland Library Consortium), cooperative borrowing arrangements have been developed with other Pennsylvania institutions.

Computing Services and Systems Development
University of Pittsburgh students have access to the latest information technology resources provided by Computing Services and Systems Development (CSSD). An overview of these services is described below. Please visit the Information Technology Web site (technology.pitt.edu) or contact the Help Desk, 412-624-HELP (4357), for assistance.

Technology Help Desk

The Technology Help Desk, which is staffed around the clock, serves as the single point of contact for information technology services at the University of Pittsburgh. Students, faculty, and staff can contact the Technology Help Desk at 412-624-HELP (4357) regarding computing questions, including University computing accounts, e-mail, hardware, software, networking, ResNet services, computing labs, or other information technology services.

Campus Computing Labs

CSSD supports seven campus computing labs for students at the Pittsburgh campus. The labs offer more than 600 computers running Windows, Macintosh, Linux, and UNIX. Computers are equipped with more than 100 of the latest software applications and tools as well as CD writing capability and USB ports. Each lab features several media stations that offer scanning capabilities. Printing services include high-speed print capability in all facilities and color laser print capability in the David Lawrence Hall computing lab. Self-service printing stations were piloted in the David Lawrence Hall and Posvar Hall labs in 2008. Lab locations, hours, and equipment lists are available at technology.pitt.edu. Students can also call Lab Line at 412-383-LABS (5227) for real-time information about lab hours and the number of computers available in each lab. The computing labs are located at B-40 Alumni Hall, 1077 Benedum Hall, G-27/G-62 Cathedral of Learning, 1200 Wesley W. Posvar Hall, 112 Hillman Library, 230 David Lawrence Hall, and C114 Sutherland Hall.

E-mail and University Computing Accounts

Students receive a University computing account at the time of admission. The account features a unique username that is used in conjunction with a secure password. Forgotten passwords can be reset online using the Self-Service Password Reset Service. Students must set three online security questions at find.pitt.edu before using the service.

University e-mail addresses consist of a username followed by "@pitt.edu" (for example, abc123@pitt.edu). Students can read University e-mail online from any location using the Webmail feature available at my.pitt.edu. All official University correspondence is sent to a user's University e-mail address. E-mail forwarding options are available at find.pitt.edu for those who prefer to read their e-mail at another address.

Emergency Notification Service

The University's Emergency Notification Service will be used to communicate through voice and text messages as deemed appropriate in the event of an emergency. Students must subscribe to participate in this service by visiting my.pitt.edu.

E-mail Kiosks

More than 100 e-mail kiosks are located throughout the Pittsburgh campus to provide convenient locations for students to check their e-mail or browse the Web between classes and activities. Current locations include the Benedum Hall and Posvar Hall computing labs and galleria areas, the William Pitt Union lobby, the Cathedral of Learning, Litchfield Towers lobby, and Bellefield Hall's second-floor lobby.

Wireless PittNet
Wireless PittNet, the University's campus-wide wireless network service, is built upon the strength of the University's wired network, PittNet. The service is easy to use, extremely secure, and reliable. Any student with a laptop computer and a compatible wireless network adapter can use Wireless PittNet. Visit http://technology.pitt.edu for instructions, coverage locations, and more.

**Student Portal (my.pitt.edu)**

The University's Web portal, my.pitt.edu, provides a single point of access to the information that students use most at the University. Access Webmail, adjust spam filtering settings, view grades, search class schedules and course descriptions, pay tuition bills online, access the University's library resources, and more. The portal allows students to customize pages to include the tools and applications they find most helpful.

**Residential Networking (ResNet) Program**

Students living in University residence halls have access to high-speed Ethernet network connections that provide access to services on the University of Pittsburgh network (PittNet) and the Internet. The ResNet program provides onsite support for residence hall students with computing questions and problems, including Ethernet card installation and configuration, troubleshooting network connection problems, computer viruses, and more. Resident students can schedule appointments with ResNet by contacting the Technology Help Desk at 412-624-HELP (4357).

**Software for Students**

Students are provided with an extensive array of software applications and utilities at no cost. The Microsoft Campus Software for Students program provides Microsoft applications and operating systems to Pitt students free of charge. Students can receive software upgrades while enrolled at the University and may retain the software when they graduate. CSSD also offers mathematics, statistics, utility, and Internet software products without charge or at greatly reduced prices.

**Safe Computing Tools**

CSSD provides a variety of security tools and services. The Spam and Virus E-mail Filtering Service blocks junk e-mail and viruses from reaching each student's University e-mail address. Spam filtering settings can be adjusted at my.pitt.edu.

CSSD recommends that students install the latest version of Symantec AntiVirus software on their computers and use the LiveUpdate feature to get the latest updates. In addition, two anti-spyware programs, Ad-Aware and Spybot Search & Destroy, are available at no cost. Computrace LoJack is a software application available at no cost to students that allows a laptop to be traced in the event that it is ever lost or stolen. The Pitt Software Update Service can be configured to automatically download and install the latest security updates and service packs for Windows computers.

**Academic Resource Center**

G-1 Gardner Steel Conference Center  
412-648-7920  
www.asundergrad.pitt.edu/offices/arc/index.html  

The Academic Resource Center (ARC) offers students help in study skills, tutoring, peer mentoring, time management, and test-taking skills. The ARC also maintains a tutor directory, which is a campus-wide listing of tutors and assistance provided by departments, schools, and Special Support Services. The Math Assistance Center (MAC), which is a part of the ARC, provides assistance to students enrolled in first-level algebra and trigonometry courses through faculty and undergraduate teaching assistant (UTA) office hours. The MAC is in 322 Thackeray Hall.

**Writing Center**

M-2 Thaw Hall  
412-624-6556  
www.writing.pitt.edu
The Writing Center, part of the University's Department of English, offers one-on-one assistance to students who need help with their writing in any class. Consultants will help with any aspect of the writing process, including development, organization, revision, grammar, and proofreading but will not edit or write text. Students may drop in any time, but it is best to call for an appointment. The Writing Center's hours vary from term to term. For additional information, for scheduled hours, or to make an appointment, call 412-624-6556.

**English Language Institute**

2816 Cathedral of Learning  
412-624-5901

The English Language Institute (ELI) provides intensive instruction in English for people whose native language is not English and who need to meet proficiency requirements to enter a university. Courses are noncredit and cover reading, writing, listening, speaking, and grammar. The institute offers classes in the Test of English as a Foreign Language (TOEFL) to students already enrolled in the institute to help them prepare for the test.

Admission to the ELI does not include admission to the University of Pittsburgh. The University of Pittsburgh requires a 550 on the TOEFL for admission to most undergraduate programs. Students who wish to be considered for admission but who have not achieved 550 on the TOEFL may request to have their academic qualifications evaluated in advance. This early evaluation assures qualified students that they can register for academic courses when they meet the English proficiency requirement. Instructions for this procedure are on the ELI application form and Web site. The staff of the ELI is available to advise students about applications to colleges and universities.

For more information about the English Language Institute, call 412-624-5901, write to elipitt@pitt.edu, or visit www.eli.pitt.edu.

**Housing**

The University provides a variety of housing options and support services to students, including Residence Life and Off-Campus Living. Students may choose to live on campus in University-owned housing or in off-campus housing.

**Housing Application Process**

**Incoming Students**

As part of the admissions process, the University provides entering freshmen with a three-year housing guarantee, provided they

- Have been admitted through the Office of Admissions and Financial Aid and their tuition deposit has been received by May 1, and
- Have submitted their Housing/Dining Services Application, contract, and deposit by the due date.

**Returning Guaranteed Students**

Students who have lived in University housing during their first year with a housing "guarantee" are guaranteed housing for their second and third years at the University provided that they

- Maintain their status as current and continuing full-time undergraduate students in each successive year and
- Currently reside in University Housing and meet all housing requirements (application, contract, deposit, and due date) in each successive year.

The housing application process takes place each spring and is administered by Panther Central, which is located in the Litchfield Towers main lobby. For all housing information, stop in or call Panther Central at 412-648-1100 or visit www.pc.pitt.edu/housing/index.html.

**Residence Life**

The director and assistant directors of Residence Life are responsible for resident assistants and resident directors, who work with students as their live-in advisors and resource persons within the residence halls. The office also advises the Resident Student Association (RSA), the Residence Life
governing body. The staff offers a variety of educational and social activities within the residence halls, addresses student counseling and conduct issues, and provides other assistance to residents on matters affecting the quality of life in the residence halls.

Residence Life also offers students opportunities to live in focused living learning communities, which are linked with specific academic departments. Residence Life staff provide personal assistance 24 hours a day, seven days a week. For more information, students should contact the resident director in their hall, visit or call the office in 203 Bruce Hall (412-648-1200/1201), or go to www.reslife.pitt.edu.

**Off-Campus Living**

The Off-Campus Living (OCL) Center provides assistance to students, staff, and faculty in identifying, renting, leasing, or purchasing suitable living accommodations. Off-Campus Living provides the following: information on University-owned apartments, an apartment roommate matching service, a sublet service, maps of Pittsburgh and surrounding areas, rental tips, campus shuttle schedules, free local telephone service to contact landlords, and listings of apartments inspected and approved by the City of Pittsburgh. Call 412-624-6998, visit the office at 127 N. Bellefield Ave., or go to www.ocl.pitt.edu.

**Student Resources**

The University is committed to providing a high quality of life for its students and toward that end supports a variety of offices and activities designed to aid students in realizing their potential and having a fulfilling on-campus life.

**Affirmative Action**

In addition to its work with developing, implementing, and monitoring the University's affirmative action program, the Office of Affirmative Action is responsible for receiving, investigating, and mediating complaints from any members of the University community who believe they have been discriminated against or harassed on the basis of their race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity or expression, disability, or status as a disabled veteran or a veteran of the Vietnam era. Individuals may request information and advice anonymously if they wish. The privacy of all parties will be respected. The office is in 412 Bellefield Hall, 315 S. Bellefield Ave.; the phone number is 412-648-7860.

**Athletics**

The University offers a variety of opportunities for students to participate in athletics on the varsity, intramural, and club levels, as well as on-campus facilities for group sports and individual exercise.

**Varsity Sports**

The University offers 10 sports for men (baseball, basketball, cross country, diving, football, soccer, softball, swimming, indoor and outdoor track, and wrestling) and nine sports for women (basketball, cross country, diving, gymnastics, soccer, swimming, tennis, indoor and outdoor track, and volleyball) at the varsity level as well as cheerleading activities. For more information about these sports and contact numbers for varsity coaches, call 412-6488200 or visit the Pittsburgh Panthers Web site at www.pittsburghpanthers.com.

**Intramural and Club Sports**

New outdoor playing fields are available behind the renovated Cost Sports Center. Call 412-648-8210 for more information or visit the intramural program's Web site at www.intramurals.pitt.edu.

Sports clubs offer participation in sports ranging from bowling to rowing. Contact the Student Organization Resource Center (833 William Pitt Union, 412-624-7116) for more information on sports clubs or visit the Web site at www.sorc.pitt.edu.

**Sports Facilities**
There are a variety of sports facilities available for use by individuals and groups. Fitness centers are available in Litchfield Towers, Schenley Quadrangle, Lothrop Hall, Sutherland Hall, Bellefield Hall, Trees Hall, and the Baierl Student Recreation Center in the Petersen Events Center. Gymnasiums and swimming pools are available in Trees Hall and Bellefield Hall. The Baierl Student Recreation Center has two convertible racquetball/squash courts and four racquetball courts. In addition, eight squash courts are available in the Fitzgerald Field House, and soccer fields are available through the Department of Athletics.

Visit www.intramurals.pitt.edu for a virtual tour of the facilities, reservation information, and hours of operation.

Book Centers

The University owns and operates two bookstores on campus: The Book Center and The Health Book Center. The Book Center, at 4000 Fifth Ave., carries textbooks for most University courses, as well as a general book selection, school supplies, and sundries such as art supplies, stationery, greeting cards, and calendars. Call 412-648-1455 or visit http://www.pittuniversitystore.com/home.aspx for more information. The Health Book Center, at 3527 Forbes Ave., carries all course books for the Schools of Medicine, Dental Medicine, Health and Rehabilitation Sciences, Nursing, and Pharmacy, as well as the Graduate School of Public Health. Call 412-648-8915 or visit http://www.pittuniversitystore.com/home.aspx for more information.

The University Counseling Center

The University Counseling Center, in 334 William Pitt Union, is staffed by licensed psychiatrists, psychologists, social workers, and counselors who provide a variety of services for undergraduate and graduate students. All services of the center are accredited by the International Association of Counseling Services and are confidential, free, and voluntary.

We provide individual, couples, and group counseling for students seeking assistance for relationship problems, anxiety, depression, stress, and concerns about academic progress or direction. We also provide psychiatric services and medication management for currently enrolled students. Special services such as sexual assault counseling and advocacy are provided through the center's Office of Sexual Assault Services. In addition, drug and alcohol assessments and counseling are provided at the center.

For information about the center and its services, see www.counseling.pitt.edu. To schedule an appointment, call 412-648-7930.

Sexual Assault Services/University Counseling

The Office of Sexual Assault Services provides individual and group counseling designed to alleviate the trauma associated with sexual victimization. Emergency medical, legal, and police support is provided. Students are assisted in negotiating course schedules or room changes and in obtaining medical, legal, and counseling resources available to them in the University and local communities.

The Office of Sexual Assault Services also sponsors Peers 2 Peers. This is a volunteer student outreach program whose mission is to create an awareness of the dynamics of sexual assault on the Pittsburgh campus, promote effective communication, and prevent sexual victimization through educational programming. For more information, call 412-648-7856 or 412-648-7930, visit 334 William Pitt Union, or see http://www.saserv.pitt.edu.

Disability Resources and Services

The Office of Disability Resources and Services (DRS) provides a broad range of support services to assist students with disabilities. Services include, but are not limited to, tape-recorded textbooks, sign language interpreters, adaptive computer technology, Braille translation, and nonstandard exam arrangements. Contact DRS at 412-648-7890 or 412383-7355 (TTY) in 140 William Pitt Union or see www.drs.pitt.edu for more information.

Dining Services

Campus Dining Services offers students a variety of dining options. All student dining services are coordinated and administered through Panther Central, which is located in the Litchfield Towers main lobby. All students residing in residence halls are required to purchase a meal plan. Students
living in University apartment-style accommodations may purchase a meal plan but are not required to do so. Students can select from a variety of meal plans, each offering different combinations of dining passes and dining dollars. Campus Dining Services invites you to check out all of our dining options across campus.

## Major Residence Hall Dining Facilities

- Market Central in Litchfield Towers
- The Perch at Sutherland

## Retail Operations

- Quick Zone in Litchfield Towers and Sutherland Hall
- Market to Go in Litchfield Towers
- Schenley Café in William Pitt Union
- Cathedral Café in the Cathedral of Learning
- Petersen Events Center Food Court
- Starbucks Coffee Carts across campus
- Einstein Bros. Bagels in Posvar Hall and Benedum Hall

For all dining information, stop in or call Panther Central at 412-648-1100 or visit www.pc.pitt.edu/dining/index.html.

## Health Care and Student Health Service

All full-time students pay a student health fee each term to cover a variety of services at the Student Health Service in Suite 500 of the Medical Arts Building, 3708 Fifth Ave., Pittsburgh, PA 15213. The Student Health Service is a multiservice health care facility that offers outpatient clinical services, gynecology, and comprehensive health education programs. Call 412-383-1800 or visit www.studenthealth.pitt.edu for more information.

The University of Pittsburgh Pharmacy, in the same suite as the Student Health Service, offers over-the-counter and prescription medicines, often at lower prices than available elsewhere. Call 412-383-1850 or visit www.studentaffairs.pitt.edu/shsparmacy for more information.

Students should have health insurance to protect themselves in the event of illness or injury. A direct-pay medical insurance plan is available to students through University health plans. The plan is designed to provide insurance benefits for services not offered at the Student Health Service as well as for hospitalization and emergency care. Applications and product information are available at the Student Health Service.

## ID Cards (Panther Cards)

Every student, faculty, and staff member at the University must obtain an ID card from Panther Central, located in the Litchfield Towers main lobby. Student IDs, or "Panther Cards," are used to access residence halls (your assigned residence only), meal plan, athletic events, campus shuttle buses, recreational facilities (within your residence hall, Bellefield Hall, Trees Hall, and the Baierl Student Recreation Center), Student Health Services, computer labs, and Pitt Program Council events. The Panther Card also affords access to off-campus benefits such as free admission to some Pittsburgh cultural facilities. In addition, the Panther Card offers access to Panther Funds at local participating merchants. For all Panther Card information, stop in or call Panther Central at 412-648-1100 or visit www.pc.pitt.edu/card/index.html.

## International Services

708 William Pitt Union
412-624-7120
www.ois.pitt.edu

The Office of International Services (OIS) advises international students on how to maintain their immigration status and helps to ensure compliance for both international visitors and the University, with respect to federal regulations. OIS also provides generalized support in connecting the
University's international community and their hosting departments with resources inside and outside campus. For more information, contact OIS at ois@pitt.edu, or call 412-624-7120.

Parking and Transportation

The University provides a variety of parking and transportation services, both on and off campus. For more information, contact the University Department of Parking, Transportation, and Services at 412-624-8612 or visit www.pts.pitt.edu.

Parking Services

Student parking is available year-round. The Parking Services Office provides several parking options to meet the different schedules and needs of students. Commuter parking is available daily on a cash basis or by the term in selected facilities by permit only. Resident student permits are available for full-time students residing in one of the University residence halls operated through the Housing Office. Evening permits are available for parking after 2:50 p.m. weekdays and all day on weekends, except during special events, in many University lots. For more information, visit our Web site at www.pts.pitt.edu/parking. The Parking Services Office is located at 204 Brackenridge Hall, 412-624-4034.

Commuting Alternatives (Ridesharing)

Daily commuter students can save money by sharing a ride. A free, computerized matching service is available to help you locate others interested in carpooling. Contact the University's ridesharing partner online at commuteinfo.org, or call 888-814-6110. For additional commuting alternatives, visit www.pts.pitt.edu/commuting.

Public Transportation

Students may ride any Port Authority bus, incline, or light-rail train within Allegheny County for free by showing their valid University ID cards. The Department of Parking, Transportation, and Services, at 3525 Forbes Ave., maintains all Port Authority rider information, including maps, schedules, and routes to facilitate the use of public transit. Port Authority bus schedules are also available in the lobby of the William Pitt Union.

Pittsburgh campus Transportation System

University of Pittsburgh students may ride all of the Pitt buses and shuttles fare-free by showing a valid University ID.

In addition, students are permitted two guest riders (space permitting). Buses and shuttles normally have a 20- or 30minute route. Detailed maps and time schedules are available online at www.pc.pitt.edu/transportation/index.html and at the William Pitt Union information desk. The Department of Parking, Transportation, and Services is located at 3525 Forbes Ave.

SafeRider

A night-time, non-emergency van service called SafeRider is available during the evening and early morning hours to transport you from one campus building to another, from local residences to campus buildings, and from campus buildings to local residences within the University boundaries, and it is not on a regular University bus route. SafeRider operates during the following hours:

Fall and Spring:
Sunday-Wednesday and days when the shuttle system operates on a holiday schedule 7 p.m.-3 a.m.

Thursday-Saturday
7 p.m.-5 a.m.

Summer:
Daily 9 p.m.-3 a.m.
For service, call the dispatcher at 412-648-CALL (2255) during these times. You will need to provide the following information when you call: your name, pick-up location and the telephone number at the pick-up location, destination, number of individuals with you, and student ID number. Consult the SafeRider brochure for additional information concerning policies and procedures.

**Buses Home for the Holidays**

This program is designed to give students a safe, comfortable, alternative ride home for the three major recesses: Thanksgiving, winter, and spring. Buses depart from the William Pitt Union, and most of the destinations served are direct routes. Deluxe motor coaches (Lenzer/Coach USA) transport the students in air-conditioned comfort while movies are shown en route.

**Bicycle Registration Program**

Registration of bicycles is recommended as a deterrent to theft, to help in the identification of lost or stolen bicycles, and to help better accommodate cyclists at the University. Registration is easy, and it is free. You may register bikes at www.pts.pitt.edu/commuting/bicycling/bike-registration.php.

Bicycle lockers are available at two convenient locations. The locker totally encloses the bicycle, protecting it from rain and snow. There is also room to store a helmet, riding shoes, and other accessories. Lockers may be rented by the term at the Parking Services Office in 204 Brackenridge Hall.

**Career Development**

The Career Development Office is dedicated to helping students prepare for rewarding careers by providing individual assistance and a variety of professional development programs. Career counselors and consultants assist students with choosing or changing an academic major through personal assessments, writing effective resumes and cover letters, networking with professionals, exploring internship opportunities, applying for graduate or professional school, and preparing for job interviews. Career Development has a variety of online resources that are available through the my.pitt.edu portal, including FutureLinks, a career management software program that enables students to apply for jobs and internships, as well as register for job fairs, career workshops, and other programs and events. Diverse educational programs are offered for students in all stages of their journey. For more information, call 412-648-7130, stop by 224 William Pitt Union, or see www.careers.pitt.edu.

**Police Department**

The University of Pittsburgh Police Department provides police and security services to the University community. For emergency calls, dial 811 from on-campus phones or 412-624-2121 from off-campus phones. The University of Pittsburgh Police Department's main headquarters is in G1N30 Wesley W. Posvar Hall. For general information calls (non-emergency), dial 412-624-4040 or see http://www.police.pitt.edu.

**Student Government**

Undergraduates at the University are represented by two primary governing bodies, the Student Government Board and the College of General Studies (CGS) Student Government Council.

**The Student Government Board (SGB)**

The Student Government Board (SGB) is an elected body of nine students that exists to promote the concerns, interests, needs, and welfare of non-College of General Studies undergraduates at the Pittsburgh campus of the University of Pittsburgh. As the governing body for students, SGB serves as the liaison to University faculty, administration, and staff. SGB also distributes student activity fee funds to student clubs and organizations.

SGB makes appointments to University committees and also oversees SGB committees, whose membership is open to all undergraduates. These SGB committees include Academic Affairs; Allocations; Communications; Community and Governmental Relations; Elections; Facilities, Technology, and Transportation; First Year Council; Judicial; Wellness; and any existing task force or ad-hoc committee. The SGB meets weekly during the fall and spring terms. For more information, call 412-648-7970, visit 848 William Pitt Union, or see www.sgb.pitt.edu.
The CGS Student Government Council

The CGS Student Government Council is composed of five elected members who represent the interests of students in the College of General Studies. The Council coordinates a variety of student programs and services and allocates the CGS student activity fee. In addition to the five members of the Council, there are five divisions that help carry out the Council's business: Budget and Finance, Judicial Affairs, First Degree, Marketing and Advertising, and Student Programs. For more information, call 412-648-7895, visit 824 William Pitt Union, or see www.cgssg.pitt.edu.

PITT Arts

Each year, 22,000 Pitt students experience the power of the visual and performing arts in Pittsburgh through the PITT ARTS program, which sponsors 110 free student outings per year, including trips to the symphony, cinema, opera, ballet, theater, and museums. Students may also use their student ID cards (Panther Card) to visit the Carnegie Museums of Art and Natural History, Phipps Conservatory and Botanical Gardens, and The Andy Warhol Museum at no cost. Visit the PITT ARTS Web site at www.pitt.edu/~pittarts to find a listing of current arts events in Pittsburgh and on campus, and explore the cheap seats page to find out about deeply discounted tickets, sold right in the William Pitt Union, to local arts organizations.

Pitt Program Council

A variety of entertainment and educational activities are planned each year by the student committees of the Pitt Program Council (PPC), the central programming organization on campus. Programs include lectures, travel packages, weekend films, miniseminars, recreational tournaments, annual homecoming activities, and art gallery exhibits. New members are always welcome. For more information, contact the Pitt Program Council at 412-648-7900, or visit www.pitt.edu/~ppc.

Student Employment and Placement Assistance

The mission of the Office of Student Employment and Placement Assistance (SEPA) is to connect Pitt students who are actively seeking jobs or internships with recruiters and human resources professionals at businesses and organizations throughout the country. SEPA staff work to build relationships with representatives in a variety of career fields and help match qualified students with companies. SEPA hosts several career fairs each semester, facilitates the on-campus interviewing process, and helps students to tap into the Pitt Career Network sponsored by the Pitt Alumni Association. Employers and students use the online career management software program FutureLinks, which is accessible on the my.pitt.edu portal, to make connections. For more information, call 412-648-HIRE (4473), stop by the office located at 200 William Pitt Union, or visit www.sepa.pitt.edu.

Student Media

Student-produced media creates original news and entertainment for students and provides training to students interested in working in the media.

The Pitt News publishes a daily newspaper in print, online, social media and mobile app and features news, sports, opinions, art and entertainment and videos.

WPTS-FM radio station broadcasts alternative and independent music, campus news and sports via the FM dial, webstreaming and mobile apps. Their website provides music articles, concert reviews, and news and sports reports.

UPTV-21 television station posts varied short comedic and dramatic video entertainment programs on YouTube and streams some programming live on its website.

Student Organizations

More than 500 registered student organizations provide myriad opportunities for extracurricular activity. In addition to government, media, publications, programming, fraternity, sorority, and honor societies, there are clubs for sports, recreation, performing arts, politics, religion, service, professional and academic pursuits, ethnic and cultural enrichment, and many other specialized interests. Students may also participate in
organizations that represent the interest of specific student groups, such as the Black Action Society. A complete list of registered student organizations is available at www.sorc.pitt.edu. The Student Organization Resource Center (SORC) is the office that oversees registered student organizations and is located in 833 William Pitt Union.

**Student Volunteer Outreach**

The Student Volunteer Outreach (SVO) promotes, supports, and provides opportunities for students to participate in community service and service-learning activities ranging from one-time service projects and alternative break projects to internships and ongoing volunteer opportunities. It also sponsors annual projects and events, including the SVO/SGB Pittsburgh Project, Pitt Partnership for Food, and the Agency Fair for student volunteers. The SVO is on the ninth floor of the William Pitt Union; its Web site is www.svo.pitt.edu.

**University Child Development Center**

The University Child Development Center is a developmental child-care facility for children between the ages of 6 weeks and 5 years. The center is open to children of University students, faculty, and staff. The children are free to select activities from an age-appropriate environment prepared by the teaching staff. The environment allows children to practice previously learned skills and challenges children to develop new psychosocial, cognitive, and motor skills in a relaxed, nurturing atmosphere. The center is at 635 Clyde St. and is open from 7 a.m. to 6 p.m. Monday through Friday. For more information, call 412-383-2100 or see www.hr.pitt.edu/ucdc.

**Veterans Services**

The staff of the Office of Veterans Services facilitates the transition of veterans from military to University life, supports their ongoing academic success, and assists veterans, guardsmen, reservists, spouses, and dependents in receiving their military education benefits. In addition to these services, the office implements the VA work study program. The Office of Veterans Services is located on the first floor of Posvar Hall, inside of the College of General Studies. Please call 412-624-3213 or email veterans@pitt.edu for more information.

**William Pitt Union**

The William Pitt Union, built more than 100 years ago and located across Bigelow Boulevard from the Cathedral of Learning, serves as the focal point for campus activities, student organizations, and the Division of Student Affairs. The union features a recreation center, videogame center, dining service, information service, art gallery, dance studio, lounges, meeting rooms, student organization offices, ticket office, dining rooms, and several multi-use spaces for programs. To reach the union's information desk, call 412-648-7815.
Financial Information

Tuition

Enrollment Fee or Tuition Deposit

Upon acceptance to the University, students may be required to pay a nonrefundable, nontransferable enrollment fee or tuition deposit. If paying an enrollment fee, part of that fee will be considered to be a tuition deposit, and part might be used to pay for new student programming of some nature. The tuition deposit component will be applied toward their first-term tuition. The amount of the deposit ranges from $200-$500. Instructions for payment will be specified in the admission letter.

Full-time and Part-time Tuition and Mandatory Fees

This information can be found on the Tuition Rates and Mandatory Fees page.

Determining How Full-Time vs Part-Time Students are Billed

In the Fall and Spring Terms:

Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students, and are assessed the current undergraduate "flat" tuition rate for their academic center.

Undergraduate students registered for fewer than 12 credits are considered part-time, and are billed on a per-credit basis.

Graduate students registered for 9 to 15 credits in the Fall and Spring Terms are regarded as full-time students, and are assessed the current graduate "flat" tuition rate for their academic center.

Graduate students registered for fewer than 9 credits are considered part-time, and billed on a per-credit basis.

Students will be charged per credit for each credit exceeding the maximum full-time credit limit.

In the Summer Term:

All students are billed on a per-credit basis in the Summer Term with the exception of students in the School of Dental Medicine Dental Hygiene Certificate Program; the Swanson School of Engineering undergraduate program; the Katz Graduate School of Business Full-time MBA, MBA/MS and EMBA Programs; and the School of Nursing Accelerated Nursing Program.

About Mandatory Fees

Mandatory Fee figures are applicable to students regardless of Pennsylvania or Out-of-State residency. Not listed under Mandatory Fees are:

1. **Course-major fees** that are based upon registration in specific courses (e.g., lab fees).
2. **Academic fees** (e.g., application fees, academic program fees for programs such as Cooperative Engineering Program and Study Abroad).
3. **Service fees** (e.g., late application for graduation and lost ID cards).
4. **Professional workshop and professional development fees**
5. **Specific-student fees** such as the Freshman Socialization Fee at the Greensburg Campus.

Residency/Reduced Tuition
Admitted students who are United States citizens and have lived in Pennsylvania for a continuous period of 12 months before enrollment in any institution of higher education may be eligible for Pennsylvania tuition rates. Students who wish to challenge their residency classification may petition for Pennsylvania tuition rates by submitting convincing evidence for review to the Student Appeals Office in Thackeray Hall. The University's policy on Pennsylvania Residency Classification is located online at https://www.cfo.pitt.edu/policies/policy/09/09-05-04.html.

Military affiliated students and students who are not U.S. citizens may be eligible for Pennsylvania tuition rates if they meet the qualifications and provide the documentation required by University of Pittsburgh Policy 09-05-04, Pennsylvania Residency Classification.

For any student younger than 22, both the student and parent(s) or legal guardian(s) must meet the residency requirements to be eligible for reduced tuition.

**Financial Obligation**

Students establish a financial obligation to the University when they enroll in courses and will be asked to acknowledge that obligation to be permitted to enroll in classes each term. The agreement to pay (Promissory Note) the student electronically agrees to provides detailed information about the student's financial obligation and also the consequences of default of that obligation. Unpaid accounts may be referred to a collection agency, reported to credit bureau(s), and/or the student may be subject to legal action. In either case, the student will be responsible for any and all expenses incurred, including attorney fees. Students will bear the University's costs and fees associated with all collection activity resulting from the student's failure to make payment under the agreement they will sign each term.

**Fees**

Special Service Fees may be charged for University transactions that are processed beyond deadlines, due dates, and specified time limits. Special service fees are listed each term in the Schedule of Classes.

Course Fees are associated with certain courses and will be charged when the student enrolls in those courses. These courses are identified in the Schedule of Classes and Course Descriptions. Course fee information is also available on the Academic Regulations page.

Late Payment Fees are charged when students make payment after the published due date for their charges for the term.

**Payments and Credit Balance Refunds**

PittPAY is the University's online financial portal for students and the Authorized Users that students have designated as having access to their financial information.

Payments may be made in PittPAY by electronic check (eCheck) or by credit or debit card. While there is no charge for eCheck transactions, our vendor will charge a non-refundable 2.75% convenience fee for all debit or credit card payments. Check payments can be mailed to the address on the Remittance Form at the bottom of the Term Statement, which students and Authorized Users can generate and print themselves.

International Payments can be processed in PittPAY through the University's partnership with Flywire. Flywire offers a streamlined and cost effective way for students and Authorized Users to make international payments on the student account from almost any country, in most currencies.

PittPAY Payment Plans are available for those who elect to make payments in a series of monthly installments, instead of one payment by the due date. Participation in a payment plan is optional. To view available payment plan offers, go to the Payment Plans tab in PittPAY.

eRefunds are automatic refunds of credit balances from the student account. Credit balances occur when payments to the account, including the disbursement of loans and financial aid, exceed the amount you owe. Students and Authorized Users who are Parent PLUS loan borrowers, go to the eRefund tab in PittPAY to designate the checking or savings account where your credit balances should be directly deposited.

College of Business Administration

The College of Business Administration (Pitt Business) is the undergraduate division of the Joseph M. Katz Graduate School of Business and awards the Bachelor of Science in Business Administration (BSBA) degree. Detailed information about the College of Business Administration is available at our website: http://www.cba.pitt.edu/about/. Pitt Business offers full-time and part-time programs with majors in accounting, business information systems, finance, global management, human resources management, marketing, and supply chain management. Double-degree programs are also available to BSBA students in conjunction with the Dietrich School of Arts and Sciences, School of Information Sciences (SIS) and the College of General Studies. Pitt Business also offers certificate programs in international business, leadership and ethics, supply chain management, innovation and entrepreneurship and business analytics for students in the BSBA degree program.

Additional degree programs include the arts and sciences/business dual major program offered through the Dietrich School of Arts and Sciences in conjunction with Pitt Business, and a post-baccalaureate career development certificate program in accounting available through the College of General Studies. Pitt Business draws its faculty from the Katz School and is accredited by AACSB International-The Association to Advance Collegiate Schools of Business.

Contact Information

University of Pittsburgh
College of Business Administration
Office of Admissions
2100 Sennott Square
Pittsburgh, PA 15260
412-383-9600
admissions@business.pitt.edu
www.cba.pitt.edu

Application Procedures

First-time freshman and external transfer admissions to Pitt Business are handled through the Office of Admissions and Financial Aid. Students planning to relocate to Pitt Business from another Pitt academic program or campus should contact the program in which they are currently enrolled to have their records forwarded to Pitt Business for evaluation. Details for freshman and transfer admissions, as well as for relocation, are provided in the Application for Admission section of this catalog.

Special Admissions

Under certain circumstances, second-degree, post-baccalaureate, and guest students may apply directly to the College of Business Administration for admission. Students applying under one of these statuses are considered for admission based on the strength of their academic records. (See Second Degree Candidates and Special and Nondegree Admissions sections of this catalog for more information.) Contact the Pitt Business Office of Admissions for specifics on admission requirements and other procedures.

Evaluation of Transfer Credits

Students transferring from other colleges or universities are encouraged to apply to the College of Business Administration through the Office of Admissions and Financial Aid. (See Transfer Student Admissions section of this catalog for detailed information.) Upon admission to Pitt Business, transfer students will receive a BSBA degree requirements checklist by email. Pitt Business will evaluate coursework from other colleges based on content and equivalency to coursework offered at the University of Pittsburgh. The degree checklist shows how the transferred courses will apply to the student's BSBA degree. To transfer, a course must be completed with a grade of C or better. The University does not accept grades for transfer, only credits. A minimum of 40 credits must be completed at the University of Pittsburgh. Students who have questions about their credit evaluation should contact the Pitt Business Office of Admissions. Please see our website for additional details on transfer credits:
http://www.cba.pitt.edu/admissions/transfer/credit-policies
**Academic Standards**

The following section details the school's academic standards:

**Academic Standing Policy**

The academic standing of all BSBA students is reviewed at the end of the fall and spring terms. As a result of this review, students are assigned one of the following academic standing codes: good academic standing, academic probation, academic suspension, or academic dismissal.

**Good Academic Standing**

Students remain in good standing as long as they maintain a cumulative grade point average (GPA) of 2.00 in all courses taken at the University of Pittsburgh.

The cumulative GPA includes all courses taken on a Letter Grade grading basis at all campuses of the University of Pittsburgh. The course repeat rules require the most recent grade of a repeated course be included in the GPA.

**Academic Probation**

Any student who has a cumulative GPA below 2.00 is placed on academic probation.

**Academic Suspension**

**Full-time students**

If after one term of additional enrollment, the cumulative GPA of a full-time student on probation remains below 2.00, the student is subject to suspension or dismissal.

**Students on probation**

Students on probation who enroll and then withdraw from all courses are still subject to suspension because they have not raised their cumulative GPA to 2.00 after an additional term of attempted enrollment.

**Part-time students**

If, after attempting 12 additional credits, the cumulative GPA of a part-time student on probation remains below 2.00, the student is subject to suspension or dismissal.

An academic suspension from Pitt Business prohibits students from enrolling in courses at the University of Pittsburgh for one calendar year. Students will not be awarded transfer credit for courses taken at other colleges or universities while on academic suspension.

**Reinstatement after the First Suspension**

After one calendar year, suspended students are eligible to apply for reinstatement to the College of Business Administration by writing to the Pitt Business Associate Dean presenting a rationale for reinstatement.

Reinstated students return on academic probation and have one term of enrollment to raise their cumulative GPA to 2.0 or be subject to a second suspension or dismissal.
Second Academic Suspension

If suspended a second time, a student is not eligible for reinstatement for five years. After five years, suspended students are eligible to apply for reinstatement to the College of Business Administration by writing to the Pitt Business Associate Dean presenting a rationale for reinstatement.

Academic Dismissal

Dismissal from Pitt Business is a permanent action, and dismissed students are not eligible for reinstatement at any University of Pittsburgh school or campus.

Grade Point Average Standards

Overall GPA

A cumulative grade point average (GPA) of 2.00 is required in all courses applied toward the BSBA degree.

Major GPA

A minimum cumulative GPA of 2.25 (C+ average) is required in all courses applied toward a student's major. A C- or better must be earned in each individual course applied toward a student's major.

For full-time students: If a full-time student's major GPA drops below 2.25 for two consecutive terms, no new major courses may be taken until the major GPA is raised to 2.25 through course repeats.

For part-time students: If a part-time student's major GPA drops below 2.25 for 9 consecutive credits in his/her major, no new major courses may be taken until the major GPA is raised to 2.25 through course repeats.

Satisfactory/No-Credit Grade Option Policy

All required BSBA core courses and all courses to be applied to a student's major must be taken on a letter grade basis. In addition, courses taken to fulfill the requirements in microeconomics, macroeconomics, calculus, and statistics must also be taken on a letter grade basis. Language classes, arts and sciences general education courses, and electives may be taken on a satisfactory/no-credit (S/NC) grade basis.

Under the satisfactory/no-credit option, a student who does satisfactory work (C or better) receives the grade of S for the course and earns credit for the course. If a student does unsatisfactory work (defined as C- or lower), the student receives the grade of NC and does not earn credit for the course. These courses are not calculated as part of the GPA.

Students may select the S/NC grade option when enrolling online or by visiting 140 Thackeray Hall and completing the grade option form prior to the appropriate deadline.

Course Repeat Policy

A Pitt Business student may repeat a required Arts & Sciences course (including calculus, statistics, microeconomics, macroeconomics and composition), a business core requirement and/or a business major requirement once. If the minimal acceptable grade is not earned after repeating the course, the student may have to transfer out of Pitt Business, or select a different business major.

In the calculation of the major and overall grade point averages, the grade earned in the second taking of a course replaces the grade earned in the first taking; however, the grade earned in the first taking of the course, remains on the student's transcript with a notation indicating the course was repeated.
Academic Integrity

All Pitt Business students are responsible for adhering to Pitt Business policies on academic integrity. The Pitt Business academic integrity guidelines follow the University's guidelines with some procedural changes. Please see the guidelines for details.

Advising

Students pursuing the BSBA degree receive academic advising from full-time professional academic advisors in the College of Business Administration. Each new BSBA student is assigned an academic advisor, establishing a relationship that usually continues through graduation unless the student requests an advisor assignment change.

Academic advisors are information resources. Advisors meet with BSBA students at least once during the fall and spring academic terms to help students create customized academic and career individual development plans and prepare for course enrollment. BSBA students are required to meet with their academic advisor at least once per term, prior to enrollment.

BSBA students are responsible for their academic and career development choices and decisions, but Pitt Business academic advisors are an integrative information and planning resource for students.

BSBA Learning Goals

Graduates of the University of Pittsburgh's College of Business Administration should achieve the following learning outcomes in the four broad components of the BSBA program (major, electives, core and foundations courses):

Demonstrate in-depth knowledge and skills in at least one academic/career focus through completion of majors, certificates, minors and electives.

Demonstrate business management literacy.

Demonstrate competency in the fundamentals of analyzing problems and making decisions with standard business data and data sources using appropriate quantitative and qualitative methodologies.

Demonstrate competency in professional communication and leadership.

Demonstrate competency in applying acquired knowledge and skills in real-world situations.

Acquire a basic knowledge of at least one nation, region or culture in areas such as language, history, political systems, literature and artistic expression.

Acquire an exposure to the knowledge and methodologies used to explore natural, individual, social and cultural phenomena.

Major and Degree Options

The College of Business Administration offers the following degree options:

BSBA Degree

The College of Business Administration awards the Bachelor of Science in Business Administration (BSBA) degree and offers majors in accounting, business information systems, finance, global management, human resources management, marketing and supply chain management.

Pitt Business Certificate Programs
BSBA students have the opportunity to specialize their studies in business analytics, innovation and entrepreneurship, international business, leadership and ethics, supply chain management, innovation and entrepreneurship and business analytics through certificate programs.

The Certificate Program in Business Analytics (CPBA) is designed to give students a strong foundation in the theory, processes, and tools of business analytics in the organizational setting. The CPBA will help students to understand both the statistical and managerial sides of business analytics so that students can add value to organizations of all sizes and types.

The Certificate Program in Innovation and Entrepreneurship (CPIE) is a unique opportunity for Pitt Business students who wish to explore the interface between innovation and entrepreneurship as an enhancement to their business major. The CPIE will contribute to a student's preparation for an entrepreneurial endeavor or a career within an organization committed to innovation and entrepreneurial thinking.

The Certificate Program in International Business (CPIB) builds upon the core curriculum in the College of Business Administration. Requirements include satisfactory completion of level 4 of a second language (a two-year, four-course sequence at the University of Pittsburgh), specialized course work, and one term of approved study abroad or an international internship. Students majoring in Global Management may not also earn the Certificate in International Business. (15 credits, plus foreign language study, and international experience).

The Certificate Program in Leadership and Ethics (CLE) builds upon the core curriculum in the College of Business Administration. Students admitted to the CPLE will be required to successfully complete all requirements for the BSBA degree requirements including satisfactory completion of specialized course work, internships, and a service-learning project integrating ethics and leadership. (16 credits)

The Certificate in Supply Chain Management (CSCM) is offered jointly by the College of Business Administration and Swanson School of Engineering. Enrollment is available to BSBA students and students enrolled in the BS engineering programs in the School of Engineering. The CSCM provides students with the opportunity to understand important concepts in supply chain management and develop managerial and technical skills which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations. The CSCM requires 15 credits and is comprised of coursework offered by both CBA and the School of Engineering.

The Certificate Program in Innovation and Entrepreneurship (CPIE) builds upon the core curriculum in the College of Business Administration. CPIE students will explore the interface between innovation and entrepreneurship as an enhancement to their business major. The CPIE will contribute to a student's preparation for an entrepreneurial endeavor or a career within an organization committed to innovation and entrepreneurial thinking. (15 credits)

The Certificate Program in Business Analytics (CPBA) builds upon the core curriculum in the College of Business Administration. CPBA students will develop a comprehensive understanding of business analytics. Students will learn how to diagnose problems and envision solutions from an evidence-based perspective. They will develop the capability to build statistical models, measure the data, interpret the results, and then synthesize the findings in order to improve organizational performance. This holistic education will teach students both the statistical and managerial sides of business analytics. (15 credits)

Pitt Business/A&S Double Degree

Pitt Business offers the double degree program for students seeking to earn degrees in both business and the arts and sciences. Students earning degrees from both Pitt Business and A&S complete a 150-credit program of study, generally requiring five years of study. Students considering this option should consult with advisors in both Pitt Business and A&S, as well as a representative from Career Services, to determine how this program will advance their academic and career goals.

Pitt Business/SIS Double Degree

Pitt Business offers a double degree program for BSBA students seeking to earn degrees in both business and information sciences. Students earning degrees from both Pitt Business and SIS complete a 150-credit program of study, generally requiring five years of study. Students considering this option should consult with advisors in both Pitt Business and SIS, as well as a representative from Career Services, to determine how this program will advance their academic and career goals.

Special Academic Opportunities/Programs

The College of Business Administration offers the following special programs:
Internship Programs

Internships and other career development experiences are an absolutely essential part of business education. The Office of Career Development team works closely with business students to prepare them to successfully launch their careers. A wide range of services, including individualized resume development reviews, mock interviews and career coaching are provided by the Career Development team. The Career Development team also works closely with a wide network of employers and alumni to help business students find internships, as well as full-time positions upon graduation.

Additionally, an international internship program is available to qualified Pitt Business students. This six-credit global immersion program provides a valuable professional experience for students to develop their functional skills, gain a better understanding of cultural differences in the workplace, and enhance their language skills. Sites include: Berlin, Germany; San Paulo, Brazil; Dublin, Ireland; Beijing, China; and Madrid, Spain.

Study Abroad

The Pitt Business International Programs Office connects students to opportunities in more than 75 countries, and the insights Pitt Business students gain into other cultures and economies through these experiences abroad helps them stand out in the competitive global marketplace. Each program is designed to promote cultural development and adheres to our standard of academic excellence. For additional details, please visit our website at: http://www.cba.pitt.edu/study_abroad.

Student Organizations

Business students must diversify their experiences at Pitt and develop hands-on leadership skills essential to a career in business. Pitt Business student organizations are a good way to do this. Designed to run like small businesses, the organizations put students in control. We count on members to coordinate speaker visits from the corporate community, to arrange site visits to local offices of financial institutions and accounting firms, to sponsor social activities for members, and much more. As a member of a student organization, you will make friends for life and develop skills that enhance your resume for your first job. For additional details, please visit our website at: http://www.cba.pitt.edu/studentlife/organizations.

BSBA Degree Program Descriptions

BSBA students may choose a major in accounting, finance, general management, global management, or marketing. To earn the BSBA degree in any of these majors, students must complete a minimum of 120 credits, fulfill all arts and sciences foundation requirements, complete all BSBA core curriculum requirements, and fulfill any major-specific requirements as detailed below.

Department of Business Administration

Accounting, BSBA

Program Requirements.

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

One-hundred twenty credits are required for graduation with a BSBA degree. A minimum of 51 credits must be taken in the arts and sciences.
A student may use one course to fulfill two arts and sciences requirements.

**Arts and Sciences Foundations: Basic Skills Requirements**

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

**English Composition**

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCMP 0201 or ENGCMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency.

All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

**Second Language**

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.

Students should discuss specific foreign language course options with their academic advisor.

**Calculus**

Taking one course from the following list fulfills this requirement:

*Note: Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

**Statistics**

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

**Economics**

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

**Arts and Sciences General Education Electives**
In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)
- Foreign culture (two courses or participation in an approved study abroad program)

*Note:* All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.

Contact the school for a complete listing of approved courses that meet these elective requirements.

**Business Core Curriculum**

**The Business Core Curriculum:**

The following courses (36 credits) are required of all CBA students:

- BUSSPP 0020 - MANAGING IN COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - QUANTITATIVE METHODS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - FUNDAMENTALS OF BUSINESS COMMUNICATION (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

**Other Business Requirements**

CBA students must also satisfy one of the following requirements:

**BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS** This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

**BUS 0020 - YOUR CAREER SUCCESS** This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

**Requirements**

The major in accounting is designed to provide students with the general, business, and accounting knowledge necessary for them to succeed as professional accountants. As accounting is a dynamic field, all accounting majors will learn how to keep their knowledge up to date so they can continue to grow throughout their professional careers. Accounting majors will acquire the communication, computer, and interpersonal skills necessary to successfully resolve complex problems in unstructured settings. Accounting majors benefit from participation in extracurricular activities and organizations such as the University of Pittsburgh Accounting Association and Beta Alpha Psi, the national accounting honorary society.
All accounting majors must complete the two (2) BSBA core courses in accounting as well as the seven (7) required accounting major courses listed below. All courses are three credits unless noted otherwise.

BSBA Core Courses in Accounting

Students must complete these courses with a C or better in each course to be eligible to take additional accounting courses:

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING

Required Accounting Major Courses (22 credits)

Courses are offered on a rotating basis.

- BUSACC 1204 - INTERMEDIATE FINANCIAL REPORTING 1
- BUSACC 1205 - INTERMEDIATE FINANCIAL REPORTING 2
- BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING
- BUSACC 1221 - STRATEGIC COST MANAGEMENT
- BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
- BUSACC 1238 - AUDITING
- BUSACC 1242 - INDIVIDUAL TAX ACCOUNTING AND PLANNING

Accounting Electives

- BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS
- BUSACC 1296 - ACCOUNTING INTERNSHIP (requires CBA approval)
- BUSACC 1298 - ACCOUNTING INDEPENDENT STUDY (requires CBA approval)

BSBA Program Learning Goals

Graduates of the University of Pittsburgh's College of Business Administration should achieve the following learning outcomes in the four broad components of the BSBA program (major, electives, core and foundations):

Demonstrate in-depth knowledge and skills in at least one academic/career focus through completion of majors, certificates, minors and electives.

Demonstrate what every BSBA graduate is expected to know about business and management at graduation. This literacy is developed in courses taught in CBA and in particular courses required of all students and offered by the School of Arts and Sciences.

Demonstrate competency in the fundamentals of analyzing problems and making decisions with standard business data and data sources using appropriate quantitative and qualitative methodologies.

Demonstrate competency in interpersonal skills, including concise and persuasive written and presentation communication.

Demonstrate competency in applying acquired knowledge and skills in real-world situations.

Acquire a basic knowledge of at least one nation, region or culture in areas such as language, history, political systems, literature and artistic expression.

Acquire an exposure to the knowledge and methodologies used to explore natural, individual, social and cultural phenomena.

Students preparing for the Certified Public Accounting (CPA) Exam will need to complete 150 total credit hours. These credits may be completed through the BSBA program and/or through the MS in Accounting program. Particular CPA Exam requirements vary by state. Academic Advisors and members of the Accounting faculty provide guidance to students preparing for the CPA exam, but students are responsible for confirming with the appropriate state board of accountancy that all educational and experiential requirements are met.
Finance, BSBA

BSBA Degree Requirements

• BUSENK 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
• BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
• BUSQOM 1070 - OPERATIONS MANAGEMENT
• BUSSPP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:
BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA’s Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Requirements

The major in finance is designed to provide students with the financial knowledge and skills required for a successful business career. It attempts to give students a thorough understanding of the theoretical financial principles and the practical implementation of these principles in the world of business. Students learn how financial markets operate and how to make effective investment and financial decisions. The major is designed to develop analytical skills and problem-solving abilities.

Finance knowledge and practice have become crucial for the success of corporations and of the individuals employed by them. Financial markets are the major conduits through which investments are channeled in the global marketplace.

Understanding these markets and how to make investment decisions are crucial for success in business.

In addition to the BSBA core course, BUSFIN 1030 - INTRODUCTION TO FINANCE, at least fifteen (15) credits in finance course work are required for the finance major.

BSBA Core Course in Finance

This course must be completed with a C or better to take additional finance courses:

- BUSFIN 1030 - INTRODUCTION TO FINANCE

Required Finance Major Courses

- BUSFIN 1311 - CORPORATE FINANCE
- BUSFIN 1321 - INVESTMENT MANAGEMENT

Finance Electives

Courses are offered on a rotating basis.
(A minimum of three courses must be taken.)

- BUSFIN 1316 - ADVANCED CORPORATE FINANCE
- BUSFIN 1326 - EFFICIENCY OF CAPITAL MARKETS
- BUSFIN 1327 - FUTURES AND OPTIONS
- BUSFIN 1328 - CAPITAL MARKETS
- BUSFIN 1331 - FINANCIAL INSTITUTIONS AND MARKETS
- BUSFIN 1341 - INTERNATIONAL FINANCE
- BUSFIN 1345 - MARKETS AND TRADING
- BUSFIN 1347 - MERGERS, ACQUISITIONS AND CORPORATE STRUCTURES
- BUSFIN 1351 - FINANCIAL MODELING
- BUSFIN 1354 - Valuation
- BUSFIN 1390 - FINANCE INTERNSHIP
- BUSFIN 1395 - FINANCE INDEPENDENT STUDY

BSBA Program Learning Goals
Graduates of the University of Pittsburgh's College of Business Administration should achieve the following learning outcomes in the four broad components of the BSBA program (major, electives, core and foundations):

Demonstrate in-depth knowledge and skills in at least one academic/career focus through completion of majors, certificates, minors and electives.

In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Requirements

The major in general management provides students with interests in more than one discipline with the flexibility to concentrate their elective course work in two areas. Course work in the areas noted below may be used for the general management major. Courses with significant international content are offered in several areas. Students with international business interests should also consider a study abroad program.

The core courses in the two focused areas of study must be completed with a C or better to take additional courses in those areas. Courses are offered on a rotating basis.

Accounting

• BUSACC 1204 - INTERMEDIATE FINANCIAL REPORTING 1
• BUSACC 1205 - INTERMEDIATE FINANCIAL REPORTING 2
• BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS
• BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING
• BUSACC 1221 - STRATEGIC COST MANAGEMENT
• BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
• BUSACC 1238 - AUDITING
• BUSACC 1242 - INDIVIDUAL TAX ACCOUNTING AND PLANNING
• BUSACC 1296 - ACCOUNTING INTERNSHIP *
• BUSACC 1298 - ACCOUNTING INDEPENDENT STUDY **

Finance

• BUSFIN 1311 - CORPORATE FINANCE
• BUSFIN 1316 - ADVANCED CORPORATE FINANCE
• BUSFIN 1321 - INVESTMENT MANAGEMENT
• BUSFIN 1326 - EFFICIENCY OF CAPITAL MARKETS
• BUSFIN 1327 - FUTURES AND OPTIONS
• BUSFIN 1328 - CAPITAL MARKETS
• BUSFIN 1331 - FINANCIAL INSTITUTIONS AND MARKETS
• BUSFIN 1341 - INTERNATIONAL FINANCE
• BUSFIN 1345 - MARKETS AND TRADING
• BUSFIN 1347 - MERGERS, ACQUISITIONS AND CORPORATE STRUCTURES
• BUSFIN 1351 - FINANCIAL MODELING
• BUSFIN 1355 - VALUATION
• BUSFIN 1390 - FINANCE INTERNSHIP *
• BUSFIN 1395 - FINANCE INDEPENDENT STUDY **

Human Resources Management

• BUSHRM 1665 - NEGOTIATING IN BUSINESS
• BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE
• BUSHRM 1675 - HUMAN RESOURCES STAFFING
• BUSHRM 1680 - COMPENSATION AND PERFORMANCE MANGEMENT
• BUSHRM 1685 - EMPLOYMENT AND LABOR RELATIONS
• BUSHRM 1690 - HUMAN RESOURCES MANGEMENT INTERNSHIP *
• BUSHRM 1695 - HUMAN RESOURCES MANGEMENT INDEPENT STUDY **

Management Information Systems

• BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
• BUSBIS 1600 - TECHNOLOGY-ENABLED BUSINESS TRANSFORMATION
• BUSBIS 1605 - DATABASE MANAGEMENT
• BUSBIS 1625 - ELECTRONIC COMMERCE
• BUSBIS 1630 - PROJECT MANAGEMENT
• BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
• BUSBIS 1640 - IT ARCHITECTURE AND PLATFORMS
• BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
• BUSBIS 1615 - BUSINESS INFORMATION SYSTEMS INTERNSHIP
• BUSBIS 1620 - BUSINESS INFORMATION SYSTEMS INDEPENDENT STUDY

Marketing

• BUSMKT 1411 - MARKETING RESEARCH
• BUSMKT 1422 - PRINCIPLES OF SELLING
• BUSMKT 1425 - SALES FORCE MANAGEMENT
• BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
• BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT
• BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
• BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
• BUSMKT 1435 - SERVICES MARKETING
• BUSMKT 1441 - CONSUMER BEHAVIOR
• BUSMKT 1451 - RETAIL MANAGEMENT
• BUSMKT 1461 - INTERNATIONAL MARKETING
• BUSMKT 1481 - BRAND MANAGEMENT
• BUSMKT 1485 - PROJECTS IN MARKETING
• BUSMKT 1490 - MARKETING INTERNSHIP *
• BUSMKT 1495 - MARKETING INDEPENDENT STUDY **

Supply Chain Management

• BUSQOM 1725 - GLOBAL SUPPLY NETWORKS AND MANUFACTURING CULTURES IN LATIN AMERICA
• BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
• BUSQOM 1735 - ENGINEERING AND BUSINESS COLLABORATION IN INDIA: PRODUCT AND INNOVATION VALUE CHAINS
• BUSQOM 1740 - Procurement and Distribution Management
• BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
• BUSQOM 1790 - SUPPLY CHAIN MANAGEMENT INTERNSHIP *

Organizational Behavior

• BUSORG 1640 - THE ENTREPRENEURSHIP PROCESS
• BUSORG 1645 - CORPORATE ENTREPRENEURSHIP
• BUSORG 1650 - ISSUES IN CAREER MANAGEMENT
• BUSORG 1655 - INTERNATIONAL DIMENSIONS OF ORGANIZATIONAL BEHAVIOR
• BUSORG 1660 - MANAGING DIVERSITY IN ORGANIZATIONS
• BUSORG 1670 - ORGANIZATIONAL BEHAVIOR INDEPENDENT STUDY **

Note:

* Plans for Internships must be approved by CBA Career Services before registration for the course is permitted. Internships will not be counted toward fulfilling Major requirements for students declaring after August 26, 2012.

** Plans for Independent Study courses must be approved by the Associate Dean before registration for the course is permitted.

Global Management, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

One-hundred twenty credits are required for graduation with a BSBA degree. A minimum of 51 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:
English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCMP 0201 or ENGCMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency.

All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.

Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: Only one of these courses may apply to the 120 total credits required for graduation.

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)
- Foreign culture (two courses or participation in an approved study abroad program)

Note: All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.

Contact the school for a complete listing of approved courses that meet these elective requirements.

## Business Core Curriculum

### The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSSPP 0020 - MANAGING IN COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - QUANTITATIVE METHODS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - FUNDAMENTALS OF BUSINESS COMMUNICATION (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

### Other Business Requirements

CBA students must also satisfy one of the following requirements:

- BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

- BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

### Requirements

The global management major enables students to develop expertise in important dimensions of management in a global context. The GLMGT major requires six (6) courses exposing students to the management of people (International Dimensions of Organizational Behavior, Global Workforce Policy), process (Managing Global Supply Chains), and policy (International Economic Issues for Managers; Global Strategy and Competitive Advantage), plus an integrative, senior-level course, focusing on either a company project or a major global industry. We see these three dimensions as intertwined and mutually critical for those who seek to add value to the management function of today's organizations and the firms of tomorrow. To the core understanding of a traditional management foundation, we add knowledge of a second language at the conversational level with the goal of preparing students to conduct business in a second language.

### Second Language Requirement

Global management majors must complete second language study through Level 4 at the University of Pittsburgh with a minimum grade of C+ in each course, along with an additional 3-credit course in the language, also to be completed with a minimum grade of C+. If, for a particular language, the University offers instruction only through Level 4, this requirement is fulfilled by 3 credits of a course specific to the region in which the
language is widely spoken, completed with a minimum grade of C+. For students already fluent in a second (or third) language, it is required that they will earn at least 8 credits in another language with a minimum grade of C+ in each course.

A student is not permitted to earn both a Global Management major and a Certificate in International Business.

**Required Global Management Major Courses**

Earn a minimum grade of C (2.00) in each of the following prerequisites to GLM courses:

- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- BUSHRM 1050 - HUMAN RESOURCES MANAGEMENT
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Global management majors must successfully complete the following courses with a C- or better in each course and a cumulative grade point average of 2.25.

- BUSORG 1655 - INTERNATIONAL DIMENSIONS OF ORGANIZATIONAL BEHAVIOR
- BUSECN 1508 - INTERNATIONAL ECONOMICS FOR MANAGERS
- BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
- BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE
- BUSSPP 1745 - PROJECTS IN GLOBAL MANAGEMENT

**Note:**

Global management majors must also earn a minimum GPA of 2.25 in nine (9) credits of second language beyond Level II or 6 credits of language beyond Level II plus 3 credits of a course specific to the region in which the language is widely spoken.

Complete a study abroad experience of at least four weeks in an internationally-based educational or work experience, preferably one making active use of a student's second language training. With permission, up to six (6) credits of the major area courses may be taken abroad as part of a semester study outside of the U.S. Permission will be based on examination of all course material.

* Plans for Internships must be approved by CBA Career Services before registration for the course is permitted. Internships will not be counted toward fulfilling Major requirements for students declaring after August 26, 2012.

** Plans for Independent Study courses must be approved by the Associate Dean before registration for the course is permitted.

**Human Resources Management, BSBA**

**BSBA Degree Requirements**

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.
Graduation Requirements

One-hundred twenty credits are required for graduation with a BSBA degree. A minimum of 51 credits must be taken in the arts and sciences. A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCMP 0201 or ENGCMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency.

All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.

Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: Only one of these courses may apply to the 120 total credits required for graduation.

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)
- Foreign culture (two courses or participation in an approved study abroad program)

**Note:** All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSSPP 0020 - MANAGING IN COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - QUANTITATIVE METHODS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - FUNDAMENTALS OF BUSINESS COMMUNICATION (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSEMK 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.
BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Requirements

The major in marketing is designed to provide students with the conceptual background and practical skills necessary to address questions such as what new products a firm should introduce, how products should be priced, how to identify the best channels of distribution, and how best to promote new and existing products. Students majoring in marketing can pursue careers in retailing, sales management, marketing research, advertising and promotion, consumer product marketing, or industrial marketing.

In addition to the general BSBA requirements, 18 credits in marketing course work, plus the BSBA core course BUSMKT 1040 - INTRODUCTION TO MARKETING, are required for the marketing major.

BSBA Core Course in Marketing

Students must complete this course with a C or better to be eligible to take additional marketing courses:

- BUSMKT 1040 - INTRODUCTION TO MARKETING

Required Marketing Major Courses

- BUSMKT 1411 - MARKETING RESEARCH
- BUSMKT 1441 - CONSUMER BEHAVIOR

Marketing Electives

Courses are offered on a rotating basis.
(A minimum of four courses must be taken.)

- BUSMKT 1422 - PRINCIPLES OF SELLING
- BUSMKT 1425 - SALES FORCE MANAGEMENT
- BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
- BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT
- BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
- BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
- BUSMKT 1435 - SERVICES MARKETING
- BUSMKT 1451 - RETAIL MANAGEMENT
- BUSMKT 1461 - INTERNATIONAL MARKETING
- BUSMKT 1481 - BRAND MANAGEMENT
- BUSMKT 1485 - PROJECTS IN MARKETING
- BUSMKT 1490 - MARKETING INTERNSHIP (requires CBA approval)
- BUSMKT 1495 - MARKETING INDEPENDENT STUDY (requires CBA approval)
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS

In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

International Business Certificate

The Certificate Program in International Business (CPIB) builds upon the core curriculum in the College of Business Administration and is available only to BSBA students. Requirements include satisfactory completion of level 4 of a second language (a two-year, four-course sequence at the University of Pittsburgh), specialized course work, and one term of approved study abroad or an international internship (3-12 credits). Students majoring in Global Management may not also earn the Certificate in International Business.

Leadership and Ethics Certificate

The Certificate Program in Leadership and Ethics (CPLE) builds upon the core curriculum in the College of Business Administration and is available only to BSBA students. Students admitted to the CPLE will be required to successfully complete all requirements for the BSBA degree requirements including satisfactory completion of specialized course work, internships, and a service-learning project integrating ethics and leadership.

Supply Chain Management Certificate

The Certificate in Supply Chain Management (CSCM) is offered jointly by the College of Business Administration and Swanson School of Engineering. Enrollment is available to BSBA students and students enrolled in the BS engineering programs in the School of Engineering. The CSCM provides students with the opportunity to understand important concepts in supply chain management and develop managerial and technical skills which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations. The CSCM requires 15 credits and is comprised of coursework offered by both CBA and the School of Engineering.

John E. Prescott, Thomas O'Brien Chair of Strategy, Professor of Business Administration, and Area Director for Organizations and Entrepreneurship

Adam Presslee, Assistant Professor of Business Administration, PhD, University of Waterloo

Narayan Ramasubbu, Associate Professor of Business Administration, PhD, University of Michigan

Lauren C. Reid, Assistant Professor of Business Administration, University of Tennessee

Anthony F. Rodi, Clinical Associate Professor of Business Administration, D.Sc., Robert Morris University

Thomas L. Saaty, Distinguished University Professor, PhD, Yale University

Akin Sayrak, Visiting Assistant Professor of Business Administration
Frederik P. Schlingemann, Associate Professor of Business Administration, PhD, Ohio State University

Jennifer Shang, Professor of Business Administration and Area Director for Business Analytics and Operations, PhD, University of Texas

Karen Shastri, Clinical Associate Professor of Business Administration and Director of the Masters of Science in Accounting Program, PhD, University of Pittsburgh

Dennis Patrick Slevin, Professor of Business Administration, PhD, Stanford University

George M. (Bud) Smith Jr., Visiting Clinical Professor, M.S., MIT

Dhinu Srinivasan, Associate Professor of Business Administration, PhD, University of Minnesota

Jay W. Suks, Clinical Assistant Professor of Business Administration, MBA, Harvard University

Vanitha Swaminathan, Thomas Marshall Professor of Marketing, PhD, University of Georgia

Pandu R. Tadikamalla, Professor of Business Administration, PhD, University of Iowa

Ryan A. Teeter, PhD, Rutgers University

Shawn Thomas, Professor of Business Administration and J.R. Allen Faculty Fellow, PhD, University of Florida

Gary Tsarsis, Clinical Assistant Professor of Business Administration, PhD, Pace University

Luis Vargas, Professor of Operations, Decision Science and Artificial Intelligence, PhD, University of Sevilla

R. Venkatesh, Professor of Business Administration and Area Director, Marketing & Business Economics, PhD, University of Texas

Andrew Washburn, Clinical Assistant Professor, MBA, Harvard University

Richard E. Wendell, Professor of Business Administration, PhD, Northwestern University

Yun-Oh Whang, Clinical Assistant Professor of Business Administration, PhD, University of Southern California

Eugenia Wu, Assistant Professor of Business Administration and Katz Faculty Fellow in Marketing, PhD, Duke University

Yue Wu, Assistant Professor of Business Administration, PhD, INSEAD

Chad J. Zutter, Associate Professor of Business Administration and Dean's Excellence Faculty Fellow, PhD, Indiana University
College of General Studies

The College of General Studies (CGS) provides adult and nontraditional students with a wide variety of learning options. Students who enroll in the College of General Studies can complete a Bachelor of Arts or Bachelor of Sciences degree in career-oriented fields and in concentrations in the arts and sciences. In addition to a degree, students may prepare for transfer to any of the University's upper-division and professional schools. The College also offers a wide range of certificate programs in specialized fields such as health services, accounting, and information sciences. For those students who already have a degree but desire career-related study or preparation for graduate study, the College of General Studies permits them to register in a non-degree program. The College of General Studies uses the same faculties as Arts and Sciences and the professional schools of the University to provide instruction.

Professors and instructors teaching for the College of General Studies come from the following seven undergraduate and professional schools across the University of Pittsburgh: Dietrich School of Arts & Sciences, College of Business Administration, School of Dental Medicine/Dental Hygiene Program, Graduate School of Public and International Affairs, School of Health and Rehabilitation Sciences, School of Information Sciences, and School of Nursing. CGS instructors include full-time faculty, regular part-time faculty, adjunct, graduate students, and professionals and leaders from throughout the greater Pittsburgh region.

The College of General Studies targets its curriculum to adult and transfer students who have been out of high school at least two years. Most of the students attending the College have full-time work or family responsibilities and therefore take full advantage of the unique delivery systems available for instruction. Students may enroll in traditional day classes, evening classes, or Saturday classes; or they may enroll for CGS Online courses.

Contact Information

University of Pittsburgh
College of General Studies
1400 Wesley W. Posvar Hall
230 South Bouquet Street
Pittsburgh, PA 15260
412-624-6600
Fax: 412-624-5461
E-mail: cgs@pitt.edu
http://www.cgs.pitt.edu

Financial Aid

The Office of Admissions and Financial Aid handles all financial aid processing for College of General Studies students. Obtain information regarding the necessary forms and important deadline dates from the University’s financial aid Web site, http://www.oafa.pitt.edu/fahome.aspx or call 412-624-7488.

Students who wish to be considered for supplemental financial aid may apply through the Office of the Director of the McCarl Center and the College of General Studies. Students must have a completed current application for University assistance and all federal programs, including loans, on file with the Office of Admissions and Financial Aid located in Alumni Hall (forms are available on the financial aid Web site). CGS supplemental aid is awarded on a rolling basis and is need-based. The CGS supplemental financial aid application is available at www.cgs.pitt.edu/admissions.

Academic and need-based scholarships are available through CGS. Information concerning these scholarships for enrolled CGS students is available at www.cgs.pitt.edu/admissions.

Career Services

A CGS career consultant is available to assist students with the formulation of career objectives and preparation for the job search. Various seminars are offered throughout the year, and a variety of resource materials are available for student use. For more information on CGS career services, visit: http://www.cgs.pitt.edu/student-services/career-services.
Registration

College of General Studies students can now self-register using the University portal, www.my.pitt.edu. Enrollment periods are posted in the Student Center prior to each term.

Class Locations and Times

Students in the College of General Studies have an array of options for where and when to pursue their course work.

Pittsburgh Campus

The full range of courses offered by the College of General Studies is available at the Pittsburgh campus. The 120-acre campus is located in Oakland.

CGS Online

CGS Online provides students with the opportunity to earn credit towards degrees and certificates through two course formats. All courses offered through CGS Online are Web-based, meaning that most course materials can be accessed through CourseWeb, the University's course management system. CGS Online courses are offered in the following formats:

- **Web** courses feature web-based instruction and interaction. Students interact with their instructors and other students through the class website. Students are required to participate in online discussions and activities. Students complete the course requirements within one term and move through the course materials as a cohort.
- **Hybrid** courses combine web-based interaction and face-to-face instructions. Students are required to attend scheduled workshops and participate in online discussions and activities. Students complete the course requirements within one term and move through the course materials as a cohort.

CGS Online courses meet the same standards for content excellence and expert instruction as our traditional classroom courses.

Saturday Classes

Saturday classes are offered on the Pittsburgh campus for students who find Saturday a convenient time to attend class.

Class Meeting Times

In general, courses meet 50 minutes per week for each credit hour awarded. Most courses are three credits and meet once a week for two-and-a-half hours. Courses including recitations or lab sections may have longer class times.

Admission Requirements

Admission requirements vary based on the program the student is applying to and are detailed as follows.

Degree-Seeking Students

Those students who desire to complete a degree at the University of Pittsburgh, either in the College of General Studies or ultimately transferring elsewhere in the University, are required to apply as degree-seeking students through the University's Office of Admissions and Financial Aid (OxFA). Students applying as degree-seeking students must provide:

- A completed application,
The $45 application fee, 
A high school transcript, and 
Transcripts from all colleges or universities previously attended. 

Once this information has been provided, students will be reviewed for admission. OAFA makes all admission decisions on an individual basis in a holistic way, with past performance and future potential considered. While it is not required, it is highly recommended to have the strongest application possible that students complete the Short Answer Questions form to highlight past and/or work experiences, training, educational pursuits, and explain any exceptional circumstances that they believe the Admission Committee should take into account in reviewing their records. Students are also encouraged to provide letters of recommendation.

Students must meet a number of specific admissions criteria, depending on their previous experience. A selection of these criteria follows below. For details, refer to the Office of Admissions and Financial Aid website:

- Less than two years since high school graduation: To be considered for admission, recent high school graduates must apply for Arts and Sciences admission and must meet the regular standards for admission as defined by Arts and Sciences. (See Pittsburgh Campus Freshman Admissions section of this bulletin for details.) Students may apply for transfer to the College of General Studies after completing 12 credits, including the mathematics and seminar in composition requirements.
- More than two years since high school graduation: Less weight is given to high school performance. Evidence of maturity, motivation, ability, and consistency as reflected in the fulfillment of adult responsibilities are an important basis for the admission decision.
- GED/high school equivalency: Students scoring at the 50th percentile or higher may be considered for admission.
- Disciplinary dismissal: Students who are dismissed from a college or university for disciplinary reasons must provide documentation from a college official stating the reason(s) for dismissal.

Certificate Program Admission

Students looking to broaden their educational experience or seeking professional development may elect to enroll in an academic certificate program. Certificate programs offer a course concentration in a specific area of study and may partially fulfill the student's degree requirements.

Students seeking admission to one of the certificate programs in the College of General Studies must meet CGS certificate admission criteria and complete the CGS online application. Students are required to provide transcripts from all colleges and universities attended. Students must take at least one-half of the coursework for the certificate at the University of Pittsburgh and earn a 2.0 or better GPA in certificate courses. The certificates offered by CGS are as follows:

- Accounting (post-baccalaureate program)
- Communication
- Community health assessment
- Corporate/community relations
- Digital media
- Gender, sexuality, and women's studies
- Information system design
- Leadership
- Managing health services programs and projects
- National preparedness and homeland security
- Nonprofit management
- Writing
- Writing for the professions

* Please note that the Leadership certificate must be earned in conjunction with a degree. To enter the Accounting certificate, students must already have a bachelor's degree with at least a 2.75 GPA.

Non-degree Admission

Post-baccalaureate Students
Students who already hold a bachelor's degree and desire to complete University course work as preparation for graduate study or for personal or professional interest, but do not desire to complete a second degree, may apply for admission as non-degree students. These students need to complete the CGS online application for admission and provide transcripts for all previous college work. Students who enroll under this program and later desire to earn a degree will be reviewed for admission under the normal admission criteria.

Guest, Visiting, and Summer Visiting Students

Guest, Visiting, and Summer Visiting students are students enrolled in an undergraduate degree program at another university who plan to take courses for credit at the University of Pittsburgh with the intention of transferring those courses back to their home institution. To be eligible for admission, students must have a minimum 2.5 cumulative or overall GPA. Guest student status is given for one semester only. Students apply through the CGS online application. Admissions is rolling. Applications should be submitted at least 2 weeks prior to the start of classes.

Inactive Student Re-admission/Reinstatement

Reinstatement is necessary for any Pitt student in good standing, who is seeking re-admission to CGS and has not registered for at least one course in three consecutive terms. Such students are considered "inactive" and must reapply to the College of General Studies before they can register for class, completing all applications and resubmitting all official transcripts, if necessary, and paying the application fee. Students who have not been enrolled in CGS or some other college or school within the University for more than six terms or two calendar years will follow new policies and requirements.

Early Admission Option for Graduate Study

Students with a GPA of 3.5 or better planning to pursue graduate work at the University of Pittsburgh may want to consider the Early Admission Option for Graduate Study. This option allows students to use the first 24 credits of graduate work as the last 24 elective credits of their undergraduate program. The following graduate schools at Pitt allow this option in conjunction with the CGS degree program: the Graduate School of Public and International Affairs and the Graduate School of Public Health. The School of Law has a similar program for its Master of Studies in Law Degree program for CGS Legal Studies students.

Guidelines:

- Students must be superior graduate school candidates and be admitted to the Pitt graduate program. Admissions requirements can be obtained from the graduate schools.
- Students must complete a minimum of 96 credits toward the CGS degree, including all general education and major requirements, before the graduate program begins. In addition, the last 30 of the 96 undergraduate credits should be in residence in CGS. Satisfactory completion of these requirements does not guarantee acceptance into the graduate program. This decision is made by the graduate program.
- The graduate program must include at least 24 credits of graduate-level coursework. Students must earn a B or better grade in all graduate coursework. (S or H grades in the MSL program)
- Twenty-four credits is the maximum number of graduate credits that can be used to fulfill elective requirements of the undergraduate degree. A student may seek to use fewer than 24 graduate credits toward their elective credits if they have already partially fulfilled their elective requirements.

Note: Students who choose this option must be aware that enrolling as a graduate student may affect their financial aid package. Students are responsible for contacting the Financial Aid Office regarding this issue.

International Admission

International students (applicants from other countries on student visas) who are interested in full-time attendance in programs offered only in the College of General Studies must first contact the International Student Admissions Officer, Office of International Services, 708 William Pitt Union, Pittsburgh, PA 15260. (See the International Student Admissions Section of this bulletin.)

Advanced Standing Policy
Applicants must submit official transcripts from each accredited college or university attended, whether or not it is intended that the courses be counted toward a degree. Grades for credits transferred are not used in computing a student's grade point average (GPA). All credits eligible for transfer are subject to the following regulations:

- Only courses with C or better grades will be considered for transfer.
- Courses must correspond with those offered by the University in objectives and content.
- The number of credits granted for a given course cannot exceed the number on the transcript from the school where they were earned, nor can it exceed the number earned in the corresponding courses at the University of Pittsburgh.
- A maximum of 90 credits may be transferred from a four-year institution and 60 credits from a two-year institution, however no more than 90 credits can be transferred.
- All of the credits required for a degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, the statute of limitation may be waived. In such cases, the waiver is for a specific period during which the program must be completed.
- Upper-class students (those who have earned 60 or more credits) may not take courses at two-year schools. Students may not take classes at 2-year institutions and apply them toward 1000-level requirements for the College of General Studies.
- Students in CGS degree programs may transfer up to 18 credits of professional courses as electives (e.g. business, engineering, nursing, etc.).
- All transfer credits are subject to reevaluation if a student transfers from one school to another or from one major to another within the University of Pittsburgh or becomes inactive and is subsequently readmitted.
- If a course for which advanced standing is given is repeated at the University of Pittsburgh, the advanced-standing credit is cancelled.

**Advanced Placement and Credit by Examination**

Students in CGS may also earn advanced standing credits through the following means:

**College Level Examination Program (CLEP)**

The CLEP program provides a way of earning college credits through testing. Specific regulations governing the awarding of CLEP general examination credits are available by calling 412-624-6600, from an academic advisor, or at www.cgs.pitt.edu.

**Credit by Examination**

Students may earn credits toward graduation by successfully completing examinations in courses approved towards College of General Studies' degree requirements. Students requesting consideration for credit by examination must consult with their CGS academic advisor first and then arrange an examination through the academic department in which the course is housed. Various courses, except those with laboratories, special restrictions, or in the performing arts, may be challenged by examination. Course-specific credit by examination is open to all students enrolled in the College of General Studies who are in good academic standing. Cost for the exam is $10 per credit.

Once a student has enrolled in a course at any institution (including the University of Pittsburgh) and received a grade, including a grade for incomplete work, the student cannot be given credit toward graduation by taking a challenge examination for that course.

Students may be given credit for successfully completing the advanced-standing tests of the College Entrance Examination Board.

Students who are majoring in administration of justice and who have successfully completed Pennsylvania Act 120 or state police cadet training can receive up to 15 credits of advanced standing. The credits are awarded for specific courses.

**Reserve Officer Training Corps (ROTC) Courses**

Credits earned in aerospace science (Air Force ROTC), military science (Army ROTC), or naval science (Navy ROTC) through cross registration at Carnegie Mellon University are accepted toward a College of General Studies degree. CGS will grant up to four credits toward graduation for the following courses in lieu of or in combination with physical education courses: AFROTC 0001, AFROTC 0002, AFROTC 0003, and AFROTC 0004; MILS 0011, MILS 0012, MILS 0021, and MILS 0022; or freshman/sophomore level Navy ROTC courses from CMU.
Also, four junior and senior level courses from these three ROTC programs may be used as professional electives for the CGS degree program, if professional electives are permitted. These courses are AFROTC 1013, AFROTC 1014, AFROTC 1015, and AFROTC 1016 (all 3-credit courses); MILS 1031, MILS 1032, MILS 1041 and MILS 1042 (all 1-credit courses); and similar courses from Navy ROTC.

**Internships**

An internship is a supervised, work-related experience, volunteer or paid, which is related to an academic discipline and is sponsored, evaluated, and graded by a University faculty member. The internship is a new experience and does not represent credit for past work or continuation of the current employment situation. A detailed outline of CGS internship requirements is available at: https://www.cgs.pitt.edu/academics/internship.

PLEASE NOTE: Several CGS majors require that you complete an internship at a facility that may or will require a criminal background check, an ACT 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

**Study Abroad**

College of General Studies students are encouraged to enhance their undergraduate education by including a study abroad experience. Credit may be earned toward a CGS degree through participation in either Pitt-sponsored, exchange, or Pitt-recognized programs. Students may study in virtually any part of the world in these programs or others offered by many American and international institutions. Some programs are of short duration to fit the schedules of students with extensive work, family and other commitments.

Before study abroad is undertaken, approval for credit must be obtained. The study abroad advisor provides program approval and the CGS advisor approves the course selections and credits. Students should have at least a 2.75 GPA before seeking permission to study abroad.

Visit the Study Abroad Office in Room 802 William Pitt Union, call 412-648-7413, or review www.abroad.pitt.edu for more information.

**Academic Standards**

The College of General Studies' Guidelines on Academic Integrity outlines obligations of both students and instructors for maintaining academic integrity in CGS classes. An electronic copy of this publication, which lists the obligations, procedures, penalties, and remedies for maintaining such integrity, is available on the College of General Studies website.

**Graduation Requirements**

- Students are required to make a graduation appointment with their advisor when registering for classes for their final term. During this appointment, students and their advisor review all the requirements and plan for their last term, as well as share details concerning commencement and graduation ceremonies at the University. Learn more at: http://www.cgs.pitt.edu/student-services.

- Students must apply for graduation from CGS in the semester prior to their final term. Students must have minimum of 120 credits in order to graduate.

- Students receive a BA or BS degree depending upon the CGS major. The final undergraduate transcript will specify the major completed in CGS.

- The GPA for graduation from CGS will be calculated solely on the earned Pitt credits on the undergraduate transcript. The graduate program courses appear on the graduate transcript and the undergraduate transcript is noted: Baccalaureate degree awarded in conjunction with graduate degree.

- In order for CGS students to graduate with honors from the University, they must have at least 60 letter-graded University of Pittsburgh credits at the undergraduate level. Courses at the graduate level and undergraduate courses graded S or H are not included in this 60 credit requirement.

The Bachelor of Arts or Bachelor of Science degree will be awarded upon the fulfillment of the following conditions:

- Completion of at least 120 credits of University work in one of the prescribed curricular courses, by advanced standing, or by examinations.
• Completion of at least one-half of the major or 15 credits, whichever is greater, at the University of Pittsburgh, Pittsburgh campus.
• Completion of the senior year (30 credits) in the College of General Studies.
• Attainment of at least a cumulative grade point average of 2.00 in courses taken at the University of Pittsburgh.
• Attainment of at least a cumulative grade point average of 2.00 in the major.
• Satisfactory completion of all required CGS and major courses.

Grading Policy

There are two grading options available to students registering for courses offered by the College of General Studies: the letter grade option and the satisfactory/no-credit (S/NC) option (formerly the S/N option).

Core requirement courses in the student's major must be taken for the letter grade. Students can apply "S" grades only to internship, study abroad, experiential learning, and elective courses in the major. Students can take a maximum of six credits with the S/NC grade and have those credits applied to CGS major requirements.

Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of "S." If the student's work is not satisfactory (a grade of C- or lower), the grade of "NC" (for no credit) is given. Courses for which "S" grades are earned are counted toward graduation but are not computed in the GPA. Courses for which "NC" grades are earned are not counted toward graduation because the "NC" designates that no credit was earned. These courses cannot be applied toward university requirements.

For most courses, students who wish to take a course with the S/NC Grade Option will need to complete the S/NC Grade Option/Audit Request form by the end of the fourth full week of classes during a term (second full week of classes during summer sessions 1 and 2). This decision may not be changed. Grade Option/Audit Request forms are available in the CGS registration center, 1400 Wesley W. Posvar or at www.registrar.pitt.edu/ under grades. If the student does not fill out a Grade Option/Audit Request form for a course in which more than one grade option is available, the default option (generally a letter grade) will automatically be selected. There are some formal limitations to a student's choice of grading systems (see below); Students should consult with their academic advisor before deciding to take a course S/NC.

Limitations to the choice of the satisfactory/no-credit (S/NC) grade option in the College of General Studies:

1. Students can take a maximum of 6 credits with the S/NC grade and have those credits applied to CGS major requirements. THERE IS ONE EXCEPTION TO THIS: STUDENTS WHO STUDY ABROAD WHO TAKE COURSES THAT WILL BE APPLIED AS 'S' GRADES THROUGH TRANSFER CREDIT CAN APPLY UP TO 9 CREDITS TO THEIR MAJOR REQUIREMENTS. Students can only apply "S" grades to internship, experiential learning, and elective courses in the major. Core requirement courses must be taken for the letter grade

2. Under certain circumstances, departments may declare a course available only for a letter grade or as satisfactory/no-credit. In such courses, students will not have a choice for the other grade option.

G Grade

The G grade signifies unfinished course work due to extenuating personal circumstances. Students who are assigned a G grade are required to complete course requirements with the same instructor assigning the G grade. A course in which a student has received a G grade cannot be completed by sitting in the same course with the same or different instructor in a subsequent term. Exception to these conditions can be granted only by the CGS Assistant Dean and must be approved before the G grade is issued.

At the time of requesting a G grade, the student should arrange with the instructor a plan and schedule for completing the course work. The instructor and student must also fill out the CGS G-grade Contract form. For additional information, visit http://www.cgs.pitt.edu/faculty-resources. The G must be completed no later than one year after the term or session in which the class was taken. Summer counts as a term. After one calendar year, all unfinished G grades will automatically be converted to NG grades, will receive no credit, and cannot be applied to graduation requirements.

Grade Reports

Shortly after the term ends, students can access their grades online via the university portal at www.my.pitt.edu. This report shows the total credits carried, the grade received in each course, and total quality points earned. A note on repeated courses: If a student is taking, or has taken, a course a
second or third time, the student must complete a Course Repeat Form with their CGS advisor during their graduation advising appointment the semester prior to the student's final term.

**Academic Probation**

Students who have earned a minimum of 12 credits in the College of General Studies and whose cumulative grade point average falls below 2.00 at the end of any term will be placed on probation. Students placed on probation may be limited to 6-12 credits a term until they have regained good academic standing and will be required to complete an academic success contract with either their advisor or the Assistant Dean of Academic Affairs that stipulates the conditions of their probation. Any students placed on probation who fail to regain good academic standing by the time they have completed an additional 12 credits of course work are subject to suspension. Students in danger of falling below a 2.00, or who have a significant decrease in a term GPA, may be placed on academic warning. They may be required to complete an academic success contract with their advisor which places limitations or requirements on the student in an attempt to help them perform better academically and connect them with university resources.

**Dean's List**

Following the fall and spring terms, full-time College of General Studies students whose grades in the preceding term indicate outstanding academic achievement are recognized on the Dean's List. To be placed on the Dean's List, a student must have earned at least 12 credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50. Part-time students will be recognized following each spring term. To be placed on the Dean's List, a part-time student must have earned at least 12 credits (not including courses taken on the Satisfactory/No-Credit option) across the consecutive fall and spring semesters with a cumulative GPA of at least 3.50 for those terms. Dean's Stars are students (full- or part-time) recognized for having a 4.0 GPA for the term(s).

**Degrees Conferred**

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors are available by combining on-campus and online courses.

**Bachelor of Arts:**

- Administration of justice
- Health services
- Humanities
- Legal studies
- Media and professional communications
- Public service
- Social sciences

**Bachelor of Science:**

- Dental hygiene
- Health services
- Natural sciences

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School of Arts and Sciences.

**Double and Triple Majors and Credit Overlap**
Students can declare a double or triple major, but will usually earn only one degree. If one major leads to the BA degree and another to the BS degree, students must decide when applying for graduation which degree they wish to receive. A maximum of 6 credits can overlap from one major to another.

**Double Degrees**

College of General Studies students may choose to pursue more than one undergraduate degree simultaneously, either within CGS (i.e., both a BA and a BS) or in another undergraduate school of the University. In general, earning two degrees requires a minimum of 150 credits and the completion of the curriculum requirements of both schools.

- The College of General Studies (CGS) and the College of Business Administration (CBA) offer a Double Degree program in which students earn both the BA in Health Services through CGS and the BS in Business Administration (BSBA) through CBA. The double degree program is designed for students who are interested in the intersection of health care management and business administration.

**Preparation for Professional Programs**

At CGS, students can complete the prerequisite course work for several graduate and undergraduate programs offered by other Pitt schools, while taking advantage of the unique student services, flexible course formats, and real-world experience that CGS provides. Once students complete the prerequisites, they can apply to the school of their choosing. Please note: All transfer credits are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school:

- Business • Education • Engineering • Health and Rehabilitation Sciences • Information Science • Nursing • Pharmacy • Social Work

**Program and Course Offerings**

**Administration of Justice, BA**

In American society, the justice system is a central social institution. Its effects on individuals and social groups give it a pivotal role in a changing society. The administration of justice program is an upper-division undergraduate course of interdisciplinary study in the liberal arts and sciences that leads to a Bachelor of Arts degree. The goal of this baccalaurate program is to develop an understanding of the evolution, theory, structure, functioning, and processes of change in the total system of criminal justice in our society.

Administration of justice majors develop competence in one of four specialized areas:

- Adult and juvenile corrections
- Law enforcement practice
- Forensics
- Cybercrime

**Major Requirements**

Students must complete a minimum of 120 credits (approximately 40 courses) for the Bachelor of Arts degree with a major in administration of justice. Of this total, 30 credits (10 courses) make up the major, which is satisfied by taking courses to complete the core requirements, area of concentration, and major electives. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

An outline of the Administration of Justice major requirements follows:

**Core Requirements:** 12 credits (four courses)
Administration of Justice

- ADMJ 0500 - INTRODUCTION TO ADMINISTRATION OF JUSTICE
- ADMJ 1400 - INTRODUCTION TO CRIMINAL LAW
- ADMJ 1450 - CRITICAL ISSUES IN CRIMINAL JUSTICE
- ADMJ 1900 - PRESERVICE INTERNSHIP

Area of Concentration: 9 credits (three courses)

Choose one of the four areas of specialization. All courses listed under a given area are required.

Adult and Juvenile Corrections

- ADMJ 1220 - DEVIANCE AND THE LAW
- ADMJ 1300 - INTRODUCTION TO CORRECTIONS
- PSY 1205 - ABNORMAL PSYCHOLOGY

Law Enforcement Practice

- ADMJ 1200 - INTRODUCTION TO LAW ENFORCEMENT
- ADMJ 1265 - ADVANCED TOPICS IN CRIMINOLOGY
- ADMJ 1410 - INTRODUCTION TO CRIMINAL PROCEDURE

Forensics

- ADMJ 1100 - CRIME SCENE INVESTIGATION
- ADMJ 1115 - CRIMINALISTICS
- LEGLST 1230 - PSYCHOLOGY AND LAW

Cybercrime

- ADMJ 1234 - INTRODUCTION TO CYBERCRIME

Choose two of these four concentration courses

- ADMJ 1236 - INTERNATIONAL ORGANIZED CRIME
- ADMJ 1238 - CYBER SECURITY, LAW, AND MONEY LAUNDERING
- ADMJ 1246 - FINANCING TERRORISM
- ADMJ 1425 - PRINCIPLES OF HOMELAND SECURITY

Major Electives: 9 credits (three courses)

- ADMJ 0100 - SOCIETY AND THE LAW
- ADMJ 0600 - INTRODUCTION TO CRIMINOLOGY
- ADMJ 1100 - CRIME SCENE INVESTIGATION
- ADMJ 1115 - CRIMINALISTICS
- ADMJ 1118 - CRIMINALISTICS LAB
- ADMJ 1200 - INTRODUCTION TO LAW ENFORCEMENT
- ADMJ 1205 - INTRODUCTION POLICE MANAGEMENT
Note:

Other related courses are offered by the disciplines of anthropology, legal studies, political science, psychology, public service, and sociology. Check with a CGS academic advisor for approved courses from these disciplines to satisfy the major's elective requirements.

This major requires that you complete an internship at a facility outside the University, and that facility may require a criminal background check, Act 33/34 clearance, and perhaps drug screening to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Transfer Credit Agreement

A transfer credit agreement has been established between the criminal justice program at Butler County Community College and the administration of justice program at Pitt. The agreement gives a course-by-course outline of the associate's degree program and the equivalent course or requirement fulfilled for CGS. Courses transfer if graded C or better. For a copy of the transfer agreement for a specific community college, contact CGS.

Police Academy Certification

Students may receive up to 15 transfer credits for completion of Pennsylvania Municipal Police Academy Act 120 or state police cadet training. Certification course work is equivalent to ADMJ 0500, ADMJ 1400, ADMJ 1410, and two ADMJ elective courses.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.
Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available.

Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in
our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)
A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

**One course in Historical Analysis (3 credits)**

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

**Three courses in the Natural Sciences (9 credits)**

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

**Global Awareness and Cultural Understanding (9 credits)**

Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

**Specialized Study (the Major) (30-36 credits)**

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business
- Education
- Engineering
- Health and Rehabilitation Sciences
- Information Science
- Nursing
- Pharmacy
- Social Work

Dental Hygiene, BS

Opportunities for health care professionals are becoming available as a result of the changes in health care delivery formats. To prepare dental hygiene graduates for employment opportunities created by these changes, the University of Pittsburgh's College of General Studies and the School of Dental Medicine have developed a course of study that leads to a Bachelor of Science in dental hygiene. This degree is intended for those students who have graduated from accredited dental hygiene programs with a certificate or associate's degree. (See School of Dental Medicine listings in this bulletin for information about the Associate of Science in Dental Hygiene program.) The Bachelor of Science degree enhances the already completed professional training and provides important exposure to the liberal arts. The combination of basic sciences, clinical experiences, and liberal arts strengthens the career opportunities for dental hygienists in business, sales, dental hygiene education, and research.

A distinct advantage of the Bachelor of Science degree is that hygienists can practice their profession following receipt of their certificate in dental hygiene and be employed while completing the requirements for the bachelor's degree. Class schedules can be tailored to work schedules. Classes are available in the evening, during the day, on Saturday, and through CGS Online. Attendance can be on a full-time or part-time basis.

Program Requirements

The following program requirements must be met to receive the Bachelor of Science degree:

- Students must earn a minimum of 131 credits to complete the Bachelor of Science degree. Of this 131-credit total, 30 credits must be at the 1000 (junior/senior) level. The courses must be completed within five years of enrolling in the program.
- Students who are transferring from certificate/associate degree hygiene programs to the College of General Studies (CGS) dental hygiene Bachelor of Science degree program complete 39 credits of CGS general education and dental hygiene track course work.
- At least 30 of the 39 credits must be completed at the University of Pittsburgh. Contact CGS Advising for information about credits that transfer from other institutions or if you completed your dental hygiene certificate at Pitt before 1995.

Required Courses (39 credits)

The required courses are listed below.

CGS General Education Courses (33 credits)
General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

*Important Information:* Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. For details on the new CGS general education program and a list of approved courses, visit: [http://www.cgs.pitt.edu/academics/general-education-requirements](http://www.cgs.pitt.edu/academics/general-education-requirements).

**Listed below are the revised CGS General Education Requirements for dental hygiene students for Fall 2018 and afterward.**

**Note:** 9-15 credits in courses below must be at the 1000-level depending on the student's area of concentration in the major. One of the courses taken below must also satisfy a 'Diversity' General Education requirement.

**Writing (6 credits)**
- Two "W" courses

**Mathematics (3 credits)**
- Algebra or CS course

**Humanities and Arts, Social Sciences, and Natural Sciences (15 credits)**
- 6 credits in 2 courses that satisfy 2 of the 3 following general education requirements: The Arts, Creative Work, Philosophical Thinking or Ethics.
- 3 credits in a course that satisfies the Social Science general education requirement.
- 3 credits in a course that satisfies the Literature general education requirement.
- 3 credits in a course that satisfies the Historical Analysis general education requirement.

**Global Awareness and Cultural Understanding (9 credits)**
- 3 credits in a course that satisfies the Global Issues general education requirement.
- 3 credits in a course that satisfies the Specific Geographic Region general education requirement.
- 3 credits in a course that satisfies the Cross-Cultural Awareness general education requirement.

**Dental Hygiene Tracks (6 credits)**

Students must choose a concentration in health management, education, or research.

**Health Management**
- DENHYG 1921 - HEALTH MANAGEMENT SEMINAR
- DENHYG 1922 - HEALTH MANAGEMENT PRACTICUM

**Education**
- DENHYG 1901 - ALLIED HEALTH EDUCATION
- DENHYG 1902 - ALLIED HEALTH EDUCATION PRACTICUM

**Research**
- NUR 0067 - NURSING RESEARCH: AN INTRODUCTION TO CRITICAL APPRAISAL AND EVIDENCE-BASED PRACTICE or
- PSY 0035 - RESEARCH METHODS or
- SOC 0230 - SOCIAL RESEARCH METHODS
Note:

In this 39-credit program, 18 credits should be completed using 1000-level course work. These 18 credits, when combined with the twelve credits for DENHYG 1544, DENHYG 1545, DENHYG 1547, DENHYG 1549, and DENHYG 1689 completed in the dental hygiene program, meet the CGS requirement for 30 credits of 1000-level course work. Check with an advisor before registering. Requirements are subject to change.

Health Services, BA

The health services major is an interdisciplinary course of study designed to prepare students to work in health care. The program analyzes the structure of the health care industry; identifies cultural, legal, and environmental factors that impact health; and provides students with communication and management skills.

Students choose one of two fields:

- Managing health services programs and projects gives students key administrative and business skills, with an emphasis on grant and research project management.
- Community health assessment provides skills to assess the physical, social, and environmental factors influencing health behaviors.

Major Requirements

A minimum total of 120 credits is required for the Bachelor of Arts degree with a major in health services. Of this total, the major consists of 3 credits of prerequisite courses and 33 credits of core and specialization courses. The remaining credits for the degree are outlined on the General Education Requirements section on this page.

Prerequisite: Computer Competency

Check with an advisor for information about other options.

- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Health Field Core (15 credits)

- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION Health Communication
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- SOC 0477 - MEDICAL SOCIOLOGY

Specialization Tracks (18 credits)

Students take a total of two required courses and four elective courses. Check with an academic advisor for course availability and additional elective options.

Track 1: Managing Health Services Programs and Projects

Required, choose two:

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR or
• BUSORG 1020 - ORGANIZATIONAL BEHAVIOR or
• COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
• PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

Electives, choose four:

• AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
• ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
• COMMRC 1106 - SMALL GROUP COMMUNICATION
• ECON 0220 - INTRO TO HEALTH ECONOMICS
• ENGCMP 1400 - GRANT WRITING
• HIM 1455 - QUALITY MANAGEMENT
• HIM 1465 - REIMBURSEMENT SEMINAR
• HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
• HIST 1706 - GLOBAL PHARMACEUTICALS
• HPS 0612 - MIND AND MEDICINE
• NROSCI 0081 - DRUGS AND BEHAVIOR
• PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
• PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
• PHIL 1360 - BIOMEDICAL ETHICS

Track 2: Community Health Assessment

Required, choose two:

• NUR 1765 - RISK FACTORS AND HEALTH
• SOC 1450 - HEALTH AND ILLNESS
• PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE

Electives, choose four:

• AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
• COMMRC 0530 - INTERPERSONAL COMMUNICATION
• ECON 0220 - INTRO TO HEALTH ECONOMICS
• HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
• HIST 1706 - GLOBAL PHARMACEUTICALS
• HPS 0613 - MORALITY AND MEDICINE
• NROSCI 0081 - DRUGS AND BEHAVIOR
• NUR 1634 - HEALTH CARE DELIVERY IN OMAN
• NUTR 1006 - INTRO TO HUMAN NUTRITION
• PSY 1215 - HEALTH PSYCHOLOGY
• PSY 1230 - PSYCHOLOGY OF DEATH AND DYING
• PSY 1235 - ALCOHOL USE AND ABUSE
• PSY 1255 - PRINCIPLES OF BEHAVIOR MODIFICATION
• PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
• PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
• REHSCI 1018 - SURVEY OF HEALTH AND REHABILITATION PROFESSIONS
• REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY

Notes
Requirements subject to change. Check with an academic advisor before registering.

An internship is available through the College of General Studies. Please see your advisor for additional information.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmItFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:

http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.
Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)
This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

**One course in Creative Work (3 credits)**

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

**One course in Philosophical Thinking or Ethics (3 credits)**

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

**One course in Social Sciences (3 credits)**

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

**One course in Historical Analysis (3 credits)**

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

**Three courses in the Natural Sciences (9 credits)**

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

**Global Awareness and Cultural Understanding (9 credits)**

Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business • Education • Engineering • Health and Rehabilitation Sciences • Information Science • Nursing • Pharmacy • Social Work

Health Services, BS

The Bachelor of Science in Health Services is an interdisciplinary degree completion program designed for allied health professionals who have already received their technical education and licensure in diagnostic medical sonography, radiological technology or respiratory therapy and for community college graduates who have already completed a designated allied health profession associate degree. The core of this flexible program provides students with communication and management skills as well as broadening students' understanding of health-related issues.

Requirements

Students must earn a minimum of 120 credits to complete the Bachelor of Science degree with a major in health services. Of this total, the degree consists of 12 credits of required health services courses and up to 24 credits of professional courses, with the remainder consisting of general education courses and electives.

Note: Licensed diagnostic medical sonographers, radiological technologists, and respiratory therapists, or those who've earned an associate's degree in an approved allied health profession, will be awarded 24 professional education credits. Credits earned at other colleges or universities will be evaluated for transfer. Please check with an academic advisor for specifics related to your associate's degree program.
Health Service Courses: 12 credits

A minimum of 12 credits, or four courses, are required as follows:

A. Health Field: 6 credits

Students choose two courses from the following list:

- NUR 1765 - RISK FACTORS AND HEALTH
- PHIL 1360 - BIOMEDICAL ETHICS
- PSY 1215 - HEALTH PSYCHOLOGY
- SOC 0477 - MEDICAL SOCIOLOGY
- SOC 1450 - HEALTH AND ILLNESS

B. Administration/Management Field: 3 Credits

Students choose one course from the following list:

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR or BUSORG 1020 - ORGANIZATIONAL BEHAVIOR or COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

C. Related Field: 3 credits

Students choose one additional course from the Health Field or Administration/Management Field lists above or else from the list below:

- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- HRS 1006 - INTRO TO HUMAN NUTRITION
- PSY 1255 - PRINCIPLES OF BEHAVIOR MODIFICATION
- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- HIST 1706 - GLOBAL PHARMACEUTICALS

Notes

Requirements are subject to change. Many courses are available in an online format. Check with an academic advisor for course availability and additional elective options before registering.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.
The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.
A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

**Diversity (3 credits)**

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

**Language/Communication (6-10 credits)**

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

**Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)**

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

**Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)**

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

**Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)**

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

**One course in Literature (3 credits)**

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

**One course in the Arts (3 credits)**

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

**One course in Creative Work (3 credits)**

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

**One course in Philosophical Thinking or Ethics (3 credits)**
This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing (‘W’) courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.
Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business
- Education
- Engineering
- Health and Rehabilitation Sciences
- Information Science
- Nursing
- Pharmacy
- Social Work

Humanities, BA

Humanities is a liberal arts major with a focus on courses from three humanities departments. This major can be customized to meet your interests and personal or career goals. You will choose to concentrate in three areas from the list below and have the opportunity to take a variety of courses within those areas of study.

Humanities degree graduates have a variety of skills that make them attractive to prospective employers. Career fields pursued by humanities graduates include the following:

- Acting and drama
- College administration
- Event planning
- Human resources
- Politics
- Teaching
- Publishing
- Journalism
- Marketing and advertising
- Public relations
- Insurance
- Real estate
- Social work
- Occupational therapy
- Travel and tourism
Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in humanities. Of this total, students must take a minimum of 36 credits (approximately 12 courses) according to the specifications below. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

Standard Option

Choose a minimum of 36 credits (approximately 12 courses) from any three departments/programs below. All courses taken must be humanities related.

- Africana Studies (courses must be humanities related)
- Classics
- Communication
- English Composition (0300 and above)
- Film Studies
- English Literature
- English Writing
- Foreign language departments (literature and culture courses)
- History of Art and Architecture
- Music
- Philosophy
- Religious Studies (courses must be humanities related)
- Studio Arts
- Theatre Arts

Notes

- At least five courses must be taken from one department, and at least three courses must be taken from each of the two other departments.
- At least half of the courses taken for the major must be upper-division (1000-level) courses.
- All courses selected for the humanities major must be approved by an academic advisor.

Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see an advisor for additional information.

Pre-Education Options

The College of General Studies and the Pitt School of Education have collaborated on a curriculum within the humanities major that incorporates all of the prerequisite course work needed for admission into the certificate program in comprehensive English education. This option may be used by students interested in the Master of Arts in Teaching (MAT) or Professional Year (PY) programs offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs.

Students pursuing this track take a wide variety of English courses in literature, writing/composition, and literary/film/media theory, in addition to a required foundations course in special education, for a total of 36 credits (approximately 12 courses). At least half of these courses must be at the 1000 level. Students are also encouraged to participate in an internship during their degree program and may fulfill some CGS general education and major requirements by completing a study abroad program. See a CGS advisor for more information.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.
The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.
A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)
This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing (‘W’) courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.
Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business
- Education
- Engineering
- Health and Rehabilitation Sciences
- Information Science
- Nursing
- Pharmacy
- Social Work

Legal Studies, BA

The legal studies major is an interdisciplinary course of study that combines the theories and methods of several social science disciplines and law. While not designed as a prelaw program, the major seeks to develop an understanding of the nature, content, and operation of American law and legal institutions.

Career Opportunities

Courses in legal studies provide a background for graduate work in administration of justice, business, legal studies, and law as well as work in law-related fields like insurance, social security, and social services. The courses also prepare students for careers in the following settings:

- banking
- children's rights
- civil liberties organizations
- collective bargaining/labor relations
- corporate sales divisions
- credit-related agencies
- judicial administration
- legal research
- human resources
- planning commissions
- privacy protection
- public government aid/legislation
- public welfare
Major Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in legal studies. Of this total, 30 credits make up the major, which is satisfied by taking courses to complete the core requirements, legal studies electives, and outside electives. Below is an outline of these major course requirements. The remaining credits required for the degree are outlined in the General Education Requirements section on this page. Some legal studies courses fulfill the College of General Studies social sciences curriculum requirements. See the current time schedule of classes for specific information.

Core Requirements: 6 credits (two courses)

- LEGLST 0080 - INTRODUCTION TO LEGAL STUDIES
  Choose one of the following:
  - LEGLST 1210 - LAW AND POLITICS or
  - PS 1213 - LAW AND POLITICS (Political Science)

Legal Studies Electives: 18 credits (choose six courses)

- LEGLST 0020 - PUBLIC LAW AND MORAL REASONING
- LEGLST 1140 - INTRODUCTION TO CRIMINAL LAW
- LEGLST 1141 - INTRODUCTION TO CRIMINAL PROCEDURE
- LEGLST 1150 - LAWYERS AND LEGAL PROFESSION
- LEGLST 1152 - LEGAL ISSUES IN PUBLIC SERVICE
- LEGLST 1155 - LAW AND SOCIAL CHANGE
- LEGLST 1230 - PSYCHOLOGY AND LAW
- LEGLST 1260 - LAW, LITERATURE, AND CINEMA
- LEGLST 1315 - SEX, LAW AND MARRIAGE
- LEGLST 1318 - SEPARATION, DIVORCE AND CUSTODY
- LEGLST 1320 - LAW AND ENVIRONMENT
- LEGLST 1325 - CONSUMER LAW
- LEGLST 1326 - GLOBALIZATION AND LAW
- LEGLST 1327 - INTERNATIONAL LAW
- LEGLST 1340 - INTRODUCTION TO CIVIL RIGHTS
- LEGLST 1355 - EMERGING ISSUES IN LEGAL AND SOCIAL POLICY
- LEGLST 1410 - INTRODUCTION TO LEGAL RESEARCH
- LEGLST 1430 - TRIAL ADVOCACY 1 (honors)
- LEGLST 1435 - TRIAL ADVOCACY 2 (honors)
- LEGLST 1901 - INDEPENDENT STUDY
- ADMJ 1900 - PRESERVICE INTERNSHIP

Outside Electives: 6 credits (choose two courses)

The final degree requirement is completion of 6 credits (two courses) from a list of approved electives outside legal studies. The following represents approved elective courses from various disciplines:

Administration of Justice

- ADMJ 0100 - SOCIETY AND THE LAW
• ADMJ 0500 - INTRODUCTION TO ADMINISTRATION OF JUSTICE
• ADMJ 1220 - DEVIANCE AND THE LAW
• ADMJ 1450 - CRITICAL ISSUES IN CRIMINAL JUSTICE

Communication

• COMMRC 1114 - FREEDOM OF SPEECH AND PRESS

English Composition

• ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS

History

• HIST 1190 - MEDIEVAL GOVERNMENT AND SOCIETY
• HIST 1191 - ENGLISH ORIGINS OF AMERICAN LAW
• HIST 1690 - AMERICAN LEGAL HISTORY

Philosophy

• PHIL 1390 - PHILOSOPHY OF LAW

Political Science

• PS 1211 - LEGISLATIVE PROCESS
• PS 1614 - THEORIES OF JUSTICE (Honors)

Psychology

• PSY 0182 - LAW AND SOCIAL PSYCHOLOGY

Public Service

• PUBSRV 1305 - HEALTH, LAW AND ETHICS

Sociology

• SOC 0471 - DEVIANCE AND SOCIAL CONTROL

Notes

Students interested in a minor, rather than a major, in legal studies should check with their academic advisor.
Requirements are subject to change. Check with an academic advisor before registering.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want
like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly
diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly
excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and
intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements
for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School
of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE
DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially
important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base
appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted
from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the
importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they
have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the
skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the
entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially
revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one
W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is
available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education
courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or
higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics,
all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)
All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a
A course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

**One course in Philosophical Thinking or Ethics (3 credits)**

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

**One course in Social Sciences (3 credits)**

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

**One course in Historical Analysis (3 credits)**

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

**Three courses in the Natural Sciences (9 credits)**

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

**Global Awareness and Cultural Understanding (9 credits)**

Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing (W) courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

**Specialized Study (the Major) (30-36 credits)**
The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business
- Education
- Engineering
- Health and Rehabilitation Sciences
- Information Science
- Nursing
- Pharmacy
- Social Work

Political Science

Liberal Studies, BA

Requirements

The College of General Studies and the School of Education have collaborated on the liberal studies curriculum that may be used by students interested in the professional year or the Master of Arts in teaching programs offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to their programs. See an academic advisor for specific requirements. This program is not currently accepting new students. Students who declared the program prior to 2012 and have not completed the program should see an academic advisor for alternative options.

Media and Professional Communications, BA

This major provides students with a rigorous education in the theories of mass media process, history, and ethics as well as the opportunity to specialize in one of three professional practice areas: corporate and community relations, writing for the professions, or digital media.

The three tracks are designed to strengthen both the knowledge base and proficiencies of students pursuing careers in communication fields, such as print, television, radio, film, new media, and corporate and organizational communications. This program also will benefit students pursuing careers in a variety of industries in which communication with internal and external audiences is critical. Learn more about our featured internship opportunity with Pitt Panther TV, and other internship opportunities, today.
Major Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in media and professional communications. Of this total, the major consists of 12 credits of prerequisite courses and 24 credits of specialization courses. The remaining credits for the degree are outlined in the General Education Requirements section on this page. A grade of C or better is required in English composition and writing courses.

Prerequisite Courses (12 credits)

Required for all three tracks.

- COMMRC 0320 - MASS COMMUNICATION PROCESS
- COMMRC 1121 - HISTORY OF MASS MEDIA
- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Specializations (24 credits)

Choose one of the specialization tracks that follow.

TRACK 1: Corporate/Community Relations

Required Courses (9 credits)

- COMMRC 1111 - THEORIES OF PERSUASION
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION
- BUSERV 1940 - MARKETING FUNDAMENTALS

Electives, choose four (12 credits)

- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - WRITING ARGUMENTS
- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
Track 2: Writing for the Professions

Required Courses (6 credits)

- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS
  and choose one of the following courses:
  - ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION or
  - ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW

Electives, choose five (15 credits)

- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1400 - GRANT WRITING
- ENGWRT 0550 - FUNDAMENTALS OF NEWS REPORTING
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- ENGWRT 1391 - WRITING THE REVIEW
- ENGWRT 1393 - SPORTS WRITING
- ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA

Internship, choose one (3 credits)

- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR (section 7710)
- ENGWRT 1370 - JOURNALISM BOOT CAMP: WRITE NOW

Track 3: Digital Media

Required Courses (9 credits)

- COMMRC 1112 - THEORIES OF RHETORIC
- ENGFLM 0355 - VISUAL LITERACY or ENGFLM 0401 - INTRODUCTION TO VISUAL CULTURE
- FILMST 0001 - FILMMAKING 1: FUNDAMENTALS

Electives, choose four (12 credits)

- COMMRC 1105 - TELEVISION AND SOCIETY
- COMMRC 1126 - MEDIA AND CONSUMER CULTURE
- ENGCMP 0425 - DIGITAL HUMANITY cross-listed with HAA 0425
• ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
• ENGCMP 0610 - COMPOSING DIGITAL MEDIA
• ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
• ENGLFLM 0400 - INTRODUCTION TO FILM
• ENGLFLM 1390 - CONTEMPORARY FILM
• ENGLFLM 1485 - FILM AND POLITICS
• ENGLFLM 1683 - DOCUMENTARY FILM
• ENLIT 0354 - WORDS AND IMAGES
• ENLIT 0550 - INTRODUCTION TO POPULAR CULTURE
• ENGWRT 0650 - READINGS IN JOURNALISM
• HAA 0010 - INTRODUCTION TO WORLD ART
• ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
• FILMST 0120 - PHOTOGRAPHY 1
• FILMST 0151 - WEB DESIGN 1
• FILMST 0221 - PHOTOGRAPHY 2
• FILMST 0245 - PHOTO EDITING 1
• FILMST 0400 - POST-PRODUCTION 1
• FILMST 0410 - PHOTOGRAPHY 3
• FILMST 0420 - POST-PRODUCTION 2
• FILMST 0601 - FILMMAKING 2: SIGHT AND SOUND
• FILMST 0610 - DIGITAL EFFECTS 1
• FILMST 1600 - FILMMAKING 3: STORY TO SCREEN
• HAA 0070 - ART OF EUROPE
• PS 1836 - POLITICS THROUGH FILM
• PSY 1050 - TOPICS IN PSYCHOLOGY
• SA 0110 - VISUAL THINKING
• SA 0130 - DRAWING STUDIO 1
• SA 1270 - DIGITAL STUDIO: IMAGING

Internship (3 credits)

• CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR (section: 7710)

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:
Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)
Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.
Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.
Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

• Business • Education • Engineering • Health and Rehabilitation Sciences • Information Science • Nursing • Pharmacy • Social Work

Natural Sciences, BS

The natural sciences major is a liberal arts major with a focus on courses from three natural sciences departments. Students customize this major to meet their interests and personal or career goals, choosing from a variety of courses with a concentration in three areas, such as anthropology, biological sciences, chemistry, computer science, geology and planetary science, history and philosophy of science, mathematics, neuroscience, physics, psychology, and statistics.

Also available are a pre-medicine option (for those preparing for medical school or another health professional school); a pre-physician assistant option (for those preparing to apply to Physician Assistant education programs), and two pre-education options (for those preparing for teaching careers). Please note that students declaring a Natural Sciences major, beginning May 14, 2018, will need to have the following minimum GPA for these tracks: A 3.5 minimum GPA is required for the pre-medicine and pre-physician assistant options and a 3.0 minimum GPA is required for the pre-education options.

Natural Sciences Standard (Multi-Disciplinary) Major (36 credits)

Choose a minimum of 36 credits (approximately 12 courses) from two to four departments below. All courses taken must be related to natural sciences and selected in consultation with your CGS advisor. At least five courses must be taken from one department, which provides a disciplinary base. The other courses should be selected based on your academic and professional goals. All courses for your natural sciences major must be approved by your academic advisor.

• Anthropology (natural sciences-related course)
• Astronomy
• Biological Sciences
• Chemistry
• Computer science (only courses numbered 0401 and above)
• Geology and planetary science
• History and philosophy of science (natural sciences-related course)
• Mathematics (only courses numbered 0220 and above)
• Neuroscience
• Physics
• Psychology (natural sciences-related course)
• Statistics (0200 or 1000, and courses numbered above 1000)

Pre-Medicine Option (39 credits)

This natural sciences concentration incorporates the course work needed for admission to most medical and dental programs. Completion of this concentration does not guarantee acceptance into graduate study. Students pursuing this option can take advantage of the resources of the University of Pittsburgh's health professions advising team, based in the University Honors College. Night sections of biology, chemistry, and physics courses are available, with seats reserved specifically for CGS students.
Students pursuing the Pre-Medicine track in the Natural Sciences major must maintain an overall GPA of 3.50.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 1000 - BIOCHEMISTRY
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- PHYS 0120 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS
- MATH 0220 - INTRODUCTION TO PHYSICS 1
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS

Additional recommended courses for premedicine option:
- *MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS (choose the course that you did not take as part of your requirements)
- BIOSC 1850 - MICROBIOLOGY
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- NROSCI 1250 - HUMAN PHYSIOLOGY

Pre-Physician Assistant Option (min. 40 credits)

The pre-PA curriculum is designed for students who are interested in the Physician Assistant Studies Program at the University of Pittsburgh School of Health & Rehabilitation Sciences (SHRS). The pre-PA option incorporates the prerequisite course work necessary for the application. Completion of the pre-PA plan does not guarantee admission. For a full list of admission requirements, visit the School of Health and Rehabilitation Sciences PA program website. Note: Requirements for other PA programs from schools other than the University of Pittsburgh may differ. Please consult their respective websites for specific admission requirements.

Students pursuing the Pre-Physician's Assistant track in the Natural Sciences major must maintain an overall GPA of 3.50.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 1850 - MICROBIOLOGY
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
- NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2
- NUR 0003 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 2
- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY Upper-Level Elective Course
- STAT 0200 - BASIC APPLIED STATISTICS or STAT 1000 - APPLIED STATISTICAL METHODS or PSY 0310 - DEVELOPMENTAL PSYCHOLOGY
- Outside Major: Other Requirement and Recommended Courses
- REHSCI 1235 - MEDICAL TERMINOLOGY
Pre-Education Options

The College of General Studies and the Pitt School of Education have collaborated on two concentrations in the natural sciences major that incorporate the prerequisite science course work needed for admission into the certificate programs in earth and space science and general science. These options may be used by students interested in the Master of Arts in Teaching program offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs. Students must complete a minimum of 120 credits (approximately 40 courses) for a Bachelor of Science degree with a major in natural sciences. Of this total, students must take a minimum of 38 credits (approximately 12 courses) according to the specifications. The remaining credits required for the degree are outlined on the Requirements for the Bachelor's Degree information sheet.

Students pursuing the Pre-Education tracks must maintain an overall GPA of 3.00

Earth and Space Science Concentration (45 credits)

- ASTRON 0089 - STARS, GALAXIES AND THE COSMOS
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE or GEOL 0890 - OCEANOGRAPHY
- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0060 - HISTORY OF THE EARTH or GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 0800 - GEOLOGY
- GEOL 0840 - ENVIRONMENTAL SCIENCE
- GEOL 0860 - ENVIRONMENTAL GEOLGY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Science Electives

General Science Concentration (46 credits)

- ASTRON 0089 - STARS, GALAXIES AND THE COSMOS
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0370 - ECOLOGY
- BIOSC 1000 - BIOCHEMISTRY or BIOSC 1850 - MICROBIOLOGY
  Note that CHEM 0320 is a prerequisite course for BIOSC 1000.
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- GEOL 0800 - GEOLOGY or GEOL 0860 - ENVIRONMENTAL GEOLOGY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS
- IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Notes
Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see your advisor for additional information.

**General Education Requirements**

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

**Notes**

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here: http://www.cgs.pitt.edu/academics/general-education-requirements.

**Writing (9 credits)**

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

**Introductory Composition Course (3 credits)**

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

**Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)**

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as ‘W-Courses’, or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

**College Algebra (3 credits)**

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.
Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)
This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

**One course in Creative Work (3 credits)**

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

**One course in Philosophical Thinking or Ethics (3 credits)**

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

**One course in Social Sciences (3 credits)**

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

**One course in Historical Analysis (3 credits)**

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

**Three courses in the Natural Sciences (9 credits)**

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

**Global Awareness and Cultural Understanding (9 credits)**

Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing (W) courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
• Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

• Administration of justice*
• Dental hygiene (for licensed dental hygienists)
• Health services (BA and BS)
• Humanities*
• Legal studies
• Media and professional communications
• Natural sciences
• Public service
• Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

• Business • Education • Engineering • Health and Rehabilitation Sciences • Information Science • Nursing • Pharmacy • Social Work

Public Service, BA

The undergraduate major in public service is offered by the Pitt Graduate School of Public and International Affairs. It is designed to prepare students for a broad range of careers that are focused on the resolution of public problems or the delivery of public services. These careers range from those in the local government and community arena to the metropolitan region and state arena to national and international settings. Potential employers include local, state, and federal governments; nonprofit and nongovernmental organizations at the local, regional, national, and international level; private firms engaged in working with governments; and private corporations with an active public service culture.

The major serves students who are interested in public issues as concerned and interested citizens and prepares them for a wide range of graduate programs related to public policy and management.

Major Requirements

Students must complete a minimum of 120 credits for the Bachelor of Arts degree with a major in public service. Of this total, students must take 33 credits (11 courses) in public service; one course in statistics(STAT 0200 - BASIC APPLIED STATISTICS or an equivalent course); and six credits
(two courses) in a related field such as political science, economics, psychology, sociology, or another field approved by an academic advisor. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

Core Courses (15 credits)

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 0030 - PUBLIC POLICY PROCESS
- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV 1900 - INTERNSHIP SEMINAR

Concentration Areas (18 credits)

Choose one of the three concentration areas below:

Public Administration Concentration

- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR
- PUBSRV - Electives (choose two additional public service courses)

Nonprofit Management Concentration

- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1220 - HUMAN RESOURCE MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1230 - FUNDRAISING FOR NON-PROFIT ORGANIZATIONS
- PUBSRV - Electives (choose two additional public service courses)

Self-Designed Concentration

Courses that meet the special program needs of the student may be selected from the courses offered in public service or in a related area or department. A written plan for completing the self-designed concentration must be approved by the College of General Studies Academic Affairs Committee. The proposed plan of studies should be unique and not offered at Pitt in another facet such as another major, certificate or minor.

Public Service Electives

Public administration concentration students may use the 1200-numbered courses as electives; nonprofit management concentration students may use 1100-numbered courses. Courses designated (UHC) are offered in conjunction with the University Honors College.

- PUBSRV 1300 - LEGAL ISSUES IN PUBLIC SERVICE
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE
- PUBSRV 1340 - STRATEGIC PLANNING PUBLIC SECTOR
- PUBSRV 1390 - THEORIES OF LEADERSHIP
- PUBSRV 1425 - PRINCIPLES OF HOMELAND SECURITY
- PUBSRV 1430 - TRIAL ADVOCACY 1 (honors)
Notes

Five-year accelerated program for Pitt undergraduates

High-achieving University of Pittsburgh juniors (and in some cases, first-term seniors) in the College of General Studies may apply early to the Graduate School of Public and International Affairs (GSPIA). If admitted, they may enroll at GSPIA in what normally would have been their senior year, allowing them to complete both a bachelor's and a master's degree in a total of five years. Special eligibility requirements apply. Pitt undergraduates interested in this program should contact GSPIA at 412-648-7640.

Please note:

This major requires that you complete an internship at a facility external to the University, and this facility may or will require a criminal background check, an Act 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Students interested in a minor, rather than a major, in public service should check with their academic advisor.

Requirements subject to change. Check with an academic advisor before registering.

General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)
Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

**Specialized Study (the Major) (30-36 credits)**

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

**Electives**

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.
Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

• Business • Education • Engineering • Health and Rehabilitation Sciences • Information Science • Nursing • Pharmacy • Social Work

Social Sciences, BA

Social sciences is a liberal arts major with a focus on courses from three social sciences departments. This major can be customized to meet your interests and personal or career goals. You will choose to concentrate in three areas from the list below and have the opportunity to take a variety of courses within those areas of study.

Also available is a pre-education option for those preparing for a teaching career.

Social Sciences Standard Major (36 credits)

Of the minimum total of 120 credits required for the Bachelor of Arts degree with a major in social sciences area, 36 credits (approximately 12 courses) must come in courses that satisfy the major requirements. To satisfy those requirements, students choose social sciences related courses from three of the following departments and programs.

- Africana studies (social sciences-related courses)
- Anthropology (social sciences-related courses)
- Economics
- Gender, Sexuality, and Women's Studies
- History
- Jewish studies
- Legal studies
- Political science
- Psychology (social sciences-related courses)
- Religious studies (social sciences-related courses)
- Sociology

Notes

Students must adhere to the following requirements as they take courses for the social sciences standard major:

- At least five courses must be taken from one department/program listed above and at least three courses from the other two departments/programs.
- At least one half of the major courses must be at the 1000-level.
- All courses selected for the social sciences area major must be approved by an academic advisor.

Pre-Education Option (36 credits)

The College of General Studies and the Pitt School of Education have collaborated on a concentration in the social sciences major that incorporates the prerequisite science course work needed for admission into the certificate program in Social Studies Education. This option may be used by students interested in the Master of Arts in Teaching (MAT) program and Professional Year (PY) Program offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs. Students must complete a minimum of 120 credits (approximately 40 courses) for a Bachelor of Science degree with a major in social sciences. Of this total, students must take a minimum of 36 credits (approximately 12 courses) according to the specifications. At least 18-credit hours must be at the 1000-level. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

Area 1: History, Geography, Culture (15-18 credits)
Recommended courses: choose one per category.

U.S. History

- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0670 - AFRO-AMERICAN HISTORY 1
- HIST 0671 - AFRO-AMERICAN HISTORY 2
- HIST 1610 - UNITED STATES COLONIAL
- HIST 1611 - AMERICAN REVOLUTION 1763-1791
- HIST 1619 - UNITED STATES SINCE 1945

Western European History

- HIST 0100 - WESTERN CIVILIZATION 1
- HIST 0101 - WESTERN CIVILIZATION 2

World History (Non-Western)

- HIST 0700 - WORLD HISTORY

Ancient History

- CLASS 0020 - ROMAN CIVILIZATION
- HIST 0400 - EAST ASIAN CIVILIZATION TO 1800
- HIST 1775 - ORIGINS OF CHRISTIANITY
- HIST 1781 - ROMAN HISTORY
- HIST 1783 - GREEK HISTORY

Geography

- AFRCNA 0385 - CARIBBEAN HISTORY
- HIST 0401 - MODERN EAST ASIAN CIVILIZATION
- HIST 0501 - MODERN LATIN AMERICA
- HIST 1164 - SMALL COUNTRIES AND THE EUROPEAN UNION

World Cultures

- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- HIST 1423 - MODERN CHINA
- HIST 1433 - MODERN JAPAN
- HIST 1796 - HISTORY OF AFRICA SINCE 1800

Area 2: Civics (3 credits)

Recommended courses.

- HIST 1641 - MODERN AMERICAN POLITICS
- PS 0200 - AMERICAN POLITICS
- PS 1231 - POLITICAL PARTIES AND ELECTIONS
Area 3: Economics (3 credits)

Recommended courses.

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 0800 - INTRODUCTION TO ECONOMICS

Area 4: Sociology and Social Foundations (3 credits)

Recommended courses.

- ADMPS 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- SOC 0005 - SOCIETIES
- SOC 0010 - INTRODUCTION TO SOCIOLOGY
- SOC 1107 - CULTURAL SOCIOLOGY

Area 5: Foundations of Special Education (3 credits)

Required course.

- IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Upper Level Electives (6 credits)

Recommended courses.

- GSWS 1180 - POLITICS OF GENDER AND FOOD
- LEGLST 1152 - LEGAL ISSUES IN PUBLIC SERVICE
- LEGLST 1210 - LAW AND POLITICS
- LEGLST 1320 - LAW AND ENVIRONMENT
- PS 1536 - HUMAN SECURITY
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- SOC 1119 - GLOBAL PERSPECVTIVES ON POPULAR CULTURE
- SOC 1445 - SOCIETY AND ENVIRONMENT
- SOC 1448 - WORKING WOMEN

Notes

- All courses selected for the social studies pre-education track must be approved by an academic advisor.
- At least half of these courses must be upper-division (1000-level) courses.
- Students are also encouraged to participate in an internship during their degree program and may fulfill some CGS general education and major requirements by completing a study abroad program.

Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see your advisor for additional information.
General Education Requirements

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our General Education Requirements changed for students entering as of Fall 2018 (2191) term. See the CGS General Education Requirements for Fall 2018 and afterward here or visit: http://www.cgs.pitt.edu/academics/general-education-requirements.

Notes

College of General Studies students can select courses to satisfy their general education requirements that have been approved by the Dietrich School of Arts and Sciences. A FULL LISTING OF COURSES APPROVED TO SATISFY THE GENERAL EDUCATION REQUIREMENTS BY THE DIETRICH SCHOOL (continuously updated) can be found here:

https://www.asundergrad.pitt.edu/sites/default/files/general_education_catalog_AdmitFor2191.pdf

Non-Dietrich School courses that can be taken by CGS students to satisfy the general education requirements can be found here:
http://www.cgs.pitt.edu/academics/general-education-requirements.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.

College Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.
Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

**Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)**

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

**Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)**

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

**One course in Literature (3 credits)**

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

**One course in the Arts (3 credits)**

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

**One course in Creative Work (3 credits)**
In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

**One course in Philosophical Thinking or Ethics (3 credits)**

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

**One course in Social Sciences (3 credits)**

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

**One course in Historical Analysis (3 credits)**

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

**Three courses in the Natural Sciences (9 credits)**

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

**Global Awareness and Cultural Understanding (9 credits)**

Each student must complete three courses as distributed below:

**One course in Global Issues (3 credits)**

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

**One course in a Specific Geographic Region (3 credits)**

This course will be an in depth study and analysis of a particular region or locality outside the United States.

**One course in Cross-Cultural Awareness (3 credits)**

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

**Overlapping of General Education Courses**

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing (‘W’) courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.
Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major may be obtained at the CGS information display in 1400 Wesley W. Posvar Hall or on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. The majors indicated by asterisks are also available by combining Saturday and CGS Online courses.

- Administration of justice*
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities*
- Legal studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences*

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program. Students may have no more than 18 credits in professional courses, such as administration of justice, business, education, engineering, information science, public service, and social work, as electives.

Preparation for Professional Programs

Prerequisite courses for the following programs may be taken through CGS prior to applying to another Pitt school.

