Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis

**HAA 1909 - UNDERGRADUATE RESEARCH ASSISTANTSHIP**

Minimum Credits: 1  
Maximum Credits: 3  
This course enables students to receive academic credit for serving as assistants to faculty members who are conducting pre-existing research projects (i.e. Preparing work for publication or a conference). This collaboration will result in a meaningful experience for the student that introduces them to and gives them grounding in the ethos and mechanics of research and publication.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** Satisfactory/No Credit

**HAA 1911 - ARCHTCRL SEM: MONOGRPHIC TOPCS**

Minimum Credits: 3  
Maximum Credits: 3  
A seminar for senior architectural studies majors, with changing topics: treats single architects, buildings, or cities.  
**Academic Career:** UGRD  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

**HAA 1950 - SENIOR THESIS**

Minimum Credits: 3  
Maximum Credits: 3  
In this course a senior major in the history of art will research and write a research paper and present it as if for publication. The area and topic will be decided upon in consultation with a specific faculty member.  
**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFML 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
**Course Attributes:** Writing Requirement Course

**HAA 1951 - HONORS RESEARCH SEMINAR**
This seminar is intended for undergraduate students pursuing an honors thesis project in the department of the History of Art and Architecture. Students will devise and carry out research for their thesis paper under the direct supervision of a qualified faculty member in the department, depending on the student's specialized interest. That faculty member will guide the student through the production of the paper in accordance with stipulated deadlines for outlines and drafts leading up to the final work.

**Academic Career: Undergraduate**
**Course Component: Lecture**
**Grade Component: Letter Grade**

**HAA 1990 - 20THC RUSSIAN ART: BETWEEN EAST AND WEST**

This course surveys Russian art of the 20th century - including painting, graphic design, handicrafts, stage design, and architecture spanning the period from the world of art/Miriskustva (1890s) to the present day. It (1) acquaints students with major art groups, movements and their key representatives, (2) traces the role of icons and folklore traditions in works throughout the century, (3) elucidates the system of patronage and museums and galleries, and (4) examines the symbiosis between Russian art and ideology.

**Academic Career: Undergraduate**
**Course Component: Lecture**
**Grade Component: LG/SNC Elective Basis**

**Honors**

**HONORS 0001 - UNIVERSITY ORIENTATION**

An informational seminar open to honors-qualified freshmen. Students gain a better understanding of university services, functions and policies as well as the opportunities available through the honors college.

**Academic Career: Undergraduate**
**Course Component: Lecture**
**Grade Component: Satisfactory/No Credit**
**Course Attributes: University Honors Course**

**HONORS 0010 - CHANCELLOR SCHOLAR ORIENTATION**

An informational seminar open to freshmen chancellor scholars. Students will gain a better understanding of university services, functions and policies as well as the opportunities available through the honors college.

**Academic Career: Undergraduate**
**Course Component: Lecture**
**Grade Component: Satisfactory/No Credit**
**Course Attributes: University Honors Course**

**HONORS 0021 - SEMINAR: HUMANITIES**

An informational seminar open to honors-qualified sophomores considering majors in the humanities. Students will explore majors in greater depth, how to conduct research in the disciplines, and preparation for post-graduate opportunities.

**Academic Career: Undergraduate**
**Course Component: Lecture**
**Grade Component: Satisfactory/No Credit**
**Course Attributes: University Honors Course**

**HONORS 0080 - BRACKENRIDGE RESEARCH SEMINAR**

**Minimum Credits: 1**
**Maximum Credits: 1**
This seminar will provide Brackenridge research fellows with the opportunity to develop their summer research projects further, culminating in an abstract, a research paper and a poster.

**HONORS 0081 - HONORS COLLEGE/HEALTH SCIENCES RESEARCH SEMINAR**

- Minimum Credits: 1
- Maximum Credits: 1
- Academic Career: Undergraduate
- Course Component: Lecture
- Grade Component: Satisfactory/No Credit

**HONORS 0082 - SEMINAR IN CONDUCTING RESEARCH**

- Minimum Credits: 1
- Maximum Credits: 1
- Academic Career: Undergraduate
- Course Component: Lecture
- Grade Component: Satisfactory/No Credit

**HONORS 0083 - SEMINAR IN COMMUNITY-BASED RESEARCH**

- Minimum Credits: 1
- Maximum Credits: 1
- Academic Career: Undergraduate
- Course Component: Seminar
- Grade Component: Satisfactory/No Credit

**HONORS 1010 - SPECIAL TOPICS SEMINAR**

- Minimum Credits: 1
- Maximum Credits: 1
- Academic Career: Undergraduate
- Course Component: Seminar
- Grade Component: LG/SU3 Elective Basis
- Course Attributes: University Honors Course

**HONORS 1020 - SPECIAL TOPICS SEMINAR 2**

- Minimum Credits: 2
- Maximum Credits: 2
- Academic Career: Undergraduate
- Course Component: Seminar
- Grade Component: LG/SU3 Elective Basis
- Course Attributes: University Honors Course

**HONORS 1021 - ENERGY, SCIENCE, SOCIETY & COMMUNICATION SEMINAR**

- Minimum Credits: 3
- Maximum Credits: 3
- Academic Career: Undergraduate
- Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Attributes: University Honors Course

HONORS 1130 - DISCOURSES IN THE HUMANITIES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: MIN CUM GPA: 3.25
Course Attributes: University Honors Course

HONORS 1131 - GREAT BOOKS: A SEMINAR IN THE MODERN HUMANITIES, PART 1

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis
Course Attributes: University Honors Course

HONORS 1132 - GREAT BOOKS: A SEMINAR IN THE MODERN HUMANITIES, PART 2

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate

Grade Component: LG/SU3 Elective Basis
Course Attributes: University Honors Course

HONORS 1905 - BPHIL THESIS RESEARCH

Minimum Credits: 1
Maximum Credits: 6
Undergraduates pursuing the bachelor of philosophy degree through the honors college may register for this course only after their thesis proposal has been approved and they have been admitted to honors college candidacy.
Academic Career: Undergraduate
Course Component: Thesis Research
Grade Component: Satisfactory/No Credit
Course Attributes: University Honors Course

Human Resources Management

BUSHRM 1050 - HUMAN RESOURCES MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Provides an introduction to the management of human resources at the organizational level. HRM is viewed as an integral part of the basic management process and the orientation of the course is toward developing managerial skills useful in establishing organizational personnel policy. Specific topics include the role of HR in the management process, HR planning and forecasting, job information systems, recruitment and selection, HR development, compensation, legal framework and evaluation.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; LVL: So, Jr, Sr

BUSHRM 1660 - PROJECTS IN HUMAN RESOURCES MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
BUSHRM 1685 connects undergraduate human resources students with a partner organization to develop/implement specific human resources strategies for an on-campus, student-operated business. Topics include: recruitment, hiring, training and team development, assessment and feedback, organizational change, and succession planning.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSHRM 1665 - NEGOTIATING IN BUSINESS

Minimum Credits: 3
Maximum Credits: 3
Negotiating permeates human interactions. It affects balance and distribution of resources among nations, organizations, families and individuals. In business, outcomes of negotiations influence bottom-line. Students will understand theory behind successful negotiations; recognize situations that call for negotiation; explore use of alternative negotiating strategies and tactics; and be able to analyze, plan, and carry out a successful negotiation.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSHRM 1050 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors
BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE

Minimum Credits: 3  
Maximum Credits: 3  
This course provides a framework for understanding business and legal challenges associated with effective workforce management around the world. We will examine how labor markets in the Americas, Europe and Asia compare in terms of labor costs and supply, workplace culture, and employment law. News events will be used to illustrate the complex cultural and regulatory environment that multi-national firms face in such areas as talent and performance management, offshore outsourcing, downsizing and industrial relations. Finally, we will focus on successful expatriate assignments and globally-oriented careers.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  

BUSHRM 1675 - HUMAN RESOURCES STAFFING

Minimum Credits: 3  
Maximum Credits: 3  
Provides an in-depth examination of the organizational staffing process. Procedures for human resource needs assessment such as personnel audits and forecasting are discussed. Recruitment strategies and recruitment sources are explored. The process of organizational choice by candidates may be covered. Emphasis on understanding basic types of assessment tools and procedures for choosing new employees. Core concepts in measurement and validity are discussed. Issues relating to organizational entry and socialization may also be covered.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD ‘C’); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1677 - TRAINING AND DEVELOPMENT

Minimum Credits: 3  
Maximum Credits: 3  
In 2012 U.S. Firms spent $62 billion on training and development programming for their employees. Such programs address the diversity of skills and demographic characteristics of the workforce, the complex technologies that workforce utilizes in the workplace and the competition resulting from ongoing globalization. This course is designed to provide students with an understanding of the strategic advantage gained by a firm as it designs and implements training and development programs. Topics covered include needs assessment, training design, training methods, and evaluation of training. In addition, employee, career and management development and the use of technology in training will be examined.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  

BUSHRM 1680 - COMPENSATION AND PERFORMANCE MANAGEMENT

Minimum Credits: 3  
Maximum Credits: 3  
Examines the general structure of an organization and the rewards employees seek in exchange for the efforts and contributions they provide. Topics include: rewards and motivating work environment; government and union influences; job content analysis, description and evaluation; determining competitive relationships, developing pay structures; measuring performance and paying for performance; employee benefits; administration of the compensation plan; executive, managerial, professional, and sales compensation.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD ‘C’); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1685 - EMPLOYMENT AND LABOR RELATIONS

Minimum Credits: 3  
Maximum Credits: 3
Provides a close examination of the day-to-day labor-management relationship and processes. Considers contract negotiations, contract administration, discipline and grievance procedures, and third-party conflict resolution assistance such as mediation, fact-finding and arbitration. Emphasis is placed on the structure, organization, and objectives of the parties. The similarities and differences between private and public-sector bargaining are also considered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

**BUSHRM 1686 - SPORTS MANAGEMENT PROJECT COURSE**

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to provide the student a meaningful experience with a real-world client and problem. Each project is distinct and generally will afford opportunities for a team of students to apply conceptual and analytical skills taught in the CBA major and core classes and to report to the client the result of all assessments. While particular projects may have a primary focus on one functional area (marketing, finance, accounting, human resources, supply chain, business information systems or global management), each will also feature cross functional dimensions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**BUSHRM 1687 - HUMAN RESOURCES STRATEGY AND PLANNING**

Minimum Credits: 3
Maximum Credits: 3
The role of human resources in creating a sustainable competitive advantage is covered in detail. Topics often include organizational factors (e.g., cultures, values) that impact HR planning and strategy, HR environmental analysis and competitor analysis, internal analysis of the HR system for competitive initiatives, HR contributions to business strategy formulation, human resources forecasting and planning, HR strategy implementation, succession planning, facilitating organizational change, downsizing and restructurering the organization, and HR aspects of mergers and acquisitions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

**BUSHRM 1688 - HUMAN RESOURCE ANALYTICS**

Minimum Credits: 3
Maximum Credits: 3
Three credit elective in the College of Business Administration. The course is designed to acquaint students with this rapidly expanding area in the human resource field. Using simulations from a variety of human resource analytics packages common in HR departments, students will learn to critically assess data and metrics for human resource problem solving and examine the manner in which such data is organized and reported. The class will also provide opportunity to interpret and report results from statistical and predictive analysis to aid decision making in the firm.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1100 or 1000

**BUSHRM 1689 - SPORTS MANAGEMENT**

Minimum Credits: 3
Maximum Credits: 3
Many students aspire to careers in the NFL, NBA, and major league baseball. But, as we all know, employment prospects in those organizations are decidedly limited. However, a February, 2014 Forbes.com post indicates that the sports industry as a whole will grow by $145.3 billion between 2010 and 2015. This course recognizes that the sports industry is much broader than just professional sports teams including firms in sports clothing, sports equipment, sports drink, sports medicine, venue management, food and beverage, sports media, and sports marketing. The sports industry is a labor intensive industry with human resource and project management skills as key success factors. This class is designed to examine these administrative skills which will serve well you in any of your career pursuits while satisfying your passion for sports. Planned topics, exercises and activities in the course include a look at game day preparations, facilities management including a behind the scenes tour of a facility, player selection (through a draft simulation) and retention, coaching, licensing, sports media, and sports marketing.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSHRM 1690 - HUMAN RESOURCES MANAGEMENT INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The human resources management internship provides business credits for project assignments that augment a professional HRM work experience.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: BUSHRM 1050 (MIN GRAD ‘C’)

BUSHRM 1695 - HUMAN RESOURCES MANAGEMENT INDIVIDUAL STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of human resources management issues or problems to which they have been introduced in other human resources management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: BUSHRM 1050 (MIN GRAD ‘C’)

BUSHRM 1711 - ITALIAN HOSPITALITY AND TOURISM

Minimum Credits: 3
Maximum Credits: 3
The course will explore the history, culture and heritage of Italy including food, wine and coffee. Museums, historical and religious landmarks will also be explored. Tourism is an important aspect of the Italian culture. Students will take an objective view on agritourism, wine tourism and ecotourism and analyze the impact and benefit to Italian tourism industry.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

Hungarian

HUN 0101 - HUNGARIAN 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HUN 0102 - HUNGARIAN 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0291 or LCTL 0391; MIN GRADE: ‘C’ FOR LISTED COURSES
HUN 0103 - HUNGARIAN 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0292 or LCTL 0392; MIN GRADE: 'C' FOR LISTED COURSES

HUN 0104 - HUNGARIAN 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: HUN 0102; MIN GRADE: 'C'
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies

HUN 0105 - HUNGARIAN 5

Minimum Credits: 3
Maximum Credits: 3
This course builds upon the foundations from previous levels of Hungarian to help you refine and consolidate your knowledge from those levels and to expand your speaking, listening, reading and writing skills in more complex communicative situations. By further developing these skills, you will be able to express yourself creatively in both written and spoken Hungarian with more advanced-level grammar, context-specific vocabulary and a more thorough understanding of the cultural nuances that influence interactions in the language. We will also continue to develop cultural understanding of Hungary's customs, traditions, history and geography. Learning outcomes: Upon completion of the course, students who have attended classes and successfully completed all assignments, tests and quizzes with a minimum grade of B- should be able to: successfully apply their knowledge of the fundamental conventions of the language (e.g., word order, conjugation patterns, verb modes, noun cases) to analyze and create spoken and written discourse in familiar and several unfamiliar contexts, narrate and describe in all time frames using connected discourse of paragraph length, using aspect appropriately, in speech and writing incorporate a number of cohesive devices in their writing when providing descriptions or summaries, understand short spoken and written conventional narrative and descriptive texts, confidently relying on contextual clues if necessary, converse confidently with sufficient accuracy, clarity and precision when dealing with familiar situations, formally and informally, have a more in-depth understanding of Hungarian traditions, customs, geography and history. Grammar topics will include: review and expansion of previously learnt material (e.g. the conditional, the imperative-subjunctive, possessives, postpositions), the causative, infinitives with endings, relative clauses and various types of pronouns.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HUN 0106 - HUNGARIAN 6
OUTSIDERS ON THE MARGINS: THE AFTERMATH OF SOCIALISM ON FILM

This course introduces students to the aftermath of Socialism, focusing on East Germany and Hungary through movies. We will look at issues that have been specific to societies in the Eastern Bloc taking these two areas as examples, and thus offer insight into the development of these societies after the fall of Socialism all the way up to the present. A deeper understanding of this development will encourage students to think about current historical-political events from a broader comparative perspective, promote their knowledge about the region of East Central Europe, and help discuss these events in an informed manner. Film as an art reflects the struggles and preoccupations of the time and society it emerges from. The selection of films in this course provides students with a representative sample of issues that take center stage in movies and cinematic art after the fall of Socialism. We will investigate issues of economic disparity, gender, sexuality, race, ethnicity, ability difference and criminality through a selection of cinematographic works made after 1989 presenting the effect of the change on people's lives, their collective memory, societal issues and the way they influence domestic and foreign politics. Under Socialism, inhabitants of the Eastern Bloc largely remained isolated from the Capitalist world and thus remained outsiders to it, quasi-exotic beings who were often regarded with curiosity, pity or suspicion by those in the West. These sentiments are still echoed despite the collapse of Socialism in 1989 and the EU's Eastern Enlargement in 2004, as inhabitants of both the former Eastern Bloc countries and the Western world are still coming to terms with East Central Europe's transformation into democratic societies with a free market economy and the free movement of labor. Historical and cultural differences that had existed before the creation of the Iron Curtain did not cease to be in the Post-Socialist era; on the contrary, they precipitate in discussions and policy-making in the EU and at a global level, where members of the Visegrád countries and their former Eastern Bloc neighbors are yet again often regarded as the nonconformist outsiders on the margins of Europe. In an era of globalization, would we not expect mutual understanding of each other to be less problematic than before the change in 1989? What is the connection between forty years of Socialism and our current day in a Post-Socialist era? We will investigate issues of economic disparity, gender, sexuality, race, ethnicity, ability difference and criminality through a selection of cinematographic works made after 1989 presenting the effect of the change on people's lives from various perspectives. Some of these include the perspective of women, homosexuals, Jews, migrants, people with disabilities, and criminals (if they indeed are criminals), all in addition to the "average" person under Communist rule living on what was perceived by many "the margins" of Europe. The course thus looks not only at the Socialist and post-Socialist citizen as an outsider, but also groups that find themselves in an even more marginalized position, we might as well call them double outsiders because of their position in a society already disadvantaged to more
developed Capitalist ones.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HUN 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
I believe that this course ought to have been added automatically when the HUN subject code was created. We do not have course descriptions for 1901 Independent Study Courses in our other subject codes.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

HUN 1905 - UNDERGRADUATE TEACHING ASSISTANT IN HUNGARIAN

Minimum Credits: 1
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

HUN 1909 - SPECIAL TOPICS IN HUNGARIAN

Minimum Credits: 3
Maximum Credits: 3
The syllabus will change each time this course is offered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HUN 1915 - FULBRIGHT SEMINAR IN HUNGARIAN STUDIES

Minimum Credits: 3
Maximum Credits: 3
Hungary today is a key site for competing plans for state- and peoplehood in the European Union. The country is also critical for making sense of the relationship between Europe's imperial-colonial legacies, Central Europe's capitalist and (post)socialist transformations, and EU integration, while providing deeper insight into the global issues of 'politics from below,' human rights and security, and migration. This is an interdisciplinary course taught by a visiting Hungarian Fulbright distinguished scholar. The content of the course will depend on the field and research of the individual scholar, but will typically explore history, culture, politics and / or society from a transnational and global perspective, focusing on contemporary Hungary within the broader context of Central Europe.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Industrial Engineering

IE 0015 - INTRODUCTION TO INFORMATION SYSTEMS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to systems thinking and information management. Students learn to identify the risks of system sub-optimization created by silo oriented operations in organizations. They practice how to define, design, and develop databases needed to satisfy the information requirements of their customers and the entire organization. Using object based data models students design a conceptual model to discuss with customers (end users) and then convert the concepts to relational models for database developments using normalization methods. To practice the database development process students are assigned a project that requires research and preparation for customer interviewing, conceptual design, customer verification, logical design, prototype development using ms-access, testing and presentation of results. This course serves as a primer for advanced courses in information management and systems optimization.
Academic Career: Undergraduate
Course Component: Lecture
IE 1012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS

Minimum Credits: 3  
Maximum Credits: 3

Description: this course covers contemporary research topics on the design and manufacture of nanostructured materials. In addition to design and manufacturing, this course would also emphasize the nanometer-scale phenomena that make nanostructured materials particularly attractive for structural applications. Topics such as dislocation theory, large strain plasticity phenomena, super plasticity and kinetics of coarsening will be discussed in the context of structural nanomaterials.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering
Course Attributes: Hourly Final

IE 1013 - MANUFACTURING PROCESS ENGINEERING

Minimum Credits: 3  
Maximum Credits: 3

The objective of this course is to instill a fundamental understanding of manufacturing processes by focusing on the processes, metallurgy and mechanics of deformation in metal forming. To this end, analysis techniques will be developed from solid mechanical principles (stress-strain relationship, deformation and failure) which would then be applied to bulk deformation and material removal processes. The course assumes no prerequisites except basic concepts of stress, strain and strength of materials.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1014 - DATA BASE DESIGN

Minimum Credits: 3  
Maximum Credits: 3

This course introduces the fundamental aspects of database design and management within the context of a relational database management system (DBMS). Covered topics include: relational model, database design life-cycle, database design optimization, client/server architecture, data modeling, SQL, database security, database management, data warehousing, internet database environment. Students will gain hands-on experience in analysis, design, implementation, and management of relational database systems.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1015 - GEOGRAPHIC INFORMATION SYSTEMS

Minimum Credits: 3  
Maximum Credits: 3

Explore the concepts and history of geographic information systems and learn to effectively use the most utilitarian GIS software, ArcGIS.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1035 - ENGINEERING MANAGEMENT

Minimum Credits: 3  
Maximum Credits: 3

This course focuses on management theory applied to engineering and technical organizations. Topics include: the management process and management functions (planning, organizing, leading, and controlling); project management; managing technical people; engineering ethics, globalization, and other contemporary management concepts.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1039 - ENTREPRENEURSHIP FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
This course considers the development of a new technology company from ideation and opportunity evaluation to capital generation and launch. It includes an understanding of accounting principles, budgeting, capital markets, venture capital, operating in the development stage, executive and employee requirements, product development, and growing the company.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1040 - ENGINEERING ECONOMIC ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Discusses cost estimation, time value of money, interest rate calculations, economic equivalence concepts, comparison of alternative investments, evaluating economic life and replacement alternatives, depreciation, the impact of taxes on engineering economic decisions, and dealing with uncertainty.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0140 or 0220 or 0221 or 0235; PROG: Swanson School of Engineering (UENGR)

IE 1042 - ENGINEERING DERIVATIVES MARKET

Minimum Credits: 3
Maximum Credits: 3
The basic building blocks for engineering futures contracts, call and put options, and swaps are studied within the context of real-world environments. By the end of this course learners will have a good understanding of how these tools are built for the purposes of hedging risks and formulating portfolio strategies, all within the goal of managing financial risk.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071 and IE 1081; PLAN: Industrial Engineer (BEH or BSE)

IE 1044 - INVESTMENT SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to basic concepts of modern quantitative finance and investment. Group projects involving financial market data. Topics: basic interest rate; evaluating investments: scenario-based analysis and Monte Carlo simulation; fixed-income markets: bonds, yield, duration, and portfolio immunization; measuring risk: volatility and value at risk; the concept of investment diversification in the presence of uncertainty; designing optimal security portfolios; the capital asset pricing model, practical implementation of the concepts, including comparison of loan (e.g., house and auto) terms, credit card financial terms; derivative market and option pricing. No prior knowledge of finance required.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or ENGR 0020; PLAN: Industrial Engineering (BSE or BEH)

IE 1051 - ENGINEERING PRODUCT DESIGN

Minimum Credits: 3
Maximum Credits: 3
Lectures will cover the following: cad functions and cad systems; design process; hardware issues; software issues; use of commercial software; graphics primitives; mathematical transformations; solid modeling; database management systems; relational databases; adding intelligence to cad systems. Laboratory sessions will deal with a diversity of design projects utilizing commercial software packages.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1052; PROG: Swanson School of Engineering

IE 1052 - MFG PROCESSES AND ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Introduction to manufacturing principles and their importance in product development. Traditional and emerging processes are covered, including additive manufacturing, micro manufacturing, and nonmanufacturing. The integration of manufacturing, design, and materials is presented as a key to rapid product realization. Unit manufacturing processes are considered in work cell organization, flexible flow lines, and quality control. The course laboratory involves examination of the details of manufactured products, using various manufacturing processes, and learning the importance of material and process selection in product development.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1054 - PRODUCTIVITY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Introduction to industrial engineering concepts and thought process mapping, operations analysis, and design, 6s, lean systems, root cause analysis, methods engineering, standards development, predetermined time systems, computerized work measurement, motivation and incentives.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0020 or IE 1070; PROG: Swanson School of Engineering

IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING

Minimum Credits: 3
Maximum Credits: 3
Introduction to facility layout and location topics including activity relationships, space and personnel requirements, layout types, manual and computer algorithms for constructing layouts, single facility location methodologies, and warehouse operations. Material handling methods and equipment including conveyors, lift trucks, carousels, automated guided vehicles, and automated storage and retrieval systems are also discussed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or IE 1081 or ENGR 0020; CREQ: IE 1052; PLAN: Industrial Engineering(BSE)

IE 1061 - HUMAN FACTORS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
A study of human abilities, characteristics, behavior, and motivation in the design, development and operation of components and systems designed for human use.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0020 or IE 1070; PLAN: Industrial Engineering; LVL: Junior or Senior

IE 1062 - DATA MINING

Minimum Credits: 3
Maximum Credits: 3
This is an introductory data analytics class that requires probability as a prerequisite. The objective is to prepare students to effectively collect and analyze data and to teach data-driven thinking, problem-solving and decision-making. In this class, we will cover various statistics and data mining methodologies and use them to analyze real-world problems.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 and IE 0015; LEVEL: Sophomores and above; PROG: Swanson School of Engineering
IE 1070 - PROBABILITY, RANDOM VARIABLES, AND DISTRIBUTIONS

Minimum Credits: 3
Maximum Credits: 3
The main objective of this course is to introduce IE majors to probability and probabilistic modeling as a foundation for motivating statistics and statistical methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0150 or 0230 or 0231 or 0235; PROG: Swanson School of Engineering

IE 1071 - STATISTICAL TESTING AND REGRESSION

Minimum Credits: 3
Maximum Credits: 3
Hypotheses testing; multiple regression; empirical model building; analysis of variance and design of experiments; goodness-of-fit tests and contingency tables; introduction to statistical quality control.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0020 or IE 1070 (MIN GRADE 'C'); PROG: School of Engineering

IE 1072 - DESIGN OF EXPERIMENTS & QUALITY ASSURANCE

Minimum Credits: 3
Maximum Credits: 3
This elective course serves as a continuation of the second course to provide IE majors with background in designed experiments and quality assurance methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071; PROG: Swanson School of Engineering

IE 1073 - MODELING IN SPORTS AND GAMES

Minimum Credits: 3
Maximum Credits: 3
This course will cover fundamental stochastic and statistical modeling concepts arising in the context of sports prediction and strategy. The course will rely heavily on tools such as statistical analysis and Markov processes. Elementary concepts from game theory, decision theory and Markov decision processes will be introduced. We will consider examples arising in baseball, basketball, football and ice hockey, as well as other sports and games. Students will present a project on a topic of their choosing.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1081 and 1082 and 1083; PROG: Swanson School of Engineering

IE 1076 - TOTAL QUALITY MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Introduces the total quality management philosophies and practices of Deming, Juran, and others. We will focus on the use of statistical process control, understanding variability and process capability, acceptance sampling, as well as managing supplier relationships. Research papers and student teaching projects allow students to explore additional topics such as Kaizen, Taguchi methods, FMEA, etc.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071 or ENGR 0020; PROG: Industrial Engineering

IE 1079 - Logistic and Supply Chain Engineering
Modern supply chains are based on networks with a number of actors from manufacturer to distributor to retailer. This course covers the use of modeling for coordinating production, inventory, distribution, and transportation across a supply chain network.

ACADEMIC CAREER: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0020 or IE 1070) and IE 1081; PROG: Swanson School of Engineering

IE 1080 - SUPPLY CHAIN ANALYSIS

- Minimum Credits: 3
- Maximum Credits: 3
- An overview of supply chain management with an emphasis on operations and strong quantitative orientation. Supply chain strategies; sourcing decisions; demand forecasting; aggregate planning; managing supply and demand; production and inventory control systems including MRP and JIT; dealing with uncertainty; distribution networks; coordination and integration.

ACADEMIC CAREER: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1055 or 1082; PROG: Swanson School of Engineering

IE 1083 - SIMULATION MODELING

- Minimum Credits: 3
- Maximum Credits: 3
- Random number generation; distribution functions and random variates; game of chance; applications of discrete event simulation methods of queuing, inventory control, and production planning problems. Introduction to special-purpose simulation languages.

ACADEMIC CAREER: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071 or ENGR 0020; PROG: Swanson School of Engineering; PLAN: Industrial Engineering (BS)
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1086 - DECISION MODELS

Minimum Credits: 3
Maximum Credits: 3
Decision making under uncertainty is the key to understanding a variety of problems from industry, including inventory control, revenue management, energy, healthcare, and logistics. This course covers the fundamentals of stochastic (sequential) decision models, including data-driven and risk-averse methods, with applications to real-world problems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or ENGR 0020; PROG: Swanson School of Engineering

IE 1089 - ADDITIVE MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
In this course we will analyze the seven primary types of additive manufacturing, their materials, and machines, highlighting their benefits and limitations. Examples of industrial applications will be given along with ongoing research trends and future directions. Labs will focus on design for additive manufacturing, data capture and input, machine setup, and post processing. Field trips will include observation of machine building and part production at some local industries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1090 - SENIOR PROJECTS

Minimum Credits: 4
Maximum Credits: 4
Analytical investigation techniques for total project problems in technical organizations. Involves solving of client problems utilizing industrial engineering capabilities acquired by students during program of study. Provides students with project team experience, report writing and seminar presentation of team results. Students must be enrolled in this course at least one month prior to the start of the semester.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: IE 1035 or 1080 or 1083; PROG: Swanson School of Engineering
Course Attributes: Capstone Course

IE 1098 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 4
Independent study projects in specialized industrial engineering topics. Students must have the permission of a faculty member who agrees to mentor the independent study. Independent study is not permitted for subject areas that are part of the regularly scheduled coursework.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

IE 1102 - LEAN SIX SIGMA I (GREEN BELT)

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to lean and six sigma principles with an emphasis on the application of statistics to quality control. Topics include value stream mapping, various lean tools, DMAIC methodology, data collection and measurement, and applications of ANOVA and doe. A project is required and the student should be prepared for green belt certification at the end of the course.
Academic Career: Undergraduate
Course Component: Lecture
IE 1103 - LEAN SIX SIGMA II (BLACK BELT)

Minimum Credits: 3
Maximum Credits: 3
This is a follow up course in lean and six sigma covering topics such as influence principles and techniques, systems analysis, design for six sigma, lean enterprise analysis and response surface methods. Several projects are required and the student should be prepared for black belt certification at the end of the course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1102; PROG: Swanson School of Engineering

IE 1106 - OPERATIONS IMPROVEMENT IN HEALTHCARE

Minimum Credits: 3
Maximum Credits: 3
This course leads students to apply basic industrial engineering tools to healthcare operations, with a focus on healthcare providers. This includes data gathering, process mapping, system analysis and modeling, work sampling, work study, and workflow improvement. This course will provide an overview of the differences between healthcare and other more traditional industrial engineering settings (e.g., manufacturing, retail), and the opportunity to apply industrial engineering techniques, while developing and understanding basic healthcare operations and systems in the United States. (This class is designed to be a complement to IE 1108/2108.)
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (IE 1040 and IE 1054) and (ENGR 0020 or IE 1070); PROG: Swanson School of Engineering

IE 1108 - HEALTH SYSTEMS ENGINEERING: QUANTITATIVE ANALYTICS

Minimum Credits: 3
Maximum Credits: 3
This course leads students to apply basic industrial engineering tools to healthcare, with a focus on the financial aspect of healthcare (payers and reimbursement, revenue cycle, and other financial analytics). This course familiarizes students with healthcare financial data, demographic and population health information, quality ratings, and other key data and measures. Students will access data from commercial payers, government healthcare programs and/or hospitals, and utilize data analysis and industrial engineering tools to better understand the financial aspect of healthcare systems in the United States. (This class is designed to be a complement to IE 1106/2106.)
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (IE 1040 and IE 1054) and (ENGR 0020 or IE 1070); PROG: Swanson School of Engineering

IE 1122 - FUNDAMENTALS OF SYSTEMS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the fundamentals of systems engineering, including technical processes (e.g., requirements definition, architecture design, system verification), technical management processes (e.g., project planning, risk management), agreement processes (acquisition and supply) and project-enabling processes (e.g., life-cycle model management, quality management). Key systems engineering techniques and methods (e.g., system modeling and simulation, function-based systems engineering) will also be discussed.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Industrial Engineering (BSE or BEH); LEVEL: Senior

IE 1123 - PROJECT MANAGEMENT FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
The focus of the course will be to understand professional project management in achieving strategic organizational objectives and mitigating risks. The process for obtaining professional project management (PMP) certification will be the foundation. The six domains of project management that
will be addressed include: initiating the project, executing the project, monitoring and controlling the project, project transition and closure, professional and social responsibility.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: IE 1035; PROG: Swanson School of Engineering

### IE 1144 - DISCRETE OPTIMIZATION: MODELING AND COMPUTATION

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Discrete optimization is a powerful modeling and computational tool in decision making, especially for critical industrial systems (e.g., transportation, energy and healthcare systems). In this course, we focus on learning various modeling techniques, classical and popular models (including location, scheduling and material handling problems), and solution techniques (including exact and heuristic algorithms) for these models that lead to millions of dollars savings.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Prerequisites: IE 1081 (Operations Research) for senior undergraduates or IE 2001 (Operations Research) for master students

### IE 1155 - DISCRETE OPTIMIZATION AND APPLICATIONS IN INFRASTRUCTURE SYSTEMS

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Discrete optimization is a powerful modeling and computational tool in decision making, especially for critical industrial systems (e.g., transportation and energy systems). In this course, the focus will be on learning various modeling techniques, classical and popular models (including location, scheduling and transportation problems) and solution techniques (including exact and heuristic algorithms) for these models that lead to millions of dollars in savings.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: IE 1081; PLAN: Industrial Engineering

### IE 1185 - STOCHASTIC MODELING AND DATA ANALYTICS IN HEALTHCARE OPERATIONS MANAGEMENT

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
The purpose of this course is to introduce stochastic modeling methods and data analytics tools for analysis, design, and decision support for healthcare delivery systems. The aim is to expose students to various application areas related to hospital workflow and operations management in healthcare systems. Emphasis is placed on rigorous model formulation to solve system performance evaluation and decision-making questions in healthcare delivery systems. The application of Markov process, systems modeling, simulation, and data analytics methods are discussed through papers and case studies in different care settings and areas (e.g., hospital workflow, patient safety, clinical diagnosis and decision process, prediction and intervention).  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IE 1201 - BIOMATERIALS AND BIOMANUFACTURING

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
The purpose of this course is to provide students having a background in biomaterials and biomanufacturing with an opportunity to learn about the many modern aspect of biomaterials from basic science to clinical applications, across the formulations and chemistry of polymers, ceramics, metals and their use in various biomedical devices and implants, as well as their clinical performance and host responses. Students will also gain knowledge and experiences with designing and manufacturing biomedical devices through team projects. This one-semester, graduate course is intended for students majoring in the industrial engineering, or those who contemplating such a major (or minor). Students enrolled in the class should have an understanding of various biomaterials, and the ability to understand biological phenomena and manufacturing processes.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PROG: Swanson School of Engineering
IE 1202 - INTRODUCTION TO MEDICAL PRODUCT DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This is an undergrad/grad level course in medical product development covering fundamentals, regulatory processes, intellectual property management, and commercialization strategies. This course will provide basic knowledge on the development of medical devices including designing, manufacturing and testing medical devices. This course will also provide an overview of the medical product commercialization (i.e., bench to bedside). This course will develop the student's ability to select and properly use the biomaterials and manufacturing processes for developing medical devices, instruments, biomedical sensors and artificial organs. Students will also learn how to commercialize the medical products to the market through intellectual property management and regulatory processes.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

IE 1301 - INTRODUCTION TO SAFETY ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Introduction to Safety Engineering provides a basis to assist students in understanding and applying the scientific and engineering principles associated with the field of safety engineering. Specifically, the course will provide a background in, information on and application exercises in the natural, chemical and physical laws and forces associated with safe design and implementation of work-related tasks and industrial and construction projects. These involve soils and excavation, trenching and shoring, permanent and temporary work platforms and scaffolding, cranes, rigging, ropes, slings and chains, fall protection, pressure vessels, confined space entry, energy isolation and preparation of equipment, hot work, welding, personal protective equipment and non-destructive testing. The course will also address safety related issues associated with building and facility design and layout, job, task and work setting layout. The course will stress the importance of safety engineering as part of both the corrective process and the design process.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

IE 1302 - ENGINEERING FOR PROCESS SAFETY

Minimum Credits: 3
Maximum Credits: 3
Engineering for process safety provides for a basic understanding of the quantitative and qualitative analysis methods of process safety engineering and process safety management. The course also provides guidance in planning, implementing and managing an overall process safety management program. It includes coverage of such applicable science and engineering principles as risk, human reliability, fault logic, failure modes, incident cost and prediction. The course is presented in an applied format where several different types of industries are discussed such as oil and chemical, pharmaceuticals, defense, nuclear, aerospace, paper, information technology and manufacturing industries. Regulatory influence on process safety is discussed. Quantitative aspects of the course include application of risk analysis, fault tree analysis, hazard and operability analysis, vapor-cloud dispersion modeling, human reliability analysis, failure modes and effects analysis, etc. This course is also intended to provide a background in managing an overall system safety program and its application to several industries, therefore, cost and effectiveness measurement are covered in the material.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

IE 2012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS

Minimum Credits: 3
Maximum Credits: 3
Description: this course covers contemporary research topics on the design and manufacture of nanostructured materials. In addition to design and manufacturing, this course would also emphasize the nanometer-scale phenomena that make nanostructured materials particularly attractive for structural applications. Topics such as dislocation theory, large strain plasticity phenomena, super plasticity and kinetics of coarsening will be discussed in the context of structural nanomaterials.

Academic Career: Graduate
Course Component: Lecture
Grade Component: Letter Grade

IE 2064 - DATA SCIENCE
Minimum Credits: 3
Maximum Credits: 3
Data Science involves working with complicated and messy data to build prediction models for use in making decisions. This course covers data processing and exploratory data analysis; regression, classification, and clustering models; and model evaluation methods.

**Academic Career:** Graduate  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade  
**Course Requirements:** PLAN: Industrial Engineering; PREQ: IE 2005

**IE 2082 - LINEAR OPTIMIZATION**

Minimum Credits: 3  
Maximum Credits: 3  
Review of linear algebra, matrices and the simplex methods; revised simplex method; generalized bounds; product form of inverse; pricing and pivot selection; duality and sensitivity analysis; separable programming; linear complementarity; Dantzig-Wolfe decomposition; column generation; generalized LP; semi-infinite LP, stochastic LP; interior point methods.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** School of Engineering students only.

**IE 2088 - DIGITAL SYSTEMS SIMULATION**

Minimum Credits: 3  
Maximum Credits: 3  
Nature of simulation; discrete event simulators; modeling complex systems; input data reduction; random number generation; output data analysis; validation of simulation models; experimental design; variance reduction techniques; comparing alternative systems; overview of simulation languages.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** School of Engineering students only.

**IE 2097 - FINANCIAL ENGINEERING**

Minimum Credits: 3  
Maximum Credits: 3  
This course will focus on the structure of forwards, futures, swaps and options as financial instruments relating to the treatment of risk. Risk neutral pricing of these instruments will be studied assisted by principles of optimization with an added emphasis on engineering analysis, and an emphasis on “real world” applications of the “dervigem” software in accompanying CD to textbook.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** School of Engineering students only.

**IE 2186 - REINFORCEMENT LEARNING**

Minimum Credits: 3  
Maximum Credits: 3  
This is an introductory course on reinforcement learning (RL), a set of techniques used for learning sequential decision making policies from data. The basics of Markov decision processes necessary for RL will be covered, but a firm grasp of undergraduate level probability and basic programming ability (in Python and MATLAB) will be assumed. A wide range of methods (e.g., TD learning, Q-learning, policy gradients) that perform evaluation and control will be covered. The focus in this course will be on applications, implementation, intuition and some theory.

**Academic Career:** Graduate  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade  
**Course Requirements:** PREQ: IE 2005 or IE 1070 or Equivalent and IE 1082 PLAN: Industrial Engineering

**IE 2725 - DESIGN FOR INJURY PREVENTION**

Minimum Credits: 3  
Maximum Credits: 3
This course provides instruction for how to design a workplace to prevent occupational injuries. The course will primarily focus on preventing the three types of injuries, the injury mechanism, risk factors, tools for quantifying risk and engineering solutions will be covered. Upon completion of a course, students will be expected to develop custom engineering design solutions to prevent occupational injuries. Students will complete a project where they will design a solution to eliminate or reduce an existing hazard.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade

Information Science

INFSCI 0009 - MATH FOR INFORMATION SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Basic mathematical concepts that are relevant to information science, including matrix operators, probability, graph theory, binary codes, and entropy.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: USCI

INFSCI 0010 - INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Introduction to the concepts, principles, and skills of information science for students with no programming experience. Topics include: the need for information and the use of information, data collection, coding, storage and retrieval, information processing, information display, and the evaluation of information.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 0012 - INTRODUCTION TO PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
Introduction to concepts, principles, and skills of programming, including compilers, algorithms, and problem solving using a high level programming language such as c. Intended for students with little or no programming experience who seek an information science major.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement

INFSCI 0013 - COMPUTER METHODS IN HUMANITIES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement

INFSCI 0014 - CYBERSECURITY AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
INFSCI 0015 - DATA STRUCTURES AND PROGRAMMING TECHNIQUES

Minimum Credits: 3
Maximum Credits: 3
Definition, description, and implementation of several information structures such as linked lists, stacks, and queues, using a scientific programming language (e.g., C).
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Information Science or Sch Computing and Information

INFSCI 0017 - FUNDAMENTALS OF OBJECT-ORIENTED PROGRAMMING

Minimum Credits: 4
Maximum Credits: 4
First programming course for is majors, designed for students with little or no programming experience. Basic principles and concepts of object-oriented programming using Java. Classes, interfaces, operators, program control, arrays, testing, debugging, inheritance, polymorphism, and event handling. Techniques for simplifying the programming process and improving code quality. Activity-based learning.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 0018 - FILE PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The design of file organizations and their utilization in an integrated data processing system; utilizing COBOL programming language to implement sequential, indexed sequential, and random access file processing systems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG:School Computing and Information or School of Information Science

INFSCI 0310 - COMPUTATION IN INFORMATION SCIENCE

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to introduce the mathematical and computational techniques used in information science with an emphasis on modeling and analysis of information technology (i.e., computers, data centers, communication networks). Topics course covers fundamental concepts, such as probability, statistical analysis of measurement data, matrix methods, graph theory, and simulation and modeling techniques. Also covers Basic mathematical concepts that are relevant to information science, including matrix operators, probability, graph theory, binary codes, and entropy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0220 and (CMPINF 0401 or CS 0401 or INFSCI 0017); Minimum C grade or Transfer; Enrollment not permitted if previously enrolled in INFSCI 0009

INFSCI 0410 - HUMAN-CENTERED SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the study of the design and implementation of human-centered systems. Human-centered systems place the human at the center of the design process. This course will look at theoretical foundations and formal methods from a variety of fields including computer science, psychology and sociology; the actual design process, the dynamics associated with focusing on the individual, small groups and society; and may include selected special topics (instructor dependent) from the following: geospatial reasoning, mobile interaction, multimedia, ubiquitous computing, haptic interaction, virtual reality, wearable computing and sensor based systems.
Academic Career: Undergraduate
INFSCI 0419 - PYTHON PROGRAMMING FOR DATA MANAGEMENT & ANALYTICS

Minimum Credits: 3  
Maximum Credits: 3  
This course will provide an introduction to programming, data processing, and data analytics using Python for highly motivated students with little or no prior experience in programming. The course will focus on learning the Python programming language in the context of working with data, planning and organizing programs, commonly-used algorithms, data management, data cleaning, and basic data mining.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: CMPINF 0401 or CS 0401 or INFSCI 0017; Minimum C grade or Transfer; Enrollment not permitted if previously enrolled in INFSCI 1044

INFSCI 0510 - DATA ANALYSIS

Minimum Credits: 3  
Maximum Credits: 3  
This course will provide an introduction to programming, data processing, and data analytics using Python for highly motivated students with little or no prior experience in programming. The course will focus on learning the Python programming language in the context of working with data, planning and organizing programs, commonly-used algorithms, data management, data cleaning, basic machine learning, data mining, and fundamentals of computational modeling.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1151 or STAT 1152 or ENGR 0020 (Min grade C or Transfer)

INFSCI 0530 - DECISION-MAKING IN SPORTS

Minimum Credits: 3  
Maximum Credits: 3  
Students will be introduced to concepts related to data collection, data quality, data analysis and modeling, as well as data visualization, through the context of sports analytics. Data and analytics have been part of the sports industry dating to the 1870s, when the first boxscore in baseball was recorded. Recently, advanced data mining and machine learning techniques have been incorporated into the operations of sports franchises. In this course, students will become familiar with data science concepts and data analysis techniques, the interpretation and use of probabilities, the notion of overfitting and how to avoid it, and the components of a useful visualization.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

INFSCI 0610 - NETWORKS AND INFORMATION

Minimum Credits: 3  
Maximum Credits: 3  
Networks are present in most aspects of our lives. On a daily basis, we rely on communication networks to get our work done, on transportation networks to travel around the city or around the world, and on social networks (both physical and virtual) for our well being. There are many other ways in which networks enter our lives in visible and invisible ways. This course is an introductory look into the science of networks and how that science affects us in what we do. As a result, we will study some of the basic ideas that emerge out of network science with a particular attention to the ways in which these ideas arise in the networks that touch our lives on a regular basis. One of the principal types of networks that we will study will be computer communications networks. Thus, a secondary goal of this course is to introduce students to some of the principal ideas and technologies in computer networks.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: INFSCI 0310 or INFSCI 0009; Minimum C grade or Transfer; Enrollment not permitted if previously enrolled in INFSCI 1070

INFSCI 1012 - LISP AND SYMBOLIC PROGRAMMING
Minimum Credits: 3
Maximum Credits: 3
Introduction to the lisp programming language and the basic concepts of symbolic programming. Programming examples include several basic techniques used in artificial intelligence such as: search in a symbolic problem space, the use of rule based inference systems, and the representation of knowledge in frames.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science or Sch Computing and Information

INFSCI 1014 - GRAPHICS

Minimum Credits: 3
Maximum Credits: 3
Techniques for producing graphical displays using computers. How to design and create computer graphics. Overview of artistic and technical knowledge needed to create graphics. What makes a good graphical display will be investigated.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0017 or 0015 or CS 0401

INFSCI 1017 - IMPLEMENTATION OF INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Second programming course for is majors. Advanced java language features required for professional software development. Data structures, oo design, graphical user interfaces, exception handling, multithreading, i/o, web and network programming.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0017 or 0015 or CS 0401; CREQ: INFSCI 1022

INFSCI 1021 - TRENDS IN INFORMATION TECHNOLOGY MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: USCI

INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
The design, implementation, and utilization of database management systems. Contrasts the methodologies of file systems, data management systems, and database management systems. Various data structures (e.g., Tree, network, linked list) and several database models (e.g., The Coadys database task group model and the relational database model). Administrative tasks required in database management are considered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 1023 - INNOVATION & ENTREPRENEURSHIP IN INFORMATION TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: USCI
Course Attributes: SCI Expression: Communication General Ed. Req.
INFSCI 1024 - ANALYSIS OF INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course provides state-of-the-art skills in requirements management and scope management, which is critical for successful IT projects. Topics include best practices in eliciting, documenting, verifying and modeling requirements. This is an active learning course where students develop an analysis model for a realistic IT project which can serve as a foundation for INFSCI 1017 and INFSCI 1025. The analysis model is suitable for inclusion in the student's IT portfolio.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0010

INFSCI 1025 - DESIGN OF INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Object-oriented design best practices; principles of system architecture; design patterns; requirements traceability; construction of UML-compliant models (class, sequence, communication and package diagrams); refactoring; iterative development of system prototype. Requires knowledge of fundamental oo programming concepts including abstract classes, interfaces, inheritance, polymorphism, and message passing.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 OR 0015 or CS 0401) and INFSCI 1024; CREQ: INFSCI 1022

INFSCI 1027 - IT PROJECT MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Project management is the discipline to manage and oversee a project from inception to completion. As more and more organizations look to launch highly competitive and disruptive technologies in the marketplace, it's critical that you can apply these methodologies, tools, and techniques to successfully manage an IT project to completion. In this course, you will acquire a working knowledge of the two more widely used project management methodologies (Agile and Waterfall) and gain hands-on experience by working through real world case studies.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREREQ: INFSCI 1024

INFSCI 1028 - GOING DIGITAL: TRANSFORMATIONAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
New digital tools are disrupting traditional business models, forcing organizations to develop new business models and strategies that not only strengthen capabilities and drive growth, but also provide a significant competitive advantage. IT business analysts and consultants are uniquely positioned to help organizations integrate these initiatives to solve their most pressing business problems. This course is designed to build IT consulting skills that enhance critical thinking, problem solving, written and oral communication, and presentation capabilities. The course is taught through a combination of lecture, class discussions, case studies and team based projects.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 1029 - BUSINESS ESSENTIALS FOR THE IT PROFESSIONAL

Minimum Credits: 3
Maximum Credits: 3
Changing forces in the marketplace, along with the emergence of cloud computing and smart devices, have dramatically changed the "IT landscape". These changes are having a profound impact on the industry creating extraordinary opportunities as well as unprecedented challenges for IT professionals. As an IT professional, being able to adapt to this new landscape and emerge a stronger leader requires a unique approach, as well as a unique set of decision making skills. This course will enable you to strengthen your skills in problem solving, risk management, and consultative selling which are tools needed for successful decision making.
Academic Career: Undergraduate
Course Component: Lecture
INFSCI 1031 - GOING DIGITAL: TRANSFORMATIONAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
New digital tools are disrupting traditional business models, forcing organizations to develop new business models and strategies that not only strengthen capabilities and drive growth, but also provide a significant competitive advantage. IT business analysts and consultants are uniquely positioned to help organizations integrate these initiatives to solve their most pressing business problems. This course is designed to build IT consulting skills that enhance critical thinking, problem solving, written and oral communication, and presentation capabilities. The course is taught through a combination of lecture, class discussions, case studies and team based projects.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1024

INFSCI 1032 - ONLINE RETRIEVAL SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
An introduction to hardware, software, and other resources required for interactive system development and the searching capabilities of an interactive textual retrieval system. Dialog, BRS and various CD-ROMs are presented as models of interactive textual retrieval systems. Students will create small databases utilizing available software.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science or Sch Computing and Information

INFSCI 1038 - MANAGEMENT INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
To provide students with an appreciation of the actual working environment of the typical misdepartment within the business community, including organizational structure and communication, budgeting issues, personnel issues, equipment acquisition and installation, planning for daily operations, and system evaluation.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science or Sch Computing and Information

INFSCI 1040 - INTRODUCTION TO DATA ANALYTICS

Minimum Credits: 3
Maximum Credits: 3
The ability to collect, store and process large amounts of detailed data in a variety of fields has led to a surge in the use of data in various decision-making tasks, ranging from governmental policy-making to drafting players in sports. Data literacy is thus important and in this first introductory course, we will focus on shifting the traditional mode of deterministic (yes/no) thinking to probabilistic thinking. We will see concepts from applied probability and statistics, while we will also explore a variety of data analysis methods including linear regression, matrix factorization, and network analysis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0019

INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN

Minimum Credits: 3
Maximum Credits: 3
Examines human-machine designs with special emphasis on human-computer interaction. Topics center on how to analyze, create, and improve equipment and environment to be compatible with human capabilities and expectations.

Academic Career: Undergraduate
INFSCI 1049 - INTRODUCTION TO INFORMATION SECURITY

**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** CREQ: INFSCI 0010

**INFSCI 1049 - INTRODUCTION TO INFORMATION SECURITY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Introductory information security and privacy course for students outside of the BSIS/MSIS/MST majors. Covers fundamental issues and first principles of security and information assurance, including security policies, models and mechanisms related to confidentiality, integrity, authentication, identification, and availability issues related to information and information systems. The course will introduce students to risk management, security assurance, secure design principles, organizational security policy, legal and ethical issues in security, and standards and methodologies for security evaluation and certification.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** ANTI-req: Plans cannot be ISCI-BS, CSCI-BS, or INFSYS-CR1

INFSCI 1050 - BEHAVIORAL MODELS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Examines the roles of models and theories in science, and surveys several approaches to modeling cognitive and behavioral phenomena. Topics include: mathematical modeling, representational modeling, expert/novice differences and user models, psychological and computer simulation methods, the roles of analogy, metaphor, learning, and other cognitive processes in the development and use of cognitive models, and the role of models in the development of science and scientific theory.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PROG: School of Information Science or Sch Computing and Information

INFSCI 1052 - USER CENTERED DESIGN

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Introduces principles and programming of interactive systems. Interaction techniques are surveyed and incorporated in the design of interfaces.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: INFSCI 1044

INFSCI 1059 - WEB PROGRAMMING

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will introduce the PHP scripting language. Students will download and install the apache web server, PHP, and MYSQL database. In addition, PHP installation in the sis labs will be utilized. The course will cover programming concepts, client server architecture, database access and XHTML/cascading style sheets. Students will write a full scale web application as their final project.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (INFSCI 0017 or 0015 or CS 401) and INFSCI 1022; LVL: Jr or Sr; PROG: School of Information Sciences or Sch Computing and Information  
**Course Attributes:** Capstone Course

INFSCI 1060 - GAME DESIGN

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Games have become ubiquitous in our modern world. In addition to entertainment, elements of games are present in everything from promotional advertisements to university classrooms. This course focuses on the exploration of game design in its many permutations. Join us as we critique and design all manner of entertainment and serious game. The class itself is designed as a multiplayer game experience to immerse and engage the
student in game design on a fundamental level. One of the final goals of this class is for each student to have designed two separate games in their entirety. These games may be useful in the follow up course: INFSCI 1061: Game Implementation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or CS 0401) and INFSCI 1022 and INFSCI 1027; PROG: Sch Computing and Information (USCI)

**INFSCI 1061 - GAME IMPLEMENTATION**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course will introduce students to the digital game design and development process using the Unity 3D platform. Students will develop skills in scripting, user interface design, storytelling, and animation, as well as gain technical knowledge required to program, optimize, and deploy games for multiple platforms/devices.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or CS 0401) and INFSCI 1022

**INFSCI 1068 - GEOSPATIAL INFORMATION SYSTEMS (GIS)**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Introduction to geographic information system (GIS) concept and technology including spatial data sources, spatial data models and structures, spatial database management, map projection systems, geocoding and Georeferencing, spatial analysis, spatial data visualization (maps), GIS applications (e.g., Address-location finding, navigation, routing), and commercial GIS software packages.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or CS 0401) and INFSCI 1022

**INFSCI 1070 - INTRODUCTION TO TELECOMMUNICATIONS AND NETWORKS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Introduction to telecommunications and networks. Top-down orientation relates networking technologies to organizational goals and needs. Data communications and internet technologies and basic system performance analysis. TCP/IP, lans, wans, internetworking, and signals and communications media.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** CREQ: INFSCI 0010

**INFSCI 1071 - APPLICATIONS OF NETWORKS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Second course in telecommunications and networks. Network architecture, protocols, performance, design, and analysis based on application needs, organizational requirements, user requirements, and performance objectives.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or 0015 or CS 0401) and (INFSCI 1070 or 1004)

**INFSCI 1072 - INTRODUCTION TO WIRELESS NETWORKS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Introductory broad overview for students with a basic background in telecommunications. Not for telecom majors. Principles of wireless communications and how they differ from wired communications. Fundamental concepts including: transmission and mitigation techniques (e.g., Modulation and coding, propagation, interference and antennas) for wireless systems, multiplexing techniques, wireless system architectures, mobility management, security, protocols and location technology. Systems include: cellular phone networks (e.g., Cdma2000, umts), wireless local
area networks (e.g., ieee 802.11G), personal area networks (e.g., Bluetooth), fixed point broadband wireless (e.g., WiMAX) and satellite systems.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: INFSCI 1070 or 1004

**INFSCI 1073 - APPLICATION DEVELOPMENT FOR MOBILE DEVICES**

Minimum Credits: 3  
Maximum Credits: 3  
Learn how to solve real-world problems and experience the satisfaction of seeing a project through from start to finish. Gain hands-on experience working directly with clients and observe how senior leaders make difficult decisions. Build skills in requirements gathering, scope management and stakeholder management. Strengthen project management and interpersonal skills by working in a team based setting under the guidance of faculty. Performance will be evaluated and graded based on the overall project success and assessments from the client, faculty and student peer reviews.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or 0015 or CS 0401) and INFSCI 1052

**INFSCI 1074 - COMPUTER SECURITY**

Minimum Credits: 3  
Maximum Credits: 3  

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** College in High School - UGRD - students only

**INFSCI 1075 - NETWORK SECURITY**

Minimum Credits: 3  
Maximum Credits: 3  
Network security and cryptographic protocols. Network vulnerabilities, attacks on TCP/IP, network monitoring, security at the link, network and transport layers. Cryptography, e.g., Secret and public key schemes, message authentication codes and key management. Wlan security, ipsec, ssl, and vpng. E-mail security (ppp, s/mime); kerberos; x.509 Certificates; AAA and mobile IP; SNMP security; firewalls; filters and gateways. Policies and implementation of firewall policies; stateful firewalls; firewall appliances. Network related physical security, risk management and disaster recovery/contingency planning issues and housekeeping procedures.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0017 or 0015 or CS 0401) and (INFSCI 1004 or 1070)

**INFSCI 1077 - NETWORK ANALYSIS**

Minimum Credits: 3  
Maximum Credits: 3  
Analysis of network traffic and flows and network management. Methods and tools for monitoring and analyzing network traffic and performance including data mining and visualization. Techniques of planning, controlling, organizing, and decision making for a communications work; accounting, security, fault management, configuration, and maintenance.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: INFSCI 1070 and STAT 0200; PROG: School of Information Science or Sch Computing and Information

**INFSCI 1079 - COMPUTER NETWORKING LABORATORY**

Minimum Credits: 3  
Maximum Credits: 3  
The objective of this lab-based course is to gain knowledge of fundamental computer networking issues through hands-on experiments with network
equipment and services. The sequence of labs start at the physical layer and progress up the protocol stack to the application layer. Topics covered are signal generation and analysis at the physical layer, ethernet and wlan performance and management, ip address planning and management, ip router configuration including rip, ospf, bgp, mpls protocols, tcp connection control, stateful packet filtering, network monitoring and management, signaling protocols for voip services, and web-based services configuration.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: INFSCI 1070 and 1071; PROG: School of Information Sciences or Sch Computing and Information

**INFSCI 1080 - INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 3  
Development of readings, research, and practical implementation of a system or other forms of study as arranged between student and instructor.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PROG: School of Information Sciences or Sch Computing and Information; LVL: Jr or Sr

**INFSCI 1081 - TEAM-BASED CAPSTONE PROJECT**

Minimum Credits: 1  
Maximum Credits: 3  
Learn how to solve real-world problems and experience the satisfaction of seeing a project through from start to finish. Gain hands-on experience working directly with clients and observe how senior leaders make difficult decisions. Build skills in requirements gathering, scope management and stakeholder management. Strengthen project management and interpersonal skills by working in a team based setting under the guidance of faculty. Performance will be evaluated and graded based on the overall project success and assessments from the client, faculty and student peer reviews  
**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Attributes:** Capstone Course

**INFSCI 1082 - INFORMATION SCIENCE COOPERATIVE PROGRAM**

Minimum Credits: 1  
Maximum Credits: 1  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** H/S/U Basis  
**Course Attributes:** Capstone Course

**INFSCI 1085 - INTERNSHIP**

Minimum Credits: 3  
Maximum Credits: 3  
Supervised work in an information environment providing a frame of reference for understanding and an opportunity to apply the skills, methodologies, and theories presented in information science courses.  
**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** Satisfactory/No Credit  
**Course Requirements:** PROG: School of Information Sciences or Sch Computing and Information; LVL: Jr or Sr

**INFSCI 1090 - SPECIAL TOPICS: PROGRAMMING**

Minimum Credits: 3  
Maximum Credits: 3  
Advanced class focusing on current or specialized topic in programming area.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** LVL: Jr or Sr; PROG: School of Information Sciences or Sch Computing and Information
INFSCI 1091 - SPECIAL TOPICS: BEHAVIORAL

Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on current or specialized topic in behavioral area.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 1092 - SPECIAL TOPICS: SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on current or specialized topic in systems area.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: School of Information Science or Sch Computing and Information

INFSCI 1100 - STUDY ABROAD

Minimum Credits: 1
Maximum Credits: 15
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

INFSCI 1399 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on a current or specialized topic in Information Science
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: Sch Computing and Information

INFSCI 1400 - ANALYSIS OF INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course provides state-of-the-art skills in requirements management and scope management, which is critical for successful IT projects. Topics include best practices in eliciting, documenting, verifying and modeling requirements. This is an active learning course where students develop an analysis model for a realistic IT project which can serve as a foundation for an analysis model that is suitable for inclusion in the student's IT portfolio.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0410 or INFSCI 1044; Minimum C grade or Transfer; Enrollment not permitted if previously enrolled in INFSCI 1024

INFSCI 1420 - USER-CENTERED DESIGN

Minimum Credits: 3
Maximum Credits: 3
Introduces principles and programming of interactive systems. Interaction techniques are surveyed and incorporated into the design of interfaces.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: INFSCI 0410 or INFSCI 1044; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1052
INFSCI 1430 - USER EXPERIENCE ENGINEERING

Minimum Credits: 3  
Maximum Credits: 3  
This course presents the fundamental principles of user experience (UX) engineering across three broad categories of designs and products - digital products, virtual worlds, and physical spaces. This course will cover a broad range of topics, including specifying, designing, and evaluating user experiences, understanding the role of user experience in the design of digital products, virtual environments, and physical spaces, and the roles of psychology, sociology, and psychometrics in user experience design. This is an active learning course where students will be expected to read research papers, participate in class discussions, and work with external stakeholders.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019); Minimum C grade or Transfer

INFSCI 1440 - SOCIAL COMPUTING

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on how social groups form and evolve, how members of these groups interact with each other, and how these groups are supported and augmented with computer systems. The course is interdisciplinary, drawing from the fields of computer science, psychology, and sociology. It covers key theories and technologies of social computing in terms of (1) computer systems supporting social behavior and (2) socially intelligent computing carried out by groups. Students will have a chance to explore social computing systems, get experience with social data analyses and focus on design, and evaluation of a social software as their final project for the course.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) and (INFSCI 0610 or INFSCI 1070); Min C grade or Transfer.

INFSCI 1450 - GAME DESIGN

Minimum Credits: 3  
Maximum Credits: 3  
Games have become ubiquitous in our modern world. In addition to entertainment, elements of games are present in everything from promotional advertisements to university classrooms. This course focuses on the exploration of game design in its many permutations. Join us as we critique and design all manner of entertainment and serious game. The class itself is designed as a multiplayer game experience to immerse and engage the student in game design on a fundamental level. One of the final goals of this class is for each student to have designed two separate games in their entirety. These games may be useful in the follow-up course, Immersive Media Technologies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: INFSCI 0410 or INFSCI 1044; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1060

INFSCI 1460 - IT PROJECT MANAGEMENT

Minimum Credits: 3  
Maximum Credits: 3  
Project management is the discipline to manage and oversee a project from inception to completion. As more and more organizations look to launch highly competitive and disruptive technologies in the marketplace, it's critical that you can apply these methodologies, tools, and techniques to successfully manage an IT project to completion. In this course, you will acquire a working knowledge of the two more widely used project management methodologies (Agile and Waterfall) and gain hands-on experience by working through real world case studies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: INFSCI 1400 or INFSCI 1024; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1027

INFSCI 1470 - IMMERSIVE MEDIA TECHNOLOGIES

Minimum Credits: 3  
Maximum Credits: 3
This course will introduce students to the design and development of immersive media technologies, such as interactive narratives, digital games, augmented/mixed reality and virtual reality experiences. Students will develop skills in user experience design, user interface design, storytelling, and animation, as well as gain technical knowledge required to program, optimize, and deploy media experiences for multiple platforms/devices.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
- **PREQ:** (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) and (INFSCI 0610 or INFSCI 1070); Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1061

**INFSCI 1499 - SPECIAL TOPICS: HUMAN-CENTERED**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- Advanced class focusing on a current or specialized topic in the Human Centered Computing and Systems areas in Information Science.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
- **LG/SNC Elective Basis**  

**INFSCI 1500 - DATABASE MANAGEMENT CONCEPTS AND APPLICATIONS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- This course introduces students to the practical methodologies of data design, management, storage, and retrieval in the context of relational database management systems. This course covers fundamental concepts of effective database development process, including entity-relationship model, normalization, structured query language (SQL), basics of transaction management and physical database design.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
- **PREQ:** (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) or (CMPINF 0401 or CS 0401 or INFSCI 0017); Minimum C grade or Transfer; Enrollment not permitted if previously enrolled in INFSCI 1022

**INFSCI 1520 - INFORMATION VISUALIZATION**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- Visualization is a way to explore, present, and express meaning in data, so there is no visualization without data. This course aims to investigate what data presents and how to present data, which requires both data analytics and information design knowledge. In this course, we will introduce concepts, methods and procedures of data visualization, with emphasis on the creative process of organizing, visualizing, communicating and interacting information. The course is designed to help students develop critical thinking for evaluating visualization system and practical skills in solving visualization problems.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
- **PREQ:** (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) and (INFSCI 0610 or INFSCI 1070); Minimum C grade or Transfer

**INFSCI 1525 - CURATING DIGITAL DATA**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- "Data curation" is the management and preservation of data, information and systems for the long-term. While ensuring the longevity of information was once the role of librarians and archivists, long-term access and persistence of digital information is dependent on intentional planning and ongoing stewardship by information creators and managers. In the BSIS program, we encounter aspects of data curation in a number of courses. This course will complement and round out your skills and understandings of data curation by exploring fundamental principles, processes, and practices for curating information during its active use and for the long-term. We will address the technical, social, ethical, and legal issues associated with curation of digital data in three sectors: government, corporate, and academic. Finally, we will apply our data curation fundamentals to specific information object types.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
- **PROG:** School of Computing and Information
INFSCI 1530 - DATA MINING

Minimum Credits: 3
Maximum Credits: 3
The ability to collect, store and process large amounts of detailed data in a variety of fields has led to a surge in the use of data in various decision-making tasks, ranging from governmental policy-making to drafting players in sports. Data literacy is thus important and in this first introductory course, we will focus on shifting the traditional mode of deterministic (yes/no) thinking to probabilistic thinking. We will see concepts from applied probability and statistics, while we will also explore a variety of data analysis methods including linear regression, matrix factorization, and network analysis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ([INFSCI 0510 and MATH 0280]) or (INFSCI 0019 or INFSCI 0419); Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1040

INFSCI 1540 - DATA ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to introduce major data engineering concepts and techniques. Data engineering utilizes methods of business intelligence and advanced data processing to implement scalable and distributed data ecosystems. Data engineers are focused on building tools, infrastructures, frameworks, and services that support large-scale data analytics. Therefore, data engineering forms a highly acclaimed discipline at the cutting edges of data science and software engineering. The course introduces and organizes data engineering aspects around the data processing pipeline. It covers key concepts of data acquisition, data storage and retrieval, data modeling, data warehousing, data integration, data fusion, as well as distributed and scalable data management.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1500 or INFSCI 1022; Minimum C grade or Transfer

INFSCI 1550 - SPATIAL INFORMATION

Minimum Credits: 3
Maximum Credits: 3
Introduction to geographic information system (GIS) concept and technology including spatial data sources, spatial data models and structures, spatial database management, map projection systems, geocoding and Georeferencing, spatial analysis, spatial data visualization (maps), GIS applications (e.g., Address-location finding, navigation, routing), and commercial GIS software packages.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1500 or INFSCI 1022; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1068

INFSCI 1560 - INFORMATION STORAGE AND RETRIEVAL

Minimum Credits: 3
Maximum Credits: 3
Problems and techniques related to storing and accessing unstructured information with an emphasis on textual information. Overview of several approaches to information access with a primary focus on search-based information access. Covers automated retrieval system design, content analysis, retrieval models, result presentation, and system evaluation. Examines applications of retrieval techniques on the web, in multimedia and multilingual environments, and in-text classification and event tracking.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1500 or INFSCI 1022; min C grade or Transfer.

INFSCI 1570 - NETWORK AND WEB DATA TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
This course is about the core technologies and standards for web based distributed systems that we use to build Web applications. It includes an overview of the standardization process and the standards organizations. The course will introduce client and server-side technologies for the web
with emphasis on front-end technologies such as HTML5, JavaScript, CSS, responsive design etc. and a set of back-end technologies and APIs.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) and (INFSCI 0610 or INFSCI 1070); MIN GRADE 'C' or Transfer FOR ALL COURSES LISTED  

**INFSCI 1599 - SPECIAL TOPICS: DATA AND INFORMATION**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- Advanced class focusing on a current or specialized topic in the Data and Information areas in Information Science.  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** LG/SNC Elective Basis  
- **Course Requirements:** PREQ: INFSCI 0610 or INFSCI 1070; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1075

**INFSCI 1600 - SECURITY AND PRIVACY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- The objective of this course is to provide an understanding of information security ranging from threats, vulnerabilities, and attacks to protection, detection, and response. Students will develop the ability to converse with the terminology used in information security (e.g., confidentiality, authentication, integrity, availability). The course will cover the basics of security issues in operating systems, applications, and databases. This is followed by an examination of the architecture and generalized protocol/operational aspects of information networks to identify how security attacks (e.g., denial of service) are possible. Basics of security mechanisms such as cryptography, firewalls, and secure protocols for networks will be presented. The course will include a discussion of privacy and human factors in security (e.g., usable security).  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** LG/SNC Elective Basis  
- **Course Requirements:** PREQ: INFSCI 0610 or INFSCI 1070; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1075

**INFSCI 1620 - ADVANCED SECURITY AND PRIVACY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- Network security and cryptographic protocols. Network vulnerabilities, attacks on TCP/IP, network monitoring, security at the link, network and transport layers. Cryptography, e.g., Secret and public key schemes, message authentication codes and key management. WLAN security, IPsec, SSL, and VPNs. E-mail security (PGP, s/mime); Kerberos; x.509 Certificates; AAA and mobile IP; SNMP security; firewalls; filters and gateways. Policies and implementation of firewall policies; stateful firewalls; firewall appliances. Network related physical security, risk management, and disaster recovery/contingency planning issues and housekeeping procedures.  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** LG/SNC Elective Basis  
- **Course Requirements:** PREQ: INFSCI 1600 or INFSCI 1070; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1074

**INFSCI 1630 - COMMUNICATION NETWORKS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- The focus of this course is on the Internet â the most widely-used communication network. Provides an introduction to data communications and networking, particularly examining elements of today's Internet. Students will learn how applications are supported and communicated through services offered by the Internet. Covers features of transport layer protocols, routing protocols, and medium access protocols. Also, the course will explore physical layer technologies and provide a basic introduction to multimedia networking and network management concepts.  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** LG/SNC Elective Basis  
- **Course Requirements:** PREQ: INFSCI 1600 or INFSCI 1070; Minimum C grade or Transfer, and Enrollment not permitted if currently or previously completed INFSCI 1071
INFSCI 1640 - WIRELESS NETWORKS

Minimum Credits: 3  
Maximum Credits: 3

The objective of this course is to provide an understanding of various wireless networking technologies ranging from cellular networks to wireless personal area networks and IoT, including how they differ from wired networks (e.g., signal transmission, interference, medium access, mobility, etc.). Emphasis is on most recent generations of wireless networks. The course will cover the architecture and generalized protocol/operational aspects of cellular networks or wireless wide area networks, wireless local area networks, and wireless personal area networks. Deployment issues, mobility, and radio resource management will be discussed. Physical layer concepts are provided as necessary. Localization and security issues in wireless networks will also be covered.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (INFSCI 1600 and MATH 0280) or INFSCI 1070; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1072

INFSCI 1650 - MULTIMEDIA COMMUNICATIONS

Minimum Credits: 3  
Maximum Credits: 3

This course will provide students with an introduction to multimedia communications (audio, video, immersive) over data communication networks. It will explore multimedia applications and encoding, quality assessment, systems for transmission and distribution of multimedia, performance, challenges to building networks for content delivery, and designing them for future types of content that might result from advances in virtual reality, robotic manipulation, and immersive experiences.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (INFSCI 0410 or INFSCI 1044) and (INFSCI 0510 or INFSCI 0419 or INFSCI 0019) and (INFSCI 0610 or INFSCI 1070); Minimum C grade or Transfer

INFSCI 1660 - COMPUTER NETWORKING LABORATORY

Minimum Credits: 3  
Maximum Credits: 3

The objective of this lab-based course is to gain knowledge of fundamental computer networking issues through hands-on experiments with network equipment and services. The sequence of labs start at the physical layer and progress up the protocol stack to the application layer. Topics covered are signal generation and analysis at the physical layer, ethernet and WLAN performance and management, IP address planning and management, IP router configuration including rip, OSPF, BGP, Mpls protocols, TCP connection control, stateful packet filtering, network monitoring and management, signaling protocols for VoIP services, and web-based services configuration.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: INFSCI 1600 or INFSCI 1070; Minimum C grade or Transfer; and Enrollment not permitted if currently or previously completed INFSCI 1079

INFSCI 1670 - SECURITY MANAGEMENT AND COMPUTER FORENSICS

Minimum Credits: 3  
Maximum Credits: 3

This course covers issues related to administration and management of security of enterprise information systems and networks. Topics include intrusion detection systems, vulnerability analysis, anomaly detection, computer forensics, application logging, auditing and data management, risk management, contingency planning and incident handling, cyber defense/operations, and security program management and lifecycle. The course will study in detail principles and tools related to these topics. The course will also cover security standards, evaluation, accreditation and certification process; security planning, compliance issues ethical and legal issues in information; privacy, traceability and cyber-evidence.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (INFSCI 1400 or INFSCI 1024) and (INFSCI 1500 or INFSCI 1022) and (INFSCI 1600 or INFSCI 1070); MIN C GRADE OR TRANSFER

INFSCI 1690 - CLOUD COMPUTING
This course provides an overview of the concepts and design principles behind existing cloud solutions. Topics include large scale data processing techniques such as mapreduce/hadoop and its related ecosystem, overview of virtualized commercial cloud models, system virtualization, hypervisors and virtualized platforms. Design of cloud storage systems such as key-value stores and geographically distributed storage systems. Introduction to security and privacy issues in cloud computing, issues of data and execution privacy in modern commercial cloud services.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 1400 or INFSCI 1024) and (INFSCI 1500 or INFSCI 1022) and (INFSCI 1600 or INFSCI 1070); MIN GRADE C OR TRANSFER

INFSCI 1699 - SPECIAL TOPICS: NETWORKS AND SECURITY

Advanced class focusing on a current or specialized topic in the networks and security areas in Information Science.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: Sch Computing and Information

INFSCI 1700 - DATA-DRIVEN COMMUNICATION

Digital transformation is disrupting traditional business models, enabling organizations to not only increase client value, but develop entirely new business models that drive exponential growth and deliver a significant competitive advantage. Harnessing this technology requires the ability to be better problem solvers and transform data into answers. In this course, students will build upon their problem solving, data analytics, and communication skills. They will learn how to translate complex technical topics into actionable insights, leverage storytelling to influence and persuade, and visualize data for impact. In summary, students will use advanced information economics, data, their knowledge of human-centered systems, and include digital transformation in organizations and communities for ideation and communication to diverse audiences. This course may serve as a capstone for students in the Information Science major.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: 90 Credits or Career Level = Senior

INFSCI 1720 - INTERNSHIP

Supervised work in an information environment providing a frame of reference for understanding and an opportunity to apply the skills, methodologies, and theories presented in information science courses.

Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: Enrollment not permitted if currently or previously completed INFSCI 1085

INFSCI 1730 - INDEPENDENT STUDY

An independent study is a student-initiated experience undertaken with faculty supervision. The experience is designed to permit students to pursue an area of interest in Information Science, focusing on more in-depth study of theory and concepts or system/application design and implementation. As part of this independent study course, students will either develop a paper based on scholarly readings, or a practical implementation of a system or product. The course will promote understanding of and experience with, academic research including search and retrieval skills, writing skills, and the ability to synthesize and develop a conclusion on a subject topic that is related to the information science degree. With the development of a system, students will gain a deeper understanding of the product cycle, from idea and conceptualization to implementation.

Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade
INFSCI 1740 - TEAM-BASED CAPSTONE PROJECT

Minimum Credits: 3  
Maximum Credits: 3  
Learn how to solve real-world problems and experience the satisfaction of seeing a project through from start to finish. Gain hands-on experience working directly with clients and observe how senior leaders make difficult decisions. Build skills in requirements gathering, scope management and stakeholder management. Strengthen project management and interpersonal skills by working in a team-based setting under the guidance of faculty. Performance will be evaluated and graded based on the overall project success and assessments from the client, faculty and student peer reviews.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: Enrollment not permitted if previously enrolled in INFSCI 1081

Instruction and Learning

IL 0210 - COLLEGE READING & STUDY SKILLS

Minimum Credits: 3  
Maximum Credits: 3  
This is a computer based course designed to provide assistance for students in achieving academic success. Course content includes self-management, vocabulary development, reading comprehension, study strategies, and preparation for examinations. Additionally, students study and practice using online databases and other resources.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SU3 Elective Basis

IL 1000 - INTRODUCTION TO TEACHING

Minimum Credits: 3  
Maximum Credits: 3  
Introduction to teaching explores contemporary perspectives of education. It provides a basic introduction to instructional planning, curriculum, and classroom management. Additionally, the class provides opportunities for practice of proven teaching strategies designed to meet individual student needs.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

IL 1008 - STEAM: INSTRUCTIONAL DESIGN

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on the instructional content of STEAM, which includes subject-matter alignment (the ways in which teachers present material from multiple disciplines or content areas in clear and connected ways), discipline integration (the selection of material across disciplines - including concepts, methods, and approaches - as well as how they are synthesized to support deeper learning), and ways to employ problem-solving skills. These skills include cognitive skills (modeling, analyzing, interpreting), collaborative skills (communication, problem-solving), and creative skills (designing, creating) necessary for 21st century learning.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

IL 1041 - INTRO TO EARLY CHILDHOOD ED

Minimum Credits: 3  
Maximum Credits: 3  
The course is a general introduction to the theoretical, political, economic, and social issues that are inherent in the conduct and development of services for young children. The primary thrust is intended to provide students with both an overview of current issues and a basis for assessment.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

IL 1042 - LANGUAGE AND LITERATURE FOR THE YOUNG CHILD
An introduction to language and literacy for children birth through grade 4. Includes applied theories and stages of language development, transitions from oral to written expression, family literacy, and guidelines for the selection and use of quality literature.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade

**IL 1045 - YOUNG ENGLISH LANGUAGE LEARNERS**

Minimum Credits: 3  
Maximum Credits: 3  
Prospective early childhood education teachers will identify, investigate and assess impacts of a variety of social agencies, organizations and current issues in early childhood education through planned interviews as well as class lectures, discussions and reports.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**IL 1047 - INTEGRATED CURRICULUM PRE-K - 4**

Minimum Credits: 3  
Maximum Credits: 3  
Engagement with general and specific issues related to the development of content and lessons that cross a broad range of curricular areas for children in pre-k through grade 4.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**IL 1049 - SEMINAR RELATED TO PRE-STUDENT TEACHING PRE-K**

Minimum Credits: 1  
Maximum Credits: 1  
This a weekly seminar that supports students during their pre-k practicum. This course is designed to facilitate student learning as they make connections between theory and practice. Students will receive guidance in the completion of required field practicum competencies and the preparation of the on-line pre-k portfolio.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade

**IL 1208 - READING/Writing METHODS 1: PRE-KINDERGARTEN - GRADE 1**

Minimum Credits: 3  
Maximum Credits: 3  
This course is intended for teacher candidates who are pursuing prek-4 certification. It is the first in a two-course sequence that focuses on classroom teaching methods for literacy. It is also part of a set of courses that focus on literacy development and instruction. Other courses in the set include reading/writing methods 2: grades 2-4, language and literature for the young child, and literacy assessment and instruction for children with disabilities in inclusive settings. Teacher candidates in reading/writing methods 1 will have opportunities to build their knowledge about specific aspects of literacy, including: (a) oral language development, (b) emergent literacy, (c) concepts about print, (d) comprehension, and (e) writing. In addition, candidates will learn about specific instructional approaches and resources for supporting students in developing those aspects of literacy in pre-kindergarten - grade 1.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**IL 1209 - READING/Writing METHODS 2: GRADES 2-4**

Minimum Credits: 3  
Maximum Credits: 3  
This course is intended for teacher candidates who are pursuing prek-4 certification. It is the second in a two-course sequence and builds on concepts introduced in reading/writing methods 1. It is also part of set of courses that focus on literacy development and instruction. Other courses in the set include language and literature for the young child, and literacy assessment and instruction for children with disabilities in inclusive settings. Teacher candidates in reading/writing methods 2 will have opportunities to build their knowledge about specific aspects of literacy, including: (a) word study-
-decoding, spelling, and vocabulary, (b) comprehension, and (d) composition, including handwriting. In addition, candidates will learn about specific instructional approaches and resources for supporting students in developing those aspects of literacy in grades 2-4.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will explore strategies for teaching English language learns (ELL's) in formal and informal education settings. Students will be introduced to foundational theories and current research on the social and academic factors that influence ELL's learning experiences. The class will include a video component so students can observe instructional approaches for working with linguistically and culturally diverse ELLs.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1260 - INTRO TO SOCIAL STUDIES EDUC

**Minimum Credits:** 3  
**Maximum Credits:** 3  
A basic introductory course; primary focus is upon secondary schools as institutions in contemporary society and the role of social studies programs and teachers within this context.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1268 - SOCIAL STUDIES METHODS PRE-K - 4

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to provide a theoretical background in social studies education and to exemplify the appropriate principles and practices necessary to deliver effective social studies instruction in pre-k through grade 4.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1270 - INTEGRATING ART & MUSIC ELEM CLSSRM

**Minimum Credits:** 3  
**Maximum Credits:** 3  
To introduce preservice classroom teachers to art and music contents and processes with relevance to their expected role in integrating authentic arts learning experiences in their instruction. Emphasis is placed on developmental aspects of children's' responsive and expressive skills in art and music.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1433 - MATH AND SCIENCE INSTRUCTION FOR YOUNG LEARNERS 1 (PRE-K-GRADE 4)

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The first half of a two-semester course sequence in which pre-service teachers learn about young (pre-k through grade 4) children's thinking related to core ideas in mathematics and science and gradually, through a series of scaffolded tasks, develop pedagogical skills for designing and implementing math and science instruction.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### IL 1434 - MATH AND SCIENCE METHODS 2 (PRE-K - GRADE 4)

1372
The second half of a two-semester course sequence in which pre-service teachers learn about young (pre-k through grade 4) children's thinking related to core ideas in mathematics and science and gradually, through a series of scaffolded tasks, develop pedagogical skills for designing and implementing math and science instruction.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** Letter Grade

**IL 1452 - DISCIPLINING ENVIRONMENTAL EDUCATION: USING DIGITAL STORYTELLING TO UNPACK ENVIRONMENTAL ISSUES**

Minimum Credits: 1
Maximum Credits: 1

In other parts of the world, such as Finland, environmental education is infused throughout the curriculum in history, science, technology, and math. This pop-up course serves as one way to provide a platform for Pitt students to experience Finnish nature schools in their backyard. The goal of the pop-up classes will be to provide a space for developing student projects at both the undergraduate and graduate levels. This course is geared for students interested in authoring visual content and testing the productive tensions of this new media. During the pop-up classes, we will establish a student-led AR/VR authoring club, training sessions for students, and work to amplify and circulate our content across our local and global communities.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**IL 1473 - MATH FOR ELEMENTARY TEACHERS**

Minimum Credits: 3
Maximum Credits: 3

Students will improve their mathematics knowledge and skills in numeration systems, integers, rationales, geometry, probability/statistics, and other selected topics.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** Letter Grade

**IL 1498 - DIRECTED STUDY IN MATH & SCI ED**

Minimum Credits: 1
Maximum Credits: 9

The student proposes and carries out a study project under the direction and supervision of an appropriate member of the faculty.

**Academic Career:** Undergraduate

**Course Component:** Directed Studies

**Grade Component:** LG/SU3 Elective Basis

**IL 1505 - AUTISM: CHARACTERISTICS AND INTERVENTIONS**

Minimum Credits: 3
Maximum Credits: 3

This course will present information on the characteristics of and intervention approaches for children with autism spectrum disorders (ASDS). Introductory material will include diagnosis criteria and characteristics of ASDS. Current research on theories of etiology will be explored and analyzed. Screening tools and assessments specific to this population will be examined in detail. Intervention approaches (e.g. IBI/discrete trial, ABBUs, precision teaching, teach) will be described and analyzed in terms of basic premises, research base, associated curricula, and evaluative guidelines from the autism society of America and national institute of mental health. Representatives from local education and behavioral health systems serving children with ASDS will present services/intervention models available in the area.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** Letter Grade

**IL 1560 - EARLY EDUCATION OF YOUNG CHILDREN WITH DISABILITIES**

Minimum Credits: 3
Maximum Credits: 3

The course focuses on (1) an overview of early childhood special education, including its rationale, historical and legal foundations, efficacy, service
delivery systems, and current trends and practices; (2) the developmental assessment of young children with disabilities in the areas of motor, cognition, social-emotional, language/communication, and adaptive skills; (3) designing preschool classroom environments that meet the needs of children with disabilities through adaptations and accommodations, embedded Learning, and special instruction.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** Letter Grade

### IL 1562 - ASSESSMENT: YOUNG CHILDREN WITH DISABILITIES

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- **Academic Career:** Undergraduate
- **Course Component:** Lecture
- **Grade Component:** Letter Grade

### IL 1563 - INCLUSION PRE-K

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- **Academic Career:** Undergraduate
- **Course Component:** Lecture
- **Grade Component:** Letter Grade

### IL 1580 - FOUNDATIONS OF SPECIAL EDUC

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- **Course Component:** Lecture
- **Grade Component:** Letter Grade

### IL 1698 - DIRECTED STUDY-EARLY CHILDHOOD

- **Minimum Credits:** 1
- **Maximum Credits:** 9
- **Academic Career:** Undergraduate
- **Course Component:** Directed Studies
- **Grade Component:** Letter Grade

### IL 1700 - EARLY FIELD EXPERIENCE-ELEM

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- **Academic Career:** Undergraduate
- **Course Component:** Practicum
- **Grade Component:** Letter Grade

### IL 1701 - EARLY FIELD EXPERIENCE-SECONDARY

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- **Academic Career:** Undergraduate
- **Course Component:** Practicum
- **Grade Component:** Letter Grade
for students to observe adolescent learners in middle and high school settings through observations in a classroom, talking with school personnel and meeting in student seminars at Pitt to reflect on what they have seen and heard. Students are provided with guidelines that will assist them in analyzing their observations.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

**IL 1704 - CURRENT ISSUES IN SECONDARY EDUCATION**

Minimum Credits: 3
Maximum Credits: 3
What would the ideal high school look like? How would it provide an engaging, equitable and quality education to all adolescents? In Current Issues in Secondary Education: Reimagining the American High School we will explore current issues in U.S. high schools, such as systemic racism and unequal funding, and learn about innovative schools that are doing things differently. We will reflect on our own schooling experiences and collaborate to design a model high school.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**IL 1800 - PRE-STUDENT TEACHING PRE-K**

Minimum Credits: 2
Maximum Credits: 2
Full-time practicum for teacher certification candidates. Provides opportunities to observe, plan, conduct, and evaluate instruction in the school setting and receive professional feedback from university supervisors and experienced master teachers.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis

**IL 1850 - LIFE SKILLS PRACTICUM**

Minimum Credits: 2
Maximum Credits: 2
For this practicum, which is part of the case program, students will be placed in either a primary life skills classroom or a preschool special education program and will be mentored by a classroom teacher, co-teacher, or itinerant teacher depending on the placement. Students will be expected to complete specific requirements in these settings to fulfill state competencies and program requirements.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis

**IL 1852 - LIFE SKILLS PRACTICUM SEMINAR**

Minimum Credits: 1
Maximum Credits: 1
Seminar for preschool special education/primary life skills practicum. This course is the seminar that accompanies the preschool special education/primary life skills practicum.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

**IL 1907 - COLLABORATIVE PARTNERSHIPS WITH FAMILIES AND THE COMMUNITIES**

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the role of the professional in supporting families of young children (pre-k - grade 4), including families of children with disabilities and other diverse characteristics. Students will learn about family systems, including how family characteristics affect the development of children, how to communicate, interact, and collaborate with families in school settings, and how to link families with formal and informal community resources.

Irish

IRISH 0101 - IRISH (GAEILGE) 1

Minimum Credits: 4  
Maximum Credits: 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: European Union Studies, European and Eurasian Studies, Global Studies, Medieval & Renaissance Studies, Transatlantic Studies, West European Studies

IRISH 0102 - IRISH (GAEILGE) 2

Minimum Credits: 4  
Maximum Credits: 4  
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0221 or IRISH 0101; MIN GRADE: 'C'  
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Medieval & Renaissance Studies, Transatlantic Studies, West European Studies

IRISH 0103 - IRISH (GAEILGE) 3

Minimum Credits: 3  
Maximum Credits: 3  
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting are cognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0222 or IRISH 0102; MIN GRADE: 'C'  
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Medieval & Renaissance Studies, Transatlantic Studies, West European Studies

IRISH 0104 - IRISH (GAEILGE) 4

Minimum Credits: 3  
Maximum Credits: 3  
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
IRISH 0105 - IRISH (GAEILGE) 5

Minimum Credits: 3
Maximum Credits: 3
This course follows level 4, in which students have laid a foundation for further language learning. We now move on to more independent learning, self-discovering, reading articles, and engaging in higher level thinking. Students work on their own and in groups to dissect the mechanics of the language, rationalize texts, and make connections between grammar, natural speech, and idiomatic phrases. Students are expected to come to class enthusiastic and prepared and use this time to learn.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Medieval & Renaissance Studies, Transatlantic Studies, West European Studies

IRISH 0106 - IRISH (GAEILGE) 6

Minimum Credits: 3
Maximum Credits: 3
This course follows on level 5. Students will continue to break down the mechanics of the language and work towards independent success and higher level thinking. They now move to making evaluations on texts, freely expressing opinions of guided lessons, and independent discovery of grammatical structures. They are equipped for more independent learning, reading articles on culturally relevant topics, both at home and in the community, and engaging in higher level thinking. They work on their own and in groups to dissect the mechanics of the language, rationalize the texts, and make connections between grammar, natural speech, and idiomatic phrases. Students are expected to come to class enthusiastic and prepared and use this time to learn.

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
IRISH 1620 - CULTURAL IMMERSION IN IRELAND

Minimum Credits: 3
Maximum Credits: 3

This three-week immersive course is designed to give students a greater understanding of Ireland and Northern Ireland and the influence of the Irish language in Ireland today. Students will develop a new appreciation for Ireland's culture as we travel through the Emerald Isle, travelling from historic Belfast to cosmopolitan Dublin to the pastoral landscapes of Galway and beyond. This course is designed in two parts; first week you will travel to Belfast with Tony Novosel of the History Department at the University of Pittsburgh and explore the history and culture of Northern Ireland. For the remaining two weeks, you will travel in the company of your Irish-native instructor, throughout the island from the cosmopolitan vibrancy of Dublin to the more pastoral landscape of Galway and the Irish-speaking Gaeltacht beyond. In Ireland's capital, you will experience culture through live music, cuisine and a guided tour of the city. We will explore its history, meet with locals, and gain an understanding of Dublin's place in the world. On our westward journey, we will spend time in the City of the Tribes, Galway. This small pedestrian-friendly city is welcoming and accessible to travelers and has maintained its sense of “Irishness” throughout the Celtic Tiger boom years. Connecting here with the people and the language will enhance your cultural experience and allow you make those personal connections to the Island. Packed with activities and hands-on experience this course will give you a real-life experience, which will be invaluable to your appreciation of Ireland, the Irish language, its culture and people. Highlights will include Irish dance, Book of Kells, tour of government buildings, Gaelic football, conversing and engaging with native speakers and the “craic” of a traditional Irish music session. Ireland is changing and advancing while still maintaining a friendly close personal feel and this two-week course will allow students to see the past and present side by side.

Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Second Language General Ed. Requirement, Pitt Class

**ITAL 0017 - ITALIES**

Minimum Credits: 3  
Maximum Credits: 3  
This 2nd year course consists of three main parts: Part I introduces students to the geographical contours of the Italian nation throughout history: how has Italy been defined and how is it defined today? In this part we will also identify, compare, and contrast different ways of articulating Italian identity through political, legal, cultural, economic, and linguistic parameters. Part II invites students to engage with the diversity of Italian regions- their languages, cultures, and sub-national identities-through a representative set of regional case studies. Finally, in Part III students will explore the nature of Italianità (Italianness) as represented both in the diasporic movement of Italians around the world, and in current debates over immigration to Italy and the rights of immigrants-children-born in Italy-- to enjoy the benefits of Italian citizenship.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ITAL 0003 with a grade of C- or better

**ITAL 0050 - ITALIAN CONVERSATION**

Minimum Credits: 1  
Maximum Credits: 1  
This course offers students the opportunity to improve their ability to converse in Italian. Discussions will center on topics of general interest.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: West European Studies

**ITAL 0055 - ITALIAN CONVERSATION AND CULTURE**

Minimum Credits: 3  
Maximum Credits: 3  
The course focuses on developing the students' listening and speaking proficiency in Italian by providing them opportunities to hear and speak Italian in a variety of contexts, expand their Italian vocabulary, practice different modes of communication (presentational, Interpretive and interpersonal), and learn specific verbal and non-verbal strategies to communicate successfully with others in Italian. Course work centers on a theme particularly relevant to Italian culture.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ITAL 0004
Course Attributes: SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

ITAL 0060 - LITERARY ITALIAN 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to Italian literature and culture. The majority of readings are in the prose and poetry of modern Italian writers.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ITAL 0004
Course Attributes: West European Studies, Writing Intensive Course (WRIT)

ITAL 0061 - LITERARY ITALIAN 2

Minimum Credits: 3
Maximum Credits: 3
We will read and discuss in Italian excerpts from Twentieth Century prose and poetry. The course emphasizes advanced language skills.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ITAL 0004 (MIN GRADE 'B-'); PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: West European Studies, Writing Intensive Course (WRIT)

ITAL 0065 - INTENSIVE ADVANCED ITALIAN LANGUAGE FOR STUDY ABROAD

Minimum Credits: 6
Maximum Credits: 6
This 6-credit intensive advanced language course is offered at the Cultural Center for Foreigners of the University of Florence. Its goal is to prepare students to profitably attend the lecture-style lessons in Italian Literature and History conducted (also at the Center and entirely in the target language) by native Italian faculty of that university. The course is design to help the students complete the reading assignments upon which they will be individually tested - at the end of term - in a face-to-face meeting/exam. To this aim extensive and intensive reading skills are practiced in ITAL 1065 throughout the term, so as to enhance students' understanding and control of the language structures, provide them with an increasingly more specialized Italian vocabulary, and improve on their ability to recognize diverse linguistic registers
Academic Career: Undergraduate
Course Component: Lecture

Course Attributes: Study Abroad

ITAL 0080 - RENAISSANCE ITALY: HUMANISM, POWER & THE ARTS

Minimum Credits: 3
Maximum Credits: 3
An introduction to Renaissance Italy, this class takes an interdisciplinary approach, exploring connections between major Renaissance works and developments across a wide range of fields: from the rise of humanism to the paintings of Botticelli; from Machiavelli's revolutionary handbook of power, The Prince, to his side-splitting comedy, The Mandrake Root; from the restless experimentation of Leonardo da Vinci to the birth of opera. No prerequisites. This class will be conducted in English and does not require knowledge of Italian. It satisfies the Geographical Region and Historical Analysis General Education Requirements, and counts for the Italian minor and major tracks.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Geographic Region General Ed. Requirement, DSAS Historical Analysis General Ed. Requirement, Medieval & Renaissance Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

ITAL 0081 - MADE IN ITALY: INGENUITY, SINGULARITY, STYLE

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the central themes of Italian Cultural Studies, tracing them from their origins in early modern period to the
present day. Students explore Italy's unique contributions to the areas of image and style; human mobility; science, technology and design; performance and spectacle; humanism and human rights.

**Academic Career:** Undergraduate

**ITAL 0088 - ITALIAN AMERICA ON SCREEN**

**Minimum Credits:** 3  
**Maximum Credits:** 3

From Valentino to Vinnie Barbarino, from The Godfather to The Sopranos, from Stallone to Snooki, Italian and Italian American cultures have been a mainstay of the American film and television industries since the days of silent film. Through its survey of representations of Italians and Italian Americans, this course seeks to go beyond the stereotypical and scandalous ways in which these images are often produced (and received) to ask questions about the development of American ethnicity; the representation of masculinity and women in the Italian American context; depictions of Italian and Italian American criminality; the potential for culture clash between the Italian American and Italian traditions; and the relationship between stereotype and popular culture. This course is taught in English. No prerequisites. No knowledge of Italian is required.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Historical Analysis General Ed. Requirement, DSAS Literature General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req., SCI Polymathic Contexts: Soc/Behav. GE. Req.

**ITAL 0089 - HISTORY OF ITALIAN CINEMA**

**Minimum Credits:** 3  
**Maximum Credits:** 3

Taught in English, this course will introduce students to the history of cinema in Italy from the era of silent films to the present day. We will analyze films from all periods and consider a diversity of forms and genres, including mainstream narrative films, art films, avant-garde experiments, and documentaries. In our century-long journey from the silent blockbuster movies of the 1910s to the Italian super-hero films of the 2010s, we will get to know world-class directors such as Federico Fellini and genre masters such as Dario Argento. We will see what Italian cinema has borrowed from other traditions, and what it has given in return. We will appreciate how Italian b-movies would not exist without American blockbusters, and how a director such as Quentin Tarantino would not exist without Italian b-movies. We will learn about Italy and about how much of its history and of its culture can be seen hidden or deliberately displayed through the frames of Italian films. No previous course experience with cinema is presumed, as we will learn the basics of how to watch, discuss, and write about films and the film industry. Readings will be available in English and all films will have English subtitles.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
ITAL 0090 - EURO CHIC: THE INVENTION OF FASHION

Minimum Credits: 3  
Maximum Credits: 3  
Since the Renaissance, Italy and France have occupied a fundamental role in the establishment and development of fashion as a creative and commercial enterprise deeply rooted in cultural mores. The course address the historical shifts in the cultural understanding of gender roles, class belonging, consumption habits and expectations, the international circulation of craftsmanship and celebrities, and technological innovation. We will start addressing the anthropology of body ornamentation, gender markings and the difference between costume and fashion. Our historical point of departure is the grand arrival of Catherine De Medici from Florence to Paris in 1547, following her marriage to King Henry II of France. We then follow the progressive establishment of Paris as the capital of European (and eventually international) fashion, together with Italian cities like Florence, Venice and Milan. We also take a significant detour through London during the "dandy" era of the early 19th century and the "mod" and "punk" trends of the decades between 1960 and 1980. Punk leads us into a discussion of current international "anti-fashion" trends, such as the politics and economics of privilege, cheap labor and environmental concerns about "fast fashion." This course is taught in English.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ITAL 0100 - ITALIAN FOR THE PROFESSIONS

Minimum Credits: 3  
Maximum Credits: 3  
This course is a content-based introduction to the Italian language for students in professional contexts, including basic grammar, vocabulary, and speech patterns. The primary goals are to achieve competence in the spoken language, along with basic skills in reading and writing, while providing students the opportunity to learn about Italian industry and commerce.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PROG: (College of Business Admin) or (School of Nursing) or (Swanson School of Engineering)

ITAL 0101 - ITALIAN LANGUAGE AND CULTURE 1

Minimum Credits: 4  
Maximum Credits: 4  
An introduction to the Italian language, including basic grammar, vocabulary and speech patterns. Primary goal is to achieve competence in the spoken language, along with basic skills in reading and writing. Face-to-face lesson meetings (3 days per week) consist of communicative activities in which students practiced learned structures and vocabulary. One hour per week is online. In this hour, students will watch/listen/read lectures, complete exercises related to grammar and vocabulary, and interact with apps and websites (Extempore, Quizlet, etc.) that will be tracked in the classroom management platform Schoology. This instructional approach is designed to allow for maximum interaction in the classroom environment, so that students can receive extensive feedback on their progress. No textbook required.

Academic Career: Undergraduate

ITAL 0119 - ITALIAN CULTURE IN PRACTICE

Minimum Credits: 3  
Maximum Credits: 3
The aim of this fifth semester Italian course is to provide students with the means to better understand Italy, its history and culture, while experiencing Italian everyday life first-hand, in one of its major cities and regions. The course is designed to improve, in particular, students' oral proficiency and sociolinguistic competence through immersion; it consists of various sections focused on different, but complementary social and linguistic skills pertaining to getting to know people and places, learning and discussing current Italian events, making cultural comparisons, and argue one's opinions. All the while, students will get acquainted with the city and its territory, their influential past as well as their vibrant present. Emphasis is on acquiring the authentic oral communication skills necessary to navigate expertly Italian-speaking environments, and acquiring cultural knowledge through daily, immersive and exclusive practice of the Italian language.

Course Requirements: ITAL 0100 (Min Grade C'); PROG: College of Business Admin or School of Nursing or Swanson School of Engineering

ITAL 1030 - ADVANCED COMPOSITION

Minimum Credits: 3  
Maximum Credits: 3
This course is designed to enable students to improve their understanding and use of all essential elements of written Italian.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TWO of the following courses: ITAL 0110, ITAL 0113, ITAL 0115, ITAL 0117, ITAL 0119
Course Attributes: West European Studies

ITAL 1032 - INTRODUCTION TO ITALIAN LINGUISTICS

Minimum Credits: 3  
Maximum Credits: 3
This course is an introduction to Italian linguistics, designed for the student who wants to gain more knowledge about the structures of Italian. It covers the following subfields of linguistics: phonetics, phonology, morphology, syntax, semantics, sociolinguistics and second language acquisition.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TWO of the following courses: ITAL 0110, ITAL 0113, ITAL 0115, ITAL 0117, ITAL 0119
Course Attributes: Writing Intensive Course (WRIT)

ITAL 1041 - ITALIAN THEATRICAL WORKSHOP

Minimum Credits: 3  
Maximum Credits: 3
The transition from the study of a foreign language to the study of its literature is often a very difficult one; this course has been designed as a third-year Italian course which will serve as a bridge between these 2 phases of the Italian major curriculum. Working both individually and in group, students will engage in: oral reading, storytelling, role-playing, improvisation, the creation and enactment of their own dialogues & scenarios, close reading, study, interpretation & performance of pre-existing theatrical texts, adaptation to a script & performance of narrative pieces.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TWO of the following courses: ITAL 0110, ITAL 0113, ITAL 0115, ITAL 0117, ITAL 0119

ITAL 1060 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Period and literary topics are to be determined by the instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TWO of the following courses: ITAL 0110, ITAL 0113, ITAL 0115, ITAL 0117, ITAL 0119

ITAL 1070 - LITERATURE AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the relationship between Italian literature and politics. We will pay particular attention to the ways in which literary works reflect, embrace, or question political problems, movements, or ideologies.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TWO of the following courses: ITAL 0110, ITAL 0113, ITAL 0115, ITAL 0117, ITAL 0119

ITAL 1071 - THE ETERNAL CITY: ROME FROM ANTIQUITY TO TODAY

Minimum Credits: 3
Maximum Credits: 3
Rome has been called the "Eternal City" because of the enduringly important role it has played in Mediterranean, European, and global affairs over a period of more than two millennia. In this course we will use the rich urban history of Rome as the geographic focal point through which to examine the societal and cultural changes that unfolded across these centuries for Rome's citizens, Rome's imperial subjects, and people connected to Rome by networks of travel and trade. Students will learn about these societal changes through direct analysis of a broad range of authentic texts and media, including letters, short stories, biographies, cinema, travelogues, historical and contemporary maps, architecture and visual arts, graffiti, music, guidebooks, recipes, and exhibition catalogues. Students will create a digital final project: an interactive Story Map (created with the ArcGIS digital
mapping platform) that will represent the routes and experiences of multiple individuals who traveled to and within the city of Rome in different centuries, based on these individuals' written accounts.

