Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0612 - YORUBA 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0613 - YORUBA 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0614 - YORUBA 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0621 - AYMARA 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary reading and writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0622 - AYMARA 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able to engage in simple conversations with native speakers about a limited number of everyday situations and to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0621; MIN GRADE: 'C'

LING 0623 - AYMARA 3
Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and to writing as a means of consolidating and communicating the knowledge gained.

LING 0631 - TOK-PISIN 1
Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0641 - SERBIAN 1
Minimum Credits: 4
Maximum Credits: 4
An introduction to the fundamentals of Serbian pronunciation and grammar. Students receive a complete introduction to the sound and writing system. The balance of the course focuses on basic grammatical concepts, laying a solid foundation for further work in grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0642 - SERBIAN 2
Minimum Credits: 4
Maximum Credits: 4
An introduction to the fundamentals of Serbian pronunciation and grammar. Students receive a complete introduction to the sound and writing system. The balance of the course focuses on basic grammatical concepts, laying a solid foundation for further work in grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0643 - SERBIAN 3
Minimum Credits: 3
Maximum Credits: 3
This four skills language course extends the grammatical coverage to include verbal aspect, numeral expressions and the dative, locative and genitive cases. Emphasis continues to be on developing spoken language competence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0644 - SERBIAN 4
Minimum Credits: 3
Maximum Credits: 3
An introduction to the fundamentals of Serbian pronunciation and grammar. Students receive a complete introduction to the sound and writing

system. The balance of the course focuses on basic grammatical concepts, laying a solid foundation for further work in grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0645 - SERBIAN 5

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to develop advanced proficiency in Serbian as a foreign language. Communication and literacy skills will be built through interactive oral and written activities which require students to express ideas and perform complex language tasks in culturally appropriate ways. Topics include language used in travel, business, sports, and informal social gatherings. Grammar, vocabulary and reading will be situated in meaningful contexts that link language structure to communicative function.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0646 - SERBIAN 6

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to consolidate advanced proficiency skills in Serbian as a foreign language. Special emphasis will be given to academic discourse and rhetorical conventions, plus strategies for working with media and texts designed for a native speaker audience. Topics for discussion will include political, historical, and literary issues in the culture of Serbia and the Balkans. Interactive oral and written exercises will require students to formulate well-reasoned arguments and perform complex language tasks in appropriate ways.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0701 - EGYPTIAN ARABIC 1

Minimum Credits: 2
Maximum Credits: 2
The first semester will be devoted to the presentation and practice of the basic sound patterns of the Egyptian dialect, its fundamental sentence patterns, and sufficient vocabulary for basic conversation. Cultural information will accompany language instruction to prepare students for a possible journey abroad.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 0132; MIN GRADE: 'C'

LING 0702 - EGYPTIAN ARABIC 2

Minimum Credits: 2
Maximum Credits: 2
The second term will introduce more elaborate conversations that include a more advanced level of grammar such as tenses and conjugations. By creating an interesting story line that follows the experience of two American tourists in Cairo, students will be able to listen to more authentic samples of the dialect and participate in more sophisticated conversations through class activities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0701 (MIN GRADE: 'C'); CREQ: LING 0133 (MIN GRADE: 'C')

LING 0703 - EGYPTIAN ARABIC 3

Minimum Credits: 2
Maximum Credits: 2
The third term will engage students more fully in authentic speech by giving them an insider's view of life in Egypt. Students will listen to authentic Egyptian conversations involving everyday problems, entertainment and professional life. This level introduces the colloquialisms of the modern Egyptian dialect.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0702 (MIN GRADE: 'C'); CREQ: LING 0134 (MIN GRADE: 'C')

LING 0711 - IRAQI ARABIC 1

Minimum Credits: 2
Maximum Credits: 2
The first semester will be devoted to the presentation and practice of the basic sound patterns of the Iraqi dialect, its fundamental sentence patterns, and sufficient vocabulary for basic conversation. Cultural information will accompany language instruction to prepare students for a possible journey abroad.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 0132; MIN GRADE: 'C'

LING 0712 - IRAQI ARABIC 2

Minimum Credits: 2
Maximum Credits: 2
The second term will introduce more elaborate conversations that include a more advanced level of grammar such as tenses and conjugations. By creating an interesting story line that follows the experience of two Americans in Baghdad. Students will be able to listen to more authentic samples of the dialect and participate in more sophisticated conversations through class activities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0711 (MIN GRADE: 'C'); CREQ: LING 0133 (MIN GRADE: 'C')

LING 0713 - IRAQI ARABIC 3

Minimum Credits: 2
Maximum Credits: 2
The third term will engage students more fully in authentic speech by giving them an insider's view of life in Iraq. Students will listen to authentic Egyptian conversations involving everyday problems, entertainment and professional life. This level introduces the colloquialisms of the modern Iraqi dialect.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0712 (MIN GRADE: 'C'); CREQ: LING 0134 (MIN GRADE: 'C')

LING 0721 - LEVANTINE ARABIC 1

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0131 (MIN GRADE: 'C'); CREQ: LING 0132 (MIN GRADE: 'C')

Course Requirements: PREQ: LING 0732 (MIN GRADE: 'C'); CREQ: LING 0134 (MIN GRADE: 'C')

LING 0921 - ASIAN & PACIFIC FOREIGN LANG 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0922 - ASIAN & PACIFIC FOREIGN LANG 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0923 - ASIAN & PACIFIC FOREIGN LANG 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0931 - EUROPEAN FOREIGN LANGUAGES 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0932 - EUROPEAN FOREIGN LANGUAGES 2

Minimum Credits: 4
Maximum Credits: 4

LING 1060 - LANGUAGE & SOCIETY IN KOREA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1065 - METAPHOR KOREAN LANG & THOUGHT

Minimum Credits: 3
Maximum Credits: 3
Metaphor in Korean language and thought is an introduction course to the study of meaning, which focuses on the basic findings in the field of conceptual metaphor research. Metaphor is pervasive in everyday life, not just in LG but also in thought and culture. Metaphors also play a role in ethnic and cultural identity. In this course, we will examine how metaphor differences across cultures affect how people in different cultures think and consequently use LG differently. Korean will be the main lgto be studied throughout the course but other LGs such as English, Japanese and Chinese will also be discussed in order to maintain cross-linguistic and cross-cultural comparisons.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1080 - GER SCIENTFC/TECH TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course provides training in the various text styles found in scientific and technical literature, including work with linguistic features and idiosyncrasies pertinent to such literature and the acquisition of basic linguistic skills with regard to word formation for new concepts and new terms. Areas of concentration for the course therefore include concept specifications, terminology issues and lexicography.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1081 - FR PROFESSIONAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3
The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under "on the job" situations. Emphasis is on practical translation skills. Introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial, legal, scientific, and technical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1082 - GER PROFESSIONAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to train translators to gain experience in translating the type of material professional translators handle under actual "on the job" situations.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

LING 1084 - LEGAL FRENCH

Minimum Credits: 3
Maximum Credits: 3
This is a course for students who desire experience in translating legal documents from French to the equivalent English forms. The course emphasizes both theoretical knowledge of basic legal principles and terminology and the acquisition of advanced skills in the translation of legal texts. Documents for translation--drawn from business, corporate and commercial fields--include power of attorney, leases, insurance policies, legislation, contracts, by-laws, articles of incorporation, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1085 - MEDICAL FRENCH

Minimum Credits: 3
Maximum Credits: 3
The course is intended for translators in training who de sire experience in translating the types of medical documents professional translators handle on the job. The documents chosen for translation are from scientific publications, actual medical reports, journals, etc. The course emphasizes the acquisition of practical translation skills, and introduces medical principles and terminology as well as terms of art as they are used in medical texts. Guides to resources and dictionaries will also be provided.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1086 - FR PROFESSIONAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
This course continues development of skills begun in professional translation 1. As in professional translation 1, emphasis is on practical translation skills, basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial, legal, scientific and technical texts of a progressively greater degree of complexity and difficulty.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1087 - GER PROFESSIONAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
This course is designed to train translators to gain experience in translating the type of material professional translators handle under actual "on the job" situations.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

LING 1089 - SPAN PROFESSNAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under "on the job" situations. Emphasis is on practical translation skills, introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial and technical texts.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1090 - PROF TRANSLATION INTRNSHIP-GER

Minimum Credits: 3
Maximum Credits: 3
This course provides on the job training for translators.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

LING 1091 - PROF TRANSLTN INTRNSHIP-SPAN

Minimum Credits: 1
Maximum Credits: 6
This course is intended to provide on-the-job training for translators in training on a one-to-one basis in an office situation.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

LING 1092 - PROF TRANSLATION INTERNSHIP-FR

Minimum Credits: 3
Maximum Credits: 3
This course is intended to provide on-the-job training for translators in training on a one-to-one basis in an office situation.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

LING 1093 - PROF TRANSLTN INTRNSHIP-ITAL

Minimum Credits: 3
Maximum Credits: 3
Practical, "on-the-job" translation training with multinational companies. International environment, on-hand reference material and actual office procedures for translators.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

LING 1142 - TECHNQS AND PROCDRS TCHNG ESL

Minimum Credits: 3
Maximum Credits: 3
This course is designed to train students to teach English to speakers of other languages. The course is on practical classroom procedures and techniques, rather than on the theoretical aspects of language teaching methodology. The course is taught by staff of the English language institute and includes lectures as well as practical classroom experience. The language learning and teaching experience of course participants is drawn on for comparative purposes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1181 - GERMAN LEGAL TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
A course in the professional translation certificate program, this course provides concentrated practice in translating legal documents from German to English. Emphasis is on an overview of the German legal system, basic legal principles and terminology, and the acquisition of advanced skills in the translation of German legal texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1182 - LEGAL SPANISH

Minimum Credits: 3
Maximum Credits: 3
This is a course for students who desire experience in translating legal documents from Spanish to the equivalent English forms. The course emphasizes both the theoretical knowledge of basic legal principles and terminology and the acquisition of advanced skills in the translation of legal texts. Documents for translation--drawn from business, corporate and commercial fields--include power of attorney, leases, insurance policies, legislation, contracts, by-laws, articles of incorporation, etc.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1183 - MEDICAL SPANISH

Minimum Credits: 3
Maximum Credits: 3
This course is intended for translators in training who desire experience in translating the types of medical documents professional translators handle "on-the-job". Course emphasizes acquisition of practical translation skills, and introduces basic medical principles and terminology, as they are used in medical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1184 - SPAN PROFESSNAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3
The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under "on the job" situations. Emphasis is on practical translation skills, introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial and technical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1235 - LANGUAGE, GENDER AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course is to sensitize students to the impressions given through language and the degree to which these are sex-linked. The course addresses a number of questions relevant to gender-specific language variation, including these: does language influence the way we view our gender roles, or do our gender roles condition our language? What do gender differences in languages have to do with the maintenance of social boundaries?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1240 - LANGUAGE AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
This course explores some of the ways in which linguistic science can shed light on the use and misuse of language in the legal system. After an introduction to the origins and special characteristics of written English legal language ("legalese"), we will study the layman's (non-) understanding of technical legal language; the language of persuasion (e.g. Exploitation of such linguistic features of ambiguity, implicit "rules of conversation" and socially stigmatized dialect features); and arguments for and against the participation of linguists as expert witnesses in the courtroom.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1250 - HISTORY OF LANGUAGE IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LING 1253 - PIDGIN AND CREOLE LANGUAGES

Minimum Credits: 3
Maximum Credits: 3
This course surveys the new languages that have sprung up in various parts of the world and under various historical circumstances when people who speak different languages come into contact with each other. These contact languages are called pidgins as long as they are spoken only as second languages, and creoles if they become the main language of a speech community. This course focuses on the major structural, social, and historical features of pidgins and creoles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1263 - CROSS-CULTURAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3

This course is designed for those planning to work or live in a situation which serves as an interface between two or more cultural groups, and also for those who are interested in matters of language and culture. The curriculum deals with aspects of culture as they interact with language, and specific topics (e.g. Dialects; language in situations of cultural contact; and the implications of cross cultural communication differences for education policy).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1267 - ASPECTS OF SOCIOLINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
Aims at providing insights into how social relationships influence language, and how language can play a role in shaping social relationships, both in the individual and societal level. Some of the issues we will look at are; attitudes towards languages, dialects and society; social differentiations of language; black English; multilingualism; bilingual education and language planning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1269 - LINGUISTICS VARIATION & CHANGE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1330 - INTRO TO COMPUTATIONAL LING

Minimum Credits: 3
Maximum Credits: 3
In both linguistics and computer science, we need to study languages and their grammar from a mathematical point of view. This course is an introduction to the mathematical theory of language and its applications. The first half will deal mainly with elements of the theory of automata and its relation to grammars. The second half will survey ways in which this theory can be applied to English grammar and to the design of programming languages. We will concentrate on syntax, but will also pay some attention to theories of meaning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000

LING 1440 - LANG AND PREHIST IN MESOAMERC

Minimum Credits: 3
Maximum Credits: 3
Mesoamerica is well-known linguistically, & its linguistic prehistory is rather well understood. Archeological research has achieved knowledge in great detail for many key areas. Ethno historical sources in native languages abound. The integration of linguistic archeology & ethno historical knowledge can yield a detailed picture of the area's culture history. We will survey the ethnolinguistic history of Mesoamerica from 5000 to 1500 AD. Attention will be given to the ethnic association of archeological cultures & the cultural/ecological interpretation of the reconstructed words.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1441 - FIELD METHODS IN LINGUISTICS

Minimum Credits: 3
Maximum Credits: 4
This course is meant to simulate the experience of linguistic field work, and raise awareness about the effectiveness of specific interview techniques for acquiring linguistic data. The course will give instruction and experience in eliciting data from a speaker of non (indo) European language. Students will undertake the investigation of the phonology, some aspect of grammar, and the ethno semantic study of a taxonomically structured semantic field such as plants or animals. Students will make detailed elicitation plans in advance of their administration.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 1578 and LING 1773 and LING 1777; LVL: Sr

LING 1442 - MAYAN LANGUAGES AND CULTURES

Minimum Credits: 3
Maximum Credits: 3
The 30 Mayan languages of southern Mexico, Guatemala, & Belize are among the best documented languages of Mesoamerica; they are ergative, & have both passives & anti passives. The results of comparative study of Mayan languages surpass those for any other Mesoamerican family. Some Mayans had pre-Columbian writing, & this writing system is currently being deciphered. Mayan society has been well studied by ethnographers, &

ethno historical sources are numerous & valuable. Besides these topics, ethnographically meaningful texts in two Mayan languages will be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1443 - AMERICAN INDIAN LANGUAGES

Minimum Credits: 3
Maximum Credits: 3
Of over 1000 different languages spoken by Native Americans in 1492, about 600 survive, most spoken by small numbers, although many populous Amer-Indian ethnic groups are found in Mesoamerica & the Andes. This course will survey the language families of the new world, & study the grammar & ethno graphic texts of two languages. The results of historical & comparative research on Amer-Indian languages will be studied, particularly as they relate to the culture history of their region. Also to be studied are pre-Columbian writing & literature & efforts at cultural maintenance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1444 - GYPSY LANGUAGE AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
Romani is spoken by more than 10,000,000 gypsies living in Europe and the Americas. They left their homeland in India over 2000 years ago, entering Europe around 1200 ad. Their unfriendly reception has made them shy and hard to know. Misunderstandings and misinformation on gypsies are abundant. This course will focus on reliable ethnographic descriptions from Europe and North America, and the language and folklore of one or more branches of the Romanization. The history of the gypsies as discernible in their language and written records will also be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1447 - LANGUAGE, CULTURE AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Certain cultural concerns are well-labeled linguistically: kinship, plant-names, diseases, colors, etc. The study of how such semantic fields are labeled and organized is ethnosemantics. Much of the way language is used depends on the context of speaking. Different ways of talking to different people is the subject matter of sociolinguistics. Some thoughts that we habitually think seem illogical on reflection, but it seems as if our language predisposes us to think this way. Such phenomena are addressed by the sapir-whorf hypothesis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LING 1448 - AZTEC LANGUAGE AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
The Aztecs spoke Nahua, as did the Toltec's before them. One million present-day Nahuas still speak the language & practice an Amer-Indian culture. The Nahua language is the best documented of all native American languages, from the 16thc to the present. The ethno historical sources in Nahua & on late pre-Columbian culture are unsurpassed in scope. All the writings in Nahua make up a small library. In this course we will study the grammar of Nahua, read ethnographic texts from the 20th & 16th centuries and trace the culture history of the Nahua-speaking peoples within Mesoamerica.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1450 - STRUCTURE OF AN AMERINDAN LANG

Minimum Credits: 3
Maximum Credits: 3
This is a seminar for the investigation of anthropological linguistic topics of interest to the professor and students. Topics covered might include ethnobotany, ethnozoology, ethno medicine, ethno psychology, kinship terminology, diffusion of artifacts/cultigens and their names, and many others. Methodology will vary with topic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1466 - TOPICS IN ANTHROPOLOGICAL LING

Minimum Credits: 3
Maximum Credits: 3
This is a seminar for the investigation of anthropological linguistic topics of interest to the professor and students. Topics covered might include ethnobotany, ethnozoology, ethno medicine, ethno psychology, kinship terminology, diffusion of artifacts/cultigens and their names, and many

others. Methodology will vary with topic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1520 - INTRO TO ARABIC LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
In the first half of this course, students will learn about the linguistic structure of modern standard Arabic and related dialects with a special focus on the phonology, morphology and syntax. Material in the second half of the course will focus primarily on social issues related to the Arabic language including discourse, dialectology and language variation, diglossia and language contact.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1522 - ARABIC LIFE AND THOUGHT

Minimum Credits: 3
Maximum Credits: 3
The primary objective of the course is to introduce students to the cultures of the Arab world in order for them to understand the Arab character apart from stereotypes. The course will also examine the wide variety of ethnicities that are summarily defined as Arab. The main foci of the course will be the understanding of the contemporary Arab mind, the experiences that shaped it, and how Arabs convey it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1523 - INTRO TO MODERN ARABIC LITERTR

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ANY ENGCMP COURSE

LING 1524 - READINGS IN ARABIC

Minimum Credits: 3
Maximum Credits: 3
This course improves the proficiency of students of Arabic at the high intermediate level and above through reading and discussion of authentic Arabic texts. These texts will include both fiction (e.g. Excerpts from novels, short stories, etc.) And non-fiction (e.g. Newspaper articles, essays, political speeches, etc.) And will cover major areas of interest in Arabic writing, be they political, social or literary, and reflect the opinions of major Arabic authors on these issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0133 or LING 0143 or LING 0153 (MIN GRADE 'C'); CREQ: LING 0134 or LING 0144 or LING 0154; PROG: Dietrich Sch Arts and Sciences

LING 1527 - SPECIAL TOPICS IN ARABIC

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0133 or LING 0143 or LING 0153; PROG: Dietrich Sch Arts and Sciences

LING 1578 - PHONETICS AND PHONEMICS

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the production, recognition, and transcription of speech sounds in various languages of the world, and to the patterning of these sounds in phonological systems. Emphasis is on articulatory phonetics, though there is also some discussion of acoustic and experimental phonetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'

LING 1579 - PHONOLOGY
Minimum Credits: 3
Maximum Credits: 3
This course introduces the principles of phonological analysis and theory. After a brief survey of the roots of modern phonology in Prague school and American descriptivist ('classical phonemic') theories, the main focus of the course will be on generative phonology. Both in and out of class, students will be expected to solve phonological problems and construct theoretical arguments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1578 or CSD 1026

LING 1580 - LANGUAGE AND THE MIND
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the study of language as a cognitive science, focusing on the mental representations of the sounds of speech. Throughout the course we will emphasize the scientific methods used by researchers to investigate questions about the sounds of language. Because this course is multidisciplinary in nature, drawing primarily from the fields of linguistics and psychology, students will be introduced to the different methods, techniques, and technologies used by researchers in both fields.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or PSY 0010 or CSD 1020

LING 1670 - THEORY OF LOGIC & COMPUTATION
Minimum Credits: 3
Maximum Credits: 3
An advanced introduction to a symbolic logic and the theory of computation. The course will develop the theory of propositional and quantificational logic, including auto mated theorem proving techniques. There will be a brief introduction to the theory of computability and complexity, with applications to logic-related problems. There will be several lectures on applications of logic in computer science especially in artificial intelligence. Students will be exposed to several computer programs illustrating points that are made in class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1682 - INTRODCTN TO SEMANTIC THEORY
Minimum Credits: 3
Maximum Credits: 3
A survey course designed to introduce students who have been exposed to linguistics and logic to contemporary work in the theory of meaning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1720 - STRUCTURE OF SIGN LANGUAGES
Minimum Credits: 3
Maximum Credits: 3
This course will focus on the linguistic structure of sign languages, drawing examples principally, though not exclusively, from American sign language (ASL). It will also highlight similarities and differences between sign languages and spoken languages. In addition to structural features, the course will cover mechanisms unique to visual/spatial languages, the use of the face and body for grammatical signals, language variation, and acquisition of sign languages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1721 - SOCIOLINGUISTICS OF SIGN LANG
Minimum Credits: 3
Maximum Credits: 3
There are various sociolinguistic topics that one must consider with respect to signed languages of the deaf. Regarding language contact, ambient languages-either signed or spoken-influence a signed language. Less than 10% of deaf people are exposed to signed language from birth, which results in unique phenomena. Additionally, signed languages exhibit variation based on a myriad of social and geographical factors. These topics, in addition to language planning and language policy, will be addressed in this course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020

LING 1722 - DEAF CULTURE

Minimum Credits: 3
Maximum Credits: 3
Many deaf people in the U.S. Are united by a language (ASL) that differs from English and a culture with characteristics that differ from those of the larger hearing society. This culture is known as deaf culture, and students in this course will be introduced to various facets of American deaf culture through readings, videos, and discussions. Students will also explore other deaf cultures throughout the world. Among the course foci are: issues of accessibility, perspectives of deaf versus hearing individuals, and various examples of deaf literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0472; CREQ: LING 0473; PLAN: American Sign Language (ASL-CS1); LEVEL: Junior or Senior

LING 1723 - ANALYSES OF ASL LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students to explore and analyze American sign language and American deaf culture through ASL literature. Studying ASL literature is a way to examine the linguistic complexity of ASL as well as explore the deaf community's values and traditions as a minority group and a group to which visual depiction of ideas is highly valued. This course is conducted in ASL.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: LING 0474 and LING 1722; PLAN: American Sign Language

LING 1724 - THE DEAF AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
The culture of deaf Americans is distinct from that of mainstream American society. The primary focus of this course is to expose students to the culture of the deaf in the United States and around the world. In addition to teaching students how to interact with the deaf in a culturally appropriate way, the course will help them understand deaf culture as part of human diversity. Among the course foci are: issues of accessibility, perspectives of deaf versus hearing individuals, and various examples of deaf literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1725 - STRUCTURE OF ASL AND ENGLISH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0473 (MIN GRADE 'B') and (LING 1000 or CSD 1020); CREQ: LING 0474 (MIN GRADE: 'B'); PLAN: American Sign Language

LING 1726 - INTRO TO ASL-ENGLISH INTRPTG

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1727 - TOPICS SIGN LANGUAGE STUDIES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 474 and LING 1722; PLAN: American Sign Language

LING 1738 - LINGUISTIC STRUCTRS OF ENGLSH

Minimum Credits: 3
Maximum Credits: 3
This course is a "nuts and bolts" description of the syntactic structures of English. Students will be provided with a grounding in the pedagogical grammar of English from a foreign language perspective. The class is designed specifically for teachers of English as a second/foreign language. It will also be useful for teachers in American schools who have ell students. Lecture format with class discussion.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000

LING 1773 - MORPHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Morphology, the study of words, is interrelated with the syntax, the phonology, the lexicon, and semantics. The purpose of this course is to develop operational competence, through problem solving and discussion, in the major aspects of morphological theory. Theoretical issues to be addressed will include lexical phonology, prosodic morphology, morphology and logical form, morphology and valence alternations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'

LING 1777 - SYNTACTIC THEORY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction, stressing understanding of theoretical concepts, to the transformational generative approach to English sentence structure. This approach uses formal rules to produce sentences, and to explain how they are composed of phrases. The first part of the course concentrates on mechanical manipulation of systems of rules, aiming to acquaint the student with how the rules work. The second part concentrates on how syntacticians use evidence about a language to support or disconfirm their theories.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020; MIN GRAD 'B'

LING 1860 - INTRO TO HISTORCAL LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
A survey of the principles and methods of historical linguistics; practice in the basic techniques of historical linguistic research. The major topics to be studied are the analysis of sound change, analogic change, contact-induced language change, the relationship between variation (region al and social) and language change, the comparative method, and internal reconstruction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1578 and LING 1773

LING 1900 - LINGUISTICS CNSLTNG/INSHP

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
This course provides an opportunity for students to formally pursue work on an individual basis.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

LING 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
This course provides a hands-on opportunity for students to learn about linguistic research. By working with faculty and graduate students on approved projects, students can gain exposure to various aspects of research processes, such as data collection, data entry, linguistic analysis, and poster presentations. Students complete literature reviews, collect and/or analyze data, and write a research report.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

LING 1930 - APPLICATIONS OF LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3

This course is a capstone course for undergraduate majors in linguistics. It should therefore be taken after nearly all other major requirements have been fulfilled. The topics to be covered are the crucial role a knowledge of linguistics plays in language teaching, the law (both interpretation of documents, courtroom discourse, forensic linguistics, and interpreting), communication disorders, archaeology, computational linguistics, and anthropology. Students will develop a portfolio of short papers, some of which are based on their own field research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 1000 or CSD 1020; LVL: Sr

LING 1950 - INTRODUCTION TO LINGUISTICS
Minimum Credits: 3
Maximum Credits: 3
This course is a survey of general linguistics, emphasizing the theory and methodology of the traditional central areas of the field--phonetics, phonology, morphology, and syntax- with special concentration on phonological and syntactic theories and analytical techniques. The remainder of the course will be devoted to phonetics, morphology, historical linguistics, semantics and pragmatics, sociolinguistics, and psycholinguistics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1951 - LANGUAGES OF THE WORLD
Minimum Credits: 3
Maximum Credits: 3
This course is a survey of language classification, language structures, and language contact. It concentrates on two main questions: first, how do languages resemble, and differ from, each other in sounds, forms, and syntax? And second, what are some linguistic and sociopolitical results of situations in which two or more languages come into contact? The context for these investigations will be a study of selected language families, both in class and in individual student projects (including some elicitation of data from native speakers of various languages).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 1952 - LANGUAGES OF EUROPE
Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to familiarize students with some of the ethnic, linguistic, geographic, and historical complexity of Europe from a somewhat oblique angle; through a course dealing with the languages of Europe in their structure and social dimensions, and providing ample expo sure to the historical background as well as frequent hands on experience with maps.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSYED 1005 - TEACHING GLOBALLY AND LOCALLY IN A DIVERSE WORLD
Minimum Credits: 3
Maximum Credits: 3
Students will be able to apply this knowledge specifically to their teaching practice as they begin their field experiences. We will critically engage in understanding the complex factors that impact education in the United States today, with an emphasis on Urban Education. A review of past teaching policies and practices will support a better understanding of the American schooling system in the 21st Century. In the Teaching Globally and Locally in a Diverse World class pre-service teachers will: (a) discuss strategies for teaching all children in a responsive, equitable manner , (b) learn to analyze the effects that marginalization has on children, (c) investigate the impact that race, culture, and socioeconomic status have on a child's education, and (d) review school reform and policy practices that have created various types of schools available to students in the United States. Knowing that the landscape of education is changing in the United States we will discuss the globalization of schooling in our society, along with the need for a higher technological understanding to prepare children for success in today's world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Materials Science and Engr

MSE 0030 - INTRODUCTION TO MATERIALS
Minimum Credits: 3
Maximum Credits: 3
An introduction to the basic concepts of materials science and engineering. The concepts of atomic, crystal, micro-and macro-structure, their control and effects on chemical, electrical, magnetic, and mechanical properties. Comprehensive discussion of binary phase diagrams, applications of the phase rule, the origin and nature of micro-structure.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 0031 - INTRO TO MATERIALS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Principles and techniques of optical metallography; specimen preparation, etching, principles of optical microscopy photography, and other specialized techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MSE 0040 - INTRO TO MATERIALS PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The initial, general, section deals with the sources of ores and fuels together with their recovery as raw materials. Concepts of thermodynamic equilibrium are applied to the thermal treatment of raw materials. Equal weight is given to the production and processing of ceramics, metals and polymers, each section covering refining, product formation, and control of properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MSE 0048 - ENERGETICS 1

Minimum Credits: 3
Maximum Credits: 3
The basic concepts of thermodynamics, work, and energy will be introduced. The first law will be presented and applied to problems involving ideal gases, non ideal gases, and heat effects. Entropy and the second law will be introduced to cycles. Free energy will be introduced and the general thermodynamic properties of fluids and solids will be developed. The third law will be discussed briefly. The final section will involve the application of the previously-developed concepts to; 1. Phase equilibria in one-component systems; 2. Chemical equilibrium, and 3. Flow processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (ENGR 0022 and MATH 0250) and (MET 1162 or MATH 1035); PROG: School of Engineering

MSE 1052 - HEAT AND MASS TRANSPORT

Minimum Credits: 3
Maximum Credits: 3
Fundamental description and analysis of heat conduction and diffusion, heat transfer by radiation and convection. Analysis of fluid flow in closed systems using momentum balances and energy balance. Illustration of the application of transport principles in materials science and engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MATH 0250 or 1035) and MSE 0048; PROG: Swanson School of Engineering

MSE 1054 - MATERIALS SCIENCE 1

Minimum Credits: 3
Maximum Credits: 3
Crystallography of materials; bravais lattices, crystal systems, and crystal structures. Diffraction methods; x-ray, electron, and neutron scattering; atomic scattering factor; structure factor; powder techniques; laue method; reciprocal lattice; electron diffraction; amorphous materials; thermodynamics of crystals and crystal defects; polymorphism; order-disorder phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MSE 1055 - MATERIALS SCIENCE 1 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Experimental techniques in x-ray and electron diffraction. Laboratory exercises in crystal structure analysis. Stereographic projection, phase identification, etc. Selected problems to elucidate principles discussed in MSE 1054.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: MSE 1054 or MEMS 1054; PROG: School of Engineering

MSE 1056 - ENERGETICS 2
Minimum Credits: 3
Maximum Credits: 3
Thermodynamics of solutions with applications to materials systems; heterogeneous phase equilibria; relations between free energy and phase diagrams, electrochemistry; rate processes; thermodynamics of surfaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MSE 0048; PROG: School of Engineering

MSE 1060 - MATERLS PROCESSING PRINCIPLES
Minimum Credits: 3
Maximum Credits: 3
Application of thermodynamic, transport, materials science and engineering, and economic principles for the analysis and design of processes for the extraction, refining, and fabrication of polymers, ceramics, metals, and composites. Processing principles and their application will be illustrated through case studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1062 - COMPUTER APPLICATNS MATLS SCI
Minimum Credits: 2
Maximum Credits: 2
Introduction to numerical methods and computer applications in materials science topics including: analytic techniques (numeric solutions of analytical expressions, curve fitting, and numerical precision), atomistic and stochastic models (monte-carlo and molecular dynamics), finite difference/element techniques (formulation, stability, transport calculations), autocad introduction and practical use, image analysis (introduction to digital image processing, materials characterization and analysis). Students will gain a working conceptual knowledge of each of these areas, with hands-on examples and discussion of the limitations of each. This introduction and overview will enable students to confidently initiate and critically assess new modeling and computational projects in workplace or in graduate research. The course assumes a working knowledge of Matlab.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MSE 1052 or MEMS 1052) and (MSE 1054 or MEMS 1054) and (MSE 1056 or MEMS 1056); PROG: School of Engineering

MSE 1064 - MATERIALS SCIENCE 2
Minimum Credits: 3
Maximum Credits: 3
Phase equilibria; binary and ternary system; phase rule; thermodynamics and phase diagrams; diffusion in materials; phase transformations; nucleation and growth kinetics; precipitation reactions; solidification; glass-forming systems; phase separation; displacive or martensitic transformations; microstructural development in metallic and non-metallic systems; electron theory of solids; zone theory; electrical and magnetic properties of materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MSE 1056 or MEMS 1056; PROG: School of Engineering

MSE 1067 - MATERIALS PROCESSING LABRATORY
Minimum Credits: 1
Maximum Credits: 1
A practical laboratory experience in chemical or physical processes by which materials are produced. Emphasis is on taking data, analyzing results, keeping laboratory notebooks, and writing reports.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MSE 1052 or MEMS 1052) and (MSE 1054 or MEMS 1054) and (MSE 1056 or MEMS 1056); PROG: School of Engineering

MSE 1070 - MECHANICAL BEHAVIOR OF MATRL 1
Minimum Credits: 3
Maximum Credits: 3
Theory of elasticity, elastic stress and strain distributions, elements of plasticity theory, yield criteria, fracture of metals, mechanical behavior of ceramics, ductile and brittle behavior, fatigue, creep and stress rupture, brittle failure and impact properties.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and [ENGR 0141 or ENGR 0145 or (ET 0053 and 0054)]; PROG: School of Engineering

MSE 1071 - MECHANICAL BEHAVR 1 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory exercise and demonstrations designed to elucidate and extend principles discussed in lecture.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MSE 1070 or MEMS 1070) and CREQ: (MSE 1080 or MEMS 1180); PROG: School of Engineering

MSE 1079 - SENIOR ENGINEERING DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: LVL: Sr; PROG: School of Engineering

MSE 1080 - MECHANICAL BEHAVR OF MATRLS 2

Minimum Credits: 3
Maximum Credits: 3
Introduction to deformation processing. Influence of friction and deformation zone geometry on forming pressure and fracture. Analysis of workability by use of forming limit diagrams. Mechanics of forging, rolling, sheet forming, powder metallurgy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MSE 1070 or MEMS 1070; PROG: School of Engineering

MSE 1081 - MECHANICAL BEHAVR 2 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Experimental studies of heterogeneous deformation. Measurement of friction in forming processes. Workability evaluation and analysis. Mechanics and microstructural variations of hot deformation.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
The engineering undergraduate seminar acquaints the student with aspects of engineering not normally encountered in the classes. Such topics as the relation of engineering to current social problems, engineering as a profession, job interviews, etc., Are discussed. The format of the seminars usually involves an invited speaker or film.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1089 - SENIOR ENGINEERING DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: MSE 1079 or MEMS 1079; PROG: School of Engineering

MSE 1163 - CERAMIC MATERIALS

Minimum Credits: 3
Maximum Credits: 3
The first major course in the field of ceramic materials, crystalline ceramics, structure; processing and thermal treatments; glasses and glazes; phase equilibria and ternary diagrams; properties of ceramic materials, mechanical, thermal, optical, electrical, and magnetic; refractories and thermal

shock.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MSE 1054 or MEMS 1054) and (MSE 1064 or MEMS 1064); PROG: School of Engineering

MSE 1168 - ELECTROMGNTC PROPS MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Review of basic principles-quautium theory, band and zone theory. Applications to transport properties; electrical and thermal. Semiconductors and semiconductor devices. Magnetic materials-hard and soft. Dielectric and optical properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MSE 1174 - CERAMIC PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Raw materials, powder, preparation, characterization of powders; forming processes; powder pressing, slipcasting, plastic forming; drying and firing, sintering and vitrification; special processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1175 - CERAMICS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Experiments illustrating basic principles in ceramic behavior and processing.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1184 - APPLICATIONS OF CERAMICS

Minimum Credits: 3
Maximum Credits: 3
An advanced course designed to tie together the basic principles of structure, properties and processing. Illustrates how structure, properties and processing interact and affect the final application.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1202 - MAGNTC PROPERTIES OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Magnetic properties of matter; ferro-, ferri, and anti-ferromagnetism; diamagnetic and paramagnetic substances; magnetostatics; the fundamental quantities in the description magnetic behavior; measurement of magnetic quantities; hysteresis; magnetic domains; magnetic anisotropy; magnetostriction; permeability; coercivity; and hard and soft magnetic materials for engineering applications; thin film and fine-particle behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1266 - PROCESS METALLURGY 1

Minimum Credits: 3
Maximum Credits: 3
Engineering analysis and design of processes for heating, melting, casting, and solidification of metals; degassing; zone-refining and crystallization purification; electrolysis; electroplating and electrochemical purification; and hydrometallurgical techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1272 - PHYSICAL METALLURGY 1

Minimum Credits: 2
Maximum Credits: 2
Dislocations and slip phenomena, grain boundaries, strengthening mechanisms. The nature of the cold-worked state. Annealing; recovery, recrystallization, grain growth; textures; precipitation from solid solution; age hardening.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MSE 1054 or MEMS 1054); CREQ: (MSE 1064 or MEMS 1064); PROG: School of Engineering

MSE 1273 - PHYSICAL METLLURGY 1 LABRATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory and demonstrations offered to exemplify and elucidate principles discussed in MSE 1272.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: MSE 1272; PROG: Swanson School of Engineering

MSE 1276 - PROCESS METALLURGY 2

Minimum Credits: 3
Maximum Credits: 3
The physical chemistry of liquid metal refining reactions is studied and applied to both ferrous and non-ferrous metal refining processes. Emphasis is placed on modern developments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1282 - PHYSICAL METALLURGY 2

Minimum Credits: 3
Maximum Credits: 3
Heat treatment of steels; alloy steels; tool steels; cast irons; stainless steels. Metals and alloys for high-temperature service; superalloys; titanium alloys. Oxidations and corrosion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1284 - PHYSICAL METALLURGY ENGR ALLYS

Minimum Credits: 3
Maximum Credits: 3
Property requirements of engineering alloys are discussed: strength, toughness, formability, weldability, fatigue resistance, corrosion/oxidation resistance. Review is made of pertinent phase diagrams, transformations, and microstructures in the fe-fe3c and other alloy systems. Composition, processing, microstructure and properties of important structural steels, sheet steels, stainless steels, tool steels, aluminum alloys, titanium alloys, as well as nickel-based and copper-based alloys will be presented. Case studies, design problems and selection criteria are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1362 - POLYMERIC MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Microstructure of chainlike molecules, molecular weight averages, distributions and methods for determination; glass formation and the crystalline state; polymer chain conformation; thermodynamics and kinetic theory of rubber-like behavior; temperature and structure dependence of viscous flow and other rate processes; introduction to viscoelastic behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1378 - POLYMERIZATION ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Historical development of the synthetic polymer industry; economic and chemical development; feedstocks; molecular architecture, introductory

concepts, and definitions; polymerization reactions; step growth and chain reactions; mechanisms and kinetics; homopolymer, copolymer; block and graft copolymerization; commercial processes; reactors (cstr and tubular); new polymers; high-temperature polymers; property-chemical structure correlations; thermal, stability, degradation, uses, and application of polymers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1386 - INTRO TO POLYMER PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Scope of polymer processing; thermoplastics and thermosets; basic transport phenomena; equations of motion; energy; viscous dissipation; non-Newtonian fluids, poiseuille and couette flows; lubrication approximation; plasticating extrusion; calendering. Injection moulding; fiber spinning; film blowing; distributive and dispersive mixing; mixers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1388 - APPLIED POLYMER PRINCIPLES

Minimum Credits: 3
Maximum Credits: 3
Polyethylene sheet/film production; polymerization, molecular characterization, melt processing properties, role of stabilizers/antitoxicants, extrusion and pelletization, die swell, crystallization, stretching, molecular and physical properties of the product, quality control. Polyurethane foam processing; step polymerization, flexible and rigid systems, integral skin focus, foam processing, correlation between processing and foam morphology, flammability, quality control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1468 - ANALYSIS & CHRCTRZN NANO-SCALE

Minimum Credits: 3
Maximum Credits: 3
This course offers a survey of micro-analytical, microscopy and diffraction methods that are widely used for the analysis of composition, chemistry, structure, scale and morphology of advanced materials. It introduces the most basic concepts required to understand experimental data obtained with these modern techniques. The main objectives of the course are to enable students to interpret and evaluate relevant data sets presented in the research literature and to identify experimental tools to solve a given Nano-research characterization problem. Some prerequisite basic knowledge of the structure of solid matter (e.g. Crystals and amorphous materials), diffraction methods (e.g. X-ray diffraction) and processing-property-structure relationships in materials is expected.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MSE 1469 - MATRLS SCI OF NANOSTRUCTURES

Minimum Credits: 3
Maximum Credits: 3
Reviews the theories and phenomena associated with solid structures that lie in the nano- or Meso- scale regime from 1 to 1000 nm. Engineered structures of these dimensions have unique properties due to their site including surface and interface dominated energy considerations governing shape and phase formation, optical interactions due to confinement effects, unique electronic/quantum effects due to confinement. The course will survey issues associated with creation, analysis and theoretical modeling of these structures with a kinetics-thermodynamics perspective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MSE 1477 - THIN FILM PROCESSES & CHRCTRZN

Minimum Credits: 3
Maximum Credits: 3
This course will be an overview of the major thin film processing methods and the primary techniques to characterize thin film surfaces and interfaces. Topics to be included: vacuum science and technology, thin-film deposition techniques, such as pvd, mbe, cvd and the fundamental surface processes of epitaxial growth. The analytical techniques will be presented, e.g., Electron microscopy, aes, xps, afm and stm.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1478 - NANOPARTICLES: SCI & TECHNLGY

Minimum Credits: 3
Maximum Credits: 3
This interdisciplinary course introduces students to the science and technology of nanoparticles. Synthesis of nanoparticles will be discussed. Applications of nanoparticles for advanced electronic magnetic, biomedical, catalysis and other areas will be presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1483 - COLLOIDS AND SURFACES

Minimum Credits: 3
Maximum Credits: 3
Concepts from physical chemistry and transport phenomena are extended to study surface and colloidal phenomena, and related applications to materials processing and separations technology. Topics include: surface tension, adsorption, electrostatic double layer, dominant forces on the colloidal lengthscale, colloid stability, electrokinetic phenomena, and suspension rheology surface probes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1485 - DEGRADATION OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
In this course the important environments encountered by engineering materials are examined and then the types of reaction which occur between these engineering environments and materials are described. The basic requirements which must be satisfied in order to have resistance to environmental induced attack are defined for metals, alloys, ceramics and polymers. The use of coatings as a means of protecting materials from degradation is described and illustrations are presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1800 - UNDERGRADUATE SPECIAL PROJECT

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

MSE 1991 - PHYSICAL METALLURGY FOR ENGNR

Minimum Credits: 3
Maximum Credits: 3
The course is intended to develop the principles of alloy selection. The effect of thermomechanical treatment on alloy structure and properties is reviewed and expanded. The properties and methods of fabrication of aluminum, copper, steel, cast iron, other alloys, and composites are covered. The relationship between design requirement and materials properties is illustrated by examples.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

MSE 1995 - PROCESS METALLURGY FOR ENGINRS

Minimum Credits: 3
Maximum Credits: 3
A survey course of metals processing operations including extraction and refining of metals, melting and casting in primary fabrication operations. Not for MSE majors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

Mathematics

MATH 0010 - COLLEGE ALGEBRA PART 1
Minimum Credits: 2
Maximum Credits: 2
First of a two course sequence which covers the topics of linear equations and inequalities and their graphs, quadratic equations and their graphs, and systems of equations and their graphs. This course is intended for students who need to learn elementary algebra over an extended period of time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0020 - COLLEGE ALGEBRA PART 2
Minimum Credits: 2
Maximum Credits: 2
Second of two courses (0010-0020) which covers polynomials, rational functions and exponential and logarithmic growth. This course is intended for students who need to learn algebra over an extended period of time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0010

MATH 0025 - APPLIED COLLEGE ALGEBRA
Minimum Credits: 3
Maximum Credits: 3
This course is designed for non-math majors or non-science majors. This course will parallel the topics in MATH 0031, but will stress real life data, problem solving and the use of technology to aid in mathematical understanding.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0031 - ALGEBRA
Minimum Credits: 3
Maximum Credits: 3
The course covers basic algebra skills. Linear, polynomial, rational, exponential, and logarithmic functions are included. Systems of linear equations are also covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0032 - TRIGONOMETRY AND FUNCTIONS
Minimum Credits: 2
Maximum Credits: 2
This course is designed to enable students, who have mastered algebra, to learn trigonometry. Besides trigonometry, material of graphing and polynomials is included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0031 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0100 - PREP FOR BUSINESS CALCULUS
Minimum Credits: 3
Maximum Credits: 3
This course will increase and reinforce the student's algebra skills by emphasizing the manipulation of formulas, the graphing of functions and the extensive use of problem solving. Topics include: an algebra review, functions and their graphs, systems of linear equations and inequalities, linear programming, interests and annuities, probability, data description, limits and continuity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0120 - BUSINESS CALCULUS
Minimum Credits: 4
Maximum Credits: 4
This course introduces the basic concepts of limits, continuity, differentiation, integration, maximization and minimization. Applications to the social sciences, especially business and economics, are stressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or MATH 0031 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0125 - CALCULUS FOR BUSINESS 1

Minimum Credits: 2
Maximum Credits: 2
This is the first half of a two course sequence (0125-0126). It will cover concepts such as limits, continuity, differentiation and integration. Maximization and minimization of functions will also be covered, with emphasis placed on applications in the social sciences, especially business and economics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or MATH 0031 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0126 - CALCULUS FOR BUSINESS 2

Minimum Credits: 2
Maximum Credits: 2
This is the second half of the two sequence course (0125 0126). It provides an introduction to calculus for students in business, economics and other social sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0125

MATH 0200 - PREP FOR SCIENTIFIC CALCULUS

Minimum Credits: 3
Maximum Credits: 3
A variety of topics are studied: functions, rational functions, logarithmic and exponential functions, graphs, asymptotes, inverse, conic sections, translation and rotation of axes, trigonometric identities and equations, and possibly vectors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or MATH 0031 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0220 - ANALYTC GEOMETRY & CALCULUS 1

Minimum Credits: 4
Maximum Credits: 4
This is the first of a sequence of three basic calculus courses. It covers the derivative and integral of functions of one variable and their applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0032 (MIN GRADE 'C') or MATH 0200 (MIN GRADE 'C') or MATH PLACEMENT SCORE (76 or GREATER)

MATH 0230 - ANALYTC GEOMETRY & CALCULUS 2

Minimum Credits: 4
Maximum Credits: 4
This is the second of a sequence of three basic calculus courses. It covers the calculus of transcendental functions, techniques of integration, series of numbers and functions, polar coordinates, and conic sections.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0220; MIN GRADE: 'C'

MATH 0235 - HONORS 1 - VARIABLE CALCULUS

Minimum Credits: 4
Maximum Credits: 4
An enriched version of MATH 0220/MATH 0230. Course will cover same topics but in greater depth and with more challenging problems, computer experimentation and applications using maple. This course is intended for honors students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0240 - ANALYTC GEOMETRY & CALCULUS 3

Minimum Credits: 4
Maximum Credits: 4
This is the third of a sequence of three basic calculus courses. It covers vectors and surfaces in space and the calculus of functions of several variables including partial derivatives and multiple integrals, stokes theorem, and first order differential equations.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or MATH 0235; MIN GRADE: 'C'

MATH 0245 - HONORS 1- MULTIVARIABLE CALCUL

Minimum Credits: 4
Maximum Credits: 4
An enriched version of MATH 0240. Course will cover same topics but in greater depth and with more challenging problems and applications. This course is intended for honors students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0250 - MATRIX THEORY & DIFFT EQUATNS

Minimum Credits: 4
Maximum Credits: 4
The topics include matrix algebra, vector spaces, linear transformations, linear differential equations with constant coefficients, and systems of first order linear differential equations. Matrix techniques are used extensively in the differential equations part of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 (MIN GRADE 'C')

MATH 0280 - INTRO TO MATRICES & LINEAR ALG

Minimum Credits: 3
Maximum Credits: 3
The principal topics which this course will cover include vectors, matrices, determinants, linear transformations, eigenvalues and eigenvectors, and selected applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0220 or MATH 0235 (Min Grade 'C')

MATH 0290 - DIFFERENTIAL EQUATIONS

Minimum Credits: 3
Maximum Credits: 3
This course presents an introduction to the theory of differential equations from an applied perspective. Topics include linear and nonlinear ordinary differential equations, Laplace transform, and introduction to partial differential equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or MATH 0235; MIN GRADE: 'C'

MATH 0400 - FINITE MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
The course covers the basic concepts of set theory, logic, combinatorics, Boolean algebra, and graph theory with an orientation towards applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or MATH 0031 (MIN GRADE 'C') or MATH PLACEMENT SCORE (61 or GREATER)

MATH 0410 - INTRO THEORETICAL MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the theoretical treatment of sets, functions, relations, sequences, and limits. Classwork and homework will concentrate on the writing and understanding of proofs of theorems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0412 - LAB IN MATH PROOF TECHNIQUES

Minimum Credits: 1
Maximum Credits: 1
The recitation activity is enhanced by software that drills students in definitions and the formatting of proofs.

Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MATH 0413 - INTRO THEORETICAL MATHEMATICS

Minimum Credits: 4
Maximum Credits: 4
This course is an introduction to the theoretical treatment of sets, functions, relations, numbers, sequences, and limits. Classwork and homework concentrate reading and writing of proofs of theorems centered on these topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or MATH 0235

MATH 0415 - TOPICS IN THEORETIC MATH

Minimum Credits: 4
Maximum Credits: 4
An enriched version of MATH 0220 and MATH 0230. Course will cover same material but in greater depth with more challenging problems, computer experimentation and applications using Mathematica. This course is intended for honors students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0420 - INTRO THEORY 1-VARIABLE CALCUL

Minimum Credits: 3
Maximum Credits: 3
The course provides a careful treatment of the theoretical concepts of limit, continuity, derivative and integral, including the fundamental theorem of calculus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450

MATH 0430 - INTRO ABSTRCT ALGBRAIC SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to abstract algebraic concepts, rings, integral domains, fields, integers, rational, real and complex numbers, and polynomials. Many examples will be presented during class and in the homework. The students are expected to enhance their proof writing techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450 or MATH 1185

MATH 0450 - INTRODUCTION TO ANALYSIS

Minimum Credits: 4
Maximum Credits: 4
This course is intended as a first course in mathematical analysis for highly motivated students. Topics will include sets and functions, number systems, topology of Euclidean spaces, limits, continuity, and the main theorems of elementary calculus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 0460 - INTRODUCTION TO CRYPTOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course covers the mathematical principles underlying the encryption technologies that secure the world wide web and other networked information systems. Mathematical topics include divisibility, primes, factorization, and modular arithmetic modular inversion using the Euclidean algorithm, the Varphis-function, and Euler's theorem. All of these topics will be used in implementation and breaking of encryption schemes, varying in complexity from simple shift ciphers to the RSA algorithm.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MATH 0470 - ACTUARIAL MATHEMATICS 1

Minimum Credits: 3
Maximum Credits: 3
This course will cover the material listed in the syllabus for mathematics of finance of the society of actuaries. Specifically it will present the relevant topics in the theory of interest (interest and discount rates, cash flows, annuities, amortization and sinking funds, bonds) and investment (stocks, capital asset pricing model, arbitrage pricing theory, portfolios, options). The material will be presented in the traditional academic format of lectures and help sessions along with optional sessions directed specifically at preparing students for the SOA exam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0230 or MATH 0235

MATH 0510 - DISCRETE MATH IN NATURE

Minimum Credits: 3
Maximum Credits: 3
This course introduces concepts now at the forefront of modern mathematics to students with only a background in high school mathematics and some mathematical ability. Current research topics such as cellular automata, chaos, and fractal geometry are treated through a sequence of simple examples. All of the examples involve discrete systems that can be used to model natural phenomena. The main tool in the analysis of difference equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1010 - PUTNAM SEMINAR

Minimum Credits: 2
Maximum Credits: 2
The aim of this course is to develop the capacity to solve mathematical problems involving a substantial element of ingenuity and perseverance. Training will involve the study of problems from previous Putnam competitions, for which this course can be regarded as a useful preparation. An attempt will be made to look for unifying mathematical ideas. General strategies for solving problems will also be discussed.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

MATH 1020 - APPLD ELEMENTARY NUMBER THEORY

Minimum Credits: 3
Maximum Credits: 3
This course will reveal the key role played by number theory in the development of mathematics. Some applications of number theory will be covered in the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0430

MATH 1025 - INTRO TO MATHMTL CRYPTOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
The course covers the theoretical underpinnings of cryptosystems and the analysis of their limitations and vulnerabilities. Special emphasis will be placed on public key cryptosystems, including elliptic curve based systems. Real world applications such as browser security and bitcoin will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1050 - COMBINATORIAL MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
Topics covered include the binomial theorem, inclusion exclusion principle, recurrence relations, generating functions, and coloring problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450 or MATH 1185

MATH 1070 - NUMERICAL MATHEMATICAL ANLYSIS

Minimum Credits: 3
Maximum Credits: 3
This course, with MATH 1080 forms a two term introduction to numerical analysis at the advanced undergraduate level and includes interpolation, numerical differentiation and integration, solution of non-linear equations, numerical solution of systems or ordinary differential equations, and

additional topics as time permits. Emphasis is on understanding the algorithms rather than on detailed coding, although some programming will be required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 or MATH 0245

MATH 1075 - TOPICS IN NUMERICAL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
This course provides honors recognition to students who wish to digress with the professor to study extra topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to numerical linear algebra which addresses numerical methods for solving linear algebraic systems and matrix Eigen problems and applications to partial differential equations. Although the course will stress a computational viewpoint, analysis of the convergences and stability of the algorithms will be investigated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0240 or MATH 0245) and (MATH 0250 or MATH 0280 or MATH 1180 or MATH 1185)

MATH 1100 - LINEAR PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
Topics covered will include linear programming problems, the simplex method, quality, revised simplex method, and the transportation problem.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0280 or MATH 1180 or MATH 1185

MATH 1101 - AN INTRODUCTION OPTIMIZATION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the techniques of optimization. Applications will be emphasized, but some theory will be addressed and proofs will be discussed. As well, students will be taught how to use available software to answer questions. Course topics will include linear programming, integer programming, nonlinear programming, convex and affine sets, convex and concave functions, unconstrained optimization, and combinatorial optimization (i.e. Network flow problems).
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 and (MATH 0280 or MATH 1180 or MATH 1185)

MATH 1103 - MATHMTL PROB BUS/INDUST/GVRNT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1110 - INDUSTRIAL MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with the approximate numerical solution of problems which arise in an industrial environment. Topics covered include physical interpretation of a mathematical model, use of library software, preparation of software, analysis of results, and reporting on findings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1180 and MATH 1185

MATH 1121 - ACTUARIAL MATHEMATICS 2

Minimum Credits: 3
Maximum Credits: 3
This course will cover the material listed in the syllabus for exam m (3) (mathematics of life contingencies and financial economics) of the society of actuaries. Specifically it will present the relevant topics in life insurance and life annuities, including multiple decrement models as well as the black and Scholes pricing of derivative securities and risk analysis. The material will be presented in the traditional academic format of lectures and help sessions along with optional sessions directed specifically at preparing students for the SOA exam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0470 or 1120

MATH 1122 - ACTUARIAL MATHEMATICS 3

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0230 or MATH 0235) and (MATH 0470 or 1120) and STAT 1151

MATH 1123 - ACTUARIAL MATHEMATICS 4

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1180 - LINEAR ALGEBRA 1

Minimum Credits: 3
Maximum Credits: 3
This course stresses the theoretical and rigorous development of linear algebra. Major topics include the theory of vector spaces, linear transformations, matrices, characteristic polynomials, bases and canonical forms. Other topics may be covered as time permits.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0413 or MATH 0450

MATH 1185 - HONORS LINEAR ALGEBRA

Minimum Credits: 3
Maximum Credits: 3
An introduction to computational and theoretical aspects of linear algebra. Syllabus includes Gaussian elimination, matrix algebra, triangular factorization, vector spaces, linear independence, basis, dimension, orthogonality, inner product, gram-Schmidt, singular value decomposition, determinants, eigenvalues, matrix exponentials, unitary matrices, similarity, positive definiteness, minimum principles, finite elements, norm and condition number, computation of Eigen values, iterative solutions of linear systems, linear inequalities, simplex method.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1230 - THE BIG IDEAS OF MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
The "big ideas" course is intended to provide a capstone type experience for math majors. It will integrate the student's current math knowledge into a coherent whole via the adoption of a historical perspective. It is particularly aimed at math majors with an interest in math education or the history, philosophy and psychology of mathematics. Students opting for the optional internship, MATH 1231, will explore how the historical development of math relates to the math in the secondary school. The capstone experience will culminate with a research project and presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0430

MATH 1231 - MATH EDUCATION INTERNSHIP 1

Minimum Credits: 1
Maximum Credits: 1
This internship has two components 1) a classroom experience mentoring a high school student who is developing a research project and 2) a seminar discussing the "big ideas" of mathematics in MATH 1230 and how math is developed in the elementary and secondary school curriculum. Interns will spend one hour every two weeks mentoring a high school student at an area high school.
Academic Career: UGRD

Course Component: Internship
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 1230

MATH 1240 - LINEAR ALGEBRA 2

Minimum Credits: 3
Maximum Credits: 3
This second course in linear algebra features an abstract development of the subject. Abstract vector spaces, linear transformations, and matrix representations will be studied. Some applications and generalizations will also be investigated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1250 - ABSTRACT ALGEBRA

Minimum Credits: 3
Maximum Credits: 3
In this course the basic algebraic systems, groups and rings are studied in some detail. Topics include: subgroups, permutation groups, homomorphism's, subrings, ideals and quotient rings. The emphasis is on theory with examples.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0430

MATH 1255 - TOPICS IN ABSTRACT ALGEBRA

Minimum Credits: 1
Maximum Credits: 1
This course provides honors recognition to students who wish to digress with the professor to study extra topics not covered in MATH 1250, abstract algebra.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1270 - ORDINARY DIFFERENTL EQUATNS 1

Minimum Credits: 3
Maximum Credits: 3
This course covers methods of solving ordinary differential equations which are frequently encountered in applications. General methods will be taught for single n-th order equations, and systems of first order nonlinear equations. This will include phase plane methods and stability analysis. Computer experimentation will be used to illustrate the behavior of solutions of various equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0280 or MATH 1180 or MATH 1185

MATH 1275 - HNRS ORDINARY DIFFT EQUATNS 1

Minimum Credits: 3
Maximum Credits: 3
This course provides a more thorough mathematical treatment of the theory than is possible in the non-honors course (MATH 1270), and also covers some more recent applications. In addition to basic material on exact solutions, mathematical proofs will be given of the existence and uniqueness theorems, leading to a better understanding of such important topics as phase plane behavior and stability theory. In addition, more topics will be covered, including a more extensive discussion of series solutions and special functions than is possible in MATH 1270. Finally, a course project, usually done in pairs, on a topic to be chosen by the students with guidance and approval from the instructor, will be a key feature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [MATH 0450 or MATH 1530 (or MATH 0420 with MIN GRAD 'A')] and MATH 1180 or MATH 1185

MATH 1280 - ORDINARY DIFFERNTL EQUATIONS 2

Minimum Credits: 3
Maximum Credits: 3
This is a course in stability and qualitative methods for analyzing ordinary differential equations which arise in realistic models. Phase plane techniques, perturbation methods, and bifurcation theory are studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1270 OR MATH 1275

MATH 1290 - TOPICS IN GEOMETRY

Minimum Credits: 3
Maximum Credits: 3
A course intended to give a "modern" view of geometry. Possible approaches include (1) the connection of geometries to abstract algebraic systems and (2) the deductive, synthetic development of Euclidean and non-Euclidean geometry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 and (MATH 0413 or MATH 0450)

MATH 1310 - GRAPH THEORY

Minimum Credits: 3
Maximum Credits: 3
The concept of a graph and the study of its theoretical properties and applications form the core of this course. Topics include paths, circuits, trees, planar graphs, coloring problems, digraphs, matching theory, and network flows.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450

MATH 1330 - PROJECTIVE GEOMETRY

Minimum Credits: 3
Maximum Credits: 3
Topics for this course are the algebraic, axiomatic, and/or synthetic development of projective geometry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1350 - INTRO TO DIFFERENTIAL GEOMETRY

Minimum Credits: 3
Maximum Credits: 3
Possible topics are the basic ideas of topology, description of curves in space, definition and local study of smooth surfaces in Euclidean space (fundamental forms, geodesics, and curvature), global properties of surfaces, gauss-bonnet formula and applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 or MATH 0280 or MATH 1180 or MATH 1185

MATH 1360 - MODELING IN APPLIED MATH 1

Minimum Credits: 3
Maximum Credits: 3
This course introduces some of the fundamental approaches of applied mathematics. The emphasis is on the model-building process and on developing an understanding of some of the unifying themes of applied mathematics such as equilibria, stability, conservation laws, etc. The material is presented in the form of case studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0290 or MATH 1270 or MATH 1275

MATH 1365 - TOPICS IN MATHEMATCL MODELLING

Minimum Credits: 1
Maximum Credits: 1
This course provides honors recognition to students who wish to digress with the professor to study extra topics not covered in MATH 1360, mathematical modelling.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

MATH 1370 - INTRO TO CMPTL NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course presents contemporary mathematical theories of neuroscience, including single neurons and neuronal networks. Attention will be given to the dynamics and the function of neural activity.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 or MATH 0450 or MATH 0245

MATH 1380 - MATH BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will provide a broad introduction to mathematical methods typically applied to problems in biology. Models using calculus, ordinary differential equations, partial differential equations, discrete dynamical systems, stochastic dynamics, or a cellular automata framework will be presented and principal methods for their analysis will be described. Computational methods will also be covered, including computing platforms such as XPPAUT. Throughout the course, students will have extensive opportunities to practice the development and analysis of mathematical biology models.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0240 or MATH 1180 or MATH 1185) and (MATH 0290 or MATH 1270 or MATH 1275)

MATH 1410 - INTRO FNDTNS OF MATHEMATICS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the logical foundations of mathematics; it covers the propositional and predicate calculi, formal number theory, set theory, and beginning model theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0413 or MATH 0450

MATH 1420 - FOUNDATIONS OF MATHEMATICS 2

Minimum Credits: 3
Maximum Credits: 3
Course is devoted to model theory and mathematical applications. Items to be covered are: completeness and compact ness theorems, and the Lowenheim-Skolem-Tarski theorems, ultra-products and ultra-limits, independence results, standard and nonstandard models, Categoricity in power, universal algebra, and Galois connections.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1470 - PARTIAL DIFFERNTL EQUATIONS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a two-term sequence in elementary PDE's. The objectives of the course are to provide students with the techniques necessary for the formulation and solution of problems involving PDE's and to prepare for further study in PDE's. The three main types of second order linear PDE's - parabolic, elliptic, and hyperbolic are studied. In addition the tools necessary for the solution of PDE's such as Fourier series and Laplace transforms are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 and {[(MATH 0280 or MATH 1180 or MATH 1185) and (MATH 0290 or MATH 1270)] or MATH 0250}

MATH 1480 - PARTL DIFFERENTIAL EQUATIONS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a two term sequence in PDES. Topics include Fourier transform, maximum principles, and existence, uniqueness and regularity of solutions to PDES.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1510 - PROBABILITY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the mathematical theory of probability. Major topics include random variables, expecation, characteristic functions, conditional probability, and an introduction to Martingales and Markov Chains.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0420

MATH 1530 - ADVANCED CALCULUS 1

Minimum Credits: 3
Maximum Credits: 3
This course contains a rigorous development of the calculus of functions of a single variable, including compactness on the real line, continuity, differentiability, integration, and the uniform convergence of sequences and series of functions. Other topics may be included, such as the notion of limits and continuity in metric spaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ:MATH 0420 or MATH 0450

MATH 1540 - ADVANCED CALCULUS 2

Minimum Credits: 3
Maximum Credits: 3
This course, a continuation of MATH 1530, covers the theory of limits, differentiation, and integration of functions of several variables.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1530

MATH 1550 - VECTOR ANLYSIS & APPLICATIONS

Minimum Credits: 3
Maximum Credits: 3
Topics covered include: vector algebra, vector differentiation and integration, divergence, gradient, curl, the theorems of green, gauss and stokes, and curvilinear coordinate systems. There will be an emphasis upon problem solving and applications in electromagnetic theory and fluid flow.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0240 and (MATH 0250 or MATH 0280 or MATH 1180 or MATH 1185)

MATH 1560 - COMPLEX VARIABLES & APPLICATNS

Minimum Credits: 3
Maximum Credits: 3
This course covers the following topics: elementary operations with complex numbers, derivatives, integrals, Cauchy's theorem and consequences such as the integral formula, power series, residue theorem, applications to real integrals and series.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [MATH 0240 or MATH 0245 (MIN GRADE 'B') for both] or MATH 1550

MATH 1570 - FOURIER ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The course is a rigorous introduction to Fourier series and integrals with applications to heat flow, wave motion, physics, and number theory. It is intended for students with a basic knowledge of real analysis including uniform convergence of sequences and series of functions. No knowledge of the Lebasque integral is assumed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0420 or MATH 0450) AND (MATH 0280 or MATH 1180 or MATH 1185)

MATH 1651 - COMPUTER METHODS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This course will introduce students to the use of the computers in our undergraduate computing laboratory and to the numerical methods, symbolic algebra, and computer graphics which are helpful in the study of our upper level subjects in applied mathematics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1700 - INTRODUCTION TO TOPOLOGY

Minimum Credits: 3
Maximum Credits: 3

The topology of r1, as well as that of general metric spaces, will be studied. Basic notions will be applied to obtain the fundamental existence theorem for first order ordinary differential equations. The course will be run on a theorem proving and problem solving basis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0420 or MATH 0450

MATH 1800 - ADVANCED TOPICS IN MATHEMATICS
Minimum Credits: 3
Maximum Credits: 3
This course covers the mathematics content of the second ex am of the society of actuaries. Topics include interest theory, annuities, amortization, sinking funds, bonds, stocks, Markowitz portfolio theory, capital asset pricing model, efficient markets, option pricing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 1122

MATH 1801 - ADVANCED TOPICS IN MATHEMATICS
Minimum Credits: 3
Maximum Credits: 3
This is a topics course at the advanced undergraduate level. The topic will change each time the course is offered, and will generally reflect current interests of the faculty or a recent trend in mathematics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MATH 1900 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 3
Under faculty supervision the student participates in a mathematics related experience, project, or job.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

MATH 1902 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
Under the direction of a faculty member, a student studies a mutually agreed upon topic in mathematics.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MATH 6000 - COLLG PREPARATORY MATHEMATICS
Minimum Credits: 1
Maximum Credits: 1
This course is intended to impart basic skills in arithmetic needed for college algebra. Topics include the arithmetic of integers and fractions, laws of exponents, and word problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Mechanical Engineering

ME 0022 - KINEMATICS OF MACHINERY
Minimum Credits: 3
Maximum Credits: 3
Fundamental theory of motion as applied to basic mechanisms. Analytical, computer, and graphical methods for determining displacements, velocities, and accelerations. Gears and gear trains are studied, and cams and linkages are synthesized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0240 or 0201 or 0241) and (ENGR 0131 or ENGR 0135 or ET 0051) and (ME 0024 or MEMS 0024 or ET 0035); PROG: School of Engineering

ME 0024 - INTRO TO MECHANCL ENGRG DESGN

Minimum Credits: 3
Maximum Credits: 3
Provides knowledge of design graphics and manufacturing processes by conventional and computer-aided methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0011 or ENGR 0711 or ET 0011; PROG: School of Engineering

ME 0031 - ELECTRICAL CIRCUITS

Minimum Credits: 3
Maximum Credits: 3
The study of linear circuit networks including constitutive equations for circuit elements, Ohm's and Kirchhoff's laws, mesh and node equations Thevenin/Norton equivalents, max power transfer, transient and ac analyses and operational amplifiers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or PHYS 0476 or PHYS 0202 or PHYS 0152); CREQ: (MATH 0290 or MATH 0202 or MATH 1271 or MATH 1035); PROG: School of Engineering

ME 0051 - INTRO THERMO-FLUIDS ENGINRING

Minimum Credits: 3
Maximum Credits: 3
Synthesis of the basic concepts from thermodynamics and fluids, including: properties of pure substances, first law analysis, and introduction to the second law; fluid statics, kinematics, stress, and viscosity; and control volume analysis of the conservation equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or PHYS 0476 or 0202 or 0152) and (CHEM 0960 or CHEM 0760 or CHEM 0710 or 0111 or CHEM 0110 or 0101); CREQ: MATH 0290 or 1271 or 0202 or 0135; PROG: School of Engineering

ME 1014 - DYNAMIC SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Modeling and analysis of physical systems. Time and frequency domain analyses. Transient and steady-state system response to various excitations. Transfer function and state space model representations. Laplace and Fourier transforms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0290 or 1271 or 1035 or 0202) and (PHYS 0175 or PHYS 0476 or 0202 or 0152) and [ME 0031 or MEMS 0031 or ECE 0031 or (EET 0010 and 0110)]; PROG: Swanson School of Engineering

ME 1015 - KINETICS

Minimum Credits: 3
Maximum Credits: 3
Dynamics of rigid bodies including energy methods. Conservation of momentum problems of varying forces. And constraints relationship of motions to different reference frames and Euler's equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 0022; PROG: Swanson School of Engineering

ME 1020 - MECHANICAL VIBRATIONS

Minimum Credits: 3
Maximum Credits: 3
Review of free and forced vibrations of single degree of freedom systems with and without damping multi degree of freedom systems vibration isolation nonlinear vibrations language's equations and vibrations of continuous systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 1014 or MEMS 1014; PROG: Swanson School of Engineering

ME 1028 - MECHANICAL DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
Stress and deflection analysis. Survey of mechanical design criteria. Selection and applications of working stresses for ductile and brittle materials; static, fatigue, and impact loading and combination of stresses.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0141 or ENGR 0145 or (ET 0053 and 0054); PROG: Swanson School of Engineering

ME 1029 - MECHANICAL DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
Includes analysis and design of various machine elements including shafts, bearings, gears, belts and chains, brakes and clutches, screws and springs. Emphasis is placed on design aspects and students demonstrate this in a term design project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 0024 or MEMS 0024 or ET 0035) and (ME 1028 or MEMS 1028); PROG: Swanson School of Engineering

ME 1032 - AUTOMOTIVE FABRICATION

Minimum Credits: 3
Maximum Credits: 3
Metal cutting, welding, machining, cost analysis, cad, meeting specifications, report writing and oral presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1033 - FRAC MECHC FOR PRODC DSGN/MFG

Minimum Credits: 3
Maximum Credits: 3
Failure of manufactured products in service, implications for design. Energy release rates, toughness, evaluation of experimental tests. Fracture mechanisms in different material systems. Damage tolerance. Fracture control. Design studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 1028 or MEMS 1028); PROG: Swanson School of Engineering

ME 1037 - MANUFCTRNG QUALITY ASSESSMNT

Minimum Credits: 3
Maximum Credits: 3
State-of-the-art methods for assessment of product quality prior to shipment, using both on- and off-line measurement techniques. Engineering aspects of the quality measurement process, system design strategies, and economic impact of quality measurement alternatives on manufacturing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1038 - DESIGN FOR MFG AND PERFORMANCE

Minimum Credits: 3
Maximum Credits: 3
Manufacturing design process (independent of the final item that is being designed), design strategies, economic aspects of design/manufacturing alternatives, design synthesis; considerations in the minimization of total cost (development costs, production costs and life-cycle costs), methods of meeting goals (optimal design techniques, axiomatic design), and coupling of the design process, manufacturing process, and material properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1041 - MECHANICAL MEASUREMENT 1

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of mechanical measurement including steady state measurement but stressing dynamic signal inputs, detector-transducer elements, signal conditioning, and readout systems. Standards, instrument calibration, data treatment, error analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [ENGR 0145 or ENGR 0141 or (ET 0053 and ET 0054)] and [ME 0031 or MEMS 0031 or ECE 0031 or (EET 0010 and EET 0110)]; CREQ: ME 1014 or MEMS 1014; PROG: School of Engineering

ME 1042 - MECHANICAL MEASUREMENTS 2

Minimum Credits: 3
Maximum Credits: 3
Theory, instrumentation, experimentation, and data analysis applied to mechanical systems, one of which requires written communications in the form of a technical report.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 1041 or MEMS 1041; PROG: Swanson School of Engineering

ME 1043 - MECHANICAL MEASUREMENTS 3

Minimum Credits: 3
Maximum Credits: 3
A major project involving literature research, planning, design, fabrication, experimentation, analysis, and technical report writing, is performed by a small team of students under the guidance of a faculty director and culminates in an oral presentation at a technical symposium.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1045 - AUTOMATIC CONTROLS

Minimum Credits: 3
Maximum Credits: 3
Pneumatic control systems, classical control theory, modeling of mechanical system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1014 or MEMS 1014); PROG: Swanson School of Engineering

ME 1047 - FINITE ELEMENT ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Fem applied to solid mechanics, fluid mechanics, and heat transfer.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1028 or MEMS 1028) or (ME 1052 or MEMS 1052) and (ME 1072 or MEMS 1072); PROG: School of Engineering

ME 1049 - MECHATRONICS

Minimum Credits: 3
Maximum Credits: 3
Advanced microprocessor interfacing problems, digital control theory, a/d conversion, motors, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1014 or MEMS 1014); PROG: Swanson School of Engineering