- Business
- Education
- Engineering
- Health and Rehabilitation Sciences
- Information Science
- Nursing
- Pharmacy
- Social Work

Administration of Justice Minor

Students interested in a minor, rather than a major, in administration of justice should check with their academic advisor. For CGS students, the minor consists of professional elective course work. For Dietrich School of Arts and Sciences (A&S) students, the minor consists of non-A&S elective course work.

Minor Requirements (15 credits)

Students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor.

Required Courses

- ADMJ 0500 - INTRODUCTION TO ADMINISTRATION OF JUSTICE
- ADMJ 1400 - INTRODUCTION TO CRIMINAL LAW
- ADMJ Electives
  See Administration of Justice Major for current list of electives.

Legal Studies Minor
Students interested in a minor, rather than a major, in legal studies should check with their academic advisor.

Minor requirements:

For the minor, students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor.

Required Courses

- LEGLST 0080 - INTRODUCTION TO LEGAL STUDIES

LEGLST Elective Courses

See LEGLST major for a list of electives.

Public Service Minor

Students interested in a minor, rather than a major, in public service should check with their academic advisor. For CGS students, the minor would be professional elective course work. For Dietrich School of Arts and Sciences students, the minor would be non-A&S elective course work.

Minor Requirements

For the minor, students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor.

Required courses:

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 0030 - PUBLIC POLICY PROCESS
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV - Electives

See Public Service major for a list of electives.

Note:

Requirements are subject to change. Check with an academic advisor before registering.

Accounting Certificate

Develop a practical and theoretical foundation in accounting while earning a certificate. Offered by the College of General Studies and the College of Business Administration, the 24-credit part-time evening program enables students to take the same subjects required for accounting majors in the Bachelor of Science in Business Administration program offered by the College of Business Administration.

Participants benefit from the academic instruction of the College of Business Administration and the nontraditional student services available through the College of General Studies. Credits earned may be counted toward certain state licensure requirements.

Who should participate:

Professionals who already have earned a bachelor's degree in any field and wish to develop careers in accounting or another business field in which substantial knowledge of accounting is an asset.

Upon completion of this certificate, participants will be able to:
• Share substantial knowledge of accounting
• Enhance their careers in the business field
• Meet many of the requirements to sit for the certified public accountant (CPA) examination in Pennsylvania.

This certificate is applicable to fields such as public accounting, auditing, taxation, corporate accounting, governmental accounting, and other careers in business that require a substantial knowledge of financial and/or managerial accounting.

**Admission requirements**

A bachelor's degree and a 2.75 or higher cumulative grade point average are required for admission to the program. A certificate application must be completed online. For an application and additional information on admissions guidelines, see admissions Web page. Credits earned at other accredited educational institutions will be evaluated for transfer. However, a minimum of 15 credits must be earned at the University of Pittsburgh. Students must earn a grade of C or better in all University accounting courses.

**CPA preparation**

Becoming a CPA in the state of Pennsylvania will require 150 credit hours of coursework, 36 credits of which must be in accounting, auditing, finance, tax, and business law. At that time, completing the certificate program will no longer be sufficient preparation to sit for the CPA exam. Please contact Melvin Watkins, CGS Academic Advisor, at mwatkins@pitt.edu to discuss options for meeting these requirements while enrolled in the College of General Studies.

To learn about becoming a CPA in Pennsylvania, visit the Pennsylvania Institute of Certified Public Accountants Web site at www.picpa.org. You can also contact the Pennsylvania State Board of Accountancy for more information at 717-783-1404 or by E-mail at st-accountancy@pa.gov.

**Obtaining the certificate**

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with your academic advisor for the application filing form and deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

**Curriculum (24 credits)**

Students must complete their required courses and a minimum of one elective course for a total of 24 credits. A grade of C or better is required for all courses in the program. Students must follow the approved prerequisites for each course. All courses are three credits, and all courses are offered in the evenings.

**Required Courses**

- CDACCT 6030 - FINANCIAL ACCOUNTING
- CDACCT 6040 - MANAGERIAL ACCOUNTING
- CDACCT 6204 - INTERMEDIATE FINANCIAL REPORTING 1
- CDACCT 6205 - INTERMEDIATE FINANCIAL REPORTING 2
- CDACCT 6236 - ACCOUNTING INFORMATION SYSTEMS
- CDACCT 6238 - AUDITING
- CDACCT 6242 - INDIVIDUAL TAX ACCOUNTING AND PLANNING

**Electives**

Take a minimum of one course.

- CDACCT 6210 - FINANCIAL STATEMENT ANALYSIS
- CDACCT 6221 - STRATEGIC COST MANAGEMENT
- CDACCT 6216 - ADVANCED FINANCIAL ACCOUNTING
- BUSENV 1760 - BUSINESS LAW

**Additional Information**
Gainful Employment Information

Communications Certificate

The Certificate in Communication is a 24-credit program designed to train students to be more effective communicators. Courses, taught by faculty of the Department of Communication, include a range of specialized communication topics. Participants may elect to concentrate their studies in such areas as nonverbal, small group, interpersonal, organizational, or mass communication; persuasion in political settings; or the construction, analysis, and delivery of public speech.

Admission requirements:

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and returned to the College of General Studies.

Who should participate:

- Business and professional people whose success may be enhanced by improved communication skills and further understanding of the communication process
- Those who wish to increase their personal knowledge of communication for use in their careers
- Citizens involved in community and public positions in which persuasive delivery and analysis are vital
- Persons seeking a better understanding of the impact of interpersonal, organizational, public, and mass communication in the contemporary world
- Students already enrolled in the College of General Studies or other University programs who want to concentrate on communications skills

Upon completion of this certificate, participants will be able to:

- Understand what makes one presentation more persuasive than another
- Polish and refine their communication skills
- Apply concentrated knowledge of a specialized communication topic

This certificate is applicable to fields such as education, writing, broadcasting, public relations, sales, communication training, personnel, promotions, advertising, market research, lobbying, politics, communications, and related fields.

Curriculum (24 credits)

The certificate is composed of three basic communication courses (9 credits) and five communication elective courses (15 credits).

- A minimum of five of the required eight courses must be completed at the University of Pittsburgh
- No course with a grade below C will be accepted for certificate credit

Required Courses (9 credits)

Choose three of the following courses. All courses are 3 credits, unless otherwise noted.

- COMMRC 0500 - ARGUMENT
- COMMRC 0520 - PUBLIC SPEAKING
Electives (15 credits)

Choose five of the following courses. All courses are 3 credits, unless otherwise noted. Prerequisite courses are in parentheses; English Composition 0200 is required for all 1000-level courses.

- COMMRC 0300 - COMMUNICATION PROCESS
- COMMRC 0310 - RHETORICAL PROCESS
- COMMRC 0320 - MASS COMMUNICATION PROCESS
- COMMRC 1101 - EVIDENCE
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION (0300)
- COMMRC 1103 - RHETORIC AND CULTURE (0310 or 0320)
- COMMRC 1104 - POLITICAL COMMUNICATION (0310 or 0320)
- COMMRC 1105 - TELEVISION AND SOCIETY (0320)
- COMMRC 1106 - SMALL GROUP COMMUNICATION (0300)
- COMMRC 1109 - NONVERBAL COMMUNICATION (0300)
- COMMRC 1110 - THEORIES OF INTERPERSONAL COMMUNICATION (0300)
- COMMRC 1111 - THEORIES OF PERSUASION (0520 and 0310 or 0320)
- COMMRC 1112 - THEORIES OF RHETORIC (0310 or 0520)
- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS (0310 or 0320)
- COMMRC 1117 - 21ST CENTURY PUBLIC ARGUMENT (0310 or 0320)
- COMMRC 1119 - PRESIDENTIAL RHETORIC 2 (0310 or 0320)
- COMMRC 1121 - HISTORY OF MASS MEDIA (0320)
- COMMRC 1122 - MEDIA CRITICISM (0320)
- COMMRC 1900 - COMMUNICATION INTERNSHIP or CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR

Notes

Requirements subject to change. Check with an academic advisor before registering.

Community Health Assessment Certificate

This interdisciplinary 18-credit program teaches students to:

- apply current theories and research related to how social, economic, cultural, legal, and/or environmental factors are associated with specific health care needs and outcomes;
- communicate knowledgeably and professionally in writing and/or verbally on topics related to health care; and
- use analytical skills to assess the physical, social, cultural, legal, and environmental factors influencing health behaviors.

Students who successfully complete this certificate may apply the credits to an undergraduate degree in the University of Pittsburgh College of General Studies (CGS).

Who should enroll:

- Health care workers seeking to more effectively communicate with and serve diverse populations of people or looking to take on leadership roles in the workplace
- Social work and social services employees interested in learning how health-related factors impact their clients and how social and cultural factors may impact their clients' health behaviors
- Public and community health workers who seek an understanding of the physical, social, and cultural factors influencing health behaviors and outcomes
- Professionals seeking to influence public policy regarding how healthcare services are delivered to diverse populations
- Individuals working for health care- or health services-focused nonprofits

This certificate is applicable to job titles such as health support coordinator, health outreach representative, health services administrator, and more. See an academic consultant for more details.

Upon completion of this certificate, participants will be able to:

- communicate and interact effectively and professionally with people from diverse backgrounds;
- understand how social, cultural, legal, and environmental factors may impact the behaviors of both patients and health care workers and apply this knowledge to their careers;
- identify behaviors that tend to promote or compromise health;
- apply administrative and managerial skills to nonprofits and community health organizations; and
- identify, recognize, gather, and analyze data that are pertinent to the health services field.

Admission requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and returned to the CGS.

Obtaining the certificate

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with an academic advisor for the application form and filing deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Additional programs offered in this field include:

- Certificate in Managing Health Services Programs and Projects
- Bachelor of Arts in Health Services

Curriculum (18 credits)

Required courses

- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY
- NUR 1765 - RISK FACTORS AND HEALTH
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBSRV 1305 - HEALTH, LAW AND ETHICS

Choose one of the following:

- SOC 0477 - MEDICAL SOCIOLOGY
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT

Notes

Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh. Students must maintain at least a 2.0 grade point average in all University certificate courses.

Requirements subject to change. Check with an academic advisor before registering.
Corporate/Community Relations Certificate

The Certificate in Corporate and Community Relations helps students to develop the skills they need to effectively communicate a business or organization's mission and achievements to the outside community. It also teaches them how to effectively communicate organizational news and policies internally to fellow employees. Students learn to develop messages and communications strategies that engage the community and promote an organization's image in a positive way.

In this 18-credit program, each student may customize the curriculum by choosing elective courses to meet his or her own personal professional goals and will acquire a foundation in mass media theory through core classes.

Who should enroll:

- Individuals charged with communicating company and organizational news, policies, benefits, and messages to fellow employees
- Individuals charged with communicating and disseminating company and organizational news to an external audience, thereby improving public perception of the organization
- Individuals interested in advancing the causes of community, civic, or volunteer organizations
- Recent graduates or current students who wish to pursue a career incorporate or community communications

Upon completion of this program, students will be able to:

- apply a theoretical understanding of mass media process, history, and ethics to communications-related careers in broadcasting, journalism, legal professions, government, nonprofits, and other fields;
- identify and analyze audience traits, perspectives, and motivators and develop messages appropriate to each audience;
- manage and navigate professional relationships with a wide range of constituents;
- develop and write clear messages that support specific organizational goals and enhance the image of a professional organization in the public's mind; and
- create professional and effective communication strategies as well as persuasive written materials, customized to the needs of a specific profession, such as business proposals, speeches, marketing plans, and news stories.

This certificate is applicable to such fields as corporate communications, nonprofit management, advocacy, public relations, broadcasting, sales, communication training, promotions, advertising, lobbying and politics, human resources and relations, and training and development.

Admission requirements

Students must meet requirements for admission to the College of General Studies. A certificate application must be completed and returned to the College of General Studies. To avoid a late fee, you should complete this process when registering for courses.

Obtaining the certificate

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with your academic advisor for the application filing form and deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

Many courses are offered in the evenings. Not all courses are offered every term. All courses are three credits unless otherwise noted. Please check course descriptions for prerequisites. Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh. Students must maintain at least a 2.0 grade point average in all University certificate courses. For the course schedule and descriptions of most undergraduate classes offered by the College of General Studies, Kenneth P. Dietrich School of Arts and Sciences, and College of Business Administration, visit www.courses.as.pitt.edu.

Required Courses (6 credits)
• COMMRC 0320 - MASS COMMUNICATION PROCESS  
• ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION

Electives (6 credits)

Choose two courses from the following:

• BUSERV 1940 - MARKETING FUNDAMENTALS  
• COMMRC 1111 - THEORIES OF PERSUASION  
• COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION  
• PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Specializations (6 credits)

• COMMRC 1102 - ORGANIZATIONAL COMMUNICATION  
• COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION  
• ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS  
• ENGCMP 0420 - WRITING FOR THE PUBLIC  
• ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING  
• ENGCMP 0520 - INTEGRATING WRITING AND DESIGN  
• ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING  
• ENGCMP 0560 - WRITING ARGUMENTS  
• ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING  
• ENGCMP 1103 - PUBLIC RELATIONS WRITING  
• ENGCMP 1104 - CORPORATE STORYTELLING  
• ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA  
• ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW  
• ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA  
• PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT  
• PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE

Additional Information

Additional information on certificate programs is available in 1400 Wesley W. Posvar Hall or at the CGS website: www.cgs.pitt.edu

Digital Media Certificate

Visual literacy is becoming increasingly essential in this digital era. The 18-credit Certificate in Digital Media will help you understand the power of visual images to communicate with audiences. In addition, it will provide inspiration to conceive of these images and how to manipulate technology to bring these images to life, all within the context of traditional and emerging media careers. Students have the opportunity to take courses at Pittsburgh Filmmakers and participate in a unique internship with Pitt Panther TV.

Admission and Application Requirements

Students must meet College of General Studies certificate application requirements and complete an application form online. To avoid a late fee, you should complete the application process when registering for courses and prior to completing your last term in the program. For more information, visit http://www.cgs.pitt.edu/admissions or see a CGS advisor.

Who should participate:
• Professionals operating in multimedia environments
• Individuals responsible for e-commerce efforts
• People interested in producing content for online publications and sites, films, documentaries, etc.
• Entrepreneurs
• Educators

Upon completion of this certificate, participants will be able to:

• Understand how concepts, design, and technology work together to communicate with mass audiences
• Design, create, and manipulate digital communication vehicles
• Understand the importance of visual and textual communication in maintaining organizational success
• Produce engaging interactive programs, such as for training or sales purposes

This certificate is applicable to such fields as interactive online training; 3-D animation; electronic catalogs; DVDs for sales, marketing, or training purposes; multimedia businesses; and general e-commerce.

Curriculum (18 credits)

Many courses are offered in the evenings and at off-campus locations. Not all courses are offered every term. All courses are 3 credits unless otherwise noted. Please check course descriptions for prerequisites.

For the course schedule and descriptions of most undergraduate classes offered by the College of General Studies, the Kenneth P. Dietrich School of Arts and Sciences, and the College of Business Administration, visit www.as.pitt.edu/undergraduate.

Required Courses (9 credits)

• COMMRC 0320 - MASS COMMUNICATION PROCESS
• COMMRC 1122 - MEDIA CRITICISM
• ENGFLM 0355 - VISUAL LITERACY or ENGFLM 0401 - INTRODUCTION TO VISUAL CULTURE

Electives (9 credits)

Choose three of the courses listed below.

• COMMRC 1105 - TELEVISION AND SOCIETY
• ENGCMP 0425 - DIGITAL HUMANITY cross-listed with HAA 0425
• ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
• ENGCMP 0610 - COMPOSING DIGITAL MEDIA
• ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
• ENGFLM 0400 - INTRODUCTION TO FILM
• ENGFLM 1390 - CONTEMPORARY FILM
• ENGFLM 1485 - FILM AND POLITICS
• ENGFLM 1683 - DOCUMENTARY FILM
• ENGLIT 0354 - WORDS AND IMAGES
• ENGLIT 0550 - INTRODUCTION TO POPULAR CULTURE
• ENGWRT 0650 - READINGS IN JOURNALISM
• ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
• FILMST 0001 - FILMMAKING 1: FUNDAMENTALS
• FILMST 0120 - PHOTOGRAPHY 1
• FILMST 0151 - WEB DESIGN 1
• FILMST 0221 - PHOTOGRAPHY 2
• FILMST 0245 - PHOTO EDITING 1
Notes

Requirements subject to change. Check with an academic advisor before registering.

Gender, Sexuality, and Women Studies Certificate

The undergraduate Certificate in Gender, Sexuality, and Women's Studies is an interdisciplinary academic program providing students with the opportunity to broaden their understanding of the changing role that gender plays, both in the United States and around the world. The GSWS Certificate is housed in the College of General Studies and offered in partnership with the Gender, Sexuality, and Women's Studies program. Participants benefit from the academic instruction of GSWS faculty and the nontraditional student services available through the College of General Studies.

Students who want to explore the intersection of gender with race, class, ethnicity, ability, and sexual orientation will find courses of interest, as will students who want to know more about the role of women in history, literature and the arts, media, and science. Students who are planning careers in medicine, the creative arts, social work, education, counseling, law, therapy, and business often find that a background in women's studies enhances their professional activities.

Admission and Application Requirements

Students must meet College of General Studies certificate application requirements and complete an application form online. For more information, visit http://www.cgs.pitt.edu/admissions.

In addition, prospective and current students are expected to schedule a meeting with the Gender, Sexuality, and Women's Studies Undergraduate Advisor and complete the UNDERGRADUATE CERTIFICATE ADVISING FORM. The form should be filed as early as possible and no later than the semester prior to graduation.

Certificate Requirements (18 credits)

The Certificate in Gender, Sexuality, and Women's Studies is an 18-credit certificate:

- Transfer courses will be accepted on a case-by-case basis up to a maximum of two courses.
- A cumulative grade point average of 2.0 or higher is required in courses being applied to the certificate.
- A minimum of 12 credits must be earned at the University of Pittsburgh.
- The GSWS Certificate may not be pursued concurrently with the B.A. in Gender, Sexuality, and Women's Studies or with the GSWS minor.
- All certificate students are expected to meet at least once per year with the GSWS advisor to update their files and discuss what courses are needed to fulfill certificate requirements.
Core Courses (6 credits)

A minimum of two courses (six credits) are required (preferably to be completed early in the student's academic program).

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY or
- GSWS 0550 - SEX AND SEXUALITIES

Students are advised to take all three core courses to cover the key areas represented by the program (in which case one course counts as an elective, below).

Electives (9 credits)

Three elective courses (9 credits) must be taken from at least two different academic departments (with GSWS as one possible unit.) Visit the Gender, Sexuality, and Women's Studies department Web site for a full listing of approved courses, including such courses as:

- ADMJ 1242 - GENDER, RACE, CLASS, AND CRIME
- AFRCNA 0454 - MAN/WOMAN LITERATURE
- ANTH 0768 - HUMAN SEXUALITY IN CROSS CULTURE
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGLIT 0610 - WOMEN AND LITERATURE
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- GSWS 0200 - SEX, RACE, AND POPULAR CULTURE
- GSWS 0600 - GLOBAL LGBTQ LITERATURE
- LEGLST 1315 - SEX, LAW AND MARRIAGE
- PSY 0184 - PSYCHOLOGY OF GENDER
- SOC 0446 - SOCIOLOGY OF GENDER
- SOC 1448 - WORKING WOMEN

Either GSWS 1900 - INTERNSHIP or GSWS 1901 - INDEPENDENT STUDY may be used to meet an elective requirement, but in this case, the two other courses must each be in different departments. Consult with the GSWS advisor. Special permission from the GSWS advisor required.

Interdisciplinary Course (3 credits)

Choose one advanced GSWS course (three credits); GSWS 0100 and GSWS 0500 (or GSWS 0550) are prerequisites for these courses.

- GSWS 1140 - SPECIAL TOPICS
- GSWS 1150 - TRANSNATIONAL FEMINISMS
- GSWS 1170 - QUEER THEORY
- GSWS 1180 - POLITICS OF GENDER AND FOOD
- GSWS 1190 - MASCULINITIES
- GSWS 1235 - LANGUAGE, GENDER AND SOCIETY
- GSWS 1450 - GENDER AND SUSTAINABILITY

Notes

Requirements subject to change. Check with an academic advisor before registering.

Information System Design Certificate
This innovative 18-credit program responds to the increasing industry demand for information system professionals. This multifaceted undergraduate certificate can be completed as a stand-alone continuing education program or serve as preparation for a bachelor's, master's, or doctoral degree. Many of the course options are available in the evenings, on Saturdays, and online.

Who should participate:

- Professionals in another field who wish to enter the information management field
- Individuals working in the technology field who want or need more formal training to progress in their careers
- People wanting to prepare for a master's degree in information sciences

Upon completion of this certificate, participants will be able to:

- Use scientific programming language to introduce information structures such as linked lists, stacks, and queues
- Develop program modules using a current programming language
- Utilize the theories of data structures and programming language design

These competencies may be applied to positions such as system designer, database developer, database manager, interactive system designer, expert system designer, information retrieval specialist, network designer, database marketer, or administrator who advises and implements technology purchases and upgrades.

This certificate is applicable to fields such as banking, healthcare, library science, judicial systems, communication, education, agriculture, private industry, and government.

Admission requirements

Students must meet requirements for admission to the College of General Studies. For admissions guidelines and an application, see www.cgs.pitt.edu. A certificate application form must be completed and returned to the College of General Studies.

Students must complete a college algebra course or its equivalent and INFSCI 0010 - INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY, earning a C grade or better in both courses before progressing to the certificate curriculum.

Obtaining the certificate

To receive the certificate, you must fill out an application with your advisor prior to completing your last term in the program. Check with your advisor for the application filing form and deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

Students must complete a total of 18 credits as follows. All courses must be completed with a C or better grade.

- INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS
  Choose one elective from the following:
  - INFSCI 1014 - GRAPHICS
  - INFSCI 1052 - USER CENTERED DESIGN
  - INFSCI 1068 - GEOSPATIAL INFORMATION SYSTEMS (GIS)
  - INFSCI 1074 - COMPUTER SECURITY

Notes
Leadership Certificate

The Certificate in Leadership provides a structured framework of courses and experiences for acquiring the basic practical and analytical skills required of successful public and private sector leaders. Offered by the University of Pittsburgh College of General Studies, this program uses the skills and knowledge of students to help advance their careers further, and take their organizations to the next level.

This 18-credit program is designed for students looking to become a more attractive candidate for a managerial or leadership position in their chosen field, or for those students looking to enter into the business, nonprofit, government, or corporate world.

Who should participate:

The Certificate in Leadership is open to any University of Pittsburgh degree-seeking student, regardless of current school or college, who anticipates moving into a leadership role in business, nonprofit, or other organization.

Upon completion of this certificate, participants will be able to:

- Demonstrate knowledge of leadership theories and models, such as situational, participative, transformational, and servant leadership
- Identify and evaluate the effectiveness of different communicative styles, and communicate clearly and effectively themselves
- Analyze an organization in its cultural, social, historical, developmental, geographic, and/or competitive aspects, and decide which type of leadership style would be most effective in that situation
- Determine one's fit to the leadership-related challenges of an organization and what one would need to be more effective as a leader in that situation

Admission requirements

Students wishing to pursue the Certificate in Leadership must be in good academic standing and must submit a certificate application form to the College of General Studies. The form is available through the college's Web site or may be picked up in person.

Obtaining the certificate

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with your academic advisor for the application filing form and deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Pre-Requisite Requirements

Because strong communication skills are essential, prior to enrolling in LDRSHP 1200 students must have completed at least one class each in oral and written communication with a C or better.

Recommended Pre-Requisite Courses

- COMMRC 0520 - PUBLIC SPEAKING
  BUSOR 1101 and COMMRC 0500 can be substituted for COMMRC 0520
- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
  ENGCMP 0420, ENGCMP 0440, and ENGCMP 0450 or ENGWRT 0550 and ENGWRT 0610 can be substituted for ENGCMP 0400.

Co-Curricular Requirement: Emerging Leaders Program
All students must complete the Emerging Leaders Program, a 20 hour non-credit program run by the Cross Culture and Leadership Development Office within the Office of Student Affairs. For more information on the program, please visit www.studentaffairs.pitt.edu/ccdel.

**Curriculum (18 credits)**

Students must complete their required and elective courses for a total of 18 credits. A grade of C or better is required for all courses in the program. Students also must complete the Emerging Leaders Program. All courses are 3 credits, unless otherwise noted.

**Required Courses (6 credits)**

Students must complete LDRSHIP 1100, the Emerging Leaders Program, and the program pre-requisite requirements listed above prior to registering for LDRSHIP 1200. Students may register for the cross-lists of these required courses: PUBSRV 1390 for LDRSHIP 1100 and ARTSC 1902 for LDRSHIP 1200.

- LDRSHIP 1100 - THEORIES OF LEADERSHIP
- LDRSHIP 1200 - LEADERSHIP SEMINAR

**Electives (12 credits)**

Students must complete at least one course from each of the three designated areas below, and complete 12 credits in all. At least half of the courses must be at the 1000-level.

**Area One: Leadership and Ethics**

- PHIL 0300 - INTRODUCTION TO ETHICS
- PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES
- PHIL 1300 - ETHICAL THEORY
- PHIL 1380 - BUSINESS ETHICS
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1340 - STRATEGIC PLANNING PUBLIC SECTOR
  These may be used as leadership electives for qualified students.
- AFROTC 1014 - AIR FORCE LEADERSHIP STUDIES
- MILS 0021 - LEADERSHIP & DECISION MAKING
- PS 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR (cross-listed with PUBSRV 1910)

**Area Two: Interpersonal Relations**

- ANTH 1760 - ANTHROPOLOGY OF LAW
- COMMRC 0300 - COMMUNICATION PROCESS
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1106 - SMALL GROUP COMMUNICATION
- COMMRC 1109 - NONVERBAL COMMUNICATION
- COMMRC 1111 - THEORIES OF PERSUASION
- ECON 0200 - GAME THEORY PRINCIPLES
- ENGCMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1400 - GRANT WRITING
- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
Area Three: Situational Analysis

- ANTH 0701 - CULTURAL ANTHROPOLOGY: OVERVIEW
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ANTH 1738 - GENDER PERSPECTIVES IN ANTHROPOLOGY
- ANTH 1755 - URBAN ANTHROPOLOGY
- ECON 0800 - INTRODUCTION TO ECONOMICS
- HIST 0050 - SOCIAL CHANGE (cross-listed with SOC 0351)
- LING 1235 - LANGUAGE, GENDER AND SOCIETY (cross-listed with GSWS 1235)
- PS 1241 - PUBLIC ADMINISTRATION AND POLITICAL SYSTEM
- SOC 0010 - INTRODUCTION TO SOCIOLOGY
- SOC 0150 - SOCIAL THEORY
- SOC 0432 - WEALTH AND POWER
- SOC 0444 - URBAN SOCIOLOGY
- SOC 1448 - WORKING WOMEN

Note

Students may not use more than one of each of the courses in these groups: 1) ANTH 0701 and 0780; 2) ANTH 1755 and SOC 0444.

Note

Requirements subject to change. Check with an academic advisor before registering.

Managing Health Services Programs and Projects Certificate

Improve your administrative and business skills and earn a Certificate in Managing Health Services Programs and Projects. This 18-credit, interdisciplinary program emphasizes grant and research project management, and is designed to educate health service workers in the areas of sociology, communications, public administration, and management.

The program is applicable to positions such as health project manager, health administration director, health program director, and medical office manager. Students who successfully complete this certificate may apply the credits earned to an undergraduate degree at the University of Pittsburgh College of General Studies (CGS).

Upon completion of this certificate, students will be able to:

- manage health services research projects, grants, contracts, and finances;
- demonstrate the skills necessary to assume an administrative or managerial role in a health care organization;
- apply organizational theory and concepts to health care facilities; and
- analyze how physical, social, and cultural factors may help or hinder communication about health care needs.

Who should enroll:

- Health care workers who have been charged with, or would like to take on, management of grants and research projects
Public and community health workers who seek an understanding of how physical, social, and cultural factors may help or hinder communication about health care needs

Health care employees looking to take on leadership roles in the workplace

Admission requirements

Students must meet the requirements for admission to the College of General Studies. A certificate application must be completed and returned to the College of General Studies.

Obtaining the certificate

To receive the certificate, you must fill out an application with your advisor prior to completing your last term in the program. Check with your advisor for the application form and filing deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Additional CGS programs offered in this field:

- Certificate in Community Health Assessment
- Bachelor of Arts in Health Services

Curriculum (18 credits)

For the course schedule and descriptions of most undergraduate classes offered by the College of General Studies, Kenneth P. Dietrich School of Arts and Sciences, and College of Business Administration, visit www.courses.as.pitt.edu.

Required Courses (15 credits)

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Electives (3 credits)

Take a minimum of one course.

- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR or BUSORG 1020 - ORGANIZATIONAL BEHAVIOR or COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- ENGCMP 1400 - GRANT WRITING
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

Notes

Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh. Students must maintain at least a 2.0 grade point average in all University certificate courses.

Requirements subject to change. Check with an academic advisor before registering.
National Preparedness and Homeland Security Certificate

The Certificate in National Preparedness and Homeland Security (NPHS) is designed to teach current and future emergency professionals to analyze information and make decisions in dynamic and complex crisis environments using new and powerful analytic tools. Through experience-based learning activities, certificate students will develop the skills they need to thrive in homeland security and emergency preparedness careers.

This unique 18-credit certificate incorporates hands-on learning methods. The program features dynamic modeling tools developed at the University of Pittsburgh to plan for and respond to disasters; exercises and simulations that follow protocols established by the U.S. Department of Homeland Security; and tools that use virtual reality, visualization, and Geographic Information Systems (GIS) software to integrate information for crisis decision making.

Who should participate:

- Employees of local, state, and federal entities engaged in emergency preparedness, homeland security, and related fields
- Business people who are charged with risk management and are interested in applying industry tested analytics to developing emergency management and continuity of operations (COOP) plans
- Professionals in organizations with first-responders and first receivers, and those looking to step into such leadership positions
- Veterans interested in building on their expertise in decision-making and crisis leadership
- Career changers and current degree seekers looking to enter a growing and important field that uses a data-driven approach to preparedness activities involving both planning and implementation.

Upon completion of this certificate, participants will be able to:

- Develop and implement organizational risk profiles, COOP plans, business recovery plans, and other risk management activities
- Use knowledge of federal, state, and local agency responsibilities to effectively plan and execute emergency response plans
- Apply incident command protocols and consensus building approaches
- Communicate effectively in a crisis, orally and in writing, and transfer information effectively to obtain positive outcomes
- Plan prevention and preparedness operations and measures that help communities handle efforts related to damage limitation, emergency response, and recovery

Admission requirements

Applicants must have completed at least 60 credits with a grade point average of 2.0. If you are not currently enrolled at the University of Pittsburgh, you must submit official transcripts from all prior institutions with the application. Students must meet requirements for admission to a certificate program in the College of General Studies. For admission guidelines and an application, go to www.cgs.pitt.edu.

Curriculum (18 credits)

The certificate is composed of twelve credits of required core courses, and six credits of elective courses. Core courses cover foundational content and procedures central to national preparedness and emergency response, in addition to analytical tools and approaches. They include a capstone experience in which students will plan, role-play, and report on a complete disaster scenario involving critical infrastructure sectors such as energy, government, transportation, health, and telecommunications. Elective courses allow students to gain further knowledge or experience relevant to their current or intended career paths in such fields as health, information security, and business continuity. All courses are 3 credits, unless otherwise noted.

- No course with a grade below C will be accepted for certificate credit
- To earn the certificate, students must maintain at least a 2.0 grade point average
- All four required core courses must be completed at the University of Pittsburgh to earn the certificate
- A maximum of six credits may be accepted from other institutions for elective courses
- Students should consult with their advisor and/or core course faculty early in their program to identify elective courses appropriate for their career and/or academic interests
Required Courses (12 credits)

Students must have successfully completed at least one other core course prior to registering for the capstone course. The capstone course may be taken concurrently with another core course.

- NPHS 1510 - FEDERAL AND INTERNATIONAL FRAMEWORK FOR EMERGENCY PREPAREDNESS
- NPHS 1520 - STATE AND LOCAL FRAMEWORK FOR EMERGENCY PREPAREDNESS
- NPHS 1530 - ANALYSIS, INTELLIGENCE AND DECISION TOOLS FOR EMERGENCY PREPAREDNESS
- NPHS 1540 - CAPSTONE COURSE IN EMERGENCY PREPAREDNESS

Electives (6 credits)

The following list shows a sample of courses already approved as electives:

- ADMJ 1234 - INTRODUCTION TO CYBERCRIME
- ADMJ 1238 - CYBER SECURITY, LAW, AND MONEY LAUNDERING
- ADMJ 1245 - TERRORISM
- ADMJ 1260 - RESOURCE PROTECTION PLANNING
- ADMJ 1425 - PRINCIPLES OF HOMELAND SECURITY (cross-listed with PUBSRV 1425 - PRINCIPLES OF HOMELAND SECURITY)
- CS 1655 - SECURE DATA MANAGEMENT AND WEB APPLICATIONS
- GEOL 0820 - NATURAL DISASTERS
- INFSCI 1068 - GEOSPATIAL INFORMATION SYSTEMS (GIS) or IE 1015 - GEOGRAPHIC INFORMATION SYSTEMS
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS
- INFSCI 1074 - COMPUTER SECURITY
- NPHS 1900 - INTERNSHIP
- NPHS 1901 - INDEPENDENT STUDY
- NUR 1061 - INDEPENDENT STUDY
- PS 1583 - TOPICS IN INTERNATIONAL RELATIONS
- PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE

Notes

Students must meet all relevant course prerequisites. NPHS Internship and NPHS Independent Study courses may be repeated for credit with permission.

Requirements subject to change. Check with an academic advisor before registering.

Center for National Preparedness

The Center for National Preparedness (www.cnp.pitt.edu) is an interdisciplinary collaboration of experts and departments at the University of Pittsburgh. It provides research, education, and service aimed at advancing the science, policy and implementation of effective federal, state, and local preparedness efforts across the public and private sectors. The Center possesses expertise in business continuity, information technology, engineering, medical research, national security policy, and public health.

Nonprofit Management Certificate

The nonprofit field is growing, and so are the demands for the services nonprofits provide. In the last 10 years, 500 new organizations have been established in the Pittsburgh area alone. The growth of nonprofits means that various positions within these organizations will need to be filled by qualified individuals.
The right education is critical to demonstrating your qualifications to prospective employers. A Certificate in Nonprofit Management, alone or coupled with an appropriate bachelor's or advanced degree, will aid in your quest for employment by or promotion within a nonprofit organization.

Students who successfully complete this certificate may apply the credits to an undergraduate degree in public service at the University of Pittsburgh College of General Studies.

Who should enroll:

- Professionals with public relations experience
- Professionals with an interest in fundraising
- Professionals with a background in program development
- Professionals with knowledge of marketing and advertising
- Recent graduates or current students who wish to pursue a career in the nonprofit field
- Undergraduate degree-seeking students who wish to have an intermediate credential
- Technology workers
- Public service majors
- Entrepreneurs who wish to start a nonprofit

Upon completion of this certificate, participants will be able to:

- organize, manage, or supervise a nonprofit organization;
- hire and train an efficient staff;
- understand the structural and financial issues unique to nonprofits;
- effectively raise revenue through fundraising; and
- write grant proposals.

This certificate is applicable to positions such as grant writers, fundraisers, development officers, accountants, information technology workers, and office managers.

Admission requirements

Students must meet requirements for admission to the College of General Studies. A certificate application must be completed. To avoid a late fee, you should complete this process when registering for courses.

Curriculum (18 credits)

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1220 - HUMAN RESOURCE MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1900 - INTERNSHIP SEMINAR

Notes

Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh. Students must maintain at least a 2.0 grade point average in all University certificate courses.

Answers to Frequently Asked Questions:

1. Is there an order in which the student must take the required courses for this certificate? The courses can be taken in any order. Normally the internship would be completed last.
2. How many working hours is required for the internship seminar? 120 hours along with registration for PUBSRV 1900 - INTERNSHIP SEMINAR. Visit cgs.pitt.edu/academics/internship for details.

3. Can the internship course be divided (i.e., 1 cr in Fall and 2 cr in Spring)? No, this is a 3-credit course; however, the student could work with Brianna McMeekin to see if the 120 hours could be divided over two terms. Brianna McMeekin can be reached at bmm96@pitt.edu.

4. If the student works at the University, does the student need to complete internship hours outside of Pitt or could it be in a different department on campus? The student can talk to Brianna about this.

Requirements subject to change. Check with an academic advisor before registering.

Gainful Employment Information

According to Urban Institute, the number of nonprofits between 2001 and 2011 has increased by 25 percent. Jobs for social and community service managers are expected to grow by 27 percent by 2020. Social and community service managers had a median salary of $57,950 in 2010.

Writing Certificate

The Certificate in Writing is a 21-credit program designed for those who desire to improve their writing skills. In today's world, the skillful use of the written word is fundamental. This program consists of academic courses taught by faculty of the Department of English. Participants may choose electives to focus on a particular style of writing or to obtain an overview of several writing styles. The program also offers internships with local media, including newspapers, magazines, and television.

Who should participate:

- Students already enrolled in a degree program in the College of General Studies who wish to concentrate on the development of writing skills
- Those who already have a degree, but who wish to develop their writing skills for personal or professional advancement
- People seeking to embark upon writing as a profession

Upon completion of this certificate, participants will be able to:

- Write clearly and accurately
- Apply writing skills to both fiction and nonfiction works
- Understand different forms and techniques used in various types of writing

This certificate is applicable to fields such as media, industrial organizations, governmental agencies, community groups, service providers, and businesses. Skilled writers may work in any organization or field.

Admission requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and returned to the College of General Studies. To avoid a late fee, you should complete this process when registering for courses. Students must have completed a Seminar in Composition course or its equivalent before registering for any of the following classes.

Obtaining the certificate

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with your advisor for the application filing form and deadlines, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (21 credits)
In addition to Seminar in Composition, students must complete seven courses (21 credits). These classes should include two English writing courses (6 credits) and five English writing electives (15 credits).

- A minimum of five of the required seven courses must be completed at the University of Pittsburgh.
- No course will be accepted for certificate credit with a grade below C, and no course will be accepted as a prerequisite for a higher-level course if the grade earned is lower than a C

Required Courses (6 credits)

All courses are 3 credits.

- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION

Electives (15 credits)

All courses are 3 credits.

Courses offered vary by term. Choose five additional courses from any combinations of poetry, fiction, and nonfiction. A sampling of courses that can be used to fulfill the certificate requirements include:

Poetry

- ENGWRT 0530 - INTRODUCTION TO POETRY WRITING
- ENGWRT 1210 - POETRY WORKSHOP

Fiction

- ENGWRT 1010 - INTERMEDIATE FICTION
- ENGWRT 1090 - MASTERING POINT OF VIEW
- ENGWRT 1091 - AUTOBIOGRAPHY AND CREATIVE IMPULSE
- ENGWRT 1092 - WRITER'S JOURNALS
- ENGWRT 1094 - READINGS IN CONTEMPORARY FICTION
- ENGWRT 1095 - TOPICS IN FICTION
- ENGWRT 1710 - SENIOR SEMINAR IN FICTION

Nonfiction

- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1340 - ADVANCED NONFICTION: LONG FORM NARRATIVE
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- ENGWRT 1390 - READINGS IN CONTEMPORARY NON-FICTION
- ENGWRT 1391 - WRITING THE REVIEW
- ENGWRT 1393 - SPORTS WRITING
- ENGWRT 1394 - SCIENCE WRITING
- ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWRT 1900 - INTERNSHIP: WRITING
Notes

Requirements subject to change. Check with an academic advisor before registering.

**Writing for the Professions Certificate**

In today's business climate, employees have discovered that the ability to research, organize, and write various kinds of documents is a critical component of many positions, including those that are primarily technical in nature. Organizations expect employees to communicate clearly and effectively with both colleagues and non-expert stakeholders.

This 18-credit certificate provides participants with a strong foundation for developing these vital writing skills. You will learn techniques that are critical for producing clearly written documents—critiquing, analyzing, and researching—as well as the practical applications that build on this groundwork.

**Who should participate:**

Individuals for whom writing will be a major component of their job responsibilities, e.g., broadcasters, legal professionals, or reporters.

Upon completion of this certificate, participants will be able to:

- Identify and analyze audience traits and perspectives
- Determine a specific goal and/or purpose of a document, then organize and develop clearly written prose in support of that purpose
- Apply concentrated knowledge of a specialized communication topic

This certificate is applicable to such fields as print and online writing professions, health professions, and nonprofit organizations.

**Admission requirements**

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and returned to a College of General Studies academic advisor. To avoid a late fee, you should complete this process when registering for courses.

**Obtaining the certificate**

To receive the certificate, you must fill out an application with your academic advisor prior to completing your last term in the program. Check with your academic advisor for the application filing form and deadline, and be sure all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

**Curriculum (18 credits)**

Many courses are offered in the evenings and at off-campus locations. Not all courses are offered every term. All courses are three credits unless otherwise noted. Please check course descriptions for prerequisites.

Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of 9 credits must be earned at the University of Pittsburgh. Students must maintain at least a 2.0 grade point average in all University certificate courses.

For most undergraduate classes offered by the College of General Studies, the Kenneth P. Dietrich School of Arts and Sciences, and the College of Business Administration, visit www.courses.as.pitt.edu.

**Required Courses (9 credits)**

- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION

And choose one of the following courses:
• COMMRC 0320 - MASS COMMUNICATION PROCESS
• ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW

Electives (9 credits)

Choose three courses from the following:

• COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
• COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION
• ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
• ENGCMP 0420 - WRITING FOR THE PUBLIC
• ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
• ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
• ENGCMP 0560 - WRITING ARGUMENTS
• ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
• ENGCMP 1103 - PUBLIC RELATIONS WRITING
• ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
• ENGCMP 1400 - GRANT WRITING
• ENGWRT 1370 - JOURNALISM BOOT CAMP: WRITE NOW
• ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
• ENGWRT 1391 - WRITING THE REVIEW
• ENGWRT 1393 - SPORTS WRITING
• ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
• ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA

Notes

Requirements subject to change. Check with an academic advisor before registering.

CGS Course Satisfier List

Please see the CGS General Education Requirements for completion of the Bachelor's degree. You may consult with your academic advisor in preparation for graduation.

Students that are interested in pursuing a second degree must complete all CGS degree and major requirements. These may be completed by combining CGS courses with transfer credits from previous academic course work.

For the second degree, students must complete a minimum of 30 credits in CGS, including at least half of the credits required for the new major (15-18 credits depending on the major).

Current course offerings for the College of General Studies, the Dietrich School of Arts and Sciences, and the College of Business Administration are listed in one location online for easy reference. Please see the Course Description page for more information.

Within PeopleSoft's Class Search, you can identify College of General Studies course offerings at-a-glance by their section number.

Visit the link below for a comprehensive list of courses that satisfy College of General Studies requirements.

Comprehensive Course List (CGS)

• Skills: Oral Communication
• Skills: Writing

For information on how to register, please visit the enrollment page.
Kenneth P. Dietrich School of Arts and Sciences

The Kenneth P. Dietrich School of Arts and Sciences is the oldest and largest academic unit within the University of Pittsburgh, with more than 10,000 students and over 600 faculty from around the world. The Dietrich School offers a competitive liberal arts education within the setting of a comprehensive research university and a dynamic urban setting.

The Dietrich School instructional programs provide a liberal arts curriculum designed to prepare students for the world of work, research, professional schools, and graduate programs. This education helps students cultivate the skills and knowledge that provide a foundation for lifelong learning, and educates students so that they can become perceptive, reflective, and intellectually self-conscious citizens of the world. The main elements of the Dietrich School general education are: an acquaintance with great works of art, literature, and philosophy; an understanding of social institutions and processes; a sense of history and familiarity with the richness and variety of human cultural achievements; an awareness of the main ideas of contemporary natural science and mathematics; and engagement with languages and cultures other than one’s own.

The Dietrich School curriculum spans the humanities, natural sciences, and social sciences. Students are encouraged to pursue a broad range of academic subjects. Through one-on-one academic advising, students may choose from over 55 majors, 30 minors, and 20 certificate programs. With each academic program, the school’s faculty from across the disciplines consistently builds the Dietrich School curriculum to reflect current research, so that our students are poised to meet today’s expectations in their various academic pursuits.

In addition to the majors, minors, and certificates, Dietrich School students are encouraged to participate in enriching experiences outside the classroom. These opportunities include undergraduate research with top research faculty and participation in academic internships with reputable corporate and nonprofit institutions. Students may also pursue study abroad in approximately 45 countries, including summer study abroad with Dietrich School humanities and social sciences faculty. Leadership development is encouraged through participation in student organizations and governance, serving in honorary societies, and assisting a faculty member as an undergraduate teaching assistant.

Dietrich School Undergraduate Web site

Dietrich School Undergraduate Calendar

www.asundergrad.pitt.edu/calendar

Admission through the Office of Admissions and Financial Aid
The following students are admitted to Dietrich School by the Office of Admissions and Financial Aid. These students should see the Application for Admission section of this bulletin for general admissions information.

- First year students (see Pittsburgh campus Freshman Admissions for general admissions information).
- Transfer students who have previously enrolled at a college or university other than the University of Pittsburgh. These include former University of Pittsburgh students who have since earned college credits at another institution and now wish to return to the Dietrich School.
- Continuing education students: Adults who wish to begin or continue to work toward an undergraduate degree by taking a full- or part-time course load should apply as new or transfer students through the Office of Admissions and Financial Aid.
- Students who have previously earned a bachelor's degree from an institution other than the University of Pittsburgh and now wish to earn a second undergraduate degree.
- International students should refer to admission guidelines on the Office of Admissions and Financial Aid Web site.

Transfer Students/Transfer Credits

Previous course work for transfer students is evaluated by the Dietrich School Student Records Office with respect to general education requirements. Before initial registration, transfer students receive an Undergraduate Degree Requirement Evaluation indicating which requirements they have satisfied and which ones must be completed in order to complete their degree in the Dietrich School. Transfer students may be required to complete one or more placement tests to determine if certain requirements have been met.

Courses from other colleges and universities are evaluated according to the following guidelines:

- Courses must be passed with a grade of C or better and must be earned at an institution accredited by the appropriate regional accrediting association. Courses that have reasonable counterparts in the Dietrich School curriculum are eligible for transfer. Non-Dietrich School credit is granted when there is no comparable course in the Dietrich School, but there is an equivalent course in another undergraduate school at the University of Pittsburgh. Only 18 non-Dietrich School credits will count toward a Dietrich School degree. When requested, students are responsible for supplying descriptions for courses taken elsewhere.
- A maximum of 60 credits can be accepted from accredited community colleges and two-year junior colleges. A maximum of 90 credits can be accepted from accredited four-year institutions. At least 50 percent of the credits required in a Dietrich School major, minor or certificate must be earned while enrolled in the Dietrich School.
- The number of transfer credits granted for a given course cannot exceed the number awarded on the transcript of the original school or the number earned for the corresponding course in the Dietrich School. Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits).
- The Dietrich School accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation, but will not be calculated into the student's GPA at the University of Pittsburgh.
- Transfer credits do not apply towards University honors.

Please contact the Dietrich School Student Records Office at 412-624-6776 for information about transfer credit evaluation. Please note: All transfer credits are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Admission through the Dietrich School of Arts and Sciences

The following students must apply directly to the Dietrich School for admission.

Transfers from Other University of Pittsburgh Schools at the Pittsburgh campus

To transfer to the Dietrich School from another school at the Pittsburgh campus, students should request that the other Pittsburgh campus school send their records to the Dietrich School in 140 Thackeray Hall. The Dietrich School will review the student records and send letters of acceptance to students who are eligible to transfer into the Dietrich School. To qualify, students must have a minimum overall GPA of 2.0 and have completed their basic skills requirements in composition and algebra according to Dietrich School guidelines. In addition, students enrolled in the College of General Studies (CGS) must earn at least 12 credits through CGS before applying for transfer to the Dietrich School.
Upon acceptance into the Dietrich School, students will receive evaluations of their previous course work, acknowledging the courses that have fulfilled Dietrich School skills and general education requirements. To graduate with a degree from the Dietrich School, students are required to earn their last 30 credits while enrolled in the Dietrich School and to earn at least half of the credits for their majors, minors, and certificates while enrolled in the Dietrich School.

Relocation from University of Pittsburgh Regional Campuses

1. For students seeking guaranteed relocation who have earned credits only from one of the regional campuses, the normal requirement is for completion of 45 credits at the specific regional campus, with a minimum GPA of 3.0.
2. For students seeking guaranteed relocation who have earned 30 or more credits at the specific regional campus and a total of 45 credits overall, a minimum GPA of 3.0 in all courses is required.
3. For students seeking relocation who have between 15 and 30 credits at the specific regional campus and a total of 45 credits overall, a minimum GPA of 3.0 is required in all courses, and the normal requirements of the Dietrich School of Arts and Sciences for external transfer students must be met. For these students, relocation is not guaranteed. Students must complete at least 15 credits at the regional campus to transfer to the Pittsburgh campus.
4. All students must complete the Algebra and Composition skills requirements before relocating from a regional campus.

Students Seeking a Second University of Pittsburgh Degree

Students who have earned a bachelor's degree in any University of Pittsburgh school or campus and wish to earn a second undergraduate degree in the Dietrich School should apply directly to the Dietrich School. Applicants should note the following:

- Course work for the second degree will continue to be recorded on the original University of Pittsburgh undergraduate transcript.
- All appropriate course work from the first degree will apply to the second degree.
- Students must earn a minimum of 30 new credits.
- At least half of the credits for the second major toward the second degree must be earned while enrolled in the Dietrich School.
- The cumulative GPA and credit total will be based on all credits from the first degree and all new course work taken that applies to the second degree.

Students Seeking Reinstatement

The following students must apply for reinstatement through the Dietrich School of Arts and Sciences in 140 Thackeray Hall:

- Dietrich School students who have not enrolled for three consecutive terms (one calendar year);
- Dietrich School students who have completed their suspension periods and wish to continue their studies; and
- Students who last attended another school at the Pittsburgh campus but have not enrolled in classes for three consecutive terms (one calendar year), have not attended another institution, and wish to be admitted to the Dietrich School.

Students who are returning after completing their suspension period will be reinstated on probation. The deadline for reinstatement is August 15 for the fall term, December 15 for the spring term, and one week before the beginning of classes in the summer term or sessions. An application fee of $45 is required. Students who last attended another University of Pittsburgh school on the Pittsburgh campus or who attended a regional campus must meet the admissions requirements for transfer to the Dietrich School. Students’ academic standing upon reinstatement will continue to be that attained at the end of their last term in residence.

Students who are reinstated for a particular term but do not enroll for that term must apply for reinstatement again if they wish to attend for a later term. Students who have been away from the University for two or more years will be subject to the requirements of the school and of their major at the time of their reinstatement, rather than those in place at the time of their last attendance.

Post-baccalaureate Students

Students who have completed an undergraduate degree and wish to take additional undergraduate courses on a non degree-seeking basis may apply directly to the College of General Studies.
Accelerated High School Students

Accelerated High School students are high school juniors and seniors, age 16 years or older, who take up to six regular undergraduate college credits on campus while continuing their high school programs. Qualified students become part-time, non-matriculated students in the Dietrich School. They attend regular on-campus classes with undergraduate students and are not identified in the classroom as high school students.

For more detailed information, contact Accelerated High School in G-1 Gardner Steel Conference Center at 412-624-7428.

College in High School (CHS) Program

The College in High School Program offers qualified high school students throughout Pennsylvania the opportunity to earn University of Pittsburgh credits on their own high school campuses. Participating schools now offer approved University of Pittsburgh courses in communications, computer/information science, classical/modern languages, study skills, mathematics, statistics, natural/physical sciences, and social work. The courses are taught by experienced teachers who have been certified through the appropriate University of Pittsburgh departments. All University regulations governing course registration, withdrawal, resignation, and tuition payment are enforced.

For more information, contact College in High School in G-1 Gardner Steel Conference Center at 412-624-6828.

Academic Integrity

As members of the University of Pittsburgh community, Dietrich School students are expected to meet their obligation to exhibit honesty and to respect the ethical standards of the University community and of their chosen field of study in carrying out academic assignments. Dietrich School students are therefore expected to familiarize themselves with the published rules and regulations governing academic integrity. For specific information, see the Academic Integrity policy.

The Dietrich School maintains an Academic Integrity Board, consisting of both faculty and students, for adjudication of grievances from faculty about student behavior and from students about faculty behavior.

Grading Policies

Letter Grade Option

The Dietrich School adheres to the following University letter grade system without exception:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Superior</td>
</tr>
<tr>
<td>A</td>
<td>3.75</td>
<td>Superior</td>
</tr>
<tr>
<td>A-</td>
<td>3.25</td>
<td>Meritorious</td>
</tr>
<tr>
<td>B+</td>
<td>3.00</td>
<td>Meritorious</td>
</tr>
<tr>
<td>B</td>
<td>2.75</td>
<td>Adequate</td>
</tr>
<tr>
<td>B-</td>
<td>2.25</td>
<td>Adequate</td>
</tr>
<tr>
<td>C+</td>
<td>2.00</td>
<td>Adequate</td>
</tr>
</tbody>
</table>
The Dietrich School offers both a standard letter-grade option and the Satisfactory/No-Credit (S/NC) option for students enrolled in most Dietrich School courses. Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (no credit) is given. Courses for which an S is earned are counted toward graduation but are not computed in the GPA. Courses for which an NC is earned are not counted toward graduation or the GPA, since the NC designates that no credit has been earned.

Students can select the S/NC grade option when enrolling for a course. After the end of the add/drop period, a student must complete a Grade Option/Audit Request form in the Office of the Associate Dean for Undergraduate Studies, 140 Thackeray Hall, by the grade option change deadline noted each term on the Dietrich School undergraduate calendar.

Note: There are some formal limitations to a student's choice of grading systems; he or she should check with an academic advisor before deciding to take a course S/NC.

Audit (N Grade)

To audit a course, a student must register for and pay tuition for the course. A Grade Option/Audit Request form must be submitted for undergraduate courses by the grade option change deadline noted each term on the Dietrich School undergraduate calendar. The instructor for the course must sign the Grade Option/Audit Request form before the form can be processed. Completed forms must be submitted to the Student Records Office at 140 Thackeray Hall. Students who audit a course are given an N grade, which means that the course is counted neither towards graduation nor the GPA. A student typically chooses to audit a course for personal enrichment.

G Grades

At the discretion of an instructor, a G grade may be awarded when students who have been attending a course and making regular progress are prevented from completing the course due to extenuating personal circumstances. Students who are assigned a G grade are required to complete course requirements no later than one year after the term or session in which the course was taken, or by an earlier deadline established by the instructor. After that year, the grade will automatically change to NG; an NG grade cannot be changed, and the credits will no longer appear as "in progress." The student will be required to re-register for the course if it is needed to fulfill requirements for graduation. The Dietrich School encourages students with G grades to work with their instructors to complete the requirements for the course as soon as possible.

Academic Honors

Outstanding students in the Dietrich School are recognized for their academic achievement in several ways:

Dean's List
Early each fall and spring term, Dietrich School students whose grades in the preceding term indicate outstanding academic achievement are recognized on the Dean's List. To be placed on the Dean's List, a student must have earned at least 12 letter grade credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50 and no grade lower than a C.

Scholarships, Prizes, and Awards

Please check with your departmental advisor for information about departmental scholarships, prizes, and awards.

University Honors

Those members of a Dietrich School graduating class who have attained an outstanding scholastic record and have completed at least 60 letter-graded credits at the University of Pittsburgh are graduated with honors. All coursework completed at the University for a letter grade is calculated in the grade point average. University honors are awarded in the following levels of distinction according to grade point average at graduation:

- Summa Cum Laude: 3.75
- Magna Cum Laude: 3.50
- Cum Laude: 3.25

Departmental Honors

Many departments offer an honors major. Successful completion of the honors major, as well as normal graduation requirements, lead to the awarding of the bachelor's degree with departmental honors. For detailed information, contact the departmental advisor or visit the department's Web site.

Academic Standing

The Dietrich School is committed to the success of its students and has guidelines in place to connect students with the appropriate resources at the earliest sign of academic difficulty. A student's academic standing is comprised of three factors: term GPA, cumulative GPA, and progress toward a degree. Students in the Dietrich School are expected to maintain a cumulative GPA and term GPA of 2.00 or above for each term of enrollment. In addition, full-time students are expected to successfully complete a minimum of 12 credits during each term of enrollment. Part-time students are expected to successfully complete a minimum of 3 credits during each term of enrollment.

Academic Alert is a marker designed to notify students who show signs, early on and throughout their academic career, of jeopardizing successful progress toward the completion of their undergraduate degree. This may be due to their inability to maintain a satisfactory GPA and/or failing to fulfill the algebra or composition requirement within the first two terms of full-time enrollment. Students who receive two consecutive Academic Alerts will be placed on Academic Probation.

Students are placed on Academic Probation after earning a GPA between a 1.50 and a 1.99 over two consecutive terms or have one semester at or below a 1.49 cumulative GPA. Students may also be placed on Academic Probation if they fail to make progress toward their degree (e.g. failing to earn any academic credits).

Students currently on Academic Probation who earn a term GPA below a 2.00 or fail to make progress toward their degree will be subject to Academic Suspension. After being suspended, students are not eligible to re-enroll for one calendar year. Following suspension, students are required to apply for reinstatement at the Dietrich School Undergraduate Dean's Office in 140 Thackeray Hall. Students returning from academic suspension are reinstated on academic probation and are required to develop an academic success plan upon their return. These reinstated students' records are reviewed after each subsequent term of enrollment.

Students who have been reinstated from Academic Suspension must earn at least a 2.00 GPA for each term that they enroll until they have achieved a cumulative GPA of a 2.0 or above. If a student fails to earn a 2.00 term GPA, they are subject to Academic Dismissal from the University. Dismissed students are not eligible for reinstatement.

Note: Students on Academic Probation or Suspension are not eligible to earn credits at another institution toward a Dietrich School degree.
Probation and Eligibility for Financial Aid

The Office of Admissions and Financial Aid (OAFA) monitors financial aid eligibility. Students on probation should contact OAFA in Alumni Hall at 412-624-7488 for more information.

Credit Policies

The following section details the Dietrich School's rules regarding allowable credits and courses for students earning a degree in the Dietrich School.

Advanced Placement (AP) Credits

See the AP credit section of the Office of Admissions and Financial Aid Web site.

Career Development and Noncredit Courses

Career development courses offered by the College of General Studies (numbered in the 6000s) and noncredit courses (numbered in the 4000s) may not be counted for credit toward a degree in the Dietrich School.

College Level Examination Program (CLEP) Testing

The Dietrich School does not accept CLEP general examination credits.

Summer Courses Taken Elsewhere

Dietrich School students in good academic standing (cumulative GPA of at least 2.00) may attend a summer or special session of another accredited institution in order to supplement their program, provided they receive prior approval from the Dietrich School Student Records Office. Students must submit a completed summer course approval form (available on the Student Records Office Web site), as well as the relevant course descriptions to the Student Records Office. Upper-class students (those who have earned 60 or more credits) may not take courses at two-year schools. Courses taken elsewhere are subject to the 18 non-Dietrich School credit limitation and may not be a repeat of any course taken (passed or failed) before. A maximum of two courses (no more than 8 credits) may be taken in a single period of enrollment elsewhere.

Credit by Examination

Each test for credit by examination must be arranged with the department teaching the course for which credit is desired. The examination must be in a specific course offered by the Dietrich School. Departments set their own policies as to the specific courses for which students may request credit by examination, the time and type of examination, and the number of courses among those required for the major for which credit may be earned by examination. Normally, the examinations are administered during the first three weeks of the term.

Students wishing to earn credit by examination should first consult with the department in which the course is given and then obtain the requisite form from the Student Records Office in 140 Thackeray Hall. There is a $10 per credit fee payable to the Student Payment Center, to be submitted once the form is completed. This fee is nonrefundable. Credit by examination is open to all students. Questions should be directed to the departments which offer and administer the exams.

Departmental Credits

No more than 60 credits may be taken in one department, and normally no more than 40 in a single department are considered desirable in a well-balanced program.
Repeating a Course/Duplication of Course Content

If a student repeats a course, they must complete a course repeat form and submit it to the Office of the Associate Dean for Undergraduate Studies in 140 Thackeray Hall. Please note the following:

- The original grade remains on the transcript, but is not counted in the calculation of the GPA.
- Any grade earned in the repeated course will be factored into the GPA, even if it is lower than the original grade.
- The repeated course does not increase the number of credits counted toward meeting degree requirements unless an F is replaced by a passing grade.
- W, R, N, or NC grades reported for the repeated course will not be identified as a course repeat, thus the original grade earned will continue to be counted in the GPA. Incomplete (G) grades will not be identified as repeated courses until the course work is completed.
- No sequential course may be repeated for credit after a higher numbered course in that sequence has been passed with a C or higher grade.
- No course can be repeated at any other institution.
- Students may repeat a course no more than two times.

Students may not earn duplicate credit for courses that substantially duplicate the content of courses taken previously. For example, duplicate credit cannot be earned for the following:

- Both a regular version of a course and an honors version of that course.
- Courses that are cross listed with a course the student has already taken.
- Courses taken under a newly assigned course number if already taken under an old course number.
- Certain specific courses that duplicate material.

Students with questions about repeating courses or duplicating course content should consult with their academic advisors.

English Language Institute Courses

LING 0007, LING 0008, and LING 0009 courses count toward the degree but are not counted toward a linguistics major.

Enrollment in Graduate Courses

Undergraduate Dietrich School students who demonstrate exemplary competencies and proficiencies may take advantage of the rich variety of graduate courses offered by the Dietrich School. Credits earned in graduate courses may count toward the degree. Students should consult with both their academic advisor and instructor of a course before registering.

Independent Study, Undergraduate Research, Internships, and Undergraduate Teaching

Dietrich School students may earn up to 24 credits of independent study, undergraduate research, internships, and undergraduate teaching as part of the 120 credits required for a degree. Ordinarily, no more than six credits may be earned in any term in a single undergraduate research experience or internship. Under certain conditions, students in good standing may register for a block of 15 credits of independent study. These credits are to be earned for work done within one academic term. A student may register for a 15-credit independent study term only once during his or her college career. This needs to be approved by a dean prior to registration.

Learning Agreement forms for independent study, undergraduate research, and internships, as well as specific information about eligibility, procedures, and guidelines, are available from the academic department through which the activity will be conducted.

Paid (non-academic) internships may not count towards academic credit.

International Baccalaureate
The Dietrich School recognizes the International Baccalaureate (IB) Higher-Level Examinations and may grant advanced standing and/or credit for various fields for scores on the Higher-Level Examinations, which range from five to seven. Advanced standing is determined individually by subject according to departmental policy. Students should send the results of their IB examinations directly to the Student Records Office in 140 Thackeray Hall. No credit will be given for Subsidiary-Level Examinations.

**Lower-Level or Sequential Courses**

Credit cannot be earned for courses taken after more advanced course work in the same field has been successfully passed with a C or higher. For example, credit cannot be earned for an algebra course taken after the successful completion of a calculus course.

**Non-Dietrich School Courses**

A student may take no more than 18 credits of the 120 required for graduation in other University of Pittsburgh schools, such as the Swanson School of Engineering. This rule does not apply to graduate courses offered in the Dietrich School of Arts and Sciences. Restrictions on non-Dietrich School courses apply also to courses taken by cross registration. The student who has doubts about the status of any course should check with their academic advisor before registering.

**Normal Credit Load**

A normal credit load is 12 to 18 credits per academic term (e.g. fall and spring). Students should complete a minimum of 15 credits per term in order to graduate within four years.

Any term in excess of 18 credits requires the recommendation of the student's academic advisor and dean's approval (call 412-624-6480 to make an appointment with an assistant dean). Students who enroll for more than 18 credits in a term will be charged additional tuition per credit.

**Physical Education**

Students are not required to take any courses in physical education (PEDC), but they may do so. Up to four credits of courses offered by the School of Education's Department of Health, Physical, and Recreation Education may be counted toward a Dietrich School degree.

**Reserve Officer Training Corps (ROTC)**

Credits earned in aerospace science (Air Force ROTC), military science (Army ROTC), or naval science (Navy ROTC through cross registration at Carnegie Mellon University [CMU]) are not accepted toward a Dietrich School degree. The Dietrich School will grant up to four credits toward graduation for the following military science courses in lieu of physical education and recreation courses: AFROTC 0001, AFROTC 0002, AFROTC 0003, and AFROTC 0004; MILS 0012 and MILS 0022. Any four credits of Navy ROTC courses from CMU will count in lieu of physical education and recreation courses.

**Statute of Limitations**

All of the credits required for a degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, this limitation may be waived. In such cases, the waiver is for a specific period during which the program must be completed.

**PittOnline**

Dietrich School students may count a maximum of two PittOnline courses toward their degree. For more information about PittOnline courses, contact the College of General Studies.
Adding and Dropping Courses

Generally, students enrolled in the Dietrich School are not required to have their academic advisor's approval before adding or dropping a course. However, Student Support Services (SSS) students and student athletes must see their academic advisor before processing an add/drop. Additionally, all first year students are strongly urged to consult their academic advisor before adding or dropping a course.

Withdrawing from Courses

First year students are required to see their academic advisor before withdrawing from any course. In addition, any student considering withdrawing from a course that fulfills either the composition or the algebra requirement must first see an assistant dean (please call 412-624-6480 to schedule an appointment). Withdrawing from a course or courses may impact a student's financial aid status. Withdrawal from a course must be done by the withdrawal deadline, which is posted in the Dietrich School undergraduate calendar and on the Office of the University Registrar's Web site.

Bachelor Degree Requirements

The following sections describe the general requirements for all majors offered by the Dietrich School:

Graduation Requirements

To graduate from the Dietrich School, students must earn at least 120 degree credits with a minimum 2.00 GPA. In addition, students must achieve a 2.00 GPA both in the major and in the minor, certificate, or related area. Within the 120 credits, students must fulfill the Dietrich School's curriculum requirements which are of three types: skills, general education, and requirements for a major, minor, certificate, or related area (see Skills Requirements, General Education Requirements, and Requirements for Major sections below). Furthermore, students must earn at least half of the credits for their major(s), minor(s), and certificate(s) and the final 30 credits toward the Dietrich School degree while enrolled as a Dietrich School student.

Graduation Application

Students must file an application for graduation in the Students Records Office, 140 Thackeray Hall, by a specified deadline prior to the term during which they expect to complete all requirements (i.e., a student who expects to graduate at the end of the spring term must apply before the end of the immediately preceding fall term; see the Dietrich School undergraduate calendar each term for application deadlines). This permits Student Records to make a complete appraisal of the student's record before the student begins the coursework of the final term. Any deficiency discovered during the evaluation will be communicated to the student in writing, and should be promptly corrected either in conference with the departmental advisor at registration or during the add/drop period in the final term. The caps, gowns, and hoods for the commencement ceremony are purchased through the University Store on Fifth. Diplomas are mailed through the Registrar's Office.

Skills Requirements

Skills requirements help ensure that all students attain appropriate levels of competence in writing, algebra, and quantitative and formal reasoning. Skills requirements must be completed within the first year of enrollment. Students are placed in or exempted from skills requirements based on certain achievement test scores, University of Pittsburgh placement test scores, or course work completed at other colleges and universities. Skills requirements are outlined below:

Composition Requirement

- Students who earn 560 or above on SAT Verbal (Critical Reading) or 24 or above on ACT English are placed into Seminar in Composition (or equivalent course).
• Students who earn below 560 on SAT Verbal (Critical Reading) or below 24 on ACT English will be placed into a Workshop in Composition course.
• Recommendations for ENGCMP 0201 or ENGCMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
• English as a Second Language students will be placed into appropriate courses based on English language proficiency.

Students must pass foundational composition courses with a grade of C- or better to fulfill the requirement, and students must complete the requirement by the end of their first two terms of full-time enrollment. Transfer students must complete this requirement by the end of the first term of full-time enrollment.

Writing-Designated Courses (W-Courses)

After the completion of Seminar in Composition, each student must complete two courses that are designated as writing intensive (W-courses) or one W-course and a second English composition course. W-courses are designed to promote writing within a discipline through the use of writing assignments spread over the course of a term. If this is done through a term paper the student will be required to produce a draft for discussion and revision no later than a month before the end of the course; all W-courses require a minimum of 20-24 pages of written work that has been through at least one cycle of revision. Each student must complete one W-course within his or her major field of study.

Algebra Requirement

The mathematical proficiency of all incoming students will be assessed. Students who need additional mathematical preparation will be required to complete the preparation by the end of the first two terms of full-time enrollment. Transfer students must complete this preparation by the end of the first term of full-time enrollment. Preparation includes, but is not limited to earning a grade of C- or better in a course in algebra. Students will be exempt from additional mathematical preparation if:

• they have achieved a satisfactory grade on the Advanced Placement examination in calculus in high school;
• they have earned a C- or better in calculus through College in High School;
• they have completed an approved equivalent of Algebra or another approved course; or
• they have scored 620 or better on the Math SAT or a 27 or better on the Math ACT.

Quantitative and Formal Reasoning

All students are required to take and pass with a grade of C- or better at least one course in university mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

Placement Assessments

ALEKS Math Placement Assessment

The ALEKS math placement assessment helps students and their advisors determine appropriate enrollment in Mathematics courses. Advisors can assist students with determining whether or not they need to complete the assessment. Please visit the Department of Mathematics’ Web site for more information, including examples of when students are exempted from completing the assessment.

Second Language Placement Assessment(s)

Second language placement assessments are used to decide placement into second language courses for those students who have not satisfied the second language requirement while in high school or those who plan to continue study of a second language in their first term of enrollment in the Dietrich School. The language departments encourage students to prepare for the assessment by reviewing first- and second-year second language texts. These exams take about 60 minutes to complete. The French, Spanish, German, and Italian placement assessments are available online, whereas placement assessments for other languages must be completed on campus.
Music Theory Placement Assessment

Students considering a major or minor in music should complete this assessment. A sufficient score will exempt them from the required Fundamentals of Western Music (MUSIC 0100) class. This assessment takes about 60 minutes to complete.

General Education Requirements

All students graduating from the Dietrich School must satisfy 14 general education requirements covering prominent areas in the liberal arts such as second language, diversity, literature, music, art, philosophical thinking, social science, history, natural science, and global awareness courses. In the process of satisfying these requirements, students select from a broad range of approved courses.

Requirements for the Major

All students are required to complete a major of their choice, in addition to skills and general education requirements, in order to graduate from the Dietrich School. The Dietrich School offers over 55 majors in 31 departments. Some departments offer more than one major. Each department specifies the particular courses needed to fulfill its major(s).

Students must complete the major with a 2.00 GPA, and half of the credits earned for the major must be earned at the University of Pittsburgh main campus.

Students declare their major by filling out an Academic Plan Change Form in the Dietrich School Advising Center. Students normally declare their major during their fourth term of full-time study.

Note: Transfer students receive an evaluation of their previous course work indicating the equivalent University of Pittsburgh courses for which transfer credits have been awarded. Equivalent Dietrich School courses will meet requirements for the major where appropriate. Students who believe that a previous course not equivalent to a Dietrich School course should meet a requirement for a major may petition the department to review that course.

Minors and Certificates

Minors and certificates are earned in addition to a major. Students must complete minors and certificates with a 2.00 GPA, and half of the credits earned for the minor or certificate must be earned at the University of Pittsburgh main campus. Students who complete an approved minor or certificate will have it listed on their transcript, provided that the minor or certificate is indicated on the application for graduation.

Related Area

Students must earn at least 12 Dietrich School credits (with a minimum GPA of 2.00) in a "related area" specified by the departmental advisor. The departmental advisor may designate these 12 credits as those from a single department, thematic cluster, or geographic grouping. Please note that the completion of an official minor or a certificate usually fulfills the requirement for a related area. Courses used to complete the algebra and composition skills requirements may not be used as part of a related area. Students should contact their departmental advisor with any questions regarding the completion of this requirement.

Special Academic Opportunities

Dietrich School students may choose to pursue a variety of academic programs leading to multiple majors, majors within more than one department, or majors that either prepare students for or offer advanced admission to graduate or professional programs at the University of Pittsburgh.

Double and Triple Majors
Students can declare a double or triple major, but will usually earn only one degree. If one major leads to the BA degree and another to the BS degree, students must decide when applying for graduation which degree they wish to receive. A maximum of six credits can overlap from one major to another.

**Dietrich School of Arts and Sciences/Business Dual Major**

Qualified students may apply for admission to a Dietrich School of Arts and Sciences/ Business dual major. The dual major allows students to complement a Dietrich School major with a solid foundation in business. Students may apply to the program after their first year at the University of Pittsburgh.

**Double Degrees**

Dietrich School students may choose to simultaneously pursue more than one undergraduate degree, either within the Dietrich School (i.e., both a BA and a BS) or in another undergraduate school of the University. In general, earning two degrees requires a minimum of 150 credits and the completion of the curriculum requirements of both schools.

**Combined Degree Options**

These intensive programs give Dietrich School students the opportunity to complete their undergraduate degree while beginning their first year of a graduate or professional program. To qualify, students must:

- Complete 96 or more Dietrich School credits,
- Satisfy all of the general education requirements, and
- Be accepted into a graduate or professional school at the University of Pittsburgh.

**Preparation for Professional Programs of Study**

Students interested in spending their junior and senior years in the University of Pittsburgh's professional Schools of Social Work, Health and Rehabilitation Sciences, Computing and Information, or Pharmacy normally spend two years in the Dietrich School taking necessary prerequisite courses and electives in preparation for professional study. Although first year students are accepted directly into the Schools of Engineering, Nursing, and the College of Business Administration (CBA), it is possible for students who begin in the Dietrich School to transfer into those schools after one or two years.

**Preparation for Graduate Professional Studies**

Although the Dietrich School does not offer specific majors in pre-law, pre-medical, pre-dental, or education, it is possible for students in the Dietrich School to complete all the necessary prerequisites for entry into these graduate professional schools while fulfilling their Dietrich School degree requirements.

**Accelerated Law Admissions Program (ALAP)**

The Accelerated Law Admissions Program (ALAP), open to any student enrolled in the Dietrich School, grants admission to the University of Pittsburgh's School of Law to those students who meet the ALAP's requirements. Students who enter the program complete their undergraduate major in three years, applying for admission to the School of Law during their junior year, and then go on to law school for another three years.

Students interested in the program are encouraged to declare a major early at the end of the first year in order to allow them to complete their undergraduate Dietrich School major(s) by the end of their third year. Also, interested students are encouraged to take summer classes during their second year in order to reduce the credits to be completed in their third year. The requirements for the ALAP are as follows:

- Students must complete 102 credits by the end of their junior year.
• Students must take three writing-designated courses (rather than two) beyond the freshman writing requirement.
• The Dietrich School requirement of 12 credits in a related area is waived for students in the ALAP.
• Students must take the Law School Admissions Test (LSAT) by the fall of their junior year. This would include the June, October, or December test.

Acceptance into the program is competitive, and only those students with above-average grades and competitive LSAT scores should apply.

**Five-Year Program**

- BS in statistics and an MA or MS in applied statistics: This program is intended to give outstanding students interested in statistics the opportunity to progress quickly toward their educational objectives. Contact the Department of Statistics for details.

**Study Abroad**

Dietrich School students are encouraged to add an international dimension to their undergraduate education through study abroad. Credit may be earned toward the Dietrich School degree through participation in one of several University of Pittsburgh programs or consortia-sponsored programs including Konan Year in Japan, the Denmark International Studies Program, and studies at the Universidad de las Americas in Puebla, Mexico, or the Universities of Sheffield and Sussex in England, to name a few. Students may study in virtually any part of the world in these programs or others sponsored by most American or international institutions.

Before study abroad is undertaken, approval for credit must be obtained. The study abroad advisor provides program approval, and the advisor in the department in which credit is sought and the Dietrich School Advising Center must approve the course selections and credits. Students should have at least a 2.75 GPA before seeking permission from the Dietrich School Advising Center to study abroad. In most cases, registration must be completed in the Dietrich School Advising Center. Call the Study Abroad Office in Room 802 William Pitt Union at 412-648-7413 or see www.abroad.pitt.edu for more information.

**Dietrich School Certificate Programs**

- American Sign Language Certificate
- Arabic Language and Linguistics Certificate
- Children's Literature Certificate
- Conceptual Foundations of Medicine Certificate
- Gender, Sexuality, and Women's Studies Certificate
- Geographic Information Systems Certificate
- German Language Certificate
  - German Language Certificate - German for Liberal Arts Track
  - German Language Certificate - German for Professional Purposes Track
- Jewish Studies Certificate
- Life Sciences Research Certificate
- Medieval and Renaissance Studies Certificate
- Nanoscience and Engineering Undergraduate Certificate (joint with the Swanson School of Engineering)
- Photonics Certificate
- Public and Professional Writing Certificate
- Undergraduate Certificate in Sustainability

**Dietrich School Faculty**

Dietrich School of Arts and Sciences Faculty

**Programs and Course Offerings**
Interdisciplinary Studies, BA

The interdisciplinary studies option is intended for students who wish to design their own major. This major allows students to be flexible and creative in planning a program to match their individual interests and career goals. Completing this major requires sound thought, planning, and extra effort. Students selecting this option must secure the sponsorship of two full-time A&S faculty advisors. Students will formulate a proposal for their major, including a course prospectus (classes chosen) and an essay stating rationale for their desired program of study. They will work on their proposal with their faculty advisors, who must approve the proposal before the interdisciplinary studies faculty committee can approve it.

Major Requirements

A student intending to complete an interdisciplinary studies major must submit a proposal to his/her faculty advisors before the end of the junior year. The faculty committee must approve the proposal before the student can officially declare interdisciplinary studies as a major.

- All A&S degree requirements must be completed (120 credits, 2.0 overall GPA and major GPA, skills and general education requirements).
- The interdisciplinary studies proposal must consist of a minimum of 42 credits, 21 of which must be earned from courses numbered 1000 level or above. Courses are chosen from at least two different departments and arranged in one, two, or three clusters or thematic groupings. Each cluster must contain a minimum of 12 credits.
- A maximum of 6 credits of internship or independent study may be included. A maximum of 6 credits of non-A&S courses (i.e. BUS, BUSERV, ADMJ, ADMPS, IL, PSYED, etc.) may be used. There can be no more than 9 credits of internship/independent study and non-A&S credits combined.
- A W course approved by the faculty advisors must be completed as part of the major.

A GPA of at least 2.00 must be maintained for all interdisciplinary studies course work. Students may achieve honors in interdisciplinary studies by earning a minimum GPA of 3.50 in the courses for the major and approval of a final paper or thesis.

Interdisciplinary Studies, BS

The interdisciplinary studies option is intended for students who wish to design their own major. This major allows students to be flexible and creative in planning a program to match their individual interests and career goals. Completing this major requires sound thought, planning, and extra effort. Students selecting this option must secure the sponsorship of two full-time A&S faculty advisors. Students will formulate a proposal for their major, including a course prospectus (classes chosen) and an essay stating rationale for their desired program of study. They will work on their proposal with their faculty advisors, who must approve the proposal before the interdisciplinary studies faculty committee can approve it.

Major Requirements

A student intending to complete an interdisciplinary studies major must submit a proposal to his/her faculty advisors before the end of the junior year. The faculty committee must approve the proposal before the student can officially declare interdisciplinary studies as a major.

- All A&S degree requirements must be completed (120 credits, 2.0 overall GPA and major GPA, skills and general education requirements).
- The interdisciplinary studies proposal must consist of a minimum of 42 credits, 21 of which must be earned from courses numbered 1000 level or above. Courses are chosen from at least two different departments and arranged in one, two, or three clusters or thematic groupings. Each cluster must contain a minimum of 12 credits.
- A maximum of 6 credits of internship or independent study may be included. A maximum of 6 credits of non-A&S courses (i.e. BUS, BUSERV, ADMJ, ADMPS, IL, PSYED, etc.) may be used. There can be no more than 9 credits of internship/independent study and non-A&S credits combined.
- A W course approved by the faculty advisors must be completed as part of the major.

A GPA of at least 2.00 must be maintained for all interdisciplinary studies course work. Students may achieve honors in interdisciplinary studies by earning a minimum GPA of 3.50 in the courses for the major and approval of a final paper or thesis.

International and Area Studies, BPHIL
The University Honors College (UHC) and University Center for International Studies (UCIS) have created the Bachelor of Philosophy in International and Area Studies (BPhil IAS), a research-based undergraduate major that will help students meet the demands of today's world. The BPhil IAS degree is awarded jointly by the student's home school and the University Honors College and is the first undergraduate degree in international studies at Pitt.

The goal of the BPhil IAS degree is to enable students to think critically about their global world and to gain “global competence,” which involves working effectively in different international settings, an awareness of the major currents of global change and the resulting issues raised, the capacity for effective communication across cultural and linguistic boundaries, and personal adaptability to diverse cultures.

Students seeking the BPhil IAS degree must have a minimum GPA of 3.50/4.00; complete an approved program of study involving coursework, second language, and study abroad; and write and publicly defend their research thesis before a faculty examining board that includes a visiting faculty member from outside the University. The BPhil IAS is not a freestanding major, as it requires the student to combine the BPhil IAS with a major in the student's home school of admission (A&S, CBA, Engineering, etc.); students must combine the BPhil IAS requirements with all curriculum requirements for a degree in their home school of admission.

Students seeking the BPhil in IAS must:

- have a minimum grade point average of 3.50/4.00; and
- complete eight approved courses (24 credits); and
- complete one methods course specific to their second major or to their BPhil thesis research topic; and
- complete one directed study course related to their BPhil thesis research topic; and
- complete three years of college-level language study or equivalent proficiency in a language relevant to their BPhil thesis research topic; and
- write and publicly defend their research thesis (the BPhil thesis) before a faculty examining board that includes a visiting faculty member from outside the University; and
- complete a second major in another academic discipline (note that only two courses from this major can overlap with the approved courses for the IAS major).

Students interested in the BPhil in IAS may complete one of the following tracks in UCIS: Asian Studies, European Union Studies, Global Studies, Latin American Studies, or Russian and East European Studies

**A&S/Business, BA**

**A&S/Business Dual Major**

The A&S/business dual major is offered jointly by Arts and Sciences (A&S) and the College of Business Administration (CBA). To satisfy the requirements, students must combine the business major with any A&S major. The A&S major will be listed first on the transcript as the degree-determining major (BS or BA), and the business major will be listed second. Students will be required to fulfill all A&S curriculum requirements. Students are admitted by a faculty committee that considers the cumulative GPA, specific courses taken and grades earned, SAT scores, and other relevant credentials. Students who have completed at least one full year of course work are eligible to apply to the program. Students interested in the program should seek assistance from their A&S advisor regarding the application process. For more information about the program, see http://www.business.pitt.edu/cba/academics/.

**Major Requirements**

To graduate with an A&S/business dual major, students must complete the following:

**Four dual major prerequisites:**

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- MATH 0120 - BUSINESS CALCULUS or
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Note:

Competency in Microsoft Excel (spreadsheet software) is required.

Twelve required business courses:

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - QUANTITATIVE METHODS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT *
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSFIN 1030 - INTRODUCTION TO FINANCE *
- BUSMKT 1040 - INTRODUCTION TO MARKETING *
- BUSHRM 1050 - HUMAN RESOURCES MANAGEMENT
- BUSMIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- BUSQOM 1070 - OPERATIONS MANAGEMENT *
- BUSSPP 1080 - STRATEGIC MANAGEMENT *

Note:

Courses noted with an asterisk (*) are considered non-A&S credits. All other courses are counted toward graduation as A&S credits. A&S students may include only 18 non-A&S credits in the 120 credits required for graduation.

All of the above listed courses must be completed with an average GPA of 2.00. All courses for the business major must be taken on a letter-grade basis. Students who complete the requirements of the A&S/business dual major are not required to complete a minor or A&S related area.

A&S/Business, BS

A&S/Business Dual Major

The A&S/business dual major is offered jointly by Arts and Sciences (A&S) and the College of Business Administration (CBA). To satisfy the requirements, students must combine the business major with any A&S major. The A&S major will be listed first on the transcript as the degree-determining major (BS or BA), and the business major will be listed second. Students will be required to fulfill all A&S curriculum requirements. Students are admitted by a faculty committee that considers the cumulative GPA, specific courses taken and grades earned, SAT scores, and other relevant credentials. Students who have completed at least one full year of course work are eligible to apply to the program. Students interested in the program should seek assistance from their A&S advisor regarding the application process. For more information about the program, see http://www.business.pitt.edu/cba/academics/.

Major Requirements

To graduate with an A&S/business dual major, students must complete the following:

Four dual major prerequisites:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- MATH 0120 - BUSINESS CALCULUS or
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS I
• STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Note:

*Competency in Microsoft Excel (spreadsheet software) is required.*

Twelve required business courses:

• BUSACC 0030 - FINANCIAL ACCOUNTING
• BUSACC 0040 - MANAGERIAL ACCOUNTING
• BUSQOM 0050 - QUANTITATIVE METHODS
• BUSDEV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT *
• BUSECN 1010 - MANAGERIAL ECONOMICS
• BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
• BUSFIN 1030 - INTRODUCTION TO FINANCE *
• BUSMKT 1040 - INTRODUCTION TO MARKETING *
• BUSHRM 1050 - HUMAN RESOURCES MANAGEMENT
• BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
• BUSQOM 1070 - OPERATIONS MANAGEMENT *
• BUSSPP 1080 - STRATEGIC MANAGEMENT *

Note:

*Courses noted with an asterisk (*) are considered non-A&S credits. All other courses are counted toward graduation as A&S credits. A&S students may include only 18 non-A&S credits in the 120 credits required for graduation.*

All of the above listed courses must be completed with an average GPA of 2.00. All courses for the business major must be taken on a letter-grade basis. Students who complete the requirements of the A&S/business dual major are not required to complete a minor or A&S related area.

**Children's Literature Certificate**

Books written for children are among the best-loved and best-remembered of all works of literature. They also provide some of the most important early learning experiences. In recent years, books written for children have attracted increasing interest from scholars and students as well as parents, educators, publishers, and journalists. What kinds of stories do we consider appropriate for children, and why? How have our opinions about this topic changed over time and across different cultures? And how is literacy changing, now that children are exposed not only to books, films, and television, but also to video games and the world wide web?

The interdisciplinary Certificate in Children's Literature offers undergraduates the opportunity to bring together studies across a broad range of subjects as they contemplate these and other questions pertaining to youth literature and culture. Founded in 1981, the program is designed to meet the individual student's interests and strengths and fulfills the Arts and Sciences requirement for a related area. The Children's Literature Certificate provides a useful background for many areas of professional work and study. Many of our students pursue careers in elementary, secondary, and special education, or in information science, child care, or social work. Others students have gone to graduate school in the humanities (English, History, Film Studies) or social sciences (Sociology, Psychology, Anthropology). Recent graduates of our new "Writing Youth Literature" course have gone to internships at Sesame Street Productions and the Harvey Klinger Literary Agency in New York City. For more information on the study of children's literature at the University, see www.childrenslit.pitt.edu.

**Course Requirements**

The certificate is a planned interdisciplinary sequence of at least 18 credits. The program director must also be consulted about the design of the student's individual course of study. The three required core courses for the certificate are listed below.
Students are encouraged to take all four of the below courses, since either ENGLIT 0562 or ENGLIT 0655 may be taken as a Category 1 elective. Of these two courses, the course not taken as an elective must be taken as a core course.

In addition to the three core courses, students should design their own course of study to complete the remaining credits, in consultation with the program director. Courses must be selected from an approved list of courses, available from the program director.

- ENGLIT 0560 - CHILDREN AND CULTURE
- ENGLIT 0562 - CHILDHOOD'S BOOKS or
- ENGLIT 0655 - REPRESENTING ADOLESCENCE
- ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT *

Note:

* ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT is the capstone course for the Children's Literature program and must be taken last.

Other requirements

- A minimum GPA of 2.0 is required in each course that counts toward the certificate.
- There is no limit to the number of courses that can be taken on the S/NC basis for this certificate.

Jewish Studies Certificate

The Jewish Studies Program is open to all students interested in the Hebrew language and the history and culture of the Jewish people and their contributions to Western civilization. In the historical courses, emphasis is on the interaction of the Jewish people with their neighbors, as well as the development of distinctive cultural and religious values. A certificate program is offered, and interdisciplinary studies options can be arranged to include courses in this program. Information is also available on opportunities for intensive study in Israel. The program in Jewish studies offers undergraduates the opportunity to supplement work in their own department or major with an interdisciplinary course of study in the area of Jewish studies. Completion of the certificate program fulfills the Arts and Sciences requirement for a related area (although students should check with their major departments) and will be indicated on the transcript.

Requirements

The certificate requires 18 credits. A maximum of nine credits may be transferred from another institution, subject to the DietrichSchool of Arts and Sciences policy. Credits are to be distributed as follows.

Elementary Hebrew courses are optional.

- JS 0013 - ELEMENTARY HEBREW 1
- JS 0014 - ELEMENTARY HEBREW 2

Required Hebrew course

- JS 0025 - INTERMEDIATE HEBREW 3

Upper-level Jewish Studies courses

Students must complete six credits in Jewis Studies Program courses at the 1000-level.

Jewish Studies elective courses
Students may take up to nine credits in any other Jewish Studies Program courses.

**Comparative Religious Studies course**

Students must take at least one course in the Department of Religious Studies that treats a religious tradition other than Judaism.

**Independent Study**

- JS 1901 - INDEPENDENT STUDY

**Nanoscience and Engineering Undergraduate Certificate**

Advances in nanoscience and nanotechnology (the ability to predict, create, and design with nanoscale materials and systems) are expected to reveal new physical phenomena and to enable the creation of highly desirable products and devices, in addition to revolutionary changes in industrial practice. Strength in nanoscience and nanotechnology has been identified as the nation's future competitiveness and prosperity, and strategic plans have been developed to accelerate nanoscience research and development, encourage knowledge transfer to spur economic growth, and expand educational programs and workforce training - all in a socially and environmentally responsible and sustainable manner.

Nanoscience and nanotechnology also has had a large and rapidly growing local impact. The Pittsburgh region is home to a number of corporations, including many smaller start-up companies, with major nanotechnology components to their businesses. The continued success of companies such as PPG, Seagate, Bayer, Alcoa, Plextronics, Westinghouse, Bettis, and II-VI will depend on their ability to recruit local engineering talent with the required background in nanoscience and nanotechnology. The continued development of nanotechnology-based entrepreneurial start-ups will depend in large part on a vibrant pool of young engineers and scientists with appropriate educational experience in nanoscience and nanotechnology.

This joint certificate, housed in both the Swanson School of Engineering (SSOE) and the Dietrich School of Arts and Sciences (Dietrich School) enables BS students from both schools to complement their education by completing a five-course sequence. The certificate is designed to be combined with coursework in any SSOE degree-granting program, or with chemistry and physics in the Dietrich School.

The course requirements for this certificate follow.

**Required courses**

This course has prerequisites.

- ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING

**One of the following courses**

These courses have prerequisites.

- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE

**One of the following courses**

- PHYS 1903 - DIRECTED RESEARCH

**Two elective courses from the following list**

- CHEM 1600 - SYNTHESIS & CHARACTERZTN POLYMERS
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- ECE 0257 - ANALYSIS AND DESIGN OF ELECTRONIC CIRCUITS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
Photonics Certificate

Photonics is one of the fastest growing high-tech industries in the world today. It includes optical communications (e.g., fiber optics, lasers, and infrared links), optical imaging (e.g., spy and weather satellites, night vision, holography, flat screen display, and CCD video cameras), optical data storage (e.g., CDs and CD-ROMs), optical detectors (e.g., supermarket scanners, medical optics, and nondestructive evaluation of materials), lasers (e.g., welding lasers, laser surgery, laser shows, and laser rangefinders), spectroscopy (e.g., chemical analysis and detection), and quantum optics (e.g., quantum cryptography, quantum computing, and single-photon detection).

Although the photonics industry is growing rapidly, photonics companies have a hard time finding qualified people because the interdisciplinary field crosses physics, physical chemistry, and electrical engineering. The photonics certificate program at the University of Pittsburgh will give this kind of cross-cutting experience and allow students to move directly into the photonics industry. The Certificate in Photonics will also serve as good preparation for graduate school in solid state physics, physical chemistry, or electrical engineering with optoelectronics emphasis.

Students in the certificate program will have opportunities for laboratory research with professors at the University of Pittsburgh and will also receive special job placement referrals.

Requirements

- ECE 2295 - SPECIAL TOPICS: ELECTRONICS
- ENGR 0241 - FABRICATION AND DESIGN IN NANOTECHNOLOGY
- IE 1012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS or IE 2012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS
- MEMS 1057 - MICRO/NANO MANUFACTURING
- MEMS 1447 - Nanocharacterization
- MEMS 1469 - Materials Science of Nanostructures
- MEMS 1477 - THIN FILM PROCESSES
- MEMS 1478 - Nanoparticles: Science and Technology
- MEMS 1480 - Introduction to Microelectromechanical Systems
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1374 - SOLID STATE PHYSICS

One of the following courses

- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY

One of the following courses

- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2

Additional information and requirements

- No more than six credits of coursework may overlap between the requirements for this certificate and a major in Physics and Astronomy or in Chemistry.
- A minimum GPA of 2.0 is required in each course that counts toward the certificate.
- No course that counts toward this certificate may be taken on an S/NC basis.
- For more information about this certificate, Dietrich School students should contact the departmental advisor in Physics and Astronomy.
The certificate is designed to fit easily with a physics, chemistry, or electrical engineering major, but students with other majors can also earn the certificate.

To receive the certificate, students must have taken

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0250 - MATRIX THEORY & DIFFT EQUATIONS

One of the following pairs

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
  or
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

One of the following pairs

- CHEM 0110 - GENERAL CHEMISTRY 1 and
- CHEM 0120 - GENERAL CHEMISTRY 2
  or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1 and
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
  or
- CHEM 0960 - GENERAL CHEM FOR ENGINEERS 1 and
- CHEM 0970 - GENERAL CHEM FOR ENGINEERS 2

Required laboratory courses:

One of the following

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING
- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY and
- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB
- ECE 0501 - DIGITAL SYSTEMS LABORATORY

One of the following

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- ECE 1201 - ELECTNC MEASURMNTS & CRCTS LAB and
- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1 and
- CHEM 1255 - INSTRUMENTAL ANALYSIS LAB
In addition

The following courses are required for the certificate.

- PHYS 1361 - WAVE MOTION AND OPTICS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- Junior Photonics Seminar (two semesters, each 1 credit) (cross listed as PHYS 0177, CHEM 1750, or ECE 1248)
- Photonics Theory 1 (3 credits) (cross listed as PHYS 1363, CHEM 1470/CHEM 1472, or ECE 1240/1240)
- Photonics Theory 2 (3 credits) (cross listed as PHYS 1364, CHEM 1470/CHEM 1472, or ECE 1240/ECE 1241)
- Photonics Laboratory (1 credit) (PHYS 1365, to be cross listed in EE and CHEM)

One of the following

- CHEM 1410 - PHYSICAL CHEMISTRY 1
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1 and
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2

Two of the following courses or sequences

- CHEM 1250 - INSTRUMENTAL ANALYSIS
- TELCOM 2222 - Photonic Communications

One of the following

- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- ECE 1259 - ELECTROMAGNETICS 1 and
- ECE 1266 - APPLICTIONS OF FIELDS & WAVES

Note:

For more information, see www.phyast.pitt.edu/~snoke/photonics.

**Public and Professional Writing Certificate**

Writing plays a crucial role in the lives of people after they leave college, as students go on to work, volunteer, attend professional schools, and advocate for themselves and others. The PPW certificate focuses on writing that serves professional goals and/or the public interest. We invite students from across the University to focus on writing as a way to develop the critical writing, learning, and thinking skills necessary to all sectors of American professional life-private, nonprofit, and government.

Students who know that they will write extensively as professionals in law, medicine, the sciences, social work, public policy, international relations, business, or other fields are good candidates for the PPW certificate, as are students who are interested in advocacy and activism. Students contemplating graduate work should also find the course of study leading to the PPW certificate useful. The courses will allow students to work on significant writing projects in a range of venues. Students who have finished the certificate should have a compelling portfolio of work that they can show to prospective employers.

Students should expect to undertake rigorous intellectual work that will increase their precision as writers, deepen their facility with language and style, and deepen their engagement with writing as a form of social action that has consequences in the world. For more information, see www.composition.pitt.edu/ppw/.
All students who wish to enroll in the certificate program must submit a letter of intent (this would be the equivalent of an admission essay), a resume, and a writing sample. Please submit this information via campus mail or U.S. mail to Department of English, Public and Professional Writing Certificate, 526 Cathedral of Learning, Pittsburgh, PA 15260.

Requirements

At least 18 credits are required to complete the PPW certificate; students must maintain a minimum B GPA in the three courses required by the certificate.

Students must take ONE of the following core courses:

After they have completed one of the core courses with at least a B, students must also complete, with at least a B, a minimum of TWO approved 1000-level courses (one of which may be a PPW internship) in the composition program.

The remaining 9 credits may come from designated intermediate and advanced course offerings in the English department. The list of designated courses that count toward the certificate will be given to students when they register for the program; designated courses are also listed online. Students may petition to have a relevant course count toward the PPW certificate.

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC

Undergraduate Certificate in Sustainability

Environmental and sustainability programs study coupled human-natural systems using interdisciplinary approaches and knowledge. Such programs work at the science-engineering, science-policy, and policy management interfaces and aim to prepare sustainability-oriented problem solvers through interdisciplinary research, scholarship, and practice. This certificate addresses the need for education and research to strengthen our understanding of the links between human behavior and natural processes by integrating the behavioral and social sciences, earth sciences, physical sciences, engineering, and information sciences.

Completion of the certificate in the Dietrich School requires 18 credits. The following requirements are for Dietrich School students who pursue this certificate. Be advised that Swanson School of Engineering students may have different requirements.

Required Courses

- ENGR 1905 - CURRENT ISSUES IN SUSTAINABILITY
- ENGR 1907 - SUSTAINABILITY CAPSTONE
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE

Elective Courses

Select three of the following courses. Only one course may be in the student's major department.

- BIOSC 0740 - YELLOWSTONE FIELD COURSE (UHC, off-campus in Wyoming)
- BIOSC 1160 - FOREST ECOLOGY (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1220 - ECOLOGICAL FIELD STUDIES (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1310 - WETLAND ECOLOGY AND MANAGEMENT (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1610 - CONSERVATION BIOLOGY (off-campus at Pymatuning Laboratory of Ecology)
- CEE 1209 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS
- CEE 1217 - GREEN BUILDING DESIGN AND CONSTRUCTION
- CEE 1218 - DESIGN FOR THE ENVIRONMENT
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
• CS 0090 - SUSTAINABILITY AND COMPUTING
• ECE 1769 - POWER SYSTEM ANALYSIS 1
• ECON 0360 - INTRODUCTION TO ENVIRONMENT AND RESOURCE ECONOMICS
• ECON 0530 - INTRODUCTION TO DEVELOPMENT ECONOMICS
• ECON 1360 - ENVIRONMENTAL ECONOMICS
• ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
• ENGLIT 1005 - LITERATURE AND THE ENVIRONMENT
• ENGR 1060 - SOCIAL ENTREPRENEURSHIP- ENGINEERING FOR HUMANITY
• GEOL 0860 - ENVIRONMENTAL GEOLOGY
• GEOL 1051 - GROUNDWATER GEOLGY
• GEOL 1060 - GEOMORPHOLOGY
• GEOL 1333 - SUSTAINABILITY
• GEOL 1334 - ENVIRONMENTAL POLICY
• GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
• GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
• GEOL 1904 - DIRECTED READING
• GSWS 1450 - GENDER AND SUSTAINABILITY
• HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
• HIST 1019 - CITIES IN HISTORICAL PERSPECTIVE
• HIST 1695 - ENVIRONMENTAL HISTORY
• HONORS 1544 - READING THE EARTH: WYOMING FIELD STUDIES IN ECOLOGY AND PALEONTOLOGY (UHC, off campus in Wyoming)
• MEMS 1065 - THERMAL SYSTEMS DESIGN
• PIA 2231 - CONTEMPORARY US ENERGY POLICY
• PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
• SA 1340 - SCULPTURE STUDIO: PROJECTS
• SOC 1445 - SOCIETY AND ENVIRONMENT
• URBNST 0080 - INTRODUCTION TO URBAN STUDIES
• URBNST 1614 - URBAN SUSTAINABILITY

Additional information and requirements

- A minimum GPA of 2.0 is required in each course that counts toward the certificate.
- No course that counts toward this certificate may be taken on the S/NC basis.

Department of Africana Studies

Africana studies is the study, research, interpretation, and dissemination of knowledge concerning African American, African, and Caribbean affairs and culture. Using the tools of the social sciences and humanities, Africana studies examines the structure, organization, problems, and perspectives of Blacks in Africa and the African Diaspora. Africana studies also stresses analytical interpretations and policy prescriptions for social change in African American communities and in various African and Caribbean nations. The term Africana incorporates the three-tier interdisciplinary thrust of the department: African, African American, and Caribbean social sciences and humanities.

Africana studies prepares social science majors for advanced graduate studies in international affairs, education, social work, social policy studies, and legal and professional training. In the humanities, preparation in the creative arts and literature gears students to practical development in such fields as communication, teaching, theater, and dance. Africana studies occupies a central role in understanding modern African life and African and Caribbean linkages. As an interdisciplinary major, Africana studies offers intellectual paradigms for the multicultural approach to historical, political, and economic reality. It is also critical and corrective of the inadequacies, omissions, and distortions of mainstream American education leading into the 21st century. Africana studies is committed to producing liberally educated women and men with a lifetime dedication to working on African American, African, and Caribbean affairs. For more information on the major and the Department of Africana Studies, see the department's Web site at www.africanastudies.pitt.edu.
Africana Studies, BA

Africana Studies is the study, research, interpretation, and dissemination of knowledge concerning African American, African, and Caribbean affairs and culture. Using the tools of the social sciences and humanities, Africana Studies examines the structure, organization, problems, and perspectives of Blacks in Africa and the African Diaspora. Africana Studies also stresses analytical interpretations and policy prescriptions for social change in African American communities and in various African and Caribbean nations. The term Africana incorporates the three-tier interdisciplinary thrust of the department: African, African American, and Caribbean social sciences and humanities.

Africana Studies prepares social science majors for advanced graduate studies in international affairs, education, social work, social policy studies, and legal and professional training. In the humanities, preparation in the creative arts and literature gears students to practical development in such fields as communication, teaching, theater, and dance. Africana Studies occupies a central role in understanding modern American life and African and Caribbean linkages. As an interdisciplinary major, Africana Studies offers intellectual paradigms for the multicultural approach to historical, political, and economic reality. It is also critical and corrective of the inadequacies, omissions, and distortions of mainstream American education leading into the 21st century. Africana Studies is committed to producing liberally educated women and men with a lifetime dedication to working on African American, African, and Caribbean affairs. For more information on the major and the Department of Africana Studies, see the department's Web site at www.africanastudies.pitt.edu.

Major Requirements

Students are urged to meet with the departmental advisor no later than the beginning of the junior year to confirm a plan of study. The Africana studies major requires:

A total of 30 credits with a focused area of study in either humanities or social science. A 2.0 grade point average in all Africana Studies courses is required for graduation. The department does not permit courses for the major to be taken on an S/NC basis.

All majors, regardless of concentration, are required to take the following three core courses.

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- AFRCNA 1768 - AFRICANA SENIOR RESEARCH SEMINAR
- AFRCNA 1900 - INTERNSHIP

Humanities Concentration

Seven courses as follows; see the lists below for specific courses.

- Two lower level AFRCNA humanities courses
- Three upper level AFRCNA humanities courses
- One lower level AFRCNA social science course
- One upper level AFRCNA social science course

Social Sciences Concentration

Seven courses as follows; see the lists below for specific courses.

- Two lower level AFRCNA social science courses
- Three upper level AFRCNA social science courses
- One lower level AFRCNA humanities course
- One upper level AFRCNA humanities course

Lower-level courses

Humanities courses
• AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
• AFRCNA 0212 - WEST AFRICAN DANCE
• AFRCNA 0242 - AFRICANA URBAN WOMAN
• AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
• AFRCNA 0352 - AFRICAN AMERICAN DANCE
• AFRCNA 0454 - MAN/WOMAN LITERATURE
• AFRCNA 0517 - INTRODUCTION TO AFRICAN AMERICAN POETRY
• AFRCNA 0522 - INTRODUCTION TO AFRICAN LITERATURE
• AFRCNA 0523 - SWAHILI 1
• AFRCNA 0524 - SWAHILI 2
• AFRCNA 0639 - HISTORY OF JAZZ

Social Science courses

• AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS
• AFRCNA 0127 - INTRODUCTION TO AFRICA
• AFRCNA 0311 - INTRODUCTION TO THE AFRICAN AMERICAN FAMILY
• AFRCNA 0313 - THE BLACK CHURCH
• AFRCNA 0318 - HISTORY OF AFRICA BEFORE 1800
• AFRCNA 0385 - CARIBBEAN HISTORY
• AFRCNA 0434 - PSYCHOLOGICAL EXPERIENCE AFRICAN AMERICAN FEMALE
• AFRCNA 0536 - 20TH CENTURY AFRICAN AMERICAN WOMAN HISTORY
• AFRCNA 0586 - EARLY AFRICAN CIVILIZATIONS
• AFRCNA 0628 - AFRO-LATIN AMERICA
• AFRCNA 0629 - AFRO-AMERICAN HISTORY 1
• AFRCNA 0630 - AFRO-AMERICAN HISTORY 2
• AFRCNA 0684 - RACE,CLASS,ETHNICITY:CARIBBEAN EXPERIENCE
• AFRCNA 0787 - BLACK CONSCIOUSNESS

Upper-level courses

Humanities courses

• AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA
• AFRCNA 1145 - AFRICAN AMERICAN RHETORIC
• AFRCNA 1150 - CONTEMPORARY AFRICAN AMERICAN WRITING
• AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY
• AFRCNA 1306 - WORLD LITERATURE IN ENGLISH
• AFRCNA 1334 - MUSIC IN AFRICA
• AFRCNA 1335 - AFRICAN-AMERICAN MUSIC IN THE UNITED STATES
• AFRCNA 1347 - FRANCOPHONE AFRICANA LITERATURE
• AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE
• AFRCNA 1353 - COMPARATIVE DANCE EXPRESSION
• AFRCNA 1555 - AFRO CARIBBEAN DANCE
• AFRCNA 1616 - AFRICAN AMERICAN WOMEN WRITERS
• AFRCNA 1644 - THE AFRICAN NOVEL
• AFRCNA 1704 - AFRICANA WORLD LITERATURE

Social Science courses
AFRCNA 1011 - THE RISE MODERN PAN-AFRICAN MOVEMENT
AFRCNA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
AFRCNA 1030 - AFRICAN POLITICS
AFRCNA 1039 - HISTORY OF CARIBBEAN SLAVERY
AFRCNA 1108 - AFRICAN AMERICAN FOLK CULTURE
AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
AFRCNA 1310 - CULTURES OF AFRICA
AFRCNA 1402 - LEARNING PARADIGMS AFRICAN AMERICAN CHILD DEVELOPMENT
AFRCNA 1522 - SEX AND RACISM
AFRCNA 1538 - HISTORY OF BLACK PITTSBURGH
AFRCNA 1656 - HISTORY OF AFRICA SINCE 1800
AFRCNA 1661 - POLITICAL ECONOMY OF AFRICA
AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES

Additional requirements

For the Dietrich School required related area outside the major, students might consider completing the related area in a single department as it may lead to the option of a double major.

Students must complete one of their required writing-intensive (W) course in the major.

**Africana Studies Minor - African American Culture Option**

**Minor Requirements**

**Option 1:**

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- two lower-level courses from the subset
- and two upper-level courses from the subset

(15 Credits Total)

**Lower level courses**

- AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
- AFRCNA 0311 - INTRODUCTION TO THE AFRICAN AMERICAN FAMILY
- AFRCNA 0313 - THE BLACK CHURCH
- AFRCNA 0352 - AFRICAN AMERICAN DANCE
- AFRCNA 0454 - MAN/WOMAN LITERATURE
- AFRCNA 0517 - INTRODUCTION TO AFRICAN AMERICAN POETRY
- AFRCNA 0629 - AFRO-AMERICAN HISTORY 1
- AFRCNA 0639 - HISTORY OF JAZZ
- AFRCNA 0787 - BLACK CONSCIOUSNESS

**Upper level courses**

- AFRCNA 1011 - THE RISE MODERN PAN-AFRICAN MOVEMENT
• AFRCNA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
• AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA
• AFRCNA 1108 - AFRICAN AMERICAN FOLK CULTURE
• AFRCNA 1145 - AFRICAN AMERICAN RHETORIC
• AFRCNA 1335 - AFRICAN-AMERICAN MUSIC IN THE UNITED STATES
• AFRCNA 1402 - LEARNING PARADIGMS AFRICAN AMERICAN CHILD DEVELOPMENT
• AFRCNA 1522 - SEX AND RACISM
• AFRCNA 1616 - AFRICAN AMERICAN WOMEN WRITERS
• AFRCNA 1704 - AFRICANA WORLD LITERATURE
• AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES

Africana Studies Minor - African Culture Option

Minor Requirements

Option 2:

• AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
• two lower-level courses from the subset
• and two upper-level courses from the subset

(15 Credits Total)

Lower level courses

• AFRCNA 0127 - INTRODUCTION TO AFRICA
• AFRCNA 0212 - WEST AFRICAN DANCE
• AFRCNA 0242 - AFRICANA URBAN WOMAN
• AFRCNA 0318 - HISTORY OF AFRICA BEFORE 1800
• AFRCNA 0522 - INTRODUCTION TO AFRICAN LITERATURE
• AFRCNA 0586 - EARLY AFRICAN CIVILIZATIONS
• AFRCNA 0787 - BLACK CONSCIOUSNESS

Upper level courses

• AFRCNA 1011 - THE RISE MODERN PAN-AFRICAN MOVEMENT
• AFRCNA 1030 - AFRICAN POLITICS
• AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY
• AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
• AFRCNA 1310 - CULTURES OF AFRICA
• AFRCNA 1334 - MUSIC IN AFRICA
• AFRCNA 1347 - FRANCOPHONE AFRICANA LITERATURE
• AFRCNA 1644 - THE AFRICAN NOVEL
• AFRCNA 1655 - AFRICAN CINEMAS/SCREEN GRIOTS
• AFRCNA 1656 - HISTORY OF AFRICA SINCE 1800
• AFRCNA 1661 - POLITICAL ECONOMY OF AFRICA

Africana Studies Minor - Multidisciplinary Option
Minor Requirements

Option 3:

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- one lower-level course from the humanities subset
- one lower-level course from the social sciences subset
- one upper-level course from the humanities subset
- and one upper-level course from the social sciences subset

(15 Credits Total)

Lower level courses

Humanities

- AFRCNA 0212 - WEST AFRICAN DANCE
- AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
- AFRCNA 0352 - AFRICAN AMERICAN DANCE

Social Science

- AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS
- AFRCNA 0313 - THE BLACK CHURCH
- AFRCNA 0385 - CARIBBEAN HISTORY
- AFRCNA 0630 - AFRO-AMERICAN HISTORY 2
- AFRCNA 0684 - RACE, CLASS, ETHNICITY: CARIBBEAN EXPERIENCE

Upper level courses

Humanities

- AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA
- AFRCNA 1145 - AFRICAN AMERICAN RHETORIC
- AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY
- AFRCNA 1306 - WORLD LITERATURE IN ENGLISH
- AFRCNA 1347 - FRANCOPHONE AFRICANA LITERATURE
- AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE
- AFRCNA 1353 - COMPARATIVE DANCE EXPRESSION
- AFRCNA 1555 - AFRO CARIBBEAN DANCE
- AFRCNA 1655 - AFRICAN CINEMAS/SCREEN GRIOTS

Social Science

- AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRCNA 1039 - HISTORY OF CARIBBEAN SLAVERY
- AFRCNA 1538 - HISTORY OF BLACK PITTSBURGH
- AFRCNA 1656 - HISTORY OF AFRICA SINCE 1800
Africana Studies - English, BA

The joint major offers an especially coherent experience in interdisciplinary learning by bringing together Africana Studies and English in two interrelated ways. Students get a rich and rigorous exposure to African and African Diaspora literature written in English through literature produced in the United States, Africa, Canada, Great Britain, and the Caribbean. Additionally, students examine some of the significant relationships between African and African Diaspora works and a range of English-language literary traditions.

The major is designed to expose students to important questions and traditions in literary interpretation and to offer them political, social, and cultural contexts for the literature they will be reading. Like most liberal arts majors, it helps students learn to think analytically and to make and assess arguments, skills that are important in many jobs and courses of graduate study. The major is also useful for prospective teachers who would be interested in developing and teaching curricula that include African Diaspora literature within other English-language traditions. Students who complete the joint major will have fulfilled most of the School of Education's undergraduate requirements for secondary education certification in English.

The Africana Studies-English joint major requires 45 credits distributed as follows: four core courses, four literature courses from the Department of Africana Studies, three literature courses from the Department of English, and four electives, one of which must be a history course in the Department of Africana Studies. No more than two upper-division courses can count toward the major before a student has completed the introductory courses, and three of the required courses in each department excluding the core courses must be taken before a student enrolls in a senior seminar.

Joint Major Requirements

Required Core Courses (12 credits)

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- ENGLIT 0500 - INTRODUCTION TO CRITICAL READING
- ENGLIT 1900 - PROJECT SEMINAR

One of the following:

- ENGLIT 1910 - SENIOR SEMINAR

Africana Studies Courses (12 credits)

Students must take four of the following:

- AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
- AFRCNA 0522 - INTRODUCTION TO AFRICAN LITERATURE
- AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
- AFRCNA 1704 - AFRICANA WORLD LITERATURE
- AFRCNA 1306 - WORLD LITERATURE IN ENGLISH
- AFRCNA 1644 - THE AFRICAN NOVEL
- AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE

English Literature Courses (9 credits)

Students must take three of the following:

- ENGLIT 1125 - MASTERPIECES OF RENAISSANCE LITERATURE
- ENGLIT 1150 - ENLIGHTENMENT TO REVOLUTION
- ENGLIT 1175 - 19TH CENTURY BRITISH LITERATURE
- ENGLIT 1200 - AMERICAN LITERATURE TO 1860
Elective Courses (12 credits)

- Students must take four electives, choosing from courses in the departments of Africana Studies and English. One of these electives must be a history course offered by the Department of Africana Studies. Students might also use electives to pursue more extensive work in particular areas of study, such as African, African American, British, Caribbean, or U.S. literature.
- Students interested in careers in education should pay particular attention to courses required by various School of Education certification programs.
- In light of the interdisciplinary and international character of the joint major, it would also be appropriate for students to petition to have a closely related course taught in a foreign language (for example, a course on Francophone-Caribbean literature in the Department of French and Italian Languages and Literatures) count as one of the electives toward the joint major.

Department of Anthropology

Anthropology is concerned with how humans and human societies evolve, with the differences and similarities among human cultures, and with the cultural and biological basis for human behavior. Anthropology integrates a wide range of perspectives on human behavior, culture, and society. Students become familiar with the basic concerns of four subgroups of anthropology:

- Archaeology offers courses covering many geographic regions (Latin America, North America, and China), techniques of analysis, and issues in prehistory. Museum collections, internships in cultural resource management, and a summer field school provide opportunities for student involvement in archaeological work.
- Physical anthropology offers classes on evolutionary theory; human genetics; osteoarchaeology; and human and nonhuman primate evolution, anatomy, morphology, and behavior.
- Cultural anthropology offers a wide variety of courses on cultural areas including the Pacific, Latin America, China, Japan, South Asia, Eastern Europe, and the United States. Classes provide cross-cultural studies of topics such as medical anthropology, food, social and political organization, gender roles, kinship, ethnicity and nationalism, folklore, religion, and conflict and violence.
- Anthropological linguistics offers courses on the nature of languages around the world, focusing on the relationship of language to other aspects of culture and society. Among the courses offered are Gypsy Language and Culture and Writing Systems of Ancient Mesoamerica.

For more information on the major and the Department of Anthropology, visit www.anthropology.pitt.edu.

Anthropology, BA

Anthropology is concerned with how humans and human societies evolve, with the differences and similarities among human cultures, and with the cultural and biological basis for human behavior. It integrates a wide range of perspectives on human behavior, culture, and society. Students will become familiar with the basic concerns of four sub-fields of anthropology: archaeology, physical anthropology, cultural anthropology, and anthropological linguistics.

The archaeology program offers courses covering many geographic regions (Latin America, North America, China, and Europe, among others), techniques of analysis, and issues in prehistory. Opportunities for student involvement in archaeological work are provided through museum collections, participation in research with faculty and graduate students, and a periodic summer field school.

The physical anthropology program offers classes on evolutionary theory, human genetics, osteoarchaeology, forensic anthropology, and human and nonhuman primate evolution, anatomy, and morphology.

Cultural anthropology is represented by a wide variety of courses on culture areas including the Pacific, Latin America, China, Japan and South Asia, Eastern Europe and the United States. Classes provide cross-cultural studies of topics such as medical anthropology, food, social and political organization, sex roles, kinship, ethnicity, nationalism, folklore, religion, and conflict and violence.

Linguistic Anthropology examines language, and other semiotic systems, as forms of practice through which social relations, cultural forms, and beliefs are constituted. Courses are offered on language and the emotions; ritual performance; language shifts and code-switching; connections between language, ethnicity, cognition, nationalism, and political systems; orality and literacy; and analysis of changing media forms. Courses examine dominant, minority, and endangered languages with particular regional reference to Asia, The Pacific, and Europe.
Students pursuing the Anthropology major must complete 33 credits or coursework as described below.

Core courses

Students must complete two of the three primary introductory courses in Anthropology (ANTH 0582, ANTH 0680, and ANTH 0780) with a grade of C or better prior to declaring this major.

- ANTH 0582 - INTRODUCTION TO ARCHEOLOGY
- ANTH 0680 - INTRODUCTION TO PHYSICAL ANTHROPOLOGY
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY

History of Anthropology course

- ANTH 1552 - A HISTORY OF ANTHROPOLOGICAL THOUGHT

Methods course

The Department of Anthropology offers a course in each sub-discipline. Students must complete one course as appropriate for their field of study.

- ANTH 1534 - ARCHEOLOGICAL DATA ANALYSIS 1
- ANTH 1537 - BASIC LABORATORY ANALYSIS
- ANTH 1556 - ZOOARCHAEOLOGY
- ANTH 1601 - STRUCTURE AND FUNCTION
- ANTH 1602 - HUMAN SKELETAL ANALYSIS
- ANTH 1605 - PRIMATE ANATOMY
- ANTH 1609 - ADVANCED SKELETAL ANALYSIS
- ANTH 1617 - PALEOPATHOLOGY
- ANTH 1763 - FIELD METHODS

Undergraduate Seminar

Students must complete one undergraduate seminar. ANTH 1750 - UNDERGRADUATE SEMINAR is one option; students should consult with the major advisor for other courses that meet this requirement.

Electives

Students must complete a minimum of elective five courses in Anthropology. At least three of the elective courses must be at the 1000-level.

Other requirements

Grade requirements: A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No course that counts toward the major can be taken on an S/NC basis.

Writing (W) requirement: Students must complete at least one W course in the major.

Related area: A minimum of 12 credits is required in any one Dietrich School department or in a thematic cluster chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

Honors major requirements: Students with a minimum overall GPA of 3.25 and a minimum GPA of 3.5 in their Anthropology courses will be graduated from the department with honors, pending the submission and acceptance of a paper representing substantial student research. The honors paper may be the expanded version of a paper from a current or previous course, or may result from independent research.
The department strongly recommends a field school course for undergraduate majors.

The Undergraduate Anthropology Club offers workshops, hosts informal discussions, shows films, and organizes field trips for Anthropology majors and those interested in Anthropology. Additional information is available via the Anthropology Club mailbox in WWPH 3302.

**Department of Biological Sciences**

**Biological Sciences**

The biological sciences major is intended for the biology student who wishes to develop an individualized combination of courses at the advanced level. The student is free to plan a curriculum of great breadth or to choose an area of specialization not offered as a major by the department. Most of the undergraduates in our department choose the biological sciences major. This major is suitable for those planning a career in which general familiarity with biological topics is desirable, such as jobs in scientific journalism, biological and pharmaceutical supply industries, biological or medical research, scientific libraries and museums, or in any industry where the products or by-products have potential biological impact. Completing the biological sciences major fulfills the basic science requirements for admission to medical, dental, and other health professional schools and to graduate biology programs.

**Bioinformatics**

Bioinformatics is the theory, application and development of computing tools to solve problems and create hypotheses in all areas of biological sciences. Biology in the post-genome world has been and continues to be transformed from a largely laboratory-based science to one that integrates experimental and information science. Bioinformatics has contributed to advances in biology by providing tools that handle datasets too large and/or complex for manual analysis. Examples of some of these tools include assembly of DNA sequences of entire genomes, gene finding algorithms, microarray expression analysis, molecular system modeling, and biomarker discovery from mass spectra. Computational tools are central to the organization, analysis, and harvesting of biological data at the level of macromolecules, cells, and systems. Consequently, there is a growing need for trained professionals who understand the languages of biology and computer science. Biologists trained in more traditional programs may not have a working knowledge of statistics and algorithms, whereas computer scientists trained in more traditional programs may not have a working knowledge of the chemistry and biology required in the field.

**Ecology and Evolution**

The field of ecology explores the interactive web of organisms and the environment. Studies in evolution consider the processes by which modern organisms have developed from ancestral ones. The ecology and evolution major is a good choice for students interested in the fundamental questions of the evolutionary origins of organisms and how they survive, or don't survive, in their changing habitats. Within this major, students have the opportunity for in-depth study of the morphological and physiological adaptations of a variety of animals, plants, and microorganisms to a changing world; the ecological relationship of organisms from the individual to the global scale; and the mechanisms that drive evolutionary change.

Employment opportunities in the ecological sciences have increased greatly in recent years. There continues to be a demand for well-trained professionals at all levels (BS, MS, and PhD). Government environmental agencies, commercial consulting and testing firms, waste management industries, research laboratories, and natural history and science museums are just a few of the career opportunities. Graduate departments of ecology, evolution, environmental sciences, genetics, botany, public policy, and public health are actively seeking well-qualified students. The required chemistry, physics, and mathematics courses incorporate the requirements for admission to medical, dental, and other health professional schools. An ecology and evolution major could also serve as a springboard to a career in law.

**Microbiology**

Microbiology is the study of the biology of microscopic organisms: bacteria, viruses, algae, fungi, and protozoa. The methods used to study and manipulate these minute and mostly unicellular organisms differ from those used in most other biological investigations. Recombinant DNA technology uses microorganisms, particularly bacteria and viruses, to amplify DNA sequences and generate the encoded products. Moving genes from one microorganism to another permits application of microbial skills to solve medical and environmental problems. Many microorganisms are
unique among living things in their ability to use gaseous nitrogen from the air or to degrade complex and resistant macromolecules in such materials as wood. By rearranging the genes that control these and other processes, scientists seek to engineer microorganisms that will process wastes, fertilize agricultural land, produce desirable biomolecules, and solve other problems inexpensively and safely.

Microbiologists pursue careers in many fields, including agricultural, environmental, food, and industrial microbiology; public health; resource management; basic research; education; and pharmaceuticals. Jobs in all these fields are available at the BS level as well as the MS and PhD levels. The microbiology major also incorporates the requirements expected for admission to medical, dental, and other health professional schools and to graduate schools in microbiology, molecular biology, biochemistry, and related disciplines.

**Molecular Biology**

Molecular biology emphasizes the study of molecules that make up an organism and the forces operating among these molecules. Increasingly, molecular biologists can also explore the genetic control of these molecules and thus define the developmental, cellular, and subcellular changes that occur during the dynamic processes of life. Virtually every question, whether in biochemistry, cell biology, developmental biology, or some other biological discipline, applies molecular biology, often as the prime approach, in its solution. Biochemical and molecular developments have revolutionized biological research, fueling the explosive growth in the biotechnology industry and rapid increase of molecular medicine.

The molecular biology major, with its two tracks (biochemistry or cell and developmental biology) provides a strong background for many science careers. Both tracks incorporate the requirements expected for admission to medical, dental, and other health professional schools and to graduate schools in biochemistry, cell and molecular biology, and related disciplines. Positions for molecular biologists at the BS, MS, and PhD levels are available in the biotechnology industries as well as in universities, medical schools, hospitals, government laboratories, research institutes, and public health institutions.

For more information on the Department of Biological Sciences and the majors it offers, see www.biology.pitt.edu.

**Bioinformatics, BS**

**Biological Sciences Requirements**

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.
- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including
- CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
  - CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
  - MATH 0220 Analytic Geometry and Calculus 1,
  - Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
  - Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.
- A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.
- The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
- Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.
- University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 and labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.
Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

- CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
- CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- STAT 1000 - APPLIED STATISTICAL METHODS
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
  or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Requirements

The undergraduate bioinformatics degree program at the University of Pittsburgh is operated jointly by the departments of biological sciences (www.biology.pitt.edu) and computer science (www.cs.pitt.edu). This program offers training that builds a solid foundation in chemistry, biology, computer science, mathematics, and statistics. The training will enable students to communicate fluently with experts across these disciplines and to have the skills necessary to apply computing tools to address contemporary problems in biology and medicine. It will enhance the professional opportunities for undergraduates to pursue careers in pure or applied research in academia, government, pharmaceutical, medical, or biotechnology sectors.

Advising for Bioinformatics majors is housed in both the Department of Biology and the Department of Computer Science. For information, contact one of the advisors.

Core courses (42 credits)

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0350 - GENETICS
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
- CHEM 0310 - ORGANIC CHEMISTRY 1 *
- CHEM 0320 - ORGANIC CHEMISTRY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA **
- CS 0445 - DATA STRUCTURES
- CS 0441 - DISCRETE STRUCTURES FOR CS
Note:

* CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2 are pre-requisites to taking CHEM 0310.

** Students without a background in programming will be encouraged to take CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING prior to taking CS 0401.

Upper Level Courses (22 credits)

- BIOSC 1540 - COMPUTATIONAL BIOLOGY

- BIOSC 1640 - BIOINFORMATICS SOFTWARE DESIGN or
  - CS 1640 - BIOINFORMATICS SOFTWARE DESIGN

- BIOSC 1901 - INDEPENDENT STUDY (total of four credits)* or
  - CS 1950 - DIRECTED RESEARCH (total of four credits)*

Electives (12 credits)

Electives (12 credits) to be chosen from an approved list of courses in Statistics, Chemistry, Biological Sciences and/or Computer Science. With the approval of the Bioinformatics Program Committee, the student may take electives in other departments.

Note:

* Undergraduate Research is taken over multiple terms for variable credit. Four credits of undergraduate research are required for the major. Research can begin as early as the sophomore year and must be approved by Kirk Pruhs in the Department of Computer Science, or Paula Grabowski in the Department of Biological Sciences.

Capstone experience

BIOSC 1640 and CS 1640 satisfy the bioinformatics major capstone experience requirement. Capstone request must be made to Kirk Pruhs in the Department of Computer Science.

Additional requirements and restrictions

- Bioinformatics majors who have completed CS 0401 may not enroll in CS 0004, CS 0007 or CS 0110
- BIOSC 1000 cannot be substituted for BIOSC 1810.
- CHEM 1810 can only be substituted for BIOSC 1810 if it is not possible for the student to schedule BIOSC 1810
- Students must complete at least one W-course in the major
- A grade of C or better is required in each of the core and upper level courses that are to count toward the major.
- This requirement also satisfies the Dietrich School requirement of a minimum GPA of 2.0 in major courses
- Elective courses for the major must be completed with a grade of C or better. If a C-or lower is earned in an elective course for the major and is not repeated, the course will be used to calculate the overall GPA but will not be counted toward the 32 credits required for the major.
- Students must earn a minimum GPA of 2.0 in the required chemistry and mathematics courses.
- No Bioinformatics major courses may be taken on an S/NC basis
- Due to its interdisciplinary nature, the Bioinformatics major does not require a related area

Honors major requirements
Honors in Bioinformatics is granted if, in addition to fulfilling all requirements for the major, the student:

- completes three semesters (3 x 2 credits) or the equivalent (summer counts as a semester equivalent) of undergraduate research together with a written honors thesis presented in the last semester of the senior year;
- maintains a GPA of 3.5 or above in all Bioinformatics major courses; and
- maintains an overall GPA of 3.25 or above.

Approved elective course list

**Biological Sciences**

- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1545 - THE MATHEMATICS OF BIOLOGY
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1940 - MOLECULAR BIOLOGY
- BIOSC 1950 - MOLECULAR GENETICS LABORATORY

**Computer Science**

- CS 1510 - ALGORITHM DESIGN
- CS 1520 - PROGRAMMING LANGUAGE FOR WEB APPLICATIONS
- CS 1555 - DATABASE MANAGEMENT SYSTEMS
- CS 1566 - INTRODUCTION COMPUTER GRAPHICS
- CS 1571 - INTRODUCTION TO ARTIFICIAL INTELLIGENCE
- CS 1645 - INTRODUCTION TO HIGH PERFORMANCE COMPUTING SYSTEMS

**Chemistry**

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2

**Statistics**

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

**Biological Sciences, BS**

**Biological Sciences Requirements**

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.
- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including
• CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
  o CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
  o MATH 0220 Analytic Geometry and Calculus 1,
  o Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
  o Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.
• A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.
• The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
• Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.
• University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 and labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

• CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
• CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
• CHEM 0310 - ORGANIC CHEMISTRY 1
• CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
• CHEM 0320 - ORGANIC CHEMISTRY 2
• CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
• STAT 1000 - APPLIED STATISTICAL METHODS

• PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
• PHYS 0111 - INTRODUCTION TO PHYSICS 2
  or
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Biology Course Requirements

Completion of the biological sciences major requires a total of 32 credits in biology, including

17 credits of required courses:

• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
A minimum of 15 credits of upper-division courses

A minimum of 15 credits of upper-division courses, which must include two labs or one lab and one field course or one lab and BIOSC 1545 - THE MATHEMATICS OF BIOLOGY. Students may begin to take elective courses when they have completed the appropriate prerequisite courses; for example, some upper-division courses have only 0150 and 0160 as prerequisites whereas others have additional requirements. As part of these electives, students who declare a major in Biological Sciences on or after September 14, 2009 must complete one higher-level 3-credit BIOSC lecture class, defined as a course with prerequisites beyond BIOSC 0150 and BIOSC 0160.