ITAL 1078 - FULBRIGHT SEMINAR IN ITALIAN STUDIES

Minimum Credits: 3
Maximum Credits: 3
The fullbright seminar in Italian studies is the spring-term undergraduate-level course offered by the visiting fulbright distinguished scholar from Italy. This course is typically offered in the fields of art history, cultural studies, film, history, literature, museum studies, political science, or urban studies.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ITAL 1079 - INTRO TO HOLOCAUST LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the central texts of the literature of the holocaust, while introducing students to the main issues and preoccupations of holocaust testimony in literature and film.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Literature General Ed. Requirement, Russian & East European Studies, SCI Polymathic Contexts: Humanistic GE. Req., West European Studies

ITAL 1080 - MASTERPIECES OF ITALIAN PROSE

Minimum Credits: 3
Maximum Credits: 3
In this course we will read some of the best known pieces of Italian short fiction, from Boccaccio's Decameron and Renaissance tales to short stories of contemporary Italian writers.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFNM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Literature General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req., West European Studies, Writing Intensive Course (WRIT)

ITAL 1082 - ITALIAN RENAISSANCE LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the literature of Renaissance Italy. Readings include a mixture of poetry and prose.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Medieval & Renaissance Studies, West European Studies

ITAL 1083 - MODERN ITALIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
The course focuses on a half dozen masterpieces of Italian narrative and poetry. They come from different moments of Italian cultural history--the Romantic, naturalistic, decadent, and nonrealistic periods, stretching from Manzoni in the early 1800's to writers of our time.
Academic Career: Undergraduate

Course Attributes: DSAS Literature General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req., Writing Intensive Course (WRIT)

ITAL 1084 - INTERCULTURAL PIAZZA

Minimum Credits: 3  
Maximum Credits: 3  
Italy has long been a nation of emigrants, but only in the last few decades has become a nation receiving large numbers of immigrants. The fall of communism in Eastern Europe, and wars and violence in the Balkans, across Africa and the Middle East, have spurred new migrants towards the West in search of safety and economic prosperity. The unique position of the Italian peninsula in the Mediterranean has made it a key territory of arrival in these modern-day migrations, but to what advantage and to what cost? This course will explore the complexities of cultural identity and migration, and the impact they have on intercultural conflict and cooperation. There will be a particular focus on migration in Italy and on the marginalized communities of contemporary Italy, such as migrants, their Italianborn non-citizen children, and the Roma. We will examine the fluidity of cultural boundaries across time and space, and how ingroup and outgroup dynamics contribute to the manufacturing of fear and prejudice among populations. During their semester abroad, students will reflect on the various elements that define a culture while gaining an increased understanding of how culture shapes individuals and how our cultural identities interact in shared social spaces such as the piazze of Florence. This is a Study Abroad course offered in Florence, Italy.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ITAL 1085 - DANTE, PETRARCH, AND BOCCACCIO

Minimum Credits: 3  
Maximum Credits: 3  
Dante, Petrarch and Boccaccio are not only the founding fathers of Italian literature but pivotal figures in Western civilization. This course will present the three writers against the historical and cultural background of pre Renaissance Europe.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ITAL 1087 - FASCISM AND RESISTANCE

Minimum Credits: 3  
Maximum Credits: 3  
This course follows the development of fascism and anti-fascism in Italy. Main themes covered are WWI; irredentism; colonialism; gender and racial policies; autarchy; WWII; resistance.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ITAL 1088 - TOPICS ITALIAN AMERICAN STUDIES

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introduction to the new interdisciplinary field of Italian-American studies with a particular focus on how that area of scholarship can shed light on our understanding of the past century of Italian-American culture in Western Pennsylvania and Pittsburgh. The class will consider the portrayal of Italian-Americans in literature and film from the interconnected perspectives of literary-historical interpretation.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

ITAL 1089 - SPECIAL TOPICS

Minimum Credits: 3  
Maximum Credits: 3  
Period and literary topics are determined by the instructor.

Academic Career: Undergraduate  
Course Component: Lecture
ITAL 1092 - ITALIAN TRANSLATION WORKSHOP: FROM THEORY TO BEST PRACTICES

Minimum Credits: 3
Maximum Credits: 3
This upper-division course constitutes a reconsideration of the student's linguistic, cultural, and literary preparation in the context of translation theory and practice. Students will engage in translation work both from Italian to English and English to Italian though the former will predominate. Students will compile a translation dossier throughout the term, consisting of examples of translation work in a variety of genres and text types, and representing a number of different translation challenges. Students will work towards the goal of producing at least one translation for use by an organization, association, institution, or publication that needs translation to accomplish its mission.

ITAL 1111 - READING (IN) ITALY

Minimum Credits: 3
Maximum Credits: 3
This course aims to guide students in the close reading, interpretation and discussion of literary and non-literary Italian texts that feature various aspects of the past and present life and cultural history of the place where they have come to study.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ITAL 1119 - ITALIAN CULTURE IN PRACTICE 2

Minimum Credits: 3
Maximum Credits: 3
This is an Italian conversation course abroad in Genoa for students at the advanced level.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ITAL 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 4
This course enables the student who has completed, or nearly completed, the Italian major to do research under the direction of a faculty member, on a topic of mutual interest.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: West European Studies

ITAL 1903 - HONORS DIRECTED RESEARCH: ITALIAN MAJORS

Minimum Credits: 1
Maximum Credits: 3
This course is offered to Italian majors who have high academic achievement, both in Italian and in general. These students are invited by the Italian faculty to engage in a research project under the direction of a faculty member with whom they have previously studied at the advanced undergraduate level.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Attributes: West European Studies

ITAL 1905 - INTERNSHIP IN ITALIAN
The student is placed in a job setting in which knowledge of Italian language and/or culture is useful.

**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Undergraduate Internship, West European Studies

**ITAL 1907 - ITALIAN UNDERGRADUATE TEACHING ASSISTANTSHIP**

Minimum Credits: 1  
Maximum Credits: 6  
This applied course in pedagogy is designed to provide advanced Italian majors the opportunity to share their knowledge, experience and passion for the Italian language and culture with underclassmen and students newer to the major. In concert with the faculty member teaching the course in which the Italian major serves as UTA, a number of duties will be discussed, which may include: facilitating discussion groups or other collective fora, organizing tutorials and holding office hours, assisting faculty member in lesson planning, material(s) development and maintaining online sites and/or document repositories for the course. Per the guidelines set by the Dietrich School of Arts and Sciences, Italian UTAs may not substitute teach for the faculty member, nor grade papers, quizzes or exams, nor assign any midterm or final grades, nor perform any work for the faculty member unrelated to the course in question. The faculty member teaching the course in which the Italian major serves as UTA, will articulate expectations clearly from the very beginning, and will meet regularly with said UTA, providing guidance and support throughout the term. Further details of the guidelines can be found on the Dietrich School's site. Prerequisites: To be admitted to this elective, a student must be a declared Italian Language and Literature or Italian Studies major in excellent standing (GPA of 3.5 or higher), and must have previously completed the course for which the student will serve as UTA with a grade of "A." In order to serve as a UTA for a course conducted in Italian, the student must have advanced Italian-language proficiency, as demonstrated either by completing a 1000-level Italian-taught course with a grade of A- or higher, or by special permission granted by the faculty mentor.  
**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** Satisfactory/No Credit

**ITAL 1909 - UNDERGRADUATE RESEARCH ASSISTANTSHIP**

Minimum Credits: 1  
Maximum Credits: 2  
**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** Satisfactory/No Credit

**Japanese**

**JPNSE 0001 - FIRST YEAR JAPANESE 1**

Minimum Credits: 5  
Maximum Credits: 5  
The first step in Japanese language study. The student will acquire a basic competence in speaking, understanding, reading and writing. Emphasis is placed on speaking and understanding as the student learns the sound system, basic vocabulary and essential sentence patterns. Writing will include the katakana and hiragana syllabaries.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Asian Studies, West European Studies

**JPNSE 0002 - FIRST YEAR JAPANESE 2**

Minimum Credits: 5  
Maximum Credits: 5  
The second term in the systematic presentation of the modern standard language begun in Japanese 0001. Students will continue to develop all four skills--speaking, understanding, reading and writing with continued emphasis on content useful in everyday communications. Writing will include the syllabaries and about 50 selected kanji characters.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

1389
Course Requirements: PREQ: JPNSE 0001 (MIN GRADE 'C-')
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement

JPNSE 0003 - SECOND YEAR JAPANESE 1

Minimum Credits: 5
Maximum Credits: 5
The third term in the sequence of Japanese language instruction designed to increase the student's proficiency in speaking and understanding of modern standard Japanese through the introduction of more complex grammatical structures and idiomatic expressions. Writing will include about 300 additional kanji characters.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0002 or JPNSE 1061 (MIN GRADE 'C-')
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement

JPNSE 0004 - SECOND YEAR JAPANESE 2

Minimum Credits: 5
Maximum Credits: 5
The fourth term in the sequence of Japanese language instruction designed to develop the student's ability to carry on non-technical conversations while continuing to enhance the reading and writing skills. More complex grammatical structures and the study of about 300 additional characters are introduced.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0003 (MIN GRADE 'C-')
Course Attributes: Asian Studies

JPNSE 0006 - JAPAN: ITS PEOPLE AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students studying abroad in Japan. It is intended to introduce students to the people and culture of Japan in a meaningful way. Designed as a gateway to more specialized training, this is a course for students who have had little or no previous knowledge of Japan.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

JPNSE 0007 - JAPANESE CULTURE AND CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to fundamental characteristics of the culture and civilization of Japan from earliest times to the present. As a gateway to more specialized training, it is designed for students having little or no previous knowledge of Japan. Students can expect to leave with a basic grasp of important historical periods, an appreciation of key figures and places of cultural significance, and an awareness of important social changes from earliest times to the present day. Students will improve their analytical skills as they read from outstanding examples of Japanese literature; they will synthesize relevant information about Japanese art, architecture, religion, literature, society, and history from lectures and background readings in order to present well-reasoned arguments about Japan; and they will develop a nuanced understanding of Japan's place in a global context. This course aims to a) improve cultural literacy about Japan and the Japanese, b) increase familiarity with principal historical periods, c) introduce basic geography 'location of principal Asian countries, Japanese islands, and Japanese cities, and d) identify important political, social, cultural, artistic, and literary themes for each of the principal periods covered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0010 - SPECIAL TOPICS IN EAST ASIAN POP CULTURE
This mini pop-up course explores the spread of Asian pop across the world in conjunction with the Asian Studies Center's annual lecture series on Asian pop culture. This year's theme is East Asian pop: J-Pop (Japan), K-Pop (Korea) and Canto/Mando Pop (Hong Kong and China). In this course, students will track the lecture series and the issues to discuss include the global legacy of East Asian pop, the role of media and technology, popular music as an instrument of soft power, participatory fandom and international business. The course may also include some experiential learning opportunities such as dance workshop and field trip. At the end of the term, the students will write a reflection paper.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 0080 - CITY LIFE AND EAST ASIAN CULTURE**

Minimum Credits: 3
Maximum Credits: 3
This is a humanities based modular course designed as an introduction to important areas of East Asian civilization. The student will discover how literature, art and thought has flourished in the urban areas of China and Japan.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 0081 - EAST ASIA IN THE WORLD**

Minimum Credits: 3
Maximum Credits: 3
To enhance a greater understanding of East Asian cultures; to explore the interactions and relations between the peoples and cultures of East Asia (China and Japan) and the rest of the world, from ancient times to the present. Literary works, memoirs, autobiographies, diaries, historical records and films will be used. Themes involve such topics as the significance of travel in self-understanding, diaspora, immigration, and changing ideas of the homeland.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: SCI Polymathic Contexts: Global&Cross Cult GE. Req.

**JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE**

Minimum Credits: 3
Maximum Credits: 3
This course introduces, through English translations, some of the outstanding works which make up the literary heritage of Japan. The student becomes acquainted with a non-Western literary tradition by exploring similarities and differences in ways of thinking and modes of expression. Readings include selections from ancient poetry, classical Romances, forms of drama, early modern fiction, haiku poetry and modern novels.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL**

Minimum Credits: 3
Maximum Credits: 3
This course will look at a broad array of fictional works that deal with the supernatural in Japan. The material is arranged historically, ranging from the seventh century to contemporary times, and including ancient myths, theater and narrative fiction, poetry, picture-books, film and anime. The ostensible purpose of the course is to provide a broad view of Japanese literature and culture from a particular angle—the representation of the supernatural. However, by looking at the non-human and the non-natural, students are also encouraged to think about human society and individuality in different historical periods in Japan.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
JPNSE 1011 - BASIC JAPANESE LANGUAGE 1

Minimum Credits: 5
Maximum Credits: 5
The first is a series of courses in modern standard Japanese designed for the student with no previous knowledge of the language. Emphasis is on speaking and understanding and includes useful expressions and practical vocabulary.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

JPNSE 1012 - BASIC JAPANESE LANGUAGE 2

Minimum Credits: 5
Maximum Credits: 5
The second in a series of courses, this is a continuation of Japanese 1011. The course continues to develop the student's ability to speak and understand the language, with emphasis on conversation using everyday vocabulary and expressions.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

JPNSE 1013 - BASIC JAPANESE LANGUAGE 3

Minimum Credits: 4
Maximum Credits: 4
The third in a series of courses, this is a continuation of Japanese 1012. The course will further develop the four language skills—speaking, understanding, reading and writing—with continued emphasis on useful vocabulary and expressions in natural conversational situations. Students will learn the Japanese syllabary katakana.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1020 - THIRD YEAR JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
The first term of the third-year Japanese language course whose primary goal is to develop a broad competency in speaking and reading through materials of academic and cultural interests and the discussion of those materials. The selection of reading materials is made in such a way that most of the characters in the Kyooiku Kanji list is covered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0004 or JPNSE 1062 (MIN GRADE 'C-')
Course Attributes: Asian Studies

JPNSE 1021 - THIRD YEAR JAPANESE 2

Minimum Credits: 3
Maximum Credits: 3
The second term of the third year level Japanese language course and a continuation of Japanese 1020. The student further develops competency through speaking and reading materials of academic and cultural interests and through discussion of those materials.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1020 (MIN GRADE 'C-')
Course Attributes: Asian Studies

JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the Japanese language through a study of its structure, vocabulary and cultural heritage. Some topics discussed include word order, basic structural patterns, and particles such as WA and GA, sexism, and word formation. This course is useful for the Japanese studies student wishing to have a deeper understanding of the language as well as the linguistics student interested in gaining knowledge of a non-Indo-European language.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0002

JPNSE 1028 - READING JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
Introduce students to reading in Japanese through in-class and out of class activities and assignments for improving basic reading skills: dictionary skills, fluency with Katakana and Hiragana, character recognition and production of a total of 510 kanji, gaining fuller control of grammar, and increasing vocab. Size. Will also learn to recognize text genres and adopt appropriate reading strategies, deal effectively with unknown characters and vocabulary items, form expectations about the meaning of text, and other heuristic skills. Structure: lecture in English, directed in-class reading in a variety of text genres, reading out loud, listening comprehension work, etc.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1035 - PRAGMATICS OF JAPANESE

Minimum Credits: 3
Maximum Credits: 3
This course will provide an introduction to the usage aspects of Japanese by reading articles on pragmatic aspects of the language. The instructor will lecture on salient points and lead discussion on specific issues and the appropriate use of the language.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0002 with a C- or Better

JPNSE 1040 - INTRODUCTION TO CLASSICAL JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
This classical Japanese language course is studied through readings of prose and poetry texts written during and immediately after the Heian period. Literary and linguistic techniques are discussed and points of contrast with the modern language are analyzed. Also introduced are reference materials dealing with classical Japanese language and literature. Students are encouraged, but not required, to complete JPNSE 1023 Aspects of the Japanese Language before enrolling in this course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: JPNSE 1021
Course Attributes: Asian Studies

JPNSE 1050 - FOURTH YEAR JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
A fourth-year Japanese language course for students interested in reading news stories, editorials, journal articles and other special interest items. The goals are to increase vocabulary and to develop the ability to read unfamiliar material as a tool for future research.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1021 (MIN GRADE ’C-‘)
Course Attributes: Asian Studies
JPNSE 1056 - JAPANESE LITERATURE AND THE WEST

Minimum Credits: 3
Maximum Credits: 3
A critical study of modern Japanese works and selected modern Western literary materials with special emphasis on intensive analysis by means of modern Western criticism. The course is designed to encourage the student to examine significant similarities and differences between Japanese and non-Japanese materials and to judge the content from an oriental as well as a Western perspective.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course provides a critical study of selected international prize winning Japanese films and compares these films with Western films dealing with similar themes. The student learns to analyze and interpret films; becomes familiar with particular genres of Japanese films compared with Western; studies the history of Japanese cinema and its place in international cinematography and exposes the intercultural benefits of judging the content of the films from oriental and Western aesthetic perspectives.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1058 - WESTERNS AND SAMURAI FILMS

Minimum Credits: 3
Maximum Credits: 3
A focus on the critical comparative study of two filmic genres--the samurai representing Japanese cinema and the Western representing American cinema. The course demonstrates the analytical processes of the film leading to its structural unity; shows the significance of both genres with respect to the history of Japanese, American and European cinema; compares approaches to films of different countries and provides the overall benefits of approaching films from an intercultural standpoint.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1059 - JAPANESE LITERATURE ON SCREEN

Minimum Credits: 3
Maximum Credits: 3
This course will investigate how literature and film treat some major ideological and socio-cultural issues in Japanese society. Readings of pre-modern tales, modern fiction and contemporary novels. Film adaptations will represent the best of Japan's postwar cinematic tradition. The course is designed for the student interested in Japanese society, culture and intellectual currents through film and literature.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1061 - INTENSIVE JAPANESE 1

Minimum Credits: 10
Maximum Credits: 10
The first step in Japanese language study. The student will acquire a basic competence in speaking, understanding, reading and writing. Emphasis is placed on speaking and understanding as the student learns the sound system, basic vocabulary and essential sentence patterns. Writing will include the katakana and hiragana syllabaries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement

**JPNSE 1062 - INTENSIVE JAPANESE 2**

Minimum Credits: 10
Maximum Credits: 10
Students will continue to develop all four skills begun in Japanese 1061--speaking, understanding, reading and writing with continued emphasis on content useful in everyday communications. Writing will include selected kanji characters.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1061 or JPNSE 0002

**JPNSE 1063 - ADVANCED JAPANESE: TECHNICAL 1**

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a sequence of Japanese language courses at the third year level designed for students concentrating on scientific, technical or management fields. The course will address the four language skills of reading/ writing and speaking/understanding. Reading will include practice in reading texts from Japanese journals and books in the areas of science, engineering and management. Speaking will include more advanced grammar and vocabulary.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 1065 - DETECTIVE AND MYSTERY FICTION IN JAPAN**

Minimum Credits: 3
Maximum Credits: 3
This course is a one-semester introduction to Japanese literature in English translation. The course is designed for students interested in broadening their knowledge of Japan, as well as for students who wish to compare other literature they have studied with that of Japan. No prior knowledge of Japan or Japanese is necessary to enroll.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 1066 - INTENSIVE JAPANESE 3**

Minimum Credits: 6
Maximum Credits: 6
The ultimate aim of this course is communicative ability in the Japanese language, both written and spoken languages. We consider communicative ability to be the ability to convey messages to native speakers who are unused to communicating with foreigners in ways that create no difficulty, discomfort, or misunderstanding. This course is designed for students with two years of prior Japanese study at the University of Pittsburgh (i.e., First and Second Year Japanese).

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**JPNSE 1070 - WORLD OF JAPAN**

Minimum Credits: 3
Maximum Credits: 3
Students will receive a grounding in basic principles of Japanese classical literature, poetry and aesthetics. They will read the entire text in English of the tale of the Genji and examine important works in Japanese literature composed in later periods.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
JPNSE 1071 - THE WORLD OF JAPAN

Minimum Credits: 3  
Maximum Credits: 3
This course covers the period between 1570 and 1870. Beginning with the unification of Japan under sixteenth century military war lords and ending with the collapse of the Tokugana Shoganate. Students will read selections from the major scholarly literature on the period.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

JPNSE 1080 - GHOSTS, MASKS AND ACTORS

Minimum Credits: 3  
Maximum Credits: 3
A critical study of three major dramatic genres of Japan--NOH, Bunraku and kabuki--in cultural origins. Areas to be explored are the use of masks in the world of the NOH theatre, the kabuki with its female impersonators and the near-life-size puppets of the Bunraku. Also discussed is the impact that NOH and Kabuki have had on modern Japanese and non-Japanese theatrical and film genres.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

JPNSE 1081 - FORMS OF JAPANESE THEATRE

Minimum Credits: 3  
Maximum Credits: 3
This course will provide a survey of various major forms of Japanese theatre using English language materials. Students will have access to relatively ancient forms of Japanese theatre such as Kagura and no, kabuki drama and the Bunraku puppet theatre through film and videocassette. The modern and avant-garde theatre are also accessible through translation and videocassette material. This course is designed for upper-class majors in theatre arts and non-majors in related fields.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION

Minimum Credits: 3  
Maximum Credits: 3
This is an introductory course that answers to a growing interest in the theory and practice of translation from Japanese to English. The genres of texts that will be dealt with include literary works of various kinds (novels, poems, children's books), magazine and newspaper articles, web posts, manga, subtitling of anime and other videos, and texts of technical nature. Students will first learn broadly about the discipline of translation studies, including a history of translation and issues in translation (invisibility of the translator, culturally specific translatability issues, etc.). Students will then learn specific types of translation issues that come up when translating Japanese into English, using excerpts from a variety of genres as case studies. Special attention is paid to the structural differences between Japanese and English, cross-cultural differences in stylistics, writing with clarity, reference work, etc.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: JPNSE 0002 or JPNSE 1061 or instructor consent  

JPNSE 1800 - SPECIAL TOPICS

Minimum Credits: 3  
Maximum Credits: 3
This course aims to deepen the student's understanding of the Japanese language and sharpen language skills in areas which have traditionally been difficult to learn and to understand. This will be accomplished through reading relevant literature, examining linguistic data and by in-class discussions.  
Academic Career: Undergraduate
Course Component: Lecture

Course Attributes: Asian Studies

JPNSE 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
An individual study under the guidance of a department faculty member. For the student whose topic is not covered by regular course work.

Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

JPNSE 1906 - JAPANESE INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
This course places the student in a work setting where they can gain practical experience in a supervised training environment.

Academic Career: Undergraduate
Course Component: Internship
Grade Component: LG/SNC Elective Basis

JPNSE 1908 - DIRECTED WRITING FOR MAJORS

Minimum Credits: 1
Maximum Credits: 1
In addition to whatever written assignments are required of those enrolled in the course, this directed writing practicum provides students with an opportunity to contribute writing designed in terms of the intellectual strategies of the course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0205 or 0207 or 0210 or 0212) or ENGFIM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Asian Studies, Writing Requirement Course

JPNSE 1999 - CAPSTONE PROJECT

Minimum Credits: 3
Maximum Credits: 3
Goal of course is to plan and complete a student-directed academic project (capstone project) that requires the command and synthesis of the knowledge and skills learned in the undergraduate career in order to analyze an intellectual problem or topic in the student's interest. The students will plan, find and use appropriate resources, make and execute plans to bring a capstone project to fruition in consultation with the course instructor and a faculty mentor.

Jewish Studies

JS 0011 - ELEMENTARY HEBREW 1

Minimum Credits: 4
Maximum Credits: 4
This course introduces students to the fundamentals of the Hebrew language. We study basic vocabulary, grammar and sentence structure, and learn to read and write Hebrew. Emphasis is learning to speak the language.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
JS 0012 - ELEMENTARY HEBREW 2

Minimum Credits: 4  
Maximum Credits: 4  
Continuation of the introductory work begun in Hebrew 1. Students further develop their reading, writing and speaking skills with the greatest emphasis being placed on oral communication.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

JS 0013 - ELEMENTARY HEBREW 1

Minimum Credits: 5  
Maximum Credits: 5  
This course introduces students to the fundamentals of the Hebrew language. We study basic vocabulary, grammar and sentence structure, and learn to read and write Hebrew. Emphasis is learning to speak the language.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

JS 0014 - ELEMENTARY HEBREW 2

Minimum Credits: 5  
Maximum Credits: 5  
Continuation of the introductory work begun in Hebrew 1. Students further develop their reading, writing and speaking skills with the greatest emphasis being placed on oral communication.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Second Language General Ed. Requirement

JS 0025 - INTERMEDIATE HEBREW 3

Minimum Credits: 3  
Maximum Credits: 3  
Students continue to develop the skills acquired in Hebrew 2 with emphasis on speaking and on understanding the spoken language. Readings this term include short stories and articles.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

JS 0026 - INTERMEDIATE HEBREW 4

Minimum Credits: 3  
Maximum Credits: 3  
Students continue to develop their Hebrew reading and speaking skills. Sophisticated Hebrew texts are introduced.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

JS 0037 - ADVANCED HEBREW 5

Minimum Credits: 3  
Maximum Credits: 3  
This course is for advanced level students and uses Hebrew language literature, print and electronic media, film, and TV shows. Emphasis is placed on conversation, modern Hebrew literature, and composition.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

JS 0040 - INTRODUCTION YIDDISH LANGUAGE AND CULTURE
JS 0090 - MYTHOLOGY IN THE ANCIENT NEAR EAST

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

The myths of the ancient near East are among the earliest written interpretations of the world and human existence. They are also among the most enduring, although they have only been unearthed in the last 200 years. In this course, we read myths from ancient Mesopotamia, Ugarit, and Israel. We study the myths as literary works, representative of the ideas and issues of the original cultural context in which they were shaped. These myths offer insight into the religious mentality of the ancient near east, as well as societal and political issues. We examine themes such as the presentation of the life of the gods, the relationship between the human and divine worlds, the issues of mortality and immortality, existence, fertility, kingship, and ethics. The primary goal of this course is to better understand these myths as they existed and developed in their ancient settings. Of course, because the myths are expressions of human thought, we may find that in studying them we also come to better understand ourselves.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0115 - BIBLE AS LITERATURE

Minimum Credits: 3
Maximum Credits: 3

While the Bible can be read in many ways with many different goals, the focus of this course is: reading and examining the Bible as a literary text or, more accurately, as a collection of widely diverse literary texts. Therefore, the questions we ask of the biblical texts will pertain primarily to their forms, interests, and historical contexts. Most of this course will focus on narrative portions of the Bible, although we will see how other literary forms are often interwoven throughout the Bible's stories. Among the topics and issues we will consider in this course are: the origins of biblical texts and their historical contexts; the Bible's own representations of history, particularly the history of Israel; the nature of God throughout the Bible; human-divine relations and covenants; different critical approaches to the text (e.g., source criticism, redaction criticism); the figure of Jesus; uses of the Hebrew Bible in the New Testament; apocalyptic literature; and the various themes, motifs, and literary forms that bring these issues together. Throughout the semester we will also look at different uses of the Bible as a way of illuminating the Bible as a work of literature. Such uses will include different translations or paraphrases of the Bible, various representations of biblical narratives, and examples of the Bible in contemporary popular culture.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0205 - INTRODUCTION TO JUDAISM

Minimum Credits: 3
Maximum Credits: 3

Major themes of the Jewish tradition from biblical to modern times are explored.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0283 - US AND THE HOLOCAUST

Minimum Credits: 3
Maximum Credits: 3

With increasing interest in the Holocaust in Europe, this course focuses on the American side of the Atlantic - on issues of anti-Semitism and anti-immigrant sentiment in this country and on America's response to the Holocaust. We will also look at some post-holocaust issues as well.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
JS 0625 - DETECTIVE FICTION

Minimum Credits: 3
Maximum Credits: 3
This course examines detective fiction in terms of its history, its social meaning and as a form of philosophizing. It also seeks to reveal the place and values of popular fiction in our lives.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

JS 1048 - THE HOLOCAUST IN CONTEXT

Minimum Credits: 3
Maximum Credits: 3
"Ethnic cleansing" and "genocide" are neither twentieth-century phenomena, nor is their occurrence linked to any particular region in the world. However, during the two world wars and their aftermath acts the civilian population of Central and Eastern Europe experienced a degree of mass violence that not only changed to face of the region but also led to the establishment of the very term "genocide". The Holocaust stands out as the most comprehensive, most radically executed case of genocide in modern times. Yet it was embedded in a wider context of systematic violence against various populations in Central and Eastern Europe. Rather than beginning with a general, abstract reflection on the reasons for the various forms of mass violence from ethnic cleansing to genocide, this course allows students to explore the specific social, cultural, and political conditions under which the sometimes entangled cases of mass violence against civilians occurred in twentieth-century Central and Eastern Europe. The course concludes with a general reflection and discussion of the concept of "genocide", the limits of its analytical usefulness, and the political baggage it carries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1065 - BIBLICAL HEBREW

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the grammar, syntax and vocabulary of Biblical Hebrew.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1100 - ISRAEL IN THE BIBLICAL AGE

Minimum Credits: 3
Maximum Credits: 3
This course explores the history and development of the people of Israel in ancient times. What do we know about the Israelites and how do we know it? Using biblical texts and archaeological remains, students will learn about everyday life in ancient Israel, the role of class and gender, life-cycle events, religious festivals, political institutions, systems of belief, and famous personages in history and lore. The trajectory of the course will begin with the Near Eastern origins of the people, continue through the rise of the Israelite and Judahite monarchies, and end with the Second Temple commonwealth of Judea in the Persian and Hellenistic periods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1102 - THE HISTORY OF GOD

Minimum Credits: 3
Maximum Credits: 3
God has a history. In the earliest days of that history, God was worshiped as one of a plethora of deities controlling various spheres of cosmic activity or the human world. Students in this course will learn about this ancient pantheon - how gods functioned in society and how their presence was experienced by those devoted to them. They will then trace the evolution of the God of Israel from a mountaintop deity of the southern Levant in the late second millennium BCE to a supreme deity worshiped by a small group of absolute monotheists based in Jerusalem in the mid-first millennium BCE. Students will become more sophisticated readers of biblical texts in the process. The sources of the Hebrew Bible reflect not a homogeneous monotheism, but rather a diverse set of belief systems tending toward henotheism or even polytheism. By appropriating and reinterpreting the religious myths of their neighbors, the Israelites arrived at a character of the divine that has proven problematic to many contemporary theologians,
particularly on issues of LGBT rights, women's rights, and the environment.

**Grade Component:** Satisfactory/No Credit

**JS 1160 - JERUSALEM: HISTORY AND IMAGINATION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the political, religious, and cultural history of Jerusalem, focusing primarily on Jerusalem as a concrete and conceptual phenomenon in the premodern period.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** Letter Grade

**Course Attributes:** DSAS Geographic Region General Ed. Requirement, DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req., SCI Polymathic Contexts: Soc/Behav. GE. Req.

**JS 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Is archaeology in a place like Israel-Palestine an objective science? In this course, we explore how past and present are linked as nation-states and religious communities utilize the archaeological record to mold identities and to forward certain narratives. Our focus will be on the major archaeological sites of Israel-Palestine, particularly in Jerusalem and its environs. We will explore the political and religious issues that have emerged from or surround their excavation. Archaeology in the Holy Land has long been driven by a desire to shed light on-or even authenticate-the Bible, while the "exotic Orient" was explored in the 19th and early 20th centuries through western expeditions and excavations that served to further colonial interests. These religious and political motivations persist even if their manifestations have shifted with time. Through site tours, museum visits, student-led discussions, talks with local experts, and even a day participating in an archaeological excavation, students will gain direct experience with the places that have aroused controversy because of their problematic relationship to biblical and other ancient texts and/or because of their location in politically contested space.

**JS 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers the development of Classical Judaism from the Second Temple Period, beginning with the end of the Babylonian Exile in the 6th century BCE, and continues up through the emergence of Rabbinic Judaism, culminating with the redaction of the Babylonian Talmud in the 6th century CE. We cover both the major historical trends as well as the major religious developments. The course also introduces students to the major Jewish texts of both the Second Temple Period and the Rabbinic Period, emphasizing close readings of primary texts.
JS 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD

Minimum Credits: 3
Maximum Credits: 3
An introduction to the facets of medieval and early modern Jewish life.

JS 1227 - MEDIEVAL SPAIN

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req., West European Studies

JS 1232 - MODERN EASTERN EUROPEAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This upper level undergraduate course surveys the history of the historically most numerous portion of European Jewry from the medieval period to the present, emphasizing the modernization of east-central European Jews as minorities in the context of their host societies.

JS 1240 - JEWS AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
Comedian Lenny Bruce riffed in 1963 that "If you live in New York or any other big city, you are Jewish. It doesn't matter even if you're Catholic; if you live in New York you're Jewish." In this course, we will discover why Lenny Bruce -- and so many other observers of Jewish life -- came to understand urbanity as a core component of the Jewish experience. We will begin our study of the Jewish encounter with urban life in the 19th century, as millions of Eastern European Jews migrated from the small villages of their birth to cities across the globe. This course will trace this Eastern European Jewish diaspora to urban destinations around the world, before training its lens on the Jewish encounter with American cities. We will pay close attention to how patterns of Jewish urbanization changed regionally and over time; how urbanization affected Jews' home-life, leisure time, religious practices and occupational choices; how differences in gender and class affected Jews' experiences in urban spaces; and how Jews interacted with other ethnic groups in diverse, urban environments. Delving into the history, built environment, and archival sources pertaining to the Jewish experience in Pittsburgh will provide us with a dynamic case study for this crucial relationship between Jews and the city.

JS 1241 - GENDER AND JEWISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course will highlight the impact of gender in modern Jewish history, revealing the divergent experiences of Jewish women and Jewish men as they adapted to the modern world. We will take an international approach to this history, tracing the ways in which circumstances in Europe,
America, and the Middle East shaped how Jews understood and responded to gender roles.

**JS 1250 - JEWS AND JUDAISM IN THE MODERN WORLD**

Minimum Credits: 3  
Maximum Credits: 3  
Here we examine the specific challenges that the modern period posed to existing Jewish life and the nature of the responses made by Judaism to those challenges.

**JS 1252 - HOLOCAUST HISTORY AND MEMORY**

Minimum Credits: 3  
Maximum Credits: 3  
The holocaust - that is, the genocide of six million Jews in Nazi-occupied Europe during World War II - was a critical event of the early twentieth-century that continues to resonate today. Our historical survey will look at the holocaust primarily through the experiences of its Jewish victims, though we will discuss some of the other groups, such as the roma, disabled people, and gay men, who were also targeted and systematically murdered by the Nazis. Additionally, we will think about the perpetrators of the holocaust and the ideologies that led to the genocide, such as racism, nationalism, and antisemitism. Finally, we will move beyond the history of the holocaust to think about the ways that this event has been remembered and reconstructed by survivors, nations, institutions, museums, the arts, popular culture and the media. Looking at how institutions here in Pittsburgh commemorate the holocaust will offer us local, concrete examples of how people continue to grapple with this history.

**JS 1253 - INTRODUCTION TO HOLOCAUST LITERATURE**

Minimum Credits: 3  
Maximum Credits: 3  
This course surveys the central texts of the literature of the holocaust, while introducing students to the main issues and preoccupations of holocaust testimony in literature and film.

**JS 1254 - HOLOCAUST LITERATURE AND FILM**

Minimum Credits: 3  
Maximum Credits: 3  
This course relies on primary cultural sources of the third Reich, especially film, but also literary, visual, architectural, musical, etc. To examine the parameters of Nazi culture. It will examine such diverse aspects as the leader principle, gender roles, racial hygiene, anti-Semitism, mass culture, propaganda, and visions of history. The cultural artifacts will be analyzed both in terms of their aesthetics as well as the social and historical context of their production.
JS 1256 - MODERN ISRAEL AND PALESTINE

Minimum Credits: 3
Maximum Credits: 3
We trace the history of modern Israel from the idea of the return in the second half of the 19th century through the state of Israel today.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1258 - ISRAELI AND PALESTINIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Reading literature from places of conflict provides an opportunity to go beyond headlines and gain insight into the day-to-day existence, desires, imaginings, and perspectives of the people who live there. Reading literature also reveals how religious values and practices become a part of everyday culture and how these values are embraced or challenged. This course will introduce students to the literature produced by Israeli and Palestinian authors, with a focus on how contemporary issues in Israeli and Palestinian society are depicted by writers from each culture. Topics will include: how these writers construct place; the role of religious texts in literature; conflicts and community within each society; how literature helped shape an Israeli national consciousness and a Palestinian national consciousness; how Israeli and Palestinian writers imagine the other; and the role of the Shoah in Israeli literature and the Nakba in Palestinian literature. The course will equally focus on developing students' academic and reflective writing skills. Students will produce a combination of literary analysis and self-reflective writing that uses techniques of creative nonfiction.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1259 - ISRAELI FILM AND TELEVISION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate

JS 1272 - VIENNA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
JS 1280 - MODERN AND CONTEMPORARY JEWISH THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the varieties of Jewish thought, which developed out of the 19th and 20th centuries and to the present day. After exploring the historical context of the philosophical legacy of Jewish thought, we will consider how Jewish intellectuals sought to reimagine their Jewish faith and Jewish identity in response to various concerns in the 19th and 20th centuries. Specifically, we will analyze Jewish responses to modernity and secularism, Jewish engagement with Western culture and Christianity, political theory (e.g., Marxism) and matters of social justice, Jewish feminism, and the prospect of ethics and religious faith after the Holocaust.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1295 - JEWS AND THE AMERICAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to: the prominent roles of Jews in the American cinema (as producers, directors and performers); the manner in which issues of Jewish identity (including the negative aspect of ethnic stereotypes) and topics such as anti-Semitism and the holocaust have been treated in the American cinema; and the way in which film genre intersects with issues of Jews in American film (e.g., Comedy and so-called “Jewish humor”, the appeal to Melo drama in the social problem film, etc.).

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

JS 1383 - POLITICS OF CONTEMPORARY MIDDLE EAST

Minimum Credits: 3
Maximum Credits: 3
The main emphasis of the course will be on conflict and conflict resolution in the middle east. Conflict has been a constant feature of the region since 1945. This course will be primarily concerned with how and why these conflicts are generated, escalate, become protracted, and are resolved.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: SCI Polymathic Contexts: Global&Cross Cul GE. Req.

JS 1475 - RELIGIOUS DIVERSITY

Minimum Credits: 3
Maximum Credits: 3
What is the best way to accommodate religious and cultural diversity within a nation-state and in civil society? How should individual rights to practice religion be balanced with communal needs? Should freedom from religion be protected as much or more than freedom of religion? These are pressing contemporary issues in many countries, including the United States, but issues of religious diversity and questions of whether and how to tolerate religious minorities have a long history. In this course, we will examine the toleration of minority religions in particular historical settings, and the issues and problems (both doctrinal and social/political) that societies grappled with as they confronted diverse religious landscapes. We will also use these historical precedents as a lens to examine contemporary examples of religious pluralism, diversity, and conflict. Case studies will mainly be drawn from pre-modern Europe and modern Europe and North America, but we will also look at Mughal and modern India and discuss religion in pre-modern China.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT

Minimum Credits: 3
Maximum Credits: 3
Was the world of Europe and the Middle East before the Enlightenment a period of unending religious conflict and intolerance? Were Jews the
victims of severe persecution and violence everywhere during this period? Did Christians and Muslims engage in unceasing religious wars? The answer to all three of these questions is no. While the Middle Ages were a period of conflict and competition between the three major western religious groups, they were also a time of coexistence and cooperation. This class shifts from extreme dichotomies and simplistic stereotypes to deeply examine the period in all of its complexity: what were the theological, political, and legal contexts in which Christians, Muslims, and Jews interacted in both Christian Europe and the Muslim world? How did these deeply religious societies organize themselves to tolerate the religious "Other"? When and why did toleration break down and lead to expulsion, forced conversion, or violence? What kinds of cross-cultural exchanges and cooperation take place in economic, cultural, intellectual, and social life? We will also look at new ideas of toleration (and intolerance) that emerged at the end of the Middle Ages and examine aspects of inter-religious encounters and dialogues today. We will discuss not only the significance of Jewish-Christian-Muslim interactions in the Middle Ages but also assess these encounters as a case study in the broader history of religious diversity, pluralism, and conflict.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Historical Analysis General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Soc/Behav. GE. Req., West European Studies

**JS 1645 - THE HISTORICAL JESUS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the complex and often polarized relationship between Jesus and Jews (and by extension, Christianity and Judaism) in both ancient and modern contexts. Students will interact with a wide range of primary sources centered on the figure of Jesus from the Christian gospels through rabbinic discussions of Jesus to modern portrayals of Jesus and the Jews in cinema and scholarship.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** SCI Polymathic Contexts: Soc/Behav. GE. Req.

**JS 1649 - ANTISEMITISM THEN AND NOW**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
A one credit mini-course featuring a series of lectures from faculty experts in different fields on hatred and hostility toward Jews in particular historical and geographical contexts, past and present.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Satisfactory/No Credit

**JS 1650 - APPROACHES TO ANTISEMITISM**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**JS 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Students will be introduced to the manner in which historians have studied and understood the Jewish experience from antiquity through the modern age. The role of historical study in the formation of Jewish identity will be especially highlighted.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req.

**JS 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM**
In this course, we will study the origins and development of Zionism as a form of modern Jewish nationalism, the emergence of different Zionist ideological streams, and non-Zionist, anti-Zionist, and post-Zionist views of Jews and non-Jews. We will also explore Zionism as a case study of relations of religion and nationalism in modernity. This course is an opportunity to carefully study and to contextualize writings and ideas of religious and political thinkers that have been both influential and controversial. The goal is to offer students historical background to ideas and issues of contemporary importance as well as skills in interpretation and contextualization of complex texts that continue to inform public discourse.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

JS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Internships for credit with community organizations can be arranged.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

JS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 4
Jewish Studies Certificate students write their capstone thesis under this section and should register for 3 credits. Permission of the Jewish Studies coordinator is required.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

JS 1902 - DIRECTED STUDY-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Students may undertake a variety of individual reading or research projects under the close supervision of a faculty member. Regular meetings are required. Permission of the Jewish Studies coordinator and the faculty member required.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

JS 1903 - DIRECTED RESEARCH-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Students may undertake a variety of individual research projects under the close supervision of a faculty member. Regular meetings are required. Permission of the Jewish Studies coordinator and the faculty member is required.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
**JS 1904 - UNDERGRADUATE RESEARCH ASSISTANTSHIP**

Minimum Credits: 1  
Maximum Credits: 4  
Students serve as an undergraduate teaching assistant under the supervision of a faculty member. 1-4 credits available depending on number of hours per week worked. Credits earned will be s/n only. Permission of the Jewish Studies coordinator and the faculty member is required.  
Academic Career: Undergraduate  
Course Component: Internship  
Grade Component: Satisfactory/No Credit

**JS 1905 - UNDERGRADUATE TEACHING ASSISTANT**

Minimum Credits: 1  
Maximum Credits: 4  
Students serve as an undergraduate teaching assistant in Hebrew 1 or 2 under the supervision of the language instructor. 1-4 credits available depending on number of hours per week worked. Credits earned will be s/n only. Permission of the Religious Studies DUS and the language instructor is required.  
Academic Career: Undergraduate  
Course Component: Internship  
Grade Component: Satisfactory/No Credit

**Korean**

**KOREAN 0001 - FIRST YEAR KOREAN 1**

Minimum Credits: 4  
Maximum Credits: 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Asian Studies

**KOREAN 0002 - FIRST YEAR KOREAN 2**

Minimum Credits: 4  
Maximum Credits: 4  
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: KOREAN 0001 or 1001 (MIN GRADE 'C-')  
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement

**KOREAN 0003 - SECOND YEAR KOREAN 1**

Minimum Credits: 4  
Maximum Credits: 4  
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: KOREAN 0002 or 1002; MIN GRADE: 'C-' FOR LISTED COURSES  
Course Attributes: Asian Studies
KOREAN 0004 - SECOND YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0003 or 1003; MIN GRADE: ‘C-’ FOR LISTED COURSES
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement

KOREAN 0005 - THIRD YEAR KOREAN 1

Minimum Credits: 4
Maximum Credits: 4
Students will build on previously learned material and learn increasingly complex grammar patterns and build more sophisticated vocabulary for everyday interactions in all learning skill areas: speaking, listening, reading, and writing. Will read texts that focus on Korean society and history.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0004 or 1004; MIN GRADE: ‘C-’ FOR LISTED COURSES
Course Attributes: Asian Studies

KOREAN 0006 - THIRD YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
Students will build on previously learned material and learn increasingly complex grammar patterns and build more sophisticated vocabulary suitable for everyday interactions, and apply them in all language skill areas (speaking, listening, reading, and writing). By reading texts that focus on Korean society and history, students will learn some representative aspects of Korean culture. Approximately two hours per week to develop aural/oral skills using a communicative method.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0005 or KOREAN 1005; MIN GRADE: ‘C-’ FOR LISTED COURSES
Course Attributes: Asian Studies

KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

KOREAN 0010 - SPECIAL TOPICS IN EAST ASIAN POP CULTURE

Minimum Credits: 1
Maximum Credits: 1
This mini pop-up course explores the spread of Asian pop across the world in conjunction with the Asian Studies Center's annual lecture series on Asian pop culture. This year's theme is East Asian pop: J-Pop (Japan), K-Pop (Korea) and Canto/Mando Pop (Hong Kong and China). In this course, students will track the lecture series and the issues to discuss include the global legacy of East Asian pop, the role of media and technology, popular music as an instrument of soft power, participatory fandom and international business. The course may also include some experiential learning opportunities such as dance workshop and field trip. At the end of the term, the students will write a reflection paper.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
KOREAN 0023 - KOREAN LANGUAGE: THEN AND NOW

Minimum Credits: 3
Maximum Credits: 3

The primary goal of this course is to offer a basic level linguistic and historical knowledge of the Korean language to students with no background or knowledge in Korean. Also, the course introduces the language within a broader context of culture and history of Asian languages. The course covers 1) the origin and history, 2) relationship with other Asian languages: Chinese, Japanese, and Dravidian in particular, 3) creation and development of the alphabet Han.kul, 4) sounds and their diachronic and synchronic changes, 5) basic structures and socio-cultural aspects, and 6) political and geographical dialects of the Korean language. At the end of the semester, students are expected to gain an introductory linguistic and historical knowledge of the Korean language for their further studies in the Korean language and linguistics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT

Minimum Credits: 3
Maximum Credits: 3

Intro to Korean society/culture through study of acclaimed film "Chunhy-ang, based on famous 18thc Korean literature work, providing complex window to late Korean traditional culture, literature and performing arts. Students will acquire tools to understand diversity in aspects of many cultures, as well as a changing political system. Topics include: family structure and marriage, gender issues, class system, agricultural life of Korean society, education, relations to other neighboring cultures and various forms of art expression.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS

Minimum Credits: 3
Maximum Credits: 3

Introduces Korean cinema to students in broader (and at times narrow) cultural, social, and aesthetic contexts to investigate transnational media production and circulation, globalization, consumer culture, commercialization, and construction of national, ethnic and gender identities. Through this course, students will learn more about specific issues pertaining to Korea and its people, as well as gain familiarity with some prominent film directors of Korea's. They will develop a critical and historical consciousness of Korean visual culture, assessing the worth and content of the films.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3

Students examine major Korean writers from the early 20th century to the present through identifying key thematic and formal issues in modern Korean literature and to situate them within a larger historical and cultural context.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

KOREAN 1001 - FIRST YEAR KOREAN 1

Minimum Credits: 4
Maximum Credits: 4

Academic Career: Undergraduate
Course Component: Lecture

KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course will examine and explore essential topics in Korean linguistics such as the Korean scripts and sounds, genetic affiliation, historical development, word structure, grammatical structure, discourse, honorific and speech styles, and first/second language acquisition. Upon completion of this course, students will i) understand how the Korean language developed, and what kind of relationship the Korean language has with other languages, ii) have an ability to critically analyze basic word, phrasal and sentence structures as well as discourse structures, iii) have a general understanding of how the Korean language works as a communication system.
KOREAN 1050 - FOURTH YEAR KOREAN

Minimum Credits: 3
Maximum Credits: 3
Designed to advance students to greater strengths in reading and writing skills and socio-cultural knowledge of Korean beyond high intermediate level. Students will develop skills in reading and listening to various authentic materials, and enhance speaking and writing skills to discuss issues of contemporary Korean society and culture. The goals of the course also include furthering aural comprehension of contemporary television documentaries, news and drama with decreased reliance on pedagogical aids. This course is student centered and students will develop their knowledge of Korean lexicon (including Chinese characters of Sino-Korean) and grammar through their own readings/writings and class discussions. Students will write short research papers throughout the semester. Class will be conducted in Korean exclusively, and uses a combination of lectures and discussions. Both lectures and discussions are based on assigned readings and discussion topics that will be distributed through bi-weekly schedules.

KOREAN 1051 - FOURTH YEAR KOREAN 2

Minimum Credits: 3
Maximum Credits: 3
Goals: advance students to greater strengths in reading and writing skills and socio-cultural knowledge of Korean beyond high intermediate level; develop skills in reading and listening to authentic materials; enhance speaking and writing skills to discuss issues of contemporary Korean society and culture; furthering aural comprehension of contemporary television documentaries, news and drama with decreased reliance on pedagogical aids. Course is student centered class and students will develop their knowledge of Korean lexicon (including Chinese characters of Sino-Korean) and grammar. Class will be conducted in Korean exclusively.

KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA

Minimum Credits: 3
Maximum Credits: 3
Focus on fundamental knowledge of sociolinguistics, language variations, varieties and codes of inherent sociality cultural implements. With substantial differences between eastern and Western cultures, students will study linguistic behavior and social groups, social class, effects of gender, address and reference terms, politeness strategies and style of language form used both in English and Korean in comparative study. Materials arranged to explain and evaluate the interaction of language, society and culture, the process of how people use language to construct social meaning and how those processes influence linguistic structure as well as cross-cultural communication.

KOREAN 1080 - CONTEMPORARY KOREAN CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course aims to help the students achieve in-depth understanding of major cultural developments in Korean society in the past two decades or so. To that end, this course is arranged around some questions intimately tied to recent changes in Korean society such as (re)construction and consumption of tradition, collective traumas and unfinished mourning, political activism in the postauthoritarian era, post-division imagination, the hallyu-new media nexus, sports-sexuality-nationalism, Korean cuisine, homogeneity to multiculturalism, queer Korea, Korean diaspora, and North Korea in transition. This course will examine these issues from various angles by engaging with a wide range of fields and diverse forms of texts such as literature, theater, music, cinema, TV show, new media, food, and sports. Thereby, this course seeks to help the students gain more competence in comparative and interdisciplinary analysis of our culture. Upon successful completion of this course, students will be able to:
solid knowledge of major issues in contemporary Korean culture. Demonstrate increased awareness of the diversity of human societies and cultures. Exhibit the skills of close reading, critical analysis, and interdisciplinary approach. Demonstrate the ability to identify engaging research topics, find secondary sources for those questions, and produce well-grounded and original arguments.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**KOREAN 1800 - SPECIAL TOPICS**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**KOREAN 1901 - INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 6  
Student will undertake a specific research topic regarding language, literature, or culture of Korea. Faculty will approve an independent study agreement and student will make a midterm and final report to instructor.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SU3 Elective Basis  
**Course Attributes:** Asian Studies

**KOREAN 1906 - KOREAN INTERNSHIP**

Minimum Credits: 1  
Maximum Credits: 3  
This course places the student in a work setting where they can gain practical experience in a supervised training environment.  
**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** LG/SNC Elective Basis

**Latin**

**LATIN 0011 - BEGINNING LATIN 1**

Minimum Credits: 5  
Maximum Credits: 5  
This course is the first half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Medieval & Renaissance Studies

**LATIN 0021 - BEGINNING LATIN 2**

Minimum Credits: 5  
Maximum Credits: 5  
This course is the second half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LATIN 0011  
**Course Attributes:** DSAS Second Language General Ed. Requirement, Medieval & Renaissance Studies
LATIN 0101 - BEGINNING LATIN 1

Minimum Credits: 4  
Maximum Credits: 4
An introduction to the sounds, vocabulary and basic grammatical structures of the Latin language. Students will begin to develop a competence in reading the language through textbook drills as well as Latin stories illustrating the Roman way of life. Please note that this course will be a hybrid of three 50-minute scheduled in-class meetings and a fourth 50-minute session to be completed by students working independently, either online at home, or though taking exams at the University Testing Center. Classroom time will generally center around instructor introduction of new material and some rudimentary work with said new material. In the online session, students will then complete more advanced exercises related to introduced material; take quizzes/exams; or complete group assignments. All online work will take place on Pitt supported applications (notably CourseWeb), or free platforms (e.g., Quizlet; TopHat; Centaur Education Software) or websites.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

LATIN 0102 - BEGINNING LATIN 2

Minimum Credits: 4  
Maximum Credits: 4

LATIN 0210 - INTERMEDIATE LATIN: PROSE

Minimum Credits: 3  
Maximum Credits: 3
In this course students consolidate their grasp of Latin grammar and develop their skills of comprehension through close reading of selected prose texts, most usually drawn from Caesar and Cicero.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: LATIN 0101 or equivalent with a minimum grade of C-

Course Attributes: DSAS Second Language General Ed. Requirement

LATIN 0220 - INTERMEDIATE LATIN: VERSE

Minimum Credits: 3  
Maximum Credits: 3
In this course students are introduced to Latin verse through close reading of selected portions of Virgil's Aeneid.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: LATIN 0210

Course Attributes: Medieval & Renaissance Studies, West European Studies

LATIN 1011 - BEGINNING LATIN 1

Minimum Credits: 5  
Maximum Credits: 5
This course is the first half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.

Academic Career: Undergraduate  
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Medieval & Renaissance Studies

LATIN 1021 - BEGINNING LATIN 2

Minimum Credits: 5
Maximum Credits: 5
This course is the second half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Second Language General Ed. Requirement, Medieval & Renaissance Studies

LATIN 1032 - MEDIEVAL LATIN AUTHORS 2

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by medieval Latin authors. The specific authors and works vary from term to term.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 or 0220

LATIN 1033 - MEDIEVAL LATIN AUTHORS 2: WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
This is the writing practicum for the course medieval Latin authors 2.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 0210 or 0220, and ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFML 0210 or FP (0003 or 0006)
Course Attributes: Writing Intensive Course (WRIT)

LATIN 1300 - LATIN AUTHORS 1

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman authors. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220
Course Attributes: Medieval & Renaissance Studies, West European Studies

LATIN 1301 - LATIN AUTHORS 1: WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking Latin 1300 as a writing course.
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220; and PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFML 0210 or FP (0003 or 0006)
Course Attributes: Medieval & Renaissance Studies, West European Studies, Writing Requirement Course

LATIN 1302 - LATIN AUTHORS 2
Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman authors. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220
Course Attributes: Medieval & Renaissance Studies, West European Studies

LATIN 1303 - LATIN AUTHORS 2: WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking Latin 1302 as a writing course.
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220, and PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Medieval & Renaissance Studies, Writing Requirement Course

LATIN 1400 - ADVANCED READINGS IN LATIN EPIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman epic poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 0220 or Equivalent (consult department)

LATIN 1402 - ADV READINGS IN LATIN DRAMA

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman dramatists. The specific authors and works read vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 0220

LATIN 1406 - ADVANCED READINGS IN LATIN LYRIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman lyric poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 0220

LATIN 1416 - ADVANCED READINGS IN LATIN HISTORIANS

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman historians. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Latin 1420 - Advanced Readings in Latin Philosophy

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman philosophers. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: Latin 1300 or 1302

Latin 1430 - Special Topics in Latin Literature

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected Greek texts. The course may be repeated for credit provided the specific material covered is different.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: Latin 0220

Latin 1800 - Honors Course/Majors

Minimum Credits: 3
Maximum Credits: 3
In this course undergraduate majors in classics who wish to graduate with honors (and are otherwise qualified) write an honors paper, usually in conjunction with a Latin reading course at the 1300 or 1400 level.
Academic Career: Undergraduate
Course Component: Thesis Research
Grade Component: Satisfactory/No Credit
Course Attributes: Medieval & Renaissance Studies

Latin 1901 - Independent Study

Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes independent study in Latin in consultation with a member of the faculty.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

Latin 1902 - Directed Study for Undergrads

Minimum Credits: 1
Maximum Credits: 6
In this course a student undertakes directed study in Latin under the close guidance of a member of the faculty.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Latin 1903 - Directed Research for Undergrads

Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes directed research in the field of classical civilization under the close guidance of a member of the faculty.
Academic Career: Undergraduate
Course Component: Directed Studies
LATIN 1904 - UNDERGRADUATE RESEARCH ASSISTANT

Minimum Credits: 1  
Maximum Credits: 3  
This course enables advanced majors to receive academic credit for serving as assistants to faculty members who are conducting research projects (e.g., compiling bibliography for a new class, preparing a work for publication, creating a conference presentation). This collaborative project will result in a meaningful experience that will provide the student with a foundation in the mechanics of research and publication. Given the variable aspects of this learning experience, there is not official syllabus. However, students and faculty who participate in this course are required to submit a signed contract prior to the start of the semester in which the assistantship will occur. This contract is subject to the approval of the undergraduate committee.

Academic Career: Undergraduate  
Course Component: Practicum  
Grade Component: Satisfactory/No Credit

LATIN 1990 - UNDERGRADUATE TEACHING ASSISTSHIP IN LATIN

Minimum Credits: 1  
Maximum Credits: 5  
This course allows students to earn credits for serving as undergraduate teaching assistants in courses listed under the 'Latin' subject code. Admission requires permission of the department chair. Students may repeat for credit.

Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: Letter Grade

Leadership

LDRSHP 1100 - THEORIES OF LEADERSHIP

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to acquaint students with multiple theories and practices associated with effective leadership. In answering the question, “what is leadership,” it examines such theories as situational, participative, transformational, and servant leadership. It also addresses those leadership and administrative skills and practices usually associated with effective community organization and professional management.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

LDRSHP 1200 - LEADERSHIP SEMINAR

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to develop in students an understanding of the conceptual and practical strategies of leadership. Through the use of readings, in-class activities and guest presenters, students are exposed to four factors that play a role in the development or modification of a leader. These include: appreciation of the concept of organizational life; understanding the process of change; comprehending the impact of leadership style, delivery, and strategy; and finally, developing an awareness of individual strengths and weaknesses and how to most effectively match individual style to the leadership process. The course is required of all students pursuing the Undergraduate certificate in leadership. Students should have successfully completed both the emerging leaders program and the theories of leadership course prior to registering.

Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LDRSHP 1100 or PUBSRV 1390

Legal Studies

LEGLST 0020 - PUBLIC LAW AND MORAL REASONING
The course is designed to provide the intellectual tools to analyze moral and legal dilemmas which face professionals in their respective fields of work, and the society in which all of us must live. The course will help students to develop the skill of moral reasoning so that they may better identify, analyze, deliberate, and resolve moral dilemmas.

**LEGLST 0080 - INTRODUCTION TO LEGAL STUDIES**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- Provides students with an overview of the structure and operation of American law and legal systems. Offers examples of the type of topics treated in depth in substantive legal studies courses. Introduces the student to the nature, functions, limitations, and operations of law as an institution in modern society. Various jurisprudential approaches are examined, and selected problems of law, power, morality and social and economic stratification are studied. Heavy emphasis is placed on the institution. Various empirical studies of the law in action will be examined.

**LEGLST 1140 - INTRODUCTION TO CRIMINAL LAW**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- Acquaints the student with basic principles of criminal law derived from our English common law heritage and from more recent statutory penal code revisions in the American states. Course examines the meaning of crime and of criminal responsibility; criminal complicity and conspiracy; sentencing alternatives; and the decriminalization of some offenses.

**LEGLST 1141 - INTRODUCTION TO CRIMINAL PROCEDURE**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course examines the procedural effects of criminal law, including constitutional rights, state criminal procedure, and appellate decisions and rules.

**LEGLST 1150 - LAWYERS AND LEGAL PROFESSION**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course offers a multi-disciplinary examination of lawyers and their role in society, with an emphasis on the relationship of lawyers to courts, judges, clients, and other lawyers. Topics to be covered in the course include: the philosophy of advocacy, the psychological and ethical aspects of practicing law, the role of law schools in the creation of professional identity, societal attitudes towards lawyers and the legal system, the involvement of lawyers in government, politics, and policy making, and evolving concepts of legal practice.

**LEGLST 1152 - LEGAL ISSUES IN PUBLIC SERVICE**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course examines the impact of law on public administration and manner in which legal implications condition formulation, adoption, and the implementation of programs.
LEGLST 1155 - LAW AND SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
This course investigates the interrelationships between change in society and change in legal rules. Legal change is studied as an outcome of social change; directed social change as a result of legal change, or social engineering, is also examined; and the mutual ongoing interactions between legal and social change are investigated. Classical and contemporary theories related to these areas are introduced.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1210 - LAW AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines the relationships between law and values, law and power, law and discretion. The nature of legal reasoning is illustrated and analyzed as it is applied to statutory law, case law, and constitutional law.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1230 - PSYCHOLOGY AND LAW

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the contributions of psychiatry and psychology to the legal process. The role of the psychology expert in criminal proceedings, the problem of criminal insanity, the process of civil commitment, and the rights of those deemed to be mentally ill, are among topics to be examined. Students will be asked to read and analyze legal cases and scholarly discussions of these and other related issues. Actual observance of relevant courtroom proceedings will be arranged.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1260 - LAW, LITERATURE, AND CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the student to literary treatments of basic issues of law and justice. Through an examination of plays, novels, essays, and short stories, the student will be able to see competing conceptions of law, justice, and morality. Legal themes as they appear in literature can then be used to analyze and evaluate selected areas of civil and criminal law.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1315 - SEX, LAW AND MARRIAGE

Minimum Credits: 3
Maximum Credits: 3
Surveys the socio-legal aspects of marriage, marital alternatives, and related modes of sexual expression. Laws in these areas have been changing dramatically, reflecting, if not causing, fundamental shifts in the values and norms surrounding intimate behavior. The following topics are covered: ceremonialized marriage, commonlaw marriage, "open" marriage, "contract" marriage, homosexual and transsexual "marriage", unwed cohabitation, annulment, separation, divorce, artificial insemination, test tube fertilization, abortion, illegitimacy, alimony and property settlements.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1318 - SEPARATION, DIVORCE AND CUSTODY
A structural analysis of the causes and consequences of divorce. The process of divorce in its various psychological, legal, economic and social components is examined. The impact of divorce on the spouses, children and relatives is discussed.

**LEGLST 1320 - LAW AND ENVIRONMENT**

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces the student to the role of law in regulating environmental pollution. Included will be an examination of water pollution, air pollution and noise pollution. Major federal statutes such as the national environmental protection act, and the Clean Air Act will be studied along with judicial and administrative cases and rules governing these areas. Emphasis will be upon the interaction of law, politics, economics and psychology in environment control.

**LEGLST 1325 - CONSUMER LAW**

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces students to the laws governing their rights as consumers. The evolution of consumer rights is traced from the common law to our present statutes. Students are introduced to state and federal laws, among them: truth in lending act, fair debt collection practices act, fair credit reporting act, equal credit opportunity act, unfair trade practices and consumer protection law and auto mobile lemon law.

**LEGLST 1327 - INTERNATIONAL LAW**

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on the nature of international law and how it differs from law within states. Topics covered include the following: treaties, enforcement mechanisms, international courts, human rights issues, the law of war, and international law of the environment, and prospects for the future of international law.

**LEGLST 1340 - INTRODUCTION TO CIVIL RIGHTS**

Minimum Credits: 3  
Maximum Credits: 3  
The individual rights protected by the bill of rights form the basis for this course. Specifically, the right to privacy, sexual equality, educational equality, religious freedom, and issues surrounding freedom of the press will be studied. In addition, the civil rights of specific groups including students, blacks, Indians, poor people, mental patients, members of the armed forces, teachers and public officials will be analyzed.

**LEGLST 1355 - EMERGING ISSUES IN LEGAL AND SOCIAL POLICY**

Minimum Credits: 3  
Maximum Credits: 3  
This course explores several issues with which the law is now wrestling. Topics explored include assisted reproductive technologies, assisted suicide and right to die movements, intellectual property in the internet age, immigration law, environmental and climate change, same-sex marriage, aids law, freedom of expression and advanced communication technologies, international law and universal jurisdiction, and the future of American law. With all of these topics, we will explore how the law struggles to keep pace with advances in science and technology, as well as how the law reacts to
LEGLST 1410 - INTRODUCTION TO LEGAL RESEARCH

Minimum Credits: 3
Maximum Credits: 3
Deals with the development of law library research skills and some basic research skills in the social sciences. It provides the students with an understanding of the law library and will assist in developing research skills through the use of primary and secondary sources of the law. The student will become familiar with the use of the University of Pittsburgh libraries and the paralegal law library collection.

LEGLST 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
Course is supervised placement with specific agency or firm in some part of the legal system.

LEGLST 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Allows advanced students to pursue topics and research of special interest which are not otherwise available. Course requires construction of plan of study of research on topics selected and approval of instructor who will supervise work.

Less Commonly Taught Languages

LCTL 0101 - FOREIGN LANGUAGE 1

Minimum Credits: 4
Maximum Credits: 4
This course will help students learn to understand, and to express themselves creatively in both spoken and written **Language**. They will acquire basic knowledge of everyday **Language** and of the country and culture of **Country**. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in **Language** grammar, writing, listening and reading comprehension skills. Students will be expected to memorize vocabulary and utilize it in both speech and writing.

LCTL 0102 - FOREIGN LANGUAGE 2

Minimum Credits: 4
Maximum Credits: 4
This course will help students learn to understand, and to express themselves creatively in both spoken and written **Language**. They will acquire basic knowledge of everyday **Language** and of the country and culture of **Country**. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in **Language** grammar, writing, listening and reading comprehension skills. Students will be expected to memorize vocabulary and utilize it in both speech and writing.
Grade Component: LG/SN Elective Basis
Course Requirements: PREQ: LCTL 0101; MIN GRADE 'C'

**LCTL 0103 - FOREIGN LANGUAGE 3**

Minimum Credits: 3
Maximum Credits: 3
This course will help students learn to understand, and to express themselves creatively in both spoken and written **Language**. They will acquire basic knowledge of everyday **Language** and of the country and culture of **Country**. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in **Language** grammar, writing, listening and reading comprehension skills. Students will be expected to memorize vocabulary and utilize it in both speech and writing.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LCTL 0102; MIN GRADE: 'C'

**LCTL 0104 - FOREIGN LANGUAGE 4**

Minimum Credits: 3
Maximum Credits: 3
This course will help students learn to understand, and to express themselves creatively in both spoken and written **Language**. They will acquire basic knowledge of everyday **Language** and of the country and culture of **Country**. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in **Language** grammar, writing, listening and reading comprehension skills. Students will be expected to memorize vocabulary and utilize it in both speech and writing.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LCTL 0103; MIN GRADE: 'C'

**LCTL 0111 - INTRODUCTION TO FOREIGN LANGUAGE ABROAD**

Minimum Credits: 3
Maximum Credits: 3
This course offers an introduction to the target language together with hands-on experiential learning activities such as role-plays, quizzes, out-of-classroom activities and target language partners. Students that have no previous knowledge of the target language will learn basic vocabulary, grammar and pronunciation in order to be able to do grocery shopping, order food, ride on public transportation, conduct small talk with the local population, etc. The course also focuses on teaching students culture-specific vocabulary and concepts in order to improve understanding of the target culture. This course is an introductory course only and will not replace level 1 foreign language taught at Pitt.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**LCTL 0112 - CONTINUING FOREIGN LANGUAGE ABROAD**

Minimum Credits: 3
Maximum Credits: 3
The content of this course will vary based on students' prior experience with the language.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**LCTL 0161 - AMHARIC 1**

Minimum Credits: 4
Maximum Credits: 4
This course will help you learn to understand, and to express yourself creatively in both spoken and written Amharic. You will acquire basic knowledge of everyday Amharic and of the country and culture of Ethiopia. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in Amharic grammar, writing, listening and reading comprehension skills. You will be expected to memorize vocabulary and utilize it in both speech and writing. In this course, you will learn the following thematic / cultural and grammatical topics: Thematic and Cultural Topics; Social interaction; Introducing oneself; Family members and housing; Activities and personal information; Foods; Time; Traveling; Holidays & Ceremonies; Daily routine; Nature Grammar Topics: Amharic alphabet & pronunciation; Pronouns & Indirect subjects; Verbs, Plural marker; Description & comparison; Subordinate Clauses; Preposition; Expressions
LCTL 0231 - DANISH 1

Minimum Credits: 4  
Maximum Credits: 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.

LCTL 0232 - DANISH 2

Minimum Credits: 4  
Maximum Credits: 4  
This course will help you learn to understand, and to express yourself creatively in both spoken and written Danish. You will acquire basic knowledge of everyday Danish and of the country and culture of Denmark. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in Danish grammar, writing, listening and reading comprehension skills. You will be expected to memorize vocabulary and utilize it in both speech and writing.

LCTL 0351 - HAITIAN CREOLE 1

Minimum Credits: 4  
Maximum Credits: 4  
This course will help you learn to understand, and to express yourself creatively in both spoken and written Haitian Creole. You will acquire basic knowledge of everyday Haitian Creole and of the country and culture of Haiti. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in Haitian Creole grammar, writing, listening and reading comprehension skills. You will be expected to memorize vocabulary and utilize it in both speech and writing.

LCTL 1901 - LANGUAGE INDEPENDENT STUDY

Minimum Credits: 1  
Maximum Credits: 9  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis

LCTL 1905 - UNDERGRADUATE LANGUAGE TEACHING ASSISTANT

Minimum Credits: 1  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: Satisfactory/No Credit

LCTL 1909 - TOPICS IN LANGUAGE STUDY
Linguistics

LING 0007 - ESL WRITING INTERMEDIATE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

This is an intermediate writing skills course for non-native speakers of English, covering (a) the process and mechanics of writing a research paper (b) composition writing, with a focus on expository writing for college work (c) selected grammar skills.

LING 0008 - ESL SPEAKING AND LISTENING

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

This is an advanced conversation course for non-native speakers of English to improve speaking and listening skills while gaining experience in the organization and oral presentation of material for academic work. Pronunciation exercises are done in class, while fluency and comprehensibility are the objectives of the student led discussions and presentations. The student will also learn how to prepare and present speeches and discussions. Notetaking skills are practiced. Some language lab work is required.

LING 0009 - ESL WRITING ADVANCED

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit

This course is intended for foreign students who need work on advanced composition skills in English covering (a) the process and mechanics of writing a research paper (b) composition writing, with a focus on expository writing for college work (c) selected grammar skills.

LING 0010 - ESL READING AND VOCABULARY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

This is an advanced reading skills course for non-native speakers of English, emphasizing the type of reading required in University-level course work. The course includes intensive reading of passages from the course text, extensive reading of academic or other material selected by the student or instructor, speed improvement and vocabulary development.

LING 0232 - DANISH 2

Minimum Credits: 4
Maximum Credits: 4
Academic Career: Undergraduate

This course will help you learn to understand, and to express yourself creatively in both spoken and written Danish. You will acquire basic knowledge of everyday Danish and of the country and culture of Denmark. We will focus on building communicative competence and conversational proficiency, while simultaneously building a solid foundation in Danish grammar, writing, listening and reading comprehension skills. You will be expected to memorize vocabulary and utilize it in both speech and writing.
LING 1000 - INTRODUCTION TO LINGUISTICS

Minimum Credits: 3  
Maximum Credits: 3  
This course is a survey of general linguistics, emphasizing the theory and methodology of the traditional central areas of the field—phonetics, phonology, morphology, and syntax—with special concentration on phonological and syntactic theories and analytical techniques. The remainder of the course will be devoted to phonetics, morphology, historical linguistics, semantics and pragmatics, sociolinguistics, and psycholinguistics. 
Academic Career: Undergraduate

LING 1023 - ASPECTS OF THE KOREAN LANGUAGE

Minimum Credits: 3  
Maximum Credits: 3  
This course will examine and explore essential topics in Korean linguistics such as the Korean scripts and sounds, genetic affiliation, historical development, word structure, grammatical structure, discourse, honorific and speech styles, and first/second language acquisition. Upon completion of this course, students will i) understand how the Korean language developed, and what kind of relationship the Korean language has with other languages, ii) have an ability to critically analyze basic word, phrasal and sentence structures as well as discourse structures, iii) have a general understanding of how the Korean language works as a communication system. 
Academic Career: Undergraduate

LING 1025 - ASPECTS OF THE CHINESE LANGUAGE

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate

LING 1027 - TOPICS ON CHINESE AS A SECOND LANGUAGE

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate

LING 1050 - COMPUTATIONAL METHODS IN THE HUMANITIES

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate

LING 1060 - LANGUAGE AND SOCIETY IN KOREA

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate
LING 1095 - LANGUAGE IN SCIENCE FICTION

Minimum Credits: 3
Maximum Credits: 3
If representatives from an alien species appeared on earth from outer space, how would we communicate with them? What if they were not organic creatures, but were instead machines? What would an alien species sound like? What kinds of changes will happen to languages over the next several centuries? Science fiction tropes like aliens, robots, and time travel richly reward linguistic investigation. In this class, we will apply current linguistic theory to various works of science fiction, asking first and foremost: "How linguistically plausible are the scenarios, tropes, and narratives depicted here?"
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1235 - LANGUAGE, GENDER AND SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
The course considers the ways in which linguistic patterns are sensitive to the social categories of gender and sexuality, including intersectional categories such as race, class, and age, and the role of power and privilege in these patterns. The main questions considered are: How does language categorize the gender/sexuality world in both grammar and interaction? How do speakers display, create, and orient to gender, sexuality, and desire in interaction? How and why do people display different ways of speaking based on their gender/sexual identities?
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Social Science General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Soc/Behav. GE. Req., Writing Intensive Course (WRIT)

LING 1240 - LANGUAGE AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
This course explores some of the ways in which linguistic science can shed light on the use and misuse of language in the legal system. After an introduction to the origins and special characteristics of written English legal language ("legalese"), we will study the layman's (non-) understanding of technical legal language; the language of persuasion (e.g. Exploitation of such linguistic features of ambiguity, implicit "rules of conversation" and socially stigmatized dialect features); and arguments for and against the participation of linguists as expert witnesses in the courtroom.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1250 - HISTORY OF LANGUAGE IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: SCI Polymathic Contexts: Soc/Behav. GE. Req.

LING 1253 - LANGUAGE AND THE BLACK EXPERIENCE

Minimum Credits: 3
Maximum Credits: 3
English colonial expansion and pursuit of trade during the seventeenth to nineteenth centuries gave rise to a wide array of language varieties, among them the pidgin and creole varieties that arose in the plantation colonies of the Atlantic, Pacific and the Americas. In this course, we examine the languages of enslaved Africans as they are reanalyzed/reformed in these new contexts. We will confront and challenge 'common sense'
beliefs/ideologies about language, race, education, and power. In particular, we will: examine of the structure, history and use of Afro-American language varieties; take a close look at the history and symbolic role of language in the lives of Blacks; examine how people’s sociocultural experience is reflected in language; examine the relationships between language and social life in the African-American and Caribbean communities; and consider implications of language differences for social and educational opportunities.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**LING 1263 - CROSS-CULTURAL COMMUNICATION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed for those planning to work or live in a situation which serves as an interface between two or more cultural groups, and also for those who are interested in matters of language and culture. The curriculum deals with aspects of culture as they interact with language, and specific topics (e.g. Dialects; language in situations of cultural contact; and the implications of cross cultural communication differences for education policy).

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Asian Studies, Global Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**LING 1267 - ASPECTS OF SOCIOLINGUISTICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Aims at providing insights into how social relationships influence language, and how language can play a role in shaping social relationships, both in the individual and societal level. Some of the issues we will look at are; attitudes towards languages, dialects and society; social differentiations of language; black English; multilingualism; bilingual education and language planning.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: ENG 0102 or ENGCMP (0002 or 0020 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
**Course Attributes:** DSAS Social Science General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Soc/Behav. GE. Req., Writing Requirement Course

**LING 1269 - LINGUISTIC VARIATION AND CHANGE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**LING 1330 - INTRODUCTION TO COMPUTATIONAL LINGUISTICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This is a course designed to introduce students in linguistics to the foundations and real-world applications of computational linguistics. Students will learn how core aspects of human language; words, morphology, grammar, and meaning; are represented and processed computationally. They will also be introduced to the challenges of real-world language engineering problems and discover how the latest language technologies and artificial intelligence systems seek to solve them. Many practical applications will be covered: search, document classification, spell checking, machine translation, corpus exploration, and more. Throughout the course, there will be a big emphasis on hands-on training; students will work extensively with popular natural language processing platforms. NOTE: The Python prerequisite (CS 8, 10-12) can be waived upon proof of Python knowledge. Please email the instructor.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 and CS (0008 or 0010 or 0011 or 0012) with grade of B or better

**LING 1340 - DATA SCIENCE FOR LINGUISTS**
Data science is a fast-growing professional and academic discipline that is highly interdisciplinary in nature. Its practice centers on domain expertise: this course will introduce linguistics majors to core methods and practices in data science as it pertains to linguistic inquiry. Students will first learn the fundamentals of structuring, manipulating and sharing various forms of linguistic data; be given hands-on training on practical aspects of data processing, including handling large quantities of text data ('big data') and creating statistical language models through machine learning; and get acquainted with the emerging field of knowledge engineering and ontology. Additionally, they will be given a chance to apply data-intensive methods to a term project of their choice. Upon successful completion of this course, students will be able to: identify the best methods for representing and analyzing linguistic data for a given purpose; transform and process linguistic data in large volumes; and understand how statistics-driven text analytics and machine learning methods operate.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 and (LING 1330 or CS 0008 or 0155)

LING 1441 - FIELD METHODS IN LINGUISTICS

Minimum Credits: 3
Maximum Credits: 4
This course is meant to simulate the experience of linguistic field work, and raise awareness about the effectiveness of specific interview techniques for acquiring linguistic data. The course will give instruction and experience in eliciting data from a speaker of non (indo) European language. Students will undertake the investigation of the phonology, some aspect of grammar, and the ethno semantic study of a taxonomically structured semantic field such as plants or animals. Students will make detailed elicitation plans in advance of their administration.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 1578 and 1773 and 1777; LVL: Sr

LING 1447 - LANGUAGE, CULTURE AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Certain cultural concerns are well-labeled linguistically: kinship, plant-names, diseases, colors, etc. The study of how such semantic fields are labeled and organized is ethnosemantics. Much of the way language is used depends on the context of speaking. Different ways of talking to different people is the subject matter of sociolinguistics. Some thoughts that we habitually think seem illogical on reflection, but it seems as if our language predisposes us to think this way. Such phenomena are addressed by the sapir-whorf hypothesis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

LING 1470 - ENDANGERED LANGUAGES

Minimum Credits: 3
Maximum Credits: 3
In this course, we investigate such questions as: What are the symptoms and underlying causes of language endangerment and language death? Are efforts to revitalize dying languages worthwhile, or is the disappearance of languages inevitable or even beneficial? How are thought, identity, and culture influenced by language, and vice versa -- and what implications does the answer to that question have for language documentation and revitalization?

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1520 - INTRODUCTION TO ARABIC LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
In the first half of this course, students will learn about the linguistic structure of modern standard Arabic and related dialects with a special focus on the phonology, morphology and syntax. Material in the second half of the course will focus primarily on social issues related to the Arabic language including discourse, dialectology and language variation, diglossia and language contact.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020
LING 1578 - PHONETICS AND PHONEMICS

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an introduction to the production, recognition, and transcription of speech sounds in various languages of the world, and to the patterning of these sounds in phonological systems. Emphasis is on articulatory phonetics, though there is also some discussion of acoustic and experimental phonetics.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'

LING 1579 - PHONOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces the principles of phonological analysis and theory. After a brief survey of the roots of modern phonology in Prague school and American descriptivist ('classical phonemic') theories, the main focus of the course will be on generative phonology. Both in and out of class, students will be expected to solve phonological problems and construct theoretical arguments.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 1578 or CSD 1026

LING 1580 - LANGUAGE AND THE MIND

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces students to the study of language as a cognitive science, focusing on the mental representations of the sounds of speech. Throughout the course we will emphasize the scientific methods used by researchers to investigate questions about the sounds of language. Because this course is multidisciplinary in nature, drawing primarily from the fields of linguistics and psychology, students will be introduced to the different methods, techniques, and technologies used by researchers in both fields.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 1000 or PSY 0010 or CSD 1020

LING 1650 - ACQUISITION OF VARIATION

Minimum Credits: 3  
Maximum Credits: 3  
Upon completion of this course, students will: understand how variationist theory accounts for second language acquisition (SLA); develop a knowledge of variationist theory in order to be able to evaluate critically empirical research; be able to write a successful academic abstract; present empirical articles and original projects with clarity and to create an academic handout; apply the theoretical and methodological concepts covered in class to an original final project, which includes the creation of an elicitation task; and, develop professionally.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 1000 and (LING 1578 or 1579 or 1773 or 1777 or 1873 or 1877 or 1878 or 1879)

LING 1682 - INTRODUCTION TO SEMANTIC THEORY

Minimum Credits: 3  
Maximum Credits: 3  
A survey course designed to introduce students who have been exposed to linguistics and logic to contemporary work in the theory of meaning.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1720 - STRUCTURE OF SIGN LANGUAGES
This course will focus on the linguistic structure of sign languages, drawing examples principally, though not exclusively, from American sign language (ASL). It will also highlight similarities and differences between sign languages and spoken languages. In addition to structural features, the course will cover mechanisms unique to visual/spatial languages, the use of the face and body for grammatical signals, language variation, and acquisition of sign languages.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 or CSD 1020

**LING 1721 - SOCIOLINGUISTICS OF SIGN LANGUAGE**

Minimum Credits: 3  
Maximum Credits: 3  
There are various sociolinguistic topics that one must consider with respect to signed languages of the deaf. Regarding language contact, ambient languages—either signed or spoken—influence a signed language. Less than 10% of deaf people are exposed to signed language from birth, which results in unique phenomena. Additionally, signed languages exhibit variation based on a myriad of social and geographical factors. These topics, in addition to language planning and language policy, will be addressed in this course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 or CSD 1020

**LING 1738 - LINGUISTIC STRUCTURES OF ENGLISH**

Minimum Credits: 3  
Maximum Credits: 3  
This course is a survey of phonological, morphological, and syntactic structures of English, with an emphasis on its typologically unusual characteristics. The course will cover how English words, phrases, and sentences are put together, as well as current and historical trends that have led to English as it is used today. We will also address differences between prescriptive rules of how English "should be", and descriptive generalizations about how English actually is. Lecture format with class discussion.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000

**LING 1773 - MORPHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
Morphology, the study of words, is interrelated with the syntax, the phonology, the lexicon, and semantics. The purpose of this course is to develop operational competence, through problem solving and discussion, in the major aspects of morphological theory. Theoretical issues to be addressed will include lexical phonology, prosodic morphology, morphology and logical form, morphology and valence alternations.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'  
**Course Attributes:** Global Studies, Latin American Studies

**LING 1777 - SYNTACTIC THEORY**

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introduction, stressing understanding of theoretical concepts, to the transformational generative approach to English sentence structure. This approach uses formal rules to produce sentences, and to explain how they are composed of phrases. The first part of the course concentrates on mechanical manipulation of systems of rules, aiming to acquaint the student with how the rules work. The second part concentrates on how syntacticians use evidence about a language to support or disconfirm their theories.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'
LING 1800 - SPECIAL TOPICS IN LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1810 - STATISTICS FOR RESEARCH IN LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
The first goal of this course is to familiarize students with the major statistical tests, analysis strategies, and plotting conventions that are currently considered best practices in linguistics. The course accomplish these goals through a combination of reading (both of textbook chapters and empirical articles), in-class demos and hands-on practice, and homework exercises. The second goal is to make students comfortable using the R programming language for statistical computing. Assuming absolutely no prior background in statistics or programming, we will work from the ground up to turn you into a novice but proficient statistical programmer; by the end of this course, you will be able to read in your own data, perform basic data reformatting and summary calculations, and conduct a wide variety of statistical analyses' all in R! The final goal is to get students thinking about how they can apply their new skills to their own research. In service of this goal, you will be required to write a short research paper that describes a data set you would like to work with, and that explains the statistical analyses you would perform in order to answer a small number of questions that are of interest to you.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 (MIN GRADE 'B'); PLAN: Linguistics

LING 1820 - LINGUISTICS IN THE LAB

Minimum Credits: 3
Maximum Credits: 3
This course is a bit different from other linguistics courses in that it is not focused on a particular subject area of linguistics, but rather an approach to doing linguistics: our goal is to learn how to think about, design, and implement a basic experiment. We will touch on a variety of topics that will be familiar from other courses: semantic representations, phonemic categories, sociolinguistic identity and stereotyping, and syntactic constituency. Satisfies the methods requirement for the major.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

LING 1844 - RESEARCH METHODS

Minimum Credits: 3
Maximum Credits: 3
Upon successful completion of this course, students will have a broad knowledge of the theoretical, philosophical, ethical, and practical issues of, and possibilities for, researching language in the field of linguistics. In addition to being able to evaluate the methods used in linguistics research, students will be able to choose the proper methods for their own studies and be able to articulate the reasons for choosing that methods or those methods. They will be able to design the broad outlines of the study and where and how to discover resources to fully develop those methods. They will also be able to coordinate the practical aspects of a study, such as participant recruitment, data management, and Institutional Review Board (IRB) approvals. The main goal for this course is that when students are given some linguistic question or problem, they have the experience and ability to think through appropriate research methods in order to answer such a question.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1860 - INTRO TO HISTORICAL LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
A survey of the principles and methods of historical linguistics; practice in the basic techniques of historical linguistic research. The major topics to be studied are the analysis of sound change, analogic change, contact-induced language change, the relationship between variation (regional and social) and language change, the comparative method, and internal reconstruction.
Academic Career: Undergraduate
LING 1873 - ACCELERATED MORPHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Students in this course will: understand and define relevant concepts used to discuss morphology; explore the theoretical description of morphology; develop the ability to organize linguistic data as a first step in analysis / to apply key concepts to linguistic problems and original data; analyze complex words in languages other than English and determine the meanings of the parts; describe simply and appropriately how the derivational and/or inflectional morphemes behave in a particular language problem; compare competing analyses and provide justification for selecting one analysis over another; and, apply knowledge of morphology in reading empirical research with a critical eye, including articles that focus on a range of languages (i.e., Dutch, English, French, Frisian, German, Hungarian, Russian, Spanish, Swahili) and morphological phenomena (e.g., compounding, diminutivization, grammatical gender, number, mood, prefixation, etc.)

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1578 and 1773; Course Attributes: Global Studies

LING 1877 - ACCELERATED SYNTACTIC THEORY

Minimum Credits: 3
Maximum Credits: 3
This course will familiarize students with theoretical approaches in classic Principles and Parameters theory and the application of these approaches to some of the defining syntactic structures of English. Students will gain: knowledge of syntactic argumentation, how evidence from data is used incrementally to argue for and against theoretical proposals; the ability to apply syntactic theory to structures in languages other than English; and, insight into alternative approaches to syntactic theory.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020 (MIN GRADE A-); CUM GPA >/= 3.25; PLAN: Linguistics (BA)

LING 1878 - ACCELERATED PHONETICS AND PHONEMICS

Minimum Credits: 3
Maximum Credits: 3
In this course, students will acquire the conceptual framework and the practical skills to do further work in phonetics and phonology. Students will learn about: what a sound system is; which questions drive research on speech sounds; acoustics, the acoustic signal, and how it can be represented visually and measured; the acoustics of speech production and acoustics in relation to hearing and perception; and acoustic descriptions of sounds. At the end of the course, students will study articulatory phonetics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020 (MIN GRADE A-); CUM GPA: 3.25; PLAN: Linguistics (BA)

LING 1879 - ACCELERATED PHONOLOGY

Minimum Credits: 3
Maximum Credits: 3
Phonology is the study of how sounds pattern in the languages of the world. Using this definition, students will try to understand what exactly people are doing when they study phonology. The course will be divided up into two main sections: In the first section, students will learn about the main concepts and analysis techniques that have traditionally formed the backbone of phonology. The focus will be on how to perform a formal phonological analysis and make a phonological argument. In the second section of the course, the focus will shift toward understanding how and why the field of phonology has evolved over time, in terms of both its subject matter and its methods. Students will work through some of the seminal texts in phonological theory and try to understand what each theory does well versus poorly. This course will help students to become better, more critical thinkers and writers.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020 (MIN GRADE A-); and (LING 1578 or 1878); CUM GPA >/= 3.25; PLAN: Linguistics (BA)
LING 1900 - LINGUISTICS CONSULTING/INTERNSHIP: CONNECTING LINGUISTICS TO THE COMMUNITY AND INDUSTRY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
This course provides an opportunity for students to formally pursue work on an individual basis.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

LING 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
This course provides a hands-on opportunity for students to learn about linguistic research. By working with faculty and graduate students on approved projects, students can gain exposure to various aspects of research processes, such as data collection, data entry, linguistic analysis, and poster presentations. Students complete literature reviews, collect and/or analyze data, and write a research report.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Attributes: Capstone Course

LING 1930 - APPLICATIONS OF LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
This course is a capstone course for undergraduate majors in linguistics. It should therefore be taken after nearly all other major requirements have been fulfilled. The topics to be covered are the crucial role a knowledge of linguistics plays in language teaching, the law (both interpretation of documents, courtroom discourse, forensic linguistics, and interpreting), communication disorders, archaeology, computational linguistics, and anthropology. Students will develop a portfolio of short papers, some of which are based on their own field research.
Academic Career: Undergraduate
Course Component: Lecture
Course Requirements: PREQ: LING 1000 or CSD 1020; LVL: Junior or Senior; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Capstone Course, Writing Requirement Course

LING 1951 - LANGUAGES OF THE WORLD

Minimum Credits: 3
Maximum Credits: 3
This course is a survey of language classification, language structures, and language contact. It concentrates on two main questions: first, how do languages resemble, and differ from, each other in sounds, forms, and syntax? And second, what are some linguistic and sociopolitical results of situations in which two or more languages come into contact? The context for these investigations will be a study of selected language families, both in class and in individual student projects (including some elicitation of data from native speakers of various languages).
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Marketing

BUSMKT 1040 - INTRODUCTION TO MARKETING
Provides an understanding of the roles of marketing in the economy and the firm, and develops a rationale for a marketing perspective as a guide to organizational and individual actions. Topics covered are the marketing environment, strategic planning, market segmentation, product development, pricing, distribution, promotion, consumer decision-making, control, and marketing management.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; PROG: College of Business Admin; LVL: So, Jr, Sr

BUSMKT 1041 - INTRODUCTION TO MARKETING HONORS + 1

Minimum Credits: 1
Maximum Credits: 1
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Restricted to College of Business Admin Students Only.

BUSMKT 1411 - MARKETING RESEARCH

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the development of methods of decision making for marketing management. Formal tools of decision making are stressed. The collection and analysis of marketing data is viewed in the context of a management information system. Provides a common analytical framework for later courses treating specialized aspects of marketing in depth.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C') and (STAT 1000 or 1040 or 1100 or 1131 or MGMT 0024 or ECON 0204); PLAN: Acct,Fin,Gen Mgmt,Gbl Mgmt,Mrktng,UndcIrd CBA,BIS,HRM,SCM

BUSMKT 1422 - PRINCIPLES OF SELLING

Minimum Credits: 3
Maximum Credits: 3
Selling is universal. Everyone uses persuasive communication to "sell" products, services, ideas, opinions, or points of view. Examine and practice the techniques and use the tools examined to develop and/or improve your sales skills. Focused on business-to-business sales, the concepts will apply to negotiating mutually beneficial agreements. From customer identification thru gaining agreement and follow-up, learn to identify customer problems and develop solutions that appeal to customers and benefit your organization.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1425 - SALES FORCE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Responsible to implement the organization's strategic goals and create profit thru sales, the sales manager must plan, organize, implement, monitor and evaluate the sales function. The manager must assure alignment of goal, strategy, task, action and reward in the sales function to create "mutual benefit" with the customer. The manager's sales forecast drives the organization, while the sales tactics and strategies which the manager plans and oversees make those forecasts a reality. We will examine the sales management process and the evolving role of the manager.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
Minimum Credits: 3
Maximum Credits: 3
Provides students with an understanding of advertising and the marketing process within which effective advertising and sales promotions are rooted. It is further designed to teach students to develop effective advertising and promotion plans. Emphasis will be placed on both theoretical and conceptual foundations and their applications to the fields of advertising and sales promotions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course will examine how public relations fits into the strategic management of organizations and how it impacts a firm's performance. Students will develop a competence in applying public relations principles to organizational opportunities and problems, with a focus on developing sound public relations writing skills.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING

Minimum Credits: 3
Maximum Credits: 3
This course covers advertising, marketing, and communications strategies in the new media landscape where traditional and social media co-exist. The course will focus on 1) how social media strategies can be used effectively in marketing programs, 2) when they should/should not be used, 3) how to build them, and 4) how to measure, track, and evaluate their performance and effectiveness. This marketing strategy course will focus on analyzing, developing, implementing, and evaluating media strategies as an integral part of overall marketing strategy.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C')

BUSMKT 1429 - MARKETING COMMUNICATIONS IN AUSTRALIA

Minimum Credits: 3
Maximum Credits: 3
Marketing communications in Australia provides an understanding of the ways in which advertising is effectively planned to achieve the objectives set in the overall marketing plan. The concept of integrated marketing communication is introduced as an organizational tool and as a philosophy for campaign planning. Integrated marketing communication requires a total approach to planning advertising and promotions campaigns and coordinating communication strategies in support of overall brand and goods/services marketing objectives, and more broadly marketing strategy.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1430 - MARKETING COMMUNICATIONS IN BRITAIN

Minimum Credits: 3
Maximum Credits: 3
Marketing communications in Britain provides an understanding of the ways in which advertising is effectively planned to achieve the objectives set in the overall marketing plan. Home to the second largest global agency network, WPP - London (parent of major ad agencies Ogilvy & Mather, JWT, and Young & Rubicam, and universally recognized as the center for creative and production excellence), is an ideal place to learn about the industry that is "ad-land". Viewed from the us and elsewhere, a significant proportion of British advertising has a contempt for the hard sell, an antipathy to too much research, along with a penchant for irony and parody. This course is skewed to look at and assess the practice of advertising from this standpoint.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Addresses all stages of the product life cycle beginning with the various phases of new product development, including creativity and new product concept generation, concept testing and evaluation, pricing, demand forecasting and new product marketing strategies. Also deals with special challenges related to marketing mature products/services, improving marketing implementation effectiveness, and marketing the intangible features of products.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1435 - SERVICES MARKETING

Minimum Credits: 3
Maximum Credits: 3
The focus of this course is to develop the students' skills as marketers-broadening tools learned in the intro course to include development of strategies and programs for service firms. Course utilizes problem solving techniques through presentation, discussion, and analysis of contemporary service marketing cases involving examples of consumer and business to business services in both large and small firms. The course is appropriate for 1) any student seeking a follow-up course to the basic marketing class; 2) students who plan marketing careers with service firms.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1441 - CONSUMER BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
Focuses on the study of individual consumers through the integration of a wide variety of social science concepts and gaining familiarity with some of the more common techniques of consumer research methodology.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: Global Studies

BUSMKT 1451 - RETAIL MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the strategic decisions for developing an enduring store image, and the marketing policies to produce customer satisfaction through service quality. Topics covered include store location, layout and atmosphere, logistics and information systems, merchandising, vendor relations and customer services, as well as topics related to non-store retailing.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1461 - INTERNATIONAL MARKETING

Minimum Credits: 3
Maximum Credits: 3
International Marketing for Global Business Institute, Shanghai, China. Summer 2019

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

Course Attributes: Global Studies, West European Studies

BUSMKT 1465 - PRICING STRATEGIES & TACTICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1470 - SPORTS MARKETING

Minimum Credits: 3
Maximum Credits: 3
This course will provide a framework for understanding how various marketing strategies are formulated, implemented, and evaluated in sports context. Sports have been one of the major economic activities of our modern society, and knowledge of the role marketing plays in its operation has emerged as a valuable asset to all the parties involved (e.g., firms, governments, consumers, and players). The course is organized into two themes; 1) sports as product and 2) sports as medium. The first theme focuses on the applications of marketing theories and principles to promote sports and sport related products. It puts the students in the shoes of a marketing manager of a sports related business. The second theme, on the other hand, considers sports as one of the vehicles to promote a product or service. It covers how non-sport related businesses can benefit from utilizing sports as a part of their marketing communication program. Another area that will be discussed throughout the course is the role of ethics in sports marketing. What we sell in both sports as product and sports as medium is the positive values that sports represent. Therefore, sports often serve as a platform to promote the core values of our society and introduce positive change. This unique nature of sports marketing provides us with an opportunity to integrate the business aspects of sports and ethical perspectives in its marketing. Issues such as gambling, Title IX, performance enhancing drugs, and social responsibilities of sports organizations will be discussed in length whenever it is relevant to the course material.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1481 - BRAND MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Exposes students to a wide range of marketing problems and provides them with the analytic perspectives and strategic marketing decision tools for analyzing and solving those problems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1485 - PROJECTS IN MARKETING

Minimum Credits: 3
Maximum Credits: 3
BUSMKT 1485 connects undergraduate marketing students with prominent commercial/government clients to develop/implement specific marketing strategies. Students receive hands-on exposure to planning, strategy, research, advertising, public relations, event planning, and budgeting. Students demonstrate oral/written presentation skills via formal presentations to representatives from the client organizations.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

BUSMKT 1490 - MARKETING INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The marketing internship provides business credits for project assignments that augment a professional marketing work experience.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUSMKT 1495 - MARKETING INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of marketing issues or problems to which they have been introduced in other marketing courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade

BUSMKT 1511 - MARKETING "MADE IN ECUADOR" TO THE WORLD

Minimum Credits: 1
Maximum Credits: 1
Historically, Ecuador sits at the contact zone of the Incan and Caari culture where trade through the spine of the Andes has been active for centuries. Currently, Ecuador is in the midst of building its brand to the world and is seen as the crucible of the chocolate industry. Promotion of the Galapagos, Yasuni Park and adventure travel on wild rivers has been part of the effort to showcase the best of the country to foreign markets. Ecuador's stunning volcanic peaks and rich tropical rainforest offer some of the greatest destinations on the planet along with unique and marketable resources of foods and culture. This course is designed to give you an understanding of Ecuador's natural and cultural assets including art, chocolate, ancient cities and adventure destinations and how to best market them to the world. This will be a hands-on experience where you will make your own chocolate, pottery and help locals prepare native crops as well as design promotions and refine and position their natural and cultural offerings for the global market. This is a real world experience that will be invaluable in your career as a marketer or employee in global enterprise.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

Mathematics

MATH 0010 - COLLEGE ALGEBRA PART 1

Minimum Credits: 1.5
Maximum Credits: 1.5
First of a two course sequence which covers the topics of linear equations and inequalities and their graphs, quadratic equations and their graphs, and systems of equations and their graphs. This course is intended for students who need to learn elementary algebra over an extended period of time.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0020 - COLLEGE ALGEBRA PART 2

Minimum Credits: 1.5
Maximum Credits: 1.5
Second of two courses (0010-0020) which covers polynomials, rational functions and exponential and logarithmic growth. This course is intended for students who need to learn algebra over an extended period of time.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0010
Course Attributes: DSAS Algebra General Ed. Requirement

MATH 0025 - APPLIED COLLEGE ALGEBRA

Minimum Credits: 3
Maximum Credits: 3
This course is designed for non-math majors or non-science majors. This course will parallel the topics in MATH 0031, but will stress real life data, problem solving and the use of technology to aid in mathematical understanding.
Academic Career: Undergraduate
Course Component: Lecture
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Algebra General Ed. Requirement

### MATH 0031 - ALGEBRA

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  

The course covers basic algebra skills. Linear, polynomial, rational, exponential, and logarithmic functions are included. Systems of linear equations are also covered.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Algebra General Ed. Requirement

### MATH 0032 - TRIGONOMETRY AND FUNCTIONS

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  

This course is designed to enable students, who have mastered algebra, to learn trigonometry. Besides trigonometry, material of graphing and polynomials is included.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: MATH 0031 or 0110 or 0002 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)  
**Course Attributes:** DSAS Algebra General Ed. Requirement

### MATH 0100 - PREP FOR BUSINESS CALCULUS

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  

This course will increase and reinforce the student's algebra skills by emphasizing the manipulation of formulas, the graphing of functions and the extensive use of problem solving. Topics include: an algebra review, functions and their graphs, systems of linear equations and inequalities, linear programming, interests and annuities, probability, data description, limits and continuity.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### MATH 0120 - BUSINESS CALCULUS

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  

This course introduces the basic concepts of limits, continuity, differentiation, integration, maximization and minimization. Applications to the social sciences, especially business and economics, are stressed.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: MATH 0020 or 0031 or 0110 or 0002 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)  
**Course Attributes:** DSAS Algebra General Ed. Requirement, DSAS Quant.-Formal Reason General Ed. Requirement, SCI Quantitative: Mathematics GE. Req.

### MATH 0125 - CALCULUS FOR BUSINESS 1

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  

This is the first half of a two course sequence (0125-0126). It will cover concepts such as limits, continuity, differentiation and integration. Maximization and minimization of functions will also be covered, with emphasis placed on applications in the social sciences, especially business and economics.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: MATH 0020 or 0031 or 0110 or 0002 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)  
**Course Attributes:** SCI Quantitative: Mathematics GE. Req.

1440
MATH 0126 - CALCULUS FOR BUSINESS 2

Minimum Credits: 2
Maximum Credits: 2
This is the second half of the two sequence course (0125 0126). It provides an introduction to calculus for students in business, economics and other social sciences.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0125

MATH 0200 - PREP FOR SCIENTIFIC CALCULUS

Minimum Credits: 3
Maximum Credits: 3
A variety of topics are studied: functions, rational functions, logarithmic and exponential functions, graphs, asymptotes, inverse, conic sections, translation and rotation of axes, trigonometric identities and equations, and possibly vectors.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or 0031 or 0110 or 0002 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)
Course Attributes: DSAS Algebra General Ed. Requirement

MATH 0205 - BRIDGE TO CALCULUS

Minimum Credits: 1
Maximum Credits: 1
The goal of the course is to fill the gap between Math 0120 Business Calculus and Math 0220 Calculus 1 in order for a student to fulfill Calculus requirement and/or meet a prerequisite for Math 0230 Calculus 2. The following topics are not covered in Math 0120 Business Calculus comparing to Math 0220 Calculus 1 and therefore will be covered by this course:-Trigonometric functions and their properties -Limits, derivatives, and integrals of functions that involve trigonometric functions -Linear Approximation -Indeterminate Forms and L'Hospital's Rule -Related Rates that involve trigonometric functions
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0120 (MIN GRADE 'C' or higher)

MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

Minimum Credits: 4
Maximum Credits: 4
This is the first of a sequence of three basic calculus courses. It covers the derivative and integral of functions of one variable and their applications.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0032 (MIN GRADE 'C') or MATH 0200 or 0132 or 0004 (MIN GRADE 'C') or MATH PLACEMENT SCORE (76 or GREATER) or MATH 0220 (No MIN GRADE) or MATH 0220 AP Credit

MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

Minimum Credits: 4
Maximum Credits: 4
This is the second of a sequence of three basic calculus courses. It covers the calculus of transcendental functions, techniques of integration, series of numbers and functions, polar coordinates, and conic sections.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0220 or 0140 or 0221; MIN GRADE: 'C'

MATH 0235 - HONORS 1 - VARIABLE CALCULUS

Minimum Credits: 4
Maximum Credits: 4
An enriched version of MATH 0220/0230. Course will cover same topics but in greater depth and with more challenging problems, computer experimentation and applications using maple. This course is intended for honors students.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Minimum Credits: 4
Maximum Credits: 4
This is the third of a sequence of three basic calculus courses. It covers vectors and surfaces in space and the calculus of functions of several variables including partial derivatives and multiple integrals, stokes theorem, and first order differential equations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or 0231 or 0150 or 0235; MIN GRADE: 'C'

MATH 0245 - HONORS 1- MULTIVARIABLE CALCULUS

Minimum Credits: 4
Maximum Credits: 4
An enriched version of MATH 0240. Course will cover same topics but in greater depth and with more challenging problems and applications. This course is intended for honors students.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: MIN CUM GPA: 3.25
Course Attributes: University Honors Course

MATH 0250 - MATRIX THEORY & DIFFT EQUATIONS

Minimum Credits: 4
Maximum Credits: 4
The topics include matrix algebra, vector spaces, linear transformations, linear differential equations with constant coefficients, and systems of first order linear differential equations. Matrix techniques are used extensively in the differential equations part of the course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or 0231 or 0150 (MIN GRADE 'C')

MATH 0280 - INTRO TO MATRICES & LINEAR ALG

Minimum Credits: 3
Maximum Credits: 3
The principal topics which this course will cover include vectors, matrices, determinants, linear transformations, eigenvalues and eigenvectors, and selected applications.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0220 or 0140 or 0221 or 0235 (Min Grade 'C')
MATH 0290 - DIFFERENTIAL EQUATIONS

Minimum Credits: 3
Maximum Credits: 3
This course presents an introduction to the theory of differential equations from an applied perspective. Topics include linear and nonlinear ordinary differential equations, Laplace transform, and introduction to partial differential equations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or 0231 or 0150 or 0235; MIN GRADE: 'C'
Course Attributes: SCI Quantitative: Mathematics GE. Req.

MATH 0400 - FINITE MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
The course covers the basic concepts of set theory, logic, combinatorics, Boolean algebra, and graph theory with an orientation towards applications.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or 0031 or 0110 or 0002 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0413 - INTRO THEORETICAL MATHEMATICS

Minimum Credits: 4
Maximum Credits: 4
This course is an introduction to the theoretical treatment of sets, functions, relations, numbers, sequences, and limits. Classwork and homework concentrate reading and writing of proofs of theorems centered on these topics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or 0235 or 0231 or 0150; and ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: SCI Quantitative: Mathematics GE. Req., Writing Requirement Course

MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS

Minimum Credits: 3
Maximum Credits: 3
The course provides a careful treatment of the theoretical concepts of limit, continuity, derivative and integral, including the fundamental theorem of calculus.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450
Course Attributes: SCI Quantitative: Mathematics GE. Req.

MATH 0430 - INTRO ABSTRACT ALGEBRAIC SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to abstract algebraic concepts, rings, integral domains, fields, integers, rational, real and complex numbers, and polynomials. Many examples will be presented during class and in the homework. The students are expected to enhance their proof writing techniques.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or 0450 or 1185
Course Attributes: SCI Quantitative: Mathematics GE. Req.

MATH 0450 - INTRODUCTION TO ANALYSIS
Minimum Credits: 4  
Maximum Credits: 4  
This course is intended as a first course in mathematical analysis for highly motivated students. Topics will include sets and functions, number systems, topology of Euclidean spaces, limits, continuity, and the main theorems of elementary calculus.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: SCI Quantitative: Mathematics GE. Req., Writing Requirement Course

MATH 0470 - ACTUARIAL MATHEMATICS 1

Minimum Credits: 3  
Maximum Credits: 3  
This course will cover the material listed in the syllabus for mathematics of finance of the society of actuaries. Specifically it will present the relevant topics in the theory of interest (interest and discount rates, cash flows, annuities, amortization and sinking funds, bonds) and investment (stocks, capital asset pricing model, arbitrage pricing theory, portfolios, options). The material will be presented in the traditional academic format of lectures and help sessions along with optional sessions directed specifically at preparing students for the SOA exam.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: CREQ: MATH 0230 or 0231 or 0150 or 0235  
Course Attributes: SCI Quantitative: Mathematics GE. Req.