ME 1051 - APPLIED THERMODYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Thermodynamic processes, energy and entropy changes in real and ideal gases, vapors, and liquids, and mixtures of those fluids. Basic thermodynamic cycles (vapor and gas power, refrigeration, and compressors). Introduction to chemical thermodynamics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 0051 or MEMS 0051 or (MET 1154 and MET 1110); PROG: School of Engineering

ME 1052 - HEAT TRANSFER

Minimum Credits: 3
Maximum Credits: 3
One- and two-dimensional steady and unsteady state conduction, empirical and practical relations for forced and natural convection. Principle of radiation using "radiation network" method. Heat exchangers and special topics.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: ME 0051 or MEMS 0051 or (MET 1110 or 1154); PROG: School of Engineering

ME 1055 - COMPUTR ANAL TRANSPRT PHENOMNA

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to implementation of some of the numerical/computational methods for solving problems in transport phenomena. Fluids described by linear and non-linear ordinary differential equations (initial and boundary value problems), and partial differential equations (elliptic, parabolic and hyperbolic) will be considered by means of various examples from fluid dynamics, heat and mass transfer and combustion. Numerical discretization techniques based on finite difference methods (FDM) will be the subject of main discussions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718 or (ET 0023 and 0030)] and [(ME 0051 or MEMS 0051 or (MET 1110 and 1154)]; PROG: School of Engineering

ME 1057 - MICRO/NANO MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
This course explores knowledge of the different micro/Nano manufacturing options, familiarity with all material choices, and an understanding of a variety of applications. The goal of this course promotes students to gain an understanding of various micro/Nano fabrication techniques, to learn major applications and principles of micro/Nano system, and to develop their ability to design and fabricate new micro/Nano systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1060 - NUMERCL METHD IN ENGRNG ANALYS

Minimum Credits: 3
Maximum Credits: 3
Introduction to numerical techniques for the solution of linear and nonlinear equations, numerical integration and differentiation, interpolation, ordinary and partial differential equations, and eigenvalue problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1062 - ORTHOPAEDIC ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course that applies mechanics of materials, material failure theories and rigid body dynamics to orthopedic device design, tissue mechanical modeling and surgical procedure evaluation. The course is meant to provide an introductory background to engineering aspects of orthopedic medicine and biomechanics for students preparing for medical school, positions in the medical device industry or graduate studies in this field.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [ENGR 0141 or ENGR 0145 or (ET 0053 and ET 0054)] and (ME 1015 or MEMS 1015 or ET 0052); PROG: School of Engineering

ME 1064 - BIOMECH ORGANS, TIS & CELLS

Minimum Credits: 3
Maximum Credits: 3
This course will provide the first year bioengineering graduate students with introductory materials for general biomechanics. The student will be exposed to various interdisciplinary fields in biomechanics. The topics include orthopedic biomechanics, biomechanics of human movement, vascular biomechanics, cardio-pulmonary biomechanics, and biomechanics of biomaterials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ME 1065 - THERMAL SYSTEMS ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Design and analysis and optimization of thermal systems. Systems analysis applied to power conversion systems, air conditioning or refrigeration systems, and propulsion systems. Economics, equation fitting, and system simulation precede optimization. Optimization techniques include calculus

and search methods as well as dynamic, geometric, and linear programming.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1052 or MEMS 1052) and (ME 1072 or MEMS 1072); ; PROG: Swanson School of Engineering

ME 1072 - APPLIED FLUID DYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Viscous flow in ducts, fluid meters; boundary layer flows and fluid drag; inviscid incompressible flow; one dimensional compressible flow; isentropic flow through nozzles, normal shock and frictional effects; turbomachinery theory and performance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 0051 or MEMS 0051) or (MET 1110 and MET 1154); PROG: School of Engineering

ME 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering not normally encountered in classes and include a wide range of topics such as the significance of engineering as a profession and the relation of engineering to current social problems.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ME 1097 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 4
Investigation and research embodying testing, original design, or research on an approved subject; or, a special problem or reading course of individual study guided by an approved departmental faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

ME 1098 - SPECIAL PROJECTS 2

Minimum Credits: 3
Maximum Credits: 3
Investigation and research embodying testing, original design, or research on an approved subject; or a special problem or reading course of individual study guided by an approved departmental faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

MEMS 0022 - KINEMATICS OF MACHINERY

Minimum Credits: 3
Maximum Credits: 3
Fundamental theory of motion as applied to basic mechanisms. Analytical, computer, and graphical methods for determining displacements, velocities, and accelerations. Gears and gear trains are studied and cams and linkages are synthesized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 and ENGR 0135; PROG: School of Engineering

MEMS 0024 - INTRO MECHANICAL ENGR DESIGN

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of the design process, basic techniques of graphic communication, and an introduction to the most common mechanical components and manufacturing processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0011 or ENGR 0015 or ENGR 0711 or ET 0011; PROG: School of Engineering

MEMS 0031 - ELECTRICAL CIRCUITS

Minimum Credits: 3
Maximum Credits: 3
Fundamental laws, principles, and analysis techniques for dc and ac linear circuits whose elements consist of passive and active components used in modern engineering practice, including the determination of steady-state and transient responses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or PHYS 0476 or 0152 or 0202); CREQ: (MATH 0290 or 1271 or 1035 or 0202); PROG: School of Engineering

MEMS 0040 - MATERIALS AND MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
Manufacturing and processing of ceramics, semiconductors, metals, and polymers covering refining, product formation, and control of properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 0051 - INTRODUCTION TO THERMODYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Basic concepts and interlinking relationships of thermodynamics, fluid mechanics and heat transfer; fluid statics; system and control volumes; thermodynamic properties; work and heat; first law of thermodynamics for control mass and control volume; integral forms of conservation of mass and momentum.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0150 or PHYS 0174 or 0201 or PHYS 0475) and (CHEM 0101 or CHEM 0110 or 0111 or CHEM 0410 or CHEM 0710 or CHEM 0760 or CHEM 0960); PROG: School of Engineering

MEMS 0071 - INTRO TO FLUID MECHANICS

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of fluid mechanics, with emphasis on inviscid and linearly viscous, incompressible fluids. Basic physical phenomena of fluid mechanics. Fluid kinematics. Governing equations (both integral and local forms). Exact solutions. Internal flows. Dimensional analysis and modeling.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0152 or PHYS 0175 or 0202 or PHYS 0476) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0970); CREQ: MATH 0290; PLAN: Mechanical Engineering (BSE) PROG: Swanson School of Engineering

MEMS 1010 - EXPERIMENTAL METHODS IN MSE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 1011 - STRUCTURE AND PROPERTIES LAB

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1010; PROG: School of Engineering

MEMS 1014 - DYNAMIC SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Modeling and analysis of physical systems. Time- and frequency-domain analyses; transient and steady state system response to various excitations; transfer function and state space model representations; Laplace and Fourier transforms.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: [(ENGR 0012 or ENGR 0016) or (ET 0023 and 0030)] and (MEMS 0031 or ME 0031 or ECE 0031 or EET 0110) and (MATH 0280 or 0206 or MATH 1180 or 1181 or 1035); PROG: School of Engineering

MEMS 1015 - RIGID-BODY DYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Dynamics of particles, systems of particles, and rigid bodies including energy and momentum methods, problems of varying forces and constraints, and relationship of motion to different reference frames.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0240 or 0241 or 0201) and (ENGR 0135 or ENGR 0131 or ET 0051); PROG: School of Engineering

MEMS 1020 - MECHANICAL VIBRATIONS

Minimum Credits: 3
Maximum Credits: 3
Review of free and forced vibrations of single-degree-of-freedom systems with and without damping, multi-degree of freedom systems, vibration isolation, nonlinear vibrations, LaGrange's equations, and vibration of continuous systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 1014 or MEMS 1014 or BIOENG 1255; PROG: School of Engineering

MEMS 1028 - MECHANICAL DESIGN I

Minimum Credits: 3
Maximum Credits: 3
Stress and deflection analysis; survey of mechanical design criteria; selection and applications of working stresses for ductile and brittle materials; static, fatigue, and impact loading and combination of stresses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0141 or ENGR 0145 or ET 0053 or BIOENG 1630; PROG: Undergraduate School of Engineering

MEMS 1029 - MECHANICAL DESIGN II

Minimum Credits: 3
Maximum Credits: 3
Analysis and design of machine elements, components, and mechanical systems. Machine elements include shafts, keys, bearings, gears, belts, chains, springs, screws, and motors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 0024 or MEMS 0024 or ET 0035) and (ME 1028 or MEMS 1028); PROG: School of Engineering

MEMS 1030 - MATERIAL SELECTION

Minimum Credits: 3
Maximum Credits: 3
Methodology for materials selection in mechanical design processes. Includes: (i) design process and consideration, (ii) criteria for materials and their shape selection, and (iii) design case study. Mechanical components have mass; they carry loads; they conduct heat and electricity; they are exposed to wear and to corrosive environments; they are made of one or more materials; they have shape; and they must be manufactured. This course provides knowledge on how these activities are related.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 1028 or MEMS 1028); PROG: School of Engineering

MEMS 1032 - AUTOMOTIVE DSGN & FABRICATION

Minimum Credits: 3
Maximum Credits: 3
Covers the basics of automotive fabrication. Students working as one team have the opportunity to experience hands-on application of both classical and modern manufacturing techniques while adhering to a very strict externally imposed deadline. The team effort culminates in the production of a high-performance automobile.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1033 - FRACTURE MECHANICS
Minimum Credits: 3
Maximum Credits: 3
An introduction to the principles of fracture mechanics; the essential concepts underlying appropriate materials selection including the effects of shape selection for maximum performance; and the strengths and weaknesses inherent in the choice of, say, metals versus ceramics versus polymers, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 1028 or MEMS 1028); PROG: School of Engineering

MEMS 1041 - MECHANICAL MEASUREMENTS 1
Minimum Credits: 3
Maximum Credits: 3
Fundamentals of mechanical measurements including steady-state and dynamic signals, detector-transducer elements, signal conditioning and readout systems, standards, instrument calibration, statistical treatment of data, error analysis, and technical report writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0141 or ENGR 0145 or ET 0053 or BIOENG 1630) and (ME 0031 or MEMS 0031 or ECE 0031 or EET 0110 or BIOENG 1310); CREQ: ME 1014 or MEMS 1014 or BIOENG 1255; PROG: School of Engineering

MEMS 1042 - MECHANICAL MEASUREMENTS 2
Minimum Credits: 3
Maximum Credits: 3
Builds on the foundation of mechanical measurements provided in MEMS 1041 to provide students with the ability to properly design and perform an experiment on a complex mechanical system in order to determine specific characteristics or performance of that system. Specific material includes extended knowledge of statistics and error analysis, computer-based data acquisition, and technical communications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1041 or MEMS 1041); PROG: School of Engineering

MEMS 1043 - SENIOR DESIGN PROJECT
Minimum Credits: 3
Maximum Credits: 3
A major project involving literature search, planning, design, fabrication, experimentation, analysis, technical report, poster presentation, and presentation at a technical symposium is performed by a small team of students under the direction of a faculty advisor and corporate advisor on a project presented by the corporate advisor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Sr; PROG: School of Engineering

MEMS 1045 - AUTOMATIC CONTROLS
Minimum Credits: 3
Maximum Credits: 3
Modeling of mechanical systems and classical feedback control theory for single-input-single-output systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1014 or MEMS 1014 or BIOENG 1255); PROG: School of Engineering

MEMS 1047 - FINITE ELEMENT ANALYSIS
Minimum Credits: 3
Maximum Credits: 3
The finite element method applied in solid mechanics, fluid mechanics, and heat transfer.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1028; PROG: School of Engineering

MEMS 1048 - ANAL CHRCTRZN AT NANO-SCALE
Minimum Credits: 3
Maximum Credits: 3

This course offers a survey of micro-analytical, microscopy and diffraction methods that are widely used for the analysis of composition, chemistry, structure, scale and morphology of advanced materials. It introduces the most basic concepts required to understand experimental data obtained with these modern techniques. The main objectives of the course are to enable students to interpret and evaluate relevant data sets presented in the research literature and to identify experimental tools to solve a given Nano-research characterization problem. Some prerequisite basic knowledge of the structure of solid matter (e.g. crystals and amorphous materials), diffraction methods (e.g. X-ray diffraction) and processing-property-structure relationships in materials is expected.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1049 - MECHATRONICS

Minimum Credits: 3
Maximum Credits: 3
An introduction to mechatronics, or the interfacing of mechanical and electrical systems. Focus is on embedded controllers (Motorola 68hc11 and pic 16f84) and their programming, power and interfacing electronics, actuators, sensors, and integration of these components to create a complete functional mechatronic system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ME 1014 or MEMS 1014); PROG: School of Engineering

MEMS 1051 - APPLIED THERMODYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Thermodynamic processes involving energy and entropy changes in real and ideal gases, vapors, and liquids, and mixtures of those fluids. Basic thermodynamic cycles (vapor and gas power, refrigeration, and heat pumps). Discussion of thermodynamic relations for simple compressible substances and introduction to psychometrics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210; PROG: School of Engineering

MEMS 1052 - HEAT AND MASS TRANSFER

Minimum Credits: 3
Maximum Credits: 3
One- and two-dimensional steady and unsteady heat conduction; internal and external forced convection; free convection; engineering principle of radiation; heat exchangers and special topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 0051 or MEMS 0051 or BIOENG 1210 or MET 1110; PROG: School of Engineering

MEMS 1053 - STRUCT OF CRYSTALS & DIFFRCTN

Minimum Credits: 3
Maximum Credits: 3
Crystallography of materials; bravais lattices, crystal systems, and crystal structures. Diffraction methods; x-ray, electron, and neutron scattering; atomic scattering factor; structure factor; powder techniques; laue method; reciprocal lattice; electron diffraction; amorphous materials; thermodynamics of crystals and crystal defects; polymorphism; order-disorder phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (ENGR 0022 or MET 1162); LVL: Jr or Sr; PROG: Swanson School of Engineering

MEMS 1054 - MATERIALS SCIENCE I

Minimum Credits: 3
Maximum Credits: 3
Crystallography of materials; bravais lattices, crystal systems, and crystal structures. Diffraction methods; x-ray, electron, and neutron scattering; atomic scattering factor; structure factor; powder techniques; Laue method; reciprocal lattice; electron diffraction; amorphous materials; thermodynamics of crystals and crystal defects; polymorphism; order-disorder phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 1055 - CMPTR ANAL TRANSPORT PHENOMENA

Minimum Credits: 3
Maximum Credits: 3
An introduction to some of the numerical/computational methods for solving problems in transport phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718 or (ET 0023 and 0030)] and (ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210); PROG: School of Engineering

MEMS 1056 - ENERGETICS

Minimum Credits: 3
Maximum Credits: 3
Thermodynamics of solutions with applications to materials systems; heterogeneous phase equilibria; relations between free energy and phase diagrams; electrochemistry; rate processes; thermodynamics of surfaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210); PROG: School of Engineering

MEMS 1057 - MICRO/NANO MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
Explores different micro/nano manufacturing options, material choices, and a variety of applications. The goal is to gain an understanding of various micro/nano fabrication techniques, learn major applications and principles of micro/nano systems, and develop an ability to design and fabricate new micro/nano systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1058 - ELECTROMAGNETIC PROPS MATRLS

Minimum Credits: 3
Maximum Credits: 3
Review of basic principles: quantum theory, band and zone theory. Transport, electrical, and thermal properties; semiconductors and semiconductor devices; magnetic materials, hard and soft; dielectric and optical properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0022 or MET 1162; PROG: School of Engineering

MEMS 1059 - PHASE EQUILIBRIA IN MATERIALS`

Minimum Credits: 3
Maximum Credits: 3
Thermodynamics of solutions with applications to materials systems; heterogeneous phase equilibria; relations between free energy and phase diagrams, electrochemistry; rate processes; thermodynamics of surfaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 0051 or MEMS 0051 or MET 1110 or BIOENG 1210); LVL: Jr or Sr; PROG: Swanson School of Engineering

MEMS 1060 - NUMERICAL METHODS ENGR ANAL

Minimum Credits: 3
Maximum Credits: 3
Introduction to numerical techniques for the solution of linear and nonlinear equations, numerical integration and differentiation, interpolation, ordinary and partial differential equations, and eigenvalue problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1062 - ORTHOPEDIC ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
An advanced course that applies mechanics of materials, material failure theories, and rigid-body dynamics to orthopedic device design, tissue

mechanical modeling, and surgical procedure evaluation. Meant to provide an introductory background to engineering aspects of orthopedic medicine and biomechanics for students preparing for medical school, positions in the medical device industry, or graduate studies in this field.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1063 - PHASE TRANSFRMTN AND EVOLUTION

Minimum Credits: 3
Maximum Credits: 3
Phase equilibria; binary and ternary system; phase rule; thermodynamics and phase diagrams; diffusion in materials; phase transformations; nucleation and growth kinetics; precipitation reactions; solidification; glass-forming systems; phase separation; displacive or martensitic transformations; microstructural development in metallic and non-metallic systems; electron theory of solids; zone theory; electrical and magnetic properties of materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MEMS 1053 and MEMS 1059; LVL: Jr or Sr; PROG: Swanson School of Engineering (UENGR)

MEMS 1064 - MATERIALS SCIENCE II

Minimum Credits: 3
Maximum Credits: 3
Phase equilibria; binary and ternary system; phase rule; thermodynamics and phase diagrams; diffusion in materials; phase transformations; nucleation and growth kinetics; precipitation reactions; solidification; glass-forming systems; phase separation; displacive or martensitic transformations; microstructural development in metallic and non-metallic systems; electron theory of solids; zone theory; electrical and magnetic properties of materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MSE 1054 or MEMS 1054) and (MSE 1056 or MEMS 1056); PROG: School of Engineering

MEMS 1065 - THERMAL SYSTEMS DESIGN

Minimum Credits: 3
Maximum Credits: 3
Design, analysis, and optimization of thermal systems. Systems analysis applied to heat exchanger, power conversion, air conditioning, refrigeration, and heat recovery systems. Economics, equation fitting, and thermal property evaluation is integrated into the simulation and optimization of thermal system designs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1051 and MEMS 1052 and MEMS 0071; PROG: School of Engineering

MEMS 1070 - MECHL BEHAVIOR OF MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Theory of elasticity, stress, strain, constitutive equations, isotropic and anisotropic elasticity, wave propagation in brittle solids, time dependent deformation, viscoelasticity, vibrations, damping, anelasticity, creep, design of creep resistant microstructures, deformation of polymers, physics of fracture, fracture mechanisms, brittle fracture, ductile fracture, design of fracture-resistant microstructures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: (ENGR 0022 or MET 1162) and (ENGR 0022 or ENGR 0145 or ET 0053); PROG:

MEMS 1071 - APPLIED FLUID MECHANICS

Minimum Credits: 3
Maximum Credits: 3
Basic principles of computational fluid dynamics (CFD). Hands-on experience using a commercial CFD package. Students will us this tool to solve a design problem. External flows with particular emphasis on aerodynamics. Fluid machinery. Experimental fluid mechanics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 0071 or MEMS 1072; PROG: Swanson School of Engineering

MEMS 1072 - APPLIED FLUID DYNAMICS

Minimum Credits: 3
Maximum Credits: 3

Kinematics of fluids; navier-stokes equations; flow of incompressible, inviscid fluids; dimensional analysis and similarity; internal flows in pipes; boundary layer theory; and external flow past bodies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ME 0051 or MEMS 0051 or BIOENG 1210 or MET 1110; PROG: School of Engineering

MEMS 1079 - SR MATERIALS RESEARCH PROJECT

Minimum Credits: 3
Maximum Credits: 3
A major project involving literature search, planning, experimentation, analysis, an oral presentation, and a final technical report. The project is either sponsored by the department or a local company and is conducted by an individual or a small team of students with a faculty adviser.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MEMS 1082 - ELCTRMECHL SENSORS & ACTUATORS

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to provide a thorough understanding of the various mechanisms that can be exploited in the design of electromechanically sensors and actuators. These transduction mechanisms include: 1) transduction based on changes; in the energy stored in the electric field, 2) in the energy stored in the magnetic field, 3) piezoelectricity and pyroelectricity, 4) linear inductive transduction mechanisms, and 5) resistive transduction mechanisms. Will discuss various transduction materials, sensors and actuators from a wide range of applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering not normally encountered in classes and include a wide range of topics such as the significance of engineering as a profession and the relation of engineering to current social problems.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

MEMS 1097 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 3
Investigation and research embodying testing, original design, or research on an approved subject; or an individual course of study guided by an approved departmental faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MEMS 1098 - SPECIAL PROJECTS II

Minimum Credits: 1
Maximum Credits: 3
Investigation and research embodying testing, original design, or research on an approved subject; or an individual course of study guided by an approved departmental faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MEMS 1101 - FERROUS PHYSICAL METALLURGY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0022 or MET 1162) and (ME 0051 or MEMS 0051 or BIOENG 1210 or MET 1110) and MEMS 1010; PROG: Undergraduate Engineering

MEMS 1102 - PRIN APPLCS STEEL ALLOY DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will present the students with a discussion of the properties that are required of engineering alloys for a given commercial application. The alloy design, thermomechanical processing and required package of mechanical properties for plate, strip, bar, rod, wire and tubular products will be reviewed. These include: strenth, toughness, formability, weldability, fatigue resistance and corrosion/oxidation resistance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1101; PROG: Swanson School of Engineering

MEMS 1103 - PRIN APPLCS STEEL PROCNG DSGN

Minimum Credits: 3
Maximum Credits: 3
This course will present case studies of actual components used in commercial applications in the automotive, construction, oil and gas, and nuclear industries. This course will guide the student from the alloy selection, microstructural processing, and mechanical properties to the final fabrication steps.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MEMS 1102; PROG: Swanson School of Engineering

MEMS 1111 - MATLS ENERGY GENRT & STORAGE

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to provide an overview of the important renewable energy resources and the modern technologies to harness and store them. After taking MEMS 1111, students are expected to develop a solid scientific and technological understanding of new alternative energy technologies. This course will give an overview on harnessing renewable energy resources and storing collected energy. In each topic, issues relevant to basic principles and technological barriers limiting the use of non-fossil energy will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

MEMS 1162 - CMP APPLCS IN MATLS SCI ENGR

Minimum Credits: 3
Maximum Credits: 3
Applications of computer programming, computer software, and databases for materials science and engineering. Students will first apply computing and statistics fundamentals to solve materials science and engineering problems. Review recently developed software packages such as those of diffraction, thermodynamics, electronic materials, etc. The students will also learn about the techniques for using computerized databases for obtaining information on engineered materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MSE 1052 or MEMS 1052) and (MSE 1054 or MEMS 1054) and (MSE 1056 or MEMS 1056); PROG: School of Engineering

MEMS 1163 - CERAMIC MATERIALS

Minimum Credits: 3
Maximum Credits: 3
Structure of ceramics and glasses. Microstructures and their development. Properties, processing, and applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0020 or IE 1070; PLAN: Industrial Engineering

MEMS 1172 - PHYSICAL METALLURGY

Minimum Credits: 3
Maximum Credits: 3
Concepts introduced in materials science i, energetics and materials processing are used to provide an understanding of the development of structure in metals and alloys, and the dependence of properties on structure. Specific topics include dislocations and slip phenomena; twinning; the nature of the cold-worked state; annealing-recovery, recrystallization, and grain growth; textures; grain boundaries and other interfaces; and strengthening mechanisms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MSE 1054 or MEMS 1054; CREQ: MSE 1064 or MEMS 1064; PROG: School of Engineering

MEMS 1174 - CERAMIC PROCESSING
Minimum Credits: 3
Maximum Credits: 3
Raw materials, powder, preparation, characterization of powders; forming processes: powder pressing, slipcasting, plastic forming; drying and firing, sintering, and vitrification; special processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MSE 1163 or MEMS 1163; PROG: School of Engineering

MEMS 1180 - ADV MECHL BEHAVIOR OF MATLS
Minimum Credits: 3
Maximum Credits: 3
Fracture mechanics, design of tough microstructures, fatigue behavior, s-n curves, role of surface condition, statistical approach, strain-life curves, high cycle fatigue, low cycle fatigue, design of fatigue resistant microstructures, creep of materials, processing and properties of composite materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MSE 1070 or MEMS 1070; PROG: School of Engineering

MEMS 1477 - THIN FILM PROCESSES
Minimum Credits: 3
Maximum Credits: 3
This course will be an overview of the major thin film processing methods and the primary techniques to characterize thin film surfaces and interfaces. Topics to be included: vacuum science and technology, thin-film deposition techniques, such as pvd, mbe, cvd and the fundamental surface processes of epitaxial growth. The analytical techniques will be presented, e.g. electron microscopy, AES, XPS, AFM and STM.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

Medieval & Renaissance Studies

MRST 0070 - MEDIEVAL ARTISTIC PATRONAGE
Minimum Credits: 3
Maximum Credits: 3
This is a survey of medieval art focusing on the major ecclesiastical and secular patrons of the period. The works of art and architecture are studied in relation to contemporary writings - chronicles, inventories, descriptions that provide documentary evidence for their creation and appreciation. Specific patrons include Justinian, Charlemagne, the Cluniac order, Henry the lion, Jean de Berry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1001 - MEDIEVAL WORLD
Minimum Credits: 3
Maximum Credits: 3
Subject: cultural, intellectual, and political activity in the European middle ages. The course concentrates on a few significant aspects of the medieval world, taking them as centers from which to explore interrelated phenomena; a court, a cathedral, the crusades, the divine comedy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1002 - INTRO TO THE RENAISSANCE
Minimum Credits: 3
Maximum Credits: 3
The idea of the Renaissance is central to Western culture. Many of our values and tastes devolve from--or consciously react against--patterns that were established or reinterpreted five hundred years ago. The student who explores the renaissance, therefore, gains hold of one of the keys of Western civilization. He or she also acquires practice in critical reading, discussion, and the written expression of ideas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1010 - MAN & COSMOS IN RENAISSANCE
Minimum Credits: 3
Maximum Credits: 3

An exploration of the intellectual and scientific activity of the European Renaissance and its influence in shaping modern man and the discoveries of modern science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1011 - MEDIEVL NARRATV EPIC & ROMANCE

Minimum Credits: 3
Maximum Credits: 3
The course spans several centuries and takes up works com posed in Iceland, England, France, Germany, and Spain. The epics and Romances composed about Beowulf, Charlemagne, Arthurtristan and Isolde, first transmitted orally and then in writing, were expressions of their time but have outlived it. This course investigates not only what the epic and Romance genres are and how they differ, but also how they came into being, what concerns and inspiration they embodied, and how they survived the specific cultures in which they were created and became part of world literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1019 - THE MIDDLE AGES: A LIVNG LEGCY

Minimum Credits: 4
Maximum Credits: 4
The course has a double objective. It examines some outstanding achievements and achievers of the European middle ages, particularly in the arts and sciences, ideas and institutions. It also scrutinizes connections between this period and our own, to demonstrate how firmly 20th-century American culture is rooted in pre-modern Western and Eastern Europe. Foci are the University, the liberal arts, Romanesque and gothic architecture, the rise of cities and the middle class, Greek and Roman Christianity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1022 - MEDIEVAL LATIN

Minimum Credits: 3
Maximum Credits: 3
This course is a comprehensive, intensive introduction to the grammatical forms and syntax of medieval Latin. Medieval Latin means primarily the ecclesiastical Latin used roughly from the time of Jerome (c.340-420) And Ambrose (340-397), through the lifetime of Dante Alighieri (1265 1321). Selected readings serve to introduce the student to general topics of interest in medieval culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1052 - ARTHURIAN LEGEND & CULT CHANGE

Minimum Credits: 3
Maximum Credits: 3
The subject is the chief myth of the British isles, and one of the dominant ones on the continent, for many centuries; the story of Arthur's victories, his unifying and civilizing influence, his defeat and his disappearance. The aim of the course is to examine the circumstances that gave rise to this story, to account for its powerful attraction over some 1500 years, to note its evolution in a changing social and political ambiance, and to attempt to grasp how it was shaped and re-shaped by new modes of thought and feeling.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1076 - PALAEOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the history of hand writing in the West from antiquity through the sixteenth century and a practical introduction to reading the scripts of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MRST 1200 - SPECIAL TOPICS-MEDIEVAL

Minimum Credits: 3
Maximum Credits: 3
Special topics in medieval art history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Mgmt Information Systems

BUSMIS 1614 - SPECIAL TOPICS IN BIS
Minimum Credits: 3
Maximum Credits: 3
A variety of management information systems topics are addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting(BSB),Finance(BSB),General Management(BSB),Global Management(BSBA),Marketing(BSB), Business Information Systems(BSB), Human Resources Management,Human Resources Management(BSB),Supply Chain Management(BSB) and undeclared CBA Majors

Microbiology

ORBIOL 0031 - MICROBIOLOGY 1
Minimum Credits: 4
Maximum Credits: 4
This is an introductory course in microbiology designed for nursing students with no previous microbiology background. Three major areas included are the microorganisms, the immune mechanisms of the host, and the interaction of the host and the microorganisms in the disease process and in homeostasis. This course includes a laboratory series which is coordinated with the lecture content. Major emphasis is placed on infectious diseases and infection control at the nursing level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

ORBIOL 0032 - MICROBIOLOGY 1 LABORATORY
Minimum Credits: 0
Maximum Credits: 0
Content is devoted to the development of student's basic laboratory skills, application of microbiological methods and will emphasize performance, scientific investigation, and safety.
Academic Career: UGRD
Course Component: Practicum
Grade Component: No Grade Required
Course Requirements: School of Nursing students only.

ORBIOL 0033 - MICROBIOLOGY 1 LABORATORY
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

ORBIOL 1020 - PRINCIPLES OF MICROBIOLOGY
Minimum Credits: 4
Maximum Credits: 4
An introductory course in microbiology for dental hygiene students with no previous background in microbiology. Major areas included are microorganisms, immune mechanisms of the host and the interaction of the host and the microorganisms in disease and homeostasis. Major emphasis is placed on diseases with oral manifestations and infection control in dental medicine. The laboratory component is devoted to microbiological methods, infection control and oral ecology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

ORBIOL 1025 - INTRODUCTION TO MICROBIOLOGY
Minimum Credits: 3
Maximum Credits: 3
An overview of medical microbiology introduces the student to medically important bacteria, fungi, viruses, parasites and to immunity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Military Science & Tact

MILS 0011 - INTRO TO MILITARY LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
MILS 0011 is offered during the fall term. This freshman course is an introduction to army ROTC. Course instruction includes survival techniques, first aid, wear of the military uniform and organization, role and branches of the U.S. Army.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 0012 - ADAPTIVE LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
MILS 0012 is offered during the spring term. This freshman course is an introduction to army ROTC. Course instruction includes leadership and management, drill and ceremonies, land navigation, basic, pistol/rifle marksmanship and organization and role of the U.S. Army reserve and national guard units.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 0021 - LEADERSHP DYNAMCS & APPLICATNS

Minimum Credits: 1
Maximum Credits: 1
MILS 0021 is offered during the fall term. This sophomore course is an introduction to army ROTC. Course instruction includes the total army concept, army rank and structure, leadership and management, land navigation and drill and ceremonies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 0022 - ARMY TEAM DEVELOPMENT

Minimum Credits: 1
Maximum Credits: 1
MILS 0022 is offered during the spring term. This sophomore course is an introduction to army ROTC. Course instruction includes group communication, decision making and problem solving techniques, military history, leadership and management and land navigation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 1031 - BASC LEADER PLN & COMBAT OPRTN

Minimum Credits: 1
Maximum Credits: 1
MILS 1031 is offered during the fall term. This junior course prepares the Army ROTC student for commissioning into the U.S. Army as a second lieutenant. Course instruction is coupled with practical exercises in tactical and technical military subjects with particular emphasis on leadership development, problem solving and decision making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 1032 - APPLIED LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
MILS 1032 is offered during the spring term. This junior course prepares the Army ROTC student for commissioning into the U.S. Army as a second lieutenant. Course instruction is coupled with practical exercises in tactical and technical military subjects with particular emphasis on leadership development, problem solving and decision making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 1041 - PROGRESV LDRS THRY & APPLICATN

Minimum Credits: 1
Maximum Credits: 1
MILS 1041 is offered during the fall term. This senior course continues to prepare the Army ROTC student for commissioning into the U.S. Army as a second lieutenant. Course instruction emphasizes leadership, army operations and procedures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 1042 - COMPANY GRADE LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
MILS 1042 is offered during the spring term. This senior course continues to prepare the Army ROTC student for commissioning into the U.S. Army as a second lieutenant. Course instruction emphasizes military justice and professional ethics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MILS 1052 - LEADERSHIP LAB
Minimum Credits: 0
Maximum Credits: 0
All four levels of military science students are required to attend this practicum, which emphasizes the skills acquired in the classroom to complete the learning process. The labs will take place once per month or a minimum of three times per semester. Skills will include basic rappelling, basic rifle marksmanship and orienteering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

MILS 1509 - LEADERSHIP LAB
Minimum Credits: 0
Maximum Credits: 0
All four levels of military science students are required to attend this practicum, which emphasizes the skills acquired in the classroom to complete the learning process. The labs will take place once per month or a minimum of three times per semester. Skills will include basic rappelling, basic rifle marksmanship and orienteering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

Music

MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC
Minimum Credits: 3
Maximum Credits: 3
A prerequisite for the music major curriculum, this course trains the student to recognize intervals, modes, and harmonic motion, and provides the critical keyboard skills needed to comprehend the roles of melody and harmony in European-American music. The course will emphasize keyboard-based training as a preparation for further study in music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0115 - THE ALEXANDER TECHNIQUE
Minimum Credits: 1
Maximum Credits: 1
An elective, this course teaches musicians, actors, and other kinetic performers how posture and body awareness impact their health. Students will learn how to take conscious control of their movements during activities so their performances will be fluid, natural, poised and expressive to their fullest potential. The course will improve the quality of performance, daily routines, and study habit positions, and prevent repetitive movement through conscious release of the muscles in the upper body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0121 - BASC MUSICIANSHIP: CLASS PIANO
Minimum Credits: 3
Maximum Credits: 3
This course in basic musicianship provides non-music majors with keyboard skills while introducing them to basics of music theory. Course content includes scales, intervals, chords, and simple analysis. The course prepares students to transpose and sight read. Students will also be expected to take melodic dictation. Electronic pianos are used in class and are available for daily practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0122 - BASC MUSICIANSHIP: CLSS GUITAR
Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide non-music majors with an introduction to the techniques of classical, folk, rock, and jazz guitar. While the emphasis is on playing skills, the course also introduces many aspects of music theory and notation.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0123 - BASC MUSICIANSHIP: CLASS VOICE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for non-voice majors who want to develop their singing and sight-reading skills. It provides an introduction to posture, breathing, tone production, diction, and interpretation, while introducing students to the elements of music theory and notation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0211 - INTRO TO WESTERN ART MUSIC

Minimum Credits: 3
Maximum Credits: 3
This class will examine the history, culture, and practice of '"classical"' music. We will explore the technical workings of music and learn what to listen for in a wide variety of musical styles. We will also discuss the values and meanings of music in different social and political contexts. No prior knowledge of music is necessary and there is no requirement to read music to succeed in the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0222 - HISTRY OF WESTERN MUSC TO 1750

Minimum Credits: 3
Maximum Credits: 3
A study of selected master works or Western art music in a historical context from Gregorian chant through Johann Sebastian Bach. Emphasis is on musical understanding through critical listening, score study, and lectures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0415

MUSIC 0224 - HISTRY OF WEST MUSC SINCE 1750

Minimum Credits: 3
Maximum Credits: 3
This course traces the history of musical style from the late eighteenth century to the present, through a close study of representative works, in the context of leading artistic and intellectual trends.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0415

MUSIC 0232 - HISTORY OF OPERA

Minimum Credits: 3
Maximum Credits: 3
The course introduces students to the history and literature of opera, from its precursors in late Renaissance Italy to the present day. Emphasis is on changing styles, genre, and performance practice, as well as on developing listening skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0234 - HISTORY OF THE SYMPHONY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the development of the symphony from its origins to the present. Students study individual symphonic compositions from both historical and analytical viewpoints. Topics covered include changes in instrumentation, harmony, formal design, as well as the changing place of the genre in concert life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0242 - MAJOR COMPOSER

Minimum Credits: 3
Maximum Credits: 3
This course examines the life and works of a major figure in Western art music. The content of the course changes, but it emphasizes music in its

historical and cultural contexts, as well as individual genres and styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0252 - CLASSICAL FORMS AND STYLE

Minimum Credits: 3
Maximum Credits: 3
The focus of the course changes. Topics might include baroque ornamentation, orchestral performance traditions of the 17th and 18th centuries, or performance practices in Renaissance music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0311 - INTRODUCTION TO WORLD MUSIC

Minimum Credits: 3
Maximum Credits: 3
This introductory course deals with a great variety of traditional musical genres from selected cultures around the world. It aims to familiarize students with music sound and music structure of different people, to help them appreciate music in its cultural context, and to give them a broad worldview of music both as a human activity with social functions and as an artistic expression. Generous use will be made of audio-visual aids and live performances in the presentation of materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0354 - CHINESE PERFORMANCE LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Students will read Chinese opera scripts, texts of narrative songs, and texts of folksongs. All readings will be in English translations, except for advanced or native-speaker students who may read them in Chinese. Students will then view performances of some works. Through visits of invited performers, students will learn some basic performance techniques themselves. By reading, hearing, and viewing these works, students will gain a unique perspective on Chinese culture and society at both the elite and popular levels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0411 - THEORY 1

Minimum Credits: 3
Maximum Credits: 3
This course introduces the principles and practice of diatonic harmony and voice leading, through a study of works by leading composers of the 18th and 19th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0100 or Music Theory Score equal/greater 27

MUSIC 0412 - MUSICIANSHIP 1

Minimum Credits: 1
Maximum Credits: 1
This course provides a disciplined environment in which to develop sightsinging skills and overall musicianship. Activities include sightsinging (moveable do sol feggio), melodic dictation, rhythmic dictation, and coordination exercises.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0415 - THEORY 2

Minimum Credits: 3
Maximum Credits: 3
This course introduces the principles and practice of diatonic harmony and voice leading, through a study of works by leading composers of the 18th and 19th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0411

MUSIC 0416 - MUSICIANSHIP 2

Minimum Credits: 1
Maximum Credits: 1
This course provides a disciplined environment in which to develop sightsinging skills and overall musicianship. Activities include sightsinging (moveable do sol feggio), melodic dictation, rhythmic dictation, and coordination exercises.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0412

MUSIC 0417 - THEORY 3

Minimum Credits: 3
Maximum Credits: 3
This course introduces the principles and practice of chromatic harmony and voice leading, through a study of works by leading composers of the 18th and 19th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0415

MUSIC 0418 - MUSICIANSHIP 3

Minimum Credits: 1
Maximum Credits: 1
This course provides a disciplined environment in which to develop sight singing skills and overall musicianship. Activities include sight singing (moveable do sol feggio), melodic dictation, rhythmic dictation, and coordination exercises.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0416

MUSIC 0419 - THEORY 4

Minimum Credits: 3
Maximum Credits: 3
The emphasis of this course will be the analysis of contemporary music from around the world. A member of the composition/theory faculty will teach the course. In addition, ethnomusicology faculty will lead class sessions on a variety of conceptual approaches to music-making and the organization of sound throughout the world. This approach to music theory aims to benefit from the knowledge and experience of the broader music faculty. The first half of the semester will focus on developing the analytic techniques necessary for a careful investigation of a particular musical component (melody, rhythm, harmony, form, and so on). In the second half of the semester, students will focus on close analyses of particular pieces of music, with attention to the cultural context and aesthetic values that define individual works.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0417

MUSIC 0420 - MUSICIANSHIP 4

Minimum Credits: 1
Maximum Credits: 1
This course provides a disciplined environment in which to develop sight singing skills and overall musicianship. Activities include sight singing (moveable do sol feggio), melodic dictation, rhythmic dictation, and coordination exercises.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0418

MUSIC 0510 - VOICE-JAZZ

Minimum Credits: 1
Maximum Credits: 1
This course is designed to teach jazz vocal style and improvisation in an individualized setting. Students will learn the basics of jazz voice production through technical exercises at the keyboard. Jazz terminology will be introduced and students will internalize jazz rhythms and articulations. The course provides for active listening with an emphasis on sight singing and ear training. Students will explore scale pattern and modes as elements of improvisation. They will express such technique through call-and-response and the embellishment of standard jazz tunes.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0510

MUSIC 0511 - VOICE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in vocal techniques and literature. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0511

MUSIC 0512 - PIANO

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the piano. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0512

MUSIC 0513 - ORGAN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the organ. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0513

MUSIC 0514 - HARPSICHORD

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the harpsichord. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0515 - VIOLIN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the violin. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0516 - VIOLA

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the viola. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0517 - VIOLONCELLO

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the violoncello. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0517

MUSIC 0518 - DOUBLE BASS / BASS GUITAR

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the double bass. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0518

MUSIC 0519 - FLUTE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the flute. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0519

MUSIC 0520 - OBOE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the oboe. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0520

MUSIC 0521 - CLARINET

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the clarinet. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0521

MUSIC 0522 - SAXOPHONE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the saxophone. Students receive instruction in both jazz and classical techniques. One hour private lesson per week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0522

MUSIC 0523 - FRENCH HORN

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the French horn. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0523

MUSIC 0524 - TRUMPET

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the trumpet. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies

Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0524

MUSIC 0525 - BASSOON

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the bassoon. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0525

MUSIC 0526 - TROMBONE

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the trombone. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0526

MUSIC 0527 - PERCUSSION

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of percussion. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0527

MUSIC 0528 - JAZZ-STUDIO SET DRUMMING

Minimum Credits: 1
Maximum Credits: 1
Course will consist of the following styles of music technique for students to become qualified professionals in the entertainment industry. The music styles for the course will be: jazz, pop, big band, and recording session technique. These styles will also be enhanced with training in ear development, sight reading, and improvisational class demonstrations.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0528

MUSIC 0529 - GUITAR

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the guitar. Students receive a one hour private lesson each week. May be repeated for additional credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0530 - JAZZ GUITAR

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of the jazz guitar. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 0530

MUSIC 0533 - JAZZ PIANO

Minimum Credits: 1
Maximum Credits: 1

This course is designed to teach jazz piano and improvisation in an individualized setting. Students will learn the basics of jazz piano through technical exercises at the keyboard. Students will explore scale pattern and modes as elements of improvisation.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0533

MUSIC 0540 - NON-WESTERN INSTRUMENTS

Minimum Credits: 1
Maximum Credits: 1
This course provides instruction in the techniques and literature of non-Western instruments. Students receive a one hour private lesson each week. May be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0550 - OTHER INSTRUMENTS

Minimum Credits: 1
Maximum Credits: 1
Carpathian music ensemble introduces students to Hungarian, Slovak, Romanian, polish, Ukrainian, gypsy, and Jewish musical traditions. Through weekly rehearsals, students learn musical styles, improvisation techniques, and performance practices with regard to diverse yet mutually interconnected music genres.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0611 - COLLEGIATE CHORALE

Minimum Credits: 1
Maximum Credits: 1
Open to students, faculty, staff, and community. The study and performance of traditional and contemporary choral works.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

MUSIC 0612 - HEINZ CHAPEL CHOIR

Minimum Credits: 1
Maximum Credits: 1
An acapella choir singing a wide range of choral music. Regular performances on campus and on annual tour.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0612

MUSIC 0613 - UNIVERSITY GLEE CLUB

Minimum Credits: 1
Maximum Credits: 1
An ensemble of men's voices that performs on campus and on tour. Repertoire ranges from traditional glee club numbers, through broadway hits, to works from the classical literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0613

MUSIC 0614 - WOMEN'S CHORALE

Minimum Credits: 1
Maximum Credits: 1
Performs treble choral music from the 16th century to today. Members receive instruction in vocal technique and sight singing skills. Emphasis is given to diction and stage presence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0614

MUSIC 0615 - CARPATHIAN MUSIC ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1

The ensemble introduces students to Hungarian, Slovak, Romanian, Polish, Ukrainian, Gypsy, and Jewish musical traditions. Through weekly rehearsals, students learn musical styles, improvisation techniques, and performance practices with regard to diverse yet mutually interconnected music genres.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

MUSIC 0620 - UNIVERSITY ORCHESTRA

Minimum Credits: 1
Maximum Credits: 1
Open to students, faculty, staff, and community musicians. The orchestra performs a wide variety of works from the standard repertoire, along with contemporary compositions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0620

MUSIC 0630 - MARCHING BAND

Minimum Credits: 1
Maximum Credits: 1
The band performs at athletic events and in concert. Membership is by audition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0630

MUSIC 0631 - CONCERT BAND

Minimum Credits: 1
Maximum Credits: 1
The concert band prepares and performs music from the band repertoire. Membership is by audition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0631

MUSIC 0640 - JAZZ ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
Big band jazz performances and rehearsal techniques. Performances include festivals, concerts, and tours.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0640

MUSIC 0650 - COLLEGIUM MUSICUM

Minimum Credits: 1
Maximum Credits: 1
The collegium musicum is an ensemble of instruments and voices that explores a wide variety of repertoires using early instruments and authentic performance practices.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 0660 - AFRICAN DRUMMING ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
The ensemble focuses on the drumming techniques of selected African society, the ensemble performs in collaboration with the Afro-American dance class and the Oakland dance school, and various local schools.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0670 - GUITAR ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
The guitar ensemble studies and performs music from the Renaissance to the present. Open to music majors and non-music majors by audition. The

ability to read music is essential.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 0671 - PERCUSSION ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
The ensemble studies and performs percussion literature. Open to music majors and non-music majors by audition. The ability to read music is essential. Required for music majors whose primary instrument is percussion.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 0672 - CHAMBER MUSIC

Minimum Credits: 1
Maximum Credits: 1
Students may elect chamber music to study any approved repertoire involving more than one instrument or voice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0680 - CHINESE MUSIC ENSEMBLE

Minimum Credits: 1
Maximum Credits: 1
To learn and develop Chinese music through performance of traditional repertory of Chinese instrumental music. Ensemble will present occasional concerts and lecture demonstrations to Pittsburgh and university community.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 0690 - UNIVERSITY GAMELAN

Minimum Credits: 1
Maximum Credits: 1
A gamelan is a set of mostly percussive instruments featuring tuned bronze gongs, bronze-keyed instruments, and drums. In the beginning ensemble, students will learn how to perform simple compositions on several instruments as well as the basic organizing principles of javanese traditional music. The advanced ensemble is made up of students invited to join after at least one semester of beginning gamelan. Students in the advanced group will learn more complex instruments and pieces. The ensemble will also perform publically at least once every year.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0711 - HISTORY OF JAZZ

Minimum Credits: 3
Maximum Credits: 3
The course focuses on the chronological development of jazz from its beginnings on the plantation to its present state as a world concert music. Various styles such as ragtime, blues, gospel, spirituals, rhythm and blues, rock, soul, etc., Are examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0820 - MUSC, LANG & MEANING IN FRANCE

Minimum Credits: 3
Maximum Credits: 3
This course looks at French concert music through questions about the changing meaning and purpose of works of art in postwar French culture. Drawing on composers and thinkers ranging from Messiaen to Derrida, we will look at the way individuals and the state responded to the politics and technologies that shaped France's musical language over the past sixty years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 0822 - SP TOPCS IN RENASNC MUSIC

Minimum Credits: 3
Maximum Credits: 3
This class explores music of the 15th and 16th centuries, emphasizing changing approaches to composition, expression, and aesthetics. In reading writings on music by some of the age's greatest thinkers, we will question Renaissance views concerning the many powers ascribed to music:

religious, social, communicative, and even medicinal. Furthermore, we will frequently come face-to-face with medieval and Renaissance manuscripts, considering their role in both the creation and consumption of music. Assignments will address the basic problems raised by the study of early music, including questions of style and structure, debates about performance practice, the relationship between music and text, and issues of cultural history. The ability to read music is not required; we will rely on recordings and manuscript facsimiles instead of modern scores.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 0824 - SP TOPICS COURSE IN ROCK MUSIC

Minimum Credits: 3
Maximum Credits: 3
The social, cultural, and stylistic history of rock and roll music. The class begins with important precedents such as blackface minstrelsy, jazz, and blues. In addition to addressing styles actually sold under the rock marketing label, we will cover genres and styles that were influenced by rock and roll but sold under different labels, such as soul, funk, salsa, disco, and hip-hop. Attention will also be given to global varieties of rock and roll.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0844 - THE MUSIC OF THE BEATLES

Minimum Credits: 3
Maximum Credits: 3
This course combines a study of the cultural context in which The Beatles worked with a consideration of how the music was created and evolved over time. Topics include the band's formative influences, relationships to contemporary artists, and evolution from live performing band to studio recording artists. Broader contextual themes include the rise of "teenage culture", Beatlemania as a phenomenon most closely associated with young female fans, and the band's relationship to the "youth counterculture".
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 0896 - MUSIC AND FILM

Minimum Credits: 3
Maximum Credits: 3
This introductory course, designed for non-majors with no previous background in music or film studies, examines music within the context of film, instructing students how to listen and think critically about the music and its relationship to the moving image and narrative.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1222 - MEDIEVAL AND EARLY RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
The course will cover Western European music starting with the transition in eighth and ninth centuries from an oral to a written tradition, and extending through the mid-fifteenth century polyphonic composers such as Dufay and Ockeghem. The interaction during the early middle ages between Western traditions and those of the middle East will be investigated, along with the place of music in the European culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1224 - LATER RENAISSANCE AND BAROQUE

Minimum Credits: 3
Maximum Credits: 3
Starting with the new attitudes towards word-tone relationships that can be seen in the music of Josquin, and with the rise of idiomatic instrumental music, the course will trace those trends, among others through the music of such composers as Josquin, Willaert, Rore, Lassus, Monteverdi, Corelli, Vivaldi, Handel, and J.S. Bach.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1226 - CLASSICAL AND EARLY ROMANTIC

Minimum Credits: 3
Maximum Credits: 3
The course will begin a few decades before 1750, tracing the new stylistic trends that grew up in Italy and France during Bach's lifetime, and will continue through Mozart, Haydn, and Beethoven to the composers of the early nineteenth century who still composed within the classical aesthetic, e.g. Schubert, Schumann, and Mendelssohn.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1228 - LATE ROMNTIC & ERLY 20TH CNTUR

Minimum Credits: 3
Maximum Credits: 3
This course will begin with the more revolutionary nineteenth-century composers who worked in Paris--Chopin, Berlioz, Liszt--and trace the breakdown of tonality and the emergence of new styles and structural principles in the late nineteenth and twentieth centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1230 - MUSIC SINCE 1945

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Western art music created since 1945.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1242 - MAJOR COMPOSER

Minimum Credits: 3
Maximum Credits: 3
This course examines the life and works of a major figure in Western art music. The content of the course changes, but it emphasizes music in its historical and cultural contexts, as well as individual genres and styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0411 and MUSIC 0415

MUSIC 1252 - HISTORY OF PERFORMANCE STYLES

Minimum Credits: 3
Maximum Credits: 3
The focus of this course changes. Topics might include baroque ornamentation, orchestral performance traditions of the 17th and 18th centuries, or performance practices in Renaissance music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1262 - CRITL LISTNG MUSIC CRITICISM

Minimum Credits: 3
Maximum Credits: 3
This course applies journalistic music criticism to develop critical listening skills crucial to learning about and performing classical and other music. In writing assignments and in class discussion, students will critique concerts and recordings, then defend their opinions with factual evidence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1270 - MUSIC, CULTURE & TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
Students will engage with major social, historical, and cultural issues affecting music technology in the West from the phonograph in the 19th century to the iPhone in the 21st.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1272 - SP TPCS CRSE OPRA CULT FEELING

Minimum Credits: 3
Maximum Credits: 3
Opera as a genre emerged at a junction between the pre-modern and modern notions of self, and has since remained a vital site for the exploration of the limits of self-perception and self-expression. Focusing on the ways the changing notions of feeling informed operatic articulations of personhood, gender, class and ethnicity, this course will explore some representative operas from the early 17th through the late 20th centuries. Bringing into play a variety of primary and secondary sources, we will tackle at least one new opera, and one new approach, each week.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1280 - MUSIC, ARTS, AND CONFLICT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

MUSIC 1310 - GLOBAL AND POPULAR MUSIC

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to theories and research methodologies in global and popular music, including but not limited to musical and textual transcription, fieldwork and methods for relating social behavior to musical behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1320 - MUSIC IN NORTH AMERICA

Minimum Credits: 3
Maximum Credits: 3
The course will focus on the major genres crucial to the understanding of music in American life, both written and unwritten as well as popular, vernacular and classical. Special attention will be given to the results of acculturation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1324 - EUROPEAN AND AMERCN FOLK MUSIC

Minimum Credits: 3
Maximum Credits: 3
This course surveys the folk music traditions of Europe and America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

Minimum Credits: 3
Maximum Credits: 3
This course is designed to familiarize the student with various phases of African-American music existing in North America; blues, gospel-spirituals, work songs, children's games songs, and classical compositions of ragtime composers Scott Jobin, J.P. Johnson, etc. Students will conduct field projects centered around "street recordings, locations, interviews of local and visiting artists, etc." A detailed study of great Pittsburgh performers present and past will constitute a major portion of this course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1327 - GLOBAL HIP HOP

Minimum Credits: 3
Maximum Credits: 3
This seminar analyzes how diverse groups of musicians and listeners use hip-hop to express local and transnational claims of belonging through the appropriation of musical genres identified with the West and with African Americans in particular. A closer reading of global hip-hop practices offers insights into the genre's artistic goals and its social profile in a variety of contexts. Through analyses of locally distinct musical expressions, marketing trends within national and global music industries, and state-sponsored policies relating to hip-hop, this course sheds light on hip-hop's role in constituting cultural and political identities among diverse groups of people in the U.S. And abroad.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1332 - MUSIC IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Mexico, Venezuela, Columbia, Panama, and Peru will be the major countries represented in this general survey of the music of Latin America. The course will be taught in a lecture-discussion format with extensive use made of recordings, slides, and films. Some actual performance of drumming traditions will be included.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1340 - MUSIC IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course examines the historical social and cultural background of music in Africa with particular reference to music in community life, performing groups, the training of musicians, instrument structures in African music, and the interrelations of music and dance. (Slides, films, and recordings will be used to illustrate lectures.)
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1352 - MUSIC IN SOUTHEAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of southeast Asia; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1354 - MUSIC IN EAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of East Asia; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1356 - MUSIC IN THE MIDDL EAST & INDA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of the middle East and India; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1358 - MUSIC IN SOUTH ASIA

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the musical cultures of South Asia; historical, social and cultural background of music, music theory, instruments, and selected musical genres from different countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1360 - GYPSY MUSIC

Minimum Credits: 3
Maximum Credits: 3
Gypsy music has emerged as one of the most popular world music genres in the last two decades. The genre's success on the world stage is closely connected with the Romani (gypsy) minority rights movement, which has strengthened on local, national, and international levels due to increased education opportunities for roam, and more positive representation in the media. The present proliferation and popularization of a great variety of musical styles marketed as 'gypsy' points to the fact that Romani musical expressions draw their musical characteristics from Romani and non-Romani elements. Styles are differentiated according to time, place, and cultural influences with regard to ornamentation, language choice, vocal timbres, and choice of instruments. This course analyzes the musical varieties within genres marketed as 'gypsy' and offers broader political, economic, and historical perspectives on a variety of factors rooted in race, ethnicity, gender, and class relations that have contributed to contemporary understandings of 'gypsy' music
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1362 - ROMANI MUSC CULT & HUMN RIGHTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1364 - MUSIC OF INDIA:THEORY PRACTICE

Minimum Credits: 3
Maximum Credits: 3
History and performance will educate students on several important aspects of Indian music and create an opportunity for them to perform Indian music in an ensemble. The performance repertoire will cover Indian classical, semi-classical and popular music, mainly from North Indian traditions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1394 - INTERCULTURAL MUSIC

Minimum Credits: 3
Maximum Credits: 3
Interculturalism has been described as the process of identifying with or sharing the heritage of other cultures, with a view to broadening one's cultural horizon or one's capacity to understand and appreciate differences in modes of expression. This course will be concerned with issues related to (a) the sharing of similar music resources by different cultures of the world and (b) global migrations of music idioms and how they develop local identities that are not necessarily consistent with their original identities. Students taking the course will gain an understanding of how concepts familiar to them are interpreted by others around the world and how concepts coming from other cultures impact their own. The contents of the course will include readings and audio-visual materials. Methods used in the course will comprise (a) lectures illustrated with audio-visual materials (b) reading assignments (c) listening assignments. The interactive system of lecturing will be used and students will be encouraged to participate actively in class discussion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1396 - MUSIC IN SOCIETY

Minimum Credits: 3
Maximum Credits: 3
"Music in society" is a multi-perspective humanities study of musical activity in the United States. It draws on techniques and perspectives of historical studies, ethnology, music business, and professional concerns to develop a cultural and historical understanding of music in American life. The course focuses on the types of organizations and environments in which music occurs, and the function of the music in the lives of the participants.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1398 - WOMEN & MUSIC CROS-CULTL PERSP

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with music of, by, and about women from a cross-cultural perspective. Topics include, but are not limited to, traditional and ritual music, music as empowerment, sexual aesthetics, women as composers and per formers, and feminist music criticism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1415 - THEORY 5

Minimum Credits: 2
Maximum Credits: 2
Extension and elaboration of the concepts and methods of theory iii and iv, with emphasis on works of greater length, and complexity and on students' individual compositional and performing interests.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1416 - THEORY 6

Minimum Credits: 2
Maximum Credits: 2
Extension and elaboration of the concepts and methods of theory v, with emphasis on works of greater length and complexity and on students' individual compositional and performing interests.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1421 - COMPOSITION 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the craft of musical composition, students receive individual instruction in composition, and usually create works using materials from the "common practice" period studied in MUSIC 0417 and MUSIC 0419. Ability to read music notation fluently.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MUSIC 0417 and MUSIC 0419

MUSIC 1422 - COMPOSITION 2

Minimum Credits: 3
Maximum Credits: 3
Starting from the novel premise that two of the most important considerations for composers are 1) how their music sounds and 2) what listeners hear in it, this course explores strategies to develop, edit and otherwise improve the conception, notation, performance and reception of student's compositions.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MUSIC 1431 - INSTRUMNTATION & ORCHESTRATION

Minimum Credits: 3
Maximum Credits: 3
A survey of different styles of instrumentation and orchestration in the European art music tradition. Focus of the course may change from year to year.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1441 - ELECTRONIC & COMPUTER MUSIC 1

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to composing music in the university of Pittsburgh electroacoustic music studio. Instruction in midi sequencing, introduction to synthesis, sampling, and other digital audio technology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1442 - ELECTRONIC & COMPUTER MUSIC 2

Minimum Credits: 3
Maximum Credits: 3
This course is a continuation of MUSIC 1441. It provides further experience in composing music in the university of Pittsburgh computer and electronic music studio, instruction in the advanced digital audio applications, and hard disk recording and editing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MUSIC 1441

MUSIC 1450 - MUSIC PRODUCTION AND RECORDING

Minimum Credits: 3
Maximum Credits: 3
With the rapid changes taking place in the music industry, it is incumbent that all aspiring musicians and performing artists understand the means and methods of music production and recording. Throughout the semester, students will enjoy (1) hands-on experience, (2) recording projects with guest artists in class, (3) learning simple editing and mastering two-track (stereo) recording, and (4) learning to mix and master multi-track recordings. In-class projects will include actual recording of performers (mainly from the class) with an emphasis on Jazz. Upon completion, students will be able to organize and execute recording sessions of their own. Readings will be assigned throughout the semester; quizzed and individual projects will be used to assess students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

MUSIC 1560 - VOCAL LITERATURE

Minimum Credits: 1
Maximum Credits: 1
This course is a survey of the literature for solo voice. It includes class performance, comparisons of selected recorded performances, and the study of performance styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1562 - PIANO LITERATURE

Minimum Credits: 1
Maximum Credits: 1
The topic of this course changes each term. It usually examines piano pedagogy, literature of individual composers or periods, or performance techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

MUSIC 1564 - THEATRE VOICE

Minimum Credits: 1
Maximum Credits: 1
This course is designed primarily for theatre majors who are interested in developing their vocal technique. It stresses breathing, tone production, projection, and diction. Students prepare and receive coaching on selected songs.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MUSIC 1731 - JAZZ COMPOSITION & ARRANGING 1

Minimum Credits: 3
Maximum Credits: 3
This course develops the students' knowledge of the techniques of jazz-rock composition and arranging. The distinctive features of jazz-rock harmony are studied, and students write arrangements for various instrumental combinations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1732 - JAZZ COMPOSITION & ARRANGING 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of MUSIC 1731. The course develops the student's knowledge of the techniques of jazz-rock composition and arranging. The distinctive features of jazz-rock harmony are studied, and students write arrangements for various instrument combinations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1741 - JAZZ IMPROVISATION 1

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of the techniques of jazz-rock-pop improvisation. Students develop a repertoire of current standards and compose and analyze pieces in several styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1742 - JAZZ IMPROVISATION 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of MUSIC 1741. The course provides an analysis of the techniques of jazz-rock-pop improvisation. Students develop a repertoire of current standards and compose and analyze pieces in several styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

MUSIC 1900 - MUSIC INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The music internship provides majors with opportunities to develop skills in music-related professions. Students are responsible for finding an

appropriate internship that is approved by a faculty member in music who agrees to oversee the student's work. May be taken for 1-3 credits, based on University guidelines relating to internship requirements. A maximum of 3 credits may be applied toward a music major.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

MUSIC 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 3
Independent study is elected by students who are making significant use of university resources in an independent project not related to any regularly offered course. The project is often off campus, but with some guidance from sponsoring faculty member(s).
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

MUSIC 1903 - SPECIAL TOPICS-DIRCTED RSRCH
Minimum Credits: 1
Maximum Credits: 3
This course consists of an individual project, exploring a topic not currently covered by any course offering. The student plans and carries out a research project in conjunction with a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

MUSIC 1904 - SENIOR SEMINAR
Minimum Credits: 3
Maximum Credits: 3
The seminar is required of students wishing to earn a major in music. The topic of the seminar changes, but participants are expected to produce a major research project or other approved project displaying the ability to work independently at an advanced level.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

National Preparedness and Homeland Security

NPHS 1510 - FEDL/INT'L FRMWRK EMRGY PREP
Minimum Credits: 3
Maximum Credits: 3
NPHS 1510 covers overarching frameworks for the federal government's planning and response to crises. These include the National Response Framework (NRF) and the National Incident Management Systems (NIMS), which establishes the Incident Command System (ICS) and the Emergency Support Functions (ESFs). Because the federal government is the interface with foreign governments for events with transnational elements, international aspects of crisis management and the international context for threat assessment are covered in this course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1520 - STATE/LOCAL FRMWRK EMRGY PREP
Minimum Credits: 3
Maximum Credits: 3
All response to crisis begins locally. NPHS 1520 presents ways in which states, regions and localities have implemented response planning for their jurisdictions. It also explores boundaries between federal and state law, and how, for example, decisions are made for evacuation versus sheltering in place. Case studies and models for drafting response plans will be offered and rehearsed, as well as templates for planning and allocation of resources.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1530 - ANAL/DEC TOOLS EMRGY PREPRDNS
Minimum Credits: 3
Maximum Credits: 3
Efforts to professionalize the emergency management workforce include familiarizing the next generation with modern decision support software and analytical tools now used in planning and responding to crises. These include discrete- and agent-based simulation, geographical information systems, pattern recognition, virtual reality and predictive modeling tools. This course will offer introductory experience with these tools in realistic crisis scenarios. NPHS 1530 also will explore realities that are changing the delivery of emergency services to a model based on distributed versus

centralized operations.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1540 - CAPSTONE: EMRGY PREPAREDNESS

Minimum Credits: 3
Maximum Credits: 3
Along the lines of workshops conducted by the Defense Advanced Research Projects Agency (DARPA), the capstone course is dedicated to exploring a variety of solutions to a single, complex, interdisciplinary problem - a "wicked" problem - in emergency management. "Wicked" problems are complex problems for which there is an unlimited number of potential solutions, but choosing among them is difficult because they have huge impacts and there are no immediate or ultimate tests of their worth - they are neither true nor false but good or bad. The "wicked" problem considered in NPHS 1540 may change from term to term to meet emerging demands or class composition.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1800 - PH PREPRDNS EMERGENCY RESPONSE

Minimum Credits: 3
Maximum Credits: 3
This course teaches Undergraduates and post-baccalaureate students about the responsibilities, roles, and functions of public health in disaster planning, mitigation, response, and recovery. All classes use real-life disasters and emergencies as learning modules. The course is divided into 3 modules: module 1 covers the role and function of public health in the United States both historically and with the addition of more explicit disaster preparedness and response functions in recent years. Module 2 covers public health priorities and functions in all major forms of disasters, with a particular emphasis on environmental health emergencies, pandemics, and bioterrorism. Module 3 covers organized and spontaneous response activities, including how communities work together (or not) to deal with a wide variety of threats.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1900 - INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Students registered for NPHS 1900 pursue an internship involving work related to national preparedness and emergency management. Students are responsible for securing internships and a faculty member to sponsor the internship. Students should produce academic work in conjunction with their internship, which the faculty sponsor will evaluate and grade. Faculty permission is required prior to enrollment. Consult an advisor for further information.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

NPHS 1901 - INDEPENDENT STUDY

Minimum Credits: 3
Maximum Credits: 3
Students registered for NPHS 1901 pursue research on a project related to national preparedness and emergency management under the direction of a faculty member. Students develop a study plan with the faculty member, typically working independently on a paper or report, with occasional meetings. Faculty permission is required prior to enrollment. Consult an advisor for further information.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: National Prep & Homeland Secur (CERT-1)

Neuroscience

NROSCI 0030 - BRAIN AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the relations between brain function and overt behaviors. Topics include the control of movement, sensory processing, mechanisms controlling sleep, arousal, and other circadian rhythms, hunger and thirst, learning and memory, the biological bases of neuropsychiatric disorders, and the functioning of the cerebral hemispheres. Many clinical disorders will be discussed including language disorders, amnesia, epilepsy, depression, anxiety, schizophrenia, and Alzheimers disease.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0035 - DRUGS AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide a general background in the fields of neuroscience and psychopharmacology. The course will examine the behavioral effects and biological mechanisms of actions of the major groups of psychoactive compounds, including stimulants, depressants, narcotics, and hallucinogens. Drugs used in the treatment of common psychiatric neurological disorders, such as schizophrenia, depression, and Parkinson's disease, will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0080 - BRAIN AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the relations between brain function and overt behaviors. Topics include: the control of movement, sensory processing, mechanisms controlling sleep, arousal, and other circadian rhythms, hunger and thirst, learning and memory, the biological bases of neuropsychiatric disorders, and the functioning of the cerebral hemispheres. Many clinical disorders will be discussed including language disorders, amnesia, epilepsy, depression, anxiety, schizophrenia, and Alzheimers disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0081 - DRUGS AND BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course provides a general background in the fields of neuroscience and psychopharmacology. The course examines the behavioral effects and biological mechanisms of action of the major groups of psychoactive compounds, including stimulants, depressants, narcotics, and hallucinogens. Drugs used in the treatment of common psychiatric neurological disorders, such as schizophrenia, depression, and Parkinson's disease, will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0082 - DRUGS AND BEHAVIOR

Minimum Credits: 4
Maximum Credits: 4
This is an honors course which provides a general background in the fields of neuroscience and psychopharmacology. The course will examine the behavioral effects and biological mechanisms of actions of the major groups of psychoactive compounds, including stimulants, depressants, narcotics, and hallucinogens. Drugs used in the treatment of common psychiatric neurological disorders, such as schizophrenia, depression, and Parkinson's disease, will be discussed. Experimental design, problem solving and the cellular aspects of drug action will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 0180 - UHC BRAIN & BEHAVR LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This 1-credit honors laboratory will provide students with the opportunity to explore neuroscience topics in greater detail than is possible in the companion lecture course, NROSCI 0080. Students will participate in laboratory brain dissections, discuss modern experimental methods in neuroscience, and examine data from human imaging studies.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

NROSCI 1000 - INTRO TO NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course examines the anatomy, physiology, and pharmacology of the central and peripheral divisions of the nervous system. Specific topics covered include neuronal function, synaptic transmission, sensory processing, movement, sleep and wakefulness, hunger, thirst, caloric and body fluid homeostasis, recovery of function after brain damage, and various neurological and psychiatric disorders.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Requirements: (BIOSC 0150 or 170 or BIOSC 0715 or BIOSC 0190 or BIOL101 or 110) and (BIOSC 0160 or 180 or BIOSC 0191 or BIOSC 0716 or BIOENG 1071 or BIOL102 or 120) and (CHEM101 or CHEM 0110 or CHEM 0710 or CHEM 0760 or CHEM 0960 or CHEM111 or CHEM 0410) and (CHEM 102 or CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0970) or (CHEM 0420 and CHEM 0440) or (CHEM112 and 114); MINGRAD:`C' for listed Courses; LVL:Fr,So,Jr

NROSCI 1003 - UHC INTRO TO NEUROSCIENCE

Minimum Credits: 4
Maximum Credits: 4
This honors course examines the anatomy, physiology, and pharmacology of the central and peripheral divisions of the nervous system. Specific topics include neruonal function, synaptic transmission, sensory processing, movement, sleep and wakefulness, hunger, thirst, caloric and body fluid homeostasis, recovery of function after brain damage, and various neurological and psychiatric disorders. Course includes in-depth discussions of original research articles presented in the general lectures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: (BIOSC 0150 or 170 or BIOSC 0715 or BIOSC 0190 or BIOL101 or 110) and (BIOSC 0160 or 180 or BIOSC 0191 or BIOSC 0716 or BIOENG 1071 or BIOL102 or 120) and (CHEM101 or CHEM 0110 or CHEM 0710 or CHEM 0760 or CHEM 0960 or CHEM111 or CHEM 0410) and (CHEM 102 or CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0970) or (CHEM 0420 and CHEM 0440) or (CHEM112 and 114); MINGRAD`B' for Courses; LVL:Fr,So,Jr; MINGPA 3.25

NROSCI 1011 - FUNCTIONAL NEUROANATOMY

Minimum Credits: 4
Maximum Credits: 4
This course deals with human neuroanatomy and covers the basic structure of the central nervous system from spinal cord to cerebral cortex. Emphasis is placed on major systems and subsystems within the brain, and on their functional significance. The basic structure and morphology of nerve cells will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)

NROSCI 1012 - NEUROPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course examines the functioning of neurons and synapses, the basic units responsible for fast communication within the nervous system. The course focuses on the elegant use of electrical mechanisms by the nervous system, and on the powerful quantitative approach to scientific investigation that is fundamental to neurophysiology. Topics include: principles of electric current flow exploited by the nervous system; the basis of the resting potential of neurons; the structure and function of voltage-gated and neurotransmitter-gated ion channels; the generation and propagation of action potentials; the physiology of fast synaptic communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [NROSCI 1000 (MIN GRADE 'B-') or NROSCI 1003 (MIN GRADE 'B-")] and (CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0960 or 0102 or 0112) and (PHYS 0110 and PHYS 0111 or PHYS 0174 and PHYS 0175) and MATH 0220; PLAN: Neuroscience (BS or MN)

NROSCI 1013 - FUNCTIONAL NEUROANATOMY

Minimum Credits: 4
Maximum Credits: 4
This is an honors course that deals with issues of how we can understand the function of the human brain through the study of neurological diseases. The manifestations of selected neurological diseases are presented and discussed in the context of how they can be analyzed and understood through application of the findings from basic research in neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1014 - SPEAKING OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Students will learn strategies for giving presentations about science to both a scientific audience and a public audience. Topics covered will include 1) how to engage our audience, 2) the art of breaking down your message, 3) tips to make clear, interesting slides, and 4) pointers on presentation style. All audiences want to learn interesting new scientific information, and have it delivered as a good story in an understandable manner by a personable, easy to approach person. Communication skills, including knowing your audience and why they are interested in the information you are speaking about, how to translate scientific jargon into understandable concepts for the public, and how to keep the audience engaged will be discussed. Pointers will be given on answering questions, being conversational, and conveying the "big picture". Students will give a number of presentations in this course and learn to receive and give feedback effectively.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE 'B-'); PLAN: Neuroscience (BS or MN)

NROSCI 1015 - PHYSIOLOGY & CHEMISTRY NEURONS

Minimum Credits: 5
Maximum Credits: 5
The first part of this course will cover the electrical properties of nerve cells and of neuronal communication. The topics to be addressed include the resting potential, voltage- and neurotransmitter-dependent ion channels, action potential generation, and fast synaptic transmission. The second half of the course will examine the chemical processes involved in communication between neurons and their targets. Basic biochemical and morphological characteristics of neuronal transmission will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1016 - PHYSIOLOGY & CHEMISTRY NEURONS

Minimum Credits: 7
Maximum Credits: 7
This is an honors course, involving both lecture and laboratory experiments. The first half of the lecture material covers the electrical properties of nerve cells and of neuronal communication. Topics include the resting potential, voltage- and neurotransmitter-dependent ion channels, action potential generation, and fast synaptic transmission. The second half examines the chemical processes involved in communication between neurons and their targets. In addition, students perform sample experiments and collect data for brief laboratory reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1017 - SYNAPTIC TRANSMISSION

