Grade Component: Satisfactory/No Credit

ARTSC 1900 - ARTSC ACADEMIC INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
An academic internship offers students a unique learning opportunity to connect classroom knowledge with real-world settings as they explore careers and gain valuable experience. Students may earn from 1-3 credits for an experience that can be related to an academic field of study. The experience must be pre-professional in nature and must be approved by the Dietrich School Office of Undergraduate Research. Students must seek out and apply for their own internship. Internship can be found through Career Development and Placement Assistance, or students can contact the Office of Undergraduate Research. Students who are earning credit for ARTSC 1900 internships may not receive pay. Students must work at least 120 hours over the course of the term to be eligible for the maximum of 3 credits. In order to earn credit, the student must have a Dietrich School faculty sponsor (full-time only) who will assign related academic work. Internships are graded as S/NC.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

ARTSC 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Independent study entails an independent program of study, research, or creative activity with some guidance from a sponsoring faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

ARTSC 1902 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ARTSC 1903 - INTERNSHIP IN LONDON

Minimum Credits: 3
Maximum Credits: 6
An internship is a special type of independent study in which the student works in a non-academic setting. The internship should be directly related to an academic discipline, and the student's learning is evaluated and graded by a faculty member. Internships under this course listing are conducted in London, England, as part of Pitt's London study abroad program.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

ARTSC 1910 - INSTIT OF POLITICS INTERNSHIP
Minimum Credits: 2
Maximum Credits: 2
This course represents the experiential component of the politics institute's undergraduate internship. The purpose of the internship experience is to provide the student with direct exposure to the process of public decision-making. Each student will work with an individual or office directly involved in the policy-making process. Students will be selected through a competitive process.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

ARTSC 1911 - INSTIT OF POLITICS INTSHP SEM
Minimum Credits: 2
Maximum Credits: 2
This course will provide the academic content of the politics institute's undergraduate internship. While students are obtaining first-hand experience working with an official directly involved in policy-making for the region, they will learn to analyze the policy-making process as an example of social problem-solving. They will learn the issues confronting the region; they will study the policy-making processes; finally they will analyze the method of participant observation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ARTSC 1930 - STUDY ABROAD: ESTONIA
Minimum Credits: 1
Maximum Credits: 15
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

CAS 1613 - STUDY ABROAD ROME, ITALY NP
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

Athletic Training

ATHLTR 1811 - BASIC ATHLETIC TRAINING
Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the student with an introduction to the athletic training profession. Topics to include medical terminology, mechanisms of injury, and recognition and treatment of common athletic injuries to major body parts.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

ATHLTR 1812 - BASIC ATHLETIC TRAINING LAB

Minimum Credits: 1
Maximum Credits: 1
An introduction to basic taping techniques and injury evaluation techniques used in the profession of athletic training. Basic supportive strappings and paddings for immediate care and competition are presented as well as basic joint evaluation procedures, assessment of vital signs, and crutch fitting.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

ATHLTR 1821 - INJURY EVAL AND TREATMENT 1

Minimum Credits: 3
Maximum Credits: 3
The course includes anatomy, recognition, and commonly accepted techniques and procedures for clinical evaluation of common athletic injuries to the foot, ankle, leg, thigh, hip, pelvis and lumbar spine.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS. BS-H, BPH)

ATHLTR 1822 - INJURY EVAL AND TREATMENT 2

Minimum Credits: 3
Maximum Credits: 3
The course includes anatomy, recognition, and commonly accepted techniques and procedures for clinical evaluation of common athletic injuries to the shoulder, arm, elbow, fore arm, wrist, hand, head, face, cervical and thoracic spine, and internal organs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1823 - ADMINV ASPECT OF ATHL TRAINING

Minimum Credits: 2
Maximum Credits: 2
This course presents current administrative issues in athletic training including training room facility and design, record keeping procedures, personnel management and recruitment, medico-legal considerations and budgetary principles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1824 - ATHLETIC TRAINING PRACTICUM 1

Minimum Credits: 3
Maximum Credits: 3
Designed to supplement first clinical experience presented in seminar fashion to address clinical proficiencies published in the 3rd edition of the NATA athletic training educational competencies introduced in the second semester academic courses. Presented by faculty of the AT program then evaluated in clinical setting in live situations when possible or under simulated conditions when narrated. Specific emphasis placed on those proficiencies that can be grouped into modules and which do not receive broad coverage in an academic course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1831 - THERAPEUTIC MODALITIES AND LAB

Minimum Credits: 4
Maximum Credits: 4
The course presents the theoretical basis for use of superficial heat and cold, ultrasound, electrical muscle stimulation, tens, and other current modalities. Laboratory experiences are included in the use of these modalities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1832 - THERAPEUTIC EXERCISE AND LAB

Minimum Credits: 4
Maximum Credits: 4
The course includes basic components of a comprehensive re habilitation program and theory and principles associated with the use of special evaluation/therapeutic exercise techniques. Laboratory experiences include practical use of manual testing techniques, goniometry, and the application of selected types of manual exercises.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1833 - STRENGTH AND CONDITIONING

Minimum Credits: 2
Maximum Credits: 2
Instruction is provided describing the physiological basis for development of pre-season, in-season and off-season strength and conditioning programs. Laboratory experiences will include the theory and technique of operating contemporary isotonic, isokinetic and isometric strength training equipment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1834 - SPEC TOPICS ATHLETIC TRAINING

Minimum Credits: 2
Maximum Credits: 2
The course includes common orthopedic problems encountered by the athletic trainer and orthopedic surgeon. Students are exposed to commonly used techniques of primary and re constructive surgery through lecture, operating room, clinic, and orthopedic rounds experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1835 - ATHLETIC TRAINING PRACTICUM 2

Minimum Credits: 3
Maximum Credits: 3
Designed to supplement second clinical experience presented in seminar fashion to address clinical proficiencies published in the 3rd edition of the NATA athletic training educational competencies introduced in the second semester academic courses. Presented by faculty of the AT program then evaluated in clinical setting in live situations when possible or under simulated conditions when narrated. Specific emphasis placed on those proficiencies that can be grouped into modules and which do not receive broad coverage in an academic course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1841 - ATHLETIC TRAINING PRACTICUM 3

Minimum Credits: 3
Maximum Credits: 3
Designed to supplement third clinical experience presented in seminar fashion to address clinical proficiencies published in the 3rd edition of the NATA athletic training educational competencies introduced in the second semester academic courses. Presented by faculty of the AT program then evaluated in clinical setting in live situations when possible or under simulated conditions when narrated. Specific emphasis placed on those proficiencies that can be grouped into modules and which do not receive broad coverage in an academic course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1842 - ATHLETIC TRAINING PRACTICUM 4

Minimum Credits: 3
Maximum Credits: 3
Designed to supplement fourth clinical experience presented in seminar fashion to address clinical proficiencies published in the 3rd edition of the NATA athletic training educational competencies introduced in the second semester academic courses. Presented by faculty of the AT program then evaluated in clinical setting in live situations when possible or under simulated conditions when narrated. Specific emphasis placed on these proficiencies that can be grouped into modules and which do not receive broad coverage in an academic course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1843 - ADVANCED ORTHOPEDIC ASSESSMENT
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BPH, or BS-H)

ATHLTR 1866 - PSYCHOLOGY OF SPORT
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Athletic Training (BS, BS-H, BPH)

ATHLTR 1885 - INTRODUCTION TO EVIDENCE BASED REHABILITATION
Minimum Credits: 3
Maximum Credits: 3
Provides basic skills in reading, reviewing, and critiquing the research literature in the rehab sciences. These skills will be applied to the relevant literature in diagnosis, prognosis and intervention strategies within the spectrum of rehab science. Students learn to generate relevant research questions, utilize an evidenced based medicine approach, appraisal and synthesis of current articles within the fore mentioned areas. Will culminate in an individual review project aimed the development and resolution of one research question, using the best, current available literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective

Biochemistry

DSBIOC 1010 - BIOCHEMISTRY
Minimum Credits: 2
Maximum Credits: 2
The first half of this course is spent discussing chemistry and occurrence of various types of biochemicals. Each type is introduced by illustrating structural features and then classifying it according to its occurrence in specific organisms, tissues and subcellular locations. In the second half, metabolism of each of these types of compounds is outlined. All presentations of metabolism emphasize energy maintenance in organisms, nutritional impact on each pathway, hormonal influence, and interrelationship among metabolism of various types of biochemicals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Biological Engineering

BIOENG 0050 - WORKSHOP IN BIOENG DESIGN
Minimum Credits: 1
Maximum Credits: 1
Students are introduced to bioengineering design use of the solidworks software suite. Solidworks is one of several computer aided engineering software packages (autocad and proengineer are other examples) that is widely used in industry and academia. Skills learned (1) will help with bioengineering design projects, and (2) are easily translated to other computer engineering packages such as autocad or proengineer. The workshop consists of weekly solidworks-based practice assignments (tutorials) that must be completed to receive an 'S' (satisfactory) grade in the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Bioengineering (BEH OR BSE)

BIOENG 0051 - WORKSHOP IN MEDICAL DEVICES
Minimum Credits: 1
Maximum Credits: 1
Reverse engineering' of medical devices is used to introduce students to basic terminology in the medical device field, the coupling of design with function, and the processes involved in moving from device conception to product. Skills learned
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Bioengineering (BSE)

BIOENG 0052 - WORKSHOP IN OPENSIM

Minimum Credits: 1
Maximum Credits: 1
Computational models and simulations are tremendously useful tools for understanding human movement control. It is not always straightforward to identify cause-and-effect relationships through experiments alone and computational modeling and simulation techniques can complement experimental approaches, e.g. models can provide estimates of important variables such as muscle forces that are difficult to measure experimentally. Opensim is an open-source software package that enables users to build, exchange, and analyze computer models of the musculoskeletal system and dynamic simulations of movement (Delp et al., 2007). The purpose of this course is to introduce students to opensim by demonstrating the utility of graphics-based modeling and simulation. Specifically, students will learn how to use opensim tools, through both the graphical user interface (GUI) and application programming interface (API) that uses MatLAB scripting, to analyze and simulate models and motions.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PLAN: Bioengineering

BIOENG 0053 - WORKSHOP IN STATISTICAL DESIGN

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Workshop
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: ENGR 0020; PLAN: Bioengineering

BIOENG 0054 - WORKSHOP IN DESIGN FOR MANUFACTURABILITY

Minimum Credits: 1
Maximum Credits: 1
Design for manufacturability (DFM) provides a systematic methodology that can be used to analyze product design for improvements in assembly and manufacturing. Students will use dfm to redesign current products for changes in manufacture that lead to reduction in production cost and improved operability/customer satisfaction. Students will employ modern software tools that accurately model parts for specific manufacturing operations, model part costs, simplify products, find specific avenues to reduce manufacturing and assembly costs, benchmark products, and quantify improvements. Students will gain hands-on experience incorporating the DFM concepts in a project. Upon completing the course, the students should be able to describe the utility of DFM in product development and early manufacturing design, be able to quantitatively evaluate the impact of design choices on manufacturing cost, and be able to use modern quality control concepts and approaches. Topics include : steps for applying DFM during product design; DFM guidelines for assembly; strategies in component(s) design; designing for automation; designing in quality/reliability; standardization; designing in teams; early resolution of issues; optimizing vendor participation; off-the-shelf parts; modular design; product definition; creativity; brainstorming; total cost; modern philosophies and practices (lean manufacturing, quality control in manufacturing systems, use of software tools for analysis of manufacturing cost and time); evaluation of alternatives.
Academic Career: UGRD
Course Component: Workshop
Grade Component: S/NC

BIOENG 0501 - MUSIC ENGINEERING

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1002 - INTRAMURAL INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Students employ practical experience, gained from mentored research in an academic environment, which includes project planning, design of experiments, and analysis of results to develop professional quality oral presentation skills. Emphasis is placed on critical analysis of research projects, development of technical abstract writing skills, and development of professional quality visual aids that accompany oral presentations. The course culminates with an oral presentation at a technical symposium. Upon completing the course, the student should be able to prepare a professional quality abstract documenting background, methodology, and results from a research project and make a professional quality oral presentation describing the research.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0020; PLAN: Bioengineering

BIOENG 1003 - INDUSTRIAL INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
A research or design project involving a literature search, planning, design, fabrication, experimentation, analysis, and technical report writing

performed by the student. The work is completed under the guidance of an industrial sponsor on an approved subject and culminates in an oral presentation at a technical symposium.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

BIOENG 1005 - RADIOFREQUENCY MEDICAL DEVICES

Minimum Credits: 3
Maximum Credits: 3
The course will cover topics related to the applications of electromagnetics and RF in medicine and in other devices that can cause thermal safety hazards. Topics such as Maxwell Equations, Wave Equations, Transmission Lines, Electromagnetic Theorems, Introduction to Antennas, and Introduction to Computational Electromagnetics will be presented. The class will include analyses of several RF devices used in medical applications and/or have electromagnetic safety implications such as magnetic resonance imaging (MRI), biological sensors (brain machine interface), RF ablation, and cell phones. Upon completing the course, the student should be able to describe how to apply fundamental electromagnetic principles to set up and solve problems in RF devices used in medical applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1310 and BIOENG 1320; PLAN: Bioengineering (BSE or BEH)

BIOENG 1050 - ARTIFICIAL ORGANS

Minimum Credits: 3
Maximum Credits: 3
Artificial organs is the first of a three course sequence that explores design, development, and clinical use of artificial organ technology. Each course in the series is stand-alone and, as such, is not a prerequisite for any other course in the series. Students may take one, two, or all three courses. Artificial organs is directed toward artificial heart and vascular prostheses. The basic physiology of each system (heart and vascular) is reviewed with emphasis on identifying the bioengineering design requirements for appropriate organ replacement systems. Commercially available systems are analyzed from the point of view (where applicable) of mass transfer efficiency; biomechanics and hemodynamic similarity to the host; and size and efficiency of the device. Students will be required to design an artificial organ consistent with the above-mentioned considerations. Upon completing the course, the student should be able to describe the fundamental engineering principles related to heart and vascular physiology and apply the fundamental principles to design improvements and/or new designs for artificial heart and vascular prostheses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1220; PLAN: Bioengineering (BEH OR BSE)

BIOENG 1051 - ARTIFICIAL ORGANS 2

Minimum Credits: 3
Maximum Credits: 3
Artificial organs 2 is the second of a three course sequence that explores design, development, and clinical use of artificial organ technology. Each course in the series is stand-alone and, as such, is not a prerequisite for any other course in the series. Students may take one, two, or all three courses. Artificial organs 2 is focused on artificial blood and artificial lung. The basic physiology of each system (blood and the lungs) is reviewed with emphasis on identifying the bioengineering design requirements for appropriate organ replacement systems. Commercially available systems are analyzed from the point of view (where applicable) of mass transfer efficiency; biomechanics and hemodynamic similarity to the host; and size and efficiency of the device. Students will be required to design an artificial organ consistent with the above-mentioned considerations. Upon completing the course, the student should be able to describe the fundamental engineering principles related to blood and lung physiology and apply the fundamental principles to design improvements and/or new designs for artificial blood substitutes and artificial lung devices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1210; PLAN: Bioengineering (BSE or BEH)

BIOENG 1052 - ARTIFICIAL ORGANS 3

Minimum Credits: 3
Maximum Credits: 3
Artificial organs 3 is the third of a three course sequence that explores design, development, and clinical use of artificial organ technology. Each course in the series is stand-alone and, as such, is not a prerequisite for any other course in the series. Students may take one, two, or all three courses. Artificial organs 3 is focused upon artificial kidney and artificial liver. The basic physiology of each system (kidney and liver) is reviewed with emphasis on identifying the bioengineering design requirements for appropriate organ replacement systems. Commercially available systems are analyzed from the point of view (where applicable) of mass transfer efficiency; biomechanic and hemodynamic similarity to the host; and size and efficiency of the device. Students will be required to design an artificial organ consistent with the above-mentioned considerations. Upon completing the course, the student should be able to describe the fundamental engineering principles related to kidney and liver physiology and apply the fundamental principles to design improvements and/or new designs for artificial kidney and artificial liver.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1220; PLAN: Bioengineering (BSE or BEH)

BIOENG 1061 - HUMAN FACTORS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
A study of human abilities, characteristics, behavior, and motivation in the design, development and operation of components and systems designed for human use.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1063 - INTRO TO ORTHOPADC BIOMECHANC

Minimum Credits: 3
Maximum Credits: 3
Coursework will include an introduction to the structure and function of the musculoskeletal system. Specific topics will include: tendon, bone, cartilage, and muscle mechanics. Particular emphasis will be placed on the relationship between function and material properties of these tissues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1064 - BIOMECH ORGANS, TIS & CELLS

Minimum Credits: 3
Maximum Credits: 3
This course will provide the first year bioengineering graduate students with introductory materials for general biomechanics. The student will be exposed to various interdisciplinary fields in biomechanics. The topics include orthopedic biomechanics, biomechanics of human movement, vascular biomechanics, cardio-pulmonary biomechanics, and biomechanics of biomaterials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0135 and 1631 and (MATH 0250 or 1035); PROG: Swanson School of Engineering

BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1

Minimum Credits: 3
Maximum Credits: 3
Principles of cell biology in higher organisms: structure, function, biosynthesis, and macromolecular organization with a focus on macromolecular organization and function from a quantitative systems perspective. Upon completing the two course sequence, BIOENG 1070 and BIOENG 1071, students should be able to (1) demonstrate understanding of the principles of cell structure and function, (2) describe the experimental tools used to understand cellular function such as molecular genetic techniques, biochemical analysis, and microscopy, and (3) use systems approaches to understand how cellular processes are integrated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0012 or ENGR 0712 or ENGR 0715 or (CREQ: ENGR 0016) or (PLAN: Bionengineering)

BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2

Minimum Credits: 3
Maximum Credits: 3
Continuation of BIOENG 1071. Principles of cell biology in higher organisms: structure, function, biosynthesis, and macromolecular organization with a focus on macromolecular organization and function from a quantitative systems perspective. Upon completing the two course sequence, BIOENG 1070 and BIOENG 1071, students should be able to (1) demonstrate understanding of the principles of cell structure and function, (2) describe the experimental tools used to understand cellular function such as molecular genetic techniques, biochemical analysis, and microscopy, and (3) use systems approaches to understand how cellular processes are integrated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1070; PROG: School of Engineering

BIOENG 1072 - HONORS INTROD TO CELL BIOL 2

Minimum Credits: 3
Maximum Credits: 3
Principles of cell biology in higher organisms: structure, function, biosynthesis, and macromolecular organization with a focus on macromolecular organization and function from a quantitative systems perspective. This course is accompanied by a weekly one hour seminar in which original research articles pertinent to cell biology are presented and discussed.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1070; PROG: Swanson School of Engineering

BIOENG 1075 - INTRO CELL MOL BIOL LAB TECHNQ

Minimum Credits: 3
Maximum Credits: 3
An undergraduate laboratory course designed to complement theoretical knowledge learned in BIOENG 1070 & BIOENG 1071 that covers practical aspects of fundamental cell biology, cell culture, visualization of cellular components, protein biochemistry (isolation, purification, and analysis), molecularupon completing the course, the student should have acquired 'hands-on' skills in basic techniques in cell biology, biochemistry and molecular biology and be able to apply them in practice. Biology techniques, and functional measurements in cells.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1071; PLAN: Bioengineering (BSE or BEH)

BIOENG 1085 - INTRO TO BIOENGNRNG: SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminar is designed to acquaint students with aspects of bioengineering that are not normally encountered in the classroom or extracurricular activity settings. As such, seminar is a vehicle to provide important information and communicate materials that students need to know to maximize their educational experience and develop post-graduation plans. Emphasis is placed on career planning and development and options available in the undergraduate program that will help realize post-graduation goals. Student awareness of opportunities that are available and knowledge about how to utilize the opportunities for their benefit.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1095 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 6
Special projects provides an opportunity for students to develop an individual research project under the guidance of a faculty member/mentor. Projects can involve laboratory research, engineering design, or instructional development. While the project must be related to bioengineering, the mentor can be a faculty member in any department or hospital affiliated with the university of Pittsburgh. A written report documenting the project and project outcomes, evaluated by the mentor, is required. The report must be submitted to the undergraduate coordinator, department of bioengineering prior to receiving a grade.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

BIOENG 1096 - UGRD TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 2
Students gain teaching experience by serving as assistant instructors in one of the bioengineering Undergraduate courses.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1150 - BIOENG METHODS & APPLICATIONS

Minimum Credits: 3
Maximum Credits: 3
Bioengineering methods and applications uses laboratory experiences to illustrate principles taught in several bioengineering core classes. In addition to being exposed to particular laboratory skills for each of the experimental modules in the course, students are expected to practice previously developed skills in technical writing, creating tables and graphs, data analysis, and statistics to create professional quality laboratory reports that document each module. Upon completing the course, the student should be able to state and describe the basic components of a laboratory report and create well-written archival documents that reflect professional quality work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ:(BIOENG 1071 or 1072) and 1220 and 1310 and 1630; Plan: Bioengineering (BSE or BEH)

BIOENG 1160 - BIOENGINEERING DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
The two course sequence, bioengineering design 1 & 2, is a mentored opportunity for the student to synthesize and extend skills and knowledge acquired during the undergraduate education experience in design (or redesign) of a biomedical product or equivalent. Students are exposed to key facets of the medical product design process and the unique regulatory requirements for biomedical products. Student teams select a design project, conduct a market/reimbursement analysis, apply design process methodology, maintain a design history file, and create a prototype product. Students will be able to apply appropriate product design-related procedures and tools, maintain design history files, conduct preliminary market/reimbursement studies, and address regulatory affairs in developing a prototype biomedical product or equivalent.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LEVEL: Senior; PLAN: Bioengineering (BSE or BEH)

BIOENG 1161 - BIOENGINEERING DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
The two course sequence, bioengineering design 1 & 2, is a mentored opportunity for the student to synthesize and extend skills and knowledge acquired during the undergraduate education experience in design (or redesign) of a biomedical product or equivalent. Students are exposed to key facets of the medical product design process and the unique regulatory requirements for biomedical products. Student teams select a design project, conduct a market/reimbursement analysis, apply design process methodology, maintain a design history file, and create a prototype product. Students will be able to apply appropriate product design-related procedures and tools, maintain design history files, conduct preliminary market/reimbursement studies, and address regulatory affairs in developing a prototype biomedical product or equivalent.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1160 ; PLAN: Bioengineering (BSE or BEH)

BIOENG 1210 - BIOENGINEERING THERMODYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Bio thermodynamics uses an interactive framework in the joint (student and instructor) exploration of thermodynamics as it applies on the biological cellular and systems level. At this most fundamental level, thermodynamics studies the flow of energy, interconversion of energy, maintenance of cellular function and information, and the processes necessary to sustain life itself. Upon completing the course, the student should be able to describe how the three laws of thermodynamics and entropy impact biological systems, and be able to apply fundamental thermodynamics principles to set up and solve problems in physiological systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1070 and (MATH 0240 and 0290) and (PHYS 0175 or 0476); PLAN: Bioengineering (BSE or BEH)

BIOENG 1211 - HONORS BIOENG THERMODYNAMICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 and MATH 0290 and BIOENG 1070 and (PHYS 0175 or PHYS 0476); PLAN: Bioengineering (BEH or BSE); LVL: So, Jr, Sr

BIOENG 1218 - EMERGING BIOMEDICAL TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG

BIOENG 1220 - BIOTRANSPORT PHENOMENA

Minimum Credits: 3
Maximum Credits: 3
Bio transport phenomena explores the similarities between the fundamental principles of momentum, heat, and mass transfer, develops analogies between the fundamentals that apply at microscopic and macroscopic scales, and uses the fundamentals in conjunction with conservation laws to develop mathematical descriptions of physiological and engineering systems. Special emphasis is placed on identifying assumptions that may be used in developing the mathematical descriptions. The course uses an interactive framework developed through the VANTH (Vanderbilt, Northwestern, Texas, and Harvard-MIT) consortium for biomedical engineering curricula development to explore transport phenomena (momentum, heat, and mass transfer) through a series of interactive modules. Upon completing the course, the student should be able to describe the fundamental principles pertaining to momentum, heat, and mass transport and apply the fundamental principles to set up and solve problems in physiological systems and

design of medical devices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1210; PLAN: Bioengineering (BSE or BEH)

BIOENG 1230 - VECTOR CALCULUS

Minimum Credits: 1
Maximum Credits: 1
This course teaches the practical aspects of vector calculus necessary for concepts used in bioengineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1241 - SOCTL, POL & ETHCL ISS BIOENG

Minimum Credits: 3
Maximum Credits: 3
Engineering, as a profession, has ethical obligations to society that go beyond the simple application of technology as learned in science and technology courses. Bioethics seeks to supplement technological aspects of bioengineering by engaging students in an analysis of the effects of bioengineering developments on society, focusing on safety of the public as a primary ethical concern. Students are educated on a variety of ethical tools that enable them to analyze fictional, yet realistic, cases. Students are evaluated individually, as well as in groups, with a particular focus on the ethical issues related to their senior design projects (BIOENG 1160 & 1161). Upon completion of the course, students will be able to recognize, articulate, and resolve ethical issues within the arena of bioengineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BIOENG 1160; PLAN: Bioengineering (BSE or BEH); LEVEL: Juniors

BIOENG 1255 - DYNAMC SYSTMS: PHYSIO PERSPCTV

Minimum Credits: 4
Maximum Credits: 4
A foundation of basic systems concepts is built through combining modeling of dynamic systems with physiological examples. Mathematical models of physiological systems are developed using a combination of systems understanding (analogous thinking, engineering synthesis and analysis, and integrative system approaches in solving problems) and bioengineering design (recognizing the potential applications of both engineering principles to biology and biological principles to engineering). These models are then used to address biological/clinical questions. Upon completing the course, the student should be able to: demonstrate skill and competence in methods of dynamic systems modeling through (a) building dynamic models of bioelectrical, biomechanical, biochemical, and physiological systems, (b) solving systems of equations representing dynamic models including analytical, numerical, and graphical software methods, (c) validating models including descriptive, predictive, and explanative validation, and (d) applying models to scientific and engineering applications including analysis and synthesis relative to identification and simulation. Describe physiological processes in dynamic system terms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BIOSC 1250 or NROSCI 1250 or 1070 or NUR 0012) and BIOENG 1320; PLAN: Bioengineering (BSE)

BIOENG 1310 - LINEAR SYSTEMS & ELECTRONICS 1

Minimum Credits: 3
Maximum Credits: 3
Bioinstrumentation covers electronic circuit theory and the practical aspects of building electronic prototypes. The mathematics of complex exponentials and complex impedance are also covered. A series of projects are built by each student individually, using a system of student-owned electronics components and tools called the PittKit. The kit includes a special apparatus, the breadboard laboratory interface processor (BLIP) which each student constructs, and which acts as a logging voltmeter, a frequency meter, a logic analyzer, a waveform generator, and a pulse duration meter. The blip interfaces to any computer via a USB port, without requiring any special software to be installed on the computer. After completing the course, the student should be able to design and construct prototypes of useful, simple circuits, such as preamplifiers and signal conditioners for sensors, as well as use off-the-shelf modules to construct laboratory instrumentation. They should be able to describe applications to other linear systems such as those found in physiological systems with greater clarity from having worked with circuits.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0240 and (PHYS 0175 or PHYS 0476); PLAN: Bioengineering (BSE or BEH)

BIOENG 1311 - HEMODYNAMICS AND BIOTRANSPORT

Minimum Credits: 3
Maximum Credits: 3
This course covers the fundamental principles of fluid mechanics and mass transport as applicable to physiological and biological systems. The fluid

mechanics coverage emphasizes blood flow in the cardiovascular system. Topics include Poiseuille flow and circulatory flow resistance, blood rheology and tube flow of blood, pulsatile blood flow in arteries, and microcirculatory blood flow. The mass transport coverage emphasizes steady and unsteady diffusion, mass transfer coefficients and correlations, controlled release, coupled diffusion and reactions in biological systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1220 or CHE 0300; PROG: School of Engineering

BIOENG 1320 - BIOLOGICAL SIGNALS & SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
The theory and application of linear time-invariant (LTI) systems is explored, with emphasis on an appreciation of the description and analysis of biomedical signals and systems via LTI methods. After completing the course, the student should be able to state the properties of LTI systems; be able to test whether a system is LTI; know how to obtain, and interpret, the frequency response, impulse response, step response, and transfer function of a system. The student should also be able to demonstrate mastery of the mathematical skills of convolution and integral transform techniques
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1310 and MATH 0240 and MATH 0290; PLAN: Bioengineering (BSE or BEH)

BIOENG 1330 - BIOMEDICAL IMAGING

Minimum Credits: 3
Maximum Credits: 3
Biomedical imaging introduces the major imaging modalities (x-ray, cat-scan, MRI, ultrasound) used in clinical medicine and biomedical research, as well as the fundamentals of images, from a signals and systems standpoint. After completing the course, the student should be able to use imaging modalities to determine anatomical or physiological function and apply physics and signal processing in medical imaging for particular research applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1320; PROG: Swanson School of Engineering

BIOENG 1350 - PRACTICAL C++ PRGMG FOR ENGNRS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to teach you c++ programming in the context of real-world tasks that you will likely encounter in future academic or industrial work. In these applications, project management, working with different compilers and operating systems, and learning to effectively use source code that was written by other developers is no less important than programming theory. In this course we will cover the fundamentals of c++, object oriented design, programming with graphical user interfaces, and a basic 3d graphics. By the end of this class, you will know how to effectively use c++ to solve real-world computing problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Graduate School of Engineering

BIOENG 1351 - COMPTR APPLCTNS IN BIOENGNRNG

Minimum Credits: 3
Maximum Credits: 3
C++ programming is taught in the context of real-world tasks that engineering students will likely encounter in future academic or industrial work. In such applications, project management, working with different compilers and operating systems, and learning to effectively use source code that was written by other developers is no less important than programming theory. The fundamentals of c++, object oriented design, programming with graphical use upon completing the course, students should be able to successfully implement a solution to basic engineering programming tasks using the c++ language. Students should be able to identify and utilize open source and commercial software libraries to tackle more advanced design problems without coding from scratch. Students should be able to effectively use c++ to solve real-world engineering computing problems. R interfaces, and basic computer vision are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CS 0441 or (ENGR 0012 or ENGR 0712 or ENGR 0716); PLAN: Bioengineering (BSE, MN)

BIOENG 1360 - MATHMTCL METHODS IN BIOENGRNG

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1220 and BIOENG 1255; PLAN: Bioengineering (BSE); LVL: Sr

BIOENG 1370 - COMPUTATIONAL SIMULATION IN MEDICAL DEVICE DESIGN

Minimum Credits: 3
Maximum Credits: 3
Computational simulation is increasingly utilized as a method to assess the performance of medical devices. The course provides students with a hands on learning experience on how to use computational simulation in the modeling and design of medical devices. The course details the important steps in computational simulations from preprocessing to solution to post-processing and data presentation. Commercially available software programs are introduced and used to simulate a variety of physical phenomena (solid, fluid, transport) pertinent to medical device design. Upon completing the course, the student should be able to simulate the solid, fluid, and transport phenomena that are useful in medical device design. Particular attention will be placed on avoiding common mistakes in the preprocessing and interpretation of computational results. Topics covered: geometry creation; discretization; appropriate assignment of material properties; solver management; error mitigation and debugging; postprocessing and data presentation; data interpretation; introduction to design optimization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG
Course Requirements: PREQ: MATH 0280; CREQ: BIOENG 1220 and 1630

BIOENG 1380 - MEDICAL IMAGING SYSTEMS 1

Minimum Credits: 3
Maximum Credits: 3
A systems perspective introduction to the fundamentals of medical imaging techniques used to generate cross-sectional images of patients. Emphasis on use of multi-dimensional Fourier Transforms to develop the generalized central-section theorem used in tomography and the imaging equation used in MRI. The critical concepts of image snr and image quality will also be introduced. MRI and X-ray CT are used as two sample modalities to explore these basic concepts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1383 - BIOMEDICAL OPTICAL MICROSCOPY

Minimum Credits: 3
Maximum Credits: 3
Optical imaging microscopy techniques have become essential tools to investigate biological processes and diagnose diseases at unprecedented cellular and molecular levels. Biomedical researchers have an increasingly important need both to understand the advantages and limitations of the various types of optical microscopy and to apply the appropriate microscopy technique to solve specific biomedical problems. Biomedical optical microscopy is a comprehensive exploration of the basic principles of optical microscopy and imaging techniques commonly used in biomedical research. Upon completion of the course, the student should be conversant in the basic principles of common optical imaging microscopy techniques, able to apply an optical microscopy technique to address biological questions, and able to perform basic quantitative image analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0102 or PHYS 0106 or PHYS 0111 or PHYS 0175 or PHYS 0476 or 1306 or PHYS 1361) or BIOENG 1075; PLAN: Bioengineering (BSE or BEH)

BIOENG 1384 - APPLC OF NMR SPCTRSCPY IN MED

Minimum Credits: 3
Maximum Credits: 3
This course constitutes into two parts. The first part is intended to teach basic understanding of nuclear magnetic resonance (NMR) spectroscopy with numerous examples. Development of two-dimensional, three- dimensional NMR spectroscopy. Focus will be given to design of different NMR experiments for drug discovery, protein structure determination and dynamics of protein molecule. Special emphasis will be given to product operator formalism and different 2d and 3d NMR experiments will be explained with the help of product operator formalism. Classes will focus on NMR data analysis and protein structure calculation. The second part of the course will teach brain imaging using functional imaging (FMRI) and magnetic resonance spectroscopy (MRS) methodology and their application to different neurodegenerative diseases such as Alzheimer and Parkinson disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1390 - INTRODCTN TO IMAG PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Introductory subjects in image processing include image spaces and image representation, image enhancement, edge detection, edge and region based segmentation, and feature extraction and object recognition. Spatial and frequency domain approaches will be addressed with emphasis on spatial

domain approaches. Some problems are solved on the computer in the c programming language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1391 - PROJECTS IN COMPUTER VISION

Minimum Credits: 3
Maximum Credits: 3
A set of full term group projects attacking problems in image processing and computer vision. Projects will typically involve the development of problem solutions on computer vision workstations in the c programming language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1410 - BIOLOGICAL SIGNALS AND SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course presents the mathematical techniques used to analyze continuous and discrete signals and linear systems. Examples from biological systems and medical applications are used to give students experience in the applications of these techniques. Topics include mathematical modeling of physical systems, transform theory, and use of Laplace and Fourier Transforms to solve linear differential equations. Frequency-domain analysis, system stability, and the sampling theorem are discussed. Discrete Fournier Transforms and Z-Transforms are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1530 - BIOCHEMISTRY FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
This course is aimed at defining biochemistry needed by engineers, and includes: cell structure, structure and properties of biological molecules, the fundamentals of microbiology and bacterial growth and culture, cellular metabolism, cellular energetics, the principles and applications of genetic engineering, enzymology and applied enzymology including protein engineering, biological effluent treatment, and practical examples of biotechnology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1531 - FUNDMS OF BIOCHEMICAL ENGR

Minimum Credits: 3
Maximum Credits: 3
This course focuses on application of engineering principles to the production of biomolecules and pharmaceuticals. Included are batch cultivation methods, continuous bioreactors, immobilized cell system, bioreactor consideration of mammalian cell cultures, cell metabolism, metabolic, metabolic engineering, and viral vectors and vaccines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0400 and (CHE 1530 or BIOSC 1000); PROG: Swanson School of Engineering

BIOENG 1532 - BIOSEPARATIONS

Minimum Credits: 3
Maximum Credits: 3
Bio separation processes are critical for purification of peptides and proteins, nucleic acids, vaccines and viral vectors, and a host of other biomolecules of interest in pharmaceutical and biotechnology industries. This course will focus on downstream bioprocessing for separation and purification of recombinant and natural proteins, DNA, and viruses including viral vectors for gene therapy applications. Ultrafiltration, tangential or cross flow systems, precipitation, and chromatography-based processes will be examined. Ion exchange and affinity chromatography will be discussed in detail. Application of genomic manipulation and proteomics for improvements in bio separation processes will also be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CHE 1531 or BIOENG 1531; PROG: School of Engineering

BIOENG 1533 - CONTROLLED DRUG DELIVERY

Minimum Credits: 3
Maximum Credits: 3
Controlled drug delivery explores the physics, chemistry, and material science rationale behind the engineering of controlled drug delivery systems, which stands as a 114 billion dollar industry. To this end, the course focuses on topics at the interface between chemical engineering and medicine, such as polymer chemistry, biomaterials, pharmacokinetics, and transport phenomena. Pertinent pharmaceutical examples that are discussed include: transdermal, aerosol, oral, gene, and targeted cellular delivery, with emphasis placed on fabrication considerations and the relevant physiological environment. Upon completing the course, the student should be able to state the constraints on material properties posed by the physiological environment; use the fundamentals of polymers, diffusion, degradation, modeling and pharmacokinetics to solve problems specific to controlled drug delivery; and demonstrate ability to search and summarize primary research literature, write a review article, and deliver a cohesive oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BIOSC 1000 or BIOSC 1810 or CHEM 1810) and (BIOENG 1220); PLAN: Bioengineering (BSE or BEH)

BIOENG 1580 - BIOMD APPLC OF SIGNAL PROCING

Minimum Credits: 4
Maximum Credits: 4
The fundamentals of digital signal processing of time series are developed, via applied exercises and projects with a focus on medical and biological signal analysis and interpretation. Biomedical applications are selected from a variety of areas, such as cardiovascular, gait and balance, electrophysiological (EEG, EKG, ECOG, ETUPON completion of this course, students should be able to properly acquire data in digital form; perform standard methods of spectral analysis; implement and apply linear time-invariant discrete-time filters; and demonstrate basic skills in digital signal processing. C.) And neural signal processing, among others. Upon completion of this course, students should be able to properly acquire data in digital form; perform standard methods of spectral analysis; implement and apply linear time-invariant discrete-time filters; and demonstrate basic skills in digital signal processing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1320 and (ENGR 0012 or 0712 or 0716); PLAN: Bioengineering (BSE or BEH)

BIOENG 1585 - METHODS & LOGIC NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
The course will examine some of the major scientific results in behavioral neuroscience, and the mathematical and computational principles of brain function they illustrate. Neuroscience topics will include sensory transduction, visual processing, motor control, and neural prosthetics. Students will learn to apply techniques from signals and systems, statistics, machine learning, information theory, and control theory to neuroscience data sets. Course format will consist of lectures, and student-led discussions of important publications in neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1586 - QUAN SYSTEMS NEUROSCIENCE

Minimum Credits: 3
Maximum Credits: 3
The course examines some of the major scientific results in Behavioral Neuroscience, and the mathematical and computational principles of brain function they illustrate. Neuroscience topics include sensory transduction, visual processing, motor control, and neural prosthetics. Students learn to apply techniques from signals and systems, statistics, machine learning, information theory, and control theory to neuroscience data sets. Course format consists of lectures and student-led discussions of important publications in neuroscience. Upon completing the course, the student should be able to describe organizing principles of brain function, from biological and theoretical perspectives apply statistics, signal processing, and machine learning techniques to the analysis of biological data sets design novel experiments, analyses, and data interpretation demonstrate critical evaluation scientific and technical literature
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BIOENG 1071 or BIOENG 1072) and BIOENG 1255 and BIOENG 1320; PLAN: Bioengineering (BSE or BEH)

BIOENG 1590 - BIOMED APPLICATION OF CONTROLS

Minimum Credits: 3
Maximum Credits: 3
The goal of this course is to provide students with system modeling and control design experience in biological systems and medical applications. Root locus, proportional-integral-derivative, and state variable methods for feedback controller design are introduced. Specific applications to be considered include analysis of the muscle stretch reflex, the Vestibulo-ocular reflex system, and control of artificial organs, including ventricular-assist devices and the artificial pancreas, characterization of design criteria in terms of application requirements and problems.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1601 - PRIN & PROPS CPLX ENGNRD MATLS

Minimum Credits: 3
Maximum Credits: 3
Complex engineered materials are a new class of systems comprising a variety of inorganic materials. This course is designed to introduce the principles and various functional properties exhibited by inorganic materials at the Nano, Micro and Meso scales. Since inorganic materials comprising metallic and non-metallic systems are a very complicated class of materials that display myriad properties, this course is outlined to discuss the most important properties. Thus, the course will mainly cover optical, electrical, thermal and electrochemical properties of both crystalline and amorphous inorganic complex engineered materials. In each category, the principles underlining each property will be discussed followed by the material class, behavior and applications. The effect of microstructure on each of the properties will also be discussed. The course objective is to introduce the student to these complex engineered materials family and their properties. In doing so, the student should be able to identify a material for a particular application
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (CHE 0200 or MEMS 1051 or BIOENG 1210) and ENGR 0022 and MATH 0290; LVL: Jr or Sr; PROG: Swanson School of Engineering

BIOENG 1620 - INTRO TO TISSUE ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Tissue engineering (TE) is defined as the development and manipulation of laboratory-grown molecules, cells, tissues, or organs to replace and/or support the function of injured body parts. TE is highly interdisciplinary and therefore crosses numerous engineering and medical specialties. The course introduces students to the fundamentals of TE and the biomaterials, cells and growth factors used in TE through consideration of cell and tissue biology, biomaterials, drug delivery, engineering methods and design, and clinical implementation. Specific applications include skin, nerve, bone, and soft tissue regeneration. Throughout the course ties are made between the topic of study and clinically relevant situations. Upon completing this course, students should be able to: describe basic principles behind human cell and tissue biology and cell; describe the general types of biomaterials used in tissue engineering; describe techniques utilized to design, fabricate, and functionally assess tissue engineering systems; and, apply the combined knowledge of tissue organization and tissue engineering strategies to design a unique, reasonable tissue engineering solution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1810; PLAN: Bioengineering (BSE)

BIOENG 1630 - BIOMECH 1-MECHL PRIN BIO SYMS

Minimum Credits: 3
Maximum Credits: 3
Biomechanics 1 is a first course in undergraduate biomechanics that applies and builds on the concepts of statics, dynamics, and mechanics of materials as applied to human activities and tissues. After briefly reviewing equilibrium concepts and free body diagrams as applied to the human body, principles from kinetics are used to develop dynamic descriptions of human motion. Finally, engineering concepts employed in description of the fundamental strength of materials are applied to biological tissues. After completion of the course, students should be able to describe the general characteristics and material properties for tissue and organs studied in the course, analyze the forces at a skeletal joint for various static and dynamic human activities, state and use the concepts of balance and stability in describing human motion, and compute the stresses and strains in biological tissues, given loading conditions and material properties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0135; PLAN: Bioengineering (BSE or BEH)

BIOENG 1631 - BIOMECHANICS 2

Minimum Credits: 3
Maximum Credits: 3
Modern biomechanics is an increasingly diverse field that encompasses the mechanics of the whole body, all the way down to the cellular and molecular levels. Students are introduced to fundamental concepts and techniques of biodynamics and bio solid mechanics which provide the basis for biomechanics 3 and 4. General approaches used in mechanics are introduced throughout the semester and applied in several laboratories. Upon completing the course, the student should be able to demonstrate recall of functional anatomy of musculoskeletal system perform inverse dynamic analyses describe the principles of basic muscle biomechanics perform analyses of deformable bodies (including viscoelastic materials) describe general experimental techniques for rigid and deformable body analyses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1630; PROG: Swanson School of Engineering

BIOENG 1632 - BIOMECH 3: BIODYNAMICS OF MOVM

Minimum Credits: 3
Maximum Credits: 3
Biodynamics, the area of focus in biomechanics 3, is the study of large-scale movements in biologic systems. As such, the course focuses on the analysis of human movement, which is used in clinical and research settings to understand how various pathologies impact movement and how interventions can be implemented to aid those affected by movement disorders. We cover the fundamentals of biomechanics of human movement using mechanical modeling techniques. The major focus is kinematic analyses in three dimensions using matrix techniques. Some fundamentals of kinetics are covered as well, 2d and 3d inverse dynamics. Upon completing the course, the student should be able to describe basic methods of kinematic/kinetic analysis used in multi-link systems and be able to implement the methods in the analysis of human movement. Students should also be able to apply the methods to study common human movements, e.g. Gait analyses, eye movement analyses, etc. Finally, students should be able to use the computer programming language, mat lab, to perform computations on kinematic data.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1631 and MATH 0280 and (ENGR 0012 or ENGR 0712 or ENGR 0716); PLAN: Bioengineering (BSE or BEH)

BIOENG 1633 - BIOMECHANICS 4

Minimum Credits: 3
Maximum Credits: 3
Modern biomechanics is an increasingly diverse field that encompasses the mechanics of the whole human body, including all the way down to the cellular and molecular levels. Biomechanics 4 builds upon biomechanics fundamentals learned in BIOENG 1630 and BIOENG 1631 in building a comprehensive application of bio solid mechanics to describe the mechanical behavior of soft and hard biological tissues. The course provides fundamental concepts in the development and application of constitutive models, as well as a foundation for more advanced topics that are covered in graduate school. Mathematica (Wolfram Research, Inc.) Is used both in class and for assignments. Upon completing the course, the student should be able to formulate biomechanics constitutive models that describe soft and hard tissues and use Mathematica as a framework for exploring the impact of model parameters in the model description.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1631 and MATH 0280; PLAN: Bioengineering (BSE or BEH)

BIOENG 1680 - BIOMEDICAL APPLC OF CONTROL

Minimum Credits: 4
Maximum Credits: 4
The goal of this course is to provide students with systems modeling and control design experience in biological systems and medical applications. Root locus and frequency response methods for compensation are reviewed, and state-variable models for controller design are introduced. Several specific control problems drawn from medical applications and biological research are discussed in depth, with appropriate physiological background being presented. Characterization of design criteria in terms of application requirements and problems in implementing control solutions are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOENG 1320; PLAN: Bioengineering (BSE)

BIOENG 1710 - INTRO TO REHABILITATION ENGR

Minimum Credits: 3
Maximum Credits: 3
This course introduces undergraduate engineering students to the field of rehabilitation engineering by applying engineering concepts to reduce the barriers people with disabilities currently face. Topics include analysis and design of sensory aids for vision and hearing; electrical stimulation of nerve; design of accessible accommodations; analysis and design of prosthetics; biomechanics of wheelchair propulsion; solutions for interfacing technology and people with disabilities; ethical considerations of designing technology for people with disabilities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

BIOENG 1810 - BIOMAT AND BIOCOMPATIBILITY

Minimum Credits: 3
Maximum Credits: 3
Undergraduate students are introduced to an advanced understanding of biomaterials and the use of biomaterial in areas such as tissue engineering, artificial organs, and implantable devices. Throughout the course, ties are made between the topic of study and clinically relevant biomaterial performance. The course introduces various biomaterials, such as polymers, metals, and ceramics, with the focus on biomaterial synthesis, characterization, structure-property relationship and surface modification. Biocompatibility issues of biomaterials will be discussed from different aspects such as protein adsorption, foreign body reaction, immune and inflammatory response, and sterilization. Finally, examples of clinical applications are discussed. Upon completing the course, the student should be able to: state the basic principles behind human tissue response to artificial surface implantation, describe the general types of materials used in soft and hard tissue replacements, drug delivery devices, and

extracorporeal devices, describe techniques utilized to control the physiologic response to artificial surfaces, and identify various design strategies and clinical applications of biomaterials
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CHEM 0320 and (BIOSC 1000 or BIOSC 1810 or CHEM 1810); PLAN: Bioengineering (BSE or BEH)

Biological Sciences

BIOSC 0050 - FOUNDATIONS OF BIOLOGY LAB 1

Minimum Credits: 1
Maximum Credits: 1
This is the first course in a two-course sequence on the study of organisms in the laboratory and the field. We will work with techniques that are important in biology and apply these techniques to illustrate basic biological principles, with an emphasis on living organisms. The laboratory exercises focus on cell structure and function, basic cellular processes, plant structure and function, and basic animal anatomy and physiology.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0150 or 0715 or 0170 or 0190 or BIOL 0101 or 0110 (MIN GRADE: 'C' for all courses listed) or CREQ: BIOENG 1070

BIOSC 0057 - FDS OF BIOLOGY RESEARCH LAB 1

Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce biology as an experimental science and attempts to expose the student to some basic concepts and laboratory techniques in a more challenging fashion and in greater depth than BIOSC 0050. BIOSC 0057 provides a foundation for future laboratory courses and work in biology.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: BIOENG 1070; PREQ: (BIOSC 0150 or 0170 or 0715 or 0190) or (BIOL 0101 or 0110); Min Grade 'C'

BIOSC 0058 - FDS BIOLOGY PHAGES LAB 1

Minimum Credits: 1
Maximum Credits: 1
This research-focused version of BIOSC 0050 uses bacteriophage discovery to introduce biology as an experimental science. Students learn current laboratory techniques through discovery, isolation, and characterization of their own novel virus. Students will be introduced to concepts in microbiology, evolution, and molecular biology through hands-on experiments driven by results obtained during class. This course is the first half of a two-part course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LEVEL: Freshman or Sophomore

BIOSC 0060 - FOUNDATIONS OF BIOLOGY LAB 2

Minimum Credits: 1
Maximum Credits: 1
This one-credit laboratory course is the second in a two-course sequence designed to be an introduction to scientific inquiry in the biological sciences for majors in biology and related fields. You will use genetics, biochemistry, and molecular biology to undertake authentic research exploring the evolution of metabolic pathways in different species.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0050 or 0057 or 0058 or 0070 or 0190 or BIOL 0101 or 0111) and (BIOSC 0160 or 0716 or 0180 or BIOL 0102 or 0120); Min Grade 'C'

BIOSC 0067 - FOUNDTNS OF BIOL RES LAB 2

Minimum Credits: 1
Maximum Credits: 1
This research-focused version of BIOSC 0060 uses real research projects to introduce biology as an experimental science. Students learn current laboratory techniques through an inquiry-based project or set of projects throughout the semester. Experiments can focus on genetics, molecular biology, evolution, and ecology.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: (BIOSC 0050 or 0057 or 0058 or 0070 or 0190 or BIOL 0101 or 0111) and (BIOSC 0160 or 0180 or 0716 or BIOL 0102 or 0120); Min Grade 'C'

BIOSC 0068 - FDS OF BIOLGY SEA-PHAGES LAB 2

Minimum Credits: 1
Maximum Credits: 1
This research-focused version of BIOSC 0060 uses bacteriophage genomics to introduce biology as an experimental science. Students learn current computational biological techniques through annotation and characterization of novel viral genomes. Students will be introduced to concepts in bioinformatics, microbiology, evolution, and molecular biology through hands-on experiments driven by results obtained during class. This course is the second half of a two-part course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0058

BIOSC 0100 - PREPARATION FOR BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is intended for students who have not had high school biology in the past five years. The course is also highly recommended for students who have not completed algebra. The lecture will over a subset of topics from foundations of biology 1 and 2, including a discussion of basic chemistry used in biology, cell biology including mitosis and meiosis, human anatomy and physiology, and an introduction to genetics. The weekly recitations will explore topics covered in lecture in more depth and integrate problem solving and study skills. Some laboratory exercises will be included in the recitation period to re-enforce the lecture topics by giving students the opportunity to investigate the experimental aspect of biology. The laboratory exercises and assignments will focus on basic math and writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1

Minimum Credits: 3
Maximum Credits: 3
This introductory course in biology is divided into two parts. The first part covers the cellular basis of life including a discussion of simple chemistry; cells as units of structure and function; and energy transformations. The second part includes an examination of those functions common to all organisms such as nutrition, gas and fluid transport, and hormonal and neuronal control. Throughout, the emphasis is on the mechanisms used to accomplish these basic functions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2

Minimum Credits: 3
Maximum Credits: 3
This introductory course covers the basic principles of genetics, evolution, and ecology. Emphasis will be placed on the experimental and observational basis for our knowledge of these subjects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0150 or 0715 or 0170 or 0190) or (BIOL 0101 or 0110); Min Grade 'C'

BIOSC 0190 - INTRO TO BIOLOGICAL WORLD 1

Minimum Credits: 4
Maximum Credits: 4
This introductory biology course integrates lab and lecture and is recommended to those students interested in pursuing research in the biological sciences and/or in building problem solving and data analysis skills. Lectures cover macromolecule structure and function, energy and metabolism, and histology and physiology of select organ systems. Labs expose students to cutting-edge research methods and are run by the same instructors that teach the lecture portion of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Fr

BIOSC 0191 - INTRO TO BIOLOGICAL WORLD 2

Minimum Credits: 4
Maximum Credits: 4
This introductory biology course integrates lab and lecture and is recommended to those students interested in pursuing research in the biological sciences and/or in building problem solving and data analysis skills. Lectures cover genetics, development, ecology, and evolution. Labs expose

students to cutting-edge research methods and are run by the same instructors that teach the lecture portion of the course. This course is equivalent to BIOSC 0160/BIOSC 0060 or BIOSC 0716/ BIOSC 0060.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BIOSC 0190

BIOSC 0200 - TEACHING BIOLOGICAL SCIENCES

Minimum Credits: 1
Maximum Credits: 3
Teaching biology is a complex and multi-faceted challenge. It requires the integration of deep disciplinary knowledge with a functional understanding of learning theory and the development of practical skills for working with students. Teaching biological sciences is designed to help you explore multiple strategies for effective teaching and learning and refine your own understanding of biology through efforts to become a better science communicator. The course has both seminar and project based components. You are encouraged to coordinate your work in this course with existing teaching opportunities but this is not required.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180) or (BIOL 0102 or 0120); Min Grade 'C'

BIOSC 0350 - GENETICS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to examine the gene in the following dimensions: the gene as a unit of transmission, a unit of function, and a unit of mutation. In addition, the distribution and activity of genes in populations will be considered in the context of current theories of evolution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180) or (BIOENG 1071 or 1072) or (BIOL 0102 or 0120) and (CHEM 0120 or 0720 or 0770 or 0970 or 0102 or 0112 and 0114); Min Grade 'C'

BIOSC 0351 - GENETICS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory exercises designed to illustrate the major principles of genetics.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121); Min Grade 'C'; CREQ: (BIOSC 0350 or 0355 or BIOL 0350 or 0203); Min Grade 'C'

BIOSC 0355 - UHC GENETICS

Minimum Credits: 4
Maximum Credits: 4
This course is designed to examine the gene as a unit of transmission, a unit of function, and a unit of mutation. The course emphasizes the relationship between classical mendelian genetics and the modern molecular understanding of gene structure and function. Recitations are used for week ly problem sets and discussion of exercises in the virtual flylab, an internet-based simulation of genetic experiments with the fruit fly drosophila melanogaster.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL (0102 or 0120)] and [CHEM 0120 or 0720 or 0102 or (0112 and 0114)]; Min Grade 'C' for all classes listed.

BIOSC 0370 - ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
The objective of the course is to provide a broad introduction to the study of ecology at the undergraduate level, through the presentation of lectures dealing with organismal, population, community, and ecosystem levels of hierarchical organization. The contributions of laboratory and field investigations to the development of ecological knowledge will be considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all classes listed.

BIOSC 0390 - ECOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
The objective of the laboratory course is to provide students with practical experience in ecological methods and in the design, conduct, and analysis of ecological studies. Laboratory exercises are designed to correspond with major lecture topics presented in BIOSC 0370. Exercises will include laboratory and field studies.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0060 or 0067 or 0068 or 0080 or 0191 or BIOL 0102 or 0121; CREQ: BIOSC 0370 or 0371 or BIOL 1430 or 1515; Min Grade 'C' for all classes listed.

BIOSC 0391 - ECOLGY LABORATORY WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for ecology laboratory, BIOSC 0390. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 0390. The reports and essays will be returned with instructor comments for student revision and resubmission.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102 or ENGR 0012; CREQ: BIOSC 0390; PLAN: Ecology and Evolution (BS)

BIOSC 0715 - UHC FOUNDATIONS OF BIOLOGY 1

Minimum Credits: 3
Maximum Credits: 3
This course covers biological phenomena at the cellular level: macromolecules, cell structure, photosynthesis, cell respiration, homeostasis, signaling and genetics. The experimental basis supporting our understanding of these processes will be introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: MIN CUM GPA: 3.25 or Advanced Placement Biology Test Score equal/greater 4 or International Baccalaureate Biology Score equal/greater 5

BIOSC 0716 - UHC FOUNDATIONS OF BIOLOGY 2

Minimum Credits: 3
Maximum Credits: 3
This course will cover the cell cycle, DNA replication, transcription, translation, molecular biology, biotechnology, genomics and bioinformatics, plant development, and animal development. The experimental basis supporting our understanding of these processes will be introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0715 (MIN GRADE: 'C') or Advanced Placement Biology Test Score equal/greater 5 or International Baccalaureate Biology Score equal/greater 7; MIN CUM GPA: 3.25

BIOSC 0740 - YELLOWSTONE FIELD COURSE

Minimum Credits: 4
Maximum Credits: 4
The honors program of the University of Pittsburgh, in conjunction with the Department of BIOSC, has developed a summer field course in ecology which will be held in and adjacent to the yellow stone region of Wyoming and Montana. Field study opportunities will be emphasized and will comprise approximately 50% of the student contact hours.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0800 - BIOLOGY FOR NON-MAJORS 1

Minimum Credits: 3
Maximum Credits: 3
This is a course in human biology and physiology for students not majoring in biology. The goal is to provide students with an understanding of fundamental principles of life with an emphasis on the human body. The course will cover basic biochemistry and cell biology and then move to the structure and function of human organ systems. An essential part of the course is discussion of current issues, such as infectious, autoimmune and neurodegenerative diseases; asthma and allergy; nutrition and health; stem cells research and cloning; and methods of contraception and reproductive technologies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0805 - THE HUMAN BODY

Minimum Credits: 3
Maximum Credits: 3
This is a course in human biology and physiology for students not majoring in biology. The goal is to provide students with an understanding of fundamental principles of life with an emphasis on the human body. The course will cover basic biochemistry and cell biology and then move to the structure and function of human organ systems. An essential part of the course is discussion of current issues, such as infectious, autoimmune and neurodegenerative diseases; asthma and allergy; nutrition and health; stem cells research and cloning; and methods of contraception and reproductive technologies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0810 - BIOLOGY FOR NON-MAJORS 2

Minimum Credits: 3
Maximum Credits: 3
At an ever-increasing pace, issues of biological relevance are confronting the citizenry of this country and the world. Ranging from personal through political to global, these issues require that individuals have at lEast a rudimentary knowledge of basic biological phenomena in order to make informed decisions. The major goal of this course, together with its companion, BIOSC 0800, is to provide students (citizens) with the intellectual tools needed to approach these issues as they arise.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0815 - GENES AND DISEASES

Minimum Credits: 3
Maximum Credits: 3
This course is designed to give students not majoring in biology the essential background in genetics and evolution to understand human disease. The material covered includes the fundamental principles of genetics, the role of genes and environment in various diseases, genomics, and the role of evolution. An essential part of the course is the discussion of current issues, such as genetic diseases, genetic screening, reproductive cloning, gene therapy, genetic basis of cancer, and emerging and reemerging diseases.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0825 - SPEC TOPCS IN BIOL NON-MAJORS

Minimum Credits: 1
Maximum Credits: 3
A major topic in biology will be developed and explored by students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

BIOSC 0850 - SCIENCE OF EVERYDAY LIFE - 1

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell; genetics; evolution. Emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 0851 - SCIENCE OF EVERYDAY LIFE - 2

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell; genetics; evolution; emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: BIOSC 0850 or PHYS 0850 or CHEM 0850; Min Grade 'C' for all courses listed

BIOSC 1000 - BIOCHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide students with a basic understanding of the principles and underlying themes of modern biochemistry. The course includes all the major topics in biochemistry in considerable depth including thermodynamics and enzymology, protein and nucleic acid structure, function, and synthesis, lipids and membranes as well as metabolic pathways. This course will require that you master a new vocabulary including chemical structures, and there is an emphasis throughout on experimental approaches, molecular mechanisms, and problem solving. Although the same topics will be covered as in the two semester biochemistry series (BIOSC 1810-1820), no one topic in BIOSC 1000 will be covered in as much detail.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) (Min Grade 'C' for these courses) and (CHEM 0320 or 0350 or 0740 or 0208 or 0232)

BIOSC 1005 - INTRO TO BIOCHEMISTRY LAB

Minimum Credits: 1
Maximum Credits: 1
This course will guide students through a common experimental approach that is used in academic and industry research labs. In the first part of the semester, students will clone genes that have been selected because they are new genes of interest to research labs within the department. In the second part of the semester, students will express their cloned genes and purify the encoded proteins. They will use computer analysis to predict possible functions of their proteins and then test their hypotheses using biochemical techniques.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or BIOSC 0067 or BIOSC 0068 or 0080 or BIOSC 0191) or (BIOL 0102 or 0121); CREQ: BIOSC 1000

BIOSC 1010 - COM IN THE BIOLOGICAL SCIENCES

Minimum Credits: 2
Maximum Credits: 2
Conventions of scientific communication will be taught in this junior/senior level course as students research, write and revise a position article and oral presentation about a biological controversy. Students will learn to locate information from peer-reviewed scientific literature in electronic databases. Through peer review exercises, students will develop evaluation skills and learn to incorporate feedback. Document design, argument construction, and readability will be taught and practiced with the goal of producing a clear and concise written document and oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0350or0355or0370or0371or1000or1810or1130) or (BIOL 0203or0350or1430or1515); MinGrad 'C'; and (ENGCMP 0004or0006or0020or0200or0203or0205or0207or0208or0250) or (FP 0003or0006) or (ENG 0102 or ENGR 0012); LVL: Jr or Sr; PLAN: BIOSC-BS

BIOSC 1030 - COMMERCIAL MICROBIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will serve as an introduction to the world of applied/industrial microbiology. To enter the course, students should have a sound background in chemistry and at least an initial contact with biochemistry and/or microbiology. The following topics will be dealt with: microbial physiology of relevant organisms; biochemical activity of microorganisms (secondary metabolite, diversity and biosynthesis); the beneficial aspects of microbial action - a series of case histories will be presented illustrating the utilization of applied microbiology in the production/processing of drugs (E.G ethanol), coal and oil, and in the disposal of waste; the deleterious aspect of microbial action - a series of case histories will be presented illustrating how microorganisms can affect humans adversely (mycotoxins in food, microbial destruction of wood and fabric).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191) and (CHEM 0320 or 0350 or 0208 or 0232); Min Grade 'C' for all courses listed

BIOSC 1040 - AQUATIC ECOSYSTEM MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Through hands-on instruction in field methods of ecological assessment, combined with reading and lectures by experts, students learn the fundamentals of ecological management. Career possibilities in ecological management are also explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1070 - HUMAN PHYSIOLOGY-UHC

Minimum Credits: 4
Maximum Credits: 4
After a general introduction on cell biology, muscle physiology, and intracellular communication, this course will examine the function of the following systems: cardiovascular, respiratory, renal, gastrointestinal and immune. The systems will be considered in the context of the function of the body as a whole, and how they respond during challenges (e.g. exercise) and pathological states. Current research related to the functioning of these systems will be emphasized throughout the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180) or (BIOL 0102 or 0120) or (BIOENG 1071 or 1072) and [CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (0112 and 0114)]; Min Grade 'C' for all courses listed

BIOSC 1080 - HUMAN ANATOMY AND PHYSIOLOGY

Minimum Credits: 6
Maximum Credits: 6
This course is an introduction to the study of human structure and function. We will take a systems approach to study the anatomy of the human body and its normal function and maintenance. Each system will be examined from the perspective of development, tissue structure, adult anatomy and physiology. Lectures will assume that the student has had the equivalent of a major's level college course in introductory biology and introductory chemistry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120) and [CHEM 0120 or 0720 or 0101 or (0112 and 0114)]; Min Grade 'C' for all courses listed

BIOSC 1100 - TOPICS IN BIOLOGICAL RESEARCH

Minimum Credits: 2
Maximum Credits: 2
This course will address the how and why basic research in the biological sciences is performed and provide a basic knowledge behind experimental design. The goal of this course is to prepare students for undergraduate research as well as full-time research assistant positions and graduate programs. We will use real life examples of experimental systems employed by research faculty in the department of biological sciences. Meetings will consist of faculty presentations and class discussions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1120 - BIOSTATISTICS

Minimum Credits: 3
Maximum Credits: 3
This course provides students the knowledge on applications of statistical technique to biological problems. The data fit, regression analysis, significance of correlation coefficient and of standard error of estimate will be discussed. The binomial, normal, and Poisson distributions, the student's t-distribution and the chi-squared distribution will be introduced. Hypothesis testing, significance levels, confidence limits for large and small samples and non-para metric statistics will be covered. Basic computer programming (use of BMDP and statview) will be introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0180 or 0191 or 0716 or BIOL 0102 or 0120 (Min Grade 'C') and STAT 1000

BIOSC 1130 - EVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to biological evolution. The theory, process and pattern of evolutionary change are presented. This course will encompass both micro evolutionary and macro evolutionary concepts. Lecture topics will include inheritance and variation, population genetics, natural selection, speciation, adaptation, the fossil record, and phylogenetic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0350 or 0355 or BIOL 0203 or 0350; Min Grade 'C' for all courses listed

BIOSC 1140 - BEHAVIORAL ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
Behavior is studied from an evolutionary perspective. Current models of foraging, mating, and social behavior are evaluated through classroom and field work.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1150 - HISTORY OF EVOLUTNARY THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course is team taught by an evolutionary biologist and a historian and philosopher of biology. The historical and philosophical foundations of evolutionary biology, along with the principles of evolutionary biology itself, are examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1160 - FOREST ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
Study of environmental factors and their influence on reproduction, growth, and development of individual trees and forest stands. Provides the biological basis for forest resources management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1170 - FRESHWATER ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
A field-oriented study of lakes, reservoirs, and streams as dynamic systems. Emphasis will be placed on the use of quantitative sampling and analytical techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1180 - ECLGY OF AMPHIBIANS & REPTILES

Minimum Credits: 3
Maximum Credits: 3
This course will include the ecology, evaluation, identification techniques, habitats, and life histories of amphibians and reptiles. While emphasis will be on the amphibians and reptiles of western Pennsylvania, those species occurring in the bordering states of Ohio, New York, and west Virginia will also be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0180 or 0191 or 0716 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1190 - AQUATIC ENTOMOLOGY

Minimum Credits: 3
Maximum Credits: 3
An introduction to aquatic insects. Subjects emphasized will include ecology, morphology, evolution, habitats, and identification. Field and laboratory experiences will be supplemented with lectures and selected readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1200 - VERTEBRATE MORPHOLOGY

Minimum Credits: 3
Maximum Credits: 3
A study of the gross anatomy, histology, development, and evolution of the vertebrate body. Topics: vertebrate origin, phylogeny, and classification; basic histology; early embryology; evolutionary morphology; integument; skeletal system; muscular system; sense organs; nervous system; endocrine system; body cavity and mesenteries; digestive system; respiratory system; circulatory system; excretory system; reproductive system. Each system is examined in terms of its embryonic development, histology, functional anatomy, and evolutionary history. General principles of evolutionary morphology are emphasized. The purpose of the course is to provide an understanding of the history and functional anatomy of the body. It is designed as a background for studies in embryology, physiology, systematics, and human anatomy and physiology in professional schools.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1205 - VERTEBRATE MORPHOLOGY LAB

Minimum Credits: 1
Maximum Credits: 1
This is a laboratory to accompany BIOSC 1200. Students will dissect a shark and a cat, study various skeletons, and examine histology slides. The purposes of the course are to illustrate the structures discussed in the BIOSC 1200 lectures and to give the student the personal experience of learning animal structure through dissection and observation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or BIOSC 0067 or BIOSC 0068 or 0080 or BIOSC 0191) or (BIOL 0102 or 0121); CREQ: BIOSC 1200

BIOSC 1210 - VERTEBRATE MORPHOLOGY LAB

Minimum Credits: 2
Maximum Credits: 2
This is a laboratory to accompany BIOSC 1200. Students will dissect a shark and a cat, study various skeletons (including human), and examine histology slides. The purposes of the course are to illustrate the structures discussed in the BIOSC 1200 lectures, and to give the student the personal experience of learning animal structure through dissection and observation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0060 or 0191 or 0080 or BIOL 0102 or 0121; CREQ: BIOSC 1200; Min Grade 'C' for all courses listed

BIOSC 1220 - ECOLOGICAL FIELD STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course provides extensive field experience for undergraduates and will focus on developing the skills necessary for any practicing ecologist. Students will be involved in all stages of field projects including both individual and group exercises. Using a combination of lecture, extensive readings from the primary literature and hands-on field projects, the instructor will assist the students in gaining a proficiency with the background knowledge, thinking skills and technological tools necessary to conduct empirical ecological investigations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0370 or 0371 or BIOL 1430 or 1515; Min Grade 'C' for all courses listed

BIOSC 1230 - ORNITHOLOGY

Minimum Credits: 3
Maximum Credits: 3
The study of birds with a field-oriented emphasis revolving around the late spring migrants and the breeding species in a wide variety of habitats. Classroom topics will include study skins, nests, eggs, and the annual cycle.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191 or 0716) or (BIOL 0102 or 0120); Min Grade 'C' for all courses listed

BIOSC 1240 - HUMAN SKELETAL ANALYSIS

Minimum Credits: 4
Maximum Credits: 4
A lecture and lab course applicable to students of varied interests. Lectures will cover such topics as skeletal growth; dental and skeletal pathologies; criteria for determining the sex and age of individuals; the importance of morphological variation as population markers; induced skeletal alteration; lab techniques such as x-raying, measuring and reconstructing skeletal remains. Students must learn in detail the human skeleton.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

BIOSC 1250 - HUMAN PHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
After a general introduction on cell biology, physiology of nerves and muscle, and intercellular communication, this course will survey the function of the following systems: cardiovascular, respiratory, renal, and gastrointestinal. Each system discussed will be integrated into the larger function of homeostatic and their adaptation during pathology and challenges (e.g., exercise).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) and [(CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (0112 and 0114)]; Min Grade 'C' for all courses listed

BIOSC 1255 - PHYSIOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This laboratory course complements BIOSC 1250 - HUMAN PHYSIOLOGY. Students will spend the first half of the semester developing their skills by measuring homeostatic parameters of the human body (blood pressure, blood chemistry, muscle response, etc). They will then use that knowledge to design and perform experiments modeled after conditions of both eustress (exercise) and distress (disease). In addition to weekly assignments, students will be required to present the results of their research projects.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or BIOSC 0067 or BIOSC 0068 or BIOSC 0191 or 0080) or (BIOL 0102 or 0121); CREQ: (BIOSC 1250 or BIOENG 1070 or BIOSC 1080) or (NROSCI 1070 or NROSCI 1250); PLAN: Biological Sciences (BS)

BIOSC 1260 - AQUATIC BOTANY

Minimum Credits: 3
Maximum Credits: 3
Study of the algae and vascular plants occurring in local lakes, streams, and wetlands. Emphasis on identification, quantification, and ecological relationships of these aquatic organisms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1270 - ECOLOGY OF FISH

Minimum Credits: 3
Maximum Credits: 3
A field course dealing with the interrelationships of fish and the biotic and abiotic environment. Improvements of aquatic habitat and applied aspects of the ecology of fish and fishery biology will be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191 or 0716) or (BIOL 0102 or 0120); Min Grade 'C' for all courses listed

BIOSC 1280 - MICROBIAL GENETIC ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course will consist of a series of lectures discussing the molecular genetics of prokaryotic and eukaryotic microbes and ways in which they can be genetically engineered. It includes: (1) the genome structures of microbes, (2) classic methods for genetic exchange, (3) current approaches to genetic engineering, (4) applications of genetic engineering to human disease. Visits to the computer lab will introduce web-based analysis of microbial genome sequences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1850 and (BIOSC 0350 or BIOSC 0355 or BIOL 0350 or BIOL 0203); Min Grade 'C' for all courses listed

BIOSC 1285 - GENOMICS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or BIOSC 0067 or BIOSC 0068 or BIOSC 0191 or 0080 or BIOL 0102 or 0121) and (BIOSC 0350 or BIOSC 0355 or BIOL 0203 or 0350); PROG: School of Arts and Sciences (UA-S)

BIOSC 1290 - EXPERIMENTAL GENETIC ENGR LAB

Minimum Credits: 1
Maximum Credits: 1
This is a laboratory course focusing on the genetic engineering of prokaryotic and eukaryotic microbes. During this course, students will isolate novel mutants of a specific microbe and employ both traditional genetic approaches and current methods in molecular microbiology to clone, characterize and sequence the mutant alleles.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 1855 or 1860) and (BIOSC 0350 or BIOSC 0355 or BIOL 1315 or BIOL 0350); Min Grade 'C' for all courses listed

BIOSC 1291 - EXPRML GENETC ENGRG WRTNG PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is a writing practicum for experimental genetic engineering. Students will write three short laboratory reports based on work done in the corequisite course BIOSC 1290, and revise these, based on instructor comments, to form a final integrated paper.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1290 (Min Grade 'C'); PLAN: Microbiology (BS)

BIOSC 1300 - VERTEBRATE COMMUNITY ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
Consideration of the structure and function of terrestrial vertebrate communities, with emphasis on factors that determine community composition. Topics include the influences of species interactions, abiotic environment, and human impacts on community dynamics. Techniques of data gathering and analysis will be acquired during field studies of small mammal communities in two different habitats.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1310 - WETLAND ECOLOGY AND MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716) or (BIOL 0102 or 0120)

BIOSC 1320 - POPULATION BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This is a course in the scientific study of the distribution and abundances of animal and plant populations. The course will begin with the dynamics of single populations, emphasizing demography, exponential growth, and intra-specific competition. Next we will cover interactions between populations, especially competition and predation. Finally we will consider the implications of population dynamics to the evolution of life history strategies, to population regulation, and to community structure. Throughout, empirical studies of natural and laboratory populations will be used to test mathematical models of population processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0370 or 0371 or BIOL 1430 or 1515; Min Grade 'C' for all courses listed

BIOSC 1330 - FIELD BOTANY

Minimum Credits: 3
Maximum Credits: 3
Identification of native herbaceous and woody plants in terrestrial communities and the methods of quantifying their relative numbers, mass, and ecological relationships.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1340 - FIELD ENTOMOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is offered at the Pymatuning laboratory of ecology field station. An introduction to the amazing taxonomic and ecological diversity of insects and their close relatives in the phylum Arthropoda. Emphasis will be placed on the collection and identification of the adult stages. Field and laboratory exercises will be supplemented with lectures and selected readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1350 - PLANT BIOLOGY

Minimum Credits: 3
Maximum Credits: 3

This course will present an in-depth discussion of plant structure, function, and development in an ecological and evolutionary context. In addition, this course will survey the plant kingdom and related taxa with a focus on the evolution of these groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1360 - ECOLOGY OF FUNGI

Minimum Credits: 3
Maximum Credits: 3
A survey of the fungi and their interrelationships with abiotic and biotic factors in the environment. Adaptations will be studied in the field of laboratory using both aquatic and terrestrial fungi. Special emphasis will be placed on identification of the larger basidiomycetes (mushrooms).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 180 or 0191 or 0716 or BIOL 0102 or 0120; Min Grade 'C' for all courses listed

BIOSC 1370 - BIOGEOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint the students with factors that contribute to the local and large-scale distributions of species and higher taxonomic groups. Since biogeography is a multidisciplinary science we will often draw information from a variety of sources, e.g. geology, geography, paleontology, climatology, evolution and ecology. Although the major emphasis will be on the more general phenomena, there will be frequent references to particular taxonomic groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0370 or 0371 or BIOL 1430 or 1515 (MIN GRADE 'C')

BIOSC 1380 - GLOBAL ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
Compelling evidence points to the 1990's as the decade of environmental crisis. Human quality of life, and probably survival, likely depends more on treaties about land, air, and water than on weaponry. This course will examine environmental issues of the decade and the basic concepts of the fundamental environmental science - ecology - that underlie them. The nature of key environmental changes, their extent and rates, will be considered, along with likely consequences and possible solutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191 or 0716) or (BIOL 0102 or 0120) (MIN GRADE 'C')

BIOSC 1390 - FIELD TECHNQ ECOLOGY & CONSR

Minimum Credits: 3
Maximum Credits: 3
This course introduces a variety of field and research techniques used in ecology and conservation, including experimental design, sampling design, and techniques in sampling plants and animals in forests, fields, and aquatic habitats. It will also include an introduction to radio telemetry and the use of GIS and GPS systems. Student projects will be presented at the end of the course. Collectively, these experiences will expose students to important research techniques in biology and prepare them for opportunities to conduct research with researchers in the fields of ecology, evolution, and conservation biology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716) or (BIOL 0102 or 0120)

BIOSC 1410 - VERTEBRATE ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
A field course in vertebrate's natural history, covering the ecology, behavior, and identification of the vertebrates of the northeastern united states.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120 (MIN GRADE 'C')

BIOSC 1420 - WILDLIFE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3

This field course will address the principles that guide natural resource professionals in management of wildlife, including those used in management of game animals for harvest, in maintenance and restoration of viable populations, and in ecosystem management. The application of principles to actual problems in management and conservation of wildlife populations is emphasized including the techniques used to reduce, maintain, and increase population densities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191 or 0716) or (BIOL 0102 or 0120) (MIN GRADE 'C')

BIOSC 1430 - ECOPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
The adaptations of animals to deal with specialized environmental situations are studied across a spectrum of biological levels (biochemical to the organismal). Thermal relations, water balance, and bioenergetics are major topics in the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180) or (BIOL 0102 or 0120) and (CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (CHEM 0112 and 0114)); (Min Grade 'C')

BIOSC 1440 - ANIMAL BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
This course examines the diversity of animal behavior from evolutionary and ecological points of view. We will examine how animals decide what to eat, where to live, how to compete with each other, and how to avoid predators. We also will investigate how animals choose who to mate with, when they should offer parental care, the conditions that favor social living, and how to best communicate. The lecture and recitation material is appropriate for more advanced students that have been trained in introductory biology and ecology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120; CREQ: BIOSC 0370 or 0371 or BIOL 1430 or 1515 (ALL MIN GRADE 'C')

BIOSC 1445 - ANIMAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
This course addresses the extraordinary variety of ways that animals communicate with each other. We explore how animals produce and receive signals using sound, light, chemicals, mechanical pressure, and electricity. We then approach how such signals evolve by considering questions of optimality, decision making, information theory, and economics. We discuss the contexts in which signals are used, including aggression and dominance, mate attraction and courtship, cooperation and social signaling, and foraging. We conclude by extending to humans, plants, and microbes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0370

BIOSC 1450 - HISTOLOGY

Minimum Credits: 4
Maximum Credits: 4
Course is intended to show how embryonic rudiments build or gans and how tissues and cell types interact to produce the functional systems in the adult. The course covers descriptive, comparative, and experimental histology, but emphasizes the diversity of tissues in organs, and the differentiation of cell types.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1460 - ECONOMIC BOTANY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the plant sciences beyond that which occurs in the freshman biology sequence. Objectives are; an understanding of some of the basic principles of plant science, primarily at the structural/functional level in seed plants; and the mutual relationships between plants and humans, with emphasis on plant products, how they are derived and used in various ways by humans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1470 - BIOPHYSICAL CHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course will deal with fundamental physical chemical principles especially applicable in the study of molecular biology. Topics will include (1) thermodynamics and chemical equilibrium; (2) kinetic theory and transport; and (3) chemical and enzyme kinetics. These subjects will be richly highlighted with numerous examples from biological systems, and techniques for studying these systems will be described. The topics covered will be developed from a physical chemical point of view.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120) (MIN GRADE 'C') and (MATH 0230 or 0231)

BIOSC 1480 - EMBRYOLOGY

Minimum Credits: 3
Maximum Credits: 3
The development of some invertebrates' and vertebrates' eggs, embryos, organs and systems is examined in the light of basic concepts and problems of embryology, emphasizing the techniques, critical approaches, and analytic methods of experimental embryology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120 (MIN GRADE 'C')

BIOSC 1490 - EMBRYOLOGY LABORATORY

Minimum Credits: 2
Maximum Credits: 2
The embryological development of the frog, chick and pig are intensively studied in microscopic preparations emphasizing the integration of temporal and spatial events with attention to homology and adaptation.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

BIOSC 1500 - CELL BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will be devoted to a discussion of the current state of our understanding of cell structure and function. Eukaryotic cells will be emphasized with particular attention to animal cells. However, prokaryotic cells will be discussed for comparative purposes. Course material will emphasize the experimental basis for our understanding of cell biology and the relationship between structure and function. Most of the techniques to be considered will involve biochemical and molecular biological approaches used in the study of cell function. Thus the course will assume a familiarity with the principles of biochemistry covered in the prerequisites and will not repeat this material. Topics will include membranes, the nucleus, mitochondria and chloroplasts, the cytoskeleton, cell motility, growth and division, endocytosis and exocytosis, and selected topics on the cellular biological aspects of cancer and the immune system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1000 or 1810 (MIN GRADE 'C')

BIOSC 1510 - CELL BIOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This experimental methods course is designed to give upper division majors and opportunity to learn modern techniques used in cell biology research. Students will master the fundamentals of light microscopy (bright field, phase contrast, and dark field) and explore more advanced techniques such as fluorescence, confocal, video, and differential interference contrast microscopy. Students will isolate plasma membranes, mitochondria, nuclei, brush borders, and flagella and characterize these organelles by microscopy, enzyme assays and antibody labeling.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or 0067 or 0068 or 0191 or 0080) or (BIOL 0102 or 0121); CREQ: BIOSC 1500 (MIN GRADE 'C')

BIOSC 1511 - CELL BIOLOGY LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is the writing practicum for cell biology laboratory, BIOSC 1510. Students will prepare laboratory reports based on exercises and assignments for the companion course, BIOSC 1510.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1510 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1520 - DEVELOPMENTAL BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
The mechanisms of animal development will be analyzed. The first half of the course will emphasize classic embryological investigations focusing on how the embryonic body plan becomes organized, while the second half will deal primarily with the genetic and molecular regulation of development. The experimental analysis of such processes as fertilization, morphogenetic movements, tissue interactions, pattern formation, and gene expression will be discussed using examples from a variety of animal embryos, and by discussion of the current research literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0350 or 0355 or BIOL 0350 or 0203 (MIN GRADE 'C')

BIOSC 1530 - DEVELOPMNTAL BIOLGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This laboratory course is designed to provide students with practical experience in the scientific method of experimental research with regard to animal development. Initial labs will stress observational skills, but the goal of each will be to understand the careful and deliberate process of experimental design, execution, and the interpretation of results. The importance of establishing and interpreting controls in experimental procedure will also be emphasized.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121; CREQ: BIOSC 1520 (ALL MIN GRADE 'C')

BIOSC 1531 - DEVELM BIOLGY LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for developmental biology laboratory, BIOSC 1530. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1530.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1530 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1540 - COMPUTATIONAL BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This upper-level course is designed to give student's abroad understanding of how computational approaches can be used to solve problems in biology. Current computational techniques will be covered in depth, including sequence analysis and alignment, the construction of phylogenies, and comparison based prediction of function and structure. Course will also provide survey-level coverage of new and specialized techniques, in the form of brief introductions and case studies. Both the biological and computational under pinning's of the methods will be addresses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or 0191or 0716) or (BIOL 0102 or 0120) (MIN GRADE 'C')