MATH 0480 - APPLIED DISCRETE MATHEMATICS

Minimum Credits: 3  
Maximum Credits: 3  
The purpose of this course is to introduce first or second year students to important discrete structures that appear in both pure and applied math as well as computer science, computer engineering, computer security and information systems. Math 0480 will be an excellent preparation for classes in Combinatorics, Graph Theory, Algebra and Number Theory. Topics include sets, functions, sequences, algorithms, growth of functions, complexity of algorithms, induction, counting, discrete probability, graphs and trees, discrete geometry, network flows, the Traveling Salesperson Problem and discrete optimization.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0220

MATH 0500 - PROFESSIONAL DEVELOPMENT

Minimum Credits: 1  
Maximum Credits: 1  
The Professional Development course is a 1-credit course required of all Mathematics majors. It will assist students to progress through the major and toward their career goals, and to attain skills in technical writing and programming.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Satisfactory/No Credit  
Course Requirements: PREQ: MATH 0413 or MATH 0450

MATH 1010 - PUTNAM SEMINAR

Minimum Credits: 2  
Maximum Credits: 2  
The aim of this course is to develop the capacity to solve mathematical problems involving a substantial element of ingenuity and perseverance. Training will involve the study of problems from previous Putnam competitions, for which this course can be regarded as a useful preparation. An attempt will be made to look for unifying mathematical ideas. General strategies for solving problems will also be discussed.  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: LG/SNC Elective Basis  
Course Attributes: University Honors Course
MATH 1020 - APPLIED ELEMENTARY NUMBER THEORY

Minimum Credits: 3  
Maximum Credits: 3  
This course will reveal the key role played by number theory in the development of mathematics. Some applications of number theory will be covered in the course.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0430

MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY

Minimum Credits: 3  
Maximum Credits: 3  
The course covers the theoretical underpinnings of cryptosystems and the analysis of their limitations and vulnerabilities. Special emphasis will be placed on public key cryptosystems, including elliptic curve based systems. Real world applications such as browser security and bitcoin will be discussed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0430

MATH 1050 - COMBINATORIAL MATHEMATICS

Minimum Credits: 3  
Maximum Credits: 3  
Topics covered include the binomial theorem, inclusion exclusion principle, recurrence relations, generating functions, and coloring problems.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0413 or 0450 or 1185

MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS

Minimum Credits: 3  
Maximum Credits: 3  
This course, with MATH 1080 forms a two term introduction to numerical analysis at the advanced undergraduate level and includes interpolation, numerical differentiation and integration, solution of non-linear equations, numerical solution of systems or ordinary differential equations, and additional topics as time permits. Emphasis is on understanding the algorithms rather than on detailed coding, although some programming will be required.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0240 or 0245 or 0241 or 0201

MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introduction to numerical linear algebra which addresses numerical methods for solving linear algebraic systems and matrix Eigen problems and applications to partial differential equations. Although the course will stress a computational viewpoint, analysis of the convergences and stability of the algorithms will be investigated.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (MATH 0240 or 0245 or 0241 or 0201) and (MATH 0250 or 0280 or 1180 or 1185)

MATH 1100 - LINEAR PROGRAMMING
Minimum Credits: 3  
Maximum Credits: 3  
Topics covered will include linear programming problems, the simplex method, quality, revised simplex method, and the transportation problem.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 0280 or 1180 or 1185; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)

MATH 1101 - AN INTRODUCTION TO OPTIMIZATION

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces students to the techniques of optimization. Applications will be emphasized, but some theory will be addressed and proofs will be discussed. As well, students will be taught how to use available software to answer questions. Course topics will include linear programming, integer programming, nonlinear programming, convex and affine sets, convex and concave functions, unconstrained optimization, and combinatorial optimization (i.e. Network flow problems).  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: MATH 0240 and (MATH 0280 or 1180 or 1185)

MATH 1103 - MATHEMATICAL PROBLEMS IN BUSINESS, INDUSTRY, AND GOVERNMENT

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

MATH 1110 - INDUSTRIAL MATHEMATICS

Minimum Credits: 3  
Maximum Credits: 3  
This course is concerned with the approximate numerical solution of problems which arise in an industrial environment. Topics covered include physical interpretation of a mathematical model, use of library software, preparation of software, analysis of results, and reporting on findings.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MATH 1180 and 1185

MATH 1119 - APPLIED PROBABILITY FOR ACTUARIAL MATHEMATICS

Minimum Credits: 3  
Maximum Credits: 3  
This course covers standard topics in probability and their applications to actuarial risk management. It prepares students for the probability exam offered by the Society of Actuaries.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: MATH 0230 or 0231 or 0150

MATH 1121 - ACTUARIAL MATHEMATICS 2

Minimum Credits: 3  
Maximum Credits: 3  
This course will cover the material listed in the syllabus for exam m (3) (mathematics of life contingencies and financial economics) of the society of actuaries. Specifically it will present the relevant topics in life insurance and life annuities, including multiple decrement models as well as the black and Scholes pricing of derivative securities and risk analysis. The material will be presented in the traditional academic format of lectures and help sessions along with optional sessions directed specifically at preparing students for the SOA exam.  
Academic Career: Undergraduate  
Course Component: Lecture
MATH 1122 - ACTUARIAL MATHEMATICS 3

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0470 or 1120

MATH 1123 - ACTUARIAL MATHEMATICS 4

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0470 or 1120) and (MATH 1119 or STAT 1151)

MATH 1124 - ACTUARIAL MATHEMATICS 5

Minimum Credits: 3
Maximum Credits: 3
This 3-credit course will cover the topics in "Short-Term Actuarial Mathematics 1" that provides the basis for a subsequent course in "Short-Term Actuarial Mathematics 2" as well as prepare students for the SOA STAM Exam. Students will be introduced to a variety of frequency, severity, and aggregate models that are useful for short-term actuarial applications. Students will learn the steps involved in the modeling process and how to apply these steps. At the end of the course, students will be able to: 1) analyze data from an application in a business context; 2) determine a suitable model including parameter values; 3) provide measures of confidence for decisions based upon the model. Students will be introduced to a variety of tools for the calibration and evaluation of the models.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SGN Elective Basis

MATH 1126 - PREDICTIVE ANALYTICS 1

Minimum Credits: 3
Maximum Credits: 3
This is an introductory topics course in modern Data Science, including Statistical Learning and Time Series. The topics that will be covered are: Linear Regression (Validation, Resampling Methods, Model Selection and Regularization, Shrinkage, Dimension Reduction, Principal Components), Generalized Linear Models (Logistic and Probit Regression Models, Categorical and Count Response, Measures of Fit), Unsupervised Learning (Decision Trees and Random Forests, Bootstrap, Bagging, Principal Components, Cluster Analysis), Time Series (Random Walk Models, Autoregressive Models, ARCH/GARCH Models, Box-Jenkins Modeling and Forecasting).
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0230 and MATH 1119

MATH 1127 - PREDICTIVE ANALYTICS 2

Minimum Credits: 3
Maximum Credits: 3
This 3-credit course is a continuation of Math 1126, "Predictive Analytics 1". It will cover the fundamental knowledge about data science with applications to insurance and business. Students will be introduced to Basic R, data acquisition, data cleanup, data exploration and visualization, predictive modeling, and professional reporting. It also prepares students for the SOA Exam PA. Upon completion of this course, students will have developed skills in predictive analytics that allow them to: (1) articulate the types of problems that can be addressed by predictive modeling, identify the business problem and how the available data relates to possible analyses, use the information to propose models such as Generalized Linear Model (GLM), Decision Trees, Cluster and Principal Components Analysis; (2) develop expertise in the use of R for predictive analytics and be able to create effective graphs in RStudio, work with various data types, understand principles of data design, and construct a variety of common visualizations for exploring data; (3) evaluate data quality, resolve data issues, and identify regulatory and ethical issues; (4) effectively communicate the results of applying predictive analytics to solve a business problem.
MATH 1128 - ACTUARIAL MATHEMATICS 5

Minimum Credits: 3
Maximum Credits: 3
This 3-credit course will cover the topics in "Short-Term Actuarial Mathematics 1" that provides the basis for a subsequent course in "Short-Term Actuarial Mathematics 2" as well as prepare students for the SOA STAM Exam. Students will be introduced to a variety of frequency, severity, and aggregate models that are useful for short-term actuarial applications. Students will learn the steps involved in the modeling process and how to apply these steps. At the end of the course, students will be able to: 1) analyze data from an application in a business context; 2) determine a suitable model including parameter values; 3) provide measures of confidence for decisions based upon the model. Students will be introduced to a variety of tools for the calibration and evaluation of the models.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 1126

MATH 1129 - ACTUARIAL MATHEMATICS 6

Minimum Credits: 3
Maximum Credits: 3
This 3-credit course will cover the topics in "Short-Term Actuarial Mathematics 2" (STAM 2) which builds on topics in STAM 1 as well as prepare students for the SOA STAM Exam. Students will be introduced to credibility theory: prior distribution, posterior distribution, predictive distribution, Bayesian premium, Buhlmann model, Buhlmann-Straub models, credibility premium, credibility factor and empirical Bayes methods. At the end of the course, students will be able to: 1) understand and estimate losses using credibility procedures; 2) understand the fundamental principles of pricing and reserving of some of the more common short-term insurance and reinsurance coverages: auto, homeowners, liability, health, disability, and dental. Students will be introduced to some of the methods and the underlying statistical models used for estimating losses incurred from short-term insurance and reinsurance coverages.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 1119 and STAT 1152

MATH 1180 - LINEAR ALGEBRA 1

Minimum Credits: 3
Maximum Credits: 3
This course stresses the theoretical and rigorous development of linear algebra. Major topics include the theory of vector spaces, linear transformations, matrices, characteristic polynomials, bases and canonical forms. Other topics may be covered as time permits.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0413 or MATH 0450

MATH 1185 - HONORS LINEAR ALGEBRA

Minimum Credits: 3
Maximum Credits: 3
An introduction to computational and theoretical aspects of linear algebra. Syllabus includes Gaussian elimination, matrix algebra, triangular factorization, vector spaces, linear independence, basis, dimension, orthogonality, inner product, gram-Schmidt, singular value decomposition, determinants, eigenvalues, matrix exponentials, unitary matrices, similarity, positive definiteness, minimum principles, finite elements, norm and condition number, computation of Eigen values, iterative solutions of linear systems, linear inequalities, simplex method.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: University Honors Course

MATH 1230 - THE BIG IDEAS OF MATHEMATICS
The "big ideas" course is intended to provide a capstone type experience for math majors. It will integrate the student's current math knowledge into a coherent whole via the adoption of a historical perspective. It is particularly aimed at math majors with an interest in math education or the history, philosophy and psychology of mathematics. Students opting for the optional internship, MATH 1231, will explore how the historical development of math relates to the math in the secondary school. The capstone experience will culminate with a research project and presentation.

**Course Requirements:**
- **PREQ:** MATH 0430, and ENG 0102 or ENGCMP (0002 or 0020 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006)

**Course Attributes:** Capstone Course, Writing Requirement Course

---

**MATH 1231 - MATH EDUCATION INTERNSHIP 1**

- **Minimum Credits:** 1
- **Maximum Credits:** 1

This internship has two components 1) a classroom experience mentoring a high school student who is developing a research project and 2) a seminar discussing the "big ideas" of mathematics in MATH 1230 and how math is developed in the elementary and secondary school curriculum. Interns will spend one hour every two weeks mentoring a high school student at an area high school.

**Academic Career:** Undergraduate

**Course Component:** Internship

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** CREQ: MATH 1230

---

**MATH 1250 - ABSTRACT ALGEBRA**

- **Minimum Credits:** 3
- **Maximum Credits:** 3

In this course the basic algebraic systems, groups and rings are studied in some detail. Topics include: subgroups, permutation groups, homomorphism's, subrings, ideals and quotient rings. The emphasis is on theory with examples.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: MATH 0430

---

**MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1**

- **Minimum Credits:** 3
- **Maximum Credits:** 3

This course covers methods of solving ordinary differential equations which are frequently encountered in applications. General methods will be taught for single n-th order equations, and systems of first order nonlinear equations. This will include phase plane methods and stability analysis. Computer experimentation will be used to illustrate the behavior of solutions of various equations.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: MATH 0280 or 1180 or 1185

---

**MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1**

- **Minimum Credits:** 3
- **Maximum Credits:** 3

This course provides a more thorough mathematical treatment of the theory than is possible in the non-honors course (MATH 1270), and also covers some more recent applications. In addition to basic material on exact solutions, mathematical proofs will be given of the existence and uniqueness theorems, leading to a better understanding of such important topics as phase plane behavior and stability theory. In addition, more topics will be covered, including a more extensive discussion of series solutions and special functions than is possible in MATH 1270. Finally, a course project, usually done in pairs, on a topic to be chosen by the students with guidance and approval from the instructor, will be a key feature.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: (MATH 0230 or 0231 or 0150 or 0235) and (MATH 1180 or 1185); CREQ: MATH (0413 or 0450)

**Course Attributes:** University Honors Course
MATH 1280 - ORDINARY DIFFERNTL EQUATIONS 2

Minimum Credits: 3
Maximum Credits: 3
This is a course in stability and qualitative methods for analyzing ordinary differential equations which arise in realistic models. Phase plane techniques, perturbation methods, and bifurcation theory are studied.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1270 OR 1275

MATH 1290 - TOPICS IN GEOMETRY

Minimum Credits: 3
Maximum Credits: 3
A course intended to give a "modern" view of geometry. Possible approaches include (1) the connection of geometries to abstract algebraic systems and (2) the deductive, synthetic development of Euclidean and non-Euclidean geometry.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 or 0241 or 0201 and (MATH 0413 or MATH 0450)

MATH 1310 - GRAPH THEORY

Minimum Credits: 3
Maximum Credits: 3
The concept of a graph and the study of its theoretical properties and applications form the core of this course. Topics include paths, circuits, trees, planar graphs, coloring problems, digraphs, matching theory, and network flows.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or 0450

MATH 1350 - INTRODUCTION TO DIFFERENTIAL GEOMETRY

Minimum Credits: 3
Maximum Credits: 3
Possible topics are the basic ideas of topology, description of curves in space, definition and local study of smooth surfaces in Euclidean space (fundamental forms, geodesics, and curvature), global properties of surfaces, gauss-bonnet formula and applications.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 or 0241 or 0201 and (MATH 1180 or 1185)

MATH 1360 - MODELING IN APPLIED MATH 1

Minimum Credits: 3
Maximum Credits: 3
This course introduces some of the fundamental approaches of applied mathematics. The emphasis is on the model-building process and on developing an understanding of some of the unifying themes of applied mathematics such as equilibria, stability, conservation laws, etc. The material is presented in the form of case studies.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0290 or 1270 or 1275

MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course presents contemporary mathematical theories of neuroscience, including single neurons and neuronal networks. Attention will be given
to the dynamics and the function of neural activity.

Mathematical Theory of Probability

This course contains a rigorous development of the calculus of functions of a single variable, including compactness on the real line, continuity, differentiability, integration, and the uniform convergence of sequences and series of functions. Other topics may be included, such as the notion of limits and continuity in metric spaces.
MATH 1540 - ADVANCED CALCULUS 2

Minimum Credits: 3
Maximum Credits: 3
This course, a continuation of MATH 1530, covers the theory of limits, differentiation, and integration of functions of several variables.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0420 or 0450

MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS

Minimum Credits: 3
Maximum Credits: 3
Topics covered include: vector algebra, vector differentiation and integration, divergence, gradient, curl, the theorems of green, gauss and stokes, and curvilinear coordinate systems. There will be an emphasis upon problem solving and applications in electromagnetic theory and fluid flow.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1530

MATH 1560 - COMPLEX VARIABLES & APPLICATIONS

Minimum Credits: 3
Maximum Credits: 3
This course covers the following topics: elementary operations with complex numbers, derivatives, integrals, Cauchy's theorem and consequences such as the integral formula, power series, residue theorem, applications to real integrals and series.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [MATH 0240 or 0241 or 0201 or MATH 0245 (MIN GRADE 'B') for all] or MATH 1550

MATH 1570 - INTRODUCTION TO FOURIER ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The course is a rigorous introduction to Fourier series and integrals with applications to heat flow, wave motion, physics, and number theory. It is intended for students with a basic knowledge of real analysis including uniform convergence of sequences and series of functions. No knowledge of the Lebesque integral is assumed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0420 or 0450) AND (MATH 0280 or 1180 or 1185)

MATH 1700 - INTRODUCTION TO TOPOLOGY

Minimum Credits: 3
Maximum Credits: 3
The topology of $\mathbb{R}^1$, as well as that of general metric spaces, will be studied. Basic notions will be applied to obtain the fundamental existence theorem for first order ordinary differential equations. The course will be run on a theorem proving and problem solving basis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0420 or 0450

MATH 1800 - ADVANCED TOPICS IN MATHEMATICS
Minimum Credits: 3
Maximum Credits: 3
This course seeks to provide a broad introduction to the field of machine learning. The emphasis of this course will be the development of a rigorous mathematical basis for the most commonly used algorithms in the field. Topics to be covered include clustering, dimensionality reduction, regression, optimization, and neural networks. Students will have the opportunity to implement algorithms from these topics and examine their performance on real data. A background in multivariable calculus and linear algebra is recommended. Prior programming experience is not required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 or 0241 or 0201 or MATH 0280 or MATH 1180

MATH 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Under faculty supervision the student participates in a mathematics related experience, project, or job.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

MATH 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
Under the direction of a faculty member, a student studies a mutually agreed upon topic in mathematics.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Mechanical Engr and Materials Science and Engr

ME 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN

Minimum Credits: 3
Maximum Credits: 3
Provides knowledge of design graphics and manufacturing processes by conventional and computer-aided methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0011 or ENGR 0711 or ET 0011; PROG: School of Engineering

ME 0051 - INTRO THERMO-FLUIDS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Synthesis of the basic concepts from thermodynamics and fluids, including: properties of pure substances, first law analysis, and introduction to the second law; fluid statics, kinematics, stress, and viscosity; and control volume analysis of the conservation equations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or 0476 or 0202 or 0152) and (CHEM 0960 or 0760 or 0710 or 0111 or 0110 or 0101); CREQ: MATH 0290 or 1271 or 0202 or 0135; PROG: School of Engineering

ME 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering not normally encountered in classes and include a wide range of topics such as the significance of engineering as a profession and the relation of engineering to current social problems.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ME 1097 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 4
Investigation and research embodying testing, original design, or research on an approved subject; or, a special problem or reading course of individual study guided by an approved departmental faculty member.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade

MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of the design process, basic techniques of graphic communication, and an introduction to the most common mechanical components and manufacturing processes.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0011 or 0015 or 0711 or ET 0011; PROG: School of Engineering

MEMS 0031 - ELECTRICAL CIRCUITS

Minimum Credits: 3
Maximum Credits: 3
Fundamental laws, principles, and analysis techniques for DC and AC linear circuits whose elements consist of passive and active components used in modern engineering practice, including the determination of steady-state and transient responses.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or 0476 or 0152 or 0201); CREQ: (MATH 0290 or 1271 or 1035 or 0201); PROG: School of Engineering

MEMS 0040 - MATERIALS AND MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
Manufacturing and processing of ceramics, metals, polymers and composites covering refining and synthesis, shaping methods, control of properties and process selection.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 0048 - THERMODYNAMICS OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
This course teaches the essentials of thermodynamics of materials, which concerns the basic concepts and principles of thermodynamics, and the application of thermodynamic principles to the analysis of multitude phenomena related to the behavior of materials. The course covers topics on the laws of thermodynamics, relation between work, heat and energy, entropy, free energy, phase equilibrium in one-component system, chemical reactions involving gases, and chemical reactions involving both solids and gases.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0150 or 0174 or 0201 or 0475) and (CHEM 0101 or 0110 or 0111 or 0410 or ET 0101 or ET 0710 or ET 0760 or ET 0960); PROG: Swanson School of Engineering
MEMS 0051 - INTRODUCTION TO THERMODYNAMICS

Minimum Credits: 3  
Maximum Credits: 3  
Basic concepts and interlinking relationships of thermodynamics, fluid mechanics and heat transfer; fluid statics; system and control volumes; thermodynamic properties; work and heat; first law of thermodynamics for control mass and control volume; integral forms of conservation of mass and momentum.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: (PHYS 0150 or 0174 or 0201 or 0475) and (CHEM 0101 or 0110 or 0111 or 0410 or 0710 or 0760 or 0960); PROG: School of Engineering

MEMS 0071 - INTRODUCTION TO FLUID MECHANICS

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: (PHYS 0152 or 0175 or 0202 or 0476) and (CHEM 0102 or 0112 or 0120 or 0720 or 0770 or 0970); CREQ: MATH 0290; PLAN: Mechanical Engineering (BSE) PROG: Swanson School of Engineering

MEMS 1010 - EXPERIMENTAL METHODS IN MATERIALS SCIENCE AND ENGINEERING

Minimum Credits: 3  
Maximum Credits: 3  
Principles and techniques of optical metallography: imaging and quantitative analysis. Mechanical testing techniques, electron microscopy and chemical analysis.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 1011 - STRUCTURE AND PROPERTIES LAB

Minimum Credits: 3  
Maximum Credits: 3  
Experimental demonstrations of important structure-property relationships for metals, ceramics and polymers.  
Academic Career: Undergraduate  
Course Component: Practicum  
Grade Component: Letter Grade  
Course Requirements: PREQ: MEMS 1010; PROG: School of Engineering

MEMS 1014 - DYNAMIC SYSTEMS

Minimum Credits: 3  
Maximum Credits: 3  
Modeling and analysis of physical systems. Time- and frequency-domain analyses; transient and steady state system response to various excitations; transfer function and state space model representations; Laplace and Fourier transforms.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: [(ENGR 0012 or 0016) or (ET 0023 and 0030)] and (MEMS 0031 or ME 0031 or ECE 0031 or EET 0110) and (MATH 0280 or 0206 or 1180 or 1181 or 1035) and (MEMS 1015); PROG: School of Engineering

MEMS 1015 - RIGID-BODY DYNAMICS
Minimum Credits: 3
Maximum Credits: 3
Dynamics of particles, systems of particles, and rigid bodies including energy and momentum methods, problems of varying forces and constraints, and relationship of motion to different reference frames.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0240 or 0241 or 0201) and (ENGR 0135 or 0131 or ET 0051); PROG: School of Engineering

MEMS 1020 - MECHANICAL VIBRATIONS

Minimum Credits: 3
Maximum Credits: 3
Review of free and forced vibrations of single-degree-of-freedom systems with and without damping, multi-degree of freedom systems, vibration isolation, nonlinear vibrations, LaGrange's equations, and vibration of continuous systems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 1014 or MEMS 1014 or BIOENG 1255; PROG: School of Engineering

MEMS 1028 - MECHANICAL DESIGN I

Minimum Credits: 3
Maximum Credits: 3
Stress and deflection analysis; survey of mechanical design criteria; selection and applications of working stresses for ductile and brittle materials; static, fatigue, and impact loading and combination of stresses.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0141 or 0145 or ET 0053 or BIOENG 1630; PROG: Undergraduate School of Engineering

MEMS 1029 - MECHANICAL DESIGN II

Minimum Credits: 3
Maximum Credits: 3
Analysis and design of machine elements, components, and mechanical systems. Machine elements include shafts, keys, bearings, gears, belts, chains, springs, screws, and motors.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 0024 or MEMS 0024 or ET 0035) and (ME 1028 or MEMS 1028); PROG: School of Engineering

MEMS 1030 - MATERIAL SELECTION

Minimum Credits: 3
Maximum Credits: 3
Methodology for materials selection in mechanical design processes. Includes: (i) design process and consideration, (ii) criteria for materials and their shape selection, and (iii) design case study. Mechanical components have mass; they carry loads; they conduct heat and electricity; they are exposed to wear and to corrosive environments; they are made of one or more materials; they have shape; and they must be manufactured. This course provides knowledge on how these activities are related.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 1028 or MEMS 1028); PROG: School of Engineering

MEMS 1032 - AUTOMOTIVE DESIGN AND FABRICATION

Minimum Credits: 3
Maximum Credits: 3
Covers the basics of automotive fabrication. Students working as one team have the opportunity to experience hands-on application of both classical and modern manufacturing techniques while adhering to a very strict externally imposed deadline. The team effort culminates in the production of a high-performance automobile.
MEMS 1033 - FRACTURE MECHANICS FOR PRODUCT DESIGN AND MANUFACTURING

Minimum Credits: 3  
Maximum Credits: 3
An introduction to the principles of fracture mechanics; the essential concepts underlying appropriate materials selection including the effects of shape selection for maximum performance; and the strengths and weaknesses inherent in the choice of, say, metals versus ceramics versus polymers, etc.

MEMS 1035 - COMPOSITE MATERIALS DESIGN AND APPLICATIONS

Minimum Credits: 3  
Maximum Credits: 3
Extensive uses of composites can be seen in several aspects of engineering applications. Industrial sectors, such as in wind turbines, oil and natural gas exploration and production, natural gas and hydrogen vehicle storage tanks, high-speed and precision machinery, etc., are today the largest user of composites, surpassing aerospace industries. Other applications are in semiconductor manufacturing equipment; automobile engines, bodies, brakes and clutches; energy storage flywheels; gas turbine engines; process industries equipment; data storage equipment; medical diagnostic equipment; prosthetics and orthotics, etc. The advantages of composite materials stem from their outstanding strengths and stiffness, low densities, in addition to their unique and tailor able physical properties, including good thermal conductivities compared to copper and thermal expansions that can be varied from high to near zero. Composites, such as metallic, ceramic and carbon materials have both high-temperature and low-temperature capabilities, making them useful in high temperature regimes, e.g. in gas turbine engines, automobile and aircraft brakes. This course offers an in-depth presentation of design, analysis and manufacturing methods for composites, with particular reference to polymer matrix composites. For an efficient use of composites in lightweight structural design applications, this course offers the needed fundamental understanding of the structure, properties, and mechanics of composite materials. A typical mechanical analysis and design of composite structures, which are significantly more complex than those of their metallic equivalents due to the anisotropic nature of laminated composite materials, will be presented.

MEMS 1038 - FUNDAMENTALS OF ENGINEERING PROJECTS

Minimum Credits: 1  
Maximum Credits: 1
This course will focus on the development of professional skills required for successful engineering projects. The central objective will be to prepare foundation skills relevant to the senior design course. Course topics will include: project management tools, professional standards and codes, prototype development, design for manufacturing, GD&T, oral presentation skills and presentation of engineering data.

MEMS 1041 - MECHANICAL MEASUREMENTS 1

Minimum Credits: 3  
Maximum Credits: 3
Fundamentals of mechanical measurements including steady-state and dynamic signals, detector-transducer elements, signal conditioning and readout systems, standards, instrument calibration, statistical treatment of data, error analysis, and technical report writing.

MEMS 1042 - MECHANICAL MEASUREMENTS 2
MEMS 1041 - MECHANICAL MEASUREMENTS

Minimum Credits: 3
Maximum Credits: 3
Builds on the foundation of mechanical measurements provided in MEMS 1041 to provide students with the ability to properly design and perform an experiment on a complex mechanical system in order to determine specific characteristics or performance of that system. Specific material includes extended knowledge of statistics and error analysis, computer-based data acquisition, and technical communications.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1041 or MEMS 1041); PROG: School of Engineering

MEMS 1043 - SENIOR DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
A major project involving literature search, planning, design, fabrication, experimentation, analysis, technical report, poster presentation, and presentation at a technical symposium is performed by a small team of students under the direction of a faculty advisor and corporate advisor on a project presented by the corporate advisor.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Sr; PROG: School of Engineering
Course Attributes: Capstone Course

MEMS 1045 - AUTOMATIC CONTROLS

Minimum Credits: 3
Maximum Credits: 3
Modeling of mechanical systems and classical feedback control theory for single-input-single-output systems.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1014 or MEMS 1014 or BIOENG 1255); PROG: School of Engineering

MEMS 1047 - FINITE ELEMENT ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The finite element method applied in solid mechanics, fluid mechanics, and heat transfer.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1028; PROG: School of Engineering

MEMS 1048 - ANALYSIS AND CHARACTERIZATION AT THE NANO-SCALE

Minimum Credits: 3
Maximum Credits: 3
This course offers a survey of micro-analytical, microscopy and diffraction methods that are widely used for the analysis of composition, chemistry, structure, scale and morphology of advanced materials. It introduces the most basic concepts required to understand experimental data obtained with these modern techniques. The main objectives of the course are to enable students to interpret and evaluate relevant data sets presented in the research literature and to identify experimental tools to solve a given Nano-research characterization problem. Some prerequisite basic knowledge of the structure of solid matter (e.g. crystals and amorphous materials), diffraction methods (e.g. X-ray diffraction) and processing-property-structure relationships in materials is expected.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1049 - MECHATRONICS

Minimum Credits: 3
Maximum Credits: 3
An introduction to mechatronics, or the interfacing of mechanical and electrical systems. Focus is on embedded controllers (Motorola 68hc11 and pic 16f84) and their programming, power and interfacing electronics, actuators, sensors, and integration of these components to create a complete functional mechatronic system.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (ME 1014 or MEMS 1014) and (MEMS 0031); PROG: School of Engineering

**MEMS 1051 - APPLIED THERMODYNAMICS**

Minimum Credits: 3  
Maximum Credits: 3  
Thermodynamic processes involving energy and entropy changes in real and ideal gases, vapors, and liquids, and mixtures of those fluids. Basic thermodynamic cycles (vapor and gas power, refrigeration, and heat pumps). Discussion of thermodynamic relations for simple compressible substances and introduction to psychometrics.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210; PROG: School of Engineering

**MEMS 1052 - HEAT AND MASS TRANSFER**

Minimum Credits: 3  
Maximum Credits: 3  
One- and two-dimensional steady and unsteady heat conduction; internal and external forced convection; free convection; engineering principle of radiation; heat exchangers and special topics.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: ME 0051 or MEMS 0051 or MEMS 0048 or BIOENG 1210 or MET 1110; PROG: School of Engineering

**MEMS 1053 - STRUCTURE OF CRYSTALS AND DIFFRACTION**

Minimum Credits: 3  
Maximum Credits: 3  
Crystallography of materials; Bravais lattices, crystal systems, and crystal structures. Diffraction methods; x-ray, electron, and neutron scattering; atomic scattering factor; structure factor; powder techniques; Laue method; reciprocal lattice; electron diffraction; amorphous materials; thermodynamics of crystals and crystal defects; polymorphism; order-disorder phenomena.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (ENGR 0022 or MET 1162); LVL: Jr or Sr; PROG: Swanson School of Engineering

**MEMS 1055 - COMPUTER AIDED ANALYSIS IN TRANSPORT PHENOMENA**

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to some of the numerical/computational methods for solving problems in transport phenomena.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: [ENGR 0712 or 0715 or 0718 or (ET 0023 and 0030)] and (ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210) and MATH 0290 and MEMS 0071 and (ENGR 0012 or ENGR 0016); PROG: School of Engineering

**MEMS 1057 - MICRO/NANO MANUFACTURING**

Minimum Credits: 3  
Maximum Credits: 3  
Explores different micro/nano manufacturing options, material choices, and a variety of applications. The goal is to gain an understanding of various micro/nano fabrication techniques, learn major applications and principles of micro/nano systems, and develop an ability to design and fabricate new micro/nano systems.  
**Academic Career:** Undergraduate
MEMS 1058 - ELECTROMAGNETIC PROPERTIES OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Review of basic principles: quantum theory, band and zone theory. Transport, electrical, and thermal properties; semiconductors and semiconductor devices; magnetic materials, hard and soft; dielectric and optical properties.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 1059 - PHASE EQUILIBRIA IN MULTI-COMPONENT MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Thermodynamics of solutions with applications to materials systems; heterogeneous phase equilibria; relations between free energy and phase diagrams, electrochemistry; rate processes; thermodynamics of surfaces.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 0051 or MEMS 0051 or MET 1110 or MEMS 0048 or BIOENG 1210); LVL: Jr or Sr; PROG: Swanson School of Engineering

MEMS 1060 - NUMERICAL METHODS

Minimum Credits: 3
Maximum Credits: 3
Introduction to numerical techniques for the solution of linear and nonlinear equations, numerical integration and differentiation, interpolation, ordinary and partial differential equations, and eigenvalue problems.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION

Minimum Credits: 3
Maximum Credits: 3
Phase equilibria; binary and ternary system; phase rule; thermodynamics and phase diagrams; diffusion in materials; phase transformations; nucleation and growth kinetics; precipitation reactions; solidification; glass-forming systems; phase separation; displacive or martensitic transformations; microstructural development in metallic and non-metallic systems; electron theory of solids; zone theory; electrical and magnetic properties of materials.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1053 and MEMS 1059; LVL: Jr or Sr; PROG: Swanson School of Engineering (UENGR)

MEMS 1065 - THERMAL SYSTEMS DESIGN

Minimum Credits: 3
Maximum Credits: 3
Design, analysis, and optimization of thermal systems. Systems analysis applied to heat exchanger, power conversion, air conditioning, refrigeration, and heat recovery systems. Economics, equation fitting, and thermal property evaluation is integrated into the simulation and optimization of thermal system designs.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1051 and 1052 and 0071; PROG: School of Engineering
MEMS 1070 - MECHANICAL BEHAVIOR OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Theory of elasticity, stress, strain, constitutive equations, isotropic and anisotropic elasticity, wave propagation in brittle solids, time dependent deformation, viscoelasticity, vibrations, damping, anelasticity, creep, design of creep resistant microstructures, deformation of polymers, physics of fracture, fracture mechanisms, brittle fracture, ductile fracture, design of fracture-resistant microstructures.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: (ENGR 0022 or MET 1162) and (ENGR 0141 or ENGR 0145 or ET 0053); PROG:

MEMS 1071 - APPLIED FLUID MECHANICS

Minimum Credits: 3
Maximum Credits: 3
Basic principles of computational fluid dynamics (CFD). Hands-on experience using a commercial CFD package. Students will use this tool to solve a design problem. External flows with particular emphasis on aerodynamics. Fluid machinery. Experimental fluid mechanics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 0071 or 1072; PROG: Swanson School of Engineering

MEMS 1079 - SENIOR MATERIALS RESEARCH PROJECT

Minimum Credits: 3
Maximum Credits: 3
A major project involving literature search, planning, experimentation, analysis, an oral presentation, and a final technical report. The project is either sponsored by the department or a local company and is conducted by an individual or a small team of students with a faculty adviser.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

MEMS 1080 - POWDER PROCESSING OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Powder processing is widely practiced in the traditional powder metals and ceramics industries as well as in additive manufacturing. This course will review these applications and focus on the underlying materials science and engineering employed in: production of metals and ceramic powders, powder characterization methods, the forming methods used to make shapes from metal and ceramic powders as well as sintering and heat treatment.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MEMS 1081 - SMART MANUFACTURING - KEY TO INNOVATIONS

Minimum Credits: 3
Maximum Credits: 3
This course covers a range of topics centered on "smart manufacturing", which is a key to provide novel products and solutions for critical industries and special situations. These topics include additive manufacturing, manufacturing metrology, quality control, cyber-physical manufacturing system, supply chain, and artificial intelligence. Fundamental concepts and hands-on practice in smart manufacturing will be demonstrated through lectures, assignments and projects. A background in dynamic systems, mechanical design and measurements is expected but required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MEMS 1082 - ELECTROMECHANICAL SENSORS AND ACTUATORS

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to provide a thorough understanding of the various mechanisms that can be exploited in the design of
electromechanically sensors and actuators. These transduction mechanisms include: 1) transduction based on changes in the energy stored in the electric field, 2) in the energy stored in the magnetic field, 3) piezoelectricity and pyroelectricity, 4) linear inductive transduction mechanisms, and 5) resistive transduction mechanisms. Will discuss various transduction materials, sensors and actuators from a wide range of applications.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1083 - ROBOT MODELING AND CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course introduces the fundamentals of robot modeling and control. The course will cover forward and inverse kinematics, Jacobians, Lagrangian dynamics, motion planning, robust and adaptive motion and force control. The course will provide relevant applications from industrial robotics, mobile robotics, and human robotics and interaction. The course will be mathematically rigorous and requires knowledge of linear algebra, dynamic systems, and automatic control. Background material on these topics will be reviewed in the class. The course is appropriate for undergraduate and graduate students from electrical engineering, mechanical engineering, computer science, and mathematics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROQ: MEMS 1014 and MATH 0280; PROG: Swanson School of Engineering

MEMS 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering not normally encountered in classes and include a wide range of topics such as the significance of engineering as a profession and the relation of engineering to current social problems.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

MEMS 1087 - SUSTAINABLE MATERIALS PRODUCTION

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the use of global resources in the production of the most heavily consumed materials in manufacturing and construction. For each of these materials the production process will be described starting with the resources from which they are derived and ending with the needs of the manufacturing or construction process in which they are used. The material life cycle and materials eco-selection criteria will be used to highlight end-of-life issues and how the sustainability of materials production may be improved. The use of strategic minerals in materials production will also be highlighted. Finally, renewable materials will be introduced and the prospects for their widespread use in materials production considered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Prerequisites: ENGR 0022 or MSE 2067

MEMS 1097 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 3
Investigation and research embodying testing, original design, or research on an approved subject; or an individual course of study guided by an approved departmental faculty member.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

MEMS 1098 - SPECIAL PROJECTS II

Minimum Credits: 1
Maximum Credits: 3
Investigation and research embodying testing, original design, or research on an approved subject; or an individual course of study guided by an approved departmental faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade

**MEMS 1101 - FERROUS PHYSICAL METALLURGY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** Letter Grade  
- **Course Requirements:** PREQ: (ENGR 0022 or MET 1162) and (ME 0051 or MEMS 0051 or BIOENG 1210 or MET 1110) and MEMS 1010; PROG: Undergraduate Engineering

**MEMS 1102 - PRINCIPLES AND APPLICATIONS OF STEEL ALLOY DESIGN**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** Letter Grade  
- **Course Requirements:** PREQ: MEMS 1101; PROG: Swanson School of Engineering

**MEMS 1103 - PRINCIPLES AND APPLICATIONS OF STEEL PROCESSING AND DESIGN**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** Letter Grade  
- **Course Requirements:** PREQ: MEMS 1102; PROG: Swanson School of Engineering

**MEMS 1111 - MATERIALS FOR ENERGY GENERATION AND STORAGE**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** Letter Grade  
- **Course Requirements:** PROG: Swanson School of Engineering

**MEMS 1120 - APPLIED ENGINEERING SIMULATION IN DESIGN**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
- **Academic Career:** Undergraduate  
- **Course Component:** Lecture  
- **Grade Component:** Letter Grade  
- **Course Requirements:** PROG: Swanson School of Engineering

This course will focus on the development of critical thinking skills tailored to engineering simulation in mechanical design. Commonly used computational simulation tools including finite element analysis and computational fluid dynamics will be highlighted. Students will examine the role of simulation in product design and learn to recognize opportunities to integrate simulation-based analysis into traditional engineering analysis and design workflows. A term-long project will offer exposure to simulation tools and provide students the context to practice their skills in a complex design environment. Students are required to take the one-credit course MEMS 1121 Simulation Workshop concurrently.
MEMS 1121 - APPLIED ENGINEERING SIMULATION IN DESIGN

Minimum Credits: 1
Maximum Credits: 1
Provide an environment for hands-on learning of simulation software and an opportunity to interact with the simulation student community. Provide a mechanism for the discussion of special topics and for guest speakers. Develop practical simulation software skills.

MEMS 1163 - CERAMIC MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Structure of ceramics and glasses. Microstructures and their development. Properties, processing, and applications.

MEMS 1174 - CERAMIC PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The course is focused on powder processing of ceramic materials. It is arranged according to the steps in processing, starting with powder synthesis and characterization, proceeding through the commonly used powder forming methods and finally to the high temperature sintering of the product.

MEMS 1256 - APPLIED COMPUTATIONAL HEAT AND MASS TRANSFER

Minimum Credits: 3
Maximum Credits: 3
Introduction to the implementation of commercial and open-source computational fluid dynamics (CFD) software to solve complex, multi-physics, multi-scale engineering problems. Topics covered include mesh generation, discretization and input uncertainty, model selection for internal and external laminar and turbulent flow, conjugate heat transfer, multi-phase flow, uncertainty quantification, and high-performance/supercomputing.

Medieval & Renaissance Studies

MRST 1002 - INTRODUCTION TO THE RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
The idea of the Renaissance is central to Western culture. Many of our values and tastes devolve from—or consciously react against—patterns that were established or reinterpreted five hundred years ago. The student who explores the renaissance, therefore, gains hold of one of the keys of Western civilization. He or she also acquires practice in critical reading, discussion, and the written expression of ideas.
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFML 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Medieval & Renaissance Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., SCI Polymathic Contexts: Soc/Behav. GE. Req., West European Studies, Writing Requirement Course

Microbiology

ORBIOL 1020 - PRINCIPLES OF MICROBIOLOGY

Minimum Credits: 4  
Maximum Credits: 4  
An introductory course in microbiology for dental hygiene students with no previous background in microbiology. Major areas included are microorganisms, immune mechanisms of the host and the interaction of the host and the microorganisms in disease and homeostasis. Major emphasis is placed on diseases with oral manifestations and infection control in dental medicine. The laboratory component is devoted to microbiological methods, infection control and oral ecology.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SU3 Elective Basis

ORBIOL 1025 - INTRODUCTION TO MICROBIOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
An overview of medical microbiology introduces the student to medically important bacteria, fungi, viruses, parasites and to immunity.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

ORBIOL 1900 - DIRECTED STUDY

Minimum Credits: 1  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SU3 Elective Basis

Modern Greek

GREEKM 0101 - GREEK (MODERN) 1

Minimum Credits: 4  
Maximum Credits: 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies

GREEKM 0102 - GREEK (MODERN) 2

Minimum Credits: 4  
Maximum Credits: 4  
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.  
Academic Career: Undergraduate  
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0231 or GREEKM 0101; MIN GRADE: 'C'
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies

GREEKM 0103 - GREEK (MODERN) 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting are cognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0232 or GREEKM 0102; MIN GRADE: 'C'
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies

GREEKM 0104 - GREEK (MODERN) 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0233 or GREEKM 0103; MIN GRADE: 'C'
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies

GREEKM 0105 - GREEK (MODERN) 5

Minimum Credits: 3
Maximum Credits: 3
Third-year Modern Greek builds on skills acquired in first and second year Greek. It is a thematic exploration of Greek culture at the advanced intermediate level. Through a combination of movies, songs, poems and newspapers, it exposes students to aspects of traditional and pop Greek culture as well as to important current issues. By the end of this course students should be able to: talk about ecology and the environment; discuss "rembetica" songs within their social context; look for a job, write a CV, prepare for an interview; and, understand the history of the Greek language.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0234 or GREEKM 0104; MIN GRADE 'C' FOR ALL LISTED COURSES
Course Attributes: European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies

GREEKM 0106 - GREEK (MODERN) 6

Minimum Credits: 3
Maximum Credits: 3
This course continues the thematic exploration of Greek culture at the advanced intermediate level. By the end of this year, students will be able to participate in most conversations employing common idiomatic language and express opinion and arguments with clarity and fluency. By the end of this course students should be able to: talk about the history of the Akropolis and the Olympic Games; discuss the achievements of the Byzantine Empire; employ useful banking and economic terminology; understand the Greek polity and the language of the Press; and engage with Modern Greek literature.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GREEKM 0105; MIN GRADE 'C'
Course Attributes: European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies, Transatlantic Studies, West European Studies
GREEKM 1615 - THE GREEKS: JOURNEY THROUGH CULTURE

Minimum Credits: 3
Maximum Credits: 3
What makes Greek culture appear both familiar and distinct? What are some of the root metaphors through which contemporary Greeks make sense of the world? How do Greeks approach their history and their future today? These are some of the questions that will inform our exploration of Greek culture and society in this course. Focusing on both history and social context, this course will introduce students to issues such as language and identity, continuity and social change, food and memory, narrative and metaphor, heroes and symbols, performance and ritual, crisis and transformation. It will expose students to the complexity and richness of experience and cultural expression in the Greek world and provide them with the tools to better analyze, understand and appreciate both the Greek as well as their own cultural practices.

Music

MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC

Minimum Credits: 3
Maximum Credits: 3
This class provides a comprehensive introduction to reading and understanding tonal music. It is intended for music majors preparing to enter the music theory sequence, or for non-majors who wish to learn to better understand and produce musical notation. Topics include pitch, rhythm and meter, scales, intervals, chords, and harmony. By the end of this semester, you will be able to identify basic harmonic progressions and musical forms both visually and aurally. Prior experience with music theory is neither required nor assumed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0111 - EXPERIENCING MUSIC HISTORY IN PITTSBURGH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
MUSIC 0115 - THE ALEXANDER TECHNIQUE

Minimum Credits: 1
Maximum Credits: 1
An elective, this course teaches musicians, actors, and other kinetic performers how posture and body awareness impact their health. Students will learn how to take conscious control of their movements during activities so their performances will be fluid, natural, poised and expressive to their fullest potential. The course will improve the quality of performance, daily routines, and study habit positions, and prevent repetitive movement through conscious release of the muscles in the upper body.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0121 - BASIC MUSICIANSHIP: CLASS PIANO

Minimum Credits: 3
Maximum Credits: 3
This course in basic musicianship provides non-music majors with keyboard skills while introducing them to basics of music theory. Course content includes scales, intervals, chords, and simple analysis. The course prepares students to transpose and sight read. Students will also be expected to take melodic dictation. Electronic pianos are used in class and are available for daily practice.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0122 - BASIC MUSICIANSHIP: CLASS GUITAR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide non-music majors with an introduction to the techniques of classical, folk, rock, and jazz guitar. While the emphasis is on playing skills, the course also introduces many aspects of music theory and notation.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0123 - BASIC MUSICIANSHIP: CLASS VOICE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for non-voice majors who want to develop their singing and sight-reading skills. It provides an introduction to posture, breathing, tone production, diction, and interpretation, while introducing students to the elements of music theory and notation.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0124 - INTERMEDIATE PIANO

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students who have previously studied the piano. Throughout the semester, you will set individual goals with your instructor and work toward meeting those goals. The class will include preparation for and performance in two recitals, where students will present polished performances of appropriately challenging pieces (one ensemble and one solo). Alongside these performance objectives, students will also undertake a study of musical form, developing large-scale listening and analysis skills.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0211 - INTRODUCTION TO WESTERN ART MUSIC
This class will examine the history, culture, and practice of "classical" music. We will explore the technical workings of music and learn what to listen for in a wide variety of musical styles. We will also discuss the values and meanings of music in different social and political contexts. No prior knowledge of music is necessary and there is no requirement to read music to succeed in the course.

MUSIC 0416 - MUSICIANSHIP 2

Minimum Credits: 1
Maximum Credits: 1
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0412; MIN GRADE: C
MUSIC 0417 - THEORY 3

Minimum Credits: 3
Maximum Credits: 3
This course introduces the principles and practice of chromatic harmony and voice leading, through a study of works by leading composers of the 18th and 19th centuries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0411

MUSIC 0419 - THEORY 4

Minimum Credits: 3
Maximum Credits: 3
The emphasis of this course will be the analysis of contemporary music from around the world. A member of the composition THEORY faculty will teach the course. In addition, ethnomusicology faculty will lead class sessions on a variety of conceptual approaches to music-making and the organization of sound throughout the world. This approach to music theory aims to benefit from the knowledge and experience of the broader music faculty. The first half of the semester will focus on developing the analytic techniques necessary for a careful investigation of a particular musical component (melody, rhythm, harmony, form, and so on). In the second half of the semester, students will focus on close analyses of particular pieces of music, with attention to the cultural context and aesthetic values that define individual works.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0411

MUSIC 0510 - VOICE-JAZZ

Minimum Credits: 1
Maximum Credits: 1
This course is designed to teach jazz vocal style and improvisation in an individualized setting. Students will learn the basics of jazz voice production through technical exercises at the keyboard. Jazz terminology will be introduced and students will internalize jazz rhythms and articulations. The course provides for active listening with an emphasis on sight singing and ear training. Students will explore scale pattern and modes as elements of improvisation. They will express such technique through call-and-response and the embellishment of standard jazz tunes. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0510
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0511 - VOICE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in vocal techniques and literature. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0511
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0512 - PIANO

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the piano. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0512
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0513 - ORGAN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the organ. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0513
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0515 - VIOLIN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the violin. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0513
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0516 - VIOLA

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the viola. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0517
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0517 - VIOLONCELLO

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the violoncello. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0517
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0518 - DOUBLE BASS / BASS GUITAR

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the double bass. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0518
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0519 - FLUTE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the flute. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0519
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0520 - OBOE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the oboe. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0520
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0521 - CLARINET

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the clarinet. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0521
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0522 - SAXOPHONE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the saxophone. Students receive instruction in both jazz and classical techniques. One hour private lesson per week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0522
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0523 - FRENCH HORN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the French horn. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
MUSIC 0524 - TRUMPET

Minimum Credits: 1  
Maximum Credits: 1  
This course provides instruction in the techniques and literature of the trumpet. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: Letter Grade  
Course Requirements: PREQ: MUSIC 0523  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0525 - BASSOON

Minimum Credits: 1  
Maximum Credits: 1  
This course provides instruction in the techniques and literature of the bassoon. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: Letter Grade  
Course Requirements: PREQ: MUSIC 0525  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0526 - TROMBONE

Minimum Credits: 1  
Maximum Credits: 1  
This course provides instruction in the techniques and literature of the trombone. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: MUSIC 0526  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0527 - PERCUSSION

Minimum Credits: 1  
Maximum Credits: 1  
This course provides instruction in the techniques and literature of percussion. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: Letter Grade  
Course Requirements: PREQ: MUSIC 0527  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0528 - JAZZ-STUDIO SET DRUMMING

Minimum Credits: 1  
Maximum Credits: 1  
Course will consist of the following styles of music technique for students to become qualified professionals in the entertainment industry. The music styles for the course will be: jazz, pop, big band, and recording session technique. These styles will also be enhanced with training in ear development, sight reading, and improvisational class demonstrations. Dietrich School students must complete three credits in performance courses
to meet the Creative Work General Education Requirement.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: MUSIC 0528  
**Course Attributes:** DSAS Creative Work General Ed. Requirement

**MUSIC 0529 - GUITAR**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course provides instruction in the techniques and literature of the guitar. Students receive a one hour private lesson each week. May be repeated for additional credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Attributes:** DSAS Creative Work General Ed. Requirement

**MUSIC 0530 - JAZZ GUITAR**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course provides instruction in the techniques and literature of the jazz guitar. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: MUSIC 0530  
**Course Attributes:** DSAS Creative Work General Ed. Requirement

**MUSIC 0533 - JAZZ PIANO**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course is designed to teach jazz piano and improvisation in an individualized setting. Students will learn the basics of jazz piano through technical exercises at the keyboard. Students will explore scale pattern and modes as elements of improvisation. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

**Course Attributes:** DSAS Creative Work General Ed. Requirement

**MUSIC 0540 - NON-WESTERN INSTRUMENTS**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course provides instruction in the techniques and literature of non-Western instruments. Students receive a one hour private lesson each week. May be repeated for credit. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Attributes:** DSAS Creative Work General Ed. Requirement

**MUSIC 0609 - GOSPEL CHOIR**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.
MUSIC 0611 - COLLEGIATE CHORALE

Minimum Credits: 1
Maximum Credits: 1
Open to students, faculty, staff, and community. The study and performance of traditional and contemporary choral works.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0612 - HEINZ CHAPEL CHOIR

Minimum Credits: 1
Maximum Credits: 1
An a capella choir singing a wide range of choral music. Regular performances on campus and on annual tour. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0612
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0613 - UNIVERSITY GLEE CLUB

Minimum Credits: 1
Maximum Credits: 1
An ensemble of men's voices that performs on campus and on tour. Repertoire ranges from traditional glee club numbers, through broadway hits, to works from the classical literature. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0613
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0614 - WOMEN'S CHORALE

Minimum Credits: 1
Maximum Credits: 1
Performs treble choral music from the 16th century to today. Members receive instruction in vocal technique and sight singing skills. Emphasis is given to diction and stage presence. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0614
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0615 - CARPATHIAN MUSIC ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
The ensemble introduces students to Hungarian, Slovak, Romanian, Polish, Ukrainian, Gypsy, and Jewish musical traditions. Through weekly rehearsals, students learn musical styles, improvisation techniques, and performance practices with regard to diverse yet mutually interconnected music genres. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Directed Studies
Bluegrass, a form of American roots music, is an Appalachian-based genre that draws on immigrant traditions, blues, gospel, and folk. Once associated primarily with poorer whites, it has been reclaimed by numerous musicians who have popularized it as a global genre. The popularity of bluegrass in Western Pennsylvania is, in part, a result of the broadening market of audiences and musicians. Pittsburgh's local embrace of bluegrass, however, can be understood, as an integral aspect of the city's refashioning. The Bluegrass Ensemble seeks to augment the University of Pittsburgh world music ensemble program through an emphasis on local music traditions. The ensemble will draw from students who have some experience with bluegrass instruments, including violin (fiddle), guitar, mandolin, banjo, and dobro. The ensemble will perform as a group on campus and will make connections with the folk music revival scenes in Pittsburgh.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MUSIC 0620 - UNIVERSITY ORCHESTRA

Open to students, faculty, staff, and community musicians. The orchestra performs a wide variety of works from the standard repertoire, along with contemporary compositions. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0620
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0630 - MARCHING BAND

The band performs at athletic events and in concert. Membership is by audition. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0630
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0631 - CONCERT BAND

The concert band prepares and performs music from the band repertoire. Membership is by audition. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0631
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0640 - JAZZ ENSEMBLE

Big band jazz performances and rehearsal techniques. Performances include festivals, concerts, and tours. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.

Academic Career: Undergraduate
MUSIC 0660 - AFRICAN DRUMMING ENSEMBLE

Minimum Credits: 1  
Maximum Credits: 1  
The ensemble focuses on the drumming techniques of selected African society, the ensemble performs in collaboration with the Afro-American dance class and the Oakland dance school, and various local schools. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0661 - THE PITT AFROPOP ENSEMBLE

Minimum Credits: 1  
Maximum Credits: 1  
In this course, students will learn how to perform and compose popular music styles that originated from or have a cultural connection to Africa. Through performance, the course exposes the interconnections between African music and the music of the African diaspora such as reggae and jazz.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

MUSIC 0672 - CHAMBER MUSIC

Minimum Credits: 1  
Maximum Credits: 1  
Students may elect chamber music to study any approved repertoire involving more than one instrument or voice. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

MUSIC 0673 - SMALL JAZZ ENSEMBLES

Minimum Credits: 3  
Maximum Credits: 3  
In this course, students will familiarize themselves with notable standard jazz songs and play them in small ensembles. Students will learn melodies and chord progressions of the assigned songs and improvise on them. In addition, basic jazz theory and performance conventions will be discussed. Furthermore, students are encouraged to write their original compositions. There will be midterm and final juries as well as a public concert at the end of the semester.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0690 - UNIVERSITY GAMELAN

Minimum Credits: 1  
Maximum Credits: 1  
A gamelan is a set of mostly percussive instruments featuring tuned bronze gongs, bronze-keyed instruments, and drums. In the beginning ensemble, students will learn how to perform simple compositions on several instruments as well as the basic organizing principles of javanese traditional music. The advanced ensemble is made up of students invited to join after at least one semester of beginning gamelan. Students in the advanced group will learn more complex instruments and pieces. The ensemble will also perform publically at least once every year. Dietrich School students must complete three credits in performance courses to meet the Creative Work General Education Requirement.  
Academic Career: Undergraduate  
Course Component: Lecture
GRADE COMPONENT: LG/SNC Elective Basis
COURSE ATTRIBUTES: Asian Studies, DSAS Creative Work General Ed. Requirement

MUSIC 0711 - HISTORY OF JAZZ

Minimum Credits: 3
Maximum Credits: 3
The course focuses on the chronological development of jazz from its beginnings on the plantation to its present state as a world concert music. Various styles such as ragtime, blues, gospel, spirituals, rhythm and blues, rock, soul, etc., are examined.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Creative Work General Ed. Requirement

MUSIC 0844 - THE MUSIC OF THE BEATLES

Minimum Credits: 3
Maximum Credits: 3
This course combines a study of the cultural context in which The Beatles worked with a consideration of how the music was created and evolved over time. Topics include the band's formative influences, relationships to contemporary artists, and evolution from live performing band to studio recording artists. Broader contextual themes include the rise of "teenage culture", Beatlemania as a phenomenon most closely associated with young female fans, and the band's relationship to the "youth counterculture".
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0847 - THE MUSIC OF LED ZEPPELIN

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the life and music of the band Led Zeppelin and the social and cultural conditions of the 1970s. Recipients of a Kennedy Center Honor for "lifetime contributions to American culture through the performing arts," Led Zeppelin is widely considered to be one of the most innovative, successful, and influential bands in the history of rock music. We will consider the band's formative influences; stylistic cross-influences with contemporary artists; and the song-writing and musical styles of individual band members. In this course, the band serves as a lightning rod for analyzing social issues of musical appropriation and race; gender and sexuality; Orientalism; and cultural rights and copyrights. We will pay close attention to the band's repertoire of songs (87 in all), which are astonishing for their variety and innovation. As progenitors of heavy metal, the course will assess the influence of Led Zeppelin during the last fifty years, and their place in the history of rock music. By the end of the semester, students will submit a paper that embraces critical thinking about music from analytical, historical, cultural, and multi-disciplinary perspectives. There are no prerequisites for this course; everyone is welcome. This course does not overlap with other courses in the Department of Music.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0854 - HEAVY METAL MUSIC

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0896 - MUSIC AND FILM

Minimum Credits: 3
Maximum Credits: 3
This introductory course, designed for non-majors with no previous background in music or film studies, examines music within the context of film, instructing students how to listen and think critically about the music and its relationship to the moving image and narrative.
MUSIC 1224 - LATER RENAISSANCE AND BAROQUE MUSIC

Minimum Credits: 3
Maximum Credits: 3
Starting with the new attitudes towards word-tone relationships that can be seen in the music of Josquin, and with the rise of idiomatic instrumental music, the course will trace those trends, among others through the music of such composers as Josquin, Willaert, Rore, Lassus, Monteverdi, Corelli, Vivaldi, Handel, and J.S. Bach.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: West European Studies, Writing Intensive Course (WRIT)

MUSIC 1226 - CLASSICAL AND EARLY ROMANTIC MUSIC

Minimum Credits: 3
Maximum Credits: 3
The course will begin a few decades before 1750, tracing the new stylistic trends that grew up in Italy and France during Bach's lifetime, and will continue through Mozart, Haydn, and Beethoven to the composers of the early nineteenth century who still composed within the classical aesthetic, e.g. Schubert, Schumann, and Mendelssohn.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*

MUSIC 1228 - LATE ROMANTIC AND EARLY 20TH CENTURY MUSIC

Minimum Credits: 3
Maximum Credits: 3
This course will begin with the more revolutionary nineteenth-century composers who worked in Paris--Chopin, Berlioz, Liszt--and trace the breakdown of tonality and the emergence of new styles and structural principles in the late nineteenth and twentieth centuries.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Russian & East European Studies, West European Studies, Writing Requirement Course

MUSIC 1230 - MUSIC SINCE 1945

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Western art music created since 1945.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1242 - MAJOR COMPOSER

Minimum Credits: 3
Maximum Credits: 3
This course examines the life and works of a major figure in Western art music. The content of the course changes, but it emphasizes music in its historical and cultural contexts, as well as individual genres and styles.

Academic Career: Undergraduate
Course Component: Lecture
MUSIC 1253 - LISTENING TO LIVE MUSIC PERFORMANCE

Minimum Credits: 3
Maximum Credits: 3
Listening to Live Music Performance is a course that hopes to deepen the way you understand music and, through new understanding, inspire the way you experience music! Over the course of the semester, we will explore, without prejudice, a variety of live music performances that will help you develop a lifelong ability to analyze music performance, think critically about the act of listening to music, and to consider your critical role as a member of the audience. The purpose of this class is to transform your experience with music by focusing on live performance. Music is a ubiquitous part of our everyday lives, so much so that many people have lost the ability to listen critically to what they are hearing. In many contexts, we are not even aware that music is playing until it is brought to our attention! Recorded music accounts for much of this ubiquity and it's also changed many listeners' relationship with music. Throughout the semester, we will explore the experience of listening to live performances of music, which may include large ensembles, chamber ensembles, solo concerts, and multi-media performances. Topics will include protocol and traditions of the audience, criteria for critical listening, and discrimination of basic elements of performance. Students will attend live performances, consider evaluative criteria for music performances, and develop critical listening skills. We will also have opportunities to speak with performers to learn about various ways of experiencing music. We are interested in developing critical skills to experience, analyze, and appreciate the myriad musical styles and contexts you will encounter over a lifetime of listening. To that end, this class is focused totally on the act of critical, experiential listening, how to do it, informed listening, and what it can tell the listener's not only about a piece of music, but about the culture and society that created that music, as well as the challenges faced by the increasing ubiquity of music in our world. You do not need a musical background to have a successful semester. Through listening, reading, and associated assignments, the objective is to deepen your experience of music.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1262 - CRITICAL LISTENING AND MUSIC CRITICISM

Minimum Credits: 3
Maximum Credits: 3
This course applies journalistic music criticism to develop critical listening skills crucial to learning about and performing classical and other music. In writing assignments and in class discussion, students will critique concerts and recordings, then defend their opinions with factual evidence.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1270 - MUSIC, CULTURE & TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
Students will engage with major social, historical, and cultural issues affecting music technology in the West from the phonograph in the 19th century to the iPhone in the 21st.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1271 - THE SOUNDS OF ROMANTIC COMEDY

Minimum Credits: 3
Maximum Credits: 3
Sometime between Ernst Lubitsch's The Shop Around the Corner (1940) and Nora Ephron's You've Got Mail (1998), romance changed in the United States. Where class and wealth used to be deciding factors for romantic love, there now emerged the concept of the soulmate, who could be anyone. In this course, we will watch American romantic comedies of the last 100 years, paying particular attention to how the development of the soundtrack has changed what love sounds and feels like. Students will develop skills in closely analyzing sound and image in film, critically interpreting popular culture in relation to broader events in society, and thinking about the relation between music, identity, and politics. In particular, we will together develop answers to the following questions: how did capitalism, social justice movements, the changing nature of work, and other cultural transformations affect what people expected from intimate union? What aesthetic norms for representing romance changed alongside cultural norms?
How is the narrative of love inflected by race, gender, ethnicity, sexuality, religious difference, ability difference, and/or economic disparity?

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### MUSIC 1273 - JAZZ AND FILM

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Ralph Ellison, the author of the American classic Invisible Man, asserted that all of American life was "jazz-shaped." By this he meant that jazz (and blues) were more than music, that jazz (and blues) had ubiquitously infiltrated American life, and that it served as a model for an expanding pluralist culture. Jazz and Film explores this notion in three areas: in representations of jazz culture on film, in the sonic presence of jazz in film, and the influence of jazz on filmmaking. Students will give weekly responses to readings, films, or recordings, and will write a research paper on a topic of their own choosing.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### MUSIC 1280 - MUSIC, ARTS, AND CONFLICT

**Minimum Credits:** 3  
**Maximum Credits:** 3

**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** DSAS Global Issues General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

### MUSIC 1308 - CULTURAL POLITICS OF SOUL

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This is an introductory level course which examines soul music as a lived cultural practice, an artistic genre, a transnational phenomenon, and an important historical site for the articulation of gender, race and class in both American popular culture and the African diaspora. Special attention is placed on the transitions and parallels of "soul" as a musical genre, with "soul" as a marker of cultural politics and identity. As a musical genre, "soul" was first recognized as the secular reinvention of the Southern, gospel tradition, acting as a soundtrack to the Civil Rights Movement. Once the Black community merged this music with the ideals of Black radical politics, it transformed the popular genre into an urban practice of "Soul Power," which then acted as a soundtrack to the Black Power Movement. Positioning music within a broader context of postcolonial, technological, and transnational development, this course analyzes the rich intersections of music, culture, and politics as it exists in soul music as well as the entire media apparatus, including independent and corporate record labels, African American print media, and radio, television and film, that gave rise to the soul music industry. There are no prerequisites for this course, nor do students need to have any formal training in music or need to know how to read western music notation.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
MUSIC 1310 - GLOBAL AND POPULAR MUSIC

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to theories and research methodologies in global and popular music, including but not limited to musical and textual transcription, fieldwork and methods for relating social behavior to musical behavior.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1312 - GLOBAL MUSIC INDUSTRIES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1320 - AMERICAN MUSIC

Minimum Credits: 3
Maximum Credits: 3
The course will focus on the major genres crucial to the understanding of music in American life, both written and unwritten as well as popular, vernacular and classical. Special attention will be given to the results of acculturation.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1321 - MUSIC, GENDER AND SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: SCI Diversity General Ed. Requirements, SCI Polymathic Contexts: Humanistic GE. Req.

MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

Minimum Credits: 3
Maximum Credits: 3
This course is designed to familiarize the student with various phases of African-American music existing in North America; blues, gospel-spirituals, work songs, children's games songs, and classical compositions of ragtime composers Scott Joplin, J.P. Johnson, etc. Students will conduct field projects centered around "street recordings, locations, interviews of local and visiting artists, etc." A detailed study of great Pittsburgh performers present and past will constitute a major portion of this course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1327 - GLOBAL HIP HOP

Minimum Credits: 3
Maximum Credits: 3
This seminar analyzes how diverse groups of musicians and listeners use hip-hop to express local and transnational claims of belonging through the appropriation of musical genres identified with the West and with African Americans in particular. A closer reading of global hip-hop practices offers insights into the genre's artistic goals and its social profile in a variety of contexts. Through analyses of locally distinct musical expressions, marketing trends within national and global music industries, and state-sponsored policies relating to hip-hop, this course sheds light on hip-hop's role in constituting cultural and political identities among diverse groups of people in the U.S. And abroad.
Academic Career: Undergraduate
Course Component: Lecture
MUSIC 1328 - CREATIVE ETHNOMUSICOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course introduces a diverse students from the University of Pittsburgh and SCI Fayette to music genres from the world. Drawing on examples from Sub-Saharan Africa, Latin America, Mexico and the Caribbean, this course provides students with the analytical tools with which to better comprehend the intertextual nature of sound. Postcolonial studies, race, and gender studies offer a theoretical lens for analyzing the musical traditions in context. Lectures frame the genres within broader theoretical narratives informed by cultural modes of perception and physical reactions to sound. Giving space to develop and share aesthetic emotions, the course fosters a learning environment in which students work individually and in collaborative groups to create informed projects inspired by aspects of the musical traditions covered in the course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1332 - MUSIC IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Mexico, Venezuela, Columbia, Panama, and Peru will be the major countries represented in this general survey of the music of Latin America. The course will be taught in a lecture-discussion format with extensive use made of recordings, slides, and films. Some actual performance of drumming traditions will be included.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Latin American Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

MUSIC 1340 - MUSIC IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course examines the historical social and cultural background of music in Africa with particular reference to music in community life, performing groups, the training of musicians, instrument structures in African music, and the interrelations of music and dance. (Slides, films, and recordings will be used to illustrate lectures.)
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1341 - WEST AFRICAN PERFORMING ARTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1352 - MUSIC IN SOUTHEAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of southeast Asia; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: Undergraduate
Course Component: Lecture
MUSIC 1356 - MUSIC IN THE MIDDLE EAST

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of the middle East and India; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1358 - MUSIC IN SOUTH ASIA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of South Asia; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1360 - ROMANI / GYPSY MUSIC

Minimum Credits: 3
Maximum Credits: 3
Gypsy music has emerged as one of the most popular world music genres in the last two decades. The genre's success on the world stage is closely connected with the Romani (gypsy) minority rights movement, which has strengthened on local, national, and international levels due to increased education opportunities for roam, and more positive representation in the media. The present proliferation and popularization of a great variety of musical styles marketed as 'gypsy' points to the fact that Romani musical expressions draw their musical characteristics from Romani and non-Romani elements. Styles are differentiated according to time, place, and cultural influences with regard to ornamentation, language choice, vocal timbres, and choice of instruments. This course analyzes the musical varieties within genres marketed as ‘gypsy’ and offers broader political, economic, and historical perspectives on a variety of factors rooted in race, ethnicity, gender, and class relations that have contributed to contemporary understandings of 'gypsy' music.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1366 - HYMNS & HIPHOP: SOUNDS OF ISLAM

Minimum Credits: 3
Maximum Credits: 3
From its inception, the Islamic tradition has placed a heavy emphasis on the word and on listening to the word, and has developed a rich and ambiguous relationship to sound. This course draws on theological, historical, anthropological and theoretical perspectives to investigate the this relationship. We discuss various scholarly approaches to the senses, the relationship between listening and power, and the changing conceptions of what it has meant to listen in Islamic culture. In particular, we discuss how new media technologies and popular culture have transformed sound in Muslim communities, and how the ongoing "war on terror" has refashioned Islamic soundscapes.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1396 - MUSIC IN SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course will explore critical perspectives on topics such as non-normative music history, queer modes of expression, subcultural music-making, and the implications of mainstream visibility. Along the way, the course will survey some notable lesbian/gay/bisexual/ transgender/queer composers and musicians in both art music and popular music. Course materials include readings, recordings, and possibly musical events and current media.
MUSIC 1397 - MUSIC AND RACE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1398 - WOMEN & MUSIC CROSS-CULTL PERSP

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with music of, by, and about women from a cross-cultural perspective. Topics include, but are not limited to, traditional and ritual music, music as empowerment, sexual aesthetics, women as composers and performers, and feminist music criticism.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*

MUSIC 1399 - MUSIC AND QUEER IDENTITY

Minimum Credits: 3
Maximum Credits: 3
In this course, we will explore critical perspectives on topics such as non-normative music history, queer modes of expression, subcultural music-making, and the implications of mainstream visibility. Along the way we will survey some notable lesbian/gay/bisexual/transgender/queer composers and musicians in both art music and popular music.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*

MUSIC 1421 - COMPOSITION 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the craft of musical composition, students receive individual instruction in composition, and usually create works using materials from the "common practice" period studied in MUSIC 0417 and 0419. Ability to read music notation fluently.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0417 and 0419

MUSIC 1422 - COMPOSITION 2

Minimum Credits: 3
Maximum Credits: 3
Starting from the novel premise that two of the most important considerations for composers are 1) how their music sounds and 2) what listeners hear in it, this course explores strategies to develop, edit and otherwise improve the conception, notation, performance and reception of student's compositions.
Academic Career: Undergraduate
MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION

Minimum Credits: 3
Maximum Credits: 3
A survey of different styles of instrumentation and orchestration in the European art music tradition. Focus of the course may change from year to year.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to composing electronic music. It includes instruction in MIDI and audio sequencing, synthesis, sampling, effects, and other digital audio concepts. Course-work will primarily involve a series of creative projects utilizing a variety of techniques.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1442 - ELECTRONIC AND COMPUTER MUSIC 2

Minimum Credits: 3
Maximum Credits: 3
This course is a continuation of MUSIC 1441. It provides further experience in composing music in the university of Pittsburgh computer and electronic music studio, instruction in the advanced digital audio applications, and hard disk recording and editing.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 1441

MUSIC 1443 - PROGRAMMING ENVIRONMENTS IN MUSIC - AN INTRODUCTION TO MAX/MSP

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1450 - MUSIC PRODUCTION AND RECORDING

Minimum Credits: 3
Maximum Credits: 3
With the rapid changes taking place in the music industry, it is incumbent that all aspiring musicians and performing artists understand the means and methods of music production and recording. Throughout the semester, students will enjoy (1) hands-on experience, (2) recording projects with guest artists in class, (3) learning simple editing and mastering two-track (stereo) recording, and (4) learning to mix and master multi-track recordings. In-class projects will include actual recording of performers (mainly from the class) with an emphasis on Jazz. Upon completion, students will be able to organize and execute recording sessions of their own. Readings will be assigned throughout the semester; quizzed and individual projects will be used to assess students.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1725 - JAZZ AND PROTEST
MUSIC 1726 - MARY LOU WILLIAMS: STUDYING JAZZ, GENDER, AND RACE THROUGH A PITTSBURGH ICON

Minimum Credits: 3
Maximum Credits: 3
Few figures in jazz enjoyed a longer or more dynamic career than Mary Lou Williams. After emerging as a child prodigy in Pittsburgh in the 1920s, Williams became one of the most sought-after arrangers of the swing era and a germinal figure in the bebop movement. Her later work included compositions for chamber and symphonic orchestras, a full mass setting, and even concerts with avant garde improvisers. At every turn, Williams cultivated a reputation for elegant arrangements, stalwart professionalism, and a fiercely swinging piano style. This course will examine Williams' storied life and work, paying particular attention to the larger contexts relating to jazz and gender in the 20th century. Like many women artists, Williams never wished to be reduced solely to her gender—a trend too-frequently embedded in patronizing epithets like "the great female pianistâ€”Our discussions will therefore seek to avoid framing her in overly-reductive ways. We will strive toward a deeper interrogation of how jazz's complex and often fraught discourses surrounding gender impacted Williams' career, as well as those of subsequent generations of artists. The course will explore a wide range of texts (some unrelated to Williams) in order to grapple with such issues. In doing so, we seek not only to celebrate the legacy of one major jazz composer, but also to think about the cultural landscapes that underlie the construction of such legacies in the first place.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

MUSIC 1731 - JAZZ COMPOSITION AND ARRANGING 1

Minimum Credits: 3
Maximum Credits: 3
This course develops the students' knowledge of the techniques of jazz-rock composition and arranging. The distinctive features of jazz-rock harmony are studied, and students write arrangements for various instrumental combinations.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1732 - JAZZ COMPOSITION AND ARRANGING 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of music 1731. The course develops the student's knowledge of the techniques of jazz-rock composition and arranging. The distinctive features of jazz-rock harmony are studied, and students write arrangements for various instrument combinations.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1741 - JAZZ IMPROVISATION 1

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of the techniques of jazz-rock-pop improvisation. Students develop a repertoire of current standards and compose and analyze pieces in several styles.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1742 - JAZZ IMPROVISATION 2

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of the techniques of jazz-rock-pop improvisation. Students develop a repertoire of current standards and compose and analyze pieces in several styles.
Minimum Credits: 3
Maximum Credits: 3
A continuation of music 1741. The course provides an analysis of the techniques of jazz-rock-pop improvisation. Students develop a repertoire of current standards and compose and analyze pieces in several styles.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1900 - MUSIC INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The music internship provides majors with opportunities to develop skills in music-related professions. Students are responsible for finding an appropriate internship that is approved by a faculty member in music who agrees to oversee the student's work. May be taken for 1-3 credits, based on University guidelines relating to internship requirements. A maximum of 3 credits may be applied toward a music major.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Letter Grade

MUSIC 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Independent study is elected by students who are making significant use of university resources in an independent project not related to any regularly offered course. The project is often off campus, but with some guidance from sponsoring faculty member(s).
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

MUSIC 1903 - SPECIAL TOPICS-DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
This course consists of an individual project, exploring a topic not currently covered by any course offering. The student plans and carries out a research project in conjunction with a supervising faculty member.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MUSIC 1904 - SENIOR SEMINAR

Minimum Credits: 3
Maximum Credits: 3
The seminar is required of students wishing to earn a major in music. The topic of the seminar changes, but participants are expected to produce a major research project or other approved project displaying the ability to work independently at an advanced level.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ENG 0102 or ENG CMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Capstone Course, DSAS The Arts General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req., Writing Requirement Course

MUSIC 1970 - UNDERGRADUATE TEACHING ASSISTANT EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
This course involves student participation as an Undergraduate teaching assistant (UTA) for a music course under the supervision of a faculty member.
Academic Career: Undergraduate
National Preparedness and Homeland Security

NPHS 1510 - FEDERAL AND INTERNATIONAL FRAMEWORK FOR EMERGENCY PREPAREDNESS

Minimum Credits: 3  
Maximum Credits: 3  
NPHS 1510 covers overarching frameworks for the federal government's planning and response to crises. These include the National Response Framework (NRF) and the National Incident Management Systems (NIMS), which establishes the Incident Command System (ICS) and the Emergency Support Functions (ESFs). Because the federal government is the interface with foreign governments for events with transnational elements, international aspects of crisis management and the international context for threat assessment are covered in this course.

Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1520 - STATE AND LOCAL FRAMEWORK FOR EMERGENCY PREPAREDNESS

Minimum Credits: 3  
Maximum Credits: 3  
All response to crisis begins locally. NPHS 1520 presents ways in which states, regions and localities have implemented response planning for their jurisdictions. It also explores boundaries between federal and state law, and how, for example, decisions are made for evacuation versus sheltering in place. Case studies and models for drafting response plans will be offered and rehearsed, as well as templates for planning and allocation of resources.

Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1530 - ANALYSIS, INTELLIGENCE AND DECISION TOOLS FOR EMERGENCY PREPAREDNESS

Minimum Credits: 3  
Maximum Credits: 3  
Efforts to professionalize the emergency management workforce include familiarizing the next generation with modern decision support software and analytical tools now used in planning and responding to crises. These include discrete- and agent-based simulation, geographical information systems, pattern recognition, virtual reality and predictive modeling tools. This course will offer introductory experience with these tools in realistic crisis scenarios. NPHS 1530 also will explore realities that are changing the delivery of emergency services to a model based on distributed versus centralized operations.

Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1540 - CAPSTONE COURSE IN EMERGENCY PREPAREDNESS

Minimum Credits: 3  
Maximum Credits: 3  
Along the lines of workshops conducted by the Defense Advanced Research Projects Agency (DARPA), the capstone course is dedicated to exploring a variety of solutions to a single, complex, interdisciplinary problem - a "wicked" problem - in emergency management. "Wicked" problems are complex problems for which there is an unlimited number of potential solutions, but choosing among them is difficult because they have huge impacts and there are no immediate or ultimate tests of their worth - they are neither true nor false but good or bad. The "wicked" problem considered in NPHS 1540 may change from term to term to meet emerging demands or class composition.

Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1800 - PUBLIC HEALTH PREPAREDNESS AND EMERGENCY RESPONSE
Minimum Credits: 3
Maximum Credits: 3
This course teaches Undergraduates and post-baccalaureate students about the responsibilities, roles, and functions of public health in disaster planning, mitigation, response, and recovery. All classes use real-life disasters and emergencies as learning modules. The course is divided into 3 modules: module 1 covers the role and function of public health in the United States both historically and with the addition of more explicit disaster preparedness and response functions in recent years. Module 2 covers public health priorities and functions in all major forms of disasters, with a particular emphasis on environmental health emergencies, pandemics, and bioterrorism. Module 3 covers organized and spontaneous response activities, including how communities work together (or not) to deal with a wide variety of threats.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1900 - INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Students registered for NPHS 1900 pursue an internship involving work related to national preparedness and emergency management. Students are responsible for securing internships and a faculty member to sponsor the internship. Students should produce academic work in conjunction with their internship, which the faculty sponsor will evaluate and grade. Faculty permission is required prior to enrollment. Consult an advisor for further information.

Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1901 - INDEPENDENT STUDY

Minimum Credits: 3
Maximum Credits: 3
Students registered for NPHS 1901 pursue research on a project related to national preparedness and emergency management under the direction of a faculty member. Students develop a study plan with the faculty member, typically working independently on a paper or report, with occasional meetings. Faculty permission is required prior to enrollment. Consult an advisor for further information.

Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

Neuroscience

NROSCI 0080 - BRAIN AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the relations between brain function and overt behaviors. Topics include: the control of movement, sensory processing, mechanisms controlling sleep, arousal, and other circadian rhythms, hunger and thirst, learning and memory, the biological bases of neuropsychiatric disorders, and the functioning of the cerebral hemispheres. Many clinical disorders will be discussed including language disorders, amnesia, epilepsy, depression, anxiety, schizophrenia, and Alzheimers disease.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0081 - DRUGS AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course provides a general background in the fields of neuroscience and psychopharmacology. The course examines the behavioral effects and biological mechanisms of action of the major groups of psychoactive compounds, including stimulants, depressants, narcotics, and hallucinogens. Drugs used in the treatment of common psychiatric neurological disorders, such as schizophrenia, depression, and Parkinson's disease, will also be discussed.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0083 - UHC BRAIN AND BEHAVIOR

Minimum Credits: 4
Maximum Credits: 4
This course examines the function of the mammalian nervous system. Specific topics include sensation, movement, sleep and wakefulness, hunger, thirst, and various neurological and psychiatric disorders. One class meeting per week will discuss some of the original research articles presented in the general lectures. This course has no prerequisites, although BIOSC 0150 or its equivalent is recommended.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1000 - INTRO TO NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course examines the anatomy, physiology, and pharmacology of the central and peripheral divisions of the nervous system. Specific topics covered include neuronal function, synaptic transmission, sensory processing, movement, sleep and wakefulness, hunger, thirst, caloric and body fluid homeostasis, recovery of function after brain damage, and various neurological and psychiatric disorders.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: (BIOSC150or170or715or190orBIOL101or110)and(BIOSC160or180or191or716orBIOENG1071orBIOL102or120)and(CHEM101or110or710or760or960orCHEM111or410)and(CHEM 102or120or720or770or970)or(CHEM420and440)or(CHEM112and114);MINGRAD: 'C' for listed Courses

NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE

Minimum Credits: 4
Maximum Credits: 4
This honors course examines the anatomy, physiology, and pharmacology of the central and peripheral divisions of the nervous system. Specific topics include neuronal function, synaptic transmission, sensory processing, movement, sleep and wakefulness, hunger, thirst, caloric and body fluid homeostasis, recovery of function after brain damage, and various neurological and psychiatric disorders. Course includes in-depth discussions of original research articles presented in the general lectures.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: (BIOSC150or170or715or190orBIOL101or110)and(BIOSC160or180or191or716orBIOENG1071orBIOL102or120)and(CHEM101or110or710or760or960orCHEM111or410)and(CHEM 102or120or720or770or970)or(CHEM420and440)or(CHEM112and114);MINGRAD: 'B' for Courses; LVL:Fr,So,Jr;MINGPA3.25
Course Attributes: DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req., University Honors Course

NROSCI 1011 - FUNCTIONAL NEUROANATOMY

Minimum Credits: 3
Maximum Credits: 3
This course deals with human neuroanatomy and covers the basic structure of the central nervous system from spinal cord to cerebral cortex. Emphasis is placed on major systems and subsystems within the brain, and on their functional significance. The basic structure and morphology of nerve cells will be covered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)
NROSCI 1012 - NEUROPHYSIOLOGY

Minimum Credits: 3  
Maximum Credits: 3

This course examines the functioning of neurons and synapses, the basic units responsible for fast communication within the nervous system. The course focuses on the elegant use of electrical mechanisms by the nervous system, and on the powerful quantitative approach to scientific investigation that is fundamental to neurophysiology. Topics include: principles of electric current flow exploited by the nervous system; the basis of the resting potential of neurons; the structure and function of voltage-gated and neurotransmitter-gated ion channels; the generation and propagation of action potentials; the physiology of fast synaptic communication.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: [NROSCI 1000 (MIN GRADE 'B-') or NROSCI 1003 (MIN GRADE 'B-')] and (CHEM 0120 or 0720 or 0770 or 0960 or 0102 or 0112) and (PHYS 0110 and 0111 or 0174 and 0175) and MATH 0220; PLAN: Neuroscience (BS or MN)

NROSCI 1013 - FUNCTIONAL NEUROANATOMY (UHC)

Minimum Credits: 4  
Maximum Credits: 4

This is an honors course that deals with issues of how we can understand the function of the human brain through the study of neurological diseases. The manifestations of selected neurological diseases are presented and discussed in the context of how they can be analyzed and understood through application of the findings from basic research in neuroscience.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: NROSCI 1000 or 1003; Min Grade 'B'

NROSCI 1014 - SPEAKING OF SCIENCE

Minimum Credits: 3  
Maximum Credits: 3

Students will learn strategies for giving presentations about science to both a scientific audience and a public audience. Topics covered will include 1) how to engage our audience, 2) the art of breaking down your message, 3) tips to make clear, interesting slides, and 4) pointers on presentation style. All audiences want to learn interesting new scientific information, and have it delivered as a good story in an understandable manner by a personable, easy to approach person. Communication skills, including knowing your audience and why they are interested in the information you are speaking about, how to translate scientific jargon into understandable concepts for the public, and how to keep the audience engaged will be discussed. Pointers will be given on answering questions, being conversational, and conveying the "big picture". Students will give a number of presentations in this course and learn to receive and give feedback effectively.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: NROSCI 1000 or 1003; Min Grade 'B'  
Course Attributes: University Honors Course

NROSCI 1017 - SYNAPTIC TRANSMISSION

Minimum Credits: 3  
Maximum Credits: 3

This course examines the mechanisms by which neurotransmitters are synthesized and released and the biochemistry of synaptic responses. Basic physiological, biochemical, and morphological characteristics of neuronal transmission will be discussed. An emphasis will be placed on the experimental approaches used to examine these processes.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRADE 'B-' for Listed Courses

NROSCI 1018 - UHC NEUROPHYSIOLOGY

Minimum Credits: 4  
Maximum Credits: 4

Academic Career: Undergraduate  
Course Component: Lecture
NROSCI 1026 - FOUNDATIONS OF CLINICAL NEUROPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This is a three credit advanced elective course that will cover the fundamental and basic principles used in the practice of clinical neurophysiology with the goal of providing an overview of both basic science and clinical topics relevant to performing intraoperative neurophysiological monitoring in a surgical setting. Topics will include anatomy and physiology of the motor and sensory systems and the theoretical basis of electroencephalography, sensory and motor evoked potentials, electromyography, transcranial Doppler and compound action potentials. Students will be able to explain the practical applications of these techniques in the diagnosis of nervous system disorders and in the continuous monitoring of the integrity of the human nervous system during surgical procedures.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-' or 1003 (MIN GRADE: 'B-') and (NROSCI 1011 or 1013) and (NROSCI 1012 or 1018); PLAN: Neuroscience (BS or MN)

NROSCI 1027 - NEUROSCIENCE PROSEMINAR

Minimum Credits: 2
Maximum Credits: 2
Program graduate students, postdoctoral fellows, and faculty will present an overview of their respective research topics and discussion of current research articles on that topic. Critical analysis of experiments and research is emphasized.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)
Course Attributes: Capstone Course

NROSCI 1028 - SIGNALING PATHWAYS IN SYNAPTIC PLASTICITY

Minimum Credits: 3
Maximum Credits: 3
This class focuses on signaling mechanisms, which underlie long-term synaptic plasticity. It will address the molecular pathways, which regulate thresholds for synaptic plasticity, the synaptic machinery for induction and expression of long-term synaptic plasticity and how it is converted to structural changes of the neural network, which might underlie the consolidation of memory. The presentations will be guided by experimental approaches, which have influenced the conceptual framework.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Neuroscience (BS or MN); PREQ: NROSCI 1000 or 1003 (MIN GRADE: B- for listed courses)

NROSCI 1030 - PSYCHTRC DISORDERS AND BRAIN FUNCTION

Minimum Credits: 3
Maximum Credits: 3
This course examines the neurobiological basis of psychiatric disturbances (including schizophrenia, depression, Parkinson's disease, and Huntington's chorea). The initial portion presents an overview of basic neuropharmacology, with an emphasis on recent findings of relevance to psychiatric disorders. The major portion consists of lectures on the anatomical, physiological, and neurochemical bases for specific psychiatric disturbances, and the mechanism of action of therapeutic drugs used in their treatment. A strong neuroscience background is required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [NROSCI 1000 (MIN GRADE 'B-') or NROSCI 1003 (MIN GRADE 'B-')] and NROSCI 1011 or NROSCI 1013; PLAN: Neuroscience (BS or MN)

NROSCI 1032 - FUNCTIONAL ORGANIZATION OF THE HUMAN NERVOUS SYSTEM

Minimum Credits: 3
Maximum Credits: 3
The intent of this course is to examine the biological basis of neurological dysfunction and to use this information to gain further insight into the functional organization of the human nervous system. A disease oriented approach will be used to illustrate localization of function. Well known clinical cases will define the functional consequences of disease or damage to regions of the brain and current information on the mechanisms underlying the disease process or physical damage will be used to provide further insight into the functional alterations that contribute to the deficit.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: NROSCI 1000 (MIN GRADE: 'B-') or 1003 (MIN GRADE: 'B-') and NROSCI 1011 or NROSCI 1013; PLAN: Neuroscience (BS or MN)

**NROSCI 1033 - NEURAL BASIS OF VISION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the neural basis of visual perception and action. It is divided into four units. The first unit covers methods for studying visual perception and its neural basis and discusses the neural hardware that underlies our ability to see. The second unit covers object recognition, cognitive factors that influence visual perception, and how the way we are planning to use visual information affects the way it is encoded in the brain. Unit three focuses on perceptual decision-making and using visual motion as a model system. We will also touch on some data analysis methods for using psychophysical and neuronal data to figure out how we make decisions based on visual information. The fourth unit will focus on perception of color and depth and on how visual perception develops after birth. Throughout the course, we will focus on what neural mechanisms can tell us about how we perceive the visual world and on how we can design experiments to better understand the relationship between neural mechanisms and perception.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (NROSCI 1000 or NROSCI 1003 (MIN GRADE 'B-')) and NROSCI 1011 or 1013; PLAN: Neuroscience (BS or MN)

**NROSCI 1034 - NEURAL BASIS OF COGNITION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This advanced elective is designed for students interested in learning about the neural basis of higher order cognitive functions, with an emphasis on cortical mechanisms. Topics will include: occipitotemporal mechanisms of visual perception; parietal mechanisms of spatial attention and vision for action; premotor mechanisms of action planning and movement execution; prefrontal mechanisms of working memory and behavioral control; hippocampal mechanisms of episodic memory; multimodal integration and cognitive effort.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: NROSCI 1000 or NROSCI 1003 (MIN GRADE 'B-')) and NROSCI 1011 or NROSCI 1013; PROG: School of Arts & Sciences; PLAN: Neuroscience (BS or MN)

**NROSCI 1036 - NEUROBIOLOGY OF AGING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines age-related changes in neurobiological systems, including motor, sensory, cognitive, and neuroendocrine. Emphasis will be placed on distinguishing biochemical, molecular, physiological, and behavioral changes associated with normal aging versus changes associated with pathologic conditions such as Alzheimer's disease. Introductory lectures will discuss different theories of aging, how aging is studied in the laboratory, and how these relate specifically to neuroscience.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: [NROSCI 1000 (MIN GRADE 'B-')] and NROSCI 1003 (MIN GRADE 'B-')] and NROSCI 1011 or NROSCI 1013; PLAN: Neuroscience (BS or MN)

**NROSCI 1038 - RESEARCH IN BEHAVIORAL NEUROSCIENCE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
NROSCI 1039 - PROCESSING IN NEURAL CIRCUITS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (NROSCI 1000 or 1003) and (NROSCI 1011 or 1013)

NROSCI 1040 - BIOLOGICAL BASIS OF LEARNING AND MEMORY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or 1003 (MIN GRADE: 'B-') and (NROSCI 1012 or 1018) and NROSCI 1017; PLAN: Neuroscience (BS or MN)

NROSCI 1041 - DEVELOPMENTAL NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)

NROSCI 1042 - NEUROCHEMICAL BASIS OF BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)

NROSCI 1043 - NEURAL PLASTICITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or 1003 (MIN GRADE: 'B-'); PLAN: Neuroscience (BS or MN)
NROSCI 1045 - TOPICS IN NEUROSCIENCE

Minimum Credits: 1
Maximum Credits: 6
Flexible subject matter oriented to special topics of interest to the faculty.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (NROSCI 1000 or 1003); MIN GRAD: 'B-' for all listed Courses; PROG: School of Arts and Sciences

NROSCI 1046 - TOPICS IN NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or 1003 (MIN GRADE: 'B-'); PLAN: Neuroscience (BS or MN)
Course Attributes: Capstone Course

NROSCI 1048 - UHC TOPICS IN NEUROSCIENCE RESEARCH

Minimum Credits: 2
Maximum Credits: 2
The goal of this course is to learn how to read articles in the field of neuroscience. Assigned readings are the original articles based on laboratory research that provided the source of information concerning three topics: neuroplasticity, hunger and the brain's control of food intake, and thirst and the brain's control of fluid intake.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

NROSCI 1049 - RESEARCH TOPICS IN NEUROSCIENCE

Minimum Credits: 1
Maximum Credits: 1
This course is required for all newly declared majors. This course will provide students with an overview of research conducted by neuroscience faculty and familiarize students with potential research topics.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: NROSCI 1000 or 1003; MIN GRAD: 'B-' for listed courses; PLAN: Neuroscience (BS); LEVEL: SOPHMORE, JUNIOR, SENIOR

NROSCI 1070 - HUMAN PHYSIOLOGY-UHC

Minimum Credits: 4
Maximum Credits: 4
Lectures and reading on the following: (1) functions of the cardiovascular system; (2) respiration; (3) digestion and absorption in the gut; (4) kidney function and the regulation of body fluids; (5) the regulation of metabolism; and (6) reproduction.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191 or 0716 or BIOENG 1071 or 1072 or BIOL 0102 or 0120) and [CHEM 0102 or 0120 or 0720 or 0770 or 0970 or (CHEM 0112 and 0114)]; MIN GRADE 'C' for all listed courses
Course Attributes: University Honors Course

NROSCI 1097 - UNDERGRADUATE TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 2
This course is intended for neuroscience majors who wish to assist faculty in the teaching of a NROSCI core course or a NROSCI advanced elective.
Students and faculty meet regularly to discuss the important topics for each week and effective teaching techniques.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** LG/SNC Elective Basis

### NROSCI 1111 - FUNCTIONAL NEUROANATOMY HONORS PRACTICE

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  
This is an honors course that supplements NROSCI 1011 by using several approaches to study the functional organization of the nervous system. Examples of such approaches are studying human and animal brain material and discussing important original papers in neuroanatomy.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE ‘B’-); PLAN: Neuroscience (BS or MN)  
**Course Attributes:** University Honors Course

### NROSCI 1112 - FUNCTIONAL NEUROANATOMY HONORS PRACTICUM

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This honors course supplements the material in the companion lecture course, NROSCI 1011, in two ways. In the initial laboratory portion of the course, human and animal brain tissue will be examined to provide students a first-hand knowledge of the structures that make up the brain and spinal cord. Subsequently, major journal articles that were key in establishing the scientific principles discussed in NROSCI 1011 will be reviewed. This portion of the course will allow students to gain insights into the methods that neuroscientists use to learn about the nervous system. This is a three credit course and will count as an advance elective for majors.

**Academic Career:** Undergraduate  
**Course Component:** Credit Laboratory  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: NROSCI 1000 or 1003; Min Grade ‘B’-; COREQ: NROSCI 1011 or 1013; PLAN: Neuroscience (BS or MN)

### NROSCI 1140 - BIO BASIS OF LEARNING AND MEMORY-UHC

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
This course is designed to provide an overview on the neural basis of simple learned behavior like classical conditioning. Topics covered include experimental results obtained by anatomical, electrophysiological and biochemical techniques. Emphasis will be placed on research undertaken in invertebrate and vertebrate models, as well as in isolated mammalian preparations.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE ‘B’-)) and (NROSCI 1012 or 1018) and NROSCI 1017; PLAN: Neuroscience (BS or MN); Cumulative Grade Point Average 3.25 or better

### NROSCI 1200 - NEUROPHARMACOLOGY OF ADDICTION

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course is designed to provide an overview of the biological basis of addiction and the neuropharmacology of drugs of abuse and dependence, including basic principles of drug action as well as comprehensive coverage of the major classes of drugs (opioids, stimulants, nicotine, alcohol, sedatives, cannabis, hallucinogens). Students will study mechanisms of action, effects, pharmacokinetics as well as tolerance and dependence for each of these drugs/drug classes. The reasons for addiction including biological, genetic, cultural and other determinants will be discussed. Students will learn about laboratory-based methods used in addiction research, common pharmacotherapies used to manage alcohol and drug addiction, and consider public health issues associated with addiction.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: NROSCI 1000 or 1003; MIN GRADE ’B-’ for all listed courses

### NROSCI 1250 - HUMAN PHYSIOLOGY
This course begins with a general introduction on cell biology, physiology of nerves and muscle, and intercellular communication. The course will then survey the function of the following systems: cardiovascular, respiratory, renal, and gastrointestinal. Each system discussed will be integrated into the larger function of homeostasis, emphasizing its adaptation during pathology and challenges (e.g., exercise). The formal lectures will be supplemented by a required recitation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) and [(CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (0112 and 0114)]; Min Grade 'C' for all courses listed

**NROSCI 1410 - TRANSLATING SCIENCE**

Students will work in creative teams of 2-3 students/team to develop creative new outreach tools for communication of science to the public (new lectures, videos, films, activities). At the beginning of the semester, didactic lectures will cover background information about how to effectively communicate scientific information, how to break down a message, production of effective engaging slides, animations and videos, and the use of hands-on activities to engage the audience. Guest speakers with expertise in film, video and use of museum exhibits will be included. Students will then choose a topic area they wish to create an outreach lecture/video/etc. In, and with the assistance of Dr. Cameron will choose a scientific advisor with specific expertise on the topic for which an outreach tool will be developed. Students will do background reading for the development of their outreach tool and have discussions with their advisor. If developing a lecture, students will develop a set of PowerPoint slides for the lecture, the lecture text with background references, and hands-on activities to complement the lecture for both a junior high and high school version of the lecture. They will present the lecture to one of the grade levels for which it was designed. For other activities, the activity will be developed along with background information regarding the use of the activity. The activity will be presented to a public group.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE 'B-') and NROSCI 1014; PLAN: Neuroscience (BS or MN)

**NROSCI 1800 - NEUROSCIENCE/Writing Practicum**

This course is restricted to neuroscience majors & minors and fulfills the writing requirement for the major. It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience using topics from an appropriate co-requisite neuroscience course taken in the same term.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: ENG 0102 or ENGCMP (0002,0006,0200,0203,0205,0207,0208,0210 or 0212) or ENGFLM 0210 or FP (0003,0006); CREQ: NROSCI 1014,1028, 1030,1032,1033,1034, 1036, 1038, 1039, 1041, 1040,1042, 1043, 1046, 1112 1140,1200 or 1027; PLAN: NROSCI (BS or MN)  
**Course Attributes:** Writing Intensive Course (WRIT)

**NROSCI 1801 - NEUROSCIENCE/Writing Practicum**

This course is restricted to neuroscience majors & minors and fulfills the writing requirement for the major. It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience using topics from an appropriate co-requisite neuroscience course taken in the same term.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: ENG 0102 or ENGCMP (0002,0006, 0020,0200,0203,0205,0207,0208,0210 or 0212) or ENGFLM 0210 or FP (0003,0006); CREQ: NROSCI 1014, 1028,1030,1032,1033,1034, 1036, 1038, 1039, 1041, 1040,1042, 1043, 1046, 1112 1140,1200 or 1027; PLAN: NROSCI (BS or MN)  
**Course Attributes:** Capstone Course, Writing Intensive Course (WRIT)

**NROSCI 1900 - Internship Experience**
Students may earn 1-3 credits for approved, supervised field experiences related to neuroscience. A faculty sponsor must agree to provide and review academic assignments related to the practical experience.

**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** LG/SNC Elective Basis

**NROSCI 1901 - INDEPENDENT STUDY**

- Minimum Credits: 1  
- Maximum Credits: 3  
This course involves student participation in neuroscience research supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed. This course is particularly valuable for students interested in graduate study of neuroscience.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Capstone Course

**NROSCI 1903 - INTERNSHIP CAPSTONE**

- Minimum Credits: 3  
- Maximum Credits: 6  
Students may earn 1-3 credits for approved, supervised field experiences related to neuroscience. A faculty sponsor must agree to provide and review academic assignments related to the practical experience.  
**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** Letter Grade

**NROSCI 1961 - THESIS RESEARCH**

- Minimum Credits: 1  
- Maximum Credits: 6  
This course involves independent neuroscience research leading to the preparation and defense of a written thesis. This course involves student participation in neuroscience research supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Capstone Course

**NROSCI 1962 - THESIS RESEARCH/Writing**

- Minimum Credits: 1  
- Maximum Credits: 1  
This course involves writing a thesis based on independent neuroscience research that is supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0220 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
**Course Attributes:** Capstone Course, Writing Intensive Course (WRIT)

**NROSCI 2014 - SPEAKING OF SCIENCE**

- Minimum Credits: 3  
- Maximum Credits: 3  
Fulfills neuroscience advanced elective requirement. You will learn strategies for giving presentations about science to both a scientific audience and a public audience. Topics covered will include (1) how to engage your audience, (2) the art of breaking down your message, (3) tips for how to make clear, interesting slides, and (4) pointers on presentation style. All audiences want to learn interesting new scientific information, and have it
delivered as a good story in an understandable manner by a personable, easy to approach person. You want to emphasize your message, stay focused, and convey the importance of your message while being interesting, maintaining the attention of the audience and making the learning process enjoyable. Guest speakers will provide background information about various uses of scientific information in the public domain. Communication skills, including knowing your audience and why they are interested in the information you are speaking about, how to translate scientific jargon into understandable concepts for the public, and how to keep the audience engaged will be discussed. Pointers will be given on answering questions, being conversational, and conveying the "big picture". Students will give a number of presentations in this course and learn to receive and give feedback effectively.

**Academic Career: GRAD**  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Neuroscience (PhD) or Neurobiology (PhD)

### NROSCI 2410 - TRANSLATING SCIENCE

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Students will work in creative teams of 2-3 students/team to develop creative new outreach tools for communication of science to the public (new lectures, laboratories, videos, films, activities). At the beginning of the semester, didactic lectures will cover background information about how to effectively communicate scientific information, how to break down a message, production of effective, engaging slides, animations and videos, and the use of hands-on activities to engage the audience. Guest speakers with expertise in film, video and use of museum exhibits will be included. Students will then choose a topic area they wish to create an outreach lecture/video/etc. In, and with the assistance of dr. Cameron you will choose a scientific advisor with specific expertise on the topic you will develop an outreach tool for. Students will do background reading for the development of their outreach tool and have discussions with their advisor. If developing a lecture, students will develop a set of PowerPoint slides for the lecture, the lecture text with background references, and hands-on activities to complement the lecture for both a junior high and a high school version of the lecture. They will present the lecture at one of the grade levels it was designed for. For other activities, the activity will be developed along with background information regarding the use of the activity. The activity will be presented to a public group.

**Academic Career: GRAD**  
Course Component: Lecture  
Grade Component: GradLG/SU3

### Nursing

#### NUR 0001 - FIRST YEAR SEMINAR

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course is designed to provide beginning nursing students with an overview of the nursing profession and an introduction to the school of nursing. The purpose of the course is to facilitate the students' adjustment to the University environment and to acquaint them with the skills and resources available to promote success.

**Academic Career: Undergraduate**  
Course Component: Lecture  
Grade Component: H/S/U Basis  
Course Requirements: School of Nursing students only.

#### NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This laboratory course is designed to provide students with hands-on experience related to the anatomy and physiology of the human body. Laboratory sessions complement the lecture component of NUR 0012. Laboratory instruction emphasizes structure and how it relates to function and the maintenance of homeostasis in the whole body.