Minimum Credits: 3
Maximum Credits: 3
This course examines the mechanisms by which neruotransmitters are synthesized and released and the biochemistry of synaptic responses. Basic physiological, biochemical, and morphological characteristics of neuronal transmission will be discussed. An emphasis will be placed on the experimental approaches used to examine these processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003; MIN GRADE 'B-' for Listed Courses

NROSCI 1025 - BIOLOGICAL CLOCKS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to examine circadian and circannual clocks as adaptations and to analyze in detail the neural mechanisms of clock function. It would also consider situations in which there are disorders of clock function. Circadian and circannual clocks will be compared with ultradian clocks (those with a period less than 24 hour) which generally function to generate rhythms as local adaptations in specialized tissues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NROSCI 1026 - CLINICAL NEUROPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This is a three credit advanced elective course that will cover the fundamental and basic principles used in the practice of clinical neurophysiology with the goal of providing an overview of both basic science and clinical topics relevant to performing intraoperative neurophysiological monitoring in a surgical setting. Topics will include anatomy and physiology of the motor and sensory systems and the theoretical basis of electroencephalography, sensory and motor evoked potentials, electromyography, transcranial Doppler and compound action potentials. Students will be able to explain the practical applications of these techniques in the diagnosis of nervous system disorders and in the continuous monitoring of the integrity of the human nervous system during surgical procedures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-') and NROSCI 1011 AND NROSCI 1012; PLAN: Neuroscience (BS or MN)

NROSCI 1027 - NEUROSCIENCE PROSEMINAR

Minimum Credits: 2
Maximum Credits: 2

Program graduate students, postdoctoral fellows, and faculty will present an overview of their respective research topics and discussion of current research articles on that topic. Critical analysis of experiments and research is emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)

NROSCI 1030 - PSYCHTRC DISORDERS & BRN FUNCN

Minimum Credits: 3
Maximum Credits: 3
This course examines the neurobiological basis of psychiatric disturbances (including schizophrenia, depression, Parkinson's disease, and Huntingtons chorea). The initial portion presents an overview of basic neuropharmacology, with an emphasis on recent findings of relevance to psychiatric disorders. The major portion consists of lectures on the anatomical, physiological, and neurochemical bases for specific psychiatric disturbances, and the mechanism of action of therapeutic drugs used in their treatment. A strong neuroscience background is required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [NROSCI 1000 (MIN GRADE 'B-') or NROSCI 1003 (MIN GRADE 'B-')] and NROSCI 1011; PLAN: Neuroscience (BS or MN)

NROSCI 1031 - PSYCHTRC DISORDERS & BRN FUNCN

Minimum Credits: 4
Maximum Credits: 4
This is an honors course that examines the neurobiological bases of psychiatric disturbances (schizophrenia, depression, Parkinson's disease, and epilepsy). The first portion presents an overview of basics in neuropharmacology, with an emphasis on recent findings of relevance to psychiatric dis orders. The second portion consists of lectures centering around the anatomical, physiological, and neurochemical basis for specific psychiatric disturbances, and around the mechanism of action of therapeutic drugs. Discussion of original articles correlated with lecture material.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1032 - FNCTNL ORGZTN HUMN NERVOS SYS

Minimum Credits: 3
Maximum Credits: 3
The intent of this course is to examine the biological basis of neurological dysfunction and to use this information to gain further insight into the functional organization of the human nervous system. A disease oriented approach will be used to illustrate localization of function. Well known clinical cases will define the functional consequences of disease or damage to regions of the brain and current information on the mechanisms underlying the disease process or physical damage will be used to provide further insight into the functional alterations that contribute to the deficit.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-') and NROSCI 1011; PLAN: Neuroscience (BS or MN)

NROSCI 1033 - NEURAL BASIS OF VISION

Minimum Credits: 3
Maximum Credits: 3
This course examines the neural basis of visual perception and action. It is divided into four units. The first unit covers methods for studying visual perception and its neural basis and discusses the neural hardware that underlies our ability to see. The second unit covers object recognition, cognitive factors that influence visual perception, and how the way we are planning to use visual information affects the way it is encoded in the brain. Unit three focuses on perceptual decision-making and using visual motion as a model system. We will also touch on some data analysis methods for using psychophysical and neuronal data to figure out how we make decisions based on visual information. The fourth unit will focus on perception of color and depth and on how visual perception develops after birth. Throughout the course, we will focus on what neural mechanisms can tell us about how we perceive the visual world and on how we can design experiments to better understand the relationship between neural mechanisms and perception.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (NROSCI 1000 or NROSCI 1003 (MIN GRADE 'B-')) and NROSCI 1011; PLAN: Neuroscience (BS or MN)

NROSCI 1034 - NEURAL BASIS OF COGNITION

Minimum Credits: 3
Maximum Credits: 3
This advanced elective is designed for students interested in learning about the neural basis of higher order cognitive functions, with an emphasis on cortical mechanisms. Topics will include: occipitotemporal mechanisms of visual perception; parietal mechanisms of spatial attention and vision for action; premotor mechanisms of action planning and movement execution; prefrontal mechanisms of working memory and behavioral control;

hippocampal mechanisms of episodic memory; multimodal integration and cognitive effort.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003 (Min Grad 'B-') and NROSCI 1011; PROG: School of Arts & Sciences; PLAN: Neuroscience (BS or MN)

NROSCI 1035 - CONTROL OF MOVEMENT

Minimum Credits: 3
Maximum Credits: 3
This course will discuss the neural control of our actions in detail, including planning of movement in the cortex, relay of motor commands to the brainstem and spinal cord, coordination of movement by the cerebellum and basal ganglia, adjustment of movement via brainstem and spinal cord reflexes, execution of movement through contraction of muscle fibers, and feedback about movement as mediated by corollary discharge circuits. The focus will be on basic science, supplemented by reviews of clinical issues. Course format will include lectures and discussions of original research papers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1036 - NEUROBIOLOGY OF AGING

Minimum Credits: 3
Maximum Credits: 3
This course examines age-related changes in neurobiological systems, including motor, sensory, cognitive, and neuroendocrine. Emphasis will be placed on distinguishing biochemical, molecular, physiological, and behavioral changes associated with normal aging versus changes associated with pathologic conditions such as Alzheimer's disease. Introductory lectures will discuss different theories of aging, how aging is studied in the laboratory, and how these relate specifically to neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [NROSCI 1000 (MIN GRADE 'B-') or NROSCI 1003 (MIN GRADE 'B-')] and NROSCI 1011; PLAN: Neuroscience (BS or MN)

NROSCI 1040 - BIO BASES OF LEARNING & MEMORY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide an overview on the neural basis of simple learned behavior like classical conditioning. Topics covered include experimental results obtained by anatomical, electrophysiological and biochemical techniques. Emphasis will be placed on research undertaken in invertebrate and vertebrate models, as well as in isolated mammalian preparations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-') and NROSCI 1012 AND NROSCI 1017; PLAN: Neuroscience (BS or MN)

NROSCI 1041 - DEVELOPMENTAL NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide an overview of issues that govern the developmental assembly of a complex nervous system. Topics covered include formation of neural tube and neural crest, birth and proliferation of neurons, cell migration, neuronal differentiation, molecular control of neural development, synapse formation, neuron-target interactions, and synaptic plasticity. These topics will be discussed in the context of experimental results obtained by anatomical, biochemical and electrophysiological techniques using vertebrate and invertebrate animals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS or MN)

NROSCI 1042 - NEUROCHEMICAL BASIS BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course will include didactic lectures on behavioral and neurochemical methodologies, neurotransmitter systems and intracellular signaling pathways, and how the function of these systems contributes to complex behaviors. The purpose of the course is to present students with a comprehensive synopsis of classical psychopharmacological and neurochemical approaches as well as recent molecular methods that can be used to study brain mechanisms in behaviorally relevant contexts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-') and NROSCI 1011 and (CHEM 0206 or 0231 or CHEM 0310 or CHEM 0730); PLAN: Neuroscience (BS or MN)

NROSCI 1043 - NEURAL PLASTICITY

Minimum Credits: 3
Maximum Credits: 3
This class is designed to establish conceptual and technical foundations for students who are interested in plasticity-associated neuroscience. Whereas the class will go through major findings in the plasticity field, the emphasis will be placed on why these findings are important, how these findings were made, and what challenges/debates these findings trigger.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-'); PLAN: Neuroscience (BS or MN)

NROSCI 1045 - TOPICS IN NEUROSCIENCE

Minimum Credits: 1
Maximum Credits: 6
Flexible subject matter oriented to special topics of interest to the faculty.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (NROSCI 1000 or NROSCI 1003); MIN GRAD: 'B-' for all listed Courses; PROG: School of Arts and Sciences

NROSCI 1046 - TOPICS IN NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NROSCI 1000 (MIN GRADE: 'B-') or NROSCI 1003 (MIN GRADE: 'B-'); PLAN: Neuroscience (BS or MN)

NROSCI 1047 - TOPICS IN NEUROSCIENCE

Minimum Credits: 2
Maximum Credits: 2
Flexible subject matter oriented to special topics of interest to the faculty.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: NROSCI 1801; PLAN: Neuroscience (BS or MN)

NROSCI 1048 - UHC TOPICS IN NEURSC RESEARCH

Minimum Credits: 2
Maximum Credits: 2
The goal of this course is to learn how to read articles in the field of neuroscience. Assigned readings are the original articles based on laboratory research that provided the source of information concerning three topics: neuroplasticity, hunger and the brain's control of food intake, and thirst and the brain's control of fluid intake.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NROSCI 1049 - RESEARCH TOPICS NEUROSCIENCE

Minimum Credits: 1
Maximum Credits: 1
This course is required for all newly declared majors. This course will provide students with an overview of research conducted by neuroscience faculty and familiarize students with potential research topics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003; MIN GRADE: 'B-' for listed courses; PLAN: Neuroscience (BS); LEVEL: SOPHMORE, JUNIOR, SENIOR

NROSCI 1050 - INTRO APPLIED STATISTICS

Minimum Credits: 4
Maximum Credits: 4
An applied statistics course intended to teach students how to describe and analyze experimental data in the field of neuroscience. Topics include data description; exploratory data analysis; sampling; estimation; regression and hypothesis testing using student's t test, analysis of variance, and

selected nonparametric tests including the Mann-Whitney u test and chi-square. Students will use research caliber mini and microcomputer statistical software for data analysis. Course examples, case studies and homework problems will be chosen primarily from the field of neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1052 - NEUROPHYSIOLOGY LABORATORY

Minimum Credits: 2
Maximum Credits: 2
Designed to give "hands on" experience with some of the more important neurophysiological preparations and procedures which are described in the neurophysiology lecture course (1012). Experiments will include: (1) examination of the ionic basis of the resting potential (2) computer-based simulation of action production (3) measurement of action potential conduction velocity (4) intracellular recording of synaptic potentials and (5) determination of the neurotransmitter functioning at a specified synapse. Students will also design & conduct a small neurophysiological experiment.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

NROSCI 1070 - HUMAN PHYSIOLOGY-UHC

Minimum Credits: 4
Maximum Credits: 4
Lectures and reading on the following: (1) functions of the cardiovascular system; (2) respiration; (3) digestion and absorption in the gut; (4) kidney function and the regulation of body fluids; (5) the regulation of metabolism; and (6) reproduction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0960)

NROSCI 1074 - BIOCHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
The course covers the important concepts of modern bio chemistry. Chemical background for an understanding of the macromolecular components of living systems will be reviewed. Relationship between chemical structure and biological function will be emphasized, as will bio chemical energetics and the transmission of biological information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NROSCI 1097 - UNDERGRAD TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 2
This course is intended for neuroscience majors who wish to assist faculty in the teaching of a NROSCI core course or a NROSCI advanced elective. Students and faculty meet regularly to discuss the important topics for each week and effective teaching techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

NROSCI 1111 - FUNCTNL NEUROANAT HONORS PRAC

Minimum Credits: 2
Maximum Credits: 2
This is an honors course that supplements NROSCI 1011 by using several approaches to study the functional organization of the nervous system. Examples of such approaches are studying human and animal brain material and discussing important original papers in neuroanatomy.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE 'B-'); PLAN: Neuroscience (BS or MN)

NROSCI 1134 - NEURAL BASIS OF COGNITION-UHC

Minimum Credits: 1
Maximum Credits: 1
The honors section of NROSCI 1034 will provide advanced undergraduates with the opportunity to explore selected topics in cognitive neuroscience in depth. Topics will include the neural basis of object vision, spatial representation, attention, memory and executive function. Students will read primary sources and gain experience in discussing original research papers.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

NROSCI 1140 - BIO BASIS LEARNING MEMORY-UHC

Minimum Credits: 4
Maximum Credits: 4
This course is designed to provide an overview on the neural basis of simple learned behavior like classical conditioning. Topics covered include experimental results obtained by anatomical, electrophysiological and biochemical techniques. Emphasis will be placed on research undertaken in invertebrate and vertebrate models, as well as in isolated mammalian preparations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE 'B-')) and NROSCI 1012 and NROSCI 1017; PLAN: Neuroscience (BS or MN); Cumulative Grade Point Average 3.25 or better

NROSCI 1250 - HUMAN PHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course begins with a general introduction on cell biology, physiology of nerves and muscle, and intercellular communication. The course will then survey the function of the following systems: cardiovascular, respiratory, renal, and gastrointestinal. Each system discussed will be integrated into the larger function of homeostasis, emphasizing its adaptation during pathology and challenges (e.g., Exercise). The formal lectures will be supplemented by a required recitation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0960)

NROSCI 1410 - TRANSLATING SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Students will work in creative teams of 2-3 students/team to develop creative new outreach tools for communication of science to the public (new lectures, videos, films, activities). At the beginning of the semester, didactic lectures will cover background information about how to effectively communicate scientific information, how to break down a message, production of effective engaging slides, animations and videos, and the use of hands-on activities to engage the audience. Guest speakers with expertise in film, video and use of museum exhibits will be included. Students will then choose a topic area they wish to create an outreach lecture/video/etc. In, and with the assistance of dr. Cameron will choose a scientific advisor with specific expertise on the topic for which an outreach tool will be developed. Students will do background reading for the development of their outreach tool and have discussions with their advisor. If developing a lecture, students will develop a set of PowerPoint slides for the lecture, the lecture text with background references, and hands-on activities to complement the lecture for both a junior high and high school version of the lecture. They will present the lecture to one of the grade levels for which it was designed. For other activities, the activity will be developed along with background information regarding the use of the activity. The activity will be presented to a public group.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NROSCI 1000 or NROSCI 1003 (BOTH MIN GRADE 'B-') and NROSCI 1014; PLAN: Neuroscience (BS or MN)

NROSCI 1800 - NEUROSCIENCE/WRITING PRACTCM 1

Minimum Credits: 1
Maximum Credits: 1
This course is restricted to neuroscience majors & minors and fulfills the writing requirement for the major. It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience using topics from an appropriate co-requisite neuroscience course taken in the same term.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ENGCMP 0200 or ENGCMP 0201) or (FP 0003); CREQ: NROSCI 1014 or NROSCI 1026 or NROSCI 1030 or NROSCI 1032 or NROSCI 1034 or NROSCI 1036 or NROSCI 1040 or NROSCI 1041 or NROSCI 1042; PLAN: Neuroscience (BS or MN)

NROSCI 1801 - NEUROSCIENCE/WRITING PRACTCM 2

Minimum Credits: 1
Maximum Credits: 1
This course is restricted to neuroscience majors & minors and fulfills the writing requirement for the major. It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience using topics from an appropriate co-requisite neuroscience course taken in the same term.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: (ENGCMP 0200 or ENGCMP 0201) or (FP 0003); CREQ: NROSCI 1014 or NROSCI 1026 or NROSCI 1030 or NROSCI 1032 or NROSCI 1034 or NROSCI 1036 or NROSCI 1040 or NROSCI 1041 or NROSCI 1042; PLAN: Neuroscience (BS or MN)

NROSCI 1816 - PHYSLGY CHEM NEURONS/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the university honors college course, "physiology and chemistry of neurons". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of physiology and chemistry of neurons.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

NROSCI 1820 - HOMEOSTASIS/WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "homeostasis". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of homeostasis.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

NROSCI 1825 - BIOLOGICAL CLOCKS/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "biological clocks". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of biological clocks.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

NROSCI 1830 - PSYTRC DIS BRN FUNCN/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "psychiatric disorders and brain function". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of psychiatric disorders and brain function.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

NROSCI 1832 - FUNCT ORGANIZATION/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "functional organization of the human nervous system". It includes extra emphasis on and credit for in struction in proper writing for the discipline of neuroscience, using topics taken from the area of the functional or ganization of the human nervous system.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

NROSCI 1840 - BIO BASES LRNG MEMRY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "biological bases of learning and memory". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of the biological bases of learning and memory.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

NROSCI 1841 - DEVELOPMNTAL NEURSC/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the advanced elective "developmental neuroscience". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics taken from the area of developmental neuroscience.
Academic Career: UGRD

Course Component: Practicum
Grade Component: Satisfactory/No Credit

NROSCI 1900 - INTERNSHIP EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Students may earn 1-3 credits for approved, supervised field experiences related to neuroscience. A faculty sponsor must agree to provide and review academic assignments related to the practical experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

NROSCI 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
This course involves student participation in neuroscience research supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed. This course is particularly valuable for students interested in graduate study of neuroscience.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

NROSCI 1902 - INDEPENDENT STUDY/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This practicum is the special writing course for the under graduate research course, "independent study". It includes extra emphasis on and credit for instruction in proper writing for the discipline of neuroscience, using topics appropriate to the research being conducted.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

NROSCI 1903 - INTERNSHIP CAPSTONE

Minimum Credits: 3
Maximum Credits: 6
Students may earn 1-3 credits for approved, supervised field experiences related to neuroscience. A faculty sponsor must agree to provide and review academic assignments related to the practical experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

NROSCI 1961 - THESIS RESEARCH

Minimum Credits: 1
Maximum Credits: 6
This course involves independent neuroscience research leading to the preparation and defense of a written thesis. This course involves student participation in neuroscience research supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

NROSCI 1962 - THESIS RESEARCH/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This course involves writing a thesis based on independent neuroscience research that is supervised by a faculty member of the department of neuroscience or some other department in which neuroscience research is performed.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

NROSCI 2014 - SPEAKING OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Fulfills neuroscience advanced elective requirement. You will learn strategies for giving presentations about science to both a scientific audience and a public audience. Topics covered will include (1) how to engage your audience, (2) the art of breaking down your message, (3) tips for how to make clear, interesting slides, and (4) pointers on presentation style. All audiences want to learn interesting new scientific information, and have it delivered as a good story in an understandable manner by a personable, easy to approach person. You want to emphasize your message, stay focused,

and convey the importance of your message while being interesting, maintaining the attention of the audience and making the learning process enjoyable. Guest speakers will provide background information about various uses of scientific information in the public domain. Communication skills, including knowing your audience and why they are interested in the information you are speaking about, how to translate scientific jargon into understandable concepts for the public, and how to keep the audience engaged will be discussed. Pointers will be given on answering questions, being conversational, and conveying the "big picture". Students will give a number of presentations in this course and learn to receive and give feedback effectively.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Neuroscience (PhD) or Neurobiology (PhD)

NROSCI 2410 - TRANSLATING SCIENCE
Minimum Credits: 3
Maximum Credits: 3
Students will work in creative teams of 2-3 students/team to develop creative new outreach tools for communication of science to the public (new lectures, laboratories, videos, films, activities). At the beginning of the semester, didactic lectures will cover background information about how to effectively communicate scientific information, how to break down a message, production of effective, engaging slides, animations and videos, and the use of hands-on activities to engage the audience. Guest speakers with expertise in film, video and use of museum exhibits will be included. Students will then choose a topic area they wish to create an outreach lecture/video/etc. In, and with the assistance of dr. Cameron you will choose a scientific advisor with specific expertise on the topic you will develop an outreach tool for. Students will do background reading for the development of their outreach tool and have discussions with their advisor. If developing a lecture, students will develop a set of PowerPoint slides for the lecture, the lecture text with background references, and hands-on activities to complement the lecture for both a junior high and a high school version of the lecture. They will present the lecture at one of the grade levels it was designed for. For other activities, the activity will be developed along with background information regarding the use of the activity. The activity will be presented to a public group.
Academic Career: GRAD
Course Component: Lecture
Grade Component: GradLG/SU3

Nursing

NUR 0001 - FRESHMN SEMINAR - NUR STUDENTS
Minimum Credits: 0
Maximum Credits: 0
This course is designed to provide beginning nursing students with an overview of the nursing profession and an introduction to the school of nursing. The purpose of the course is to facilitate the students' adjustment to the university environment and to acquaint them with the skills and resources available to promote success.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: School of Nursing students only.

NUR 0002 - NSG ANATOMY & PHYSIOLOGY LAB 1
Minimum Credits: 1
Maximum Credits: 1
This laboratory course is designed to provide students with hands-on experience related to the anatomy and physiology of the human body. Laboratory sessions complement the lecture component of NUR 0012. Laboratory instruction emphasizes structure and how it relates to function and the maintenance of homeostasis in the whole body.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 0012

NUR 0003 - NSG ANATOMY & PHYSIOLOGY LAB 2
Minimum Credits: 1
Maximum Credits: 1
This laboratory course is designed to provide students with hands-on experience related to the anatomy and physiology of the human body. Laboratory sessions complement the lecture component of NUR 0013. Laboratory instruction emphasizes structure and how it relates to function and the maintenance of homeostasis in the whole body.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0002; CREQ: NUR 0013

NUR 0005 - HONORS FRESHMAN SEMINAR
Minimum Credits: 1
Maximum Credits: 1

Using a flexible format, this course is designed to provide beginning nursing students with an overview of the University Honors College and the honors track within the school of nursing. The purpose of this course is to facilitate the students' exposure to the University of Pittsburgh Honors College environment, and to acquaint them with the opportunities and resources that are available to promote success in the honors track in the school of nursing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis

NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to present students with a basic foundation in normal human anatomy and physiology. Topics covered are: cell physiology, histology, integumentary, skeletal, muscular, nervous and sensory systems. Emphasis is on the interaction of structure and function and the mechanisms which maintain homeostasis in the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2

Minimum Credits: 3
Maximum Credits: 3
This course is designed to present students with a basic foundation in normal human anatomy and physiology. Body systems covered include: endocrine, cardiovascular, respiratory, digestive, urinary, reproductive, and embryological development. Emphasis is on the interaction of structure and function and the mechanisms which maintain homeostasis in the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 0012

NUR 0020 - PATHOPHYSIOLOGC FNDTNS NUR CRE

Minimum Credits: 4
Maximum Credits: 4
This course will examine mechanisms that produce disease and injury, the ways in which the body responds to these mechanisms, and the clinical manifestations produced by the body's response.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0013

NUR 0031 - MICROBIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This lecture course will introduce students to the basic properties of bacteria, archaea, eukaryotic microorganisms and viruses, with an emphasis on bacteria. The diversity within the microbial world will be emphasized, as well as their relevance to the health and diseases of humans. Approaches for controlling the growth of microbes in the environment and for preventing the spread of infectious diseases will also be discussed. In addition, students will also become familiar with host-microorganism interactions and host-immune responses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 0032; PROG: School of Nursing

NUR 0032 - MICROBIOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This laboratory course will provide students with hands-on experience in terms of the techniques used to detect, grow, isolate and identify microorganisms.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PROG: School of Nursing

NUR 0051 - INTRO PROFESSIONAL NURSING

Minimum Credits: 3
Maximum Credits: 3
This course provides a broad overview and synthesis of the issues and trends most relevant to the practice of professional nursing. Historical, contemporary and potential influences on professional nursing practice are reviewed. An emphasis on the unique and varied roles of nurses in today's

interdisciplinary health care environment are examined within the context of individual, family, community, and global health. Characteristics and major changes in health care delivery systems (federal, state, and local) are discussed. Components of professional nursing values and core practice competencies are presented. The concept of an evidence-based approach to clinical practice is introduced. Critical thinking strategies are introduced in the context of the nursing process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0062 - NUTRITION FOR HEALTH PROMOTION

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nutrition in nursing practice for the promotion and maintenance of health for human beings throughout the life cycle. Food needs for energy and the major nutrients are considered for the promotion of health. Emphasis is placed on nutrition assessment and interventions in relation to the dietary guidelines for Americans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0063 - THERAPEUTIC NUTRITION

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nutrition in nursing practice for the restoration and maintenance of health for human beings throughout the life cycle. Enteral and parenteral sources 0f energy and major nutrients will be considered for persons in institutional and home care settings. Emphasis is placed on nutrition assessment and interventions for persons with short or long term disruptions of health status in relation to current research in therapeutic nutrition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0064 - NURSING CARE OF THE ELDERLY

Minimum Credits: 5
Maximum Credits: 5
This course focuses upon the role of the nurse in restoring and maintaining the health of elderly persons. Content pertaining to related theories, sociocultural influences and health care resources are included. Emphasis is on promoting the optimal functioning of elderly persons experiencing selected alterations in mobility, stimulation, affiliations, integrity and ingestion/egestion through the use of the nursing process, critical thinking and decision making. Opportunities will be provided for consultation, health teaching collaboration and utilization of research findings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0066 - NUTRITION FOR CLINCAL PRACTICE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on nutrition for clinical practice for nurses. Food for energy and the major nutrients are considered for the promotion of health and for medical nutrition therapy for selected disruptions of health. Emphasis is placed on nutrition assessment and interventions in relation to the goals of the current healthy people document and dietary guidelines for Americans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NUR 0067 - NSG RES: INTRO CRITL APPRL EBP

Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course is to assist students in becoming intelligent consumers of research to provide the basis for evidence-based practice and provision of culturally-congruent care. Students gain an understanding of the application of quantitative and qualitative research processes to the development of nursing knowledge and the contributions of research to the evidence base of nursing practice. Students are expected to implement the steps of evidence based practice. Students are to identify clinical problems and search the literature for information about the problem. Students are expected to critically appraise research articles, distinguish between useful, valid research and that which cannot or should not be applied to nursing practice.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0080 or NUR 0081

NUR 0070 - INTRO PROF ROLE & HLTH PROMO

Minimum Credits: 4
Maximum Credits: 4
The student will be introduced to the profession of nursing from historical and contemporary perspectives. The role of the professional nurse and the nursing process including critical thinking and decision making will be included. This course will also provide the student with a knowledge base for the promotion of health throughout the life-span. Focus is on the health education aspect of the professional nursing role. By health teaching a referral, when appropriate, the student will intervene to promote the health of children in ambulatory & other community settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0071 - INTRO TO PROFESSIONAL NURSING

Minimum Credits: 2
Maximum Credits: 2
The student will be introduced to the profession of nursing from historical and contemporary perspectives. The role of the professional nurse and use of the nursing process, including critical thinking and decision-making, will also be introduced. A brief description of the school of nursing's organizing framework and an overview of the health care de livery system will be given. Characteristics of nursing as a profession will be identified and selected theories will be critically examined for their applicability to nursing practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 0073 - NUTRITION AND HEALTH

Minimum Credits: 4
Maximum Credits: 4
This course focuses on nutrition in nursing practice for the adult learner. Nutrition for the promotion, restoration and maintenance of health for human beings throughout the life cycle will be explored. Emphasis is placed on nutrition assessment and interventions in relation to the dietary guidelines for Americans and for persons with short and long term disruption of health in relation to current research in therapeutic nutrition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0074 - NURSING CRE ELDERLY WELL & ILL

Minimum Credits: 4
Maximum Credits: 4
Focuses on the role of the nurse in promoting, restoring, and maintaining the health of elderly persons. Content pertaining to related theories, sociocultural influences, and health care resources is included. Emphasis is on promoting health and optimal functioning of elderly persons with selected alterations in mobility, stimulation, affiliations, integrity, ingestion, and elimination through the use of the nursing process. Opportunities will be provided for health teaching, consultation, and collaboration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 0075 - NSG METH ASSMNT & PSYMTR SKILS

Minimum Credits: 5
Maximum Credits: 5
This course provides students with the beginning knowledge and skills for health assessment and initial cognitive and manipulative components of psychomotor skills used when providing nursing care for individuals throughout the lifespan. Nursing process, critical thinking and decision making serve as the framework for acquisition of health assessment and psychomotor skills. Through active laboratory participation the student will demonstrate self-direction as a learner.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0076 - FOUNDTNS OF NURSING PRACTICE 1

Minimum Credits: 5
Maximum Credits: 5
This course focuses on concepts of communication, therapeutic intervention, and decision-making as related to the nursing process. Techniques of

assessment of physical, psychological, sociocultural, and developmental dimensions of the individual will be explored. Variations based on age, social condition, and culture will be discussed. Emphasis will be placed on therapeutic interventions, health assessment, and health promotion. Skill acquisition will involve initial manipulative component of psychomotor skills used to provide basic nursing care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 0077 - NUR MGMT ADULT ACUTE/CHRONIC

Minimum Credits: 6
Maximum Credits: 6
This course focuses on the nursing care of hospitalized adults with acute/chronic illnesses. Students will be guided in critical thinking exercises and use of therapeutic nursing interventions. Students will care for patients who require medical/surgical treatments and who are not experiencing a complicated illness course. Nursing management of persons with selected alterations in human functioning will be stressed. Clinical experiences will be in community hospitals and institutions affiliated with the university of Pittsburgh medical center.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 0080 - FOUNDATIONS OF NURSING PRACT 1

Minimum Credits: 4
Maximum Credits: 4
This course focuses on the concepts of communication, therapeutic intervention, and decision-making as they relate to the nursing process. Techniques of assessment of the physical, psychological, and developmental dimensions of the individual are explored through a variety of learning strategies. Variations of expected findings based on influences such as age, social condition, and culture are discussed. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 0003 and NUR 0051; CREQ: NUR 0020 and NUR 0087

NUR 0080C - FNDTNS OF NURSING PRAC 1 CLNCL

Minimum Credits: 2
Maximum Credits: 2
This course is designed to provide clinical experiences related to the theory provided in Foundations of Nursing Practice 1. Techniques used in the assessment of the physical, psychological and development dimensions of the individual within an acute care setting are demonstrated. Variations of findings based on influences such as age and culture are identified. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 0080

NUR 0081 - FOUNDATIONS OF NURSING PRACT 2

Minimum Credits: 2
Maximum Credits: 2
This course builds on the fundamental skills learned in NUR 0080. The focus is on direct practice and correct manipulation of equipment during the performance of psychomotor skills. During laboratory sessions, students will have the opportunity to practice simulated clinical skills. The nursing process and clinical reasoning will serve as the framework for decision-making during skill performance. Through active laboratory participation, the student will demonstrate self-direction as a learner.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 0080; CREQ: NUR 0082

NUR 0082 - NUR MGT ACUT/CHRNC HLTH PROBS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of knowledge for the management of patients. Societal and cultural influences will be emphasized.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0020 and NUR 0080 and NUR 0087; CREQ: NUR 0081 and NUR 0082C

NUR 0082C - NUR MGT ACUT/CHRNC HLTH PROBS

Minimum Credits: 4
Maximum Credits: 4
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults with acute and/or chronic illnesses. During clinic, students will have the opportunity to practice clinical skills learned in the lab. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Common concepts of care will be emphasized, including societal and cultural influences.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 0082

NUR 0086 - NURSING INFORMATICS

Minimum Credits: 2
Maximum Credits: 2
This course focuses on concepts relevant to the practice of nursing informatics. The course emphasizes information technology applications and the principles of nursing informatics from a current and historical perspective. Learners will examine the analysis of healthcare data and its transformation to nursing knowledge. Nursing language concepts and their importance in clinical information system development will be identified. Learners will examine information technologies that manage clinical information and support patient care. Social and ethical issues in the context of clinical information systems will be examined. The impact of evolving/emerging information technologies on healthcare provider and consumer roles will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0087 - PHARMACOLOGY AND THERAPEUTICS

Minimum Credits: 3
Maximum Credits: 3
Examination of the major categories of pharmacologic agents and application of pharmacologic concepts to clinical nursing practice. Emphasis is placed on understanding the physiologic actions of the drugs, expected patient responses, major side effects, and implications for nursing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CHEM 0910 and NUR 0013 and (NUR 0031 or ORBIOL 0031)

NUR 0088 - INTRO TO BASIC STATSTC FOR EBP

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to descriptive statistics and parametric and nonparametric statistical tests that are commonly used by researchers in the health sciences and appear in published research reports. Emphasis is placed on student mastery of concepts and principles that are fundamental to descriptive and inferential statistics, as well as interpretation and critical appraisal of their use in research studies. Opportunities are provided to manipulate data, perform basic statistical tests, and summarize findings in tabular, graphical, and narrative form.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 0155 - CONTEM ISSUES CROS CULTL HLTH

Minimum Credits: 3
Maximum Credits: 3
Purpose of course is to increase awareness of how the delivery and acceptance of health care may be influenced by social, cultural, and environmental factors. It will provide an overview of how these factors influence a person's response to stressors, daily health and living needs. Goal is to help students increase their understanding of culturally congruent care by utilizing cultural concepts, theories, and research. Students will analyze factors that facilitate/ hinder communication about health needs, acceptance of the health care regimen, and access to health care systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1021 - ADVNCD CLINCAL PROBLEM SOLVING

Minimum Credits: 5
Maximum Credits: 5
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through classroom and clinical activities. Professional competence is enhanced through the utilization of high fidelity human simulation technology. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

NUR 1021C - ADV CLIN PROB SOLV CLIN

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1121

NUR 1037 - CLINICAL PROBLEM SOLVING

Minimum Credits: 3
Maximum Credits: 3
The focus of this course is on the integration of major nursing concepts that have been taught throughout the nursing curriculum. Synthesis of this theoretical know ledge will then be applied to clinical problem solving and decision making in a wide range of health related problems that clients experience through the life continuum. Factors that influence clinical problem solving will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1040 - PROBLEM BASED LEARNING

Minimum Credits: 3
Maximum Credits: 3
Problem based learning will be utilized as an innovative individual and group teaching strategy. Problems will be offered to students to enhance the application of pathophysiology to actual patient clinical situations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: School of Nursing students only.

NUR 1045 - NURS CARE CRITICALLY ILL ADLTS

Minimum Credits: 3
Maximum Credits: 3
The course is designed to provide the senior student an opportunity to pursue in-depth knowledge of problems commonly experienced by critically ill patients and their significant others. Emphasis is placed on stressors encountered in the critical care environment, current treatment modalities and their rationale based on the physiology of multi-system failure. Students will have the opportunity to participate in implementing steps of the nursing process with the guidance and assistance of a critical care nurse preceptor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1046 - STUDENT NURS INTRNSHIP PROGRAM

Minimum Credits: 3
Maximum Credits: 3
The focus of this course is on the implementation of previously learned clinical skills. Introduction of time management in priority setting related to patient care will be implemented with the use of preceptors. Emphasis will be on improving clinical judgement skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1049 - NUR PROC AND THE ADDCTD PERSON

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the synthesis of knowledge related to the development and progression of addiction in all forms including alcoholism, drug abuse, cigarette smoking, overeating, and others. Emphasis will be on the application of nursing process with individuals, families, and groups at all levels of prevention.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1050 - NUR CRE MTHRS, NEWBRNS & FMLYS

Minimum Credits: 2
Maximum Credits: 2
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbearing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0066 and NUR 0082 and NUR 0087

NUR 1050C - NUR CARE MTHRS NB & FAML CLIN

Minimum Credits: 2
Maximum Credits: 2
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbearing. Clinical experiences reflect a diversity of settings including outpatient, inpatient, and community programs that provide services to the childbearing family.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1050

NUR 1051 - NUR ADLT EXPERNG CARDC ARRHYTM

Minimum Credits: 3
Maximum Credits: 3
Course focuses on nursing care of adults with cardiac arrhythmias. Critical decision making and nursing responsibilities with respect to electrocardiographic interpretation and the institution of prescribed treatment are addressed. Emphasis is placed on the fundamentals of basic electrocardiography including arrhythmia classification, recognition and etiology. Knowledge of the anatomy and physiology of the heart including coronary blood flow are synthesized and applied to the interpretation of cardiac conduction disturbances along with nursing implications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1052 - NUR CARE CHILD & THEIR FMLYS

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the unique health and developmental needs of infants, children and adolescents with an emphasis on family-centered care. The course incorporates principles of assessment, planning and implementation of nursing interventions appropriate for health promotion, wellness, health restoration and various complex health problems. Nursing approaches are based on the use of best evidence, developmental perspectives, and cultural competence with a focus on critical thinking.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0066 and NUR 0082 and NUR 0087

NUR 1052C - NUR CRE CHILD/THEIR FMLYS CLIN

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nursing practice for restoration and maintenance of health in children in various stages of development within their families and the broader social contexts in which children grow and develop. Nursing approaches used in the clinical setting are based on the use of best

evidence, developmental perspectives, and cultural competence. The nursing process is applied to the child and family to minimize the effects of stressors which have resulted in a disruption of health. There is an emphasis on critical thinking and decision making as the student applies theory to nursing care.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1052

NUR 1054 - NURSING CARE OF OLDER ADULTS

Minimum Credits: 2
Maximum Credits: 2
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessment, and individualized and evidence-based care for older adults across a continuum of health care settings. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 0082; PROG: School of Nursing

NUR 1054C - NUR CARE OF OLDER ADULTS CLIN

Minimum Credits: 1
Maximum Credits: 1
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessment, and individualized care for older adults across a continuum of health care settings. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1054

NUR 1060 - NUR CARE CLIENTS PMH PROBLEMS

Minimum Credits: 2
Maximum Credits: 2
This course is designed to teach basic psychiatric mental health nursing concepts and their application to clinical practice. Classroom learning is focused on developmental, psychological, and biological theories in order to enhance understanding of psychiatric illness. Major psychiatric illnesses throughout the lifespan as well as contemporary methods of treatment are addressed. Emphasis is placed on understanding the unique contributions of social and cultural factors to mental health.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0066 and NUR 0082 and NUR 0087; CREQ: NUR 1120

NUR 1060C - NUR CARE CLIENTS PMH PROB CLIN

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nursing practice of health promotion and restoration in individuals with mental health problems. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1060

NUR 1061 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study is a student-initiated experience planned to permit students to pursue an area of interest in nursing with guidance of a faculty preceptor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

NUR 1064 - GERONTOLOGICAL NURSING

Minimum Credits: 5
Maximum Credits: 5
This course focuses upon the role of the nurse in promoting, restoring, and maintaining the health of elderly persons. Content pertaining to related theories, sociocultural influences and health care resources is included. Students apply the nursing process (a) in health promotion activities with elderly persons in the community, and (b) to selected alterations related to chronic health problems of elderly in a nursing home setting and in homes of persons with Alzheimer's disease. Opportunities will be provided for consultations, health teaching, and collaboration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1067 - ENHANCED COMMUNICTN PROF NUR

Minimum Credits: 2
Maximum Credits: 2
Course is designed to provide info about basic principles of effective communication in the practice of professional nursing. Units of content and learning activities focus on writing skills, presentation skills, communication as an image builder, barriers to effective communication in the workplace, and strategies for enhancing communication in the healthcare environment. Frequent opportunities for skill development and practice are provided. The goal is to enhance the proficiency of the professional nurse in a variety of situations that require effective communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1070 - INTRO TO NURSING SCIENCE

Minimum Credits: 2
Maximum Credits: 2
This course provides the adult student with an introduction to the scientific and theoretical basis of professional nursing. Historical influences through contemporary influences on nursing as an applied science are examined. Specific theories of nursing, physiology, and psychology along with research findings, which serve as the scientific basis of nursing practice, are analyzed. The roles of the professional nurse as advocate, educator, researcher, and change agent are examined within the context of the changing health care system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1072 - HEALTH PROMTN/HEALTH ASSESSMNT

Minimum Credits: 3
Maximum Credits: 3
This course presents the knowledge base for using health promotion strategies and the techniques for health assessment of individuals across the life span. The role of the nurse in promoting patterns of positive health behaviors is emphasized. The student is also provided with an opportunity to practice physical assessment skills in the laboratory and in a precepted clinical setting. In addition, the course facilitates the RN learner's adjustment to the expectations of the multiple role learner.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1070; PROG: School of Nursing

NUR 1073 - COMMUNITY HEALTH NURSING

Minimum Credits: 5
Maximum Credits: 5
This course will provide learning experiences which focus on the role of the community health nurse in working with individuals, families, and groups in a variety of community settings. Students will explore community issues such as community assessment, screening, epidemiologic concepts and factors which influence the delivery of community health services. Health care needs of selected groups in the community will also be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1074 - PROF DVLP AND PRACTICUM 1

Minimum Credits: 3
Maximum Credits: 3
This course enables the registered nurse student to further develop critical thinking, leadership abilities, communication and decision-making skills in the development and implementation of an evidence-based clinical capstone project to enhance patient care quality. A systematic approach is used to

identify a clinical topic for evidence-based literature review, presentation, and evaluation. Each student identifies specific learning activities for the practicum, which relate directly to a selected culturally diverse environment. Under the guidance of faculty and a clinical preceptor, didactic seminars, assignments, and mentored clinical practicum are used to foster independence and self-direction for all students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0067 or 2000 or 2001

NUR 1075 - PROFESSIONAL NURSING ROLE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on enabling the student to synthesize knowledge about the professional nursing role within the health care delivery system. Theory related to leadership and management in nursing will be presented. Health care policy and nursing practice issues will also be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1077 - SCHOOL NURSE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania; both the theory component (NUR 1077) and the practicum (NUR 1078) are required for eligibility. The role of the school nurse is explored through the historical, legal, ethical, research and practice perspectives. The biological, physical, developmental, behavioral, cultural and psychosocial needs of children of all ages in the school setting are examined. Throughout the course, current evidence related to school nursing and Pennsylvania educational requirements is applied to the health needs of school age children, including those with special health and learning needs, the culturally diverse and English language learners (ell's). The independent and collaborative aspects of the school nurse role are explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1078; PROG: School of Nursing

NUR 1078 - SCHOOL NURSE PRACTICUM

Minimum Credits: 3
Maximum Credits: 3
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania; both the theory component (NUR 1077) and this practicum (NUR 1078) are required for eligibility. This course provides the required 100 hours of clinical practicum experience in elementary, middle and high school settings. The nursing care of children requiring acute, chronic and episodic care is performed under the guidance of an experienced school nurse. Throughout the course, the application of the nursing process and evidence-based approaches are employed when providing nursing services to school age children. Interdisciplinary care and management for school age children with special health and learning needs, including the culturally diverse and English language learners (ell's) is emphasized. The independent and collaborative aspects of the school nurse role are explored within the school setting.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1077; PROG: School of Nursing

NUR 1079 - PROFESSIONAL DVLP & PRACTCM 2

Minimum Credits: 3
Maximum Credits: 3
This course enables the registered nurse student to further develop oral and written communication, critical thinking, and leadership skills through the presentation, implementation, and evaluation of an evidence-based clinical practice process during the clinical practicum. Under the guidance of faculty and a clinical preceptor, didactic seminars, assignments, and mentored clinical practicum are used to foster leadership skills, independence and self-direction with a clinical project for all students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1074; PROG: School of Nursing

NUR 1082 - ADVANCED CARE OF ADULT 1

Minimum Credits: 4
Maximum Credits: 4
This course includes nursing care of adults experiencing acute/complex alterations in multiple body systems. Roy's adaptation model of nursing and Watson's theory of caring serve as conceptual and theoretical bases. Practice settings include acute/critical care units. Emphasis is on prioritization of nursing care, technology/bioinstrumentation, patient and family role adaptation and multiple-body system alterations. Pathophysiology, diagnostic studies, associated nursing responsibilities and medical-surgical management are included.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1083 - TRANSITION INTO NURSNG PRACTC

Minimum Credits: 6
Maximum Credits: 6
This course focuses on facilitating the transition to professional practice through the use of agency preceptors to increase independence and responsibility for patient care in an intensive clinical experience. Leadership principles are utilized in the management of small groups of clients and unit personnel. Progressive acquisition of skills in clinic decision-making will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: School of Nursing students only.

NUR 1084 - ADVANCED CARE OF THE ADULT 2

Minimum Credits: 4
Maximum Credits: 4
This course is a continuation of NUR 1082 and includes nursing care of adults experiencing acute/complex alterations in multiple body systems. Practice settings include acute/critical care units. Emphasis on prioritization of nursing care, technology/bioinstrumentation, patient and family role adaptation and multiple body system alterations. Roy's adaptation model and Watson's theory serve as base. Pathophysiology, diagnostic studies, associated nursing responsibilities and medical-surgical management are included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1085 - ETHICS IN NURSING & HEALTH CRE

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the domain of clinical ethics as a foundation for developing ethical expertise in nursing practice. The course focuses on contemporary nursing and health care issues that raise personal and professional ethical concerns. Emphasis is placed on cultural differences, current legislation, political and religious controversy, economic constraints, and professional commitment related to the resolution of the identified ethical dilemmas. The process of ethical analysis and reasoning is used to resolve representative patient and health care situations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0082

NUR 1086 - ADV MEDICAL-SURGICAL NURSING

Minimum Credits: 6
Maximum Credits: 6
This course includes nursing care of adults experiencing acute/complex alterations in multiple body systems. Roy's adaptation model of nursing and Watson's theory of caring serve as conceptual and theoretical bases. Practice settings include acute/critical care units. Emphasis is on prioritization of nursing care, technology/bioinstrumentation, patient and family role adaptation and multiple-body system alterations. Pathophysiology, diagnostic studies, associated nursing responsibilities and medical-surgical management are included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1087 - TRANSITION INTO PRACTICE

Minimum Credits: 5
Maximum Credits: 5
This course focuses on facilitating the transition to professional practice through the use of agency preceptors to increase independence and responsibility for patient care in an intensive clinical experience. Leadership principles are utilized in the management of small groups of clients and unit personnel. Progressive acquisition of skills in clinic decision-making will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: School of Nursing students only.

NUR 1090 - PRECEPTORSHIP IN NURSING EDUC

Minimum Credits: 3
Maximum Credits: 3

The course affords the RN the opportunity to develop know ledge of the preceptors contribution to the preparation of new nurses for the profession. Skill in enacting the role of preceptor is included via a practicum in which the RN serves as a preceptor for a novice practitioner.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 1120 - ADV NUR MGT ACU/CPLX HLTH PROB

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the patient centered nursing care of adults experiencing acute and complex illnesses. Emphasis is placed on the prioritization and decision making processes of nursing care and the nursing responsibilities associated with translating, integrating and applying medical/surgical management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course will also discuss the increasing diversity of this nation's population as expressed through age, racial, ethnic, gender, cultural, spiritual and sexual orientation. Discussions will occur with the effect of socio-economic differences and how it may affect the patient's overall health care. Discussion of interdisciplinary collaboration healthcare professional is emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 0066 and NUR 0067 and NUR 0082 and NUR 0087

NUR 1120C - ADV NUR MGT ACU/CPLX HLTH CLIN

Minimum Credits: 2
Maximum Credits: 2
This clinical course focuses on the nursing care of adults with acute and complex illnesses in a hospital setting. Emphasis is placed on using the nursing process to assist students with the development of priority nursing goals and in applying critical thinking skills to patient care. The clinical nursing responsibilities include interpretation of diagnostic studies, medical/surgical patient management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course includes application of cultural diversity awareness training to the nursing process. Clinical learning is focused on developing and refining the knowledge and skills to manage patient care as part of inter-professional teams. Clinical experiences are offered in acute care, critical care, and monitored units.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1120

NUR 1121 - ADVNCD CLINCAL PROBLEM SOLVING

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through classroom and case study activities. Professional competence is enhanced through the utilization of high fidelity human simulation technology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1052 and NUR 1054 and NUR 1060; PROG: School of Nursing

NUR 1121C - ADVNCD CLIN PROB SOLVING CLIN

Minimum Credits: 2
Maximum Credits: 2
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1121

NUR 1122 - TRANSTN INTO PROF NURS PRAC

Minimum Credits: 6
Maximum Credits: 6
This course is designed to facilitate the transition to professional practice through the preceptorship of registered nurses in a variety of settings. Students will be able to synthesize knowledge about the professional nursing role and increase their responsibility and accountability for patient care. Theory related to professional nursing roles, patient care management, and leadership will be presented. In addition, health care policy related to nursing issues will be examined.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 1123 - COMMUNTY HLTH NUR: HLTH PROMTN

Minimum Credits: 3
Maximum Credits: 3
This course will provide the student with a broad introduction to community health and the role of nursing within this context. Through the use of critical thinking and decision making, independence in clinical practice will be encouraged. Students will explore areas of epidemiology, health promotion within groups, community assessment, and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined, emphasizing a population focus for nursing care and health promotional interventions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1124 - COMMUNITY HLTH NUR: HOME CARE

Minimum Credits: 3
Maximum Credits: 3
This course will provide the student with a broad introduction to the role of nursing in case management in the home and diverse community settings. Through the use of critical thinking and decision-making, independence in clinical practice will be encouraged. Students will conduct family, home and environmental assessment in order to develop individualized, comprehensive family health promotional and education al plans. Emphasis will be placed upon managing the care of individuals, families and caregivers collaboratively with health care providers from multiple disciplines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1125 - CLINICAL DECISION MAKING

Minimum Credits: 4
Maximum Credits: 4
Emphasis of this course for nursing students enrolled in the accelerated nursing program is on nursing care of the adult experiencing acute and complex illnesses with alterations in multiple body systems. Focus is on critical thinking and decision making in the use of the nursing process, prioritization of nursing care, technology-bioinstrumentation, and support for individuals, families, and groups experiencing complex illnesses. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 1126 - TRANSITION INTO PRACTICE

Minimum Credits: 3
Maximum Credits: 3
This course for the accelerated nursing student focuses on facilitating the transition to professional practice through the use of agency preceptors to increase independence and responsibility for patient care in an intensive clinical experience. Leadership principles are utilized in the management of small groups of clients and unit personnel. Progressive acquisition of skills in clinical decision making will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 1127 - COMMUNTY HEALTH NURSING

Minimum Credits: 3
Maximum Credits: 3
This course will provide the student with a broad introduction to community health and the role of nursing within this context. Students will explore epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 0067; PROG: School of Nursing

NUR 1127C - COMMUNITY HEALTH NURSING CLIN

Minimum Credits: 0
Maximum Credits: 0
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this

context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1128

NUR 1128 - COMMUNITY HEALTH NURSING

Minimum Credits: 2
Maximum Credits: 2
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will explore epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (NUR 1120 or NUR 1220) and (NUR 1050 or NUR 1250) and (NUR 1060 or NUR 1260) and (NUR 1052 or NUR 1252)

NUR 1128C - COMMUNITY HEALTH NURSING CLIN

Minimum Credits: 2
Maximum Credits: 2
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1128

NUR 1130 - LEADERSHP IN PROF NUR PRACTICE

Minimum Credits: 3
Maximum Credits: 3
Course is designed to provide knowledge and skills needed for implementation of leadership and management roles within professional nursing practice. Units of content focus on change in the healthcare delivery system, leadership and management theories, effective interpersonal skills for leadership, organizational theories, emerging models of care delivery, planned change, information management, financial management, and performance evaluation. Students critically analyze influences on leadership within healthcare today and plan for active participation in the process of transformational leadership.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 1070; PROG: School of Nursing

NUR 1131 - INTERPROF HEALTHCARE TEAMS

Minimum Credits: 1
Maximum Credits: 2
This course provides a review of interprofessional healthcare teams, barriers and facilitators, roles/responsibilities of various members of the healthcare team, and strategies that help to incorporate teams within a variety of healthcare settings. The student is guided through methods of team development in healthcare organizations. The course provides a basis for incorporating nursing as an integral member of the healthcare team.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1133 - TRANSTN INTO PROF NUR PRACT

Minimum Credits: 9
Maximum Credits: 9
This course is designed to facilitate the transition into professional practice through the preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing role and increase their responsibility and accountability for nursing practice for individuals, families, and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1052 and NUR 1054 and NUR 1060; PROG: School of Nursing

NUR 1134 - TRANSTN INTO PROF NUR PRACT

Minimum Credits: 2
Maximum Credits: 2
Students synthesize knowledge about the professional nursing roles and increase their understanding of their responsibility and accountability for the nursing care of individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (NUR 1120 or NUR 1220) and (NUR 1050 or NUR 1250) and (NUR 1060 or NUR 1260) and (NUR 1052 or NUR 1252)

NUR 1134C - TRANSTN PROF NUR PRACT CLIN

Minimum Credits: 6
Maximum Credits: 6
This course is designed to facilitate the transition into professional practice through preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for the nursing care of individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1134

NUR 1154 - NURSING CARE OF OLDER ADULTS

Minimum Credits: 2
Maximum Credits: 2
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessments, and individualized care for older adults in acute and skilled nursing facilities. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

NUR 1220 - ADV NUR MGT ACU/CPLX HLTH CLN

Minimum Credits: 5
Maximum Credits: 5
This course focuses on the nursing care of adults experiencing acute/complex illnesses. Emphasis is placed on the prioritization and decision making processes of nursing care and nursing responsibilities associated with diagnostic studies, m/s management, evaluation of outcomes, health promotion, and support for individuals/families experiencing acute and complex health problems. Collaboration with interdisciplinary health professionals in health restoration is fostered. Clinical experiences are offered in acute, critical care, and monitored units.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: NUR 1282; PROG: School of Nursing

NUR 1220C - ADV NURSING MANAGEMENT OF THE ADULT WITH ACUTE/COMPLEX HEALTH PROBLEMS CLINICAL

Minimum Credits: 2
Maximum Credits: 2
This clinical course focuses on the nursing care of adults with acute and complex illnesses in a hospital setting. Emphasis is placed on using the nursing process to assist students with the development of priority nursing goals and in applying critical thinking skills to patient care. The clinical nursing responsibilities include interpretation of diagnostic studies, medical/surgical patient management, evaluation of outcomes, health promotion, and support for individuals and families experiencing acute and complex health problems. This course includes application of cultural diversity awareness training to the nursing process. Clinical learning is focused on developing and refining the knowledge and skills to manage patient care as part of inter-professional teams. Clinical experiences are offered in acute care, critical care, and monitored units.
Academic Career: UGRD
Course Component: Clinical

Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1120

NUR 1221 - ADVNCD CLINCAL PROBLEM SOLVING

Minimum Credits: 4
Maximum Credits: 4
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process using critical thinking skills is expanded through classroom and clinical activities. Professional competence is enhanced through utilization of high fidelity human simulation technology. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1254 and NUR 1282; PROG: School of Nursing

NUR 1221C - ADVNCD CLIN PROB SOLVING CLIN

Minimum Credits: 1
Maximum Credits: 1
This course focuses on the nursing management of the adult who experiences an acute or complex illness with an alteration in multiple body systems. The students' ability to apply the nursing process, using critical thinking skills, is expanded through clinical activities. Collaboration with interdisciplinary health professionals in health promotion and restoration is fostered.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1121

NUR 1227 - COMMUNITY HEALTH NURSING

Minimum Credits: 3
Maximum Credits: 3
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will explore epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services. The health care needs of selected at-risk populations will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 2000; PROG: School of Nursing

NUR 1228C - COMMUNITY HEALTH NURSING CLIN

Minimum Credits: 0
Maximum Credits: 0
The overall objective of this course is to provide the student with a broad introduction to community health and the role of nursing within this context. Students will experience independence and collaboration with community-based clinicians in a variety of settings. Students will have opportunities to apply epidemiology; health promotion and disease prevention within groups; individual and family case management; community assessment and intervention; environmental hazards; and factors influencing the delivery of and access to community health services at the individual, family, and aggregate levels.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1128

NUR 1233 - TRANSTN INTO PROF NUR PRACT

Minimum Credits: 5
Maximum Credits: 5
This course is designed to facilitate the transition into professional practice through the preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for nursing practice for individuals, families and aggregates. Theory related to professional nursing roles, patient care management, and leadership is presented. In addition, health care policy related to specific nursing issues is examined.
Academic Career: UGRD

Course Requirements: PREQ: NUR 1254 and NUR 1282; PROG: School of Nursing

NUR 1234 - ADV CLNCL PROB SOLV/TRANSITION

Minimum Credits: 8
Maximum Credits: 8

This course is designed to facilitate the student's transition into professional practice through nursing management of the client who experiences an acute or complex illness with an alteration in multiple body systems and preceptorship with professional registered nurses in a variety of health care settings. Students will expand their ability to apply the nursing process in more complex situations, including simulation activities. Students will synthesize knowledge about professional nursing roles and community health issues and increase responsibility and accountability for nursing practice for individuals, families and aggregates. Theory related to professional nursing roles, patient care management, leadership and health care policy is presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1234C - TRANSITION INTO PROFESSIONAL NURSING CLINICAL

Minimum Credits: 3
Maximum Credits: 3
This course is designed to facilitate the transition into professional practice through the preceptorship with registered nurses in a variety of settings. Students synthesize knowledge about the professional nursing roles and increase their responsibility and accountability for the nursing care of individuals, families and aggregates.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1134

NUR 1250 - NUR CRE MTHRS, NEWBRNS & FMLYS

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Critical thinking, problem solving, stress adaptation, role, family and nursing theories provide a major focus for understanding childbearing. Clinical experiences reflect a diversity of settings including outpatient, inpatient, and community programs that provide services to the childbearing family.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1282; PROG: School of Nursing

NUR 1250C - NUR CARE MTHRS NB & FAML CLIN

Minimum Credits: 1
Maximum Credits: 1
This course provides an introduction to the process of childbirth and the dynamics of the childbearing family. It explores the areas of health promotion, physiologic changes associated with pregnancy, high risk conditions associated with pregnancy and the development of the fetus and newborn. Emphasis is on adaptation to the biopsychosocial needs of the childbearing family with sensitivity to the cultural needs and ethical issues of a diverse population. Course Requirements: CREQ: NUR 1050

NUR 1252 - NUR CARE CHILD & THEIR FMLYS

Minimum Credits: 4
Maximum Credits: 4
This course focuses upon nursing practice for restoration and maintenance of health in children in various stages of development within the family. Nursing approaches are based on the use of developmental theories and cultural sensitivity. The nursing process is applied to the child and the family to minimize the effects of stressors which have resulted in a disruption of health. There will be a focus on critical thinking and decision making as the student applies theory to nursing care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1282; PROG: School of Nursing

NUR 1252C - NUR CRE CHILD/THEIR FMLYS CLIN

Minimum Credits: 1
Maximum Credits: 1
This course focuses on nursing practice for restoration and maintenance of health in children in various stages of development within their families

and the broader social contexts in which children grow and develop. Nursing approaches used in the clinical setting are based on the use of best evidence, developmental perspectives, and cultural competence. The nursing process is applied to the child and family to minimize the effects of stressors which have resulted in a disruption of health. There is an emphasis on critical thinking and decision making as the student applies theory to nursing care.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1052

NUR 1254 - NURSING CARE OF OLDER ADULTS

Minimum Credits: 2
Maximum Credits: 2
This course is designed to ensure competency in providing evidence-based nursing care to older adults and their families, across a continuum of health care settings. Attention is given to the complex interaction of acute and chronic co-morbid conditions, interdisciplinary collaboration, the recognition of risk factors, valid and reliable health assessments, and individualized care for older adults in acute and skilled nursing facilities. The influence of attitudes, age, gender, race, culture, religion, language, lifestyle, technology, and health care policy on the biological, psychological, and social functioning of older adults is considered.

Course Requirements: PREQ: NUR 0082 or NUR 1282; PROG: School of Nursing

NUR 1260 - NUR CARE CLIENTS W/PMH PROBLMS

Minimum Credits: 4
Maximum Credits: 4
This course is designed to teach basic psychiatric mental health nursing concepts and their application to clinical practice. Classroom learning is focused on developmental, psychological, and biological theories in order to enhance understanding of psychiatric illness. Major psychiatric illnesses throughout the lifespan as well as contemporary methods of treatment are addressed. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1282; CREQ: NUR 1220; PROG: School of Nursing

NUR 1260C - NUR CARE CLIENTS PMH PROB CLIN

Minimum Credits: 2
Maximum Credits: 2
This course focuses on nursing practice of health promotion and restoration in individuals with mental health problems. Application of theoretical concepts and nursing interventions is the focus of the clinical experience in acute, chronic, and community mental health settings. Emphasis is placed on understanding the unique contributions of social and cultural factors in the development of treatment plans for clients experiencing psychiatric problems.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1060

NUR 1281 - FOUNDATIONS OF NURSING PRACTICE 1

Minimum Credits: 4
Maximum Credits: 4
This course focuses on theory acquisition and skills application in communication, therapeutic intervention, and clinical reasoning. Techniques of assessment, analysis, intervention, and planning of the physical, psychological, and developmental dimensions of the individual are explored through a variety of learning strategies. Variations of expected findings based on influences such as age, social condition, and culture are discussed. Emphasis is placed on the therapeutic interventions of safety, hygiene, comfort, health promotion, and safe performance of psychomotor skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: NUR 0082 and NUR 1282C

NUR 1282 - NURSE MGT OF THE ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS

Minimum Credits: 6
Maximum Credits: 6
This course focuses on the nursing care of hospitalized adults with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of hospitalized adults. During laboratory sessions, students will have the opportunity to practice simulated clinical skills. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Students will have clinical experiences with in-patients who require medical and/or surgical treatments

and who are not experiencing a complicated illness course. Common concepts of care and common problems encountered in the care of ill adults and elderly clients will be emphasized, including societal and cultural influences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 0066 and NUR 0087 and NUR 1281

NUR 1282C - NUR ADLT AC/CRNC HLTH PROB CLN

Minimum Credits: 4
Maximum Credits: 4
This course focuses on the nursing care of adults, including older adults, with acute and/or chronic illnesses. Students will be guided in critical thinking exercises and the use of therapeutic interventions and research findings in the management of adults with acute and/or chronic illnesses. During clinic, students will have the opportunity to practice clinical skills learned in the lab. Nursing process, critical thinking, and decision-making serve as the framework for acquisition of clinical psychomotor skills. Common concepts of care will be emphasized, including societal and cultural influences.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 0082 and NUR 0087 and NUR 1281

NUR 1350 - CRISIS INTERVENTION THEORY

Minimum Credits: 3
Maximum Credits: 3
Course will focus on the theory and concepts relevant to psychological crisis. Selected theories from nursing, sociology, psychology, systems, and learning will be used to plan, implement, and evaluate therapeutic regimens for clients experiencing crisis, particularly in a primary care setting. Emphasis will also be placed on understanding the unique contributions of social and cultural factors in the development of appropriate treatment plans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1060; PROG: School of Nursing

NUR 1351 - CRISIS INTERVENTION PRACTICUM

Minimum Credits: 2
Maximum Credits: 2
This practicum provides the student with an opportunity to refine skills in the clinical management of clients who are experiencing a developmental or situational crisis. Student will be expected to (a) synthesize relevant crisis intervention theory with the management of the crisis situation, and (b) evaluate the effectiveness of these interventions. Experiences include precepted clinical work in ambulatory or inpatient settings with adult clients.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1060; PROG: School of Nursing

NUR 1477 - SCHOOL NURSE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to prepare the professional nurse for certification as a school nurse in Pennsylvania. The role of the school nurse is explored through the historical, legal, ethical, research and practice perspectives. The biological, physical, developmental, behavioral, cultural and psychosocial needs of children of all ages in the school setting are examined. Throughout the course, current evidence related to school nursing and Pennsylvania educational requirements is applied to the health needs of school age children, including those with special health and learning needs, the culturally diverse and English language learners (ELL's). The independent and collaborative aspects of the school nurse role are explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: NUR 1078

NUR 1610 - APPLD PATHOPHYSIOLOGY CLN PRA

Minimum Credits: 3
Maximum Credits: 3
This upper division course reviews developments in the basic and clinical sciences. It is intended to provide the basis for graduate education for advanced practice nurses. Implications of the aging process, nutrition, and drug therapies are discussed as they apply to selected scientific developments and diseases.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

NUR 1611 - SAFE PRACTICES IN HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
This course raises awareness of patient safety needs and helps health care personnel develop patient safety indicators to enhance quality of health care. Some of the most pivotal events experienced by patients are discussed. They are: complications of anesthesia, decubitus ulcers, and foreign bodies left during procedures, post-op problems, birth and OB issues, infections, patient identification, and medication errors. Communications related to safety are discussed. Agencies promoting patient safety are identified and discussed. Research related to safe practice and safety issues are analyzed. Policies or procedures that promote safety are developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1620 - MIND/-BODY INTERVENTIONS: ALTERNATIVE/COMPLEMENTARY MEDICINE

Minimum Credits: 2
Maximum Credits: 3
The purpose of this course is to provide nursing students with an introduction to physiological and psychological interactions in order to understand and appreciate mind/body interventions in the context of alternative/complementary medicine. The content emphasizes research based techniques and practices, with a focus on stress management and relaxation, the range of current practices is explored. Independent learning activities provide opportunities to focus on specific therapies and interventions and how they can be implemented in clinical nursing practice.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1630 - HEALTH CARE DELIVERY IN THE UNITED KINGDOM

Minimum Credits: 2
Maximum Credits: 2
This course is designed to provide the undergraduate nursing student with exposure to the culture and health care delivery system in a foreign country. Emphasis will be placed on exploring health issues and risk factors, the impact of cultural characteristics on health care delivery and utilization, and the achievement of health-related goals in the united kingdom. Students will compare the health care systems, nursing education and nursing practice in the united kingdom and the United States. They will identify national and international health-related organizations in the united kingdom and the mission of and roles these institutions play.
Academic Career: UGRD

Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: School of Nursing students only.

NUR 1650 - DOMESTIC VIOLENCE

Minimum Credits: 3
Maximum Credits: 3
Violence is becoming more prevalent in our culture. As health care providers we must possess an awareness of our own attitudes toward both violence and victims, an understanding of the process of violence, the skills necessary to perform a complete violence assessment, and the therapeutic actions needed for positive outcomes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1660 - THE CLINICAL INTERVIEW

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the theory and concepts relevant to psychiatric, medical, and qualitative research interviewing and to obtaining a patient history in the psychiatric and medical setting. The focus is on selected interviewing techniques developed by various authorities. Emphasis will be placed on specific basic and advanced techniques that are useful in obtaining accurate information and in detecting critical processes such as suicide ideation or the presence of psychosis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1670 - IV THERAPY: PRINCIPLS & PRACTC

Minimum Credits: 2
Maximum Credits: 2
Course focuses on principles involved in initiating and maintaining iv therapy and the variety of devices used to deliver iv meds. The preferred and recommended techniques to effectively insert iv devices will be reviewed and dis cussed. Anatomy and physiology of the circulatory system will be reviewed. Venipuncture techniques and equipment will be introduced and examined. Emphasis will be placed on specialty iv devices and the appropriateness of their use. Complications of iv therapy and specialty lines will also be addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1680 - INTRO GENETCS & MOLEC THERPUTC

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course that focuses on the fundamentals of genetics. The course is designed to give the student a basic understanding of genetic concepts so that this knowledge can be utilized to understand current and future genetic theories and therapeutics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1682 - GENETICS ONLINE EDUC SERIES

Minimum Credits: 1
Maximum Credits: 1
This is an online introductory course that focuses on the fundamentals of genetics. The course is designed to give the student a basic understanding of genetic concepts so that this knowledge can be utilized to understand current and future genetic theories and therapeutics.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: School of Nursing students only.

NUR 1690 - EXPLORING CANCER CARE

Minimum Credits: 2
Maximum Credits: 2
The overall objective of this course is to provide the student a broad introduction to cancer care and the role of the professional within this specialty. Through the use of discussion, presentations and observational experiences, students explore various aspects of cancer care. Specific cancers, therapies and care issues are explored. The health needs of the cancer patient and family are examined. Health promotion through education, screening and early detection as recommended thru the American cancer society and healthy people 2000/2010 will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0082; PROG: School of Nursing

NUR 1710 - APPLIED ADULT CP CRITICAL CARE

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide students with the opportunity to synthesize and apply concepts related to the cardiopulmonary assessment and multidisciplinary management of critically ill adults. Through the use of presentations and laboratory sessions, the student will explore the pathophysiologic basis of critical cardiopulmonary instability, physical and technologic assessment parameters, and treatment modalities commonly utilized in the care of these patients in the intensive care unit. Interactive laboratory demonstration of vasoactive drugs, arterial, central venous and pulmonary artery monitoring, artificial airways, mechanical ventilation and rhythm strip interpretation will be provided. Critical clinical decision making and nursing responsibilities specific to dysrhythmia interpretation are addressed, including institution of appropriate immediate nursing intervention, pharmacological, and electrical therapeutic interventions based on advanced cardiac life support (ACLS) algorithms. Further, students will have the opportunity to synthesize and apply this information within patient care scenarios of respiratory and cardiac instability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1120; PROG: School of Nursing

NUR 1720 - TOPICS IN OBSTETRICAL NURSING

Minimum Credits: 3
Maximum Credits: 3
This course offers an overview of nursing care of patients experiencing perinatal complications. Pathophysiology and general medical management of select complications will be reviewed and implications for nursing care will be discussed in depth. Through the use of case studies, students will analyze pertinent data and develop plans of care. In addition, issues, controversies, and alternatives specific to the management of the low risk perinatal patient will be ad dressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 1050 or NUR 1250; PROG: School of Nursing

NUR 1730 - PEDIATRIC CRITICAL CARE

Minimum Credits: 2
Maximum Credits: 2
Provides students the opportunity to synthesize and apply concepts related to critically ill pediatric patients. Entry level physiology of the following systems will be re viewed: respiratory, cardiovascular, gastrointestinal and neurologic. Pediatric trauma basics will be covered as well as the subspecialty areas of pain, sleep and skincare. Stu dents will have the opportunity to interpret arterial blood gases, discuss methods of medication/fluid administration & learn the basics of hemodynamic monitoring. Student will learn components of a multidisciplinary critical care team.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1740 - APPLIED CONCEPTS WITH CHF

Minimum Credits: 2
Maximum Credits: 2
This course is designed to assist students to apply concepts related to the assessment and management of patients with congestive heart failure (CHF). Students will explore the physiologic basis of common cardiovascular pathologies, assessment techniques, diagnostic procedures, and treatment modalities commonly utilized in the care of CHF patients. Health promotion strategies, appropriate screening, and patient/family education will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1750 - PRACTICAL ISSUES IN DISABILITY

Minimum Credits: 3
Maximum Credits: 3
Course discusses the issues involved in providing assistance to individuals with severe disabilities, and provides opportunities for learning practical skills for assisting these individuals in their activities of daily living.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1760 - NURSING CARE OF CHILDREN IN DISASTERS

Minimum Credits: 2
Maximum Credits: 2
Course provides an overview of nursing care of children following disasters, public health emergencies and complex emergencies. Epidemiology of pediatric illnesses and injuries following such events is discussed. Highlighted are physiologic and psychosocial differences in children following exposure to nuclear, biological, chemical and explosive agents. The prioritized nursing care of children exposed to these is addressed. Care of children in complex emergencies, refugee camps and shelters is described. Hospital/community disaster planning with a focus on children presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Nursing students only.