BIOSC 1545 - THE MATHEMATICS OF BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course uses specific examples from biology to illustrate how mathematics has been used to increase our understanding of biological systems. Some of the topics that we will cover come from neurobiology, cell biology, and human physiology. For each topic, we will present key mathematical concepts that will give students a new perspective on biology. Standard computer packages will be used to solve the mathematical models, giving the students hands on computer experience. In the final weeks, students will pick a topic of interest and construct their own model by using many of the techniques learned earlier in the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1000 or 1080 or BIOSC 1250 or BIOSC 1500 or BIOSC 1540 or BIOSC 1810 or MATH 0280

BIOSC 1550 - ECOLOGY AND EVOLUTION SEMINAR

Minimum Credits: 1
Maximum Credits: 1

In this seminar course, a single topic is developed by student presentations of research articles from the original scientific literature as chosen by the instructor. Topics might include, for example, cladistics controversies", "molecular phylogeny", or "wetlands conservation"."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0350 or 0355 or BIOL 0350 or 0203) and (BIOSC 0370 or 0371 or BIOL 1430 or 1515) and BIOSC 1130; (ALL MIN GRADE 'C') PLAN: Ecology and Evolution (BS)

BIOSC 1551 - ECOL & EVOLT SEMNR WRITNG PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is a writing practicum for the ecology and evolution seminar. Students will write one paper, with several revisions, based on the topic of their oral presentation in the co-requisite course BIOSC 1550. Topics will be chosen by the instructor for BIOSC 1550.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1550 (MIN GRADE 'C'); PLAN: Ecology and Evolution (BS)

BIOSC 1560 - CELL & DEVELM BIOLOGY SEMINAR

Minimum Credits: 1
Maximum Credits: 1
In this seminar course, a single topic each term is developed by student presentations of research articles from the original scientific literature, as chosen by the instructor. Possible topics might include genes encoding major developmental switch proteins, the cytoskeletal basis of morphological movements in development, or establishing and subdividing body axes in development.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1500 (MIN GRADE 'C'); CREQ: BIOSC 1520 (MIN GRADE 'C'): PLAN: Molecular Biology (BS)

BIOSC 1561 - CELL DEVELM BIOL SEM WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is a writing practicum for the cell and developmental biology seminar. Topics will be chosen by the instructor for BIOSC 1560.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1560 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1570 - MICROBIOLOGY SEMINAR

Minimum Credits: 1
Maximum Credits: 1
In this seminar course, a single topic each term will be chosen in which the instructor is experienced and knowledgeable, and in which a suitable collection of primary research articles is available for student presentation. The papers to be discussed will be drawn primarily from the recent literature, and will reflect current concepts in microbiology.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1865 (MIN GRADE 'C'); PLAN: Microbiology (BS)

BIOSC 1571 - MICROBIOLGY SEMNR WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is a writing practicum for the microbiology seminar. Topics will be chosen by the instructor for BIOSC 1570.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1570 (MIN GRADE 'C'); PLAN: Microbiology (BS)

BIOSC 1580 - BIOCHEMISTRY SEMINAR

Minimum Credits: 1
Maximum Credits: 1
In this seminar course, a single topic each term is developed by student presentations of research articles from the original scientific literature, as chosen by the instructor. Recent topics have included biosynthesis of peptide hormones, recombinant DNA technology, processing of mRNA

precursors, protein folding with emphasis on the molecular biology and biochemistry of chaperonins, and protein translocation within cells.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1820 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1581 - BIOCHMSTRY SEMNR WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
This course is a writing practicum for the biochemistry seminar. Topics will be chosen by the instructor for BIOSC 1580.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1580 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1590 - SPECIAL TOPICS IN BIOLOGCL SCI

Minimum Credits: 1
Maximum Credits: 3
A single major topic in biology will be developed and explored by students in the form of student presentations of current and/or historical literature.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0350 or 0355 or BIOL 0203 or 0350 (MIN GRADE 'C')

BIOSC 1600 - STREAM ECOLOGY

Minimum Credits: 3
Maximum Credits: 3
A lecture, field, and laboratory course covering geological, physical, chemical, and biological aspects of lotic ecosystems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120 (MIN GRADE 'C')

BIOSC 1610 - CONSERVATION BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This field course will focus primarily on the applied aspects of conservation biology by examining the degradation and loss of species populations and ecosystems due to human activities and by considering alternatives for avoiding and/or mitigating these impacts. The perspectives of science, management, and policy will be elucidated in the context of historical, current, and future strategies designed to conserve the diversity of life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716) or (BIOL 0102 or 0120)

BIOSC 1640 - BIOINFORMATICS SOFTWARE DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will develop software for bioinformatic applications.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: BIOSC 1540 or CS 1501; PLAN: Bioinformatics

BIOSC 1690 - EXPERNC IN UNDERGRAD TEACHING

Minimum Credits: 0.5
Maximum Credits: 6
A program to allow qualified juniors and seniors to assist in the teaching of one of the biological sciences lecture or laboratory courses. Details of the student's responsibility must be worked out with the biological sciences faculty member in whose course the student will be assisting.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: H/S/U Basis

BIOSC 1730 - VIROLOGY

Minimum Credits: 3
Maximum Credits: 3

This course presents the concepts and methods of modern molecular virology. Principles of bacteriophage and animal virus replication are covered. Particular emphasis is placed on the use of viruses as model systems to approach basic problems in molecular biology. Applications of virological knowledge to medicine and biotechnology will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0350 or 0355 OR BIOL 0203) and (BIOSC 1000 and 1850) (MIN GRADE 'C')

BIOSC 1740 - VIROLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This course accompanies BIOSC 1730. The exercises are designed to give each student practical experience with the methods and techniques used in the study of both bacterial and animal viruses and the reactions of host cells to viral infections. Included are tissue culture techniques, methods used in the isolation, characterization and assay of viruses and purification of viral DNA.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 1855 or 1860) and (BIOSC 0350 or 0355 or BIOL 0203 or 0350); MIN GRADE 'C' for all courses

BIOSC 1741 - VIROLOGY LAB WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for virology laboratory, BIOSC 1740. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1740.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or ENGR 0012 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102); CREQ: BIOSC 1740(MIN GRADE 'C')

BIOSC 1750 - IMMUNOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
This course presents basic principles of immunology and immunological techniques. Experimental methods from both humoral and cellular immunology will be used to study the cells, tissues and molecules involved in immune response initiation and maturation, antibody products and their characteristics, immunoassays, molecular immunology, and both cellular and humoral immune effector functions. Quantitative analysis of data will be emphasized.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or 0067 or 0068 or 0080 or 0191 or BIOL 0102 or 0121) and (BIOSC 0350 or 0355 or BIOL 0350 or 1315) (MIN GRADE 'C'); CREQ: BIOSC 1760 (MIN GRADE 'C')

BIOSC 1751 - IMMUNO LAB WRITING PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for immunology laboratory, BIOSC 1750. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1750.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

BIOSC 1760 - IMMUNOLOGY

Minimum Credits: 3
Maximum Credits: 3
Course will describe the role of the immune system invertebrates. The molecular and cellular basis of immunity will be emphasized. The roles of antigens, antibodies and immunocompetent cells in pathogenesis and immunity will be covered. The applications of immunology in the design of vaccines, immunotherapeutic, immunodiagnostics, organ transplantation, cancer therapy, and immune system diseases will be discussed, as will the use of immunology in biological research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0350 or 0355 or BIOL 0350 or 0203 (MIN GRADE 'C')

BIOSC 1810 - MACROMOLECULAR STRUCT & FUNCTN

Minimum Credits: 3
Maximum Credits: 3
This course is concerned primarily with the structure and functions of proteins and nucleic acids. These are large polymers where structure and function are determined by the sequence of monomeric units. Topics will include the physical and chemical properties of the monomer units (amino acids/nucleotides); the determination of the linear sequence of these units; analyses of the three-dimensional structures of the macromolecules; kinetics and mechanisms of enzyme catalyzed reactions, including RNA enzymes; regulation of enzyme activity; molecular recognition; and fidelity of protein synthesis. Emphasis throughout will be on experimental methods, molecular mechanisms and problem solving.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOENG 1071 or BIOENG 1072 or BIOL 0102 or 0120) (MIN GRADE 'C') and (CHEM 0320 or 0350 or 0740 or 0208 or 0232)

BIOSC 1820 - METBLC PATHWAYS & REGULATION

Minimum Credits: 3
Maximum Credits: 3
The primary focus of this course will be on the pathways of intermediary metabolism by which all cells and organisms synthesize and degrade carbohydrates, lipids (fats), nitrogenous compounds, and nucleotides. Specifically, we will examine the chemistry of the reactions that constitute these pathways, and discuss how energy is derived from the breakdown of nutrients. A strong emphasis will be placed on how the pathways are regulated by specific molecules and hormones in living systems. Finally, we will consider how several human diseases arise from defects in metabolic pathways, and will review papers in the current scientific literature on new techniques by which the components of metabolic pathways are characterized in the laboratory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1810 (MIN GRADE 'C')

BIOSC 1830 - BIOCHEMISTRY LABORATORY

Minimum Credits: 3
Maximum Credits: 3
Course introduces several basic experimental techniques of biochemistry including spectrophotometry, ion-exchange and gel-permeation chromatography, radio-chemical methods, gel electrophoresis, enzyme isolation, and nucleic acid purification. Lecture will concern the techniques under study.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121) and BIOSC 1810 (MIN GRADE 'C'); CREQ: BIOSC 1820 (MIN GRADE 'C')

BIOSC 1831 - BIOCHEMISTRY LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for biochemistry laboratory, BIOSC 1830. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1830.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102 or ENGR 0012); CREQ: BIOSC 1830 (MIN GRADE 'C'); PLAN; Molecular Biology (BS)

BIOSC 1850 - MICROBIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the basic biology, diversity in types, and survival strategies of microorganisms. We will study basic topics, including microbial growth, metabolism, nutrition and genetics, as well as the relevance of microorganisms to human disease, biotechnology and environmental science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0160 or 0716 or 0191 or 0180 or BIOENG 1071 or 1072 or BIOL 0102 or 0120) and [CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (0112 and 0114)] (MIN GRADE 'C')

BIOSC 1855 - INTRO TO MICROBIOLOGY LAB

Minimum Credits: 1
Maximum Credits: 1
Students in this course will culture microorganisms from natural samples such as soil, vegetables, and their own skin, and learn various methods in

the process of studying the organisms they have cultured. The topics for the course include (a) survey types of microorganisms, including bacteria, fungi, protozoa, algae, and bacterial viruses, (b) types of methods used to culture and study these microorganisms, (c) some practical applications of microbiology such as microbiological analysis of wastewater, and identification of clinical isolates.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121 (MIN GRADE 'C'); CREQ: BIOSC 1850 (MIN GRADE 'C')

BIOSC 1860 - MICROBIOLOGY LABORATORY

Minimum Credits: 2
Maximum Credits: 2
This laboratory course introduces basic techniques used for isolation of microorganisms in pure culture, identification of groups of microorganisms, and study of microbial physiology, genetics, and ecology. Some topics in applied microbiology that are covered include food microbiology, water and waste water analysis, and identification and antibiotic sensitivity-testing of pathogenic isolates. Viruses, archaebacterial, bacteria, algae, protozoa, and fungi that students isolate from soil, pond water, human skin, and other sources are used to illustrate these methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121) (MIN GRADE 'C'); CREQ: BIOSC 1850 (MIN GRADE 'C'); PLAN: Microbiology (BS)

BIOSC 1861 - MICROBIOLOGY LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for microbiology laboratory, BIOSC 1860. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1860.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102 or ENGR 0012); CREQ: BIOSC 1860 (MIN GRADE 'C'); PLAN: Microbiology (BS)

BIOSC 1865 - MICROBIAL PHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course examines the diversity of microbial life from a physiological point of view. We will examine the fundamental processes of microbial metabolism in diverse organisms, and develop a framework for understanding how organisms use different approaches to solve specific needs. Lecture material is appropriate for students trained in introductory microbiology and in biochemistry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1850 and (BIOSC 1000 or 1810); Minimum Grade 'C'

BIOSC 1870 - ANIMAL PHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Course is a survey of the current state of our knowledge of how animals work. The emphasis will be on physiological mechanisms for survival in natural environments. A comparative approach will stress the diversity of physiological adaptations throughout the animal kingdom. Topics include nutrition, metabolism, muscle, respiration, circulation, osmoregulation, sensory and neural physiology, and hormones. The material will stress multi-cellular systems of organization at the levels of tissues, organs, and whole animals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120 (MIN GRADE 'C')

BIOSC 1880 - ANIMAL PHYSIOLOGY LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Course designed for the serious student who intends to pursue a professional career requiring first-hand experience in current techniques of animal physiology. Experimental topics include energy metabolism, osmoregulation, muscle physiology, neurophysiology, cardiovascular physiology, respiratory physiology, and endocrinology. A major goal is to develop familiarity with the use of current laboratory research procedures through rigorous structured experiments and written laboratory reports.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

Course Requirements: PREQ: BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 OR 0121 (MIN GRADE 'C'); CREQ: BIOSC 1870 (MIN GRADE 'C')

BIOSC 1881 - ANIML PHYSLGY LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for animal physiology laboratory, BIOSC 1880. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1880.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102 or ENGR 0012); CREQ: BIOSC 1880 (MIN GRADE 'C'); PLAN: Biological Sciences (BS)

BIOSC 1890 - ADVANCD TOPICS IN MICROBIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This advanced-level lecture course will be one-half devoted to medical microbiology and one-half devoted to microbial ecology. Lectures based on the assigned text will be amplified by detailed treatment of a few related topics. Topics to be treated in extra depth could include (but would not be limited to): modern approaches to epidemiology, current methods of diagnosis, microbial recycling of industrial and agricultural waste, microbial biogeochemical cycling, and deliberate release in the environment of genetically engineered microorganisms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1850 (MIN GRADE 'C')

BIOSC 1901 - INDEPENDENT STUDY

Minimum Credits: 0.5
Maximum Credits: 6
A program of independent reading with individual tutorials on a topic chosen in consultation with the BIOSC faculty member who will supervise the program.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: BIOSC 0160 or 0716 or 0191 or 0180 or BIOL 0102 or 0120

BIOSC 1903 - UNDERGRADUATE RESEARCH

Minimum Credits: 0.5
Maximum Credits: 6
A program of independent laboratory research, with supporting library work, on a topic chosen in consultation with the BIOSC faculty member who will supervise the work.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: [(BIOSC 0060 or 0067 or 0080 or BIOL 0121) and (BIOSC 0160 or 0716 or 0180 or BIOL 0120)] or BIOSC 0191 or BIOL 0102

BIOSC 1904 - UNDERGRADUATE HONORS RESEARCH

Minimum Credits: 0.5
Maximum Credits: 6
A program of independent laboratory and library research on topic chosen in consultation with the BIOSC faculty member who will supervise the work.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: [(BIOSC 0060 or 0067 or 0080 or BIOL 0121) and (BIOSC 0160 or 0716 or 0180 or BIOL 0120)] or BIOSC 0191 or BIOL 0102 (MIN GRADE 'C')

BIOSC 1905 - HONORS RESEARCH WRITING PRACM

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

BIOSC 1906 - RESEARCH COMMUNICATION

Minimum Credits: 1
Maximum Credits: 1
This course introduces students to a variety of topics associated with the written, oral, and pictorial communication of scientific hypotheses, data, and results, using personal research experiences of students in the course. Students will read scientific literature, discuss how to present data and models, and complete diverse assignments. Techniques to model presentations for different audiences will be emphasized. It is recommended that students work in a research lab while taking the course. The course is for students enrolled in the research certificate in biological and biomedical sciences.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

BIOSC 1907 - RESEARCH DECONSTRUCTION

Minimum Credits: 1
Maximum Credits: 1
This course takes an in depth look into how scientific research is done by studying where research is done, who does it, how questions are developed, how approaches and techniques are chosen, and how data is analyzed and presented. Students listen to a research seminar aimed at an expert audience, and then dissect the work throughout the semester. At the end of term, pieces from studying the research project are reassembled, a video of the seminar critiqued, and the course concludes with a Q+A session with the seminar speaker. The course is for students enrolled in the research certificate in biological and biomedical sciences.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: BIOSC 0160 or 0180 or BIOSC 0191 or BIOSC 0716 or BIOL 0102 or 0120; CREQ: BIOSC 1903 or BIOSC 1904 or NROSCI 1901 or NROSCI 1961

BIOSC 1940 - MOLECULAR BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Course will examine the molecular basis of life processes, with a primary emphasis on genes (what they are, what they do, how they determine the properties of an organism). Topics covered will include replication of DNA, transcription of DNA into rna, and translation of RNA into protein. Much of the course will be concerned with how these processes are regulated in response to changes in the environment, and how this regulation relates to the observed properties and behavior of the organism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (BIOSC 0350 or 0355 or BIOL 0350 or 0203) and (BIOSC 1000 or 1810) (MIN GRADE 'C')

BIOSC 1950 - MOLECULAR GENETICS LABORATORY

Minimum Credits: 2
Maximum Credits: 2
This course will discuss the theories and methodologies that have recently emerged as the central theme of modern molecular genetics. Lectures will emphasize descriptions and applications of techniques such as molecular cloning, restriction site mapping, in vitro mutagenesis, the polymerase chain reaction and DNA sequence analysis that have led to the recent explosion in knowledge about chromosome organization, gene structure, and the regulation of gene expression. Laboratory sessions will emphasize polymerase chain reaction, agarose gel electrophoresis, cloning DNA fragments, bacterial transformation, restriction analysis, and the sanger method of sequencing DNA.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 0060 or 0067 or 0068 or 0191 or 0080 or BIOL 0102 or 0121 (MIN GRADE 'C'); CREQ: BIOSC 1940 (MIN GRADE 'C')

BIOSC 1951 - MOLEC GENETCS LAB WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Course is a writing practicum for molecular genetics laboratory, BIOSC 1950. Students will prepare laboratory reports and write essays based on exercises and assignments for the companion course, BIOSC 1950.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102 or ENGR 0012); CREQ: BIOSC 1950 (MIN GRADE 'C'); PLAN: Molecular Biology (BS)

BIOSC 1980 - MOLECULAR BIOPHYSICS

Minimum Credits: 2
Maximum Credits: 2
This is an advanced level course that introduces students to the physical chemistry of biological macromolecules and the methods used to study their structure, interactions, and function. Concepts of positional and structural information will be integrated with those of thermodynamics, statistical

mechanics, and kinetics. We will focus on the enzyme rnase-a, a paradigm for the study of the physico-chemical properties and mechanism of function of proteins.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BIOSC 1990 - MOLECULAR BIOPHYSC LABORATORY
Minimum Credits: 3
Maximum Credits: 3
This is an advanced level laboratory course that introduces students to modern techniques such as x-ray crystallography, NMR and cd spectroscopy, calorimetry, and molecular dynamics simulations for the study of the structure, interactions, and function of biological macromolecules. Experiments will use the enzyme rnase-a, a paradigm for the study of the physico-chemical properties and mechanism of function of proteins.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

BIOSC 1999 - MEDICAL MICROBIOLOGY
Minimum Credits: 3
Maximum Credits: 3
This is an advanced level lecture course educating students in the microbial aspects of human infectious diseases. Students will learn about the microbial basis of infection, the host response, and the nature of specific infections within the human body. The course also will present approaches for the diagnosis of infections and strategies for disease control. The topics of medical microbiology will be presented in a system-based rather than an organism-based approach.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: BIOSC 1850 (MIN GRADE 'C')

Biological Statistics

BIOST 1200 - INTRO BIOSTATISTICAL REASONING
Minimum Credits: 3
Maximum Credits: 3
This SIBS Pittsburgh program is an introduction to the most commonly used statistical tools in 2-sample comparative studies in medicine and public health, with an emphasis on applications in epidemiology and human genetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BIOST 1201 - SEM IN BIOSTATISTICAL COLLBRTN
Minimum Credits: 1
Maximum Credits: 1
The SIBS Pittsburgh program is developed around the collaborative research of the participating faculty and is organized into three components. The seminar component is a paired set of presentations, an overview lecture on a general area and the presentation of a specific study/data set. The journal club component will involve reading and discussion of papers. In the independent study component small groups of students will meet with a study team and develop a small data analysis project.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING
Minimum Credits: 3
Maximum Credits: 3
Acquaints students with the concepts of statistical reasoning as applied to the study of public health problems. Students learn the general principles of statistical analysis and acquire the ability to utilize a statistical software package (Minitab) as a tool to facilitate the processing, editing, storing, displaying, analysis and interpretation of health research related data.
Academic Career: GRAD
Course Component: Lecture
Grade Component: GradLG/SU3
Course Requirements: PROG: Graduate School of Public Health; PLAN: Excluded Plans = Biostatistics(DPH, PHD, MPH, MS, MSH)

BIOST 2012 - BAYESIAN & EMPIRICAL BAYES STAT
Minimum Credits: 3
Maximum Credits: 3
THE THEORETICAL FOUNDATIONS OF BAYESIAN AND EMPIRICAL BAYES STATISTICAL METHODS WILL BE PRESENTED. THE

USE OF THESE METHODS IN DATA ANALYSIS WILL BE ILLUSTRATED WITH SPECIFIC EXAMPLES AND WITH DISCUSSIONS OF COMMON DATA ANALYSIS ISSUES CONTRASTS AND SIMILARITIES BETWEEN BAYESIAN, EMPIRICAL BAYESIAN, AND CLASSICAL METHODS WILL BE EVALUATED.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Letter Grade

BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS 1
Minimum Credits: 3
Maximum Credits: 3
Discusses techniques for the application of statistical theory to actual data. Topics include probability theory, estimation of parameters, and tests of hypothesis for both the discrete and continuous case.
Academic Career: GRAD
Course Component: Lecture
Grade Component: GradLG/SU3

Business

BUS 0001 - CBA ORIENTATION
Minimum Credits: 1
Maximum Credits: 1
This orientation course is designed to help new CBA students successfully launch their preparation for a career in business while enhancing the skills necessary to succeed in CSA and CBA coursework. Primary focus on academic habits skill building, career exploration, communication basics, and personal computer skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

BUS 0010 - YOUR ACADEMIC & CAREER SUCCESS
Minimum Credits: 1
Maximum Credits: 1
In this course, you will: learn the technical aspects (academic and experiential attributes) pertaining to the majors offered in CBA, and how they relate to your next step; extensively use the wall street journal; explore global opportunities, such as study abroad, the international internship program, etc., develop networking skills, and establish your personal and professional network; create a resume that has been reviewed by a professional development consultant; and establish a SIMON account on which you may post your resume, schedule appointments with CLDC staff, register for events, view internship/job opportunities, and access secure documents.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: College of Business Admin

BUS 0020 - YOUR CAREER SUCCESS
Minimum Credits: 1
Maximum Credits: 1
In this course, you will: learn and practice a variety of tools used in the exploration of career paths (e.g., MBTI, strong inventory, informational interviewing, job shadowing, etc.); Explore your skills, abilities, and preferred roles and environments; develop and implement a personal strategy for career goal setting and planning; learn the internship and job search processes; learn and practice communication tools necessary throughout the job application process (e.g., resume, cover letter, unsolicited letter, letter of regret, networking, interviewing, and accepting job offers).
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: College of Business Admin

BUS 1020IS - CBA INT'L INTERNSHIP PRG - IS
Minimum Credits: 0

Grade Component: No Grade Required

BUS 1023 - GLOBAL PERSPECTIVES

Minimum Credits: 1
Maximum Credits: 1
This one-credit, one-week international experience is for students who wish to gain valuable experience and exposure to several business sectors and firms within the visited country. The purpose of experience is to focus on four industry-specific business sectors relevant to the historical, cultural, political, and economic background of the country. The sectors will be chosen from the following: healthcare, tourism/hospitality, arts, sports/athletics, human/social services, education, real estate, and banking. As a result of the experience, students will develop a "tool kit" of concepts and information regarding the cultural and business climate of the country in focus, begin developing of a working knowledge of how differences in cultural context affect business activities and develop a basis for critical evaluation of a country- specific, cross-sector business analysis.
Academic Career: UGRD

BUS 1045 - DOING BUSINESS IN SPAIN

Minimum Credits: 3
Maximum Credits: 3

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUS 1175 - INTRO TO INTERNATIONAL BUSINSS

Minimum Credits: 3
Maximum Credits: 3
Examines why firms engage in international activities foreign trade, operating abroad, technology transfer, and various ways business can be conducted internationally. Critical economic, legal, political, social and cultural factors affecting international business will be reviewed as they influence corporate objectives and actions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUS 1176 - TOPICS INTERNATIONAL BUSINESS

Minimum Credits: 3
Maximum Credits: 3
Focuses on a variety of international business issues. The specific issues addressed will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUS 1392 - PERSONAL FINANCIAL PLANNING

Minimum Credits: 1
Maximum Credits: 1
This course deals with the basics of personal financial planning. Students will create personal financial plans based on projected horizons of 1, 3, and 5 years. The primary focus is on near term planning with emphasis on: initial savings, paying off student debt, judicious use of credit, and investing for short and long term goals. Students will prioritize and codify their plans based on personal, professional, and lifestyle objectives projected over the plans stated horizons.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

BUS 1447 - TOPICS INT'L HR MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course explores topics of current interest in international human resources management. Topics covered will vary by instructor in areas such as HRM planning, selection, recruitment, appraisal, compensation and benefits, training and development, labor relations, and organizational culture and structure.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUS 1448 - TOPICS INT'L ORGNZTNL BEHAVR

Minimum Credits: 3
Maximum Credits: 3
This course explores topics in the field of organizational behavior that have significant international dimensions such as leadership, work motivation, organizational culture, communication, and team dynamics. Topics covered will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUS 1449 - TOPICS IN INT'L MARKETING

Minimum Credits: 3
Maximum Credits: 3
This course explores topics of current interest in international marketing. Topics covered will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUS 1780 - INT'L MGT & LEADRSHP ESSENTLS

Minimum Credits: 2
Maximum Credits: 2
Managers face complex demands when pursuing initiatives in international settings. Students are given a basic set of tools to assess management and leadership challenges in a global context, and work on an experiential global team project.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Satisfactory/No Credit

BUS 1865 - TOPICS IN ENTREPRENEURSHIP

Minimum Credits: 3
Maximum Credits: 3
This course explores topics in the field of entrepreneurship. The topics covered will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUS 1900 - BUSINESS INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The business internship provides an opportunity for students to study in depth a particular area of business management in a work setting. An internship is primarily an academic experience, not a part-time or full-time job, in which students work for a firm or organization under a supervisor and faculty sponsor to achieve specific educational objectives.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration

BUS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of business problems or functions to which they have been introduced in other business courses. The course involves directed reading and research under guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: Restricted for College of Business Administration

BUS 1901IS - INDEPENDENT STUDY - IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD

BUS 1901OS - INDEPENDENT STUDY - OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

BUS 1902 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of business problems or functions to which they have been introduced in other business courses. The course involves directed reading and research under guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration

BUS 1903 - CAREER EXPLORATION INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
CBA students who participate in a full-time, career-developing internship experience as an integral part of their CBA academic program may register for this course. Students must have completed at lEast 60 credits, be in good academic standing, and plan to return to campus the first spring or fall term immediately following the internship term. Internships for this course are designated by the offering organization as full-time and lasting the duration of the term. Internship agreements specifying the academic work to be completed as part of the internship are required.
Academic Career: UGRD

Course Component: Internship
Grade Component: Letter Grade
Course Requirements: Restricted for College of Business Administration

BUS 1904 - CBA FULL-TIME CO-OP

Minimum Credits: 1
Maximum Credits: 1
CBA students who participate in a full-time career-developing internship experience as an integral part of their CBA academic program may register for this course. Students must have completed at least 60 credits, be in good academic standing, and plan to return to campus the first spring or fall term immediately following the internship term. Internships for this course are designated by the offering organization as full-time and lasting the duration of the term. Internship agreements specifying the academic work to be completed as part of the internship are required.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: Restricted for College of Business Administration

BUS 1905 - MANAGRIAL COMPETENCIES INTSHP

Minimum Credits: 3
Maximum Credits: 3
The managerial competencies internship is an opportunity for students to explore a career interest and develop competencies necessary for effective performance as a manager through a formal work experience in a business or non-profit organization. The course focuses on those managerial roles and competencies required for successful performance in the intern's position. Interns learn about the primary roles of their position and develop several key competencies with the company supervisor and instructor as mentors.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

BUS 1906 - CAREER EXPLORATION INTERNSHIP

Minimum Credits: 1
Maximum Credits: 1
This internship course is designed to help students improve self-awareness of personal preferences with respect to career interests in the context of a work experience. Incorporates readings, self-assessment instruments and exercises, job analysis, journal entries and two performance appraisals. May be used for internships, summer jobs, part time jobs and full-time positions that involve work related to a possible career interest. The internship site may be located anywhere in the world.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUS 1910 - BUSINESS INT'L INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUS 1920 - BRAZL TODAY:ETHNY ECONY ENVRN

Minimum Credits: 1
Maximum Credits: 1
After an overview of brazil, this course will provide an introduction to brazil in three dimensions: its diverse groups of people, the growth and development of the Brazilian economy, and the environmental opportunities and challenges in modern Brazil.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

BUS 1925 - CHINA TODAY

Minimum Credits: 1
Maximum Credits: 1
The course will explore: who are "the Chinese"? How does china's multi-ethnic composition affect educational opportunity and career advancement? Education in china past and present: how does the history of education in china affect educational opportunity today?' What is in store as china moves from technological supplier to technological innovator?
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUS 1930 - S AFR TODAY: ECONY, TEC & PEPL

Minimum Credits: 1
Maximum Credits: 1
South Africa's 2010 entry into brics transformed bric from a body founded on comparable economic performance, to an increasingly a political club representing the developing world, determined to counterbalance Western influence in major international forums. Entrance into this club is connected to the race for mineral resources needed by emerging nations. South Africa is the fourth largest source of gold and diamonds, and sitting on three-quarters of global pLatinum reserves. By 2014, the IMF predicts Brazil, India, China, Russia and South Africa will contribute to 60% of the global growth.
Academic Career: UGRD

Grade Component: Satisfactory/No Credit

BUS 1949 - STUDY ABROAD: CANADA

Minimum Credits: 1
Maximum Credits: 18
Study abroad Canada represents credits earned in an approved study abroad program in Canada.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1952 - STUDY ABROAD: CHINA

Minimum Credits: 1
Maximum Credits: 18
Study abroad China represents credits earned in an approved study abroad program in China.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1953 - STUDY ABROAD: COSTA RICA
Minimum Credits: 1
Maximum Credits: 21
Study abroad Costa Rica represents credits earned in an approved study abroad program in Costa Rica.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1955 - STUDY ABROAD: DENMARK
Minimum Credits: 1
Maximum Credits: 18
Study abroad Denmark represents credits earned in an approved study abroad program in Denmark.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1958 - STUDY ABROAD: ENGLAND
Minimum Credits: 1
Maximum Credits: 18
Study abroad England represents credits earned in an approved study abroad program in England.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1961 - STUDY ABROAD: FRANCE
Minimum Credits: 1
Maximum Credits: 18
Study abroad France represents credits earned in an approved study abroad program in France.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1964 - STUDY ABROAD: GERMANY
Minimum Credits: 1
Maximum Credits: 18
Study abroad Germany represents credits earned in an approved study abroad program in Germany.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1965 - STUDY ABROAD: INDIA
Minimum Credits: 1
Maximum Credits: 18
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1967 - STUDY ABROAD: IRELAND
Minimum Credits: 1
Maximum Credits: 18
Study abroad Ireland represents credits earned in an approved study abroad program in Ireland.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1970 - STUDY ABROAD: ISRAEL
Minimum Credits: 1
Maximum Credits: 18
Study abroad Israel represents credits earned in an approved study abroad program in Israel.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1973 - STUDY ABROAD: ITALY

Minimum Credits: 1
Maximum Credits: 18
Study abroad Italy represents credits earned in an approved study abroad program in Italy.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1976 - STUDY ABROAD: JAPAN

Minimum Credits: 1
Maximum Credits: 18
Study abroad Japan represents credits earned in an approved study abroad program in Japan.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1979 - STUDY ABROAD: MEXICO

Minimum Credits: 1
Maximum Credits: 18
Study abroad Mexico represents credits earned in an approved study abroad program in Mexico.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1982 - STUDY ABROAD: RUSSIA

Minimum Credits: 1
Maximum Credits: 18
Study abroad Russia represents credits earned in an approved study abroad program in Russia.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1985 - STUDY ABROAD: SPAIN

Minimum Credits: 1
Maximum Credits: 18
Study abroad Spain represents credits earned in an approved study abroad program in Spain.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1987 - STUDY ABROAD: URUGUAY

Minimum Credits: 1
Maximum Credits: 18
Study abroad Uruguay represents credits earned in an approved study abroad program in Uruguay.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1990 - STUDY ABROAD: SEMESTER-AT-SEA

Minimum Credits: 1
Maximum Credits: 18
Study Abroad Semester-at-Sea represents credits earned in an approved Semester at Sea Program.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

BUS 1995 - STUDY ABROAD: INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
The study abroad internship provides an opportunity for students to study in depth a particular area of business management in a work setting outside of the United States. An internship is primarily an academic experience, not a part-time or full-time job, in which students work for a firm or organization under a supervisor and faculty sponsor to achieve specific educational objectives.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUS 1997 - STUDY ABROAD: EXCHANGE PROGRAM

Minimum Credits: 1
Maximum Credits: 18
The study abroad exchange program represents credits earned in an approved exchange agreement between the university of Pittsburgh and another educational institution.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

Business Accounting

BUSACC 0030 - FINANCIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Helps students become informed users of firms' external financial accounting reports. The basic structure and contents of such reports and the process by which they are prepared will be studied. Discussion will involve what items are included in financial accounting reports, how such items are measured, and how various economic events affect the reports. An understanding of what can be inferred from the reports about the past performance, present position, and future prospects of the firm will be developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECON 0100 or 0102 or 0103 or 0105 or 0110 or 0115 or 0120; PROG: College of Business Administration; LVL: So, Jr, Sr

BUSACC 0040 - MANAGERIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Introduces students to the basic terminology and concepts of cost accounting, including product costing, budgetary control, responsibility accounting, and the use of cost information in resource allocation and other managerial decisions. Textbook material and various applications in actual organizations are used to engage students in applying the concepts and methods that have been developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201; PROG: College of Business Administration

BUSACC 1204 - INTERMEDT FINANCL REPORTING 1

Minimum Credits: 3
Maximum Credits: 3
Covers the conceptual framework of financial accounting and its influence on Generally Accepted Accounting Principles (GAAP), with special emphasis on the valuation of assets and measurement of income.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ:(BUSACC0030orBUSERV1920orCDACCT6030orMGMT0022orBUS0115or ACCT0201)and(BUSACC0040orBUSERV1925orCDACCT6040orMGMT0023or BUS1110orACCT0202);MINGRADE 'CForListed Courses;PLAN: Acct,Fin,Gen Mgmt,Glbl Mgmt,Mrktng,Undclrd CBA,BIS,HRM,SCM,Not Cand Pre-MACC"

BUSACC 1205 - INTERMEDT FINANCL REPORTING 2

Minimum Credits: 3
Maximum Credits: 3
Topics covered include valuation of liabilities, owners' equity, cash flow statements, and disclosure outside the primary financial statements. Like intermediate financial reporting 1, this course also engages students as active participants in the learning process. Required for all accounting majors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1204; PLAN: PLAN: Accounting, FInance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared, Not Cand for degree-Pre-MACC

BUSACC 1206 - INTERMEDT FINANCL REPORTING 3

Minimum Credits: 3
Maximum Credits: 3
Covers the current developments in Generally Accepted Accounting Principles (GAAP) and some highly technical accounting topics not covered in intermediate financial reporting 1 and 2. Requirements include resolving complex and unstructured financial accounting and reporting problems and presenting reasoning both orally and in writing.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Financial statement analysis focuses on the evaluation of publicly traded company financial statements and related note disclosures as well as the correlation of this historic financial performance to the company's stock prices. This course will assist students' development of a systematic approach to analyzing reported financial data and understanding the underlying risks and possible inconsistencies among comparative companies. Requirements of the course include interim exams and written and oral presentations of analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Covers topics that are of particular interest to financial report preparers and auditors. Special emphasis placed on accounting for business combinations and consolidated financial reporting. Other topics include international accounting, accounting for partnerships, and accounting by fiduciaries. Required for all accounting majors pursuing the CPA track.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

BUSACC 1221 - STRATEGIC COST MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Topics covered include how product cost measurement affects resource allocation decisions; how to design modern cost systems; the strategic role of cost information and the relationship between process improvement and cost reduction; performance measurement and organizational transformation for value creation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ:(BUSACC0030orBUSERV1920orCDACCT6030orMGMT0022orBUS0115or ACCT0201)and(BUSACC0040orBUSERV1925orCDACCT6040orMGMT0023or BUS1110orACCT0202);MINGRADE 'CForListed Courses;PLAN: Acct,Fin,Gen Mgmt,Glbl Mgmt,Mrktng,Undclrd CBA,BIS,HRM,SCM"

BUSACC 1226 - TOPICS IN MANAGEMENT ACCONTING

Minimum Credits: 3
Maximum Credits: 3
Extends the basic concepts developed in strategic cost analysis and financial value to their role in an organization's managerial control system. Topics covered include decentralization, development of budgetary control systems for responsibility accounting, financial and non-financial performance measures, transfer pricing, and managerial incentives and compensation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Focuses on the design and implementation of accounting information systems and their ability to: collect data on the activities of an organization, accumulate and summarize the data, and make the information available to managers for analysis, decision-making and control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ:(BUSACC0030orBUSERV1920orCDACCT6030orMGMT0022orBUS0115or ACCT0201)and(BUSACC0040orBUSERV1925orCDACCT6040orMGMT0023or BUS1110orACCT0202);MINGRADE 'CForListed Courses;PLAN: Acct,Fin,Gen Mgmt,Glbl Mgmt,Mrktng,Undclrd CBA,BIS,HRM,SCM,Not Cand Pre-MACC"

BUSACC 1238 - AUDITING

Minimum Credits: 3
Maximum Credits: 3

Introduces auditing process and profession. Main topics include nature and purpose of auditing, auditing standards, professional conduct, auditor legal liability and approaches in auditing financial statements. Emphasizes a risk-based approach to selecting appropriate auditing techniques. Examines auditor's decision process relating to internal control assessment, audit decision process relating to internal control assessment, audit sampling and obtaining audit evidence about financial accounts. Examines extent of auditor's responsibility to uncover fraud.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205; CREQ: BUSACC 1236; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared, Not Cand for Degree-Pre-MACC

BUSACC 1241 - TAX ACCOUNTING
Minimum Credits: 4
Maximum Credits: 4
Intensive introduction to federal income tax concepts, statutes and regulations, and their use in accounting and planning of business activities of corporations. Partner ships, and individual proprietorships. Also covered are federal income tax concepts for individuals, including their use in accounting and planning of personal activities and investments. Required for all accounting majors pursuing the CPA track.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSACC 1242 - INDIVIDUAL TAX ACCT & PLANNING
Minimum Credits: 3
Maximum Credits: 3
This course focuses on individual tax return preparation and planning. Students will learn how to calculate the taxes associated with a variety of personal, investment, property, and sole-proprietorship transactions. Concepts will be reinforced through the preparation of actual tax returns that reflect different combinations of such transactions. Students will develop tax planning skills by considering how various transactions can be restructured to minimize the current or future tax liability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205 or CDACCT 6205; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

BUSACC 1296 - ACCOUNTING INTERNSHIP
Minimum Credits: 3
Maximum Credits: 3
The accounting internship provides business credits for project assignments that augment a professional accounting work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: BUSACC 1205; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

BUSACC 1298 - ACCOUNTING INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of accounting issues or problems to which they have been introduced in other accounting courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

Business Economics

BUSECN 1010 - MANAGERIAL ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
Primarily an applied microeconomics analysis although some applied macroeconomic analysis of relevance to the business firm may also be treated. Emphasizes the development of economic tools and concepts which can be used in the firm's management decision-making process. Builds upon the standard economic analysis of the firm which integrates a company's revenue, cost, output and pricing decisions. Marginal and incremental reasoning is stressed as an important decision making principle.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0120 or 0126 or 0136 or 0140 or 0220 or 0235) and (ECON 0100 or 0102 or 0105 or 0120) and (ECON 0103 or 0110 or 0115 or 0120); PROG: College of Business Administration

BUSECN 1505 - INDIA TODAY: INNOV INDUST & ED
Minimum Credits: 1
Maximum Credits: 1
This short course will explore how innovation, industry and education interact in India and play a role in the perceived position of India as a world.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

BUSECN 1508 - INT'L ECON FOR MANAGR
Minimum Credits: 3
Maximum Credits: 3
This course introduces the broad field of int'l econ, with emphasis on developing framework for effective management in today's global economoy. Key issues and problems are explored in areas of int'l trade, int'l investment & int'l payments, from perspective of manager of enterprises in operating in a cross-border, int'l environment. The approach will be verbal, graphical and non-technical and will draw from actual data sets and late-breaking news items from such business-oriented publications as Financial Times Economist, Wall Street Journal and New York Times.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: International Business (CPIB-CR1) or Global Management (GLMGT-BSBA)

BUSECN 1509 - INT'L BUSINESS AND TRADE
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD

BUSECN 1510 - RUSSIA TODAY:ENRGY ECON & POLC
Minimum Credits: 1
Maximum Credits: 1
This course will introduce students to Russia's political, economic, and institutional transformation as a result of the collapse of communism. It will focus on the transition from communism and state-planned economy to democracy and market economy. The course will discuss political and economic transformations, as well as changes in public policy, including health, education and the arts. The course will also focus on pressing contemporary issues of global importance such as energy policy, international trade, and Russia's position on the war of terror.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

Business Environment

BUSENV 0060 - MGRL ETHICS & STAKEHOLDER MGT
Minimum Credits: 3
Maximum Credits: 3
Examines the social, political and legal interfaces between the business institution (especially the corporation) and the environment. Topics typically considered include ethical and value issues in business, the social responsibilities of business, business-government relations, and the management of stakeholder relationships and corporate social policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Administration; LVL: So, Jr, Sr

BUSENV 0061 - CPLE:MGRL ETHC STAKEHOLDER MGT
Minimum Credits: 3
Maximum Credits: 3
Course examines the social, political and legal interfaces between the business institution (especially the corporation) and the environment. Topics typically considered include ethical and value issues in business, the social responsibilities of business, business-government relations, and the management of stakeholder relationships and corporate social policy. This section is reserved for students pursuing the certificate program in leadership and ethics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Leadership and Ethics (CERT)

BUSENV 1701 - ETHCAL LEADERSHIP FUNDAMENTALS

Minimum Credits: 1
Maximum Credits: 1
In this first integrated seminar of the CPLE sequence, students are introduced to ethics concepts and leadership skills - with a particular emphasis on demonstrating how ethics and leadership are complementary areas of emphasis for an effective leader. Ethics and leadership must be considered together in order to produce leaders who have the foresight to consider issues of responsibility, account ability and the full impact of their actions as well as a skill set that will empower them to implement their vision.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Leadership and Ethics (CERT)

BUSENV 1702 - LEADERS: DIVERSITY & COMPLXITY

Minimum Credits: 1
Maximum Credits: 1
In this second integrated seminar of the CPLE sequence, students will be challenged to view organizations as being part of a greater and more complex social system. Students will be required to recognize and analyze the competing pressures that can arise in organizational contexts, both conceptually - through readings on diversity in organizations, and practically - through attention to the leadership skills needed to navigate conflicts and disputes in their leader ship roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1703 - STAKEHOLDER MANAGEMENT

Minimum Credits: 1
Maximum Credits: 1
In the third integrated seminar in the cple sequence, students will consider the practical realities of the popular notion that "leaders must exhibit moral courage" - particularly the often-competing expectation that leaders remain true and loyal to an organization and its purpose. Students will be challenged to develop their skills in regard to managing the political environment of their organization, while maintaining relationships with key constituents.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1704 - SOCIAL IMPACT OF ORGANIZATIONS

Minimum Credits: 1
Maximum Credits: 1
In this fourth and final integrated seminar of the CPLE sequence, students will learn to consider the broader implications of their organizations involvement in social issues and concerns. Students will be encouraged to develop their negotiation and delegation skills as a means of empowering them to act when their organization in the midst of a difficult social context. In particular, there will be an examination of the in-depth organization involvement in the holocaust.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1706 - MARKET MANIPULATIONS

Minimum Credits: 3
Maximum Credits: 3
Taking a historical perspective, the course focuses on the major kinds of market manipulations, as well as their impacts. Major topic areas include: the nature of a market and its 'failures,' and how firms as well as governments evolved to compensate for those failures; types of major market calamities, with historical comparisons, examining how they might have been successfully managed; the market manipulators, focusing on the 'robber barons' of the 'gilded age;' and the contexts and consequences of market manipulation, including an overview of factory towns and of worker impacts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1750 - LEADERSHIP & ETHICS INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Students will complete both social and ethics audits of the organization for which they are working an internship assignment. These exercises are designed to lead students to examine and critique their organization's commitment to ethics and leadership in a critical, yet balanced, manner. The content of the internship course centers around students independently recognizing & identifying how issues related to ethics & leadership are & are not addressed in the organizations that they serve. Students permitted to take any internship approved by CBA's Berg Center for Leadership and Ethics.

Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Leadership and Ethics(CERT)

BUSENV 1755 - SERVICE LEARNING ORGANIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course is designed around an experiential learning methodology that uses a service project for a community organization to enhance student understanding of a particular content area in leadership and ethics. Students will be challenged to immerse themselves in readings, essays and discussions in a specific content area that will be operationalized and reviewed throughout the duration of the community service project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Leadership and Ethics (CERT)

BUSENV 1760 - BUSINESS LAW

Minimum Credits: 3
Maximum Credits: 3
Provides students with an exposure to the extensive laws and regulations that affect almost all major aspects of business operations. Topics covered are chosen on the basis of their importance to contemporary business.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSENV 1761 - SPECIAL TOPICS IN BUSINESS LAW

Minimum Credits: 3
Maximum Credits: 3
Focuses on a variety of business law issues. Issues addressed will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1762 - ADVANCED ETHICS

Minimum Credits: 3
Maximum Credits: 3
Expands students' awareness and knowledge of ethical issues in business and how ethical decision making is hindered or facilitated by corporate structures and processes. Philosophical, sociological, and psychological dimensions of ethical decision making are explored in depth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1765 - LEADERSHIP SOCIAL ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
This course will give CPLE students exposure to in-depth analysis of leadership concepts and techniques in personal, interpersonal, and group skill areas. Students will complete a number of assessment and skill development exercises in topics such as teamwork, motivation, agenda building, power and influence tactics, problem solving and decision-making. The exercises will be grounded in students' real world experiences in internships, leadership roles and campus and community organizations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Leadership and Ethics (CERT)

BUSENV 1770 - BUSINSS ENVIRONMENT INDP STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of business environment issues or problems to which they have been introduced in other business environment courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

BUSENV 1775 - CPLE CAPSTONE SEMINAR
Minimum Credits: 3
Maximum Credits: 3
In this final course of the CPLE sequence, student will take a capstone seminar that is essentially a graduate-level research seminar on specific content areas in ethics and leadership. Based on previous exposure to the research process in the integrated seminars, students in the capstone seminar will be challenged to develop a substantial research project on their primary area of interest and expertise.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Leadership and Ethics (CERT)

BUSENV 1780 - CORPORATE GOVERNANCE
Minimum Credits: 3
Maximum Credits: 3
Corporate governance, the set of policies, process and customs by which an institution is directed, is a topic of increasing importance. How a company is governed influences corporate performance, rights and relationships with its stakeholders. This course aims to provide a deep understanding of the fundamentals of corporate governance from a variety of angles ' the board of directors, senior management, investors, media, regulators and society ' and from an international perspective. After a highlight on the main issues of corporate governance (e.g. the relationships between owners, management, board and institutional environment), relevant theories and corporate governance practices will be analyzed. Students will gain skills required for understanding corporate behavior and will be introduced to issues in business and government relations through lectures, discussion and case/policy studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1785 - SOCIAL ENTREPRENEURSHIP
Minimum Credits: 3
Maximum Credits: 3
This course covers theory, conceptual frameworks, and tools used to formulate strategies for commercializing new technologies. The analytical frameworks cover elements of commercialization strategy that are equally critical to start-ups and to corporate technology ventures. In addition, we discuss some of the key challenges that differ for start-ups versus established firms. The primary deliverable in the course is a professional quality project which evaluates the commercialization alternatives for an emerging technology. Your project team will be paired with a local inventor, unless you prefer to evaluate a technology of special interest to your team. Experienced entrepreneurs and expects in financing new technology ventures will also address the class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSENV 1790 - BUS ENVIRONMENT INTERNSHIP
Minimum Credits: 3
Maximum Credits: 3
The business environment internship provides business credits for project assignments that augment a professional business environment work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

Business Information Systems

BUSBIS 1060 - INTRO TO INFORMATION SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
IT does not matter it's what you do with IT! Business in the 21st century runs on IT. However, competitive advantage seldom comes from having exclusive or proprietary access to a technology. Rather, IT comes from more effectively utilizing technologies to which everyone - including the competition - has access. The implications of this reality are many. First, it is necessary to understand what technologies are available in the marketplace and their capabilities. Next, and far more challenging, it is necessary to understand how these capabilities may positively (or negatively) interact with business strategy. Business transformation is the alignment of process, people, and technology such that IT can both support and innovate business strategies. Given that technologies evolve and develop at a rapid pace, IT is necessary for managers to understand what technologies can do (both established and new) and how IT can be leveraged to create real value.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; LEVEL: Sophmore, Junior, Senior

BUSBIS 1600 - TEC-ENABLED BUS TRANSFORMATION

Minimum Credits: 3
Maximum Credits: 3
It does not matter it's what you do with it! Business in the 21st century runs on it. However, competitive advantage seldom comes from having exclusive or proprietary access to a technology. BUSBIS 1615 - BIS INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The business information systems internship provides the business credits for project assignments that augment a professional BIS work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSBIS 1620 - BIS INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of business information systems issues or problems to which they have been introduced in other business information systems courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSBIS 1625 - ELECTRONIC COMMERCE

Minimum Credits: 3
Maximum Credits: 3
This course will cover: (1) electronic business, defined as the use of internet and related communication technologies for organizational communication, coordination, and management of the firm; (2) electronic commerce, defined as the process of buying and selling goods and services electronically; and (3) societal implications of the new technologies. Students will be evaluated on the basis of class participation, assignments, quizzes, exams, and a business plan where students propose e-commerce solutions to tackle specific organizational or business problems and opportunities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting(BSB),Finance(BSB),General Management(BSB),Global Management(BSBA),Marketing(BSB), Business Information Systems(BSB), Human Resources Management,Human Resources Management(BSB),Supply Chain Management(BSB) and undeclared CBA Majors

BUSBIS 1630 - PROJECT MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Planning, organizing, staffing, and controlling projects requires traditional management skills as well as an appreciation of the tools, techniques, and practices unique to project management. This course starts with an overview of project management concepts, and then focuses on project planning, estimating, monitoring, and controlling. It also covers topics related to being an effective project leader and managing project teams. The project management institute (PMI), a professional organization for project managers, has produced a guide to the project management body of knowledge, which documents the knowledge and practices needed by today's project managers. This guide, along with current research and management trends related to project management, provide the framework for material covered in this class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting (BSB), Finance (BSB), General Management (BSB), Global Management (BSBA), Marketing (BSB), Business Information Systems (BSB), Human Resources Management, Human Resources Management (BSB), Supply Chain Management (BSB) and undeclared CBA Majors

BUSBIS 1635 - INF TECHN SYMS SUPPLY CHAINS
Minimum Credits: 3
Maximum Credits: 3
This course examines the advantages and complexities of ERP software and demonstrates how the system can improve processes and streamline operations as applied toward a global supply chain. ERP systems provide a competitive advantage for a company by allowing the management of different functions and processes in one single corporate information system, providing access to real-time data within the company, enabling greater business agility and strategic decisions. Accordingly, information technology systems in supply chains has been designed to provide students with: strong knowledge of enterprise resource planning (ERP) systems and how companies leverage ERP software to manage global supply chains. Hands-on experience with the execution of supply chain business processes in sap, an industry leader in ERP business software. Practical skills, acquired through experience-based learning activities, which will make students more effective working in a collaborative, global, virtual business world.

BUSBIS 1640 - IT ARCH & PLATFORMS
Minimum Credits: 3
Maximum Credits: 3
There is no such thing as a technology decision ' there are only business decisions. The options and issues affecting the deployment and utilization of business information systems have grown in number and greatly increased in complexity since the internet and concomitant technologies have become the most important de-facto standards for business computing and networking. Business people who are involved in technology selection and deployment decisions need a basic knowledge of these areas as well as an understanding the value, costs and benefits they might offer to a business. They also must be able to find out about and evaluate new or emerging technologies and issues that could have relevance in their business situations. They then need to be able to explain all of this to other business people - in business terms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared

Business Marketing

BUSMKT 1040 - INTRODUCTION TO MARKETING
Minimum Credits: 3
Maximum Credits: 3
Provides an understanding of the roles of marketing in the economy and the firm, and develops a rationale for a marketing perspective as a guide to organizational and individual actions. Topics covered are the marketing environment, strategic planning, market segmentation, product development, pricing, distribution, promotion, consumer decision-making, control, and marketing management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; PROG: College of Business Admin; LVL: So, Jr, Sr

BUSMKT 1041 - INT TO MARKETING HONORS + 1
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1411 - MARKETING RESEARCH

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the development of methods of decision making for marketing management. Formal tools of decision making are stressed. The collection and analysis of marketing data is viewed in the context of a management information system. Provides a common analytical framework for later courses treating specialized aspects of marketing in depth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C') and (STAT 1000 or 1040 or 1100 or 1131 or MGMT 0024 or ECON 0204);PLAN: Acct,Fin,Gen Mgmt,Glbl Mgmt,Mrktng,Undclrd CBA,BIS,HRM,SCM

BUSMKT 1421 - SELLING SKILLS & SALES MGMNT

Minimum Credits: 3
Maximum Credits: 3
Develops effective persuasive skills through a study of persuasive principles, communication styles and non-verbal cues, and a review of the legal and ethical constraints associated with professional selling. The second focus is the role of the sales manager in hiring, training, directing, motivating, and rewarding a sales force.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1422 - PRINCIPLES OF SELLING

Minimum Credits: 3
Maximum Credits: 3
Selling is universal. Everyone uses persuasive communication to "sell" products, services, ideas, opinions, or points of view. Examine and practice the techniques and use the tools examined to develop and/or improve your sales skills. Focused on business-to-business sales, the concepts will apply to negotiating mutually beneficial agreements. From customer identification thru gaining agreement and follow-up, learn to identify customer problems and develop solutions that appeal to customers and benefit your organization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD: 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1425 - SALES FORCE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Responsible to implement the organization's strategic goals and create profit thru sales, the sales manager must plan, organize, implement, monitor and evaluate the sales function. The manager must assure alignment of goal, strategy, task, action and reward in the sales function to create "mutual benefit" with the customer. The manager's sales forecast drives the organization, while the sales tactics and strategies which the manager plans and oversees make those forecasts a reality. We will examine the sales management process and the evolving role of the manager.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1426 - ADVRTSNG AND SALES PROMOTION

Minimum Credits: 3
Maximum Credits: 3
Provides students with an understanding of advertising and the marketing process within which effective advertising and sales promotions are rooted. It is further designed to teach students to develop effective advertising and promotion plans. Emphasis will be placed on both theoretical and conceptual foundations and their applications to the fields of advertising and sales promotions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course will examine how public relations (PR) fits into the strategic management of organizations and how it impacts firm performance. Students will develop a competence in applying PR principles to organizational opportunities and problems, with a focus on developing sound PR writing skills.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1428 - DIGITAL & SOCIAL MEDIA MARKTNG

Minimum Credits: 3
Maximum Credits: 3
This course covers advertising, marketing, and communications strategies in the new media landscape where traditional and social media co-exist. The course will focus on (i) how social media strategies can be used effectively in marketing programs, (ii) when they should/should not be used, (iii) how to build them, and (iv) how to measure, track, and evaluate their performance and effectiveness. This marketing strategy course will focus on analyzing, developing, implementing, and evaluating media strategies as an integral part of overall marketing strategy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1426; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1429 - MKT COMMUNICATIONS AUSTRALIA

Minimum Credits: 3
Maximum Credits: 3
Marketing communications in Australia provides an understanding of the ways in which advertising is effectively planned to achieve the objectives set in the overall marketing plan. The concept of integrated marketing communication is introduced as an organizational tool and as a philosophy for campaign planning. Integrated marketing communication requires a 'total' approach to planning advertising and promotions campaigns and coordinating communication strategies in support of overall brand and goods/services marketing objectives, and more broadly marketing strategy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1430 - MARKETING COMNCTNS IN BRITAIN

Minimum Credits: 3
Maximum Credits: 3
Marketing communications in britain provides an understanding of the ways in which advertising is effectively planned to achieve the objectives set in the overall marketing plan. Home to the second largest global agency network, WPP - London (parent of major ad agencies Ogilvy & Mather, JWT, and Young & Rubicam, and universally recognized as the center for creative and production excellence), is an ideal place to learn about the industry that is "ad-land". Viewed from the us and elsewhere, a significant proportion of british advertising has a contempt for the hard sell, an antipathy to too much research, along with a penchant for irony and parody. This course is skewed to look at and assess the practice of advertising from this standpoint.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSMKT 1431 - PRODUCT DEVELOPMNT & MGMNT

Minimum Credits: 3
Maximum Credits: 3
Addresses all stages of the product life cycle beginning with the various phases of new product development, including creativity and new product concept generation, concept testing and evaluation, pricing, demand forecasting and new product marketing strategies. Also deals with special challenges related to marketing mature products/services, improving marketing implementation effectiveness, and marketing the intangible features of products.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1435 - SERVICES MARKETING

Minimum Credits: 3
Maximum Credits: 3
The focus of this course is to develop the students' skills as marketers-broading tools learned in the intro course to include development of strategies and programs for service firms. Course utilizes problem solving techniques through presentation, discussion, and analysis of contemporary service marketing cases involving examples of consumer and business to business services in both large and small firms. The course is appropriate for 1) any student seeking a follow-up course to the basic marketing class; 2) students who plan marketing careers with service firms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1441 - CONSUMER BEHAVIOR

Minimum Credits: 3
Maximum Credits: 3
Focuses on the study of individual consumers through the integration of a wide variety of social science concepts and gaining familiarity with some of the more common techniques of consumer research methodology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1445 - CUSTMR INSIGHTS FRM COMMR DATA

Minimum Credits: 3
Maximum Credits: 3
Develops an understanding of cutting-edge marketing techniques via hands-on use of marketing databases. The focus is on consumer products in general and consumer packaged goods in particular. Topics include brand performance assessment, competitive analysis, marketing mix effects, store vs. panel data, fact-based marketing, category management, and new product opportunity identification.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: Restricted for College of Business Administration

BUSMKT 1451 - RETAIL MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the strategic decisions for developing an enduring store image, and the marketing policies to produce customer satisfaction through service quality. Topics covered include store location, layout and atmosphere, logistics and information systems, merchandising, vendor relations and customer services, as well as topics related to non-store retailing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1455 - PRICING STRATEGIES AND TACTICS

Minimum Credits: 3
Maximum Credits: 3
The purpose of pricing is to create value to the firm in the form of profits. Pricing practices are changing dramatically in an era of e-commerce and globalization. The objectives of this course are to: 1. Expose students to seminal concepts and theories on pricing from a marketing manager's viewpoint; 2. Develop independent assessment skills of the pricing strategies/tactics used in a variety of industries; 3. Provide opportunities for applying pricing knowledge to real-world problems. The course will be taught using interactive lectures, cases, problem sets and independent reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1461 - INTERNATIONAL MARKETING

Minimum Credits: 3
Maximum Credits: 3
Examines the unique characteristics of global marketing and the strategic marketing decisions for effective competition in the global environment in view of the rapid integration of the global economy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1481 - BRAND MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Exposes students to a wide range of marketing problems and provides them with the analytic perspectives and strategic marketing decision tools for analyzing and solving those problems.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSMKT 1040 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSMKT 1485 - PROJECTS IN MARKETING

Minimum Credits: 3
Maximum Credits: 3
BUSMKT 1485 connects undergraduate marketing students with prominent commercial/government clients to develop/implement specific marketing strategies. Students receive hands-on exposure to planning, strategy, research, advertising, public relations, event planning, and budgeting. Students demonstrate oral/written presentation skills via formal presentations to representatives from the client organizations.
Academic Career: UGRD

BUSMKT 1490 - MARKETING INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
The marketing internship provides business credits for project assignments that augment a professional marketing work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

BUSMKT 1495 - MARKETING INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of marketing issues or problems to which they have been introduced in other marketing courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

BUSMKT 1511 - MKTG "MADE IN ECUADOR" TO WRLD

Minimum Credits: 1
Maximum Credits: 1
Historically, Ecuador sits at the contact zone of the Incan and Cañari culture where trade through the spine of the Andes has been active for centuries. Currently, Ecuador is in the midst of building its brand to the world and is seen as the crucible of the chocolate industry. Promotion of the Galapagos, Yasuni Park and adventure travel on wild rivers has been part of the effort to showcase the best of the country to foreign markets. Ecuador's stunning volcanic peaks and rich tropical rainforest offer some of the greatest destinations on the planet along with unique and marketable resources of foods and culture. This course is designed to give you an understanding of Ecuador's natural and cultural assets including art, chocolate, ancient cities and adventure destinations and how to best market them to the world. This will be a hands-on experience where you will make your own chocolate, pottery and help locals prepare native crops as well as design promotions and refine and position their natural and cultural offerings for the global market. This is a real world experience that will be invaluable in your career as a marketer or employee in global enterprise.

BUSERV 1910 - INTRODUCTION TO BUSINESS

Minimum Credits: 3
Maximum Credits: 3
Provides an overview of how American business operates in our economy. Emphasis is given to the study of management, planning, personnel, finance, and marketing, and how these are interrelated within our business system. The activities in each of these functions are discussed, role of the participants analyzed, and underlying theories examined. The student should gain an insight into the primary activities in business and an understanding of their practical applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1915 - INTRODUCTION TO MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Introduces the basic roles of managers such as planning, organizing, controlling, staffing, and directing. Aspects of leadership, motivation, organization structure, and the interdependence of functional subsystems will also be covered. Emphasis is placed on management practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1920 - FINANCIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
A study of accounting and financial concepts pertaining to the business enterprise, with emphasis on the understanding and use of accounting and financial data. This course develops the ability to analyze and interpret internal and external financial developments as they relate to a business enterprise and provides an operational knowledge of the accounting cycle.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1925 - COST ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
This course has three objectives: (1) to develop an understanding of the broad range of cost accounting concepts underlying cost determination and analysis; (2) to provide familiarity with the controls that are afforded in the application of cost accounting concepts; and (3) to create an awareness of how cost accounting can contribute to decision-making and planning. These objectives are accomplished through analyses of the behavior and economic data within the firm, evaluation of actual and standard cost systems, and the examination of cost measurements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1940 - MARKETING FUNDAMENTALS
Minimum Credits: 3
Maximum Credits: 3
Provides an understanding of the roles of marketing in the economy and the firm, and develops a rationale for a marketing perspective as a guide to organizational and individual actions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSERV 1955 - PRINCIPLES OF SELLING
Minimum Credits: 3
Maximum Credits: 3
Examines aspects of personal selling and the links between the seller and the buyer. The establishment of rapport through the development of interpersonal skills and the translation of company or self-objectives into decisions that motivate the sales force are included. Methods of recruiting and selecting the salesperson, training the salesperson, problems of evaluation, establishing personal credibility, handling objections, closing a sale, establishing one's personal goals, and objectives and procedures for self-management are included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSERV 1975 - FINANCIAL PLN FOR THE INDIVIDL
Minimum Credits: 3
Maximum Credits: 3
Course provides an overview of the personal financing planning process; developing personal financial goals, analytical tools used in financial planning, individual risk assessment and management techniques, investment and portfolio analysis, individual tax planning and management, employee benefits and retirement planning, and estate planning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1980 - THE LEGL ENVIRONMNT OF BUSINSS
Minimum Credits: 3
Maximum Credits: 3
Provides a broad introduction to the court systems, the legislative process, and the regulatory process. Covers topics such as business organization, securities regulation, employer-employee relations, product liability, consumer protection, anti-trust law, environmental law, torts, contracts, and legal ethics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSERV 1985 - SMALL BUSINESS MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
Introduces basic principles and practices for successful management of a small business. Topics include the economic environment, development of personal and organization objectives, marketing production, finance, credit, accounting, business law, and records management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Career Development Accounting

CDACCT 6030 - FINANCIAL ACCOUNTING
Minimum Credits: 3
Maximum Credits: 3
Helps students become informed users of firms' external financial reports. The basic structure and contents of such reports and the process by which they are prepared will be studied. Discussion will involve what items are included in the reports, how such items are measured, and how various economic events affect them. An understanding of what can be inferred from the reports about past performance, present position, and future prospects of the firms will be developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECON 0102 or 0103 or 0105 or 0110 or 0115 or 0120; MIN GRADE: 'C' For Listed Courses; PLAN: Accounting (CERT)

CDACCT 6040 - MANAGERIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Introduces students to the basic terminology and concepts of cost accounting, and provides an introductory coverage of product costing, cost allocation, budgetary control, responsibility accounting, and the use of cost information in resource allocation and other managerial decisions. Textbook material and real world examples are used to engage students in extensive problem solving.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201; PLAN: Accounting (CERT)

CDACCT 6204 - INTERMEDT FINANCL REPORTING 1

Minimum Credits: 3
Maximum Credits: 3
Covers the conceptual framework of financial accounting and its influence on generally accepted accounting principles (GAAP), with special emphasis on the valuation of assets, and measurement of income. Requirements include reading the original pronouncements on GAAP, making oral presentations, and writing short position papers on various accounting issues of current interest.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201) and (BUSACC 0040 or BUSERV 1925 or CDACCT 6040 or MGMT 0023 or BUS 1110 or ACCT 0202); MIN GRAD: 'C' For Listed Courses; PLAN: Accounting (CERT)

CDACCT 6205 - INTERMEDT FINANCL REPORTING 2

Minimum Credits: 3
Maximum Credits: 3
Topics covered include valuation of liabilities, owners equity, cash flow statements, and disclosure outside the primary financial statements. Like intermediate financial reporting 1, this course also engages students as active participants in the learning process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1204 or CDACCT 6204; PLAN: Accounting (CERT)

CDACCT 6206 - INTERMEDT FINANCL REPORTING 3

Minimum Credits: 3
Maximum Credits: 3
Covers the current developments in generally accepted accounting principles (GAAP) and some highly technical financial accounting topics not covered in intermediate financial reporting 1 and 2. Requirements include resolving complex and unstructured financial accounting and reporting problems and presenting reasoning both orally and in writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CDACCT 6210 - FINANCIAL STATEMENT ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Financial statement analysis focuses on the evaluation of publicly traded company financial statements and related note disclosures as well as the correlation of this historic financial performance to the company's stock prices. This course will assist students' development of a systematic approach to analyzing reported financial data and understanding the underlying risks and possible inconsistencies among comparative companies. Requirements of the course include interim exams and written and oral presentations of analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205 or CDACCT 6205; PLAN: Accounting (CERT)

CDACCT 6216 - ADVANCED FINANCIAL ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Covers topics that are of particular interest to financial report preparers and auditors. Special emphasis placed on accounting for business combinations and consolidated financial reporting. Other topics include international accounting, accounting for partnerships, and accounting by fiduciaries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205 or CDACCT 6205; PLAN: Accounting (CERT)

CDACCT 6221 - STRATEGIC COST MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
Topics covered include how product cost measurement affects resource allocation decisions; how to design modern cost systems; the strategic role of cost information and the relationship between process improvement and cost reduction; performance measurement and organizational transformation for value creation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201) and (BUSACC 0040 or BUSERV 1925 or CDACCT 6040 or MGMT 0023 or BUS 1110 or ACCT 0202); MIN GRAD: 'C' For Listed Courses; PLAN: Accounting (CERT)

CDACCT 6236 - ACCOUNTING INFORMATION SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
Deals with the design and implementation of accounting information systems and their ability to collect data on the activities of the organization, to accumulate and summarize it, and to make the information available to managers for analysis, decision making, and control. Special emphasis is placed on the problems inherent to this effort.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201) and (BUSACC 0040 or BUSERV 1925 or CDACCT 6040 or MGMT 0023 or BUS 1110 or ACCT 0202); MIN GRAD: 'C' For Listed Courses; PLAN: Accounting (CERT)

CDACCT 6238 - AUDITING
Minimum Credits: 3
Maximum Credits: 3
Introduces the auditing process and profession. Main topics include the nature and purpose of auditing, auditing standards, professional conduct, auditor legal liability, and approaches in financial statements. Emphasizes a risk-based approach to selecting appropriate auditing techniques. Examines auditor's decision process relating to internal control assessment, audit decision process relating to internal control assessment, audit sampling, and obtaining audit evidence about financial accounts. Also examines extent of auditor's responsibility to uncover fraud.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC1205 or CDACCT 6205; CREQ: BUSACC 1236 or CDACCT 6236; PLAN: Accounting (CERT)

CDACCT 6241 - TAX ACCOUNTING
Minimum Credits: 4
Maximum Credits: 4
Intensive introduction to federal income tax concepts, statutes and regulations, and their use in accounting and planning of business activities of corporations, partnership and individual proprietorships. Also covered are federal income tax concepts for individuals, including their use in accounting and planning of personal activities and investments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205 or CDACCT 6205; PLAN: Accounting (CERT)

CDACCT 6242 - INDIVIDUAL TAX ACCT & PLNNG
Minimum Credits: 3
Maximum Credits: 3
This course focuses on individual tax return preparation and planning. Students will learn how to calculate the taxes associated with a variety of personal, investment, property, and sole-proprietorship transactions. Concepts will be reinforced through the preparation of actual tax returns that reflect different combinations of such transactions. Students will develop tax planning skills by considering how various transactions can be restructured to minimize the current or future tax liability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSACC 1205 or CDACCT 6205; PLAN: Accounting (CERT)

Chemical Engineering

CHE 0035 - INTRODUCTRY CHEMCL ENGINEERING

Minimum Credits: 4
Maximum Credits: 4
The principles of conservation of mass and energy are applied to the analysis of chemical processes. Included are material balance for multiple unit processes with recycle, p-v-t properties of gases and gas-vapor mixtures, thermochemistry, combined material and energy balances, and vapor-liquid equilibrium.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 0036 - CHEMCL ENGRNG THERMODYNAMICS 1

Minimum Credits: 3
Maximum Credits: 3
Development of the laws of thermodynamics using a macroscopic approach. Fundamental concepts are stressed. Emphasis is placed on chemical engineering applications in problem recitation sessions. Concepts of work, heat, internal energy, potential energy, kinetic energy, enthalpy, entropy, and free energy are developed. Thermodynamic properties and equations of state are defined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 0100 - FOUNDATIONS OF CHEMICAL ENGR

Minimum Credits: 6
Maximum Credits: 6
This course combines elements of mass and energy balances, thermodynamics, separations, and product design in order to set the foundation for the remainder of the chemical engineering curriculum. This course introduces chemical engineering problem solving techniques from both a (traditional) process-centric viewpoint as well as a product centric viewpoint. The course will span from theoretical (basic thermodynamics) to applied (separations) allowing a simple route to problem-based learning of difficult theoretical concepts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (CHEM 0120 or 0420 or 0770 or 0970 or 0102 or 0112) and (MATH 0230 or 0235 or 0150 or 0231) and (PHYS 0174 or 0475 or 0150 or 0201); CREQ: CHE 0101; PROG: Swanson School of Engineering

CHE 0101 - FOUNDATIONS OF CHE LABORATORY

Minimum Credits: 1
Maximum Credits: 1
The lab course associated with CHE 0100. Experiments and lectures will reinforce the content of CHE 0100.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0100; PROG: Swanson School of Engineering

CHE 0200 - CHEMICAL ENGR THERMODYNAMICS

Minimum Credits: 6
Maximum Credits: 6
This course combines the ideas from both pure and multicomponent thermodynamics. It introduces molecular insight and the tools (including commercial software) for solving both simple and complex problems in phase and chemical equilibria. The course will have a strong focus on multiscale analysis, for example, covering intermolecular potentials (molecular-scale) to aid students in choosing equations of state for novel materials (macro-scale). Advanced topics covered include interfacial behavior, adsorption, and osmotic equilibrium.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (CHEM 0120 or 0420 or 0970 or 0102 or 0112) and (MATH 0230 or 0235 or 0150 or 0231) and (PHYS 0174 or 0475 or 0150 or 0201); CREQ: CHE 0201 and 0214 ; PLAN: Chemical Engineering (CHE-BSE)

CHE 0201 - CHE THERMODYNAMICS LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory corresponding to CHE 0200.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0200; PLAN: Chemical Engineering (CHE-BSE)

CHE 0214 - INT TO CHEMICAL PRODC DESIGN

Minimum Credits: 3
Maximum Credits: 3
Traditionally, chemical product design has focused on a set procedure for product development from conception to development and testing and finally the launching of the product. Unfortunately, this model which does not keep in mind the values or needs of the customer has resulted in a high number of failures for new product launches. What skills are thus needed in order to be entrepreneurial and succeed in the development of new chemical products within industry today? This course examines the initial stages on how to approach chemical product design from an innovation perspective complete with the provision of the necessary technical skills to get the job done while placing an emphasis on the business and entrepreneurial skills required to be successful in the chemical product design business.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0420 or CHEM 0770 or CHEM 0970) and (Math 0150 or MATH 0230 or 0231 or MATH 0235) and (PHYS 0150 or PHYS 0174 or 0201 or PHYS 0475); CREQ: CHE 0200; Plan: Chemical Engineering (BSE)

CHE 0300 - TRANSPORT PHENOMENA

Minimum Credits: 6
Maximum Credits: 6
Stresses analogies between the three modes of transport phenomena; momentum, mass, and heat transport. Covers from the molecular origins of transport up through continuum descriptions, as well as macroscopic balances. Reynolds and Colburn Analogies in Boundary-Layer Flow as well as direct comparison of linear transport relations, such as fluid drag and mass/heat convection will be a primary focus. Problems ranging from (traditional) packed bed reactors to micro-fluidics or micro-electromechanical systems will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0100 and (PHYS 0175 or 0152 or 0202 or 0476) and (MATH 0290 or 0250 or 1270); CREQ: CHE 0301; PROG: Swanson School of Engineering

CHE 0301 - TRANSPORT PHENOMENA LABORATORY

Minimum Credits: 1
Maximum Credits: 1
The lab course associated with CHE 0300. Experiments and lectures will reinforce the content of CHE 0300.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0300; PROG: Swanson School of Engineering

CHE 0314 - TAKING PRODUCTS TO MARKET

Minimum Credits: 3
Maximum Credits: 3
Traditionally, chemical product design has focused on a set procedure for product development from conception to development and testing and finally the launching of the product. Unfortunately, this model which does not keep in mind the values or needs of the customer has resulted in a high number of failures for new product launches. What skills are thus needed in order to be entrepreneurial and succeed in the development of new chemical products within industry today? This course is the next step in the chemical product design sequence and focuses on chemical product design and the development of business plans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0100 and CHE 0214 and (PHYS 0152 or PHYS 0175 or 0202 or 0476) and (MATH 0250 or MATH 0290 or MATH 1270); CREQ: CHE 0300

CHE 0400 - REACTIVE PROCESS ENGINEERING

Minimum Credits: 5
Maximum Credits: 5
This course integrates reactor design, reaction kinetics, and advanced separation processes to allow the comprehensive study of systems ranging from polymerization reactors to enzyme-catalyzed metabolism to (bio-) artificial organs. Coverage includes integrating multiple topics, such as chemistry, physics, biochemistry/medicine and reactor engineering. Furthermore, it addresses all length scales from the molecular level to the reactor level to the full systems level. Both theory and experiment will be highlighted and detailed simulations will be included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (CHE 0100 and 0200) and (PHYS 0175 or 0475 or 0202 or 0152) and (CHEM 0310 or 0206 or 0231) and MATH 0290; CREQ: CHE 0401; PLAN: Chemical Engineering (BSE)

CHE 0401 - REACTIVE PROCESS ENGR LAB

Minimum Credits: 1
Maximum Credits: 1

Laboratory corresponding to CHE 0400.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0400; PROG: Swanson School of Engineering

CHE 0500 - SYMS ENGR 1: DYNAMICS & MODLNG

Minimum Credits: 5
Maximum Credits: 5
The dynamics and modeling class is the first of a two-part systems engineering sequence. This course covers dynamical analysis of process systems, process control fundamentals, feedback, basic process modeling, and optimization. The course covers industrial-style examples from a multi-scale perspective by incorporating molecular insight into process variable calculations and large-scale information through process simulation (computer-aided design) software.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0300 and CHE 0400; CREQ: CHE 0501; PROG: Swanson School of Engineering

CHE 0501 - SYSTEMS ENGR 1 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory experience accompanying CHE 0500. Both physical and computational experiments will be performed.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0500; PROG: Swanson School of Engineering

CHE 0600 - SYSTEMS ENGINEERING 2: DESIGN

Minimum Credits: 5
Maximum Credits: 5
The plant design portion of this course integrates design aspects of previous courses into the design of a chemical plant, computer process simulation, pinch technology, discounted cash flow economic analysis, and detailed design of chemical engineering units are used in the design process. The product design portion of this course will go through the steps to successful product design and contrast these with traditional process design methods. Good product design incorporates customer needs, manufacturing flexibility, economy, sustainability and molecular design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0300 and CHE 0400; CREQ: CHE 0601; PROG: Swanson School of Engineering

CHE 0601 - SYSTEMS ENGR 2 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
The lab course associated with CHE 0600. Experiments and lectures will reinforce the content of CHE 0600.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: CREQ: CHE 0613; PROG: Swanson School of Engineering

CHE 0602 - CHE SAFETY AND ETHICS

Minimum Credits: 2
Maximum Credits: 2
This class will provide the student with a thorough understanding of the fundamentals in workplace health and safety with emphasis on chemical industry applications. This will be accomplished through presentation a discussion of critical issues as well as the application of these principles to the senior design project. This course will also cover ethical situations likely to arise in the chemical plant environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: 0400; CREQ: CHE 0613; PROG: Swanson School of Engineering

CHE 0613 - SYS ENGNR 2: PROCESS DESIGN

Minimum Credits: 5
Maximum Credits: 5
This course integrates aspects of previous chemical engineering courses into the design of a complete chemical plant including the use of computer process simulation, pinch technology, and discounted cash flow economic analysis. The detailed design of chemical engineering units/processes is carried out for all aspects of the plant.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHE 0300 and CHE 0400; PROG: Swanson School of Engineering

CHE 0614 - SYS ENGNR 2: PRODUCT DESIGN

Minimum Credits: 2
Maximum Credits: 2
This course will go through the steps to successful product design and contrast these with traditional process design methods. Good product design incorporates customer needs, manufacturing flexibility, economy, sustainability and molecular design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHE 0300 and CHE 0400; PROG: Swanson School of Engineering

CHE 1007 - CHEMCL ENGRNG THERMODYNAMICS 2

Minimum Credits: 3
Maximum Credits: 3
Thermodynamic properties of homogeneous mixtures are examined. Emphasis is placed on analysis of multicomponent systems. A strong basis is developed in phase and chemical equilibria. Fundamentals of ideal and real solutions are developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1008 - INTRODCTN TO STAGED SEPARTNS

Minimum Credits: 3
Maximum Credits: 3
Unified treatment of separation processes which are carried out in staged equipment. Computer solutions are emphasized. Binary distillation, calculations using graphical methods, multicomponent distillation of ideal and non ideal mixtures, liquid extraction, and differential distillation are studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1009 - CHEMICAL ENGINEERING WRITING

Minimum Credits: 2
Maximum Credits: 2
This course will focus on writing skills for chemical engineers, with an emphasis on assignments associated with the undergraduate curriculum. Techniques and formats for reports associated with labs, electives, cooperative education reports, independent study reports, design projects and short technical papers will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1010 - TRANSPORT PHENOMENA 1

Minimum Credits: 4
Maximum Credits: 4
Presents the fundamentals of fluid flow, heat transfer, and mass transfer thereby establishing a foundation for all chemical engineering operations involving physical rate processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1011 - TRANSPORT PHENOMENA 2

Minimum Credits: 4
Maximum Credits: 4
Applications of basic concepts of momentum, heat and mass transfer to design calculations for chemical engineering unit operations are emphasized. Problems of multiphase transport processes, including fluidization and particle technology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1012 - CHEMCL ENGRNG REACTOR KINETICS

Minimum Credits: 3
Maximum Credits: 3
Mechanisms and kinetics of chemical reactions are described and applied to the design of chemical reactors. Topics include reactor types, determination of rate expressions, mass and heat transfer effects and heterogeneous catalysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1013 - CHEMICAL ENGINEERING LAB 1

Minimum Credits: 3
Maximum Credits: 3
Basic chemical engineering principles are reinforced experimentally. Experiments in transport phenomena, stage-wise operation, and reaction kinetics are conducted. Engineering experimental planning, automated data acquisition and report writing are stressed.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1014 - CHEMICAL ENGINEERING LAB 2

Minimum Credits: 3
Maximum Credits: 3
Basic chemical engineering principles are reinforced experimentally. Experiments in transport phenomena, stage wise operation, and reaction kinetics are conducted. Engineering experimental planning, automated data acquisition and report writing are stressed.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1015 - MOL CHMCL &NUCLR REACTN KINET

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1017 - CHMCL ENRGY & NATR CHMCL BOND

Minimum Credits: 3
Maximum Credits: 3
An overview of energy transformations arising from chemical bonding in chemical catalysis, electrocatalysis, and combustion. Students will be introduced to qualitative quantum chemistry concepts: potential energy and kinetic energy operators, wave functions, electron correlation, and GVB diagrams for analysis of chemical bonds and molecular structures in energy transformations. Students are expected to have completed Undergraduate physical chemistry course on quantum mechanics or equivalent or have prior consent from the instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1020 - PROFESSIONAL PRACTICE

Minimum Credits: 2
Maximum Credits: 2
Course is designed to familiarize senior chemical engineering students with the history, present status, and the future of their profession and to introduce to the students problems of professional ethical practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1033 - ELECTRCL SYSTMS FOR CHMCL ENGR

Minimum Credits: 3
Maximum Credits: 3
Introduction to electrical systems. Includes analysis of dc circuits, Laplace transforms, transfer functions, frequency response, steady state ac circuits, transformers, power distribution, Polyphase Induction Motors, and DC Motors. Laboratory experiments are designed to familiarize chemical engineering student with principles of digital interfacing.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1034 - PROCESS DYNAMICS AND CONTROL

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of process dynamics and control. Dynamic Analysis of Linear Systems, Transient response to simple inputs, Frequency Response Methods, Stability of Linear Systems, Control System Design, Statistical Process Control, Multiple Input Multiple Output Systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1043 - CHEMICAL ENGINEERING DESIGN 1