Ecology and Evolution, BS

Biological Sciences Requirements

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.
- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including
  - CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
    - CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
    - MATH 0220 Analytic Geometry and Calculus 1,
    - Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
    - Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.
- A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.
- The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
- Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.
- University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 and labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

- CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
• CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
• CHEM 0310 - ORGANIC CHEMISTRY 1
• CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
• CHEM 0320 - ORGANIC CHEMISTRY 2
• CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
• STAT 1000 - APPLIED STATISTICAL METHODS

• PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
• PHYS 0111 - INTRODUCTION TO PHYSICS 2
or
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:
Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Biologicaly Course Requirements

Completion of the ecology and evolution major requires a total of 32 credits in biology, including

26 credits of required courses:

• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
• BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
• BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2

• BIOSC 0350 - GENETICS or
• BIOSC 0355 - UHC GENETICS

• BIOSC 0370 - ECOLOGY
• BIOSC 0390 - ECOLOGY LABORATORY
• BIOSC 1000 - BIOCHEMISTRY
• BIOSC 1130 - EVOLUTION
• BIOSC 1320 - POPULATION BIOLOGY
• BIOSC 1550 - ECOLOGY AND EVOLUTION SEMINAR

• BIOSC 0391 - ECOLOGY LABORATORY WRITING PRACTICUM or
• BIOSC 1551 - ECOLOGY AND EVOLUTION SEMINAR WRITING PRACTICUM

A 3-credit upper-division field course

A 3-credit upper-division field course offered during the summer at the Pymatuning Laboratory of Ecology (PLE) or an equivalent site pre-approved by the department.

An additional 3 credits of upper-division elective courses
Microbiology, BS

Biological Sciences Requirements

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.
- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including
  - CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
    - CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
    - MATH 0220 Analytic Geometry and Calculus 1,
    - Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
    - Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.
- A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.
- The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
- Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.
- University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

- CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
- CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- STAT 1000 - APPLIED STATISTICAL METHODS
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
  or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:
Biological Course Requirements

Completion of the microbiology major requires a total of 32 credits in biology, including

26 credits of required courses:

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0350 - GENETICS or
- BIOSC 0355 - UHC GENETICS
- BIOSC 0370 - ECOLOGY or
- BIOSC 1130 - EVOLUTION
- BIOSC 1000 - BIOCHEMISTRY or
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION and
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- BIOSC 1570 - MICROBIOLOGY SEMINAR
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1860 - MICROBIOLOGY LABORATORY
- BIOSC 1865 - MICROBIAL PHYSIOLOGY

One of the following:

- BIOSC 1291 - EXPERIMENTAL GENETIC ENGINEERING WRITNG PRACTICUM
- BIOSC 1571 - MICROBIOLOGY SEMINAR WRITNG PRACTICUM
- BIOSC 1741 - VIROLOGY LABORATORY WRITING PRACTICUM
- BIOSC 1861 - MICROBIOLOGY LABORATORY WRITING PRACTICUM

In addition, seven BIOSC credits must be taken

In addition, seven BIOSC credits must be taken. If one of these courses is a field course, then only six credits are required. These are chosen from a selected list of microbiology electives, including at least one lab or field course. Students may begin to take elective courses when they have completed the appropriate prerequisite courses.

Molecular Biology - Biochemistry Track, BS

Biological Sciences Requirements

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:
A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.

Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
- CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
- MATH 0220 Analytic Geometry and Calculus 1,
- Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
- Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.

A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.

The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.

Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.

University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 and labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

- CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
- CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- STAT 1000 - APPLIED STATISTICAL METHODS
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2 or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Biological Science Course Requirements

Completion of the molecular biology major requires a total of 32 credits in biology, including

20 credits of required courses:
In addition, students select one upper-division elective

In addition, students select one upper-division elective (either BIOSC 0370 - ECOLOGY or any BIOSC course numbered above 1010) and complete the course work in one of the following two tracks:

Biochemistry Track

- BIOSC 1470 - BIOPHYSICAL CHEMISTRY or
- CHEM 1410 - PHYSICAL CHEMISTRY 1 and
- CHEM 1420 - PHYSICAL CHEMISTRY 2

- BIOSC 1580 - BIOCHEMISTRY SEMINAR
- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1950 - MOLECULAR GENETICS LABORATORY

- BIOSC 1581 - BIOCHEMISTRY SEMINAR WRITING PRACTICUM or
- BIOSC 1831 - BIOCHEMISTRY LABORATORY WRITING PRACTICUM or
- BIOSC 1951 - MOLECULAR GENETICS LABORATORY WRITING PRACTICUM (Biochemistry)

Molecular Biology - Cell and Developmental Biology Track, BS

Biological Sciences Requirements

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.
- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including
  - CHEM 0110 and CHEM 0120 General Chemistry 1 and 2, which includes the labs,
    - CHEM 0310, CHEM 0320, and CHEM 0345 Organic Chemistry 1 and 2 lecture and lab,
    - MATH 0220 Analytic Geometry and Calculus 1,
    - Either MATH 0230 Analytic Geometry and Calculus 2 or STAT 1000 Applied Statistical Methods, and
    - Either the algebra-based physics, PHYS 0110 and 0111 Introduction to Physics 1 and 2, or the calculus-based physics, PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2.
- A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The S/NC option (formerly the S/N option) may be used for only one biology course and for any of the co-requisite courses.
- The Dietrich School required related area is fulfilled by the co-requisite courses in chemistry. Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
• Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.

• University Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150, 0050, 0160, and 0060 Foundations of Biology 1 and 2 and labs.

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

• CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
• CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
• CHEM 0310 - ORGANIC CHEMISTRY 1
• CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
• CHEM 0320 - ORGANIC CHEMISTRY 2
• CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
• STAT 1000 - APPLIED STATISTICAL METHODS
• PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
• PHYS 0111 - INTRODUCTION TO PHYSICS 2
  or
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Biological Science Course Requirements

Completion of the molecular biology major requires a total of 32 credits in biology, including

20 credits of required courses:

• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
• BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
• BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
• BIOSC 0350 - GENETICS or
• BIOSC 0355 - UHC GENETICS
• BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
• BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
• BIOSC 1940 - MOLECULAR BIOLOGY
In addition, students select one upper-division elective

In addition, students select one upper-division elective (either BIOSC 0370 - ECOLOGY or any BIOSC course numbered above 1010) and complete the course work in one of the following two tracks:

**Cell and Developmental Biology Track**

- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1520 - DEVELOPMENTAL BIOLOGY
- BIOSC 1560 - CELL AND DEVELOPMENTAL BIOLOGY SEMINAR

- BIOSC 1511 - CELL BIOLOGY LABORATORY WRITING PRACTICUM or
- BIOSC 1531 - DEVELOPMENTAL BIOLOGY LABORATORY WRITING PRACTICUM or
- BIOSC 1561 - CELL DEVELOPMENTAL BIOLOGY SEMINAR WRITNG PRACTICUM or
- BIOSC 1831 - BIOCHEMISTRY LABORATORY WRITING PRACTICUM or
- BIOSC 1951 - MOLECULAR GENETICS LABORATORY WRITING PRACTICUM (Cell and Developmental Biology)

Two laboratories selected from among

- BIOSC 1510 - CELL BIOLOGY LABORATORY
- BIOSC 1530 - DEVELOPMENTAL BIOLOGY LABORATORY
- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1950 - MOLECULAR GENETICS LABORATORY

**Life Sciences Research Certificate**

The goals of this certificate program are to enable students to: understand and apply key concepts in designing and performing authentic experimental research; learn and practice good science communication, ethics and responsible conduct in research; develop research practices and critical thinking skills needed for a career in research; and compile evidence of rigorous training in research for applicants to jobs and graduate programs. Students must complete four terms of inquiry-based research in lab or field settings under faculty mentorship, overseen by Research Certificate Oversight Committee, two courses about research methods, three courses focusing on quantitative skills, one course in history and philosophy of science, and written and oral presentations of their research.

**Application Requirements**

**Prerequisites**

1. Introductory Biology. Completed two terms of introductory biology, with a grade of C [not C-) or above. Transfers or students with AP/IB credit may be exempt from part of this requirement.
2. Completed 2 credits of mentored research in a Certificate-approved faculty laboratory (one term; min. 140 hrs.; BIOSC 1903/BIOSC 1904 or NROSCI 1901/NROSCI 1961 or equivalent) and have a letter of support from the faculty sponsor.
3. GPA. If students have a cumulative GPA of 2.75 or lower after completing the initial term of research, the faculty sponsor must comment in their letter of support on whether the student is likely to meet the rigorous demands of the Certificate.

**Bio 1: Choose one (each totals 4 cr.)**

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 or
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1 and
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 or
• BIOSC 0715 - UHC FOUNDATIONS OF BIOLOGY 1

• BIOSC 0190 - DISCOVERING LIFE: AN INTRODUCTION TO THE BIOLOGICAL WORLD 1

Bio 2: Choose one (each totals 4 cr.)

• BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2 or
• BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2

and

• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 or
• BIOSC 0716 - UHC FOUNDATIONS OF BIOLOGY 2

• BIOSC 0191 - DISCOVERING LIFE: AN INTRODUCTION TO THE BIOLOGICAL WORLD 2

Requirements to Complete the Certificate

Mentored Research in Life Sciences

• Components of mentored research projects: Formulation of hypotheses, experimental design, data collection, data interpretation, drawing conclusions supported by the data. Presentation of research findings, understanding the pertinent scientific literature, developing new knowledge, and development of a path towards research independence.

• Research credit requirements: Three additional terms (each term; min. 140 hours.; BIOSC 1903/BIOSC 1904 or NROSCI 1901/NROSCI 1961 or equivalent.) of research for a total of at least 8 credits or credit equivalents. BIOSC 1903/BIOSC 1904 and NROSCI 1901/NROSCI 1961 must be approved and credits awarded according to departmental procedures. The final 2 terms of research must be with the same faculty mentor. Research equivalents must be approved by the RCOC.

• Pre-planning and Reporting for each Term: Pre-planning and Reporting: In the last week of classes before the next term of research (see B above), students must submit a 1-2 page report and prospectus summarizing accomplishments and aims for the next term. RCOC determines whether the research can count towards the Certificate before the end of the add/drop period. Oversight: Reporting documents must be co-signed by the faculty sponsor (and co-sponsor if any).

• Choice of Research Faculty: Research-active faculty in the Departments of Biological Sciences or Neuroscience may sponsor students for research in their labs. Faculty sponsors in other A&S departments or other University of Pittsburgh schools must be approved by RCOC.

• Optional Off-campus Research Term: One term of off-campus research may be approved (e.g. summer fellowship or study abroad). Submit in advance a 1-page description to RCOC of the project and the research environment plus a letter from the research advisor confirming commitment to the ≥140 hours of research activity.

Quantitative Skills Courses - Statistics and Mathematics

Complete three courses from this list (9 credits).

• BIOSC 1545 - THE MATHEMATICS OF BIOLOGY
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0280 - INTRO TO MATRICES & LINEAR ALG
• MATH 0290 - DIFFERENTIAL EQUATIONS
• MATH 1380 - MATH BIOLOGY
• STAT 1000 - APPLIED STATISTICAL METHODS
• STAT 1221 - APPLIED REGRESSION
• STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
• STAT 1231 - APPLIED EXPERIMENTAL DESIGN
• STAT 1241 - APPLIED SAMPLING
• STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
Graduate level options for the certificate:

- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS 1
- BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING
- BIOST 2012 - BAYESIAN & EMPIRICAL BAYES STAT

History and Philosophy of Science Courses

Complete one course from this list (3 credits).

- HPS 0427 - MYTH AND SCIENCE
- HPS 0437 - DARWINISM AND ITS CRITICS
- HPS 0430 - GALILEO AND CREATION OF MODERN SCIENCE
- HPS 0515 - MAGIC, MEDICINE AND SCIENCE or
- HIST 0089 - MAGIC, MEDICINE AND SCIENCE
- HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING
- HPS 1620 - PHILOSOPHY OF BIOLOGY
- HPS 1625 - PHILOSOPHY OF MEDICINE
- HPS 1508 - CLASSICS IN HISTORY OF SCIENCE
- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE
- HPS 1670 - PHILOSOPHY OF NEUROSCIENCE

Research Methods Courses

- Complete two Research Methods courses, one in research communication and one in research mechanics. It is recommended that the research courses be in the student’s major department.
- Be enrolled in the Certificate and performing research in a Certificate-approved lab during the same term as enrolled in these courses. Courses may be taken in any order. Substitution of other Research Methods courses must be pre-approved by RCOC.
- BIOSC 1906 - RESEARCH COMMUNICATION: COMMUNICATION IN LIFE SCIENCES RESEARCH
- BIOSC 1907 - RESEARCH DECONSTRUCTION: UNDER THE HOOD OF LIFE SCIENCES RESEARCH
- NROSCI 2014 - SPEAKING OF SCIENCE

Presenting Research

The student must present their research at two scientific meetings or symposia, at least one venue must be outside of major and research Departments. Ex.: Honors College Research Fair, Science20xx, Duquesne Summer Undergraduate Research Symposium, regional or national scientific meeting. Presentation and abstract must be designed and delivered by the student and approved by the research faculty advisor and RCOC. The research abstract and a copy of poster or talk must be submitted to RCOC.

Research paper

The student will submit a manuscript describing the research completed in the final research experience spanning at least two consecutive terms. This will be in the form of a research manuscript. The paper must be submitted to the faculty sponsor and the RCOC by the last week of classes before finals week. The paper must be approved by the faculty sponsor and RCOC. The same final research paper may be considered for satisfying both Departmental Honors and the Research Certificate, provided it fulfills other requirements of the Department.

Portfolio Documentation
Upon registration for the Certificate, students must start (and regularly update) their electronic Portfolio, documenting their progress towards Certificate completion. Each proposal, presentation, research report, and other Certificate-related materials must be collated in the Portfolio. The Portfolio allows students, faculty, and advisors to review progress towards the Certificate, and provides coherent documentation of research proficiency when applying for employment or graduate school admission.

GPA Requirements

The student must remain in good academic standing (minimum cumulative GPA 2.00); if students have a cumulative GPA of 2.75 or lower after completing the initial term of research, the faculty sponsor for that research must comment in writing their letter of support on whether the student is likely to meet the rigorous demands of the Certificate.

Advising

Majors in the Departments of Biological Sciences or Neuroscience will be advised through their departments. Students outside of these majors will be assigned an advisor within one of these majors.

Students conducting research with a faculty member who does not work in the Departments of Biological Sciences or Neuroscience must have their research faculty sponsor complete a Faculty Mentor Application unless they are a CNUP faculty member. Students must submit the faculty mentor application with their application for the certificate.

Department of Chemistry

Chemistry, as a central science, is involved in natural processes occurring in living things, the earth, the oceans, and the atmosphere. The chemical industry provides materials to feed, clothe, and house mankind; drugs to combat disease; and processes to provide energy. Chemistry plays a role in high technology fields such as molecular biology, microelectronics, drug design, and ceramics.

The American Chemical Society (ACS)-certified chemistry degree includes core chemistry courses and electives. Special options are available for students with specific interests in combining chemistry with other subjects, such as bioscience, business, communication, computer science, education, and polymer science. These options allow students to take additional courses that provide an in-depth introduction to the subject of choice and are directly relevant to individual career goals.

The Bachelor of Science degree in chemistry prepares students for a career in business or industry or for advanced study in chemistry. Combined with core biology courses, the chemistry major is frequently selected as the preferred major for admission to the graduate health professions, including medical and dental school. In combination with an education option, the chemistry major prepares students for a certification program leading to a career in secondary science teaching. Chemists at all levels of training have a wide variety of industrial and corporate career opportunities in agricultural chemistry, food chemistry, environmental science, petrochemicals, pharmaceuticals, semiconductors and electronics, and fine chemicals, as well as in basic research. Many opportunities are available for chemistry majors with skills in business (sales, technical marketing, management), communications (technical writing, journalism), and computer science (programming, database management, information science). For more information on the ACS-certified degree and degree options as well as the Department of Chemistry, see www.chem.pitt.edu.

Chemistry, BS

Major Requirements

The requirements for the ACS-certified major in chemistry are as follows:

These chemistry courses must be taken:

- CHEM 0110 - GENERAL CHEMISTRY 1 and
- CHEM 0120 - GENERAL CHEMISTRY 2
  or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1 and
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
• CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
• CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB

• CHEM 0310 - ORGANIC CHEMISTRY 1 and
• CHEM 0320 - ORGANIC CHEMISTRY 2
or
• CHEM 0730 - UHC ORGANIC CHEMISTRY 1 and
• CHEM 0740 - UHC ORGANIC CHEMISTRY 2

• CHEM 0345 - ORGANIC LABORATORY
• CHEM 1130 - INORGANIC CHEMISTRY
• CHEM 1140 - ADVANCED INORGANIC LABORATORY
• CHEM 1250 - INSTRUMENTAL ANALYSIS
• CHEM 1255 - INSTRUMENTAL ANALYSIS LAB
• CHEM 1410 - PHYSICAL CHEMISTRY 1
• CHEM 1420 - PHYSICAL CHEMISTRY 2
• CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
• CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2

Corequisite courses must be taken in math and physics:

• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
• PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING

Electives

At least two credits must be completed in the following list of approved chemistry or science courses.

For American Chemical Society (ACS) certification, students must complete their electives in a biochemistry course - BIOSC 1000 - BIOCHEMISTRY or BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION.

Approved elective courses

• BIOSC 0350 - GENETICS
• BIOSC 0355 - UHC GENETICS
• BIOSC 0370 - ECOLOGY
• BIOSC 1000 - BIOCHEMISTRY
• BIOSC 1500 - CELL BIOLOGY
• BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
• BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
• BIOSC 1830 - BIOCHEMISTRY LABORATORY
• CHEM 1260 - INTERMEDIATE ANALYTICAL CHEMISTRY
• CHEM 1310 - SYNTHETIC ORGANIC CHEMISTRY
• CHEM 1380 - TECHNIQUES OF ORGANIC RESEARCH
• CHEM 1460 - INTRO MODERN COMPUTATIONAL SCI
• CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
The chemistry major must earn a 2.00 GPA in all departmental courses. Chemistry majors may use the S/NC option in all required physics and mathematics courses and in CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2.

Note:

Students who complete the requirements of the chemistry major automatically complete the requirements for a related area in mathematics. To graduate with departmental honors, the student must have an overall GPA of at least 3.00, have a GPA of at least 3.25 in required chemistry courses, earn 2 credits in CHEM 1710 - UNDERGRADUATE RESEARCH, and earn 1 credit in CHEM 1711 - UNDGR RESEARCH WRITING PRACTICUM.

The chemistry department offers options in bioscience, business, communications, photonics, education, and material science. Each chemistry option allows for a waiver of CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2, CHEM 1140 - ADVANCED INORGANIC LABORATORY, and the 2-credit science elective required for the ACS-certified degree. Specific information on the options program is available from the department.

Chemistry Minor

Requirements

Due to the integral role that chemistry plays in many other majors (including life sciences, physical sciences, and engineering), students wishing to receive formal recognition of their work in chemistry may choose to pursue the official minor as outlined below:

18-19 Credits

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
  or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
  or
- CHEM 0760 - UHC GENERAL CHEMISTRY FOR ENGINEERS 1
- CHEM 0770 - UHC GENERAL CHEMISTRY FOR ENGINEERS 2
  or
- CHEM 0960 - GENERAL CHEM FOR ENGINEERS 1
Three of the following LECTURE courses:

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 1130 - INORGANIC CHEMISTRY
- CHEM 1250 - INSTRUMENTAL ANALYSIS
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- BIOSC 1000 - BIOCHEMISTRY or
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION

Two credits of the following LABORATORY courses:

- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB
- CHEM 0345 - ORGANIC LABORATORY
- CHEM 1140 - ADVANCED INORGANIC LABORATORY
- CHEM 1255 - INSTRUMENTAL ANALYSIS LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
- CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2

Department of Classics

Classics is an interdisciplinary program devoted to the study of the ancient Greek and Roman civilizations. Students may focus on the classics language track or the classical civilization track. Besides the sequences in the Greek, Latin, and Sanskrit languages, the department offers courses in Greek and Roman literature (including comparative literature), mythology, linguistics, history, culture, and philosophy.

The classics language track requires study of texts in the original languages, while the classical civilization track makes use of these same texts in English translations. Both classics tracks qualify graduates for appropriate careers in teaching, but can also be used as preparation for nonclassical academic and professional disciplines such as business, law, and medicine. The study of classics provides a background for the study of Romance and other languages, assists in the proper use of English, and underlies any understanding of Western civilization. For more information on the major and the Department of Classics, see http://www.classics.pitt.edu/.

Classics - The Classical Civilization Track, BA

Required courses

- CLASS 0010 - GREEK CIVILIZATION
- CLASS 0020 - ROMAN CIVILIZATION

Two of the following courses

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE
- LATIN 0011 - BEGINNING LATIN 1
Courses in the area of concentration

Students must complete three CLASS courses in the area of concentration they have chosen. These courses should be selected in consultation with the major advisor.

Electives

Students must complete one elective course in three of the following areas.

- Ancient Archeology
- Art
- Culture
- History
- Language
- Literature
- Philosophy
- Science

Classics major general rules and requirements

Students have combined a major in classics with a second major or certificate such as anthropology, biology, communication, computer science, history, history of art and architecture, history and philosophy of science, nonclassical languages and literatures, psychology, and women's studies. Students planning graduate study in classics may be required to obtain reading competency in German, French, or Italian. Such study might begin during the course of completing the undergraduate major or may be undertaken in graduate school.

Rules and requirements

- The Classics major requires a minimum of 30 credits, distributed as directed by the chosen track.
- Students must have an overall 2.00 GPA in courses counting toward the major.
- No more than two courses in the Greek or Latin language tracks may be taken with the S/NC grade option. No more than four courses in Classical Civilization track may be taken with the S/NC grade option.
- Credit by examination is generally not granted, except for placement in the language sequences. The department will consider students with special circumstances.
- Students may either enroll in one of the W courses offered by the department or arrange with the instructor of an upper-level course for the addition of one credit of writing practicum.
- For the required related area, the Department of Classics recommends other departments' courses in ancient Greek and Roman archaeology and art, history, linguistics, literature, philosophy, religion, and science.
- Majors who have reached the end of the junior year with a GPA in departmental courses of 3.50 or higher may, in conjunction with a senior-level course, write an honors essay. Acceptance of the essay by the department will qualify the student for graduating with departmental honors in Classics.

Classics - The Classics Language Track: Greek and Latin, BA

Greek language track - required courses

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
Greek language track: Select two of the following GREEK courses.

- GREEK 1300 - GREEK AUTHORS 1
- GREEK 1302 - GREEK AUTHORS 2
- GREEK 1420 - ADVANCED READINGS IN GREEK PHILOSOPHY
- GREEK 1902 - DIRECTED STUDY FOR UNDERGRADS

Latin language track: Select two of the following LATIN courses.

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Latin language track - required courses

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE
- LATIN 1700 - LATIN PROSE COMPOSITION

Latin language track: Select two of the following LATIN courses.

- LATIN 1300 - LATIN AUTHORS 1
- LATIN 1302 - LATIN AUTHORS 2
- LATIN 1400 - ADVANCED READINGS IN LATIN EPIC
- LATIN 1902 - DIRECTED STUDY FOR UNDERGRADS

Latin language track: Select two of the following GREEK courses.

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE

Classics major general rules and requirements

Students have combined a major in classics with a second major or certificate such as anthropology, biology, communication, computer science, history, history of art and architecture, history and philosophy of science, nonclassical languages and literatures, psychology, and women’s studies. Students planning graduate study in classics may be required to obtain reading competency in German, French, or Italian. Such study might begin during the course of completing the undergraduate major or may be undertaken in graduate school.

Rules and requirements

- The Classics major requires a minimum of 30 credits, distributed as directed by the chosen track.
Students must have an overall 2.00 GPA in courses counting toward the major.
No more than two courses in the Greek or Latin language tracks may be taken with the S/NC grade option. No more than four courses in Classical Civilization track may be taken with the S/NC grade option.
Credit by examination is generally not granted, except for placement in the language sequences. The department will consider students with special circumstances.
Students may either enroll in one of the W courses offered by the department or arrange with the instructor of an upper-level course for the addition of one credit of writing practicum.
For the required related area, the Department of Classics recommends other departments' courses in ancient Greek and Roman archaeology and art, history, linguistics, literature, philosophy, religion, and science.
Majors who have reached the end of the junior year with a GPA in departmental courses of 3.50 or higher may, in conjunction with a senior-level course, write an honors essay. Acceptance of the essay by the department will qualify the student for graduating with departmental honors in Classics.

Ancient Greek Minor

Students pursuing this minor must complete at least 15 credits of coursework as follows.

Language courses

Students must complete following courses.

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE

Advanced course

After completing the intermediate course sequence, students must select one of the following courses.

- GREEK 1300 - GREEK AUTHORS 1
- GREEK 1301 - GREEK AUTHORS 1-WRITING PRACTICUM
- GREEK 1302 - GREEK AUTHORS 2
- GREEK 1303 - GREEK AUTHORS 2-WRITING PRACTICUM
- GREEK 1400 - ADVANCED READINGS IN GREEK EPIC
- GREEK 1402 - ADVANCED READINGS IN GREEK TRAGEDY
- GREEK 1416 - ADVANCED READINGS IN GREEK HISTORIANS
- GREEK 1418 - ADVANCED READINGS IN GREEK ORATORY
- GREEK 1420 - ADVANCED READINGS IN GREEK PHILOSOPHY
- GREEK 1700 - GREEK PROSE COMPOSITION

Classical Civilization Minor

Students must complete at least 15 credits of coursework as follows.

Survey course in Greek civilization or history

One of the following courses.

- CLASS 0010 - GREEK CIVILIZATION
- CLASS 1210 - GREEK HISTORY
Survey course in Roman civilization or history

One of the following courses.

- CLASS 0020 - ROMAN CIVILIZATION
- CLASS 1220 - ROMAN HISTORY
- HIST 1781 - ROMAN HISTORY

Literary or textual course

Any Classics, Greek, or Latin course with a literary or textual basis.

Electives

Any two courses in Classics, Greek, or Latin.

**Classics Minor - Classical Civilization Track (minimal languages)**

**Effective Spring 2019 this program will no longer be active. Students currently enrolled in the Classics Minor will have the option to remain in the minor or declare one of the new minors (Ancient Greek, Latin or Classical Civilization). Students who choose to complete the Classics Minor must do so by Spring 2019.**

**Classics Minor Requirements**

The department offers two types of minor tracks, one in classics (Greek and/or Latin), and one in classical civilization. The classics minor consists exclusively of courses in Greek and/or Latin. For the classical civilization minor, no language courses are required, although language courses may be counted if the student wishes.

For advice on alternative plans, please consult with the undergraduate advisor.

**Classical Civilization Track (minimal languages)**

Fifteen credits in classics, Greek, or Latin courses, including at least one survey course in Greek civilization or history (3 credits), one survey course in Roman civilization or history (3 credits), and one course with a literary or textual component (3 credits). Any Greek or Latin course may count toward the literary/textual requirement.

**Classics Minor - Classics Track**

**Effective Spring 2019 this program will no longer be active. Students currently enrolled in the Classics Minor will have the option to**
remain in the minor or declare one of the new minors (Ancient Greek, Latin or Classical Civilization). Students who choose to complete the Classics Minor must do so by Spring 2019.

Classics Minor Requirements

The department offers two types of minor tracks, one in classics (Greek and/or Latin), and one in classical civilization. The classics minor consists exclusively of courses in Greek and/or Latin. For the classical civilization minor, no language courses are required, although language courses may be counted if the student wishes.

For advice on alternative plans, please consult with the undergraduate advisor.

Classics Track

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE
  or
- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE

Latin Minor

Students pursuing this minor must complete at least 15 credits of coursework as follows.

Language courses

Students must complete the following courses.

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Advanced course

After completing the intermediate course sequence, students must select one of the following courses.

- LATIN 1300 - LATIN AUTHORS 1
- LATIN 1301 - LATIN AUTHORS 1: WRITING PRACTICUM
- LATIN 1302 - LATIN AUTHORS 2
- LATIN 1303 - LATIN AUTHORS 2: WRITING PRACTICUM
- LATIN 1400 - ADVANCED READINGS IN LATIN EPIC
- LATIN 1402 - ADV READINGS IN LATIN DRAMA
- LATIN 1406 - ADVANCED READINGS IN LATIN LYRIC
Department of Communication

The study of communication is one of the oldest but still most contemporary of disciplines. The field examines important questions about society, communication, and persuasion in a way that combines the best of the ancient liberal arts tradition with the critical attention to the newest media technologies. In courses such as persuasion, argument, interpersonal communication, political rhetoric, rhetoric of science, nonverbal communication, history of media, media criticism, and television and society, our faculty offer diverse views on the roles of communication, media, and rhetoric in our lives.

A degree in communication is not vocational in design, although many of the Department of Communication's graduates hold important positions in industry, education, the media, government, law, and various other professions. An understanding of communication as a human activity, as defined above, makes the department's graduates attractive candidates when seeking employment or obtaining admission to graduate programs. For more information on the major or the Department of Communication, see www.comm.pitt.edu.

Communication, BA

Major Requirements

The communication: rhetoric and communication major requires the completion of 33 credits with a grade of C or better in each course (if the course is to count toward the major). The distribution of courses is

1. Three core courses (all required). Each is a prerequisite for a specific upper-level course.
   - COMMRC 0300 - COMMUNICATION PROCESS
   - COMMRC 0310 - RHETORICAL PROCESS
   - COMMRC 0320 - MASS COMMUNICATION PROCESS

2. Two skills courses
   - COMMRC 0520 - PUBLIC SPEAKING
   one of the following:
     - COMMRC 0500 - ARGUMENT
     - COMMRC 0510 - DEBATE
     - COMMRC 0530 - INTERPERSONAL COMMUNICATION
     - COMMRC 0540 - DISCUSSION
     - COMMRC 0550 - SPEECH COMPOSITION

3. Six upper-level courses that focus on specific topics or contexts of communication

Since these courses require substantive research and writing components, completion of the composition requirement is a prerequisite.
   - COMMRC 1101 - EVIDENCE
   - COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
   - COMMRC 1103 - RHETORIC AND CULTURE
Note:

*This course is offered by the School of Health and Rehabilitation Science

The major also has the following rules and requirements:

- The Department of Communication offers three special project courses (not required). COMMRC 1710 - SENIOR THESIS IN COMMUNICATION requires a GPA of 3.00 for enrollment and can be counted toward the major; COMMRC 1900 - COMMUNICATION INTERNSHIP requires a GPA of 2.75, and COMMRC 1901 - INDEPENDENT STUDY requires a GPA of 3.00. These two courses can fulfill elective credits.
- Although any department could be a related area, past majors often have selected political science, sociology, business, English writing, psychology, anthropology, or history. Students who plan to do graduate work in communication are advised to do additional work in a second language.

Department of Computer Science

Students who were admitted for the fall 2017 term or later and who are interested in pursuing a major in Computer Science must pursue the major through the School of Computing and Information.

Department of East Asian Languages and Literatures

The Department of East Asian Languages and Literatures offers courses in the language, literature, film, linguistics, and culture of China, Japan, and Korea. An undergraduate major is available in either Chinese or Japanese. There is a multiyear sequence of courses in the modern standard languages.
of China, Japan, and Korea, plus a wide variety of offerings (ranging from introductory to specialized) designed to illuminate various facets of these Asian civilizations. Students whose interests range broadly across the civilization of East Asia may alternatively develop an interdisciplinary studies major or take advantage of the Asian Studies Certificate program. The departmental curriculum is composed of three main categories:

- courses designed to develop competence in the four skills (speaking, listening, reading, writing) of the Chinese, Japanese, or Korean language, plus courses for advanced study in Chinese and Japanese;
- courses taught in English and focused on the mainstream of Chinese, Japanese, and Korean culture as reflected in literature, drama, and film; and
- courses for the advanced study of literature and linguistic analysis.

For more information on the Chinese and Japanese majors, courses in Korean language, or on the Department of East Asian Languages and Literatures, visit the Web site www.deall.pitt.edu/.

**Chinese, BA**

**Chinese and Japanese major requirements**

Students majoring in either Japanese or Chinese should follow these rules and requirements:

- The first-year language courses may be taken on an S/NC basis, but not the second-year language courses. In the third and fourth years, majors have the option of taking two additional courses S/NC, one of which may be an advanced language course.

**Course Requirements**

Students majoring in Chinese must take 55.

**Language: complete all of the following courses.**

- CHIN 0001 - FIRST YEAR CHINESE 1
- CHIN 0002 - FIRST YEAR CHINESE 2
- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2
- CHIN 1020 - THIRD YEAR CHINESE 1
- CHIN 1021 - THIRD YEAR CHINESE 2

Choose one of the following advanced language courses

- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1050 - FOURTH YEAR CHINESE 1
- CHIN 1051 - FOURTH YEAR CHINESE 2

**Literature, linguistics, culture, and film**

Choose one of the following courses.

- CHIN 1041 - LITERARY CHINESE 2 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE
- CHIN 1087 - INTRODUCTION TO CHINESE NARRATIVE
- CHIN 1090 - GREAT MINDS OF CHINA
Choose one of the following courses.

- CHIN 0071 - THEMES AND TYPES IN MODERN CHINESE LITERATURE AND CULTURE
- CHIN 0080 - CITY LIFE AND EAST ASIAN CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA

Choose two of the following courses.

- CHIN 0071 - THEMES AND TYPES IN MODERN CHINESE LITERATURE AND CULTURE
- CHIN 0080 - CITY LIFE AND EAST ASIAN CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1041 - LITERARY CHINESE 2 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1087 - INTRODUCTION TO CHINESE NARRATIVE
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA

Senior Project should be completed in the last spring term prior to graduation.

- CHIN 1999 - SENIOR PROJECT

Non-departmental course requirements; choose two of the following courses.

- ECON 1630 - ECONOMIC DEVELOPMENT OF CHINA
- HAA 0620 - ART OF CHINA
- HAA 0690 - CHINA: LANDSCAPE PAINTING & NATURE
- HAA 1605 - EARLY CHINA: POWER & IDENTITY
- HAA 1640 - 20TH CENTURY CHINESE ART
- HIST 1422 - LATE IMPERIAL CHINA

Japanese, BA

Chinese and Japanese major requirements

Students majoring in either Japanese or Chinese should follow these rules and requirements:

- The first-year language courses may be taken on an S/NC basis, but not the second-year language courses. In the third and fourth years, majors have the option of taking two additional courses S/NC , one of which may be an advanced language course.
Requirements

The Japanese major requires completion of 54 credits and a minimum GPA of 2.0 in departmental courses. This program includes elements from four categories: courses designed to develop competence in the four skills of the Japanese language; courses taught in English and focused on the mainstream of Japanese culture as reflected in literature, drama, film, and linguistics; courses related to Japan offered in other departments of the Dietrich School; and a capstone experience for graduating seniors.

Language

- JPNSE 0001 - FIRST YEAR JAPANESE 1
- JPNSE 0002 - FIRST YEAR JAPANESE 2
- JPNSE 0003 - SECOND YEAR JAPANESE 1
- JPNSE 0004 - SECOND YEAR JAPANESE 2
- JPNSE 1020 - THIRD YEAR JAPANESE 1
- JPNSE 1021 - THIRD YEAR JAPANESE 2

Advanced courses

- JPNSE 1040 - INTRODUCTION TO CLASSICAL JAPANESE 1
- JPNSE 1050 - FOURTH YEAR JAPANESE 1

Culture, Literature, and Linguistics

Complete the following course.

- JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE *

Choose one of the following courses.

- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE *
- JPNSE 1035 - PRAGMATICS OF JAPANESE *

Choose two of the following elective courses.

- JPNSE 0007 - JAPANESE CULTURE AND CIVILIZATION
- JPNSE 0080 - CITY LIFE AND EAST ASIAN CULTURE
- JPNSE 0081 - EAST ASIA IN THE WORLD
- JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL *
- JPNSE 1056 - JAPANESE LITERATURE AND THE WEST *
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA *
- JPNSE 1058 - WESTERNNS AND SAMURAI FILMS *
- JPNSE 1059 - JAPANESE LITERATURE ON SCREEN *
- JPNSE 1070 - WORLD OF JAPAN *
- JPNSE 1071 - THE WORLD OF JAPAN *
- JPNSE 1080 - GHOSTS, MASKS AND ACTORS *
- JPNSE 1081 - FORMS OF JAPANESE THEATRE *
- JPNSE 1085 - INTRODUCTION TO EAST ASIAN CINEMA *
- JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION
Related Field

Three Japan-related courses offered by departments in the Dietrich School of Arts and Sciences.

Capstone

- JPNSE 1999 - CAPSTONE PROJECT must be taken during the student's last spring term as an undergraduate.

Writing course

Japanese majors must complete JPNSE 1908 - DIRECTED WRITING FOR MAJORS in conjunction with one of the courses marked with an asterisk (*) in the culture, literature, and linguistics section.

Chinese Minor - Option A

Chinese language courses

- CHIN 0001 - FIRST YEAR CHINESE 1
- CHIN 0002 - FIRST YEAR CHINESE 2
- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2

Chinese literature or culture course

Choose one course from the following list.

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0080 - CITY LIFE AND EAST ASIAN CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1041 - LITERARY CHINESE 2 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA

Chinese Minor - Option B

Chinese language courses

- CHIN 0001 - FIRST YEAR CHINESE 1
- CHIN 0002 - FIRST YEAR CHINESE 2
Chinese literature course

Choose one course from the following list.

- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1041 - LITERARY CHINESE 2 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE
- CHIN 1090 - GREAT MINDS OF CHINA

Chinese culture courses

Choose two courses from the following list.

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0080 - CITY LIFE AND EAST ASIAN CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA

Chinese Minor - Option C

Chinese courses

Choose four courses from the following list.

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0080 - CITY LIFE AND EAST ASIAN CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1041 - LITERARY CHINESE 2 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA

Chinese-focused courses in other departments

Choose two courses from the following list.
Japanese Minor - Japanese Culture Option

Japanese Minor

Two options are available.

Japanese culture option (15 credits)

Five 3-credit courses from the following list.

- JPNSE 0007 - JAPANESE CULTURE AND CIVILIZATION
- JPNSE 0080 - CITY LIFE AND EAST ASIAN CULTURE
- JPNSE 0081 - EAST ASIA IN THE WORLD
- JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE
- JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL
- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
- JPNSE 1035 - PRAGMATICS OF JAPANESE
- JPNSE 1056 - JAPANESE LITERATURE AND THE WEST
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
- JPNSE 1058 - WESTERNS AND SAMURAI FILMS
- JPNSE 1059 - JAPANESE LITERATURE ON SCREEN
- JPNSE 1070 - WORLD OF JAPAN
- JPNSE 1071 - THE WORLD OF JAPAN
- JPNSE 1080 - GHOSTS, MASKS AND ACTORS
- JPNSE 1081 - FORMS OF JAPANESE THEATRE
- JPNSE 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION

Japanese Minor - Japanese Language and Culture Option

Japanese Minor

Two options are available.

Japanese language and culture option (19 credits)
Three 3-credit courses from the following list.

- JPNSE 0080 - CITY LIFE AND EAST ASIAN CULTURE
- JPNSE 0081 - EAST ASIA IN THE WORLD
- JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE
- JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL
- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
- JPNSE 1035 - PRAGMATICS OF JAPANESE
- JPNSE 1056 - JAPANESE LITERATURE AND THE WEST
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
- JPNSE 1058 - WESTERNS AND SAMURAI FILMS
- JPNSE 1059 - JAPANESE LITERATURE ON SCREEN
- JPNSE 1070 - WORLD OF JAPAN
- JPNSE 1071 - THE WORLD OF JAPAN
- JPNSE 1080 - GHOSTS, MASKS AND ACTORS
- JPNSE 1081 - FORMS OF JAPANESE THEATRE
- JPNSE 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION

Japanese Minor - Japanese Language Option

This option in the Japanese minor requires 23 credits for completion.

Required language courses

- JPNSE 0001 - FIRST YEAR JAPANESE 1
- JPNSE 0002 - FIRST YEAR JAPANESE 2
- JPNSE 0003 - SECOND YEAR JAPANESE 1
- JPNSE 0004 - SECOND YEAR JAPANESE 2

Additional Japanese course

Students must take another JPNSE course, taught in English and listed as a culture, film, linguistics, literature, or theatre course.

Korean Minor - Korean for Heritage Learners Option

Korean Minor

Two options are available.

Option 2: Korean for Heritage Learners (14 credits)

Two four-credit Korean language courses from the following list.

- KOREAN 0003 - SECOND YEAR KOREAN 1
Two three-credit course from the following list

- KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION
- KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT
- KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS
- KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE
- KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE
- KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA

**Korean Minor - Korean Option**

Korean Minor

Two options are available.

**Option 1: Korean (19 credits)**

Four four-credit Korean language courses from the following list.

- KOREAN 0001 - FIRST YEAR KOREAN 1
- KOREAN 0002 - FIRST YEAR KOREAN 2
- KOREAN 0003 - SECOND YEAR KOREAN 1
- KOREAN 0004 - SECOND YEAR KOREAN 2
- KOREAN 0005 - THIRD YEAR KOREAN 1
- KOREAN 0006 - THIRD YEAR KOREAN 2
- KOREAN 1050 - FOURTH YEAR KOREAN
- KOREAN 1051 - FOURTH YEAR KOREAN 2

One three-credit course from the following list

- KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION
- KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT
- KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS
- KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE
- KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE
- KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA

**Department of Economics**

A major in economics can be designed to serve a variety of purposes in the general liberal arts and can provide a background for postgraduate study in a number of professional schools. In addition, economics is frequently taken as a dual major with business at the undergraduate level. Among the graduate-level options which can be pursued by economics majors are law, business, professional-level training in economics, public administration, professional health management, hospital administration, urban affairs, and transportation studies. Because the range of interests among economics
majors is quite broad, students are encouraged to work out a plan of studies fitting their individual needs with a departmental advisor. For more information on the major, the minor, and the Department of Economics, see www.econ.pitt.edu.

Economics, BA

Economics Major Requirements

Majors may earn either a Bachelor of Science or a Bachelor of Arts in economics. The general rules and requirements as they apply to both degrees are as follows:

- A minimum overall 2.00 GPA is required in all economics courses for graduation with an economics major.
- A minimum grade of C is required in ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY, ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY, ECON 1100 - INTERMEDIATE MICROECONOMICS, ECON 1110 - INTERMEDIATE MACROECONOMICS, MATH 0120 and MATH 0220.
- No ECON course that counts toward the major may be taken on an S/NC basis.
- Students must complete at least one writing-intensive (W) course in the major.
- Credit by exam is usually not accepted, but students should check with the departmental advisor about the possibility.
- Majors may choose to complete a double major. Frequently chosen double majors include economics with computer science, history, and philosophy. Less frequently chosen are the sciences (notably biology), which could lead to graduate-level options in public health fields. Interested students have the option of completing a joint major with the mathematics department that will prepare students for a quantitatively oriented job in industry or for entering graduate school in applied mathematics, statistics, economics, business, or a related field (see mathematics major). A structured program leading to a joint Dietrich School /business major is available for students interested in combining economics with business (see Nondepartmental Dietrich School Majors for details).
- ECON 0800 - INTRODUCTION TO ECONOMICS is designed for non-majors are therefore do not count toward the major.
- Internship credits do not count toward the major. Students are encouraged to do internships.
- Only three credits of ECON 1901 through ECON 1903 may be applied toward the credits required for the major.
- Honors in economics is granted if, in addition to fulfilling all requirements for the economics major, the student meets the following criteria:
  - Maintenance of a GPA of 3.5 in all economics courses
  - Maintenance of an overall GPA of 3.5 or better
  - Completion of at least 3 credits in the economics proseminar series (ECON 1700-ECON 1730)

Requirements

Students seeking a BA in economics must earn at least 27 credits in economics courses including the following:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- Two Economics elective courses*
- Two ECON 1000-level elective courses which require ECON 1100 or ECON 1110 as prerequisites
- One ECON 1000-level elective course
- ECON 0900 - ECONOMICS: INTRODUCTION TO THE FIELD MAJORS

ECON 0800

* ECON 0800 does not count as an ECON elective course.

Students seeking the BA must also take the following corequisite courses

One of the following
MATH 0125 - CALCULUS FOR BUSINESS 1 and
MATH 0126 - CALCULUS FOR BUSINESS 2

MATH 0120 - BUSINESS CALCULUS
MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

One of the following

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT *

Note:
* STAT 1000 or STAT 1100 is required for students pursuing the Economics/Business Dual major. Students pursuing this major are exempted from taking BUSECN 1010 since its equivalent is ECON 1100.

Economics, BS

Economics Major Requirements

Majors may earn either a Bachelor of Science or a Bachelor of Arts in economics. The general rules and requirements as they apply to both degrees are as follows:

- A minimum overall 2.00 GPA is required in all economics courses for graduation with an economics major.
- A minimum grade of C is required in ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY, ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY, ECON 1100 - INTERMEDIATE MICROECONOMICS, ECON 1110 - INTERMEDIATE MACROECONOMICS, MATH 0120 and MATH 0220.
- No ECON course that counts toward the major may be taken on an S/NC basis.
- Students must complete at least one writing-intensive (W) course in the major.
- Credit by exam is usually not accepted, but students should check with the departmental advisor about the possibility.

  - Maintenance of a GPA of 3.5 in all economics courses
  - Maintenance of an overall GPA of 3.5 or better
  - Completion of at least 3 credits in the economics proseminar series (ECON 1700-ECON 1730)

Requirements

Students seeking a BS in economics must earn at least 24 credits in economics courses including the following:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
The set of courses required for the minor in economics provides an introduction to the core theory in economics and explores some of the issues that economists study. The four core theory courses are taught each term, along with a broad range of applied economics courses. The required courses (totaling 15 credits) are as follows:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS or
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- Two additional ECON courses

Note:

Courses in the 0800 series do not count toward the 15 credits required for the minor in economics, and only 3 credits of ECON 1901 - ECON 1903, directed studies, may be applied toward minor requirements. Other than these restrictions, the two additional courses mentioned above may be any of the courses offered by the department.
suitable for a major. More often than not, these students are prime candidates for graduate school, and want to keep their options open as to which field to enter later. Short of completing two bachelor’s degrees, their only option now is to major in one subject and minor in the other. If they later decide to attend graduate school in their minor subject, they are likely to be less competitive for admission to the best departments than if they had majored in that subject.

A joint major provides a useful compromise to keep their options open. Additionally, a joint major in economics and statistics can be an excellent training ground for the more quantitative areas of business (such as forecasting, investment management, actuarial planning, and accounting), health management, and public health, without losing the breadth provided by a liberal arts program. Graduates of the joint major who are interested in these areas will have the requisite skills for further training or for immediate entrance into the job market. The curriculum for the joint major consists of eight economics courses and eight statistics courses, along with a statistics writing practicum and three mathematics courses, for a total of 62 credits.

Course Requirements

Economics courses as follows:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- ECON 1150 - APPLIED ECONOMETRICS 1
- ECON 1200 - GAME THEORY
- One economics elective course*
- One ECON 1000-level course that requires ECON 1110 or ECON 1110 as a prerequisite

Note:

*ECON 0800 does not count as an ECON elective course.

Statistics courses as follows:

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT
- Four elective STAT courses, chosen from the 1200 level or above: one of these electives must be from the 1600 level or above, excluding internships and directed study courses.

Note:

Students who plan to study statistics at the graduate level are encouraged to take STAT 1631 - INTERMEDIATE PROBABILITY and STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL.

Mathematics courses as follows:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

One of the following
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

Note:

Students are strongly encouraged to take a course in linear algebra, such as MATH 0280 - INTRO TO MATRICES & LINEAR ALG or MATH 1180 - LINEAR ALGEBRA 1 or MATH 1185 - HONORS LINEAR ALGEBRA

Due to the interdisciplinary nature of the major, a related area is not required.

Department of English

The Department of English at the University of Pittsburgh offers two different major programs, English literature and English writing. Both majors are responsive to many of the traditional goals of a liberal arts education: they seek to develop a broad critical and historical understanding of influential cultural traditions and to foster a range of reading and writing strategies as well as skills of critical analysis. The majors prepare students fairly directly for careers in teaching or writing. But the skills and knowledge the majors impart are useful in numerous business and professional settings. For example, an English major is highly regarded as a pre-professional major for further training in law, medicine, or business. The director of academic affairs for the Association of American Medical Colleges has said (1986) that English majors have a higher rate of acceptance at medical schools than students who have majored in the biological and physical sciences.

English Literature, BA

The English literature major is designed to develop a critical understanding of literary and cultural traditions in English that is at once informed, skeptical, and appreciative. Some of the distinctive features of the literature curriculum at the University of Pittsburgh are the recurrent concerns from the introductory to the most advanced undergraduate courses with the following: questions of how and why we read and write and participate in cultural activities; the contexts in which a range of literary texts and films are produced, understood, evaluated, and used; and the changing role of art and culture in the contemporary world. The major offers students opportunities to study canonical works of British and American literature from medieval times to the present; often, these texts will be studied in conjunction with historical or philosophical works, with other national literatures in English, and/or with films or works of popular culture. In many courses, students' own writing will be an important object of study.

Major Requirements

The English literature major requires the completion of 36 credits distributed as follows.

- ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1
- ENGLIT 0506 - HOW TO DO THINGS WITH LITERATURE 2

Two period courses chosen from a listing of approved courses

www.englishlit.pitt.edu/undergraduate/major-requirements

Advanced courses

- ENGLIT 1900 - PROJECT SEMINAR
- ENGLIT 1910 - SENIOR SEMINAR

Six elective courses

- At least four of these courses should fall within the designated area of concentration selected by the student. Students may apply for special approval with the director of the Literature program to count an elective not previously listed in a given area of concentration.
At least three of these courses must be from the 1000-level or above.
Students may take up to two courses from other programs in the Department of English (Composition, Film, Writing) designated within their area of concentration. Students may apply for special approval with the director of the Literature program to count an additional elective from another English program.
At least one of these courses should also fulfill a breadth of study requirement. Students should ask instructors or advisors whether a particular course or section fulfills this requirement.
Independent study, directed study, teaching assistantships, and internships may count toward any concentration depending upon the nature of the student's work.

Additional information and requirements

- There is no limit on the number of courses English majors may take on an S/NC basis, either inside or outside the department.
- English majors automatically fulfill Dietrich School requirements for W courses.
- Students who contemplate graduate study in English should remember that many schools do require second language competence, sometimes in more than one language.
- The English department confers honors on those graduates who maintain a 3.25 overall GPA with a GPA of 3.50 or better in English departmental courses. The GPA is based on all English department courses, not just those that fulfill major requirements.

**English Writing - Fiction Track, BA**

**English Writing Intro**

The University of Pittsburgh's Writing Program is the oldest and one of the largest in the United States, offering tracks in fiction, poetry, nonfiction, and journalism. There is a wide variety of classes, and the maximum size is 22. The Writing Program has a full-time faculty of widely published writers, several visiting writers each year, and a number of part-time faculty who are senior reporters or editors at Pittsburgh newspapers and magazines. Graduates of the writing program include editors at major daily newspapers and publishing houses and winners of the Pulitzer Prize and other major awards.

For more information on the Department of English and the majors in English literature and in English writing, see www.english.pitt.edu.

**Major Requirements**

A minimum of 33 credits is required: 21 credits in English writing courses and 12 in English literature courses.

Majors must choose one of three tracks: fiction, poetry, and nonfiction. In most cases, students will take other writing courses as well. Each track consists of three levels of courses. The introductory courses (0500s) offer a broad introduction to the skills required of writers in a particular area and generally should be taken no later than the first term of the junior year. The intermediate courses (1000s for fiction, 1200s for poetry, 1300s for nonfiction) refine and develop those skills. The senior seminars (1700s) provide a capstone experience for the student writer. Students should check prerequisites carefully before registration.

Students must complete one of the following prerequisite courses before declaring the major.

- ENGCMP 0200 - SEMINAR IN COMPOSITION
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGCMP 0205 - SEMINAR IN COMPOSITION: FILM
- ENGCMP 0207 - SEMINAR IN COMPOSITION: EDUCATION
- ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING
- FP 0003 - FIRST-YEAR SEMINAR
- FP 0006 - FIRST-YEAR SEMINAR

**Fiction Track**
• ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
• ENGWRT 1010 - INTERMEDIATE FICTION
• ENGWRT 1020 - ADVANCED FICTION
• ENGWRT 1094 - READINGS IN CONTEMPORARY FICTION
• ENGWRT 1710 - SENIOR SEMINAR IN FICTION
• Three ENGWRT elective courses*
• ENGLIT 0325 - THE SHORT STORY
• Two ENGLIT elective courses from the list below
• One ENGLIT elective course at the 1000-level from the list below

English Writing elective course info

Elective courses may be taken in another track if the student wishes.

English Literature approved courses

• ENGLIT 0500 - INTRODUCTION TO CRITICAL READING
• ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1
• ENGLIT 0560 - CHILDREN AND CULTURE
• ENGLIT 0562 - CHILDHOOD'S BOOKS
• ENGLIT 0570 - AMERICAN LITERATURE
• ENGLIT 0573 - LITERATURE OF THE AMERICAS
• ENGLIT 0580 - INTRODUCTION TO SHAKESPEARE
• ENGLIT 0590 - FORMATIVE MASTERPIECES
• ENGLIT 0597 - BIBLE AS LITERATURE
• ENGLIT 0610 - WOMEN AND LITERATURE
• ENGLIT 0615 - LITERATURE AND RACE
• ENGLIT 0616 - EXILES, NOMADS, AND MIGRANTS
• ENGLIT 0625 - DETECTIVE FICTION
• ENGLIT 0626 - SCIENCE FICTION
• ENGLIT 0627 - LITERATURE OF SPORTS
• ENGLIT 0628 - WORKING CLASS LITERATURE
• ENGLIT 0629 - THE WILD WEST
• ENGLIT 0630 - SEXUALITY AND REPRESENTATION
• ENGLIT 0635 - NEW LITERATURE
• ENGLIT 0636 - THE GOTHIC IMAGINATION
• ENGLIT 0640 - ALLEGORY
• ENGLIT 0642 - COMEDY
• ENGLIT 0643 - SATIRE
• ENGLIT 0644 - MYTH AND FOLKTALE
• ENGLIT 0645 - FANTASY
• ENGLIT 0655 - REPRESENTING ADOLESCENCE
• ENGLIT 1020 - HISTORY OF LITERARY CRITICISM
• ENGLIT 1023 - CONTEMPORARY CRITICAL THEORY
• ENGLIT 1028 - LITERATURE AND PSYCHOANALYSIS
• ENGLIT 1100 - MEDIEVAL IMAGINATION
• ENGLIT 1115 - CHAUCER
• ENGLIT 1125 - MASTERPIECES OF RENAISSANCE LITERATURE
• ENGLIT 1135 - LITERATURE, MEDIA, AND SCIENCE IN THE AGE OF SHAKESPEARE
• ENGLIT 1126 - ADVANCED SHAKESPEARE
• ENGLIT 1127 - SHAKESPEARE ON FILM
• ENGLIT 1128 - SHAKESPEARE’S SEXUALITIES
• ENGLIT 1150 - ENLIGHTENMENT TO REVOLUTION
• ENGLIT 1170 - ROMANTIC NATURE
• ENGLIT 1175 - 19TH CENTURY BRITISH LITERATURE
• ENGLIT 1180 - HUMANS, ANIMALS, MACHINES IN VICTORIAN LITERATURE
• ENGLIT 1181 - VICTORIAN NOVEL
• ENGLIT 1200 - AMERICAN LITERATURE TO 1860
• ENGLIT 1220 - CIVIL WAR TO WORLD WAR 1 IN AMERICAN LITERATURE
• ENGLIT 1255 - THEATER & ACTIVISM
• ENGLIT 1272 - THE ROARING 20'S: FROM FARMERS TO FACTORY WORKERS, FROM FLAPPERS TO FINANCIERS
• ENGLIT 1325 - MODERNISM
• ENGLIT 1360 - TOPICS IN 20TH CENTURY LIT
• ENGLIT 1370 - MAKERS OF MODERN DRAMA
• ENGLIT 1372 - CONTEMPORARY DRAMA
• ENGLIT 1380 - WORLD LITERATURE IN ENGLISH
• ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT
• ENGLIT 1704 - WOMEN NOVELISTS
• ENGLIT 1756 - BALLADS AND BLUES
• ENGLIT 1738 - IRISH LITERATURE

English Writing additional information and requirements

• A minimum grade of C or better (not C-) is required in a 0500-level writing course to advance to the first 1000-level course in that track. Students who earn less than a C in their first 1000-level course may not advance to other courses in that track. Moreover, students must earn a C or better (not C-) grade in their senior seminar or internship course.
• Students are encouraged to take additional writing and literature courses beyond the required minimum. Courses in film studies, women's studies, business, and technical writing are particularly useful for English writing majors.
• The Writing Program recommends related areas in second languages, literature in translation, or linguistics; a related area in history or political science is appropriate for students concentrating in journalism.
• Completion of at least one composition course is required for enrollment in a writing program course.
• ENGWRT 0400 - INTRODUCTION TO CREATIVE WRITING and ENGWRT 0411 - INTRODUCTION TO CREATIVE NONFICTION are optional introductory courses and may be taken during the second year by students who have recently declared a major in writing, are seriously considering writing as a major, or are taking their first 0500-level course. ENGWRT 0400 can only count as an elective towards the Writing degree if taken before ENGWRT 0520 or ENGWRT 0530. Likewise, ENGWRT 0411 may be taken as an elective before ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW.
• There is no limit on the number of courses English majors may take on an S/NC basis, either inside or outside the department.
• English writing majors automatically fulfill Dietrich School requirements for W courses. Students pursuing a second major are required to complete an additional W course for that major.
• Students who contemplate graduate study in English should remember that many schools do require second language competence, sometimes in more than one language.

The English department confers honors on those graduates who maintain a 3.25 overall GPA with a GPA of 3.50 or better in English department courses. The GPA is based on all English department courses, not just those that fulfill major requirements.

English Writing - Nonfiction Track, BA

English Writing Intro

The University of Pittsburgh’s Writing Program is the oldest and one of the largest in the United States, offering tracks in fiction, poetry, nonfiction, and journalism. There is a wide variety of classes, and the maximum size is 22. The Writing Program has a full-time faculty of widely published writers, several visiting writers each year, and a number of part-time faculty who are senior reporters or editors at Pittsburgh newspapers and

- English writing majors automatically fulfill Dietrich School requirements for W courses. Students pursuing a second major are required to complete an additional W course for that major.

- Students who contemplate graduate study in English should remember that many schools do require second language competence, sometimes in more than one language.

The English department confers honors on those graduates who maintain a 3.25 overall GPA with a GPA of 3.50 or better in English department courses. The GPA is based on all English department courses, not just those that fulfill major requirements.

Public and Professional Writing

The Public and Professional Writing (PPW) major in the Department of English allows students to undertake rigorous intellectual work that will deepen their engagement with writing as a form of social action and professional exchange that has consequences in the world. Students in the major
can expect to address critical questions in public and professional writing; learn how to use the forms and genres of particular professions or fields; learn how to compose effectively on behalf of an organization or campaign; learn how to create engaging documents and carry out inquiry projects for a particular audience; compose using appropriate modalities and technology; compose with awareness of textual forms and conventions; conduct responsible and ethical research; explore the history and politics of writing in specific contexts; engage with public debates over language, globalization, education, and writing; and compose as a creative and disciplined form of critical inquiry. PPW majors can expect to find jobs in the nonprofit sector, government, or the commercial sector.

Required courses for the major

The Public and Professional Writing BA requires the completion of 33 credits, distributed as follows.

Students may choose to follow clusters of courses that will lead to in-depth study in specific areas or for specific career paths: Writing to Support Scientific Research, Preparing for Law School, Writing for Nonprofits, Writing for Business, Teaching and Composition Studies, Advertising and PR Writing, Composing Digital Media, Editing and Publishing, Preparing for Graduate School, Public Engagement, and others. See the list of possible clusters that apply to this major.

Prerequisites

The Seminar in Composition requirement must be completed prior to enrollment in any ENGCMP courses at or above the 0400-level. A Seminar in Composition course can be selected from the following list.

- ENGCMP 0200 - SEMINAR IN COMPOSITION
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGCMP 0205 - SEMINAR IN COMPOSITION: FILM
- ENGCMP 0207 - SEMINAR IN COMPOSITION: EDUCATION
- ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING
- ENGCMP 0210 - WRITING WITH FILM
- FP 0003 - FIRST-YEAR SEMINAR
- FP 0006 - FIRST-YEAR SEMINAR

Core courses

- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 1551 - HISTORY AND POLITICS OF THE ENGLISH LANGUAGE
- ENGCMP 1900 - INTERNSHIP: PUBLIC/PROFESSIONAL WRITING or
- ENGCMP 1901 - UTA IN TEACHING AND TUTORING WRITING *
- ENGCMP 1910 - BRIDGE SEMINAR

Three 1000-level courses

Students must complete three ENGCMP courses at the 1000-level or above.

Three elective courses

Students must complete three courses at the 0400-level or above.

Related area:
A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

Grade requirements:

A minimum grade of C or better is required in any 0400- or 0500-level ENGCMP course to advance to the first 1000-level course.

Satisfactory/No Credit option:

There is no limit to the number of courses that may be taken on the S/NC basis for this major.

Writing (W) requirement:

Most ENGCMP courses satisfy the W requirement. Students pursuing a second major are required to complete an additional W-course for the major in that department.

ENGCMP courses that fulfill requirements for the major

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0425 - DIGITAL HUMANITY
- ENGCMP 0440 - CRITICAL WRITING
- ENGCMP 0450 - RESEARCH WRITING
- ENGCMP 0500 - TOPICS IN COMPOSITION
- ENGCMP 0510 - NARRATIVES OF THE WORKPLACE
- ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0530 - WRITING FOR THE SCIENCES
- ENGCMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0620 - THEORIES OF WRITING AND TEACHING
Creative Writing Minor

As one of the oldest writing programs in the United States, the Writing Program at the University of Pittsburgh has an excellent record of not only producing talented creative writers but also developing the writing skills of undergraduates who go on to work in a variety of professions, including journalism, education, law, and publishing. The minor in Creative Writing fulfills a need that is different from the Certificate in Professional Writing, with its particular focus on writing in business, non-profit, and legal environments, and the Writing Major, which requires a more substantial commitment of time and study.

Before declaring the minor in Creative Writing, students must complete an English Composition course (ENGCMP 0200, ENGCMP 0203, ENGCMP 0205, ENGCMP 0207, or ENGCMP 0208) to develop the skills necessary for effectively reading and writing at the college level. Students must take ENGWRT 0400 - INTRODUCTION TO CREATIVE WRITING.

This minor requires students to complete 18 credits of coursework as follows.

One of the following groups of courses.

Fiction

- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGWRT 1010 - INTERMEDIATE FICTION
- ENGWRT 1094 - READINGS IN CONTEMPORARY FICTION

Poetry

- ENGWRT 0530 - INTRODUCTION TO POETRY WRITING
- ENGWRT 1210 - POETRY WORKSHOP
- ENGWRT 1290 - READINGS IN CONTEMPORARY POETRY
Nonfiction

- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1390 - READINGS IN CONTEMPORARY NON-FICTION

Two of the following courses.

- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGWRT 0530 - INTRODUCTION TO POETRY WRITING
- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWRT 1090 - MASTERING POINT OF VIEW
- ENGWRT 1091 - AUTOBIOGRAPHY AND CREATIVE IMPULSE
- ENGWRT 1092 - WRITER'S JOURNALS
- ENGWRT 1095 - TOPICS IN FICTION
- ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWRT 1650 - PLAYWRITING 1

English Literature Minor

An undergraduate minor in English literature would help students in a variety of majors to represent significant expertise they have accrued in this field on their transcripts. The structure of the minor will also help direct students with a significant interest in English literature to sequences and sets of courses that are designed to develop their interest; they can take a mini-curriculum rather than just a smattering of electives. A minor in English literature is a desirable supplement to many degrees across the Dietrich School because it provides insights into cultural traditions and practices, develops students' abilities to write analytic arguments, and promotes critical thinking.

The minor consists of 18 credits and comprises the following courses.

- ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1
- ENGLIT 0506 - HOW TO DO THINGS WITH LITERATURE 2
- Two elective courses at the 0500-level or above
- Two elective courses at the 1000-level or above
- ENGLIT 1900 - PROJECT SEMINAR is recommended but not required.

Film and Media Studies Program

While film studies is not a department, it is an interdisciplinary program and an administrative unit offering both a major and a minor in film studies. Film is one of the major cultural forms of the 20th century, and its study has become an important part of a modern humanities education. At the University of Pittsburgh, the Film and Media Studies Program provides a series of interdisciplinary courses concerning the history, aesthetics, theory, and production of cinema. The program provides courses in critical studies, film, photography, and video production. A major in Film and Media Studies helps students to understand and appreciate the cinematic medium and to be aware of its impact as a cultural and artistic force. It is also appropriate for students who wish to pursue careers in film teaching, film journalism, film museum curatorial work, film library and archival work, and film and television production. As part of the Film and Media Studies Program, internships are made available to students in many of these fields. In the past, students have done internships at the Carnegie Museum of Art, the Pittsburgh Film Office, Pittsburgh Filmmakers, and various television stations.

Various options are available to students interested in Film and Media Studies. For those students who wish to make film studies the primary focus of their undergraduate program, it is possible to pursue an interdisciplinary major in Film and Media Studies. For those students who wish to major in another area but desire a focus in film studies, a minor in Film and Media Studies is available. In addition, many students choose to take elective courses in film studies as part of their undergraduate curriculum.
For more information on the film studies major, see www.filmstudies.pitt.edu.

Film and Media Studies, BA

In the Spring of 2018, the Film Studies BA was renamed to Film and Media Studies BA. Students who were enrolled prior to the Spring 2018 term have the option to stay Film Studies majors or change to the Film and Media Studies major. They will have until the end of the Fall 2017 term to choose to complete the program under the current name. Students who choose to complete their program under the current name must do so by Summer 2020 term. There are no program requirement changes.

Film studies courses fall into three categories:

- National Cinemas or Film
- Themes, Genres, or Theory
- Production

Standard track requirements

The major in film studies major requires the completion of 36 credits distributed as follows.

Critical Studies courses

- ENGFLM 0530 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY
- ENGFLM 1920 - ADVANCED SEMINAR IN FILM STUDIES

Production course

Students must take one of the following production courses.

- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGFLM 0590 - FILMMAKING: PRODUCTION AND CRITICISM
- FILMST 0001 - FILMMAKING 1: FUNDAMENTALS
- FILMST 0200 - 35MM PHOTOGRAPHY AND DARK ROOM
- SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY

Two National Cinemas or Film courses

Students must take two courses from the National Cinemas or Film course category listed below.

Two Themes, Genres, or Theory courses

Students must take two courses from the Themes, Genres, or Theory category listed below.

Four elective courses

Students must select four courses from the three categories below:

1. National Cinemas or Film
2. Themes, Genres, or Theory
3. Production
Media and Production track requirements

Students pursuing the Media and Production track must complete 36 credits distributed as follows.

Foundational course

Select one course from the following list.

- ENGFLM 0590 - FILMMAKING: PRODUCTION AND CRITICISM
- FILMST 0001 - FILMMAKING 1: FUNDAMENTALS

Film and Media Production courses

- ENGWRT 0560 - SCREENWRITING AND NARRATIVE or
- FILMST 1132 - ELEMENTS OF SCREENWRITING
- FILMST 0601 - FILMMAKING 2: SIGHT AND SOUND or
- SA 1380 - DIGITAL STUDIO: VIDEO
- FILMST 1130 - DIRECTING MOTION PICTURES
- FILMST 1600 - FILMMAKING 3: STORY TO SCREEN
- FILMST 1921 - FILMMAKING 4: CAPSTONE

Technical elective course

Select one of the following courses.

- FILMST 0121 - ANIMATION 1
- FILMST 0420 - POST-PRODUCTION 2
- FILMST 0500 - SUPER-8 AND 16MM FILM PRODUCTION
- FILMST 0610 - DIGITAL EFFECTS 1
- FILMST 1120 - DIRECTING ACTORS
- FILMST 1133 - DEVELOPING THE FEATURE SCRIPT
- FILMST 1145 - SOUND FOR MOTION PICTURES
- FILMST 1157 - LIGHTING FOR MOTION PICTURES
- FILMST 1580 - DIGITAL CINEMATOGRAPHY

Topical elective courses

Select two of the following courses.

- ENGFLM 0585 - TECHNOLOGIES OF THE BODY
- ENGFLM 0712 - CRITICAL MAKING
- ENGFLM 1671 - MAKING THE DOCUMENTARY
- ENGFLM 1672 - VISITING FILMMAKER: PRODUCTION AND CRITICISM
- ENGFLM 1684 - MOCKUMENTARY: PRODUCTION AND CRITICISM
- ENGFLM 1750 - CREATIVE PRODUCTION WORKSHOP
- ENGFLM 1930 - FILM STUDIES INTERNSHIP

Two category courses

Students must take two courses from either the National Cinemas or Film or the Themes, Genres, or Theory category listed below.
Critical Studies courses

Both of the following courses are required.

- ENGFLM 0530 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY

National Cinemas or Film courses

- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- ENGFLM 1190 - BRITISH FILM
- ENGFLM 1192 - IRISH FILM
- ENGFLM 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- ENGFLM 1290 - AMERICAN FILM 1
- ENGFLM 1291 - AMERICAN FILM 2
- ENGFLM 1390 - CONTEMPORARY FILM
- ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA
- ENGFLM 1420 - TRANSNATIONAL EAST ASIAN CINEMAS
- ENGFLM 1470 - FILM DIRECTORS
- ENGFLM 1471 - ORSON WELLES
- ENGFLM 1472 - HITCHCOCK'S FILMS
- ENGFLM 1473 - Spike Lee
- ENGFLM 1476 - THE FILMS OF STANLEY KUBRICK
- ENGFLM 1670 - GLOBAL ANIME
- HAA 1805 - EARLY FRENCH FILM
- HAA 1806 - AMERICAN INDEPENDENT FILM
- HIST 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- ITAL 0086 - ITALIAN CINEMA
- ITAL 0088 - ITALIAN AMERICA ON SCREEN
- ITAL 1089 - SPECIAL TOPICS
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
- POLISH 0870 - CONTEMPORARY POLISH CINEMA: LITERATURE ON FILM
- RUSS 0870 - RUSSIAN FILM: EISENSTEIN AND COMPANY
- RUSS 0871 - RUSSIAN FILM STALIN TO PUTIN
- SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM
- SPAN 1404 - LATIN AMERICAN TOPICS
- SPAN 1407 - U.S. LATINO FILM
- SPAN 1603 - PENINSULAR TOPICS

Themes, Genres, or Theory

- ENGFLM 0400 - INTRODUCTION TO FILM or
- ENGFLM 0401 - INTRODUCTION TO VISUAL CULTURE
- ENGFLM 0520 - FILM THEORY
- ENGFLM 0532 - INTRODUCTION TO FILM GENRES
- ENGFLM 0540 - WORLD FILM HISTORY
• ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
• ENGFLM 0812 - MEDIA/ECOLOGY
• ENGFLM 1391 - TOPICS IN CONTEMPORARY CINEMA
• ENGFLM 1479 - CHILDREN AND MEDIA
• ENGFLM 1480 - TOPICS IN FILM
• ENGFLM 1481 - YOUTH FILM
• ENGFLM 1482 - THE STAR SYSTEM AND THE MOVIES
• ENGFLM 1483 - FILM SOUND
• ENGFLM 1485 - FILM AND POLITICS
• ENGFLM 1487 - FILM CENSORSHIP AND AMERICAN CULTURE
• ENGFLM 1489 - CULT FILM
• ENGFLM 1610 - TOPICS IN GENRE
• ENGFLM 1613 - TOPICS IN FILM GENRE AND THEME
• ENGFLM 1615 - THE WAR FILM
• ENGFLM 1680 - ANIMATION
• ENGFLM 1681 - FILM COMEDY
• ENGFLM 1683 - DOCUMENTARY FILM
• ENGFLM 1685 - FILM MUSICAL
• ENGFLM 1688 - FILM WESTERN
• ENGFLM 1695 - HORROR FILM
• ENGFLM 1696 - FILM NOIR
• ENGFLM 1699 - SCIENCE FICTION FILM
• ENGFLM 1703 - GENDER AND FILM
• ENGFLM 1752 - TELEVISION ANALYSIS
• ENGFLM 1760 - CINEMA AND VIDEO GAMES
• ENGFLM 1790 - FILM AND LITERATURE
• ENGFLM 1920 - ADVANCED SEMINAR IN FILM STUDIES
• HAA 0470 - PHOTOGRAPHY AND ART
• HAA 0810 - EXPERIMENTAL CINEMA
• HAA 1806 - AMERICAN INDEPENDENT FILM
• HAA 1820 - DOCUMENTARY FILM
• JPNSE 1058 - WESTERNS AND SAMURAI FILMS
• JPNSE 1059 - JAPANESE LITERATURE ON SCREEN

Production

• ENGFLM 0585 - TECHNOLOGIES OF THE BODY
• ENGFLM 0712 - CRITICAL MAKING
• ENGFLM 1671 - MAKING THE DOCUMENTARY
• ENGFLM 1672 - VISITING FILMMAKER: PRODUCTION AND CRITICISM
• ENGFLM 1684 - MOCKUMENTARY: PRODUCTION AND CRITICISM
• ENGFLM 1750 - CREATIVE PRODUCTION WORKSHOP
• ENGFLM 1930 - FILM STUDIES INTERNSHIP
• ENGWRT 0560 - SCREENWRITING AND NARRATIVE
• FILMST 0001 - FILMMAKING 1: FUNDAMENTALS
• FILMST 0121 - ANIMATION 1
• FILMST 0151 - WEB DESIGN 1
• FILMST 0200 - 35MM PHOTOGRAPHY AND DARK ROOM
• FILMST 0201 - MEDIUM FORMAT PHOTOGRAPHY
• FILMST 0225 - STUDIO LIGHTING
• FILMST 0400 - POST-PRODUCTION 1
Additional Rules and Requirements

ENGFLM 0530 and ENGFLM 0540: The Film and Media Studies program recommends that students complete ENGFLM 0530 - FILM ANALYSIS and ENGFLM 0540 - WORLD FILM HISTORY or their equivalents prior to taking any 1000-level film courses.

1000-level courses: At least five courses that count toward the major must be taken at the 1000-level.

Production courses: No more than five production courses may be counted toward the major (Standard track). Additional production courses may be taken to meet the minimum credit requirement for graduation.

Grade requirements: A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No more than three courses that count toward the major can be taken on an S/NC basis.

Internship: Only one 3-credit film internship can be counted toward the major.

Writing (W) requirement: Students must complete at least one W-course in the major.

Related area: A minimum of 12 credits is required in any one Dietrich School department, chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

Film and Media Studies Minor

In the spring of 2018, the Film Studies minor was renamed to Film and Media Studies minor. Students who were enrolled prior to the Spring 2018 term have the option to stay Film Studies minor or change to the Film and Media Studies minor. They will have until the end of the Fall 2017 term to choose to complete the program under the current name. Students who choose to complete their program under the current name must do so by Summer 2020 term. There are no program requirement changes.

Required Courses

Two Critical Studies Courses

- ENGFLM 0530 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY

Four Elective Courses

Elective courses must be taken from at least two of the three categories:
• National Cinemas or Film
• Themes, Genres, or Theory
• Production

No more than two courses can be taken from the Production category.

National Cinemas or Film courses

• CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
• CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
• CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
• CHIN 1088 - NEW CHINESE CINEMA
• CHIN 1089 - THE WORLD OF CHINA
• ENGFLM 1190 - BRITISH FILM
• ENGFLM 1192 - IRISH FILM
• ENGFLM 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
• ENGFLM 1290 - AMERICAN FILM 1
• ENGFLM 1291 - AMERICAN FILM 2
• ENGFLM 1390 - CONTEMPORARY FILM
• ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA
• ENGFLM 1420 - TRANSNATIONAL EAST ASIAN CINEMAS
• ENGFLM 1470 - FILM DIRECTORS
• ENGFLM 1471 - ORSON WELLES
• ENGFLM 1472 - HITCHCOCK'S FILMS
• ENGFLM 1473 - Spike Lee
• ENGFLM 1476 - THE FILMS OF STANLEY KUBRICK
• ENGFLM 1670 - GLOBAL ANIME
• HAA 1805 - EARLY FRENCH FILM
• HAA 1806 - AMERICAN INDEPENDENT FILM
• HIST 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
• ITAL 0086 - ITALIAN CINEMA
• ITAL 0088 - ITALIAN AMERICA ON SCREEN
• ITAL 1089 - SPECIAL TOPICS
• JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
• POLISH 0870 - CONTEMPORARY POLISH CINEMA: LITERATURE ON FILM
• RUSS 0870 - RUSSIAN FILM: EISENSTEIN AND COMPANY
• RUSS 0871 - RUSSIAN FILM: STALIN TO PUTIN
• SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM
• SPAN 1404 - LATIN AMERICAN TOPICS
• SPAN 1407 - U.S. LATINO FILM
• SPAN 1603 - PENINSULAR TOPICS

Themes, Genres, or Theory

• ENGFLM 0400 - INTRODUCTION TO FILM or
• ENGFLM 0401 - INTRODUCTION TO VISUAL CULTURE
• ENGFLM 0520 - FILM THEORY
• ENGFLM 0532 - INTRODUCTION TO FILM GENRES
• ENGFLM 0540 - WORLD FILM HISTORY
• ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
• ENGFLM 0812 - MEDIA/ECOLOGY
• ENGFLM 1391 - TOPICS IN CONTEMPORARY CINEMA
• ENGFLM 1479 - CHILDREN AND MEDIA
• ENGFLM 1480 - TOPICS IN FILM
• ENGFLM 1481 - YOUTH FILM
• ENGFLM 1482 - THE STAR SYSTEM AND THE MOVIES
• ENGFLM 1483 - FILM SOUND
• ENGFLM 1485 - FILM AND POLITICS
• ENGFLM 1487 - FILM CENSORSHIP AND AMERICAN CULTURE
• ENGFLM 1489 - CULT FILM
• ENGFLM 1610 - TOPICS IN GENRE
• ENGFLM 1613 - TOPICS IN FILM GENRE AND THEME
• ENGFLM 1615 - THE WAR FILM
• ENGFLM 1680 - ANIMATION
• ENGFLM 1681 - FILM COMEDY
• ENGFLM 1683 - DOCUMENTARY FILM
• ENGFLM 1685 - FILM MUSICAL
• ENGFLM 1688 - FILM WESTERN
• ENGFLM 1695 - HORROR FILM
• ENGFLM 1696 - FILM NOIR
• ENGFLM 1699 - SCIENCE FICTION FILM
• ENGFLM 1703 - GENDER AND FILM
• ENGFLM 1752 - TELEVISION ANALYSIS
• ENGFLM 1760 - CINEMA AND VIDEO GAMES
• ENGFLM 1790 - FILM AND LITERATURE
• ENGFLM 1920 - ADVANCED SEMINAR IN FILM STUDIES
• HAA 0470 - PHOTOGRAPHY AND ART
• HAA 0810 - EXPERIMENTAL CINEMA
• HAA 1806 - AMERICAN INDEPENDENT FILM
• HAA 1820 - DOCUMENTARY FILM
• JPNSE 1058 - WESTERNS AND SAMURAI FILMS
• JPNSE 1059 - JAPANESE LITERATURE ON SCREEN

Production

• ENGFLM 0585 - TECHNOLOGIES OF THE BODY
• ENGFLM 0712 - CRITICAL MAKING
• ENGFLM 1671 - MAKING THE DOCUMENTARY
• ENGFLM 1672 - VISITING FILMKER: PRODUCTION AND CRITICISM
• ENGFLM 1684 - MOCKUMENTARY: PRODUCTION AND CRITICISM
• ENGFLM 1750 - CREATIVE PRODUCTION WORKSHOP
• ENGFLM 1930 - FILM STUDIES INTERNSHIP
• ENGWRT 0560 - SCREENWRITING AND NARRATIVE
• FILMST 0001 - FILMMAKING 1: FUNDAMENTALS
• FILMST 0121 - ANIMATION 1
• FILMST 0151 - WEB DESIGN 1
• FILMST 0200 - 35MM PHOTOGRAPHY AND DARK ROOM
• FILMST 0201 - MEDIUM FORMAT PHOTOGRAPHY
• FILMST 0225 - STUDIO LIGHTING
• FILMST 0400 - POST-PRODUCTION 1
• FILMST 0420 - POST-PRODUCTION 2
• FILMST 0500 - SUPER-8 AND 16MM FILM PRODUCTION
Note:

Only one elective course for the minor can be taken on an S/NC basis. Half of the courses for the minor must be taken at Pitt. Students pursuing the minor must meet with the film studies advisors to check their progress. Courses taken at other schools must be approved.

**Department of French and Italian Languages and Literature**

A major in French and/or Italian gives students at the University of Pittsburgh the opportunity to study a second language in detail and to acquire an education in a literary and cultural tradition central to the humanities. Studying French and/or Italian language and literature prepares students for graduate study in law and international affairs; advanced work in the humanities; and careers in business, governmental service, and teaching. The University is committed to international study, and students are encouraged to take advantage of the numerous opportunities to study abroad. Students can also combine a major in French and/or Italian with a second major in a field such as political science, history, biology, or economics. Students who choose to study the grammar, linguistics, rhetoric, literature, and film of Italy and/or the Francophone world will acquire an invaluable technical resource and an in-depth knowledge of a diverse and foundational intellectual tradition. Students may also minor in French and/or Italian. For more information on the Department of French and Italian Languages and Literatures, see our Web site at www.frenchanditalian.pitt.edu.

**French, BA**

A major in French gives students the opportunity to study in detail a foreign language and to acquire an education in a literary and cultural tradition central to the humanities. Studying French language and literature prepares students for graduate study in law and international affairs, advanced work in the humanities, and careers in business, government service, and teaching. Students are encouraged to take advantage of the numerous opportunities to study abroad. They can combine a major in French with a second major in a field such as political science, history, biology, or economics. Students who choose to study the grammar, linguistics, rhetoric, literature, and film of the Francophone world will acquire an invaluable technical resource and an in-depth knowledge of a diverse and foundational intellectual tradition.

**Requirements**

Majors in French must have completed two years of college work or the equivalent before beginning core courses. The French major consists of at least 31 credits above the intermediate level. Elementary French language courses (FR 0001 and FR 0002) do not count toward the major. Required credits follow.

- FR 0020 - FRANCE IN THE 21ST CENTURY
- FR 0021 - APPROACHES TO FRENCH LITERATURE
- FR 0027 - THE FRENCH ATLANTIC
- FR 0055 - FRENCH CONVERSATION
- FR 0056 - WRITTEN FRENCH 1
- FR 0058 - ADVANCED FRENCH CONVERSATION
Note

Majors are expected to take one credit of FR 0058 - ADVANCED FRENCH CONVERSATION, but they may take two additional credits of the course as a nonmajor elective.

Additional requirements

In addition to the basic requirements, the following criteria must be met by French majors:

- Once the basic requirements are met, students will, in consultation with their advisor, design a program that corresponds to their needs, but they must take an additional 15 credits at the 1000 level. Twelve credits must be in courses taught in French. Intermediate language courses (FR 0003 and FR 0004) may be used to fulfill this requirement.
- French majors may take one course above 0004, in addition to 0058, on an S/NC option.
- Although study abroad is not a requirement for the major in French, students are strongly encouraged to consider participating in a study-abroad program in a French-speaking country during their undergraduate career.
- Students must complete at least one W course within the major.

The Dietrich School requires 12 credits in a related area to be chosen in consultation with the program advisor. This requirement can also be met by completing an official minor in another area.

French and Italian Major Requirements

The following requirements apply to both French and Italian majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Students may choose courses from three areas: language, literature, and civilization.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French or Italian, demonstrate superior performance in departmental courses, and be enrolled in 1000-level French/Italian courses preferably no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

Italian Language and Literature, BA

French and Italian Major Requirements

The following requirements apply to both French and Italian majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Students may choose courses from three areas: language, literature, and civilization.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French or Italian, demonstrate superior performance in departmental courses, and be enrolled in 1000-level French/Italian courses preferably no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

Requirements
Majors in Italian Language and Literature, after one year of college instruction in the language, may enroll in ITAL 0003 - WHAT IF for credit toward the major. The major consists of at least 33 credits above elementary Italian. ITAL 0001 and ITAL 0002 Elementary Italian 1 and 2, which do not count toward the major and must include the following courses:

- ITAL 0003 - WHAT IF
- ITAL 0004 - INTERMEDIATE ITALIAN 2
- ITAL 0055 - ITALIAN CONVERSATION AND CULTURE
- ITAL 0080 - RENAISSANCE ITALY *
- ITAL 0081 - Made in Italy: Ingenuity, Singularity, Style *
- Five 1000-level elective courses at least three of which must be taught in Italian. No more than two of these courses may be taught in English.

Note:

* Because ITAL 0080 and ITAL 0081 have no prerequisites and are taught in English, the department recommends that students interested in an Italian major take those courses as early in their studies as possible.

In addition to those basic course requirements

the following criteria apply to Italian majors:

- Two courses in the 1080 or 1050 series (courses taught in English) may be counted toward the major if the student completes a specified part of the work in Italian.
- A minimum GPA of 2.0 in departmental courses is required for graduation.
- Majors may not take any courses on the S/NC basis.
- A 12-credit related area may be chosen from humanities and social sciences including a second language, linguistics, history, English, history of art and architecture, communication, music, and political science, or another subject as arranged with the major advisor.
- Students must complete at least one W course within the major. ITAL 0060, ITAL 0061, and ITAL 1041 fulfill this requirement.

**Italian Studies, BA**

French and Italian Major Requirements

The following requirements apply to both French and Italian majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Students may choose courses from three areas: language, literature, and civilization.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French or Italian, demonstrate superior performance in departmental courses, and be enrolled in 1000-level French/Italian courses preferably no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

**Requirements**

The Italian Studies Major promotes the cross-discipline exploration of a variety of areas relating to Italian and Italian American culture: language, literature, theater, cinema, art and architecture, music, history, social and immigration history, politics and political theory, history and philosophy of science, classical studies, and religious studies. The major consists of at least 33 credits above elementary Italian (ITAL 0001 and ITAL 0002 Elementary Italian 1 and 2, which do not count toward the major) and must include the following courses.
• ITAL 0003 - WHAT IF
• ITAL 0004 - INTERMEDIATE ITALIAN 2
• ITAL 0055 - ITALIAN CONVERSATION AND CULTURE

One of the following courses

• ITAL 0060 - LITERARY ITALIAN 1
• ITAL 0061 - LITERARY ITALIAN 2

One of the following courses

• ITAL 0080 - RENAISSANCE ITALY
• ITAL 0081 - Made in Italy: Ingenuity, Singularity, Style

Six additional courses

Six additional courses, which can be taught either in Italian or English. At least three of these elective courses must be at the 1000-level, and at least two of them must be courses offered by the Italian program. The remaining courses can be selected from an approved list of other departments' offerings. Italian Studies majors are encouraged to continue their study of the Italian language to the greatest extent possible.

French Minor - French Language and Literature track

Students can complete the French Language and Literature track in the French minor with five courses chosen from the following list. Only one course may be in English. Students whose programs will include two or more courses taught in English should follow the French Studies track in the minor.

French and Italian minor requirements

The French and Italian department offers four tracks within its minor offerings: French language and literature, French studies, Italian language and literature, and Italian studies. Each minor also offers requirement options.

Requirements

Students can complete the minor in French with five courses chosen from the following list. Only one of the courses may be taught in English. Students whose programs will include two or more courses taught in English should declare the French Studies minor.

15 credits:

• FR 0003 - INTERMEDIATE FRENCH 1
• FR 0004 - INTERMEDIATE FRENCH 2
• FR 0006 - SPECIAL TOPICS IN CONVERSATION AND CULTURE
• FR 0020 - FRANCE IN THE 21ST CENTURY
• FR 0021 - APPROACHES TO FRENCH LITERATURE
• FR 0027 - THE FRENCH ATLANTIC
• FR 0055 - FRENCH CONVERSATION
• FR 0056 - WRITTEN FRENCH 1
• FR 1085 - WOMEN'S VOICES IN FRENCH LITERATURE
• FR 1088 - SPECIAL TOPICS
• Four French electives on literary, cultural, or linguistic topics taught in French (FR 1001 through FR 1076)
One of the following

- FR 0080 - MODERN FRENCH NOVEL

French and Italian minor additional information

Minors may not take any courses on the S/NC basis.

**French Minor - French Studies track**

Students can complete the French Studies track in the French minor with five courses chosen from the following list.

**French and Italian minor requirements**

The French and Italian department offers four tracks within its minor offerings: French language and literature, French studies, Italian language and literature, and Italian studies. Each minor also offers requirement options.

**Requirements**

Students can complete the minor in French Studies with five courses chosen from the following list.

15 credits:

- FR 0003 - INTERMEDIATE FRENCH 1
- FR 0004 - INTERMEDIATE FRENCH 2
- FR 0006 - SPECIAL TOPICS IN CONVERSATION AND CULTURE
- FR 0020 - FRANCE IN THE 21ST CENTURY
- FR 0021 - APPROACHES TO FRENCH LITERATURE
- FR 0027 - THE FRENCH ATLANTIC
- FR 0055 - FRENCH CONVERSATION
- FR 0056 - WRITTEN FRENCH 1
- FR 0080 - MODERN FRENCH NOVEL
- Level 3 elective on literary and cultural topics taught in English or French.
- Level 4 elective on literary, cultural, or linguistic topics taught in English or French (FR 1001 through FR 1090).

French and Italian minor additional information

Minors may not take any courses on the S/NC basis.

**Italian Minor**

**French and Italian minor requirements**

The French and Italian department offers four tracks within its minor offerings: French language and literature, French studies, Italian language and literature, and Italian studies. Each minor also offers requirement options.

**Requirements**
Any combination of five courses from the following list.

- ITAL 0001 - HERE AND NOW
- ITAL 0002 - THERE AND THEN
- ITAL 0003 - WHAT IF
- ITAL 0004 - INTERMEDIATE ITALIAN 2
- ITAL 0055 - ITALIAN CONVERSATION AND CULTURE
- ITAL 0060 - LITERARY ITALIAN 1
- ITAL 0061 - LITERARY ITALIAN 2
- ITAL 0080 - RENAISSANCE ITALY
- ITAL 0081 - Made in Italy: Ingenuity, Singularity, Style
- ITAL 0087 - FOOD FOR THOUGHT: ITALIAN FOOD CULTURE
- ITAL 0088 - ITALIAN AMERICA ON SCREEN
- ITAL 1030 - ADVANCED COMPOSITION
- ITAL 1032 - INTRODUCTION TO ITALIAN LINGUISTICS
- ITAL 1041 - ITALIAN THEATRICAL WORKSHOP
- ITAL 1060 - SPECIAL TOPICS
- ITAL 1065 - SONGS OF THE ITALIAN SELF: ITALIAN LYRIC POETRY
- ITAL 1068 - ITALIAN NOVELLA
- ITAL 1070 - LITERATURE AND POLITICS
- ITAL 1079 - INTRO TO HOLOCAUST LITERATURE
- ITAL 1080 - MASTERPIECES OF ITALIAN PROSE
- ITAL 1082 - ITALIAN RENAISSANCE LITERATURE
- ITAL 1083 - MODERN ITALIAN LITERATURE
- ITAL 1085 - DANTE, PETRARCH, AND BOCCACCIO
- ITAL 1086 - ITALIAN THEATER IN ENGLISH
- ITAL 1087 - TOPICS ITALIAN AMERICAN STUDIES
- ITAL 1089 - SPECIAL TOPICS
- ITAL 1092 - ITALIAN TRANSLATION WORKSHOP: FROM THEORY TO BEST PRACTICES

French and Italian minor additional information

Minors may not take any courses on the S/NC basis.

**Medieval and Renaissance Studies Certificate**

In spite of change through the centuries and variations of a regional and national character, the millennium preceding the deaths of Shakespeare and Cervantes in 1616 is marked by a coherence sufficient to justify considering it as a cultural entity, worthy of study for its humanistic qualities and for its importance in preparing the modern world. Some of the principal aims of the Medieval and Renaissance Studies Program are:

- to identify and explore aspects of medieval and Renaissance cultures that are an important part of our own cultural heritage;
- to promote an understanding of our medieval and Renaissance ancestors through the investigation of the ways they faced the issues of their day, asked questions of their institutions, and were conscious of themselves and the world around them;
- to help students understand historical relativity by showing them how different periods and individuals have understood the Middle Ages and Renaissance in very different ways; and
- to provide the basis for an open-minded attitude toward any culture that is different from our own.

In consultation with a program advisor (who may be a member of the Executive Committee, one of the departmental representatives, or another faculty member specializing in the area), the candidate will define an area of interest and organize a program of courses in relation to it. In designing a certificate program, students are urged to keep in mind the aims of the program as described above. For more information, see http://www.medren.pitt.edu/.

**Requirements**
The certificate requires 15 credits. At least nine credits will be earned in 1000-level courses.

- One of the five courses must be focused on the medieval period; see the list of qualifying courses at www.medren.pitt.edu/undergraduate-certificates/overview.php
- One of the five courses must be focused on the Renaissance period; see the list of qualifying courses at www.medren.pitt.edu/undergraduate-certificates/overview.php

The student must take at least two courses from each category. Courses should not be chosen at random but should follow a pattern of interrelated studies worked out with a Program Advisor from one of the cooperating Departments or with the Director of Medieval and Renaissance Studies. The categories are:

- language and literature, the visual arts, and music; and
- social, intellectual, economic, and ideological history (including philosophy, religious studies, the history of science and the study of institutions).

A strong recommendation, beyond these requirements, is that certificate candidates acquire a reading knowledge of a modern European language as early as possible. In addition, Latin is suggested for those who plan to do graduate work in the field.

Gender, Sexuality, and Women's Studies Program

The Gender, Sexuality, and Women's Studies program at the University of Pittsburgh is an interdisciplinary academic program that is committed to promoting feminist and LGBTQIA activism, pedagogy, and scholarship that engage with the larger local, national, and global communities. Program offerings provide opportunities for students and faculty to explore the historical development, cultural variations, and changing representations of gender and sexuality as they organize identities, interactions, and institutions and intersect in complex ways with sex, race, class, ethnicity, ability, age, religion, and nation.

Bachelor Degree in Gender, Sexuality, and Women's Studies

The goals of this major are: to educate undergraduate students in the analysis and understanding of gender as a knowledge base and critical lens through which to read critically; to write and conduct research in disciplinary and interdisciplinary contexts; to begin to connect academic work with broader community interests; and to prepare students for graduate school and professional lives. The interdisciplinary nature of this major makes it ideal for students who wish to add breadth and depth to their studies in other disciplines.

Certificate in Gender, Sexuality, and Women's Studies

Students who pursue this certificate are those who plan careers in medicine, the creative arts, social work, education, counseling, law, therapy, academia, and business find that this program's courses enhance their professional activities. Still others report that the confidence and insight that they acquire in such courses enriches their lives regardless of their particular career goals. For more information, please visit the Gender, Sexuality, and Women's Studies Program in 401 Cathedral of Learning or online at www.gsws.pitt.edu.

Gender, Sexuality, and Women's Studies, BA

Major Requirements

The goals of this major are: to educate undergraduate students in the analysis and understanding of gender as a knowledge base and critical lens through which to read critically; to write and conduct research in disciplinary and interdisciplinary contexts; to begin to connect academic work with broader community interests; and to prepare students for graduate school and professional lives. The interdisciplinary nature of this major makes it ideal for students who wish to add breadth and depth to their studies in other disciplines. This major requires 30 credits, distributed as follows.

Core courses

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
• GSWS 0550 - SEX AND SEXUALITIES

Two elective courses

choose one from each of the following groups

Group A

• GSWS 0200 - SEX, RACE, AND POPULAR CULTURE
• GSWS 0210 - WIRED WOMEN
• GSWS 0220 - CONTEMPORARY ISSUES AND ARGUMENTS
• GSWS 0350 - SPECIAL TOPICS IN GSWS

Group B

• AFRCNA 0454 - MAN/WOMAN LITERATURE
• ANTH 0768 - HUMAN SEXUALITY IN CROSS CULTURE
• ENGCM 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
• ENGLIT 0610 - WOMEN AND LITERATURE
• ENGLIT 0630 - SEXUALITY AND REPRESENTATION
• FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
• GSWS 1140 - SPECIAL TOPICS
  - Pitt in China, Pitt in London, etc.
• GSWS 1900 - INTERNSHIP (junior or senior only)
• PSY 0184 - PSYCHOLOGY OF GENDER
• SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
• SOC 0446 - SOCIOLOGY OF GENDER
• Any course officially cross-listed with GSWS (check course offerings each semester for options)

Four upper-level courses

choose two from each group

Group A

• GSWS 1140 - SPECIAL TOPICS
• GSWS 1150 - TRANSNATIONAL FEMINISMS
• GSWS 1160 - RACE, GENDER, AND CLASS
• GSWS 1170 - QUEER THEORY
• GSWS 1180 - POLITICS OF GENDER AND FOOD
• GSWS 1190 - MASCUINITIES
• GSWS 1235 - LANGUAGE, GENDER AND SOCIETY
• GSWS 1450 - GENDER AND SUSTAINABILITY

Group B

• ADMJ 1242 - GENDER, RACE, CLASS, AND CRIME
• AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
• ANTH 1738 - GENDER PERSPECTIVES IN ANTHROPOLOGY
• COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
COMMRC 1160 - VISUAL RHETORIC  
ENGFLM 1703 - GENDER AND FILM  
ENGLIT 1704 - WOMEN NOVELISTS  
FR 1085 - WOMEN'S VOICES IN FRENCH LITERATURE  
HIST 1560 - WOMEN IN LATIN AMERICAN HISTORY  
LEGLST 1315 - SEX, LAW AND MARRIAGE  
MUSIC 1398 - WOMEN & MUSIC CROSS-CULTL PERSP  
PS 1622 - FEMINIST POLITICAL THOUGHT  
PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY  
SOC 1413 - MARRIAGE  
SOC 1448 - WORKING WOMEN  
Any 1000-level course officially cross-listed with GSWS (check course offerings each semester for options)

Capstone

GSWS 1910 - CAPSTONE

Grade requirements

A minimum GPA of 2.0 is required in those courses that count toward the major. Students must also have a minimum GPA of 2.0 in all GSWS courses. Students may have no more than six credits overlap with another major or certificate.

Writing (W) requirement

Students must complete at least one writing-intensive (W) course with the GSWS subject designation. Check the Course Descriptions Web site (www.courses.as.pitt.edu) each term for writing-intensive course options.

Related area

A minimum of 12 credits is required in any one Dietrich School department or in a thematic cluster chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

Gender, Sexuality, and Women's Studies Certificate

The Gender, Sexuality, and Women's Studies program is an interdisciplinary academic program focusing on gender, sexuality, and women. Gender, Sexuality, and Women's Studies (GSWS) courses and cross-listed courses in various departments across the university provide opportunities for all students to broaden their understandings of the changing role of gender in the United States and globally. Students who want to explore the intersection of gender with race, class, ethnicity, nation, religion, ability, age, sex and sexuality will find courses of interest, as will students who want to know more about the role of women in history, in literature and the arts, in media and science. Students who plan careers in medicine, the creative arts, social work, education, counseling, law, therapy, academia, and business find that this program's courses enhance their professional activities. Still others report that the confidence and insight that they acquire in such courses enriches their lives regardless of their particular career goals. For more information, please visit the Gender, Sexuality, and Women's Studies Program in 401 Cathedral of Learning or online at www.gsws.pitt.edu.

Requirements

Please consult the Gender, Sexuality and Women's Studies Undergraduate Advisor to plan your program of study.

A minimum of 18-credits, completed with an overall GPA of 2.00 is required, as follows:

GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
Department of Geology and Environmental Science

The Department of Geology and Planetary Science studies the Earth and how it works. The Earth is a fascinating natural system that supports many interactions between the solid earth, oceans, atmosphere, life, and various solar system objects. The primary goal of our geology and environmental geology majors (both BS programs) is a scientific understanding of these natural systems and their significant and sometimes surprising variations over geologic time. In addition, these students often seek a solid scientific grounding in earth resources and environmental problems. Our popular environmental studies major (a BA program) focuses on the economic, political, and legal issues that conspire to either cause or prevent the solution of environmental problems. Our programs are popular with people who love nature, who want to understand how the earth works, and who want to understand the many dimensions of modern environmental issues. For more information on our programs, please visit www.geology.pitt.edu.

Environmental Science, BS

Environmental Science aims to understand every aspect of modern and ancient Earth. A degree in environmental science provides the diverse skills required to work in many different employment settings. For example, the acquired scientific and mapping skills are great for jobs in parks and forestry management, museum work, science education, urban and suburban planning, and jobs that involve natural resource issues. Within the field of geology, environmental and geotechnical jobs exist for people with BS degrees. A master's degree provides better job opportunities in those fields, as well as in oil and gas exploration, which can be enormously rewarding both intellectually and financially. A PhD provides additional employment options, especially in universities and government labs. Internships enable students to meet potential employers, learn about real world opportunities, and sample different types of work.

Geology deploys an interdisciplinary mix of physics, chemistry, biology, math, and natural science to understand the mysteries of nature. It focuses on the solid Earth (rocks, minerals, mountain belts, volcanoes, earthquakes, sedimentary basins, oil and gas deposits, etc.) as well as the history of life (paleontology) and its impact on the Earth. In recent decades, geologists have become increasingly concerned with the history of the Earth's climate, how the physical and chemical behavior of the oceans has changed over time, and how drifting continents and evolving life have interacted to control the composition of the atmosphere and oceans and hence to control global climate. Geologists also examine how human activities affect our environment, including the quality of air, water, and soil.

Geology majors have hiked the Appalachian Trail, gone backpack camping with at-risk youth in the Utah deserts, bicycled across North America, plumbed the depths of unexplored caves, and traveled to Mongolia in pursuit of summer research. Geology majors take a six week summer field camp that features extensive hiking in the western U.S., Italy, New Zealand, or other places around the world. To see whether environmental science is a good major for you try a geology class (GEOL 0040, GEOL 0800, or GEOL 0860) and the Physical Geology Lab (GEOL 0055). Make sure you are comfortable with the required biology, chemistry, math, and physics courses.

The Environmental Science major requires completion of at least 63 credits, as follows.

Core courses required for the major

One of the following courses

- GEOL 0800 - GEOLOGY
- GEOL 0820 - NATURAL DISASTERS
- GEOL 0840 - ENVIRONMENTAL SCIENCE

All of the following courses

- One of the following, though students are encouraged to take both courses
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
- GSWS 0550 - SEX AND SEXUALITIES
- Three elective courses from at least two different academic departments. GSWS may count as one of these programs. Courses must be approved for GSWS credit; consult the Course Descriptions Web site, www.courses.as.pitt.edu, for current listings
- At least one 1000-level course with a GSWS subject; a cross-listed course will not fulfill this requirement.
• GEOL 0055 - GEOLOGY LABORATORY
• GEOL 1015 - GEOLOGY COLLOQUIUM
• GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
• GEOL 1051 - GROUNDWATER GEOLOGY
• GEOL 1060 - GEOMORPHOLOGY
• GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
• GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
• GEOL 1904 - DIRECTED READING

One of the following capstone courses

• GEOL 1903 - UNDERGRADUATE RESEARCH
• GEOL 1910 - UNDERGRADUATE THESIS
• GEOL 1960 - FIELD CAMP
• Research Experiences for Undergraduates

Co-requirements for the major

All of the following courses

• CHEM 0110 - GENERAL CHEMISTRY 1
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Three of the following courses

• BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 and
• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2 and
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
• CHEM 0120 - GENERAL CHEMISTRY 2
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
• STAT 1000 - APPLIED STATISTICAL METHODS

Geology electives

Students must complete nine credits of GEOL at the 1000 level or above. A list of eligible courses follows. Courses indicated by an asterisk (*) are recommended for Environmental Science majors.

• GEOL 0060 - HISTORY OF THE EARTH
• GEOL 1001 - MINERALOGY
• GEOL 1003 - IGNEOUS & METAMORPHIC PETROLOGY
• GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
• GEOL 1052 - PALEOCLIMATOLOGY
• GEOL 1055 - ENVIRONMENTAL ETHICS, SCIENCE, AND PUBLIC POLICY
• GEOL 1056 - UHC ENVIRONMENTAL ETHICS, SCIENCE AND PUBLIC POLICY
• GEOL 1100 - STRUCTURAL GEOLOGY

281
Geology additional requirements

**Grades:** Students must maintain a minimum GPA of 2.0 in departmental courses to graduate with a BS degree in Environmental Science.

**Satisfactory/No Credit:** No GEOL course that counts toward the major can be taken on an S/NC basis. No more than two of the non-geological science courses that count toward the major may be taken on an S/NC basis.

**Writing requirement:** Students must complete at least one writing-intensive (W) course in the major.

**Related area:** A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or certificate or a UCIS certificate also satisfies this requirement.

Environmental Studies, BA

Rapid growth in human population and development has led to complex environmental problems on local and global scales. The way in which we address these issues will have a profound effect on our society and planet in the coming century. Enlightened solutions require a strong component of scientific knowledge and an awareness of the relevant societal issues. A major in environmental studies will equip students with an understanding of earth systems and the environment, including the role of geologic processes on human activity and the impact of humans on the biosphere, atmosphere, hydrosphere, and global climate. Courses in the natural and social sciences supplement a traditional liberal arts curriculum to provide a comprehensive, interdisciplinary background in the scientific, economic, political, and social aspects of human interaction with the environment.

The environmental studies major provides a strong background for students who seek careers in fields such as resource development and management, environmental policy and regulation, risk assessment, land use planning, public policy, and education. Potential employers include local, state, or federal government organizations; consulting firms; or companies that are affected by environmental issues or regulations. Graduates of the Environmental Studies Program can also pursue postgraduate study in fields such as business, law, medicine, public policy, education, international relations, urban and regional planning, environmental management, and public health.

Major Requirements

The major consists of core courses, co-requirements, and electives. The core courses provide a fundamental understanding of environmental processes, issues, and policy and culminate in an environmental science field course and an interdisciplinary capstone course on science and public policy. The co-requirements provide the necessary background for advanced study. Majors are encouraged to undertake an independent research project, internship, or senior thesis.

Core Geology courses

- GEOL 1240 - EVOLUTION OF THE VERTEBRATES
- GEOL 1313 - COM ENVIRONMENTAL PROFESSIONALS
- GEOL 1331 - HEALTH AND SAFETY (HAZWOPER)
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM
- GEOL 1460 - INTRODUCTION TO REMOTE SENSING
- GEOL 1701 - GEOLOGY OF THE PLANETS
- GEOL 1900 - INTERNSHIP
- GEOL 1901 - INDEPENDENT STUDY
- GEOL 1903 - UNDERGRADUATE RESEARCH
- GEOL 1904 - DIRECTED READING
- GEOL 1XXX Other upper-level class in GEOL, approved by the major advisor
- GEOL 2054 - SOILS: GEOBIOCHEMICAL LANDSCAPES
- GEOL 2525 - STABLE ISOTOPE GEOCHEMISTRY
- GEOL 2853 - WATERSHED HYDROLOGY AND BIOGEOCHEMISTRY
- GEOL 2XXX Graduate level GEOL class, instructor permission required
• GEOL 0055 - GEOLOGY LABORATORY
• GEOL 0840 - ENVIRONMENTAL SCIENCE
• GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
• GEOL 1313 - COM ENVIRONMENTAL PROFESSIONALS
• GEOL 1333 - SUSTAINABILITY
• GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
• LEGLST 1320 - LAW AND ENVIRONMENT

One of the following Economics courses

• ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
• ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
• ECON 0800 - INTRODUCTION TO ECONOMICS

One of the following courses

• HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING
  or
  EOH 2180 Introduction to Risk Sciences and EOH 2181 Risk Assessment Practicum

One of the following courses

• GEOL 1055 - ENVIRONMENTAL ETHICS, SCIENCE, AND PUBLIC POLICY
• GEOL 1056 - UHC ENVIRONMENTAL ETHICS, SCIENCE AND PUBLIC POLICY

Environmental field course:

(at least 2 credits from one of the following)

• BIOSC 0740 - YELLOWSTONE FIELD COURSE
• BIOSC 1140 - BEHAVIORAL ECOLOGY
• BIOSC 1170 - FRESHWATER ECOLOGY
• BIOSC 1180 - ECOLOGY OF AMPHIBIANS AND REPTILES
• BIOSC 1190 - AQUATIC ENTOMOLOGY
• BIOSC 1230 - ORNITHOLOGY
• BIOSC 1330 - FIELD BOTANY
• BIOSC 1390 - FIELD TECHNIQUES IN ECOLOGY AND CONSERVATION
• BIOSC 1400 - DISEASE ECOLOGY
• BIOSC 1420 - WILDLIFE MANAGEMENT
• BIOSC 1610 - CONSERVATION BIOLOGY
• HONORS 1540 - HONORS FIELD STUDIES IN WYOMING

Field course note

This requirement can be satisfied by taking any BIOSC course offered at the Pymatuning Ecology Laboratory or an approved environmental science field course offered through an outside institution. In either case, the substituted course must have a credit value of not less than two credits.

Environmental Internship course

• GEOL 1900 - INTERNSHIP
Co-requirements

- CHEM 0110 - GENERAL CHEMISTRY 1

One of the following Mathematics courses

- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS

One of the following Statistics courses

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Twelve credits of electives in Social Science and Humanities

**Anthropology**
- ANTH 0582 - INTRODUCTION TO ARCHEOLOGY
- ANTH 0601 - PHYSICAL ANTHROPOLOGY: OVERVIEW
- ANTH 0680 - INTRODUCTION TO PHYSICAL ANTHROPOLOGY
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ANTH 1524 - CHINESE ARCHAEOLOGY
- ANTH 1528 - SOUTH AMERICAN ARCHAEOLOGY
- ANTH 1763 - FIELD METHODS

**Communication**
- COMMRC 1149 - ENVIRONMENTAL RHETORIC

**Economics**
- ECON 0360 - INTRODUCTION TO ENVIRONMENT AND RESOURCE ECONOMICS
- ECON 0500 - INTRODUCTION TO INTERNATIONAL ECONOMICS
- ECON 0530 - INTRODUCTION TO DEVELOPMENT ECONOMICS
- ECON 1360 - ENVIRONMENTAL ECONOMICS

**English**
- ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
- ENGLIT 1005 - LITERATURE AND THE ENVIRONMENT

**History**
- HIST 0700 - WORLD HISTORY
- HIST 1668 - HISTORY OF PITTSBURGH

**History and Philosophy of Science**
- HPS 0608 - PHILOSOPHY AND SCIENCE
- HPS 0610 - CAUSAL REASONING
- HPS 0620 - SCIENCE AND RELIGION
- HPS 0621 - PROBLEM SOLVING: HOW SCIENCE WORKS
- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE

**History of Art and Architecture**
- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
Twelve credits of electives in the Natural Sciences and Engineering

Students are encouraged to take BIOSC 0150 and BIOSC 0160 because they are prerequisites for the Pymatuning field courses. Students are further encouraged to take the GEOL 1300-level electives.

**Biological Sciences**
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0350 - GENETICS
• BIOSC 0370 - ECOLOGY
• BIOSC 0390 - ECOLOGY LABORATORY

Chemistry
• CHEM 0120 - GENERAL CHEMISTRY 2
• CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
• CHEM 0310 - ORGANIC CHEMISTRY 1
• CHEM 0350 - PRINCIPLES OF ORGANIC CHEMISTRY

Computer Science
• CS 0090 - SUSTAINABILITY AND COMPUTING
• CS 0134 - WEB SITE DESIGN AND DEVELOPMENT
• CS 0334 - INTERMEDIATE WEB SITE DESIGN AND DEVELOPMENT
• CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY

Geology and Environmental Science
• GEOL 0060 - HISTORY OF THE EARTH
• GEOL 1001 - MINERALOGY
• GEOL 1015 - GEOLOGY COLLOQUIUM
• GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
• GEOL 1051 - GROUNDWATER GEOLOGY
• GEOL 1052 - PALEOCLIMATOLOGY
• GEOL 1060 - GEOMORPHOLOGY
• GEOL 1100 - STRUCTURAL GEOLOGY
• GEOL 1200 - UHC PALEONTOLOGY
• GEOL 1330 - SUSTAINABILITY FLASH LAB
• GEOL 1331 - HEALTH AND SAFETY (HAZWOPER)
• GEOL 1332 - MANAGEMENT OF ENVIRONMENTAL AND NONPROFIT ORGANIZATIONS
• GEOL 1334 - ENVIRONMENTAL POLICY
• GEOL 1335 - ENVIRONMENTAL ISSUES: AIR QUALITY
• GEOL 1336 - ENVIRONMENTAL ISSUES: AIR QUALITY (W)
• GEOL 1337 - ENVIRONMENTAL ISSUES: WATER QUALITY
• GEOL 1338 - ENVIRONMENTAL ISSUES: WATER QUALITY (W)
• GEOL 1339 - ENVIRONMENTAL ISSUES: MINING AND GAS DRILLING ISSUES
• GEOL 1340 - ENVIRONMENTAL ISSUES: MINING AND GAS DRILLING ISSUES (W)
• GEOL 1341 - ENVIRONMENTAL ISSUES: PARKS AND FORESTS
• GEOL 1342 - ENVIRONMENTAL ISSUES: PARKS AND FORESTS (W)
• GEOL 1410 - EXPLORATION GEOPHYSICS
• GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM
• GEOL 1460 - INTRODUCTION TO REMOTE SENSING
• GEOL 1510 - AQUATIC AND SEDIMENTARY GEOCHEMISTRY
• GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
• GEOL 1641 - ECOSYSTEM ECOLOGY
• GEOL 1701 - GEOLOGY OF THE PLANETS

Physics
• PHYS 0087 - PHYSICS AND SOCIETY
• PHYS 0089 - PHYSICS AND SCIENCE FICTION
• PHYS 0091 - CONCEPTUAL PHYSICS
• PHYS 0110 - INTRODUCTION TO PHYSICS 1
• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Civil and Environmental Engineering
• CEE 1210 - ENGR AND SUSTAINABLE DEVELOPMENT
  Students may take the graduate level course CEE 2210 in lieu of this undergraduate level course.
• CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
• CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
Other requirements

**Grade requirements**: A minimum GPA of 2.0 is required in those courses that count toward the major. All core courses, co-requirements, and electives must be passed with a grade of C- or better.

**Satisfactory/No Credit option**: There is no limit on the number of courses in the major that can be taken on an S/NC basis.

**Writing (W) requirement**: GEOL 1313 satisfies this requirement for Environmental Studies majors.

**Related area**: A related area is not required due to the interdisciplinary nature of this major.

---

**Geology, BS**

**Major Course Requirements**

**Core courses required for a geology major (67 credits):**

- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0060 - HISTORY OF THE EARTH
- GEOL 1001 - MINERALOGY
- GEOL 1003 - IGNEOUS & METAMORPHIC PETROLOGY
- GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 1100 - STRUCTURAL GEOLOGY
- GEOL 1960 - FIELD CAMP
- Nine credits in GEOL elective courses at the 1000 level or above

One of the following

- GEOL 0800 - GEOLOGY
- GEOL 0860 - ENVIRONMENTAL GEOLOGY

**Corequirements**

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

One of the following

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0250 - MATRIX THEORY & DIFFT EQUATIONS
- STAT 1000 - APPLIED STATISTICAL METHODS
Geology additional requirements

**Grades**: Students must maintain a minimum GPA of 2.0 in departmental courses to graduate with a BS degree in Environmental Science.

**Satisfactory/No Credit**: No GEOL course that counts toward the major can be taken on an S/NC basis. No more than two of the non-geological science courses that count toward the major may be taken on an S/NC basis.

**Writing requirement**: Students must complete at least one writing-intensive (W) course in the major.

**Related area**: A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or certificate or a UCIS certificate also satisfies this requirement.

---

**Geographic Information Systems Certificate**

The Geology and Planetary Science Department offers a Certificate in Geographic Information Systems (GIS). GIS is a computer-based system that accommodates virtually any type of information about features that are referenced by geographical location. For example, a GIS database may include both location and attribute data, providing a spatial visualization capability for analyzing descriptive characteristics about geographical features, both natural and manmade. One of the most important benefits of GIS analysis is the ability to spatially interrelate multiple types of information stemming from a range of sources. Such computational manipulation of geographic data has become increasingly important in many areas of science, government, and industry. Students who demonstrate experience with computers in general, and GIS/image processing in particular, are at a distinct advantage when looking for jobs in geology, environmental science, city and regional planning, and engineering. This certificate is designed to provide students with the knowledge and skills needed for immediate success in GIS-related jobs.

**Requirements**

The program is open to any University of Pittsburgh student, including post-baccalaureate students (professionals seeking to expand their job-related computer skills). Approximately four terms (two academic years) will be required to complete this certificate program. It is therefore suggested that undergraduates begin no later than their junior year. A grade of C or better is required in all courses for successful completion of the certificate. GIS topics covered include the nature of geographic data, map projections, raster images, the basic elements of a GIS database, sources of data, and training in the Arc/Info software package. Students also have the option of focusing on remote sensing theory and applications. Remote sensing (RS) topics include image analysis and processing; field validation of satellite and airborne datasets; GPS training; and the use of software packages such as ENVI, Erdas Imagine, ERMapper, and Trimble's Pathfinder Office.

**Required core courses**

- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS or
- GEOL 2449 - GIS, GPS, AND COMPUTER METHODS
- GEOL 1460 - INTRODUCTION TO REMOTE SENSING

**Note**

Two elective courses may be chosen that have special relevance to the student's major or employment goals. Appropriate courses will be available from many different departments. Courses not on the following list may be selected contingent on approval by the certificate advisor.

**Suggested elective courses**

- GEOL 0820 - NATURAL DISASTERS
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM
- GEOL 1960 - FIELD CAMP
Independent Study

Students should work with faculty in their primary area of interest to define and develop the capstone project. It must use GIS and/or RS as a major tool and result in a published report, map, or media that describes the results of the research.

- GEOL 1901 - INDEPENDENT STUDY

Additional information and requirements

- A minimum grade of C is required in each course required for this certificate.
- No course that counts toward the certificate can be taken on an S/NC basis unless the student receives special permission from the certificate advisor.

Department of German

The study of second language and culture is a cornerstone of education in today's international world. It teaches intercultural competence by increasing students' understanding of their own backgrounds and their sensitivity for other traditions and values. Knowledge of a second language and culture brings obvious competitive advantages in careers with an international dimension. As a liberal arts discipline, the study of language improves analytic-conceptual and communication skills necessary for all professional careers. Enhanced with appropriate additional course work, a major in German serves as a foundation for professional training in such subjects as business, law, politics, and medicine, as well as the media and communication industry. Students with a BA in German compete well in nontechnical fields for jobs requiring a bachelor's degree. For more information on the major, the minor, the certificate, and the Department of Germanic Languages and Literatures, see www.german.pitt.edu.

German Language and Cultural Studies, BA

Prerequisites

Students must choose one of the following pairs of introductory language courses.

- GER 0001 - ELEMENTARY GERMAN 1 and
- GER 0002 - ELEMENTARY GERMAN 2
- or
- GER 0101 - BEGINNING GERMAN 1 and
- GER 0102 - BEGINNING GERMAN 2

Requirements

The German Language and Cultural Studies major requires completion of 33 to 35 credits distributed as follows. If necessary to fulfill credit requirements, higher-level language courses can be substituted for GER 0003 GER 0003 - INTERMEDIATE GERMAN 1 and GER 0004 GER 0004 - INTERMEDIATE GERMAN 2.

Required language courses

- GER 0003 - INTERMEDIATE GERMAN 1
- GER 0004 - INTERMEDIATE GERMAN 2
Required writing-intensive course

Students must complete one of the following writing-intensive courses.

- GER 1001 - GERMAN WRITING
- GER 1003 - PROFESSIONAL GERMAN 1

1000-level course

Students must complete one course at the 1000-level.

Literary analysis course

- GER 1105 - LITERARY ANALYSIS

1100-level courses

Students must complete two courses at the 1100-level.

1200- to 1400-level course

Students must complete one seminar in German at the 1200- to 1400-level.

Additional coursework

Students must complete two additional courses in any of the following groups.

- Any seminar in German at the 1200- to 1400-level.
- A 1500-level course in the Department of German, with some work in German to be arranged with the instructor
- German studies courses in other departments that include a 1-credit trailer in German.

Capstone course

Students should take the capstone seminar in the fall term of their senior year.

- GER 1399 - SENIOR CAPSTONE SEMINAR

Additional requirements

Grade requirements: A 2.00 GPA is required in each course that counts toward the major.

Satisfactory/No Credit option: No course that counts toward the major can be taken on an S/NC basis unless the student receives special permission from the major advisor.

Writing requirement: GER 1001 - GERMAN WRITING and GER 1003 - PROFESSIONAL GERMAN 1 fulfill the requirement for a writing course in the major.

Related area: A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

Honors requirements: To earn departmental honors in German, students must demonstrate superior performance in departmental courses by:
earning an average GPA of at least 3.5 in their major courses;
• demonstrating a high level of proficiency in speaking and writing German; and
• completing a three-credit senior honors project (in addition to the credits required for the major), which has been accepted by the departmental faculty. Senior honors projects may include:
  o a semester-long, independent research project, as an extension of the senior thesis written during the capstone seminar;
  o taking an exam on a comprehensive reading list derived by the student in consultation with the faculty; or
  o enrolling in a graduate seminar and completing a graduate paper.

Students are encouraged to study and reside in a German-speaking country as a component of the German major. Numerous possibilities exist for such study, and financial aid is often available.

Interdisciplinary German Studies

The study of foreign language and culture is a cornerstone of education in today's world. It teaches intercultural competence by increasing students' understanding of their own background and their sensitivity for other traditions and values. Knowledge of foreign language and culture brings obvious competitive advantages in careers with an international dimension. As a liberal arts discipline, it improves analytic-conceptual and communication skills necessary for professional careers. Enhanced with appropriate course work, a major in German serves as a foundation for professional training in such subjects as business, law, politics, and medicine, as well as the media and communication industry. Students with a bachelor's degree in German will compete well in non-technical fields for jobs requiring an undergraduate degree.

Required introductory language courses

Select one of the following pairs of courses. Equivalency of other courses will be determined by the department.

• GER 0001 - ELEMENTARY GERMAN 1 and
• GER 0002 - ELEMENTARY GERMAN 2
  or
• GER 0101 - BEGINNING GERMAN 1 and
• GER 0102 - BEGINNING GERMAN 2

Required intermediate language courses

• GER 0003 - INTERMEDIATE GERMAN 1
• GER 0004 - INTERMEDIATE GERMAN 2

Required writing-intensive course

Select one of the following writing-intensive courses.

• GER 1001 - GERMAN WRITING
• GER 1003 - PROFESSIONAL GERMAN 1

1000-level course

Students must complete one course at the 1000-level in the Department of German.

Literary analysis course

• GER 1105 - LITERARY ANALYSIS

1100- to 1400-level courses
Students must complete three courses at the 1100- to 1400-level in the Department of German.

1500-level courses

Students must complete four courses at the 1500-level in the Department of German. Courses with significant German Studies content offered by other departments may also satisfy this requirement. Check with the undergraduate advisor for information on non-departmental courses that qualify.

Capstone course

- GER 1990 - SENIOR THESIS

Other requirements

**Grade requirements**: A minimum GPA of 2.0 is required in each course that counts toward the major.

**Satisfactory/No Credit option**: No course that counts toward the major can be taken on an S/NC basis unless the student receives special permission from the major advisor.

**Writing (W) requirement**: Students must complete at least one W-course in the major. GER 1001 and GER 1003 fulfill this requirement.

**Related area**: A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.

**Honors major requirements**: To earn departmental honors in German, students must demonstrate superior performance in departmental courses by:

- earning at least a 3.5 GPA average in their major courses;
- demonstrating a high level of proficiency in speaking and writing German; and
- completing a three-credit senior honors project (in addition to 31 credits of the major) that has been accepted by the departmental faculty.

  Senior honors projects may include:
  - a semester-long, independent research project, as an extension of the senior thesis written during the capstone project; or
  - taking an exam on a comprehensive reading list derived by the student in consultation with the faculty; or
  - enrolling in a graduate seminar and completing a graduate paper.

German Studies Minor

German Language, Literature, and Film

Language courses

Students must take two of the following courses. Students who take GER 0001 should follow it with GER 0002, and students who take GER 0101 should follow it with GER 0102.

Students must pass GER 0004 with a grade of B- or better before taking any German courses taught at the 1000-level or higher.

- GER 0001 - ELEMENTARY GERMAN 1 or
- GER 0101 - BEGINNING GERMAN 1
- GER 0002 - ELEMENTARY GERMAN 2 or
- GER 0102 - BEGINNING GERMAN 2
- GER 0003 - INTERMEDIATE GERMAN 1
- GER 0004 - INTERMEDIATE GERMAN 2
Literature and Film courses

Students must complete three German courses at the 1000- through 1500-level.

German Literature and Film

Students must complete five German courses at the 1000- through 1500-level.

German Language

Language courses

Students must take the following courses. Students who take GER 0001 should follow it with GER 0002, and students who take GER 0101 should follow it with GER 0102.

Students must pass GER 0004 with a grade of B- or better before taking any German courses taught at the 1000-level or higher.

- GER 0001 - ELEMENTARY GERMAN 1 and
- GER 0002 - ELEMENTARY GERMAN 2
  or
- GER 0101 - BEGINNING GERMAN 1 and
- GER 0102 - BEGINNING GERMAN 2

- GER 0003 - INTERMEDIATE GERMAN 1
- GER 0004 - INTERMEDIATE GERMAN 2

Upper level course

Students must complete one of the following upper-level language courses.

- GER 1000 - READING LITERARY TEXTS
- GER 1001 - GERMAN WRITING
- GER 1003 - PROFESSIONAL GERMAN 1
- GER 1004 - PROFESSIONAL GERMAN 2: THE GERMAN BUSINESS (ECO) SYSTEM
- GER 1005 - GERMAN MEDIA

German Language Certificate - German for Liberal Arts Track

German Language Certificate

The Certificate in German Language consists of 18 credits of German courses and prepares students for international careers, internationally recognized proficiency exams, and internships in German-speaking countries.

Requirements

The certificate offers two tracks: one for the liberal arts and one for professional purposes. Courses should be taken in sequence.

German for the Liberal Arts

The following courses should be taken, in sequence, by students in this track:
• GER 0003 - INTERMEDIATE GERMAN 1
• GER 0004 - INTERMEDIATE GERMAN 2 with a minimum grade of B- before taking any course in the GER 1000-level experience

Two of the following:

• GER 1000 - READING LITERARY TEXTS
• GER 1001 - GERMAN WRITING

One of the following:

• GER 1101 - ADVANCED GERMAN 1-MEDIA
• GER 1102 - ADVANCED GERMAN 2: STRUCTURES
  One of the GER 1200-1399 seminars taught in German

One of the GER 1200-1400 seminars taught in German

German Certificate note

Nine credits may be transferred from study abroad programs in German-speaking countries in accordance with the credit transfer policy of the University of Pittsburgh. These credits have to be pre-approved by the director of undergraduate studies.

A minimum GPA of 2.0 is required in each course that counts toward the certificate. No course that counts toward the certificate can be taken on an S/NC basis unless the student received special permission from the Director of Undergraduate Studies.

For more information, visit www.german.pitt.edu/undergraduate/certificate.php

German Language Certificate - German for Professional Purposes Track

German Language Certificate

The Certificate in German Language consists of 18 credits of German courses and prepares students for international careers, internationally recognized proficiency exams, and internships in German-speaking countries.

Requirements

The certificate offers two tracks: one for the liberal arts and one for professional purposes. Courses should be taken in sequence.

German for Professional Purposes

The following courses should be taken, in sequence, by students in this track.

• GER 0003 - INTERMEDIATE GERMAN 1
• GER 0004 - INTERMEDIATE GERMAN 2
• GER 1003 - PROFESSIONAL GERMAN 1
• GER 1004 - PROFESSIONAL GERMAN 2: THE GERMAN BUSINESS (ECO) SYSTEM

German Certificate note

Nine credits may be transferred from study abroad programs in German-speaking countries in accordance with the credit transfer policy of the University of Pittsburgh. These credits have to be pre-approved by the director of undergraduate studies.
A minimum GPA of 2.0 is required in each course that counts toward the certificate. No course that counts toward the certificate can be taken on an S/NC basis unless the student received special permission from the Director of Undergraduate Studies.

For more information, visit www.german.pitt.edu/undergraduate/certificate.php

Additional coursework

Students must complete two additional courses at the 1000- or 1100-level. GER 1001, GER 1003, GER 1004, and GER 1103 do not fulfill this requirement.

Department of Hispanic Languages and Literatures

The study of a second language, literature, and culture like Spanish traditionally has been one of the central components of an undergraduate education in the humanities. Today there is an added practical dimension to this. With economic and cultural globalization, our links as a nation with Spain and Latin America, including Brazil, have become much closer. At the same time, Spanish is not only a second language for us; it has become much like French in Canada, a de facto second language in the United States, which now has a Spanish-speaking population of more than 30 million. As a result, there is a growing demand for persons trained in Spanish (and also Portuguese) in many fields, especially education, where there is a shortage of new teachers of Spanish language and culture.

The undergraduate major in Spanish at the University of Pittsburgh offers a balanced combination of courses designed to strengthen oral and written language skills, and courses that introduce students to the study of Spanish and Latin American literatures and cultures. Majors also have the opportunity to enroll in the minor in Portuguese Language and Luso-Brazilian cultures, thereby opening channels of communication with millions of people around the world, including Brazil, Latin America's largest and most heavily populated country. Students with a more general interest in Latin American languages and cultures can choose to minor in Hispanic Languages and Literatures.

In all cases, we encourage students to include at least a semester of study abroad in a Spanish- or Portuguese-speaking country and we offer study-abroad programs. Students interested in going on to graduate school should strongly consider the honors major; those who want to teach Spanish can obtain teacher certification through the School of Education. The department also offers courses taught in English for non-majors interested in Hispanic, Latin American, Luso-Brazilian, or U.S. Latino cultures. Students can also take advantage of the non-curricular activities organized by the department, which include conversation clubs and films series.

Departmental Honors requirements

Especially for students interested in graduate work, the department offers honors in the major, which requires:

- a 3.5 average in departmental courses and 3.0 overall
- a senior thesis of 25-30 pages, written under the supervision of a faculty member close to the field of the thesis
- at least a semester of study abroad is strongly recommended but not required

Students should declare their intention to pursue the honors major no later than at the beginning of their senior year. The thesis will be evaluated by the advisor and two other faculty members in the department. Students may take an independent study with their supervisor that will fulfill the requirement of one upper level course. For further information, consult with the director of undergraduate studies.