NUR 1765 - RISK FACTORS AND HEALTH

Minimum Credits: 3
Maximum Credits: 3
The overall objective of this course is to provide the student with a broad description of risk factors and health promotion for individuals, families and communities. Current federal, state and professional organization guidelines and recommendations for health promotion and disease prevention are applied. Current research on the efficiency of health promotion activities is presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

NUR 1766 - EBP IN HEALTH AND FITNESS

Minimum Credits: 2
Maximum Credits: 2
This course provides an integrated approach to health and fitness across the lifespan. The literature related to the components of physical fitness and health will be appraised for its evidence and applicability to general and special populations. Articulation with healthy people 2010, as well as state and local health initiatives, will be emphasized. Nursing knowledge will be applied when prescribing health and fitness regimes for clients across the lifespan. Students will be expected to survey and appraise literature related to health and fitness. Students will be required to participate in and lead physical fitness activities which can be adapted to their needs. Ethical and legal aspects of health and fitness practice, within a nursing context, will be explored. Marketing oneself as a health and fitness professional will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1767 - RISK FACTORS HLTH: GLBL PERSP

Minimum Credits: 3
Maximum Credits: 3
The overall objective of this course is to provide the student with a broad description of risk factors and health promotion for individuals, families and communities from a global perspective. Students select a country of interest and apply that country's government, policy and professional organization guidelines and recommendations for health promotion and disease prevention. Current evidence on the efficacy of health promotion activities is studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1765

NUR 1770 - NURSING CARE OF ADULTS EXPERIENCING CARDIAC DYSRHYTHMIAS

Minimum Credits: 2
Maximum Credits: 2
Course is focused on interpretation and management of cardiac dys rhythmias occurring in the adult. Mastery of cardiac rhythm interpretation is the end goal. Critical clinical decision making and nursing responsibilities specific to dysrhythmias interpreted are addressed, including institution of appropriate pharmacological and electrical therapeutic interventions based on ACLS algorithms. Information on basis of electro-physiology, dysrhythmias etiologies and electrocardiographic monitoring is provided. Case studies and multiple examples are used to support repetitive practice in rhythm interpretation.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1800 - COORDINATING CLINICAL TRIALS

Minimum Credits: 2
Maximum Credits: 2
The purpose of this course is to provide individuals with a basic understanding of clinical trials research conducted in accordance with federal regulations. Aspects of clinical trials research such as regulatory requirements, informed consent, pre and post study activities, audit procedures, and budgetary issues will be covered. This course will include presentations by individuals experienced in conducting trials; clinical research coordinators, IRB staff, investigational pharmacists, statisticians, and other experts in clinical research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 0067 and NUR 1085; PROG: School of Nursing

NUR 1801 - COORDINATING CLN TRIALS PRAC

Minimum Credits: 1
Maximum Credits: 2
The course is designed to familiarize students with roles and responsibilities of a clinical research coordinator through observation during a practicum, discussion of different types of clinical research protocols, and discussion of how these protocols are implemented in a variety of research settings. Each student selects focus area and preceptor who guides observations designed to exemplify the role of the clinical research coordinator. Each student also participates in review of research proposals in NIH funded center at the university of Pittsburgh.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1800; PROG: School of Nursing

NUR 1820 - INTRO LGL NURS CONSUG/FRNSC

Minimum Credits: 3
Maximum Credits: 3
Provides introductory information in areas of law, process of a lawsuit, and ethical/legal/social issues re: nurse consulting and forensic nursing. Designed to provide overview of how nursing knowledge/skills can be transferred into legal nurse consulting and forensic nursing examination. Approaches and methods are discussed including screening cases, analyzing health professional malpractice cases, hospital/medical records review, quality assurance and risk management and preparing effective reports/abstracts. Activities in the development of investigative techniques in forensic nursing included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0082; PROG: School of Nursing

NUR 1821 - ADV PRACTICE IN FORENSC NURSNG

Minimum Credits: 3
Maximum Credits: 3
Course is designed to provide an opportunity to combine nursing knowledge with forensic science in scientific investigation, evidence collection/preservation, analysis, and leg al documentation. Techniques of forensic assessment and physical examination, evidence collection, chain of custody, forensic documentation that withstands courtroom scrutiny, and challenges of the role will be discussed. Participation in case analyses including ethical, legal and social issues (ELSI) allow for critique and development of skills relevant to various roles in forensic nursing practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1820; PROG: School of Nursing

NUR 1822 - FORENSC NUR SPECLTY SEM & PRAC

Minimum Credits: 3
Maximum Credits: 3
Course addresses health care issues that confront nurses on a daily basis and have legal implications. The seminar focuses on the discussion of the role of the forensic nurse in caring, providing interventions for, and improving out comes with patients and families across the life span and with various ethnic and racial backgrounds. It guides the student in defining, discussing, arguing and clarifying forensic challenges based on existing standards of practice, jcaho guidelines, research themes, protocols and procedures that guide safe nursing practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1823 - FORENSC PMH NUR & CORRCTNL NUR

Minimum Credits: 3
Maximum Credits: 3
Course provides an overview of forensic psych mental health and correctional nursing roles. Course focuses on the role of the nurse in caring and providing interventions for the criminally insane, adjudicated criminal defendants unable to stand trial by reason of insanity or mental disorder, or incarcerated offenders in rehabilitation or in treatment, as well as victims and families affected by interpersonal violence. Emphasis is on the role of the nurse when psychiatry and mental health intersect with the law to effect patient outcomes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 1820; PROG: School of Nursing

NUR 1829 - CONTEM ISSUES CROS CULTL HLTH

Minimum Credits: 3
Maximum Credits: 3
Purpose of course is to increase awareness of how delivery and acceptance of health care may be influenced by social, cultural, and environmental factors. It will provide an overview of how these factors influence a person's response to stressors, daily health and living needs. Goal is to help students increase their understanding of culturally congruent care by utilizing cultural concepts, theories, and research. Students will analyze factors that facilitate/ hinder communication about health needs, acceptance of the health care regimen, and access to health care systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

NUR 1830 - HEALTH CRE IN AGE OF TERRORISM

Minimum Credits: 2
Maximum Credits: 2
The overall purpose of this course is to increase the preparedness of health professionals to prevent, recognize and act on physical, biologic and chemical hazards to human health. Thru the promotion of critical thinking and decision making, the course will explore the steps of outbreak investigation, exposure assessment, exposure pathways and ways to interrupt such pathways. It will also examine potential hazards and their human health effects, appropriate control measures and risk communication methods for the public.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1865 - FUNDMS DISTR/MASS CASUALTY CRE

Minimum Credits: 2
Maximum Credits: 2
This course is designed to build on the base of medical surgical nursing and to provide the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and then focus on nursing's role in these systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUR 0082; PROG: School of Nursing

NUR 1900 - GLOBAL HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
Cultural competence and embracing diversity are central values for healthcare professionals. In light of the globalization of society, knowledge of differing perspective, traditions, religions, politics, cultures, and health practices is crucial to providing quality healthcare. This course is designed to introduce students to concepts necessary to understand healthcare from a global perspective, to broaden their views of a global society, and to examine their roles within a global community. This course will also introduce students to current school of nursing study abroad programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: NUR 0080 and (NUR 0087 or 1110)

NUR 1901 - GLOBAL HEALTH CARE PRACTICUM

Minimum Credits: 1
Maximum Credits: 3
Through faculty led discussions, observations, and interactions with multi-national healthcare providers and citizens, this study abroad practicum is designed to promote an understanding of healthcare practice and education in selected sites. Students will be invited to broaden their views of a globalizing society in which multiple perspectives and beliefs coexist. Content will focus on assisting students to understand how differing cultural perspectives, traditions, religions and political beliefs can impact health behaviors. Students will be immersed in the culture of the chosen host country and will observe the delivery of healthcare.
Academic Career: UGRD

Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Nursing students only.

NUR 1990 - SENIOR SEMINAR

Minimum Credits: 1
Maximum Credits: 1
The goal of this course is to support the senior student's successful progression to entry-level professional nursing practice. Classroom activities and self-directed learning will prepare students to attain the benchmarks associated with professional licensure and provide a foundation for the continuous self-evaluation and life-long learning required to support professional nursing practice (AACN, 2008).
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: CREQ: NUR 1121 or NUR 1134; LVL: Sr; PROG: School of Nursing (UNURS)

NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1

Minimum Credits: 2
Maximum Credits: 2
This course examines the interaction of theory, research, and clinical expertise in the development of evidence-based nursing practice. Students develop the skills needed to identify relevant research and to critically appraise published studies to evaluate their quality and applicability to clinical practice. Students gain an understanding of the research process, the critical appraisal of published research studies that use a variety of research designs, and the role of research in evidence-based practice.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad Letter Grade
Course Requirements: CREQ: NUR 2011 or NUR 2211 or NUR 2411

NUR 2004 - PATHPHYLGY ACROSS LIFE SPAN

Minimum Credits: 4
Maximum Credits: 4
This course is designed to provide the student with a comprehensive theoretical foundation of the phenomena that produce alterations in human physiologic function in diverse populations across the life span. Information gained in this course will prepare the student for subsequent courses related to the diagnosis and management of disease processes associated with pathophysiologic dysfunction/alterations in people of various ethnic/cultural groups across the lifespan.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad Letter Grade
Course Requirements: School of Nursing students only.

NUR 2010 - HEALTH PROMO/DISEASE PRVNTN

Minimum Credits: 3
Maximum Credits: 3
Health promotion and disease prevention are examined from theoretical foundations to clinical applications. The course focuses on individual and community health promotion assessment, screening, and interventions in diverse populations. Epidemiological principles and real clinical examples are discussed as a basis for focusing health promotion assessment and interventions. Course topics are delineated according to health people 2010 goals with a corresponding focus on factors related to health care disparities among vulnerable populations. Current research in health promotion and disease prevention is the basis for identifying appropriate interventions in diverse populations and settings.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: School of Nursing students only.

NUR 2011 - APPLIED STATISTICS FOR EBP

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with the basis for understanding and interpreting commonly used statistical tests, as well as critically appraising their use in published research studies. Content will include descriptive and inferential statistics commonly reported in published research studies including both univariate and multivariate parametric and nonparametric tests. The course will also cover meta-analytic techniques and students will learn to calculate effect sizes.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: School of Nursing students only.

NUR 2031 - DIAGC PHYSCL EXAM LIFE SPAN

Minimum Credits: 3
Maximum Credits: 3
This didactic course focuses on the use of the diagnostic history and physical examination to formulate a health assessment in patient populations across the lifespan. Concentration is on selected theories, principles and techniques from the physical and behavioral sciences essential to obtaining a complete health history and performing a methodical physical examination on patients across the life span.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad Letter Grade
Course Requirements: PREQ: NUR 2004 or NUR 2204 or NUR 2404; PLAN: NURSAN-MSN or NURSAN-DNP; SUBPLAN: MSNNNP or DNPNNP or DNPFLNP or DNPPPNP or MSNCNL or DNPMSN or DNPAGAC or DNPNA or ODNPNA or MSNADM or OCNL or ONAD or DNPAGNP-SP or DNPPCNP or DNPAGCN or DNPPMHN

NUR 2044 - NUR GRAD ORIENTATION MODULE

Minimum Credits: 0
Maximum Credits: 0
This module provides a web-based graduate nursing orientation that is designed to provide graduate nursing students with an overview of the school of nursing and information that they will need to successfully complete their programs and achieve their career goals.
Academic Career: GRAD
Course Component: Independent Study
Grade Component: Grad HSU Basis
Course Requirements: School of Nursing students only.

NUR 2061 - ORGANIZTNL & MANAGEMENT THEORY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the organization and management, particularly of nursing personnel, in health services organizations. Organizational theories, their analysis, and their application to health care services systems will be explored. Management theories will also be discussed. Emphasis will be placed on personnel management aspects relevant to nursing such as licensure, certification, advance practice, nurse extender, etc.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: School of Nursing students only.

NUR 2680 - INTRO GENETCS & MOLEC THERPUTC

Minimum Credits: 3
Maximum Credits: 3
This introductory course focuses on the fundamentals of human and molecular genetics. It is designed to give students a basic understanding of genetic concepts and molecular techniques so that this knowledge can be applied to current and future genetic diagnoses and therapies encountered in nursing.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad Letter Grade

NURSP 2061 - ORGANIZTNL & MANAGEMENT THEORY

Minimum Credits: 3
Maximum Credits: 3
This graduate level course focuses on organizational, leadership, and management theories and how they apply to health service organizations, both today and in the future. Emphasis will be placed on leading the clinical discipline of nursing based on organizational and systems thinking as well as relevant political and cultural perspectives. Quality and performance improvement strategies, as well as creating and sustaining appropriate levels of change, are explored in order to facilitate the ability to create safe and effective care delivery environments.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: School of Nursing students only.

NURSP 2092 - LEADERSHIP DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the application of leadership theory and the development of critical leadership skills necessary for success in today's health care environment. The course is based on five essential competencies for nursing leadership: professionalism, business skills and principles, knowledge of the health care environment, communication and relationship management, and transformational leadership.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LGSNC
Course Requirements: School of Nursing students only.

Nutrition

NUTR 1006 - INTRO TO HUMAN NUTRITION

Minimum Credits: 3
Maximum Credits: 3
This course will cover an overview of the scientific principles of nutrition and application of these principles to humans throughout the life cycle. Major focuses of the course are the classification and function of the six major nutrients, review of current nutrition standards, safety of the food supply, and nutrition misinformation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NUTR 1600 - INTRODUCTION TO DIETETICS

Minimum Credits: 1
Maximum Credits: 1
This is an introduction to the profession of dietetics. Emphasis will be placed on the scope of the profession of dietetics practice, the role and functions of registered dietitian nutritionists, and the education requirements for entry into practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

NUTR 1602 - NUTRITION ASSESSMENT 1

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the rationale for and the use of a variety of standards used in assessing and planning the quality and quantity of the food and nutrient intake of individuals and groups. It will include in-depth study and application of commonly used reference standards and tools used for evaluating levels and proportions of macronutrients, micronutrients and various dietary food components. Assessment of health indicators in individuals and populations will also be addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1006 or HRS 1006; PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1603 - NUTRITION ASSESSMENT 2

Minimum Credits: 3
Maximum Credits: 3
Introduction to professional practice methods and skills in nutrition focused physical examination. Learning experiences will include formal class presentations, class discussions, case-based problem solving and skill development laboratory sessions. Knowledge based learning leading to examination technique simulations for anthropometric measurements for body composition, nutrition focused physical examination for malnutrition diagnosing and examination techniques, e.g., vital signs, head and neck exam, intra and extra-oral exams, heart and lung auscultation, as well as, abdominal auscultation and palpation are included. At the completion of the course competency in application of nutrition focused physical examination techniques will be assessed on an individual basis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1621 and HRS 1025 and (HRS1025 or BIOSC 1850); PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1604 - FOOD SERVICE MANAGEMENT W/LAB

Minimum Credits: 3
Maximum Credits: 3
This course presents the basic principles and skills of food service management and leadership. These skills are needed to respond to market forces and assist in meeting the goals of the organization. Learning experiences include lectures, discussions, and required field trips.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H)

NUTR 1605 - PRINCPLS NUTRTNS EDUC & CNSLG

Minimum Credits: 3
Maximum Credits: 3
Concepts and components of the teaching-learning process and their application in the dietetics practice. Experience in the instructional planning and implementation functions of clinical dietitians is emphasized.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1602 and 1610 and 1620; PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1608 - PROFESSIONAL TRENDS & ISSUES

Minimum Credits: 3
Maximum Credits: 3
Identification and discussion of critical issues pertaining to the profession of dietetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1600, 1620, and 1621; PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1609 - CLINICAL BIOCHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the basic concepts of biochemistry. The structures and function of the major biomolecules, carbohydrates, lipids, proteins and nucleic acids will be discussed and their metabolism integrated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (NUTR 1006 or HRS 1006) and CHEM 0350; PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1610 - FOOD SCIENCE 1

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course emphasizing the chemical and physical properties of food in relation to its selection, quality, and preparation. Experience in the construction, modification and preparation of recipes to meet various dietary needs is also provided.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1602; CREQ: NUTR 1613; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1612 - FOOD AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
Introduction to ethnic influence on the diversity of American food patterns. Social, cultural, economic, geographic, and religious factors are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1613 - FOOD SCIENCE 1 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Study of the chemical and physical changes that occur in food as a result of various food preparation methods and their effects on nutrient quality. Experience in the construction, modification and preparation of recipes to meet various dietary needs is also provided.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1602; COREQ: NUTR 1610; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1614 - NUTRITION & CRITICAL THINKING

Minimum Credits: 3
Maximum Credits: 3
An application of critical thinking skills to evaluate nutrition issues in popular media. This course is designed for senior students in clinical dietetics and nutrition.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1602; PLAN: Clinical Dietetics-Nutrition (BS, BPH, BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1620 - MACRONUTRIENT METABOLISM
Minimum Credits: 3
Maximum Credits: 3
The first of a two-course sequence in advanced nutrition and metabolism presenting the principles of normal nutrition and their application in providing nutritional care and guidance. Emphasis is placed on the macronutrients and energy balance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1006 or HRS 1006; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1621 - MICRONUTRIENT METABOLISM
Minimum Credits: 3
Maximum Credits: 3
Second of a two-course sequence in advanced nutrition and metabolism. Emphasis is placed on the essential micronutrients.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1620; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1622 - NUTRITION IN THE LIFE CYCLE
Minimum Credits: 3
Maximum Credits: 3
The study of the physiological, developmental, sociological, and environmental factors that affect nutrient requirements and recommendations at various stages of the life cycle.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1630 - NUTRITION THERAPY 1
Minimum Credits: 3
Maximum Credits: 3
The first of a two-course sequence which will provide an introduction to medical nutrition therapy in the treatment of acute and chronic diseases. The course will cover pathophysiology and treatment of specific diseases, nutrition implications of specific diseases, nutrition assessment, determination of nutrient requirements, and nutrition interventions including calculation of modified diets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1632 - NUTRITION THERAPY 2
Minimum Credits: 3
Maximum Credits: 3
The second of a two-course sequence which will provide an introduction to medical nutrition therapy in the treatment of acute and chronic diseases. The course will cover pathophysiology and treatment of specific diseases, nutrition implications of specific diseases, nutrition assessment, determination of nutrient requirements, and nutrition interventions including calculation of modified diets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: NUTR 1630; PLAN: Nutrition and Dietetics (BPH; BS; BS-H) or Clinical Dietetics - Nutrition (NDNUTR-ND)

NUTR 1699 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

Periodontics

PERIO 1010 - PERIODONTICS 1
Minimum Credits: 2
Maximum Credits: 2
This course is designed to cover basic principles in periodontics; recognition of health parameters during growth, development, maturation and changes during aging. The terminology, etiology, pathogenesis, and histopathology of periodontal diseases are correlated with clinical findings. It emphasizes the role of the dental hygienist in prevention and plaque control. Historical and current concepts including epidemiology are presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PERIO 1011 - PERIODONTICS 2
Minimum Credits: 1
Maximum Credits: 1
This course is an introduction to periodontal therapy. The students are instructed in the treatment of gingivitis, periodontitis, the rationale for scaling and root planing, different types of periodontal surgery and the treatment of acute infections involving the periodontal tissues. Also, the students are instructed in the importance for periodontal maintenance following periodontal treatment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PERIO 1020 - PERIODONTICS
Minimum Credits: 3
Maximum Credits: 3
This course concerns the healthy periodontium, changes with aging, and changes due to disease. Classification of periodontal diseases, etiology, histopathology, and prevention are discussed. This course teaches the students the role of the hygienist in clinical management, treatment, and control of periodontal disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Petroleum Engineering

PETE 1097 - SPECIAL PROJECTS
Minimum Credits: 1
Maximum Credits: 6
Student develops an individual project under supervision of a faculty member. Project may be experimental, design-oriented, or instructional. A written report is prepared.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

PETE 1160 - PETROLEUM RESERVOIR ENGINRING
Minimum Credits: 3
Maximum Credits: 3
This course covers the principles of reservoir engineering and material balance calculation in petroleum reservoirs. The topics include petroleum origin and oil occurrence and migration; oil , gas, and gas-condensate reservoirs; basic drilling of oil and gas wells; p-v-t behavior of natural gas; material balances in gas reservoirs; oil reservoirs under simultaneous dissolved gas drive, gas cap drive, and water drive; generalized material balance in petroleum reservoirs; basic equations for fluid flow in reservoirs, absolute, effective, and relative permeabilities; and a design project on reservoir calculations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MATH 0250 or MATH 0290 or MATH 1270 or 0202 or 1035; PROG: Swanson School of Engineering

PETE 1201 - RECOVRY OF OIL BY WATRFLOODING
Minimum Credits: 3
Maximum Credits: 3
Theory of immiscible fluid displacement starting with frontal advance theory and applying it to waterflooding, fluid patterns, sweep efficiency, stratified reservoirs, etc. Relative permeability experiments are simulated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

PETE 1202 - PETROLM DRILLING & PRODUCTION

Minimum Credits: 3
Maximum Credits: 3
This course covers principles of oil and gas production from hydrocarbon-bearing formations. Topics include: flow through porous media of incompressible, compressible and slightly compressible fluids; reservoir, producing formation, vertical lift, and chock performances; principles of gas lift, gas lift valves and design; and sucker rod pumping design; and design project on artificial gas lift.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MATH 0250 or MATH 0290 or MATH 1270 or 0202 or 1035; PROG: Swanson School of Engineering

PETE 1203 - WELL TESTNG & PRSSURE TRANSENT

Minimum Credits: 3
Maximum Credits: 3
Unsteady state flow in reservoirs, pressure drawdown testing, pressure build-up testing, multiple rate testing, and gas well testing. Pressure transient analysis testing including both oil and gas wells.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

PETE 1204 - ENHANCED OIL RECOVERY PROCES

Minimum Credits: 3
Maximum Credits: 3
This course covers different topics on enhance oil recovery processes (co2, thermal, miscible fluids and surfactants); coal-bed methane, enhanced methane recovery, and underground coal gasification; surface and in-situ heavy oil, tar sand and oil shale production; and co2 capture, sequestration and disposal. The fundamentals, thermodynamics, reaction kinetics and transport phenomena as well as the environmental issues and regulations related to these topics are also covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

PETE 1205 - PETROLEUM PRODUCTION ENGNRNG

Minimum Credits: 3
Maximum Credits: 3
This course covers principles of oil and gas production from hydrocarbon-bearing formations. Topics include: flow through porous media of incompressible, compressible and slightly compressible fluids; reservoir, producing formation, vertical lift, and chock performances; principles of gas lift, gas lift valves and design; and sucker rod pumping design; and design project on artificial gas lift.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MATH 0202 or MATH 0250 or MATH 0290 or 1035 or MATH 1270; PROG: Swanson School of Engineering

PETE 1207 - PET AND NATURAL GAS PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The course covers different topics on natural gas, petroleum and petrochemical processing. The topics include natural gas cleanup, methane reforming for h2 production, partial oxidation of ch4 for synthesis gas production, and chemicals from methanol; refinery feed-stocks, crude distillation and refinery products, alkylation, hydrotreating, catalytic reforming and isomerization, catalytic cracking, resid, tar sands and oil shale processing; and methanol/other alcohols, ethylene, fertilizer, and plastic production plants.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

PETE 1208 - PET DRILNG & WELL CMPLTN DSGN

Minimum Credits: 3
Maximum Credits: 3
This course covers different topics related to drilling operations; directional drilling techniques; completion operations; and work-over operations. The drilling operations encompass drilling rig components, bit selection program, drilling fluid types, cementing program design and well control/safety. The directional drilling techniques include: well-path design/applications, downhole motor components, directional surveys, and logging while drilling. The well completion operations contain: formation evaluation tools, open-hole log interpretation, coring tools, flow testing, perforating, hydraulic fracturing and other stimulation techniques. The work-over operations comprise work-over rig components, cased hole log interpretation, plugs/packers/fishing tools, squeeze job design, casing integrity tests and stimulation evaluation. A special project on casing design is also included.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

PETE 1209 - HYDRL FRACTURING MECHCS APPLCS

Minimum Credits: 3
Maximum Credits: 3
Course description: this class will prepare students to wisely and critically design hydraulic fracturing treatments as well as make informed recommendations to employers, governments, and communities about the risks and benefits of hydraulic fracturing methods. Upon completion of this course, students will be equipped to use engineering formulae to estimate hydraulic fracture dimensions, evaluate strengths and weaknesses of various modeling approaches, characterize subsurface conditions from wellbore pressure analysis, make sound recommendations for monitoring, and compare and contrast approaches and risks for a range of application domains.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CHE 0300; PROG: Swanson School of Engineering

PETE 1212 - CO2 ENHND OIL RECOV FRACKING

Minimum Credits: 3
Maximum Credits: 3
This course will cover the physical properties of CO2 that make it an attractive solvent for enhanced oil recovery (EOR), the natural and anthropogenic sources of CO2, the types of fields that are suitable for CO2 EOR, and the mechanisms responsible for CO2 increasing oil recovery. The current status of CO2 EOR in the United States will also be reviewed, along with its potential for future expansion. The foremost technical challenges of CO2 EOR, namely mobility control and conformance control, will be discussed along with a current research efforts. The course will conclude with a brief review of how CO2 has been used as a hydraulic fracturing, whether as a pure fluid, as the gaseous component of foams, or as an energizing component.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Grad LG/SU3 Basis
Course Requirements: PREQ: CHE 0100 and CHE 0200; PLAN: Chemical Engineering (BSE); PROG: Swanson School of Engineering

Philosophy

PHIL 0010 - CONCEPTS OF HUMAN NATURE

Minimum Credits: 3
Maximum Credits: 3
An introduction to some ways in which ethical and social thought has been influenced by different views of human nature. Readings are from such authors as Plato, Hobbes, Rousseau, Marx, and Freud.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0011 - CONCEPTS OF HUMAN NATURE/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "concepts of human nature".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0012 - CONCPTS HUMAN NATURE/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "concepts of human nature".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0040 - COMPUTERS AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This introductory level course explores the connections between contemporary computational theories of mind with traditional philosophical conceptions since the seventeenth century. Readings are both historical and current.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0041 - COMPUTERS AND CULTURE/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "computers and culture".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0042 - COMPUTERS & CULTURE/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "computers and culture".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0080 - INTRO TO PHILOSOPHCAL PROBLEMS

Minimum Credits: 3
Maximum Credits: 3
An introduction to some classical problems of philosophy. Topics vary, but might include skepticism, free will, the existence of god, and the justification of ethical beliefs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0081 - INTRO TO PHILOSOPHCAL PROB/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "intro to philosophical problems".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0082 - INTRO PHILPHCL PRBLM/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
An introduction to some classical problems of philosophy. Topics vary, but might include skepticism, free will, the existence of god, and the justification of ethical beliefs. Special writing component for PHIL 0080, "introduction to philosophical problems."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to some of the main achievements and leading ideas of ancient Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0201 - HISTORY OF ANCIENT PHIL/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "history of ancient philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0202 - HISTORY ANCIENT PHIL/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
The aim of this course is to introduce students to some of the main achievements and leading ideas of ancient Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition. Special writing component for PHIL

0200, "History of Ancient Philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0210 - HISTORY OF MODERN PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
An introduction to the philosophical period from Descartes through Kant. Special attention is given to at least one rationalist, one empiricist, and Kant.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0211 - HISTORY OF MODERN PHIL/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "history of modern philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0212 - HISTRY OF MDRN PHIL/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "history of modern philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0220 - INTRODUCTION TO EXISTENTIALISM

Minimum Credits: 3
Maximum Credits: 3
This introductory level course explores the central existentialism question of how to be a genuine individual or self through reading of several major authors, such as pascal, Kierkegaard, Dostoievski, Nietzsche, and Sartre.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0221 - INTRO TO EXISTENTIALISM/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "introduction to existentialism"; it does not include extra emphasis on or credit for instruction in writing skills.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0222 - INTRO EXISTENTIALISM/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "introduction to existentialism"; it includes extra emphasis on and credit for instruction in writing skills.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0230 - PHILOSOPHY AND FILM

Minimum Credits: 3
Maximum Credits: 3
This is an introductory aesthetics course dealing with philosophy and film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0231 - PHILOSOPHY AND FILM/REC
Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course philosophy and film.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0232 - PHILOSOPHY AND FILM/WRIT PRAC
Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course philosophy and film.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0233 - PHILOSOPHY AND FILM LAB
Minimum Credits: 0
Maximum Credits: 0
This is a screening lab for lecture.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0270 - EAST-WEST PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This introductory level undergraduate course examines selected traditions in eastern philosophy, and compares them with Western traditions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0300 - INTRODUCTION TO ETHICS
Minimum Credits: 3
Maximum Credits: 3
This is an introductory course considering the question of one fundamental moral principle - right and wrong. The results are applied to moral problems of serious interest today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0301 - INTRODUCTION TO ETHICS/REC
Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "introduction to ethics".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0302 - INTRODCTN TO ETHCS/WRIT PRAC
Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "introduction to ethics".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0320 - SOCIAL PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
An introduction to some traditional philosophical perspectives on the nature of society. Philosophers studied might include Plato, Hobbes, Marx, and Twentieth-Century social theorists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0321 - SOCIAL PHILOSOPHY/REC
Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "social philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0322 - SOCIAL PHILOSOPHY/WRIT PRAC
Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "social philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0330 - POLITICAL PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This introductory level undergraduate course studies several important views on the nature and justification of government, such as those of Plato, Hobbes, and Marx.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0331 - POLITICAL PHILOSOPHY/REC
Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "political philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0332 - POLITICAL PHILOSOPHY/WRIT PRAC
Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "political philosophy".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES
Minimum Credits: 3
Maximum Credits: 3
The aim of this introductory undergraduate course is to encourage systematic and clear thought about issues of public importance by philosophic reflection which emphasizes the implications of different moral and political theories for these issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0352 - PHIL & PUBLIC ISSUES/WRIT PRAC
Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "philosophy and public issues".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0360 - MORALITY AND MEDICINE
Minimum Credits: 3
Maximum Credits: 3
This introductory level undergraduate course examines various ethical problems arising in medicine, such as euthanasia, abortion, and the allocation of resources.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0380 - INTRODCTN TO FEMINST THOUGHT

Minimum Credits: 3
Maximum Credits: 3
Primary objectives will be to acquaint students with the long history and diversity of feminist thought in Western tradition and to teach students to think and write critically.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0381 - INTRO FEMINIST THOUGHT/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "introduction to feminist thought". It does not include extra emphasis on or credit for instruction in writing skills.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0382 - INTRO FEMINST THGHT/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "introduction to feminist thought". It includes extra emphasis on, and credit for, instruction in writing skills.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0440 - MINDS AND MACHINES

Minimum Credits: 3
Maximum Credits: 3
This introductory level course is devoted to explicating and critically evaluating the thesis that the human mind, or at least its cognitive faculty, can be understood as a computing machine. Readings are primarily from contemporary authors, and include both scientists and philosophers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0441 - MINDS AND MACHINES/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "minds and machines".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0442 - MINDS AND MACHINES/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "minds and machines".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0450 - KNOWLEDGE & REALITY

Minimum Credits: 3
Maximum Credits: 3
This course gives a broad introduction to classic and contemporary work on central questions in metaphysics and epistemology. Central topics of concern will be the nature of reality and the possibility of knowledge. Along the way we will discuss skeptical arguments to the effect that knowledge of certain aspects of reality is impossible and classic and contemporary responses to them. We will also discuss a number of topics in metaphysics, which may include the nature of the self, time, the relationship between mind and body, the existence of god, and debates between idealists
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0452 - THRYS KNOWL & REALITY/WRIT LAB

Minimum Credits: 4
Maximum Credits: 4
This writing laboratory is the special writing recitation for the lecture course 'Theories of Knowledge & Reality'.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0460 - INTRO PHIL MIND

Minimum Credits: 3
Maximum Credits: 3
This course gives a broad introduction to contemporary work on the philosophy of mind. It will primarily focus on the nature of consciousness, the mind-body problem, and may include how we know the minds of other human beings, the nature of personal identity over time, as well as discussion of the theory of action.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0462 - INTRO PHIL MIND / WRITING LAB

Minimum Credits: 4
Maximum Credits: 4
This writing laboratory is the special writing recitation for the lecture course "Introduction to Philosophy of Mind".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0470 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
A critical examination of the rationality of faith in the existence of god. Traditional arguments both for and against the existence of god are considered, along with pragmatic justifications of faith based upon its beneficial consequences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0471 - PHILOSOPHY OF RELIGION/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course "philosophy of religion".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

PHIL 0472 - PHILOSPHY OF RLIGN/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "philosophy of religion".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0473 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
An examination of the arguments for and against the existence of god.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0500 - INTRODUCTION TO LOGIC

Minimum Credits: 3
Maximum Credits: 3
An introduction to the concepts and methods of modern deductive logic. Propositional logic is emphasized, but quantificational logic is touched upon.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0550 - FORML METHDS IN SCIENCE & PHIL

Minimum Credits: 3
Maximum Credits: 3
An introduction to such concepts and methods as probability, infinity, axiomatics (formal and informal), boolean algebra, methatheory, algorithms, and turning machines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0610 - PHILOSOPHY AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
An introductory course in philosophy of science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0612 - PHILOSOPHY & SCIENCE/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "philosophy and science".
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PHIL 0810 - FRESHMAN SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This is an intensive seminar for a small, select group of talented and highly motivated freshmen. Philosophical issues discussed vary considerably from year to year, but tend to be narrowly focused and topical.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PHIL 0830 - PHILOSOPHY FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
This is an intensive seminar for a small, select group of talented and highly motivated freshmen from the school of engineering. Philosophical issues discussed vary from year to year, but tend to be narrowly focused and topical.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PHIL 0840 - SCIENCE AND RELIGION

Minimum Credits: 3
Maximum Credits: 3
This introductory undergraduate course addresses two questions; does the scientific understanding of the world suffer from a kind of incompleteness that can be remedied by the supernaturalist religions? Or is there even a clash between contemporary science and such religion?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 0850 - PHILOSOPHY & LIBERAL DEMOCRACY

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to several problems common to philosophers and politics and introduces students to the different theories, modes of argument, and techniques of analysis used by the two disciplines to understand them. It is intended to help students deepen their understanding of the dominant political stance of our society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course; LVL: Fr, So, Jr

PHIL 0890 - TOPICS IN PHILOSOPHY (VARIOUS)
Minimum Credits: 3
Maximum Credits: 3
This intensive but introductory level seminar is reserved for special philosophical topics that do not fit standard course-catalog categories. Issues discussed vary from year to year, but tend to be narrowly focused and specialized.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PHIL 1010 - PRESOCRATIC PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course is a survey of major figures in Greek philosophy before Socrates and Plato.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1020 - PLATO
Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course examining Plato's main views both in their historical context, and as they influence our own thinking today; the relations between Socrates and the sophists are also studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: Any other Philosophy course.

PHIL 1040 - ARISTOTLE
Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course examining the basic concepts of Aristotle's metaphysics, physics, ethics and logic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1060 - HELLENISTIC PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of the three major schools of the Hellenistic age--the stoics, epicureans, and skeptics--and their views about ethics, epistemology, and the nature of reality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
An investigation of a particular topic or figure in the field of ancient philosophy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1080 - MEDIEVAL PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines selected major figures in European philosophy during the middle ages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1110 - RATIONALISM

Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of several important rationalist philosophers, such as Hobbes, Descartes, Spinoza, and Leibniz.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1140 - EMPIRICISM

Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of several important empiricist philosophers, such as Bacon, Locke, Berkeley, Hume, and Reid.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1170 - KANT

Minimum Credits: 3
Maximum Credits: 3
An introduction to the philosophy of Kant, focusing on the "critique of pure reason". The course seeks to enable the advanced undergraduate to understand the theories and arguments of this revolutionary and rewarding work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0210 or PHIL 0212 or any 1000-level Philosophy course.

PHIL 1180 - 19TH CENTURY PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
A survey, at the advanced undergraduate level, of the thought and unity of the three great German philosophers of the nineteenth century; Hegel, Marx, and Nietzsche.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1190 - TOPICS IN 19TH CENTURY PHIL

Minimum Credits: 3
Maximum Credits: 3
Topics vary. Typically the course will concentrate on the thought of a single nineteenth-century philosopher, such as Nietzsche, or on a prominent theme, such as idealism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1195 - NIETZSCHE

Minimum Credits: 3
Maximum Credits: 3
This course is a study of the genealogy of morality. It focuses in particular on Nietzsche's radical criticism of morality, and his proposal for a revaluation of all values.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1200 - 20TH CENTUR ANALYTC PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines major trends in contemporary analytic philosophy, including, for instance, some (but not all) of logical empiricism, logical positivism, Wittgenstein and his followers, ordinary language ("oxford") philosophy, quine and his followers, Sellars and his followers, and so on.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: Any other Philosophy course.

PHIL 1210 - TOPICS IN ANALYTIC PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course explores specific topics in contemporary analytic philosophy. These topics vary from year to year, but might include Russell and Moore, the verificationist theory of meaning, early (or late) Wittgenstein, philosophy as pseudo-problems; from Carnap to Ryle, the philosophy of quine (or Sellars, or Strawson, or Davidson, or...), And so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1220 - 20TH CENTURY CONTINENTAL PHIL

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate level survey of major trends in Twentieth-Century German and French philosophy, including, for instance, some (but not all) of hermeneutics, phenomenology, existentialism, structuralism, critical theory, and deconstruction. (Logical positivism is treated elsewhere, along with 20th-century analytic philosophy.)
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1225 - WITTGENSTEIN

Minimum Credits: 3
Maximum Credits: 3
In depth study of some central sections of Wittgenstein's philosophical investigations. Objective will be not only to improve understanding of issues about language, mind, and reality raised in that brilliant but cryptic work, but also to situate the work historically in relation to Wittgenstein's earlier masterpiece tractatus logico-philo sophicus; the analytic tradition in 20th century philosophy; and modern philosophy in general.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1230 - TOPICS IN CONTINENTL PHILOSPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course explores specific topics in contemporary continental philosophy. These topics vary from year to year, but might include Husserlian phenomenology, early (or late) Heidegger, the development of hermeneutic theory, the Frankfurt school, Sartre and Camus, or Foucault and Derrida.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1240 - AMERICAN PRAGMATISM

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course in the "classical" American pragmatists, especially Pierce, James, Dewey, and Mead.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1250 - GERMAN PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
The readings for this course will be drawn from a wide range of German philosophers from Kant to Wittgenstein (e.g., Hegel, Nietzsche, Freze, Heidegger, and Carnap). The emphasis will be on learning to read difficult philosophical texts in the original language and learning to translate them into English. Some reading knowledge of German and some previous exposure to philosophy are prerequsites for this course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1270 - NON-WESTERN PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course concentrates on a few selected figures or problems in non-Western philosophical thought. The selection will vary from one offering of the course to another.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1290 - TOPICS IN HISTRY OF PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course devoted to special topics in the history of philosophy that do not naturally fall into any of our regular courses. Topics and periods covered will vary each time the course is offered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0200 or PHIL 0210 or PHIL 1010 or PHIL 1020 or PHIL 1040 or PHIL 1060 or PHIL 1070 or PHIL 1080 or PHIL 1110 or 1120 or PHIL 1140 or PHIL 1170 or PHIL 1310

PHIL 1300 - ETHICAL THEORY
Minimum Credits: 3
Maximum Credits: 3
An advanced undergraduate examination of various topics in ethical theory, such as ethical relativism, subjective and objective value, the relation of reason and ethics, ethical realism, utilitarianism and contractarianism, and virtues and vices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0300 or PHIL 0330 or PHIL 0332 or PHIL 0350 or any 1000 level Philosophy course.

PHIL 1310 - HISTORY OF ETHICS
Minimum Credits: 3
Maximum Credits: 3
An examination of some of the principal moral philosophers in one or more of the major historical periods from Homeric times to the present day--such as Plato, Aristotle, Aquinas, Hobbes, Hume, Kant, Nietzsche, Mill, and Rawls.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1315 - APPLIED ETHICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1320 - TOPICS IN SOCIAL PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course concentrates on a few selected philosophical problems concerning the nature of society; the selection will vary from one offering of the course to another. The course may be historical or topical in approach.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1330 - TOPICS IN POLITICAL PHILOSOPHY
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course concentrates on a few selected philosophical problems concerning the nature and justification of government; the selection will vary from one offering of the course to another.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1340 - FEMINIST PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
A comparison of biological, psychological, and economic theories of the nature and causes of the oppression of women. Authors studied might include de Beauvoir, Freud, Marx, Veblen, and Emma Geldman.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1350 - MARXIST PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course studies the philosophical views of Marx and other Marxist thinkers, particularly those concerning economic theory, society, government, and history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1360 - BIOMEDICAL ETHICS

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines a selection of ethical problems arising in medicine, such as euthanasia, abortion, and the allocation of resources, and/or ethical issues relating to other species, such as vegetarianism, animal rights, and possible interplanetary morality. The selection will vary from one offering of the course to the next.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1370 - PHILOSOPHY OF ART

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course addresses philosophical problems that arise in connection with art, such as the nature of works of art, the comparison and contrast between representational and non-representational art, the definition of beauty, and special obligations concerning art works.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1380 - BUSINESS ETHICS

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course considers a selection of ethical issues that arise in connection with business needs and practices, such as employer-employee relations, truth in advertising, responsibilities to consumers, fair and unfair competitive practices, environmental effects, contractual obligations, liability for damages, and governmental regulation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1385 - ETHICS AND ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Contemporary societies, at least in the West, are often characterized in terms of two basic social institutions: liberal democracy and free-market capitalism. This course explores the latter of these institutions in a philosophical context. In doing so we will discuss the nature and origins of market capitalism - free or otherwise - but our primary focus will be on the moral status of the market as a social institution. Are markets a source of personal and collective virtue or a universal ethicalsolvent that reduces men to base motivations of envy and greed? Are they a necessary foundation of individual freedom or an existential threat to personal autonomy? And is market capitalism in some sense the natural economic analogue to liberal democracy or is there a deep conflict between the ideal at work in these two forms of social life? We will begin by reading a number of classic answers to these questions, before moving on to discuss them in the context of a number of ethical issues raised by contemporary forms of capitalism. In doing so, our aim will be to move beyond simple, ideologically-motivated positions "for" and "against" market capitalism, towards a more

nuanced understanding of the moral status of markets as social institutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1390 - PHILOSOPHY OF LAW

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines a selection of philosophical questions that arise in connection with the theory and practice of law, including constitutional, criminal, and tort law. Topics might include such issues as the comparative role of judges and legislators in making law, the nature of justice, and the relation of law to morality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1395 - ETHICS & PRACTICAL REASON

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1400 - RIGHTS & HUMAN RIGHTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1410 - PHILOSOPHY OF ACTION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1420 - PHILOSOPHY OF LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course in recent and contemporary philosophy of language; topics covered vary somewhat, but typically include many of: reference and descriptions, empiricist criteria of meaning, truth, the theory of speech acts, the analytic-synthetic distinction, theory of translation, possible worlds semantics, pragmatic theories of meaning, and so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Philosophy Course

PHIL 1440 - PHILOSOPHY OF MIND

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course in the philosophy of mind, taking up problems of both historical and contemporary interest. Topics vary, but are likely to include many of mind-body dualism, materialist reductionism, phenomenalism, the other-minds problem, philosophical behaviorism, qualia, propositional attitude ascriptions, intentionality, and so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1455 - PHIL COGNITV & NEURAL SCIENCES

Minimum Credits: 3
Maximum Credits: 3
This course will explore topics at the intersection of the philosophy of mind, and scientific investigation of the mind and brain (as in psychology, cognitive science, neuro biology, etc.).
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1460 - THEORY OF KNOWLEDGE

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course in recent and contemporary epistemology. Topics vary somewhat, but generally include many of the following: skepticism, sense data and the myth of the given, induction and confirmation, definition of "knowing-that-p", holism and coherence, the status of common sense, and so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1470 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines critically a selection of philosophical issues that arise in connection with religious faith, such as the rationality of believing in the existence of god, possible pragmatic justifications of faith based upon its beneficial consequences, relations between religious and scientific knowledge, and so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1480 - METAPHYSICS

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course considers a selection of central problems in metaphysics, such as the problems of realism, essentialism, free will, necessity and possibility, substance and property, persistence through time (including personal identity), the nature of truth, and so on.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1490 - TOPICS IN SYSTEMATIC PHILOSPHY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course devoted to specific problem areas in contemporary philosophy that are not dealt with in regular courses. Thus, the topics covered will vary considerably from one offering of the course to the next, but they might include such things as the theory of action, the philosophy of history, the free-will problem, realism and relativism, personal identity, and such like.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1500 - SYMBOLIC LOGIC

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course develops skills in formal and informal reasoning in predicate-quantifier logic, and covers formal semantics for sentential logic, informal semantics for predicate-quantifier logic, and elementary syntactic metatheory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0500

PHIL 1520 - LOGICAL METATHEORY

Minimum Credits: 3
Maximum Credits: 3
A study of some of the fundamental concepts, results, and proofs in symbolic logic. Topics to be covered include propositional and predicate calculi, first-order theories and their models, Loewenheim-Skolem theorem, Peano arithmetic, and Goedel's incompleteness theorem.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 1500

PHIL 1530 - SET THEORY
Minimum Credits: 3
Maximum Credits: 3
An elementary development of axiomatic set theory, together with a philosophical discussion of set-theoretic foundations of mathematics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0500

PHIL 1540 - COMPUTABILITY THEORY
Minimum Credits: 3
Maximum Credits: 3
An introduction to the theory of computability. Topics include models of computation, decidability, enumerability, computational complexity, and computability and the philosophy of mind.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 1500

PHIL 1550 - PROBABILITY AND INDUCTION
Minimum Credits: 3
Maximum Credits: 3
A survey of major issues regarding inductive reasoning in everyday life and in science. Various concepts of probability will be examined and related to human decision making. The classic problems of justification and induction, due to David Hume, will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0500

PHIL 1555 - RATIONALITY
Minimum Credits: 3
Maximum Credits: 3
This course will focus on an influential analysis of rationality: the game-theoretic notion, which has agents attempting to maximize their expected utility. We will consider the foundations of this approach, criticisms of it, and applications of it to several areas of philosophy (including political philosophy, philosophy of language, and philosophy of science).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1580 - PHILOSOPHY OF MATHEMATICS
Minimum Credits: 3
Maximum Credits: 3
A survey of issues in the philosophy of mathematics, emphasizing both a historical perspective and contemporary logical foundations of mathematics. Special attention is given to geometry or number theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 1500

PHIL 1590 - TOPICS IN LOGIC
Minimum Credits: 3
Maximum Credits: 3
An advanced undergraduate course concentrating on some special topic in logic, such as algebraic logic, modal logic, relevance logic, theory of truth, applications of logic to philosophy of science, or foundations of measurement.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHIL 0500

PHIL 1600 - PHILOSOPHY & RISE MDRN SCIENCE
Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course explores the mutually reinforcing relationships between modern philosophy and modern empirical science in and around the seventeenth century. Authors studied might include Copernicus, Galileo, Bacon, Descartes, Locke, Newton, and Leibniz, as well as contemporary historians of science and philosophy.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1610 - INTRO TO PHILOSOPHY OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course provides a broad, introductory survey of current issues in philosophy of science and treats philosophical problems such as confirmation, which are common to all sciences, as well as problems peculiar to individual sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1612 - PHIL OF 20TH CENTURY PHYSICS

Minimum Credits: 3
Maximum Credits: 3
An examination of the fascinating philosophical problems to which modern physical theories have given rise. No previous formal training in physics or mathematics will be presupposed, since the basic physical ideas needed will be introduced largely qualitatively with an emphasis on concepts rather than equations. Topics will vary from year to year with instructor, but center around classical mechanics, quantum mechanics, and relativity theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1620 - PHILOSOPHY OF SOCIAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Problems of explanation, confirmation, concept formation, and methodology in such sciences as anthropology, economics, political science, psychology and sociology. Comparison among social, biological, and physical sciences with respect to methodology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1625 - PHILOSOPHY OF MEDICINE

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to philosophical and yet practical issues in medical science. Students will examine the concepts of 'health', 'normality', and 'disease', and also some representative theories in clinical biochemistry, microbiology and physiology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1630 - PHILOSOPHY OF ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines philosophical problems that arise in connection with scientific anthropology including especially methodological issues concerning cross-cultural investigation concept formation explanation theory and value relativity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1640 - PHILOSOPHY OF PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course covers such topics as mind-body reductionism, behaviorism, functionalism, cognitivism, and the relation of artificial intelligence research to psychological theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1650 - PHILOSOPHY OF BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Philosophy of biology will consider foundational conceptual issues in biology like the nature and structure of biological explanation, the possibility of laws in evolutionary theory, the relationship between different causal components of biological processes (genetics and development), the problem of species reality and classification, the explanatory character of ascription of biological function, and the extension of biological explanations to human psychology and culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1660 - PARADOX

Minimum Credits: 3
Maximum Credits: 3
This course explores paradoxes both for the fun of untangling an intriguing puzzle and for the more serious reason of the easy access they provide to some of the most important foundations issues in philosophy and the sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1670 - PHILOSOPHY OF NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course will serve as in introduction to the conceptual problems around neuroscience for students with and without a background in experimental neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHIL 1682 - FREEDOM AND DETERMINISM

Minimum Credits: 3
Maximum Credits: 3
This course analyzes three concepts of determinism--the logical determinism, logical determinism or fatalism, and physical determinism--and examines the various philosophical arguments designed either to show that determinism and free will do clash or alternatively that they are reconcilable.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1690 - TOPICS IN PHILOSPHY OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Discussion, at the advanced undergraduate level, of selected problems such as confirmation, concept formation, the nature of theories. In any given term, the course might focus on problems in physical, biological, or social sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1762 - GUIDE OF THE PERPLEXED

Minimum Credits: 3
Maximum Credits: 3
Moses Maimonides (1138-1204) was the greatest Jewish thinker of the medieval period, and remains highly influential today. Born in Spain, he became the leading rabbinic authority of his time by writing a compendium of Jewish law, the Mishnah torch. He was also famous as a physician and author of medical works. His widest impact, however, has been through his masterpiece of philosophy of religion, the guide of the perplexed. This engaging, elusive book is important not only for its influence on such major thinkers as Aquinas, Spinoza, Leibniz, and Newton, but also for its insight into questions of religion and rationality. In this course we will study virtually all of the guide, giving special attention to Maimonides' account of the fall, his theory of religious language, his arguments for the existence of god, his doctrine of creation, his teachings on religious experience, prophecy, and revelation, and his views on human perfection and immortality. In our sessions we will work closely and carefully through the text, at each step following up Maimonides' hints and challenges to his readers. Our goal will be, not merely to appreciate the surface purport of the book, but also to discern its deeper implications, through which Maimonides sought to suggest, to a few of his readers, the secret meaning of the bible itself.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PHIL 1800 - PHILOSOPHY AND ANIMALS

Minimum Credits: 3
Maximum Credits: 3
An advanced undergraduate course dealing with the philosophical conceptions of animals found in the works of various philosophers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1840 - SCIENCE AND RELIGION

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course addresses two questions: does the scientific understanding of the world suffer from a kind of incompleteness that can be remedied by the supernaturalist religions? Or is there even a clash between contemporary science and such religion?
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1890 - ISSUES IN PHILOSOPHY (VARIOUS)

Minimum Credits: 3
Maximum Credits: 3
This intensive, advanced-level seminar is reserved for special philosophical topics that do not fit standard course-catalog categories. Issues discussed vary from year to year, but tend to be narrowly focused and specialized.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Other Philosophy Course

PHIL 1901 - INDEPENDENT STUDY--UNDERGRADUT

Minimum Credits: 1
Maximum Credits: 9
This course is a way of offering university credit in philosophy for relevant experiences or work undertaken independently, with little or no formal interaction with an instructor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PHIL 1902 - DIRECTED STUDY--UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 9
This course provides an individualized study program, on a topic not covered in the regular curriculum, under the close supervision of a faculty advisor. The student is generally expected to produce a substantial piece of written work.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHIL 1903 - DIRCTED RESEARCH--UNDERGRADUT

Minimum Credits: 1
Maximum Credits: 9
This course is a way of offering university credit in philosophy for research work undertaken by a student under the direction of a faculty member in connection with that faculty member's own research.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHIL 1940 - HONORS THESIS/MAJORS

Minimum Credits: 3
Maximum Credits: 3
This is a special directed study for senior philosophy majors who wish to write an honors thesis over two terms. Use course PHIL 1941 for the second term.
Academic Career: UGRD

Course Component: Directed Studies
Grade Component: Letter Grade

PHIL 1941 - HONORS THESIS 2/MAJORS
Minimum Credits: 3
Maximum Credits: 3
This is the second term of course PHIL 1940.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

PHIL 1942 - HONORS THESIS 3/MAJORS
Minimum Credits: 6
Maximum Credits: 6
This is a special directed study for senior philosophy majors who wish to write an honors thesis in one term.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

Physics & Astronomy

PHYS 0080 - SCIENCE AND PSEUDOSCIENCE
Minimum Credits: 3
Maximum Credits: 3
This course examines the characteristics of scientific endeavor, and the ways in which pseudosciences differ from sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0020 or MATH 0025 or MATH 0031) or CREQ: (MATH 0032 or MATH 0100 or MATH 0120 or MATH 0125 or MATH 0200 or MATH 0220)

PHYS 0081 - SPACE & TIME, LIGHT & MATTER
Minimum Credits: 3
Maximum Credits: 3
This course introduces non-science students to the ideas of physics, with emphasis on modern physics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

PHYS 0082 - SCIENCE OF MUSICAL SOUNDS
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the physical ideas underlying musical phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

PHYS 0086 - PHYSICS AND PUBLIC POLICY
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the physical ideas involved in understanding and evaluating some of the important issues facing society at large.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0087 - PHYSICS AND SOCIETY
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the physical ideas underlying the role of nuclear science in modern life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

PHYS 0088 - THE PHYSICS OF ENERGY

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course on energy. The course will describe both qualitatively and quantitively energy use, energy generation, and sources of energy. In this course, we will explore potential energy sources and the limitations of potential energy sources for specific practical applications. The course will also describe many of the basic physical considerations related to climate change as this phenomenon has now become intimately connected with energy use.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

PHYS 0089 - PHYSICS AND SCIENCE FICTION

Minimum Credits: 3
Maximum Credits: 3
This course looks at some of the physical ideas underlying stories by leading writers of science fiction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

PHYS 0106 - BASIC PHYS SCIENCE & ENGRG 3

Minimum Credits: 3
Maximum Credits: 3
This is the third term of a three-term, calculus-based sequence in introductory physics. This term deals with electromagnetism, waves and optics, and modern physics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0110 - INTRODUCTION TO PHYSICS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a two-term, algebra-based sequence in introductory physics. This term deals with mechanics, heat and thermodynamics, and waves.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031

PHYS 0111 - INTRODUCTION TO PHYSICS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a two-term, algebra-based sequence in introductory physics. This term deals with electricity and magnetism, optics, and modern physics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0110 or PHYS 0174 or PHYS 0475; MIN GRAD: 'C' for all listed Courses

PHYS 0174 - BASC PHYS SCI & ENGR 1 (INTGD)

Minimum Credits: 4
Maximum Credits: 4
The integrated curriculum version of PHYS 0104, the first part of a two-term sequence (PHYS 0174-PHYS 0175) introduces students to the basic principles of mechanics. An effort has been made to achieve a better integration of physics with the first term of calculus, engineering, and chemistry. The theory of waves and the kinetic theory of gases will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0220 or MATH 0235

PHYS 0175 - BASC PHYS SCI & ENGR 2 (INTGD)

Minimum Credits: 4
Maximum Credits: 4
The integrated curriculum version of PHYS 0105, the second part of a two-term sequence (PHYS 0174-PHYS 0175), introduces students to the basic principles of physics. An effort has been made to achieve a better integration of physics with the first term of calculus, engineering, and chemistry. Modern physics (special relativity, elementary quantum mechanics, and atomic structure) will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0174 MIN GRAD 'C' or PHYS 0475 MIN GRAD 'C') and (MATH 0235 : MIN GRAD 'C') or [(PHYS 0174 or PHYS 0475 MIN GRAD 'C-') and CREQ: MATH 0230]

PHYS 0210 - INTRO TO PHYSICS TEACHING

Minimum Credits: 2
Maximum Credits: 2
This course is aimed at science and engineering majors interested in learning more about physics teaching. It will introduce cognitive research and principles of learning, provide models of good physics instruction, and give students opportunities to develop and present a physics concept to an introduction physics recitation class. The lesson that students will deliver in the recitations will be developed under the guidance of the instructor, undergoing multiple drafts, and discussion in the class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0212 - INTRO TO LABORATORY PHYSICS

Minimum Credits: 2
Maximum Credits: 2
This is an introductory physics laboratory associated with the PHYS 0110-PHYS 0111 sequence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 0111 or PHYS 0175 or PHYS 0476

PHYS 0219 - BASIC LAB PHYS SCIENCE & ENGRG

Minimum Credits: 2
Maximum Credits: 2
This is an introductory physics laboratory associated with the physics 0104-0105-PHYS 0106 sequence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 0175 or PHYS 0476

PHYS 0475 - INTRO PHYS SCIENCE & ENGRG 1

Minimum Credits: 4
Maximum Credits: 4
This is the first term of a two-term honors version of the physics 0104-0105-PHYS 0106 sequence. This term deals with mechanics, waves and thermodynamics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0230 or MATH 0235

PHYS 0476 - INTRO PHYS SCIENCE & ENGRG 2

Minimum Credits: 4
Maximum Credits: 4
This is the second term of a two-term honors version of the physics 0104-0105-PHYS 0106 sequence. This term deals with electricity and magnetism, relativity, and an introduction to modern physics and quantum phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [PHYS 0174 (MIN GRADE 'B') or PHYS 0475 (MIN GRADE 'C')] and (MATH 0230 or MATH 0235); CREQ: MATH 0240

PHYS 0477 - INT THERMAL AND MODERN PHYSICS

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0175 (B- or better) or PHYS 0476 (C or better)

PHYS 0478 - THE UNIVERSE

Minimum Credits: 3
Maximum Credits: 3
Intended for honors students who are not physics majors the course will be directed mainly to social science and humanities students. Topics: review of needed mathematics. Survey of objects in the sky. Survey of the basic physics needed for the course: mechanics, gravity, energy, electromagnetic waves, optics, atomic and nuclear physics. Sun, stable stars, instable stars, novas, doublestars. Evolution of stars: pulsars, neutron stars, black holes. Star cluster, globular cluster. Between the stars. Quiet, active and radio galaxies, quasars. Cosmology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0479 - PRINCIPLES OF MODERN PHYSICS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a two-term, intermediate level course in modern physics. This term deals with special relativity, molecular theory of gases, the development of quantum theory, and an introduction to quantum mechanics and its applications to atomic structure.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [PHYS 0175 (MIN GRAD: 'C') or PHYS 0476 (MIN GRAD: 'C-')]; CREQ: MATH 0240

PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a two-term intermediate-level course in modern physics. This term deals with further applications of quantum mechanics to atoms, molecules, and solids, as well as an introduction to the physics of nuclei and particles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0477 or PHYS 0479 MIN GRAD: 'C' for all listed Courses

PHYS 0520 - MODERN PHYSICS MEASUREMENTS

Minimum Credits: 3
Maximum Credits: 3
This honors laboratory course provides an introduction to the scientific questions and techniques in modern physical measurements, including exposure to various current experimental puzzles and accomplishments, hands-on experience with research grade equipment and microcomputer-controlled data acquisition interfaces, data analysis (and simple data analysis programs), prior preparation for data taking, and error estimation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0175 or PHYS 0476

PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS

Minimum Credits: 3
Maximum Credits: 3
A laboratory course designed to introduce the student to contemporary analog and digital electronics techniques used in basic science and engineering research. Topics include the study of measurement instruments, passive circuits, diode and transistor circuits, operational amplifiers and feedback, digital gates, analog to digital and digital to analog circuits. The course consists of a lecture and a lab.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0219 or PHYS 0520; MIN GRADE: 'C' for listed Courses

PHYS 0577 - MODERN PHYSICAL MEASUREMENTS

Minimum Credits: 4
Maximum Credits: 4
This is an honors course that provides an introduction to the scientific basis of modern methods of physical measurements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0679 - PRIN OF MODERN PHYS 1/WRITING

Minimum Credits: 1
Maximum Credits: 1
This is a writing practicum to accompany PHYS 0479.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 0479; PLAN: Physics(BS) or Physics and Astronomy(BS, BA)

PHYS 0681 - IDEAS MODERN PHYSICS/WRIT PRAC

Minimum Credits: 0
Maximum Credits: 0
This is a writing practicum to accompany PHYS 0081.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 0959 - APPLD ELECTRICITY & MAGNETISM

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course in electricity and magnetism that is less mathematical and more oriented toward problem-solving than physics 0160.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 1110 - SPECIAL TOPICS

Minimum Credits: 1
Maximum Credits: 9
This course is offered when a particular upper level topic not in the regular curriculum is being offered.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHYS 1146 - NUCLR MAGNTC RESON BIOMDCL SCI

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to new advances in the field of NMR in biomedical sciences. It covers the following topics: fundamentals of NMR; new techniques such as NMR imaging and in vivo spectroscopy as well as pulse techniques and NMR microscopy; and applications of NMR to investigate macromolecular structures, interactions, and dynamics as well as cellular structures and metabolism in selected regions of tissues and organs of living animals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 1310 - UNDERGRADUATE SEMINAR

Minimum Credits: 1
Maximum Credits: 1
The undergraduate seminar provides a venue for students to discuss topics of interest in physics and astronomy. It gives students experience presenting research in the form of a poster presentation. The seminar will give the students a taste of what conducting scientific research and presenting scientific results is all about.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or PHYS 0479) and (PHYS 0520 or PHYS 0525 or PHYS 1361 or PHYS 1426 or ASTRON 1263) or (PHYS 0219 and ASTRON greater than or equal to ASTRON 1120 or PHYS greater than or equal to PHYS 1321

PHYS 1311 - UNDERGRADUATE SEMINAR

Minimum Credits: 1
Maximum Credits: 1
The undergraduate seminar provides a venue for students to discuss topics of interest in physics and astronomy. It gives students experience presenting research, both as a short oral communication, and in the form of a poster presentation, in formats similar to conference talks and poster papers given by researchers in the field at topical meetings. The seminar will give the students a taste of what conducting scientific research, and presenting scientific results, is all about.
Academic Career: UGRD
Course Component: Seminar

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1310

PHYS 1313 - PHOTONICS SEMINAR

Minimum Credits: 1
Maximum Credits: 1
The overall aim of the course is to expose students to work on the cutting edge of photonics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

PHYS 1321 - COMPUTATNAL METHODS IN PHYSICS

Minimum Credits: 3
Maximum Credits: 3
The students will learn how to program a computer rather than to use existing programs. Lectures will explain the strategies in approximation and good programming technique. Then, homework problems will provide the student with their own experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: (PHYS 0477 or PHYS 0479) and (PHYS 0219 or PHYS 0520 or CS 0008 or ENGR 0012) and MATH 0240 and (MATH 0290 or MATH 1270)

PHYS 1331 - MECHANICS

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course dealing with classical mechanics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0175 or PHYS 0476) and MATH 0240 MIN GRAD: 'C' for listed Courses]; CREQ: (MATH 0280 or MATH 1180 or MATH 1185) and (MATH 0290 or MATH 1270)

PHYS 1341 - THERMDYNMC & STATISCAL MECHANC

Minimum Credits: 3
Maximum Credits: 3
This course deals with the basic ideas of equilibrium thermodynamics and statistical mechanics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or PHYS 0479) and MATH 0240 and (MATH 0290 or MATH 1270); MIN GRAD: 'C' for all listed Courses

PHYS 1351 - INTERMEDT ELECTRCITY/MAGNETISM

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course in electricity and magnetism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(PHYS 0175 or PHYS 0476) and MATH 0240; MIN GRAD: 'C' for listed Courses)]; CREQ: MATH 0290 or MATH 1270

PHYS 1361 - WAVE MOTION AND OPTICS

Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. ECE 1241 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECE 1240 or CHEM 1470 or PHYS 1363; PROG: Swanson School of Engineering

PHYS 1363 - PHOTONICS 1

Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs

today. Physics 1363 (photonics 1) will focus on the basic theory of optics in anisotropic and nonlinear media and the basic methods of modulating and controlling light, while PHYS 1364 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 1364 - PHOTONICS 2

Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. Physics 1364 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 1365 - PHOTONICS LAB

Minimum Credits: 1
Maximum Credits: 1
The course will have three segments: (1) optical design using the Oslo computer program, (2) high-power lasers, and (3) fiber optics. The course is designed to accompany the photonics 1 and 2 theory course, which have a theoretical text already generated by the instruction team.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PHYS 1370 - INTRO TO QUANTUM MECHANICS 1

Minimum Credits: 3
Maximum Credits: 3
This is the first-term of a two-term introduction to quantum mechanics. This term introduces the necessary formalism and treats some of its basic applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or PHYS 0479) and (MATH 0280 or MATH 1180 or MATH 1185); CREQ: PHYS 1331 and PHYS 1351; MIN GRAD: 'C' for all listed Courses except PHYS 0477

PHYS 1371 - INTRO TO QUANTUM MECHANICS 2

Minimum Credits: 3
Maximum Credits: 3
This is the second-term of a two-term introduction to quantum mechanics. The quantum formalism developed in the first term will be applied in a variety of physical situations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1370; MIN GRAD: 'C'

PHYS 1372 - ELECTROMAGNETIC THEORY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course in which Maxwell's equations are applied to a variety of electromagnetic phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0477 or PHYS 0479) and PHYS 1351 and (MATH 0280 or MATH 1180 or MATH 1185); CREQ: PHYS 1331; MIN GRAD: 'C-' PHYS 1351 / MATH 0280, MATH 1180, MATH 1185

PHYS 1373 - MATHEMATCL METHODS IN PHYSICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with mathematical techniques that are commonly used in physics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 1370

PHYS 1374 - SOLID STATE PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0477 or PHYS 0479 or CHEM 0710 or CHEM 1410

PHYS 1375 - FOUNDATIONS OF NANOSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PHYS 1376 - INTRO TO BIOLOGICAL PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PHYS 0111 or PHYS 0175 or PHYS 0476) and [(MATH 0230 or MATH 0235) or (MATH 0220 and STAT 1000)]

PHYS 1378 - INT TO NUCLR & PARTCL PHYSICS

Minimum Credits: 3
Maximum Credits: 3
This course gives an introduction into the theory concepts and the experimental methods used for nuclear and particle physics research. While some of the basic principles will be discussed from a historical perspective, the emphasis of this course is on modern developments, such as the standard model and the Higgs Boson, supersymmtry, extra dimensions, dark matter, CP-violation and baryogenesis, and neutrino oscillations. The main aspects of physics processes will be understood and calculated from symmetry principles and kinematics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 1370

PHYS 1426 - MODERN PHYSICS LABORATORY

Minimum Credits: 2
Maximum Credits: 2
This is an advanced laboratory course that introduces students to the experimental techniques and equipment used in research laboratories.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0525 and (PHYS 0477 or PHYS 0479)

PHYS 1626 - MODERN PHYSICS LAB/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This is a writing practicum to accompany physics 1226.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 1426 or ASTRON 1263; PLAN: Physics(BS) or Physics and Astronomy (BS, BA) or Astronomy (BA)

PHYS 1661 - WAVE MOTION & OPTICS/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This is a writing practicum to accompany PHYS 1361.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PHYS 0520 or PHYS 1361; PLAN: Physics(BS) or Physics and Astronomy(BS, BA)

PHYS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 9
This course places the student in an "on-the-job" setting in which they receive practical experience in a supervised training environment.
Academic Career: UGRD

Course Component: Internship
Grade Component: LG/SNC Elective Basis

PHYS 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 9
This course gives students the opportunity to design and carry out an individual project not covered by any course offerings.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PHYS 1902 - DIRECTED READING
Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design a plan of reading to be agreed upon by the student and a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHYS 1903 - DIRECTED RESEARCH
Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design and carry out a research project to be agreed upon by the student and a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PHYS 1917 - MODERN PHYSICS ATOMS & NUCLEI
Minimum Credits: 3
Maximum Credits: 3
This course is an intermediate-level introduction to modern physics with a greater emphasis on applications of atomic and nuclear physics than in physics 1119.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Physics and Astronomy

ASTRON 0080 - OBSERVATIONAL ASTRONOMY LAB
Minimum Credits: 1
Maximum Credits: 1
This is an observation-oriented course that will meet at Allegheny observatory. It is for students who have a sincere desire to become familiar with the nature and motions of astronomical objects in the night sky and techniques to observe them, including the use of telescopes and astrophotography.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

ASTRON 0086 - OBSERVATIONAL ASTRONOMY
Minimum Credits: 3
Maximum Credits: 3
This course is for students who have a desire to become familiar with the nature and motions of celestial objects in the night sky and techniques to observe them. The course will be given at a level suitable for both science and non-science majors who want to learn how to use a telescope and enjoy observational and practical astronomy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater)

ASTRON 0087 - BASICS OF SPACE FLIGHT
Minimum Credits: 3
Maximum Credits: 3
Intended for non-science majors, this course focuses on identifying and understanding the general concepts associated with space flight.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater)

ASTRON 0088 - STONEHENGE TO HUBBLE

Minimum Credits: 3
Maximum Credits: 3
A course focusing on practical astronomy and providing a historical perspective of our place in the universe. Phenomena that can be readily observed with the unaided eye or a small telescope are discussed. The historical perspective starts with the earliest views, and discusses scientific discovery as a process leading up to modern ideas of the expanding universe of galaxies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater)

ASTRON 0089 - STARS, GALAXIES AND THE COSMOS

Minimum Credits: 3
Maximum Credits: 3
This course deals primarily with astronomical objects lying outside our solar system. The level is appropriate for non-science students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: Any MATH Course or MATH PLACEMENT SCORE (61 or Greater)

ASTRON 0111 - THE SOLAR SYSTEM

Minimum Credits: 3
Maximum Credits: 3
This course is a survey of the solar system at a level appropriate for students of science and engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASTRON 0112 - STARS, GALAXIES AND COSMOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course deals with stars, galaxies, and the large-scale structure and evolution of the universe at a level appropriate for students of science and engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASTRON 0113 - INTRODUCTION TO ASTRONOMY

Minimum Credits: 3
Maximum Credits: 3
Topics covered include: size scales in the universe; some fundamental physics; telescopes; overview of phenomena in the solar system; stellar distances, motions, luminosities, and temperatures; the HI diagram, stellar interiors and energy generation; the formation of stars and evolution to their final stages (white dwarfs, neutron stars, and black holes); the ism; star clusters; the milky way galaxy; types of galaxies; the expansion of the universe; active galaxies and quasars; dark matter; galaxy formation and clustering; cosmology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

ASTRON 0413 - HONORS INTRODUCTION ASTRONOMY

Minimum Credits: 4
Maximum Credits: 4
This course will be an introduction to astronomy and astrophysics. The 4-credit honors course will consists of all aspects of the 3-credit course, including lectures and homework with additional problems tailored for this course. ASTRON 0413 includes an additional 50-minute class session each week. In these extra sessions, basic topics will be covered in more detail than in ASTRON 0113. These extra sessions will also involve significant problem solving and discussions of the derivations of fundamental results in astronomy and astrophysics. Students considering a major in physics, astronomy, or physics and astronomy are strongly encouraged to take ASTRON 0413 instead of ASTRON 0113.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0230 or MATH 0235) and (PHYS 0110 or PHYS 0174 or PHYS 0475)

ASTRON 1100 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASTRON 1119 - PRINCIPLES OF MODERN ASTRONOMY
Minimum Credits: 3
Maximum Credits: 3
This is an advanced-level survey of astrophysical methods and phenomena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASTRON 1120 - STARS; STELLAR STRUCT & EVOLT
Minimum Credits: 3
Maximum Credits: 3
Topics covered include: stellar properties (mass, radius, luminosity, temperature); deductions from binary stars; the sun; the HR diagram; stellar atmospheres and interiors; stars in hydrostatic and thermal equilibrium; equations of state for a perfect gas and for degenerate matter; energy generation and nuclear fusion reactions; opacities; life histories of stars according to mass; star formation; main sequence stars; red giants; white dwarfs; red supergiants; supernovae; neutron stars (pulsars); black holes; evolution of binary systems; results from clusters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ASTRON 0113 and MATH 0240 and (MATH 1270 or MATH 0290 or MATH 0250); CREQ: PHYS 0477 or 0479

ASTRON 1121 - GALAXIES AND COSMOLOGY
Minimum Credits: 3
Maximum Credits: 3
Topics covered include: the milky way galaxy and its properties; external galaxies and their properties; evolution of galaxies; the expansion of the universe (Hubble Law) and the Extragalactic Distance Scale; Clustering of Galaxies; Dark Matter; Active Galaxies and Quasars (models with supermassive black holes); General Relativity, Cosmology, and the Big Bang Model; the Age and fate of the Universe; the History of the Early Universe (Inflation, Nucleosynthesis of Light Elements, 3 degree background radiation; the IgM and Galaxy Formation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ASTRON 0113 and MATH 0240 and (MATH 1270 or 0290 or 0250); CREQ: PHYS 0477 or 0479

ASTRON 1122 - SOLR SYS EXTRASOLAR PLANETS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ASTRON 1263 - TECHNIQUES OF ASTRONOMY
Minimum Credits: 3
Maximum Credits: 3
The course will roughly be divided into three parts: (1) telescopes, instrumentation, and detectors for radio, IR/ optical/UV, X-Ray, and gamma-ray astronomy. (2) Theoretical foundations of observational techniques, (astronomical coordinates, data acquisition, and sources of noise), data processing, analysis techniques, statistics, and model fitting. (3) Practical problems in making observations, data processing, and data analysis, with special attention paid to understanding errors and uncertainties in results.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ASTRON 0113 and (PHYS 0175 or 0476) and (PHYS 0219 or 0520)

ASTRON 1900 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 9
This course places the student in an on-the-job" setting in which they receive practical experience in a supervised training environment."
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

ASTRON 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 9
This course gives students the opportunity to design and carry out an individual project not covered by any course offerings.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ASTRON 1902 - DIRECTED READING
Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design a plan of reading to be agreed upon by the student and a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

ASTRON 1903 - DIRECTED RESEARCH
Minimum Credits: 1
Maximum Credits: 9
This course is designed to give students the opportunity to design and carry out a research project to be agreed upon by the student and a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Polish

POLISH 0010 - ELEMENTARY POLISH 1
Minimum Credits: 4
Maximum Credits: 4
A traditional four-skill language course, with equal emphasis on speaking, reading, writing, and listening. By the end of the first semester, students have developed a good polish accent and the ability to converse on many practical subjects, including family, friends, work, studies, free time and lifestyle.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0011 - SELF-PACED POLISH 1A
Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0010. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0012 - SELF-PACED POLISH 1B
Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0010. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0013 - SELF-PACED POLISH 1C
Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0010. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading

standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0014 - SELF-PACED POLISH 1D

Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0010. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0020 - ELEMENTARY POLISH 2

Minimum Credits: 4
Maximum Credits: 4
A continuation of elementary POLISH 0010, this four-skill language course extends the grammatical coverage to include verbal aspect, numeral expressions, and the locative, dative and genitive cases. Emphasis continues to be on developing spoken language competence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0021 - SELF-PACED POLISH 2A

Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0020. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0022 - SELF-PACED POLISH 2B

Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0020. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0023 - SELF-PACED POLISH 2C

Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0020. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD
Course Component: Correspondence
Grade Component: LG/SNC Elective Basis

POLISH 0024 - SELF-PACED POLISH 2D

Minimum Credits: 1
Maximum Credits: 1
This course covers one quarter of the textbook material covered in the four-quarter course POLISH 0020. The student works at home with the textbook, tapes, and study guide and hands in homework on a lesson-by-lesson basis, followed by an individual meeting with the instructor. As an option, some of the homework may be completed in the computer lab by using the drill diskettes that accompany the course. The same grading standards are applied as in the regular classroom Polish course.
Academic Career: UGRD