**Academic Career: Undergraduate**  
Course Component: Clinical  
Grade Component: Letter Grade  
Course Requirements: CREQ: NUR 0012

#### NUR 0003 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 2

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This laboratory course is designed to provide students with hands-on experience related to the anatomy and physiology of the human body. Laboratory sessions complement the lecture component of NUR 0013. Laboratory instruction emphasizes structure and how it relates to function and
the maintenance of homeostasis in the whole body.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: NUR 0013

### NUR 0005 - HONORS FRESHMAN SEMINAR

**Minimum Credits:** 1  
**Maximum Credits:** 1  
Using a flexible format, this course is designed to provide beginning nursing students with an overview of the University Honors College and the honors track within the school of nursing. The purpose of this course is to facilitate the students' exposure to the University of Pittsburgh Honors College environment, and to acquaint them with the opportunities and resources that are available to promote success in the honors track in the school of nursing.  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** H/S/U Basis

### NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to present students with a basic foundation in normal human anatomy and physiology. Topics covered are: cell physiology, histology, integumentary, skeletal, muscular, nervous and sensory systems. Emphasis is on the interaction of structure and function and the mechanisms which maintain homeostasis in the human body.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

### NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to present students with a basic foundation in normal human anatomy and physiology. Body systems covered include: endocrine, cardiovascular, respiratory, digestive, urinary, reproductive, and embryological development. Emphasis is on the interaction of structure and function and the mechanisms which maintain homeostasis in the human body.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: NUR 0012

### NUR 0020 - PATHOPHYSIOLOGIC FOUNDATIONS OF NURSING CARE

**Minimum Credits:** 4  
**Maximum Credits:** 4  
This course will examine mechanisms that produce disease and injury, the ways in which the body responds to these mechanisms, and the clinical manifestations produced by the body's response.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0013

### NUR 0031 - MICROBIOLOGY

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This lecture course will introduce students to the basic properties of bacteria, archaea, eukaryotic microorganisms and viruses, with an emphasis on bacteria. The diversity within the microbial world will be emphasized, as well as their relevance to the health and diseases of humans. Approaches for controlling the growth of microbes in the environment and for preventing the spread of infectious diseases will also be discussed. In addition, students will also become familiar with host-microorganism interactions and host-immune responses.  
**Academic Career:** Undergraduate
NUR 0032 - MICROBIOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This laboratory course will provide students with hands-on experience in terms of the techniques used to detect, grow, isolate and identify microorganisms.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: COREQ: NUR 0031

NUR 0051 - INTRODUCTION TO PROFESSIONAL NURSING

Minimum Credits: 3
Maximum Credits: 3
This course provides a broad overview and synthesis of the issues and trends most relevant to the practice of professional nursing. Historical, contemporary and potential influences on professional nursing practice are reviewed. An emphasis on the unique and varied roles of nurses in today's interdisciplinary health care environment are examined within the context of individual, family, community, and global health. Characteristics and major changes in health care delivery systems (federal, state, and local) are discussed. Components of professional nursing values and core practice competencies are presented. The concept of an evidence-based approach to clinical practice is introduced. Critical thinking strategies are introduced in the context of the nursing process.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0053 - INTRODUCTION TO INCLUSION, EQUITY, AND DIVERSITY IN HEALTH CARE

Minimum Credits: 1
Maximum Credits: 1
The purpose of this course is to increase understanding of how health care relates to the concepts of inclusion, equity and diversity domestically and globally. It will provide an overview of how these concepts influence the health of individuals and populations, and our role in applying them. We will define diversity in its broadest meaning but focus on exploring local communities looking at diversity in culture, race, ethnicity, gender, ability, socioeconomic, sexual orientation, and immigration. During this exploration, community strengths and capacity to promote positive change will be presented. The goals of this course are to increase our value of and advocacy for inclusion, equity and diversity in health care. Learning activities will support skill development to interact productively with a variety of individuals and groups. Key components of this course are direct engagement with diverse individuals, self-reflection, and community-engaged learning.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: PLAN: Nursing - BSN

NUR 0066 - NUTRITION FOR CLINICAL PRACTICE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on nutrition for clinical practice for nurses. Food for energy and the major nutrients are considered for the promotion of health and for medical nutrition therapy for selected disruptions of health. Emphasis is placed on nutrition assessment and interventions in relation to the goals of the current healthy people document and dietary guidelines for Americans.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

NUR 0067 - NURSING RESEARCH: AN INTRODUCTION TO CRITICAL APPRAISAL AND EVIDENCE-BASED PRACTICE

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the opportunity for students to become consumers of research and to provide the basis for evidence-based practice
and the provision of culturally-congruent care. Students gain an understanding of research processes to the development of nursing knowledge and the contributions of research to evidence based practice. Students are expected to critically appraise research articles, to identify useful, valid research that can be applied to nursing practice.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0088 or STAT 1000

NUR 0080 - FOUNDATIONS OF NURSING PRACTICE 1

**Minimum Credits:** 3.5  
**Maximum Credits:** 3.5  
This course focuses on the concepts of communication, therapeutic intervention, and decision-making as they relate to the nursing process. Techniques of assessment of the physical, psychological, and developmental dimensions of the individual are explored through a variety of learning strategies. Variations of expected findings based on influences such as age, social condition, and culture are discussed. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0003 and 0051; CREQ: NUR 0020 and 0087

NUR 0080C - FOUNDATIONS OF NURSING PRACTICE 1 CLINICAL

**Minimum Credits:** 2  
**Maximum Credits:** 2  
This course is designed to provide clinical experiences related to the theory provided in Foundations of Nursing Practice 1. Techniques used in the assessment of the physical, psychological and development dimensions of the individual within an acute care setting are demonstrated. Variations of findings based on influences such as age and culture are identified. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 0080

NUR 0081 - FOUNDATIONS OF NURSING PRACTICE 2

**Minimum Credits:** 2  
**Maximum Credits:** 2  
This course builds on the fundamental skills learned in NUR 0080. The focus is on direct practice and correct manipulation of equipment during the performance of psychomotor skills. During laboratory sessions, students will have the opportunity to practice simulated clinical skills. The nursing process and clinical reasoning will serve as the framework for decision-making during skill performance. Through active laboratory participation, the student will demonstrate self-direction as a learner.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0080 and 0020 and 0087 and (NUR 0080C or NUR 0090)

NUR 0082 - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of knowledge for the management of patients. Societal and cultural influences will be emphasized.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0020 and NUR 0080 and NUR 0087; CREQ: NUR 0081 and NUR 0082C

NUR 0082C - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS CLINICAL
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults with acute and/or chronic illnesses. During clinic, students will have the opportunity to practice clinical skills learned in the lab. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Common concepts of care will be emphasized, including societal and cultural influences.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 0082

---

**NUR 0086 - NURSING INFORMATICS**

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  
This course focuses on concepts relevant to the practice of nursing informatics. The course emphasizes information technology applications and the principles of nursing informatics from a current and historical perspective. Learners will examine the analysis of healthcare data and its transformation to nursing knowledge. Nursing language concepts and their importance in clinical information system development will be identified. Learners will examine information technologies that manage clinical information and support patient care. Social and ethical issues in the context of clinical information systems will be examined. The impact of evolving/emerging information technologies on healthcare provider and consumer roles will be discussed.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0088 or STAT 1000; COREQ: NUR 1680; PROG: School of Nursing

---

**NUR 0087 - PHARMACOLOGY AND THERAPEUTICS ACROSS THE LIFESPAN**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course provides an introduction to pharmacology that integrates the concepts of physiology, pathophysiology, chemistry, and nursing fundamentals to build a foundation for administering drug therapy to patients. Using a simple to complex approach, key content areas are presented to help conceptualize the important components related to pharmacology. The basic concepts of pharmacology, such as drug testing and approval, pharmacokinetics and pharmacodynamics, pharmacotherapeutics and toxic effects, dosage calculations, and challenges related to drug therapy, provide the foundation from which drug therapy associated with specific body systems can be addressed. Discussion of the major drug groups focuses on therapeutic actions and indications, mechanism of action, pharmacokinetics, contraindications and precautions, adverse effects, clinically important drug-drug interactions and nursing implications which emphasize the nursing process and focus on patient care and education. Prototypes of the major drug groups are emphasized. Lifespan considerations, evidence for best practice, patient safety, and critical thinking are integrated throughout the course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: CHEM 0910 and NUR 0012 and NUR 0013 and (NUR 0031 or ORBIOL 0031)

---

**NUR 0088 - INTRODUCTION TO BASIC STATISTICS FOR EVIDENCE-BASED PRACTICE**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course introduces students to descriptive statistics and parametric and nonparametric statistical tests that are commonly used by researchers in the health sciences and appear in published research reports. Emphasis is placed on student mastery of concepts and principles that are fundamental to descriptive and inferential statistics, as well as interpretation and critical appraisal of their use in research studies. Opportunities are provided to manipulate data, perform basic statistical tests, and summarize findings in tabular, graphical, and narrative form.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** School of Nursing students only.

---

**NUR 0090 - FOUNDATIONS OF NURSING PRACTICE 1 CLINICAL**

- **Minimum Credits:** 1  
- **Maximum Credits:** 1  
This course is designed to provide clinical experiences related to the theory provided in Foundations of Nursing Practice 1. Techniques used in the
assessment of the physical, psychological and development dimensions of the individual within an acute care setting are demonstrated. Variations of findings based on influences such as age and culture are identified. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion.

NUR 0092 - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS CLINICAL

Minimum Credits: 3.5
Maximum Credits: 3.5
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults with acute and/or chronic illnesses. During clinic, students will have the opportunity to practice clinical skills learned in the lab. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Common concepts of care will be emphasized, including societal and cultural influences.

NUR 1020 - ADVANCED NURSING MANAGEMENT OF THE ADULT WITH ACUTE/COMPLEX HEALTH PROBLEMS CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This clinical course focuses on the nursing care of adults with acute and complex illnesses in a hospital setting. Emphasis is placed on using the nursing process to assist students with the development of priority nursing goals and in applying critical thinking skills to patient care. The clinical nursing responsibilities include interpretation of diagnostic studies, medical/surgical patient management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course includes application of cultural diversity awareness training to the nursing process. Clinical learning is focused on developing and refining the knowledge and skills to manage patient care as part of inter-professional teams. Clinical experiences are offered in acute care, critical care, and monitored units.

NUR 1021C - ADVANCED CLINICAL PROBLEM SOLVING CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students’ ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.

NUR 1042 - NURSING CARE OF CHILDREN AND THEIR FAMILIES CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nursing practice for restoration and maintenance of health in children in various stages of development within their families and the broader social contexts in which children grow and develop. Nursing approaches used in the clinical setting are based on the use of best evidence, developmental perspectives, and cultural competence. The nursing process is applied to the child and family to minimize the effects of stressors which have resulted in a disruption of health. There is an emphasis on critical thinking and decision making as the student applies theory to nursing care.

Academic Career: Undergraduate
Course Component: Clinical
NUR 1050 - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES

Minimum Credits: 2.5  
Maximum Credits: 2.5  
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbirth.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: NUR 0066 and 0082 and NUR 0087

NUR 1050C - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES CLINICAL

Minimum Credits: 2.5  
Maximum Credits: 2.5  
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbirth. Clinical experiences reflect a diversity of settings including outpatient, inpatient, and community programs that provide services to the childbearing family.

Academic Career: Undergraduate  
Course Component: Clinical  
Grade Component: H/S/U Basis  
Course Requirements: CREQ: NUR 1050

NUR 1052 - NURSING CARE OF CHILDREN AND THEIR FAMILIES

Minimum Credits: 2.5  
Maximum Credits: 2.5  
This course focuses on the unique health and developmental needs of infants, children and adolescents with an emphasis on family-centered care. The course incorporates principles of assessment, planning and implementation of nursing interventions appropriate for health promotion, wellness, health restoration and various complex health problems. Nursing approaches are based on the use of best evidence, developmental perspectives, and cultural competence with a focus on critical thinking.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: NUR 0066 and 0082 and 0087

NUR 1052C - NURSING CARE OF CHILDREN AND THEIR FAMILIES CLINICAL

Minimum Credits: 2  
Maximum Credits: 2  
This course focuses on nursing practice for restoration and maintenance of health in children in various stages of development within their families and the broader social contexts in which children grow and develop. Nursing approaches used in the clinical setting are based on the use of best evidence, developmental perspectives, and cultural competence. The nursing process is applied to the child and family to minimize the effects of stressors which have resulted in a disruption of health. There is an emphasis on critical thinking and decision making as the student applies theory to nursing care.

Academic Career: Undergraduate  
Course Component: Clinical  
Grade Component: H/S/U Basis  
Course Requirements: CREQ: NUR 1052

NUR 1054 - NURSING CARE OF OLDER ADULTS
Minimum Credits: 2
Maximum Credits: 2
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessment, and individualized and evidence-based care for older adults across a continuum of health care settings. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0082; PROG: School of Nursing

NUR 1054C - NURSING CARE OF OLDER ADULTS CLINICAL

Minimum Credits: 1
Maximum Credits: 1
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessment, and individualized care for older adults across a continuum of health care settings. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1054

NUR 1057 - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbearing. Clinical experiences reflect a diversity of settings including outpatient, inpatient, and community programs that provide services to the childbearing family.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1050; PLAN: Nursing (BSN)

NUR 1060 - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS

Minimum Credits: 2.5
Maximum Credits: 2.5
This course is designed to teach basic psychiatric mental health nursing concepts and their application to clinical practice. Classroom learning is focused on developmental, psychological, and biological theories in order to enhance understanding of psychiatric illness. Major psychiatric illnesses throughout the lifespan as well as contemporary methods of treatment are addressed. Emphasis is placed on understanding the unique contributions of social and cultural factors to mental health.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0066 and NUR 0082 and NUR 0087; CREQ: NUR 1120

NUR 1060C - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nursing practice of health promotion and restoration in individuals with mental health problems. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.
Academic Career: Undergraduate  
Course Component: Clinical  
Grade Component: H/S/U Basis  
Course Requirements: CREQ: NUR 1060

NUR 1061 - INDEPENDENT STUDY

Minimum Credits: 1  
Maximum Credits: 3  
An independent study is a student-initiated experience planned to permit students to pursue an area of interest in nursing with guidance of a faculty preceptor.

Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SU3 Elective Basis

NUR 1066 - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS CLINICAL

Minimum Credits: 2  
Maximum Credits: 2  
This course focuses on nursing practice of health promotion and restoration in individuals with mental health problems. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.

Academic Career: Undergraduate  
Course Component: Clinical  
Grade Component: H/S/U Basis

NUR 1074 - PROFESSIONAL DEVELOPMENT AND PRACTICUM 1

Minimum Credits: 3  
Maximum Credits: 3  
This course enables the registered nurse student to further develop critical thinking, leadership abilities, communication and decision-making skills in the development and implementation of an evidence-based clinical capstone project to enhance patient care quality. A systematic approach is used to identify a clinical topic for evidence-based literature review, presentation, and evaluation. Each student identifies specific learning activities for the practicum, which relate directly to a selected culturally diverse environment. Under the guidance of faculty and a clinical preceptor, didactic seminars, assignments, and mentored clinical practicum are used to foster independence and self-direction for all students.

Academic Career: Undergraduate  
Course Component: Practicum  
Grade Component: Letter Grade  
Course Requirements: PREQ: NUR 0067 or 2000 or 2001

NUR 1077 - SCHOOL NURSE SEMINAR

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania; both the theory component (NUR 1077) and the practicum (NUR 1078) are required for eligibility. The role of the school nurse is explored through the historical, legal, ethical, research and practice perspectives. The biological, physical, developmental, behavioral, cultural and psychosocial needs of children of all ages in the school setting are examined. Throughout the course, current evidence related to school nursing and Pennsylvania educational requirements is applied to the health needs of school age children, including those with special health and learning needs, the culturally diverse and English language learners (ell's). The independent and collaborative aspects of the school nurse role are explored.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: CREQ: NUR 1078; PROG: School of Nursing

NUR 1077D - SCHOOL NURSE SEMINAR

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania. The role of the school nurse is explored...
through the historical, legal, ethical, research and practice perspectives. The biological, physical, developmental, behavioral, cultural and psychosocial needs of children of all ages in the school setting are examined. Throughout the course, current evidence related to school nursing and Pennsylvania educational requirements is applied to the health needs of school age children, including those with special health and learning needs, the culturally diverse and English language learners (ELL's). The independent and collaborative aspects of the school nurse role are explored.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1078
Course Attributes: Distance Education

NUR 1078 - SCHOOL NURSE PRACTICUM

Minimum Credits: 3
Maximum Credits: 3
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania; both the theory component (NUR 1077) and this practicum (NUR 1078) are required for eligibility. This course provides the required 100 hours of clinical practicum experience in elementary, middle and high school settings. The nursing care of children requiring acute, chronic and episodic care is performed under the guidance of an experienced school nurse. Throughout the course, the application of the nursing process and evidence-based approaches are employed when providing nursing services to school age children. Interdisciplinary care and management for school age children with special health and learning needs, including the culturally diverse and English language learners (ELL's) is emphasized. The independent and collaborative aspects of the school nurse role are explored within the school setting.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1077; PROG: School of Nursing

NUR 1079 - PROFESSIONAL DEVELOPMENT AND PRACTICUM 2

Minimum Credits: 3
Maximum Credits: 3
This course enables the registered nurse student to further develop oral and written communication, critical thinking, and leadership skills through the presentation, implementation, and evaluation of an evidence-based clinical practice process during the clinical practicum. Under the guidance of faculty and a clinical preceptor, didactic seminars, assignments, and mentored clinical practicum are used to foster leadership skills, independence and self-direction with a clinical project for all students.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1077; PROG: School of Nursing

NUR 1084 - ADVANCED CARE OF THE ADULT 2

Minimum Credits: 4
Maximum Credits: 4
This course is a continuation of NUR 1082 and includes nursing care of adults experiencing acute/complex alterations in multiple body systems. Practice settings include acute/critical care units. Emphasis on prioritization of nursing care, technology/bioinstrumentation, patient and family role adaptation and multiple body system alterations. Roy's adaptation model and Watson's theory serve as base. Pathophysiology, diagnostic studies, associated nursing responsibilities and medical-surgical management are included.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1084; PROG: School of Nursing students only.

NUR 1085 - ETHICS IN NURSING AND HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the domain of clinical ethics as a foundation for developing ethical expertise in nursing practice. The course focuses on contemporary nursing and health care issues that raise personal and professional ethical concerns. Emphasis is placed on cultural differences, current legislation, political and religious controversy, economic constraints, and professional commitment related to the resolution of the identified ethical dilemmas. The process of ethical analysis and reasoning is used to resolve representative patient and health care situations.
Academic Career: Undergraduate
Course Component: Lecture
NUR 1087 - TRANSITION INTO PRACTICE

Minimum Credits: 5  
Maximum Credits: 5  
This course focuses on facilitating the transition to professional practice through the use of agency preceptors to increase independence and responsibility for patient care in an intensive clinical experience. Leadership principles are utilized in the management of small groups of clients and unit personnel. Progressive acquisition of skills in clinic decision-making will be emphasized.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: H/S/U Basis  
Course Requirements: PREQ: NUR 0082 and NUR 0087

NUR 1095 - COMMUNITY CONNECTOR COURSE

Minimum Credits: 2  
Maximum Credits: 2  
This course is especially well-suited for students from SHRS, PHARM, NUR and School of Social Work. This seminar focuses on the patient population which is a high risk population who are vulnerable to frequent readmissions to the hospital. Emphasis will be placed on: 1) understanding this patient population, the health system and health behavior challenges associated with this population, and systematic needs associated with reducing their health care needs 2) The course will include presentations by researchers, clinicians, and healthcare industry experts. Students will need to be available for approximately 6, out-of-classroom activities during the semester. This course will expose students to the patient population through visits with clinicians at the hospital, home, and community, including in-home assessments, patient education sessions, and behavior change (motivational interviewing) techniques. Students may be paired with a nurse, speech language pathologist, occupational therapist, or physical therapist during one of these activities. Each out-of-classroom visit often requires a 4-hour block of time.  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade

NUR 1120 - ADVANCED NURSING MANAGEMENT ADULT ACUTE/COMPLEX HEALTH PROBLEMS

Minimum Credits: 2.5  
Maximum Credits: 2.5  
This course focuses on the patient centered nursing care of adults experiencing acute and complex illnesses. Emphasis is placed on the prioritization and decision making processes of nursing care and the nursing responsibilities associated with translating, integrating and applying medical/surgical management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course will also discuss the increasing diversity of this nation's population as expressed through age, racial, ethnic, gender, cultural, spiritual and sexual orientation. Discussions will occur with the effect of socio-economic differences and how it may affect the patient's overall health care. Discussion of interdisciplinary collaboration healthcare professional is emphasized.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: NUR 0066 and NUR 0067 and NUR 0082 and NUR 0087

NUR 1120C - ADVANCED NURSING MANAGEMENT OF THE ADULT WITH ACUTE/COMPLEX HEALTH PROBLEMS CLINICAL

Minimum Credits: 2.5  
Maximum Credits: 2.5  
This clinical course focuses on the nursing care of adults with acute and complex illnesses in a hospital setting. Emphasis is placed on using the nursing process to assist students with the development of priority nursing goals and in applying critical thinking skills to patient care. The clinical nursing responsibilities include interpretation of diagnostic studies, medical/surgical patient management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course includes application of cultural diversity awareness training to the nursing process. Clinical learning is focused on developing and refining the knowledge and skills to manage patient care as part of inter-professional teams. Clinical experiences are offered in acute care, critical care, and monitored units.  
Academic Career: Undergraduate  
Course Component: Clinical  
Grade Component: H/S/U Basis  
Course Requirements: CREQ: NUR 1120
NUR 1121 - ADVANCED CLINICAL PROBLEM SOLVING

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through classroom and case study activities. Professional competence is enhanced through the utilization of high fidelity human simulation technology.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1052 and 1054 and 1060; PROG: School of Nursing

NUR 1121C - ADVANCED CLINICAL PROBLEM SOLVING CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1121

NUR 1127 - COMMUNITY HEALTH NURSING

Minimum Credits: 3
Maximum Credits: 3
This course will provide the student with a broad introduction to community health and the role of nursing within this context. Students will explore epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 0067; PROG: School of Nursing

NUR 1127C - COMMUNITY HEALTH NURSING CLINICAL

Minimum Credits: 0.5
Maximum Credits: 0.5
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1128

NUR 1128 - COMMUNITY HEALTH NURSING

Minimum Credits: 2.5
Maximum Credits: 2.5
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will explore epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined.
Academic Career: Undergraduate
Course Component: Lecture
NUR 1128C - COMMUNITY HEALTH NURSING CLINICAL

Minimum Credits: 2.5
Maximum Credits: 2.5
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1128

NUR 1131 - INTERPROFESSIONAL HEALTHCARE TEAMS

Minimum Credits: 1
Maximum Credits: 2
This course provides a review of interprofessional healthcare teams, barriers and facilitators, roles/responsibilities of various members of the healthcare team, and strategies that help to incorporate teams within a variety of healthcare settings. The student is guided through methods of team development in healthcare organizations. The course provides a basis for incorporating nursing as an integral member of the healthcare team.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1134 - TRANSITION INTO PROFESSIONAL NURSING PRACTICE

Minimum Credits: 2
Maximum Credits: 2
Students synthesize knowledge about the professional nursing roles and increase their understanding of their responsibility and accountability for the nursing care of individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (NUR 1120 or 1220) and (NUR 1050 or 1250) and (NUR 1060 or 1260) and (NUR 1052 or 1252)

NUR 1134C - TRANSITION INTO PROFESSIONAL NURSING PRACTICE CLINICAL

Minimum Credits: 6
Maximum Credits: 6
This course is designed to facilitate the transition into professional practice through preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for the nursing care of individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1134; PREQ: 1054C

NUR 1135 - TRANSITION INTO PROFESSIONAL NURSING PRACTICE CLINICAL

Minimum Credits: 4.5
Maximum Credits: 4.5
This course is designed to facilitate the transition into professional practice through preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for the nursing care of individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
NUR 1136 - HIMALAYAN WILDERNESS FIRST RESPONDER

Minimum Credits: 6
Maximum Credits: 6
This is an intensive Wilderness First Responder (WFR) course taught as the second course in a required, two-course sequence in the Pitt/Hanifl Summer Program (May through June) addressing health, medicine, and the environment in the Himalayas of North India. WFR is the standard training in the United States for guides, international leaders, and backcountry travelers. The course assumes that access to advanced medical care is hours to days away from the point of injury or illness, and as a result, the responder must focus on patient assessment, long-term, and improvised patient care. The Pitt/Hanifl WFR course will not only emphasize care in remote, international settings, but also augment didactic and scenario learning with clinical visits and observations at Landour Community Hospital (LCH) and its surrounding communities, where students will shadow LCH and Aerie staff, as they care for patients.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: Must have completed Freshmen year

NUR 1136IS - HIMALAYAN WILDERNESS FIRST RESPONDER - IN-STATE

Minimum Credits: 0
Maximum Credits: 0

NUR 1140 - COMPARATIVE HEALTH ISSUES: TRENDS WITHIN HEALTH CARE SYSTEMS (GLOBAL SEMINAR IN BUENOS AIRES)

Minimum Credits: 3  
Maximum Credits: 3  
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Germany under the guidance of a faculty member.  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Requirements: PLAN: Nursing  
Course Attributes: Study Abroad

NUR 1140IS - COMPARATIVE HEALTH ISSUES: TRENDS IN HEALTH CARE SYSTEMS (GLOBAL SEMINAR IN BUENOS AIRES) - IN-STATE

Minimum Credits: 0

NUR 1141 - HEALTH DISPARITIES IN VULNERABLE POPULATIONS AND ETHNIC CULTURAL GROUPS

Minimum Credits: 2  
Maximum Credits: 2  
The primary focus of this course is to explore a set of major health disparities affecting diverse racial and ethnic groups (Black or African American, Asian American, Native American, Hispanic or Latinos, American Indian or Alaska Natives and White) living in urban, suburban, and rural settings. Students will learn about the specific health conditions affecting each group, social justice and environmental justice issues affecting their health, and stress-related issues whether it be military, community violence or community environmental issues locally or in the state. The course is designed for undergraduate juniors and seniors and honor students.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Nursing (BSN)

NUR 1142 - PROFESSIONAL ISSUES IN ADVANCED PRACTICE NURSING: NURSE ANESTHESIA
This course is designed to provide the undergraduate nursing student with an understanding of the role of the nurse anesthetist as an advanced practice nurse. Emphasis will be placed on exploring 1) the advanced practice role as a nurse anesthetist, 2) health care policies affecting nurse anesthesia practice, and 3) evidence based practice in nurse anesthesia practice. Students will describe the opportunities and barriers for nurse anesthetists in a variety of practice settings. Students will also explore the implications of health care policies at the national, state and local level on practice.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 1120; PROG: Nursing; GPA: 3.5  
**Course Attributes:** University Honors Course

---

**NUR 1143 - FOUNDATIONS OF PERSONALIZED HEALTH: TRANSLATION FROM BASIC RESEARCH TO CLINICAL PRACTICE**

This course is designed to provide the undergraduate nursing student with a Foundation in Personalized Health Care and to introduce students to many facets of this emerging field. Emphasis will be placed on exploring 1) nursing implications of personalized and precision health care, 2) ethical issues of importance to the field of nursing, 3) next generation methods to tailor precise and personalized treatments, and 4) evidence-based interventions in personalized health care. Students will immerse themselves in the clinical settings and research areas related to personalized health care. Student will explore the implementations of personalized health care, a predictive, preventive, and patient-centered approach treatment.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade

---

**NUR 1150 - NURSING IN NICARAGUA: PUBLIC AND COMMUNITY HEALTH**

Students broaden their global health perspective in this two-week immersion program by learning first-hand how a developing country's approach to public and community health compares to that of the United States. Students visit the Nicaraguan World Health Organization office, Ministry of Health, UPOLI University, rural and urban community health centers, and attend local cultural events. In addition, students partner with local nursing students to observe family assessments in the home, plan a health promotion event for community members, and have opportunities to give back through service.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 0082 and NUR 0082C or 1282C  
**Course Attributes:** Study Abroad

---

**NUR 1154 - NURSING CARE OF OLDER ADULTS**

This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessments, and individualized care for older adults in acute and skilled nursing facilities. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis

---

**NUR 1212 - INTRODUCTION TO HEALTHCARE FINANCE AND POLICY**

The aim of this course is to provide students with an overview of the healthcare financing system in the United States as well as key issues in healthcare policy. The course will focus on providing students with a basic introduction to: 1) the health insurance system in the United States, 2) theoretical, conceptual, and philosophical basis of healthcare policy making, 3) the role of public policy in the finance and provision of healthcare in the United States, and 4) the process through which multiple branches of government create and implement policy. We will reference literature from
economics, political science, nursing, and health services research throughout the course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Class restricted for ACLBSN School of Nursing Undergraduates

**NUR 1220C - ADVANCED NURSING MANAGEMENT OF THE ADULT WITH ACUTE/COMPLEX HEALTH PROBLEMS CLINICAL**

**Minimum Credits:** 2  
**Maximum Credits:** 2  
This clinical course focuses on the nursing care of adults with acute and complex illnesses in a hospital setting. Emphasis is placed on using the nursing process to assist students with the development of priority nursing goals and in applying critical thinking skills to patient care. The clinical nursing responsibilities include interpretation of diagnostic studies, medical/surgical patient management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course includes application of cultural diversity awareness training to the nursing process. Clinical learning is focused on developing and refining the knowledge and skills to manage patient care as part of inter-professional teams. Clinical experiences are offered in acute care, critical care, and monitored units.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1120

**NUR 1221C - ADVANCED CLINICAL PROBLEM SOLVING CLINICAL**

**Minimum Credits:** 1  
**Maximum Credits:** 1  
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1121

**NUR 1228C - COMMUNITY HEALTH NURSING CLINICAL**

**Minimum Credits:** 0.5  
**Maximum Credits:** 0.5  
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1128

**NUR 1234C - TRANSITION INTO PROFESSIONAL NURSING PRACTICE CLINICAL**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to facilitate the transition into professional practice through the preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for the nursing care of individuals, families and aggregates.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1134

**NUR 1250C - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES CLINICAL**
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbearing. Clinical experiences reflect a diversity of settings including outpatient, inpatient, and community programs that provide services to the childbearing family.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1050

**NUR 1252C - NURSING CARE OF CHILDREN AND THEIR FAMILIES CLINICAL**

This course focuses on nursing practice for restoration and maintenance of health in children in various stages of development within their families and the broader social contexts in which children grow and develop. Nursing approaches used in the clinical setting are based on the use of best evidence, developmental perspectives, and cultural competence. The nursing process is applied to the child and family to minimize the effects of stressors which have resulted in a disruption of health. There is an emphasis on critical thinking and decision making as the student applies theory to nursing care.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1052

**NUR 1260C - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS CLINICAL**

This course focuses on nursing practice of health promotion and restoration in individuals with mental health problems. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 1060

**NUR 1281 - FOUNDATIONS OF NURSING PRACTICE 1**

This course focuses on theory acquisition and skills application in communication, therapeutic intervention, and clinical reasoning. Techniques of assessment, analysis, intervention, and planning of the physical, psychological, and developmental dimensions of the individual are explored through a variety of learning strategies. Variations of expected findings based on influences such as age, social condition, and culture are discussed. Emphasis is placed on the therapeutic interventions of safety, hygiene, comfort, health promotion, and safe performance of psychomotor skills.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: NUR 0082 and NUR 1282C

**NUR 1282 - NURSING MANAGEMENT OF THE ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS**

This course focuses on the nursing care of hospitalized adults with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of hospitalized adults. During laboratory sessions, students will have the opportunity to practice simulated clinical skills. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Students will have clinical experiences with in-patients who require medical and/or surgical treatments and who are not experiencing a complicated illness course. Common concepts of care and common problems encountered in the care of ill adults and
elderly clients will be emphasized, including societal and cultural influences.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: NUR 0066 and 0087 and 1281

**NUR 1282C - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS CLINICAL**

**Minimum Credits:** 3.5  
**Maximum Credits:** 3.5  
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults with acute and/or chronic illnesses. During clinic, students will have the opportunity to practice clinical skills learned in the lab. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Common concepts of care will be emphasized, including societal and cultural influences.

**Academic Career:** Undergraduate  
**Course Component:** Clinical  
**Grade Component:** H/S/U Basis  
**Course Requirements:** CREQ: NUR 0082 and NUR 0087 and NUR 1281

**NUR 1477 - SCHOOL NURSE SEMINAR**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania. The role of the school nurse is explored through the historical, legal, ethical, research and practice perspectives. The biological, physical, developmental, behavioral, cultural and psychosocial needs of children of all ages in the school setting are examined. Throughout the course, current evidence related to school nursing and Pennsylvania educational requirements is applied to the health needs of school age children, including those with special health and learning needs, the culturally diverse and English language learners (ELLs). The independent and collaborative aspects of the school nurse role are explored.

**Academic Career:** UGRD  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: NUR 1078  
**Course Attributes:** Distance Education

**NUR 1630 - HEALTH CARE DELIVERY IN THE UNITED KINGDOM**

**Minimum Credits:** 2  
**Maximum Credits:** 2  
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in the united kingdom. Students will compare the health care systems, nursing education and nursing practice in the united kingdom and the united states.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** PREQ: NUR 1060 and 1120 and 1900; PROG: School of Nursing

**NUR 1631 - HEALTH CARE DELIVERY IN SWITZERLAND**

**Minimum Credits:** 2  
**Maximum Credits:** 2  
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in Switzerland. Students will compare the health care systems, nursing education and nursing practice in Switzerland and the united states.

**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SU3 Elective Basis  
**Course Attributes:** Pitt Class
NUR 1632 - HEALTH CARE DELIVERY IN ITALY

Minimum Credits: 2
Maximum Credits: 2
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in Italy. Students will compare the health care systems, nursing education and nursing practice in Italy and the United States. They will identify national and international health-related organizations in Italy and the mission of and roles these institutions play.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis
Course Attributes: Pitt Class

NUR 1633 - HEALTH CARE DELIVERY IN CAMBODIA

Minimum Credits: 1
Maximum Credits: 3
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in Cambodia. Students will compare the health care systems, nursing education and nursing practice in Cambodia and the United States.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: H/S/U Basis
Course Requirements: PREQ: NUR 1900; PROG: School of Nursing

NUR 1634 - HEALTH CARE DELIVERY IN OMAN

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in Oman. Students will compare the health care systems, nursing education and nursing practice in Oman and the United States.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: (NUR 1765) or (HRS 1017); CREQ: NUR 1829; PROG: School of Nursing
Course Attributes: Pitt Class

NUR 1636 - HEALTH CARE DELIVERY IN CHINA

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in China. Students will compare the health care systems, nursing education and nursing practice in China and the United States.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1900
Course Attributes: Pitt Class

NUR 1637 - HEALTH CARE DELIVERY IN THAILAND

Minimum Credits: 1
Maximum Credits: 3
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in Thailand. Students will compare the health care systems, nursing education and nursing
practice in Thailand and the united states.

**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** PREQ: NUR 1900; PROG: School of Nursing  
**Course Attributes:** Pitt Class

**NUR 1639 - HEALTH CARE DELIVERY AT SAINT REGIS MOHAWK**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to provide the undergraduate (nursing) student with exposure to an American Indian and Alaska Native (AI/AN) culture and health care delivery system. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health disparity, health outcomes, and health care delivery and utilization, and the achievement of health-related goals.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**NUR 1640 - LEADERSHIP IN MILITARY NURSING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This elective course is designed to enhance nurse cadets' leadership ability and technical competence. This course has two components: leadership training and precepted clinical experience.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** H/S/U Basis  
**Course Requirements:** School of Nursing students only.

**NUR 1680 - INTRODUCTION TO GENETICS AND MOLECULAR THERAPEUTICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This is an introductory course that focuses on the fundamentals of genetics. The course is designed to give the student a basic understanding of genetic concepts so that this knowledge can be utilized to understand current and future genetic theories and therapeutics.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**NUR 1710 - APPLIED ADULT CARDIOPULMONARY CRITICAL CARE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The purpose of this course is to provide students with the opportunity to synthesize and apply concepts related to the cardiopulmonary assessment and multidisciplinary management of critically ill adults. Through the use of presentations and laboratory sessions, the student will explore the pathophysiologic basis of critical cardiopulmonary instability, physical and technologic assessment parameters, and treatment modalities commonly utilized in the care of these patients in the intensive care unit. Interactive laboratory demonstration of vasoactive drugs, arterial, central venous and pulmonary artery monitoring, artificial airways, mechanical ventilation and rhythm strip interpretation will be provided. Critical clinical decision making and nursing responsibilities specific to dysrhythmia interpretation are addressed, including institution of appropriate immediate nursing intervention, pharmacological, and electrical therapeutic interventions based on advanced cardiac life support (ACLS) algorithms. Further, students will have the opportunity to synthesize and apply this information within patient care scenarios of respiratory and cardiac instability.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: NUR 1120; PROG: School of Nursing

**NUR 1765 - RISK FACTORS AND HEALTH**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The overall objective of this course is to provide the student with a broad description of risk factors and health promotion for individuals, families and communities. Current federal, state and professional organization guidelines and recommendations for health promotion and disease prevention
are applied. Current research on the efficiency of health promotion activities is presented.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**NUR 1767 - RISK FACTORS AND HEALTH: A GLOBAL PERSPECTIVE**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  

The overall objective of this course is to provide the student with a broad description of risk factors and health promotion for individuals, families, and communities from a global perspective. Students select a country of interest and apply that country's government, policy, and professional organization guidelines and recommendations for health promotion and disease prevention. Current evidence on the efficacy of health promotion activities is studied.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** PREQ: NUR 1765

**NUR 1770 - NURSING CARE OF ADULT EXPERIENCING CARDIAC DYSRHYTHMIAS**

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  

Course is focused on interpretation and management of cardiac dysrhythmias occurring in the adult. Mastery of cardiac rhythm interpretation is the end goal. Critical clinical decision making and nursing responsibilities specific to dysrhythmias interpreted are addressed, including institution of appropriate pharmacological and electrical therapeutic interventions based on ACLS algorithms. Information on basis of electro-physiology, dysrhythmias etiologies and electrocardiographic monitoring is provided. Case studies and multiple examples are used to support repetitive practice in rhythm interpretation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** School of Nursing students only.

**NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  

Purpose of course is to increase awareness of how delivery and acceptance of health care may be influenced by social, cultural, and environmental factors. It will provide an overview of how these factors influence a person's response to stressors, daily health and living needs. Goal is to help students increase their understanding of culturally congruent care by utilizing cultural concepts, theories, and research. Students will analyze factors that facilitate/hinder communication about health needs, acceptance of the health care regimen, and access to health care systems.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** Global Studies

**NUR 1900 - GLOBAL HEALTH CARE**

- **Minimum Credits:** 2  
- **Maximum Credits:** 2  

Cultural competence and embracing diversity are central values for healthcare professionals. In light of the globalization of society, knowledge of differing perspective, traditions, religions, politics, cultures, and health practices is crucial to providing quality healthcare. This course is designed to introduce students to concepts necessary to understand healthcare from a global perspective, to broaden their views of a global society, and to examine their roles within a global community. This course will also introduce students to current school of nursing study abroad programs.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** PREQ: NUR 0080 and (0087 or 1110)

**NUR 1990 - SENIOR SEMINAR**

- **Minimum Credits:** 1  
- **Maximum Credits:** 1
The goal of this course is to support the senior student's successful progression to entry-level professional nursing practice. Classroom activities and self-directed learning will prepare students to attain the benchmarks associated with professional licensure and provide a foundation for the continuous self-evaluation and life-long learning required to support professional nursing practice (AACN, 2008).

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** H/S/U Basis  
**Course Requirements:** PREQ 1121 or 1134 and CREQ 1121 or 1134; LVL: Sr; PROG: School of Nursing (UNURS)

**NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1**

Minimum Credits: 2  
Maximum Credits: 2  
This course examines the interaction of theory, research, and clinical expertise in the development of evidence-based nursing practice. Students develop the skills needed to identify relevant research and to critically appraise published studies to evaluate their quality and applicability to clinical practice. Students gain an understanding of the research process, the critical appraisal of published research studies that use a variety of research designs, and the role of research in evidence-based practice.  
**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade  
**Course Requirements:** CREQ: NUR 2011 or NUR 2211 or NUR 2411

**NUR 2004 - PATHPHYSYLGY ACROSS LIFE SPAN**

Minimum Credits: 4  
Maximum Credits: 4  
This course is designed to provide the student with a comprehensive theoretical foundation of the phenomena that produce alterations in human physiologic function in diverse populations across the life span. Information gained in this course will prepare the student for subsequent courses related to the diagnosis and management of disease processes associated with pathophysiologic dysfunction/alterations in people of various ethnic/cultural groups across the lifespan.  
**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade  
**Course Requirements:** School of Nursing students only.

**NUR 2010 - HEALTH PROMO/DISEASE PRVNTN**

Minimum Credits: 3  
Maximum Credits: 3  
Health promotion and disease prevention are examined from theoretical foundations to clinical applications. The course focuses on individual and community health promotion assessment, screening, and interventions in diverse populations. Epidemiological principles and real clinical examples are discussed as a basis for focusing health promotion assessment and interventions. Course topics are delineated according to health people 2010 goals with a corresponding focus on factors related to health care disparities among vulnerable populations. Current research in health promotion and disease prevention is the basis for identifying appropriate interventions in diverse populations and settings.  
**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad LG/SU3 Basis  
**Course Requirements:** School of Nursing students only.

**NUR 2011 - APPLIED STATISTICS FOR EBP**

Minimum Credits: 3  
Maximum Credits: 3  
This course will provide students with the basis for understanding and interpreting commonly used statistical tests, as well as critically appraising their use in published research studies. Content will include descriptive and inferential statistics commonly reported in published research studies including both univariate and multivariate parametric and nonparametric tests. The course will also cover meta-analytic techniques and students will learn to calculate effect sizes.  
**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad LG/SU3 Basis  
**Course Requirements:** School of Nursing students only.

**NUR 2031 - DIAGC PHYSCL EXAM LIFE SPAN**

1523
This didactic course focuses on the use of the diagnostic history and physical examination to formulate a health assessment in patient populations across the lifespan. Concentration is on selected theories, principles and techniques from the physical and behavioral sciences essential to obtaining a complete health history and performing a methodical physical examination on patients across the life span.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade  
**Course Requirements:** PREQ: NUR 2004 or NUR 2204 or NUR 2404; PLAN: NURSAN-MSN or NURSAN-DNP; SUBPLAN: MSN/NNP or DNP/NNP or DNPP/NP or MSN/MS or DNP/AG or DNP/NA or MSN/AD or OCNL or ONAD or DNPAGN-SP or DNPPCNP or DNPPGCN or DNPPMHN

**NUR 2044 - NUR GRAD ORIENTATION MODULE**

**Minimum Credits:** 0  
**Maximum Credits:** 0  
This module provides a web-based graduate nursing orientation that is designed to provide graduate nursing students with an overview of the school of nursing and information that they will need to successfully complete their programs and achieve their career goals.

**Academic Career:** GRAD  
**Course Component:** Independent Study  
**Grade Component:** Grad HSU Basis  
**Course Requirements:** School of Nursing students only.

**NUR 2061 - ORGANIZTNL & MANAGEMENT THEORY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course focuses on the organization and management, particularly of nursing personnel, in health services organizations. Organizational theories, their analysis, and their application to health care services systems will be explored. Management theories will also be discussed. Emphasis will be placed on personnel management aspects relevant to nursing such as licensure, certification, advance practice, nurse extender, etc.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad LG/SU3 Basis  
**Course Requirements:** School of Nursing students only.

**NUR 2680 - INTRO GENETCS & MOLEC THERPUTC**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This introductory course focuses on the fundamentals of human and molecular genetics. It is designed to give students a basic understanding of genetic concepts and molecular techniques so that this knowledge can be applied to current and future genetic diagnoses and therapies encountered in nursing.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad Letter Grade

**NURSP 2061 - ORGANIZTNL & MANAGEMENT THEORY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This graduate level course focuses on organizational, leadership, and management theories and how they apply to health service organizations, both today and in the future. Emphasis will be placed on leading the clinical discipline of nursing based on organizational and systems thinking as well as relevant political and cultural perspectives. Quality and performance improvement strategies, as well as creating and sustaining appropriate levels of change, are explored in order to facilitate the ability to create safe and effective care delivery environments.

**Academic Career:** GRAD  
**Course Component:** Lecture  
**Grade Component:** Grad LG/SU3 Basis  
**Course Requirements:** School of Nursing students only.

**NURSP 2092 - LEADERSHIP DEVELOPMENT**
Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on the application of leadership theory and the development of critical leadership skills necessary for success in today's health care environment. The course is based on five essential competencies for nursing leadership: professionalism, business skills and principles, knowledge of the health care environment, communication and relationship management, and transformational leadership.  
Academic Career: GRAD  
Course Component: Lecture  
Grade Component: Grad LGSNC  
Course Requirements: School of Nursing students only.

**Nutrition**

**NUTR 1006 - INTRO TO HUMAN NUTRITION**

Minimum Credits: 3  
Maximum Credits: 3  
This course will cover an overview of the scientific principles of nutrition and application of these principles to humans throughout the life cycle. Major focuses of the course are the classification and function of the six major nutrients, review of current nutrition standards, safety of the food supply, and nutrition misinformation. This course is meant for nutrition majors.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

**NUTR 1600 - INTRODUCTION TO DIETETICS**

Minimum Credits: 2  
Maximum Credits: 2  
This is an introduction to the profession of dietetics. Emphasis will be placed on the scope of the profession of dietetics practice, the role and functions of registered dietitian nutritionists, and the education requirements for entry into practice.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: School of Health and Rehabilitation Sciences students only.

**NUTR 1602 - NUTRITION ASSESSMENT**

Minimum Credits: 3  
Maximum Credits: 3  
This course will focus on the rationale for and the use of a variety of standards used in assessing and planning the quality and quantity of the food and nutrient intake of individuals and groups. It will include in-depth study and application of commonly used reference standards and tools used for evaluating levels and proportions of macronutrients, micronutrients and various dietary food components. Assessment of health indicators in individuals and populations will also be addressed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: NS-BS, NS-BS (NSNSMS-TR), ND-MS (NSBS-TR)

**NUTR 1603 - NUTRITION ASSESSMENT 2**

Minimum Credits: 3  
Maximum Credits: 3  
Introduction to professional practice methods and skills in nutrition focused physical examination. Learning experiences will include formal class presentations, case discussions, case-based problem solving and skill development laboratory sessions. Knowledge based learning leading to examination technique simulations for anthropometric measurements for body composition, nutrition focused physical examination for malnutrition diagnosing and examination techniques, e.g., vital signs, head and neck exam, intra and extra-oral exams, heart and lung auscultation, as well as, abdominal auscultation and palpation are included. At the completion of the course competency in application of nutrition focused physical examination techniques will be assessed on an individual basis.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)
NUTR 1604 - FOOD SERVICE MANAGEMENT WITH LAB

Minimum Credits: 3  
Maximum Credits: 3  
This course presents the basic principles and skills of food service management and leadership. Learning experiences include lectures, discussions, and required field trips. Please note, no other courses can be scheduled during the break between the morning and afternoon class sessions as this time will be needed for travel to field trips sites.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Nutrition Science (NS-BS) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1605 - PRINCIPLES OF NUTRITION EDUCATION

Minimum Credits: 3  
Maximum Credits: 3  
Concepts and components of the teaching-learning process and their application in the dietetics practice. Experience in the instructional planning and implementation functions of clinical dietitians is emphasized.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Nutrition Science (NS-BS) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1608 - PROFESSIONAL TRENDS AND ISSUES

Minimum Credits: 3  
Maximum Credits: 3  
Identification and discussion of critical issues pertaining to the profession of dietetics.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1609 - CLINICAL BIOCHEMISTRY

Minimum Credits: 3  
Maximum Credits: 3  
This course will introduce the basic concepts of biochemistry. The structures and function of the major biomolecules, carbohydrates, lipids, proteins and nucleic acids will be discussed and their metabolism integrated.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1610 - FOOD APPLICATION

Minimum Credits: 3  
Maximum Credits: 3  
This is an introductory course emphasizing the chemical and physical properties of food in relation to its selection, quality, and preparation. Experience in the construction, modification and preparation of recipes to meet various dietary needs is also provided.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: NUTR 1602; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1612 - FOOD AND CULTURE
Minimum Credits: 3
Maximum Credits: 3
Introduction to ethnic influence on the diversity of American food patterns. Social, cultural, economic, geographic, and religious factors are considered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1613 - FOOD APPLICATION LAB

Minimum Credits: 1
Maximum Credits: 1
Study of the chemical and physical changes that occur in food as a result of various food preparation methods and their effects on nutrient quality. Experience in the construction, modification and preparation of recipes to meet various dietary needs is also provided.

Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1602; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1614 - NUTRITION CRITICAL THINKING

Minimum Credits: 3
Maximum Credits: 3
An application of critical thinking skills to evaluate nutrition issues.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1620 - NUTRIENT METABOLISM

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the basic concepts of biochemistry at the macro- and micro-level. At the macro-level, the structures and functions of the major biomolecules, carbohydrates, lipids, nucleic acids, and proteins will be discussed and their metabolism integrated. A similar approach will be directed at the micronutrients, vitamins, and minerals, which will be introduced with the macromolecules.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: NS-BS, NS-BS (NSNDMS-TR), ND-MS (NSBS-TR)

NUTR 1621 - MICRONUTRIENT METABOLISM

Minimum Credits: 3
Maximum Credits: 3
Second of a two-course sequence in advanced nutrition and metabolism. Emphasis is placed on the essential micronutrients.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1622 - LIFE CYCLE NUTRITION

Minimum Credits: 3
Maximum Credits: 3
The study of the physiological, developmental, sociological, and environmental factors that affect nutrient requirements and recommendations at various stages of the life cycle.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade  
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1625 - NUTRITION THERAPY

Minimum Credits: 4  
Maximum Credits: 4  
This course will provide an introduction to medical nutrition therapy in the prevention and treatment of disease. The course will cover the nutrition implications, nutrition assessment process, and nutrition interventions for specific diseases. Teaching approaches for the course include lectures, assigned readings, in-class discussions, and problem-based learning through simulation/case studies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1626 - PUBLIC HEALTH NUTRITION

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on the application of nutrition knowledge to improve the health of populations through public health efforts.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

NUTR 1628 - PRACTICAL EXPERIENCE

Minimum Credits: 2  
Maximum Credits: 2  
Supervised practical experience providing students with the opportunity to gain real world experience related to nutrition science. This course is for Nutrition Science students only.  
Academic Career: Undergraduate  
Course Component: Practicum  
Grade Component: H/S/U Basis

NUTR 1630 - NUTRITION THERAPY 1

Minimum Credits: 3  
Maximum Credits: 3  
The first of a two-course sequence which will provide an introduction to medical nutrition therapy in the treatment of acute and chronic diseases. The course will cover pathophysiology and treatment of specific diseases, nutrition implications of specific diseases, nutrition assessment, determination of nutrient requirements, and nutrition interventions including calculation of modified diets.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND) or (NS-BS)

NUTR 1632 - NUTRITION THERAPY 2

Minimum Credits: 3  
Maximum Credits: 3  
The second of a two-course sequence which will provide an introduction to medical nutrition therapy in the treatment of acute and chronic diseases. The course will cover pathophysiology and treatment of specific diseases, nutrition implications of specific diseases, nutrition assessment, determination of nutrient requirements, and nutrition interventions including calculation of modified diets.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1699 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.

Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

**Persian (Farsi)**

**PERS 0101 - PERSIAN (FARSI) 1**

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

**PERS 0102 - PERSIAN (FARSI) 2**

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0421 or PERS 0101; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

**PERS 0103 - PERSIAN (FARSI) 3**

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0422 or PERS 0102; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement, European and Eurasian Studies, Global Studies, Russian & East European Studies

**PERS 0104 - PERSIAN (FARSI) 4**

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0423 or PERS 0103; MIN GRADE: 'C' FOR LISTED COURSES
PERS 0105 - PERSIAN (FARSI) 5

Minimum Credits: 3
Maximum Credits: 3
This course will continue to focus on the development and integration of students' language skills at a more advanced level. It will also aim to broaden students' vocabulary to improve their spoken proficiency in a variety of communicative contexts and situations. At this level, students will read various texts and literary works from Persian poetry, then discuss and analyze each text and poetry to understand the meaning and to improve comprehension of advance level grammar forms and culture specific vocabulary. Because Persian language and culture are closely related to each other, students will read and extract details that will help them develop more in depth understanding of Persian culture.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0424 or PERS 0104; MIN GRADE 'C' FOR ALL LISTED COURSES
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

PERS 0106 - PERSIAN (FARSI) 6

Minimum Credits: 3
Maximum Credits: 3
In this advanced course, students will integrate their language skills from all previous levels. At this level, students will identify an area of interest in Persian culture, gather sources to prepare discussion and analysis, and demonstrate advance levels of language comprehension.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PERS 0105; MIN GRADE 'C'
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

PERS 0107 - PERSIAN (FARSI) 7

Minimum Credits: 3
Maximum Credits: 3
The main goal of this course is to improve students' oral communication skills to an advanced professional level, and to develop a deeper knowledge of the culture. Students will analyze and discuss, in detail, about various issues such as, politics, religion, social problems, and film. Much of the course will adapt to the areas of interest or field specialty of the students.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PERS 0106; MIN GRADE 'C'
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

PERS 0108 - PERSIAN (FARSI) 8

Minimum Credits: 3
Maximum Credits: 3
This course provides additional practice to help students achieve advanced linguistic fluency and accuracy. Students acquire mastery of speaking and pronunciation at a professional level through the use of authentic materials from various sources such as (Persian film, online Persian TV, internet radio, songs, newspapers, short stories, and more). The ultimate goal of this course is to improve their communication skills with fluency and accuracy and a more in depth understanding of Persian culture.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PERS 0107; MIN GRADE 'C'
Course Attributes: Asian Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

PERS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PERS 1905 - UNDERGRADUATE TEACHING ASSISTANT IN PERSIAN (FARSI)

Minimum Credits: 1
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

PERS 1909 - SPECIAL TOPICS IN PERSIAN (FARSI)

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Petroleum Engineering

PETE 1097 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 6
Student develops an individual project under supervision of a faculty member. Project may be experimental, design-oriented, or instructional. A written report is prepared.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

PETE 1160 - PETROLEUM RESERVOIR ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course covers the principles of reservoir engineering and material balance calculation in petroleum reservoirs. The topics include petroleum origin and oil occurrence and migration; oil, gas, and gas-condensate reservoirs; basic drilling of oil and gas wells; p-v-t behavior of natural gas; material balances in gas reservoirs; oil reservoirs under simultaneous dissolved gas drive, gas cap drive, and water drive; generalized material balance in petroleum reservoirs; basic equations for fluid flow in reservoirs, absolute, effective, and relative permeabilities; and a design project on reservoir calculations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0250 or 0290 or 1270 or 0202 or 1035; PROG: Swanson School of Engineering

PETE 1201 - RECOVERY OF OIL BY WATERFLOODING

Minimum Credits: 3
Maximum Credits: 3
Theory of immiscible fluid displacement starting with frontal advance theory and applying it to waterflooding, fluid patterns, sweep efficiency, stratified reservoirs, etc. Relative permeability experiments are simulated.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

PETE 1204 - ENHANCED OIL RECOVERY PROCESSES

Minimum Credits: 3
Maximum Credits: 3
This course covers different topics on enhance oil recovery processes (co2, thermal, miscible fluids and surfactants); coal-bed methane, enhanced methane recovery, and underground coal gasification; surface and in-situ heavy oil, tar sand and oil shale production; and co2 capture, sequestration and disposal. The fundamentals, thermodynamics, reaction kinetics and transport phenomena as well as the environmental issues and regulations related to these topics are also covered.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PROG: Swanson School of Engineering

**PETE 1205 - PETROLEUM PRODUCTION ENGINEERING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers principles of oil and gas production from hydrocarbon-bearing formations. Topics include: flow through porous media of incompressible, compressible and slightly compressible fluids; reservoir, producing formation, vertical lift, and chock performances; principles of gas lift, gas lift valves and design; and sucker rod pumping design; and design project on artificial gas lift.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: MATH 0202 or 0250 or 0290 or 1035 or 1270; PROG: Swanson School of Engineering

**PETE 1207 - PETROLEUM AND NATURAL GAS PROCESSING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The course covers different topics on natural gas, petroleum and petrochemical processing. The topics include natural gas cleanup, methane reforming for h2 production, partial oxidation of ch4 for synthesis gas production, and chemicals from methanol; refinery feed-stocks, crude distillation and refinery products, alkylation, hydrotreating, catalytic reforming and isomerization, catalytic cracking, resid, tar sands and oil shale processing; and methanol/other alcohols, ethylene, fertilizer, and plastic production plants.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PROG: Swanson School of Engineering

**PETE 1208 - PETROLEUM DRILLING AND WELL COMPLETION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The course covers different topics related to drilling operations; directional drilling techniques; completion operations; and work-over operations. The drilling operations encompass drilling rig components, bit selection program, drilling fluid types, cementing program design and well control/safety. The directional drilling techniques include: well-path design/applications, downhole motor components, directional surveys, and logging while drilling. The well completion operations contain: formation evaluation tools, open-hole log interpretation, coring tools, flow testing, perforating, hydraulic fracturing and other stimulation techniques. The work-over operations comprise work-over rig components, cased hole log interpretation, plugs/packers/fishing tools, squeeze job design, casing integrity tests and stimulation evaluation. A special project on casing design is also included.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PROG: Swanson School of Engineering

**PETE 1209 - HYDRAULIC FRACTURING MECHANICS AND APPLICATIONS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Course description: this class will prepare students to wisely and critically design hydraulic fracturing treatments as well as make informed recommendations to employers, governments, and communities about the risks and benefits of hydraulic fracturing methods. Upon completion of this course, students will be equipped to use engineering formulae to estimate hydraulic fracture dimensions, evaluate strengths and weaknesses of various modeling approaches, characterize subsurface conditions from wellbore pressure analysis, make sound recommendations for monitoring, and compare and contrast approaches and risks for a range of application domains.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: CHE 0300; PROG: Swanson School of Engineering
PETE 1211 - RESERVOIR SIMULATION

Minimum Credits: 3
Maximum Credits: 3
This course introduces the students to the simulation process of fluid flow in petroleum reservoirs. Governing equations required to describe fluid flow in porous media are derived, numerical techniques for solving the equations are introduced. Students will learn how reservoir flow simulators can be used in assessment studies of hydrocarbon reservoirs.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

PETE 1212 - CO2 FOR ENHANCED OIL RECOVERY AND FRACKING

Minimum Credits: 3
Maximum Credits: 3
This course will cover the physical properties of CO2 that make it an attractive solvent for enhanced oil recovery (EOR), the natural and anthropogenic sources of CO2, the types of fields that are suitable for CO2 EOR, and the mechanisms responsible for CO2 increasing oil recovery. The current status of CO2 EOR in the United States will also be reviewed, along with its potential for future expansion. The foremost technical challenges of CO2 EOR, namely mobility control and conformance control, will be discussed along with a current research efforts. The course will conclude with a brief review of how CO2 has been used as a hydraulic fracturing, whether as a pure fluid, as the gaseous component of foams, or as an energizing component.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: PREQ: CHE 0100 and 0200; PLAN: Chemical Engineering (BSE); PROG: Swanson School of Engineering

Pharmacy

PHARM 1095 - COMMUNITY CONNECTOR COURSE

Minimum Credits: 2
Maximum Credits: 2
This course is especially well-suited for students from SHRS, PHARM, NUR and School of Social Work. This seminar focuses on the patient population which is a high risk population who are vulnerable to frequent readmissions to the hospital. Emphasis will be placed on: 1) understanding this patient population, the health system and health behavior challenges associated with this population, and systematic needs associated with reducing their health care needs 2) The course will include presentations by researchers, clinicians, and healthcare industry experts. Students will need to be available for approximately 6, out-of-classroom activities during the semester. This course will expose students to the patient population through visits with clinicians at the hospital, home, and community, including in-home assessments, patient education sessions, and behavior change (motivational interviewing) techniques. Students may me paired with a nurse, speech language pathologist, occupational therapist, or physical therapist during one of these activities. Each out-of-classroom visit often requires a 4-hour block of time.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Pharmacy students only.

Philosophy

PHIL 0010 - CONCEPTS OF HUMAN NATURE

Minimum Credits: 3
Maximum Credits: 3
An introduction to some ways in which ethical and social thought has been influenced by different views of human nature. Readings are from such authors as Plato, Hobbes, Rousseau, Marx, and Freud.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PHIL 0012 - CONCEPTS HUMAN NATURE/Writing Practicum
PHIL 0080 - INTRODUCTION TO PHILOSOPHICAL PROBLEMS

Minimum Credits: 3
Maximum Credits: 3
An introduction to some classical problems of philosophy. Topics vary, but might include skepticism, free will, the existence of god, and the justification of ethical beliefs.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Requirement Course

PHIL 0082 - INTRODUCTION PHILOSOPHICAL PROBLEM/Writing Practicum

Minimum Credits: 4
Maximum Credits: 4
An introduction to some classical problems of philosophy. Topics vary, but might include skepticism, free will, the existence of god, and the justification of ethical beliefs. Special writing component for PHIL 0080, "Introduction to Philosophical Problems".
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Requirement Course

PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to some of the main achievements and leading ideas of ancient Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, Medieval & Renaissance Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PHIL 0202 - HISTORY ANCIENT PHILOSOPHY/Writing Practicum

Minimum Credits: 4
Maximum Credits: 4
The aim of this course is to introduce students to some of the main achievements and leading ideas of ancient Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition. Special writing component for PHIL 0200, "History of Ancient Philosophy".
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Intensive Course (WRIT)
PHIL 0210 - HISTORY OF MODERN PHILOSOPHY

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to the philosophical period from Descartes through Kant. Special attention is given to at least one rationalist, one empiricist, and Kant.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PHIL 0212 - HISTORY OF MODERN PHILOSOPHY/Writing Practicum

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "History of Modern Philosophy".  
Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Requirement Course

PHIL 0220 - INTRODUCTION TO EXISTENTIALISM

Minimum Credits: 3  
Maximum Credits: 3  
This introductory level course explores the central existentialist question of how to be a genuine individual or self through reading of several major authors, such as pascal, Kierkegaard, Dostoievski, Nietzsche, and Sartre.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PHIL 0222 - INTRODUCTION TO EXISTENTIALISM/Writing Practicum

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "Introduction to Existentialism"; it includes extra emphasis on and credit for instruction in writing skills.  
Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., Writing Requirement Course

PHIL 0230 - PHILOSOPHY AND FILM

Minimum Credits: 3  
Maximum Credits: 3  
This is an introductory aesthetics course dealing with philosophy and film.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PHIL 0275 - INTRODUCTION TO CHINESE PHILOSOPHY
PHIL 0300 - INTRODUCTION TO ETHICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., SCI Polymathic Contexts: Global&Cross Cul GE. Req.

This is an introductory course considering the question of one fundamental moral principle - right and wrong. The results are applied to moral problems of serious interest today.

PHIL 0302 - INTRODUCTION TO ETHICS/Writing Practicum

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "Introduction to Ethics".

PHIL 0320 - SOCIAL PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
An introduction to some traditional philosophical perspectives on the nature of society. Philosophers studied might include Plato, Hobbes, Marx, and Twentieth-Century social theorists.

PHIL 0322 - SOCIAL PHILOSOPHY/Writing Practicum

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "Social Philosophy".

PHIL 0330 - POLITICAL PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This introductory level undergraduate course studies several important views on the nature and justification of government, such as those of Plato, Hobbes, and Marx.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

**PHIL 0332 - POLITICAL PHILOSOPHY/WRITING PRACTICUM**

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "Political Philosophy".

**Academic Career:** Undergraduate  
**Course Component:** Credit Laboratory  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: ENG 0102 or ENGCM (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)  
*Applies to all WRIT Courses*  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Requirement Course

**PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES**

Minimum Credits: 3  
Maximum Credits: 3  
The aim of this introductory undergraduate course is to encourage systematic and clear thought about issues of public importance by philosophic reflection which emphasizes the implications of different moral and political theories for these issues.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PHIL 0352 - PHILOSOPHY AND PUBLIC ISSUES/WRITING PRACTICUM**

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "Philosophy and Public Issues".

**Academic Career:** Undergraduate  
**Course Component:** Credit Laboratory  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:**  
PREQ: ENG 0102 or ENGCM (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)  
*Applies to all WRIT Courses*  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., Writing Requirement Course

**PHIL 0360 - INTRODUCTION TO BIOMEDICAL ETHICS**

Minimum Credits: 3  
Maximum Credits: 3  
This introductory level undergraduate course examines various ethical problems arising in medicine, such as euthanasia, abortion, and the allocation of resources.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PHIL 0362 - INTRODUCTION TO BIOMEDICAL ETHICS CREDIT LABORATORY**

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "Introduction to Bioethics"
PHIL 0380 - WOMEN AND PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
Primary objectives will be to acquaint students with the history of the relation between women and philosophy in the Western tradition and to teach students to think and write clearly.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., Writing Requirement Course

PHIL 0440 - MINDS AND MACHINES

Minimum Credits: 3
Maximum Credits: 3
This introductory level course is devoted to explicating and critically evaluating the thesis that the human mind, or at least its cognitive faculty, can be understood as a computing machine. Readings are primarily from contemporary authors, and include both scientists and philosophers.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 0442 - MINDS AND MACHINES/WRITING PRACTICUM

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "Minds and Machines".
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., Writing Requirement Course

PHIL 0450 - THEORIES OF KNOWLEDGE & REALITY

Minimum Credits: 3
Maximum Credits: 3
This course gives a broad introduction to classic and contemporary work on central questions in metaphysics and epistemology. Central topics of concern will be the nature of reality and the possibility of knowledge. Along the way we will discuss skeptical arguments to the effect that knowledge of certain aspects of reality is impossible and classic and contemporary responses to them. We will also discuss a number of topics in metaphysics, which may include the nature of the self, time, the relationship between mind and body, the existence of god, and debates between materialists and idealists.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 0452 - THEORIES OF KNOWLEDGE & REALITY / WRIT LABORATORY

Minimum Credits: 4
Maximum Credits: 4
This writing laboratory is the special writing recitation for the lecture course "Theories of Knowledge & Reality".
Academic Career: Undergraduate
PHIL 0460 - INTRODUCTION TO PHILOSOPHY OF MIND

Minimum Credits: 3
Maximum Credits: 3
This course gives a broad introduction to contemporary work on the philosophy of mind. It will primarily focus on the nature of consciousness, the mind-body problem, and may include how we know the minds of other human beings, the nature of personal identity over time, as well as discussion of the theory of action.
Academic Career: Undergraduate

PHIL 0462 - INTRODUCTION TO PHILOSOPHY OF MIND / WRIT LABORATORY

Minimum Credits: 4
Maximum Credits: 4
This writing laboratory is the special writing recitation for the lecture course "Introduction to Philosophy of Mind".
Academic Career: Undergraduate

PHIL 0470 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
A critical examination of the rationality of faith in the existence of god. Traditional arguments both for and against the existence of god are considered, along with pragmatic justifications of faith based upon its beneficial consequences.
Academic Career: Undergraduate

PHIL 0472 - PHILOSOPHY OF RELIGION/WRITING PRACTICUM

This practicum is the special writing recitation for the lecture course "Philosophy of Religion".
Academic Career: Undergraduate

PHIL 0473 - PHILOSOPHY OF RELIGION

An examination of the arguments for and against the existence of god.
Academic Career: Undergraduate
PHIL 0500 - INTRODUCTION TO LOGIC

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to the concepts and methods of modern deductive logic. Propositional logic is emphasized, but quantificational logic is touched upon.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement

PHIL 0510 - CAUSAL REASONING

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

PHIL 0610 - PHILOSOPHY AND SCIENCE

Minimum Credits: 3  
Maximum Credits: 3  
An introductory course in philosophy of science.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 0612 - PHILOSOPHY AND SCIENCE/Writing Practicum

Minimum Credits: 4  
Maximum Credits: 4  
This practicum is the special writing recitation for the lecture course "Philosophy and Science".  
Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., Writing Requirement Course

PHIL 0850 - PHILOSOPHY AND LIBERAL DEMOCRACY

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an introduction to several problems common to philosophers and politics and introduces students to the different theories, modes of argument, and techniques of analysis used by the two disciplines to understand them. It is intended to help students deepen their understanding of the dominant political stance of our society.  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: LG/SU3 Elective Basis  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies, Writing Requirement Course

PHIL 1020 - PLATO

Minimum Credits: 3  
Maximum Credits: 3  
This is an advanced undergraduate course examining Plato's main views both in their historical context, and as they influence our own thinking today; the relations between Socrates and the sophists are also studied.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: Any other Philosophy course.
Course Attributes: West European Studies

PHIL 1040 - ARISTOTLE

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course examining the basic concepts of Aristotle's metaphysics, physics, ethics and logic.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
An investigation of a particular topic or figure in the field of ancient philosophy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1110 - RATIONALISM

Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of several important rationalist philosophers, such as Hobbes, Descartes, Spinoza, and Leibniz.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
Course Attributes: West European Studies

PHIL 1140 - EMPIRICISM

Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of several important empiricist philosophers, such as Bacon, Locke, Berkeley, Hume, and Reid.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
Course Attributes: West European Studies

PHIL 1170 - KANT

Minimum Credits: 3
Maximum Credits: 3
An introduction to the philosophy of Kant, focusing on the "critique of pure reason". The course seeks to enable the advanced undergraduate to understand the theories and arguments of this revolutionary and rewarding work.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0210 or 0212 or PHIL 1110 or PHIL 1140 or permission of the instructor
Course Attributes: West European Studies
PHIL 1180 - 19TH CENTURY PHILOSOPHY

Minimum Credits: 3  
Maximum Credits: 3  
A survey, at the advanced undergraduate level, of the thought and unity of the three great German philosophers of the nineteenth century; Hegel, Marx, and Nietzsche.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1183 - MARX

Minimum Credits: 3  
Maximum Credits: 3  
An examination of the philosophy of Marx and his place in the history of philosophy.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PHIL 1200 - 20TH CENTURY ANALYTIC PHILOSOPHY

Minimum Credits: 3  
Maximum Credits: 3  
This advanced undergraduate course examines major trends in contemporary analytic philosophy, including, for instance, some (but not all) of logical empiricism, logical positivism, Wittgenstein and his followers, ordinary language ("oxford") philosophy, Quine and his followers, Sellars and his followers, and so on.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: Any other Philosophy course.

PHIL 1225 - WITTGENSTEIN

Minimum Credits: 3  
Maximum Credits: 3  
In depth study of some central sections of Wittgenstein's Philosophical Investigations. The objective will be not only to improve understanding of issues about language, mind, and reality raised in that brilliant but cryptic work, but also to situate the work historically in relation to Wittgenstein's earlier masterpiece Tractatus Logico-Philosophicus; the analytic tradition in 20th century philosophy; and modern philosophy in general.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course  
Course Attributes: West European Studies

PHIL 1240 - AMERICAN PRAGMATISM

Minimum Credits: 3  
Maximum Credits: 3  
This is an advanced undergraduate course in the "classical" American pragmatists, especially Pierce, James, Dewey, and Mead.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1290 - TOPICS IN HISTORY OF PHILOSOPHY

Minimum Credits: 3  
Maximum Credits: 3  
Wittgenstein is perhaps the most important philosopher of the twentieth century. The Tractatus is the only philosophical work that Wittgenstein published in his lifetime, and it went on to become a foundational text in the analytic tradition. It was read line by line by members of "The Vienna
Circle” - a group of the leading philosophers, scientists and mathematicians of the early twentieth century - and it remains an inspirational, puzzling, and deeply controversial text. This course aims to give you the resources to begin to interpret the Tractatus for yourself. You will explore the rich historical and philosophical background of early analytic philosophy, and by doing so you will gain a critical understanding of some of the most central topics in philosophy today.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1300 - ETHICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
An advanced undergraduate examination of various topics in ethical theory, such as ethical relativism, subjective and objective value, the relation of reason and ethics, ethical realism, utilitarianism and contractarianism, and virtues and vices.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0300 or 0330 or 0332 or 0350 or any 1000 level Philosophy course.

PHIL 1310 - HISTORY OF ETHICS

Minimum Credits: 3
Maximum Credits: 3
An examination of some of the principal moral philosophers in one or more of the major historical periods from Homeric times to the present day--such as Plato, Aristotle, Aquinas, Hobbes, Hume, Kant, Nietzsche, Mill, and Rawls.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
Course Attributes: SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 1315 - APPLIED ETHICS

Minimum Credits: 3
Maximum Credits: 3
The application of ethical theory to specific issues of contemporary life. Specific topics vary with each offering of the course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1319 - ETHICS AND SPORT

Minimum Credits: 3
Maximum Credits: 3
An examination of the ethical and social issues that arise in connection with sport.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1320 - TOPICS IN SOCIAL PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course concentrates on a few selected philosophical problems concerning the nature of society; the selection will vary from one offering of the course to another. The course may be historical or topical in approach.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1330 - TOPICS IN POLITICAL PHILOSOPHY
This advanced undergraduate course concentrates on a few selected philosophical problems concerning the nature and justification of government; the selection will vary from one offering of the course to another.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course

**PHIL 1340 - FEMINIST PHILOSOPHY**

Minimum Credits: 3  
Maximum Credits: 3  
A comparison of biological, psychological, and economic theories of the nature and causes of the oppression of women. Authors studied might include de Beauvoir, Freud, Marx, Veblen, and Emma Geldman.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course  
**Course Attributes:** Global Studies

**PHIL 1360 - BIOMEDICAL ETHICS**

Minimum Credits: 3  
Maximum Credits: 3  
This advanced undergraduate course examines a selection of ethical problems arising in medicine, such as euthanasia, abortion, and the allocation of resources, and/or ethical issues relating to other species, such as vegetarianism, animal rights, and possible interplanetary morality. The selection will vary from one offering of the course to the next.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course  
**Course Attributes:** SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PHIL 1370 - PHILOSOPHY OF ART**

Minimum Credits: 3  
Maximum Credits: 3  
This advanced undergraduate course addresses philosophical problems that arise in connection with art, such as the nature of works of art, the comparison and contrast between representational and non-representational art, the definition of beauty, and special obligations concerning art works.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course

**PHIL 1380 - BUSINESS ETHICS**

Minimum Credits: 3  
Maximum Credits: 3  
This advanced undergraduate course considers a selection of ethical issues that arise in connection with business needs and practices, such as employer-employee relations, truth in advertising, responsibilities to consumers, fair and unfair competitive practices, environmental effects, contractual obligations, liability for damages, and governmental regulation.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course

**PHIL 1385 - ETHICS AND ECONOMICS**

Minimum Credits: 3  
Maximum Credits: 3  
Ethicists and political philosophers are often interested in which economic policies we should adopt. For instance, should we have a school voucher
program? Should healthcare be subsidized by the state? Should income or resources be redistributed to achieve a more equitable society? The field of welfare economics is also interested in questions like these, and has developed a comprehensive ethical theory which allows the theoretical tools of economics to be brought to bear on, and offer answers to, these questions. Arguments imported from welfare economics are frequently cited in public policy debates. Figuring out what we think of these arguments requires a careful study of the theoretical and ethical assumptions implicit in the framework of welfare economics, as well as an appraisal of the kinds of ethical views welfare economics commits itself to.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1390 - PHILOSOPHY OF LAW

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines a selection of philosophical questions that arise in connection with the theory and practice of law, including constitutional, criminal, and tort law. Topics might include such issues as the comparative role of judges and legislators in making law, the nature of justice, and the relation of law to morality.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1400 - RIGHTS AND HUMAN RIGHTS

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1410 - PHILOSOPHY OF ACTION

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1420 - PHILOSOPHY OF LANGUAGE

Minimum Credits: 3
Maximum Credits: 3

This is an advanced undergraduate course in recent and contemporary philosophy of language; topics covered vary somewhat, but typically include many of: reference and descriptions, empiricist criteria of meaning, truth, the theory of speech acts, the analytic-synthetic distinction, theory of translation, possible worlds semantics, pragmatic theories of meaning, and so on.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Philosophy Course

PHIL 1440 - PHILOSOPHY OF MIND

Minimum Credits: 3
Maximum Credits: 3

This is an advanced undergraduate course in the philosophy of mind, taking up problems of both historical and contemporary interest. Topics vary, but are likely to include many of mind-body dualism, materialist reductionism, phenomenalism, the other-minds problem, philosophical behaviorism, qualia, propositional attitude ascriptions, intentionality, and so on.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
PHIL 1460 - THEORY OF KNOWLEDGE

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course in recent and contemporary epistemology. Topics vary somewhat, but generally include many of the following: skepticism, sense data and the myth of the given, induction and confirmation, definition of "knowing-that-p", holism and coherence, the status of common sense, and so on.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1480 - METAPHYSICS

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course considers a selection of central problems in metaphysics, such as the problems of realism, essentialism, free will, necessity and possibility, substance and property, persistence through time (including personal identity), the nature of truth, and so on.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1490 - TOPICS IN SYSTEMATIC PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course devoted to specific problem areas in contemporary philosophy that are not dealt with in regular courses. Thus, the topics covered will vary considerably from one offering of the course to the next, but they might include such things as the theory of action, the philosophy of history, the free-will problem, realism and relativism, personal identity, and such like.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1500 - SYMBOLIC LOGIC

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course develops skills in formal and informal reasoning in predicate-quantifier logic, and covers formal semantics for sentential logic, informal semantics for predicate-quantifier logic, and elementary syntactic metatheory.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0500
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement

PHIL 1530 - SET THEORY

Minimum Credits: 3
Maximum Credits: 3
An elementary development of axiomatic set theory, together with a philosophical discussion of set-theoretic foundations of mathematics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PHIL 0500

PHIL 1550 - PROBABILITY AND INDUCTION

Minimum Credits: 3
Maximum Credits: 3
A survey of major issues regarding inductive reasoning in everyday life and in science. Various concepts of probability will be examined and related to human decision making. The classic problems of justification and induction, due to David Hume, will be discussed.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PHIL 0500

**PHIL 1555 - RATIONALITY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will focus on an influential analysis of rationality: the game-theoretic notion, which has agents attempting to maximize their expected utility. We will consider the foundations of this approach, criticisms of it, and applications of it to several areas of philosophy (including political philosophy, philosophy of language, and philosophy of science).  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course

**PHIL 1580 - PHILOSOPHY OF MATHEMATICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
A survey of issues in the philosophy of mathematics, emphasizing both a historical perspective and contemporary logical foundations of mathematics. Special attention is given to geometry or number theory.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PHIL 1500

**PHIL 1600 - PHILOSOPHY & RISE MODERN SCIENCE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This advanced undergraduate course explores the mutually reinforcing relationships between modern philosophy and modern empirical science in and around the seventeenth century. Authors studied might include Copernicus, Galileo, Bacon, Descartes, Locke, Newton, and Leibniz, as well as contemporary historians of science and philosophy.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course  
**Course Attributes:** Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

**PHIL 1610 - INTRO TO PHILOSOPHY OF SCIENCE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course provides a broad, introductory survey of current issues in philosophy of science and treats philosophical problems such as confirmation, which are common to all sciences, as well as problems peculiar to individual sciences.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: Any Other Philosophy Course

**PHIL 1612 - PHIL OF 20TH CENTURY PHYSICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
An examination of the fascinating philosophical problems to which modern physical theories have given rise. No previous formal training in physics or mathematics will be presupposed, since the basic physical ideas needed will be introduced largely qualitatively with an emphasis on concepts rather than equations. Topics will vary from year to year with instructor, but center around classical mechanics, quantum mechanics, and relativity theory.
PHIL 1640 - PHILOSOPHY OF PSYCHOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This advanced undergraduate course covers such topics as mind-body reductionism, behaviorism, functionalism, cognitivism, and the relation of artificial intelligence research to psychological theory.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1650 - PHILOSOPHY OF BIOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
Philosophy of biology will consider foundational conceptual issues in biology like the nature and structure of biological explanation, the possibility of laws in evolutionary theory, the relationship between different causal components of biological processes (genetics and development), the problem of species reality and classification, the explanatory character of ascription of biological function, and the extension of biological explanations to human psychology and culture.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 1660 - PARADOX

Minimum Credits: 3  
Maximum Credits: 3  
This course explores paradoxes both for the fun of untangling an intriguing puzzle and for the more serious reason of the easy access they provide to some of the most important foundational issues in philosophy and the sciences.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course  
Course Attributes: Hourly Final

PHIL 1682 - FREEDOM AND DETERMINISM

Minimum Credits: 3  
Maximum Credits: 3  
This course analyzes three concepts of determinism--the logical determinism, logical determinism or fatalism, and physical determinism--and examines the various philosophical arguments designed either to show that determinism and free will do clash or alternatively that they are reconcilable.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: Any Other Philosophy Course  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 1690 - TOPICS IN PHILOSOPHY OF SCIENCE

Minimum Credits: 3  
Maximum Credits: 3  
Discussion, at the advanced undergraduate level, of selected problems such as confirmation, concept formation, the nature of theories. In any given term, the course might focus on problems in physical, biological, or social sciences.

Academic Career: Undergraduate
PHIL 1760 - RELIGION AND RATIONALITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 1762 - THE GUIDE OF THE PERPLEXED

Moses Maimonides (1138-1204) was the greatest Jewish thinker of the medieval period, and remains highly influential today. Born in Spain, he became the leading rabbinic authority of his time by writing a compendium of Jewish law, the Mishnah Torah. He was also famous as a physician and author of medical works. His widest impact, however, has been through his masterpiece of philosophy of religion, The Guide of the Perplexed. This engaging, elusive book is important not only for its influence on such major thinkers as Aquinas, Spinoza, Leibniz, and Newton, but also for its insight into questions of religion and rationality. In this course we will study virtually all of the Guide, giving special attention to Maimonides' account of the fall, his theory of religious language, his arguments for the existence of god, his doctrine of creation, his teachings on religious experience, prophecy, and revelation, and his views on human perfection andimmortality. In our sessions we will work closely and carefully through the text, at each step following up Maimonides' hints and challenges to his readers. Our goal will be not merely to appreciate the surface purport of the book, but also to discern its deeper implications, through which Maimonides sought to suggest, to a few of his readers, the secret meaning of the bible itself.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

PHIL 1840 - SCIENCE AND RELIGION

Are science and religion at odds or harmonizable? Do they coincide or represent completely separate discourses? This course examines the relationship between science, rationality, faith, and religion. Special attention will be given to ancient creation narratives and their interpretation, historical dialogues regarding faith and reason in the Western monotheist faiths (Christianity, Judaism, Islam), the scientific revolution, and various approaches to evolutionary theory. We will also consider practical, contemporary issues such as neuroscience and religious practice, ecology and faith, and scientific views toward gender and race.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1890 - ISSUES IN PHILOSOPHY (VARIOUS)

This intensive, advanced-level seminar is reserved for special philosophical topics that do not fit standard course-catalog categories. Issues discussed vary from year to year, but tend to be narrowly focused and specialized.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1901 - INDEPENDENT STUDY--UNDERGRADUATE

This course is a way of offering university credit in philosophy for relevant experiences or work undertaken independently, with little or no formal
interaction with an instructor.

**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis

**PHIL 1902 - DIRECTED STUDY--UNDERGRADUATE**

Minimum Credits: 1  
Maximum Credits: 9  
This course provides an individualized study program, on a topic not covered in the regular curriculum, under the close supervision of a faculty advisor. The student is generally expected to produce a substantial piece of written work.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

**PHIL 1903 - DIRECTED RESEARCH--UNDERGRADUATE**

Minimum Credits: 1  
Maximum Credits: 9  
This course is a way of offering university credit in philosophy for research work undertaken by a student under the direction of a faculty member in connection with that faculty member's own research.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

**PHIL 1940 - HONORS THESIS/MAJORS**

Minimum Credits: 3  
Maximum Credits: 3  
This is a special directed study for senior philosophy majors who wish to write an honors thesis over two terms. Use course PHIL 1941 for the second term.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade

**PHIL 1941 - HONORS THESIS 2/MAJORS**

Minimum Credits: 3  
Maximum Credits: 3  
This is the second term of course 1940.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade

**PHIL 1942 - HONORS THESIS 3/MAJORS**

Minimum Credits: 6  
Maximum Credits: 6  
This is a special directed study for senior philosophy majors who wish to write an honors thesis in one term.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade

**Physics & Astronomy**

**PHYS 0081 - SPACE AND TIME, LIGHT AND MATTER**

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces non-science students to the ideas of physics, with emphasis on modern physics.
PHYS 0082 - SCIENCE OF MUSICAL SOUNDS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the physical ideas underlying musical phenomena.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade ‘C’) or MATH PLACEMENT SCORE (61 or greater) or SAT Math (620 or greater) or ACT Math (27 or greater)

PHYS 0087 - PHYSICS AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the physical ideas underlying the role of nuclear science in modern life.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade ‘C’) or MATH PLACEMENT SCORE (61 or greater) or SAT Math (620 or greater) or ACT Math (27 or greater)

PHYS 0088 - THE PHYSICS OF ENERGY

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course on energy. The course will describe both qualitatively and quantitively energy use, energy generation, and sources of energy. In this course, we will explore potential energy sources and the limitations of potential energy sources for specific practical applications. The course will also describe many of the basic physical considerations related to climate change as this phenomenon has now become intimately connected with energy use.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Attributes: DSAS Natural Science General Ed. Requirement

PHYS 0089 - PHYSICS AND SCIENCE FICTION

Minimum Credits: 3
Maximum Credits: 3
This course looks at some of the physical ideas underlying stories by leading writers of science fiction.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade ‘C’) or MATH PLACEMENT SCORE (61 or greater) or SAT Math (620 or greater) or ACT Math (27 or greater)

PHYS 0091 - CONCEPTUAL PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or MATH 0031 or greater (Min Grade 'C') or Math Placement Score 61 or greater or SAT Math Score (620 or greater) or ACT Math Score (27 or greater)

PHYS 0110 - INTRODUCTION TO PHYSICS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a two-term, algebra-based sequence in introductory physics. This term deals with mechanics, heat and thermodynamics, and waves.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 or SAT Math Score (620 or greater) or ACT Math Score (27 or greater) or Math Placement Score (61 or greater)

PHYS 0111 - INTRODUCTION TO PHYSICS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a two-term, algebra-based sequence in introductory physics. This term deals with electricity and magnetism, optics, and modern physics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0110 or 0174 or 0475; MIN GRAD: 'C' for all listed Courses

PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Minimum Credits: 4
Maximum Credits: 4
The integrated curriculum version of PHYS 0104, the first part of a two-term sequence (0174-0175) introduces students to the basic principles of mechanics. An effort has been made to achieve a better integration of physics with the first term of calculus, engineering, and chemistry. The theory of waves and the kinetic theory of gases will be discussed.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0220 or 0235

PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Minimum Credits: 4
Maximum Credits: 4
The integrated curriculum version of PHYS 0105, the second part of a two-term sequence (0174-0175), introduces students to the basic principles of physics. An effort has been made to achieve a better integration of physics with the first term of calculus, engineering, and chemistry. Modern physics (special relativity, elementary quantum mechanics, and atomic structure) will be discussed.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0174 MIN GRAD 'C' or 0475 MIN GRAD 'C') and ( PREQ: MATH 0235 MIN GRAD 'C' or CREQ: MATH 0230)
PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS

Minimum Credits: 2  
Maximum Credits: 2  
This is an introductory physics laboratory associated with the physics 0110-0111 sequence.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: CREQ: PHYS 0111 or 0175 or 0476

PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING

Minimum Credits: 2  
Maximum Credits: 2  
This is an introductory physics laboratory associated with the physics 0104-0105-0106 sequence.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: CREQ: PHYS 0175 or 0476

PHYS 0310 - FIRST YEAR SEMINAR IN PHYSICS AND ASTRONOMY

Minimum Credits: 1  
Maximum Credits: 1  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Satisfactory/No Credit

PHYS 0410 - PHYSICS OF THE HUMAN BODY

Minimum Credits: 1  
Maximum Credits: 1  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PHYS 0411 - PHYSICS OF THE HUMAN BODY 2

Minimum Credits: 1  
Maximum Credits: 1  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1

Minimum Credits: 4  
Maximum Credits: 4  
This is the first term of a two-term honors version of the physics 0104-0105-0106 sequence. This term deals with mechanics, waves and thermodynamics.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: CREQ: MATH 0230 or 0235  
Course Attributes: DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req., University Honors Course

PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2
Minimum Credits: 4
Maximum Credits: 4
This is the second term of a two-term honors version of the physics 0104-0105-0106 sequence. This term deals with electricity and magnetism, relativity, and an introduction to modern physics and quantum phenomena.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [PHYS 0174 (MIN GRADE 'B') or PHYS 0475 (MIN GRADE 'C')] and (MATH 0230 or 0235); CREQ: MATH 0240
Course Attributes: DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req., University Honors Course

PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
Minimum Credits: 4
Maximum Credits: 4
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0175 (B- or better) or PHYS 0476 (C or better); CREQ: MATH 0240

PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0477 or 0479 MIN GRAD: 'C' for all listed Courses

PHYS 0520 - MODERN PHYSICS MEASUREMENTS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0175 or 0476

PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0219 or 0520; MIN GRADE: 'C' for listed Courses

PHYS 1310 - UNDERGRADUATE SEMINAR
Minimum Credits: 1
Maximum Credits: 1
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0175 or 0476

The undergraduate seminar provides a venue for students to discuss topics of interest in physics and astronomy. It gives students experience presenting research in the form of a poster presentation. The seminar will give the students a taste of what conducting scientific research and
presenting scientific results is all about.

**Academic Career:** Undergraduate
**Course Component:** Seminar
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** PREQ: (PHYS 0477 or 0479) and (PHYS 0520 or 0525 or 1361 or 1426 or ASTRON 1263) or (PHYS 0219 and ASTRON greater than or equal to ASTRON 1120 or PHYS greater than or equal to PHYS 1321
**Course Attributes:** Capstone Course

**PHYS 1311 - UNDERGRADUATE SEMINAR**

**Minimum Credits:** 1
**Maximum Credits:** 1
The undergraduate seminar provides a venue for students to discuss topics of interest in physics and astronomy. It gives students experience presenting research, both as a short oral communication, and in the form of a poster presentation, in formats similar to conference talks and poster papers given by researchers in the field at topical meetings. The seminar will give the students a taste of what conducting scientific research, and presenting scientific results, is all about.

**Academic Career:** Undergraduate
**Course Component:** Seminar
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** PREQ: PHYS 1310
**Course Attributes:** Capstone Course

**PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS**

**Minimum Credits:** 3
**Maximum Credits:** 3
Students will master computational techniques and good programming practice and apply these skills to enhance their understand of problems in physics and astronomy. The first 3 weeks of the course will introduce essential programming strategies and debugging techniques with the rest of the course devoted to applications. Topics include interpolation and approximation techniques, ordinary differential equations (e.g., projectile motion with drag and spin), oscillators (linear and nonlinear), orbits, data analysis/curve fitting, partial differential equations (e.g., fluid mechanics), and Fourier transforms.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** CREQ: (PHYS 0477 or 0479) and (PHYS 0219 or 0520 or CS 0008 or ENGR 0012) and MATH 0240 and (MATH 0290 or 1270)

**PHYS 1331 - MECHANICS**

**Minimum Credits:** 3
**Maximum Credits:** 3
This is an intermediate-level course dealing with classical mechanics.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** PREQ: (PHYS 0175 or 0476) and MATH 0240 MIN GRAD: 'C' for listed Courses]; CREQ: (MATH 0280 or 1180 or 1185) and (MATH 0290 or 1270)

**PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS**

**Minimum Credits:** 3
**Maximum Credits:** 3
This course deals with the basic ideas of equilibrium thermodynamics and statistical mechanics.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** PREQ: (PHYS 0477 or 0479) and MATH 0240 and (MATH 0290 or 1270); MIN GRAD: 'C' for all listed Courses
**Course Attributes:** Capstone Course

**PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM**
Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course in electricity and magnetism.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ([PHYS 0175 or 0476] and MATH 0240; MIN GRAD: 'C' for listed Courses); CREQ: MATH 0290 or 1270

PHYS 1361 - WAVE MOTION AND OPTICS

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course dealing with wave motion and optics. Laboratory work is included as part of this course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0219 or 0520) and MATH 0240 (MIN GRAD: 'C'); CREQ: MATH 0280 or 1180 or 1185

PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first-term of a two-term introduction to quantum mechanics. This term introduces the necessary formalism and treats some of its basic applications.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or PHYS 0479) and (MATH 0280 or 1180 or 1185); CREQ: PHYS 1331 and 1351; MIN GRAD: 'C' for all listed Courses except PHYS 0477

PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second-term of a two-term introduction to quantum mechanics. The quantum formalism developed in the first term will be applied in a variety of physical situations.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1370; MIN GRAD: 'C'
Course Attributes: Capstone Course

PHYS 1372 - ELECTROMAGNETIC THEORY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course in which Maxwell's equations are applied to a variety of electromagnetic phenomena.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or 0479) and 1351 and (MATH 0280 or 1180 or 1185); CREQ: PHYS 1331; MIN GRAD: 'C' - PHYS 1351 / MATH 0280, 1180, 1185
Course Attributes: Capstone Course

PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with mathematical techniques that are commonly used in physics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 1370

PHYS 1374 - SOLID STATE PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1374 - SOLID STATE PHYSICS

PHYS 1375 - FOUNDATIONS OF NANOSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0477 or PHYS 0479 or CHEM 0710 or CHEM 1410

PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1370

PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS

Minimum Credits: 3
Maximum Credits: 3
This course gives an introduction into the theory concepts and the experimental methods used for nuclear and particle physics research. While some of the basic principles will be discussed from a historical perspective, the emphasis of this course is on modern developments, such as the standard model and the Higgs Boson, supersymmetry, extra dimensions, dark matter, CP-violation and baryogenesis, and neutrino oscillations. The main aspects of physics processes will be understood and calculated from symmetry principles and kinematics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0477 or PHYS 0479 or CHEM 0710 or CHEM 1410

PHYS 1415 - QUANTUM PHYSICS AT THE NANOSCALE

Minimum Credits: 2
Maximum Credits: 2
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: PHYS 1370

PHYS 1426 - MODERN PHYSICS LABORATORY

Minimum Credits: 2
Maximum Credits: 2
This is an advanced laboratory course that introduces students to the experimental techniques and equipment used in research laboratories.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0525 and PHYS 1370
PHYS 1626 - MODERN PHYSICS LAB/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This is a writing practicum to accompany physics 1226.
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 1426 or ASTRON 1263; PLAN: Physics(BS) or Physics and Astronomy (BS, BA) or Astronomy (BA); PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Writing Requirement Course

PHYS 1661 - WAVE MOTION AND OPTICS WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
This is a writing practicum to accompany physics 1361.
Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 0520 or 1361; PLAN: Physics(BS) or Physics and Astronomy(BS, BA); PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Writing Requirement Course

PHYS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 9
This course places the student in an "on-the-job" setting in which they receive practical experience in a supervised training environment.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: LG/SNC Elective Basis

PHYS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
This course gives students the opportunity to design and carry out an individual project not covered by any course offerings.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PHYS 1902 - DIRECTED READING

Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design a plan of reading to be agreed upon by the student and a supervising faculty member.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHYS 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design and carry out a research project to be agreed upon by the student and a supervising faculty member.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

**PHYS 1904 - EXPERIENCE IN UNDERGRADUATE TEACHING**

- Minimum Credits: 1
- Maximum Credits: 2
- Academic Career: Undergraduate
- Course Component: Directed Studies
- Grade Component: LG/SNC Elective Basis

**Physics and Astronomy**

**ASTRON 0086 - OBSERVATIONAL ASTRONOMY**

- Minimum Credits: 3
- Maximum Credits: 3
- This course is for students who have a desire to become familiar with the nature and motions of celestial objects in the night sky and techniques to observe them. The course will be given at a level suitable for both science and non-science majors who want to learn how to use a telescope and enjoy observational and practical astronomy.
- Academic Career: Undergraduate
- Course Component: Lecture
- Grade Component: LG/SNC Elective Basis
- Course Requirements: PREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater) or SAT HIMAT SCORE (620 or Greater) or ACT HIMAT SCORE (27 or Greater)

**ASTRON 0087 - BASICS OF SPACE FLIGHT**

- Minimum Credits: 3
- Maximum Credits: 3
- Intended for non-science majors, this course focuses on identifying and understanding the general concepts associated with space flight.
- Academic Career: Undergraduate
- Course Component: Lecture
- Grade Component: LG/SNC Elective Basis
- Course Requirements: PREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater) or SAT HIMAT SCORE (620 or Greater) or ACT HIMAT SCORE (27 or Greater)

**ASTRON 0088 - STONEHENGE TO HUBBLE**

- Minimum Credits: 3
- Maximum Credits: 3
- A course focusing on practical astronomy and providing a historical perspective of our place in the universe. Phenomena that can be readily observed with the unaided eye or a small telescope are discussed. The historical perspective starts with the earliest views, and discusses scientific discovery as a process leading up to modern ideas of the expanding universe of galaxies.
- Academic Career: Undergraduate
- Course Component: Lecture
- Grade Component: LG/SNC Elective Basis
- Course Requirements: PREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater) or SAT HIMAT SCORE (620 or Greater) or ACT HIMAT SCORE (27 or Greater)

**ASTRON 0089 - STARS, GALAXIES AND THE COSMOS**

- Minimum Credits: 3
- Maximum Credits: 3
- This is a self-contained course for students not majoring in the physical sciences. The Universe in which we live is an unimaginably vast and rich place that is understandable through the same physical laws that govern our existence here on Earth. By exploring topics from our nearest neighboring stars to the farthest galaxies newly formed after the Big Bang, this course will engage your mind to better understand our Universe and your everyday world. Through active and engaged participatory lectures, we will observe the cosmos and learn about the birth, life, and death of stars.
and their mysterious remnants: pulsars and black holes. From studying stars and our own Milky Way Galaxy, we will expand our vision to cosmology and investigate the origin and ultimate fate of the Universe.

**ASTRON 0113 - INTRODUCTION TO ASTROPHYSICS**

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to the physics of the solar system, stars, galaxies, extragalactic objects and the Universe at large. Topics include: size scales of the Universe, some review of basic physics, telescopes, the evolution and deaths of stars, the interstellar medium, star clusters, our Milky Way galaxy, external galaxy formation and evolution, active galactic nuclei and quasars, dark matter, dark energy, and cosmology. This course is intended for students majoring in the natural sciences. Although calculus is not used in this course, algebra and trigonometry are used extensively. Students who are not majoring in the natural sciences and/or who are not comfortable with algebra and trigonometry-based problem solving are advised to take ASTRON 0089. Although there are no formal physics prerequisites for ASTRON 0113, experience with at least high school physics is recommended.

**ASTRON 0413 - HONORS INTRODUCTION TO ASTRONOMY**

Minimum Credits: 4  
Maximum Credits: 4  
This course will be an introduction to astronomy and astrophysics. The 4-credit honors course will consists of all aspects of the 3-credit course, including lectures and homework with additional problems tailored for this course. ASTRON 0413 includes an additional 50-minute class session each week. In these extra sessions, basic topics will be covered in more detail than in ASTRON 0113. These extra sessions will also involve significant problem solving and discussions of the derivations of fundamental results in astronomy and astrophysics. Students considering a major in physics, astronomy, or physics and astronomy are strongly encouraged to take ASTRON 0413 instead of ASTRON 0113.

**ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION**

Minimum Credits: 3  
Maximum Credits: 3  
Topics covered include: stellar properties (mass, radius, luminosity, temperature); deductions from binary stars; the sun; the HR diagram; stellar atmospheres and interiors; stars in hydrostatic and thermal equilibrium; equations of state for a perfect gas and for degenerate matter; energy generation and nuclear fusion reactions; opacities; life histories of stars according to mass; star formation; main sequence stars; red giants; white dwarfs; red supergiants; supernovae; neutron stars (pulsars); black holes; evolution of binary systems; results from clusters.

**ASTRON 1121 - GALAXIES AND COSMOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
Topics covered include: the milky way galaxy and its properties; external galaxies and their properties; evolution of galaxies; the expansion of the universe (Hubble Law) and the Extragalactic Distance Scale; Clustering of Galaxies; Dark Matter; Active Galaxies and Quasars (models with supermassive black holes); General Relativity, Cosmology, and the Big Bang Model; the Age and fate of the Universe; the History of the Early...
Universe (Inflation, Nucleosynthesis of Light Elements, 3 degree background radiation; the IgM and Galaxy Formation.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: (ASTRON 0113 or 0413) and MATH 0240 and (MATH 1270 or 0290 or 0250); CREQ: PHYS 0477 or 0479

---

**ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

---

**ASTRON 1263 - TECHNIQUES OF ASTRONOMY**

Minimum Credits: 3  
Maximum Credits: 3  
The course will roughly be divided into three parts: (1) telescopes, instrumentation, and detectors for radio, IR/ optical/UV, X-Ray, and gamma-ray astronomy. (2) Theoretical foundations of observational techniques, (astronomical coordinates, data acquisition, and sources of noise), data processing, analysis techniques, statistics, and model fitting. (3) Practical problems in making observations, data processing, and data analysis, with special attention paid to understanding errors and uncertainties in results.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

---

**ASTRON 1900 - INTERNSHIP**

Minimum Credits: 1  
Maximum Credits: 9  
This course places the student in an "on-the-job" setting in which they receive practical experience in a supervised training environment.

Academic Career: Undergraduate  
Course Component: Internship  
Grade Component: LG/SNC Elective Basis

---

**ASTRON 1901 - INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 9  
This course gives students the opportunity to design and carry out an individual project not covered by any course offerings.

Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis

---

**ASTRON 1902 - DIRECTED READING**

Minimum Credits: 1  
Maximum Credits: 9  
This course is designed to give students the opportunity to design a plan of reading to be agreed upon by the student and a supervising faculty member.

Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SNC Elective Basis

---

**ASTRON 1903 - DIRECTED RESEARCH**

Minimum Credits: 1  
Maximum Credits: 9  
This course is designed to give students the opportunity to design and carry out a research project to be agreed upon by the student and a supervising faculty member.
In the wake of the police killings of George Floyd, Breonna Taylor, Tony McDade and many others in recent months, activists and scholars in the United States have taken to the streets, the workplace, and classrooms to decry anti-Black racism and call attention to the ongoing devaluation of Black lives in the US and globally. The wave of uprisings that have swept the nation and globe represent part of a long struggle of anti-racist organizing—one that can be traced back hundreds of years. This multidisciplinary course seeks to provide a broad overview of this rich and dynamic history. Built around the expertise of Pitt faculty and Pittsburgh area activists, this course will introduce students to the established tradition of scholarship focused on the Black experience and Black cultural expression. It also seeks to examine the development, spread, and articulations of anti-Black racism in the United States and around the world. The course will grapple with three key areas of inquiry: the roots, ideology, and resistance to anti-Black racism. Each unit will be focused through readings, lectures and discussions. First, we will explore the roots of anti-Black racism in the United States, drawing connections to African history, the history of slavery, and the Transatlantic Slave trade. Second, the course will grapple with the ideology of anti-Black racism—the ideas that undergird the creation of racial hierarchies, often shaped by pseudo-science and eugenics. Third, the course will highlight the theme of resistance, paying close attention to the range of political strategies and tactics Black activists and their allies have employed in their effort to obtain a more just and equal society here and internationally. Significantly, the course employs an intersectional analysis—taking into account how race is interwoven into other categories including ethnicity, gender, class, sexuality and nationality. We will use a variety of scholarly disciplines spanning the Humanities, Social Sciences, the Arts, Science and Public Health to explore these themes to help students understand how anti-Black racism functions in US society.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit

Polish

POLISH 0010 - ELEMENTARY POLISH 1

Minimum Credits: 3
Maximum Credits: 3
A traditional four-skills language course, with equal emphasis on speaking, reading, writing, and listening. By the end of the first semester, students have developed a good polish accent and the ability to converse on many practical subjects, including family, friends, work, studies, free time and lifestyle.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

POLISH 0020 - ELEMENTARY POLISH 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of elementary POLISH 0010, this four-skill language course extends the grammatical coverage to include verbal aspect, numeral expressions, and the locative, dative and genitive cases. Emphasis continues to be on developing spoken language competence.

Academic Career: Undergraduate
Course Component: Lecture
POLISH 0030 - INTERMEDIATE POLISH 3

Minimum Credits: 3
Maximum Credits: 3
The continuation of elementary POLISH 0020, this course focuses more on written polish and developing listening comprehension than in the first-year course. Attention is paid to developing a good control of basic idioms, and to the formation of participles.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

POLISH 0040 - INTERMEDIATE POLISH 4

Minimum Credits: 3
Maximum Credits: 3
A continuation of intermediate POLISH 7030, this course attempts to round out the student's basic oral competence in relation to specific matters of polish culture and reality. For many students, this course is preparatory to summer study in Poland.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

POLISH 0210 - INTENSIVE BEGINNING POLISH

Minimum Credits: 6
Maximum Credits: 6
This is a four-skill intensive course in beginning Polish language which is to be offered as part of the summer intensive workshops in Slavic languages.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: DSAS Second Language General Ed. Requirement, Russian & East European Studies, West European Studies

POLISH 0211 - BEGINNING INTENSIVE POLISH PITT/POLAND

Minimum Credits: 10
Maximum Credits: 10
This is a first-year polish course equivalent to POLISH 0210. Four weeks on campus and four weeks in class in Poland. Part of the East European summer language institute.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies, West European Studies

POLISH 0220 - INTENSIVE INTERMEDIATE POLISH

Minimum Credits: 6
Maximum Credits: 6
This is a four-skill intensive course in intermediate Polish which is offered as part of the summer intensive workshops in Slavic languages.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies, West European Studies

POLISH 0221 - INTERMEDIATE INTENSIVE POLISH PITT/POLAND

Minimum Credits: 10
Maximum Credits: 10
This is a second-year course in Polish equivalent to POLISH 0210. Four weeks on campus and four weeks in class in Poland. Part of the East European summer language institute.

**Academic Career:** Undergraduate  
**Course Component:** Workshop  
**Grade Component:** Letter Grade  
**Course Attributes:** Russian & East European Studies, West European Studies

**POLISH 0222 - INTERMEDIATE INTENSIVE POLISH IN POLAND**

Minimum Credits: 4  
Maximum Credits: 4  
This is a second year second semester course equivalent to POLISH 0040. It is taught in Lodz Poland and is part of the East European summer language institute.  
**Academic Career:** Undergraduate  
**Course Component:** Workshop  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Russian & East European Studies, West European Studies

**POLISH 0223 - INTERMEDIATE POLISH IN POLAND**

Minimum Credits: 6  
Maximum Credits: 6  
Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: LG/SNC Elective Basis

**POLISH 0230 - ADVANCED INTENSIVE POLISH**

Minimum Credits: 6  
Maximum Credits: 6  
This is a four-skill intensive course in advanced Polish, which is offered as part of the summer intensive workshops.  
**Academic Career:** Undergraduate  
**Course Component:** Workshop  
**Grade Component:** Letter Grade

**POLISH 0231 - ADVANCED INTENSIVE POLISH PITT/POLAND**

Minimum Credits: 10  
Maximum Credits: 10  
This is a ten-week course in Advanced Polish language, six weeks of intensive study in Pittsburgh followed by four weeks of intensive study in Krakow Poland.  
**Academic Career:** Undergraduate  
**Course Component:** Workshop  
**Grade Component:** Letter Grade

**POLISH 0232 - ADVANCED INTENSIVE POLISH IN POLAND**

Minimum Credits: 4  
Maximum Credits: 4  
This is four week course of Advanced Polish in Krakow Poland.  
**Academic Career:** Undergraduate  
**Course Component:** Workshop  
**Grade Component:** LG/SNC Elective Basis

**POLISH 0233 - ADVANCED POLISH IN POLAND**

Minimum Credits: 6  
Maximum Credits: 6  
This is an advanced-level four-skills Polish language course held in Krakow, Poland, and is part of the Slavic, East European and near eastern summer language institute.  
**Academic Career:** Undergraduate
POLISH 0325 - SHORT STORY IN POLISH CONTEXT

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to the formal analysis of the literary genre of the short story, on the example of works of polish literature of the 19th and 20th centuries. The course will examine works both formally and as they reflect the reality or literary-social concerns of given historical periods 19th century positivism, women's issues, prison-camp literature, post-war literature of the absurd, and others.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  

POLISH 0400 - ADVANCED POLISH THROUGH FILM

Minimum Credits: 3  
Maximum Credits: 3  
A two-semester sequence in polish advanced conversation, reading, and composition. This course aims at developing the student's command of idioms, while thoroughly reviewing all aspects of polish conjugation and declension. Focus is placed on the contemporary colloquial Polish language, as spoken by the young in authentic Polish cultural contexts.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

POLISH 0410 - ADVANCED POLISH 2

Minimum Credits: 3  
Maximum Credits: 3  
This is the second part of third-year Polish language. (Advanced level).