Teacher Certification

Students who plan to teach Spanish after completing the major should consult with their advisor or the director of undergraduate studies in the department, as well as with the advisors for Pennsylvania Teaching Certification and Masters of Arts in Teaching Programs in the School of Education (Maggie Sikors, mjs 169@pitt.edu, 5504 Posvar Hall, 412-648-7413).

Study Abroad Options for Majors in the Hispanic Languages and Literatures Department
Students are strongly encouraged to add an international dimension to their undergraduate education through studying abroad. By participating in a study abroad program, students earn credits toward their degree. The department offers four programs that are matched directly with major and minor requirements. Information on some of the programs follows.

Study abroad is strongly encouraged. The department offers four programs that are matched directly with major and minor requirements. Information on some of the programs follows.

- Study abroad in Alcalá de Henares, Spain (30 minutes from Madrid) runs every odd-numbered year; for more information, send an e-mail to alcala@pitt.edu.
- Study abroad in Santiago de Chile runs every even-numbered years; for more information, send an e-mail to chile@pitt.edu.
- Study abroad in Porto Alegre, Brazil runs every year; for more information, send an e-mail to brazilsa@pitt.edu.
- Study abroad in Havana, Cuba runs every year; for more information, contact the Study Abroad Office (www.abroad.pitt.edu) via e-mail abroad@pitt.edu or by phone at 412-648-7419.

**Spanish, BA**

**Major requirements**

**Prerequisites**

Before declaring the major, students must complete four Spanish language courses in order to gain the indispensable skills to effectively read, write and discuss in a second language. Students with any previous knowledge of Spanish must take a placement test. Please note that a grade of B+ or higher in SPAN 0004 is required to declare the major. The Spanish major requires students to complete 38 credits of coursework as detailed below.

**Required Courses**

**Basic Level**

- SPAN 0020 - CONVERSATION
- SPAN 0025 - GRAMMAR AND COMPOSITION

**Mid Level**

- SPAN 0050 - SPANISH CIVILIZATION
- SPAN 0055 - INTRODUCTION HISPANIC LITERATURE 1
- SPAN 1400 - SURVEY LATIN AMERICAN LITERATURE
- SPAN 1600 - SURVEY OF SPANISH LITERATURE
- SPAN 1300-level course
- PORT 0001 - ELEMENTARY PORTUGUESE 1

**Upper Level**

- SPAN 1806 - CAPSTONE SEMINAR

**Three electives**

Three electives from the SPAN 1400, SPAN 1600, SPAN 1700, and SPAN 1800 level course series, or PORT 0002 - ELEMENTARY PORTUGUESE 2 of you are pursuing the Portuguese minor or related area. These courses include, for example, Colonial Literatures and Cultures, Latin American Novel, U.S. Latino Literature and Film, African Presence in Hispanic Literature and Culture, Don Quixote, Modern Spanish Novel and Film, etc. Note that SPAN 1400, SPAN 1600, and PORT 1010 do not count toward the Spanish major.
Additional information and requirements

- **Related area**: Students must complete a 12-credit related area in order to fulfill Dietrich School graduation requirements. Students interested in Latin America should consider the Latin American Studies Certificate program for a related area.
- **W requirement**: SPAN 0055 - INTRODUCTION HISPANIC LITERATURE 1 satisfies this requirement.
- **Grade requirements**: Students must maintain an average GPA of 2.0 or above in all department courses. No courses with a grade of C- or lower will count toward the major.
- **Satisfactory/No-Credit option**: Majors may take one required course on an S/NC basis.
- **Language of instruction**: Spanish majors can take up to one course offered by the department that is taught in English. In order to have it count toward minor requirements, written assignments must be submitted in Spanish.
- **Study Abroad**: At least one term of study abroad is recommended.
- **Credits in residence**: To complete the Spanish major, students are required to take at least half of the credits required for the major while in residence in the Dietrich School.
- **Placement into language courses**: For the Spanish placement test, please contact the Spanish Language Coordinator, Carlos Ramirez, cramirez@pitt.edu. For the Portuguese placement test, please contact the Portuguese Language Coordinator, Ana Paula Carvalho, apcstl1@pitt.edu.
- **Credit by examination**: Students may receive credit by examination for the Spanish language courses up to and including SPAN 1025 - ADVANCED GRAMMAR. Similar credits may be earned in Portuguese.

Double majors, dual degrees and CLAS certificates

Students who have declared an additional major or pursue a dual degree need not to take SPAN 1301. The same rule applies to students taking the CLAS Field Trip to Latin America. Only one course reduction applies if a student meets more than one of these criteria.

Luso-Brazilian Culture Minor

**Prerequisite**

Before declaring this minor, students must complete PORT 0001 - ELEMENTARY PORTUGUESE 1 or take a placement test.

**Required courses**

- PORT 0002 - ELEMENTARY PORTUGUESE 2
- PORT 0003 - INTERMEDIATE PORTUGUESE 3
- PORT 0004 - INTERMEDIATE PORTUGUESE 4
- PORT 0020 - CONVERSATION
- PORT 0025 - GRAMMAR AND COMPOSITION

Spanish Minor

Before declaring the Spanish minor, students must complete four Spanish language courses in order to gain indispensable skills to effectively read, write, and discuss in a foreign language. Students with previous Spanish experience are encouraged to take a placement exam. Students must earn a grade of B+ or higher in SPAN 0004 to declare this minor.

**Prerequisite courses**

- SPAN 0001 - ELEMENTARY SPANISH 1
- SPAN 0002 - ELEMENTARY SPANISH 2
- SPAN 0003 - INTERMEDIATE SPANISH 3

297
• SPAN 0004 - INTERMEDIATE SPANISH 4

Required courses

• SPAN 0020 - CONVERSATION
• SPAN 0025 - GRAMMAR AND COMPOSITION

• SPAN 0050 - SPANISH CIVILIZATION or
• SPAN 1250 - HISPANIC CIVILIZATIONS

• Any 1300-level Spanish course

Two of the following courses

• Any SPAN 1400-level course except SPAN 1400
• Any SPAN 16-level course except SPAN 1600
• Any SPAN 1700-level course
• Any SPAN 1800-level course

Department of History

Historians use methods, techniques, and ideas from a wide range of humanistic and social scientific fields to teach students how materials from many fields are integrated to describe or explain a particular historical time period or topic. History is an open-ended discipline, and the department welcomes students, as well as ideas and techniques, from other subjects. History also gives a student many options for a future career. Many history majors have become lawyers, journalists, civil servants, and business executives. The future of a history major is not limited to college or school teaching, although these are also available career choices. Expanding opportunities are to be found in public and private agencies, in businesses, archives, historical societies, museums, and government offices. History courses may help students to develop a balanced program that will further their career and intellectual goals. Courses in economics and history could lead to an understanding of economic development and aid a business or civil service career; a combination of language, literature, and history would give a student background that could lead to a career in foreign service or teaching; a mixture of communication and writing with history might prepare one for a career in journalism. In short, students in practically any field can investigate questions that are intellectually exciting and personally helpful by taking history courses related to their programs and ambitions. For more information on the major, the minor, or the Department of History, visit http://www.history.pitt.edu/.

History, BA

Major Requirements

Majors in history must complete a minimum of 30 credits in history courses, including the following:

• Required core courses (15 credits)
• One course in pre-1500 history
• One course in Latin American, Asian, East European, Russian and Soviet, African, or Middle Eastern history
• Required focused area of study (12 credits)

One survey course in U.S. history from the following list:

• HIST 0600 - UNITED STATES TO 1877
• HIST 0601 - UNITED STATES 1865-PRESENT
• HIST 0670 - AFRO-AMERICAN HISTORY 1
• HIST 0671 - AFRO-AMERICAN HISTORY 2
One survey course in European history from the following list:

- HIST 0100 - WESTERN CIVILIZATION 1
- HIST 0101 - WESTERN CIVILIZATION 2
- HIST 0200 - EAST CENTRAL EUROPE
- HIST 1240 - POLITICAL EAST EUROPE

One required seminar for majors

- HIST 1000 - CAPSTONE SEMINAR
- HIST 1001 - INTRODUCTORY SEMINAR

Note:

Majors must take four courses beyond the core courses. These courses will be selected by the student with the help of a faculty member or the undergraduate advisor to form a focused area of study. Such areas may be chronological, geographic, or thematic and normally should be declared during the junior year. Many students choose a geographical focus, e.g., History of the Americas or Europe; however students are encouraged to discuss with their advisors or faculty concentrations based on their own grouping together of four courses.

- One additional history course

In addition to those course requirements, the following rules and requirements apply for history majors:

- Students must earn at least a 2.00 overall GPA in history courses.
- Fifteen credits must be in courses numbered 1000 or above.
- Majors may take a total of 9 credits for the major on an S/NC basis (formerly the S/N option). HIST 1000 - CAPSTONE SEMINAR or HIST 1001 - INTRODUCTORY SEMINAR may not be taken S/NC (formerly the S/N option).
- Students may earn up to 9 credits in history on a credit-by-examination basis; arrangements can be made by contacting the instructor of the course involved.
- Students must complete an A&S 12-credit related area; economics, sociology, political science, statistics, or computer science are suggested.
- History majors are strongly encouraged to add an international dimension to their undergraduate education by studying abroad.
- Students interested in graduate study in history should be aware that all graduate departments of history require proficiency in at least one second language and that many require competence in two languages for a PhD.
- The honors program consists of the regular major plus 6 extra credits. Students apply for the honors program in their sophomore year and should have completed 12 credits in history, have a 3.35 GPA overall and a 3.50 in history, and submit a piece of writing for approval by the Undergraduate Committee. There are four elements to the honors program:
  - The special honors seminar, HIST 1902 - WRITING: HISTORY HONORS SEMINAR; this is separate from and in addition to the required seminar for majors
  - One University Honors College history course
  - An independent study (HIST 1901)
  - The completion and acceptance of a 25-50 page honors thesis
  - No grade below B is acceptable to fulfill the honors requirements.

Internships for History Credit

History majors may do an internship for 3 credits (HIST 1900) in a local museum in either the fall or spring semesters. Contact the history academic advisor for information.

Study Abroad

Each year the department offers a scholarship for study abroad. Applications for the A. J. Schneider Award are due by February each year. Contact the history undergraduate advisor for more information.
History Minor

Minor Requirements

The history minor consists of two lower-level courses followed by three upper-level courses, for a total of 15 credits. The two lower-level (survey) courses may be in the same geographical area or in two different areas. For example, courses may be chosen from among the following:

- HIST 0100 - WESTERN CIVILIZATION 1
- HIST 0101 - WESTERN CIVILIZATION 2
- HIST 0200 - EAST CENTRAL EUROPE
- HIST 1240 - POLITICAL EAST EUROPE
- HIST 0300 - RUSSIA TO 1860
- HIST 0301 - RUSSIA TO 1917
- HIST 0400 - EAST ASIAN CIVILIZATION TO 1800
- HIST 0401 - MODERN EAST ASIAN CIVILIZATION
- HIST 0500 - COLONIAL LATIN AMERICA
- HIST 0501 - MODERN LATIN AMERICA
- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0670 - AFRO-AMERICAN HISTORY 1
- HIST 0671 - AFRO-AMERICAN HISTORY 2

Note:

Normally, the three upper-level courses should be chosen from the geographic area of one of the survey courses already taken.

Department of History of Art and Architecture

Art, like science or language, is an intrinsically human way of organizing our experience of the world. Because it appeals to a fundamental sense of order, art can speak to us with immediacy even without knowledge of the purposes for which it was created and the particular principles or order adhered to by the artists of a given culture. Still deeper understanding may follow, however, from an awareness of these purposes and principles, and courses in art history are concerned with the study of art and architecture as cultural documents of the values and ideals of various cultures. Art history offers an opportunity to consider objects and environments that have been created in response to some of humanity's loftiest and most basic aims. The requirement that these visual expressions be analyzed and evaluated in the medium of words makes art history a rewarding area of humanistic study. The major in the history of art and architecture offered by the HAA department helps prepare individuals for careers calling for skills in writing, where description and analysis play important roles, as well as for careers more immediately related to art, such as those of critic, teacher, librarian, art administrator, or museum or gallery staff member.

The architectural studies major, also administered by the HAA department, offers a curriculum devoted to the study of human-made environments. The major components include history of architecture, studio arts, and a core curriculum that includes a survey of the history of architecture, the history of architecture theory, a professional internship, and a portfolio. The degree is suitable for a wide variety of careers and professions including the design and construction of the built environment, such as landscape architecture, interior design, restoration, historic preservation, real estate development, and contracting. These interests can be categorized in two groups:

- The preprofessional studies category prepares students for graduate professional training in any of the environmental design fields (architecture, interior design, landscape design, urban planning, and preservation). Students are able to explore a professional interest while acquiring a liberal arts education.
- The nonprofessional studies category is for students not interested in becoming professional architects. This program offers a rigorous curriculum that assists students in exploring their interest in environmental arts and criticism and provides an understanding of the environment's integral relationship with society and culture.

Students of both categories should be fully aware that this degree in architectural studies does not in itself constitute professional or technical training. Students seeking recommendations to graduate professional programs in architecture must complete a number of natural science courses in
addition to those focused on architecture and design. Proficiency in calculus is required for students seeking a career in architecture. The department strongly recommends that students successfully complete at least one term of college level calculus (MATH 0220 or equivalent) before graduation.

For more information on these majors and the History of Art Architecture department, see www.haa.pitt.edu.

Architectural Studies Major

This major offers students two options - the Design track and the Preservation Track.

Architectural Studies - Design Track Studio Arts Concentration, BA

Requirements

The Design track requires completion of 48 credits with an additional 9 credits in a Studio Arts concentration.

Architectural Studies courses

- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
- HAA 1040 - ARCHITECTURE: IMAGE, TEXT, THEORY
- HAA 1900 - ARCHITECTURAL STUDIES INTERNSHIP
- HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1
- HAA 1913 - FOUNDATIONS STUDIO 1 *
- HAA 1914 - ARCHITECTURE AND DIGITAL MEDIA 2
- HAA 1916 - ARCHITECTURE DESIGN STUDIO 1
- HAA 1917 - ARCHITECTURE DESIGN STUDIO 2

Note:

* This course will carry six credits as of spring 2016 term.

+ Effective spring 2015 term, a grade of C or better is required in HAA 1913 to enroll in this course.

Physics course

- PHYS 0110 - Introduction to Physics 1

History of Art and Architecture courses

- HAA 0040 - INTRODUCTION TO WESTERN ARCHITECTURE
- HAA 0480 - MODERN ARCHITECTURE
- Two additional HAA courses in architectural history

Required Studio Arts Concentration

- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 1430 - DRAWING STUDIO: PERSPECTIVE

Architectural Studies Major other requirements and recommendations
• A GPA of at least 2.00 in all department courses is required for graduation with a major in Architectural Studies. A minimum GPA of 2.75 is required for an internship, and a minimum of 3.0 is required for those seeking a recommendation for graduate school. Students who plan to apply to graduate school should maintain a minimum GPA of 3.25.

• Only the experiential learning courses HAA 1900, HAA 1901, HAA 1904, HAA 1905, and HAA 1909 may be taken on an S/NC basis. None of these courses can be applied toward the architectural history requirement.

• Students must complete at least one writing-intensive course (W-course) in the major. Each track has a W-course in its requirements - HAA 1040 for the Design track, and HAA 1922 for the Preservation track.

• Students who plan to major in Architectural Studies should contact the departmental advisor as early in their college career as possible to discuss the recommended course sequence for each track, course availability, and entry into restricted classes.

• Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Architectural Studies - Preservation Track History of Urban America Concentration, BA

Requirements

The Preservation track requires completion of 39 credits with an additional 12 credits in a proscribed related area in either the History of Urban America or Public Service.

History of Art and Architecture courses

• HAA 0040 - INTRODUCTION TO WESTERN ARCHITECTURE
• Two additional HAA courses in architectural history

One of the following courses

• HAA 1530 - EARLY AMERICAN ARCHITECTURE
• HAA 1531 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION

Architectural Studies courses

• HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
• HAA 1900 - ARCHITECTURAL STUDIES INTERNSHIP
• HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1
• HAA 1913 - FOUNDATIONS STUDIO 1 *

Note:

* This course will carry six credits as of spring 2016 term.

Preservation courses

• HAA 1920 - INTRODUCTION TO HISTORIC PRESERVATION
• HAA 1921 - DOCUMENTATION AND CONSERVATION STUDIO
• HAA 1922 - PRESERVATION - TEXTS AND THEORY

Required Concentration
Every Preservation track major must select either the History of Urban America or Public Service. See www.arch.pitt.edu/prorgram/preservation_track.php for a detailed discussion of the coursework for each.

Architectural Studies Major other requirements and recommendations

- A GPA of at least 2.00 in all department courses is required for graduation with a major in Architectural Studies. A minimum GPA of 2.75 is required for an internship, and a minimum of 3.0 is required for those seeking a recommendation for graduate school. Students who plan to apply to graduate school should maintain a minimum GPA of 3.25.
- Only the experiential learning courses HAA 1900, HAA 1901, HAA 1904, HAA 1905, and HAA 1909 may be taken on an S/NC basis. None of these courses can be applied toward the architectural history requirement.
- Students must complete at least one writing-intensive course (W-course) in the major. Each track has a W-course in its requirements - HAA 1040 for the Design track, and HAA 1922 for the Preservation track.
- Students who plan to major in Architectural Studies should contact the departmental advisor as early in their college career as possible to discuss the recommended course sequence for each track, course availability, and entry into restricted classes.
- Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Architectural Studies - Preservation Track Public Service Concentration, BA

Requirements

The Preservation track requires completion of 39 credits with an additional 12 credits in a proscribed related area in either the History of Urban America or Public Service.

History of Art and Architecture courses

- HAA 0040 - INTRODUCTION TO WESTERN ARCHITECTURE
- Two additional HAA courses in architectural history

One of the following courses

- HAA 1530 - EARLY AMERICAN ARCHITECTURE
- HAA 1531 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION

Architectural Studies courses

- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
- HAA 1900 - ARCHITECTURAL STUDIES INTERNSHIP
- HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1
- HAA 1913 - FOUNDATIONS STUDIO 1 *

Note:

* This course will carry six credits as of spring 2016 term.

Preservation courses

- HAA 1920 - INTRODUCTION TO HISTORIC PRESERVATION
- HAA 1921 - DOCUMENTATION AND CONSERVATION STUDIO
- HAA 1922 - PRESERVATION - TEXTS AND THEORY
Required Concentration

Every Preservation track major must select either the History of Urban America or Public Service. See www.arch.pitt.edu/program/preservation_track.php for a detailed discussion of the coursework for each.

Architectural Studies Major other requirements and recommendations

- A GPA of at least 2.00 in all department courses is required for graduation with a major in Architectural Studies. A minimum GPA of 2.75 is required for an internship, and a minimum of 3.0 is required for those seeking a recommendation for graduate school. Students who plan to apply to graduate school should maintain a minimum GPA of 3.25.
- Only the experiential learning courses HAA 1900, HAA 1901, HAA 1904, HAA 1905, and HAA 1909 may be taken on an S/NC basis. None of these courses can be applied toward the architectural history requirement.
- Students must complete at least one writing-intensive course (W-course) in the major. Each track has a W-course in its requirements - HAA 1040 for the Design track, and HAA 1922 for the Preservation track.
- Students who plan to major in Architectural Studies should contact the departmental advisor as early in their college career as possible to discuss the recommended course sequence for each track, course availability, and entry into restricted classes.
- Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Architecture, BS

The Architectural Studies Program's website is an invaluable resource for detailed information about current activities and projects, the curriculum in each track, and resources for students seeking to pursue careers in architectural professions. Please visit www.arch.pitt.edu.

Required courses for the major

The Architecture BS requires the completion of 57 to 58 credits, distributed as follows.

Architectural Studies courses (45 credits)

- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
- HAA 1040 - ARCHITECTURE: IMAGE, TEXT, THEORY
- HAA 1900 - ARCHITECTURAL STUDIES INTERNSHIP
- HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1
- HAA 1913 - FOUNDATIONS STUDIO 1
- HAA 1914 - ARCHITECTURE AND DIGITAL MEDIA 2
- HAA 1916 - ARCHITECTURE DESIGN STUDIO 1
- HAA 1917 - ARCHITECTURE DESIGN STUDIO 2
- HAA 1918 - DESIGN STUDIO 3
- HAA 1919 - DESIGN STUDIO 4

History of Art and Architecture courses (12 credits)

- HAA 0040 - INTRODUCTION TO WESTERN ARCHITECTURE
- HAA 0480 - MODERN ARCHITECTURE
  - Two Additional HAA Courses from the approved list of electives.

Approved elective courses

- HAA 0221 - MEDIEVAL ARCHITECTURE
- HAA 0460 - ART IN PUBLIC: INCLUSION, IDENTITY, AND ACTIVISM
- HAA 0510 - PITTSBURGH ARCHITECTURE/URBANISM
- HAA 0900 - SPECIAL TOPICS-ARCHITECTURAL STUDIES
- HAA 1160 - ROMAN ARCHITECTURE
- HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
- HAA 1306 - HIGH RENAISSANCE ARCHITECTURE
- HAA 1407 - ARCHITECTURE AND ENLIGHTENMENT
- HAA 1475 - MODERNITY, MODERNISM AND HOUSING
- HAA 1480 - ARCHITECTURE SINCE 1945
- HAA 1510 - PITTSBURGH ARCHITECTURE/URBANISM
- HAA 1530 - EARLY AMERICAN ARCHITECTURE
- HAA 1531 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1630 - CHINA: VILLAGE & URBAN ARCHITECTURAL SPACE
- HAA 1656 - JAPAN: ARCHITECTURE AS PERFORMATIVE SPACE
- HAA 1680 - JAPAN: ARTIST AND CITY
- HAA 1907 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- HAA 1910 - SPECIAL TOPICS-ARCHITECTURE
- HAA 1920 - INTRODUCTION TO HISTORIC PRESERVATION
- HAA 1923 - GLOBAL PRESERVATION

Studio Arts courses (six credits)

- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1

Physics courses (three credits); choose one of the following courses

- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
  - CMU 48-116 Building Physics

CMU courses in Building Science (six credits); choose two of the following courses

- CMU 48-215 Materials & Assembly
- CMU 48-351 Human Factors
- CMU 48-324 Statics & Structures
- CMU 48-315 Environment 1

Note:

Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Required Related Area (12 credits)

Every preservation track major must select either the History of Urban American or the Public Service Related area.

Grade requirements:
A minimum GPA of 2.0 is required in those courses that count toward the major. A minimum GPA of 2.75 is required for the internship and a 3.00 for a recommendation to graduate school (although students wishing to apply to graduate school should maintain a minimum GPA of 3.25.)

Satisfactory/No Credit option:

Only the experiential learning courses HAA 1900, HAA 1901, HAA 1904, HAA 1905 and HAA 1909 may be taken on an S/NC basis. None of these can be applied toward the architectural history course requirement.

Writing (W) requirement:

Students must complete at least one W-course in the major. Each track has a w-course in its requirements (HAA 1040 for the Design track and HAA 1922 for the Preservation track.)

Advising:

It is imperative that students who intend to pursue the architectural studies major contact the departmental advisor as soon as possible to discuss the recommended course sequence for each track, course availability and entry into restricted classes.

History of Art and Architecture - Honors Major Option, BA

Option Requirement

Students electing the HAA 36-credit program and who have at least a 3.50 overall GPA and a 3.50 GPA in HAA may qualify for departmental honors by meeting the following requirements. This option is especially recommended for students planning to apply to graduate programs in the history of art architecture or related fields.

**Honors major requirements:** Honors in the history of art and architecture is granted if the student satisfies all requirements for the intensive major, and:

- maintains a GPA of 3.5 or above in HAA courses;
- maintains an overall GPA of 3.5 or above;
- completes HAA 1950 HAA 1950 - SENIOR THESIS with a minimum grade of A-, and;
- completes HAA 1951 HAA 1951 - HONORS RESEARCH SEMINAR.

HAA 1950 and HAA 1951 can be applied toward the 1000-level requirements for the major.

History of Art and Architecture, BA

The HAA major requires the completion of 29 credits. An intensive major option that requires 38 credits also exists; this option is highly recommended for students whose only major is HAA and/or who seek to embark on arts-related careers.

Core Courses

- HAA 0010 - INTRODUCTION TO WORLD ART
- HAA 0101 - FOUNDATIONS OF ART HISTORY
One of the following courses

- HAA 1010 - APPROACHES TO ART HISTORY
- HAA 1040 - ARCHITECTURE: IMAGE, TEXT, THEORY

Nine additional courses, as follows

Beyond the core curriculum, students must take an additional six courses according to the following requirements. Students pursuing the intensive track must take an additional nine courses according to the following requirements.

Breadth Requirements

Students must take at least one class from each of the following areas.

- Ancient art across the globe
- Asian art
- European art before 1750
- Modern or Contemporary art

Additionally, students must complete at least two courses at the 1000-level that address Comparative or World art. Students pursuing the intensive option should take four courses at the 1000-level in these categories.

Studio Arts

Students may elect to take one of the following courses toward completion of their HAA major.

- SA 0110 - VISUAL THINKING
- SA 0120 - PAINTING STUDIO 1
- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY

Other requirements

Grade requirements: A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No course required for the major can be taken on an S/NC basis except HAA 1901, HAA 1903, HAA 1904, HAA 1905, and HAA 1909. These experiential learning courses do not count toward the 1000-level requirements.

Writing (W) requirement: Students must complete at least one W-course in the major. HAA 1010 is the W course for the HAA major.

Related area: A minimum of 12 credits is required in any one Arts and Sciences department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or Dietrich School, UCIS, or College of General Studies certificate also satisfies this requirement.

Architecture-Design Minor

The Architecture-Design minor consists of 18 credits, distributed as follows.

Requirements for the minor
The minor in Architecture - Design provides an option for students majoring in fields such as Civil Engineering, Environmental Studies, History, Studio Arts, Urban Studies and for whom course work in architectural design and history will provide additional breadth in their studies of the built environment. The minor requires that students complete 18 credits, 12 of which are studio-based design courses and six of which will provide historical and theoretical background for thinking about architecture and the built environment.

Foundational course in architecture

- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT

Two courses in architectural design

Students must earn a letter grade of C or higher in HAA 1913 HAA 1913 - FOUNDATIONS STUDIO 1 to enroll in HAA 1916 HAA 1916 - ARCHITECTURE DESIGN STUDIO 1.

- HAA 1913 - FOUNDATIONS STUDIO 1
- HAA 1916 - ARCHITECTURE DESIGN STUDIO 1

One course in architectural history

- HAA 0040 - INTRODUCTION TO WESTERN ARCHITECTURE
- HAA 0221 - MEDIEVAL ARCHITECTURE
- HAA 0460 - ART IN PUBLIC: INCLUSION, IDENTITY, AND ACTIVISM
- HAA 0480 - MODERN ARCHITECTURE
- HAA 0510 - PITTSBURGH ARCHITECT/URBANISM
- HAA 0900 - SPECIAL TOPICS-ARCHITECTURAL STUDIES
- HAA 1160 - ROMAN ARCHITECTURE
- HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
- HAA 1306 - HIGH RENAISSANCE ARCHITECTURE
- HAA 1407 - ARCHITECTURE AND ENLIGHTENMENT
- HAA 1475 - MODERNITY, MODERNISM AND HOUSING
- HAA 1480 - ARCHITECTURE SINCE 1945
- HAA 1510 - PITTSBURGH ARCHITECTURE/URBANISM
- HAA 1530 - EARLY AMERICAN ARCHITECTURE
- HAA 1531 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1630 - CHINA: VILLAGE & URBAN ARCHITECTURAL SPACE
- HAA 1656 - JAPAN: ARCHITECTURE AS PERFORMATIVE SPACE
- HAA 1680 - JAPAN: ARTIST AND CITY
- HAA 1907 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- HAA 1910 - SPECIAL TOPICS-ARCHITECTURE
- HAA 1920 - INTRODUCTION TO HISTORIC PRESERVATION
- HAA 1923 - GLOBAL PRESERVATION

Two co-requisites

HAA 1912 HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1 may be waived for students who have taken a course in AutoCAD in high school or the equivalent course in the Department of Civil Engineering in the Swanson School of Engineering - CEE 0109 CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1.

SA 0130 SA 0130 - DRAWING STUDIO 1 may be waived for students who have taken art courses in high school.

- HAA 1912 - ARCHITECTURE AND DIGITAL MEDIA 1
- SA 0130 - DRAWING STUDIO 1
Historic Preservation Minor

The minor in Historic Preservation is for students who are interested in a specialized focus on the preservation and documentation of historic architecture and the built environment.

Students pursuing the Historic Preservation minor must complete the following coursework, which comprises 18 credits.

Requirements for the minor

- ANTH 1541 - CULTURAL RESOURCE MANAGEMENT
- HAA 1920 - INTRODUCTION TO HISTORIC PRESERVATION
- HAA 1900 - ARCHITECTURAL STUDIES INTERNSHIP
  The internship must be conducted with an organization that pertains to the field of historic preservation and be approved by the director of the Architectural Studies program.

Three additional courses

Students pursuing this minor must complete three courses from the following list, for a total of at least nine credits.

- HAA 0940 - APPROACHES TO THE BUILT ENVIRONMENT
- HAA 0510 - PITTSBURGH ARCHITECT/URBANISM or
- HAA 1510 - PITTSBURGH ARCHITECTURE/URBANISM
- HAA 1530 - EARLY AMERICAN ARCHITECTURE
- HAA 1531 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1913 - FOUNDATIONS STUDIO 1
- HAA 1921 - DOCUMENTATION AND CONSERVATION STUDIO The Architectural Studies program strongly recommends that students choose this course as one of the three from the list.
- HAA 1922 - PRESERVATION - TEXTS AND THEORY
- HAA 1923 - GLOBAL PRESERVATION

Museum Studies Minor

This minor is grounded in the department's historic strengths - to offer students a critically informed understanding of how cultural artifacts have been, are, and can be collected and curated. At its core, the goal of the Museum Studies Minor is to introduce students to the approaches, history, and theories of museum and collection practices.

Students pursuing the Museum Studies minor must complete the following coursework, which comprises 16 credits.

One foundational course from the following list

- HAA 0010 - INTRODUCTION TO WORLD ART
- HAA 0020 - INTRODUCTION TO ASIAN ART
- HAA 0030 - INTRODUCTION TO MODERN ART
- HAA 0090 - INTRODUCTION TO CONTEMPORARY ART

The following three courses

- HAA 1020 - MUSEUM STUDIES EXHIBITION SEMINAR
- HAA 1025 - HISTORY AND ETHICS OF COLLECTING
HAA 1905 - MUSEUMS STUDIES INTERNSHIP

Note

The Academic Curator of the Department of History of Art and Architecture will work with Museum Studies minors to place them into internship positions that are approved to satisfy the minor requirement.

One of the following courses

- ANTH 0582 - INTRODUCTION TO ARCHEOLOGY
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ANTH 1541 - CULTURAL RESOURCE MANAGEMENT
- CLASS 0600 - INTRODUCTION TO MEDITERRANEAN ARCHAEOLOGY
- HAA 1030 - SPECIAL TOPICS- MUSEUM STUDIES
- INFSCI 0010 - INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY

Department of History and Philosophy of Science

Conceptual Foundations of Medicine Certificate

This certificate requires completion of at least 18 credits. Students enrolled in the program are expected to achieve at least a letter grade of C in each required course. Those interested in pursuing this certificate must apply to the program as early as possible. Applications are available on the certificate's Web page, www.hps.pitt.edu/undergraduate/certificate.php.

Core courses

- HPS 0612 - MIND AND MEDICINE
- HPS 0613 - MORALITY AND MEDICINE

Biological Sciences courses

A two-term, college level course sequence in biology, such as BIOSC 0150 BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 and BIOSC 0160 BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 are required for this certificate.

Additional coursework

Two additional approved courses in two different departments dealing with social and conceptual issues in the biomedical sciences are required for this certificate. A list of such approved courses is available in the Department of History of Philosophy and Science prior to each term. Courses are approved on a term-by-term basis.

Other requirements

**Grade Requirements:** Students are expected to achieve a minimum grade of C in each course required for this certificate. A minimum overall GPA of 2.25 is required in courses required for this certificate.

**Satisfactory/No Credit Option:** No course that fulfills a requirement for this certificate may be taken on an S/NC basis.

Department of Linguistics
Linguistics is concerned with the study of language as a core property of human cognition and interaction. It is a broad field that straddles the humanities, social sciences, and natural sciences. Major areas of study in linguistics include the following fields:

- Applied linguistics: second-language learning theory, literacy, bilingual education
- Computational linguistics: natural language generation, knowledge representation and artificial intelligence, recognition of systems
- Theoretical linguistics: development of psychologically plausible models of language sound systems, word structure, sentence and discourse structure, meaning
- Historical and comparative linguistics: study of language history, both language change and relationships among languages
- Descriptive-anthropological linguistics: documentation and analysis of languages, especially little-known languages through field work
- Psycholinguistics: research on such topics as sentence processing, problems in reading, how children acquire their first language (childhood language acquisition)
- Sociolinguistics: study of language use and socially controlled variation in form, conversation and narrative discourse, social trends reflected in language use, political aspects of language use

Careers in linguistics include teaching English as a second language and other languages including American Sign Language; computational linguistic research in industry and public agencies; field research on endangered languages and cultures; research and teaching at the university level; careers in publishing and advertising; speech pathology and rehabilitation; translation and interpreting; law; and governmental consulting on language policies. Most careers in linguistics require graduate training.

Many, but certainly not all, people come to linguistics through a love of languages. However, love of languages itself is not sufficient to ensure success and happiness as a linguistics major. The student must also enjoy analytical thought, as linguists employ analytical tools in the study of human languages. Students considering a major in linguistics should take the introductory linguistics course (LING 1950 - INTRODUCTION TO LINGUISTICS) at their earliest opportunity to help gauge if the major is right for them. The linguistics major gives students a solid foundation in the central areas of linguistic theory and analysis. The structure of human language (its sounds, word structures, and syntax) is the focus of the linguistics courses required for the major. In addition, the major's language requirement is designed to make sure students acquire a perspective on linguistic structures besides those of their native language and at least some exposure to one language that is structurally very unlike English. For more information on the major or the Department of Linguistics, see www.linguistics.pitt.edu.

**Linguistics, BA**

**Major Requirements**

Students must complete at least 24 credits in the linguistics department including the following courses:

- LING 1682 - INTRODUCTION TO SEMANTIC THEORY or
- LING 1860 - INTRO TO HISTORICAL LINGUISTICS

- LING 1773 - MORPHOLOGY
- LING 1777 - SYNTACTIC THEORY
- LING 1578 - PHONETICS AND PHONEMICS
- LING 1579 - PHONOLOGY

**Note:**

A student may petition to have a given requirement waived if an equivalent course was completed elsewhere before registering as a departmental major.

**Other requirements and rules for linguistics majors are as follows:**

- Knowledge of any second language equivalent to one year of college-level study is required. The student's knowledge of the language may be evaluated if first-year college-level courses are not taken.
- Majors must have at least a 2.00 GPA in linguistics courses.
- No more than 6 credits may be taken on the S/NC basis (formerly the S/N option).
- Credit by examination is not available.
Courses for the W requirement and for the A&S-required 12-credit related area are chosen in consultation with the departmental advisor. Besides second language and literature departments, the most appropriate related areas are anthropology, communication, computer science, English, history and philosophy of science, psychology, philosophy, sociology, and theatre arts.

- LING 0080 - ASPECTS OF LANGUAGE and LING 0101-0964 (uncommonly taught languages) do not count toward the major.
- Any student considering graduate work in linguistics, especially at the PhD level, should take French, German, or Russian. In addition to the language requirement described above, the student must take three more terms of language study (although in special cases, students may petition to have part of this requirement waived). At least 3 credits of this additional requirement must be taken in some language that is not Romance (including Latin), Germanic, Baltic, Slavic, or Greek, unless the language chosen to fulfill the language requirement above falls into this category.

**Note:**

Courses offered by the English Language Institute for students who are learning or improving their English language skills do not count toward the linguistics major.

### Hindi Minor

This minor requires 17 credits of coursework to complete.

#### Language courses

- HINDI 0101 - HINDI 1
- HINDI 0102 - HINDI 2
- HINDI 0103 - HINDI 3
- HINDI 0104 - HINDI 4

#### Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Hindi or South Asia may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- HINDI 0105 Hindi 5
- HINDI 0106 Hindi 6
- HINDI 1909 - SPECIAL TOPICS IN HINDI
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ANTH 0730 - HIMALAYAN GEOGRAPHY
- ANTH 1764 - CULTURES AND SOCIETIES OF INDIA
- ANTH 1801 - HIMALAYAN BIODIVERSITY
- ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA
- HIST 0755 - RELIGION IN ASIA
- HIST 1707 - GENDER IN GLOBAL HISTORY
- HIST 1757 - RELIGION IN INDIA 1
- HIST 1758 - RELIGION IN INDIA 2
- RELGST 0505 - RELIGION IN ASIA
- RELGST 1500 - RELIGION IN INDIA 1
- RELGST 1510 - RELIGION IN INDIA 2: STORYTELLING AS A RELIGIOUS FORM

### Irish Minor
This minor requires 17 credits of coursework to complete.

Language courses

- IRISH 0101 - IRISH (GAELGE) 1
- IRISH 0102 - IRISH (GAELGE) 2
- IRISH 0103 - IRISH (GAELGE) 3
- IRISH 0104 - IRISH (GAELGE) 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Irish or Ireland may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- IRISH 0105 - IRISH (GAELGE) 5
- IRISH 0106 - IRISH (GAELGE) 6
- IRISH 1615 - IRISH CULTURE AND TRADITIONS
- IRISH 1909 - SPECIAL TOPICS IN IRISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ENGLIT 0815 - IRISH LITERATURE
- HIST 0150 - HISTORY OF MODERN IRELAND
- HIST 1016 - THE IRISH IN AMERICA

Linguistics Minor

An minor in linguistics would be particularly useful for students majoring in English, second languages, philosophy, anthropology, psychology, sociology, communications, speech science, neuroscience, computer science, and information science, as well as for students with an interest in teaching English as a second language, going to law school, or otherwise choosing a profession in which language plays a crucial part.

Academic Requirements

The minor consists of 15 credits and comprises the following courses:

- LING 1578 - PHONETICS AND PHONEMICS
- LING 1777 - SYNTACTIC THEORY
- Two electives, chosen from the linguistics courses at the 1000 level (e.g., Phonology, Morphology, Historical Linguistics, Aspects of Sociolinguistics, Introduction to Applied Linguistics)

Modern Greek Minor

This minor requires 17 credits of coursework to complete.

Language courses

- GREEKM 0101 - GREEK (MODERN) 1
- GREEKM 0102 - GREEK (MODERN) 2
- GREEKM 0103 - GREEK (MODERN) 3
Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Modern Greek, Greece, or Cyprus may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- GREEKM 0104 - GREEK (MODERN) 4
- GREEKM 0105 - GREEK (MODERN) 5
- GREEKM 0106 - GREEK (MODERN) 6
- GREEKM 1615 The Greeks: Journey Through Culture
- GREEKM 1909 - SPECIAL TOPICS IN MODERN GREEK
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- CLASS 0010 - GREEK CIVILIZATION
- CLASS 0030 - MYTHOLOGY IN THE ANCIENT WORLD
- CLASS 0032 - ATHLETICS OF THE ANCIENT WORLD
- CLASS 1130 - CLASSICAL MYTHOLOGY AND LITERATURE
- CLASS 1210 - GREEK HISTORY
- CLASS 1510 - GREEK ART
- CLASS 1630 - MARGINALITY IN THE ANCIENT GREEK WORLD
- ECON 1680 - ECONOMICS OF THE EUROPEAN UNION
- HAA 1110 - GREEK ART
- HIST 1164 - SMALL COUNTRIES AND THE EUROPEAN UNION
- HIST 1783 - GREEK HISTORY
- RELGST 0083 - MYTHOLOGY IN THE ANCIENT WORLD
- RELGST 1135 - ORTHODOX CHRISTIANITY

Persian/Farsi Minor

This minor requires 17 credits of coursework to complete.

Language courses

- PERS 0101 - PERSIAN (FARSI) 1
- PERS 0102 - PERSIAN (FARSI) 2
- PERS 0103 - PERSIAN (FARSI) 3
- PERS 0104 - PERSIAN (FARSI) 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Persian, Farsi, or Iran may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- PERS 0105 - PERSIAN (FARSI) 5
- PERS 0106 - PERSIAN (FARSI) 6
- PERS 0107 - PERSIAN (FARSI) 7
- PERS 0108 - PERSIAN (FARSI) 8
- PERS 1905 - UNDERGRADUATE TEACHING ASSISTANT IN PERSIAN (FARSI)
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0752 - EMPIRES OF THE STEPPE: EURASIA FROM THE MONGOLS TO THE SOVIET UNION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION

Quechua Minor

This minor requires 17 credits of coursework to complete.

Language courses

- QUECH 0101 - QUECHUA 1
- QUECH 0102 - QUECHUA 2
- QUECH 0103 - QUECHUA 3
- QUECH 0104 - QUECHUA 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Quechua or the Andes may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- QUECH 0105 Quechua 5
- QUECH 0106 Quechua 6
- QUECH 1909 - SPECIAL TOPICS IN QUECHUA
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ANTH 1528 - SOUTH AMERICAN ARCHAEOLOGY
- ANTH 1543 - ANCIENT STATES IN THE NEW WORLD
- HIST 0500 - COLONIAL LATIN AMERICA
- HIST 0501 - MODERN LATIN AMERICA
- HIST 1511 - VIOLENCE & MEMORY IN LATIN AMERICA

Swahili Minor

This minor requires 17 credits of coursework to complete.

Language courses

- SWAHL 0101 - SWAHLI 1
- SWAHL 0102 - SWAHLI 2
- SWAHL 0103 - SWAHLI 3
- SWAHL 0104 - SWAHLI 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Swahili or East Africa may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- SWAHL 0105 - SWAHLI 5
- SWAHL 0106 - SWAHLI 6
Swedish Minor

This minor requires 17 credits of coursework to complete.

Language courses

- SWE 0101 - SWEDISH 1
- SWE 0102 - SWEDISH 2
- SWE 0103 - SWEDISH 3
- SWE 0104 - SWEDISH 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Swedish or Sweden may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- SWE 0105 - SWEDISH 5
- SWE 0106 - SWEDISH 6
- SWE 1615 - SWEDEN - FROM VIKINGS TO NOW
- SWE 1909 - SPECIAL TOPICS IN SWEDISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0139 - VIKING AGE SCANDINAVIA
- HIST 0201 - THE BALTIC SEA: FROM THE VIKINGS TO POST-SOVIEt RE-UNION

Turkish Minor

This minor requires 17 credits of coursework to complete.

Language courses

- TURKSH 0101 - TURKISH 1
- TURKSH 0102 - TURKISH 2
- TURKSH 0103 - TURKISH 3
- TURKSH 0104 - TURKISH 4

Electives
Choose one course from the following list. Other courses that focus at least 25% effort on Turkish or Turkey may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- TURKSH 0105 - TURKISH 5
- TURKSH 0106 - TURKISH 6
- TURKSH 0107 - TURKISH 7
- TURKSH 0108 - TURKISH 8
- TURKSH 1615 - TURKISH CULTURE AND SOCIETY
- TURKSH 1909 - SPECIAL TOPICS IN TURKISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0752 - EMPIRES OF THE STEPPE: EURASIA FROM THE MONGOLS TO THE SOVIET UNION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- HIST 1175 - XENOPHOBIA IN MODERN EUROPE
- HIST 1753 - THE OTTOMAN EMPIRE (1300-1923)
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- PS 1348 - XENOPHOBIA IN MODERN EUROPE

Vietnamese Minor

This minor requires 17 credits of coursework to complete.

Language courses

- VIET 0101 - VIETNAMESE 1
- VIET 0102 - VIETNAMESE 2
- VIET 0103 - VIETNAMESE 3
- VIET 0104 - VIETNAMESE 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Vietnamese or Vietnam may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- VIET 0105 Vietnamese 5
- VIET 0106 Vietnamese 6
- VIET 1909 - SPECIAL TOPICS IN VIETNAMESE
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0403 - HISTORY OF MODERN SOUTHEAST ASIA: COLONIAL ERA TO PRESENT
- PS 1331 - GOVERNMENT AND POLITICS OF SOUTHEAST ASIA

American Sign Language Certificate

The Department of Linguistics offers an undergraduate Certificate in American Sign Language (ASL). This certificate program should lead students to: a high degree of proficiency in ASL; an understanding of the structure of ASL as a visual/gestural language; and an understanding of important issues in deaf culture and education.

This certificate program could conveniently accompany various undergraduate majors including, but not limited to, linguistics, communication science, and various undergraduate disciplines that serve as the basis for graduate-level degrees and certificates in the University of Pittsburgh School
of Education. The program draws on the academic strengths and resources of the Department of Linguistics in the Faculty of Arts and Sciences and the Department of Instruction and Learning in the School of Education.

Currently, there is a limit of 20 students per academic year who can enroll in the ASL certificate program. For this reason, each applicant will be required to go through an evaluation process. Applications are accepted early during the spring term of each academic year, and students will be notified of their acceptance or non-acceptance into the program before registering for fall classes. Please contact the Less-Commonly-Taught Languages Center, CL G-47, for application packets or more information (lctl@pitt.edu, 412-624-5512).

Requirements

Prerequisites

Students must pass the prerequisite courses with a letter grade of B or higher.

- ASL 0101 - AMERICAN SIGN LANGUAGE 1
- ASL 0102 - AMERICAN SIGN LANGUAGE 2

Required courses (18 credits)

Category 1

- ASL 0103 - AMERICAN SIGN LANGUAGE 3
- ASL 0104 - AMERICAN SIGN LANGUAGE 4

Category 2

- ASL 1615 - DEAF CULTURE

Category 3

Students must complete one of the following courses.

- LING 1000 - INTRODUCTION TO LINGUISTICS
- CSD 1020 - NATURE OF LANGUAGE

Category 4

Students must complete one of the following courses.

- ASL 1705 - STRUCTURE OF SIGN LANGUAGES
- ASL 1715 - STRUCTURE OF ASL AND ENGLISH

Category 5

Students must complete one of the following courses.

- ASL 1635 - ANALYSES OF ASL LITERATURE
- ASL 1725 - SOCIOLINGUISTICS OF SIGN LANGUAGE
- ASL 1800 - INTRODUCTION TO ASL-ENGLISH INTERPRETING
- ASL 1909 - TOPICS IN SIGN LANGUAGE STUDIES
Other requirements

**Grade Requirements:** A minimum GPA of 2.0 is required in each course that counts toward the certificate.

**Satisfactory/No Credit Option:** There is no limit to the number of courses that can be taken on the S/NC basis for this certificate. The two prerequisite courses must be taken for a letter grade.

### Arabic Language and Linguistics Certificate

The Department of Linguistics offers an undergraduate certificate in Arabic Language and Linguistics. This certificate program should lead students to:

- an intermediate to advanced proficiency in Modern Standard Arabic (formal Arabic) and at least one Arabic dialect;
- an understanding of the linguistic structure of Arabic;
- an understanding of important issues in Arabic literature and culture; and
- exposure to authentic Arabic reading and listening materials, and discussion of general topics of interest in the Arab world in Arabic.

The certificate program could conveniently accompany several undergraduate majors including, but not limited to, linguistics, political science, communication science, and various undergraduate disciplines that serve as the basis for graduate-level degrees and certificates in the schools of education, law, and others.

Students who are interested in the Arabic Language and Linguistics Certificate can apply for the program after they complete the prerequisites for the certificate which is the completion of two semesters of the language with an average B grade or higher. However, students could also apply for the certificate any time before their graduation if they complete the requirements by then. Contact the Arabic coordinator, Amani Attia (ama66@pitt.edu) for advice on course planning, and to submit the application packet, which consists of three forms to be filled out by candidates. This certificate requires 32-34 credits for completion.

### Prerequisite dialect courses

Students must complete two semesters of Modern Standard Arabic in one dialect - Egyptian or Levantine, with a letter grade of B or higher to declare the certificate. In addition to the prerequisite courses, the certificate requires 22-23 credits of course work as described.

Choose one of the following pairs of courses.

**Egyptian**

- ARABIC 0101 - MODERN STANDARD ARABIC 1/EGYPTIAN 1
- ARABIC 0102 - MODERN STANDARD ARABIC 2/EGYPTIAN 2

**Levantine**

- ARABIC 0121 - MODERN STANDARD ARABIC 1/LEVANTINE 1
- ARABIC 0122 - MODERN STANDARD ARABIC 2/LEVANTINE 2

### Required Courses:

**Two additional courses in the same dialect**

In some cases, students could change from one dialect track to the other, based on study abroad needs, schedule conflicts, or other factors. The student must show a certain level of proficiency in the target dialect. Contact Arabic coordinator (ama66@pitt.edu) for advice on this issue.
Egyptian

- ARABIC 0103 - MODERN STANDARD ARABIC 3/EGYPTIAN 3
- ARABIC 0104 - MODERN STANDARD ARABIC 4/EGYPTIAN 4

Levantine

- ARABIC 0123 - MODERN STANDARD ARABIC 3/LEVANTINE 3
- ARABIC 0124 - MODERN STANDARD ARABIC 4/LEVANTINE 4

Introductory linguistics courses

- ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS
- LING 1000 - INTRODUCTION TO LINGUISTICS

Arabic culture course

Students must complete one of the following courses.

- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE

Arabic related elective

Students must complete one of the following courses. Dialect courses must follow previous coursework.

- ARABIC 0105 - MODERN STANDARD ARABIC 5/EGYPTIAN 5
- ARABIC 0106 - MODERN STANDARD ARABIC 6/EGYPTIAN 6
- ARABIC 0125 - MODERN STANDARD ARABIC 5/LEVANTINE 5
- ARABIC 0126 - MODERN STANDARD ARABIC 6/LEVANTINE 6
- ARABIC 0211 - IRAQI ARABIC 1
- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE
- ARABIC 1909 - SPECIAL TOPICS IN ARABIC
- ECON 0640 - ECONOMIC DEVELOPMENT OF THE MIDDLE EAST AND NORTH AFRICA (MENA) REGION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION or
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST

Department of Mathematics

The Department of Mathematics offers course work leading to a Bachelor of Science degree in mathematics as well as various courses for non-majors. Students concentrating in mathematics may pursue majors in mathematics, applied mathematics, actuarial mathematics, or mathematical biology, or they may pursue a joint major in mathematics and economics. Each of the department's majors has its own philosophy and its own formal requirements, so students should consult with a major advisor. For more information on these majors and the Department of Mathematics, see www.mathematics.pitt.edu.

Actuarial Mathematics, BS
Students wishing to pursue a major in Actuarial Mathematics must complete both MATH 0220 and MATH 0230 or their equivalents with a letter grade of C or better before declaring actuarial mathematics as their major. Students will be required to take 63 credits, of which 46 will be in Mathematics and Statistics. Specific requirements are:

Prerequisite courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

Basic Calculus

Choose one of the following courses

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0245 - HONORS 1- MULTIVARIABLE CALCULUS

Analysis:

choose one of the following courses

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0450 - INTRODUCTION TO ANALYSIS

Linear algebra:

choose one of the following courses

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

Differential Equations:

Choose one of the following courses

- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
- MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Actuarial Mathematics courses

- MATH 0470 - ACTUARIAL MATHEMATICS 1
- MATH 1121 - ACTUARIAL MATHEMATICS 2

Numerical Methods:

choose one of the following courses

- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA

Applied Mathematics:
Choose two of the following courses

- MATH 1100 - LINEAR PROGRAMMING
- MATH 1110 - INDUSTRIAL MATHEMATICS (writing-intensive course)
- MATH 1122 - ACTUARIAL MATHEMATICS 3
- MATH 1123 - ACTUARIAL MATHEMATICS 4
- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1360 - MODELING IN APPLIED MATH 1
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS

Economics

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Computer programming

Choose one of the following courses

- CS 0004 - INTRODUCTION TO COMPUTER PROGRAMMING-BASIC
- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- STAT 1301 - STATISTICAL PACKAGES
- BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- ENGR 0012 - INTRO TO ENGINEERING COMPUTING

Statistics

- STAT 1000 - APPLIED STATISTICAL METHODS

Probability

Choose one of the following courses

- STAT 1151 - INTRODUCTION TO PROBABILITY
- MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY

Analysis

Choose one of the following courses

- ECON 1150 - APPLIED ECONOMETRICS 1
- STAT 1221 - APPLIED REGRESSION

Time Sequence

Choose one of the following courses
• STAT 1321 - APPLIED TIME SERIES
• STAT 1731 - STOCHASTIC PROCESSES
• STAT 1741 - APPLIED PROBABILITY THEORY

Finance

Choose one of the following courses

• BUSFIN 1311 - CORPORATE FINANCE
• ECON 1440 - ECONOMICS OF CORPORATION FINANCE

Other Requirements and Recommendations

• Before declaring this major, students must complete MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or MATH 0235 - HONORS 1 - VARIABLE CALCULUS, or their equivalents, with a letter grade of C or better. Additionally, Students must complete MATH 0470 - ACTUARIAL MATHEMATICS 1 with a letter grade of B or better to declare this major.
• A letter grade of C or higher is necessary in all courses required for the major.
• No course that counts toward the major can be taken on the Satisfactory/No Credit (S/NC) basis.
• Students must complete at least one writing-intensive course (W-course) in the major. MATH 1110 - INDUSTRIAL MATHEMATICS is a W-course option for this major.
• The required courses include nine credits of statistics courses and nine to 12 credits of economics courses. Majors can fulfill the related area requirement by taking an additional statistics or economics course to achieve a total of 12 credits in one of these subjects.

Applied Mathematics, BS

Students majoring in Applied Mathematics must complete 40 credits in mathematics, distributed as follows. Since different program emphases are possible, students should consult the advisor as early as possible in regards to selection of courses:

Calculus

• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Introductory theoretical course

• MATH 0413 - INTRO THEORETICAL MATHEMATICS
• MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS

Upper-level required courses

One of the following courses

• MATH 1180 - LINEAR ALGEBRA 1
• MATH 1185 - HONORS LINEAR ALGEBRA

One of the following courses

• MATH 1270 - ORDINARY DIFFERENTL EQUATIONS 1
• MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Numerical Mathematics:

choose one of the following courses

• MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
• MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
• MATH 1100 - LINEAR PROGRAMMING
• MATH 1101 - AN INTRODUCTION TO OPTIMIZATION
• MATH 1110 - INDUSTRIAL MATHEMATICS

Applied Analysis:

choose one of the following courses

• MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
• MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
• MATH 1570 - INTRODUCTION TO FOURIER ANALYSIS

Differential Equations:

choose one of the following courses

• MATH 1280 - ORDINARY DIFFERNTL EQUATIONS 2
• MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1

One of the following courses

• MATH 1110 - INDUSTRIAL MATHEMATICS
• MATH 1360 - MODELING IN APPLIED MATH 1
• MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
• MATH 1380 - MATH BIOLOGY

Physics courses

• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Computer Science:

choose one of the following courses

• CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
• CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
• CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

Statistics:

choose one of the following courses
• MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY
• STAT 1000 - APPLIED STATISTICAL METHODS
• STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT
• STAT 1151 - INTRODUCTION TO PROBABILITY

Other Requirements and Recommendations

• Students interested in graduate study are strongly advised to take MATH 1530 - ADVANCED CALCULUS 1 and MATH 1540 - ADVANCED CALCULUS 2. These two courses may be substituted for the Applied Analysis and the Differential Equations courses, respectively.
• Students interested in pursuing secondary education certification should take the following courses in addition to the courses required for the major.
  o MATH 0430 INTRO ABSTRACT ALGEBRAIC SYSTEMS
  o MATH 1020 APPLIED ELEMENTARY NUMBER THEORY
  o MATH 1230 THE BIG IDEAS OF MATHEMATICS
  o MATH 1290 TOPICS IN GEOMETRY
• A grade of C or higher is necessary in all courses required for the major. A minimum GPA of 2.0 in departmental courses is required for graduation.
• Students must complete at least one writing-intensive course (W-course) in the major.
• No course that counts toward the major may be taken on the S/NC basis.
• Students must complete at least 12 credits in a related area. A minor in Chemistry, Computer Science, Economics, Physics, or Statistics would fulfill this requirement. Speak to the departmental advisor for more options or details.
• Honors in Applied Mathematics is granted if the student:
  o Completes all requirements for the major
  o Completes the following courses with a letter grade of B or higher:
    ▪ MATH 1470 PARTIAL DIFFERENTIAL EQUATIONS 1
    ▪ MATH 1530 ADVANCED CALCULUS 1
    ▪ MATH 1540 ADVANCED CALCULUS 2
    ▪ A 2000-level course in lieu of a 1000-level elective
  o Completes an honors thesis under the direction of a member of the Department of Mathematics faculty, or completes a 2000-level course in lieu of the honors thesis.
• The statistics requirement is waived for students seeking honors in Applied Mathematics.

Mathematical Biology, BS

Students pursuing the Mathematical Biology major are encouraged to take CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2, as these courses will satisfy the Dietrich School of Arts and Sciences breadth requirement in natural science and will expand their biology and neuroscience course options. Several of the BIOSC courses that fulfill requirements for this major have prerequisites, but some do not have prerequisites. PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED) also carry a high degree of relevance for Mathematical Biology majors.

Requirements

The Mathematical Biology major will require the completion of 43 credits in mathematics.

Three Calculus courses

• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Two introductory theoretical courses

325
• MATH 0413 - INTRO THEORETICAL MATHEMATICS *
• MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS *

Note:

* Qualified students may substitute MATH 0450 - INTRODUCTION TO ANALYSIS for MATH 0413 and MATH 0420.

One of the following courses

• MATH 1180 - LINEAR ALGEBRA 1
• MATH 1185 - HONORS LINEAR ALGEBRA

One of the following courses

• MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
• MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Two mathematical biology courses

• MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
• MATH 1380 - MATH BIOLOGY

Two numerical mathematics courses

• MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
• MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA

Two applied analysis courses

From the following list.

• MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
• MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
• MATH 1530 - ADVANCED CALCULUS 1
• MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
• MATH 1560 - COMPLEX VARIABLES & APPLICATIONS

Four Biology or Neuroscience courses

• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2

Two of the following

At least one must be at the 1000 level.

• BIOSC 0370 - ECOLOGY
• BIOSC 1000 - BIOCHEMISTRY

One of the following courses
• BIOSC 0350 - GENETICS
• BIOSC 0355 - UHC GENETICS

One of the following courses

• BIOSC 1070 - HUMAN PHYSIOLOGY-UHC
• BIOSC 1250 - HUMAN PHYSIOLOGY
• BIOSC 1870 - ANIMAL PHYSIOLOGY
• BIOSC 1130 - EVOLUTION
• BIOSC 1320 - POPULATION BIOLOGY
• BIOSC 1470 - BIOPHYSICAL CHEMISTRY
• BIOSC 1500 - CELL BIOLOGY
• BIOSC 1520 - DEVELOPMENTAL BIOLOGY
• BIOSC 1540 - COMPUTATIONAL BIOLOGY
• BIOSC 1760 - IMMUNOLOGY

One of the following courses

• NROSCI 1000 - INTRO TO NEUROSCIENCE
• NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE
• NROSCI 1011 - FUNCTIONAL NEUROANATOMY
• NROSCI 1012 - NEUROPHYSIOLOGY
• NROSCI 1017 - SYNAPTIC TRANSMISSION
• NROSCI 1034 - NEURAL BASIS OF COGNITION

One of the following statistics courses

• MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY
• STAT 1000 - APPLIED STATISTICAL METHODS
• STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Note:

Mathematical Biology students who plan to continue in graduate studies are advised to take advanced calculus, MATH 1530 - ADVANCED CALCULUS 1 and MATH 1540 - ADVANCED CALCULUS 2. MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE and MATH 1380 - MATH BIOLOGY introduce students to techniques for independent research; students in these courses are encouraged to pursue research opportunities in Mathematical Biology that are available locally and nationally.

Other Requirements and Recommendations

• A grade of C or higher is necessary in all courses required for the major. A minimum GPA of 2.0 in departmental courses is required for graduation.
• No course that counts toward the major may be taken on the S/NC basis.
• Students must complete at least one writing-intensive course (W-course) in the major. Either MATH 0413 or MATH 0450 will satisfy this requirement.
• Students must complete at least 12 credits in a related area.
• Students seeking honors in Mathematical Biology will earn departmental honors if they meet the following requirements.
  • Fulfill all requirements for the major.
  • Complete the following courses with a letter grade of A- or better.
    • MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
    • MATH 1380 - MATH BIOLOGY
Complete the following courses with a letter grade of B or higher.
- MATH 1530 - ADVANCED CALCULUS 1
- One 2000-level mathematics course in lieu of an upper level elective

Complete one of the following conditions.
- An honors thesis under the direction of a faculty member in the Department of Mathematics; for students seeking a BPhil from the University Honors College, this requirement could be satisfied by the Honors College thesis
- A 2000-level mathematics course with a letter grade of B or higher, in addition to the course use for the third item, above.

Although not required, the department strongly recommends that honors degree candidates take the intermediate honors courses MATH 1185 and MATH 0450 during their freshman or sophomore year.

Mathematics, BS

Requirements

Calculus courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Introductory theoretical courses

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
- MATH 0430 - INTRO ABSTRACT ALGEBRAIC SYSTEMS

Upper-level required courses

Required course

- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

One of the following courses

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

One of the following courses

- MATH 1020 - APPLIED ELEMENTARY NUMBER THEORY
- MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY
- MATH 1050 - COMBINATORIAL MATHEMATICS
- MATH 1250 - ABSTRACT ALGEBRA
- MATH 1310 - GRAPH THEORY

Upper-level elective courses

Three of the following courses
Physics course

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Programming course

Choose one

- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

Other Requirements and Recommendations

- Majors must complete 40 credits (see below for curriculum details on each major) with a grade of C or higher in each course for the major and at least a 2.00 GPA overall in mathematics courses. The S/NC grade option is not permitted.
- MATH 0413 - INTRO THEORETICAL MATHEMATICS meets the departmental W requirement.
- Credit by examination is usually available only through the placement testing offered for incoming students.
- Appropriate courses for the Dietrich School -required 12-credit related area are determined in consultation with the mathematics advisor. A 12-credit related area for applied mathematics majors must be approved by the Undergraduate Committee.
- Students considering graduate work in mathematics should be aware that many programs require a reading knowledge of one or two second languages from among French, German, and Russian.
- To graduate with honors in mathematics or applied mathematics, students must meet the following requirements in addition to the other requirements for the major.
  - Completion of all mathematics requirements
Completion of each of the following courses with a grade of B or better:

- MATH 1250 - ABSTRACT ALGEBRA
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- A graduate level mathematics course

Completion of an honors thesis under the direction of a member of the mathematics faculty or completion of a second graduate level mathematics course in lieu of the honors thesis

Students interested in graduate study in mathematics are advised to take MATH 1530 and MATH 1540. Those interested in pursuing secondary education certification in mathematics are required to take MATH 1020, MATH 1230, and MATH 1290. MATH 1230 does not count toward the major.

The statistics requirement is waived for mathematics majors graduating with honors. Although not required, it is recommended that honors candidates take the intermediate honors courses MATH 0450 - INTRODUCTION TO ANALYSIS and MATH 1185 - HONORS LINEAR ALGEBRA during their freshman and sophomore years.

Mathematics Minor

Prerequisites

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Lower-level Mathematics courses

Students must complete at least three courses (nine credits) of coursework at or above MATH 0250 - MATRIX THEORY & DIFFT EQUATIONS.

Upper-level Mathematics courses

Students must complete at least two courses (six credits) of MATH courses at the 1000-level.

Additional information and requirements

- Students may not count MATH 0400 - FINITE MATHEMATICS toward the minor.
- Students may not count both MATH 0280 - INTRO TO MATRICES & LINEAR ALG and MATH 1180 - LINEAR ALGEBRA 1 toward the minor.
- Students may not count both MATH 0290 - DIFFERENTIAL EQUATIONS and MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1 toward the minor.
- A letter grade of C or higher is required in each course for completion of this minor.
- Students may not take any course for the minor on the S/NC basis.

Mathematics - Economics, BS

Requirements

Students seeking a mathematics and economics joint major must adhere to the following rules and requirements:

- Completion of at least 58 credits in mathematics and economics courses (see below for detail).
- Earn at least a 2.00 in all courses required for the major. The S/NC option is not permitted.
- The Dietrich School 12-credit related area is not required.
- Students should check with the departmental advisors in mathematics and economics about the required W course.
Students planning to do graduate study should keep in mind that many graduate programs require reading knowledge of one or two second languages. The joint major provides not only a set of requirements but also suggested course sequences of mathematics and economics courses that are compatible with each other and that prepare students for various specialties. The courses follow:

### Required Courses in Mathematics

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

### Linear Algebra

One of the following courses.

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

### Statistics courses

Both of the following courses

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

### Additional Math course

Students are encouraged to take at least one field course in mathematics from the following list.

- MATH 1100 - LINEAR PROGRAMMING
- MATH 1110 - INDUSTRIAL MATHEMATICS
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1700 - INTRODUCTION TO TOPOLOGY
- STAT 1221 - APPLIED REGRESSION
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES
- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL
- STAT 1761 GAME THEORY

### Required Courses in Economics (27 credits)

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
• ECON 1110 - INTERMEDIATE MACROECONOMICS
• ECON 1150 - APPLIED ECONOMETRICS 1
• ECON 1200 - GAME THEORY
• One ECON non-0800 series elective course
• Two ECON 1000-level courses that require either ECON 1100 or ECON 1110 as a prerequisite

Note:

To qualify for departmental honors in the mathematics and economics joint major, students must meet the following requirements:

• Complete the required economics courses with the added stipulation that ECON 1180 - MATHEMATICAL ECONOMICS and a proseminar be one of the field courses chosen.
• Maintain a GPA of at least 3.00 in mathematics courses, at least 3.25 in economics courses, and at least 3.25 overall.
• Complete the following courses in lieu of those normally taken:
  • MATH 0235 - HONORS 1 - VARIABLE CALCULUS
  • MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
  • MATH 0450 - INTRODUCTION TO ANALYSIS
  • MATH 1185 - HONORS LINEAR ALGEBRA
  • MATH 1530 - ADVANCED CALCULUS 1
  • STAT 1151 - INTRODUCTION TO PROBABILITY
  • STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Department of Music

The Department of Music makes music through composition, improvisation, and performance and explores music's meaning in the structure of individual works, the relations between them, and their place in the cultures that produce them. One of the most exciting things about music is that it brings together different types of thought and action. The most sensory and practical things and the most theoretical and abstract ones cannot be separated in the musician's world. Thus, music enjoys a special place in the endeavor to understand ourselves. The program for majors is designed to introduce students to all the above ideas and activities, and students throughout the University are invited to join in any of them. In support of this multifaceted program, the department has assembled a diverse faculty, including experts in composition, performance, theory, history, jazz, and ethnomusicology and is committed to the principle of conducting its activities within an atmosphere that encourages communication and cooperation within that diversity. The department also welcomes double majors from all colleges within the University. For more information on the major, the minor, and the Department of Music, see http://www.music.pitt.edu/.

Note: Students considering declaring a music major or minor should take the Music Theory Placement test, available at the Dietrich School of Arts and Sciences Advising Center. A sufficient score will exempt them from the required MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC class. This exam takes about 60 minutes to complete.

Music, BA

The Department of Music offers an innovative undergraduate program that confers a bachelor's degree and a minor in music. The Department's dynamic faculty offer strong support for undergraduate research and creative expression. Undergraduates also engage with the Department's renowned graduate programs and are encouraged to actively participate in all aspects of the Department's research and performance culture.

Undergraduates choose a course of study from among five tracks: Composition, Global & Popular Music, Jazz, Music & Cultural History, and Performance. The tracks offer students a broad foundation in music scholarship while tailoring specific elements of music study to the student's individual talents and interests.

To declare this major, students must complete MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC with a letter grade of B- or better, or achieve a sufficient score to on the Music placement exam to receive credit for this course.

Prerequisite theory course
Students may test out of this prerequisite by completing the Music Theory placement exam with a sufficient score. Students who take this course must earn a letter grade of B- or better to declare the Music major.

- MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC

**BA Requirements**

Choose one of the following courses

- MUSIC 0222 - HISTORY OF WESTERN MUSIC TO 1750
- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750

All of the following courses

- MUSIC 0411 - THEORY 1
- MUSIC 0412 - MUSICIANSHP 1
- MUSIC 0416 - MUSICIANSHP 2

Choose one of the following courses

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

All of the following courses

- MUSIC 1310 - GLOBAL AND POPULAR MUSIC
- MUSIC 1903 - SPECIAL TOPICS-DIRECTED RESEARCH
- MUSIC 1904 - SENIOR SEMINAR
  Three MUSIC performance courses, at 1 credit each

**Composition Track**

Students pursuing the Composition track must take MUSIC 0222 MUSIC 0222 - HISTORY OF WESTERN MUSIC TO 1750, indicated in the core course list.

- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0415 - THEORY 2
- MUSIC 0417 - THEORY 3
- MUSIC 0419 - THEORY 4
- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1
- MUSIC 1442 - ELECTRONIC AND COMPUTER MUSIC 2
  One elective course at the 1200- to 1400-level

**Global & Popular Music Track**

- MUSIC 0415 - THEORY 2
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
One upper-level popular music course
Three upper-level ethno-music courses with the MUSIC subject code

Jazz Track

Choose one of the following courses

Of these two courses, students must take the one that was not taken as a core course.

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

The following course

- MUSIC 1450 - MUSIC PRODUCTION AND RECORDING

Choose one of the following courses

- MUSIC 1731 - JAZZ COMPOSITION AND ARRANGING 1
- MUSIC 1732 - JAZZ COMPOSITION AND ARRANGING 2

All of the following courses

- MUSIC 1741 - JAZZ IMPROVISATION 1
- MUSIC 1742 - JAZZ IMPROVISATION 2
  Six MUSIC performance courses, at 1 credit each

Music & Cultural History Track

All of the following courses

- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0415 - THEORY 2

Choose one of the following courses

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

All of the following courses

- Two MUSIC courses at the 1200-level
- Two MUSIC courses at the 1200- to 1400-level
- Three MUSIC performance courses, at 1 credit each

Performance Track

All of the following courses
Choose one of the following courses

Of these two courses, students must take the one that was not taken as a core course.

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

One composition course

- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1
- MUSIC 1442 - ELECTRONIC AND COMPUTER MUSIC 2

Six performance courses

Six MUSIC performance courses, at 1 credit each

One of the following composition courses

- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1
- MUSIC 1442 - ELECTRONIC AND COMPUTER MUSIC 2

Other requirements

- Students may test out of MUSIC 0100 MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC by passing the Music Theory placement exam, which is administered in the Dietrich School Advising Center, 201 Thackeray Hall.
- A minimum GPA of 2.0 in departmental courses is required for graduation.
- No course that counts toward the major can be taken on an S/NC basis.
- Students must complete at least one W-course in the major.
- All students interested in taking private lessons must complete a Request for Private Lessons form, available in 110 Music Building. Music majors have first priority in scheduling private lessons, which cost an additional $395 per term.
- To graduate with departmental honors, a student must earn a minimum 3.25 GPA overall, a minimum 3.50 GPA in the music courses with no grade lower than a B-.

Music Minor

The music minor offers a coherent sequence of courses that will provide students with a reasonably broad introduction to the historical, theoretical, and practical branches of music. Required courses, totaling 19 credits, are as follows.
Prerequisite theory course

- MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC

Required courses

- MUSIC 0222 - HISTORY OF WESTERN MUSIC TO 1750
  or
- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0411 - THEORY 1
- MUSIC 0412 - MUSICIANSHIP 1
- MUSIC 0416 - MUSICIANSHIP 2
- MUSIC 0711 - HISTORY OF JAZZ
  or
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.
- MUSIC 1310 - GLOBAL AND POPULAR MUSIC
  One course from the 1200- to 1400-level
  Three performance courses, at 1 credit each

Note

Performance includes private lessons and/or ensemble participation. It must include at least one term of participation in a world music ensemble.

Department of Neuroscience

Neuroscience is the study of the biology and function of the central nervous system, with a special focus on the brain. The field has emerged during the past two decades as part of the explosive growth of research and interest in the neural sciences. An autonomous major in neuroscience was developed at the University of Pittsburgh in 1983, and it is among the largest undergraduate programs in neuroscience in the country, with nearly 300 students as majors.

The Bachelor of Science degree in neuroscience prepares students for the following:

- Advanced study in health-related fields, such as medicine, dentistry, pharmacy, public health, physical therapy, physician assistant, and exercise physiology;
- Graduate training in neuroscience and related fields in the biological sciences, and for a future career in a university, research institute, pharmaceutical company, or hospital;
- Research assistant positions in pharmaceutical, hospital, and university settings; and
- Public and private high school teaching following the completion of the teacher certification program in the School of Education.

The neuroscience major is designed to provide a broad and challenging sequence of courses in biological sciences, chemistry, mathematics, and physics, in addition to introductory and advanced courses in neuroscience. Students also may receive credit for original research projects they conduct in collaboration with faculty members. The relatively small size of the upper-level courses, the excellence of teaching, and the opportunity for research have been found to be especially attractive features of the major. A minor in neuroscience is also available. For more information on the major, the minor, and the Department of Neuroscience, see www.neuroscience.pitt.edu.

Neuroscience, BS

Major Requirements

Neuroscience majors must complete a minimum of 59 credits, detailed as follows:

Required Courses
• NROSCI 1000 - INTRO TO NEUROSCIENCE or
• NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE

• NROSCI 1011 - FUNCTIONAL NEUROANATOMY or
• NROSCI 1013 - FUNCTIONAL NEUROANATOMY (UHC)

• NROSCI 1012 - NEUROPHYSIOLOGY
• NROSCI 1017 - SYNAPTIC TRANSMISSION

One of the following writing courses

• NROSCI 1800 - NEUROSCIENCE/WRITING PRACTICUM
• NROSCI 1801 - NEUROSCIENCE/WRITING PRACTICUM
• NROSCI 1962 - THESIS RESEARCH/WRITING PRACTICUM

Two advanced electives to be chosen from:

• NROSCI 1014 - SPEAKING OF SCIENCE
• NROSCI 1026 - FOUNDATIONS OF CLINICAL NEUROPHYSIOLOGY
• NROSCI 1030 - PSYCHTRC DISORDERS AND BRAIN FUNCTION
• NROSCI 1032 - FUNCTIONAL ORGANIZATION OF THE HUMAN NERVOUS SYSTEM
• NROSCI 1033 - NEURAL BASIS OF VISION
• NROSCI 1034 - NEURAL BASIS OF COGNITION
• NROSCI 1036 - NEUROBIOLOGY OF AGING
• NROSCI 1040 - BIO BASES OF LEARNING AND MEMORY
• NROSCI 1041 - DEVELOPMENTAL NEUROSCIENCE
• NROSCI 1042 - NEUROCHEMICAL BASIS OF BEHAVIOR
• NROSCI 1043 - NEURAL PLASTICITY
• NROSCI 1140 - BIO BASIS OF LEARNING AND MEMORY-UHC

Capstone Requirement

Choose one of the following courses

• NROSCI 1027 - NEUROSCIENCE PROSEMINAR
• NROSCI 1901 - INDEPENDENT STUDY

Note:

Course descriptions and current syllabi can be found by clicking on the Teaching Faculty link on the right of the Neuroscience Undergraduate home page at www.neuroscience.pitt.edu/programs/undergraduate

Co-requisite Courses

It is recommended that students complete introductory biology, chemistry, and physics courses during freshman and sophomore years. Premed students should also take PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS or PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING and a statistics course to meet medical school requirements.

• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 *
• BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 *
Grade requirements for the major are as follows:

- Students majoring in neuroscience must take all required courses for a letter grade.
- NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE must be passed with a B- or better. Grades in the remaining core courses and two advanced electives are averaged. All of these courses must be passed, and the average GPA must be 2.00 or better.
- In the co-requisites, a passing grade below C may be accepted only if it is balanced with higher grades, so that the total GPA in co-requisite courses is 2.0 or better. This requirement applies collectively to corequisite courses taught in the Department of Neuroscience (e.g., NROSCI 1070 - HUMAN PHYSIOLOGY-UHC) and those taught in other departments.
- Majors must have a grade of B- in NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE as a prerequisite to taking any other departmental core or advanced elective courses.
- The co-requisite courses in biology and chemistry satisfy the related area requirement for this major.

Department Honors and Undergraduate Research

- To qualify for departmental honors, students need to maintain a minimum overall GPA of 3.25 as well as a GPA of 3.25 in the neuroscience major. In addition, students must complete a substantial amount of experimental neuroscience research on an approved research project and give a public presentation of the work. The full faculty of the department approves departmental honors after consideration of all eligible students.
- The Department of Neuroscience encourages interested undergraduate majors to gain research experience within an active neuroscience laboratory. The department is a world-class research department committed to high quality research and sharing the excitement of scientific exploration with trainees. Majors are encouraged to take advantage of the opportunity to do meaningful neuroscience research while still undergraduates. It is not unusual for majors to report their research at scientific meetings and to be published. While research experience itself has strong benefits, it is also useful for interacting more closely with professors and enhancing preparation for graduate or medical school. Most undergraduates who enroll in research for credit are interested in completing an independent project that results in an undergraduate thesis.

Neuroscience Minor

Minor Requirements

A minimum of 14 credits is required for a neuroscience minor. The minor includes the following:

- NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE with a grade of C or better
- Three core courses:
Department of Philosophy

The University of Pittsburgh has one of the best philosophy departments in the country, one with a long tradition of fine teaching. A major in philosophy provides excellent preparation for such professions as law, medicine, and business. The conceptual sophistication imparted by training in philosophy is invaluable in virtually any field of learning or any serious profession. For example, students who are majoring in biology, psychology, history, or computer science would do well to pick up a second major in philosophy, something the Department of Philosophy encourages by offering a standard major track along with its more time-consuming intensive major track. A minor in philosophy is also available. While the department encourages students to major in philosophy, either alone or as a second major, only rarely does it encourage students to pursue philosophy in graduate school as preparation for a scholarly career. Students who do especially well in either the standard or intensive major program are graduated with honors in philosophy. Because of the national reputation of the philosophy department, a major in philosophy or honors in philosophy should materially help University of Pittsburgh graduates get into good graduate schools or professional schools. For more information on the program and the Department of Philosophy, see www.philosophy.pitt.edu.

Philosophy - Intensive Track, BA

Intensive major track

Philosophy courses

Select one course from each of the following three groups. At least one of these three courses must be taken at the 1000-level.

Ancient Philosophy

- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY
- PHIL 0202 - HISTORY ANCIENT PHILOSOPHY/WRITING PRACTICUM
- PHIL 1020 - PLATO
- PHIL 1040 - ARISTOTLE
- PHIL 1060 - HELLENISTIC PHILOSOPHY
- PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY

Modern Philosophy

- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY
- PHIL 0212 - HISTORY OF MODERN PHILOSOPHY/WRITING PRACTICUM
- PHIL 1110 - RATIONALISM
- PHIL 1140 - EMPIRICISM
- PHIL 1170 - KANT
Logic

- PHIL 0500 - INTRODUCTION TO LOGIC
- PHIL 1500 - SYMBOLIC LOGIC

Elective courses

Group 1

Select five 1000-level courses from the following list. Courses taken to fulfill the Philosophy course requirement cannot be counted toward this elective course requirement.

- History of Philosophy: PHIL 1020 PHIL 1020 - PLATO through PHIL 1190 PHIL 1190 - TOPICS IN 19TH CENTURY PHIL
- Value Theory: PHIL 1300 PHIL 1300 - ETHICAL THEORY through PHIL 1390 PHIL 1390 - PHILOSOPHY OF LAW
- Metaphysics and Epistemology: PHIL 1420 PHIL 1420 - PHILOSOPHY OF LANGUAGE through PHIL 1490 PHIL 1490 - TOPICS IN SYSTEMATIC PHILOSOPHY
- Logic and Philosophy of Science: PHIL 1500 PHIL 1500 - SYMBOLIC LOGIC through PHIL 1690 PHIL 1690 - TOPICS IN PHILOSOPHY OF SCIENCE
- Any 1000-level PHIL course except PHIL 1904 or PHIL 1941

Group 2

Select four courses from the following list. Courses taken to fulfill the Philosophy course requirement cannot be counted toward this elective course requirement.

- PHIL 1940 PHIL 1940 - HONORS THESIS/MAJORS
- PHIL 1941 PHIL 1941 - HONORS THESIS 2/MAJORS
- Any PHIL course not taken to fulfill a previous requirement

Other requirements

Other requirements for the intensive Philosophy major:

- **Grade requirements**: Students must earn at least a C in each course that is to count toward the major.
- **Writing (W) requirement**: Students must complete at least one W-course in the major.
- **Satisfactory/No Credit option**: There is no limit to the number of courses that can be taken on an S/NC basis.
- **Related area**: A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.
- **Honors major requirements**: Students who complete the standard major, intensive major, or joint major will graduate with honors in philosophy if they have earned a grade of A- or better in at least six 1000-level PHIL courses, exclusive of PHIL 1902 and PHIL 1903.
- **Joint majors with philosophy**: Joint majors are not double majors but are multidisciplinary majors offered by two or more departments. The Department of Philosophy offers a joint major in Politics and Philosophy with the Department of Political Science, which is administered by the Department of Political Science. Consult the Department of Political Science for additional information.

**Philosophy - Standard Track, BA**

Required courses

Select one course from each of the four following groups. At least one of these four courses must be taken at the 1000-level.
Ancient Philosophy

- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY
- PHIL 0202 - HISTORY ANCIENT PHILOSOPHY/WRITING PRACTICUM
- PHIL 1020 - PLATO
- PHIL 1040 - ARISTOTLE
- PHIL 1060 - HELLENISTIC PHILOSOPHY
- PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY

Modern Philosophy

- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY
- PHIL 0212 - HISTORY OF MODERN PHILOSOPHY/WRITING PRACTICUM
- PHIL 1110 - RATIONALISM
- PHIL 1140 - EMPIRICISM
- PHIL 1170 - KANT

Ethics

- PHIL 0300 - INTRODUCTION TO ETHICS
- PHIL 0302 - INTRODUCTION TO ETHICS/WRITING PRACTICUM
- PHIL 0320 - SOCIAL PHILOSOPHY
- PHIL 0322 - SOCIAL PHILOSOPHY/WRITING PRACTICUM
- PHIL 0330 - POLITICAL PHILOSOPHY
- PHIL 0332 - POLITICAL PHILOSOPHY/WRITING PRACTICUM
- PHIL 0380 - WOMEN AND PHILOSOPHY
- Any PHIL course at the 1300-level

Logic

- PHIL 0500 - INTRODUCTION TO LOGIC
- PHIL 1500 - SYMBOLIC LOGIC

Elective courses

Select four 1000-level electives beyond any chosen in the previous groups.

Other requirements

Other requirements for the intensive Philosophy major:

- **Grade requirements**: Students must earn at least a C in each course that is to count toward the major.
- **Writing (W) requirement**: Students must complete at least one W-course in the major.
- **Satisfactory/No Credit option**: There is no limit to the number of courses that can be taken on an S/NC basis.
- **Related area**: A minimum of 12 credits is required in any one Dietrich School department chosen in consultation with the major advisor. The completion of an official Dietrich School minor or a Dietrich School or UCIS certificate also satisfies this requirement.
- **Honors major requirements**: Students who complete the standard major, intensive major, or joint major will graduate with honors in philosophy if they have earned a grade of A- or better in at least six 1000-level PHIL courses, exclusive of PHIL 1902 and PHIL 1903.
Joint majors with philosophy: Joint majors are not double majors but are multidisciplinary majors offered by two or more departments. The Department of Philosophy offers a joint major in Politics and Philosophy with the Department of Political Science, which is administered by the Department of Political Science. Consult the Department of Political Science for additional information.

Philosophy Minor

Minor Requirements

The philosophy minor requires six 3-credit courses (18 credits total) to be distributed as follows:

- PHIL 0500 - INTRODUCTION TO LOGIC or
- One 1500 level course (Logic group)
- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY or
- PHIL 1020 - PLATO
- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY or
- PHIL 1110 - RATIONALISM or
- PHIL 1140 - EMPIRICISM
- Any course in the 1300s Value Theory, Social and Political Philosophy
- Two additional 1000-level courses must be completed.

Any course in moral, social, or political philosophy

PHIL 0300 - INTRODUCTION TO ETHICS is preferred, but any of the following is acceptable:

- PHIL 0320 - SOCIAL PHILOSOPHY
- PHIL 0330 - POLITICAL PHILOSOPHY
- PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES
- PHIL 0360 - INTRODUCTION TO BIOMEDICAL ETHICS

Note: At least one of the above four courses (numbers one-four) must be taken at the 1000 level.

Department of Physics and Astronomy

The Department of Physics and Astronomy offers three major degree options: a BS in physics, a BS in physics and astronomy, and a BA in astronomy. The BS degrees are intended for students who wish to prepare for graduate school in a scientific or technical discipline or who are interested in professional careers in which a background in physics or astronomy is appropriate. The BA degree are designed primarily for students who wish to develop a general scientific background appropriate for many careers including health-related professions or MBA programs. The Certificate in Photonics may be added by students in the bachelor of science physics program.

Students planning to pursue a degree within the department are urged to consult a departmental advisor at any time during the freshman year and should obtain a copy of the department's brochure for undergraduates in 100 Allen Hall.

*AThe department offers the physics minor, best suited for students from other schools. The department wishes to emphasize that its 0080s courses, in both physics and astronomy, use little mathematics and are especially designed for liberal arts students.

Astronomy - Science Breadth Concentration, BA
Astronomy Major Requirements

The BA in Astronomy requires 39 credits of course work as follows.

Specifications

- **Grade requirements:** A minimum GPA of 2.0 in departmental courses is required for graduation.
- **Satisfactory/No Credit option:** No PHYS or ASTRON courses beyond the introductory level may be taken on an S/NC basis.
- **Writing requirement:** Students must complete at least one W-course in the major.
- **Related area:** Mathematics satisfies the related area requirement for the Astronomy major.

Introductory Physics courses

Select one group

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

- ASTRON 0113 - INTRODUCTION TO ASTRONOMY

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1331 - MECHANICS

Laboratory courses

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Intermediate and advanced Astronomy courses

Choose at least six credits

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS *

Note:

* GEOL 1701 - GEOLOGY OF THE PLANETS may be substituted
Science electives

Choose at least six credits *

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1

- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

- CHEM 0310 - ORGANIC CHEMISTRY 1 or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1

- CHEM 0320 - ORGANIC CHEMISTRY 2 or
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2

- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - DATA STRUCTURES
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1701 - GEOLOGY OF THE PLANETS **

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1 or
- MATH 1185 - HONORS LINEAR ALGEBRA

- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Note:

* Some of these courses have prerequisites

** If this course is taken as a science elective, it cannot be used to satisfy the requirement for nine credits of intermediate and advanced courses.

Prerequisite Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
Course in the history and philosophy of science or science policy/management

Choose at least three credits

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- PHYS 0087 - PHYSICS AND SOCIETY
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- Any course in the Department of History and Philosophy of Science (HPS)

Writing or communication courses

Choose at least three credits

- COMMRC 0320 - MASS COMMUNICATION PROCESS
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 1105 - TELEVISION AND SOCIETY
- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1400 - GRANT WRITING
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1340 - ADVANCED NONFICTION: LONG FORM NARRATIVE
- ENGWRT 1394 - SCIENCE WRITING
- LING 1000 - INTRODUCTION TO LINGUISTICS

Science Breadth concentration

This concentration provides broader exposure to other sciences in comparison to the standard Astronomy BA, while going into greater depth in physics and astronomy than a more generic natural science major. With proper selection of courses, this concentration provides the necessary requirements to apply for admission to medical school while roughly matching the credit requirements of the Astronomy BA.

Reduced physics requirements

- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2 *

Note:

* PHYS 0481 is required for the Physics minor

Reduced writing requirements

The three credit writing or communication requirement is waived for students pursuing this concentration.

Added science requirements
Choose two of the three groups, totaling at least 16 credits

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1

- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

- GEOL 0890 - OCEANOGRAPHY

One of the following course groups

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 or
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2

Added science electives

Choose one of the three tracks totaling at least six credits

Track 1

- CHEM 0310 - ORGANIC CHEMISTRY 1 or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1

- CHEM 0320 - ORGANIC CHEMISTRY 2 or
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2

- CHEM 0345 - ORGANIC LABORATORY

Track 2

- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - DATA STRUCTURES

Track 3

- Two advanced courses in Biological Sciences (BIOSC), Bioengineering (BIOE), Chemistry (CHEM), Computer Science (CS), or Geology (GEOL).

Astronomy - Science Communication Concentration, BA

Astronomy Major Requirements

The BA in Astronomy requires 39 credits of course work as follows.
Specifications

- **Grade requirements:** A minimum GPA of 2.0 in departmental courses is required for graduation.
- **Satisfactory/No Credit option:** No PHYS or ASTRON courses beyond the introductory level may be taken on an S/NC basis.
- **Writing requirement:** Students must complete at least one W-course in the major.
- **Related area:** Mathematics satisfies the related area requirement for the Astronomy major.

Introductory Physics courses

Select one group

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

- ASTRON 0113 - INTRODUCTION TO ASTRONOMY

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1331 - MECHANICS

Laboratory courses

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Intermediate and advanced Astronomy courses

Choose at least six credits

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS *

Note:

* GEOL 1701 - GEOLOGY OF THE PLANETS may be substituted

Science electives

Choose at least six credits *
• BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
• BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
• BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
• BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2

• CHEM 0110 - GENERAL CHEMISTRY 1 or
• CHEM 0710 - UHC GENERAL CHEMISTRY 1

• CHEM 0120 - GENERAL CHEMISTRY 2 or
• CHEM 0720 - UHC GENERAL CHEMISTRY 2

• CHEM 0310 - ORGANIC CHEMISTRY 1 or
• CHEM 0730 - UHC ORGANIC CHEMISTRY 1

• CHEM 0320 - ORGANIC CHEMISTRY 2 or
• CHEM 0740 - UHC ORGANIC CHEMISTRY 2

• CHEM 1410 - PHYSICAL CHEMISTRY 1
• CHEM 1420 - PHYSICAL CHEMISTRY 2
• CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
• CS 0445 - DATA STRUCTURES
• GEOL 1410 - EXPLORATION GEOPHYSICS
• GEOL 1701 - GEOLOGY OF THE PLANETS **

• MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
• MATH 1180 - LINEAR ALGEBRA 1 or
• MATH 1185 - HONORS LINEAR ALGEBRA

• MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
• MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
• MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
• PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
• PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
• PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
• PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
• PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS
• STAT 1151 - INTRODUCTION TO PROBABILITY
• STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Note:

* Some of these courses have prerequisites

** If this course is taken as a science elective, it cannot be used to satisfy the requirement for nine credits of intermediate and advanced courses.

Prerequisite Mathematics courses

• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
• MATH 0290 - DIFFERENTIAL EQUATIONS or
Course in the history and philosophy of science or science policy/management

Choose at least three credits

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- PHYS 0087 - PHYSICS AND SOCIETY
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- Any course in the Department of History and Philosophy of Science (HPS)

Writing or communication courses

Choose at least three credits

- COMMRC 0320 - MASS COMMUNICATION PROCESS
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 1105 - TELEVISION AND SOCIETY
- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1400 - GRANT WRITING
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1340 - ADVANCED NONFICTION: LONG FORM NARRATIVE
- ENGWRT 1394 - SCIENCE WRITING
- LING 1000 - INTRODUCTION TO LINGUISTICS

Science Communication concentration

This concentration replaces the three credit writing or communication course with a three credit writing course and 12 credits of communication courses. Students pursuing this concentration may replace the six credits of science electives with the communication course requirements.

Required writing course

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION

Communication courses

Choose at least 12 credits

- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1400 - GRANT WRITING
- COMMRC 0320 - MASS COMMUNICATION PROCESS
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 1105 - TELEVISION AND SOCIETY
- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1340 - ADVANCED NONFICTION: LONG FORM NARRATIVE
- ENGWRT 1394 - SCIENCE WRITING
- LING 1000 - INTRODUCTION TO LINGUISTICS
Astronomy, BA

Astronomy Major Requirements

The BA in Astronomy requires 39 credits of course work as follows.

Specifications

- **Grade requirements**: A minimum GPA of 2.0 in departmental courses is required for graduation.
- **Satisfactory/No Credit option**: No PHYS or ASTRON courses beyond the introductory level may be taken on an S/NC basis.
- **Writing requirement**: Students must complete at least one W-course in the major.
- **Related area**: Mathematics satisfies the related area requirement for the Astronomy major.

Introductory Physics courses

Select one group

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

- ASTRON 0113 - INTRODUCTION TO ASTRONOMY

Physics - Education Concentration, BS

Physics Major Requirements

- A minimum GPA of 2.0 in departmental courses is required for graduation. Honors majors must attain a minimum GPA of 3.2 in physics courses, a cumulative GPA of 3.09 or higher, completes PHYS 1903 Directed Research, submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by UHC).
- No PHYS courses beyond the introductory level may be taken on an S/NC basis.
- Students must complete at least one W-course in the major; students should consult with their department advisor about this requirement.
- The mathematics courses required for the major fulfill the related area requirement for all majors in this department.

Physics major, BS

The physics major requires the completion of 47 credits in physics distributed as follows.

Note:
While not required, the introductory level honors courses, PHYS 0475, PHYS 0476, and PHYS 0520 are appropriate particularly for students seeking degrees in physics.

**Introductory Physics courses:**

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

**Intermediate and advanced Physics courses**

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

**Laboratory courses**

Choose at least 10 credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

**Science electives**

Choose at least nine credits from groups A and B. At least three credits must come from a course in group B.

**Group A**

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1

- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
• CHEM 0310 - ORGANIC CHEMISTRY 1 or
• CHEM 0730 - UHC ORGANIC CHEMISTRY 1

• CHEM 0320 - ORGANIC CHEMISTRY 2 or
• CHEM 0740 - UHC ORGANIC CHEMISTRY 2

• CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
• CS 0445 - DATA STRUCTURES
• ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING
• STAT 1151 - INTRODUCTION TO PROBABILITY
• STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Group B

• ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
• ASTRON 1121 - GALAXIES AND COSMOLOGY
• CHEM 1410 - PHYSICAL CHEMISTRY 1
• CHEM 1420 - PHYSICAL CHEMISTRY 2
• CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
• ECE 1232 - INTRO LASERS & OPTCL ELECTNC
• ECE 1247 - SEMICONDUCTOR DEVICE THEORY
• GEOL 1410 - EXPLORATION GEOPHYSICS
• MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
• MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
• MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
• PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
• PHYS 1374 - SOLID STATE PHYSICS
• PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
• PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS
• PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS

Prerequisite Mathematics courses

• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
• MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

• MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
• MATH 1180 - LINEAR ALGEBRA 1 or
• MATH 1185 - HONORS LINEAR ALGEBRA

• MATH 0290 - DIFFERENTIAL EQUATIONS or
• MATH 1270 - ORDINARY DIFFERENTL EQUATIONS 1

Departmental honors requirements

Honors in physics is granted if in addition to fulfilling all requirements for the major, the student maintains a GPA of 3.2 or higher in courses required for the major, maintains a cumulative GPA of 3.0 or higher, completes MATH 1903 Directed Research, submits a paper detailing the research within the department, and presents the research in a public forum (i.e. at the University's Science Symposium, or the Undergraduate Poster Fair hosted by UHC).
Education concentration

This concentration removes up to 10 credits of physics courses from the standard Physics major requirements. This concentration requires seven credits of lab courses instead of the standard 10 credits.

Additional education related courses

(6 credits)
- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Additional courses

Emphasizing the broader impact of science; choose at least three credits.
- PHYS 0087 - PHYSICS AND SOCIETY
- Any course offered by the Department of History and Philosophy of Science

Required courses from the Science electives

Group A
- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

Group B
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Physics courses removed

- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Physics - Graduate School Preparation Concentration, BS

Physics Major Requirements

- A minimum GPA of 2.0 in departmental courses is required for graduation. Honors majors must attain a minimum GPA of 3.2 in physics courses, a cumulative GPA of 3.09 or higher, completes PHYS 1903 Directed Research, submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by UHC).
- No PHYS courses beyond the introductory level may be taken on an S/NC basis.
- Students must complete at least one W-course in the major; students should consult with their department advisor about this requirement.
- The mathematics courses required for the major fulfill the related area requirement for all majors in this department.
Physics major, BS

The physics major requires the completion of 47 credits in physics distributed as follows.

Note:

While not required, the introductory level honors courses, PHYS 0475, PHYS 0476, and PHYS 0520 are appropriate particularly for students seeking degrees in physics.

Introductory Physics courses:

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Laboratory courses

Choose at least 10 credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Science electives

Choose at least nine credits from groups A and B. At least three credits must come from a course in group B.

Group A

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1

• MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
Departmental honors requirements

Honors in physics is granted if in addition to fulfilling all requirements for the major, the student maintains a GPA of 3.2 or higher in courses required for the major, maintains a cumulative GPA of 3.0 or higher, completes MATH 1903 Directed Research, submits a paper detailing the research within the department, and presents the research in a public forum (i.e. at the University's Science Symposium, or the Undergraduate Poster Fair hosted by UHC).

Graduate School Preparation concentration

This concentration adds at least six credits of Physics courses to the standard Physics major requirements. This concentration requires seven credits of lab courses instead of the standard 10 credits.

Additional intermediate and advanced Physics courses

- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1372 - ELECTROMAGNETIC THEORY
- PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS

Physics and Astronomy - Education Concentration, BS

Physics and Astronomy Major Requirements

The BS in physics and astronomy requires the completion of 50 credits in physics and astronomy distributed as follows.

Introductory Physics courses:

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

- ASTRON 0113 - INTRODUCTION TO ASTRONOMY

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Laboratory courses
Choose at least seven credits

Required courses

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Additional courses

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY

Intermediate and advanced Astronomy courses

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS *

Note:

* GEOL 1701 - GEOLOGY OF THE PLANETS may be substituted for this course.

Science elective

Choose at least three credits *

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - DATA STRUCTURES
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1701 - GEOLOGY OF THE PLANETS **
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1372 - ELECTROMAGNETIC THEORY
- PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
Note:

* Some of these courses have prerequisites

** If this course is taken as a science elective, it cannot be used to satisfy the requirement for the nine credits of intermediate and advanced courses.

Prerequisite Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1 or
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

Honors major requirements

Honors in physics and astronomy is granted if in addition to fulfilling all requirements for the major, the student meets the following requirements.

- Maintains a GPA of 3.2 or higher in the major
- Maintains a cumulative GPA of 3.0 or higher
- Completes ASTRON 1903 - DIRECTED RESEARCH or PHYS 1903 - DIRECTED RESEARCH
- Submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by the University Honors College).

Education concentration

This concentration removed nine credits from the standard Physics and Astronomy major requirements if one of the courses listed below is taken as a science elective.

Additional education related courses

- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Physics courses removed

- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Required laboratory courses

Choose at least eight credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
Required selection of science electives

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Physics and Astronomy - Graduate School Preparation Concentration, BS

Physics and Astronomy Major Requirements

The BS in physics and astronomy requires the completion of 50 credits in physics and astronomy distributed as follows.

Introductory Physics courses:

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1 or
- MATH 1185 - HONORS LINEAR ALGEBRA

- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

Honors major requirements

Honors in physics and astronomy is granted if in addition to fulfilling all requirements for the major, the student meets the following requirements.

- Maintains a GPA of 3.2 or higher in the major
- Maintains a cumulative GPA of 3.0 or higher
- Completes ASTRON 1903 - DIRECTED RESEARCH or PHYS 1903 - DIRECTED RESEARCH
- Submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by the University Honors College).

Physics, BS

Physics Major Requirements

- A minimum GPA of 2.0 in departmental courses is required for graduation. Honors majors must attain a minimum GPA of 3.2 in physics courses, a cumulative GPA of 3.09 or higher, completes PHYS 1903 Directed Research, submits a paper detailing the research within the
department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by UHC).

- No PHYS courses beyond the introductory level may be taken on an S/NC basis.
- Students must complete at least one W-course in the major; students should consult with their department advisor about this requirement.
- The mathematics courses required for the major fulfill the related area requirement for all majors in this department.

Physics major, BS

The physics major requires the completion of 47 credits in physics distributed as follows.

**Note:**

While not required, the introductory level honors courses, PHYS 0475, PHYS 0476, and PHYS 0520 are appropriate particularly for students seeking degrees in physics.

**Introductory Physics courses:**

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

**Intermediate and advanced Physics courses**

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

**Laboratory courses**

Choose at least 10 credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

**Science electives**

Choose at least nine credits from groups A and B. At least three credits must come from a course in group B.
Group A

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1 or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2 or
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - DATA STRUCTURES
- ENGR 0240 - NANO-TECHNOLOGY AND NANO-ENGINEERING
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Group B

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- GEOL 1410 - EXPLORATION GEOPHYSICS
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1374 - SOLID STATE PHYSICS
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS

Prerequisite Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
• MATH 1180 - LINEAR ALGEBRA 1 or
• MATH 1185 - HONORS LINEAR ALGEBRA

• MATH 0290 - DIFFERENTIAL EQUATIONS or
• MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

Departmental honors requirements

Honors in physics is granted if in addition to fulfilling all requirements for the major, the student maintains a GPA of 3.2 or higher in courses required for the major, maintains a cumulative GPA of 3.0 or higher, completes MATH 1903 Directed Research, submits a paper detailing the research within the department, and presents the research in a public forum (i.e. at the University's Science Symposium, or the Undergraduate Poster Fair hosted by UHC).

Physics Minor

First level Physics course

Select one of the following courses.

• PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
• PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1

Second level Physics course

Select one of the following courses.

• PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
• PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Physics lab course

Select one of the following courses.

• PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING
• PHYS 0520 - MODERN PHYSICS MEASUREMENTS

Principles of Physics course

Select one of the following courses.

• PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
• PHYS 0479 - PRINCIPLES OF MODERN PHYSICS 1

Additional Physics course

Select one of the following courses.

• PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
• PHYS 1374 - SOLID STATE PHYSICS
• PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
• PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS
Department of Political Science

A major in political science is designed to help students understand the complexity of political developments in the United States and throughout the world. The major also provides students with a broad education that will help them to prepare for a wide variety of careers in various levels of government service, law, education, journalism, business, and the nonprofit sector. Those interested in government service careers may wish to complement their study of political science with courses in public service offered through the College of General Studies and the Graduate School of Public and International Affairs.

The political science department offers many courses that meet the international/foreign cultures requirements of the core curriculum of the Dietrich School of Arts and Sciences, as well as requirements for the wide range of certificate programs sponsored by the University Center for International Studies (African Studies, Asian Studies, European Union Studies, Global Studies, Latin American Studies, Russian and East European Studies, West European Studies, Global Service Center).

Political Science, BA

Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. The combination of core and field courses provides students with a comprehensive overview of political science as a discipline while permitting students to concentrate in a particular field or fields.

Core Courses

Students take all five of the core courses, which provide first and second year students with a survey of each of these fields and with the methods employed in the contemporary study of politics.

- PS 0200 American Political Process: An introduction to the institutions and political processes in the United States. The course surveys the presidency, Congress, and the judicial system as well as political behavior, public opinion, political attitudes, and the party system.
- PS 0300 Comparative Politics: An introduction to political systems outside the United States. The course surveys a variety of theoretical approaches to the comparison of political systems and an examination of the political processes, institutions, and current political developments in a variety of political systems in all of the major regions of the world.
- PS 0500 World Politics: An introduction to the study of foreign policy, covering the international political environment in which nation-states and other actors operate, as well as the specific policies adopted by particular states.
- PS 0600 Political Theory and Analysis: An introduction to the history of Western political ideas, including the thought of Plato, Aristotle, Machiavelli, Locke, Mill, and Marx.
- PS 0700 Research Methods in Political Science: An introduction to the methods used in political science research, covering the logic of social scientific inquiry, the basics of research design, and the quantitative and qualitative methods that are commonly used by political scientists to investigate important questions about the political world.

Field Courses

At the 1000 level, students must take a total of six courses (18 credits), distributed across a major field (three courses), a minor field (two courses) and one course in an elective field. In the major field, one of the courses must be a capstone seminar.

In each of the four substantive undergraduate fields of political science, a wide variety of advanced (1000-level) courses is offered on a regular basis. Some courses are offered annually, while others are offered less frequently. For details on course offerings and content, see the Undergraduate Course Descriptions.
American Politics

- PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1203 - JUDICIAL POLITICS
- PS 1204 - WOMEN IN POLITICS
- PS 1211 - LEGISLATIVE PROCESS
- PS 1212 - AMERICAN PRESIDENCY
- PS 1213 - LAW AND POLITICS
- PS 1230 - INTEREST GROUP POLITICS
- PS 1231 - POLITICAL PARTIES AND ELECTIONS
- PS 1233 - POLITICAL PSYCHOLOGY
- PS 1234 - ELECTORAL BEHAVIORS AND DEMOCRATIC PROCESS
- PS 1235 - MEDIA AND POLITICS
- PS 1252 - STATE GOVERNMENT
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1275 - RELIGION AND AMERICAN POLITICS
- PS 1281 - CAPSTONE SEMINAR IN AMERICAN POLITICS

Comparative Politics

- PS 1302 - POLITICAL DEVELOPMENT
- PS 1311 - WESTERN EUROPEAN GOVERNMENT AND POLITICS
- PS 1314 - GERMAN GOVERNMENT AND POLITICS
- PS 1317 - POLITICS OF THE EUROPEAN UNION
- PS 1321 - LATIN AMERICAN POLITICS
- PS 1324 - US-LATIN AMERICAN RELATIONS
- PS 1330 - EUROPEAN UNION SEMINAR
- PS 1332 - GOVERNMENT AND POLITICS IN CONTEMPORARY CHINA
- PS 1333 - GOVERNMENT AND POLITICS OF JAPAN
- PS 1336 - BUSINESS AND POLITICAL ECONOMY IN MODERN CHINA
- PS 1341 - GOVERNMENT AND POLITICS USSR/RUSSIAN FEDERATION
- PS 1348 - XENOPHOBIA IN MODERN EUROPE
- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST
- PS 1352 - INTRODUCTION TO AFRICAN POLITICS
- PS 1361 - COMPARATIVE POLITICAL PARTY SYSTEMS
- PS 1381 - CAPSTONE SEMINAR IN COMPARATIVE POLITICS

International Relations

- PS 1501 - THEORY OF INTERNATIONAL RELATIONS
- PS 1503 - INTERNATIONAL ORGANIZATION
- PS 1504 - NATIONALISM
- PS 1509 - CONFLICT AND WAR THEORY
- PS 1510 - COLDWAR:SOVIET UNION AND WEST 1917-91
- PS 1511 - AMERICAN FOREIGN POLICY
- PS 1513 - FOREIGN POLICIES--CHANGING WORLD
- PS 1521 - EASTERN EUROPE IN WORLD POLITICS
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- PS 1543 - GLOBALIZATION AND INTERNATIONAL POLITICS
Political Theory and Analysis

- PS 1601 - ANCIENT AND MEDIEVAL POLITICAL THOUGHT
- PS 1602 - EARLY MODERN AND ENLIGHTENMENT POLITICAL THOUGHT
- PS 1603 - MODERN AND CONTEMPORARY POLITICAL THOUGHT
- PS 1607 - AMERICAN POLITICAL THOUGHT
- PS 1610 - POLITICAL THEORY OF THE AMERICAN FOUNDING
- PS 1614 - THEORIES OF JUSTICE
- PS 1622 - FEMINIST POLITICAL THOUGHT
- PS 1629 - TOPICS IN POLITICAL THEORY
- PS 1681 - CAPSTONE SEMINAR IN POLITICAL THEORY

Additional Offerings

- PS 1702 - CODING AND COMPUTATION SOCIAL SCIENCE
- PS 1710 - STRATEGY AND GAMES OF POLITICS
- PS 1900 - INTERNSHIP
- PS 1901 - INDEPENDENT STUDY
- PS 1902 - DIRECTED READING
- PS 1903 - DIRECTED RESEARCH

Capstone seminar

The University of Pittsburgh requires students to complete one writing-intensive course in their major. The Capstone Seminar, which is taken in the major field, fulfills the university-wide requirement of an intensive writing course (W-course) in the major and allows students to undertake advanced work under the direction of faculty in a smaller seminar setting.

Departmental honors requirements

Departmental honors are conferred upon students who maintain an overall GPA of 3.5 and achieve a GPA of 3.7 or better in political science.

Related area

A minimum of 12 credits is required in any one Arts and Sciences department chosen in consultation with the major advisor. The completion of an official Arts and Sciences minor or an Arts and Sciences or UCIS certificate also satisfies this requirement.

Grade requirements

A minimum GPA of 2.0 in departmental courses is required for graduation. In addition, a student must earn a grade of at least C- for a course to satisfy a PS requirement.

Satisfactory/No Credit option

No course to be counted toward the major can be taken on an S/NC basis.

Political Science, BPHIL
Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. The combination of core and field courses provides students with a comprehensive overview of political science as a discipline while permitting students to concentrate in a particular field or fields.

Political Science BS and BPhil

Outstanding and motivated students seeking an even more challenging academic experience, especially those who are considering graduate school, should consult with an advisor about the option of a BS or BPhil in Political Science. The BS degree requires the departmental minor field to be Methods and Models in Political Science (PS 1702 and PS 1710), as well as 12 credits of additional coursework in cognate fields and an original paper of high quality. The BPhil degree, which is offered through the University Honors College (UHC), requires a plan of cognate fieldwork and a thesis approved by the department and UHC. For more information on the BPhil, see www.honorscollege.pitt.edu/bphil-degree.

Second Language

None required beyond the requirements of Arts and Sciences. Study of a second language is highly recommended for students with an interest in politics outside of the United States and for all those considering graduate work in comparative politics or a career in government agencies concerned with international affairs.

Statistics

Not required for majors, but highly recommended for all those interested in graduate education in political science, business, or public policy.

Independent Study

Students who have completed the field course may explore a particular subject in greater depth in a tutorial with the appropriate faculty member. Permission of the instructor is required.

Political Science, BS

Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. The combination of core and field courses provides students with a comprehensive overview of political science as a discipline while permitting students to concentrate in a particular field or fields.

Political Science BS and BPhil

Outstanding and motivated students seeking an even more challenging academic experience, especially those who are considering graduate school, should consult with an advisor about the option of a BS or BPhil in Political Science. The BS degree requires the departmental minor field to be Methods and Models in Political Science (PS 1702 and PS 1710), as well as 12 credits of additional coursework in cognate fields and an original paper of high quality. The BPhil degree, which is offered through the University Honors College (UHC), requires a plan of cognate fieldwork and a thesis approved by the department and UHC. For more information on the BPhil, see www.honorscollege.pitt.edu/bphil-degree.
Second Language

None required beyond the requirements of Arts and Sciences. Study of a second language is highly recommended for students with an interest in politics outside of the United States and for all those considering graduate work in comparative politics or a career in government agencies concerned with international affairs.

Statistics

Not required for majors, but highly recommended for all those interested in graduate education in political science, business, or public policy.

Independent Study

Students who have completed the field course may explore a particular subject in greater depth in a tutorial with the appropriate faculty member. Permission of the instructor is required.

Political Science, Minor

A minor in political science is composed of one core course and four field courses in one of the four fields of political science.

Internships

A wide range of internships related to the study of politics at the local, national, and international levels are available in both the public and private sectors in Pittsburgh, Washington D.C., and other major cities. Students must work closely with a faculty advisor to assure full academic credit.

Study Abroad

Majors in political science receive full academic credit for participation in all study abroad programs. The University of Pittsburgh is a participant in a wide range of programs of international study.

Honors Society

Students who have achieved a GPA of 3.0 in political science are encouraged to join Pi Sigma Alpha, the national honors society in political science. This society sponsors many extracurricular activities linked to the study of politics.

Advising

Questions about courses, departmental requirements, and extracurricular opportunities should be addressed to the undergraduate advisors.

Department of Psychology

The psychology major is part of the liberal arts program in the Dietrich School. As such, it provides students with the skills needed to succeed in a job and in graduate school, to think critically and communicate effectively about human behavior and related topics. The Department of Psychology also functions from the perspective that psychology is a natural science. The emphasis it places on research is evident in the foundation courses required to declare the psychology major (e.g., statistics, research methods), as well as in the focus on the scientific methods throughout the content of all other psychology courses. To complement their arts and sciences training, the department also encourages students to participate in directed research and/or supervised field placement opportunities. For more information on the psychology department and its programs, please visit www.psychology.pitt.edu

Psychology majors can participate in one of two major options:
Psychology, BS

The psychology major is part of the liberal arts program in the Dietrich School. As such, it provides students with the skills needed to succeed in a job and in graduate school, to think critically and communicate effectively about human behavior and related topics. The Department of Psychology also functions from the perspective that psychology is a natural science. The emphasis it places on research is evident in the foundation courses required to declare the psychology major (e.g., statistics, research methods), as well as in the focus on the scientific methods throughout the content of all other psychology courses. To complement their arts and sciences training, the department also encourages students to participate in directed research and/or supervised field placement opportunities. For more information on the psychology department and its programs, please visit the Department of Psychology Web site.

Psychology majors an participate in one of two major options: General major in Psychology, and Honors in Psychology. Students who declare the Psychology major are automatically enrolled in the general major track. This track provides students with a broad background in psychology and a firm understanding of the scientific method. The majority of students remain in this track.

In addition to Dietrich School skills and General Education Requirements, psychology majors must complete 34 to 35 credits in psychology, four credits in statistics, and nine to10 credits of co-requirements as described below. The honors track offers students a challenging and unique opportunity: to conduct their own, independent research study under the guidance of a faculty member. Additional course and GPA requirements apply. Students interested in pursuing the honors track should speak with an advisor in the Psychology Advising Office.

Foundation courses

Three courses are required to declare the major; students must earn a C or better in all three foundation courses if they wish to graduate with a psychology major.

- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY 0035 - RESEARCH METHODS

One course in Statistics

Choose one of the following courses.

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Core courses

Choose five courses from the following list

- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
- PSY 0160 - PSYCHOLOGY OF PERSONALITY
- PSY 0310 - DEVELOPMENTAL PSYCHOLOGY
- PSY 0422 - COGNITIVE PSYCHOLOGY
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY
  or
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- PSY 1205 - ABNORMAL PSYCHOLOGY

Upper level

Choose two 1000-level courses, not to include the following courses

- PSY 1205 - ABNORMAL PSYCHOLOGY
Electives

Choose a course from any of the following levels.

- PSY 0100-level
- PSY 0300-level
- PSY 0400-level
- PSY 0500-level
- PSY 1000-level

The elective course cannot include any course used to fulfill a core requirement, any 1000-level requirement, or lab methods requirement. Experiential learning courses - PSY 1900, PSY 1902, and PSY 1903 may be used to fulfill this requirement. PSY 1950, PSY 1970, PSY 1973, and PSY 1975 may not be used to fulfill this requirement.

Laboratory

Choose one of the following courses.

- PSY 0405 - LEARNING AND MOTIVATION
- PSY 0423 - COGNITIVE PSYCHOLOGY LAB
- PSY 1025 - TESTS AND MEASUREMENT
- PSY 1059 - TOPICS IN ADVANCED RESEARCH METHODS
- PSY 1112 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY: RESEARCH WRITING PRACTICUM
- PSY 1213 - PSYCHOPATHOLOGY ADVANCED LAB
- PSY 1305 - EXPERIMENTAL CHILD PSYCHOLOGY
- PSY 1471 - MAPPING BRAIN CONNECTIVITY
- PSY 1975 - HONORS THESIS/MAJORS

Co-requirements

The Department of Psychology requires that students further develop their scientific skills through certain approved courses in math, biological sciences, and social sciences. A list of these approved courses is available in the Psychology Advising Office. The co-requirements may be used to fulfill Dietrich School General Education Requirements, where appropriate, or can be taken as separate courses.

Psychology majors must also follow these rules and requirements:

- Students who wish to declare a major in psychology must first complete PSY 0010 and one of the foundation statistics courses with a letter grade of C or better and must be enrolled in PSY 0035.
- New majors must complete an online orientation prior to scheduling an appointment with their assigned psychology advisors. Students will receive an e-mail with instructions and dates approximately the fourth week of each fall and spring term.
- Psychology majors must maintain at least a 2.0 GPA in their departmental courses.
- All psychology and statistics courses used to fulfill requirements for the major must be taken for a letter grade.
- Majors must take one of the writing-intensive courses (W-courses) offered within the department. PSY 0035 is offered every term and is a W-course. Other W-courses offered in the department are PSY 0420, PSY 1112, and PSY 1305.
- In addition to their major requirements, all Dietrich School students are required to complete a related area, minor, or certificate. Students should consult a psychology advisor when deciding which courses they would like to pursue to fulfill this requirement.
Department of Religious Studies

Religion is one of the creative expressions of the human spirit. As such, it has shaped and, in turn, been shaped by virtually all historical traditions as well as by many other forms of human activity such as the arts, literature, political thinking, and social behavior. Therefore, the academic study of religion should be carried out through diverse scholarly methodologies, and it should treat experiences in a variety of cultural contexts in different periods. Students who wish to understand the manner in which religion, in its broadest terms, has contributed to the shaping of the human experience are encouraged to pursue a course of study that will expand their methodological skills as well as give them a firm command of a particular cultural or historical context. Courses in the study of religion tend to emphasize the human search for meaning and value in history; the manner in which particular religious traditions, practices, thoughts, and orientations have evolved over time; and the degree to which religious views have interacted creatively with other systems of thought and other meaningful expressions of human activity. In addition to courses in the Department of Religious Studies, other departments, such as anthropology, classics, history, philosophy, and sociology, offer related courses. For more information on the Department or Religious Studies and its programs, visit www.religiousstudies.pitt.edu.

Religious Studies, BA

Major Requirements

Students pursuing a major in Religious Studies are required to complete 30 credits, detailed as follows.

Introductory courses

- RELGST 0105 - RELIGIONS OF THE WEST
- RELGST 0505 - RELIGION IN ASIA

Survey course

Select one of the following courses.

- RELGST 0025 - MAJOR BIBLICAL THEMES
- RELGST 0405 - WITCHES TO WALDEN POND
- RELGST 0415 - RELIGION IN MODERN AMERICA
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0715 - PHILOSOPHY OF RELIGION
- RELGST 1120 - ORIGINS OF CHRISTIANITY
- RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY
- RELGST 1135 - ORTHODOX CHRISTIANITY
- RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD
- RELGST 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD
- RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD
- RELGST 1500 - RELIGION IN INDIA I
- RELGST 1550 - EAST ASIAN BUDDHISM
- RELGST 1560 - RELIGION IN CHINA
- RELGST 1570 - RELIGION IN JAPAN

Thematic courses

Select three courses in one thematic cluster listed below.

Religion, Medicine, and the Body
• RELGST 1143 - DEATH IN THE NAME OF GOD
• RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD
• RELGST 1405 - RELIGION AND SEXUALITY
• RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES
• RELGST 1558 - BUDDHISM AND PSYCHOLOGY
• RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS

Spirituality and Rationality

• RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
• RELGST 0735 - WISDOM
• RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
• RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS
• RELGST 1145 - GRECO-ROMAN RELIGIONS
• RELGST 1222 - JEWISH MYSTICISM
• RELGST 1540 - SAINTS EAST AND WEST
• RELGST 1545 - MYSTICISM: EAST AND EAST
• RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS
• RELGST 1610 - MYTH, SYMBOL AND RITUAL
• RELGST 1760 - RELIGION AND RATIONALITY
• RELGST 1762 - THE GUIDE OF THE PERPLEXED

Religion, Culture, and Creative Expression

• RELGST 0435 - RELIGION, FILM AND LITERATURE
• RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA
• RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
• RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
• RELGST 1228 - EXODUS AND PASSOVER
• RELGST 1425 - POPULAR RELIGION IN AMERICA
• RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM
• RELGST 1510 - RELIGION IN INDIA 2: STORYTELLING AS A RELIGIOUS FORM
• RELGST 1557 - BUDDHIST LIVES
• RELGST 1572 - POPULAR RELIGION IN CHANGING JAPAN

Religion, Identity, and Global Problems

• RELGST 1240 - JEWS AND THE CITY
• RELGST 1241 - GENDER AND JEWISH HISTORY
• RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
• RELGST 1372 - CATHOLICISM IN THE NEW WORLD
• RELGST 1438 - RELIGION AND POLITICS
• RELGST 1450 - ISLAM, LAW, AND POLITICS
• RELGST 1518 - RELIGION AND ECOLOGY
• RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
• RELGST 1620 - WOMEN IN RELIGION
• RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS
• RELGST 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT
• RELGST 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION
• RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM
Elective courses

Students must take three elective courses. One of these courses must be a 1000-level RELGST course of their choice. The other two courses may include an internship, an undergraduate teaching assistantship, or a directed study course. Students must complete a minimum of nine credits in elective courses.

Capstone course

The capstone seminar has a prerequisite of any six RELGST courses.

- RELGST 1903 - DIRECTED RESEARCH-UNDERGRADUATE

Distribution courses

Students must take at least one course from each of the following groups. The same course may not fulfill more than one distribution requirement.

Religion in Asia

- RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA
- RELGST 1500 - RELIGION IN INDIA 1
- RELGST 1510 - RELIGION IN INDIA 2: STORYTELLING AS A RELIGIOUS FORM
- RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM: EAST AND EAST
- RELGST 1550 - EAST ASIAN BUDDHISM
- RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS
- RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES
- RELGST 1557 - BUDDHIST LIVES
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1560 - RELIGION IN CHINA
- RELGST 1570 - RELIGION IN JAPAN
- RELGST 1572 - POPULAR RELIGION IN CHANGING JAPAN

Ancient or Classical Religion in the Middle East and/or Europe

- RELGST 0025 - MAJOR BIBLICAL THEMES
- RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
- RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
- RELGST 1120 - ORIGINS OF CHRISTIANITY
- RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY
- RELGST 1135 - ORTHODOX CHRISTIANITY
- RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS
- RELGST 1143 - DEATH IN THE NAME OF GOD
- RELGST 1145 - GRECO-ROMAN RELIGIONS
- RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
- RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD
- RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
- RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD
- RELGST 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD
- RELGST 1222 - JEWISH MYSTICISM
- RELGST 1400 - RELIGION AND CULTURE IN AMERICA
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM: EAST AND EAST
- RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS
- RELGST 1644 - CHRISTIAN MUSLIMS JEWISH IN THE MIDDLE AGES: CONNECTION & CONFLICT
- RELGST 1645 - THE HISTORICAL JESUS
- RELGST 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION
- RELGST 1762 - THE GUIDE OF THE PERPLEXED

Modern or Contemporary Religion in the Middle East, Europe, or the Americas

- RELGST 0405 - WITCHES TO WALDEN POND
- RELGST 0415 - RELIGION IN MODERN AMERICA
- RELGST 0435 - RELIGION, FILM AND LITERATURE
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0715 - PHILOSOPHY OF RELIGION
- RELGST 1240 - JEWS AND THE CITY
- RELGST 1241 - GENDER AND JEWISH HISTORY
- RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD
- RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
- RELGST 1256 - MODERN ISRAEL AND PALESTINE
- RELGST 1372 - CATHOLICISM IN THE NEW WORLD
- RELGST 1400 - RELIGION AND CULTURE IN AMERICA
- RELGST 1405 - RELIGION AND SEXUALITY RELIGION AND SEXUALITY RELIGION AND SEXUALITY
- RELGST 1410 - RELIGION IN AMERICAN THOUGHT
- RELGST 1412 - MIGRATION IN AMERICAN RELIGION
- RELGST 1415 - RACE AND RELIGION
- RELGST 1425 - POPULAR RELIGION IN AMERICA
- RELGST 1427 - RELIGION AND LAW
- RELGST 1438 - RELIGION AND POLITICS
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM
- RELGST 1518 - RELIGION AND ECOLOGY
- RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS
- RELGST 1760 - RELIGION AND RATIONALITY

Other requirements

**Grade requirements**: All courses counted toward the major must be taken for a letter grade and completed with a C grade or above. At least five courses and the capstone seminar must be completed on the Oakland campus. Students transferring from other colleges or universities need to consult with the director of undergraduate studies about transferring courses and credits to be applied to the major.

**Satisfactory/No Credit option**: No more than six credits that count toward the major can be taken on an S/NC basis.

**Writing (W) requirement**: The capstone seminar fulfills the W-course requirement for this major.

**Honors major requirements**: Department honors require a GPA of 3.25 or higher in the major and a B+ or above in the capstone seminar.

**Religious Studies Minor**

Students pursuing a minor in Religious Studies are required to take:
• Two courses from a list of survey and introductory courses
• One course at the 1000-level in western religion from a designated list
• One course at the 1000-level in eastern religion from a designated list
• One elective course at the 1000-level

Department of Slavic Languages and Literatures

The Department of Slavic Languages and Literatures offers majors in Russian and Slavic Studies. These majors provide students with the opportunity to study the languages, literatures, and cultures of Russia and of the Slavic-speaking Eastern European countries, including Poland, Ukraine, Slovakia, Serbia, and Croatia.

Students in the Department of Slavic Languages and Literature include those whose primary interest is languages and/or literature, those who wish to enhance their career opportunities in a special way, those who have an interest in the politics and culture of Russia and the Slavic speaking Eastern European countries, and those who have a desire to explore their ethnic heritage. Many majors continue their studies in graduate or professional school and then go on to careers in business, government, teaching, law, medicine, social work, other health-related professions as well as the CIA, FBI and various NGOs and public policy institutions. Knowledge of a Slavic language has been valuable in working in local Western Pennsylvania institutions, politics, business, health-related professions, and the media because of the large population of those ethnicities in this region. Students are advised to begin language study early in order to gain as complete a command of the language as possible. For more information on the Department of Slavic Languages and Literatures and its programs, see www.slavic.pitt.edu.

During the fall and spring terms, the department offers language courses in Russian, Polish, Slovak and Ukrainian, with Serbian and Croatian available through the Language Acquisition Institute. Any student with prior experience in Russian or Ukrainian (including heritage speakers and those who studied a language in high school or abroad) are required to consult with the instructor before being admitted to any language courses in the department. Placement tests are offered to test suitability.

Summer term intensive courses in Russian, Polish, Slovak, Serbian, Croatian, Bulgarian, Macedonian, Ukrainian as well as Romanian and Hungarian are offered through the Slavic Department's Summer Language Institute [SLI]. Summer language courses are intensive and cover an entire year of study. First through fourth year level courses may be offered. These courses afford students the opportunity to make rapid progress through the language in order to qualify for advanced courses and for various study abroad opportunities. Summer study in the SLI now offers the opportunity to study for the first half of the course in Pittsburgh and the second part in the target country, with excursions to major cities and monuments. Scholarships are available for the SLI programs.

Deserving of special mention is the department's program in Slovak language, literature and culture—the only such program in the United States, and one that additionally offers the opportunity for several students each year to study abroad in Slovakia.

Russian, BA

Major Requirements

The Russian major requires at least 33 distributed as follows.

Prerequisite courses

These courses do not count toward the 33 credits required for the major.

• RUSS 0010 - ELEMENTARY RUSSIAN 1
• RUSS 0020 - ELEMENTARY RUSSIAN 2
• RUSS 0030 - INTERMEDIATE RUSSIAN 1
• RUSS 0040 - INTERMEDIATE RUSSIAN 2

Language courses

• RUSS 0400 - ADVANCED RUSSIAN 1
- RUSS 0410 - ADVANCED RUSSIAN 2
- RUSS 1420 - FOURTH-YEAR RUSSIAN 1
- RUSS 1430 - FOURTH-YEAR RUSSIAN 2

**Literature and culture courses**

- RUSS 0800 - MASTERPIECES 19TH CENTURY RUSSIAN LITERATURE
- RUSS 0810 - MASTERPIECES 20TH CENTURY RUSSIAN LITERATURE
- RUSS 0850 - EARLY RUSSIAN CULTURE
- RUSS 0860 - MODERN RUSSIAN CULTURE
- One 1000-level Russian elective course

**Note:**

Additional courses at the 1000 level in Russian literature are strongly recommended. Prospective majors are encouraged to take RUSS 0800 - MASTERPIECES 19TH CENTURY RUSSIAN LITERATURE and RUSS 0810 - MASTERPIECES 20TH CENTURY RUSSIAN LITERATURE as early as possible as an introduction to Russian literature.

The following rules and requirements apply to Russian majors.

- Advanced placement assessment and credit by examination may be arranged through consent of the instructor and the department chair.
- RUSS 0800 - MASTERPIECES 19TH CENTURY RUSSIAN LITERATURE and RUSS 0810 - MASTERPIECES 20TH CENTURY RUSSIAN LITERATURE are offered regularly as W courses and will satisfy the departmental W-course requirement.
- A grade of C or better is required in each course that counts toward the major. A grade of B- or better in language courses is required to advance to the next level. A minimum GPA of 2.0 in departmental courses is required for graduation.
- No course that counts toward the major may be taken on an S/NC basis.

**Honors in the major**

Honors in Russian is granted if, in addition to fulfilling all requirements for the major, the student meets the following conditions.

- Maintain a GPA of 3.75 or higher in RUSS courses.
- Maintain an overall GPA of 3.25 or higher.
- Complete at least one additional RUSS 1000-level course.
- Complete a 20-page paper involving Russian primary-source research and a two-page summary in Russian, under the supervision of an appointed faculty committee.
- Consulted with the undergraduate advisor in their junior year.

**Study abroad**

Students are encouraged to participate in an approved study-abroad program for a semester or the summer term. The department will adjust the course requirements in individual cases to accommodate this participation without delaying the student's graduation. Majors often apply for Nationality Rooms Program Scholarships for summer study abroad. The Summer Language Institute (SLI) offers generous scholarships as well. The following represents a partial list of study abroad opportunities available to students.

- **Summer study in Moscow:** The Department of Slavic Languages and Literatures currently sponsors a ten-credit summer-study program as part of the SLI in Pittsburgh (5 weeks) and Moscow (5 weeks) at the Moscow State University. Students may study first through fourth year Russian, covering one full year language study in ten weeks. Similar programs exist for study in Poland and Bulgaria. The Slavic department can be reached at 412-624-5096 or via e-mail at slavic@pitt.edu.
- **The University of Pittsburgh** is affiliated with a number of organizations holding both summer and semester, or year-long study in Russia. The Study Abroad Office, located in 802 William Pitt Union, can be reached at 412-647-7413.
The Russian and East European Study Center regularly organizes summer study abroad programs in languages and social sciences in locations from the Czech Republic to Slovakia. REES makes scholarships available for many of these programs. Nadia Kirkov, the REES undergraduate advisor, can be reached at 412-648-7418.