Course Component: Correspondence

POLISH 0030 - INTERMEDIATE POLISH 3

Minimum Credits: 3
Maximum Credits: 3
The continuation of elementary POLISH 0020, this course focuses more on written polish and developing listening comprehension than in the first-year course. Attention is paid to developing a good control of basic idioms, and to the formation of participles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0040 - INTERMEDIATE POLISH 4

Minimum Credits: 3
Maximum Credits: 3
A continuation of intermediate POLISH 7030, this course attempts to round out the student's basic oral competence in relation to specific matters of polish culture and reality. For many students, this course is preparatory to summer study in Poland.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0210 - INTENSIVE BEGINNING POLISH

Minimum Credits: 6
Maximum Credits: 6
This is a four-skill intensive course in beginning Polish language which is to be offered as part of the summer intensive workshops in Slavic languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0211 - BEGN INTNSV POLISH PITT/POLAND

Minimum Credits: 10
Maximum Credits: 10
This is a first-year polish course equivalent to POLISH 0210. Four weeks on campus and four weeks in class in Poland. Part of the East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0212 - BEGN INTENSV POLISH IN POLAND

Minimum Credits: 4
Maximum Credits: 4
This is a first year second semester course equivalent to POLISH 0020. It is taught in Lodz Poland and is part of the East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0220 - INTENSIVE INTERMEDIATE POLISH

Minimum Credits: 6
Maximum Credits: 6
This is a four-skill intensive course in intermediate Polish which is offered as part of the summer intensive workshops in Slavic languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0221 - INTM INTNSV POLISH PITT/POLAND

Minimum Credits: 10
Maximum Credits: 10
This is a second-year course in Polish equivalent to POLISH 0210. Four weeks on campus and four weeks in class in Poland. Part of the East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0222 - INTM INTENSV POLISH IN POLAND

Minimum Credits: 4
Maximum Credits: 4
This is a second year second semester course equivalent to POLISH 0040. It is taught in Lodz Poland and is part of the East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0223 - INTERMEDIATE POLISH IN POLAND

Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0230 - INTERMEDIATE INTENSIVE POLISH

Minimum Credits: 6
Maximum Credits: 6
This is a four-skill intensive course in intermediate Polish, which is offered as part of the summer intensive workshops.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0233 - ADVANCED POLISH IN POLAND

Minimum Credits: 6
Maximum Credits: 6
This is an advanced-level four-skills Polish language course held in Krakow, Poland, and is part of the Slavic, East European and near eastern summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

POLISH 0325 - SHORT STORY IN POLISH CONTEXT

Minimum Credits: 3
Maximum Credits: 3
An introduction to the formal analysis of the literary genre of the short story, on the example of works of polish literature of the 19th and 20th centuries. The course will examine works both formally and as they reflect the reality or literary-social concerns of given historical periods 19th century positivism, women's issues, prison-camp literature, post-war literature of the absurd, and others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0400 - ADVANCED POLISH THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
A two-semester sequence in polish advanced conversation, reading, and composition. This course aims at developing the student's command of idioms, while thoroughly reviewing all aspects of polish conjugation and declension. Focus is placed on the contemporary colloquial Polish language, as spoken by the young in authentic Polish cultural contexts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0410 - ADVANCED POLISH 2

Minimum Credits: 3
Maximum Credits: 3
This is the second part of third-year Polish language. (Advanced level).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0870 - CONTEM POLSH CINEM:LIT ON FILM

Minimum Credits: 3
Maximum Credits: 3
This course presents contemporary Polish cinema from 1945 to the present. Concepts will be studied in their historical, political, philosophical, and

aesthetic perspective. The main trends (schools, movements) in Polish cinema, such as the so-called Polish school and the cinema of moral concern, and the works of most important modern polish filmmakers will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0871 - CNTMPRY POLISH CINEMA: WAJDA
Minimum Credits: 3
Maximum Credits: 3
This course covers concepts presented in POLISH 0870, but emphasizes the films of director Andrzej Wajda.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0872 - CONTEM POLSH CINEM: KIESLOWSKI
Minimum Credits: 3
Maximum Credits: 3
This course covers concepts presented in POLISH 0870, but emphasizes the director Kieslowski.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 0873 - CONTEMPORARY POLISH CINEMA
Minimum Credits: 3
Maximum Credits: 3
This is a survey course of the history of film in Poland.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 1260 - SURVEY OF POLISH LIT & CULTURE
Minimum Credits: 3
Maximum Credits: 3
Major literary monuments of polish literature are examined against the background of Polish history and culture. Works are related to the major literary and intellectual currents of the time and are placed in both a Polish and a general European context. Literary works are additionally examined critically from a formalistic literary point of view, the aim being to develop in students the basic concepts and vocabulary of literary criticism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

POLISH 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 3
This course allows students to work independently on individually designed projects.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

Political Science

PS 0200 - AMERICAN POLITICS
Minimum Credits: 3
Maximum Credits: 3
This course is, quite generally, designed to provide students with a basic working knowledge of the basic goals of the constitutional framers, giving students an understanding of the purposes of the American political system; the essential structures (or institutions) within the American political system, the behavior (broadly defined) of the actors within the American political system, the purpose and performance of the linkage institutions in the United States (possibly including political parties, elections, and interest groups); and the types of policies that are often produced by a system with the characteristics of those found in the United States. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0234 - TOPICS IN AMERICAN ELECTIONS
Minimum Credits: 3
Maximum Credits: 3

This course examines the upcoming presidential and congressional elections. By studying the electoral process, we will accomplish two objectives. First, we will further our understanding of the state of American politics in the current year. Second, and more broadly, we will consider how elections contribute to our political system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0300 - COMPARATIVE POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course provides students with basic information about a range of political systems outside the United States and teaches them to use that information to examine major theories about politics. The course is also designed to help students understand the government and the politics of the United States in comparative perspective and to develop some understanding of comparative methodology and the logic of comparison as a social science method. Depending on the interests, area of expertise, and inclinations of the particular instructor, some regions and topics might be emphasized more heavily than others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0311 - MOD E ASIA:POLIT, SOCTY,ECONY

Minimum Credits: 3
Maximum Credits: 3
This course is a lower-level, introductory course for freshmen and sophomores. It offers non-majors a thematic overview of contemporary issues occupying two of the world's most enduring yet dynamic societies--China and Japan--from a variety of disciplinary perspectives. Using a common body of materials, they will learn how anthropologists, economists, historians, political scientists, sociologists and other specialists use and interpret those materials to contribute their own unique insights to our understanding of East Asia.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0312 - (CONFLCTS IN) CNTMPRY EURP

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the basic features of the Europe after 1989, the historical roots of national politics in the current European state order and the significance of the idea of European integration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0500 - WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course aims to increase students' knowledge of the history of the modern state system and, in particular, political developments during the past few decades. It introduces students to basic concepts and analytic frameworks that political scientists employ to understand world politics, enhancing students' knowledge of international institutions that play important roles in world politics and exploring current issues in world affairs relating to human welfare and security. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0550 - INTRODUCTION TO GLOBAL STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students at the freshman and sophomore levels to international studies and to a global perspective. It will be an openly interdisciplinary course and will use the case study methodology to cover issues of global environmental sciences, world politics and language, using history and culture as a guide.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0600 - POLITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the idea of normative political theory and to important authors and concepts in the western political theory tradition. Students will learn to understand both historical and contemporary debates surrounding important political concepts such as

authority, justice, liberty, and democracy, and to appreciate the differences among normative, empirical, logical, and faith-based political claims. Students will learn to read critically and analytically, to make simple normative arguments, and to explain the specific role of normative arguments in political science and political life. Depending on the interests, area of expertise, and inclinations of the particular instructor, some of these may be emphasized more heavily than others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 0650 - POLITICS AND LIBERAL DEMOCRACY

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to several problems common to philosophy and politics and introduces students to the different theories, modes of argument and techniques of analysis used by the two disciplines to understand them. It is intended to help students deepen their understanding of the dominant political stance of our society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PS 0700 - RSRCH METHDS POLITICAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3
The course provides an introduction to scientific inquiry applied to the study of politics. The main emphasis of this course is to introduce political science majors to key analytical concepts and to their application to the study of politics. The course covers the logic of scientific inquiry, research design, and quantitative methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1000 - HONORS THESIS-MAJORS

Minimum Credits: 3
Maximum Credits: 3
Students prepare a thesis, under guidance of a faculty advisor, which is read and evaluated by a committee of three faculty members.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

PS 1201 - CONSTITUTION & CIVIL LIBERTIES

Minimum Credits: 3
Maximum Credits: 3
The course will explore major topics in the area of civil liberties and civil rights which have concerned the Supreme Court in recent years and which have provoked extensive political and social controversy. Examples include decisions about discrimination, privacy, freedom of speech and assembly, and conflicts between freedom of the press and a fair trial.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PS 0200

PS 1202 - AMERICAN CONSTITUTIONAL LAW

Minimum Credits: 3
Maximum Credits: 3
The United States constitution plays an extraordinarily powerful role in American political life. The primary focus of this course is examination of the role of constitutional law in the American political process. We do this by analyzing constitutional interpretation by the United States Supreme Court and other federal courts in its major decisions. Students will learn how the court reached its decisions, who some significant justices have been, how the court considered contending arguments, and what the consequences of these decisions for our political system have been. Topics include the development of judicial review and close analysis of the way in which the court has addressed the two major structural features of the U.S. Constitution ' separation of powers and federalism in an historic and contemporary setting. Specific issues in these areas are struggles over presidential and congressional power and national versus state power. We also address issues regarding civil liberties and civil rights. Students should find this course helpful in reaching a more sophisticated understanding of the major issues of constitutional law in American life, as well as providing a useful background to the cases and kinds of legal analysis they may pursue in further study in law school or other graduate study.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1203 - JUDICIAL POLITICS

Minimum Credits: 3
Maximum Credits: 3

The course will focus on judicial policy making and the political, social and economic underpinnings influencing cases and their decisions. Areas of focus will be: right of privacy (sexual orientation and abortion), classification (race and gender), speech (freedom of speech and press and the internet), religion (exercise and establishment), and criminal (investigations, trials and punishment).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PS 0200

PS 1204 - WOMEN IN POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course will consider political issues and explore the changing political role of women as citizens, candidates, office-holders, and policymakers. The emphasis will be on the American political experience, although examples will be drawn from other countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1205 - ETHNIC AND RACIAL POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with the political consequences of ethnic identity in the advanced industrial states of North America and Western Europe. The major theoretical concerns include the sources of ethnic identity, the relationship between ethnicity and social class, and the persistence or resurgence of ethnic political movements in contemporary societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1211 - LEGISLATIVE PROCESS

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of the legislative process in modern democracies with primary attention devoted to the legislative process in the United States. The history and meaning of representation is analyzed as is the behavior of participants in the legislative process. The impact of social-economic forces on decision-making in the United States is studied as are the roles of interest groups, political parties, the executive branch, and the judiciary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1212 - AMERICAN PRESIDENCY

Minimum Credits: 3
Maximum Credits: 3
This course provides an analysis of presidential leadership in the United States. The first part of the course deals with factors helping to explain presidential leadership; how presidents are nominated and elected, the constitutional framework within which the presidency operates, presidential relations with the bureaucracy, and presidential personality. This framework is then used for an intensive analysis of presidential leadership in foreign and domestic policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: PS 0200 or 0206

PS 1213 - LAW AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
Examines the relationship between law and values, law and power, and law and discretion. Legal reasoning is examined as applied to statutory, case, and constitutional law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1214 - US CONGRESS

Minimum Credits: 3
Maximum Credits: 3
This course will explore the evolution and current place of the U.S. Congress within the American political system beginning with an examination of the theory and history of electing representatives to government. Students will examine the role and structure of the legislative branch as anticipated in the American constitution. Other areas of focus include the congressional election process, the importance of congressional committees and differences in rules for the house and senate, policy making, and how congress relates to the other two branches of government. A key overarching

goal in this course is to assess challenges and changes facing the contemporary U.S. Congress.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

PS 1230 - INTEREST GROUP POLITICS

Minimum Credits: 3
Maximum Credits: 3
Are interest groups vital or vicious? Do interest groups use money to `buy power,' or do they play a key part in the representation of diverse ideas? What roles do, and should, interest groups (i.e., Special interests, pressure groups, lobbyists) play in democracies? This course explores the role of interest groups in the participation and representation of citizens in the United States. Focusing on key themes like liberty and equality, the course examines what interest groups are, what they do, and what implications that has for the laws that get passed and enforced, political campaigns, the ability of different groups (that differ by race/ethnicity, income, religion, and sexual preference) to get their voices heard in the political process, and what could be done to improve or curb their influence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1231 - POLITICAL PARTIES & ELECTIONS

Minimum Credits: 3
Maximum Credits: 3
This course examines the organization and character of American political parties, the impact of environmental factors on party processes and behavior, patterns of party competition, and the role of parties in shaping public policy and in providing a linkage between public and government. Attention is also given to the political behavior of the American public. Recent changes in the organization of party institutions are examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1232 - POLITCL ATTITDE & PUBLIC OPIN

Minimum Credits: 3
Maximum Credits: 3
This course explores the formation and measurement of mass public opinion. Topics include: how individuals gather information; the formation of political ideology, political attitudes, and political preferences; the stability of public opinions across different issues; the relationship between mass public opinion and government policy (both what it is, and what it should be); and methods for measuring public opinion, including public opinion surveys.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1233 - POLITICAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
There are numerous ways that we can explain political behavior (including both overt behavior such as voting and latent behaviors such as attitudes and preferences). In this course, we consider a number of such explanations (all from the discipline of psychology), including those rooted in personality, biology, emotions, culture, and environmental influence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1234 - ELECTRL BEHAVR & DEMOCRTC PROC

Minimum Credits: 3
Maximum Credits: 3
This course examines the factors that affect national electoral outcomes in the U.S.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1235 - MEDIA AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
The media is all around us, but what impact does it have? It permeates everything from leisure and entertainment to how candidates communicate with the public and what political decisions get made. This course tackles three broad questions about the intersection of media and politics. First, how is news created and why does it matter? For example, are late night talk shows like Stephen Colbert or the internet news sources; why or why not? Second, how is the media used in political campaigns and how does it influence campaigns? Can a bad tweet (i.e. Anthony Weiner) end a campaign or a political career? Third, how do the media shape the creation of public policies ' the laws that do or do not get passed ' and the decisions that get made? Can media-savvy politicians use the media to help their cause or rally public support for big decisions like going to war?

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1241 - PUBLIC ADMIN & POLITCL SYSTEM

Minimum Credits: 3
Maximum Credits: 3
This course analyses the nature of the public bureaucracy in the United States and its role in governance. Special emphasis is placed on questions of accountability and responsibility.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1251 - URBAN GOVERNMENT AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the key structures, procedures and problems of cities and urban areas. Topics covered include: city-suburban conflicts, relations between cities and the federal government, forms of local government and their advantages and disadvantages, property taxes, housing, urban renewal, crime, courts, and education. The principal objective of the course is to help the student develop a well-informed and differentiated view of urban places and problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1252 - STATE GOVERNMENT

Minimum Credits: 3
Maximum Credits: 3
This course will survey political processes and public policy outcomes in the fifty American states. Policy areas to be covered include the environment, era, taxation, crime and law enforcement, and welfare.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1261 - AMERICAN PUBLIC POLICY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on a variety of public policy issues. The issues include social welfare programs, management of the economy, governmental regulation of business activities, environmental programs, urban problems, civil rights, civil liberties, crime control efforts, and foreign policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1262 - HEALTH POLICY IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to current problems of health care and health policy in the United States. Description and analysis of the proposals, current practices, and the reactions of interest groups will be the central theme of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1264 - AMERICAN POLITICS THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1267 - ENVIRONMNTAL POLITICS & POLICY

Minimum Credits: 3
Maximum Credits: 3
This course will be an introduction to environmental politics and policies in the United States. The course will examine both the historical development of environmental policies in the U.S., As well as address the contemporary context in which current environmental policies are formulated, legitimated, and implemented. In doing so, the course will look at some of the key issues, actors, and policies in environmental politics.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1275 - RELIGION & AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
In recent years religious groups and religious values have played an increasingly prominent role in politics in many countries, including the United States. The purpose of this course will be to consider the public and political aspects of religion in the United States. Religious beliefs and institutions have wide-ranging implications for civic norms, public policy, political leadership, international relations, and the treatment of various social groups. After an historical survey of the role of religion in American politics, the second part of the course will focus on the contemporary impact of American religious groups and values on public opinion, lobbying, and electoral choice. We will also discuss the implications of the doctrine of "separation of church and state" for law, education, and civil liberties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1281 - CAPSTONE SEM AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: PS 0200; PLAN: Political Science (BA or BS or BPH); LVL:Sr

PS 1283 - TOPICS IN AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
Current topics of interest in American politics. Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1300 - REES CAPSTONE

Minimum Credits: 3
Maximum Credits: 3
The objective of this capstone course in Russia and East European studies is to provide you with the opportunity to draw on and synthesize all of the skills and knowledge gained in the various courses and seminars that you have taken in the process of earning your REES certificate, and apply them to a topic of particular interest to you. The course will culminate in an analytical/research paper on a topic in Russian and East European studies to be chosen by each individual student. In keeping with multidisciplinary objectives of our certificate, the paper must draw on methodologies and literature from multiple disciplines.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PS 1301 - THRY & CONCPT IN COMP GVRNT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the role of theory and concepts in comparative political analysis. The theories will be applied to a range of areas of the world, and both system level and individual level theories are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1302 - POLITICAL DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course will examine the major problems involved in the study and understanding of change in "less developed countries," the main approaches and theories applied to these problems, and the criticisms directed at some of these approaches. In particular, it will consider attempts to understand "development" by reference to the earlier experiences of Europe and the United States and will evaluate the relevance of such an approach to the current problems of the underdeveloped world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1303 - MOVEMENT POLITICS
Minimum Credits: 3
Maximum Credits: 3
The subject is "movements"; social banditry, peasant uprisings, working-class movements, messianic religions, rebellions and revolutions. Several theoretical perspectives--Marxist and neo-Marxist, sociological and social psychological--will be employed in an effort to develop a framework for the analysis of movements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1311 - WESTERN EURP GOVERMNT & POLIT
Minimum Credits: 3
Maximum Credits: 3
This course covers the politics and government of Western European countries at the national and local levels. It also considers some aspects of the relationships between the European Union and its member states.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1313 - FRENCH GOVERNMENT AND POLITICS
Minimum Credits: 3
Maximum Credits: 3
This course focuses on political and socioeconomic developments in France since World War II. Students study the workings of political institutions and the formulations of public policies in the context of recent history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1314 - GERMAN GOVERNMENT AND POLITICS
Minimum Credits: 3
Maximum Credits: 3
This course examines political institutions and developments in Germany following the second World War, first tracing them through the eras of postwar occupation, Cold War partition and consolidation of the two German states, through the East German revolution of 1989 that set the state for unification. The course will pay special attention to the domestic and international public policy challenges facing post-unification Germany.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1315 - ITALIAN GOVERNMENT & POLITICS
Minimum Credits: 3
Maximum Credits: 3
This course presents an overview of Italian politics and society in the post-World War II period. The analysis of contemporary Italy will be placed in a historical context, so that political and social trends from the mid-19th century to the present will be discussed. Topics which will be covered include political parties, parliament, the North-South divide, and terrorism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1316 - ASIAN POLITICS
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the politics of Asia by examining and comparing the political systems, economic performance, civil society, and the effect of globalization among countries of East and southeast Asia
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1317 - POLITICS OF THE EUROPEAN UNION
Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the European community. It will provide a historical overview of the immediate post-war period and introduce students to the community's four major governing institutions. It also considers the single European act and its significance and explores the role of the "big four" countries within the community.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1318 - EUROPEAN GOVERNMENT & POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course will encompass the comparative study of the political systems of Western Europe including the UK, France, Germany, Italy, Spain, Poland, and Scandinavia. The primary themes will include political development and institutions, security, European integration, political culture, political economy, and democratization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1321 - LATIN AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course compares and contrasts the governments and political processes throughout Latin America. It offers a detailed look at several countries, and also provides a comparative framework to discuss the rise, fall, and quality of democracy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1322 - LATN AMER POLITICAL DEVELOPMNT

Minimum Credits: 3
Maximum Credits: 3
In this course we will address the following puzzle: why was it so difficult to build stable democracies in Latin America during the twentieth century? We will use the analytical tools provided by political science to illuminate the political history and the current situation of Latin America. Some of the topics that we will deal with in this course are: institutional arrangements, economic policy, and role of the military, elections, and political and social equality. Most of the course we will focus on thematic material using comparative analysis. However, we will also study four Latin American countries in greater detail.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1324 - US-LATIN AMERICAN RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the history, politics, and legitimacy of US policy towards Latin America. How have these relations changed over time? What have been the consequences for the US or for the Latin American countries? What interests and structures have driven us decisions?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1327 - POLITICS OF REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
Politics is often about conflict, but sometimes that conflict takes place within legislative bodies and other times in the streets. Most of what we study in political science courses focuses on conflict within the electoral framework, but this course asks what happens when citizens take conflict into their own hands. This course will examine the conditions that prompt people to organize on behalf of their collective interests, how protest movements evolve, and under what conditions they succeed. The first half of the class will cover theoretical topics: the causes, strategies, and consequences of protest activity. The second half of the class will focus on types of protest (political protests, revolutionary movements, social movements, riots, and guerrillas) through comparative case studies. Most case studies in class will be based on examples within the Western hemisphere (North, central, South America, and the Caribbean) - a geographical region with an enormous variety of types, causes, and consequences of protest movements - but students will be encouraged to become independently familiar with protest movements around the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1328 - AUTHRTRNISM DEMOCRTZTN IN ASIA

Minimum Credits: 3
Maximum Credits: 3
This course examines how and why the political institutions of major East and southeast Asian countries are coping with pressures for greater democracy and transparency. The course covers a wide range of regimes, with from "Asian tiger" democracies (South Korea, Taiwan), more recent democracies (Indonesia, East Timor), transitional regimes (Burma and Thailand), as well authoritarian systems (China and Vietnam), among others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1329 - HIST EURPN INTEGRTN SINCE 1945

Minimum Credits: 3
Maximum Credits: 3
This course will examine the motives, significance and progress of the post-World War II movement toward economic and political integration in Europe. We will use methodologies derived from a variety of academic disciplines to look at why Europeans in 1945 were ready for unification; at the progress of the unification movement; at the institutions created and their workings; at the limits and probable future of European integration both for Europe and for the wider world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1330 - EUROPEAN UNION SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Since the end of the cold war, the European Union (EU) has forged ahead its international role to become a leading global authority in the world. The diversity of EU external policies attest to the concerted efforts Europeans have made towards `exporting' their values and norms in the world. Taking a close look into contemporary EU foreign policy, this course is divided in three sections. First, students are introduced to the EU external policies. We consider the competences of the EU in specific policy areas and discuss the role of the EU as a norm setter. Second, we analyze contemporary EU foreign and security issues, especially recently-formed EU `battlegroups' and specific case-studies of EU peacekeeping missions undertaken since 2003. Finally, the focus shifts onto the EU's civilian capacities, in particular development assistance and election monitoring. The objective of the course is to give students a broad understanding of the complexity of the role of the EU in the global arena.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PS 1317

PS 1331 - GOVERMNT & POLITICS SE ASIA

Minimum Credits: 3
Maximum Credits: 3
This course will offer an introduction to the contemporary politics of the nations of Southeast Asia; Thailand, Malaysia, Singapore, Indonesia, the Philippines, Burma, Vietnam, Laos and Kampuchea. An overview of colonial rule, the rise of nationalism and the struggle for independence will set the background for the study of the current political scene.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1332 - GVRNT & POLIT IN CNTMPRY CHINA

Minimum Credits: 3
Maximum Credits: 3
An introductory analysis of contemporary Chinese politics. Topics to be considered include the traditional background, the Chinese revolution, the role of revolutionary ideas and institutions in Chinese political life since 1949, recent and current policy issues, and possible future trends.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1333 - GOVERNMENT & POLITICS OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course considers postwar Japanese government and politics in comparative perspective. Topics to be covered include the following: the American occupation, Japanese society, political culture, election system and election campaigns, government and political leader ship, the ruling party, opposition parties, protest movements, the parliamentary and policymaking processes. Frequent comparisons will be made between the Japanese system and other democratic systems in North America and Europe.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1334 - COMP POLITICS THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the political aspects of film in a variety of national cinemas (US, Latin American, European, African, Asian), across different decades and genres (including documentary, period epic, Western, and melodrama), and through a range of themes (including macro-themes like war, colonialism, revolution, and ideological and political conflict as well as micro-themes like race, gender, sexuality, and the nuclear family).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1335 - POL ECONY JAPN: GVRNT,BUS,TRAD

Minimum Credits: 3
Maximum Credits: 3
The course will cover the following general topics: 1. The economic, political, and policymaking background for industrial policy in Japan 2. General concepts of the state and industrial policy 3. The specific goals and means of industrial policy in Japan and 4. It will explore the trade/competitiveness crisis between the U.S. and Japan, including specific cases of trade friction, and the debate in the U.S. about whether an industrial policy can and should be adopted here as a way to solve that crisis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1336 - CONTEM CHIN POLIT, SOCTY ECONY

Minimum Credits: 3
Maximum Credits: 3
The program will focus on how contemporary china handles conflict and opportunity between its culture and tradition on the one hand, and modernization and Western influence on the other.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PS 1338 - POLIT IN DEVELOPING COUNTRIES

Minimum Credits: 3
Maximum Credits: 3
This course explores the question of why it is so hard for many under-developed countries to overcome persistent problems of poverty, bad governance, and civil conflict. We will explore the politics of under-development, looking at the role of geography, institutions, historical legacies of slavery and colonialism, corruption, natural resources, ethnic divisions, and international aid. The course will take us to virtually every part of the globe, from Africa to Latin America to Asia to Europe and the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1341 - GVRNT & POLIT USSR/RUSS FEDRTN

Minimum Credits: 3
Maximum Credits: 3
A survey of the political systems in the USSR (1917-1991) and its major successor, the Russian Federation (1991-present). The first section deals with the period from the Bolshevik Revolution in 1917 until the mid-1980s. The second section examines the efforts to reform the political system under general Secretary Gorbachev. The final section deals with the collapse of the USSR in 1991 and the subsequent development of the Russian Federation as an independent state.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1342 - GOVERMENT & POLITICS EAST EURP

Minimum Credits: 3
Maximum Credits: 3
The politics of Eastern Europe has been shaped by the traditional culture, by the establishment of communist regimes, by the superimposition of Stalinism, and by the search for non-Stalinist alternatives to the process and structure of governing. In this course the nature of contemporary politics in eastern Europe is described and analyzed in the context of the above social and political forces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1343 - COMP SOCIALIST POLITICAL SYMS

Minimum Credits: 3
Maximum Credits: 3
Discussions will focus on an analysis of political, social and economic changes which have taken place in recent years in the soviet union, china, and the other socialist states of East Europe and Asia.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1345 - POLITICS OF OCEANIA

Minimum Credits: 3
Maximum Credits: 3
This course examines the government and politics of Australia and Australian engagement in the Asia-Pacific region. It does so by surveying similarities with and differences from the North American democratic model and by examining Australia's substantial and abiding interests in the

Asia-Pacific region. By the end of course, students will be aware of the importance of geographical distance and location in the australian story. Students will also be aware of the continuing importance of cultural and political inheritance in the development of Australian public and foreign policy. Students will be encouraged to make comparisons with the US system of government and politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PS 1346 - POLITICAL EAST EUROPE

Minimum Credits: 3
Maximum Credits: 3
The lives and times of the people and states of "the lands between" of eastern Europe are examined in terms of three forces that have shaped their contemporary cultures, their chronic and multi-dimensional "between-ness" on the political and cultural map of Europe, and the influence of a succession of modern ideologies (from nationalism and liberalism to fascism and communism) on their institutions and behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1347 - (CONFLCTS IN) CNTMPRY EURP

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the basic features of the Europe after 1989, the historical roots of national politics in the current European state order and the significance of the idea of European integration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1348 - XENOPHOBIA IN MODERN EUROPE

Minimum Credits: 3
Maximum Credits: 3
This course will examine Europe's post-war xenophobic, racist and exclusionary policies. We will use memoirs, photo journalism, film and interviews to understand recent discrimination against refugees, guest workers, Jews, linguistic and religious minorities. We will also put the question into scholarly context, as we examine how historians, sociologists, psychologists and anthropologists try to understand the way in which Europeans construct the categories of "us" and the "others".
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1349 - TRNSATLNTC GVRNC AND POLICY

Minimum Credits: 3
Maximum Credits: 3
The economic, political and defense links between North American countries and European countries, and especially the European Union, generate important governance and policy issues. This course examines those issues in light of general theories of governance at the national and international levels. Special attention will be given to on-going trade negotiations and climate change policy.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PS 1350 - RUSSA, CIS EXPNDNG EURPN UNIN

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide the student with an understanding of the dynamics of the relationships between Russia and the CIS with the European Union.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1351 - GOVERMNT & POLITICS MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
A survey of the developing political systems of the Middle East and their positions in world affairs. Considered are the growth of political institutions in the modern era, the nature of political leadership, the evolution of political attitudes, and the legacy of Western and Soviet imperialisms. The states dealt with are Iran, turkey, Iraq, Lebanon, Jordan, Syria, Egypt, and Israel. The course includes a diplomatic simulation exercise designed to illustrate the complexity of foreign policy interactions in the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1352 - INTRODUCTION TO AFRCN POLITICS
Minimum Credits: 3
Maximum Credits: 3
A general introduction to African politics at macro level for freshmen and sophomores with special focus on traditional African political system, European imperialism in Africa, African nationalism, independence and post-independence problems of nation-building and economic development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1353 - AFRICAN LIBERATION MOVEMENTS
Minimum Credits: 3
Maximum Credits: 3
A course on the theories of revolution and national liberation struggles, decolonization and guerrilla warfare, and their special application to continental African experience since the end of World War II.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1361 - COMPARTV POLITCL PRTY SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
This course compares the political party systems, electoral processes, and other institutions of governance in four or more countries, which vary by instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1362 - COMPARATIVE POLITICAL BEHAVIOR
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the study of comparative mass political behavior. The course will focus on cross-national differences and similarities in public opinion, voting behavior, and other forms of political participation. The course will attempt to answer several fundamental theoretical questions that have motivated nearly all research in the field: 1) what is the nature of public opinion, and how does it relate to the stability and effectiveness of democratic politics; 2) why do individuals vote for particular candidates or parties in a given election?; And 3) why do individuals participate at all in politics, either by voting or by taking part in other kinds of political activities? In engaging these questions, students will investigate the extent to which theories of political behavior, many of which were originally developed in the U.S., "travel well," that is, whether they are able to account for patterns of public opinion and political participation seen in other countries around the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1363 - GLOBALIZATION AND LAW
Minimum Credits: 3
Maximum Credits: 3
This course considers the efforts underway to globalize ideas of rule of law. In the movement to promote rule of law governments, human rights, and market economics, conflicts over culture, identity and local politics arise. The course examines how legal institutions emerge and diffuse within diverse social and political settings (Europe, the Americas, East Asia, the Middle East and Africa), the relationship between the rule of law and democracy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PS 1370 - SPECIAL TOPICS
Minimum Credits: 1
Maximum Credits: 3
Current topics of particular sociological interest. Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1372 - EURPN ENVIRNMNTL POLCY MAKNG
Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the variables that shape environmental policy in advanced industrial states, focusing on Western Europe.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1373 - WELFR STATE IN COMP PERSPCTV

Minimum Credits: 3
Maximum Credits: 3
Starting from the mid-nineteenth century the course is an historical and political critique of the main theories of divided equally between the diverse origins of the British, French, Swedish and German welfare states in the nineteenth century; the impact of new social theories and social thought on the design of welfare states early in the century and between the wars; and how the organization and structure of welfare states following the war was influenced by this experience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1375 - RELIGION AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course discusses religion and politics, especially in its contemporary dimensions. Taking a comparative focus that will change from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1376 - RELIGION & POLITICS MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the role of religion in the politics of the contemporary Middle East. A general survey of the role of religion in the history of the region, and a cross regional historical-comparative view of the relationship between religious phenomena and political movements and institutions set the context for an investigation of the politics of religion in recent developments in the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1378 - BLDG DEMOCRACY AROUND THE WRLD

Minimum Credits: 3
Maximum Credits: 3
Developing a new democracy is a process, with at least two main parts. First the country must move away from authoritarian rule. The first part of the course, therefore, will examine why (or why not) countries make that transition and how they do so. The second part of the course will then examine why some countries are more successful in their transition, based on an examination of civil society and the types of political institutions (such as political parties, the executive system, and the judiciary) that countries develop. What influences these choices and how do these choices affect success and stability of the new democracy? Has international aid been successful in helping countries develop democratic practices?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1379 - IS FASCISM BACK

Minimum Credits: 3
Maximum Credits: 3
In this course we will look at Europe's two strongest and most typical fascist regimes; Mussolini's Italy and Hitler's Germany. We will analyze and compare the factors that made it possible for far-right anti-liberal, para-military groups to take power; contrast the ways in which the regimes functioned; and study their racist, cultural and gender politics. After establishing a historically rooted definition of fascism, we will look at several modern fascist(s) movements; France's Le Pen, Germany's Neo-Nazis, Italy's Neo-Fascist party & the far-right nationalists in modern Russia.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1381 - CAPSTONE SEMINAR COMP POLITICS

Minimum Credits: 3
Maximum Credits: 3
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: PS 0300; PLAN: Political Science (BA or BS or BPH); LVL: Sr

PS 1382 - CNTMPRY DEVELP IN THE USSR

Minimum Credits: 3
Maximum Credits: 3
This undergraduate seminar is designed primarily for undergraduate certificate candidates in Russian and East European studies. The course focuses on contemporary political, social, economic, and cultural developments in the USSR and is designed to demonstrate how Soviet published materials can be used to understand the Soviet Union. All reading materials will be in English.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PS 1383 - POLITICS OF CNTMPRY MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
The main emphasis of the course will be on conflict and conflict resolution in the Middle East. Conflict has been a constant feature of the region since 1945. This course will be primarily concerned with how and why these conflicts are generated, escalate, become protracted, and are resolved.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1384 - TOPICS IN COMPARATIVE POLITICS

Minimum Credits: 3
Maximum Credits: 3
Current topics of interest in comparative politics. Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1388 - FULBRIGHT SEMINAR ITAL STUDIES

Minimum Credits: 3
Maximum Credits: 3
The Fulbright seminar in Italian studies is a spring-term undergraduate-level course offered by the visiting Fulbright distinguished scholar from Italy. This course is typically offered in the fields of art history, cultural studies, film, history, literature, museum studies, political science, or urban studies. The description will vary each term depending on the field in which it will be offered.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

PS 1390 - STDNG INT'L DVLP SERVC LRNG

Minimum Credits: 3
Maximum Credits: 3
Built around a service learning project, this course offers students of political science the opportunity to study the problems of development both through regular class activities and by working hand in hand with local educators, children, and community members in the field. The course is not limited to any particular geographic region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1501 - THEORY OF INTERNATIONAL RELTN

Minimum Credits: 3
Maximum Credits: 3
This course explores central concepts and theories employed by political scientists to explain how world politics functions. You will be introduced to theoretical orientations such as realism, institutionalism, and constructivism, and we will discuss how constructs such as power, interests, identity, legitimacy, and order provide insight into political behavior. Much of the material examined in the course is abstract and you will need to think carefully about how the various concepts and arguments can be integrated. By the end of the course, you should have developed a relatively sophisticated conceptual framework with which to analyze events in world politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PS 0500

PS 1502 - INT'L LAW AND PRBLM WRLD ORDR

Minimum Credits: 3
Maximum Credits: 3
This course considers the role of international law in efforts to solve some current problems of world order. These problems include the control of violence, i.e., The problems of collective security, arms control and disarmament, intervention and nuclear proliferations; human rights; problems of

economic and social development; managing global resources; and protecting the global environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1503 - INTERNATIONAL ORGANIZATION

Minimum Credits: 3
Maximum Credits: 3
The course will focus on nongovernmental as well as intergovernmental organization, and will be concerned with the economic as well as the political aspects of such organization. Throughout the course, international organization will be approached as an arena for both conflict and cooperation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1504 - NATIONALISM

Minimum Credits: 3
Maximum Credits: 3
Theories of nationalism, ethnicity, and race are examined and are contrasted with theories of modernization and socialism. Particular emphasis is placed on ethnonationalism in developed Western countries, such as Britain, France, Spain, Belgium, and Canada, and on ethnic politics in the U.S. Comparisons are drawn with nationalism in other types of political systems, particularly the USSR, Yugoslavia, and selected Middle East and African countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1509 - CONFLICT AND WAR THEORY

Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course is to introduce the student to theoretical arguments and empirical evidence concerning the sources of conflict and war in human society, particularly within the international arena. Reading material will be drawn from a number of disciplines, including psychology, sociology, history and political science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1510 - COLDWAR:SOVT UNIN WEST 1917-91

Minimum Credits: 3
Maximum Credits: 3
This course is designed to help students understand the central question in world politics during much of the 20th century-the relationship between the West and the Soviet Union from 1917 to 1991. The course surveys the Western response to the formation of the USSR as the first "socialist" state and to the international communist movement which developed under its leadership from 1917 to 1991.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1511 - AMERICAN FOREIGN POLICY

Minimum Credits: 3
Maximum Credits: 3
This course provides a historical survey of American foreign policy from the end of World War II until the present, an analysis of the decision making process led by the president of the United States, and a discussion of the impact of both the international political system and American domestic politics on this process. There are no prerequisites; however PS 0500 would be useful.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1512 - EURP AFTR COLD WAR:COOPR CONFL

Minimum Credits: 3
Maximum Credits: 3
This course attempts to provide a coherent interpretation of the USSR's foreign policy in the period from 1918 to 1987. Major topics include Soviet foreign policy toward (1) Western Europe and the USE; (2) former "colonial" countries in Asia, the MFA
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1513 - FORGN POLICIES--CHANGNG WORLD

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to the analysis of foreign policy as a form of political behavior and to the specific factors influencing the foreign policies of several of the world's most powerful states. The lectures and readings follow several intertwining themes, covering: 1) the conceptual and analytical tools utilized to investigate and compare the foreign policies of states; 2) the nature of certain phenomena which present countries with complex and dangerous international problems, e.g. security, interdependence; 3) the particular sources, processes and outcomes involved in the foreign policies of several states including the United States, Russia and others. The approach is analytical and though some of the readings and lectures are historical, the emphasis is on the contemporary context. It is also comparative, offering students a look at how these states' domestic culture, processes and institutions affect their foreign policies. (International relations field)
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1514 - POLITICAL STRATEGY INT'L RLTNS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine how governments attempt to achieve important foreign policy objectives. The focus will be on describing and evaluating such general strategies as containment, roll back and detente in the Soviet-American conflict.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1516 - TRANSATLANTIC POLICY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This new skills based course aims to provide students with crucial analytical and professional skills pertinent to the transatlantic policy world. Among them are: to read analytically and critically and to speak knowledgeably about a range of transatlantic issues that concern political scientists and policy makers, including immigration, environmental protection, social policies, and trade and economic development; and to communicate such policy analysis in a clear and persuasive manner accessible to a wide range of policy focused audiences at the international and national levels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1518 - GRMNY/EURP: FRGN POLC TRNSFRMD

Minimum Credits: 3
Maximum Credits: 3
This course explores continuity and change in the foreign policy of Germany ' the largest, wealthiest, and arguably most influential European union member state ' from state unification through the present era. (International relations field)
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PS 1521 - EASTRN EURP IN WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
Eastern Europe has now seen more than twenty years of dramatic changes encompassing a movement away from one-party dictatorship and state-run economies to democratic politics and market economies. These changes have affected and been affected by developments in Europe, including Russia, Euro-Atlantic relations and international relations more broadly. The aim of this course is to explore the background and dynamics of the remarkable changes in "the other Europe." The course will move quickly over the history of the region generally referred to as "East Europe" and will focus primarily on contemporary developments. A particular focus of the course is the impact on the region of developments elsewhere, especially in the politics and policies of outside powers, and the ripple effect of changes in the region on European and world politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1522 - LATIN AMERC IN WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
Latin American relations are studied as a means of illuminating the global problem of disparities between rich-powerful and poor-weak nations. The focus is on the economic, military-strategic, and political aspects of these relations as exemplified by leading international topics, such as trade and foreign debt, resource development, Cuba, Central America, and human rights.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1523 - EAST ASIA IN WORLD POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on how the peoples and states of East Asia are affected by and in turn influence the world environment. Students examine the modern history of the region, which is crucial to understanding the contemporary situation. The doctrines that affect governance and international affairs in the region are also examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1529 - COMPARATV FOREIGN POLCY MAKING

Minimum Credits: 3
Maximum Credits: 3
This course aims to introduce students to the political/ military relationship between the United States (US) and the European Union (EU). The course will focus on how foreign and security policies are made in the US and EU. Emphasis will be on actors, decision-making processes, values under pinning the relationship, outputs and how these factors affect the prospect of cooperation or conflict between the us and the EU.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1530 - NEW INT'L RELATIONS OF EUROPE

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to the fundamental ways in which the relations of the peoples and states of Europe have changed since the end of the Cold War. Its methods will include the historical approach, linking the current situation to that of the region before World War II and during the Cold War. But an additional aim of the course will be to introduce students to other analytic approaches utilized in the field of international relations, including realism, liberal institutionalism and constructivism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PS 1531 - NATIONAL SECURITY POLICY

Minimum Credits: 3
Maximum Credits: 3
National security is becoming a crucial issue with an impact both in the international system and in the domestic environment. This course will discuss the different approaches to national security and the policies through which they have been implemented, such as military buildup, political and military alliances, military and economic consequences, and nuclear policies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1532 - UNITED STATES NATNAL SECURITY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the national security policy of the United States. The course surveys the different policies and perceptions about national security sustained by the U.S. In the post-World War II period, as well as the strategic policies of the USSR. The nature of our nuclear policies, the question of the vital interests and current security concerns throughout the world will be examined as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1534 - CIVIL WARS

Minimum Credits: 3
Maximum Credits: 3
This course explores why peace sometimes lasts a long time and sometimes falls apart quickly after Civil Wars. We will examine how the international community deals with civil conflicts and what can be done to ensure a long-lasting peace in war-torn countries. Emphasis will be placed on the factors that increase the durability of peace and aid the establishment of long-term prospects for reconciliation to rebuild societies after wars. Students will gain knowledge of theories that explain whether and how peacekeeping forces, agreement design, power-sharing institutions, mediation, foreign aid, and post-war elections help domestic belligerents reach and keep peace.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1536 - HUMAN SECURITY

Minimum Credits: 3
Maximum Credits: 3
This is a topics course in international relations focusing on the politics of human security. The politics of human security is an area of evolving

interest within the field of international relations. Currently, few political science departments offer courses on the topic and there is little agreement on what should be included in such a course. The general consensus is that 'human security' differs from 'national security' in that the latter is concerned with the well-being of the state, while the former is concerned with the well-being of individuals. In this course, we will focus on how violence, political oppression, poverty, and ecological destruction threaten individual welfare and what the international community is (and is not) doing to address these concerns.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1537 - PEACEMAKING & PEACEKEEPING

Minimum Credits: 3
Maximum Credits: 3
This course explores the conditions that lead to initiation, escalation, and termination of Civil Wars as well as the circumstances that promote or restore peace within states. Why do Civil Wars break out in some countries but not others? Why do Civil Wars last as long as they do? How does the international community help resolve Civil Wars? The ultimate goal of this course is not to examine a particular Civil War in detail but rather to provide a broad theoretical treatment of Civil Wars, and a better understanding of international relations. Upon completion of this course, you should be familiar with the factors that mitigate or exacerbate conflict within states and develop informed insights about the mechanisms of conflict management and resolution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1538 - POLIT OF OIL & NATRL RESORCS

Minimum Credits: 3
Maximum Credits: 3
Oil has played an incredible role in shaping the domestic and international politics of both producer and consumer countries around the globe. Since commercial production first began in the late 19th century, rising world demand for oil coupled with a geographically concentrated and exhaustible supply has defined the nature of global economic competition, economic and political development within countries and geo-political power struggles between countries. This course aims to shed light on why oil (and related natural resources) has had such a powerful effect on world politics to date and what our dependence on oil might mean for the future.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1541 - POLITICS GLOBAL ECON RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course examines the connections between power and wealth, states and markets, and economics and politics in order to gain a better understanding of the political underpinnings of the global economy as well as the influences that international economics has on national and international politics. It is an introduction to what political scientists call international political economy (or simply IPE).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1542 - GLOBAL ENVIRONMENTAL POLITICS

Minimum Credits: 3
Maximum Credits: 3
In this course we will explore the "politics" of international environmental issues in a way that complements a more scientific-technical treatment of the issues. We will draw upon international relations theories and concepts (e.g. power, dependency, complex interdependence, epistemic communities, regimes, and the logic of collective action) to help us explain environmental politics in the global arena.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1543 - GLOBALIZATION & INT'L POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines globalization's political and economic effects on societal welfare around the world. We start by looking at economic globalization historically, comparing the degree and forms of international economic integration during the late 19th century with today. We then consider, in more detail, the domestic consequences of current changes in the international political economy, particularly expanding trade and increased international capital mobility, for both the developed democracies and developing countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1544 - POL ECONMY OF AMER TRADE POLCY

Minimum Credits: 3
Maximum Credits: 3
This course offers an historical overview and analysis of American trade policy. Through trade policy, we will analyze the interactions between domestic politics and American foreign economic relations, characteristic of increased international economic interdependence. The course will focus on how American trade challenges, politics and policies have evolved since the second World War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1551 - INTERNATIONAL COOPERATION

Minimum Credits: 3
Maximum Credits: 3
This course studies what makes cooperation difficult among nations and how nations overcome these problems. This course emphasizes theories of cooperation and international institutions. This course also emphasizes empirical tests of these theories. The course covers cooperation over a range of issues, from conflict to trade to the environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1570 - GERMN LANG TRAILER FOR PS 1518

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

PS 1581 - CAPSTONE SEM INT'L RELATIONS

Minimum Credits: 3
Maximum Credits: 3
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: PS 0500; PLAN: Political Science (BA or BS or BPH); LVL: Sr

PS 1583 - TOPCS IN INTRNATNAL RELATIONS

Minimum Credits: 3
Maximum Credits: 3
Current topics of interest in international relations. Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1587 - U.S. FOREIGN POLICY IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the increasing engagement of the United States in Africa from the late 19th century until the present. Using a case study approach, students will analyze American foreign policy in Africa and explore the varied effects of those policies. These case studies will include the political realities of decolonization, the cold war, and economic aid and the social and cultural ties of black Americans to Africa. The course will identify specific crises in American and African history as focal points for study, but will also provide a larger narrative about American involvement in both the colonial and post-colonial development of Africa.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1601 - ANCIENT & MEDIEVAL POL THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course surveys the work of major thinkers in the Western political tradition from ancient Greece through the middle ages, such as Plato, Aristotle, Augustine, Aquinas, and others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1602 - EARLY MODERN POLITICAL THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course surveys the work of major thinkers in the Western political tradition from the early modern period through the enlightenment, such as Machiavelli, Hobbes, Locke, Rousseau, and burke.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1603 - MODERN & CONTEM POL THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course surveys the work of major thinkers in the Western political tradition from the French revolution to the present, such as Bentham, mill, Marx, Tocqueville, weber, rails, and Habernas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1604 - EURPN SOCL THGHT & POL PRACT

Minimum Credits: 3
Maximum Credits: 3
An analysis of the relationship between the development of social thought and social theory since the nineteenth century through the early twentieth century. The major European social and political philosophers will be discussed in terms of the setting within the emerging democracies and their relationships with political leaders and emerging democratic institutions. The method is essentially critical analysis of what the social thinkers had to say about society and politics as it relates to governments and the obstacles to democratic governance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1605 - MODERN POLITICAL IDEOLOGIES

Minimum Credits: 3
Maximum Credits: 3
This course is designed to familiarize students with a number of belief systems that have or have had significant followings in the 20th century. The course is designed to be a comparative assessment of a number of organized ways of thinking about politics and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1607 - AMERICAN POLITICAL THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course provides a survey of American political thinking from the founding to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1610 - POL THRY OF THE AMER FOUNDING

Minimum Credits: 3
Maximum Credits: 3
This course will examine the political theory of the American founding period through reading and discussion of the political thought of some of the leading figures. The main emphasis will be on the thought of Jefferson, Adams, Madison, and Hamilton, along with selections from others such as Franklin, Paine, and the anti-federalists. Major political and constitutional documents from the period, and their background, will also be examined. The materials will largely be from 1760-1800, including pre-revolutionary developments, the revolution, the confederation, transition and how they do so. The second part of the course will then examine why some countries are more successful in their transition, based on an examination of civil society and the types of political institutions (such as political parties, the executive system, and the judiciary) that countries develop. What influences these choices and how do these choices affect success and stability of the new democracy? Has international aid been successful in helping countries develop democratic practices?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1611 - LIBERALISM AND DEMOCRACY

Minimum Credits: 3
Maximum Credits: 3
In this course, we shall attempt to think critically about liberalism and democracy, by means of conducting an historical and analytical examination of these concepts, with a special emphasis on contemporary criticisms of democratic capitalism.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1612 - MARXISM

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with Marxist political theory, with some attention to related philosophical and historical issues as well. Approximately two thirds of the course will be devoted to analysis of the original sources of Marxism-the writings of Marx and Engels; the remainder will consider various developments in the theory of Marxism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1614 - THEORIES OF JUSTICE

Minimum Credits: 3
Maximum Credits: 3
This course addresses the key intersection between two important topics in contemporary political theory: justice and globalization. The first half of the course will cover the highly influential works of john rails as well as reactions from Robert Nozick, Onora O'Neill, and Susan Moller Okin. The second half of the course will weave in the issue of globalization to questions of justice 'again using rails' work and various respondents as a vehicle for doing so. The course ends with a significant applied project on the intersection of globalization and justice that will challenge students to consider the current state of justice in a particular global case of their choosing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1615 - HISTORY OF POLITICAL THOUGHT 1

Minimum Credits: 3
Maximum Credits: 3
An examination of Western social and political ideas from antiquity to the renaissance. Emphasis on contextualized reading of a range of thinkers including Plato, Augustine, and Thomas more.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1616 - HISTORY OF POLITICAL THOUGHT 2

Minimum Credits: 3
Maximum Credits: 3
A survey of social and political thinking in early modern Europe. Authors to be considered include Machiavelli, Bodin, and Locke.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1617 - HISTORY OF POLITICAL THOUGHT 3

Minimum Credits: 3
Maximum Credits: 3
Europeans political thought and thinkers from the enlightenment to the nineteenth century. Readings will include texts by Rousseau, Hegel and Marx.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1618 - UHC ENGLISH REPUBLICANISM

Minimum Credits: 3
Maximum Credits: 3
The establishment of an English republic in 1649 had its practical context in the fiscal and military collapse of British monarchy. To understand the revolution which resulted, however, we must recover the mental world, both Protestant and humanist, which equipped some contemporaries to reject the failed system of monarchy altogether. Our source for the recovery of this ideology is the writing of authors such as john Milton, Marchamont Nedham, James Harrington, John Streater, Henry Vane Jr, Henry Neville, and Algernon Sidney. Stylistically, this constitutes one of the finest bodies of political literature in the English language. Intellectually it requires us to familiarize ourselves with, a range of ideas from classical antiquity, the late medieval period, the renaissance, reformation, and the seventeenth century itself.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1622 - WOMEN AND POLITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3

This course considers the essential three waves of feminist political thought in Western tradition. The course moves from early feminist theorists to modern concerns and questions over whether the third wave of political feminism is still going strong or it is more helpful to discuss a "fourth wave" of feminism. The course concludes with a project for students to explore how to tackle real political gender norms in an applied fashion, generating theoretically-grounded policy and behavioral changes for the world around them.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1623 - PSYCHOLOGY AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course will attempt to assess the significance of the insights into human potentialities in light of the traditional views and assumptions of political theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1629 - TOPICS IN POLITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
This course focuses intensely on a specific topic or problem in political theory; topics vary by instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1661 - GAME THRONES POLITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1674 - POLITICS OF GLOBAL INEQUALITY

Minimum Credits: 3
Maximum Credits: 3
This survey course introduces students to three kinds of inequality that cause concern among scholars, activists, and policy-makers and to the politics that surrounds these types of inequality. That is to say, we'll be studying inequality as a set of related phenomena, and we'll also be studying the politics that contribute to and arise from these phenomena. The course combines empirical analysis of inequality with normative analysis of its causes and repercussions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1675 - POLITICS OF HUMAN RIGHTS

Minimum Credits: 3
Maximum Credits: 3
Human rights have become the dominant normative discourse in global politics today. They are invoked by world leaders justifying military or 'humanitarian' interventions and by local and indigenous social movements challenging their domination with existing systems of social relations. They are lauded as essential to human dignity and decried as tools of imperialism and neo-colonialism. They are tools of the oppressor and tools for the oppressed. How can we make sense of these seemingly contradictory uses and understandings of human rights? This course seeks to explain human rights as fundamentally contested political claims. It develops this perspective through attention to the real politics of human rights, surveying existing human rights law and institutions, examining several important contemporary human rights issues, and reflecting on the different tools that political and social science offer for making sense of these controversies. The emphasis is on helping students to acquire a critical understanding of human rights that they can use to assess contemporary events; all students will focus on a particular country and issue of their choosing throughout the course as a way of grounding, focusing, and applying their learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1681 - CAPSTONE SEM POLITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
Capstones are writing intensive courses for senior, PS majors. Subject matter will vary from term to term depending on the interests, area of expertise, and inclinations of the particular instructor.
Academic Career: UGRD
Course Component: Seminar

Grade Component: Letter Grade
Course Requirements: PREQ: PS 0600; PLAN: Political Science (BA or BS or BPH); LVL:Sr

PS 1701 - FLD METHODS POLITICAL RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This course is run as a research laboratory. Students design and carry through a political survey. In the process students learn about and gain practical experience in theory building, sampling, questionnaire design, interviewing, coding, data processing and analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1702 - ANLYSIS OF POLITICAL VARIABLES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the methods and techniques of scientific inquiry in political science. It is designed to help students read and understand empirical social science research on both academic and policy issues. During the course, students will learn how to collect and analyze data and will receive instruction on the University of Pittsburgh computer system using batch and interactive statistical programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1710 - STRATEGY AND GAMES OF POLITICS

Minimum Credits: 3
Maximum Credits: 3
How can we better understand politics by viewing it as a game of strategy? Campaigns, elections, persuasion, lobbying, conflict, and war involve elements of competition, cooperation, and chance. Learn how to model and analyze strategic interaction by playing classroom games and applying tools from game theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1783 - TOPICS IN POLITICAL METHDOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1836 - POLITICS THROUGH FILM

Minimum Credits: 3
Maximum Credits: 3
This course uses cinema from a variety of countries to explore, in comparative perspective, central concepts and themes of politics, such as power, authority, conflict, leadership, ideology, propaganda, revolution, justice, and participation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 12
Credit for internships per se is normally limited to the Washington center for learning alternatives or other special centers with which the University of Pittsburgh has formal arrangements.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

PS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Independent study is normally associated with internships or special programs like the Washington center on learning alternatives.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PS 1902 - DIRECTED READING
Minimum Credits: 1
Maximum Credits: 3
Readings on special topics for which courses are not currently offered.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1903 - DIRECTED RESEARCH
Minimum Credits: 1
Maximum Credits: 3
Research on special topics for which courses are not currently offered.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1905 - DIRCTED STUDY:FLD TRIP ABROAD
Minimum Credits: 1
Maximum Credits: 6
Readings on special topics for which courses are not currently offered.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PS 1910 - INSTIT POLITICS INTERNSHP/SEM
Minimum Credits: 4
Maximum Credits: 4
Students selected for the institute of politics internship will register for this course for the experiential component of their internships. The purpose of the internship experience is to provide the student with direct exposure to the process of public decision-making. Each student will spend nine hours a week working with an individual or office directly involved in the policy making process. Students will be given specific responsibilities and will be expected to be an active and integral part of the office in which they are placed. The details and terms of each placement will be carefully worked out and agreed upon by the student, the placement supervisor and the placement sponsor. Utmost care will be taken to insure that the student is placed in a situation that will maximize his/her exposure to all office activities and that the student is not left unsupervised and uninvolved. Students from all disciplines may apply, but preference will be given to students in their junior and senior years. Students must report to their placement for at least nine hours a week and fulfill any agreed upon responsibilities. Students will also be required to keep a written journal which describes and analyzes their internship experience
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

Psychology

PSY 0005 - INTRODUCTION COGNITIVE SCIENCE
Minimum Credits: 3
Maximum Credits: 3
A survey course that utilizes a cross disciplinary approach to cognition, and an introduction to the various disciplines within a single coherent framework. The course covers basic cognitive processes of perception, language and thought, examining how each of these areas is examined within the disciplines of psychology, neuroscience, linguistics, philosophy and artificial intelligence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0010 - INTRODUCTION TO PSYCHOLOGY
Minimum Credits: 3
Maximum Credits: 3
Summary of our present knowledge in fundamental areas of learning, sensation and perception, biological basis of behavior, developmental patterns, motivation, emotion, personality and adjustment, and measurement of behavior. Information and concepts are applied to problems in understanding human behavior. Additional out-of-class experiments or an equivalent research paper are a part of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0012 - FOUNDATIONS OF PSYCHOLOGY
Minimum Credits: 3
Maximum Credits: 3
The course deals with the major issues regarding the understanding of human behavior, and provides a general introduction to the science of

psychology. How these issues should be approached using paradigms of an empirical science and the fallacies and misrepresentations that have or can occur when such an approach is not taken are explored. The overall approach will be one of problem solving with the students being required to take an active part in the problem solving process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0020 - PSYCHOLOGICAL STATISTICS

Minimum Credits: 4
Maximum Credits: 4
The aim of the course is to provide the student with a basic understanding of statistical techniques of primary interest in psychology, education and behavioral sciences. Topics include frequency distributions, graphing techniques, percentile ranks, measures of central tendency and variability, standard scores, normal curve, probability, combinations and permutations, correlations and regression, sampling distributions, tests of hypotheses, confidence intervals, one and two-way analysis of variance and non-parametric analyses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0035 - RESEARCH METHODS

Minimum Credits: 4
Maximum Credits: 4
The course introduces students to the fundamentals of psychological research, including the nature of psychology as a science, the selection of a research problem, research designs, writing research proposals and papers using APA style and ethical considerations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270 or MATH 0133)

PSY 0105 - INTRODUCTION TO SOCIAL PSYCH

Minimum Credits: 3
Maximum Credits: 3
An overview of social psychology. The scientific study of how one person's behavior and/or characteristics can influence the thoughts, feelings and behaviors of others. Topics covered include social perception, attitude formation and change; prejudice and discrimination; altruism and aggression; cooperation, competition, and bargaining; group decision making, leadership; and environmental effects on behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0160 - PSYCHOLOGY OF PERSONALITY

Minimum Credits: 3
Maximum Credits: 3
Survey of major approaches to the study of personality, focusing on their relative abilities to provide coherent explanations for individual behavior. Issues involved in the assessment of personality will also be discussed and several assessment procedures evaluated. Recent research in personality psychology is reviewed and analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0182 - LAW AND SOCIAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the social psychological aspects of the criminal justice system. Topics covered include victim reporting, police discretion, pretrial processes, interaction in the courtroom, juror selection and decision making, the sentencing decision, the prison experience, parole decision making and return to society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0184 - PSYCHOLOGY OF GENDER

Minimum Credits: 3
Maximum Credits: 3
This course is intended to be an introduction to the theories and current research on the psychological nature of women and the psychology of gender

roles. The male perspective on gender roles will also be included. The effects of cultural factors that determine both female and male roles in our society will be examined as well as how these roles affect different interpersonal relationships between women and men. The potential for change at both the societal and individual level will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or PSY 0105 or 0101 or 0200 or 0203 or 0210

PSY 0186 - CROSS CULTURAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The systematic, scientific study of human behavior takes into account the diverse ecological and cultural settings in which we live. The course covers traditional topics in human psychology-perception, cognition, personality development, intergroup relations and impact of social change. Research data are emphasized. Approach is interdisciplinary, integrating material from anthropology as well as psychology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0310 - DEVELOPMENTAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The course focuses on development of the child from birth to adolescence, the current theory and research concerning social, emotional, intellectual, perceptual and language development. The organization of the course is topical. Coverage is confined to normal development; what develops, how and why in the average child. Little attention to abnormal development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0315 - COMPARATIVE ANIMAL BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course covers understanding of human behavior through an appreciation of our evolutionary heritage. The impact of evolutionary theory on the interpretation of human behavior influences how we view such topics as aggression, altruism, learning, motivation, sexual behavior, and parenting. Data from both laboratory and field investigations on a wide variety of animals are examined. Special attention is given to the behavior of man.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0380 - PSYCHOLOGY OF AGING

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine the basic psychological changes occurring through adulthood into old age. Particular emphasis will be given to the biological, social, and cultural influences. Discussions with some outside speakers, movies and demonstrations augment the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0405 - LEARNING AND MOTIVATION

Minimum Credits: 4
Maximum Credits: 4
This course elucidates fundamental principles of learning and motivation as derived predominantly from animal research. Focus is given to the empirical and conceptual processes underlying the facilitation and suppression of behavior, e.g. primary and conditioned reinforcement, non-reinforcement, punishment and avoidance as well as the generalization and discrimination of these processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0420 - COGNITV PSYCHOLOGY FOR MAJORS

Minimum Credits: 4
Maximum Credits: 4
This course describes how the mind works by considering the processes underlying attention, perception, memory, decision making, thinking, and language. These processes are described on both behavioral and physiological levels. Course is restricted to students who are majoring in psychology.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200 or 0203 or 0210 and PSY 0035 or 0032 or 1031

PSY 0421 - COGNITIVE PSYCH FOR NON-MAJORS

Minimum Credits: 3
Maximum Credits: 3
This course describes how the mind works by considering the processes underlying attention, perception, memory, decision making, thinking, and language. These processes are described on both behavioral and physiological levels. This course is intended for non-psychology majors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0422 - COGNITIVE PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to core issues, theories, and experimental finding in cognitive psychology. Topics to be covered include sensory perception, attention, memory, imager, language, reasoning, problem solving and decision making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0423 - COGNITIVE PSYCHOLOGY LAB

Minimum Credits: 3
Maximum Credits: 3
This course exposes students to the details of experimental methods in cognitive psychology, with a particular focus on experimental laboratory studies. Students will also improve their understanding of research report writing, computer skills, and quantitative data analysis skills. The course is organized according to the research process, which is implemented twice across two projects. For each project, students read background literature, develop research hypotheses, design experiments to test them, conduct the experiments, analyze the results, and write-up the experiments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0101 or 0200) and (PSY 0032 or PSY 0035 or 1031) and PSY 0422; PLAN: Psychology (BS)

PSY 0505 - INTRO TO BIOPSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This is a survey course in which the biological bases of certain classes of behavior are explored. The behaviors studied are limb movement, sleep and wakefulness, feeding, sexual behavior and learning and memory. Each of these behaviors is considered from the point of view of which brain structures and which neurotransmitters are involved in the production of that behavior. Emphasis is also placed on experimental techniques used to obtain relevant data and on the type of inferences which can be made from these experiments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0510 - SENSATION AND PERCEPTION

Minimum Credits: 3
Maximum Credits: 3
This course examines the nature of the mechanisms that transform sensory input into our perceptual experience of the world. Topics include structure and function of sensory system, perception of color, object, motion, etc. Both information-processing and ecological approaches to the study of perception are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 0581 - PSYCHOLOGY OF VISUAL ART

Minimum Credits: 3
Maximum Credits: 3
This course emphasizes the application of perceptual theory to the study of painting, photography, and film. One of the central topics to be considered is how properties such as three-dimensionality, color, shape, and motion can be represented on a two-dimensional surface. The general properties of visual images are discussed, followed by a consideration of how color, brightness, size, form, depth, and motion are perceived in the

world and in pictures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0584 - ESP AND PSEUDOPSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course deals with ESP, hypnosis, altered states of consciousness, the human potential movement, etc. from the skeptical perspective of scientific psychology. Scientific explanations of the various phenomena will be attempted. This is not a course for the true believer in the paranormal. It is designed for the student who seriously wants to know how much one can believe of what is printed about these topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 0680 - INTRO INDUSTRL/ORGANIZATIONAL

Minimum Credits: 3
Maximum Credits: 3
A survey course of contemporary practice in the field of industrial psychology. Principal topics include employee selection, testing, performance appraisal, training and development, leadership, work motivation, organizational psychology, conditions at work, engineering psychology, employee safety and health, consumer and marketing psychology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1005 - STAT ANAL 1/ADV STATS-UG

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide knowledge and skills needed to plan and conduct analyses using a uniform framework based on the general linear model. Topics to be covered include descriptive statistics, graphic data, sampling distributions, hypothesis testing (including power, effect sizes, and confidence intervals), t-tests, correlations, multiple regression, and polynomial regression. Students will learn to use SAS for statistical computing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1025 - TESTS AND MEASUREMENT

Minimum Credits: 3
Maximum Credits: 3
This course reviews representative examples of current psychological tests and covers, in some detail, the nature of psychological measurement and the elements of test theory and test construction. Topics covered include item analysis, item selection techniques, reliability, validity and validation procedures, standardization and norming, and the conceptual problems in test interpretation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270)

PSY 1050 - TOPICS IN PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
A topics course. Content will vary from term to term depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0200

PSY 1051 - TOPICS IN SOCIAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in social psychology will vary from term to term, depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0105 or 0203 or 0210

PSY 1052 - TOPICS IN CLINICAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in clinical psychology will vary from term to term, depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1053 - TOPICS IN DEVELOPMENTAL PSYCH

Minimum Credits: 3
Maximum Credits: 3
Topics in developmental psychology will vary from term to term depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (0202 or 0230 or PSY 0310) and (STAT 0200 or STAT 1000 or STAT 1100)

PSY 1054 - TOPICS IN COGNITIVE PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Topics in cognitive psychology will vary from term to term, depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0032 or PSY 0035 or 1031)

PSY 1057 - TOPCS BIOLOGCL & HEALTH PSYCH

Minimum Credits: 3
Maximum Credits: 3
Topics in biological and health psychology will vary from term to term, depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0200) and (PSY 0032 or PSY 0035 or 1031)

PSY 1058 - TOPICS IN IND/ORG PSYCH

Minimum Credits: 3
Maximum Credits: 3
Topics in industrial/organizational psychology will vary from term to term depending on instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1059 - TOPCS IN ADVNCD RSRCH METHDS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0035 and (STAT 0200 or STAT 1000 or STAT 1100); PROG: School of Arts & Sciences

PSY 1075 - HISTRY & SYSTEMS OF PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the student with an integrated view of the development of the field of psychology with emphasis on the philosophical and biological background of the nineteenth century and the systems period of the twentieth century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200; LVL: Jr or Sr

PSY 1110 - PSYCHLGCL ASPCT HUMN SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
The course presents a social-psychological and psycho-biological orientation towards the study of human sexuality. Current research is emphasized. Topics such as sexual attitudes, hormones and behavior, changing sexual behavior, sex education, gender-role development, alternative forms of

sexual expression, and violence and sex are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0105 or 0203 or 0210)] or (PSY 0160 or PSY 0184 or 0204 or 0240)

PSY 1112 - PSYLGCL ASPCT SEXLTY RES WRIT

Minimum Credits: 3
Maximum Credits: 3
The course presents a social-psychological and psychobiological orientation towards the study of human sexuality. Current research is emphasized. In addition to lectures and exams, students will conduct a class research project on sexual attitudes and write this up in APA style.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 0032 or 1031) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270)

PSY 1115 - SOCIAL PSYCH & CRIMNL JUSTICE

Minimum Credits: 3
Maximum Credits: 3
This course applies theory and data in social psychology to decision making in the criminal justice system. Topics covered include: decision making by victims, bystanders, police, prosecutors, defense attorneys, juries, judges, prison guards, probation officers and parole boards. Class activities include films, discussions, student presentations, simulations and field trips to agencies of the criminal justice system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200 and PSY 0182 or 1410

PSY 1116 - SOCIAL PSYCHOLOGY AND HEALTH

Minimum Credits: 3
Maximum Credits: 3
This course will review social psychological theories such as cognitive dissonance, social comparison, and social support and discuss how these theories might be applied to understanding and predicting health behavior and disease. The intersection of social and health psychology has grown substantially over the past 10-15 years. And this course will review research at this intersection. Students will learn how to apply a wide variety of social psychological concepts and findings to designing interventions that promote healthy behavior and reduce disease risk.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1125 - ATTITUDES AND ATTITUDE CHANGE

Minimum Credits: 3
Maximum Credits: 3
Basic concepts and principles of attitude formation and change are considered, and important research findings are reviewed. A variety of theoretical approaches are compared and contrasted. The attitude-behavior question is investigated in some detail. Attention is also devoted to attitude measurement and other problems of methodology. Illustrative areas of practical application are provided.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0105 or PSY 0160 or 0203 or 0204 or 0210 or 0240

PSY 1130 - SPEC TOPC ON PSYCH OF GENDER

Minimum Credits: 3
Maximum Credits: 3
An advanced course which deals with psychological research relating to women and power. Topics covered include physical power, nonverbal perpetuation of power differences, power motivation, social power, power dynamics in the family and political power. Each semester the course has a different focus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1135 - SOCIAL PERCEPTION & COGNITION

Minimum Credits: 3
Maximum Credits: 3
Historical problems and current issues are identified. Some general principles of perception and cognition are reviewed. Recent research and theoretical formulations are considered in each of these areas; impression formation, interpersonal attraction, causal and moral attribution, prediction of behavior, perceptions of interpersonal relations, group stereotyping and prejudice.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1140 - SOCIAL MOTIVATION

Minimum Credits: 3
Maximum Credits: 3
A survey of current research in human motivation. Topics to be covered include aggression, affiliation, power and achievement motivation. Current theoretical approaches and data will be discussed. Some experimental exercises will be used to aid students in understanding the concepts being explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1150 - SOCIAL PSYCH OF SOCIAL CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course presents a psychological perspective on the topic of interpersonal manipulation and control. It is an advanced course for students interested in social psychology. Topics covered include social roles as determinants of attitudes and behaviors; commitment-building in utopian communities; reaction to deviance in groups; group socialization; and impression management techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1155 - PSYCHOLOGY OF SMALL GROUPS

Minimum Credits: 3
Maximum Credits: 3
This course surveys basic principles and research findings involving small groups. Some of the topics covered include social facilitation, conformity, and cohesiveness, social comparison, roles, status, and norms, leadership and inter- group relations. Social processes within both laboratory and natural groups will be studied, and some emphasis will be placed on the practical relevance of small group research to the everyday experience of group membership.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0105 or PSY 0160 or 0203 or 0204 or 0210 or 0240

PSY 1180 - PSYCHOLOGY OF BLACK EXPERIENCE

Minimum Credits: 3
Maximum Credits: 3
An overview of the field of black psychology. The primary emphasis is on detailed coverage of several topics in black psychology; i.e. psychological assessment and IQ testing, the black family, racism, and black American English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1205 - ABNORMAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the major issues in the area of mental illness. This course emphasizes the scientific approach to understanding the major psychological and behavioral disorders. The research and clinical literatures regarding the etiology, course and treatment of these disorders will be presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 1210 - INTRO TO CLINICAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is directed toward the student seriously interested in the major issues pertaining to clinical psychology. The course provides an overview of the major therapeutic approaches and incorporates other germane issues such as history of the field, assessment issues, interviewing approaches, community psychology, behavioral medicine, and clinical research and methodology. Present therapeutic approaches are placed in the context of an evolving discipline, anchored in an empirical-scientific approach to the subject matter.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 1205 or 0206 or 1141)

PSY 1215 - HEALTH PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the major questions and methods which have guided the research in health psychology. This field examines the role of psychological and social factors in the development and progression of medical disease. Three main topics are covered: (1) conceptual underpinnings of health psychology, (2) psychosocial factors and specific diseases, and (3) evaluating behavioral medicine interventions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0035 or 0032 or 1031) and (PSY 0105 or PSY 0505 or 1500 or 0203 or 0210)

PSY 1225 - PSYCHOLOGY OF EMOTION

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course covering contemporary issues in the study of emotion. Topics considered include expressive, cognitive, biological and social aspects of emotion and the role of emotion in psychopathology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 0032 or 1031) and (PSY 0105 or PSY 0160 or PSY 0310 or 0202 or 0203 or 0204 or 0210 or 0230 or 0240)

PSY 1230 - PSYCHOLOGY OF DEATH AND DYING

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to widen the student's understanding of human death in its biological, socio-cultural, and primarily psychological dimensions. We will examine the concept of death, psychological reactions to death and dying, and the process of bereavement. We will also explore selected issues such as suicide and euthanasia, children's concepts of death, and the question of life after death. It is hoped that with increased knowledge about death and dying, you will be able to look more critically at materials being published in the popular press.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 1235 - ALCOHOL USE AND ABUSE