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

POLISH 0870 - CONTEMPORARY POLISH CINEMA:LITERATURE ON FILM

Minimum Credits: 3  
Maximum Credits: 3  
This course presents contemporary Polish cinema from 1945 to the present. Concepts will be studied in their historical, political, philosophical, and aesthetic perspective. The main trends (schools, movements) in Polish cinema, such as the so-called Polish school and the cinema of moral concern, and the works of most important modern polish filmmakers will be examined.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: SCI Polymathic Contexts: Global&Cross Cul GE. Req.

POLISH 1260 - SURVEY OF POLISH LITERATURE AND CULTURE

Minimum Credits: 3  
Maximum Credits: 3  
Major literary monuments of polish literature are examined against the background of Polish history and culture. Works are related to the major literary and intellectual currents of the time and are placed in both a Polish and a general European context. Literary works are additionally examined critically from a formalistic literary point of view, the aim being to develop in students the basic concepts and vocabulary of literary criticism.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0202 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Diversity General Ed. Requirement, DSAS Literature General Ed. Requirement, Russian & East European Studies, Writing Requirement Course

POlish 1901 - Independent Study

Minimum Credits: 1
Maximum Credits: 3
This course allows students to work independently on individually designed projects.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

Political Science

Ps 0200 - American Politics

Minimum Credits: 3
Maximum Credits: 3
This course is, quite generally, designed to provide students with a basic working knowledge of the basic goals of the constitutional framers, giving students an understanding of the purposes of the American political system; the essential structures (or institutions) within the American political system, the behavior (broadly defined) of the actors within the American political system, the purpose and performance of the linkage institutions in the United States (possibly including political parties, elections, and interest groups); and the types of policies that are often produced by a system with the characteristics of those found in the United States. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Ps 0300 - Comparative Politics

Minimum Credits: 3
Maximum Credits: 3
This course provides students with basic information about a range of political systems outside the United States and teaches them to use that information to examine major theories about politics. The course is also designed to help students understand the government and the politics of the United States in comparative perspective and to develop some understanding of comparative methodology and the logic of comparison as a social science method. Depending on the interests, area of expertise, and inclinations of the particular instructor, some regions and topics might be emphasized more heavily than others.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Ps 0500 - International Relations

Minimum Credits: 3
Maximum Credits: 3
This course aims to increase students' knowledge of the history of the modern state system and, in particular, political developments during the past few decades. It introduces students to basic concepts and analytic frameworks that political scientists employ to understand world politics, enhancing students' knowledge of international institutions that play important roles in world politics and exploring current issues in world affairs relating to human welfare and security. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
PS 0550 - INTRODUCTION TO GLOBAL STUDIES

Minimum Credits: 3  
Maximum Credits: 3  
Global Studies is a rapidly growing interdisciplinary field that explores how people interact with one another and with nature across existing boundaries, over long distances, and in ways that affect the entire planet. It provides new and exciting ways of looking at connections and divisions in the world beyond the confines of particular places, nation states, and regions. This course provides an introduction to the field. It examines current global trends and issues in ways that encourage you to think critically about how we analyze, interpret, and respond to global interactions and their consequences for different regions, localities, and groups. It gives particular attention to the concept of globalization, highlighting the controversies surrounding its use and engaging core debates about the impact of global and transnational processes on economic relations, politics and governance, cultural interactions, and the environment.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

PS 0600 - POLITICAL THEORY

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to introduce students to the idea of normative political theory and to important authors and concepts in the western political theory tradition. Students will learn to understand both historical and contemporary debates surrounding important political concepts such as authority, justice, liberty, and democracy, and to appreciate the differences among normative, empirical, logical, and faith-based political claims. Students will learn to read critically and analytically, to make simple normative arguments, and to explain the specific role of normative arguments in political science and political life. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

PS 0700 - RESEARCH METHODS IN POLITICAL SCIENCE

Minimum Credits: 3  
Maximum Credits: 3  
The course provides an introduction to scientific inquiry applied to the study of politics. The main emphasis of this course is to introduce political science majors to key analytical concepts and to their application to the study of politics. The course covers the logic of scientific inquiry, research design, and quantitative methods.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement

PS 0835 - HAMILTON

Minimum Credits: 3  
Maximum Credits: 3  
This class is an inquiry into Hamilton the Musical and Alexander Hamilton the political thinker. It is divided into three sections, where exploration of the Political, Theatrical, and Musical/Cultural significance of both the musical and the historical figure is conducted.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

PS 1000 - HONORS THESIS-MAJORS
Minimum Credits: 3  
Maximum Credits: 3

Students prepare a thesis, under guidance of a faculty advisor, which is read and evaluated by a committee of three faculty members.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** Letter Grade  
**Course Attributes:** Capstone Course

**PS 1201 - CONSTITUTION AND CIVIL LIBERTIES**

Minimum Credits: 3  
Maximum Credits: 3

The course will explore major topics in the area of civil liberties and civil rights which have concerned the Supreme Court in recent years and which have provoked extensive political and social controversy. Examples include decisions about discrimination, privacy, freedom of speech and assembly, and conflicts between freedom of the press and a fair trial.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1202 - AMERICAN CONSTITUTIONAL LAW**

Minimum Credits: 3  
Maximum Credits: 3

The United States constitution plays an extraordinarily powerful role in American political life. The primary focus of this course is examination of the role of constitutional law in the American political process. We do this by analyzing constitutional interpretation by the United States Supreme Court and other federal courts in its major decisions. Students will learn how the court reached its decisions, who some significant justices have been, how the court considered contending arguments, and what the consequences of these decisions for our political system have been. Topics include the development of judicial review and close analysis of the way in which the court has addressed the two major structural features of the U.S. Constitution: separation of powers and federalism in an historic and contemporary setting. Specific issues in these areas are struggles over presidential and congressional power and national versus state power. We also address issues regarding civil liberties and civil rights. Students should find this course helpful in reaching a more sophisticated understanding of the major issues of constitutional law in American life, as well as providing a useful background to the cases and kinds of legal analysis they may pursue in further study in law school or other graduate study.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1203 - JUDICIAL POLITICS**

Minimum Credits: 3  
Maximum Credits: 3

The course will focus on judicial policy making and the political, social and economic underpinnings influencing cases and their decisions. Areas of focus will be: right of privacy (sexual orientation and abortion), classification (race and gender), speech (freedom of speech and press and the internet), religion (exercise and establishment), and criminal (investigations, trials and punishment).

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PS 0200

**PS 1204 - WOMEN IN POLITICS**

Minimum Credits: 3  
Maximum Credits: 3

This course will consider political issues and explore the changing political role of women as citizens, candidates, office-holders, and policymakers. The emphasis will be on the American political experience, although examples will be drawn from other countries.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Global Studies

**PS 1205 - RACE, GENDER AND POLITICS**
Minimum Credits: 3
Maximum Credits: 3
This course deals with the political consequences of ethnic identity in the advanced industrial states of North America and Western Europe. The major theoretical concerns include the sources of ethnic identity, the relationship between ethnicity and social class, and the persistence or resurgence of ethnic political movements in contemporary societies.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1211 - LEGISLATIVE PROCESS**

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of the legislative process in modern democracies with primary attention devoted to the legislative process in the United States. The history and meaning of representation is analyzed as is the behavior of participants in the legislative process. The impact of social-economic forces on decision-making in the United States is studied as are the roles of interest groups, political parties, the executive branch, and the judiciary.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1212 - AMERICAN PRESIDENCY**

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of presidential leadership in the United States. The first part of the course deals with factors helping to explain presidential leadership; how presidents are nominated and elected, the constitutional framework within which the presidency operates, presidential relations with the bureaucracy, and presidential personality. This framework is then used for an intensive analysis of presidential leadership in foreign and domestic policy.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1213 - LAW AND POLITICS**

Minimum Credits: 3
Maximum Credits: 3
Examines the relationship between law and values, law and power, and law and discretion. Legal reasoning is examined as applied to statutory, case, and constitutional law.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**Course Attributes:** Urban Studies

**PS 1214 - US CONGRESS**

Minimum Credits: 3
Maximum Credits: 3
This course will explore the evolution and current place of the U.S. Congress within the American political system beginning with an examination of the theory and history of electing representatives to government. Students will examine the role and structure of the legislative branch as anticipated in the American constitution. Other areas of focus include the congressional election process, the importance of congressional committees and differences in rules for the house and senate, policy making, and how congress relates to the other two branches of government. A key overarching goal in this course is to assess challenges and changes facing the contemporary U.S. Congress.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

**PS 1220 - SPORTS AND AMERICAN POLITICS**

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the intersection of politics and sports from a social science perspective. We will critically examine empirical evidence on the
politics of sports on such topics as race, gender, stadium siting, concussions, collective bargaining, and corruption. These are just a few of the issues that demonstrate how sports and politics are intertwined. Indeed, sports are even used as a tool by government to promote nationalism (e.g., the Olympics, the singing of the national anthem before events, etc.). You do not need to be a fan of sports to understand and analyze the relationship between them and politics: indeed, being a fan may lead you to have "blind spots" on certain topics.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3

### PS 1230 - INTEREST GROUP POLITICS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Are interest groups vital or vicious? Do interest groups use money to "buy power," or do they play a key part in the representation of diverse ideas? What roles do, and should, interest groups (i.e., special interests, pressure groups, lobbyists) play in democracies? This course explores the role of interest groups in the participation and representation of citizens in the United States. Focusing on key themes like liberty and equality, the course examines what interest groups are, what they do, and what implications that has for the laws that get passed and enforced, political campaigns, the ability of different groups (that differ by race/ethnicity, income, religion, and sexual preference) to get their voices heard in the political process, and what could be done to improve or curb their influence.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1231 - POLITICAL PARTIES AND ELECTIONS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the organization and character of American political parties, the impact of environmental factors on party processes and behavior, patterns of party competition, and the role of parties in shaping public policy and in providing a linkage between public and government. Attention is also given to the political behavior of the American public. Recent changes in the organization of party institutions are examined.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1232 - POLITICAL ATTITUDE & PUBLIC OPINION

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course explores the formation and measurement of mass public opinion. Topics include: how individuals gather information; the formation of political ideology, political attitudes, and political preferences; the stability of public opinions across different issues; the relationship between mass public opinion and government policy (both what it is, and what it should be); and methods for measuring public opinion, including public opinion surveys.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1233 - POLITICAL PSYCHOLOGY

**Minimum Credits:** 3  
**Maximum Credits:** 3  
There are numerous ways that we can explain political behavior (including both overt behavior such as voting and latent behaviors such as attitudes and preferences). In this course, we consider a number of such explanations (all from the discipline of psychology), including those rooted in personality, biology, emotions, culture, and environmental influence.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1234 - ELECTORAL BEHAVIORS AND DEMOCRATIC PROCESS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the factors that affect national electoral outcomes in the U.S.  
**Academic Career:** Undergraduate
PS 1235 - MEDIA AND POLITICS

Minimum Credits: 3  
Maximum Credits: 3  
The media is all around us, but what impact does it have? It permeates everything from leisure and entertainment to how candidates communicate with the public and what political decisions get made. This course tackles three broad questions about the intersection of media and politics. First, how is news created and why does it matter? For example, are late night talk shows like Stephen Colbert or the internet news sources; why or why not? Second, how is the media used in political campaigns and how does it influence campaigns? Can a bad tweet (i.e. Anthony Weiner) end a campaign or a political career? Third, how do the media shape the creation of public policies 'the laws that do or do not get passed' 'and the decisions that get made? Can media-savvy politicians use the media to help their cause or rally public support for big decisions like going to war?  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PS 1240 - THE POLITICS OF DIVERSITY

Minimum Credits: 3  
Maximum Credits: 3  
This course explores the benefits and pitfalls of diversity both in American national politics and the politics of everyday life. Students will read and discuss some of the top research on questions surrounding diversity and will conduct original research on the topic. Students will also learn valuable skills they will be able to bring to bear as they enter today's diverse workplaces.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Urban Studies

PS 1241 - PUBLIC ADMINISTRATION AND POLITICAL SYSTEM

Minimum Credits: 3  
Maximum Credits: 3  
This course analyses the nature of the public bureaucracy in the United States and its role in governance. Special emphasis is placed on questions of accountability and responsibility.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PS 1250 - GAMES, POLITICS, AND STRATEGY

Minimum Credits: 3  
Maximum Credits: 3  
How can we better understand politics by viewing it as a game of strategy? What can we really say about the "will of the majority"? Can democratic procedures be manipulated? How is conflict like a game of poker? Campaigns, elections, persuasion, lobbying, conflict, and war involve elements of competition, cooperation, and chance. The course develops analytical tools that can be applied to a variety of political phenomena. Learn how to model and analyze strategic interaction by playing classroom games and applying tools from game theory.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PS 1251 - URBAN GOVERNMENT AND POLITICS

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introduction to the key structures, procedures and problems of cities and urban areas. Topics covered include: city-suburban conflicts, relations between cities and the federal government, forms of local government and their advantages and disadvantages, property taxes, housing, urban renewal, crime, courts, and education. The principal objective of the course is to help the student develop a well-informed and differentiated view of urban places and problems.  
Academic Career: Undergraduate  
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Urban Studies

PS 1252 - STATE GOVERNMENT

Minimum Credits: 3
Maximum Credits: 3
This course will survey political processes and public policy outcomes in the fifty American states. Policy areas to be covered include the environment, era, taxation, crime and law enforcement, and welfare.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1261 - AMERICAN PUBLIC POLICY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on a variety of public policy issues. The issues include social welfare programs, management of the economy, governmental regulation of business activities, environmental programs, urban problems, civil rights, civil liberties, crime control efforts, and foreign policy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Urban Studies

PS 1262 - HEALTH POLICY IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to current problems of health care and health policy in the United States. Description and analysis of the proposals, current practices, and the reactions of interest groups will be the central theme of the course.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1263 - HEALTH POLICY ANALYSIS: CONCEPTUAL FOUNDATION

Minimum Credits: 3
Maximum Credits: 3
Twenty-first century America is marked by deep and seemingly incommensurable divisions in terms of public policy solutions to our most intractable issues. Health policy challenges are not immune to these deep divisions, as the debate during and since the passage of the Affordable Care Act illustrates. Positions on key public policy issues are driven by a variety of philosophical, social, and cognitive phenomena. In this class, we will explore these phenomena and how they drive the derivation, implementation, and evaluation of public policy. We will apply the conceptual understanding of these phenomena to current health policy issues.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

PS 1264 - AMERICAN POLITICS THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1275 - RELIGION AND AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
In recent years religious groups and religious values have played an increasingly prominent role in politics in many countries, including the United States. The purpose of this course will be to consider the public and political aspects of religion in the United States. Religious beliefs and institutions
have wide-ranging implications for civic norms, public policy, political leadership, international relations, and the treatment of various social groups. After an historical survey of the role of religion in American politics, the second part of the course will focus on the contemporary impact of American religious groups and values on public opinion, lobbying, and electoral choice. We will also discuss the implications of the doctrine of "separation of church and state" for law, education, and civil liberties.

**Academic Career:** Undergraduate

**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Social Science General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**PS 1281 - CAPSTONE SEMINAR IN AMERICAN POLITICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: PS 0200; PLAN: Political Science (BA or BS or BPH); LVL:Sr; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006)  
**Course Attributes:** Capstone Course, Writing Requirement Course

**PS 1283 - TOPICS IN AMERICAN POLITICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Current topics of interest in American politics. Topics covered vary with instructor and term.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1291 - WOMEN IN POLITICS - ANALYSIS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will consider political issues and explore the changing political role of women as citizens, candidates, office-holders, and policymakers. The emphasis will be on the American political experience, although examples will be drawn from other countries. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1292 - RACE, GENDER, AND POLITICS - ANALYSIS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course deals with the political consequences of ethnic identity in the advanced industrial states of North America and Western Europe. The major theoretical concerns include the sources of ethnic identity, the relationship between ethnicity and social class, and the persistence or resurgence of ethnic political movements in contemporary societies. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1293 - LEGISLATIVE PROCESS - ANALYSIS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course provides an analysis of the legislative process in modern democracies with primary attention devoted to the legislative process in the United States. The history and meaning of representation is analyzed as is the behavior of participants in the legislative process. The impact of social-economic forces on decision-making in the United States is studied as are the roles of interest groups, political parties, the executive branch, and the
judiciary. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.

Academic Career: Undergraduate

**PS 1300 - CAPSTONE IN RUSSIAN AND EAST EUROPEAN STUDIES**

Minimum Credits: 3
Maximum Credits: 3
The objective of this capstone course in Russia and east European studies is to provide you with the opportunity to draw on and synthesize all of the skills and knowledge gained in the various courses and seminars that you have taken in the process of earning your REES certificate, and apply them to a topic of particular interest to you. The course will culminate in an analytical/research paper on a topic in Russian and east European studies to be chosen by each individual student. In keeping with multidisciplinary objectives of our certificate, the paper must draw on methodologies and literature from multiple disciplines.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Attributes: Capstone Course, Writing Requirement Course

**PS 1301 - COMPETING PERSPECTIVES ON GLOBAL ENERGY: FROM WESTERN PA TO EASTERN EUROPE**

Minimum Credits: 3
Maximum Credits: 3
THIS COURSE PROVIDES PROFESSIONAL SCHOOL STUDENTS IN THE FIELDS OF BUSINESS, LAW, ENGINEERING, PUBLIC POLICY AND OTHER AREAS WITH A FIRST-HAND EXPERIENCE OF THE GLOBAL IMPACT OF CONTEMPORARY DEVELOPMENTS
IN THE NATURAL GAS AND OTHER ENERGY SECTORS. PARTICIPANTS WILL FIRST WITNESS THE EFFECT THAT MARCELLUS SHALE HAS HAD IN WESTERN PA AND THEN SEE HOW THESE DEVELOPMENTS ARE IMPACTING THE US'S FOREIGN POLICY AND TRADE PRACTICES. AFTER THIS, STUDENTS WILL BE FAMILIARIZED WITH A VERY DIFFERENT SIDE OF THE GLOBAL NATURAL GAS AND ENERGY EQUATION BY TRAVELLING TO MOSCOW, WHERE THEY WILL SEE THE KREMLIN'S VIEW OF GLOBAL AND REGIONAL GAS AND ENERGY MARKETS. THE COURSE ENDS WITH AN EXPLORATION OF THE ROLE THAT TRANSIT STATES LIKE BULGARIA PLAY IN GLOBAL ENERGY MARKETS AND EFFORTS BY THESE PLAYERS TO USE THEIR TERRITORY AND ENERGY ALTERNATIVES TO BARGAIN WITH LARGER STATES AT BOTH ENDS OF ENERGY PIPELINES. THROUGHOUT THIS EXPLORATION, STUDENTS WILL BE EXPOSED TO A VARIETY OF STAKEHOLDERS AND A GAIN AN UNDERSTANDING OF ENERGY'S IMPACT ON DOMESTIC AND INTERNATIONAL POLITICS, ECONOMIES, SOCIETIES AND THE ENVIRONMENT.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**PS 1302 - POLITICAL DEVELOPMENT**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will examine the major problems involved in the study and understanding of change in "less developed countries," the main approaches and theories applied to these problems, and the criticisms directed at some of these approaches. In particular, it will consider attempts to understand "development" by reference to the earlier experiences of Europe and the United States and will evaluate the relevance of such an approach to the current problems of the underdeveloped world.

**Academic Career:** Undergraduate  
**Course Component:** Lecture

---

**PS 1303 - EACE MOVEMENTS AND PEACE EDUCATION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course focuses on two major components in the field of peace studies; peace movements and peace education. Key concepts (e.g., peace, war, violence, conflict, justice, equality, democracy, and citizenship) and theories are discussed. Movements for (inter-personal, inter-group, and international) peace initiated by people in the United States and other countries historically and today will be analyzed. School-, University-, and community-based peace education programs developed in various countries will also be examined.

**Academic Career:** Undergraduate  
**Course Component:** Lecture

---

**PS 1309 - COMPARATIVE REGIONALISM (EUROPE AND ASIA)**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course introduces students to the politics of Asia by examining and comparing the political systems, economic performance, civil society, and the effect of globalization among countries of East- and South-East Asia. Particular attention will be given to Asian regionalism, focusing on regional powers and their efforts in promoting regional cooperation and integration. The course offers an overview of Asian regional cooperation mechanisms (ASEAN and ASEAN+, East Asia Summit, ARF) as well as current thematic issues such as Asian integration, contemporary Asian nationalism, and state-centered capitalism. Through the use of contemporary film and media, students will be engaging in discussions on Asia and its impact on the future of the international order.

---

**PS 1311 - WESTERN EUROPEAN GOVERNMENT AND POLITICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers the politics and government of Western European countries at the national and local levels. It also considers some aspects of the relationships between the European Union and its member states.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
Course Attributes: DSAS Geographic Region General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

PS 1314 - GERMAN GOVERNMENT AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines political institutions and developments in Germany following the second World War, first tracing them through the eras of postwar occupation, Cold War partition and consolidation of the two German states, through the East German revolution of 1989 that set the state for unification. The course will pay special attention to the domestic and international public policy challenges facing post-unification Germany.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1316 - ASIAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the politics of Asia by examining and comparing the political systems, economic performance, civil society, and the effect of globalization among countries of East- and South-East Asia. Particular attention will be given to Asian regionalism, focusing on regional powers and their efforts in promoting regional cooperation and integration. The course offers an overview of Asian regional cooperation mechanisms (ASEAN and ASEAN+, East Asia Summit, ARF) as well as current thematic issues such as Asian integration, contemporary Asian nationalism, and state-centered capitalism. Through the use of contemporary film and media, students will be engaging in discussions on Asia and its impact on the future of the international order.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1317 - POLITICS OF THE EUROPEAN UNION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the government and politics of the European Union. It will provide a historical overview of the creation of the EU and development of European integration and introduce students to the EU's governing institutions, current policies and debates, and the public's views of the EU through public opinion and electoral politics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies, West European Studies

PS 1318 - EUROPEAN GOVERNMENT AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course will encompass the comparative study of the political systems of Western Europe including the UK, France, Germany, Italy, Spain, Poland, and Scandinavia. The primary themes will include political development and institutions, security, European integration, political culture, political economy, and democratization.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1321 - LATIN AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course compares and contrasts the governments and political processes throughout Latin America. It offers a detailed look at several countries, and also provides a comparative framework to discuss the rise, fall, and quality of democracy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
PS 1322 - LATIN AMERICAN POLITICAL DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
In this course we will address the following puzzle: why was it so difficult to build stable democracies in Latin America during the twentieth century? We will use the analytical tools provided by political science to illuminate the political history and the current situation of Latin America. Some of the topics that we will deal with in this course are: institutional arrangements, economic policy, and role of the military, elections, and political and social equality. Most of the course we will focus on thematic material using comparative analysis. However, we will also study four Latin American countries in greater detail.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Latin American Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

PS 1324 - US-LATIN AMERICAN RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the history, politics, and legitimacy of US policy towards Latin America. How have these relations changed over time? What have been the consequences for the US or for the Latin American countries? What interests and structures have driven us decisions?
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1326 - EAST ASIAN POLITICAL ECONOMY 1950-PRESENT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1327 - POLITICS OF REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1328 - AUTHORITARIAN STATECRAFT AND THE ARTS OF RESISTANCE

Minimum Credits: 3
Maximum Credits: 3
According to the democracy index, only 19 countries are "full democracies," housing only 13% of the world's population. Countries like Japan and the United States are considered "flawed democracies" while the majority of the world's political systems are either "hybrid" or "authoritarian." Therefore, if we want to truly understand politics, it is essential that we understand politics in non-democracies, or political systems conventionally referred to as "authoritarian regimes." This course invites students to think critically about the nature of authoritarian political systems. We will examine how society and politics are organized in authoritarian systems and how individuals experience power and authority in these societies: historical and contemporary.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1330 - EUROPEAN UNION SEMINAR**

Minimum Credits: 3
Maximum Credits: 3
This course will focus on various topics related to the European Union. Students will have the opportunity to engage in an individual or group research project on a topic of their choosing related to the EU/Europe.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies, West European Studies

**PS 1332 - GOVERNMENT AND POLITICS IN CONTEMPORARY CHINA**

Minimum Credits: 3
Maximum Credits: 3
An introductory analysis of contemporary Chinese politics. Topics to be considered include the traditional background, the Chinese revolution, the role of revolutionary ideas and institutions in Chinese political life since 1949, recent and current policy issues, and possible future trends.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1333 - GOVERNMENT AND POLITICS OF JAPAN**

Minimum Credits: 3
Maximum Credits: 3
This course considers postwar Japanese government and politics in comparative perspective. Topics to be covered include the following: the American occupation, Japanese society, political culture, election system and election campaigns, government and political leadership, the ruling party, opposition parties, protest movements, the parliamentary and policymaking processes. Frequent comparisons will be made between the Japanese system and other democratic systems in North America and Europe.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

**PS 1336 - BUSINESS AND POLITICAL ECONOMY IN MODERN CHINA**

Minimum Credits: 3
Maximum Credits: 3
The program will focus on how contemporary China handles conflict and opportunity between its culture and tradition on the one hand, and modernization and Western influence on the other.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

**PS 1338 - POLITICS IN DEVELOPING COUNTRIES**

Minimum Credits: 3
Maximum Credits: 3
This course explores the question of why it is so hard for many under-developed countries to overcome persistent problems of poverty, bad governance, and civil conflict. We will explore the politics of under-development, looking at the role of geography, institutions, historical legacies of slavery and colonialism, corruption, natural resources, ethnic divisions, and international aid. The course will take us to virtually every part of the globe, from Africa to Latin America to Asia to Europe and the United States.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
PS 1339 - SCIENCE AND PUBLIC POLICY IN THE US AND EUROPE

Minimum Credits: 3
Maximum Credits: 3
Public policy influences almost every aspect of our daily lives, from the food we eat, the air we breathe, to the products we buy. In this class, we compare the public policy process in the US and the EU on important and current public policy debates. We examine a range of science-related topics that, depending on the semester, include the following: genetic modified organisms, the use of pesticides in agriculture, food labeling, climate change, etc. This class is open to students from all majors, and may be of particular interest to pre-health students, stem students, as well as political science majors and students completing certificates from the European union studies center.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1341 - GOVERNMENT AND POLITICS USSR/RUSSIAN FEDERATION

Minimum Credits: 3
Maximum Credits: 3
A survey of the political systems in the USSR (1917-1991) and its major successor, the Russian Federation (1991-present). The first section deals with the period from the Bolshevik Revolution in 1917 until the mid-1980s. The second section examines the efforts to reform the political system under general Secretary Gorbachev. The final section deals with the collapse of the USSR in 1991 and the subsequent development of the Russian Federation as an independent state.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1345 - POLITICS OF OCEANIA

Minimum Credits: 3
Maximum Credits: 3
This course examines the government and politics of Australia and Australian engagement in the Asia-Pacific region. It does so by surveying similarities with and differences from the North American democratic model and by examining Australia's substantial and abiding interests in the Asia-Pacific region. By the end of course, students will be aware of the importance of geographical distance and location in the australian story. Students will also be aware of the continuing importance of cultural and political inheritance in the development of Australian public and foreign policy. Students will be encouraged to make comparisons with the US system of government and politics.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

PS 1348 - XENOPHOBIA IN MODERN EUROPE

Minimum Credits: 3
Maximum Credits: 3
This course will examine Europe's post-war xenophobic, racist and exclusionary policies. We will use memoirs, photo journalism, film and interviews to understand recent discrimination against refugees, guest workers, Jews, linguistic and religious minorities. We will also put the question into scholarly context, as we examine how historians, sociologists, psychologists and anthropologists try to understand the way in which Europeans construct the categories of "us" and the "others".

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1349 - TRANSATLANTIC GOVERNANCE AND POLICY

Minimum Credits: 3
Maximum Credits: 3
The economic, political and defense links between North American countries and European countries, and especially the European Union, generate important governance and policy issues. This course examines those issues in light of general theories of governance at the national and international levels. Special attention will be given to on-going trade negotiations and climate change policy.
PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST

Minimum Credits: 3  
Maximum Credits: 3  
A survey of the developing political systems of the Middle East and their positions in world affairs. Considered are the growth of political institutions in the modern era, the nature of political leadership, the evolution of political attitudes, and the legacy of Western and Soviet imperialisms. The states dealt with are Iran, turkey, Iraq, Lebanon, Jordan, Syria, Egypt, and Israel. The course includes a diplomatic simulation exercise designed to illustrate the complexity of foreign policy interactions in the region.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

PS 1352 - INTRODUCTION TO AFRICAN POLITICS

Minimum Credits: 3  
Maximum Credits: 3  
A general introduction to African politics at macro level for freshmen and sophomores with special focus on traditional African political system, European imperialism in Africa, African nationalism, independence and post-independence problems of nation-building and economic development.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

PS 1357 - THE POLITICS OF FOOD, LAND, AND SUSTAINABILITY

Minimum Credits: 3  
Maximum Credits: 3  
The debates surrounding food and agricultural land are often seen as scientific and outside the realm of social scientists. Yet many of the key decisions regarding food production, distribution, and consumption are decidedly political. This course provides students with the concepts and theories necessary for understanding and analyzing the various policies and proposals put forth by food producers, consumer groups, politicians, government regulators, and other food-related interest groups. This course is based on the premise that rational and desirable policy goals for any society are to create and maintain food systems that promote health, protect the environment, are sustainable, and support the livelihoods of participants, but that powerful forces in society including large businesses seeking profits and school boards protecting budgets may oppose this premise in theory or practice. Hence: politics. The course considers how the U.S. and other governments develop policies aimed at ensuring a sufficient, nutritionally adequate, safe, affordable, and sustainable food supply. Drawing on contemporary case studies, it examines: why and how governments establish food and nutrition policies; how stakeholders in the food system use the political system to influence policy; the cultural, social, economic, and political factors that influence stakeholder and government positions on policy issues.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PS 1358 - AFRICAN INTERNATIONAL RELATIONS

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: African Studies, Global Studies

PS 1359 - EU INTERNATIONAL LAW PERSPECTIVE
PS 1361 - COMPARATIVE POLITICAL PARTY SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

This course compares the political party systems, electoral processes, and other institutions of governance in four or more countries, which vary by instructor and term.

Grade Component: LG/SNC Elective Basis

PS 1364 - CLIMATE CHANGE & PUBLIC POLICY IN EUROPE AND THE US

Minimum Credits: 3
Maximum Credits: 3

Climate change is one of the most difficult problems faced by humankind. We are all causing and suffering from it to varying degrees. As a result, some have labeled it a "super wicked problem." The politics underlying climate change are complex and therefore particularly interesting. In the first part of this course, we will analyze what policymaking really is: how does it work? How are policies designed? Where is policymaking the most effective? In the second part, we will study the determinants of climate policy in Europe and elsewhere. Specifically, we will investigate the role played by public opinion, political leaders, bureaucracies, scientists, and interest groups. The last part of this course evaluate the effectiveness of actual policies designed to solve climate change. We will examine a broad range of policies ranging from carbon taxes to technology transfers.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1368 - US-LATIN AMERICAN TRAILER-SPANISH LANGUAGE DISCUSSION GROUP

Minimum Credits: 1
Maximum Credits: 1

This one-credit optional discussion course will allow students to discuss issues from PS 1324, US-Latin American relations, in Spanish. As such, it will discuss both historical and contemporary issues, but the discussion will emphasize current events.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PS 1371 - ISLAM, LAW, AND POLITICS

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Attributes: SCI Polymathic Contexts: Global&Cross Cul GE. Req.

PS 1373 - WELFARE STATE IN COMPARATIVE PERSPECTIVE

Minimum Credits: 3
Maximum Credits: 3

Starting from the mid-nineteenth century the course is an historical and political critique of the main theories of divided equally between the diverse origins of the British, French, Swedish and German welfare states in the nineteenth century; the impact of new social theories and social thought on the design of welfare states early in the century and between the wars; and how the organization and structure of welfare states following the war was influenced by this experience.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
PS 1375 - RELIGION AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course discusses religion and politics, especially in its contemporary dimensions. Taking a comparative focus that will change from term to term.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1378 - BUILDING DEMOCRACY AROUND THE WORLD

Minimum Credits: 3
Maximum Credits: 3
Developing a new democracy is a process, with at least two main parts. First the country must move away from authoritarian rule. The first part of the course, therefore, will examine why (or why not) countries make that transition and how they do so. The second part of the course will then examine why some countries are more successful in their transition, based on an examination of civil society and the types of political institutions (such as political parties, the executive system, and the judiciary) that countries develop. What influences these choices and how do these choices affect success and stability of the new democracy? Has international aid been successful in helping countries develop democratic practices?
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1381 - CAPSTONE SEMINAR IN COMPARATIVE POLITICS

Minimum Credits: 3
Maximum Credits: 3
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: PS 0300; PLAN: Political Science (BA or BS or BPH); LVL: Sr; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFILM 0210 or FP (0003 or 0006)
Course Attributes: Capstone Course, Global Studies, West European Studies, Writing Requirement Course

PS 1383 - POLITICS OF CONTEMPORARY MIDDLE EAST

Minimum Credits: 3
Maximum Credits: 3
The main emphasis of the course will be on conflict and conflict resolution in the Middle East. Conflict has been a constant feature of the region since 1945. This course will be primarily concerned with how and why these conflicts are generated, escalate, become protracted, and are resolved.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: SCI Polymathic Contexts: Global&Cross Cul GE. Req.

PS 1384 - TOPICS IN COMPARATIVE POLITICS

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies

PS 1386 - POLITICS OF LEADERSHIP

Minimum Credits: 3
Maximum Credits: 3

The life and work of every politician and statesman is a unique story, which can illustrate much about extremely complex and convoluted nature of politics. This course will study some of the key politicians and statesmen of the 20th and 21st centuries as the positive and negative examples of political leadership. Moreover, relying on the vast scholarly literature on this subject, the course will review different types of leadership (charismatic, institutional, hereditary, and others) in different political systems and regimes (authoritarian, liberal-democratic, and monarchial) and very importantly, will focus on leadership personalities, tactics, techniques and skills in order to fully dissect and understand the key characteristics of good and bad, effective and ineffective leadership.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1387 - POLITICS OF WATER

Minimum Credits: 3
Maximum Credits: 3

Given the need to highlight the contributions political science offers to our study of the Anthropocene, this interdisciplinary course investigates the role of water in the political development of contemporary Central Eurasia. As a landlocked world region, Central Eurasia provides a compelling case for the study of the political, social, and technological innovations that has yielded sites of ecological disaster and environmental frontiers of opportunity. This course guides students through the key stages of Soviet political change and its impact on the issues of Central Eurasian water culture: the collapse of tsarist governance and the withdrawal of its engineer-specialists, ending its "civilizing mission"; the arrival of US experts whose modern irrigation methods inadvertently contributed to environmental degradation and economic dependence; the "shock" construction sites of the Stalin era; the misguided dam-building projects of the late Soviet period; and finally the issues relating to the international cooperation to manage the river basins connecting Kyrgyzstan, Tajikistan, Uzbekistan, Turkmenistan, and Kazakhstan.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

PS 1389 - RUSSIAN AND EAST EUROPEAN STUDIES MINI-COURSE

Minimum Credits: 1
Maximum Credits: 1
An intensive program that takes Pitt students to Washington DC during Spring Break, to meet with Central Asian diplomats, water issues policy makers, federal agencies (including the State Department and the Bureau of Indian Affairs), and lobbyists. The course will provide students with a set of experiences and contacts in understanding the water issues on a global scale as well as the particular concerns of water in Central Asia.

Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: LG/SNC Elective Basis

**PS 1391 - AUTHORITARIAN STATECRAFT AND THE ARTS OF RESISTANCE - ANALYSIS**

Minimum Credits: 3  
Maximum Credits: 3  

According to the democracy index, only 19 countries are "full democracies," housing only 13% of the world's population. Countries like Japan and the United States are considered "flawed democracies" while the majority of the world's political systems are either "hybrid" or "authoritarian." Therefore, if we want to truly understand politics, it is essential that we understand politics in non-democracies, or political systems conventionally referred to as "authoritarian regimes." This course invites students to think critically about the nature of authoritarian political systems. We will examine how society and politics are organized in authoritarian systems and how individuals experience power and authority in these societies: historical and contemporary. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.  

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**PS 1392 - EUROPEAN POLITICS-ANALYSIS IN COMPARATIVE POLITICS**

Minimum Credits: 3  
Maximum Credits: 3  

This class takes a comparative approach to studying the political systems of Europe and the European Union and the current policy issues facing both European governments and their citizens. Students will also learn how to use, interpret and present data relating to these topics.  

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**PS 1399 - ANALYSIS OF COMPARATIVE POLITICS**

Minimum Credits: 3  
Maximum Credits: 3  

This class focuses on significant training in a specific analysis method or methods to complement the study of Comparative Politics, as well as satisfy the requirement for a Political Science department analysis course.  

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**PS 1450 - TOPICS IN POLITICAL SCIENCE**

Minimum Credits: 3  
Maximum Credits: 3  

An advanced study of a specific topic in political science.  

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**PS 1501 - THEORY OF INTERNATIONAL RELATIONS**

Minimum Credits: 3  
Maximum Credits: 3  

This course explores central concepts and theories employed by political scientists to explain how world politics functions. You will be introduced to theoretical orientations such as realism, institutionalism, and constructivism, and we will discuss how constructs such as power, interests, identity, legitimacy, and order provide insight into political behavior. Much of the material examined in the course is abstract and you will need to think carefully about how the various concepts and arguments can be integrated. By the end of the course, you should have developed a relatively sophisticated conceptual framework with which to analyze events in world politics.  

Academic Career: Undergraduate  
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PS 0500
Course Attributes: DSAS Social Science General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Soc/Behav. GE. Req.

**PS 1502 - INTERNATIONAL LAW AND PROBLEMS OF WORLD ORDER**

Minimum Credits: 3  
Maximum Credits: 3  
This course considers the role of international law in efforts to solve some current problems of world order. These problems include the control of violence, i.e., The problems of collective security, arms control and disarmament, intervention and nuclear proliferations; human rights; problems of economic and social development; managing global resources; and protecting the global environment.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**PS 1503 - INTERNATIONAL ORGANIZATION**

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on the interplay among states, intergovernmental organizations, civil society organizations, and multinational corporations. Cases are drawn from a broad range of issue areas, including economic relations, human rights, peace and security, and the environment. The objective is to better understand the dynamics and evolution of formal and informal international institutions and what difference they make, in light of globalization and emerging geopolitical changes.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Global Issues General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

**PS 1504 - NATIONALISM**

Minimum Credits: 3  
Maximum Credits: 3  
Theories of nationalism, ethnicity, and race are examined and are contrasted with theories of modernization and socialism. Particular emphasis is placed on ethnonationalism in developed Western countries, such as Britain, France, Spain, Belgium, and Canada, and on ethnic politics in the U.S. Comparisons are drawn with nationalism in other types of political systems, particularly the USSR, Yugoslavia, and selected Middle East and African countries.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

**PS 1508 - INTERNATIONAL TERRORISM**

Minimum Credits: 3  
Maximum Credits: 3  
Terrorism has gone from a relatively marginal security concern to one of the thorniest security issues in international politics. Indeed, today there are few countries that do not suffer from some form of terrorism. And terrorist groups such as the Islamic state in Syria pose significant challenges for the international community. This course aims to introduce students to main debates surrounding terrorism. The course will deal with questions regarding the definition of terrorism, its causes and historical evolution, the relationship between insurgency and terrorism, the organizational structure of terrorist groups and the tactics they use. We will also analyze counter-terrorism and the factors that influence its effectiveness. Throughout the course, we will have a chance to take a closer look at some of the terrorist groups such as Al-Qaeda, Islamic state, Hamas, ETA, Tamil Tigers, among others. In the last part of the course, we will deal with the rise of domestic terrorism in the U.S.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SU3 Elective Basis

**PS 1509 - CONFLICT AND WAR THEORY**
Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course is to introduce the student to theoretical arguments and empirical evidence concerning the sources of conflict and war in human society, particularly within the international arena. Reading material will be drawn from a number of disciplines, including psychology, sociology, history and political science.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Global Studies, West European Studies

PS 1510 - COLDWARSOVIET UNION AND WEST 1917-91

Minimum Credits: 3
Maximum Credits: 3
This course is designed to help students understand the central question in world politics during much of the 20th century-the relationship between the West and the Soviet Union from 1917 to 1991. The course surveys the Western response to the formation of the USSR as the first "socialist" state and to the international communist movement which developed under its leadership from 1917 to 1991.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Global Studies, Russian & East European Studies

PS 1511 - AMERICAN FOREIGN POLICY

Minimum Credits: 3
Maximum Credits: 3
Provides a historical survey of American foreign policy from the end of World War II until the present, an analysis of the decision making process led by the president of the United States, and a discussion of the impact of both the international political system and American domestic politics on this process.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Global Studies

PS 1512 - INTERNATIONAL MIGRATION IN THE 21ST CENTURY

Minimum Credits: 3
Maximum Credits: 3
This course addresses some of the central questions surrounding current debates about immigration in the United States and Western Europe, including: Why do people move across international borders, and where do they go? What are the consequences of migration for the sending and the receiving countries? How do local communities, national governments, and international institutions respond to migration (including "illegal" migration)? This course aims to provide students with the theoretical and empirical knowledge needed to grapple with these questions intelligently.
Academic Career: Undergraduate

Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

PS 1513 - FOREIGN POLICIES--CHANGING WORLD

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to the analysis of foreign policy as a form of political behavior and to the specific factors influencing the foreign policies of several of the world's most powerful states. The lectures and readings follow several intertwining themes, covering: 1) the conceptual and analytical tools utilized to investigate and compare the foreign policies of states; 2) the nature of certain phenomena which present countries with complex and dangerous international problems, e.g. security, interdependence; 3) the particular sources, processes and outcomes involved in the foreign policies of several states including the United States, Russia and others. The approach is analytical and though some of the readings and lectures are historical, the emphasis is on the contemporary context. It is also comparative, offering students a look at how these states' domestic culture, processes and institutions affect their foreign policies. (International relations field)
Academic Career: Undergraduate

Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies
PS 1514 - POLITICAL STRATEGY INTERNATIONAL RELATIONS

Minimum Credits: 3
Maximum Credits: 3
Strategic interdependence dominates international relations - how one state behaves not only affects its own outcomes but other states' outcomes as well. Game theory has become a primary method of studying strategic interdependence. This class offers a brief primer in elementary game theory and then surveys the major formal findings in international relations, with focuses on explanations for war and design of international institutions.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1516 - TRANSATLANTIC POLICY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This new skills based course aims to provide students with crucial analytical and professional skills pertinent to the transatlantic policy world. Among them are: to read analytically and critically and to speak knowledgeably about a range of transatlantic issues that concern political scientists and policy makers, including immigration, environmental protection, social policies, and trade and economic development; and to communicate such policy analysis in a clear and persuasive manner accessible to a wide range of policy focused audiences at the international and national levels.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1517 - US FOREIGN POLICY TOWARD THE MIDDLE EAST

Minimum Credits: 3
Maximum Credits: 3
The purpose of the course is to have students use a conceptual framework to analyze U.S. foreign policy towards the Middle East. They will do this within the context of the various traditions that have given direction to U.S. foreign policy conduct over the ages. As part of this, students will analyze U.S. policy towards the Middle East since the Cold War, and then use this as an historical backdrop for looking at different foreign policy options towards this tumultuous region for the future. The class will help develop the students' conceptual understanding of the complexities of foreign policy-making and enable them to tease out pertinent trends and patterns that otherwise might seem elusive. They will also get a grounding in how to conduct high level foreign policy analysis and gain an understanding of the foundations of strategy and its application in U.S. foreign policy towards the Middle East.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1518 - GERMANY AND EUROPE: A FOREIGN POLICY TRANSFORMED

Minimum Credits: 3
Maximum Credits: 3
This course explores continuity and change in the foreign policy of Germany ' the largest, wealthiest, and arguably most influential European union member state ' from state unification through the present era. (International relations field)
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

PS 1521 - EASTERN EUROPE IN WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
Eastern Europe has now seen more than twenty years of dramatic changes encompassing a movement away from one-party dictatorship and state-run economies to democratic politics and market economies. These changes have affected and been affected by developments in Europe, including Russia, Euro-Atlantic relations and international relations more broadly. The aim of this course is to explore the background and dynamics of the remarkable changes in "the other Europe." The course will move quickly over the history of the region generally referred to as "East Europe" and will focus primarily on contemporary developments. A particular focus of the course is the impact on the region of developments elsewhere, especially in the politics and policies of outside powers, and the ripple effect of changes in the region on European and world politics.
Academic Career: Undergraduate
PS 1523 - EAST ASIA IN WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on how the peoples and states of East Asia are affected by and in turn influence the world environment. Students examine the modern history of the region, which is crucial to understanding the contemporary situation. The doctrines that affect governance and international affairs in the region are also examined.

Academic Career: Undergraduate

Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Geographic Region General Ed. Requirement, DSAS Historical Analysis General Ed. Requirement, Global Studies, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., SCI Polymathic Contexts: Soc/Behav. GE. Req., West European Studies

PS 1531 - NATIONAL SECURITY POLICY

Minimum Credits: 3
Maximum Credits: 3
National security is becoming a crucial issue with an impact both in the international system and in the domestic environment. This course will discuss the different approaches to national security and the policies through which they have been implemented, such as military buildup, political and military alliances, military and economic consequences, and nuclear policies.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1533 - POLITICAL VIOLENCE AND REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the conceptual parameters of political violence, its various forms and understanding these phenomena by studying the diverse range of violent conflicts in South Asia. It explores the colonial legacy in the subcontinent and, the political character of the state for explaining the genesis and nature of different conflicts and asks why only certain conflicts become violent and how? Students will also learn about different strategies adopted by states for coping with such violent conflicts. These issues will be examined in a comparative framework and as part of the course work, students will be encouraged to undertake some case studies of conflicts to understand 'what works' and 'what doesn’t' in managing or ending political violence and, resolving such conflicts.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

PS 1534 - CIVIL WARS

Minimum Credits: 3
Maximum Credits: 3
This course explores why peace sometimes lasts a long time and sometimes falls apart quickly after Civil Wars. We will examine how the international community deals with civil conflicts and what can be done to ensure a long-lasting peace in war-torn countries. Emphasis will be placed on the factors that increase the durability of peace and aid the establishment of long-term prospects for reconciliation to rebuild societies after wars. Students will gain knowledge of theories that explain whether and how peacekeeping forces, agreement design, power-sharing institutions, mediation, foreign aid, and post-war elections help domestic belligerents reach and keep peace.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1536 - HUMAN SECURITY

Minimum Credits: 3
Maximum Credits: 3
This is a topics course in international relations focusing on the politics of human security. The politics of human security is an area of evolving
interest within the field of international relations. Currently, few political science departments offer courses on the topic and there is little agreement on what should be included in such a course. The general consensus is that 'human security' differs from 'national security' in that the latter is concerned with the well-being of the state, while the former is concerned with the well-being of individuals. In this course, we will focus on how violence, political oppression, poverty, and ecological destruction threaten individual welfare and what the international community is (and is not) doing to address these concerns.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1537 - PEACEKEEPING & PEACEKEEPING**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course explores the conditions that lead to initiation, escalation, and termination of Civil Wars as well as the circumstances that promote or restore peace within states. Why do Civil Wars break out in some countries but not others? Why do Civil Wars last as long as they do? How does the international community help resolve Civil Wars? The ultimate goal of this course is not to examine a particular Civil War in detail but rather to provide a broad theoretical treatment of Civil Wars, and a better understanding of international relations. Upon completion of this course, you should be familiar with the factors that mitigate or exacerbate conflict within states and develop informed insights about the mechanisms of conflict management and resolution.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1538 - THE POLITICS OF OIL AND NATURAL RESOURCES**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Oil has played an incredible role in shaping the domestic and international politics of both producer and consumer countries around the globe. Since commercial production first began in the late 19th century, rising world demand for oil coupled with a geographically concentrated and exhaustible supply has defined the nature of global economic competition, economic and political development within countries and geo-political power struggles between countries. This course aims to shed light on why oil (and related natural resources) has had such a powerful effect on world politics to date and what our dependence on oil might mean for the future.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1541 - POLITICS GLOBAL ECONOMIC RELATIONS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines the connections between power and wealth, states and markets, and economics and politics in order to gain a better understanding of the political underpinnings of the global economy as well as the influences that international economics has on national and international politics. It is an introduction to what political scientists call international political economy (or simply IPE).

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PS 0500 and PS 0700  
**Course Attributes:** DSAS Global Issues General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**PS 1542 - GLOBAL ENVIRONMENTAL POLITICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
In this course we will explore the “politics” of international environmental issues in a way that complements a more scientific-technical treatment of the issues. We will draw upon international relations theories and concepts (e.g. power, dependency, complex interdependence, epistemic communities, regimes, and the logic of collective action) to help us explain environmental politics in the global arena.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Global Issues General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**PS 1543 - GLOBALIZATION AND INTERNATIONAL POLITICS**
This course examines globalization's political and economic effects on societal welfare around the world. We start by looking at economic globalization historically, comparing the degree and forms of international economic integration during the late 19th century with today. We then consider, in more detail, the domestic consequences of current changes in the international political economy, particularly expanding trade and increased international capital mobility, for both the developed democracies and developing countries.

**PS 1555 - GLOBAL STUDIES MINI COURSE**

This mini course will be offered in Fall and Spring terms. The basic descriptions differ in each term and can be found below. Additionally, specific information will be added to the Notes section as it becomes available and edited by individual events and instructors each term. Fall Terms: Global Health: This course engages the interdisciplinary nature of global health by approaching the issue through the lens of the Sustainable Development Goals (SDG) developed by the United Nations. With an applied focus, the course will assist students in engaging and advocating for a community on a global health issue through a policy memo. For more information see the Global Studies web site or contact global@pitt.edu. Spring Terms: Cities in Transformation: This course views cities as hubs where patterns, connections, discussions, and the processes shape such issues as social justice, economic development, technology, migration, the environment among others. By examining cities as a lens, this course encourages students to examine cities as a system for discussing social processes being built and rebuilt. For more information see the Global Studies web site or contact global@pitt.edu.

**PS 1556 - GLOBAL STUDIES POP-UP COURSE**

"In conjunction with its semester-long series on the global legacies of 1989, the University Center for International Studies is pleased to offer students the opportunity to enroll in this 1-credit pop-up course that tracks the series. 1989 changed everything. It opened the door to German re-unification, the European Union, the enlargement of NATO, globalization, two decades of U.S. superpower status, political realignments in Latin America and Africa, and the rise of Asia. This series will explore the impact and global legacies of the Cold War thirty years after the Iron Curtain fell. Students who enroll will attend at least 10 events, one of which must be the concluding roundtable on December 5. In addition, they will write three short reflection essays."

**PS 1581 - CAPSTONE SEMINAR IN INTERNATIONAL RELATIONS**

Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.

**PS 1583 - TOPICS IN INTERNATIONAL RELATIONS**

Current topics of interest in international relations. Topics covered vary with instructor and term.
PS 1584 - GREECE IN ITS NEIGHBORHOOD: EUROPE & EASTERN MEDITERRANEAN

Minimum Credits: 1
Maximum Credits: 1
This course is designed to provide knowledge on contemporary political and economic issues on Greece's agenda with regard to wider Europe including the eastern Mediterranean and the black sea. Greece's politico-economic evolution is profoundly formed by its participation in the European integration process (i.e. The EU) and by dynamics in the Mediterranean and especially in Europe's southeastern front where it is itself located. The course offers an opportunity for students interested in politics, economics, history or sociology to learn about the main issues facing present day Greece in tandem with the EU and its other immediate neighbors. In the last century or more as mark Mazowe has put it recently 'Greece's has been at the forefront of Europe's evolution'.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

PS 1587 - U.S. FOREIGN POLICY IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the increasing engagement of the United States in Africa from the late 19th century until the present. Using a case study approach, students will analyze American foreign policy in Africa and explore the varied effects of those policies. These case studies will include the political realities of decolonization, the cold war, and economic aid and the social and cultural ties of black Americans to Africa. The course will identify specific crises in American and African history as focal points for study, but will also provide a larger narrative about American involvement in both the colonial and post-colonial development of Africa.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1591 - CONFLICT AND WAR - ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course is to introduce the student to theoretical arguments and empirical evidence concerning the sources of conflict and war in human society, particularly within the international arena. Reading material will be drawn from a number of disciplines, including psychology, sociology, history and political science. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1592 - POLITICS OF GLOBAL ECONOMIC RELATIONS - ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course examines the connections between power and wealth, states and markets, and economics and politics in order to gain a better understanding of the political underpinnings of the global economy as well as the influences that international economics has on national and international politics. It is an introduction to what political scientists call international political economy (or simply IPE). This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1599 - ANALYSIS OF INTERNATIONAL RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This class focuses on significant training in a specific analysis method or methods to complement the study of International Relation, as well as
satisfy the requirement for a Political Science department analysis course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1601 - ANCIENT AND MEDIEVAL POLITICAL THOUGHT

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course surveys the work of major thinkers in the Western political tradition from ancient Greece through the middle ages, such as Plato, Aristotle, Augustine, Aquinas, and others.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

### PS 1602 - EARLY MODERN AND ENLIGHTENEMENT POLITICAL THOUGHT

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course surveys the work of major thinkers in the Western political tradition from the early modern period through the enlightenment, such as Machiavelli, Hobbes, Locke, Rousseau, and Burke.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, Global Studies, SCI Polymathic Contexts: Ethical/Policy GE. Req., West European Studies

### PS 1603 - MODERN AND CONTEMPORARY POLITICAL THOUGHT

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course provides a three-part introduction to modern and contemporary political thought with a focus on identity and identity politics. The first third of the course will explore major modern and contemporary theories about how identities are formed and experienced. The second portion of the course will focus on the relationship between identity and law. The final third of the course will use case studies from U.S. history and current events to explore how identity shapes and is shaped by social movements and public policy. Throughout the semester, students will develop a research project that uses the case of their choosing to explore the ways in which identity affects and is affected by the political world.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

### PS 1604 - MYTH, PROPAGANDA, AND THE STATE

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course focuses on a single notion: that states use narrative(s) to support their regimes. The class aims to prepare students for understanding how story, myth, propaganda, and indoctrination are used by various political actors to build, sustain, and/or destroy regimes. The course begins with a consideration of quintessential cases of states engaging in these practices (ancient Rome, fascist Italy, imperial Japan, and Cambodia under the Khmer Rouge). It then examines parallel examples within united states history and narratives. The second half of the course then focuses on the practice of propaganda specifically, considering its modern origins in WWI, examining transitions in technique across multiple states, weighing linkages to advertising and public information campaigns, and finally having students construct their own propaganda. The course concludes with a formal content analysis training focused on a particular vein of propaganda, and an assignment that has students blending content analysis consideration with political theory argument construction.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PS 1607 - AMERICAN POLITICAL THOUGHT

**Minimum Credits:** 3  
**Maximum Credits:** 3
This course provides a survey of American political thinking from the founding to the present.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PS 1612 - MARXISM**

Minimum Credits: 3  
Maximum Credits: 3  
This course is concerned with Marxist political theory, with some attention to related philosophical and historical issues as well. Approximately two thirds of the course will be devoted to analysis of the original sources of Marxism—the writings of Marx and Engels; the remainder will consider various developments in the theory of Marxism.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1614 - THEORIES OF JUSTICE**

Minimum Credits: 3  
Maximum Credits: 3  
This course addresses the key intersection between two important topics in contemporary political theory: justice and globalization. The first half of the course will cover the highly influential works of John Rails as well as reactions from Robert Nozick, Onora O'Neill, and Susan Moller Okin. The second half of the course will weave in the issue of globalization to questions of justice 'again using rails' work and various respondents as a vehicle for doing so. The course ends with a significant applied project on the intersection of globalization and justice that will challenge students to consider the current state of justice in a particular global case of their choosing.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PS 1619 - DEMOCRATIC THEORY**

Minimum Credits: 3  
Maximum Credits: 3  
Democracy is a centrally important concept in political science. Those who wish to study almost any aspect of politics 'from election campaigns to domestic policy processes to international relations' will, at some point, be expected to articulate a theory of democracy. Even those who study authoritarian regimes often use democratic regimes as counterpoint examples. In short, a well-rounded political scientist must know something about both democratic institutions and democratic theory. This course aims to provide students with an appreciation of the varieties of democratic thought, a knowledge of the great debates in the field, and a sense of how democratic ideals have been approximated in institutional forms.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PS 1622 - FEMINIST POLITICAL THOUGHT**

Minimum Credits: 3  
Maximum Credits: 3  
This course considers the essential three waves of feminist political thought in Western tradition. The course moves from early feminist theorists to modern concerns and questions over whether the third wave of political feminism is still going strong or it is more helpful to discuss a "fourth wave" of feminism. The course concludes with a project for students to explore how to tackle real political gender norms in an applied fashion, generating theoretically-grounded policy and behavioral changes for the world around them.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**PS 1629 - TOPICS IN POLITICAL THEORY**

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses intensely on a specific topic or problem in political theory; topics vary by instructor and term.
PS 1661 - GAME OF THRONES AND POLITICAL THEORY

Minimum Credits: 3  
Maximum Credits: 3  
This course considers George R.R. Martin's popular "song of fire and ice"/"game of thrones" series in a political context. The class will consider the way that the series speaks to and shapes political attitudes and beliefs, as well as the way that martin's creative vision was formed by reference to history and politics. The course will begin with reading martin's own writing: the book game of thrones. Then it will explore the historical inspiration of the series, the wars of the roses, and some of the political theory that was created in reaction to that period. Following that, it will cover a few critical political theorists whose works focus on narratives about power, deception, and authority (the core themes of the series). Students in the class will gain exposure to Machiavelli, Locke, de Montesquieu, and Arendt in the course of this consideration, while also getting a chance to understand and discuss the popular books and television show in academic and sustained fashion. As a note, prior reading or viewing of the series is not required, nor necessary, though it will be helpful (and a spoiler policy will be given before the start of the term to minimize concern for those at various points of encountering the series). Grading will be primarily focused on short reaction papers, in-class writing and recall exercises, and a final argumentative research paper.

PS 1675 - POLITICS OF HUMAN RIGHTS

Minimum Credits: 3  
Maximum Credits: 3  
Human rights have become the dominant normative discourse in global politics today. They are invoked by world leaders justifying military or 'humanitarian' interventions and by local and indigenous social movements challenging their domination within existing systems of social relations. They are lauded as essential to human dignity and decried as tools of imperialism and neo-colonialism. They are tools of the oppressor and tools for the oppressed. How can we make sense of these seemingly contradictory uses and understandings of human rights? This course seeks to explain human rights as fundamentally contested political claims. It develops this perspective through attention to the real politics of human rights, surveying existing human rights law and institutions, examining several important contemporary human rights issues, and reflecting on the different tools that political and social science offer for making sense of these controversies. The emphasis is on helping students to acquire a critical understanding of human rights that they can use to assess contemporary events; students will work together on collaborative projects on issues of their own choosing to develop and apply their learning.

PS 1681 - CAPSTONE SEMINAR IN POLITICAL THEORY

Minimum Credits: 3  
Maximum Credits: 3  
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.

PS 1691 - MYTH, PROPAGANDA, AND THE STATE - ANALYSIS

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on a single notion: that states use narrative(s) to support their regimes. The class aims to prepare students for understanding how story, myth, propaganda, and indoctrination are used by various political actors to build, sustain, and/or destroy regimes. The course begins with a consideration of quintessential cases of states engaging in these practices (ancient Rome, fascist Italy, imperial Japan, and Cambodia under the Khmer Rouge). It then examines parallel examples within united states history and narratives. The second half of the course then focuses on the practice of propaganda specifically, considering its modern origins in WWI, examining transitions in technique across multiple states, weighing
linkages to advertising and public information campaigns, and finally having students construct their own propaganda. The course concludes with a formal content analysis training focused on a particular vein of propaganda, and an assignment that has students blending content analysis consideration with political theory argument construction. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.

**Academic Career:** Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1692 - DEMOCRATIC THEORY-ANALYSIS**

Minimum Credits: 3
Maximum Credits: 3
Democracy is a centrally important concept in political science. Those who wish to study almost any aspect of politics 'from election campaigns to domestic policy processes to international relations' will, at some point, be expected to articulate a theory of democracy. Even those who study authoritarian regimes often use democratic regimes as counterpoint examples. In short, a well-rounded political scientist must know something about both democratic institutions and democratic theory. This course aims to provide students with an appreciation of the varieties of democratic thought, a knowledge of the great debates in the field, and a sense of how democratic ideals have been approximated in institutional forms. This class will include a significant training in a specific analysis method or methods to complement the course topic, as well as satisfy the requirement for a Political Science department analysis course.

**Academic Career:** Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1693 - POLITICAL THEORY AND THE FUTURE**

Minimum Credits: 3
Maximum Credits: 3
Political Science has been effective at charting the patterns of the past and diagnosing concerns of the present, but consideration of the future is a different matter. This course deals with how to conduct "future-regarding" inquiry effectively, and seeks to train students in this analytical method of approaching a variety of topics that will be critical areas of political life and change in the future. The course covers why the future is difficult for political institutions and political thinkers to deal with and what attempts to effectively regard the future do exist. Automation, the nature of war, relations between generations, climate change, privacy, and many more topics will be covered in the process of learning to be more "future-regarding".

**Academic Career:** Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1699 - ANALYSIS OF POLITICAL THEORY**

Minimum Credits: 3
Maximum Credits: 3
This class focuses on significant training in a specific analysis method or methods to complement the study of Political Theory, as well as satisfy the requirement for a Political Science department analysis course.

**Academic Career:** Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PS 1702 - CODING AND COMPUTATION SOCIAL SCIENCE**

Minimum Credits: 3
Maximum Credits: 3
From the hacking of elections and the spread of disinformation to algorithms that have been used to organize protests as well as for brutal repression, the era of "big data", "analytics", and "data science" has ushered in new computational tools and digital realities that are changing societies, economies and political relations. This class is meant to be a gentle introduction to the emerging field of computational social science, where we study the opportunities and challenges with both collecting and exploring digitally available political and social information such as text, geolocations and social media connections to better understand human decisions and interactions. We begin by going back to basics, exploring the reasons and ways individuals and policy-makers use and misuse data. We then turn our focus to flexible computational tools for data collection and visualization and how they can provide unique help in answering important questions such as what causes war and violence, who represses human rights, and what parties are likely to win elections. By the end of the class, students will be exposed not only to coding and computer languages that are often used in data analytics in industry, government and academia, including bash, Python and R, but how these languages can be used to better understand the changing digital world that surrounds us.

**Academic Career:** Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1836 - POLITICS THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
This course uses cinema from a variety of countries to explore, in comparative perspective, central concepts and themes of politics, such as power, authority, conflict, leadership, ideology, propaganda, revolution, justice, and participation.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 12
Credit for internships per se is normally limited to the Washington center for learning alternatives or other special centers with which the University of Pittsburgh has formal arrangements.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

PS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Independent study is normally associated with internships or special programs like the Washington center on learning alternatives.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PS 1902 - DIRECTED READING

Minimum Credits: 1
Maximum Credits: 3
Readings on special topics for which courses are not currently offered.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 6
Research on special topics for which courses are not currently offered.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1905 - DIRECTED STUDY: FIELD TRIP ABROAD

Minimum Credits: 1
Maximum Credits: 6
Readings on special topics for which courses are not currently offered.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR
Students selected for the institute of politics internship will register for this course for the experiential component of their internships. The purpose of the internship experience is to provide the student with direct exposure to the process of public decision-making. Each student will spend nine hours a week working with an individual or office directly involved in the policy making process. Students will be given specific responsibilities and will be expected to be an active and integral part of the office in which they are placed. The details and terms of each placement will be carefully worked out and agreed upon by the student, the placement supervisor and the placement sponsor. Utmost care will be taken to insure that the student is placed in a situation that will maximize his/her exposure to all office activities and that the student is not left unsupervised and uninvolved. Students from all disciplines may apply, but preference will be given to students in their junior and senior years. Students must report to their placement for at least nine hours a week and fulfill any agreed upon responsibilities. Students will also be required to keep a written journal which describes and analyzes their internship experience.

Psychology

PSY 0005 - INTRODUCTION COGNITIVE SCIENCE

Minimum Credits: 3
Maximum Credits: 3
A survey course that utilizes a cross disciplinary approach to cognition, and an introduction to the various disciplines within a single coherent framework. The course covers basic cognitive processes of perception, language and thought, examining how each of these areas is examined within the disciplines of psychology, neuroscience, linguistics, philosophy and artificial intelligence.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
students who have taken it in the past and wish to improve their grade. Anyone who has not previously taken 0035 will not be allowed to enroll and should instead enroll in PSY 0036 Research Methods Lecture and PSY 0037 Research Methods Lab (this is the same course as 0035 (Lecture and Lab); only the numbers and name have changed). If you have previously enrolled in PSY 0035 and wish to repeat it for grade improvement, you will need the permission of the Psychology Advising Office. To obtain a permission number, contact Jennifer Stapel, jstapel@pitt.edu, 3113 Sennott Square.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (STAT 0200 or 1000 or 1100 or PSY 0201 or 0270 or MATH 0133) and Permission of the Department  
Course Attributes: Writing Requirement Course

**PSY 0036 - RESEARCH METHODS LECTURE**

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces students to the fundamentals of psychological research. Specifically, the goals are to learn how to: a) read, interpret, and understand research; b) critique research; and c) design valid research that is robust to critiques.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (STAT 0200 or 1000 or 1100 or PSY 0201 or 0270 or MATH 0133 with a grade of C or better). ANTIREQ: Enrollment blocked if currently or previously enrolled in PSY 0032, PSY 0035, or PSY 1031

**PSY 0037 - RESEARCH METHODS LABORATORY**

Minimum Credits: 3  
Maximum Credits: 3  
The course amplifies the introduction to the fundamentals of psychological research provided by PSY 0036, Research Methods Lecture. It introduces students to the fundamentals of writing scientific reports in psychology. Students will learn how to use APA style, how to display and report quantitative results, and basic guidelines for writing format, style, and expression. This course is writing intensive, and students are expected to write research reports and comment extensively on the writing of their peers during in-class and take-home exercises.  
Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (STAT 0200 or 1000 or 1100 or PSY 0201 or 0270 or MATH 0133 with a grade of C or better and CREQ: PSY 0036) . ANTIREQ: Enrollment blocked if currently or previously enrolled in PSY 0032, PSY 0035, or PSY 1031  
Course Attributes: Writing Intensive Course (WRIT)

**PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
An overview of social psychology. The scientific study of how one person's behavior and/or characteristics can influence the thoughts, feelings and behaviors of others. Topics covered include social perception, attitude formation and change; prejudice and discrimination; altruism and aggression; cooperation, competition, and bargaining; group decision making, leadership; and environmental effects on behavior.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200  
Course Attributes: DSAS Social Science General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE Req.

**PSY 0160 - PSYCHOLOGY OF PERSONALITY**

Minimum Credits: 3  
Maximum Credits: 3  
Survey of major approaches to the study of personality, focusing on their relative abilities to provide coherent explanations for individual behavior. Issues involved in the assessment of personality will also be discussed and several assessment procedures evaluated. Recent research in personality psychology is reviewed and analyzed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis
PSY 0182 - LAW AND SOCIAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the social psychological aspects of the criminal justice system. Topics covered include victim reporting, police discretion, pretrial processes, interaction in the courtroom, juror selection and decision making, the sentencing decision, the prison experience, parole decision making and return to society.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200

PSY 0184 - PSYCHOLOGY OF GENDER

Minimum Credits: 3
Maximum Credits: 3
This course is intended to be an introduction to the theories and current research on the psychological nature of women and the psychology of gender roles. The male perspective on gender roles will also be included. The effects of cultural factors that determine both female and male roles in our society will be examined as well as how these roles affect different interpersonal relationships between women and men. The potential for change at both the societal and individual level will be discussed.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0105 or 0101 or 0200 or 0203 or 0210
Course Attributes: DSAS Diversity General Ed. Requirement, DSAS Social Science General Ed. Requirement, Gender, Sexuality & Women's St, Global Studies, SCI Polymathic Contexts: Soc/Behav. GE. Req.

PSY 0186 - CROSS CULTURAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The systematic, scientific study of human behavior takes into account the diverse ecological and cultural settings in which we live. The course covers traditional topics in human psychology-perception, cognition, personality development, intergroup relations and impact of social change. Research data are emphasized. Approach is interdisciplinary, integrating material from anthropology as well as psychology.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0205 - PSYCHOPATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the major issues in the area of mental illness. This course emphasizes the scientific approach to understanding the major psychological and behavioral disorders. The research and clinical literatures regarding the etiology, course and treatment of these disorders will be presented.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200. ANTIREQ: Enrollment blocked if currently or previously enrolled in PSY 1205, PSY 0206, or PSY 1141.

PSY 0310 - DEVELOPMENTAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The course focuses on development of the child from birth to adolescence, the current theory and research concerning social, emotional, intellectual, perceptual and language development. The organization of the course is topical. Coverage is confined to normal development; what develops, how and why in the average child. Little attention to abnormal development.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200
Course Attributes: Children's Literature

**PSY 0380 - PSYCHOLOGY OF AGING**

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine the basic psychological changes occurring through adulthood into old age. Particular emphasis will be given to the biological, social, and cultural influences. Discussions with some outside speakers, movies and demonstrations augment the course.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PSY 0405 - LEARNING AND MOTIVATION**

Minimum Credits: 4
Maximum Credits: 4
This course elucidates fundamental principles of learning and motivation as derived predominantly from animal research. Focus is given to the empirical and conceptual processes underlying the facilitation and suppression of behavior, e.g. primary and conditioned reinforcement, non-reinforcement, punishment and avoidance as well as the generalization and discrimination of these processes.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200
Course Attributes: Children's Literature, DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req.

**PSY 0407 - LEARNING AND BEHAVIOR**

Minimum Credits: 3
Maximum Credits: 3
This course elucidates fundamental principles of learning and motivation as derived predominantly from animal research. Focus is given to the empirical and conceptual processes underlying the facilitation and suppression of behavior, e.g. primary and conditioned reinforcement, non-reinforcement, punishment and avoidance as well as the generalization and discrimination of these processes.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**PSY 0422 - COGNITIVE PSYCHOLOGY**

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to core issues, theories, and experimental finding in cognitive psychology. Topics to be covered include sensory perception, attention, memory, imagery, language, reasoning, problem solving and decision making.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0101 or 0200

**PSY 0423 - COGNITIVE PSYCHOLOGY LAB**

Minimum Credits: 3
Maximum Credits: 3
This course exposes students to the details of experimental methods in cognitive psychology, with a particular focus on experimental laboratory studies. Students will also improve their understanding of research report writing, computer skills, and quantitative data analysis skills. The course is organized according to the research process, which is implemented twice across two projects. For each project, students read background literature, develop research hypotheses, design experiments to test them, conduct the experiments, analyze the results, and write-up the experiments.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or PSY 0036 and 0037) and (PSY 0422 or 0410); PLAN: Psychology (BS)
Course Attributes: Writing Intensive Course (WRIT)

**PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
This is a survey course in which the biological bases of certain classes of behavior are explored. The behaviors studied are limb movement, sleep and wakefulness, feeding, sexual behavior and learning and memory. Each of these behaviors is considered from the point of view of which brain structures and which neurotransmitters are involved in the production of that behavior. Emphasis is also placed on experimental techniques used to obtain relevant data and on the type of inferences which can be made from these experiments.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0101 or 0200. Anti-requisite NROSCI 1000  
**Course Attributes:** DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req.

**PSY 0510 - SENSATION AND PERCEPTION**

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the nature of the mechanisms that transform sensory input into our perceptual experience of the world. Physics helps us to understand our environment, and biology helps us to understand ourselves. The investigation of sensation and perception combines physics and biology so that we can understand how environmental phenomena, as perceived by our senses, influence our understanding of the world. This course examines how the human brain receives and processes information from our environment and explores the functioning of human sensory systems and how physical stimuli are transformed into signals that can be understood by the nervous system. Topics covered in the course include vision, audition, taste, smell, touch, and basic psychophysics.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0015 or 0101 or 0200  
**Course Attributes:** DSAS Natural Science General Ed. Requirement, SCI Polymathic Contexts: Science NonSeq.GE. Req.

**PSY 0515 - REHABILITATION PSYCHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PSY 0680 - INTRODUCTION INDUSTRIAL/ORGANIZATIONAL**

Minimum Credits: 3  
Maximum Credits: 3  
A survey course of contemporary practice in the field of industrial psychology. Principal topics include employee selection, testing, performance appraisal, training and development, leadership, work motivation, organizational psychology, conditions at work, engineering psychology, employee safety and health, consumer and marketing psychology.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**PSY 1025 - TESTS AND MEASUREMENT**

Minimum Credits: 3  
Maximum Credits: 3  
This course reviews representative examples of current psychological tests and covers, in some detail, the nature of psychological measurement and the elements of test theory and test construction. Topics covered include item analysis, item selection techniques, reliability, validity and validation procedures, standardization and norming, and the conceptual problems in test interpretation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture

1601
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0015 or 0101 or 0200) and (STAT 0200 or 1000 or 1100 or PSY 0020 or 0201 or 0270)

PSY 1050 - TOPICS IN PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
A topics course. Content will vary from term to term depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0015 or 0200

PSY 1051 - TOPICS IN SOCIAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in social psychology will vary from term to term, depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0203 or 0210

PSY 1052 - TOPICS IN CLINICAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in clinical psychology will vary from term to term, depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1053 - TOPICS IN DEVELOPMENTAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in developmental psychology will vary from term to term depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0015 or 0101 or 0200) and (0202 or 0230 or 0310) and (STAT 0200 or 1000 or 1100)

PSY 1054 - TOPICS IN COGNITIVE PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in cognitive psychology will vary from term to term, depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037)

PSY 1057 - TOPICS IN BIOLOGICAL AND HEALTH PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in biological and health psychology will vary from term to term, depending on instructor.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0015 or 0200) and (PSY 0032 or 0035 or 1031)
PSY 1059 - TOPICS IN ADVANCED RESEARCH METHODS

Minimum Credits: 3
Maximum Credits: 3
This course involves the practical application of theories, concepts, and scientific methods to generate testable hypotheses, identify appropriate methodology, select and operationalize appropriate variables, conduct a small scale research project, conceptualize relevant data analyses, and engage in writing assignments involving analysis, interpretation, and critical evaluation of results. Research topics are specific to and will vary from section to section.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 1031 or 0036 and 0037) and (STAT 0200 or 1000 or 1100 or PSY 0201 or 0270 or Math 0133);
PROG: School of Arts & Sciences

PSY 1064 - ADVANCED DIRECTED RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This three-credit course is designed to supplement the directed research experience so as to satisfy the Psychology Major requirement for an advanced lab. Enrollment is by Permission of the Department. Instead of students enrolling in a second semester of PSY 1903, students can meet the advanced lab requirement by enrolling in 1064 while continuing to work for a second semester in the same research lab with the same faculty research mentor. To enroll in PSY 1064, students must complete an Advanced Directed Research Course (ADRC) agreement (downloadable with instructions from the department's website) in conjunction with the ADRC instructor and the faculty research mentor. The grade for PSY 1064 will be based upon performance in the research lab as evaluated by the faculty research mentor and completion of course assignments carried out under the guidance of the ADRC instructor.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0035 or PSY 0036 and 0037.

PSY 1075 - HISTORY OF PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on major trends in the history of American psychology and their 18th- and 19th-century social and intellectual roots. Topics include the physiological and philosophical origins of scientific psychology; the rise of dynamic psychology in Europe and the United States; Lunacy and American Asylum care; early experimental and quantitative psychology; the influence of William James and James Mark Baldwin; the structuralism/functionalism debate; animal learning and the origins of behaviorism; World War I and mental testing; neobehaviorism; the influence of gestalt psychology; and World War II and the cognitive revolution.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200; LVL: Jr or Sr
Course Attributes: West European Studies

PSY 1080 - PSYCHOLOGY AND THE MEDIA

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
The course presents a social-psychological and psycho-biological orientation towards the study of human sexuality. Current research is emphasized. Topics such as sexual attitudes, hormones and behavior, changing sexual behavior, sex education, gender-role development, alternative forms of sexual expression, and violence and sex are covered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(PSY 0010 or 0012 or 0015 or 0101 or 0200) and (PSY 0105 or 0203 or 0210)] or (PSY 0160 or 0184 or 0204 or 0240)
Course Attributes: Global Studies

PSY 1112 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY: RESEARCH WRITING PRACTICUM

Minimum Credits: 3
Maximum Credits: 3
This course presents a social-psychological and psychobiological orientation towards the study of human sexuality. Current research is emphasized. Topics such as sexual attitudes, hormones and behavior, changing sexual behavior, sex education, gender-role development, alternative forms of sexual expression, and violence and sex are covered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 0032 or 1031) and (STAT 0200 or 1000 or 1100 or PSY 0020 or 0201 or 0270)
Course Attributes: DSAS Diversity General Ed. Requirement, Gender, Sexuality & Women's Studies, Writing Requirement Course

PSY 1130 - SPECIAL TOPICS ON PSYCHOLOGY OF GENDER

Minimum Credits: 3
Maximum Credits: 3
An advanced course which deals with psychological research relating to women and power. Topics covered include physical power, nonverbal perpetuation of power differences, power motivation, social power, power dynamics in the family and political power. Each semester the course has a different focus.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Gender, Sexuality & Women's Studies

PSY 1134 - SOCIAL BONDING: FROM MOLECULES TO MIND

Minimum Credits: 3
Maximum Credits: 3
This course explores how emerging findings at the interface of psychology and affective neuroscience combine to inform our understanding of how we bond with others. Following a review of relevant brain regions, neurochemicals, and methodology, topics span current theories and research on the study of bond formation and maintenance, and the supporting neurobiology underlying different types of social bonds. Readings will come from relevant selections from the current literature. Course requirements include 2 exams, in-depth class discussion and exercises, and a formal presentation of assigned readings.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0105 or 0203 or 0210

PSY 1135 - SOCIAL PERCEPTION AND COGNITION

Minimum Credits: 3
Maximum Credits: 3
Historical problems and current issues are identified. Some general principles of perception and cognition are reviewed. Recent research and theoretical formulations are considered in each of these areas; impression formation, interpersonal attraction, causal and moral attribution, prediction of behavior, perceptions of interpersonal relations, group stereotyping and prejudice.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0101 or 0032 or 0015 or 0101 or 0200; Min Grade 'B'

PSY 1137 - CLOSE RELATIONSHIPS

Minimum Credits: 3
Maximum Credits: 3
A seminar-style course examining adult close relationships (with an emphasis on romantic relationships) from a social psychological perspective. Topics covered include interpersonal attraction, commitment and interdependence, relationship cognition, attachment and insecurity, communication,
sexuality, conflict, relationship dissolution, and relationship maintenance. Class meetings will consist mainly of facilitated discussions and student-led presentations.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0101 or 0200

---

**PSY 1139 - SOCIAL NEUROSCIENCE**

Minimum Credits: 3  
Maximum Credits: 3  
In this discussion-based seminar course, we will focus on the principles of social cognitive and affective neuroscience (SCAN) and survey a broad array of topics in the field. SCAN is a fundamental merging of social science questions and neuroscience methods, with particular emphasis on fMRI. We will discuss how neuroimaging can inform our understanding of social interaction, self-perception, and our emotions, beliefs and behaviors. This course is appropriate for both students with background in social neuroscience and those with no prior background, but who are considering doing research in this area or are interested in the neurobiology of social behavior. Students are expected to read and comment on papers, participate actively in class discussions, complete written assignments, and lead a group discussion.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0015 or 0101 or 0200

---

**PSY 1142 - CONFLICT RESOLUTION**

Minimum Credits: 3  
Maximum Credits: 3  
This course explores the psychology of conflict and its resolution, with a focus on conflict in our interpersonal relationships. Topics include the nature of conflict, barriers to conflict resolution, the benefits and costs of various responses to conflict (e.g., forgiveness, revenge, apologies), and factors that predict constructive vs. destructive responses to conflict. Classes include a lecture component but generally follow a seminar format consisting of facilitated discussions.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0101 or 0200

---

**PSY 1145 - SOCIAL RESEARCH ADVANCED LAB**

Minimum Credits: 3  
Maximum Credits: 3  
This is a laboratory course that will focus on research methods in the area of social psychology. As a student in this course, you will complete in-class activities as well as individual and small group assignments designed to prepare you for conducting research in social psychology. Course requirements include oral presentations and written assignments. Students will critique empirical journal articles, complete small group assignments that explore a variety of research designs, develop an independent research proposal based on a prominent social psychological theory, and collect and analyze data to test a hypothesis that extends upon a published empirical paper relevant to social psychology.

**Academic Career:** Undergraduate  
**Course Component:** Credit Laboratory  
**Grade Component:** LG/SNC Elective Basis

---

**PSY 1205 - ABNORMAL PSYCHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an overview of the major issues in the area of mental illness. This course emphasizes the scientific approach to understanding the major psychological and behavioral disorders. The research and clinical literatures regarding the etiology, course and treatment of these disorders will be presented. PSY 1205 is only available to students who have taken it in the past and wish to improve their grade. Anyone who has not previously taken 1205 will not be allowed to enroll and should instead enroll in PSY 0205: Psychopathology (this is the same course as 1205; only the number and name have changed). If you have previously enrolled in PSY 1205 and wish to repeat it for grade improvement, you will need the permission of the Psychology Advising Office. To obtain a permission number, contact Jennifer Stapel, jstapel@pitt.edu, 3113 Sennott Square.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010, PSY 0101 or PSY 0200 and Permission of the Department
PSY 1210 - INTRODUCTION TO CLINICAL PSYCHOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course is directed toward the student seriously interested in the major issues pertaining to clinical psychology. The course provides an overview of the major therapeutic approaches and incorporates other germane issues such as history of the field, assessment issues, interviewing approaches, community psychology, behavioral medicine, and clinical research and methodology. Present therapeutic approaches are placed in the context of an evolving discipline, anchored in an empirical-scientific approach to the subject matter.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0205 or 1205 or 0206 or 1141)

PSY 1213 - PSYCHOPATHOLOGY ADVANCED LAB

Minimum Credits: 3  
Maximum Credits: 3  
This course will involve developing your own hypothesis regarding data previously collected from individuals with a mood disorder, followed by analysis of the data to test the hypothesis with support from the professor. The final paper will summarize the relevant scientific literature, theoretical rationale, the methods and analyses, results, and a discussion of the work similar to published articles.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0205 or 1205 or 0206 or 1141

PSY 1215 - HEALTH PSYCHOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an introduction to the major questions and methods which have guided the research in health psychology. This field examines the role of psychological and social factors in the development and progression of medical disease. Three main topics are covered: (1) conceptual underpinnings of health psychology, (2) psychosocial factors and specific diseases, and (3) evaluating behavioral medicine interventions.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037) and (PSY 0105 or 0160 or 0202 or 0203 or 0204 or 0210 or 0230 or 0240 or 0310)

PSY 1217 - FUNCTIONAL MRI

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PSY 1225 - PSYCHOLOGY OF EMOTION

Minimum Credits: 3  
Maximum Credits: 3  
The science of emotion is critical to our understanding of human behavior. Applications and related fields include neuroscience, marketing, affective computing, psychopathology, and human-robot communication. This course will introduce you to major approaches to emotion and address topics that may include perception, communication, individual differences, development, affective computing, and dynamics of facial and vocal expression. Depending upon student interests, some topics and readings may be more or less emphasized and others introduced. Readings will include a textbook and empirical articles and chapters. You will learn about measurement approaches and develop and present a major project.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0035 or 1031 or 0036 and 0037) and (PSY 0105 or 0160 or 0202 or 0203 or 0204 or 0210 or 0230 or 0240 or 0310)

PSY 1226 - ANXIETY THEORY & TREATMENT
PSY 1227 - BEHAVIOR GENETICS

Minimum Credits: 3
Maximum Credits: 3
The goals of this course are to introduce and discuss behavior genetic approaches to psychology, which involve the study of the genetic and environmental causes of psychological differences among individuals. The following topics will be covered: overview of genetic principles and introduction to quantitative and molecular behavior genetic concepts and methods, as illustrated through studies of several important clinical psychopathologies.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037) or Permission of the Department

PSY 1230 - PSYCHOLOGY OF DEATH AND DYING

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to widen the student's understanding of human death in its biological, socio-cultural, and primarily psychological dimensions. We will examine the concept of death, psychological reactions to death and dying, historical and demographic aspects, selected issues such as end-of-life care, medical ethics, suicide, legal concerns, children's concepts of death, and the process of bereavement.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0101 or 200) and (PSY 0205 or 1205 or 0206 or 1141)

PSY 1235 - ALCOHOL USE AND ABUSE

Minimum Credits: 3
Maximum Credits: 3
This course covers a range of topics related to alcohol, including history, anthropology, sociology, epidemiology and literature. Topics include psychopharmacology, social-cognitive effects of drinking, etiology of alcoholism, as well as the prevention and treatment of alcoholism. This course also addresses abuse of other selected drugs such as nicotine, cocaine and heroin.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037) and (PSY 0205 or 0206 or 1141 or 1205) and (PSY 0105 or 0203 or 0210 or 0410 or 0422)

PSY 1237 - NICOTINE, TOBACCO, AND HEALTH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1255 - PRINCIPLES OF BEHAVIOR MODIFICATION

Minimum Credits: 3
Maximum Credits: 3
Behavior modification techniques are the most commonly used interventions in psychology, education and health psychology. In this course, students will learn basic concepts, theories and research in behavior modification in the context of clinical applications. Most learning will occur through practical, applied exercises. In one set of exercises, students will choose a hypothetical client and apply behavioral methods to their client's case. Students will develop a portfolio of assessment and treatment techniques for their client.

Academic Career: Undergraduate
PSY 1270 - CHILD PSYCHOPATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course considers research and theory which bear on the development of psychological disorders in children. Biological and environmental factors which contribute to childhood disorders are considered with special emphasis on the role of the family. Childhood psychosis, hyperactivity, and depression are studied to illustrate theoretical models and empirical findings.
Academic Career: Undergraduate

PSY 1305 - EXPERIMENTAL CHILD PSYCHOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course introduces students to the scientific basis of theories and issues in developmental psychology. In lectures, discussion and structured experiments students learn about and apply basic methods of research in child development, including conceptualization, design, data collection, analysis and write-up. This course exposes students to development over infancy and childhood. The actual topics under study may vary by semester and include gender role development, cognitive development, and language development.
Academic Career: Undergraduate

PSY 1312 - CHILD DEVELOPMENT & SOCIAL POLICY

Minimum Credits: 3
Maximum Credits: 3
In this course we will examine how a range of public policies shape the well-being of children and families. Poverty and inequality will be a central focus of the course. Policies addressed in the course include means-tested government programs, tax policy, early care and education policy, home visitation programs, housing policy, child abuse and neglect policies, k-12 education policy, and immigration policy. The goal of this course is to teach students to think critically about the implications of local, state, and federal policies for children and families.
Academic Career: Undergraduate

PSY 1315 - DEVELOPMENTAL PSYCH: INFANCY

Minimum Credits: 3
Maximum Credits: 3
This course will explore how infants develop from conception to approximately age three. Topics that will be covered include motor development, social development, emotional development, perceptual development, and cognitive development. The course will also explore how knowledge about infant development is applicable across disciplines and careers.
Academic Career: Undergraduate

PSY 1320 - LANGUAGE DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
What does mastering a language look like and how do human children do it so quickly while animals do not? What happens if children are deprived of language? Is language special, or is it part of our general cognitive ability? We will examine all these questions and, in the process, learn about typical language development and the methods used to study it.
Academic Career: Undergraduate
PSY 1321 - AUTISM SPECTRUM DISORDER

Minimum Credits: 3  
Maximum Credits: 3  
This course will be devoted to a discussion of psychological theory and research in ASD. Topics to be covered include the early history of the study, diagnosis, and treatment of autism; current classification and diagnostic issues and techniques; epidemiological and etiological issues; major neurological and psychological theories of ASD; research on sensory atypicalities and stereotyped and repetitive motor behaviors, early identification, early social and communicative skills, affective, attentional, symbolic, and social factors; and intervention issues in ASD.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0310 or 0202 or 0230

PSY 1323 - RISK, RESILIENCE, AND EARLY STRESS

Minimum Credits: 3  
Maximum Credits: 3  
Sadly, millions of children in the United States and throughout the world are exposed to chronic and uncontrollable adversities (e.g., extreme poverty; maltreatment). These adverse childhood experiences are related to compromised physical and mental functioning throughout development. However, individuals and communities exposed to these types of intense challenges often exhibit an amazing level of resiliency. Across the course, we will anchor ourselves in bio-psycho-social models of development, review these different sets of findings, and think about developmental interactions between the individual, family, community, and culture.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PSY 1325 - DEVELOPMENTAL PSYCHOLOGY: SOCIAL DEVELOPMENT

Minimum Credits: 3  
Maximum Credits: 3  
An introductory survey of methods, theories, and research on the personality and social development of humans from infancy through early adolescence in the United States. This course examines individual development from a biological, contextual, and cultural point of view: how people come to be who they are, and how change and continuity work together over time. First comes an investigation of starting points in development. We will study the infant's first social relationships and try to understand the connection between early temperament and mature personality. Basic concepts of developmental theory will also be introduced. Next we examine how children function within increasingly complex and varied social environments such as families, peer groups, and educational settings. Topics covered include self-development, sex differences and gender role development, achievement motivation, prosocial behavior/altruism, moral development, and social behavior. This upper level course is designed for psychology majors. The course may be of interest to other advanced undergraduate students who are interested in psychology, child and adolescent development, education, and related disciplines.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037)

PSY 1330 - DEVELOPMENTAL PSYCHOLOGY: COGNITIVE DEVELOPMENT

Minimum Credits: 3  
Maximum Credits: 3  
This course covers major areas of cognitive and intellectual development spanning infancy, childhood, adolescence and old age. Topics covered include perception, language, memory, attention, and higher order cognition  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PSY 1355 - ADOLESCENCE
Adolescence is one of the most rapidly changing periods of the lifespan. This course will cover the fundamentals of psychological development during adolescence by exploring how the psychological, biological, and social changes that occur across this timeframe impact the development of the self, identity, and relationships. We will explore how these changes are tied to psychopathology, risk behaviors, and positive development during adolescence, and how development during the adolescent period sets the stage for functioning in adulthood. A major emphasis of this course will be on the role of interpersonal and sociocultural contexts of adolescent development.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0310 or 0202 or 0230)  
**Course Attributes:** Children's Literature

**PSY 1357 - PSYCHOLOGY OF AGING**

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to examine the psychological changes that occur through adulthood and into late life from a life-span developmental perspective. Biological, cognitive, emotional, and social aspects of the aging process will be explored in depth. Historical and contemporary perspectives on aging as well as cultural influences on the experience of aging will be examined. Psychological aspects of aging will be explored from individual, familial, and societal viewpoints. Lecture, class discussion, small group work and media presentations will be utilized.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0101 or 0200

**PSY 1360 - PSYCHOLOGY OF BLACK CHILDREN**

Minimum Credits: 3  
Maximum Credits: 3  
This course surveys and critically evaluates literature on the development of black children from birth to adolescence. Topics to be covered include prenatal influences on growth and development; structure and socialization practices of black families; black English and language development; cognitive development; psychological testing of black children; self-concept and racial identification.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (PSY 0035 or 0032 or 1031) and (PSY 0310 or 0202 or 0230) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270)  
**Course Attributes:** Children's Literature

**PSY 1361 - DIVERSITY IN CLINICAL PRACTICE**

Minimum Credits: 3  
Maximum Credits: 3  
This course is intended to enhance students' knowledge base, awareness, and appreciation for diverse groups in the U.S. Course content will cover foundational cognitive and social psychology research relevant to diversity concepts, identity development and experiences of members of numerous diverse groups, clinical research relevant to work with diverse clients, and review of education, training, and practice guidelines for psychologists.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: PSY 0010 or 0012 or 0101 or 0200

**PSY 1435 - BEHAVIOR CONTROL IN SOCIETY**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an overview of the scientific principles used in behavior management and examines some of the uses of behavior management in various work settings, other institutional settings, in governmental control and in open society. The relation of the uses of behavior control procedures to ethics, social planning, and individual freedom are explored. Behavior analysis serves as the basis for examining traditional management of people as it is found in a variety of social situations without the intervention of experts in behavior management.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
PSY 1470 - COGNITION AND THE BRAIN

Minimum Credits: 3  
Maximum Credits: 3
Cognitive psychologists have been exploring the human mind through behavioral studies for over fifty years. In parallel, neuroscientists have built up an understanding of the human brain. The study of cognition in the brain, known as cognitive neuroscience, lies at the intersection of these fields, asking some of the toughest but most fascinating questions in science: How are memories stored in the brain? Is our brain pre-prepared to learn language? How does the average human brain outperform many face recognition algorithms? What is the role of sleep in cognition? We will explore these and many other questions in this course. As well as being interesting in its own right, cognitive neuroscience is having an increasing impact on our lives, such as through the developing field of ‘brain reading’ with brain scanners, or new devices that can change the brain's activity at the push of a button. Through learning about the techniques used by cognitive neuroscientists and reading studies first-hand, students will come away with a better understanding of this cutting-edge field and of their own brain.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200 or NROSCI 1000 or 1003

PSY 1471 - MAPPING HUMAN BRAIN CONNECTIVITY TECHNOLOGY BASIC RESEARCH AND CLINICAL APPLICATIONS

Minimum Credits: 3  
Maximum Credits: 3
This course covers use of a novel Pittsburgh developed High Definition Fiber Tracking (HDFT) technology providing human brain connectivity with unprecedented fidelity. The technology maps a million streamlines (0.1mm diameters sets of axons) per person providing 93 miles of tracts within the head involving 40 tracts connecting 170 brain areas. We can follow tracts from source to destination mapping projection fields with high accuracy. The fibers can be visualized and quantified providing circuit diagrams of cortical networks. These techniques will advance the study of brain systems, disorders, development, neuropathology, and neurosurgery. Students will perform projects individually or in groups analyzing collected data or developing new analysis or biomedical methods. Students can do projects that are cognitive neuroscience studies of a brain system or technical development of new methods. Sample projects might include mapping a sensory system, developmental assessment or automated brain segmentation and circuit tracing and detection of clinical anomalies (e.g., TBI breaks, tumors). Technical projects might involve better fiber reconstruction, tracking, tract segmentation or developing new visualization or statistical projects. Students must have some statistics and research experience/course work and consent of the instructor.

Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: LG/SNC Elective Basis

PSY 1514 - EVOLUTIONARY PSYCHOLOGY

Minimum Credits: 3  
Maximum Credits: 3
The relevance of Darwinian Theory to the study of anatomy and physiology has been obvious for many decades. Only recently however, have evolutionists begun to focus their explanatory tools on cognition, motivation, emotion, perception, and "mind". This course will examine the rationale, contributions, failures and future of evolutionary approaches to psychological phenomena. Initial lectures on the status of Evolutionary Theory will prepare the students for the discussion and evaluation of evolutionary psychology that will follow.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200

PSY 1580 - LANGUAGE AND THE MIND

Minimum Credits: 3  
Maximum Credits: 3
This course introduces students to the study of language as a cognitive science, focusing on the mental processes and representations that we use to comprehend and produce language. Throughout the course we will emphasize fundamental debates in cognitive science and the ways these debates influence current psycholinguistic research into questions about sentence comprehension, production, and conversation. Because this course is multidisciplinary in nature, drawing primarily from the fields of linguistics and psychology, students will be introduced to ideas, theories, and methods used by researchers in both fields.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: PSY 0010 or 0012 or 0101 or 0200 or LING 1000
PSY 1581 - BILINGUALISM

Minimum Credits: 3
Maximum Credits: 3
In this class, we will discuss models of bilingualism, and the psycholinguistic aspects of being bilingual. Topics that may be covered include: bilingual memory representation as a function of language proficiency, language learning method, and word/concept type; how bilinguals recognize words (printed and spoken); whether the bilingual’s two languages are always “active” to some extent; how bilinguals manage to use one language without getting “mixed up”; and, how speaking two languages influences thought. Discussion will be emphasized during meeting periods, and a final paper will be required.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1635 - ORGANIZATIONAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will provide broad exposure to the field of organizational psychology. We will cover concepts of leadership, motivation, group dynamics, personality, organizational development strategies, and other behavioral aspects involved in the effective management of an organization through readings, lecture, video, discussion, and case analyses. The emphasis is on building a sound grasp of leadership practice, and on developing the ability to apply such knowledge to actual business problems. The class format will include multiple hands-on assignments to assist the student in understanding how psychological theories can be applied in a work context.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or 0012 or 0101 or 0200) and (PSY 0035 or 1031 or 0036 and 0037) and (STAT 0200 or 1000 or 1100 or PSY 0201 or 0270)

PSY 1900 - SUPERVISED FIELD PLACEMENT

Minimum Credits: 1
Maximum Credits: 3
Psychology majors may receive up to 3 credits for field experience in supervised agencies in the community. The experiences vary from term to term.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: Psychology (BS); LEVEL: Junior or Senior
Course Attributes: Capstone Course

PSY 1902 - DIRECTED INDIVIDUAL READING

Minimum Credits: 1
Maximum Credits: 3
Under special circumstances, psychology majors can design an individual reading course with a member of the department and in consultation with the graduate advisor.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

PSY 1903 - DIRECTED INDIVIDUAL RESEARCH S/NC

Minimum Credits: 1
Maximum Credits: 3
This course involves student participation in individual experimental research supervised by a member of the faculty. This course is particularly valuable for students interested in graduate study in psychology.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Attributes: Capstone Course
PSY 1907 - DIRECTED INDIVIDUAL RESEARCH LG

Minimum Credits: 1
Maximum Credits: 3
This course involves student participation in individual experimental research supervised by a member of the Psychology Department faculty. This course is particularly valuable for students interested in graduate study in psychology.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PSY 1950 - PSYCHOLOGY SENIOR SEMINAR

Minimum Credits: 1
Maximum Credits: 1
This one-credit course is designed for psychology majors in their final year of study (either final or next-to-final term). Course content will include exploration of the field of psychology, self-assessment of learning experiences, identification of marketable skills for career and graduate school paths, and planning for transition to post-college life.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Psychology (BS or BPH); LVL: Sr

PSY 1970 - UNDERGRADUATE TEACHING ASSISTANT EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
This course involves student participation as an undergraduate teaching assistant (UTA) for a psychology course under the supervision of a faculty member.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Attributes: Capstone Course

PSY 1973 - HONORS DIRECTED RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This is the first term of research in preparation for the honors major in psychology. Development of the research problem and approval of the theses prospectus.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Attributes: Capstone Course

PSY 1975 - HONORS THESIS/MAJORS

Minimum Credits: 3
Maximum Credits: 3
Undergraduate honors majors in psychology will register for this course when their thesis proposal has been approved and they are ready to conduct and write up the research.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Attributes: Capstone Course, Writing Requirement Course

Psychology in Education

PSYED 0005 - LIFE SPAN DEVELOPMENT
Minimum Credits: 3
Maximum Credits: 3
This course follows the developing person from conception until the end of life. The course combines theory, research and practical applications from developmental psychology. Lecture topics include genetic influences on development; prenatal and birth factors; physical, cognitive, social, personality, and cultural variables which influence development in infancy, childhood, adolescence, early-, middle-, and late adulthood.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: UPB Behavioral Sciences General Ed. Requirement

**PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY**

Minimum Credits: 3
Maximum Credits: 3
A survey of current problems in education which psychological theory and research can address. Topics include developmental approaches to teaching, educational applications of learning theory, classroom management, and testing strategies for teachers.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**PSYED 1002 - DEVELOPMENT: CONCEPTION THROUGH EARLY CHILDHOOD**

Minimum Credits: 3
Maximum Credits: 3
This course follows the developing child from the moment of conception until early adolescence. The course content includes the biological foundations of development, physical and motor changes, language, cognition, sex role development, personality, family and peer relationships, school influences, and examples of deviant development. Theory and application are integrated.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

**PSYED 1003 - DEVELOPMENT: MIDDLE CHILDHOOD THROUGH ADOLESCENCE**

Minimum Credits: 3
Maximum Credits: 3
Adolescence is studied from a developmental perspective. Discussion begins with the history and cultural varieties of adolescence and proceeds to cover psychological accompaniments to puberty. Lectures and readings deal with cognitive growth, identity formation, moral development, family and peer relationships, psychological disturbance and education through the adolescent years.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSYED 1002

**PSYED 1004 - ATTENTIONAL TEACHING PRACTICES**

Minimum Credits: 3
Maximum Credits: 3

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

**PSYED 1005 - TEACHING GLOBALLY AND LOCALLY IN A DIVERSE WORLD**

Minimum Credits: 3
Maximum Credits: 3
Students will be able to apply this knowledge specifically to their teaching practice as they begin their field experiences. We will critically engage in understanding the complex factors that impact education in the United States today, with an emphasis on Urban Education. A review of past teaching policies and practices will support a better understanding of the American schooling system in the 21st Century. In the Teaching Globally and Locally in a Diverse World class pre-service teachers will: (a) discuss strategies for teaching all children in a responsive, equitable manner, (b) learn to analyze the effects that marginalization has on children, (c) investigate the impact that race, culture, and socioeconomic status have on a child's education, and (d) review school reform and policy practices that have created various types of schools available to students in the United States.
Knowing that the landscape of education is changing in the United States we will discuss the globalization of schooling in our society, along with the need for a higher technological understanding to prepare children for success in today's world.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**PSYED 1007 - METHODS OF EVIDENCE-BASED PRACTICE**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an overview of both quantitative and qualitative research methods. Particular attention is paid to methods of observation, interviewing, and summarizing qualitative data. Students use qualitative or mixed methods to produce a final research project.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** CREQ: PSYED 1002

**PSYED 1012 - DEVELOPMENTAL DISABILITIES**

Minimum Credits: 3  
Maximum Credits: 3  
A study of developmental disabilities and their impact on child/family development. Includes discussion of philosophy of service, legislation, and service systems.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: PSYED 1002

**PSYED 1013 - DEVELOPMENTAL PSYCHOPATHOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
Examines the traditional medical-model view of psychopathology in children and youth, presents alternative ways of looking at this behavior, and gives an introduction to the interpersonal skills needed for therapeutic intervention.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** CREQ: PSYED 1002

**PSYED 1016 - DEVELOPMENT CURRICULUM AND ACTIVITIES**

Minimum Credits: 3  
Maximum Credits: 3  
Study of the theoretical rationale for activity and environmental programming; its relationship to the development of children and youth; and practical applications in media selection, use, and environmental design for various populations.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis  
**Course Requirements:** PLAN: Applied Developmental Psychology(BS)

**PSYED 1021 - THEORY, MEANING AND PRACTICE OF PLAY AND ACTIVITY**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides a comprehensive overview of the role of play and activity in human development, with a particular focus on ways of utilizing play and activity to promote positive growth in social, emotional, physical, and cognitive domains; and on interpreting the meaning of individual and group play and activity. Play and activity in the lives of persons of all ages will be considered with some emphasis on the early and school years. While academic learning is essential in this course, the focus will be on hands-on, real play as the ideal way to learn about it, and encouragement of a life-long playful spirit.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade
PSYED 1024 - FAMILY DYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Study of different family types in the American culture and an in-depth analysis of how each family structure contributes to the development (both functionally and dysfunctionally) of all family members, especially the children and youth of the family.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSYED 1013

PSYED 1025 - CONTEMPORARY ISSUES IN COMMUNITY

Minimum Credits: 3
Maximum Credits: 3
An introduction to the scope, organization and current issues in the child development and child and youth care field as related to the profession and to the variety of services to children and families. Field experiences include site visits to agencies providing a variety of services.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psychology(BS)

PSYED 1028 - DEVELOPMENTAL PRACTICE SEMINAR 1

Minimum Credits: 3
Maximum Credits: 3
A seminar for the integration of theory, research, practice skills, and experience related to developmentally focused child and youth care practice. The seminar is particularly focused on the internship experience and the related knowledge base.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Applied Developmental Psychology(BS); LVL: Sr

PSYED 1029 - DEVELOPMENTAL PRACTICE SEMINAR 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Developmental Practice Seminar 1 for the integration of theory, research, practice skills and experience related to developmentally focused child and youth care practice. The seminar is particularly focused on the internship experience and the related knowledge base.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1032 - PSYCHOSOCIAL ASPECTS OF ILLNESS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to enable students to understand the nature of and dynamics of pediatric illness, appreciate the impact an acute or prolonged health care experience may have upon children throughout the developmental process, better understand a family health care philosophy and gain an understanding of the multi-faceted role child life specialists play in today's health care environment.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

PSYED 1036 - DEVELOPMNTL MEANING CULTL DISTN

Minimum Credits: 3
Maximum Credits: 3
An exploration of major dimensions and issues of cultural diversity with a particular emphasis on their impact on the developing child and their implications for programs for children and youth.
**PSYED 1042 - CHILD & YOUTH WORK PRACTICE 1**

Minimum Credits: 1  
Maximum Credits: 6  
A university approved, agency based, supervised internship in developmental/interventive practice. This internship may focus on work with and/or for children, youth and families. Fifty hours of placement are required for each credit of registration.