The Nationality Rooms Program offers a wide variety of competitive scholarships for summer study abroad in many parts of the world, including Central and Eastern Europe. Applications are due in January. The NRP, located in 1209 CL, can be reached at 412-624-6510. For more information, see www.slavic.pitt.edu.

Slavic Studies - Option 1, BA

Effective Spring 2018, this program will no longer accept students and will not be active. Students can declare the Slavic Studies major until Fall 2017. The necessary instruction will be available through Summer 2022 for these students to complete the program.

Slavic Studies Major Requirements

Academic requirements for the Slavic Studies major may be fulfilled through one of two options.

Option 1

1. Three to four courses (two years) of a Slavic language above the intermediate level
   - RUSS 0400 - ADVANCED RUSSIAN 1
   - RUSS 0410 - ADVANCED RUSSIAN 2
   - POLISH 0400 - ADVANCED POLISH THROUGH FILM
   - POLISH 0410 - ADVANCED POLISH 2
   - POLISH 1901 - INDEPENDENT STUDY
   or
   - SLOVAK 0400 - ADVANCED SLOVAK 1
   - SLOVAK 0410 - ADVANCED SLOVAK 2
   - SLOVAK 1901 - INDEPENDENT STUDY
   or
   - SERCRO 0400 - ADVANCED BOSNIAN/CROATIAN/SERBIAN 5
   - SERCRO 0410 - ADVANCED BOSNIAN/CROATIAN/SERBIAN 6
   - Fourth year Serbian/Croatian (LAI or study abroad)

Note:

1. Eighteen credits of designated Slavic department courses in literature, film, and culture. Students must take three literature courses, one film course, and two courses in Slavic culture. One of the above must be a W-course. Six credits of Dietrich School courses with a strong Slavic component (courses found in the Russian and East European studies listings) may be substituted, with the advisor's approval.
2. Six credits of Study Abroad or designated Slavic courses in any of the categories above. If students choose a language course, the number of credits may be six to ten.

Slavic Studies note

The first two years of language study do not count as credits toward the major, unless the first-year language course is taken as part of Option 2.
Slavic Studies - Option 2, BA

Effective Spring 2018, this program will no longer accept students and will not be active. Students can declare the Slavic Studies major until Fall 2017. The necessary instruction will be available through Summer 2022 for these students to complete the program.

Slavic Studies Major Requirements

Academic requirements for the Slavic Studies major may be fulfilled through one of two options.

Option 2

- One year of primary Slavic language above the intermediate level. The language may be Russian, Polish, Slovak, or Bosnian/Serbian/Croatian.
- One year of a second Slavic language at any level. The language can be Russian, Polish, Slovak, Bosnian/Serbian/Croatian, Ukrainian, Bulgarian, Macedonian, or Czech.
- Eighteen credits of designated Slavic department courses in literature, film, and culture. Students must take three literature courses, one film course, and two courses in Slavic culture. One of the above must be a W-course. Six credits of Dietrich School courses with a strong Slavic component (courses found in the Russian and East European studies listings) may be substituted, with the advisor's approval.
- Six credits of Study Abroad or designated Slavic courses in any of the categories above. If students choose a language course, the number of credits may be six to ten.

Slavic Studies note

The first two years of language study do not count as credits toward the major, unless the first-year language course is taken as part of Option 2.

Bosnian-Croatian-Serbian Minor

Students may complete this 15-credit minor during the regular academic year or through summer study of the Bosnia-Croatian-Serbian language. SLAV 1865 may not be used to fulfill a requirement for more than one academic program.

Option 1: Academic year

- SERCRO 0030 - INTERMEDIATE BOSNIAN/CROATIAN/SERBIAN 3
- SERCRO 0040 - INTERMEDIATE BOSNIAN/CROATIAN/SERBIAN 4
- SERCRO 0400 - ADVANCED BOSNIAN/CROATIAN/SERBIAN 5
- SERCRO 0410 - ADVANCED BOSNIAN/CROATIAN/SERBIAN 6
- SERCRO 1240 - FOURTH YEAR SERBIAN/CROATIAN/BOSN or
- SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Option 2: Summer study

Choose one course from each of the following pairs:

- SERCRO 0220 - INTERMEDIATE INTENSIVE SERBIAN
Polish Minor

Students may complete this 15-credit minor during the regular academic year or through summer study of the Bosnia-Croatian-Serbian language. *SLAV 1865 may not be used to fulfill a requirement for more than one academic program.*

Option 1: Academic year

- POLISH 0030 - INTERMEDIATE POLISH 3
- POLISH 0040 - INTERMEDIATE POLISH 4
- POLISH 0400 - ADVANCED POLISH THROUGH FILM
- POLISH 0410 - ADVANCED POLISH 2

- POLISH 0325 - SHORT STORY IN POLISH CONTEXT or
- POLISH 0870 - CONTEMPORARY POLISH CINEMA:LITERATURE ON FILM or
- POLISH 1260 - SURVEY OF POLISH LITERATURE AND CULTURE

- SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Option 2: Summer study

Choose one course from each of the following pairs:

- POLISH 0220 - INTENSIVE INTERMEDIATE POLISH
- POLISH 0221 - INTERMEDIATE INTENSIVE POLISH PITT/POLAND

- POLISH 0230 - ADVANCED INTENSIVE POLISH
- POLISH 0233 - ADVANCED POLISH IN POLAND

Slovak Studies Minor - Culture Option

Slovak Studies-MN

An undergraduate minor in Slovak studies motivates students to continue with their language and culture studies in a meaningful way. This program would be particularly useful for students majoring in anthropology, political science, and history, many of whom focus their work on Slovakia or Central Europe and see Slovak language and culture as a gateway to the study of the area. Several of the graduates with considerable work in Slovak at Pitt have been offered jobs at the Pentagon, international nonprofit and nongovernmental organizations (NGOs), Radio Free Europe, and the U.S. Department of State.

Students who are interested in the minor may tailor their course selections according to the focus of their interest in the Slovak language or in Slovak culture.

Culture Option

The Slovak culture option requires the following distribution of courses for a total of 17 credits.

- SLOVAK 0010 - ELEMENTARY SLOVAK 1
Three of the following

- SLOVAK 0030 - INTERMEDIATE SLOVAK 3
- SLOVAK 0380 - SLOVAK TRANSATLANTIC CULTURES
- SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM

Slovak Studies Minor - Language Option

Slovak Studies-MN

An undergraduate minor in Slovak studies motivates students to continue with their language and culture studies in a meaningful way. This program would be particularly useful for students majoring in anthropology, political science, and history, many of whom focus their work on Slovakia or Central Europe and see Slovak language and culture as a gateway to the study of the area. Several of the graduates with considerable work in Slovak at Pitt have been offered jobs at the Pentagon, international nonprofit and nongovernmental organizations (NGOs), Radio Free Europe, and the U.S. Department of State.

Students who are interested in the minor may tailor their course selections according to the focus of their interest in the Slovak language or in Slovak culture.

Language Option

The Slovak language option requires the following distribution of courses for a total of 17 credits.

- SLOVAK 0010 - ELEMENTARY SLOVAK 1
- SLOVAK 0020 - ELEMENTARY SLOVAK 2
- SLOVAK 0030 - INTERMEDIATE SLOVAK 3
- SLOVAK 0040 - INTERMEDIATE SLOVAK 4
- SLOVAK 0400 - ADVANCED SLOVAK 1

Department of Sociology

This is an exciting time of dramatic social change, both nationally and internationally. Global processes are integrating the world and creating the "global village." At the same time, old hostilities based on ethnic solidarity are re-emerging and tearing the social fabric of various parts of the world. The U.S. economy is undergoing structural change, which, in turn, is altering the occupational structure; the United States is becoming more multicultural, and the meanings of "community" are shifting. In these changes there are huge benefits for some and heavy costs for others. "Social problems" (e.g., health care availability, poverty, crime, or threats to the environment) are not marginal to societies but integral to them.

Sociologists try to understand these phenomena. For some, this means informing public policy; for others, the social world is simply one of the most interesting things to study. Sociologists study social organization. For some, this means examining societies-how they are structured, how they work, and how they change. Other sociologists study how small social groups work and how they change. This includes the social networks that people form as part of their social life. Issues of race, class, and gender affect the opportunities and constraints faced by different groups in society. Sociologists study how people belong to families, groups, and organizations-how people develop identities and how their social organizations become real. Sociologists also focus on broad patterns of social organization, socialization, education, welfare, health care, etc. In short, the social world is endlessly fascinating.

For more information on the sociology major, the sociology minor, and the Department of Sociology, see www.sociology.pitt.edu.

Sociology, BA
Major Requirements

A total of 27 credits in sociology and four credits in statistics, distributed as follows, are required for completion of the major.

One of the Following Courses

- SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE
- SOC 0005 - SOCIETIES
- SOC 0010 - INTRODUCTION TO SOCIOLOGY

Both of the Following Courses

- SOC 0230 - SOCIAL RESEARCH METHODS
- SOC 0150 - SOCIAL THEORY

One of the Following Courses

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- Research practicum course
- SOC 1500 - CAPSTONE RESEARCH PRACTICUM FOR MAJORS
- At least 6 credits from advanced-level courses (1000-level). Internships and directed study do not count toward these 6 credits.
- Nine additional elective credits in SOC courses must be taken to complete the major.

In Addition, Sociology Majors Must Adhere to These Rules and Requirements

- A minimum 2.00 cumulative GPA in all departmental courses is required to graduate.
- Sociology majors may take no more than 6 of their 27 credits under the S/NC option. After declaring the sociology major, students may not take SOC 0150 - SOCIAL THEORY and SOC 0230 - SOCIAL RESEARCH METHODS on the S/NC basis.
- Sociology majors must complete the 12-credit required Dietrich School related area. Acceptable related areas include anthropology, Africana studies, computer science, economics, history, mathematics, philosophy, political science, psychology, or religious studies. In special cases, the sociology advisor may approve some other field to satisfy this requirement, such as the study of an international area or second language.

The Department of Sociology Offers Courses that are Particularly Suitable for the Following Special Programs

Pre-Education

Pre-Law

- SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- SOC 0472 - INTRODUCTION TO CRIMINOLOGY
- SOC 0474 - SOCIETY AND THE LAW

Pre-Social Work

- SOC 0424 - SMALL GROUPS
• SOC 0438 - SOCIOLOGY OF THE FAMILY
• SOC 0460 - RACE AND ETHNICITY
• SOC 0471 - DEVIANCE AND SOCIAL CONTROL
• SOC 0477 - MEDICAL SOCIOLOGY
• SOC 1413 - MARRIAGE
• SOC 1450 - HEALTH AND ILLNESS

Pre-Medical

• SOC 0312 - SCIENCE IN SOCIETY
• SOC 0475 - SOCIOLOGY OF AGING
• SOC 0477 - MEDICAL SOCIOLOGY
• SOC 1370 - GENDER AND HEALTH WORLDWIDE
• SOC 1450 - HEALTH AND ILLNESS
• SOC 1467 - TOPICS MENTAL HEALTH AND ILLNESS
• SOC 1488 - HISTORY MEDICINE AND HEALTH CARE

Gender, Sexuality, and Women's Studies

• SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
• SOC 0446 - SOCIOLOGY OF GENDER
• SOC 1333 - COMPARATIVE PERSPECTIVES ON WOMEN
• SOC 1365 - RACE, CLASS, AND GENDER
• SOC 1448 - WORKING WOMEN

Sociology Minor

Minor Requirements

A minor in sociology requires the following distribution of courses for a total of 15 credits:

• SOC 0150 - SOCIAL THEORY
• SOC 0230 - SOCIAL RESEARCH METHODS
• An elective in sociology
• One elective upper-level sociology course (1000-2000)

One of the Following Courses

• SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE
• SOC 0005 - SOCIETIES
• SOC 0010 - INTRODUCTION TO SOCIOLOGY

Department of Statistics

The field of statistics is concerned with ways of understanding variability in measurements. It is the science and art of making informed decisions in the face of uncertainty. Statistical reasoning is fundamental to research in many scientific fields. For example, probabilistic models of learning are used in education and psychology, and time series and regression models guide research in engineering, chemistry, economics, biology, and medicine. Recent high-profile court cases have shown the importance of the use of probability and statistics in law, especially in the fields of forensic medicine and DNA fingerprinting. Statisticians have also been instrumental in developing methods by which observations are obtained in many
disciplines. Examples include randomized clinical trials in medicine and complex sampling surveys in social and political science. Probability and statistics are basic to the actuarial sciences. When lists are compiled of the most important scientific theories and discoveries of the last century, a substantial number of these developments are seen to be inherently statistical in nature.

The Department of Statistics offers course work leading to a Bachelor of Science degree in statistics, a minor in applied statistics, and a combined five-year bachelor and master's degree in statistics. The department also offers a wide array of introductory service courses for general undergraduate audiences that deal with statistical methods in applications (and which require only high school mathematics). A joint major in economics and statistics is also available. Interested students should consult the requirements listed under Economics. Students considering majoring in statistics should consult with a department advisor early in their studies, preferably during their freshman year. For more information on the major, other programs, and the Department of Statistics, visit www.stat.pitt.edu.

Statistics, BS

Requirements for a BS in Statistics

The statistics major requires a minimum of 50 credits, including the following required courses:

Required Course

- STAT 1000 - APPLIED STATISTICAL METHODS *

Note:

* With approval of the major advisor, students may substitute STAT 1000 under the following conditions.
  - Complete STAT 0200 with a grade of B- or better; or
  - Receive advanced placement for STAT 0200; or
  - Complete STAT 1100 if the student is a Statistics-Business dual major.

All of the Following Courses

- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Two of the Following Introductory Applied Statistics Courses

- STAT 1201 - APPLIED NONPARAMETRIC STATISTICS
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1231 - APPLIED EXPERIMENTAL DESIGN
- STAT 1241 - APPLIED SAMPLING
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1291 - TOPICS APPLIED STATISTICS 1

One Intermediate Applied Statistics Course from the Following List:

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES
Both of the Following Courses

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

One Statistics Course from the Following List

- STAT 1731 - STOCHASTIC PROCESSES
- STAT 1741 - APPLIED PROBABILITY THEORY

Mathematics Courses:

Choose one group.

Group 1

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Group 2

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

One of the Following Courses

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

Elective Courses

Because professional statisticians collaborate with other scientists, students are encouraged to take elective courses from the behavioral, natural, physical, and social sciences.

Statistics Majors Must Adhere to the Following Rules and Requirements as Well:

- Students must earn at least a C grade in each course required for the major.
- Students may not take required courses on the S/NC option.
- Since 15 credits of mathematics is one of the corequisites for the major, students who complete the major automatically fulfill the Dietrich School 12-credit related area requirement.
- Courses in technical writing and public speaking are recommended.
- Students planning to continue their studies in a graduate program are strongly encouraged to take MATH 0413 - INTRO THEORETICAL MATHEMATICS, MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS, MATH 1180 - LINEAR ALGEBRA 1, and as many additional mathematics courses in advanced calculus, numerical analysis, and computer sciences as possible.

In order to qualify for departmental honors at graduation, students must

- Have a GPA of at least 3.50 in all mathematics and statistics courses taken
• Have a GPA of at least 3.70 in all 1000-level courses taken within the department and
• Complete all other requirements for the statistics major.

Applied Statistics Minor

Requirements for a Minor in Applied Statistics

Professionals in many fields use statistical procedures regularly. Decisions based on numerical information or data, if the data are collected and analyzed properly, are typically better decisions. The minor in applied statistics was designed to give students additional statistical tools and a better understanding of statistical reasoning.

The minor in applied statistics requires 16 credits, consisting of the following courses

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- Three additional STAT courses at the 1200-level or higher

Note

- Acceptable substitutes for STAT 1000 - APPLIED STATISTICAL METHODS include STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT, ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1, and STAT 0200 - BASIC APPLIED STATISTICS.
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT does not count toward the minor.

Statistics, BS/MA

Requirements for a Combined Five-Year Bachelor's and Master's Degree in Statistics

Admission to the program requires the approval of both the undergraduate and graduate directors. The minimum requirements for admission are:

1. Two letters of recommendation,
2. minimum high school GPA of 3.25 or top 10 percent of class, and
3. an SAT score of at least 1270 with a math score of at least 650.

Requirements for a Combined BS and MA in Statistics

1. Introductory Mathematics Courses:

   - MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
   - MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
   - MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
   - MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
   - MATH 1180 - LINEAR ALGEBRA 1

2.
3. Three Introductory Applied Statistics Courses from the Following List:

- STAT 1201 - APPLIED NONPARAMETRIC STATISTICS
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1231 - APPLIED EXPERIMENTAL DESIGN
- STAT 1241 - APPLIED SAMPLING
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1291 - TOPICS APPLIED STATISTICS 1
- STAT 1292 - TOPICS IN APPLIED STATISTICS 2
- STAT 1293 - TOPICS IN APPLIED STATISTICS 3
- STAT 1294 - TOPICS IN APPLIED STATISTICS 4

4. One Intermediate Applied Statistics Course from the Following List:

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

5.

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

6. 

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

7. 

- STAT 2131 - APPLIED STATISTICAL METHODS 1
- STAT 2132 - APPLIED STATISTICAL METHODS 2

8. 

- STAT 2381 - SUPERVISED STATISTICAL CONSULTING

9. Electives in Statistics:

Three additional courses, at least two of which must be graduate-level courses. STAT 2711 and 2712 are excluded, and courses at the 3000 level must be approved by the student's advisor

10. 

One graduate-level course from outside of the department, chosen in consultation with the graduate advisor
11. Master's pass on Preliminary Examination

Requirements for a Combined BS and MS in Statistics

Requirements one through 11 as above, except that requirement nine is reduced to one undergraduate or graduate course. In addition, the student must write and successfully defend a master's thesis.

- Grade requirement: Students in the program must earn at least a B grade in each required course as well as maintain a 3.25 GPA.

Typical Schedule

First Year:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT

Second Year:

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- STAT 1200-level course
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- STAT 1200-level course

Third Year:

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1200-level course
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
- STAT 1300-level course

Fourth Year:

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 2131 - APPLIED STATISTICAL METHODS 1
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL
- STAT 2000-level course
- STAT 2132 - APPLIED STATISTICAL METHODS 2

Fifth Year:

- Take Comprehensive Exam
- STAT 2381 - SUPERVISED STATISTICAL CONSULTING
- Two STAT electives or master's thesis
- One outside graduate-level course
Comparison of Programs

Separately, the Bachelor of Science in statistics requires 50 credits, and the Master of science in applied statistics requires 33 credits, of which 21 must be graduate level. The combined program requires 69 credits, of which 18 must be graduate level.

Department of Studio Arts

The practice of art is among the oldest and most fundamental forms of human expression. The Department of Studio Arts provides the opportunity for students to explore the visual arts through foundation courses and through upper-level courses in painting, sculpture, drawing, printmaking, and graphic design. Studio activities are designed to intensify students' visual perception of the formal and expressive means of art, to develop understanding of a variety of technical processes, and to encourage insight into the significance of making art today. Course offerings of the department address the following goals:

- Provide a degree program for art majors who desire a liberal education and want to prepare for graduate art school or pursue a career in an art-related field;
- Provide a related area in studio arts for majors in other departments by taking the four foundation courses or by completing 12 credits in a specified studio area;
- Facilitate development of art-making skills and concepts through the foundation courses for all undergraduate students, while satisfying the Dietrich School creative expression requirement; and
- Provide a 15-credit minor in studio arts.

The Department of Studio Arts sponsors an annual student exhibition and a biannual faculty exhibition in the University of Pittsburgh Art Gallery. The University's Frick Fine Arts Library is one of the finest available. Also in close proximity is The Carnegie, with its museum and library providing access for research and study. For more information on the major, the minor, and the Department of Studio Arts, see http://www.studioarts.pitt.edu/.

Studio Arts, BA

Major Requirements

The studio arts major requires the completion of 52 credits - 46 credits in studio arts, and six credits in art history, distributed as described.

Foundation Courses

- SA 0110 - VISUAL THINKING
- SA 0120 - PAINTING STUDIO 1
- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY

Upper-Level Required Courses

- SA 1220 - PAINTING STUDIO 2
- SA 1230 - DRAWING STUDIO 2
- SA 1240 - SCULPTURE STUDIO 2
- SA 1260 - PRINT STUDIO: INTAGLIO
- SA 1270 - DIGITAL STUDIO: IMAGING
- SA 1370 - PREPARATION AND PRACTICE IN THE VISUAL ARTS
- SA 1600 - SENIOR SEMINAR
- SA 1604 - SENIOR EXHIBITION
Upper-Level Elective Courses

Students must take three courses from the following list, for a total of nine credits.

Directed study, internships, and undergraduate teaching assistantships are by permission only. Students must have completed at least 30 credits in Studio Arts courses. Students may apply up to three credits of internship or undergraduate teaching assistantship toward their major requirements.

- SA 1320 - PAINTING STUDIO: PROJECTS
- SA 1330 - DRAWING STUDIO: PROJECTS
- SA 1340 - SCULPTURE STUDIO: PROJECTS
- SA 1345 - SCULPTURE STUDIO: INSTALLATION
- SA 1365 - PRINT STUDIO: SCREENPRINT
- SA 1380 - DIGITAL STUDIO: VIDEO
- SA 1430 - DRAWING STUDIO: PERSPECTIVE
- SA 1450 - PAINTING STUDIO: FIGURE
- SA 1504 - DIRECTED STUDY: STUDIO
- SA 1515 - THE BOOK AS ART: TEXT AND IMAGE
- SA 1900 - INTERNSHIP
- SA 1904 - UNDERGRADUATE TEACHING ASSISTANTSHIP
- HONORS 1542 - HONORS FIELD STUDIES IN WYOMING - STUDIO ARTS

History of Art and Architecture Required Courses

- HAA 0010 - INTRODUCTION TO WORLD ART

History of Art and Architecture Additional Courses

Students must take one of the two following HAA courses.

- HAA 0030 - INTRODUCTION TO MODERN ART
- HAA 0090 - INTRODUCTION TO CONTEMPORARY ART

Writing course requirement

Students must complete an HAA course with a W practicum or stand-alone HAA W-course to satisfy this requirement.

Studio Arts Majors Must Also Adhere to These Rules and Requirements:

- Students must attain at least a 2.00 GPA in the major.
- No department course that counts toward the major may be taken on the S/NC basis. Credit by exam is generally not available.
- Students who earn a 3.50 GPA in the major and an overall 3.25 GPA receive departmental honors.
- Corequisites in HAA automatically fulfill the Dietrich School required 12-credit related area.
- Seniors are expected to exhibit their work in the Annual Student Exhibition at the University of Pittsburgh Art Gallery.
- In addition to required courses, focus in a particular medium is possible through directed study. Internships are also available in art-related fields.
- Majors may take special workshops and courses when offered, but only if they have fulfilled the prerequisites, or by departmental permission. The department recommends that a student take no more than two studio arts courses in one term.

Courses for Non-Studio Arts Majors

All level-one core courses are open to non-art majors. Non-art majors may take level-two courses but must complete the prerequisites for the specific courses. A related area in studio arts requires 12 credits. A student may elect one of the following options: 12 credits in level-one foundation courses
or 12 credits within a specific field with prerequisites. Non majors may take special workshops and advanced courses when offered, but only if they have fulfilled the prerequisites, or by departmental permission.

**Studio Arts Minor - Option 1**

This minor requires completion of 15 credits of coursework. Students must take both required courses and any three Studio Arts courses listed on the introductory and upper-level course lists.

**Studio Arts Minor Requirements**

**Additional information and requirements**

- All courses that count toward the minor must be taken for a letter grade.
- Only six of the fifteen credits required for the minor may be transfer credits.
- The number of upper-level course sections offered per term is limited, as is the frequency of 1300-level and 1400-level courses. Course enrollment is based on availability as well as the completion of prerequisites.
- The Department of Studio Arts recommends that students complete SA 0110 - VISUAL THINKING and SA 0130 - DRAWING STUDIO 1 before enrolling in SA 0120 - PAINTING STUDIO 1.

**Required introductory courses**

These courses are required for both options.

- SA 0110 - VISUAL THINKING
- SA 0130 - DRAWING STUDIO 1

**Additional introductory Studio Arts courses**

- SA 0120 - PAINTING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY

**Upper-level Studio Arts courses**

- SA 1220 - PAINTING STUDIO 2
- SA 1230 - DRAWING STUDIO 2
- SA 1240 - SCULPTURE STUDIO 2
- SA 1260 - PRINT STUDIO: INTAGLIO
- SA 1270 - DIGITAL STUDIO: IMAGING
- SA 1320 - PAINTING STUDIO: PROJECTS
- SA 1330 - DRAWING STUDIO: PROJECTS
- SA 1340 - SCULPTURE STUDIO: PROJECTS
- SA 1345 - SCULPTURE STUDIO: INSTALLATION
- SA 1365 - PRINT STUDIO: SCREENPRINT
- SA 1380 - DIGITAL STUDIO: VIDEO
- SA 1430 - DRAWING STUDIO: PERSPECTIVE
- SA 1450 - PAINTING STUDIO: FIGURE

**Studio Arts Minor - Option 2**
This minor requires completion of 15 credits of coursework. Students must take both required courses, any two Studio Arts courses listed on the introductory and upper-level course lists, and a History of Art and Architecture course on any topic and at any level.

**Studio Arts Minor Requirements**

**Additional information and requirements**

- All courses that count toward the minor must be taken for a letter grade.
- Only six of the fifteen credits required for the minor may be transfer credits.
- The number of upper-level course sections offered per term is limited, as is the frequency of 1300-level and 1400-level courses. Course enrollment is based on availability as well as the completion of prerequisites.
- The Department of Studio ARTs recommends that students complete SA 0110 - VISUAL THINKING and SA 0130 - DRAWING STUDIO 1 before enrolling in SA 0120 - PAINTING STUDIO 1.

**Required introductory courses**

These courses are required for both options.

- SA 0110 - VISUAL THINKING
- SA 0130 - DRAWING STUDIO 1

**Additional introductory Studio Arts courses**

- SA 0120 - PAINTING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY

**Upper-level Studio Arts courses**

- SA 1220 - PAINTING STUDIO 2
- SA 1230 - DRAWING STUDIO 2
- SA 1240 - SCULPTURE STUDIO 2
- SA 1260 - PRINT STUDIO: INTAGLIO
- SA 1270 - DIGITAL STUDIO: IMAGING
- SA 1320 - PAINTING STUDIO: PROJECTS
- SA 1330 - DRAWING STUDIO: PROJECTS
- SA 1340 - SCULPTURE STUDIO: PROJECTS
- SA 1345 - SCULPTURE STUDIO: INSTALLATION
- SA 1365 - PRINT STUDIO: SCREENPRINT
- SA 1380 - DIGITAL STUDIO: VIDEO
- SA 1430 - DRAWING STUDIO: PERSPECTIVE
- SA 1450 - PAINTING STUDIO: FIGURE

**History of Art and Architecture course**

Students must take one History of Art and Architecture course on any topic and at any level.

**Department of Theatre Arts**
The Department of Theatre Arts offers training in both the practical and academic aspects of theatre. Undergraduates may specialize in acting, directing, design and technical theatre, theatre history and criticism, or any combination of these.

While the department is not a professional school, the presence of strong graduate programs creates the atmosphere of professional training. Instead of the protected environment of a conservatory, undergraduate theatre training at Pitt takes place within the context of the liberal-arts experience at a large, urban university.

The department recommends that students declare this major as early as possible. For more information, please contact the Director of Undergraduate Studies, Don Mangone at dmangone@pitt.edu.

**Theatre Arts, BA**

The Department of Theatre Arts offers training in both the practical and academic aspects of theatre. Undergraduates may specialize in acting, directing, design and technical theatre, theatre history and criticism, or any combination of these areas. While the department is not a professional school, the presence of strong graduate programs creates the atmosphere of professional training. Instead of the protected environment of a conservatory, undergraduate theatre training at Pitt takes place within the context of the liberal-arts experience at a large, urban university. The department recommends that students declare this major as early as possible. For more information, please contact the department's Director of Undergraduate Studies.

This major requires 42 credits of course work as follows.

**Introductory courses**

- THEA 0804 - THEATRE AND COLLABORATION
- THEA 0810 - INTRODUCTION TO DRAMATIC ART

**Performance courses**

Choose three of the following courses.

- THEA 0830 - INTRODUCTION TO PERFORMANCE
- THEA 1100 - VOICE AND MOVEMENT 1
- THEA 1101 - VOICE AND MOVEMENT 2
- THEA 1102 - ACTING 1
- THEA 1103 - ACTING 2
- THEA 1104 - ACTING 3
- THEA 1110 - DIRECTING 1
- THEA 1111 - DIRECTING 2
- THEA 1229 - STAGE MANAGEMENT 1
- THEA 1338 - MUSICAL THEATRE PERFORMANCE
- THEA 1392 - SPECIAL TOPICS IN PERFORMANCE

**Design/Technical courses**

- THEA 0842 - INTRODUCTION TO STAGECRAFT
- THEA 0880 - THEATRICAL PRODUCTION
  
  Students will take this course three times: once as Construction; and twice as Run Crew.
- THEA 1240 - COSTUME PRODUCTION AND TECHNOLOGY

Choose one of the following courses

- THEA 0840 - INTRODUCTION TO THEATRE DESIGN
Playwriting, History, and Criticism

Choose two of the following courses

- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640
- THEA 1342 - WORLD THEATRE: 1640 TO 1890
- THEA 1343 - WORLD THEATRE: 1890-Present

The following writing-intensive course is required.

- THEA 1903 - SEMINAR IN THEATRE ARTS

Choose one elective from the Playwriting, History, and Criticism category

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0825 - CONTEMPORARY GLOBAL STAGES
- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640
- THEA 1342 - WORLD THEATRE: 1640 TO 1890
- THEA 1343 - WORLD THEATRE: 1890-Present
- THEA 1365 - PLAYWRITING 1 (writing-intensive)
- THEA 1366 - PLAYWRITING 2 (writing-intensive)
- THEA 1390 - NEW PLAY PRACTICUM

Elective course

Students must take one course selected from offerings in Performance, Design / Tech, or Playwriting / History / Criticism. Directed study (THEA 1480 - THEA 1485) and independent study (THEA 1900) courses cannot be used to satisfy this requirement.

In addition, theatre arts majors should adhere to these rules and requirements.

- Students are encouraged to declare this major early and register with the departmental advisor.
- Majors must maintain at least a 2.0 GPA in all theatre arts courses.
- Students must check with the program advisor to determine the appropriateness of using the Satisfactory/No Credit (S/NC) grade option in departmental courses. No more than two courses in the major may be taken on an S/NC basis.
- A minimum of 12 credits is required in a related area. Any area that corresponds with the student's interests is appropriate, but Studio Arts is strongly suggested. Also recommended are: Anthropology; Africana Studies; Classics; English; History of Art and Architecture; a second language; History; Music; Philosophy; Psychology; Sociology; and Communication and Rhetoric.

For more information on the major and the Department of Theatre Arts, visit their Web site.

Theatre Arts Minor

Minor Requirements
Required Courses for the Minor

- THEA 0880 - THEATRICAL PRODUCTION: Run Crew

Choose two of the following courses

These courses cannot count for both the required course and the nine credits of theatre electives.

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0804 - THEATRE AND COLLABORATION
- THEA 0810 - INTRODUCTION TO DRAMATIC ART

Choose three courses from any remaining theatre courses listed.

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0804 - THEATRE AND COLLABORATION
- THEA 0810 - INTRODUCTION TO DRAMATIC ART
- THEA 0825 - CONTEMPORARY GLOBAL STAGES
- THEA 0830 - INTRODUCTION TO PERFORMANCE
- THEA 0840 - INTRODUCTION TO THEATRE DESIGN
- THEA 0842 - INTRODUCTION TO STAGECRAFT
- THEA 0880 - THEATRICAL PRODUCTION CRAFT
- THEA 1100 - VOICE AND MOVEMENT 1
- THEA 1101 - VOICE AND MOVEMENT 2
- THEA 1102 - ACTING 1
- THEA 1103 - ACTING 2
- THEA 1104 - ACTING 3
- THEA 1109 - PERFORMANCE LAB

Urban Studies Program

While urban studies is not a department, it is an administrative unit offering a major in urban studies for students who have an interest in unraveling the complexities of the urban world. The major is interdisciplinary, meaning that students learn about cities as historical, social, cultural, economic, and political phenomena. The major is "real world" in the sense that students apply what they learn to the world beyond the classroom. Finally, the major is career oriented in that, after graduation, students attempt to find roles for themselves in the urban environment. To accomplish all of these goals, the urban studies curriculum integrates "knowing" with "doing." The major combines courses offered by the program with courses offered through other social science departments. For more information, see www.urbanstudies.pitt.edu.

Urban Studies, BA

Major Requirements

The Urban Studies Major Requires 33 Credits, Distributed as Follows:

- URBNST 0080 - INTRODUCTION TO URBAN STUDIES
- URBNST 1300 - URBAN SKILLS SEMINAR
- URBNST 1500 - URBAN RESEARCH SEMINAR
- URBNST 1900 - URBAN FIELD PLACEMENT - six credits

- STAT 0200 - BASIC APPLIED STATISTICS or
- STAT 1000 - APPLIED STATISTICAL METHODS is strongly recommended but not required

- URBNST 1200 - URBAN STUDIES FIELD RESEARCH SEMINAR is not required but fills the elective requirement. This seminar is offered only in the summer.
- URBNST 1700 - INTERNATIONAL URBANISM SEMINAR is required for comparative urbanism students.

Additional Rules and Requirements:

- Students are encouraged to take URBNST 0080 Introduction to Urban Studies as early as possible, ideally in the fall or spring of the freshman year, and to develop a broad background in the social sciences among lower-level social science courses such as the following:
  - ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
  - AFRCA 0031 - INTRODUCTION TO AFRICANA STUDIES
  - ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
  - HIST 0601 - UNITED STATES 1865-PRESENT
  - PS 0200 - AMERICAN POLITICS
  - SOC 0010 - INTRODUCTION TO SOCIOLOGY

- Students must have at least a 2.00 GPA in all courses to be applied to the major.
- Students may take as many courses on the S/NC basis as they wish.
- URBNST 1500 - URBAN RESEARCH SEMINAR, which is required for the major, satisfies the W course requirement.
- Students are required by Dietrich School to complete a 12-credit related area. Particularly appropriate areas are sociology, economics, political science, anthropology, Africana studies, and history, although students may consult with their advisor about other possibilities.

University Honors College
The University Honors College (UHC) seeks to create opportunities for dedicated and engaged students to explore their interests in great depth and with great rigor. The UHC offers a variety of carefully designed courses from the humanities, social sciences, and natural sciences, along with supplemental advising opportunities, academic activities, and a distinctive baccalaureate degree in any undergraduate school of the University.

Contact Information

University of Pittsburgh
University Honors College
3600 Cathedral of Learning
Pittsburgh, PA 15260
412-624-6880
www.honorscollege.pitt.edu

Admission Requirements

A distinctive feature of the University Honors College (UHC) is that unlike honors programs and colleges at virtually all other universities, students do not apply for membership, students are not accepted into the UHC, and students are not rejected for membership. Rather, all undergraduate students who seek an enriched education are invited to pursue the rigorous academic opportunities provided by the UHC.

Advising

The UHC offers multiple forms of advising that are intended to complement the advising students receive from their primary advisor. These include supplemental academic advising, Health Professions Advising, national scholarships advising, community engagement advising, and Politics and Philosophy major advising.

Please note that all students are welcome to meet with UHC advisors and are encouraged to either make an appointment online or simply email the relevant advisor.

Supplemental Academic Advising

UHC supplemental academic advisors help students explore interests and goals, assist in matching them to relevant opportunities in research, student groups, and academics within the UHC and at Pitt; assist in planning double majors and/or an interdisciplinary approach to their education; provide general academic advice on courses, majors, and research; and aid in the preparation of personal statements for scholarships and graduate study. For more information: http://www.honorscollege.pitt.edu/advising

Health Professions Advising

Health professions advising assists students as they explore major choices, course selection, long range planning, and successful application to both the health professions committee and to medical, dental, optometry, podiatry, and veterinary schools. Advisors assess student goals and then recommend academic and experiential opportunities that mesh with student interests. For more information: http://www.honorscollege.pitt.edu/health-professions-advising

National Scholarships

The office of National Scholarships works closely with students to identify scholarships relevant to their academic and personal goals, and explore the steps to become competitive applicants for these awards. National scholarship advising can help students attain a broader perspective and refined understanding of their personal, academic, and professional goals; strengthen their writing skills through the creation and revision of personal statements and grant proposals; and develop the resourcefulness to identify opportunities to conduct meaningful research and/or incorporate service and international experiences into their educational plan. For more information: www.honorscollege.pitt.edu/national-scholarships-advising
Community Engagement

Community Engagement Advising and programming provides students with opportunities to use their academic interests and skills to positively impact their communities. Community Engagement Advising introduces students to pertinent social issues in the city of Pittsburgh as well as key organizations, leaders, and advocates who are involved with those issues; connects students to research, fellowships, experiential learning opportunities, and other scholarly projects that relate to public service and social change; supports students in designing independent experiences and research projects that integrate academic skills and interests with investigating and addressing community issues. For more information: http://www.honorscollege.pitt.edu/community-engagement-advising

Politics and Philosophy Major

This interdisciplinary major in the Kenneth P. Dietrich School of Arts and Sciences is advised through the UHC and provides students with training in the conceptual, empirical, and normative foundations of various fields of public policy. It enhances understanding of the moral and political complexities of public life and offers preparation in both theory and practice to students interested in pursuing careers in social and public affairs. For more information: http://www.honorscollege.pitt.edu/politics-philosophy

The Bachelor of Philosophy Degree

The Bachelor of Philosophy (BPhil) degree is jointly awarded by the UHC and any undergraduate school/college at Pitt. The BPhil degree signifies the highest level of research/scholarship attainable by an undergraduate student. To receive the BPhil degree, students must fulfill the degree requirements (major, general education, and/or other curricular requirements) of their "home school" (e.g., Kenneth P. Dietrich School of Arts and Sciences, Swanson School of Engineering, College of Business Administration, School of Nursing, etc.) and maintain a 3.50 cumulative GPA. The UHC adds two requirements: a more demanding program of study which should have breadth, depth, and focus and independent research/scholarship under the guidance of a faculty member culminating in a written thesis that is defended before a faculty examination committee that includes a visiting external examiner from another college or university. For more information: http://www.honorscollege.pitt.edu/bphil-degree

Special Academic Opportunities

Student Publications

The UHC advises and directs the publishing of four undergraduate publications: Collision (prose and poetry), Pittsburgh Undergraduate Review (analytical and scholarly essays), Three Rivers Review (literary magazine), Pitt Political Review (political writing). All publications are student run and always interested in new members. Consult the UHC publications page for more information: http://www.honorscollege.pitt.edu/activities/student-publications

Research Opportunities

The UHC provides research opportunities in the fall and spring semesters as well as the summer. These include the Brackenridge Research Fellowships, Health Sciences Summer Research Fellowships, and Chancellor's Undergraduate Research Fellowships just to name a few. For more in depth information about these programs and their application deadlines, please visit: http://www.honorscollege.pitt.edu/fall-and-spring-research-opportunities and http://www.honorscollege.pitt.edu/summer-research-opportunities

Housing

The UHC offers First-Year Honors Housing, located in Sutherland West, and Upper-Class Honors Housing in Pennsylvania Hall and Forbes Craig Apartments. Honors Housing is unique in that it connects highly motivated students from across schools and majors in communities that are shaped by their shared academic, cultural, and personal interests. To learn more about Honors Housing, visit: http://www.honorscollege.pitt.edu/housing
Major and Minor Descriptions

Politics and Philosophy, BA

The politics and philosophy major, a major in the Kenneth P. Dietrich School of Arts and Sciences, advised through the University Honors College, provides students with interdisciplinary training in the conceptual, empirical, and normative foundations of various fields of public policy. It enhances students' understanding of the moral and political complexities of public life and it offers preparation in both theory and practice to students interested in pursuing careers in social and public affairs.

By combining course work from different disciplines -- political science, philosophy, and economics -- the program's scope is broad, yet the structure of the curriculum also requires depth. The thematic nature of the major allows for flexibility in course selection. In collaboration with the major advisor, students design a cohesive program of study tailored to meet their individual post-graduate/career interests and needs.

The politics and philosophy major is a rigorous, but rewarding, program. Upon graduation, an academic career is certainly a possible pursuit; the major also provides excellent preparation for careers in law, government, community organizations, and social action groups.

The major is comprised of elements from the political science, philosophy, and economics departments and involves a minimum of 51 credits distributed as follows: political science - 21 credits; philosophy - 21 credits; economics - 9 credits. A capstone, which may have associated credits, is also required.

Required Courses

Political Science Courses

Students must complete seven courses in political science. At least four of those courses must be upper level (numbered 1000 or above). One of the courses must be a W-course; the W-course may be either upper- or lower-level.

Philosophy Courses

Students must complete seven courses in philosophy. At least four of those courses must be upper level (numbered 1000 or above). One of the courses must be a W-course; the W-course may be either upper- or lower-level.

Economics Courses

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON XXXX any course (no course in the 0800 series may count toward this requirement)

Capstone Requirement

In consultation with the major advisor, students may opt for one of the following.

- completion of the Bachelor of Philosophy thesis through the University Honors College (UHC);
- participation in a graduate-level seminar (with permission from the instructor); or
- completion of a Directed Research Project, an Independent Study, or an Internship.

Grade requirements: A minimum GPA of 2.0 is required in those courses that count toward the major.

Satisfactory/No Credit option: There is no limit on the number of courses in the major that can be taken on an S/NC basis, but it is suggested that these courses be taken for a letter grade.

Writing (W) requirement: The W courses listed under the political science and philosophy requirements satisfy the W requirement for the major.
Related area: A related area is not required due to the interdisciplinary nature of the major.

Course Clusters

Students can choose to group courses that are related to each other in order to create some specialization and depth in writing for specific purposes and audiences. Here are sample clusters:

Writing to Support Scientific Research

- ENGCMP 0440 - CRITICAL WRITING
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0530 - WRITING FOR THE SCIENCES
- ENGCMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1400 - GRANT WRITING
- ENGCMP 1102 - LANGUAGE OF MEDICINE

Advertising and PR Writing

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 1103 - PUBLIC RELATIONS WRITING

Writing for Government

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1400 - GRANT WRITING

Writing for Nonprofits

(While it doesn't count toward the major, consider ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING for your first-year composition course.)

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCMP 1400 - GRANT WRITING
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA

Teaching and Composition Studies

(While it doesn't count toward the major, consider ENGCMP 0207 - SEMINAR IN COMPOSITION: EDUCATION course.)
Preparing for Law School

- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 1510 - WRITING WITH STYLE

Writing for Business

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY

Public Engagement

(While it doesn't count toward the major, consider ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING for your first-year composition course.)

- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 1551 - HISTORY AND POLITICS OF THE ENGLISH LANGUAGE
- ENGCMP 1552 - LANGUAGE, LITERACY, LEARNING

Composing Digital Media

- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0425 - DIGITAL HUMANITY
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA

Publishing

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 1220 - THE ART OF THE ESSAY
- ENGCMP 1510 - WRITING WITH STYLE
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 1151 - PROFESSIONAL EDITING IN CONTEXT

School of Computing and Information

The University of Pittsburgh's School of Computing and Information (SCI) opened on July 1, 2017, building upon the traditions of excellence embodied by the Department of Computer Science and School of Information Sciences. SCI aims to position the University as a leader in preparing students for this increasingly-interconnected world by providing students with excellent disciplinary foundations and training to support our mission to make the world a better place through polymathic education and the science of interacting systems. Our degree programs address the holistic spectrum of computing and information, from producers to users and from science-oriented exploration to human-centric applications. We foresee a future with increased opportunities to expose our students to a multidisciplinary approach to knowledge creation, information management, and computing; expanded experiential learning opportunities; and extended career networks.

SCI represents the confluence of computing and information along with diverse academic disciplines, serving as a valuable resource to researchers, students, and organizations across the University and around the world. SCI is a new school for a new era of research and learning, one in which the power of information and computing will accelerate knowledge discovery and creativity.

The School-level regulations set forth in the following document apply to students who were admitted to the University of Pittsburgh during the 2018-2019 Academic Year. Students admitted prior to this academic year should refer to the Archived Catalogs for the regulations governing their undergraduate studies.

Students admitted PRIOR to the 2017-2018 Academic Year will find the School-level regulations to which they are bound by going to the Archived Catalogs for either Arts & Sciences (Computer Science majors) or School of Information Sciences (Information Science majors).

Department or major requirements and policies are tied to the term in which a student declares the major.

School of Computing and Information Program and Course Offerings

Department of Computer Science

The Department of Computer Science is part of the School of Computing and Information. It offers a Bachelor of Science in Computer Science degree, a Computer Science minor, and a Bachelor + Master of Science in Computer Science. See programs below for more information.

Computer Science, BS

Note: The requirements outlined in this section represent minimum degree satisfaction. Please consult the School of Computing and Information's Intranet for detailed policies, procedures, forms, and advising resources.

The department-level rules set forth in the following document apply to students who declared their CS major during the 2018-2019 Academic Year. Students who declared prior to this academic year should refer to the Archived Catalogs for departmental-level rules.

Students who declared the CS major PRIOR to the 2017-2018 Academic Year will find the department-level rules to which they are bound by going to the Archived Catalogs for Arts & Sciences.
Computer Science, BS

Eligibility for the major

To be considered for admission to the CS undergraduate program, students must complete the following CS core courses with a grade of C or better in each course:

- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA *
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - DATA STRUCTURES
- CS 0447 - COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE

*Students should have some programming experience (usually acquired in high school) before taking CS 0401. Any high school course that includes the writing of several Pascal, C++, or Java programs would be sufficient. It is also possible to take one of the department's service courses, such as CS 0007, as preparation. Preparatory classes of this nature do not count toward the student's major requirements.

Grade Policies for Computer Science Majors

Satisfactory/No-Credit (S/NC) grade options for CS majors

Students should check with their academic advisors before deciding to take a course S/NC (formerly the S/N option). Beyond the School's Regulations for students enrolling in courses with the S/NC grade option, the Department of Computer Science imposes the following rules:

- All computer science courses for the major (core and upper-level courses) must be taken for a letter grade.
- Required mathematics courses may be taken with the S/NC option.

Students should be sure, before deciding on the grading system for a course, that their decision will not have an adverse effect on their plans for a major. They must discuss this decision with their advisor PRIOR to enrolling and selecting the S/NC grade option.

Individual Course Grades

All computer science courses for the major (core and upper-level courses) must be completed with a C grade or better to count for the CS major. ANY course taken to satisfy a major requirement, including MATH courses required by the major (MATH 0220, MATH 0230, and either STAT 1000 or STAT 1151), for which only a C- grade or lower is received, must be repeated. If a grade of C- or lower is earned in a prerequisite course, the course must be repeated before the higher-level course may be taken.

Departmental Honors

Students may graduate with honors if they have also:

- Completed a sixth upper-level elective CS course
- Have a CS GPA of at least 3.5
- Have an overall GPA of at least 3.25

Major Requirements

The computer science major requires 40 credits in computer science courses and an additional 11-12 credits in mathematics and/or statistics as detailed below:
Core Courses

A minimum of 16 credits must be satisfactorily completed in the following five core courses:

- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA *
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - DATA STRUCTURES
- CS 0447 - COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE
- CS 0449 - INTRODUCTION TO SYSTEMS SOFTWARE

*Students should have some programming experience (usually acquired in high school) before taking CS 0401. Any high school course that includes the writing of several Pascal, C++, or Java programs would be sufficient. It is also possible to take one of the department’s service courses, such as CS 0007, as preparation. Preparatory classes of this nature do not count toward the student's major requirements.

Required Upper-level courses

Nine credits in these three upper-level courses:

- CS 1501 - ALGORITHM IMPLEMENTATION
- CS 1502 - FORMAL METHODS IN COMPUTER SCIENCE
- CS 1550 - INTRODUCTION TO OPERATING SYSTEMS

Upper-level Elective Courses

Fifteen additional credits in upper-level elective courses (numbered 1000 or higher) must also be completed.

Internships, directed studies, and co-op courses may not be used to satisfy this requirement (see below).

Required Mathematics Courses

A minimum of 12 credits in mathematics must be completed as follows:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

- Or -

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

- Or -

- STAT 1151 - INTRODUCTION TO PROBABILITY

Note: Students should complete their required mathematics courses early. Typically, MATH 0220 would be completed in the freshman year. Strong students may elect also to take MATH 1180 - LINEAR ALGEBRA 1.

Also, the faculty may approve certain exceptions to the degree requirements outlined in the previous sections. Approval for exceptions must be obtained PRIOR to enrollment in the course in question and must be documented through the Records Office. See the Advising section of the SCI Catalog for more details.

Related Area of Study
A 12-credit related area may be completed in approved mathematics and/or statistics courses. Other options include economics, business, chemistry, physics, psychology, or philosophy.

**Computer Science, BS/MS**

**Computer Science Minor**

A 16 credit minor in computer science is available. The minor is essentially 5 of the 6 courses that are considered the "core" of the CS major. **This is a rigorous minor.** This minor is not intended for casual students interested in computer literacy.

The requirements for the CS minor are:

- CS 0401*
- CS 0445
- CS 1501
- Any two of the three courses: CS 0441, CS 0447, and CS 0449.

*CS 0401 requires programming experience as a prerequisite. A student without any programming background would be advised to take the 3 credit course CS 0007 as preparation for CS 0401.

**Computer Science, BS/MS**

The BS degree in computer science requires 120 credits of course work, including 40 credits in computer science and 11 or 12 credits in mathematics and statistics. Typically, a student completes this degree in four academic years. Well-prepared students may apply for admission to the combined bachelor's / master's degree program. This accelerated program allows students to begin taking graduate courses in their senior year and complete the combined BS / MS degree in five years. Please contact the Department of Computer Science for additional information.

**Department of Informatics and Networked Systems**

The Department of Informatics and Networked Systems is part of the School of Computing and Information. It offers a Bachelor of Science in Information Science. Please select the program below for more information.

**Information Science, BS**

Note: The requirements outlined in this section represent minimum degree satisfaction. Please consult the School of Computing and Information's Intranet for detailed policies, procedures, forms, and advising resources.

The department-level rules set forth in the following document apply to students who declared their IS major during the 2018-2019 Academic Year. Students who declared prior to this academic year should refer to the Archived Catalogs for departmental-level rules.

Students who declared the IS major PRIOR to the 2017-2018 Academic Year will find the department-level rules to which they are bound by going to the Archived Catalogs for the School of Information Sciences.

**Information Science, BS**

**Eligibility for the major**

To be considered for admission to the IS major, students must meet the following criteria:
- Strong evidence of academic achievement to include GPA, course grades, or recommendations. Students who have a GPA less than 2.75 may be considered for provisional admission and should apply.
- Completion of INFSCI 0010 Intro to Information, Systems and Society with a grade of a C or higher.

Grade Policies for Information Science Majors

Satisfactory/No-Credit (S/NC) grade options for IS majors

The student should check with his or her academic advisor before deciding to take a course S/NC (formerly the S/N option). Beyond the School's Regulations for students enrolling in courses with the S/NC grade option, the Department of Informatics and Networked Systems (DINS) does not accept S grades for courses required for the completion of the Information Science major except for the following courses:

- INFSCI 1082 - INFORMATION SCIENCE COOPERATIVE PROGRAM
- INFSCI 1085 - INTERNSHIP

Students should be sure, before deciding on the grading system for a course, that their decision will not have an adverse effect on their plans for a major. They must discuss this decision with their advisor PRIOR to enrolling and selecting the S/NC grade option.

Individual Course Grades

Required courses for the Information Science major must be repeated or replaced by a comparable course if a grade of C- or lower is received. If a grade of C- or lower is earned in a prerequisite course, the course must be repeated before the higher-level course may be taken. If a grade of C- or lower is earned in any course taken to satisfy a major requirement, the course must be repeated or replaced. Course repetitions are subject to the School's Course Repeat Policy.

GPA Requirement

Students must achieve a 2.50 grade point average for the classes counted toward the Information Science major.

Major Requirements

The information science major requires 30 credits in information science courses as detailed below. Note the pre-requisite course, INFSCI 0010, does not count toward the final major credits but will be calculated into the Information Science GPA. Also, the faculty may approve certain exceptions to the degree requirements outlined in the following sections. Approval for exceptions must be obtained PRIOR to enrollment in the course in question and must be documented through the Records Office. See the Advising section of the SCI Catalog for more details.

Core Courses

All students must complete six of the following courses. If a student is following a specialization's path, the core courses may be prescribed. Refer to the Specializations section below for details.

- INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
  - or -

INFSCI 0019 - PYTHON PROGRAMMING FOR DATA MANAGEMENT & ANALYTICS

- INFSCI 0009 - MATH FOR INFORMATION SCIENCE
  - or -

INFSCI 1040 - INTRODUCTION TO DATA ANALYTICS
Specializations / Upper-level Electives

Students choose three upper-level electives based on their academic interests. Students self-designing their path may combine elements from each of the specializations below, or think about adding courses that will broaden their area of expertise. For these students, any three upper-level (1000 or higher) course will count toward the upper-level elective requirement.

The School, in consultation with its industry advisory board, has clustered upper-level electives into specializations that are designed to help you define your skills and career options. The specializations (Game and Simulation Development, IT Consulting and Data Analytics, User-centered Design, and Networks and Security) and the courses for each were determined by our faculty and industry advisors to ensure that you’ll have the knowledge that employers need. Specializations and the recommended path to depth of knowledge in these areas are as follows:

Related Area of Study

Five courses from any area in which a degree program is offered at the Pitt or an approved certificate program. The total number of credits must be at least 15.

GAME AND SIMULATION DEVELOPMENT

Whether designing a virtual reality game for fun, or a game to explore environmental challenges in urban areas, game design and development calls for a solid foundation in the Information Sciences including coursework on human factors in system design, User-Centered Design, programming, database management, software engineering, and analysis of information systems. Our game and simulation development concentration builds on that foundation with coursework on storytelling, game design, and game implementation, the psychology of games or serious games, and simulation in health sciences. Students will also take courses from the University of Pittsburgh's English, Studio Arts, Psychology, Computer Science, and other programs. In addition, students will design and build actual games for both entertainment and educational purposes.

Core coursework should include six of the following courses:

- INFSCI 0009 - MATH FOR INFORMATION SCIENCE
- INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS

Elective coursework might include three of the following courses. *Courses that are considered core to this specialization and are therefore strongly recommended:

- INFSCI 1017 - IMPLEMENTATION OF INFORMATION SYSTEMS *
- INFSCI 1052 - USER CENTERED DESIGN
- INFSCI 1060 - GAME DESIGN *
- INFSCI 1061 - GAME IMPLEMENTATION *

IT CONSULTING AND DATA ANALYTICS

In the IT Consulting and Data Analytics concentration, you will learn how to break down complex problems, analyze critical data to support your decision-making, and design leading-edge solutions. You will learn how to successfully manage projects using industry standard tools, techniques, and processes. You will enhance your leadership skills to help you launch and navigate your professional career. Through team-based assignments, you will have the opportunity to work with local industry professionals to solve their most challenging problems.
Core coursework should include six of the following courses:

- INFSCI 0019 - PYTHON PROGRAMMING FOR DATA MANAGEMENT & ANALYTICS
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1040 - INTRODUCTION TO DATA ANALYTICS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS

Elective coursework might include three of the following courses. *Courses that are considered core to this specialization and are therefore strongly recommended:

- INFSCI 1021 - TRENDS IN INFORMATION TECHNOLOGY MANAGEMENT
- INFSCI 1023 - INNOVATION & ENTREPRENEURSHIP IN INFORMATION TECHNOLOGY
- INFSCI 1027 - IT PROJECT MANAGEMENT *
- INFSCI 1028 - GOING DIGITAL: TRANSFORMATIONAL CHANGE
- INFSCI 1029 - BUSINESS ESSENTIALS FOR THE IT PROFESSIONAL

HUMAN-CENTERED COMPUTING

This concentration explores the design and management of information systems, focusing on the user's needs and improving the user's experience. You will learn how to create systems that will specifically address the information tasks of the end-user, that are easy-to-use, and which are responsive to the user's changing needs and growing sophistication. You will be able to help improve workplace satisfaction and efficiency, through effective system design and intelligent system management.

This concentration incorporates coursework from the cognitive, system design, and human-factors disciplines. You will learn how to identify and manipulate a user's environment and their specific goals for an information system. Then, using a set of well-defined techniques for design and analysis, the system is developed and tested (with actual users) for both its effectiveness and user satisfaction. This process can be considered as a multi-stage problem solving process and the end result is a system that is useful, effective, easy to learn and use, and appreciated by the end user.

Core coursework should include six of the following courses:

- INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
  - or -

INFSCI 0019 - PYTHON PROGRAMMING FOR DATA MANAGEMENT & ANALYTICS

- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1040 - INTRODUCTION TO DATA ANALYTICS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS

Elective coursework might include three of the following courses.

- INFSCI 1052 - USER CENTERED DESIGN
- INFSCI 1059 - WEB PROGRAMMING
- INFSCI 1060 - GAME DESIGN

NETWORKS AND SECURITY

Computer networks form the critical infrastructure of society and network architects and administrators are in high demand across all sectors of industry. This program of study benefits from the expertise of our faculty and the academic rigor of our graduate programs in security, telecommunications, and information science. The School of Computing and Information is nationally-renowned for its academic and research programs in Information Security - it has been designated as a National Center of Academic Excellence in Information Assurance Education since 2003. Students who choose the Networks and Security concentration will learn the fundamentals of how computer networks work, how to make them secure, and what goes into the protocols and design of networks, be it local area networks, wide area networks, wireless networks, or the Internet of
Things. Students will be able to take courses in networks, computer security, and wireless networks, including a hands-on lab class that exposes them to various dimensions of networks and security.

Core coursework should include six of the following courses:

- INFSCI 0009 - MATH FOR INFORMATION SCIENCE
- INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS

Elective coursework might include three of the following courses. *Courses that are considered core to this specialization and are therefore strongly recommended:

- INFSCI 0014 - CYBERSECURITY AND THE LAW
- INFSCI 1071 - APPLICATIONS OF NETWORKS *
- INFSCI 1072 - INTRODUCTION TO WIRELESS NETWORKS
- INFSCI 1074 - COMPUTER SECURITY *
- INFSCI 1075 - NETWORK SECURITY
- INFSCI 1079 - COMPUTER NETWORKING LABORATORY

**Capstone**

Students in the undergraduate program in information science will participate in a capstone experience, gaining experience through a research project in the school, an internship with regional industry, or a self-designed project.

- INFSCI 1059 - WEB PROGRAMMING
- INFSCI 1080 - INDEPENDENT STUDY
- INFSCI 1081 - TEAM-BASED CAPSTONE PROJECT
- INFSCI 1082 - INFORMATION SCIENCE COOPERATIVE PROGRAM
- INFSCI 1085 - INTERNSHIP

**Grand-parenting and the new School of Computing and Information**

Computer Science (CS) undergraduate majors who matriculated into the University of Pittsburgh PRIOR to Fall 2017 received a communication allowing a choice to either remain in the School of Arts & Sciences or transfer to the new School of Computing and Information for completion of their CS degree.

- If a student chose to remain in the School of Arts & Sciences, they should refer to the Arts & Sciences catalog for the regulations, policies, and requirements for their degree.
- If a student applied to transfer to the School of Computing and Information, they should refer to the new school's catalog for the regulations, policies, and requirements for their degree.

*Note: If a student took no action in response to the grand-parenting e-mail, they will remain in the School of Arts & Sciences by default.*

For any students matriculated into the University of Pittsburgh PRIOR to Fall 2017 who have not yet declared a CS major, the student will choose to either declare their Computer Science major in the School of Arts & Sciences or apply to the School of Computing and Information.

Any student matriculating into the University of Pittsburgh AFTER Fall 2017, must apply to the School of Computing and Information in order to pursue an undergraduate degree in either Computer Science or Information Science and should refer to this School's catalog for information.

If you have additional questions or concerns, please contact the School's Office of Student Services at SCIug@pitt.edu.

**Admission Requirements and Procedures**
The freshman and sophomore years are typically spent in the Dietrich School of Arts and Sciences or the College of General Studies. During the first two years, students will take courses needed for admissions and begin satisfying some of the required Skills, General Education, Related Area, and SCI major course requirements.

To be considered for transfer to the School of Computing and Information, applicants must present an adequate lower-level undergraduate academic record and be in good academic standing in the college or school in which they are currently enrolled. Specifically, qualified students typically:

- have completed at least 55 credits (which may include current term credits)
- have an overall GPA of at least 2.75 if currently enrolled at Pitt's Oakland campus
- have an overall GPA of at least 3.0 if currently enrolled outside of Pitt's Oakland campus

Additionally, students working towards their first degree at the University of Pittsburgh must be admitted to a SCI degree program. For degree-specific admissions requirements, click here.

**Note:** Meeting minimum qualifications is not a guarantee of admission to the program. Exceptional students that do not meet these criteria may still be admitted. The total student record, as well as the probability of completion of the degree requirements within the remaining credit hours, will be considered.

**Deadlines for all applications:** August 1 for the Fall Term, December 1 for the Spring Term, April 1 for the Summer Term.

**Admission of Students from Other Countries:** Applicants are required to submit original or certified, official secondary school records; literal translations of your records if they are not in English; and an official credential evaluation of all international documents (transcripts, marksheets, certificates, examination results, etc.) from an approved evaluator. See details on the OAFA webpage for International Transcript Evaluation. The application process should be started 9 to 12 months in advance of the intended enrollment date.

An applicant whose native language is not English must take the Test of English as a Foreign Language (TOEFL) and submit official test results.

For more information on international student applications, including TOEFL requirements and exceptions, refer to: http://www.oafa.pitt.edu/intladm.aspx.

**Special Admissions (Apply directly to SCI)**

**Second-degree Pitt:** Students who have already earned an undergraduate degree at the University of Pittsburgh with a minimum GPA of 3.0 and who are returning to complete a second degree may be admitted to SCI directly as undeclared students while they complete the requirements for admission to a specific degree program. Students may not remain undeclared for more than three semesters after admissions.

Students who fall into this category should apply directly to the School of Computing and Information. Applicants should note the following:

- Course work for the second degree will continue to be recorded on the original University of Pittsburgh undergraduate transcript.
- All appropriate course work from the first degree will apply to the second degree.
- The cumulative GPA and credit total will be based on all credits from the first degree and all new course work taken that applies to the second degree.
- Students must earn a minimum of 30 new credits.

**Post-baccalaureate and Guest students:** Students who have completed an undergraduate degree and wish to take additional undergraduate courses on a non-degree-seeking basis (post-baccalaureate) or students who are students enrolled in an undergraduate degree program at another university who plan to take courses for credit at the University of Pittsburgh with the intention of transferring those courses back to their home institution (guest students) should apply directly to the College of General Studies (CGS). Eligibility and application instructions are available on the CGS website.

**Reinstatement:** Students who have left the University for one calendar year or more (whether of their own volition or as a result of a suspension), who did not complete work at another institution, and who wish to continue their studies must apply for reinstatement through the School.

For more details regarding the different definitions and regulations for readmitted and reinstated students, see the Leave of Absence (LOA), Readmission, and Reinstatement section of the SCI Catalog.

**Students Applying for Transfer from within the University (Internal Transfer - Apply through current school)**
(Internal) Pittsburgh campus schools: Upon completion of 55 credits, students can apply to the School of Computing and Information by meeting with their advisors and completing an Undergraduate Academic Program/Plan Add/Change Form with their current School's Records Office or other administrative center.

(Regional) Relocation from regional campuses: Regional transfer students may apply directly to the School if they have met both the relocation requirements and the major-specific admissions requirements. Those who do not meet both the relocation requirements and degree-specific admissions requirements must apply through the Dietrich School of Arts and Sciences.

Students in Pitt's undergraduate schools or regional campuses at the University should initiate the process of transferring into a SCI program by submitting an Undergraduate Academic Program/Plan Add/Change form with their current campus's Records Office or other administrative center. Students currently on inactive status in the school of last registration must first be reinstated in that school before the transfer process can be completed.

Applications for internal transfer are reviewed by the SCI Records Office in conjunction with departmental faculty. Decisions are made in about two to four weeks. Students will be contacted by the SCI Records Office regarding the admissions decision.

Students Applying for Transfer from Other Universities or Colleges
(External Transfer - Apply through OAFA)

Second-degree, non-Pitt: Students who completed a degree at another institution submit a Transfer Application and supporting materials to the Office of Admissions and Financial Aid.

First degree transfers from external institutions: Students at other institutions who wish to apply for admission as transfer students to the School of Computing and Information should submit a Transfer Application and supporting materials to the Office of Admissions and Financial Aid.

Readmission: Students who previously attended the University of Pittsburgh before attending another institution and who wish to return to the University are considered transfer students and must reapply following the guidelines for transfer students. Former students who have enrolled in other institutions may apply for readmission with advanced standing. Such students should submit a Transfer Application and supporting materials to the University's Office of Admissions and Financial Aid.

For more details regarding the different definitions and regulations for readmitted and reinstated students, see the Leave of Absence (LOA), Readmission, and Reinstatement section of the SCI Catalog page.

All applications for external transfer (second-degree, non-Pitt; first degree transfer; and readmission), including the associated evaluation of course work taken at other colleges and universities, will be reviewed by the SCI Records Office in conjunction with departmental faculty and the Office of Admissions and Financial Aid. Decisions are made in about two to four weeks and notifications will be made by the Office of Admissions and Financial Aid. Students will later receive an evaluation of transfer credits and welcome letter from the School.

Evaluation of Transfer Credits

Previous course work for transfer students is evaluated by the Records Office with respect to general education requirements. As well, the Records Office liaises with departments to ascertain transfer credit for major-specific course requirements. Before initial registration, students transferring credits from one Pitt school or campus, or an external institution will receive an Academic Advisement Report that illustrates the requirements that they have satisfied, and which requirements remain to be satisfied in order to complete their degree. Transfer students may be required to complete one or more placement tests to determine if certain requirements have been met.

Note for Internal and Regional students: All credits and previously approved exemptions will be re-evaluated by SCI. In some instances, this may mean that not all transfer credits or previously approved exemptions or waivers will be accepted or applied toward their SCI career.

Transfer credits are subject to the following conditions:

- An official transcript of all courses taken at other institutions must be submitted at the time of application, whether or not it is intended that such courses be counted toward the degree. For acceptance, courses must be passed with a satisfactory grade (minimum of C or equivalent) and must be earned at an institution accredited by the appropriate regional accrediting association. Grades for such courses are not used in computing a student's GPA nor in determining probationary status or eligibility for graduation honors.
- Generally, courses that have a reasonable counterpart in the curricula of the various schools/departments of the University of Pittsburgh are eligible for transfer.
- The number of credits granted for a course cannot exceed the number on the transcript from the institution where they were earned nor, usually, exceed the number to be earned in the corresponding course at the University of Pittsburgh.
- No transfer credits may be part of the final 30 required credits for the degree. These credits must be earned in residence at the School of Computing and Information. Credits earned at regional campuses and in international programs are considered as transfer credits.
- Credits accepted for advanced standing must have been earned within 12 years of the date when the degree requirements must be completed.
- Transfer credits for courses that do not have reasonable counterparts in the curricula of the various schools or departments of the University cannot be used to satisfy requirements for the degree, unless approved by the director of the undergraduate program.
- No more than 90 credits may be transferred from a four-year institution, and no more than 60 credits may be transferred from a two-year institution.
- If a course for which advanced standing credit has been granted is repeated, the advanced standing credit is canceled.

Transfer guides / articulation agreements: The School of Computing and Information utilizes the "Pitt Connection Guides" and official Articulation Agreements maintained by the Office of Admissions and Financial Aid when evaluating transfer credits. Students considering transfer to the School may find these resources useful.

ADVANCED STANDING

In addition to the aforementioned transfer credit options, the School of Computing and Information may accept other forms of advanced standing.

Advanced Placement (AP) Credits: See the AP credit section of the Office of Admissions and Financial Aid Web site.

International Baccalaureate (IB) Higher-Level Examinations: See the IB Examination section of the Office of Admissions and Financial Aid Web site.

Transferring Out

Students who wish to transfer out of SCI to another school at the University must submit the Academic Plan Change Form available on the School's Current Student website.

Note: All transfer credits and authorized exemptions or waivers are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Special Admissions (Apply directly to SCI)

Second-degree Pitt: Students who have already earned an undergraduate degree at the University of Pittsburgh with a minimum GPA of 3.0 and who are returning to complete a second degree may be admitted to SCI directly as undeclared students while they complete the requirements for admission to a specific degree program. Students may not remain undeclared for more than three semesters after admissions.

Students who fall into this category should apply directly to the School of Computing and Information. Applicants should note the following:

- Course work for the second degree will continue to be recorded on the original University of Pittsburgh undergraduate transcript.
- All appropriate course work from the first degree will apply to the second degree.
- The cumulative GPA and credit total will be based on all credits from the first degree and all new course work taken that applies to the second degree.
- Students must earn a minimum of 30 new credits.

Post-baccalaureate and Guest students: Students who have completed an undergraduate degree and wish to take additional undergraduate courses on a non-degree-seeking basis (post-baccalaureate) or students who are students enrolled in an undergraduate degree program at another university who plan to take courses for credit at the University of Pittsburgh with the intention of transferring those courses back to their home institution (guest students) should apply directly to the College of General Studies (CGS). Eligibility and application instructions are available on the CGS website.

Reinstatement: Students who have left the University for one calendar year or more (whether of their own volition or as a result of a suspension), who did not complete work at another institution, and who wish to continue their studies must apply for reinstatement through the School.
For more details regarding the different definitions and regulations for readmitted and reinstated students, see the Leave of Absence (LOA), Readmission, and Reinstatement section of the SCI Catalog.

Students Applying for Transfer from within the University (Internal Transfer - Apply through current school)

(Internal) Pittsburgh campus schools: Upon completion of 55 credits, students can apply to the School of Computing and Information by meeting with their advisors and completing an Undergraduate Academic Program/Plan Add/Change Form with their current School's Records Office or other administrative center.

(Regional) Relocation from regional campuses: Regional transfer students may apply directly to the School if they have met both the relocation requirements and the major-specific admissions requirements. Those who do not meet the both the relocation requirements and degree-specific admissions requirements must apply through the Dietrich School of Arts and Sciences.

Students in Pitt's undergraduate schools or regional campuses at the University should initiate the process of transferring into a SCI program by submitting an Undergraduate Academic Program/Plan Add/Change form with their current campus's Records Office or other administrative center. Students currently on inactive status in the school of last registration must first be reinstated in that school before the transfer process can be completed.

Advanced Placement (AP) Credits: See the AP credit section of the Office of Admissions and Financial Aid Web site.

International Baccalaureate (IB) Higher-Level Examinations: See the IB Examination section of the Office of Admissions and Financial Aid Web site.

Students Applying for Transfer from within the University (Internal Transfer)

Students Applying for Transfer from Other Universities or Colleges (External Transfer)

Evaluation of Transfer Credits

Transferring Out

Students who wish to transfer out of SCI to another school at the University must submit the Academic Plan Change Form available on the School's Current Student website.

Note: All transfer credits and authorized exemptions or waivers are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.
Academic Regulations and Standards

UNIVERSITY REGISTRATION POLICIES

Policies on full-time/part-time status, adding and dropping courses, cross-registration, grading systems, etc. are governed by the University at large. Students should refer to the University's Academic Regulations for general information and contact the SCI Records Office for more details on applying these policies in practice.

Highlighted are frequent topics of inquiry: Registration Status and Process, Withdrawing and Resigning, Grading Options and Calculations

GRADING POLICIES

University Grading and Records: More information regarding grades-definitions of, grade change, and viewing grade reports can be found in the University's academic regulations.

Satisfactory/No-Credit Grade Option Policy: The School of Computing and Information uses both the University's letter grade and Satisfactory/No-Credit (S/NC) grade options (formerly the S/N option, see Grading and Records for more information). In addition to the general University rules governing those grading systems, there are a few formal limitations to the student's freedom of choice regarding grading systems. The student should check with his or her academic advisor before deciding to take a course S/NC.

Note, students must decide by one week after the end of the add/drop period which grading system they propose to use for each of their courses. This decision may not be changed, nor may a grade of one kind received for a course be changed to a grade of the other kind (e.g., from an S/NC grade to a letter grade).

Students enrolled in the School of Computing and Information may take at most 30 credits of course work using the Satisfactory/No-Credit (S/NC) system. Aside from this overall limitation on the number of S/NC credits, individual degree programs may place additional requirements upon the use of this grading option within the degree program.

Evaluation of a student's ability and achievement in a course is not eliminated by the Satisfactory/No-Credit (S/NC) system. Recitations, tests, and papers may all be required and assessed by instructors who will convey to the student their judgments of the worth of the student's work. Because the publicly recorded evaluation is minimal, students should use the instructor's comments in the most helpful way possible: as a guide to their own future course of study and for assessment of their own potential.

Since it is difficult to evaluate transcripts containing very few letter grades, students seriously considering transferring to the School of Computing and Information or considering graduate study should keep this in mind. The student may wish to ask instructors from whom they have taken courses on the Satisfactory/No-Credit (S/NC) system to write letters of recommendation for them immediately at the end of the course.

CREDIT & ENROLLMENT POLICIES

Residency Requirement: All students must earn a minimum of 30 new credits in residency at the School of Computing and Information, including at least 15 credits within the major program. At least half of the major program credits must be earned at the University of Pittsburgh.

Normal Full-Time Credit Load: A normal full-time credit load ranges from 12 to 18 credits per term, with a minimum of 24 credits in an academic year. Any term credit load in excess of 18 credits requires the approval of the Director of the undergraduate program and approval of the Dean of the School of Computing and Information.

Summer or Special Session Course Work: Students in good academic standing may attend a summer or special session at another accredited institution in order to supplement their program. Students should provide a course description and syllabus to their advisor to obtain approval PRIOR to registering for these special courses. Note the following stipulations:

- Students who have already completed 90 credits of coursework are not allowed to take courses elsewhere.
- Courses may not be a repetition of any course previously taken (passed or failed).
- To obtain permission to attend another institution, a student must have begun his or her program at the University of Pittsburgh or have been admitted as a transfer student from another institution with no more than 60 advanced standing credits.
- A maximum of two summer or special sessions may be taken at other institutions, with a maximum of two courses per session.
- After completing such courses, an official transcript must be submitted to the Records Office along with an advisor-approved and signed transfer credit request form.
Lower-level or Sequential Courses: Credit cannot be earned for courses taken after more advanced course work in the same field has been successfully passed with a C or higher. For example, credit cannot be earned for an algebra course taken after the successful completion of a calculus course.

ELI classes: LING 0007, LING 0008, and LING 0009 courses may be counted towards the 120 credits required for degree.

Physical Education: Students are not required to take any courses in physical education (PEDC), but may elect to do so. Up to four credits of courses offered by the School of Education's Department of Health, Physical, and Recreation Education may be counted toward an SCI degree.

ROTC: Credits earned in aerospace science (Air Force ROTC), military science (Army ROTC), or naval science (Navy ROTC through cross registration at Carnegie Mellon University [CMU]) are not accepted toward an SCI degree. The School will grant up to four credits toward graduation for the following military science courses in lieu of physical education and recreation courses: AFROTC 0001, AFROTC 0002, AFROTC 0003, and AFROTC 0004; MILS 0012 and MILS 0022. Any four credits of Navy ROTC courses from CMU will count in lieu of physical education and recreation courses.

Independent Study, Undergraduate Research, and Internships

SCI students may earn up to 24 credits of independent study, undergraduate research, and internships as part of the 120 credits required for a degree. Ordinarily, no more than six credits may be earned in any term in a single undergraduate research experience or internship. Under certain conditions, students in good standing may register for a block of 15 credits of independent study. These credits are to be earned for work done within one academic term. A student may register for a 15-credit independent study term only once during his or her college career. This needs to be approved by the Dean prior to registration.

Learning Agreement forms for independent study and undergraduate research are available from the academic department through which the activity will be conducted. Internship application packets are available through SCI Student Services.

Eligibility, procedures, and guidelines, are governed by the academic department, therefore inquiries should be sent to the student's advisor.

Directed Research: The student pursues a defined research project on campus under the guidance of a faculty member.

Independent Study: Involves an independent program of study, research, or creative activity designed under specified conditions and is usually conducted off campus with less immediate direction by the sponsoring faculty member.

Internships: a supervised, work-related experience, either volunteer or compensated. It is intended to be a new experience, not an existing position in which the student is already working. Students will only get internship credit for a current employment situation that has been pre-approved as an internship by the relevant school or department. Participation in the co-operative program falls under this category.

Cooperative Programs: To provide an opportunity to apply classroom knowledge within a real-world context, SCI students may complete participate in the cooperative program run out of the Swanson School of Engineering (SSOE). The Cooperative Office within SSOE has established arrangements with industry partners that permit students to rotate four-month terms between the workplace and the classroom. These are paid positions related to the student's field of study. The experience normally starts in the sophomore or junior year. A student may complete a maximum of four rotations, totaling four credits toward their degree.

Any student registering for directed research, independent study, internship for credit, or coop must receive consent. Students should speak to their advisor as other restrictions may apply.

Study abroad: Students are encouraged to add an international dimension to their undergraduate education through engagement with available study abroad programs. Credits may be earned toward the School's degrees through participation in one of several University of Pittsburgh programs or consortia-sponsored programs.

Credits earned during study abroad programs are earned with the satisfactory/no credit (S/NC) grading option and therefore calculate into the S/NC credit limits listed above.

Before study abroad is undertaken, approval for credit must be obtained. The study abroad advisor provides program approval, and the advisor in the department in which credit is sought and must approve the course selections and credits. Students should have at least a 2.75 GPA before seeking permission from their department to study abroad. Visit the Study Abroad website for more information.

Credit by Examination: Each test for credit by examination must be arranged with the department teaching the course for which credit is desired. The examination must be in a specific course offered by the School of Computing and Information. Departments set their own policies as to the specific courses for which students may request credit by examination, the time and type of examination, and the number of courses among those
Credit by examination cannot be obtained for a college-level course for which credit has already been awarded, nor can it be used to alter a grade already received. Credit may not be earned by examination in lower-level sequence courses when the student has already obtained credit for a higher-level course in the sequence. Students are not permitted to audit courses without registering and then apply for credit by examination.

Students wishing to earn credit by examination should first consult with the department in which the course is given and then obtain the requisite form from the Records Office. There is a $10 per credit fee payable to the Student Payment Center, to be submitted once the form is completed. This fee is nonrefundable. Credit by examination is open to all students. Questions should be directed to the departments which offer and administer the exams.

**Graduate classes:** Undergraduates with sufficient preparation are encouraged to take advantage of the rich variety of graduate courses offered by the departments and schools within the University. Students enrolled in the School of Computing and Information may use credits in graduate courses toward their undergraduate degree. To enroll in a graduate course, students must obtain the written consent of the instructor of the course, have a 3.00 cumulative GPA, and have the approval of the director of the undergraduate program.

**Course Repeat Policy:** Required courses for a major must be repeated or replaced by a comparable course if a grade does not meet the program's minimum requirements (see Department page for specifics). Course repetitions are subject to the University's defined limitations:

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The grade earned by repeating a course is used instead of the grade originally earned. W, R, or N grades reported for the repeated course will not be identified as a course repeat, and therefore the original grade earned will continue to be counted in the GPA. Incomplete grades (G and I) are not identified as repeated courses until the course work is completed.
- Students are only permitted to repeat a course twice.
- Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.

The Records Office automatically submits the Registrar's Course Repeat Form for students who have repeated the exact course (i.e., repeating INFSCI 0017). However, any student who is replacing a course with a comparable one (i.e., replacing INFSCI 0017 with CS 0401), must submit a Course Repeat Form through their advisor. This form is available on the School's Current Students website.

In all cases, it is the responsibility of the student to ensure their repeat course grades have been updated with the "Repeated - Excluded from GPA" flag on their academic record and that all credits have been calculated correctly. Students should discuss repeat courses with their advisor at the beginning and end of the term of repeated enrollment.

**Leave of absence (LOA), Readmission, and Reinstatement:** Students who have resigned without requesting a leave of absence, have been away from the University for one or more years, or who have been suspended must apply for readmission or reinstatement. By University definitions, readmitted students previously attended the University of Pittsburgh and then enrolled at another external institution. Reinstated students previously attended the University of Pittsburgh and left for one or more calendar years, not attending external institutions in the meantime. These terms are attached to specific application processes and graduation requirements.

**Readmitted** students follow the School and degree graduation requirements and rules based upon their term of readmission. Their statute of limitations is reset to their term of readmission and their transfer credits, advanced standing, and previously authorized exemptions will be reevaluated at the point of readmission. Students may apply for readmission by submitting the transfer application available on the Office of Admissions and Financial Aid website.

**Reinstated** students follow the School and degree requirements and rules based upon their original term of entry to the School. Their statute of limitations is calculated against their original term of entry to the University and their transfer credits, advanced standing, and previously authorized exemptions will be accepted as previously approved at the point of reinstatement. Students interested in reinstatement should submit the Reinstatement application available on the Current Students website.
Exceptions to the reinstatement rules include:

- Students whose leave exceeds two years. All students who have been away from the University for two or more years will be subject to the requirements of the School and of their major and/or certificate programs at the time of their reinstatement, rather than those in place at the time of their last attendance.
- Students on an approved leave of absence.

Under special conditions, undergraduate students may be granted one Leave of Absence (LOA) that may last between two terms and two years. Students must notify the School of their LOA by submitting the LOA form found on the Current Students website. Notification must be received prior to the student’s intended term of absence. If granted approval by the Dean's Office, a student is ensured that their transfer credits, advanced standing, and previously authorized exemptions will be accepted as previously approved. If a student petitioned the faculty and received permission to enroll in an external institution during their LOA for transfer credit in advance of their LOA, the credits may still transfer upon the student's return.

Students who have an approved LOA do not have to apply for readmission nor reinstatement. Instead, instructions for returning to the School will be shared with the student in the letter sent approving their leave.

Additionally, requesting a leave of absence impacts the statute of limitations and acceptance of credits completed at an external institution during their leave. Upon requesting a leave, the 12-year statute of limitations is put on hold until the student's return.

**A note on advising appointments and on returning from a break in continuous enrollment:**

Since registration advising meetings are usually held from the seventh to the twelfth week of the preceding term, applications for reinstatement should be received within that period so that the advisor may assist in planning the program and in registering the student. Similarly, students who are returning from a LOA should keep this timeline in mind for setting up an appointment with their advisor.

Regardless of the conditions surrounding a student's leave - an intentional leave of absence, suspension, or an extended lapse in enrollment requiring reinstatement - when a student returns, they return in the standing attached to their record (good, warning, or probation) at the term of their departure.

Any courses that a student takes at another institution during a period of suspension shall not be granted credit by the School after the student has been reinstated.

Since several of the School's undergraduate courses may be taken during the first and second years of study, the School of Computing and Information faculty cooperate with the Dietrich School of Arts and Sciences (A&S) and College of General Studies (CGS) advisors to help students plan the first two years of study. Computer Science and Information Science courses taken during the first two years serve two purposes:

- For those students who are undecided on a major, early contact with computer or information science can provide a basis for deciding whether or not to major in the subject; and
- For those students who have already decided on either computer or information science as a major, the courses can indicate more fully the topics that are of interest and also complete the necessary course work to ensure on-time graduation.

**Advisor assignment and advising meeting expectations:** Once students have been accepted into one of our degree programs, they are assigned an advisor or advising committee. Initially, the student and advisor discuss the student's plan of study, a related field, and other academic options. Each term, the student and advisor should review the student's progress and select the courses to be taken to satisfy the student's program goals. In addition, the student and advisor should discuss career goals, educational plans, and any academic-related problems.

The School's policy emphasizes the role of an advisor in providing advice for academic decisions, and students are urged to take full advantage of their advisor's experience and knowledge as often as needs arise.

Detailed advising information is available on the individual program offering pages of this Catalog.

**Advisor approval for enrollment and/or withdrawing:** Students must meet with their advisor prior to their enrollment appointment each term. Students are expected to review their academic advisement report (AAR) in preparation for their meeting.

Exemptions to enrollment, withdrawals, and degree requirements are approved by a representative of the Dean's Office but are mediated through the student's advisor.

**Tracking your degree progress (AAR):** In order for students to verify that they are making progress toward graduation, they should regularly review their academic advisement report (AAR). This report is submitted with the graduation application as a contract between the School and the student. If a student finds errors in their AAR, they should speak to their advisor and request updates to their AAR. Requests for updates include "Best Fit" changes (re-directing courses to the appropriate requirement area), authorized student exemptions (exemptions pre-approved by the Program Director and/or the Deans Office), and corrections to transfer credits.
Maintenance of a student's AAR is the responsibility of the student and will expedite the graduation certification process. As well, the AAR provides detailed course options for fulfilling all requirements for the degree. When using the AAR online, students have quick access to schedule details for approved courses and links to enrollment.

It is recommended that students continually monitor their AAR and utilize this tool frequently for enrollment and advisement purposes.

Informational videos and documents related to the AAR can be found on the Registrar's Student Training website.

OTHER UNIVERSITY REGULATIONS

The University has a number of official policies affecting students. For a summary of these policies and links to complete and current text on all University policies, students should thoroughly review the information provided under Academic Regulations.

Highlighted are frequent topics of inquiry: Student Rights and Responsibilities, Family Educational Rights and Privacy Act (FERPA), Harassment Policies, Student Service Indicators Policy

General Education, Skills and Major Requirements

All students are required to complete general education requirements. These courses are meant to provide foundational skills and breadth of knowledge, aiming to provide students with a broad exposure outside of their core discipline of study while encouraging a focus on the application of techniques from the classroom to meaningful problems.

Full lists of specific courses that meet the following requirements are available to students through the Academic Advisement Report and/or the "Plan by my requirements" tool found in the enrollment system.

Informational videos and documents related to the AAR and other advisement and enrollment resources can be found on the Registrar's Student Training website.

Note: Transfer students receive an evaluation of their previous course work indicating the equivalent University of Pittsburgh courses for which transfer credits have been awarded. Courses will meet requirements for the major where deemed appropriate by the Department. Students who believe that a previous course not equivalent to a Dietrich School course should meet a requirement for a major may petition the department to review that course. If students believe a course should meet a general education or skills requirement, they may petition the School's Records Office.

Skills Courses

Skills requirements help ensure that all students attain appropriate levels of competence in writing, communication, and quantitative and formal reasoning. Students may be placed in or exempted from skills requirements based upon certain achievement test scores, University of Pittsburgh placement test scores, or course work completed at other colleges and universities. Skills requirements are outlined below. All skills courses must be completed with a grade of C or higher.

- Category 1: Expression (3 courses)
  - Introductory Composition
  - Technical, Business, or Research Writing
  - Communications

- Category 2: Quantitative (2 courses)
  - One course in university-level mathematics for which algebra is a pre-requisite
  - An approved course in statistics

Polymathic Context

SCI degree programs address the holistic spectrum of computing and information, from producers to users and from science-oriented exploration to human-centric applications. The following requirements facilitate the development of a multidisciplinary approach to knowledge creation, information management, and computing by immersing students in a variety of intellectual contexts that are crucial to understanding problems at the confluence of natural, social, and engineered systems to which computing and information skills can be brought to bear.

- Category 3: Scientific Context (3 courses)
  - 2 sequenced courses in one discipline
  - 1 course in a second discipline OR a third course in the sequenced discipline

- Category 4: Ethical and Policy Context (1 course)

At least one course from each of the following three categories (5 courses total)
Requirements for the Major

See the program offering pages for the major requirements.

Capstone Experience

To provide an opportunity to apply classroom knowledge within a real-world context, all SCI students will complete a capstone experience as part of earning their degree. The mechanisms for satisfying the capstone requirement will be determined and defined by the faculty of the individual degree programs.

Degree programs allow this requirement to be satisfied in a number of ways, including:

- Approved internship or co-op experiences
- Directed research sponsored by a faculty member
- Capstone-designated project courses

The capstone typically requires 2-3 credits to complete.

Academic Integrity

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.

Academic Honors

Dean's List: Each term, a list is compiled of students whose academic record in the preceding term indicates outstanding academic achievement. To be placed on the School's Dean's List, a student must have earned at least 12 letter grade credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50. As well, no grade earned during the term in review may be lower than a C. Both full-time and part-time students are eligible for placement on the Dean's list. For part time students, grades from the preceding two terms (which must total at least 12 letter grade credits) are used to determine eligibility for the Dean's list.

Honors: Undergraduate students may be graduated with University honors. Criteria for University honors are posted under the Academic Regulations.

Departmental honors may be awarded at the point of graduation. Students should refer to their department's information page within the SCI catalog.

Academic Standing

The School is committed to the success of its students and has guidelines in place to connect students with the appropriate resources at the earliest sign of academic difficulty. Undergraduate students' academic standing is maintained and monitored each term by the Dean's office. A student's academic standing is comprised of three factors: term GPA, cumulative GPA, and progress toward a degree. In order to be in good academic standing, students in the School of Computing and Information are expected to maintain a cumulative GPA and term GPA of 2.00 or above for each
term of enrollment. In addition, full-time students are expected to successfully complete a minimum of 12 credits during each term of enrollment. Part-time students are expected to successfully complete a minimum of 3 credits during each term of enrollment.

Students are placed in the Academic Warning status if they earn a term GPA below 2.00 or a cumulative GPA between 2.00 and 2.125.

Students are placed in the Academic Probation status after earning a term GPA below 2.00 over two consecutive terms or have one semester below 2.00 cumulative GPA. Students may also be placed on Academic Probation if they fail to make progress toward their degree, as determined by Department or Program requirements.

Students currently on Academic Probation who earn a term GPA below 2.00 or fail to make progress toward their degree will be subject to Academic Suspension. After being suspended, students are not eligible to re-enroll for one calendar year. Students on Academic Probation or Suspension are not eligible to earn credits at another institution toward a School of Computing and Information degree. Following suspension, students are required to apply for reinstatement (see details below).

Students who have been reinstated from Academic Suspension must earn a GPA of at least 2.00 for each term that they enroll until they have achieved a cumulative GPA of 2.00 or above. If a student fails to earn 2.00 term GPA, they are subject to Academic Dismissal. Dismissal is a final action. Dismissed students are not eligible for reinstatement at the University of Pittsburgh.

Students who are not on academic probation or academic suspension are considered to be in good academic standing. Students will be notified by letter if they are no longer in good academic standing.

Bachelors Degree Requirements

Graduation requirements differ among degrees. However, all degrees require a minimum of 120 passing credits with a minimum 2.00 overall GPA, completion of the School's General Education Requirements, Major Requirements, and a Capstone Experience. Furthermore, students must earn at least half of the credits for their major(s), minor(s), and certificates(s) and the final 30 credits toward the School of Computing and Information degree while enrolled as an SCI student.

General Education Requirements

All students are required to complete general education requirements. These courses are meant to provide foundational skills and breadth of knowledge, aiming to provide students with a broad exposure outside of their core discipline of study while encouraging a focus on the application of techniques from the classroom to meaningful problems.

Full lists of specific courses that meet the following requirements are available to students through the Academic Advisement Report and/or the "Plan by my requirements" tool found in the enrollment system.

Informational videos and documents related to the AAR and other advisement and enrollment resources can be found on the Registrar's Student Training website.

Note: Transfer students receive an evaluation of their previous course work indicating the equivalent University of Pittsburgh courses for which transfer credits have been awarded. Courses will meet requirements for the major where deemed appropriate by the Department. Students who believe that a previous course not equivalent to a Dietrich School course should meet a requirement for a major may petition the department to review that course. If students believe a course should meet a general education or skills requirement, they may petition the School's Records Office.

Skills Courses

Skills requirements help ensure that all students attain appropriate levels of competence in writing, communication, and quantitative and formal reasoning. Students may be placed in or exempted from skills requirements based upon certain achievement test scores, University of Pittsburgh placement test scores, or course work completed at other colleges and universities. Skills requirements are outlined below. All skills courses must be completed with a grade of C or higher.

- Category 1: Expression (3 courses)
  - Introductory Composition
  - Technical, Business, or Research Writing
  - Communications
- Category 2: Quantitative (2 courses)
Polyphathic Context

SCI degree programs address the holistic spectrum of computing and information, from producers to users and from science-oriented exploration to human-centric applications. The following requirements facilitate the development of a multidisciplinary approach to knowledge creation, information management, and computing by immersing students in a variety of intellectual contexts that are crucial to understanding problems at the confluence of natural, social, and engineered systems to which computing and information skills can be brought to bear.

- Category 3: Scientific Context (3 courses)
  - 2 sequenced courses in one discipline
  - 1 course in a second discipline OR a third course in the sequenced discipline
- Category 4: Ethical and Policy Context (1 course)
- Category 5: Global Awareness and Cross-Cultural Understanding
- Category 6: Social and Behavioral Sciences
- Category 7: Humanistic Context
- Category 8: Diversity
  - This course may fulfill other major or General Education Requirements.

Total: 14 courses

Requirements for the Major

See the program offerings pages for the major requirements

Capstone Experience

To provide an opportunity to apply classroom knowledge within a real-world context, all SCI students will complete a capstone experience as part of earning their degree. The mechanisms for satisfying the capstone requirement will be determined and defined by the faculty of the individual degree programs.

Degree programs allow this requirement to be satisfied in a number of ways, including:

- Approved internship or co-op experiences
- Directed research sponsored by a faculty member
- Capstone-designated project courses

The capstone typically requires 2-3 credits to complete.

Graduation

Student Status during term of graduation: Students must be in active status during their term of graduation. This means they must have enrolled in a minimum of one credit within the three terms previous to graduation. They must also be in good academic standing.

Application: Graduation is not an automatic process. Students must file an application for graduation and include a printed Academic Advisement Report (AAR) with their application. The School's deadlines, related late fees, instructions for printing an AAR, and contact information for graduation applications are available on its Current Students website.

To apply for graduation, a student must make an appointment with the Undergraduate advisor in the term PRIOR to their anticipated graduation term in order to determine their status and eligibility for graduation.

If your graduation is postponed, you must reapply by completing another Graduation Application.
GRADUATION CEREMONIES

University Commencement: Candidates for graduation are encouraged to appear in person at the University Commencement Ceremony, usually held the Sunday after the spring term ends. Although degrees are conferred at commencement for all graduation periods, the official certification for April and May graduates occurs several weeks after the ceremony.

School Ceremony: The School of Computing and Information hosts an event to recognize its graduating students and awardees at the end of each term. The ceremony includes a speech to graduates, an address from Program Representatives, and a reading of individual graduate names.

Certification of degree graduation requirements is processed after the recognition ceremony; Reading of a student's name at the Recognition Ceremony is not an indication of the student having met graduation requirements.

Event details, travel tips, and information regarding tickets are hosted on the School's website at www.sci.pitt.edu.

POST-GRADUATION PROCESSING

Certification: Graduation certification is the process run by advisors and staff to ensure students have met all graduation requirements. This process is run after grades are posted for the term in question. Students who are concerned about their graduation eligibility should first review their academic advisement report (AAR) and then meet with their academic advisor.

Documentation (transcripts, diplomas, etc.): Official documentation of graduation is managed by the University Registrar's Office. Inquiries regarding transcripts and diplomas should be directed to that office's Graduation/Diplomas service area.

All diplomas are mailed to students approximately four weeks after the official certification date for each graduation period.

Special Academic Opportunities/Programs

MULTIPLE MAJORS WITHIN SCI

Students can declare multiple majors within SCI, but will earn only one degree.

Students wishing to declare multiple majors within SCI should submit the Academic Plan Change Form found on the School's Current Students website.

DOUBLE DEGREES

Students in the School of Computing and Information may choose to simultaneously pursue more than one undergraduate degree within the University. In general, earning two degrees requires a minimum of 150 credits and completion of the curriculum requirements of both schools. Detailed information about double degrees or joint programs is available from the student's academic advisor.

MSIS GUARANTEE FOR PITT AND REGIONAL CAMPUSES

Students who have earned a Bachelor of Science in Information Science (BSIS) on Pitt's Oakland campus are guaranteed admission to the Master of Science in Information Science (MSIS) if they meet the following criteria:

- Achieve a minimum SAT score of 700 (Math) or a minimum score of 32 on the Math section of the ACT.
- Completion of the BSIS program and enrollment in the MSIS program must occur within five calendar years of receiving an eligibility letter from the Office of Admissions and Financial Aid.
- Maintain a 3.25 QPA while in the BSIS program with no grade (throughout your college career) lower than a C.

</table>
School of Dental Medicine

The University of Pittsburgh Dental Hygiene Program provides a comprehensive education in both the basic sciences and clinical dental hygiene over the course of a two-year (six consecutive terms) Associate of Science Degree in Dental Hygiene. The University of Pittsburgh Dental Hygiene Program differs from other programs by providing a broader range of experiences in specialty clinics within the School of Dental Medicine, as well as clinical rotations at the University of Pittsburgh Medical Center. The major areas of focus are teaching, research, patient treatment, and community service. Dental hygiene services are rendered to a varied patient population, including pediatric, geriatric, physically and mentally challenged, and immunocompromised individuals. In addition to clinical practice, graduates are prepared for careers in areas such as education, research, and dental public health.

Students who complete the Dental Hygiene Program Associate of Science Degree in Dental Hygiene have the option of completing a Bachelor of Science degree offered through the College of General Studies. The degree completion option includes three areas of study focusing on a student's specific career goals. These areas include dental hygiene education, research, and health management. Graduates can work as licensed dental hygienists while completing their requirements for the bachelor's degree. Classes are tailored to the student's interests and can be arranged around work schedules. The program provides a firm foundation for those desiring to pursue graduate studies. (See the College of General Studies listing for more information on the Bachelor of Science degree completion option.)

Contact Information

University of Pittsburgh

Admission Requirements and Deadlines: Associate of Science Degree in Dental Hygiene

(See Dental Hygiene Program listing under the Application for Admission section at the front of this bulletin for requirements and deadlines.)

Academic Standards: Professional/Ethical Conduct Statement for Students

Students will be evaluated on all aspects of professional behavior and ethical conduct. The evaluation will encompass criteria such as the student's interpersonal interaction with faculty, supervisors, staff, patients, and peers, as well as how the student completes all clinical and didactic assignments within scheduled deadlines and in keeping with both the quality and standards established by the Dental Hygiene Program, School of Dental Medicine faculty, and the University of Pittsburgh faculty. Additionally, student compliance with all established policies and procedures will be evaluated when considering student promotion and board eligibility.

Grading

Each dental hygiene course instructor will clearly state his/her policy regarding grades and evaluation at the beginning of the course. A course syllabus will be distributed to all students at the first class meeting. All required courses are graded according to the University's letter grade system (see Grading and Records section of this bulletin). Elective courses beyond the required number may be taken with the permission of the program director. Student advising begins with the faculty responsible for the course. It is the student's responsibility to seek assistance from the faculty in any course in which the student has a grade lower than a C.
Bachelor of Science Degree Completion Program

Students who complete this program also have the option and are encouraged to complete a Bachelor of Science in dental hygiene as offered by the College of General Studies (see College of General Studies listing for information on BS degree completion option and additional dental hygiene courses which must be taken for the BS).

School of Dental Medicine/Dental Hygiene Program Faculty

Full-Time Faculty

Victoria Folino Gallo, *Instructor*, RDH, MBA, Waynesburg University

Faith Mahan, *Instructor*, RDH, BS, University of Pittsburgh

Angelina E. Riccelli, *Associate Professor; Director, Dental Hygiene Program*, RDH, MS, University of Pittsburgh

Jacey Mitchell, *Instructor*, RDH, MSDH, University of Bridgeport

Part-Time Faculty

Antonia Ambrosino, *Instructor*, RDH, BS, University of Pittsburgh

Gayle L. Ball, *Assistant Professor*, RDH, MA, Antioch University

Susan Ban, *Clinical Instructor*, RDH, BS, University of Pittsburgh

Jeong-Seon Kim, *Clinical Instructor*, PhD, Washington State University

RDH, DMD, University of Pittsburgh

Elizabeth Lillios, *Clinical Instructor*, RDH, BS, University of Pittsburgh

Program and Course Offerings

Dental Hygiene Program

Department of Diagnostic Services

Department of Oral Biology

Department of Periodontics and Preventive Dentistry

Associate of Science Degree in Dental Hygiene

Associate of Science Degree in Dental Hygiene Requirements
For a complete list of the required courses, please refer to the program curriculum. Upon successful completion of the course requirements, the student is eligible to take the Dental Hygiene National Board and the Commission on Dental Competency Assessment Examinations and apply for state licensure.

Program Curriculum

First Term

-  DENHYG 1110 - BIOLOGICAL SCIENCES 1
-  DENHYG 1112 - INTRODUCTION TO DENTAL HYGIENE
-  DENHYG 1113 - INTRODUCTION TO DENTISTRY
-  DENHYG 1114 - DENTAL ANATOMY
-  DENHYG 1116 - DENTAL HYGIENE PRECLINIC
-  DENHYG 1117 - CHEMISTRY, BIOCHEMISTRY AND NUTRITION

Credits: 17

Second Term

-  DENHYG 1241 - PRINCIPLES OF MICROBIOLOGY
-  NUR 0032 - MICROBIOLOGY LABORATORY
-  DENHYG 1242 - BIOLOGICAL SCIENCES 2
-  DENHYG 1244 - COMMUNICATIONS
-  DENHYG 1245 - DENTAL HYGIENE RADIOLOGY 1
-  DENHYG 1247 - DENTAL HYGIENE SEMINAR 1
-  DENHYG 1248 - DENTAL MATERIALS
-  DENHYG 1249 - DENTAL HYGIENE CLINIC 1

Credits: 18

Third Term

-  DENHYG 1370 - INTRODUCTION TO CLINICAL PERIODONTICS
-  DENHYG 1372 - GENERAL AND ORAL PATHOLOGY
-  DENHYG 1373 - BIOLOGICAL SCIENCES 3
-  DENHYG 1375 - ANESTHESIA FOR DENTAL HYGIENIST
-  DENHYG 1376 - DENTAL HYGIENE RADIOLOGY 2
-  DENHYG 1377 - DENTAL HYGIENE SEMINAR 2
-  DENHYG 1379 - DENTAL HYGIENE CLINIC 2

Credits: 16

Fourth Term

-  DENHYG 1411 - DENTAL PHARMACOLOGY
-  DENHYG 1412 - PUBLIC HEALTH DENTISTRY
-  DENHYG 1417 - DENTAL HYGIENE SEMINAR 3
-  DENHYG 1419 - DENTAL HYGIENE CLINIC 3
-  DENHYG 1420 - ETHICS HEALTH CARE PROFESSIONAL
• DENHYG 1421 - SPECIAL NEEDS DENTISTRY
• DENHYG 1422 - HEALTH PROMOTIONS THROUGH THE LIFE SPAN

Credits: 17

Fifth Term

• DENHYG 1544 - INTRODUCTION TO RESEARCH ANALYSIS
• DENHYG 1545 - DENTAL HEALTH EDUCATION, METHODS AND PRACTICUM
• DENHYG 1547 - DENTAL HYGIENE SEMINAR 4
• DENHYG 1549 - DENTAL HYGIENE CLINIC 4

Credits: 13

Sixth Term

• DENHYG 1682 - BASIC PSYCHOLOGY
• DENHYG 1689 - ADVANCED CLINICAL DENTAL HYGIENE PRACTICE
• ADVANCED DENTAL HYGIENE PRACTICUM - 0 Cr. (Taken within DENHYG 1689)

Credits: 5

Total: 86
School of Education

The School of Education's mission is to create and disseminate knowledge that improves teaching and learning and to develop and implement effective programs for the preparation of education professionals who will enhance both the practice and outcomes of education. For general information, see www.education.pitt.edu.

The School of Education is organized into four academic departments:

- Department of Administrative and Policy Studies
- Department of Health and Physical Activity
- Department of Instruction and Learning
- Department of Psychology in Education

Undergraduate degree programs are offered in the Department of Health and Physical Activity (HPA) and the Department of Psychology in Education (PSYED). HPA offers the baccalaureate program in health and physical activity with specializations in exercise science and wellness; PSYED offers the baccalaureate program in applied developmental psychology.

Teacher certification programs are offered in the Department of Instruction and Learning at the graduate level only. No teacher certification programs are offered in the other three departments.

Undergraduate students interested in obtaining teacher certification at the University of Pittsburgh after they have earned their baccalaureate degrees are encouraged to contact the pre-admissions advisors in the School of Education early in their undergraduate programs in order to obtain information about the teacher certification programs available and the requirements of those programs. Admission for teacher certification study requires that applicants have completed liberal studies distribution requirements in the humanities, natural sciences, and social sciences, as well as course work in an academic major field or content area. Additionally, applicants to the Professional Year (PY) Program are expected to have completed preprofessional education courses (e.g., courses emphasizing human development and learning, the study of schools and society, and an introduction to the teaching seminar in the intended certification area). The number of credits and specific courses required vary by type and area of certification. Note, however, that all applicants to both the PY Program and the Master of Arts in Teaching (MAT) Program must have at least 6 credits or the equivalent in college-level mathematics, at least 3 credits or the equivalent in college-level English composition, and at least 3 credits or the equivalent in college-level American and/or British literature. For admission to teacher certification programs in the Department of Instruction and Learning, all students must have taken and passed the Praxis I Series of Tests, which includes reading, mathematics, and writing. As a point of general information, most students admitted to the PY and MAT programs have undergraduate grade point averages (GPAs) of at least 3.0. Specific information may be obtained from the Office of Admissions and Enrollment Services, 5500 Wesley W. Posvar Hall, 412-648-2230, soeinfo@pitt.edu.

Admissions

The School of Education does not admit students to its undergraduate programs at the freshman level. Therefore, students must first be admitted to another school at the University of Pittsburgh or to another institution.

If an applicant to a School of Education undergraduate program is currently a University of Pittsburgh student, the applicant should contact the dean's office of the school to which the applicant has been admitted and request an Undergraduate Academic Program Change form. After completion of this form, all records will be transferred to the School of Education, Office of Admissions and Enrollment Services, 5500 Wesley W. Posvar Hall, for review.

If an applicant to a School of Education undergraduate program is transferring from another institution, the applicant should contact the Office of Admissions and Financial Aid, Alumni Hall, for a Transfer Application. (See Transfer Student Admissions section of this bulletin for more information.)

To be admitted into a Minor program in the School of Education a student must do the following:

- Be enrolled in an undergraduate program at the University of Pittsburgh.
- Complete a School of Education Admissions Application for the selected academic minor.

Advising
Each student admitted to an undergraduate program in the School of Education is assigned an advisor.

**Dean's List**

Early each term, students whose grades in the previous grading period indicate outstanding achievement are recognized in the Dean's List.

Full-time students (those enrolled in 12 or more credits) who earned 12 credits in the preceding term (not including courses taken on the Satisfactory/Audit option) with a term GPA of at least 3.50 and no grade lower than a C are placed on the Dean's List.

Part-time students (those enrolled in fewer than 12 credits) who have earned 12 credits in the SOE in previous terms (not including courses taken on the Satisfactory/Audit option) with a QPA of at least 3.50 and no grade lower than a C are placed on the Dean's List.

Part-time students are evaluated for Dean's List recognition by determining if 12 credits of letter-graded coursework have been completed since the last Dean's List recognition. If 12 credits have been completed, the GPA for the terms in which the last 12 credits were completed is used to assess the Dean's List eligibility.

**Degree Requirements**

The undergraduate degree in the School of Education requires the satisfactory completion of a minimum of 120 credits of approved undergraduate study. Undergraduate degrees are conferred only on those students who have completed all courses required for the degree with a GPA of at least 2.50.

Students in the School of Education must complete at least 60 credits in courses offered at the University of Pittsburgh. They must be enrolled in the School of Education during the term the degree is awarded. Students who begin their study at the regional campuses must apply to relocate to the Pittsburgh campus for at least the last 60 credits.

**Probation and Dismissal**

All students enrolled in undergraduate programs in the School of Education are required to maintain a grade point average (GPA) of at least 2.50. The cumulative GPA is based on all course work taken after enrollment at the University of Pittsburgh. A student is automatically placed on academic probation when the cumulative GPA, exclusive of transfer credits, falls below 2.50.

Only letter grades with GPA values will be used to compute and determine academic probation status. While on probation students are limited to registering only for courses in which a letter grade is given. To be removed from probation status, a student must achieve a 3.00 GPA in 9 credits or more. A student can only be placed on academic probation status once during their program of study. Students placed on academic probation status will receive notification in the form of a letter from the School of Education, and they will be recommended to seek guidance from their academic advisor.

Ordinarily, students are required to terminate study after two terms on probation if there is no improvement in the quality of their work. A student placed on academic probation status more than once is also required to terminate study. A student who does not meet the GPA or credit requirements will be dismissed from the School of Education, unless serious extenuating circumstances exist. The request for continuation must include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

Admissions

Specific requirements for admission to the baccalaureate program in movement science are as follows:

- An application after approximately 45 credits have been completed: these credits should have been taken in courses that meet the general liberal arts and science requirement of the exercise science curriculum;
- A minimum GPA of 2.80 in the natural sciences;
- A demonstration of appropriate health-fitness behaviors as a statement of commitment to the basic philosophy of movement science;
- A statement of career goals and a self-evaluation; and
- Three letters of recommendation and possibly an interview.

Health and Physical Activity - Exercise Science Specialization, BSE

Health and Physical Activity

The baccalaureate program in health and physical activity leads to the BS degree and provides specializations in exercise science and wellness. The exercise science specialization is offered for students interested in the study of human movement, independent of its implications for teaching physical education in traditional elementary and secondary school settings. Students are prepared for careers as health-related physical fitness
specialists interested in working with adult populations in community, corporate, and private fitness centers. Also, this specialization provides basic academic and clinical studies for students wishing to pursue graduate work in exercise science.

The wellness specialization is offered for undergraduates interested in corporate wellness, exercise leadership and programming, public health, and coordination of health-fitness and wellness programs. Students are provided the opportunity for professional focus in one of four areas: aquatics, fitness, aerobics, or aerobics/fitness. This specialization provides appropriate mechanisms to meet the criteria for various professional certifications in this fast-growing and competitive field. The wellness specialization provides basic academic and clinical studies for students wishing to pursue graduate work in physical activity or the public health domain.

Health and Physical Activity Curriculum

All students in health and physical activity complete 50-52 credits of courses in liberal arts and sciences, distributed as follows:

- Communication skills (9 credits)
- Quantitative reasoning (6-7 credits)
- Humanities (9 credits)
- Sciences (17-18 credits)
- History, social science, and public policy issues (9 credits)

In addition, all students in health and physical activity complete the following core of 67-75 credits:

- Biophysical foundations (19 credits)
- Behavioral and sociocultural foundations (3 credits)
- Research methods and practicum (3-5 credits)
- Health and wellness foundations (7-9 credits)
- Natural Science Electives (13-16 credits)
- Exercise Science Foundations (22-23 credits)

All students in wellness specialization complete 58 credits of courses in liberal arts and sciences, distributed as follows:

- Communication skills (9 credits)
- Quantitative reasoning (9 credits)

Each specialization requires a clinical/field experience and a directed research or health and fitness practicum. These requirements are completed under the direct supervision of a faculty member and may occur in a variety of settings (e.g., health clubs and hospitals).

PHYSICAL ACTIVITY CORE (32-34 CREDITS)

Biophysical Foundations (19 credits)

- HPA 1033 - HUMAN PHYSIOLOGY
- HPA 1011 - APPLIED HUMAN ANATOMY
- HPA 1012 - APPLIED HUMAN ANATOMY LAB
- HPA 1042 - PHYSIOLOGY OF EXERCISE
- HPA 1485 - NUTRITION AND HEALTH
- HPA 1044 - BIOMECHANICS
- HPA 1487 - CHRONIC DISEASE AND OBESITY

Behavioral & Sociocultural Foundations ( 3 credits)

- HPA 1486 - BEHAVIOR CHANGE STRATEGIES

Research Methods and Practicum (3-5 credits)

- HPA 1031 - RESEARCH IN SPORTS SCIENCE
Health and Wellness Foundations (7 credits)

- HPA 0474 - LIFETIME ACTIVITIES 1
- HPA 0475 - LIFETIME ACTIVITIES 2
- HPA 0196 - FIRST AID AND CPR
- HPA 1489 - CONSIDERATIONS FOR HEALTH AND FITNESS PROGRAMMING

EXERCISE SCIENCE CORE (37-41 credits)

Natural Science Electives (13-16 credits)

- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- CHEM 0120 - GENERAL CHEMISTRY 2

Exercise Science Foundations (22-23 credits)

- HPA 1233 - PRINCIPLES OF STRENGTH AND CONDITIONING
- HPA 1224 - FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION
- HPA 1226 - ASSESSMENT AND PRESCRIPTION FOR SPECIAL POPULATIONS
- HPA 1035 - EXERCISE SCIENCE SEMINAR 2
- HPA 1996 - CLINICAL INTERNSHIP
- HPA 1169 - HEALTH FITNESS PRACTICUM 1
- HPA 1170 - HEALTH FITNESS PRACTICUM 2

Instructor Courses (2 credits) (Choose 2)

- HPA 1171 - RESISTANCE TRAINING INSTRUCTOR
- HPA 1172 - GROUP FITNESS INSTRUCTOR
- HPA 1173 - AEROBICS INSTRUCTOR
- HPA 1174 - YOGA AND PILATES INSTRUCTOR
- HPA 0497 - WATER SAFETY INSTRUCTOR
- PEDC 0243 - AMER RED CROSS FIRST/CPR INSTRC
- PEDC 0242 - AMER RED CROSS LIFEGUARD INSTRC

Applied Fitness Minor

Requirements

Students may minor in applied fitness, aquatics, dance, and exercise science. A minimum of 18 credits is required for each minor, with the exception of the applied fitness minor, for which a minimum of 17 credits is required. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the exercise science and wellness specializations and any minor programs do not qualify for public school teacher physical education certification.
APPLIED FITNESS REQUIRED COURSES (13 credits)

- HPA 1011 - APPLIED HUMAN ANATOMY
- HPA 1012 - APPLIED HUMAN ANATOMY LAB
- HPA 1033 - HUMAN PHYSIOLOGY
- HPA 1042 - PHYSIOLOGY OF EXERCISE
- HPA 1224 - FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION

APPLIED FITNESS MINOR FOUNDATION COURSES (1 CREDIT) Select 1 of the following:

- HPA 0474 - LIFETIME ACTIVITIES 1
- HPA 0475 - LIFETIME ACTIVITIES 2

APPLIED FITNESS MINOR INSTRUCTOR COURSES (2 CREDITS) Select 2 of the following:

- HPA 1171 - RESISTANCE TRAINING INSTRUCTOR
- HPA 1172 - GROUP FITNESS INSTRUCTOR
- HPA 1173 - AEROBICS INSTRUCTOR
- HPA 1174 - YOGA AND PILATES INSTRUCTOR

APPLIED FITNESS MINOR PRACTICUM COURSE (1 CREDIT)

- HPA 1170 - HEALTH FITNESS PRACTICUM 2

Aquatics Minor

Requirements

Students may minor in applied fitness, aquatics, dance, and exercise science. A minimum of 18 credits is required for each minor, with the exception of the applied fitness minor, for which a minimum of 17 credits is required. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the exercise science and wellness specializations and any minor programs do not qualify for public school teacher physical education certification.

AQUATICS REQUIRED COURSES (15 CREDITS)

- HPA 0196 - FIRST AID AND CPR
- HPA 0497 - WATER SAFETY INSTRUCTOR
- HPA 1211 - ATHLETIC INJURY PREVENTION
- HPA 1212 - ATHLETIC INJURY PREVENTION LABORATORY
- HPA 1241 - TEACHING EXPERIENCE 1
- HPA 1242 - TEACHING EXPERIENCE 2
- HPA 1300 - NUTRITION IN EXERCISE AND SPORT
Additional Aquatic Courses (3 CREDITS) Select 3 of the following:

- PEDC 0001 - BEGINNING SWIMMING
- PEDC 0002 - INTERMEDIATE SWIMMING
- PEDC 0026 - AQUATIC CONDITIONING
- PEDC 0158 - WEIGHT TRAINING 1
- PEDC 0193 - PERSONAL FITNESS
- PEDC 0194 - SPORTS CONDITIONING
- PEDC 0211 - WATER FITNESS

Dance Minor

Requirements

Students may minor in applied fitness, aquatics, dance, and exercise science. A minimum of 18 credits is required for each minor, with the exception of the applied fitness minor, for which a minimum of 17 credits is required. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the exercise science and wellness specializations and any minor programs do not qualify for public school teacher physical education certification.

DANCE COURSES

- HPA 0060 - INTRODUCTION TO DANCE
- HPA 0473 - DANCE PEDAGOGY
- HPA 1241 - TEACHING EXPERIENCE 1
- HPA 1242 - TEACHING EXPERIENCE 2
- HPA 0033 - BALLET 1
- HPA 0041 - JAZZ 1
- HPA 0031 - MODERN DANCE 1
- HPA 0044 - DANCE PRODUCTION
- HPA 0040 - CHOREOGRAPHY
- HPA 0244 - DANCE PRODUCTION 2

Additional Dance Courses (Choose 3.0 credits from the following 4 courses)

- HPA 0196 - FIRST AID AND CPR
- HPA 0032 - MODERN DANCE 2
- HPA 0034 - BALLET 2
- HPA 0042 - JAZZ 2

Exercise Science Minor
Requirements

Students may minor in applied fitness, aquatics, dance, and exercise science. A minimum of 18 credits is required for each minor, with the exception of the applied fitness minor, for which a minimum of 17 credits is required. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the exercise science and wellness specializations and any minor programs do not qualify for public school teacher physical education certification.

EXERCISE SCIENCE MINOR REQUIRED COURSES (13 CREDITS)

- HPA 1011 - APPLIED HUMAN ANATOMY
- HPA 1012 - APPLIED HUMAN ANATOMY LAB
- HPA 1033 - HUMAN PHYSIOLOGY
- HPA 1042 - PHYSIOLOGY OF EXERCISE
- HPA 1224 - FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION

EXERCISE SCIENCE MINOR ELECTIVE COURSES (5-6 CREDITS) Choose from the following courses:

- HPA 1044 - BIOMECHANICS
- HPA 1233 - PRINCIPLES OF STRENGTH AND CONDITIONING
- HPA 1226 - ASSESSMENT AND PRESCRIPTION FOR SPECIAL POPULATIONS
- HPA 1487 - CHRONIC DISEASE AND OBESITY

Secondary Education Minor

To help undergraduate students better prepare for graduate work in education, the School of Education has created a 15-credit teacher education minor. This will allow students who plan to enter the Masters of Arts in Teaching (MAT), Professional Year (PY), or the Masters in Special Education with Academic Instructional Certification (MOSAIC) programs the opportunity to make progress on the prerequisite education courses required for those programs and earn an added credential on their official transcripts. The minor provides the undergraduate students with the admission requirement of satisfactorily completing 30 hours of site work in secondary schools by their engagement in field experiences embedded within the courses in the minor.

Completion of the teacher education minor does not automatically guarantee admission into the MAT, PY, or MOSAIC programs, nor does it fulfill
all necessary prerequisites.

Information on the minor can be found on the Department of Instruction and Learning website.

**Curriculum**

Students must complete 5 courses (15 credits) for the minor. IL 1580 is a required prerequisite for the MAT, PY, and MOSAIC programs. IL 1257 is a required prerequisite for MOSAIC only. MAT/PY candidates should take an approved elective in place of IL 1257. The list of approved courses is below:

- IL 1580 - FOUNDATIONS OF SPECIAL EDUC (required in-school observations)
- IL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS
- IL 1701 - EARLY FIELD EXPERIENCE-SECONDARY - Secondary (required in-school observation)
- IL 1704 - CURRENT ISSUES IN SECONDARY EDUCATION
- EDUC 1011 - CULTURALLY RESPONSIVE PEDAGOGY

**Education Electives**

- ADMPS 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- IL 1505 - AUTISM: CHARACTERISTICS AND INTERVENTIONS

**Department of Psychology in Education**

**Admission Requirements**

**ADP - Traditional Program**

The program in applied developmental psychology uses a rolling admissions procedure which assures that all completed admission applications will be given regular review. Priority for admissions and financial aid decisions, however, will be given to those applications that are sent in by March 15, the recommended deadline for fall term admission.

In reviewing applications for admission, the Admissions Committee considers the following factors:

- Academic skill as evident on the student's transcript. The minimum acceptable GPA is 2.50;
- Documented evidence of experience and ability to work with children (experience may include volunteer work or employment);
- References, preferably from professionals familiar with the student's maturity, work habits, academic ability, and experience with children/youth; and
Completion of 60 credits before the first term of enrollment in the program, including the following prerequisite courses, all of which should be taken for a letter grade:
  o English composition (3 credits);
  o Developmental psychology or equivalent (3 credits); and
  o Other courses broadly distributed in the humanities, social sciences, and natural sciences.
Credits awarded from the College Level Examination Program (CLEP) by the College of General Studies are acceptable for inclusion in the 60 credits.

The program welcomes applications from junior and community college students and from students at other colleges and universities, including students from other countries. These students should see the Transfer Student Admissions or International Student Admissions sections of this bulletin for further details on applying. Students from other academic backgrounds should consult the program coordinator for evaluation.

ADP - CASE Teacher Certification Program

The program in ADP - CASE Teacher Certification admits student cohorts to begin the program each fall term. Applicants are reviewed in the spring of the term before the program begins. The application deadline is March 15.

In reviewing applications for admission, the Admissions Committee considers the following factors:

  o Academic skill as evident on the student's transcript. The minimum acceptable 3.25;
  o Documented evidence of experience and ability to work with children (experience may include volunteer work or employment);
  o Three letters of reference, preferably from professionals familiar with the student's maturity, work habits, academic ability, and experience with children/youth; and
  o Completion of 61 credits of CASE prerequisites before the first term of enrollment in the program. Prerequisite courses can be found on the ADP-CASE website.

The program welcomes applications from junior college and community college students and students at other colleges and universities, including students from other countries. These students should see the Transfer Student Admissions or International Student Admissions sections of this bulletin for further details on applying. Students from other academic backgrounds should consult the program coordinator for evaluation of prerequisites.

Applied Developmental Psychology, BS

The undergraduate major in Applied Developmental Psychology (ADP) develops the skills and knowledge needed for professional work in child and youth care, education and other related human service fields. ADP also prepares students for graduate school in such fields as education, psychology, and social work. Coursework includes developmental theory and research covering birth through early adulthood, professional issues, family dynamics, cultural distinctions, disabilities, psychopathology, curriculum and activity planning, practice skills, and supervision.

The undergraduate major in Applied Developmental Psychology (ADP) includes three distinct areas of concentration that lead to a BS degree:

  o ADP Traditional
  o ADP Practitioner
  o ADP CASE (Combined Accelerated Studies in Education)

ADP - Traditional Program

The undergraduate major in Applied Developmental Psychology (ADP) emphasizes developing the skills necessary for implementing and evaluating effective programs for children, youth, and families. Coursework includes the study of professional issues, program design and evaluation, counseling skills, and qualitative research methods. The program allows for a focus on Child Life hospital work, group care, family support and intervention, administration, play intervention and therapy. Successful completion of the program leads to the Bachelor of Science degree.

The ADP Bachelor of Science program is listed as an academic program to prepare Child Life Specialists by the Child Life Council.

The curriculum is organized into four terms of upper-division (junior and senior year) study. Applications for admission should be submitted during the sophomore year.
Major Requirements

The curriculum is organized into four terms of upper-division (junior- and senior-year) study. Study encompasses developmental theory and research from birth through adolescence, professional issues, family dynamics, cultural distinction, handicapping conditions, psychopathology, curriculum and activity planning, practice skills, and an introduction to management. Students spend 300 to 600 hours of internship in the senior year in programs for children, youth, and families, including those with special needs. Flexibility in the curriculum is provided through electives, internship focus, and class project topic selection.

To graduate, students are required to take a minimum of 120 credits, 48 of which must be taken in applied developmental psychology courses. All of these courses must be completed with a grade of C- or better, and students must maintain a GPA of 2.50 in the major. Students must also perform successfully in the internship, according to prevailing standards, in order to remain in good standing in the program.

Note:

Elective courses and directed study can also be arranged.

ADP - CASE Teacher Certification Program

The undergraduate major in Applied Developmental Psychology (ADP) also includes a Teacher Certification program. This program emphasizes developing the skills necessary for becoming a highly effective teacher of young children in grades PK-4 General Education and PK-8 Special Education. Course work includes the study of professional issues, program design and evaluation, teaching methodology and best practices in using culturally and linguistically relevant pedagogy. Successful completion of the program leads to the Bachelor of Science degree. CASE students then
continue into the graduate year to complete coursework and student teaching that leads to the PK-4 Early Childhood and the PK-8 Special Education teaching certification in Pennsylvania.

The curriculum is organized into four terms of upper-division (junior and senior year) undergraduate study. Three additional terms of graduate study allows students to finish with two degrees and two teacher certifications in five years. Applications for admission should be submitted during the sophomore year.

**Major Requirements**

The curriculum is organized into four terms of upper-division (junior- and senior-year) undergraduate study and three additional terms of graduate study. Study encompasses developmental theory and research from birth through adolescence, professional issues, family dynamics, cultural distinction, psychopathology, curriculum and activity planning, practice skills, and an introduction to management. Students spend 4 terms in student teaching placements during the senior and graduate years. To graduate with the B.S. in ADP-CASE, students are required to take a minimum of 127 credits. All courses must be completed with a grade of C- or better, and students must maintain a GPA of 3.0. Students must also perform successfully in their practicum and student teaching placements according to University of Pittsburgh and Pennsylvania Department of Education standards in order to remain in good standing in the program.

Swanson School of Engineering

The Swanson School of Engineering's undergraduate programs prepare students for entrance into a diverse spectrum of careers, providing both a strong, fundamental engineering education and a thorough understanding of the broader aspects of society. Students have an opportunity to participate in the highly successful Cooperative Engineering Education Program, an increasing number of study abroad opportunities, joint programs with the University Honors College, and a number of certificate programs. Students also have the option of earning a minor or a dual degree from various Dietrich School of Arts and Sciences programs. Minors may also be earned from the other Swanson School of Engineering undergraduate degree programs. The curricula provide sufficient flexibility to allow graduates to pursue careers in industry, government, or education, including programs in medicine, law, or business.

Full-time Bachelor of Science in Engineering degree programs are offered on the Pittsburgh campus in the following engineering disciplines: bioengineering, chemical, civil, computer, electrical, engineering science, environmental, industrial, materials science, and mechanical. Special interdisciplinary programs can be structured based upon individual student interest and ability through the engineering science program. The Cooperative Engineering Education Program, in which students alternate terms of relevant work experience with course work, is available for students in all undergraduates. Approximately half of the graduating seniors complete at least three co-op rotations. There are also certificate programs in nuclear engineering; innovation, product design and entrepreneurship; product realization; supply chain management; engineering for humanities; international engineering studies; engineering simulation in design; and sustainable engineering.

Application Procedures
The Swanson School of Engineering works closely with the University of Pittsburgh's Office of Admissions and Financial Aid (OAFA). Ultimately, all admissions, financial aid and scholarship decisions take place through OAFA following the procedures detailed below:

First Year Engineering Applicants

All admissions to the Swanson School of Engineering are determined by the University's Office of Admissions and Financial Aid. (Please see Pittsburgh Campus Freshman Admissions section of this bulletin for details.) Approximately 550 first year students enter the Swanson School of Engineering each fall term.

Transfer Students from Other Colleges and Universities

The Swanson School of Engineering admits transfer students from within the University system, and from other U.S. and international programs. Approximately a third of the students receiving the BSE degree transferred into the school. Transfer applicants are evaluated according to their academic record and potential for completing the particular engineering program, and conditional upon space available in the program of choice. An applicant for transfer to the Swanson School of Engineering from another college or university should request a transfer application from the Office of Admissions and Financial Aid.

Transfer Students from another University of Pittsburgh Oakland Campus School

Most transfer applicants from other Pittsburgh campus units to the Swanson School of Engineering come from either the Dietrich College of Arts and Sciences (DSAS) or the College of General Studies (CGS), although students from any of the University's other schools are eligible for transfer if they meet the Swanson School of Engineering's requirements.

An applicant for transfer from an Oakland campus school must have a minimum 3.000 cumulative GPA (3.500 for Bioengineering) and have completed no fewer than 7 of the 8 First Year Engineering courses (MATH 0220 and 0230 - Analytic Geometry and Calculus 1 and 2; PHYS 0174 and 0175 - Physics for Science and Engineering 1 and 2; CHEM 0110 and 0120 - General Chemistry 1 and 2; and ENGR 0015 and 0016 Introduction to Engineering Analysis and Introduction to Engineering Computing) with a grade of "C" or better to be considered for admission. Completion of all transfer minimum requirements does not guarantee transfer, as space limitations within each degree program will be considered. For additional information, see the transfer engineering students' Web site at http://engineering.pitt.edu/First-Year/First-Year/Transfer-Students/Internal-Transfer-Students/.

The GPA for students transferring into the Swanson School of Engineering from another school or campus within the University will be recalculated in accordance with the Swanson School of Engineering's policy.

Regional Campus Students

Request forms for relocation from the Bradford, Greensburg, Johnstown, or Titusville campuses are available at each regional campus. Pre-engineering students who have a grade point average of 3.000 or higher (with the exception of bioengineering, which requires a 3.500 GPA) in the
required first year engineering curricula are able to relocate pending departmental approval. Completion of all transfer minimum requirements does not guarantee transfer, as space limitations within each major will be considered. Students from the Bradford campus in Chemical, Civil, Computer, Electrical and Mechanical must complete the first-two years of their degree program before applying to transfer to the Oakland campus.

Consistent with our admissions deadlines with the Office of Admissions and Financial Aid, we will not be able to consider Regional Campus transfer students for the Spring semester if required engineering curricula course grades are in process during the applicant's Fall term. Exceptions to this rule must be approved in advance by the Associate Dean for Academic Affairs.

Advanced Standing for Courses Taken Outside the University

Students transferring into the Swanson School of Engineering from other college-level programs will have their academic records reviewed for advanced-standing credit only after they have been admitted and pay their tuition deposit. This determination will be made by the responsible academic department or program in accord with Swanson School of Engineering's policy and criteria established by ABET, the engineering accrediting agency. Advanced standing for engineering or engineering science courses will be considered only if the student completed the course and earned a grade of C or better. Courses that are taken on a pass/fail system that includes a D grade as passing will not be approved for advanced standing. Advanced standing for mathematics, science, humanities, and social sciences courses will be awarded to the extent that such courses match specific University of Pittsburgh Dietrich School of Arts and Sciences courses as required by the Swanson School of Engineering. In particular, humanities and social sciences courses must correspond to those on the Swanson School of Engineering's approved list of humanities and social sciences electives. Contact the Swanson School for information on these approved electives. Additionally, Writing Designated courses ("W" Courses) may not be transferred in from another institution.