Minimum Credits: 3
Maximum Credits: 3
This course covers a range of topics related to alcohol, including history, anthropology, sociology, epidemiology and literature. Topics include psychopharmacology, social-cognitive effects of drinking, etiology of alcoholism, as well as the prevention and treatment of alcoholism. This course also addresses abuse of other selected drugs such as nicotine, cocaine and heroin.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012) and PSY 0035 and PSY 1205 and (PSY 0105 or PSY 0420 or PSY 0422)

PSY 1255 - PRINCIPLES OF BEHAVR MODIFICTN

Minimum Credits: 3
Maximum Credits: 3
Behavior modification techniques are the most commonly used interventions in psychology, education and health psychology. In this course, students will learn basic concepts, theories and research in behavior modification in the context of clinical applications. Most learning will occur through practical, applied exercises. In one set of exercises, students will choose a hypothetical client and apply behavioral methods to their client's case. Students will develop a portfolio of assessment and treatment techniques for their client.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1270 - CHILD PSYCHOPATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course considers research and theory which bear on the development of psychological disorders in children. Biological and environmental factors which contribute to childhood disorders are considered with special emphasis on the role of the family. Childhood psychosis, hyperactivity, and depression are studied to illustrate theoretical models and empirical findings.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0310 or 0202 or 0230) and (PSY 1205 or 0206 or 1141)

PSY 1305 - EXPERIMENTAL CHILD PSYCHOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course introduces students to the scientific basis of theories and issues in developmental psychology. In lectures, discussion and structured experiments students learn about and apply basic methods of research in child development, including conceptualization, design, data collection, analysis and write-up. This course exposes students to development over infancy and childhood.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 and PSY 0035 and PSY 0310

PSY 1312 - CHLD DEVELOPMNT & SOCIAL POLCY

Minimum Credits: 3
Maximum Credits: 3
In this course we will examine issues in child development that are also the subject of public policy debates with implications for the well-being of children and families. Topics will include poverty and young children's development, the child care debate, early intervention for children at risk (e.g. head start), issues in child abuse including family preservation, foster care, and children's testimony, and decisions about child custody and visitation following parental divorce.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0202 or 0230 or PSY 0310

PSY 1315 - DEVELOPMENTAL PSYCH: INFANCY

Minimum Credits: 3
Maximum Credits: 3
This course will explore how infants develop during the first two years of life. Some of the specific topics to be covered include: prenatal development, alternative birth techniques, capabilities of the newborn, the development of perceptual and memorial processes during the first year, early language development, and the development of infant parent attachments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0310 or 0202 or 0230)

PSY 1320 - LANGUAGE DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course addresses the question of how children acquire a system of communication that involves an extremely complex set of rules and principles. Students also learn about the structure of the language itself and the nature of linguistic analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0310 or 0202 or 0230

PSY 1325 - DVLPMNTL PSYCH: SOCIAL DEVELP

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory survey of methods, theories, and research on the personality and social development of humans from infancy through early adolescence in the United States. This course examines individual development: how people come to be who they are, and how change and continuity work together over time. First comes an investigation of starting points in development. We will study the infant's first social relationship, and we will try to understand the connection between early temperament and mature personality. Basic concepts of developmental theory will also be introduced. Next we examine how children function within increasingly complex and varied social environments such as families, peer groups, and educational settings. Topics covered include self-development, sex differences and gender role development, achievement motivation, prosocial behavior/altruism, moral development, and antisocial behavior. This upper level course is designed for psychology majors. The course may be of interest to other advanced undergraduate students who are interested in psychology, child and adolescent development, education, and related disciplines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0310 or 0202 or 0230) and (PSY 0035 or 0032 or 1031)

PSY 1330 - DVLPMNTL PSYCH: COGNITV DEVELP

Minimum Credits: 3
Maximum Credits: 3
This course covers major areas of cognitive and intellectual development with an emphasis on learning and memory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1355 - ADOLESCENCE

Minimum Credits: 3
Maximum Credits: 3
The period of adolescence will first be studied from both a psychological and sociological perspective. Focus is on the individual as he/she experiences physical, cognitive, and social changes. Contributions of such theorists as Freud, Erikson, and Piaget are highlighted. A number of critical issues and conflicts of adolescence are discussed i.e. the generation gap, sex roles and behaviors, juvenile delinquency.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0010 or PSY 0012 or 0015 or 0101 or 0200) and (PSY 0310 or 0202 or 0230)

PSY 1357 - PSYCHOLOGY OF AGING

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine the psychological changes that occur through adulthood and into late life from a life-span developmental perspective. Biological, cognitive, emotional, and social aspects of the aging process will be explored in depth. Historical and contemporary perspectives on aging as well as cultural influences on the experience of aging will be examined. Psychological aspects of aging will be explored from individual, familial, and societal viewpoints. Lecture, class discussion, small group work and media presentations will be utilized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 1360 - PSYCHOLOGY OF BLACK CHILDREN

Minimum Credits: 3
Maximum Credits: 3
This course surveys and critically evaluates literature on the development of black children from birth to adolescence. Topics to be covered include prenatal influences on growth and development; structure and socialization practices of black families; black English and language development; cognitive development; psychological testing of black children; self-concept and racial identification.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 0032 or 1031) and (PSY 0310 or 0202 or 0230) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270)

PSY 1435 - BEHAVIOR CONTROL IN SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the scientific principles used in behavior management and examines some of the uses of behavior management in various work settings, other institutional settings, in governmental control and in open society. The relation of the uses of behavior control procedures to ethics, social planning, and individual freedom are explored. Behavior analysis serves as the basis for examining traditional management of people as it is found in a variety of social situations without the intervention of experts in behavior management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1454 - LANGUAGE COMPREHENSION AND USE

Minimum Credits: 3
Maximum Credits: 3
This course will cover how language is produced, comprehended and used by normal adults-focusing on those processes above the word level. Content areas will include: syntax and pragmatics, major debates in cognitive science related to the study of language, sentence comprehension, discourse comprehension, sentence production, conversation, figurative language, and the relation between language and thought.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1455 - PSYCHOLOGY OF READING

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to psycholinguistics, and includes the following topics: the nature of language as a communication system, linguistics structure, the relationship between language and thinking, experimental psycholinguistics, including speech perception and comprehension, language development, and the effect of social variables on language styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0420 or 1061

PSY 1460 - MEMORY AND MEMORIZATION

Minimum Credits: 3
Maximum Credits: 3
Why is it that some things seem so easy to learn and others seem so difficult? Is it possible to train memory? What changes in the brain when we learn and remember? In this class you will explore various methods of learning to gain an understanding of the complexities of human memory. You will work on training your memory and determine how much your memory can improve, and how much those improvements generalize from one form of memory to the next. Along the way, you will learn about the major theories of memory and identify which learning techniques result in the best memory performance. You will also gain knowledge about the neural bases of learning and memory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1465 - COGNTV PSYCH & INT'L RELATIONS

Minimum Credits: 3
Maximum Credits: 3
An intensive treatment of higher mental processes, i.e. problem solving, reasoning, and decision making as they relate to foreign policy decision making. The operation of cognitive processes and decision making will be studied from a cognitive perspective. The course will also provide a broad social science background by taking a course which suggests relationships between two apparently disparate domains as psychology and political science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1470 - COGNITION AND THE BRAIN

Minimum Credits: 3
Maximum Credits: 3
This course examines fundamental issues in cognitive neuroscience, an interdisciplinary science covering topics in the neural basis of sensory perception, motor control, attention, short-term and long-term memory, language, emotion, decision-making and consciousness. Some of the areas covered are how strokes affect speech, how perception is unified, how the visual system analyzes color, shape, and location of objects. Research methods and research results are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200 or NROSCI 1000 or NROSCI 1003

PSY 1471 - MAPPING BRAIN CONNECTIVITY

Minimum Credits: 3
Maximum Credits: 3
This class will cover background and technical methods of mapping high definition fiber tracking of brain connectivity for basic research and clinical imaging. Students will learn to map/quantify anatomical connections of the human brain. These techniques are used to study brain systems, disorders, and development, and to assist in planning neurosurgery. Students may take an optional one-credit laboratory in which they will learn to use advanced computation software to execute research projects including developing of technical methods, mapping brain networks, or clinical analysis of data.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1510 - FOUNDATIONS: PERCEPTION

Minimum Credits: 2
Maximum Credits: 2
The objective of this course is to extend our consideration of the mechanisms underlying perception beyond the introductory level. Basic principles of psychophysics and sensory physiology are examined, then specific topics are studied in greater detail. Topics to be covered include: theoretical approaches to perception; mechanisms of neural coding; cortical organization and its relation to perceptual mechanisms; the perception of color, motion and form; perceptual development; neurophysiological approaches to perception and perception in non-visual senses.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1514 - EVOLUTIONARY PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The relevance of Darwinian Theory to the study of anatomy and physiology has been obvious for many decades. Only recently however, have evolutionists begun to focus their explanatory tools on cognition, motivation, emotion, perception, and "mind". This course will examine the rationale, contributions, failures and future of evolutionary approaches to psychological phenomena. Initial lectures on the status of Evolutionary Theory will prepare the students for the discussion and evaluation of evolutionary psychology that will follow.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0015 or 0101 or 0200

PSY 1520 - PSYCHONEUROIMMUNOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide a general background in a new interdisciplinary area of research dealing with the effects of physical and psychological stress on the ability of the immune system to withstand illness and disease. Emphasis is placed on experimental studies which demonstrate the ways in which environmental factors alter immunocompetence of animals and humans and on neural and endocrine factors that may mediate such effects. The possible significance of nervous sysimmune system interactions for development of disease states such as cancer is discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1530 - HLTH JUDG & DECISION MAKING

Minimum Credits: 3
Maximum Credits: 3
This course will review the many applications of research on human judgement and decision-making to the health and medical context. Many lay decisions to adopt health behaviors such as hormone replacement therapy or a new exercise regiment, and professional decisions such as diagnosis and recommended therapies, are influenced by biases and risk perceptions that normally influence human decision-making. The purpose of this course is to show how research in these areas might be used to improve decision-making by both laypeople and medical professionals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (PSY 0035 or 0032 or 1031) and (STAT 0200 or STAT 1100 or PSY 0020 or 0201 or 0270)

PSY 1580 - LANGUAGE AND THE MIND

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the study of language as a cognitive science, focusing on the mental representations of the sounds of speech. Throughout the course we will emphasize the scientific methods used by researchers to investigate questions about the sounds of language. Because this course is multidisciplinary in nature, drawing primarily from the fields of linguistics and psychology, students will be introduced to the different methods, techniques, and technologies used by researchers in both fields.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1630 - PERSONNEL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course surveys theory and practice of personnel psychology. Topics include employee selection, performance appraisal, training and development, leadership, compensation, organizational structure and change, unions. The course is designed to introduce the student to the psychological and legal issues most frequently encouraged in actual personnel practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PSY 1635 - ORGANIZATIONAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will provide broad exposure to the field of industrial/organizational psychology. Course topics will include (but are not limited to) personnel selection, training, worker motivation, job attitudes, performance appraisal, leadership, and career development. The class format will include multiple hands-on assignments to assist the student in understanding how psychological theories can be applied in a work context. Grades

will also be derived from performance on formal tests.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PSY 0010 or PSY 0012 or 0101 or 0200) and (PSY 0035 or 0032 or 1031) and (STAT 0200 or STAT 1000 or STAT 1100 or PSY 0020 or 0201 or 0270)

PSY 1900 - SUPERVISED FIELD PLACEMENT

Minimum Credits: 1
Maximum Credits: 6
Psychology majors may receive up to 6 credits for field experience in supervised agencies in the community. The experiences vary from term to term.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: Psychology (BS); LEVEL: Junior or Senior

PSY 1901 - CASE MANAGEMENT FLD PLACEMENT

Minimum Credits: 6
Maximum Credits: 6
Supervised field placement in community agencies for psychology majors enrolled in the case management certificate program
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PSY 1902 - DIRECTED INDIVIDUAL READING

Minimum Credits: 1
Maximum Credits: 3
Under special circumstances, psychology majors can design an individual reading course with a member of the department and in consultation with the graduate advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PSY 1903 - DIRECTED INDIVIDUAL RESEARCH

Minimum Credits: 1
Maximum Credits: 3
This course involves student participation in individual experimental research supervised by a member of the department faculty. This course is particularly valuable for students interested in graduate study in psychology.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

PSY 1905 - UNDERGRADUATE COLLOQUIUM

Minimum Credits: 2
Maximum Credits: 2
This course is designed to provide a survey of research and professional fields of psychology, using appropriate guest speakers and selected readings for each area.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: Satisfactory/No Credit

PSY 1950 - PSYCHOLOGY SENIOR SEMINAR

Minimum Credits: 1
Maximum Credits: 1
This one-credit course is designed for psychology majors in their final year of study (either final or next-to-final term). Course content will include exploration of the field of psychology, self-assessment of learning experiences, identification of marketable skills for career and graduate school paths, and planning for transition to post-college life. Permission to enroll in the course must be obtained from the psychology advising office.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Psychology (BS or BPH); LVL: Sr

PSY 1970 - UNDERGRAD TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3

This course involves student participation as an undergraduate teaching assistant (UTA) for a psychology course under the supervision of a faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

PSY 1973 - HONORS DIRECTED RESEARCH
Minimum Credits: 3
Maximum Credits: 3
This is the first term of research in preparation for the honors major in psychology. Development of the research problem and approval of the theses prospectus.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

PSY 1975 - HONORS THESIS/MAJORS
Minimum Credits: 3
Maximum Credits: 3
Undergraduate honors majors in psychology will register for this course when their thesis proposal has been approved and they are ready to conduct and write up the research.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

Psychology Education

PSYED 0005 - LIFE SPAN DEVELOPMENT
Minimum Credits: 3
Maximum Credits: 3
This course follows the developing person from conception until the end of life. The course combines theory, research and practical applications from developmental psychology. Lecture topics include genetic influences on development; prenatal and birth factors; physical, cognitive, social, personality, and cultural variables which influence development in infancy, childhood, adolescence, early-, middle-, and late adulthood.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
Minimum Credits: 3
Maximum Credits: 3
A survey of current problems in education which psychological theory and research can address. Topics include developmental approaches to teaching, educational applications of learning theory, classroom management, and testing strategies for teachers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1002 - DVLP: CONCPTN THRGH ERLY CHLHD
Minimum Credits: 3
Maximum Credits: 3
This course follows the developing child from the moment of conception until early adolescence. The course content includes the biological foundations of development, physical and motor changes, language, cognition, sex role development, personality, family and peer relationships, school influences, and examples of deviant development. Theory and application are integrated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1003 - DVLP: MIDL CHLHD THRGH ADOLSC
Minimum Credits: 3
Maximum Credits: 3
Adolescence is studied from a developmental perspective. Discussion begins with the history and cultural varieties of adolescence and proceeds to cover psychological accompaniments to puberty. Lectures and readings deal with cognitive growth, identity formation, moral development, family and peer relationships, psychological disturbance and education through the adolescent years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSYED 1002

PSYED 1007 - METHDS/EVIDENCE BASED-PRACTICE

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of both quantitative and qualitative research methods. Particular attention is paid to methods of observation, interviewing, and summarizing qualitative data. Students use qualitative or mixed methods to produce a final research project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: PSYED 1002

PSYED 1012 - DEVELOPMENTAL DISABILITIES

Minimum Credits: 3
Maximum Credits: 3
A study of developmental disabilities and their impact on child/family development. Includes discussion of philosophy of service, legislation, and service systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSYED 1002

PSYED 1013 - DEVELOPMENTAL PSYCHOPATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Examines the traditional medical-model view of psychopath ology in children and youth, presents alternative ways of looking at this behavior, and gives an introduction to the interpersonal skills needed for therapeutic intervention.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: PSYED 1003

PSYED 1014 - ACTIVTY & ENVIRNMNTL PLANNG 1

Minimum Credits: 3
Maximum Credits: 3
A study of the theoretical rationale for activity and environmental programming, its relationship to the development of children and youth and its therapeutic implications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1015 - ACTIVTY & ENVIRNMNTL PLANNG 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of PSYED 1014 focusing on the implementation of interventive programming principles for children and youth with varying special needs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1016 - DEVELP CURRICULUM & ACTIVITIES

Minimum Credits: 3
Maximum Credits: 3
Study of the theoretical rationale for activity and environmental programming; its relationship to the development of children and youth; and practical applications in media selection, use, and environmental design for various populations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PLAN: Applied Developmental Psychology(BS)

PSYED 1019 - DEVELOPMNTL ASPCTS CHLDRN PLAY

Minimum Credits: 3
Maximum Credits: 3
An introduction to underlying dynamics and functions of play, and the meanings of play patterns for various developmental stages. Learning experiences include actual participation with play materials.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

PSYED 1021 - THEORY, MEANING & PRACT/PLAY

Minimum Credits: 3
Maximum Credits: 3
This course provides a comprehensive overview of the role of play and activity in human development, with a particular focus on ways of utilizing play and activity to promote positive growth in social, emotional, physical, and cognitive domains; and on interpreting the meaning of individual and group play and activity. Play and activity in the lives of persons of all ages will be considered with some emphasis on the early and school years. While academic learning is essential in this course, the focus will be on hands-on, real play as the ideal way to learn about it, and encouragement of a life-long playful spirit.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1024 - FAMILY DYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Study of different family types in the American culture and an in-depth analysis of how each family structure contributes to the development (both functionally and dysfunction ally) of all family members, especially the children and youth of the family.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSYED 1013

PSYED 1025 - PROFESSIONAL SEMINAR 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the scope, organization and current issues in the child development and child and youth care field as related to the profession and to the variety of services to children and families. Field experiences include site visits to agencies providing a variety of services.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psychology(BS)

PSYED 1026 - CHILD AND YOUTH DEVELOPMENT 1

Minimum Credits: 3
Maximum Credits: 3
This course focuses on theories of child development as they are applied in practice. The course covers the theories of Piaget, Freud, Erikson, Gibson, social learning, information-processing and ethology. Students learn the fundamental tenets of the theories as well as new directions of theory and practice. They are required to synthesize the different theoretical perspectives into coherent, well-in formed perspectives guiding their practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1027 - CHILD AND YOUTH DEVELOPMENT 2

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the "ecology" of childhood; the everyday lives of children, with particular regard to changes in social life with development from infancy through adolescence. Students will be oriented with an ecological, life-span perspective and study descriptive accounts of children's lives in families, neighborhoods, and schools, including developmental changes in play, peer relations and family patterns. Students will integrate the course content with actual observations of children's everyday behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1028 - DEVELOPMNTAL PRACTC SEMINAR 1

Minimum Credits: 3
Maximum Credits: 3
A seminar for the integration of theory, research, practice skills, and experience related to developmentally focused child and youth care practice. The seminar is particularly focused on the internship experience and the related know ledge base.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Applied Developmental Psychology(BS); LVL: Sr

PSYED 1029 - DEVELOPMNTAL PRACTC SEMINAR 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Developmental Practice Seminar 1 for the integration of theory, research, practice skills and experience related to developmentally focused child and youth care practice. The seminar is particularly focused on the internship experience and the related knowledge base.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1031 - SENIOR PROJECT

Minimum Credits: 1
Maximum Credits: 3
Student will work with a faculty member or do an independent project relevant to their individual interests.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1032 - PSYCHOSOCIAL ASPCTS OF ILLNESS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to enable students to understand the nature of and dynamics of pediatric illness, appreciate the impact an acute or prolonged health care experience may have upon children throughout the developmental process, better understand a family health care philosophy and gain an understanding of the multi-faceted role child life specialists play in today's health care environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

PSYED 1036 - DEVELOPMNTL MEANG CULTL DISTN

Minimum Credits: 3
Maximum Credits: 3
An exploration of major dimensions and issues of cultural diversity with a particular emphasis on their impact on the developing child and their implications for programs for children and youth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1040 - CHILD & YOUTH WORK PRACTICE 1

Minimum Credits: 3
Maximum Credits: 3
A study of applied theory, research and developmental programming and their relationship to the development of children; supervised internships with young children.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PSYED 1041 - CHILD & YOUTH WORK PRACTICE 2

Minimum Credits: 4
Maximum Credits: 4
A continuation of PSYED 1040 with an emphasis on applied theory, research and programming related to adolescence; direct supervised experience with children and/or youth in a practicum setting (145 hours in site during term).
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PSYED 1042 - CHILD & YOUTH WORK PRACTICE 1

Minimum Credits: 1
Maximum Credits: 6
A university approved, agency based, supervised internship in developmental/interventive practice. This internship may focus on work with and/or for children, youth and families. Fifty hours of placement are required for each credit of registration.
Academic Career: UGRD
Course Component: Practicum

Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1043 - CHILD & YOUTH WORK PRACTICE 2

Minimum Credits: 1
Maximum Credits: 6
This course is a university approved, agency based, supervised internship in applied developmental practice which may or may not involve intervention practices. The internship may focus on work with and /or for children, youth and /or families. Fifty hours of on-site placement are required for each credit of registration.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1050 - SUPRVSN ADM CHLD YTH WRK SETNG

Minimum Credits: 3
Maximum Credits: 3
This course focuses on issues and skill development in areas related to management and supervision in child and youth care programs. A modular format will cover the function of supervision and administration in child care; communication skills; supervisory functions and skills; program development and management; and current issues in child and youth care administration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Applied Developmental Psych (BS)

PSYED 1060 - SEM CHILD YOUTH WRK PRACTICE 1

Minimum Credits: 2
Maximum Credits: 2
Designed for students with professional associate's degree in child and youth care with substantial practicum experience. This course focuses on a study of applied theory, research and developmental programming and their relationship to the development of children.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PSYED 1061 - SEM CHLD YOUTH WORK PRACTICE 2

Minimum Credits: 2
Maximum Credits: 2
A continuation of PSYED 1060. Students are expected to write observations on child behavior, interview profession also in the field, and participate in class discussion.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PSYED 1080 - PSYCHOLOGY AND THE MEDIA

Minimum Credits: 3
Maximum Credits: 3
Psychology and the media focuses on impact of electronic media (radio, television and internet) upon society, especially children. Course introduces students to various psychological theories (e.g., Social cognitive theory, information processing, uses and gratifications theory) to explain how we respond to and learn from the media. Topics receiving special attention include media violence, advertising, health-related behaviors, news, media effects upon academic behavior, and cultural issues. A visit to a local radio or television station will be arranged.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1088 - SP TOPICS CHILD DVLP/CHILD CRE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on selected topical areas of special importance for child care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1089 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Have you ever wondered why some individuals continue to work hard even when they are faced with challenges while others give up easily or do not

try at all? Have you wondered what might be done to encourage all children to be willing to engage in learning? This course will focus on addressing these types of questions by taking an in-depth look at the development of achievement motivation in different settings from developmental and ecological perspectives. We will examine several different theories of motivation, the major constructs proposed by these theories, and how different contextual characteristics may facilitate student achievement motivation. We will also discuss different student characteristics such as age, gender, social class, and ethnicity and how they might produce individual variation in students' responses to contextual characteristics, as well as variations in the actual experiences they are likely to have in different contexts. Class format will be a mixture of lecture, recitation, and discussion. Readings will stress the theoretical and empirical work and our discussions will focus on the analysis and synthesis of the different theories and research findings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1098 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 6
Student pursues research under the direction of a faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

PSYED 1099 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

PSYED 1141 - CHILD AND YOUTH WORK 1 - INTRO

Minimum Credits: 3
Maximum Credits: 3
This course introduces contemporary issues in the vibrant and growing field of positive youth development. Our developmental-ecological perspective emphasizes both individual growth and the impact of systems on children and youth. Class topics include: settings where child and youth development occurs (e.g. community-based programs, religious and cultural institutions, residential treatment); the impact of popular media, social media, and other technology on youth development; and issues of diversity and privilege. We investigate efforts to support the development of thriving and other positive outcomes, as well as traditional prevention approaches. The course is benchmarked to the child and youth work competencies of the North American competency project and to the certification program of the child and youth care certification board, inc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1143 - CHILD YOUTH WRK 2: ADV ISSUES

Minimum Credits: 3
Maximum Credits: 3
This course expands and deepens on themes introduced in Child and Youth Work I. Topics include the challenges of ecological approaches to learning and development; the roles of decision-makers at multiple levels (government, program directors, youth workers, youth themselves); and the benefits and challenges of youth-adult partnership approaches to child and youth work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PSYED 1198 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
Student pursues study of various topics under the direction of faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

PSYED 1233 - COMMUNITY-BASED ACTION RES 1

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PSYED 1605 - CHILD YOUTH CARE BASIC COUSE

Minimum Credits: 3
Maximum Credits: 3
This strategy-based course, offered in partnership with the Allegheny partners for out-of-school time (APOST) of the united way, is attended by both University students and local youth workers. Hands-on, interactive sessions introduce essential concepts and skills in professional child and youth care, geared towards settings including early childhood education, after-school programming, foster parenting, residential treatment, basic care, emergency shelters, recreation, corrections, community youth services, and developmental disabilities. The course prepares participants for child and youth care certification with topics such as professional ethics, assessment, developmentally-based programming, and activity development. University students taking this course for credit will complete reading and writing assignments to accompany the practice-focused sessions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Public Health

PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH

Minimum Credits: 3
Maximum Credits: 3
This introductory course covers fundamental concepts in global public health, including determinants of health, key health indicators, global burden of disease, and the relationships among health status, education, and poverty, cross-cutting issues such as culture, ethical and human rights aspects of health, and key actors in global health will also be explored. A variety of teaching modalities will be employed throughout the course including lectures, guest speakers, case studies, class discussion, audio-visual presentations, and student presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Soph or Jr or Sr

PUBHLT 1002 - SPECIAL TOPICS GLOBAL HEALTH

Minimum Credits: 3
Maximum Credits: 3
This course provides an in-depth look at selected global health issues at a population level. This includes exploration of the determinants of health associated with these issues, prevention and control strategies, and the interplay of behavioral, social, cultural, economic, and political factors that must be considered when addressing the issues. Topics are preselected by the instructor and may vary each term. Examples are accidents and injuries; chronic diseases such as cancer, diabetes, and mental illness; neglected tropical diseases; and reproductive health. In addition, students will be exposed to an array of issues through weekly discussion of current events in global health. A variety of teaching modalities will be employed throughout the course including lectures, guest speakers, case studies, class discussion, audio-visual presentations, and student presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Soph or Jr or Sr

PUBHLT 1003 - INT TO PUBLIC AND GLOBAL HLTH

Minimum Credits: 4
Maximum Credits: 4
This course is an introduction to public and global health in which students will learn and apply problem solving methodologies to analyze current public health issues from local, national, and global perspectives. Through detailed case studies of communities in the US and across the world, students will gain an in-depth understanding of how biological, behavioral, environmental, and public policy components come together to determine the health of populations. Also, working individually and in groups, students will recommend interventions and evaluation methods to address specific problems. This course has no formal prerequisites. It is intended only for students in the Pitt summer edge in public health and global health program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BCHS 2509 or EPIDEM 2110 or PUBHLT 2015; LEVEL: SOPHOMORES, JUNIORS, SENIORS

PUBHLT 1004 - PUBLIC HEALTH EXPLORATIONS

Minimum Credits: 1
Maximum Credits: 1
In this course, students will explore the varied and multidisciplinary aspects of public health by meeting once per week for (1) discussions with a variety of public health researchers, leaders, and field workers, or (2) field trips to local public health institutions. This course has no formal prerequisites. It is intended only for students in the Pitt summer edge in public health and global health program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BCHS 2509 or EPIDEM 2110 or PUBHLT 2015; LEVEL: SOPHOMORES, JUNIORS, SENIORS

PUBHLT 1005 - PUBLIC HEALTH RES & PRACTICE
Minimum Credits: 4
Maximum Credits: 4
This course will provide an internship and/or shadowing opportunity with a Pitt public health faculty member. Students will work individually or in pairs with a faculty mentor. There will be opportunities for laboratory, quantitative, or social science research, opportunities to work in the field with community organizations or health agencies, and opportunities to work in clinical settings. This course has no formal prerequisies. It is intended only for students in the Pitt summer edge in public health and global health program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BCHS 2509 or EPIDEM 2110 or PUBHLT 2015; LEVEL: SOPHOMORES, JUNIORS, SENIORS

PUBHLT 1006IS - GSPH SUMMER EDGE: IN-STATE
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition for the Pitt summer edge in public health and global health program.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

PUBHLT 1006OS - GSPH SUMMER EDGE: OS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition for the Pitt summer edge in public health and global health program.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

PUBHLT 1007 - GLOBAL HEALTH ABROAD
Minimum Credits: 3
Maximum Credits: 3
This six-week summer term course is offered as part of a Pitt study abroad program. The course provides an introduction to health issues in the destination country and broader region. Drawing on the fields of public health and medical anthropology in order to foster a more holistic and comprehensive perspective, the course connects classroom learning with first-hand experience and field visits. Although students will learn about the overall health profile of the country, emphasis will be placed on indigenous health, local systems of health and healing, actions of the state healthcare system to address the country's health challenges, and intercultural healthcare efforts. This course is open to and required for students who are participating in the associated Pitt study abroad program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Public Service

PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the fields of public service. In addition to addressing the concept of public service, it provides students the opportunity to explore the various public service options. These include elected and appointed positions, volunteerism, and work in non-profit organizations. An effort will be made to give students an appreciation of the skills and talents required to effectively serve in these capacities. Classes will involve presentations by a variety of public service professionals, field visits and service learning opportunities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 0030 - PUBLIC POLICY PROCESS
Minimum Credits: 3
Maximum Credits: 3
Objective: to stimulate independent, critical and creative thinking about processes of public policy formulation in complex and rapidly changing environments. Course provides an approach to understanding interrelationships between elements of public policy (policy problems, policy alternatives, policy actions, policy outcomes, policy performance) and specific skills necessary to formulate and implement policies (problem identification, forecasting, recommendation, monitoring, and evaluation).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
This course presents an overview of existing and emerging technologies that may be used by public service professionals to accomplish organizational goals or improve efficiency and effectiveness. Through discussions, readings, internet research and hands-on computer exercises, it will emphasize current information technology concepts, issues, and practices in the United States. In addition, it will provide students with a technology skill set utilized in subsequent courses and in the practice of a public service career.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 0050 - ETHICS AND ACCOUNTABILITY

Minimum Credits: 3
Maximum Credits: 3
In the United States, there exists a fundamental agreement between the people and their government about how the social contract should be carried out. This understanding has led to our current contract notions about public service. Ethics and accountability examines the history, politics and execution of public service as it has developed and is currently experienced. Practicing professionals and community leaders will visit the class throughout the term and group work, student-led discussions and case studies will be at the center of the learning environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 0150 - INTRODUCTION TO GLOBAL STUDIES

Minimum Credits: 3
Maximum Credits: 3
Introduces students to interdisciplinary approaches to "global studies." Draws on case studies of current global issues and trends requiring students to think analytically and critically how we approach, interpret and respond to "global" phenomena and the consequences for different regions, cultures and localities. In this the usefulness and controversy of the concept of globalization as a key analytical tool is assessed. Students learn to engage with core debates on the impact of globalization on culture, economic and social equality, politics and governance, security and sustainable development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1000 - DEMOCRATIC CITIZENSHIP

Minimum Credits: 3
Maximum Credits: 3
In "democratic citizenship" students will examine, philosophically and pragmatically, their membership in various communities. Conceptions of democratic citizenship will be contrasted with one another and with the experience of serving with a community organization. Throughout, students will critically analyze popular assumptions in American democratic life. Students will integrate their understanding of citizenship into their individual action or inaction regarding all spheres of life, from career choices to political decisions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1020 - GLBLZATN: CHALLENG & OPPORTS

Minimum Credits: 3
Maximum Credits: 3
The course is interdisciplinary combining perspectives from areas such as sociology, political science, economics and philosophy to aid in the understanding of the meaning of globalization, its processes and institutional structures. The course provides an awareness that gives participants the opportunity to shape and reshape their knowledge and skills. These skills are indispensable to participants to compete in the increasingly globalized economies that are now dominating economic and social decisions throughout the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1100 - PRACTICES IN PUBLIC ADMINSTRTN

Minimum Credits: 3
Maximum Credits: 3
Examines practices, issues and concepts in governmental administration. Course deals with such matters as current and best approaches to administration, administration and politics, organizational structure and behavior, and decision making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1110 - FINANCIAL MGT IN PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3

Participants are provided with an overview of the financial management concepts and practices. Stress is put on the strengths, weaknesses, and critical roles financial management plays in aiding public service managers to better realize their programmatic goals and objectives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1120 - HUMN RESOURCS MGT PUBLC SECTOR

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory survey of the understandings and skills needed by both managers and employees to cope with the myriad human resources management systems in public sector organizations. Specific topics include the history and evolution of human resources management, the legal environment, human resources planning, position classification and compensation, recruitment, promotion, termination, performance evaluation and training. Integrated with these topics will be the technical and legal concerns of labor relations and equal employment opportunity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the profession of urban planning through a review of the historical development of cities. With this framework we will look at the actual work of the planner: data gathering, analysis, policy, public process and politics. We will address the relation between the physical nature of cities and the quality of community that develops. Course underscores the importance of physical and geographic determinants to city growth, and makes the connection between democratic values and city development policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1200 - PRACTICES OF NON-PROFIT MGMNT

Minimum Credits: 3
Maximum Credits: 3
Introduction to forms of non-profit organizations and their roles in American society. Course evaluates how non-profit organizations define their policy and service roles and examines the context of how they are organized, governed, financed, staffed, and managed. Other topics to be examined are law and philanthropy, voluntarism, strategic planning and marketing, training and developing boards, staff and volunteers, and ethical behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1210 - FINANCIAL MGT NON-PROFIT ORGNS

Minimum Credits: 3
Maximum Credits: 3
Students are provided with an overview of the theories, practices and critical role of financial management in the non-profit sector. Major attention is focused on the tools and techniques that are necessary for the manager to effectively achieve an expanding mission in the face of a difficult and competitive revenue raising environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1220 - HUMN RESORC MGT NPRF ORGNS

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory survey of the understandings and skills needed by both managers and employees to cope with the myriad human resources management systems in non-profit organizations. Specific topics include the history and evolution of human resources management, the legal environment, human resources planning, position classification and compensation, recruitment, promotion, termination, performance evaluation and training. Integrated with these topics will be the technical and legal concerns of labor relations, equal employment opportunity and volunteer management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1230 - FUNDRAISNG FOR NON-PROFT ORGNS

Minimum Credits: 3
Maximum Credits: 3
This course is intended to help students become familiar with the major sources of financial resources available to support the program activities of non-profit organizations. It will introduce students to the basic component of grant proposals and other revenue raising techniques i.e. plan giving, general appeals and endowments.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1250 - SCOPE & METHODS GLOBAL STUDIES

Minimum Credits: 3
Maximum Credits: 3
This honors-level seminar prepares students to conduct independent research in global studies by providing a unified view of relevant research methods and exploring epistemological issues and the role of theory in explaining transnational phenomena. Upon completion of this course, students should be prepared to set out honors thesis projects focused on global research questions.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ARTSC 0150 or PUBSRV 0150

PUBSRV 1300 - LEGAL ISSUES IN PUBLIC SERVICE

Minimum Credits: 3
Maximum Credits: 3
Examines impact of law upon public service and manner in which legal implications condition formulation, adoption, and implementation of programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1305 - HEALTH, LAW AND ETHICS

Minimum Credits: 3
Maximum Credits: 3
This course covers the legal and ethical issues in the health care professions. Students acquire an understanding of the balances between governmental authority and responsibility and personal rights and responsibilities in the public health arena. Topics include: basic constitutional principles, conflicts of interest, the nature of organization-practitioner relationship, rights of practitioners, professional and institutional liability, government regulatory methods, and issues concerning informed consent, confidentiality of health information, termination of care, and medical-moral matters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1310 - DIVERSTY ISSUES PUBLIC SERVICE

Minimum Credits: 3
Maximum Credits: 3
This course analyzes public service from the perspective of minorities and women. The minorities examined are black American men and women, with lesser attention given to ethnic minorities, those over 45 and the handicapped. The experience and aspirations of these several minorities will be examined in terms of how minority culture illuminates the nature of public service.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1315 - MANAGING PROJECTS & CONTRACTS

Minimum Credits: 3
Maximum Credits: 3
This course provides students with the fundamentals of project management by examining key components of the project cycle, such as: problem identification, results-based planning and design strategies, implementation and scheduling strategies, monitoring and performance indicators, impact learning with evaluation studies, and data management and reporting systems. Students will also be introduced to team building concepts, managing project budgets, writing scopes of work, and legal issues in the management of contracts and administration of grants.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1320 - GIS IN THE PUBLIC SERVICE

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to geographic information systems software. In addition to familiarizing the student with the software, each student will apply that knowledge to a particular public problem selected by the student in consultation with the instructor. As this is a hands-on course, the format is a combination of lecture and lab/computer time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1325 - FEDERALISM & INTGVRMNTL RLTNS

Minimum Credits: 3
Maximum Credits: 3
Course concerned with intergovernmental relations between federal, state and local governments. Topics include: how federalism evolved from the establishment of the constitution to present; federal government's involvement in domestic affairs and how federal programs are implemented; selected current issues in IGR including fiscal federalism, federal mandates and court decisions affecting state-federal relations. Special focus is relationships among local government in metropolitan areas. Regional service delivery and governance issues studied comparing the Pittsburgh area to other areas appropriate.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1335 - ADMINISTRATIVE BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
Explore extra-personal issues such as perception, personality, and needs. At a group level, course covers processes of group dynamics such as communication, conflict, competition, cooperation, leadership, and team building.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1340 - STRATEGIC PLNNG PUBLIC SECTOR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to strategic planning and its application to the management of public organizations. As an introductory undergraduate course, students will be expected to gain a broad understanding of strategic planning and how it can be applied to mid and long term management of public organizations. Students will be introduced to the terminology used in strategic planning, several types of planning models, their steps and organization, and the importance of mission, vision, and values in strategic planning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1350 - PUBLC & NON-PROFT PERF ACCNTNG

Minimum Credits: 3
Maximum Credits: 3
Emphasis is put on accounting as a strategic means of the public service management control process. Public, nonprofit and private accounting systems are comparatively examined, showing how they can be used to aid and enhance the maximum achievement of goals and objectives. Stress is put on performance reporting and accounting data for management of public service control decisions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1360 - ADMINISTRATION OF INT'L ORGNS

Minimum Credits: 3
Maximum Credits: 3
This course examines the role that international organizations play in the new global environment. Particular attention is given to the origin, practices and problems associated with managing international agencies. It also examines the role these agencies play in such problem areas as international development, peace keeping, maintenance of human environment, and preservation of natural resources.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1365 - COMPARATV & DEVELOPMENT ADMIN

Minimum Credits: 3
Maximum Credits: 3
This course aims to provide students with analytical tools for understanding the nature of the administrative system in comparative perspective, i.e. for explaining the characteristics of public administration and the societal role that it plays in different countries and, within single countries, or different administrative structures and behaviors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1370 - COMPARATV FOREIGN POLCY MAKING

Minimum Credits: 3
Maximum Credits: 3

This course aims to introduce students to the political/ military relationship between the United States (US) and the European Union (EU). The course will focus on how foreign and security policies are made in the US and EU. Emphasis will be on actors, decision-making processes, values underpinning the relationship, outputs and how these factors affect the prospect of cooperation or conflict between the us and the EU.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1380 - GLOBAL CITIZENSHIP

Minimum Credits: 3
Maximum Credits: 3
Students will examine the historical development and contemporary manifestations of global citizenship, as well as associated ethical and practical difficulties, while living and serving in a distant community. They will critically assess theoretical conceptualizations within the context of their experiences. Students will be encouraged to develop frameworks - whether through global civil society, consumer decisions, political decisions within the state, or something else -through which they are able to exercise global citizenship.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1390 - THEORIES OF LEADERSHIP

Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint students with multiple theories and practices associated with effective leadership. In answering the question, "what is leadership", it examines such theories as situational, participative, transformational, and servant leadership. It also addresses those leadership and administrative skills and practices usually associated with effective community organization and professional management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1400 - ORGANZNG COMMUNTY CTRLD DEVELP

Minimum Credits: 3
Maximum Credits: 3
This course seeks to deepen and expand student's knowledge and understanding of community-based organizing and local economic development and how they can be combined through community-building strategies shaped by participative organizing and advocacy. Students will receive grounding in the factors underlying community distress: social, political and economic, and may be offered a comprehensive "depth" model and critical analysis framework for community controlled renewal that focuses on social strength, political vitality, and economic equity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1410 - HOUSING & COMMUNTY DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course examines social and economic issues relating to housing and community development. Particular attention is given to the relationship between home ownership and sustainable development. This includes exploring the rules and practices affecting credit worthiness, community reinvestment, redlining, public and private sector partnerships and other public policy initiatives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1415 - ENVIRONMNTAL POLCY & MGMNT

Minimum Credits: 3
Maximum Credits: 3
This course is an interdisciplinary examination of environmental policy and management practices. It focuses on various economic, political, social, scientific and technical applications that are used to address environmental issues facing present day society. Attention would be given to the critical balance between regulating industrial production, economic growth and preserving natural resources.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1420 - URBAN AND REGIONAL GOVERNANCE

Minimum Credits: 3
Maximum Credits: 3
This course examines the management service delivery mechanisms for effective governance of metropolitan areas. The focus is on recent innovations that facilitate multi-jurisdictional activities. This includes regional assets districts, metropolitan governments, regional councils of government and special districts.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1425 - PRINCIPLES HOMELAND SECURITY

Minimum Credits: 3
Maximum Credits: 3
This course examines the new problems facing our domestic public service and justice personnel -- the borderless world of globalization and technology. Attention is paid to problems of terrorism, incident management systems, violence incident response procedures, planning for violence, changing federal, state, and local roles and response planning, weapons of mass effects, mass casualty programs, crime scene operations, technology and emergency responses, the evolving role of the intelligence community, and government, private, and non-government security issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1430 - TRIAL ADVOCACY 1

Minimum Credits: 3
Maximum Credits: 3
This course examines the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include basic case analysis, effective advocacy skills, appropriate professional conduct, trial preparation, direct and cross examination of lay witnesses, and an introduction to the legal concepts of relevance and hearsay within the context of the federal rules of evidence. Students will participate in intensive class discussions and in-class presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1435 - TRIAL ADVOCACY 2

Minimum Credits: 3
Maximum Credits: 3
This course further examines more advanced topics relating to the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include the authentication and use of evidentiary exhibits such as documents, real evidence and demonstratives, the direct and cross examination of expert witnesses, character evidence, opening statements, and closing arguments. Students will participate in intensive class discussions and in-class presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PUBSRV 1450 - PROGRAM EVALUATION

Minimum Credits: 3
Maximum Credits: 3
This course gives students skills and experience in two areas: 1) developing their own evaluation design, and 2) interpreting the results of existing evaluations. Attention is given to both quantitative and qualitative evaluation designs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1455 - LAW ETHCS PBLC POLC MASS MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course examines a variety of public policy issues as those issues are impacted by the role and significance of the news and entertainment media. It explores mass media law and policy, with particular attention to regulatory practices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PUBSRV 1900 - INTERNSHIP SEMINAR

Minimum Credits: 3
Maximum Credits: 3
A supervised placement with a government or non-profit agency, or private sector organization undertaking public services. Students will meet several times during the semester with other students to review and discuss their public service experiences.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

PUBSRV 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6

Allow advanced student to pursue topics and research of special interest, which are not otherwise available. Course requires construction of plan of study or research on topic selected and approval of instructor who will supervise work.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PUBSRV 1910 - INSTIT OF POLITICS INTSHP/SEM
Minimum Credits: 4
Maximum Credits: 4
While students are obtaining first-hand internship experience working with an official directly involved in policy making for the Pittsburgh region, they will learn in this seminar to analyze the policy-making process as an example of social problem-solving. They will learn the issues confronting the region; they will study the policy-making process; finally they will analyze the method of participant observation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

PUBSRV 1915 - SERVICE-LEARNING FACILITATION
Minimum Credits: 3
Maximum Credits: 3
This course is open only to service-learning facilitators in selected service-learning courses. Students receive training in service learning theory and practice. Academic integration, intercultural immersion and exchange, reflection, global citizenship and service through community partnership are central topics. Practical knowledge of health, safety, managing interpersonal relationships, and monetary concerns relating to service learning courses will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Quant Mthds/Operations Mgt

BUSQOM 0050 - QUANTITATIVE METHODS
Minimum Credits: 3
Maximum Credits: 3
Provides the foundations for two basic business disciplines; optimization and simulation. Various modeling concepts which have origins and have found wide applications in functional areas such as finance, marketing and operations will be studied in depth. The topics studied are linear programming; models of go/no go" decisions and location decisions; "what if" analysis; decision analysis and multiple criteria decision making models; queuing models and statistical foundations to simulate business systems-input/output analysis."
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1000 or 1040 or 1100 or 1131 or MGMT 0024 or ECON 0204; LVL: So, Jr, Sr; PROG: College of Business Admin

BUSQOM 1070 - OPERATIONS MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
Provides foundations for managing operations technology manufacturing & service & discussion of operations management of conversion process. Field is centered on the fundamental problems of managers taking raw materials & transforming them efficiently/effectively into products resulting in satisfied customers. Topics: bottleneck & capacity analysis, capacity expansion; decoupling workstations-buffers versus internal & external variability; economies of scale in materials distribution; reorder point computations; distribution & logistics; & scheduling res; GT, JIT, CIM & FMS.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050; LVL: So, Jr, Sr; PROG: College of Business Admin

BUSQOM 1715 - OPERATIONS MGMNT INDP STUDY
Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of operations management issues or problems to which they have been introduced in other operations management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

BUSQOM 1720 - OPERATIONS MGMT INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The operations management internship provides business credits for project assignments that augment a professional operations management work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUSQOM 1725 - SUPPLY NETWRK MFG CULT LAT AM

Minimum Credits: 3
Maximum Credits: 3
The course provides students with the fundamentals of international supply chain methods with a special focus on Latin America and Uruguay. It will feature a 2-week study visit to Uruguay where students can place their understanding of those concepts within a cultural context. The course involves significant teamwork and allows students to complete an in-depth analysis of the global supply networks and manufacturing culture in Latin America with Uruguay as a reference point.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: Restricted for College of Business Administration

BUSQOM 1735 - ENGR & BUS COLLBRTN IN INDIA

Minimum Credits: 3
Maximum Credits: 3
The course focuses on the study of modern engineering and business principles, methods, and tools, within the context of the Indian environment. The three areas of study are: manufacturing systems, service engineering operations, and call centers. Site visits showcase challenges and opportunities available at the corporate and individual levels in this rapidly growing economy. Societal impacts of new technologies and rapid expansion of engineering industries in India are noted. Students may utilize this forum to analyze and visualize service meeting challenges and opportunities around the world.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

BUSQOM 1735IS - ENGR & BUS COLLBRTN INDIA - IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

BUSQOM 1735OS - ENGR & BUS COLLBRTN INDIA - OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

BUSQOM 1765 - PROJECTS IN GLBL SUPPLY CHAINS

Minimum Credits: 3
Maximum Credits: 3
This project course is an opportunity for students to apply their management skills and develop their understanding of the challenges of supply/value chain management. In this course a select group of students will work closely with a faculty member to create a specific deliverable that meets the needs of a client organization. This course allows students to engage in experiential learning through a project course that specializes in a topic that may touch one or several of these areas: supply chain management, value chain management, supplier diversity and/or global sourcing.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 1730; PLAN: Global Management (GLMGT-BSBA) or Supply Chain Mgt (SCMCBA-CR1)

BUSQOM 1790 - SUPPLY CHAIN MGT INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The supply chain management internship provides business credits for project assignments that augment a professional supply chain management work experience.
Academic Career: UGRD

Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration

BUSQOM 1795 - SUPPLY CHAIN MGT INDP STUDY
Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of supply chain management issues or problems to which they have been introduced in other supply chain management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

Rehabilitation Science

PHYS 0091 - CONCEPTUAL PHYSICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: MATH 0020 or MATH 0031 or greater (Min Grade 'C' or Math Placement Score 61 or greater

REHSCI 1000 - INTRODUCTION TO RESEARCH
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (STAT 0200 or STAT 1000 or 1020 or 1131) or (PSY 0201 or 0270); MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1018 - SURVY HLTH & REHAB PROFESSIONS
Minimum Credits: 3
Maximum Credits: 3
Course will employ an interdisciplinary faculty team to introduce students to health science professions in physician assistant studies, physical therapy, athletic training, occupational therapy, speech language pathology and audiology, rehabilitation counseling, health information management, rehabilitation technology, emergency medicine, and prosthetics and orthotics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

REHSCI 1200 - HUMAN ANATOMY
Minimum Credits: 4
Maximum Credits: 4
Course will focus on gross human anatomy with particular reference to the musculoskeletal system. The course will be primarily lecture-based with some laboratory experience using the anatomy museum. Problem-based formats will be introduced with particular reference to those problems seen in rehabilitation settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [(BIOSC 0150 or 0170 or BIOSC 0716) or (BIOL 0110)] and [(BIOSC 0050 or 0070 or BIOSC 0715) or (BIOENG 1070) or (BIOL 0101 or 0111)] or BIOSC 0190; MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH))

REHSCI 1205 - HUMAN PHYSIOLOGY
Minimum Credits: 4
Maximum Credits: 4
Basic human physiology course covering general physiological processes, cardiovascular system, blood and lymph, body fluids and renal function, respiration, gastrointestinal system, metabolism, and endocrine system. Problem-based formats will be introduced with particular reference to those problems seen in rehabilitation settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [(BIOSC 0150 or 0170 or BIOSC 0716) or (BIOL 0110)] and [(BIOSC 0050 or 0070 or BIOSC 0715) or (BIOENG 1070) or (BIOL 0101 or 0111)] or BIOSC 0190; MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH))

REHSCI 1210 - NEUROSCIENCE
Minimum Credits: 4
Maximum Credits: 4
This course studies the basic structure and function of the central and peripheral nervous system. There is an emphasis on the effects of lesions of the nervous system on human function and disability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (REHSCI 1200 and REHSCI 1205) or (BIOSC 1250 or BIOSC 1070) or (NROSCI 1250) or (NUR 0013 and NUR 0003); MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS; BS-H; BPH)

REHSCI 1215 - EXERCISE PHYSIOLOGY
Minimum Credits: 3
Maximum Credits: 3
Course will focus on the effects of exercise in preventing and treating disability, in optimizing the rehabilitation process, and in maintaining the health of those with dis abilities, effects of exercise on the various body systems, including the cardiovascular, neuromuscular, and musculoskeletal in individuals with disabilities will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (REHSCI 1205) or (BIOSC 1250 or BIOSC 1070) or (NROSCI 1250) or (NUR 0013 and NUR 0003); MIN GRADE: 'C-' for listed courses; PLAN: Rehabilitation Science (BS; BS-H; BPH)

REHSCI 1217 - ADV HLTH ASMNTS EXRCS PRESCRP
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1215 (MIN GRADE "C-"); PLAN: Rehabilitation Science (BS, BPH, BS-H)

REHSCI 1218 - EMERGING BIOMEDICAL TECHN
Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide the students with an understanding of stem cell biology, tissue engineering, and related applications involved in rehabilitation sciences and regenerative medicine. The course material is designed to aid students considering a future as researchers in biomedical sciences laboratories or biotechnology research and development. It will provide digests of the latest research technologies and clinical applications in these fields. Students will be encouraged to synthesize concepts aimed to test solutions and therapies to improve human health by use of modern biomedical technologies. The lecture and discussion format gives students a broad background and the opportunity to apply critical thinking skills to recent published findings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
Minimum Credits: 3
Maximum Credits: 3
Course will cover the functional anatomy and biomechanics of the major joints of the human body and the application of mechanics to describe and analyze normal and pathological human movement. Applications to musculoskeletal and neuro muscular disabilities will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1200 and (PHYS 0101 or PHYS 0110 or 0140 or 0150 or PHYS 0174); MIN GRADE "C-" for all listed courses

REHSCI 1225 - INTRO TO REHABLTTN SCIENCE
Minimum Credits: 1
Maximum Credits: 1
This course will focus on models of disablement beginning with NAGI and moving through those of the world health organization and the institute of medicine. Faculty from SHRS will discuss their research in the context of enabling and disablement models, focusing on physical and psychosocial factors and their influence on disability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1230 - REHABILITATION ETHICS

Minimum Credits: 2
Maximum Credits: 2
This course explores ethical issues of: human value development, decision making, basic principles of health care, the nature of rights, confidentiality and management of health care information, professional gate keeping as a function of role fidelity, autonomy and paternalism, justice and the allocation of scarce resources, withholding and withdrawing life support, euthanasia, abortion, aids and health care practice, genetic science, and trans-cultural health. Students will work in teams to create presentations from these various topics for their colleagues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1235 - MEDICAL TERMINOLOGY

Minimum Credits: 1
Maximum Credits: 1
Basic terms used in the medical and rehabilitation professions will be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

REHSCI 1240 - ISSUES IN HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3
An overview of health care systems in the US, focusing on service delivery, private and public financing, policy formulating, and organizational structures. Special attention will be given to health disparities and health care issues for vulnerable populations. Class participation and assignments will focus on application of principles discussed to current and emerging issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1245 - HUMAN DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
Follows the developing individuals from conception until the end of life. The course combines theory, research, and practical applications from developmental psychology. Lecture topics include genetic influences on development; prenatal and birth factors; physical, cognitive, social, personality, and cultural variables that influence development across the life-span.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSY 0010 or 0101 or 0200; MIN GRADE "C-" for all listed courses

REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE

Minimum Credits: 4
Maximum Credits: 4
Course will focus on the primary diseases and disease processes in the US that lead to impairment, disability, and handicap infection control and safety issues for the professional and client will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1205 or (BIOSC 1250 or BIOSC 1070) or NROSCI 1250 or (NUR 0013 or NUR 0003); MIN GRADE "C-" for all listed courses; PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1255 - EPIDEMIOLOGY OF DISABILITY

Minimum Credits: 3
Maximum Credits: 3
Course focuses on the incidence and prevalence of impairments and disabilities in relation to age, gender, ethnic background, marital status, and living situation. Discussion will focus on the differences in these factors due to geographic variability (country where you live) as well as risk factors for diseases leading to various disabilities and any interventions that would modify them.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [(STAT 0200 or STAT 1000 or 1020 or 1131) or (PSY 0201 or 0270)]; MIN GRADE "C-" for all listed courses; PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1265 - PHARMACOLOGY IN REHABILITATION

Minimum Credits: 3
Maximum Credits: 3
Course serves as a foundation to general pharmacology, focusing on categories of medications and their interaction with body systems. At the completion of this course, student will be able to integrate pathophysiological principles of pharmacology and patient assessment findings to formulate an impression and implement a pharmacologic management plan. Fervent anatomy and pathophysiology emphasis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: REHSCI 1205 or (BIOSC 1250 or BIOSC 1070) or NROSCI 1250 or (NUR 0013 and NUR 0003); MIN GRADE "C-" for all listed courses; PLAN: Rehabilitation Science (BS, BSH, BPH) or Athletic Training (BS, BSH, BPH)

REHSCI 1275 - INTRO TO OCCUPATION SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Course would provide foundation for understanding role of activity and occupational in life-span human development by first considering human behavior in absence of activity/ occupation and in presence of activity/occupation. Consideration of the influence of inactivity and immobility on human systems would include knowledge of disuse syndrome and deleterious effects of living in stimulus deprived environments consideration of human behavior in presence of activity occupation would include role of movement and purposeful activity as determinants of health.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY

Minimum Credits: 3
Maximum Credits: 3
This course examines how society perceives and treats individuals with disabilities, as well as the effects of a disability on the individual's self-image and integration into society. The course discusses how society can better accommodate people with disabilities and advance their participation in all sectors of the community.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Minimum Credits: 3
Maximum Credits: 3
Provides basic skills in reading, reviewing, and critiquing the research literature in the rehab sciences. These skills will be applied to the relevant literature in diagnosis, prognosis and intervention strategies within the spectrum of rehab science. Students learn to generate relevant research questions, utilize an evidenced based medicine approach, appraisal and synthesis of current articles within the fore mentioned areas. Will culminate in an individual review project aimed the development and resolution of one research question, using the best, current available literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH); PREQ: REHSCI 1000 or PSY 0035 or SOC 0230

REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY

Minimum Credits: 3
Maximum Credits: 3
This course will review several physical disabilities such as Parkinson's disease, spinal cord injury, cerebral palsy and multiple sclerosis (subject to change). Individuals with disabilities are often invited to participate in classroom discussions to share their first-hand experiences of living with a disability. This course will likely include an observational experience outside the classroom. This may include traveling to someone's home with a disability and/or their place of employment via public or via a student's private mode of transportation. Additional details will be reviewed on the first day of class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BPH, BPH)

REHSCI 1292 - DIVERSITY/CULTL HEALTH/REHAB

Minimum Credits: 3
Maximum Credits: 3
This course provides a forum for exploring issues of diversity and multiculturalism as they affect both daily interactions and professional practice in health care and rehabilitation. In this course students will build a greater understanding of: personal culture; how factors of culture and diversity influence an individual's health, living needs, and response to stress; international concepts of disability and health & rehabilitation services; and

globalization and its relationship to rehabilitation. In addition, students will learn how to apply concepts of cross-cultural competence and intercultural communication to clinical services and program development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS, BSH, BPH)

REHSCI 1293 - INTER-DISCIPLINARY SERVC LRNG

Minimum Credits: 3
Maximum Credits: 3
This course provides a forum for exploring the practice and effect of providing inter-disciplinary health care in rehabilitation settings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1294 - CROSS-CULTURAL SERVICE LEARNG

Minimum Credits: 3
Maximum Credits: 3
Through community service, in-class lecture, readings, student presentations, journaling and other assignments, this course provides a forum for exploring issues of multiculturalism and diversity as they affect both daily interactions and professional practice in health care. In this course students will build a greater understanding of: personal culture; and how factors of culture and diversity influence an individual's health, living needs, and response to stress. In addition, students will practice applying concepts of cross-cultural competence and intercultural communication to interpersonal interactions in local minority and immigrant communities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

REHSCI 1295 - FIELD EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Designed to provide an opportunity to work with individuals with disabilities or other health care needs and with agencies and facilities that work with them. Students will identify an area of interest and choose an SHRS contracted field placement site. Students will work with academic ad visor to make arrangements with facility and faculty advisor to develop a set of objectives for experience. Student will participate 45 hours per credit hours sought.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

REHSCI 1296 - ATR FIELD EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Designed to fulfill the assistive technology in rehabilitation certificate field experience requirement. This course provides an opportunity to interact with assistive technologies, persons who use assistive technologies and with assistive technology researchers and providers.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: PLAN: Assistive Technology in Rehab (ATR-CR2)

REHSCI 1297 - CROSS-CULTURAL INDP STUDY

Minimum Credits: 1
Maximum Credits: 3
Designed to provide an opportunity to fulfill the RS program global citizenship requirement through extensive cross-cultural immersion and independent study. Students will draw from previous cross-cultural experiences or will work with their independent study faculty advisor to identify an appropriate community service agency with which to volunteer. Additional academic work will help student identify the characteristics of their own culture and learn about the culture of the community in which they are working, as well as the issues affecting its members' health including understanding and treatment of disabilities. Academic credits will be assigned according to number of hours spent in the community and academic work completed.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Rehabilitation Science (BS or BS-H or BPH)

REHSCI 1299 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6

Provides advanced students an opportunity to explore in depth and area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

Religious Studies

RELGST 0025 - MAJOR BIBLICAL THEMES
Minimum Credits: 3
Maximum Credits: 3
An examination of the Jewish and Christian experience of God and the coherent use of major themes throughout the Jewish and Christian Bibles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0045 - HEBREW BIBLE
Minimum Credits: 3
Maximum Credits: 3
An introduction to the religion of Israel through an examination of Hebrew scriptures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0067 - FAMILY AND THE BIBLE
Minimum Credits: 3
Maximum Credits: 3
An examination of kingship, prophecy, cultic sacrifices and community as they were understood by the ancient Israelites.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0083 - MYTHOLOGY IN THE ANCIENT WORLD
Minimum Credits: 3
Maximum Credits: 3
This course examines in cultural context the traditional stories--myth, legend, and folktale--of the ancient Greeks and Romans. Theories drawn from various disciplines are critically evaluated. Attention to connections with ritual practice and to expression in daily life, art, architecture, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0084 - MYTH IN ANCNT WORLD/WRIT PRAC
Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking RELGST 0083 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0105 - RELIGIONS OF THE WEST
Minimum Credits: 3
Maximum Credits: 3
Introduces students to the history, rituals and principal tenets of Judaism, Christianity and Islam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0115 - BIBLE AS LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This introductory course acquaints students with what is in the bible and provides background information drawn from various disciplines about the elements and issues that give it its distinctive character. Attention is necessarily given to its religious perspectives, since they govern the nature and point of view of the biblical narratives, but no specific religious view is urged.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

RELGST 0135 - CHRISTIAN BIBLE

Minimum Credits: 3
Maximum Credits: 3
An introduction to the text of the Christian bible.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0175 - CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3
Historical survey of Western Christianity, its beliefs, practices, and forms of social organization, from the first century to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0205 - INTRODUCTION TO JUDAISM

Minimum Credits: 3
Maximum Credits: 3
Major themes of the Jewish tradition from biblical to modern times are explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0215 - ETHICS IN THE JEWISH TRADITION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Jewish texts drawn from the classical through the contemporary period on a variety of issues ranging from abortion and business practices to suicide and war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0225 - TOPICS: MEDIEVAL JEWISH HISTRY

Minimum Credits: 3
Maximum Credits: 3
Jewish experiences in the Christian West and the Muslim East are reviewed and compared.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0255 - MODERN JUDAISM

Minimum Credits: 3
Maximum Credits: 3
The growth and development of Jewish religious movements after the enlightenment are assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0265 - MODERN JEWISH THINKERS

Minimum Credits: 3
Maximum Credits: 3
We examine the work of significant Jewish thinkers and writers in the 19th and 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0283 - US AND THE HOLOCAUST
Minimum Credits: 3
Maximum Credits: 3
With increasing interest in the Holocaust in Europe, this course focuses on the American side of the Atlantic - on issues of anti-Semitism and anti-immigrant sentiment in this country and on America's response to the holocaust. We will also look at some post-Holocaust issues as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0305 - CLASSICS OF CHRISTIAN THOUGHT
Minimum Credits: 3
Maximum Credits: 3
An introduction to some of the major Christian thinkers and their principal themes in the medieval and modern period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0315 - ETHICS: CHRISTIAN TRADITION
Minimum Credits: 3
Maximum Credits: 3
An historical and analytical examination of ethical ideas in Western Christianity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0405 - RELIGION IN EARLY AMERICA
Minimum Credits: 3
Maximum Credits: 3
A survey of American religious history from the colonial period through the Civil War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0415 - RELIGION IN MODERN AMERICA
Minimum Credits: 3
Maximum Credits: 3
An examination of the major developments in American religion from the Civil War to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0417 - THE BLACK CHURCH
Minimum Credits: 3
Maximum Credits: 3
An introduction to the course and historical development of the black church in America, its contribution to the social and religious progress of black people, black leadership, and struggles including the civil rights movement, black theology and other social movements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0425 - POPULAR RELIGION IN AMERICA
Minimum Credits: 3
Maximum Credits: 3
A survey of religious behavior and religious beliefs in the United States outside of the formal institutional structures of religion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0435 - RELIGION, FILM AND LITERATURE
Minimum Credits: 3
Maximum Credits: 3
Alexis de Tocqueville famously called the United States "a nation with the soul of a church." Ironically, his observation refers to a nation whose constitution forbids the establishment of any official religious identity (while simultaneously allowing for "free," voluntary, religious "exercise"). The result--a vibrant spiritual marketplace characterized both by diversity and innovation and a clinging to traditional identities--has marked American culture and the broader stories it tells about itself. In this course we'll read closely in "secular" literary texts (including novels , graphic novels, short

stories, poetry, drama, film, and music) with some attention to short, relevant readings in religious thought, practice, and history, aiming for two related objectives: 1) to observe the overt ways religions appear in and contribute to these texts--symbolically, rhetorically, schematically, etc.--and 2) to consider how presumably "secular" literature functions religiously, giving form and coherence to the ambiguities of American experiences, identities, and crises that remain in flux, constantly under revision. Readings will include both "classic" and more contemporary works by Gwendolyn Brooks, Willa Cather, Mark Twain, Flannery O'Connor, William Styron, Oscar Hijuelos, Art Speigelman, August Wilson, James McBride, the Cohen Brothers, and/or others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0455 - INTRO TO ISLAMIC CIVILIZATION
Minimum Credits: 3
Maximum Credits: 3
A survey of the significance of Islam in world history; its role as a world religion; and its contributions to science, literature and philosophy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0505 - RELIGION IN ASIA
Minimum Credits: 3
Maximum Credits: 3
An overview of the nature and role of religion in India, China, and Japan set against societal and cultural developments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0515 - RELIGION & CIVLZ IN SOUTH ASIA
Minimum Credits: 3
Maximum Credits: 3
An examination of the major religions of South Asia; Buddhism, Hinduism, Jainism and Islam and their influence in the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0517 - HINDU ART
Minimum Credits: 3
Maximum Credits: 3
Hindu beliefs, myths and philosophical ideas are studied in relation to their influence on the architecture, sculpture and paintings of South Asia.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0525 - RELIGION & CULTUR IN EAST ASIA
Minimum Credits: 3
Maximum Credits: 3
Primary focus is on the history of religion in Japan and China and its contributions to the shaping of those societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0535 - SOUTHEAST ASIAN SOCIETIES
Minimum Credits: 3
Maximum Credits: 3
This course invites students to acquaint themselves with a foreign culture area -- Southeast Asia -- by reading and discussing prose fiction mostly created about their societies by Southeast Asian authors. Through literature, the course intends to provide an introduction to the comparative study of contemporary Southeast Asian societies, examining major issues of social change and tradition in the concrete context of one of the most diverse and explosive regions of the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0601 - VARIETIES OF RELIG TRADITION
Minimum Credits: 3
Maximum Credits: 3
A survey of the diverse forms of religious experience and expression in both European and Asian contexts.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0625 - DEATH, DYING AND IMMORTALITY

Minimum Credits: 3
Maximum Credits: 3
An examination of the ways in which humanity has dealt with the reality of death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0705 - APPROACHES-STUDY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
An examination of recent religious theories and their role in providing an understanding of the psychological, social, cultural and ecological processes in our lives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0710 - SOCIOLOGY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
This course will compare and contrast major classical and modern sociological theories of religion, including discussion of the renewed focus on religion in mainstream, general theory. Attention will be narrowed to a focus on the relation between religions, states and individuals in comparative and historical perspective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0715 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
An examination of the arguments for and against the existence of God.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0716 - PHILOSOPHY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
A critical examination of the rationality of faith in the existence of god. Traditional arguments both for and against the existence of god are considered, along with pragmatic justifications of faith based upon its beneficial consequences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 0717 - PHILOSOPHY RELIGION-WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course "philosophy of religion".
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

RELGST 0735 - WISDOM

Minimum Credits: 3
Maximum Credits: 3
We read and examine authors who address such basic questions as what can I know? What can I do? What can I hope for?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1010 - HISTORY AND IMMAGINATION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1100 - ISRAEL IN THE BIBLICAL AGE

Minimum Credits: 3
Maximum Credits: 3
We deal with the origins of biblical thought and the emergence of monotheism and the monarchy in the patriarchal age within the context of the ancient near east.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1110 - SPECIAL TOPICS-ANCIENT

Minimum Credits: 3
Maximum Credits: 3
Special topics in ancient art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1112 - BIBLE AS LITERATURE 2

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

RELGST 1120 - ORIGINS OF CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3
An historical investigation of Christian origins against the backdrop of both the Greco-Roman and Jewish worlds.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1130 - VARIETIES OF EARLY CHRISTNITY

Minimum Credits: 3
Maximum Credits: 3
This course will examine the many different and often competing forms of Christianity that existed during the first five centuries of our common era. We will include an historical survey of Mediterranean culture and society in the historical Roman Empire to help us understand the ways in which Christianity developed in relation to the philosophical, sociological, theological, and political environment of this period. We will also focus on the contribution of the early varieties of Christianity to modern Western views of the relationship between the individual body and society. The literature of this period represents a broad variety of beliefs and practices ranging from philosophical views of god and matter (and the nature of each), to notions of life-long celibacy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1132 - PAUL

Minimum Credits: 3
Maximum Credits: 3
An historical and analytical examination of the writings of Paul and his influence on Western thought. Special attention will be given to the manner in which Paul has been read by modern thinkers and the influence that he has had on their work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1135 - ORTHODOX CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3
To provide an insight into the history, doctrines and rituals of the orthodox Christian tradition in Eastern Europe from the byzantine through contemporary period. Orthodox rituals will also be reviewed and studied.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1140 - DUALISM IN THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
An examination of the development of dualism in ancient Western religions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1142 - CONSTRUCTION OF EVIL

Minimum Credits: 3
Maximum Credits: 3
Why is there evil in the world and who or what is responsible for it? How can we reconcile a belief in a good god, with the existence of evil? Even without the theological underpinning, in secular terms, evil poses a problem about the world's intelligibility. The first half of this course undertakes a historical analysis of the evolution of the concept of "evil" in the West, the character of "the devil," and his role as an instrument of power over the social order. "Good" and "evil" do not exist beyond the social context in which they are constructed and we will discover the relationship between these two polarities and evolving concepts of social justice, both here and beyond (heaven and hell). The second half of the course will critically examine the process of "the personification of evil" in "the other" (women, non-Christians, Christian minorities [heretics], racial and ethnic minorities, the underprivileged, gay and lesbian individuals, and the differently-abled).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1143 - DEATH IN THE NAME OF GOD

Minimum Credits: 3
Maximum Credits: 3
The roman empire understood Christianity to be an illegal and superstitious movement, and a threat to the traditions of their ancestors. Subsequently, many Christians were charged with the crime of "atheism," and put to death, as atheism was equivalent to treason. Who were these people who voluntarily embraced their own deaths as a vindication of their faith, and how did Rome justify their extinction? How were they understood by their pagan and Jewish neighbors? This course explores the cultural, political and religious context of Christian martyrs, beginning in second temple Judaism. We then analyze their stories (metrologies), imperial transcripts and legislation, and examine the later (Christian) imperial legislation against "heretics." This background helps motivate discussions of contemporary "martyrs," such as "suicide bombers," the political ramifications of such behavior, who gets to decide if someone is a martyr, and reactions to the public spectacle of dying as the ultimate religious act.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1144 - CLASSICAL MYTHOLOGY & LIT

Minimum Credits: 3
Maximum Credits: 3
This course examines how authors of classical antiquity used the traditional figures and stories of their culture's mythology as material for works of literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1145 - GRECO-ROMAN RELIGIONS

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to religious texts and traditions in a formative era of Western civilization and culture. Our focus will be on the variety of religious expression in Greco-Roman culture, which flourished in the geo graphical area of the Mediterranean basin during the first five centuries of the common era. We consider debates about nature of the gods and access to them (through oracles, rituals, and magic), the emergence of the idea of the holy person, and a variety of religious traditions as expressed in prayer, ritual, and art, and religion and politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1148 - RELIGIONS OF ANCIENT EGYPT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1150 - BODY & SOCIETY LATE ANTIQUITY
Minimum Credits: 3
Maximum Credits: 3
An investigation of the Christian view of the body as the focus of both sin and salvation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1151 - DEATH IN MEDITERRANEAN WORLD
Minimum Credits: 3
Maximum Credits: 3
In many cultures, people sometimes ask fundamental questions about their existence, including, "what happens after we die?" This course will focus on the evolution of beliefs and rituals related to death and the afterlife in and around the ancient Mediterranean basin, including Egyptian, Greek, Etruscan, and Roman cultures. Using an interdisciplinary approach, we will combine methodologies from anthropology, classics, history, and religious studies. Topics to be covered include myths of the afterlife, books of the dead, magic and death rituals, funeral practices and paraphernalia (disposal of the dead), cults of the dead, divinization, heaven and hell, judgment, and the impact of christianization on the ancient understanding of death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1160 - JERUSALEM: HISTORY AND IMAGN
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1210 - JEWS & JUDAISM IN ANCNT WORLD
Minimum Credits: 3
Maximum Credits: 3
Judaism in the Hellenistic/Roman period is examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1214 - RABBINIC TEXTS AND TRADITIONS
Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the various genres of rabbinic literature. It also serves to demonstrate the transition from the religion of biblical Israel to rabbinic or classical Judaism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1220 - JEWS & JUDM IN THE MEDEVL WRLD
Minimum Credits: 3
Maximum Credits: 3
An introduction to the facets of medieval and early modern Jewish life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1222 - JEWISH MYSTICISM
Minimum Credits: 3
Maximum Credits: 3
Mystical traditions in Judaism through the early modern period are assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1225 - JEWSH CULTUR IN MEDIEVAL SPAIN
Minimum Credits: 3
Maximum Credits: 3
Medieval Spain was the scene of varied interactions among Jews, Christians, and Muslims. Jews participated vigorously in this culture as they did

nowhere else at the time, producing an enduring heritage that is universal in its appeal.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1228 - EXODUS AND PASSOVER

Minimum Credits: 3
Maximum Credits: 3
Study of exodus story and Passover holiday that develops from it including interpretations in Jewish and non-Jewish sources, development of the holiday and the ritual meal (Seder), changes in the rituals over time, and adaptations and uses of the story and holiday by different modern Jewish and non-Jewish movements and groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1230 - ASHKENAZI JEWRY