**PSYED 1043 - CHILD/YOUTH PRACTICE 2**

Minimum Credits: 6  
Maximum Credits: 6  
This course is a university approved, agency based, supervised internship in applied developmental practice which may or may not involve intervention practices. The internship may focus on work with and /or for children, youth and /or families. Fifty hours of on-site placement are required for each credit of registration.

**PSYED 1050 - SUPRVSN ADM CHLD YOUTH WRK SETNG**

Minimum Credits: 3  
Maximum Credits: 3  
This course focuses on issues and skill development in areas related to management and supervision in child and youth care programs. A modular format will cover the function of supervision and administration in child care; communication skills; supervisory functions and skills; program development and management; and current issues in child and youth care administration.

**PSYED 1080 - PSYCHOLOGY AND THE MEDIA**

Minimum Credits: 3  
Maximum Credits: 3  
Psychology and the media focuses on impact of electronic media (radio, television and internet) upon society, especially children. Course introduces students to various psychological theories (e.g., Social cognitive theory, information processing, uses and gratifications theory) to explain how we respond to and learn from the media. Topics receiving special attention include media violence, advertising, health-related behaviors, news, media effects upon academic behavior, and cultural issues. A visit to a local radio or television station will be arranged.

**PSYED 1089 - SPECIAL TOPICS**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade
PSYED 1098 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 6
Student pursues research under the direction of a faculty member.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

PSYED 1099 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

PSYED 1198 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
Student pursues study of various topics under the direction of faculty.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SN Elective Basis

PSYED 1199 - DIRECT STUDY

Minimum Credits: 1
Maximum Credits: 9
Directed Study working with a faculty member with Study Abroad
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade

PSYED 1233 - COMMUNITY-BASED ACTION RESEARCH 1

Minimum Credits: 2
Maximum Credits: 2
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

PSYED 1234 - COMMUNITY-BASED ACTION RESEARCH 2

Minimum Credits: 2
Maximum Credits: 2
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

PSYED 1542 - EVIDENCE-BASED INTERVENTIONS IN REAL WORLD CONTEXTS I

Minimum Credits: 3
Maximum Credits: 3
Evidence-based interventions (EBIS) are the foundation of effective and high-quality prevention and intervention programs in education, human services, and healthcare. Both pre-service and continuing education of interdisciplinary professionals must emphasize the acquisition of knowledge and applied competencies about diverse ebris in this continuously evolving area. Many forms of prevention and intervention are used in education,
human services, and healthcare, but few such practices have 'practice-based evidence' conducted in real-world settings which validate their continued use. Thus, in this course, students will gain knowledge and skills in evidence-based contextual and individual interventions, their content, methodology, implementation, and evaluation. The course will help students who are interventionists but is not primarily clinical in orientation. Rather, it is designed to prepare future leaders’ practitioners, researchers, program administrators/directors, program evaluators, and policy specialists - in best practices and their implications.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**PSYED 1622 - CHILD LIFE PRACTICUM**

- **Minimum Credits:** 1  
- **Maximum Credits:** 1  
  Credits for approved hospital-based child life practicum experience.  
  **Academic Career:** Undergraduate  
  **Course Component:** Practicum  
  **Grade Component:** H/S/U Basis

**PSYED 1722 - CHILD LIFE INTERNSHIP**

- **Minimum Credits:** 1  
- **Maximum Credits:** 1  
  Credits for approved hospital-based child life internship placement.  
  **Academic Career:** Undergraduate  
  **Course Component:** Internship  
  **Grade Component:** H/S/U Basis  
  **Course Attributes:** Undergraduate Internship

**Public & International Affairs**

**PIA 2115 - ENVIRONMENTAL ECONOMICS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
  This course will combine multi-disciplinary environmental topics in an introductory level course. The concept of environmental policy and its impact on environmental management will be introduced. It will focus on the various scientific, technical and social disciplines including the basic sciences as well as law, engineering, public health and economics. Attention will also be given to the effects of developing and changing environmental policy on selected industries as well as natural resources.  
  **Academic Career:** GRAD  
  **Course Component:** Lecture  
  **Grade Component:** Letter Grade  
  **Course Requirements:** Graduate School of Public and International Affairs students only.

**PIA 2140 - FINANCIAL PRACTICES FOR ECONOMICS AND ENVIRONMENTAL SUSTAINABILITY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
  This course examines the financial practices and processes required to promote economic and environmental sustainability (both public and private comparisons). Emphasis is put on how the economic component husbands the wise use of resources to effectively achieve specific organizational successes, promoting societal or external long-term prosperity, enhancing the opportunity for living things in the environment. On the environmental and social sides stress is put on respecting things and people both in particular organizational and external community. Next focus is put on financial indicators (both early warning and long term) that have been developed and applied to predict potential financial problems before they arise. Attention is focused on financial indicators (the financial monitoring trend system-ftms) that have been developed to promote stable and sustainable financial management.  
  **Academic Career:** GRAD  
  **Course Component:** Lecture  
  **Grade Component:** Letter Grade  
  **Course Requirements:** Graduate School of Public and International Affairs students only.

**PIA 2164 - NATURAL RESOURCES GOVERNANCE AND MANAGEMENT**
Minimum Credits: 3
Maximum Credits: 3
This course considers how institutions influence resource and environmental outcomes. In particular, this course will focus on how the design of property rights influences prospects for effective management of resources such as energy, water, and biodiversity. Although the problem of resource management is complex, we will study how the structure of property rights, the rules governing ownership in society, provides a framework to understand when societies succeed and fail in their effort to manage resources effectively. In a general sense, the course will show why property rights, and the political institutions within which property rights are specified and enforced, are the key to understanding the extent to which societies are able to manage natural resources effectively.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.

PIA 2231 - CONTEMPORARY US ENERGY POLICY

Minimum Credits: 3
Maximum Credits: 3
This class examines the energy policy choices facing U.S. policymakers. The choices involve myriad issues, including: allowing fuel exports, regulating greenhouse gas emissions, subsidizing renewable fuels and energy efficiency investments, allowing drilling on public lands, and allocating funds for research across energy sources and technologies. Broader issues include: understanding and evaluating the justifications used to support energy policies; making policy when costs and benefits are uncertain, occur in long term, and are hard to quantify; what’s the ‘right’ price of energy; market and government failures; what are they and how do we address them?

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade

PIA 2388 - INTERNATIONAL LAW AND POLICY

Minimum Credits: 3
Maximum Credits: 3
This course begins with an exploration of the history and sources of international law. We then survey the legal process and the application of international law to explore laws governing relations among states, and its expansion to non-state actors (e.g., the private individual, international organizations, NGOs, and multinational corporations). Students will learn about how and why international law is created and develop an understanding of the mechanisms and institutions of its enforcement. The enforcement of international law, its successes and difficulties, will require students to learn about, inter alia, the nature of international disputes, the subjects of international law, and the forums in which disputes are settled. Throughout the course, we will consider the emerging challenges faced in an international law paradigm including, organized violence, global markets, cultural coherency and conflict, identity and citizenship, technological evolution, and environmental regulation.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.

PIA 2502 - GLOBAL ENVIRONMENTAL POLICY

Minimum Credits: 3
Maximum Credits: 3
The 1992 Rio Declaration on environment and development states that ‘to achieve sustainable development, environmental protection shall constitute an integral part of the development process.’ We discuss the linkages between development and the environment, and the role of women, indigenous peoples, and the poor in achieving equitable development and environmental protection. Using tools from economics and policy analysis, we explore the conceptualization of environmental problems (market or government failure); various policy instruments to rectify environmental problems (regulations, voluntary programs, taxes, tradable permits, payments for environmental services and international treaties such as the Basel Convention, the Montreal Protocol, and the Kyoto Protocol), and the link between trade and the environment. Students’ case presentations illustrate the challenges of environmental management in developing countries and the roles of civil society, NGOs, corporations, and international institutions such as the world bank, world trade organization, and united nations environmental program. Over the course of the semester, students are responsible for several policy memos and PowerPoint presentations.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.

PIA 2510 - ECONOMICS OF DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
The 1992 Rio Declaration on environment and development states that 'to achieve sustainable development, environmental protection shall constitute an integral part of the development process.' We discuss the linkages between development and the environment, and the role of women, indigenous peoples, and the poor in achieving equitable development and environmental protection. Using tools from economics and policy analysis, we explore the conceptualization of environmental problems (market or government failure); various policy instruments to rectify environmental problems (regulations, voluntary programs, taxes, tradable permits, payments for environmental services and international treaties such as the Basel Convention, the Montreal Protocol, and the Kyoto Protocol), and the link between trade and the environment. Students' case presentations illustrate the challenges of environmental management in developing countries and the roles of civil society, NGOs, corporations, and international institutions such as the world bank, world trade organization, and united nations environmental program. Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.
Minimum Credits: 3
Maximum Credits: 3

We use basic conceptual frameworks from economics and quantitative methods to examine economic development issues. We begin by discussing Amartya Sen's concept of 'development as freedom' and measures of development such as the Human Development Index. We examine when the market and government can serve as appropriate mechanisms to allocate resources within the economy. We discuss the institutions that are needed to ensure that markets function well. We study innovations, such as disclosure programs, that reduce corruption. We examine gender-sensitive pro-poor strategies, such as micro-credit programs, the granting of property rights to women, investment into girls' schooling and women's reproductive health. We study World Trade Organization provisions that assist or impede poor countries' access to drugs in combating AIDS and other public health crises. We review the rules of the WTO that attempt to balance free trade and countries' ability to protect public health and the environment. We discuss the role of international trade (e.g., OECD subsidies for agriculture), foreign aid and debt in encouraging or impeding economic development.

Students will be graded on policy memos that are well written, based on quantitative and qualitative evidence, and oral briefings that recommend solutions to development challenges faced by governments, international organizations, non-governmental organizations or corporations.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PIA 2024 and 2025 or PIA 2026 or 2027; Graduate School of Public and International Affairs

PIA 2520 - FOOD SECURITY: AGRICULTURE & RURAL DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3

Focusing on food, hunger, agriculture and rural livelihoods in low- and middle-income countries, this course is a survey of nutrition, agriculture, and food policy issues. It is a course for non-specialists in agriculture who need to be able to work with agronomists and other specialists, in rural and community development.

Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.

PIA 2522 - GLOBAL ENERGY

Minimum Credits: 3
Maximum Credits: 3

The global energy policy course applies tools from economics, science, and policy analysis to address energy issues. We examine various energy sources in the US/EU/developing countries including oil, gas, nuclear, hydro, biofuels, solar and wind. We discuss how market failures and government policies influence the gaps between private and social costs of energy. We examine incentive policies for the adoption of renewable energy and overall benefits from restructuring towards a greener economy. We examine the role of international trade, investment, technology transfer and climate policy in increasing energy efficiency and renewable energy worldwide.

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Graduate School of Public and International Affairs students only.

PIA 2715 - GIS FOR PUBLIC POLICY

Minimum Credits: 3
Maximum Credits: 3

A geographic information system (GIS) is a powerful tool for the public sector and used in a variety of disciplines. GIS builds on existing methods while offering new dimensions. This course provides students with a solid foundation of the principles and applications of GIS, an introduction to the desktop software ArcGIS, and demonstrates its uses in the public sectors. Students utilize ArcGIS to analyze and display spatial and demographic data. The construction of policy is then predicated on analysis. Skills learned in core courses can be brought to this course and built upon. Students have the flexibility to focus on their particular area of interest within the public sector through project work. The course is taught via lecture and hands-on experience using the ArcGIS software.

Academic Career: GRAD
Course Component: Lecture

Public Health

PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH
Minimum Credits: 3  
Maximum Credits: 3  
This introductory course covers fundamental concepts in global public health, including determinants of health, key health indicators, global burden of disease, and the relationships among health status, education, and poverty, cross-cutting issues such as culture, ethical and human rights aspects of health, and key actors in global health will also be explored. A variety of teaching modalities will be employed throughout the course including lectures, guest speakers, case studies, class discussion, audio-visual presentations, and student presentations.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: LVL: Soph or Jr or Sr

PUBHLT 1002 - SPECIAL TOPICS IN GLOBAL HEALTH

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an in-depth look at selected global health issues at a population level. This includes exploration of the determinants of health associated with these issues, prevention and control strategies, and the interplay of behavioral, social, cultural, economic, and political factors that must be considered when addressing the issues. Topics are preselected by the instructor and may vary each term. Examples are accidents and injuries; chronic diseases such as cancer, diabetes, and mental illness; neglected tropical diseases; and reproductive health. In addition, students will be exposed to an array of issues through weekly discussion of current events in global health. A variety of teaching modalities will be employed throughout the course including lectures, guest speakers, case studies, class discussion, audio-visual presentations, and student presentations.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: LVL: Soph or Jr or Sr

PUBHLT 1003 - INTRODUCTION TO PUBLIC AND GLOBAL HEALTH

Minimum Credits: 4  
Maximum Credits: 4  
This course is an introduction to public and global health in which students will learn and apply problem solving methodologies to analyze current public health issues from local, national, and global perspectives. Through detailed case studies of communities in the US and across the world, students will gain an in-depth understanding of how biological, behavioral, environmental, and public policy components come together to determine the health of populations. Also, working individually and in groups, students will recommend interventions and evaluation methods to address specific problems. This course has no formal prerequisites. It is intended only for students in the Pitt summer edge in public health and global health program.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: CREQ: BCHS 2509 or EPIDEM 2110 or PUBHLT 2015; LEVEL: SOPHOMORES, JUNIORS, SENIORS

PUBHLT 1004 - PUBLIC HEALTH EXPLORATIONS

Minimum Credits: 1  
Maximum Credits: 1  
In this course, students will explore the varied and multidisciplinary aspects of public health by meeting once per week for (1) discussions with a variety of public health researchers, leaders, and field workers, or (2) field trips to local public health institutions. This course has no formal prerequisites. It is intended only for students in the Pitt summer edge in public health and global health program.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: CREQ: BCHS 2509 or EPIDEM 2110 or PUBHLT 2015; LEVEL: SOPHOMORES, JUNIORS, SENIORS

PUBHLT 1005 - PUBLIC HEALTH RESEARCH AND PRACTICE

Minimum Credits: 4  
Maximum Credits: 4  
This course will provide an internship and/or shadowing opportunity with a Pitt public health faculty member. Students will work individually or in pairs with a faculty mentor. There will be opportunities for laboratory, quantitative, or social science research, opportunities to work in the field with community organizations or health agencies, and opportunities to work in clinical settings. This course has no formal prerequisites. It is intended only for students in the Pitt summer edge in public health and global health program.  
Academic Career: Undergraduate  
Course Component: Lecture
Public Service

PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the fields of public service. In addition to addressing the concept of public service, it provides students the opportunity to explore the various public service options. These include elected and appointed positions, volunteerism, and work in non-profit organizations. An effort will be made to give students an appreciation of the skills and talents required to effectively serve in these capacities. Classes will involve presentations by a variety of public service professionals, field visits and service learning opportunities.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Urban Studies

PUBSRV 0030 - PUBLIC POLICY PROCESS

Minimum Credits: 3
Maximum Credits: 3
Objective: to stimulate independent, critical and creative thinking about processes of public policy formulation in complex and rapidly changing environments. Course provides an approach to understanding interrelationships between elements of public policy (policy problems, policy alternatives, policy actions, policy outcomes, policy performance) and specific skills necessary to formulate and implement policies (problem identification, forecasting, recommendation, monitoring, and evaluation).

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Urban Studies

PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
This course presents an overview of existing and emerging technologies that may be used by public service professionals to accomplish organizational goals or improve efficiency and effectiveness. Through discussions, readings, internet research and hands-on computer exercises, it will emphasize current information technology concepts, issues, and practices in the United States. In addition, it will provide students with a technology skill set utilized in subsequent courses and in the practice of a public service career.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 0050 - ETHICS AND ACCOUNTABILITY

Minimum Credits: 3
Maximum Credits: 3
This course is an undergraduate course offered through the Public Service major by the Graduate School of Public and International Affairs. It will be an introduction to Ethics and Accountability and will focus on enhancing the capacity of students to make difficult and necessary ethical choices on the basis of limited information and frequently conflicting values. The purpose of this course is that in their personal lives and future roles as professionals in a chosen field, students will face moral and unethical dilemmas that resist easy answers or a simpler formula and action.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION

Minimum Credits: 3
Maximum Credits: 3
Examines practices, issues and concepts in governmental administration. Course deals with such matters as current and best approaches to administration, administration and politics, organizational structure and behavior, and decision making.
PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3
Participants are provided with an overview of the financial management concepts and practices. Stress is put on the strengths, weaknesses, and critical roles financial management plays in aiding public service managers to better realize their programmatic goals and objectives.

PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory survey of the understandings and skills needed by both managers and employees to cope with the myriad human resources management systems in public sector organizations. Specific topics include the history and evolution of human resources management, the legal environment, human resources planning, position classification and compensation, recruitment, promotion, termination, performance evaluation and training. Integrated with these topics will be the technical and legal concerns of labor relations and equal employment opportunity.

PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the profession of urban planning through a review of the historical development of cities. With this framework we will look at the actual work of the planner: data gathering, analysis, policy, public process and politics. We will address the relation between the physical nature of cities and the quality of community that develops. Course underscores the importance of physical and geographic determinants to city growth, and makes the connection between democratic values and city development policy.

PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Introduction to forms of non-profit organizations and their roles in American society. Course evaluates how non-profit organizations define their policy and service roles and examines the context of how they are organized, governed, financed, staffed, and managed. Other topics to be examined are law and philanthropy, volunteerism, strategic planning and marketing, training and developing boards, staff and volunteers, and ethical behavior.

PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS

Minimum Credits: 3
Maximum Credits: 3
Students are provided with an overview of the theories, practices and critical role of financial management in the non-profit sector. Major attention is focused on the tools and techniques that are necessary for the manager to effectively achieve an expanding mission in the face of a difficult and competitive revenue raising environment.
PUBSRV 1220 - HUMAN RESOURCE MANAGEMENT OF NON-PROFIT ORGANIZATIONS

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introductory survey of the understandings and skills needed by both managers and employees to cope with the myriad human resources management systems in non-profit organizations. Specific topics include the history and evolution of human resources management, the legal environment, human resources planning, position classification and compensation, recruitment, promotion, termination, performance evaluation and training. Integrated with these topics will be the technical and legal concerns of labor relations, equal employment opportunity and volunteer management.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Urban Studies

PUBSRV 1230 - FUNDRAISING FOR NON-PROFIT ORGANIZATIONS

Minimum Credits: 3  
Maximum Credits: 3  
This course is intended to help students become familiar with the major sources of financial resources available to support the program activities of non-profit organizations. It will introduce students to the basic component of grant proposals and other revenue raising techniques i.e. plan giving, general appeals and endowments.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Urban Studies

PUBSRV 1300 - LEGAL ISSUES IN PUBLIC SERVICE

Minimum Credits: 3  
Maximum Credits: 3  
Examines impact of law upon public service and manner in which legal implications condition formulation, adoption, and implementation of programs.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: Urban Studies

PUBSRV 1305 - HEALTH, LAW AND ETHICS

Minimum Credits: 3  
Maximum Credits: 3  
This course addresses legal and ethical issues encountered by health care practitioners as well as those working in health care management and public health. Strong emphasis is placed on legal and ethical issues that occur within the realm of direct patient care. Topics include, but are not limited to: advance directives, decision making capacity, informed consent, organ donation, end of life decision making, surrogate decision making, and confidentiality. Students will be able to articulate common health care ethics principles, theories, methodology, laws, and concepts and use the same to analyze health care ethics cases. Students will also develop concrete logical arguments in support of a chosen ethical stance.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE

Minimum Credits: 3  
Maximum Credits: 3  
This course analyzes public service from the perspective of minorities and women. The minorities examined are black American men and women, with lesser attention given to ethnic minorities, those over 45 and the handicapped. The experience and aspirations of these several minorities will be examined in terms of how minority culture illuminates the nature of public service.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Urban Studies
PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

Minimum Credits: 3  
Maximum Credits: 3  
This course provides students with the fundamentals of project management by examining key components of the project cycle, such as: problem identification, results-based planning and design strategies, implementation and scheduling strategies, monitoring and performance indicators, impact learning with evaluation studies, and data management and reporting systems. Students will also be introduced to team building concepts, managing project budgets, writing scopes of work, and legal issues in the management of contracts and administration of grants.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: Urban Studies

PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces the student to geographic information systems software. In addition to familiarizing the student with the software, each student will apply that knowledge to a particular public problem selected by the student in consultation with the instructor. As this is a hands-on course, the format is a combination of lecture and lab/computer time.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PUBSRV 1340 - STRATEGIC PLANNING PUBLIC SECTOR

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to introduce students to strategic planning and its application to the management of public organizations. As an introductory undergraduate course, students will be expected to gain a broad understanding of strategic planning and how it can be applied to mid and long term management of public organizations. Students will be introduced to the terminology used in strategic planning, several types of planning models, their steps and organization, and the importance of mission, vision, and values in strategic planning.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PUBSRV 1390 - THEORIES OF LEADERSHIP

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to acquaint students with multiple theories and practices associated with effective leadership. In answering the question, "what is leadership", it examines such theories as situational, participative, transformational, and servant leadership. It also addresses those leadership and administrative skills and practices usually associated with effective community organization and professional management.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

PUBSRV 1425 - PRINCIPLES OF HOMELAND SECURITY

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the new problems facing our domestic public service and justice personnel -- the borderless world of globalization and technology. Attention is paid to problems of terrorism, incident management systems, violence incident response procedures, planning for violence, changing federal, state, and local roles and response planning, weapons of mass effects, mass casualty programs, crime scene operations, technology and emergency responses, the evolving role of the intelligence community, and government, private, and non-government security issues.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Global Studies

PUBSRV 1430 - TRIAL ADVOCACY 1
### Minimum Credits: 3  
### Maximum Credits: 3  
This course examines the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include basic case analysis, effective advocacy skills, appropriate professional conduct, trial preparation, direct and cross examination of lay witnesses, and an introduction to the legal concepts of relevance and hearsay within the context of the federal rules of evidence. Students will participate in intensive class discussions and in-class presentations.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** University Honors Course

### PUBSERV 1435 - TRIAL ADVOCACY 2

| Minimum Credits: 3  
| Maximum Credits: 3  
This course further examines more advanced topics relating to the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include the authentication and use of evidentiary exhibits such as documents, real evidence and demonstratives, the direct and cross examination of expert witnesses, character evidence, opening statements, and closing arguments. Students will participate in intensive class discussions and in-class presentations.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** University Honors Course

### PUBSERV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

| Minimum Credits: 3  
| Maximum Credits: 3  
This course examines a variety of public policy issues as those issues are impacted by the role and significance of the news and entertainment media. It explores mass media law and policy, with particular attention to regulatory practices.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### PUBSERV 1900 - INTERNSHIP SEMINAR

| Minimum Credits: 1  
| Maximum Credits: 6  
A supervised placement with a government or non-profit agency, or private sector organization undertaking public services. Students will meet several times during the semester with other students to review and discuss their public service experiences. CGS Public Service Majors and Non-Profit Management Certificate students are required to complete a minimum of a 3.0 credit internship. This internship course is optional for Public Service Minors and may vary from 1.0-6.0 credits. Instructor approval is required prior to enrolling in this course.  
**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** Satisfactory/No Credit

### PUBSERV 1901 - INDEPENDENT STUDY

| Minimum Credits: 1  
| Maximum Credits: 6  
Allow advanced student to pursue topics and research of special interest, which are not otherwise available. Course requires construction of plan of study or research on topic selected and approval of instructor who will supervise work.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis

### PUBSERV 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR

| Minimum Credits: 4  
| Maximum Credits: 4  
While students are obtaining first-hand internship experience working with an official directly involved in policy making for the Pittsburgh region, they will learn in this seminar to analyze the policy-making process as an example of social problem-solving. They will learn the issues confronting
the region; they will study the policy-making process; finally they will analyze the method of participant observation.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade

### Quant Mthds/Operations Mgt

**BUSQOM 0050 - QUANTITATIVE METHODS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Provides the foundations for two basic business disciplines; optimization and simulation. Various modeling concepts which have origins and have found wide applications in functional areas such as finance, marketing and operations will be studied in depth. The topics studied are linear programming; models of "go/no go" decisions and location decisions; "what if" analysis; decision analysis and multiple criteria decision making models; queuing models and statistical foundations to simulate business systems-input/output analysis.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**Course Requirements:** PREQ: STAT 1000 or 1040 or 1100 or 1131 or MGMT 0024 or ECON 0204; LVL: So, Jr, Sr; PROG: College of Business Admin

**BUSQOM 1070 - OPERATIONS MANAGEMENT**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Provides foundations for managing operations technology manufacturing & service & discussion of operations management of conversion process. Field is centered on the fundamental problems of managers taking raw materials & transforming them efficiently/effectively into products resulting in satisfied customers. Topics: bottleneck & capacity analysis, capacity expansion; decoupling workstations-buffers versus internal & external variability; economies of scale in materials distribution; reorder point computations; distribution & logistics; & scheduling res; GT, JIT, CIM & FMS.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**Course Requirements:** PREQ: BUSQOM 0050; LVL: So, Jr, Sr; PROG: College of Business Admin

**BUSQOM 1080 - DATA ANALYSIS FOR BUSINESS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
The purpose of this course is to enhance the statistical and analytical skills of Pitt Business students, who have already taken the required STAT 1100 or STAT 1000 course, to the level necessary for them to deal with Data Mining and other essential material in the Business Analytics Certificate. The course should also be of interest to students exploring the analytical parts of other areas, such as marketing. The goals of the course are to: (1) cover material not currently treated in STAT 1100, but which is preparatory to Data Mining; (2) provide software skills in statistical packages used in business, such as SPSS, SAS, or R; and (3) provide experiential exposure to business applications of the material.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**Course Requirements:** PREQ: STAT 1000 or 1100 (Min Grade 'B')

**BUSQOM 1085 - APPLIED BUSINESS ANALYTICS PROJECT**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** Letter Grade

**BUSQOM 1090 - APPLIED OPTIMIZATION AND SIMULATION**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3
The purpose of this course is to enhance the problem-solving skills of Pitt Business students to the level necessary for them to deal with complex decision problems using optimization and simulation. Building on the foundation provided in the required BUSQOM 0050 Quantitative Methods course, the topics herein will include linear, nonlinear, integer, multiple objective and stochastic optimization. Simulation topics will include both spreadsheet simulation and process simulation. The goals of the course are to: (1) provide advanced modeling skills in optimization and simulation; (2) provide skills in software packages used in business, such as the Analytic Solver Platform and Arena; (3) get practice on asking the right questions, on dealing with problem complexity, on critical thinking and on gleaning insights to complex problems.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050; MIN GRADE 'B'

BUSQOM 1715 - OPERATIONS MANAGEMENT INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of operations management issues or problems to which they have been introduced in other operations management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Letter Grade

BUSQOM 1720 - OPERATIONS MANAGEMENT INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The operations management internship provides business credits for project assignments that augment a professional operations management work experience.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUSQOM 1725 - GLOBAL SUPPLY NETWORKS AND MANUFACTURING CULTURES IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
The course provides students with the fundamentals of international supply chain methods with a special focus on Latin America and Uruguay. It will feature a 2-week study visit to Uruguay where students can place their understanding of those concepts within a cultural context. The course involves significant teamwork and allows students to complete an in-depth analysis of the global supply networks and manufacturing culture in Latin America with Uruguay as a reference point.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration
Course Attributes: Hourly Final

BUSQOM 1745 - SIX SIGMA THEORY AND PRACTICE

Minimum Credits: 3
Maximum Credits: 3
Six Sigma theory and practice has been designed to provide the student with: “strong theoretical knowledge of the six sigma green belt body of knowledge. Practical, hands-on, experience with the Six Sigma methodology. A Katz Six Sigma green belt certificate, for students earning a grade of “B” or better. Six Sigma is a disciplined, data-driven approach to process improvement aimed at the near-elimination of defects from every product, process, and transaction. Lean topics will be included in this course. Six Sigma utilizes the following five-phase problem solving methodology known by the acronym DMAIC: 1. Define the projects, the goals, and the deliverables to customers (internal and external). Describe and quantify both the defect and the expected improvement. 2. Measure the current performance of the process. Validate data to make sure it is credible and set the baseline. 3. Analyze and determine the root cause(s) of the defects. Narrow the causal factors to the vital few. 4. Improve the process to eliminate defects. Optimize the vital few and their interrelationships. 5. Control the performance of the process. Lock down the gains. To integrate theory and practice, students will be grouped in teams and work under the mentorship of a Six Sigma black belt on an industry client field project.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
BUSQOM 1760 - DATA MINING

Minimum Credits: 3
Maximum Credits: 3
Data mining is the process of extracting useful information and knowledge from a set of data. Mining is typically done on data sets too large to be analyzed by hand, but the same techniques are applicable to small, complex data. This course is an introduction to the most popular methods used in managerial data mining, and provides experience in using commercial software to explore real data sets. Models considered include those from statistics, machine learning, and artificial intelligence, such as discriminate analysis, logistic regression, clustering, neural nets, tree/rule induction, and association rule modeling. This course is methods-oriented, as opposed to being methodology-oriented, so students learn about when and how to use techniques and how to interpret their output rather than the details about how those techniques work. A laptop computer is required.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSQOM 1790 - SUPPLY CHAIN MANAGEMENT INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The supply chain management internship provides business credits for project assignments that augment a professional supply chain management work experience.

Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration

Quechua/Kichwa

QUECH 0101 - QUECHUA 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Global Studies, Latin American Studies

QUECH 0102 - QUECHUA 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0441 or QUECH 0101; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: DSAS Second Language General Ed. Requirement, Global Studies, Latin American Studies

QUECH 0103 - QUECHUA 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0442 or QUECH 0102; MIN GRADE: ‘C’ FOR LISTED COURSES  
Course Attributes: DSAS Second Language General Ed. Requirement, Global Studies, Latin American Studies

**QUECH 0104 - QUECHUA 4**

Minimum Credits: 3  
Maximum Credits: 3  
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0442 or QUECH 0102; MIN GRADE: ‘C’ FOR LISTED COURSES  
Course Attributes: DSAS Second Language General Ed. Requirement, Global Studies, Latin American Studies

**QUECH 0105 - QUECHUA 5**

Minimum Credits: 3  
Maximum Credits: 3  
With around 10 million speakers, Quechua is the most commonly spoken of the indigenous languages in South America. In this class, you will learn intermediate Language skills in order to further your communication in Quechua. You will also continue to learn about Quechua culture and Andean realities, building off of two previous years of Quechua study as well as the summer Pitt in Bolivia program. In addition to focusing on Quechua language and culture, we also will dedicate substantial time to Quechua linguistics. You will participate in the structure of the class, as this is a tailored course. The main goal of this intermediate course is for you to continue to develop the skills necessary to communicate in Quechua. These skills include listening, reading, speaking, and writing. Equally important for communication, you will also deepen your understanding of the various cultural, historical, and political contexts in which Quechua is situated. We will continue our exploration of the multiple Quechua varieties. You will develop your knowledge of Quechua linguistics to complement your research plans.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**QUECH 0106 - QUECHUA 6**

Minimum Credits: 3  
Maximum Credits: 3  
With around 10 million speakers, Quechua is the most commonly spoken of the indigenous languages in South America. In this class, you will learn intermediate Language skills in order to further your communication in Quechua. You will also continue to learn about Quechua culture and Andean realities, building off of two previous years of Quechua study as well as any experiences you have had in Quechua speaking communities. In addition to focusing on Quechua language and culture, we will dedicate time to Quechua linguistics. You will participate in the structure of the class, as this is a tailored course. The main goal of this intermediate course is for you to continue to develop the skills necessary to communicate in Quechua. These skills include listening, reading, speaking, and writing. Equally important for communication, you will also deepen your understanding of the various cultural, historical, and political contexts in which Quechua is situated. We will continue our exploration of the multiple Quechua varieties. You will develop your knowledge of Quechua linguistics to complement your language skills.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**QUECH 0111 - INTRODUCTION TO QUECHUA LANGUAGE IN BOLIVIA**

Minimum Credits: 3  
Maximum Credits: 3  
This study abroad course will provide a basic introduction to the Quechua language for students with no or very little background in Quechua. It does not take the place of QUECH 0101 - Quechua 1 taught on the Pittsburgh campus.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

**QUECH 0112 - CONTINUING QUECHUA LANGUAGE IN BOLIVIA**
Minimum Credits: 3
Maximum Credits: 3
This study abroad course provides students with some background in Quechua to continue their language study. It does not take the place of a regularly sequenced Quechua language course taught on the Pittsburgh campus.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

QUECH 0131 - INTENSIVE KICHWA IN ECUADOR 1

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory Kichwa language course for students with no or very little background in Ecuadorian Kichwa.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

QUECH 0132 - INTENSIVE KICHWA IN ECUADOR 2

Minimum Credits: 3
Maximum Credits: 3
This study abroad course is a continuation of QUECH 0131 Intensive Kichwa in Ecuador 1.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

QUECH 0133 - INTENSIVE KICHWA IN ECUADOR 3

Minimum Credits: 3
Maximum Credits: 3
This study abroad course is a continuation of QUECH 0132 Intensive Kichwa in Ecuador 2.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

QUECH 0134 - INTENSIVE KICHWA IN ECUADOR 4

Minimum Credits: 3
Maximum Credits: 3
This study abroad course is a continuation of QUECH 0133 Intensive Kichwa in Ecuador 3.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

QUECH 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

QUECH 1905 - UNDERGRADUATE TEACHING ASSISTANT IN QUECHUA

Minimum Credits: 1
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
QUECH 1909 - SPECIAL TOPICS IN QUECHUA

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

Rehabilitation Science

REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
The study of the nature of research and the applications of the scientific approach in the research procedures. The course focuses on concepts, design techniques and interpretations, as well as limiting factors and ethical considerations.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: (STAT 0200 or 1000 or 1020 or 1131) or (PSY 0201 or 0270); MIN GRADE: ‘C’ for listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH)  
Course Attributes: Departmental Final

REHSCI 1018 - SURVEY OF HEALTH AND REHABILITATION PROFESSIONS

Minimum Credits: 2  
Maximum Credits: 2  
The course will employ an interdisciplinary faculty team to introduce students to health science professions in physician assistant studies, physical therapy, athletic training, occupational therapy, speech language pathology and audiology, rehabilitation counseling, health information management, rehabilitation technology, emergency medicine, and prosthetics and orthotics.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Satisfactory/No Credit

REHSCI 1200 - HUMAN ANATOMY

Minimum Credits: 3  
Maximum Credits: 3  
This course uses lecture and laboratory experiences to teach the anatomical structures of the human body. Content focuses on gross human anatomy with particular reference to the musculoskeletal, nervous, cardiovascular and respiratory systems. Emphasis has been laid on application of knowledge of human anatomy in diagnostics of commonly encountered diseases/injuries. Students are encouraged to use their knowledge of anatomical structures learned in class to create such clinical scenarios as a part of learning.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: [(BIOSC 0150 or 0170 or 0715) or (BIOL 0110) or (BIOENG 1070)] and [(BIOSC 0050 or 0057 or 0058 or 0070) or (BIOENG 1070) or (BIOL 0101 or 0111)] or BIOSC 0190

REHSCI 1201 - HUMAN ANATOMY LAB

Minimum Credits: 1  
Maximum Credits: 1  
The course uses lecture and laboratory experiences to teach the anatomical structures of the human body. Content focuses on gross human anatomy with particular reference to the musculoskeletal, nervous, cardiovascular and respiratory systems. Emphasis has been laid on application of knowledge of human anatomy in diagnostics of commonly encountered diseases/injuries. Students are encouraged to use their knowledge of anatomical structures learned in class to create such clinical scenarios as a part of learning.  
Academic Career: Undergraduate  
Course Component: Credit Laboratory  
Grade Component: Letter Grade  
Course Requirements: CREQ: REHSCI 1200
REHSCI 1205 - HUMAN PHYSIOLOGY

Minimum Credits: 4
Maximum Credits: 4
This basic human physiology course covers general physiological processes, muscles, blood and lymph, body fluids, renal function, respiration, metabolism, and the nervous, gastrointestinal, cardiovascular and endocrine systems. Problem-based formats will be introduced with particular reference to those problems seen in clinical settings.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [(BIOSC 0150 or 0170 or 0715) or (BIOL 0110) or (BIOENG 1070)] and [(BIOSC 0050 or 0057 or 0058 or 0070)] or (BIOENG 1070) or (BIO 0101 or 0111)]; MIN GRADE: 'C-' for listed courses

REHSCI 1210 - NEUROSCIENCE

Minimum Credits: 4
Maximum Credits: 4
This course studies the basic structure and function of the central and peripheral nervous system. There is an emphasis on the effects of lesions of the nervous system on human function and disability.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (REHSCI 1200 and 1205) or (BIOSC 1250 or 1070) or (NROSCI 1250) or (NUR 0013 and 0003); MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS; BS-H; BPH)

REHSCI 1215 - EXERCISE PHYSIOLOGY

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the effects of exercise in preventing and treating disability, in optimizing the rehabilitation process, and in maintaining the health of those with disabilities. The course emphasizes the effects of exercise on the various body systems, including the cardiovascular, neuromuscular, and musculoskeletal, in individuals with disabilities.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (REHSCI 1205) or (BIOSC 1250 or 1070) or (NROSCI 1250) or (NUR 0013 and 0003); MIN GRADE: 'C-' for listed courses

REHSCI 1216 - EXERCISE PHYSIOLOGY LAB

Minimum Credits: 1
Maximum Credits: 1
Required lab component for REHSCI 1215 Exercise Physiology: This course focuses on the effects of exercise in preventing and treating disability, in optimizing the rehabilitation process, and in maintaining the health of those with disabilities. The course emphasizes the effects of exercise on the various body systems, including the cardiovascular, neuromuscular, and musculoskeletal, in individuals with disabilities.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PREQ: (REHSCI 1205) or (BIOSC 1250 or 1070) or (NROSCI 1250) or (NUR 0013 and 0003); MIN GRADE 'C-' for listed courses; COREQ: REHSCI 1215

REHSCI 1217 - ADVANCED HEALTH ASSESSMENTS AND EXERCISE PRESCRIPTION

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to teach students the knowledge and skills necessary for performing health assessments and designing exercise programs for a variety of populations. Students will learn how to perform health screening and how to properly assess fitness parameters such as body composition, cardiorespiratory fitness, muscular fitness, and flexibility. Students will also learn how to design and implement exercise programs for healthy individuals, as well as those with chronic health conditions or disease. The pathophysiology of the disease process will also be discussed. Potential populations of interest include active and sedentary adults, youth, older adults, pregnancy, osteoporosis, arthritis, cancer, cardiopulmonary diseases, obesity, eating disorders, and depression.

Academic Career: Undergraduate
REHSCI 1218 - EMERGING BIOMEDICAL TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide the students with an understanding of stem cell biology, tissue engineering, and related applications involved in rehabilitation sciences and regenerative medicine. The course material is designed to aid students considering a future as researchers in biomedical sciences laboratories or biotechnology research and development. It will provide digests of the latest research technologies and clinical applications in these fields. Students will be encouraged to synthesize concepts aimed to test solutions and therapies to improve human health by use of modern biomedical technologies. The lecture and discussion format gives students a broad background and the opportunity to apply critical thinking skills to recent published findings.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS

Minimum Credits: 2
Maximum Credits: 2
Course will cover the functional anatomy and biomechanics of the major joints of the human body and the application of mechanics to describe and analyze normal and pathological human movement. Students will be analyzing muscle function and joint motions involved in an exercise or functional activity, palpating muscle groups and bony landmarks, testing the strength of a muscle group, and demonstrating exercises to stretch or strengthen various muscles.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1200 and (PHYS 0101 or 0110 or 0140 or 0150 or 0174); MIN GRADE "C-" for all listed courses

REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB

Minimum Credits: 1
Maximum Credits: 1
Required lab component for rehsci 1220 kinesiology and biomechanics: course will cover the functional anatomy and biomechanics of the major joints of the human body and the application of mechanics to describe and analyze normal and pathological human movement. Students will be analyzing muscle function and joint motions involved in an exercise or functional activity, palpating muscle groups and bony landmarks, testing the strength of a muscle group, and demonstrating exercises to stretch or strengthen various muscles.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1200 and (PHYS 0101 or 0110 or 0140 or 0150 or 0174); MIN GRADE ’C’- for all listed courses; CREQ: REHSCI 1220

REHSCI 1225 - INTRO TO REHABILITATION SCIENCE

Minimum Credits: 1
Maximum Credits: 1
This course will introduce students to the criteria on which they will be judged in the graduate school application process and topics related to professionalism. Recommended readings will prepare the student to develop basic skills for reading and interpreting research articles. Various researchers and clinicians from within the University of Pittsburgh and the University of Pittsburgh Medical Center will be invited to share their research studies and/or clinical experiences and perspectives.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1230 - REHABILITATION ETHICS

Minimum Credits: 2
Maximum Credits: 2
This course explores ethical issues of: human value development, decision making, basic principles of health care, the nature of rights, confidentiality and management of health care information, professional gate keeping as a function of role fidelity, autonomy and paternalism, justice and the allocation of scarce resources, withholding and withdrawing life support, euthanasia, abortion, AIDS and health care practice, genetic science, and trans-cultural health. Students will work in teams to create presentations from these various topics for their colleagues. This is a highly interactive program of instruction and requires student be actively engaged in the learning process.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

---

**REHSCI 1235 - MEDICAL TERMINOLOGY**

- Minimum Credits: 1  
- Maximum Credits: 1  
This course is designed to introduce students to the fundamentals of medical terminology. It includes word structure of basic medical and surgical terms and procedures, body parts and organs, body systems, selected medical specialties, and commonly used medical abbreviations and symbols. This course is a self-directed learning course, using a programmed text, with online quizzes (through Blackboard) and a final exam administered in a classroom.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

---

**REHSCI 1240 - ISSUES IN HEALTH CARE**

- Minimum Credits: 3  
- Maximum Credits: 3  
This course is intended as a survey of current health care issues in the United States and will focus on major trends, issues and problems facing health care professionals and policy makers. In particular, an overview of the US health care system, the role of government, its payers (public and private), health policy, regulatory and accrediting bodies, and an analysis of timely challenges and issues are discussed. Specific topics covered are intended to be representative (not all inclusive) of public and/or service delivery issues widely discussed in current literature. Class participation and assignments will focus on application of principles discussed to current and emerging issues.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

---

**REHSCI 1245 - HUMAN DEVELOPMENT**

- Minimum Credits: 3  
- Maximum Credits: 3  
This course follows the development of individuals and highlights the role of rehab science professions from conception until the end of life. It combines theory, research, and practical applications from developmental psychology. Lecture topics include genetic influences on development; prenatal and birth factors; physical, cognitive, social, personality, and cultural variables that influence development across the life-span.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: PSY 0010 or 0101 or 0200; MIN GRADE "C-" for all listed courses

---

**REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE**

- Minimum Credits: 4  
- Maximum Credits: 4  
This course has been designed as an extension of Physiology, in an effort to provide pre-clinical students with a foundational scientific knowledge and conceptual understanding of pathophysiological processes. The course fundamentally focuses on general mechanisms of disease that are typically applicable to multiple body regions and/or organ systems. In addition to these general mechanisms, focus is also afforded to the pathogenesis of systemic conditions, again, due to their influence on the patient as a whole.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: REHSCI 1205 or (BIOSC 1250 or 1070) or NROSCI 1250 or (NUR 0013 or 0003); MIN GRADE "C-" for all listed courses; PLAN: Rehabilitation Science (BS or BS-H or BPH)
REHSCI 1265 - PHARMACOLOGY IN REHABILITATION

Minimum Credits: 3  
Maximum Credits: 3  
This course serves as a foundation to general pharmacology, and begins with lectures on the general principles affecting drug response: drug absorption, distribution, metabolism and excretion. The major drug categories will then be discussed, with an emphasis on drug classification, mechanism of action, side effects (especially those that are predictable), and significant drug interactions. At the completion of this course, the student will be able to recognize and describe the action of prototype drugs in each major drug category, compare and contrast their action with other drugs in each category, and explain the role of those drugs in the mitigation, treatment, cure or prevention of disease in humans.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PREQ: REHSCI 1205 or (BIOSC 1250 or 1070) or NROSCI 1250 or (NUR 0013 and 0003); MIN GRADE "C-" for all listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH) or Athletic Training (BS, BSH, BPH)

REHSCI 1275 - INTRO TO OCCUPATION SCIENCE

Minimum Credits: 3  
Maximum Credits: 3  
This course provides the foundation for understanding the role of activity and occupation in life-span human development by first considering human behavior in the absence of activity/occupation and then in the presence of activity/occupation. Consideration is given to the influence of inactivity and immobility on human systems (biologic, psychological and psychosocial) including knowledge of the disuse syndrome and the deleterious effects of living in stimulus deprived environments (such as nursing homes). The course also examines human behavior in the presence of activity/occupation including the role of movement and purposeful activity (occupation) as determinants of health.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY

Minimum Credits: 3  
Maximum Credits: 3  
Topics covered in this course include individual and societal views of persons with disabilities; both historical and current trends are discussed including disability rights legislation, independent living options, access to everyday living activities, education, employment, assistive technology, and the need for ongoing advocacy, as described by various guest speakers with disabilities.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Minimum Credits: 3  
Maximum Credits: 3  
This course provides basic skills in reading, reviewing, and critiquing the research literature in the rehabilitation sciences. These skills will be applied to the relevant literature in diagnosis, prognosis and intervention strategies within the spectrum of rehabilitation science. Students will learn to generate relevant research questions and utilize an evidence-based medicine approach to the review, appraisal and synthesis of current research articles within the fore-mentioned areas. The course will culminate in an individual review project aimed at the development and resolution of one particular research question, using the best, current available literature. A basic understanding of research methods, design and or statistics is required.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH); PREQ: REHSCI 1000 or PSY 0035 or SOC 0230

REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY

Minimum Credits: 3  
Maximum Credits: 3  
This course will review the natural progression of several age and non-age related physical disabilities such as Alzheimer's and Dementia, Parkinson's disease, CHF, COPD, DM, Spinal Cord injury, and Multiple Sclerosis (subject to change). When possible, individuals with disabilities
are invited to participate in classroom discussions to share their first-hand experiences of living with a disability. This course will likely include an observational experience outside the classroom. This may include traveling to someone's home with a disability and/or their place of employment via public or a student's private mode of transportation. Additional details will be reviewed on the first day of class.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BPH, BPH)

REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION

Minimum Credits: 3
Maximum Credits: 3
This course provides a forum for exploring issues of diversity and multiculturalism as they affect both daily interactions and professional practice in health care and rehabilitation. In this course students will build a greater understanding of: personal culture; how factors of culture and diversity influence an individual's health, living needs, and response to stress; international concepts of disability and health & rehabilitation services; and globalization and its relationship to rehabilitation. In addition, students will learn how to apply concepts of cross-cultural competence and intercultural communication to clinical services and program development.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1295 - FIELD EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Designed to fulfill the assistive technology in rehabilitation certificate field experience requirement. This course provides an opportunity to interact with assistive technologies, persons who use assistive technologies and with assistive technology researchers and providers. The student will work with the Field Experience Coordinator to make arrangements with a clinical facility and will work with a Faculty Advisor to develop a set of objectives for this experience. The student will be expected to participate a total of 45 hours per credit hour sought. Grade will be determined by Faculty Advisor based on evaluation by the clinical facility and student's internship journal, a written summary of the clinical experience, and if more than 1 credit sought, a research paper. Students are required to complete online training modules and a physical exam, including documentation of up-to-date immunizations and TB test prior to registration. Other policies may apply based on the chosen field experience site.

Academic Career: Undergraduate
Course Component: Clinical
Grade Component: H/S/U Basis

REHSCI 1296 - ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Designed to fulfill the assistive technology in rehabilitation certificate field experience requirement. This course provides an opportunity to interact with assistive technologies, persons who use assistive technologies and with assistive technology researchers and providers. The student will work with the Field Experience Coordinator to make arrangements with a clinical facility and will work with a Faculty Advisor to develop a set of objectives for this experience. The student will be expected to participate a total of 45 hours per credit hour sought. Grade will be determined by Faculty Advisor based on evaluation by the clinical facility and student's internship journal, a written summary of the clinical experience, and if more than 1 credit sought, a research paper. Students are required to complete online training modules and a physical exam, including documentation of up-to-date immunizations and TB test prior to registration. Other policies may apply based on the chosen field experience site.

Academic Career: Undergraduate

Grade Component: H/S/U Basis
Course Requirements: PLAN: Assistive Technology in Rehab (ATR-CR2)

REHSCI 1297 - CROSS-CULTURAL INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Designed to provide an opportunity to fulfill the RS program global citizenship requirement through extensive cross-cultural immersion and independent study. Students will draw from previous cross-cultural experiences or will work with their independent study faculty advisor to identify an appropriate community service agency with which to volunteer. Additional academic work will help student identify the characteristics of their own culture and learn about the culture of the community in which they are working, as well as the issues affecting its members' health including understanding and treatment of disabilities. Academic credits will be assigned according to number of hours spent in the community and academic work completed.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1299 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth and area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.

Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

Religious Studies

RELGST 0025 - MAJOR BIBLICAL THEMES

Minimum Credits: 3
Maximum Credits: 3
An examination of the Jewish and Christian experience of God and the coherent use of major themes throughout the Jewish and Christian Bibles.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0083 - MYTHOLOGY IN THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
This course examines in cultural context the traditional stories—myth, legend, and folktale—of the ancient Greeks and Romans. Theories drawn from various disciplines are critically evaluated. Attention to connections with ritual practice and to expression in daily life, art, architecture, etc.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0084 - MYTH IN ANCIENT WORLD/WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking RELGST 0083 as a writing course.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST

Minimum Credits: 3
Maximum Credits: 3
The myths of the ancient Near East are among the earliest written interpretations of the world and human existence. They are also among the most enduring, although they have only been unearthed in the last 200 years. In this course, we read myths from ancient Mesopotamia, Ugarit, and Israel. We study the myths as literary works, representative of the ideas and issues of the original cultural context in which they were shaped. These myths offer insight into the religious mentality of the ancient Near East, as well as societal and political issues. We examine themes such as the presentation of the life of the gods, the relationship between the human and divine worlds, the issues of mortality and immortality, existence, fertility, kingship, and ethics. The primary goal of this course is to better understand these myths as they existed and developed in their ancient settings. Of course, because the myths are expressions of human thought, we may find that in studying them we also come to better understand ourselves.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**RELGST 0105 - RELIGIONS OF THE WEST**

Minimum Credits: 3  
Maximum Credits: 3  
This course is a historical introduction to the religious traditions that developed in ancient Near East and the Mediterranean. Our major emphasis is on the history of the religious traditions that emerged in late antiquity which continue to as the major monotheistic religions: Judaism, Christianity and Islam. We focus on key concepts, historical developments, and contemporary issues. Throughout the course, we also examine interactions among these religious traditions and will make use of documentary film and sacred art to illustrate. In the final segment of the course we examine the issue of secularization and the rise of the category of the non-believer, or "none." The course also serves as an introduction to the academic study of religion and provides a foundation for further coursework in Judaism, Christianity, and Islam. No prior knowledge of any of the religions studied is expected or assumed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

**RELGST 0115 - BIBLE AS LITERATURE**

Minimum Credits: 3  
Maximum Credits: 3  
This introductory course acquaints students with what is in the bible and provides background information drawn from various disciplines about the elements and issues that give it its distinctive character. Attention is necessarily given to its religious perspectives, since they govern the nature and point of view of the biblical narratives, but no specific religious view is urged.  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: LG/SNC Elective Basis  

**RELGST 0135 - CHRISTIAN BIBLE**

Minimum Credits: 3  
Maximum Credits: 3  
An introduction to the text of the Christian bible.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**RELGST 0205 - INTRODUCTION TO JUDAISM**

Minimum Credits: 3  
Maximum Credits: 3  
Major themes of the Jewish tradition from biblical to modern times are explored.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**RELGST 0283 - US AND THE HOLOCAUST**

Minimum Credits: 3  
Maximum Credits: 3  
With increasing interest in the Holocaust in Europe, this course focuses on the American side of the Atlantic - on issues of anti-Semitism and anti-immigrant sentiment in this country and on America's response to the holocaust. We will also look at some post-Holocaust issues as well.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
RELGST 0305 - CLASSICS OF CHRISTIAN THOUGHT

Minimum Credits: 3
Maximum Credits: 3
An introduction to some of the major Christian thinkers and their principal themes in the medieval and modern period.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0405 - WITCHES TO WALDEN POND

Minimum Credits: 3
Maximum Credits: 3
Why did the prosecution of witches become a priority for the Puritan rulers of New England? What religious ideals convinced Henry David Thoreau to lead a life 'off the grid' in Walden Pond? How did non-Protestant immigrants make their way in the new nation? And how did religious rhetoric undergird the debates over slavery that led to the civil war? These are some of the questions that we will explore in this course, which traces the religious history of the United States from the era of colonization to through the Civil War.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0415 - RELIGION IN MODERN AMERICA

Minimum Credits: 3
Maximum Credits: 3
The course examines the impact of religion as a moral, intellectual, and institutional force in America from 1865 to the present. Despite claims that the nation was becoming less religious, at least seven new religions were founded in the U.S. After the civil war, while millions of migrants from southern and eastern Europe brought large numbers of Catholics and Jews to challenge the dominance of protestants. We seek to understand how religions have both shaped and reflected economic, social, and cultural conditions in the united states. The course combines lecture with student discussion of religious conflicts and critical moments of cultural change, using primary sources and secondary interpreters. We also engage documentary films, slides, and local museums and historical sites. Major emphases include religious responses to intellectual, scientific, and economic change, including biblical criticism, evolutionary theory, immigration, urbanization, industrialization, Marxism, fascism, racism, and feminism. We conclude with questions about the present day: is the united states an exception for its high levels of religious behavior or is secularism on the rise?
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0417 - THE BLACK CHURCH

Minimum Credits: 3
Maximum Credits: 3
An introduction to the course and historical development of the black church in America, its contribution to the social and religious progress of black people, black leadership, and struggles including the civil rights movement, black theology and other social movements.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0435 - RELIGION, FILM AND LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Alexis de Tocqueville famously called the United States "a nation with the soul of a church." Ironically, his observation refers to a nation whose constitution forbids the establishment of any official religious identity (while simultaneously allowing for "free," voluntary, religious "exercise"). The result--a vibrant spiritual marketplace characterized both by diversity and innovation and a clinging to traditional identities--has marked American culture and the broader stories it tells about itself. In this course we'll read closely in "secular" literary texts (including novels, graphic novels, short stories, poetry, drama, film, and music) with some attention to short, relevant readings in religious thought, practice, and history, aiming for two related objectives: 1) to observe the overt ways religions appear in and contribute to these texts--symbolically, rhetorically, schematically, etc.--and 2) to consider how presumably "secular" literature functions religiously, giving form and coherence to the ambiguities of American experiences, identities, and crises that remain in flux, constantly under revision. Readings will include both "classic" and more contemporary works by Gwendolyn Brooks, Willa Cather, Mark Twain, Flannery O'Conner, William Styron, Oscar Hijuelos, Art Speigelman, August Wilson, James
McBride, the Cohen Brothers, and/or others.

**RELGST 0454 - RISE OF ISLAM: 500-1200 CE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course seeks to impart an understanding of the Islamic tradition by exploring the religion's formative period. It integrates two intertwined themes: (1) early Islamic empires as geopolitical formations; and (2) the development of ideas - from ritual to philosophy to law. The first centuries of Islam are fascinating for many of the same reasons they are complex and even controversial: Surviving primary sources are fragmented, partisan, and often retrospective; a tremendous range of voices competed to define the new religion; and nearly all subsequent Muslim thinkers would harken back to this period to legitimate their own positions. The central goal is to develop an understanding of the diversity of voices in this early period and consider why certain conceptualizations of religion displaced others; and then follow those voices beyond the Arabian Peninsula to examine manifestations in the North African and Central Asian borderlands.

---

**RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course aims to introduce students to Islamic and Middle Eastern History from the time of the Prophet (ca. 600 C.E.) to the Iranian Revolution in 1979. We will proceed chronologically, focusing mainly on political events. However, a special emphasis will be given to the formation of the Islamic tradition, its evolution across different regions and cultures in time, and its interaction with other traditions. In the modern era, we will particularly explore the Islamic societies' political, cultural, and military encounter with the rising power of the West in the Middle East. In addition to the several historical processes and developments such as modernization, nation-building, Islamic fundamentalism and globalization, which have shaped the history of the Middle East in the last two centuries, our class discussions will also touch on the main theoretical perspectives that have stamped the studies of Islam and the Middle East. Here, concepts such as orientalism, defensive development, and modernity will constitute our main focus.

**RELGST 0505 - RELIGION IN ASIA**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course serves as an introduction to the major religious traditions of South and East Asia. During the course of the semester, we encounter Hinduism and Jainism; the native Confucian, Daoist (Taoist), and popular traditions of China; and the Shinto, folk and new religions of Japan. Buddhism, which originated in India but later spread to East Asia, is examined in its relation to the history of both Chinese and Japanese religions. We approach these traditions through lectures and discussion based on Chinese classical and popular literature, secondary scholarship, and films, which inform us about cultural and historical context, beliefs, practices, and personal experience. In the process we expect to learn something about the ways in which non-Western religious traditions see themselves and their world on their own terms, and to see how/if they can complement our own worldviews.

**Academic Career:** Undergraduate

---

**RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Words have consequences. How a society defines "religion" and "culture" have much to say about how they balance individual freedom and
collective responsibility. This course focuses on how religion has been and is practiced in East Asia in modern and contemporary times. We begin with an overview of the major religions in the region (e.g., Confucianism, Daoism, Buddhism, Shinto, folk traditions), and examine various themes to help us learn how religion influences the lives of individuals and the wider societies in which they live. Themes dealt with include the relationship between religion and politics and law; nationalism, terrorism, and secularization; gender, sexuality, and the family; healing, the environment, and ethical behavior; and the life cycle and ritual calendar year. By looking at how these issues unfold in modern China and Japan and at their global significance enable us to better understand how religion shapes our world.

**Academic Career:** Undergraduate

**RELGST 0760 - RELIGION AND RATIONALITY**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Does--and should--religion have a role in the secular sphere? How does culture shape religion? Is faith compatible with reason? This course critically examines how both religious and nonreligious thinkers have navigated the question of the relation between faith and reason throughout the history of Western thought. Special attention will be paid to evaluating how the relationship between religion and philosophy developed within Christianity, Judaism, and Islam. A further emphasis will be given to how the relationship between religion and philosophy shapes the our approach to myth, race, gender, and science.  
**Academic Career:** Undergraduate

Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

RELGST 1100 - ISRAEL IN THE BIBLICAL AGE

Minimum Credits: 3
Maximum Credits: 3
This course explores the history and development of the people of Israel in ancient times. What do we know about the Israelites and how do we know it? Using biblical texts and archaeological remains, students will learn about everyday life in ancient Israel, the role of class and gender, life-cycle events, religious festivals, political institutions, systems of belief, and famous personages in history and lore. The trajectory of the course will begin with the Near Eastern origins of the people, continue through the rise of the Israelite and Judahite monarchies, and end with the Second Temple commonwealth of Judea in the Persian and Hellenistic periods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1102 - THE HISTORY OF GOD

Minimum Credits: 3
Maximum Credits: 3
God has a history. In the earliest days of that history, God was worshipped as one of a plethora of deities controlling various spheres of cosmic activity or the human world. Students in this course will learn about this ancient pantheon - how gods functioned in society and how their presence was experienced by those devoted to them. They will then trace the evolution of the God of Israel from a mountaintop deity of the southern Levant in the late second millennium BCE to a supreme deity worshiped by a small group of absolute monotheists based in Jerusalem in the mid-first millennium BCE. Students will become more sophisticated readers of biblical texts in the process. The sources of the Hebrew Bible reflect not a homogeneous monotheism, but rather a diverse set of belief systems tending toward henotheism or even polytheism. By appropriating and reinterpreting the religious myths of their neighbors, the Israelites arrived at a character of the divine that has proven problematic to many contemporary theologians, particularly on issues of LGBT rights, women's rights, and the environment.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1112 - BIBLE AS LITERATURE 2

Minimum Credits: 3
Maximum Credits: 3
This course continues Bible as Literature, and students will examine various forms of biblical literature including prophecy, apocalyptic literature, wisdom literature, psalms and poetry, New Testament epistles, and narrative materials not covered in the earlier course. We will consider these works in terms of literary form and style, and in their origin historical and cultural contexts. We will also read non-biblical texts from the ancient world that help us to better understand the Bible as a literary work.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

RELGST 1120 - ORIGINS OF CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3
This course presents a historical-critical investigation of Christian origins. Special attention is paid to varieties of 1st century Hellenistic and Palestinian Judaism within the Greco-Roman world. Primary readings include selected Biblical passages and apocrypha, 1st century historians and philosophers (Josephus, Tacitus, Suetonius, and Philo), the New Testament corpus (including Paul and the Pastorals), and selected readings from the Dead Sea Scrolls. In addition there will be assignments from various modern New Testament critics, historians, and theologians.
Academic Career: Undergraduate

RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY
This course will examine the many different and often competing forms of Christianity that existed during the first five centuries of our common era. We will include an historical survey of Mediterranean culture and society in the historical Roman Empire to help us understand the ways in which Christianity developed in relation to the philosophical, sociological, theological, and political environment of this period. We will also focus on the contribution of the early varieties of Christianity to modern Western views of the relationship between the individual body and society. The literature of this period represents a broad variety of beliefs and practices ranging from philosophical views of god and matter (and the nature of each), to notions of life-long celibacy.

**RELGST 1135 - ORTHODOX CHRISTIANITY**

This course is designed as an overview of the history, teachings and rituals of Orthodox Christianity in its multinational context. Geographically, this context refers primarily to southeastern Europe (aka the Balkans), Russia and the coastal areas of the eastern Mediterranean. The course examines specific historical experiences of Orthodox Christians, starting with Byzantine empire, through major historical shift in the life of the Christians under Ottoman rule and, finally, to the diverse experiences of various autocephalous churches under communism. Through lectures, readings, discussions, films, and a field trip to a local Orthodox church, students will gain an insight into and broaden their awareness of the multifaceted world of Orthodox Christianity, its spiritual practices, rich artistic, musical and ritual expressions.

**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Cross-Cult. Awareness General Ed. Requirement, Medieval & Renaissance Studies, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS**

Why is there evil in the world and who or what is responsible for it? How can we reconcile a belief in a good God with the existence of evil? Even without the theological underpinning, in secular terms, evil poses a problem about the worlds intelligibility. This course undertakes a historical analysis of the various ways in which ancient and medieval minds pondered these questions and their solutions to the problem. We begin our survey with the monism of Hebrew Scriptures then move to the changes brought on by Persian culture and the Hellenization of the Mediterranean basin after the conquests of Alexander with the introduction of Dualism. Dualism is a theory or system of thought that recognizes two independent and mutually irreducible principles, which are sometimes complementary and sometimes in conflict. The course focuses on the polarities of "good" and "evil" (and the methods by which "evil" is defined), specifically highlighting the evolution of the emergence of the Devil in Judaism and Christianity and the social construction of good and evil in the Western tradition. At the same time, we consider the rationalization of "our" good against the evil of "others," or the issue of religious intolerance.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** SCI Polymathic Contexts: Soc/Behav. GE. Req.

**RELGST 1143 - DEATH IN THE NAME OF GOD**

The roman empire understood Christianity to be an illegal and superstitious movement, and a threat to the traditions of their ancestors. Subsequently, many Christians were charged with the crime of "atheism," and put to death, as atheism was equivalent to treason. Who were these people who voluntarily embraced their own deaths as a vindication of their faith, and how did Rome justify their extinction? How were they understood by their pagan and Jewish neighbors? This course explores the cultural, political and religious context of Christian martyrs, beginning in second temple Judaism. We then analyze their stories (martyrologies), imperial transcripts and legislation, and examine the later (Christian) imperial legislation against "heretics." this background helps motivate discussions of contemporary "martyrs," such as "suicide bombers," the political ramifications of such behavior, who gets to decide if someone is a martyr, and reactions to the public spectacle of dying as the ultimate religious act.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
RELGST 1144 - CLASSICAL MYTHOLOGY AND LITERATURE

Minimum Credits: 3  
Maximum Credits: 3

This course examines how authors of classical antiquity used the traditional figures and stories of their culture's mythology as material for works of literature.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

RELGST 1145 - GRECO-ROMAN RELIGIONS

Minimum Credits: 3  
Maximum Credits: 3

This course will introduce students to religious texts and traditions in a formative era of Western civilization and culture. Our focus will be on the variety of religious expression in Greco-Roman culture, which flourished in the geographical area of the Mediterranean basin during the first five centuries of the common era. We consider debates about nature of the gods and access to them (through oracles, rituals, and magic), the emergence of the idea of the holy person, and a variety of religious traditions as expressed in prayer, ritual, and art, and religion and politics.

RELGST 1148 - RELIGIONS OF ANCIENT EGYPT

Minimum Credits: 3  
Maximum Credits: 3

This course introduces students to ancient Egyptian religious thought and practice with its massive temples, multitude of gods and goddesses and fascinating funeral rites. We explore the mythic cycle of Creation and the Osiris cycle of betrayal, revenge, death and rebirth, as well as the place of myriad local and minor deities within Egyptian mythology. We also consider the dynamics of the "monotheistic" revolution of Akhenaton. In the historical and cultural context of ancient Egypt, students encounter the interaction of sacred and secular, and the relationship between state cults and private worship by nobles and commoners alike. A special feature of the course includes group projects to design educational materials for the 'Egyptian Exhibit' for the Carnegie Museum. To that end, the course includes a session at the Carnegie Museum of Natural History.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD

Minimum Credits: 3  
Maximum Credits: 3

In many cultures, people sometimes ask fundamental questions about their existence, including, "what happens after we die?" This course will focus on the evolution of beliefs and rituals related to death and the afterlife in and around the ancient Mediterranean basin, including Egyptian, Greek, Etruscan, and Roman cultures. Using an interdisciplinary approach, we will combine methodologies from anthropology, classics, history, and religious studies. Topics to be covered include myths of the afterlife, books of the dead, magic and death rituals, funeral practices and paraphernalia (disposal of the dead), cults of the dead, divinization, heaven and hell, judgment, and the impact of christianization on the ancient understanding of death.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION

Minimum Credits: 3  
Maximum Credits: 3

The holy city of Jerusalem is at the heart of the western religious imagination and of contemporary political conflict in the middle east. Traditionally it has been a center of religious pilgrimage, home to Israeliite kings and Islamic caliphs. Today it is a cutting-edge urban center marked by stunning demographic diversity, a rapidly expanding economy, and an intractable political crisis. In this course, we will examine the history of the city-from its earliest days to today-with an eye toward its religious significance in Judaism, Christianity, and Islam. Special attention will be given to
Jerusalem's changing urban fabric: its architecture, neighborhoods, natural resources, economy, and religious institutions.

**RELGST 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Is archaeology in a place like Israel-Palestine an objective science? In this course, we explore how past and present are linked as nation-states and religious communities utilize the archaeological record to mold identities and to forward certain narratives. Our focus will be on the major archaeological sites of Israel-Palestine, particularly in Jerusalem and its environs. We will explore the political and religious issues that have emerged from or surround their excavation. Archaeology in the Holy Land has long been driven by a desire to shed light on - or even authenticate - the Bible, while the "exotic Orient" was explored in the 19th and early 20th centuries through western expeditions and excavations that served to further colonial interests. These religious and political motivations persist even if their manifestations have shifted with time. Through site tours, museum visits, student-led discussions, talks with local experts, and even a day participating in an archaeological excavation, students will gain direct experience with the places that have aroused controversy because of their problematic relationship to biblical and other ancient texts and/or because of their location in politically contested space.

**RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers the development of Classical Judaism from the Second Temple Period, beginning with the end of the Babylonian Exile in the 6th century BCE, and continues up through the emergence of Rabbinic Judaism, culminating with the redaction of the Babylonian Talmud in the 6th century CE. We cover both the major historical trends as well as the major religious developments. The course also introduces students to the major Jewish texts of both the Second Temple Period and the Rabbinic Period, emphasizing close readings of primary texts.

**RELGST 1240 - JEWS AND THE CITY**
Comedian Lenny Bruce riffed in 1963 that "If you live in New York or any other big city, you are Jewish. It doesn't matter even if you're Catholic; if you live in New York you're Jewish." In this course, we will discover why Lenny Bruce -- and so many other observers of Jewish life -- came to understand urbanity as a core component of the Jewish experience. We will begin our study of the Jewish encounter with urban life in the 19th century, as millions of Eastern European Jews migrated from the small villages of their birth to cities across the globe. This course will trace this Eastern European Jewish diaspora to urban destinations around the world, before training its lens on the Jewish encounter with American cities. We will pay close attention to how patterns of Jewish urbanization changed regionally and over time; how urbanization affected Jews' home-life, leisure time, religious practices and occupational choices; how differences in gender and class affected Jews' experiences in urban spaces; and how Jews interacted with other ethnic groups in diverse, urban environments. Delving into the history, built environment, and archival sources pertaining to the Jewish experience in Pittsburgh will provide us with a dynamic case study for this crucial relationship between Jews and the city.

**RELGST 1241 - GENDER AND JEWISH HISTORY**

Minimum Credits: 3
Maximum Credits: 3

How did a Jewish teenager named Henriette Herz become the belle of Berlin high society in the late 18th century? Why did 19th century Zionist thinkers like Theodor Herzl and Max Nordau think it so important to transform Jewish men into 'muscle Jews'? why did ray frank, a Jewish woman from San Francisco who did not think that women should be rabbis, feel compelled to lead the first high holiday service ever held in Spokane, Washington? And how have trans* Jews challenged the conventions of contemporary Jewish life? These are some of the questions that we ask in gender in Jewish history, a course that places gender and its effects at the center of Jewish modernity. We take an international approach to this history, traveling through Europe, the Americas, and the middle east to show how Jews negotiated gender identity and gender roles in numerous contexts and under varying political and social circumstances. In exploring such themes as religious practice, politics, education, anti-Semitism, work, and family, we see how gender indelibly marked every aspect of Jewish life over the past two hundred years.

**RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD**

Minimum Credits: 3
Maximum Credits: 3

Were we examine the specific challenges that the modern period posed to existing Jewish life and the nature of the responses made by Judaism to those challenges.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**RELGST 1252 - HOLOCAUST HISTORY AND MEMORY**

Minimum Credits: 3
Maximum Credits: 3

The holocaust - that is, the genocide of six million Jews in Nazi-occupied Europe during World War II - was a critical event of the early twentieth-century that continues to resonate today. Our historical survey will look at the holocaust primarily through the experiences of its Jewish victims, though we will discuss some of the other groups, such as the roma, disabled people, and gay men, who were also targeted and systematically murdered by the Nazis. Additionally, we will think about the perpetrators of the holocaust and the ideologies that led to the genocide, such as racism, nationalism, and antisemitism. Finally, we will move beyond the history of the holocaust to think about the ways that this event has been remembered and reconstructed by survivors, nations, institutions, museums, the arts, popular culture and the media. Looking at how institutions here in Pittsburgh commemorate the holocaust will offer us local, concrete examples of how people continue to grapple with this history.

RELGST 1258 - ISRAELI AND PALESTINIAN LITERATURE

Minimum Credits: 3  
Maximum Credits: 3  
Reading literature from places of conflict provides an opportunity to go beyond headlines and gain insight into the day-to-day existence, desires, imaginings, and perspectives of the people who live there. Reading literature also reveals how religious values and practices become a part of everyday culture and how those values are embraced or challenged. This course will introduce students to the literature produced by Israeli and Palestinian authors, with a focus on how contemporary issues in Israeli and Palestinian society are depicted by writers from each culture. Topics will include: how these writers construct place; the role of religious texts in literature; conflicts and community within each society; how literature helped shape an Israeli national consciousness and a Palestinian national consciousness; how Israeli and Palestinian writers imagine the other; and the role of the Shoah in Israeli literature and the Nakba in Palestinian literature. The course will equally focus on developing students' academic and reflective writing skills. Students will produce a combination of literary analysis and self-reflective writing that uses techniques of creative nonfiction. Together, these writing assignments will help students respond to both the course texts and the cultural experience of studying in Israel-Palestine.

RELGST 1280 - MODERN AND CONTEMPORARY JEWISH THOUGHT

Minimum Credits: 3  
Maximum Credits: 3  
This course will introduce students to the varieties of Jewish thought, which developed out of the 19th and 20th centuries and to the present day. After exploring the historical context of the philosophical legacy of Jewish thought, we will consider how Jewish intellectuals sought to reimagine their Jewish faith and Jewish identity in response to various concerns in the 19th and 20th centuries. Specifically, we will analyze Jewish responses to modernity and secularism, Jewish engagement with Western culture and Christianity, political theory (e.g., Marxism) and matters of social justice, Jewish feminism, and the prospect of ethics and religious faith after the Holocaust.

**RELGST 1360 - INTRODUCTION TO THE RENAISSANCE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The idea of the Renaissance is central to Western culture. Many of our values and tastes devolve from—or consciously react against—patterns that were established or reinterpreted five hundred years ago. The student who explores the renaissance, therefore, gains hold of one of the keys of Western civilization. He or she also acquires practice in critical reading, discussion, and the written expression of ideas.  

**RELGST 1370 - GLOBAL CHRISTIANITY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course takes Christianity as a prism through which to consider the origins and growth of global religions. Christianity has tried to achieve a global status since its inception in the ancient Mediterranean world in the first century CE. Stemming from Paul's fateful decision to evangelize the Gentiles, Christianity has long sought to achieve a global network of believers, who now comprise about 20% of the world's population. We will study Christian globalization in the twentieth and twenty-first centuries and focus on two Christian traditions, Catholicism and Pentecostalism, as examples of religions that have deliberately and successfully globalized. We will ask if the contemporary values of and pluralism relativism are good for religions and religious people. And, where religion is no longer a powerful cultural force, what are the prospects for a purely humanitarian approach to common problems in a globalizing world?  

**RELGST 1372 - CATHOLICISM IN THE NEW WORLD**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The course will examine the history of the Roman Catholic church since 1492 in the Americas using various moments of internal crisis or external conflict as focal points for study. Topics will include: missionary and military contact with New World indigenous populations after 1492; the
minority situation of Catholics in the new United States; the Irish famine and its global consequences; conflicts between Catholic ethnic groups; the impact of Catholic support for fascist regimes in the 1930s and 1940s; counter cultural forms of Catholicism (conscientious objectors, civil rights activists, pacifists); Vatican ii and its impact; liberation theology, Marxism and structural reform in Latin America; shifting theological positions on social and moral issues; the current sexual abuse crisis; the pope Francis effect. While the emphasis will rest upon the social, economic, and political dimensions of Catholic history, the course will also address the aesthetic and cultural legacy of Catholicism including sacred architecture, music, and the arts, in elite and popular forms.

RELGST 1380 - RELIGION RIGHT NOW: MEDIA AND RELIGIOUS NEWS IN CONTEMPORARY AMERICA

Minimum Credits: 3
Maximum Credits: 3
It is apparent that Americans devote enormous media attention to the coverage of celebrities, movies and sports, but deal much less skillfully with news coverage of religion. Yet, a glance at any daily news source, print or digital, reveals the pervasiveness of news that involves religious beliefs, conflicts, and practices, and that requires basic knowledge of religious traditions. The purpose of this course is to develop student skills at reading and interpreting current news stories about religious topics in print and visual media (newspapers, journals, blogs, polls, and television) in order to increase understanding of important religious issues in the contemporary United States, including American coverage of international religious events and leaders. Instruction will include lecture, discussion, film, and small group exercises to report on current events.

Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

RELGST 1402 - HEALTH AND RELIGION

Minimum Credits: 3
Maximum Credits: 3
What is health??an absence of illness or something more? What is healing??a physical process or something that is not limited to the physical? In order to answer these seemingly basic questions, a host of assumptions about the body, its ideal state, and the kinds of changes to which it can or should be subjected are often implicit. Religious attitudes toward the body and the natural world have a tremendous impact on these assumptions. In this course, you will gain a better understanding of this impact by exploring the relationships between religion and health and seeing these relationships as part of a much larger web of human concerns such as nationalism, resistance to colonization, and gender politics. In order to facilitate cross-cultural comparison and understanding, this course is not organized around geography or history, but rather around the structure human body. After two introductory weeks, each three-week unit will consider a particular aspect of human health through cases drawn from a wide variety of religious contexts. This process is aimed at centering Western narratives about health, healing, and the body while fostering a more global perspective.

RELGST 1405 - RELIGION AND SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
From Puritan attempts to control women's sexuality to contemporary debates over reproductive rights and gay marriage, religion and sexuality have played a formative role in the political and social history of the United States. Though American political ideologies have often tried to situate both sexuality and religion as private matters that have no bearing on public life, the topics we discuss in this course reveal that quite the opposite is true. We take a chronological approach to our subjects, locating the intersections between religion and sexuality throughout the course of American history. In the process, we'll discover how competing ideas regarding religion and sexuality have transformed, and continue to transform, American politics, culture, and society.

RELGST 1415 - RACE AND RELIGION IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
RELGST 1417 - PHILOSOPHY OF RACE AND RELIGION

Minimum Credits: 3  
Maximum Credits: 3  
The history of European religious thought (particularly Christianity) and the development of the idea of race are interwoven. While many devoutly religious people throughout history have, no doubt, been part of movements to oppose the horrific acts that occurred under colonization, end slavery, oppose Nazi anti-Semitism, or promote Civil Rights, for example, the very concept of separate races and the promotion of the ideal of white supremacy were in many ways innovations of European Christian theology. Indeed, religious arguments for white supremacy undergird many of the justifications for colonization and genocide, for slavery, and for Jim Crow laws and apartheid. As a result, despite important developments toward equality, racism remains ubiquitous and part of the underlying logic of the religious, political, and cultural milieu of American society, even if its effects often remain unnamed or are less explicit. This course is a philosophical exploration of the intersections of race, racism, and religious thought. It begins with an analysis of the philosophical and religious positions that solidified and promoted the idea of race, traces the entanglement of Western philosophy and Christian theology with racist political ideologies, and presents critical responses to race from African-American philosophers and liberation theologies. It ends by evaluating the continued effects of racism in American culture and religious thought and considers how we might both understand and respond to the epistemological, phenomenological, and existential effects of white supremacy in Western thought.

RELGST 1418 - FROM VODOU TO SANTERIA: RELIGIONS OF THE WEST AFRICAN DIASPORA

Minimum Credits: 3  
Maximum Credits: 3  
This course is an introduction to the study of West African Diaspora religions in the Americas. We define "diaspora" as the spread and dispersal of people of African descent, both forced and voluntary, through the slave trade, imperial and colonial displacements, and postcolonial migrations. In what form do African religious expressions exist in the African Diaspora communities? This course exposes students to the indigenous African foundations of the religious beliefs and religious practices of African communities living in the Diaspora. Students will receive historical, ethnographical, and anthropological approaches to grasp the essence of these non-doctrinaire and non-textual religions focused on a rich memory of African deities, rituals, morality and practices that have been passed from generation to generation. Because most of the Africans forced to migrate to the New World as slaves came from West Africa, this course will provide students with insights into the beliefs and practices of the "Yoruba Religions" also known as the "Afro-Atlantic religions" such as Santeria in Cuba; Vodou in Haiti; Shango in Trinidad and Grenada; Candomblan Brazil among others. Topics to be covered in this course will include sources of African religious beliefs, African theological notions about God and the Universe, African conceptions about the nature of the human being, witchcraft and the problem of Evil in African religious thought and practice, illness, health, death, and ancestor worship. Furthermore, we will also pay close attention to less known Afro-American cults and religions containing Amerindian mythology and shamanism that emphasize divination, healing, and spirit mediumship such as: the Maria Lionza cult in Venezuela, The Palo Monte in Cuba, and the Garifuna Dugu in Central America. A special feature of the course will include the analysis of "spirit possession" as a common denominator to African-derived religions as well as a relevant keystone in transmission dynamics. Finally, we will examine how these religions have survived cultural and ideological assault and have continued to provide spiritual resources for societies rooted in African cosmologies.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

RELGST 1420 - RELIGION AND RACE

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the intersections of religion, race, and racism. Recently, scholars of religion have demonstrated that religious identities are often racialized as well. In this course, we will discover that religion and race are both modern categories rooted in post-enlightenment ideas about what it means to be human. We will see how the establishment of these religious and racial categories led to new hierarchies and inequalities. We will discuss how post-enlightenment thinkers linked religion and race, and how their ideas played a role in European imperialism. We will also investigate how the discipline of religious studies has developed its analytical tools with a racialized understanding of religion. The course will examine case studies in which religion has been racialized, and consider the political ramifications of these examples. In particular, we will think about the impact of white supremacy on black religion in the United States, the complicated relationship between antisemitism and Islamophobia, and contemporary islamophobia in the US. Finally, we will explore the possibilities of anti-racism through faith-based scholarship and activism.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Diversity General Ed. Requirement, SCI Diversity General Ed. Requirements
RELGST 1425 - POPULAR RELIGION IN AMERICA

Minimum Credits: 3  
Maximum Credits: 3  
Students will examine forms of religion that are called everyday, folk, local, or popular traditions, in contrast to "official" denominational categories that so often dominate the study of religion. With our focus on the western hemisphere, we will learn about new local practices that have emerged since 1492 among African, Caribbean, and native American peoples and to analyze how they represented responses to colonization, industrial capitalism, or globalization. Examples of popular traditions that we will study include: witchcraft; santeria, voodoo, saint's cults, miracles, pilgrimages, speaking in tongues, faith-healing and snake-handling. The course method is interdisciplinary, drawing upon anthropology, documentary film, history, religious studies, psychology, and sociology.

Course Attributes: DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req.

RELGST 1427 - RELIGION AND LAW

Minimum Credits: 3  
Maximum Credits: 3  
Religion and Law examines the role of religious freedom in American history, from colonial days to the present, focusing on documents that predate the first amendment of 1791, as well as upon central supreme court cases that helped define what "legal religion" means as a category in the United States. Students will read court cases and become familiar with arguments for and against the ideal of religious freedom, including court cases involving the Amish, Mormons, Santeria, and the use of religious symbols in public places.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

RELGST 1428 - RELIGION AND SPORTS

Minimum Credits: 3  
Maximum Credits: 3  
This course will provide an overview of research into the relationship of sports, spirituality, and religion. The approach will be cross-cultural with an eye to ancient and non-Western cultures. Informed by anthropological discourse on ritual theory and cultural performance, we will compare sports fandom to religious devotion, sporting venues to holy spaces, and athletes to revered religious figures. We will examine large sporting events such as the Olympics or the Super Bowl as ceremonial activities, rich with symbolism, rather than simply business or entertainment ventures. Seeking to understand the sense of connectedness and deeper meaning that sports can provide, we will also learn to appreciate how athletes can draw on religious belief or ritualized behavior to enhance their performance. After getting acquainted with academic discourse on the main terms of our inquiry-religion, sports, ritual theory, and cultural performance - we will move through an assortment of case studies. They will include sports and ritual among the ancient Greeks, Romans, Mesoamericans, and Native Americans. For the modern era we will consider Sporting rituals in North America and Asia. We will also learn about beliefs in divine agency in modern sports, as well as instances where sports and religion have come into conflict.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

RELGST 1438 - RELIGION AND POLITICS

Minimum Credits: 3  
Maximum Credits: 3  
The purpose of this course will be to consider the public and political implications of religion in several different political systems. We will begin with an overview of the implications for politics of various types of religious systems. Religious beliefs and institutions have wide ranging implications for civic norms, public policy, political leadership, and the treatment of various social groups, including women and minorities.

**RELGST 1445 - MUSLIM POLITICS IN REAL TIME**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Media representations and news stories about the 'Muslim world' often project a troubling ahistorical and sensationalist narrative about a region torn by violence, fanaticism and corruption. This information literacy-driven course will teach you how to place current events in the Muslim world or involving people of Muslim background in their historical context. It will also teach you to discern what constitutes a valid news source and how to find sources you can trust. We'll develop the skills necessary to make sense out of a news landscape that presents conflicting accounts of the same story and that fails to cover some stories altogether. You'll leave this course with a command over how to find news, how to read news, and then how to make sense of it through rigorous historical and social scientific analysis. To that end, you'll learn how to locate and evaluate scholarly sources with the same rigor as you do news sources. You'll be provided with a number of key aspects and developments in the history of the 'Muslim world', so that even if you have no prior knowledge of Islamic history you will be familiar with the key terms and themes. You will be introduced to the long history of problematic media portrayals of Muslims and the Muslim world and efforts to both critique and change these representations. We will work intensively with a librarian to master a set of basic information literacy skills at the start of the semester that we will grow and refine as the class progresses. The remainder of the class syllabus will be determined by the current news cycle, which will generate topics to be considered for further historical analysis.

**RELGST 1450 - ISLAM, LAW, AND POLITICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The emergence of modern Islamic political movements worldwide has had not only a profound impact on contemporary global geo-politics but has also triggered heated debates around the question of the compatibility of Islam with liberal democracy. This class investigates the "vexed" relation between Islam and politics, profoundly influenced by the experience of colonialism, and standing in complex relationship to concepts such as the modern nation-state, democracy, liberalism, or secularism. The class will combine empirically grounded studies the multiple facets of past and contemporary Muslim politics in Muslim-majority and minority contexts with a more theoretical investigation of modern Islamic political thought; here it will examine its intellectual origins, its arguments, the challenge it poses to its liberal counterparts, but also its conundrums and contradictions.

**Academic Career:** Undergraduate

**RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
From its inception, the Islamic tradition has placed a heavy emphasis on the word and on listening to the word, and has developed a rich and ambiguous relationship to sound. This course draws on theological, historical, anthropological and theoretical perspectives to investigate this relationship. We discuss various scholarly approaches to the senses, the relationship between listening and power, and the changing conceptions of what it has meant to listen in Islamic culture. In particular, we discuss how new media technologies and popular culture have transformed sound in Muslim communities, and how the ongoing "war on terror" has refashioned Islamic soundscapes.

**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**RELGST 1455 - ISLAM IN EUROPE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Since 9/11 Europe has become increasingly anxious about its multi-racial and multi-religious populations, the result of successive waves of non-European immigrants who have, since the end of World War II, made Europe their home. At the heart of these concerns is the question whether followers of the Muslim faith can successfully be integrated into a European society that identifies culturally as Judeo-Christian and defines its social order as

1654
secular. The different public debates triggered by this anxiety center on the question of the legitimate limits of cultural difference within liberal democratic societies, thereby also reflecting a growing unpopularity of multicultural ideals. Political discourses stress the need for a robust defense of liberal values that migrant communities (especially Muslim communities) must accept. In order to achieve that, various governmental techniques have been deployed, which are now considered as an essential part of European counter-terrorist strategies, along with security policies and stricter migration controls. Interestingly, many of these government techniques involve gender and sexual politics, which are at the heart of policies and discourses around integration and multiculturalism. The course will look critically at these various developments through an interdisciplinary approach that combines anthropological studies with readings from political and social theory, feminist and queer studies in order to think about the issues at stake around Islam, religious pluralism and secular governance in Europe. As additional course material, the class will draw on a variety of audio-visual material, such as fiction films, documentaries, or youtube clips.

RELGST 1456 - ISLAM IN ASIA

Minimum Credits: 3
Maximum Credits: 3
Although Islamic traditions are generally associated with the Middle East, the vast majority of the world's Muslims live in the Asia-Pacific region. Countries such as India, Pakistan, Bangladesh, and Indonesia are home to vibrant and diverse Islamic traditions. This course introduces students to Asian Muslim communities and their histories, tracing the development of Asian Islamic traditions from their early roots in the medieval period through the age of colonialism and until the current day. Students will learn about mystical Islamic practices (Sufism), Islamic art and architecture, and the regional diversity of lived Islam. We will also examine contemporary conflicts around Islamic identity in Asia, particularly in China and Myanmar, and debates about the place of Islam in modern governments and public life. In the process, students will explore primary historical sources and contemporary studies to examine the role of gender, ethnicity, nationality, and culture in the study of diverse Muslim communities in Asia.

RELGST 1458 - WOMEN AND ISLAM IN ASIA

Minimum Credits: 3
Maximum Credits: 3
This course is a comprehensive engagement with Islamic perspectives on women with a specific focus on the debates about woman's role and status in Muslim societies. Students will learn how historical, religious, socio-economic and political factors influence the lives and experiences of Muslim women. A variety of source materials (the foundational texts of Islam, historical and ethnographic accounts, women's and gender studies scholarship) will serve as the framework for lectures. Students will be introduced to women's religious lives and a variety of women's issues as they are reported and represented in the works written by women themselves and scholars chronicling women's religious experiences. We will begin with an overview of the history and context of the emergence of Islam from a gendered perspective. We will explore differing interpretations of the core Islamic texts concerning women, and the relationship between men and women: who speaks about and for women in Islam? In the second part of the course we will discuss women's religious experiences in Asia, which will serve as a focus for our case study. Students will examine the interrelationship between women and religion with special emphasis on the ways in which the practices of religion in women's daily lives impact contemporary Asia. All readings will be in English. No prior course work is required.

RELGST 1475 - RELIGIOUS DIVERSITY
GENDER AND RELIGION IN INDIA

Minimum Credits: 3
Maximum Credits: 3
What is the best way to accommodate religious and cultural diversity within a nation-state and in civil society? How should individual rights to practice religion be balanced with communal needs? Should freedom from religion be protected as much or more than freedom of religion? These are pressing contemporary issues in many countries, including the United States, but issues of religious diversity and questions of whether and how to tolerate religious minorities have a long history. In this course, we will examine the toleration of minority religions in particular historical settings, and the issues and problems (both doctrinal and social/political) that societies grappled with as they confronted diverse religious landscapes. We will also use these historicalprecedents as a lens to examine contemporary examples of religious pluralism, diversity, and conflict. Case studies will mainly be drawn from pre-modern Europe and modern Europe and North America, but we will also look at Mughal and modern India and discuss religion in pre-modern China.

RELGST 1510 - HINDU MYTHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the religious life of India as expressed through storytelling. Central to this life are rich and diverse narrative traditions, both oral and written, some of which have their roots in the ancient Vedic literature, in the famous epics of the Mahabharata and the Ramayana, in popular folk tales and philosophical debates. Through an in-depth exploration of different genres of primarily Hindu narrative traditions, students will be able to see (1) how certain episodes and characters from the selected stories have been used in religious and philosophical teachings about spiritual emancipation and liberation; (2) how the stories and their protagonists have been variously (re)cast over time by members of dominant as well as non-dominant religious and/or political groups; and also, (3) how they have been appropriated and incorporated in politically sensitive times and situations into a wider narrative of nation(hood). The role of popular media (TV, film, etc.) In linking nation and narration in modern times will also be examined.

RELGST 1511 - YOGA: OF LOINCLOTHS AND LULULEMON

Minimum Credits: 3
Maximum Credits: 3
Is yoga culturally appropriative? This question and others like it have produced heated debate on college campuses and beyond. It is the aim of this course to add nuance to these popular debates by exploring the politically fraught history of yoga. Under the British Empire, Hindu religious reform and physical culture intertwined, leading to the development and spread of modern postural yoga as a form of anti-imperial resistance. In the early twentieth century, Indian proponents of yoga worked as cultural ambassadors and entrepreneurs, spreading their practices to the West. In postcolonial India, yoga often shows up in clinical settings, as an inexpensive and culturally familiar alternative to biomedicine, but has also served as a venue for some religious militants to assert their masculinity through physical fitness. Meanwhile, by the late twentieth century, yoga became a booming industry in the West and was marketed, especially to middle-class women, as an “exotic” lifestyle commodity at times.

RELGST 1515 - GENDER AND RELIGION IN INDIA

Minimum Credits: 3
Maximum Credits: 3
As robust debates about gender and equality take place in India today, this course seeks to provide a nuanced historical perspective on how gender is understood and practiced in different communities in the region. This course introduces students to major debates about gender in India, exploring the intersections between gender, religion, class, caste, and nationhood in the colonial and postcolonial eras. We will enter these debates through surveying discourses of femininities and masculinities as they are elaborated in religious texts and contemporary society and politics. Students will also be introduced to the discussions about third gender and queer identities in India. Specific topics covered will include gender identities in mythology and religious practice in Hindu, Muslim, and Buddhist traditions; gender roles in family and society; transgender identity and religion; and the impacts of colonialism, globalization, and migration on gender and sexuality.

Grade Component: LG/SNC Elective Basis

RELGST 1518 - RELIGION AND ECOLOGY
Minimum Credits: 3
Maximum Credits: 3
This course explores various religious perspectives on the meaning and value of nature and the relationship of humans to the environment. How have different religious communities conceived of the natural world and responded to ecological crisis? How have food and farming practices been shaped by religious tradition? Special attention will be given to case studies from contemporary society, with a focus on American religious movements that take issues such as ecojustice, sustainable farming practices, and responsible consumption seriously or are defined by them. Classic religious texts, particularly of the biblical tradition, will be studied when relevant, as will archaeological and ethnographic studies.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1519 - RELIGION, NATURE AND ENVIRONMENT
Minimum Credits: 3
Maximum Credits: 3
When is religion good for the environment? When is it not? In this course, students will become acquainted with how religious traditions throughout the world have addressed specific ecological problems. They will explore ways in which religious institutions are an important organizational hub in struggles for environmental justice. They will compare the structural features shared by environmentalism and religiosity, both of which are interested in making meaning of the world by appealing to an ultimate authority, such as God or Nature; and in forming identities and building communities by promoting guidelines, norms, and ritualized behaviors. The very construction of Nature as a concept, and its reverence in the context of the sustainability movement, can be informed by theoretical discourse from the field of Religious Studies. After a survey of approaches to the natural world in major religious traditions, students will focus on themes such as garden spiritualties, gendered Nature reverence, and eco-justice. They will also acquire the skills to assess the scripturally inspired indifference-or even antagonism-to environmental science, and the long shadow it has cast on the global economy.

Grade Component: Letter Grade

RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
Minimum Credits: 3
Maximum Credits: 3
This class serves as an introduction to Buddhism from its origins through the seventh century CE as it moved along the Silk Road, the ancient EurAsian trading network that is considered one of the earliest and most important super highways of trade and culture. Concomitantly, it serves as an introduction to the silk road as the scenario for contact and exchange. The emphasis is on religious praxis, the actors and places that transformed Buddhism and were transformed by it. We will examine archaeological remains and art and discuss how they complement or sometimes contradict textually-based historical narratives. Through the examination of four case studies we will discuss questions related to religious interaction as embodied in material culture and analyze it in context.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1540 - SAINTS EAST AND WEST
Minimum Credits: 3
Maximum Credits: 3
A Russian monk once observed that "each saint is a unique event." Indeed, in various religious traditions we encounter men and women who are recognized and venerated as particularly holy and unique witnesses to the divine. Just as each saint is unique within his or her tradition so is each tradition of saints unique in its articulation and expression of the overall religious culture. By looking cross-culturally at the materials on saints selected for this course and discussing (problematizing) the notion of sainthood itself, we examine religious themes, ideas and symbols found in
them. These diverse writings are often marked by a very personal tone, a deeply felt relation with the divine (sometimes reflecting a saint), inner struggles, sometimes his/her mystical experience of union), but also by pleas and calls for social and/or religious reforms. Our examples of devotional literature include Hindu, Muslim, and Christian sources, medieval as well as modern. Even though originating in specific religious contexts, many of these narratives raise issues which have wider human appeal and hence relevance for us today, too.

**RELGST 1545 - MYSTICISM IN ASIA**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Mysticism, understood as a living experience of theological doctrines, constitutes an unexpected point of convergence between such different religious traditions as Hinduism and Eastern Orthodox Christianity. In this course we look into how this spiritual kinship is forged from distinct practices in India and in the traditions of eastern Christianity, by examining the selected mystical writings of both religious traditions. The course is structured around three central themes: 1) God as Mystery: negative theology (Hindu and Orthodox ways of unknowing the divine). 2) God as Person: the Hindu notion of avatar and Orthodox understanding of incarnation, and 3) God as Prayer: two selected methods of contemplation (Hindu yoga and Orthodox hesychast prayer). The course is based largely on reading and discussion of primary sources (in English translation) supplemented with selected secondary sources to help enhance students' understanding of the comparative method, on the one hand, and symbolic, often enigmatic and sometimes "upside-down" language of the mystical texts, on the other.

**Academic Career:** Undergraduate

**RELGST 1550 - EAST ASIAN BUDDHISM**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The transmission of Buddhism to East Asia was a momentous development in the history of world cultures and religions. Not only did it precipitate major changes in the cultures of China, Korea and Japan, it also was attended by transformations within Buddhism itself. Beginning with an introduction to the basic concepts of Buddhism, this course examines the major doctrinal, meditative, devotional, and institutional traditions and themes within Chinese and Japanese Buddhism in historical perspective. Particular attention is paid to the problems of transmission of thought and practices from one culture to another and to the ways in which Buddhism changed to meet those challenges and make itself relevant to the members of East Asian societies. We strive to develop an awareness of how Chinese and Japanese Buddhism interacted with and helped to shape East Asian history as well as to cultivate sensitivity to and appreciation of East Asian Buddhism as a contribution to our understanding of the human experience.

**RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Buddhist meditation is perhaps the best known of all Buddhist practices particularly in Western countries. In both Asia and the West, it has been popularized in recent times as a technique that can be used for such secular purposes as reducing stress and managing eating disorders. But what is Buddhist meditation? How it is practiced in its traditional contexts? What are the doctrinal foundations of meditation practices? What are the traditional purposes of practicing Buddhist meditation? What are the various types of meditation explained in Buddhist texts? How this practice evolved over time in different geographical regions in Asia? What are the roles of Buddhist or state institutions in shaping meditation practices? Focusing on these questions, this course examines the breath of Buddhist meditation practices and their historical evolution and transmission in Asian Buddhist countries. The course covers the role of meditation in early Indian Buddhism, the development of different types of meditation in Theravadan Buddhist countries, the emergence of the Chan school of meditation in China and its transmission to Japan (Zen), the appropriation of tantra to Buddhist practices in Tibetan Buddhism, and the modernization of Buddhist meditational practices during the colonial period. The course is taught using classical Buddhist texts and meditational manuals in translation, secondary studies, testimonials and films. In the process, we expect to enhance our familiarity with religious practices and our understanding of the human experience.

RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES

Minimum Credits: 3  
Maximum Credits: 3  
Death and beyond in Buddhist cultures mortality is the human condition. This seminar focuses on the philosophical discourse, beliefs and practices relating to death, dying and the afterlife in Buddhist cultures, both traditionally and in modern times. We explore Buddhist cosmology, karmic causality, death tales, postmortem journeys, ancestor rites, mortuary practices and ghost placation. Through primary texts in translation, secondary scholarship, discussion and film, we see how dealing with death tells us as much about life as it does about what lies beyond.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  

RELGST 1558 - BUDDHISM AND PSYCHOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course is divided into four thematic parts. The first part introduces basic knowledge on Buddhism. It then shows how the encounter between Buddhism and psychology has occurred in the wider context of Buddhist modernism, which has involved attempts by Buddhist reformers, psychologists, and neuroscientists to demythologize Buddhism to show how it can be understood as complementing modern empirical science. Part two offers concrete examples of Buddhist modernism by illustrating how Buddhist contemplative practices and doctrines such as sati have been reinterpreted and reformulated in modern psychology. Part three examines how a Japanese Zen practitioner's presentation of Zen compares with psychotherapeutic perspectives on it. Finally, in part four, a Buddhist-inspired psychotherapy widely used in Japan is examined to show how the reformulation of Buddhism to achieve psychotherapeutic goals has occurred in modern times in East Asia, albeit in a way that is distinctive from Buddhist-inspired psychotherapeutic practices in the west.

RELGST 1560 - RELIGION AND HEALING IN CHINA

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the major traditions and themes that constitute religion in China. The origins and development of Confucianism, Daoism, Buddhism, popular and family religion, and religion and the state are presented within an overall historical framework. As China becomes more and more central to the world's modern commodity culture, some have predicted a decline in traditional religious values and practices. In fact, the reverse is true: from Taiwan and Hong Kong through mainland China, increasing prosperity is resulting in an increased “investment” in religion. In addition to the study of religious ideas, practices, and institutions in premodern China, the course ends by looking at contemporary beliefs and practices and issues of politics, class, and gender. Our purpose is to gain some exposure to Chinese religious thought and practice, to identify dominant themes underlying Chinese values and behavior, and to explore the syncretic nature of religion in China as each tradition finds expression in and comes to influence other aspects of Chinese religion and culture. In this way, we hope to come to understand the critical role played by the various traditions in the unfolding of Chinese history and in the formation of the Chinese view of the world.  
Academic Career: Undergraduate  
Course Component: Lecture  

RELGST 1561 - CHINESE THOUGHT

Minimum Credits: 3  
Maximum Credits: 3  
A survey of major themes in the intellectual history of China from ancient times to the twentieth century, with special attention to the traditions of political and ethical debate. Readings include key texts from the classical canon (e.g. analects, mencius, daodejing), medieval religious traditions (Daoism and Buddhism), and late-imperial metaphysics. The course will conclude with a survey of various attempts at inheriting and disinherit the past intellectual tradition in the twentieth century.

**RELGST 1575 - LAW AND MEDICINE IN ASIAN RELIGIONS**

Minimum Credits: 3
Maximum Credits: 3
This course introduces the intersections between law, religion, and medicine in East Asia. It will start with a theoretical orientation on the interaction between law and religion. In order to engage in these discussions in a global context, we will examine the manifestation of legal orientalism in China, Buddhist jurisdiction in Sri Lanka and Burma, religious governance in Tibet, as well as clerical immunity and sanctuary in medieval Europe. Next, students will learn to analyze cases illustrating the roles law has played in regulating religious and medical practices in East Asia. The cases we will examine span a long historical period ranging from the medieval to modern and the contemporary. For medicine and medical practices, the topics we will cover range from acupuncture, the use of wild animal in traditional medicine, the commercialization and regulation of caterpillar fungus, and the social, economic, and religious implications of the circulation of generic drug. To understand how law has shaped religious practices in East Asia, we will examine the infrastructure of legal practices and their applications in dealing with religious offenders. In particular, we will discuss underground jurisdiction, the history of forensic practices, criminal procedures, capital punishment, as well as prosecution of religious practitioners in the imperial and contemporary times. By the end of this course, students are expected to become competent in critically analyzing complex issues on law, medicine, and religion in East Asia for a more balanced understanding of these issues in the global context for personal and professional growth.

**RELGST 1610 - MYTH, SYMBOL AND RITUAL**

Minimum Credits: 3
Maximum Credits: 3
Are myths only a thing of the past, or are there contemporary 'myths' that we live by? To what extent are football games and shopping trips "rituals"? How do plants and animals, the cosmos and the human body, or things we associate with bad luck or good health, function as symbols? This course offers a look at how myths, symbols and rituals, in their traditional and contemporary garb, constantly renew themselves as a way for different cultures to give significance to human life. By understanding these three basic forms of human expression we can gain understanding of a wide range of social and religious phenomena. We start with comparative exploration of myths on the origin of the world, humanity, and the gods, and with such rituals as rites of passage, festivals, and pilgrimages, as well as the theories of these expressions and their significance. The course then moves to observations of and reflections on the role of myth, symbol, and ritual in contemporary life, and their relation to such forms of human expression as literature, art, film and our own dreams.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

---

**RELGST 1620 - WOMEN IN RELIGION**

Minimum Credits: 3
Maximum Credits: 3
An examination of the place and role of women in Western religious traditions.

**Academic Career:** Undergraduate
RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course surveys the historical interaction between Christian and Muslim communities over the past 1400 years and focuses on the art of polemic as an important tool in the human construction of religious concepts. We will begin by understanding the evolution of Islam in the seventh century, and continue with the encounters between Islam and the byzantine empire, and the medieval caliphate's encounters with the West, including the crusades. We will then consider specific elements of the interaction between Christian and Muslim communities, drawing from a variety of Muslim communities in Europe and the United States.

RELGST 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT

Minimum Credits: 3
Maximum Credits: 3
Was the world of Europe and the Middle East before the Enlightenment a period of unending religious conflict and intolerance? Were Jews the victims of severe persecution and violence everywhere during this period? Did Christians and Muslims engage in unceasing religious wars? The answer to all three of these questions is no. While the Middle Ages were a period of conflict and competition between the three major western religious groups, they were also a time of coexistence and cooperation. This class shifts from extreme dichotomies and simplistic stereotypes to deeply examine the period in all of its complexity: what were the theological, political, and legal contexts in which Christians, Muslims, and Jews interacted in both Christian Europe and the Muslim world? How did these deeply religious societies organize themselves to tolerate the religious "Other"? When and why did toleration break down and lead to expulsion, forced conversion, or violence? What kinds of cross-cultural exchanges and cooperation take place in economic, cultural, intellectual, and social life? We will also look at new ideas of toleration (and intolerance) that emerged at the end of the Middle Ages and examine aspects of inter-religious encounters and dialogues today. We will discuss not only the significance of Jewish-Christian-Muslim interactions in the Middle Ages but also assess these encounters as a case study in the broader history of religious diversity, pluralism, and conflict.

RELGST 1645 - THE HISTORICAL JESUS

Minimum Credits: 3
Maximum Credits: 3
This course examines the complex and often polarized relationship between Jesus and Jews (and by extension, Christianity and Judaism) in both ancient and modern contexts. Students will interact with a wide range of primary sources centered on the figure of Jesus from the Christian gospels through rabbinic discussions of Jesus to modern portrayals of Jesus and the Jews in cinema and scholarship.