Minimum Credits: 3
Maximum Credits: 3
The basic principles of chemical process design are introduced. Students work on group projects selected from heat and material balances of processes, piping design, heat exchanger design, and instrumentation. Chemical engineering economics are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1044 - CHEMICAL ENGINEERING DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
Students work on group projects selected from reactor design, design of staged systems, and AIChE Student Contest Problems. Project management, optimization, statistics, and flow sheet analysis are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1045 - CHEMICAL ENGR PLANT DESIGN

Minimum Credits: 4
Maximum Credits: 4
This course integrates design aspects of previous courses into the design of a chemical plant, computer process simulation, pinch technology, discounted cash flow economic analysis, and detailed design of chemical engineering units are used in the design process. Extensive computing work, plant trips, and oral and written reports are required. A unique set of state-of-the-art software is used which includes process simulation (aspen plus), process integration (Icarus) and 3-d process design (CadCentre PDMS and review).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1046 - CHMCL ENGR PLNT DESGN & SAFETY

Minimum Credits: 5
Maximum Credits: 5
This course integrates design aspects of previous courses into the design of a chemical plant, computer process simulation, pinch technology, discounted cash flow economic analysis, and detailed design of chemical engineering units are used in the design process. Extensive computing work. Plant health and safety are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1047 - PLANT HEALTH, SAFETY & ETHICS

Minimum Credits: 2
Maximum Credits: 2
This class will provide the student with a thorough understanding of the fundamentals in workplace health and safety with emphasis on chemical industry applications. This will be accomplished through presentation a discussion of critical issues as well as the application of these principles to the senior design project. This course will also cover ethical situations likely to arise in the chemical plant environment.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1048 - PRODUCT DESGN CHEMCL ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
Many CHE's find themselves doing product design & development as much or more so than process design once they enter industry. This course will go through the steps to successful product design & contrast these with traditional process design methods. Good product design incorporates customer needs, manufacturing flexibility and economy, as well as concepts in sustainability. Finally, because chemical engineering product involves molecule creation, course will introduce students to concepts in molecular design through both theory and applications-oriented software packages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1050 - ARTIFICIAL ORGANS

Minimum Credits: 3
Maximum Credits: 3
This is concerned with the design of artificial organs and their clinical usage. The basic physiology of four organ systems will be reviewed and the bioengineering design requirements for organ replacement systems considered. Commercially available systems will be analyzed from the point of view (where applicable) of mass transfer efficiency; biomechanic and hemodynamic similarity to the host; and size and efficiency of the device. Students will be required to design an artificial organ consistent with the above mentioned consideration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1051 - ARTIFICIAL ORGANS 2

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with the design of artificial organs and their clinical usage. The basic physiology of three organ systems will be reviewed (blood, kidney, liver) and the bioengineering design requirements for organ re placement systems considered. Commercially available systems will be analyzed from the point of view (where applicable) of mass transfer efficiency; biomechanic and hemodynamic similarity to the host; and size and efficiency of the device. Students will be required to design an artificial organ consistent with the above-mentioned consideration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
The departmental seminars are designed to acquaint the student with aspects of engineering which are normally not encountered in classes.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1097 - SPECIAL PROJECT

Minimum Credits: 1
Maximum Credits: 12
Student develops an individual project under supervision of a faculty member. Project may be experimental, design and oriented, or instructional. A written report is prepared.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

CHE 1118 - COLLOIDS AND SURFACES

Minimum Credits: 3
Maximum Credits: 3
Concepts from physical chemistry and transport phenomena are extended to study surface and colloidal phenomena, and related applications to materials processing and separations technology. Topics include: surface tension, adsorption, electrostatic double layer, dominant forces on the colloidal length scale, colloid stability, electro kinetic phenomena, and suspension rheology, surface probes.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1125 - CARDIOVASCULAR DYNAMICS

Minimum Credits: 3
Maximum Credits: 3
This course presents the principles of the flow of biological fluids in mammalian vessels and application of the navier-stokes equations to blood flow in pulsating vessels. Supercomputer applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1210 - PARLEL PRGG PROB IN SCI & ENGR

Minimum Credits: 2
Maximum Credits: 2
This course will cover the theory and practice of parallel programming. Students will learn to write parallel programs to solve basic computational problems using the Message Passing Interface (MPI) and time permitting, Parallel Virtual Machine (PVM). Weekly programming exercises will be given. Students will have access to three parallel computer architectures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1311 - HEMODYNAMICS AND BIOTRANSPORT

Minimum Credits: 3
Maximum Credits: 3
This course covers the fundamental principles of fluid mechanics and mass transport as applicable to physiological and biological systems. The fluid mechanics coverage emphasizes blood flow in the cardiovascular system. Topics include Poiseuille flow and circulatory flow resistance, blood rheology and tube flow of blood, pulsatile blood flow in arteries, and microcirculatory blood flow. The mass transport coverage emphasizes steady and unsteady diffusion, mass transfer coefficients and correlations, controlled release, coupled diffusion and reactions in biological systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0300; PROG: Swanson School of Engineering

CHE 1410 - MATHMTCL METHD IN CHMCL ENGR 1

Minimum Credits: 3
Maximum Credits: 3
Application of mathematical techniques to chemical engineering problems requiring the solution of ordinary differential equations and partial differential equations. Series solutions, transform solutions, vector calculus, and quadrature are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1411 - MATHMTCL METHD IN CHMCL ENGR 2

Minimum Credits: 3
Maximum Credits: 3
Applied numerical techniques for chemical engineers. Extensive use of the computer is made for solving equations (algebraic and differential). Numerical integration and solutions of systems of equations are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1412 - COMPUTING METHODS FOR CHE

Minimum Credits: 3
Maximum Credits: 3
The objective of this class is to utilize computational approaches for a broad range of chemical engineering applications. One of the goals is to develop programming skills applicable to a suite of chemical engineering problems. The primary programming packages that will be used are matlab and excel. In addition, several case studies of computational methods for chemical engineering will be evaluated. By the end of the course the student will have a set of programs that will be applicable to a broad range of chemical engineering problems.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1460 - COMPUTER INTERFACING

Minimum Credits: 3
Maximum Credits: 3
This course covers the fundamentals of computer interfacing and their application to the control of laboratory instrumentation. The basics of digital electronics and digital data handling are also covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1530 - BIOCHEMISTRY FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
The basic principles of biochemistry are presented and discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0100 and CHEM 0310; PLAN: Chemical Engineering (BSE)

CHE 1531 - FUNDMS OF BIOCHEMICAL ENGR

Minimum Credits: 3
Maximum Credits: 3
This course focuses on application of engineering principles to the production of biomolecules and pharmaceuticals. Included are batch cultivation methods, continuous bioreactors, immobilized cell system, bioreactor consideration of mammalian cell cultures, cell metabolism, metabolic, metabolic engineering, and viral vectors and vaccines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0400 AND (CHE1530 or BIOSC 1000) PLAN: Chemical Engineering (BS)

CHE 1532 - BIOSEPARATIONS

Minimum Credits: 3
Maximum Credits: 3
Bio separation processes are critical for purification of peptides and proteins, nucleic acids, vaccines and viral vectors, and a host of other biomolecules of interest in pharmaceutical and biotechnology industries. This course will focus on downstream bioprocessing for separation and purification of recombinant and natural proteins, DNA, and viruses including viral vectors for gene therapy applications. Ultrafiltration, tangential or cross flow systems, precipitation, and chromatography-based processes will be examined. Ion exchange and affinity chromatography will be discussed in detail. Application of genomic manipulation and proteomics for improvements in bio separation processes will also be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0300 or BIOENG 1220; PROG: Swanson School of Engineering

CHE 1533 - CONTROLLED DRUG DELIVERY

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with a basic understanding of the engineering of controlled drug delivery systems, which stands as a 114 billion dollar industry. To this end, we will focus on topics at the interface between engineering and medicine such as biomaterials, pharmacokinetics, polymer chemistry, reaction kinetics, and biological transport phenomena. Design of transdermal, aerosol, oral, bio-mems, gene delivery, and targeted cellular delivery, will be reviewed with emphasis being placed upon us FDA regulatory considerations and the relevant physiological milieu.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: [PREQ: CHE 0300 and CHE 0400 and (CHE 1530 or BIOSC 1000 or CHEM 1810); LVL: Sr; PLAN: Chemical Engineering (BSE)] or [BIOENG 1220; LVL: Sr; PLAN: Bioengineering (BSE)]

CHE 1535 - APLD SOLID STATE CHEM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1600 - PRIN & PROPS CPLX ENGNRD MATLS

Minimum Credits: 3
Maximum Credits: 3
Complex engineered materials are a new class of systems comprising a variety of inorganic materials. This course is designed to introduce the principles and various functional properties exhibited by inorganic materials at the Nano, Micro and Meso scales. Since inorganic materials comprising metallic and non-metallic systems are a very complicated class of materials that display myriad properties, this course is outlined to discuss the most important properties. Thus, the course will mainly cover optical, electrical, thermal and electrochemical properties of both crystalline and amorphous inorganic complex engineered materials. In each category, the principles underlining each property will be discussed followed by the material class, behavior and applications. The effect of microstructure on each of the properties will also be discussed. The course objective is to introduce the student to these complex engineered materials family and their properties. In doing so, the student should be able to identify a material for a particular application.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (CHE 0200 or MEMS 1051 or BIOENG 1210) and ENGR 0022 and MATH 0290; PLAN: Chemical Engineering (BSE); LVL: Jr or Sr

CHE 1752 - INTRO TO POLYMER PHYSICS

Minimum Credits: 3
Maximum Credits: 3
Introduction to the physics, chemistry, and mechanics of polymers in the solid and molten states. Macromolecules, structure, physical properties, and the morphology of the amorphous and crystalline states. Description of the engineering properties and design with polymeric materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1753 - INTRODCTN TO POLYMR PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Scope of polymer processing; thermoplastics and thermosets; basic transport phenomena; equations of motion, energy; viscous dissipation; non-newtonian fluids; poiseuille and couette flows; lubrication approximation; plasticating extrusion; calendering; injection moulding; fiber spinning; film blowing; distributive and dispersive mixing; mixers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1754 - PRINCIPLES OF POLYMER ENGINRNG

Minimum Credits: 3
Maximum Credits: 3
This course deals with the elements of polymer science and engineering necessary for entry-level understanding of polymer technology. While the chemistry determines macromolecular microstructure, an understanding of polymer manufacture and processing requires the addition of physical chemistry and transport phenomena. The essential material covered in this class includes the elements of polymers thermodynamics, rheology, mechanical behavior, and equipment design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0200 or BIOENG 1210 or MEMS 1056; PLAN: Chemical Engineering (BSE)

CHE 1756 - POLYMERIZATION ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Principles of chemical engineering as applied to the polymerization industry. Structure and properties of polymers, thermodynamics and kinetics of polymerization, and design of polymerization reactors and processes are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1757 - APPLIED POLYMER PRINCIPLES

Minimum Credits: 3
Maximum Credits: 3
Seminar on special topics in polymers, polymer processing, and polymerization engineering. Topics vary from term to term.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1812 - BIOSENSORS

Minimum Credits: 3
Maximum Credits: 3
The course will cover: what biosensors are, how they are made, how they work, where they are already used, and what their future applications are
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: BIOSC 1000 or CHE 1530; PLAN: Chemical Engineering (BSE)

CHE 1850 - ENERGY TODAY

Minimum Credits: 6
Maximum Credits: 6
Geology of fossil fuels and nuclear materials. Coal extraction and utilization for steam generation. Petroleum production, refining, transportation and end uses. Nuclear fuel cycle and the use of nuclear fuels for steam generation. Technical operation of the electric industry, including electricity generation and transmission. Control of emissions from stationary and mobile energy conversion processes. Economics of current energy sources and utilization techniques. Current energy laws and regulations worldwide.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1870 - SOLIDS PROCESSING & TRANSPORT

Minimum Credits: 3
Maximum Credits: 3
Particle technology affects as much as 80% of the chemical process industry, yet is often omitted from the undergraduate curriculum of chemical engineers. This course is designed to give advanced undergraduates as well as early-term graduate students an introduction to this rich and diverse field. Topics will range from fundamentals (particle classification, properties, and flow) to applied (hopper design, mixing, etc. Industry related examples and designs with be presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1925 - FLUID/PARTICLE SEPARATION

Minimum Credits: 3
Maximum Credits: 3
The course will cover basic principles and industrial applications of fluid/particle separations. 1. Particle characterization and interfacial phenomena. 2. Particle dynamics in fluids. 3. Structure and flow behavior of porous media. 4. Applications of fluid/particle separations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CHE 1930 - SEL TOPC FLUD/PAR PROCNG & SEP

Minimum Credits: 3
Maximum Credits: 3
The course will first provide a short review of the fundamentals of fluid/particle systems, including particle characterization and interfacial phenomena. This will be followed by in-depth discussions of selected topics in fluid/ particle processing and separation, with a particular emphasis on industrial applications, such as particle formation, pneumatic/slurry transport, filtration, ultrafiltration, membrane separation, agglomeration and foam separation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CHE 1940 - PROCESS INTENSIFICATION

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with a basic understanding of process intensification (pi) from a chemical engineering perspective. Pi has developed as a major trend in the chemical, pharmaceutical, and process industries over the past two decades, equally driven by economic as well as environmental pressures. Pi's main purpose is hence the development of safer, cleaner, and more efficient process alternatives to existing processes. We will introduce the guiding principles of process intensification, and then discuss micro-reaction technology and multifunctional reactor concepts

as the two main directions in state-of-the-art pi technoloogy. A major focus will be on how the interplay between reaction kinetics, reactor design, and transport phenomena can be utilized in pi design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CHE 0400 (MIN GRAD: B+); PROG: Swanson School of Engineering

Chemistry

CHEM 0100 - PREPARATION GENERAL CHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course is designed for those students who intend to take chemistry 0110 and 0120, but whose science and mathematical backgrounds are judged by their advisors to be relatively weak. The course emphasizes stoichiometry (chemical calculations), chemical equations, gas laws, elementary atomic structure and periodic properties of elements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0110 - GENERAL CHEMISTRY 1

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0110 and 0120 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize applications to industrial and environmental chemistry and biochemistry. CHEM 0110 covers stoichiometry, the properties of solids, liquids and gases, thermochemistry and the electronic structure of atoms and molecules.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CHEM 0120 - GENERAL CHEMISTRY 2

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0110 and 0120 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize applications to industrial and environmental chemistry and biochemistry. CHEM 0110 covers stoichiometry, the properties of solids, liquids and gases, thermochemistry and the electronic structure of atoms and molecules.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 0110 or 0710 or 0760 or 0960 or 0101) or (CHEM 0410 and 0430) or (CHEM 0111 and 0113)

CHEM 0250 - INTRO ANALYTICAL CHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with the rigorous treatment of equilibria that are of analytical importance and with an introduction into electroanalytical methods, emission and absorption spectrophotometry, and modern separation methods, particularly chromatography.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0120 or 0720 or 0770 or 0970 or 0102 or (CHEM 0112 and 0114)

CHEM 0260 - INTRO ANALYTICAL CHEMISTRY LAB

Minimum Credits: 1
Maximum Credits: 1
The primary objectives of this course are to introduce the student to current analytical methods and to cultivate sound experimental technique. Laboratory work includes ion exchange separations, complexometric and potentiometric acid-base titrations, and absorption spectrophotometry.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CHEM 0250 or 0201 or 0325

CHEM 0310 - ORGANIC CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to theory and practice of organic chemistry through study of structural principles, reaction mechanisms, and synthesis leading toward end of second term, when complex molecules of biological interest are discussed. Basic goals of course are to develop appreciation and skill in

methods of molecular analysis which have made organic chemistry such a powerful intellectual discipline. Course will prepare student for work in advanced topics of organic chemistry, biochemistry, chemical engineering and health related sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 0120 or 0720 or 0770 or 0970 or 0102 or CHEM 0420) or (CHEM 0112 and 0114)

CHEM 0320 - ORGANIC CHEMISTRY 2

Minimum Credits: 3
Maximum Credits: 3
An introduction to theory and practice of organic chemistry through study of structural principles, reaction mechanisms, and synthesis leading toward end of second term, when complex molecules of biological interest are discussed. Basic goals of course are to develop appreciation and skill in methods of molecular analysis which have made organic chemistry such a powerful intellectual discipline. Course will prepare student for work in advanced topics of organic chemistry, biochemistry, chemical engineering and health related sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0310 or 0730 or 0206 or 0231

CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1

Minimum Credits: 1
Maximum Credits: 1
Chemistry 0330 is devoted to the purification, characterization, and identification of organic molecules using the techniques of recrystallization, distillation, thin-layer, column and gas-liquid chromatography, melting point determination, and infrared and nuclear magnetic resonance spectroscopy.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CHEM 0310 or 0730 or 0206 or 0231

CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2

Minimum Credits: 1
Maximum Credits: 1
Chemistry 0340 provides an opportunity to carryout important synthetic reactions discussed in the lecture course along with an introduction to the use of the chemical literature. Reactions are analyzed and products characterized using the skills learned in chemistry 0330.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0330 or 0207 or 0233; CREQ: CHEM 0320 or 0740 or 0208 or 0232

CHEM 0345 - ORGANIC LABORATORY

Minimum Credits: 2
Maximum Credits: 2
This single semester two-credit Organic Laboratory course will provide an introduction to modern organic laboratory techniques used routinely in both industry and academics. The lab will emphasize practical applications of the reactions covered in the Organic 1 and Organic 2 lectures. The goals of the course are to provide students with practical experience in executing and analyzing organic transformations as well as practical experience in modern laboratory techniques.
Academic Career: UGRD
Course Component: Credit Lab
Grade Component: LG/SU3
Course Requirements: PREQ: CHEM 0310 or CHEM 0730; CREQ: CHEM 0740 or CHEM 0320

CHEM 0350 - PRINCIPLES OF ORGANIC CHEMSTRY

Minimum Credits: 3
Maximum Credits: 3
The goal of the first semester of this two-semester sequence will be to emphasize the tools of organic chemistry. The content of this one semester will be similar to the most important 50% of the topics treated in the traditional year long course. Some traditional topics will not be covered, not that they are unimportant in organic chemistry but due to their reduced importance in biological sciences-oriented careers. This course will not be less rigorous than the traditional sophomore organic chemistry course, but will focus on a different subset of introductory material.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [CHEM 0120 or 0720 or 0770 or 0970 or (0112 and 0114)] and BIOSC 0150

CHEM 0360 - ORGANIC CHEMISTRY OF LIFE

Minimum Credits: 3
Maximum Credits: 3
The purpose of the second semester of this two semester sequence will be to extend and to apply the basic tenents introduced in the first semester to the fundamental organic chemistry occurring in living systems and to illustrate such material with examples drawn from bioorganic, medicinal and agricultural chemistry. The course will continue to develop general organic principles by focusing on matters specifically relevant to biochemistry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0410 - GENERAL CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
See chemistry 0110. This course is for students who need to take lecture without lab.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0420 - GENERAL CHEMISTRY 2

Minimum Credits: 3
Maximum Credits: 3
See chemistry 0120. This course is for students who must take lecture without lab.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0430 - GENERAL CHEMISTRY 1 LABORATORY

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0710 and 0720 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize the fundamental principles of chemistry as exemplified by applications to industrial and environmental chemistry. Chemistry 0710 covers stoichiometry, electronic structure of atoms and molecules, periodic behavior, theories of bonding, and spectroscopy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0440 - GENERAL CHEMISTRY 2 LABORATORY

Minimum Credits: 1
Maximum Credits: 1
Laboratory that accompanies chemistry 0120.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CHEM 0710 - UHC GENERAL CHEMISTRY 1

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0710 and CHEM 0720 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize the fundamental principles of chemistry as exemplified by applications to industrial and environmental chemistry. Chemistry 0710 covers stoichiometry, electronic structure of atoms and molecules, periodic behavior, theories of bonding, and spectroscopy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0720 - UHC GENERAL CHEMISTRY 2

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0710 and 0720 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize the fundamental principles of chemistry as exemplified by applications to industrial and environmental chemistry. CHEM 0720 covers the properties of solids, liquids and gases, chemical dynamics and chemical kinetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 0110 or 0710 or 0760 or 0960 or 0101) or (CHEM 0410 and 0430) or (CHEM 0111 and 0113)

CHEM 0730 - UHC ORGANIC CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to theory and practice of organic chemistry through study of structural principles, reaction mechanisms, and synthesis leading toward end of second term, when complex molecules of biological interest are discussed. Basic goals of course are to develop appreciation and skill in methods of molecular analysis which have made organic chemistry such a powerful intellectual discipline. Course will prepare student for work in advanced topics of organic chemistry, biochemistry, chemical engineering and health related sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0740 - UHC ORGANIC CHEMISTRY 2

Minimum Credits: 3
Maximum Credits: 3
An introduction to theory and practice of organic chemistry through study of structural principles, reaction mechanisms, and synthesis leading toward end of second term, when complex molecules of biological interest are discussed. Basic goals of course are to develop appreciation and skill in methods of molecular analysis which have made organic chemistry such a powerful intellectual discipline. Course will prepare student for work in advanced topics of organic chemistry, biochemistry, chemical engineering and health related sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0310 or 0730 or 0206 or 0231

CHEM 0750 - UHC ORGANIC LABORATORY

Minimum Credits: 2
Maximum Credits: 2
Chemistry 0750 provides an opportunity to carryout important synthetic reactions discussed in the lecture course along with an introduction to the use of the chemical literature. Reactions are analyzed and products characterized using the skills learned in chemistry 0740.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0310 or 0730; CREQ: CHEM 0320 or 0740 or 0208 or 0232

CHEM 0760 - UHC GENERAL CHEM FOR ENGINRS 1

Minimum Credits: 3
Maximum Credits: 3
Chemistry 0760 and 0770 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize the fundamental principles of chemistry as exemplified by applications to industrial and environmental chemistry. Chemistry 0760 covers stoichiometry, electronic structure of atoms and molecules, periodic behavior, theories of bonding, and spectroscopy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0765 - MATERIALS CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
This course develops the usual chemical principles governing the structure of matter and its changes with more emphasis placed on the solid state and polymeric materials. Furthermore, a special emphasis will be placed on relating atomic and molecular structure and bonding to the macroscopic properties of functional matter-engineering materials-such as metals, ceramics, polymers and semiconductors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CHEM 0770 - UHC GENERAL CHEM FOR ENGINRS 2

Minimum Credits: 4
Maximum Credits: 4
Chemistry 0760 and 0770 comprise a two-term introduction to the fundamental properties of matter. The courses emphasize the fundamental principles of chemistry as exemplified by applications to industrial and environmental chemistry. CHEM 0770 covers the properties of solids, liquids and gases, chemical dynamics and chemical kinetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 0110 or 0710 or 0760 or 0960 or 0101) or (CHEM 0410 and 0430) or (CHEM 0111 and 0113)

CHEM 0775 - MATERIALS CHEMISTRY 2

Minimum Credits: 4
Maximum Credits: 4

Includes: phases of matter, phase diagrams, concepts of chemical equilibrium, applications to equilibrium in solid materials and aqueous solutions, synthesis of modern, nano structured ceramics, metals and alloys; principles of electrochemistry: applications to solid state ionics, solid oxide fuel cells, solid state sensors, corrosion mechanisms, prevention of corrosion. Chemical kinetics, reaction mechanisms, reactions between solids. Chemistry of transition metals, transition metal oxides including perovskites, and superconductors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CHEM 0800 - CHEMISTRY FOR NONSCIENTISTS

Minimum Credits: 3
Maximum Credits: 3
This course offers a general introduction to chemistry with an emphasis on basic chemical concepts. It starts by describing how atoms and molecules were discovered and how their properties are understood. Next the process of a chemical reaction is described. Emphasis is on understanding principles, rather than on mathematical theory or calculations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0810 - CONTEM ISS IMPCT PUBLIC POLICY

Minimum Credits: 3
Maximum Credits: 3
This course examines problems facing society where chemistry has immediate impact. Topics include such issues as environmental pollution, new vs. Old sources of energy, new sources of raw materials, nuclear energy and associated problems, and development of new pharmaceuticals, drugs and future needs in medicine, and the synthesis of new life forms. Controversial issues are presented and include debates between experts of competing viewpoints. The emphasis is scientific and the topics serve to increase the scientific depth of the students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0850 - SCIENCE OF EVERYDAY LIFE - 1

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell, genetics; evolution. Emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0851 - SCIENCE OF EVERYDAY LIFE - 2

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell; genetics; evolution. Emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0910 - CHEMCL PRINCPL HEALTH PROFESSN

Minimum Credits: 4
Maximum Credits: 4
This is a one term course covering general and biological chemistry designed primarily for students enrolled in the school of nursing or preparing for health related professions. The course covers aspects of general chemistry including atomic structure and bonding and equilibria. A brief introduction to organic chemistry including physical properties and representative reactions of common functional groups and finally the chemistry of the major classes biomolecules and metabolism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Nursing students only.

CHEM 0960 - GENERAL CHEM FOR ENGINEERS 1

Minimum Credits: 3
Maximum Credits: 3

Essentially the same as CHEM 0110, but a total of 3 credits only and has no lab. Enrollment limited to school of engineering students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 0970 - GENERAL CHEM FOR ENGINEERS 2

Minimum Credits: 3
Maximum Credits: 3
Essentially the same as CHEM 0120, but a total of 3 credits only. Has lab, but only two lectures per week in contrast to CHEM 0120, which has 3. Enrollment limited to school of engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0110 or 0410 or 0710 or 0760 or 0960 or 0101 or (CHEM 0111 and 0113)

CHEM 0980 - GENERAL CHEMISTRY 2

Minimum Credits: 4
Maximum Credits: 4
Essentially the same as CHEM 0120. Enrollment limited to school of engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1000 - MATHEMATICS FOR CHEMISTRY

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: MATH 0230

CHEM 1130 - INORGANIC CHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
Modern bonding theories are developed to the level that permits some understanding of the effects of structure and bonding on chemical properties. Periodic relationships are discussed and applied to selected families of elements. Emphasis is placed on those aspects of structure, bonding and periodic relationships that are helpful in unifying a large body of chemical knowledge. Selected topics of current interest in inorganic chemistry are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 1410 or 1301 or 1341

CHEM 1140 - ADVANCED INORGANIC LABORATORY

Minimum Credits: 2
Maximum Credits: 2
Introduces practical techniques for the synthesis and characterization of inorganic and organometallic complexes and materials. Special emphasis on the preparation and characterization of air- and water-sensitive compounds.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CHEM 1130 or 1131 or 1401

CHEM 1210 - DIGITAL ELECTRONICS

Minimum Credits: 2
Maximum Credits: 2
This basic course investigates digital electronics and applications of small computers in labs. The emphasis will be a hands-on" lab in conjunction with lecture. The introduction to digital electronics includes basics of digital logic systems and implementation using integrated circuits. Labs utilize circuits in simple experiments designed to demonstrate various parameters associated with building blocks of digital systems. Second half of course covers microcomputer architecture and hardware, peripherals, software and interfacing. Experiments allow students to interface."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CHEM 1250 - INSTRUMENTAL ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
The basic principles and instrumentation of important methods and their application to analysis and research problems. The coverage includes spectroscopic and electrochemical methods and chromatography. Equilibrium and dynamic aspects of each are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0250 or 0201 or 0325

CHEM 1255 - INSTRUMENTAL ANALYSIS LAB

Minimum Credits: 1
Maximum Credits: 1
The laboratory component of CHEM 1250. Students will be introduced to state of the art instrumentation being used in contemporary analytical chemistry.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0260; CREQ: CHEM 1250

CHEM 1260 - INTERMEDT ANALYTICAL CHEMISTRY

Minimum Credits: 2
Maximum Credits: 2
This course is about becoming a professional. Students read the current scientific literature on a topic of current interest in analytical chemistry or a related area (spectroscopy, separations, electrochemistry, sensors...). They teach the class about a scientific area, and the class will discuss this area. Finally, we will attend public scientific lectures of famous scientists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 1250 or 1305 or 1327

CHEM 1270 - SPEC TOPIC INSTRUMENTAL ANAL 1

Minimum Credits: 2
Maximum Credits: 2
This course provides hands-on experience with the essential and sophisticated methods used by analytical, physical, and organic chemists. These include FT-IR, NMR, EPR, X-Ray Fluorescence, esca, and other spectroscopic techniques, as well as thermal analysis and chemo metrics. Emphasis is placed on the analysis of real-world" samples, such as polymers, micelles, oligopeptides, and catalysts."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1280 - SPEC TOPICS INSTRUMNTAL ANAL 2

Minimum Credits: 1
Maximum Credits: 1
This course is a continuation of CHEM 1270. Providing additional experience with frontier methods in chemical analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1281 - INSTRUMNTAL ANAL WRITING PRACT

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1310 - SYNTHETIC ORGANIC CHEMISTRY

Minimum Credits: 2
Maximum Credits: 2
This advanced undergraduate course builds onto sophomore organic I and II courses by applying the learned principles to the synthesis of FDA-approved drug molecules. The emphasis of the course will be on analyzing the molecular structures of drugs in a retrosynthetic fashion, followed by developing suitable synthetic routes to these molecules. The reaction mechanisms of key steps of theses syntheses will be discussed in detail. Further discussion will include fundamental functional group interconversions, chemoselectivity, and protecting group use, enantioselective synthesis, and organometallic chemistry. Students will learn about the complexities of modern drug molecules, how their structures can be analyzed, and how they are synthesized.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0320 or 0740 or 0232 or CHEM 0208

CHEM 1380 - TECHNIQUES OF ORGANIC RESEARCH

Minimum Credits: 2
Maximum Credits: 2
A course which serves as a guide to the interpretation of ultraviolet, infrared, nuclear magnetic resonance and mass spectra of organic compounds.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0320 or 0740 or 0208 or 0232

CHEM 1410 - PHYSICAL CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
Basic lecture course dealing with quantum theory, atomic and molecular structure, symmetry, spectroscopy and diffraction methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [CHEM 0120 or 0720 or 0770 or 0970 or (0112 and 0114)] and (PHYS 0175 or 0111 or 0476) and (MATH 0240 or 0201 or 0241 or CHEM 1000)

CHEM 1420 - PHYSICAL CHEMISTRY 2

Minimum Credits: 3
Maximum Credits: 3
Basic lecture course dealing with gases, kinetic theory, chemical thermodynamics, equilibria, and chemical kinetics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 1410 or 1302 or 1342

CHEM 1430 - PHYSICAL CHEMSTRY LABORATORY 1

Minimum Credits: 1
Maximum Credits: 1
Approximately 8 experiments are performed during the term. Experiments are selected to illustrate important principles of physical chemistry and to make the student familiar with important experimental methods. The course is intended to make the student think critically about reliability of experimental results and to attempt to interpret them in the light of his previous chemical experience.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 1302 or 1342 or 1410 or 1480

CHEM 1431 - TOPCS IN PHYSCL CHEM WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This course provides an opportunity for students to explore a current physical chemistry research topic and create a journal ready" manuscript. The research topic will be chosen during the first two weeks of classes in consultation with the professor. A comprehensive outline and first draft will be prepared then reviewed with the professor. The paper is revised at least once before final submission and is a minimum of 15 pages. Conferences will be by appointment."
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1440 - PHYSICAL CHEMSTRY LABORATORY 2

Minimum Credits: 1
Maximum Credits: 1
This course has one four hour lab each week. Approximately 7 experiments are performed during the term, with an emphasis on the macroscopic properties of matter. The course is designed to expand upon the principles and techniques covered in Chem 1430 as well as to introduce the student to other scientific methods for investigating properties of materials. There is a lab fee.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 1420 and 1430) or 1301 or (CHEM 1341 and 1343) or CHEM 1480

CHEM 1450 - MOLECULAR MODELING & GRAPHICS

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the student to computational methods to determine molecular structures and stabilities, Monte Carlo and Molecular Dynamics Simulation Methods, and the use of graphics for displaying structures, charge densities, and other properties. Use will be made of both microcomputers and the Cray X-MP at the Pittsburgh Super Computing Center.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1460 - INTRO MODERN COMPUTATIONAL SCI

Minimum Credits: 3
Maximum Credits: 3
This course will emphasize the application of microcomputers and numerical methods for solving problems of importance in chemistry. Methods to be studied include solving systems of linear and differential equations, lEast squares fitting, eigenvalue problems, solution of nonlinear equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1470 - PHOTONICS 1

Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. CHEM 1470 (photonics 1) will focus on the basic theory of optics in anisotropic and nonlinear media and the basic methods of modulating and controlling light, while CHEM 1472 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1472 - PHOTONICS 2

Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-grade series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. CHEM 1472 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 1470

CHEM 1480 - INTERMEDIATE PHYSICAL CHEMSTRY

Minimum Credits: 3
Maximum Credits: 3
A lecture course emphasizing application of principles of thermodynamics to solutions of electrolytes and non-electrolytes, electrochemical cells, physical chemistry of surfaces and macromolecules.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0240 or 0201 or 0241) and (PHYS 0111 or 0175 or 0476 or 0102 or 0202 or 0152 or 0200) and (CHEM 0120 or 0970 or 0102 or 0112 or 0420)

CHEM 1540 - INTRO TO MASS SPECTROMETRY

Minimum Credits: 3
Maximum Credits: 3
A basic, yet comprehensive, introductory course in mass spectrometry will be offered. The material will include a summary of instrumentation, special interpretation procedures and data handling. The interpretation of spectra of compounds of specific interest in geology and chemistry will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1550 - INTRO TO MAGNETIC RESONANCE

Minimum Credits: 3
Maximum Credits: 3
An introduction to the fields of nuclear magnetic resonance and electron parametic resonance spectroscopy for persons with no previous experience in these fields.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1560 - INTPT MASS SPECTR ORGN MOLECR

Minimum Credits: 2
Maximum Credits: 2
Advanced topics in mass spectrometry will be discussed including tandem mass spectrometry, Fourier Transform Mass Spectrometry, Advanced Interpretation of Mass Spectra of Organic Molecules and Newer types of ion sources. Each student will be assisted in exploring a mass spectrometry topic of specific interest.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CHEM 1590 - MOLECULAR BIOPHYSICS

Minimum Credits: 2
Maximum Credits: 2
This is an advanced level course that introduces students to the physical chemistry of biological macromolecules and the methods used to study their structure, interactions, and function. Concepts of positional and structural information will be integrated with those of thermodynamics, statistical mechanics, and kinetics. We will focus on the enzyme rnase-a, a paradigm for the study of the physico-chemical properties and mechanism of function of proteins.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1595 - MOLECULAR BIOPHYSC LABORATORY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced level laboratory course that introduces students to modern techniques such as x-ray crystallography, NMR and CD spectroscopy, calorimetry, and molecular dynamics simulations for the study of the structure, interactions, and function of biological macromolecules. Experiments will use the enzyme rnase-a, a paradigm for the study of the physico-chemical properties and mechanisms of function of proteins.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CHEM 1600 - SYNTHESIS & CHARCTRZTN POLYMRS

Minimum Credits: 3
Maximum Credits: 3
Synthesis and characterization of polymers is focus of course. Current methods of polymer synthesis will be surveyed, practical implementation of reactions and kinetic consequences of reaction strategies in homopolymer, copolymer and block copolymer synthesis. Techniques for characterization of polymer molecular weight, chemical composition, and stereochemistry (Ft-IR, NMR, other spectroscopic and chemical methods) will be discussed. Brief treatment of polymer solution thermodynamics and selected topics in polymer chemistry will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CHEM 0320 or 0740 or 0208 or 0232) and (CHEM 1420 or 1480 or 1302 or 1342)

CHEM 1605 - SYNTH & CHARCTRZTN POLYMRS LAB

Minimum Credits: 1
Maximum Credits: 1
This course is the laboratory component of CHEM 1600. Students will gain practical experience in the synthesis of polymers and the use of modern techniques used in the characterization of the polymers they synthesize.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0320 or 0740 or 0340 or 0750; CREQ: CHEM 1600

CHEM 1620 - ATOMS, MOLECULES AND MATERIALS

Minimum Credits: 3
Maximum Credits: 3
This course will use qualitative molecular orbital theory to understand the design and performance of new materials. A link will be made between "small molecule" intuition and the solid-state perspective on large molecules. Clusters and solids.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1630 - FOUNDATIONS OF NANOSCIENCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1700 - UNDERGRADUATE RESEARCH SEMINAR

Minimum Credits: 1
Maximum Credits: 1
Seminar given by faculty on undergraduate research opportunities in chemistry. Open to all students regardless of departmental affiliation, but is designed especially to help those students who may take chemistry 1710 in their selection of a research project.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

CHEM 1701 - UNDERGRAD RES SEMINR WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This course, in conjunction with chemistry 1700, will allow students to write a major research paper based on a seminar given by a departmental faculty member. Extensive library work will be required. At lEast one revision of the paper will also be expected. This course will fulfill the CAS Departmental Writing requirement.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: CREQ: CHEM 1700

CHEM 1710 - UNDERGRADUATE RESEARCH

Minimum Credits: 1
Maximum Credits: 6
This is an elective course where a research project is carried out under the direction of a member of the chemistry faculty. It is for the serious student who wishes to expand his scholarly interests. Approximately four hours research per week per credit; usually no more than three credits per term.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1711 - UNDGR RESEARCH WRITING PRACTCM

Minimum Credits: 1
Maximum Credits: 1
Chem 1711 will require the student to write a report in the form of a major research paper and will include a historical background to the project, an experimental or methods sections and a discussion of the results and their meaning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1720 - UNDERGRAD TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 4
Students can gain teaching experience by serving as instructors in one of the undergraduate chemistry lab courses.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1730 - RESEARCH IN NANOTECHNOLOGY

Minimum Credits: 1
Maximum Credits: 6
Research in nanotechnology
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

CHEM 1750 - PHOTONICS SEMINAR

Minimum Credits: 1
Maximum Credits: 1
The overall aim of the course is to expose students to work on the cutting edge of photonics.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Satisfactory/No Credit

CHEM 1810 - CHEMICAL BIOLOGY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0320 and BIOSC 1610

CHEM 1902 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 6
Directed study in a specific area of chemistry to enhance preparation for undergraduate research.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

CHEM 1970 - POLYMER STRUCTURE & PROPERTIES
Minimum Credits: 3
Maximum Credits: 3
This is an introductory lecture course which describes the microstructure of chain molecules, molecular weight distribution and determination, statistical thermo dynamics of polymer solutions, glass formation and the crystalline state, polymer chain conformation, thermo dynamics of rubberlike elasticity, elastomers, viscous flow, and viscoelastic behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHEM 1980 - POLMERIZATION ENGINEERING
Minimum Credits: 3
Maximum Credits: 3
Historical development of the synthetic polymer industry. Economics and chemical development. Molecular architecture. Polymerization reactions. Mechanisms and kinetics. Commercial processes. Reactors. New polymers. Property-chemical structure correlations. Thermal stability. Degradation, uses and applications of polymers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Civil & Environmental Engineer

CEE 0085 - SOPHOMORE SEMINAR
Minimum Credits: 0
Maximum Credits: 0
Required of all new students in their first year after transferring into the civil and environmental engineering department from freshman engineering or other colleges, the sophomore seminar acquaints the students with the departmental programs in the various civil engineering sub disciplines. It is conducted on weeks alternating with the departmental seminar.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1
Minimum Credits: 3
Maximum Credits: 3
This course emphasizes the mathematics and problem-solving skills necessary to be an intelligent user of a variety of computational tools for engineering analysis. The first portion of the course focuses on linear algebra within the context of engineering problems. Concepts of numerical linear algebra are then introduced, followed by a brief introduction to additional discrete analysis tools such as numerical approximation and signal processing. Lastly, through the introduction of cad software and an individual term project, students are taught how to independently gain familiarity and confidence with engineering software.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: (ENGR 0012 or 0712 or 0715 or 0718 or 0016 or ET 0023) and MATH 0240 or 0201 or 0241; PROG: Swanson School of Engineering

CEE 0119 - COMPUTER METH IN CIVIL ENGRG 2

Minimum Credits: 3
Maximum Credits: 3
Application of numerical methods for truss analysis, beam deflection, buckling load of column, and dynamics of vibration. Introduction to linear programming and finite difference solution to groundwater flows are also included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
The departmental seminars are designed to acquaint the student with aspects of the civil engineering profession which are not normally encountered in classes and school activities.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: H/S/U Basis
Course Requirements: PREQ: CEE 0085; PROG: Swanson School of Engineering

CEE 1086 - HONORS SEMINAR

Minimum Credits: 0
Maximum Credits: 0
The honors seminars are designed for advanced junior and senior civil engineering students to acquaint them with state-of-the-art thought in the field of civil engineering. Advanced analysis and design techniques will be emphasized, with particular attention to research and literature study. Attendance is by invitation only.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1102 - PROBLTY CONCPS CVL & ENV ENGRG

Minimum Credits: 3
Maximum Credits: 3
A basic course in probability and statistics. Topics covered include: data analysis, probability, random variables, discrete and continuous probability distributions, estimation, hypothesis testing, regression analysis, and quality control. Theory is applied to solutions of water resources, transportation, construction, geotechnical, environmental, and structural engineering problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1105 - MATERIALS OF CONSTRUCTION

Minimum Credits: 3
Maximum Credits: 3
The nature, physical properties, including environmental aspects of civil engineering construction materials are discussed. Experimentation, where applicable, is utilized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: ENGR 0141 or 0145 or ET 0051 or 0052; PROG: Swanson School of Engineering

CEE 1116 - CIVIL ENGRNG SYSTEMS ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Students are introduced to systems and their elements, system approach to problem solving, modelling and optimization, and systems analysis. Several optimization techniques including linear, integer and dynamic programming are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1200 - CONSTRUCTION MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course introduces undergraduates to the construction management processes including planning, financing, contract administration, and project

scheduling and controlling. It is a practical course that provides a broad knowledge of managerial decision-making for young engineers. This is the basic course for all follow-on construction courses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1201 - CONSTRUCTN INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the management of information which is used, communicated, analyzed, and stored for construction projects. The first half of the course focuses on techniques, tools, and technology. The second half focuses on application in managerial decision making.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CEE 1200 or CET 1152; PROG: Swanson School of Engineering

CEE 1202 - CONSTRUCTION SCHEDULING

Minimum Credits: 3
Maximum Credits: 3
This course teaches the student the theory and practice of planning, scheduling, and controlling the time and cost of construction projects. The course covers various advanced techniques such as cost duration analysis, critical resource analysis, stochastic modeling, and cost control. The course teaches the use of contemporary computerized software systems with hands-on application.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1200; PROG: Swanson School of Engineering

CEE 1203 - CONSTRUCT PROFSSN DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course teaches the student how construction-related organizations (owner, designer, contractor) are organized and managed. The course covers such topics as marketing, TGM, ethics, risk management, and personnel management. The course emphasizes a professional perspective to the practice of construction management and incorporates lectures by practitioners of various professions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1200 or CET 1152; PROG: Swanson School of Engineering

CEE 1204 - CONSTRCT LAW & RISK MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the legal and risk management issues in construction. The course covers the principles of contract law and various legal areas affecting construction such as environmental regulations, insurance, bonds, tort liability, dispute resolution, and professional services
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1200; PROG: Swanson School of Engineering

CEE 1205 - CONSTRCT & FINANC COST CONTROL

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the company level financial and accounting systems which are used in the construction industry, and to project control systems which are used to manage cost and time. The course includes such topics as financial accounting, cost accounting, financial statements, and variance analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1206 - CONSTRCT & COST OF ELEC SUPPLY

Minimum Credits: 3
Maximum Credits: 3
This course teaches basic construction and cost estimating methodologies for single and three-phase electrical distribution systems that include wiring, power, and controls. The course uses commercial estimating systems and the national electrical code.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1207 - CONSTRCT COST MECHL SYMS

Minimum Credits: 3
Maximum Credits: 3
This course teaches the student how to plan, organize, and execute mechanical construction operations; and the methodologies for estimating their costs. The course covers mechanical systems such as water (supply and waste), HVAC, fire protection, and their controls.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1209 - LIFE CYCLE ASSMNT METH & TOOLS

Minimum Credits: 3
Maximum Credits: 3
This class will introduce students to life cycle thinking and provide engineers with tools to assess the sustainability and environmental impact of a product, process, or activity. Life cycle assessment (lca) principles, methods, tools, and challenges will be explored throughout the course. Topics include material and energy flow analysis, environmental indicators and metrics for sustainability, case studies of lca applications, and impact assessment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0220 or 0140 or 0221; PROG: School of Engineering

CEE 1210 - ENGR & SUSTAINABLE DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course is intended as an introductory interdisciplinary engineering course. Topics include principles of sustainable design in engineering, manufacturing, infrastructure, communications, and community development; overview of environmental issues for engineers; design for the environment; models of environmental processes; introduction to the use of life cycle assessment; and case studies examining the relationship of green design and the field of engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1211 - RESORC USE ENV QUALT CONSTRCT

Minimum Credits: 3
Maximum Credits: 3
Green building construction class that addresses issues of quantifying and estimating mass and energy flows during the life cycle of buildings, including tools and methods for calculation and analysis of the resource (mass and energy) flows in constructing, operating, and maintaining the built environment. The course will include an introduction to sustainability, green materials and processes, calculation of resource flows, and software tools for modeling resource flows.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1212 - ENVIRONMENTAL MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Management issues and practices concerning environmental protection are examined. The course surveys current U.S. Environmental laws and regulations as well as international issues such as multilateral environmental protection treaties, ISO 14000, and environmental protection under NAFTA.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1214 - BUILDING ECONOMICS

Minimum Credits: 2
Maximum Credits: 2
This course investigates the feasibility of a building construction project, simultaneously focusing on financial, cost, and design considerations. Its

primary objectives are twofold: to provide students with quantitative skills for analyzing the economic implications of their decisions and to foster development of a critical perspective in making these decisions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1216 - SOLAR DESIGN AND FABRICATION

Minimum Credits: 3
Maximum Credits: 3
A technical elective course covering residential solar design and fabrication. Students in this course will work on a team to design and construct an off-grid home whose heating, cooling, and lighting systems are primarily solar powered. The course will involve research, design, and hands-on application of innovative building systems. The end product of the team's work in this course is a functional home.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1217 - GREEN BUILDING DSGN & CONSTRCT

Minimum Credits: 3
Maximum Credits: 3
Understanding the design and construction of green buildings are key elements in green and sustainable engineering. This course teaches all of the major aspects of green building design and construction, including sustainable sites, water efficiency, energy and atmosphere, materials and resources, indoor environmental quality, innovation, and design process. The United States green building council's leadership in energy and environmental design green building rating system is used to demonstrate one possible green building rating system. Life cycle thinking will be discussed to expand the focus from not only design and construction, but also use, operations, and decommissioning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1218 - DESIGN FOR THE ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
DESIGN FOR THE ENVIRONMENT (DFE) IS A SPECIFIC SET OF DESIGN PRACTICES AIMED AT CREATING ECO-EFFICIENT PRODUCTS AND PROCESSES. INCORPORATING SUSTAINABILITY INTO PRODUCT AND PROCESS DESIGN AS A DESIGN CONSTRAINT IS CLEARLY A NECESSITY, AS ALL ENGINEERS MUST UNDERSTAND THE LIMITS ON NATURAL RESOURCES. STUDENTS WILL BE INTRODUCED TO THE DFE TOOLBOX WHICH INCLUDES DESIGN FOR DEMANUFACTURE, LIFE CYCLE ASSESSMENT, AND ECOFRIENDLY MATERIALS SELECTION. STUDENTS WILL ALSO BE EXPOSED TO REAL WORLD INDUSTRY SUSTAINABILITY CHALLENGES AND HANDS ON LAB EXPERIENCES DESIGNED IN CONJUNCTION WITH LOCAL INDUSTRY AND ORGANIZATION PARTNERS. THE COURSE IS ALSO INTENDED TO BE INTER-DISCIPLINARY BETWEEN ENGINEERING AND BUSINESS STUDENTS TO FOSTER A BALANCE BETWEEN SUSTAINABILITY DESIGN EFFORTS AND BUSINESS PLANS AND STRATEGIES. STUDENTS CAN EXPECT THAT LABS WILL CONSIST OF A MIX OF FIELD TRIPS TO PARTNER COMPANIES AND LABS AT THE UNIVERSITY. A MAJOR ASPECT TO THE COURSE WILL INVOLVE STUDENT PARTNERSHIPS WITH LOCAL COMPANIES; STUDENTS WILL BE CHALLENGED TO APPLY THEIR DFE SKILLS TO PROJECTS THAT ADDRESS SUSTAINABILITY CHALLENGES. ADDITIONALLY, STUDENTS WILL HAVE THE OPPORTUNITY TO PARTICIPATE IN A SUMMER RESIDENCY TO IMPLEMENT THEIR PROJECT WITH THEIR SPONSOR COMPANY AT THE END OF THE COURSE.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1220 - ENERGY TECHNOLOGIES ENVRN

Minimum Credits: 3
Maximum Credits: 3
This course covers the basic principles and concepts underlying energy production, use, and environmental impacts with a focus on selected traditional fossil fuel based technologies and low carbon advanced energy technologies. Topics covered include world's energy resources, principles and processes behind natural resource extraction, energy generation technologies, laws of thermodynamics, current and anticipated world energy use, resource constraints, and environmental sustainability issues of present and future energy technologies. Special emphasis is placed on the life cycle environmental impacts of different energy technologies and challenges and opportunities for sustainable development of emerging energy technologies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1221 - CONSTRUCTION COST ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course teaches the methodology for estimating construction costs. The course covers all types of costs and all types of construction. The student is introduced to standard reference materials and to computerized estimating systems. The course teaches methods and procedures for developing accurate estimates and the basis for follow-on cost control
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1200; PROG: Swanson School of Engineering

CEE 1230 - BUILDING INFORMATION MODELING

Minimum Credits: 3
Maximum Credits: 3
The goal of this course is to introduce the students to building information modeling (BIM) and other new and evolving technologies which are revolutionizing the building and horizontal infrastructure construction industry. Students will learn how BMI and other innovative technologies are being adopted currently by progressive builders to streamline the construction process through enhanced coordination, visualization, logistical planning, cost estimation and analysis. They will also learn how these new tools are enabling (and in some instances requiring) new highly integrated processes that are redefining architecture, engineering, construction and operations (AECO) business relationships and delivery contracts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1200; PROG: Swanson School of Engineering

CEE 1233 - CONSTRUCTION DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
Consists of comprehensive projects with emphasis on the nature of engineering problem solving and creative aspects of design in managerial decision-making of construction in such areas as estimating, scheduling, methods, risk management, and finance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1200 or CET 1152; PROG: Swanson School of Engineering

CEE 1330 - INTRO TO STRUCTURAL ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
An introduction to linear analysis of statistically determinate, and indeterminate, elastic structural systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (MATH 0250 or 0290 or 0202 or 1035) and (ENGR 0141 or 0145 or ET 0053); PROG: Swanson School of Engineering

CEE 1331 - MATRIX STRUCTURAL ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Theory and application of matrix stiffness and flexibility methods for analysis of framed structures. Computer implementation for the solution of two- and three-dimensional frames, trusses, and grid systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1330 or CET 1111) and (MATH 0250 or 0290 or 1035 or 0202); PROG: Swanson School of Engineering

CEE 1333 - STRUCTURAL DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
Comprehensive (capstone) structural design project for a building or a bridge, emphasizing conceptual design, design of footings and superstructure, and preparation of cad drawings, a final written and a final oral report.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (CEE 1340 or 1341) or (CET 1111 or 1112) and (ENGR 0151); PROG: Swanson School of Engineering

CEE 1340 - CONCRETE STRUCTURES 1

Minimum Credits: 3
Maximum Credits: 3
An introductory concrete design course based on the ACI 318 code. Fundamental topics relating to behavior, strength and design of reinforced concrete beams, one-way slabs, short columns, and footings are presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1105 or CET 1151) and (CEE 1330 or CET 1111); PROG: Swanson School of Engineering

CEE 1341 - STEEL STRUCTURES 1

Minimum Credits: 3
Maximum Credits: 3
An introductory steel design course based on the load and resistance factor design philosophy. Fundamental topics related behavior, strength and design of tension members, columns, beams, beam-column and simple connections are treated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1105 or CET 1151) and (CEE 1330 or CET 1111); PROG:Swanson School of Engineering

CEE 1370 - INTRO NDE STRUCL HLTH MONTRG

Minimum Credits: 3
Maximum Credits: 3
The course aims at providing an overview of the different techniques for the nondestructive evaluation (NDE) and the structural health monitoring (SHM) of civil and aerospace structures. Techniques such as electrical resistance strain gauges, fiber optic sensing and ultrasonics will be described within the framework of the NDE. Applications to materials characterization and defect detection will be discussed with emphasis on steel and composite structures. Global and local methods for SHM will be introduced with emphasis on vibration and ultrasonic methods, respectively. The course will also provide the essential tools necessary for the digital signal processing of ultrasonic data. Matlab and laboratory exercises on recent researches will be investigated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

CEE 1401 - OPEN CHANNEL HYDRAULICS

Minimum Credits: 3
Maximum Credits: 3
Basic theories and principles of open channel flows (including flows in rivers and streams). Methods of calculating uniform flow, gradually varied flow, rapidly varied flow, and unsteady flow. Design of open channels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1402 and CEE 1412; PROG:Swanson School of Engineering

CEE 1402 - FLUID MECHANICS

Minimum Credits: 3
Maximum Credits: 3
A first course in fluid mechanics discussing basic principles and methods for studying static and dynamic behaviors of fluids. In the laboratory the students conduct experiments on fluid flow in pipes and open channels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGR 0141 and MATH 0290; LVL: Jr or Sr; PROG: Swanson School of Engineering (UENGR)

CEE 1410 - WATER RESOURCES ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course addresses fundamental and practical issues of water resources engineering. The increasing demand for sufficient water quantity and quality that is distributed in time and space forces engineers and policy makers to develop more comprehensive, complex, and ambitious plans for environmental and water systems. This course emphasizes understanding, formulating, and approaches of solving problems of water resources engineering. Quantitative overview of the water resources development, water resources problems, impacts of climate variability and global warming on water resources, and the fundamental principles and basic tools to solve these problems will be covered. Topics to be discussed also include introduction to basic concepts of hydrology, GIS (geographic information systems) applications, theory of unit hydrograph, frequency analysis, flood routing through reservoirs and rivers, introduction to rainfall-runoff analyses, and watershed modeling.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: (CEE 1402 and CEE 1412) or (CET 1140); PROG: Scool of Engineering

CEE 1412 - INTRODUCTION TO HYDROLOGY

Minimum Credits: 3
Maximum Credits: 3
Hydrologic cycle, precipitation, infiltration, evaporation, runoff, flood routing, groundwater hydrology, well hydraulics, statistical analysis of hydrologic data, reservoirs, dams, and hydraulic structures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1102 or 1105 or ENGR 0020 or MATH 1153) and (CEE 1402 or CET 1140); PROG: Swanson School of Engineering

CEE 1433 - WATER RESOURCES DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
Consists of comprehensive projects with emphasis on the nature of engineering problem solving and the creative aspects of design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1401 or 1410 or 2400 or 2401 or 2405 or 2410; PROG: Swanson School of Engineering

CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG

Minimum Credits: 3
Maximum Credits: 3
Fundamentals of environmental science and engineering as applied to water and wastewater treatment, air quality control, and solid and hazardous waste management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0102 or 0112 or 0120 or 0420 or 0720 or 0770 or 0970; PROG: Swanson School of Engineering

CEE 1505 - WATR TRETMNT & DISTB SYS DESGN

Minimum Credits: 3
Maximum Credits: 3
Stepwise development and process design, equipment selection, economic evaluation, layout, and operating guidelines for water treatment, storage and distribution systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1503 and CEE 1402) or CET 1141; PROG: School of Engineering

CEE 1507 - INDUSTRIAL WASTE MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Problems and approaches to industrial waste treatment and disposal, pollution prevention and sustainability, waste minimization, process selection, control, and resource recovery.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1503 or CET 1141; PROG: School of Engineering

CEE 1511 - ENVIRONMENTAL ENGR PROCESS LAB

Minimum Credits: 3
Maximum Credits: 3
Chemical and biological laboratory procedures and techniques for instrumental analysis applied to evaluation of liquids and gases for environmental assessment and operation and control of environmental quality control systems
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1503; PROG: Swanson School of Engineering

CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES

Minimum Credits: 3
Maximum Credits: 3

Introduction to basic design concepts applied to water and wastewater treatment, air quality control, and solid and hazardous waste management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1503 or CET 1141; PROG: Swanson School of Engineering

CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMNT

Minimum Credits: 3
Maximum Credits: 3
Technical and procedural aspects of environmental impact analysis and assessment with emphasis on regulatory framework, characterization of impacts and their remediation, and the decision process when applied to engineering systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1503 or CET 1141; PROG: School of Engineering

CEE 1515 - WASWTR COLLC & TRMNT PLNT DSGN

Minimum Credits: 3
Maximum Credits: 3
Stepwise development and process design, equipment selection, economic evaluation, layout, and operating guidelines for wastewater collection and treatment systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1503 and CEE 1402) or CET 1141; PROG: School of Engineering

CEE 1520 - MATERIAL AND ENERGY BALANCES IN ENVIRONMENTAL ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Introduces students to engineering calculations involving material and energy balances around environmental and chemical processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Chemical Engineering; PREQ: CEE 1503 and MATH 0240 and CHEM 0970

CEE 1522 - FATE AND TRANSPORT IN ENVIRONMENTAL ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
An introduction to the thermodynamic and kinetic drivers of chemical fate in the environment. Processes governing the diffusion, advection and transformation of chemicals in air, water and soil. Inter-media exchange, environmental degradation and uptake into biotic systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1503 ; PROG: Swanson School of Engineering

CEE 1523 - ENVIRONMENTAL ENGINEERING LAB

Minimum Credits: 3
Maximum Credits: 3
Chemical and biological laboratory procedures for environmental assessment and operation and control of environmental quality control systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1503 or CET 1141; PROG: Swanson School of Engineering

CEE 1533 - ENVRL ENGR DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
Group design of an engineered system for environmental quality control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1505 or 1507 or 1513 or 1515 or (CET 1141 and 1142); PROG: School of Engineering

CEE 1609 - LIFE CYCL ASSMNT METHODS TOOLS

Minimum Credits: 3
Maximum Credits: 3

This class will introduce students to life cycle thinking and provide engineers with tools to assess the sustainability and environmental impact of a product, process, or activity. Life cycle assessment (LCA) principles, methods, tools, and challenges will be explored throughout the course. Topics include material and energy flow analysis, environmental indicators and metrics for sustainability, case studies of LCA applications, and impact assessment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0140 or MATH 0220 or 0221; PROG: Swanson School of Engineering

CEE 1610 - ENGR SUSTAINABLE DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course is intended as an introductory interdisciplinary engineering course. Topics include principles of sustainable design in engineering, manufacturing, infrastructure, communications, and community development; overview of environmental issues for engineers; design for the environment; models of environmental processes; introduction to the use of life cycle assessment; and case studies examining the relationship of green design and the field of engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CEE 1618 - DESIGN FOR THE ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
Design for the Environment (DFE) is a specific set of design practices aimed at creating eco-efficient products and processes. Incorporating sustainability into product and process design as a design constraint is clearly a necessity, as all engineers must understand the limits on natural resources. Students will be introduced to the DFE toolbox which includes design for de-manufacture, life cycle assessment, and ecofriendly materials selection. Students will also be exposed to real world industry sustainability challenges and hands on lab experiences designed in conjunction with local industry and organization partners. The course is also intended to be inter-disciplinary between engineering and business students to foster a balance between sustainability design efforts and business plans and strategies. Students can expect that labs will consist of a mix of field trips to partner companies and labs at the University. A major aspect to the course will involve student partnerships with local companies; students will be challenged to apply their DFE skills to projects that address sustainability challenges. Additionally, students will have the opportunity to participate in a summer residency to implement their project with their sponsor company at the end of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1700 - TRAFFIC MGMNT AND OPERATIONS

Minimum Credits: 3
Maximum Credits: 3
Introduction to traffic flow theory and characteristics. Highway capacity analysis. Basic traffic management and control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1703 - TRANSPORTATION ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Introduction to the design, planning, operation, management, and maintenance of transportation systems. Transportation planning inter-modal transportation systems (highway, air, rails, etc.). Transportation planning of highways, airports, and railroads with traffic flow models, capacity analysis, and safety. Concepts for designing facilities and systems area study with life cycle costing procedures and criteria for optimization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: MATH 0240 or 0201 or 0241; PROG: Swanson School of Engineering

CEE 1710 - TRANSPORTATION SYSTEMS ANAL 1

Minimum Credits: 3
Maximum Credits: 3
A range of traffic control systems including the analysis and design of traffic signals are discussed along with traffic signal systems and freeway control systems. Other topics covered include data collection for traffic control systems, optimization software and models; traffic signal hardware design; high occupancy vehicle lanes and systems selection and design and implementation.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1713 - HIGHWAY ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Analysis of factors in developing highway transportation facility; traffic estimates and assignment; problems of highway geometrics and horizontal and vertical alignments and design standards; planning and location principles; earthwork and mass haul computations; surface drainage design; and concepts of highway administration and finance. Highway design project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1703 OR CET 1123; PROG: Swanson School of Engineering

CEE 1714 - PAVEMENT DESIGN AND ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Concepts and principles in the structural design of pavements for highways and airfields including: traffic loads, climatic factors, soil and material characterization. Application of current pavement design practices and procedures. Economic evaluation of highway and airport pavements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1105 and 1811; PROG: Swanson School of Engineering

CEE 1715 - PAVEMENT MAINTENANCE AND REHAB

Minimum Credits: 3
Maximum Credits: 3
Engineering concepts and information needed to maintain and rehabilitate pavements. Project evaluation, testing and analysis. Design of rigid and flexible overlays, and other methods of rehabilitation. Selection of rehabilitation alternatives. Analysis of the effects of maintenance activities on pavement performance. Initial and life cycle cost analysis of various rehabilitation alternatives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1105 or CET 1151; PROG: Swanson School of Engineering

CEE 1717 - CMPNTS, PROPRTS & DSGN OF PCC

Minimum Credits: 3
Maximum Credits: 3
Examines the influence of constituent materials (cements, aggregates and admixtures) on the properties of fresh and hardened concrete, mix design handling and placement of concrete; and behavior of concrete under various types of loading and environment; test methods, designing concrete mixes for specific applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1105 or CET 1151; PROG: Swanson School of Engineering

CEE 1718 - ADV CONSTRUCTION & BITUM MATLS

Minimum Credits: 3
Maximum Credits: 3
Advanced construction and bituminous materials soils, soil stabilization, aggregates, bituminous materials and mixtures. Advanced topics in selection and design of bituminous materials. Asphalt cement, rheology, emulsions, chip seals, hot-mix asphalt design, visco-elasticity characterization
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1105 or CET 1151; PROG: School of Engineering

CEE 1720 - URBAN TRANSPORTATION PLANNING

Minimum Credits: 3
Maximum Credits: 3
All aspects of the transportation planning process including transportation planning and decision making, transportation modeling, demand and supply analysis, transportation studies, environmental issues and project implementation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1703; PROG: Swanson School of Engineering

CEE 1725 - PUBLIC TRANSPORTATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to give seniors and graduate students a basic background in the planning, operations and development of public transportation systems within the context of the overall transportation system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1703; PROG: Swanson School of Engineering

CEE 1730 - HIGHWAY ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Highway administration, classification, planning and programming. Geometric design of highways. Traffic characteristics and capacity analyses. Traffic operations and control. Highway design project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 1703; PROG: Swanson School of Engineering

CEE 1733 - TRANSPORTATION DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
Consists of comprehensive projects with emphasis on the nature of engineering problem solving and the creative aspects of design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CEE 2700; PROG: Swanson School of Engineering

CEE 1750 - PROJECT DVLP & IMPLEMENTATION

Minimum Credits: 3
Maximum Credits: 3
Project development and implementation - 3 credits: this course provides overview of the process used in project programming and planning, design, construction and operation. The course will emphasize the process used for implementation of major projects with emphasis on construction management and how that task interfaces with other aspects of project development. Students will be involved in a team effort to conceptualize the project, plan alternatives, determine the environmental impact, examine design alternatives, prepare the project for construction documents, recommend award of the contract, manage the contract during construction and determine operational needs of the project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1703; PROG: Swanson School of Engineering

CEE 1800 - ENGINEERING GEOLOGY

Minimum Credits: 3
Maximum Credits: 3
Review of basic geologic principles with emphasis on the importance and influence of geology and geologic processes on engineering projects such as dam sites, foundations, tunnels, mine subsidence, landslides, highways, groundwater problems, and seismic studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

CEE 1809 - HYDRAULIC FRACTURING MECHANICS

Minimum Credits: 3
Maximum Credits: 3
This class will prepare students to wisely and critically design hydraulic fracturing treatments as well as make informed recommendations to employers, governments, and communities about the risks and benefits of hydraulic fracturing methods. Upon completion of this course, students will be equipped to use engineering formulae to estimate hydraulic fracture dimensions, evaluate strengths and weaknesses of various modeling approaches, characterize subsurface conditions from wellbore pressure analysis, make sound recommendations for monitoring, and compare and contrast approaches and risks for a range of application domains.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1330 and CEE 1402; PROG: Swanson School of Engineering

CEE 1811 - PRINCIPLES OF SOIL MECHANICS

Minimum Credits: 3
Maximum Credits: 3
Basic soil properties, permeability, capillarity and frost action, compaction, stresses in soil masses, two-dimensional seepage, compressibility, stress-strain-time behavior, and shear strength.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGR 0141 or 0145 or ET 0053; PROG: Swanson School of Engineering

CEE 1821 - FOUNDATION ENGINEERING
Minimum Credits: 3
Maximum Credits: 3
Application of the principles of soil mechanics to the analysis and design of foundations, the stability of slopes and retaining structures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CEE 1811 or CET 1131) and CEE 1330; PROG: School of Engineering

CEE 1833 - GEOTECHNICAL DESIGN PROJECT
Minimum Credits: 3
Maximum Credits: 3
Consists of comprehensive projects with emphasis on the nature of engineering problem solving and the creative aspects of design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CEE 1714 or 1715 or 1821 or 2814 or CET 1124 or 1131; PROG: Swanson School of Engineering

CEE 1996 - SPECIAL PROJECTS
Minimum Credits: 1
Maximum Credits: 4
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

CEE 1999 - INDIVIDUAL DESIGN PROJECT
Minimum Credits: 3
Maximum Credits: 3
Individual or small group laboratory or analytical investigation. Intended for students inclined to a research or development career.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

CEE 2507 - INDUSTRIAL WASTE MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
Problems and approaches to industrial waste treatment and disposal, pollution prevention and sustainability, waste minimization, process selection, control, and resource recovery.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad Letter Grade
Course Requirements: PROG: Graduate School of Engineering

CEE 2513 - ENVIRONMENTAL IMPACT ASSESSMNT
Minimum Credits: 3
Maximum Credits: 3
Technical and procedural aspects of environmental impact analysis and assessment with emphasis on regulatory framework, characterization of impacts and their remediation, and the decision process when applied to engineering systems.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LG/SNC Basis
Course Requirements: PROG: Graduate School of Engineering

Classics

CLASS 0010 - GREEK CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
A general introduction to the culture and society of Ancient Greece, with emphasis on the Archaic Period and the fifth and fourth centuries B.C.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0020 - ROMAN CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
A general introduction to the culture and society of the Roman world, with emphasis on the period of the republic and the early empire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0030 - MYTHOLOGY IN THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
This course examines in cultural context the traditional stories--myth, legend, and folktale--of the ancient Greeks and Romans. Theories drawn from various disciplines are critically evaluated. Attention to connections with ritual practice and to expression in daily life, art, architecture, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0032 - ATHLETICS OF THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
This course examines athletic competition, popular games, gladiatorial and other exhibitions of the ancient Greeks and Romans. Much emphasis on the social/cultural context and underlying values. Attention to relevant artistic archaeological, and historical settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 0034 - WOMEN & MEN IN ANCNT MEDIT

Minimum Credits: 3
Maximum Credits: 3
An examination of ancient Mediterranean society, particularly that of Greece and Rome, from the perspective of male and female gender roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0035 - WOMEN MEN ANCT MEDT/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking class 0034 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CLASS 0037 - MYTH IN ANCNT WORLD/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking class 0030 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CLASS 0100 - MASTERPIECES GREEK & ROMAN LIT

Minimum Credits: 3
Maximum Credits: 3
An introduction to the critical analysis of literary works through the medium of selected masterpieces of Greek and Roman literature in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0300 - HISTORY OF ANCIENT PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce students to some of the main achievements and leading ideas of Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0301 - HISTORY OF ANCIENT PHIL/REC

Minimum Credits: 0
Maximum Credits: 0
This practicum is the standard recitation for the lecture course history of ancient philosophy"."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

CLASS 0302 - HISTORY ANCIENT PHIL/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
The aim of this course is to introduce students to some of the main achievements and leading ideas of Greek philosophy up to classical times. Emphasis will be on understanding and evaluating the arguments and ideas of the Greek philosophical tradition. Special writing component for CLASS 0300, History of Ancient Philosophy"."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0330 - MYTH AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
The Greeks in the sixth to fourth century B.C. Initiated forms of thinking we have from then on called scientific" and "philosophical". This course examines the question of how science is distinguished from "non-science" by studying the role of myth and science in ancient Greece. The aim is to understand what distinguishes the ideas of the first scientists and philosophers from those earlier beliefs called myth."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0400 - ANCIENT EMPIRES

Minimum Credits: 3
Maximum Credits: 3
Empires dominate and control resources over broad geographical areas, establishing systems (administrative, religious, and intellectual) to perpetuate and justify that control. The course will survey the archaeological remains of the principal empires of the ancient near East and Mediterranean, emphasizing both the modes of control and the themes or messages used to justify it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 0500 - ANCIENT ART

Minimum Credits: 3
Maximum Credits: 3
The Mediterranean Sea is a lake and its shores have produced many important cultures and artistic traditions. The course will survey the artistic traditions of Turkey and the near east, Egypt, Greece and Rome. Special attention will be paid to (1) the relationship between the artistic traditions of individual areas and the societies which produced them, and (2) the way in which influences from one culture were transformed by another.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1022 - THE AUGUSTAN AGE

Minimum Credits: 3
Maximum Credits: 3
A survey of the political, intellectual, literary, and artistic achievements of Rome in the time of Augustus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CLASS 0020 or CLASS 1220

CLASS 1050 - COMPUTER METHODS IN HUMANITIES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct the text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 1060 - GREEK & LATIN ELEMENTS IN ENG

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the semantic elements which have come into English from the classical languages, Greek and Latin. In addition, it provides a general introduction to the history of English and its relationship to other Indo-European languages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 1090 - TOPICS IN CLASSICAL CULTURE

Minimum Credits: 3
Maximum Credits: 3
Study of selected topics in Greco-Roman culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 1092 - SPECIAL TOPICS IN RHETORIC

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in rhetoric. Topics vary every semester.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1130 - CLASSICAL MYTHOLOGY & LIT

Minimum Credits: 3
Maximum Credits: 3
This course examines how authors of classical antiquity used the traditional figures and stories of their culture's mythology as material for works of literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1140 - GREEK TRAGEDY

Minimum Credits: 3
Maximum Credits: 3
Study of representative plays by the three great tragic dramatists of ancient Greece; Aeschylus, Sophocles, and Euripides. All readings are in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1142 - ANCIENT EPIC

Minimum Credits: 3
Maximum Credits: 3
Study of selected Greek and Roman epics in English translation. Among the works that may be read are Homer's Iliad and Odyssey, Apollonius' Argonautica, Virgil's Aeneid, and Ovid's metamorphoses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1144 - GREEK AND ROMAN LYRIC POETRY

Minimum Credits: 3
Maximum Credits: 3

Study of selected poems and fragments of the Greek and Roman lyric poets in English translation. Among the poets that may be read are Archilochus, Sappho, Pindar, Catullus, and Horace.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1146 - GREEK AND ROMAN HISTORIANS

Minimum Credits: 3
Maximum Credits: 3
Study of selected works by Greek and Roman historians in English translation. Among the authors that may be read are Herodotus, Thucydides, Polybius, Sallust, levy, and Tacitus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1151 - DEATH IN MEDITERRANEAN WORLD

Minimum Credits: 3
Maximum Credits: 3
In many cultures, people sometimes ask fundamental questions about their existence, including, "what happens after we die?" This course will focus on the evolution of beliefs and rituals related to death and the afterlife in and around the ancient Mediterranean basin, including egyptian, greek, etruscan, and roman cultures. Using an interdisciplinary approach, we will combine methodologies from anthropology, classics, history, and religious studies. Topics to be covered include myths of the afterlife, books of the dead, magic and death rituals, funeral practices and paraphernalia (disposal of the dead), cults of the dead, divinization, heaven and hell, judgment, and the impact of christianization on the ancient understanding of death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 1160 - GREEK TRAGEDY AND NOH DRAMA

Minimum Credits: 3
Maximum Credits: 3
A comparative study of selected Greek tragedies and Japanese Noh plays in the context of Greek and Japanese theories of drama.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1162 - THE CLASSICAL TRADITION

Minimum Credits: 3
Maximum Credits: 3
This course deals with the continuity of literary forms and themes between classical antiquity and later periods of Western culture. The focus is usually on one particular genre, e.G. The epic. All texts are read in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1190 - TOPICS IN CLASSICAL LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Study of selected topics in Greek and Roman literature. All readings are in English translation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

CLASS 1210 - GREEK HISTORY

Minimum Credits: 3
Maximum Credits: 3
A survey of the history of ancient Greece, with special emphasis on political and social developments during the fifth century B.C.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1212 - GREEK HISTORY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking class 1210 as a writing course.
Academic Career: UGRD

Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CLASS 1216 - ALEXANDER & HELLENISTIC AGE

Minimum Credits: 3
Maximum Credits: 3
This course deals both with the career of Alexander the Great and with political, social, and intellectual developments in the several successor states into which Alexander's empire dissolved after his death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1220 - ROMAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
A survey of the history of Rome from the earliest times through the late empire, with particular emphasis on political and social developments during the late republic and early empire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1222 - ROMAN HISTORY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking class 1220 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CLASS 1230 - EMERG OF GRECO-ROMAN CIVILZTN

Minimum Credits: 3
Maximum Credits: 3
This course attempts to isolate those elements which are particularly characteristic of Greco-Roman civilization, to identify the components out of which each characteristic element grew, and to understand the process of its evolution in light of various models and explanatory hypotheses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1231 - EMERG GRECO-ROMAN/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking class 1230 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

CLASS 1250 - LAW & SOCIETY IN GREECE & ROME

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines the legal systems of ancient Greece and Rome with particular attention to interrelations with contemporary society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1290 - TOPICS IN ANCIENT HISTORY

Minimum Credits: 3
Maximum Credits: 3
Study of selected topics in Greek and Roman history. All readings are in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CLASS 0020 or CLASS 1220 or HIST 1781

CLASS 1310 - PRESOCRATIC PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course is a survey of major figures in Greek philosophy before Socrates and Plato.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1312 - PLATO

Minimum Credits: 3
Maximum Credits: 3
This is an advanced undergraduate course examining Plato's main views both in their historical context, and as they influence our own thinking today; the relations between Socrates and the sophists are also studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CLASS 0300 or PHIL 0200

CLASS 1314 - ARISTOTLE

Minimum Credits: 3
Maximum Credits: 3
This course will examine the basic concepts of Aristotle's metaphysics, physics, ethics, and logic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1316 - HELLENISTIC PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
An examination, at the advanced undergraduate level, of the three major schools of the Hellenistic age - the stoics, epicureans, and skeptics - and their views about ethics, epistemology, and the nature of reality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1370 - MEDIEVAL PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines selected major figures in European philosophy during the middle ages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1390 - TOPICS IN ANCIENT PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
Study of selected topics in ancient philosophy. All readings are in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1402 - GRECO-ROMAN RELIGIONS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to religious texts and traditions in a formative era of Western civilization and culture. Our focus will be on the variety of religious expression in Greco-Roman culture, which flourished in the geographical area of the Mediterranean basin during the first five centuries of the common era. By considering such topics as debates about the nature of the gods and access to them (through oracles, ritual and magic), the emergence of the idea of the holy person, and a variety of religious traditions as expressed in prayer, ritual and art, students will encounter a rich religious imagination that is truly different from contemporary understandings of religion and yet strangely familiar as well. We will also explore the complete integration between religion politics in the ancient world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CLASS 1430 - ORIGINS OF CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3

This course presents a historical-critical investigation of Christian origins. Special attention is paid to varieties of 1st century Hellenistic and Palestinian Judaism within the Greco-Roman world. Primary readings include selected Biblical passages and apocrypha, 1st century historians and philosophers (Josephus, Tacitus, Suetonius, and Philo), the New Testament corpus (including Paul and the Pastorals), and selected readings from the Dead Sea Scrolls. In addition there will be assignments from various modern New Testament critics, historians, and theologians.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1432 - VARIETIES OF EARLY CHRISTNITY

Minimum Credits: 3
Maximum Credits: 3
An examination of the diverse strands of Christianity as developed both in the Christian bible and outside of it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1434 - DUALISM IN THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
An examination of the development of dualism in ancient Western religions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1436 - BODY & SOCIETY LATE ANTIQUITY

Minimum Credits: 3
Maximum Credits: 3
An investigation of the Christian view of the body as the locus of both sin and salvation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1450 - JEWS & JUDAISM IN ANCNT WORLD

Minimum Credits: 3
Maximum Credits: 3
Judaism in the Hellenistic/roman period is examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1510 - GREEK ART

Minimum Credits: 3
Maximum Credits: 3
The study of Greek art begins ca. 3000 B.C. In the so-called age of bronze" and traditionally ends in 30 B.C. With the completion of the roman conquest of the eastern Mediterranean. The course will trace the development of architecture, sculpture and painting in mainland Greece and to a lesser extent in the Greek colonies of Asia minor and Italy, emphasizing the changes in style and taste which took place over this period."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1520 - ROMAN ART

Minimum Credits: 3
Maximum Credits: 3
Roman art served as the funnel through which the principles of Greek art passed into European culture, but the principles were transformed in the process of transmission. The course will trace the beginnings and subsequent development of the arts of painting, sculpture, and architecture in Italy from the period of the kings, and the middle years of the empire (ca. 150 A.D.).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1522 - ROMAN SCULPTURE

Minimum Credits: 3
Maximum Credits: 3
The Romans were influenced throughout their history, by Greek models in relief and sculpture in the round. Nevertheless, they chose their models selectively and according to tastes and social needs which were distinctly Italian or Roman. The course will examine the development of the sculptural arts in Italy from the regal period to the middle empire (ca. 150 A.D.), Emphasizing the problems involved in the reconstruction of this

development as a continuous history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1524 - ROMAN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
The course will examine the development of Roman architecture from its origins in Etruria and central Italy to the middle empire (ca. 150 A.D.). Special attention will be given to the relationship of architectural forms, types and functions to changes in Roman politics and society and the significance of materials and outside influences on the development of local Italian traditions and forms. The interaction between roman architectural forms and local traditions in the provinces to create a Roman imperial koine", will be treated only in passing."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1710 - SANSKRIT 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the basic structure and vocabulary of Sanskrit. Approximately half of the course is devoted to an intensive survey of Sanskrit grammar and half to the reading of a selection from the Mahabharata.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1720 - SANSKRIT 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Sanskrit 1, this course is devoted to the reading of selected Sanskrit texts. Grammar presented in Sanskrit 1 is reviewed as necessary and some additional grammatical material is introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1730 - SANSKRIT 3

Minimum Credits: 3
Maximum Credits: 3
A continuation of Sanskrit 2, this course is an introduction to Vedic Sanskrit and to the reading of selected hymns from the Rig-Veda.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CLASS 1720

CLASS 1740 - SANSKRIT 4

Minimum Credits: 3
Maximum Credits: 3
In this course, a continuation of Sanskrit 3, students read selected portions of Kaladana's play Sakuntala.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CLASS 1790 - TOPICS IN SANSKRIT

Minimum Credits: 3
Maximum Credits: 3
Study of selected topics in Sanskrit language and literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

CLASS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes independent study in the field of classical civilization in consultation with a member of the faculty.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

CLASS 1902 - DIRECTED STUDY FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes directed study in the field of classical civilization under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

CLASS 1903 - DIRECTED RSRCH FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes directed research in the field of classical civilization under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

CLASS 1908 - DIRECTED WRITING FOR MAJORS
Minimum Credits: 1
Maximum Credits: 1
In addition to whatever written assignments are required of those enrolled in the course, this directed writing-practicum provides students with an opportunity to contribute writing designed in terms of the intellectual strategies of the course.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Co-Ed Physical Education