Minimum Credits: 3
Maximum Credits: 3
Jewish communal life and interactions with Christian society in France, Germany, Poland and Russia through the 20th century are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1232 - MODERN EASTERN EUROPEAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This upper level undergraduate course surveys the history of the historically most numerous portion of European Jewry from the medieval period to the present, emphasizing the modernization of east-central European Jews as minorities in the context of their host societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1240 - JEWS AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
This course will trace the eastern European Jewish diaspora to urban destinations around the world, before training its lens on the Jewish encounter with American cities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1241 - GENDER AND JEWISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course will highlight the impact of gender in modern Jewish history, revealing the divergent experiences of Jewish women and Jewish men as they adapted to the modern world. We will take an international approach to this history, tracing the ways in which circumstances in Europe, America, and the Middle East shaped how Jews understood and responded to gender roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1250 - JEWS & JUDAISM IN MODERN WORLD

Minimum Credits: 3
Maximum Credits: 3
Were we examine the specific challenges that the modern period posed to existing Jewish life and the nature of the responses made by Judaism to those challenges.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1252 - HOLOCAUST HISTORY & MEMORY

Minimum Credits: 3
Maximum Credits: 3
We take a long-range view of the holocaust as we examine it within the contexts of both European and Jewish history.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1254 - AFTER THE HOLOCAUST

Minimum Credits: 3
Maximum Credits: 3
A survey of the impact of the holocaust on Jewish life in the Soviet Union, the Middle East, and the United States in the period 1945-1985.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1256 - MODERN ISRAEL

Minimum Credits: 3
Maximum Credits: 3
We trace the history of modern Israel from the idea of the return in the second half of the 19th century through the state of Israel today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1257 - RUSSIAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This course examines the experience of Russian Jewry during the 145 year period from its entrance into Russian political life to the end of the empire. We will treat both the internal dynamics within the community as it came to be transformed from a religiously based and clerically dominated leadership to a national-cultural entity that developed a variety of political movements and expressions in order to articulate its new found modern identity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1260 - JEWS IN THE UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
We analyze the Jewish experience in America since the middle of the 18th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1266 - ISRL: STATE & SOCIETY, 1948-88

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the impact of immigration and its role in the shaping of the state, the interaction between religion and politics (state), and the experiences of the Arab citizens of the Jewish state.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1320 - MEDIEVAL HISTORY 1

Minimum Credits: 3
Maximum Credits: 3
Survey course in the social, political, economic and religious history of Europe from the Diocletian reforms to the year one thousand. Special attention to interpreting the primary documents and to integrating various areas of activity (e.g. economic and religious). Focus on France, England, Germany, and Italy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1330 - MEDIEVAL HISTORY 2

Minimum Credits: 3
Maximum Credits: 3
Survey course in the social, political, economic and religious history of Europe from the year 1000 to the black death. Special attention to interpreting the primary documents and to integrating various areas of activity (e.g. economic and religious). Focus on France, England, Germany, and Italy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1335 - MEDIEVAL SPAIN
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1338 - MEDIEVAL WORLD
Minimum Credits: 3
Maximum Credits: 3
Subject: cultural, intellectual, and political activity in the European middle ages. The course concentrates on a few significant aspects of the medieval world, taking them as centers from which to explore interrelated phenomena; a court, a cathedral, the crusades, the divine comedy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1342 - RELIG ISSUES OF THE REFORMATN
Minimum Credits: 3
Maximum Credits: 3
We focus on the religious and theological issues which divided Western Christianity in the 16th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1360 - INTRO TO THE RENAISSANCE
Minimum Credits: 3
Maximum Credits: 3
The idea of the Renaissance is central to Western culture. Many of our values and tastes devolve from--or consciously react against--patterns that were established or reinterpreted five hundred years ago. The student who explores the renaissance, therefore, gains hold of one of the keys of Western civilization. He or she also acquires practice in critical reading, discussion, and the written expression of ideas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1362 - MAN & COSMOS IN RENAISSANCE
Minimum Credits: 3
Maximum Credits: 3
An exploration of the intellectual and scientific activity of the European Renaissance and its influence in shaping modern man and the discoveries of modern science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1366 - ASTROLOGY AND WITCHCRAFT
Minimum Credits: 3
Maximum Credits: 3
This course deals with both intellectual currents and popular culture in 17th century England, exploring the relationship between magic, science, and religion, as well as the social forces that led to the belief in astrology and witchcraft.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1372 - CATHOLICISM IN THE NEW WORLD
Minimum Credits: 3
Maximum Credits: 3
The course will examine the history of the Roman Catholic Church since 1492 in the Americas using various moments of internal crisis or external conflict as focal points for study. Topics will include: missionary and military contact with new world indigenous populations after 1492; the minority situation of Catholics in the new United States; the Irish famine and its consequences; conflicts between Catholic ethnics; the impact of Catholic support for fascist regimes in the 1930s and 1940s; counter cultural forms of Catholicism (conscientious objectors, civil rights activists, pacifists); Vatican ii and its impact; liberation theology, Marxism and structural reform in Latin America; shifting theological positions on social and moral issues; the current sexual abuse crisis. While the emphasis will rest upon the social, economic, and political dimensions of Catholic history, the course will also address the aesthetic and cultural legacy of Catholicism including sacred architecture, music, and the arts, in elite and vernacular forms.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

RELGST 1375 - CATHOLICISM & GLOBAL MODERNITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1400 - RELIGION AND CULTURE IN AMERC
Minimum Credits: 3
Maximum Credits: 3
This course will cover issues related to religion and how it intersects with American culture particularly in modern times
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1410 - RELIGION IN AMERICAN THOUGHT
Minimum Credits: 3
Maximum Credits: 3
The story of American religion often focuses on the various religious groups and thinkers that have emerged from a Christian tradition. But what about those individuals and groups that rejected Christianity altogether, and who promoted 'freethinking' as a radical alternative to the religious mainstream of America? In this course we will explore the American tradition of freethought, from its roots in eighteenth century British deism to the current group of 'new atheists.' We will explore how American freethinkers critiqued and sought to reform the religious sensibilities of their fellow Americans, and the often harsh reaction that they received from their pious opponents. This course will deal with the history of freethinking writers and organizations and how they shaped and continue to influence the religious identity of United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1412 - MIGRATION IN AMERICAN RELIGION
Minimum Credits: 3
Maximum Credits: 3
Looking at a series of case studies from colonial times to the present, the course will examine how a change of locale influences religious ideas, practices, and identities. Materials will address migration into, within, and away from the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1415 - RACE AND RELIGION IN AMERICA
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1420 - RELG & POLITICS IN LATIN AMERC
Minimum Credits: 3
Maximum Credits: 3
The role of religion as a conservative force supporting existing political structures as well as a critical force challenging those institutions is assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1424 - LIBERATION THEOLOGY
Minimum Credits: 3
Maximum Credits: 3
A critical examination of the recent literature seeking to harmonize religion and social change.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1425 - POPULAR RELIGION IN AMERICA
Minimum Credits: 3
Maximum Credits: 3
A survey of religious behavior and religious beliefs in the United States outside of the formal institutional structures of religion.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1427 - RELIGION AND LAW

Minimum Credits: 3
Maximum Credits: 3
Religion and Law examines the role of religious freedom in American history, from colonial days to the present, focusing on documents that predate the first amendment of 1791, as well as upon central supreme court cases that helped define what "legal religion" means as a category in the United States. Students will read court cases and become familiar with arguments for and against the ideal of religious freedom, including court cases involving the Amish, Mormons, Santeria, and the use of religious symbols in public places.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1438 - RELIGION AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course will be to consider the public and political implications of religion in several different political systems. We will begin with an overview of the implications for politics of various types of religious systems. Religious beliefs and institutions have wide ranging implications for civic norms, public policy, political leadership, and the treatment of various social groups, including women and minorities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1440 - RELIGION & POLITICS MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the role of religion in the politics of the contemporary middle east. A general survey of the role of religion in the history of the region, and a cross regional historical-comparative view of the relationship between religious phenomena and political movements and institutions set the context for an investigation of the politics of religion in recent developments in the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1454 - ISLAMIC THOUGHT

Minimum Credits: 3
Maximum Credits: 3
An introduction to and critical examination of the principal themes of Islam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1466 - SOCIOLOGY OF ISLAM

Minimum Credits: 3
Maximum Credits: 3
The main purpose is to provide a sociological introduction to the Islamic tradition for those unfamiliar with it. First, we survey major themes in the sociology of religion. A consideration of the Islamic tradition follows. Throughout we raise questions about continuity and change in Islam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1500 - RELIGION IN INDIA 1

Minimum Credits: 3
Maximum Credits: 3
Few countries can boast such an extensive and diverse religious heritage as can India. It is the birthplace of Hinduism, Buddhism, Jainism, and Sikhism, home to a large Muslim community, as well as to small, but ancient, communities of Syrian Christians, Parsis, and Jews. The course gives a brief historical overview of these religious traditions, introduces students to basic concepts related to each of them, and illustrates their rich practices through primary and secondary readings, films, art, and music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1510 - REL INDA 2:STORYT RELIG FORM

Minimum Credits: 3
Maximum Credits: 3

This course focuses on the religious life of India as expressed through storytelling. Central to this life are rich and diverse narrative traditions, both oral and written, some of which have their roots in the ancient Vedic literature, in the famous epics of the Mahabharata and the Ramayana, in popular folk tales and philosophical debates. Through an in-depth exploration of different genres of primarily Hindu narrative traditions, students will be able to see (1) how certain episodes and characters from the selected stories have been used in religious and philosophical teachings about spiritual emancipation and liberation; (2) how the stories and their protagonists have been variously (re)cast over time by members of dominant as well as non-dominant religious and/ or political groups; and also, (3) how they have been appropriated and incorporated in politically sensitive times and situations into a wider narrative of nation(hood). The role of popular media (TV, film, etc.) In linking nation and narration in modern times will also be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1512 - SANSKRIT 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the basic structure and vocabulary of Sanskrit. Approximately half of the course is devoted to an intensive survey of Sanskrit grammar and half to the reading of a selection from the Mahabharata.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1514 - SANSKRIT 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Sanskrit 1, this course is devoted to the reading of selected Sanskrit texts. Grammar presented in Sanskrit 1 is reviewed as necessary and some additional grammatical material is introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1516 - TEMPLE, ICON & DEITY IN INDIA

Minimum Credits: 3
Maximum Credits: 3
An exploration of theistic religion in India as expressed in the emergence of temple architecture, iconography and devotional literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1517 - MOUNTAINS, MEDL SYS & HEALTH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1518 - RELIGION AND ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
The Himalayas have inspired more religious thought, given raise to more forms of religious practice and are more distinctively featured in a spectrum of epic religious literature, than almost any other geographic region in the world, with the possible, but unlikely exception of a small parcel of relatively dry hilly ground between Jerusalem and Mecca. In any case, Siddhartha Gautham was born and taught in the shadow of the lower Himalayas, where Buddhism emerged in the 4th century BCE. Many specific mountains, lakes and rivers, as well as the broader geography of the Himalayas, most notably sacred rivers, define the landscape of Hindu mythology, pilgrimage and ritual. The practice of yoga as a metaphysical philosophy is intimately linked to the idea of mystical Himalayan masters. The Western watershed of the Punjab, including the Iponymous five rivers, Indus, Jhelum, Chenab, Ravi and Sutlej, is the heartland of sikh cultural and religious identity. In addition to being a center of medievl Hindu literary learning, Kashmir and the Western Himalayas, extending through the Hindu kush, have defined routes of exchange, communication, conversion and confrontation between Greeks, Persians, Buddhist monks, and mongol armies. More recently ' in terms of centuries ' Tibetan Buddhism has emerged out of a history of development in lhasa ' relocated to Mcleod Ganj in the early 1960s - that combines elements of Tantra from the southeastern Brahmaputra region with transmutations of Buddhism that have taken shape in greater China. Although not inspired by the Himalayas per se, Islam in South Asia has been shaped by geography and the environment in specific ways, and the development of a particular intrepretation of the Koran in a small center of learning in the town of deoband, close to where the epic battle of the Bhagavad Gita is said to have been waged in Kurukshetra, implicates the geography and geopolitics of the Himalayas in the emergence of reform oriented, Orthodox Islam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1520 - BUDDHIST CIVILIZATION
Minimum Credits: 3
Maximum Credits: 3
An introductory survey of the origins, influence and spread of Buddhism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1530 - TOPICS IN BUDDHST CIVILIZATION
Minimum Credits: 3
Maximum Credits: 3
A variety of themes and issues focusing on Buddhism in China and Japan will be explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1540 - SAINTS EAST AND WEST
Minimum Credits: 3
Maximum Credits: 3
A Russian monk once observed that "each saint is a unique event." Indeed, in various religious traditions we encounter men and women who are recognized and venerated as particularly holy and unique witnesses to the divine. Just as each saint is unique within his or her tradition so is each tradition of saints unique in its articulation and expression of the overall religious culture. By looking cross-culturally at the materials on saints selected for this course and discussing (problematizing) the notion of sainthood itself, we examine religious themes, ideas and symbols found in them. These diverse writings are often marked by a very personal tone, a deeply felt relation with the divine (sometimes reflecting a saint), inner struggles, sometimes his/her mystical experience of union), but also by pleas and calls for social and/or religious reforms. Our examples of devotional literature include Hindu, Muslim, and Christian sources, medieval as well as modern. Even though originating in specific religious contexts, many of these narratives raise issues which have wider human appeal and hence relevance for us today, too.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1545 - MYSTICISM: EAST AND EAST
Minimum Credits: 3
Maximum Credits: 3
We shall look into how the spiritual kinship of mysticism is forged from distinct practices in India and in the lands of orthodox Christianity, by examining the selected mystical writings of the Hindu sages and holy men and women of the orthodox church, past and present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1550 - EAST ASIAN BUDDHISM
Minimum Credits: 3
Maximum Credits: 3
Beginning with an introduction to the basic concepts of Indian Buddhism, this course traces the philosophic and meditative development of Buddhism (in historical perspective) as it moves East into China and Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1552 - CHAN/ZEN BUDDHISM
Minimum Credits: 3
Maximum Credits: 3
This seminar examines the relationships between doctrine, practice and institution and the culture(s) in which they grow through examination of major themes and sources of authority in Chan/Zen Buddhism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1554 - DEATH BEYOND BUDDHIST CULTS
Minimum Credits: 3
Maximum Credits: 3
Death and beyond in Buddhist cultures mortality is the human condition. This seminar focuses on the philosophical discourse, beliefs and practices relating to death, dying and the afterlife in Buddhist cultures, both traditionally and in modern times. We explore Buddhist cosmology, karmic causality, death tales, postmortem journeys, ancestor rites, mortuary practices and ghost placation. Through primary texts in translation, secondary scholarship, discussion and film, we see how dealing with death tells us as much about life as it does about what lies beyond.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

RELGST 1557 - BUDDHIST LIVES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1558 - BUDDHISM AND PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This coure examines the relationship between Buddhism and psychology in the modern world from a religious studies perspective
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1560 - CHINESE RELIGIOUS TRADITIONS

Minimum Credits: 3
Maximum Credits: 3
This course serves as a historical, doctrinal and practical introduction to the major religious traditions of china-both classical and modern-day.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1561 - CHINESE THOUGHT

Minimum Credits: 3
Maximum Credits: 3
A survey of major themes in the intellectual history of China from ancient times to the twentieth century, with special attention to the traditions of political and ethical debate. Readings include key texts from the classical canon (e.g. analects, mencius, daodejing), medieval religious traditions (Daoism and Buddhism), and late-imperial metaphysics. The course will conclude with a survey of various attempts at inheriting and disinheriting the past intellectual tradition in the twentieth century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1562 - CONFUCIANISM: BASIC TEXTS

Minimum Credits: 3
Maximum Credits: 3
This course will examine the philosophical, political, and religious dimensions of the analects of Confucius, the Mencius, and the writings of Hsun Tzu and Lao Tzu.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1570 - JAPANESE RELIGIOUS TRADITIONS

Minimum Credits: 3
Maximum Credits: 3
This course serves as a historical, doctrinal and practical introduction to the major religious traditions of Japan both classical and modern-day.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1572 - POPLR RELIGION IN CHANGNG JAPN

Minimum Credits: 3
Maximum Credits: 3
This seminar, through a thematic treatment of popular and civil religion, informed by religious and cultural history, looks at the process through which religion participates in shaping and reshaping worldviews, behaviors, and practices in modern Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1610 - MYTH, SYMBOL AND RITUAL

Minimum Credits: 3
Maximum Credits: 3
Are myths only a thing of the past, or are there contemporary 'myths' that we live by? To what extent are football games and shopping trips "rituals"? How do plants and animals, the cosmos and the human body, or things we associate with bad luck or good health, function as symbols? This course offers a look at how myths, symbols and rituals, in their traditional and contemporary garb, constantly renew themselves as a way for different cultures to give significance to human life. By understanding these three basic forms of human expression we can gain understanding of a wide range of social and religious phenomena. We start with comparative exploration of myths on the origin of the world, humanity, and the gods, and with such rituals as rites of passage, festivals, and pilgrimages, as well as the theories of these expressions and their significance. The course then moves to observations of and reflections on the role of myth, symbol, and ritual in contemporary life, and their relation to such forms of human expression as literature, art, film and our own dreams.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1620 - WOMEN IN RELIGION

Minimum Credits: 3
Maximum Credits: 3
An examination of the place and role of women in Western religious traditions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1624 - WOMEN IN JUDAISM

Minimum Credits: 3
Maximum Credits: 3
This course explores the image and legal status of women in Judaism, from antiquity to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1630 - RITUAL PROCESS

Minimum Credits: 3
Maximum Credits: 3
An interdisciplinary look at ritual from its most visible religious manifestations to its subtler role in shaping our daily actions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1640 - JEWS IN THE ISLAMIC WORLD

Minimum Credits: 3
Maximum Credits: 3
A survey of Jewish life in Spain, North Africa and the Middle East in medieval and early modern times.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course surveys the historical interaction between Christian and Muslim communities over the past 1400 years and focuses on the art of polemic as an important tool in the human construction of religious concepts. We will begin by understanding the evolution of Islam in the seventh century, and continue with the encounters between Islam and the byzantine empire, and the medieval caliphate's encounters with the West, including the crusades. We will then consider specific elements of the interaction between Christian and Muslim communities, drawing from a variety of Muslim communities in Europe and the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1644 - JEWISH-CHRISTIAN RELATIONS

Minimum Credits: 3
Maximum Credits: 3
The emergence of Christianity from Judaism and the implications of the relationship between Christianity and Judaism have been of critical importance in the history of Europe and the world and both Christians and Jews continue to grapple with the theological, political, and cultural impacts of that relationship in today's world. This course surveys the relationships between Jews and Christians from the time of Jesus through the modern era, as viewed by Jews, Christians, and sometimes those in neither category. Topics include the Jewish origins of Christianity; rabbinic views of Christianity and church fathers' views of Judaism; the status of Jews and Jewish communities in the roman empire and in medieval Europe,

medieval persecution of Jews; interreligious disputations and polemics; the impact of the reformation and the enlightenment; Jewish-Christian relations in modern 'secular' states; the rise of new forms of anti-Semitism; the holocaust; and post-holocaust dialogue and new theologies of interreligious encounter. We will discuss not only the significance of Jewish-Christian interactions for European and American history but also assess Jewish-Christian relations as a case study in the broader history of religious diversity, pluralism, and conflict.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1645 - JESUS AND JUDAISM

Minimum Credits: 3
Maximum Credits: 3
This course examines the complex and often polarized relationship between Jesus and Jews (and by extension, Christianity and Judaism) in both ancient and modern contexts. Students will interact with a wide range of primary sources centered on the figure of Jesus `from the Christian gospels through rabbinic discussions of Jesus to modern portrayals of Jesus and the Jews in cinema and scholarship.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1646 - RABBINIC APPRCH-NON-JEWSH WRLD

Minimum Credits: 3
Maximum Credits: 3
This course explores how biblical religion became Judaism. It also introduces students to various genres of classical Jewish texts, and traces the development of ideas from the biblical period to modernity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1648 - GENDER & THE JEWISH TRADITION

Minimum Credits: 3
Maximum Credits: 3
Gender and Jewish tradition treats the theme of gender as it is introduced and discussed in Jewish legal literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1650 - APPROACHES TO ANTISEMITISM

Minimum Credits: 3
Maximum Credits: 3
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1675 - READING THE HEBREW BIBLE

Minimum Credits: 3
Maximum Credits: 3
An introduction to the various methods used by scholars studying the Hebrew bible in both medieval and modern times. Methods will include text criticism, source criticism, feminist criticism, and others.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1680 - HIST & MEMRY IN JEWSH TRADTN

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to the manner in which historians have studied and understood the Jewish experience from antiquity through the modern age. The role of historical study in the formation of Jewish identity will be especially highlighted.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1710 - PERSPECTIVES ON RELIGION

Minimum Credits: 3
Maximum Credits: 3
A serious introduction to the study of religion is undertaken by reviewing the efforts and insights of the principal scholars in the field in the modern

period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1720 - RELIGION AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
Religion is thought, felt, and acted out in social and cultural contexts. The relationship between religion and culture is the focus of the course. The objectives are to understand religion wherever and whenever found and to understand the anthropological approach in the cross-cultural study of religion. Religious belief, ritual, myth, dogma and religious specialists in industrial and non-industrial societies are compared.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1730 - PROBLEMS IN PHIL OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
A rigorous examination of the arguments for and against the existence of God.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1740 - MEANING, MYSTERY AND PARADOX

Minimum Credits: 3
Maximum Credits: 3
Recent philosophical and social scientific theories of religious language are examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1760 - RELIGION AND RATIONALITY

Minimum Credits: 3
Maximum Credits: 3
This course critically examines how religious and nonreligious thinkers have navigated the relation between faith and reason throughout the history of Western thought. Special attention will be paid to evaluating how the relationship between religion and philosophy within Western religious thought have shaped current debates on the place of religion in science, politics, and the humanities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1762 - THE GUIDE OF THE PERPLEXED

Minimum Credits: 3
Maximum Credits: 3
This course will study the guide of the perplexed by the great Jewish thinker Moses Maimonides (1138-1204). It will give special attention to the religious language and arguments for the existence of god in the text, and to Maimonides teachings on religious experience, revelation and his views on human perfection and immortality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1770 - SCIENCE AND RELIGION

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course addresses two questions: does the scientific understanding of the world suffer from a kind of incompleteness that can be remedied by the super naturalist religions? Or is there even a clash between contemporary science and such religion?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RELGST 1780 - CMPTTNL METHDS IN THE HUMANITS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign

languages required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RELGST 1800 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course aims to create a sustained and reciprocal dialogue between bible and film, exploring the intersection of the biblical text with modern cinema. In other words, we will use modern films to facilitate discussion about various dimensions, issues, and themes encoded in select biblical texts and traditions (Jewish and Christian), and conversely we will use the biblical traditions to probe the religious, cultural, and ideological layers embedded within modern cinema. Movies examined in this course will include both overt treatments of the biblical text' in particular, several very different treatments of the figure of Jesus `and subtle, indirect engagements with various biblical themes and teachings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

RELGST 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
A variety of projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

RELGST 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 4
A variety of individual reading and research projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

RELGST 1902 - DIRECTED STUDY-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
A variety of individual reading or research projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

RELGST 1903 - DIRCTED RESEARCH-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
A variety of individual research projects may be undertaken by students under the close supervision of a senior faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

RELGST 1904 - UNDERGRAD RESEARCH ASST

Minimum Credits: 1
Maximum Credits: 4
Students participate in a faculty member's current research project as a research assistant under the guidance of the faculty member. The student is given training in research methods. 1-4 credits available depending on number of hours per week worked. Credits earned will be S/N only. Permission of the department (DUS) and the faculty member is required.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

RELGST 1905 - UNDERGRADUATE TEACHING ASST

Minimum Credits: 1
Maximum Credits: 4
Students serve as an undergraduate teaching assistant in religious studies courses under the supervision of a faculty member. 1-4 credits available depending on number of hours per week worked. Credits earned will be s/n only. Permission of the department (DUS) and the faculty member is required.
Academic Career: UGRD

Slavic Languages & Literatures

RUSS 0010 - ELEMENTARY RUSSIAN 1
Minimum Credits: 5
Maximum Credits: 5
A traditional four-skills course, this course meets with the main lecturer and with the drill instructor. The student acquires basic skills in Russian pronunciation, speaking, listening, and writing, commensurate with the grammatical topics covered. During the first semester these topics include, among others; the present and past tenses, the nominative, prepositional, and accusative cases. The course aims to go beyond the confines of the textbook readings and conversations and apply grammar and vocabulary to practical situations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RUSS 0014 - RUSS FOR HERITAGE LEARNERS 1
Minimum Credits: 3
Maximum Credits: 3
This course is designed specifically for "heritage speakers" of Russian (those who grew up speaking or hearing Russian in the family without a native Russian's full educational and cultural background). It focuses on developing speaking, reading, and writing skills and cultural knowledge that will promote the attainment of professional-level proficiency. All students will develop significantly enhanced grammatical awareness, reading and

writing competency, and a sophisticated vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0015 - RUSS FOR HERITAGE LEARNERS 2

Minimum Credits: 3
Maximum Credits: 3
This course is a continuation of Russian for heritage learners course RUSS 0014. This course will further develop and deepen speaking, reading, and writing skills and cultural knowledge of heritage students challenging them to move toward the level of native speakers of Russian.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0020 - ELEMENTARY RUSSIAN 2

Minimum Credits: 5
Maximum Credits: 5
The continuation of RUSS 0010, this course focuses on aural comprehension of Russian as a means for developing spoken competence, the aim being to sharpen the student's spoken proficiency. Attention is paid to the function of word order and intonation. Grammatical topics covered include the genitive and instrumental cases and verbal aspect. Vocabulary and phraseology are learned in both grammatical and cultural context.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RUSS 0030 - INTERMEDIATE RUSSIAN 1

Minimum Credits: 5
Maximum Credits: 5
The continuation of RUSS 0020, this course completes the introduction to basic Russian grammatical structures. The dative case, participles and gerunds, verbs of motion, and questions of verbal government are dealt with systematically. Extra-textbook material introduces the student to samples of unedited real-language texts. In developing spoken language ability, topics related to cross-cultural comparison receive prominence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RUSS 0040 - INTERMEDIATE RUSSIAN 2

Minimum Credits: 5
Maximum Credits: 5
Russian 0040 is a transitional course between RUSS 0030, which finishes the beginning textbook, and third year Russian, which focuses on conversational skills. An annotated short contemporary soviet novel is used as the basis for written and conversational work. Considerable time is devoted to grammatical review, and to completing any grammatical subjects incompletely covered by the introductory textbook, especially participles and gerunds, and verbal aspect.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

RUSS 0090 - RUSSIAN FAIRY TALES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Russian folklore through the oral genre of fairy tales so as to acquaint them with popular structures of thought underpinning modes of Russian behavior. A significant component of the course will consist of visual and audio representations of scenes from fairy tales.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0091 - RDG RUSS FAIRY TALES IN RUSS

Minimum Credits: 1
Maximum Credits: 1
This course is a one-credit add-on module for students who are taking (or have taken) Russian fairy tales (RUSS 0090) and who would like to read selected tales and other texts in Russian.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

RUSS 0110 - RUSSIAN CONVERSATION PRACTICE

Minimum Credits: 1
Maximum Credits: 1
This course attempts to help students at second-year Russian level to overcome the psychological hurdle of speaking Russian in a group. Students will practice and act out dialogues, augment their vocabulary, and participate in situations that simulate everyday Russian life.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

RUSS 0210 - INTENSIVE BEGINNING RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
A thorough introduction to Russian pronunciation, grammar, and syntax. A full, rigorous treatment of the sound and writing systems is followed by the basic categories of the noun and verb: gender, number, case, tense, and aspect. Nominative, accusative, prepositional, and dative case of nouns and adjectives, present and past perfective and imperfective verbs are presented. Emphasis is placed on communicative competence -- active use of new structures in reading, dialogues, free conversation, listening comprehension.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0211 - BEGN INTEN RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a first-year Russian course, equivalent to RUSS 0010 and RUSS 0020 and RUSS 0210. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0216 - BEGINNING INTEN RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This is a course in first-year intensive Russian held abroad in a for eight weeks during summer. This course is eight weeks in duration.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0220 - INTENSIVE INTERMEDIATE RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
A rigorous presentation of the basic uses of all nominal and verbal categories: declensions of nouns and adjectives in all cases, singular and plural, deepening of the knowledge of aspect uses, verbs of motion, conditional sentences, imperatives, indefinite pronouns, comparison of adjectives, time expressions, prepositional phrases. Attention paid to phraseology on both oral and written levels, introduction to participles and verbal adverbs. Great emphasis is placed on developing fluency in conversation.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0221 - INTM INTEN RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a second-year Russian course, equivalent to RUSS 0030 and RUSS 0040 and RUSS 0220. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0226 - INTM INTENSIVE RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This is a course in second-year intermediate intensive Russian held abroad for eight weeks during summer. This course is eight weeks in duration.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0230 - INTENSIVE ADVANCED RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
This intensive course has two components: the first, conversation, will consist in the preparation of dialogues, debates, and in-class discussions in Russian. The second, grammar, will be based on an accompanying grammar text and on short compositions that will draw on material covered in the text. The course objectives are: to develop a familiarity with the more subtle and complex aspects of Russian grammar; to develop an active vocabulary in practical, everyday topics, suited for travel to the soviet union; to refine composition skills.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0231 - ADV INTEN RUSSIAN PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is an advanced-level (third-year) Russian language course, equivalent to RUSS 0400 and RUSS 0410 and RUSS 0230. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0236 - ROTC ADV RUSSIAN ABROAD

Minimum Credits: 8
Maximum Credits: 8
This study abroad course at the advanced level of Russian, designed for ROTC project go scholarship recipients, develops an active vocabulary and grammar in practical, everyday topics, improves writing and speaking skills, and enriches cultural competency. Students will participate in a combination of intensive language classes, lectures, and cultural excursions.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0240 - INTENSIVE FOURTH-YEAR RUSSIAN

Minimum Credits: 8
Maximum Credits: 8
This intensive course is a survey of 19th century Russian literature aimed at post-third year Russian students. The course will consist of lectures, readings, and discussions covering the major 19th century authors; also translation, grammar review and composition and conversation practice.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0241 - 4TH YR INTEN RUSS PITT/MOSCOW

Minimum Credits: 10
Maximum Credits: 10
This is a fourth-year Russian language course requiring an advanced knowledge of the Russian language. Four weeks on campus and five weeks in Moscow at Moscow state linguistic university. Part of the Russian summer institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

RUSS 0325 - RUSSIAN SHORT STORY IN CONTEXT

Minimum Credits: 3
Maximum Credits: 3
This course will be devoted to reading short stories from 19th and 20th century Russian literature. The authors include 19th century masters Pushkin, Gogol, Dostoevsky, Tolstoy, and Chekhov--to 20th century favorites Babel, Zamyatin and Zoshchenko, right up to contemporary writers Solzhenitsyn, Shalamov, Petrusheuskaya, Tolstaya, and Tokareuy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0400 - ADVANCED RUSSIAN 1

Minimum Credits: 3
Maximum Credits: 3
This three-credit course develops third-year students' reading, writing, and oral skills through grammar review and readings. Students will write compositions in Russian and will summarize and comment in Russian on their reading in addition to participating in grammar review exercises in class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

RUSS 0410 - ADVANCED RUSSIAN 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Advanced Russian 1, this three-credit course will focus on developing students' reading, writing, and oral skills through grammar review and readings.
Academic Career: UGRD
Course Component: Lecture

This course allows students to work independently on individually designed projects in the Serbian and Croatian languages.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

SLAV 0202 - BEGN INTEN CZECH PITT-PRAGUE

Minimum Credits: 10
Maximum Credits: 10
This is an intensive course in beginning intensive Czech which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Prague, Czech republic. It is part of the Russian and East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0210 - BEGINNING INTENSIVE TURKISH

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Turkish which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0211 - INTENSIVE BEGINNING HUNGARIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Hungarian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0212 - INTENSIVE BEGINNING CZECH

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Czech language which is to be offered as part of the summer intensive workshop in Slavic languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0213 - BEGINNING INTENSIVE BULGARIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills intensive course in beginning Bulgarian which is offered as part of a summer intensive workshop in Slavic languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0214 - BEGINNING INTENSIVE MACEDONIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills course in beginning Macedonian which is offered as part of a summer intensive workshop in Slavic languages.

Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0215 - INTENSIVE BEGINNING ROMANIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four-skills beginning immersion course in the Romanian language.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0216 - BEGN INTEN BULGARIAN PITT/BULG

Minimum Credits: 10
Maximum Credits: 10
This is a course in beginning intensive Bulgarian language, the first six weeks held in Pittsburgh as part of the summer language institute, followed by four weeks of language study in Sofia, Bulgaria.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0217 - BEGINNING INTENSIVE LATVIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Latvian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0218 - BEGINNING INTENSIVE LITHUANIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Lithuanian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0219 - BEGINNING INTENSIVE ESTONIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in beginning Estonian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0222 - INTM INTENSIVE CZECH - PRAGUE

Minimum Credits: 6
Maximum Credits: 6
This is an intensive course in intermediate intensive Czech which meets for six weeks during summer term in Prague, Czech republic. It is part of the Russian and East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0223 - INTM INTNSV BULGARIAN/BULGARIA

Minimum Credits: 4
Maximum Credits: 4
This is a continuation of SLAV 0213, beginning intensive Bulgarian and is equivalent to the first semester of inter mediate second-year Bulgarian. This segment will be con ducted in Bulgaria and is part of the summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0224 - BEGN HUNGARIAN PITT-HUNGARY

Minimum Credits: 10
Maximum Credits: 10
This is an intensive course in beginning intensive Hungarian which meets for six weeks during summer term in Pittsburgh, followed by four weeks of study in Debrecen, Hungarian. It is part of the Russian and East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0225 - INTM HUNGARIAN IN HUNGARY

Minimum Credits: 4
Maximum Credits: 4
This is an intensive course in intermediate intensive Hungarian which meets for four weeks during summer term in Debrecen, Hungary. It is part of the Russian and East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0227 - INTERMEDIATE INTENSIVE LATVIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in intermediate Latvian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0228 - INTM INTENSIVE LITHUANIAN

Minimum Credits: 6
Maximum Credits: 6
This is a four skills intensive course in intermediate intensive Lithuanian which is offered as part of the summer intensive workshops in East European languages.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0229 - INTERMEDIATE INTEN ESTONIAN

Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0232 - ADVANCED INTEN CZECH-PRAGUE

Minimum Credits: 6
Maximum Credits: 6
This is an intensive course in advanced intensive Czech which meets for six weeks during summer term in Prague, Czech Republic. It is part of the Russian and East European summer language institute.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

SLAV 0550 - LITERARY MASOCHISM

Minimum Credits: 3
Maximum Credits: 3
This course aims to expose students to the concept's intellectual history in its sociological context, on the one hand, and, on the other, to read/ view prose, poetry, and cinema in the light of the most important theories on masochism. The inter-disciplinary nature of the course is designed to attract students from various departments (Slavic languages and literatures, film, English, psychology).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 0660 - SCI-FI: EAST AND WEST

Minimum Credits: 3
Maximum Credits: 3
This course compares Slavic and Anglophone science fiction to assess how a given culture's dominant values are articulated in a popular genre that enjoys different status in East and West. Those values emerge in works that imaginatively posit "fantastic" situations rooted in biological, spatial, and temporal explorations beyond those verified by science. On the basis of films, film clips, TV shows, stories, novellas, and novels we shall discuss

such topics as utopia, progress, human perfectibility, the limits of science, and the nature of knowledge.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 0880 - VAMPIRE: BLOOD AND EMPIRE

Minimum Credits: 3
Maximum Credits: 3
This course examines the phenomenon of vampirism in verbal and visual texts from different time periods in various cultures (Russia, Poland, France, England, America). We will analyze stories, novels, and films focusing on vampires from a variety of critical perspectives, contextualizing the works in the cultures that produced them.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1050 - COMPUTATIONAL METHS IN HUMANIT

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1220 - HOLOCAUST E EURPN FILM & LIT

Minimum Credits: 3
Maximum Credits: 3
This course examines verbal and visual texts that involve some form of testimony as to events related to the Nazi Holocaust (1939-47). We shall analyze specific texts, the effect of technical aspects of the texts, and the difference between fiction and non-fiction and the effects of Holocaust denial.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1225 - CROS CLTL REPRSTN PRISON 20THC

Minimum Credits: 3
Maximum Credits: 3
This course examines cultural works produced in and about prison in the 20th century, addressing the function of art within the context of incarceration. In structure the course is composed of three parts: prison writings and criminal culture in America, memoirs from the forced-labor camps of the soviet gulag, and narratives of holocaust concentration camps. This structure allows for a comparison of cultures-- American, Russian, and European--as well as identities-- racial, gender, and religious.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1710 - UNDERGRADUATE TEACHER TRAINING

Minimum Credits: 1
Maximum Credits: 3
This is an elective course for gaining teaching experience under the supervision of the Slavic department faculty.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

SLAV 1720 - UNDERGRADUATE TEACHING

Minimum Credits: 1
Maximum Credits: 3
This is an elective course for students who wish to gain teaching experience under the supervision of the Slavic department faculty.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

SLAV 1840 - TOPCS SLAV CULT: MYTHS IN LIFE

Minimum Credits: 3
Maximum Credits: 3

This course will deal with specific topics concerning the literature of various central and East European cultures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Grade Component: LG/SNC Elective Basis

Social Work

SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK
Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to introduce students to the goals, values, and historical development of the profession, as well as its body of knowledge, unique methods, and settings for practice.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOCWRK 1001 - INTRO SCL WRK CIVIC ENGAGEMENT

Minimum Credits: 1
Maximum Credits: 3
The objective of this course is to introduce students to the goals, values, and historical development of the profession, as well as its body of knowledge, unique methods, and settings for community practice.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SOCWRK 1005 - FOUNDATIONS OF WELFARE STATE

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to examine the nature and structure of social welfare services and institutions; historical and cultural foundations of how societies have provided welfare services for people; current issues in the provision of services.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOCWRK 1006 - POLICY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to examine the nature and development of public school policy. A conceptual model for the analysis of social policy will be presented and using this model particular social welfare policies, such as those for mental health and aging, will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1000 and SOCWRK 1005

SOCWRK 1008 - ETHNICITY AND SOCIAL WELFARE

Minimum Credits: 3
Maximum Credits: 3
This course provides an understanding and working knowledge of the interface of ethnicity and race and the social welfare system. Critical ways in which the social welfare system has been shaped by ethnic and racial factors will be discussed, as well as the effects of race and ethnicity on the ways in which various ethnic and racial groups use the social welfare system, ways in which services/resources are allocated, and reasons that propel individuals and groups to seek out social services and resources.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1009 - CASE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the fundamental aspects of case management (service coordination), including common case management roles, processes, responsibilities, and employment challenges. Major content areas include: case management roles (including advocate, broker, resource coordinator), the roles and responsibilities of the multidisciplinary team (including nurses, social worker, physicians, and other disciplines), case management with special populations (forensic, geriatric, children, diverse populations), and the responsibilities of a case manager working in health care and mental health settings. Students will be introduced to the employment challenges of case management (types of programs that hire case managers, workforce retention issues, expectations of case manager, and job satisfaction). Students will develop familiarity with how case managers and clients interface with individual, group, and family systems. Students will develop knowledge of case management ethics and explore common ethical dilemmas and boundaries issues that confront case managers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1010 or PSY 1210 (MINGRADE: 'C-' for all listed Courses); Plan: Psychology(BS) or Social Work(BSW); LVL: Jr, Sr

SOCWRK 1010 - PRA MODL:HELP PEPL HELP SELVES

Minimum Credits: 3
Maximum Credits: 3
This course identifies generic principles of social work methods of intervention within a systems frame of reference. Didactic and experiential methods will be used.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1011 - SOCIAL WORK W/INDIVS & FMLYS

Minimum Credits: 3
Maximum Credits: 3
Teaches interventive skills in casework with individuals and families, with emphasis on the problem-solving psychosocial, and behavioral approaches.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1010 (MIN GRADE 'C-')

SOCWRK 1012 - SOCIAL WORK W/COMNYS & ORGNS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to macro practice through understanding and analyzing organizations and the relationship of organizations to the urban community. The focus is on the acquisition of practice skills in community organization, e.g. locality development, social planning, and social action.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1010 (MIN GRADE 'C-')

SOCWRK 1013 - SOCIAL WORK WITH GROUPS

Minimum Credits: 3
Maximum Credits: 3
Introduces the student to social group work as a method in social work practice. The history of the development of groups in social work with emphasis on practice in the United States is also presented. Remedial, reciprocal and social goals models will be analyzed in relation to the worker's use of self, group, structure, group process, phase development and the agency functions used to achieve individual and group goals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1010 (MIN GRADE 'C-')

SOCWRK 1015 - HUMAN BEHAVR & SOCL ENVIRONMNT

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to view the range of human needs and behavior as related to various conditions of the urban scene. Examines social, political, economic, and cultural factors which influence individual, group, and community social functioning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1020 - INTRO TO SOCIAL WORK RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This course is oriented to the reader and user of social work research. Using standard methodology texts and actual research studies, the lectures and discussions are designed to enable students to read and assess studies relevant to social work practice. In this process, the development and conduct of social research, as it applies to the issues and concerns of social work practice, is described and analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: Any Statistics Course; PLAN: Social Work (SOCWRK-BSW)

SOCWRK 1023 - PERSNL GROWTH THRGH PSYCHODRAM

Minimum Credits: 3
Maximum Credits: 3
This course includes the 5 philosophical concepts, the 6 operational elements, the format, the procedure and processes, and the basic techniques and strategies of psychodrama as developed by J.L. Mareno. Another aspect of the course is the examination of theories and of current research on the use of psychodrama, sociodrama and as a teaching strategy.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1024 - PRACTICUM SEMINAR AND LAB 1

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is for students to be able to identify their feelings and behaviors as well as those of their clients and colleagues which affect the course of their interventions within their practice area.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: CREQ: SOCWRK 1025

SOCWRK 1025 - PRACTICUM 1

Minimum Credits: 6
Maximum Credits: 6
Placement in an agency will be made according to interest and educational need. Evaluation will be made of the student's ability to use classroom theories to enhance service.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1026 - PRACTICUM SEMINAR AND LAB 2

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to facilitate the student's development of a professional self through the integration of classroom and practicum learning and to provide students an opportunity to amplify their practice learning beyond their immediate placements as a result of guided interactional experiences with other students.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: SOCWRK 1024 (MIN GRADE 'C-'); CREQ: SOCWRK 1027

SOCWRK 1027 - PRACTICUM 2

Minimum Credits: 6
Maximum Credits: 6
A continuation of Practicum 1.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: School of Social Work students only.

SOCWRK 1030 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
Directed study provides students with opportunity to explore in-depth a specific social work area beyond that available in regularly scheduled courses. Students must secure a faculty mentor, develop a written plan and receive approval of the plan in order to register for a directed study.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

SOCWRK 1035 - GLOBL PERSPECTIVES SOCIAL WORK

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the international dimensions of the human condition; the global context of responses to human need; and social development as an approach to global social work practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: SOCWRK 1000

SOCWRK 1040 - SOCL INEQUALITY AMERCN SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Poverty, race and opportunity in the United States will be the focus of the course. Of particular interest: patterns of intergroup relationships; the

institutionalization of dominant group perspectives; poverty within systems of capitalism and social welfare; and the strengths and opportunities present within disadvantaged population groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1044 - AGING IN MULTICULTURAL SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide a framework of knowledge, skills and values for culturally competent and responsive social work practice with older adults. It will focus on diversity and differential effects of aging and related service programs that affect the quality of life in old age.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

SOCWRK 1058 - ECONOMICS AND SOCIAL WORK

Minimum Credits: 3
Maximum Credits: 3
This course provides an understanding of basic economic theory, and discusses its application to social welfare policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: SOCWRK 1000

SOCWRK 1059 - CHILD AND FAMILY ADVOCACY

Minimum Credits: 3
Maximum Credits: 3
This is a practical skills course in legal advocacy for non-lawyers. The emphasis is on practical techniques and courtroom skills to enhance the professional effectiveness of social workers in the courtroom setting. Typical areas of discussion include rules of evidence, legal procedure, expert witnesses, interview techniques, cross-examination, law reform, case review and readings and the legal rights of children.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1061 - CHILDREN'S RIGHTS

Minimum Credits: 3
Maximum Credits: 3
Students will study the rights and responsibilities of government, the family, and the child in raising healthy, adjusted children; will apply conceptual models for understanding rights; will understand historical evolution of these rights.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1062 - THRY & CONCPT IN COMP GVRNT

Minimum Credits: 3
Maximum Credits: 3
An analysis of some of the major problems in constructing "scientific" theories of politics. Focusing on the comparative method, the course considers in detail several of the major approaches to the study of politics employed by contemporary political scientists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1063 - AFRICAN-AMERICAN HEALTH ISSUES

Minimum Credits: 3
Maximum Credits: 3
Course will focus on black health issues from analytical, theoretical and practical perspectives. These perspectives will be introduced through cross-examination of health topics which are critical to the black population, the development of health policies and conceptual models for health promotion and disease prevention.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Social Work students only.

SOCWRK 1079 - CHILD WELFARE SERVICES
Minimum Credits: 3
Maximum Credits: 3
Engages students in the study of child welfare, its historical roots, the services provided to families and children, the problems and policy issues in the current child welfare system and culturally competent practice. The study will focus on the etiology, rationale for service, and the current and future provision of services, with emphasis given to legislative mandates for service.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SOCWRK 1000

SOCWRK 1080 - BROWNE LEADERSHIP FELLOWS SEM
Minimum Credits: 1
Maximum Credits: 1
This seminar engages students in a practice that will lead to their own professional growth and development. The primary focus of this seminar will be on the development of the knowledge, values, and skills of a professional. During seminars, browne fellows will begin program design and implementation strategies for the summer program. Fellows will have the opportunity to hear from experts in the field but spend significant time exploring the topics. The final assessment is focused on a presentation and poster session. Only students that have applied to and been accepted into the Browne Leadership Fellows program are eligible to enroll in this course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

SOCWRK 1088 - SPECIAL TOPICS
Minimum Credits: 1
Maximum Credits: 3
Given the changing nature of generalist practice, the BASW program occasionally offers courses in new and/or unique content areas. This course is designed to provide skill and knowledge content not covered in other BASW courses.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

SOCWRK 1098 - GENERLIST FDS SOCL WRK PRACT
Minimum Credits: 3
Maximum Credits: 3
This course is designed to serve as foundations for specialization by providing students with the knowledge, values and skills needed to engage in the generalist practice of social work. Professional social work activity related to various social problems (poverty, racism, sexism), system size (individual, family, group, organization, community, society), and locations of practice (host setting, the urban environment, for example) will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Social Work students only.

Sociology

SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE
Minimum Credits: 3
Maximum Credits: 3
This course considers questions of individual behavior and social interaction together with societal phenomena. The interactions among these matters is discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0003 - TECHNOLOGY AND SOCIAL CHANGE
Minimum Credits: 3
Maximum Credits: 3
To acquaint the student with major sociological concepts, approaches and theories that are applicable to the analysis of the interaction between technology and society. The discussions are organized around three issues; 1. The effects of technology upon various aspects of the social structure and functioning, 2. The social conditions which lead to innovations and the diffusion of innovations throughout society, and 3. Technology assessment and environmental impact statement processes as they bear on current national decisions bearing on technology/society interfaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0005 - SOCIETIES
Minimum Credits: 3
Maximum Credits: 3
This introductory course is devoted to furthering an understanding of life in America today by comparing it to a variety of societies worldwide. Among the societal aspects explored; political and economic systems, cultural styles, major religions and religious trends.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0007 - SOCIAL PROBLEMS
Minimum Credits: 3
Maximum Credits: 3
The major aims of this course are to understand the nature of important social problems in American society and analyze their causes and consequences. The two competing perspectives, one, that social problems are created when individuals fail to conform to societal norms, and two, that social problems are caused when institutions fail to meet changing needs and aspirations of individuals will be used in our analysis. Future trends and policy alternatives toward amelioration will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0008 - AMERICAN SOCIETY
Minimum Credits: 3
Maximum Credits: 3
This course offers a focus on contemporary American society, while providing an introduction to sociological principles, perspectives, and matters of concern. For some students, the course serves as a first course in sociology; for others, as a sequel (or prelude) to other, introductory level courses. For still others, the course satisfies curiosity about trends in the United States today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0010 - INTRODUCTION TO SOCIOLOGY
Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the discipline of sociology, its development, theories, major findings, and to the sociological interpretation of modern society. Emphasis will be given to the importance of careful empirical investigation for the understanding of recent social and cultural changes. Students should be prepared to encounter basic issues in sociological method and in theory; an inclination toward systematic and abstract reasoning will help.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0140 - CLSSICAL SOCIOLOGICAL THEORIES
Minimum Credits: 3
Maximum Credits: 3
This course will deal with the foundations of modern sociological theory through a study of major social theorists of the 19th and early 20th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0150 - SOCIAL THEORY
Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to provide a survey of major developments in sociological theory in recent times. The classic background for these developments is included as part of the course. Lectures, readings and discussions help the student to acquire a grasp of the significance of theoretical analysis in sociology and of basic sociological problems addressed by a variety of theorists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0230 - SOCIAL RESEARCH METHODS
Minimum Credits: 3
Maximum Credits: 3
Students begin to learn to do social research in this course. They learn how to define an appropriate problem, select an appropriate method, collect and analyze data, discuss their results, and draw conclusions. Students study both quantitative and qualitative methods.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0232 - SOCIAL RESEARCH 1

Minimum Credits: 3
Maximum Credits: 3
This first course, in a sequence of two courses, provides an introduction to contemporary social research methods. Issues of problem formulation, conceptualization and operationalization, measurement, sampling, data collection and data processing are covered. Throughout the course there will be extensive use of the departmental computing laboratory to provide hands-on practical experience with real data and real problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOC 0233 - SOCIAL RESEARCH 2

Minimum Credits: 3
Maximum Credits: 3
The second course of the two-course sequence is focused on the "analysis" of social scientific information in three research contexts: the first deals with social surveys; the second covers methods for analyzing narratives, observation al evidence and documents; and the third considers social network methods. In all three there will be extensive analyses of real data. Most of the class work will take place in the departmental computing laboratory with the intent that students learn how to do research by doing it with nontrivial substantive problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOC 0312 - SCIENCE IN SOCIETY

Minimum Credits: 3
Maximum Credits: 3
The course aims at conveying an understanding of the social significance of science in modern society, dealing with questions of why science is valued, how society supports science, how scientists are selectively recruited and trained, how scientific activity is organized, and how scientific knowledge is utilized in society, especially in the United States and Europe. Focus is on the values attached to science by society, the interest in making new discoveries, organization of research, diffusion and transmission of scientific knowledge.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0317 - GLOBAL SOCIETY

Minimum Credits: 3
Maximum Credits: 3
The aim is to analyze the dynamics of civilization in today's interconnected world. How is people's social and cultural life shaped by their position in the world, by local traditions and distant forces? How have the independently coexisting civilizations of earlier centuries become incorporated into a global civilization in which colonial empires and the communist regime have given way to wider democracy and a capitalist regime with global dynamics? How is Western culture (beliefs, values and symbols) disseminated and embraced, modified or resisted in non-Western societies?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0333 - IDEOLOGIES AND SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
The role of ideology in promoting, thwarting or preventing change is examined. An inquiry is made into how an ideology is formulated and implemented and what channels are used for its diffusion. Various kinds of political, religious and scientific ideologies are analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0339 - SOCIOLOGY OF RELIGION

Minimum Credits: 3
Maximum Credits: 3
This course will compare and contrast major classical and modern sociological theories of religion, including discussion of the renewed focus on religion in mainstream, general theory. Attention will be narrowed to a focus on relation between religions, states and individuals in comparative and historical perspective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0351 - SOCIAL CHANGE
Minimum Credits: 3
Maximum Credits: 3
Theories of social change will be evaluated in the light of case studies drawn from history and the contemporary world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0352 - SOCIAL MOVEMENTS
Minimum Credits: 3
Maximum Credits: 3
This course offers ideological, structural, and functional treatment of dominant American movements for social and cultural change in our contemporary world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0354 - SOCIAL STRUCT OF CNTMPRY JAPAN
Minimum Credits: 3
Maximum Credits: 3
This is a basic course to introduce students to sociocultural perspectives on Japanese society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0359 - GLOBAL ISSUES UNITED NATIONS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0361 - SOUTHEAST ASIAN SOCIETIES
Minimum Credits: 3
Maximum Credits: 3
This course invites students to acquaint themselves with a foreign culture area--Southeast Asia--by reading and discussing prose fiction mostly created about their societies by Southeast Asian authors. Through literature, the course intends to provide an introduction to the comparative study of contemporary Southeast Asian societies, examining major issues of social change and tradition in the concrete context of one of the most diverse and explosive regions of the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0362 - LATIN AMERICAN SOCIETIES
Minimum Credits: 3
Maximum Credits: 3
A general survey of Latin American societies from an historical sociological perspective. Emphasis is placed on the emergence of some key social institutions as rooted in the Iberian tradition. Recent theories of development and de pendency are reviewed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0386 - FRENCH REVOLUTION
Minimum Credits: 3
Maximum Credits: 3
This course will consider various theories of the social sources of revolutions and evaluate them in the light of historical research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0411 - DECEPTION AND BETRAYAL
Minimum Credits: 3
Maximum Credits: 3
Students learn what sociologists and social psychologists have discovered about deception and betrayal in personal relationships, social institutions, national affairs, and international affairs.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0414 - SEXUAL POLICY

Minimum Credits: 3
Maximum Credits: 3
Students consider what policies governments should adopt in regulating sexual behavior and sexual matters. Topics considered include heterosexual and homosexual behaviors, prostitution, pornography, and abortion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0424 - SMALL GROUPS

Minimum Credits: 3
Maximum Credits: 3
In this course, the study of small groups is viewed as one means of building general sociological knowledge. Such groups exhibit basic social processes, such as the emergence of status structures and of group cultures. Basic theory and research methods on such groups are treated. It is likely that the readings will include case studies of real groups that illustrate how group processes and structures are analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0426 - SOCIETY AND THE CHILD

Minimum Credits: 3
Maximum Credits: 3
This course will study early childhood socialization in contemporary society. The interaction of a biological process of maturation with socio-cultural molding will be examined as will changes in the roles of parents and social institutions outside the family.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0431 - BUREAUCRACIES

Minimum Credits: 3
Maximum Credits: 3
This course examines bureaucratic organizations of all types (industrial, commercial, governmental, religious, educational, social welfare, etc.) giving special attention to decision-making. People make decisions according to bureaucratic rules, in problem-solving groups, and in interest groups which seek to win advantages for themselves and their members. Decisions and other organizational acts will be studied sociologically.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0432 - WEALTH AND POWER

Minimum Credits: 3
Maximum Credits: 3
The interdependence of these two key sociological concepts is discussed in the context of American society. The role of the multi-national corporation as the most important institution in capitalist societies is examined. The pervasive power of some is contrasted with the generalized powerlessness of the majority.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0434 - POLITICAL SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course examines the relationship between political institutions and the institutions of the economy, family, education, religion, and stratification. With a major focus on American society and the conditions underlying stable democracy, these relationships are studied in historical and cross-societal comparative perspective as well as in terms of a society's location in the system of international relations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0436 - SOCIAL ASPECTS OF SEXUALITY

Minimum Credits: 3
Maximum Credits: 3
Students consider the social analysis of human sexual behavior and experience. Topics considered include sexual motivation, masturbation,

premarital intercourse, marital intercourse, extramarital intercourse, homosexuality, and sexual norms and values.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0438 - SOCIOLOGY OF THE FAMILY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the sociological perspective on the family and analyzes how the structure and nature of family life are shaped by larger historical and social forces. We will look at how changes in the economy and technology affect the family; how ideas concerning gender roles affect male/female relationships and the socialization of children; how race, ethnicity, and class shape family life; and the wide variety of family forms, historical and contemporary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0441 - PROFESSIONS AND DYING PATIENT

Minimum Credits: 3
Maximum Credits: 3
With a main focus on the professions of medicine, nursing, and the clergy, this course examines dying, death, and bereavement in modern society. Attitudes towards dying and death will be related to ethical issues arising from growth in life-sustaining knowledge and technology, to moral decision making, and the emergence of specialization in terminal care, and bereavement support.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0444 - URBAN SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
The modern city is simultaneously many different things. It is an assortment of neighborhoods, it is a workshop with factories and offices, it is a crisscross of transportation arteries, it is a marketplace for the interplay of economic interests, it is an object which several different governments try to understand and control, and it is an astonishing mixture of religious, racial, ethnic, recreational, avocational, professional, educational, medical, political, social, and deviant communities. This urban complex will be studied with a sociological approach.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0446 - SOCIOLOGY OF GENDER

Minimum Credits: 3
Maximum Credits: 3
This course will analyze the various processes and institutions through which gender roles are defined and shaped in our society. It will analyze the interaction between individual conceptions of gender and larger social institutions such as the family, the workforce, the media, religion, etc. The current changes in these roles will be related to changes in other social institutions. We will also examine the multiple forms of inequality in our society--based on sex, race, class, and sexual preference--and see how they interact.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0460 - MINORITY GROUPS

Minimum Credits: 3
Maximum Credits: 3
This is a course presenting the central sociological interpretations of majority/minority relations. The course begins with a consideration of minorities around the world. With world minorities as a frame of reference, the course turns to the United States and its special opportunities and problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0465 - SOCIOLOGY OF SPORTS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is threefold; first, it is intended to provide the student with a sound introduction to the emerging field of the sociology of sport; second; it applies a sociological perspective to analyze sport as an institution and element of the social order of society; and third, it seeks to demonstrate that sport is a microcosm of the larger society and can neither be isolated nor insulated from the broader social currents.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0466 - SOCIAL CONTROL OF BUSINESS

Minimum Credits: 3
Maximum Credits: 3
This course studies the modern business system as a social and cultural operation. Topics include; materialism and the business culture, the merger of business and technology, prevailing ideologies in the business world, governing norms and customs of the workplace and marketplace, and the place of the individual within the system (including indoctrination, career-striving, decision making, females vis-a-vis males, and equitable treatment).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0471 - DEVIANCE AND SOCIAL CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course raises questions about what is "deviant" and how certain actions and beliefs come to be considered deviant. It also raises questions concerning the social, structural and cultural determinants of the decision to view something as "deviant" and in need of "control". The course explores changes in the definition of behavior which lead the same behaviors to be considered 'sins', 'crimes', 'illnesses', and 'alternative life-styles'.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0472 - INTRODUCTION TO CRIMINOLOGY

Minimum Credits: 3
Maximum Credits: 3
Criminology refers to the scientific study of crime, its causes, and social responses to it. This course provides a broad overview of the study of crime. It examines the legal definitions and elements of crime; surveys the major categories of crime, i.e. predatory and non-predatory acts; reviews the major measures of crime; identifies the major correlates of crime, reviews and assesses the major theories of crime; differentiates types of offenders and explores various dimensions of their offending; and examines and evaluates the workings of the criminal justice system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0474 - SOCIETY AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
Every society regulates behavior and the means, i.e. Either informal or formal, with which this is done varies according to level of social development. This course examines the regulation of behavior in primitive, transitional, and modern societies and traces the development of law and legal systems and their relationship to different characteristics of social development. We will examine legal jurisprudence and the application of the principles of these philosophies and explore how they have shaped legal action.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0475 - SOCIOLOGY OF AGING

Minimum Credits: 3
Maximum Credits: 3
This course studies the fate of being old in American society in terms of income-adequacy, participation in political life, family relations, the status of retirement as an institution, health, the loss of independence and life in nursing homes. These and related issues are examined in cross-national perspective to assess the level and some nationally distinctive ways in which modern society cares for its elderly.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0476 - WORK AND OCCUPATIONS

Minimum Credits: 3
Maximum Credits: 3
This is a basic course in the sociology of work and the occupational structure.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0477 - MEDICAL SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This is a course on socio-cultural aspects of health, illness, disease and (medical) treatment in American society. The historical transformation of American medicine into a powerful sovereign profession with unparalleled authority, autonomy and control over all aspects of health and illness will

be examined. On the basis of this historical survey, recent empirical studies of distribution of health, disease and medical care will be examined as well as specific substantive issues and contemporary debates.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0478 - YOUTH AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course examines the relationship between youth and socio-cultural change that results from the intersection of psychological development and historical circumstances. The course also compares processes of adult socialization and identity transformation with the more familiar processes of childhood socialization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0479 - SOCIOLOGY OF EDUCATION

Minimum Credits: 3
Maximum Credits: 3
The purpose of the course is to show the place of education as a subsystem within a larger societal structure and to understand the significance of education for the vital area of socialization. Educational values, norms, roles, and institutions, as well as the various aspects of the educational process will be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 0490 - MASS MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course deals with the many faceted roles of mass media in our society and explains how and why the media have achieved their present prominence and influence on our lives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1002 - SOCIOLOGY HONORS SEMINAR

Minimum Credits: 3
Maximum Credits: 3
The search for identities is an inseparable component of the postmodern "global" world. Individual and collective identities are in a constant state of formation and change. Using comparative case studies, we will examine various kinds of identity construction and transformation, including identities of race, ethnicity, nation and gender. Through the application of sociological insights, we hope to improve our understanding of these complicated processes
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SOC 0150 and SOC 0230); PLAN: Sociology(BA); CUM GPA '3.25'

SOC 1105 - FEMINIST SOCIAL THEORY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to American feminist social theory. Feminist theory analyzes the male dominance of our society and its institutions and shows how this shapes all aspects of our lives. Feminist critique also extends to the production and dissemination of "knowledge", illustrating how the very subjects studied, and the books chosen as important, reflect the male bias of the researchers. In this course we will study both of these aspects of feminist theory, and examine how feminist thought is beginning to change the shape of American social science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1107 - CULTURAL SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course begins with a survey of the treatment of culture in a variety of schools of modern social science. Among the schools of thought to be surveyed are: Habermas-centered critical theory; Marxist and neoMarxist approaches including those inspired by the Frankfurt school, Gramsci, Lukacs and Wallerstein; action and functional approaches (derived in part from weber and Durkheim) centered upon the works of Parsons, Geertz, Bellah, Schluchter et al.; Structuralist approaches, including those of Sahlins and Foucault.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1111 - SOCIAL THEORY AND MODELS

Minimum Credits: 3
Maximum Credits: 3
This is a course in the use of formal methods in developing theory in social science. Critical standards are introduced for the evaluation of theoretical models expressed in mathematical form and issues related to such formalization are discussed. There will be some combination of in depth study of one formal social theory and of less intensive study of a variety of theoretical models.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1112 - ECONOMIC SOCIOLOGY

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to provide a broad macrosociological perspective on the economic aspects of societies. The necessary concepts of macrosociology are introduced as needed. Comparative studies in economy and society are supplemented by analysis of issues and problems in the sociological analysis of modern economic structures. The course may include special foci ranging from the capitalist world system to the changing nature of the work place.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1114 - QUALITATIVE RESEARCH METHODS

Minimum Credits: 3
Maximum Credits: 3
Qualitative research methods (sociology 1114) provides an introduction to qualitative research methods. The course will focus on interviewing and participant observation, the two main "fieldwork" methods. Together, the class will select a topic and design a project that will allow students to practice these methods and gain practical experience in qualitative research and writing. Students will be taught how to engage in participant observation, conduct in-depth interviews, analyze data, and write qualitative research reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOC 1115 - GLOBAL CHANGE AND MODERN LIFE

Minimum Credits: 3
Maximum Credits: 3
This course is directed at discussion of the processes involved in the making of the modern world into a single sociocultural system. It combines matters usually discussed in courses on modernization, the comparative analysis of whole societies, international relations, and the relationship between individual and societies into a cohesive whole. More specifically it combines the analysis of relations "between" societies with the analysis of changes "within" societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1119 - GLOBAL PERSPS POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
In this course we will use sociological perspectives to examine the role of popular culture in everyday life, with special emphasis on the global influence of the mass media industry, the relationship between cultural consumption and culture identity, and the social significance of cultural globalization in the 21st century. Specific topics include the rise of Pokémon, franchising Sesame Street, localizing American and Japanese television drama, blurring boundaries between news and entertainment and other.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1160 - ORGNS: THEORY AND RESEARCH

Minimum Credits: 3
Maximum Credits: 3
The course aims at conveying social scientific theory as well as methods for describing organizations. Theoretically, readings and discussions will focus on concept ions of organizations as rational, natural and open systems, on structural features of organizations, on their embeddedness in an environment and on their links with the larger society. Methodologically, hypotheses about organizations will be tested through data analyses on micro-computers; these exercises will facilitate acquisition of principles of social research.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1219 - SOCIAL NETWORKS

Minimum Credits: 3
Maximum Credits: 3
Social network analysis is a rapidly growing specialty within the social sciences. It provides a convincing way to study social processes. It involves the study of social objects and the social relations among and between them. The objects can be ideas, individuals, groups, organizations, cities, states, societies, etc. The relationships are equally diverse. Fruitful tools include graph theory, topology, and matrix methods. Social network analysts believe, rightly or wrongly, that they can revolutionize social science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1231 - INTERORGANIZATIONAL NETWORKS

Minimum Credits: 3
Maximum Credits: 3
Our lives are dominated by organizations. From birth to death we move in and out of them. We take their existence for granted yet their survival is not guaranteed. This course is concerned with how organizations survive, and particularly how they deal with an increasingly turbulent environment. A key survival strategy is to form links with other organizations to get or protect resources -- which also threatens their autonomy. The dynamics of these networks of ties form the core of the course. Social network analysis and real data sets will be used.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1277 - PITTSBURGH AREA STUDY

Minimum Credits: 3
Maximum Credits: 3
This seminar affords participants the opportunity to devise, implement, analyze and write up an actual research project, drawing on data from the Pittsburgh area. The substantive topic varies from year to year; whatever the topical focus, considerable attention is paid to the practical aspects of conducting research.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1284 - HOW TO STUDY EVERYDAY LIFE

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the theory and practice of qualitative research. Readings and discussions will focus on the various stages of doing fieldwork: choosing a topic and defining questions, gaining entre, learning to observe and describe, participation, interviewing, collecting data, refining questions, coding, analysis and writing up the findings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1286 - RACE AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1317 - SOCIOLOGY OF LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1319 - IMMIGRATION IN EUROPE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1321 - APPROACHES TO ANTISEMITISM

Minimum Credits: 3
Maximum Credits: 3
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1324 - SOCL PROBLEMS & MORAL CRUSADES

Minimum Credits: 3
Maximum Credits: 3
Social problems and moral crusades (SOC 1324) examines how and why certain issues become recognized as "social problems" and sometimes become the subject of "moral crusades." Using a social constructionist approach, the course examines conflicts over how issues are defined and periods of intense media and public interest in particular problems. We will look at some new issues that are becoming recognized as social problems and we will analyze changes over time in long-standing conflicts, examining the origins of these conflicts, the reasons why they persist, and their likely outcomes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SOC 1325 - TWO CNTURIES DEMOCRATIZATION

Minimum Credits: 3
Maximum Credits: 3
Democratization has advanced in modern history in several great multicontinental bursts from the late eighteenth century to the present. This course will explore why certain historical eras are such moments of democratization and how the very conception of democracy has developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1333 - COMPARATV PERSPECTVS ON WOMEN

Minimum Credits: 3
Maximum Credits: 3
This course offers a cross-cultural perspective on the position of women in the world today. It focuses on cross-national comparisons, drawing on recent research on the lives and status of women in different regions of the world, and under different political and economic systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1342 - MASS SOCIETY IN JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course offers an advanced understanding of thought and behavior in contemporary Japan. We will focus our attention on Japanese social values, attitudes and thought patterns in modern life. We will study the fundamental values through the Japanese life course as they are interwoven in the culture, economy and society, and will use both conventional and unconventional material to achieve this goal. A cross-cultural approach will be taken to address the central question; why do the Japanese think and act as they do?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1351 - SEMINAR LATIN AMERCN SOCIETIES

Minimum Credits: 3
Maximum Credits: 3
An advanced study of some specific institutions that are considered fundamentals in the fabric of Latin American societies such as the church, the military and the family. The relationship between these institutions and the process of development is discussed. Recent changes in these institutions are examined.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1353 - COMPARATIVE COMMUNIST SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course will be a comparative study of communist systems. The analysis will focus on the Soviet Union and communist countries of central and eastern Europe.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1354 - JAPAN AND THE USA

Minimum Credits: 3
Maximum Credits: 3
The relationship between Japan and the U.S.A. is one of the most important and debated issues of our time. This course will trace the history of that relationship since its beginning in the mid-nineteenth century, with particular reference to the role of the U.S.A. in opening Japan to the wider world, the basis and impact of American immigration laws restricting Japanese migration to the U.S.A., the tensions of the 1930s leading to the Japanese attack on Pearl Harbor, the American dropping of atomic bombs on Japan in 1945 and other events.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1358 - CONTEMPORARY CHINESE SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the communist revolution of China as a case of radical social change, trying to identify critical facets of a drastic recasting of a society known for its long continuity and conservatism, and the processes by which this is being attempted.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1359 - CONTEMPORARY ARAB SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1360 - PEACE MOVEMENTS & PEACE EDCTN

Minimum Credits: 3
Maximum Credits: 3
This course focuses on two major components in the field of peace studies; peace movements and peace education. Key concepts (e.g. peace, war, violence, conflict, justice, equality, democracy, and citizenship) and theories are discussed. Movements for (inter-personal, inter-group, and international) peace initiated by people in the United States and other countries historically and today will be analyzed. School-, university-, and community-based peace education programs developed in various countries will also be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1362 - REVOLUTIONARY SOCIAL MOVEMENTS

Minimum Credits: 3
Maximum Credits: 3
A broad survey of social revolutionary movements of the past, such as those leading to the French and Russian revolutions, and their influence on various movements taking place in third world countries of today. Emphasis will be placed on movements presently underway in Latin America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1365 - RACE, GENDER AND DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This comparative course draws together a multidisciplinary set of readings to examine the intersection of race, gender and social and economic development in Latin America and the USA. Readings include theories of inequality and case studies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1366 - SOCIOLOGY OF ISLAM

Minimum Credits: 3
Maximum Credits: 3
The main purpose is to provide a sociological introduction to the Islamic tradition for those unfamiliar with it. First, we survey major themes in the sociology of religion. A consideration of the Islamic tradition follows. Throughout we raise questions about continuity and change in Islam.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1370 - GENDER AND HEALTH WORLDWIDE

Minimum Credits: 3
Maximum Credits: 3
Gender and health worldwide is a mixed-level Undergraduate course focused on gender disparities in health around the world. Through lectures, in-class exercises, films, and course projects, students will explore the threats to women's health in different parts of the world. The course also considers how gender inequalities more broadly affect women's health outcomes and how movements and policymakers seek to address gender gaps in health.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1382 - COMPARATIVE CIVILIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course is offered to students of the freshman and sophomore years to compare and contrast the characteristics of major clusters of civilizations that are either continuously active from the early days to the present time; being transmitted from one cluster to another along its history of development. These clusters are chosen due to specialties of faculty member who are jointly teaching the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1386 - FRENCH REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This course will consider various theories of the social sources of revolutions and evaluate them in the light of historical research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1413 - MARRIAGE

Minimum Credits: 3
Maximum Credits: 3
This course considers husband-wife relations and problems of sex, economic roles, leisure activity, and conflict resolution; family planning, childrearing, and family life and finances are examined; and finally the processes of growth or deterioration among couples are analyzed, including the possibilities of divorce and remarriage.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1414 - SPECIAL TOPICS

Minimum Credits: 1
Maximum Credits: 3
Current topics of particular sociological interest. Topics covered vary with instructor and term.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SOC 1420 - MIGRATION IN AMERICAN RELIGION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1435 - SOCIAL CHANGE IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
Students will study social change in the United States by analyzing U.S. census databases and other sociological data sources. The course will also teach a variety of research skills, including network information retrieval, database management techniques, statistical analysis, and computer graphics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1437 - COMMUNITY/TOURISM ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
An introductory course on application of sociological, eco logical, and sustainability principles to the analysis of communities engaged in tourism, in terms of their social, economic, political, ecological, and selected contemporary community problems, and an attempt to relate sociology to tourism development. In particular, we aim to comparatively assess a range of tourism development modalities - e.g. ecotourism, sport, cultural, classical, health/botanical tourism, etc. in view of quality of life indicators.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1438 - DEMOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course concentrates on the United States but compares its various population phenomena with other societies. Such topics as changes in population, characteristics and their distribution, fertility, mortality and migration will be examined as will the relationships between population variables and changes in the quality of life in the United States. Policy implications of various demographic changes will be highlighted throughout the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1443 - JUVENILE DELINQUENCY

Minimum Credits: 3
Maximum Credits: 3
Course provides an overview to the field of juvenile delinquency. Topics covered include theories and research on causes of juvenile delinquency; law enforcement practices encountered in an attempt to control delinquency; juvenile treatment under law; correctional philosophy and practices in juvenile justice; and impacts of juvenile criminality upon the rest of society. Students emerge from the course with knowledge of causes, prevention, treatment, and control of juvenile delinquency and should be prepared to move into more detailed study of this subject.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1445 - SOCIETY AND ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
The state of the environment reaches the pages of our newspapers every day. How did we get to this state? Throughout history, human societies have made use of the environment as all human activity is dependent on through puts of energy and materials. The course will seek to understand the social, economic, and political processes as they lead to impacts on the environment. Far from being 'out there', the state of the environment is integrally related to the ways societies work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1447 - SCI & TECHNLGY IN US-JAPN-EURP