RELGST 1650 - APPROACHES TO ANTISEMITISM

Minimum Credits: 3
Maximum Credits: 3
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.
RELGST 1665 - ANTHROPOLOGY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the anthropological study of religion. While it is generally assumed that religious practice exists in nearly every human society, what 'religion' is, how it should be defined, and whether there is a basic common denominator that is universal is a matter of debate among anthropologists. We will explore different theoretical and conceptual approaches that have informed anthropological perspectives in the study of religion, while also investigating anthropological studies of ritual, sacrifice, magic, healing, and death. Furthermore, we examine how these studies have discussed the relation of religion to questions around kinship, gender and sexuality, and social justice. By covering such a range of topics, this class enables students to learn how religion is understood, experienced and expressed across divergent sociocultural contexts, in the past and in the present.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to the manner in which historians have studied and understood the Jewish experience from antiquity through the modern age. The role of historical study in the formation of Jewish identity will be especially highlighted.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req.

RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM

Minimum Credits: 3
Maximum Credits: 3
In this course, we will study the origins and development of Zionism as a form of modern Jewish nationalism, the emergence of different Zionist ideological streams, and non-Zionist, anti-Zionist, and post-Zionist views of Jews and non-Jews. We will also explore Zionism as a case study of relations of religion and nationalism in modernity. This course is an opportunity to carefully study and to contextualize writings and ideas of religious and political thinkers that have been both influential and controversial. The goal is to offer students historical background to ideas and issues of contemporary importance as well as skills in interpretation and contextualization of complex texts that continue to inform public discourse.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Historical Analysis General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req.

RELGST 1720 - RELIGION AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
Religion is thought, felt, and acted out in social and cultural contexts. The relationship between religion and culture is the focus of the course. The objectives are to understand religion wherever and whenever found and to understand the anthropological approach in the cross-cultural study of religion. Religious belief, ritual, myth, dogma and religious specialists in industrial and non-industrial societies are compared.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: African Studies, Asian Studies, Global Studies

RELGST 1722 - HEALING, SHAMANISM, AND SPIRITUAL POSSESSION

Minimum Credits: 3
Maximum Credits: 3
Anthropological approaches to the study of religion have classically defined shamanism as a spiritual practice opposed to spirit possession. While shamanism is centered on the claims of individuals to exit their bodies and venture into other realms of consciousness and reality, spirit possession would chart the opposite movement, where other spiritual beings take over or are invited into a human host. Both of these activities however, involve fusing or blurring the normal states and boundaries of body, personhood and consciousness, in interaction with other supernatural beings. Both are also routine religious experiences and practices in many parts of the world, past and present. Notwithstanding, these phenomena have been mistakenly associated with mental disorder by sociocultural anthropologists and psychologists in the past. At this point, however, the argument that
shamanism and spiritual possession are not a function of mental illness has prevailed. Today, there is no doubt that the impact of these practices in the social life of its practitioners is multiple and complex. Despite that fact, this course will focus on the therapeutic aspects of these traditions. Far from being “primitive” or purely “exotic” phenomena, we will explore how these living practices relate to great civilizations, as part of regional, national, and global ideologies of religion and culture. More precisely, we will examine the role of traditional medicine based on cross-cultural ethnographies. We will explore, for example, how indigenous groups throughout the Americas diagnose and treat folk illness and Western defined diseases with variety of methods. Culturally defined illness such as soul loss, evil eye, witchcraft and other psychosomatic afflictions will be explored through lecture, readings and films. We will examine the use of art, music and ritual as well as psychotropic plants as part of the very heart of many indigenous cultural traditions. That said, this course will also provide an opportunity to understand why these practices have been reawakened not only by modern anthropological inquiry, but also by multidisciplinary interest in states of consciousness and mechanisms of therapy, and by popular interest in alternative forms of spirituality.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS

Minimum Credits: 3
Maximum Credits: 3
The American culture of the 20th and 21st centuries has been called, not death-defying, but death-denying. It is often said that America is the only place in the world that treats death as optional. Once upon a time, we couldn't have open, public conversations about breast cancer, because the word could not be uttered aloud. In many places, it is just as hard today to have an open, public conversation about death and dying. This phenomenon is not just a social more; it affects the practice of many professions and entire segments of our economy and society. This course will explore our individual and cultural reactions to mortality, the ways in which dying in today's America is different from dying throughout history or elsewhere in the world, and the responses of a variety of professions, both within the field of healthcare and beyond, to their encounters with people in the various stages of dying. Students will be asked, at turns, to be scientific, philosophical, clinical, analytical, and emotional in encountering the concepts and material presented here. This should be a true interdisciplinary experience.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1726 - HEALING AND HUMANITY

Minimum Credits: 3
Maximum Credits: 3
Medical ethics courses (such as Pitt's "Morality and Medicine") focus on critical analysis of societal questions such as abortion, euthanasia, genetic engineering, allocation of scarce resources such as organs for transplant, and the opioid crisis. There is no doubt these questions need to be addressed. However, I contend there is a "micro-ethics" of medicine - thousands of individual interactions between healers (meaning any persons involved in delivering some part of a person's healthcare) and the people they care for. Their words, actions, demeanor, and the built environment in which they work can all contribute to, or detract from, the ultimate well-being and humanity of the person receiving the care. In this course, we will discuss these "micro-ethics" in detail, beginning with the religious and philosophical underpinnings of what it means to be well and what it means to be human. We will then look at how two individuals in relationship can work towards healing through listening, questioning, speaking, and communicating non-verbally. We will examine how placing those individuals in the context of a system of overlapping relationships affects their interaction. We will assess the impact of different factors about the healer, the person seeking healing, and their shared environment that detract from their relationship. Finally, we will propose and critique ways of strengthening that relationship both within the existing environment of the US healthcare system in 20__ and by altering that environment.

**RELGST 1762 - THE GUIDE OF THE PERPLEXED**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course will study the guide of the perplexed by the great Jewish thinker Moses Maimonides (1138-1204). It will give special attention to the religious language and arguments for the existence of god in the text, and to Maimonides teachings on religious experience, revelation and his views on human perfection and immortality.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SU3 Elective Basis

**RELGST 1780 - COMPUTATIONAL METHODS IN THE HUMANITIES**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Attributes:** DSAS Phil. Think or Ethics General Ed. Requirement, SCI Polymathic Contexts: Ethical/Policy GE. Req.

**RELGST 1800 - SPECIAL TOPICS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course aims to create a sustained and reciprocal dialogue between bible and film, exploring the intersection of the biblical text with modern cinema. In other words, we will use modern films to facilitate discussion about various dimensions, issues, and themes encoded in select biblical texts and traditions (Jewish and Christian), and conversely we will use the biblical traditions to probe the religious, cultural, and ideological layers embedded within modern cinema. Movies examined in this course will include both overt treatments of the biblical text, in particular, several very different treatments of the figure of Jesus and subtle, indirect engagements with various biblical themes and teachings.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

**RELGST 1802 - RELIGYINZ: RESEARCHING RELIGION IN PITTSBURGH**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
In this course, students will get a taste (sometimes literally) of lived, religious diversity in the city of Pittsburgh. In this experiential course, students will have a chance to visit some of the sites that Pittsburghers have made sacred, and learn more about the lives of religious Pittsburghers, past and present. In the process, students will learn about scholarly concepts like "urban religion," "lived religion," and "material religion," and how to apply those ideas to the sacred spaces, objects, foods, and rituals of Pittsburgh.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**RELGST 1803 - CAPSTONE SEMINAR**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The senior thesis capstone seminar required of all graduating majors is offered annually in the Fall Term and is taught by rotating faculty with a different theme each year. Students research, write, and present a project of their own choosing based on the annual theme under the supervision of the seminar instructor and a research advisor from among our faculty. Permission of the DUS is required.

**Academic Career:** Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Writing Requirement Course

RELGST 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
A variety of projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

RELGST 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 4
A variety of individual reading and research projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

RELGST 1902 - DIRECTED STUDY-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Students may undertake a variety of individual reading or research projects under the close supervision of a senior faculty member. Regular meetings are required.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

RELGST 1903 - DIRECTED RESEARCH-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Majors may take on a research project under the direction of a department faculty member. Permission of the DUS is required.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Capstone Course, Writing Requirement Course

RELGST 1904 - UNDERGRADUATE RESEARCH ASSISTANT

Minimum Credits: 1
Maximum Credits: 4
Students participate in a faculty member's current research project as a research assistant under the guidance of the faculty member. The student is given training in research methods. 1-4 credits available depending on number of hours per week worked. Credits earned will be S/N only. Permission of the department (DUS) and the faculty member is required.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

RELGST 1905 - UNDERGRADUATE TEACHING ASSISTANT

Minimum Credits: 1
Maximum Credits: 4
Students serve as an undergraduate teaching assistant in religious studies courses under the supervision of a faculty member. 1-4 credits available depending on number of hours per week worked. Credits earned will be s/n only. Permission of the department (DUS) and the faculty member is required.

**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** LG/SNC Elective Basis

### ROTC Program

**AFROTC 0001 - HERITAGE AND VALUES OF UNITED STATES AIR FORCE 1**

Minimum Credits: 1  
Maximum Credits: 1  
AS 100, "Heritage and Values of the United States Air Force," is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the air force.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**AFROTC 0002 - HERITAGE AND VALUE OF US AIR FORCE 2**

Minimum Credits: 1  
Maximum Credits: 1  
This course is the second of a two semester sequence dealing with the U.S. Air force in the contemporary world. The sequence focuses on the basic characteristics of air doctrine; strategic offensive and defense, general purpose, and aerospace support forces; and officer ship.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** LVL: Fr or So

**AFROTC 0003 - EVOLUTION OF AIR AND SPACE POWER**

Minimum Credits: 1  
Maximum Credits: 1  
As200 course designed to examine general aspects of air & space power, through historical perspective. Course covers time period from the first balloons & dirigibles to space age global positioning systems of the Persian Gulf War. Historical examples provided to extrapolate development of a capabilities & missions to demonstrate evolution of what has become today's USAF Air & Space Power. Course provides cadets with knowledge level understanding of air & space power from an institutional doctrinal & historical perspective. LLAB mandatory for AFROTC Cadets & complements course.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**AFROTC 0004 - TEAM AND LEADERSHIP 2**

Minimum Credits: 1  
Maximum Credits: 1  
This course is the second of a two semester sequence which surveys the history of air power from balloons and dirigibles through the jet age. It focuses on factors contributing to change in the nature of military conflict; the development of air power and the evolution of air power doctrine and concepts; and the role of technology in the growth of air power.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** LVL: So

**AFROTC 0005 - FRESHMAN LEADERSHIP LAB**

Minimum Credits: 0  
Maximum Credits: 0  
The as100 and as200 leadership laboratory courses (LLABS) include a study of air force customs and courtesies, drills and ceremonies, and military commands. The LLAB also includes studying the environment of an air force officer and learning about areas of opportunity available to
commissioned officers.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: LVL: Fr

AFROTC 0006 - SOPHOMORE LEADERSHIP LAB

Minimum Credits: 0
Maximum Credits: 0
The as100 and as200 leadership laboratory courses (LLAB) include a study of air force customs and courtesies, drill and ceremonies, and military commands. The LLAB also includes studying the environment of an air force officer and learning about areas of opportunity available to commissioned officers.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: LVL: So

AFROTC 0007 - TEAM AND LEADERSHIP 1

Minimum Credits: 1
Maximum Credits: 1
Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

AFROTC 1005 - JUNIOR LEADERSHIP LAB

Minimum Credits: 0
Maximum Credits: 0
The as300 and as400 LLABS consist of activities classified as leadership and management experiences. They involve the planning and controlling of military activities of the cadet corps, and the preparation of briefings and other oral and written communications. LLABS also include interviews, guidance, and information which will increase the understanding, motivation, and performance of other cadets.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: LVL: Jr

AFROTC 1006 - SENIOR LEADERSHIP LAB

Minimum Credits: 0
Maximum Credits: 0
The as300 and as400 LLABS consist of activities classified as leadership and management experiences. They involve the planning and controlling of military activities of the cadet corps, and the preparation of briefings and other oral and written communications. LLABS also include interviews, guidance, and information which will increase the understanding, motivation, and performance of other cadets.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: LVL: Sr

AFROTC 1013 - LEADING PEOPLE AND EFFECTIVE COMMUNICATION 1

Minimum Credits: 3
Maximum Credits: 3
AS 300, “LEADING PEOPLE AND EFFECTIVE COMMUNICATION,” teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.
Academic Career: Undergraduate
AFROTC 1014 - LEADING AND COMMUNICATIONS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second of a two-semester integrated management course emphasizing the concepts and skills required by the successful manager and leader. It also includes instruction on communication skills and military ethics. The curriculum encompasses individual motivational and behavioral processes, leadership, communication, and group dynamics within the context of a military organization.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Jr

AFROTC 1015 - NATIONAL SECURITY AFFAIRS/PREPARATION FOR ACTIVE DUTY

Minimum Credits: 3
Maximum Credits: 3
AS 400, "NATIONAL SECURITY AFFAIRS/PREPARATION FOR ACTIVE DUTY," is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for active duty.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

AFROTC 1016 - NATIONAL SECURITY FORCES

Minimum Credits: 3
Maximum Credits: 3
This course is the second of two semester sequence surveying key issues of U.S. National security. The second semester focuses on the soviet union and major regional issues of importance to U.S. National interests. It also includes instruction on the military as a profession, Officership, and the military justice system.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MILS 0011 - INTRODUCTION TO THE ARMY

Minimum Credits: 1
Maximum Credits: 1
MILS 0011 is offered during the fall term. This freshman course is an introduction to army ROTC. Course instruction includes survival techniques, first aid, wear of the military uniform and organization, role and branches of the U.S. army.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MILS 0012 - ADAPTIVE LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
MILS 0012 is offered during the spring term. This freshman course is an introduction to army ROTC. Course instruction includes leadership and management, drill and ceremonies, land navigation, basic, pistol/rifle marksmanship and organization and role of the U.S. army reserve and national guard units.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

MILS 0021 - LEADERSHIP & DECISION MAKING
MILS 0021 is offered during the fall term. This sophomore course is an introduction to army ROTC. Course instruction includes the total army concept, army rank and structure, leadership and management, land navigation and drill and ceremonies.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**MILS 0022 - ARMY TEAM DEVELOPMENT**

MILS 0022 is offered during the spring term. This sophomore course is an introduction to army ROTC. Course instruction includes group communication, decision making and problem solving techniques, military history, leadership and management and land navigation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**MILS 1031 - TRAINING MANAGEMENT**

MILS 1031 is offered during the fall term. This junior course prepares the army ROTC student for commissioning into the U.S. army as a second lieutenant. Course instruction is coupled with practical exercises in tactical and technical military subjects with particular emphasis on leadership development, problem solving and decision making.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**MILS 1032 - APPLIED LEADERSHIP**

MILS 1032 is offered during the spring term. This junior course prepares the army ROTC student for commissioning into the U.S. army as a second lieutenant. Course instruction is coupled with practical exercises in tactical and technical military subjects with particular emphasis on leadership development, problem solving and decision making.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**MILS 1041 - THE ARMY OFFICER**

MILS 1041 is offered during the fall term. This senior course continues to prepare the army ROTC student for commissioning into the U.S. army as a second lieutenant. Course instruction emphasizes leadership, army operations and procedures.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

**MILS 1042 - COMPANY GRADE LEADERSHIP**

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

Russian
RUSS 0010 - ELEMENTARY RUSSIAN 1

Minimum Credits: 5
Maximum Credits: 5
A traditional four-skills course, this course meets with the main lecturer and with the drill instructor. The student acquires basic skills in Russian pronunciation, speaking, listening, and writing, commensurate with the grammatical topics covered. During the first semester these topics include, among others; the present and past tenses, the nominative, prepositional, and accusative cases. The course aims to go beyond the confines of the textbook readings and conversations and apply grammar and vocabulary to practical situations.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

RUSS 0090 - RUSSIAN FAIRY TALES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Russian folklore through the oral genre of fairy tales so as to acquaint them with popular structures of thought underpinning modes of Russian behavior. A significant component of the course will consist of visual and audio representations of scenes from fairy tales.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0091 - READING RUSSIAN FAIRY TALES IN RUSSIAN

Minimum Credits: 1
Maximum Credits: 1
This course is a one-credit add-on module for students who are taking (or have taken) Russian fairy tales (RUSS 0090) and who would like to read selected tales and other texts in Russian.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Attributes: Russian & East European Studies

RUSS 0092 - HONORS RUSSIAN FAIRY TALES

Minimum Credits: 1
Maximum Credits: 1
This course is a 1-credit honors (UHC) trailer for RUSS 0090 (Russian Fairy Tales), and is designed for students who would like to supplement the survey features of the regular fairy-tale course with an honors-level research-focused experience. Students enrolled in the trailer must either be enrolled simultaneously in RUSS 0090 or have completed it in a prior semester. The trailer course meets once a week, for which students will prepare, for discussion, additional readings or analyses of Russian fairy tale texts. As a focal project for the 1-credit trailer, students will produce, by the end of the semester, a research or analytical paper about Russian fairy tales that builds on the theoretical and critical methods introduced in RUSS 0090 and explored in greater detail in the trailer course. Evaluation will be based on prepared participation in the weekly meetings and on the final paper.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ or COREQ: RUSS 0090. (Students enrolled in the honors trailer must either be enrolled simultaneously in Russ 0090 or have completed it in a prior semester.)

RUSS 0101 - ELEMENTARY RUSSIAN 1

Minimum Credits: 4
Maximum Credits: 4
A traditional four-skills course, this course meets with the main lecturer and with the drill instructor. The student acquires basic skills in Russian pronunciation, speaking, listening, and writing, commensurate with the grammatical topics covered. During the first semester these topics include, among others; the present and past tenses, the nominative, prepositional, and accusative cases. The course aims to go beyond the confines of the textbook readings and conversations and apply grammar and vocabulary to practical situations.

Academic Career: Undergraduate
RUSS 0102 - ELEMENTARY RUSSIAN 2

Minimum Credits: 4
Maximum Credits: 4
The continuation of Russian 0010, this course focuses on aural comprehension of Russian as a means for developing spoken competence, the aim being to sharpen the student's spoken proficiency. Attention is paid to the function of word order and intonation. Grammatical topics covered include the genitive and instrumental cases and verbal aspect. Vocabulary and phraseology are learned in both grammatical and cultural context.

Academic Career: Undergraduate

RUSS 0103 - INTERMEDIATE RUSSIAN 1

Minimum Credits: 4
Maximum Credits: 4
The continuation of Russian 0020, this course completes the introduction to basic Russian grammatical structures. The dative case, participles and gerunds, verbs of motion, and questions of verbal government are dealt with systematically. Extra-textbook material introduces the student to samples of unedited real-language texts. In developing spoken language ability, topics related to cross-cultural comparison receive prominence.

Academic Career: Undergraduate

RUSS 0104 - INTERMEDIATE RUSSIAN 2

Minimum Credits: 4
Maximum Credits: 4
Academic Career: Undergraduate

RUSS 0110 - RUSSIAN CONVERSATION PRACTICE

Minimum Credits: 1
Maximum Credits: 1
Academic Career: Undergraduate

RUSS 0210 - INTENSIVE BEGINNING RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
Academic Career: Undergraduate
RUSS 0211 - BEGINNING INTENSIVE RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a first-year Russian course, equivalent to RUSS 0010 and 0020 and RUSS 0210. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0220 - INTENSIVE INTERMEDIATE RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
A rigorous presentation of the basic uses of all nominal and verbal categories: declensions of nouns and adjectives in all cases, singular and plural, deepening of the knowledge of aspect uses, verbs of motion, conditional sentences, imperatives, indefinite pronouns, comparison of adjectives, time expressions, prepositional phrases. Attention paid to phraseology on both oral and written levels, introduction to participles and verbal adverbs. Great emphasis is placed on developing fluency in conversation.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0221 - INTERMEDIATE INTENSIVE RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a second-year Russian course, equivalent to RUSS 0030 and 0040 and RUSS 0220. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0226 - INTERMEDIATE INTENSIVE RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This is a course in second-year intermediate intensive Russian held abroad for eight weeks during summer. This course is eight weeks in duration.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Attributes: Study Abroad

RUSS 0230 - INTENSIVE ADVANCED RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
This intensive course has two components: the first, conversation, will consist in the preparation of dialogues, debates, and in-class discussions in Russian. The second, grammar, will be based on an accompanying grammar text and on short compositions that will draw on material covered in the text. The course objectives are: to develop a familiarity with the more subtle and complex aspects of Russian grammar; to develop an active vocabulary in practical, everyday topics, suited for travel to the soviet union; to refine composition skills.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0231 - ADVANCED INTENSIVE RUSSIAN PITT/MOSCOW
Minimum Credits: 10
Maximum Credits: 10
This is an advanced-level (third-year) Russian language course, equivalent to RUSS 0400 and 0410 and RUSS 0230. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0236 - ROTC ADVANCED RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This study abroad course at the advanced level of Russian, designed for ROTC project go scholarship recipients, develops an active vocabulary and grammar in practical, everyday topics, improves writing and speaking skills, and enriches cultural competency. Students will participate in a combination of intensive language classes, lectures, and cultural excursions.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0240 - INTENSIVE FOURTH-YEAR RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
This intensive course is a survey of 19th century Russian literature aimed at post-third year Russian students. The course will consist of lectures, readings, and discussions covering the major 19th century authors; also translation, grammar review and composition and conversation practice.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0241 - 4TH YEAR INTENSIVE RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a fourth-year Russian language course requiring an advanced knowledge of the Russian language. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

RUSS 0246 - ROTC 4TH YEAR RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This study abroad course at the fourth-year level of Russian, designed for ROTC project go scholarship recipients, develops an active vocabulary and grammar in practical, everyday topics, improves writing and speaking skills at the super advanced level, and enriches cultural competency. Students will participate in a combination of intensive language classes, lectures, and cultural excursions.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0325 - THE SHORT STORY

Minimum Credits: 3
Maximum Credits: 3
This course will be devoted to reading short stories from 19th and 20th century Russian literature. The authors include 19th century masters Pushkin, Gogol, Dostoevsky, Tolstoy, and Chekhov--to 20th century favorites Babel, Zamyatin and Zoshchenko, right up to contemporary writers Solzhenitsyn, Shalamov, Petrusheuskaya, Tolstaya, and Tokareuy.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0202 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: DSAS Literature General Ed. Requirement, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., SCI Polymathic Contexts: Humanistic GE. Req., Writing Requirement Course

RUSS 0400 - ADVANCED RUSSIAN 1

Minimum Credits: 3
Maximum Credits: 3
This three-credit course develops third-year students' reading, writing, and oral skills through grammar review and readings. Students will write compositions in Russian and will summarize and comment in Russian on their reading in addition to participating in grammar review exercises in class.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

RUSS 0410 - ADVANCED RUSSIAN 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Advanced Russian 1, this three-credit course will focus on developing students' reading, writing, and oral skills through grammar review and readings.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

RUSS 0590 - FORMATIVE MASTERPIECES

Minimum Credits: 3
Maximum Credits: 3
This course will be devoted to reading formative literary masterpieces from the 19th century. The authors include Tolstoy, Dostoevsky and Chekhov and others such as Pushkin, Gogol, Turgenev and Ostrovsky.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0740 - EVENING RUSSIAN 4

Minimum Credits: 4
Maximum Credits: 4
This is a second-year, second-semester Russian course conducted in the evening for non-majors.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0800 - MASTERPIECES 19TH CENTURY RUSSIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will focus on selected masterpieces of Russian literature of the nineteenth century. The chosen works will be studied and discussed for their intrinsic literary value and as examples of main literary trends. Readings will include short stories by Pushkin, Gogol, Leskov, and Chekov, as well as Gogol's novel "Dead Souls", Dostoevsky's "Crime and Punishment", and Tolstoy's "War and Peace".
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0202 or 0202 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
RUSS 0810 - MASTERPIECES 20TH CENTURY RUSSIAN LITERATURE

Minimum Credits: 3  
Maximum Credits: 3  
This course will focus on selected masterpieces of twentieth century Russian literature; particularly on four major authors; Bely (Petersburg), Pasternak (Dr. Zhivago), Babel (Red Cavalry), and Solzhenitsyn (Ivan Denisovich). Stories of more contemporary writers, including Rasputin, Bitov, Trifonov, Iskandar, Sinyavsky, Shukshin, and Voinovich, will also be read. Emphasis is placed on the variety of prose narratives popular in the 20th century, and on the emergence of new problems and perspectives and their expression in the context of Soviet Russia.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0202 or 0203 or 0205 or 0207 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*

RUSS 0811 - MADNESS AND MADMEN IN RUSS CULTURE

Minimum Credits: 3  
Maximum Credits: 3  
This course explores the theme of madness in Russian literature from its medieval period through our days. The emphasis will be placed not only on literary works, but also on painting, music, and cinema, as well as on nonfictional documents, such as Russian medical, judicial, political, and religious treatises and essays on madness. Reading assignments will draw from theoretical (Foucault), cultural history (Billington, Rzhevsky), and literary sources.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

RUSS 0850 - EARLY RUSSIAN CULTURE

Minimum Credits: 3  
Maximum Credits: 3  
This course introduces the student to the development of Russian culture from 988 through 1825, including Russia's religious, artistic, and ideological writings. Readings will include the chronicles, vitae, apocrypha, epistolary polemics, secular tales, autobiography, and early prose fiction. Visual art and architecture of the Kievan, Novgorod, and Romanov periods of Russian history provide a larger artistic context for the literary works.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Geographic Region General Ed. Requirement, DSAS Literature General Ed. Requirement, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., Writing Requirement Course

RUSS 0860 - MODERN RUSSIAN CULTURE

Minimum Credits: 3  
Maximum Credits: 3  
From the reign of Nicholas I to the Gorbachev administration, Russian intellectual and artistic discourse has repeatedly returned to the question of Russia's relationship with the West. This issue will provide the focus for a cultural overview of the last two centuries.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

RUSS 0870 - RUSSIAN FILM: EISENSTEIN AND COMPANY

Minimum Credits: 3  
Maximum Credits: 3  
The course presents the history of Russian and Soviet films, filmmaking, and the film industry from the coronation of Tsar Nicholas II to the death of Stalin.

Academic Career: Undergraduate  
Course Component: Lecture
RUSS 0871 - RUSSIAN FILM STALIN TO PUTIN

Minimum Credits: 3
Maximum Credits: 3
The course traces the history of Russo-Soviet cinema from the death of Stalin to the present. Particular attention is paid to the four major periods in Russo-Soviet history since the death of Stalin.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*

RUSS 1066 - FORBIDDEN LOVE ON PAGE AND SCREEN

Minimum Credits: 3
Maximum Credits: 3
This course examines the mythology of extramarital transgression. Our primary focus will fall on the screen adaptations of four nineteenth-century novels of adultery: The Scarlet Letter (1850), Madame Bovary (1857), Anna Karenina (1875-1877), and Effi Briest (1895). We will read and analyze graphic novels based on these literary sources. Integrated into the course will be the verbal and visual texts which will allow us to realize that the novels of adultery are on a par with their celluloid and graphic-novel (comics-format) versions constitute the multi-faceted construct resting on the adultery myth.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

RUSS 1202 - DOSTOEVSKY: THE MAJOR NOVELS

Minimum Credits: 3
Maximum Credits: 3
A close contextual examination of Dostoevsky's major novels, beginning with "notes from underground": crime and punishment, the idiot, the devils, raw youth, and the brothers Karamazov. Each text will be analyzed in the context of the cultural and intellectual debates that accompanied its reception in imperial Russia and the Soviet Union. Secondary readings will include representative essays by the social critics, formalists, Marxists, and semioticians.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course, Russian & East European Studies

RUSS 1210 - MAN/SUPERMAN: REPRESENTATIONS SUPERIOR INDIVIDUALS IN LITERATURE, FILM, PHILOSOPHY, DRAMA, AND MUSIC

Minimum Credits: 3
Maximum Credits: 3
In 1866, in an apartment in St. Petersburg, Russia, Rodion Raskolnikov decides to rid the world of evil by murdering an old pawnbroker with an axe. This course examines literary, cinematic, dramatic, musical and philosophical responses to that murder, examining such questions as: what is a superior individual? What is the role of motivation in action? Must all action have an underlying motivation or is gratuitous action possible? What is the role of confession and legacy in the actions of the superman and his acts of will? What are the obligations of the superman to society.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
RUSS 1307 - CHEKHOV

Minimum Credits: 3  
Maximum Credits: 3  
The three major aspects of Chekhov's art will be examined -- the humoristic stories and sketches of his youth, the typical Chekhovian story of his middle period, and his plays. Chekhov's place in the context of Russian literature and his importance as an original and modern playwright, as well as his lasting contribution to the understanding of modern characters and situations will be assessed.

- **Course Component:** Workshop
- **Grade Component:** Letter Grade
- **Course Attributes:** DSAS Second Language General Ed. Requirement, Russian & East European Studies

### SERCRO 0211 - INTENSIVE BEGINNING BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN

- **Minimum Credits:** 6
- **Maximum Credits:** 6
- This is a four-skills intensive course in beginning Bosnian/Croatian/Montenegrin/Serbian language, which is to be offered as part of the summer intensive workshops in Slavic languages.
- **Academic Career:** Undergraduate
- **Course Component:** Workshop
- **Grade Component:** Letter Grade
- **Course Attributes:** DSAS Second Language General Ed. Requirement, Russian & East European Studies

### SERCRO 0212 - BEGINNING BOSNIAN-CROATIAN-SERBIAN PITT-MONTENEGRO

- **Minimum Credits:** 10
- **Maximum Credits:** 10
- This is an intensive course in beginning intensive Serbian which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Montenegro. It is part of the Russian and East European summer language institute.
- **Academic Career:** Undergraduate
- **Course Component:** Workshop
- **Grade Component:** Letter Grade
- **Course Attributes:** Russian & East European Studies

### SERCRO 0213 - INTERMEDIATE BOSNIAN-CROATIAN-SERBIAN IN MONTENEGRO

- **Minimum Credits:** 4
- **Maximum Credits:** 4
- This is a four week course in intermediate intensive Serbian conducted in Montenegro which follows the six-week Pittsburgh intensive course. Students must complete the prior course or have had at least three semesters of Serbian language, or a prior intermediate-level knowledge of the
language to register for this component.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

SERCRO 0220 - INTERMEDIATE INTENSIVE SERBIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills intensive course in intermediate Slovak which is offered as part of a summer intensive workshop in Slavic languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

SERCRO 0221 - INTENSIVE INTERMEDIATE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills intensive course in intermediate Bosnian/Croatian/Montenegrin/Serbian, which is offered as a part of a summer intensive workshop in Slavic languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

SERCRO 0223 - INTERMEDIATE INTENSIVE SERBIAN PITT- MONTENEGRO

Minimum Credits: 10
Maximum Credits: 10
This is an intensive course in intermediate intensive Serbian which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Montenegro. It is part of the Russian and East European summer language institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

SERCRO 0230 - ADVANCED INTENSIVE SERBIAN/CROATIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills intensive course in advanced Serbian language which is to be offered as part of the summer intensive workshops in Slavic languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

SERCRO 0231 - ADVANCED INTENSIVE SERBIAN PITT-MONTENEGRO

Minimum Credits: 10
Maximum Credits: 10
This is an intensive course in advanced intensive Serbian which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Montenegro. It is part of the Russian and East European summer language institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: Russian & East European Studies

SERCRO 0233 - ADVANCED INTENSIVE SERBIAN IN MONTENEGRO
Minimum Credits: 4
Maximum Credits: 4
This is a four week course in advanced intensive Serbian conducted in Montenegro which follows the six-week Pittsburgh intensive course. Students must complete the prior course or have had at least five semesters of Serbian language, or a prior intermediate-level knowledge of the language to register for this component.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

SERCRO 0240 - FOURTH YEAR SERBIAN/CROATIAN/BOSNIAN

Minimum Credits: 6
Maximum Credits: 6
This is a fourth-year language course in Serbian/ Croatian/ Bosnian open to those with an advanced knowledge and to heritage speakers who wish to improve their written and spoken communicative competence.

Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

SERCRO 0400 - ADVANCED BOSNIAN/CROATIAN/MONTENEGрин/SERBIAN 5

Minimum Credits: 3
Maximum Credits: 3
This course (third-year first-semester Bosnian/Croatian/Montenegrin/Serbian) is a systematic review of grammar and phraseology, which develops the student's vocabulary, grammar and communicative competence.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

- **Maximum Credits:** 4
- This is an intensive course in intermediate intensive Czech which meets for four weeks during summer term in Prague, Czech Republic. It is part of the Slavic, East European, and Near Eastern Summer Language Institute.

**Academic Career:** Undergraduate

**Course Component:** Workshop

**Grade Component:** Letter Grade

### SLAV 0230 - ADVANCED INTENSIVE CZECH

- **Minimum Credits:** 6
- **Maximum Credits:** 6
- This is a four skills intensive course in advanced Czech language which is offered as part of the summer intensive workshop in Slavic languages.

**Academic Career:** Undergraduate

**Course Component:** Workshop

**Grade Component:** Letter Grade

### SLAV 0232 - ADVANCED INTENSIVE CZECH - PRAGUE

- **Minimum Credits:** 6
- **Maximum Credits:** 6
- This is an intensive course in advanced intensive Czech which meets for six weeks during summer term in Prague, Czech Republic. It is part of the Russian and East European summer language institute.

**Academic Career:** Undergraduate

**Course Component:** Workshop

**Grade Component:** LG/SNC Elective Basis

**Course Attributes:** Russian & East European Studies

### SLAV 0234 - INTENSIVE ADVANCED CZECH IN CZECH REPUBLIC

- **Minimum Credits:** 4
- **Maximum Credits:** 4
- This is an intensive course in advanced intensive Czech which meets for four weeks during summer term in Prague, Czech Republic. It is part of the Slavic, East European, and Near Eastern Summer Language Institute.

**Academic Career:** Undergraduate

**Course Component:** Workshop

**Grade Component:** Letter Grade

### SLAV 0660 - SCI-FI: EAST AND WEST

- **Minimum Credits:** 3
- **Maximum Credits:** 3
This course compares Slavic and Anglophone science fiction to assess how a given culture's dominant values are articulated in a popular genre that enjoys different status in East and West. Those values emerge in works that imaginatively posit "fantastic" situations rooted in biological, spatial, and temporal explorations beyond those verified by science. On the basis of films, film clips, TV shows, stories, novellas, and novels we shall discuss such topics as utopia, progress, human perfectibility, the limits of science, and the nature of knowledge.

**Academic Career: Undergraduate**

**Course Component: Lecture**

**Grade Component: LG/SNC Elective Basis**

**Course Attributes:** DSAS Cross-Cult. Awareness General Ed. Requirement, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

**SLAV 0880 - VAMPIRE: BLOOD AND EMPIRE**

**Minimum Credits:** 3

**Maximum Credits:** 3

This course examines the phenomenon of vampirism in verbal and visual texts from different time periods in various cultures (Russia, Poland, France, England, America). We will analyze stories, novels, and films focusing on vampires from a variety of critical perspectives, contextualizing the works in the cultures that produced them.

**Academic Career: Undergraduate**

**Course Component: Lecture**

**Grade Component: LG/SNC Elective Basis**

**Course Attributes:** DSAS Geographic Region General Ed. Requirement, Global Studies, Russian & East European Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., West European Studies

**SLAV 1050 - COMPUTATIONAL METHODS IN HUMANITIES**

**Minimum Credits:** 3

**Maximum Credits:** 3

This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.

**Academic Career: Undergraduate**

**Course Component: Lecture**

**Grade Component: LG/SNC Elective Basis**

**Course Attributes:** Capstone Course, DSAS Quant.-Formal Reason General Ed. Requirement

**SLAV 1135 - ORTHODOX CHRISTIANITY**

**Minimum Credits:** 3

**Maximum Credits:** 3

This course is designed as an overview of the history, teachings and rituals of Eastern Orthodox Christianity in its multinational context. Geographically, this context refers primarily to southeastern Europe, Russia and the coastal areas of the eastern Mediterranean, but there is also a significant Orthodox diaspora in the western hemisphere and in other parts of the world. We shall examine specific historical experience of Orthodox Christians in its Byzantine context, under Ottoman rule, in the Russian Empire, under communism, and beyond. We consider the broader context of Eastern Christianity (including Oriental Orthodoxy, the Church of the East, and Eastern Catholicism), as well as relations with Western Catholic and Protestant Christianity, and other religions and systems of belief (e.g., Judaism, Islam, atheism). Through lectures, readings, discussions, films, and a field trip to a local Orthodox church, students will gain an insight into multifaceted world of Orthodox Christianity: its spiritual practices, rich artistic, musical and ritual expressions.

**Academic Career: Undergraduate**

**Course Component: Lecture**

**Grade Component: LG/SNC Elective Basis**

**Course Attributes:** DSAS Cross-Cult. Awareness General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req.

**SLAV 1225 - BEHIND BARS: CROSS CULTURAL REPRESENTATIONS OF PRISON IN THE 20TH CENTURY**

**Minimum Credits:** 3

**Maximum Credits:** 3

This course examines cultural works produced in and about prison in the 20th century, addressing the function of art within the context of incarceration. In structure the course is composed of three parts: prison writings and criminal culture in America, memoirs from the forced-labor camps of the soviet gulag, and narratives of holocaust concentration camps. This structure allows for a comparison of cultures-- American, Russian, and European--as well as identities-- racial, gender, and religious.

**Academic Career: Undergraduate**
SLAV 1710 - UNDERGRADUATE TEACHER TRAINING

Minimum Credits: 1
Maximum Credits: 3
This is an elective course for gaining teaching experience under the supervision of the Slavic department faculty.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course, Russian & East European Studies

SLAV 1720 - UNDERGRADUATE TEACHING

Minimum Credits: 1
Maximum Credits: 3
This is an elective course for students who wish to gain teaching experience under the supervision of the Slavic department faculty.
Academic Career: Undergraduate

Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course, Russian & East European Studies

SLAV 1850 - UNDERSTANDING THE BALKANS: INTRODUCTION TO BALKAN CULTURE AND LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Introduction to Balkan Culture and Literature course will be offered for the first time alongside the current Slavic department offerings and it comes at a very exciting moment of approving a minor in Bosnian/Croatian/Serbian. This course is an introduction to the Slavic countries of the Balkans (Bosnia and Herzegovina, Bulgaria, Croatia, Montenegro, North Macedonia, Serbia, Slovenia), focusing on the period from the 14th century up to the modern days. Students will study Balkan culture, literature and film (classic and modern), and through these and other readings learn about Balkan history, politics, literature and culture. In addition, they will come to appreciate the cultural nuances in the Balkans and gain an understanding of the various regional subjectivities and points of view. Through this course, students will learn -to understand the term "Balkan" as both a construct and a geographical region -to become familiar with major authors of the region and their works -to gain a basic understanding of the cultural specificity of Balkan countries -to develop an appreciation for the literature and film of the region -to engage in productive dialogue and writing about cultural texts This class will appeal not only to the major and minors in Slavic but also to students from all areas of the Dietrich School of Arts and Sciences with an emphasis on those who are interested in pursuing certificates in the Russian and East European Studies, European Studies and Global Studies. Since this course is taught in English, students may learn about the region in a manner that best suits their interests and capabilities.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Minimum Credits: 3
Maximum Credits: 3
This course is structured around the chronology of events in central and East Europe leading up to the demise of the old soviet union in 1991. The course will follow the results of the dramatic changes in Poland, Czechoslovakia, East Germany, Hungary, Romania, Bulgaria, Yugoslavia, and some of the former republics of the Soviet Union through the present time.

This is a four skills intensive course in beginning Latvian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLI 1900 - SUMMER LANGUAGE INSTITUTE INTERNSHIP

Minimum Credits: 1
Maximum Credits: 4
This course offers students of Pitt's Slavic, East European, and Near Eastern Summer Language Institute the opportunity to apply the language skills acquired through study at SLI to work and research at site specializing in the SLI regions and languages.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

Slovak

SLOVAK 0010 - ELEMENTARY SLOVAK 1

Minimum Credits: 3
Maximum Credits: 3
This four-skills language course introduces the student to the fundamentals of Slovak pronunciation and speaking, reading, writing and listening, with emphasis on practical conversation. The present tense of verbs, the plural of nouns, and the gradation of adjectives and adverbs is covered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

SLOVAK 0020 - ELEMENTARY SLOVAK 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Slovak 0010, this course extends the grammatical coverage to include verbal aspects, numeral expressions, and the locative, dative, and genitive cases. Emphasis continues to be on developing spoken language competence.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Second Language General Ed. Requirement, Russian & East European Studies

SLOVAK 0030 - INTERMEDIATE SLOVAK 3

Minimum Credits: 3
Maximum Credits: 3
The continuation of Slovak 0020, this course focuses more on written Slovak and developing listening comprehension than in the first-year course. Attention is paid to developing a good control of basic idioms, and to the formation of participles.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies
SLOVAK 0040 - INTERMEDIATE SLOVAK 4

Minimum Credits: 3  
Maximum Credits: 3
The continuation of Slovak 0030, this course attempts to round out the student's basic oral competence in relation to specific matters of Slovak culture and reality. For many students, this course is preparatory to summer study in Slovakia.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

SLOVAK 0210 - INTENSIVE BEGINNING SLOVAK

Minimum Credits: 6  
Maximum Credits: 6
This is a four-skills intensive course in beginning Slovak language which is to be offered as part of the summer intensive workshops in Slavic languages.
Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: Letter Grade  
Course Attributes: DSAS Second Language General Ed. Requirement, Russian & East European Studies, West European Studies

SLOVAK 0211 - BEGINNING INTENSIVE SLOVAK PITT/SLOVAKIA

Minimum Credits: 10  
Maximum Credits: 10
This is an intensive course in intermediate intensive Slovak which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Slovakia. It is part of the Russian and East European summer language institute.
Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: Letter Grade  
Course Attributes: Russian & East European Studies

SLOVAK 0220 - INTENSIVE INTERMEDIATE SLOVAK

Minimum Credits: 6  
Maximum Credits: 6
This is a four skills intensive course in intermediate Slovak which is offered as part of the summer intensive workshops in Slavic languages.
Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: Letter Grade  
Course Attributes: Russian & East European Studies, West European Studies

SLOVAK 0221 - INTERMEDIATE INTENSIVE SLOVAK PITT/SLOVAKIA

Minimum Credits: 10  
Maximum Credits: 10
This is an intensive course in intermediate intensive Slovak which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Slovakia. It is part of the Russian and East European summer language institute.
Academic Career: Undergraduate  
Course Component: Workshop  
Grade Component: Letter Grade  
Course Attributes: Russian & East European Studies

SLOVAK 0222 - INTERMEDIATE INTENSIVE SLOVAK IN SLOVAKIA

Minimum Credits: 4  
Maximum Credits: 4
This is a four week course in intermediate intensive Slovak conducted in Slovakia which follows the six-week Pittsburgh intensive course. Students must complete the prior course or have had at least three semesters of Slovak language, or a prior intermediate-level knowledge of the language to register for this component.
SLOVAK 0230 - ADVANCED INTENSIVE SLOVAK

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills intensive course in advanced Slovak which is offered as part of a summer intensive workshop in Slavic languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

SLOVAK 0231 - ADVANCED INTENSIVE SLOVAK PITT/SLOVAKIA

Minimum Credits: 10
Maximum Credits: 10
This is an intensive course in advanced intensive Slovak which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Slovakia. It is part of the Slavic, East European, and Near Eastern Summer Language Institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade

SLOVAK 0232 - ADVANCED INTENSIVE SLOVAK/BRATISLAVA

Minimum Credits: 6
Maximum Credits: 6
This is an intensive course in advanced intensive Slovak language which meets for six weeks during summer term in Bratislava, Slovak republic. 140 Contact hours. It is part of the Russian and East European summer language institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLOVAK 0234 - ADVANCED INTENSIVE SLOVAK IN SLOVAKIA

Minimum Credits: 4
Maximum Credits: 4
This is an intensive course in advanced intensive Slovak language which meets for four weeks during summer term in Bratislava, Slovak Republic. It is part of the Slavic, East European, and Near Eastern Summer Languages Institute.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade

SLOVAK 0380 - SLOVAK TRANSATLANTIC CULTURES

Minimum Credits: 3
Maximum Credits: 3
Slovak European history and the interaction of Slovak and American cultures during the 120-year history of Slovak immigration is conveyed through readings in Slovak and Slovak-American literature, and through issues in literary theory that concern this theme. The course is structured around the history of Slovak, and in a broader cultural sense central European, immigration to the United States with a special focus on Pittsburgh. The students are encouraged to investigate Pittsburgh's rich ethnic heritage and to research and write on topics tailored to their individual interests.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
SLOVAK 0400 - ADVANCED SLOVAK 1

Minimum Credits: 3  
Maximum Credits: 3  
This course extends grammatical and conversational skills of those with an intermediate knowledge of Slovak. The course also covers aspects of Slovak culture and makes extensive use of contemporary texts from Slovakia. The students also learn elementary translation skills. Emphasis is put on fluency in conversation and on comprehension of unedited original reading material from newspapers and magazines.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

SLOVAK 0410 - ADVANCED SLOVAK 2

Minimum Credits: 3  
Maximum Credits: 3  
This course continues in developing skills learned in advanced Slovak 1. It extends the range of conversational topics and teaches more complex grammatical structures. It builds elementary skills needed to write brief essays in Slovak. The course also expands the students' translation skills and reading and listening comprehension.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM

Minimum Credits: 3  
Maximum Credits: 3  
The course presents central European filmmaking in its cultural context, and central European (Czech, Slovak, Hungarian, etc.) Culture through film. The students learn to discuss them in their cultural context against the panorama of life in central Europe, as well as from the American perspective. The focus is both on film aesthetics, and on the social implications of the content of the films, which was considered crucial by central European directors, screenwriters, and audiences.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)  

SLOVAK 1250 - A CULTURAL HISTORY OF SLOVAKIA

Minimum Credits: 3  
Maximum Credits: 3  
This course meets the needs of those interested in Slovak and central European affairs, history, cultures, peoples, languages and traditions. The history of Slovakia mirrors the history of many other central European peoples whose growing national aspirations have changed the area's political map on numerous occasions, most recently after the collapse of communism. The course also meets the needs of students interested in aspects of nationalism in Europe.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

SLOVAK 1901 - INDEPENDENT STUDY

Minimum Credits: 1  
Maximum Credits: 3  
This course allows students to work independently on individually designed projects.  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies
UKRAIN 0010 - ELEMENTARY UKRAINIAN 1

Minimum Credits: 3
Maximum Credits: 3
A four-skill language course, this course introduces the student to the fundamentals of Ukrainian pronunciation and speaking, reading, writing and listening, with emphasis on practical conversation. The present tense of verbs, the plural of nouns, and the gradation of adjectives and adverbs is covered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

UKRAIN 0020 - ELEMENTARY UKRAINIAN 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of elementary Ukrainian 1, this four-skill language course extends the grammatical coverage to include verbal aspect, numeral expressions, and the locative, dative and genitive cases. Emphasis continues to be on developing spoken language competence.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

UKRAIN 0030 - INTERMEDIATE UKRAINIAN 1

Minimum Credits: 3
Maximum Credits: 3
The continuation of elementary Ukrainian 2, this course focuses more on written Ukrainian and developing listening comprehension than in the first-year course. Attention is paid to developing a good control of basic idioms, and to the formation of participles.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

UKRAIN 0040 - INTERMEDIATE UKRAINIAN 2

Minimum Credits: 3
Maximum Credits: 3
The continuation of intermediate Ukrainian 1, this course attempts to round out the student's basic oral competence in relation to specific matters of Ukrainian culture and reality. For many students, this course is preparatory to summer study in the Ukraine.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Russian & East European Studies

UKRAIN 0210 - INTENSIVE BEGINNING UKRAINIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Ukrainian which is offered as part of the summer intensive workshops in Slavic languages.
Academic Career: Undergraduate
Course Component: Workshop
Grade Component: Letter Grade
Course Attributes: DSAS Second Language General Ed. Requirement, Russian & East European Studies

UKRAIN 0400 - ADVANCED UKRAINIAN

Minimum Credits: 3
Maximum Credits: 3
This is a course in advanced Ukrainian language (third-year, first semester) and is a four-skill course.
Academic Career: Undergraduate
**UKRAIN 0410 - ADVANCED UKRAINIAN 2**

Minimum Credits: 3  
Maximum Credits: 3  
This is a continuation (second semester, third year) course in advanced Ukrainian language.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

**UKRAIN 1901 - INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 3  
This course allows students to work independently on individually designed projects.  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Russian & East European Studies

**Social Work**

**SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK**

Minimum Credits: 3  
Maximum Credits: 3  
Explores social work in terms of what the profession seeks (its goals); what it does to achieve those goals (its direct practice methods); which principles are to be reflected in all professional social work activity (its values and ethics); how the profession evolved (its history); which social issues are of particular concern to social workers (its fields of practice); and how effective is professional social work (its evaluative systems). This is a service learning course and requires 45 hours of volunteer service as part of the course.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: Urban Studies

**SOCWRK 1001 - INTRODUCTION TO SOCIAL WORK IN CIVIC ENGAGEMENT**

Minimum Credits: 1  
Maximum Credits: 3  
Explores social work in terms of what the profession seeks (its goals); what it does to achieve those goals (its direct practice methods); which principles are to be reflected in all professional social work activity (its values and ethics); how the profession evolved (its history); which social issues are of particular concern to social workers (its fields of practice); and how effective is professional social work (its evaluative systems). This is a service learning course and requires 45 hours of volunteer service as part of the course. This course is required for only students participating in the Upperclass Service to Others Living Learning Community (LLC).  
Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SNC Elective Basis

**SOCWRK 1005 - FOUNDATIONS OF THE WELFARE STATE**

Minimum Credits: 3  
Maximum Credits: 3  
The objective of this course is to examine the nature and structure of social welfare services and institutions; historical and cultural foundations of how societies have provided welfare services for people; current issues in the provision of services.  
Academic Career: Undergraduate  
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: Urban Studies

SOCWRK 1006 - POLICY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Engages students in analyses of the nature and impact of economic/political/social ideologies and forces which shaped the development of American social welfare policies and services from 1935 to present, including policies/services related to personal and social services, health and mental health, income redistribution and income maintenance, employment, and criminal justice and including discussions of the processes of policymaking itself. This is a service learning course and requires 45 hours of volunteer service as part of the course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1000 and 1005

SOCWRK 1008 - ETHNICITY AND SOCIAL WELFARE

Minimum Credits: 3
Maximum Credits: 3
This course provides an understanding and working knowledge of the interface of ethnicity and race and the social welfare system. Critical ways in which the social welfare system has been shaped by ethnic and racial factors will be discussed, as well as the effects of race and ethnicity on the ways in which various ethnic and racial groups use the social welfare system, ways in which services/resources are allocated, and reasons that propel individuals and groups to seek out social services and resources.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: SOCWRK-BSW
Course Attributes: Global Studies

SOCWRK 1009 - CASE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the fundamental aspects of case management (service coordination), including common case management roles, processes, responsibilities, and employment challenges. Major content areas include: case management roles (including advocate, broker, resource coordinator), the roles and responsibilities of the multidisciplinary team (including nurses, social worker, physicians, and other disciplines), case management with special populations (forensic, geriatric, children, diverse populations), and the responsibilities of a case manager working in health care and mental health settings. Students will be introduced to the employment challenges of case management (types of programs that hire case managers, workforce retention issues, expectations of case manager, and job satisfaction). Students will develop familiarity with how case managers and clients interface with individual, group, and family systems. Students will develop knowledge of case management ethics and explore common ethical dilemmas and boundaries issues that confront case managers.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1010 or PSY 1210 (MINGRADE: ’C-’ for all listed Courses); Plan: Psychology(BS) or Social Work(BSW); LVL: Jr, Sr

SOCWRK 1010 - PRA MODL:HELP PEPL HELP SELVES

Minimum Credits: 3
Maximum Credits: 3
This course identifies generic principles of social work methods of intervention within a systems frame of reference. Didactic and experiential methods will be used.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1011 - INTRODUCTION TO GENERALIST METHODS: SOCIAL WORK WITH INDIVIDUALS AND FAMILIES
Minimum Credits: 3
Maximum Credits: 3
Teaches interventive skills in casework with individuals and families, with emphasis on the problem-solving psychosocial, and behavioral approaches.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Social Work

SOCWRK 1012 - SOCIAL WORK WITH COMMUNITIES AND ORGANIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to macro practice through understanding and analyzing organizations and the relationship of organizations to the urban community. The focus is on the acquisition of practice skills in community organization, e.g. locality development, social planning, and social action.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Social Work (BSW) ; PREQ: SOCWRK 1011

SOCWRK 1013 - SOCIAL WORK WITH GROUPS

Minimum Credits: 3
Maximum Credits: 3
Introduces the student to social group work as a method in social work practice. The history of the development of groups in social work with emphasis on practice in the United States is also presented. Remedial, reciprocal and social goals models will be analyzed in relation to the worker's use of self, group, structure, group process, phase development and the agency functions used to achieve individual and group goals.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1011 (MIN GRADE 'C-'); PLAN: Social Work

SOCWRK 1015 - HUMAN BEHAVR & SOCL ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to view the range of human needs and behavior as related to various conditions of the urban scene. Examines social, political, economic, and cultural factors which influence individual, group, and community social functioning.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1020 - INTRODUCTION TO SOCIAL WORK RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This course is oriented to the reader and user of social work research. Using standard methodology texts and actual research studies, the lectures and discussions are designed to enable students to read and assess studies relevant to social work practice. In this process, the development and conduct of social research, as it applies to the issues and concerns of social work practice, is described and analyzed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: Any Statistics Course; PLAN: Social Work (SOCWRK-BSW)

SOCWRK 1024 - PRACTICUM SEMINAR AND LAB 1

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is for students to be able to identify their feelings and behaviors as well as those of their clients and colleagues which affect the course of their interventions within their practice area.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: CREQ: SOCWRK 1025
Course Attributes: Capstone Course

SOCWRK 1025 - PRACTICUM 1

Minimum Credits: 6
Maximum Credits: 6
Placement in an agency will be made according to interest and educational need. Evaluation will be made of the student's ability to use classroom theories to enhance service.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.
Course Attributes: Capstone Course

SOCWRK 1026 - PRACTICUM SEMINAR AND LAB 2

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to facilitate the student's development of a professional self through the integration of classroom and practicum learning and to provide students an opportunity to amplify their practice learning beyond their immediate placements as a result of guided interactional experiences with other students.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1024 (MIN GRADE 'C-'); CREQ: SOCWRK 1027
Course Attributes: Capstone Course

SOCWRK 1027 - PRACTICUM 2

Minimum Credits: 6
Maximum Credits: 6
A continuation of Practicum 1.
Academic Career: Undergraduate
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.
Course Attributes: Capstone Course

SOCWRK 1030 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
Directed study provides students with opportunity to explore in-depth a specific social work area beyond that available in regularly scheduled courses. Students must secure a faculty mentor, develop a written plan and receive approval of the plan in order to register for a directed study.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

SOCWRK 1035 - GLOBAL PERSPECTIVES SOCIAL WORK

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the international dimensions of the human condition; the global context of responses to human need; and social development as an approach to global social work practice.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: SOCWRK 1000
Course Attributes: Global Studies

SOCWRK 1058 - ECONOMICS AND SOCIAL WORK

Minimum Credits: 3
Maximum Credits: 3
This course provides an understanding of basic economic theory, and discusses its application to social welfare policy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: SOCWRK 1000

SOCWRK 1059 - CHILD AND FAMILY ADVOCACY

Minimum Credits: 3
Maximum Credits: 3
This is a practical skills course in legal advocacy for non-lawyers. The emphasis is on practical techniques and courtroom skills to enhance the professional effectiveness of social workers in the courtroom setting. Typical areas of discussion include rules of evidence, legal procedure, expert witnesses, interview techniques, cross-examination, law reform, case review and readings and the legal rights of children.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1063 - AFRICAN-AMERICAN HEALTH ISSUES

Minimum Credits: 3
Maximum Credits: 3
Course will focus on black health issues from analytical, theoretical and practical perspectives. These perspectives will be introduced through cross-examination of health topics which are critical to the black population, the development of health policies and conceptual models for health promotion and disease prevention.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1079 - CHILD WELFARE SERVICES

Minimum Credits: 3
Maximum Credits: 3
Engages students in the study of child welfare, its historical roots, the services provided to families and children, the problems and policy issues in the current child welfare system and culturally competent practice. The study will focus on the etiology, rationale for service, and the current and future provision of services, with emphasis given to legislative mandates for service.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SOCWRK 1000

SOCWRK 1080 - BROWNE LEADERSHIP FELLOWS SEMINAR

Minimum Credits: 1
Maximum Credits: 1
This seminar engages students in a practice that will lead to their own professional growth and development. The primary focus of this seminar will be on the development of the knowledge, values, and skills of a professional. During seminars, browne fellows will begin program design and implementation strategies for the summer program. Fellows will have the opportunity to hear from experts in the field but spend significant time exploring the topics. The final assessment is focused on a presentation and poster session. Only students that have applied to and been accepted into the Browne Leadership Fellows program are eligible to enroll in this course.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis
SOCWRK 1088 - SPECIAL TOPICS

Minimum Credits: 1
Maximum Credits: 3
Given the changing nature of generalist practice, the BASW program occasionally offers courses in new and/or unique content areas. This course is designed to provide skill and knowledge content not covered in other BASW courses.

Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

Sociology

SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE

Minimum Credits: 3
Maximum Credits: 3
This course takes as its object of inquiry the ordinary, familiar, routine, and unremarkable stuff of everyday life, beginning from the premise that, rather than being insignificant or inconsequential, what happens in everyday life crucially structures the world. As well, daily life is structured by larger social phenomena. As such, the study of everyday life provides a lens through which to explore such themes as the workings and effects of power, social change or the lack thereof, social inequality, quiescence and resistance, ideology, identity and difference, norms and normativity, subject formation and subjectivity, and practices of meaning making. Our mode of analysis will be to bring sociological concepts and theory to the sites and practices of everyday life to refine our sociological thinking and our understandings of the world. Along with exposing students to different schools of thought with regard to the study of everyday life, this course will provide students with the necessary tools to defamiliarize and denaturalize that which might seem natural, obvious, and axiomatic. It also is designed to help students think about the relationship between social processes and the individual and about what is at stake in understanding how they mutually affect one another in any given context.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0003 - TECHNOLOGY AND SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
To acquaint the student with major sociological concepts, approaches and theories that are applicable to the analysis of the interaction between technology and society. The discussions are organized around three issues; 1. The effects of technology upon various aspects of the social structure and functioning, 2. The social conditions which lead to innovations and the diffusion of innovations throughout society, and 3. Technology assessment and environmental impact statement processes as they bear on current national decisions bearing on technology/society interfaces.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0005 - SOCIETIES

Minimum Credits: 3
Maximum Credits: 3
This introductory course is devoted to furthering an understanding of life in America today by comparing it to a variety of societies worldwide. Among the societal aspects explored; political and economic systems, cultural styles, major religions and religious trends.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0007 - SOCIAL PROBLEMS

Minimum Credits: 3
Maximum Credits: 3
The major aims of this course are to understand the nature of important social problems in American society and analyze their causes and consequences. The two competing perspectives, one, that social problems are created when individuals fail to conform to societal norms, and two, that social problems are caused when institutions fail to meet changing needs and aspirations of individuals will be used in our analysis. Future trends and policy alternatives toward amelioration will be examined.
SOC 0010 - INTRODUCTION TO SOCIOLOGY

Minimum Credits: 3  
Maximum Credits: 3
This course introduces the student to the discipline of sociology, its development, theories, major findings, and to the sociological interpretation of modern society. Emphasis will be given to the importance of careful empirical investigation for the understanding of recent social and cultural changes. Students should be prepared to encounter basic issues in sociological method and in theory; an inclination toward systematic and abstract reasoning will help.

SOC 0140 - CLASSICAL SOCIOLOGICAL THEORIES

Minimum Credits: 3  
Maximum Credits: 3
This course will deal with the foundations of modern sociological theory through a study of major social theorists of the 19th and early 20th centuries.

SOC 0150 - SOCIAL THEORY

Minimum Credits: 3  
Maximum Credits: 3
The aim of this course is to provide a survey of major developments in sociological theory in recent times. The classic background for these developments is included as part of the course. Lectures, readings and discussions help the student to acquire a grasp of the significance of theoretical analysis in sociology and of basic sociological problems addressed by a variety of theorists.

SOC 0230 - SOCIAL RESEARCH METHODS

Minimum Credits: 3  
Maximum Credits: 3
Students begin to learn to do social research in this course. They learn how to define an appropriate problem, select an appropriate method, collect and analyze data, discuss their results, and draw conclusions. Students study both quantitative and qualitative methods.

SOC 0312 - SCIENCE IN SOCIETY

Minimum Credits: 3  
Maximum Credits: 3
The course aims at conveying an understanding of the social significance of science in modern society, dealing with questions of why science is valued, how society supports science, how scientists are selectively recruited and trained, how scientific activity is organized, and how scientific knowledge is utilized in society, especially in the United States and Europe. Focus is on the values attached to science by society, the interest in making new discoveries, organization of research, diffusion and transmission of scientific knowledge.

1699
SOC 0317 - GLOBALIZATION

Minimum Credits: 3
Maximum Credits: 3
The aim is to analyze the dynamics of civilization in today's interconnected world. How is people's social and cultural life shaped by their position in the world, by local traditions and distant forces? How have the independently coexisting civilizations of earlier centuries become incorporated into a global civilization in which colonial empires and the communist regime have given way to wider democracy and a capitalist regime with global dynamics? How is Western culture (beliefs, values and symbols) disseminated and embraced, modified or resisted in non-Western societies?

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0333 - IDEOLOGIES AND SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
The role of ideology in promoting, thwarting or preventing change is examined. An inquiry is made into how an ideology is formulated and implemented and what channels are used for its diffusion. Various kinds of political, religious and scientific ideologies are analyzed.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0339 - SOCIOLOGY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
This course will compare and contrast major classical and modern sociological theories of religion, including discussion of the renewed focus on religion in mainstream, general theory. Attention will be narrowed to a focus on relation between religions, states and individuals in comparative and historical perspective.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0351 - SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
Theories of social change will be evaluated in the light of case studies drawn from history and the contemporary world.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0352 - SOCIAL MOVEMENTS

Minimum Credits: 3
Maximum Credits: 3
This course offers ideological, structural, and functional treatment of dominant American movements for social and cultural change in our contemporary world.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
SOC 0411 - DECEPTION AND BETRAYAL

Minimum Credits: 3  
Maximum Credits: 3  
Students learn what sociologists and social psychologists have discovered about deception and betrayal in personal relationships, social institutions, national affairs, and international affairs.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: Global Studies, Writing Requirement Course

SOC 0424 - SMALL GROUPS

Minimum Credits: 3  
Maximum Credits: 3  
In this course, the study of small groups is viewed as one means of building general sociological knowledge. Such groups exhibit basic social processes, such as the emergence of status structures and of group cultures. Basic theory and research methods on such groups are treated. It is likely that the readings will include case studies of real groups that illustrate how group processes and structures are analyzed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  
Course Attributes: Writing Requirement Course

SOC 0431 - BUREAUCRACIES

Minimum Credits: 3  
Maximum Credits: 3  
This course examines bureaucratic organizations of all types (industrial, commercial, governmental, religious, educational, social welfare, etc.) giving special attention to decision-making. People make decisions according to bureaucratic rules, in problem-solving groups, and in interest groups which seek to win advantages for themselves and their members. Decisions and other organizational acts will be studied sociologically.

Course Attributes: Writing Requirement Course

SOC 0432 - WEALTH AND POWER

Minimum Credits: 3  
Maximum Credits: 3  
In this course we aim to understand the fundamental structure and workings of modern capitalist society. We will examine the distribution of wealth, income, and power in both the US and globally, and consider the notions of democracy and imperialism in the context of what we broadly call, "globalization". Can we have political equality in societies with high degrees of economic inequality? Are corporations too powerful? Whose side does government usually take the little guys' or the corporations'? Why? How is it possible that the richest nation in the world also has more poverty than any other "democratic" country? We will explore these and many other topics from the macro- to the micro- levels of analysis  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: DSAS Social Science General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req.

SOC 0434 - POLITICAL SOCIOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This course examines the relationship between political institutions and the institutions of the economy, family, education, religion, and stratification. With a major focus on American society and the conditions underlying stable democracy, these relationships are studied in historical and cross-societal comparative perspective as well as in terms of a society's location in the system of international relations.
SOC 0436 - SOCIAL ASPECTS OF SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
Students consider the social analysis of human sexual behavior and experience. Topics considered include sexual motivation, masturbation, premarital intercourse, marital intercourse, extramarital intercourse, homosexuality, and sexual norms and values.

SOC 0438 - SOCIOTOLOGY OF THE FAMILY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the sociological perspective on the family and analyzes how the structure and nature of family life are shaped by larger historical and social forces. We will look at how changes in the economy and technology affect the family; how ideas concerning gender roles affect male/female relationships and the socialization of children; how race, ethnicity, and class shape family life; and the wide variety of family forms, historical and contemporary.

SOC 0444 - URBAN SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
The modern city is simultaneously many different things. It is an assortment of neighborhoods, it is a workshop with factories and offices, it is a crisscross of transportation arteries, it is a marketplace for the interplay of economic interests, it is an object which several different governments try to understand and control, and it is an astonishing mixture of religious, racial, ethnic, recreational, avocational, professional, educational, medical, political, social, and deviant communities. This urban complex will be studied with a sociological approach.

SOC 0446 - SOCIOLOGY OF GENDER

Minimum Credits: 3
Maximum Credits: 3
This course will analyze the various processes and institutions through which gender roles are defined and shaped in our society. It will analyze the interaction between individual conceptions of gender and larger social institutions such as the family, the workforce, the media, religion, etc. The current changes in these roles will be related to changes in other social institutions. We will also examine the multiple forms of inequality in our society--based on sex, race, class, and sexual preference--and see how they interact.

SOC 0460 - RACE AND ETHNICITY

Minimum Credits: 3
Maximum Credits: 3
This is a course presenting the central sociological interpretations of majority/minority relations. The course begins with a consideration of minorities around the world. With world minorities as a frame of reference, the course turns to the United States and its special opportunities and problems.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**SOC 0465 - SOCIOLOGY OF SPORTS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course examines sports from a political economy perspective, emphasizing wealth and power in this social institution. We will do a critical examination of the role of sports in society, amateur and professional sports and how they affect our lives. In the process, we inevitably see how sports affects how we see ourselves as a society and as individuals, including notions of class, race and gender among other things. The focus of my course is the political economy of sports including the peculiar American NCAA and Power 5 college athletics, and of course the colossal sphere of professional sports. This analysis will reveal all of the traits upon which this institution sits capitalism. That means we will see exploitation, profit and power, all in the gladiators arena of sports.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Urban Studies

**SOC 0471 - DEVIANCE AND SOCIAL CONTROL**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course raises questions about what is "deviant" and how certain actions and beliefs come to be considered deviant. It also raises questions concerning the social, structural and cultural determinants of the decision to view something as "deviant" and in need of "control". The course explores changes in the definition of behavior which lead the same behaviors to be considered 'sins', 'crimes', 'illnesses', and 'alternative life-styles'.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Social Science General Ed. Requirement, SCI Polymathic Contexts: Soc/Behav. GE. Req., Urban Studies

**SOC 0472 - INTRODUCTION TO CRIMINOLOGY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Criminology refers to the scientific study of crime, its causes, and social responses to it. This course provides a broad overview of the study of crime. It examines the legal definitions and elements of crime; surveys the major categories of crime, i.e. predatory and non-predatory acts; reviews the major measures of crime; identifies the major correlates of crime, reviews and assesses the major theories of crime; differentiates types of offenders and explores various dimensions of their offending; and examines and evaluates the workings of the criminal justice system.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to help students understand how economic and political globalization impacts health outcomes in the United States and around the world. In this course we will explore how a variety of global factors affect people’s health and their access to health care. For instance, expanded international travel and migration contributes to the spread of infectious diseases and shapes a growing international labor market in health care. International economic policies such as patent law and trade agreements affect access to and delivery of health services and treatments and contribute to national, racial, and gendered inequities in health care. Climate change increases the prevalence of certain diseases and impacts availability of food and water. In addition, global economic forces shape the possibilities for national and local governments to provide for their citizens’ basic human needs such as safe drinking water, nutrition, and a healthy environment. Students will gain enough familiarity with global processes to appreciate the multiple influences on human health that are relevant to careers in a variety of fields related to the physical and social sciences and the humanities. This course fulfills social sciences and foreign culture/international global general education requirements.  
**Academic Career:** Undergraduate

**Course Attributes:** DSAS Global Issues General Ed. Requirement, DSAS Social Science General Ed. Requirement, SCI Polymathic Contexts: Global&Cross Cul GE. Req.
SOC 0474 - SOCIETY AND THE LAW

Minimum Credits: 3  
Maximum Credits: 3  
Every society regulates behavior and the means, i.e. Either informal or formal, with which this is done varies according to level of social development. This course examines the regulation of behavior in primitive, transitional, and modern societies and traces the development of law and legal systems and their relationship to different characteristics of social development. We will examine legal jurisprudence and the application of the principles of these philosophies and explore how they have shaped legal action.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 0475 - SOCIOLOGY OF AGING

Minimum Credits: 3  
Maximum Credits: 3  
This course studies the fate of being old in American society in terms of income-adequacy, participation in political life, family relations, the status of retirement as an institution, health, the loss of independence and life in nursing homes. These and related issues are examined in cross-national perspective to assess the level and some nationally distinctive ways in which modern society cares for its elderly.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 0477 - MEDICAL SOCIOLOGY

Minimum Credits: 3  
Maximum Credits: 3  
This is a course on socio-cultural aspects of health, illness, disease and (medical) treatment in American society. The historical transformation of American medicine into a powerful sovereign profession with unparalleled authority, autonomy and control over all aspects of health and illness will be examined. On the basis of this historical survey, recent empirical studies of distribution of health, disease and medical care will be examined as well as specific substantive issues and contemporary debates.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 0490 - MASS MEDIA

Minimum Credits: 3  
Maximum Credits: 3  
This course deals with the many faceted roles of mass media in our society and explains how and why the media have achieved their present prominence and influence on our lives.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 0713 - ASIA NOW

Minimum Credits: 3  
Maximum Credits: 3  
The course is innovatively interdisciplinary, reflecting current anthropological theory. The topical focus is on contemporary Asia. It is creatively structured around a series of high-profile, public guest lectures given by leading, internationally recognized Asian Studies and Global Studies Scholars representing a spectrum of disciplines. The class will meet twice a week, once for a lecture and once for a seminar discussion focused on reading assignments chosen to highlight anthropological problems, questions and analytical perspectives that relate to the weekly guest lecture.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 1002 - SOCIOLOGY HONORS SEMINAR

Minimum Credits: 3  
Maximum Credits: 3
The search for identities is an inseparable component of the postmodern "global" world. Individual and collective identities are in a constant state of formation and change. Using comparative case studies, we will examine various kinds of identity construction and transformation, including identities of race, ethnicity, nation and gender. Through the application of sociological insights, we hope to improve our understanding of these complicated processes.

**SOC 1107 - CULTURAL SOCIOLOGY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is a survey of theoretical approaches and substantive topics in the sociology of culture. We will look at how sociologists attempt to explain a range of contemporary cultural phenomena: national cultural differences in norms and values; cultural boundaries between groups; the negotiation of cross-cultural interpersonal exchanges in everyday life; the cultural classifications of objects and events in terms of structural codes; the organizational constraints on the production of cultural objects and activities; and how people consume or respond to cultural products.

**SOC 1112 - ECONOMIC SOCIOLOGY**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
The aim of this course is to provide a broad macrosociological perspective on the economic aspects of societies. The necessary concepts of macrosociology are introduced as needed. Comparative studies in economy and society are supplemented by analysis of issues and problems in the sociological analysis of modern economic structures. The course may include special foci ranging from the capitalist world system to the changing nature of the work place.

**SOC 1114 - QUALITATIVE RESEARCH METHODS**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Qualitative research methods (sociology 1114) provides an introduction to qualitative research methods. The course will focus on interviewing and participant observation, the two main "fieldwork" methods. Together, the class will select a topic and design a project that will allow students to practice these methods and gain practical experience in qualitative research and writing. Students will be taught how to engage in participant observation, conduct in-depth interviews, analyze data, and write qualitative research reports.

**SOC 1115 - GLOBAL CHANGE AND MODERN LIFE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is directed at discussion of the processes involved in the making of the modern world into a single sociocultural system. It combines matters usually discussed in courses on modernization, the comparative analysis of whole societies, international relations, and the relationship between individual and societies into a cohesive whole. More specifically it combines the analysis of relations "between" societies with the analysis of changes "within" societies.

1705
SOC 1119 - GLOBAL PERSPECTIVES ON POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
In this course we will use sociological perspectives to examine the role of popular culture in everyday life, with special emphasis on the global influence of the mass media industry, the relationship between cultural consumption and culture identity, and the social significance of cultural globalization in the 21st century. Specific topics include the rise of Pokemon, franchising Sesame Street, localizing American and Japanese television drama, blurring boundaries between news and entertainment and other.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1227 - REBELLION AGAINST AUTHORITY

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to explore how and why individuals and social groups rebel against authority. This course will investigate the conditions that stoke rebellion against immoral and oppressive power structures, shared conditions, and social norms; explain how we know when authorities are acting immorally or unjustly; analyze why injustice and illegitimacy only fuel rebellion in some cases and induce conformity in others; explore the various forms that resistance and rebellion can take, and theorize the factors that shape rebellion's varied forms, such as exit, sabotage, protest, withholding, reclamation, violent struggle, and revolution. The empirical topics covered will address a range of rebellion under tyranny, including rebellion during slavery in the united states, rebellion against Nazi power and the holocaust during world war II, and resistance to colonialism and imperialism, among other notable topics.

Academic Career: Undergraduate

SOC 1234 - SOCIOLOGY OF TOURISM

Minimum Credits: 3
Maximum Credits: 3
Tourism as a global social activity and as a global industry is analyzed through Sociological lenses in this course. The role of culture in the development of hospitality, leisure and travel in modern society, as are the socio-cultural impacts of tourism and the boundaries of hospitality. Focusing on the understanding of travel and leisure and the meaning of hospitality, the course introduces the student to tourism as a growing activity in a global environment. The course enables students to comprehend the social values defining hospitality for both hosts and guests, shaping tourists desire to travel. In addition, students taking the course are introduced to the social and cultural forces which define the image of tourism and leisure, as well as the social and political economy impacts of tourism development. This course demonstrates how travel and tourism can be media for social change in both positive and negative directions. Links between tourism and other sociological areas of inquiry, such as global perspectives; health, leisure and medicine; development; religion, and culture, are developed through this course. Likewise, specialized forms of tourism and relations between hosts and guests allow students to see how tourism development affect and are affected by inequalities of class, race, gender and sexuality.

Course Component: Lecture
Grade Component: Letter Grade

SOC 1277 - PITTSBURGH AREA STUDY

Minimum Credits: 3
Maximum Credits: 3
Pittsburgh Area Study is a research practicum. This course will give hands-on research experience examining gender and race equity within the city of Pittsburgh. Students in this course will be a part of a larger project that has been commissioned by the City of Pittsburgh to evaluate current equity and write a report for the city. This report will then be used to inform policy makers creating initiatives gear at fostering opportunities. In the course, students will conduct background information, collect primary data, conduct both quantitative and qualitative analyzes, write sections of the report as well as other associated research tasks. Some previous courses in social science methodology are strongly encouraged.

SOC 1286 - RACE AND THE CITY
SOC 1317 - SOCIOLOGY OF LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

This course will examine the sociological dimensions of literature. In general terms, this involves considering how the creation, reception, and content of literary works are affected by the organizational and structural features of institutions and social life. Topics to be discussed include: the social status of authors, the various gate keeping roles in the publishing industry, the ways in which literary works may reflect certain aspects of social life, changes in the practices of reading, and the effects of literature as a cultural product on its readers. A term paper will be required examining a current topic in the sociology of literature. The course will be taught using both lectures and discussions.

Grade Component: LG/SNC Elective Basis

SOC 1324 - SOCIAL PROBLEMS AND MORAL CRUSADES

Minimum Credits: 3
Maximum Credits: 3
Social problems and moral crusades (SOC 1324) examines how and why certain issues become recognized as "social problems" and sometimes become the subject of "moral crusades." Using a social constructionist approach, the course examines conflicts over how issues are defined and periods of intense media and public interest in particular problems. We will look at some new issues that are becoming recognized as social problems and we will analyze changes over time in long-standing conflicts, examining the origins of these conflicts, the reasons why they persist, and their likely outcomes.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1325 - TWO CENTURIES OF DEMOCRATIZATION
Democratization has advanced in modern history in several great multicontinental bursts from the late eighteenth century to the present. This course will explore why certain historical eras are such moments of democratization and how the very conception of democracy has developed.

**SOC 1360 - PEACE MOVEMENTS AND PEACE EDUCATION**

Minimum Credits: 3
Maximum Credits: 3
This course focuses on two major components in the field of peace studies; peace movements and peace education. Key concepts (e.g. peace, war, violence, conflict, justice, equality, democracy, and citizenship) and theories are discussed. Movements for (inter-personal, inter-group, and international) peace initiated by people in the United States and other countries historically and today will be analyzed. School-, university-, and community-based peace education programs developed in various countries will also be examined.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**SOC 1362 - REVOLUTIONARY SOCIAL MOVEMENTS**

Minimum Credits: 3
Maximum Credits: 3
A broad survey of social revolutionary movements of the past, such as those leading to the French and Russian revolutions, and their influence on various movements taking place in third world countries of today. Emphasis will be placed on movements presently underway in Latin America.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Grade Component: LG/SNC Elective Basis  

SOC 1414 - SPECIAL TOPICS

Minimum Credits: 1  
Maximum Credits: 3  
Current topics of particular sociological interest. Topics covered vary with instructor and term.  
Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SNC Elective Basis  
Course Attributes: West European Studies

SOC 1415 - RELIGIOUS DIVERSITY

Minimum Credits: 3  
Maximum Credits: 3  
What is the best way to accommodate religious and cultural diversity within a nation-state and in civil society? How should individual rights to practice religion be balanced with communal needs? Should freedom from religion be protected as much or more than freedom of religion? These are pressing contemporary issues in many countries, including the United States, but issues of religious diversity and questions of how - and even whether - to tolerate religious minorities have a long history. In this course, we will examine the toleration of minority religions in particular historical settings, and the issues and problems (both doctrinal and social/political) that societies grappled with as they confronted diverse religious landscapes. We will also use these historical precedents as a lens to examine contemporary examples of religious pluralism, diversity, and conflict. Case studies will mainly be drawn from pre-modern Europe and modern Europe and North America, but we will also look at Mughal and modern India and discuss religion in pre-modern China.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

**SOC 1416 - SEX GENDER SEXUALITY AND THE BRAIN SCIENCES**

Minimum Credits: 3

Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Diversity General Ed. Requirement, DSAS Social Science General Ed. Requirement

**SOC 1445 - SOCIETY AND ENVIRONMENT**

Minimum Credits: 3  
Maximum Credits: 3  
The state of the environment reaches the pages of our newspapers every day. How did we get to this state? Throughout history, human societies have made use of the environment as all human activity is dependent on through puts of energy and materials. The course will seek to understand the social, economic, and political processes as they lead to impacts on the environment. Far from being ‘out there’, the state of the environment is integrally related to the ways societies work.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*  

**SOC 1446 - CONSUMPTION & EVERYDAY LIFE**

Minimum Credits: 3  
Maximum Credits: 3  
We buy things almost every single day of our lives. Drawing on theories and examples within everyday life, students will be exposed to both historical and contemporary approaches to consumption: 1) ‘History’: we survey theories about the rise of the ‘new’ bourgeois consumer; globalization and McDonaldization; the rise of advertising and branding; and the beginnings of retail psychology. 2) ‘Theory’: we look to Barthes, de Certeau, Bourdieu, Zizek and others to consider associations between consumption, identity, and meaning-making; appropriation; the rise of ethical consumption; gender and domestic consumption; the commodification of the body and senses.  
Academic Career: Undergraduate
SOC 1448 - WORKING WOMEN

Minimum Credits: 3
Maximum Credits: 3
This course studies traditional patterns of women employment, recent gains and changes, and prospects for the future. One aim of the course is for students to gain an understanding of their own work experiences and career plans, as well as those of various groups of women, in relation to broad social and economic changes that are reshaping work in industrial societies.

Academic Career: Undergraduate

SOC 1450 - HEALTH AND ILLNESS

Minimum Credits: 3
Maximum Credits: 3
This upper-level course investigates selected concepts in health, illness and medical care. We will examine the impact of medicalization, stratification, and the transformation of healthcare provision.

Academic Career: Undergraduate

SOC 1476 - URBAN POLICY AND PLANNING

Minimum Credits: 3
Maximum Credits: 3
This course will provide a brief review of migration and urban growth during the last several decades. The process or urban policy formulation and implementation will be studied. An attempt will be made throughout the course to show the relationships between economic and social conditions and the way they define the parameters of urban policy.

Academic Career: Undergraduate

SOC 1486 - WAR & MILITARY IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
A lecture-discussion course on the roles military systems play in international & national affairs, as well as in the social and economic life of the U.S. the effects that wars and military service have on the individual, the family, the economy, and politics are also addressed. This is not a course on battles, tactics, logistics, strategy, and command. It is concerned with recruitment & social origins of military personnel; training and value inculcation: combat behavior and morale; war crimes and the laws of war; civil military relations; veterans; & inter-service rivalry.

Academic Career: Undergraduate

SOC 1488 - HISTORY MEDICINE AND HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3
Provides an overview of the social history of medicine from prehistory to the present. Focuses on the emergence of medical institutions, education, theories, practices and the orthodox and irregular medical sects. Describes the growth of the separate disciplines of nursing, pharmacy and public health. Examines the impact of socioeconomic factors, religions and war on the evolution of medical science. Discusses the changing roles of government in the development of the American health care system.
SOC 1500 - CAPSTONE RESEARCH PRACTICUM FOR MAJORS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOC 0150 and 0230

Grade Component: LG/SNC Elective Basis
SOC 1506 - SPORT IN AUSTRALIAN SOCIETY

Minimum Credits: 3  
Maximum Credits: 3  
This course will introduce the role of sports in Australian culture, their historical context through to their importance in today's Australian society. Students will examine the central role of sports in the development of the Australian character and identity; investigate the ways in which they have helped forge, and provide, a focus for Australian nationalism; explore the projection of Australians internationally on the global sporting stage; discuss the role of ethics in sports; and develop an understanding of sports as a reflection of the Australian identity throughout history.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 1507 - UNDERSTANDING MODERN BRITAIN

Minimum Credits: 3  
Maximum Credits: 3  
One of the most effective ways of understanding a nation is by examining the images, values, symbols, and individuals by which a nation represents itself. This multi-disciplinary course explores a variety of forms of national representations, ideals and icons to investigate the ways in which modern Britain and British identities have been imagined, constructed, and experienced at home and internationally.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 1508 - IMMIGRATION AND MIGRATION - SYDNEY

Minimum Credits: 3  
Maximum Credits: 3  
This course will explore the causes and consequences of migration for communities, personal identities, national identities, politics, ethics, and the environment. Students will examine various reasons for people-moving and moving people across borders; investigate the myths and controversies involved; develop an understanding of how notions of belonging, citizenship, nationality, nationhood, and âthe otherâ are constructed, proliferated, and manipulated; contextualize Australians involvement and reaction to immigration in a global schema; analyze related case studies drawn from both Australian and international examples; and participate in field trips.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 1509 - CONTEMPORARY ISSUES THROUGH SERVICE-LEARNING

Minimum Credits: 3  
Maximum Credits: 3  
This service-learning course combines a structured curriculum and extensive partnership with a local community-based organization to offer tangible community service. Here, student community service includes direct engagement as well as a research-based action plan addressing a specific challenge or goal identified by a community-based organization. Student service-learning will include exploring the proximate and ultimate drivers of the organization's chosen challenge, and the organization's infrastructure, resources, limitations and possibilities for reducing barriers to achieving the organization's self-identified goals. In concert, coursework probes the role of community-based organizations in both local and global contexts, common challenges of community-based organizations in defining and implementing their goals, the role of service-learning in addressing these issues, and effective ways for students to help them achieve their mission, vision, and goals. Coursework also guides the student's service-learning experience by helping students develop sound international service ethics, provide tools to investigate solutions to common development issues, aid in data analysis and presentation, and provide best practices to illustrate findings and deliver approved joint recommendations orally and in writing. Throughout, students use service-learning as a means to expand their global awareness and understanding, explore shared aspirations for social justice, and develop skills to work with others to effect positive change.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SOC 1510 - EXPERIENCE GLOBALIZATION: SOCIETY, SPACE & EVERYDAY LIFE IN LONDON

Minimum Credits: 3  
Maximum Credits: 3  
The course aims to trace the play of uneven and contested globalizing processes as well as trans-local and transnational forms of connection and division in the lives of the people students will encounter during their studies and / or service placements, as well as the forms of social activism and political struggle that have emerged to address the challenges that these people face in everyday life. This course also allows students to identify and
assess the factors that have been most significant in shaping the ways these developments have been unfolding globally, in relations between London, its inhabitants, and the wider world, and in the specific settings students encounter in field studies and/or service-learning placements.

**Academic Career:** Undergraduate  
**Course Component:** Lecture

### SOC 1511 - SERVICE-LEARNING

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This service-learning course combines a structured curriculum and extensive partnership with a local community-based organization to offer tangible community service. Here, student community service includes direct engagement as well as a research-based action plan addressing a specific challenge or goal identified by a community-based organization. Student service-learning will include exploring the proximate and ultimate drivers of the organization's chosen challenge, and the organization's infrastructure, resources, limitations and possibilities for reducing barriers to achieving the organization's self-identified goals. In concert, coursework probes the role of community-based organizations in both local and global contexts, common challenges of community-based organizations in defining and implementing their goals, the role of service-learning in addressing these issues, and effective ways for students to help them achieve their mission, vision, and goals. Coursework also guides the student's service-learning experience by helping students develop sound international service ethics, provide tools to investigate solutions to common development issues, aid in data analysis and presentation, and provide best practices to illustrate findings and deliver approved joint recommendations orally and in writing. Throughout, students use service-learning as a means to expand their global awareness and understanding, explore shared aspirations for social justice, and develop skills to work with others to effect positive change.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SOC 1515 - SPECIAL TOPICS STUDY ABROAD

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
Current topics of particular sociological interest, topics will be covered from various universities through the study abroad program.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Pitt Class

### SOC 1706 - TAIWAN DIASPORA

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
To better understand the fundamental thrust and impact of the Taiwanese diaspora, and its connection to globalization, this course is designed to explore the major forces that have shaped Taiwanese diasporic identities and overseas communities primarily during the 20th century. Students will read articles and books as well as journalists' reports to familiarize themselves with the range of concepts and debates that analyze Taiwanese-diasporic issues.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

### SOC 1717 - MODERN TAIWAN: 1500-1980

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course teaches students about the social, cultural and economic factors that have shaped modern Taiwan, a critically important nation in the development of globalization in Asia.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

### SOC 1771 - KINSHIP AND THE FAMILY

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
In this course Western and nonwestern forms of kinship, family, and marriage will be discussed and analyzed. Special attention will be given to the
history of European marriage, to family organization and industrialization, and to women's relation to kinship and family order. The differences in European and non-European reactions to industrialization will be compared in some detail. Europe, China, India, and Japan will receive special attention.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Social Science General Ed. Requirement

**SOC 1900 - INTERNSHIP**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
A sub-category of independent study, in which the student is in some sense employed (usually as a volunteer but sometimes for pay) in a non-academic position, typically under the direct supervision of someone other than an F.A.S. faculty member, in which the experience gained by the student is directly related to an academic discipline, and which the student's learning is evaluated and graded by a faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** Satisfactory/No Credit

**SOC 1901 - INDEPENDENT STUDY**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
The student undertakes, under specific conditions, an independent program of study, research, or creative activity usually off-campus and with less immediate and frequent guidance from the sponsoring faculty member than is typically provided in directed reading and directed research courses.

**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** LG/SNC Elective Basis

**SOC 1902 - DIRECTED READING**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
The student undertakes a specified course of study, comparable in character to a regular course, under the direct supervision of a faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

**SOC 1903 - DIRECTED RESEARCH**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
The student undertakes a defined task of research on campus under the supervision of a faculty member of an appropriate department, and in which the fruits of the research are embodied in a thesis, extended paper, laboratory report, or other appropriate form.

**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

**Spanish**

**SPAN 0001 - ELEMENTARY SPANISH 1**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
This course is designed to develop the student's communicative proficiency through an integrated approach to the teaching of all four language skills: listening, speaking, reading and writing. Grammatical structures; vocabulary and readings are presented as tools for developing good communication skills. The course also aims to foster cultural awareness of the Spanish-speaking world.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis
SPAN 0002 - ELEMENTARY SPANISH 2

Minimum Credits: 5
Maximum Credits: 5
A continuation of Spanish 0001, the course builds on the skills acquired in the first term as students continue to develop their communicative language skills in Spanish.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0003 - INTERMEDIATE SPANISH 3

Minimum Credits: 3
Maximum Credits: 3
This course builds on the skills acquired during the elementary sequence (either Spanish 0001 and 0002 or Spanish 0015). It includes a functional review of the basic language structures and introduces even more complex structures. The course has a strong cultural component.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: DSAS Second Language General Ed. Requirement

SPAN 0004 - INTERMEDIATE SPANISH 4

Minimum Credits: 3
Maximum Credits: 3
A continuation of Spanish 0003. Students continue to refine their language abilities and enhance their communicative competence. The course has a strong cultural component.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0020 - CONVERSATION

Minimum Credits: 3
Maximum Credits: 3
The goal of this fifth-semester course is to enhance fluency and the development of oral proficiency in Spanish. Although the emphasis is on speaking and listening skills, reading and writing assignments are an important part of the syllabus. This course helps students to improve their fluency, pronunciation, and strategic competence such as paraphrasing skills, and increases their vocabulary through readings, films, digital recordings and other authentic materials.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0004 (MIN GRADE 'B+') or Spanish Placement Test Score equal/greater 20

SPAN 0025 - GRAMMAR AND COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This course reviews Spanish grammar, and, in addition, is designed to aid the students in vocabulary building, improving their knowledge of idiomatic usage, and their ability to translate from English to Spanish.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0004 (MIN GRADE 'B+') or Spanish Placement Test Score equal/greater 20

SPAN 0050 - SPANISH CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
Span 0050 offers a comprehensive survey of Spanish history and civilization from the early prehistory period to the present. Readings and lectures are in Spanish.
SPAN 0082 - LATIN AMERICA TODAY

Minimum Credits: 3
Maximum Credits: 3
This course is an overview of contemporary Latin America and its people and is designed to be an introduction for students who have no previous knowledge of the area. Students will be exposed to several aspects of Latin America. A special attempt will be made to show contemporary social reality as interpreted by some of the region's most gifted writers. In English.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Latin American Studies, West European Studies

SPAN 0101 - ELEMENTARY SPANISH 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to develop the student's communicative proficiency through an integrated approach to the teaching of all four language skills: listening, speaking, reading and writing. Grammatical structures, vocabulary and readings are presented as tools for developing good communication skills. The course also aims to foster cultural awareness of the Spanish-speaking world.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0102 - ELEMENTARY SPANISH 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Elementary Spanish 1, training in spoken and written Spanish.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0103 - INTERMEDIATE SPANISH 3

Minimum Credits: 3
Maximum Credits: 3
This course builds on the skills acquired during the elementary sequence (either Spanish 0001 and 0002 or Spanish 0015). It includes a functional review of the basic language structures and introduces even more complex structures. The course has a strong cultural component.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0104 - INTERMEDIATE SPANISH 4

Minimum Credits: 3
Maximum Credits: 3
A continuation of Spanish 0003. Students continue to refine their language abilities and enhance their communicative competence. The course has a strong cultural component.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: SPAN 0003 or 0103 (MIN GRADE ‘C’) or Spanish Placement Test Score equal/greater 4

SPAN 0115 - INTENSIVE ELEMENTARY SPANISH

Minimum Credits: 3  
Maximum Credits: 3  
This is a condensed version of the first two courses of the Spanish language program (Spanish 0101 and 0102, formerly 0001 and 0002), and it has been designed for students who have taken at least two years of high school Spanish or its equivalent. Spanish 0115 follows a communicative approach: from the first day of class you will interact in Spanish in a meaningful context with your instructor and classmates. By the end of this course you will have a general knowledge of the grammar of the Spanish language and you will be able to communicate effectively in Spanish according to this level.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Second Language General Ed. Requirement

SPAN 0120 - CONVERSATION

Minimum Credits: 3  
Maximum Credits: 3  
The goal of this fifth-semester course is to enhance fluency and the development of oral proficiency in Spanish. Although the emphasis is on speaking and listening skills, reading and writing assignments are an important part of the syllabus. This course helps students to improve their fluency, pronunciation, and strategic competence such as paraphrasing skills, and increases their vocabulary through readings, films, digital recordings and other authentic materials.  
Academic Career: Undergraduate

Course Requirements: PREQ: SPAN 0004 or 0104 (MIN GRADE ‘C+’) or Spanish Placement Score equal to 20  
Course Attributes: Latin American Studies, West European Studies

SPAN 0125 - GRAMMAR AND COMPOSITION

Minimum Credits: 3  
Maximum Credits: 3  
This course reviews Spanish grammar, and, in addition, is designed to aid the students in vocabulary building, improving their knowledge of idiomatic usage, and their ability to translate from English to Spanish.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: SPAN 0004 or 0104 (MIN GRADE C+) or Spanish Placement Test Score equal/greater 20  
Course Attributes: Latin American Studies, West European Studies

SPAN 0126 - SPANISH ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS

Minimum Credits: 3  
Maximum Credits: 3  
This course is specially designed for Spanish Heritage students who already understand and speak Spanish but they communicate almost exclusively in English and for students who speak Spanish mostly in informal settings and would like to improve their writing and spelling skills. This course aims to identify the skills that the heritage students already bring with them and develop them further. Through readings and film screenings, class presentations, discussions and debates, writing workshops and peer editing, this course seeks to strengthen the studentÂ’s confidence in the language. Students will review basic grammar structures and spelling, expand vocabulary and develop writing skills. The goal of this course is also to expose students to different products, practices, and perspectives from the Hispanic cultures in the US and abroad.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

SPAN 1031 - ELEMENTARY SPANISH 1 FOR MBAS

Minimum Credits: 2  
Maximum Credits: 2  
This is an introductory conversational course specifically designed for business students who do not know Spanish. The student will be presented
with the basic structures of the language, as well as the necessary vocabulary to be able to understand simple Spanish and converse on everyday ("survival skills") topics. The course, conducted in Spanish, will be relatively fast-paced, and will require students to participate actively in a variety of exercises, group activities, and exchange of information.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1032 - ELEMENTARY SPANISH 2 FOR MBAS

**Minimum Credits:** 2  
**Maximum Credits:** 2  
Spanish 0032, designed specifically for business majors, is a continuation of 0031 at the elementary level. Emphasis is on improving listening and speaking skills, with considerable in-class conversational practice. New grammatical structures and increased vocabulary are introduced. Limited business language will be included, along with selected cultural information.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1055 - INTRODUCTION HISPANIC LITERATURE 1

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course is designed to introduce students to the study of Spanish and Latin American literatures, while dealing with concepts and terms that can be applied to all literature.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1056 - NARRATIVE MEDICINE & ANALYTICAL WRITING

**Minimum Credits:** 3  
**Maximum Credits:** 3  
What is literature? What does the literary do? This course, conducted in Spanish, is designed to introduce students to the study of Hispanic literature, while the same time dealing with concepts which can be applied to all literature. We will analyze Hispanic literature understood in its broadest sense, touching upon significant works, genres, movements, and authors from Spain and Latin America, all of which will have either health-related themes or relevance to the field of narrative medicine. More than a survey course, however, this course is designed to teach students how to read literature, how to write about it, and why it matters. In partial answer to this question, this course is an introduction to the health humanities and narrative medicine in Spanish. Students will learn how narrative is central to empathy, to cultural competence, to the expression and processing of pain, sickness, and healing, and how developing the skills to interpret narratives and interact with them is key to promoting global health.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1250 - HISPANIC CIVILIZATIONS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1260 - OVERVIEW OF SPANISH LITERATURE

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Overview of Spanish literature
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 or 0120] and [SPAN 0025 or 0125] (Min Grade 'C' for all listed courses)

SPAN 1280 - OVERVIEW OF LATIN AMERICAN LIT

Minimum Credits: 3
Maximum Credits: 3
Overview of Latin American literature
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 or 0120] and [SPAN 0025 or 0125] (Min Grade 'C' for all listed courses)

SPAN 1300 - SPANISH PHONETICS AND PHONEMICS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the study and practice of the sounds of Spanish. The overall objective of this course is to understand the sound system of Spanish as compared to English. Successful students will develop good auditory perception of Spanish and awareness of their own pronunciation, which could help to improve it.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and 0025 (MIN GRADE ‘C’ for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or 0025 (MIN GRADE ‘C’ for Listed Courses) PLAN: Spanish (MN)]
Course Attributes: Latin American Studies, West European Studies

SPAN 1302 - ADVANCED COMPOSITION AND STYLISTICS

Minimum Credits: 3
Maximum Credits: 3
This writing course builds upon the student's knowledge of Spanish grammar and composition. In particular attention will be given to the many syntactical and lexical usages that the foreign language learner needs to incorporate in advanced writing. The teacher will help the student improve and polish his/her individual style, with some imitation of literary models.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and 0025 (MIN GRADE ‘C’)] PLAN: Spanish AB, BPH, MN] or [SPAN 0020 or 0025 (MIN GRADE ‘C’) ; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Latin American Studies, West European Studies, Writing Requirement Course

SPAN 1303 - SEMINAR IN LANGUAGE AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course will deal in depth with various cultural and linguistic topics.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 1400 or 1600) and SPAN 0050 (MIN GRADE ‘C’ for Listed Courses); PLAN: Spanish (BA); LVL: Sr
Course Attributes: Capstone Course, Latin American Studies, West European Studies

SPAN 1304 - METHODS OF TEACHING SPANISH

Minimum Credits: 3
Maximum Credits: 3
A course designed for those who plan to teach Spanish. Main focus is on practical information of how best (method and technique) to teach the
language. Topics include: theory of learning, approaches, activities, dialogs and drills, the role of grammar, the lab, testing, vocabulary, and the like. Practice teaching, including videotaping.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: [SPAN 0020 and 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

**SPAN 1305 - SPANISH APPLIED LINGUISTICS**

Minimum Credits: 3  
Maximum Credits: 3  
A thorough analysis of the linguistic problems in teaching Spanish to speakers of English. Particular emphasis on problems of interference by transfer from the native to the target language, using contrastive analysis as a method of problem solving. Study of phonology and grammar, with attention also to certain techniques in foreign language teaching. Included is a brief survey of the teaching of Spanish in the United States and elsewhere.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: SPAN 0020 or 0120 AND 0025 or 0125 (MIN GRADE 'C' for Listed Courses) or Spanish Placement Test Score equal to 13.

**SPAN 1306 - SPECIAL TOPICS IN APPLIED LINGUISTICS**

Minimum Credits: 3  
Maximum Credits: 3  
The goal of this course is to further develop the oral proficiency of students through authentic materials including but not limited to interviews, movies, music, newspaper articles and role-playing. Emphasis on fluency and speaking skills, although reading and writing skills will not be ignored. We will review certain grammar points but communicative competence is not measured by grammatical competence alone. Pronunciation, comprehension skills, strategic competence such as paraphrasing skills, and an extensive active vocabulary are all equally important when it comes to becoming proficient in a foreign language. Students will often work in groups and pairs so it is imperative that they be willing to interact with one another and be tolerant of one another's opinions. The instructor will rate students' oral proficiency at the beginning and end of the semester based on the ACTFL speaking proficiency guidelines. These guidelines are used nation-wide as an assessment tool to identify an individual's level of speaking competence in a foreign language.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: SPAN 0020 and 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH) or SPAN 0020 or 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

**SPAN 1310 - LINGUISTIC SEMINAR**

Minimum Credits: 3  
Maximum Credits: 3  
This course allows students to work on various linguistic topics in depth; these may be theoretical or applied in nature. Students are expected to do original research and to present it both orally in class and as a written research document. Taught in Spanish.

**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: SPAN 0020 and 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH) or [SPAN 0020 or 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

**SPAN 1312 - OVERVIEW OF SPANISH LINGUISTICS**

Minimum Credits: 3  
Maximum Credits: 3  
This is a content course taught entirely in Spanish with the goal of developing students' competence beyond colloquial and formal registers toward an academic use of the language. It will examine various aspects of Hispanic linguistics such as phonology, phonetics, morphosyntax, semantics and pragmatics. Students will develop a basic of Hispanic linguistics in order to be able to critically evaluate other linguistic theories and studies in the future. Fields such as applied linguistics (both language acquisition and sociolinguistics) will be covered in order to observe the relationship between theory and current use of Spanish.