PEDC 0001 - BEGINNING SWIMMING
Minimum Credits: 1
Maximum Credits: 1
For students who are unable to swim or who can swim very little. Opportunities are presented to learn basic functional aquatic skills and basic strokes. Students are permitted to set their own achievement goals. Instruction is on an individual basis.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0002 - INTERMEDIATE SWIMMING
Minimum Credits: 1
Maximum Credits: 1
For students who have learned the mechanics of basic aquatic strokes and are interested in the development of proper rhythm and timing necessary for good performance in swimming. Students are permitted to set their own achievement goals. Instruction is on an individual basis.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0003 - DIVING AND TRAMPOLINE
Minimum Credits: 1
Maximum Credits: 1
For the intermediate level swimmer who wishes to improve their skill and knowledge of springboard diving. Diving skills are prescribed on an individual basis after the student's abilities and needs are assessed. Beginners as well as advanced divers welcome. Dives are taught from the five basic groups (front, back, inward, reverse, and twisting). Most of the dives are performed from the one meter spring board. The three meter, platform, and trampoline will be used as the student's skills progress.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0004 - SCUBA 1
Minimum Credits: 2
Maximum Credits: 2
Provides naui or padi openwater instruction and certification for the beginning student who wishes to learn safe scubadiving techniques. Pool, classroom, and openwater training are required for certification.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0005 - SCUBA 2
Minimum Credits: 1
Maximum Credits: 1
Provides padi advanced openwater and certification for the certified diver who wishes to gain specialized diving experience. Activities include instruction and supervision in advanced navigation, search and recovery, night diving, and deep diving.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0008 - LIFE GUARDING
Minimum Credits: 2
Maximum Credits: 2
For the intermediate level or above swimmer who wishes to gain national red cross lifeguard certification. Training is specially designed to prepare enrollers for lifeguarding pools and openwater beaches. Advanced lifesaving, cpr, and first aid certifications are required if not already obtain ed before course completion.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0009 - SCUBA 3
Minimum Credits: 1
Maximum Credits: 1
This upper level course provides padi rescue diver instruction and certification for the experienced diver. Pool, classroom, and openwater training are required.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0010 - WATER AEROBICS
Minimum Credits: 1
Maximum Credits: 1
Improve your fitness in the enjoyable aquatic environment. This program is designed for all ages. Each enrollee will be permitted to participate at their own level gradually improving their muscle tone, cardiac, and respiratory fitness levels. This program will be conducted in shallow water so that the non-swimmer may participate.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0012 - SCUBA 4
Minimum Credits: 1
Maximum Credits: 1
This leadership level course provides the experienced diver with the experience and knowledge necessary to assume the role of scuba divemaster. This course can qualify one for divemaster certification.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0015 - KAYAK PADDLING
Minimum Credits: 1
Maximum Credits: 1
Instruction for the beginning kayaker in basic strokes and rolls. This course offers aca certification for basic kayak paddling, pool practice sessions, and an openwater trip.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0021 - PERSONAL FITNESS 1
Minimum Credits: 1
Maximum Credits: 1
An organized approach to health related fitness with diagnostic and prescriptive assessment, and cognitive input to include the variables modifiable by activity, techniques of training, and relaxation. The emphasis is on an individual self-designed program based on scientific principles with the goal of personal improvement and fitness knowledge of primary importance.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0022 - AEROBIC DANCE
Minimum Credits: 1
Maximum Credits: 1
Improve your fitness levels with this aerobic dance to music course. One of America's most popular ways to exercise. This program is for all ages. Each enrollee will be permitted to participate at his/her own level, gradually improving muscle tone, cardiac, and respiratory fitness.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0023 - WEIGHT TRAINING
Minimum Credits: 1
Maximum Credits: 1
A coeducational class designed to provide the student with the opportunity to develop and practice basic weight training techniques. With the guidance of the instructor, the student will be encouraged to develop an individualized self-designed program. The emphasis of this course will be placed on progressive-resistive exercises.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0025 - AEROBICS-CROSS COUNTRY RUNNING
Minimum Credits: 1
Maximum Credits: 1
Primarily involves a training program of light to moderate intensity with increased cardiovascular fitness and improved quality of life as a goal. In support of the instruction on cross-country running, students will receive some background information on aerobics in the form of handouts and mini lectures.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0026 - AQUATIC CONDITIONING
Minimum Credits: 1
Maximum Credits: 1
Good swimmers who want to learn how to use swimming to maintain or improve their physical fitness should register for this course. Students may determine their capacity for exercise, and they may learn how to apply this effort in the water.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0031 - MODERN DANCE 1
Minimum Credits: 1
Maximum Credits: 1
Introduces the college student to modern dance as a point of view, rather than a particular technique. There will be exercises to increase strength, and flexibility, as well as to teach techniques of movement, exploration and improvisation. Emphasis is on developing a sensitive awareness of one's own body movement in time and space.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0032 - MODERN DANCE 2
Minimum Credits: 1
Maximum Credits: 1
This course is designed for those students who have mastered beginning dance technique and wish to gain more advanced skills. Advanced technique and compositional work is stressed. Course objectives include increased technical skills, awareness and appreciation of modern dance as an art form, ease in phrasing rhythmical movement and skill in improvisational movement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0033 - BALLET 1
Minimum Credits: 1
Maximum Credits: 1
For absolute beginners introducing them to basic fundamentals of the classic ballet technique.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0034 - BALLET 2
Minimum Credits: 1
Maximum Credits: 1
An intermediate class, taught as a continuation of ballet 1. Also a class for students who may have some ballet training before coming to college. Audition for class eligibility at the first class session or permission of instructor.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0035 - SOCIAL DANCE
Minimum Credits: 1
Maximum Credits: 1
Beginners course, the college substitute for Arthur Murray, emphasis on couple dances, such as: tango, waltz, rhumba, meringue, and fad dances--old and new.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0036 - TAP DANCE
Minimum Credits: 1
Maximum Credits: 1
This course will introduce the basic fundamentals of tap dance movements. It is designed for the beginner who wishes to explore the rhythmic movements involved in tap dancing.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0037 - MUSICAL THEATRE DANCE
Minimum Credits: 1
Maximum Credits: 1
Students will learn popular dance routines from famous musicals and movies. Learn line dancing, unison group performances to music from chorus line, 42nd street and cats. The class finishes with a dance show.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0038 - TAI CHI
Minimum Credits: 1
Maximum Credits: 1
T'ai chi ch'uan is a form of non-competitive exercise which has been practiced in china for hundreds of years. Also called Chinese long boxing it is a martial art form which develops the internal strength of the body while minimizing the external force of the muscles. The slow, circular movements are beneficial for body alignment, circulation, re lease of muscle tension, suppleness, improved concentration, breathing, mental attitude, and awareness.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0039 - MOVEMENT IMPROVISATION
Minimum Credits: 1
Maximum Credits: 1
This course fuses creativity with movement. The performer simultaneously originates and performs the movement without preplanning. Students will be guided through the improvisational process and will be expected to perform in-class projects concluding with a final performance.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0040 - CHOREOGRAPHY
Minimum Credits: 1
Maximum Credits: 1
The art of making dances. Studies dealing with timing, grouping, energy, quality, etc., Lead to the creation of dances. Designed for students who wish to explore the creative process or for those wanting more advanced dance training.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0041 - JAZZ 1
Minimum Credits: 1
Maximum Credits: 1
Fundamentals of jazz dance for beginning dance students. Class includes warm-up, center floor, and cross floor movement combinations, contemporary jazz and pop music is emphasized.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0042 - JAZZ 2
Minimum Credits: 1
Maximum Credits: 1
A continuation of the basic fundamentals learned in jazz 1. More emphasis is placed on longer routines and more complicated movement sequences. It is an intermediate jazz class.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0043 - HIP-HOP DANCE
Minimum Credits: 1
Maximum Credits: 1
This is an introductory class focusing on the various styles of hip-hop such as pop and lock, breakdance, house dance, pop, crump and step. In addition to learning various styles, the class will provide students with a historical context from which to view hip-hop dance as an urban mode of creative expression. Using various media, the students will also learn how to view and critique the dance form.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0044 - DANCE PRODUCTION
Minimum Credits: 2
Maximum Credits: 2
This course is designed to familiarize students with both the technical and production aspects of dance and to increase appreciation of dance in all its forms.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

PEDC 0045 - TENNIS 1
Minimum Credits: 1
Maximum Credits: 1
This course is primarily designed for beginning tennis players. The course will emphasize an introduction to all of the basic tennis shots. Students will be taught how and when to use each shot and playing and scorekeeping will be explained. A small amount of strategy will be stressed for playing singles and doubles. The overall goal is to facilitate enjoyment of the game of tennis as a lifetime sport.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0046 - TENNIS 2
Minimum Credits: 1
Maximum Credits: 1
This course is designed for intermediate to advanced tennis players. The course will stress a refinement of tennis strokes with special emphasis on using spin to hit the ball harder and be more consistent. Conditioning for tennis will be developed, along with better agility through drills. Students will be taught strategy on how to compete in singles and doubles. Several tournaments for student participation will occur. The overall goal is to increase power, consistency and game strategy.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0047 - SQUASH 1
Minimum Credits: 1
Maximum Credits: 1
An intriguing international four-wall racquet game. A good conditioner for out-of-season tennis players.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0048 - RACQUETBALL 1
Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce the beginner to the significant components of racquetball. Three types of racquetball games, singles, doubles, and cut throat, will be introduced in conjunction with individual skill development. The grip, ready position, racquet swing, service, return of service, and shot making will be covered. Game strategies and rules and regulations will be reviewed.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0049 - BADMINTON
Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce the beginner to the significant components of badminton. The following basic strokes will be presented in class; forehand and backhand, overhead clear, high singles service, low doubles service, smash and drop. Rules and regulations and strategies for doubles and singles games will be presented.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0050 - RACQUETBALL 2
Minimum Credits: 1
Maximum Credits: 1
This course provides basic stroke mechanics, practice drills, and winning strategies for advanced players with a knowledge of the game of racquetball. Class time will deal in depth with the drive, lob, overhead z-serves, serve returns, back wall play, and training aids. Developing strategies for winning in singles and doubles will be dealt with extensively in class.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0051 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 6
If a student is interested in developing a program independently, or if a student is interested in a program not offered formally by this department, he or she may develop a contract with an instructor in a specific area and present this contract for approval to the program coordinator.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

PEDC 0052 - ADAPTIVE PHYSICAL EDUC 1
Minimum Credits: 1
Maximum Credits: 1
An adapted physical education, individualized programs of activity designed for students who, because of special needs of a permanent or temporary nature, cannot successfully participate in other physical education courses offered. The student health service and/or the student's personal physician(s) are included in course planning where appropriate.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0053 - ADAPTIVE PHYSICAL EDUC 2
Minimum Credits: 1
Maximum Credits: 1
An adapted physical education, individualized program of activity designed for students who, because of special needs of a permanent or temporary nature, cannot successfully participate in other offered physical education courses. The student health service and/or the student's personal physician(s) are included in course planning where appropriate.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0054 - ADAPTIVE PHYSICAL EDUC 3
Minimum Credits: 1
Maximum Credits: 1
An adapted physical education, individualized program of activity designed for students who, because of special needs of a permanent or temporary nature, cannot successfully participate in other offered physical education courses. The student health service and/or the student's personal physician(s) are included in course planning where appropriate.
Academic Career: UGRD

Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0055 - ADAPTIVE PHYSICAL EDUC 4

Minimum Credits: 1
Maximum Credits: 1
An adapted physical education, individualized program of activity designed for students who, because of special needs of a permanent or temporary nature, cannot success fully participate in other physical education courses offered. The student health service and/or the student's personal physician(s) are included in course planning where appropriate.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0056 - SOCCER

Minimum Credits: 1
Maximum Credits: 1
For the beginners who wish to develop competence in the skills, rules, and strategies required for participation in soccer. The course also covers the history and development of soccer as an international sport.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0057 - BASKETBALL 1-MEN

Minimum Credits: 1
Maximum Credits: 1
Supervised competition follows a conditioning period in which individual skills and team strategy are stressed. Opportunity to improve on previously acquired skills and become a team member is provided. Players measured by individual improvement and contribution to the team.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0058 - BASKETBALL 2-MEN

Minimum Credits: 1
Maximum Credits: 1
Continuation of basketball 1-men.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0062 - TOUCH FOOTBALL

Minimum Credits: 1
Maximum Credits: 1
A co-educational course designed to provide the student with the opportunity to develop the fundamental skills of football, along with experiencing organized competition in touch football games. Students are encouraged to develop offensive plays and defensive strategies and are given opportunities to evaluate their ideas under practice and competitive conditions.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0065 - VOLLEYBALL

Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce the beginner to the significant components of volleyball. Basic skills to be taught will include the overhead volley, forearm pass, service, spike, individual block and defensive recovery skills. A 4-2 right-side-setter offensive system will be introduced with a 6-back and a 6-up defensive system. All rules and regulations will be reviewed during the course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0066 - TRACK AND FIELD

Minimum Credits: 1
Maximum Credits: 1
An opportunity to understand and perhaps learn to perform all the events which comprise track and field competition. Open to all students on all skill performance levels.
Academic Career: UGRD

Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0067 - KARATE

Minimum Credits: 1
Maximum Credits: 1
Introduction to the principles and techniques of traditional shotokan karate. Commencing with physical conditioning and basic blocking, stroking, punching, and kicking techniques-- training progresses through traditional formal exercise (kata), sparring, and self-defense methods. A karate club is available for those who wish to continue their study of karate beyond the scope of this course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0068 - JUDO 1

Minimum Credits: 1
Maximum Credits: 1
An intensive study of the basic physics and principles governing the art of judo. It is no longer an oriental mystique. Today, judo is practiced worldwide by men and women of all ages. The "judoka" (student) will acquire confidence as well as improved physical endurance. In addition to this, the student will begin to grasp the true meaning of judo and find how it can apply to life in general. Judo gi is required
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0069 - JUDO 2

Minimum Credits: 1
Maximum Credits: 1
A continuation of Judo 1 including mat techniques such as strangle, joint lock, and pinning. New students must have a yellow belt.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0070 - WRESTLING

Minimum Credits: 1
Maximum Credits: 1
For the beginner who wishes to develop competence in the skills, rules and strategies required for participation in wrestling.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0073 - GYMNASTICS 1-WOMEN

Minimum Credits: 1
Maximum Credits: 1
Provides instruction on the beginner ability level. The areas of vault, uneven bars, balance beam, floor exercise and trampoline are covered with an emphasis on basic tumbling progressions and safety on skills and learning spotting techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0074 - GYMNASTICS 1-MEN

Minimum Credits: 1
Maximum Credits: 1
For the beginning and intermediate student. Skills and exercises are done as part of an individually prescribed program in which the needs of the student are considered. A student could perform in any of the following events: free exercise, trampoline, side horse, rings, horizontal bar, parallel bars, rope climbing, tumbling, and mini trampoline. Grading is according to the student's own individualized program.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0077 - SKIING

Minimum Credits: 1
Maximum Credits: 1
Instruction is given on all ability levels. Instruction and skiing are provided at Seven Springs Resort, Champion, PA. Lessons will be conducted by certified PSIA instructors and staff.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0078 - LA CROSSE
Minimum Credits: 1
Maximum Credits: 1
This team sport provides the student with the opportunity to learn the unique skills offered in the sport of lacrosse. The course will be conducted totally indoors requiring no additional equipment other than that provided.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0079 - ICE SKATING
Minimum Credits: 1
Maximum Credits: 1
Beginners may learn to skate and skaters may learn to skate better. Figure skating is the basic program. Some introduction to understanding of ice hockey.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0080 - RIFLE-PISTOL MARKSMANSHIP
Minimum Credits: 1
Maximum Credits: 1
Provides the basic fundamentals in practical application of the proper techniques utilized for recreation, target and competition shooting.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0081 - GOLF 1
Minimum Credits: 1
Maximum Credits: 1
For the beginner who wishes to learn and improve their driving, putting, pitching, and chipping skills. Golf fundamentals will be stressed along with the rules of the game.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0086 - CERTIFIED POOL & SPA OPERATOR
Minimum Credits: 1
Maximum Credits: 1
A practical course dealing with the sanitation, circulation and filtration of swimming pool water. An excellent course for students who are interested in employment as a swimming pool manager or custodian.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PEDC 0087 - PERSONAL DEFENSE
Minimum Credits: 1
Maximum Credits: 1
Offers physical conditioning and self-defense through the application of judo. Emergency self-defense from various attacks will be taught utilizing basic throwing, grappling, and striking techniques. Students develop a deep respect for others, inner security, and self-confidence. The purpose of this course is to defeat an opponent through the most efficient use of mind and body, but doing so on the principle of "giving away" under his attack or effort.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0090 - VARSITY SPORTS 1
Minimum Credits: 1
Maximum Credits: 1
Students may earn four credits in physical education by participating in a varsity sport. One credit only per term. Student must be a varsity athlete.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: STDNT GRP: Student Athlete or Cheer / Dance

PEDC 0091 - VARSITY SPORTS 2
Minimum Credits: 1
Maximum Credits: 1
Students may earn one credit in physical education by participation in a varsity sport for his/her second term.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PREQ: PEDC 0090; STDNT GRP: Student Athlete or Cheer / Dance

PEDC 0092 - TENSION CONTROL
Minimum Credits: 1
Maximum Credits: 1
A first course in efficiency and accomplishment through conservation of personal energy. This simple self-help technique, of value throughout life, is based on the scientific principles and practice of neuromuscular (progressive) relaxation. Students will learn to practice physical skill with concomitant benefits of improved attention, learning and memory, along with prevention of energy depleting tension states.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0096 - WINTER CAMPING
Minimum Credits: 1
Maximum Credits: 1
A weekend course designed to provide the student with backpacking experience and the knowledge necessary to extend his outdoor enjoyment to four seasons. All weather equipment including backpacks, sleeping bags, pads, tents, and stoves will be provided to students needing gear. Although ski touring is part of this course, experience is not required and necessary skills may be quickly learned.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0099 - BASIC ROCK CLIMBING
Minimum Credits: 1
Maximum Credits: 1
Beginning with bouldering, the course will deal primarily with rope handling and moving on vertical rock planes in a safe manner. Covered in this course are bouldering, friction and balance climbing, 3-point suspension, use of ropes, knot craft, body rappelling, free rigging climbs, mountain safety, basic belaying, use of webbing (slings and harnesses), chinmey techniques and natural protection.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0127 - AEROBIC EXERCISE-NC
Minimum Credits: 0
Maximum Credits: 0
Improve your fitness levels with aerobic exercise to music one of America's most popular ways to exercise. This program is for all ages. Each person will be permitted to participate at his/her own level, gradually improving muscle tone, cardiac and respiratory fitness.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0128 - BODY SCULPTING
Minimum Credits: 1
Maximum Credits: 1
A non-impact class designed to develop muscular definition, firming, toning, and strength. Weights and other resistive devices will be incorporated into workout routines to music.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0129 - BODY SCULPTING-NC
Minimum Credits: 0
Maximum Credits: 0
Exercise to music in this non-impact class designed to develop muscular definition, firming, toning and strength. Weights and other resistive devices will be incorporated into workout routines.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0131 - RACQUETBALL 2/SQUASH 1
Minimum Credits: 1
Maximum Credits: 1
This course provides 7 weeks of practice drills, and winning strategies for advanced players with a knowledge of the game of racquetball. Class time will deal in depth with the drive, lob, overhead z-serves, serve returns and back wall play. Seven weeks of squash. An intriguing international four-wall racquet game. A good conditioner for out-of-season tennis players.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0132 - SCUBA 1
Minimum Credits: 1
Maximum Credits: 1
Provides padi open water 1 instruction and certification for the beginning student who wishes to learn safe scuba diving techniques. The student does not provide personal diving gear. Pool, classroom, and open water training are required for certification. The student must provide all of the equipment necessary for open water training (which may be rented).
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0133 - LIFE GUARDING 1
Minimum Credits: 1
Maximum Credits: 1
For the intermediate level or above swimmer who wishes to gain national red cross lifeguard certification. Training is specifically designed to prepare enrollers for lifeguarding pools and openwater beaches. Advanced lifesaving, community first aid, and CPR certifications are required if not already obtained before course completion.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0134 - SOFTBALL
Minimum Credits: 1
Maximum Credits: 1
This course is designed to help students advance their skills in softball. Skills include: throwing, catching, fielding, pitching, hitting, and game strategy rules, regulations and umpiring are covered.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0135 - BASKETBALL 1 - CO-EDUCATIONAL
Minimum Credits: 1
Maximum Credits: 1
Supervised competition follows a conditioning period in which individual skills and team strategy are stressed. Opportunity to improve on previously acquired skills and become a team member is provided.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0136 - AEROBIC DANCE 1
Minimum Credits: 0
Maximum Credits: 0
Improve your fitness levels with aerobic exercise to music. One of America's most popular ways to exercise. This program is for all ages. Each person will be permitted to participate at his/her own level, gradually improving muscle tone, cardiac, and respiratory fitness.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0137 - TRIATHLON TRAINING
Minimum Credits: 1
Maximum Credits: 1
This course is geared toward people interested in competing in a triathlon. The instruction and training will be at the beginner to intermediate level, with an emphasis on the fundamentals of triathlon training and racing. Students should have a good swimming background, access to a bicycle, and some running experience. The class will show the student how to weight train and stretch for endurance competition. Students will learn principles of a healthy nutritional regimen followed by many athletes. Some classroom instruction coupled with indoor/outdoor training sessions.
Academic Career: UGRD

Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0138 - STEP AEROBICS

Minimum Credits: 1
Maximum Credits: 1
Step aerobics is low-impact aerobic exercise. Improve your fitness level with step aerobics to music. This program is for all ages. Every student will be permitted to participate at his/her own level. The course will gradually improve your muscle tone, cardiac output and respiratory fitness levels.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0139 - FOOTBALL OFFICIATING

Minimum Credits: 1
Maximum Credits: 1
The course in football officiating includes: classroom instruction and hands-on officiating experience in the intramural football program. Instruction includes: rule knowledge, officiating techniques, field coverage and evaluation of performance.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0140 - BASKETBALL OFFICIATING

Minimum Credits: 1
Maximum Credits: 1
The course in basketball officiating includes: classroom instruction and hands on officiating experiences in the intramural basketball program. Instruction includes: rule knowledge, officiating techniques, methods of scoring, court coverage and evaluation of performance.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0141 - DISCOVER SCUBA-NC

Minimum Credits: 0
Maximum Credits: 0
Ever since you were a kid you probably wanted to scuba dive. We will introduce you to the relaxing adventure of the underwater world. This 2 hour session includes a slide presentation and in pool experience.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0142 - BODY BUILDING-MEN

Minimum Credits: 1
Maximum Credits: 1
Learn the techniques of body building. How to develop specific muscle groups through exercise and nutrition. This is not a class for beginners. You will learn posing techniques, develop routines to music, and be involved in class competition.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0143 - BODY BUILDING-WOMEN

Minimum Credits: 1
Maximum Credits: 1
Learn the techniques of body building. How to develop specific muscle groups through exercise and nutrition. You will learn posing techniques, develop routines to music, and compete in class competition. This is not a class for beginners.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0144 - SCUBA 2-NC

Minimum Credits: 0
Maximum Credits: 0
Provides instruction for the certified open water scuba diver in advanced diving techniques. One two hour classroom and openwater dive training activities are required for the advanced openwater certification.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0145 - TENNIS-NC
Minimum Credits: 0
Maximum Credits: 0
This course is designed for beginner and intermediate tennis players. The course will emphasize all tennis shots. Students will be taught how and when to use each shot and playing strategies. Singles and doubles will be played.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0146 - FIRST AID AND CPR
Minimum Credits: 1
Maximum Credits: 1
A laboratory-lecture course in which American red cross techniques of cardiopulmonary resuscitation (CPR) and standard first aid are presented. All students who meet the American red cross standards will receive American red cross certification.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0147 - WATER SAFETY INSTRUCTOR
Minimum Credits: 2
Maximum Credits: 2
The water safety instructor course is designed to earn certification to teach American red cross swimming and water safety courses. The course focuses on planning, organizing, sequencing, skill development, and red cross operational policies and procedures.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0148 - RACQUETBALL-NC
Minimum Credits: 0
Maximum Credits: 0
This course is designed to teach the basic components of racquetball. Three types of racquetball games will be taught singles, doubles and cut-throat. Individual skill development and strategies will be taught. Eye protection is required.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0149 - BODY AWARENESS IN SPORTS
Minimum Credits: 1
Maximum Credits: 1
The student will improve sports performance by learning body awareness through movement. Applying body awareness through a variety of movements will enhance performance in activities such as: football, basketball, baseball, track and field, soccer, volleyball, wrestling, tennis and general gross motor activities. Students will learn the benefits of intensive unique stretching, the use of external energies to improve power, understanding motor imagery to increase agility, the use of directional and spatial energies, internally and externally to enhance dynamic balance.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0150 - POWERLIFTING & OLYMPIC LIFTING
Minimum Credits: 1
Maximum Credits: 1
Introduction to the sports of powerlifting and olympic lifting. We will examine the distinction and benefits of the two barbell sports. Powerlifting is a national and international sport that consists of three barbell lifts: squat, bench press and deadlift. Olympic lifting is a national, international, and olympic sport that consists of two traditional overhead barbell lifts: snatch, and clean and jerk. Emphasis will be placed on learning proper lifting techniques and development of individual training programs.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0153 - VARSITY SPORTS 3
Minimum Credits: 1
Maximum Credits: 1
Students may earn one credit in physical education by participation in a varsity sport for his/her third term.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: PEDC 0091; STDNT GRP: Student Athlete or Cheer / Dance

PEDC 0154 - VARSITY SPORTS 4
Minimum Credits: 1
Maximum Credits: 1
Students may earn one credit in physical education by participation in a varsity sport for his/her fourth term.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: PEDC 0153; STDNT GRP: Student Athlete or Cheer / Dance

PEDC 0158 - WEIGHT TRAINING 1
Minimum Credits: 1
Maximum Credits: 1
A coeducational class designed to provide the student with the opportunity to develop and practice basic weight training techniques. With the guidance of the instructor, the student will be encouraged to develop an individualized self-designed program. The emphasis of this course will be placed on progressive-resistive exercises.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0159 - FLEXIBILITY AND ALIGNMENT
Minimum Credits: 1
Maximum Credits: 1
A class for those who want to increase their flexibility and improve their alignment. Gentle exercises for flexibility in addition to a plan for individualized, bio-mechanically efficient alignment to make movement tension free. Visual imagery is incorporated to reinforce the "mind-body" connection for improved efficiency of movement and augment flexibility.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0160 - DANCE IN FILM AND VIDEO
Minimum Credits: 1
Maximum Credits: 1
A class for the film and video dance fan. Discussion, movement and viewing of all genres of dance are included. Theory of movement, movement for video, and the image of dance through history of film is the basis for discussion. Early films from 1894 to present day and the treatment of dance as an art form is included.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0162 - DANCE BASICS
Minimum Credits: 1
Maximum Credits: 1
For those people who always had a desire to learn to dance but were intimidated by a formal class. Break your own stereotype! If increasing your flexibility, strength, coordination and rhythmic awareness is a goal, you can do it in an enjoyable atmosphere of sound and movement. Learn dance fundamentals that are used in ballet, jazz, and modern dance. Some social dance and folk dance movements are included. Barre and floor warm-up and movement sequences are contained in each class.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 0163 - YOGA
Minimum Credits: 1
Maximum Credits: 1
An elementary course on the practice and theory of basic principles of yoga. For tension control and mind-body connections this class will provide each student with a plan to focus on their particular body's strengths and weaknesses and increase flexibility.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0164 - PARTY DANCE
Minimum Credits: 1
Maximum Credits: 1
This class will focus on generic dance movements that you can use in social dance situations. Hip-hop, line dances like electric slide and achey-breaky, and free form styles will be highlighted. Understanding rhythm and moving rhythmically will also be included. Learn how to learn dance so you can feel confident at weddings, house parties and clubs. This is strictly for non-dancers that want to become dance confident.

Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0165 - VOLLEYBALL-NC

Minimum Credits: 0
Maximum Credits: 0
This course is designed to improve the major components of volleyball. Skills to be taught will include overhead volley passing, serving, setting, blocking and spiking. Rules and regulations will be reviewed. Various defensive systems will be taught.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0166 - CREATIVE MOVEMENT

Minimum Credits: 1
Maximum Credits: 1
A course to bring out the creativity inherent in all individuals. In class the exercises and structured improvisations are guaranteed to bring out all creative impulses. Props, costumes, art, music and literature are used as catalysts for creating movement in a failure-free environment. Special attention will be focused on small-group interaction, brain-storming and cooperative games to make creativity seem effortless.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0167 - KARATE-NC

Minimum Credits: 0
Maximum Credits: 0
Principles and techniques of shotokan karate. Commencing with physical conditioning and basic blocking, striking, punching, and kicking techniques -- training progresses through traditional formal exercise (kata), sparring and self-defense methods.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0168 - JUDO-NC

Minimum Credits: 0
Maximum Credits: 0
A study of the basic physics and principles governing the art of judo. The "judoka" (student) will acquire confidence and improve physical endurance. The student will learn how to fall, defend and throw opponents.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0170 - AEROBIC MEDLEY

Minimum Credits: 1
Maximum Credits: 1
This course is a heterogeneous mixture of aerobic exercise, conditioning and body development classes. Classes during this will vary daily and include the following: step aerobics, a low impact aerobic program that involves stepping onto a bench while simultaneously performing a series of upper body movements. Interval bench, a moderate intensity class that combines aerobic bench stepping with body sculpting. High-low impact aerobics, a moderate to high intensity aerobic dance class that combines both high and low impact moves. Abdominal work is included in all classes.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0171 - FITNESS KICK BOXING

Minimum Credits: 1
Maximum Credits: 1
Our exercise program is based on the concepts of boxing, karate, muay thai kick boxing, and total fitness accompanied by rhythmatic music. Conditioning is focused on the areas of endurance, strength, and flexibility; all of which can bring about positive physical changes in participating students. Aerobic and anaerobic power training with speed bay and heavy bag is part of the training module.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0173 - SNOBOARDING

Minimum Credits: 1
Maximum Credits: 1
Instruction is given on all ability levels. Three-5 hour sessions of instruction and boarding plus one-5 hour session of boarding are provided at seven

springs ski resort.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 0175 - AEROBIC FITNESS BOXING

Minimum Credits: 1
Maximum Credits: 1
Our exercise program is based on the concepts of boxing, karate, muay thai kick boxing, and total fitness accompanied by rhythmatic music. Conditioning is focused on the areas of endurance, strength, and flexibility; all of which can bring about positive physical changes in participating students. Aerobic and power training are a part of the enduring comprehensive training module.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0180 - VOLLEYBALL 1

Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce the beginner to the significant components of volleyball. Basic skills to be taught will include the overhead volley, forearm pass, service spike, individual block and defensive recovery skills. A 4-2 right-side-setter offensive system will be introduced with a 6-back and a 6-up defensive system. All rules and regulations will be reviewed during the course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0192 - TENSION CONTROL-NC

Minimum Credits: 0
Maximum Credits: 0
A first course in efficiency and accomplishment through conservation of personal energy. This simple self-help technique will be of value throughout life, and is based on the scientific principles and practice of neuromuscular progressive relaxation. Students will learn to practice physical skill with concomitant benefits of improved attention, learning memory, along with prevention of energy depleting tension states.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0193 - PERSONAL FITNESS

Minimum Credits: 1
Maximum Credits: 1
An organized approach to health related fitness with diagnostic and prescriptive assessment. The emphasis is on an individual, self-designed program based on scientific principles with the goal of personal improvement and fitness knowledge of primary importance. Various types of exercise will be incorporated into class times.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0194 - SPORTS CONDITIONING

Minimum Credits: 1
Maximum Credits: 1
This course includes sport specific training for a multitude of sports including plyometric, speed and agility training, resistance training and will incorporate different modes of aerobic training. This course focuses on how to train different types of athletes and how each specific type of training is related to the sport/event involved. This is a high intensity exercise course and should not be taken if the student is not apparently healthy and has not already had at least some experience in sport and/or fitness related fields.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0196 - FIRST AID AND CPR

Minimum Credits: 2
Maximum Credits: 2
A 2-credit lab/lecture discussion course in which American red cross techniques of cardiopulmonary resuscitation (CPR) for the professional rescuer and community first aid and safety are presented. In addition to these skills, current methods of management and treatment of emergency illnesses and injuries are also taught. American red cross certification available to all students who meet the standards.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0197 - BOOTCAMP FITNESS
Minimum Credits: 1
Maximum Credits: 1
If you want to increase your fitness level, burn fat, look great and feel fantastic, then take your workout to the next level in boot camp fitness! A typical class will include cardio exercise such as jump rope, jumping jacks, jogging as well as muscular endurance exercises such as push-ups, squats, lunges, etc. Everyone will be encouraged to excel to their very best but will not be pushed to the point of injury or pain. All exercises can be modified to suit each participant's needs.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0206 - BODY SCULPTING 1
Minimum Credits: 1
Maximum Credits: 1
Exercise to music in this non-impact class designed to develop muscular definition, firming, toning, and strength. Weights and other resistive devices will be incorporated into workout routines.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0207 - PILATES
Minimum Credits: 1
Maximum Credits: 1
The pilates method of body conditioning strengthens and tones muscles, improves posture, provides flexibility and balance, unites body and mind, and creates a more stream lined shape. Pilates is great for people of all ages and fitness levels, as it uses your body's own natural resistance to define and elongate the muscles.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0208 - "STEP IT UP" (ADVANCED STEP)
Minimum Credits: 1
Maximum Credits: 1
Geared towards the advanced fitness enthusiast, "step it up" is a high intensity workout that incorporates creative combinations and challenging patterns on a step platform.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0209 - "ON THE BALL"
Minimum Credits: 1
Maximum Credits: 1
A 60 minute resistance training workout using stability balls, hand weights, and resistance tubing. This class will focus on increasing core strength, as well as overall muscle tone, balance, and coordination. A nice compliment to your cardio workout!
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0210 - WATER AEROBICS-NC
Minimum Credits: 0
Maximum Credits: 0
Improve your fitness levels with water aerobics to music. One of America's most popular ways to exercise. No swimming ability needed. Includes warm-up, aerobic activity to keep heart rate in target range, and stretching. Abdominal and lower back toning included.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0211 - WATER AEROBICS 1
Minimum Credits: 1
Maximum Credits: 1
Improve your fitness in an enjoyable environment! This program is designed for all ages allowing the student to participate at his or her own level. Students will gradually improve muscle tone and cardiac fitness levels. The program is conducted in shallow water so that non-swimmers may participate.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0221 - PERSONAL FITNESS TRAINING-NC

Minimum Credits: 0
Maximum Credits: 0
Design your own personal fitness training program. Learn the basics of cardiovascular fitness, strength conditioning, proper warm-up and stretching program to reduce soreness, increase flexibility and reduce the severity of injury. Learn about body composition, weight control, diet and nutritional principles as they pertain to sport and fitness.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0222 - CYCLE EXERCISE

Minimum Credits: 1
Maximum Credits: 1
This class if for anyone that wants a killer cardiovascular workout without being bored on a traditional cardio machine. Spinning bikes simulate an outside ride by allowing you to change positions on the bike as well as resistance to simulate hills. This class will incorporate sprints, seated climbs, standing climbs, jumps and more for an anything-but-boring workout! During the class, you can work at your own intensity level whether it is light to moderate or vigorous. Spinning is great for anyone and everyone including cyclists as well as those of you that aren't the best of cyclists. No bike riding experience is necessary for this class.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0225 - BUDO

Minimum Credits: 1
Maximum Credits: 1
An overview of martial arts which combines the practice of kobudo, ancient weaponry-bo (long stick), jo (short stick), sia, aiki, sumo jujitsu & karate do. Class will incorporate the use of ancient weaponry and the art of ju-jitsu, which is composed of falling, throwing, pressure points, disarming skills against the weapon, the art of restraining, and ground grappling. This course will cover the history and philosophy of these activities and also physically using tactical application. Budo will provide student insight on how different disciplines are combined and used.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0226 - FITNESS BOXING 1

Minimum Credits: 1
Maximum Credits: 1
For students who want a high level of fitness achieved through learning various beginning, non-contact boxing skills and techniques. Skills include: shadow boxing, defensive techniques, non-contact sparring, heavy bag workout, speed bag techniques, rope jumping, and strength and conditioning exercises.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0227 - FITNESS BOXING - NC

Minimum Credits: 0
Maximum Credits: 0
This course is a continuation course and is open to students who have taken fitness boxing for credit previously.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0231 - SOCCER 1

Minimum Credits: 1
Maximum Credits: 1
For the beginner who wishes to develop competence in the skills, rules, and strategies required for participation in soccer.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0232 - TOUCH FOOTBALL 1

Minimum Credits: 1
Maximum Credits: 1
A co-educational course designed to provide the student with an opportunity to develop the fundamental skills of football, along with experimenting with organized competition in touch football games.
Academic Career: UGRD

Course Component: Practicum
Grade Component: Letter Grade

PEDC 0235 - AEROBICS: LOW IMPCT HIGH ENRGY

Minimum Credits: 1
Maximum Credits: 1
This class is great for individuals of all fitness levels. Cardiovascular exercise including dance and step aerobics is combined with resistance training using hand weights, resistance bands and/or weighted bars. Abdominal and core work is also included.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0236 - AEROBIC MIX

Minimum Credits: 1
Maximum Credits: 1
This is a great class for anyone who loves variety! This course provides a mixture of various types of cardiovascular exercise including, but not limited to, hi-lo floor aerobics, step aerobics and cardio kickboxing. In addition, resistance training, yoga and/or pilates may be incorporated into the exercise sessions. Classes will vary at the instructor's discretion.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0237 - AEROBIC EXERCISE

Minimum Credits: 1
Maximum Credits: 1
This class is for those who prefer floor aerobics to step aerobics. The class will include predominantly hi-lo floor aerobics. Other forms of exercise may include resistance training, yoga and pilates.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0238 - STEP AEROBICS-NC

Minimum Credits: 0
Maximum Credits: 0
Step aerobics is low-impact aerobic exercise. Improve your fitness level with step aerobics to music. This program is for males and females. This course will gradually improve your muscle tone, cardiac output and respiratory fitness levels.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

PEDC 0239 - STEP AEROBICS 1

Minimum Credits: 1
Maximum Credits: 1
Step aerobics is a low-impact aerobic exercise. Improve your fitness level with step aerobics to music. This program is for all ages. Every student will be permitted to participate at his/her own level. This course will gradually improve your muscle tone, cardiac output, and respiratory fitness levels.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0240 - AEROBICS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course will prepare the student to teach various components of aerobic exercise, i.e., Aerobic fitness boxing (tae bo), hi-low impact, step aerobics, circuit training, interval bench, water aerobics, and the like. The course will not certify instructors, however, it will prepare the student to obtain certification from national organizations with written and practical exams.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0241 - FITNESS FOR INSTRUCTORS

Minimum Credits: 3
Maximum Credits: 3
Fitness for instructors will teach the student the major elements of fitness. How to assess fitness levels, deter mine fitness goals, design fitness programs and facilities. The course will be a combination of classroom, exercise, and practical experiences.
Academic Career: UGRD

Course Component: Practicum
Grade Component: Letter Grade

PEDC 0242 - AMER RED CROS LIFEGUARD INSTRC

Minimum Credits: 2
Maximum Credits: 2
American red cross lifeguard training for instructors will certify the student to teach various components of American red cross classes, i.e. Lifeguard training, adult and child, CPR for the professional rescuer, and community first aid and safety classes. This certification enables students to teach the above mentioned classes in any state authorized by the American red cross.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0243 - AMER RED CROS FIRST/CPR INSTRC

Minimum Credits: 2
Maximum Credits: 2
American red cross standard first aid and CPR for instructors will certify the student to teach various components of American red cross classes, i.e. Adult, infant and child, and CPR for the professional rescuer, as well as community first aid and safety classes. This certification enables students to teach the above mentioned classes in any state authorized by the American red cross.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0244 - DANCE PRODUCTION 2

Minimum Credits: 2
Maximum Credits: 2
This course is designed to familiarize students with both the technical and production aspects of dance in all its forms. The students will have experiences with lighting, costume, choreography, public relations, and stage management.
Academic Career: UGRD
Course Component: Workshop
Grade Component: Letter Grade

PEDC 0245 - COUNTRY WESTERN DANCE

Minimum Credits: 1
Maximum Credits: 1
Enjoy a great social event. Learn the latest country Western dances. This course includes the Texas two-step, achey-breakey, boot-scoot boogie and other favorites.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

PEDC 0246 - POOL OPERATIONS/EVENT MGMNT

Minimum Credits: 1
Maximum Credits: 3
Course will cover all aspects of pool operations including safety requirements, scheduling, emergency action plan, lifeguard rotations and filtration. Section on event management will include scheduling, set up and break down of competition pool including lane ropes, touchpads, flags, blocks, and timing system. Attendance at pre-determined pool events will be required. Total number of credits earn ed will be based on minimum number of hours worked.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0262 - YOGA 1

Minimum Credits: 1
Maximum Credits: 1
An elementary course on the practice and theory of the basic principles of yoga. This class will provide students with a plan to focus on their particular bodies' strengths and weaknesses plus increase flexibility.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0263 - YOGA 2

Minimum Credits: 1
Maximum Credits: 1
An intermediate level course on the theory of basic principles of yoga.
Academic Career: UGRD

Course Component: Credit Laboratory
Grade Component: Letter Grade

PEDC 0264 - POWER YOGA

Minimum Credits: 1
Maximum Credits: 1
This class is for anyone that has some previous yoga experience and would like a physical challenge, and doesn't mind breaking a sweat! Power yoga is a form of Ashtanga yoga that emphasizes strength and flexibility. This class is not a gentle form of yoga; however, participants will be encouraged to progress at their own levels and will be given modifications for difficult movements.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0265 - YOGA AND PILATES

Minimum Credits: 1
Maximum Credits: 1
Take the best of yoga and Pilates and gain the streamlined body you've always dreamed of. Yoga and Pilates is a fresh and exciting approach targeting specific parts of the body with four separate workouts and concentrating on problems areas. Combined, these workouts offer a solution to weight loss while promoting relaxation from stress!
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0266 - PILATES FUSION

Minimum Credits: 1
Maximum Credits: 1
Pilates fusion is based on the Pilates system, but is more movement centered, as we transition from one form to the next through movement stretches taken from release methods. These release methods are designed to lengthen and to soften the muscles. The movements are constant, so there is flow and connection rather than a static approach. There is a focus on proper form, finding center through the pelvis, core strengthening and its relation to the back. Techniques from yoga practice are also incorporated into this class.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0267 - BEGINNING KARATE

Minimum Credits: 1
Maximum Credits: 1
An introduction on the principles and techniques of traditional shotokan karate. Students will begin training with physical conditioning and basic blocking, striking, punching, and kicking techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0277 - MIXED MARTIAL ARTS

Minimum Credits: 1
Maximum Credits: 1
This course will provide students with a basic understanding of the most common techniques and training methods involved in sport mixed martial arts. The curriculum will include stand-up fighting techniques such as boxing and Muay Thai kickboxing, along with ground fighting techniques, including Jiu Jitsu and wrestling. The course will also focus on conditioning, specifically in the areas of strength, endurance, and flexibility, all of which will contribute to total fitness and improved martial art technique.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

PEDC 0287 - PERSONAL DEFENSE 1

Minimum Credits: 1
Maximum Credits: 1
The purpose of this course is to teach students how to defeat an opponent through the most efficient use of mind and body, but doing so on the principle of "giving away" under his/her attack or effort. Emergency self-defense from various attacks will be taught utilizing basic judo techniques and the "byam" method.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0300 - INTRODUCTION TO MASSAGE

Minimum Credits: 1
Maximum Credits: 1
This course is designed to acquaint students with the general techniques of massage and with the health benefits of massage therapy. Included are physiological and psychological effects of massage, anatomy and physiology of massage, massage for special populations, contraindications for massage, passive stretching and joint mobilization techniques, accupressure and trigger point therapy. In addition, students will learn to demonstrate the basic massage techniques of effleurage, petrissage, friction, vibration, tapotement and compression.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0302 - INTRODUCTION TO SPORTS MASSAGE

Minimum Credits: 1
Maximum Credits: 1
This course will include sport specific training for a multitude of sports and focus on how to train many different types of athletes and how each specific type of training is related to the sport/event involved. Topics included: plyometric, speed and agility training, resistance training, different modes of aerobic training, etc. This is a high intensity exercise course and should be taken by healthy students who have some experience in sport and/or fitness related fields.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0338 - TAI CHI 2

Minimum Credits: 1
Maximum Credits: 1
Taijiquan (tai chi chuan) translates into English as grand ultimate boxing. Taken from the texts of the tao te ching, taijiquan uses softness to overcome the strong. With an emphasis on relaxation and sensitivity, taijiquan has gained great popularity. Although viewed alongside many new age holistic therapies, taiji and baguazhang have been developed as internal martial arts on china's ancient wu tang moun tain. They are first and foremost martial arts, and as in all nei gong (internal skill) training, a way to inner peace, harmony and a balanced lifestyle.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0340 - KETTLE BELL AND CONDITIONING

Minimum Credits: 1
Maximum Credits: 1
This class is designed to provide the student with a total body strength and cardiovascular workout utilizing kettle bell equipment and various strength conditioning techniques. Emphasis is on circuit style or continuous training with the goal of progressively increasing the intensity and difficulty of the workout throughout the semester.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0360 - BELLY DANCING

Minimum Credits: 1
Maximum Credits: 1
In this course you will learn the history of the dance form and of the cultures that practice it, basic move instruction, and the study of choreography to culminate in an end of the semester performance. Great exercise!
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0361 - FITNESS DANCE

Minimum Credits: 1
Maximum Credits: 1
This class, set to contemporary music, is designed to get your moving while learning fun and exciting dance movements! The class begins with a warm-up consisting of fundamental dance principles and techniques that will prepare you to move into dance phrases and choreographed movement. The class cools down with a series of stretches and muscle relaxing exercises. No previous dance training is required.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0362 - TOTAL BODY FUSION

Minimum Credits: 1
Maximum Credits: 1
This class is for anyone looking to increase cardiovascular fitness, firm and tone muscles, increase flexibility and de-stress. A typical class starts with cardiovascular exercise such as step aerobics, kickboxing and/or hi-lo aerobics, moves to body sculpting using free weights, bands and balls and

finishes up with core work and stretching exercises. If you like a little of everything, this is definitely the class for you!
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0363 - ZUMBA

Minimum Credits: 1
Maximum Credits: 1
Zumba is a one of kind combination of dance and exercise, designed to put "Fun" back into fitness. The zumba workout maximizes caloric output, fat burning, and total body toning. The routines feature aerobic interval training with a combination of fast and slow rhythms that tone and sculpt the body. Exotic and explosive Latin rhythms create a party like atmosphere that delivers results, as well as a "Feel happy" workout. No previous experience in dance is needed to have fun with zumba.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0366 - INTRODUCTION TO DANCE

Minimum Credits: 3
Maximum Credits: 3
A comprehensive overview of dance as an art form and physical activity, covering the history and philosophy of dance. Dance will be examined as a means of communication and expression, and its relationship to other art forms. A particular emphasis will be placed on Western dance forms and its multicultural roots.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PEDC 0367 - BALLROOM 1

Minimum Credits: 1
Maximum Credits: 1
Beginners course: professional instruction in the smooth dances: waltz, fox-trot, tango and Viennese and Latin dances, cha cha, rumba, samba, mambo, etc.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0368 - LATIN RHYTHM AND SWING

Minimum Credits: 1
Maximum Credits: 1
Call it mambo, call it rock-n-roll.....Beginner, learn the basic footwork, turns and combination figures to these fiery dances. Learn to lead a partner. And partner, learn to follow the leader. Leading and following emphasized. Floor craft and dance etiquette will be taught. Styling and technique added to complete all dances. Also, special attention to timing and music recognition.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0375 - HIP-HOP AEROBICS

Minimum Credits: 1
Maximum Credits: 1
This is an aerobic dance and fitness class designed to provide an exercise opportunity for students to improve their fitness. This course will incorporate various styles of hip-hop such as pop and lock, breakdance, house dance, pop, crump and step into an aerobic fitness class.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0380 - CARDIO PILATES

Minimum Credits: 1
Maximum Credits: 1
This class begins with aerobic exercise of various formats including: hi-lo, step and kickboxing to get your heart rate elevated and body moving. It then progresses to a short cool-down period and finishes with pilates mat exercises to sculpt your muscles and stretch your body. This class is great for anyone looking to increase cardiovascular fitness as well as strengthen, stretch and tone the muscles.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0381 - PILATES WITH PROPS

Minimum Credits: 1
Maximum Credits: 1
This course is designed to build and progress from the fundamental pilates exercise system. This class will incorporate props such as exercise balls and bands to further enhance the effects of a beginner level pilates class. This course focuses on strengthening the core, encouraging proper spinal alignment, lengthening and toning muscles and increasing flexibility. Previous pilates experience is recommended, but not required.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0383 - CARDIO GROOVE

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0384 - CARDIO-FITNESS 360

Minimum Credits: 1
Maximum Credits: 1
This course is designed to introduce the student to various modes of aerobic activity. This course will include fitness assessments, jogging, aquatic activities and other types of aerobic activity. This course is designed to emphasize the importance of aerobic activity and overall physical fitness throughout a person's life.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0400 - INTRODUCTION TO ROCK CLIMBING

Minimum Credits: 1
Maximum Credits: 1
This is a beginner's course for students who want to learn basic rock climbing skills and safety. Student will show mastery with climbing equipment, knot tying, belaying, rappelling, and certain climbing techniques. This course will occur on the indoor rock climbing wall in trees hall. Outdoor trips will occur after indoor practice.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0401 - SPORT CLIMBING

Minimum Credits: 1
Maximum Credits: 1
A continuation of climbing techniques learned from intro to rock climbing. The focus of this course will be emphasized on advanced climbing techniques while sport climbing. Students will learn how to sport climb, belay a leader and clean sport routes safely. An emphasis of the class will be learning the skills to climb any sport route anywhere in the world. Some alpine techniques and multi-pitch skills will be taught. A weekend sport climbing outing will occur after indoor practice.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0402 - ROCK CLIMBING TRAINING FITNESS

Minimum Credits: 1
Maximum Credits: 1
This course is intended for students who wish to improve their climbing ability. It contains a hand's on portion that consists of actually training climbing movement with coaching and a theoretical portion that will explore the rationale behind the training approaches. Students should leave the class with an understanding of the physiology of climbing and the ability to design training programs for themselves. All students taking this class must be able to tie in and belay comfortably and safely.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0405 - FLY FISHING

Minimum Credits: 1
Maximum Credits: 1
This is a beginner's class designed to give you the basics in tying flies, casting, reading the water, and tying the knots. The skills and techniques will enable you to use the flies that you create to catch fish. Field experiences will follow classroom sessions.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 0408 - KAYAKING
Minimum Credits: 1
Maximum Credits: 1
Learn practical skills like rescue and re-entry, bracing, maneuvering, rolls, and much more in both sea kayaks and whitewater boats. This class offers not only indoor practice but outdoor trips as well. Student is responsible for transportation to local outdoor trip locations.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1001 - HORSEMANSHIP
Minimum Credits: 2
Maximum Credits: 2
This course gives the student basic exposure to the horse from the ground as well as from the horse's back. Students learn the basics of caring for a horse and elementary principles of horse training and management. Students will be given the opportunity to practice the principles of hunt-seat equitation through actual riding experience provided by a local riding academy. Initial riding experience will occur on a lounge line with the opportunity for individualized progression to jumping, etc.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

PEDC 1002 - TAE KWON DO 1
Minimum Credits: 1
Maximum Credits: 1
An ancient Korean martial art that is a free-fighting, self-defense sport in which the athlete's entire body is a weapon. Tae kwon do requires physical training, coordination, and a high degree of mental discipline.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1003 - TAE KWON DO 2
Minimum Credits: 1
Maximum Credits: 1
A continuation for students in Tae Kwan Do 1. Learn to compete olympic style. Competition and advanced style defense techniques will be taught. New students must have a yellow belt.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1004 - HORSEMANSHIP 1
Minimum Credits: 1
Maximum Credits: 1
This course gives the student basic exposure to the horse from the ground as well as from the horse's back. Students learn the basics of caring for a horse and elementary principles of horse training and management. Students will be given the opportunity to practice the principles of hunt seat equitation through actual riding experience provided by a local riding academy. Initial riding experience will occur on a lounge line with the opportunity for individualized progression to jumping, etc.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 1006 - JIU JITSU
Minimum Credits: 1
Maximum Credits: 1
Jiu jitsu is a method of defense without weapons using hand, foot, and hip techniques combined with grappling and choke holds designed to render your attacker helpless and to help you gain more self-confidence. Jiu jitsu is not a contest of muscular strength. When practiced properly a smaller person can easily defend themselves against a larger person.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1038 - TAI CHI 2
Minimum Credits: 1
Maximum Credits: 1
Continuation of tai chi 1. Students should take tai chi 1 before advancing to tai chi 2.
Academic Career: UGRD

Course Component: Practicum
Grade Component: Letter Grade

PEDC 1141 - FITNESS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
Fitness for instructors will teach the student the major elements of fitness. How to assess fitness levels, deter mine fitness goals, design fitness programs and facilities. The course will be a combination of classroom, exercise, and practical experiences.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1142 - PILATES FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course is for anyone interested in becoming an instructor of Pilates. The course will consist mostly of hands-on learning experience as well as a basic understanding of Pilate's theory. Upon successful completion of the course, the student will possess the basic knowledge needed to become a competent Pilate's instructor.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1143 - TEACHING MIND/BODY EXERCISE

Minimum Credits: 2
Maximum Credits: 2
This is a course designed to prepare students to become instructors for mind/body classes including pilates and yoga. The course will begin with a brief overview of the history behind various mind/body formats and then move to practical application. Students will learn basic anatomy related to exercise as well as how to properly teach exercises and breathing techniques. Upon completion of the course, students should be capable of instructing pilates and yoga classes, as well as have a comprehensive understanding of the theories and principles behind the disciplines. No prior instructing experience is necessary.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1211 - ATHLETIC INJURY PREVENTION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the student with an introduction to the athletic training profession. Topics include medical terminology, mechanisms of injury, and recognition and treatment of common athletic injuries to major body parts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PEDC 1212 - ATHLETIC INJURY PREVENTION LAB

Minimum Credits: 1
Maximum Credits: 1
An introduction to basic taping techniques and injury evaluation techniques used in the profession of athletic training. Basic supportive strappings and paddings for immediate care and competition are presented as well as basic joint evaluation procedures, massage, and crutch fitting.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

PEDC 1233 - PRIN OF STRENGTH & CONDITNING

Minimum Credits: 2
Maximum Credits: 2
Instruction is provided describing the principles for development of pre-season, in-season and off-season strength and conditioning programs. Laboratory experiences will include the theory and techniques of operating strength training equipment.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1240 - AEROBICS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course will prepare the student to teach various components of aerobic exercise, i.e., Aerobic fitness boxing (tae bo), hi-low impact, step aerobics, circuit training, interval bench, water aerobics, and the like. The course will not certify instructors, however, it will prepare the student to

obtain certification from national organizations with written and practical exams.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1300 - NUTRITION IN EXERCISE & SPORT

Minimum Credits: 1
Maximum Credits: 1
This course will provide the student with basic nutritional information as it pertains to sport and exercise performance. Topics of discussion include weight reduction and management, nutritional requirements for athletic performance and maintenance of a healthy lifestyle, proper eating habits, diet fads, disordered eating, and supplementation.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1302 - BASKETBALL SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in basketball. Skills will include ball handling, shooting, rebounding, offensive moves, inside game, individual defense, and fast break games.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1303 - BASKETBALL COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching basketball. Topics will include off-season and pre-season training, practice planning, scouting opponents, team offense and defense, team and practice rules and conduct, film break down, and bench coaching.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1304 - SOCCER SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in soccer. Skills will include passing, receiving, individual ball possession, heading, shooting, kicking, throw-ins, goalkeeping, and technical development.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1305 - SOCCER COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching soccer. Topics will include foundations, team management, conditioning, attack and defense tactics, systems of play, and laws of the game.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1306 - SWIMMING SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in swimming. Skills will include hydrodynamic principles, freestyle, backstroke, breaststroke, butterfly, racing starts and turns, and swim meet skills.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

PEDC 1307 - SWIM COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching swimming. Topics will include PIAA rules and regulations, swim season planning, physiology of training, coaching techniques, the psychology and strategies of coaching, building a championship team, coaching administration, and professional certifications.

Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1308 - BASEBALL SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in baseball. Skills will include pitching, hitting, playing infield and outfield, catching, base running, relays, rundowns, and pickoffs.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1309 - BASEBALL COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching baseball. Topics will include pitching game plans, getting the most out of the players, offensive strategy, pitching analysis, game decisions, scouting opponents, and planning practices.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1310 - FOOTBALL SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills and formations in football. Topics will include defensive lines, linebackers, defensive backs, offensive lines, receivers, running backs, quarterbacks, and kickers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1311 - FOOTBALL COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching football. Topics will include off-season training, preseason programs, scouting opponents, offensive and defensive game plans, game decisions, game analysis, and practice plans.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1312 - WRESTLING SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in wrestling. Skills will include the seven basic skills of wrestling, takedowns, mat wrestling, and miscellaneous techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1313 - WRESTLING COACHING

Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching wrest ling. Topics will include foundations of coaching, practice organization, weight management, strength and conditioning, mental skills, drills, and officiating.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1314 - VOLLEYBALL SKILL ANALYSIS

Minimum Credits: 1
Maximum Credits: 1
The student will learn to analyze skills in volleyball. Skills will include forearm passing, setting, attacking, blocking, serving, individual defense, team drills, and team play.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1315 - VOLLEYBALL COACHING
Minimum Credits: 1
Maximum Credits: 1
The student will learn the fundamentals of coaching volley ball. Topics will include creating a volleyball team, creating effective practices, team serve receive, team defense, rules/officiating, off-season training, scouting opponents, and post-match analysis.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

PEDC 1488 - WEIGHT MGT & PHYSICAL ACTIVITY
Minimum Credits: 2
Maximum Credits: 2
This course is designed for students who meet the clinical criteria for being overweight (body mass index > 25 kg/m2) and who desire to lose weight, improve their nutrition, and increase their exercise. This course will combine instruction on behavioral techniques to lose and maintain weight loss along with supervised cardiovascular and resistance exercise. Students will be assessed at the beginning and end of the course to monitor changes in weight, body composition, fitness and other factors.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

College of General Studies

CGS 0092 - MASTERING THE UNIVERSITY
Minimum Credits: 1
Maximum Credits: 1
This course is the first of a two course series aimed at helping students develop both academically and professionally. In this first course, students will explore strategies, techniques, and processes aimed at improving their critical thinking and communication skills, which ultimately will serve them well in both academic and professional environments. Additionally, students will examine elements of university culture and university policies with the aim of providing them with perspectives that can enhance their academic success and build their on-campus network. Ideal for transfer students and anyone looking to boost their academic performance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

CGS 0093 - FROM CLASSROOM TO CAREER
Minimum Credits: 1
Maximum Credits: 1
As the second course of a two course series on academic and professional development, this course asks students to further examine the ways that their academic plans and career goals align. Students will identify their current competencies and those they still need to acquire in order to succeed in identified careers. Building on their new understanding of their competencies and interests, students will develop strategies to reach their identified career goals, such as obtaining the internships, informational interviews, and job shadowing experiences necessary to attract prospective career opportunities and build their professional network. Ideal for career launchers and career changers, no prerequisites needed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

CGS 0094 - ENTREPRENEURIAL CONC & PLNNG
Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to assist students who are interested in starting a business by providing mentorship and realistic nurturing of their concepts. The college of general studies recognizes that entrepreneurship is a legitimate alternative to classical job searching. CGS students are uniquely qualified to be successful business leaders because of their maturity, well-rounded educational background and drive and initiative. This will be an online class, primarily taught using the blackboard system. Students will be required to not only prepare and submit relevant documents such as marketing plans and sales strategies on a weekly basis, but also to comment on submissions by fellow students. At the completion of this class, the successful student will have refined a business concept prior to developing a full-blown business plan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CGS 0095 - CAPSTONE COURSE
Minimum Credits: 1
Maximum Credits: 1
This is primarily an on-line course, requiring weekly on-line participation, in addition to three in-person workshops. This course will provide students the opportunity to connect their academic competencies with their career goals. Students will utilize professional communication skills in order to effectively position themselves for appropriate career opportunities. Students will master career development techniques such as: practicing

interviewing skills, writing professional documents, developing networking contacts, identifying job/graduate school opportunities and compiling a professional career plan, in order to conduct a well-organized job search or prepare for graduate school.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

CGS 0100 - SERVICE-LEARNING IN BRAZIL
Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

CGS 0101 - SERVICE-LEARNING IN BOLIVIA
Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

CGS 0102 - SERVICE-LEARNING IN JAMAICA
Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

CGS 1124 - FIELD STUDY: NORTHERN IRELAND
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

CGS 1124IS - FIELD STUDY: N IRELAND - IS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

CGS 1124OS - FIELD STUDY: N IRELAND -OS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP
Minimum Credits: 1
Maximum Credits: 6
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

CGS 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Allows advanced students to pursue topics and research of special interest which are not otherwise available.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

Comm Science and Disorders

CSD 1020 - NATURE OF LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of linguistics and psycholinguistics including phonologic, morphologic, syntactic, semantic, and pragmatic aspects of linguistic theory and behavior. Topics may also include neurolinguistics, developmental psycholinguistics, and the relationship between cognition and language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PSY 0010

CSD 1021 - LANGUAGE DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
Students in this course become acquainted with current models and empirical evidence concerning the process of language acquisition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CSD 1020 or LING 1000; PLAN: Communication Science (BA, BPH) or Not Candidate for Degree CDS

CSD 1022 - TRANSCRIPTION PHONETICS

Minimum Credits: 3
Maximum Credits: 3
The study of the phonemics of American English and of broad and narrow phonetic transcription, utilizing the international phonetic alphabet. Attention will also be paid to the transcription of abnormal speech patterns.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA, BPH)

CSD 1023 - ANATMY & PHYSIOLOGY OF SPEECH

Minimum Credits: 3
Maximum Credits: 3
An overview of the anatomy and physiology of the craniofacial complex and of structures involved in speech production including respiration, phonation, articulation and resonation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA, BPH)

CSD 1024 - ANATMY & PHYSIOLOGY OF HEARING

Minimum Credits: 3
Maximum Credits: 3
Study of the anatomy of the outer and middle ears, the middle ear transformer action, and acoustic reflex. Review of cochlear anatomy and theories of the transducer function of the inner ear. Study of central auditory pathways and binatural hearing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: CSD 1024

CSD 1025 - HEARING SCIENCE

Minimum Credits: 1
Maximum Credits: 1
This is a one credit required experience for all students enrolled in the Anatomy and Physiology of Hearing" course (1024)."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: 1024

CSD 1026 - SPEECH SCIENCE

Minimum Credits: 3
Maximum Credits: 3
An introduction to speech physiology, acoustics, perception, models of speech production, research methodology and current topics in the area of speech science.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CSD 1023 and CSD 1027; PLAN: Communication Science (BA, BPH) or Not Candidate for Degree CDS

CSD 1027 - LAB IN ANAT/PHYSIOLGY OF SPCH

Minimum Credits: 1
Maximum Credits: 1
This is a one credit required experience for all students enrolled in the Anatomy and Physiology of Speech" course (1023)."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: 1023

CSD 1028 - LAB IN HEARING SCIENCE

Minimum Credits: 1
Maximum Credits: 1
This is a one credit required experience for all students enrolled in Hearing Science"."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PREQ: CSD 1024 and 1029; CREQ: CSD 1025; PLAN: Communication Science (BA, BPH) or Not Candidate for Degree CDS

CSD 1029 - LAB IN ANAT/PHYSLGY OF HEARNG

Minimum Credits: 1
Maximum Credits: 1
This is a one credit required experience for all students enrolled in the "anatomy and physiology of hearing" course (1024).
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: 1024

CSD 1030 - LAB IN SPEECH SCIENCE

Minimum Credits: 1
Maximum Credits: 1
An introduction to speech physiology, acoustics, perception, models of speech production, research methodology and current topics in the area of speech science.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA,BPH)

CSD 1089 - UNDERGRADUATE SPECIAL TOPICS

Minimum Credits: 1
Maximum Credits: 4
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

CSD 1099 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

CSD 1101 - INTRO TO CLINICAL PROCESSES

Minimum Credits: 3
Maximum Credits: 3
This course overviews the clinical processes employed in the diagnosis and treatment of speech, language and hearing disorders. Videotaped observations of clinical sessions will be reviewed and discussed, with students preparing detailed observational reports.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: CSD 1232; CREQ: CSD 1230

CSD 1230 - INTRO SPEECH LANG PATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the field of communication disorders, by acquainting them with the major disorder types as well as the major activities conducted by speech-language pathologists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CSD 1231 - EVAL TREATMNT COMMNCTN DISEAS

Minimum Credits: 3
Maximum Credits: 3
This course provides students with information concerning identification, assessment, and treatment of clients exhibiting various communication disorders.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA, BPH)

CSD 1232 - INTRODUCTION TO AUDIOLOGY

Minimum Credits: 3
Maximum Credits: 3
A pre-professional course that introduces elements of the basic audiometric/impedance test battery, advanced tests of diagnostic utility, evaluation of special populations, and the role of the clinical audiologist in aural rehabilitation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CSD 1233 - INTRODUCTION TO RESEARCH

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to research methods in speech, language, and hearing sciences and communicative disorders. Students will learn how to read and critique research articles more effectively. They will also learn to generate research questions and to develop strategies for collecting data and evaluating experimental effects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA, BPH)

CSD 1234 - WRIT PRAC FOR EVAL & TREATMENT

Minimum Credits: 1
Maximum Credits: 1
A one-hour recitation section will be held weekly that will be dedicated to developing writing skills. Students will be required to produce samples of writing in many formats (article summaries and reviews, diagnostic reports, progress reports, and research reports) to prepare them to be effective communicators in the field of communication science and disorders. Students will be required to critique their own products as well as those of their peers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Communication Science (BA, BPH)

CSD 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This course is designed to enable students to explore an area of particular interest in depth. The student(s) and instructor agree on the topic area, method of study, requirements and evaluation procedure at the outset of the course.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

CSD 1903 - IRELAND: HISTORY & HEALTHCARE

Minimum Credits: 1
Maximum Credits: 1

This a required course for students who have been offered a place in the summer SHRS multi-disciplinary study abroad program in Ireland, CSD 1904. In this seminar-based course, students will explore the history of ireland and the political and economic structure of Northern Ireland and the Republic of Ireland. This will serve as a foundation for further study of the health, educational and social service polices of each country and a basis for comparison with the US. Students will also review the medical, rehabilitation and educational sites to be visited during the summer program and become familiar with the conditions and disorders of the individuals served at each of these facilities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

CSD 1904 - SHRS STUDY ABROAD IN IRELAND
Minimum Credits: 6
Maximum Credits: 6
This is an interdisciplinary study abroad opportunity offered through the department of communication science and disorders.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CSD 1903

CSD 1904IS - SHRS STUDY ABROAD IRELAND - IS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

CSD 1904OS - SHRS STUDY ABROAD IRELAND - OS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

CSD 1905 - SOCIAL HLTH ISSUES EAST AFRICA
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

Communications

COMMRC 0300 - COMMUNICATION PROCESS
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to basic theories, models, and concepts in interpersonal, small group, organizational and intercultural communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0310 - RHETORICAL PROCESS
Minimum Credits: 3
Maximum Credits: 3
This is an introductory course designed to give students a sense of the role rhetoric plays in the construction of our social, political, and cultural worlds, and to introduce students to traditional and contemporary approaches to the analysis of rhetorical discourse. Students will prepare a series of short performances for presentation in the recitation sections.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0311 - RHETRCL PROCESS HONORS REC
Minimum Credits: 1
Maximum Credits: 1
The honors recitation section is an extension of the COMMRC rhetorical process course, with special emphasis on 1) the formulation of productive questions, 2) deliberate, informed invention, and 3) the conception of student-driven projects that leverage students' academic expertise and lived

experience for the generation of collaborative analyses and solutions to social, political, economic, and cultural problems. In pursuing these goals, students will examine and, through their individual coursework, enact the dialectic of Aristotelian and sophistic understandings of rhetoric: the discernment of the means of persuasion available to them and the capturing of possibilities in opportune moments.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

COMMRC 0320 - MASS COMMUNICATION PROCESS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the basic concepts of mass communication research and to the history and development of various media (TV., Radio, newspapers, magazines, etc.).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0500 - ARGUMENT

Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint students with fundamental principles of argumentation through the use of elementary debating techniques and strategies. Students will participate in several in-class debates on a question of policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

COMMRC 0501 - ARGUMENT HONORS RECITATION

Minimum Credits: 1
Maximum Credits: 1
Students taking the three-credit COMMRC Argument 0500 course in fall term 2014 can enroll in this supplemental one-credit honors section that will meet separately for 75 minutes each week. The honors sidecar will provide high-achieving and motivated students the opportunity to explore class content in extra depth, through seminar-style discussions and assignments, such as public debate and advocacy projects, designed to cultivate and apply advanced argumentation skills and develop capacity for independent critical thinking. The one-credit sidecar is open to students with honors course eligibility (3.25 GPA or instructor permission).
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

COMMRC 0510 - DEBATE

Minimum Credits: 3
Maximum Credits: 3
This course offers academic credit for preparation for, and participation in, intercollegiate debate.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0520 - PUBLIC SPEAKING

Minimum Credits: 3
Maximum Credits: 3
This course is designed to help students develop increased skill in public speaking by means of theory and practice. This course covers research, organization, style, delivery, and criticism of informative, deliberative, and ceremonial speeches.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0530 - INTERPERSONAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to introduce students to theories and models of human communication in the face-to-face communication context. Focus of learning is on skill development; lecture, discussion, and practice of communication skills are used to facilitate student learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0540 - DISCUSSION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to increase skills in critical thinking, decision making, and small group discussion. Students are introduced to theories of group process and practice step-by-step group problem solving related to contemporary issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 0550 - SPEECH COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
The course deals with the theory and practice of preparing manuscript speeches. Students will focus on several principles of speech composition, including stages of speech development, general analysis of the occasion, maintaining attention, sources of persuasion through argument and qualities of effective style.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1070 - UNDERGRAD RESEARCH PROSEMINAR

Minimum Credits: 3
Maximum Credits: 3
The Undergraduate research experience opens horizons for students to envision pursuing scholarship as a profession. What does it mean to be a professional scholar? How have such conceptions changed through time, and what might the future hold for those who aspire to a 'life of the mind'? The academic research profession increasingly calls on scholars to explain their work to researchers from other fields, frame their research findings as useful contributions to society, and interact with public audiences. Hence a communication-based perspective provides a useful point of departure for students from the natural sciences, social sciences, and humanities alike to explore these opportunities and challenges in a collaborative, interdisciplinary seminar setting.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

COMMRC 1101 - EVIDENCE

Minimum Credits: 3
Maximum Credits: 3
This course examines the nature and structure of evidence and reason-giving in everyday discourse. Students develop critical skills in evaluating argument and reasoning by examining the evidential requirements of argument in specific rhetorical contexts; science, philosophy, and politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1102 - ORGANIZATIONAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
Students in this course are provided with an overview of the relationship between communication and organizing processes. The course emphasizes theories, principles, and concepts of organizational communication. Students learn to analyze the communication which occurs in organizations to recognize sources of communication breakdown and develop an awareness of strategies for prevention and/or resolution of communication on breakdown.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0300 or 0030 or 0100 or 0101 or 7300) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1103 - RHETORIC AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course explores the constitutive role that rhetoric plays in the formation of culture. Cultural texts and events will be examined both as reflecting and signifying practices. The course focuses on rhetoric's relation to ideology, power, and desire, as well as to class formations and sexual divisions. Selecting two of the above perspectives, students will examine how cultural practices constitute and are constituted by rhetoric.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [Engcmp 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1104 - POLITICAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
This course examines the way methods of symbol use are employed in the political arena. Persuasive techniques will be studied as they are used in public debates over issues of policy. Rhetorical criticism will be the primary mode of analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1105 - TELEVISION AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course explores the relationship between television and society. It familiarizes students with the history of the broadcast industry along with related legal, political, and economic issues. The course focuses on analyzing various television programs as constitutive of and constituted by social relations (class, gender, and race).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or(ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1106 - SMALL GROUP COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
Principles of small group communication are examined in this course. In particular, the examination will reveal the principles of group entry, group formation, group cohesiveness, group verbal and nonverbal message exchanges, group leadership, group problem solving and discussion, and group performance and satisfaction. Individual beliefs, attitudes and behaviors will be compared and contrasted with group beliefs, attitudes and behaviors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0300 or 0030 or 0100 or 7300 or COMM 0101) and [ENGCMP 200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1109 - NONVERBAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to examine the ways we communicate nonverbally. By nonverbal communication is meant that form of communication wherein messages are sent by virtue of an agent's physical characteristics, adornment, eye behavior, design and selection of environment, spatial relationships, utilization of time, touching behavior, body movements, the choice of objects to fill space, and vocal behavior. Principles and applications of nonverbal communication are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0300 or 0030 or 7300 or COMM 0101) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1110 - THEORIES OF INTERPERSONAL COM

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to introduce students to the ways in which researchers conceptualize and study interpersonal communication. Emphasis is upon the various issues which different conceptualizations raise in the study of human relationships. Students will have the opportunity to test the relevancy of insights each conceptualization provides for understanding the communication practices found in natural interactions and personal experience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0300 or 0030 or 0100 or 7300 or COMM 0101) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1111 - THEORIES OF PERSUASION

Minimum Credits: 3
Maximum Credits: 3
This course surveys theories of persuasion that have been articulated during the twentieth century. It seeks to compare and contrast research about how the spoken word and the visual image influence public belief and action.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and (COMMRC 0520 or 0052 or COMM 0104) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1112 - THEORIES OF RHETORIC

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to introduce students to major theories of rhetoric ranging from the sophists to some modern theorists.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and (COMMRC 0520 or 0052 or COMM 0104) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1113 - AFRCN AMERICANS AND MASS MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course is a critical analysis of mass media ownership, effects and content as they relate to African Americans. The primary media are newspapers, radio, and television. For comparative purposes, media content related to children, other women are used.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1114 - FREEDOM OF SPEECH AND PRESS

Minimum Credits: 3
Maximum Credits: 3
The purpose of the course is to provide students with a critical understanding of the historical themes and contemporary issues involved in the debate over free speech. This course examines philosophies of expression from Plato through the most recent supreme court decisions. Study focuses on cases, major doctrines, and competing interpretations of the first amendment to explore the freedoms and limits of individual expression and regulation of communication industries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1115 - AFRICAN AMERICAN RHETORIC

Minimum Credits: 3
Maximum Credits: 3
The purposes of this course are; a historical-critical re view of scholarship in African American rhetoric; and a theoretical-conceptual framework for the study of African American rhetoric. This course places considerable emphasis on the African roots of African American rhetoric, but the ultimate concern is with African Americans' behavior. The course covers consequences of African and European inter actions in America, factors that forged the distinctive aspects of African American rhetoric. The effects of culture, racism, colonialism, and social class on communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1116 - RHET OF AMER COUNTRCULT

Minimum Credits: 3
Maximum Credits: 3
This course is concerned with social protest and the modern conception of the outsider, people and groups who choose to separate themselves, or are unwillingly separated, philosophically and ideologically from the society within which they live. One of the most recognizable examples of living the life of the outsider was embodied in the beat generation of the 1940's and 1950's, who embraced self-indulgence as well as literary themes of disenchantment and disengagement. A second example is the counterculture of the 1960's, the hippie generation, who tended to express themselves more in mass countercultural themes like student anti-war activism, popular, socially activist music, and film. Requirements include: discussion participation, 3 short papers (3 pages), 3 longer papers (8 pages), and one class presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1117 - 21ST CENTURY PUBLIC ARGUMENT

Minimum Credits: 3
Maximum Credits: 3
The course examines selected moments in American public rhetoric in the 21st century by examining artifacts, speakers and social movements that characterize the U.S. During this period.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1118 - PRESIDENTIAL RHETORIC 1

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the rhetorical analysis of presidential addresses as well the communication styles and methods of U.S. Presidents from George Washington through and including Harry Truman. It is important to understand that while the primary focus of the course is on the analysis of political communication style of the presidents, in order to be able to analyze and evaluate the complex nature of both style and content of the addresses and comments, it is necessary to have an awareness of the background, history and events of the day as each may have impacted and/or precipitated the addresses /comments. Thus, an overview of those critical areas as well as basic communication theory and audience analysis will be an integral part of the course. Course components will include two written projects `speech analyses, one of which will serve as the basis for an individual oral presentation; one group project, a midterm and a final exam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1119 - PRESIDENTIAL RHETORIC 2

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the rhetorical analysis of presidential addresses as well the communication styles and methods of U.S. Presidents from Dwight Eisenhower through and including George W. Bush it is important to understand that while the primary focus of the course is on the analysis of the political communication style of the presidents, in order to be able to analyze and evaluate the complex nature of both style and content of the addresses and comments, it is necessary to have an awareness of the background, history and events of the day as each may have impacted and/or precipitated the addresses/comments. Thus, an overview of those critical areas as well as basic communication theory and audience analysis will be an integral part of the course. Course components will include two written projects, speech analyses, one of which will serve as the basis for an individual oral presentation; one group project, a midterm and a final exam.
Academic Career: UGRD

Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1120 - RHETORIC OF COLD WAR

Minimum Credits: 3
Maximum Credits: 3
Course examines selected moments in rhetorical aspects of the cold war with a focus on language, perceptions, arguments and the formation of public policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0320 or 0081 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1121 - HISTORY OF MASS MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course provides an in-depth historical examination of U.S. Media (newspapers, magazines, radio, television and/or advertising). Emphasis is placed on the media's technological, political and cultural impact. Topics may vary depending on the particular historical period to be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1122 - MEDIA CRITICISM

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to major trends in media criticism (e.G., Psychoanalysis, genre analysis, feminist theory, and cultural studies). Course readings and discussions will focus primarily on television texts.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1123 - RHETORICAL CRITICISM

Minimum Credits: 3
Maximum Credits: 3
The course on rhetorical criticism focuses on the history, methods, and practice of rhetorical criticism in American universities during the twentieth century. The course has been designed to help the student become acquainted with contemporary methods of rhetorical criticism through a combination of lectures, discussions, and practical applications. In addition, the course has been designed to help the student improve his or her writing abilities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0520 or 0052 or 0081 or COMM 0104) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1125 - MEDIA THEORY

Minimum Credits: 3
Maximum Credits: 3
This course examines the major theoretical approaches in contemporary media studies. Emphasis is placed on understanding the basic tenets of these theoretical models and how they are applied in analyses of media texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1126 - MEDIA AND CONSUMER CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course will examine consumer culture in the twentieth and twenty-first century us. It examines advertising, the rise of the brand, and their roles in the commercialization of mass media. Of particular importance will be the role that race, class, and gender have played in shaping consumer culture (and vice versa), as well as the significance of the shift from a society based on an understanding of citizens based on democratic practices to one based on consumerist practices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1142 - THEORIES OF MODERN RHETORIC

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to examine modern theoretical orientation in rhetorical studies. Each orientation will be approached in terms of a) the assumptions it makes about speakers/writers, speeches/texts, and listeners/readers; b) the issues it raises about the production and critique of discourse; c) the larger cultural context within which it was articulated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1143 - KNOWLEDGE, POWER, & DESIRE

Minimum Credits: 3
Maximum Credits: 3
This course examines issues of power, desire and knowledge in the work of Michel Foucault, and contrasts them with ideas of knowledge production in contemporary Anglo-American philosophy of science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1145 - THE HISTORY OF RHETORIC

Minimum Credits: 3
Maximum Credits: 3
This course surveys the 2500 year history of rhetoric, beginning with the Greek sophists and ending with contemporary post-structuralist theorists. Four main problems tradition ally associated with the ambiguous role of rhetoric in Western culture are highlighted in the course. Two of these are practical (the problem of voice and the problem of the public sphere), and two theoretical (the problem of epistemic and the problem of moral education).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1147 - THE RHETORIC OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
The course examines how scientists persuade and dissuade each other and broader publics in the creation and dissemination of knowledge. It addresses such topics as: rhetoric and the production of scientific findings, communication of scientific knowledge to various publics, persuasive influences on funding decisions, how the public might better understand or influence scientific processes, and the intersection of science and public policy. These will be studied in the context of major science-related controversies of the recent past.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1148 - RHETORIC AND HUMAN RIGHTS

Minimum Credits: 3
Maximum Credits: 3
This course focuses upon discourse about human rights--both the affirmation and the denial of human rights. The course also examines the practice of rhetorical criticism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1149 - ENVIRONMENTAL RHETORIC

Minimum Credits: 3
Maximum Credits: 3
The primary purpose of this course is to introduce upper division undergraduates to some of the most important rhetorical resources utilized by various participants in contemporary American environmental controversies. The first unit of the course is devoted to various historical and contemporary cross-cultural conceptions of the natural world and the place of humans within what to those in our culture is called the natural 'environment.' In this unit we compare briefly European, Asian and native-American conceptions and the various rhetorics used in each in the attempt to persuade those with differing views. The second unit quickly reviews the development of American environmental rhetorics from the early European settlement of the new world, through the colonial period, the early national era and into the late 19th century, by which time many of the signal concepts and rhetorical resources which continue to inform 21st century American discourse on wildness, nature, environment and ecology were first elaborated. Unit three examines some of the most significant and contention environmental disputes of the 20th century; including wilderness preservation, the human causes of the great 'dust bowl' devastation of farmland in the 1930s, the sudden relevance of the old science of 'ecology,' the huge influence of Rachel Carson's rhetorical masterpiece, silent spring, exposing the dangers of wide scale use of the pesticide DDT, and the growth of new movements against nuclear, chemical, and biological contamination as well as air, water, oceanic, solid waste, and many other forms of pollution, including even the at first ridiculed dangers of noise and light pollution.. Unit four then looks at the environmental movement as it becomes truly global, beginning symbolically with the first 'earth day' activities, protests and teach-ins in 1970, which have continued annually to this day. Unit five will look at the acrimonious 1980s dispute between the new 'deep ecology' movement and the more mainstream environmental lobbying organizations ' like the sierra club, the nature conservancy etc. ' Which focus primarily on lobbying congress for environmental reforms, rather than advocating a complete revolution in the way each individual human lives. Unit six will then treat some of the many enormous new environmental challenges of the 21st century, from still unrestrained global warming, to ozone depletion, to the depletion of fish stocks, to deforestation and desertification, to increasing human population, to widespread species extinctions, to the depletion of natural resources, from oil, to arable land, and even potable water, and so forth. Students should leave the course with a rigorous understanding of where contemporary environmental rhetorical resources come from and how they continue to operate in all manner of contemporary environmental and ecological controversies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1150 - SURVEY OF BRITISH BROADCASTING

Minimum Credits: 3
Maximum Credits: 3
To survey the history and development of the British Broadcasting system. The philosophy behind government intentions will be examined, as will technical progress and finance. The regulatory framework will be considered and the impact of the system on British Society assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

COMMRC 1151 - BRITISH BROADCASTING TODAY

Minimum Credits: 3
Maximum Credits: 3
To examine the variety and range of programme genres broad cast on British TV and radio. Reference will be made to the philosophy and industry structures which nurture them. New developments in technology, regulation and international markets will be considered as will scheduling issues. The cultural underpinnings of the system will be analyzed and internal industry and political debates will be addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

COMMRC 1156 - ETHICS AND MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course will address the principal ethical issues facing print and broadcast journalism. It will consider the practical dilemmas reporters and editors have to deal with and relate them to a moral framework. The focus will be on the real time arguments that arise almost daily in media coverage of matters of public controversy - crime, war, privacy and the like. The course objectives are to learn how to evaluate the performance of the media and to help students develop their own ethical philosophy. Problems of regulation and codes of practice will also be examined. Students will be able to take advantage of London's global importance as a media hub and the distinctive media culture of the UK through a program of case studies, visits and guest lectures by practitioners.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

COMMRC 1160 - VISUAL RHETORIC

Minimum Credits: 3
Maximum Credits: 3
This course centers on research concerning visual rhetoric. It will concentrate primarily on a range of interpretive and critical approaches for studying instances of visual communication. Students will write three papers demonstrating their ability to analyze and interpret visual texts. The method of instruction includes lecture, discussion, film and practice workshops. Considerations of gender, sex, race, sexuality, and class will be interwoven throughout the course materials and discussions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)] and (COMMRC 0310 or 0081)

COMMRC 1161 - COMMUNICATION ETHICS

Minimum Credits: 3
Maximum Credits: 3
Contemporary society offers a wide variety of topics for ethical consideration: deception, lying, fidelity in relationships, hate speech, harassment, privacy, intellectual property, pornography and many others. This class examines the ethical dimensions of communication through the prism of case studies. Students are introduced to traditional forms of ethical reasoning as well as emerging concerns raised by the internet and digital media. One major question that the course addresses is the following: do the internet and new information technologies represent qualitatively new ethical challenges or are these versions of traditional ethical dilemmas? The bulk of class time uses discussion and case studies to emphasize the practice of ethical deliberation and the ability to reason about ethical issues and problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1170 - CROSS CULTURAL COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
This course will increase the understanding of basic concepts and principles regarding communication between people from different racial, ethnic, and cultural backgrounds within Australia, including aboriginal, and immigrant populations. The course will use theory and research in the area of intercultural communication, and will help you develop this knowledge in understanding and improving human interaction in both the study abroad environment and international contexts. It will develop effective intercultural communication skills for learning abroad in Australia, and focus on a study of the social, structural and historical dimensions of relations between and among racial, ethnic and gender groups in contemporary Australian society. This course is designed to increase student's awareness and appreciation for the complexity of intercultural communication skills in everyday

situations. It offers a critical perspective on current theory and research in intercultural communication. The primary objective of the course is to develop cultural relativist attitude.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