No more than 90 total credits may be transferred from other colleges including a maximum of 60 credits from a two-year college. If 60 or more credits have been earned at a college or university, no transfer credit will be accepted for credits earned subsequently at a two-year school.

Additional transfer credit policies are as follows:

1. Courses that have equivalent counterparts at Pitt in terms of content and credits in the Swanson School of Engineering curriculum are eligible for transfer.
2. Transfer credits need to be earned within 12 years of the date when the Swanson School of Engineering degree requirements will be completed.
3. In accordance with University policy, re-evaluation of credits will be done by the admitting school, when necessary, according to applicable University policy and procedure. The policy applies to all previous credits earned, no matter if they were earned at the University of Pittsburgh or another institution.
4. If 60 or more credits have been earned at a four-year college or university, no transfer credit will be granted for credits earned subsequently at a two-year school.
5. If a course for which advanced standing credit has been granted is repeated, the advanced standing credit is canceled.
6. Coursework earned in approved foreign study programs will be awarded on a Satisfactory/No Credit (S/NC) basis assuming a grade of C or better has been earned.
7. One credit taken at a quarter system school is equal to two-thirds a credit at the University of Pittsburgh. This may affect the ability of a course to transfer. See #1.
8. Once a student is enrolled in the Swanson School of Engineering, he or she is no longer permitted to take courses at a two-year or community college for transfer credit.
9. The Swanson School of Engineering does not accept CLEP credit for course credits.

Credits for students transferring from a college that has a 3/2 program articulation agreement with the Swanson School of Engineering (see Combined Liberal Arts-Engineering 3/2 Program), a community college having an articulation agreement with the Swanson School of Engineering, or a pre-engineering program at a University of Pittsburgh regional campus will be accepted in accord with those agreements, University policy, and available space in the program of interest.

If a student participates in the University of Pittsburgh College in High School Program, grades earned in Pitt CHS courses appear on an official University of Pittsburgh transcript and are part of the student's academic record. The grade(s) will be included in the calculation of the student's grade point average at the University. CHS courses are only eligible to be repeated at the University if the original grade was below C and no more than one year has passed since the original course was taken, per the Swanson School of Engineering Course Repeat policy.

Students enrolled in the Swanson School of Engineering may take courses at other universities to satisfy graduation requirements only if the student's academic advisor or undergraduate coordinator has approved those courses in advance. Such courses must be taken at colleges or universities that offer full four-year degree programs. Students must earn a grade of C or higher for the course to be accepted for transfer credit. Students must arrange for their transcript to be sent to their undergraduate coordinator. As noted above, once a student is enrolled in the Swanson School of Engineering, he or she is no longer permitted to take courses at a two-year or community college for transfer credit.
Students may also earn advanced standing credit by taking Advanced Placement or International Baccalaureate classes in their high schools. Students who have their AP or IB scores sent to the University of Pittsburgh will have those scores evaluated by an academic advisor, who will determine their transferability.

For more information on the IB, see the IB Score Information. For more information on the AP, see the AP Score Information.

Summer Courses Taken Elsewhere

Swanson School students in good academic standing (cumulative GPA of at least 2.00) may attend a summer or special session of another accredited institution in order to supplement their program, provided they receive prior approval from their academic advisor in the Swanson School of Engineering. Students must submit the name of the institution, the course number, and the relevant course descriptions to their advisor. Once enrolled in the Swanson School of Engineering students may not take courses at two-year schools. Courses may not be a repeat of any course taken (passed or failed) before. A maximum of two courses (no more than 8 credits) may be taken in a single period of enrollment elsewhere.

Interdepartmental Transfers

A Swanson School of Engineering student whose academic record satisfies the minimum requirements for continued registration may apply for transfer from one engineering department or program to another. To initiate a change of program status, the student must complete a Program Change form, available at the Swanson School of Engineering Office of Administration. It is the prerogative of the department or program to which the student desires to transfer to approve or reject a change-of-status transfer request, based on academic performance and/or space limitations/availability.

Reinstatement

An engineering student in good academic standing who has not attended the University of Pittsburgh for three consecutive terms and has attended no other institution in the intervening period will be considered for reinstatement after making application to the department chair or program director. If the student has attended another institution and completed more than 12 credits, the student must reapply through the University's Office of Admissions and Financial Aid in accordance with the procedure for transfer applicants from other colleges or universities.

A student who has withdrawn while on academic probation may be reinstated only by action of the appropriate faculty committee, typically based upon substantial evidence of a positive change in the student's attitude toward academic work. The student must initiate the request for reinstatement with the appropriate department chair or program director/head.

Grading Policies

The following section details the Swanson School of Engineering's regulations regarding some of the grades that may appear on a student's transcript. (For a complete discussion of all grades and grading options, see the Grading and Records section of this bulletin.)

G Grade (Incomplete)

An instructor may give the G grade when a student is unable to complete the work of a course during the term because of extenuating personal circumstances.

To remove a G grade, a student is expected to complete the course requirements within the next term of registration or within the time specified by the instructor (no later than one year after the term or session in which the course was taken). The instructor of the course will complete a Grade Change Authorization form and send it to the Swanson School of Engineering Office of Administration for processing. If a G grade is not removed within one year, it will be changed to NC (no credit).

Students may not move forward in a course sequence until G grades in previous classes in the same sequences have been changed to a letter grade, indicating that all work has been completed and the previous course requirements have been satisfied. Students who register for subsequent classes...
in a course sequence anticipating completion of the previous course are responsible to drop such classes if a G grade is assigned. Students may only enroll in the next class after outstanding work is completed.

**S/NC Option**

With the exception of undergraduate seminar courses, which are only offered satisfactory/no-credit (S/NC), the S/NC option cannot be used for any course that is used to meet graduation requirements. All other Swanson School of Engineering courses are only offered on a letter grade basis. This restriction includes humanities/social science electives and other science/engineering electives. First Year Students may not elect to take courses under the S/NC option. Upper-class engineering students may elect to take non-engineering courses that will not be used to meet graduation requirements as S/NC. Because S/NC courses are not considered in the calculation of the grade point average, the option is appropriate for students wishing to explore disciplines they might not otherwise pursue because of potential negative impact on the grade point average.

A student who wishes to take a course under the S/NC option should first consult his/her advisor to assure that the S/NC option is permissible. A student must register for and complete at least one course for a letter grade to be eligible for an S/NC option course in any term. To register for more than one S/NC option course per term, and a maximum of two, a student must register for 12 or more credits for letter grades.

**Calculation of the Grade Point Average**

Each credit carried for a letter grade is awarded quality points as noted under the Grading and Records section of this bulletin. A student's term grade point average (term GPA) is the total quality points earned for the term divided by the total credits assigned letter grades. The cumulative grade point average (cumulative GPA) is determined by dividing the total number of quality points by the total number of credits assigned letter grades. Only credits and quality points for courses taken at the University of Pittsburgh and that count toward the requirement for the BSE degree are used in the calculation of the GPA.

**Repeating Courses**

The Swanson School of Engineering permits a student to repeat courses in which grades below C were received. A student may not repeat a course more than twice. If the course is repeated within one academic year following the original registration, the original credits and quality points of these repeated courses will not be included in the student's cumulative GPA. All grades earned in the repeated course will be posted to the academic record even if the repeated course grade is lower than the original grade. Also note that a sequence course cannot be repeated and have the grade replaced if a succeeding course in that sequence has been taken (e.g., MATH 0220, 0230, and 0240 Analytic Geometry and Calculus 1, 2, and 3; PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2). The same course repeat rules will apply to transfer students from the Dietrich School of Arts and Sciences, the College of General Studies, and the regional campuses.

Students may only repeat a course twice. Any student who fails to successfully complete a required course three times will be dismissed from the Swanson School even if his or her GPA is 2.000 or higher.

Course repeats must be completed at the University of Pittsburgh.

**Academic Standing**

**Swanson School of Engineering Term Warning and Swanson School of Engineering Probation:**

To be considered in good academic standing, a student's cumulative grade point average (GPA) must be at least 2.000, AND the student must be making satisfactory progress toward earning an engineering degree. More information on Satisfactory Academic Progress standards can be found at https://oafa.pitt.edu/financialaid/satisfactory-academic-progress/. The policy for students determined to be in jeopardy of not maintaining good academic standing is:

**Swanson School of Engineering Term Warning (One time only):**
A student who earns a term GPA less than 2.00, but has a cumulative GPA still greater than or equal to 2.00 will receive a warning letter from the Swanson School of Engineering that he/she is in academic difficulty. The letter will state that the student is potentially subject to probation, suspension or dismissal if academic performance does not improve. The student is still considered to be in good academic standing.

Swanson School of Engineering Probation:

Engineering students will be placed on School Probation if:
1. The second (or successive) time a student's term GPA is less than 2.00, but his/her cumulative GPA is still greater than or equal to 2.00 or
2. The student fails a course for the second time.

A student placed on Swanson School of Engineering Probation will have an academic hold placed on his/her registration that will not be removed until s/he has met with the Swanson School of Engineering Director of Retention and/or the student's undergraduate coordinator and established an academic improvement plan. Participation by a student on Swanson School of Engineering Probation in such activities as the Co-op Program or the International Program is at the discretion of the Associate Dean for Academic Affairs.

Swanson School of Engineering Term Warning and Swanson School of Engineering Probation precedes the University of Pittsburgh's probation status and does not require that a student's cumulative GPA be less than a 2.000. Students should review the University of Pittsburgh's official policy on Academic Probation/Suspension/Dismissal, which is found at https://www.cfo.pitt.edu/policies/policy/09/09-01-10.html.

In addition, students should understand the following:

- Students who have fallen below the standard pace of completion (67%) and/or have surpassed the maximum timeframe may be subject to dismissal by the Swanson School of Engineering. Each case is evaluated on an individual basis by the Associate Dean for Academic Affairs office.
- A student who is not in good academic standing will be placed on probation and may be subject to suspension or dismissal if his or her cumulative GPA remains below a 2.000 for two consecutive terms (with the exception of first year students). Every engineering student's academic record is reviewed at the end of each term to certify whether or not the student is in good academic standing. Students will be notified by letter if they are no longer in good academic standing and are on probation, suspension or dismissal.
- Students in the First Year Engineering Program who enter in the fall term may be suspended or dismissed from the Swanson School of Engineering if they do not attain a cumulative GPA of 1.750 or greater by the end of the Spring Term. Typical first term engineering courses are MATH 0220, PHYS 0174, CHEM 0960, AND ENGR 0011 or their equivalents. Furthermore, First Year Engineering students with cumulative GPA's between 1.750 and 1.999 by the end of their first academic year who fail to obtain a cumulative GPA of 2.000 by the end of their third term are subject to suspension or dismissal. A similar timeline will apply to students who begin the First Year Engineering program in the spring term.
- After being suspended, students are not eligible to re-enroll for one calendar year, after which they are required to apply for reinstatement through the Swanson School of Engineering Office of Administration. Students returning from academic suspension are reinstated on academic probation and their academic performance will be reviewed after each subsequent term.
- If the student's cumulative GPA remains below 2.000 for two consecutive terms, s/he will be subject to dismissal.
- Students may only repeat a course twice. Any student who fails to successfully complete a required course three times will be dismissed from the Swanson School even if his or her cumulative GPA is 2.000 or higher. The student may be allowed to transfer to another school or campus of the University.

In addition, students should understand the following:

- Students who have fallen below the standard pace of completion (67%) and/or have surpassed the maximum timeframe may be subject to dismissal by the Swanson School of Engineering. Each case is evaluated on an individual basis by the Associate Dean for Academic Affairs office.
- A student who is not in good academic standing will be placed on probation and may be subject to suspension or dismissal if his or her cumulative GPA remains below a 2.000 for two consecutive terms (with the exception of first year students). Every engineering student's academic record is reviewed at the end of each term to certify whether or not the student is in good academic standing. Students will be notified by letter if they are no longer in good academic standing and are on probation, suspension or dismissal.
- Students in the First Year Engineering Program who enter in the fall term may be suspended or dismissed from the Swanson School of Engineering if they do not attain a cumulative GPA of 1.750 or greater by the end of the Spring Term. Typical first term engineering courses are MATH 0220, PHYS 0174, CHEM 0960, AND ENGR 0011 or their equivalents. Furthermore, First Year Engineering students with cumulative GPA's between 1.750 and 1.999 by the end of their first academic year who fail to obtain a cumulative GPA of 2.000 by the end of their third term are subject to suspension or dismissal. A similar timeline will apply to students who begin the First Year Engineering program in the spring term.
- After being suspended, students are not eligible to re-enroll for one calendar year, after which they are required to apply for reinstatement through the Swanson School of Engineering Office of Administration. Students returning from academic suspension are reinstated on academic probation and their academic performance will be reviewed after each subsequent term.
- If the student's cumulative GPA remains below 2.000 for two consecutive terms, s/he will be subject to dismissal.
- Students may only repeat a course twice. Any student who fails to successfully complete a required course three times will be dismissed from the Swanson School even if his or her cumulative GPA is 2.000 or higher. The student may be allowed to transfer to another school or campus of the University.

The University of Pittsburgh's official policy on Academic Probation/Suspension/Dismissal can be found at https://www.cfo.pitt.edu/policies/policy/09/09-01-10.html.

Honors Lists

At the end of each term, the academic records of all undergraduate degree students in the Swanson School of Engineering are reviewed to determine eligibility for the Term Honor List and the Dean's Honor List. Students who qualify for both honor lists will appear only on the Dean's Honor List.

Term Honor List

To be eligible for the Term Honor List, a student must

- Earn a GPA of at least 3.250,
- Complete a minimum of 15 credits of academic work for letter grades at the University of Pittsburgh, and
• Complete a minimum of 6 credits of work for letter grades in the term of eligibility.

Dean's Honor List

To be eligible for the Dean's Honor List, a student must

• Earn cumulative and term GPA's of 3.250 or higher,
• Complete a minimum of 30 credits of academic work for letter grades at the University of Pittsburgh, and
• Complete a minimum of 6 credits of work for letter grades in the term of eligibility.

Credits

In the Swanson School of Engineering, a credit or credit hour is one of the following:

• One hour of lecture or recitation a week, requiring two hours of outside preparation
• Two hours of laboratory a week, requiring one hour of outside preparation
• Three hours of laboratory a week, requiring no outside preparation

Registration

Each student registers for future terms with the assistance of his or her academic advisor during registration periods specified by the Office of the University Registrar. A student who has registered for a course but has failed to satisfy the prerequisites for that course prior to the beginning of the term may not be permitted to continue attending class and must withdraw from the course if requested to do so. First Year engineering students register for the fall term during the summer advising sessions. All entering students are required to take the ALEKS Math placement exam before registering for their first Math class at the University of Pittsburgh, regardless of advanced standing credit (AP, IB, transfer credit) or prior ALEKS experience.

Maximum Credit Registration

All full-time undergraduate engineering students are expected to register for a normal full term of academic courses (i.e., at least 12 credits). No student shall be allowed to register for more than 18 credits without specific written permission from his/her academic advisor and approval by the Associate Dean for Academic Affairs. Such permission is given only after a review of the student's academic record in order to verify that an overload is academically justifiable. All credits above 18 for undergraduates will be billed over and above the full-time tuition rate at the prevailing per-credit tuition charge.

Registration for Graduate Credit

A Swanson School of Engineering undergraduate student requiring fewer than 15 credits to complete the requirements for the baccalaureate degree and who intends to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate program. Although these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate record.

Statute of Limitations

All required academic work for the Bachelor of Science in Engineering degree, including courses for which advanced-standing credit has been granted, must be completed within 12 consecutive calendar years. Under unusual circumstances, a student may, with the approval of the department or program chair, request a waiver of this policy. This policy means that part-time students must progress toward the degree at a minimum rate of 12 credits per calendar year.
Graduation Requirements

In order to graduate with a BSE, a student must have satisfactorily completed all degree requirements and earned the total number of credits required by the department or program in which the student is enrolled. The student must also have obtained a minimum GPA of 2.000 for (a) all required courses completed at the University of Pittsburgh and (b) all program courses.

The work of the senior year (a minimum of 24 credits) should be completed while in residence at the Swanson School of Engineering. Exceptions will be granted for students to take a limited number of credits needed to complete their degree, or through participation in an approved study abroad program. Such requests must be approved in advance by the appropriate undergraduate coordinator, chair or Associate Dean for Academic Affairs.

(See the Graduation section of this catalog for further information on graduation requirements and procedures.)

Academic Integrity and Code of Conduct

The integrity of the academic process requires fair and impartial evaluation on the part of faculty and honest academic conduct on the part of students. Students are expected to conduct themselves with a high level of responsibility in the fulfillment of their course of study and their conduct in and out of the classroom. It is the corresponding responsibility of faculty to make clear to students those standards by which they will be evaluated and the resources permissible for use by students during their course of study. The educational process is perceived as a joint faculty-student enterprise that will involve professional judgment by faculty and may involve, without penalty, reasoned exception by students to the data or views offered by faculty. Consistent with these considerations (and without limiting their scope and application in their entirety to the academic programs of the University), faculty and students are directed to observe established University of Pittsburgh and Swanson School of Engineering guidelines on academic integrity and code of conduct. The Swanson School of Engineering and the University of Pittsburgh Guidelines on Academic Integrity are available to faculty and students in the departmental offices of the Swanson School of Engineering and is also available by Policy Guidelines - SSOE. The University's student Code of Conduct is available at: http://www.studentaffairs.pitt.edu/wp-content/uploads/2016/11/2016_Code_of_Conduct_Nov4.pdf

Assessment

As part of the Swanson School of Engineering's commitment to student learning and academic achievement, effective teaching, and continuous improvement of our programs, we regularly conduct outcomes assessment activities. To obtain periodic measurements of student perceptions and intellectual growth, students will be expected to participate in surveys, focus groups, interviews, and related activities. While individual input is collected, the data resulting from these assessments will be published only in aggregate form.

Advising

All students are assigned an advisor and are expected to meet with their advisor prior to registration. The First Year Engineering Program's professional staff serves as first year advisors. Throughout the freshman year, students are encouraged to meet with their advisor if they need to register for classes, withdraw from classes, add and/or drop classes, seek out resources, find out about their academic progress, discuss problems they are having in a course, or get help deciding on a program. First Year Students are also assigned a peer advisor from the Freshman Engineering Leadership Team, with whom they will meet weekly in the fall term. Once students are admitted to a department or program, they are then assigned a faculty advisor. Students who wish to change advisors should meet with the department chair, program director, or undergraduate coordinator to request a change.

Continuing Undeclared Engineering Students will be advised by staff in the First-Year Engineering program (in collaboration with the Engineering programs) until they are department-ready. Students are considered Continuing Undeclared Engineering Students if they meet any of the following criteria:

- have yet to successfully completed more than one First-Year Engineering course
- have a cumulative GPA below 2.000
- have a grade of C- or lower in MATH 0230 (Calculus 2)
- have yet to successfully complete a critical class for their intended major, as follows:
  - Chemical Engineering: CHEM 0970 or CHEM 0120
General Degree Requirements

The degree requirements are established by the individual departments and programs. Depending on the program, between 126 to 135 credits may be required for the individual degree. Each program's requirements include the common freshman year, a mathematics sequence (four or five courses depending on the program), and six approved humanities and social science electives (including the W-course requirement). The specific degree requirements are found in the program descriptions below.

Humanities and Social Science Requirement

An important part of the undergraduate engineering student's education is the humanities and social science component. All Swanson School of Engineering undergraduates must complete at least six humanities and social science elective courses from the school's approved list of Dietrich School of Arts and Sciences (A&S) courses, while meeting the school and ABET requirements for breadth and depth. To meet the depth requirement, a student must complete two or more courses in the same area of study only one of which can be considered an introductory course from the Dietrich School including both humanities and social sciences courses. The depth requirement can also be satisfied by taking two or more courses with a related theme, e.g., courses that focus on a geographic region, historic period, or ideological perspective. For the breadth requirements, it is recommended that the courses include approved offerings from at least three different departments from Arts and Sciences. Students may use one study abroad course that might not otherwise be counted toward satisfying this requirement.

No more than two of the required six elective courses can be satisfied via high school Advanced Placement, International Baccalaureate, and/or GCE-A-Level credits.

Students must also complete one W-designated course; i.e., a course that has a substantial writing component that has been so designated by the Dietrich School of Arts and Sciences (A&S). Depending on the course, it may also count as one of the humanities/social science electives. The Associate Dean for Academic Affairs maintains a list of approved humanities and social science electives. Students are not permitted to use College of General Studies courses including those indicated as either hybrid, self-paced, or online web courses.

Additional information about the Humanities and Social Sciences electives can be found here http://www.engineering.pitt.edu/First-Year/First-Year/Advising/Approved-Electives/

Writing-Designated Course (W Course) Requirement

Engineering students must demonstrate an ability to communicate effectively. This includes both written and oral communication and the ability to make professional presentations. Upon admission, students with an SAT Critical Reading score below 500 will be required to take at least one English Composition Course during their first year that will not count toward the Swanson School of Engineering graduation requirements.

All students must take at least one W course as part of their humanities/social science requirements. Please note that students may also satisfy the W requirement by taking a science course with a writing component. In addition, each engineering program has substantial communications components throughout the curriculum. Some programs require a specific course in communications. It is important to refer to each program's graduation requirements to identify requisite communication courses.

For students planning on a dual degree from the Swanson School of Engineering and a Dietrich School major, it is important to note the following: The University of Pittsburgh Composition Program has agreed that the Dietrich School of Arts and Sciences composition requirement is satisfied by students taking ENGR 0011 and ENGR 0012 through the First Year Engineering Writing Program.

Writing courses may not be transferred in from another institution.

Online Courses

Undergraduate engineering students may take one humanities/social science and one engineering, engineering science, math or science course online subject to the following conditions:
1. Student must present a valid reason for taking the course.
2. The course must be from a four-year college or university that is accredited by Middle States Association of Colleges and Schools (or equivalent if outside the region).
3. In addition, an engineering or engineering science course must be from an ABET accredited program.
4. The humanities/social science courses must be from the arts and science unit of the institution and not from a continuing education, or general studies unit. The course must be taught in English.
5. The course must be first approved by the undergraduate coordinator and then by the Associate Dean for Academic Affairs.

**Major and Degree Options**

The following majors (described in the Program Descriptions section) within the Swanson School of Engineering offers the Bachelor of Science in Engineering:

- Bioengineering
- Chemical engineering
- Civil engineering (administered through the Department of Civil and Environmental Engineering)
- Computer engineering (administered through the Department of Electrical and Computer Engineering and the Department of Computer Science, A&S)
- Electrical engineering (administered through the Department of Electrical and Computer Engineering)
- Engineering Science (administered through the Department of Mechanical Engineering and Materials Science)
- Environmental Engineering (administered through the Department of Civil Engineering)
- Industrial engineering
- Materials science and engineering (administered through the Department of Mechanical Engineering and Materials Science)
- Mechanical engineering (administered through the Department of Mechanical Engineering and Materials Science)

**Minors in Engineering**

The Swanson School of Engineering offers a number of minors to its students who wish to expand their field of knowledge in engineering. Engineering students may also pursue a minor from a Dietrich School of Arts and Sciences program (see A&S section of this bulletin for details on the minors offered within A&S). Engineering students are not permitted to minor in the same field in which they are majoring. Students from outside the Swanson School of Engineering may pursue one of these minors with the permission of the administering program. Any student interested in a minor should consult with the given department to determine the eligibility and completion requirements for each minor. The minors offered by the school are as follows:

- Bioengineering
- Chemical engineering
- Civil engineering
- Electrical engineering
- Environmental engineering
- Industrial engineering
- Materials science and engineering
- Mechanical engineering
- Petroleum engineering
- Polymer engineering

**Certificates Programs**

Swanson School of Engineering undergraduate students are encouraged to broaden their educational experience by electing to take one of the certificate programs currently offered by Arts and Sciences, the University Center for International Studies (UCIS), or the Swanson School of Engineering. These certificate programs may be used by the engineering student to partially fulfill the humanities/social sciences requirement,
thereby allowing specialization in an area of interest while pursuing an engineering degree. The requirements for each certificate vary, and students should contact the appropriate certificate program director.

The Swanson School of Engineering offers a number of certificates at the undergraduate level:

- Engineering for Humanity Certificate
- Engineering Simulation in Design Certificate
- Health Systems Engineering Certificate
- Innovation, Product Design, and Entrepreneurship Certificate
- International Engineering Studies Certificate
- Nuclear Engineering Certificate
- Supply Chain Management Certificate
- Sustainability

In addition to certificates offered by the Swanson School of Engineering, additional certificates are available from other schools within the University, such as the one listed below.

- Engineering-School of Education Certification Program

The Swanson School of Engineering realizes the need to provide program flexibility and a variety of career options to undergraduate engineering majors. Careers in the teaching of mathematics, chemistry, and physics present one such option to students who have acquired a knowledge base in engineering. Through an articulated agreement with the University of Pittsburgh School of Education, a five-year Program of Study combines coursework in engineering with Content Core Studies for the teaching of chemistry, mathematics, or physics; additionally, general education courses and pre-educational professional credits are included in the program. During the program's fifth year (after completion of the BS in engineering degree), students will complete the requirements for the Instructional I Certificate in their area of choice. This two-term program will enable them to teach in the Commonwealth of Pennsylvania.

For more information regarding scheduling and the admission policy of the agreement, talk with your advisor, or call 412-648-2230 to schedule a pre-admission meeting with a School of Education representative. See also http://www.education.pitt.edu/programs/certificates.aspx

Special Academic Opportunities/Programs

The Swanson School of Engineering offers numerous special academic opportunities as detailed in the following pages:

Reserve Officers Training Corps (ROTC)

Academic programs within the Swanson School of Engineering may give credit to students enrolled in Reserve Officers Training Corps (ROTC). This credit may be given in one of the following ways.

- Upon commissioning, some departments will award one technical elective for the student's entire ROTC coursework and training; or
- Some programs may review the specific courses and course objectives for individual ROTC courses to see if the individual course or courses may be counted toward program requirements.

Students enrolled in the ROTC program should meet with the undergraduate coordinator for review of how the ROTC program and courses may be counted for a specific major. Students are encouraged to participate in ROTC if this is of interest to them. With this in mind, the Swanson School of Engineering is lenient with those in the Navy program who must travel to Carnegie Mellon University for coursework and typically are permitted to take over 18 credits per term to satisfy the ROTC requirements.

Arts and Sciences-Engineering Dual Degree Program

The Dietrich School of Arts and Sciences (A&S) and the Swanson School of Engineering have developed an undergraduate dual degree program that permits a student to combine a major in arts and sciences with a program in engineering and then receive degrees from both A&S and the Swanson School of Engineering. A student can apply for admission into this program through either A&S or the Swanson School of Engineering and must be admitted into both schools.

While the form of the program is dependent upon the individual student's interests, the first year's curriculum is typically the standard engineering program. During the next three years the student may complete the specific requirements for his or her engineering degree while fulfilling certain...
A&S major and general education requirements. Typically, the fifth year is then used to complete the A&S requirements. Students must complete a minimum of 90 A&S credits, including all A&S skills and general education requirements and an A&S major (but not a related area). Students must also complete all the degree requirements of their chosen engineering program, usually consisting of 70 or more Swanson School of Engineering credits. Each program should be developed with an advisor in the Dietrich School of Arts and Sciences and an advisor in the Swanson School of Engineering and tailored to the student's special interests. Students in this program have combined engineering with neuroscience, philosophy, economics, music, and a number of the language programs.

Students must satisfy both schools' normal progress requirements and criteria for academic standing as long as they remain in the joint degree program. Students also must apply for graduation from both schools. A&S students earn either a BA or BS degree, depending upon the A&S program of study. The student's GPA for graduation from A&S is calculated based solely upon the credits earned for the A&S degree. For further information, students may contact one of the following: the First Year Engineering Program Office, 152 Benedum Hall; an engineering departmental undergraduate coordinator; the A&S Office, 140 Thackeray Hall; the A&S Advising Center, 252 Thackeray Hall; or the University Honors College engineering advisor, 3600 Cathedral of Learning.

**Bachelor of Philosophy Degree Program with University Honors College**

Undergraduate students with exceptional academic ability and motivation may elect to complete the Bachelor of Philosophy degree program in addition to their engineering bachelor of science degree. Students who have completed the freshman year may apply for degree candidacy in the University Honors College (UHC). Outstanding students enrolled in any of the Swanson School of Engineering programs may elect to complete these interschool degree requirements. In addition, students pursuing the five-year joint degree program with Arts and Sciences are also encouraged to pursue the honors college degree.

All of the UHC degree programs require independent scholarship and a competency-based evaluation by faculty in the last year. The requirements for independent scholarship entail the completion and defense of a thesis during the junior and senior years. Qualified engineering students may join with an engineering faculty member to propose an individualized plan of study leading to independent scholarship and an honors college degree, provided the basic graduation requirements of the student's engineering department are fulfilled. Students interested in the honors college should contact the dean of the honors college, 3500 Cathedral of Learning, University of Pittsburgh, Pittsburgh, PA 15260, or call 412-624-6880. (See the University Honors College section of this bulletin.)

**Architecture Design Minor (Offered by History of Art and Architecture in the Dietrich School of Arts and Sciences)**

Those working in many aspects of Civil Engineering, particularly in structural engineering and other building sciences, work intimately with architects. The Minor in Architecture - Design provides an opportunity for students to obtain experience and understanding of various aspects of the architecture profession. Students engage in two studio courses (HAA 1913 and 1916) and HAA 0940 Approaches to the Built Environment and at least one additional HAA elective. The requirements of the Minor are used to partially satisfy SSOE humanities requirements and HAA 1916 satisfies one 3 credit CEE elective requirement. Due to the nature of the Architecture - Design Minor, students must generally begin in their first year or sophomore year. This Minor is administered through the History of Art and Architecture Department (HAA). For more information visit Department of History of Art and Architecture. However, SSOE students wishing to pursue this Minor are advised to contact Dr. Kent Harries in CEE before applying for this Minor. Dr. Harries is located in 218B Benedum Hall, email: kharries@pitt.edu or call 412-624-9873 in CEE before applying for this Minor.

**Cooperative Engineering Education Program**

The school's Cooperative Engineering Education Program enhances the student engineer's educational experience through a series of challenging, highly relevant "real world" work sessions. This is accomplished by integrating a rotation of school and employment terms that enables the cooperative education student to complement his or her formal classroom training with additional technical knowledge, hands-on experience, and financial remuneration. The co-op graduate possesses the maturity and assurance of a more seasoned employee and the ability to incorporate academic knowledge and theory into practice. During co-op sessions, students earn competitive salaries, which also makes this program financially rewarding. Almost half of the graduating seniors complete the co-op program requirements. Through the assistance of the Swanson School of Engineering's Cooperative Education Office, formal arrangements are established with industry that permit students to rotate four-month terms between the workplace and the classroom. At the University of Pittsburgh, this rotation begins during either the sophomore or junior year and extends
into the senior year, with the co-op student completing at least three four-month work periods. These employment sessions, which are typically with the same employer, allow job duties to increase as the knowledge and skills of the student engineer progress. The positions can be local, national, or international. This practical work experience has also been found to increase academic motivation and classroom performance. Co-op students become aware of business practice and etiquette and possess a mature, responsible attitude. Thus, upon graduation, students who have successfully completed the three co-op rotations are able to handle more challenging initial assignments with confidence and assurance. A high percentage of co-op students also obtain and accept full-time offers from their co-op employers. Keep in mind that students who are on co-op rotations are unable to simultaneously hold employment positions as student workers or federal work study positions during that semester.

Students earn transcript certification and a total of three credits towards departmental graduation requirements upon satisfactory completion of the program requirements. The co-op program offers resume preparation, interviewing skills, workshops and job fairs in order to facilitate appropriate placements for students.

Engineering International Programs

As the world around us grows ever more connected, it is evident that engineering students must be prepared to engage in an increasingly globalized world, and, upon graduation, to compete in an international job market. Accordingly, the Swanson School of Engineering has placed a strong emphasis on the development of exciting and academically enriching international programs for its students.

All students in SSOE are encouraged to add a global dimension to their education by pursuing one or more international programs as part of their academic study. At present, SSOE students may elect to participate in study, research, co-op, internship, or service learning abroad. Most of these opportunities are offered on a for-credit basis, and many can be used to satisfy major, minor, technical elective, or other degree requirements. Foreign language study is helpful, but not required, as many courses are on offer in English. Depending on their academic and personal interests, students may elect to participate in dozens of individual international programs. Some of these may last for only a week or two, either during spring break or over the summer term. Others may involve a commitment of a semester or even an entire academic year abroad.

The Swanson Signature Study Abroad Programs are short term opportunities that focus on a relevant engineering topic in detail over the course of 10 to 14 days, to up to five weeks. Recently, Swanson Signature programs have occurred in Brazil, Uruguay, Peru, Italy and Germany, studying such diverse topics as renewable energy and sustainability, engineering of pre-Columbian civilizations, and global supply networks. Plus3 is another innovative short term program designed for first year SSOE students, and which has gone to such locations as Italy, Germany, Costa Rica, China, and Viet Nam. Meanwhile, students who wish to invest in longer term language or cultural study may decide to participate in an exchange program. This affords them the opportunity to study engineering, social sciences or humanities at a foreign college or university for one or two consecutive academic terms, and for little more than the cost of a regular term in Pittsburgh. Finally, scholarships and other funding opportunities are also available, and financial aid administered by the University of Pittsburgh may apply.

Current and prospective SSOE students and their parents are welcome to contact the Office of Engineering International Programs for more information.

Combined Liberal Arts-Engineering 3/2 Program

The Swanson School of Engineering has developed combined liberal arts/engineering dual degree programs with a number of accredited liberal arts colleges. In these "3/2 programs," students first complete a three-year structured course of study at the liberal arts college, including that college's general education requirements, specific introductory courses required for the engineering program of interest, and other courses necessary for acceptance into a Swanson School of Engineering program. With the recommendation of the faculty advisor at the liberal arts college, the student applies for transfer to the University of Pittsburgh Swanson School of Engineering, spending the final two or more years in an engineering program.
Such programs typically enable the student to earn both a liberal arts degree and an engineering degree. For additional information, please contact the Coordinator of Transfer Student Services.

Swanson School of Engineering-Diversity Initiatives

The Engineering Office of Diversity exists to create and sustain learning and working environments where differences and similarities are valued and respected, and all students, especially underrepresented students, are included and empowered to excel in engineering education. The office provides diversity education to undergraduates, graduate students, staff and faculty. The office also provides continuous academic and community support services through its pre-college, undergraduate and graduate student programming.

Pre-College and Undergraduate Diversity Programs

The Swanson School of Engineering pre-college and undergraduate diversity programs develop and implement activities that promote and support the academic excellence of high achieving pre-college and undergraduate students from groups historically underrepresented in science, technology, engineering and mathematics (STEM) fields. These initiatives provide a continuous pipeline for students to prepare for, enter and graduate from the University of Pittsburgh as STEM majors.

INVESTING NOW

INVESTING NOW, created in 1988, is a college preparatory program created to stimulate, support, and recognize the high academic performance of pre-college students from historically underrepresented groups. The purpose of this program is to expose high achieving students to science, technology, engineering and mathematics (STEM) careers and prepare them to be successful at the University of Pittsburgh or other highly competitive universities.

The program's primary goals are to:

1. Create a pipeline for well-prepared students to enter college and pursue science, technology, engineering and mathematics majors;
2. Encourage and support student enrollment and achievement in advanced mathematics and science courses;
3. Ensure that the participants make informed college choices;
4. Support and encourage parents in their role as advocates for their children; and
5. Coordinate partnerships between the University of Pittsburgh's Swanson School of Engineering and local and regional schools.

Membership in INVESTING NOW a student's commitment to attend year-round programming from ninth through twelfth grade.

Pitt EXCEL Program

Pitt EXCEL is a comprehensive diversity program committed to the recruitment, retention and graduation of academically excellent engineering undergraduates, particularly individuals from groups historically underrepresented in the field. Program activities include academic counseling, peer mentoring, engineering research opportunities, graduate school preparation and career development workshops, as well as a two-week intensive study skills, math and science review session for pre-first year students.

The goals of the Pitt EXCEL programs are to:

1. Collaborate with the INVESTING NOW program, the First Year Engineering Program Office and the Office of Admissions & Financial Aid in order to increase the number of students from underrepresented groups enrolled in the Swanson School of Engineering.
2. Provide students with support activities and enrichment opportunities that will make them marketable to corporations and graduate schools.
3. Provide community building activities that will help students to develop a supportive and diverse peer network.

Programming offered to Pitt EXCEL students includes:

The Summer Engineering Academy (SEA) is a residential program that enables students to make a smooth transition from high school to college. During SEA, students learn essential study skills for college and receive an intensive review of chemistry, pre-calculus and physics concepts, with an introduction to engineering problem solving. By attending this program students can prepare for success during their first year of college.

Summer Research Internships (SRI) focuses on the preparation of underrepresented students for graduate education and professional careers in engineering. The goals of the program are to identify motivated students and match them with faculty mentors. The mentors assist the students through the completion of a summer research project.

Global Engineering Preparedness Scholarship (GEPS) Programs

Educating Engineers in Cultural and Societal Contexts

Thanks to a grant from the National Science Foundation, the University of Pittsburgh Swanson School of Engineering and its Office of Diversity (EOD) have established the Global Engineering Preparedness Scholarship program (GEPS). GEPS helps to support the recruitment, retention and graduation of low-income students from underrepresented minorities and majority populations. GEPS also prepares students for the global marketplace by offering international opportunities that students would not normally be able to participate without additional supporting funds.

Because the engineering career of the 21st century is more globally competitive than ever, GEPS also provides an integrative framework that focuses on access, continuous academic support, development of global competency and leadership experience. International experience is now an integral part of engineering education, and highly sought after by employers across all engineering disciplines. GEPS Scholars will have access to Pitt's exceptional education abroad programs to experience international skills sought by the engineering profession.

GEPS Benefits

- Academic Counseling and Advising - Structured on-on-one academic counseling and advising for all first-year students. Students will meet with an Academic Counselor regularly, as well as with the Associate Dean for Diversity at the beginning of each semester to set goals and at the end of each semester to review goal attainment.
• **Academic Living/learning Community (ALC):** All GEPS Scholars participate in ALC program activities in the first year at Pitt. This provides Scholars the opportunity to live and learn from each other and develop and cultivate cross-cultural lifelong friendships.

• **Academic Tutoring - Tutoring support will be provided for all GEPS Scholars in physics, chemistry and math courses through the EXCEL office.**

• **Faculty Mentoring:** Students will be matched with faculty who will engage in a professional one-on-one relationship to further challenge students in scholarly activities.

• **Global Leadership Competency Development for Engineers (GLE) - After the first year, Scholars will participate in GLE activities designed to enrich global leadership experience and global preparedness. GLE activities are supported through partnerships with employers, international study abroad, and career development programs, allowing Scholars to engage in engineering design and problem solving in cultural and societal contexts, both at home and abroad. In Summer 2017, 14 GEPS Scholars successfully participated in the first GLE Study Abroad Program that provided the students with an introduction to global preparedness in the context of product ideation, design, and development in the U.S. and internationally.**

• **Peer Mentoring:** GEPS will provide a more structured and effective peer mentoring program by pairing GEPS first-year students with Engineering Ambassadors selected from a group of outstanding engineering juniors and seniors. The Engineering Ambassadors will help students develop good study skills, capacity building skills, and communication skills critical during the first year at the Swanson School.

• **Summer Engineering Academy (SEA):** A rigorous two-week pre-college program designed to assist students in making a smooth transition from high school to college.

### Scholarship Eligibility, Selection, and Retention

GEPS Scholars will be selected from the pool of admitted students or transferring students meeting US citizenship or permanent residency requirements and having unmet financial needs as determined through the Office of Admissions and Financial Aid. Student should be in to top 10-20 percent of class high school ranking, ACT/SAT above 27/1300, or college transfer GPA of 3.000 or above.

Beyond scores and academic performance students are offered GEPS admission by committee review of GPA, SAT/ACT scores, strength of high school courses, class ranking, teacher recommendations for overall potential for success, extracurricular activities, honors and awards, professionalism, leadership, and personal statement.

**All GEPS Scholars must maintain a cumulative GPA of 3.000 to retain the Scholarship.** All GEPS Scholars who complete the second year of the program with GPA of 3.000 and above are eligible for the GEPS International Study Abroad Scholarship.

### Alliances for Graduate Education and the Professoriate - Transition to the Doctorate by Adaptable Engagement (PITT - STRIVE)

The University of Pittsburgh Swanson School of Engineering Transition to the Doctorate by Adaptable Engagement (PITT- STRIVE) is funded by the National Science Foundation (NSF) Alliance for Graduate Education and the Professoriate-Knowledge Adoption and Translation (AGEP-KAT).

The primary goals of PITT-STRIVE are to (a) significantly increase the number of underrepresented minorities (i.e., African Americans, Hispanics, American Indians, Alaska Natives, and Native Hawaiians or other Pacific Islanders) obtaining graduate degrees in science, technology, engineering and mathematics (STEM), and (b) enhance the preparation of underrepresented minorities for faculty positions in academia.

The overarching goals of PITT-STRIVE at the University of Pittsburgh Swanson School of Engineering are to:
• Improve the transition of URM (African/Black American, Hispanic/Latino Americans, Native Americans) students, who are US citizens, into doctoral engineering programs at the University of Pittsburgh; and
• Create a systemic engineering culture and climate that ensures the success of URM transition to the doctorate through adoption/adaptation of evidence-based strategies for student and faculty engagement.

Student Objectives:

1. Adapt and implement evidence-based strategies with URM doctoral student participants in engineering, who are US citizens.
2. Enhance professional and educational skills of URM doctoral student participants in engineering, who are US citizens.
3. Increase the number of URM doctoral student participants, who are US citizens, to continue and maintain an interest in the engineering PhD program.

Faculty Objectives:

1. Improve faculty engagement with URM graduate students, who are US citizens in engineering.
2. Improve faculty awareness of the problems facing URM graduate students who are US citizens in engineering.
3. Develop a shared vision among vested faculty regarding the success of URM graduate students within the school of engineering.

Program Outcomes from Achieving the Goals:

The framework to accomplish these goals is built around four adaptable priorities with focus placed upon improving the role of faculty and academic culture/climate that support the success of URM PhDs in engineering to achieve the following outcomes: 1) Improve faculty engagement with URM students; 2) Improve faculty awareness of impediments to URM success in SSoE PhD program; and 3) Promote a shared vision among vested faculty regarding the success of URM students within our School of Engineering, and 4) achieve systemic inclusive academic culture and climate that support the success of URM doctoral students.

PITT-STRIVE scholars are recruited from universities across the U.S., and students must meet U.S. citizenship or permanent residency requirements. Qualified participants will have graduated from an accredited STEM undergraduate program with a 3.300 GPA and show strong motivation for entering a PhD program. All PITT - STRIVE Scholars must maintain a cumulative GPA of 3.300 to maintain the award. Activities associated with PITT-STRIVE include a mentor/mentee weekend retreat; the Discover Graduate Recruitment Weekend; faculty-student engagement training; and the faculty-student engagement training.

PITT-STRIVE is part of the National Science Foundation's Alliances for Graduate Education and the Professoriate (AGEP).

For more information on PITT STRIVE please visit http://www.engineering.pitt.edu/diversity/agep/

Other SSOE Diversity Initiatives:

First Year Diversity Workshop

Freshman Diversity Workshop is considered mandatory for all First Year engineering students. It provides the attendees with diversity awareness skills and explains the broad meaning of diversity and what it contributes to the personal, professional, and social improvement.

Graduate Diversity Workshop

Graduate Diversity Workshop is considered mandatory for all graduate students in their first year of the program. It discusses principles of intercultural communication and acceptable classroom and research group behaviors.

Diversity Professional Development Workshops
During Fall and Spring semesters, the Engineering Office of Diversity and PITT STRIVE program organize series of workshops that allow the campus community to meet the leading experts in diversity-related issues and initiatives. The Engineering Office of Diversity and PITT STRIVE program also organize seminars and workshops dedicated to such nationally recognized celebrations as Hispanic Heritage Month, Black History Month, Women History Months, etc.

Swanson School of Engineering Faculty

School of Engineering Faculty

Program and Course Offerings

Students enter one of the specific engineering major programs below at the sophomore level after successfully completing the First-Year Student Engineering Program.

Degree Programs in BS in Engineering

Bioengineering
Chemical Engineering
Civil Engineering
Computer Engineering
Electrical Engineering
Engineering Science
Environmental Engineering
Industrial Engineering
Materials Science and Engineering
Mechanical Engineering

Certificate Programs

Engineering for Humanity Certificate
Engineering Simulation in Design Certificate
Health Systems Engineering Certificate
Innovation, Product Design, and Entrepreneurship Certificate
International Engineering Studies Certificate
Nuclear Engineering Certificate
Supply Chain Management Certificate
Sustainability Certificate

Programs
Major

- First-Year Student Engineering Program

Certificate

- Engineering for Humanity Certificate
- Innovation, Product Design, and Entrepreneurship Certificate
- International Engineering Studies Certificate
- Sustainability Certificate

Department of Bioengineering

Bioengineering is an ABET-accredited undergraduate degree program that combines education in engineering and biological sciences, forming a unique experience to prepare students for today's technical challenges in medicine and biology. Our focus is on developing engineers who can apply an analytic approach to solving problems in living systems. Thus, we provide students with a comprehensive education in both engineering and the life sciences.

Research Areas

Undergraduates are required to participate in research with a faculty mentor. In addition to our primary faculty, our strong connections with the Schools of Medicine, Dental Medicine, and Health and Rehabilitation Sciences provide multiple opportunities for students to engage in research in such areas as:

- Cellular Engineering
- Biomaterials
- Tissue Engineering
- Movement and Balance
- Biotribology
- Artificial Organs
- Biorheology
- Radio Frequency Imaging
- Neural Engineering
- Clinical Engineering

Our unique laboratory, clinical, and research experiences beyond the classroom are opportunities that few, if any, universities can match

What Can you Do with a Bioengineering Degree

Graduates of our Bioengineering Program are prepared to obtain employment in industry (about 60%), seek further graduate education (MS/PhD, about 20%), and pursue a career as a health science practitioner (MD/DO/PA/MPH, about 20%). Those going to industry have many roles, such as: design of instruments and devices used in healthcare; development of diagnostic tools; assess technology for regulatory compliance with FDA requirements; training clinicians in the use of biomedical technology; research new approaches to providing healthcare; prepare and document procedures and reports; and make recommendation to senior management. Advanced graduate education training can lead to more responsible roles in industry or academic positions in teaching, research, and development. Medical practitioners draw upon skills developed as a bioengineer to help diagnose medical problems and identify new approaches to medical technology.
Curriculum and Electives

The Bioengineering Program undergraduate curriculum requires 29 courses that provide a broad background in mathematics, physics, chemistry, biology, and bioengineering, plus 13 electives. Five of the electives are drawn from a large selection in the Humanities and Social Sciences. The remaining eight electives are selected to meet requirements of one of four tracks (Bioimaging and Signals, Biomechanics, Cellular Engineering, Medical Product Engineering) that provide in depth experience in an area of the student's choice. The curriculum is designed to provide the breadth and depth required for ABET accreditation and to be a competitive engineer in the global marketplace. The curriculum has also been designed to allow students interested in "pre-med" to satisfy medical school requirements within the requirements of any track. One possible four-year program of study is provided on the back of this sheet.

Cooperative Education and International Experience

The Department of Bioengineering encourages all students to enhance the value of their degree through participation in the Cooperative Education (co-op) and International Studies programs offered by the Swanson School of Engineering. Co-op provides students with semester rotations between college and full-time work assignments with corporate partners that relate directly to bioengineering. An international experience offers a global perspective and cross-cultural awareness of engineering practice that enhances post-graduate opportunities.

Bioengineering

Bioengineering

The undergraduate program in Bioengineering combines education in engineering and biological sciences, forming a unique experience to prepare students for today's technical challenges in medicine and biology. Our focus is on developing engineers who can apply an analytic approach to solving problems in living systems. Thus, we provide students with a comprehensive education in both engineering and the life sciences. Students enrolled in the program will be prepared for continued graduate studies or a career in a bioengineering-related industry. The program also provides a solid undergraduate education for further studies in a school of medicine. The bioengineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

In keeping with the two-fold mission of the Department of Bioengineering to

- provide a high quality engineering education to both undergraduate and graduate students and
- be a leader in research in specific areas encompassed by Bioengineering,

The Bioengineering undergraduate curriculum objective is to prepare students to achieve their post-baccalaureate goal of:

- an industrial career in bioengineering or related field;
- graduate school (MS and PhD programs related to bioengineering); or
- professional school (Medical, Dental, Health Related, Business, and Law).

To achieve the objective, students are:

- Provided both a broad knowledge of the technical and social principles of bioengineering as well as a focused education in one track area within bioengineering, and
- Prepared through educational experiences beyond the classroom that deepen their understanding of the technical and non-technical issues in bioengineering, process and design.

Bioengineering Undergraduate Curriculum

Sophomore Year

Third Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- ENGR 0135 - STATICS & MECH OF MATERIALS 1
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0290 - DIFFERENTIAL EQUATIONS
- Track Elective

Credits: 17

Fourth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- BIOENG 1210 - BIOENGINEERING THERMODYNAMICS
- BIOENG 1310 - LINEAR SYSTEMS AND ELECTRONICS 1
- BIOENG 1630 - BIOMECHANICS 1-MECHANICAL PRINCIPLES BIOLOGICAL SYSTEMS
- BIOENG 1000 - STATISTICS FOR BIOENGINEERING

Credits: 16

Junior Year

Fifth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1002 - INTRAMURAL INTERNSHIP
- BIOENG 1220 - BIOTRANSPORT PHENOMENA
- BIOENG 1320 - BIOLOGICAL SIGNALS AND SYSTEMS
- BIOSC 1250 - HUMAN PHYSIOLOGY
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- BIOENG 1241 - SOCIETAL, POLITICAL AND ETHICAL ISSUES IN BIOENGINEERING

Credits: 18

Sixth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1150 - BIOENG METHODS AND APPLICATIONS
- Biosignals Application or Track Elective
- Imaging or Track Elective
- Track Elective
- Humanities/Social Science Elective

Credits: 16

Senior Year

Seventh Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1160 - BIOENGINEERING DESIGN 1
Bioengineering Minor

Undergraduates in other departments can obtain a Minor in Bioengineering by satisfactorily completing (grade of C or better) one BioENG seminar and five courses for a total of 16 credits. Students interested in a Bioengineering Minor are required to submit a completed BIOE Minor Checklist to the Bioengineering Undergraduate Administrator for course approvals PRIOR TO enrolling in BIOENG courses in order to ensure that the requirements for the minor are fulfilled. Approval to use substitute courses to meet minor requirements must be obtained in advance from the Bioengineering Undergraduate Coordinator.

Requirements for the Bioengineering Minor are:

Bioengineering Seminar - 0 Credits

- BIOENG 2024 - BIOENGINEERING SEM FOR PROF MS
  (Register for and attend a minimum of 6 seminars)

Basic Life Science Course - 3 Credits

Acceptable course options include (others may be used with permission)

- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
- CHEM 1810 - CHEMICAL BIOLOGY
- CHE 1530 - BIOCHEMISTRY FOR ENGINEERS
- BIOSC 1250 - HUMAN PHYSIOLOGY
- HRS 1020 - ANATOMY AND PHYSIOLOGY
- HRS 1023 - HUMAN PHYSIOLOGY

Course in Statistics - 4 Credits
Note: Students who have a major in the Swanson School of Engineering seeking a minor should take ENGR 0020 while students who do not have a major in the Swanson School of Engineering should take STAT 1000.

- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1 (SSoE Students)
- STAT 1000 - APPLIED STATISTICAL METHODS (non-SSoE Students)

Three BIOENG Elective Courses - 9 Credits

NOTE: Students must meet prerequisites (or equivalent) to enroll in BIOENG courses.

- BIOENG 1002 - INTRAMURAL INTERNSHIP
- BIOENG 1005 - RADIOFREQUENCY MEDICAL DEVICES
- BIOENG 1050 - ARTIFICIAL ORGANS
- BIOENG 1051 - ARTIFICIAL ORGANS 2
- BIOENG 1052 - ARTIFICIAL ORGANS 3
- BIOENG 1150 - BIOENG METHODS AND APPLICATIONS
- BIOENG 1160 - BIOENGINEERING DESIGN 1
- BIOENG 1161 - BIOENGINEERING DESIGN 2
- BIOENG 1210 - BIOENGINEERING THERMODYNAMICS
- BIOENG 1218 - EMERGING BIOMEDICAL TECHNOLOGIES
- BIOENG 1220 - BIOTRANSPORT PHENOMENA
- BIOENG 1255 - DYNAMIC SYSTEMS: PHYSIOLOGICAL PERSPECTIVE
- BIOENG 1310 - LINEAR SYSTEMS AND ELECTRONICS 1
- BIOENG 1320 - BIOLOGICAL SIGNALS AND SYSTEMS
- BIOENG 1330 - BIOMEDICAL IMAGING
- BIOENG 1351 - COMPUTER APPLICATIONS IN BIOENGINEERING
- BIOENG 1370 - COMPUTATIONAL SIMULATION IN MEDICAL DEVICE DESIGN
- BIOENG 1383 - BIOMEDICAL OPTICAL MICROSCOPY
- BIOENG 1533 - CONTROLLED DRUG DELIVERY
- BIOENG 1580 - BIOMEDICAL APPLICATION OF SIGNAL PROCESSING
- BIOENG 1586 - QUANTITATIVE SYSTEMS NEUROSCIENCE
- BIOENG 1620 - INTRODUCTION TO TISSUE ENGINEERING
- BIOENG 1630 - BIOMECHANICS 1-MECHANICAL PRINCIPLES BIOLOGICAL SYSTEMS
- BIOENG 1631 - BIOMECHANICS 2: INTRODUCTION TO BIODYNAMICS AND BIOSOLID MECHANICS
- BIOENG 1632 - BIOMECHANICS 3: BIODYNAMICS OF MOVEMENT
- BIOENG 1633 - BIOMECHANICS 4 - BIOMECHANICS OF ORGANS, TISSUES, AND CELLS
- BIOENG 1680 - BIOMEDICAL APPLICATIONS OF CONTROL
- BIOENG 1810 - BIOMATERIALS AND BIOPATIBILITY

Additional Information

NOTE: BIOENG 1070 (Cell Biology 1) and BIOENG 1071 (Cell Biology 2) are considered Basic Life Science Courses. Neither can be used to satisfy a BIOENG elective course requirement.

NOTE: BIOENG 1241 (Societal, Political and Ethical Issues in Biotechnology) is a humanities/social science course that is restricted to Department of Bioengineering students only. The course cannot be used to satisfy a BIOENG elective course requirement.

NOTE: BIOENG 1095 (Special Projects) cannot be used to satisfy a BIOENG elective course requirement

Department of Chemical and Petroleum Engineering
Chemical engineering is concerned with processes in which matter and energy undergo change. Despite the historically-inspired name, the material/energy transformations studies by chemical engineers include not only chemical, but also physical and biological changes. The range of concerns, therefore, is so broad that the chemical engineering graduate is prepared for a variety of interesting and challenging employment opportunities. The chemical engineer with his/her strong background in chemical, physical, and biological sciences is found in management, design, operations, and research. The chemical engineer is employed in almost all industries including food, polymers, chemicals, pharmaceuticals, petroleum, medical, materials, and electronics. Since solutions to energy, environmental, medical, and food problems (to name but a few) must surely involve material and/or energy transformations, there will be continued demands for chemical engineers in the future. The chemical engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org

The major objectives of the chemical engineering program are that

1. Graduates will gain employment in professional careers (often in positions of technical expertise in chemical engineering, but also including professions such as medicine, law, business, finance, non-profit organizations, government, education, etc.) and/or enroll in graduate studies.
2. Graduates will be committed to lifelong learning throughout their careers.
3. Graduates will assume positions of leadership.
4. Graduates will recognize the importance of utilizing their knowledge, skills, and initiative for the benefit of society and demonstrate that understanding through their interactions within their community, in government, or in society as a whole.

The chemical engineering faculty have strong interests in transport phenomena, process dynamics, biotechnology, biomedical application, nanotechnology, kinetics, catalysis, thermodynamics, polymers, and energy supply and conversion. Petroleum engineering faculty interests are in fluid displacement in porous media and enhanced oil recovery and reservoir modeling. Courses and research opportunities are available in all of these areas for undergraduate students of demonstrated ability. For more information on these programs, please visit http://www.engineering.pitt.edu/chemical

Chemical Engineering

The following areas of concentration are available for Chemical Engineering students:

Petroleum Concentration
Polymers Concentration

Chemical Engineering Undergraduate Curriculum

Undergraduate chemical engineering courses cover thermodynamics; mass and energy balances; energy, mass, and momentum transfer; unit operations; process dynamics and control; process design; plant and product design; professional practice; and chemical reaction engineering.

In addition, the curriculum provides a sequence of technical electives that makes possible specialization in some of the most important areas in today's society. Among these are the biochemical, petroleum, and polymers areas of concentration. Students may select any combination of technical electives. The appropriate selection of electives, however, can lead to a minor or area of concentration. (See Minors in Engineering.)

Requirements

Third Term

- CHEM 0310 - ORGANIC CHEMISTRY 1
- ChE Composition Requirement - 3 credits
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- CHE 0100 - FOUNDATIONS OF CHEMICAL ENGR
- CHE 0101 - FOUNDATIONS OF CHE LABORATORY
- CHE 1085 - DEPARTMENTAL SEMINAR
Fourth Term

- CHEM 0320 - ORGANIC CHEMISTRY 2
- MATH 0290 - DIFFERENTIAL EQUATIONS (also MATH 1270)
- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0201 - CHE THERMODYNAMICS LABORATORY
- CHE 0214 - INTRODUCTION TO CHEMICAL PRODUCT DESIGN
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fifth Term

- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- Humanities/Social Science - 3 Credits
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0301 - TRANSPORT PHENOMENA LABORATORY
- CHE 0314 - TAKING PRODUCTS TO MARKET: THE NEXT STEP IN CHEMICAL PRODUCT DESIGN
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 17

Sixth Term

- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHE 0400 - REACTIVE PROCESS ENGINEERING
- CHE 0401 - REACTIVE PROCESS ENGINEERING LABORATORY
- Humanities/Social Science - 3 Credits
- CHE 1085 - DEPARTMENTAL SEMINAR

Engineering Elective - 3 Credits

Suggestions:

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- ENGR 1700 - INTRODUCTION TO NUCLEAR ENGINEERING
- ENGR 1701 - FUNDAMENTALS OF NUCLEAR REACTORS
- ENGR 1702 - NUCLEAR PLANT TECHNOLOGY
- ENGR 1869 - INTRO ELEC ENGRG FOR NON EE'S

Credits: 15

Seventh Term

- CHE 0500 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING
- CHE 0501 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING LABORATORY
- Humanities/Social Science - 3 Credits

- CHE 1530 - BIOCHEMISTRY FOR ENGINEERS or
- CHEM 1810 - CHEMICAL BIOLOGY or
- BIOSC 1000 - BIOCHEMISTRY

- CHE 1085 - DEPARTMENTAL SEMINAR

Advanced Science - 3 Credits

Suggestions:

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 1130 - INORGANIC CHEMISTRY
- CHEM 1600 - SYNTHESIS & CHARCTRZTN POLYMERS
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1940 - MOLECULAR BIOLOGY

Advanced Labs - Total of 2 Credits

Suggestions:

- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
- CHEM 1605 - SYNT & CHARCTRZTN POLYMERS LAB
- CHEM 0345 - ORGANIC LABORATORY (This is a 2 credit course)

Credits: 17

Eighth Term

- CHE 0613 - SYSTEM ENGINEERING 2: PROCESS DESIGN
- CHE 0602 - CHEMICAL ENGINEERING SAFETY AND ETHICS
- ChE or PETE Elective - 3 Credits
- Humanities/Social Science - 3 Credits
- Professional Elective - 3 Credits
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Total Credits Required: 131

**Chemical Engineering Minor**

This minor is available to all students (except Chemical Engineering undergraduates). A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Chemical Engineering. The student must receive a passing grade (D- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites include General Chemistry 1 and 2 and MATH 0220 and MATH 0230.

Requirements
For students outside the Swanson School of Engineering, or for Engineering majors that are not required to take a Thermodynamics and Transport Phenomena course in their major, the following three courses and their recitations and labs are required (a total of 21 credits):

- CHE 0100 - FOUNDATIONS OF CHEMICAL ENGR
- CHE 0101 - FOUNDATIONS OF CHE LABORATORY
- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0201 - CHE THERMODYNAMICS LABORATORY
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0301 - TRANSPORT PHENOMENA LABORATORY

For students with the Swanson School of Engineering whose major does require that they take both a Thermodynamics and Transport Phenomena course (i.e., BioE and ME majors), the following two courses and their recitations and labs are required (a total of 13 credits).

- CHE 0100
- CHE 0101
- CHE 0400
- CHE 0401

Note, both the Transport Phenomena and Thermodynamics courses must be completed prior to enrolling in CHE 0400.

**Petroleum Engineering Minor**

This minor is available to all undergraduate engineers.

The successful completion of four PETE courses is required for the minor. A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Petroleum Engineering. The student must receive a passing grade (D- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites: MATH 0290 or equivalent and CHE 0100 or approval of PETE program director.

Requirements:

Choose four courses from the following list:

- PETE 1160 - PETROLEUM RESERVOIR ENGINEERING
- PETE 1201 - RECOVERY OF OIL BY WATERFLOODING
- PETE 1204 - ENHANCED OIL RECOVERY PROCESSES
- PETE 1205 - PETROLEUM PRODUCTION ENGINEERING
- PETE 1207 - PETROLEUM AND NATURAL GAS PROCESSING
- PETE 1208 - PETROLEUM DRILLING AND WELL COMPLETION
- PETE 1097 - SPECIAL PROJECTS
- PETE 1209 - HYDRAULIC FRACTURING MECHANICS AND APPLICATIONS (Cross-listed as CEE 1209)

** PETE 1097 projects can be conducted with a professor doing petroleum engineering related studies (Enick, Holder, Morsi) and may be replaced by two additional 3 credit PETE courses or a combination of PETE 1097 and a single 3 credit PETE course.

**Polymer Engineering Minor**

This minor is available to all undergraduate engineering students. The successful completion of six of the following courses is required for the minor. A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Polymer Engineering. The student must receive a passing grade (D- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites include General Chemistry 1 and 2, and MATH 0220 and 0230.

**Core Courses**
• CHE 1754 - PRINCIPLES OF POLYMER ENGINEERING
• CHEM 1600 - SYNTHESIS & CHARACTERIZATION POLYMERS with lab
• CHEM 1605 - SYNTH & CHARACTERIZATION POLYMERS LAB

Required Chemistry Courses

• CHEM 0310 - ORGANIC CHEMISTRY 1
• CHEM 0320 - ORGANIC CHEMISTRY 2

Two Research Projects with Polymer Content (For a Total of 6 Credits)

• CHE 1097 - SPECIAL PROJECT
• CHEM 1710 - UNDERGRADUATE RESEARCH

Students can take CHE 1097 or CHEM 1710 or a combination of both, totaling 6 credits.

Department of Civil and Environmental Engineering

The University of Pittsburgh is proud of its history and tradition in civil and environmental engineering education, reinforced by a faculty who are dedicated to their students. The curriculum prepares students to tackle today's most eminent engineering, environmental and societal challenges.

The department offers a Bachelor of Science in Engineering degree that may be obtained by majoring in civil engineering or environmental engineering. The civil engineering major has been continuously accredited by ABET since its inception in 1936. The environmental engineering major was established in 2015 in response to strong demand from students, industry and government agencies and will seek ABET accreditation in the Fall of 2017. The Department also offers minors in civil engineering and environmental engineering to students majoring in other disciplines.

Civil and environmental engineers are concerned with safeguarding life, health, and property while promoting the general welfare of society. They are the designers of the public and private works that affect large segments of the population. However, because problems of expanding population and increasing human needs that confront our civilization, the responsibility of civil and environmental engineers extends beyond mere physical structures into the social, political, and economic welfare of the United States and other countries. In brief, the work of the civil and environmental engineer has a significant impact on the quality of life in all areas of modern society.

Civil Engineering

The following minor is available for Civil Engineering students:

Architecture-Design Minor

The following areas of concentration are available for Civil Engineering students:

Construction Management
Environmental Engineering
Geotechnical Engineering
Structural Engineering
Transportation Engineering
Water Resources Engineering
The civil engineer may focus in environmental control and in the development or redevelopment of a geographic area through overall planning, as well as in the design, construction, and operation of structures and facilities for public and private use. Included in the broad field of civil engineering are the following: buildings, bridges, and industrial installations; soil mechanics and foundations; transportation, including highways, traffic, airports, and harbors; hydraulic engineering, including irrigation; water resources, including power plants and dams; water supply; waste disposal; air pollution; hazardous and solid wastes; and environmental sanitation. Modern-day requirements have necessitated involvement in the medical and dental fields, oceanography, polar exploration, energy resources, and the space effort.

The curriculum focuses on the electives available for designing individualized programs suited to the student's career goals. Emphasis is placed on societal needs and ways of meeting those needs. Thus, graduates are prepared to begin work in any of the several branches of civil engineering or to continue their education at the graduate level.

Civil Engineering Undergraduate Curriculum

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- ENGR 0131 - STATICS FOR CIVIL & ENVRL ENGR
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- Science Elective - 3 Credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- ENGR 0141 - MECHC OF MATLS CVL & ENV ENGR
- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1
- CEE 1105 - MATERIALS OF CONSTRUCTION
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fifth Term

- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS
- CEE 1402 - FLUID MECHANICS
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS
- ENGR 0151 - DYNAMICS CIVIL & ENVRN ENGNRS
- Social Science Elective - 3 Credits
- Social Science Elective - 3 Credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 18

Sixth Term

- CEE 1200 - CONSTRUCTION MANAGEMENT
• CEE 1609 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS or
• CEE 1610 - ENGINEERING AND SUSTAINABLE DEVELOPMENT or
• CEE 1618 - DESIGN FOR THE ENVIRONMENT

• CEE 1412 - INTRODUCTION TO HYDROLOGY
• CEE 1703 - TRANSPORTATION ENGINEERING
• CEE Design Elective - 3 Credits*
• CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

• CEE-Design Elective - 3 Credits*
• CEE-Design Elective - 3 Credits*
• CEE-Design Elective - 3 Credits*
• Engineering Elective - 3 Credits
• Humanities/Social Science Elective - 3 Credits
• CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

• Humanities/Social Science Elective - 3 Credits

• CEE 1233 - CONSTRUCTION DESIGN PROJECT or
• CEE 1333 - STRUCTURAL DESIGN PROJECT or
• CEE 1433 - WATER RESOURCES DESIGN PROJECT or
• CEE 1533 - ENVRL ENGR DESIGN PROJECT or
• CEE 1733 - TRANSPORTATION DESIGN PROJECT or
• CEE 1833 - GEOTECHNICAL DESIGN PROJECT

• CEE-Elective - 3 Credits**
• CEE-Elective - 3 Credits**
• CEE-Elective - 3 Credits**
• CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Note:

*Design Electives are: (CEE 1340 or CEE 1341), ( CEE 1410 or CEE 1401), (CEE 1505, CEE 1513 or CEE 1515), (CEE 1714 , CEE 1715, CEE 1717, CEE 1718, CEE 1821, or CEE 2814 ). One course from each group is required.

**Any non-required CEE undergraduate courses, Mining Engineering Courses with the ENGR classification, 2000 level CEE graduate courses - and any ENGR course offered by the CEE Department are suitable for CEE Electives.

Minimum Grade Requirements
ENGR 0131 and ENGR 0141 must be passed with a grade of "C" or higher. CEE 1330, CEE 1402, CEE 1503, CEE 1811 must be passed with a grade of "C-" or higher. All design electives must be passed with a grade of "C-" or higher.

Environmental Engineering

Environmental engineers are concerned with safeguarding life, health, and the environment while promoting society's general welfare. They are the designers of the public and private works that affect all segments of the population. The responsibility of the environmental engineer extends beyond mere physical structures into the social, political, and economic welfare of this and other countries. In brief, the work of the environmental engineer has a significant impact on the quality of life in all areas of modern society.

Environmental engineers deal in environmental control and in the development or redevelopment of a geographic area through overall planning, as well as in the design, construction, and operation of structures and facilities for public and private use (infrastructure). The field includes water supply systems, waste disposal, air and water pollution, and environmental remediation. The environmental engineering program at the University of Pittsburgh is a new program with the first B.S. degree being awarded by the Department in 2017.

The program begins with studies in the humanities, social sciences, physical sciences, and mathematics, and proceeds to the fundamental aspects of environmental engineering. The curriculum focuses on the electives available for designing individualized programs suited to the student's career goals. Emphasis is placed on societal and environmental needs as well as ways of meeting those needs. Thus, the graduate is prepared to begin work in any of the several branches of environmental engineering or to continue his or her education at the graduate level.

Environmental Engineering Undergraduate Curriculum

The environmental engineering major is designed for the students who enter the program at the end of their freshman year. Qualified transfer students (3.000 GPA) are accepted subject to space available. In addition, summer programs are available primarily to assist students who are not taking the structured curriculum on schedule or students participating in the cooperative study program. Students are expected to complete all prerequisite courses before advancing to the next term.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- ENGR 0131 - STATICS FOR CIVIL & ENVRL ENGNR
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- Earth Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- ENGR 0141 - MECHC OF MATLS CVL & ENV ENGR
- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 16

Fifth Term
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- CEE 1402 - FLUID MECHANICS
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS
- CEE 1203 - CONSTRUCT PROFESSIONAL DEVELOPMENT
- Social Science Elective - 3 credits
- Social Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 18

Sixth Term

- CEE 1520 - MATERIAL AND ENERGY BALANCES IN ENVIRONMENTAL ENGINEERING
- CEE 1609 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS or
- CEE 1610 - ENGINEERING AND SUSTAINABLE DEVELOPMENT or
- CEE 1618 - DESIGN FOR THE ENVIRONMENT
- CEE 1412 - INTRODUCTION TO HYDROLOGY
- CEE 1513 - ENVIRONMENTAL ENGINEERING PROCESSES
- CEE 1523 - ENVIRONMENTAL ENGINEERING LAB
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Seventh Term

- CEE 1505 - WATER TREATMENT AND DISTRIBUTION SYSTEM DESIGN or
- CEE 1515 - WASTEWATER COLLECTION AND TREATMENT PLANT DESIGN
- CEE 1522 - FATE AND TRANSPORT IN ENVIRONMENTAL ENGINEERING
- Environmental Program Elective - 3 credits
- Environmental Program Elective - 3 credits
- Humanities/Social Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Eighth Term

- Humanities/Social Science Elective - 3 credits
- CEE 1533 - ENVIRONMENTAL ENGINEERING PROJECT
- Civil Engineering Elective - 3 credits
- CEE 1401 - OPEN CHANNEL HYDRAULICS or
- CEE 1410 - WATER RESOURCES ENGINEERING
- Environmental Program Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR
Total Credits: 15

Minimum Grade Requirements

- ENGR 0131 and ENGR 0141 must be passed with a grade of "C" or higher.
- CEE 1503, CEE 1505/CEE 1515, CEE 1513, CEE 1520, CEE 1522 and CEE 1523 must be passed with a grade of "C-" or higher.

Civil Engineering Minor

The Department of Civil and Environmental Engineering offers a Minor in Civil Engineering to B.S. degree students in other engineering or science departments of the University of Pittsburgh. The applicant must have completed the Swanson School of Engineering common Freshman year courses or their equivalent, plus the following courses which are prerequisites for Civil and Environmental Engineering (CEE) courses, each with a grade of "C" or better.

- Prerequisite: Math 240 and Math 290
- ENGR 0131 or ENGR 0135
- ENGR 0141 or ENGR 0145

Students from other engineering departments must be in good standing. Students from outside the Swanson School of Engineering must have an overall QPA of 2.5 or greater.

The Minor requires the completion of a minimum of 18 credits of course work in civil engineering.

Course Requirements

Four of the following six introductory courses.

- CEE 1200 - CONSTRUCTION MANAGEMENT
- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS
- CEE 1402 - FLUID MECHANICS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- CEE 1703 - TRANSPORTATION ENGINEERING
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS

An additional two courses from the following six categories related to the above introductory courses listed above:

CEE 1200 Electives:

- CEE 1203 - CONSTRUCT PROFSSN DEVELOPMENT
- CEE 2201 CONSTRUCTION COST ENGINEERING
- CEE 2202 CONSTRUCTION SCHEDULING
- CEE 2204 CONSTRUCTION LAW & RISK MGMNT
- CEE 2205 CONSTRCT FINANCE & COST CONTRL
- CEE 2206 CONSTRCT & COST OF ELEC SUPPLY
- CEE 2207 CONSTRCT & CST OF MECHL SYSTMS

CEE 1330 Electives:

- CEE 1340 - CONCRETE STRUCTURES I
- CEE 1341 - STEEL STRUCTURES I
• CEE 1370 - INTRODUCTION TO NONDESTRUCTIVE EVALUATION AND STRUCTURAL HEALTH MONITORING
• CEE 2330 ADVANCED STRUCTURAL ANALYSIS

CEE 1402 Electives:

• CEE 1410 - WATER RESOURCES ENGINEERING
• CEE 1412 - INTRODUCTION TO HYDROLOGY
• CEE 1401 - OPEN CHANNEL HYDRAULICS
• CEE 2404 SURFACE HYDROLOGY
• CEE 2405 GROUNDWATER HYDROLOGY

CEE 1503 Electives:

• CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
• CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT
• CEE 1523 - ENVIRONMENTAL ENGINEERING LAB
• CEE 2500 ENVRMNTL ENGRG MICRBIOL
• CEE 2501 ENVIRONMENTAL ENGRNG CHEMISTRY
• CEE 2502 PHYSCL-CHMCL PRIN IN ENV ENGRG

CEE 1703 Electives:

• CEE 1714 - PAVEMENT DESIGN AND ANALYSIS
• CEE 1715 - PAVEMENT MAINTENANCE AND REHAB
• CEE 1717 - COMPONENTS, PROPERTIES AND DESIGN OF PORTLAND CEMENT CONCRETE
• CEE 1718 - ADVANCED CONSTRUCTION AND BITUMINOUS MATERIALS
• CEE 2700 TRAFFIC MGMNT AND OPERATIONS
• CEE 2701 TRAFFIC FLOW THEORY
• CEE 2710 TRANSPORTATION SYSTEMS ANAL 1

CEE 1811 Electives:

• CEE 1821 - FOUNDATION ENGINEERING
• CEE 2800 ENGINEERING GEOLOGY
• CEE 2801 ADVANCED SOIL MECHANICS
• CEE 2802 COMPTR METH IN GEOTECHNCL ENGR

Application:

Early application is advised so that the applicant can be assigned to an advisor in the Department of Civil and Environmental Engineering.

To apply obtain and submit the completed application form with copy of academic record to: Dr. Leonard W. Casson, Undergraduate Coordinator, 742 Benedum Hall, Tel. 412-624-9870; casson@pitt.edu. Application deadlines: October 31 for December graduation, February 28 for April graduation, June 30 for August graduation.

Environmental Engineering Minor

The Department of Civil and Environmental Engineering offers a Minor in Environmental Engineering to B.S. degree students in other engineering or science departments within the University of Pittsburgh. The minor requires the completion of a minimum of 15 credits of course work in the environmental area.
The completion of the Environmental Engineering Minor will provide the student with a significant career advantage. Engineers and scientists from diverse backgrounds are needed in the control and management of our environment.

Course Requirements

(Any deviation or substitution must be approved by the CEE Undergraduate Coordinator):

- CEE 1412 - INTRODUCTION TO HYDROLOGY
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
- CEE 1505 - WATER TREATMENT AND DISTRIBUTION SYSTEM DESIGN or
- CEE 1515 - WASTEWATER COLLECTION AND TREATMENT PLANT DESIGN
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT

Additional Information

*In case of a scheduling conflict, CEE 1609 : Life Cycle Assessment Methods and Tools , CEE 1610 : Engineering and Sustainable Development, or CEE 1618 : Design for the Environment may be substituted for CEE 1514 with the approval of the CEE Undergraduate Coordinator.

Civil Engineering Certificate (For Architectural Studies Students Only)

A certificate in elementary structural engineering for architectural studies majors is available under the auspices of the Swanson School of Engineering's Department of Civil and Environmental Engineering. It offers a technical, professional component to the major. The certificate consists of a minimum of 27 credits and includes courses in statics and particle dynamics, mechanics of materials, structural analysis, computer methods, concrete structures, and metal structures. Students must go to the Department of Civil and Environmental Engineering in 742 Benedum Hall to declare the Civil Engineering Certificate.

Prerequisite courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

One of the following courses

- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

One of the following courses

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

One of the following courses

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 (Honors)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2 (Honors)

## Required courses

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0131 - STATICS FOR CIVIL & ENVRL ENGR
- ENGR 0141 - MECH OF MATLS CVL & ENV ENGR
- CEE 1105 - MATERIALS OF CONSTRUCTION
- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS

At least one of the following courses*

* If taking only one of these courses, the student must also complete CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1.

- CEE 1340 - CONCRETE STRUCTURES 1
- CEE 1341 - STEEL STRUCTURES 1

## Department of Electrical and Computer Engineering

### Computer Engineering

Computer engineers are active in and in demand for all phases of technology research, design and development, testing, manufacturing, sales, and management of computer technologies. In addition, many successful leaders in other professions, such as law, medicine, and business, pursue an undergraduate education in computer engineering as preparation for later professional study. Thus the undergraduate curriculum provides preparation in both mathematics and physical sciences, coupled with coverage of all aspects of computing, software, hardware, design, and application. The program’s flexible elective structure offers the student considerable opportunity for professional specialization, area specialization within the computing discipline, or interdisciplinary broadening. The computer engineering program is accredited by the Engineering Accreditation Commission of ABET. http://www.abet.org. For more information about the program, contact coeundergrad@pitt.edu or see http://www.engineering.pitt.edu/Computer/

### Electrical Engineering

Electrical Engineering is the application of math and science to the design, manufacture, use and operation of electrical processes, devices, machines, and systems. Electrical and electronics engineers build circuits and systems that use and/or transform electricity for a practical purpose. Electrical engineering is a very broad discipline that impacts public welfare and safety, as well as health, healthcare, communication, transportation, computing, and leisure.

### Computer Engineering

Computer Engineering Undergraduate Curriculum

The sophomore year (terms three and four) starts the student's specialization with courses in programming; data structures; digital logic; computer organization and the digital systems laboratory; as well as linear algebra and differential equations; linear systems and circuits; and electives in the humanities, social sciences, and communications skills. The junior year (terms five and six) develops the student's knowledge in the practical foundations of computer engineering with courses in algorithm design, computer architecture, systems software, an advanced digital laboratory, and computer interfacing. These are complemented with courses in probability and statistics, as well as with electives in the humanities and social sciences. The senior year (terms seven and eight) continues the foundation sequence with software engineering and then extends the student's
experience with both technical and design electives in computer engineering. The rich set of electives available from computer engineering, computer science, telecommunications, and electrical engineering provides the student with exposure to several of the many subdisciplines within the field.

The overall objective of the computer engineering program is to prepare individuals to be confident and successful in whatever path they choose to pursue in the 21st century global economy. This includes those who move into practice within the computer engineering discipline either through employment in industry or government, or through a start-up of their own, those who move on to advanced computer study and research in graduate school, or those that move into other professions such as law, business, or management.

As indicated, the program has considerable elective flexibility. The humanities and social science electives must be selected from the list of acceptable courses compiled by the Swanson School of Engineering. The open elective may be satisfied by any University course, including band, Reserve Officers Training Corps (ROTC), or physical education. Technical electives may include computer engineering; electrical engineering; computer science; or other engineering, mathematics, or basic science courses.

Third Term

- COE 0132 - DIGITAL LOGIC
- COE 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- COE 0031 - LINEAR CIRCUITS AND SYSTEMS 1
- MATH 0290 - DIFFERENTIAL EQUATIONS
- Humanities/Social Science Elective - 3 Credits
- COE 1885 - DEPARTMENTAL SEMINAR

Credits: 17

Fourth Term

- COE 0447 - COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE or
- COE 0147 - COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE
- COE 0445 - DATA STRUCTURES
- COE 0501 - DIGITAL SYSTEMS LABORATORY
- COE 0257 - ANALYSIS AND DESIGN OF ELECTRONIC CIRCUITS
- COE 1885 - DEPARTMENTAL SEMINAR
- Communication Skills Elective

Credits: 15

Fifth Term

- COE 0449 - INTRODUCTION TO SYSTEMS SOFTWARE
- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- COE 1501 - ALGORITHM IMPLEMENTATION
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- Humanities/Social Science Elective - 3 Credits
- COE 1885 - DEPARTMENTAL SEMINAR

Credits: 16

Sixth Term

- COE 1541 - INTRODUCTION TO COMPUTER ARCHITECTURE
- Technical Elective
Electrical Engineering

The following areas of concentration are available for Electrical Engineering students:

- Electronics (Circuits and Devices)
- Communications and Signal Processing
- Digital Systems
- Electric Power

Electrical Engineering Undergraduate Curriculum

The Academic Program

The Bachelor of Science in Electrical Engineering requires 126 course credits of study. Students typically enter the Electrical Engineering program as sophomores after completing the First-Year Engineering program. Sophomore electrical engineering students begin their education taking core curriculum courses in circuits, semiconductor electronics, digital logic, computer organization, and signals and systems, as well as a communication-
skills elective. In the junior and senior years, students complete the required core and satisfy the program's elective requirements. The curriculum allows for nine electives (four electrical engineering, four technical and one open elective), in addition to six humanities and social science electives.

The humanities and social science electives must be selected from the list of acceptable electives compiled by the school. The communications skills elective is also chosen from a list available on the department web site. The open elective may be satisfied by taking a course that is acceptable for any other elective course category, or by using (for example) 3 credits of band, Reserve Officer Training Corps (ROTC), 3 rotations of co-operative education or chorus. Technical electives may include electrical engineering electives, courses in other engineering disciplines, mathematics courses, or basic science courses. The electrical engineering program is accredited by the Engineering Accreditation Commission of ABET. http://www.abet.org. For more information on the program, visit our website or contact eeugrad@ee.pitt.edu.

Program Educational Objectives

The Department of Electrical Engineering at Pitt was established in 1890 as one of the first electrical engineering departments in the United States. The overall objective of the Electrical Engineering Program is for our graduates to become successful professionals in a diverse, global environment, and to be able to innovate and operate new technologies, and adapt to shifting technologies, in whatever career path they choose to pursue. This includes careers in electrical engineering through employment in industry, government or private practices, as well as careers in other engineering, science, or professional disciplines such as bioengineering, computer engineering, computer science, business, law, or medicine. Our graduates will also pursue advanced study in electrical engineering or other engineering, science, or professional fields and be able to serve in leadership positions in academia, industry or government.

Third Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ECE 0031 - LINEAR CIRCUITS AND SYSTEMS 1
- ECE 0132 - DIGITAL LOGIC
- ECE 1885 - DEPARTMENTAL SEMINAR
- Humanities/Social Science Elective 3 - 3 Credits
- Communications Skills Elective - 3 Credits

Credits: 15

Fourth Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- Technical Elective 1 - 3 Credits
- ECE 0142 - COMPUTER ORGANIZATION
- ECE 0501 - DIGITAL SYSTEMS LABORATORY
- ECE 0257 - ANALYSIS AND DESIGN OF ELECTRONIC CIRCUITS
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 16

Fifth Term

- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1201 - ELECTNC MEASURMNTS & CRCTS LAB
- ECE 1552 - SIGNALS AND SYSTEMS ANALYSIS
- ECE 1259 - ELECTROMAGNETICS 1
- Humanities/Social Science Elective 4 - 3 Credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 15
Sixth Term

- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB
- ECE 1563 - SIGNAL PROCESSING LABORATORY
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- Technical Elective 2 - 3 Credits
- Humanities/Social Science Elective 5 - 3 Credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

- ECE-Elective 1 - 3 Credits
- ECE-Elective 2 - 3 Credits
- Technical Elective 3 - 3 Credits
- ECE Senior Design Elective option
- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 16

Eighth Term

- ECE-Elective 3 - 3 Credits
- ECE-Elective 4 - 3 Credits
- Technical Elective 3 - 3 Credits
- Humanities/Social Science Elective 6 - 3 Credits
- Open Elective - 3 Credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 15

Each student must complete at least four ECE elective courses from the following list.

There are additional special topics courses offered to address changes in technology.

- ECE 1150 - INTRO TO COMPUTER NETWORKS
- ECE 1160 - INTRODUCTION TO EMBEDDED SYSTEM DESIGN
- ECE 1161 - EMBEDDED COMPUTER SYSTEM DESIGN 2
- ECE 1180 - COMPUTATIONAL MODELING AND SIMULATION FOR ENGINEERS
- ECE 1186 - SOFTWARE ENGINEERING
- ECE 1188 - CYBER-PHYSICAL SYSTEMS
- ECE 1192 - INTRODUCTION TO VLSI DESIGN
- ECE 1232 - INTRO LASERS & OPTICAL ENGINEERING
- ECE 1238 - DIGITAL ELECTRONICS
- ECE 1266 - APPLICATIONS OF FIELDS & WAVES
- ECE 1286 - ANAL & DSGN ANLG INTGRD CRCT
- ECE 1390 - INTRO TO IMAGE PROCESSING
- ECE 1472 - ANALOG COMMUNICATION SYSTEMS
Each student must complete at least one ECE design elective from the following list.

- ECE 1161 - EMBEDDED COMPUTER SYSTEM DESIGN 2
- ECE 1193 - ADVANCED VLSI DESIGN
- ECE 1896 - SENIOR DESIGN PROJECT
- ENGR 1050 - PRODUCT REALIZATION (with approval)

Note:

Students are asked to present and demonstrate their design projects at one of the ECE department's senior design expos, which are held near the end of the fall and spring terms. These design electives can also be used to satisfy ECE elective requirements. However, a given course can only be used to satisfy one requirement.

**Electrical Engineering Minor**

The Department of Electrical and Computer Engineering offers an electrical engineering (EE) minor for engineering students who are not majoring in electrical or computer engineering. The minor will be of interest to undergraduate engineering students who wish to develop expertise in areas such as electronics, instrumentation, control, signal processing, or digital devices. Requirements for engineering physics are slightly different than those for other students because of the extensive overlap between the two programs.

All students interested in declaring a minor in electrical engineering should do so on their application for graduation.

**Required Courses**

Required Courses:

- ECE 0031 - LINEAR CIRCUITS AND SYSTEMS 1
- ECE 0132 - DIGITAL LOGIC
- ECE 0257 - ANALYSIS AND DESIGN OF ELECTRONIC CIRCUITS
- Plus three additional elective electrical engineering courses

**Electives**

Students can select the three electives from any courses offered in electrical engineering. Students must obtain a QPA average of at least 2.0 in the courses required for the minor, with a passing grade (D- or higher) in all courses. Since most EE courses have specific prerequisites, students should be sure that they have the required courses for the electives they wish to take.

The suggestions below are appropriate for students with interests in a particular area, and they meet prerequisite requirements:

**Electronics**
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1238 - DIGITAL ELECTRONICS
- ECE 1286 - ANAL & DSGN ANLG INTGRTD CRCT

Instrumentation

The two courses listed below, plus another ECE course.

- ECE 1201 - ELECTNC MEASURMNTS & CRCTS LAB
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY

Digital Systems

- ECE 0142 - COMPUTER ORGANIZATION
- ECE 1192 - INTRODUCTION TO VLSI DESIGN
- ECE 1160 - INTRODUCTION TO EMBDDED SYSTEM DESIGN

Signals and Systems

- ECE 1552 - SIGNALS AND SYSTEMS ANALYSIS
- ECE 1562 - DIGITAL AND ANALOG FILTERS
- ECE 1673 - LINEAR CONTROL SYSTEMS

Power

- ECE 1769 - POWER SYSTEM ANALYSIS 1
- ECE 1771 - ELECTRIC MACHINERY

Special Notes for Engineering Physics students

The requirements for the electrical engineering minor for students in the Engineering Physics Program include (in addition to the EE courses that are already part of their degree requirements):

- ECE 0132 / COE 0132
- ECE 0142

Since engineering physics students take ECE 0031 and several other ECE courses as part of their degree requirements, they need only complete the two extra courses listed above to obtain the EE minor.

Department of Industrial Engineering

Industrial Engineering (IE) is all about choices. It is the engineering discipline that offers the most wide-ranging array of opportunities in terms of employment, and it is distinguished by its flexibility. While other engineering disciplines tend to apply skills to specific areas, industrial engineers may be found working everywhere from traditional manufacturing companies to airlines, distribution companies to financial institutions, hospitals to consulting companies, high-tech corporations to luxury retailers. Engineers are educated to design and build things, but IEs are educated to design and improve the productivity and quality of integrated systems of people, material, computers, information, equipment, and other resources. IEs draw upon the specialized knowledge and skills in the mathematical, physical and social sciences together with the principles, methods and modeling tools of engineering analysis to make improvements in business processes. In addition to making significant contributions to corporate profitability, they also make the workplace a more productive and streamlined environment. The Department of Industrial Engineering meets the challenge of the growing complexity of modern industry through an intensive educational program that includes a required international component. Building upon a solid foundation in the basic sciences, engineering, and computers, the curriculum provides the student with a capability for systems analysis and
design that crosses traditional disciplinary lines and an awareness of and concern for the demands of today's dynamic social systems. The industrial engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

**Industrial Engineering**

The following areas of concentration are available for Industrial Engineering students are as follows:

- Engineering Management
- Health Systems Engineering
- Operations Research & Computer Modeling
- Product Development & Manufacturing Systems

Information on all four areas of concentration can be found here.

**Undergraduate Curriculum**

The objectives of our undergraduate program are for our graduates to be:

- Successful professionals, who adapt to and drive changes in technology and our global society in their desired career path, including industrial engineering based careers, as well as other professional disciplines;
- Lifelong learners and pursuers of advanced knowledge;
- Leaders who serve their profession and/or community.

The IE faculty has committed itself to the broad, multidisciplinary approach needed to solve problems in today's organizations. In addition to core courses in industrial engineering, you will be exposed to the humanities and social sciences with a global focus and have the opportunity to select five technical electives. These technical electives may be chosen from specialized and advanced offerings of the industrial engineering department. In consultation with your advisor, these electives may also be selected from other programs in the University such as other engineering departments, the sciences, mathematics, economics, business, computer science, or information science.

Recognizing that engineering is an increasingly global profession, the undergraduate program is also committed to providing its graduates with the skills they need to compete on an international basis. Such skills will enable Pitt IE graduates to not only have a distinct employment advantage, but will also provide them with a cross-cultural awareness that will enhance their leadership abilities. This commitment is emphasized through an international requirement for all of our undergraduates for which students are expected to complete an international experience, or, in some cases select an integrated set of humanities and social sciences courses with a global focus. The final term of our undergraduate program includes a capstone senior design course in which you, working in small teams with other students, will complete a semester long project in a corporate setting. These projects are sponsored by local industry through our Sponsor An Industrial Engineering Team (SAINT) program, jointly supervised by an individual from the company and an IE faculty member.

For more information on the industrial engineering program contact ugradie@pitt.edu or www.engineering.pitt.edu/industrial

**Third Term**

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- IE 1054 - PRODUCTIVITY ANALYSIS
- IE 1070 - PROBABILITY, RANDOM VARIABLES, AND DISTRIBUTIONS
- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

**Fourth Term**

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- IE 0015 - INTRODUCTION TO INFORMATION SYSTEMS ENGINEERING
• IE 1052 - MFG PROCESSES AND ANALYSIS
• IE 1071 - STATISTICAL TESTING AND REGRESSION
• Humanities or Social Science Elective 3
• IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Fifth Term

• MATH 0290 - DIFFERENTIAL EQUATIONS
• or MATH 0413 - INTRO THEORETICAL MATHEMATICS
• IE 1051 - ENGINEERING PRODUCT DESIGN
• IE 1061 - HUMAN FACTORS ENGINEERING
• IE 1081 - OPERATIONS RESEARCH
• ENGR 1869 - INTRO ELEC ENGRG FOR NON EE'S
• IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Sixth Term

• IE 1035 - ENGINEERING MANAGEMENT
• IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING
• IE 1082 - PROBLSTC METH IN OPERATNS RES
• IE 1083 - SIMULATION MODELING
• Technical Elective 1
• IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

• IE 1080 - SUPPLY CHAIN ANALYSIS
• ENGR 0135 - STATICS & MECHC OF MATERIALS 1
• Technical Elective 2
• Technical Elective 3
• Humanities/Social Science Elective 4
• IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

• IE 1090 - SENIOR PROJECTS
• Humanities/Social Science Elective 5
• Humanities/Social Science Elective 6
• Technical Elective 4
• Technical Elective 5
• IE 1085 - DEPARTMENTAL SEMINAR
Industry Engineering Minor

All other engineering majors can earn a Minor in Industrial Engineering by completing two required courses and three elective courses.

Required Courses

- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- IE 1054 - PRODUCTIVITY ANALYSIS

Elective Courses

Choose any 3 of the following courses.

- IE 1035 - ENGINEERING MANAGEMENT
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- IE 1051 - ENGINEERING PRODUCT DESIGN
- IE 1052 - MFG PROCESSES AND ANALYSIS
- IE 1061 - HUMAN FACTORS ENGINEERING
- IE 1080 - SUPPLY CHAIN ANALYSIS
- IE 1081 - OPERATIONS RESEARCH
- IE 1083 - SIMULATION MODELING

Additional Information

The student must earn a QPA of at least 2.0 in the five courses used to complete the requirements for the minor. A passing grade (D- or higher) must be achieved in each of these courses; a failing or incomplete grade (e.g., F, G, I) in any of the five courses will prevent the minor from being awarded, even if the student's cumulative GPA is greater than 2.0.

Health Systems Engineering Certificate

The HSE Certificate provides engineering students with the opportunity to apply industrial engineering principles and tools to improve healthcare systems. The Health Systems Engineering program has been designed to let students better understand the dynamics, structure and functions of Healthcare Organizations.

To complete the certificate students must satisfy the following requirements:

- Complete six (6) credits of the required Health Systems Engineering courses - listed below as IE 1106 and IE 1108.
- Complete nine (9) additional approved credits from electives in the healthcare field. These can be from IE, CBA or the Health Related Professions. Approved courses are listed below. With approval of the undergraduate coordinator, other elective courses can be chosen from areas relevant to the student's objectives such as Health Related Professions or Information Sciences.
- Complete their Senior Design Project course in a healthcare related organization.
- Acquire approved work experience with a healthcare organization through internships or the Co-op program. Three of the 9 elective credits can be earned by completing the co-op program within a healthcare organization.

HSE Required Courses

- IE 1106 - OPERATIONS IMPROVEMENT IN HEALTHCARE
Approved Elective Courses for HSE

- IE 1014 - DATA BASE DESIGN
- IE 1076 - TOTAL QUALITY MANAGEMENT
- IE 1102 - LEAN SIX SIGMA I (GREEN BELT)
- IE 1103 - LEAN SIX SIGMA II (BLACK BELT)
- IE 1107 - HEALTHCARE INFORMATION SYSTEMS
- IE 1123 - PROJECT MANAGEMENT FOR ENGINEERS
- ENGR 1500 - ETHICAL DILEMMAS BALANCING COST, RISK, AND SCHEDULING

Supply Chain Management Certificate

The Certificate in Supply Chain Management (CSCM) provides undergraduate engineering students with the opportunity to understand important concepts in supply chain management and develop technical and managerial skills which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations.

Supply chain management encompasses not only the design and planning of supply chain activities, but also the execution, control and monitoring that help companies build a competitive infrastructure and create net value. The supply chain covers all areas, not just manufacturing and services, but also includes suppliers, retailers, warehouses, logistics and customer service; all functional areas involved in receiving and filling a customer's order with a repeatable and satisfying experience. This certificate requires 15 credits to complete.

Enrollment is open to students in all of the undergraduate engineering programs in the Swanson School of Engineering. Students interested in the program should contact Dr. Karen Bursic (kbursic@pitt.edu) for more details.

Department of Mechanical and Materials Engineering

Materials Science and Engineering

Materials limitations often impede technological and social progress. The materials engineer applies special knowledge of the structure, behavior, and properties of materials to solve these engineering problems. The engineer may be concerned with developing and improving processes for producing metals and alloys or ceramics; developing new alloys or improving existing alloys; and/or achieving better use of alloys and other materials. New materials must be designed for a variety of functions, including structural, aesthetic, electrical, or magnetic and operating environments. Materials may come in forms so minute that the work is done under a microscope or in forms so large that special handling cranes are required.

Research efforts in the department involve work on the development of new high-strength steels, corrosion and oxidation, structural and electronic ceramics, smart materials, high-temperature materials, plastic deformation, phase transformations, and strengthening mechanisms. A number of graduate students are engaged in thesis research on these topics, and undergraduates are encouraged to work on related senior projects. The materials science and engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org. For more information on the program, contact undrmems@engr.pitt.edu or see http://www.engineering.pitt.edu/Departments/MEMS/.

Mechanical Engineering

Mechanical engineering is concerned with both energy use and the design of machines and systems in such sectors as transportation, manufacturing, materials handling, power generation, and environmental control. Mechanical engineers are involved in design, development, research, management, and related activities in these fields. The breadth and diversity of the profession requires an undergraduate curriculum that provides a sound foundation in the basic sciences, computational skills including use of computers, and the fundamentals of engineering and engineering design. This curriculum provides a base for future professional growth and is also an excellent background for those who wish to pursue careers in other professions including management, law, or medicine. The mechanical engineering program is accredited by the Engineering Accreditation
Engineering Science

Engineering Science combines a study of an engineering disciple with the study of a basic science. This provides the educational background for the study of multi-disciplinary problems. Engineering Science is divided into five curricula: Engineering Physics, Nano-Physics/Material Science, Nano-Chemistry/Bioengineering, Nuclear and Engineering Mechanics. These areas allow the study of problems in development of electronic and biologic materials, electronic and optical devices, nuclear energy and fluid and solid mechanics. Engineering science graduates are involved in design, development, research, management, and related activities in these fields. The breadth and diversity of the profession requires an undergraduate curriculum that provides a sound foundation in the basic sciences, computational skills, and the fundamentals of engineering and engineering design. This curriculum provides a base for future professional growth and is also an excellent background for those who wish to pursue careers in other professions including management, law, or medicine. The Engineering Science program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org. For more information on the program, contact undrmems@engr.pitt.edu or see http://www.engineering.pitt.edu/Departments/MEMS/.

The following areas of concentration are available for Engineering Science students:

The Engineering Science Program is designed for students who have a strong interest in science and mathematics as well as a desire to acquire the skills and perspective of engineering. The Engineering Science Program offers flexible curricula in several interdisciplinary areas of concentration. The program is built on sequences of courses from multiple science and engineering programs. All areas of concentration combine in-depth exposure to both science and engineering. All areas of concentration include a two-term capstone design experience. The overall goal of the program is to develop each student's ability to think analytically across disciplines and develop a knowledge base well suited to tackle future technical challenges that will require a thorough understanding of a discipline in the physical sciences and/or mathematics combined with engineering. Interested students are encouraged to pursue the Engineering Science degree jointly with the University Honors College (UHC) by completing the requirements for Engineering Science and satisfying the special degree requirements of the UHC. The Engineering Science program is ideal preparation for graduate school in a wide range of disciplines, for rewarding careers in industry, and is an excellent background for those who wish to pursue careers in other professions, such as management, law, education, or medicine.

NOTE: The Engineering Physics curriculum (which had been available as a separate Engineering Physics Program until 2010) is now an area of concentration within Engineering Science.

The program objectives for Engineering Science are to produce engineers who build successful, diverse careers based on:

- an understanding of the physical/life sciences, engineering analysis and design, and interdisciplinary problem solving;
- a commitment to ongoing professional development as exemplified by, for example, graduate study, training, conference participation, and certification;
- advancement and leadership in professional and/or community life.

For more information on the program, contact undrmems@pitt.edu or see http://www.engineering.pitt.edu/Departments/MEMS/_Content/Undergraduate/Engineering-Science/Engineering-Science-Page-Overview.

Engineering Science Undergraduate Curriculum

The Engineering Science Program currently offers the following areas of concentration:

- Engineering Physics Concentration
The following areas of concentration are available for Materials Science and Engineering students:

Ferrous Physical Metallurgy Concentration

Materials Science and Engineering Undergraduate Curriculum

The undergraduate program is designed to give the student a basic understanding of the structure and properties of materials, the principles underlying the processing of materials, and the concepts of engineering design and problem solving. Both theory and practice are emphasized. Laboratory experiences are integrated into the curriculum, and a variety of professional and engineering science electives are available. When desirable, specialized programs can be arranged for the students with well-defined interests and goals. Students are prepared to accept positions in production, research, and management, in both the basic materials and advanced or high-tech materials industries. This versatile education is a strong preparation for graduate work in metallurgy and materials and other related fields.

The major objectives of the materials science and engineering program are to

- Demonstrate successful application of materials science and engineering knowledge and skills for industry, public sector organizations, or their profession.
- Pursue life-long learning through advanced professional degrees, graduate studies in materials science or another engineering discipline, professional training or engineering certification.
- Demonstrate professional and intellectual growth as leaders in their profession and/or community.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0145 - STATICS & MECHC OF MATERIALS 2
- MEMS 0031 - ELECTRICAL CIRCUITS
- MEMS 0040 - MATERIALS AND MANUFACTURING
- MEMS 0051 - INTRODUCTION TO THERMODYNAMICS
- Communication Skills Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR
Credits: 18

Fifth Term

- MEMS 1010 - EXPERIMENTAL METHODS IN MATERIALS SCIENCE AND ENGINEERING
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1053 - STRUCTURE OF CRYSTALS AND DIFFRACTION
- MEMS 1058 - ELECTROMAGNETIC PROPERTIES OF MATERIALS
- MEMS 1059 - PHASE EQUILIBRIA IN MULTI-COMPONENT MATERIALS
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Sixth Term

- MEMS 1011 - STRUCTURE AND PROPERTIES LAB
- MEMS 1028 - MECHANICAL DESIGN I
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION
- MEMS 1070 - MECHANICAL BEHAVIOR OF MATERIALS
- MSE Technical Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 14

Seventh Term

- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1
- MEMS 1030 - MATERIAL SELECTION
- MEMS 1079 - SENIOR MATERIALS RESEARCH PROJECT
- MSE Technical Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Eighth Term

- MEMS 1043 - SENIOR DESIGN PROJECT
- MSE Technical Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Mechanical Engineering
The following areas of concentration are available for Mechanical Engineering students:

Ferrous Physical Metallurgy Concentration

Mechanical Engineering Undergraduate Curriculum

In the first two years, the mechanical engineering curriculum concentrates on the fundamentals of sciences, mathematics, and engineering. The last two years provide increased depth in the engineering sciences, including fluid mechanics, heat transfer, and systems analysis and also provide exposure to engineering applications, such as mechanical measurements, manufacturing, mechanical design, and thermal systems. Sufficient technical electives are allowed to permit each student to explore areas of special interest.

Course work in the social sciences and humanities is included for the enhancement of the student's awareness of the importance of social, political, and economic problems in the practice of engineering. Where appropriate, the upper-level courses introduce consideration of human values, social benefits, and constraints to prepare future practicing engineers to be responsive to such concerns.

The major objectives of the program are to:

- Demonstrate successful application of mechanical engineering knowledge and skills for industry, public sector organizations or their profession.
- Pursue life-long learning through advanced professional degrees, graduate studies in engineering, professional training or engineering certification.
- Demonstrate professional and intellectual growth as leaders in their profession and/or community.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0145 - STATICS & MECHC OF MATERIALS 2
- MEMS 0031 - ELECTRICAL CIRCUITS
- MEMS 0040 - MATERIALS AND MANUFACTURING
- MEMS 0051 - INTRODUCTION TO THERMODYNAMICS
- Communication Skills Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 18

Fifth Term
MEMS 0071 - INTRODUCTION TO FLUID MECHANICS
MEMS 1014 - DYNAMIC SYSTEMS
MEMS 1028 - MECHANICAL DESIGN I
Engineering Elective - 3 Credits
Humanity/Social Science Elective - 3 Credits
MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Sixth Term

- MEMS 1015 - RIGID-BODY DYNAMICS
- MEMS 1029 - MECHANICAL DESIGN II
- MEMS 1041 - MECHANICAL MEASUREMENTS 1
- MEMS 1051 - APPLIED THERMODYNAMICS
- Humanity/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

- MEMS 1042 - MECHANICAL MEASUREMENTS 2
- MEMS 1052 - HEAT AND MASS TRANSFER
- ME Technical Elective - 3 Credits
- Dynamic Systems Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- MEMS 1043 - SENIOR DESIGN PROJECT
- MEMS 1071 - APPLIED FLUID MECHANICS
- ME Technical Elective - 3 Credits
- ME Technical Elective - 3 Credits
- Humanity/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Materials Science and Engineering Minor

Requirements

Undergraduate engineering students may earn a Minor in Materials Science Engineering by completing five courses.

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
Mechanical Engineering Minor

Undergraduate engineering students can earn a Minor in Mechanical Engineering by completing two required courses and three elective courses in one of four focused option areas.

Required Courses

- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1028 - MECHANICAL DESIGN I

Focus Options/Elective Courses

Thermal-Fluids Option

- MEMS 0051 - INTRODUCTION TO THERMODYNAMICS
- MEMS 0071 - INTRODUCTION TO FLUID MECHANICS
  and either
- MEMS 1051 - APPLIED THERMODYNAMICS or
- MEMS 1071 - APPLIED FLUID MECHANICS

Dynamic Systems Option

- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1015 - RIGID-BODY DYNAMICS
- MEMS 1045 - AUTOMATIC CONTROLS

Mechanical Design Option

- MEMS 1029 - MECHANICAL DESIGN II
- MEMS 1033 - FRACTURE MECHANICS FOR PRODUCT DESIGN AND MANUFACTURING
- MEMS 1047 - FINITE ELEMENT ANALYSIS

Mechanical Measurements Options

- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1041 - MECHANICAL MEASUREMENTS 1
- MEMS 1042 - MECHANICAL MEASUREMENTS 2

Additional Information

Depending upon concentration, Bioengineering students have several different possibilities to earn a Mechanical Engineering minor.
- **Bioimaging & Signals concentration** students: none of the courses in any option can be used as a concentration elective. Two courses can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement. Two, and possibly three, courses are extra and on your own.

- **Biomechanics concentration** students: MEMS 0024 and MEMS 1028 are concentration electives.

- **Thermal-Fluids Option**
  BIOENG 1210 is a required course for BioE majors. MEMS 1071 is a concentration elective. MEMS 1071 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **Dynamics Systems Option**
  BIOENG 1255 is a required course for BioE majors. MEMS 1015 is a concentration elective. MEMS 1045 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **Mechanical Design Option**
  BIOENG 1161 is a required course for BioE majors. MEMS 1033 and MEMS 1047 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **Mechanical Measurements Option**
  BIOENG 1255 is a required course for majors. MEMS 1041 and MEMS 1042 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **CE concentration** students: all options can use two of the courses to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement. At least one other course is extra and on your own.

- **MPE concentration** students: MEMS 0024 and MEMS 1028 are concentration electives.

- **Thermal-Fluids Option**
  BIOENG 1210 is a required course for BioE majors. MEMS 1071 is a concentration elective. MEMS 0071 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science requirement.

- **Dynamics Systems Option**
  BIOENG 1255 is a required course for BioE majors. MEMS 1015 and MEMS 1045 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **Mechanical Design Option**
  BIOENG 1161 is a required course for BioE majors. MEMS 1033 and MEMS 1047 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- **Mechanical Measurements Option**
  BIOENG 1255 is a required course for majors. MEMS 1041 and MEMS 1042 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

---

**Engineering Simulation in Design Certificate**

Computational simulation has become an indispensable engineering tool across a broad spectrum of industries and fields of study. Simulation-based approaches provide engineers with the opportunity to extend the boundaries of traditional engineering design processes. However, understanding the role of simulation within the context of an engineering system or process is essential to the successful application of these tools.

The certificate program in Engineering Simulation in Design fosters a simulation-based problem solving approach and encourages students to identify opportunities to enhance engineering analysis and design through simulation. The program adopts a mindset that is a synthesis of computational and traditional approaches. Students will leverage practical simulation skills to explore and study interdisciplinary concepts.

The certificate is designed for undergraduate students and requires 15 credits to complete made up of the following areas:

**Core Skills (6 credits)**

Students will choose at least two:

- MEMS 1028 - MECHANICAL DESIGN I
Simulation Skills (3 credits)

Students are required to take:

- MEMS 1120 - APPLIED ENGINEERING SIMULATION IN DESIGN

Integrated Skills (3 credits)

Students will choose at least one:

- MEMS 1065 - THERMAL SYSTEMS DESIGN
- MEMS 1043 - SENIOR DESIGN PROJECT
- ENGR 1050 - PRODUCT REALIZATION

Each of the above courses is project based and offers the potential for student exposure to analysis and design of an integrated system. Students enrolled in the Engineering Simulation in Design certificate program must include a simulation component to their adopted project. The program coordinator will evaluate and approve projects.

Practical Skills (3 credit total)

Certificate candidates must enroll in the simulation workshop for three terms. The 1-credit workshop will be offered every term and will meet once per week. The workshop will provide a support forum for students engaged in simulation problems across the certificate program courses.

- MEMS 1121 - APPLIED ENGINEERING SIMULATION IN DESIGN

Additional Information

For additional information about the certificate, please contact the following:

David Schmidt
412-624-9755
509 Benedum Hall
david.schmidt@pitt.edu

Nuclear Engineering Certificate

The undergraduate Certificate in Nuclear Engineering is a five-course sequence consisting of three nuclear engineering courses and two discipline specific courses related to nuclear engineering from the various engineering departments. Any undergraduate engineering students in the Swanson School of Engineering and can earn the certificate in conjunction with an undergraduate engineering degree. Qualified students in the Dietrich School of Arts and Science students can pursue the certificate with approval.

After earning the certificate, students should be able to do the following: apply the concepts of nuclear and reactor physics, reactor kinetics, radiation protection, fuel depletion, and heat transfer to engineering problems; apply engineering skills, knowledge, and expertise to nuclear energy problems; for light water reactors, support engineering projects for the design of the reactor core and the reactor coolant system; assess important social and
technical issues related to nuclear science and technology; describe and explain the nuclear fuel cycle from mining to disposal including reprocessing and waste management.

Interested students should visit http://www.engineering.pitt.edu/nuclear/ or call 412-624-9720 for more information.

Requirements

Fifteen (15) credits are required to complete the certificate. A minimum 2.5 GPA is required for students to participate in the certificate. Students must obtain a GPA of at least 2.5 for the courses taken. All undergraduate certificate students are required to complete three (3) courses from the list below as well as two (2) department specific courses:

- ENGR 1700 - INTRODUCTION TO NUCLEAR ENGINEERING
- ENGR 1701 - FUNDAMENTALS OF NUCLEAR REACTORS
- ENGR 1702 - NUCLEAR PLANT TECHNOLOGY

Plus two (2) Degree Specific Courses

Students should select two (2) courses from the list below that is appropriate to their degree of study.

Bioengineering

- IE 1061 - HUMAN FACTORS ENGINEERING
- BIOENG 1810 - BIOMATERIALS AND BIOCOMPATIBILITY

Chemical Engineering

- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0400 - REACTIVE PROCESS ENGINEERING
- CHE 0500 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING

Civil Engineering

- CEE 1340 - CONCRETE STRUCTURES 1
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT
- CEE 2340 - CONCRETE STRUCTURES 2
- CEE 2343 - PRESTRESSED CONCRETE

Electrical and Computer Engineering

- ECE 1150 - INTRO TO COMPUTER NETWORKS
- ECE 1160 - INTRODUCTION TO EMBEDDED SYSTEM DESIGN
- ECE 1673 - LINEAR CONTROL SYSTEMS
- ECE 1769 - POWER SYSTEM ANALYSIS 1

Engineering Science

Engineering Science majors can choose the Nuclear Energy Concentration.
Industrial Engineering

- ENGR 1500 - ETHICAL DILEMMAS BALANCING COST, RISK, AND SCHEDULING
- IE 1062 - DATA MINING
- IE 1076 - TOTAL QUALITY MANAGEMENT
- IE 1086 - DECISION MODELS
- IE 1089 - ADDITIVE MANUFACTURING

Mechanical Engineering and Materials Science

- MEMS 1030 - MATERIAL SELECTION
- MEMS 1033 - FRACTURE MECHANICS FOR PRODUCT DESIGN AND MANUFACTURING
- MEMS 1045 - AUTOMATIC CONTROLS
- MEMS 1047 -FINITE ELEMENT ANALYSIS
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION
- MEMS 1065 - THERMAL SYSTEMS DESIGN
- MEMS 1070 - MECHANICAL BEHAVIOR OF MATERIALS
- MEMS 1071 - APPLIED FLUID MECHANICS

Non-engineering Math and Science Majors

Non-engineering math and science majors (e.g., Math, Chemistry, Physics) must complete the three (3) core Nuclear Engineering courses, provide the Director of the Nuclear Engineering a proposal for two additional courses in the student's major and obtain the Director's signed approval. The ∼1-page proposal must include the following:

- two (2) courses from the student's major
- the catalog description of the two (2) courses
- a short statement on how these two (2) courses complement the three (3) core nuclear courses and/or apply to nuclear engineering.

This proposal will be signed by the Director and kept on record by the MEMS Department.

**NOTE:** Of the six humanities/social science electives that students must take to graduate from the Swanson School of Engineering, only two may be satisfied by AP and/or IB credit.

**NOTE:** The Swanson School of Engineering only accepts the HL IB scores noted above. No SL scores will be accepted.
Foundational courses in the First-Year Engineering program are taken in sequence. AP/IB credit may be used for foundational courses (e.g. Math). If a student chooses to repeat a course at Pitt for which he/she has AP/IB credit, then AP/IB credit for subsequent courses in the same sequence is forfeited. Please note that this applies to equivalent courses (e.g. CHEM 0110 and 0120/CHEM 0960 and 0970 are equivalent courses. If a student with AP Chemistry credit chooses to take CHEM 0960 at Pitt, he/she may not then use AP credit for CHEM 0120.) Additionally, if a student with AP credit repeats a class at the University and earns less than the minimum required grade to move forward in the course sequence, he/she may not retroactively use AP credit to earn credit for that course.

### AP Score Information

The following is an advanced placement credit guide. Please keep in mind that AP credits accepted are subject to change and that this is intended as a guide. AP credit cannot be reviewed and issued until the student is enrolled as a University of Pittsburgh student.

**NOTE:** The 3 credits awarded for ENGCMP 0200 do not count toward any Engineering degree.

**NOTE:** The 4 or 8 credits awarded for BIOSC courses may only count toward a degree in some Engineering majors.

**NOTE:** Of the 6 humanities/social science electives students must take to graduate from the Swanson School of Engineering, only two may be satisfied by AP and/or IB credit.

The following AP exams are counted for credit for degrees in Arts and Sciences, but are **NOT** awarded credit in the Swanson School of Engineering:

Additionally, if a student with AP credit repeats a class at the University and earns less than the minimum required grade to move forward in the course sequence, he/she may not retroactively use AP credit to earn credit for that course.

School of Engineering Faculty

ESTA ABELEV, Associate Professor, Mechanical Engineering and Materials Science, PhD, Tech-Israel Institute of Technology

STEVEN D. ABRAMOWITCH, Associate Professor and William Kepler Whiteford Faculty Fellow, Bioengineering, PhD, University of Pittsburgh

MURAT AKCAKAYA, Assistant Professor, Electrical and Computer Engineering, PhD, Washington University

MOHAMMAD M. ATAAI, Professor, Chemical and Petroleum Engineering, PhD, Cornell University

HESSAMEDDIN BABAEE, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Louisiana State University

ANNA C. BALAZS, Distinguished Professor and Robert von der Luft Professor, Chemical and Petroleum Engineering, PhD, Massachusetts Institute of Technology

IPSITA BANERJEE, Associate Professor, Chemical and Petroleum Engineering, PhD, Rutgers University

AARON P. BATISTA, Associate Professor, Bioengineering, PhD, California Institute of Technology

CARLA APARECIDA BAUMEL, Assistant Professor, Civil and Environmental Engineering, PhD, Northwestern University

TARYN BAYLES, Professor, Chemical and Petroleum Engineering, PhD, University of Pittsburgh

ERIC J. BECKMAN, George M. and Eva M. Bevier Chair Professor, Chemical and Petroleum Engineering, PhD, University of Massachusetts

MOSTAFA BEDEWY, Assistant Professor, Industrial Engineering, PhD, University of Michigan

KURT E. BESHORNER, Assistant Professor, Bioengineering, PhD, University of Pittsburgh

MARY BESTERFIELD-SACRE, Nickolas A. DeCecco Professor, Industrial Engineering, PhD, University of Pittsburgh

KYLE BIBBY, Assistant Professor, Civil and Environmental Engineering, PhD, Yale University

BOPAYA BIDANDA, Chair and Ernest E. Roth Professor, Industrial Engineering, PhD, Pennsylvania State University

HODA BIDKHORI, Assistant Professor, Industrial Engineering, PhD, Massachusetts Institute of Technology

MELISSA M. BILEC, Associate Professor and Roberta Luxbacher Faculty Fellow, Civil and Environmental Engineering, PhD, University of Pittsburgh

HARVEY S. BOROVETZ, Professor, Bioengineering, PhD, Carnegie Mellon University

IONNIS BOURMPAKIS, Assistant Professor, Chemical and Petroleum Engineering, PhD, University of Crete
BRYAN N. BROWN, Assistant Professor, Bioengineering, PhD, University of Pittsburgh

DANIEL D. BUDNY, Associate Professor, Civil and Environmental Engineering; Director, Freshman Engineering Program, PhD, Michigan State University

ANDREW P. BUNGER, Assistant Professor, Civil and Environmental Engineering, Chemical and Petroleum Engineering, PhD, University of Minnesota

KAREN BURSIC, Associate Professor and Undergraduate Program Director, Industrial Engineering, PhD, University of Pittsburgh

LEONARD W. CASSON, Associate Professor, Civil and Environmental Engineering, PhD, University of Texas at Austin

RAKIE CHAM, Associate Professor, Bioengineering, PhD, University of Pittsburgh

APRIL CHAMBERS, Assistant Professor, Bioengineering, PhD, University of Pittsburgh

CHEN JUN, Assistant Professor, Electrical and Computer Engineering, PhD, Chinese Academy of Sciences

KEVIN P. CHEN, Paul E. Lego Professor, Electrical and Computer Engineering, PhD, University of Toronto

YIRAN CHEN, Associate Professor and Bicentennial Alumni Faculty Fellow, Electrical and Computer Engineering, PhD, Purdue University

MARKUS CHMIELUS, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Technical University, Berlin, Germany

SUNG KWON CHO, Associate Professor, Mechanical Engineering and Materials Science, PhD, Seoul National University, Korea

YOUNGJAE CHUN, Assistant Professor, Industrial Engineering, PhD, University of California, Los Angeles

MINKING CHYU, Associate Dean for International Initiatives; Leighton E. and Mary N. Orr Chair Professor, Mechanical Engineering and Materials Science, PhD, University of Minnesota

RENEE CLARK, Assistant Professor, Industrial Engineering, PhD, University of Pittsburgh

WILLIAM W. CLARK, Professor, Mechanical Engineering and Materials Science, PhD, Virginia Polytechnic Institute and State University

DANIEL G. COLE, Associate Professor, Mechanical Engineering and Materials Science, PhD, Virginia Polytechnic Institute and State University

XINYAN CUI, William Keppler Whiteford Professor, Bioengineering, PhD, University of Michigan

MONI KANCHAN DATTA, Assistant Professor, Bioengineering, PhD, Carnegie Mellon University

LANCE A. DAVIDSON, Associate Professor and Fulton C. Noss Faculty Fellow, Bioengineering, PhD, University of California at Berkeley

RICHARD E. DEBSKI, Associate Professor and William Kepler Whiteford Faculty Fellow, Bioengineering, PhD, University of Pittsburgh

SAMUEL J. DICKERSON, Assistant Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

AMRO EL-JAROUDI, Associate Professor, Electrical and Computer Engineering, PhD, Northeastern University

MAHMOUD EL NOKALI, Associate Professor, Electrical and Computer Engineering, PhD, McGill University

ROBERT M. ENICK, Bayer Professor and Vice Chair for Research, Chemical and Petroleum Engineering, PhD, University of Pittsburgh

WILLIAM FEDERSPIEL, William Keppler Whiteford Professor, Graduate Coordinator, Bioengineering, PhD, University of Rochester

SUSAN FULLERTON, Assistant Professor, Chemical and Petroleum Engineering, PhD, The Pennsylvania State University

GIOVANNI P. GALDI, Leighton E. and Mary N. Orr Professor, Mechanical Engineering and Materials Science, PhD, University of Naples, Italy

NEERAJ J. GANDHI, Associate Professor, Bioengineering, PhD, University of California, San Francisco

JIN GAO, Assistant Professor, Bioengineering, PhD, Chinese Academy of Sciences
CALIXTO I. GARCIA, Professor, Mechanical Engineering and Materials Science, PhD, University of Pittsburgh

MARK J. GARTNER, Professor of Practice, Bioengineering, PhD, Carnegie Mellon University

ALAN D. GEORGE, Ruth E. and Howard T. Mickle Professor and Chair of Electrical and Computer Engineering, PhD, Florida State University

LEEANNE GILBERTSON, Assistant Professor, Civil and Environmental Engineering, PhD, Yale University

PEYMAN GIVI, Distinguished Professor and James T. MacLeod Professor, Mechanical Engineering and Materials Science, PhD, Carnegie Mellon University

BRIAN M. GLEESON, Chair and Harry S. Tack Professor, Mechanical Engineering and Materials Science PhD, University of Los Angeles

BRANDON GRAINGER, Assistant Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

KILICHAN GURLEYIK, Assistant Professor, Bioengineering, DSc, Washington University in St. Louis

JOEL M. HAIGHT, Associate Professor, Industrial Engineering, PhD, Auburn University

KENT A. HARRIES, Associate Professor and Bicentennial Board of Visitors Faculty Fellow, Civil and Environmental Engineering, PhD, McGill University

ALAN HIRSCHMAN, Professor, Bioengineering, PhD, Carnegie Mellon University

MINGJIAN HUA, Assistant Professor, Mechanical and Petroleum Engineering, PhD, University of Pittsburgh

GERALD D. HOLDER, U.S. Steel Dean, Swanson School of Engineering; Professor, Chemical and Petroleum Engineering, PhD, University of Michigan

TIN-KAN HUNG, Associate Professor, Bioengineering, PhD, University of Iowa

ANTHONY T. IANNACCHIONE, Associate Professor, Civil and Environmental Engineering, PhD, University of Pittsburgh

TAMER S. IBRAHIM, Associate Professor, Bioengineering, PhD, The Ohio State University

STEVEN P. JACOBS, Assistant Professor, Electrical and Computer Engineering, DSc, Washington University

TEVIS D. B. JACOBS, Assistant Professor, Mechanical Engineering and Materials Science, PhD, University of Pennsylvania

DANIEL R. JIANG, Assistant Professor, Industrial Engineering, PhD, Princeton University

J. KARL JOHNSON, William Kepler Whiteford Professor, Chemical and Petroleum Engineering, PhD, Cornell University

ALEX K. JONES, Associate Professor and COE Undergraduate Program Director, Electrical and Computer Engineering, PhD, Northwestern University

IRVIN R. JONES, JR, Assistant Professor and EE Undergraduate Program Director, Electrical and Computer Engineering, PhD, University of Colorado at Boulder

JOHN A. KEITH, Assistant Professor and R.K. Mellon Faculty Fellow, Chemical and Petroleum Engineering, PhD, California Institute of Technology

ROBERT JOHN KERESTES, Assistant Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

VIKAS KHANNA, Assistant Professor, Civil and Environmental Engineering, PhD, The Ohio State University

JEFFREY P. Kharoufeh, Professor, Industrial Engineering, PhD, The Pennsylvania State University

LEV KHAZANOVICH, Anthony E. Gill Chair Professor and Civil and Environmental Engineering, PhD, University of Illinois

HONG KOO KIM, Bell of PA/Bell Atlantic Professor, Electrical and Computer Engineering, PhD, Carnegie Mellon University
TAKASHI DANIEL YOSHIDA KOZAI, Assistant Professor, Bioengineering, PhD, University of Michigan

PRASHANT N. KUMTA, Edward R. Weidlein Chair Professor, Bioengineering, PhD, University of Arizona

ALEXIS KWASINSKI, Associate Professor and R.K. Mellon Faculty Fellow, Electrical and Computer Engineering, PhD, University of Illinois at Urbana-Champaign

KEEWON, LEE, Assistant Professor, Bioengineering, PhD, Mayo Clinic College of Medicine

JUNG-KUN LEE, Associate Professor and William Kepler Whiteford Faculty Fellow, Mechanical Engineering and Materials Science, PhD, Seoul National University, Korea

SANGYEOP LEE, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Massachusetts Institute of Technology

PAUL LEU, Associate Professor and B.P. America Faculty Fellow, Industrial Engineering, PhD, Stanford University

CHING CHUNG LI, Professor, Electrical and Computer Engineering, PhD, Northwestern University

GUANGYONG LI, Associate Professor, Electrical and Computer Engineering, PhD, Michigan State University

HAI (HELEN) LI, Associate Professor and Fulton C. Noss Faculty Fellow, Electrical and Computer Engineering, PhD, Purdue University

LEI LI, Assistant Professor, Chemical and Petroleum Engineering, PhD, University of Michigan

XU LIANG, William Keppler Whiteford Professor, Civil and Environmental Engineering, PhD, University of Washington

JEEN-SHANG LIN, Associate Professor, Civil and Environmental Engineering, ScD, Massachusetts Institute of Technology

STEVEN LITTLE, Chair and William Kepler Whiteford Professor, Chemical and Petroleum Engineering, PhD, Massachusetts Institute of Technology

PATRICK J. LOUGHLIN, Professor, Bioengineering, PhD, University of Washington

NIATIKUN LOUIS LUANGKESORN, Assistant Professor, Industrial Engineering, PhD, Northwestern University

SPANDAN MAITI, Assistant Professor, Bioengineering, PhD, University of Illinois, Champaign

LISA M. MAILLART, Associate Professor, Industrial Engineering, PhD, University of Michigan

SCOTT X. MAO, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, Tohoku University

ZHI-HONG MAO, Associate Professor and William Kepler Whiteford Faculty Fellow, Electrical and Computer Engineering, PhD, Massachusetts Institute of Technology

MARK MAGALOTTI, Professor of Practice, Civil and Environmental Engineering, PhD, University of Pittsburgh

JOSEPH J. McCARTHY, William Kepler Whiteford Professor and Vice Chair for Education, Chemical and Petroleum Engineering, PhD, Northwestern University

JAMES R. McKONE, Assistant Professor, Chemical and Petroleum Engineering, PhD, California Institute of Technology

RAVI S. MEENAKSHISUNDARAM, William Kepler Whiteford Professor, Industrial Engineering, PhD, Purdue University

GERALD H. MEIER, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, Ohio State University

IRENE MENA, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Purdue University

NATASA MISKOV-ZIVANOV, Assistant Professor, Electrical and Computer Engineering, PhD, Carnegie Mellon University

KARTIK MOHANRAM, Associate Professor, Electrical and Computer Engineering, PhD, University of Texas at Austin

BADIE I. MORSI, Professor, Chemical and Petroleum Engineering, PhD, ScD, Institut National Polytechnique de Lorraine-Ecole Nationale Superieure des Industries Chimiques
SITIYCHAN NATESAKHAWAT, Assistant Professor, Chemical and Petroleum Engineering, PhD, The Ohio State University
IAN NETTLESHEII, Associate Professor, Mechanical Engineering and Materials Science, PhD, University of Leeds
BRYAN A. NORMAN, Associate Professor, Industrial Engineering, PhD, University of Michigan
ROBERT S. PARKER, B.P. America Professor, Chemical and Petroleum Engineering, PhD, University of Delaware
JOHN F. PATZER II, Assistant Professor and Undergraduate Coordinator, Bioengineering, PhD, Stanford University
PICCONE, THOMAS, Assistant Professor, Mechanical and Petroleum Engineering, PhD Massachusetts Institute of Technology
OLEG A. PROKOPYEV, Associate Professor, Industrial Engineering, PhD, University of Florida
JAYANT RAJGOPAL, Professor and Graduate Program Director, Industrial Engineering, PhD, University of Iowa
MARK S. REDFERN, Vice Provost for Research and William Kepler Whiteford Professor, Swanson School of Engineering; Professor, Bioengineering, PhD, University of Michigan
GREGORY F. REED, Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh
PIERVINCENZO RIZZO, Associate Professor, Civil and Environmental Engineering, PhD, University of California at San Diego
ANNE M. ROBERTSON, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, University of California at Berkeley
ABHIJIT ROY, Assistant Professor, Bioengineering, PhD, Indian Institute of Technology
PARTHA ROY, Associate Professor, Bioengineering, PhD, University of Texas, Southern Medical Center
WARREN RUDER, Assistant Professor, Bioengineering, PhD, Carnegie Mellon University
STEVEN G. SACHS, Assistant Professor, Civil and Environmental Engineering, PhD, University of Pittsburgh
JOSEPH T. SAMOSKY, Assistant Professor, Bioengineering, PhD, Massachusetts Institute of Technology
DAVID SANCHEZ, Assistant Professor, Civil and Environmental Engineering, PhD, University of Pittsburgh
WISSAM SAIDI, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Ohio State University
DAVID SCHMIDT, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Carnegie Mellon University
JOHN SEBASTIAN, Professor of Practice, Civil and Environmental Engineering, MBA, University of Pittsburgh
ERVIN SEJDIC, Assistant Professor, Electrical and Computer Engineering, PhD, Columbia University
NITIN SHARMA, Assistant Professor, Mechanical Engineering and Materials Science, PhD, University of Florida
JASON SHOEMAKER, Assistant Professor, Chemical and Petroleum Engineering, PhD, University of California, Santa Barbara
SANJEEV G. SHROFF, Chair, Distinguished Professor and Gerald E. McGinnis Chair, Bioengineering, PhD, University of Pennsylvania
LARRY J. SHUMAN, Senior Associate Dean, Swanson School of Engineering; Distinguished Professor, Industrial Engineering, PhD, The Johns Hopkins University
WILLIAM S. SLAUGHTER IV, Associate Professor and Undergraduate Director, Mechanical Engineering and Materials Science, PhD, Harvard University
PATRICK SMOLINSKI, Associate Professor, Mechanical Engineering and Materials Science, PhD, Northwestern University
WILLIAM E. STANCHINA, Professor, Electrical and Computer Engineering, PhD, University of Southern California
GEORGE DEWITT STETTEN, Professor, Bioengineering, PhD, University of North Carolina
SUSHENG TAN, Assistant Professor, Electrical and Computer Engineering, PhD, Chinese Scientific Academy

ALBERT C. F. TO, Associate Professor and CNG Faculty Fellow, Mechanical Engineering and Materials Science, PhD, University of California at Berkeley

MORTEZA A.M. TORKAMANI, Associate Professor, Civil and Environmental Engineering, PhD, University of California at Los Angeles

GELSY TORRES, Assistant Professor, Bioengineering, PhD, Georgia Institute of Technology and Emory University

LUIS E. VALLEJO, Professor, Civil and Environmental Engineering, PhD, University of Wisconsin

JONATHAN VANDE GEEST, Professor, Bioengineering, PhD, University of Pittsburgh

JULIE M. VANDENBOSSCHE, Associate Professor, Civil and Environmental Engineering, PhD, University of Minnesota

SACHIN S. VELANKAR, Associate Professor, Chemical and Petroleum Engineering, PhD, University of Delaware

OLEG VELIKOKHATNYL, Assistant Professor, Bioengineering, PhD, Institute of Strength Physics and Materials Science of Russian Academy of Sciences

GÖTZ VESER, Nickolas A. DeCcecco Professor, Chemical and Petroleum Engineering, PhD, Fritz-Haber-Institute of the Max-Planck-Society

NATASA VIDIC, Assistant Professor, Industrial Engineering, PhD, University of Pittsburgh

RADISAV D. VIDIC, Chair William Kepller Whiteford Professor, Civil and Environmental Engineering, PhD, University of Cincinnati

JEFFREY S. VIPPERMAN, Professor and Vice Chair, Mechanical Engineering and Materials Science, PhD, Duke University

DAVID VORP, Associate Dean for Research, and John A. Swanson Professor, Bioengineering, PhD, University of Pittsburgh

GUOFENG WANG, Associate Professor, Mechanical Engineering and Materials Science, PhD, California Institute of Technology

MIN HEE YUN, Associate Professor, Electrical and Computer Engineering, PhD, Arizona State University

XUDONG ZHANG, Associate Professor, Mechanical Engineering and Materials Science, PhD, University of Michigan
School of Health and Rehabilitation Sciences

Welcome to The School of Health and Rehabilitation Sciences (SHRS)

The School of Health and Rehabilitation Sciences (SHRS) offers educational programs leading to a baccalaureate degree in the following areas:

- Athletic Training
- Communication Science
- Emergency Medicine
- Health Information Management
- Nutrition and Dietetics
- Nutrition Science
- Rehabilitation Science

SHRS also offers a Coordinated BS-MS (accelerated) program in Nutrition and Dietetics.