**Academic Career:** Undergraduate  
**Course Component:** Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 or 0120] and [SPAN 0025 or 0125] (Min Grade 'C' for all listed courses)

SPAN 1315 - SPANISH FOR PROFESSIONAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
This course will present a variety of formal communication-related topics throughout the Hispanic world and help students begin to develop their professional profile in Spanish. The main objective is to introduce students to the Hispanic professional environment through formal Spanish terminology and usage, cultural practices, and professional communication. This class will be conducted in a seminar format, with a strong focus on conversation and writing. Students will also learn about the geographical, political, demographic and economic realities of Hispanic countries. In order to develop intercultural competence, students will be invited to make connections and comparisons between the US and Hispanic world. Moreover, students will engage with invited speakers and job interviewers from Latin America.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0020/0120 AND 0025/0125 (MIN GRADE 'C' FOR LISTED COURSES)

SPAN 1320 - INTRODUCTION TO TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the theory, the basic processes, techniques and practice of English to Spanish translation and Spanish to English translation of a wide variety of materials. The students will learn how to approach the linguistic and cultural issues involved in the translation of general as well as specialized texts of various fields such as journalism, advertising, business, medicine, literature, government publications and legal documents, among others. In the process, the students will increase their vocabulary of the target language and further their understanding of the structures of both languages.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0020 or SPAN 0120) and (SPAN 0025 or 0125) (MIN GRADE 'C' FOR LISTED COURSES)

SPAN 1321 - BUSINESS SPANISH 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint students with the essential forms and documents utilized in the Spanish business world.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or 0025 (MIN GRADE 'C' FOR LISTED COURSES) PLAN: Spanish (MN)]
Course Attributes: West European Studies

SPAN 1323 - MEDICAL SPANISH

Minimum Credits: 3
Maximum Credits: 3
This course is intended for translators in training who desire experience in translating the types of medical documents professional translators handle “on-the-job”. Course emphasizes acquisition of practical translation skills, and introduces basic medical principles and terminology, as they are used in medical texts.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 or 0120] and [SPAN 0025 or 0125] (Min Grade 'C' for all listed courses)

SPAN 1400 - SURVEY LATIN AMERICAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the development of Latin American literature from the Cronistas to the present. Taught in Spanish.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0050 or 1250 or 1260 or 1280 or 1400 or 1600; (MIN GRADE 'C' for all listed courses)
Course Attributes: Latin American Studies

SPAN 1403 - LATIN AMERICAN NARRATIVE

Minimum Credits: 3
Maximum Credits: 3
This course deals with the development of Latin American prose narrative as it moves from 19th century realism and naturalism in the direction of modernista and vanguardista innovations, culminating in the narrative of the boom and the post-boom. Taught in Spanish.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0050 or 1250; PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1404 - LATIN AMERICAN TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with literary, linguistic or cultural topics, or a combination of these. Its primary emphasis is on developing an understanding of contemporary cultures in Latin America. Taught in Spanish.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1405 - SEMINAR: LATIN AMERICAN LITERATURE AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course studies various cultural and literary topics according to the needs and interests of the students. Its purpose is to allow students to do original research on their own on topics of interest in the field of Latin American literature and culture. Taught in Spanish.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1406 - U.S. LATINO LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will focus on U.S. Latino literature. While Mexican-Americans have roots in North America that go back to colonial times, the Latino explosion has happened mainly in the last thirty years, giving rise to new processes and forms of cultural expression, including an emerging literature that is neither a subset of U.S. Literature nor an extension of modern Latin American literature, though it has connections to both. To get an idea of what this literature involves and where it is going, we will look at some representative novels, poetry, memoirs, plays and films.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1407 - U.S. LATINO FILM

Minimum Credits: 3
Maximum Credits: 3
The major purpose of the course consists of illustrating and analyzing the role of the audiovisual media film (fiction and documentary) and video (and television, to a certain degree) for an understanding of the socio-cultural and conceptual status that Latina/o identities have acquired in today's society. Thematically, the course will focus on themes of modernity vs. tradition in U.S. Latino culture. The course uses a selection of audiovisual materials which is fairly innovative in its variety. Chicano films and videos will constitute the major part of the material.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1413 - SHORT STORY IN SPANISH AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course is a survey of the short story in Spanish America in the twentieth and early twentieth century. Authors to be studied in a given year will include some of the following: Leopoldo Lugones, Horacio Quiroga, Maria Luisa Bombal, Jorge Luis Borges, Silvina Ocampo, Felisberto Hernandez, Juan Carlos Onetti, Juan Rulfo, Elena Garro, Augusto Roa Bastos, Gabriel Garcia Marquez, Julio Cortazar, Juan Jose Saer, Marvel Moreno, Ricardo Piglia, and Mariana Enriquez. Particular attention will be paid to writers who are also theorists of the short story (Quiroga, Borges, Cortazar, Piglia among others) and to scholars of the short story genre in Spanish America. There will also be consideration of the genre of the novella (including distinctions in short story theory between the long and the short), with examples from Bombal, Jose Blanco, Slivina Ocampo, Felisberto Hernandez, Ricardo Piglia and others.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1414 - THEATRE AND PERFORMANCE IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course examines the use of performance by the State, by oppositional groups, and by theatre and performance practitioners, to solidify or challenge structures of power. It looks at specific example of how theatre an public spectacles have been used since the 1960s to control or contest the political stage.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1417 - LATIN AMERICAN FILM & MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the study of Latin American film and media by both engaging in critical viewing/reading of Latin American film and media production, as well as an exploration of relevant topics and theoretical frameworks. We will engage with questions of film and representation, art and politics, and culture and economy.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1418 - VIOLENT VISIONS: REPRESENTATIONS/AESTHETICS OF VIOLENCE IN CONTEMPORARY LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course will explore the role of violence in contemporary Latin American cinema by examining both film media's representational capacity and its aesthetic composition or form. Departing from the contention that films not only create narratives, but also produce thought, we will focus on an analysis of Latin American films produced in the last twenty years, to interrogate whether violence can function as an aesthetic, theoretical and/or affective device to rethink the social, the political, and the economic. Are Latin American films merely faithful representations of the sociopolitical and economic violence that characterizes the Latin American "reality" of today? Do manifestations of violence in Latin American cinema offer new ways of thinking about and processing sociopolitical and economic conflicts? Or is violence being commodified and reified as Latin American cultural difference in order to promote and brand Latin American cinema in the global market and circuit of international film festivals? We will address these questions by exploring the ways in which Latin American cinema is placed in a constitutive and disruptive relationship to the violent forces of the neoliberal state and globalization. These inquiries will be made in three inter-related ways. First, we will study several Latin American films from various nations and productions. Second, we will look at specific events and cases of violence with which these films engage, such as gender, racial and class oppression, military dictatorships and the police state, drug trafficking and neoliberal restructuring. Lastly, we will read critical texts by various key authors on theories of violence, film studies, and Latin American cultural studies.
Academic Career: Undergraduate
Course Component: Lecture
This course explores the complex, multi-layered, and often contradictory world of transnational narcotics traffic particularly as it is configured in and through contemporary Latin American cinema. Departing from the contention that the relations between drug trafficking networks, governmental responses to the drug trade, drug production and consumption, are not clear and transparent as depicted in dominant discourses exemplified by the narrative of the War on Drugs, this course analyzes narco-culture not as a simplistic response centered merely on the idolization of drug lords or drug culture, but as a dynamic creative current that tries to make sense of the complexity and violence of the world of drugs. Why do official narratives of capitalist enterprise disavow the capitalist foundation of the drug trade? How are discourses of security and protection ironically embodied in violent militarized actions and neo-imperial ventures? How does the criminalization of certain cultural practices and symbols - particular languages, dress codes, music - relate to the racialization and sexualization of certain peoples and bodies? Moreover, how can we understand the (global) commercial success of narco-culture as exemplified by recent mainstream media and popular culture? In this course, we will address these questions by engaging in close reading/viewing of contemporary Latin American films that center on representations and (re)productions of narco-culture. These primary works will be examined in conjunction with secondary readings that discuss topics relevant to our analysis of narco-culture, such as globalization, neoliberal capitalism, immigration, femicides, cultural appropriation, and racial and gender construction.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

This course reviews the last hundred years of Mexican cultural history, from the 1910 Revolution to the present. Taking into consideration the meta concepts that define national culture: "the cosmic race", "the post-Mexican condition" and "the labyrinth of solitude", and under the lens of indigenous, nationalist, feminist and postmodernist theories, this course examines several milestones of national culture. This analysis focus on the cultural programs of the post-revolutionary period (muralism), the rise of the Mexican cultural industry (radio, cinema, comics, telenovela), the transcendental moments of conflict (the 1968 Olympic Games, the implementation of the Free Trade Agreement and the rebellion of the Zapatistas in 1994) and transnational tendencies (the pachucos, the narcoculture). The objective of the course is not, however, to define Mexican national culture, but to analyze, problematize and unsettle the ideological conflicts and cultural struggles that contextualize the production and diffusion of the great works of the last century through critical approaches guided by such concepts as those of ideology, race, gender, nationalism, the border, and post-nationalism.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0020 or 0120) and (SPAN 0025 or 0125) and SPAN 1250

This course covers ways in which sexuality is constructed in Latin American cultural texts (novels, short fiction, poetry, printed media, theater, film and popular culture) from the late nineteenth to early twenty-first century.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

This course is a survey of the literature of the Southern Cone countries, Argentina, Chile, Uruguay and Paraguay, from the nineteenth century to the present. Issues to be examined will include debates about nation formation and nationalism, relations between indigenous peoples and European settler (including the massive waves of European migration in the period around 1900), the relations between literature and he press, questions of canon formation, and the literary production of minority communities (European and Asian immigrants, Afro-Latin American communities, indigenous peoples, LGBTI communities) and questions of gender and sexuality. Writes to be studied in a given term will include some of the
following: Domingo Faustino Sarmiento, Jose Hernandez, Alberto Blest Gana, Jose Enrique Rodo, Leopoldo Lugones, Horacio Quiroga, Delmira Agustini, Florencio Sanchez, Roberto Arlt, Maria Luisa Bombal, Jose Donoso, Jorge Luis Borges, Gabriela Mistral, Juan Carlos Onetti, Felisberto Hernandez, Augusto Roa Bastos, Silvian Ocampo, Idean Velarino, Ricardo Piglia, Dimela Eltit and Pedro Lemebel

**Course Requirements:** PREQ: SPAN 1250

---

**SPAN 1427 - TRANSATLANTIC HISPANIC LITERATURE AND CULTURE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

The literature's of Latin American and Spain have been in dialogue, whether intentional or otherwise, since the first points of contact and subsequent colonization and independence. Reading cultural products side-by-side illuminates these dialogues and allows students to place these works of Latin America and Spain in their global context. In this course, we will analyze significant Spanish and Latin American cultural and literary texts, broadly defined to include visual art, performances, and music, to explore space, society, and culture through the perspectives of various authors and artists.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: (SPAN 0020 or 0120) and (SPAN 0025 or 0125) and SPAN 1250

---

**SPAN 1432 - WRITING FEMINISM**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

This course attempts to examine writing and art produced by women. A writer from the Colony, as poet Juana Ines de la Cruz, or a character as Teresa in the film Retrato de Teresa, or painters as Frida Kahlo (Mexico) or Myrna Baez (Puerto Rico) are all important characters within a timeline, a context, and the struggle for voice and visibility. Ours is an intersectional approach to Patriarchy, violence, sexuality, race and art, which are the five topics of this course.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: (SPAN 0020 or 0120) and (SPAN 0025 or 0125) and SPAN 1250

---

**SPAN 1433 - WOMEN'S NARRATIVES IN LATIN AMERICA**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

Addressing women's writing and its relation to the right of expression, we will explore several styles present in contemporary women's writing (short novels and short-stories), some of them parodic, ironic, performative, or gothic, fantastic, realistic and baroque. Some topics to be addressed are gender studies, environmental studies, erotism, violence and human rights. Regions to be covered are the Caribbean and the South Cone. Fantasy, Gothic, and Baroque trends and Environmental Dystopias will be the styles examined in recent and contemporary authorship within Latin America, and the Caribbean archipelago. Both works in Spanish and Translations into English of and short and long narratives from several women authors will give us a general idea of the agonistic search for a voice where rights and passions are defended within the right of expression of some of the most important women writers nowadays. Alejandra Pizarnik, Rosario FerrÃ©, MarÃ­a Luisa Bombal, Vanessa Vilches, Samantha Shweblin, Mariana Enriquez, Clarice Lispector, Diamela Eltit, Gabriela Cabezón Cámara, and Marta Aponte will be some of the authors studied.

**Academic Career:** Undergraduate

**Course Component:** Lecture

**Grade Component:** LG/SNC Elective Basis

**Course Requirements:** PREQ: SPAN 1250

---

**SPAN 1435 - POETICS OF BILINGUALISM**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

Concentrating on what is bilingualism, and after reviewing its historical and cultural parameters in Latin America, we will study the violent encounter between the Indigenous languages and the languages brought by the Conquistadores (Spanish, English, French, Portuguese), and its impact on the formation of the nation, class relations, race and language. This will be a non-chronological account of the cultural and linguistic genocides, encounters, shocks and invasions from the times of La Malinche, Sor Juana, and other authors to Latino Writing Today. Theories of Francine Massiello, Doris Sommer, and Juan Flores will be examined, as well as authors such as Sylvia Molloy, Octavio Paz, Esmeralda Santiago, Luis Rafael Sánchez, Guillermo Gómez Peña, Pedro Pietri, Dolores Prida Gloria Anzaldúa, and Lhasa di Sela, among others. We will explore questions regarding
bilingualism, language and nation formation, translation studies, border studies, and minority writing. Discussion on the importance of bilingualism in a globalized world, as well as issues conforming publication and expectations on Latino writing will also be addressed.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1438 - AFRO-HISPANIC CULTURAL PRODUCTION: AFRO HISPANIC WRITERS

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course offers a survey of writing and other forms of cultural production in Spanish by and about Africans and Afro-descendants in the twentieth century (poetry, short stories, novel, visual media) in their national and historical context(s). The writers will be taken from Equatorial Guinea, a former Spanish colony in West Africa, the Caribbean and South America. The course's general objectives are to enable students to appreciate and to demonstrate knowledge of the historical circumstances governing black writing and the black presence in the Hispanic world in the twentieth century, and to appreciate their thematic concerns and specificities, as well as the importance of their contributions to literature and culture in the national and universal contexts. It is also the course's objective to enable students to appreciate the thematic range of this body of materials, especially its engagement with race, with nationalism, with gender, and with the colonial past.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: (SPAN 0020 or 0120) and (SPAN 0025 or 0125) and SPAN 1250

### SPAN 1439 - QUEER MEXICO

**Minimum Credits:** 3  
**Maximum Credits:** 3  
From a queer theoretical perspective, as an extension of gender and sexuality studies, this course offers a panoramic view of cultural production in Mexico from 1901 to the present. As a point of departure, several milestones are presented in the sociocultural constructions of masculinity, femininity and sexuality and their respective transformations throughout the 20th century. Similarly, this course examines the themes, dynamics, trends and common sites of sexual diversity in contemporary Mexico. Incorporating a diversity of cultural texts (i.e. novels, essays, newspaper articles, videos, films, art, music, and performance.), this course centers thematically on the gender models that circulated before, during and after the 1910 Revolution, the debates about homosexuality during the decade of the 40s, 50s and 60s, the emergence of activist movement in favor of sexual diversity in the 70s, the cultural production of homosexual themes, the urban space in the development of sexually dissident practices, the HIV/AIDS pandemic, nightlife culture, sexual manifestations in the borderlands and in the indigenous communities of Oaxaca, lesbianism, transsexualism, the debate on queerness, the cultural symbols and practices of the LGBT community in Mexico. This course aims to develop critical thinking skills through the rigorous examination of the assumptions that fix, homogenize and perpetuate the traditional narratives that lead to a dichotomy of sexuality in contemporary Mexico.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  

### SPAN 1441 - READING COLONIAL LATIN AMERICA

**Minimum Credits:** 3  
**Maximum Credits:** 3  
In this course, students analyze significant Latin American literary texts, broadly defined to include visual art, performances, and music, to explore space, society, and culture through the perspectives of indigenous, mestizo, European, and creole authors of the colonial period, from the first European presence in the Americas in 1492 through the eighteenth century. Students will develop their skills and knowledge to read, analyze, write, and speak effectively in Spanish about colonial literature, situating their own arguments in relation to ongoing scholarly debates and a broader historical framework.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

### SPAN 1442 - INDIOS CHINOS, INCA WITCHES, AFRICAN HEALERS, CRYPTO-JEWS, AND OLD CHRISTIANS: DIFFERENCES

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Diversity has been a constant of human societies, and so have been the different ways in which people have made sense of it. Colonial Latin America
was no exception. After 1492 Indigenous Latin American polities progressively went from independent entities to subordinated units of the Portuguese and Spanish Empires, and large numbers of African and Asian peoples were uprooted and transported to Latin America. During this long, protracted process of transformation Western ideas about difference were put to the test and gave birth to unexpected questions. Was it the stars that made people different? Or was it that the sun was stronger in the tropics? Perhaps it was the mother's imagination, or the Devil messing with it? Were all people descendants of the same act of creation or had there been many? Were the varying degrees of masculinility at the roots of it all? And anyway, how fundamental were the differences? Could skin color be rubbed off? Was the soul the same color as the skin? Was the blood tainted? Would conversion to Christianity solve it all? If the colonizers' plural, often contradictory theories made simple answers difficult, the questions got even more complex as a result of the West's Others' adaptations and resistance. Native peoples of the Americas, Asians and Africans did not simply endure Western theories about difference, they also actively engaged them to build their own identity projects and social selves. At times, they used Western ideas to protect their polities. Aware of the many contradictions between them, Indigenous, Asian and African actors used one theory against the other and pretended to be the best example of a particular theory's results when it was convenient to them, like "playing Indian." At other times, they questioned Spanish and Portuguese classifications and advanced their own arguments. Yet at other times, they rejected Western racial policies flatly and argued that Europeans should go native which they sometimes did, becoming Indigenous witches who joined forces with disguised Jews to subvert the colonial order of things. This course examines this constant process of change in its multiple manifestations as well as the different scholarly views of it. The materials go from European ideas about difference pre-1492 to the end of the colonial period in the 1800s, from Indian and Philippine slaves in Mexico City to Africans in Peru, Brazil, and Colombia, from Jews conspirators in the Andes to Spanish witches in Lima, from transvestites to Inquisitors, from slaves to saints, and from sugar mill owners to Inca activists. We also examine the diverse ways in which current scholars think about difference in colonial times. As it happens, there is no agreement today on the meaning of central concepts like "race" or "ethnicity" perhaps because in colonial times there was no clear consensus either. The goal of the course is, therefore, not to arrive to a fast and sure answer, but to become familiar with the questions and problems that informed and continue to inform past and present conversations about racial, ethnic and religious difference and diversity.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1453 - AVANT GARDE MOVEMENTS IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course focuses on avant garde movements in Spanish American and Brazil, including creacionismo (Vincente Huidobro) ultraismo (Jorge Luis Borges, antropofagia (Osvald de Andrade and others), estridentismo (Manual Maples Arce and others), the Contemporaneos group (Xavier Villaurrutia, Salvador Novo and others), and various other groups. The core readings will be the manifestoes and other documents in the Jorge Schwartz anthology (Vanguardias latinoamericanas), Mihail Grunfeld's anthology of Latin American avant garde poetry and Hugo Verani's anthology of Latin American avant garde prose. Selected criitical writing on the avant garde (Burger, Poggioli and others) will also be considered.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0020 or 0120) and (SPAN 0025 or 0125) and SPAN 1250

SPAN 1455 - BORDER STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course is a comparative and relational examination of borders/boundaries/borderlands in the Americas, looking specifically at Latin American (im)migration to the US and (im)migration within Latin America. Starting with national/territorial borders, we move to explore the literal and figurative borders experienced by racialized immigrants, refugees and minoritized communities. Paying attention to the roles of gender, sexuality and racialization in shaping the experiences and life opportunities for migrant populations, we will focus on cultural texts (literature, film, visual culture, music etc.) and critiques from feminist, queer, indigenous, and people of color.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 1250

SPAN 1456 - LATIN AMERICAN SOCIAL MOVEMENTS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the concepts of resistance and social activism in Latin American: how social movements and activism are organized, exercised, enacted, and contested. From everyday forms of resistance to organized movements, we will examine some concrete historical and cultural situations in relation to major topics: the legacy of past revolutions, human rights and memory, Neoliberalism and globalization, environmental issues, women and gay activism, and Hispanic immigration to the US. Through critical and fictional texts, films and documentaries, music and visual arts, students will gain a multidimensional understanding of contemporary Hispanic issues and different ways and
instances of social resistance.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**SPAN 1458 - PLANTS, SPIRITUALITY AND HEALING IN LATIN AMERICAN CULTURE**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

The basic premise of this course is that literature and cultural expressions in general provide a robust articulation of imaginary, symbolic, philosophical, ethical, and spiritual aspects of health and healing. We will examine academic articles, essays, poems, narratives, films, videos and paintings that explore the relationship between plants, spirituality and healing as constructed by popular, indigenous and Afrodescendant traditions in Latin America. These expressions offer insightful approaches that contribute to an ongoing critical discussion concerning these topics. Given that our purpose is to address artistic and philosophical aspects that relate to peoples' conceptions about spirituality, health and healing, which in-of-themselves constitute an essential part of any comprehensive approach to health in general, this course does not specifically address the empirical therapeutic value (of lack of) of specific practices. Section I will discuss current global and national contexts of traditional medicine. Section II will provide an overview of significant issues in Latin American ethnobotany. Section III will analyze the fundamental metaphysics and ethics of Amerindian myth and ritual. Section IV will examine literary works and films that provide critical insights to contemporary philosophies of spirituality and healing, and, as the arts usually do, connect these insights to a sundry array of contemporary issues, opening up unexpected vistas. Geo-cultural matrices of examined works include indigenous and Afrodescendant societies in Mexico, Central America, the Andes, Amazonia, and he Caribbean (Haiti-Dominican Republic), as well as urban societies in Bolivia, Colombia, and Argentina.

**SPAN 1459 - MAPPING THE FEMALE BODY: A CULTURAL APPROACH TO WOMEN'S HEALTH IN THE HISPANIC WORLD**

**Minimum Credits:** 3  
**Maximum Credits:** 3  

This course is an overview of the female body and women's health in Latin America and Spain from a cultural perspective, which addresses related social implications and health rights. Students will analyze women's health issues through critical interpretation of literary texts, poems, movies, documentaries, and photography in conjunction with media perspectives and theoretical approaches. Students will be exposed to topics across four overarching themes: adolescence, reproduction, illness, and aging, with subtopics such as sexuality, pregnancy, infertility, breast cancer, menopause, eating disorders, among others. Students will be expected to engage in critical discussions, and will be given the opportunity to connect and contrast these issues with their own cultural experience. The course will be student-centered, with mandatory participation. Classes will employ a discussion format led by the instructor.

Course Attributes: Latin American Studies

SPAN 1707 - AFRCN PRESEN LAT AMERN LIT/CULT

Minimum Credits: 3
Maximum Credits: 3
This course is a chronological and topical introduction to afro-Latin American culture, making use of literary texts, historical documents, feature films, etc. It aims at providing students with a concrete frame of reference for the African presence in Latin America.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1801 - DON QUIJOTE AND THE NOVEL

Minimum Credits: 3
Maximum Credits: 3
This course deals in depth with Cervantes' Don Quijote as the first modern novel and its profound influence on European literatures. Taught in English.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1805 - CONTEMPORARY HISPANIC LITERATURE AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course deals with contemporary Spanish and Latin American societies as revealed in short stories, novels and poetry in an effort to ascertain the cultural values and concepts of these societies. Taught in English.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
SPAN 1806 - CAPSTONE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: (SPAN 1260 or 1280 or 1400 or 1600 or 0050 or 1250 (MIN GRADE 'C' for listed courses); PLAN: Spanish (BA, BPH, MN); LVL: Senior
Course Attributes: Capstone Course

SPAN 1890 - THE NEW NOVEL IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 0050 or 1250); PLAN: Spanish (BA, BPH, MN); (MIN GRADE 'C' for all courses listed)

SPAN 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

SPAN 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: West European Studies

SPAN 1906 - SPANISH INTERNSHIP FOR CREDIT

Minimum Credits: 1
Maximum Credits: 6
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit

Statistics

STAT 0200 - BASIC APPLIED STATISTICS

Minimum Credits: 4
Maximum Credits: 4
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis  

STAT 0800 - STATISTICS IN THE MODERN WORLD

Minimum Credits: 3  
Maximum Credits: 3  
The course introduces statistical reasoning to a diverse audience. The main goal is the understanding of some basic statistical principles so that the student can understand research reports involving statistics and applications of statistics reported in the media. Statistical reasoning will be taught through the use of examples. An important part of the course will be a nontechnical discussion of controlled and randomized experiments. The subject matter will emphasize examples from the health and social sciences.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: DSAS Quant.-Formal Reason General Ed. Requirement  

STAT 1000 - APPLIED STATISTICAL METHODS

Minimum Credits: 4  
Maximum Credits: 4  
The course is an intensive introduction to statistical methods. It is designed for students who want to do data analysis and to study further ideas in applied statistics beyond this course. The topics covered include descriptive statistics, elementary probability, random sampling, controlled experiments, hypothesis testing, regression and the analysis of variance. Emphasis will be placed on the statistical reasoning underlying the methods. Students will also become proficient at the use of a statistical software package.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

STAT 1050 - DATA JAM: USING BIG DATA FOR COMMUNITY GOOD

Minimum Credits: 3  
Maximum Credits: 3  
This is a course that introduces students to the various aspects of big data science --- data visualization and analytics, engaging communities in using big data, and the ethics and equitable access to big data. The course will be co-taught by faculty with expertise in these various areas. Big Data Science is becoming increasingly relevant as big data is everywhere and its use is impacting almost every aspect of modern life. This is a "hands-on" learning experience as university students taking the course will also serve as mentors for teams of high school students in a local big data competition, The Pittsburgh DataJam (see http://pghdataworks.org to learn about the Pittsburgh DataJam).  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SU3 Elective Basis

STAT 1061 - DATA SCIENCE FOUNDATIONS

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to provide a general introduction to the rapidly growing field of data science. The course will be very hands-on with students actively carrying out the techniques and procedures being taught on real datasets in order to foster the ability to reason with data. As part of this process, students will be taught the basics of programming (coding) in R and these skills will be reinforced through weekly lab sessions. In developing the core concepts, students will also be exposed to ancillary topics such as data ethics, simulation basics, and best practices in programming. No previous programming experience nor background in statistics will be assumed.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Minimum Credits: 4  
Maximum Credits: 4  
This is a one-term introduction to statistics and probability. Both modeling and data analysis will be emphasized. Various probability models for discrete and continuous variables will be analyzed. Inferential, descriptive and data analysis techniques will be covered with examples from management. A statistical package will be introduced and used to conduct data analyses.
STAT 1151 - INTRODUCTION TO PROBABILITY

Minimum Credits: 3
Maximum Credits: 3
This course presents at both a theoretical and applied level the basic probability concepts required for statistical inference. Topics include set theory and basic probability, independence and Bayes' theorem, discrete random variables and their distributions--Bernoulli, Binomial, Poisson, and geometric, continuous random variables and their distributions--uniform, exponential, gamma, beta, and normal, transformation of random variables, moment and moment generating functions, multivariate discrete distribution, marginal and conditional distribution and independent variables.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0120 or MATH 0126 or MATH 0220 or MATH 0235
Course Attributes: SCI Quantitative: Statistics GE. Req.

STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Minimum Credits: 3
Maximum Credits: 3
This course is continued from STAT 1151, Introduction to Probability, and brings together the elementary concepts of statistical inference, which are essential for advanced statistical methods. A brief review of probability theory will be provided at the beginning. Topics include functions of random variables; sampling distributions and order statistics; methods of point and interval estimation for variances and differences in two means and proportions; properties of estimators and their applications; theory and applications of hypothesis testing including the Neyman-Pearson lemma, power function of a test, and likelihood ratio tests; regression; and analysis of variance.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or 0235 or 0240 or 0245
Course Attributes: SCI Quantitative: Statistics GE. Req.

STAT 1201 - APPLIED NONPARAMETRIC STATISTICS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course will be to prepare students to use standard nonparametric tests for problems that frequently occur in applications. The Wilcoxon, Fisher (sign), Ansari-Bradley, Miller (jackknife), Kruskal-Wallis, Kendall, and Kolmogorov-Smirnov tests will be discussed. Minitab subroutines will be used to facilitate computation.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: STAT 0200 B-

STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide contingency table techniques for research workers in the social sciences, medical sciences and other areas where it is necessary to investigate relationships between areas where it is necessary to investigate relationships between qualitative variables. The course deals with the chi-square test and standard 2x2 and RXC contingency tables, as well as log linear and other special types of contingency tables analysis.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: STAT 0200 B-

STAT 1221 - APPLIED REGRESSION
Minimum Credits: 3
Maximum Credits: 3
This course covers simple linear regression (one variable) and one way analysis of variance followed by more complicated regression models. More complex ANOVA models are treated if time permits. Some computer applications will usually be considered.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: B-
Course Attributes: Capstone Course

STAT 1223 - APPLIED REGRESSION WRITING COMPONENT

Minimum Credits: 1
Maximum Credits: 1
This course satisfies the writing course requirement for statistics majors and must be taken in conjunction with STAT 1221 applied regression.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; CREQ: STAT 1221; MIN GRADE: STAT 0200 B--; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Capstone Course, Writing Requirement Course

STAT 1241 - APPLIED SAMPLING

Minimum Credits: 3
Maximum Credits: 3
This course considers basic applied principles and approaches for conducting a sample survey. The following will be discussed: how to design a survey, how to analyze a survey with attention paid to different types of survey techniques and corresponding statistical methods. The course will provide survey skills for the social sciences, psychology, economics, marketing and management, and health sciences.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: STAT 0200 B-

STAT 1251 - STATISTICAL QUALITY CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course teaches students to design valid statistical experiments and to analyze them. Among the designs considered are completely randomized designs, randomized block designs, Latin lemmas, factorial designs, and complete block designs.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: STAT 0200 B-

STAT 1251 - STATISTICAL QUALITY CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course is involved with statistical methods for quality and process control. It is intended for all students who will use statistics in an industrial setting. Introductory topics include probability models and statistical estimation for quality. The main focus will be on control charts and tolerances. Acceptance sampling will also be discussed. A final but quite important topic will be Taguchi methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or 1000 or 1100 or 1152; MIN GRADE: STAT 0200 B-

STAT 1261 - PRINCIPLES OF DATA SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

STAT 1291 - TOPICS APPLIED STATISTICS 1

Minimum Credits: 3
Maximum Credits: 3
Various topics concerning the applications of statistics will be taught on an irregular basis depending on faculty interests and students' needs. Example of possible topics include re-sampling techniques in statistics; statistical graphics; cluster analysis; and classification methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1293 - TOPICS IN APPLIED STATISTICS 2

Minimum Credits: 3
Maximum Credits: 3
Various topics concerning the applications of statistics will be taught on an irregular basis depending on faculty interests and students' needs. Example of possible topics include re-sampling techniques in statistics; statistical graphics; cluster analysis; and classification methods.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100

STAT 1301 - STATISTICAL PACKAGES

Minimum Credits: 3
Maximum Credits: 3
This course will cover a variety of topics concerning computing and statistics. Basic statistical analysis packages such as BMPD, SPSS, Minitab, and IMSL will be discussed and compared. Other computational issues that will be discussed include simulation, graphics, elementary database management, and certain stand-alone statistical programs.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221

STAT 1311 - APPLIED MULTIVARIATE ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
We start with the basic concepts of regression and correlation. After developing the necessary linear algebra, we will study the multivariate normal and then go on to do one or more of the following: cluster analysis, discriminant analysis, directional data, and factor analysis. We will make use of the Minitab and BMDP computer packages.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221

STAT 1321 - APPLIED TIME SERIES

Minimum Credits: 3
Maximum Credits: 3
The objective of the course is to present at the elementary level, a unified and reasonably complete exposition of statistical methods used in time series analysis. Serious consideration is given to both time and frequency domain approaches. Real data from a number of subject fields will be analyzed as they occur in the exposition.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1151 and (STAT 1221 or ECON 1150)

STAT 1331 - FINANCIAL ECONOMETRICS
This course will provide a comprehensive and systematic account of financial econometric models and their applications to modeling and prediction of financial time series data, focusing on asset returns. Most of the emphasis is on applied time series modeling and forecasting. Students at the end of the course will have a working knowledge of financial time series data and gain expertise in statistical software to conduct the analyses.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: ECON 1150 or STAT 1221

### STAT 1361 - STATISTICAL LEARNING AND DATA SCIENCE

This course is designed to provide a broad introduction to the field of data science and to expose students to many of the statistical tools most commonly used by modern data scientists. We will explore a wide variety of models and algorithms in a data-driven fashion. Topics will include modeling techniques ranging from classic statistical modeling (e.g. linear and logistic regression) to modern statistical learning (e.g. regularization and lasso) to fundamental machine learning (e.g. random forests and support vector machines). Particular attention will be given to the sorts of scientific questions that can be asked and answered within the different frameworks. Students will have the opportunity to utilize modern, interesting datasets to both provide data-driven analytical solutions and also to formally assess the uncertainty in making such determinations. The R language will be used extensively for statistical computing. Some prior knowledge or experience with R or related programming languages is helpful but not essential.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: STAT 1261 or STAT 1291 or (STAT 1221 and Knowledge of R); PLAN: Statistics or Statistics-Econ

### STAT 1631 - INTERMEDIATE PROBABILITY

This course is the first half of a two term sequence in mathematical statistics intended for undergraduate students and graduate applied statistics majors. Topics to be covered include probability concepts, random variable, discrete and continuous variables, joint distributions, functions of random variables, and some sampling distributions.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: STAT 1151 and MATH 0240  
**Course Attributes:** Capstone Course

### STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

This course is the second half of a two term course. Topics to be covered include estimation, inference, linear models, and an introduction to Bayesian estimation.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: STAT 1631 and MATH 0240  
**Course Attributes:** Capstone Course

### STAT 1651 - INTRODUCTION TO BAYESIAN STATISTICS

This course will give an introduction to Bayesian statistics. Topics to be covered include prior and posterior distributions, multi-level models, model checking and selection, stochastic simulation by Markov Chain Monte Carlo.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: STAT 1151 OR 1631, STAT 1152 OR 1632, STAT 1221 Recommended STAT 1311.
STAT 1731 - STOCHASTIC PROCESSES

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an introduction to stochastic processes and its applications. The major topics are Markov chains, Poisson processes, Brownian motion, and branching processes.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: STAT 1151 or MATH 1119

STAT 1741 - APPLIED PROBABILITY THEORY

Minimum Credits: 3  
Maximum Credits: 3  
The course will begin with an introduction to conditional probability. Topics to be covered include the Poisson process, queueing processes, renewal processes, and reliability theory.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: STAT 1151 or 1631

STAT 1900 - INTERNSHIP

Minimum Credits: 1  
Maximum Credits: 3  
Under faculty supervision the student participates in a statistics project.  
Academic Career: Undergraduate  
Course Component: Internship  
Grade Component: H/S/U Basis  
Course Attributes: Capstone Course

STAT 1902 - DIRECTED STUDY

Minimum Credits: 1  
Maximum Credits: 9  
With approval from an instructor, the student will participate in a program of directed study in statistics or probability.  
Academic Career: Undergraduate  
Course Component: Directed Studies  
Grade Component: LG/SNC Elective Basis  
Course Attributes: Capstone Course

STAT 2131 - APPLIED STATISTICAL METHODS 1

Minimum Credits: 3  
Maximum Credits: 3  
This introductory graduate level course on applied statistics covers a wide variety of problems. We begin with simple data description and go on to standard estimation and testing problems. We then study various types of linear models. We make extensive use of the computer; the student will learn BMDP and Minitab.  
Academic Career: Graduate  
Course Component: Lecture  
Grade Component: Grad LG/SNC

STAT 2132 - APPLIED STATISTICAL METHODS 2

Minimum Credits: 3  
Maximum Credits: 3  
This course is a continuation of STAT 2131.  
Academic Career: Graduate  
Course Component: Lecture
Grade Component: Grad LG/SNC  
Course Requirements: PREQ: STAT 2131

STAT 2381 - SUPERVISED STATISTICAL CONSULTING

Minimum Credits: 1  
Maximum Credits: 6  
In this course students will consult with clients in the consulting center. The consulting will be under the supervision of experienced consultants. Students will be taught how to provide statistical methods in conjunction with real problems and how to analyze and report the results.  
Academic Career: Graduate  
Course Component: Lecture  
Grade Component: Grad LG/SNC  
Course Requirements: PREQ: STAT 2132

Strategic Planning & Policy

BUSSPP 0020 - MANAGING COMPLEX ENVIRONMENTS

Minimum Credits: 3  
Maximum Credits: 3  
This 3-credit course introduces students to managing large firms in complex and rapidly changing environments. Students examine what managers do when faced with incomplete, noisy, and often inconsistent information about competitive forces, given (a) the firm's resources, capabilities, and constraints; (b) the effects of law, regulation, culture, and ethics; (c) the claims of various stakeholder constituencies, (d) industry structure and competition, (e) firm-level governance, and (f) market forces. This requires attention to the basic concepts, vocabulary, tools, and techniques of business and to the complex interrelations among the multiple dimensions of firm performance. The optional project will provide additional opportunity to develop several practical business skills, such as teamwork, the means of acquiring and using standard business and industry data, and fact-based reporting.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors  
Course Attributes: Global Studies

BUSSPP 0021 - MANAGING IN COMPLEX ENVIRONMENTS HONORS +1

Minimum Credits: 1  
Maximum Credits: 1  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: University Honors Course

BUSSPP 0036 - MCE+3 INT'L FIELD PROJECT - GERMANY

Minimum Credits: 3  
Maximum Credits: 3  
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Germany under the guidance of a faculty member.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade  
Course Attributes: Restricted for College of Business Administration

BUSSPP 0037 - MCE+3: INTERNATIONAL FIELD PROJECT - COSTA RICA

Minimum Credits: 3  
Maximum Credits: 3
Provides students with the opportunity to apply concepts and tools acquired in BUSSUP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-us environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the US. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Chile under the guidance of a faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Restricted for College of Business Administration  
**Course Attributes:** Latin American Studies, Pitt Class

**BUSSPP 0038 - MCE+3: INTERNATIONAL FIELD PROJECT - CHINA**

Minimum Credits: 3  
Maximum Credits: 3  
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-US environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environments and practices abroad are compared to those in the US. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in China under the guidance of a faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Restricted for College of Business Administration  
**Course Attributes:** Pitt Class

**BUSSPP 0041 - MCE+3 INTERNATIONAL FIELD PROJECT - VIETNAM**

Minimum Credits: 3  
Maximum Credits: 3  
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Vietnam under the guidance of a faculty member.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Restricted for College of Business Administration  
**Course Attributes:** Pitt Class

**BUSSPP 0042 - MCE+3 INT'L FIELD PROJECT- ITALY**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** Restricted for College of Business Administration

BUSSPP 0047 - PLUS3 PROGRAM IN ECUADOR

Minimum Credits: 3
Maximum Credits: 3
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Ecuador under the guidance of a faculty member.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

BUSSPP 1080 - STRATEGIC MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Focuses on corporate and divisional policy formulation and implementation. Knowledge and techniques learned in earlier courses will be applied in an integrated fashion to the process of strategic decision-making and organizational change. Among topics considered in the course will be relationships of organizations to their environments, hierarchy of organizational objectives, structured as well as informal approaches to strategic planning, integration of business functions, organizational structure, and policy implementation and evaluation. Notable devotion to firms competitive dynamics.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; LVL: Jr, Sr

BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE
This course explores the opportunities and challenges of global business in the 21st century. The discussions and exercises are designed to reveal the nuanced nature of competing globally, emphasizing both the increasing openness of borders and the continuing differences between countries. The course will employ case study analysis and discussion, along with a set of readings that are drawn from both academic and practitioner sources. An individual research project that involves identifying and researching a global business topic of interest to you will be a key part of the course.

**BUSSPP 1745 - PROJECTS IN GLOBAL MANAGEMENT**

Minimum Credits: 3  
Maximum Credits: 3  
The student will work with a real-world client and problem. Each project is different, and will provide the opportunity for a team of students to apply various conceptual and analytic skills taught in the major and in CBA, and to report to the client the results of these analyses. Each project will have the common element of a global or cross border dimension. The client will provide a problem it deems important and a manager to work with the student team. Each team will have a faculty advisor. Most students will take this course in one of their final two terms of study.

**BUSSPP 1750 - COMMERCIALIZING NEW TECHNOLOGY**

Minimum Credits: 3  
Maximum Credits: 3  
This course covers theory, conceptual frameworks, and tools used to formulate strategies for commercializing new technologies. The analytical frameworks cover elements of commercialization strategy that are equally critical to start-ups and corporate technology ventures. In addition, we discuss some of the key challenges that differ for start-ups versus established firms. The primary deliverable in the course is a professional quality project which evaluates the commercialization alternatives for an emerging technology. Your project team will be paired with a local inventor, unless you prefer to evaluate a technology of special interest to your team. Experienced entrepreneurs and expects in financing new technology ventures will also address the class.

**BUSSPP 1790 - GLOBAL MANGEMENT INTERNSHIP**

Minimum Credits: 1  
Maximum Credits: 3  
The strategic management internship provides business credit for project assignments that augment a professional strategic management work experience.

**BUSSPP 1795 - GLOBAL MANAGEMENT INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 3  
An independent study course for students desiring to pursue in greater depth a specific set of strategic management issues or problems to which they have been introduced in other strategic management courses. The course involves directed reading and research under the guidance of a full-time faculty member.

**BUSSPP 1800 - STRATEGIC MANAGEMENT OF CRITICAL WATER RESOURCES**
Minimum Credits: 3
Maximum Credits: 3
This transdisciplinary course is intended to help students develop critical thinking skills in fraught socio-political environments, and gain a command of analytical techniques that support planning and strategic decision making in contexts of great complexity and extreme uncertainty. The course is one of a cluster of three courses, the development of which is funded by the NEH. The course is supported by the intellectual and administrative resources of the University of Pittsburgh’s Center for Russian and East European Studies (REES) and Asian Studies Center (ASC), in addition to the resources of the Katz Graduate School of Business/College of Business Administration and the Swanson School of Engineering. The History and Political Science Departments have also been intensely involved in the design and development of the course. Like the two other courses in the cluster funded by NEH, this course, while designed to stand alone, is linked with the two other courses by the common focus on the issue of water resources and on the countries of Central Asia. There is a natural progression to these three courses, with this course being the final one in the sequence. The key content of the two preceding courses, which focus on historical and political science perspectives are summarized in the early sessions of this course. Understanding the challenge of scarce water resources, which poses an existential threat to individuals, industries, communities, countries and indeed to humanity, will be one of the three themes of the course. Approaches adopted in other countries to respond to water scarcity will be critically examined. The second theme is understanding the socio-political and economic context of Central Asian countries with the primary focus being on Kazakhstan. The third theme, drawing from the other two will frame the challenge as a "wicked problem" which is not amenable to resolution by traditional problem-solving techniques. Analytical and planning techniques that are designed to address wicked problems will be described. Teams of students will employ these techniques to develop strategies for Kazakhstan's issues with water.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

Studio Arts

SA 0110 - VISUAL THINKING

Minimum Credits: 3
Maximum Credits: 3
Visual Thinking offers an introduction and insight into the process and practice of creating visual art. The subject is explored by making images supported by lectures, discussions, and critiques. Students are introduced to the dynamics of composition, relationships of form and content, principles of color, visual analysis, and creative problem-solving. The course also seeks to provide some experience with a variety of media, develop skills in observation and technique, and encourage personal engagement in solving visual problems.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0120 - PAINTING STUDIO 1

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to oil painting that emphasizes color mixing, painting techniques, and composition. The purpose of the course is to promote sensitivity to color interaction, advance technical and compositional skills, and provide a basis for creative growth and expression.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0130 - DRAWING STUDIO 1

Minimum Credits: 3
Maximum Credits: 3
This course provides a comprehensive introduction to observational drawing. The coursework follows a sequence of exercises in various media that introduce basic drawing skills, techniques, and composition through observation and analysis of natural and manufactured forms. The course culminates with an introduction to the human figure.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0140 - SCULPTURE STUDIO 1
This hands-on course is an introduction to the practice of sculpture in contemporary and historical context. Using clay, plaster, wire, and cardboard, projects address material and technical processes as well as expressive, conceptual, and critical concerns.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Creative Work General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req.

**SA 0170 - DIGITAL STUDIO: CREATIVE CODING**

Minimum Credits: 3  
Maximum Credits: 3  
This studio course is designed to be an introduction to the fundamentals of coding and digital circuits with a focus placed specifically on creative application (visual arts, sound/music, theater). In much the same way that introductory studio arts courses such as painting and sculpture are designed to explore materials, processes, tools and techniques, this course will take a parallel approach to technology as a medium. With a focus on digital systems of hardware and software, we will take a hands on approach to understand, explore and experiment with the core fundamentals of digital tools, materials, processes and ideas. As a grounding context for this course, we will look at the early artistic experiments on mainframe computers, which set the stage for the integrations of media and technology into contemporary creative practice (examples will cover visual arts, music, theater, poetry and others). No prior experience with programming, electronic circuits, or art is required or expected. We will work with the Arduino open source microcontroller platform.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY 1**

Minimum Credits: 3  
Maximum Credits: 3  
Digital Studio:Photography introduces students to the technical, conceptual, and expressive potential of digital photography as an art form. Emphasis will be placed on creative use of digital cameras and software to conceptualize and translate ideas into meaningful images. Projects will be assigned in order to advance technical skills and develop new insights and approaches to image making. Students will begin to develop an individual voice as an artist by exploring and questioning the use of photography in their work; giving special attention to its conceptual and historical underpinnings, and its material form.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** DSAS Creative Work General Ed. Requirement, SCI Polymathic Contexts: Humanistic GE. Req.

**SA 1220 - PAINTING STUDIO 2**

Minimum Credits: 3  
Maximum Credits: 3  
This course is a comprehensive exploration of painting techniques and concepts designed to expand awareness of the craft of painting and expose students to issues relevant to contemporary painting. Students have the option to work with either oil or acrylic paints. The course concludes with the development of a self-directed painting project.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: SA 0120 and 0130

**SA 1230 - DRAWING STUDIO 2**

Minimum Credits: 3  
Maximum Credits: 3  
Drawing Studio 2 builds on the knowledge, skills and ideas practiced in Drawing Studio 1 while introducing more advanced approaches to developing content and style in drawing. The coursework therefore is roughly divided between continued practice and development of essential aspects of drawing - such as mark, tone structure, light, space, form, composition and perspective - and assignments designed to spark student explorations of the conceptual and communicative possibilities of drawing. Students will continue to develop observational drawing skills including figure drawing during class meetings; projects will be concerned with technical and formal aspects of drawing while emphasizing ideas and expression. The class will include a diverse range of examples of drawing from art historical through contemporary practices.

**Academic Career:** Undergraduate  
**Course Component:** Lecture

1744
SA 1240 - SCULPTURE STUDIO 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of SA 0140, this course explores in greater depth the relationship between material, technique, process, and content in sculpture. Through expanded projects in plaster, wood, and metal, students deepen their experience and develop new skills, while interpreting assignments independently.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and 0130

SA 1260 - PRINT STUDIO: INTAGLIO

Minimum Credits: 3
Maximum Credits: 3
Intaglio printmaking is a diverse process, offering artists a variety of approaches to create marks, experiment and communicate. This course focuses on making intaglio prints from copper plates. Basic intaglio printmaking techniques are explored through the use of dry point, hard ground line etching, and aquatint. Advanced techniques are explored as the semester progresses. Experimentation is encouraged while developing techniques as well as researching printmaking as a tool to challenge studio practice and content.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and 0130

SA 1270 - DIGITAL STUDIO: IMAGING

Minimum Credits: 3
Maximum Credits: 3
Digital Studio: Imaging is a studio designed to immerse students in the investigation of digital art practices. Emphasis will be on the history and aesthetics of art and digital technology, including screen-based imaging practices, creative coding, and digital fabrication. Throughout the course, you will acquire and enhance technical skills, but the emphasis will be on the use of the computer as an art-making tool for your creative expression. Thoughtfulness, experimentation and curiosity is encouraged.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and 0180

SA 1280 - DIGITAL STUDIO: PHOTOGRAPHY 2

Minimum Credits: 3
Maximum Credits: 3
Digital Studio: Photography 2 is centered around creating photographic images and an advanced inquiry into contemporary photographic practices and discourse. The course builds on the knowledge, skills, and ideas practiced in Digital Studio: Photography 1 while introducing advanced shooting techniques and an in-depth exploration of digital printing and modes of presentation. Early shooting exercises will ask you to experiment with different ways of seeing and thinking about image making and to discover uncharted photographic territory—both literally and psychologically. You will be expected to create new images weekly, generating contact sheets and prints on a regular basis. The second half of the semester will give you the opportunity to develop a final project where content and form is determined by your personal interests.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SA 0110 and SA 0180

SA 1320 - PAINTING STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
SA 1330 - DRAWING STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Drawing Studio: Projects is the third level drawing class for studio arts majors. The course builds on and expands on the foundation of drawing as an expressive and conceptual practice explored in Drawing Studio 2. The emphasis is on individual student drawing-based projects. The first part of the semester includes project assignments where students respond to open-ended prompts. During the second part of the semester students develop an ambitious body of work that involves drawing as a broadly defined discipline as it is situated in contemporary practice. Student work may take many forms which might include, but are not limited to: drawings on paper; installation or drawing in space; mapping; digitally produced drawing; comics or other narrative series; or time-based works such as artist books.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1220
Course Attributes: Capstone Course

SA 1340 - SCULPTURE STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Environmental art is grounded in interrelationships. These connections include not only physical and biological pathways but also cultural, political and historical aspects of any ecological system. This course focuses on the creation of metaphoric and functional artworks that reveal ecological consideration; these artistic gestures serve to enact change and as connection for the community.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1240
Course Attributes: Capstone Course

SA 1345 - SCULPTURE STUDIO: INSTALLATION

Minimum Credits: 3
Maximum Credits: 3
This is an advanced sculpture course examining site specific and installation works as strategies in contemporary art. Continually challenged by newly revised and emerging roles in the art world and society at large, the purpose of this studio course is to provide a forum for the discussion and exploration of issues playing a role in the contemporary critical debate.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1240

SA 1365 - PRINT STUDIO: SCREENPRINT

Minimum Credits: 3
Maximum Credits: 3
This course approaches screenprinting as a medium of artistic expression. Basic screenprinting techniques will be covered, from image generation and screen preparation to the use of screenprinting as a creative outlet. Students will learn the use of basic equipment, printing approaches, papers, a variety of stenciling processes, and photographic and computer techniques to create marks, values, and textures. As the semester progresses, students will gain an awareness of the creative and expressive possibilities of screenprinting and be expected to develop an increasingly complex body of work through their personal vocabulary with the media which may include installation and sculpture.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and 0120 and 0130

SA 1370 - PREPARATION AND PRACTICE IN THE VISUAL ARTS

Minimum Credits: 3
Maximum Credits: 3
This is an upper-level writing course that is required for Studio Arts majors and may be taken by minors. Conducted in a seminar format, the course will inspect the wide range of career options in, and related to, the visual arts. Course topics and visitors will offer survival skills for maintaining a visual art practice, while course writings support preparations for professional opportunities.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: SA 0110 and 0120 and 0130 and 0140; PLAN: Studio Arts (BA); PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFLM 0210 or FP (0003 or 0006)  
**Course Attributes:** Capstone Course, Writing Requirement Course

### SA 1380 - DIGITAL STUDIO: VIDEO

| Minimum Credits | 3 |
| Maximum Credits | 3 |

This is an advanced studio designed for students to intensely experiment and explore the moving digital image in an art context. Students will explore the concepts and skills involved in working with digital video, from pre to post-production. Each student will propose and undertake a final, self-designed project during the final four weeks of the term. Major effort, time, research, imagination, productivity, and involvement are expected throughout the term.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (SA 0110 and 0180) or ENGFLM 0590 or FILMST 0001 or FMST 0800

### SA 1385 - DIGITAL STUDIO: ANIMATION

| Minimum Credits | 3 |
| Maximum Credits | 3 |

Digital Studio: Animation will introduce the concepts and skills involved in working with 2D digital animation - from pre to post-production. Each student will propose and undertake a final, self-designed project during the final four weeks of the term. Major effort, time, imagination, productivity, and involvement are expected throughout the term.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: (SA 0110 and 0180) or ENGFLM 0590 or FILMST 0001 or FMST 0800

### SA 1420 - COLOR

| Minimum Credits | 3 |
| Maximum Credits | 3 |

This course examines color theory and perception. Various formal color systems and theories are explored. A primary objective is to clarify the relationship between perception, color as light, and color as material, such as paints. Color harmonies, light and shadow, color-form relationships, and investigation of color in human environments and as found in nature are some of the topics involved in the class projects. This course provides an opportunity to explore color interaction in a variety of media and situations.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: SA 0110; PLAN: Studio Arts (BA)

### SA 1430 - DRAWING STUDIO: PERSPECTIVE

| Minimum Credits | 3 |
| Maximum Credits | 3 |

This course is designed to provide students with a thorough understanding of linear perspective and the role it plays in the development of a drawing. The focus is on how these conventions work and the role they play in developing the structural integrity of both form and space. The class will explore how to set up everything from simple perspective drawings to more complex perspectival compositions. Drawings done throughout the term will ultimately be edited and compiled into a bound text to be used as a reference guide for future studies.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: SA 0130 and (SA 0110 or ARC 0201); PLAN: Studio Arts (BA) or Architectural Studies (BA)

### SA 1440 - SCULPTURE - Figure and Portrait

| Minimum Credits | 3 |
| Maximum Credits | 3 |

1747
This course specializes in the study of the human form and the application of that study in portraiture. Close analysis of skeletal and muscle structure provides a basis for development of a life-size portrait modeled in clay. Modeling techniques are stressed. Interpretation of the subject is encouraged with the expectation of achieving likeness. This course also provides experience in plaster mold making and plaster casting procedures which are employed in the reproduction of the clay original.

**SA 1450 - PAINTING STUDIO: FIGURE**

- **Minimum Credits**: 3
- **Maximum Credits**: 3
- The purpose of this course is to develop skills in the representation of the human form using a variety of painting strategies. The figure will be examined using direct observation of live models and also by employing other sources such as: photography, film, and digital images. Through lecture and critique the class will study and apply concepts that focus on a variety of roles the figure plays in personal, social, and art historical contexts.

**SA 1504 - DIRECTED STUDY: STUDIO**

- **Minimum Credits**: 3
- **Maximum Credits**: 3
- Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in studio courses.

**SA 1542 - WYOMING FIELD STUDY**

- **Minimum Credits**: 3
- **Maximum Credits**: 3
- This course is a directed study-like elective for Studio Arts majors. The field study is situated in Rock River, Wyoming between a 1930s motor lodge as primary residence, a 1919 bank building as makeshift studio, and the University's 4,000 acre Spring Creek Preserve. Students interact with others simultaneously enrolled in the Paleoecology field study on the preserve exploring the landscape, flora and fauna, and gaining greater historical and geologic context while absorbing impressions for their creative work - the group camps at the preserve along with the science group at least two nights. Offering a complete focus on creative work within a community of others engaged in the same pursuits, students are fully engaged in their work approximately eight hours per day. Spontaneous and planned critiques, guest artists, and local field trips offer additional insights. A mid-field study trip to Utah offers a new landscape with the exploration of two, land-art works in more remote locales. The course culminates with presentations to the Paleoecology group regarding creative work and Wyoming influences. A journal, artist statement, and reflective final paper are submitted upon return to Pittsburgh.

**SA 1550 - DIRECTED STUDY-PAINTING**

- **Minimum Credits**: 3
- **Maximum Credits**: 3
- Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in painting.
SA 1570 - DIRECTED STUDY-DIGITAL

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in electronic media.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Attributes: Capstone Course

SA 1600 - SENIOR SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Senior Seminar is a course that develops critical skills necessary to take your work to the next level. Throughout the course you will develop a body of work, engage in robust discussions about contemporary issues and critique your projects. Finally, you will collaborate to create a pop-up exhibition to present your work. Additionally, students will spend time off-campus meeting with artists and exploring art in the Greater Pittsburgh region.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Studio Arts; LVL: Senior

SA 1604 - SENIOR EXHIBITION

Minimum Credits: 1
Maximum Credits: 1
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Studio Arts; LEVEL: Senior

SA 1800 - SPECIAL TOPICS IN STUDIO ARTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and any 100-level SA course; PLAN: Studio Arts Majors and Minors

SA 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
An internship is an elective which provides the opportunity for a studio arts major to obtain practical experience through on-the-job training in an art-related field. The candidate makes such arrangements for an internship under the supervision of a faculty sponsor.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Attributes: Capstone Course

SA 1902 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
Students can register for 1-3 credits of Directed Research with a faculty mentor.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
SA 1904 - UNDERGRADUATE TEACHING ASSISTANTSHIP

Minimum Credits: 1
Maximum Credits: 3
This course partners advanced studio arts majors with a faculty member as a teaching assistant in a current departmental course. The partnership is intended to offer further experience to dedicated students exploring a particular media with mentorship in studio management and an introduction to teaching, will enhance the course by offering enrolled students additional support and access for skill development and questions throughout the term, and will offer faculty valuable studio management and assistance in working with students.
Academic Career: Undergraduate
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Attributes: Capstone Course

Supply Chain Management

BUSSCM 1720 - OPERATIONS MANAGEMENT INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The operations management internship provides business credits for project assignments that augment a professional business environment work experience.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: Letter Grade

BUSSCM 1725 - GLOBAL SUPPLY NETWORKS AND MANUFACTURING CULTURES IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
The course provides students with the fundamentals of international supply chain methods with a special focus on Latin America and Uruguay. It will feature a 2-week study visit to Uruguay where students can place their understanding of those concepts within a cultural context. The course involves significant teamwork and allows students to complete an in-depth analysis of the global supply networks and manufacturing culture in Latin America with Uruguay as a reference point.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS

Minimum Credits: 3
Maximum Credits: 3
Supply chain management explores the management of the flow of materials, information, and funds through the network of suppliers, manufacturers, distributors, retailers, and customers. Using the methodologies of optimization and simulation, where applicable, this course covers topics in distribution network design, inventory management, procurement and outsourcing, revenue management, and channel coordination. For marketing majors, this course counts as a marketing elective.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE ‘C’) and STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

BUSSCM 1740 - PURCHASING & SUPPLY MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Purchasing and supply management play an essential role in the ability of the firm to operate efficiently and be competitive in the contemporary global business environment. Included in these processes are activities involved in identifying potential suppliers, creating relationships with selected
suppliers, obtaining the needed materials in the most efficient quantities at the highest quality levels, and developing strategies designed to ensure an uninterrupted flow of goods and materials. Purchasing is increasingly a strategic activity which impacts all areas of the firm, including product design, information system design, e-commerce activities, manufacturing planning and control, inventory management, human resource development, financial planning, forecasting, sales, and quality management. The objective of this course is to make students aware of the demands placed upon purchasing professionals, and to understand the impact of purchasing on the competitive success and profitability of the firm. They must also have an understanding of legal and ethical considerations which affect purchasing decision-making.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE 'C') and STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

**BUSSCM 1750 - REVENUE MANAGEMENT**

Minimum Credits: 3  
Maximum Credits: 3  
Increasingly, due to shortening product life cycles and capital-intensive capacity decisions, companies are being forced to place greater emphasis on managing constrained, but perishable inventory and capacity. Examples include the transportation industry (encompassing airlines, shipping, car rentals, and trucking), the hotel industry, the entertainment and sporting industry, and the retail industry. The underlying managerial issue is complex, but improved decision making can increase a company's revenues and profits. In this course, we study quantity and pricing strategies to improve profitability and the course uses microeconomics, operations research, segmentation, and pricing and forecasting concepts that the students would have learned in their economics, quantitative methods, operations, and marketing classes. The methodologies covered in the course include deterministic and stochastic optimization, forecasting, and statistical estimation. Students are also exposed to commercial revenue management software.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE 'C') and (STAT 1000 or 1100); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

**BUSSCM 1760 - DATA MINING**

Minimum Credits: 3  
Maximum Credits: 3  
Data mining is the process of extracting useful information and knowledge from a set of data. Mining is typically done on data sets too large to be analyzed by hand, but the same techniques are applicable to small, complex data. This course is an introduction to the most popular methods used in managerial data mining, and provides experience in using commercial software to explore real data sets. Models considered include those from statistics, machine learning, and artificial intelligence, such as discriminate analysis, logistic regression, clustering, neural nets, tree/rule induction, and association rule modeling. This course is methods-oriented, as opposed to being methodology-oriented, so students learn about when and how to use techniques and how to interpret their output rather than the details about how those techniques work. A laptop computer is required.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade  
**Course Requirements:** PREQ: STAT 1100 and BUSQOM 1080; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA majors

**BUSSCM 1766 - PROJECTS IN SUPPLY CHAIN MANAGEMENT**

Minimum Credits: 3  
Maximum Credits: 3  
BUSSCM 1785 connects undergraduate supply chain management students with a partner organization to develop/implement specific supply chain/logistics strategies for an on-campus, student-operated business. Topics include: procurement and purchasing, revenue management, supply chain interruptions/disruptions, inventory management, and risk management across the supply chain.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

**BUSSCM 1780 - SIX SIGMA**

Minimum Credits: 3  
Maximum Credits: 3
Six Sigma is a disciplined, data-driven approach to process improvement aimed at the near-elimination of defects from every product, process, and transaction. Six Sigma utilizes the following five-phase problem-solving methodology known by the acronym DMAIC: 1. Define the projects, the goals, and the deliverables to customers (internal and external). Describe and quantify both the defect and the expected improvement. 2. Measure the current performance of the process. Validate data to make sure it is credible and set the baseline. 3. Analyze and determine the root cause(s) of the defects. Narrow the causal factors to the vital few. 4. Improve the process to eliminate defects. Optimize the vital few and their interrelationships. 5. Control the performance of the process. Lock down the gains. BUSSCM 1780 six sigma is designed to provide the student not only with strong theoretical knowledge of the Six Sigma green belt body of knowledge, but also with practical, hands-on, experience-based learning through the application of Six Sigma tools and techniques via in-class labs.

**BUSSCM 1790 - SUPPLY CHAIN MANAGEMENT INDEPENDENT STUDY**

Minimum Credits: 1  
Maximum Credits: 3  
Supply Chain Management Independent Study.  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: Satisfactory/No Credit

**BUSSCM 1795 - SUPPLY CHAIN MANAGEMENT INTERNSHIP**

Minimum Credits: 3  
Maximum Credits: 3  
The supply chain management internship provides business credits for project assignments that augment a professional supply chain management work experience.  
Academic Career: Undergraduate  
Course Component: Internship  
Grade Component: Letter Grade

**BUSSCM 1825 - MARITIME SUPPLY CHAIN**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides an overview of the maritime supply chain industry. It examines the advantages and barriers of purchasing internationally, global sourcing, purchasing processes, and maritime logistics. This course will focus on Cyprus's unique positioning in Europe as a maritime supplier, the need for careful supply chain analysis with regard to maritime powers, and the considerations necessary in trading with island nations where geography makes shipping an essential part of economic conditions and constraints.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: Letter Grade

**Swahili**

**SWAHIL 0101 - SWAHILI 1**

Minimum Credits: 4  
Maximum Credits: 4  
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Attributes: African Studies, Global Studies

**SWAHIL 0102 - SWAHILI 2**
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0501 or AFRCNA 0523 or SWAHIL 0101; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: African Studies, DSAS Second Language General Ed. Requirement, Global Studies

SWAHIL 0103 - SWAHILI 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0502 or AFRCNA 0524 or SWAHIL 0102; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: African Studies, DSAS Second Language General Ed. Requirement, Global Studies

SWAHIL 0104 - SWAHILI 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0503 or AFRCNA 0525 or SWAHIL 0103; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: African Studies, DSAS Second Language General Ed. Requirement, Global Studies

SWAHIL 0105 - SWAHILI 5

Minimum Credits: 3
Maximum Credits: 3
Swahili 5
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0504 or AFRCNA 0526 or SWAHIL 0104; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: African Studies, Global Studies

SWAHIL 0106 - SWAHILI 6

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0505 or SWAHIL 0105; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: African Studies, Global Studies

SWAHIL 0107 - SWAHILI 7

Minimum Credits: 3
Maximum Credits: 3

1753
Students in this class will deepen their knowledge of Swahili by delving into Advanced Swahili. They will build advanced conversational proficiency, while simultaneously building advanced knowledge of the discussions of global issues of interest. Writing, listening and reading comprehension skills will be enhanced in light of advanced Swahili. Students will continue to use vocabulary learned throughout previous courses. They will also utilize new vocabulary learned in reading and listening to news items.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0506 or AFRCNA 0526 or SWAHIL 0106; MIN GRADE 'C' FOR ALL LISTED COURSES
Course Attributes: African Studies, Global Studies

SWAHIL 0108 - SWAHLI 8

Minimum Credits: 3
Maximum Credits: 3
Students in this class will work together to achieve near-native fluency in speaking, reading, writing and listening. Students will continue to build on the knowledge gained throughout past Swahili classes in order to deepen their understanding of the complexities of conversation, discussion and understanding Swahili in the context of everyday life and academic knowledge. They will practice to speak extensively on topics of interest, analyzing and offering opinions on various issues. Students will have opportunities to display their prowess through independently carrying out research on topics of interest and global topical issues and presenting their work from the readings.

Academic Career: Undergraduate

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SWAHIL 0107; MIN GRADE 'C'
Course Attributes: African Studies, Global Studies

SWAHIL 0111 - INTRODUCTION TO SWAHLI LANGUAGE ABROAD

Minimum Credits: 3
Maximum Credits: 3
This study abroad course will provide a basic introduction to Swahili language for students with no or very little background in Swahili. It does not take the place of SWAHIL 0101 - Swahili 1 taught on the Pittsburgh campus.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

SWAHIL 0112 - CONTINUING SWAHLI LANGUAGE ABROAD

Minimum Credits: 3
Maximum Credits: 3
This study abroad course provides students with some background in Swahili to continue their language study. It does not take the place of a regularly sequenced Swahili language course taught on the Pittsburgh campus.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

SWAHIL 1615 - SWAHLI COASTAL CULTURE: GATEWAY TO AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the Swahili culture, and will serve as a gateway to understanding African culture and society. It explores the social-cultural customs, traditions, values, beliefs and experiences that give a unique identity to the Swahili people of East Africa. The course will draw concrete examples from literature, film, music, social media and other sources of cultural information. Students will examine and discuss different cultural aspects of Swahili people, and will identify the similarities and disparities between the Swahili (African) culture and American or student's own culture. This course may be helpful to people who are planning to travel to East Africa, other parts of Sub-Saharan Africa, or people who want to understand the East African culture and Africa in general.

Swedish

SWE 0101 - SWEDISH 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: European Union Studies, European and Eurasian Studies, Global Studies, Transatlantic Studies, West European Studies

SWE 0102 - SWEDISH 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0511 or SWE 0101; MIN GRADE: 'C' FOR LISTED COURSES
Course Attributes: DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Transatlantic Studies, West European Studies

SWE 0103 - SWEDISH 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: Undergraduate

**Course Attributes:** European Union Studies, European and Eurasian Studies, Global Studies, Transatlantic Studies, West European Studies

**SWE 0107 - SWEDISH 7**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
In level 7, we will continue to practice understanding, speaking, reading and writing Swedish, stylistically focusing on adding more formal grammar and lexicon. My goal is to improve your fluency to a point where you feel comfortable living, continuing your studies or working in Sweden. Our textbook readings will be centered around 5 different themes; crime and punishment, social media, holidays, consumerism and networking/job seeking. In addition to the textbook, we will read the novel AndrÃ©es ballongfÃ¶red. You will be responsible for creating your own vocab lists at this level, as well as keeping a reading journal with thoughts on your readings. We will discuss your readings in class, but now without the guidance of questions and reading packets, etc. from previous courses. The focus will as always be on your speaking skills and we will use a variety of other course materials as well to maximize our speaking activities. With a very low number of students signed up this semester, take advantage of the personalized instruction and the speaking opportunities a class with only a few students offer!  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

**SWE 0111 - INTRODUCTION TO SWEDISH LANGUAGE IN SWEDEN**

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This study abroad course offers an introduction to the Swedish language together with hands-on experiential learning activities such as role-plays, quizzes, out-of-classroom activities and Swedish language partners. Students that have no previous knowledge of Swedish will learn basic vocabulary, grammar and pronunciation in order to be able to do grocery shopping, order at a cafe, conduct small talk in Swedish, etc. The course also focuses on teaching students culture-specific vocabulary and concepts in order to improve their understanding of Swedish culture. This course is an introductory course only and will not replace SWE 0101 taught at Pitt.
SWE 0112 - CONTINUING SWEDISH LANGUAGE IN SWEDEN

Minimum Credits: 3
Maximum Credits: 3
This highly conversational course allows intermediate and advanced level students of Swedish to continue their studies by immersing themselves in the language in Sweden. The focus will be on developing fluency in speaking and writing as well as furthering the understanding of Swedish culture. Building on existing skills, we will take advantage of being in-country and utilize authentic materials (popular literature, media, information pamphlets, etc.) and combine it with hands-on experiential learning activities, such as role-plays, interviews and out-of-classroom activities. This course will not replace any higher-level Swedish (3-8) taught at Pitt.

SWE 1615 - SWEDEN - FROM VIKINGS TO NOW

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
Course Attributes: DSAS Geographic Region General Ed. Requirement, European and Eurasian Studies, SCI Polymathic Contexts: Global&Cross Cul GE. Req., Transatlantic Studies, West European Studies

SWE 1620 - SWEDEN HERE AND NOW - A SOCIETY IN CHANGE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students who want to experience studying abroad and learn more about modern day Sweden. We will study the traditional culture of this previously homogeneous country and try to understand just how much is changing in Swedish society as it struggles with multiculturalism and integration of its new Swedes. Students will get a first-hand experience of the issues the country is facing trying to accommodate an unprecedented number of asylum seekers and refugees, and the ramifications on society.

Academic Career: Undergraduate  
Course Component: Lecture
THEA 0810 - INTRODUCTION TO DRAMATIC ART

Minimum Credits: 3
Maximum Credits: 3
This course focuses on script analysis (the examination of how a dramatic text is put together). Exploring a diverse range of dramatic forms spanning histories and geographies, we will study how a play and its structural characteristics offer possible meaning on the page and on the stage. What different analytical tools help us interpret a play text or production? How does a play's dramatic structure and historical circumstances inform its visualization and staging in a specific time and space for an intended audience? The course will evaluate written texts as well as live performances.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0825 - CONTEMPORARY GLOBAL STAGES

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in Theatre Arts. Topics vary every semester. Current course descriptions can be in the notes section.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

THEA 0830 - INTRODUCTION TO PERFORMANCE

Minimum Credits: 3
Maximum Credits: 3
This course is designed to develop the students' awareness of the actor's process and to foster a general sense of theatre as an area of human endeavor. Students will be introduced to basic communication skills, including physical and vocal presence in front of an audience. The course will also develop an introductory level of acting skill through the use of regular warm-ups, theater games, improvisation, and simple scene study. The class will culminate in the performance of a final scene. Scenes will be selected from a diverse range of playwrights and students will examine the political, cultural and social context of each play. The course will also provide an introduction to basic theater terminology, and foster the ability to respond to and reflect on theatrical performances. Each student is required to buy a semester pass and attend university theatre productions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0840 - INTRODUCTION TO THEATRE DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the design of scenery, costumes and lights used in theatre. Class work consists of several design projects focusing on design development, drawing and rendering, and drafting. This course will create an awareness of the role of the designer within the scope of the total collaborative process of theatre production. Students may be required to purchase a semester pass and attend university theatre productions.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0842 - INTRODUCTION TO STAGECRAFT

Minimum Credits: 3
Maximum Credits: 3
This is a production-oriented course involving the study and application of the process and skills utilized in the realization of theatrical scenery, props, and lighting. This includes standard scenic construction techniques, materials and equipment of the scene shop, an introduction to scenic painting, drafting, properties design and construction, and basic lighting practices. An introduction to basic lighting equipment and stage electrics will also be addressed. This will be emphasized through experience working in the scene shop, on stage, and on department running crews. 45 Hours of work in one of these areas is required for the course.

Academic Career: Undergraduate
THEA 0850 - INTRODUCTION TO SHAKESPEARE

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to Shakespeare as a playwright, that is, a maker of plays for the stage. The objective of this course is to discover how they work on us as an audience. The actual work of the course is close reading of and interaction with the plays, observation and analysis of film and theatrical treatments of Shakespeare's work, as well as examining the cultural and historical context in which these plays were written and have been subsequently produced.

Academic Career: Undergraduate
Grade Component: Letter Grade

THEA 0880 - THEATRICAL PRODUCTION

Minimum Credits: 1
Maximum Credits: 1
A practical application course which gives the student hands-on experience in university theatre productions in one or more of the following areas: scenery/props, costume, lighting, sound, and/or stage management. The goal is to expand the student's knowledge and understanding of production processes through team participation in the presenting of a full production. A student must complete at least 45 hours of work in an assigned area to receive 1 credit. Students must usher for 2 performances during the semester enrolled. Note: this course is offered by appointment.

Academic Career: Undergraduate
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

THEA 1023 - FRENCH THEATRICAL WORKSHOP

Minimum Credits: 3
Maximum Credits: 3
Three plays by Moliere will be read and analysed, and one of the adapted and staged. FR 0055 is a prerequisite.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade

THEA 1100 - VOICE AND MOVEMENT 1

Minimum Credits: 3
Maximum Credits: 3
This course will explore the anatomy, physiology, and physicality of the human voice and body. The approach will be holistic mind, body, and vocal practice. Techniques learned and practiced will be applied directly to specific performance assignments throughout the semester. Students will begin by examining and identifying healthy, effective, and expressive voice and body use. Students will receive an introduction to the practices of Patsy Rodenburg, Edith Skinner, the Viewpoints, Rudolf Laban, yoga, among others. The work will focus on voice and bodywork as they relate to acting and to any area of life requiring effective communication. Emphasis in text work will be on clarity of thought, physical connection, emotional availability, and clear communication.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1101 - VOICE AND MOVEMENT 2

Minimum Credits: 3
Maximum Credits: 3
This course will build on the practices introduced in Voice & Movement 1 including presence, healthy and expressive vocal use, and effective communication. It will introduce the international phonetic alphabet, accents and dialects. Methods of accent and dialect acquisition will include vocal viewpoints, imagery, phonetics, and physical exercises. Students will research dialects and accents using such sources as: the international dialects of English archive, the visual accent archive, audio and visual recordings. Research and techniques will then be expressed through performances of monologues, scenes and poetry. This course culminates with each student's creation and development of a solo dialect performance.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
THEA 1102 - ACTING 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to build foundational acting skills using Stanislavski-based exercises such as those devised by Sanford Meisner, Stella Adler and/or Uta Hagen. These exercises aim to develop the actor's ability to listen and respond truthfully in the moment, be present and connect, work with spontaneity, build concentration, and incite the imagination. Students will learn to craft behavior by working on contemporary text and engaging in improvisational exercises with partners as well as a series of solo projects. Students will also explore given circumstances and actions/objectives while working on audition techniques with a monologue. Students will then apply textual analysis skills and build rehearsal technique by bringing him/her-self to life in a role in a scene. This course is a building block and prerequisite for other performance courses in the theatre department. Students interested in the Theater major or minor or who have theatre experience are encouraged to audition into this course (in lieu of Introduction to Performance).
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 0830; PROG: School of Arts and Sciences

THEA 1103 - ACTING 2

Minimum Credits: 3
Maximum Credits: 3
Acting II builds on the work of Acting I with a deeper exploration of Realism and Naturalism on stage through textual analysis, scene study, physical exercises, character development, research and solo performance by challenging the student with text and styles that focus on the Modern Era of American and European History. Theoretical work would be complementary, based on the tradition of practitioners like Constantin Stanislavski, Stella Adler, Uta Hagen and Lee Strasberg, deepening a student's understanding of psychological realism.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1104 - ACTING 3

Minimum Credits: 3
Maximum Credits: 3
This course focuses on preparing and presenting roles from classical plays. Using heightened text from diverse textual sources including ancient and modern plays and poetry, students will explore language as it applies to character and intention. Actors will build on their foundational acting craft with advanced vocal and physical acting exercises to enhance character, will develop textual analysis and rehearsal skills, and will apply those techniques to performing scenes (ancient Greek playwrights, Elizabethan playwrights and other lyrical writers). Students will perform three scenes from various historical periods, at least one of which will be from a Shakespearean text. In addition, students will examine the political, cultural and social context of each play.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 0830 or 1102; PROG: School of Arts and Sciences
Course Attributes: West European Studies

THEA 1110 - DIRECTING 1

Minimum Credits: 3
Maximum Credits: 3
This course intends to discover, explore, and develop the directorial crafts of the student/director. It addresses the theoretical, analytical, and practical skills requisite to the craft of directing plays for the theatre. Plays of the realistic style will be its primary focus, although some discussion may range over other styles and periods in order to provide the proper context for approaching realistic plays. The student's directing ability will be developed through class discussion and exercises, written assignments, outside reading, and the direction of scenes from realistic plays. Students will learn methods to analyze plot, character and theme in scripts as well as techniques to translate that analysis into clear, vivid stage action.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 0830

THEA 1111 - DIRECTING 2
Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of scene analysis and directing projects from plays of 1860-1980. Will deal with the special demands of different playwrights.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis
**Course Requirements:** PREQ: THEA 1110; PROG: School of Arts and Sciences

---

**THEA 1112 - CONTEMPORARY BLACK FEMALE PLAYWRIGHTS**

Minimum Credits: 3
Maximum Credits: 3
This is a lecture and discussion survey course that explores Contemporary Black Female Playwrights from 1990 to the present day. Students will examine these works through historical and cultural context and a contemporary lens. Student written, oral, and introductory performative presentations will analyze play texts, express critical engagement with the literature, and investigate these rich works.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** Letter Grade

---

**THEA 1226 - STAGECRAFT 2**

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of advanced technical problems through the use of drafting.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

---

**THEA 1227 - SCENE PAINTING**

Minimum Credits: 3
Maximum Credits: 3
This course is a study of scene painting practices for theatre. Students will study the techniques and processes of painting in a studio class atmosphere. Tools and techniques will be demonstrated by the instructor then executed by the student on a large format canvas. Some painting projects may include how to paint marble, foliage, and/or wood grain.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

---

**THEA 1229 - STAGE MANAGEMENT 1**

Minimum Credits: 3
Maximum Credits: 3
Principles and techniques of stage and production management as applied to professional, educational, and community theatre. Studies will include auditions, rehearsal process and organization; technical and performance process and procedures; production personnel and cost management.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** LG/SNC Elective Basis

---

**THEA 1230 - STAGE LIGHTING 1**

Minimum Credits: 3
Maximum Credits: 3
An introduction to Stage Lighting including awareness of light, instrumentation, color theory, texture, control, basic theatrical electricity and artistic design, with an emphasis on the organization of theatrical lighting. This course will reflect the study of lighting as an art form, including design concepts, light plots, artistic elements of theatre, sequential cue relationships, and script analysis.

**Academic Career:** Undergraduate
**Course Component:** Lecture
**Grade Component:** Letter Grade
THEA 1231 - STAGE LIGHTING 2

Minimum Credits: 3
Maximum Credits: 3
Using lecture, lab projects, and critique to develop the communication and implementation of ideas in lighting, while also exploring the artistic and conceptual practices of design. Advancing the development of working process consistent with current professional practices in the field of Lighting Design.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1235 - SCENE DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
This is an introduction to scenic design for the theatre exploring creative uses of space to tell stories on stage. Topics covered may include introductions to script analysis, visual research, color theory, basic perspective sketching, model building, and drafting. This course will reflect the current industry practices in scenic design as an art form and may include introductions to contemporary software used in the field.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1240 - COSTUME PRODUCTION AND TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is a production-oriented studio course involving the processes and skills utilized in the realization of theatrical costumes. The student will develop an understanding of the costume production process in addition to acquiring the skills necessary in the aid of the construction and completion of theatrical costumes. The student will learn basic hand sewn stitches and fasteners, proper use and operation of the sewing machinery. The student will also learn basic functions of the personnel in the costume shop, health and safety, fabric and textiles, draping, commercial and drafted patterning and costume finishing. Lectures, demonstrations and projects will supplement work done in class. Practical experience is obtained through lab hours which are obtained by working outside of class time in the costume shop on departmental theatre productions (30 hours) or get involved backstage on the wardrobe run crew. These experiences provide the students opportunities to practice skills learned in the classroom.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1245 - STAGE MAKEUP

Minimum Credits: 3
Maximum Credits: 3
This course will offer the student a practical guide to the theory and practice of theatrical makeup and design. The student will learn how to conduct conceptual research, attain a basic skill level in stage makeup application and color selection. Using the student's own face as a canvas, this course will familiarize students with fundamental makeup techniques, equipment, and materials. Through a combination of reading assignments, lectures, supervised demonstrations and practice sessions students will explore the relationship between the theatrical makeup designer, performer and character development thru stage makeup. The course will also introduce the student to entry level specialty/special FX makeup techniques and skills. Professional Makeup kit and textbook are required for this course.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1246 - COSTUME DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
This course is a foundation for the study of the basic principles, practices and techniques of costume design for the stage. Skills and methodologies used in this course will include: how the elements and principles of design relate to and are utilized in costume design; collaboration; script and character analysis; research methods; an introduction to fashion and dress history as it relates to the assigned play; fabric selection; figure drawing and costume rendering techniques.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
THEA 1338 - MUSICAL THEATRE PERFORMANCE

Minimum Credits: 3  
Maximum Credits: 3  
This course is designed to introduce students to the foundational elements of the musical theatre performer's process and to examine the use of song in a theatrical context as a mode of human expression. Students will be introduced to the fundamentals of vocal structure and technique as well as physical and vocal presence in front of an audience within the context of specific genres/style periods of musical theatre. Fundamental acting techniques will be developed in the context of musical theatre practice through the use of regular warm-ups, theater games, improvisation, and study of song texts. Each of the three main units of the course, ensembles, duets and solo songs, will culminate in a public performance of the pieces studied in class. Standard professional practices for musical preparation and auditions will also be addressed and will include a mock audition process at the end of the term. Students will be required to attend a full production of a musical and will develop critical analytical skill through written reflection on that production as well as on their own development throughout the term.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis

THEA 1341 - WORLD THEATRE: 500 BCE TO 1640

Minimum Credits: 3  
Maximum Credits: 3  
World theatre 500 BC to 1640 investigates histories of theatre and performance (scripts, embodiment, design, audiences, conventions, cultural functions, etc.) Within local and global social, artistic and political contexts, from classical Athens to Edo Japan, colonial Mexico city to Shakespeare's globe. The course focuses on evidence and interpretation as well as historical causation.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

THEA 1342 - WORLD THEATRE: 1640 TO 1890

Minimum Credits: 3  
Maximum Credits: 3  
This course is the second in a world theatre history sequence designed to explore the development of dramatic forms and theatre practices from the 5th century B.C.E. to the present. In World Theatre: 1640 to 1890 we will discuss the history of theatre arts which includes looking at drama, design, performance traditions and audiences--from the comedies of Restoration England to emerging realism of Buchner, Zola and Ibsen. Framed by questions of documentary interpretation and historical causation, the course will analyze the larger contexts of theatrical events, including social and political history, as well as the development of non-theatrical art forms. In addition, we will discuss some contemporary scholarship examining these theatrical events.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

THEA 1343 - WORLD THEATRE: 1890-Present

Minimum Credits: 3  
Maximum Credits: 3  
This is the third in a world theatre history sequence designed to explore the development of dramatic forms and theatre practices from the 5th century B.C.E. To 1970. In world theatre: 1890 to Present, we will discuss the history of the theatrical arts which includes looking at drama, design, performance traditions and audiences from the late dramas of Ibsen to the plays of Beckett and Pinter. Framed by questions of documentary interpretation and historical causation, the course will analyze the larger contexts of theatrical events, including social and political history, as well as the development of non-theatrical art forms. Our focus will be on Western theatre with occasional references to non-Western forms of performance and production. In addition, we will discuss some contemporary scholarship examining these theatrical events.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: LVL : So, Jr, or Sr; PROG: School of Arts and Sciences  
THEA 1360 - THEATRE CRITICISM

Minimum Credits: 3  
Maximum Credits: 3  
A practical course in the craft of theatre criticism. The class attends local theatrical productions and writes weekly reviews. Course is designed to develop skills in interpretation of the theatrical art, in understanding of how the play operates in the theatre, and in creative writing. Each student receives individual attention to interpretation problems.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006)  
Course Attributes: Writing Requirement Course

THEA 1361 - FORMS OF JAPANESE THEATRE

Minimum Credits: 3  
Maximum Credits: 3  
This course provides a survey of various major forms of Japanese theatre using English language materials. Students will have access to relatively ancient forms of Japanese theatre such as kagura and noh, kabuki drama and the bunraku puppet theatre through film and videocassette. The modern and avant-garde theatre are also accessible through translation and videocassette material.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  

THEA 1365 - PLAYWRITING 1

Minimum Credits: 3  
Maximum Credits: 3  
This is a beginning course in the craft of playwriting. Students will read eight outside plays, will write seven scripts--the last of which is a one-act--and will critique, read aloud, and discuss the work of others in the class. Seminar/workshop style. Attendance is mandatory. Recommended: two courses from among the following three areas performance, dramatic literature, creative writing.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: THEA 1365 or ENGWRT 1650; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006)  
Course Attributes: Writing Requirement Course

THEA 1366 - PLAYWRITING 2

Minimum Credits: 3  
Maximum Credits: 3  
Playwriting II advances beyond and builds upon the craft exercises and 20 page one acts of Playwriting I to workshop students' ongoing projects. This work might take the form of a brace or trio of one acts, an hour long portion of a full length play, or other projects to be approved by the instructor. Workshop method. Revision required. This course fulfills the W requirement.  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: THEA 1365 or ENGWRT 1650; PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGLFM 0210 or FP (0003 or 0006)  
Course Attributes: Writing Requirement Course

THEA 1390 - NEW PLAY PRACTICUM

Minimum Credits: 3  
Maximum Credits: 3  
The New Play Practicum is an advanced course designed for theatre artists (playwrights, directors, actors, mainly though there is room for stage management duties) to try the new scripts produced by students in Playwriting 2 and in some cases from Playwriting 1. The scripts will be assigned in class, table-workshopped at first, and then assigned to teams. Most rehearsals will take place outside of class with the aim of presenting seated readings or staged readings as we can in lunchtime venues throughout the term. Teamwork is key. Each student will have several practical
assignments; written assignments will be tailored to each student's needs.

**Academic Career:** Undergraduate  
**Course Component:** Practicum  
**Grade Component:** LG/SNC Elective Basis

---

### THEA 1391 - SPECIAL TOPICS: THEATRE DESIGN

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers a specialized topic in Theatre Arts. Topics vary every semester. Current course descriptions can be found in the notes section.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

### THEA 1392 - SPECIAL TOPICS IN PERFORMANCE

**Minimum Credits:** 3  
**Maximum Credits:** 3  
This course covers a specialized topic in Theatre Arts. Topics vary every semester. Current course descriptions can be found in the notes section.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis

---

### THEA 1393 - THEATRE AND THE BLACK LIVES MATTER MOVEMENT

**Minimum Credits:** 3  
**Maximum Credits:** 3  
We will collectively read contemporary theatrical, political, theoretical and sociological works that engage with race in the United States, Black Lives Matter, white silence, and ally capacity building. Some of us may be just learning how to talk about the above; some of us may live it daily. Theatrical pieces, plays and performance, function as the spine for our work, around which contextual critical and historical works will coalesce. We will also actively engage with journalistic and social media, as well as films, music and dance, both in Pittsburgh and beyond. The reading and viewing materials in the course are inspired by American Theatre Magazine's, Ferguson Theatre Syllabus, and Prof. Frank Leon Roberts, (NYU Gallatin) Black Lives Matter Movement syllabus.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** Letter Grade

---

### THEA 1401 - BUSINESS MANAGEMENT

**Minimum Credits:** 3  
**Maximum Credits:** 3  
Career development for performers. The aim of this course is to introduce theatrical performers to the resources and opportunities available in theatre professions, related fields, and continuing education. The objectives are to assist the student in identifying academic and career goals and developing strategies for achieving a successful process. Performers will develop audition material, resumes, headshots and related materials necessary for the successful attainment of their career objectives. In addition, students will be asked to think in a larger context anticipating long range planning to consider.  
**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis

---

### THEA 1480 - DIRECTED PROJECT SCENERY/PROPS

**Minimum Credits:** 1  
**Maximum Credits:** 3  
Students will work directly with the scenic faculty and staff on department productions on either theoretical or practical projects.  
**Academic Career:** Undergraduate  
**Course Component:** Directed Studies  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Capstone Course

---

### THEA 1481 - DIRECTED PROJECT COSTUME/MAKEUP

---

1766
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the costume faculty and staff on department productions on either theoretical or practical projects.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

THEA 1482 - DIRECTED PROJECT LIGHTING/SOUND

Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the lighting/sound faculty and staff on department productions on either theoretical or practical projects.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

THEA 1483 - DIRECTED PROJECT DIRECTING/PERF

Minimum Credits: 1
Maximum Credits: 3
This course will entail a study of acting and directing, concentrating on the problems and techniques of the realistic/naturalistic styles and other 20th century correlative.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

THEA 1484 - DIRECTED PROJECT BUSINESS MGT

Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the design and tech faculty and staff on department productions on either theoretical or practical projects.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

THEA 1485 - DIRECTED PROJECT STAGE MANAGEMENT

Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the stage management faculty and staff on departmental productions on either theoretical or practical projects.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1486 - DIRECTED PROJECT DRAMATURGY

Minimum Credits: 1
Maximum Credits: 3
This course involves studying the practice and theory of dramaturgy under the direct supervision of a faculty member. Depending on the student's area of interest and experience, the course may focus on dramaturgy at the introductory level or a more specialized dramaturgy project.
Academic Career: Undergraduate
Course Component: Directed Studies
Grade Component: Letter Grade
Course Attributes: Capstone Course

THEA 1487 - DIRECTED PROJECT UNDERGRAD TEACHING ASSISTANT
Students will work directly with a faculty member as a Teaching Assistant for a course. To be eligible for a T.A. position, students must: be a Theatre Arts Major or Minor, be at least an emerging Junior or farther in their academic career, have completed both THEA 0804 and THEA 0810, be in good academic standing with a GPA of 3.0 or better, and have completed the course in which the TA position is sought, earning a 3.5 or better in the class. This Directed Study can be taken for 1-3 credits depending on the amount of work and class time agreed upon with the instructor of record. Permission from the Director of Undergraduate Studies in the Theatre Department and the faculty member acting as Instructor of Record is required. Please see the Director of Undergraduate Studies in the Theatre Department for more details.

**THEA 1488 - THEATRE PRODUCTION**

- **Minimum Credits:** 1
- **Maximum Credits:** 3
- This course will entail participation in the theatre arts department's productions in one of several categories for upper classmen and graduate students.

**THEA 1498 - DIRECTED RESEARCH: THEATRE ARTS**

- **Minimum Credits:** 1
- **Maximum Credits:** 6
- Independent work on a project in theatre, supervised by a member of the theatre faculty.

**THEA 1500 - MODERN ACTING**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course builds students' acting skills and styles. It provides the means through which students may develop or expand their acting abilities through practical work with a variety of scripts, focusing primarily on 20th-century English plays. This course has been designed based upon the technical foundations established by Stanislavsky, and requires students to develop acting skills through exercises and methods taken from a mixture of America, European, as well as Russian acting traditions. Such techniques are fundamental to most lessons given at British universities and acting schools and are often used throughout rehearsals in the context of professional productions.

**THEA 1501 - SHAKESPEARE ACTING**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- In this course students develop a fluency in Shakespeare's rhetorical style through practical study, performing extracts from Shakespeare plays as well as speaking a Sonnet. The course will enable students to place Shakespeare firmly in the context of his own time, as well as in ours. The course gives an introduction to the rules of rhetorical theatre, with particular reference to the role of the iambic pentameter in Shakespeare's plays. Students are shown how to 'work' a line to the point of delivery, through attention to meaning, scansion, stress and breathing.

**THEA 1900 - INDEPENDENT STUDY**

- **Minimum Credits:** 1
- **Maximum Credits:** 6
- The terms of the student's independent study will be agreed upon by the instructor and the student.
THEA 1901 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
The location and terms of the student's internship will be agreed upon by the instructor and student.
Academic Career: Undergraduate
Course Component: Internship
Grade Component: LG/SNC Elective Basis
Course Attributes: Capstone Course

THEA 1903 - SEMINAR IN THEATRE ARTS

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in Theatre Arts. Topics vary every semester. Current course descriptions can be found in the notes section.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006) *Applies to all WRIT Courses*
Course Attributes: Capstone Course, Writing Requirement Course

Turkish

TURKSH 0101 - TURKISH 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Attributes: Asian Studies, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

TURKSH 0102 - TURKISH 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0561 or TURKSH 0101; MIN GRADE: ‘C’ FOR LISTED COURSES
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

TURKSH 0103 - TURKISH 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: Undergraduate
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: LING 0562 or TURKSH 0102; MIN GRADE: 'C' FOR LISTED COURSES  
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

TURKISH 4

Minimum Credits: 3  
Maximum Credits: 3  
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.  
Academic Career: Undergraduate

TURKISH 5

Minimum Credits: 3  
Maximum Credits: 3  
Students in this course will: refine and consolidate their language skills in everyday communicative situations covered in Turkish 1 through 4; expand and build on their language skills in more complex communicative situations that require creative and resourceful use of the Turkish Language; learn to express themselves creatively in both spoken and written Turkish at higher levels of articulation with context specific vocabulary, cultural formulas and grammar forms; and, advance their skills in reading and comprehending various types of texts with advance level grammar forms. Focus will be on communicative competence grounded in solid knowledge of grammar, writing, listening and reading comprehension skills.  
Academic Career: Undergraduate

TURKISH 6

Minimum Credits: 3  
Maximum Credits: 3  
Students in this course will: refine and consolidate their language skills in everyday communicative situations covered in Turkish 1 through 5; expand and build on their intermediate level language skills in more complex communicative situations that require creative and resourceful use of language skills; learn to express themselves creatively in both spoken and written Turkish at higher levels of articulation with context specific vocabulary, cultural formulas and grammar forms; and advance their skills in reading and comprehending various types of texts with advance level grammar forms. Focus will be on communicative competence grounded in solid knowledge of grammar, writing, listening and reading comprehension skills.  
Academic Career: Undergraduate

TURKISH 7

Minimum Credits: 3  
Maximum Credits: 3  
Students in this course will: refine and consolidate their language skills in everyday communicative situations covered in Turkish 1 through 6; expand and build on their language skills in more complex communicative situations that require creative and resourceful use of the Turkish Language; learn to express themselves creatively in both spoken and written Turkish at higher levels of articulation with context specific vocabulary, cultural formulas and grammar forms; and advance their skills in reading and comprehending various types of texts with advance level grammar forms. Focus will be on communicative competence grounded in solid knowledge of grammar, writing, listening and reading comprehension skills.  
Academic Career: Undergraduate

Total Count: 1770
Course Requirements: PREQ: TURKSH 0106; MIN GRADE 'C' FOR ALL LISTED COURSES
Course Attributes: Asian Studies, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

TURKSH 0108 - TURKISH 8

Minimum Credits: 3
Maximum Credits: 3
Students in this course will: refine and consolidate their language skills in everyday communicative situations covered in Turkish 1 through 7; expand and build on their language skills in more complex communicative situations that require creative and resourceful use of the Turkish Language; learn to express themselves creatively in both spoken and written Turkish at higher levels of articulation with context specific vocabulary, cultural formulas and grammar forms; and, advance their skills in reading, comprehending, interpreting, translating and transcribing various types of texts with advance and superior level grammar forms. Focus will be on communicative competence grounded in solid knowledge of grammar, writing, listening and reading comprehension skills.

Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: TURKSH 0107; MIN GRADE 'C'
Course Attributes: Asian Studies, European Union Studies, European and Eurasian Studies, Global Studies, Russian & East European Studies

TURKSH 1615 - TURKISH CULTURE AND SOCIETY

TURKSH 1909 - SPECIAL TOPICS IN TURKISH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Urban Studies

URBNST 0019 - COVID-19 AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
The global pandemic COVID-19 has disrupted the way we live, and this is especially true for those of us living in metropolitan areas. This
introductory course addresses the current pandemic by exploring the interconnections between urbanization, globalization, and public health. Using lectures, discussions, and guest speakers we will explore what this public health crisis reveals about the way cities are constructed. By looking back at previous global pandemics including the Great Plague, Spanish Flu, and SARs we can evaluate the potential of COVID-19 to change urban life at scales from the global to the local. This course is designed for any Pitt student interested in the interdisciplinary dimensions of the crisis.

**URBNST 0080 - INTRODUCTION TO URBAN STUDIES**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course serves as the required introduction into the Urban Studies major or as a general course in the social sciences for the non-major. The course explores the problems and potentials of cities by combining the various disciplinary perspectives--economics, Africana studies, history, political science, sociology, and anthropology. As the course is providing the students with the necessary concepts and information to understand cities, the students will be developing their own skills through field trips, debates, group presentations and journal writing.

**URBNST 0400 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course will focus on the concept of punishment as a response to a criminal act. While in religiously-grounded societies punishment is seen as a retribution for an evil act, tendencies in modernity (and post-modernity) privilege the use of punishment as a tool for social reintegration. With the rise of human rights-based doctrines, the characterization of punishment as retribution has proven to be more and more difficult to justify. Even if sayings such as "paying my debt to society" are still in use, it is becoming more and more evident - especially in a time of mass incarceration - how incarceration as punishment cannot be the only solution. This course exposes students to ideas of justice as a process aimed at reintegrating wrongdoers in society through a path of reconciliation and re-socialization, so that the end of the process will produce fellow citizens rather than ex-felons.

**URBNST 1005 - SPECIAL TOPICS**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- This course will entail the exploration of a specific urban topic.

**URBNST 1102 - INTRODUCTION TO GIS**

- **Minimum Credits:** 3
- **Maximum Credits:** 3
- Geospatial data are digital representations of our physical world. As such, many public policy programs are critically informed by applications of geospatial data. This course will teach students how to acquire, manage, analyze, and visualize spatial data using ArcGIS Desktop. Students will also be introduced to applied data analysis using R. R is powerful, free, and flexible software used in many "big data" application. Assignments, applications, and course discussion will emphasize contemporary issues in public policy. Upon completing this course, students should expect to be proficient in basic GIS analysis and prepared for more advanced statistical coursework.

**URBNST 1104 - APPLIED GIS**

1772
This course provides an introduction to core methods for analyzing geo-spatial data, questions and applications with an emphasis on spatial and cluster analysis of point data using ArcGIS desktop. It will focus on teaching students the principles of GIS through computer-based exercises. Classroom projects will train students in acquiring, constructing, and managing geo-spatial data in order to solve spatially explicit problems. Exercises and projects will be geared toward equipping students with the set of quantitative tools that are relevant to courses taught in the urban studies program, especially courses taken by students in the planning and politics concentrations. This will provide students with the background for pursuing advanced work in urban economic geography, public administration, economic and community development, and regional analysis. However, the core methods presented in this course form the foundation for quantitative work in political science, sociology, and economics as well. This is a self-contained course. Students who have taken courses in Introduction to GIS or Introductory Statistics will find such courses useful, but they are not essential.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

**URBNST 1110 - GIS & COMMUNITY DATA**

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the application of mapping community data to inform decisions at the municipal level. The ability to problem scope, analyze and think critically about complex local issues is critical to the successful application of GIS to decision making by local groups/actors including Community Development Corporations (CDCs), neighborhood associations, resident associations and planning groups using different types of community data. Throughout the course, students will explore real world scenarios involving real stakeholders using local data and GIS to make decisions and practice planning. Students will be expected to engage with community stakeholders and data about technical and non-technical issues to complete exercise and projects. The course will primarily use ArcGIS Desktop, Microsoft Excel, and Carto online mapping software.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

**URBNST 1200 - URBAN STUDIES FIELD RESEARCH SEMINAR**

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the urban studies methodology of "field study". The class will go on field trips to Pittsburgh communities that epitomize current urban problems and issues. Readings and classroom discussions will focus on how to "read" the urban landscape as well as provide background on current urban problems.

Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

**URBNST 1210 - NEIGHBORHOOD, GENTIFICATION, BELONGING AND THE CITY**

Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

**URBNST 1300 - URBAN SKILLS SEMINAR**

Minimum Credits: 3
Maximum Credits: 3
In this course students will learn and apply a set of basic research and communication skills relevant to work in urban settings. After active participation in the course, students will be able to locate data, analyze in thorough and theory based fashion, and present clearly and persuasively. Skills include defining a research question, questionnaire design and interviewing, finding and interpreting secondary data, using pc based spreadsheet, database and presentation software and participating on a team. Coursework is organized around real world problems.

Grade Component: Letter Grade
Course Attributes: Study Abroad

URBNST 1418 - GLOBAL CITY - SHANGHAI
Minimum Credits: 3
Maximum Credits: 3
This three-credit course is designed to encourage students to engage in a critical analysis of the development of modern Shanghai. It is a municipality that already exhibits the key characteristics of many global cities. Students will discuss what that concept means in general terms, and in ways that are specific to Shanghai. Students will explore how this city has been imagined, invented, and transformed by the forces of foreign engagement, industrialization, and globalization. The cityscape and social landscape of Shanghai are the "texts" that student will explore, interpret, and analyze.

URBNST 1424 - PITT IN SYDNEY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: Undergraduate
Course Component: Lecture
Grade Component: Letter Grade
This course is taught through the Study Abroad Office as part of the Pitt in Sydney summer program.

URBNST 1500 - URBAN RESEARCH SEMINAR
Minimum Credits: 3
Maximum Credits: 3
The Urban Research Seminar focuses the knowledge and skills, which the student has gained through the program, on a particular topic. The specific topic varies from term to term and faculty member to faculty member, but it always concerns an issue of relevance to the immediate Pittsburgh environment. Examples include riverfront development, the impact of Reagan's cutbacks, the redevelopment of East Liberty, etc. To investigate the topic students will review secondary sources as well as collect and analyze their own information through interviews, field trips, surveys, etc.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: URBNST 0080 and 1300PLAN: Urban Studies (BA or BPH); PREQ: ENG 0102 or ENGCMP (0002 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0210 or 0212) or ENGFLM 0210 or FP (0003 or 0006)
Course Attributes: Capstone Course, Writing Requirement Course

URBNST 1502 - FIELD ANALYSIS OF GLOBAL URBANISM
Minimum Credits: 3
Maximum Credits: 3
This course presents University of Pittsburgh students with the opportunity to travel to Singapore and Malaysia for a two-week Urban Studies field course, guided by Pitt faculty. This 3-credit IFTA (integrated Field Trip Abroad) is a base three-credit course that facilitates comparative analysis of urban processes in two strategic Southeast Asian cities. This course is available to all Pitt undergraduates, and does not include any prerequisite courses. The course consists of lectures and site visits to places of significant urban interest in both Singapore and Kuala Lumpur. Students will complete readings and discussions about urban processes in both cities, and will develop a blog and independent reports about these places. The content for this three-credit course will be contained within the two-week field course, and will focus on Asian urbanization, consumption, and sustainable city development.
Academic Career: Undergraduate
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1504 - ADVANCED INTERNATIONAL FIELD PLACEMENT
Minimum Credits: 3
Maximum Credits: 3
This course presents Urban Studies students with the opportunity to travel to Singapore and Malaysia for a two-week Urban Studies field course, guided by Pitt faculty. This 3-credit IFTA (integrated Field Trip Abroad) is a three-credit course that supplements URBNST 1502, and your domestic research courses (URBNST 1300 & URBNST 1500). Therefore, it is expected that you will have previously completed 1300 and 1500, and be taking URBNST 1502 concurrently with this course. The course focuses upon design and implementation of a pilot research project that attempts a comparative analysis of some aspect of urbanism within Southeast Asia. Students will work in teams to complete this project, under the supervision of Pitt Faculty. This three-credit course will be preceded by five pre-departure meetings, and the research project should in some way focus on one of the course themes.

**URBNST 1608 - URBAN ECONOMIC GEOGRAPHY**

Minimum Credits: 3  
Maximum Credits: 3  
Participants in this course will learn about the evolving forms of metropolitan government and governance in the United States, with a special focus on the post-1992 period. Course units examine the history and contemporary shape of urban politics, and the opportunities and challenges facing local communities during the 21st century. By the end of the course students will be able to appraise how the contemporary landscape of regional governance in the United States is affecting specific cities.  

**URBNST 1610 - REMAKING CITIES THROUGH POLICY AND PRACTICE**

Minimum Credits: 3  
Maximum Credits: 3  
Who holds political power in cities across the United States, and how do they use it to remake cities? "Remaking Cities through Policy and Practice" lets you explore the political and community development dynamics of US cities, and builds a toolkit that you will use to evaluate the players and rules of tactical urbanism. During the semester you will meet regional leaders and conduct practical research on the way that neighborhoods are using comprehensive plans and other policy tools to generate economic growth.  

**URBNST 1612 - SOCIAL JUSTICE AND THE CITY**

Minimum Credits: 3  
Maximum Credits: 3  
Social justice and economic justice are popular buzz-words that are closely tied to urban environments: but what do they really mean, and how can we understand them? URBNST 1612 uses critical social geography to interrogate both historical and contemporary social justice movements that claim to protect human rights, fair housing, or to expand definitions of public space and citizenship. Taken together these agendas form a powerful prescription for social action, one often emerging in urban settings. Using a combination of lectures, Concept Mapping exercises, and case studies, we will examine the historical and theoretical context for social justice in the city and then evaluate different geographies of social change. By the end of the course students will be able to use a critical perspective to understand how the rhetoric of social justice is changing the urban geographies of specific cities worldwide.  

**URBNST 1613 - SUSTAINABLE CITIES 1: THEORIES AND CONCEPTS**

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Seminar  
Grade Component: Letter Grade  
Course Attributes: Study Abroad  

**URBNST 1614 - URBAN SUSTAINABILITY**

Minimum Credits: 3  
Maximum Credits: 3  
This course provides a critical introduction to the concept of sustainability in relation to cities in the United States and internationally. We will investigate how the fuzzy concept of sustainability has developed, and look at how principles of urban sustainability are put into practice. In particular, we will look at the Pittsburgh city-region, and draw on examples from Singapore, Auckland (New Zealand), and Tianjin (China). In particular, the class will concentrate on how sustainability is embedded in planning urban structures, organizing for sustainable communities, and
mitigating environmental risks and vulnerability. Students will hear from a variety of professionals engaged in sustainable urbanism, and learn about specific tools used to assess sustainability at different geographic scales.

**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Urban Studies

**URBNST 1615 - SUSTAINABLE CITIES 2: FIELD RESEARCH**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Urban Studies

**URBNST 1616 - RENT, BUY OR SQUAT: HOUSING AND PROPERTY IN US CITIES**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** Letter Grade  
**Course Attributes:** Urban Studies

**URBNST 1700 - INTERNATIONAL URBANISM SEMINAR**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: URBNST 0080  
**Course Attributes:** Urban Studies

**URBNST 1708 - WORLD URBAN PATTERNS**

Minimum Credits: 3  
Maximum Credits: 3  
**Academic Career:** Undergraduate  
**Course Component:** Seminar  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Urban Studies

**URBNST 1900 - URBAN FIELD PLACEMENT**

Minimum Credits: 3  
Maximum Credits: 6  
This course gives the Urban Studies major the opportunity to get off the campus and into the community. It allows the student to relate his or her academic training to a real world situation by working in an urban related organization or agency. The student works under the combined supervision
of the agency personnel and the urban studies advisor. The student is required to keep a journal, attend scheduled meetings with other field placement students and write a final reflective paper.

**Academic Career:** Undergraduate  
**Course Component:** Internship  
**Grade Component:** Satisfactory/No Credit  
**Course Requirements:** PLAN: Urban Studies (BA or BPH)  
**Course Attributes:** Capstone Course, Urban Studies

**URBNST 1901 - INDEPENDENT STUDY**

- **Minimum Credits:** 1  
- **Maximum Credits:** 6  
  Individual project administered under the supervision of a faculty member.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** Letter Grade  
**Course Requirements:** PLAN: Urban Studies (BA or BPH)

**URBNST 1903 - URBAN STUDIES HONORS THESIS**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
  This course is only for people who will be writing an honors thesis.  
**Academic Career:** Undergraduate  
**Course Component:** Independent Study  
**Grade Component:** Letter Grade

**Vietnamese**

**VIET 0101 - VIETNAMESE 1**

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
  The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Attributes:** Asian Studies, Global Studies

**VIET 0102 - VIETNAMESE 2**

- **Minimum Credits:** 4  
- **Maximum Credits:** 4  
  At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.  
**Academic Career:** Undergraduate  
**Course Component:** Lecture  
**Grade Component:** LG/SNC Elective Basis  
**Course Requirements:** PREQ: LING 0581 or VIET 0101; MIN GRADE: ‘C’ FOR LISTED COURSES  
**Course Attributes:** Asian Studies, DSAS Second Language General Ed. Requirement, Global Studies

**VIET 0103 - VIETNAMESE 3**

- **Minimum Credits:** 3  
- **Maximum Credits:** 3  
  The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to readings as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0582 or VIET 0102; MIN GRADE: ‘C’ FOR LISTED COURSES  
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement, Global Studies

VIET 0104 - VIETNAMESE 4

Minimum Credits: 3  
Maximum Credits: 3  
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.

Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis  
Course Requirements: PREQ: LING 0583 or VIET 0103; MIN GRADE: ‘C’ FOR LISTED COURSES  
Course Attributes: Asian Studies, DSAS Second Language General Ed. Requirement, Global Studies

VIET 1901 - INDEPENDENT STUDY

Minimum Credits: 1  
Maximum Credits: 9  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: LG/SNC Elective Basis

VIET 1905 - UNDERGRADUATE TEACHING ASSISTANT IN VIETNAMESE

Minimum Credits: 1  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Independent Study  
Grade Component: Satisfactory/No Credit

VIET 1909 - SPECIAL TOPICS IN VIETNAMESE

Minimum Credits: 3  
Maximum Credits: 3  
Academic Career: Undergraduate  
Course Component: Lecture  
Grade Component: LG/SNC Elective Basis