COMMRC 1175 - COMMUNICTN & GLBL COMPETENCE

Minimum Credits: 3
Maximum Credits: 3
With the rise of global mobility and communication, encountering people from a variety of cultures, and the need for effective communication, is commonplace. This course explores the interaction between culture and communication and introduces students to the knowledge and skills necessary to attain global competence. In addition, this course introduces the construct of global competence; creates the opportunity to analyze and evaluate how our own cultural identity influences communication with others; engages interaction with the host culture; and prepares the students with knowledge and skills to be effective and ethical intercultural communicators. This class is held in Dublin and will include lectures, class discussions, simulations, interactive examples, case studies, media presentations cultural encounters, and field experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

COMMRC 1520 - ADVANCED PUBLIC SPEAKING

Minimum Credits: 3
Maximum Credits: 3
This course teaches students advanced skills needed in the preparation, delivery, and evaluation of formal public address. Advanced public speaking extends what was learned in the introductory public speaking course by examining more advanced theories and strategies of public address, critically evaluating public discourse in a variety of settings and sharpening the extemporaneous delivery skills of the student.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

COMMRC 1710 - SENIOR THESIS IN COMMUNICATION

Minimum Credits: 3
Maximum Credits: 3
Research on a special project in rhetoric, communication, or media. The study will be embodied in a thesis supervised by the instructor and approved by additional departmental faculty.
Academic Career: UGRD
Course Component: Thesis Research
Grade Component: Satisfactory/No Credit

COMMRC 1730 - SPECIAL TOPICS IN COMMUNICTN

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in communication. Topics vary every semester.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0300 or 0030 or 0100 or 7300 or COMM 0101) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1731 - SPECIAL TOPICS IN RHETORIC

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in rhetoric. Topics vary every semester.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COMMRC 0310 or 0081) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1732 - SPECIAL TOPICS IN MASS COM

Minimum Credits: 3
Maximum Credits: 3
This course covers a specialized topic in mass communication. Topics vary every semester.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: (COMMRC 0320 or COMM 0102) and [ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102)]

COMMRC 1900 - COMMUNICATION INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Internships provide practical work experience related to the student's course of study.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

COMMRC 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Independent study is a program of academic reading and research taken under the direction of a faculty sponsor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

COMMRC 1904 - UNDERGRAD TEACHING EXPERIENCE

Minimum Credits: 1
Maximum Credits: 3
Provides an opportunity for qualified Undergraduate students, under the guidance of a classroom teacher, to have a first-hand experience with peer mentoring and classroom instruction as a UTA. Participation is by instructor invitation only.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

COMMRC 1905 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
A course for upper level students who have completed at least 45 credits (12 credits in COMMRC) who wish to conduct field research in communication. The course is an opportunity for students to create a semester-long self-designed project resulting in a body of advanced work. Regular progress reports and critiques are scheduled with the instructor individually.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

Computer Engineering

COE 0031 - LINEAR CIRCUITS AND SYSTEMS 1

Minimum Credits: 4
Maximum Credits: 4
The analysis of linear circuits. Electric variables and circuit elements; kirchoff's and ohm's law; mesh and node equations; thevenin and norton equivalent circuits; first and second-order circuits; time domain analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 00150 or 0230 or 0231 or 0235) and (PHYS 0152 or 0175 or 0202 or 0476); PROG: Swanson School of Engineering

COE 0041 - LINEAR CIRCUITS AND SYSTEMS 2

Minimum Credits: 3
Maximum Credits: 3
Sinusoidal steady-state analysis, network functions, real and reactive power, three-phase circuits, laplace transform method, two-port networks, and fourier series.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0031 or COE 0031; PROG: Swanson School of Engineering

COE 0132 - DIGITAL LOGIC

Minimum Credits: 3
Maximum Credits: 3
Introduction to digital systems, boolean algebra, minimization of logic functions, combinational and sequential circuit design.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 00150 or 0230 or 0231 or 0235) and (PHYS 0152 or 0175 or 0202 or 0476); PROG: Swanson School of Engineering

COE 0142 - COMPUTER ORGANIZATION

Minimum Credits: 3
Maximum Credits: 3
Digital computer data representation, instruction formats, control, memory and input-output units, microprocessors, minicomputers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0132 or COE 0132; PROG: Swanson School of Engineering

COE 0147 - COMPUTR ORGZTN & ASSMBLY LANG

Minimum Credits: 3
Maximum Credits: 3
This course provides a detailed introduction into the basics of computer design common to most computer architectures including topics of digital computer data representation, arithmetic and logic units, instruction formats, control, microprocessor architecture, and memory systems. This course includes a heavy focus on MIPS assembly language and its interaction with a RISC computer architecture. This course satisfies the prerequisite to CS 1541/COE 1541 computer architecture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: COE 0132 or ECE 0132; CREQ: COE 0445 or CS 0445; PROG: Swanson School of Engineering (UENGR)

COE 0401 - INTRMEDT PROGRMMING USING JAVA

Minimum Credits: 4
Maximum Credits: 4
This course is a rigorous introduction to the fundamental concepts and techniques of computer programming using the java programming language. This is a first course for students who intend to major in computer science or computer engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

COE 0441 - DISCRETE STRUCTURES FOR CS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to understand and use abstract discrete structures that are the backbones of computer science. In particular, this class is meant to introduce logic, proofs, sets, relations, functions, counting, and probability, with an emphasis on applications in computer science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0031; PROG: Swanson School of Engineering

COE 0445 - DATA STRUCTURES

Minimum Credits: 3
Maximum Credits: 3
This course emphasizes the study of the basic data structures of computer science (stacks, queues, trees, lists) and their implementations using the java language. Included in this study are programming techniques which use recursion, reference variables, and dynamic memory allocation. Students in this course are also introduced to various searching and sorting methods and are expected to develop an intuitive understanding of the complexity of these algorithms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: COE 0401 or CS 0401; PROG: Swanson School of Engineering

COE 0447 - COMPUTR ORGZTN & ASSMBLY LANG

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to study the components of computing systems common to most computer architectures. In particular, this class is meant to introduce data representation, types of processors, memory types, and hierarchy, and device drivers. The students will learn mips assembly language, the design of arithmetic and logic units, and basic designs for risc processors.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: COE 0445 or CS 0445; PROG: Swanson School of Engineering

COE 0449 - INTRO TO SYSTEMS SOFTWARE

Minimum Credits: 3
Maximum Credits: 3
This course covers topics related to the interface of hardware and software. It covers device interface and hardware synchronization at the loWest level of the operating system, the linkage of operating system services to application software, and the fundamental mechanisms for computer communications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0132 or ECE 0132) and (COE 0445 or CS 0445); CREQ: COE 0142 or 0147 or 0447 or ECE 0142 or CS 0447; PROG: Swanson School of Engineering

COE 0501 - DIGITAL SYSTEMS LABORATORY

Minimum Credits: 3
Maximum Credits: 3
This course and laboratory introduces students to the basic concepts of digital circuits, simulation and instrumentation, systems composed of discrete devices, logic gates, combinatorial and sequential circuits are designed, simulated, built and tested.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0031 or COE 0031) and (ECE 0132 or COE 0132); PROG: Swanson School of Engineering

COE 1150 - INTRO TO COMPUTER NETWORKS

Minimum Credits: 3
Maximum Credits: 3
The course will cover problem-solving on interconnected computers where the potential methods of interconnection are fundamental to the system design. Interconnection will include serial point-to-point and multiple access serial/parallel methods and protocols. There will be an emphasis on mathematical fundamentals related to networked systems. The student will learn the operation of IAN networks such as 10base2, 100baset, token ring, as well as USB and other standard protocols.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

COE 1160 - INTRO EMBEDDED SYSTEM DESIGN

Minimum Credits: 3
Maximum Credits: 3
Introduction to the concepts and techniques of embedded system design including requirements, specifications, design implementation and testing. The laboratory is centered around the Altera Excalibur system and the IOS core processor. Senior design course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

COE 1161 - EMBEDDED COMPUTER SYS DESIGN

Minimum Credits: 3
Maximum Credits: 3
Organized as a full term project carried out by student design groups. A complex embedded system will be designed, implemented and tested using Altera and other cad tools. Grade will be based on project reviews and the final project report. Proper design process will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

COE 1170 - SPECIAL TOPICS: COMPUTER

Minimum Credits: 3
Maximum Credits: 3
An undergraduate course dealing with special topics of current interest in computers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

COE 1180 - CMPTL MODLNG & SIMUL ENGNRS

Minimum Credits: 3
Maximum Credits: 3
In this course students will develop several software programs to model and simulate a range of different physical systems. The course will focus on building software simulations of systems in terms of underlying model objects, world representations, interactions between objects, and a variety of models for time. Some experience in C/C++ programming is assumed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: COE 0445 or CS 0445; PROG: Swanson School of Engineering (UENGR)

COE 1185 - COMPUTER SYSTEM INTERFACING

Minimum Credits: 4
Maximum Credits: 4
Course and lab on microprocessor systems with particular emphasis on interfacing. Course is centered around the 80x86 series of processors and will use the pc as example platforms for development and as system component. It's expected that the student will become familiar with 80x86 assembly language through homework and specific examples. Interface examples will include the processor/memory/i-o, serial, parallel and networks using standard hardware available for a pc platform. The course brings together the various concepts of development, software, hardware, and standards.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0142 or COE 0142 or CS 0447; PROG: Swanson School of Engineering

COE 1186 - SOFTWARE ENGINEERING

Minimum Credits: 4
Maximum Credits: 4
This course and laboratory introduces classical and object-oriented software engineering. Software requirements, specification, object-oriented analysis, design, implementation, integration, and maintenance are covered. Each of these phases is examined on a practical level through a semester long, formal design project that involves the creation of a java-based internet application. Additional java-related topics are taught, including java applets, custom networking, remote database access, SQL, and multimedia extensions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0142) or (COE 0142 or 0147 or 0447) or (CS 0447) and (COE 0401 or CS 0401); PROG: Undergraduate Swanson School of Engineering

COE 1192 - INTRODUCTION TO VLSI DESIGN

Minimum Credits: 4
Maximum Credits: 4
Introduction to the concepts and techniques of modern integrated circuit design. Use of Computer Aided Design (CAD) tools for circuit design and simulation. Senior design course. Includes a laboratory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0142 or (COE 0142 or 0447) or CS 0447; PROG: Swanson School of Engineering

COE 1193 - ADVANCED VLSI DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course is organized as a full semester project in conjunction with a small amount of lecture material on advanced CMOS digital design techniques, as well as the group design process itself. Students form groups of 3 to 5 per group that design and implement different VLSI projects which are then fabricated by MOSIS and returned for testing. Focus is on teamwork with frequent oral/written reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

COE 1501 - ALGORITHM IMPLEMENTATION

Minimum Credits: 3
Maximum Credits: 3
This course covers a broad range of the most commonly used algorithms: some examples include algorithms for sorting, searching, encryption, graph searching, pattern matching, geometric intersection, compression, and local search. The students will implement and test several algorithms. The course is programming-intensive.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0132 or ECE 0132) and (COE 0445 or CS 0445); PROG: Swanson School of Engineering

COE 1502 - ADV DIGITAL DESIGN CONCEPTS

Minimum Credits: 3
Maximum Credits: 3
This course and laboratory builds on the student's knowledge of digital design, computer architecture principles, and assembly language. It covers both theoretical and practical considerations in the design of modern computing systems using computer aided design tools and programmable logic devices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: COE 0501 or ECE 0501; CREQ: COE 1541 or CS 1541; PROG: Swanson School of Engineering

COE 1503 - ADVANCED CMP ARCH DESIGN LAB

Minimum Credits: 3
Maximum Credits: 3
This course is the second semester in an undergraduate digital design sequence: COE 1502, COE 1503. The course is focused on design experiences coupled to advanced topics in computer architecture and systems design. The goal of the course is to reinforce and extend concepts learned in COE 1541 (computer architecture) and COE 0449 (systems software) in the context of techniques such as hardware/software co-design, test and verification, and timing analysis. It is intended to be an advanced design elective in the undergraduate COE curriculum and will also be an elective for EE and CS undergraduates with an interest in hardware and system design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: COE 1502

COE 1520 - PRGMG LANG FOR WEB APPLCTNS

Minimum Credits: 3
Maximum Credits: 3
Various programming paradigms will be studied using java and scripting languages. The use of java in programming web based applications, network applications, and the use of the extensive java libraries will be studied. The programming paradigm of building software by gluing components will be explored through the use of scripting languages such as PERL and JavaScript. Applications include developing guis and internet programming.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: COE 0445 or CS 0445; PROG: Swanson School of Engineering

COE 1530 - SOFTWARE ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide a general survey of software engineering. Some of the topics covered include: project planning and management, design techniques, verification and validation, and software maintenance. Particular emphasis is on a group project in which a group of students implement a system from its specification.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: COE 0445 or CS 0445; PROG: Swanson School of Engineering

COE 1541 - INTRO TO COMPUTER ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
Examination of computer architecture and hardware system organization. Topics include: CPU organization, sequential and microprogrammed control, instruction set implementation, memory organizations, input/output structure, peripherals and computer communications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0142 or 0147 or 0447 or ECE 0142 or CS 0447) and (COE 0445 or CS 0445) and (COE 0449 or CS 0449); PROG: Undergraduate Swanson School of Engineering

COE 1550 - INTRO TO OPERATING SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
An introduction to basic concepts of operating systems common to most computer systems, which interfaces the machine with upper-level programs. This course will introduce processes as processing unit, process management, concurrency, communication, memory management and protection,

and file systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0142 or 0147 or 0447 or ECE 0142 or CS 0447) and (COE 0449 or CS 0449); PROG: Undergraduate Swanson School of Engineering

COE 1622 - INTRO TO COMPILER DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the basic concepts of compiler design and implementation. Topics include lexical analysis, various types of parsers, intermediate and object code generation and code optimization. The material will be presented from an implementation point of view rather than a formal approach. The impact of language design on compilers will also be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0142 or ECE 0142 or COE 0447 or CS 0447 or COE 0147) and (COE 0445 or CS 0445); PROG: Swanson School of Engineering

COE 1631 - SOFTWARE DESIGN METHODOLOGY

Minimum Credits: 3
Maximum Credits: 3
Construction of large computerized systems proceeds through the stages of requirements analysis, specification, and implementation. This course deals with requirements analysis and specification, in particular, methodologies for improving the reliability of specifications (executable specifications and system phototypes).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (COE 0132 or ECE 0132) and (COE 0445 or CS 0445); PROG: Swanson School of Engineering

COE 1645 - INTRO HIGH PERF COMPTNG SYSTMS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the architecture of and software techniques for parallel and high performance computing systems. The content includes fundamental aspects of vector processing, shared-memory, and distributed-memory systems. Specific applications in parallel processing paradigms will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

COE 1651 - ADVANCED SYSTEMS SOFTWARE

Minimum Credits: 3
Maximum Credits: 3
To discuss in depth some advanced features of fundamental importance in the design of operating systems. The subjects discussed include interprocess communication, real-time scheduling, advanced file systems, security and protection mechanisms. The objective of the course is to provide an awareness of the known solutions to these problems and to the limitations of these solutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

COE 1885 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering that are not normally encountered in classes and school activities and include a wide range of topics such as the significance of engineering as a profession, ethical problems in engineering, and skills required for a successful engineering career.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

COE 1896 - SENIOR DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3

A full-term engineering project involving definition, literature search, prototype design, and construction, with written and oral reviews. Senior design course.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0041 or COE 0041) and (COE 0445 or CS 0445); PROG: Swanson School of Engineering

COE 1898 - ENGINEERING PROJECT
Minimum Credits: 1
Maximum Credits: 3
An investigation of an approved engineering subject under the supervision of a faculty monitor. Must be approved in advance by the faculty monitor and the department chair.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

Computer Science

CS 0002 - INTRO COMPUTR PROGRMG-FORTRAN
Minimum Credits: 3
Maximum Credits: 3
This introductory course is designed for students intending to major in an area other than computer science. Course objectives: problem analysis and the development of algorithms; designing, coding, and documenting programs using techniques of good programming style; learning the Fortran language; learning basic concepts of structured programming.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0003 - INTRO COMPUTER PROGRMMNG-COBOL
Minimum Credits: 3
Maximum Credits: 3
This is first course in computer science. It is designed especially for student majoring in an area of business or who are interested in business applications of computer science. Objectives of this course include problem analysis with special emphasis on data processing problems; learning the cobol language; designing, coding, and documenting programs using techniques of good programming style.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0004 - INTRO COMPUTER PROGRMMNG-BASIC
Minimum Credits: 3
Maximum Credits: 3
This is a first course in computer science. It is designed to be of special interest to students majoring in one of the social sciences or humanities. Objectives of this course include use of the computer in an interactive environment; problem analysis and the development of algorithms; learning the basic language; designing; coding; and documenting programs using techniques of good programming style.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CS 0007 - INTRO TO COMPUTER PROGRAMMING
Minimum Credits: 3
Maximum Credits: 3
This is a first course in computer science programming. It is recommended for those students intending to major in computer science who do not have the required background for cs 0401. It may also be of interest to students majoring in one of the social sciences or humanities. The focus of the course is on problem analysis and the development of algorithms and computer programs in a modern high-level language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CS 0008 - INT COMPUTER PRGMG WITH PYTHON
Minimum Credits: 3
Maximum Credits: 3
This is course is designed as a first course in computer science programming. It is recommended for those students majoring in one of the natural sciences, social sciences, or humanities who wish to learn the fundamentals of programming. It is also useful to students intending to major in computer science who do not have the required background for CS 0401. The focus of this course is on problem analysis, the development of

algorithms and computer programs in python. Instruction will be provided to students interested in taking CS 0401 in converting python programs to Java.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0009 - INTRO CMP PRGMG WITH PROCNG

Minimum Credits: 3
Maximum Credits: 3
This course is designed as a first course in programming with a strong emphasis on graphical output including animation in 2-D and 3-D, JPEG and video manipulation at the pixel array level, key and mouse event processing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0090 - SUSTAINABILITY AND COMPUTING

Minimum Credits: 3
Maximum Credits: 3
What is the environmental impact of websites such as Facebook or Amazon? How is society affected by throwing away old computers? The purpose of this course is to introduce the intersection of computers and society. Sustainability will be used as a concept to bridge the tradeoffs between technological and ecological forces. Topics include but are not limited to: energy production, e-books, telecommuting and e-waste. No computer programming or math background required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CS 0110 - INTRO PERSNL COMPUTR & INTRNET

Minimum Credits: 3
Maximum Credits: 3
This course will provide students without previous computer experience the knowledge and skills needed to use computers effectively. Emphasis will be placed on using software packages for word processing, spreadsheets, and databases and on using the internet.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CS 0121 - ADV COBOL WITH FILE PROCESSING

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate-level course in computer science for students wishing to satisfy a related area in computer science with emphasis on the business environment. Objectives of this course include an overview of cobol; programming using timesharing facilities and cobol DDT; advanced features of cobol including hashing, cobol library, sub programs, report writer, sorting (including binary), merging, and searching; file maintenance for sequential, random access, ISAM files, and magnetic tapes; project specification and analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0131 - SOFTWARE FOR PERSONAL COMPUTNG

Minimum Credits: 3
Maximum Credits: 3
An intermediate-level course in computer science for students majoring in areas other than computer science. Objectives include a non-technical study of the windows NT operating system; development of applications using software selected from the principal areas of applications for personal computing. These include word-processing (MS Word), spreadsheets (MS Excel), and relational databases (MS Access).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0132 - PRG IN C & GUIDE TO UNIX SYSTM

Minimum Credits: 3
Maximum Credits: 3
This intermediate level course is intended for students who wish to learn the c language and also to learn the use of the Unix operating system. Course objectives include: a) the study of the c language using IMB compatible pcs and/or Unix b) an introduction to data structures using c structures and pointers c) the use of library routines and file operations using the c language d) a user-oriented study of the Unix operating system, its file structure, and editors e) an introduction to shell programming and to the use of Unix utilities.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0002 or 0004 or 0007 or 0401 or 0015 or 0101 or 0402 or 0411

CS 0134 - WEB SITE DESIGN & DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course will provide a basic understanding of the methods and techniques of developing a simple to moderately complex web site. Using the current standard web page language, students will be instructed on creating and maintaining a simple web site. After the foundation language has been established, the aid of an internet editor will be introduced. A second web-based language will be included to further enhance the web sites.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CS 0155 - DATA WITCHCRAFT

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to data science, designed as a first course in computer science, for non-CS majors and CS minors within the honors college, aiming to introduce students to basic data management technologies and data analytics skills. The course will consist of about 1/3 of introduction to computer programming, 1/3 of introduction to data management technologies, and 1/3 of introduction to data analytics. The course will adopt the point of view of a user of data (e.g. who is just combining data and analyzing it using tools) and not a provider of data (e.g. who would be implementing a database-driven web site), as is typically the case for related courses for CS majors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 0301 - SCIENCE OF COMPUTER SCIENCE

Minimum Credits: 4
Maximum Credits: 4
This course is designed as an introduction to computer science as both a discipline and as a science. Fundamental concepts such as data representation, algorithms and problem solving, security and networking will be examined and experiments will be conducted to evaluate and compare various approaches and implementations. It is recommended for students who are interested in learning about computer science or about science and experimentation in general.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0031 or MATH 0032 or MATH 0200 or MATH 0220

CS 0334 - INTM WEB DESIGN & DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
The course will consist of advanced implementations of both markup as well as scripting languages. In addition, students will be introduced to a graphical interface application that will allow them to explore concepts of server side web development. A reflective programming language and database application will be used to introduce the server side web development concepts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CS 0007 or CS 0134 or CS 0401 or INFSCI 0017

CS 0401 - INTRMEDT PROGRMMING USING JAVA

Minimum Credits: 4
Maximum Credits: 4
This course is a rigorous introduction to the fundamental concepts and techniques of computer programming using the java programming language. This is a first course for students who intend to major in computer science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

CS 0441 - DISCRETE STRUCTURES FOR CS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to understand and use (abstract) discrete structures that are backbones of computer science. In particular, this class is meant to introduce logic, proofs, sets, relations, functions, counting, and probability, with an emphasis on applications in computer science.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: MATH 0220 or 0230 or 0235

CS 0445 - DATA STRUCTURES

Minimum Credits: 3
Maximum Credits: 3
This course emphasizes the study of the basic data structures of computer science (stacks, queues, trees, lists) and their implementations using the java language included in this study are programming techniques which use recursion, reference variables, and dynamic memory allocation. Students in this course are also introduced to various searching and sorting methods and also expected to develop an intuitive understanding of the complexity of these algorithms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0401 (MIN GRADE 'C')

CS 0447 - COMPUTR ORGZTN & ASSMBLY LANG

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to study the components of computing systems common to most computer architectures. In particular, this class is meant to introduce data representation, types of processors, memory types and hierarchy, and device drivers. The students will learn MIPS assembly language, the design of arithmetic and logic units, and basic designs for RISC processors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CS 0445

CS 0449 - INTRO TO SYSTEMS SOFTWARE

Minimum Credits: 3
Maximum Credits: 3
This course covers topics related to the interface of hardware and software. It covers device interfaces and hardware synchronization at the lowest level of the operating system, the linkage of operating system services to application software, and the fundamental mechanisms for computer communications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0445 or CS 0455 (Min Grade 'C'); CREQ: CS 0447 or CS 0456

CS 0590 - SOCL IMPLICATN CMPTNG TECHNLGY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0002 or CS 0003 or CS 0004 or CS 0007 or CS 0008 or 0015 or 0101 or CS 0401

CS 0699 - SPECIAL TOPICS IN COMP SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Various topics in computer science will be introduced and discussed. This course in not part of the computer science major.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0401 or COE 0401 or CS 0004 or CS 0007 or CS 0008

CS 1501 - ALGORITHM IMPLEMENTATION

Minimum Credits: 3
Maximum Credits: 3
The course covers a broad range of the most commonly used algorithms: some examples include algorithms for sorting, searching, encryption, compression, and local search. The students will implement and test several algorithms. The course is programming intensive.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS (0441 and 0445) or (0406 and 0455); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1502 - FORMAL METHODS IN COMPUTER SCI

Minimum Credits: 3
Maximum Credits: 3
The course is an introduction to the theory of information and computation as a physical phenomenon. The course covers standard formalizations of computational concepts and proofs of noteworthy implications of these formalizations. Typical topics include: finite automata, computability, reducibility, and complexity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [CS 0441 and (CS 0445 or COE 0445)] or (CS 0406 and 0455); (MIN GRADE 'C' FOR ALL COURSES LISTED); PROG: Arts and Sciences

CS 1510 - ALGORITHM DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will cover methods and strategies that are useful for the design of nonnumeric algorithms. Students are expected to design their own algorithms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(CS 1501 or COE 1501) and CS 1502] or (CS 0458 and CS 1710); MIN GRADE 'C' FOR ALL COURSES LISTED

CS 1511 - INTRO TO THEORY OF COMPUTATION

Minimum Credits: 3
Maximum Credits: 3
Understanding the theory of computation provides deeper in sights into various topics in computer science. This is an introductory level theory course. The aim of this course is to study the power (or lack of it) of various models of computation. Topics to be covered include: automata, formal languages, computability, and computational complexity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 1502 or 1710; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1515 - SCIENTIFIC COMPUTATION

Minimum Credits: 3
Maximum Credits: 3
Numerical methods used in scientific computation will be discussed, with particular reference to their data structuring and verification aspects. The methods will be selected from the following: solution of systems of linear equations, solution of non-linear equations, approximation, and solution of ordinary differential equations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 0445 or 0203 or 0455) and (MATH 0230 or 0150 or 0231)and (MATH 1180 or 0280 or 0150 or 0206 or 1316)

CS 1520 - PRGMG LANG FOR WEB APPLCTNS

Minimum Credits: 3
Maximum Credits: 3
Various programming paradigms will be studied using java and scripting languages. The use of java in programming web based applications, network applications, and the use of the extensive java libraries will be studied. The programming paradigm of building software by gluing components will be explored through the use of scripting languages such as perl and JavaScript. Applications include developing guis and internet programming.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0445 or COE 0445; (MIN GRADE 'C'); PROG: Dietrich Sch Arts and Sciences

CS 1530 - SOFTWARE ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide a general survey of software engineering. Some of the topics covered include: project planning and management, design techniques, verification and validation, and software maintenance. Particular emphasis is on a group project in which a group of students implement a system from its specification.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0445 or COE 0445; (MIN GRADE 'C'); PROG: Arts and Sciences

CS 1538 - INTRODUCTION TO SIMULATION

Minimum Credits: 3
Maximum Credits: 3
The course introduces students to the concepts, definitions, techniques applicable to the simulation of systems. Both continuous and discrete modeling are covered, with emphasis on the latter. The objective of this course is to familiarize the students with several modern discrete simulation languages, and their use in modeling. Topics include: systems characterization, classification, and modeling; pertinence of probability and statistics theory for stochastic processes and model measurement; discrete systems simulation viewpoints; software modeling techniques.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0447 and (STAT 1000 or 1100 or 1151 or MATH 1153)

CS 1541 - INTRO TO COMPUTER ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
Examination of computer architecture and hardware system organization. Topics include: CPU organization, sequential and microprogrammed control, instruction set implementation, memory organizations, input/output structure, peripherals and computer communications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 0447 or COE 0447) and (CS 0449 or COE 0449) ; (MIN GRADE 'C'); PROG: Arts and Sciences

CS 1550 - INTRO TO OPERATING SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
An introduction to basic concepts of operating systems, common to most computer systems, which interfaces the machine with upper-level programs. This course will introduce processes as processing unit, process management, concurrency, communication, memory management and protection, and file systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 0447 or COE 0447) and (CS 0449 or COE 0449) or (0456 and 1750); MIN GRADE 'C' FOR ALL COURSES LISTED; PROG: Dietrich Sch Arts and Sciences

CS 1555 - DATABASE MANAGEMENT SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to provide an in-depth knowledge of database systems design. Thus, the emphasis is on how to model ones own data and how to use available database management systems effectively. Towards this end, the relational and the object-relational models are discussed in great detail and object-oriented and other data models are also presented. Commercial database management systems are examined and students get practical experience through the use of such systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0441 and (CS 0445 or COE 0445) (Min Grade 'C' for all courses)

CS 1566 - INTRODUCTION COMPUTER GRAPHICS

Minimum Credits: 3
Maximum Credits: 3
This course offers an in-depth exploration of fundamental concepts in 2d and 3d computer graphics. The bulk of the course is devoted to 3d modeling, geometric transformations, and 3d viewing and rendering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 0447 or 0456); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1567 - PRGG SYS DSGN MOBL ROBOT PLTF

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to a variety of programming techniques and paradigms, for implementing medium- to large scale software systems. System integration is done on a mobile robot platform rather than a traditional desktop system. However, this is not a course in robotics. It is a course about building systems in a real-world environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS (0441 and 0445) or (0406 and 0455)

CS 1571 - INTRO TO ARTIFICL INTELLIGENCE

Minimum Credits: 3
Maximum Credits: 3
This course will provide an introduction to the fundamental concepts and techniques underlying the construction of intelligent computer systems. Topics covered in the course include: problem solving and search, logic and knowledge representation, planning, reasoning and decision-making in the presence of uncertainty, and machine learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 1501 or COE 1501) and CS 1502

CS 1573 - ARTFCL INTELGNC APPLCTN DEVELP

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the development of artificial intelligence applications. It will cover symbolic data structures, advanced control structures, and advanced prototyping and data exploration techniques. Multiple areas of artificial intelligence will be covered, such as machine learning, planning, knowledge representation and reasoning or natural language processing. Example application areas may include medical expert systems, web-page categorization and summarization, dialog-based tutoring systems, data mining and knowledge discovery.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 1501 or COE 1501) and (CS 1502); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1621 - STRUCTURE PROGRAMMING LANGS

Minimum Credits: 3
Maximum Credits: 3
An analytical examination of modern high-level programming language structures; including design specification and implementation. Advanced forms of data types, expressions, and control primitives. Relationship of storage management techniques and language design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS (0441 and 0445) or (0406 and 0455); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1622 - INTRO TO COMPILER DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the basic concepts of compiler design and implementation. Topics include lexical analysis, various types of parsers, intermediate and object code generation and code optimization. The material will be presented from an implementation point of view rather than a formal approach. The impact of language design on compilers will also be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0441 and (CS or COE 0447) or CS (0406 and 0456); (MIN GRADE 'C' FOR ALL COURSES LISTED); PROG: Arts and Sciences

CS 1630 - SOFTWR - SYS DESIGN MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
CS 1630 software-system design and management is a software engineering course with particular emphasis on project management, usability testing, customer interviewing, specification of formal requirements, and oral communication. In addition to the focus on a team programming project, we discuss, debate, and think about the team software design and development process. The students learn how to effectively communicate orally-from pitching ideas to project manager, to interviewing a customer, resolving conflict with another team member, giving feedback and presenting results.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CS 1501 and (CS 1520 or CS 1530 or CS 1550 or CS 1555 or CS 1566); PROG: School of Arts & Sciences (ARTSC); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1631 - SOFTWARE DESIGN METHODOLOGY

Minimum Credits: 3
Maximum Credits: 3
Construction of large computerized systems proceeds through the stages of requirements analysis, specification, and implementation. This course deals with requirements analysis and specification, in particular, methodologies for improving the reliability of specifications (executable specifications and system phototypes).

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0441 and (CS or COE 0445) or CS (0406 and 0455); (MIN GRADE 'C' FOR ALL COURSES LISTED); PROG: Arts and Sciences

CS 1632 - SOFTWARE QUALITY ASSURANCE

Minimum Credits: 3
Maximum Credits: 3
This course provides students with a broad understanding of modern software testing and quality assurance. Although it will cover testing theory, the emphasis is on providing practical skills in software testing currently used in industry. To that end, it will cover: manual and automated tests, test-driven and behavior-driven development, performance testing, and understanding and developing a testing process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0445 or COE 0445 or CS 0455; PROG: Dietrich Sch Arts and Sciences

CS 1635 - INTERFACE DESIGN METHODOLOGY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CS 0445 (MIN GRADE 'C'); PROG: School of Arts and Sciences

CS 1640 - BIOINFORMATICS SOFTWARE DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course will develop software for bioinformatic applications.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: CS 1501 or BIOSC 1540; PLAN: Bioinformatics

CS 1645 - INTRO HIGH PERF COMPTNG SYSTMS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the architecture of and software techniques for parallel and high performance computing systems. The content includes fundamental aspects of vector processing, shared-memory, and distributed-memory systems. Specific applications in parallel processing paradigms will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0447 and 0449 and 1501; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1651 - ADVANCED SYSTEMS SOFTWARE

Minimum Credits: 3
Maximum Credits: 3
To discuss in depth some advanced features of fundamental importance in the design of operating systems. The subjects discussed include interprocess communication, real-time scheduling, advanced file systems, security and protection mechanisms. The objective of the course is to provide an understanding of these advanced issues, as well as to bring awareness of the known solutions to these problems and to the limitations of these solutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 1550 or 1312 or 1792; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1652 - DATA COMMNCTN & COMPTR NTWRKS

Minimum Credits: 3
Maximum Credits: 3
This course will include basic principles and topics of computer communications. An overview of interfaces that interconnect hardware and software components, describing the procedures and rules involved in the communication process and the software which controls computers communication. Discussion on network architectures, design principles, basic protocol suites, and the concept of internetworking.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0447 and 0449; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1653 - APLD CRYPTOGRAPHY NETWRK SECU

Minimum Credits: 3
Maximum Credits: 3
This course will provide the necessary conceptual background and hands-on experience to understand the most common cryptographic algorithms and protocols and how to use them to secure computers networks and distributed applications. Topics include: cryptographic algorithms for data confidentiality, authentication, and integrity, user authentication methods (secure tokens and biometrics), internet security protocols, security in local area networks, firewalls, and intrusion detection systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (CS 0449 and CS 1501) or (0458 or 1750); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1655 - SECURE DATA MGT & WEB APPLCS

Minimum Credits: 3
Maximum Credits: 3
The main objectives for this course are: (1) to study in more depth query optimization and security, (2) to study advanced topics; data mining, information retrieval, and web data management, and (3) to expose students to advanced data and information management technologies, while gaining hands-on experience. These include mobile data management, continuous queries and their applications in areas such as biomedical informatics and e-commerce.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 0441 and (CS 0445 or COE 0445); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1666 - PRINS CMP GAME DSGN & IMPLM

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the fundamental technologies behind computer games as well as hands-on experience in the design and development of a computer game. Each student will create their own level that will become part of a common computer game environment for the course. This course will provide a rigorous introduction to the technologies used in the design and development of computer games such as advanced 3d graphics, quaternions, 3d physics engines, character animation, level design, terrain modeling, and ai path finding. Students will learn how to use the key state-of-the-art software tools for creating computer games.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CS 1566; (MIN GRADE 'C')

CS 1671 - HUMAN LANGUAGE TECHNOLOGIES

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the field of natural language processing (NLP) - the creation of computer programs that can understand, generate, and learn languages used by humans. It will expose students to real-world applications such as speech recognition, information retrieval, dialogue agents, question answering systems, and machine translations by means of computational techniques including search algorithms, dynamic programming, hidden Markov models, probabilistic context free grammars, and related machine learning algorithms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 1501 and CS 1502; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1675 - INTRO TO MACHINE LEARNING

Minimum Credits: 3
Maximum Credits: 3
This introductory machine learning course will give an overview of many models and algorithms used in modern machine learning, including linear models, multi-layer neural networks, support vector machines, density estimation methods, bayesian belief networks, clustering, ensemble methods, and reinforcement learning. The course will give the student the basic ideas and intuition behind these methods, as well as, a more formal understanding of how and why they work. Through homework assignments students will have an opportunity to experiment with many machine learning techniques and apply them to various real-world datasets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 1501 and (STAT 1000 or STAT 1100 or STAT 1151)

CS 1680 - TEAM PROJECT DESIGN & IMPLMNTN

Minimum Credits: 3
Maximum Credits: 3
Students will choose a project from proposals provided by our faculty and industry partners. Teams will consist of 3 or 4 students and they will be supervised by a project mentor. This course satisfies the capstone requirement.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CS 1501 and CS 1550; PROG: Dietrich Sch Arts and Sciences; (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1699 - SPEC TOPICS IN COMPUTR SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This is a special topics course that allows the computer science department to test run a course before deciding whether to permanently add it to our curriculum.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
This course places the student in an on-the-job" setting in which he/she receives practical experience in a supervised training environment."
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

CS 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This course is designed to give students the opportunity to design a plan of study to be agreed upon by the student and a supervising faculty member. This course does not satisfy the computer science capstone requirement.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

CS 1910 - SCIENTIFIC COMPUTR PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
A first computer science course for graduate students in fields other than computer science. This course emphasizes the development of models and the study of algorithms involving numerical and non-numerical applications. Applications will be implemented using the Fortran language. Some lectures will discuss techniques of simulation, statistics, and matrix manipulations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 1920 - CMPTR PROGRAMMNG-GRAD STUDENTS

Minimum Credits: 3
Maximum Credits: 3
A first computer science course for graduate students in fields other than the scientific areas of study. Emphasis will be on problem-solving methodology of numerical and non-numerical applications. Solutions will be implemented using the Fortran language. Students will be introduced to the features of a time-sharing computer system (VMS of Unix).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CS 1950 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 3
This course is designed to give students the opportunity to design a plan of study to be agreed upon by the student and a supervising faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

CS 1980 - TEAM PROJECT DESIGN & IMPLMNTN

Minimum Credits: 3
Maximum Credits: 3

Students will choose a project from proposals provided by our faculty and industry partners. Teams will consist of 3 or 4 students and they will be supervised by a project mentor. This course satisfies the capstone requirement.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: CS 1501 and CS 1550; PLAN: Computer Science (CS-BS); (MIN GRADE 'C' FOR ALL COURSES LISTED)

CS 1981 - PROJECT STUDIO
Minimum Credits: 3
Maximum Credits: 3
This course is designed as a practicum for computer science as both a way to build software of industrial strength and a way to interact with an industrial partner. Software engineering concepts (e.g. scrums, code-sharing repositories, testing, quality assurance, etc) will be used, while spending time on design, algorithms, security, reliability, and networking. Input data as well as metrics will be systematically examined, in order to compare implementations in a qualitative and quantitative way.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

Cross-Registration

CARLOW 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh Council of Higher Education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

CCAC 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate and graduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

CHATHM 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the ten participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

CMU 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate and graduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

DUQU 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate and graduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.

Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

LAROCH 0001 - CROSS-REGISTRATION
Minimum Credits: 0.5
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

PNTPRK 0001 - CROSS-REGISTRATION
Minimum Credits: 0
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

PTSEM 0001 - CROSS-REGISTRATION
Minimum Credits: 0
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the ten participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

RMC 0001 - CROSS-REGISTRATION
Minimum Credits: 0
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh council of higher education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the ten participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

STVC 0001 - CROSS-REGISTRATION
Minimum Credits: 0
Maximum Credits: 12
The purpose of cross-registration through the Pittsburgh Council of Higher Education (PCHE) is to provide opportunities for enriched educational programs by permitting undergraduate full-time students at any of the 10 participating colleges and universities to take courses at any other PCHE institution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

Dental

DENT 0002 - NURSING ANATMY & PHYSIOLOGY 1
Minimum Credits: 3
Maximum Credits: 3
The primary purpose of this course in anatomy and physiology is to provide a basic understanding of the structure and function of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0003 - NURSING ANATOMY & PHYSIOLOGY 2

Minimum Credits: 3
Maximum Credits: 3
The primary purpose of this course in anatomy and physiology is to provide a basic understanding of the structure and function of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0004 - HUMAN ANATOMY

Minimum Credits: 4
Maximum Credits: 4
The primary purpose of this course in human anatomy is to provide a basic understanding of the structure of the human body, with special emphasis on the bipedal locomotor apparatus - a mechanism that is unique to the human animal.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0005 - LABORATORY A

Minimum Credits: 0
Maximum Credits: 0
The primary purpose of this course is to deal with the laboratory aspects of the structure of the human anatomy.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

DENT 0007 - ANATOMY AND PHYSIOLOGY LAB

Minimum Credits: 1
Maximum Credits: 1
This course deals with the laboratory aspects of the gross anatomy of the human body, and an introduction to the physiology of the various systems that comprise its function.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

DENT 0010 - MECHANISMS OF DISEASE

Minimum Credits: 2
Maximum Credits: 2
This course will consider the causes of disease, both intrinsic - in alterations of physiological and cell biological characteristics - and extrinsic - in response to the effects of pathogens and other environmental agents.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0015 - PATHOPHYSIOLOGY (HRS)

Minimum Credits: 4
Maximum Credits: 4
This course will consider the causes of disease generally, as well as specific common diseases that occur in the various systems of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0020 - PATHOPHYSIOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course will consider the causes of disease generally, as well as specific common diseases that occur in the various systems of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0030 - HUMAN PHYSIOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course will consider the functional characteristics of the various systems of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0040 - PATHOPHYSIOLOGY
Minimum Credits: 4
Maximum Credits: 4
This course is designed to provide a general overview of the predisposing factors and direct causes of disease, as well as their effects on the human body. It will also include a systemic approach to the basic disease processes, in terms of etiology, symptomatology, general pathological changes, diagnostic procedures, and types of treatment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0050 - TOPIC: HUMAN GROSS ANATOMY
Minimum Credits: 2
Maximum Credits: 2
This course is designed to consider any one of a variety of anatomical areas of the human body in detail, considering it from a total body study.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

DENT 0100 - BIOLOGICAL SCIENCE 1
Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the first of 3 sequential courses in the biological sciences, each of which represents an interdepartmental integration of gross and neuroanatomy, histology and physiology. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs, and organ systems of the body. This course deals with the cell, epithelium, connective tissue, the skeletal system, myology, blood, the lymphatic system, neural histology, and introductory neural physiology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0110 - DENTAL ANATOMY 1
Minimum Credits: 2
Maximum Credits: 2
This course is designed to help students identify the normal structures within the oral cavity. The use of correct terminology is stressed in order to effectively communicate with members of the dental profession. The student will be able to differentiate normal formation of teeth from abnormalities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0130 - INTRODUCTION TO DENTISTRY
Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the activities of each dental specialty. Also, it may include oral anatomy, dental materials and dental charting. The lectures introduce the student to the content and scope of each specialty area; the services delivered with emphasis on dental hygiene interaction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0140 - SURVEY OF CHEMISTRY
Minimum Credits: 3
Maximum Credits: 3
This course covers selected topics of inorganic and organic chemistry. Basic terms, concepts, laws, and principles of chemistry will be defined and applied to develop an understanding of chemistry. Whenever possible examples are provided which are relevant to health related professions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0150 - DENTAL MATERIALS
Minimum Credits: 2
Maximum Credits: 2
This course introduces the dental assisting student to the field of dental materials. The methods of instruction include didactic and laboratory components. Lectures will cover basic properties of dental materials; gypsum products, waxes, rigid and elastic impression materials, and restorative materials. Laboratory sessions give each student practical experience in the proper manipulation of these materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0200 - CLINICAL ASSISTING 1
Minimum Credits: 5
Maximum Credits: 5
This clinical course provides the students with the opportunity to utilize their knowledge to begin to gain mastery of dental assisting clinical skills, patient management and team interaction. In order to develop proficiency in all specialties of dentistry, the students rotate through the various departments of the school of dental medicine as well as the Dental Departments of Children's Hospital, Montefiore Hospital and Westmoreland Hospital.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0210 - BIOLOGICAL SCIENCE 2
Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the second of three sequential courses in the biological sciences. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs, and organ systems of the body. This course deals with the gross anatomy, neuroanatomy, and physiology of the nervous system, including the eye and ear, the cardio vascular system, and the oral cavity with emphasis on the formation and structure of the teeth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0220 - PRACTICE MANAGEMENT
Minimum Credits: 2
Maximum Credits: 2
This course prepares the students for the administrative related duties often delegated to dental assistants. Through classwork, workbook assignments and homework, students will demonstrate telephone and secretarial communication skills, maintenance of recall and inventory systems, utilization of dental payment plans and accurate calculation of accounts receivable and accounts payable bookkeeping procedures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0230 - FIRST AID
Minimum Credits: 2
Maximum Credits: 2
This course uses a practical and didactic approach to teach the student to recognize, evaluate and manage medical emergencies. Although this is a basic first aid course, emphasis is placed on situations that the assistant is likely to encounter in the dental office. Topics covered include: patient assessment, CPR, medical and psychological emergencies, poisoning, environmental emergencies and child birth. Also, preventive medicine and how to access the emergency medical system are stressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0240 - EXPANDED DUTIES SEMINAR
Minimum Credits: 1
Maximum Credits: 1
This course covers theory and laboratory practice in restorative procedures, including placement and removal of rubber dams; placement and removal of matrices and wedges; application of bases, liners, and cements; cavity design; placement of temporary restorations; review of dental materials; mercury hygiene; placing, condensing, carving, finishing and polishing amalgam restorations; placing and finishing composite restorations; four-handed dentistry; and occlusion related to restorative dentistry.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

DENT 0340 - BIOLOGICAL SCIENCE 3
Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the third of 3 sequential courses in the biological sciences, each of which represents an interdepartmental integration of gross and neuroanatomy, histology, and physiology. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs, and organ systems of the body. This course deals with the gross anatomy, histology, and physiology of the respiratory, digestive, urinary, and endocrine systems. Wound healing is covered from a histological and physiological perspective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0400 - BASIC PSYCHOLOGY
Minimum Credits: 3
Maximum Credits: 3
Of the wide range of topics presented in the typical introductory psychology textbook, this course uses several which are most relevant to dental health care professionals. The intent is to help students understand their own behavior, that of patients whom they will serve, that of those with whom they work and finally, the interpersonal dynamics among these groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0410 - SPECIAL WORK
Minimum Credits: 1
Maximum Credits: 3
This is an independent study for dental assisting students wishing to pursue a special interest. Students will choose a topic of interest and with a faculty member will design and implement a project.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

DENT 0420 - COMMUNICATIONS
Minimum Credits: 3
Maximum Credits: 3
This course increases the students proficiency as a public organization, delivery and criticism of speeches.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0510 - DENTAL ANATOMY 2
Minimum Credits: 2
Maximum Credits: 2
This course covers a variety of topics ranging from the human primary dentition to the projections of development in future man"."
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0520 - INTRODUCTION TO DENTAL HYGIENE
Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce dental hygiene students to the techniques and information necessary for comprehensive patient care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0530 - INTRO DENTAL HYGIENE PRACTICUM
Minimum Credits: 2
Maximum Credits: 2
Dental hygiene practicum is established as the preclinical time for students to observe, discuss, and practice the skills required to perform the oral prophylaxis. Each student works and progresses at his/her own rate and must demonstrate consistent mastery of the skills taught.
Academic Career: UGRD
Course Component: Practicum
Grade Component: H/S/U Basis

DENT 0540 - ORAL HYGIENE SERVICE 1
Minimum Credits: 2
Maximum Credits: 2
This is the first of three sequential courses offered to oral hygiene students to develop proficiency in clinical assisting and expanded duties. This course supports the concept of dental auxiliary utilization and prepares versatile auxiliaries who are more valuable in a dental practice.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0550 - NUTRITION AND DIET
Minimum Credits: 1
Maximum Credits: 1
This course deals primarily with the physiologic role of the chemical substances supplied by dietary foods. It focuses on the pathology that may be

created if one fails to meet the body's normal daily requirement of dietary chemical substances by either supplying too much or too little, and the pathology that may be created if the normal physiologic role of these substances is impeded or impaired.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0560 - METHODS OF TEACHING

Minimum Credits: 2
Maximum Credits: 2
This course is an introduction to classroom teaching for the dental hygienist. It involves the acquisition of knowledge and skills for classroom instruction in dental health education. Emphasis is placed on preparation, implementation and evaluation of lesson plans and the design and selection of effective audio-visual aids.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0600 - CLINICAL ORAL HYGIENE 1

Minimum Credits: 4
Maximum Credits: 4
This course is scheduled as clinical sessions in which students utilize the skills necessary to perform an oral prophylaxis on individual patients, and to provide patient education.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0601 - CLINICAL DENTAL HYGIENE 1

Minimum Credits: 2
Maximum Credits: 2
This course is scheduled as clinical sessions in which students utilize the skills necessary to perform an oral prophylaxis on individual patients, and to provide patient education.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

DENT 0602 - DENTAL HYGIENE CLINIC 2

Minimum Credits: 3
Maximum Credits: 3
This course is scheduled as clinical sessions in which the students integrate and apply knowledge and concepts learned in previous courses to provide comprehensive dental hygiene care to individual patients.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

DENT 0603 - DENTAL HYGIENE CLINIC 3

Minimum Credits: 5
Maximum Credits: 5
This course is a continuation of scheduled clinical sessions in which the students integrate and apply knowledge and concepts learned in previous courses to provide comprehensive dental hygiene care to individual patients.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

DENT 0604 - DENTAL HYGIENE CLINIC 4

Minimum Credits: 6
Maximum Credits: 6
This course is a continuation of scheduled clinical sessions in which the students integrate and apply knowledge and concepts learned in previous courses to provide comprehensive dental hygiene care to individual patients.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

DENT 0610 - ORAL HYGIENE SERVICE 2

Minimum Credits: 2
Maximum Credits: 2
Students continue to develop proficiency in clinical dental assisting and expanded duties.
Academic Career: UGRD

Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0620 - PUBLIC HEALTH DENTISTRY

Minimum Credits: 4
Maximum Credits: 4
Public health dentistry is that portion of the dental hygiene curriculum which prepares students to promote oral health and prevent oral disease in the community through organized community based programs. It provides students with a broad understanding of the social, political, and economic forces directing the system. The approach taken within this course provides students with knowledge and skills necessary to meet specific dental health needs of community groups as distinct from the traditional clinical approach which is designed to meet the needs of individuals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0630 - TEACHING PRACTICUM

Minimum Credits: 2
Maximum Credits: 2
This is a student teaching course for oral hygiene students. The students prepare lesson plans and conduct classroom instruction sessions in dental health education for students from preschool through high school levels. Seminars are conducted to discuss outcomes and to assess progress of the students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

DENT 0700 - CLINICAL ORAL HYGIENE 2

Minimum Credits: 6
Maximum Credits: 6
Clinical oral hygiene 2 expands the clinical skills taught in clinical oral hygiene 1. It also prepares the students for the regional licensing examination and employment.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0710 - ORAL HYGIENE SERVICE 3

Minimum Credits: 2
Maximum Credits: 2
Students continue to develop proficiency in clinical dental assisting and expanded duties.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

DENT 0730 - APPLIED BEHAVIORAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course is an intensive introduction to the application of behavioral theory and behavioral intervention for dental hygienists. Topics include learning theory, assessment, respondent and operant behavior modification, theories of anxiety, stress, and fear, and behavior change strategies for these responses. Behavior management for children is also discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0760 - REVIEW OF DENTAL LITERATURE

Minimum Credits: 1
Maximum Credits: 1
This course is designed to make students aware of important aspects of research in the dental profession. Statistical principles necessary for reading and evaluating research articles will be closely examined. This course provides the knowledge and critical thinking skills necessary to analyze and evaluate research articles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0800 - SPECIAL WORK

Minimum Credits: 1
Maximum Credits: 3
This is an independent study for oral hygiene students wishing to pursue a special interest. Students will choose a topic of interest and with a faculty member will design and implement a project.

Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

DENT 0810 - DENTAL ANESTHESIOLOGY 1
Minimum Credits: 1
Maximum Credits: 1
This course provides an overview of the entire spectrum of current anesthetic techniques. General topics include the pain phenomena, preanesthetic patient evaluation, conscious sedation and general anesthesia. Greater emphasis is placed on the details of local anesthesia administration which are clinically relevant to the practicing dental hygienist. Specific topics include clinical anatomy of the trigeminal nerve, physiology of pain impulse conduction, pharmacology of local anesthetics and vasoconstrictors, armamentarium, and management of associated complications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 0820 - SOCIOLOGY
Minimum Credits: 3
Maximum Credits: 3
This course is a systematic introduction to the field of sociology. The course reviews various topics in sociology such as sociological methods, theory, culture, deviance, political institutions, population, and urbanization. In an attempt to stimulate discussion by students, additional readings are assigned. In order to give students a feeling for methodology and data review, students conduct a crime victimization study. The data is combined and presented to the students for review and discussion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 1022 - HUMAN ANATOMY
Minimum Credits: 4
Maximum Credits: 4
The primary purpose of this course in human anatomy is to provide a basic understanding of the structure of the human body, with special emphasis on the bipedal locomotor apparatus - a mechanism that is unique to the human animal.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENT 1917 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

DENT 1947 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
Directed study
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

Dental Hygiene

DENHYG 1000 - FULL-TIME DENTAL HYGIENE STUDY
Minimum Credits: 0
Maximum Credits: 0
Students who are working full-time for their dental hygiene certificate may register for this course.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: No Grade Required
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1017 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
This directed study is designed for the dental hygiene student who desires to pursue interests in specific area(s). The content of the course is specified by the student and approved by the course director and program director. The teaching format is designed to teach the student specific knowledge or

skills using enhanced faculty instruction and personal contact.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1047 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This directed study is designed for the dental hygiene student who desires to pursue interests in specific area(s). The content of the course is specified by the student and approved by the course director and program director. The teaching format is designed to teach the student specific knowledge or skills using enhanced faculty instruction and personal contact.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1077 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This directed study is designed for the dental hygiene student who desires to pursue interests in specific area(s). The content of the course is specified by the student and approved by the course director and program director. The teaching format is designed to teach the student specific knowledge or skills using enhanced faculty instruction and personal contact.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1110 - BIOLOGICAL SCIENCES 1

Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the first of 3 sequential courses in the biological sciences, each of which represents an interdepartmental integration of gross and neuroanatomy, histology and physiology. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs, and organ systems of the body. This course deals with the cell, epithelium, connective tissue, the skeletal system, myology, blood, the lymphatic system, neural histology, and introductory neural physiology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1112 - INTRODUCTION TO DENTAL HYGIENE

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce dental hygiene students to the techniques and information necessary for comprehensive patient care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1113 - INTRODUCTION TO DENTISTRY

Minimum Credits: 3
Maximum Credits: 3
This course provides an overview of the activities of each dental specialty; also, it may include oral anatomy, dental materials and dental charting. The lectures introduce the student to the content and scope of each specialty area; the services delivered with emphasis on dental hygiene interaction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1114 - DENTAL ANATOMY

Minimum Credits: 2
Maximum Credits: 2
This course is designed to help students identify the normal structures with the oral cavity. The use of correct terminology is stressed in order to effectively communicate with members of the dental profession. The student will be able to differentiate normal formation of teeth from abnormalities.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1116 - DENTAL HYGIENE PRECLINIC

Minimum Credits: 2
Maximum Credits: 2
Dental hygiene practicum is established as the preclinical time for students to observe, discuss, and practice the skills required to perform the oral prophylaxis. Each student works and progresses at his/her own rate and must demonstrate consistent mastery of the skills taught.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1117 - CHEM, BIOCHEMISTRY & NUTRITION

Minimum Credits: 5
Maximum Credits: 5
The course is designed to give the students the fundamental principles and concepts of chemistry, biochemistry and nutrition as they are related to physiological and pathological aspects of oral health and the practice of dental medicine. The course is not designed to make the student an expert in chemistry, biochemistry and nutrition but rather to provide the basic principles of these sciences which will enable the student to more effectively manage oral disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1241 - PRINCIPLES OF MICROBIOLOGY

Minimum Credits: 4
Maximum Credits: 4
An introductory course in microbiology for dental hygiene students with no previous background in microbiology. Major areas included are microorganisms, immune mechanisms of the host and the interaction of the host and the microorganisms in disease and homeostatis. Major emphasis is placed on diseases with oral manifestations and infection control in dental medicine. The laboratory component is devoted to microbiological methods, infection control and oral ecology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1242 - BIOLOGICAL SCIENCES 2

Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the second of three sequential courses in the biological sciences. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs, and organ systems of the body. This course deals with the gross anatomy, neuroanatomy and physiology of the nervous system, including the eye and ear, the cardiovascular system, and the oral cavity with emphasis on the formation and structure of the teeth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1244 - COMMUNICATIONS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to increase the student's proficiency as a public speaker, through learning organization of material, delivery and criticism of speeches.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1245 - DENTAL HYGIENE RADIOLOGY 1

Minimum Credits: 2
Maximum Credits: 2
This course provides the student with the theoretical knowledge required to achieve a working knowledge of the radiologic sciences as they apply to dental hygiene. Also included will be concepts of radiation safety and radiation biology. An introduction to normal radiographic anatomy and the radiographic aspects of dental pathology will be included.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1247 - DENTAL HYGIENE SEMINAR 1

Minimum Credits: 1
Maximum Credits: 1
This course is an extension of the introduction to dental hygiene course. The focus of this course is the special needs and medically compromised patient. It combines lectures, guest presentations and clinical experiences. The students will acquire greater understanding of the psychological and physiological needs of these patients and how to better meet those needs to provide the best patient care.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1248 - DENTAL MATERIALS

Minimum Credits: 2
Maximum Credits: 2
This course introduces the dental hygiene student to the field of dental materials. The methods of instruction include didactic and laboratory components. Lectures will cover basic properties of dental materials; gypsum products, waxes, rigid and elastic impression materials and restorative materials. Laboratory sessions give each student practical experience in the proper manipulation of these materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1249 - DENTAL HYGIENE CLINIC 1

Minimum Credits: 2
Maximum Credits: 2
This course is scheduled as clinical sessions in which students utilize the skills necessary to perform an oral prophylaxis on individual patients, and to provide patient education.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1370 - INTRO TO CLINICAL PERIODONTICS

Minimum Credits: 3
Maximum Credits: 3
This course concerns the healthy periodontium, changes with aging, and changes to disease. Classification of periodontal diseases, etiology, histopathology and prevention are discussed. This course teaches the student the role of the hygienist in clinical management, treatment and control of periodontal disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1372 - GENERAL AND ORAL PATHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course in general and oral pathology is designed to give the dental assistant and oral hygiene student as broad a background as possible in both general and systemic diseases, as well as special emphasis on the oral manifestations of these conditions. Additional emphasis is placed on those diseases which are specifically related to the Oro Dental complex. Primary emphasis is placed on the clinical and behavioral manifestations of disease as they relate to pathological processes. Moreover, the radiologic aspects of specific diseases are emphasized where appropriate.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1373 - BIOLOGICAL SCIENCES 3

Minimum Credits: 3
Maximum Credits: 3
This introductory level course is the third of three sequential courses in the biological sciences, each of which represents an interdepartmental integration of gross and neuroanatomy, histology, and physiology. Through lectures and assigned readings, students will gain insight into structure-function relationships of cells, tissues, organs and organ systems of the body. This course deals with the gross anatomy, histology, and physiology of

the respiratory, digestive, urinary, and endocrine systems. Wound healing is covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1375 - ANESTHESIA FOR DENT HYGIENISTS

Minimum Credits: 2
Maximum Credits: 2
This course introduces the student to the entire spectrum of pain and anxiety control techniques currently in use in dentistry. Emphasis is placed on the basic physiology of the pain phenomena and the relevant clinical pharmacology of local anesthetics. The general topic of preoperative patient assessment is integrated with a practical and systematic approach to the recognition, management, and prevention of specific medical emergencies that may occur in a dental office.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1376 - DENTAL HYGIENE RADIOLOGY 2

Minimum Credits: 1
Maximum Credits: 1
This course is designed to increase the radiographic interpretation skills of the second year dental hygiene student through the use of critical thinking exercises and an in depth exposure to radiographs illustrating caries, periodontal diseases, trauma and pulpal involvement. Radiographic case formatted questions and exercises will be reviewed to enable students to correlate the pathology content of the curriculum as well as the interpretation of normal and ab normal oral structures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1377 - DENTAL HYGIENE SEMINAR 2

Minimum Credits: 1
Maximum Credits: 1
This course is an extension of the introduction to dental hygiene course. The focus of this course is the special needs and medically compromised patient. It combines lectures, guest presentations and clinical experiences. The student will acquire greater understanding of the psychological and physiological needs of these patients and how to better meet those needs to provide the best patient care.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1379 - DENTAL HYGIENE CLINIC 2

Minimum Credits: 3
Maximum Credits: 3
This course is scheduled as clinical sessions in which the student integrates and applies knowledge and concepts learned in previous courses to provide comprehensive dental hygiene care to individual patients.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1411 - DENTAL PHARMACOLOGY

Minimum Credits: 2
Maximum Credits: 2
This course provides oral hygiene students with the opportunity to become familiar with pharmacotherapeutics as utilized by all health professionals. All drug groups are considered in order to familiarize students with the dental patient's therapeutic status. The therapeutics and adverse effects of the drugs are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1412 - PUBLIC HEALTH DENTISTRY

Minimum Credits: 3
Maximum Credits: 3
Public health dentistry is that portion of the dental hygiene curriculum which prepares students to promote oral health and prevent oral disease in the

community through organized community based programs. It provides students with a broad understanding of the social, political, and economic forces directing the system. The approach taken within this course provides students with knowledge and skills necessary to meet specific dental health needs of community groups as distinct from the traditional clinical approach which is designed to meet the needs of individuals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1417 - DENTAL HYGIENE SEMINAR 3

Minimum Credits: 1
Maximum Credits: 1
This course is designed to compliment the dental hygiene 3 clinical experience. Students will be exposed to various traditional and non-traditional dental therapeutic techniques including, but not limited to subgingival irrigation with antimicrobial agents, an update of new dental products and devices as well as the presentation of case studies for analyses. The goal of the course is to enhance the clinical and didactic skills of the dental hygienist.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1419 - DENTAL HYGIENE CLINIC 3

Minimum Credits: 4
Maximum Credits: 4
This course provides clinical sessions in which the student's integrate and apply knowledge and concepts learned in previous courses to provide comprehensive dental hygiene care to individual patients.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1420 - ETHICS HEALTH CRE PROFESSIONAL

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce health-care professionals to the principles of ethics. Various aspects of ethics will be discussed including the decision making process on which evaluation is based.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1421 - SPECIAL NEEDS DENTISTRY

Minimum Credits: 1
Maximum Credits: 1
The goals of this course are to introduce the dental/dental hygiene student to common developmental and acquired disabling conditions and issues related to the dental care of patients with special needs. The material presented will aid the student in assessing, planning, implementing and monitoring treatment for the patient with special needs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DENHYG 1422 - HLTH PROMOS THROUGH LIFE SPAN

Minimum Credits: 3
Maximum Credits: 3
This course will examine common health issues found throughout the human lifespan with the intention of exposing students to a holistic perspective of their clinical patient experience. Students will discover and discuss the perceptions and realities of issues such as emerging populations, age specific health issues that are influenced by environmental and social factors and their responsibility as an ethical clinician to promote health throughout the lifespan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Dental Hygiene (DENHYG-CR4)

DENHYG 1544 - INTRO TO RESEARCH ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to make students aware of important aspects of research in the dental profession. Statistical principles necessary for reading

and evaluating research articles will be closely examined. This course provides the knowledge and critical thinking skills necessary to analyze and evaluate research articles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1545 - DENTAL HLTH ED, METHODS & PRAC

Minimum Credits: 4
Maximum Credits: 4
This course is an introduction to classroom teaching for the dental hygienist. It involves the acquisition of knowledge and skills for classroom instruction in dental health education. Emphasis is placed on preparation, implementation and evaluation of lesson plans and the design and selection of effective audio-visual aids. It includes six weeks of dental health presentations in the community exhibiting the skills acquired the first half of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1547 - DENTAL HYGIENE SEMINAR 4

Minimum Credits: 1
Maximum Credits: 1
This course was designed to synthesize pertinent clinical and basic science information. In addition, students will be required to analyze and present a periodontal case study for peer review.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1549 - DENTAL HYGIENE CLINIC 4

Minimum Credits: 5
Maximum Credits: 5
This course was designed to facilitate the synthesis and application of information using a multidisciplinary approach for patient treatment. The clinical environment stimulates and prepares students for a private practice dental setting. All students are afforded the opportunity to participate in internal and external clinical rotations in the capacity of a dental auxiliary. Each student's clinical competency level is assessed and evaluated during all phases of patient treatment.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1682 - BASIC PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is an intensive introduction to the application of behavioral theory and intervention for health professionals. Topics include learning theory, assessment, respondent and operant behavior modification, theories of anxiety, stress, and fear, and behavior change strategies for these responses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1689 - ADV CLINCAL DENT HYGIENE PRACT

Minimum Credits: 2
Maximum Credits: 2
This course is designed to increase the proficiency and self-direction of the dental hygiene student. The assessment of patient's oral health status, planning and provision of preventive services and the identification of the need for referrals will be stressed. This will enable the student to develop fundamental skills which are necessary for various career options in the dental profession.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1901 - ALLIED HEALTH EDUCATION

Minimum Credits: 3
Maximum Credits: 3

His course provides the student with knowledge and experience in classroom and clinical dental education. Emphasis is placed on the development of objectives and instructional units, teaching methods, learner characteristics, learning styles and conditions, instructional resources, utilization of media, and the evaluation process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1902 - ALLD HEALTH EDUCATION PRACTCM

Minimum Credits: 3
Maximum Credits: 3
This course provides the student with practical experience in both the dental hygiene classroom and clinical settings.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1903 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their advisor to expand their knowledge and experience in the identified area of interest. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1904 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their advisor to expand their knowledge and experience in the identified area of interest. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1921 - HEALTH MANAGEMENT SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This seminar course is designed to provide the student with a broad based understanding of the health care delivery system. Emphasis will focus on leadership, management, quality assurance, development of dental health programs, and current health care delivery issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1922 - HEALTH MANAGEMENT PRACTICUM

Minimum Credits: 3
Maximum Credits: 3
This course provides the student through a variety of field experiences with the opportunity to apply the knowledge gained in the health management seminar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1923 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their advisor to expand their knowledge and experience in the identified area of interest. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: H/S/U Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1924 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their advisor to expand their knowledge and experience in the identified area of interest. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1945 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their advisor to expand their knowledge and experience in the identified area of interest. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

DENHYG 1947 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
This course allows the student in conjunction with their faculty advisor to expand their knowledge and experience in the area of dental hygiene education. Projects to be determined by the student and approved by the advisor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: School of Dental Medicine (Undergraduate)

Dental Microbiology

DSMIC 0010 - MICROBIOLOGY 1
Minimum Credits: 3
Maximum Credits: 3
This is an introductory course in microbiology designed for dental assisting students with no previous background in microbiology. Three major areas included are the microorganisms, the immune mechanisms of the host and the interaction of the host and the microorganisms in the disease process and in homeostasis. The lecture content emphasizes infection control in dental medicine and the microorganisms causing diseases with oral manifestations. The laboratory content is devoted to microbiological methods, sterilization, disinfection and oral ecology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSMIC 1010 - MICROBIOLOGY 2
Minimum Credits: 2
Maximum Credits: 2
This course is designed for oral hygiene students with a previous background in microbiology, and focuses on infectious diseases which have oral manifestations. As each infectious disease is considered, major emphasis is placed on recognition of oral manifestations and the use of universal infection control precautions to ensure maximum safety for the health care provider and the patient. Descriptions and demonstrations of microbiological exercises used in student teaching situations are presented at the conclusion of the infectious disease portion of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSMIC 1020 - PRINCIPLES OF MICROBIOLOGY
Minimum Credits: 4
Maximum Credits: 4
An introductory course in microbiology for dental hygiene students with no previous background in microbiology. Major areas included are microorganisms, immune mechanisms of the host and the interaction of the host and the microorganisms in disease and homeostasis. Major emphasis is placed on diseases with oral manifestations and infection control in dental medicine. The laboratory component is devoted to microbiological methods, infection control and oral ecology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

DSMIC 1025 - INTRODUCTION TO MICROBIOLOGY
Minimum Credits: 3
Maximum Credits: 3
An overview of medical microbiology introduces the student to medically important bacteria, fungi, viruses, parasites and to immunity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSMIC 1030 - PRIN BIOCHEMISTRY & NUTRITION
Minimum Credits: 4
Maximum Credits: 4
Biochemistry will discuss major types of small and macro molecules. Molecular conversions, biochemical concepts of activation, energy flow, reactions, enzymes and regulation will be discussed generally. These will be related to structures in man. Dietary and biochemical aspects of nutrition will be emphasized to give the student a fundamental appreciation of the science of nutrition. This course will provide the basic principles of good nutrition and how chronic and acute violations of these principles will contribute to the etiology and progression of oral disease.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSMIC 1130 - PHARMACEUTICAL MICROBIOLOGY
Minimum Credits: 5
Maximum Credits: 5
This course discusses the fundamentals of basic and medical microbiology, and presents laboratory exercises for pharmacy and other health science students who have not yet taken microbiology or biochemistry. The properties, metabolism, growth, genetics and classification of microorganisms are presented in the first 40% of the course. Epidemiology, mechanisms of pathogenicity, nonspecific and specific host immune responses, antimicrobial drugs and infectious diseases are presented in the latter part of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Dental Pharmacology

DSPHL 1010 - DENTAL PHARMACOLOGY
Minimum Credits: 2
Maximum Credits: 2
This course provides oral hygiene students with the opportunity to become familiar with pharmacotherapeutics as utilized by all health professionals. All drug groups are considered in order to familiarize students with the dental patient's therapeutic status. The therapeutics and adverse effects of the drugs are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSPHL 1110 - PHARMACODYNAMICS
Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the nursing student with a knowledge of drug effects in living systems. The pharmacokinetics, mechanisms of action, therapeutic indications and contraindications, side effects and signs of toxicity relevant to each major drug group are presented in a lecture format with references to the nursing process. The drug groups include antimicrobials, anti-inflammatory agents, and drugs acting on the central and autonomic nervous systems, cardiovascular, endocrine and anticancer drugs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSPHL 1120 - PHYSIOLOGY AND ANATOMY 1
Minimum Credits: 4
Maximum Credits: 4
This is part one of a two term course in human physiology for advanced undergraduate and graduate students. Structural anatomy is presented to serve as a basis for the elucidation of physiologic concepts. Material is organized by organ systems with an emphasis on disease states, clinical correlation and the effects of drugs on body function.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

DSPHL 1130 - PHYSIOLOGY AND ANATOMY 2
Minimum Credits: 4
Maximum Credits: 4

This is part two of a two term course in human physiology for advanced undergraduate and graduate students. Structural anatomy is presented to serve as a basis for the elucidation of physiologic concepts. Material is organized by organ systems with an emphasis on disease states, clinical correlation and the effects of drugs on body function.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

DSPHL 1140 - PHARMACOLOGY 1
Minimum Credits: 4
Maximum Credits: 4
The first course in a two term pharmacology sequence. Topics include: principles of drug action and drug disposition, the pharmacology of general anesthesia, autonomic pharmacology, drugs affecting central nervous system function, and endocrine pharmacology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

DSPHL 1150 - PHARMACOLOGY 2
Minimum Credits: 4
Maximum Credits: 4
The second course in a two term pharmacology sequence. Topics include: analgesics and anti-inflammatory drugs, cardiovascular, respiratory and renal pharmacology, chemotherapy and basic principles of toxicology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

East Asian Languages & Literatures

CHIN 0001 - FIRST YEAR CHINESE 1
Minimum Credits: 5
Maximum Credits: 5
This is the first term of first year chin language course intended for those who have no or little experience in this language. This course helps students to develop basic oral and written proficiency and understand the basics of chin language and culture. Students are expected to be able to converse in limited daily life situations and write short paragraphs on personal topics. Class activities will consist of pair work, group work, and presentations on the course materials and other level appropriate authentic materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0002 - FIRST YEAR CHINESE 2
Minimum Credits: 5
Maximum Credits: 5
This is the 2nd term of 1st year chin language course intended for those who have completed chin 1001/0001 or its equivalent. This course continues to help students to develop basic oral and written proficiency and understand the basics of chin language and culture. Students are expected to be able to converse in limited daily life situations and write short paragraphs on personal topics. Class activities consist of pair work, group work, and presentations on the course materials and other level appropriate authentic materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 0001 (MIN GRADE 'C-')

CHIN 0003 - SECOND YEAR CHINESE 1
Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in increasingly challenging situations, reading and understanding narrative and descriptive texts and the relevant cultural aspects, writing short narrative paragraphs with proper discourse connectors, and conversing on a wider range of personal topics with some sophistication. This course includes recognition and production of 350 characters presented in both traditional and simplified versions. Students should have control of a cumulative total of 1,000 characters by the end of the term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 0002 (MIN GRADE 'C-')

CHIN 0004 - SECOND YEAR CHINESE 2
Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in increasingly challenging situations, reading and

understanding a wider range of narrative and descriptive texts and the relevant cultural aspects, writing longer narrative and descriptive paragraphs with proper discourse connectors and idiomatic expressions, and conversing on personal topics with sophistication and some non-personal topics. This course includes recognition and production of 350 characters presented in both traditional and simplified versions. Students should have control of a cumulative total of 1,400 characters by the end of the term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 0003 (MIN GRADE 'C-')

CHIN 0007 - INTRO TO CHIN CIVLZ & CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course is an interdisciplinary introduction to Chinese society and culture from earliest times to the present. We will introduce the development of China in material terms as well as in terms of competing beliefs, and the relationship of these to social groups. The first part of the course explores ancient literature, philosophy, religion, art, architecture, customs, and other aspects of China's rich and diverse heritage. The second part will be devoted to china's transition to a modern society, covering such topics as social changes, urban life, popular culture, and the values and ideas that captivate contemporary Chinese people's attention. Cultural traditions of Hong Kong, Taiwan, and Tibet will also be employed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0011 - FIRST YEAR READING

Minimum Credits: 2
Maximum Credits: 2
This course is taught in conjunction with Chinese 0001, first year spoken and provides training in writing Chinese. The student is introduced to the Chinese script in both traditional and simplified forms of the characters as well as regular reading assignments which parallel the development of oral skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0012 - FIRST YEAR READING

Minimum Credits: 2
Maximum Credits: 2
The second term and a continuation of Chinese 0011, first year reading. This course is taught in conjunction with Chinese 0002, first year spoken. The student continues training in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0013 - SECOND YEAR READING

Minimum Credits: 2
Maximum Credits: 2
This course is taught in conjunction with Chinese 0003, second year spoken. The student further develops ability in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0014 - SECOND YEAR READING

Minimum Credits: 2
Maximum Credits: 2
The second term of second level reading and a continuation of Chinese 0013. This course is taught in conjunction with Chinese 0004, second year spoken. The student continues to develop skills in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0025 - BASIC CHINESE 1 SPEAKING

Minimum Credits: 3
Maximum Credits: 3
The general content includes: greetings, disengagement, name, nationality, weather, personal feelings, countries and places, relationships, titles, clock time, local identity, numbers, language abilities, characterizing behavior, giving and receiving compliments, the length of language study, and home location and distance. Students will be able to carry out simple conversations in Chinese on a limited range of topics, and at the same time to speak simple Chinese clearly, accurately, and proficiently.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0026 - BASIC CHINESE 2 SPEAKING

Minimum Credits: 3
Maximum Credits: 3
Continuation of chin 0025. Includes: personal information status of family members, experiences you have had, travel experience, habitual activities such as your daily and study routine, conversation management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0027 - BASIC CHINESE 3 SPEAKING

Minimum Credits: 3
Maximum Credits: 3
To enhance student's knowledge and ability to communicate in Chinese and to interpret and use the language in the appropriate cultural contexts. Includes: during and after the break, minor discomforts, weather comparisons, temperatures, religion, birthday, animal sign, family resemblances, comparisons of language difficulty, courses, credits, places, spaces, locations, interests, avocations, and sports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0028 - BASIC CHINESE 4 SPEAKING

Minimum Credits: 3
Maximum Credits: 3
Continuation of chin 0027. Includes: occupations, income and living expenses, personality characteristics, weather, restaurants, meals, progress in studying Chinese, summer plans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0060 - YIN & YANG: INTRO CHINESE CULT

Minimum Credits: 1
Maximum Credits: 1
Focus on theme of continuity and change. Begin with ancient archetypes of yin and yang and conclude with current religious phenomenon of Falun Gong. Sessions conducted by primary instructor and by distinguished experts on such topics as Chinese economy, history, family, politics, medicine, philosophy, religion, literature, and the arts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0070 - EXPLRNG CHINA ROOTS TO BLOOMS

Minimum Credits: 3
Maximum Credits: 3
Through the combination of text, videotapes, and live demonstration, students will explore the notions of Qi (vital energy), yin and yang, harmony between man and nature rooted in Chinese culture and their various expressions in the martial arts (Qi Qigong, Taiji) Feng Shui (geomancy) and the art and design of Chinese gardens. In addition, students will learn about Chinese written script and the spectacular landscape and religious landmarks in China's vast territory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0071 - THMS & TYPS MOD CHIN LIT & CUL

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0080 - CITY LIFE & EAST ASIAN CULTURE

Minimum Credits: 3
Maximum Credits: 3
This is a humanities based modular course designed as an introduction to important areas of East Asian civilization. The student will discover how literature, art and thought has flourished in the urban areas of china and Japan.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0081 - EAST ASIA IN THE WORLD

Minimum Credits: 3
Maximum Credits: 3
To enhance a greater understanding of East Asian cultures; to explore the interactions and relations between the peoples and cultures of East Asia (china and Japan) and the rest of the world, from ancient times to the present. Literary works, memoirs, autobiographies, diaries, historical records and films will be used. Themes involve such topics as the significance of travel in self-understanding, diaspora, immigration, and changing ideas of the homeland.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0082 - HONG KONG CINEMA

Minimum Credits: 3
Maximum Credits: 3
To expand student experience of Asian cinema in a global perspective. Examines one of the most exciting and prolific film industries in the world with a particular focus on the emergence of the studio system, film genres, and stars. Included topics: historical overview, impact of changing technologies, and events such as the Japanese occupation and the 1997 handover.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0084 - SELF PLACE COMMUNTY MDRN CHINA

Minimum Credits: 3
Maximum Credits: 3
Course focuses on china's epochal transition at the individual, the domestic and the societal levels. Through fiction, film, memoir and photo journalism, the course aims to initiate students into learning how the individual and society interact in their struggle to absorb West-inspired values and to revive and reinvent ethnic identity, social values and cultural dynamics in familial spaces and local communities. We will study film clips, digital slides and personal memoirs of a Mosuo village on Yunnan's Lugu Lake, Hokka people's earthen buildings in West Fujian and in South Taiwan, and urban communities in Shanghai and Hong Kong.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0085 - REVOL/INVLT/IDEN MOD CHIN CULT

Minimum Credits: 3
Maximum Credits: 3
This course provides an interdisciplinary introduction to Chinese society and culture from the turn of the 20th century to the present. Specifically, it focuses on the notions of revolution, involution, and identity reflected in literary and visual representations. Exploring the dynamic between change and continuity in modern Chinese history, it seeks to examine concepts such as empire, modernity, revolution, and nation, and investigate identity formations in national, ethnic, gender, and individual levels. It will cover such topics as social changes, historical consciousness, urban life, popular culture, and the values and ideas that captivate contemporary people's imagination. Cultural orientations of Hong Kong, Taiwan, and Tibet will also be explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CHIN 0090 - FIRST YEAR SPOKEN

Minimum Credits: 5
Maximum Credits: 5
This course is designed to provide the student with the basic language skills necessary in modern spoken Chinese language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0091 - FIRST YEAR READING/WRITING

Minimum Credits: 5
Maximum Credits: 5
This course provides training in reading and writing Chinese. Chinese script in both traditional and simplified forms of the characters is introduced to the student. Reading assignments parallel the development of oral skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0092 - SECOND YEAR SPOKEN
Minimum Credits: 5
Maximum Credits: 5
The student will further develop the basic language skills necessary in modern spoken Chinese language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0093 - SECOND YEAR READING/WRITING
Minimum Credits: 5
Maximum Credits: 5
The student further develops ability in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0099 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Student will study under guidance of a department faculty member on a topic not covered by regular coursework.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

CHIN 0125 - BASIC CHINESE 1 READING
Minimum Credits: 1
Maximum Credits: 1
Beginning writing and reading course intended to complement CHIN 0025 to which material is coordinated. Students wishing to acquire skills in speaking, listening, reading and writing should enroll in this course and CHIN 0025. Students who have a speaking ability but lack skills in reading and writing may take this course. Introduces students to the rudiments of reading and writing Chinese (in both simplified and traditional). Class activity will consist of comprehension questions, in-class guided reading of short texts, vocabulary and grammar. Reviews, integrative exercises. Character writing and practice is done outside of class as homework.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0126 - BASIC CHINESE 2 READING
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0127 - BASIC CHINESE 3 READING
Minimum Credits: 1
Maximum Credits: 1
2nd year of reading & writing course intended to complement chin 0127 basic chin 3 speaking. Material is coordinated with that in basic chin 3, thus students wishing to acquire skills in speak, listen, read & write should enroll in this course & CHIN 0027. Students who have a speaking ability & some elem. Read/write skills may take this course only. Class activities will consist of working on comprehension questions on the reading assignments, in class guided reading of short texts, vocab. And gram. Reviews, & integrative exercises. Character writing & practice is done outside of class as homework assignments using a workbook.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

CHIN 0128 - BASIC CHINESE 4 READING
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 0354 - CHINESE PERFORMANCE LITERATURE
Minimum Credits: 3
Maximum Credits: 3

Students will read Chinese opera scripts, texts of narrative songs, and texts of folksongs. All readings will be in English translations, except for advanced or native-speaker students who may read them in Chinese. Students will then view performances of some works. Through visits of invited performers, students will learn some basic performance techniques themselves. By reading, hearing, and viewing these works, students will gain a unique perspective on Chinese culture and society at both the elite and popular levels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1001 - FIRST YEAR CHINESE 1

Minimum Credits: 5
Maximum Credits: 5
This is the first term of first year chin language course intended for those who have no or little experience in this language. This course helps students to develop basic oral and written proficiency and understand the basics of chin language and culture. Students are expected to be able to converse in limited daily life situations and write short paragraphs on personal topics. Class activities will consist of pair work, group work, and presentations on the course materials and other level appropriate authentic materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1002 - FIRST YEAR CHINESE 2

Minimum Credits: 5
Maximum Credits: 5
This is the 2nd term of 1st year chin language course intended for those who have completed chin 1001/0001 or its equivalent. This course continues to help students to develop basic oral and written proficiency and understand the basics of chin language and culture. Students are expected to be able to converse in limited daily life situations and write short paragraphs on personal topics. Class activities consist of pair work, group work, and presentations on the course materials and other level appropriate authentic materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1003 - SECOND YEAR CHINESE 1

Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in increasingly challenging situations, reading and understanding narrative and descriptive texts and the relevant cultural aspects, writing short narrative paragraphs with proper discourse connectors, and conversing on a wider range of personal topics with some sophistication. This course includes recognition and production of 350 characters presented in both traditional and simplified versions. Students should have control of a cumulative total of 1,000 characters by the end of the term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1004 - SECOND YEAR CHINESE 2

Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in increasingly challenging situations, reading and understanding a wider range of narrative and descriptive texts and the relevant cultural aspects, writing longer narrative and descriptive paragraphs with proper discourse connectors and idiomatic expressions, and conversing on personal topics with sophistication and some non-personal topics. This course includes recognition and production of 350 characters presented in both traditional and simplified versions. Students should have control of a cumulative total of 1,400 characters by the end of the term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1005 - THIRD YEAR SPOKEN

Minimum Credits: 3
Maximum Credits: 3
This course, sequentially the third level in modern spoken Chinese, continues the development of spoken language skills. Linguistically, the course expands topically related lexical resources, enhances sophistication in syntactic manipulation and incorporates allusive speech elements from classical literary sources. Sociolinguistically, it aims at a closer appreciation of normative chinese behavior.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1006 - THIRD YEAR SPOKEN

Minimum Credits: 3
Maximum Credits: 3

The second term of third level modern spoken chinese. This course continues the development of spoken language skills begun in chinese 1005.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1011 - FIRST YEAR READING

Minimum Credits: 2
Maximum Credits: 2
This course is taught in conjunction with chinese 1001, first year spoken, and provides training in reading and writing chinese. The student is introduced to the chinese script in both traditional and simplified forms of the characters. Regular reading assignments parallel the development of oral skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1012 - FIRST YEAR READING

Minimum Credits: 2
Maximum Credits: 2
The second term and a continuation of Chinese 1011, first year reading, this course is taught in conjunction with Chinese 1002, first year spoken. The student continues training in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1013 - SECOND YEAR READING

Minimum Credits: 2
Maximum Credits: 2
This course is taught in conjunction with Chinese 1003, second year spoken. The student further develops ability in reading and writing Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1014 - SECOND YEAR READING

Minimum Credits: 2
Maximum Credits: 2
The second term of second level reading and a continuation of Chinese 1013, this course is taught in conjunction with Chinese 1004, second year spoken.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1020 - THIRD YEAR CHINESE 1

Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in challenging situations, reading and understanding original texts of different types, writing short essays on various topics with discourse connectors and idiomatic expressions, and conversing on both personal and non-personal topics with sophistication at discourse level. Students in this course should be aware of relevant Chinese traditions and perspectives and be able to make comparisons and connections with other cultures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 0004 (MIN GRADE 'C-')

CHIN 1021 - THIRD YEAR CHINESE 2

Minimum Credits: 5
Maximum Credits: 5
The course aims to enhance student's abilities for speaking accurately and appropriately in challenging situations, reading and understanding original texts of different types, writing short essays on various topics with discourse connectors and idiomatic expressions, and conversing on both personal and non-personal topics with sophistication at discourse level. CHIN 1025 - ASPECTS OF CHINESE LANG

Minimum Credits: 3
Maximum Credits: 3
Aspects of the Chinese language will offer a linguistic introduction to Chinese. No prior knowledge of linguistics is assumed although familiarity with linguistic analysis is a plus. The Chinese language is substantially different from English or other Indo-European languages. It is also distinct from some other East Asian languages. For instance, it has a logographic writing system and is a tonal language. Its word order is more flexible than English and is a topic-prominent language. It does not have rich grammatical inflections but has a limited number of aspectual markers. The course serves the following purposes: (1) introduce the basic facts of the Chinese language including its development, the phonology, morphology, the semantic and syntactic aspects of Mandarin Chinese, and the interactions of the language with Chinese culture and the society; (2) introduce elementary linguistic concepts relevant to chinese to enable students to use the right tool to describe and critically analyze the features of a language; (3) encourage students to reflect on their language learning experience or knowledge of other languages to conduct reasoning, such as analyzing the sources of difficulty in their studying of chinese; (4) to inspire interest in a range of topics including differences in modern and classical chinese, philosophical belief embodied in the language, chinese culture manifested in the language (such as the notion of politeness, face, etc.), and to lay a foundation for further studies in linguistics as well as in those relevant topics.
Academic Career: UGRD

Course Requirements: PREQ: CHIN 0002 (MIN GRADE 'B-')

CHIN 1030 - READINGS IN CONTEMPORARY LIT 1

Minimum Credits: 3
Maximum Credits: 3
A combined language and literature course designed to enable students to study and appreciate short writings by the leading authors of the twentieth century. The main objective of this course is to develop the student's ability to read any chosen material with the aid of a dictionary and to develop confidence to explore further readings on their own.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1031 - READINGS IN CONTEMPORARY LIT 2

Minimum Credits: 3
Maximum Credits: 3
A continuation of Chinese 1030, students will continue to study the leading authors of the twentieth century and to analyze the more difficult syntactic structures by correlating them with the corresponding basic patterns previously learned.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1033 - ADV SPKNG: TOPCS IN CUR EVENTS

Minimum Credits: 3
Maximum Credits: 3
To develop greater fluency, accuracy and confidence in spoken Chinese. Rhetorical and presentational skills will be introduced and reinforced. Students will narrate and describe an event/situation, maintain sustained discourses, provide structured arguments, develop hypotheses and explain as well as defend opinions. Through reading news articles on various subjects such as society, finance, politics, technology, sports and entertainment, students will gain deeper understanding of social, cultural, political and economic situations in Chinese speaking regions and will be able to conduct in-depth conversations with native speakers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 1020 (MIN GRADE 'C-')

CHIN 1040 - LITERARY CHINESE 1 CLASSICAL

Minimum Credits: 3
Maximum Credits: 3
This is a course in classical Chinese whose purpose is to acquaint the student with the language and syntax of classical Chinese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: CHIN 1020

CHIN 1041 - LITERARY CHINESE 2 CLASSICAL

Minimum Credits: 3
Maximum Credits: 3
A continuation of Chinese 1040, this course will further develop the student's knowledge of vocabulary and syntactical patterns of classical Chinese.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 1040

CHIN 1043 - HISTORCAL & PHILSOPHCAL TEXTS

Minimum Credits: 3
Maximum Credits: 3
A study of selected texts from such major works as the historical records, the Izu-Chih T'Ung-Chien, Motze, and Han-Fei-izu.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1047 - CHINESE AND WESTERN POETRY

Minimum Credits: 3
Maximum Credits: 3
A comparative study of Chinese and Western lyric poetry. This course explores the world of feeling as expressed in the poetry of two vastly different worlds; china and the West and focuses on the language of feeling in a poetic medium. The purpose of this course is to appreciate how differences between the two poetic traditions is essential to a better understanding of the two cultures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1050 - FOURTH YEAR CHINESE 1

Minimum Credits: 3
Maximum Credits: 3
This is an advanced language course which concentrates on reading current journalistic writings such as news reports, periodicals, articles and editorials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 1021 (MIN GRADE 'C-')

CHIN 1051 - FOURTH YEAR CHINESE 2

Minimum Credits: 3
Maximum Credits: 3
The second term of fourth year reading this course continues the student's advanced language study concentrating on reading journalistic writings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHIN 1050 (MIN GRADE 'C-')

CHIN 1059 - ADAPTD FOR SCRN: CHIN LIT &FLM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

CHIN 1065 - SOURCES ON EAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This course identifies and examines reference materials necessary for writing term papers or for conducting research projects on twentieth century china.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

CHIN 1071 - SAINTS EAST AND WEST

Minimum Credits: 3
Maximum Credits: 3
This course looks at examples of "sainthood" in four traditions; Confucianism, Buddhism, Islam, and roman Catholicism. The student will see "sainthood" as a concept that transcends Western religious tradition and how changes in dominant cultural values can change notions of who is and who is not a "saint".
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1072 - LAW AND LITERATURE IN CHINA

Minimum Credits: 3
Maximum Credits: 3
Course will study interaction of law and literature in late imperial and modern china, starting in the fifteenth century when Chinese law codes reached a stable maturity that would keep them relatively unchanged until the 20th century. Topics: relationship between law in the human realm and legal judgements meted out to the dead in the ten courts of hell; penalties of the ming and qing codes; fantastic tortures of fiction and drama; huge cultural efforts in establishing modern and civil codes; marriage laws in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1082 - 20TH CENTURY CHINESE ART

Minimum Credits: 3
Maximum Credits: 3
The 20th century in china was a period of tremendous change. Artists and the society in which they lived crashed into the modern world to struggle with the weight of tradition as well as the draw of the new. We will consider this period and artistic visions of it by looking at arts including printmaking, painting, film, installation and other synthetic and combined forms. All artistic production will be contextualized within the political and cultural history of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1083 - MASTERPC OF CHINESE LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course is devoted to the study of Chinese literature from ancient times to the end of the 19th century. Lectures and readings include prose (historical, philosophical and literary texts, legends and myths of the remote past, anecdotes, short stories and fantastic tales of ghosts and love) and poetry (from the book of songs to the poetry of the t'ang and sung periods).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1084 - MASTERPIECES OF CHIN LIT: MDRN

Minimum Credits: 3
Maximum Credits: 3
A critical analysis of some of the most representative literary works in modern china from a literary and socio-political perspective. Film is used as a means of enhancing the student's appreciation of the works under consideration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1085 - INTRO TO EAST ASIAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course investigates the ways in which film addresses and treats the major socio-cultural issues in modern society through a critical study of the works of Chinese and Japanese master filmmakers. The course focuses on changes in marriage and family patterns, women's roles and the plight of youth.
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis

CHIN 1086 - LOVE IN CHIN AND WESTERN LIT

Minimum Credits: 3
Maximum Credits: 3
The course will explore and compare expressions of love in Chinese and Western literature. The course will examine a succession of theories and ideas of love such as platonic, religious, courtly, romantic and post-romantic from the Western tradition; love in Confucianism, Monism, Taoism, and Buddhism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1087 - INTRO TO CHINESE NARRATIVE

Minimum Credits: 3
Maximum Credits: 3
The student is introduced to the major forms and important periods of Chinese narrative by reading and discussing a variety of Chinese narratives from the beginning of Chinese literature to the modern period. Texts include philosophical fables, historical records, mythical tales, stories of the

supernatural, vernacular stories and novels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1088 - NEW CHINESE CINEMA

Minimum Credits: 3
Maximum Credits: 3
Students will study Chinese films made by filmmakers of mainland China and Taiwan. They will learn about origins, development, themes, and styles with major directors and important films of new Chinese cinema being studied. Students will have an opportunity to understand contemporary Chinese culture and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1089 - THE WORLD OF CHINA

Minimum Credits: 3
Maximum Credits: 3
This course will survey the wax and wane of pop culture through disparate phases of social and political developments of modern china. The readings will introduce students to works of literature, art, and film to see how tradition and modernity, elite and mass cultures, East and West conflict and converge; how china absorbs, adapts as well as resists capitalistic modernity while embracing global market economy; how china grapples with urban alienation, social flux, moral laxity and other negative aspects of industrialization and urbanization. The course will make available to students a host of art images, dvd clips and e-texts to enhance and expand their perception of modern china.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1090 - GREAT MINDS OF CHINA

Minimum Credits: 3
Maximum Credits: 3
First segment on Confucianism, including the Analects and Menicus, will be studied with relevant commentaries, stressing implications for Chinese culture, especially in ethical and socio-political dimensions. Second segment on Taoism, lao Tzu and Chuang Tzu, will be studied with emphasis on impact on the arts and literature. Final segment on Buddhism will concentrate on representative sutras of the tradition, diamond sutra and texts from the Chan (Zen) master's.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1091 - ENCOUNTERING MODERN CHINA

Minimum Credits: 3
Maximum Credits: 3
Deals with chronological set of writings on china's burdened entry into modern era. Includes 6 segments covering major historical phases of china's modern era since 1840. Using a core of literary texts that reflect social progress amidst upheavals, readings also broaden the students' horizon by means of selected writings from history, anthropology, art, music, sociology, etc. Course provides students with wide spectrum of Chinese society transitioning thru dynastic changes, social upheavals, political traumas, open-door reforms up till present, reflecting the prospects and problems in its march to the modern. No previous knowledge of Chinese is necessary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

CHIN 1562 - CONFUCIANISM: BASIC TEXTS

Minimum Credits: 3
Maximum Credits: 3
The eighth through second centuries BCE were an era of extraordinary creativity worldwide (axial age). In china, the analects of Confucius, the Mencius, & the writings of Hsun Tzu & lao Tzu played the formative role that the Greek philo classics played in Western society. Over the next two millennia, these texts would play an influential role throughout East Asia. We will study a number of these texts in their entirety, supplementing them with relevant works of scholar ship. Also seek to understand the foundational role of these texts by analyzing their assumptions and strategies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Individual study under the guidance of a department faculty member. For the student whose topic is not covered by regular course work.
Academic Career: UGRD

Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

CHIN 1908 - DIRECTED WRITING FOR MAJORS

Minimum Credits: 1
Maximum Credits: 1
In addition to whatever written assignments are required of those enrolled in the course, this directed writing practicum provides students with an opportunity to contribute writing designed in terms of the intellectual strategies of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

CHIN 1999 - SENIOR PROJECT

Minimum Credits: 3
Maximum Credits: 3
As a summative project for all Chinese majors, the course provides students with guidelines to complete the senior project through integrating culture and language (speaking & writing), traditional & modern Chinese culture as well learning experiences acquired both at Pitt and abroad in china and /or Taiwan. They are to prepare proposals, formulate essay themes in both the English senior essay and the Chinese essay, and determine other formats that can be accepted as supplements: audio-visual, electronic, etc. Also instructs students how to find appropriate resources.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

JPNSE 0001 - FIRST YEAR JAPANESE 1

Minimum Credits: 5
Maximum Credits: 5
The first step in Japanese language study. The student will acquire a basic competence in speaking, understanding, reading and writing. Emphasis is placed on speaking and understanding as the student learns the sound system, basic vocabulary and essential sentence patterns. Writing will include the katakana and hiragana syllabaries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0002 - FIRST YEAR JAPANESE 2

Minimum Credits: 5
Maximum Credits: 5
The second term in the systematic presentation of the modern standard language begun in Japanese 0001. Students will continue to develop all four skills--speaking, understanding, reading and writing with continued emphasis on content useful in everyday communications. Writing will include the syllabaries and about 50 selected kanji characters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0001 (MIN GRADE 'C-')

JPNSE 0003 - SECOND YEAR JAPANESE 1

Minimum Credits: 5
Maximum Credits: 5
The third term in the sequence of Japanese language instruction designed to increase the student's proficiency in speaking and understanding of modern standard Japanese through the introduction of more complex grammatical structures and idiomatic expressions. Writing will include about 300 additional kanji characters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0002 (MIN GRADE 'C-')

JPNSE 0004 - SECOND YEAR JAPANESE 2

Minimum Credits: 5
Maximum Credits: 5
The fourth term in the sequence of Japanese language instruction designed to develop the student's ability to carry on non-technical conversations while continuing to enhance the reading and writing skills. More complex grammatical structures and the study of about 300 additional characters are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0003 (MIN GRADE 'C-')

JPNSE 0007 - JPNSE CULTURE AND CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to fundamental characteristics of the culture and civilization of Japan from earliest times to the present. As a gateway to more specialized training, it is designed for students having little or no previous knowledge of Japan. Students can expect to leave with a basic grasp of important historical periods, an appreciation of key figures and places of cultural significance, and an awareness of important social changes from earliest times to the present day. Students will improve their analytical skills as they read from outstanding examples of Japanese literature; they will synthesize relevant information about Japanese art, architecture, religion, literature, society, and history from lectures and background readings in order to present well-reasoned arguments about Japan; and they will develop a nuanced understanding of Japan's place in a global context. This course aims to a) improve cultural literacy about Japan and the Japanese, b) increase familiarity with principal historical periods, c) introduce basic geography ' location of principal Asian countries, Japanese islands, and Japanese cities, and d) identify important political, social, cultural, artistic, and literary themes for each of the principal periods covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0031 - ELEMENTARY JAPANESE 1 FOR MBA

Minimum Credits: 1.5
Maximum Credits: 1.5
This course is specially designed to provide instruction in Japanese language to MBA students. The student will learn the sound system, basic vocabulary and essential sentence patterns in order to carry on basic Japanese conversations to meet everyday situations. Instructions will also be provided in katakana and hiragana.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0032 - ELEMENTARY JAPANESE 2 FOR MBA

Minimum Credits: 1.5
Maximum Credits: 1.5
The student will continue to develop the skills of speaking, reading and writing begun in 0031. Special emphasis will again be on content useful in everyday communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0080 - CITY LIFE & EAST ASIAN CULTURE

Minimum Credits: 3
Maximum Credits: 3
This is a humanities based modular course designed as an introduction to important areas of East Asian civilization. The student will discover how literature, art and thought has flourished in the urban areas of china and Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0081 - EAST ASIA IN THE WORLD

Minimum Credits: 3
Maximum Credits: 3
To enhance a greater understanding of East Asian cultures; to explore the interactions and relations between the peoples and cultures of East Asia (china and Japan) and the rest of the world, from ancient times to the present. Literary works, memoirs, autobiographies, diaries, historical records and films will be used. Themes involve such topics as the significance of travel in self-understanding, diaspora, immigration, and changing ideas of the homeland.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0083 - INTRO TO JAPANESE LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course introduces, through English translations, some of the outstanding works which make up the literary heritage of Japan. The student becomes acquainted with a non-Western literary tradition by exploring similarities and differences in ways of thinking and modes of expression. Readings include selections from ancient poetry, classical Romances, forms of drama, early modern fiction, haiku poetry and modern novels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 0085 - JAPANESE TALES OF SUPERNATURAL

Minimum Credits: 3
Maximum Credits: 3
This course will look at a broad array of fictional works that deal with the supernatural in Japan. The material is arranged historically, ranging from the seventh century to contemporary times, and including ancient myths, theater and narrative fiction, poetry, picture-books, film and anime. The ostensible purpose of the course is to provide a broad view of Japanese literature and culture from a particular angle-the representation of the supernatural. However, by looking at the non-human and the non-natural, students are also encouraged to think about human society and individuality in different historical periods in Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1001 - FIRST YEAR JAPANESE 1

Minimum Credits: 5
Maximum Credits: 5
The first step in Japanese language study. The student will acquire a basic competence in speaking, understanding, reading and writing. Emphasis is placed on speaking and understanding as the student learns the sound system, basic vocabulary and essential sentence patterns. Writing will include the katakana and hiragana syllabaries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1002 - FIRST YEAR JAPANESE 2

Minimum Credits: 5
Maximum Credits: 5
The second term in the systematic presentation of the modern standard language begun in Japanese 0001. Students will continue to develop all four skills--speaking, understanding, reading and writing with continued emphasis on content useful in everyday communications. Writing will include the syllabaries and about 50 selected kanji characters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1003 - SECOND YEAR JAPANESE 1

Minimum Credits: 5
Maximum Credits: 5
The third term in the sequence of Japanese language instruction designed to increase the student's proficiency in speaking and understanding of modern standard Japanese through the introduction of more complex grammatical structures and idiomatic expressions. Writing will include about 300 additional kanji characters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1004 - SECOND YEAR JAPANESE 2

Minimum Credits: 5
Maximum Credits: 5
The fourth term in the sequence of Japanese language instruction designed to develop the student's ability to carry on non-technical conversations while continuing to enhance the reading and writing skills. More complex grammatical structures and the study of about 300 additional characters are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1011 - BASIC JAPANESE LANGUAGE 1

Minimum Credits: 4
Maximum Credits: 4
The first is a series of courses in modern standard Japanese designed for the student with no previous knowledge of the language. Emphasis is on speaking and understanding and includes useful expressions and practical vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1012 - BASIC JAPANESE LANGUAGE 2

Minimum Credits: 4
Maximum Credits: 4
The second in a series of courses, this is a continuation of Japanese 1011. The course continues to develop the student's ability to speak and understand the language, with emphasis on conversation using everyday vocabulary and expressions.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1013 - BASIC JAPANESE LANGUAGE 3

Minimum Credits: 4
Maximum Credits: 4
The third in a series of courses, this is a continuation of Japanese 1012. The course will further develop the four language skills-speaking, understanding, reading and writing --with continued emphasis on useful vocabulary and expressions in natural conversational situations. Students will learn the Japanese syllabary katakana.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1014 - INTRMEDIATE JAPNESE LANGUAGE 1

Minimum Credits: 4
Maximum Credits: 4
This course is the first term of the intermediate language level and a continuation of Japanese 1013. Emphasis will continue to be on conversational skills, while writing includes the hiragana syllabary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1020 - THIRD YEAR JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
The first term of the third-year Japanese language course whose primary goal is to develop a broad competency in speaking and reading through materials of academic and cultural interests and the discussion of those materials. The selection of reading materials is made in such a way that most of the characters in the Kyooiku Kanji list is covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0004 (MIN GRADE 'C-')

JPNSE 1021 - THIRD YEAR JAPANESE 2

Minimum Credits: 3
Maximum Credits: 3
The second term of the third year level Japanese language course and a continuation of Japanese 1020. The student further develops competency through speaking and reading materials of academic and cultural interests and through discussion of those materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1020 (MIN GRADE 'C-')

JPNSE 1022 - HISTORY OF JAPANESE LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course is a review of the historical development of the Japanese language from the earliest extant document to the present. Subjects covered include phonology, syntax and orthography, using examples from historical records, works of literature, and recent scholarship from both Japan and the US. This information is useful not only to those studying the history of Japan and of languages in general, but also to students of the modern language who will gain a deeper understanding of all aspects of spoken and written Japanese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1023 - ASPCTS OF THE JAPNESE LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the Japanese language through a study of its structure, vocabulary and cultural heritage. Some topics discussed include word order, basic structural patterns, and particles such as WA and GA, sexism, and word formation. This course is useful for the Japanese studies student wishing to have a deeper understanding of the language as well as the linguistics student interested in gaining knowledge of a non-Indo-European language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 0002

JPNSE 1024 - TEACHING JPNSE AS 2ND LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
An introduction to approaches and techniques of teaching Japanese to speakers of English. Included will be some historical background, a review of the major textbooks, and discussions of curriculum development, learning and teaching strategies, Romanization, testing, and other relevant topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1025 - EXPLORNG THE JPNSE LANG & MIND

Minimum Credits: 3
Maximum Credits: 3
This course explores the relationship between language and thought through the study of linguistic and social phenomena in Japan and the U.S.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1026 - ADVANCED JAPANESE: TECHNICAL 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a sequence of Japanese language courses at the third-year level designed for students concentrating on scientific, technical or management fields. The course will address the four language skills of reading/ writing and speaking/understanding. Reading will include practice in reading texts from Japanese journals and books in the areas of science, engineering and management. Speaking will include more advanced grammar and vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1027 - ADVANCED JAPANESE: TECHNICAL 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a sequence of Japanese language courses at the third-year level designed for students concentrating on scientific, technical or management fields. The course will address the four language skills of reading/ writing and speaking/understanding. Reading will include practice in reading texts from Japanese journals and books in the areas of science, engineering and management. Speaking will include more advanced grammar and vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1028 - READING JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
Introduce students to reading in Japanese through in-class and out of class activities and assignments for improving basic reading skills: dictionary skills, fluency with Katakana and Hiragana, character recognition and production of a total of 510 kanji, gaining fuller control of grammar, and increasing vocab. Size. Will also learn to recognize text genres and adopt appropriate reading strategies, deal effectively with unknown characters and vocabulary items, form expectations about the meaning of text, and other heuristic skills. Structure: lecture in English, directed in-class reading in a variety of text genres, reading out loud, listening comprehension work, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1029 - READING JAPANESE 2

Minimum Credits: 3
Maximum Credits: 3
Introduce students to reading in Japanese through in-class and out of class activities and assignments for improving basic reading skills: dictionary skills, fluency with Katakana and Hiragana, character recognition and production of a total of 800 kanji, gaining fuller control of grammar, and increasing vocabulary size. Students will begin reading with shorter materials, such as signs, correspondence, and recipes, with smaller grammar and lexical demands, and move on to read longer texts, such as short stories and newspaper/web articles, which require more extensive skill in reading comprehension.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1032 - READINGS IN SOCIAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3

This is an advanced level reading course designed to assist students in acquiring the ability to read Japanese texts in the social science disciplines. The focus will be on the structure and style of the written language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: JPNSE 1020

JPNSE 1035 - PRAGMATICS OF JAPANESE

Minimum Credits: 3
Maximum Credits: 3
This course will provide an introduction to the usage aspects of Japanese by reading articles on pragmatic aspects of the language. The instructor will lecture on salient points and lead discussion on specific issues and the appropriate use of the language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1040 - INTRO TO CLASSICAL JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
This classical Japanese language course is studied through readings of prose and poetry texts written during and immediately after the Heian period. Literary and linguistic techniques are discussed and points of contrast with the modern language are analyzed. Also introduced are reference materials dealing with classical Japanese language and literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: JPNSE 1021

JPNSE 1045 - LANGUAGE OF JAPANESE AESTHTCS

Minimum Credits: 3
Maximum Credits: 3
For over a thousand years, aesthetic values have been seen by the Japanese as central in defining the particular significance of their civilization & the driving force of these insights into the beauty of truth remains powerful even today. Learning to appreciate the development of traditional Japanese aesthetic sensibilities and their historical manifestations in a variety of art forms such as poetry & painting to theatre and folk art not only helps one to understand Japanese culture but provides a nonwestern model to consider creativity, beauty and life. Readings in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1050 - FOURTH YEAR JAPANESE 1

Minimum Credits: 3
Maximum Credits: 3
A fourth-year Japanese language course for students interested in reading news stories, editorials, journal articles and other special interest items. The goals are to increase vocabulary and to develop the ability to read unfamiliar material as a tool for future research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1021 (MIN GRADE 'C-')

JPNSE 1051 - FOURTH YEAR JAPANESE 2

Minimum Credits: 3
Maximum Credits: 3
This course is a continuation of Japanese 1050. The student continues to increase vocabulary and develop the ability to read unfamiliar materials selected from journals and newspapers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1050 (MIN GRADE 'C-')

JPNSE 1056 - JAPANESE LITERATURE & THE WEST

Minimum Credits: 3
Maximum Credits: 3
A critical study of modern Japanese works and selected modern Western literary materials with special emphasis on intensive analysis by means of modern Western criticism. The course is designed to encourage the student to examine significant similarities and differences between Japanese and non-Japanese materials and to judge the content from an oriental as well as a Western perspective.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1057 - JPNSE CULT & SOCTY THRGH CINEM

Minimum Credits: 3
Maximum Credits: 3
This course provides a critical study of selected international prize winning Japanese films and compares these films with Western films dealing with similar themes. The student learns to analyze and interpret films; becomes familiar with particular genres of Japanese films compared with Western; studies the history of Japanese cinema and its place in international cinematography and exposes the inter cultural benefits of judging the content of the films from oriental and Western aesthetic perspectives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1058 - WESTERNS AND SAMURAI FILMS

Minimum Credits: 3
Maximum Credits: 3
A focus on the critical comparative study of two filmic genres--the samurai representing Japanese cinema and the Western representing American cinema. The course demonstrates the analytical processes of the film leading to its structural unity; shows the significance of both genres with respect to the history of Japanese, American and European cinema; compares approaches to films of different countries and provides the overall benefits of approaching films from an intercultural standpoint.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1059 - JAPANESE LITERATURE ON SCREEN

Minimum Credits: 3
Maximum Credits: 3
This course will investigate how literature and film treat some major ideological and socio-cultural issues in Japanese society. Readings of pre-modern tales, modern fiction and contemporary novels. Film adaptations will represent the best of Japan's postwar cinematic tradition. The course is designed for the student interested in Japanese society, culture and intellectual currents through film and literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1061 - INTENSIVE JAPANESE 1

Minimum Credits: 10
Maximum Credits: 10
The first step in Japanese language study. The student will acquire a basic competence in speaking, understanding, reading and writing. Emphasis is placed on speaking and understanding as the student learns the sound system, basic vocabulary and essential sentence patterns. Writing will include the katakana and hiragana syllabaries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1062 - INTENSIVE JAPANESE 2

Minimum Credits: 10
Maximum Credits: 10
Students will continue to develop all four skills begun in JPNSE 1061--speaking, understanding, reading and writing with continued emphasis on content useful in everyday communications. Writing will include selected kanji characters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: JPNSE 1061 or JPNSE 0002

JPNSE 1063 - ADVANCED JAPANESE: TECHNICAL 1

Minimum Credits: 3
Maximum Credits: 3
This is the first term of a sequence of Japanese language courses at the third year level designed for students concentrating on scientific, technical or management fields. The course will address the four language skills of reading/ writing and speaking/understanding. Reading will include practice in reading texts from Japanese journals and books in the areas of science, engineering and management. Speaking will include more advanced grammar and vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1064 - ADVANCED JAPANESE: TECHNICAL 2

Minimum Credits: 3
Maximum Credits: 3
This is the second term of a sequence of Japanese language courses at the third-year level designed for students concentrating on scientific, technical or management fields. The course will address the four language skills of reading/ writing and speaking/understanding. Reading will include practice in reading texts from Japanese journals and books in the areas of science, engineering and management. Speaking will include more advanced grammar and vocabulary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1070 - WORLD OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
Students will receive a grounding in basic principles of Japanese classical literature, poetry and aesthetics. They will read the entire text in English of the tale of the Genji and examine important works in Japanese literature composed in later periods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1071 - THE WORLD OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course covers the period between 1570 and 1870. Beginning with the unification of Japan under sixteenth century military war lords and ending with the collapse of the Tokugana Shoganate. Students will read selections from the major scholarly literature on the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1072 - WRITERS AND THINKERS

Minimum Credits: 3
Maximum Credits: 3
This course will provide an opportunity to read, analyze, and discuss texts by a variety of modern Japanese thinkers and writers who attempt to define the meaning of a changing Japanese culture and its place in the modern world, from about 1900 to 1960. Some are novelists and poets, others are essayists and philosophers writing for general audience. All materials will be read in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1080 - GHOSTS, MASKS AND ACTORS

Minimum Credits: 3
Maximum Credits: 3
A critical study of three major dramatic genres of Japan--NOH, Bunraku and kabuki--in cultural origins. Areas to be explored are the use of masks in the world of the NOH theatre, the kabuki with its female impersonators and the near-life-size puppets of the Bunraku. Also discussed is the impact that NOH and Kabuki have had on modern Japanese and non-Japanese theatrical and film genres.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1081 - FORMS OF JAPANESE THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course will provide a survey of various major forms of Japanese theatre using English language materials. Students will have access to relatively ancient forms of Japanese theatre such as Kagura and no, kabuki drama and the Bunraku puppet theatre through film and videocassette. The modern and avant-garde theatre are also accessible through translation and videocassette material. This course is designed for upper-class majors in theatre arts and non-majors in related fields.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1082 - A TASTE OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
Food is an expression of the culture it feeds. Course will examine how food reflects the socio-cultural transformation of Japan from the immediate postwar era of shortage and deprivation to the "gourmet boom" of the contemporary period of affluence and abundance. Readings include short stories, novels, essays, comics, film and anime. The questions for the main course are: how do contemporary directors/novelists use food as a means

of satirizing certain aspects of Japanese society? What is unique about Japanese people's attitudes towards or outlook on food? How are these national characteristics reflected in some of the works being studied in class?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1085 - INTRO TO EAST ASIAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course investigates the ways in which film addresses and treats the major socio-cultural issues in modern society through a critical study of the works of Chinese and Japanese master filmmakers. The course focuses on changes in marriage and family patterns, women's roles and the plight of youth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1700 - INTRO THEORY & PRA OF TRANLT

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course that answers to a growing interest in the theory and practice of translation from Japanese to English. The genres of texts that will be dealt with include literary works of various kinds (novels, poems, children's books), magazine and newspaper articles, web posts, manga, subtitling of anime and other videos, and texts of technical nature. Students will first learn broadly about the discipline of translation studies, including a history of translation and issues in translation (invisibility of the translator, culturally specific translatability issues, etc.). Students will then learn specific types of translation issues that come up when translating Japanese into English, using excerpts from a variety of genres as case studies. Special attention is paid to the structural differences between Japanese and English, cross-cultural differences in stylistics, writing with clarity, reference work, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1783 - JAPANESE CULTURE

Minimum Credits: 1
Maximum Credits: 1
This one credit course on Japanese society, culture and history accompanies a course on basic Japanese language, though either the language or culture course can be taken independently of one another. A series of lectures by distinguished experts on such topics as the Japanese economy, history, family, politics, business, theatre, religion, literature, education, and fine arts is given.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1800 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course aims to deepen the student's understanding of the Japanese language and sharpen language skills in areas which have traditionally been difficult to learn and to understand. This will be accomplished through reading relevant literature, examining linguistic data and by in-class discussions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
An individual study under the guidance of a department faculty member. For the student whose topic is not covered by regular course work.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

JPNSE 1908 - DIRECTED WRITING FOR MAJORS

Minimum Credits: 1
Maximum Credits: 1
In addition to whatever written assignments are required of those enrolled in the course, this directed writing practicum provides students with an opportunity to contribute writing designed in terms of the intellectual strategies of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JPNSE 1999 - CAPSTONE PROJECT
Minimum Credits: 3
Maximum Credits: 3
Goal of course is to plan and complete a student-directed academic project (capstone project) that requires the command and synthesis of the knowledge and skills learned in the undergraduate career in order to analyze an intellectual problem or topic in the student's interest. The students will plan, find and use appropriate resources, make and execute plans to bring a capstone project to fruition in consultation with the course instructor and a faculty mentor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

East Asian Studies

EAS 0341 - KOREAN 1
Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

EAS 0342 - KOREAN 2
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

EAS 0343 - KOREAN 3
Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

EAS 0344 - KOREAN 4
Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Economics

ECON 0010 - INTRO MICROECONOMIC THEORY
Minimum Credits: 4
Maximum Credits: 4
Introduction to principles of economic analysis as applied to the study of prices and markets. The course builds a theoretical basis for understanding producer and consumer behavior, and prepares students to appreciate the importance of markets in our economic system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0020 - INTRO MACROECONOMIC THEORY

Minimum Credits: 4
Maximum Credits: 4
An introductory course which analyzes macroeconomic equilibrium. Presents the basic analytical tools of macroeconomic theory. Topics covered include: determinants of aggregate expenditure, construction of the Keynesian model, unemployment, inflation, monetary and fiscal policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0100 - INTRO MICROECONOMIC THEORY

Minimum Credits: 3
Maximum Credits: 3
Introduction to principles of economic analysis as applied to the study of prices and markets. The course builds a theoretical basis for understanding producer and consumer behavior, and prepares students to appreciate the importance of markets in our economic system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0109 - GREAT ECONOMIC IDEAS

Minimum Credits: 3
Maximum Credits: 3
Introduces students to the contributions of some leading economists over a period of about 200 years. Although the course will emphasize the works of major economists ranging from Adam Smith to J.M. Keynes, attention will also be paid to pre-smithian developments. Consideration is also given to the emergence of major schools of thought.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0110 - INTRO MACROECONOMIC THEORY

Minimum Credits: 3
Maximum Credits: 3
An introductory course which develops the basic tools needed to analyze the behavior of various macroeconomic phenomena including inflation, gross domestic product, and unemployment. In addition, these tools are used to study how and whether the government can impact the behavior of the overall economy. Finally, the course looks at the role various institutions such as banks and the stock and bond markets play in affecting the economic environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0120 - INTRODUCTORY ECONOMIC THEORY

Minimum Credits: 3
Maximum Credits: 3
An accelerated introduction to micro- and macro-economic theory, designed to fulfill the basic sequence in theory in a single term. Emphasis is placed on major segments of micro- and macro-economics: the concept of resource allocation; demand theory; supply and demand analysis; the theory of the firm; market structure and market breakdown"; income distribution; determinants of national income; management of aggregate demand; international trade and finance."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0140 - INTRO TO POLITICAL ECONOMY

Minimum Credits: 3
Maximum Credits: 3
Interdisciplinary introduction to economics intended mainly for non-majors, especially political science. The syllabus includes market and macroeconomic theories and relationships between political and economic processes. Though less tool oriented than other introductory treatments, the topical developments are not superficial.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0160 - INTRODUCTION TO ECONOMETRICS

Minimum Credits: 3
Maximum Credits: 3
Develop an understanding of basic econometrics. Teaches use of the computer for econometric and statistical analysis, and how to acquire information about published data on basic economic activity. Attempts to develop an understanding of the difficulties inherent in collecting and interpreting actual data. The heart of the course is the development of basic econometric skills. Learning about data sources and computer software will be included as the basic econometric theory is developed.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(ECON 0100 and 0110) or (ECON 0800)] and (STAT 0200 or 1000 or 1100 or 1152); MIN GRAD: C" for (ECON 0100 and 0110); PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)"

ECON 0170 - INTRO TO MATHEMATICAL MODELING

Minimum Credits: 3
Maximum Credits: 3
Mathematics play an increasingly important role in many areas of social sciences. The course aims at awakening students' interest in use of simple yet powerful mathematical techniques and their application in social sciences. It contains 4 main chapters: modeling in two dimensions; linear models; linear programming; and game theory (i.e. Mathematical analysis of strategic behavior or individuals or groups with conflicting aims). The course is largely self-contained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0180 - ECONOMICS AND THE MEDIA

Minimum Credits: 3
Maximum Credits: 3
Course provides an overview of the reporting on economic events and issues by the print, broadcast and electronic media. It examines problems of interpreting economic re porting, assessing the bias of reports, and obtaining back ground or supplementary information in order to place news reports in context. Course also looks at economic organization of media firms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ECON 0100 and 0110) or 0800

ECON 0200 - GAME THEORY PRINCIPLES

Minimum Credits: 3
Maximum Credits: 3
This course introduces the basic concepts of game theory. The emphasis is on the unifying perspective that game theory offers to questions in economics, other disciplines, and everyday life. The course draws on a wide range of substantive and intellectually stimulating applications of game theory across areas in economics, other disciplines, and beyond. It will enable students to view social interactions as strategic games, to use game theoretic concepts to predict behavior in these interactions and to conceive of ways in which altering the game affects social outcomes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0220 - INTRO TO HEALTH ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
This course applies microeconomic analysis to the allocation of resources and consumption of products within the health care economy. It will allow students to develop an understanding of microeconomic theory, in particular as it is applied to real world problems. Also it will provide students with knowledge of the economic aspects of health care in the US and related policy. Unique features of health care which interfere with competitive market allocation and pricing will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 and (MATH 0120 or 0220 or 0230 or 0235 or (0125 and 0126)); MIN GRADE 'C' for all courses

ECON 0230 - INTRODUCTION TO PUBLIC ECONMCS

Minimum Credits: 3
Maximum Credits: 3
The objectives of this course are - to illustrate how basic economic principles can be used to determine the economic effects of government expenditure and tax policies; to develop the students' ability to analyze issues and to recognize the value judgments which lie behind various positions taken in current policy debates.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800

ECON 0280 - INTRODUCTION TO MONEY & BANKNG

Minimum Credits: 3
Maximum Credits: 3
The course is directed toward giving the student an insight into the role that monetary policy and financial markets play in the economy. It will cover

both the theoretical and institutional aspects of banking necessary to function successfully in the business world. One object of the course is to give the student the ability to analyze and appraise critically the monetary policy of federal reserve system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0110 or 0800 (MIN GRADE 'C')

ECON 0330 - URBAN ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
This course presents an overview of the urban economy. Elementary tools of economic analysis are used to build an understanding of urban spatial structure and examine contemporary urban economic and social problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800

ECON 0360 - INTRO ENVIRON & RESOURCE ECON

Minimum Credits: 3
Maximum Credits: 3
Basic economic theory applied to issues involving joint interaction of economic activity, the environment, and use of natural resources. Debate over the sustainability of economic development, renewability and/or depletion of natural resources, and effects of pollution on environmental quality will be surveyed. The issues of ozone depletion, loss of biodiversity, and greenhouse gas emissions and global warming will be considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800

ECON 0400 - LABOR AND THE ECONOMY

Minimum Credits: 3
Maximum Credits: 3
An introductory survey of contemporary labor developments and issues. Readings and lectures have a more historical and institutional perspective and less emphasis on analytical techniques than other labor offerings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800 (Min Grade 'C')

ECON 0430 - WOMEN IN THE LABOR MARKET

Minimum Credits: 3
Maximum Credits: 3
The empirical evidence suggests that women earn lower income than men, and that the wage rates earned by women are lower than those of men --- even when they have similar job classifications. This course examines the role of women in the labor market; the nature of their decision to invest in education, their labor force participation, and the demand for their labor services. In this way, a framework for policy analysis is developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800

ECON 0450 - ECON OF TECHNOLOGICAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the process of technological change. Topics include the historical development of technology, the economic analysis of technological change, case studies of specific nations and products, and public policy issues linked to technological change.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECON 0100 or 0800; PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)

ECON 0460 - SPORTS ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0470 - INDUSTRIAL ORGANIZATION 1

Minimum Credits: 3
Maximum Credits: 3
The varieties of market organization and firm behavior are described and analyzed. Comparative performances of various industrial market and firm types are considered and the possibilities for public policy are developed. The course is oriented toward theory, but descriptive data and historical developments are presented to provide the empirical perspective.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0490 - TRANSPORTATION ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Course designed to lead students to better understanding of current transportation issues at all geographic levels. Provides an overview of transportation problems and solutions, techniques of analysis, evaluation of real world examples of transport development. Specific topics covered include: definition of transportation, causes of movement, costs of movements, pricing of goods and people movements, transportation environment and energy, urban transportation planning, transportation and urban land use, classification of urban transport demand and policies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0500 - INTRO INTERNATIONAL ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Provides an introduction to international economics. Half the topics are pure theory, half international monetary economics. Topics from the real world are analyzed. Topics include alternative pure trade theories; effects of trade barriers; U.S. commercial policy; forms of regional integration; balance of payments; elimination of balance of payments disequilibrium; international monetary system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ECON 0100 and 0110) or 0800 (MIN GRADE 'C')

ECON 0501 - INTRO TO INTERNATIONAL ECONMCS

Minimum Credits: 3
Maximum Credits: 3
An introduction to the basic issues of international economics and to the historical evolution and institutional structure of the international economy. Topics include mercantilism, comparative advantage as a basis for trade, the impact of trade on income distribution, the evolution of the international financial system, and the working of the international gold standard.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

ECON 0520 - COMPARATIVE ECONOMIC SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Course uses the comparative study of different economies as a mirror for learning about our own economic system and for attaining a deeper understanding of how economies function. The course reviews central issues that affect the operation of all economies. It then focuses on the question what is a market economy?" By examining the structure, operation, and recent history of several major economies: the United States, Germany, Japan, Russia, and China. Discussion of each economy concentrates on crucial issues: growth, technology, finance, ownership, environment, and equity."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0530 - INTRO TO DEVELOPMENT ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
An introductory description and analysis of the economic systems of countries commonly referred to as less developed countries. Alternative development policies with respect to international trade, agriculture, industry, health, and education will be outlined. The roles played by government, population growth, environmental degradation, income distribution, and foreign aid will be discussed. The economic aspects of development will be stressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ECON 0100 and 0110) or ECON 0800 (MIN GRADE 'C')

ECON 0630 - EAST ASIA'S DYNAMIC ECONOMIES

Minimum Credits: 3
Maximum Credits: 3
An introductory survey of several East Asian economies. The primary objective is to equip students with a clear understanding of major elements of recent Asian economic history and current economic conditions, and of implications of Asian economic gains for the United States economy, particularly U.S. Trade relationships with this region and their dynamically changing patterns. A secondary objective is to use case studies and empirical materials as vehicles to appreciate how economic principles can be used in real world analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECON 0100 and 0110) or ECON 0800; MIN GRADE: 'C' for all listed Courses; PLAN: Economics (ECON-BA), Economics (ECON-BS), Economics-Statistics (ECNSTC-BS), Mathematics-Economics (M-ECON-BS)

ECON 0640 - ECON DEVELOPMENT OF THE MENA

Minimum Credits: 3
Maximum Credits: 3
This course is designed to expose students to current views by academics and policy makers on past practices and future challenges facing the economies of the Mena region. The course will be taught with an interdisciplinary emphasis on political, social, and cultural, as well as economic aspects. Assignments will include a research paper in addition to a group project presentation. Students will gain an overall understanding of the economic problems of the region, and will be able to effectively analyze changes in the economic climate of the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0800 - INTRODUCTION TO ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
A one-term course designed primarily for the non-major. The main goals are to create interest in the study of economics and introduce some basic tools economists use to analyze social issues. Issues range from farm subsidies to changes in income tax rates to changes in spending on crime reduction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0810 - CONSUMER ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Course provides framework for understanding practical choices faced by individuals in role as consumers. Rudiments of supply and demand are explained and used to provide context for discussing everyday consumer choices and personal investment decisions. Topics include (1) roles of technology and information in our society, (2) household choices concerning purchase of durable goods such as cars and appliances, (3) family budgeting, (4) financial investments, (5) housing rental and ownership and (6) health care.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0820 - REGULATED INDUSTRIES

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the economics of regulated and formerly regulated industries, such as airlines, banking, and transportation. Reviews structure of regulated markets and alternatives to market failure. Examines trend to privatization, globally as well as domestically.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0830 - GOVERNMNT REGULTN OF BUSINSS

Minimum Credits: 3
Maximum Credits: 3
Covers organization and development of business and role of government in process of formulating public policy. Reviews nature of business organization, its growth and development, and political, legal, and administrative framework in which business operates. Describes and analyzes various measurements of concentration and market behavior, competition, and business practices. The role of government is considered. Major attention is given to antitrust laws and their legal economic consequences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 0900 - ECONS: INT FOR FIELD MAJORS
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

ECON 0905 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
Current topics of particular interest to economics majors are discussed and analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1010 - AMERICAN ECONOMIC HISTORY
Minimum Credits: 3
Maximum Credits: 3
The course presents a survey of the strategic factors in the economic development of the United States from colonial times to the great depression. The topics covered include the record of economic growth, the process industrialization and its major phases, British mercantilism, the role of technological change, demographic history, the slave economy, distribution of income, urbanization, and the financial sector.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 or 0800 (MIN GRADE 'C')

ECON 1030 - INTELLCL FOUNDTNS OF CAPITLISM
Minimum Credits: 3
Maximum Credits: 3
This course explores the salient features of European economic development from the black plague of the middle ages to the great depression of the 1930's. The emphasis will be to understand how social, demographic, and economic processes interacted and ultimately culminated in one of the most momentous events in the history of mankind, the industrial revolution. We shall venture an explanation for why Europe was the first continent and England the first country to industrialize. The social changes in the aftermath of the revolution will also be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1040 - POLITICS AND THE ECONOMY
Minimum Credits: 3
Maximum Credits: 3
Study of modern Marxian economic theory with applications to contemporary and developing capitalist economies. Marxian method contrasted to modern economic methods. Historical example illustrating Marx's concepts of economic and social change. Marxian economic theory covering such topics as commodities, labor theory of value, the circuits of capital, relative and absolute surplus value, technological change, reproduction schemes, accumulation and crisis. Comparisons and contrasts to traditional economic theory. Empirical applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MIN GRADE 'C'); PROG: School of Arts & Sciences

ECON 1050 - SOCIALISM VERSUS CAPITALISM
Minimum Credits: 3
Maximum Credits: 3
The course covers the economic changes that produced capitalism; the attempts to understand capitalism which culminated in the theories of Adam Smith; the problems of communist societies and their attempts to return to some form of capitalism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1070 - HISTORY OF ECONOMIC THOUGHT 1
Minimum Credits: 3
Maximum Credits: 3
Surveys the development from Plato through J.S. Mill and Marx. Focuses on (1) the patristic/scholastic tradition; (2) English mercantilism; (3) the challenges of Hobbes's Leviathan" and Mandeville's "Fable of the Bees" and the responses of butler, Shaftesbury, Hume and Smith; (4) summate organized by Cantillon, the physiocrats, Steuart, and Smith; (5) the earlier British classical economists; and (6) J.S. Mill and Marx."
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1080 - HISTORY OF ECONOMIC THOUGHT 2

Minimum Credits: 3
Maximum Credits: 3
An overview of the development of modern Western economics from 1871 through the mid-1950s. Examines (1) the various marginalist schools and their critics; (2) several neoclassical traditions and their critics; (3) efforts at formulating static and general equilibrium analysis; and (4) the development of various types of empirical economics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1100 - INTERMEDIATE MICROECONOMICS

Minimum Credits: 3
Maximum Credits: 3
An intermediate-level course in resource allocation theory emphasizing the origins and uses of theoretical reasoning in economic analysis. Topics covered include the methodology of economic analysis; theories of consumer behavior; demand and supply analysis; production theory; the theories of the firm and market behavior; income distribution theory; and general equilibrium theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 and 0110 and [MATH 0120 or 0220 or (0125 and 0126) or 0230 or 235]; MIN GRADE: 'C' For All Listed Courses

ECON 1110 - INTERMEDIATE MACROECONOMICS

Minimum Credits: 3
Maximum Credits: 3
A systematic treatment of macroeconomic analysis including such topics as policy analysis, inflation-unemployment tradeoffs, business cycles, budget deficits, and the balance of payments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0100 and ECON 0110 and [MATH 0120 or 0220 or (0125 and 0126) or 0230 or 235]; MIN GRADE: 'C' For All Listed Courses

ECON 1130 - OPERATIONS RESEARCH ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
To introduce students to analytical reasoning and quantitative techniques from the study of operations research. Emphasis on models and methods which can be applied to economic theory. Students will develop skills in (1) translating problems described in verbal terms into appropriate mathematical models; (2) solving the models, often using a computer; and (3) interpreting the results.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1140 - ECONMC MODELING & FORECASTING

Minimum Credits: 3
Maximum Credits: 3
Introduces various models and forecasting methods utilized in practice. These include national and regional macro econometric models (simultaneous equation models), single-equation models, market demand and supply models, and time-series models. Application is emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1150 - APPLIED ECONOMETRICS 1

Minimum Credits: 3
Maximum Credits: 3
Introduces basic tools in applied econometrics that are commonly employed in government, business, and academic research. The main emphasis is on application of various econometric methods. Students are expected to become familiar with standard computer programs that are frequently used in quantitative economic research. Topics covered are a review of basic statistics, classical linear regression models, and associated inferential problems, and generalized linear regression models and associated inferential problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: (ECON 1100 or ECON 1110) MIN GRADE: 'C' and [MATH 0120 or 0220 or (0125 and 0126) or (0230 or 0235)] and (STAT 0200 or 1000 or 1100 or 1152)

ECON 1160 - APPLIED ECONOMETRICS 2

Minimum Credits: 3
Maximum Credits: 3
Covers important advanced techniques and models frequently used in quantitative economic research in government, business, and academic institutions. Emphasis is on application. Among the subjects to be covered are distributed lag models, seemingly unrelated regression models, error components models, simultaneous equation models, and an introduction to the use and analysis of econometric models.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1170 - MATHEMATICS FOR ECONOMISTS

Minimum Credits: 3
Maximum Credits: 3
Provides the mathematical training required for advanced courses in mathematical economics, econometrics, and economic theory. Covers topics in linear algebra and matrix theory. About one third of the course is given over to economic and econometric applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1180 - MATHEMATICAL ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
An initial course for graduate students or for undergraduates with a strong math background. Topics will include nonlinear and linear optimization models and simulation applications to economic problems. The optimization topics will include an introduction to activity analysis and Kuhn Tucker Theory. To facilitate the study of these, some topics concerning linear inequalities and convex functions will be discussed. Application of each topic to economic theory and policy will be stressed. The computer will be used for solving problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MIN GRAD 'C') and [MATH 0120 or 0220 or (0125 and 0126) or 0230 or 235]

ECON 1200 - GAME THEORY

Minimum Credits: 3
Maximum Credits: 3
The aim of the course is to introduce the main elements of game theory, in a manner which emphasizes the connections between the cooperative" and "non-cooperative" traditions. Students will be expected to develop understanding sufficient to construct proofs as well as to perform computations, and there will be emphasis on modelling issues."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0120 or 0220 or (0125 and 0126) or 0230 or 235 and (STAT 0200 or 1000 or 1100); MIN GRADE: 'C' FOR LISTED COURSES

ECON 1210 - MICROECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Accelerated course designed to move from introductory through intermediate microeconomics in one term. Topics include introduction to models of resource allocation, markets and their workings, theory of optimizing household, theory of the firm (production, cost and revenue analysis and their applications), firm behavior, market structure and performance, factor markets and investment decisions, returns to factors and general equilibrium analysis, and welfare economics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1220 - MACROECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Accelerated course designed to move from introductory through intermediate macroeconomic theory in one term. First part of course is introduction to economic thinking and macroeconomic aggregates. After first part, course emphasizes use of formal models of macroeconomy in interpreting recurrent patterns of economic activity and specific episodes of growth and business-cycle activity, as well as in conducting policy analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1230 - INTERMEDIATE PUBLIC ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
Fundamentals of policy analysis will be reviewed and then applied to a small set of current policy questions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C')

ECON 1250 - BEHAVIORAL ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (Min Grad 'C')

ECON 1280 - MONETARY THEORY AND POLICY
Minimum Credits: 3
Maximum Credits: 3
Course focuses on financial system and important role it plays in facilitating growth in the U.S. Economy. Financial intermediaries are discussed with emphasis placed on the banking system and its regulator, the federal reserve system, the federal reserve's influence on money supply and interest rates and nonbank public's demand for money is discussed. Role of monetary policy in promoting price stability and economic growth discussed in the context of a U.S. Economy that is growing more integrated with worldwide economic events.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1110 (MIN GRADE 'C')

ECON 1300 - INTRO TO REGIONAL ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to regional economics. It concerns the spatial distribution of economic activity, and develops a theoretical basis for the analysis of economic problems in this context. The course material covers spatial economic theory as well as more macro" topics related to regional growth and development."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1310 - METHODS OF REGIONAL ANALYSIS
Minimum Credits: 3
Maximum Credits: 3
This course surveys some of the most widely used methods for analyzing regional economic activity, including shift/share, economic base, and regional input-output models. Emphasis is placed on understanding the theoretical underpinnings of such methods so as to gain an appreciation for their potential applications as well as their limitations in applied work. The course is organized around empirical applications of the methods and models studied, making regular use of personal computers in homework assignments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1320 - URBAN ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
This course will address the economic determinants of metropolitan development and urban spatial structure. In addition, contemporary urban problem areas such as housing, urban fiscal crisis, poverty, discrimination and transportation will be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1360 - ENVIRONMENTAL ECONOMICS
Minimum Credits: 3
Maximum Credits: 3
Basic economic theory is applied to issues involving the joint interaction of economic activity, the environment, and use of natural resources. The

debate over the sustainability of economic development, the renewability and/or depletion of natural resources, and the effects of pollution on environmental quality will be surveyed, including the issue of greenhouse gas emissions and global warming. Benefit-cost analysis, optimal tax and regulatory schemes, public goods, property rights, emission rights markets, and other economic policy instruments/concepts will be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C')

ECON 1380 - ECONOMICS & PHILOSOPHY SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Each year this seminar will focus on one or two topics of common interest to economists and philosophers such as economic justice, welfare economics, the role and status of preferences, the nature of rational choice, economic theories of democracy or law.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ECON 1390 - WORK, SELF AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course deals with the sources of job satisfaction and how, if at all, employment relations might be structured to assure that people find their work more self-fulfilling. The first half of the term is devoted to a critical survey of the major theories of economists and sociologists about the influences of work on personal development and social welfare, the second half compares the organization of work in selected countries, including Japan, Spain, U.S., And Yugoslavia, where there are distinctive differences.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ECON 1410 - COLLECTIVE BARGAINING

Minimum Credits: 3
Maximum Credits: 3
This course involves a term-long role playing assignment to learn about and experience the process of collective bargaining. Each person will be appointed to a labor or management team and will have the opportunity to serve as a chief negotiator. The labor relations laws of the U.S. And the philosophy of collective bargaining are discussed in the remaining class periods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1420 - LABOR ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
This is an advanced elective course on labor economics for undergraduate students. The purpose of the course is to apply the analytical tools from intermediate microeconomic theory to analyze how society develops, allocates and rewards human resources, and to study a wide range of labor-related issues, such as labor supply; household production and labor force participation; labor demand; minimum wages; labor market discrimination; compensating wage differentials; schooling and earnings; wage inequality, and immigration. Emphasis will also be given to the empirical evidence on those topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C')

ECON 1440 - ECONOMICS OF CORPORTN FINANCE

Minimum Credits: 3
Maximum Credits: 3
The course is intended as an analysis of the investment valuation and financing of the corporation. Attention will be focused on the application of economic theory to the solution of financial problems. The interrelations between investment and financing policies and their dependence on security valuations will be stressed. The institutional background necessary to analyze these problems will be examined, and practical cases drawn from personal and business situations will be used along with more theoretical materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C')

ECON 1450 - LAW AND ECONOMICS

Minimum Credits: 3
Maximum Credits: 3

This course uses the tools of microeconomics to understand the basic structure and functioning of the contemporary common law system in the United States. We focus on the fundamental law areas of torts, contracts and property, and also present overviews of the litigation process and crime. Students will be expected to apply this course material to understand the impact of liability law, contracts and property law on the behavior of investors, entrepreneurs, government workers and potential criminals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1470 - MARKET STRUCTURE & COMPETITION

Minimum Credits: 3
Maximum Credits: 3
The course is a survey of the behavior of firms, the structure of industrial markets, and market performance. The survey will cover both theoretical models and empirical analyses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C')

ECON 1500 - INTRMEDIATE INTRNATIONAL TRADE

Minimum Credits: 3
Maximum Credits: 3
This course is an intermediate level survey of the theory of international trade and related evidence. Topics include causes and consequences of international trade, trade and income distribution, commercial policy, political economy aspects of trade policy, preferential trading arrangements (NAFTA, European Union, etc.), Trade and development, and others. While no one geographic area is singled out, examples will come from most areas of the world economy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Economics (BA or BS); PREQ: ECON 1100 (Min Grad 'C')

ECON 1510 - INTERMEDT INTERNATIONAL FINANC

Minimum Credits: 3
Maximum Credits: 3
This course provides an in-depth analysis of international monetary economics and related topics in the area of international finance. Topics to be covered include exchange rate determination, balance of payments, exchange market efficiency, forward exchange rates, effects of devaluation, the international monetary system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1110 (MIN GRADE: 'C')

ECON 1520 - TRANSTN FRM CNTRL PLN TO MKT

Minimum Credits: 3
Maximum Credits: 3
Review theoretical models and empirical studies dealing with performance of centrally planned, labor managed and market economies. Study strategies of transition from central planning to market economy. Deal with empirical evidence on early successes and failures of transition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1530 - INTERMEDIATE DEVELOPMENT ECON

Minimum Credits: 3
Maximum Credits: 3
This course considers the characteristics of economic growth and conditions in the developing countries today, and the determinants of levels of output, consumption, capital formation and income distribution. Attention is focused on simple growth models, as well as dual economy models of development. The sources of growth are surveyed, along with the role of investment, population, labor productivity and education. Attention is given to the role of agriculture and to the potential contribution of foreign trade and of industrialization through expansion of domestic markets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1540 - THEORY OF ECONOMIC GROWTH

Minimum Credits: 3
Maximum Credits: 3

Theoretical models of economic growth will be presented and empirical evidence of the sources of economic growth in both developed and developing countries will be reviewed. The effects of population growth and of dualism will be considered, and the role of investment in physical capital, r & d, and labor skills will be assessed. The potential for the rate of growth to be affected by the choice of the economic policy will be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1110 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1560 - WORLD FOOD ECONOMY

Minimum Credits: 3
Maximum Credits: 3
Introduction to the dynamics of world production and trade in foodstuffs and agricultural produce. Emphasis will be placed on using the tools of economic analysis to examine the evolution of agricultural sector with economic development including the issues of agricultural self-sufficiency, and environmental degradation, the role of technical change in agricultural production, food security, famines, and food aid. The impact of economic policies on agricultural growth and performance, the institutions and mechanisms involved in international trade in agricultural products.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1580 - ECON GRWTH PBLC HLTH DEMOGRPHY

Minimum Credits: 3
Maximum Credits: 3
Surveys the principle elements of demographic science, particularly within the context of developed and developing economies. Focuses on causes and consequences of changes in mortality, natality, migration and immigration as they apply to such current problems as (1) sufficient saving; (2) physical capital accumulation; (3) productivity changes; (4) the distribution of wealth and income, and (5) changes in population dependency ratios.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 or 1110 (MINGRADE: 'C')

ECON 1590 - PEOPLE RESOURCES USSR/E EUROPE

Minimum Credits: 3
Maximum Credits: 3
This is a survey course of the demography & resource management of the socialist countries of eastern Europe. The primary objective is to provide the student with a general description and understanding of the relations among people, administrative institutions, resource utilization and regional development. Topics covered include constraints in regional economic development--population, nationalities, natural resources, transportation; the location of agricultural production, industrial location, planning the urban system; consumer welfare; socialist economic integration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1610 - LATIN AMERICA ECON DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
A survey of institutional economic problems and development theories and policies in Latin America. Introductory section: significance of economic and non-economic factors. Core of the course: causes of underdevelopment, national planning, demographic growth, land tenure and agrarian reform, industrialization, financing, inflation, trade and balance of payments, foreign debt, regional integration, employment-unemployment, distribution, and social welfare. Final section: integrated model presenting alternative strategies to economic development in the area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ECON 0100 and 0110) or ECON 0800; MIN GRADE: 'C' For All Listed Courses

ECON 1620 - ECON DEVELOPMNT SOCIALIST CUBA

Minimum Credits: 3
Maximum Credits: 3
An interdisciplinary analysis of the socio-economic changes in Cuba under socialism. Summary of socio economic situation at the eve of the revolution and stages in revolutionary policies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1630 - ECONOMIC DEVELOPMENT OF CHINA

Minimum Credits: 3
Maximum Credits: 3

This course surveys the development of china's economy since 1800 with particular emphasis on studying china's experience under different forms of economic organization (market economy, central planning, reformed system combining plan and market) and comparing china's development with that of other nations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 0800 or (ECON 0100 and 0110)

ECON 1640 - JAPANESE ECONOMIC GROWTH

Minimum Credits: 3
Maximum Credits: 3
This course surveys the development of Japan's economy. Considers how economic processes in Japan may differ from those in other industrial nations, and discusses Japan's position in the international economy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1670 - FORMER SOCLIST ECON & TRANSTN

Minimum Credits: 3
Maximum Credits: 3
An introductory course to the former socialist systems and the problems of making a transition to a market economy. Part of the course will be devoted to studying aspects of socialist economic history and institutions. Students will learn to apply growth accounting, shadow pricing, income distribution measures, social welfare functions and micro economic models to analyze selected problems of transition. Students will use internet to follow economic developments for a specific country or region in the former soviet union or eastern Europe.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (MINGRADE: 'C'); PROG: School of Arts & Sciences

ECON 1680 - ECON OF EUROPEAN UNION

Minimum Credits: 3
Maximum Credits: 3
Introduction to economy of Europe, including theory and institutions of European community as they relate to economic systems, its economic relations with other European states and the world, its economic problems and policies. Elementary economics will be reviewed, but no specialist knowledge is required. European economic policies are examined in a critical manner. Some study of breakdown of eastern bloc and the implications of eastern European crisis for European community and the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ECON 0100 and 0110) or ECON 0800; MIN GRADE: 'C' FOR ALL COURSES LISTED

ECON 1700 - PROSEM METHODLGY OF ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Critically surveys the current methodology employed in economics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (Min Grade 'C') and ENGCMP 0200; PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)

ECON 1710 - PROSEM INTERNATIONAL ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
Course discusses and analyzes topics of importance in international trade. Examples of some topics are trade agreements, free trade winners and losers, and speculation of effects of trade agreements.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 and ECON 1110 (Both Min Grade: 'C') and ENGCMP 0200; PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)

ECON 1720 - PRO-SEMINR MONETRY & MACROECON

Minimum Credits: 3
Maximum Credits: 3
A major function of the seminar will be to encourage clear and effective writing, following accepted conventions of style.

Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1110 (Min Grade: 'C') and ENGCMP 0200; PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)

ECON 1730 - SEMINAR EXPERIMENTAL ECONOMICS

Minimum Credits: 3
Maximum Credits: 3
There is a small, but rapidly growing literature in which behavioral experiments are used to test central propositions of various economic theories. This course will review the experimental literature that exists in several areas of economics, including industrial organization, social choice and preference revelation, behavior of decentralized markets, and bargaining.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECON 1100 (Min Grade 'C') and ENGCMP 0200; PLAN: Economics (BA or BS) or Economics - Statistics (BS) or Mathematics-Economics (BS)

ECON 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 12
Student designed project of study in a particular area of economics. Supervised closely by a faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ECON 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 12
Faculty supervised project of student design.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

ECON 1903 - DIRECTED RESEARCH

Minimum Credits: 1
Maximum Credits: 12
Faculty supervised research project of student design or faculty suggestion.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

ECON 1905 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Current topics of particular interest to economics majors are discussed and analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ECON 1960 - POLIT & ECON OF PUBLIC POLCY

Minimum Credits: 3
Maximum Credits: 3
Introduction to digital systems, Boolean algebra, minimization of logic functions, combinational and sequential circuit design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Education

EDUC 1011 - CULTURALLY RESPONSIVE PEDAGOGY

Minimum Credits: 3
Maximum Credits: 3
Instructional practices that respond to the social context in which they (will) work. The course covers general principles and approaches to culturally responsive teaching such as how teachers develop meaningful relationships with students, how teachers learn from and about a school and local community, how teachers develop and implement culturally responsive classroom management, and how teachers develop expectations for students

that maximize their capacity. In addition, the course will assist students in learning about and developing culturally responsive curriculum and pedagogy in their different content/subject matter areas (such as mathematics, science, art, language arts, and social studies). A recurrent and central question of the course is: how do teachers develop culturally responsive instructional practices in their particular disciplinary domain to maximize students learning opportunities?
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

EDUC 1998 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 3
Student pursues study of various topics under the direction of a faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

Electrical Engineering

ECE 0031 - LINEAR CIRCUITS AND SYSTEMS 1
Minimum Credits: 4
Maximum Credits: 4
The analysis of linear circuits. Electric variables and circuit elements; Kirchhoff's and Ohm's Law; Mesh and Node Equations; Thevenin and Norton equivalent circuits; first and second-order circuits; time domain analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0150 or 0230 or 00231 or 0235) and (PHYS 0152 or 0175 or 0202 or 0476); PLAN: Electrical Engineering or Computer Engineering

ECE 0041 - LINEAR CIRCUITS AND SYSTEMS 2
Minimum Credits: 3
Maximum Credits: 3
Sinusoidal steady-state analysis, network functions, real and reactive power, three-phase circuits, laplace transform method, two-port networks, and Fourier series.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0031 or COE 0031; PLAN: Electrical Engineering or Computer Engineering

ECE 0132 - DIGITAL LOGIC
Minimum Credits: 3
Maximum Credits: 3
Introduction to digital systems, Boolean algebra, minimization of logic functions, combinational and sequential circuit design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0150 or 0230 or 0231 or 0235) and (PHYS 0152 or 0175 or 0202 or 0476); PROG: Undergraduate Swanson School of Engineering

ECE 0142 - COMPUTER ORGANIZATION
Minimum Credits: 3
Maximum Credits: 3
Digital computer data representation, instruction formats, control, memory and input-output units, microprocessors, minicomputers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0132 or COE 0132; PROG: Swanson School of Engineering

ECE 0257 - ANAL & DESIGN ELECTRONIC CIRCT
Minimum Credits: 3
Maximum Credits: 3
Diode circuits, power supply design; analysis and design of bipolar junction transistor and field effect transistor amplifiers. Bias stability analysis, power amplifiers. Ideal operational amplifiers. Cmos inverters.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0031 or COE 0031; PROG: Swanson School of Engineering

ECE 0501 - DIGITAL SYSTEMS LABORATORY

Minimum Credits: 3
Maximum Credits: 3
This course and laboratory introduces students to the basic concepts of digital circuits, simulation and instrumentation, systems composed of discrete devices, logic gates, combinatorial and sequential circuits are designed, simulated, built and tested.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0031 or COE 0031) and (ECE 0132 or COE 0132); PROG: Swanson School of Engineering

ECE 1150 - INTRO TO COMPUTER NETWORKS

Minimum Credits: 3
Maximum Credits: 3
The course will cover the understanding technologies where methods of interconnection are fundamental to the system design. Interconnection will include serial point to point and multiple access serial/parallel methods and protocols. There will be an emphasis on fundamentals related to wireless network systems and networks of computers or embedded digital devices. Coverage will include small wireless devices that may be passive or battery powered - requiring low power devices and protocols in either case.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0142) or (COE 0142 or 0147 or 0447) or (CS 0447); PROG: Undergraduate Swanson School of Engineering

ECE 1160 - INTRO EMBDDED SYSTEM DESIGN

Minimum Credits: 3
Maximum Credits: 3
Introduction to the concepts and techniques of embedded system design including requirements, specifications, design implementation and testing. The laboratory is centered around the Altera Excalibur system and the NIOS core processor. Senior design course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0142) or (COE 0142 or 0147 or 0447) or (CS 0447); PROG: Undergraduate Swanson School of Engineering

ECE 1161 - EMBEDDED COMPUTER SYS DESIGN 2

Minimum Credits: 3
Maximum Credits: 3
Organized as a full term project carried out by student design groups. A complex embedded system will be designed, implemented and tested using Altera and other cad tools. Grade will be based on project reviews and the final project report. Proper design process will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1160 or 2160; PROG: Swanson School of Engineering

ECE 1170 - SPECIAL TOPICS: COMPUTER

Minimum Credits: 3
Maximum Credits: 3
An undergraduate course dealing with special topics of current interest in computers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ECE 1180 - CMPTL MODLNG & SIMUL ENGRNS

Minimum Credits: 3
Maximum Credits: 3
In this course students will develop several software programs to model and simulate a range of different physical systems. The course will focus on building software simulations of systems in terms of underlying model objects, world representations, interactions between objects, and a variety of models for time. Some experience in c/c++ programming is assumed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: COE 0445 or CS 0445; PROG: School of Engineering

ECE 1185 - COMPUTER SYSTEM INTERFACING

Minimum Credits: 4
Maximum Credits: 4
Course and lab on microprocessor systems with particular emphasis on interfacing. Course is centered on the 80x86 series of processors and will use the pc as example platforms for development and as system component. It's expected that the student will become familiar with 80x86 assembly language through homework and specific examples. Interface examples will include the processor/memory/SQL-o, serial, parallel and networks using standard hardware available for a pc platform. The course brings together the various concepts of development, software, hardware, and standards.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0142 or COE 0142 or CS 0447 or COE 0447; PROG: Undergraduate Swanson School of Engineering

ECE 1186 - SOFTWARE ENGINEERING

Minimum Credits: 4
Maximum Credits: 4
This course and laboratory introduces classical and object oriented software engineering. Software requirements, specification, object-oriented analysis, design, implementation, integration, and maintenance are covered. Each of these phases is examined on a practical level through a semester long, formal design project that involves the creation of a java-based internet application. Additional java-related topics are taught, including java applets, custom networking, remote database access, SQL, and multimedia extensions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0142) or (COE 0142 or 0147 or 0447) or (CS 0447) and (COE 0401 or CS 0401); PROG: Undergraduate Swanson School of Engineering

ECE 1192 - INTRODUCTION TO VLSI DESIGN

Minimum Credits: 4
Maximum Credits: 4
Introduction to the concepts and techniques of modern integrated circuit design. Use of computer aided design (cad) tools for circuit design and simulation. Senior design course, includes a laboratory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0142) or (COE 0142 or 0147 or 0447) or (CS 0447); PROG: Undergraduate Swanson School of Engineering

ECE 1193 - ADVANCED VLSI DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course is organized as a full semester project in conjunction with a small amount of lecture material on advanced CMOS digital design techniques, as well as the group design process itself. Students form groups of 3 to 5 per group that design and implement different VLSI projects which are then fabricated by MOSIS and returned for testing. Focus is on teamwork with frequent oral/written reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1192 or ECE 2192; PROG: Swanson School of Engineering

ECE 1201 - ELECTNC MEASURMNTS & CRCTS LAB

Minimum Credits: 3
Maximum Credits: 3
Electronic measurements and circuits including experiments on use of electronic test equipment, a variety of linear circuits; non-linear device characteristics, operational amplifier basics, and transistor amplifier characteristics and design. Time and frequency domain methodologies are covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ECE 0257; PROG: Undergraduate Swanson School of Engineering

ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB

Minimum Credits: 3
Maximum Credits: 3
An electronic circuits laboratory experience with emphasis on circuit applications and design. Topics include: multi stage amplifier design; operational amplifier applications; analog-digital conversion applications, active filters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1201; PROG: Swanson School of Engineering

ECE 1232 - INTRO LASERS & OPTCL ELECTNC
Minimum Credits: 3
Maximum Credits: 3
Introduction to and applications of basic laser and optical electronic principles; optical modulation and detection systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0031 or COE 0031) and (ECE 1259 or PHYS 1351); PROG: Swanson School of Engineering

ECE 1236 - ELECTRNC DESIGN INTGD CIRCUITS
Minimum Credits: 3
Maximum Credits: 3
Basic concepts of integrated circuit design; designing with off-the-shelf linear and digital integrated circuits.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0257 and 1201; PROG: Undergraduate Swanson School of Engineering

ECE 1238 - DIGITAL ELECTRONICS
Minimum Credits: 3
Maximum Credits: 3
Switching behavior of semiconductor devices; logic circuit families; DTL, TTL, Schottky, Ecl, CMOS, i2l; regenerative logic circuits; semiconductor memories; spice circuit simulation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 0132 or COE 0132) and ECE 0257; PROG: Swanson School of Engineering

ECE 1240 - PHOTONICS 1
Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. Electrical engineering 1240 (photonics 1) will focus on the basic theory of optics in anisotropic and nonlinear media and the basic methods of modulating and controlling light, while electrical engineering 1241 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECE 1259 or PHYS 1351; CREQ: ECE 1266 or PHYS 1361; PROG: Swanson School of Engineering

ECE 1241 - PHOTONICS 2
Minimum Credits: 3
Maximum Credits: 3
The overall aim of the two-course series is to present the essential theory of modern photonics methods as actually used in industry and research labs today. ECE 1241 (photonics 2) will focus on the application of photonics techniques to modern devices and materials characterization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECE 1240 or CHEM 1470 or PHYS 1363; PROG: Swanson School of Engineering

ECE 1247 - SEMICONDUCTOR DEVICE THEORY
Minimum Credits: 3
Maximum Credits: 3
Electrical properties of solids, energy levels, semiconductor theory, diodes, bipolar junction transistors, field effect transistors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: [PHYS 0175 or 0476 or (0152 and 0153) or (0201 and 0203)] and (MATH 202 or 0250 or 0290 or 1035) and (ECE 0031 or COE 0031); PROG: Undergraduate Swanson School of Engineering

ECE 1248 - PHOTONICS SEMINAR
Minimum Credits: 1
Maximum Credits: 1
The overall aim of the course is to expose students to work on the cutting edge of photonics.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: LVL: Jr or Sr; PROG: Swanson School of Engineering

ECE 1259 - ELECTROMAGNETICS 1

Minimum Credits: 3
Maximum Credits: 3
Vector calculus, gradient curl, divergence theorem and stokes' theorem, coulomb's law gauss's law, Laplace equation, poisson equation, dielectrics, BIOT-Savart Law, vector potentials, ampere's law, faraday's law, inductance, magnetic materials, Lorentz force, Maxwell's equation, electromagnetic radiation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0201 or 0240 or 0241) and (PHYS 0152 or 0175 or 0202 or 0476); PROG: Undergraduate Swanson School of Engineering

ECE 1266 - APPLICTIONS OF FIELDS & WAVES

Minimum Credits: 3
Maximum Credits: 3
Plane waves, the wave equation, poynting vector, transmission lines, wave guides, antennas and radiation applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ECE 1259 or PHYS 1351) and (ECE 0031 or COE 0031); PROG: Swanson School of Engineering

ECE 1270 - SPECIAL TOPICS: ELECTRONICS

Minimum Credits: 1
Maximum Credits: 3
An undergraduate course dealing with special topics of current interest in electronic devices, lasers, and optical electronics.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

ECE 1286 - ANAL & DSGN ANLG INTGRTD CRCT

Minimum Credits: 3
Maximum Credits: 3
Introduction to spice. Multiple transistor circuits, internal structure of operational amplifiers. Current sources and current steering circuits, active loads. Frequency response of directly coupled, capacitive coupled and tuned amplifiers. Analysis and design of multistage amplifiers. Feedback and frequency compensation in operational amplifiers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0257; PROG: Swanson School of Engineering

ECE 1390 - INTRO TO IMAGE PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Introductory subjects in image processing include image spaces and image representation, image enhancement, edge detection, edge and region based segmentation, and feature extraction and object recognition. Spatial and frequency domain approaches will be addressed with emphasis on spatial domain approaches. Some problems are solved on the computer in the c programming language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Undergraduate Swanson School of Engineering; LVL: Sr

ECE 1391 - PROJECTS IN COMPUTER VISION

Minimum Credits: 3
Maximum Credits: 3
A set of full-term group projects attacking problems in image processing and computer vision. Projects will typically involve the development of problem solutions on computer vision workstations in the c programming language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ECE 1472 - ANALOG COMMUNICATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Analysis of modern analog communication systems, including the theory underlying their design and practical implementation issues. Various forms of amplitude and angle modulation. Amplifiers, mixers, detectors, phase-lock loops, and the design of transmitters and receivers. Probability, random signals, optimal receivers, noise and performance analysis. Case studies including telephone, commercial radio, and television.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1473 - DIGITAL COMMUNICATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Analysis of modern digital communications systems, including the theory underlying their design and practical implementation issues. Baseband digital signaling: pam, PCM, quantization, ISI, multiplexing. Modulation formats: ask, FSK, BPSK, DPSK, GAM. Probability, information channel capacity random signals, optimal receivers and performance analysis. Case studies include modems, satellite systems, and cellular telephone.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1523 - APPLCS DIGITAL SIGNAL PROCSSNG

Minimum Credits: 3
Maximum Credits: 3
Applications of digital signal processing, including the discrete Fourier transform, fast Fourier transform (FFT), one and two sided z-transform, circular convolution, design of finite impulse response filters and infinite impulse response filters, and implementation considerations. Concepts are applied to a specific application for a term project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1552 - SIGNALS AND SYSTEMS ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Signal representation, continuous time systems, Fourier series, Fourier transform, laplace transform, discrete time systems, Fourier analysis of discrete time systems, z transform, the discrete Fourier transform.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0201 or 0240 or 0241) and (ECE 0031 or COE 0031); PROG: Undergraduate Swanson School of Engineering

ECE 1562 - DIGITAL AND ANALOG FILTERS

Minimum Credits: 3
Maximum Credits: 3
Active filter design; operational amplifier circuits; cascade design with first-order and biquad circuits; Butterworth and Chebyshev low pass filters; sensitivity and frequency transformations. Digital filter design; IIR filter design using bilinear transformation; window design of fir filters; realization of IRR and fir filters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1563 - SIGNAL PROCESSING LABORATORY

Minimum Credits: 3
Maximum Credits: 3
Data acquisition and computer based measurements. Recursive and fir filters. Frequency response and filter implementations using FFT's.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1201 and 1552; PROG: Undergraduate Swanson School of Engineering

ECE 1564 - RANDOM PROCESSES

Minimum Credits: 3
Maximum Credits: 3

Basic principles of probability and statistics, random variables, expected values, random vectors and multivariate distributions. Power spectrum and linear estimation of stationary random signals. Stochastic models; Gaussin processes, Markov Chains. Applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1570 - SPEC TOPCS: SIGNALS & SYSTEMS

Minimum Credits: 1
Maximum Credits: 3
An undergraduate course dealing with special topics of current interest in control, signal, and image processing, speech processing, and telecommunications.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

ECE 1580 - BIOMD APPLC SIGNAL PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The nature of biological signals and noise, including appropriate physiological background; digital filtering; spectral analysis; automated interpretation of signals. Examples drawn from current problems in clinical medicine and research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1673 - LINEAR CONTROL SYSTEMS

Minimum Credits: 4
Maximum Credits: 4
Introduction to feedback control systems, mathematical models, second order systems response and identification, system types, steady-state errors, root locus analysis and design, bode plots, nyquist theory and frequency domain compensation techniques. Includes a laboratory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 1552; PROG: Swanson School of Engineering

ECE 1700 - CONSTRCT/COST ELECTRICAL SUPLY

Minimum Credits: 3
Maximum Credits: 3
This course introduces the basics of three-wire and three phase electrical distribution for homes, retail, apartments, and light industry. Electrical fundamentals are presented and initially applied to residential wiring to demonstrate circuit construction, ratings, and protective devices. Power entranceways, protective circuit breakers, branch circuits, lighting loads, isolation devices, and safety of operation are considered. The means electrical cost estimating method and data are used. Building control and automation are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0041 or COE 0041; PROG: Swanson School of Engineering

ECE 1710 - PWR DISTB SYS ENGR SMART GRIDS

Minimum Credits: 3
Maximum Credits: 3
Review of power engineering fundamentals, load characteristics and distribution transformers, design of distribution substations, design considerations of primary and secondary systems, substation grounding, voltage drop and power loss, application of capacitors to distribution systems, distribution system voltage regulation and system software, smart grid technologies, energy management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECE 0031 or COE 0031; PROG: Swanson School of Engineering

ECE 1769 - POWER SYSTEM ANALYSIS 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to modern power systems and methods of analysis. Transmission lines, network representations, network solutions, balanced and unbalanced faults, real and reactive load flow study techniques, and basic concepts in stability and economic dispatch.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0031 or COE 0031; PROG: Swanson School of Engineering

ECE 1770 - SPECIAL TOPICS: POWER

Minimum Credits: 1
Maximum Credits: 4
An undergraduate course dealing with special topics of current interest in power.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ECE 1771 - ELECTRIC MACHINERY

Minimum Credits: 4
Maximum Credits: 4
Application of magnetostatics to the design of magnetic circuits, actuators, sensors and rotating electric machines. Performance characteristics of transformers, induction machines, synchronous machines and DC machines. Includes a laboratory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0031 or COE 0031; PROG: Swanson School of Engineering

ECE 1773 - POWER GENERATION, OPER & CTRL

Minimum Credits: 3
Maximum Credits: 3
Area control error (ace), automatic generation control (AGC), characteristics of power generation units, economic dispatch of generators, unit commitment, hydrothermal coordination and storage, interchange power, limited energy supply, optimal power flow, power system security, production cost modeling, state estimation, transmission system effects, unit commitment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ECE 1673 or ECE 1769; PROG: Swanson School of Engineering

ECE 1885 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Seminars are designed to acquaint the student with aspects of engineering that are not normally encountered in classes and school activities and include a wide range of topics such as the significance of engineering as a profession, and ethical problems in engineering and skills required for a successful engineering career.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ECE 1896 - SENIOR DESIGN PROJECT