SHRS participates in the University Honors College. Students with high GPAs, and whose studies demonstrate breadth and depth, may apply to complete a research thesis and earn a Bachelor of Philosophy (BPhil) degree in their area of major study.

Through the undergraduate program in Rehabilitation Science, SHRS offers three undergraduate certificate programs in the following areas:

- Assistive Technology in Rehabilitation
- Pathokinesiology in Rehabilitation
- Psycho-Social Issues in Rehabilitation and Personal Care

The School of Health and Rehabilitation Sciences is affiliated with the University of Pittsburgh Schools of the Health Sciences and shares a close affiliation with the world-class University of Pittsburgh Medical Center (UPMC). The medical center comprises a variety of hospitals and clinical facilities that affords students a wealth of opportunities for professional experience.

The SHRS faculty base their teaching upon research studies, clinical service, and participation in their respective professional associations. Faculty research and service typically occurs through multi-disciplinary collaboration in diverse health care and research environments. Consequently, both entry-level and advanced students are exposed to state-of-the-art curricula, which are continually reviewed from the perspective of new research findings, technological developments, changing public policy and accepted clinical and management practice.

Our students are educated and trained to question the basis of current practice, and to challenge prevailing models and assumptions. The entry-level curricula reflect the importance of effective team participation in an inter-disciplinary and rapidly changing environment. Emphasis is given to the student's development of analytical problem solving skills and human relations skills required for effective clinical and supervisory practice. The student is confronted with the transition between a professional commitment to providing high quality care and service, while recognizing the effects of competitive pressures and cost constraints upon the health care organization.

Philosophy of Undergraduate Education

The primary objective of our entry-level professional programs is to educate knowledgeable, skilled, and ethically responsible practitioners, committed to their respective professions and to the high standards of health care and rehabilitation services.

The primary objective of our pre-professional programs is to provide students with an excellent preparation for entry-level professional health care educational programs that are offered at the graduate level, either at the University of Pittsburgh or other universities.

Admission Information

Contact Information
Admissions Policy

Admission to most SHRS undergraduate programs is on a competitive basis as class sizes are limited. Students are strongly encouraged to complete as many prerequisites as possible prior to applying and to apply by the application deadlines published by the individual departments. Applications will be evaluated and qualified applicants will be admitted until classes are filled. Visit SHRS Programs and Course Offerings for individual department and program admission policies.

Admission Requirements

General admission requirements for the SHRS baccalaureate degree programs include a cumulative grade point average (GPA) of at least 2.500 based on 4.000 (a 3.0 is required for accelerated programs) and successful completion of a minimum of 60 college-level credits, which includes specific prerequisite courses. If letter grading is available, all prerequisite courses must be taken for a letter grade, and a minimum grade of C- is required. (A minimum grade of C is required for all credits transferred from other institutions). SHRS also recommends prior study in a second (foreign) language and prior completion of a college-level computer science course.

30 of the 60 credits required for admission must be from four basic content areas, with minimum credits in each of the four areas as listed in the table below. These 30 credits must consist of courses which are equivalent to those taken by students in the first two years of a four year liberal arts or science degree. Courses from two-year colleges are acceptable if they meet this standard.

<table>
<thead>
<tr>
<th>Content Area</th>
<th>Minimum Required Credits</th>
<th>Examples of courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Natural Sciences/Psychology (Introductory basic science or psychology courses)</td>
<td>6</td>
<td>Physics, Chemistry, Biology, Psychology, Neuroscience, etc.</td>
</tr>
<tr>
<td>Humanities/Social Sciences</td>
<td>6</td>
<td>Foreign language, English literature, Economics, History, Philosophy, etc.</td>
</tr>
<tr>
<td>Oral and Written Communication</td>
<td>6</td>
<td>Public Speaking, English Composition, Intensive Writing Course, etc.</td>
</tr>
<tr>
<td>Mathematics/Statistics / Computer Science</td>
<td>4</td>
<td>Algebra, Calculus, Introduction to Statistics, Computer Programming, etc.</td>
</tr>
</tbody>
</table>

Total from all four Content Areas must equal 30 credits

Students with questions about identifying specific courses that will satisfy the prerequisites for our undergraduate program should contact the SHRS Admissions Office at admissions@shrs.pitt.edu or 412-383-6558.

Application Procedures

Freshman application is made through the Office of Admissions and Financial Aid. SHRS is an upper-division school and does not admit students to its undergraduate programs at the freshman level. Therefore, students must first be admitted to another school at the University of Pittsburgh or to another institution. (See Pittsburgh campus Freshman Admissions section of this catalog for more information.)
Transfer students who have previously enrolled at a college or university other than the University of Pittsburgh, including former University of Pittsburgh students who have since earned college credits at another institution and now wish to return to the School of Health and Rehabilitation Sciences must complete a University of Pittsburgh transfer application, submit an application fee of $45 to the University of Pittsburgh's Office of Undergraduate Admissions and Financial Aid and complete the supplemental information required for SHRS. (See Transfer Student Admissions section of this catalog for more information.)

International applicants must complete the International Undergraduate Student application and the supplemental information required for SHRS. (See International Undergraduate Student Admissions section of this catalog for more information.)

University of Pittsburgh students applying to the Athletic Training, Communication Science, Coordinated BS-MS in Nutrition and Dietetics, Emergency Medicine, Health Information Management, Nutrition Science, and Rehabilitation Science programs must complete the SHRS Apply Yourself application. An application fee is not required of current Pitt students applying to the SHRS undergraduate programs. The Bachelor of Science in Nutrition and Dietetics (DPD) is no longer accepting students.

The following information is required as part of the application process:

1. Essay: See individual program admission pages on SHRS website, for specific essay requirements. This essay should be no longer than two pages.
2. The Athletic Training, Emergency Medicine, Health Information Management, Nutrition Science and Rehabilitation Science programs require one letter of recommendation: This letter should be from a college level instructor, employer, or a clinical supervisor. These individuals should be able to comment on a student's academic, professional, and interpersonal abilities. This recommendation can be submitted electronically through the online application by the applicant's reference or by mailing a hard copy letter to the SHRS admissions office accompanied by the appropriate recommendation form as provided in the downloadable forms and recommendation section of the application. A letter of recommendation is not required for the Communication Science program. Three letters of recommendation are required for the Coordinated BS-MS in Nutrition and Dietetics.
3. Transcripts: University of Pittsburgh students are not required to submit University of Pittsburgh transcripts. However, we do require transcripts from all other colleges and universities where credit was earned. If transcripts have already been provided to the University of Pittsburgh applicants may request copies from the Student Records Office of their current school. Transfer applicants must submit official high school transcripts as well as transcripts from all college and universities attended to the Office of Admission and Financial Aid. Credits shown on a transcript as transfer credits from another institution cannot substitute for the official transcript of the college or university at which the credits were earned.
4. While not required, a resume is highly encouraged.

University of Pittsburgh students applying from the University of Pittsburgh in Bradford, Greensburg, Johnstown and Titusville should follow the same guidelines as stated above for students at the University of Pittsburgh. A Relocation Form should only be submitted to the regional campuses if a student is admitted to a program at SHRS to facilitate the transfer of student records.

Advanced Standing on Admission

Students enter SHRS as juniors with 60 advanced standing credits. (Exception is the Emergency Medicine Senior Transfer option for paramedics and currently serving military applicants. These students are granted 90 advanced standing credits and admitted as seniors.)

Students are expected to take all core courses required by their program at SHRS; however, students with more than 60 credits of undergraduate coursework completed at a four year academic institution may be granted up to 30 additional credits pending approval of the Program Director. The Program Director must:

- review and approve these additional credits
- indicate additional classes/credits on the student's Plan of Study, and
- submit to the Director of Student Services, Registrar a request to accept additional credits
- all required academic work for a degree in SHRS, including courses for which advanced-standing credit has been granted, must be completed within ten (10) consecutive calendar years. Departments have the discretion to lessen this number for specific coursework deemed integral to the course of study in a particular discipline

See Allowable Credits section of this catalog for additional information about advanced standing.

Admission Status

Students are admitted to SHRS on one of the following statuses: full, conditional or non-degree.
• Full status is granted to those who have met all admission criteria and have been admitted either as full-time or part-time students for study toward the baccalaureate degree

• Conditional status is granted to those who are in the process of completing prerequisite courses. These students must complete all requirements successfully prior to matriculation. At the discretion of the Department Chair students may be admitted to an SHRS undergraduate program with a maximum of two courses of prerequisite work remaining to be taken in their designated program. Any outstanding prerequisite work taken while enrolled in an SHRS undergraduate program must be completed by the end of the fall term of the senior year.

• Non-degree status is granted to those who enroll at SHRS to take courses for credit without reference to a degree

Reinstatement

Reinstatement is not guaranteed. Students who have been dismissed from SHRS for academic reasons or who have not enrolled at SHRS for three consecutive terms may apply for reinstatement. To request reinstatement a student must initiate the request via a letter to the department chair. This letter must be submitted at least three months prior to the beginning of the term for which the student is requesting reinstatement. The faculty within the student's academic program will review the request for reinstatement. The review will be conducted with consideration given to the following criteria:

• A period of one year must have elapsed from the time the student is dismissed to the time in which he/she is reinstated
• Demonstration of academic success since leaving the program
• Demonstration of personal and/or professional development since leaving the program
• Space available within the program of study

Financial Information

Tuition and Fee Rates

Tuition and fee rates are available on the Financial Information page, in the University Catalog. And the tuition chart is online at Undergraduate Tuition & Mandatory Fees.

Fulltime students

Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students, and are assessed the current undergraduate "flat" tuition rate for their academic center.

Undergraduate students registered for fewer than 12 credits are considered part-time, and are billed on a per-credit basis.

Students will be charged per credit for each credit exceeding the maximum full-time credit limit.

Summer Term: All students are billed on a per-credit basis.

Residency/Reduced Tuition

Students who reside in the Commonwealth of Pennsylvania may be eligible for reduced tuition through state appropriations.

Eligibility is determined by criteria outlined in the University of Pittsburgh Guidelines for Determining Eligibility for Reduced Tuition Rates, available online at http://payments.pitt.edu/pa-tuition-rate-eligibility/

Additional Fees

Lab Fees: Lab courses may incur an additional fee to cover laboratory expenses. These fees will be charged to the student directly and will appear on the invoice generated by Student Accounts in addition to tuition and other fees each semester.

Liability Insurance: Students enrolled in a clinical education or practicum must carry liability insurance. Liability insurance is required for SHRS students and will automatically be included on the tuition bill.

Financial Obligation of Students
The University of Pittsburgh has the right to withhold services if a student defaults on any financial obligation until repayment arrangements have been made that are satisfactory to the office or department to which the debt is owed.

Scholarships, Grants and Financial Aid

If you are interested in applying for loans, scholarships, grants, or work study, you should call, write or visit the University of Pittsburgh, Office of Admissions and Financial Aid, Alumni Hall, Pittsburgh, PA 15260, 412-624-PITT, https://oafa.pitt.edu/ See also the SHRS website financial information page.

SHRS Scholarships and Awards

General information on scholarship and awards can be found at: SHRS Financial Information Page on our website. Contact individual departments for information on scholarships and awards specific to your area of study.

SHRS Academic Regulations

Academic Integrity Policy

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in SHRS Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.

Minimum Academic Standard

In addition to the University-wide regulations and standards detailed in the section on General Academic Regulations, each student in SHRS is expected to be familiar with these school-specific regulations and academic Standards:

- It is the student's responsibility to review her/his academic standing, to identify undergraduate program requirements and prerequisites for intended undergraduate program(s) and to monitor their completion.
- All required and prerequisite coursework must be taken for a grade, when letter grade option is available.
- Students must receive a C- or better in each required course and SHRS elective course to earn credit.
- For non-SHRS, non-required coursework, students must earn a grade of D or better (C required for transfer credits).
- All Pitt grades will still appear on the transcript and be calculated into the GPA unless the student repeats the course. However, credits from courses in which student has earned unacceptable grades will not be counted toward graduation.
- Students who receive a grade below a C- in a required course must repeat that course and attain a grade of C- or better.
- Students will not be permitted to register for a course until they attain a C- or better in its prerequisite.
- Failure to receive an acceptable grade after the second repeat of a required course may result in the student being dismissed from the program and SHRS.

Advising

Academic and faculty advisors for SHRS undergraduate students are assigned by the Program Directors. Students are notified of the name of their advisor by their Department.

Change of Advisor

If either the student or his or her assigned advisor prefers, the student can choose another advisor. The student must obtain a Change of Academic Advisor form, located on the SHRS website under forms, complete the form and secure the required signatures, and return the form to the Office of
Student Services. As a general rule, students who have more than 50% of the credits required for graduation should not initiate change of advisor procedures.

More information on Advisor roles and responsibilities can be found in the SHRS Undergraduate Handbook

Plan of Study

Every student in SHRS must have a Plan of Study, signed by academic/faculty advisor, on file with Student Services by the end of the first semester. Any revisions to the Plan of Study must be approved by the academic/faculty advisor or Department Chair and submitted to Student Services.

To be certified for graduation, students must have successfully completed all courses outlined in their final Plan of Study as well as any other requirements for the degree. A final Plan of Study must be on file in Student Services 4019 Forbes Tower.

Allowable Credits

Some SHRS programs may allow students to earn particular course credits by successful completion of the following:

Advanced Placement (AP) and International Baccalaureate (IB) Credits

See https://oafa.pitt.edu/apply/ap-ib-credit/ for credits and course equivalencies currently granted by the University of Pittsburgh for Advanced Placement and International Baccalaureate examinations.

College Level Examination Program (CLEP)

SHRS does NOT accept CLEP general examination credits.

Credit by Course Examination

The following regulations govern this procedure:

- The individual department shall determine specific courses open to examination
- A student may not earn credit by examination if s/he has previously taken the course
- Student may obtain the form, Credit by Course Examination, from the Office of Student Services (4019 Forbes Tower)
- Enrolled students must apply for examination during the term preceding the term in which the course is scheduled
- Newly admitted students may apply and take the examination early in the term in which the course is taught

The Credit by Course Examination form and a check or money order for the appropriate fee must be processed in the Cashier's Office, G-7 Thackeray Hall, for validation prior to taking the examination. Upon passing the examination, the department will submit the Credit by Course Examination form to Student Services. Students will receive advanced standing credit for the course, which may be applied towards graduation. If a student fails the exam, neither a failing grade nor credits will be posted on the transcript. An exemption examination may be taken only once per course. The faculty of each Department will determine the number of courses that can be exempted by students enrolled in that academic program.

Online Courses

The acceptance of online coursework is at the discretion of the department to which the student is applying. All online coursework must be taken at a regionally accredited institution.
Reserve Officer Training Corps (ROTC)

A total of four (4) ROTC credits earned by students will be accepted for purposes of admission and graduation. Grades for ROTC courses will be included in calculating the student's GPA.

Transfer Credit Policy

At the time of application coursework completed outside the University of Pittsburgh is evaluated by the SHRS Admissions Office to determine if it meets University and SHRS policy required for transfer.

- A maximum of 60 credits can be transferred into the University of Pittsburgh from a two-year degree program; and a maximum of 90 from a four-year college/university
- Courses must be passed with a grade of C or better and must be earned at an appropriately accredited institution
- Courses must have reasonable equivalents at the University of Pittsburgh to be eligible for transfer. When requested, students are responsible for supplying descriptions for courses taken elsewhere
- The number of credits granted for a given course cannot exceed the number awarded for the course on the transcript of the school where the course was taken or the number earned for the corresponding course at the University of Pittsburgh
- Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits)
- SHRS accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation, but will not be calculated into the student's GPA at the University of Pittsburgh
- Contact the SHRS Admissions Office at 412-383-6558 for information about transfer credit evaluation
- Please note: All transfer credits are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Transfer Students Credit Evaluation

Upon application, transfer students will receive a formal credit evaluation. Following admission, transfer students will receive formal notification from SHRS indicating which requirements have been satisfied and if any prerequisite coursework or credits are outstanding.

Current SHRS Students taking courses off campus for transfer credit

Current SHRS students in good academic standing (cumulative GPA of at least 2.00), including students admitted to SHRS who need to complete prerequisites prior to starting their program, may attend another accredited institution in order to complete their degree requirements, provided they receive prior approval from the SHRS Dean's office. Students will be required to fill out an approval form and provide appropriate course descriptions. Students will not receive credit for courses taken without advance approval. SHRS students may not enroll in courses outside the University of Pittsburgh in the semester they are graduating from SHRS.

Independent Study

The independent study allows the student to pursue independent academic work for credit. The independent study must be supervised by an SHRS approved faculty member. To register for an independent study, the student must:

- identify and develop an independent study project with independent study supervisor
- complete the Independent Study form (Found on the SHRS website)
- have Independent Study form approved and signed by the IS supervisor, academic/faculty advisor, and Assistant Dean of Undergraduate Studies
- copy Independent Study form as necessary
- submit an Independent Study form, Enrollment form, and have your advisor send Student Services an approval email to receive a permission number
- enroll online for the independent study course
Clinical Education and Directed Practice

Clinical learning experience is an integral and essential part of SHRS undergraduate entry level professional programs. All students in these programs are required to participate in clinical education. Participation is optional but recommended for students in pre-professional programs. The following is required for all SHRS undergraduate clinical education:

- all clinical education sites must have current contracts with the University of Pittsburgh
- each program's clinical education coordinator will assign students to their clinical education site
- student must use an Enrollment Form to register for appropriate clinical education and submit other forms as directed by clinical education coordinator and listed below
- student must provide proof of HIPAA certification with registration
- student must provide proof of Blood Borne Pathogen certification with registration
- students are required to carry personal health insurance
- student must provide proof of having undergone a physical exam and blood work as well as proof of vaccinations
- list of exam and vaccination requirements and required form will be provided by the clinical education coordinator

Some SHRS programs require that students complete clinical education at facilities internal or external to the University and may require completion of: 1) Pennsylvania Department of Human Services Child Abuse History Clearance; 2) Pennsylvania State Police Criminal Record Check; 3) FBI Criminal Record Check to determine whether the student is qualified to participate in clinical education. If these are deemed to be required and the student has not already done so, he/she should immediately start the process of obtaining these three clearances and background checks.

The Commonwealth of Pennsylvania has posted information on how to obtain these clearances and background checks here: http://www.dhs.state.pa.us/findaform/childabusehistoryclearanceforms/S001087.

Additional requirements may also include a drug screen, CPR training, attending orientation sessions, compliance with dress code, and personal transportation. Each program's clinical education coordinator will advise students of additional program or site-specific requirements and instructions on how to submit required documentation to verify completion of all requirements.

Students may be required to travel a distance or to relocate outside the city for their clinical education assignments. All expenses for transportation, housing, food, etc. are the responsibility of the student. Any student who misses clinical education time for any reason must meet with his/her clinical education coordinator to discuss any needed make-up time. See individual program for specific details regarding clinical education.

Health Insurance Portability and Accountability Act (HIPAA)

All SHRS students participating in clinical education or field experience must complete HIPAA certification training prior to beginning at the clinical/field site. No clinical contact in a "covered entity" will be allowed before certification is completed. (Student should see individual department information regarding additional HIPAA certification requirements.)

Procedure for completing HIPAA certification: Go to http://cme.hs.pitt.edu. Look for UPMC HIPAA Security Awareness Training for Physicians (formerly RPF Module 15) and HIPAA Physicians Privacy Awareness Training by UPMC (formerly RPF Module 8). Complete the UPMC HIPAA Security Awareness Training for Physicians and HIPAA Physicians Privacy Awareness Training by UPMC. Complete the quizzes. Print certificates, complete all information, sign them, and turn them in to your department.

Blood Borne Pathogen Training and Certification

All SHRS students who will be going into a clinical setting must complete Blood Borne Pathogen (BBP) training and certification annually. This certification must be completed prior to the beginning of the term in which the clinical setting will begin. No clinical placement will be allowed before certification is completed.

Procedure for completing online BBP training and certification: Go to http://cme.hs.pitt.edu. Look for Blood Borne Pathogen Training (formerly RPF Module 9). Complete Blood Borne Pathogens Training. Complete the quiz. Print certificate, complete all information, sign it, and turn it in to your department.

Dual Degree Option
Students may pursue dual degrees within SHRS or between SHRS and another school at the University. SHRS follows the University policy concerning dual degrees.

- the student must complete 150 credits accepted by the University
- the student must complete all requirements necessary to complete each degree
- the student must receive both degrees simultaneously
- the student must be admitted and enrolled in SHRS as his/her primary academic center for half the terms necessary to complete both degrees, typically this is 4-5 semesters
- students must contact SHRS Admissions Office, 4021 Forbes Tower, to be admitted prior to the midpoint of their studies

### Grading Policy

All SHRS undergraduate programs adhere to the University's grading system and grading policies for graduate students. Please refer to the Office of the University Registrar on Grades or the University Catalog on Grading and Records

#### Course Grading

The method of evaluation and grading is the prerogative of the course instructor and is based on the course objectives and expectations. SHRS faculty have the option of issuing “+” or “-” grades. SHRS faculty have the option of assigning letter grades or HSU evaluations, as printed in the course catalog and determined at student's enrollment. Students will be apprised of the evaluation procedure by the instructor at the beginning of each course. It is the student's responsibility to request clarification of any evaluation or grading policy.

#### SHRS (G) Grade Policy

The G grade signifies unfinished course work due to extenuating personal circumstances. Students assigned G grades are required to complete course requirements no later than one year after the term or session in which the course was taken.

Once the deadline has passed, the G grade will be changed automatically to a (NG) - No Grade. The NG grade will remain on the record and the student will be required to re-register for the course if it is needed to fulfill requirements for graduation.

**Action required by the student and faculty member for a "G" grade:**

- The student, instructor and advisor are to fill out a Completion Agreement of G Grade Credits Form (the form and the SHRS G grade Policy and instructions can be found on the SHRS website)
- A copy of this agreement will need to be submitted to Student Services, no later than the end of the add/drop period for the following term. If the following term is the summer term, then the add/drop deadline date is that of the whole summer term.

#### Satisfactory/No Credit (S/NC) grading option

Prerequisite and required courses must be taken for a letter grade when available, and a student must earn a C- or better (C for transfer credits). Students planning to apply to SHRS are strongly encouraged to consult their advisor whenever considering the S/NC grading option to make certain the course is not required for the degree being sought in SHRS.

#### Dean's List for SHRS

The SHRS Dean's List is compiled upon completion of each fall and spring term. The criteria used to determine eligibility for the Dean's List is as follows:

- full-time student status for the term
- minimum GPA of 3.500 for the term
- minimum cumulative GPA of 3.000 (total Pitt)
**Enrollment Status**

A student must be registered **for at least one credit in a twelve (12) month period** from the time of admission until the degree is granted **in order to maintain active status**. Those students who fail to observe this rule will be placed on inactive status and will have to seek formal readmission in order to continue in the program. If active status is not maintained, the student is not permitted to use University facilities or receive counseling or active supervision by a faculty member, advisor, or committee.

Undergraduate students cannot enroll for more than (18) units without the dean's approval. Only an advisor or the University Registrar's Office can enroll you after you receive approval for the additional unit(s).

Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students.

Students cannot enroll in courses that meet at the same time.

More Information on the enrollment process can be found in the SHRS Undergraduate Handbook.

**Enrollment in Graduate Courses**

University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need fewer than 15 credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate degree program. This privilege should not be granted if the proposed total program exceeds a normal full-time load. Although these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate transcript.

**Extended Drop Period**

Under special circumstances, undergraduate students may be eligible to drop a course in the third week of the fall or spring semester. Students must meet all of the following criteria to drop a course during the extended drop period:

- Must be an Undergraduate student and the course you are dropping must be an Undergraduate course.
- Students must remain in full-time status after dropping the course(s).
- Students must review the proposed drop with their academic advisor.

If the student's advisor finds that the student is eligible, the advisor must provide permission to drop via email to Chazz Williams at chw65@pitt.edu in SHRS Student Services. **Students do not have access to drop classes during the extended period.**

- The email request must include all student and course information. (Students name, PeopleSoft ID #, Subject, number, section, credits) process the drop(s).

**Monitored Withdrawal**

After the add/drop period has ended, students may withdraw from a course that they no longer wish to attend by completing a Monitored Withdrawal Request form in the office of the school offering the course. Students must process the Monitored Withdrawal Request form within the first nine weeks of the term in the fall and spring. Because summer sessions vary in length, students should check the University's Academic Calendar for those deadlines. Students should check with the school offering the course for the last day to submit a Monitored Withdrawal Request form. The grade W will appear on the student's grade report and transcript. There is no financial adjustment to students' tuition or fee obligations involved in withdrawing from courses, but withdrawing may jeopardize satisfactory academic progress, financial aid, and assistantships or fellowships. The form must be signed by the instructor of the course and be returned to the Director of Student Services, Registrar, 4024 Forbes Tower within the first nine weeks of the term in the fall and spring.
Late Withdrawal procedure

Procedure for an Appeal for Late Withdrawal

- After the Monitored Withdrawal deadline has passed, students may appeal to withdraw from a course by submitting an Appeal for Late Withdrawal. Form can be found on the SHRS website, under current students/forms.
- All appeals for late withdrawal must be for non-academic reasons, i.e. medical or family emergencies. If you are trying to withdraw without extenuating circumstances, your appeal will be denied.
  - Appeals must be submitted to the Dean's Office of the school offering the course, regardless of the student's home school.
  - Appeals for Late Withdrawal from SHRS courses should be submitted to 4024 Forbes Tower, to the Registrar, Kellie Beach
- The appeal requires information on the class, including class number, catalog/course number, subject, and course title. This information can be found in your Student Center/PeopleSoft.
- The signature of the instructor or an email from the instructor indicating the date of last attendance, grade earned, and acknowledgement of your withdrawal is required. You must print and attach copies of the emails.
- Attach a typed statement explaining the extenuating circumstances which you feel merit consideration of withdrawal beyond the deadline. Please provide relevant documentation, such as certification from a doctor, hospital receipts, an obituary, etc.
  - Please address the documentation and the letter to SHRS, Associate Dean for Undergraduate Studies, Dr. Kevin Conley
  - Please include your PeopleSoft ID and your University of Pittsburgh e-mail address on each submitted document.
  - Please sign and date each document.
- You will be notified of the Associate Dean's decision via your student email account.
- Appeals for late withdrawal must be submitted before the end of the 13th week of the semester. After the 13th week, students can only appeal to withdraw from the entire semester.
- If your request is approved and you accept the grade of "W" there is no tuition adjustment for withdrawing from the course.

Repetition of Courses

Consult your dean's office for the proper procedure of repeating a class and for information on how this will affect your grades and the calculation of your Grade Point Average (GPA). When you repeat a class, you must officially enroll and pay for the class again. University policy prohibits any student from attending a class without being officially enrolled for that class. A repeated course, has a notation appearing underneath the previous course taken designating that it is excluded from the GPA. The original course and grade will always remain on your record/transcript.

Students are only permitted to repeat a course twice.

NOTE: Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The grade earned by repeating a course is used instead of the grade originally earned. Withdrawal (W), Repeat (R), and Audit/Non-Credit (N) grades reported for the repeated course will not be identified as a course repeat, and therefore the original grade earned will continue to be counted in the GPA.
- Incomplete grades (G and I) are not identified as repeated courses until the coursework is completed.
- Students seeking to repeat other non-SHRS (prerequisites, electives, etc.) courses will be permitted to do so at the discretion of the program director.

Statute of Limitations on Allowable Coursework

All required academic work for a degree in SHRS, including courses for which advanced-standing credit has been granted, must be completed within ten (10) consecutive calendar years. Departments have the discretion to lessen this number for specific coursework deemed integral to the course of study in a particular discipline.
Resigning from the University for a Specific Term

If students decide to drop all of their courses after the add/drop period has ended and before 60 percent of the term or session has been completed, they must resign from the University for that term. Official resignation from the University requires students to contact the Student Appeals Office. Students have several options. They may resign in person, by mail, or by calling 412-624-7585, where students may leave a message 24 hours a day, including weekends and holidays. An R grade will appear on the student's academic transcript. Tuition is prorated from the date of the student's notification to the Student Appeals Office of the student's desire to resign, unless 60 percent of the term has been completed, in which case there is no refund.

After the 60 percent point of the term or session has passed, students who wish to terminate their registration may process a withdrawal from all classes only with the permission of their academic dean. If the reason for withdrawal is medical or psychological in nature, the academic dean may consult with the director of the Student Health Service prior to making a determination. There is no financial adjustment associated with this procedure, which results in the assignment of W grades for the courses.

Please visit the Student Payment center resignation page on the University of Pittsburgh website for more information.

Leave of Absence

Under special conditions, Undergraduate students may be granted one leave of absence. All requests for a leave of absence need to be put in writing to the Associate Dean of Undergraduate Studies, using the SHRS Request for Leave of Absence from an Undergraduate Program form. The length and rationale for the leave of absence must be approved by the Associate Dean. If approved, the time of the leave shall not count against the total time allowed for the degree (statute of Limitations) being sought by the student.

To request of leave of absence, you must complete the SHRS Request for Leave of Absence from an Undergraduate Program form, which can be found on the SHRS website under current students/forms. This form must be submitted to Student Services on the 4th floor of Forbes Tower for approval.

Note: If the reason for your leave is medical in nature, a formal note from a Doctor must be included with this form.

Academic Probation and Dismissal Policy

Students who have completed at least 12 credits and whose cumulative GPA falls below 2.000 will be placed on academic probation and will receive written notification of this status. At this point it is the student's responsibility to meet with his or her advisor.

To be removed from academic probation, the student will need to achieve a cumulative GPA of 2.000 within his or her next two terms of study. Failure to do so may subject the student to recommendation for immediate dismissal from the program by the Department Chair, in collaboration with the Associate Dean of Undergraduate Studies.

Students who fail to demonstrate progress toward meeting graduation requirements in a timely manner may be placed on academic probation or recommended for dismissal from the program by the Department Chair in collaboration with that Associate Dean of Undergraduate Studies. SHRS reserves the right to terminate a student at any time for academic or other reasons.

Dismissal from the program is at the discretion of the SHRS Dean. Notwithstanding the foregoing, in the event it is not mathematically possible for a student to remediate their cumulative program GPA within their next two terms of study the student may be immediately dismissed.

A student may appeal their dismissal with the University of Pittsburgh Provost office.

Graduation Requirements

Graduation Requirements for a Bachelor's Degree from the School of Health and Rehabilitation Sciences are as follows:

- satisfactory completion of a minimum of 120 approved credits (including advanced standing)
- minimum of 30 SHRS credits taken once admitted and enrolled in SHRS department or program
- minimum cumulative GPA 2.000
• the GPA will be calculated as a composite of all courses taken at the University of Pittsburgh and counting toward completion of the degree
• completion of all requirements for the program in which student has enrolled
• no outstanding D, F, or G grades in a required course
• updated and approved Plan of Study on file in Student Services, 4019 Forbes Tower
• student must be considered an "active student" at time of graduation; s/he must have been registered for at least one credit at the University of Pittsburgh within the last three terms or sessions
• students may not enroll in courses outside the University of Pittsburgh in the semester they are graduating
• An application for graduation must be filed in the SHRS Office of Student Services, based on the deadlines determined for that term. Email notification of these deadlines will be sent to students in the prior term. The graduation application is available on the SHRS website under forms.

A student with outstanding financial obligations to the University is not eligible to receive the diploma, official academic transcripts, or any certification of completion of the academic program.

Graduation with Honors

A baccalaureate degree student attaining an outstanding scholastic record will be graduated with University honors if a minimum of 60 letter-graded credits have been earned at the University of Pittsburgh. The GPA used for the awarding of honors at graduation will be calculated as a composite of courses taken at the University of Pittsburgh and counting toward completion of the degree. The following recognition of academic standing with honors applies:

- Cum Laude 3.250 - 3.490
- Magna Cum Laude 3.500 - 3.740
- Summa Cum Laude 3.750 - 4.000

SHRS Student Organizations

The School of Health and Rehabilitation Sciences has student organizations for undergraduate students. Visit http://www.shrs.pitt.edu/studentgroups/ for more information.

Ombudsperson

SHRS has designated a person within SHRS to be the Ombudsperson.

The Ombudsperson is a person who handles complaints, serves as a mediator, and a spokesperson for the rights of a particular individual or group. The Ombudsperson in the School of Health and Rehabilitation Sciences (SHRS) will be a neutral contact person (Non-faculty) for students with whom they can engage in informal discussions to express concerns about conflicts and other issues that may arise during the course of their education that they believe are difficult to address with their academic department.

The Ombudsperson for SHRS is Kellie Beach, Director of Student Services, and Registrar. She can be reached at kbeach@pitt.edu to make an appointment. More information on the role of the Ombudsperson for SHRS can be found on the SHRS website under the Orientation page.

SHRS Faculty

Program and Course Offerings

Department of Sports Medicine and Nutrition
The Department of Sports Medicine and Nutrition offers outstanding undergraduate programming in Athletic Training as well as Nutrition and Dietetics with the mission to provide superior academic, clinical and research opportunities for students interested in a career in the areas of Athletic Training, Sports Medicine, Nutrition, Dietetics and Human Performance. SMN is committed to promoting intellectual curiosity, ethical practice, critical thinking and professional responsibility in students as well as the faculty and staff who contribute to all facets of the department's infrastructure.

The department aims to meet these objectives by:

- developing cognitive skills, psychomotor mastery, and affective values in students through the delivery of a proven formula of sound classroom education, combined with invaluable clinical education experiences, for the promotion of competent entry-level clinicians and enhancing the health and well-being of individuals and diverse populations
- becoming thought leaders by advancing the state of the science through evidenced-based practice, rigorous curricula, interdisciplinary collaboration and innovative technology
- mitigating injury and disease and optimize human performance by conducting innovative, multidisciplinary basic and applied research, and contributing to the scientific community in order to enhance clinical decisions and education

**Athletic Training, BS**

The undergraduate athletic training education degree program earned initial accreditation in 1997 and continuing accreditation in 2004 and 2012 through the Commission on Accreditation of Athletic Training Education (CAATE). Prior to this, the curriculum had been National Athletic Trainers' Association approved since 1978. The athletic training curriculum is defined by the current Board of Certification, Inc. Role Delineation Study/Practice Analysis, which consists of five performance domains to include: (1) Injury and Illness Prevention and Wellness Promotion; (2) Examination, Assessment, and Diagnosis; (3) Immediate and Emergency Care; (4) Therapeutic Intervention; (5) Healthcare Administration and Professional Responsibility. The curriculum is structured to provide both academic and clinical instruction. The academic curriculum includes such courses as anatomy, kinesiology, human and exercise physiology, injury evaluation and treatment, and therapeutic modalities and exercise, among others. This course work provides a foundation for the hands-on clinical experiences provided in the clinical education setting. The students' clinical requirements include direct patient care with athletes and physically active patients and evaluation of skills by preceptors who supervise each student's clinical experience. Students rotate through four on-campus athletic training facilities and several off-site affiliated settings during the clinical education component acquiring valuable skills under the direct supervision of certified athletic training staff, team physicians and other allied health professionals. Upon completion of the four-year baccalaureate degree, students are eligible to sit for the BOC, Inc. certification examination. Successful completion of this exam affords the candidate a variety of employment opportunities including athletic training positions at the high school, college, or university level; sports medicine and rehabilitation clinics; and professional athletic teams. Additionally, many students pursue graduate education opportunities in a number of sports medicine-related professions.

For more information, please contact:

Amy E. Aggelou, PhD, LAT, ATC
Program Director, Athletic Training Education
School of Health and Rehabilitation Sciences
Department of Sports Medicine and Nutrition
4047 Forbes Tower

Fax: 412-383-6636
E-mail: aaggelou@pitt.edu

**Admission Requirements:**

- Overall minimum GPA of 2.50
• Completion of all prerequisites
• Personal interview
• Personal qualities important for athletic training, i.e., enthusiasm, motivation, positive health habits, strong work ethic, and time commitment

Prerequisite Courses:

1. Completion of the following

A grade of C- or better is required for 1-11.
A grade of B or better is required for 12-13.
46 credits of prerequisite course work
14 additional credits of elective course work required

2. Successful completion of at least 60 credits of course work.

3. EMT certification is required through course for credit or other qualified course leading to the EMT or NREMT credential.

4. Forty-five clinical observation hours under the direct supervision of a certified athletic trainer at the University of Pittsburgh. These hours are made available to students who are registered for ATHLTR 1812 - BASIC ATHLETIC TRAINING LAB.

5. Completion of admissions application including Technical Standards for admission.

6. The Athletic Training Education Program at the University of Pittsburgh is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training Education Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's
The following abilities and expectations must be met by all students admitted to the Athletic Training Education Program.

Candidates for selection to the Athletic Training Education Program must demonstrate:

- The mental capacity to assimilate, analyze, synthesize, integrate concepts, and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
- Sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely, and efficiently use equipment and materials during the assessment and treatment of patients.
- The ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.
- The ability to record the physical examination results and a treatment plan clearly and accurately.
- The capacity to maintain composure and continue to function well during periods of high stress.
- The perseverance, diligence, and commitment to complete the athletic training education program as outlined and sequenced.
- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
- Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Candidates for selection to the Athletic Training Education Program will be required to meet these Technical Standards with or without reasonable accommodation.

Application Procedures:

Admission to the Athletic Training Education Program requires successful completion of a minimum of 60 credits and enrollment in ATHLTR 1811 and ATHLTR 1812. Notification of admission occurs following a personal interview with the athletic training faculty and verification of completion of all prerequisite criteria. The deadline for submission of an application for admission consideration is March 15 annually.

Pitt Students (including regional campuses)

Complete the SHRS ApplyYourself Application.

Transfer Student Information:

Students with prior athletic training experience seeking to transfer to the University of Pittsburgh for admission to the Athletic Training Education Program must complete the same prerequisite requirements as all other candidates including the Basic Athletic Training (ATHLTR 1811) and Basic Athletic Training Lab (ATHLTR 1812) courses and all observation hours. If admitted to the program, all students must complete University of Pittsburgh core athletic training courses. In some instances, credit may be given for other coursework taken at another institution and will be evaluated on an individual case basis.

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Athletic Training as their intended field of study. International transfer students click here.

Curriculum:

The following course sequence is identical for all athletic training students in the junior and senior years.

Junior Year-Fall Term

- REHSCI 1200 - HUMAN ANATOMY
- REHSCI 1205 - HUMAN PHYSIOLOGY
- ATHLTR 1821 - INJURY EVALUATION AND TREATMENT 1
- ATHLTR 1824 - ATHLETIC TRAINING PRACTICUM 1
- ATHLTR 1831 - THERAPEUTIC MODALITIES AND LAB

Total: 18

**Junior Year-Spring Term**

- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- ATHLTR 1822 - INJURY EVALUATION AND TREATMENT 2
- ATHLTR 1832 - THERAPEUTIC EXERCISE AND LAB
- ATHLTR 1833 - STRENGTH AND CONDITIONING
- ATHLTR 1835 - ATHLETIC TRAINING PRACTICUM 2

Total: 15

**Senior Year-Fall Term**

- HRS 1006 - INTRO TO HUMAN NUTRITION
- REHSCI 1215 - EXERCISE PHYSIOLOGY
- REHSCI 1235 - MEDICAL TERMINOLOGY
- ATHLTR 1885 - INTRODUCTION TO EVIDENCE BASED REHABILITATION
- ATHLTR 1823 - ADMINISTRATIVE ASPECTS OF ATHLETIC TRAINING
- ATHLTR 1841 - ATHLETIC TRAINING PRACTICUM 3
- Elective (1-3)

Total: 14-18

**Senior Year-Spring Term**

- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- ATHLTR 1834 - SPECIAL TOPICS IN ATHLETIC TRAINING
- ATHLTR 1842 - ATHLETIC TRAINING PRACTICUM 4
- ATHLTR 1843 - ADVANCED ORTHOPEDIC ASSESSMENT
- ATHLTR 1866 - PSYCHOLOGY OF SPORT
- Elective (1-5)

Total: 14-18

**Total Prerequisite Credits: 60**

**Total SHRS Credits: 61-69**

**Total Degree Credits: 121-129**

**Nutrition and Dietetics, BS**
The Didactic Program in Dietetics (DPD) is no longer accepting students and will be closing effective May 31, 2020. The DPD will maintain its ACEND accreditation status through May 31, 2020. Students who do not complete all DPD course requirements by May 31, 2020 will not be considered graduates of an ACEND-accredited DPD. For more information about the closure of the DPD, please contact Lori Cherok at lcherok@pitt.edu.

The Department of Sports Medicine and Nutrition is committed to providing education and training to prepare students seeking to become Registered Dietitian/Nutritionists (RDNs) and will continue to provide programming that meets ACEND and Commission on Dietetic Registration (CDR) requirements. Beginning in Fall 2019, the department will offer an entry-level graduate program, the Coordinated Program in Nutrition and Dietetics, which will provide both the didactic and the experiential practice competencies to meet eligibility requirements for the National Registration Examination for Registered Dietitians/Nutritionists. Interested students will apply in the Spring Term of 2019 to begin the Coordinated Program as juniors in Fall 2019. For information about this program, please contact Dr. Deborah Hutcheson at dhutches@pitt.edu.

Curriculum:

The BS degree in Nutrition and Dietetics requires the completion of a minimum of 122 credits which includes 60 credits prior to admission and 62 credits of required courses taken within the program. The usual time required to complete the program after admission to the junior year is two years. The program curriculum is as follows:

Junior Year - Fall Term

- HRS 1000 - INTRODUCTION TO RESEARCH
- HRS 1023 - HUMAN PHYSIOLOGY
- NUTR 1620 - MACRONUTRIENT METABOLISM
- NUTR 1609 - CLINICAL BIOCHEMISTRY
- NUTR 1602 - NUTRITION ASSESSMENT 1

Credits: 16

Junior Year - Spring Term

- NUTR 1610 - FOOD SCIENCE 1
- NUTR 1613 - FOOD SCIENCE 1 LAB
- NUTR 1612 - FOOD AND CULTURE
- NUTR 1621 - MICRONUTRIENT METABOLISM
- Electives - 6 Credits

Credits: 16

Senior Year - Fall Term

- NUTR 1605 - PRINCPLS OF NUTR EDUC & CNSLG
- NUTR 1614 - NUTRITION & CRITICAL THINKING
- NUTR 1630 - NUTRITION THERAPY 1
- NUTR 1603 - NUTRITION ASSESSMENT 2 W/ LAB
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVR

Credits: 15

Senior Year-Spring Term
Beginning in fall 2019, the Department of Sports Medicine and Nutrition will offer an undergraduate Bachelor of Science program in Nutrition Science. Graduates will be able to apply the science of food and nutrition to the well-being and health of people. They will also be able to implement the knowledge and skills learned in industry, government, academia and NGOs. This may include working on food and nutrition labeling laws, creating better food products and supplements and helping to educate others about the importance of nutrition. In addition, graduates of the BS in Nutrition Science program will be prepared to further their education in the health professions including professional graduate programs in nutrition, medicine and dentistry. Students interested in this program will apply in the spring term of 2019 to begin as juniors in the fall term of 2019. This program does not meet the eligibility requirements for Registered Dietitians (RD). For students desiring to become a Registered Dietitian (RD) please refer to the Coordinated Program in Nutrition and Dietetics.

For more information, please contact:

Samara Joy Nielsen, PhD, MDiv

Program Director, Nutrition Science

School of Health and Rehabilitation Sciences

Department of Sports Medicine and Nutrition

4035 Forbes Tower

412-383-9980

Fax: 412-383-6636

E-mail: snielsen@pitt.edu

Admission Requirements:

- A minimum GPA of 2.5 (based on 4.0)
- A minimum prerequisite GPA of 2.5
- A minimum grade of C- in all courses designated as prerequisites taken at the University of Pittsburgh; a C or better is required for courses taken elsewhere.

Admission to the Nutrition Science program requires successful completion of a minimum of 60 credits including all prerequisite courses below.

Prerequisite Courses:

1. Foundations of Biology 1, BIOSC 0150
2. Foundations of Biology Lab 1, BIOSC 0050
3. Foundations of Biology 2, BIOSC 0160
4. Foundations of Biology Lab 2, BIOSC 0067 / BIOSC 0068
5. Introduction to Microbiology, BIOSC 1850 *
6. Microbiology Lab, BIOSC 1855
7. General Chemistry 1 with Lab, CHEM 0110
8. General Chemistry 2 with Lab, CHEM 0120
9. Organic Chemistry 1, CHEM 0310
10. Organic Chemistry 2, CHEM 0320
11. Organic Chemistry 2 Lab, CHEM 0345
12. English Composition, ENGCMP 0200
13. Research Writing or Intensive Writing Course, ENGCMP 0450
14. Algebra or Higher Math, MATH 0031
15. Introduction to Psychology, PSY 0010
16. Genetics, BIOSC 0350 **
17. Statistics, STAT 0200 or STAT 1000
18. Introduction to Human Nutrition, HRS 1006 or NUTR 1006
19. Introduction to Physics 1, PHYS 0110
20. Introduction to Physics 2, PHYS 0111
21. Introduction to Lab Physics, PHYS 0212

Note - Courses in italics are not prerequisites for our program but are strongly suggested for students because they are prerequisites for other professional degrees.

* Students can also take HRS 1025 Introduction to Microbiology instead of BIOSC 1850 or they can take NUR 0031 Microbiology and NUR 0032 Microbiology Lab instead of BIOSC 1850 / BIOSC 1855

** Genetics can be taken prior to entering the program or after having entered the program

Application Procedures:

The deadline for submission of an application for admission consideration is March 15th annually.

Pitt Students (including regional campuses)

Complete the SHRS ApplyYourself Application.

Transfer Student Information:

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Nutrition Science as their intended field of study. International transfer students click here.

All applicants must:

- Submit a personal essay—a brief statement discussing why you are interested in the Undergraduate Program in Nutrition Science, your professional goals including how and when you became interested in that field, as well as any work or volunteer experience you have that will demonstrate your awareness of the field. Also include other areas of interest, extra-curricular activities and leadership experiences;
- Resumes are strongly recommended;
- Submit one letter of recommendation. A recommendation from a college instructor/professor or recent work or volunteer supervisor is preferred;
- Submit official transcripts from all institutions from which they have college credits. Current University of Pittsburgh students do not need to provide their University of Pittsburgh transcript, and can request copies of transcripts previously submitted to Pitt from their current school. Students currently at the Dietrich School of Arts & Sciences can obtain copies of non-Pitt transcripts from the Office of Student Records, 140 Thackeray Hall, and drop them off in the SHRS Admissions Office, 4020 Forbes Tower;
- Have an interview with the nutrition faculty. Qualified applicants will be contacted to schedule an interview;
- Application may be submitted while course requirements are in progress.

Please note that admission is competitive. Meeting the minimum admission criteria does not guarantee admission.
Curriculum:

The BS degree in Nutrition Science requires the completion of a minimum of 120 credits which includes 60 credits prior to admission and 60 credits of required courses taken within the program. The usual time required to complete the program after admission to the junior year is two years. The program curriculum is as follows:

Junior Year - Fall Term

- HRS 1000 - INTRODUCTION TO RESEARCH
- HRS 1023 - HUMAN PHYSIOLOGY
- NUTRIENT METABOLISM
- BIOSC 1000 - BIOCHEMISTRY

*BIOSC 1000 Biochemistry can be taken second semester junior year. If it is taken second semester junior year then NUTR 1620 Nutrient Metabolism needs to be taken senior year

Junior Year - Spring Term

- NUTR 1610 - FOOD SCIENCE 1
- NUTR 1613 - FOOD SCIENCE 1 LABORATORY
- NUTR 1614 - APPLICATION OF CRITICAL THINKING TO NUTRITION ISSUES
- NUTRITION THERAPY

Senior Year - Fall Term

- NUTR 1622 - NUTRITION IN THE LIFE CYCLE
- SURVEY OF NUTRITION CAREERS
- PUBLIC HEALTH NUTRITION
- ELECTIVE, 6 Credits

Senior Year - Spring Term

- NUTR 1612 - FOOD AND CULTURE
- HPA 1486 - BEHAVIOR CHANGE STRATEGIES
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- PRACTICAL/LAB EXPERIENCE, 3 credits
- ELECTIVE, 3 credits

Total Program Credits: 60

Total Degree Credits: 120

Department of Communication Science and Disorders (CSD)

The Department of Communication Science and Disorders offers an undergraduate major in Communication Science. The degree program focuses on the anatomical, physiological, and psychological foundations of communication, as well as, the basic structure of language and the process of
speech and language development. The degree program is also designed to develop critical thinking skills including the ability to evaluate scientific information.

This major is particularly appropriate for students considering graduate study and a career in Speech-Language Pathology [SLP] or Audiology [AuD]. (A graduate degree is required for clinical practice in both professions.) Speech-Language Pathology and Audiology are among the most attractive and diverse healthcare and educational professions available. Projections from the U.S. Department of Labor indicate job growth in both Speech-Language Pathology and Audiology. The future of the job market is healthy due to increasing public awareness of the need for early diagnosis and intervention for communication disorders; an awareness of the educational, social, and vocational benefits of programs for communication disorders; and an aging population. The need for speech, language, and hearing scientists is also great; there are many research and academic opportunities for those interested in research in these fields.

The degree program in Communication Science is also excellent preparation for professional or graduate programs in education-related fields (i.e., education of the deaf and hard of hearing, early-childhood, special education) or health-related professions (i.e., rehabilitation counseling, occupational therapy, physical therapy). The necessary prerequisites for these programs can be taken while completing the Communication Science degree.

Interested students should contact the Director of Undergraduate Education in Communication Science and Disorders, Dr. Janice Vance at jvance@pitt.edu or 412-383-6562.

Admission Requirements

Students are eligible for admission to the Communication Science degree program after successful completion of 60 credits. [Note: Applications will be reviewed when approximately 45 credits are completed and 15 credits are in progress.] For admission, an application with all transcripts from universities/colleges attended and a personal essay is required. Resumes are strongly suggested. A letter of recommendation is NOT required. A minimum grade point average (GPA) of 2.75 is preferred, but students may be admitted provisionally if program capacity permits.

Prior to applying, students should contact the Director of Undergraduate Education in Communication Science and Disorders, Dr. Janice Vance at jvance@pitt.edu or 412-383-6562. (Specialized advising is available to students at the freshman and/or sophomore year level.) Students should complete the Basic Skills Prerequisites and Basic Sciences coursework prior to application. Students should also complete most of the General Education Requirements and Additional Requirements coursework prior to application. [Note: Some of these courses may be completed while enrolled in the program.]

University of Pittsburgh Freshman Guarantee

An entering freshman may qualify for a guarantee into the graduate programs in Audiology or Speech-Language Pathology. For consideration for the Freshman Guarantee, indicate an intended field of study as Pre- Communication Science on your application when applying as a freshman (at regional campuses, choose corresponding codes). Qualifying students admitted in the Fall of 2018 will meet the following criteria: SAT scores of 1410 (combined Critical Reading and Math) or an ACT Composite score of 30. Students must also be in the top 10% of their high school graduating class.

The student must have an overall grade point average (GPA) of 3.6 when applying to the Communication Science program at the start of the spring semester of sophomore year level. At the time of application to the graduate program, guaranteed students must have a cumulative GPA of 3.6 or better and a GPA of 3.75 in the core communication science major courses. Additionally, guaranteed students must achieve a GRE ranking in the 50th percentile or higher for the Quantitative and Verbal sections and a 3.5 on the Analytical Writing section. A full application must be submitted on time.

Early Decision for Graduate Programs

Students pursuing an undergraduate degree in Communication Science from the University of Pittsburgh are eligible to apply Early Decision to either the graduate program in Audiology or Speech-Language Pathology. Information about the application process and applicant qualifications are available in the CSD Advising Office.

Communication Science, BA

The Department of Communication Science and Disorders offers an undergraduate major in Communication Science. The degree program focuses on the anatomical, physiological, and psychological foundations of communication, as well as, the basic structure of language and the process of
speech and language development. The degree program is also designed to develop critical thinking skills including the ability to evaluate scientific information.

This major is particularly appropriate for students considering graduate study and a career in Audiology or Speech-Language Pathology. The degree program is also excellent preparation for professional or graduate programs in education-related or health-related fields, as prerequisites can be taken while completing the Communication Science major.

Specialized advising is available to students at the freshman and/or sophomore year level. Interested students should contact the Director of Undergraduate Education in Communication Science and Disorders, Dr. Janice Vance at jvance@pitt.edu or 412-383-6562.

Admission Requirements

Students are eligible for admission to the Communication Science degree program after successful completion of 60 credits. [Note: Applications will be reviewed when approximately 45 credits are completed and 15 credits are in progress.] Students should complete the Basic Skills Prerequisites and Basic Sciences coursework prior to application. Students should also complete most of the General Education Requirements and Additional Requirements coursework prior to application. [Note: Some of these courses may be completed while enrolled in the program.]

Application Procedures

For admission, an application with all transcripts from universities/colleges attended and a personal essay is required by March 15. Resumes are strongly suggested. A letter of recommendation is NOT required. A minimum grade point average (GPA) of 2.75 is preferred, but students may be admitted provisionally if program capacity permits.

University of Pittsburgh Freshman Guarantee

An entering freshman may qualify for a guarantee into the graduate programs in Audiology or Speech-Language Pathology. For consideration for the Freshman Guarantee, indicate an intended field of study as Pre-Communication Science on your application when applying as a freshman (at regional campuses, choose corresponding codes). Qualifying students admitted in the Fall of 2018 (2191) will meet the following criteria: SAT scores of 1410 (combined Critical Reading and Math) or an ACT Composite score of 30. Students must also be in the top 10% of their high school graduating class.

The student must have an overall grade point average (GPA) of 3.6 when applying to the Communication Science program at the start of the spring semester of sophomore year level. At the time of application to the graduate program, guaranteed students must have a cumulative GPA of 3.6 or better and a GPA of 3.75 in the core communication science major courses. Additionally, guaranteed students must achieve a GRE ranking in the 50th percentile or higher for the Quantitative and Verbal sections and a 3.5 on the Analytical Writing section. A full application must be submitted on time.

Early Decision for Graduate Programs

Students pursuing an undergraduate degree in Communication Science from the University of Pittsburgh are eligible to apply Early Decision to either the graduate program in Audiology or Speech-Language Pathology. Information about the application process and applicant qualifications are available in the CSD Advising Office.

Communication Science Curriculum

SHRS requires a minimum of 120 credits for graduation.

For specialized advising at the freshman and/or sophomore year level, students should contact the Director of Undergraduate Education in Communication Science and Disorders, Dr. Janice Vance at jvance@pitt.edu or 412-383-6562.

Basic Skills Prerequisites (15 credits)

- Basic Writing (or exemption) - 3 Credits
1. English Composition ( ENGCM 0200 - SEMINAR IN COMPOSITION or higher) - 3 Credits
2. Mathematics ( MATH 0031 - ALGEBRA or higher) - 3 Credits
3. Second Language: First and Second Levels* - 6 Credits

*May be satisfied by three years of a high school second language.

General Education Requirements (21 to 24 credits)

1. English or American Literature - 3 Credits
2. Writing Intensive (W)* - 3 Credits
   *May be combined with another requirement (e.g., literature, history, etc.)
3. Music or Art - 3 Credits
4. Second Literature / Music / Art or Creative Expression - 3 Credits
5. History - 3 Credits
6. International Culture - 6 Credits
7. International Culture (non-western) - 3 credits

Basic Science (9 credits)

1. Behavioral Science - PSY 0010 INTRODUCTION TO PSYCHOLOGY - 3 Credits
2. Biological Science - A course in human biology (i.e., BIOSC 0815 - GENES AND DISEASES or BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1) or human anatomy and physiology. - 3 Credits
3. Physical Science - Suggested courses include: PHYS 0091 - CONCEPTUAL PHYSICS, PHYS 0110 - INTRODUCTION TO PHYSICS 1, or PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) - 3 Credits

Additional Requirements (15 credits)

Five additional courses must be completed, one from each of the areas listed below. These courses are designed to ensure that the student is well educated in related disciplines, in keeping with the place of communication science and disorders at the confluence of several realms of study. Some are also required for professional certification. Consult with the CSD Advising Office for more course options.

1. Statistical Methods - STAT 0200 - BASIC APPLIED STATISTICS or STAT 1000 - APPLIED STATISTICAL METHODS.
2. Neurological and Cognitive Foundations of Language - PSY 0405 - LEARNING AND MOTIVATION, PSY 0422 - COGNITIVE PSYCHOLOGY, PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY, PSY 0510 - SENSATION AND PERCEPTION, NROSCI 0080 - BRAIN AND BEHAVIOR, or NROSCI 1000 - INTRO TO NEURO SCIENCE.
3. Philosophy of Science - HPS 0515 - MAGIC, MEDICINE AND SCIENCE, HPS 0608 - PHILOSOPHY AND SCIENCE, HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING, HPS 0612 - MIND AND MEDICINE, HPS 0613 - MORALITY AND MEDICINE, HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE, PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES, PHIL 0610 - PHILOSOPHY AND SCIENCE, or PHIL 1610 - INTRO TO PHILOSOPHY OF SCIENCE.
4. Sociocultural Studies - ANTH 0620 - BIOCULTURAL ANTHROPOLOGY, ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY, PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY, HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE, LING 1235 - LANGUAGE, GENDER AND SOCIETY, LING 1263 - CROSS-CULTURAL COMMUNICATION,
Major (Core) Courses (41 credits)

Most of the core courses in Communication Science degree program are taken after admission at the junior year level. Four of the core courses are available at the freshman and sophomore year level. These four courses can also be completed as part of the Communication Science degree program at the junior year level. Several core courses have prerequisites resulting in a sequence of courses. The course sequence is represented in the example Plan of Study. Interested students should be aware that the core courses or sequence of courses may change.

Courses Available to Freshman and Sophomore

The following courses are available to students at the freshman and sophomore year level. These courses can also be completed during the Communication Science degree program at the junior year level if not completed prior to admission.

- CSD 1020 - NATURE OF LANGUAGE
  Offered each fall semester. Suggested at the sophomore year level.
- CSD 1101 - INTRO TO CLINICAL PROCESSES
  Offered each spring semester. Suggested at the sophomore year level. Prerequisites include CSD 1230 and CSD 1232. (CSD 1230 may be taken simultaneously.)
- CSD 1232 - INTRODUCTION TO AUDIOLOGY
  Offered each fall semester. Suggested at the freshman or sophomore year level.
- CSD 1230 - INTRODUCTION TO SPEECH LANGUAGE PATHOLOGY
  Offered each spring semester. Suggested at the freshman or sophomore year level.

Plan of Study

This plan of study identifies the sequence of core courses offered in the Communication Science degree program. A course schedule for each semester is completed with any remaining General Education Requirements or Additional Requirements, minor or certificate courses, or other elective courses.

Junior Fall

- If not already completed - CSD 1020 - NATURE OF LANGUAGE
- If not already completed - CSD 1232 - INTRODUCTION TO AUDIOLOGY
- CSD 1022 - TRANSCRIPTION PHONETICS
- CSD 1023 - ANATOMY AND PHYSIOLOGY OF SPEECH
- CSD 1027 - LAB IN ANAT/PHYSIOLOGY OF SPEECH

Junior Spring

- If not already completed - CSD 1230 - INTRODUCTION TO SPEECH LANGUAGE PATHOLOGY
- If not already completed - CSD 1101 - INTRO TO CLINICAL PROCESSES
- CSD 1021 - LANGUAGE DEVELOPMENT
- CSD 1026 - SPEECH SCIENCE
- CSD 1030 - LAB IN SPEECH SCIENCE
Senior Fall

- CSD 1024 - ANATOMY AND PHYSIOLOGY OF HEARING
- CSD 1029 - LAB IN ANAT/PHYSIOLOGY OF HEARING
- CSD 1231 - EVALUATION AND TREATMENT OF COMMUNICATION DISEASES
- CSD 1234 - WRIT PRAC FOR EVAL & TREATMENT

Senior Spring

- CSD 1025 - HEARING SCIENCE
- CSD 1028 - LAB IN HEARING SCIENCE
- CSD 1233 - INTRODUCTION TO RESEARCH

Related Area / Minors and Certificates / Directed or Independent Studies

No additional related area is required for this undergraduate degree.

Many students are able to complete certificate programs or minors in addition to the major requirements in Communication Science. In recent years, students have attained certificates in Conceptual Foundations of Medicine, Latin American studies, American Sign Language, and Children's Literature and minors in Education, Neuroscience, Linguistics, Social Work and Sociology, among others. These are only a few of the many certificate programs and minors available at the University of Pittsburgh.

In some locations, employment within an educational setting requires additional courses for certification. Students considering work in educational settings should consider enrolling in education courses (i.e., IL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS) as electives. Students can consult with the CSD Advising Office for more information.

Students should consult with Dr. Janice Vance (jvance@pitt.edu), Director of Undergraduate Education in Communication Science and Disorders, about the possibility of pursuing a directed or independent study with a member of the faculty, as a formal approval process is required.

Emergency Medicine Program

The Emergency Medicine Program is designed to meet the growing need for the advanced skill levels required in the EMS profession and to prepare students for the technical, clinical and administrative challenges of a career in EMS and health care today. Many Emergency Medicine (EM) students continue to medical school, physician assistant, nursing and other graduate level education. A Program Fee of $1,500 is charged to each junior student to cover the cost of disposable equipment, supplies and specialty certifications. Students are required to purchase and wear clinical uniforms designated by the Program and maintain independent health insurance throughout the entire junior year.

For more information, please contact the program at 412-647-4547.

Emergency Medicine Program

The Emergency Medicine Program is designed to meet the growing need for the advanced skill levels required in the EMS profession and to prepare students for the technical, clinical and administrative challenges of a career in EMS and health care today. Many Emergency Medicine (EM) students continue to medical school, physician assistant, nursing and other graduate level education.

Students entering the Program as Juniors are required to complete clinical education at facilities external to the University, and such facilities require a criminal background check, Act 33/34/73 clearances, physical examination, blood titers, and a drug screen to determine whether the student applicant is eligible to participate with clinical education requirements. Students must be currently certified as an EMT by the Commonwealth of Pennsylvania. Out of state and Nationally Registered EMTs must apply for and receive endorsement by certification equaling reciprocity.
Program Fee of $1,500 is charged to each junior student to cover the cost of disposable equipment, supplies and specialty certifications. Students are required to purchase and wear clinical uniforms designated by the Program and maintain independent health insurance throughout the entire junior year.

Students entering the Program as a Senior Transfer or Active Duty Military must complete 30 credits within the University of Pittsburgh School of Health and Rehabilitation Sciences to obtain a bachelor degree. Additional details are located under Transfer Student Information and Active Military Student Information areas of the EM catalog section.

For more information, please contact the program at 412-647-4547.

Admission Requirements:

The courses listed below are required of all students working toward the Bachelor of Science in Emergency Medicine.

- Oral*/Written Communications - 6 Credits
- Mathematics/Statistics/Computer Science - 4 Credits
- Natural Sciences/Psychology - 6 Credits
- Historical Change/Social Science (ex. Anthropology, Economics, English Literature/Writing, Second Language, History, Music, Performing & Visual Arts, Philosophy, Religion, Sociology, etc.) - 6 Credits
- Additional Credits from Above Content Areas - 8 Credits
- EMT with Lab * - 4 Credits
- Additional Coursework - 26 Credits

*Verification of current Pennsylvania or National Registry EMT certification must be provided. If a non-credit course was taken for this certification, 4 credits may be granted through credit by course examination. Junior year students without Pennsylvania EMT certification will be required to apply for and receive reciprocity from the Pennsylvania Department of Health.

For Transfer Senior and Active Duty Military applicants, current Paramedic certification must be demonstrated to receive the advanced standing of 39 credits (includes four credits of EMT). The awarding of 39 advanced standing credits limits the transfer of college credits to no more than 51 credits (including required 30 prerequisites and 21 additional coursework credits). College classes taken as requirement for obtaining paramedic certification may not be utilized toward the 51 credits.

Application Procedures:

Applications are due March 15 and interviews will begin in January for all applicants. Applications received after the deadline will be reviewed based upon available space. All applicants are encouraged to apply early, as limited seats are available. Applications may be submitted while course requirements are in progress.

All students must have a minimum cumulative GPA of 2.5 (based on 4.0) and minimum prerequisite GPA of 2.5. A minimum grade of C- or better for EM prerequisite courses and a grade of D or better for additional coursework taken at Pitt. A minimum grade of C is required for transferred credits.

Selection Criteria/Process:

Notification of admission occurs after a personal interview with the Emergency Medicine faculty and evidence of completion of all prerequisite criteria.

Transfer Student Information:

Students are required to earn 30 credits within the University of Pittsburgh School of Health and Rehabilitation Sciences and these may not include prerequisite courses. Senior Transfer Students are required to have current certification/licensure as a paramedic and have completed 51 college credits, including the required prerequisite courses. All Senior Transfer and Active Duty Military students will be offered a 3-credit online EM course each semester to fulfill the 30-credit requirement (Beyond the Body will be offered in the fall semester and Organizational Theory will be offered in the spring). Students may take other 3-credit courses within SHRS each semester to fulfill the 30-credit requirement. Senior Transfer students must
complete EM core credits in a traditional format; web-based or distance course delivery format is available only to enrolled Active Duty Military students.

**Active Military Student Information:**

Students who have completed the prerequisite courses, are currently active with the military and are currently US SOCM ATPs or certified or licensed at the paramedic level (by a state EMS agency or the National Registry of EMT), may be awarded advanced standing and admitted into the Program as Active Duty Military students. During the senior year, these students will be required to complete 30 credits within the School of Health and Rehabilitation Sciences to be eligible for graduation. Web-based delivery format is provided for all core courses.

For additional admission criteria, please refer to the SHRS Admissions section of this catalog.

**Emergency Medicine Curriculum**

SHRS requires a minimum of 120 credits to graduate, 30 of which must be completed through the School and approved by the EM Advisor.

**Fall Term-Junior Year**

*The EM Program Junior year curricula consists of required courses which are offered only once during the academic year. Any deviation from completing the courses in the planned sequence will result in the delay of progressing through the curriculum and the year of graduation.*

- EM 1111 - FOUNDATIONS OF EMERGENCY CARE
- EM 1112 - PATHOPHYSIOLOGY
- EM 1114 - MEDICATION ADMINISTRATION
- EM 1115 - INTRODUCTION TO PHYSICAL ASSESSMENT
- EM 1116 - PHYSICAL EXAM LAB
- EM 1122 - CARDIOLOGY AND RESPIRATORY
- EM 1131 - CLINICAL 1

**Spring Term-Junior Year**

- EM 1113 - PHARMACOLOGY
- EM 1117 - EMS OPERATIONS
- EM 1123 - CARDIOLOGY LAB
- EM 1124 - ADULT MEDICAL EMERGENCIES
- EM 1125 - OB/GYN, NEWBORN, AND PEDIATRIC CARE
- EM 1126 - ASSESSMENT BASED MANAGEMENT
- EM 1132 - CLINICAL 2

**Fall Term-Senior Year Core Content**

- EM 1155 - LEGAL ISSUES IN HEALTH CARE
- EM 1170 - CRITICAL CARE PARAMEDIC 1
- EM 1166 - SENIOR INTERNSHIP

**Spring Term-Senior Year Core Content**

- EM 1160 - PROFESSIONAL ISSUES
Additional Senior Level Elective Courses

Electives outside of the EM program shall be approved by your advisor.

- EM 1152 - ISSUES IN HEALTH CARE
- EM 1153 - ISSUES IN HEALTH CARE EDUCATION
- EM 1154 - HEALTH CARE RESEARCH
- EM 1158 - FINANCE AND ACCOUNTING FOR HEALTH CARE
- EM 1168 - LEADERSHIP IN HEALTHCARE
- EM 1177 - SENIOR SEMINAR
- EM 1180 - HEALTH CARE MANAGEMENT
- EM 1185 - BEYOND THE BODY - WEB
- EM 1186 - CERTIFIED AMBULANCE CODER-WEB
- EM 1187 - ORGANIZATIONAL THEORY-WEB
- EM 1198 - INTERNATIONAL STUDIES
- EM 1199 - INDEPENDENT STUDY
- EM 1250 - INTRODUCTION TO COMMUNITY HEALTH
- EM 1251 - MOBILE INTEGRATED HEALTHCARE
- EM 1177 - SENIOR SEMINAR
- EM 1178 - LEADERSHIP IN HEALTH CARE-WEB
- EM 1182 - CRITICAL CARE MANAGEMENT-WEB
- EM 1177 - SENIOR SEMINAR
- EM 1179 - HEALTH CARE MANAGEMENT - WEB
- EM 1185 - BEYOND THE BODY - WEB
- EM 1187 - ORGANIZATIONAL THEORY-WEB

Active Duty Military Students

All core coursework for active military students is provided in a web-based format.

- EM 1172 - ISSUES IN HEALTH CARE - WEB
- EM 1173 - ISSUES IN HEALTH CARE EDUCATION - WEB
- EM 1174 - HEALTHCARE RESEARCH - WEB
- EM 1175 - LEGAL ISSUES IN HEALTH CARE - WEB
- EM 1183 - FINANCE AND ACCOUNTING FOR HEALTH CARE - WEB
- EM 1181 - PROFESSIONAL ISSUES-WEB
- EM 1176 - SENIOR INTERNSHIP-WEB
- EM 1178 - LEADERSHIP IN HEALTH CARE-WEB
- EM 1182 - CRITICAL CARE MANAGEMENT-WEB
- EM 1177 - SENIOR SEMINAR
- EM 1179 - HEALTH CARE MANAGEMENT - WEB
- EM 1185 - BEYOND THE BODY - WEB
- EM 1187 - ORGANIZATIONAL THEORY-WEB

Transfer Student Information:

Students are required to earn 30 credits within the University of Pittsburgh School of Health and Rehabilitation Sciences and these may not include prerequisite courses. Senior Transfer Students are required to have current certification/licensure as a paramedic and have completed 51 college credits, including the required prerequisite courses. All Senior Transfer and Active Duty Military students will be offered a 3-credit online EM course each semester to fulfill the 30-credit requirement (Beyond the Body will be offered in the fall semester and Organizational Theory will be offered in the spring). Students may take other 3-credit courses within SHRS each semester to fulfill the 30-credit requirement. Senior Transfer students must complete EM core credits in a traditional format; web-based or distance course delivery format is available only to enrolled Active Duty Military students.

*Prerequisites for Clinical Education:
This Program requires junior-year students to complete clinical education at facilities external to the University, and such facilities will require a criminal background check, an Act 33/34/73 clearance, physical examination, blood titers, and a drug screen to determine whether the student applicant is qualified to participate in the clinical education. Students must be currently certified as an EMT by the Commonwealth of Pennsylvania. Out of state and Nationally Registered EMTs must apply for and receive endorsement by certification equaling reciprocity. Additionally, in order to become certified/ licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor and a felony.

Department of Health Information Management

Accurate, reliable patient data is critical to health professionals, and the health information management department is the key health center for medical staff, administrators, other health professionals, and the community. Due to the increased presence of technology as a key component of health care delivery and the need for quality health care data, more HIM professionals are finding career opportunities in data analytics, business intelligence and in the information systems environment, where they analyze and use health care data, develop, market, and implement software; ensure that systems comply with standards and regulations, and work in support of quality, privacy, and security. The Bureau of Labor Statistics cites health information professionals as one of the 20 fastest-growing occupations in the US. On top of strong job prospects, competitive salaries also await HIM graduates. More than half of new HIM graduates with a bachelor's degree start with salaries in the $40-50,000 range. Please visit www.AHIMA.org for more information on career paths. In addition to course work, the HIM program includes 4 different clinical education experiences, which provide valuable hand-on learning to the HIM student.

The health information management program is accredited by the Commission on Health Informatics and Information Management Education (CAHIIM). Following satisfactory completion of all course requirements, the graduate will be awarded the degree of Bachelor of Science and students are eligible to sit for the RHIA (http://www.ahima.org/certification/RHIA) credentialing examination administered by the Commission on Certification for Health Informatics and Information Management (CCHIIM) an affiliate of the American Health Information Management Association (AHIMA) during their last semester of study. For more information, see http://www.shrs.pitt.edu/him/. Results from the 2016 outcomes assessment reported to CAHIIM in the 2017 Annual Program Report (APAR) indicate a 100% employer satisfaction rate, a 100% graduate satisfaction rate and a 100% pass rate National Certification Exam.

Admission Requirements

Students are admitted into the health information management program after successful completion of a minimum of 60 credits, including the following prerequisite courses:

- General Biology - 3 Credits
- Communication/Public Speaking - 3 Credits
- Information Science/Computer Science (must include a programming course) - 9 Credits
- General Writing - 6 Credits
- Mathematics* - 2-3 Credits
- General Psychology - 3 Credits
- Statistics* - 3-4 Credits
- Humanities/Social Sciences - 6 Credits

* A combination of 6 credits of math and statistics is required.

Other admission criteria include minimum cumulative GPA of 2.50 (based on 4.00), and minimum of a C- grade in all courses designated as prerequisite (C required for credit transfer from other institutions); volunteer or paid work experience in the field of health information management is recommended.

Pitt Students (including regional campuses)

Complete the SHRS ApplyYourself online application.

Transfer Students

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Health Information Management as their intended field of study. International transfer students click here.
All applicants must:

- Submit a personal essay—a brief statement discussing why you are interested in the Undergraduate Program in Health Information Management, your professional goals including how and when you became interested in this field of study. You may also include other areas of interest, extra-curricular activities and leadership experiences;
- Submit one letter of recommendation. Recommendation from a college instructor/professor, recent supervisor, or academic advisor preferred;
- Submit official transcripts from all colleges and universities attended;
- Applications can be submitted when course requirements are in progress.

Applications are reviewed on a rolling basis.

Part-Time Study

Students may pursue this program on a part-time basis. A meeting with the appropriate advisor is recommended.

Progression for the Registered Health Information Technician (RHIT)

Provision for transfer of credits may be made for those students who have satisfactorily completed a junior college health information technology program accredited by the Commission on Health Informatics and Information Management Education (CAHIIM). In addition, the HIM department has an articulation agreement with the Health Information Technology Program at the Community College of Allegheny County, enabling qualified graduates of the HIT program to matriculate into the HIM program at the University of Pittsburgh as juniors.

Clinical Education

Health Information Management undergraduate students participate in four different clinical education (CE) internships that facilitate a deeper understanding of the professional practice aspects of health information and related health-care areas. The overall goal of the clinical education is to provide students with practical experiences to apply their knowledge and skills that they develop as they progress through the HIM curriculum. Each internship experience provides the HIM student with a different focus, and the opportunity for the student to interact with HIM professionals as well as other professionals in the health care field.

The HIM department has affiliation agreements with approximately 200+ clinical sites for student internships. The following list provides a sample of these sites:

- Adelphi Village (behavioral health)
- Allegheny Valley Hospital
- Center for Connected Medicine
- Country Meadows Nursing Home
- creehan & company
- Diskriter, Inc.
- Geisinger Health System
- Heritage Valley Health Center
- Intermountain Health Care, Salt Lake City, UT
- Jameson Health System
- M*Modal
- MedAllies
- PA Department of Corrections
- The Innovation Center of UPMC
Prerequisites for Clinical Education:

Students must complete certain requirements to be eligible to participate in clinical education. The HIM Clinical Education Coordinator will provide detailed information and time guidelines for completion of these requirements once the student matriculates into the HIM program.

- Physical examination including proof or completion of specific immunizations
- TB test, 2-step
- Pennsylvania Criminal Record Check
- Pennsylvania Child Abuse Clearance
- FBI Background Check (includes fingerprinting)
- HIPAA Training and Certification
- Bloodborne Pathogen Training and Certification
- Students must carry personal health insurance while participating in clinical education
- Students must carry professional student liability insurance coverage while participating in clinical education. This coverage is provided by the SHRS group insurance plan and will appear as a charge on the students’ tuition bill.
- Some sites may have additional requirements (i.e. drug screen, influenza vaccine, or orientation programs specific to their organization).
- Clinical Education sites may not allow a student to participate in an internship at their site if the background check reports that they have been convicted of a misdemeanor; a felony; or a felonious or illegal act associated with alcohol and/or substance abuse.
- Current year Flu Shot

Additional Information:

- Travel to clinical education sites is the responsibility of the student. Students are expected to have a car or to provide their own transportation to all remote sites; no exceptions will be made. Not all sites are accessible by public transportation.
- All expenses for transportation, parking, meals, and costs of prerequisites associated with clinical education are the responsibility of the student.
- Approximate cost for clearances is $100 annually, and costs for physical exam and immunization status are dependent on health insurance coverage and provider costs.
- Approximate cost for drug screen is $40.

For more information on Clinical Education, email Patti Anania Firouzan, HIM Clinical Education Coordinator: patti@pitt.edu.

The Pitt Freshman Guarantee

All incoming Pitt freshmen choosing the Pre-Health Information Management major will be granted guaranteed admission for the Master of Science in Health and Rehabilitation Sciences with a concentration in Health Information Management (at regional Pitt campuses, choose corresponding codes).

Program Curriculum

Fall Term-Junior Year
- HRS 1020 - ANATOMY AND PHYSIOLOGY
- HRS 1027 - PATHOPHYSIOLOGY
- HIM 1405 - MEDICAL TERMINOLOGY, PHARMACOLOGY AND PATHOPHYSIOLOGY
- HIM 1406 - DATA MANAGEMENT AND ANALYTICS FOR HIM PROFESSIONALS
- HIM 1407 - DATABASE MANAGEMENT AND ANALYTICS FOR HIM PROFESSIONALS LAB
- HIM 1415 - INTRO HEALTH INFOR & HLTH CARE
- HIM 1416 - INTRO HEALTH INFOR LAB 1
  
- HIM 1420 - ORGANIZATIONAL THEORY & BEHAVIOR or
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR

Credits: 18

Spring Term-Junior Year

- HIM 1435 - CLASSIFICATION SYMS HEALTH CARE
- HIM 1436 - CLASSIFICATION SYSTEMS LAB 2
- HIM 1438 - CANCER REGISTRY THRY & PRACT LAB
- HIM 1440 - HIM CLINICAL EDUCATION 1
  
- HIM 1442 - APPLC OF STATCL CONCEPTS IN HIM or
- HRS 1008 - APPLC OF STATCL CONCEPTS IN HIM
  
- HIM 1455 - QUALITY MANAGEMENT
- HIM 1456 - QUALITY MANAGEMENT LAB

Credits: 14

Summer Session 1-Junior Year

- HIM 1445 - HUMAN RELATIONS IN HLTH CARE
- HIM 1460 - HIM CLINICAL EDUCATION 2
- HIM 1462 - EPIDEMIOLOGY
- HIM 1465 - REIMBURSEMENT SEMINAR

Credits: 6

Fall Term-Senior Year

- HIM 1470 - SUPERVISION HUMAN RESOURCES HC
- HIM 1475 - HIM NON-TRADITIONAL SETTING
- HIM 1480 - HIM CLINICAL EDUCATION 3
- HIM 1482 - LEGAL ASPECTS OF HEALTH CARE
- HIM 1485 - SYSTEMS ANALYSIS IN HLTH CARE

Credits: 13

Spring Term-Senior Year
HIM 1486 - FINANCIAL MANAGEMENT FOR HIM
HIM 1490 - ELECTRONIC HEALTH RECORDS
HIM 1495 - HIM CLINICAL EDUCATION 4
HIM 1496 - CAPSTONE COURSE IN HIM *

Credits: 12

Total Prerequisite Credits: 60

Total SHRS Credits: 63

Total Credits: 123

*Students take the RHIA Registration Exam

Note: For part-time and registered health information technician students, HIM Clinical Education HIM 1440, HIM 1460, HIM 1480, and HIM 1495 and HIM 1496 (Capstone Course in HIM) may be taken in any term with permission of advisor and the instructor after the appropriate prerequisite courses have been completed.

Program in Rehabilitation Science

The Bachelor of Science Program in Rehabilitation Science offers a dynamic curriculum designed to prepare students for graduate education in occupational therapy, physical therapy, physician assistant studies, prosthetics and orthotics, rehabilitation counseling and assistive technology, as well as for graduate studies in other health care fields. In addition to the coursework offered, the program has the flexibility to allow students to pursue their particular interests and goals. Students are encouraged to explore other areas of academic inquiry through elective courses, minors and certificates throughout the University and abroad; to participate in clinical experiences; to involve themselves in undergraduate research; and to develop their leadership and community building skills through participation in student organizations and community service.

The majority of faculty members who teach in this program are a strong interdisciplinary group of individuals from the School of Health and Rehabilitation Sciences departments, including the departments of Emergency Medicine, Occupational Therapy, Physical Therapy, Physician Assistant Studies, and Rehabilitation Science and Technology. In addition, instructors from other Schools of the Health Sciences (e.g. Nursing, Pharmacy, Public Health) teach within the program along with community leaders, clinicians and researchers with experience in selected areas.

Admission Requirements

Prerequisite Courses:

Students are eligible for admission to the rehabilitation science program after successful completion of 60 college credits including the following prerequisite courses, other admission criteria and an application. Applications will be viewed when approximately 45 credits are completed and 15 credit are in process.

- General Biology (BIOSC 0150) and Lab (BIOSC 0050 or BIOSC 0057) - 4 Credits
- General Chemistry and Lab (CHEM 0110) - 4 Credits
- Physics 1 (PHYS 0110) - 3-4 Credits
- Mathematics (MATH 0031 or higher) - 2-3 Credits
  MATH 0032 - TRIGONOMETRY AND FUNCTIONS or higher is highly recommended.
- Statistics (STAT 0200, STAT 1000, or higher) - 3-4 Credits
- Introduction to Psychology (PSY 0010) - 3 Credits
- Human Development - 3 Credits
  REHSCI 1245 - HUMAN DEVELOPMENT or PSYED 0005 - LIFE SPAN DEVELOPMENT preferred; PSY 0310 - DEVELOPMENTAL PSYCHOLOGY accepted
- English Composition (Minimum ENGCMP 0200 or equivalent) - 3 Credits
- Intensive Writing (W) (ENGCMP 0450 recommended) - 3 Credits
- Social Science/Humanities (ANTH 0780 recommended) - 6 Credits

Total Prerequisites: 34-37

Students planning to apply to graduate programs in health sciences are encouraged to complete most of the prerequisite courses for those programs (e.g., Physics 2, Biology 2, Chemistry 2, etc.) prior to admission to the undergraduate rehabilitation science program. Anatomy and Physiology (prerequisites for many professional health science programs) are included in the rehabilitation science curriculum.
Application Procedures

Required for admission: an application with all transcripts from colleges/universities attended, a personal essay, one letter of recommendation, and a resume. A minimum cumulative GPA of 2.5 and a minimum math and science prerequisite GPA of 2.5 is required (3.0 GPA is strongly preferred). Please note that admission to the Rehabilitation Science program is competitive. Meeting the minimum admission criteria does not guarantee admission.

For additional admission criteria, please refer to the SHRS Admissions section of this catalog.

Transfer Student Information:

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Rehabilitation Science as their intended field of study. International transfer students click here. Application deadline: February 15

Rehabilitation Science Curriculum

SHRS requires a minimum of 120 credits to graduate, 60 of which must be Rehabilitation Science credits (minimum 30 SHRS credits and 30 additional credits approved by RS Adviser)

Core Curriculum Requirements

- REHSCI 1225 - INTRO TO REHABILITATION SCIENCE
- REHSCI 1235 - MEDICAL TERMINOLOGY
- REHSCI 1240 - ISSUES IN HEALTH CARE
- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY

Human Anatomy:

One of the following:

- BIOSC 0041 - ANATOMY FOR THE HEALTH PROFESSIONS
- HRS 1020 - ANATOMY AND PHYSIOLOGY
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
  and
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
- REHSCI 1200 - HUMAN ANATOMY
  and
- REHSCI 1201 - HUMAN ANATOMY LAB
  Another approved human anatomy course

Human Physiology:

One of the following:

- BIOSC 1250 - HUMAN PHYSIOLOGY
- HRS 1020 - ANATOMY AND PHYSIOLOGY
- NROSCI 1250 - HUMAN PHYSIOLOGY
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
  and
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
• REHSCI 1205 - HUMAN PHYSIOLOGY  
  Another approved human physiology course

Neuroscience:

One of the following:

- NROSCI 0080 - BRAIN AND BEHAVIOR
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY
- REHSCI 1210 - NEUROSCIENCE

Research:

One of the following:

- REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY  
  strongly recommended
- PSY 0035 - RESEARCH METHODS
- SOC 0230 - SOCIAL RESEARCH METHODS  
  No longer accepted for incoming freshman Fall 2018 and later

Global Citizenship:

One of the following:

- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PSY 0186 - CROSS CULTURAL PSYCHOLOGY
- REHSCI 1297 - CROSS-CULTURAL INDEPENDENT STUDY
- REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION
- SOCWRK 1035 - GLOBAL PERSPECTIVES SOCIAL WORK
- SPAN 1323 - MEDICAL SPANISH  
  Study/Internship abroad with health, rehabilitation, or disability component, and an academic inquiry into culture. Contact department for additional details and requirements.

Additional Rehabilitation Science Elective Courses

- REHSCI 1215 - EXERCISE PHYSIOLOGY
- REHSCI 1218 - EMERGING BIOMEDICAL TECHNOLOGIES
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1230 - REHABILITATION ETHICS
- REHSCI 1245 - HUMAN DEVELOPMENT
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY
- REHSCI 1295 - FIELD EXPERIENCE
- REHSCI 1296 - ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE
- REHSCI 1299 - INDEPENDENT STUDY
Example Plan of Study

This plan of study example includes both required and elective courses offered in the Undergraduate Program in Rehabilitation Science. Students are encouraged to design their own plan of study based on their career, academic and personal interests.

Junior Year-Fall Term

- HRS 1701 - INTRODUCTION TO ORTHOTICS AND PROSTHETICS
- REHSCI 1200 - HUMAN ANATOMY
  and
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY
- REHSCI 1225 - INTRO TO REHABILITATION SCIENCE
- REHSCI 1235 - MEDICAL TERMINOLOGY
- REHSCI 1240 - ISSUES IN HEALTH CARE

Credits: 15

Junior Year-Spring Term

- Study Abroad - 15 Credits
  or
- REHSCI 1000 - PRINCIPLES OF RESEARCH METHOLOGY
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION

Credits: 15

Senior Year-Fall Term

- HRS 1704 - FUNDMS REHAB ENGR AND TECHN 1
- REHSCI 1210 - NEUROSCIENCE
- REHSCI 1215 - EXERCISE PHYSIOLOGY
- REHSCI 1230 - REHABILITATION ETHICS
- REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Credits: 15

Senior Year-Term 2
• REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
• REHSCI 1280 - PSYCH AND SOC LEGY OF DISABILITY
• REHSCI 1295 - FIELD EXPERIENCE
• Electives - 5 Credits

Credits: 15

**Assistive Technology in Rehabilitation Certificate**

**Undergraduate Rehabilitation Science Certificates**

The undergraduate program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Assistive Technology in Rehabilitation Certificate provides a focused area of study for students interested in careers providing technology to individuals with disabilities. It will prepare students for graduate programs such as prosthetics and orthotics or rehabilitation technology. It will also provide the course work and some of the clinical hours needed to satisfy the requirements for the RESNA (Rehabilitation Engineering and Assistive Technology Society of North America) Assistive Technology Supplier certification.

**Requirements**

Course requirements are as follows:

- REHSCI 1200 - HUMAN ANATOMY *
  and
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY *
- HRS 1701 - INTRODUCTION TO ORTHOTICS AND PROSTHETICS
- HRS 1704 - FUNDMS REHAB ENGR AND TECHN 1
- HRS 1706 - INTRODUCTION TO REHABILITATION ENGINEERING DESIGNS

- REHSCI 1210 - NEUROSCIENCE or
- NROSCI 1000 - INTRO TO NEUROSCIENCE or
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY

- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS

- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY or
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY or
- HRS 1515 - REHABILITATION PSYCHOLOGY or
- PSY 0515 - REHABILITATION PSYCHOLOGY or
- IL 1580 - FOUNDATIONS OF SPECIAL EDUC or
- IL 1560 - EARLY EDUCATION OF YOUNG CHILDREN WITH DISABILITIES or
- PSYED 1012 - DEVELOPMENTAL DISABILITIES

- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1296 - ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE

**Total Certificate Credits: 32-33**
*Or other approved Human Anatomy/Physiology course sequence.

**Pathokinesiology in Rehabilitation Certificate**

**Undergraduate Rehabilitation Science Certificates**

The undergraduate program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Pathokinesiology in Rehabilitation Certificate provides the student with an excellent background in the sciences related to normal and pathological motion. It complements coursework offered in graduate programs such as physical therapy, occupational therapy, physician assistant studies, exercise science, kinesiology, and sports medicine. With minimal additional coursework (nutrition and fitness instruction), it also prepares students to take examinations for certification as a personal trainer or fitness expert, such as the Certified Strength and Conditioning Specialist (CSCS®) offered by the National Strength and Conditioning Association.

**Requirements**

Course requirements are as follows:

- REHSCI 1200 - HUMAN ANATOMY
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY
- REHSCI 1210 - NEUROSCIENCE
- REHSCI 1215 - EXERCISE PHYSIOLOGY
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Total Certificate Credits: 25

**Psycho-Social Issues in Rehabilitation Certificate**

**Undergraduate Rehabilitation Science Certificates**

The undergraduate program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Psycho-Social Issues in Rehabilitation Certificate provides the student with a background in the psychological and social issues involved in disability, rehabilitation, and personal care. It helps prepare students for graduate programs in areas such as occupational therapy, physician assistant studies, rehabilitation counseling, accelerated or direct entry nursing programs, or disability studies.

**Requirements**

Course requirements are as follows:

- HRS 1704 - FUNDMS REHAB ENGR AND TECHN 1
- REHSCI 1200 - HUMAN ANATOMY
  and
• REHSCI 1201 - HUMAN ANATOMY LAB
• REHSCI 1205 - HUMAN PHYSIOLOGY
  another approved course

• REHSCI 1210 - NEUROSCIENCE or
• NROSCI 1000 - INTRO TO NEUROSCIENCE or
• PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY

• REHSCI 1230 - REHABILITATION ETHICS
• REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE

• REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY or
• HRS 1515 - REHABILITATION PSYCHOLOGY or
• PSY 0515 - REHABILITATION PSYCHOLOGY or
• HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY or
• IL 1580 - FOUNDATIONS OF SPECIAL EDUC or
• IL 1560 - EARLY EDUCATION OF YOUNG CHILDREN WITH DISABILITIES or
• PSYED 1012 - DEVELOPMENTAL DISABILITIES

• REHSCI 1275 - INTRO TO OCCUPATION SCIENCE

Total Certificate Credits: 26-27

*Or other approved Human Anatomy/Physiology course sequence.

SHRS Faculty

School of Health and Rehabilitation Sciences Faculty

Communication Science and Disorders

Full time Faculty:

Christopher Brown, PhD, Assistant Professor, PhD, Loyola University Chicago

School of Information Sciences

The Bachelor of Science in Information Science degree program at the University of Pittsburgh offers a curriculum that meets industry's needs. In fact, industry leaders have helped to develop this program. Our graduates have gained critical skills and broad theoretical knowledge in programming principles, database systems, networks, human-computer interaction, and systems design. They understand how to manage today's complex information systems and design the systems that business and industry will need in the future.

Grandparenting and the new School of Computing and Information

Information Science (IS) undergraduate majors who matriculated into the University of Pittsburgh PRIOR to Fall 2017 received a communication allowing a choice to either remain in the School of Information Sciences (SIS) or transfer to the new School of Computing and Information for completion of their IS degree.

- If a student chose to remain in the School of Information Sciences, they should refer to the these catalog pages for the regulations, policies, and requirements for their degree.
- If a student applied to transfer to the School of Computing and Information, they should refer to the School of Computing and Information catalog for the regulations, policies, and requirements for their degree.

*Please note: If a student took no action in response to the grandparenting e-mail, they were transferred to the School of Computing and Information by default.*

For any students matriculated into the University of Pittsburgh PRIOR to Fall 2017 who have not yet applied to the School of Information Sciences, the student will choose to apply to either the School of Information Sciences or the School of Computing and Information.

Any student matriculating into the University of Pittsburgh AFTER Fall 2017, must apply to the School of Computing and Information in order to pursue an undergraduate degree in either Computer Science or Information Science and should refer to the School of Computing and Information catalog for information.

412-624-5117

Admission Procedures
The freshman and sophomore years are spent in the College of Arts and Sciences or the College of General Studies. During the first two years, a pre-Information Science student takes courses needed for admissions and begins satisfying some of the required Skills, General Education, Related Area, and Information Science course requirements.

Upon completion of 55 credits, pre-Information Science students can apply to the Information Science program by meeting with their advisors and completing an Undergraduate Academic Program/Plan Add/Change Form and a BSIS School Transfer Application. Your advisor will send these, plus your folder, to the School of Information Sciences, and they will be reviewed by an admissions committee. Decisions are made in about two weeks. Deadlines: August 1 for the Fall Term, December 1 for the Spring Term, April 1 for the Summer Term.

Admission Requirements

To be considered for transfer to the Information Science program, applicants must present an adequate lower-level undergraduate academic record and be in good standing in the college or school in which they are currently enrolled. Applicants must have earned at least 55 credits hours of course work (including current term credits) and have demonstrated strong evidence of academic achievement. Students must have earned a "C" or better in any General Education, Skills, Related, or Information Science course. Meeting these minimum qualifications does not guarantee admission to the program. The total academic record, as well as the probability of completion of the Information Science program requirements within the remaining credit hours, will be considered. For further information, see the Transfer Students section below.

Students must complete INFSCI 0010-Introduction to Information, Systems, and Society.

Transfer Students

Students at other institutions who wish to apply for admission as transfer students to the program should submit a Transfer Application and supporting materials to the Office of Admissions and Financial Aid. Prospective transfer students should note especially that the evaluation of course work taken at other colleges and universities will be made by advisors at SIS. Students who have been admitted as transfer students will be told at the time of admission how much advanced standing credit they have been awarded by the undergraduate advisor.

Students in Pitt's undergraduate schools or regional campuses at the University should initiate the process of transferring into the Information Science program by completing an Undergraduate Academic Program/Plan Add/Change form and a BSIS Transfer Application and requesting that the school in which they were most recently enrolled send these to the School. Students currently on inactive status in the school of last registration must first be reinstated in that school before the transfer process can be completed.

Former students who have enrolled in other institutions may apply for readmission with advanced standing. Such students should apply to the University's Office of Admissions and Financial Aid. Credits earned elsewhere and accepted for transfer by the School will be added to those satisfactory credits originally earned at the University of Pittsburgh.

Post Baccalaureate and Guest Students

Post baccalaureate and guest students are holders of bachelor's degrees who have been permitted to take additional undergraduate course work as nondegree students. The number of credits that may be taken by nondegree, post baccalaureate students is limited to a maximum of 12.

Guest students are students who are matriculated in degree programs elsewhere but whom, with the permission of their home schools, wish to take courses in the Information Science program. The expectation is that credit thus earned will be transferred to the home school to be used in satisfying degree requirements. The home school must certify that the proposed arrangement is satisfactory before such a student will be admitted. Suspended or dismissed students, even with their home school's permission, cannot be admitted as guest students. Guest student status is not usually granted for more than two terms.

Application forms for admission as either a nondegree post baccalaureate or guest student are available at the School of Information Sciences. Acceptance cannot be granted until all necessary materials have been received, including the completed application form, official transcripts, and application fee. The deadlines for application for special students are August 1 for Fall Term, December 1 for Spring Term, and April 1 for Summer Term admissions.

Academic Integrity

634
A student has an obligation to exhibit honesty, and to respect the ethical standards of the information professions in carrying out his or her academic assignments. All students are responsible for adhering to policies on academic integrity, which are available on the School's Web site.

**Advising**

Since several of the Information Science courses may be taken during the first and second years of study, Information Science faculty cooperate with Arts and Sciences (A&S) and College of General Studies (CGS) advisors to help students plan the first two years of study. Information Science courses taken during the first two years serve two purposes:

- For those students who are undecided on a major, early contact with Information Science can provide a basis for deciding whether or not to major in the subject; and
- For those students who have already decided on Information Science as a major, the courses can indicate more fully the topics that are of interest and also reduce the load to be taken during the third and fourth years.

Once students have been accepted into the Information Science program, they are assigned an advisor. Initially, the student and advisor discuss the student's program in Information Science, a related field, and other academic options. Each term, the student and advisor should review the student's progress and select the courses to be taken to satisfy the student's program goals. In addition, the student and advisor should discuss career goals, educational plans, and any academic-related problems.

The School's policy emphasizes the role of an advisor in providing advice for academic decisions, and students are urged to take full advantage of their advisor's experience and knowledge as often as needs arise. To avoid schedule conflicts, students are strongly advised to contact their advisors for an appointment.

**Academic Standards**

Full-time students in the program are expected to complete 24 credit hours of work each academic year with a GPA of at least 2.75 (12 credit hours for students granted part-time status). They are also expected to maintain a cumulative GPA of 2.50 and a 2.50 GPA in Information Science courses. Failure to meet any or all of these conditions automatically places a student in academic jeopardy. Students who fail to meet these conditions for two consecutive terms and who, in their most recent term of residence, failed to complete 12 credits (6 credits for part-time students) with a GPA of 2.50 are liable to be suspended. Students who have been suspended are not permitted to enroll in University courses for one calendar year.

Students who have been admitted to the Information Science program are eligible to continue as long as a satisfactory academic standing is maintained or until the degree has been earned. The School's statute of limitations requires that all of the credits required for the Bachelor of Science degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, the director of the undergraduate program may waive this limitation. In such cases, the waiver is for a specific period during which the program must be completed.

**Credit Load**

A normal credit load ranges from 12 to 18 credits per term, with a minimum of 24 credits in an academic year. Any term credit load in excess of 18 credits requires the approval of the director of the undergraduate program and approval of the dean at the School of Information Sciences. No more than 60 credits may be taken in one department or school, and usually not more than 40 credits are considered desirable in a well-balanced program.

**Course Repetitions**

Required courses for an Information Science major must be repeated or replaced by a comparable course if a grade of C- or lower is received. If a grade of C- or lower is earned in a prerequisite course, the course must be repeated before the higher-level course may be taken. If a grade of C- or lower is earned in any course taken to satisfy a degree requirement, the course must be repeated or replaced. Course repetitions are subject to the following limitations:

- No course passed with a C or higher letter grade or with an S grade should be repeated.
The grade earned by repeating the same course replaces the grade originally earned, although the original grade is not removed from the transcript. The grade originally earned is not counted in the computation of the GPA. The new grade does not increase the number of credits counted toward graduation unless an F grade is replaced by a higher grade or an S grade.

- No course may be repeated at any other institution.
- A specific course may be taken for credit only once.

**Similar Course Content**

Students should not take courses with similar content from other departments. Limitations have been imposed on certain computer programming language and psychology courses. A listing of these limitations may be obtained from the director of the undergraduate program.

**Courses Taken Elsewhere**

Students in good academic standing may attend a summer or special session at another accredited institution in order to supplement their program. The students should meet with and obtain approval from either the BSIS Program Director or their advisor PRIOR to registering for these special courses. Students who have already completed 90 credits of coursework are not allowed to take courses elsewhere. Generally, courses may not be a repetition of any course previously taken (passed or failed).

To obtain permission to attend another institution, a student must have begun his or her program at the University of Pittsburgh or have been admitted as a transfer student from another institution with no more than 60 advanced standing credits.

A maximum of two summer or special sessions may be taken at other institutions with a maximum of two courses per session. After completing such courses, an official transcript should be submitted to the BSIS office.

**Transfer Credits**

Students admitted by transfer will have their transfer credits evaluated subject to the following conditions:

- Students who have not satisfied the second language requirement (detailed under the Program Description section) shall be required to do so in the first two terms of residence at the School of Information Sciences.
- An official transcript of all courses taken at other institutions must be submitted at the time of application, whether or not it is intended that such courses be counted toward the degree. For acceptance, courses must be passed with a satisfactory grade (minimum of C or equivalent) and must be earned at an institution accredited by the appropriate regional accrediting association. Grades for such courses are not used in computing a student's GPA nor in determining probationary status or eligibility for graduation honors.
- Generally, courses that have a reasonable counterpart in the curricula of the various schools/departments of the University of Pittsburgh are eligible for transfer.
- The number of credits granted for a course cannot exceed the number on the transcript from the institution where they were earned nor, usually, exceed the number to be earned in the corresponding course at the University of Pittsburgh.
- No transfer credits may be part of the final 30 required credits for the degree. These credits must be earned in residence at the School of Information Sciences. Credits earned at regional campuses and in international programs are considered as transfer credits.
- Credits accepted for advanced standing must have been earned within 12 years of the date when the degree requirements must be completed.
- Transfer credits for courses that do not have reasonable counterparts in the curricula of the various schools or departments of the University cannot be used to satisfy requirements for the degree, unless approved by the director of the undergraduate program.
- No more than 90 credits may be transferred from a four-year institution, and no more than 60 credits may be transferred from a two-year institution.
- If a course for which advanced standing credit has been granted is repeated, the advanced standing credit is canceled.

**Credit by Examination**
Students may earn credits toward graduation not only by successfully completing courses but also by taking special examinations. Each test for credit by examination must be arranged with the school/department offering the course for which credit is desired. The examination must be in a specific course offered by the faculty of the school or department. Schools/departments may specify the time and type of examination as well as which courses are possible to elect as credit.

Students may not take credit by examination for material prerequisites for college admission. If, during their high school careers, students have mastered material traditionally covered in college courses and not required for college admission, they may request credit by examination for the material if the school's or department's equivalent course is one for which it generally permits credit by examination. Credit by examination cannot be obtained for a college-level course for which credit has already been awarded, nor can it be used to alter a grade already received. Credit may not be earned by examination in lower-level sequence courses when the student has already obtained credit for a higher-level course in the sequence. Students are not permitted to audit courses without registering and then apply for credit by examination. Students wishing to earn credit by examination should consult the school/department in which the course is given and then obtain the requisite form from the appropriate dean's office. There is a fee for the examination whether or not credits are earned.

Grades

The School of Information Sciences uses both the University's letter grade and Satisfactory/No-Credit (S/NC) grade options (formerly the S/N option) (see Grading and Records for more information). In addition to the general University rules governing those grading systems, there are a few formal limitations to the student's freedom of choice regarding grading systems:

- Students must decide by one week after the end of the add/drop period which grading system they propose to use for each of their courses. This decision may not be changed, nor may a grade of one kind received for a course be changed to a grade of the other kind (e.g., from an S/NC grade (formerly the S/N option) to a letter grade).
- Schools/departments may decide which courses may be taken on the S/NC system (formerly the S/N option).
- No courses required for the information science major, the related field, information science distribution, general distribution, English composition, or language requirements may be taken on the S/NC system (formerly the S/N option).
- Students are limited to a total of 18 credits of S grades that may be applied to the 120 credits required for the degree.
- Students should be sure, before deciding on the grading system for a course, that their decision will not have an adverse effect on their plans for a major.
- Under certain circumstances, schools/departments may declare a course available only on the S/NC system (formerly the S/N option). In such courses, students may not elect to receive a letter grade.

Evaluation of a student's ability and achievement in a course is not eliminated by the Satisfactory/No-Credit (S/NC) system (formerly the S/N option). Recitations, tests, and papers may all be required and assessed by instructors who will convey to the student their judgments of the worth of the student's work. Because the publicly recorded evaluation is minimal, students should use the instructor's comments in the most helpful way possible: as a guide to their own future course of study and for assessment of their own potential.

Since it is difficult to evaluate transcripts containing very few letter grades, students seriously considering transferring to the Information Science program or considering graduate study should keep this in mind. The student may wish to ask instructors from whom they have taken courses on the Satisfactory/No-Credit (S/NC) system to write letters of recommendation for them immediately at the end of the course. The office of the undergraduate program will supply forms for such letters and will make them a permanent part of the student's file. Students may also wish to keep portfolios of their best academic work and other evidence of ability and accomplishment with which they might supplement the formal transcript and letters of evaluation when they apply for transfer or for graduate study. This recommendation is useful for all students whatever grade options they select.

Dean's List

Early in each term, a list is compiled of students whose academic record in the preceding term indicates outstanding academic achievement. To be placed on the School's Dean's List, a student must have earned at least 12 credits with a grade of A, B, or C; must have no grade lower than C; and must have a term GPA of at least 3.25. Full-time and part-time students are eligible for placement on the Dean's list.

Reinstatement
Students who have resigned or been suspended, as well as other students who have been away from the University for more than one term may apply for reinstatement. Students interested in reinstatement should contact the BSIS office. A reinstatement application should be submitted to the Undergraduate Admissions and Evaluation Committee at least one month prior to the beginning of the term in which the student plans to enroll. Favorable action may be expected if students provide evidence that they can pursue an academic program with some prospects for success. Since registration advising meetings are usually held from the seventh to the twelfth week of the preceding term, applications for reinstatement should be received within that period so that the faculty advisor may assist in planning the program and in registering the student. The student's status upon reinstatement will be that attained at the end of his or her last term in residence or at the beginning of the term during which resignation took place. Applicants will be notified by letter of the action taken on their requests. Any courses that students take at another institution during a period of suspension shall not be granted credit by the School after the student has been reinstated unless the student petitioned the faculty and received permission in advance.

**Dismissal**

A suspended student who is subsequently reinstated remains on probation for at least one term and until the cumulative GPA has been raised to at least 2.50 and the information science major GPA has been raised to at least 2.50. As long as the reinstated student remains on probation, failure in any term to complete 12 credits of work (or those credits for which a part-time student has registered) with a cumulative GPA of at least 2.50 and an information science GPA of 2.50 will constitute grounds for dismissal from the School of Information Sciences for five years.

**Special Academic Opportunities/Programs**

The following additional academic opportunities are available through the School of Information Sciences:

**Cooperative Program with the University of Pittsburgh at Greensburg**

A cooperative arrangement between the School and the Greensburg campus of the University of Pittsburgh makes it possible for Greensburg students to major in information science. Students may complete most of their course work, including work in major courses, on the Greensburg campus but will typically want to cross register for some courses on the Pittsburgh campus to take advantage of courses and laboratories not available at Greensburg. The Bachelor of Science degree in Information Science is awarded by the School of Information Sciences. For additional information about this program, students should contact Susan Hahn (shahn@pitt.edu) at the University of Pittsburgh at Greensburg.

**Double Degrees**

Students in the School of Information Sciences may choose to simultaneously pursue more than one undergraduate degree, either within the College of Arts and Sciences or in another undergraduate school at the University. The School of information Sciences also offers a joint degree program with the College of Business Administration. In general, earning two degrees requires a minimum of 150 credits and completion of the curriculum requirements of both schools. Detailed information about double degrees or joint programs is available from the BSIS office.

**Second Degree Program**

Those who already have received a Baccalaureate degree in another discipline and wish to earn a BSIS degree are encouraged to apply to:

The BSIS office (if you've received a Baccalaureate degree from the University of Pittsburgh within the last 12 years).

The University of Pittsburgh's Office of Admissions and Financial Aid (if you earned a Baccalaureate degree from an institution other than the University of Pittsburgh within the last 12 years). You will need to complete a Transfer Application and submit any requested fees.

**Enrollment in Graduate Courses**
Undergraduates with sufficient preparation are encouraged to take advantage of the rich variety of graduate courses offered by the departments and schools of the University. Students enrolled in the Information Science program may use credits in graduate courses toward their undergraduate degree. To enroll in a graduate course, students must obtain the written consent of the instructor of the course, have a 3.00 cumulative GPA, and have the approval of the director of the undergraduate program.

**Independent Study Courses**

The Information Science program offers the student the option of conducting an independent study with a faculty member in the School of Information Sciences. Students who have a special project or wish to work in an area not adequately covered by regular INFSCI courses should request a faculty member to supervise independent work aimed at their particular interests, and, if accepted, they should register for INFSCI 1080 Independent Study. Any student registering for an information science independent study course must have at least five information science courses completed, a 3.00 cumulative GPA, and consent of the faculty advisor and faculty sponsor.

To obtain permission to complete an independent study, students must submit a proposal presenting a design for the project and must find a faculty sponsor who will serve as director. The proposal must include detailed plans for the project. Substantial written work or some other form of creative product is usually one outcome of an independent study course.

**The Capstone Experience/Course**

Students in the undergraduate program in information science will participate in a capstone experience, gaining experience through a research project in the school, an internship with regional industry, or a self-designed project.

Students planning to enter the workforce upon graduation are strongly encouraged to intern with one of the many businesses and industries in the Pittsburgh region. Pittsburgh is home to many international corporations in a variety of industries including health care, financial services, education, manufacturing, and technology.

In completing your capstone experience, you can:

- Assist with graduate-level research
- Self-design a project
- Intern with a regional company. SIS students have interned with PPG, U.S. Steel, Alcoa, Mellon Financial Corp., Google, Lockheed-Martin, Deloitte, FedEx Ground, and the University of Pittsburgh Medical Center.

**School of Information Sciences Course Offerings**

Courses offered by the School of Information Science are available at www.sci.pitt.edu

**School of Information Sciences Undergraduate Program**

**Faculty**

www.sci.pitt.edu

**Program and Course Offerings**

**Department of Information Sciences**

**Information Science, BS**
To be awarded a Bachelor of Science degree with a major in Information Science, the student must:

- Earn a minimum of 120 credits with a minimum of 15 of those credits in a related field. A related field consists of five courses from the same academic area. All of the final 30 credits and at least 15 credits in Information Science (INFSCI) must be taken through the School of Information Sciences.
- Possess an overall cumulative and Information Science GPA of at least 2.50.
- Satisfy the distribution of studies requirement.
- Fulfill any remaining requirements that may have been noted at the time of entrance (e.g., English composition, language requirements, and statistics requirements).
- To apply for graduation, you should make an appointment with the Undergraduate advisor in the term BEFORE you expect to graduate.

Note: The requirements outlined in this section represent minimum degree satisfaction.

Grandparenting and the new School of Computing and Information

The following degree information is relevant only to students enrolled in the School of Information Sciences.

If you were matriculated into the University of Pittsburgh PRIOR to Fall 2017, you should have received a communication allowing you to choose whether you wanted to remain in the School of Information Sciences or transfer to the School of Computing and Information. If you chose to remain in the School of Information Sciences, please refer to these catalog pages for the remainder of your time at Pitt. If you chose to transfer to the School of Computing and Information, please refer to the appropriate catalog pages.

Please note: If you did not specify your decision, you were transferred to the School of Computing and Information by default.

For full grandparenting details, please see the School of Information Sciences main catalog page or contact the School's Office of Student Services at SClug@pitt.edu.

Major Requirements

English Composition Requirements

All students entering Arts and Sciences (A&S) as freshmen are required to take a writing placement examination. (For more information on the A&S composition requirement, see Skills Requirements in the Arts and Sciences section.)

In addition, Information Science students are required to take ENGCMP 0200 - SEMINAR IN COMPOSITION along with ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION, ENGCMP 0440 - CRITICAL WRITING, or ENGCMP 0450 - RESEARCH WRITING.

Language Requirements

All students entering the Information Science program are required to satisfy a second language requirement. This requirement can be fulfilled by one of the following:

- Two years of the same second language in high school completed with a grade of C or better each year,
- One year of a second language in high school completed with a grade of C or better and one term of the same second language in college completed with a letter grade of C or better, or
- Two terms of the same second language in college completed with a letter grade of C or better.

If the second language requirement has not been satisfied by the time of admission, the student will be required to resolve this deficiency by the end of the second term at the School. In addition, all Information Science students are required to complete LING 1000 - INTRODUCTION TO LINGUISTICS or PHIL 0500 - INTRODUCTION TO LOGIC with a letter grade of C or better.

Quantitative Requirements

All Information Science students must complete one of the following mathematics courses with a letter grade of C or better:

- MATH 0120 - BUSINESS CALCULUS
• MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
• MATH 0400 - FINITE MATHEMATICS

Note:

In addition, a statistics course must be completed with a letter grade of C or better. See this Web site for listing of specific statistics courses.

General Distribution of Studies Requirement

All students are required to complete 9 credits in each of the three traditional divisions of A&S: the humanities, the natural sciences, and the social sciences. A copy of the Information Science-approved list of courses may be obtained from the BSIS Web site.

Literature: A minimum of one literature course selected from the Information Science-approved list and completed with a letter grade of C or better.

Music and Art: A minimum of one course selected from the Information Science-approved list and completed with a letter grade of C or better.

Communication: A minimum of one of the following communication courses with a letter grade of C or better:

• COMMRC 0300 - COMMUNICATION PROCESS
• COMMRC 0520 - PUBLIC SPEAKING

Social Science: A minimum of two courses from among two different fields selected from the Information Science-approved list must be completed with a letter grade of C or better.

History and Culture: A minimum of one course from the Information Science-approved list must be completed with a letter grade of C or better.

Psychology: All Information Science students must complete PSY 0010 - INTRODUCTION TO PSYCHOLOGY with a letter grade of C or better.

Natural Science: Students must complete a two-course sequence in biological sciences, neurosciences, chemistry, geology and planetary science, or physics and astronomy, selected from the Information Science-approved list. In addition, one course in a field different from the two-course sequence will be required. All courses must be completed with a letter grade of C or better.

Information Science Course Requirements

Core courses must be taken by all students

• INFSCI 0010 - INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY
• INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING
• INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
• INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS
• INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS
• INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN

Note:

Students may then choose to tailor their studies by taking one of our industry-advised specializations.

Information Systems

This specialization in information systems enables students to use object-oriented design tools and state-of-the-art best practices to design, build, implement, and test Web-based information systems. Coursework may include INFSCI 1017 - IMPLEMENTATION OF INFORMATION SYSTEMS, INFSCI 1068 - GEOSPATIAL INFORMATION SYSTEMS (GIS), INFSCI 1025 - DESIGN OF INFORMATION SYSTEMS, INFSCI 1026 - MANAGEMENT OF INFORMATION SYSTEMS, and INFSCI 1092 - SPECIAL TOPICS: SYSTEMS. See the course descriptions here for more details and prerequisites.
Networks and Security

This specialization offers skills needed to design, build, and test LANS, WANS, Wireless, Internet, and Web-based networks. Coursework might include INFSCI 1071 - APPLICATIONS OF NETWORKS, INFSCI 1074 - COMPUTER SECURITY, INFSCI 1072 - INTRODUCTION TO WIRELESS NETWORKS, and INFSCI 1073 - APPLICATION DEVELOPMENT FOR MOBILE DEVICES, INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS, INFSCI 1075 - NETWORK SECURITY, and INFSCI 1092 - SPECIAL TOPICS: SYSTEMS. See the course descriptions here for more details and prerequisites.

User-Centered Design

This specialization provides the visual and human-computer interaction skills needed to design and build prototypes of information systems interfaces as well as to perform usability testing of these systems. Coursework might include INFSCI 1052 - USER CENTERED DESIGN, INFSCI 1014 - GRAPHICS, INFSCI 1059 - WEB PROGRAMMING, INFSCI 1079 - COMPUTER NETWORKING LABORATORY, and INFSCI 1092 - SPECIAL TOPICS: SYSTEMS (see the course descriptions here for more details and prerequisites.)
School of Nursing

The School of Nursing, as an integral part of the University of Pittsburgh, subscribes to the University's commitment to teaching, research, and service. Through these major functions, the school strives to have a positive impact on the quality of health care for all people.

The school offers baccalaureate (BSN), master's (MSN), and doctoral programs in philosophy (PhD) or nursing practice (DNP) that anticipate and reflect health care needs locally, nationally, and internationally. It prepares graduates to function effectively in multifaceted, roles in a variety of settings to promote the health and well-being of people. It strives to instill a spirit of inquiry, encourage academic excellence, and foster lifelong learning in all students. The school seeks to enroll highly qualified students who represent racial, cultural, and geographic diversity and to prepare students for employment in a multicultural society. In keeping with the University's emphasis on excellence in undergraduate education, the school is committed to providing an undergraduate program with a strong clinical focus that builds upon a background in the liberal arts and sciences and provides the foundation for its graduates to become outstanding clinicians.

The knowledge, skill, teaching effectiveness, and diversity of the faculty are important factors in the success of our graduates. The school is committed to fostering excellence in teaching through the faculty's clinical expertise and practice, instructional competency, and development of state-of-the-art knowledge through research. State-of-the-art technology is used to enhance student access and learning. The school supports an environment conducive to research, encourages interdisciplinary collaboration, and seeks to make research an integral part of the learning environment. The success of the school's research agenda continues to determine its national recognition and realm of influence.

The school believes that faculty and students should engage in public, professional, and community services as a way for them to share their knowledge, positively influence patient care delivery, and enhance their own and their peers' professional growth. Such involvement provides leadership for societal change, helps develop effective health care policies, and enhances health care for all people. Service is reflected in leadership and volunteer responsibilities related to the political process, professional organizations, and community service agencies.

Nursing Living Learning Community (LLC)

The Nursing Living Learning Community is an on-campus residency/learning community for nursing students. LLC expresses the School of Nursing's commitment to giving a small campus experience at a large institution. Students are provided with a well-rounded approach to their studies as well as University life, while allowing students to be housed together on one floor, in a group setting. Situated in Lothrop Hall, the LLC is adjacent to the Victoria Building, which houses the School of Nursing. This proximity to the Nursing School provides and added element of convenience for the student. The resident assistant for the LLC is a third or fourth year nursing student who works closely with the faculty and staff in the School of Nursing. One of the goals for the LLC is to provide students with educational experiences that are not normally afforded to incoming first year students. Students who participate in the LLC are given an early opportunity to develop their leadership skills by attending the prestigious Emerging Leaders Program. The LLC also schedules and facilitates study group sessions, nursing presentations, and social gatherings for the nursing residents.

Admission to the LLC is by application only and is limited to students in the traditional undergraduate baccalaureate program.

Contact Information

University of Pittsburgh
School of Nursing
Student Affairs & Alumni Relations
240 Victoria Hall

www.nursing.pitt.edu

Admission Information

The School of Nursing will accept applications for the Undergraduate Baccalaureate Program from prospective students who have had the following educational preparation:
High school graduates

- High school graduates
- Students transferring from the regional campuses and other schools of the University of Pittsburgh
- Students transferring from other colleges and universities
- Graduates from a baccalaureate program in any field of study (Accelerated 2nd Degree BSN Program)

All students who wish to obtain a Bachelor of Science in Nursing degree must apply and be accepted into the School of Nursing. Admission to other schools within the university, or to regional campuses does not guarantee admission to the School of Nursing. In general, the student's educational background will determine the most appropriate curriculum plan and program track in which to earn a BSN.

Individual State Boards of Nursing may prohibit a person convicted of any felonious act from licensure as a registered nurse (RN). Prospective students in that situation should contact the Board of Nursing in the state where they plan to practice following graduation.

High School Graduates

Applicants may obtain application information from the Office of Admissions and Financial Aid's Web site: http://www.oafa.pitt.edu/freshadm.aspx. Online application is also available on the OAFA web site.

Additional information regarding the application process and eligibility criteria is available on the School of Nursing Web site: http://www.nursing.pitt.edu/degree-programs/undergraduate-bsn-program

All high school applicants must meet the requirements for admission to the University of Pittsburgh as well as those specifically for the School of Nursing. High school courses required of all applicants are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units*</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics</td>
<td>4</td>
</tr>
<tr>
<td>Social Studies</td>
<td>3</td>
</tr>
<tr>
<td>Science with a related laboratory or the equivalent (one unit must be in chemistry)</td>
<td>3</td>
</tr>
<tr>
<td>Academic Electives**</td>
<td>5</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>19</td>
</tr>
</tbody>
</table>

*A unit is equivalent to one year of successful completion of acceptable coursework.

**Two units of second language as an elective are highly recommended.

Each high school applicant is required to submit results of the SAT or ACT. The Admissions Office may request additional information, examinations, or measures for determining eligibility.

Students Applying for Transfer from within the University (Internal Transfer)

Students who wish to transfer from schools within the University (College of Arts and Sciences, College of General Studies, and regional campuses) to the undergraduate program in the School of Nursing must consult with their academic advisor to officially initiate the transfer process. All records must be received by the School of Nursing in order for students to be considered for admission. Admission is offered for the Fall and Spring terms. The School of Nursing makes transfer decisions through a competitive process based upon academic eligibility and seating availability. For more information refer to:

http://www.nursing.pitt.edu/admissions/internal-transfer-applicants
Students Applying for Transfer from Other Universities or Colleges (External Transfer)

Applicants who have completed at least 12 credits or one full-time term of study at any institution of higher education other than the University of Pittsburgh will be considered for transfer into the School of Nursing on a competitive basis. Prospective transfer students are required to complete an online Transfer Application and submit all necessary supporting materials to the Office of Admissions and Financial Aid. For more information refer to: http://www.nursing.pitt.edu/admissions/external-transfer-applicants

Admission to the School of Nursing as a transfer student is contingent upon vacancies in the first year class. Competitive transfer applicants typically have a minimum GPA of 3.5 (on a 4.0 scale) after completion of 24 credits at a college level and B grades or better in science classes and SAT score of 1280 or higher (or an ACT composite score of 27 or higher). However, exceptions may be considered based upon the qualifications of the applicant. Applicants will be evaluated on their academic performance in both high school and a college or university. The following points govern the allowable advanced-standing credits:

- Official transcripts of courses taken at other universities or colleges must be submitted.
- Course descriptions for each course must be submitted to be considered for advanced-standing credits.
- Course content must be comparable to that offered at the University of Pittsburgh.
- The credit transferred for any course can be no greater than the credit given at the University of Pittsburgh.
- Only courses with letter grades of B or better are transferable.
- Credit for service, correspondence, or extension courses is not transferable.
- Science courses must have been completed within the past eight years. The Associate Dean for Student Affairs and Alumni Relations (or designee) must approve any exception to the eight-year guideline.

Readmission

Unless there are special circumstances on record in the school, a student who has attended a different university/college while not attending the University of Pittsburgh is required to reapply through the University Office of Admissions and Financial Aid (OAFA). Readmission will be contingent upon a vacancy in the class to which the student is to be readmitted. The start of the program of studies will be based on courses completed, current curriculum, and placement considerations.

Admission of Students from Other Countries

International applicants for the four year undergraduate BSN should apply using the International Student Undergraduate Application. For more information go to the International Student Admissions Web site: http://www.oafa.pitt.edu/intladm.aspx.

RN Options and Accelerated 2nd Degree BSN International applicants should apply directly to the School of Nursing: https://app.applyyourself.com/?id=up-nurs

Applicants are required to submit official, original academic credentials in certified English translation. The application process should be started 9 to 12 months in advance of the intended enrollment date.

An applicant whose native language is not English must take the Test of English as a Foreign Language (TOEFL) and submit official test results. Applicants must have a level of English proficiency reflected by a score of at least 213 or greater (computer-based test), or 550 or greater (paper-based test), or 100 or greater (Internet-based test). The school will accept official scores from International English Language Testing Systems (IELTS) for a minimum test band score of 6.5 taking the academic writing and reading modules of the test). Applicants seeking fall term admission must take the TOEFL/IELTS no later than the preceding March. The Institutional code for the University of Pittsburgh is 2927 and the School of Nursing Code is 43. See the International Student Admissions section of this bulletin for more information on the TOEFL. Subject-specific international academic credential evaluation of official college transcript is required. For more information refer to: http://www.oafa.pitt.edu/intladm.aspx.

RN Options Applicants
RN-BSN (Online Offering)
RN - MSN (Online Offering in Informatics and Clinical Nurse Leader- CNL)
RN- DNP (Onsite offering ONLY)

The University of Pittsburgh RN Options (BSN or early Admission to MSN or DNP) curriculum is designed for registered nurses, who obtained their initial nursing education through either a CCNE, ACICS or ACEN [NLN] accredited diploma or associate degree or diploma program and want to pursue undergraduate education with early admission to graduate nursing program. Courses are taught by nursing leaders who are experts in their field. Faculty serve as educators, role models and mentors for their students. The RN Options curriculum builds upon the individual professional nurse's strengths and experiences to expand professional knowledge and practice skills. Graduates of the University of Pittsburgh School of Nursing possess critical appraisal/thinking skills, sophisticated clinical practice knowledge, and the ability to integrate the latest research findings to provide quality, safe and effective patient care.

Registered nurses who are interested in pursuing a Bachelor's Degree only or Early Admission to the MSN or DNP track applicants should apply online directly to the School of Nursing at: http://app.applyyourself.com/?id=up-nurs

Course offerings are flexible and students may begin coursework in any term (fall/spring/summer).

The RN-BSN and RN-MSN is now offered in an online format with following exception: Neonatal Nurse Practitioner (NP) Area of Concentration (AOC). The DNP program will only be offered in an onsite format.

**Application Guidelines**

Applications are reviewed on a rolling basis. Applicants must submit evidence of previous education and other required documents as listed below.

**For RN-BSN:**

- Successful completion of a nursing diploma or associate degree program by submitting official Transcripts from institution.
- Cumulative Grade Point Average (GPA) of 3.0 for previous college and/or coursework, which must be semester credits or the equivalent.
- Copy of current RN license (students may be permitted to take theory courses only until evidence of successful completion of NCLEX is provided) (All students must obtain a Pennsylvania license)
- Successful completion of all prerequisite courses
- Brief type written essay
- Current resume
- Three letters of professional recommendation
- Completed online application
- International applicants: consult nursing.pitt.edu & ois.pitt.edu
- Formal interview.

**For the RN-MSN or DNP early admission track:**

- Successful completion of a nursing diploma or associate degree program by submitting official Transcripts from institution.
- Cumulative Grade Point Average (GPA) of 3.0 for previous college and/or coursework, which must be semester credits or the equivalent.
- Copy of current RN license (All students must obtain a Pennsylvania license) (students may be permitted to take theory courses only until evidence of successful completion of NCLEX is provided)
- Successful completion of all prerequisite courses
- ≥ 3.0 GPA in Associate Degree or nursing diploma (from ACEN (NLN), ACICS, or CCNE accredited program)
- Graduate Record Exam (GRE) :
  - MSN track - may be waived if the RN program GPA is 3.5 or higher;
  - or DNP track - no waiver, Verbal & Quantitative sections (competitive score), Analytical Writing (≥ 3)
- Brief type written essay (include DNP project statement as needed)
- Current resume
- Three letters of professional recommendation, one from current manager
- Completed online application
- International applicants: consult nursing.pitt.edu & ois.pitt.edu
- Formal interview*
RN-MSN or RN-DNP option applicants must meet the admission criteria for the BSN Program and simultaneous conditional admission to the preferred graduate program. While in RN-MSN or RN-DNP, students receive a BSN degree and continue with the graduate program. Twenty-four (24 cr.) bridge credits are counted in BSN requirement as well as graduate level curriculum. Full and part-time schedules are available. Potential students will meet with the RN Options Coordinator for an interview and must meet with the coordinator of the graduate program.

Accelerated 2nd Degree BSN Program Applicants

The Accelerated 2nd Degree BSN is designed to enable individuals with a Baccalaureate Degree in another discipline the ability to earn a Bachelor's of Science Degree in Nursing (BSN) in three consecutive full-time terms. The Accelerated 2nd Degree BSN requires 122 credits: 31 credits from a previous degree, 36 to 38 prerequisite credits, and 54 curriculum credits. The curriculum is fast-paced and designed to build upon the individual's previous education while providing additional science and nursing content. At the completion, graduates are eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Admission to the Accelerated 2nd Degree BSN is competitive and is based upon proven academic achievement and grades earned in prerequisite courses. The school admits three cohorts, Fall, Spring and Summer.

The Accelerated 2nd Degree BSN requires an applicant to complete 36 prerequisite credits. These courses may be taken at any college or university. Courses from other institutions must be evaluated as equivalent to University of Pittsburgh courses. (Coursework taken at the University of Pittsburgh School of Nursing prior to admission may be taken as a non-degree seeking student.)