Minimum Credits: 3
Maximum Credits: 3
A sociological understanding of science and technology is pursued by studying the social conditions and institutions of science and technology, the social structures and processes of cultivation of the traditions of knowledge, and the effects of knowledge upon social life. Focus is on how traditions became established in Europe and then spread, how the traditions are supported unequally around the world, how research is organized and how this affects the dissemination and utilization of knowledge. Science and technology are viewed as global endeavors with centers in the USA and Europe.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

SOC 1448 - WORKING WOMEN

Minimum Credits: 3
Maximum Credits: 3
This course studies traditional patterns of women employment, recent gains and changes, and prospects for the future. One aim of the course is for students to gain an understanding of their own work experiences and career plans, as well as those of various groups of women, in relation to broad social and economic changes that are reshaping work in industrial societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1449 - WESTERN MASCULINITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1450 - HEALTH AND ILLNESS
Minimum Credits: 3
Maximum Credits: 3
This upper-level course examines selected issues of health, illness and medical care. It examines the ways in which medicine and public health have displaced both religion and the law as the dominant forms of social control in the late 20th century and the social transformation of the medical profession over the past fifty years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1456 - SEPARATION, DIVORCE & CUSTODY
Minimum Credits: 3
Maximum Credits: 3
A structural analysis of the causes and consequences of divorce. The process of divorce in its various psychological, legal, economic and social components is examined. The impact of divorce on the spouses, children and relatives is discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1464 - KNOWLEDGE AND SOCIETY
Minimum Credits: 3
Maximum Credits: 3
This course examines the theoretical and empirical approaches to the study of knowledge creation, distribution and use developed in the social sciences. The historical antecedents to current work will be examined, but emphasis will be laid on recent efforts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1467 - TOPICS MENTAL HEALTH & ILLNESS
Minimum Credits: 3
Maximum Credits: 3
This course challenges some basic assumptions, practices and categories used in the mental health field and widely accepted in contemporary American culture. It introduces the student to the constructionist perspective on deviance and explores its implications for understanding and studying mental health/illness. It also focuses on the relationships between the professional domains of psychotherapy, medicine, religion and the law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1470 - RESEARCH ON AGING
Minimum Credits: 3
Maximum Credits: 3
This is an advanced course dealing with substantive issues and empirical methods in recent and contemporary research on aging.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1476 - URBAN POLICY AND PLANNING
Minimum Credits: 3
Maximum Credits: 3
This course will provide a brief review of migration and urban growth during the last several decades. The process or urban policy formulation and implementation will be studied. An attempt will be made throughout the course to show the relationships between economic and social conditions and the way they define the parameters of urban policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1486 - WAR & MILITRY IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
A lecture-discussion course on the roles military systems play in international & national affairs, as well as in the social and economic life of the U.S. The effects that wars and military service have on the individual, the family, the economy, and politics are also addressed. This is not a course on battles, tactics, logistics, strategy, and command. It is concerned with recruitment & social origins of military personnel; training and value inculcation; combat behavior and morale; war crimes and the laws of war; civil military relations; veterans; & inter-service rivalry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1488 - HISTORY MEDICINE & HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3
Provides an overview of the social history of medicine from prehistory to the present. Focuses on the emergence of medical institutions, education, theories, practices and the orthodox and irregular medical sects. Describes the growth of the separate disciplines of nursing, pharmacy and public health. Examines the impact of socioeconomic factors, religions and war on the evolution of medical science. Discusses the changing roles of government in the development of the American health care system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1489 - COMPARATIVE MILITARY SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course deals comparatively with the nature of military systems and their relationships with the societies they serve (or dominate). Topics include: early mankind's record of warfare, the social origins of military personnel, their training, inter- and intra-service rivalries, mutinies, war crimes, civil-military relations, and coups d'état.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1500 - CAPSTONE RESEARCH PRACTICUM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SOC 0150 and SOC 0230

SOC 1505 - EXMNG UNIVS & COLLEGE LIFE

Minimum Credits: 3
Maximum Credits: 3
In this class, we take a step away from simply being in college to examine universities and college life from a sociological perspective. We will concentrate on aspects of college that we see every day and that are hidden from view but are worth a closer look. This course assumes substantial knowledge of sociology and sociological methods. We will use that knowledge to interrogate problems in the college system. Most readings will be research articles, with some essays and opinion pieces. You will demonstrate understand of course material through essay exams.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1515 - ST STUDY ABROAD

Minimum Credits: 3
Maximum Credits: 3
Current topics of particular sociological interest, topics will be covered from various universities through the study abroad program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1771 - KINSHIP AND THE FAMILY

Minimum Credits: 3
Maximum Credits: 3
In this course Western and nonwestern forms of kinship, family, and marriage will be discussed and analyzed. Special attention will be given to the history of European marriage, to family organization and industrialization, and to women's relation to kinship and family order. The differences in European and non-European reactions to industrialization will be compared in some detail. Europe, China, India, and Japan will receive special attention.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1799 - HIMALAYAN POLITICAL ECOLOGY
Minimum Credits: 3
Maximum Credits: 3
The Himalayan region is characterized by dramatic climatic and geological variation, a tremendous range of biodiversity and a complex ecology. Within the region there is also profound cultural variation. This course seeks to provide a critical perspective on the ecology and environment of the Himalayas by examining how different groups at the village, state, national and international level are implicated in the political ecology of the mountains. We will look at the way in which village farming communities use natural resources, what kind of pressure is put on resources as a result of development and population growth, how the mountain environment shapes the politics and resource distribution at the level of the state and, finally, how environmental and energy issues shape national policy and international relations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SOC 1900 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 6
A sub-category of independent study, in which the student is in some sense employed (usually as a volunteer but sometimes for pay) in a non-academic position, typically under the direct supervision of someone other than an F.A.S. faculty member, in which the experience gained by the student is directly related to an academic discipline, and which the student's learning is evaluated and graded by a faculty member.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

SOC 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
The student undertakes, under specific conditions, an independent program of study, research, or creative activity usually off-campus and with less immediate and frequent guidance from the sponsoring faculty member than is typically provided in directed reading and directed research courses.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

SOC 1902 - DIRECTED READING
Minimum Credits: 1
Maximum Credits: 6
The student undertakes a specified course of study, comparable in character to a regular course, under the direct supervision of a faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SOC 1903 - DIRECTED RESEARCH
Minimum Credits: 1
Maximum Credits: 6
The student undertakes a defined task of research on campus under the supervision of a faculty member of an appropriate department, and in which the fruits of the research are embodied in a thesis, extended paper, laboratory report, or other appropriate form.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Statistics

STAT 0200 - BASIC APPLIED STATISTICS
Minimum Credits: 4
Maximum Credits: 4
This course teaches methods of descriptive and inferential statistics. Topics include data collection and description, hypothesis testing, correlation and regression the analysis of variance, and contingency tables. Students will learn how to use a statistical computer package.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 0800 - STATISTICS IN THE MODERN WORLD
Minimum Credits: 3
Maximum Credits: 3

The course introduces statistical reasoning to a diverse audience. The main goal is the understanding of some basic statistical principles so that the student can understand research reports involving statistics and applications of statistics reported in the media. Statistical reasoning will be taught through the use of examples. An important part of the course will be a nontechnical discussion of controlled and randomized experiments. The subject matter will emphasize examples from the health and social sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1000 - APPLIED STATISTICAL METHODS

Minimum Credits: 4
Maximum Credits: 4
This course is an intensive introduction to statistical methods. It is designed for students who want to do data analysis and to study further ideas in applied statistics beyond this course. The topics covered include descriptive statistics, elementary probability, random sampling, controlled experiments, hypothesis testing, regression and the analysis of variance. Emphasis will be placed on the statistical reasoning underlying the methods. Students will also become proficient at the use of a statistical software package.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1100 - STAT & PROBLTY FOR BUS MGT

Minimum Credits: 4
Maximum Credits: 4
This is a one-term introduction to statistics and probability. Both modeling and data analysis will be emphasized. Various probability models for discrete and continuous variables will be analyzed. Inferential, descriptive and data analysis techniques will be covered with examples from management. A statistical package will be introduced and used to conduct data analyses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0120 or MATH 0126 or MATH 0220

STAT 1151 - INTRODUCTION TO PROBABILITY

Minimum Credits: 3
Maximum Credits: 3
This course presents at both a theoretical and applied level the basic probability concepts required for statistical inference. Topics include set theory and basic probability, independence and Bayes' theorem, discrete random variables and their distributions--Bernoulli, Binomial, Poisson, and geometric, continuous random variables and their distributions--uniform, exponential, gamma, beta, and normal, transformation of random variables, moment and moment generating functions, multivariate discrete distribution, marginal and conditional distribution and independent variables.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0230 or MATH 0235 or MATH 0240 or MATH 0245

STAT 1152 - INTRO TO MATHEMATCL STATISTICS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the elementary concepts of statistical inference. Topics include functions of random variable, sampling distributions, decision criterion, estimation, hypothesis testing, regression, analysis of variance, and non-parametric methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1151

STAT 1201 - APPLD NONPARAMETRIC STATISTICS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course will be to prepare students to use standard nonparametric tests for problems that frequently occur in applications. The Wilcoxon, Fisher (sign), Ansari-Bradley, Miller (jackknife), Kruskal-Wallis, Kendall, and Kolmogorov-Smirnov tests will be discussed. Minitab subroutines will be used to facilitate computation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: STAT 0200 B-

STAT 1211 - APPLD CATEGORICAL DATA ANLYSIS

Minimum Credits: 3
Maximum Credits: 3

The purpose of this course is to provide contingency table techniques for research workers in the social sciences, medical sciences and other areas where it is necessary to investigate relationships between areas where it is necessary to investigate relationships between qualitative variables. The course deals with the chi-square test and standard 2x2 and RXC contingency tables, as well as log linear and other special types of contingency tables analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: STAT 0200 B-

STAT 1221 - APPLIED REGRESSION

Minimum Credits: 3
Maximum Credits: 3
This course covers simple linear regression (one variable) and one way analysis of variance followed by more complicated regression models. More complex ANOVA models are treated if time permits. Some computer applications will usually be considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: B-

STAT 1223 - APPLD REGRESSN WRIT COMPONENT

Minimum Credits: 1
Maximum Credits: 1
This course satisfies the writing course requirement for statistics majors and must be taken in conjunction with STAT 1221 applied regression.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; CREQ: STAT 1221; MIN GRADE: STAT 0200 B-

STAT 1231 - APPLIED EXPERIMENTAL DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course teaches students to design valid statistical experiments and to analyze them. Among the designs considered are completely randomized designs, randomized block designs, Latin lemmas, factorial designs, and complete block designs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: STAT 0200 B-

STAT 1241 - APPLIED SAMPLING

Minimum Credits: 3
Maximum Credits: 3
This course considers basic applied principles and approaches for conducting a sample survey. The following will be discussed: how to design a survey, how to analyze a survey with attention paid to different types of survey techniques and corresponding statistical methods. The course will provide survey skills for the social sciences, psychology, economics, marketing and management, and health sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: STAT 0200 B-

STAT 1251 - STATISTICAL QUALITY CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course is involved with statistical methods for quality and process control. It is intended for all students who will use statistics in an industrial setting. Introductory topics include probability models and statistical estimation for quality. The main focus will be on control charts and tolerances. Acceptance sampling will also be discussed. A final but quite important topic will be Taguchi methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 0200 or STAT 1000 or STAT 1100 or STAT 1152; MIN GRADE: STAT 0200 B-

STAT 1291 - TOPICS APPLIED STAT 1

Minimum Credits: 3
Maximum Credits: 3
Various topics concerning the applications of statistics will be taught on an irregular basis depending on faculty interests and students' needs. Example of possible topics include resampling techniques in statistics; statistical graphics; cluster analysis; and classification methods.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1301 - STATISTICAL PACKAGES

Minimum Credits: 3
Maximum Credits: 3
This course will cover a variety of topics concerning computing and statistics. Basic statistical analysis packages such as BMPD, SPSS, Minitab, and IMSL will be discussed and compared. Other computational issues that will be discussed include simulation, graphics, elementary database management, and certain stand-alone statistical programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221

STAT 1311 - APPLIED MULTIVARIATE ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
We start with the basic concepts of regression and correlation. After developing the necessary linear algebra, we will study the multivariate normal and then go on to do one or more of the following: cluster analysis, discriminant analysis, directional data, and factor analysis. We will make use of the Minitab and BMDP computer packages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221

STAT 1321 - APPLIED TIME SERIES

Minimum Credits: 3
Maximum Credits: 3
The objective of the course is to present at the elementary level, a unified and reasonably complete exposition of statistical methods used in time series analysis. Serious consideration is given to both time and frequency domain approaches. Real data from a number of subject fields will be analyzed as they occur in the exposition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221

STAT 1631 - INTERMEDIATE PROBABILITY

Minimum Credits: 3
Maximum Credits: 3
This course is the first half of a two term sequence in mathematical statistics intended for undergraduate students and graduate applied statistics majors. Topics to be covered include probability concepts, random variable, discrete and continuous variables, joint distributions, functions of random variables, and some sampling distributions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1151 and MATH 0240

STAT 1632 - INTERMEDIATE MATHEMATICAL STAT

Minimum Credits: 3
Maximum Credits: 3
This course is the second half of a two term course. Topics to be covered include estimation, inference, linear models, and an introduction to Bayesian estimation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1631 and MATH 0240

STAT 1651 - BAYESIAN STATISTICS

Minimum Credits: 3
Maximum Credits: 3
This is an introduction to theory and methodology of optimal statistical decision and Bayesian statistical inference.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1661 - LINEAR REGRESSION

Minimum Credits: 3
Maximum Credits: 3
The topics to be covered include: fitting a straight line, examination of residuals, two independent variables, polynomial models, selection procedures, and model building.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221 and (STAT 1152 or STAT 1632)

STAT 1662 - NONLINEAR REGRESSION
Minimum Credits: 3
Maximum Credits: 3
This is a continuation of Regression and Linear Model Theory 1. Topics covered include fitting a straight line, examination of residuals, two independent variables, polynomial models, selection procedures, and model building.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1221 and (STAT 1152 or STAT 1632)

STAT 1731 - STOCHASTIC PROCESSES
Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to stochastic processes and its applications. The major topics are Markov chains, Poisson processes, Brownian motion, and branching processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1151 or STAT 1631

STAT 1741 - APPLIED PROBABILITY THEORY
Minimum Credits: 3
Maximum Credits: 3
The course will begin with an introduction to conditional probability. Topics to be covered include the Poisson process, queueing processes, renewal processes, and reliability theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: STAT 1151 or STAT 1631

STAT 1791 - TOPICS PROBABILITY & STAT 2
Minimum Credits: 3
Maximum Credits: 3
Various topics concerning the theory of probability and statistics will be taught depending on faculty interests.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

STAT 1900 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 3
Under faculty supervision the student participates in a statistics project.
Academic Career: UGRD
Course Component: Internship
Grade Component: H/S/U Basis

STAT 1902 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 9
With approval from an instructor, the student will participate in a program of directed study in statistics or probability.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Strategic Planning & Policy

BUSSPP 0020 - MANAGING IN COMPLX ENVIRONMNTS

Minimum Credits: 3
Maximum Credits: 3
Introduces the challenge of managing in complex environments a team-based emphasis promotes student awareness of real-world business issues. Students acquire practical skills as well as fundamental knowledge and abilities. Emphasizes a strategic inquiry of the driving forces of competitive markets, the importance of history, the complexity of resource allocation under uncertainty, and the need to develop firm specific capabilities that are flexible and responsive to changing situations. Considers construction of criteria for firm success that reflect legal, economic, etc. demands.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSPP 0021 - MCE HONORS +1

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSSPP 0035 - MCE+3 INT'L FLD PROJ-CZECH REP

Minimum Credits: 3
Maximum Credits: 3
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in the Czech Republic under the guidance of a faculty member.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: Restricted for College of Business Administration

BUSSPP 0036 - MCE+3 INT'L FIELD PROJ-GERMANY

Minimum Credits: 3
Maximum Credits: 3
Provides students with the opportunity to apply concepts and tools acquired in BUSSPP 0020 managing in complex environments and new concepts and tools to the study of firms in a non-U.S. environment. Students work in teams with engineering students on research projects that are linked to specific firms and industries. Business environment and practices abroad are compared to those in the U.S. The trip abroad includes company visits, lectures, and cultural excursions during a two-week study period in Germany under the guidance of a faculty member.
Academic Career: UGRD

BUSSPP 1080 - STRATEGIC MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Focuses on corporate and divisional policy formulation and implementation. Knowledge and techniques learned in earlier courses will be applied in an integrated fashion to the process of strategic decision-making and organizational change. Among topics considered in the course will be relationships of organizations to their environments, hierarchy of organizational objectives, structured as well as informal approaches to strategic planning, integration of business functions, organizational structure, and policy implementation and evaluation. Notable devotion to firms competitive dynamics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; LVL: Jr, Sr

BUSSPP 1740 - GLBL STRATEGY & COMPV ADVNTG

Minimum Credits: 3
Maximum Credits: 3
This course explores the opportunities and challenges of global business in the 21st century. The discussions and exercises are designed to reveal the nuanced nature of competing globally, emphasizing both the increasing openness of borders and the continuing differences between countries. The course will employ case study analysis and discussion, along with a set of readings that are drawn from both academic and practitioner sources. An individual research project that involves identifying and researching a global business topic of interest to you will be a key part of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSSPP 1080 (MIN GRAD 'C'); PLAN: Global Management (BSBA)

BUSSPP 1745 - PROJECTS IN GLOBAL MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
The student will work with a real-world client and problem. Each project is different, and will provide the opportunity for a team of students to apply various conceptual and analytic skills taught in the major and in CBA, and to report to the client the results of these analyses. Each project will have the common element of a global or cross border dimension. The client will provide a problem it deems important and a manager to work with the student team. Each team will have a faculty advisor. Most students will take this course in one of their final two terms of study.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Global Management (BSBA); LVL: Sr

BUSSPP 1750 - COMMERCIALIZING NEW TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course covers theory, conceptual frameworks, and tools used to formulate strategies for commercializing new technologies. The analytical frameworks cover elements of commercialization strategy that are equally critical to start-ups and to corporate technology ventures. In addition, we discuss some of the key challenges that differ for start-ups versus established firms. The primary deliverable in the course is a professional quality project which evaluates the commercialization alternatives for an emerging technology. Your project team will be paired with a local inventor, unless you prefer to evaluate a technology of special interest to your team. Experienced entrepreneurs and expects in financing new technology ventures will also address the class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSSPP 1755 - BOARD GOVERNANCE & MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course utilizes the study of boards of directors in contemporary profit and non-profit organizations, in conjunction with students' experiences in leadership roles. Topics include the foundation of boards (selection of board members, board structure, info management, communication, relations with senior management) and the function of boards (board evaluation, planning, management control, value creation and stakeholder relations). In addition to various types of readings and weekly assignments, the course will include case studies and a group project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin

BUSSPP 1790 - GLOBAL MGMT INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The strategic management internship provides business credit for project assignments that augment a professional strategic management work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUSSPP 1795 - GLOBAL MGMT INDP STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of strategic management issues or problems to which they have been introduced in other strategic management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

Studio Arts

SA 0110 - VISUAL THINKING
Minimum Credits: 3
Maximum Credits: 3
This introductory course is a comprehensive survey of the fundamental principles of visual organization. The assignments are directed for learning to see, and to think and to express visually. The class projects involve uses of art materials with which to articulate line, shape, texture, color, and other design components. The intent is to broaden understanding of visual relationships in art and in the sources of art and design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0120 - PAINTING STUDIO 1
Minimum Credits: 3
Maximum Credits: 3
Foundation painting is an introductory course in the principle practices of painting. The course develops compositional and color awareness and basic painting techniques. This course will explore the formal and expressive aspects of painting.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0130 - DRAWING STUDIO 1
Minimum Credits: 3
Maximum Credits: 3
Foundation drawing is an introductory course that instructs students in traditional drawing approaches and visual analysis through the act of drawing. Principles of perspective, composition, and methods of modeling form are explored for the development of individual skills and perception.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0140 - SCULPTURE STUDIO 1
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the basic formal elements and expressing content of sculpture. This course provides experience in the observation and analysis of natural form, and provides a method for abstraction. Foundation sculpture provides the opportunity to gain experience with diverse sculpture materials and techniques, and to establish a foundation for individual artistic growth and development with a 3-D form.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 0180 - DIGITAL STUDIO: PHOTOGRAPHY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SA 1220 - PAINTING STUDIO 2
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0120 and SA 0130

SA 1230 - DRAWING STUDIO 2
Minimum Credits: 3
Maximum Credits: 3
Drawing 1230 is the intermediate level as a continuation of Foundation Drawing SA 0130. It is a comprehensive investigation of the figure as well as further development of person al involvement in drawing as an art form. Course work includes detailed anatomical studies to more complex and interpretive figurative and non-figurative compositions. Monochromatic and chromatic media are explored as approaches to the drawing discipline.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0130

SA 1240 - SCULPTURE STUDIO 2

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate sculpture course which refines skills while challenging students to interpret assignments independently. The purpose of this course is to strengthen students' commitment to individual growth and personal discovery and to deepen their awareness of the relationships between process, material, and content in sculpture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0140

SA 1260 - PRINT STUDIO: INTAGLIO

Minimum Credits: 3
Maximum Credits: 3
Intaglio printmaking is an introductory print course. Basic intaglio printmaking techniques are explored through the use of dry point, copper plate line etching, and aquatint. Advanced techniques are explored toward the end of the semester. The course is designed to explore "safe etching" techniques by avoiding or limiting the use of hazardous chemicals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0130

SA 1270 - DIGITAL STUDIO: IMAGING

Minimum Credits: 3
Maximum Credits: 3
This course is a studio designed to immerse students in the creation and investigation of digital images. Emphasis will be on the history and aesthetics of lens-based (photographic) processes as they relate to art and digital technology. Throughout the course, students will gain and/or hone technical skill, but the emphasis will be on the use of the camera and computer within an art context. Thoughtfulness, experimentation and curiosity are emphasized and encouraged.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0130

SA 1320 - PAINTING STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1220

SA 1330 - DRAWING STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Drawing 1330 is the third level drawing class for studio arts majors. The emphasis is on individual student drawing-based projects. The first half of the semester includes three projects driven by open-ended prompts. During the second half of the semester students develop an ambitious body of work that involves drawing as a broadly defined discipline. Student work may take many forms which might include, but are not limited to: drawings on paper; installation or drawing in space; mapping; digitally produced drawing; comics or other narrative series; or time-based works such as artist books.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1230

SA 1340 - SCULPTURE STUDIO: PROJECTS

Minimum Credits: 3
Maximum Credits: 3
Environmental art is grounded in interrelationships. These connections include not only physical and biological pathways but also cultural, political and historical aspects of any ecological system. This course focuses on the creation of metaphoric and functional artworks that reveal ecological consideration; these artistic gestures serve to enact change and as connection for the community.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1240

SA 1345 - SCULPTURE STUDIO: INSTALLATION

Minimum Credits: 3
Maximum Credits: 3
This is an advanced sculpture course examining site specific and installation works as strategies in contemporary art. Continually challenged by newly revised and emerging roles in the art world and society at large, the purpose of this studio course is to provide a forum for the discussion and exploration of issues playing a role in the contemporary critical debate.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 1240

SA 1360 - PRINTMAKING - LITHOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
Traditional stone lithography is introduced through studio experience. Stone preparation, drawing, chemical processing, and finally hand ink rolling and printing from the stone are covered by lecture and demonstration. Basic black and white prints are created by students using several lithographic processes. Printing skills are developed as a part of the mastery of lithography through the editing of several required prints. Print history, criticism, and aesthetics are included as part of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Studio Arts (BA, BPH)

SA 1365 - PRINT STUDIO: SCREENPRINT

Minimum Credits: 3
Maximum Credits: 3
Students are introduced to a variety of screen-printing techniques and explore the process and possibility of the medium as it pertains to fine art. Students learn the use of basic equipment, printing approaches, papers, a variety of stenciling processes, and photographic and computer techniques to create marks, values, and textures. Students will also learn to make a consistent edition of prints.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0120 and SA 0130

SA 1370 - PREP & PRACT IN THE VISL ARTS

Minimum Credits: 3
Maximum Credits: 3
This is an upper level course conducted in a seminar format that will inspect the wide range of career options in, and related to, the visual arts. Will assist students in preparation for professional possibilities, and will offer survival skills for maintaining their visual arts practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0120 and SA 0130 and SA 0140; PLAN: Studio Arts (BA)

SA 1380 - DIGITAL STUDIO: VIDEO

Minimum Credits: 3
Maximum Credits: 3
This is an advanced studio designed for students to intensely experiment and explore the moving digital image in an art context. Students will explore the concepts and skills involved in working with digital video, from pre to post-production. Each student will propose and undertake a final, self-designed project during the final four weeks of the term. Major effort, time, research, imagination, productivity, and involvement are expected throughout the term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0180

SA 1385 - DIGITAL STUDIO: ANIMATION

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course designed for students to intensely experiment and explore the moving digital image in an art context. Students will explore the concepts and skills involved in working with digital animation - from pre to post-production. Each student will propose and undertake a final, self-designed project during the final four weeks of the term. Major effort, time, imagination, productivity, and involvement are expected throughout the term.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: SA 1270; PLAN: Studio Arts (BA)

SA 1420 - COLOR

Minimum Credits: 3
Maximum Credits: 3
This course examines color theory and perception. Various formal color systems and theories are explored. A primary objective is to clarify the relationship between perception, color as light, and color as material, such as paints. Color harmonies, light and shadow, color-form relationships, and investigation of color in human environments and as found in nature are some of the topics involved in the class projects. This course provides an opportunity to explore color interaction in a variety of media and situations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110; PLAN: Studio Arts (BA)

SA 1430 - DRAWING STUDIO: PERSPECTIVE

Minimum Credits: 3
Maximum Credits: 3
Perspective drawing is an intensive investigation into various perspectival systems which provide the framework for creating the illusion of depth on a two dimensional surface. Finished course assignments are compiled in a bound workbook which can be used as a self-made perspective reference book.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0130 and (SA 0110 or HAA 1913); PLAN: Studio Arts (BA) or Architectural Studies (BA)

SA 1440 - SCULPTURE - FIGURE & PORTRAIT

Minimum Credits: 3
Maximum Credits: 3
This course specializes in the study of the human form and the application of that study in portraiture. Close analysis of skeletal and muscle structure provides a basis for development of a life-size portrait modeled in clay. Modeling techniques are stressed. Interpretation of the subject is encouraged with the expectation of achieving likeness. This course also provides experience in plaster mold making and plaster casting procedures which are employed in the reproduction of the clay original.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0140; PLAN: Studio Arts (BA)

SA 1445 - SCULPTURE - METAL

Minimum Credits: 3
Maximum Credits: 3
Metal sculpture is a specialized exploration of metal fabrication techniques used in the construction of sculpture. This course provides instruction in gas and arc welding, brazing and torch cutting. Students are required to construct sculptures that incorporate elements composed of line, shape and closed forms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SA 1450 - PAINTING STUDIO: FIGURE

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to develop skills in the representation of the human form and understanding of its creative use in painting. A variety of painting media may be used in extensive observation and analysis of live models.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: SA 0120 and SA 0130

SA 1455 - PAINTING - LANDSCAPE

Minimum Credits: 3
Maximum Credits: 3
For students with previous painting experience, the course provides instruction in working from nature in various settings. The work focuses on selection of locations or subject, composition and techniques, representation and expression.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: SA 0110 and SA 0120 and SA 0130

SA 1470 - GRAPHIC DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course involves the analysis and solution of graphic design problems through principles of layout and design. Emphasis is placed on the understanding and application of topography (letter forms), symbology, illustration, and various graphic reproduction procedures related to graphic communication of ideas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Studio Arts (BA, BPH)

SA 1504 - DIRECTED STUDY: STUDIO

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in studio courses.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

SA 1515 - THE BOOK AS ART: TEXT & IMAGE

Minimum Credits: 3
Maximum Credits: 3
Over the course of the semester through guided exercises, collaboratively and individually, students will create content for, design, and produce an editioned artist's book.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any 100-level SA course; PLAN: Studio Arts (BA or MN)

SA 1530 - DIRECTED STUDY-DRAWING

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in drawing.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

SA 1540 - DIRECTED STUDY-SCULPTURE

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in sculpture.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

SA 1550 - DIRECTED STUDY-PAINTING

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in painting.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

SA 1560 - DIRECTED STUDY-PRINTMAKING

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in printmaking.
Academic Career: UGRD

Course Component: Directed Studies
Grade Component: Letter Grade

SA 1570 - DIRECTED STUDY-DIGITAL

Minimum Credits: 3
Maximum Credits: 3
Directed study is a course for art majors to promote concentrated individual development in students who have demonstrated exceptional ability in electronic media.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

SA 1800 - SPECIAL TOPICS IN STUDIO ARTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

SA 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
An internship is an elective which provides the opportunity for a studio arts major to obtain practical experience through on-the-job training in an art-related field. The candidate makes such arrangements for an internship under the supervision of a faculty sponsor.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

SA 1902 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SA 1904 - UGRD TEACHING ASSISTANTSHIP

Minimum Credits: 1
Maximum Credits: 3
This course partners advanced studio arts majors with a faculty member as a teaching assistant in a current departmental course. The partnership is intended to offer further experience to dedicated students exploring a particular media with mentorship in studio management and an introduction to teaching, will enhance the course by offering enrolled students additional support and access for skill development and questions throughout the term, and will offer faculty valuable studio management and assistance in working with students.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

Summer Session

SUMS 0015 - WRITNG FOR THE WRLD: ESL INTEN

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer institute for high school students. The course is intended for non-native English speaking students and is designed to assist them as they prepare for post-secondary educational experiences that require English language proficiency. The course emphasizes practice in speaking, reading and writing and supports student participation in their other summer institute activities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0020 - CRYPTOGRAPHY AND OTHER PUZZLES

Minimum Credits: 0
Maximum Credits: 0
This team-taught seminar focuses on the practical examination of and experimentation with a range of computational practices involving the algorithm. Students will learn the mathematics of cryptography, examining these procedures in relation to public key encryption algorithms. Students will explore the scientific foundations of computer science by constructing a series of logical circuits, working with a hexadecimal simulator and experimenting with finite state machines and a turning machine simulator. The emphasis of this seminar is on hands-on learning.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0021 - FNDTNS COMPUTR PROGRAMMING

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer college for high school students. The course introduces students to basic programming principles, concepts and problem-solving strategies applicable to all programming languages. The course will use the environments of Karel the Robet and Mathematica. Students will acquire familiarity with control structures, data types, and recursion. The course will prepare students for college level courses in C++ or java.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0030 - INFECTION AND IMMUNITY

Minimum Credits: 0
Maximum Credits: 0
This seminar serves students with interests in microbiology, biology and chemistry. Students will acquire a beginning understanding of the immune system through readings, laboratory experiences, computer, modeling class discussion, field trips and a course-long research project using these practical and textual experiences. Students will, in addition, examine the ethical implications of scientific study. The seminar includes field trips to university research laboratories and considerable work in the computer and biology laboratories.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0031 - UNDERSTANDING DNA

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer college for high school students. The course examines the biology of DNA and introduces the laboratory techniques used in its study. Specific labs include isolation of DNA from bacteria and the introduction of foreign genes into bacteria. These technical experiences will serve as the foundation for classroom discussion, visiting lectures, field trips and a term-long project.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0040 - THE ART OF PLACE

Minimum Credits: 0
Maximum Credits: 0
This seminar explores the concept of place by examining our urban and natural landscapes and the shaping of these into public and private places. The work of the seminar includes short readings on place from psychology, history, political ecology, fine arts, literature, and architecture. Working within the tradition of the artist's sketchbook, students will investigate place through writing, drawing, photomontage and bookbinding. This seminar includes numerous field experiences and its emphasis is on hands-on learning.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0041 - INTRO TO VIDEO PRODUCTION

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer college for high school students and is offered in conjunction with the Pittsburgh filmmakers. The course provides a comprehensive overview of video production including: VHS field recording, editing on tape or a computer, and an introduction to digital video recording. Creative uses of the medium will be stressed. Students will view videos, participate in several group exercises, and develop and execute a video project.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0042 - CREATN OF PEOPLE PLACE & PERSP

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer college for high school students. The course investigates the relationship between a range of artistic efforts and artifacts and the historical events that surround their production. Three historical periods will be examined: the Victorian period, World War I and postmodernism. Students will work inside and outside of the classroom compiling materials to serve as the foundation for their term hyper studio projects.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0043 - YOUTH IN AMERC: CLTL CREATIONS

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the summer institute for high school students. The course examines how young people have served as an important way for American culture to define itself in light of national crises such as the depression and Vietnam. Students will read short novels and story collections and will also examine other representations of youth, both contemporary and historical. Field trips will provide additional material for discussion. The course includes a term-long research project.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0060 - HEALTH SCIENCES NEW MILLENNIUM

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the international college experience program, summer institute for high school students. The course examines the impact of cultural and political systems on the methods and orientations of medicine, nursing, pharmacy, health and rehabilitation, dentistry, and public health. Coursework explores the clinical foundations of each field and provides students with the skills to assess health care issues from a multicultural, international perspective.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0061 - CONCEPTS IN ECONOMICS

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the international college program, summer institute for high school students. The course acquaints students with the skills and orientations central to understanding our contemporary international economy. Areas of focus include basic economic concepts illustrated through case studies. Special emphasis is given to the impact of cultural and political systems on national economic policies and other economic applications.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

SUMS 0500 - INTRO INTERNATIONAL ENGINRING

Minimum Credits: 0
Maximum Credits: 0
The seminar is open only to enrollees in the international college experience program, summer institute for high school students. The course examines the impact of cultural and political systems on the development and application of engineering technologies. With special emphasis given to a term project involving development of an engineering solution to a design problem, the course provides students with the analytic skills for participating in technological endeavors in any country.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

Supply Chain Management

BUSSCM 1720 - OPERATIONS MANAGEMENT INTSHP

Minimum Credits: 3
Maximum Credits: 3
The operations management internship provides business credits for project assignments that augment a professional business environment work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

BUSSCM 1725 - SUPPLY NETWRK MFG CULT LAT AM

Minimum Credits: 3
Maximum Credits: 3
The course provides students with the fundamentals of international supply chain methods with a special focus on Latin America and Uruguay. It will feature a 2-week study visit to Uruguay where students can place their understanding of those concepts within a cultural context. The course involves significant teamwork and allows students to complete an in-depth analysis of the global supply networks and manufacturing culture in Latin America with Uruguay as a reference point.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS

Minimum Credits: 3
Maximum Credits: 3
Supply chain management explores the management of the flow of materials, information, and funds through the network of suppliers, manufacturers, distributors, retailers, and customers. Using the methodologies of optimization and simulation, where applicable, this course covers topics in distribution network design, inventory management, procurement and outsourcing, revenue management, and channel coordination. For marketing majors, this course counts as a marketing elective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE 'C') and STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

BUSSCM 1735 - ENGR & BUS COLLBRTN IN INDIA

Minimum Credits: 3
Maximum Credits: 3
The course focuses on the study of modern engineering and business principles, methods, and tools, within the context of the Indian environment. The three areas of study are: manufacturing systems, service engineering operations, and call centers. Site visits showcase challenges and opportunities available at the corporate and individual levels in this rapidly growing economy. Societal impacts of new technologies and rapid expansion of engineering industries in India are noted. Students may utilize this forum to analyze and visualize service meeting challenges and opportunities around the world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1735IS - ENGR & BUS COLLBRTN INDIA - IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

BUSSCM 1735OS - ENGR & BUS COLLBRTN INDIA - OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

BUSSCM 1740 - PURCHASING & SUPPLY MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Purchasing and supply management play an essential role in the ability of the firm to operate efficiently and be competitive in the contemporary global business environment. Included in these processes are activities involved in identifying potential suppliers, creating relationships with selected suppliers, obtaining the needed materials in the most efficient quantities at the highest quality levels, and developing strategies designed to ensure an uninterrupted flow of goods and materials. Purchasing is increasingly a strategic activity which impacts all areas of the firm, including product design, information system design, e-commerce activities, manufacturing planning and control, inventory management, human resource development, financial planning, forecasting, sales, and quality management. The objective of this course is to make students aware of the demands placed upon purchasing professionals, and to understand the impact of purchasing on the competitive success and profitability of the firm. They must also have an understanding of legal and ethical considerations which affect purchasing decision-making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE 'C') and STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

BUSSCM 1750 - REVENUE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Increasingly, due to shortening product life cycles and capital-intensive capacity decisions, companies are being forced to place greater emphasis on managing constrained, but perishable inventory and capacity. Examples include the transportation industry (encompassing airlines, shipping, car rentals, and trucking), the hotel industry, the entertainment and sporting industry, and the retail industry. The underlying managerial issue is complex, but improved decision making can increase a company's revenues and profits. In this course, we study quantity and pricing strategies to improve profitability and the course uses microeconomics, operations research, segmentation, and pricing and forecasting concepts that the students would have learned in their economics, quantitative methods, operations, and marketing classes. The methodologies covered in the course include deterministic and stochastic optimization, forecasting, and statistical estimation. Students are also exposed to commercial revenue management software.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070 (MIN GRADE 'C') and (STAT 1000 or STAT 1100); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management and Undeclared CBA Majors

BUSSCM 1760 - DATA MINING

Minimum Credits: 3
Maximum Credits: 3
Data mining is the process of extracting useful information and knowledge from a set of data. Mining is typically done on data sets too large to be analyzed by hand, but the same techniques are applicable to small, complex data. This course is an introduction to the most popular methods used in managerial data mining, and provides experience in using commercial software to explore real data sets. Models considered include those from statistics, machine learning, and artificial intelligence, such as discriminate analysis, logistic regression, clustering, neural nets, tree/rule induction, and association rule modeling. This course is methods-oriented, as opposed to being methodology-oriented, so students learn about when and how to use techniques and how to interpret their output rather than the details about how those techniques work. A laptop computer is required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1765 - FORECASTING

Minimum Credits: 3
Maximum Credits: 3
This is a short course in forecasting methodologies and their applications in business. This course covers traditional forecasting methodologies along with an overview of the state-of-the-art of forecasting with methodologies ranging from judgmental to statistical knowledge sources. Forecasting should not be confused with planning. The former is about what the future will be, while the latter deals with what the future should be. Most statistical packages (e.g. statgraphics, SPSS, SAS) have some modules to do forecasting, but the user needs to know the principles of the models to use them. Dedicated forecasting packages provide some advice to the user about the forecasting method they should use (e.g. forecastx, forecast pro). This course focuses on forecasting methodologies using statistical knowledge. By the end of the course students should know how to collect data and analyze them with a suitable computer program, and ultimately generate forecasts by selecting and fitting an appropriate model. We will also discuss some of the managerial issues surrounding the use of forecasting models in business. The student selects an area of interest (e.g. finance, marketing, operations, accounting, general planning) within which he/she would like to apply and some of the forecasting methodologies we study, and develop a forecasting model.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1100; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1770 - PROCESS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course covers the design and engineering of the business processes the way businesses organize "work" in service as well as manufacturing operations. The interrelationships among design parameters, market/demand variability, and performance measures are studied. The principles learned here are critical in engineering and/or reengineering of the business processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1100 and BUSQOM 0050; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1775 - SIMULATION

Minimum Credits: 3
Maximum Credits: 3
The purpose of the course is to provide an introduction to the concepts, methodologies, and particularly the applications of simulation in operations management, finance, and marketing. The advantage of simulation lies in its ability to model any appropriate assumptions about a problem or system. It is the most flexible tool available for understanding the problems and for generating better and quick results. The application includes queuing, capacity planning, factory operation, corporate financial planning, bidding, and market share. We use special-purpose simulation language and spreadsheet add-in software as the principal means to illustrate simulation models and computational issues. Through considerable hands-on experience-based learning, students learn practical decision-making and problem-solving techniques by example.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: STAT 1100 and BUSQOM 0050; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1780 - SIX SIGMA

Minimum Credits: 3
Maximum Credits: 3
Six Sigma is a disciplined, data-driven approach to process improvement aimed at the near-elimination of defects from every product, process, and transaction. Six Sigma utilizes the following five-phase problem-solving methodology known by the acronym DMAIC: 1. Define the projects, the goals, and the deliverables to customers (internal and external). Describe and quantify both the defect and the expected improvement. 2. Measure the current performance of the process. Validate data to make sure it is credible and set the baseline. 3. Analyze and determine the root cause(s) of the defects. Narrow the causal factors to the vital few. 4. Improve the process to eliminate defects. Optimize the vital few and their interrelationships. 5. Control the performance of the process. Lock down the gains. BUSSCM 1780 six sigma is designed to provide the student not only with strong theoretical knowledge of the Six Sigma green belt body of knowledge, but also with practical, hands-on, experience-based learning through the application of Six Sigma tools and techniques via in-class labs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1785 - FLD PROJCTS GLOBL SUPLY CHAINS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSQOM 0050 and BUSQOM 1070; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSSCM 1790 - SUPPLY CHAIN MGMT IND STUDY

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUSSCM 1795 - SUPPLY CHAIN MGT INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The supply chain management internship provides business credits for project assignments that augment a professional supply chain management work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

BUSSCM 1825 - MARITIME SUPPLY CHAIN

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the maritime supply chain industry. It examines the advantages and barriers of purchasing internationally, global sourcing, purchasing processes, and maritime logistics. This course will focus on Cyprus's unique positioning in Europe as a maritime supplier, the need for careful supply chain analysis with regard to maritime powers, and the considerations necessary in trading with island nations where geography makes shipping an essential part of economic conditions and constraints.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Theatre Arts

THEA 0505 - ENJOY PERFORMANCES

Minimum Credits: 3
Maximum Credits: 3
Why do we enjoy making and watching performances? What is it about our brains, our bodies, our history, and our culture that drives us to spend so much of our time engaging with musical events, sports, video games, public speaking, religious rituals, and dramatic programming? And how are we able to shift among so many media (stage, film, television, computers, iphones, etc.) To sustain and enhance our enjoyment? This introductory course will define performance, explore the roots of its popularity in U.S. history, examine how it engages us through our memories and emotions, and look at its affects and effects on our individual lives and present culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 0800 - INTRODUCTION TO THEATRE ARTS

Minimum Credits: 3
Maximum Credits: 3
This course serves as an introductory theatre class for non-majors, a foundational course for majors and a core course for minors. The purpose of this course is to examine and experience the practice of theatre-how it is created, what it expresses, what it communicates, and the resulting ideas and emotions. Relevant theatre concepts and terms, as well as historical and artistic contexts, will be studied. In addition to analyzing formal dramatic texts, students will develop a theatrical awareness of the world by exploring how theatre exists in everyday life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0804 - THEATRE AND COLLABORATION

Minimum Credits: 3
Maximum Credits: 3
The key to achieving a successful theatrical production is effective communication among all theatre artists during the process of development. Emphasis in this course is placed on collaboration, visualization, research, script interpretation, concept development and performance. Students will be exposed to the work of notable artists in each field and explore theatre making from the vantage point of designers, dramaturges, playwrights, producers, critics, historians, directors and actors. Over the first two weeks, students will gain a broad base of knowledge regarding the roles and responsibilities inherent in any collaborative theatre process. In the ensuing weeks students will explore a number of contemporary artists and devise their own collaborative projects. Students will become theatre makers. Each student is required to buy a semester pass and attend University theatre productions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 0810 - INTRODUCTION TO DRAMATIC ART

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the study of dramatic texts both in their written and live forms. We will engage various approaches to script analysis in our exploration of a selective set of plays from theatre's long and enduring history. We will consider the relationships between different employments of storytelling and the historical circumstances that influenced them. Remaining always conscious of dramatic art's home on the stage, we will attend and evaluate live performances. Students will apply concepts learned in class through written and oral individual and group assignments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0820 - SURVEY OF WORLD THEATRE

Minimum Credits: 3
Maximum Credits: 3
A course in why and how theatre began, developed, and survives. The urge to play will be seen as a natural and necessary part of being human; the theatre will be seen as a vital part of culture, revealing history in miniature and dreams and desires in concentrated form. From ritual and magic to musical comedy, from outdoor area-altars to computer-controlled scene shifting in multi-million dollar buildings, we will try to learn some of the reasons why the power of an actor, performing live before an audience, remains unchanged.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0825 - CONTEMPORARY GLOBAL STAGES

Minimum Credits: 3
Maximum Credits: 3

Contemporary Global Stages is an introduction to the analysis of global performance in written, aural and live forms. Working across several different geographers, we will use performance to map complex interplays between the Americas, Europe, Pacific cultures, Asia and the African continent in relation to the global processes of diaspora, media, adaptation, and cultural transmission. Spring 2015's course will examine gender formations and performances from a global perspective. Material covered will include: American drag queens, Japanese takarazuka, Filipino diasporic communities, and the Hijra community of India, among others. We will examine gender through theoretical lenses such as queer theory, feminism, imperialism, and globalization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 0830 - INTRODUCTION TO PERFORMANCE

Minimum Credits: 3
Maximum Credits: 3
This course is designed to develop the students' awareness of the actor's process and to foster a general sense of theatre as an area of human endeavor. Students will be introduced to basic communication skills, including physical and vocal presence in front of an audience. The course will also develop an introductory level of acting skill through the use of regular warm-ups, theater games, improvisation, and simple scene study. The class will culminate in the performance of a final scene. Scenes will be selected from a diverse range of playwrights and students will examine the political, cultural and social context of each play. The course will also provide an introduction to basic theater terminology, and foster the ability to respond to and reflect on theatrical performances. Each student is required to buy a semester pass and attend university theatre productions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0840 - INTRODUCTION TO THEATRE DESIGN

Minimum Credits: 3
Maximum Credits: 3
An introduction to the design of scenery, costumes and lights. Class work consists of several design projects focusing on design development, drawing and rendering, and drafting. This course will create an awareness of the role of the designer within the scope of the total collaborative process of theatre production. Students may be required to purchase a semester pass and attend university theatre productions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0842 - INTRODUCTION TO STAGECRAFT

Minimum Credits: 3
Maximum Credits: 3
This is a production-oriented course involving the study and application of the process and skills utilized in the realization of theatrical scenery, props, and lighting. This includes standard scenic construction techniques, materials and equipment of the scene shop, an introduction to scenic painting, drafting, properties design and construction, and basic lighting practices. An introduction to basic lighting equipment and stage electrics will also be addressed. This will be emphasized through experience working in the scene shop, on stage, and on department running crews. 45 Hours of work in one of these areas is required for the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0850 - INTRODUCTION TO SHAKESPEARE

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to Shakespeare as a playwright, that is, a maker of plays for the stage. The objective of this course is to discover how they work on us as an audience. The actual work of the course is close reading of and interaction with the plays, observation and analysis of film and theatrical treatments of Shakespeare's work, as well as examining the cultural and historical context in which these plays were written and have been subsequently produced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0860 - PERFORMING SHAKESPEARE

Minimum Credits: 3
Maximum Credits: 3
Advanced study of Shakespeare as a playwright, and his plays as literature which is meant to be performed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 0880 - THEATRICAL PRODUCTION

Minimum Credits: 1
Maximum Credits: 1
A practical application course which gives the student hands-on experience in university theatre productions in one or more of the following areas: scenery/props, costume, lighting, sound, and/or stage management. The goal is to expand the student's knowledge and understanding of production processes through team participation in the presenting of a full production. A student must complete at least 45 hours of work in an assigned area to receive 1 credit. Students must usher for 2 performances during the semester enrolled. Note: this course is offered by appointment.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

THEA 1100 - VOICE AND MOVEMENT 1

Minimum Credits: 3
Maximum Credits: 3
This course will explore the anatomy, physiology, and physicality of the human voice. The approach will be holistic mind, body and vocal practice. Techniques learned and practiced will be applied directly to specific performance assignments throughout the semester. Students will begin by examining and identifying healthy, effective, and expressive voice and body use through the study of film clips. Students will receive an introduction to the practices of master teachers such as Patsy Rodenburg, cicely berry, Kristen Linklater, Tina Landau and Anne Bogart, among others. The work will focus on voice and bodywork as they relate to acting and to any area of life requiring effective communication. Emphasis in text work will be on clarity of thought, physical connection, emotional availability, and clear communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1101 - VOICE AND MOVEMENT 2

Minimum Credits: 3
Maximum Credits: 3
This course will build on the practices introduced in voice & movement i including presence, healthy and expressive vocal use, and effective communication. It will introduce the international phonetic alphabet, accents and dialects. Methods of accent and dialect acquisition will include vocal viewpoints, imagery, phonetics, and physical exercises.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1102 - ACTING 1

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the extension and enhancement of basic acting skills using exercises based in a version of the Stanislavski acting system. Utilizing exercises from great teachers like Michael Chekhov, Stella Adler and Uta Hagen, students will learn to perform scene work within emotionally invested circumstances, improve moment to moment and talking and listening skills, play objectives, and apply given circumstances to character development. This course is a building block and prerequisite for most other acting courses in the theatre department.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 0830; PROG: School of Arts and Sciences

THEA 1103 - ACTING 2

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of scene work from plays primarily of 1860-1980. Emphasis on the balance of control and emotional responsiveness.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1104 - ACTING 3

Minimum Credits: 3
Maximum Credits: 3
This course focuses on preparing and presenting roles from classical plays. Using heightened text from diverse textual sources including ancient and modern plays and poetry, students will explore language as it applies to character and intention. Actors will build on their foundational acting craft with advanced vocal and physical acting exercises to enhance character, will develop textual analysis and rehearsal skills, and will apply those techniques to performing scenes (ancient Greek playwrights, Elizabethan playwrights and other lyrical writers). Students will perform three scenes from various historical periods, at least one of which will be from a Shakespearean text. In addition, students will examine the political, cultural and social context of each play.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 0830 and THEA 1102; PROG: School of Arts and Sciences

THEA 1105 - ACTING THE CLASSICS
Minimum Credits: 3
Maximum Credits: 3
Students must be highly skilled to enter this intense acting class. They will receive specialized acting training.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

THEA 1106 - HISTORY OF PERFORMANCE STYLE
Minimum Credits: 3
Maximum Credits: 3
The course content will vary based on the teacher, but may cover classical or contemporary stage styles. It may even cover mass media.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1107 - INSTRUCTIONAL PERFORMANCE CO
Minimum Credits: 3
Maximum Credits: 3
The instructional performance co. Prepares and presents scenes at the request of teachers throughout the university. Included are mock trials for the law school or historical presentations for a history class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1108 - THEATRE PRACTICUM-PERFORMANCE
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

THEA 1109 - PERFORMANCE LAB
Minimum Credits: 3
Maximum Credits: 3
This course uses the art of spontaneous creation as a tool for enhancing the creativity, responsiveness and immediacy for the actor. Students will be introduced to fundamental improvisational principles that facilitate strong ensemble play, increased awareness, heightened on and off stage observational skills, critical thinking, and spontaneity. The course will introduce both long and short form improvisation, and address basic terminology for the actor and improviser. Upon completion of the course, students will demonstrate facility with the improvisational tenets of 'yes, and' and 'explore and heighten' to enhance their ability to be in the moment during scripted and unscripted scenes. Techniques used in this course will include those of Viola Spolin, Sanford Meisner, Paul Sills, Keith Johnstone and others. The class will culminate in a final performance including text-based acting and improvisation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 1102

THEA 1110 - DIRECTING 1
Minimum Credits: 3
Maximum Credits: 3
This course intends to discover, explore, and develop the directorial crafts of the student/director. It addresses the theoretical, analytical, and practical skills requisite to the craft of directing plays for the theatre. Plays of the realistic style will be its primary focus, although some discussion may range over other styles and periods in order to provide the proper context for approaching realistic plays. The student's directing ability will be developed through class discussion and exercises, written assignments, outside reading, and the direction of scenes from realistic plays. Students will learn methods to analyze plot, character and theme in scripts as well as techniques to translate that analysis into clear, vivid stage action.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1111 - DIRECTING 2
Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of scene analysis and directing projects from plays of 1860-1980. Will deal with the special demands of different playwrights.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 1110; PROG: School of Arts and Sciences

THEA 1120 - DRAM & PERFORMANCE IN CLSSROOM

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce drama techniques used in educational settings and to provide students with hands-on experience creating and facilitating various theatre outreach activities. Specific practices to be explored include: activity-based methods such as theatre games & improvisational exercises as well as some theatre of the oppressed techniques; literature-based methods such as story dramatization and textual adaptation; situation-based work such as role drama and other strategies associated with drama-in-education; devised performance strategies often associated with play-building and theatre-in-education, etc. Students will hear from members of education departments of leading arts organizations in Pittsburgh to gain a sense of the broad range of techniques and applications of outreach work. Finally, the class will offer students an opportunity to design, implement, and evaluate outreach-related projects which are thematically linked to the theatre arts department's Shakespeare-in-the schools (sits) touring production. The sits program will serve as a lab experience for students in drama & performance in the classroom.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1121 - THEATRE FOR CHILDREN

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of the practical aspects of touring theatre for children. The class will offer actual participation in areas such as management, publicity, acting, directing and design. The course is geared toward the full production of a children's play to tour the Pittsburgh area schools.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1220 - DESGN FOR THEATRICAL PRODCTION

Minimum Credits: 3
Maximum Credits: 3
An introduction to the process of designing scenery and costumes for live theatre.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1225 - STAGECRAFT 1

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of the proscenium theatre stage and the construction and painting of standard, reusable scenic units for realistic stage settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1226 - STAGECRAFT 2

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of advanced technical problems through the use of drafting.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1227 - SCENE PAINTING

Minimum Credits: 3
Maximum Credits: 3
This course will include study of the small size and large scale painting techniques used for proscenium-style theatres.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1229 - STAGE MANAGEMENT 1

Minimum Credits: 3
Maximum Credits: 3
Principles and techniques of stage and production management as applied to professional, educational, and community theatre. Studies will include

auditions, rehearsal process and organization; technical and performance process and procedures; production personnel and cost management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1230 - STAGE LIGHTING 1

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of stage lighting equipment and design practices for the typical proscenium and arena theatres.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1231 - STAGE LIGHTING 2

Minimum Credits: 3
Maximum Credits: 3
This includes more advanced lighting plots and special effects devices for theatre, dance and film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1235 - SCENE DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
This is an introduction to scenic design for the theatre exploring creative uses of space to tell stories on stage. Topics covered may include introductions to script analysis, visual research, color theory, basic perspective sketching, model building, and drafting. This course will reflect the current industry practices in scenic design as an art form and may include introductions to contemporary software used in the field.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1236 - SCENE DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course in scenery design for various types of non-standard, unrealistic stage settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1240 - COSTUME PRODUCTION TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is a production-oriented studio course involving the processes and skills utilized in the realization of theatrical costumes. The student will develop an understanding of the costume production process in addition to acquiring the skills necessary in the aid of the construction and completion of theatrical costumes. The student will learn basic hand sewn stitches and fasteners, proper use and operation of the sewing machinery. The student will also learn basic functions of the personnel in the costume shop, health and safety, fabric and textiles, draping, commercial and drafted patterning and costume finishing. Lectures, demonstrations and projects will supplement work done in class. Practical experience is obtained through lab hours which are obtained by working outside of class time in the costume shop on departmental theatre productions (30 hours) or get involved backstage on the wardrobe run crew. These experiences provide the students opportunities to practice skills learned in the classroom.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1241 - HISTORY OF COSTUME

Minimum Credits: 3
Maximum Credits: 3
A social history of clothing from 4000 BC to modern day, linking social, political and historical events with trends and changes in clothing history. Some technical information regarding the cut and construction of garments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1242 - PATTERNMAKING

Minimum Credits: 3
Maximum Credits: 3
An introduction to flat patterning and draping techniques used in costume construction. Also a study of historical clothing construction techniques.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1245 - STAGE MAKEUP

Minimum Credits: 3
Maximum Credits: 3
This course will entail a study of stage makeup principles including facial structure analysis and utilizing different materials such as nose putty, crepe hair, and latex...To enhance a dramatic characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1246 - COSTUME DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
This course is a foundation for the study of the basic principles, practices and techniques of costume design for the stage. Skills and methodologies used in this course will include: how the elements and principles of design relate to and are utilized in costume design; collaboration; script and character analysis; research methods; an introduction to fashion and dress history as it relates to the assigned play; fabric selection; figure drawing and costume rendering techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1249 - ADVANCED MAKEUP

Minimum Credits: 3
Maximum Credits: 3
This course in advanced makeup is designed to emphasize make-up based on character choices in a text. This is a continuation of the work begun in stage make-up.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1338 - MUSICAL THEATRE PERFORMANCE

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory level performance lab course in musical theatre techniques. The focus will be on integrating acting skills with singing skills to create text-attentive performances within the musical and presentational styles set forth by various composers, lyricists, and book writers. Designed to accommodate both experienced singers and actors who do not identify as singers but would like to explore the world of musical theater performance, topics addressed during the course will include: development and maintenance of foundational singing skills, vocal range identification, repertoire selection, strategies for musical preparation, working with a vocal coach, working with accompanists, resources for finding musical scores, working with the music to enhance character development, using dramaturgic resources and information, preparing cuts for auditions, performing songs in dramatic context, and rehearsal techniques. Students will be expected to work with the instructor on selecting material for preparation in class, and will be required to work with other class members on assigned topics and scenes. The course will culminate with an informal presentation of songs and scenes chosen by the entire class. Upon successful completion of the course, the student will have developed a personal blueprint for preparation, rehearsal, and performance of musical theater repertoire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1340 - NATIVE AMERICAN THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course will explore native American theatre and performance as expressed through drama, dance, music, ritual, art and design of selected cultures primarily in North America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1341 - WORLD THEATRE: 500 BCE TO 1640

Minimum Credits: 3
Maximum Credits: 3
World theatre 500 BC to 1640 investigates histories of theatre and performance (scripts, embodiment, design, audiences, conventions, cultural functions, etc.) Within local and global social, artistic and political contexts, from classical Athens to Edo Japan, colonial Mexico city to Shakespeare's globe. The course focuses on evidence and interpretation as well as historical causation.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1342 - WORLD THEATRE: 1640 TO 1890

Minimum Credits: 3
Maximum Credits: 3
Discusses the history of the theatre arts which includes looking at drama, design, performance traditions and audiences from the comedies of restoration England to emerging realism of Buchner, Zola, and Ibsen. Framed by questions of documentary interpretation and historical causation, the course analyzes the larger contexts of theatrical events, including social and political history, as well as the development of non-theatrical art forms. Our focus will be on Western theatre with occasional references to non-Western forms of performance and production.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1343 - WORLD THEATRE: 1890-1970

Minimum Credits: 3
Maximum Credits: 3
This is the third in a world theatre history sequence designed to explore the development of dramatic forms and theatre practices from the 5th century B.C.E. To 1970. In world theatre: 1890 to 1970, we will discuss the history of the theatrical arts which includes looking at drama, design, performance traditions and audiences from the late dramas of Ibsen to the plays of Beckett and Pinter. Framed by questions of documentary interpretation and historical causation, the course will analyze the larger contexts of theatrical events, including social and political history, as well as the development of non-theatrical art forms. Our focus will be on Western theatre with occasional references to non-Western forms of performance and production. In addition, we will discuss some contemporary scholarship examining these theatrical events.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL : So, Jr, or Sr; PROG: School of Arts and Sciences

THEA 1350 - AMERICAN THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course examines the work of modern American playwrights who look at America as the embodiment of a dream as a democratic ideal, as a mythological construct and as an ideological force. We will read plays that stress the social and political implications of the tyranny of commerce, the loss of a positive national identity, the exclusion of women and foreigners, the disintegration of the individual, and the concomitant devaluation of language.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

THEA 1351 - GREEK AND ROMAN THEATRE

Minimum Credits: 3
Maximum Credits: 3
This is a study of how theatre began in ancient Athens and Rome. Readings of major comedies and tragedies are required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1352 - MEDIEVAL THEATRE

Minimum Credits: 3
Maximum Credits: 3
This is a study of the major plays of the medieval period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1353 - CONTINENTL RENAISSANCE THEATRE

Minimum Credits: 3
Maximum Credits: 3
This is a study of the history of European theatre during the Renaissance period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1355 - RESTORATION THEATRE

Minimum Credits: 3
Maximum Credits: 3

This is a theatre history course covering the period of the restoration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1356 - 18TH CENTURY DRAMA

Minimum Credits: 3
Maximum Credits: 3
This history course covers the leading playwrights of the 18th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1357 - 19TH CENTURY DRAMA

Minimum Credits: 3
Maximum Credits: 3
This history of theatre class covers the leading dramatists of the 19th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1358 - MODERN THEATRE TO WWII

Minimum Credits: 3
Maximum Credits: 3
This course will examine the plays of the early half of the twentieth century to World War II.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1359 - CONTEMPORARY THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course will examine the theatre today from World War II to the present and will study significant changes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1360 - THEATRE CRITICISM

Minimum Credits: 3
Maximum Credits: 3
A practical course in the craft of theatre criticism. The class attends local theatrical productions and writes weekly reviews. Course is designed to develop skills in interpretation of the theatrical art, in understanding of how the play operates in the theatre, and in creative writing. Each student receives individual attention to interpretation problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1361 - FORMS OF JAPANESE THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course provides a survey of various major forms of Japanese theatre using English language materials. Students will have access t0 relatively ancient forms of Japanese theatre such as kagura and noh, kabuki drama and the bunraku puppet theatre through film and videocassette. The modern and avant-garde theatre are also accessible through translation and videocassette material.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1365 - PLAYWRITING 1

Minimum Credits: 3
Maximum Credits: 3
This is a beginning course in the craft of playwriting. Students will read eight outside plays, will write seven scripts--the last of which is a one-act--and will critique, read aloud, and discuss the work of others in the class. Seminar/workshop style. Attendance is mandatory. Recommended: two courses from among the following three areas performance, dramatic literature, creative writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1366 - PLAYWRITING 2
Minimum Credits: 3
Maximum Credits: 3
An advanced course in playwriting taught workshop/seminar style. Students will work on their own projects-- a series of one acts or a full length play. There will be some reading of outside plays, but mainly critiquing of fellow classmates' work and the producing of 50 to 75 pp. Of scripted material. Graduate students are to register as directed study or independent study
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 1365 or ENGWRT 1650

THEA 1367 - CONTEMPORARY AMERCN DRAMATISTS
Minimum Credits: 3
Maximum Credits: 3
This is a course in reading contemporary American plays to make students aware of the trends in contemporary playwriting.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1370 - FILM APPRECIATION
Minimum Credits: 3
Maximum Credits: 3
This course is designed as a general introductory course to the art of cinema. Topics range from the history of film, general film techniques with film examples, experimental film, animation, documentary, and features. Films will be shown during class time. The student will be exposed to world film and general film theory and will be expected by the end of the class to have developed a critical perspective of some general trends in cinema.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1373 - DESIGN FOR FILM
Minimum Credits: 3
Maximum Credits: 3
This is a study of designing for film and how it differs from designing for the stage.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1390 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
Special topics: theatre history, literature and criticism courses discuss the history, literature and criticism of the theatre arts from a range of perspectives that might include looking at specific artists, genres of dramatic literature, periods of theatre history, or aspects of theatre historiography and text-based critical analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 1391 - SPECIAL TOPICS: THEATRE DESIGN
Minimum Credits: 3
Maximum Credits: 3
This course focuses on creating content for digital media used in theatrical performances. Areas covered include designing, creating, and implementing content for soundscapes and sound designs, live feeds of video, and projections of still and moving images. Students would be introduced to the hardware used in live performances for sound and projections; software used in the industry for generating and editing content, as well as console programming, pixel mapping, and 3d mapping. Students will be introduced to these topics in an academic setting, practice their skills in a performance media lab, and supplement the academics with practical applications on theatre department productions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1392 - SPECIAL TOPICS: PERFORMANCE
Minimum Credits: 3
Maximum Credits: 3
Please see arts and science catalog for a detailed description of this class.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1400 - PUBLIC RELATIONS

Minimum Credits: 1
Maximum Credits: 3
This is a participatory course involving the study of research, development and marketing of university theatre and professional theatre events.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1401 - BUSINESS MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Career development for performers. The aim of this course is to introduce theatrical performers to the resources and opportunities available in theatre professions, related fields, and continuing education. The objectives are to assist the student in identifying academic and career goals and developing strategies for achieving a successful process. Performers will develop audition material, resumes, headshots and related materials necessary for the successful attainment of their career objectives. In addition, students will be asked to think in a larger context anticipating long range planning to consider
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1402 - SCENERY, PROPS AND RUN CREW

Minimum Credits: 2
Maximum Credits: 2
Students will get credit for participating in productions of the three rivers Shakespeare festival. Work schedules are flexible and can be established by contract between the student and the area supervisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1403 - LIGHTING AND SOUND

Minimum Credits: 2
Maximum Credits: 2
Students will get credit for participating in productions of the three rivers Shakespeare festival. Work schedules are flexible and can be established by contract between the student and the area supervisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1404 - PERFORMING

Minimum Credits: 1
Maximum Credits: 3
Students will get credit for participating in productions of the three rivers Shakespeare festival. Work schedules are flexible and can be established by contract between the student and the area supervisor.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

THEA 1405 - COSTUMES AND RUN CREW

Minimum Credits: 1
Maximum Credits: 3
Students enrolled in theatre arts 1405 will get credit for participating in productions of the three rivers Shakespeare festival. Work schedules are flexible and can be established by contract between the student and the area supervisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1480 - DIRECTED PROJECT SCENERY/PROPS

Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the scenic faculty and staff on department productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1481 - DIRECTED PROJECT CSTUME/MAKEUP
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the costume faculty and staff on department productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1482 - DIRCTED PROJECT LIGHTING/SOUND
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the lighting/sound faculty and staff on department productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1483 - DIRCTED PROJECT DIRCTING/PERF
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the performance faculty and staff on department productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1484 - DIRECTED PROJECT BUSINESS MGT
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the design and tech faculty and staff on department productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1485 - DIRECTED PROJECT STAGE MGMNT
Minimum Credits: 1
Maximum Credits: 3
Students will work directly with the stage management faculty and staff on departmental productions on either theoretical or practical projects.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1488 - THEATRE PRODUCTION
Minimum Credits: 1
Maximum Credits: 3
This course will entail participation in the theatre arts department's productions in one of several categories for upper classmen and graduate students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

THEA 1490 - STAGE MANAGEMENT
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1498 - DIR RESEARCH: THEATRE ARTS
Minimum Credits: 1
Maximum Credits: 6
Independent work on a project in theatre, supervised by a member of the theatre faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

THEA 1500 - MODERN ACTING

Minimum Credits: 3
Maximum Credits: 3
This course builds students' acting skills and styles. It provides the means through which students may develop or expand their acting abilities through practical work with a variety of scripts, focusing primarily on 20th-century English plays. This course has been designed based upon the technical foundations established by Stanislavky, and requires students to develop acting skills through exercises and methods taken from a mixture of America, European, as well as Russian acting traditions. Such techniques are fundamental to most lessons given at British universities and acting schools and are often used throughout rehearsals in the context of professional productions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 1501 - SHAKESPEARE ACTING
Minimum Credits: 3
Maximum Credits: 3
In this course students develop a fluency in Shakespeare's rhetorical style through practical study, performing extracts from shakespeare plays as well as speaking a sonnet. The course will enable students to place Shakespeare firmly in the context of his own time, as well as in ours. The course gives an introduction to the rules of rhetorical theatre, with particular reference to the role of the Iambic pentameter in Shakespeare's plays. Students are shown how to 'work' a line to the point of delivery, through attention to meaning, scansion, stress and breathing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

THEA 1850 - ADVANCED SHAKESPEARE
Minimum Credits: 3
Maximum Credits: 3
This will be an in depth study of Shakespeare's plays by both reading and visual observation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

THEA 1900 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Course content to be decided between teacher and student.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

THEA 1901 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 6
Location and terms of internship to be agreed upon between teacher and student.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

THEA 1903 - SEMINAR IN THEATRE ARTS
Minimum Credits: 3
Maximum Credits: 3
Avant-garde theatre: symbolism to surrealism
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

Urban Studies

URBNST 0080 - INTRODUCTION TO URBAN STUDIES
Minimum Credits: 3
Maximum Credits: 3
This course serves as the required introduction into the urban studies major or as a general course in the social sciences for the non-major. The course explores the problems and potentials of cities by combining the various disciplinary perspectives--economics, Africana studies, history, political science, sociology, and anthropology. As the course is providing the students with the necessary concepts and information to understand cities, the students will be developing their own skills through field trips, debates, group presentations and journal writing.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: Restricted ARTSC UGRD Students

URBNST 1005 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will entail the exploration of a specific urban topic.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

URBNST 1102 - INTRODUCTION TO GIS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the fundamental principles of geo-spatial analysis using ArcGIS desktop and Stata. It will focus on teaching students the principles of GIS through computer-based exercises and projects. Exercises will train students in acquiring, constructing, and managing geo-spatial data in order to solve spatial problems. An emphasis will be placed on bridging the gap between performing geo-spatial computations in GIS and putting GIS outputs into format to conduct statistical analysis. Exercises and projects will be centered on topics in applications relevant to urban studies, political science, sociology, and economics. These include, but are not limited to: urban planning, housing, education, and public administration. Students will be equipped with the skills to be successful in internships and careers in the private sector utilizing GIS methods. In addition, students will be prepared for ongoing academic work and research requiring spatial analysis.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1200 - URBAN STUDIES FLD RESEARCH SEM

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the urban studies meth0dology of "field study". The class will go on field trips to Pittsburgh communities that epitomize current urban problems and issues. Readings and classroom discussions will focus on how to "read" the urban landscape as well as provide background on current urban problems.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

URBNST 1300 - URBAN SKILLS SEMINAR

Minimum Credits: 3
Maximum Credits: 3
In this course students will learn and apply a set of basic research and communication skills relevant to work in urban settings. After active participation in the course, students will be able to locate data, analyze in thorough and theory based fashion, and present clearly and persuasively. Skills include defining a research question, questionnaire design and interviewing, finding and interpreting secondary data, using pc based spreadsheet, database and presentation software and participating on a team. Coursework is organized around real world problems.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1406 - IRISH POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1408 - GLOBAL CITY - FLORENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

URBNST 1410 - GLOBAL CITY - LONDON

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

URBNST 1412 - ISLAM, POLITICS AND BRITAIN
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1414 - GLOBAL CITY - SYDNEY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1500 - URBAN RESEARCH SEMINAR
Minimum Credits: 3
Maximum Credits: 3
The urban research seminar focuses the knowledge and skills, which the student has gained through the program, on a particular topic. The specific topic varies from term to term and faculty member to faculty member, but it always concerns an issue of relevance to the immediate Pittsburgh environment. Examples include riverfront development, the impact of Reagan's cutbacks, the redevelopment of East liberty, etc. To investigate the topic students will review secondary sources as well as collect and analyze their own information through interviews, field trips, surveys, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: URBNST 0080 and URBNST 1300 PLAN: Urban Studies (BA or BPH)

URBNST 1608 - URBAN ECONOMIC GEOGRAPHY
Minimum Credits: 3
Maximum Credits: 3
Participants in this course will learn about the evolving forms of metropolitan government and governance in the United States, with a special focus on the post-1992 period. Course units examine the history and contemporary shape of urban politics, and the opportunities and challenges facing local communities during the 21st century. By the end of the course students will be able to appraise how the contemporary landscape of regional governance in the United States is affecting specific cities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

URBNST 1610 - URBAN POLIT REGIONAL GVRNT
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Grad LG/SNC Basis

URBNST 1612 - SOCIAL JUSTICE AND THE CITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

URBNST 1614 - URBAN SUSTAINABILITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

URBNST 1700 - INTERNATIONAL URBANISM SEMINAR
Minimum Credits: 3
Maximum Credits: 3
It is undeniable that the world has become integrated through the globalization of social, political, cultural and economic activity. Cities worldwide have been markedly affected by globalization, but in turn have played a role in the process. By utilizing published material, films, slides and the internet, this course will compare the economic, social, political, historical and cultural differences between different global cities as they struggle to

survive in the twenty-first century.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: URBNST 0080

URBNST 1701 - URBAN STUDIES FIELD TRIP/PARIS

Minimum Credits: 1
Maximum Credits: 6
This elective field trip, designed for students enrolled in URBNST 1700, "International Urbanism" will allow students to apply what they have learned in the classroom to an international city. Students will travel with the instructor to a selected city abroad following the completion of URBNST 1700.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

URBNST 1900 - URBAN FIELD PLACEMENT

Minimum Credits: 3
Maximum Credits: 6
This course gives the urban studies major the opportunity to get off the campus and into the community. It allows the student to relate his or her academic training to a real world situation by working in an urban related organization or agency. The student works under the combined supervision of the agency personnel and the urban studies advisor. The student is required to keep a journal, attend scheduled meetings with other field placement students and write a final reflective paper.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Urban Studies (BA or BPH)

URBNST 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Individual project administered under the supervision of a faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PLAN: Urban Studies (BA or BPH)

URBNST 1903 - HONORS THESIS

Minimum Credits: 3
Maximum Credits: 3
This course is only for people who will be writing an honors thesis.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grad