Minimum Credits: 3
Maximum Credits: 3
A full-term engineering project involving definition, literature search, prototype design, construction, with written and oral reports. Senior design course.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PREQ: ECE 0041 or COE 0041 and (ECE 0257 or COE 0401 or CS 0401); PROG: Undergraduate Swanson School of Engineering

ECE 1898 - ENGINEERING PROJECT

Minimum Credits: 1
Maximum Credits: 3
An investigation of an approved engineering subject under the supervision of a faculty monitor. Must be approved in advance by the faculty monitor and the department chair.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

EE 0132 - DIGITAL LOGIC

Minimum Credits: 3
Maximum Credits: 3
Introduction to digital systems, Boolean algebra, minimization of logic functions, combinational and sequential circuit design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG

Emergency Medicine

EM 1101 - EM HEALTH CARE PROFESSIONAL

Minimum Credits: 2
Maximum Credits: 2
Every health professional should have the ability to respond appropriately to medical or traumatic emergencies. Course designed to provide student with knowledge, skills and attitudes to enable them to intervene quickly and properly to suddenly ill or injured patient. Course will be taught as a highly participatory format with special emphasis placed on situations that health professionals are likely to occur in the context of clinical practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1102 - EMERGENCY MEDICAL TECHNICIAN

Minimum Credits: 4
Maximum Credits: 4
This course provides the learners with the cognitive knowledge and values to develop as an emergency medical professional at the basic life support level. This course meets all of the minimum training requirements as established by the U.S. Department of Transportation in the EMT, National Education Standards. This course provides the learner with the opportunity to develop basic life support psychomotor skills. Successful completion of this course makes the learner eligible to become certified by the National Registry of EMT's and the Pennsylvania Department of Health.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Sch Hlth & Rehabilitation Scs

EM 1104 - EMT CLINICAL

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: CREQ: EM 1102; PROG: Sch Hlth & Rehabilitation Scs

EM 1111 - FOUNDATIONS OF EMERGENCY CARE

Minimum Credits: 3
Maximum Credits: 3
This course focuses on pre-hospital assessment and therapeutic intervention of adult and pediatric patients with acute traumatic injury and includes advanced airway assessment and procedural intervention for patients with acute respiratory pathophysiology. Students will explore emergency medical services systems and appreciate their role and responsibility as pre-hospital practitioners. Learning strategies include scenario-based case presentations with a focus on critical thinking and decision-making. This course is paired with a required lab component.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1112 - PATHOPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Introductory course in pathophysiology for entry level healthcare providers. This course focuses on human responses to illness expressed at the physiologic, pathophysiologic, experiential, and behavioral levels. Human responses are examined in terms of assessments appropriate to selected problems, rationale for medical interventions, and therapeutic effectiveness. Topics include: general principles of pathophysiology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1113 - PHARMACOLOGY

Minimum Credits: 3
Maximum Credits: 3

Introduces students to the categories of pharmacological agents and the application of pharmacological concepts to clinical practice. Emphasis will be placed on understanding physiologic medication action. A separate medication lab is offered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1114 - MEDICATION ADMINISTRATION

Minimum Credits: 1
Maximum Credits: 1
Practical skills lab designed to allow students to develop the psychomotor skills of medication administration. Skills include: phlebotomy, intramuscular and subcutaneous injections, IV cannulation, IV medication administration, inhalation, endotracheal and sublingual administration, and pharmacology math. This course also provides the students with the practical skills needed for Advanced Cardiac Life Support (ACLS) care.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1115 - INTRO TO PHYSICAL ASSESSMENT

Minimum Credits: 3
Maximum Credits: 3
Designed to introduce students to the principles and techniques of physical examination. Students will be taught an organized systemic approach to assessment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1116 - PHYSICAL EXAM LAB

Minimum Credits: 1
Maximum Credits: 1
Practical skills lab designed to assist in the development of psychomotor skills of patient assessment, airway management, ventilation and trauma care skills.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1117 - EMS OPERATIONS

Minimum Credits: 3
Maximum Credits: 3
Designed to expose the paramedic student to various field operations procedures. Topics include: medical incident command, rescue awareness and operations, hazardous materials awareness and operations, crime scene awareness.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1120 - ADV OUT OF HOSPITAL TRAUMA CRE

Minimum Credits: 3
Maximum Credits: 3
Introduces paramedic student to specific pathophysiology assessment and management techniques for trauma patients. Mechanism of injury, hemorrhage and shock, soft tissue trauma, burns, head and facial trauma, spinal trauma, thoracic trauma, abdominal trauma, musculoskeletal trauma, and special considerations. Course offered with a required lab course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1121 - TRAUMA LAB

Minimum Credits: 0
Maximum Credits: 0
This lab section teaches psychomotor skills of the management of the trauma patient. Skills include: trauma patient assessment, airway management of the trauma patient.
Academic Career: UGRD
Course Component: Credit Laboratory

Grade Component: No Grade Required
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1122 - CARDIOLOGY AND RESPIRATORY

Minimum Credits: 3
Maximum Credits: 3
This course covers the specific pathophysiology, assessment, and management of the cardiac patient. Topics inlcude 3 lead and 12 lead ECG interpretion, cardiac anatomy and physiology, patient assessment and management, ACLS, pharmacological, and other therapies. This class is offered with a required lab course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1123 - CARDIOLOGY LAB

Minimum Credits: 1
Maximum Credits: 1
This lab section in conjunction with Assessment Based Management Lab provide case based learning for the students related to general adult emergencies. Students will participate in case based sessions that allow them to work on a simulated patient that is suffering from a specific illness or injury and allows the students to develop strong patient, resource, and scene management skills that they can take with them into their field practice. This lab helps to promote strong clinical decision making skills that will allow the students to function as a strong clinical provider in the field.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: H/S/U Basis
Course Requirements: PLAN: Emergency Medicine (BS or BPH or BS-H)

EM 1124 - ADULT MEDICAL EMERGENCIES

Minimum Credits: 3
Maximum Credits: 3
This course focuses on pre-hospital assessment and therapeutic intervention of acute and chronic adult pathophysiology. Students will explore the different processes of patient care for special populations across the life span. Learning strategies include scenario-based case presentations with a focus on critical thinking and decision-making. This course is paired with a required lab component.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1125 - OB/GYN, NEWBORN, & PEDS CARE

Minimum Credits: 3
Maximum Credits: 3
This course covers the specific pathophysiology, assessment and management of common medical and trauma conditions in pediatric patients. Additional information regarding obstetrics, neonates and gynecologic patients will be presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1126 - ASSESSMENT BASED MANAGEMENT

Minimum Credits: 1
Maximum Credits: 1
This lab section in conjunction with Cardiology Lab provide case based learning for the students related to general adult emergencies. Students will participate in case based sessions that allow them to work on a simulated patient that is suffering from a specific illness or injury and allows the students to develop strong patient, resource, and scene management skills that they can take with them into their field practice. This lab helps to promote strong clinical decision making skills that will allow the students to function as a strong clinical provider in the field.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: H/S/U Basis
Course Requirements: PLAN: Emergency Medicine (BS or BPH or BS-H)

EM 1131 - CLINICAL 1

Minimum Credits: 4
Maximum Credits: 4
Designed to accompany the fall semester courses, these clinical rotations focus on the development and documentation of history taking and assessment skills. Additionally psycho motor skill development in a clinical setting is emphasized.
Academic Career: UGRD

Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1132 - CLINICAL 2

Minimum Credits: 4
Maximum Credits: 4
Designed to accompany the spring semester courses, these clinical rotations focus on the integration of psychomotor skills with assessment and history taking. In addition to scheduled rotations students will spend the last weeks completing a summative field evaluation. This evaluation consists of 80 field hours with the student functioning as a primary care provider.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1133 - CLINICAL 3

Minimum Credits: 5
Maximum Credits: 5
Designed to accompany medical 3 and special consideration/ clinical decision making courses. Clinical rotations focuses on treatment of special patient populations and special clinical situations. Clinical rotations include: field, emergency department, rehabilitation, long term care, home health care, crisis intervention, gynecology, obstetrics, neonatology, pediatrics and gerontology.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1150 - PROFESSIONAL ISSUES IN EMS

Minimum Credits: 3
Maximum Credits: 3
This course will be to present to all EM students in SHRS a thorough review of the most current and pertinent issues confronting the ems industry today. Discussion and assignments will be designed to require students to investigate critical issues which affect health-care delivery, quality of service, cost of health care, manpower utilization, and the affects of various federal and state legislation on health-care delivery.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1151 - PRE-PROFESSIONAL PROJECT

Minimum Credits: 3
Maximum Credits: 3
This course is designed to allow the students to demonstrate their ability to integrate the knowledge and skills achieved during their course of study in the design, development and implementation of an ems project of local, regional or national significance. Students will meet with the instructor to determine an existing ems issue and formulate a process to address this issue. Significant independent effort will be required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1152 - ISSUES IN HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
This course is designed to engage students in current aspects of healthcare impacting patients and healthcare practitioners. Topics are extremely diverse in assuring all possible domains of healthcare are addressed. Various methods of presentation are utilized in this course. Healthcare delivery at national and international models is explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1153 - ISSUES IN HLTH CARE EDUCATION

Minimum Credits: 2
Maximum Credits: 2
Survey course designed to teach the principles of adult education, classroom management skills, selection of teaching aides and development of lesson plans. Students will function as teaching assistants in ems education programs.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1154 - HEALTH CARE RESEARCH

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1155 - LEGAL ISSUES IN HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
This course examines the current legal issues related to both in-hospital and out-of-hospital care. Issues of patient confidentiality, criminal and civil issues, and the EMTALA laws will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1157 - ISSUES IN HEALTHCARE EDUCATION

Minimum Credits: 3
Maximum Credits: 3
Survey course designed to teach the principles of adult education, classroom management skills, selection of teaching aides and development of lesson plans. Students will function as teaching assistants in EMS education programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1158 - FINC & ACCT FOR HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
Finance and Accounting provides an introduction to the basic concepts of accounting and financial management in health care. The course is geared for professionals who do not anticipate serving primarily in a financial management role. The concepts will be studied in the context of their practical application.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BS-H, BPH)

EM 1159 - EMS ORGANIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course will provide student with an overview of EMS agencies through a behavioral science perspective. The course will offer multiple perspectives on organizational analysis and action.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1160 - PROFESSIONAL ISSUES

Minimum Credits: 3
Maximum Credits: 3
This course will provide the student with the tools necessary to promote the long-term viability of an EMS service. This course has been designed to prepare the student to be a leader of traditional or entrepreneurial ems opportunities. Guest speakers will be utilized for their expertise in the administration of EMS agencies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1162 - LEGAL ISSUES IN HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3

This course is meant to provide students with a survey of some of the major legal issues facing emergency medical services providers and administrators, and those who aspire to those positions. This course will focus on the practical issues confronting EMS organizations. Major areas to be addressed include the law of negligence and medical malpractice; consent and refusal of emergency care; do not resuscitate" issues; the legal aspects of documentation; confidentiality and HIPAA; EMTALA and ER diversions; fraud and abuse; personnel management; OSHA; legal issues for non-profit EMS organizations; the basics of EMS reimbursement."
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1163 - ISSUES IN EMS

Minimum Credits: 3
Maximum Credits: 3
Examines current issues relating to the policies, procedures and future of EMS. Among the topics considered are medical errors, interaction with other healthcare fields, and potential roles for the EMS provider in non-traditional settings. This course is designed to encourage students to critically evaluate literature and formulate well-reasoned opinions through group discussion and writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1166 - SENIOR INTERNSHIP

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Internship
Grade Component: H/S/U Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1167 - SENIOR CLINICAL

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: H/S/U Basis
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1168 - LEADERSHIP IN HEALTHCARE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1169 - CRITICAL CARE MANAGEMENT

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1172 - ISSUES IN HEALTH CARE - WEB

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1173 - ISSUES HLTH CARE EDUC - WEB

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1174 - HEALTHCARE RSRCH - WEB
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1175 - LEGAL ISSUES IN HC - WEB
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1176 - SENIOR INTERNSHIP-WEB
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Internship
Grade Component: H/S/U Basis

EM 1177 - SENIOR SEMINAR
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1178 - LEADERSHIP HLTH CARE-WEB
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1179 - HEALTH CARE MGMNT - WEB
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1180 - HEALTH CARE MANAGEMENT
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS, BPH, BS-H)

EM 1181 - PROFESSIONAL ISSUES-WEB
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1182 - CRITICAL CARE MGT-WEB
Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1183 - FINC & ACCT FOR HC - WEB
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

EM 1184 - SENIOR SEMINAR-WEB
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

EM 1185 - BEYOND THE BODY - WEB
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1186 - CERTIFIED AMBULANCE CODER-WEB
Minimum Credits: 1
Maximum Credits: 1
The certified ambulance coder course is designed to provide the student with a comprehensive understanding of the complex rules and requirements related to effective and compliant ambulance billing. The course focuses on a baseline of critical knowledge and commitment to excellence necessary to be a well-informed, conscientious and compliant ambulance billing professional.
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1187 - ORGANIZATIONAL THEORY-WEB
Minimum Credits: 3
Maximum Credits: 3
Organizational theory provides the EM major with an opportunity to investigate the structure and function of ems agencies. Through didactic and practical sessions, students will have the opportunity to discover organizational theory and to evaluate an ems agency. The objectives of this course will provide students with the ability to: describe, in detail, the 10 classic components of an ems system; evaluate an ems agency against the technical standards of the 10 classic components of an ems system; describe the basis for organizational theory; describe the assessment of an organization from the political, structural, human resources, and symbolic perspectives
Academic Career: UGRD
Course Component: Mass Media
Grade Component: Letter Grade

EM 1198 - INTERNATIONAL STUDIES
Minimum Credits: 1
Maximum Credits: 6
This course is designed for international emergency medicine students. It provides international emergency medicine students an opportunity to explore an area of emergency medicine that is of particular interest to them.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade
Course Requirements: PLAN: Emergency Medicine (BS)

EM 1199 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Provides students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

EM 1250 - INTRODUCTION COMMUNITY HEALTH

Minimum Credits: 2
Maximum Credits: 2
The role of paramedics in the healthcare system is evolving in many parts of the country to include helping patients avoid unnecessary 911 calls and hospitalizations. This introductory course will prepare the paramedic to function as a community paramedic. This course will describe the difference between traditional ems and community paramedic assessments; introduce therapeutic communication techniques; describe mental and behavioral health issues and their effect on chronic disease management; review professional boundaries and provider wellness techniques; and review potential patient populations that could be helped through these new services.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

EM 1251 - MOBILE INTEGRATED HEALTHCARE
Minimum Credits: 2
Maximum Credits: 2
Part two of the community paramedic introductory course will introduce therapeutic communication techniques that are essential for chronic disease management and the coordination of services needed to avoid the unnecessary utilization of EMS and hospital services. This course will discuss the business models used across the country for community paramedicine programs as well as how to design a program, describe documentation methods used and how to effectively become a patient advocate to help navigate the patient through the changing health care system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG

EM 1260 - COGV PSYCH OF DECISION MAKING
Minimum Credits: 2
Maximum Credits: 2
Healthcare providers make dozens of clinical decisions every day. Errors in cognitive processes have been determined to be one of the most common causes of preventable death and disability in this country. The goal of this class is to examine the current science of decision making and the treats to optimal decisions. Students will learn to recognize system I and system II thinking and the benefits and limitations of each. Unconscious cognitive biases and heuristics that are commonly relied upon in everyday as well as professional decisions will be analyzed. The class will be taught in seminar fashion with active learning and discussion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG

Engineering

ENGR 0005 - INTRO TECHNLGY IN INT'L CONTXT
Minimum Credits: 3
Maximum Credits: 3
Often engineering and science are considered to be culturally independent. This, however turns out not to be the case. This course examines the constructs of science and engineering education, the practice of engineering, and industry and their underlying cultural bases. When offered off-campus in a foreign country, this course will also include site visits and field work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0006 - EXCEL FOR ENGINEERS
Minimum Credits: 1
Maximum Credits: 1
A first course in using excel to solve engineering problems. Also will provide an overview of the engineering approach to problem solving. This course is intended for students transferring into the school of engineering who have little or no background in the use of excel. It will not satisfy any degree requirements.
Academic Career: UGRD
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0009 - INTRO TO ENGINEERING COMPUTING
Minimum Credits: 3
Maximum Credits: 3
The course is designed to teach students the fundamentals of computing and the concept of engineering design as applied to the design of software. Fundamentals include basic computer organization, formulation of algorithms, basic data structures, pseudo code and top down iterative refinement. In the concurrent laboratory, proficiency is developed in a high level language and a text editor/word processor.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0010 - ENGINEERING ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course is closely linked to engineering 0009 through use of the computer to solve engineering problems. Numerical methods are presented and these methods are then used in solution of problems in mechanics, heat transfer, electrical systems, and chemical processes. Economic and human factors are also included in the problem solutions. The fundamentals of computer graphics are also covered. The overall emphasis of the course is on computer-aided engineering (CAE).
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0011 - INTRO TO ENGINEERING ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Introduces students to basic topics in engineering, the role of the computer in engineering, ill structured problem-solving and report writing. The course includes material on the use of Unix, HTML, spread sheets, and MATLAB. Data analysis and curve fitting is done in both MATLAB and Excel. The writing component includes four detailed reports and includes an oral presentation. The course goals are: to introduce the fundamentals of what engineering is, what engineers do, why a diverse work force is needed and what values come with working in a group environment; to introduce the required library research skills and communication skills used by all engineers; to introduce the role of the computer in engineering problem solving, including the basic analytical, programming design, graphical, and problem solving skills used by most engineers in their profession; and to provide an overview of how material in the basic sciences and mathematics is applied by engineers to solve practical problems of interest to society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0081 or ENGR 0181; PROG: School of Engineering

ENGR 0012 - INTRO TO ENGINEERING COMPUTING

Minimum Credits: 3
Maximum Credits: 3
Introduces students to social topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of MATLAB and C++. Students learn the fundamentals of computing in engineering, including program design, program development, and debugging. Applications to problems in engineering analysis with topics selected from ENGR 0011. The writing component includes four detailed reports and includes an oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0011 (MIN GRADE 'C'); CREQ: MATH 0220 or 0230 or 0235 or 0240 or 0245 or 0280 or 0290; PROG: School of Engineering

ENGR 0013 - STATICS AND PARTICLE DYNAMICS

Minimum Credits: 4
Maximum Credits: 4
A basic course in statics and particle dynamics. Topics covered include the effect of external forces acting on particles and rigid bodies. Use is made of computers for self-learning through tutorial software and for problem solving.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0014 - MECHANICS OF MATERIALS

Minimum Credits: 4
Maximum Credits: 4
An introductory course in the mechanics of deformable solids. Material covers the internal stresses, strains, and displacements which occur when a structure is subjected to applied loads. Open ended design problems are also discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0015 - INTRODUCTION ENGINEERING ANAL

Minimum Credits: 3
Maximum Credits: 3

Introduces students to basic topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of UNIX, HTML, spread sheets, and MATLAB. Data analysis and curve fitting is done in both MATLAB and Excel. The writing component includes four detailed reports and includes an oral presentation. The course goals are: to introduce the fundamentals of what engineering is, what engineers do, why a diverse work force is needed and what values come with working in a group environment; to introduce the required library research skills and communication skills used by all engineers; to introduce the role of the computer in engineering problem solving , including the basic analytical, programming design, graphical, and problem solving skills used by most engineers in their profession; and to provide an overview of how material in the basic sciences and mathematics is applied by engineers to solve practical problems of interest to society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: (MATH 0220 or MATH 0235) and (PHYS 0174 or PHYS 0475)

ENGR 0016 - INT TO ENGINEERING COMPUTING

Minimum Credits: 3
Maximum Credits: 3
Introduces students to social topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of MATLAB and C++. Students learn the fundamentals of computing in engineering, including program design, program development, and debugging. Applications to problems in engineering analysis with topics selected from ENGR 0015. The writing component includes four detailed reports and may include an oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0011 or ENGR 0015) and (MATH 0220 or MATH 0235) and (PHYS 0174 or PHYS 0475)

ENGR 0020 - PROBLTY & STAT FOR ENGINEERS 1

Minimum Credits: 4
Maximum Credits: 4
An introductory course in statistics. Topics covered include: data analysis, probability, randon variables, selsected discrete and continuous probability distributions, one sample and two sample estimation, hypothesis testing, experiments with two factors and introduction to regression analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0150 or 0230 or 0231 or 0235; PROG: Swanson School of Engineering

ENGR 0022 - MATERLS STRUCTURE & PROPERTIES

Minimum Credits: 3
Maximum Credits: 3
An introduction to the basic concepts of materials science and engineering. The concepts of atomic, crystal, micro- and macro-structure, their control and effects on chemical, electrical, magnetic, optical, and mechanical properties. Modification of properties by heat treatment and control of processing. Fundamental considerations in materials selection.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (MATH 0150 or 0230 or 0231 or 0235) and (PHYS 0150 or 0174 or 0201 or 0475); PROG: School of Engineering

ENGR 0023 - PLUS 3 COSTA RICA

Minimum Credits: 3
Maximum Credits: 3
The course involves lectures, company visits and sightseeing, and culminates in a research paper and presentation that focuses on a global industry and its value chain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 0023IS - PLUS 3 COSTA RICA - IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

ENGR 0023OS - PLUS 3 COSTA RICA - OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.

Academic Career: UGRD
Course Component: Lecture
Grade Component: No Grade Required

ENGR 0024 - INT'L FIELD PROJECT - CHINA

Minimum Credits: 3
Maximum Credits: 3
The course involves lectures, company visits and sightseeing, and culminates in a research paper and presentation that focuses on a global industry and its value chain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 0024IS - INT'L FIELD PROJ - CHINA - IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.

ENGR 0027 - INT'L FIELD PROJECT- FRANCE

Minimum Credits: 3
Maximum Credits: 3
The course involves lectures, company visits and sightseeing, and culminates in a research paper and presentation that focuses on a global industry and its value chain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0028 - ENGR+2: INT'L FLD PROJ - CHILE

Minimum Credits: 2
Maximum Credits: 2
Engr+2 is an optional two-credit study abroad opportunity offered. In 2003 the course will involve a field study trip to Santiago Chile. The course involves lectures, company visits and sightseeing, and culminates in a research paper and presentation that focuses on a global industry and its value chain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 0029 - INT'L FIELD PROJECT - CHILE

Minimum Credits: 1
Maximum Credits: 1
This one-credit project is for students who participated in the Chile summer program. Students will work in small groups to design, coordinate and create web pages. The project entails video processing and editing, source searching on the internet, and interviewing university experts on Chile. A short paper connecting the interviews and the special trading status that the US gave to Chile recently will also be required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

ENGR 0032 - INT'L FIELD PROJECT- BRAZIL

Minimum Credits: 3
Maximum Credits: 3
The course involves lectures, company visits and sightseeing, and culminates in a research paper and presentation that focuses on a global industry and its value chain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0081 - FRESHMAN ENGINEERING SEMINAR 1

Minimum Credits: 0
Maximum Credits: 0
An in-depth orientation in the various areas of engineering and the related fields of employment. Includes small group meetings with departmental representatives and special freshman academic advisors. A formal departmental choice is made at the conclusion of these courses.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: CREQ: ENGR 0011 or 0711; PROG: Swanson School of Engineering

ENGR 0082 - FRESHMAN ENGINEERING SEMINAR 2

Minimum Credits: 0
Maximum Credits: 0
An in-depth orientation in the various areas of engineering and the related fields of employment. Includes small group meetings with departmental representatives and special freshman academic advisors. A formal departmental choice is made at the conclusion of these courses.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: CREQ: ENGR 0012 or 0712 or 0715 or 0716; PROG: Undergraduate Swanson School of Engineering

ENGR 0086 - INTRODUCTION TO ENGINEERING

Minimum Credits: 0
Maximum Credits: 0
This course is designed to introduce students to engineering as a career. The course will include presentations by professional engineers, plant visits, laboratory experiments, and readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0087 - TRANSFER SEMINAR

Minimum Credits: 0
Maximum Credits: 0
A 9 week seminar course for first semester regional and external engineering transfer students. The course discusses the transition to the Swanson School of Engineering and resources available to students at the University of Pittsburgh.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0088 - LEARNING AND COUNSELING

Minimum Credits: 0
Maximum Credits: 0
Academic Career: UGRD
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0089 - COUNSELING

Minimum Credits: 0
Maximum Credits: 0
Academic Career: UGRD
Course Component: Practicum
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 0090 - SWANSON SUCCESS PROGRAM

Minimum Credits: 0
Maximum Credits: 0
The Swanson success program is a course that provides students with a series of academically ' focused workshops critical to building academic success as an engineering student. In this course, the participants will use the textbook `The Seven Habits of Highly Effective College Students'. The focus will be to explore and develop strategies for personal development in the areas of goal-setting, time prioritizing, motivation, and learning strategies. This course is one part of the engineering student retention program, and successful completion will enhance participant's academic and personal efficiency in the classroom. Upon completion, students will be eligible to earn the personal leadership certificate through the franklin covey leadership certificate program.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis

ENGR 0109 - INTRO TO ENGINEERING COMPUTING

Minimum Credits: 3
Maximum Credits: 3
This is an accelerated course in computer fundamentals and engineering applications. The material of engineering 0009 is covered at an accelerated pace and then a variety of engineering design analysis and solution techniques are presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0110 - ENGINEERING ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This is a continuation of engineering 0109.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0111 - ADVANCED ENGINEERING ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This is an accelerated course in computer fundamentals and engineering applications. The material of ENGR 0111 is covered at an accelerated pace and then a variety of engineering design analysis and solution techniques are presented. The course introduces students to basic topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of unix, html, spread sheets, and matlab. Data analysis and curve fitting is done in both matlab and excel. The writing component includes four detailed reports and includes an oral presentation. The course goals are: to introduce the fundamentals of what engineering is, what engineers do, why a diverse work force is needed and what values come with working in a group environment; to introduce the required library research skills and communication

skills used by all engineers; to introduce the role of the computer in engineering problem solving, including the basic analytical, programming design, graphical, and problem solving skills used by most engineers in their profession; and to provide an overview of how material in the basic sciences and mathematics is applied by engineers to solve practical problems of interest to society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0112 - ADVANCD INTRO ENGRNG COMPUTING

Minimum Credits: 3
Maximum Credits: 3
This is a continuation of ENGR 0111. It introduces students to societal topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of matlab and c++. Students learn the fundamentals of computing in engineering, including program design, program development, and debugging. Applications to problems in engineering analysis with topics selected from ENGR 0111. The writing component includes four detailed reports and includes an oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0131 - STATICS FOR CIVL & ENVRL ENGNR

Minimum Credits: 3
Maximum Credits: 3
A basic course in statics. Utilizing the free-body diagram, the course covers forces and equilibria of particles, rigid bodies, surfaces, trusses, beams, cables, and other basic structural elements. Use is made of computers for problem solving.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PHYS 0104 or 0150 or 0174 or 0201; PROG: Swanson School of Engineering

ENGR 0135 - STATICS & MECHC OF MATERIALS 1

Minimum Credits: 3
Maximum Credits: 3
First of a two course sequence covering statics and strength of materials. Topics covered include: concurrent force systems, equilibrium, axial loading, stress, strain, deformation, moments, equivalent systems, centroids, centers of mass, and distributed loads, free-body diagrams, equilibrium of rigid and deformable bodies, plane trusses, frames and machines, equilibrium in 3D, torsion and friction. Use is made of computers for problem solving.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0150 or 0230 or 0231 or 0235) and (PHYS 0150 or 0174 or 0201 or 0475); PROG: School of Engineering

ENGR 0141 - MECHC OF MATLS CVL & ENV ENGR

Minimum Credits: 3
Maximum Credits: 3
An introductory course in the mechanics of deformable bodies, with special application to the range of topics needed by civil engineers. The course material covers internal strains, stresses and deformations which occur when a structure is subjected to applied loads. Problems with tie-in to practical design issues will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGR 0131 or 0135 or ET 0051; PROG: Swanson School of Engineering

ENGR 0145 - STATICS & MECHC OF MATERIALS 2

Minimum Credits: 3
Maximum Credits: 3
Second of a two course sequence covering statics and strength of materials. Topics include: flexure; second moment of areas, shear force and bending moment diagrams, composite beams, shearing stresses, beam deflections, energy methods, Castigliano's methods, moment area method, combined static loading and columns.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (ENGR 0135 or ET 0051); PROG: School of Engineering

ENGR 0151 - DYNAMICS CIVIL & ENVRN ENGNRS

Minimum Credits: 3
Maximum Credits: 3
A basic course in dynamics. Utilizing the Newtonian mechanics of particles, the course covers kinematics and kinematics of particles, kinetics of systems of particles, work and energy, introduction to vibration, single-degree-freedom systems, and two-degrees-of-freedom systems. Applications of dynamics in civil engineering problems. Use is made of computer solution to a two-story building vibration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ENGR 0141 or 0145 or ET 0053) and (MATH 0250 or 0290 or 1035 or 0202); PROG: Swanson School of Engineering

ENGR 0181 - FRESHMAN SEMINAR 1 - HONORS

Minimum Credits: 0
Maximum Credits: 0
An in-depth orientation in the various areas of engineering and the related fields of employment. Includes small group meetings with departmental representatives and special freshman academic advisors.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis

ENGR 0182 - FRESHMAN SEMINAR 2 - HONORS

Minimum Credits: 0
Maximum Credits: 0
Continuation of ENGR 0181 honors freshman seminar. Provides students in the Fessenden Honors in Engineering Program (FHEP) with a vehicle for academically ambitious engineering students to meet each other, and research an in-depth term paper that will be presented at the freshman conference at the end of the term. A formal department choice is made at the conclusion of this semester.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PREQ: ENGR 0081 or 0181; PROG: Undergraduate Swanson School of Engineering

ENGR 0211 - ENGR ANLYSIS TRANSFER STUDENTS

Minimum Credits: 1
Maximum Credits: 1
Introduces the role of computers and software packages in engineering problem solving. Basic analytical, programming design, graphical, and problem solving skills used in the profession. Provides an overview of how material in the basic sciences and mathematics is applied by engineers to solve practical problems of interest to society. Emphasis on the relationship between the engineering sciences and engineering design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 0240 - NANOTECHN & NANOENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This research-oriented course is a multidisciplinary course taught by a faculty team including a professor of electrical engineering and a professor of chemistry. The course introduces nanoscale devices created from a range of nanomaterials including carbon nanotubes (CNTS), nanoparticles (NPS), and nanowires (NWS). Theories of operation, fabrication techniques and applications of Nano devices will be discussed. The course combines lecture, laboratory work, and web-supported project-based learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (MATH 0230 or MATH 0235 or 0150 or 0221) and [PHYS 0175 or PHYS 0476 or (0201 and 0203) or (0150 and 0151)]; PROG: Swanson School of Engineering

ENGR 0241 - FABRICATION & DSGN NANOTECHN

Minimum Credits: 3
Maximum Credits: 3
This overview course examines approaches to top-down and bottom-up nanofabrication and device manufacture; engineering design with nanomaterials, components, and systems; case studies of cutting-edge nanotechnologies (e.g., The `ipod' microdrive, nanoparticle drug delivery, etc.), Commercialization, intellectual property, and venture capital; seminar series.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0175 or PHYS 0476 or 0770 or 0152 or 0202) and (CHEM 0120 or CHEM 0720 or CHEM 0770 or CHEM 0970 or 0102 or 0112); PROG: Swanson School of Engineering

ENGR 0501 - MUSIC ENGINEERING

Minimum Credits: 1
Maximum Credits: 1
A course directed toward development of basic skills in recording engineering through expanded understanding of the science and engineering of music. The course will use the music engineering laboratory (MEL) located in Benedum Hall. The mel is a state of the art sound recording facility with research and educational capabilities for sound recording and music engineering. Students are expected to have prior musical experience, working knowledge of fourier transforms, and working knowledge of basic electronics. Topics covered: recording engineering (microphones, amplifiers, mixing, filtering, special effects). Physics, mathematics, and psychophysics of sound and music (acoustics, speech and singing, hearing, pitch, stereo perception). Musical instrument function (mechanical and electronic)
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0711 - HONORS ENGR ANAL & COMPUTING

Minimum Credits: 3
Maximum Credits: 3
This is an accelerated course in computer fundamentals and engineering applications. The material of ENGR 0711 covers the material in both ENGR 0011 and ENGR 0012. The course is at an accelerated pace and then a variety of engineering design analysis and solution techniques are presented. It introduces students to basic topics in engineering, the role of the computer in engineering, ill-structured problem-solving and report writing. The course includes material on the use of Unix, HTML, spread sheets, MATLAB and C++. Students learn fundamentals of computing in engineering including program design, program development, and debugging. Applications to problems in engineering analysis are included in the course. The writing component includes four detailed reports and includes an oral presentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 0712 - ADV ENGR APPLCS FOR FRESH

Minimum Credits: 3
Maximum Credits: 3
This is an honors course and a continuation of ENGR 0711. Students will be introduced to engineering research and various special topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0711; PROG: Undergraduate Swanson School of Engineering

ENGR 0715 - ENGR APPLICATIONS FOR SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This service learning course will initially focus on applications in medicine and rehabilitation treatment. Students will work in teams as they address a critical clinical problem, examining issues from both the patient and physician perspectives. Future years will introduce environmental and sustainability problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0711; PROG: Undergraduate Swanson School of Engineering

ENGR 0716 - ART HANDS-ON SYS DSGN ENGR

Minimum Credits: 3
Maximum Credits: 3
Engineering is fundamentally a creative process in which ideas are generated and transformed into new systems and devices in the world to meet human needs. The term engineer shares its origins with ingenious: one definition of engineer is 'a skillful inventor.' In this course, we will explore tools and techniques for inventing, designing and prototyping systems. Through discussion, small-team activities, workshops and hands-on projects, students will obtain an introduction to design thinking, 'maker culture' and systems engineering. We will explore user-centric design principles; sketch modeling; basic building elements for systems such as sensors, computer controllers, actuators and displays; materials and methods for prototyping; and ways to analyze and troubleshoot systems. Students will gain an introduction to 'smart systems': automated systems that can sense the world and automatically respond in useful ways. We will also focus on the user interface: how to create control and display interfaces that enhance users' ability to operate systems effectively and efficiently.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0711; CREQ: ENGR 0082; PLAN: Undeclared

ENGR 0718 - ENGR SOLUTIONS-ENGR & ENV PROB

Minimum Credits: 3
Maximum Credits: 3

The course will provide an overview of some of the key issues influencing our current energy situation and present some of the strategies that are being advocated for addressing these issues. These strategies will be evaluated and assessed from an engineering perspective to study their effectiveness and reasonableness. Barrier issues for implementing some of these new energy strategies will be discussed. These include economic impact, global warming, and infrastructure and social barriers to widespread implementation of new energy strategies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0765 - MATERIALS CHEMISTRY 1

Minimum Credits: 3
Maximum Credits: 3
This course develops the usual chemical principles governing the structure of matter and its changes with more emphasis placed on the solid state and polymeric materials. Furthermore, a special emphasis will be placed on relating atomic and molecular structure and bonding to the macroscopic properties of functional matter-engineering materials-such as metals, ceramics, polymers and semiconductors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 0775 - MATERIALS CHEMISTRY 2

Minimum Credits: 4
Maximum Credits: 4
Includes: phases of matter, phase diagrams, concepts of chemical equilibrium, applications to equilibrium in solid materials and aqueous solutions, synthesis of modern, Nano structured ceramics, metals and alloys; principles of electrochemistry: applications to solid state Ionics, solid oxide fuel cells, solid state sensors, corrosion mechanisms, prevention of corrosion. Chemical kinetics, reaction mechanisms, reactions between solids. Chemistry of transition metals, transition metal oxides including perovskites, and superconductors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1010 - COMMUNICTN SKILLS FOR ENGINRS

Minimum Credits: 3
Maximum Credits: 3
Utilizing a variety of spoken, written, and audio-video activities, the students learn how to give instructions, use feedback, listen, conduct the job and appraisal interview. Run meetings, use groups, make presentations, manage crises...Most of the skills they need to strengthen their personal, interpersonal, group and organizational communicative skills. The instructing-learning process emphasizes motivation, concentration, participation, organization, comprehension, repetition, articulateness, and confidence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1030 - ENGR HUMANITY SVC LRNG PROJECT

Minimum Credits: 1
Maximum Credits: 3
A service learning project in which social and/or environmental sustainability is a core thrust. The project is guided by an approved member of faculty from the Swanson school of engineering and satisfies a requirement of the engineering for humanity certificate program. The project can be international or based within the US and is subject to pre-approval.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1040 - INTRO TO REHABILITATION ENGR

Minimum Credits: 3
Maximum Credits: 3
Introduces undergraduate engineering students to the field of rehabilitation engineering by applying engineering concepts to reduce the barriers people with disabilities currently face. Topics include 1) analysis and design of sensory aids for vision and hearing; 2) electrical stimulation of nerve; 3) design of accessible accommodations; 4) analysis and design of prosthetics; 5) biomechanics of wheelchair propulsion; 6) solutions for interfacing technology and people with disabilities; 7) ethical considerations of designing technology for people with disabilities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1050 - PRODUCT REALIZATION

Minimum Credits: 3
Maximum Credits: 3
This interdisciplinary course will focus on product analysis, product redesign and product development. Student teams will work with industrial sponsors to develop product plans for emerging and existing products.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 1051 - BUSINESS PLAN TO PRODUCT IMPLM

Minimum Credits: 3
Maximum Credits: 3
This independent study course will allow selected design teams (via the competitive judging process of ENGR 1050) to advance product ideas to prototyping and potential commercialization. Each student team will begin with their business plan and up to $2500 they will have been awarded from the venture capital committee for use in further developing their product using the new product incubator. We plan to raise sufficient funds so that up to ten design teams can be funded annually from the mini Pitt venture capital" fund."
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1055 - ENVIRNMNTL PROBLMS & SOLUTIONS

Minimum Credits: 3
Maximum Credits: 3
The course will introduce the students to basic environment al problems and allow them to develop possible solutions to these problems using tools from scientific disciplines (e.G., Chemistry, biology, etc.). The students will learn to apply traditional concepts in developing solutions to non-traditional problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGR 1060 - SOCL ENTREP-ENGRG FOR HUMANITY

Minimum Credits: 3
Maximum Credits: 3
The course will explore the concepts of social entrepreneurship through the three tenets of sustainability: environment, economy, and equity in the context of complex or `wicked' problems. An introduction will provide a foundation in sustainability and social entrepreneurship while exploring the impact of innovative business models, such as disruptive innovation and Prahalad and Hart's fortune at the bottom of the pyramid. Additional class time will explore different examples and challenges in the developed and developing worlds. Through weekly readings, the course will focus on classroom discussions about the tenets of sustainability and the relevance of engineering in crafting `solutions'. The course project will provide students with an opportunity to work with a multi-disciplinary team to design an engineering-based business plan targeting a specific challenge either locally or in the developing world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1065 - NANMAN & NANMATRLS FR PHOTVOLT

Minimum Credits: 3
Maximum Credits: 3
This course aims to prepare the undergraduate students in the development of low-cost, high-efficiency solar cells. Students will 1. Apply nanomanufacturing and nanomaterial concepts to photovoltaic application, 2. Learn how to use instruments for synthesis and characterization of nanomaterials and photovoltaic devices, 3. Examine the social implication of nanotechnology and photovoltaics, and 4. Practice problem solving and engineering design skills within a collaborative team.We will cover solar cell fundamentals, low cost solar cells, and high efficiency photovoltaic systems
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PHYS 0175; PLAN: Swanson School of Engineering (UENGR)

ENGR 1066 - INT SOLAR CELLS NANOTECHN

Minimum Credits: 3
Maximum Credits: 3
Introduction to solar cells and nanotechnology this course aims to prepare Undergraduate students in the design and development of low-cost, high-efficiency solar cells. Students will learn the basics of solar cells, introduce themselves to nanotechnology and how this may enable next-generation solar cells, learn how to use instruments for synthesis and characterization of nanomaterials and solar cells, examine the social implication of

nanotechnology and solar cells, and practice problem solving and engineering design skills within a collaborative team. Portions of the class will be flipped (video lectures at home and assignments in class) in order to facilitate an active and engaged learning process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: PHYS 0175; PROG: Swanson School of Engineering

ENGR 1070 - POWR GENRT FROM THE GROUND UP

Minimum Credits: 3
Maximum Credits: 3
More than 50 percent of today's power generation and consumption worldwide relies on fossil energy sources, i.e. coal, natural gas, and oil, all 'from the ground up,' and this trend is expected to continue for many decades. This course will address key technical, environmental and societal issues associated with today's fossil energy supplies, exploration, recovery (e.g., horizontal drilling and hydraulic fracturing) energy conversion, and power generation systems. Based on the fundamental principles of thermodynamics, student will understand how a variety of physical components can be combined into practical power generation systems. Both vapor power cycles, where the primary motivating force is phase change, and gas power cycles, where combustion plays a more significant role, will be explained, analyzed, compared, and contrasted. Once the overall system performance is understood, the detailed mechanics of components such as heat exchangers, pumps, and turbines will be discussed. In addition, the role of advanced power generating technologies, such as fuel cells, will be examined. The course will be concluded with an overview of carbon management strategy, particularly in capture and sequestration of carbon-dioxide.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1071 - ELCTL POWR TRNS DISTRB & GRID

Minimum Credits: 3
Maximum Credits: 3
This is an overview course designed to introduce students to electric power transmission and distribution grid technologies dedicated to reliably, efficiently, economically, and safely managing electric power across utility networks. The course will cover the application of various grid technologies from power generation through power consumption including transmission networks, grid automation, power electronics systems, communications and control, protection, grid operations, grid connectivity, renewable energy integration, cyber security, and other emerging areas, as well as an introduction to power utility markets, business processes, and policy/regulation. Students will gain an understanding of the how the broad spectrum of power grid technologies is integrated into the electrical energy industry, with an emphasis on transmission and distribution systems at the electric utility level. Since nuclear power often plays a significant role for near-term and future smart grid strategy in many developed countries, such as France, Japan and South Korea, part of this course will be directed to an overview of today's nuclear power generation and its relation to grid technologies.

ENGR 1097 - INTERNATIONAL SPECIAL PROJECT

Minimum Credits: 3
Maximum Credits: 3
This course involves an individual project done under the supervision of a university of Pittsburgh engineering faculty member and a faculty member of a foreign university. The project is done on site at the foreign university and involves an experimental study, a design project, a literature review of a special topic, or instruction.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

ENGR 1098 - INT'L SENIOR DESIGN EXPERIENCE

Minimum Credits: 1
Maximum Credits: 1
This one credit course is focused on understanding globalization and technology with a particular emphasis on sustainability design and international experience. By the end of this course, students should understand the basic history, government, and economic strategies, related to their country; produce a final design that is the most cost-effective design possible, as funding for construction is limited and repairs in the future would be undertaken by members of the community; be able to define 'globalization' and 'sustainability' and identify how it is impacting their respective fields of study and future employment; gain awareness of differences in the business environments of the U.S. In relationship to the rest of the world.
Academic Career: UGRD
Course Component: Independent Study

ENGR 1100 - STRUCTURE & PROPRTS OF MATRLS

Minimum Credits: 3
Maximum Credits: 3
New materials represent the underpinning technology in all branches of engineering, making possible the design of new structures, engines, appliances, and electromagnetic devices. Breakthroughs in composites, ceramics, polymers, magnet materials, high temperature alloys and super conductors promise to revolutionize industry. This course develops the principles governing the design, manufacture, and performance of metallic and non-metallic materials, emphasizing the relationship between structures, properties, and processing from super alloys to superconductors.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 1101 - INTRO TO ENGINEERING EDUCATION

Minimum Credits: 0
Maximum Credits: 0
Introduces the role of computers and software packages in engineering problem solving. Basic analytical, programming design, graphical, and problem solving skills used in the profession. Provides an overview of how material in the basic sciences and mathematics is applied by engineers to

solve practical problems of interest to society. Emphasis on the relationship between the engineering sciences and engineering.

ENGR 1213 - ENGR SERVICE LEARNING: BRAZIL

Minimum Credits: 6
Maximum Credits: 6
This course examines the development and practice of science and engineering in the context of their underlying cultural bases (social, political, religious, and organizational). The goal of the course is not just to understand the practice of technology in one country versus another, but to develop analytical skills for analyzing technology in any international setting. The course is designed for students from a wide variety of backgrounds and majors; engineering background is useful but not necessary.

ENGR 1256 - ENGINEERING IN THE AMERICAS
Minimum Credits: 3
Maximum Credits: 3
Traveling throughout Latin America one can encounter stunning examples of engineering expertise, from the Aztec and Mayan pyramids and cities such as Tenochtitlan, Palenque and Tikal, to the lost city of the Inca, Machu Picchu, to name just a few. This course is designed to introduce students to the methods employed in the design and construction of these and other major Pre-Columbian structures, and to analyze why these structures have remained stable in the face of time and natural hazards. Factors which made pre-Columbian engineers so effective will be analyzed using basic principles of civil engineering. The class will consist of preparatory lectures, discussion, exercises, a site visit to Cuzco and Machu Picchu (Peru), and debriefings subsequent to the site visit.

ENGR 1430 - PORTUGUESE 3 FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
This third semester of Brazilian Portuguese is specifically designed for engineering students who will be doing research and/or studying in brazil. The course covers technical and educational terminology through examination of Brazilian sustainable engineering case studies while further advancing the students' knowledge and ability in Brazilian Portuguese. The course will further enhance the cognitive skills of engineering students, and give them an appreciation of the interrelation of career paths, language skills, and cultural awareness. This course is required for all IGERT fellows.

ENGR 1440 - INTRO KOREAN LANG & CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students and scholars of all disciplines, especially in engineering and science, who plan to go to Korea to study or conduct research in the future. This course is unique in its intention and contents that it includes both Korean language lessons and the study of history and cultures in Korea. This course introduces basic linguistic skills in conjunction with the cultural aspect associated with the language. While learning Korean history and culture, the participants learn how the modern Korean history is intertwined with us foreign policy, and they are encouraged to position themselves in the context of global processes. They also learn to approach Korean culture as a dynamic process in relation to global economy and politics, rather than a static and contained structure.

ENGR 1450 - ENGINEERING- THE GERMAN WAY

Minimum Credits: 1
Maximum Credits: 18
This course highlights the German approach to engineering from various perspectives. It is designed as mixture of in-class lectures and industrial experience in the form of factory tours. Four broad topics are addressed from the German perspective: (1) R&D management, (2) production and manufacturing systems, (3) digital factory layout and factory simulation, and (4) product-ergonomics and ergonomic aspects in manufacturing. In addition students select one of two additional options dealing with unique aspects of the German business economy: (1) the nature of cooperation between trade unions and employers or (2) the impact on technology law and harmonization on engineering in Europe.

ENGR 1500 - ETHCL DIL BALNC COST,RISK,SCHD

Minimum Credits: 3
Maximum Credits: 3
Students will explore the interfaces among engineering ethics, design, schedules, costs and risk assessment. Teamwork, communications and management skills will also be developed. Students will analyze a series of well-known cases, as well as discussing current ethical situations involving engineers and engineering managers. Students will learn to recognize and resolve the types of ethical dilemmas that they could encounter in the workplace. A term paper serves to integrate and extend the entire course material.

ENGR 1600 - GLOBAL ENGINEERING TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
Globalization and innovation will be studied with a particular emphasis on China in conjunction with the Innovate 2012 conference. As such the course provides both the preparation for the conference and the post-conference synthesis of what was learned during the conference. The course will be jointly taught by University of Pittsburgh and Rice University faculty exclusively for those students who will be delegates to the Innovate Conference. Guest lecturers will be invited from the two participating universities who will discuss the history, government, religion, business climate and culture of China. This course requires participation in the Innovate 2012 Symposium that will visit Beijing, Suzhou, and Shanghai, China from March 1 - 11.

ENGR 1610 - PRODUCT REALIZ GLOBAL OPPORT

Minimum Credits: 3
Maximum Credits: 3
This course covers all of the techniques and this course will have the same prerequisites as ENGR objectives of ENGR 1050, with an international component and perspective. For this course, students learn skills and strategies associated with product design and product realization in the context of complex, international product design teams from the perspective of creating sustainable products for developing markets. Students will work on sustainability projects under the guidance of faculty experts in product design and sustainability at the University of Pittsburgh through the Mascaro

sustainability initiative and at the University of Campinas (UNICAMP) in Brazil. Outcomes for students include learning how to develop viable, marketable products that address sustainable development needs and how to work cross-culturally, in diverse teams, in international settings, and in-person and in virtual collaborative environments. For the course, Pitt undergraduate students will travel to UNICAMP over spring break in order to collaborate in-person on real-world sustainable development product needs. In addition to this face-to-face collaboration, students will continually interact through videoconferencing and on-line collaboration environments, including the NCIIA rapid network. This course is supported through a grant from the NCIIA to defer costs of travel and protype construction.

ENGR 1620 - PRODUCT DSGN & DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
The focus of product design and development is integration of the marketing design and manufacturing functions of firms in creating new products in a diverse economy that is experiencing rapid growth. Students will analyze several case-studies within the Indian context to study the multiple stages involved with new product creation, design, engineering, and production. The importance of creating new products suited for rural-agricultural settings which are eco-friendly and satisfy sustainable economic communities will be addressed throughout the course. Topics include: discuss the set of tools and methods for product design and development; develop abilities to create a new product; awareness of the role of multiple functions in creating a new product (e.g. Marketing, finance, industrial design, engineering, production); ability to coordinate multiple, interdisciplinary tasks in order to achieve a common objective (examine local conditions, needs and constraints; case studies (to be gathered from various sources).

ENGR 1625 - ENGR BUS COLLABORATIONS INDIA

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the studying modern engineering and business principles, methods, and tools, within the context of the Indian environment.

The three focal areas of study are: manufacturing systems, service engineering operations, and call centers. A visit to India will showcase challenges and opportunities available at the corporate level and at the individual level in this rapidly growing economy. It will also focus on the societal impacts of new technologies and rapid expansion of engineering industries in India. Students can utilize this forum to analyze and visualize service manufacturing engineering challenges and opportunities around the world. Plant visits and interfaces with engineering students and practicing engineers will allow students to appreciate the following professional characteristics: ethics, the ability to work with others, an appreciation for other disciplines, adaptability, and an appreciation for life-long learning.

This short course will educate students on the impact of modern china on engineering solutions in a global and societal context, improve student's knowledge of contemporary issues relating to the engineering and business profession. At the end of the course, students will have a general understanding of the corporate, geo-political, cultural and social factors that define the Chinese landscape at the present time. An in-depth paper exploring one of these factors will be required. This short course will explore how these three factors interact in china and in the perceived position of china as a world economy.

Course Requirements: PROG: Swanson School of Engineering

ENGR 1628 - BRAZIL TODAY

Minimum Credits: 1
Maximum Credits: 1
This introductory course, offered jointly by Pitt and CMU, explores how current thematic factors interact to influence brazil's position in the world today and into the future. The 3-day, weekend course will touch upon issues including: education, industrial growth, economic development, business influence, exports and socio-economic shifts. Course requirements include attendance, brief written reflections, and a final paper.
Academic Career: UGRD
Course Component: Workshop
Grade Component: Letter Grade

ENGR 1630 - UNDERGROUND COAL MINING

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory course that covers the exploration, development and mining of coal deposits, the history of coal mining, the modern

mining methods and operations, types of coal mining equipment, and the fundamentals of coal mine ground control and ventilation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 1631 - INTRO TO MINING ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
The course introduces students to: 1) the history and importance of mining, 2) the exploration and development of surface and underground mines, 3) modern mining methods and operations, 4) common mining equipment, 5) fundamentals of mine ground control and ventilation, 6) elements of coal preparation and mineral processing plants, and 7) mine health and safety management. It is designed to provide students with basic understanding of the primary elements of a mining operation and the engineering issues associated with operating a mine in a safe, effective, and sustainable manner. The mining industry is replete with technical jargon and specialized processes and machinery that require mastery by students prior to exploration of more technically complex engineering coursework. Introductory lectures and field trips help to prepare students for the rigors of studying the other mining engineering courses offered within the Swanson School of Engineering.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: (PROG: Swanson School of Engineering) or (PLAN: Geology (BS or BPH))

ENGR 1632 - SUSTNBL DEVELM & MINRL INDSTRY

Minimum Credits: 3
Maximum Credits: 3
The course begins by examining the needs of society and commercial entities engaged in mineral production. Well conceived and designed mineral or solid fuel projects exercise a balance between economic prosperity, environmental health, and social equality. These concepts are then integrated into a case study, where the feasibility of a proposed mining project is analyzed. This examination forms the underpinnings of a course project report.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1633 - MINERALS INDUSTRY RISK MGMNT

Minimum Credits: 3
Maximum Credits: 3
Explores the concepts, models and methods used to create and support the implementation of risk management within minerals industry organizations. Models and methods include life cycle model, work process model, risk analysis methods and risk assessment methods used to implement a minerals industry risk management framework.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 1634 - ENVIROMENTAL CONTROLS MINING

Minimum Credits: 3
Maximum Credits: 3
The course is designed to study the environmental impact of coal, stone, and other mining operation and examine the engineering controls used to mitigate these impacts. The examination begins with the exploration and permitting of the mine site, emphasizing important environmental issues. Next, the impacts of active mining on land and water use are outlined. Most of these issues are related to subsidence impacting surface structures and water movement both at the surface and underground. To complete the mine's life cycle, closure and remediation issues are investigated. Lastly, a detailed examination of the issues associated with abandoned mined-lands, i.e. Acid-mine drainage, mass-wasting, fires, etc., Are studied. Throughout the course, engineering controls that focus on mitigating the environmental impacts of mining are acknowledged and assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1635 - MINE VENTILATION ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course provides the skills needed to analyze and design ventilation systems for underground mines based on 1) regulatory requirements, 2) health concerns for workers, 3) levels of dusts and toxic or explosive gases present, 4) mining methods used, and 5) splitting and delivery of different quantities of air to various workplaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 1636 - ADVANCED MINING SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1637 - STRATA CONTROL ENGINEERING
Minimum Credits: 3
Maximum Credits: 3
This course provides the skills needed to analyze and design ground control systems for underground mines based on 1) regulatory requirements, 2) safety concerns for workers, 3) stress and displacement characteristics, 4) proposed mining methods, and 5) local geologic conditions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

ENGR 1638 - MINING HEALTH AND SAFETY
Minimum Credits: 3
Maximum Credits: 3
Presents an overview of the health and safety issues within the mining industry and to examine current efforts to address these issues. In-depth discussion of health issues affecting mining include: diesel control, noise induced hearing loss, silicosis, coal mine dust monitoring and control, toxic substances, and toxic fumes. In-depth discussion of safety issues affecting mining include: explosives, falls of ground, mine inundation's, fire prevention, mine explosions, ventilation, methane control, emergency response and rescue, training, ergonomics, machine safety, and electrical safety.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 1639 - MINE EVALUATION AND MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
Mine evaluation, an essential component of mineral resource management, are examined in terms of performing, investigating and reporting on mine sampling, mine evaluation, grade control and reserve estimation. Mine management relates the economic, governmental, social, regulatory, cost, labor, health, safety and environmental aspects of mineral extraction to the management of the mining enterprise.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 1700 - INTRO TO NUCLEAR ENGINEERING
Minimum Credits: 3
Maximum Credits: 3
Introduction to nuclear science and technology; applications of nuclear engineering; careers in nuclear industry; nuclear history; reactor types; elementary nuclear and reactor physics; nuclear radiation and safety; fuel cycle; regulations and sustainability.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0152 or PHYS 0175 or 0202 or PHYS 0476) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0420 OR CHEM 0720 or CHEM 0770 or CHEM 0970); PROG: School of Engineering

ENGR 1701 - FUNDMS OF NUCLEAR REACTORS
Minimum Credits: 3
Maximum Credits: 3
Nuclear physics, fission and fusion; cross-sections; neutron flux and slowing-down; diffusion and transport; criticality condition and calculations; reactor kinetics and shielding; heat generation, transfer and cooling; reactor materials; reactor structure.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0152 or PHYS 0175 or 0202 or PHYS 0476) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0420 or CHEM 0720 or CHEM 0770 or CHEM 0970); PROG: Undergraduate School of Engineering

ENGR 1702 - NUCLEAR PLANT TECHNOLOGY
Minimum Credits: 3
Maximum Credits: 3

Current and future reactor systems; nuclear power plants; balance of plant configuration; fuel cycle management; reactor operation principles; reactor plant economics; analysis and design of nuclear systems; design projects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (PHYS 0152 or PHYS 0175 or 0202 or PHYS 0476) and (CHEM 0102 or 0112 or CHEM 0120 or CHEM 0420 or CHEM 0720 or CHEM 0770 or CHEM 0970); PROG: Undergraduate School of Engineering

ENGR 1704 - THE FRENCH NUCLEAR CYCLE

Minimum Credits: 3
Maximum Credits: 3
The French have the most complete implementation of the nuclear fuel cycle of any country in the world. Areva, a French public multinational industrial conglomerate, is mainly known for nuclear power. Their interests in the nuclear power field include mining, milling, conversion, enrichment, fuel fabrication, the design and construction of nuclear power plants, the service of nuclear power plants, used/spent nuclear fuel storage, the reprocessing of used/spent nuclear fuel, the fabrication and utilization of mixed oxide fuel. The French agency cea, commissatiat á l'energie atomique, conducts research on advanced fuel cycles, advanced applications of nuclear power, applications of radioactivity, and the long-term disposal of radioactive waste. This course will acquaint the student with the nuclear fuel cycle via the implementation of the French nuclear fuel cycle. The course will provide introductory material on the nuclear fuel cycel in the classroom at the University. Then the students will travel to France to interact with nuclear engineering academics, engineers and scientists working in the area, and tour facilities in France.

Grade Component: No Grade Required

ENGR 1713 - RADIATION DETECTION & MSRMT

Minimum Credits: 3
Maximum Credits: 3
This combined lecture and laboratory course will proved students with an introduction to the principles of radiation detection and measurement and experimental techniques. The lecture material will provide students with an understanding of the theoretical bases of detector operation, radiation interactions with matter, signal conditioning and processing electronics, measurement techniques, and statistical considerations. Laboratory work will emphasize the practical aspects of radiation detection using an array of radioactive sources, detectors, and associated signal processing electronics. Through a series of laboratory experiments, students will learn to configure and operate instrumentation used in a wide range of radiation detection applications that are of interest to nuclear power, nuclear medicine, radiochemistry, and other scientific disciplines.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGR 1716 - ART HANDS-ON SYS DSGN ENGR

Minimum Credits: 3
Maximum Credits: 3
Engineering is fundamentally a creative process in which ideas are generated and transformed into new systems and devices in the world to meet human needs. The term engineer shares its origins with ingenious: one definition of engineer is 'a skillful inventor.' In this course, we will explore tools and techniques for inventing, designing and prototyping systems. This course is based on experiential learning: through interactive discussions, small-team exercises, maker assignments, workshops and hands-on projects, students will obtain an introduction to design thinking, 'maker culture' and systems engineering. ENGR 1716 is an upper division version of freshman honors ENGR 0716. It is for sophomore, junior and senior level students. We will explore user-centric design principles, low-resolution prototyping and experience prototyping, basic building elements for systems such as sensors, computer controllers, actuators and displays, materials and methods for prototyping, and ways to analyze and troubleshoot systems. Students will gain an introduction to 'smart systems': automated systems that can sense the world and automatically respond in useful ways. We will also focus on the user interface: how to create control and display interfaces that enhance users' ability to operate systems effectively and efficiently.
Academic Career: UGRD

Grade Component: Letter Grade

ENGR 1770 - ENGINEERING FOUNDATIONS OF MUSIC

Minimum Credits: 3
Maximum Credits: 3
Since Paleolithic times, engineering has been applied to the production of music, but advances in the past few centuries, including sound recording, the introductions of electronics, and a greater understanding of the physics, mathematics, and psychology of sound, have greatly expanded what a student can learn in the field of music engineering. This is a lecture course about the engineering aspects of music, including the following general topics: the physics of sound and the mathematics of harmony; the means of creation through mechanical musical instruments, including the human voice, as well as electronic instruments; recording, reproduction, and enhancement though signal processing; interaction with human perceptual, cognitive, and motor systems. Assuming knowledge of differential and integral calculus, the course will develop (or review) a basic understanding of convolution and Fourier Analysis through examples in the engineering aspects of music. Starting with an historical perspective on technology, we will extrapolate a look into the future of music engineering. Students will be able to describe engineering aspects of musical instruments, reproduction, and processing and apply the mathematical and physical basis for sound and the theory of harmony in understanding the system of interaction between human and machine that constitutes music. Topics covered include: convolution and Fourier Analysis; physics of sound; mathematics of harmony; physics of mechanical instruments; recording and reproduction of music; electronic processing of sound; electronic synthesis of music; psychophysics of music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG

ENGR 1830 - WEB BASED INTRACTV TUTORL DSGN

Minimum Credits: 3
Maximum Credits: 3
Tools and techniques for developing interactive educational world-wide-web pages will be presented. Topics may include html, Perl, cGI, java, and javascript. Emphasis is on developing working web pages that deliver technical content through interactive tutorials. Student must have working knowledge of one or more programming languages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

ENGR 1859 - PRODUCTRONICS

Minimum Credits: 3
Maximum Credits: 3
Goals of this course will be to develop a conceptual frame work to allow persons with little or no knowledge of current electronic design or fabrication to produce prototype discrete devices that cover a wide range of applications and develop modules that can be used by persons not familiar with electronic design. These modules would have the ability to be modified to fit a number of distinct applications. Specific areas of design covered include: energy source alternatives, selection of alternative sensors, rf communications, i/o port connections, custom prog, infor alt.
Academic Career: UGRD

ENGR 2210 - UNDST BRAZIL-PREP RES & STUDY

Minimum Credits: 2
Maximum Credits: 2
This seminar is specifically designed for students who will be doing research and/or studying in Brazil. It introduces the economic, political, social,

and cultural aspects of Latin America in general and brazil in particular. The seminar is organized and conducted by the center for Latin American studies, and features guest lectures from on brazil, readings from current popular literature and news sources (available from the Eduardo Lozano Latin American collection, a library resource of over 340,000 volumes spanning 30 years), and contemporary films (such as decade of destruction: killing for land and Brazilian populations: stories and myths). The first half of the course will introduce students to day-to-day life in brazil, as well as its current socio-economic situation, the influence of politics and ethnic relations, and the many aspects of Brazilian culture. The second half will focus on disciplinary perspectives that allow students to explore regional issues from a variety of viewpoints. The final seminars in the semester will be used for the presentation of individual student reports on a topic related to Brazilian life, such as the governmental structure, university system, or integration of technology with indigenous lifestyles and traditions. This course is required for all Igert fellows.

English

ENGCMP 0100 - INTENSIVE WORKSHP IN COMPOSITN
Minimum Credits: 3
Maximum Credits: 3
This course creates an intensive workshop in composition for students who have limited experience as readers and writers. Students engage in a rigorous program of college level reading and writing that introduces them to academic inquiry, analysis, and argument. Discussion of student writing is central to the course, and discussion of the readings will often focus on how students have written in response to them.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0101 - INTENSIVE COMPOSITION WORKSHOP
Minimum Credits: 3
Maximum Credits: 3
This course creates an intensive workshop in composition for students who have limited experience as readers and writers. Students engage in a rigorous program of college level reading and writing that introduces them to academic inquiry, analysis, and argument. Discussion of student writing is central to the course, and discussion of the readings will often focus on how students have written in response to them.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0150 - WORKSHOP IN COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to give students who have had limited experience with writing an opportunity to increase their control of written language and their confidence in performing academic inquiry, analysis and argument. Students write in response to weekly assignments, and instruction focuses on helping students to extend, revise, and edit their work.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: Enrollment restricted to students with a SAT English Verbal high score less than 560 or an ACT score of 24.

ENGCMP 0151 - WORKSHOP TUTORIAL

Minimum Credits: 2
Maximum Credits: 2
This course provides support for students who are taking ENGCMP 0150 workshop in composition. Students meet weekly with a writing center consultant to work on understanding and addressing writing assignments. Students can also expect to learn how to strengthen their writing at the sentence- and paragraph-levels. Students work one-on-one with a consultant, using the papers they produce in ENGCMP 0150 as materials for discussion.
Academic Career: UGRD
Course Component: Workshop
Grade Component: Satisfactory/No Credit
Course Requirements: CREQ: ENGCMP 0150 or ENGCMP 0152

ENGCMP 0152 - ESL: WORKSHOP IN COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to give students learning English as a foreign language an opportunity to develop their ability to write in English and their confidence in performing academic inquiry, analysis and argument. Students write in response to weekly assignments, and instruction focuses on helping students to extend, revise, and edit their work.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0007 or LING 0009

ENGCMP 0200 - SEMINAR IN COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This introductory course offers students opportunities to improve as writers by developing their understanding of how they and others use writing to interpret and share experience, affect behavior, and position themselves in the world. Specific reading and writing assignments may vary from section to section, but student writing will be the primary focus in all sections. The course is designed to help students become more engaged, imaginative, and disciplined composers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or 0100 or 0150 or 0152 or ENG 0101

ENGCMP 0201 - COMPOSITION TUTORIAL

Minimum Credits: 1
Maximum Credits: 1
This course is a series of tutorial sessions designed to help students with their writing at the sentence and paragraph levels. Students work one-on-one with a consultant in the writing center, using the papers they produce in ENGCMP 0200 as materials for discussion.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit
Course Requirements: CREQ: (ENGCMP 0200 or 0203 or 0205 or 0207 or 0208) or (FP 0003 or 0006)

ENGCMP 0202 - WRITING CENTER TUTORIAL

Minimum Credits: 1
Maximum Credits: 1
Individualized tutorial for students who have severe problems with writing.
Academic Career: UGRD
Course Component: Workshop
Grade Component: Satisfactory/No Credit

ENGCMP 0203 - SEM CMPSTN: GENDER STUDIES

Minimum Credits: 3
Maximum Credits: 3
Like other seminars in composition, this introductory course offers students opportunities to improve as writers by developing their understanding of how they and others use writing to interpret and share experience, affect behavior, and position themselves in the world. This particular seminar will include readings and writing activities that comment on gender difference and consider the ways in which language and culture construct socially acceptable gender and sexual norms.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or 0100 or 0150 or 0152 or ENG 0101

ENGCMP 0205 - SEMINAR IN COMPOSITION: FILM

Minimum Credits: 3
Maximum Credits: 3
Like other seminars in composition, this introductory course offers students opportunities to improve as writers by developing their understanding of how they and others use writing to interpret and share experience, affect behavior, and position themselves in the world. This particular seminar will include a series of films, along with discussions that focus on how films and other media shape the ways we view and understand the world.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or 0100 or 0150 or 0152 or ENG 0101

ENGCMP 0207 - SEMNR IN COMPOSITN: EDUCATION

Minimum Credits: 3
Maximum Credits: 3
Like other seminars in composition, this introductory course offers students opportunities to improve as writers by developing their understanding of how they and others use writing to interpret and share experience, affect behavior, and position themselves in the world. This particular seminar will include readings that consider issues of teaching and learning in American education and may be of interest to those who plan to become teachers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or 0100 or 0150 or 0152 or ENG 0101

ENGCMP 0208 - SEM IN CMPSTN: SERVICE-LEARNG

Minimum Credits: 3
Maximum Credits: 3
Students will engage in service-learning, pairing meaningful service in the community with academic work. Discussions will focus on students' experiences and their reflections as guided by critical readings and short essay assignments. Essays will comprise the central course texts, and weekly work will include reading and discussing the essays that students produce for this course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0252 - CRITICAL WRITING: FILM

Minimum Credits: 3
Maximum Credits: 3
This course is a workshop in practical criticism for students interested in thinking and writing about film. Students will be required to respond to each film and read and reply to what both professional critics and class members have to say about the film.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0254 - CTITICAL WRITING: EDUCATION

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students planning to become teachers or for those who are simply interested in the subject of teaching and learning. Students will concentrate on developing and improving their reading and writing skills as we examine various issues, theories, and practices in American education.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0400 - WRITTEN PROFESSNL COMMUNICTN

Minimum Credits: 3
Maximum Credits: 3
This course explores the methods of inquiry, analysis and composition characteristic of written communication in professional settings. The course will examine such writing's specialized use of language, conventions and formats, premises, motives, and purposes. By preparing letters, resumes, proposals, reports, etc. Students will get a feel not only for what professional" communication is, but also for how and why it does, or can, or should function."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0410 - WRITING IN THE LEGL PROFESSNS

Minimum Credits: 3
Maximum Credits: 3
This course is especially useful for students preparing for classes in the legal professions. Students will be trained to understand the nature of assumptions and assertions, to examine the pertinence of evidence, to judge the appropriateness of tone to subject matter and audience, and to test the validity of an argument through an analysis of its components.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0420 - WRITING FOR THE PUBLIC

Minimum Credits: 3
Maximum Credits: 3
This course explores the theory and practice of writing that serves the public interest, including writing for the nonprofit and the governmental sectors of American society. The course will explore the ethics of writing for the public, the impact of rhetorical contexts on writing, and the ways in which writing and revision can allow us to understand a problem or issue in a new way. Students can expect to read examples of writing for the public, conduct significant research, and write in different genres.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718) or ENGR 0716

ENGCMP 0425 - DIGITAL HUMANITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGCMP 0440 - CRITICAL WRITING

Minimum Credits: 3
Maximum Credits: 3
Students in this course will be trained in the responsible development and articulation of written opinions. Material drawn from various media will be used to help students increase their powers of observation and analysis that they may learn the art of making discriminating evaluations of situations, events, issues, controversies, artifacts and objects.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0450 - RESEARCH WRITING

Minimum Credits: 3
Maximum Credits: 3
This course trains students in the techniques of responsible library research. Students will learn how to locate and utilize the resources of a library. Students will also learn how to take notes and document, use primary and secondary sources, and write paraphrases, summaries and abstracts. Each student will write a major research paper on a topic of his/her choice, one which may legitimately serve as a term paper for another course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0500 - TOPICS IN COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
These courses are offered as alternatives to meet the general writing requirement. Each section will use a specific theme or problem to develop students' facility with the sorts of inquiry and discursive practices that characterize academic work. Topics courses require regular reading, at lEast 35 pages of writing, and regular revision.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0510 - NARRATIVES OF THE WORKPLACE

Minimum Credits: 3
Maximum Credits: 3
Narratives of the workplace builds on the work of general writing and 400 level course offerings such as written professional communication, writing in the legal professions, and writing for the public by providing students with the opportunity to diversify their writing skills through critically examining workplace narratives and creating an archived presentation based upon workplace experiences or histories.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0515 - PERSASV WRIT-ADVRTNG/FUNDRSG

Minimum Credits: 3
Maximum Credits: 3
In this course, students will analyze and create the kinds of persuasive writing used in the fields of fundraising and advertising. Both types of writing attempt to influence the decisions people make about the money they spend, the attitudes they have, and the issues that shape our society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGCMP 0520 - INTEGRATING WRITING AND DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course allows students to explore the rhetorical implications of design and invites students to consider design and writing as an integral process. The class will alternate lecture/discussion sessions with studio sessions, so that students can learn how to use Adobe InDesign to create both single- and multi-paged documents for particular rhetorical contexts. Student will create a number of designed pieces of writing, including a longer multi-page document for a specific audience.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or ENGR 0012

ENGCMP 0550 - TOPICS IN PUBLC/PROFESSNL WRIT

Minimum Credits: 3
Maximum Credits: 3
This topics course is intended for students beginning the public and professional writing certificate, and as a writing-intensive course for students fulfilling general education requirements or interested in writing as a subject as well as a mode of instruction. The course will focus on varied topics, addressing different forms and environments for public and professional writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 0560 - WRITING ARGUMENTS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

ENGCMP 0600 - INTRO TO TECHNICAL WRITING

Minimum Credits: 3
Maximum Credits: 3
This introductory course is for students in various technical fields. Representative technical reports will be studied, as well as abstracts, the presentation of visuals and oral communication. Writing assignments will emerge from case studies reflecting on-the-job challenges.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGCMP 0610 - COMPOSING DIGITAL MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course requires students to compose digital media while exploring the rhetorical, poetic, and political implications of multiple writing platforms. Students will learn how to compose a range of critical media objects using web-authoring languages, text, sound, images, and video in proprietary and open-source software. Classes will focus on theories of writing, composing, design, critique, delivery, and networked distributions; critique and analysis of digital media produced by professional and amateur digital media practitioners; and analysis and revisions of digital media composed by the students themselves.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

ENGCMP 0620 - THEORIES OF WRITING & TEACHING

Minimum Credits: 3
Maximum Credits: 3
This course explores theoretical and practical questions regarding how we understand the practice of writing and how we teach it. Thus the goal of the course will be for students to engage various debates regarding literacy theories and experiment with different approaches to literacy instruction. The work of the class will be analytical, inventive, and experimental, as students will have the opportunity not only to study literacy theories and pedagogues but also to create imaginative responses to these theories by considering how teachers might translate theoretical understandings about literacy into classroom practice.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

ENGCMP 1095 - COMPOSITION TUTORING

Minimum Credits: 2
Maximum Credits: 2
This course is an internship in the writing workshop. It provides interns training in theory and techniques for individualized tutoring of students with writing problems and with practical experience in tutoring college students under the guidance of a master tutor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 1100 - LANGUAGE OF BUSINSS & INDUSTRY

Minimum Credits: 3
Maximum Credits: 3
This course concentrates on how professional people in business and industry communicate among themselves and with the rest of the world. We will both analyze written material from professional areas and practice forms and languages of successful communication in those areas. This course is primarily for students who plan to enter or now hold positions in business and industry.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1101 - LANGUAGE OF SCIENCE & TECHNLGY

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the rhetorical character of scientific writing and examines the role of writing and the use of language in the scientific process. The course permits students to assess professionally prepared texts as well as texts produced by other students, to write and re-write their own text and to develop a critical awareness of the resources of language employed in science and technology.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718)

ENGCMP 1103 - PUBLIC RELATIONS WRITING

Minimum Credits: 3
Maximum Credits: 3
This course studies the ways an organization communicates with its public through news releases, speeches, brochures, feature stories, annual reports, etc. The course examines the stylistic choices each writer makes and develops a critical language to describe how meaning is created through the way information is arranged. Issues of the media, ethics, propaganda and the uses of ambiguity will also be addressed.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: (ENG 0102) or (ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0250) or (ENGR 0012 or 0712 or 0715 or 0718) or (FP 0003 or 0006)

ENGCMP 1104 - CREATIVE CORPORATE WRITING

Minimum Credits: 3
Maximum Credits: 3
This course examines four types of business writing that demand creativity and a polished writing style--executive speeches; advertisements; issue and position papers; and company magazine articles.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: (ENG 0102) or (ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0250) or (ENGR 0012 or 0712 or 0715 or 0718) or (FP 0003 or 0006)

ENGCMP 1111 - PROF WRITING GLOBAL CONTEXTS

Minimum Credits: 3
Maximum Credits: 3
In order to create effective and powerful documents for diverse global audiences, students need to be able to negotiate the expectations, assumptions, conventions, and professional practices of different cultures. This course will help advanced undergraduate students better understand what is at stake in writing for international audiences, how to research issues relating to communication (and especially the use of English) in global contexts, and how to write professional publications for particular international audiences.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or ENGR 0012

ENGCMP 1112 - PROF USES OF SOCIAL MEDIA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG

ENGCMP 1200 - TOPICS IN COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
Each course will use a specific thematic or methodological focus to enact, reflect on, and criticize a specialized mode of academic or professional discourse. Topics courses require regular reading, writing, and revision.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1210 - TUTORING PEER WRITERS

Minimum Credits: 3
Maximum Credits: 3
This course prepares students to be effective tutors for peer writers by introducing them to issues and scholarship in teaching, writing and working as a tutor. Students from any discipline who are interested in careers in teaching, or students who recognize the importance and difficulty of responding well to drafts written by others will find this course of interest. The course is a prerequisite for those students wishing to work as peer interns in the writing center.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1220 - THE ART OF THE ESSAY

Minimum Credits: 3
Maximum Credits: 3
This course offers students who have fulfilled the introductory composition requirement an opportunity to develop more advanced strategies as writers and a deeper understanding of how effective" writing gets defined in various contexts. As they work on their own writing, students will read and discuss work by writers whose prose has received acclaim. Weekly writing assignments and exercises will provide the occasion to explore different styles and approaches to an audience."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1250 - ADV TOPCS PUBLC/PROFESSNL WRIT

Minimum Credits: 3
Maximum Credits: 3
This advanced topics course is intended for juniors and seniors pursuing the public and professional writing certificate, as well as students interested in advanced writing. The course will be offered with focus on varied topics, addressing theoretical, social, or historical issues of writing in public and professional environments.
Academic Career: UGRD
Course Component: Seminar

Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1400 - GRANT AND PROPOSAL WRITING

Minimum Credits: 3
Maximum Credits: 3
This course allows students to study the practices related to proposing change, requesting funds, and defining projects.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1410 - ADV RSRCH/DOCUMENTARY WRITING

Minimum Credits: 3
Maximum Credits: 3
This course offers students the opportunity to study and use techniques of research that are used by writers in a range of professional settings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 1510 - WRITING WITH STYLE

Minimum Credits: 3
Maximum Credits: 3
Designed with the writer in mind, this advanced-level, workshop-style course explores the sentence in its many forms and seeks to deepen students' understanding of grammar, syntax, punctuation, and style as opportunities for creative endeavor. Through the use of imaginative exercises, revisions, and discussion of texts written by students, poets, and essayists, we will immerse ourselves in the practice of writing compelling sentences that best express our thoughts and motives. The course involves a weekly workshop of works-in-progress and the creation of a chapter-length (20-25 pages) prose revisionary project by the end of semester.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGCMP 1551 - HIST & POLITICS ENGLISH LANG

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to both historical and present use and descriptions of the English language. Students also learn techniques for analyzing and understanding the language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1552 - LANGUAGE, LITERACY, LEARNING

Minimum Credits: 3
Maximum Credits: 3
This course examines how individuals and societies acquire, develop, and make use of literacy. Students engage in questions concerning the social and personal consequences of literacy, and they explore various theories and practices of reading, writing, and schooling. The dual focus on how literacy functions in the development of individuals and societies makes this course especially appropriate for advanced students considering careers in elementary and secondary education.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGCMP 1900 - INTRNSHIP: PUBLC/PROFSSNL WRIT

Minimum Credits: 3
Maximum Credits: 3
This internship is intended for juniors and seniors who are pursuing the public and professional writing certificate. The internship is designed to give students a productive, substantive writing experience where they will learn from and contribute to the sponsoring agency or project. Students will consult with an advisor to arrange for intern ships and to construct the plan of work, writing, and over sight.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

ENGCMP 1901 - UTA: TEACHING & TUTOR WRITING

Minimum Credits: 1
Maximum Credits: 3
This experience is intended for students who wish to engage with the theory and practice of teaching writing under the mentorship of an English department faculty member. The undergraduate teaching assistantship is designed to give students a productive, substantive experience in which they will learn from and contribute to students' learning in a classroom or in the writing center. Students will consult with a faculty mentor to arrange the undergraduate teaching assistantship and to construct the plan of work, writing, and supervision.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

ENGCMP 1902 - INDP STUDY PUBLIC PROF WRITING

Minimum Credits: 1
Maximum Credits: 6
This course will allow PPW students to define special projects and a course of study to explore over the course of a term.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGCMP 1903 - SRVC LRNG SEM PBLC PROF WRIT

Minimum Credits: 1
Maximum Credits: 1
This course is open to students who are enrolled in public and professional writing courses. It is taken concurrently with these anchor courses as a voluntary, one-credit add-on. The service-learning seminar pairs meaningful and sustained service activities in a professional non-profit organization with investigation of professional writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

ENGFLM 0355 - VISUAL LITERACY

Minimum Credits: 3
Maximum Credits: 3
Visual literacy is an emerging area of study which deals with the growing importance of visual culture in our contemporary world and how we interpret what is seen. This course will emphasize the process of critically viewing specific media artifacts and provide tools to students that will allow them to comprehend and evaluate information presented by a variety of forms of visual media, including television, video, film, photography, and the internet.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 0400 - INTRODUCTION TO FILM

Minimum Credits: 3
Maximum Credits: 3
This is a basic course on the visual arts that offers the student abroad introduction to the medium of film. As part of this overview, the class will consider such issues as: the process of contemporary film production and distribution; the nature of basic film forms; selected approaches to film criticism; comparisons between film and the other media.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 0401 - INTRODUCTION TO VISUAL CULTURE

Minimum Credits: 3
Maximum Credits: 3
Introduction to visual cultures develops skills to interpret visual culture in contemporary life. Using a wide variety of media, including film, television, advertisements, fashion magazines, museum exhibits, comic books, painting, graffiti, video games, the web, and photography, the course focuses on understanding how conceptions of visuality, gender, race, and politics shape not only definitions of high and low culture but also questions of knowledge and being. The class aims to find connections amongst all elements of culture, often positioning the students as the active analysts of everyday visual objects.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 0520 - FILM THEORY

Minimum Credits: 3
Maximum Credits: 3
A course on a form of narrative called interactive fiction, a text-driven and turn-based narrative form that takes input from a reader and responds with some degree of 'intelligence.' The narrative advances as a result of the interaction between the player-character, who occupies a space within the fictional world, and the fictional work itself.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 250 or FP 0003 or 0006 or ENG 0102 or ENGR 0012 or 0712 or 0715 or 0718

ENGFLM 0530 - FILM ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the art of the cinema, and to the techniques for its formal and iconographic analysis. It examines the nature of shot composition and visual framing, the use of color, the role of lighting as a pictorial element, the potentials of camera movement, the modes of editing and the nature of image/sound montage. It also introduces students to dominant cinema forms--narrative, experimental, documentary, etc.--And connects the cinema to visual arts (like painting and sculpture).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 0532 - INTRODUCTION TO FILM GENRES