Required prerequisites include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General &amp; Bio-Organic Chemistry*+ (includes a lab)</td>
<td>4</td>
</tr>
<tr>
<td>English Composition (scientific/technical)</td>
<td>3</td>
</tr>
<tr>
<td>Directed Elective</td>
<td>3</td>
</tr>
<tr>
<td>Psychology</td>
<td>3</td>
</tr>
<tr>
<td>Sociology</td>
<td>3</td>
</tr>
<tr>
<td>Statistics (descriptive, probability, &amp; inferential)</td>
<td>3</td>
</tr>
<tr>
<td>Human Anatomy &amp; Physiology *+ (includes a lab)</td>
<td>6-8</td>
</tr>
<tr>
<td>Human Genetics *+</td>
<td>3</td>
</tr>
<tr>
<td>Microbiology *+ (includes a lab)</td>
<td>4</td>
</tr>
<tr>
<td>Pathophysiology</td>
<td>4</td>
</tr>
</tbody>
</table>

*Should have been completed within the past ten years
+Should have achieved a grade of "B-" or better

Early submission of an application is recommended. New classes begin in the Fall, Spring and Summer term. Accelerated 2nd Degree BSN applications are reviewed, and admission decisions are made on a rolling basis. Preferred application deadlines are Fall Term—February 15; Spring Term—June 1; and Summer Term—October 1. Application information and other materials are located on the web at accelerated 2nd degree admissions. Prospective students must apply online to the School of Nursing at http://app.applyyourself.com/?id=up-nurs.

Application items include:

1. Completed online application
2. Official transcripts of all course work taken at any university or college
3. Two (2) letters of professional recommendation (via online application or mailed in signed, sealed envelopes)
4. Resume
5. Personal essay explaining how this program will help achieve professional goals
6. Application fee (non-refundable and does not apply to payment of tuition)
7. **INTERNATIONAL APPLICANTS:** (in addition to above items)
   - Official graduation certificate verifying degree obtained (English translation)
   - Subject-specific international academic credential evaluation of official college transcript
   - Official TOEFL or IELTS score - exempt if native language is English or graduate of a degree program at an accredited institution in the United States

**NOTE:** All official documentation must be submitted in sealed envelopes from the originating institutions to the School of Nursing (3500 Victoria Street, 240 Victoria Building, Pittsburgh, PA 15261).

Provisional admission may be granted after completion of 6 credits of science prerequisites if all other admission requirements are met. Undergraduate applicants who are within 12-18 credits of graduation will be considered for provisional admission. All prerequisite courses must be completed and official transcripts received by the start of the first term. All admitted students will be required to place a $250 as non-refundable deposit upon acceptance of admission, which will be count towards tuition in the first term of study.

Effective Fall Term 2017, all admitted students will be required to complete the GRE exam prior to the beginning of the program. The University will provide a voucher for the exam after the tuition deposit is received.

### Academic Standards

Students have the obligation to exhibit honesty and to respect the ethical standards of the nursing profession in carrying out their academic assignments. The academic standards of the school are:

- A student may be placed on probation or dismissed for illegal, unsafe, or unethical professional conduct.
- Students must maintain a cumulative GPA of 2.00 or better throughout the program.
- Students must fulfill the requirements for the baccalaureate degree within a period of eight years.

Students should view the School of Nursing Web site's Student Affairs and Alumni Relations web page [http://www.nursing.pitt.edu/resources-students/policies](http://www.nursing.pitt.edu/resources-students/policies) for current policies.

### Academic Advising

For students in the traditional BSN undergraduate track, the academic advisement process begins during the University first year orientation program (PittStart), at which time students meet with an academic advisor. Students maintain the same advisor throughout the program of study, and continue to meet on a regular basis. This continuity permits advisors to promote academic achievements by guiding students through each level in the program, assisting in career planning and preparation, and by serving as primary educational resource, facilitator and student advocate.

### Preclinical Requisites

Clinicals begin in the 2nd year of the program. Before beginning each school year, it is mandatory that students meet the following requirements for clinical experience (the frequency of these requirements vary by clinical site):

- HIPAA module (completed during the Spring Term of the first year for traditional licensure)
- The American Heart Association (AHA)--BLS- Healthcare Provider Course Certification
- Personal health insurance coverage
- ACT 33/34 clearances (child abuse/criminal record check)
- ACT 73 FBI fingerprinting background check
- ACT 168 Pennsylvania Sexual Misconduct/Abuse Disclosure Release (for fourth year students)
- Initial health is uploaded in Project Concert.
School of Nursing Faculty

Program and Course Offerings

Nursing, BSN Curriculum, Class of 2018, 2019, 2020

Degree Requirements

To earn the degree of Bachelor of Science in Nursing, the student must demonstrate satisfactory academic achievement in required course work prescribed by the curriculum with an overall academic achievement of a minimum GPA of 2.00. All pre-licensure undergraduate students will be required to successfully complete and pass standardized tests throughout the curriculum in order to progress through and graduate from the program. The degree requires a minimum of 124 credits. (Refer to curriculum design at www.nursing.pitt.edu for specific degree requirements.)

Upon completion of the undergraduate program, nursing students receive a Bachelor of Science in Nursing, which is considered the first professional nursing degree. They are then eligible to take the National Council Licensure Examination (NCLEX) to become Register Nurses (RN).

Special Academic Opportunities/Programs

Students in the nursing program begin clinical experience during the first semester of the sophomore year and continue to have complex, rigorous, and unique experiences throughout the junior and senior years. During the senior year students identify an area of clinical interest and complete an extensive internship under the direction of a nurse preceptor.

Many opportunities are available for nursing students including independent study with advanced practice nurses and/or nurse researchers, research projects, and volunteer activities. All students are members of the Nursing Student Association (NSA) and are encouraged to participate in local, state, and national activities. Group tutoring and special review sessions for chemistry, microbiology, anatomy, and physiology are available for all nursing students. Students may also pursue a variety of other academic opportunities available throughout the university, such as participation in Honors College and other optional undergraduate activities and programs.

Total Credits: 124-126

Year 1

Fall Term

- CHEM 0910 - CHEMICAL PRINCPL HEALTH PROFESSN
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
- English Composition 3 cr.
- Psychology 3 cr. +
- Art, Music, Creative Expression or Literature 3 cr.
- NUR 0001 - FIRST YEAR SEMINAR

Total: 17

Spring Term

649
• NUR 0031 - MICROBIOLOGY
• NUR 0032 - MICROBIOLOGY LABORATORY
• NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2
• NUR 0003 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 2
• NUR 0051 - INTRODUCTION TO PROFESSIONAL NURSING

**Note:**

+ Must be taken prior to NUR 1060

++ Must be taken prior to NUR 1054

* Placement varies in the junior year

** Placement varies in the senior year

**Nursing, BSN Curriculum, Class of 2021**

(Revised 2017 to reduce clinical hours throughout program - Class of 2021)

**TOTAL CREDITS: 124-125**

**Degree Requirements**
To earn the degree of Bachelor of Science in Nursing, the student must demonstrate satisfactory academic achievement in required course work prescribed by the curriculum with an overall academic achievement of a minimum GPA of 2.00. All pre-licensure undergraduate students will be required to successfully complete and pass standardized tests throughout the curriculum in order to progress through and graduate from the program. The degree requires a minimum of 124 credits. (Refer to curriculum design at www.nursing.pitt.edu for specific degree requirements.)

Upon completion of the undergraduate program, nursing students receive a Bachelor of Science in Nursing, which is considered the first professional nursing degree. They are then eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Special Academic Opportunities/Programs

Students in the nursing program begin clinical experience during the first semester of the sophomore year and continue to have complex, rigorous, and unique experiences throughout the junior and senior years. During the senior year students identify an area of clinical interest and complete an extensive internship under the direction of a nurse preceptor.

Many opportunities are available for nursing students including independent study with advanced practice nurses and/or nurse researchers, research projects, and volunteer activities. All students are members of the Nursing Student Association (NSA) and are encouraged to participate in local, state, and national activities. Group tutoring and special review sessions for chemistry, microbiology, anatomy, and physiology are available for all nursing students. Students may also pursue a variety of other academic opportunities available throughout the university, such as participation in Honors College and other optional undergraduate activities and programs.

Freshman

Fall (17 cr.)

- CHEM 0910 - CHEMICAL PRINCIPLES OF HEALTH PROFESSIONS

School of Pharmacy

Chartered in 1878, the School of Pharmacy has a tradition of developing leaders and innovators that drive the future of pharmacy. We investigate, discover, and create ways to improve patient health and, through partnerships, change practice and improve efficiency of care. We also use computational and bench research methods to discover and develop drugs and drug delivery systems, and optimize drug therapy. The School of Pharmacy leads the way in education, personalizing education and getting students to expert faster. The School of Pharmacy is among the oldest pharmacy schools in the country. **Pitt Pharmacy is in the top tier of schools of pharmacy in US News & World Report rankings and NIH-funded research.**

**Mission**
The School of Pharmacy is committed to improving health through excellence, innovation, and leadership in education of pharmacists and pharmaceutical scientists, in research and scholarship, in care of patients, and in service to our communities.

**Vision**
To be an outstanding school of pharmacy renowned for excellence in discovery and advancement of science-based use of medicines and other interventions to enhance the vitality and quality of life.

**Values**
Integrity guides our daily work. We foster:
- Passion, commitment, and diligence
- Creativity and personal growth
- Collaboration and teamwork
- A culture of respect for the individual.

**Contact Information**
University of Pittsburgh
School of Pharmacy
Pittsburgh, PA 15261
Admissions: 412-383-9000
rxschool@pitt.edu
www.pharmacy.pitt.edu

**Admissions**
The School of Pharmacy admits students to its programs under one of two statuses - guarantee or open. The guarantee admission status is detailed below:

**Pharmacy Guarantee Freshman Admission**
All students should first submit an application to the University of Pittsburgh, Office of Admissions and Financial Aid. The School of Pharmacy does not directly admit freshmen to the professional program. Rather, candidates who specify pre-pharmacy on their application, demonstrate academic success in high school, and score 1360 or higher on the SAT I (Math and Critical Reading sections), with a minimum of 690 in the Math section, will be offered a pharmacy guarantee if available. Students who receive the guarantee are expected to perform well in their pre-professional courses. In order to secure a place in the PharmD Program, students must earn:

- a letter grade of a C or better in all preprofessional courses with no repeated courses
- a 3.25 or greater overall GPA in preprofessional courses
- a 3.25 or greater GPA in the required Math and Science courses

**NOTE:** Required Math and Science courses must be taken at the University of Pittsburgh (AP credits are acceptable).

To exercise the conditional admission, all applicants must:
• submit the Pharmacy College Admissions Test (PCAT) scores
• submit a completed PharmCAS application and fee
• participate in a satisfactory interview prior to School of Pharmacy Admission

Students who meet these performance criteria will be admitted into the PharmD Program.

All students interested in applying to the pharmacy program should also consult the Application for Admission of the Graduate and Professional Catalog.

Visit the School of Pharmacy Web site at www.pharmacy.pitt.edu.

Program Offerings

Pharmaceutical Sciences, BSPS

The School of Pharmacy offers the opportunity for enrolled PharmD students to obtain a Bachelor of Science in Pharmaceutical Sciences (BSPS) degree after the completion of a minimum of 120 credit hours. Typically, students will have completed the pre-professional component and the first four academic terms (semesters) of the nine term (semester) PharmD program. Students are not enrolled into the BSPS program without admission to the PharmD program.

The school also offers graduate programs leading to an MS and a PhD.

For further information on the professional and graduate programs, see the School of Pharmacy-Graduate and Professional Degrees sections of the Graduate & Professional Studies Catalog.

School of Social Work

The School of Social Work was founded in September 1938 as successor to the Division of Social Work in the Department of Sociology. The Bachelor of Arts in Social Work (BASW) program was accredited in 1973 and has been continuously reaffirmed since that time.

The mission of the School of Social Work is to advance knowledge and to apply that knowledge for the fulfillment of human potential through the prevention and amelioration of social problems. The school is committed to promoting the values of social and economic justice. Recognizing the complexities of contemporary society, the school dedicates itself through its educational, research, and public service activities to advocating for a society that respects the dignity and achievement of all individuals, families, and communities.

In furtherance of its mission, the School of Social Work strives to

- Educate professional social workers with the knowledge, skills, and values needed to engage in culturally competent practice with diverse populations and communities; to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques; and to advocate for those who confront barriers to maximizing the achievement of their fullest potential.
- Engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems.
- Provide service to local, national, and international communities through the development of and participation in collaborations with social agencies, community-based organizations, government, and foundations.

The BASW Program prepares its graduates to engage in entry-level generalist social work practice with individuals, families, groups, communities, and/or organizations within a multicultural society. Professional practice settings for entry-level generalist practitioners include child welfare, family preservation, mental retardation and mental health, drug and alcohol, juvenile justice, aging, shelters for battered women, homeless shelters, community food banks, neighborhood citizen organizations, hospitals, and rehabilitation centers, among many others. Since 2001, the BASW Program has offered the Child Welfare Education for Baccalaureates (CWEB) program as an educational opportunity for undergraduate social work majors to prepare for employment in one of Pennsylvania's 67 public child welfare agencies.

The BASW Program is offered as an upper-division (i.e., junior and senior years only) academic major, underscoring the program's commitment to a strong liberal arts base. Learn more about degree requirements, full- and part-time enrollment options and class schedule, and field education for BASW students.

The Social Work Minor is open to undergraduate students throughout the university (see minor requirements).

The Goals of BASW Program are to prepare students to competently engage in generalist social work practice.

As such, it is our goal that by completion of the program, students will be prepared to:

2. Practice according to the principles, values, and ethics that guide the social work profession (EP 2.1.1, E.P.2.1.2).
4. Continue formal education in either graduate social work education or other graduate disciplines (EP 2.1.1).

The BASW Program Faculty have defined "generalist practice" as:

The BASW Program has also identified a number of more specific and measurable objectives that allow us to document progress toward attaining our goals. We expect graduates from the BASW Program to practice in a manner consistent with social work traditions, values, and ethics, as expressed in the NASW Code of Ethics.

Contact Information
Special Opportunities

The Child Welfare Education for Baccalaureates (CWEB) Program provides an educational opportunity for students interested in public child welfare services. Qualified students who are enrolled as social work majors may receive substantial financial support in return for a contractual obligation to accept employment in a Pennsylvania public child welfare agency following completion of their social work degree. Students interested in the program should contact Dr. Cynthia Bradley-King, CWEB Coordinator, School of Social Work at ckb11@pitt.edu or 412-624-2830.

The Behavioral Health Case Management Program is a certificate available to Social Work and Psychology majors, that leads to possible employment opportunities in a fast-paced behavioral health service sector. To read more about the career opportunities available to graduates who hold this certificate please visit the Allegheny County Department of Human Services (DHS) web page.

More information about the program is available on the web and by contacting the Director of the Bachelor of Arts in Social Work Program, Keith J. Caldwell, MSW at kjc45@pitt.edu or 412-648-9441

Admission Requirements

For admission to the Bachelor of Arts in Social Work program (BASW), a student must meet the following requirements:

- Completion of 60 transferable credits from an accredited undergraduate institution and/or completion of an accredited associate degree program.
- A minimum of 2.00 GPA on a 4.00 scale.

The distribution of liberal arts credits should be as follows:

1. Humanities-9 credits
2. Natural Sciences-9 credits
3. Social Sciences-9 credits
4. Other courses (preferably a computer skills course and courses in the humanities and behavioral and social sciences)-33 credits

Credits awarded from the College Level Examination Program [CLEP] by the College of General Studies are counted toward the 60 credits. Academic and field education credits are not granted in the BASW program for life, volunteer, or employment experience.

Application Procedures

Students may apply for the fall term or spring term. Students currently enrolled within the University of Pittsburgh system should submit applications and all credentials to the School of Social Work Office of Admissions. Students applying from outside the University of Pittsburgh should send all application materials and credentials directly to the University Office of Admissions and Financial Aid (see Pittsburgh campus Freshman Admissions for address). The Undergraduate program in the School of Social Work has a ROLLING ADMISSIONS POLICY. There is no specific deadline for submitting applications.

- The application fee of $45 (only if applying from another institution; current University of Pittsburgh students do not have to pay this fee).
- A complete transcript from the registrar of each college attended. If course work is still in progress at the time the application is filed, the student should request a supplemental transcript at the end of each term. Although a decision for acceptance may be made while academic work is still in progress, an up-to-date transcript must be received before the applicant can register for course work. Persons seeking a transfer to the University of Pittsburgh from another college or university must also submit a high school transcript or its equivalent.
- A three-part typewritten statement (of no more than eight pages) discussing the following concerns in depth:
  1. the influence in the student's life experience that made him/her select social work as a profession,
2. what the student believes social work education can contribute to his/her professional competence, and
3. what the student believes to be one of the most important contemporary social issues and why.

- The application supplement sheet, which requests information on the student's employment background, a list of the names and addresses of the people who will be completing reference forms on the applicant's behalf, and academic credit requirement questions.
- Three letters of reference. Required references include college advisors, an instructor at the college level, and the current (or last) employer/volunteer supervisor. Applicants should send the blank reference forms received with the application materials to each of the reference persons. The School of Social Work admissions office will periodically notify the applicant of the status of the application materials, and the applicant will be expected to follow through with each reference to ensure receipt of the letter. Reference persons should mail the completed form directly to the School of Social Work Office of Admissions.

Other Supporting Application Materials

The School of Social Work does not require the submission of scores from an examination for admission consideration. However, applicants wishing to submit such exam scores or other materials (publications, major papers, etc.) in support of their application may do so. In no instance will an applicant not submitting these be penalized in determining acceptance for the program.

Admission Interviews

Interviews may be initiated by the admissions personnel of the School of Social Work. Applicants who feel they would like to discuss special circumstances surrounding their applications are encouraged to seek admission interviews. The interview, if requested, should be scheduled after all application materials have been received. Usually, decisions on applications for admission are made without an interview.

Grading Standards Policy for the BASW Program

This policy covers the following areas in regard to grading:

Good Academic Standing

In order to remain in good academic standing and to graduate from the BASW program, all students must

- Obtain a grade of C- or better in all courses required for the major (including Practicum 1 and 2),
- Maintain a minimum 2.50 on a 4.00 scale in their social work major
- Conform to the standards of professional conduct as specified in the NASW Code of Ethics (see below), and
- Maintain a minimum cumulative GPA of 2.00 on a 4.00 scale.

Honors

The program honors those students whose academic performance (cumulative GPA) places them in the upper two percent of their graduating class. These students are considered for honors recognition at the annual Honors Convocation conducted by the University in the spring of each year. BASW majors are also eligible for membership in Phi Alpha, the National Social Work Honor Society, if they have completed their social work major with a social work GPA of 3.85 or higher.

Bachelor of Philosophy Degree

In the spirit of intellectual curiosity envisioned by the Board of Trustees and the University Honors College when the Bachelor of Philosophy degree (BPhil) was created, the BPhil creates the opportunity for undergraduate students to engage in research and scholarly work toward a more rigorous baccalaureate degree traditionally reserved for the graduate level. In combination with the University Honors College requirements it, "preserves an element of intellectual scope, ever the distinctive feature of American undergraduate education (A. Stewart)." This degree is offered jointly between the University Honors College and the School of Social Work.
BASW majors who meet the University Honors College (UHC) eligibility requirements and who are interested in pursuing a Bachelor of Philosophy degree in social work should make an appointment with the BASW Program Director to review criteria and process for the degree.

The BASW student will be referred to the University Honors College Web site to review the Bachelor of Philosophy degree requirements.

The requirements to participate in the UHC are as follows:

- Maintain a 3.25 GPA or higher in BASW major in the School of Social Work and a 3.25 GPA or higher overall at the University of Pittsburgh.
- Transfer students must have an incoming GPA of 3.25 or higher and maintain a 3.25 GPA in BASW major course work offered through the School of Social Work as well as a 3.25 GPA or higher overall at the University of Pittsburgh.
- In unusual circumstances, a student who shows exceptional promise but does not meet the above requirements may be accepted to BPhil candidacy as recommended by the BASW Program Director to the School of Social Work Associate Dean for Academic Affairs and determined by the UHC advising staff.

Based upon a BASW student's area of interest, a thesis advisor will be assigned by the Associate Dean for Academic Affairs. The BASW Program Director and the student's advisor will meet with the student to draft a program of study/curriculum plan. Assignment of an advisor is contingent upon faculty availability and willingness to serve.

General degree requirements are:

- Fulfill the BASW degree requirements with a minimum 3.25 GPA.
- Complete the social work general education requirements with a minimum 3.25 GPA. This includes 24 credits in the social and behavioral sciences; minimum of 3 credits in Africana studies; minimum of 3 credits in English composition; minimum 3 credits in human biology and a minimum of 3 credits in statistics.
- Enroll in one course in each of the following areas, selecting one as an area of specialization, with a minimum of 12 credits and grades corresponding to a 3.25 GPA or higher: Africana studies; anthropology; economics; global studies; political science; psychology; sociology; urban studies; women's studies.
- In all of the above coursework, a prospective BPhil student is encouraged to enroll in an UHC section of the course, if available. Overall GPA requirements remain the same for these courses.

The prospective BPhil student will make an appointment with the UHC advising staff regarding Honors College qualifications for degree candidacy.

The prospective BPhil student will complete the BASW degree requirements listed above as well as complete independent research culminating in the production of an original undergraduate thesis.

If all of the degree requirements are met, a single degree, the Bachelor of Philosophy degree with a major in social work, will be conferred jointly by the School of Social Work and the University Honors College.

For additional details on this degree program, please contact the School of Social Work or the Honors College.

National Association of Social Workers (NASW) Code of Ethics

Professional ethics are at the core of social work. The profession has an obligation to articulate its basic values, ethical principles, and ethical standards. The NASW Code of Ethics sets forth these values, principles, and standards to guide social workers' conduct. The code is relevant to all social workers and social work students, regardless of their professional functions, the settings in which they work, or the populations they serve. The NASW Code of Ethics serves six purposes:

1. The code identifies core values on which social work's mission is based.
2. The code summarizes broad ethical principles that reflect the profession's core values and establishes a set of specific ethical standards that should be used to guide social work practice.
3. The code is designed to help social workers identify relevant considerations when conflicting professional obligations or ethical uncertainties arise.
4. The code provides ethical standards to which the general public can hold the social work profession accountable.
5. The code socializes practitioners new to the field to social work's mission, values, ethical principles, and ethical standards.
6. The code articulates standards that the social work profession itself can use to assess whether social workers have engaged in unethical conduct. NASW has formal procedures to adjudicate ethics complaints filed against its members. In subscribing to this code, social workers
are required to cooperate in its implementation, participate in NASW adjudication proceedings, and abide by any NASW disciplinary rulings or sanctions based on it.

The code offers a set of values, principles, and standards to guide decision making and conduct when ethical issues arise. It does not provide a set of rules that prescribe how social workers should act in all situations. Specific applications of the code must take into account the context in which it is being considered and the possibility of conflicts among the code's values, principles, and standards. Ethical responsibilities flow from all human relationships, from the personal and familial to the social and professional. Social work students are required to comply with the NASW Code of Ethics. Copies can be obtained from the NASW Web page at www.socialworkers.org.

**Statute of Limitations**

There is a seven-year limitation on the earning of the BASW degree with the seven-year period beginning from the date of entry into the program. Under the following extenuating circumstances, the advisor may recommend an extension of time to the program director and the associate dean:

- Extended illness of the student,
- Involuntary mobilization into a U.S. military unit,
- Death of a close family member,
- Extended personal emergency, or
- Academic probation in the last term of the student's program.

**Undergraduate Advising**

When admitted, new BASW majors are assigned an advisor by the BASW program director (students completing the social work minor maintain the academic advisor in their current college or school). Incoming BASW majors meet their assigned faculty advisor at the school's orientation, which is held prior to the start of fall semester. Incoming students are then encouraged to make an appointment with their faculty advisor during the first three to four weeks of the term. Each advisor will work with his or her advisee to clarify educational options, answer questions about the BASW Program, and discuss career opportunities. When students enroll for Practicum Seminar I and the concurrent Practicum Seminar and Lab I, the seminar and lab instructor in the section the student chooses becomes his or her faculty advisor for the remainder of their enrollment in the program. Faculty advisors should be the first point of contact for any or all of the following:

- Registration including add/drop, leaves of absence, and withdrawals; Clarification of all academic policies and procedures (i.e., grading policies, graduation requirements, directed study);
- Discussions regarding academic expectations and performance;
- Information about other departments and/or programs in the School of Social Work or the University of Pittsburgh;
- Planning of the student's educational program in accordance with his or her career interests.

**Phi Alpha National Honor Society**

**Mu Omicron Chapter**

Phi Alpha Honor Society was created to provide a closer bond between social work students and the profession in order to promote humanitarian goals and ideals. With the motto, "Through knowledge—the challenge to serve," Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work. Founded in 1960, Phi Alpha Honor Society currently has more than 110 chapters nationwide.

**School of Social Work Faculty**

Cynthia K. Bradley-King, Field Assistant Professor and Academic Coordinator, Child Welfare Education For Baccalaureates Program, PhD, Indiana University of Pennsylvania

Program and Course Offerings
Department of Social Work

Social Work, BASW

Degree Requirements

The School of Social Work requires a minimum of 120 credits for graduation. The courses listed below are required of all students working toward the Bachelor of Arts in Social Work:

Social work courses:

A total of 48 credits in the social work major:

- SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK
  This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1005 - FOUNDATIONS OF THE WELFARE STATE
- SOCWRK 1006 - POLICY ANALYSIS
  This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1008 - ETHNICITY AND SOCIAL WELFARE
- SOCWRK 1011 - INTRODUCTION TO GENERALIST METHODS: SOCIAL WORK WITH INDIVIDUALS AND FAMILIES
- SOCWRK 1012 - SOCIAL WORK WITH COMMUNITIES AND ORGANIZATIONS
- SOCWRK 1013 - SOCIAL WORK WITH GROUPS
- SOCWRK 1015 - HUMAN BEHAVR & SOCL ENVIRONMENT
- SOCWRK 1020 - INTRODUCTION TO SOCIAL WORK RESEARCH
- SOCWRK 1024 - PRACTICUM SEMINAR AND LAB 1
- SOCWRK 1025 - PRACTICUM 1
- SOCWRK 1026 - PRACTICUM SEMINAR AND LAB 2
- SOCWRK 1027 - PRACTICUM 2

Social and behavioral sciences requirements: 24 credits **

- Anthropology (3)
- Economics (3)
- Political Science (3)
- Psychology (3)
- Sociology (3)
- Additional credits in one of the following areas will fulfill the area of specialization requirement: Africana Studies, Anthropology, Economics, Gender, Sexuality, and Women's Studies (GSWS), Global Studies, Political Science, Psychology, Sociology, or Urban Studies. (9-12 *)

Note:

* If Gender, Sexuality and Women's Studies, Global Studies, or Urban Studies is chosen as the area of specialization, students will need to complete a total of 12 credits in these areas.

Other course requirements: 12 credits **

- Africana Studies (3)
- English Composition (3)
- Human Biology (or equivalent course emphasizing the biological determinants of human behavior) (3)
• Statistics (3)
• Social Work elective (3)

Note:

* Course of equivalent content may have been taken at another institution.

** These courses/credits (in part or in whole) may have been taken as part of the 60 credits required for admission. Any of these courses/credits not taken prior to admission must be completed prior to graduation.

Minor requirements:

The minor requires successful completion (with a grade of C- or better) of four of the following three-credit courses:

• SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK
  This is a service-learning course and requires 45 hours of volunteer service as part of the course.
• SOCWRK 1005 - FOUNDATIONS OF THE WELFARE STATE
• SOCWRK 1006 - POLICY ANALYSIS
  This is a service-learning course and requires 45 hours of volunteer service as part of the course.
• SOCWRK 1035 - GLOBAL PERSPECTIVES SOCIAL WORK
• SOCWRK 1058 - ECONOMICS AND SOCIAL WORK
• SOCWRK 1079 - CHILD WELFARE SERVICES
• SOCWRK 1088 - SPECIAL TOPICS
  This course is not offered every term.

Note:

* SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK is required for all subsequent courses, with the exception of SOCWRK 1005

Social Work, BPHIL
University Center for International Studies

The University Center for International Studies (UCIS) is the primary resource for initiating and managing international programs, studies and support services while promoting the University's reputation as a leader in global education. A key goal of UCIS is to cultivate globally capable and engaged students toward lives of impact in their community and beyond. In short, to prepare undergraduate students who are global ready. This is achieved by certificate programs, study abroad, curriculum development, and seminars. UCIS offers 9 certificates and 3 related concentrations, which are academic credentials that attest to acquisition of international knowledge about a particular world region or global issue, cross-cultural understanding, and language proficiency relevant for international careers or for advanced degrees. Certificates are available in:

- African Studies
- Asian Studies
- East European Studies
- European Union Studies
- Global Studies
- Latin American Studies
- Russian Studies
- Transatlantic Studies
- West European Studies

The certificates are administered through the African Studies Program, Asian Studies Center, European Studies Center, Global Studies Center, Center for Latin American Studies, and the Center for Russian and East European Studies. Four centers—European Studies Center, Global Studies, Latin American Studies, and Russian and East European Studies—are designated by the federal government as National Resource Centers.

UCIS certificates evidence language proficiency, regional knowledge and cultural competency that students find useful for international careers or for advanced degrees with a concentration in a particular world area or global theme.

ucis@pitt.edu
www.ucis.pitt.edu

Admission to Certificate Programs

Formal admission to the UCIS certificate programs is accomplished by completing a simple application form. Interested students are encouraged to apply in their freshman or sophomore year. There are no special requirements for admission. All undergraduate certificate programs in UCIS (with the exception of the certificate programs in Global Studies, European Union Studies and Latin American Studies described below) require 15 credits/five courses in the applicable area, with three or more courses in at least two departments other than the major. Language requirements vary from four to six terms.

Certificate courses can be used simultaneously to fulfill the student's general education and international/foreign culture requirements. Grades generally must be C or better to be accepted for the certificate program. Upon graduation, both the academic degree and the certificate are posted on the student's transcript.

myPittGlobal

This new student platform is your one-stop-shop to integrate the curricular achievements with study abroad, civic & global engagement and professional development opportunities. The online tools will help you access all UCIS academic programs, study abroad, international events and activities, advisors and your peers. For more information, click here.
Advising

All UCIS certificate programs provide personalized advising services to students interested or registered in its programs in addition to those routinely offered by the students' major advisors. Center advisors assist in selecting courses, language training, and arranging internships or study abroad to fit the students' academic and personal interests. See the program descriptions below for contact information.

Special Academic Opportunities

In addition to the regular certificate programs, UCIS offers the following special academic opportunities:

Asian Studies Scholarships and Fellowships

Students enrolled in the Asian Studies certificate program are eligible for a variety of fellowships and scholarships, including the Chinese Summer Language Study Abroad Scholarships, the Japanese Studies Undergraduate Scholarship, the Study-in-Japan Scholarship, and the Japanese Summer Language Study Scholarship. In addition, a new undergraduate scholarship program for students studying Chinese and Japanese languages is available for study abroad in an approved program. For more information on these funding opportunities, please click here.

Latin American Studies Undergraduate Seminar/Field Trip Program

The Undergraduate Seminar/Field Program is a unique component of the Latin American studies undergraduate certificate program. The Center for Latin American Studies (CLAS) firmly believes that all undergraduates should have the opportunity to experience Latin American culture firsthand. This objective is met through an annual field trip to a selected Latin American country for which about 10 - 14 students are chosen each year. CLAS subsidizes the majority of the cost of this program via scholarships to place it within the means of most students. Student participants register for a seminar in the spring term (January-April) that prepares them for the field experience through study of the culture, economics, geography, history, and politics of the area to be visited. Students also are introduced to research methodology and are guided through the development of a project which forms the basis for research they conduct while in the field. In the summer session (early May-late June), the students travel to Latin America, where they reside with host families and undertake their field projects under the direction of a CLAS faculty member. (In past years, groups have gone to Argentina, Bolivia, Brazil, Colombia, Costa Rica, the Dominican Republic, Ecuador, Guatemala, Mexico, Uruguay, and Venezuela.)

Russian and East European Studies Summer Study Abroad and Internship Awards

The Center for Russian and East European Studies (REES) believes that study or work abroad is a key component of its certificate program. In an effort to encourage students to travel to the region, REES offers several scholarships each summer to students enrolled in the certificate program. In addition, REES offers several awards to its students annually to fund paid internships in Pittsburgh during the academic year in the field of Russian and East European studies.

West European Studies Friedl E. Kessler Memorial Fellowship

To help defray the costs of studying abroad, the European Studies Center offers the Kessler Fellowship for study or research in Germany. This competitive award is offered every year in the amount of $1,000. Any student pursuing the Certificate in West European Studies who studies German and has at least a 3.0 GPA is eligible to apply.

The African Studies Program facilitates a critical and comprehensive understanding of Africa and the African people. Through courses and activities, the program's affiliated faculty help students grasp the continent's internal dynamics and its evolving place in the world.

The program sponsors lectures, symposia, and conferences and develops courses and opportunities to study abroad. Scholarships are also available. Stop by anytime and find out more!

Certificate Requirements

**One required core course** (3 credits) from AFRCNA 0127 - INTRODUCTION TO AFRICA, AFRCNA 0586 - EARLY AFRICAN CIVILIZATIONS, ANTH 1778 - CULTURES OF AFRICA, HIST 0795 - HISTORY OF AFRICA BEFORE 1800, or HIST 1796 - HISTORY OF AFRICA SINCE 1800

**Four elective courses** (12 credits) selected from those on the course list that contain at least 25% African content
**Language proficiency**: a minimum of two years of study (four terms) of either an indigenous African language (Swahili, Amharic or Arabic) or a European language (other than English) relevant to African studies as a consequence of Africa's historical experience (French, Portuguese, German or Spanish)

**Capstone paper**: This is the culmination of the student's learning experience and clearly demonstrates in-depth knowledge of African studies issues in at least one academic discipline. The capstone must be an assignment submitted as part of coursework, such as a final term paper and the student must have received a B or higher grade on the paper. It must be submitted to the African Studies Program no later than the last semester before graduation.

**Presentation**: The student will present the culmination of their African Studies Certificate through sharing about their capstone or African Studies experiences in a mini-forum to students, friends and family. This can take place in December or April before the graduation ceremony.

**GPA in African Studies Courses should be 2.5 or higher.**

---

**Academic Opportunities**

**Study Abroad and Internships**

Studying abroad is not required but it is highly encouraged. Students can earn up to 15 credits towards the certificate by studying abroad in Africa. Alternatively, there are several internship opportunities locally and in Africa. Meet with the academic advisor to learn about scholarships and internships available to you!

**Professional Development Opportunities**

The African Studies Program offers two student internships every semester where students are given full exposure to the field of African Studies and can earn 3 credits for their academic internship. Students work on skills such as networking, public speaking, communications, media relations, critical thinking, and knowledge of Africa. An African Studies internship is a great way for students to build their resume and get real life experience working for a university.

Students enrolled in the certificate program have the opportunity to visit Washington DC on an international career search before they graduate! Contact the academic advisor for details.

Engage with Asian cultures, languages, histories, and economies through the interdisciplinary Asian Studies Certificate. Building a personalized learning program based on a thematic or regional interest in Asia, the Asian Studies certificate can be accomplished using general education credits to complement a language or disciplinary major or minor. Undergraduate students from any field or school interested in Asia can supplement and strengthen their major field of study by enrolling in the Asian Studies certificate program. To learn more about the Asian Studies program please contact the Asian Studies Advisor via email (rookkoepsel@pitt.edu) or by making an appointment at http://www.ucis.pitt.edu/asc/academics/advising-appointment-scheduler

**Certificate Requirements**

1. **Asian Area Studies Courses:**
   Interdisciplinary understanding of Asia can help build an understanding of broad trends and ideas from many different perspectives.
Students earning an Asian Studies Certificate must take a minimum of five courses (15 credits) either designated as an Asian Studies course or which has been approved by the Asian Studies Academic Advisor. You can look at the courses available for the Asian Studies Certificate in any given semester at http://www.ucis.pitt.edu/asc/academics/courses. Required courses for the Asian Studies certificate may overlap with Gen. Ed. requirements and with courses taken on study abroad.

Students must take courses in a total of three different departments. At least one course (3 credits) should be in the student's major, unless their major does not include an Asian Studies designated course, in which case a course from a different department can count towards this requirement.

2. **Language proficiency**: A minimum of two years (four terms) of Asian language study at the college level or equivalent proficiency is required. The University of Pittsburgh offers Chinese, Japanese, Korean, Hindi, Vietnamese, and Arabic, but any Asian language at intermediate proficiency would count toward fulfilling the Asian Studies Certificate. Students can fulfill the language requirement through taking two years of college language, demonstrating intermediate proficiency through testing, or by being a native speaker of an Asian language. If you have questions about a language Pitt doesn't teach, please see the Asian Studies advisor.

3. **Digital Portfolio**: Students will be given a template to create an Asian Studies digital portfolio soon after they have signed up for the program. Students will work with the digital portfolio site throughout their time in the program, completing the digital portfolio during their final semester at the University of Pittsburgh. The portfolio offers a chance for students to reflect on academics, work/internship experience, study abroad observations, and co-curricular activities that highlight their Asian Studies experience. Students should work closely with the Asian Studies advisor on the creation of their portfolio. Information on the digital portfolio can be found at www.ucisportfolios.pitt.edu.

4. **GPA requirement** is 2.0 for all courses to be counted towards the Asian Studies Certificate.

**Financial Assistance**

Asian Studies certificate students may be eligible for a variety of scholarships and study abroad awards. For information, visit http://www.ucis.pitt.edu/asc/funding/undergraduate

**European Union Studies Certificate**

University of Pittsburgh
University Center for International Studies
European Studies Center
Stephen Lund, Assistant Director
4216 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-7422
slund@pitt.edu
http://www.ucis.pitt.edu/esc/

The European Union (EU) Studies Certificate provides an introduction to the history of European integration, working knowledge of the EU’s laws and administrative bodies, economics and the Euro Area, and (depending on the classes chosen) an overview of specific policy areas (defense and security, immigration, economic, international relations, etc.). The certificate provides a multidisciplinary and cross-regional (east-west) perspective, and it is perfect preparation for students who want to pursue careers in both public and private international organizations and to continue the study of Europe and the EU at the graduate level.

The University of Pittsburgh is an internationally recognized center for European Union studies. Selected in 1998, the university is one of 7 European Union Centers of Excellence in the United States (as chosen by the EU itself). The EU certificate has a high visibility that will assist students as they apply to competitive graduate programs in a number of disciplines and to corporations and organizations that interact with the European Union.

**Certificate Requirements**

- **Six EU studies courses**: (18 credits) from at least three different departments are required. These courses will include PS 1317 - POLITICS OF THE EUROPEAN UNION, PS 1330 - EUROPEAN UNION SEMINAR, one course on the historical foundation of the EU, and three courses on the EU or with significant EU content. Students must earn a C or better in the classes counting towards the certificate.
• Approved courses are posted online at http://www.ucis.pitt.edu/euce/node/142.
• **Language proficiency**: Two years of college-level study of an official European Union foreign language (excluding English). Languages currently available include: Spanish, German, French, Italian, Swedish, Modern Greek, Portuguese, Hungarian, Polish and Slovak. Students may request placement tests through the language department.
• **Digital Portfolio**: This is the culmination of the student's learning experience and demonstrates in-depth knowledge of the West European studies theme the student has chosen. Details will be discussed with the advisor.

**Related Concentration in European & Eurasian Studies**

The Related Concentration in European & Eurasian Studies is crafted to offer comparative study opportunities for students in a pre-professional field - pre-medicine, pre-law, business, engineering, and health and rehab sciences - while capitalizing on existing European language credits. This individualized, interdisciplinary credential provides a context for studying abroad and complements most academic plans and majors. For the Related Concentration, we define Eurasia as the Russian Federation, Turkey, Mongolia, and the former Soviet republics. For a list of approved courses, please click here.

**Requirements**

- A **minimum of four** (12 credits) **content courses** is required. The courses must come from at least two different departments and none of the courses can overlap with a student's other credentials. These courses are allowed to overlap, however, with general education requirements. Students must earn a C or better in classes counting towards the certificate.
- **Language proficiency**: one year (two semesters) of college-level study of an official European (excluding English) or Eurasian language, or demonstration of equivalent proficiency. The same language classes (or AP credits) used to fulfill the general education requirement may be used here as well.
- **Digital Portfolio**: This is the culmination of the student's learning experience and demonstrates in-depth knowledge of the West European studies theme the student has chosen. Details will be discussed with the advisor.

**Special Academic Opportunities**

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across Europe.

**Global Health Certificate**

University of Pittsburgh  
University Center for International Studies  
Global Studies Center  
Elaine Linn, Assistant Director for Academic Affairs  
4102 Wesley W. Posvar Hall  
Pittsburgh, PA 15260  
Phone: 412-648-2113  
eel58@pitt.edu  
http://www.ucis.pitt.edu/global/

With the **CERTIFICATE IN GLOBAL HEALTH**, undergraduates can tailor a program of study to suit their academic, personal, and career interests. There is no additional cost to enroll, and most students will be able to complete the requirements within a standard four-year program of study. There are many options for related study abroad and co-curricular activities.

**What You'll Learn**

**Students who complete the certificate should be able to:**
• Understand the global burden of disease, social determinants of health, and treatment disparities from transnational and historical perspectives
• Differentiate among research, programs, strategies, and coordination mechanisms that address these issues in a variety of settings and the organizations that promote them
• Recognize the behavioral and cultural dimensions of health in myriad contexts
• Appreciate how different disciplines approach these issues and apply one or more such approaches to a key question in global health
• Critique different discourses on global health (e.g., medical, policy, anthropological) and communicate effectively about these issues orally and in writing to an interdisciplinary audience.

Program Requirements:

The certificate requires 18 credits of coursework, distributed as follows:

Required Course

- PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH
  *Lays the foundation for the Certificate and is required for all students. We strongly recommend taking this course as early as possible

Core Courses (6 credits):

Students will select any two courses from the following list. We recommend that you consult the advisor for guidance on which courses would best support your course of study and career goals.

- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- HIST 1091 - GLOBAL HEALTH HISTORY: HISTORICAL PERSPECTIVE
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY
- PS 0550 - INTRODUCTION TO GLOBAL STUDIES
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- STAT 0800 - STATISTICS IN THE MODERN WORLD

Global Health Electives

Students can further personalize their course of study through electives offered by departments and schools across campus (9 credits total), including additional courses from the "core" list. A comprehensive list of courses is available prior to registration each term here. Students may also receive credit through their home department for related field visits, internships, community-based research, and other experiential learning as well as 1-credit "pop up" courses. Students should consult the advisor about these options.

Capstone

Capstone projects help students reflect on, synthesize, and communicate their knowledge via a digital portfolio, which curates and narrates their global health education and experiences for external audiences.

Global Studies Certificate

University of Pittsburgh
University Center for International Studies
Global Studies Center
Elaine Linn, Assistant Director for Academic Affairs
Global studies is an exciting - and evolving - interdisciplinary field concerned with transnational structures, processes, and interactions that cross familiar political borders and cultural boundaries and affect our social, economic, cultural, political, and ecological environments. Students learn to understand and analyze how these structures, processes, and interactions both connect people and places and disrupt established norms, communities, institutions, and relationships.

Global Studies students pursuing an undergraduate degree in any school within the University can tailor a unique plan of interdisciplinary study within their field of interest drawn from more than 200 courses across 5 global concentrations, gaining a solid understanding of the academic debates over globalization and their policy implications, learn important critical thinking skills and use them to arrive at their own stances on these issues. Students can double count up to six credits from their major, allowing them to fulfill their general education, major or certificate requirements at the same time and must maintain a 2.50 cumulative GPA.

In addition to the certificate, the Center provides a hub for students wanting to understand and take action on today's pressing issues at home and/or abroad. It offers numerous complementary programs and opportunities that support students' intellectual and personal development: research skills, career exploration and career readiness, experiential education and civic engagement, and a critical understanding of current events. Also funding is available for travel grants and tuition remission for student ambassador positions.

Certificate Requirements

- **Global Concentrations**: To complete the certificate, students choose one of five global concentration/themes:
  - Cultural Dynamics
  - Ecology and Sustainability
  - Health and Well-Being
  - Peace, Conflict, and Security
  - Politics and Economy

Students should think of these concentrations as doorways into global studies, rather than separate silos within it. Working with the advisor, we encourage a flexible and individualized approach allowing students to personalize a course of study that interests them within this broad framework.

- **Introduction to Global Studies (3 credits)**: PS 0550 Introduction to Global Studies examines current global trends and issues in ways that encourage students to think critically about how to analyze, interpret, and respond to global interactions and their consequences for different regions, localities, and groups. It gives particular attention to the concept of globalization, highlighting the controversies surrounding its use and engaging core debates about the impact of global and transnational processes on economic and social relations, politics and governance, cultural interactions and the environment in local and global contexts.

- **Five Global Thematic Courses (15 credits)**: After students select a global concentration, they choose from a comprehensive and dynamic list of courses ensuring three disciplines are represented to provide an interdisciplinary perspective on their chosen global concentration. Students must maintain a 2.50 cumulative GPA.

- **Language Proficiency**: Building on Pitt's vast offering of over 30 languages, a minimum of two years of college-level study (four semesters) in a foreign language is required. Students can fulfill this requirement by passing a proficiency exam at the Intermediate low-mid proficiency level.

- **Global Studies Capstone Research Paper**: This research paper is the culmination of a student's learning experience related to their global concentration. It demonstrates analytical skills within a trans-regional context. It must be written as part of a course and graded by a faculty member. A capstone contract is required ensuring the student and faculty are in sync with capstone expectations.

- **E-Portfolio**: Students create a succinct and dynamic portfolio that reflects their scholarly engagement within their global concentration or their understanding of a global issue, highlights how they are informed about, as well as engaged with, a global issue through their various co-curricular experiences at Pitt, and lastly highlights their professional development experiences preparing them for career success.
Special Academic Opportunities

Students enrolled in Global Studies are the first to be informed about funding for research, travel, language study, and study abroad; internships and career development; networking opportunities with dignitaries, academics, and professionals; and interesting events on campus and in the city of Pittsburgh.

Study Abroad: participation in any study abroad experience is highly encouraged but not required for a Global Studies certificate. Global Studies' signature study abroad program is PittMap. Through this rigorous and dynamic academic program, students live and study on three different continents for one semester, offering three distinct views and experiences on modern a global theme. Upcoming themes for PittMap are global health, challenging inequalities, and human security and rights.

Latin American Studies Certificate and Related Concentration

University of Pittsburgh
University Center for International Studies
Center for Latin American Studies
Luis G. Van Fossen Bravo, Undergraduate Advisor
4207 Wesley W. Posvar Hall
Pittsburgh, PA 15260
412-648-7393
bravo@pitt.edu
www.ucis.pitt.edu/clas

Any undergraduate student at the University of Pittsburgh may enroll in the Certificate or Related Concentration of the Center for Latin American Studies (CLAS). The earlier you enter the program, the easier it is to incorporate Latin American courses into your plan of study. As a CLAS student, you will become eligible for grants and fellowships awarded by the Center. You also receive information about the many events sponsored by the Center.

Certificate Requirements

- Seven Latin American courses (21 credits): two courses in the major department and five courses from at least two departments outside the major. If majoring in a department in which no Latin American courses are offered, the requirement is seven Latin American area courses in at least three different departments. For a list of approved courses, click here.
- Language proficiency: three years (six terms) of college-level Spanish or Portuguese, or have equivalent competency
- Study abroad in Latin America is required. The study abroad program must be for academic credit and last at least four weeks. The requirement may be fulfilled by participation in the CLAS Undergraduate Seminar and Field Program.
- Digital Portfolio: Students will develop a brief digital portfolio where they can reflect on their studies, explain the connection between the classes used to complete the requirements, and present examples of their work. Students may include papers
- GPA requirement is 2.5 for all courses to be counted toward any Latin American Studies Certificate.

Related Concentration Requirements

Similar to a minor, the related concentration is designed for students who want to learn about the cultures and societies of our neighbors to the south. It is suitable for students considering a career specializing in the Latin American region, and has two academic requirements: area studies courses and language proficiency.

- One course in the major department, and four courses from at least two departments outside the major (15 credits). If majoring in a department in which no Latin American courses are offered, the requirement is five Latin American area courses in at least three different departments.
- Language proficiency: two years of study (four terms) of college-level Spanish or Portuguese, or have equivalent proficiency.
- Digital Portfolio: Students will develop a brief digital portfolio where they can reflect on their studies, explain the connection between the classes used to complete the requirements, and present examples of their work. Students may include papers.
- **GPA requirement** is 2.5 for all courses to be counted toward any Latin American Studies Related Concentration.

Special Academic Opportunities

The Center for Latin American Studies (CLAS) offers a variety of funding opportunities for undergraduate students entering or currently enrolled in one of its undergraduate programs. Please visit: www.ucis.pitt.edu/clas/ugrad_funding.

**Russian and East European Studies Certificate**

Center for Russian and East European Studies
4417 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-7407
reesadv@pitt.edu
http://www.ucis.pitt.edu/crees/

Deepen your understanding of a world region that spans Europe and Asia, where shifting identities and political boundaries are complicated by control of energy resources, EU/NATO affiliations, and the Cold War legacy. The Certificate in Russian and East European Studies is an interdisciplinary credential that appears on your transcript and complements your major and minor. The undergraduate Certificate in Russia and East European Studies is crafted to allow students in any major—from STEM and professional disciplines to languages and other liberal arts—to enhance their program of study without extra tuition cost and usually with no increase in their overall course load. The certificate integrates language study with the study of the region where the language is spoken.

**Certificate Requirements**

- **Coursework**: Five Russian, East European, and/or Eurasian area studies (non-language*) courses (15 credits). Courses must be taken in at least three departments, and up to two courses may overlap with the student's major. Students must maintain a minimum 3.0 GPA in REES-related courses.
- **Language proficiency**: a minimum of two years (four terms) of college-level study of a language of the former Soviet Union or East/Central Europe. Pitt offers Russian, Polish, Slovak, Hungarian, Ukrainian, Modern Greek, Turkish, Persian and Bosnian/Croatian/Serbian. Additionally, Pitt's Summer Language Institute offers Estonian, Latvian, Lithuanian, Bulgarian and Czech. Heritage speakers must demonstrate intermediate-level proficiency.
- **Capstone Paper**: The capstone paper is the culmination of the student's learning experience and demonstrates in-depth, interdisciplinary knowledge of Russian & East European studies. This 10-plus-page paper should be written ideally in the student's 3rd or 4th year and must be submitted to the certificate advisor with grade documentation (B or higher) prior to graduation. It will also include a cover essay in which the student will reflect on how his/her academic career has been influenced by REES coursework, and how that coursework has contributed to the creation of the Capstone. Students are strongly encouraged to take the 3-credit REES Capstone Seminar, usually offered in the Spring semester, which fulfills this requirement and counts as an area studies course.

*Students may apply advanced language coursework as Area Studies coursework in certain circumstances, in consultation with the certificate advisor.*

**Related Concentration in European & Eurasian Studies**

The Related Concentration in European & Eurasian Studies is crafted to offer comparative study opportunities for students in a pre-professional field - pre-medicine, pre-law, business, engineering, and health and rehab sciences - while capitalizing on existing European language credits. This individualized, interdisciplinary credential provides a context for studying abroad and complements most academic plans and majors. For the Related Concentration, we define Eurasia as the Russian Federation, Turkey, Mongolia, and the former Soviet republics.

**Requirements**
• A **minimum of four** (12 credits) **content courses** is required. The courses must come from at least two different departments and none of the courses can overlap with a student's other credentials. These courses are allowed to overlap, however, with general education requirements. Students must earn a C or better in classes counting towards the certificate.

• **Language proficiency**: one year (two semesters) of college-level study of an official European (excluding English) or Eurasian language, or demonstration of equivalent proficiency. The same language classes (or AP credits) used to fulfill the general education requirement may be used here as well.

### Special Academic Opportunities

Pitt offers a range of study abroad courses that can be used to fulfill certificate requirements. Short-term summer study abroad courses, taught in English and offering 3 to 6 Pitt credits, may include:

- **Czech Republic and Poland: Economy and Policy (ECON 0905)** in Prague and Krakow, May;
- **Romani (Gypsy) Music, Culture, and Human Rights (MUSIC 1362, URBNST 1901)** in Prague and Budapest, 6 credits, May-June;
- **Architecture and the City in Central Europe (HAA 1907)** in Vienna, Zagreb, Ljubljana, and Prague, May;
- **Competing Perspectives on Global Energy (PS 1301)** in Ukraine, Belgium, Pennsylvania, and Washington, DC, 3 credits, May;
- **Monsters, Madmen, and the Modern City (ENGLIT 0636, ENGLIT 0612)** in Prague, 6 credits, July-August.

The intensive Summer Language Institute (SLI) is a great option to study languages of our region. Study abroad options are available for Russian, Bosnian/Croatian/Serbian (BCS), Bulgarian, Czech, Hungarian, Polish, Slovak and Persian (www.sli.pitt.edu).

*For those students interested in pursuing graduate or other advanced regional studies, a Bachelor of Philosophy degree in International and Area Studies/Russian and East European Studies Track is also available.*

### Transatlantic Studies Certificate

University of Pittsburgh  
University Center for International Studies  
European Studies Center  
Stephen Lund, Assistant Director  
4216 Wesley W. Posvar Hall  
Pittsburgh, PA 15260  
Phone: 412-648-7422  
slund@pitt.edu  
http://www.ucis.pitt.edu/esc/

The Certificate in Transatlantic Studies allows students to pursue a comparative study of Europe and the United States, as well as countries that touch the Atlantic. Primary areas of study include governance, policy and security issues in the context of the transatlantic relationship, the history of colonialism, humanities and culture, and the comparative study of various professional fields such as business and medicine.

### Certificate Requirements

• A **minimum of five** (15 credits) **Transatlantic Studies content courses** is required. Two of the courses may overlap with the student's major or other credentials. The remaining courses must be from at least two departments outside the student's major. Two of the courses must be at the 1000 level and students must earn a C or better in classes counting towards the certificate. Courses chosen must be thematically relevant to each other, and students may study any aspect of European and American history and culture of interest to them. Examples include film studies, health and science policy, architecture, politics, economics, and immigration.

• For a full list of approved courses, click here.

• **Language proficiency**: two years (four semesters) of college-level study of an official European language (excluding English). Languages currently available include: Spanish, German, French, Italian, Swedish, Modern Greek, Irish Gaelic, Portuguese, Hungarian, Polish and Slovak. Students may request placement tests through the language department.

• **Digital Portfolio**: This is the culmination of the student's learning experience and demonstrates in-depth knowledge of the West European studies theme the student has chosen. Details will be discussed with the advisor.
Special Academic Opportunities

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across Europe.

West European Studies Certificate

University of Pittsburgh
University Center for International Studies
European Studies Center
Stephen Lund, Assistant Director
4216 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-7422
slund@pitt.edu
http://www.ucis.pitt.edu/esc/

The Certificate in Western European Studies provides students with strong interests in predominantly Western European history, culture, politics, and languages to complement their major with a regional specialization. The certificate is self-designed, and students may choose any theme to organize their studies and class choices. Examples of possible themes include country specific ones, such as Spanish Studies and British Studies, policy driven ones such as Intelligence & Security or Social Policy, and culture and history-based ones such as Ancient Greece & Rome or European Art & Architecture.

Certificate Requirements

- A minimum of five West European studies courses (15 credits). Courses must be chosen according to a theme to ensure intellectual cohesion.
- Two courses from the major may overlap with the certificate. Remaining courses must be from at least two departments outside the major.
- For a full list of approved courses, click here.
- Language proficiency: two years of college-level study (four terms) in French, German, Spanish, Portuguese, Italian, Irish Gaelic, Swedish or Modern Greek.
- Digital Portfolio: This is the culmination of the student's learning experience and demonstrates in-depth knowledge of the West European studies theme the student has chosen. Details will be discussed with the advisor.

Special Academic Opportunities

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across Europe.
University Honors College

The University Honors College (UHC) seeks to create opportunities for dedicated and engaged students to explore their interests in great depth and with great rigor. The UHC offers a variety of carefully designed courses from the humanities, social sciences, and natural sciences, along with supplemental advising opportunities, academic activities, and a distinctive baccalaureate degree in any undergraduate school of the University.

Contact Information

University of Pittsburgh
University Honors College
3600 Cathedral of Learning
Pittsburgh, PA 15260
412-624-6880
www.honorscollege.pitt.edu

Admission Requirements

A distinctive feature of the University Honors College (UHC) is that unlike honors programs and colleges at virtually all other universities, students do not apply for membership, students are not accepted into the UHC, and students are not rejected for membership. Rather, all undergraduate students who seek an enriched education are invited to pursue the rigorous academic opportunities provided by the UHC.

Advising

The UHC offers multiple forms of advising that are intended to complement the advising students receive from their primary advisor. These include supplemental academic advising, Health Professions Advising, national scholarships advising, community engagement advising, and Politics and Philosophy major advising.

Please note that all students are welcome to meet with UHC advisors and are encouraged to either make an appointment online or simply email the relevant advisor.

Supplemental Academic Advising

UHC supplemental academic advisors help students explore interests and goals, assist in matching them to relevant opportunities in research, student groups, and academics within the UHC and at Pitt; assist in planning double majors and/or an interdisciplinary approach to their education; provide general academic advice on courses, majors, and research; and aid in the preparation of personal statements for scholarships and graduate study. For more information: http://www.honorscollege.pitt.edu/advising

Health Professions Advising

Health professions advising assists students as they explore major choices, course selection, long range planning, and successful application to both the health professions committee and to medical, dental, optometry, podiatry, and veterinary schools. Advisors assess student goals and then recommend academic and experiential opportunities that mesh with student interests. For more information: http://www.honorscollege.pitt.edu/health-professions-advising

National Scholarships

The office of National Scholarships works closely with students to identify scholarships relevant to their academic and personal goals, and explore the steps to become competitive applicants for these awards. National scholarship advising can help students attain a broader perspective and refined
understanding of their personal, academic, and professional goals; strengthen their writing skills through the creation and revision of personal statements and grant proposals; and develop the resourcefulness to identify opportunities to conduct meaningful research and/or incorporate service and international experiences into their educational plan. For more information: http://www.honorscollege.pitt.edu/national-scholarships-advising

Community Engagement

Community Engagement Advising and programming provides students with opportunities to use their academic interests and skills to positively impact their communities. Community Engagement Advising introduces students to pertinent social issues in the city of Pittsburgh as well as key organizations, leaders, and advocates who are involved with those issues; connects students to research, fellowships, experiential learning opportunities, and other scholarly projects that relate to public service and social change; supports students in designing independent experiences and research projects that integrate academic skills and interests with investigating and addressing community issues. For more information: http://www.honorscollege.pitt.edu/community-engagement-advising

Politics and Philosophy Major

This interdisciplinary major in the Kenneth P. Dietrich School of Arts and Sciences is advised through the UHC and provides students with training in the conceptual, empirical, and normative foundations of various fields of public policy. It enhances understanding of the moral and political complexities of public life and offers preparation in both theory and practice to students interested in pursuing careers in social and public affairs. For more information: http://www.honorscollege.pitt.edu/politics-philosophy

The Bachelor of Philosophy Degree

The Bachelor of Philosophy (BPhil) degree is jointly awarded by the UHC and any undergraduate school/college at Pitt. The BPhil degree signifies the highest level of research/scholarship attainable by an undergraduate student. To receive the BPhil degree, students must fulfill the degree requirements (major, general education, and/or other curricular requirements) of their "home school" (e.g., Kenneth P. Dietrich School of Arts and Sciences, Swanson School of Engineering, College of Business Administration, School of Nursing, etc.) and maintain a 3.50 cumulative GPA. The UHC adds two requirements: a more demanding program of study which should have breadth, depth, and focus and independent research/scholarship under the guidance of a faculty member culminating in a written thesis that is defended before a faculty examination committee that includes a visiting external examiner from another college or university. For more information: http://www.honorscollege.pitt.edu/bphil-degree

Special Academic Opportunities

Student Publications

The UHC advises and directs the publishing of four undergraduate publications: Collision (prose and poetry), Pittsburgh Undergraduate Review (analytical and scholarly essays), Three Rivers Review (literary magazine), Pitt Political Review (political writing). All publications are student run and always interested in new members. Consult the UHC publications page for more information: http://www.honorscollege.pitt.edu/activities/student-publications

Research Opportunities

The UHC provides research opportunities in the fall and spring semesters as well as the summer. These include the Brackenridge Research Fellowships, Health Sciences Summer Research Fellowships, and Chancellor's Undergraduate Research Fellowships just to name a few. For more in depth information about these programs and their application deadlines, please visit: http://www.honorscollege.pitt.edu/fall-and-spring-research-opportunities and http://www.honorscollege.pitt.edu/summer-research-opportunities

Housing
The UHC offers First-Year Honors Housing, located in Sutherland West, and Upper-Class Honors Housing in Pennsylvania Hall and Forbes Craig Apartments. Honors Housing is unique in that it connects highly motivated students from across schools and majors in communities that are shaped by their shared academic, cultural, and personal interests. To learn more about Honors Housing, visit: http://www.honorscollege.pitt.edu/housing

**Community Engagement**

Community Engagement Advising and programming provides students with opportunities to use their academic interests and skills to positively impact their communities. Community Engagement Advising introduces students to pertinent social issues in the city of Pittsburgh as well as key organizations, leaders, and advocates who are involved with those issues; connects students to research, fellowships, experiential learning opportunities, and other scholarly projects that relate to public service and social change; supports students in designing independent experiences and research projects that integrate academic skills and interests with investigating and addressing community issues. For more information:
http://www.honorscollege.pitt.edu/community-engagement-advising

**Politics and Philosophy Major**

This interdisciplinary major in the Kenneth P. Dietrich School of Arts and Sciences is advised through the UHC and provides students with training in the conceptual, empirical, and normative foundations of various fields of public policy. It enhances understanding of the moral and political complexities of public life and offers preparation in both theory and practice to students interested in pursuing careers in social and public affairs. For more information: http://www.honorscollege.pitt.edu/politics-philosophy

**The Bachelor of Philosophy Degree**

The Bachelor of Philosophy (BPhil) degree is jointly awarded by the UHC and any undergraduate school/college at Pitt. The BPhil degree signifies the highest level of research/scholarship attainable by an undergraduate student. To receive the BPhil degree, students must fulfill the degree requirements (major, general education, and/or other curricular requirements) of their "home school" (e.g., Kenneth P. Dietrich School of Arts and Sciences, Swanson School of Engineering, College of Business Administration, School of Nursing, etc.) and maintain a 3.50 cumulative GPA. The UHC adds two requirements: a more demanding program of study which should have breadth, depth, and focus and independent research/scholarship under the guidance of a faculty member culminating in a written thesis that is defended before a faculty examination committee that includes a visiting external examiner from another college or university. For more information: http://www.honorscollege.pitt.edu/bphil-degree

**Special Academic Opportunities**

**Student Publications**

The UHC advises and directs the publishing of four undergraduate publications: Collision (prose and poetry), Pittsburgh Undergraduate Review (analytical and scholarly essays), Three Rivers Review (literary magazine), Pitt Political Review (political writing). All publications are student run and always interested in new members. Consult the UHC publications page for more information:
http://www.honorscollege.pitt.edu/activities/student-publications

**Research Opportunities**
The UHC provides research opportunities in the fall and spring semesters as well as the summer. These include the Brackenridge Research Fellowships, Health Sciences Summer Research Fellowships, and Chancellor's Undergraduate Research Fellowships just to name a few. For more in depth information about these programs and their application deadlines, please visit: http://www.honorscollege.pitt.edu/fall-and-spring-research-opportunities and http://www.honorscollege.pitt.edu/summer-research-opportunities

**Housing**

The UHC offers First-Year Honors Housing, located in Sutherland West, and Upper-Class Honors Housing in Pennsylvania Hall and Forbes Craig Apartments. Honors Housing is unique in that it connects highly motivated students from across schools and majors in communities that are shaped by their shared academic, cultural, and personal interests. To learn more about Honors Housing, visit: http://www.honorscollege.pitt.edu/housing

**Major and Minor Descriptions**

**Politics and Philosophy, BA**

The politics and philosophy major, a major in the Kenneth P. Dietrich School of Arts and Sciences, advised through the University Honors College, provides students with interdisciplinary training in the conceptual, empirical, and normative foundations of various fields of public policy. It enhances students' understanding of the moral and political complexities of public life and it offers preparation in both theory and practice to students interested in pursuing careers in social and public affairs.

By combining course work from different disciplines -- political science, philosophy, and economics -- the program's scope is broad, yet the structure of the curriculum also requires depth. The thematic nature of the major allows for flexibility in course selection. In collaboration with the major advisor, students design a cohesive program of study tailored to meet their individual post-graduate/career interests and needs.

The politics and philosophy major is a rigorous, but rewarding, program. Upon graduation, an academic career is certainly a possible pursuit; the major also provides excellent preparation for careers in law, government, community organizations, and social action groups.

The major is comprised of elements from the political science, philosophy, and economics departments and involves a minimum of 51 credits distributed as follows: political science - 21 credits; philosophy - 21 credits; economics - 9 credits. A capstone, which may have associated credits, is also required.

**Required Courses**

**Political Science Courses**

Students must complete seven courses in political science. At least four of those courses must be upper level (numbered 1000 or above). One of the courses must be a W-course; the W-course may be either upper- or lower-level.

**Philosophy Courses**

Students must complete seven courses in philosophy. At least four of those courses must be upper level (numbered 1000 or above). One of the courses must be a W-course; the W-course may be either upper- or lower-level.

**Economics Courses**

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON XXXX any course (no course in the 0800 series may count toward this requirement)

**Capstone Requirement**
In consultation with the major advisor, students may opt for one of the following.

- completion of the Bachelor of Philosophy thesis through the University Honors College (UHC);
- participation in a graduate-level seminar (with permission from the instructor); or
- completion of a Directed Research Project, an Independent Study, or an Internship.

Grade requirements: A minimum GPA of 2.0 is required in those courses that count toward the major.

Satisfactory/No Credit option: There is no limit on the number of courses in the major that can be taken on an S/NC basis, but it is suggested that these courses be taken for a letter grade.

Writing (W) requirement: The W courses listed under the political science and philosophy requirements satisfy the W requirement for the major.

Related area: A related area is not required due to the interdisciplinary nature of the major.
Special Academic Opportunities

The University of Pittsburgh makes many special academic opportunities available to all of the University's undergraduate students. These opportunities provide students with ways to augment their education and experience with expanded study programs both on campus and off campus, in both University and professional settings.

Area of Concentration (Sub-Plan)

An area of concentration is an approved educational experience that results in concentrated training in or knowledge of a particular area within the discipline of a degree program. For more information about specific areas of concentration, see individual school sections.

Certificate Programs

Students may broaden their educational experience by electing to take an academic interdisciplinary certificate program in the areas listed below. The certificate may partially fulfill the degree requirements of the student's school. The requirements for each certificate vary, and students should contact the certificate program director. For more information about these certificate programs, see their individual listings in the school or center section identified in parentheses.

- Accounting (CGS)
- African Studies (UCIS)
- American Sign Language (A&S)
- Asian Studies (UCIS)
- Assistive Technology in Rehabilitation (SHRS)
- Children's Literature (A&S)
- Civil Engineering and Architectural Studies (ENGR)
- Communications (CGS)
- Community Health Assessment (CGS)
- Conceptual Foundations of Medicine (A&S)
- Corporate/Community Relations (CGS)
- Dental Hygiene (DEN)
- Digital Media (CGS)
- Emergency Medicine in Rehabilitation (SHRS)
- English Writing (CGS)
- European Union Studies (UCIS)
- Fessenden Honors Engineering (ENGR)
- Gender, Sexuality, and Women's Studies (A&S) (CGS)
- Geographic Information Systems (A&S)
- German Language (A&S)
- Global Studies (UCIS)
- Historic Preservation (A&S)
- History and Philosophy of Science (A&S)
- Information System Design (CGS)
- International Business (CBA)
- International Engineering Studies (ENGR)
- Jewish Studies (A&S)
- Latin American Studies (UCIS)
- Leadership (A&S)
- Leadership and Ethics (CBA)
- Managing Health Services Programs and Projects (CGS)
- Medieval and Renaissance Studies (A&S)
Cooperative Programs

The University has established some arrangements with industry that permit students to rotate four-month terms between the workplace and the classroom. These programs are administered by the Swanson School of Engineering and available to engineering, computer science, and engineering technology students. The experience normally starts in the sophomore or junior year. Call 412-624-9826 for more information or see www.engineering.pitt.edu/coop.

Cross Registration

Cross-college and cross-university registration is a program designed to provide enriched educational opportunities for undergraduates in any of the following participating Pittsburgh-area institutions: Carlow University, Carnegie Mellon University, Chatham University, Community College of Allegheny County, Duquesne University, La Roche College, Pittsburgh Theological Seminary, Point Park University, Robert Morris University, and the University of Pittsburgh. For requirements and limitations, see the Cross-Registration section of this catalog or visit www.pchepa.org.

Double And Joint Degrees

Students may simultaneously pursue more than one undergraduate degree (e.g., a BA and a BS within Arts and Sciences, or an undergraduate degree in the Swanson School of Engineering and in Arts and Sciences). Students must be admitted to both schools offering the degrees and fulfill the degree requirements of both schools. For the double degree (whether within or between schools), the student must complete not only the requirements for both degrees, but also a minimum of 30 credits beyond what is normally required for the primary degree (e.g., a student earning two A&S degrees would need at least 150 credits, rather than the usual 120; a student earning an A&S degree as the primary degree and a degree from another University of Pittsburgh school as the secondary degree would need at least 150 credits). Students must maintain a 2.00 GPA in all courses. Check with the individual school for other specific requirements that apply.

Graduate And Professional School Opportunities

Graduate school provides students with the opportunity to enhance their knowledge and qualifications in areas of academic and professional interest. All students can take advantage of being at a major research and graduate institution by exploring the many possibilities for graduate study that exist at the University. For information about specific programs, see the Graduate and Professional Studies Catalog.
University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need fewer than 15 credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. See the Graduate Catalog - Academic Regulations section "Enrollment in Graduate Courses as an Undergraduate".

Some schools offer accelerated admission into certain graduate and professional schools through a combined program leading to both a bachelor's and graduate or professional degree. The participating undergraduate schools and their early admissions graduate school partners are listed below:

- Arts and Sciences (A&S)-Communication Science Program (speech, pathology, and audiology) within the School of Health and Rehabilitation Sciences (SHRS)
- A&S-Physical Therapy Program within SHRS
- A&S-School of Dental Medicine
- BS in Computer Science and MA or MS in Computer Science, both from Arts and Sciences
- BS in Statistics and MA or MS in Statistics, both from Arts and Sciences
- BA from Arts and Sciences and JD from Law
- BA or BS (unspecified major, but prerequisites required) from Pitt and MS or MPH in Environmental and Occupational Health, MS or MPH in Infectious Diseases and Microbiology, MS in Human Genetics, MS or MPH in Biostatistics, or BCHS or MHPE in Health services Administration from Graduate School of Public Health
- School of Nursing-RN-Option Program (RN-MSN option)
- SHRS-Health Information Management Program
- BA in Legal Studies from the College of General Studies and Masters of Law from Law
- BSBA from College of Business Administration and JD from Law

Honors College And Honors Courses

The University Honors College (UHC) seeks to meet the special academic and cocurricular needs of the University's most able and motivated undergraduate students. The University Honors College offers a variety of carefully designed courses from the humanities, social sciences, and natural sciences, along with special advising opportunities for an academic community of motivated students, and a special baccalaureate degree in any undergraduate school of the University. See the University Honors College section of this catalog for more information. In addition, some schools and departments offer an honors major. Students should see their school for more information on this opportunity.

Internships

Some schools provide internship experiences appropriate to the student's academic discipline. An internship is a supervised, work-related experience, either on a volunteer or compensated basis. It is intended to be a new experience, not an existing position in which the student is already working. Students will only get internship credit for a current employment situation that has been pre-approved as an internship by the relevant school or department.

Minors (Plans)

A minor provides an option for a student obtaining a degree in a particular discipline to attain knowledge of another discipline. Students may earn minors in schools other than the school in which they are enrolled. After the student lists the official minor on his or her graduation application, the minor appears on the student's academic record and official transcript when the degree is awarded. (See the Academic Programs section of this catalog for available minors.)

Reserve Officer Training Corps (ROTC)
ROTC is an educational program designed to provide full-time students an opportunity to become military officers while completing a Bachelor's or a graduate degree. Students may elect to participate in either the Air Force or Army ROTC program at the University of Pittsburgh or the Naval ROTC program at Carnegie Mellon University. Students in the Air Force program have the option of completing a two or a four-year program. Students in the Army ROTC Program and Naval ROTC programs have the option of completing a two, three, or four-year program. Completion of the Air Force ROTC program leads to a commission as a Second Lieutenant in the U.S. Air Force. Completion of the Army ROTC program leads to a commission as a Second Lieutenant in the U.S. Army, the Army National Guard, or the U.S. Army Reserve. Completion of the Navy ROTC program leads to a commission as an Officer in the Navy or Marine Corps. All three programs offer monthly stipends, a book allowance and tuition scholarships. Call 412-624-6396 or see http://www.afrotc.pitt.edu/ for more information on the Air Force ROTC program, 412-624-6197 or see www.rotc.pitt.edu for more information on the Army ROTC program, and 412-268-5109 or http://www.cmu.edu/nrotc for more information on the Navy ROTC program.

**Study Abroad**

Students are encouraged to add an international dimension to their undergraduate education through study abroad. Programs of study exist in almost every corner of the world and will fulfill requirements for almost any field of study. Second language proficiency is not a requirement, as most programs offer courses taught in English. Financial aid and scholarships are available. Interested students should come to the Study Abroad Office in 802 William Pitt Union to discover their many options. Call 412-648-7413 to schedule an Essentials of Study Abroad Session or explore www.abroad.pitt.edu. The Engineering Study Abroad Office is in B-80G Benedum, and the College of Business Administration Study Abroad Office is in 2514 Sennott Square.

**Summer Sessions**

The University offers a large selection of courses in a variety of compressed sessions throughout the summer. Current students can register through their school. Several summer sessions are offered, see the Academic Calendar.

During the summer term and summer sessions, most students are charged tuition on a per-credit basis regardless of the number of credits taken. See Financial Information. Additional information is available through the Office of University Summer Sessions at 412-383-8600 or www.summer.pitt.edu.

**Summer Edge**

The University offers intensive summer programs that provide academic and experiential studies delivered in a small cohort. In summer 2017, these programs are the Edge in Public and Global Health and the Edge in Wyoming. All University of Pittsburgh undergraduate students are eligible to apply. A transcript notation stating completion of the specific program will appear on the student's transcript. For more information including program costs, see http://www.summeredge.pitt.edu/.

In the Edge in Public and Global Health (11-12 credits), students learn to analyze and tackle critical world health problems through the integrated application of biological, social, and quantitative sciences. Working individually or in pairs with Public Health faculty, students will have opportunities to experience laboratory, quantitative, policy, or social science research, or field work with community organizations or health agencies. The program is administered through the School of Public Health and is offered over the 12-week summer session.

In the Edge in Wyoming (6 credits), students explore the history and politics of the American West, including issues related to environmental policy. While at the University of Wyoming, students will experience the West and its culture by interacting with local guest speakers and visiting relevant, regional sites. The program is administered through the Dietrich School of Arts and Sciences and is offered during 4-week-2 summer session at the University of Wyoming.
Course Information

Please note, when searching courses by Catalog Number, an asterisk (*) can be used to return mass results. For instance a Catalog Number search of "1*" can be entered, returning all 1000-level courses.

ADMPS 1001 - SOCIAL FOUNDATIONS OF EDUCATION

Minimum Credits: 3
Maximum Credits: 3
Students in the course have the opportunity to develop a foundational understanding of the dynamics of schooling in society by addressing the cultural aspects that underlie society's educational ideas and practices. Through an interdisciplinary approach, readings and activities are designed for school practitioners, or those contemplating careers in education, to engage in the study of those cultural aspects and consequences. The general intent of foundational study is to introduce students to interpretive uses of knowledge germane to education and to establish a basis for lifelong learning through normative and critical reflection on education within its historical philosophical, cultural and social contexts. Special emphasis is focused on the role of schooling in cultivating the habits necessary for democratic citizenship which include ongoing efforts to secure equitable and just social relations, and to advance the common good.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

ADMJ 0100 - SOCIETY AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
Every society regulates behavior and the means, i.e., either informal or formal, with which this is done varies according to level of social development. This course examines the regulation of behavior in primitive, transitional, and modern societies and traces the development of law and legal systems and their relationship to different characteristics of social development. We will examine legal jurisprudence and the application of the principles of these philosophies and explore how they have shaped legal action.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 0500 - INTRODUCTION TO ADMINISTRATION OF JUSTICE

Minimum Credits: 3
Maximum Credits: 3
Introductory course designed to provide the student with basic information on the criminal justice system. Views the criminal justice system as consisting of six sub-systems; police, prosecution, courts, corrections, probation and parole. Explores law and society in general, the history, structure, function and contemporary problems in each major sub-system. Also explores the trend of the criminal justice system and the directions and implications involved.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 0600 - INTRODUCTION TO CRIMINOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the study of the causes and social responses to crime. It examines legal definitions and elements of crime; surveys major categories of crime, i.e., predatory and non-predatory acts; reviews major measures of crime; identifies major correlates and theories of crime; differentiates types of offenders and evaluates the working of the criminal justice system.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
ADMJ 1100 - CRIME SCENE INVESTIGATION

Minimum Credits: 3
Maximum Credits: 3
This course provides students with an overview of crime scene investigative issues and problems, as well as techniques used in the collection, preservation, analysis, and utilization of physical and testimonial evidence in criminal prosecutions. Topics include forensic photography, crime scene collection equipment, canvassing, and interrogation techniques in investigations of robbery, burglary, assault, and homicide crimes.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1115 - CRIMINALISTICS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the scientific tools of analysis of crime scene evidence. Topics include toxicology, hair, fiber, blood, DNA, fingerprint, and firearms analysis, as well as cause of death issues such as sexual homicides, suicides, and assisted suicides, drug and carbon monoxide poisoning, accidental deaths, and blunt force trauma deaths. The class consists of integrated lecture and lab each week. The laboratory activities require only basic calculations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1118 - CRIMINALISTICS LAB

Minimum Credits: 1
Maximum Credits: 1
This is an optional lab for students enrolled in administration of justice 1115. Designed for non-science majors, the lab will introduce students to the basic principles of chemistry, biology, and physics as they are used on a daily basis in criminal investigations. Topics include: identification of hair and fibers, DNA, and chromatography. These and other techniques are then applied to a simulated drug bust, a kidnapping case, and a suicide/homicide investigation.
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: ADMJ 1115

ADMJ 1200 - INTRODUCTION TO LAW ENFORCEMENT

Minimum Credits: 3
Maximum Credits: 3
Introduces various historical and philosophical approaches to law enforcement. Course explores origins of policing; philosophical positions on nature of law enforcement and its justification; comparisons of various types of policing in different historical epoch; and emergence of bureaucratized urban force. Topics include development of law enforcement from ancient times with emphasis on philosophical approaches to policing in U.S.; Introduction to constitutional issues and problems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1205 - INTRODUCTION POLICE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the management of police organizations. Topics include the evolving community expectations, alternative organizational models, recruitment, training and education, performance evaluations, technology and communications, research and planning, internal and external police accountability, and police culture and ethics.
Academic Career: Undergraduate
ADMJ 1210 - JUVENILE DELINQUENCY

Minimum Credits: 3  
Maximum Credits: 3  
Provides an overview of the field of juvenile delinquency. Topics covered include theories and research on causes of juvenile delinquency; law enforcement practices encountered in attempts to control delinquency; juvenile treatment under law; correctional philosophy and practices in juvenile justice; and impacts of juvenile criminality upon the rest of society. Students emerge from the course with knowledge of causes, prevention, treatment, and control of juvenile delinquency and should be prepared to move into more detailed study of this subject.

ADMJ 1220 - DEVIANCE AND THE LAW

Minimum Credits: 3  
Maximum Credits: 3  
This course will examine the concept of deviant behavior and how departing from socially acceptable norms in legal, social and institutional settings sparks certain emotional reactions from those who encounter or experience it. The course will also, identify what is deviancy, types of deviant behavior, who engages in it, what causes it and how in certain circumstances it violates the law by considering the characteristics of the deviant person from both a socio-cultural and historical perspective. In addition, it will outline various theories to deviant behavior.

ADMJ 1225 - THE JUVENILE JUSTICE PROCESS

Minimum Credits: 3  
Maximum Credits: 3  
Presentation, discussion and analysis of the nature of the juvenile justice process, legal steps required in processing juveniles, nature and operation of juvenile justice institutions, interrelationships between parts of the system, and problems and prospects for their solution.

ADMJ 1230 - WHITE COLLAR CRIME

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the meaning, varieties, and extent of "white collar crime" in America. It investigates the developmental history of this concept, theories of white collar crime causation, specific types of white collar crime, empirical and theoretical controversies surrounding white collar crime, and the probable future directions for this type of criminal behavior.

ADMJ 1234 - INTRODUCTION TO CYBERCRIME

Minimum Credits: 3  
Maximum Credits: 3  
Traditionally, crime has taken place in the physical world. Since the dawn of the internet, criminal activities on the web have been continually increasing. Crime is no longer restricted to a town, city, state or even country as the internet crime transcends all different types of jurisdictions.
ADMJ 1235 - ORGANIZED CRIME

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine the history of organized crime not only within the United States, but from an international perspective as well. The emergence of "non-traditional" groups which are competing for power and profits will be examined, as well as the alliances between various criminal groups that have evolved, resulting in the phenomenon of "transnational" organized crime. Those "non-traditional" groups include, but are not necessarily limited to, domestic and international terrorist organizations, the reasons for their development as well as the perceived risk to American citizens both in a domestic environment and abroad. Neither organized crime nor a terrorist organization can be effectively discussed without integrating the evolution of US drug policy, which will be included. Finally, the various government tactics implemented to counter the threats mentioned herein as well as the impact on the private sector will be integrated into lectures throughout the program.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1236 - INTERNATIONAL ORGANIZED CRIME

Minimum Credits: 3
Maximum Credits: 3
Organized crime is no longer confined to a few countries such as Italy, the United States, and Japan. During the 1980s and 1990s it has become much more pervasive, and has had a major impact in countries in transition; Turkey, Mexico, and South Africa. This course looks at the dynamics of organized crime, explains why it develops in particular countries, the various forms it takes, and the responses of law enforcement agencies and international institutions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

ADMJ 1238 - CYBER SECURITY, LAW, AND MONEY LAUNDERING

Minimum Credits: 3
Maximum Credits: 3
This course will examine the scope of cyber-crime and its impact on today's system of criminal justice. Similarly, the vulnerabilities to cyber-assault will be examined. Topics include the use of computer technology to commit crimes such as "hacking" and other computer based criminology, as well as means of committing more traditional violations of law. Also included will be an analysis of the legal considerations facing law enforcement and other cyber-security professionals who are tasked with meeting the challenges of discovering, investigating and prosecuting cyber-crimes. Since our economy and security enterprises are so dependent on the electronic dissemination of information, effective measures to secure this vital resource will be explored. Given the fact that funds are transferred electronically, the electronic transmission of finances will be examined as well as the more basic methods of raising funds and laundering same to advance terrorist activities throughout the world.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1242 - GENDER, RACE, CLASS, AND CRIME

Minimum Credits: 3
Maximum Credits: 3
Gender, race and class are overlapping categories of experience that affect all aspects of life. There is perhaps no other context in which the effects of gender, race and class are as acutely evident as in the criminal justice system. That is, the people who are processed through the criminal justice system are disproportionately male, nonwhite, and from the lower classes. This class is designed to examine the cumulative and interlocking effects of gender, race, and class on crime.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
ADMJ 1245 - TERRORISM

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses upon the social, political, economic and philosophical reasons for the development and spread of terrorism throughout the world, and examines potential dangers inherent in these practices and possible means of solutions to them. Special attention will be given each term to domestic and international acts of terror that affect American citizens, interests, and policies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ADMJ 1246 - FINANCING TERRORISM

Minimum Credits: 3  
Maximum Credits: 3  
The purpose of this course is to provide the student with an understanding of how terrorists and insurgents fund their activities and finance their operations. The course analyzes the relationship between states and non-state actors, U.S. And international responses to terrorist financing, and anti-terror strategies. Selected topics include the political economy of terrorism financing, the 'HAWALA' system, various mechanisms and policy dilemmas associated with terrorism financing, warning indicators, and terrorist organizations' vulnerabilities and inefficiencies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ADMJ 1260 - RESOURCE PROTECTION PLANNING

Minimum Credits: 3  
Maximum Credits: 3  
This course will enable students to build on the preventive nature of thorough resources protection planning and develop policies, programs, and procedures to minimize the impacts of severely detrimental events or activities. Acts of terror, the flu pandemic, natural disasters, and major crime incidents are some of the critical incidents facing public safety and private sector security personnel today. This course will provide students with an overview and understanding into the importance of preparation, planning, training, and response to critical incident when protective and preventive measures fail. It will also cover public and media issues and coordination between not only government agencies, but between public and private sectors as well. The course is highlighted by an off-site mock scenario utilizing a model city and a "hands on" response to a critical incident.  
Completion of the course will include a certification by FEMA’S emergency management institute in an on-line course available for state and local officials and responders.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ADMJ 1265 - ADVANCED TOPICS IN CRIMINOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course is an advanced course that examines specific and controversial issues related to crime and the criminal justice system. While the exact topics change from year to year, those that have been studied include: the death penalty, mandatory sentencing, jail and prison overcrowding, victims' rights, and white collar crime.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ADMJ 1300 - INTRODUCTION TO CORRECTIONS

Minimum Credits: 3  
Maximum Credits: 3  
Introduces various historical and philosophical approaches to corrections. Course explores origins of correctional institutions and evolution of correctional practices in contemporary society. Emphasis on modifications of institutional practices in contemporary society and development of new
strategies as alternatives to incarceration. Various methodologies applicable to homogeneous and heterogeneous population groupings of offenders are examined taking into account individual characteristics and differences.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1350 - PROBATION AND PAROLE

Minimum Credits: 3
Maximum Credits: 3
Presents and evaluates the nature and impact of probation and parole, research on effects of both, and strategies for their most effective use. The course examines the nature of parole; factors affecting grant of denial or probation; structure and operation of probation services; differences between juvenile and adult probation services; and impacts of probation and parole upon both the criminal justice system and larger society.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1400 - INTRODUCTION TO CRIMINAL LAW

Minimum Credits: 3
Maximum Credits: 3
Acquaints the student with basic principles of criminal law derived from our English common law heritage and from more recent statutory penal code revisions in the American states. Course examines the meaning of crime and of criminal complicity and conspiracy; sentencing alternatives; and the decriminalization of some crimes.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1410 - INTRODUCTION TO CRIMINAL PROCEDURE

Minimum Credits: 3
Maximum Credits: 3
This course examines the procedural effects of criminal law, including constitutional rights, state criminal procedure, and appellate decisions and rules.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1425 - PRINCIPLES OF HOMELAND SECURITY

Minimum Credits: 3
Maximum Credits: 3
This course examines the new problems facing our domestic public service and justice personnel -- the borderless world of globalization and technology. Attention is paid to problems of terrorism, incident management systems, violence incident response procedures, planning for violence, changing federal, state, and local roles and response planning, weapons of mass effects, mass casualty programs, crime scene operations, technology and emergency responses, the evolving role of the intelligence community, and government, private, and non-government security issues.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ADMJ 1450 - CRITICAL ISSUES IN CRIMINAL JUSTICE

Minimum Credits: 3
Maximum Credits: 3
Analyzes contemporary issues relating to policies, goals, and procedures of all criminal justice agencies. Topics covered include trends and controversies regarding law enforcement activities, the changing role of police, police court controversies, standards and goals, future trends in
criminal justice, manpower utilization, organizational changes, long-range planning, and projections for future of police agencies.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**ADMJ 1900 - PRESERVICE INTERNSHIP**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
This course is a supervised placement with specific agencies in the criminal justice system.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** Satisfactory/No Credit

**ADMJ 1901 - INDEPENDENT STUDY**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
Allows advanced students to pursue topics and research of special interest which are not otherwise available.

**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0025 - YORUBA 1**

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0026 - YORUBA 2**

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language. To recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This is a survey course for Africana studies. An Afrocentric approach will be used to review the eight basic subject areas of the multidisciplinary focus; black history, black religion, black creative productions, black politics, black economics, black social organizations, black psychology and black education. Two alternative views will be pursued; a theoretical review of the literature and a summation of the practical experiences of black life.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
**AFRCNA 0032 - YORUBA 3**

Minimum Credits: 3  
Maximum Credits: 3  
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0033 - YORUBA 4**

Minimum Credits: 3  
Maximum Credits: 3  
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS**

Minimum Credits: 3  
Maximum Credits: 3  
This course examines blacks in sports. It focuses on sport as a microcosm of the larger society and also addresses sport's relationship to politics, economics, race relations, and South African apartheid. It looks at the history of blacks in sports as well as three aspects of sports that appear to be racially biased: position allocation, performance differentials, and rewards and authority structure.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0127 - INTRODUCTION TO AFRICA**

Minimum Credits: 3  
Maximum Credits: 3  
Multidisciplinary introduction to Africa emphasizing the richness, diversity and dynamism of the African experience and presented through lecture discussions of culture, social structure, history, economy, politics and other aspects of Africa's development.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0150 - AFRICAN AMERICAN LITERATURE**

Minimum Credits: 3  
Maximum Credits: 3  
Introduction to black American literature from its oral traditions to the written form from the 18th to 20th century interrelated to historical social and political movements. Special emphasis will be placed upon the Harlem Renaissance period, the literature of the 1960's, and a work by the Pulitzer Prize winners (Gwendolyn brooks, James Alan McPherson, Alice Walker, or Toni Morrison).  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0212 - WEST AFRICAN DANCE**
Minimum Credits: 3
Maximum Credits: 3
To pursue at an introductory level specific ethnic dance forms of West Africa.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 0242 - AFRICANA URBAN WOMAN

Minimum Credits: 3
Maximum Credits: 3
Writings by African and Afro-American women writers reveal similar problems inherent in a move from a rural to an urban setting. A look at how the women characters adjust to loneliness, economic, educational, and cultural changes, and the quest for self-fulfillment is to be discussed within the context of the literary works.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 0311 - INTRODUCTION TO THE AFRICAN AMERICAN FAMILY

Minimum Credits: 3
Maximum Credits: 3
This course has 2 objectives: (1) it seeks to describe and analyze the organization of black families in American society and changes in them over time, and (2) it brings together the scholarly sources available to students of black families to assess the contribution each makes to a more theoretically and conceptually sophisticated description of the structure and interaction in black families.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 0313 - THE BLACK CHURCH

Minimum Credits: 3
Maximum Credits: 3
An introduction to the course and historical development of the black church in America, its contribution to the social and religious progress of black people, black leadership, and struggles including the civil rights movement, black theology and other social movements.
Academic Career: Undergraduate
Course Component: Lecture

AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER

Minimum Credits: 3
Maximum Credits: 3
This course leads the student thru the social and historical development of black theater in North America from pre-Civil War to the present. It traces this development thru the writers, performers, companies, institutions and social movements which helped to shape the theater movements. The ultimate goal is to arrive at the understanding and appreciation that black theater is a testament to the life and vitality of a people.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 0318 - HISTORY OF AFRICA BEFORE 1800

Minimum Credits: 3
Maximum Credits: 3
Surveys history of Africa from earliest times to eve of European colonization. Looks at Africa from the inside out and aims at promoting an appreciation of Africa's contribution to world civilization and an understanding of the historical processes that have shaped modern Africa. Major
themes and topics include the ancient kingdoms, Islam, the slave trade and the European contact.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0352 - AFRICAN AMERICAN DANCE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
An introduction to African-American dance influence of West Africa and the Caribbean upon the black American experience in a comparative and historical perspective. These two perspectives are based upon those devised by African-American dance artists, such as Katherine Dunham, Alvin Ailey and Bob Johnson. The physical component of African-American dance emphasizes body placement and the relationship of movement to its music.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0385 - CARIBBEAN HISTORY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Examines historical roots of modern Caribbean. Examines major historical developments from period of subjugation of indigenous population through era of slavery to rise of modern nationalism and impact of American intervention. Also analyzes related socioeconomic systems and institutions. Selected country case studies included.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0434 - PSYCHOLOGICAL EXPERIENCE AFRICAN AMERICAN FEMALE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The course examines black female behavior from both psych historical and contemporary perspectives. The model for classroom interaction consists of lecture and group discussions by presenting relevant information and/or conducting specific exercises.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0454 - MAN/WOMAN LITERATURE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Through prose and poetic works one will note how black men are viewed and characterized by female writers as well as how black women are treated by male writers. The basis for the difference lies in racial and sexual stereotyping in Afro-American literature.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**AFRCNA 0508 - SWAHILI LANGUAGE AND CULTURE IMMERSION**

**Minimum Credits:** 4  
**Maximum Credits:** 4  

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
AFRCNA 0517 - INTRODUCTION TO AFRICAN AMERICAN POETRY

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to an overview of the poetry by focusing on both male and female writers and their works that illuminate the Afro-American poetic tradition and those pivotal moments or transitions within the development of the tradition. The instructor recognizes that black female poetry especially, is a complex whole that can be analyzed in terms of style, structure and that it has a coherent history.

AFRCNA 0586 - EARLY AFRICAN CIVILIZATIONS

Minimum Credits: 3
Maximum Credits: 3

The course surveys the emergence and growth of early African civilization from the beginnings of the evolution of the human race to the eve of the European colonization of the continent. It introduces students to the multiple disciplines contributing to knowledge about early Africa, and shows the centrality of Africa and Africans for humanity in general. Among the principal themes that the readings and discussions focus on are: pre-history of Africa and the genesis of humankind; the complexity of migration, and state formation; and African and European earlier contact. A fundamental approach will be to look at Africa from the inside out and to analyze African societies from the perspective of their internal development and reaction to external influences. Its basic goal is to promote, first, an appreciation of Africa's contributions to world civilization.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFRCNA 0628 - AFRO-LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3

A survey of black history in the countries of Latin America, from the period of European conquest (c. 1500) To the present.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 0629 - AFRO-AMERICAN HISTORY 1
AFRCNA 0630 - AFRO-AMERICAN HISTORY 2

Minimum Credits: 3  
Maximum Credits: 3  
This course surveys the development of black Americans from the time of the Civil War to the present.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

AFRCNA 1026 - AFRICAN PRESENCE IN LATIN AMERICAN LIT/CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course is a chronological and topical introduction to afro-Latin American culture, making use of literary texts, historical documents, feature films, etc. It aims at providing students with a concrete frame of reference for the African presence in Latin America.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1030 - AFRICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
A general introduction to African politics at macro level for freshmen and sophomores with special focus on traditional African political system,
European imperialism in Africa, African nationalism, independence and post-independence problems of nation-building and economic development.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is a critical analysis of mass media content as it pertains to black Americans. The primary media are newspapers, radio, and television. For comparative purposes, media content related to children, other minorities, and women are used.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### AFRCNA 1039 - HISTORY OF CARIBBEAN SLAVERY

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Today's sounds and tastes of the Caribbean from reggae and salsa music to dishes like mofongo and jerk chicken have deep historical roots in slavery. The Atlantic slave trade transported over four million Africans to the Caribbean eight times the number that arrived in the United States. How did Africans and their descendants persevere under the colonial slave system? How does the legacy of slavery present itself in the 21st century?  
This course explores these questions by examining the Caribbean from the perspectives of enslaved women and men from the 17th through the 19th centuries, particularly in Cuba, Haiti, and Jamaica, and their contemporary manifestations in films, policies, and national identities  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### AFRCNA 1083 - SPECIAL TOPICS IN AFRICAN STUDIES

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The study of a special topic in Africa studies. Content will vary from term to term, depending on instructor.  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

### AFRCNA 1108 - AFRICAN AMERICAN FOLK CULTURE

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will explore several aspects of African American folk culture being defined as non-elite expressions of art, music, dance, theatre, literature, humor, material culture, and religious beliefs. Particular attention will be given to the role of folklore in the perpetuation and transmission of shared cultural knowledge among blacks in the United States.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### AFRCNA 1145 - AFRICAN AMERICAN RHETORIC

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The purposes of this course are a historical-critical review of scholarship in black American rhetoric; and a theoretical-conceptual framework for the study of black American rhetoric. This course places considerable emphasis on the African roots of black American rhetoric, but the ultimate concern is with black Americans' behavior. The course covers consequences of African and European interactions in America, factors that forged the distinctive aspects of black American rhetoric, the effects of culture, racism, colonialism, and social class on communication.
AFRCNA 1150 - CONTEMPORARY AFRICAN AMERICAN WRITING

Minimum Credits: 3
Maximum Credits: 3
Writers in the period spanning the civil rights and black nationalist-humanist movements became a vanguard voice for black people. This course explores the written language of the period as an aid to the creation of student writings. As such, this course is a workshop and continuation of black creative writing on a higher level.

AFRCNA 1201 - GLOBAL DIASPORAS: CONTEMPORARY AFRICAN AND CARIBBEAN MIGRATION

Minimum Credits: 3
Maximum Credits: 3
What do Akon and Rihanna have in common? They are both part of recent diasporas from Africa and the Caribbean. This course focuses on the issues and experiences of people of African descent in contemporary (20th and 21st centuries) migratory diasporas from both Africa and the Caribbean. The course draws on extensive literature on migration, transnationalism, racial and ethnic identity formation, health, and other topics to illuminate the causes for migration and the experiences that migrants have in different host countries. What experiences do migrants from Africa and the Caribbean share? How do their experiences differ? How do migrants define themselves in new host countries? How do they stay connected to their homelands?

AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Inquiry into significant aspects of contemporary African social, political, cultural and human problems approached through the detailed study of representative African novels, plays and poetry written by African authors.

AFRCNA 1245 - STUDIO IN AFRICAN AMERICAN POETRY AND POETICS

Minimum Credits: 3
Maximum Credits: 3
Intended for graduate students and advanced undergraduates, studio in African American poetry and poetics will be a course in interdisciplinary making, as we investigate the evolving fields of African American poetry and poetics through a critical and a creative lens.

AFRCNA 1250 - BLACK EUROPE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
AFRCNA 1306 - WORLD LITERATURE IN ENGLISH

Minimum Credits: 3
Maximum Credits: 3
This course examines contemporary literature, primarily in English, written in eastern Europe, Africa, Latin America, etc. It pays particular attention to its depiction of social, political and moral concerns.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA

Minimum Credits: 3
Maximum Credits: 3
A cross-cultural study of women of African descent in West and southern Africa, the United States, Brazil, and the Caribbean.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1310 - CULTURES OF AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course explores the traditional cultures and societies of Africa from prehistoric to modern times. Emphasis is on the conditions prior to contemporary changes but some attention is given to modern developments. Concern is with the variety of cultures on the continent. How people make a living. What family life is like? How disputes are settled, and religion. Through lectures, films, and readings, the student gets a feeling for life in this fascinating part of the world.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1330 - SCIENCE AND TECHNOLOGY IN AFRICANA CONTEXT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFRCNA 1334 - MUSIC IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
The historical, social, and cultural background of music in Africa with particular reference to music in community life, performing groups, the training of musicians, instrumental, resources, structures in African music and the interrelations of music and dance. (Slides, films and recordings will be used to illustrate lectures.)
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1335 - AFRICAN-AMERICAN MUSIC IN THE UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
This course is designed to familiarize the student with various phases of African-American music existing in North America; blues, gospel-spirituals,
work songs, children's games songs, and classical compositions of ragtime composers Scott Joplin, J.P. Johnson, etc. Students will conduct field projects centered around "street recordings, locations, interviews of local and visiting artists, etc." A detailed study of great Pittsburgh performers present and past will constitute a major portion of this course.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

AFRCNA 1347 - FRANCOPHONE AFRICANA LITERATURE

Minimum Credits: 3
Maximum Credits: 3

An examination of the cultural, social, and political relationships of French-speaking African and the Caribbean as reflected through different genres from the 1900's. Reading poetry, folklore, and novels produced by African writers sheds light on the issues confronting them such as polygamy, urbanization, assimilation, rituals, and the marginal man and woman.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3

Study the fiction, poetry, and drama of the English Caribbean in chronological order. Exile, liberation, autonomy, the female voice, cultural, and political identity will be examined in writing from Jamaica, Trinidad, Grenada, Antigua, and Guyana with recordings and films.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

AFRCNA 1353 - COMPARATIVE DANCE EXPRESSION

Minimum Credits: 3
Maximum Credits: 3

This course will examine the cultural patterns of black dance styles and the similarities and differences in the motor behaviors among blacks in dance from South America, the Caribbean islands, Africa, and North America. Contents of the course will be introduced through films, lecture and videotapes.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

AFRCNA 1402 - LEARNING PARADIGMS AFRICAN AMERICAN CHILD DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3

To examine systemic factors which affect the cultural, social, emotional, and cognitive development of black children.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

AFRCNA 1415 - RACE AND RELIGION

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFRCNA 1510 - HEALTH IN THE AFRICAN DIASPORA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFRCNA 1522 - SEX AND RACISM

Minimum Credits: 3
Maximum Credits: 3
Sex and racism affords an opportunity to explore sex, sexism, and racism, to examine the historical development and economic impact of racism in America, to analyze the conceptual framework, the research methods, and approaches from which past and current studies on sex, sexism racism, have been and are being developed. The course will also explore sex and racism as a multi-dimensional continuum, and solutions to sex and racism.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1535 - DIMENSIONS OF RACISM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFRCNA 1538 - HISTORY OF BLACK PITTSBURGH

Minimum Credits: 3
Maximum Credits: 3
This course will explore the role and experiences of black Pittsburghers over the past 200 years of the city's history.

**AFRCNA 1555 - AFRO CARIBBEAN DANCE**

Minimum Credits: 3  
Maximum Credits: 3  
This course will focus on Katherine Dunham as an ethnologist and choreographer politically, socially, and aesthetically. The course discussion will clearly define the contents of Dunham's dance research and life experiences of Haiti.

**AFRCNA 1616 - AFRICAN AMERICAN WOMEN WRITERS**

Minimum Credits: 3  
Maximum Credits: 3  
An inter-or-cross genre study of the African North American experience thru selected readings in novels, poetry, drama, short stories, and the essay (religious, secular and philosophical).

**AFRCNA 1644 - THE AFRICAN NOVEL**

Minimum Credits: 3  
Maximum Credits: 3  
The novels studied will be drawn from several parts of the African continent and will all be available in English or translation. The emphasis will be on recurring themes in the works and on the influence of traditional African narrative forms.

**AFRCNA 1655 - AFRICAN CINEMAS/SCREEN GRIOTS**

Minimum Credits: 3  
Maximum Credits: 3  
Ousmane Sembene, known as the father of African cinema, popularized the notion of the African director as the modern day griot (oral historian) and traditional storyteller. Therefore, this course is an introduction to a cross-section of post-independence films (1963-2004) as an art form and as a visual space on socio-political, economic and cultural topics by screen griots from Burkina Faso, Cameroon, and Chad, the democratic republic of the Congo, Ethiopia, Niger, Nigeria, Senegal, South Africa and Zimbabwe.

**AFRCNA 1656 - HISTORY OF AFRICA SINCE 1800**

Minimum Credits: 3  
Maximum Credits: 3  
Surveys history of Africa from 1800 to the present day. Major themes include African statecraft, European colonization, African nationalism and post-independence problems. Processes of African institutional growth within the perspectives of resiliency, change and adaptation will be emphasized.
AFRCNA 1661 - POLITICAL ECONOMY OF AFRICA

Minimum Credits: 3
Maximum Credits: 3
An inquiry into the process of political and economic development in Africa from colonial domination to the present. Problems of economic dependence and integration into the global capitalist economic system are examined.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1704 - AFRICANAMERICA WORLD LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Despite their geographical and cultural differences, writers from Africa, the Caribbean, and the United States undergo similar experiences of oppression. Problems of self-identity, and the quest for self-respect. These similarities will be discussed in class along with a comparative approach to the texts with supplementary films, slides, and recordings.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES

Minimum Credits: 3
Maximum Credits: 3
Course will focus on black health issues from analytical, theoretical and practical perspectives. These perspectives will be introduced through cross examination of health topics which are critical to the black population, the developing of health policies and conceptual models for health promotion and disease prevention.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1720 - WEST AFRICA IN THE ERA OF THE SLAVE TRADE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFRCNA 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

AFRCNA 1760 - AFRICANA THEORY & METHODOLOGY

Minimum Credits: 3
Maximum Credits: 3
AFRCNA 1768 - AFRICANA SENIOR RESEARCH SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course will assist the student in conducting a research project of her choice. The student will select a topic, write a proposal including the statement of a question or hypothesis, a list of the goals and objectives. A design of the methodology and a review of the relevant literature.

AFRCNA 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
This course offers the student an opportunity to extend his/her academic training to a practical work experience in the city of Pittsburgh.

AFRCNA 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Students desiring to take an independent study should develop a typed proposal on a specific topic outlining the substance of the work, the objectives, the methodology, and the evaluation by which to determine when the objectives are met.

AFRCNA 1902 - DIRECTED READING

Minimum Credits: 1
Maximum Credits: 6
This course introduces the students to a specific topic which is not normally taught in an Africana studies core course. It is an individual project administered under faculty supervision.

AFRCNA 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 6
This is an individual research project/course under the supervision of a faculty member. Theoretical and conceptual interest in the emerging discipline of Africana studies and the black experience offer students dynamic, creative and intellectual avenues into new areas for discovery.

AFRCNA 1904 - REBELS AND REVOLUTION
ASL 0101 - AMERICAN SIGN LANGUAGE 1

Minimum Credits: 4
Maximum Credits: 4
In this course, students are taught American sign language (ASL) vocabulary and grammatical structures. Students will also learn and ASL fingerspelling system, the use of gestural devices and how to appropriately use the signing space in ASL. Further, students will learn about deaf culture in the United States. Out-of-class participation in deaf community events in required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASL 0102 - AMERICAN SIGN LANGUAGE 2

Minimum Credits: 4
Maximum Credits: 4
Students will learn more difficult vocabulary (signs) and how to use them in one-to-one, small group, and large group communication. Students will also be exposed to classifier constructions. This course is a continuation of ASL I (LING 0471) and it utilizes a similar curriculum.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0471 or ASL 0101; MIN GRADE: 'C'

ASL 0103 - AMERICAN SIGN LANGUAGE 3

Minimum Credits: 3
Maximum Credits: 3
This course continues the study of ASL. The students will work on developing intermediate communication skills and will concentrate on production skills. Linguistic and cultural features will be presented in the context of the language learning experiences. This level will also examine and discuss its use and effect on and in the deaf culture.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0472 or ASL 0102; MIN GRADE: 'C'

ASL 0104 - AMERICAN SIGN LANGUAGE 4

Minimum Credits: 3
Maximum Credits: 3
This advanced course of ASL concentrates on developing more precise skills and competencies by using appropriate variations of ASL (regional, racial/ethnic, stylistic and age related) vocabulary. Students will also be given the opportunity to use ASL by volunteering in the deaf community.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0473 or ASL 0103; MIN GRADE: 'C'

ASL 0105 - AMERICAN SIGN LANGUAGE 5

Minimum Credits: 3
Maximum Credits: 3
This course provides an opportunity for students to formally pursue work on an individual basis. This course also applies knowledge of American
Sign Language (ASL) grammar and vocabulary to the description of increasingly complex constructs, processes and situations. Students will: incorporate multiple character role shifting into medium-length stories, narratives and the discussion of hypothetical issues; identify and discuss various controversial issues via debate and presentation; continue to analyze multiple meaning English words and English idioms to express concepts in ASL; have the opportunity to gain knowledge about the Deaf Community as a part of the human diversity including people of color, genders, LGBTQ people, people with disabilities, etc.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: LING 0474 or ASL 0104; MIN GRADE 'C' FOR ALL LISTED COURSES

---

**ASL 0106 - AMERICAN SIGN LANGUAGE 6**

**Minimum Credits:** 3

**Maximum Credits:** 3

Introduction to specific topics and content areas in ASL discourse, including Visual Gestural Communication, International, Deafblind, Mental Health/Medical/Sexual/Drugs/Other Special Topics in sign communication depending on the needs and interests of Pitt Students. This course also provides students with opportunities to expand expressive and receptive use of American Sign Language (ASL), including a variety of special topics at an advanced level. Special emphasis is on increasing spatial use, ASL fluency and non-manual grammar and behaviors. Skills related to research in sign language discourse will be introduced.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: LING 1727 or ASL 1909 or ASL 0105; MIN GRADE 'C' FOR ALL LISTED COURSES

---

**ASL 1615 - DEAF CULTURE**

**Minimum Credits:** 3

**Maximum Credits:** 3

Many deaf people in the U.S. Are united by a language (ASL) that differs from English and a culture with characteristics that differ from those of the larger hearing society. This culture is known as deaf culture, and students in this course will be introduced to various facets of American deaf culture through readings, videos, and discussions. Students will also explore other deaf cultures throughout the world. Among the course foci are: issues of accessibility, perspectives of deaf versus hearing individuals, and various examples of deaf literature.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: LING 0472 or ASL 0102 (MIN GRADE 'B'); CREQ: LING 0473 or ASL 0103 (MIN GRADE 'B'); PLAN: American Sign Language (ASL-CS1); LEVEL: Junior or Senior

---

**ASL 1625 - THE DEAF AND SOCIETY**

**Minimum Credits:** 3

**Maximum Credits:** 3

The culture of deaf Americans is distinct from that of mainstream American society. The primary focus of this course is to expose students to the culture of the deaf in the United States and around the world. In addition to teaching students how to interact with the deaf in a culturally appropriate way, the course will help them understand deaf culture as part of human diversity. Among the course foci are: issues of accessibility, perspectives of deaf versus hearing individuals, and various examples of deaf literature.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

---

**ASL 1635 - ANALYSES OF ASL LITERATURE**

**Minimum Credits:** 3

**Maximum Credits:** 3

This course is designed for students to explore and analyze American sign language and American deaf culture through ASL literature. Studying ASL literature is a way to examine the linguistic complexity of ASL as well as explore the deaf community's values and traditions as a minority
group and a group to which visual depiction of ideas is highly valued. This course is conducted in ASL.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 0473 or ASL 0103 (MIN GRADE 'B'); CREQ: LING 0474 or ASL 0104 (MIN GRADE 'B') and (LING 1722 or ASL 1615) (MIN GRADE 'B') PLAN: American Sign Language

**ASL 1705 - STRUCTURE OF SIGN LANGUAGES**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will focus on the linguistic structure of sign languages, drawing examples principally, though not exclusively, from American sign language (ASL). It will also highlight similarities and differences between sign languages and spoken languages. In addition to structural features, the course will cover mechanisms unique to visual/spatial languages, the use of the face and body for grammatical signals, language variation, and acquisition of sign languages.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 0473 or ASL 0103

**ASL 1715 - STRUCTURE OF ASL AND ENGLISH**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 0473 or ASL 0103

**ASL 1725 - SOCIOLINGUISTICS OF SIGN LANGUAGE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
There are various sociolinguistic topics that one must consider with respect to signed languages of the deaf. Regarding language contact, ambient languages-either signed or spoken-influence a signed language. Less than 10% of deaf people are exposed to signed language from birth, which results in unique phenomena. Additionally, signed languages exhibit variation based on a myriad of social and geographical factors. These topics, in addition to language planning and language policy, will be addressed in this course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 or CSD 1020

**ASL 1800 - INTRODUCTION TO ASL-ENGLISH INTERPRETING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**ASL 1901 - INDEPENDENT STUDY**

**Minimum Credits:** 1  
**Maximum Credits:** 9  
**Academic Career:** Undergraduate
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis

**ASL 1905 - UNDERGRADUATE TEACHING ASSISTANT IN AMERICAN SIGN LANGUAGE**

Minimum Credits: 1  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis

**ASL 1909 - TOPICS IN SIGN LANGUAGE STUDIES**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 474 and 1722; PLAN: American Sign Language

**ANTH 0112 - TOURISM**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**ANTH 0501 - ARCHEOLOGY: AN OVERVIEW**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**ANTH 0534 - PREHISTORIC FOUNDATIONS OF EUROPEAN CIVILIZATION**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**ANTH 0536 - MESOAMERICA BEFORE CORTEZ**
Minimum Credits: 3
Maximum Credits: 3
When Cortez and his Spanish soldiers arrived in Mexico, they found Indians living in large cities with impressive temples raised on tall pyramids, lavish palaces for rulers, elaborate markets, and skilled craftsmen working in gold, copper, feathers, stone, pottery, and other materials. They were astonished at a civilization so like their own and yet so different (so “barbaric” to European eyes). This course explores the development of this civilization back to its roots several thousand years ago, by reconstructing earlier cultures known only from archeological evidence.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0538 - THE ARCHEOLOGIST LOOKS AT DEATH

Minimum Credits: 3
Maximum Credits: 3
Pyramids, tombs, burial mounds, graves, skeletons, mummies; the stuff of gothic romance. But the way people disposed of their dead also tells us an amazing amount about life in the past. We will look at the wide range of burial practices in the world, including the "American way of death", and then concentrate on the physical remains themselves. What do burial practices indicate as to beliefs, rituals, religion and society?

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0582 - INTRODUCTION TO ARCHEOLOGY

Minimum Credits: 3
Maximum Credits: 3
Examines the nature of modern archaeological research. Lectures look at how archaeologists work in the field, their analytic techniques, and some of the principal methodological and theoretical problems facing the field. Specific examples are used to illustrate these topics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0601 - PHYSICAL ANTHROPOLOGY: OVERVIEW

Minimum Credits: 3
Maximum Credits: 3
Designed for undergraduate non-majors, this course will provide a basic introduction to the issues, theories, and methods of physical anthropology. Beginning with a consideration of evolutionary, genetic and geologic principles, the course goes on to consider the diversity of fossil and extant primates, including humans. Issues in anatomy, paleontology and behavior will all be addressed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0620 - BIOCULTURAL ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to general anthropology emphasizing the interaction of human biology and behavior. The course considers what it means to be human by examining the biocultural interface of both present and past human populations. Topics of discussion will include human adaptation to extreme environments, cross-cultural variations in infant sensorimotor development and biological and cultural diversity in general. An understanding and appreciation of the how's and why's of human biological and cultural variation will be stressed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0630 - FORENSIC ANTHROPOLOGY: AN INTRODUCTION
Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0680 - INTRODUCTION TO PHYSICAL ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce the undergraduate to the issues, theories and methods of physical anthropology. Beginning with a consideration of evolutionary, genetic and geologic principles, the course goes on to consider, the diversity of fossil and extant primates, including humans. Issues in anatomy, paleontology and behavior will all be addressed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0681 - INTRODUCTION TO HUMAN EVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This is an introduction to human evolution and, in general, the evolution of the larger group to which we belong, the order primates. We will survey first the development of evolutionary ideas and modern developments in biology and geology and then review the diversity of living and fossil primates, dwelling especially on the discoveries and controversies surrounding our own evolutionary past.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0701 - CULTURAL ANTHROPOLOGY: OVERVIEW

Minimum Credits: 3
Maximum Credits: 3
Designed for undergraduate non-majors, this course will provide a broad introduction to cultural anthropology. This course examines the behavior and customs of peoples throughout the world and considers what it means to be human. We will consider patterns of marriage, family organization, gender, political behavior, economic systems, rituals, etc., Of other peoples and compare these with American social patterns.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0710 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will be on a topic in the area of specialization of a visiting scholar yet to be determined.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0715 - ANTHROPOLOGY OF LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to offer students a basic yet comprehensive survey of the anthropology (including history, archeology and geography) of Latin America. This survey course will emphasize the development of Latin American societies and cultures since the European conquest, and focus on key issues/themes that have consistently surfaced in Latin American cultural anthropology and that have continuing priority, relevance and interest up to the present. This course is especially tailored to freshmen students with little or no knowledge of Latin America.
ANTH 0717 - MAGIC, WITCHCRAFT AND THE SUPERNATURAL BODY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0730 - HIMALAYAN GEOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
The Himalayan region is characterized by a tremendous range of social and cultural diversity that corresponds to climatic, ecological and geographical variation, as well as local and regional geopolitical factors. Historical change from the emergence of early forms of social complexity centered on chiefs and their forts 'from which the regional designation of 'Garhwali' takes its name 'through the development of kingdoms and larger polities shows the intimate link between geography, environment and socio-political transformation. Similarly, local language patterns, regional religious practices, musical styles, mythology, food culture, sartorial fashion, architectural design, agricultural and transportation technologies and engineering and trade networks have all been shaped by the structure of Mountain barriers, bounded valley communities and bracketed lines of communication that follow river systems. Whereas the political economy of the Himalayas has been structured around agricultural production, and the development of elaborate field terrace systems, there have also been subsidiary economies centered on trans-Himalayan trade and pilgrimage as well as pastoral nomadism and transhumance. Since the colonial period, the Himalayas have increasingly become a place for rest, relaxation, tourism and adventure, and this 'along with further political transformations since Indian independence 'has led to the rapid development of urban areas. This course will provide a survey of Himalayan history, society and culture with a focus on the relationship among nature, the environment and geography.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 0768 - HUMAN SEXUALITY IN CROSS CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course explores the expression of human sexuality across a diversity of cultural and social settings using a cross-cultural framework that is based on comparing information on sexuality in other cultures with data from us. It includes how human groups manage sexuality and reproduction; theories of the development of marriage, family, and household systems; differences in values and expectations related to sexuality; the development as sexual expression across the life span; understanding heterosexual and homosexual relationships; and understanding sexual violence.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
By examining the behavior and customs of peoples throughout the world, the course considers what it means to be human. We will describe the patterns of marriage, family organization, warfare and political behavior, economic systems, rituals, etc., Of other peoples, especially those of tribal societies, and compare these with American social patterns. Anthropological films and slide presentations will supplement lectures.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 1335 - GLOBALIZATION
Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the economic, social, technological, environmental, and ideological impacts of globalization on national communities, with an emphasis on the cultural and political dynamics of the process. Student research and oral presentation skills are emphasized.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 1441 - FIELD METHODS IN LINGUISTICS

Minimum Credits: 3
Maximum Credits: 4
This course is meant to simulate the experience of linguistic field work, and raise awareness about the effectiveness of specific interview techniques for acquiring linguistic data. The course will give instruction and experience in eliciting data from a speaker of non (indo) European language. Students will undertake the investigation of the phonology, some aspect of grammar, and the ethnonomically study of a taxonomically structured semantic field such as plants or animals. Students will make detailed elicitation plans in advance of their administration.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 1578 and 1773 and 1777; LVL: Sr

ANTH 1447 - LANGUAGE, CULTURE, AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Certain cultural concerns are well-labelled linguistically: kinship, plant-names, diseases, colors, etc. The study of how such semantic fields are labelled and organized is ethnonomastics. Much of the way language is used depends on the context of speaking. Different ways of talking to different people is the subject matter of sociolinguistics. Some thoughts that we habitually think seem illogical on reflection, but it seems as if our language predisposes us to think this way. Such phenomena are addressed by the Sapir-Whorf hypothesis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 1450 - GENDER AND SUSTAINABILITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

ANTH 1516 - SPECIAL TOPICS IN ARCHAEOLOGY GEOPHYSICS

Minimum Credits: 1
Maximum Credits: 1
This course provides a general introduction to common methods of geophysical prospection being used within archaeology. Classroom lectures will be provided on: (i) integration of geophysics as a tool within broader research programs, (ii) background theory on the methods and their use in field research (fluxgate gradiometry, earth resistance, gpr, magnetic susceptibility, electrical conductivity), and (iii) opportunity to process and interpret actual geophysics datasets. Hands-on training in geophysics survey also will be provided through practical field sessions including: fluxgate gradiometry, earth resistance, and magnetic susceptibility.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Satisfactory/No Credit

ANTH 1520 - SEDIMENTOLOGY AND STRATIGRAPHY
The first part of this course involves the description of sedimentary particles and deposits using the fundamental properties (composition, size, shape, orientation and packing) and derived properties (porosity, permeability and sedimentary structures). Included is a discussion of the processes related to these properties. The second part reviews modern sedimentary environments and their rock products. Finally, principles of stratigraphy are introduced.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: GEOL 0055

---

**ANTH 1524 - CHINESE ARCHAEOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to Chinese Archeology from the earliest known beginnings through the Han Civilization of the second century A.D. Attention will be given to innovations of people in this part of the world -- the agricultural beginnings, the first cities and states, the formation of an empire. Emphasis will be placed on such topics as the role of archeology in the study of history and art as well as in understanding china today.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

**ANTH 1525 - EASTERN NORTH AMERICAN ARCHEOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
This course deals with cultural development in the eastern United States from approximately 20,000 years ago to the period of European contact. Particular attention will be paid to man's adaptation to late pleistocene and holocene environments, the initial occupation of the region East of the Mississippi, the origins of agricultural systems and the rise of complex societies, including the Adena, Hopewell, and Mississippian manifestations.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

**ANTH 1526 - WESTERN NORTH AMERICAN ARCHEOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
The prehistory of Western North America is examined in detail from the initial peopling of the area to the period of historic contact. Special emphasis is given to the Paleo-Indian and archaic techno/subsistence stages in the arid portions of the West.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

**ANTH 1527 - ARCHAEOLOGY OF NORTH AMERICAN INDIANS**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

**ANTH 1528 - SOUTH AMERICAN ARCHAEOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
This course deals with cultural development in South America from 20,000 B.C. To Spanish contact. Emphasis will be placed on the earliest
evidence for man, maritime adaptations, and origins of agriculture, rise of the state in the Central Andes and the rise of complex societies in the tropical forest. Stress will be placed on the evolution of Andean states including the origins and spread of the Chavin, Moche, Nasca, Tiahuanco, Chimu and Inca Empires.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**ANTH 1530 - ORIGINS OF CITIES**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
A broad introduction to the process of urbanism and the rise of early pre-industrial cities in both the new and old worlds. Specific cases from MesoAmerica, the Andes, North America, Egypt, and the near East are examined in order to elucidate the varying roles cities played in ancient civilizations.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**ANTH 1534 - ARCHEOLOGICAL DATA ANALYSIS 1**

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
An introduction to quantitative data analysis in archeology, this course covers basic principles of statistics, including exploratory analysis of batches, sampling, significance, t tests, analysis of variance, regression, chi-square, and estimating universe means and proportions from samples. The approach is practical, concentrating on understanding these principles so as to put them to work effectively in analyzing archeological data. Much of the statistical work is done by computer.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**ANTH 1535 - BASIC ARCHEOLOGICAL FIELD TRAINING**

- **Minimum Credits:** 6  
- **Maximum Credits:** 6  
The university of Pittsburgh field training program in archaeology is conducted at various locations. Features of the excavations include basic training in mapping, archaeological survey, excavation methods, soil analysis, data recording, and preliminary artifact analysis.

**Academic Career:** Undergraduate  
**Course Component:** Credit Laboratory  
**Grade Component:** LG/SNC Elective Basis

**ANTH 1536 - PALEO-KITCHEN: PREHISTORIC DIET, COOKING AND DOMESTICITY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

**ANTH 1537 - BASIC LABORATORY ANALYSIS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This is a follow-up course for anthropology 1534 basic field methods in archaeology. In anthropology 1537, students who have participated in the summer field training program will be instructed in the Methodology of Artefactual and Non-Artefactual analysis. All data recovered during the summer field training program will be processed by the students under the supervision and direction of the instructor. Special emphasis will be placed on lithic and perishable analysis as well as paleo-climatic reconstruction and quantitative methods.
ANTH 1540 - SPECIAL TOPICS IN ARCHEOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics covered vary greatly with instructor and term.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 1541 - CULTURAL RESOURCE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course will cover in an introductory way all aspects of cultural resource management and historic preservation. Major topics include federal historic preservation legislation, cultural resources (historic and prehistoric archaeology, historic structures), the national register of historic places, section 106 and 110 of the NHPA, historic preservation planning, and state historic preservation plans. Course will utilize historic architectural examples as well as prehistoric and historic archaeological sites. Greater emphasis placed on how to evaluate historic properties for national register.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ANTH 1543 - ANCIENT STATES IN THE NEW WORLD

Minimum Credits: 3
Maximum Credits: 3
Drawing on the fact that the ancient new world was a dazzling treasure house of non-Western political thought and organization, this course uses archaeology and ethnohistory to document and make comparative sense of the rich variety of political arrangements which existed among prehispanic states in MesoAmerica and Andean South America. A special aim is to understand how Amer-Indian concepts about state craft and rulership mesh with anthropological and other theories about ancient states.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ANTH 1544 - ANCIENT CIVILIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course examines the rise and fall of several ancient civilizations. It covers the archaeology and earliest history of regions recognized as significant independent centers for the development of early civilization: Mesopotamia, Egypt, Indus Valley, China, South East Asia, MesoAmerica, and Andean South America. Central themes concern: why and how civilizations first emerge and then collapse; relationships among economic, political, social, and ideological factors in early civilizations; generic versus unique qualities of different early civilizations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ANTH 1546 - CAVEMAN: ARCHAEOLOGY, POP CULTURE AND THE PRIMITIVE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
ANTH 1547 - POTS AND PEOPLE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ANTH 1548 - AMAZONIAN ARTS: MAKING AND MEANING

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the arts of the Amazonian region in the context of their function and meaning. The course will be taught as a combination of lecture and hands-on experience working with native potters from the Bobonaza river. Students will learn to make pottery in the Kichwa (Quichua) tradition, and to understand the role of pottery and material culture in the daily lives of people in this region. On a number of occasions, students will accompany the native potters on journeys into the adjacent forest to gather materials and to study the patterns in nature that inspire them. Here students will observe related arts such as face paint patterns, beaded ornaments, ritual singing and storytelling. Carefully selected readings and lectures will use these arts as a window for exploring Amazonian thinking about the natural world behind the designs, and the ways in which the designs can be used to understand patterns of social interaction. Interviews with potters will aid in understanding these arts in the context of daily and ceremonial life. In the process, the arts become a doorway allowing the student to explore Amazonian culture and environment first hand. Comparative material from several other world regions will also be discussed.

ANTH 1605 - PRIMATE ANATOMY

Minimum Credits: 4  
Maximum Credits: 4  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis
ANTH 1609 - ADVANCED SKELETAL ANALYSIS

Minimum Credits: 3  
Maximum Credits: 3  
This course provides the student with an in-depth understanding of the skeletal features used to develop the osteobiographic profile (e.g., age, sex, stature, ancestry, handedness, etc.) Of an individual. This analysis is essential for forensic identification and forms the foundation for the reconstruction of ancient individuals and their life-ways. Each student will select some aspect of skeletal analysis and present an overview of the bone biology, the history of the analytical methods, the problems and advantages of each method, modifications that others have made to address these issues, and the current state of knowledge. In the past, some students have proposed new methods of analysis. This will be complemented by a lab exercise designed by the student that will provide data for interobserver analysis of various techniques. The results of this lab will be presented as posters which will be posted on CW at the end of the term. Prior osteological experience is required.

ANTH 1611 - EVOLUTIONARY THEORY

Minimum Credits: 3  
Maximum Credits: 3  
Intended as a sequel to ANTH 0011, this course explores modern evolutionary theory in detail. Some coverage is given to the history of debates, but more emphasis is placed on their current status. Both phylogenetic and adaptive components of the evolutionary process are discussed.

Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ANTH 1613 - PRIMATE BIOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course is a survey of the major groups of living primates (including humans) and of the various hard and soft tissue, as well as physiological and biochemical, systems that distinguish the group as primates and further distinguish the diverse lot of primate subgroups.

ANTH 1703 - THE HISTORY OF GOD
Minimum Credits: 3
Maximum Credits: 3
God has a history. In the earliest days of that history, God was worshiped as one of a plethora of deities controlling various spheres of cosmic activity or the human world. Students in this course will learn about this ancient pantheon - how gods functioned in society and how their presence was experienced by those devoted to them. They will then trace the evolution of the God of Israel from a mountaintop deity of the southern Levant in the late second millennium BCE to a supreme deity worshiped by a small group of absolute monotheists based in Jerusalem in the mid-first millennium BCE. Students will become more sophisticated readers of biblical texts in the process. The sources of the Hebrew Bible reflect not a homogeneous monotheism, but rather a diverse set of belief systems tending toward henotheism or even polytheism. By appropriating and reinterpreting the religious myths of their neighbors, the Israelites arrived at a character of the divine that has proven problematic to many contemporary theologians, particularly on issues of LGBT rights, women's rights, and the environment.

Grade Component: LG/SNC Elective Basis

ANTH 1704 - RITUAL: THEORIES AND CASES

Minimum Credits: 3
Maximum Credits: 3
This course deals rigorously with historical and contemporary topics in the study of ritual and its intersections with religion, politics, medicine, disaster studies, and the study of social relations in general. From being considered peripheral to social science, ritual has re-emerged as a fundamental category of human behavior, relevant across a wide span of domains of actions. While there is a close connection between ritual and religion, ritual action is important outside of the sphere of religion and is now considered fundamental to the workings of society. Students in this course will understand how ritual practices vary cross-culturally while serving basic functions. The course provides case studies from different areas and shows how theory applies to these cases. Instruction methods include lectures and discussion; student work includes presentations, essays, and exams.

ANTH 1708 - SOCIETY, CULTURE, AND POWER IN POST-CONQUEST CITIES

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

ANTH 1711 - ETHNOBIOLOGY: AMAZONIAN RELIGION AND NATURE

Minimum Credits: 3
Maximum Credits: 3
The course explores Amazonian cultural knowledge of plant and animal species, comparing it to scientific knowledge, to uncover underlying assumptions that constitute a systematic, if implicit, Amazonian philosophy of nature. It also teaches students how to ask key questions and to carry out qualitative research on ethnobiology. Over generations of hunting and gathering Amazonian cultures gained an intimate knowledge of their rainforest environment, the most bio-diverse on earth. Now, more than ever, preservation of that environment depends on improving understanding and cooperation between environmentalists and the native peoples who live there; and upon integrating traditional Amazonian and scientific knowledge of the natural world. The course addresses key ethnobiological questions such as: how do native Amazonian people classify plant and animal species? How do they understand the extinction or the emergence of new species? How do they understand plant and animal behavior? How is plant and animal ecology believed to serve as a model for understanding human society and vice versa? How should human emotions be regulated so as to better work with nature? What aesthetic, emotional or religious practices were developed to create bonds of empathy or communication between human beings and other species? What are the practical implications of the answers to these questions for collaborative environmental work with indigenous communities?

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
ANTH 1712 - AMAZONIAN ETHNOBOTONY

Minimum Credits: 3
Maximum Credits: 3
This course examines the cultural understanding and uses of plants in the Ecuadorian amazon. How do Amazonian people understand what plants are? How did they originate? How are they classified? How are they similar or different from humans? How are plant foods and medicines believed to work on the human body? How should they be harvested and prepared? What sorts of human moods or attitudes are necessary to work with plants? What ritual techniques are used to achieve empathy required to work successfully with plants?