Minimum Credits: 3
Maximum Credits: 3
This course surveys major film genres--the Western, the musical, the detective film, the screwball comedy, etc. We will trace the history of film genres from the studio era to the present, including European transformations. The course seeks to relate film genres to the culture that created them.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 0540 - WORLD FILM HISTORY
Minimum Credits: 3
Maximum Credits: 3
This course both introduces students to techniques of film analysis and acquaints them with major works and movements in international cinema. The course pays particular attention to the evolution of film narrative and visual style and landmarks in film development--European avant-garde films, the British documentary, the classic Hollywood film, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
Minimum Credits: 3
Maximum Credits: 3
Over the past two decades, so-called "new media" -- ranging from television, computers, digital image production, video games, to the internet -- have begun to supplant the social and cultural prominence of film and other traditional media. This course will provide an introduction to a critical approach to new media. We'll look at how these media work: at the history and theory of their development, at the changes they have brought about in a broader media culture, and at their social status and significance (e.g., The place they occupy in culture, the kinds of interactions they make possible).
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGFLM 0590 - FILMMAKING: PROD & CRTCSM
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1190 - BRITISH FILM
Minimum Credits: 3
Maximum Credits: 3
This course explores the status of British film as a national cinema. It examines the forms and styles indige nous to British cinema; the relationship of British cinema to British social reality; the changes in film language, production and forms as they relate to the development of British cinema.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1290 - HISTORY OF AMERICAN FILM 1
Minimum Credits: 3
Maximum Credits: 3
This course explores the development of American film from 1895 to 1939. Though the course will emphasize the evolution of American film style and genre, attention will also be paid to the history of the American film industry, and the relationship between Hollywood cinema and the broader cultural context of American society. The course will provide the student with the historical and aesthetic background with which to better appreciate the American cinema of today and yesterday.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1291 - HISTORY OF AMERICAN FILM 2
Minimum Credits: 3
Maximum Credits: 3
This course explores the development of American film from 1940 to the present. The course examines the evolution of American film style and genre, the history of the American film industry, and the relationship between Hollywood cinema and the broader cultural context of American society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1293 - AMER PHOTOGRAPHY/AMER CULTURE
Minimum Credits: 3
Maximum Credits: 3
Photography's basic function is to record. So, what and who are worth documenting? Who has the right to photograph, who and what is represented and why? How do images affirm or debunk our stereotypes about "others," and how do difference and identity emerge through photography? Race and class in American photography explores these questions by examining American photography of African Americans, native Americans, the Japanese interned, union workers, celebrities, and more. Images by and of photographers of varying backgrounds is collectively viewed and

discussed in order to further understand photography's relationship to the social history of race and class in the United States, and to examine ourselves and our relationship to those like/unlike us. Race and class in American photography spans photography's nascent developments until the early part of the 21st century. Photography by those such as Bill Burke, Teenie Harris, James van der Zee, Walker Evans, P.H. Polk, Edward s. Curtis, Toyo Miyatake, and Beth Yarnelle Edwards is examined and discussed. Readings from the course packet include essays by leading photo critics and critical theorists such as Theresa Harlan, Bell Hooks, Vicki Goldberg, Andy Grunberg, Deborah Willis and Karin Higa.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1390 - CONTEMPORARY FILM

Minimum Credits: 3
Maximum Credits: 3
Surveys international film from 1950 to the present and the major film movements of the period. It also demonstrates the stylistic and cultural interrelationships between the international film schools.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1391 - TOPICS IN CONTEMPORARY CINEMA

Minimum Credits: 3
Maximum Credits: 3
Since the late 19th century, world cinema has been ever changing. Cinema was transformed with the coming of sound, color, and large-screen format. The studio system" reigned from the 1920's to the 1960's then lost ascendancy. Changes also have to do with economics and financing, creating "global cinema". The woman's movement changed the stereo typical vision of women. This course will allow the program and faculty to respond to important changes in cinema."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course will offer an overview of various Indian cinema traditions in their historical, aesthetic, and cultural contexts. Students will learn how to analyze Indian films from the 1920s to the present in terms of formal techniques, narrative conventions, and viewing contexts and also in terms of broader historical contexts such as colonialism and the independence movement. The history and formal conventions of Mainstream Bombay Cinema will be counterpointed with other kinds of Indian film.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1420 - TRANSNTNAL EAST ASIAN CINEMAS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1470 - FILM DIRECTORS

Minimum Credits: 3
Maximum Credits: 3
This course looks at the mode of production of films and works to understand the interweaving contributions to that mode of directors, producers and screenwriters. It will also consider less personal forces--social climate, studio style, genre and audience taste. It will, finally, examine the films of particular directors for signs of personal style, theme, or personal preoccupation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1471 - ORSON WELLES

Minimum Credits: 3
Maximum Credits: 3
This course considers the screen career of Orson Welles. In considering his films, the course explores the evolution of Welles' cinematic style; the thematic concerns of his work; the ideological implications of his fictional universe; and his contribution to the development of American narrative cinema.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1472 - HITCHCOCK'S FILMS

Minimum Credits: 3
Maximum Credits: 3
This course will look at the development of Hitchcock's cinema as a way of touching upon issues central to the study of film as a cultural force; the relationship between art and entertainment; the social origins of suspense and fear; the role of the director in creating a film's meaning; the role and function of genre and cross-generic influence. We will closely look at films from all phases of Hitchcock's career and examine what their style, tone, and subject matter reveal about the powers of cinema and Hitchcock's influence on a new generation of directors.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1476 - THE FILMS OF STANLEY KUBRICK

Minimum Credits: 3
Maximum Credits: 3
This course aims to discover the extent to which Kubrick's films are unified in style and theme. We will explore their sources in other films, reputed novels and short stories. Special attention will be paid to themes commonly found in Kubrick; a satirical view of society, the links between violence and sexuality, etc.
Academic Career: UGRD

ENGFLM 1479 - CHILDREN AND MEDIA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1480 - TOPICS IN FILM

Minimum Credits: 3
Maximum Credits: 3
Explores selected issues in the production and reception of film.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

ENGFLM 1481 - YOUTH FILM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1482 - THE STAR SYSTEM AND THE MOVIES

Minimum Credits: 3
Maximum Credits: 3
This course will deal with all aspects of the phenomenon of stardom in film: the production of stars, film acting, and fandom. This is not a course on any particular star, but we will use case studies of individual stars for our weekly focus. We will draw on film examples from the old Hollywood studio system as well as from post-studio films and popular culture. A particular emphasis of the course will be differences between male and female star images. In addition, we will survey a variety of recent approaches to star studies through assigned readings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1483 - FILM SOUND

Minimum Credits: 3
Maximum Credits: 3
In this course, we will learn to listen to films and to use the language and tools of audio analysis to analyze the aural environment produced by films. Topics include the history of film sound, the relation of sound and image, aural and visual pleasures, sound and narrative meaning, soundscapes and theories of shock and modernity, the aesthetics of analog and digital sound in cinema, the 'realism' of recorded sound, film sound and space, sound in documentary cinema, and culturally specific theories of sound.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1485 - FILM AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines film production, economics and forms of representation as reflections of political attitudes. We will study a variety of narrative and non-fiction films which reveal differing political points of view, ranging from those that legitimize the dominant culture to those which criticize, if not challenge, dominant attitudes. We will screen European, U.S., Soviet and third world cinema.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1486 - PHOTGRPHY & SOCL POLITC CONTXT

Minimum Credits: 3
Maximum Credits: 3
This course explores the nature and function of photography as social action. Social documentary images of labor, conflict, politics and social issues are discussed in relationship to their impact on American public consciousness, particularly through the media, reportage, activism, and independent media. The course explores how images have impacted the collective understanding of and reaction to historic events and trends such as the great depression, Vietnam, and civil rights. Points of inquiry: who propagates images and for what? What makes an image political? What deserves to be publicly seen and who decides? Photography and its social and political context primarily addresses images and events from 1935 until today. Photography by those such as Sebastião Salgado, Letizia Battaglia, Eddie Adams, Fazal Sheikh, and Robert Capa is examined and discussed. Readings from the course packet include essays by leading photo critics and critical theorists such as ken light, Susan Sontag, Barbara Trent and Martha Rosler. "Everything in the world must be shown and people around the world must have an idea of what's happening to the other people around the world. I believe this is a function of the vector that the documentary photographer must have, to show one person's existence to another."-Sebastião Salgado this course explores the nature and function of photography as social action. Social documentary images of labor, conflict, politics and social issues are discussed in relationship to their impact on American public consciousness, particularly through the media, reportage, activism, and independent media. The course explores how images have impacted the collective understanding of and reaction to historic events and trends such as the great depression, Vietnam, and civil rights. Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1487 - FILM CENSORSHIP & AMER CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course considers some of the most important censorship battles in American history. As the first mass medium to pose a serious threat to the cultural hegemony of the genteel middle class, the movies initiated both a debate about the place of media in our society and a series of struggles over the control of commercialized leisure. This course seeks a deeper appreciation of the complexities of contemporary media politics through an engagement with the history of motion picture regulation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1610 - TOPICS IN GENRE

Minimum Credits: 3
Maximum Credits: 3
A consideration of significant emergent literary forms or practices in relation to their social and cultural contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1613 - TOPICS IN FILM GENRE AND THEME

Minimum Credits: 3
Maximum Credits: 3
This course seeks to provide a forum for new issues that might arise in the area of film genre and/or the thematic of film representation. With the rise of high technology and popularity of Japanese anime a course in the genre of animation would be important in the future, as well as a course, following the horror of the world trade center attack, on the topic of disaster and the cinema. This course will consider a specific genre each time it is offered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1615 - THE WAR FILM
Minimum Credits: 3
Maximum Credits: 3
Given the current resurgence of the war film in contemporary cinema, it is worth considering the history and changing form of this genre in relation to historical wars, beginning with World War I. In the context of film genre theory, this course will consider stable and changing elements of the genre, while remaining attentive to the specificities of specific cultural moments. Although the main emphasis of the course will be on the war film as genre, part of the semester will be devoted to documentary and non-fiction approaches to war in cinema.
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis

ENGFLM 1670 - GLOBAL ANIME
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Laboratory
Grade Component: LG/SNC Elective Basis

ENGFLM 1680 - ANIMATION
Minimum Credits: 3
Maximum Credits: 3
Animation is a course designed to survey the history of animation, both American and international. Providing an understanding of animation's history, technologies, and stylistic possibilities across national and international boundaries, the course will consider early animators through to contemporary uses of digital technologies with their fully realized characters inhabiting three-dimensional space. It will also have a thematic organization, focusing at times on specific techniques (e.g., Cell animation) and styles (e.g., Abstract).
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

ENGFLM 1681 - FILM COMEDY
Minimum Credits: 3
Maximum Credits: 3
This course surveys film comedy from the silent period through the sound era. It focuses both on major comic performers and directors as well as on comic forms and traditions. In addition the course examines issues of comic structure, psychological dynamics of comedy and its political proclivities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1682 - PHOTGRPHR PHOTGRPHY SINC WWII
Minimum Credits: 3
Maximum Credits: 3
This course explores the tremendous range of photographic expression and examines the contributions of significant post-World War II image-makers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1683 - DOCUMENTARY FILM
Minimum Credits: 3
Maximum Credits: 3
This course explores the nature and impact of the non fiction film, its changing forms, strategies for movies, audiences and claims to veracity and objectivity. It is concerned with identifying types of documentary, the motives" of such films, their audience and the problems posed by "documenting reality"."
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis

ENGFLM 1684 - MOCKUMENTARY: PROD & CRITM
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGFLM 1685 - FILM MUSICAL

Minimum Credits: 3
Maximum Credits: 3
This course studies the musical as an example of a popular art in the age of mass culture, looking at the aesthetics and history of this genre as it relates to the culture that produced it. We will be looking at musicals with pleasure but also with the goal of analyzing and understanding our reactions, and those of the mass audience.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1688 - FILM WESTERN

Minimum Credits: 3
Maximum Credits: 3
This course examines the meaning of the Western to a mass audience. More specifically we will explore the genre's popularity, the way it represents the past, the concept of the mythic hero, changes in the genre from 1939 to 1981, and the contributions to the genre of specific directors. Every effort will be made to connect changes in the Western to new concepts of America.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1692 - FILM MELODRAMA

Minimum Credits: 3
Maximum Credits: 3
This course seeks to identify melodrama's style and explore its cultural impact. After tracing its origins in 19th century theatre and fiction, we will examine its popularity in silent and sound films. We will explore the strategies it uses to create spectator involvement and pay particular attention to the way the form situates sexual roles and attitudes. Our major concern will be to identify how melodrama expresses social conflict and addresses issues such as sexual difference, the role of the family, upward mobility, conformity and deviance.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1695 - HORROR FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines the kinds of narratives produced, the ways producers and directors have developed the genre, and the ways horror film exploits social attitudes and values to generate audience involvement.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1696 - FILM NOIR

Minimum Credits: 3
Maximum Credits: 3
The term film noir was coined by French critics in the mid-1950s to describe these black and white films. This course will explore the classic films noir of the period 1941-1958 as well as films considered to be 'neo-noir' of the seventies, eighties and nineties and beyond. We will look at these films from the perspective of film art, of the relationship of film to culture, and of their exploration of gender and sexuality. The course will explore debates as to whether film noir is a style, a period, a genre, an idea in criticism, or a marketing category in mainstream cinema. We will examine the roots of film noir in German expressionism and hard-boiled detective fiction. We will examine the work of significant directors of these films including Billy Wilder, Robert Siodmak, Fritz Lang, Orson Welles, Nicholas Ray and Joseph H. Lewis. We will look at the historical context of these films in terms of censorship and blacklisting and in terms of A and B film production. The last third of the course will examine what happened when 'film noir' took on a broader meaning and the term started to be applied to a wide range of crime films and thrillers both mainstream and independent, and as the style moved from black and white to color.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1699 - SCIENCE FICTION FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines the development of science fiction as a cinematic form, its relationship to genres such as horror and melodrama, its structure, images and style. We attempt to trace linkages between the films and social, political, scientific and aesthetic attitudes within the culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1703 - GENDER AND FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines and questions aspects of women's role in the international cinema. The class considers both women as filmmakers, and the portrayal of women in film. Attention will also be paid to the social and historical context in which these films were made, in an attempt to understand the relationship between art and ideology.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1752 - TELEVISION ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course increases students' awareness of television as a visual medium and as a cultural force by examining the forms television programming takes and the way these structures influence viewer response. We will examine specific television genres and move through the fictional forms television takes (sitcoms, cop shows, serials, etc.) To quality" forms of television."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1790 - FILM AND LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will examine film's convergence with, and divergence from, the literary arts. From this discussion will emerge an understanding of film's debt to literary models, as well as its own unique and innovative contributions to narrative, poetic and essay form.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
The independent study option permits students to design courses of their own with approval of a department faculty member. Students are required to submit a proposal to a faculty member; usually, this faculty member is one that the student has worked with before and is comfortable with the subject matter of the study. Specific forms for requesting faculty approval are available in the department advising office. The forms require a description of the project, a list of the requirements and readings that the student and the faculty sponsor have agreed upon, the signature of the faculty sponsor, and the signature of the department adviser. A student must have earned at least 6 credits in film studies courses and the study proposed must not duplicate the content of regularly offered courses.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGFLM 1904 - UTA IN FILM STUDIES

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGFLM 1920 - ADVANCD SEMINR IN FILM STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course is designed for film majors and can be taken only when all other major requirements are satisfied. It will focus on issues of film history (either as an historical survey or through an examination of particular themes and/or problems that have arisen in the critical literature). The class will be organized as a seminar, and will involve considerable writing and/or class presentation on the part of students.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGFLM 1930 - FILM STUDIES INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

ENGLIT 0300 - INTRODUCTION TO LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course examines the definitions, functions, and values of literature by reading across a range of genres, styles, historical periods, and cultures. It will also introduce various reading strategies for making sense of plays, poems, novels, short stories, and essays.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0310 - THE DRAMATIC IMAGINATION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the major dramatic forms and compares the ways playwrights from several centuries use ideas, characters and dramatic techniques. We will consider how social, historical, and dramatic contexts influence our interpretations and evaluation, or may lead to alternative understandings of a play.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0315 - READING POETRY

Minimum Credits: 3
Maximum Credits: 3
Poetry is usually the first literary form to evolve in a culture. Yet many today reject it as artificial, overly refined and removed from ordinary human experience. By studying various kinds of poetry, this course aims to help students break down the barriers between classic poems, contemporary poetry, and a more general lyric impulse. As the most highly condensed literary experience, poetry invites very close reading, so we will explore various techniques for making sense of poems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0320 - THE COMIC IDEA

Minimum Credits: 3
Maximum Credits: 3
The primary aim of this course is to increase students' understanding of the structure of the comic experience and of comedy's place in culture. We will use models of literary comedy in reading modern and contemporary works, older materials in English or translated from other Western cultures, and works translated from non-European cultures.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0321 - FORMS OF PROSE

Minimum Credits: 3
Maximum Credits: 3
This course examines different uses of prose narrative in both fiction and non-fiction. Texts include memoir, essay, novels, short stories, travelogue, and biography.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718)

ENGLIT 0325 - THE SHORT STORY

Minimum Credits: 3
Maximum Credits: 3
This course studies short stories that explore a variety of themes. It seeks to define the short story as a specific literary genre and to distinguish it from earlier forms of short narrative literature. It then goes on to examine the effects of literary, cultural and historical traditions on these stories and their reception.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0330 - GREAT BOOKS: MDRN HUM (PART 1)

Minimum Credits: 3
Maximum Credits: 3
The course centers on classic texts of world literature, from homer, to the Koran, to Emerson and Woolf. This course is meant for all students who have an intellectual interest in the complex resources of some of our shared traditions as well as a healthy curiosity about the history of our present. In other words, this seminar is intended to make available a demanding, but still selective encounter with works of high aesthetic, intellectual, and indeed even political importance. (Part 1 of a 2-semester course)
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0331 - GREAT BOOKS: MDRN HUM (PART 2)

Minimum Credits: 3
Maximum Credits: 3
The course centers on classic texts of world literature, from homer, to the Koran, to Emerson and Woolf. This course is meant for all students who have an intellectual interest in the complex resources of some of our shared traditions as well as a healthy curiosity about the history of our present. In other words, this seminar is intended to make available a demanding, but still selective encounter with works of high aesthetic, intellectual, and indeed even political importance. (Part 2 of a 2-semester course)
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0350 - LIT, TRADITION AND THE NEW

Minimum Credits: 3
Maximum Credits: 3
This course examines works from several different periods and cultures that both embody and challenge literary and cultural traditions. It explores the ways in which we are all active participants in the process by which traditions are reproduced and revised over time.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGLIT 0354 - WORDS AND IMAGES

Minimum Credits: 3
Maximum Credits: 3
This course explores the relationships between lanaguage and images. It studies how we describe and understand visual images and how they help us understand qualities that could not easily be defined otherwise. It considers how images function in literary texts and other writers as well as the unconventional images found in dreams, ads, and popular prints, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0365 - IMAGINING SOCIAL JUSTICE

Minimum Credits: 3
Maximum Credits: 3
This course questions the relationship between present and/or contemporary" literature and past literary traditions. It is not a course solely in contemporary literature but a course that compares contemporary texts with texts from other periods. It investigates the contemporary as both a complex reworking of past narratives and traditions and as the production of the experimental and the new."
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0370 - LITERATURE AND IDEAS

Minimum Credits: 3
Maximum Credits: 3
This course studies invention and interpretation, and explores the various ways writers produce texts and readers make them make sense. Though texts may change from section to section and instructor to instructor, they always stimulate investigation into reading and writing as ways of knowing.

Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0380 - SLOVAK TRANSATLANTIC CULTURES

Minimum Credits: 3
Maximum Credits: 3
Slovak European history and the interaction of Slovak and American cultures during the 120-year history of Slovak immigration is conveyed through readings in Slovak and Slovak-American literature, and through issues in literary theory that concern this theme. The course is structured around the history of Slovak, and in a broader cultural sense central European immigration to the U.S. With a special focus on Pittsburgh. Students are encouraged to investigate Pittsburgh's rich ethnic heritage and to research and write on topics tailored to individual interests.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0399 - NARRATIVE AND TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course examines the relationship between traditional literary forms and contemporary media such as hypertext, web logs, fan fiction, video games, comics, and interactive fiction.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718)

ENGLIT 0500 - INTRO TO CRITICAL READING

Minimum Credits: 3
Maximum Credits: 3
This course studies three to five significant literary works in conjunction with influential criticism on each text. Students explore the uses and limits of different critical methods. The course seeks to develop a critical understanding of both classic literary texts and dominant modes of reading as changing cultural practices.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGLIT 0505 - HOW TO DO THINGS WITH LIT 1

Minimum Credits: 3
Maximum Credits: 3
We explore the historical, generic, and transnational range of literature in English as an object and field of study. A variety of lecturers introduce the concepts of periods and key moments"."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0506 - HOW TO DO THINGS WITH LITERATURE 2

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC

ENGLIT 0511 - HISTORICAL BACKGRNDS OF ENGLIT

Minimum Credits: 3
Maximum Credits: 3
This course surveys the major development in English social and political history, concentrating on those that had the greatest impact on the development of English literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0550 - INTRODUCTION TO POPULAR CULTUR

Minimum Credits: 3
Maximum Credits: 3

This course covers texts from American mass culture-popular fiction, advertising, popular music, television, etc. It will explore methods of analyzing these texts, discovering what these products have in common and what distinguishes them from other cultural artifacts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0560 - CHILDREN AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course studies children's literature through an investigation of the history of childhood through its representations in children's books and other media.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0562 - CHILDHOOD'S BOOKS

Minimum Credits: 3
Maximum Credits: 3
This course surveys the field of children's literature from its earliest beginnings to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0570 - AMERICAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This first course in American literature explores the characteristic features of writings from the colonial period to the present. It emphasizes the interaction between literary texts and their social contexts, and examines the emergence of a national literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0572 - INTRODUCTION AFRCN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Examining major works by contemporary African writers in various genres, including fiction, poetry and drama. Some preliminary reading and discussion of social context of the works. Principal focus on recurring themes in African literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0573 - LITERATURE OF THE AMERICAS

Minimum Credits: 3
Maximum Credits: 3
Literature of the Americas introduces students to important issues in the study of literature and culture by focusing on colonial and postcolonial traditions in regions of the Americas beyond the United States. Beginning with the European discovery" of the "new world", it examines comparatively literary and other texts from Britain, the West coast of Africa, the US, Canada, the Caribbean and Latin America, tracing the emergence of distinctive literary traditions and preoccupations of the Americas through to significant modern incarnations."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200

ENGLIT 0580 - INTRODUCTION TO SHAKESPEARE

Minimum Credits: 3
Maximum Credits: 3
This course will focus on a number of Shakespeare's major plays from all phases of his career. Class discussion will consider the historical context of the plays, their characterization, theatrical technique, imagery, language and themes. Every attempt will be made to see the plays both as poems and as dramatic events.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0590 - FORMATIVE MASTERPIECES

Minimum Credits: 3
Maximum Credits: 3

This course will study in some detail eight or nine of those masterpieces which form the largest part of what we now regard as the Western tradition of literature. The works chosen will come from various genres--epic poetry, drama, the novel, and satire. They will span the centuries from the classical periods of ancient Greece and Rome through the Renaissance and into the nineteenth century.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0597 - BIBLE AS LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This introductory course acquaints students with what is in the bible and provides background information drawn from various disciplines about the elements and issues that give it its distinctive character. Attention is necessarily given to its religious perspectives, since they govern the nature and point of view of the biblical narratives, but no specific religious view is urged.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0600 - HONORS: WHAT IS LITERATURE

Minimum Credits: 3
Maximum Credits: 3
In this course students will read selected modern and contemporary works of literature in relation to pre-modern traditions of writing and culture. Students will read broadly from literatures written in English and non-English literatures in English translation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0610 - WOMEN AND LITERATURE

Minimum Credits: 3
Maximum Credits: 3
An exploration of writings by and about women. Through our reading of various literary forms -- poetry fiction, autobiography -- we will explore the aspirations and realities of women's lives. We will consider how social issues -- class, race, etc. -- Affect women writers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0250) or (ENG 0102) or (FP 0003) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGLIT 0612 - LITERATURE AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course aims to restore and improve the dialogue between scientific and critical-humanistic ways of understanding the world. It examines the share both ways of knowing have had in shaping our culture and our ideas by studying (and developing critical perspectives on) both scientific and literary texts. Its goal is to produce an understanding of the common history of literature and science. The course usually focuses on a theme, issue, or topic that has historical range and contemporary relevance. Different versions of the course might focus on social, literary, and scientific understandings of gender; the social, literary, and scientific attitudes toward death and the dead; or the social, literary, and scientific definitions and theories about the "human." Though works of science fiction may be studied, this is not a course in science fiction. This course should be of particular interest to students in the sciences, students of literature, students of philosophy, and students of history.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0615 - LITERATURE AND RACE

Minimum Credits: 3
Maximum Credits: 3
This course examines the relations between literature and race. It views race as an idea `an 'invention' that works as a mechanism for organizing the world `which, though it emerged during the enlightenment, continues to have far-reaching implications for the literature produced in the us. It will consider the ways in which categories such as race and nation affect literary representations of different groups of people in us society. It will also look at a variety of narratives of race and racialized experiences, and how these are explored in different literary contexts, asking to what extent such discourses of race are both critical and formative elements in us American literature and culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0616 - LITERATURE AND MIGRATION

Minimum Credits: 3
Maximum Credits: 3

The course reads various reflections on the immigrant's experience of separation or exile, the problems of encountering a new society, and the processes of acculturation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0617 - CHANGING FAMILIES

Minimum Credits: 3
Maximum Credits: 3
This course will explore varying literary representations of unconventional families including families made by adoption, foster families resulting from migration, multiracial families, and families involving gay, lesbian, or transgender parents or children. Considering different points of view, it will examine plots involving search for family, search for identity, construction of family, loss, conflict, poverty, prejudice, and reconciliation. The course will explore how these works portray and relate to changing attitudes toward childhood, parenthood, heredity, nurture, race, class, nation, and sexuality. As a literature course, it will train students in close reading and critical analyses of texts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0618 - WAR

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0620 - THE GRAPHIC NOVEL

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0621 - AFRICAN-AMERICAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0625 - DETECTIVE FICTION

Minimum Credits: 3
Maximum Credits: 3
This course examines detective fiction in terms of its history, its social meaning and as a form of philosophizing. It also seeks to reveal the place and values of popular fiction in our lives.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0626 - SCIENCE FICTION

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the major ideas, themes, and writers in the development of science fiction as a genre. Discussions will help students to understand and use critical methods for the analysis of science fiction. The topics covered include problems describing and defining the genre, contrasting ideologies in soviet and American science fiction, the roles of women as characters, readers and writers of science fiction, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0627 - LITERATURE OF SPORTS

Minimum Credits: 3
Maximum Credits: 3
The course places the literature of sports in various intellectual contexts. It reads novels by major American writers like Malamud, Roth, cover, DeLillo, exile and Harris, as well as serious" popular novels (North Dallas 40 and semi-tough) and personal reminiscences."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0628 - WORKING CLASS LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course explores writing produced by working-class men and women. It traces its textual traditions and explores questions of the status of the working class", its relation to self-understandings in ethnic or gender terms as well as the effect of class on social experience, social vision and cultural production. It explores as well the relation between worker-writers and the dominant literary tradition."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

Minimum Credits: 3
Maximum Credits: 3
This course examines the genre of gothic fiction, in Britain and the U.S., From its origins in the late 18th century until the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0640 - ALLEGORY

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the subject of allegory.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0641 - TRAGEDY

Minimum Credits: 3
Maximum Credits: 3
This course will explore the properties of tragic literature from ancient Greece and Rome, through the Renaissance and into the twentieth century. In the process we will address issues often raised about tragic heroes and their flaws, about fate and justice, about the cathartic and the pathtic. Through our reading of the literature and the criticism we will seek understanding of tragedy as a literary form and of its changes through time and from culture to culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0642 - COMEDY
Minimum Credits: 3
Maximum Credits: 3
This course studies comedy, both its deep structural patterns and its surface humor. We will read works from many periods (from the Greeks through the 20th century) and genres to understand the literary and cultural meanings of comedy.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0643 - SATIRE
Minimum Credits: 3
Maximum Credits: 3
This course studies satire in general, the techniques of certain satires in particular and the expression of satiric attitudes. We will examine satires from various times and countries so that we can better understand what satire is, how it differs from other literary forms and its function within the culture that produces it.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0644 - MYTH AND FOLKTALE
Minimum Credits: 3
Maximum Credits: 3
This course examines myths, legends and folktales. It explores contemporary views of such works as cognitive categories, models for behavior, agents" for mediating "world" views, mirrors of culture, projections of sub conscious desires. In short it considers the connection between myth/folktales and the culture/intelligence that produced them."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0645 - FANTASY
Minimum Credits: 3
Maximum Credits: 3
Focusing on works that offer fantastic alternations to the world of ordinary experience, this course examines works produced from the middle ages to the present day. It raises questions about our perceptions of reality", and the effects of conscious or unconscious wishes, desires and fears on literary representations."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0647 - HARRY POTTER

Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 0655 - REPRESENTING ADOLESCENCE
Minimum Credits: 3
Maximum Credits: 3
This course focuses on the question of how adolescence gets represented in a variety of genres, including young adult and children's literature; novels, plays and poetry aimed at adults that take adolescence as a theme; films and television programs; scientific, journalistic, or autobiographical commentaries on the nature of adolescence; and so on. This is one of the core courses for the children's literature certificate program, but all interested students are welcome.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 0700 - WITNESSING REVOLUTIONS
Minimum Credits: 3
Maximum Credits: 3
What role did a series of Facebook posts and tweets play in the Arab spring? When do a network of uncoordinated uprisings become a political force? How does individual protest gain world-changing power? How do revolutions happen? This course will examine fiction and nonfiction works that narrate revolutions, interpret their causes, and organize their events. We will pay special attention to the role of writing in witnessing and shaping events.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Letter Grade

ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LIT

Minimum Credits: 3
Maximum Credits: 3
This course examines the ways in which contemporary writers in English have engaged with the natural environment. We will read a range of authors, from the 1960s to the present day, to consider how they have looked critically at the human effects on ecosystems, and we will also study the interdisciplinary scholarly field of ecocriticism and its responses to such writings. Throughout, we will be attentive both to the literary qualities of writings about the environment and to their historical and political contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

ENGLIT 0720 - GLOBAL FICTIONS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGLIT 1000 - INTRO TO TRANSLATION STUDIES

Minimum Credits: 3
Maximum Credits: 3
This class introduces students to translation studies, an emerging discipline critical to an understanding of world literature. The focus is on English versions of literary texts in other languages and the theory underlying the transformation. The course examines translation as a form of writing which possesses a complex relationship to an earlier text to which it is similar but not equivalent. Students will consider the ways in which talented translators render influential literary works. We grapple with the following questions: how do English translations of the same text differ and what is the result? How does one evaluate a translation?
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1001 - INTERACTIVE LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGLIT 1005 - LITERATURE & THE ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
This course examines the ways in which writers in English have engaged with the natural environment. We will read a range of authors, across time periods and up to the present day, to consider how they have looked critically at the human effects on ecosystems, and we will also study the interdisciplinary scholarly field of ecocriticism and its responses to such writings. Throughout, we will be attentive both to the literary qualities of writings about the environment and to their historical and political contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1020 - HISTORY OF LITERARY CRITICISM

Minimum Credits: 3
Maximum Credits: 3
This course considers influential critical theorists ranging from Plato and Augustine to Nietzsche and Freud. Neither the readings nor the approach of the class fall under the narroWest definitions of literary criticism; our focus instead will be on texts from several disciplines that offer powerful models of reading and writing and that raise interesting questions about the foundations of literature, culture, and interpretation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1023 - CONTEMPORARY CRITICAL THEORY

Minimum Credits: 3
Maximum Credits: 3
An examination of several recent critical theories that re define the study of textual practices and cultural values. Class considers the problems each of these movements con fronts, and examines the consequences of their conclusions for an understanding of literary, cultural and social institutions.

Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1028 - LITERATURE AND PSYCHOANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to psychoanalytic contributions to understanding the processes of artistic creation and aesthetic response. It demonstrates how familiarity with psychoanalytic methodology enhances the alertness, subtlety and power in reading literary texts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1100 - MEDIEVAL IMAGINATION

Minimum Credits: 3
Maximum Credits: 3
This course explores some of the ways people in the middle ages saw the world around them. We will try to understand those perceptions by reading a variety of literary works, by comparing those works to other art forms and by examining similar kinds of experience in the modern world.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1101 - INVENTION OF ENGLISH

Minimum Credits: 3
Maximum Credits: 3
The English language and its literatures are in constant flux, but this was especially true in medieval england as waves of foreign invaders and immigrants shaped the language, and political, religious, and mercantile contact with other regions of Europe contributed new aesthetic and poetic ideals. Beginning with old English riddles, this course helps you discover the linguistic and literary DNA of English. You will discover the multiple "Englishes" and other languages that remain present in modern English and prefigure the global diversity of the anglophone world. Along the way, you will develop familiarity with old English and multiple dialects of middle English. You will begin to chart the continuities and ruptures involved in the transitions from tribal heroic culture to a growing sense of common identity as English people of an English kingdom. And on a parallel trajectory, you will track how the notion of a specifically English literature written by the English, in English, for the English, emerges from adaptations and negotiations with other European vernaculars. This focus forms a bridge to further study in early modern or Renaissance English literature. The tools of philology, historical language study, rhetorical analysis, and manuscript studies, lend themselves to this course's emphasis on language and history, and in developing facility with them, you will be better prepared for the study of any area of literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1103 - INTRODUCTION TO OLD ENGLISH

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to learn the fundamentals of old English as quickly as possible, in order to be able to read some of the very best old English poetry by the end of the term. While the course is not linguistically oriented, it can serve as a background to courses in middle English or old Norse, as well as leading to further study in old English literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1104 - OLD ENGLISH POETRY

Minimum Credits: 3
Maximum Credits: 3
The course focuses on Beowulf with attention paid to relevant historical and cultural matters. Careful reading of the original text in old English will highlight the artistry with which the poet makes use of the themes and conventions of old English heroic poetry to express his view of the world.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1105 - MIDDLE ENGLISH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Reads the major works of English literature of the 14th and 15th centuries, exclusive of Chaucer, in the original middle English.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1115 - CHAUCER
Minimum Credits: 3
Maximum Credits: 3
This course closely examines major works by Chaucer--the Canterbury tales and Troilus and Cressida. Though most of the reading will be in modern English translations, some will be in the original middle English. We will view Chaucer's work in its historical, social, artistic and intellectual contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1121 - MEDIEVAL DRAMA
Minimum Credits: 3
Maximum Credits: 3
This course examines the first popular drama of England, that of the middle ages. Community produced and performed, with no distinction between audience and play, this drama flourished from the late 14th century until nearly Shakespeare's time.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1125 - MASTRPCS OF RENAISSNC LIT
Minimum Credits: 3
Maximum Credits: 3
This course studies prose, poetry and drama written in England between 1550 and 1660--an age of religious reformation, economic and social instability, intellectual revision and political revolution. It seeks to make sense of the renaissance in terms appropriate both to that time and to our own.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1126 - ADVANCED SHAKESPEARE
Minimum Credits: 3
Maximum Credits: 3
This upper level course in Shakespeare assumes some prior work with his writings. It seeks to develop a more detailed appreciation of his writing by examining selected texts in relation to some historical, cultural or critical issue.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1127 - SHAKESPEARE ON FILM
Minimum Credits: 3
Maximum Credits: 3
This course examines how Shakespeare's works have been adapted to film and television. In this study, we will be concerned with Shakespeare as a cultural icon and with the expectations surrounding both high art and popular entertainment. Central to this examination are the relationships between a film and a text.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1128 - SHAKESPEARE'S SEXUALITIES
Minimum Credits: 3
Maximum Credits: 3
This course explores the roles of shakespeare's female characters as they relate to cultural ideas about gender and sexuality. We will examine beliefs about proper" behavior of both women and men and the relationship of representations of gender to social power."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1132 - ELIZABETHAN AND JACOBEAN DRAMA
Minimum Credits: 3
Maximum Credits: 3
This course focuses on shakespeare's contemporaries- playwrights whose contributions are often overshadowed by shakespeare's reputation. Their work embodies the energy, challenge to authority, intellectual and artistic ferment and diversity of Renaissance england. We will trace this theatre's roots in folk plays, pagan festivals, religious ritual, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1135 - LIT, MEDIA, SCI IN AGE SHAKESP

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the broad range of styles, genres, and concerns of literature written in English in the early modern period, particularly the 17th century. The designation early modern" is capacious enough to straddle the renaissance as well as the early enlightenment. Readings could include English writers, writers from the Americas, and writers who composed in English but wrote about countries other than England, Ireland or new England."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1150 - ENLIGHTENMENT TO REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This course focuses on literature and culture of the late 17th and 18th centuries--a period of revolutionary changes in the way writers and readers viewed their world. We will read widely in the important texts of the period in order to explore the interplay of enlightenment and revolution.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1154 - 18TH CENTURY NOVEL

Minimum Credits: 3
Maximum Credits: 3
This course explores the literary and historical conditions that gave rise to the development of the novel in 18th century England.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1170 - ROMANTIC NATURE

Minimum Credits: 3
Maximum Credits: 3
This course concentrates on writings from 1790 through the 1830's that have come to be associated with romanticism. It explores the social, intellectual and aesthetic concerns of this movement and its relationships with its British and European cultural contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1175 - 19TH CENTURY BRITSH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
A study of the major writers and cultural issues of 19th century Britain situated in relation to the social and intellectual developments of the time.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1180 - HUMNS, ANMLS, MACHS VICT LIT

Minimum Credits: 3
Maximum Credits: 3
This course studies the poetry and prose produced during the reign of queen Victoria, and places these works in relation to changing practices of science, industry, empire and culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1181 - VICTORIAN NOVEL

Minimum Credits: 3
Maximum Credits: 3
This course will analyze the emergence and development of the victorian novel--careful reading and focused discussion of such writers as Dickens, Eliot, Trollope, Thackeray, Hardy and Meredith will attempt to define the social, moral, and political concerns of their work as well as their narrative technique.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1199 - TOPICS IN BRITISH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Explores thematic, formal, historical or cultural topics in British literature. It ties these issues to critical and social concerns in the development of British literature and culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1200 - AMERICAN LITERATURE TO 1860

Minimum Credits: 3
Maximum Credits: 3
This course surveys literature produced in America before the Civil War. In the process it explores the historical, political, social and cultural factors that affected the development of that literature. It examines the work of writers who saw themselves as powerful framers of the national experience yet fearful they would have little effects on a culture confronting problems of slavery, divisiveness, literacy, economic change, immigration, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1210 - THE AMERICAN RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the flowering of American literature during the first half of the nineteenth-century. It analyzes the struggle of American writers to develop a new national literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1212 - THE AMERICAN WEST

Minimum Credits: 3
Maximum Credits: 3
This course examines literature, cultural history, and film portraying the American West during the 19th and 20th century.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1220 - CVL WAR TO WW1 IN AMER LIT

Minimum Credits: 3
Maximum Credits: 3
An examination of changing literary practices from the civil war to the beginning of World War I. The course explores the interactions of economic and social developments on American culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1225 - 19TH CNTUR AFRICAN AMER LIT

Minimum Credits: 3
Maximum Credits: 3
This course will cover a wide range of materials, beginning with the late eighteenth-century poetry and prose of authors such as Phillis Wheatley and Olaudah Equiano and ending with Civil War, reconstruction, or gilded-age authors such as William wells brown, Frances Harper, Pauline Hopkins, or Paul Laurence Dunbar. Readings will include a variety of different genres of writing (slave narratives, poetry, drama, fictive and non-fictive prose) as well as pay passing attention to the significant African American intellectual and cultural movements that had a role in shaping these various literary productions.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

ENGLIT 1227 - HARLEM RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1230 - 20TH CNTUR AFRICAN AMER LIT

Minimum Credits: 3
Maximum Credits: 3
The first half of this course begins by examining some of the major authors from the 1920s who were a part of what came to be known as the 'new negro renaissance' or 'Harlem renaissance,' such as Langston Hughes, Nella Larsen, Countee Cullen, Claude McKay, and Zora Neale Hurston. We will then study a range of modernist and naturalist writers of the 1930s and 1940s, such as Richard Wright, Ann Petry, and Gwendolyn Brooks. In the second half of the course we will focus on several post-WWII writers that were associated with the civil rights and black arts movements, from the 1950s to the 1970s, including such figures as Ralph Ellison, James Baldwin, and Toni cade Bambara. Finally, we will consider the recent wave of African American writers that emerged with the popularization, in the 1980s, of several new genres of African American literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

ENGLIT 1240 - TOPICS IN AMERICAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Investigates thematic, formal, historical or cultural topics in American literature. It ties these issues to critical and social concerns in the development of American literature and culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1247 - AUGUST WILSON

Minimum Credits: 3
Maximum Credits: 3
This course closely examines the work of the American dramatist august wilson. A significant amount of the playwright's work, including his epic 10-play 'Pittsburgh Cycle,' is set in Pittsburgh and notably in the hill district, where wilson spent his first 33 years. The course will engage with Wilson's plays as well as criticism, history and literature by other authors. Course goals include increased insight and skill in reading, in close analysis, and in discussing and writing about this imaginative world in its historic, social, and literary contexts. Assignments may include viewing plays and videos, researching Pittsburgh history, and field trips to the hill district.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1250 - 20TH CENTURY AMERICAN LIT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on literature produced in this century in relation to changing social and cultural contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1255 - THEATER & ACTIVISM

Minimum Credits: 3
Maximum Credits: 3
This course examines modern American drama and its representations of America as a democratic ideal, as a mythological construct and as an ideological force. The plays considered stress the social and political implications of the Tyranny of Commerce, the Loss of a Positive National Identity, the Exclusion of Women, the Disintegration of the Individual and the Devaluation of Language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGLIT 1272 - THE ROARING 20'S

Minimum Credits: 3
Maximum Credits: 3
A reading of influential literary texts from the American 1920's. The course explores changing literary techniques in relation to new views of the past, war, youth, class, politics, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1280 - CNTMPRY AMERICAN WOMEN WRITERS

Minimum Credits: 3
Maximum Credits: 3
This course examines writings by American women from the 1950's to the present. It draws upon feminist literary criticism to explore issues such as the symbolic significance of gender, power relations between the sexes, and differences in representation across race, class and ethnicity.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1295 - JEWS AND THE AMERICAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to: the prominent roles of Jews in the American cinema (as producers, directors and performers); the manner in which issues of Jewish identity (including the negative aspect of ethnic stereotypes) and topics such as anti-Semitism and the holocaust have been treated in the American cinema; and the way in which film genre intersects with issues of Jews in American film (e.g. Comedy and so-called Jewish humor", the appeal to melo drama in the social problem film, etc.)."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1300 - REALIST TRADITION

Minimum Credits: 3
Maximum Credits: 3
This course studies literature from the late 19th and early 20th centuries that sought to establish a relation between art and life. Topics to be examined include: changing patterns in education, the changing status of women and the working class, associated movements in the other arts, and new developments in politics, economics and psychology.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1310 - THE EUROPEAN NOVEL

Minimum Credits: 3
Maximum Credits: 3
This course explores the broader cultural context within which the English and American novel can be understood. The class considers novels selected from a Western European culture and literary context. Novels will be read not only for their formal characteristics but also in relation to their literary, critical and cultural contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1325 - MODERNISM

Minimum Credits: 3
Maximum Credits: 3
This course examines major works in the modernist tradition poetry, fiction, drama--to determine the role these texts have played in creating the world that seems so familiar to us now.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1350 - POSTMODERN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1360 - TOPICS IN 20TH CENTURY LIT

Minimum Credits: 3
Maximum Credits: 3
Considers thematic, formal historical or cultural topics in late 19th and 20th century literature. It ties these issues to critical and social concerns in international modernism and post modernism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1370 - MAKERS OF MODERN DRAMA

Minimum Credits: 3
Maximum Credits: 3
This class will read intensively and comparatively plays written by late 19th and early 20th century continental, English, Irish and American dramatists. Plays selected will reflect major dramatic movements of the period (realism, naturalism, symbolism, expressionism) and will be analyzed not only by theatrical characteristics but also in relation to their dramatic, critical and cultural contexts.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1372 - CONTEMPORARY DRAMA

Minimum Credits: 3
Maximum Credits: 3
This course surveys drama of the last thirty years and examines the ways in which role-playing and the theatre itself function as metaphors for the philosophical, social and aesthetic issues that trouble contemporary writers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1380 - WORLD LITERATURE IN ENGLISH

Minimum Credits: 3
Maximum Credits: 3
This course examines contemporary literature, primarily in English, written in eastern Europe, Africa, Latin America, etc. It pays particular attention to its depiction of social, political and moral concerns.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1382 - PRIZED BOOKS

Minimum Credits: 3
Maximum Credits: 3
How do metropolitan taste and recognition affect dominant and emergent literatures and nations? How do particular contexts and award-winning texts exert pressure on existing criteria and values? How does the category "prized books" also implicitly constitute and comment upon a body of literature that is "unprized"? How do prized books redefine notions of readership and citizenship in the world of globalization and electronic access? Such questions will open up the idea of "world literature" not as an afterthought to the canon of "English" literature, but as an integral and definitive part of it. Students will read literature, speeches, and essays by winners of the nobel and other global literary prizes such as the booker and the commonwealth.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1383 - LITERATURE AND COLONIALISM

Minimum Credits: 3
Maximum Credits: 3
This course examines novels that fall into two main categories: British literature focusing on colonialism as it appeared in the British empire and third world novels dramatizing responses to colonialism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1384 - BANNED BOOKS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1406 - U.S. LATINO LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will focus on U.S. Latino literature. While Mexican-Americans have roots in North America that go back to colonial times, the Latino explosion has happened mainly in the last thirty years, giving rise to new processes and forms of cultural expression, including an emerging literature that is neither a subset of U.S. Literature nor an ex tension of modern Latin American literature, though it has connections to both. To get an idea of what this literature involves and where it is going, we will look at some representative novels, poetry, memoirs, plays and films.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1510 - KAFKA AND THE MODERN WORLD

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1552 - HISTORY OF THE ENGLSH LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
A survey of the linguistic development of English from Anglo-Saxon times to the present. Attention given to basic linguistic structures and discursive practices and to the social and historical conditions under which they change.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1574 - LEGENDARY FIGURES

Minimum Credits: 3
Maximum Credits: 3
An examination of recurrent legendary characters or plots in myth and folktale that surveys the historical transformations of the figure in relation to various mythic structures and social or psychological forces.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1578 - FANTASY WRITERS

Minimum Credits: 3
Maximum Credits: 3
A study of major writers of fantasy up to the present day. The course explores the differences between anonymous folklore and authored texts, the relationship of modern fantasies to earlier forms of romance and legend, and the uses of fantasy in contemporary culture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1579 - TOLKIEN AND LEWIS

Minimum Credits: 3
Maximum Credits: 3
This course investigates the fantasy worlds created by C.S. Lewis and J.R.R. Tolkien. Class discussions will focus on the literary qualities of the work and critical approaches to assess that value.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1587 - UTOPIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course explores the value or uses of imagining utopian societies and the controversies raised by influential works in this mode.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1600 - CMPTTNL METH IN THE HUMANITIES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. The goals of this course are to learn how to identify research questions in the humanities that are amenable to computational analysis and processing, along with designing and implementing xml-based computational systems to explore those questions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1607 - ADVANCED SHORT STORY

Minimum Credits: 3
Maximum Credits: 3
By studying individual collections of short fiction, most by acknowledged masters of the form and some dating from the nineteenth century, this course seeks to broaden the student's understanding of its range, history and potential in a manner consonant with the university distribution requirements for a second course in literature. It assumes some familiarity with the basic techniques for analyzing fiction.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1610 - TOPICS IN GENRE
Minimum Credits: 3
Maximum Credits: 3
A consideration of significant emergent literary forms or practices in relation to their social and cultural contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1611 - DEVELOPMENT OF THE NOVEL
Minimum Credits: 3
Maximum Credits: 3
This course studies the development of the novel as a literary practice. Readings will reveal significant contributions to the definition of the novel; the characteristics that identify the novel, historical developments that led to its creation, and its dominant subjects.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1612 - THE AFRICAN NOVEL
Minimum Credits: 3
Maximum Credits: 3
The novels studied will be drawn from several parts of the African continent and will all be available in English or translation. The emphasis will be on recurring themes in the works and on the influence of traditional African narrative forms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1620 - POETRY: FORM AND ARGUMENT
Minimum Credits: 3
Maximum Credits: 3
This upper-level literature elective course investigates concepts of form and argument and considers their implications for the study and practice of poetry. Course readings, class discussions, and student papers will articulate and address questions of poetics that emerge in the writing and the reading of poetry, and will also explore some of the contentions that inflect our understanding of poetry's presence in cultural life, its purpose, and its situation as an art form.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1640 - LITERATURE FOR CHILDREN
Minimum Credits: 3
Maximum Credits: 3
This course examines literature that has been and is being read by children. There are units on fairy tales, myths and legends, poetry and fiction as well as more realistic" fiction. The approach is historical, critical and creative."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT
Minimum Credits: 3
Maximum Credits: 3
This course examines a variety of children's books from a number of theoretical perspectives; historical, feminist, transactional, structuralist, etc. The implications of theory will be emphasized. We will place children's books and reading in the wider context of the emotional, cognitive, and moral development of the child, the popular culture of childhood, and contemporary multicultural society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGLIT 0560 and 0562 or 0655

ENGLIT 1647 - LITERATURE FOR ADOLESCENTS
Minimum Credits: 3
Maximum Credits: 3
This course will read classics as well as modern works written specifically for an adolescent audience. We will also read and discuss sociological and psychological constructions of adolescents and books on pedagogy.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1649 - TOPICS IN CHILDREN'S LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Selected issues in the production and reception of writings designed for children. Attention given to the relationship between literary representations and social, psychological and historical considerations.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1701 - TOPICS IN WOMEN'S STUDIES

Minimum Credits: 3
Maximum Credits: 3
Investigates issues raised by the woman's movement in literature written by and about women. It ties these issues to critical and cultural concerns both at the time the text was written and to the present day.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1704 - WOMEN NOVELISTS

Minimum Credits: 3
Maximum Credits: 3
This course explores the important role women have played in the development of the novel and how they have used and transformed its generic traditions. We will place novels in the contexts of issues important to their own time and discuss questions raised by recent feminist criticism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1705 - WOMEN AND DRAMA

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the work of playwrights who came of age during the feminist movement in the 1970s and won critical and /or popular acclaim. Students will choose one of the playwrights to research for a class presentation and term paper.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1715 - GLOBAL BLACK LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Despite their geographical and cultural differences, writers from Africa, the Caribbean, and the United States undergo similar experiences of oppression. Problems of self-identity, and the quest for self-respect. These similarities will be discussed in class along with a comparative approach to the texts with supplementary films, slides, and recordings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1716 - TOPICS IN BLACK LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Addresses recurrent issues in the relationship of black race to literary culture. Addresses recurrent issues in the black experience as it relates to dominant literary cultures.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1719 - INTRO TO HOLOCAUST LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the central texts of the literature of the holocaust, while introducing students to the main issues and preoccupations of holocaust testimony in literature and film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1730 - CHINESE AND WESTERN POETRY

Minimum Credits: 3
Maximum Credits: 3
A comparative study of Chinese and Western lyric poetry. This course explores the world of feeling as expressed in the poetry of two vastly different worlds: china and the West and focuses on the language of feeling in a poetic medium. The purpose of this course is to appreciate how differences between the two poetic traditions is essential to a better understanding of the two cultures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGLIT 1731 - TOPICS IN ETHNIC LITERATURE

Minimum Credits: 3
Maximum Credits: 3
A study of the literature produced by and about different ethnic groups. It examines the social and historical contexts within which this literature was produced.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1738 - IRISH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course samples the work of major figures in Irish literature. It seeks to define its national character through careful reading of selected texts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1740 - IRISH DRAMA

Minimum Credits: 3
Maximum Credits: 3
As Ireland struggled in the early 20th century to define itself, one result was a dynamic, word-luscious dramatic literature. Many of the greatest English playwrights were Anglo-Irish all along, but this course focuses on the more specifically Irish drama that began with W. B. Yeats, Lady Gregory and J. M. Synge. Then we will consider Sean O'Casey, Brendan Behan and the greatest, Samuel Beckett. Finally, we read some of the latest wave of young playwrights from the 1990s, Maria Carr and Martin McDonagh. The "question of Ireland" infuses what we read and see.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1756 - BALLADS AND BLUES

Minimum Credits: 3
Maximum Credits: 3
This course acquaints students with folk and literary aspects of ballads and blues in the Anglo-American and Afro-American traditions. It surveys both forms from their separate beginnings to contemporary examples. Organized both historically and topically, the course explores influences on these forms as well as their historical, social and cultural context.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1760 - TOPICS IN POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
Focuses on the emergence of popular culture, the relationship of modern social and economic practices, mass audiences, and modes of cultural representation, or specific popular forms.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1771 - THEMES IN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Examinations of recurrent themes and significant cultural issues that traverse national, historical and generic categories. A primary focus of each course is the specific contributions of literary representations to an understanding of the topic.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1772 - ADOPTION LITERATURE
Minimum Credits: 3
Maximum Credits: 3
This course will examine how literature has portrayed adoption, adoptees, adoptive parents, and birth parents. It will deal with fiction, poetry, drama, and memoir, showing the presentation of heredity, nurture, and definitions of parents" and "family". It will show changing treatments of issues such as identity, ethnicity, connections, loss, commodification, and secrecy."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1797 - BIBLE AS LITERATURE 2
Minimum Credits: 3
Maximum Credits: 3
This course continues the bible as literature and it provides an opportunity to consider more carefully books read in the earlier course as well as to consider other books that were entirely neglected. This second semester will permit us to address some fascinating problems; what happens to narratives as they pass from an oral tradition to written form; problems of translation; the formation of a canon; the ways the bible influences later literature. The generally historical approach will permit the student to understand the time and culture of the bible.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1900 - PROJECT SEMINAR
Minimum Credits: 3
Maximum Credits: 3
The junior seminar, required for English literature majors, offered in varied versions, will investigate methods and goals of literary historical study by directing attention to broad historical and theoretical issues and to long-durational developments and transformations of literacy cultural practices. Will include a range of literary, theoretical and historical texts selected to enable exploration of issues and problems that cut across traditional designations of literary historical periods.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
This option permits students to design their own course with the approval of a department faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGLIT 1903 - DIRECTED RESEARCH LITERATURE
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

ENGLIT 1904 - UTA IN LITERATURE
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGLIT 1907 - LITERATURE INTERNSHIP
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

ENGLIT 1909 - SENIOR SEMINAR
Minimum Credits: 3
Maximum Credits: 3
Intensive study of a single topic or figure that assumes previous work in related literary historical and critical areas. Each seminar moves toward a

final paper that integrates earlier literary study with the specific critical perspective developed in this course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: MATH 0020 or any MATH greater than or equal to MATH 0031 (Min Grade 'C') or MATH PLACEMENT SCORE (61 or greater)

ENGLIT 1910 - SENIOR SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Intensive study of a single topic or figure that assumes previous work in related literary historical and critical areas. Each seminar moves toward a final paper that integrates earlier literary study with the specific critical perspective developed in this course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGLIT 1913 - ADVANCED RESEARCH/LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Working closely with faculty members on her/his senior thesis committee to do the primary reading, foundational research, and exploratory writing for the senior thesis, the student will read a majority of the primary literary works and a significant amount of criticism and complete a minimum of 20 pages of exploratory writing or a draft of the thesis.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

ENGLIT 1914 - SENIOR HONORS THESIS

Minimum Credits: 3
Maximum Credits: 3
In this course, the student will complete all remaining research for the senior thesis and will work closely with the faculty members on his/her committee to plan, write, and revise the senior thesis.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

ENGLIT 1925 - UNDERGRAD TEACHING IN LITRATUR

Minimum Credits: 3
Maximum Credits: 3
Students enrolled in this course will work with an instructor as an assistant to any upper-level course being offered to English majors. They will help with course materials and generate class discussion.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

ENGWRT 0400 - INTRO TO CREATIVE WRITING

Minimum Credits: 3
Maximum Credits: 3
This course offers the opportunity to experiment with forms of poetry and fiction and to read and discuss from a writer's point of view contemporary writing in these genres.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 0411 - INTRO TO CREATIVE NONFICTION

Minimum Credits: 3
Maximum Credits: 3
This course will introduce undergraduates to creative nonfiction, a genre that often borrows from fiction writer's techniques while sticking to the facts. Genre includes personal essay, new journalism, memoir and quality feature writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or ENGR 0012

ENGWRT 0520 - INTRO TO FICTION WRITING

Minimum Credits: 3
Maximum Credits: 3
This first course in the fiction sequence introduces students to aspects of prose fiction--plot, point of view, characterization, conflict, etc. Students may write exercises on these aspects of fiction, write one or more short stories and revise frequently. Students will also read representative stories and explore their use of particular fictional techniques.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0716 or 0718)

ENGWRT 0530 - INTRODUCTION TO POETRY WRITING

Minimum Credits: 3
Maximum Credits: 3
Through writing exercises, analysis of modern and contemporary poetry and frequent revision of their own poetry, students learn the basic elements of poetry writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 0540 - WRITING YOUTH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will introduce undergraduates to the art of writing for young people. It may focus on a single genre in depth (for instance, the young adult novel) or invite students to read and write broadly across a range of genres (picture books, children's poetry, nonfiction for the young, etc.). This course serves as an approved category 1 elective for the children's literature certificate program, but all interested students are welcome.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718)

ENGWRT 0550 - FUNDAMENTALS OF NEWS REPORTING

Minimum Credits: 3
Maximum Credits: 3
The internet has led newspapers, corporations and non-profit agencies to create websites that dispense news and information 24 hours a day, seven days a week, and these agencies need people who can write efficiently in that style. This makes clear, concise, accurate writing - the basis of all news reporting - more important than ever. In fundamentals of news reporting, students will learn to identify news, write effective summaries of the information, structure stories well, conduct research, and identify sources of reliable facts and informed opinions. Students will write about their surrounding communities: the University, Oakland, the city of Pittsburgh. The course will also include lectures and discussions about media law and ethics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGWRT 0560 - SCREENWRITING AND NARRATIVE

Minimum Credits: 3
Maximum Credits: 3
This course will explore developing character-based stories in the screenplay form. Students will be exposed to a variety of readings including original screenplays, related prose, and texts which reinforce basic tenets of good story telling. Students will write rigorously building from idea to outline with great attention to structure and character development. Students will develop writing abilities, critical facilities in approaching work, and an understanding of principles of storytelling common in narrative forms.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or 0205 or 0207 or 0208 or 0250 or FP 0003 or 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or 0712 or 0715 or 0718)

ENGWRT 0610 - INTRO JOURNALISM & NONFICTION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to develop your skills as a nonfiction writer. Through a combination of required readings, creative exercises, peer critiques and critical discussions, you will develop an understanding of the fundamentals of journalism as well as an introduction to the wide-ranging possibilities of nonfiction writing as a genre: narrative long form, the personal essay, immersion journalism and forms of creative nonfiction. This

class will be divided into two components; gathering information and shaping stories.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0200 or (ENGCMP 0203 or ENGCMP 0205 or ENGCMP 0207 or ENGCMP 0208 or 0250 or FP 0003 or FP 0006 or ENGCMP 0004 or 0006 or 0020 or ENG 0102) or (ENGR 0012 or ENGR 0712 or ENGR 0715 or ENGR 0718)

ENGWRT 0630 - INTROD READINGS: CRTV NONFICTN

Minimum Credits: 3
Maximum Credits: 3
This course will prepare journalism students to make the shift from standard news reporting and writing to the dramatically different genre often referred to as creative nonfiction" (or "literary journalism"). Students will read articles and essays from the New Yorker, Atlantic, Harper's, along with works from major figures in creative nonfiction, focusing on the methods for obtaining the information needed to create nonfiction narrative."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 0650 - READINGS IN JOURNALISM

Minimum Credits: 3
Maximum Credits: 3
This course is intended to introduce journalism students to news, feature, and column/op-ed writing as practiced by the best papers - and the best writers - nationally. The course will focus on the methods for obtaining the information needed to create solid news stories, and strategies ranging from extensive, in-depth interviewing, background reading, and the journalistic legwork" and "digging" that produces incisive, accurate accounts and the very best "investigative reporting"."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1010 - INTERMEDIATE FICTION

Minimum Credits: 3
Maximum Credits: 3
Students work on writing short stories and read a wide range of stories. Students can expect to revise their work regularly. Class sessions will address problems in fiction writing -- from plot to characterization, from point-of-view to style.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0520; MIN GRADE: 'C'

ENGWRT 1020 - ADVANCED FICTION

Minimum Credits: 3
Maximum Credits: 3
This course will continue the development of literary devices introduced in the prerequisite fiction writing courses (introduction to fiction and intermediate fiction), and introduce new core writing skills to master such as narrative voice and narrative time, point-of-view, methods of characterization, the use of suspense and tension as functions of plot, scene-setting, dialogue, elements of style, and the importance of "place" in fiction. The class time will be divided between work- shopping, student writing, and discussion of readings.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1010 (MIN GRADE 'C')

ENGWRT 1090 - MASTERING POINT OF VIEW

Minimum Credits: 3
Maximum Credits: 3
This course acquaints the student with a variety of first and third person points of view. Through readings, class discussions and written work, students develop a mastery of the internal monologue, dramatic monologue, letter, diary and other forms.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0520 or 0530 or 0550 or 0610

ENGWRT 1091 - AUTOBIOG & CREATIVE IMPULSE

Minimum Credits: 3
Maximum Credits: 3
This advanced level, mixed-genre course will explore various ways autobiographical material might be generated, structured, modified, and revised. In addition to frequent in-class writing and a final project, students will read and respond to published essays, poetry, and fiction.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0520 or 0530 or 0550 or 0610

ENGWRT 1092 - WRITER'S JOURNALS

Minimum Credits: 3
Maximum Credits: 3
This course studies the journal as an art form. It also questions the purpose and value of journal keeping for a writer.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0520 or 0530 or 0550 or 0610

ENGWRT 1093 - DEVELOPMENT OF A WRITER

Minimum Credits: 3
Maximum Credits: 3
This course investigates the writing process as it functions within the experience of a specific writer. That process is in a perpetual state of fluctuation because writers within societies are not static and readers themselves respond to change. A specific writer will be selected and his/her work will be investigated in the context of his/her particular situation as a writer within a dynamic civilization.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1094 - READINGS IN CNTMPRY FICTION

Minimum Credits: 3
Maximum Credits: 3
This course acquaints students with a variety of contemporary writers. This study helps students raise questions about their own developing esthetics as they are reflected in form and take into account their dual roles as creative writers and critics. It also helps students access their relationship to reviewing and criticism, including its benefits to a creative writer developing a career, and to discover techniques of reviewing and criticism which aid and do not transgress upon their esthetics and its expression.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0520

ENGWRT 1095 - TOPICS IN FICTION

Minimum Credits: 3
Maximum Credits: 3
This course concerns itself with matters of interest in fiction writing; form and technique, contemporary production, and the relation of the fiction writer to his/her society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1101 - SENTNC SHOP:EXPRMTS TIME&SPACE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGWRT 1200 - WRITING THE CITY

Minimum Credits: 3
Maximum Credits: 3
The course's goal is to encourage your personal recording of experiences through which you gain insight and self-discovery. Journal entries reflect the significance of travel experiences that others can share and expand. Travel narratives and oral presentations are evaluated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

ENGWRT 1210 - POETRY WORKSHOP

Minimum Credits: 3
Maximum Credits: 3
For this advanced poetry writing course, the central text will be the student's own writing. Students will read recently published poetry, regularly write their own poetry and frequently rewrite it.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0530; MIN GRADE: 'C'

ENGWRT 1290 - READINGS IN CNTMPRY POETRY

Minimum Credits: 3
Maximum Credits: 3
This course focuses on American poets who have come to prominence since 1963. We will read widely in the poetry of this period to understand its unique contribution to the development of poetic form and its relationship to the culture that produced it.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0530

ENGWRT 1293 - TOPICS IN POETRY

Minimum Credits: 3
Maximum Credits: 3
This course concerns itself with matters of interest in poetry writing; form and technique, contemporary production, and the relation of the poet to his/her society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1310 - NEWSPAPER 1

Minimum Credits: 3
Maximum Credits: 3
Students in this course learn how to profile individuals, report trends, take polls and write about a community. The course provides hands-on practice in feature writing and a workshop approach to critiquing students' and professionals' work.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550; MIN GRADE: 'C'

ENGWRT 1320 - NEWSPAPER 2

Minimum Credits: 3
Maximum Credits: 3
This course offers students an opportunity to further develop reporting skills and to learn the 'art' of feature writing. The course begins as an extension of ENGWRT 0550 and 1310 with deadline assignments. Students will learn to write news-feature stories and profiles of individuals and communities in the news. Regular reading of local and national newspapers will be required. Much of the course will be a workshop in which students analyze and criticize their work and the work of professionals. Students will be encouraged to publish their work.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1310; MIN GRADE: 'C'

ENGWRT 1330 - INTERMEDIATE NONFICTION

Minimum Credits: 3
Maximum Credits: 3
Students in this course will study, practice, produce and revise short pieces of literary nonfiction while examining basic structures of the essay, the profile, and long form narratives. We will study the anatomy of a scene and explore techniques of scene-by-scene construction. Students will be expected to master the basics of point-of-view, and to begin experimenting with voice. We will develop research techniques including the art of the interview and immersion research. This course will place emphasis on digital forms of publishing. Students will develop personal blogs. Workshopping of student work will be limited.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or 0610; MIN GRADE: 'C'

ENGWRT 1340 - ADVANCED NONFICTION

Minimum Credits: 3
Maximum Credits: 3
This course focuses on developing students' skill as magazine writers by producing articles for widely different markets. It emphasizes professional preparation from the idea stage to a final, revised, polished version suitable for submission. Students analyze their markets, and discuss both those markets and student writing in class.
Academic Career: UGRD
Course Component: Seminar

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1330; MIN GRADE: 'C'

ENGWRT 1370 - JOURNALISM BOOT CAMP:WRITE NOW

Minimum Credits: 3
Maximum Credits: 3
The course is a journalism boot camp-like experience where students will work closely with the instructor and editors on the Pitt news to prepare for the real world of journalism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1375 - GREAT MODERN JOURNALISTS

Minimum Credits: 3
Maximum Credits: 3
This course explores the lives of men and women who have made significant contributions to the craft of journalism and to society's understanding of how history unfolds. Students read and discuss works by and about great journalists, beginning turn-of-the-century and ending with more contemporary works. Selections highlight the contributions made to journalism and society, while also documenting the evolution of the press and how it experienced and presented signal events to the American public such as social movements, wars and elections. Speakers and outside assignments augment readings and discussion.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1390 - READINGS IN CNTMPRY NON-FICTN

Minimum Credits: 3
Maximum Credits: 3
This course familiarizes students with a number of different forms of and approaches to contemporary non-fiction writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or 0610

ENGWRT 1391 - WRITING THE REVIEW

Minimum Credits: 3
Maximum Credits: 3
This course explores various types and styles of reviews. Students read a variety of critics as well as write original reviews of film, television, theatre, music, books, etc.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 205 or 207 or 208 or 0250) or (FP 0003 or 0006) or ENG 0102 or ENGR 0012

ENGWRT 1392 - DOCUMENTARY FILM WRITING

Minimum Credits: 3
Maximum Credits: 3
This course traces the evolution of documentary films and uses them to demonstrate how documentaries are put together. The course emphasizes choosing good subjects, seeing how best to present them and assembling video and audio segments to form the documentary.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1393 - SPORTS WRITING

Minimum Credits: 3
Maximum Credits: 3
The course affords students the opportunity of studying modern sports writing techniques, with an added goal of improving their writing skills. It deals with the differences between sports reporting and writing and news reporting and writing. Ideally, a student with an interest in sports writing will complete the course with an idea of how best to collect information, organize it and disseminate it in an appealing manner. Clear, entertaining prose will be stressed.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or 0610

ENGWRT 1394 - SCIENCE WRITING

Minimum Credits: 3
Maximum Credits: 3
The emphasis of this introductory science writing course will be two fold: you will learn to find, read, assess, and interpret scholarly scientific writing; you'll also read books and articles that use creativity, imagination and poetic acuity to make scientific ideas clear to the lay reader. Through the deep study of pieces of science writing and the completion of a series of short exercises, you will gain the skills you need to write and revise feature-length articles.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (ENGCMP 0004 or 0006 or 0020 or 0200 or 0203 or 0205 or 0207 or 0208 or 0250) or (FP 0003 or 0006) or ENG 0102 or ENGR 0012

ENGWRT 1399 - TOPICS NON-FICTION: NEWSPAPER

Minimum Credits: 3
Maximum Credits: 3
This course examines the history, lives and livelihoods famous female journalists who made exceptional contributions to journalism despite institutional and gender obstacles. Starting with the turn-of-the century, we look at women and their writing who covered domestic and international beats such as Nellie Bly, Martha Gellhorn, Gloria Steinem, and Lara Logan who have left their mark on women's history.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1401 - TOPICS NON-FICTION: MAGAZINE

Minimum Credits: 3
Maximum Credits: 3
This course concerns itself with matters of interest to the general feature journalist; form and technique, the history of magazines, contemporary production, and the general relation of the magazine journalist to his/her society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or ENGWRT 0610; MIN GRADE: 'C' FOR ALL LISTED COURSES

ENGWRT 1402 - STRUCT/TECHNQS CREATV NONFCTN

Minimum Credits: 3
Maximum Credits: 3
The course concentrates on strategies in research, interviewing, and saturation reporting, as well as the use of fictional techniques in creative nonfiction. The class combines lectures and hands-on experience. Students are required to come up with a topic suitable for a piece of in depth creative nonfiction and then spend the semester gathering material for that story through research and inter views. They learn how to use print and electronic resources, conduct effective interviews and report on nonevents like their subject's everyday lives.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1403 - TOPC NON-FCTN:ELECTRNC MEDIA

Minimum Credits: 3
Maximum Credits: 3
This course concerns itself with the varieties of writing for the electronic media, and with related matters of interest; form and technique, contemporary production, ethical and legal matters, and the general relation of the writer in this field to his/her society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1405 - BROADCAST WRITING

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the role of writing for the broadcast industry. It investigates all areas of local broadcast operation including news, continuity, promotion, variety and dramatic writing.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or 0610

ENGWRT 1430 - LITERARY AND ONLINE PUBLISHING

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the art and craft of literary and online publishing. Students will research independent literary magazines and

small presses, both online and in print. They will learn the basics of literary publishing from both an editorial and an authorial perspective. They will use what they learn to produce an online site featuring the work of Pitt-Greensburg writing program graduates, as well as individual print chapbook-length collections from the English writing program capstone.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGWRT 1501 - TOPICS IN CREATIVE WRITING

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

ENGWRT 1510 - ADVANCED POETRY

Minimum Credits: 3
Maximum Credits: 3
In this course, students will spend time reading and exploring poetry written by established contemporary authors, thereby furthering their understanding of literary device, craft, practice and form. They will also identify and consider the literary transitions embedded within the contemporary works they study. As part of the analysis of texts in question, students will write imitations of several of the poems discussed in class. Class time will be divided between workshopping, student writing and discussing the required reading.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1210; MIN GRADE: 'C'

ENGWRT 1515 - THE BOOK AS ART: TEXT & IMAGE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: English Writing (BA)

ENGWRT 1650 - PLAYWRITING 1

Minimum Credits: 3
Maximum Credits: 3
A beginning course in writing for the stage. Starting with short scenes, students will work towards understanding the craft and art of constructing theatre stories to be performed by actors. The final project will be a one-act play. Throughout there will be emphasis on the stage effectiveness of the writing and opportunity for informal performance of student scripts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

ENGWRT 1651 - PLAYWRITING 2

Minimum Credits: 3
Maximum Credits: 3
This is an advanced course in the study of playwriting. The goal is to create performable plays.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: THEA 1365 or ENGWRT 1650

ENGWRT 1710 - SENIOR SEMINAR IN FICTION

Minimum Credits: 3
Maximum Credits: 3
In this seminar students are expected to criticize student work intelligently and constructively. It is designed for students familiar with the craft of writing who wish to refine their writing skill and make their stories more subtle, original and meaningful. Analysis of student writing will be supplemented by the reading of professionally written stories.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1010

ENGWRT 1730 - SENIOR SEMINAR IN POETRY

Minimum Credits: 3
Maximum Credits: 3
A fairly broad knowledge of 20th century poetry in English is assumed. Most class hours will be devoted to workshop critiques; a portion of class time will be spent discussing the work of younger contemporary poets.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1210

ENGWRT 1750 - SENIOR SEMINAR IN NONFICTION
Minimum Credits: 3
Maximum Credits: 3
This is a workshop-intensive class in which students will work on one research-intensive piece of long form narrative nonfiction of about 8,000 words. This course will place heavy emphasis on digital forms of publishing. Students will maintain personal blogs and personal websites where they will publish their own work and participate in the editing and publishing of a class-wide digital magazine.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 1330

ENGWRT 1760 - ADVANCED REPORTING
Minimum Credits: 3
Maximum Credits: 3
This course will stress in-depth-interpretive reporting in specialized areas such as science, business, and politics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGWRT 0550 or 0610

ENGWRT 1900 - INTERNSHIP: WRITING
Minimum Credits: 3
Maximum Credits: 3
This course offers students an opportunity to work as interns for local media, including newspapers, magazines and television stations. The internships are complemented by close supervision and seminars dealing with some of the ethical, legal, and practical issues facing the working professional.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

ENGWRT 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
This option permits students to design their own course with the approval of a department faculty member. Students must submit a proposal to the faculty member. Note: the proposed study must not duplicate the content of regularly offered courses.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGWRT 1904 - UTA IN WRITING
Minimum Credits: 1
Maximum Credits: 3
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ENGWRT 1910 - INTERNSHIP: PUBLIC RELATIONS
Minimum Credits: 3
Maximum Credits: 3
This course offers students an opportunity to work as interns for local public relations firms or corporate public relations departments. The internships are complemented by close supervision and seminars dealing with some of the ethical, legal and practical issues facing the working professional.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis

English Language Institute

FILMST 0121 - ANIMATION PRODUCTION

Minimum Credits: 3
Maximum Credits: 3
This comprehensive workshop in single frame filmmaking is designed for the beginner in animation. Students work on individual projects using techniques such as drawing, clay, collage, time-lapse and others. Students are exposed to a wide variety of media and techniques through screenings and practical exercises. As a major course project each student will produce one short animated film. Most work for this course is done in super-8mm.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0001; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0130 - 3-D COMPUTER ANIMATION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0151 - INTRODUCTION TO WEB DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course provides a solid, broad-based foundation for web page and site design. Designing for the world wide web includes an understanding of interface functionality and user-friendliness in addition to literate, visual communication. The class gives an introduction to html; image compression; using browser-safe color; and producing web pages with a WYSIWIG editor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0200 - BLACK AND WHITE PHOTOGRAPHY 1

Minimum Credits: 3
Maximum Credits: 3
This is a production course where students, through a series of lectures and laboratory periods, will learn the process of seeing (making an exposure) and the craftsmanship (making a photographic print) that are the fundamental aspects of photography. The lecture will be divided into three main categories; technique, aesthetics, and assignments. Students must have access to a 35mm camera which has a full range of aperture settings and shutter speeds.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0201 - BLACK AND WHITE PHOTOGRAPHY 2

Minimum Credits: 3
Maximum Credits: 3
This course will give awareness and understanding of the technical and aesthetic implications of photography. Students will learn to visually articulate their ideas and discuss their work and the work of others through group critiques. The course will refine the basic knowledge of camera mechanisms, film developing, and printing. Areas of exploration will include lighting, high contrast film, solarization, infrared film, and sequential imagery. Other curricular areas include black and white filters; bleaching and toning prints; and archival preservation and mounting.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0200; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0220 - COLOR PHOTOGRAPHY 1

Minimum Credits: 3
Maximum Credits: 3
This is a production course where students, through a series of assignments, will put together a portfolio of color photographs. The student will learn to visually articulate their ideas, and examine their work, and the work of others through group critiques. The course structure will be one of lecture, demonstration, and critique.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0225 - STUDIO LIGHTING TECHNIQUES

Minimum Credits: 3
Maximum Credits: 3
This is a production course in studio photography. The emphasis will be on lighting techniques. Assignments will include portraiture, tabletop set ups and synchronizing flash units with daylight. Considerable outside time is required to complete assignments.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0230 - NON-SILVER PRINTING 1

Minimum Credits: 3
Maximum Credits: 3
Acting as both picture-maker and chemist, the student will study photographic history. The artist/student will also choose the most appropriate combination needed to suit specific photographic ideas. This course will allow the student to work within the whole photographic process, that is, the student will be mixing the chemicals and applying the photosensitized emulsion to the support-base that he/she chooses. The processes examined will be cyanotype, van dyke brown, and gum bichromate.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0235 - DOCUMENTARY PHOTOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
The primary objective of this course will be to concentrate on a cohesive visual statement about Pittsburgh. Areas of concentration will revolve around the landscape, social landscape (people in their environment), cityscape, and portraiture. Discussions will be held during class time to discuss different approaches to the objective. Individual attention will be given to aesthetic and technical problems that may arise. Lab techniques in advanced negative and print processing, and seminars to review student work will also be part of this course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0245 - PHOTOSHOP FOUNDATIONS

Minimum Credits: 3
Maximum Credits: 3
This course explores digital imaging as a method for manipulating and presenting work. Techniques covered include scanning, image retouching, correction and manipulation, printing and creative use of layers, selections, and masks. Assignments include restoration, digital colorizing of black and white imagery and digital color printing.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0001 or FILMST 0120 or FILMST 0200 or FILMST 0400; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0275 - HISTORY OF PHOTOGRAPHY 1

Minimum Credits: 3
Maximum Credits: 3
This course will examine the overall development of photography in Europe and the United States up to 1900, with demonstrations of early processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0276 - HISTORY OF PHOTOGRAPHY 2

Minimum Credits: 3
Maximum Credits: 3
This course will examine the evolution of photography, as an art form in Europe and the United States, after 1900.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0400 - INTRO TO DIGITAL EDITING

Minimum Credits: 3
Maximum Credits: 3
This course introduces students from film, video and photography to the desktop Macintosh computer-the preferred interface when dealing with graphics-related applications. Students will first become acquainted with and proficient in the mac operating system. The course will survey the most popular applications for manipulating photographic images, combining text with images, and doing simple video and audio editing on a mac. Students will integrate readings, lecture and in-class lab sessions to complete their own projects.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0410 - ADVANCED DIGITAL PHOTOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course offers advanced Photoshop techniques. Learn to make complex selection and color correction, texture maps, advanced layering and masking principles. Learn to make custom color profiles along with essentials of digital color management. Emphasis is on the development and exploration of a personal vision and the creation of a digital portfolio.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0420 - ADV DIGITAL EDITING TECHNIQUES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0500 or FILMST 0601; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0500 - FILM PRODUCTION 1

Minimum Credits: 3
Maximum Credits: 3
This course is intended for freshmen and sophomore students who have taken photographic and motion principles, but do not have advanced skills in the methods of film production. This is an intermediate course in a new film production. Curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. In particular, digital non-linear editing has replaced film editing almost completely in the film industry, and the technologies of film are increasingly converging and overlapping. This course should increase their skill sets most commonly employed in the industry.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0001; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0601 - VIDEO PRODUCTION 1

Minimum Credits: 3
Maximum Credits: 3
This course is intended for freshmen and sophomore students, who have taken the introductory course, photographic and motion principles. This is an intermediate course in a new video production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. For students who pursue video, video production 1 is an intermediate level course similar to video production. Students will edit video on computer workstations using final cut pro and DVD studio pro.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0001; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 0610 - DIGITAL EFFECTS & COMPOSITING

Minimum Credits: 3
Maximum Credits: 3
This course covers digital methods of combining video, photographs, graphics, text and other visual elements, and manipulation of those elements to tell a story. Course includes software such as Adobe After Effects, Adobe Photoshop and Illustrator. Topics include gaining an understanding of the structure of digital images, transparency and masking, Chroma keying, using layers and depth, key frame animation, image processing, effects and their use, formats, input and output of imagery and workflow methods.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: FILMST 0601; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1120 - DIRECTING ACTORS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 1130; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1130 - TECHNICAL DIRECTING
Minimum Credits: 3
Maximum Credits: 3
This course addresses some of the basic problems of designing and directing scenes for motion pictures. Some of the problems discussed are the relationship of film to reality, the meaning of cinematic techniques, continuity, shot selection, cut selection and visualization techniques. The format is a combination of lecture, screening and interactive group exercises. Extensive outside work is necessary.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0001; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1132 - INTRODUCTION TO SCREENWRITING
Minimum Credits: 3
Maximum Credits: 3
As an introduction to writing for the audiovisual media, this course combines theory, analysis and practical exercise. Students will address the basic issues of screen writing; idea, story, structure, scene, character, dialogue and action. Concurrent with the theoretical discussion will be a series of practical exercises. Students will develop stories and characters and mold them into scenes. Students will also submit written analysis on a current film from a screenwriting perspective.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1133 - SCRIPT DEVELOPMENT
Minimum Credits: 3
Maximum Credits: 3
This course is designed for students who have a knowledge of basic screenwriting principles and who wish to develop an original idea into a full treatment. Each student is required to complete a 30 to 40 page scene by scene treatment for a feature-length film script. Considerable outside work is necessary.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 1132; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1134 - WRITING & PRODUC SHORT SCRIPT
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1140 - ACTING FOR THE CAMERA
Minimum Credits: 3
Maximum Credits: 3
This course is designed for actors who would like to improve their craft by better understanding the differences between acting for the stage and acting for the camera. The course will describe and demonstrate the contrasts between stage and screen acting in specific shooting scripts and follow that with appropriate script study, character analysis and exercise in film acting techniques. Each class will include lecture, videotaped examples of performances for analysis and critique and the practical experience of working in front of the camera.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1141 - ACT FOR CAMERA: ADV TECHNIQUES
Minimum Credits: 3
Maximum Credits: 3

This course explores some of the special problems and challenges facing television and motion picture actors. Designed for students who are serious about their artistic expression in front of the camera, the course concentrates on dramatic acting. It is a course for filmmakers as well as actors because the quality of an actor's performance is an essential of a film. Students learn to direct actors as well as to perform in front of the camera.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1145 - SOUND FOR FILM AND VIDEO

Minimum Credits: 3
Maximum Credits: 3
Beginning with the basic principles of sound, the course will examine the problems of converting sound to an electrical analogy, processing it and storing it magnetically. Particular emphasis will be placed on the special problems associated with motion picture sound; intelligibility in voice reproduction, achieving and maintaining synchronism, academy standards, optical recording, 16 mm multi-track production methods and the relationship between voice, music, sound effects and story.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0500 or 0601; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1156 - CINEMATOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course examines the tools, technology and creative options available to a cinematographer. Cameras, lenses, light meters, emulsions, sensitometry, light sources, color, printing and the film laboratory are among the topics covered. Students participate in group shooting sessions and are encouraged to show their work in class in order to examine it in terms of cinematography.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0500; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1157 - LIGHTING FOR FILM AND VIDEO

Minimum Credits: 3
Maximum Credits: 3
This course allows students from both the film and video disciplines to expand their aesthetic boundaries by overcoming technical limitations. Students will learn theories of lighting to create a particular emotional, psychological, or physiological effect in the viewer, and will participate in lighting and shooting a variety of situations in class. Differences between lighting for film and video, light metering, and various lighting tools are among the topics covered. Contemporary film and tape examples will be examined and discussed in class.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1160 - CREW PRODUCTION WORKSHOP

Minimum Credits: 3
Maximum Credits: 3
This is a course for experienced filmmaking students. Its purpose is to give students an understanding of, and experience in, a collaborative film production situation. The goal of the class will be to produce collectively one or more short films or video tapes. Each student is required to perform at least one of the following roles: director, camera person, sound person, camera assistant, production manager, gaffer, or editor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1200 - BLACK AND WHITE PHOTOGRAPHY 3

Minimum Credits: 3
Maximum Credits: 3
Photography 3 is an introductory course to large-format photography. An in-depth look at the technical aspects of the 4 x 5 view camera-its controls, film development, as well as the aesthetic possibilities of the images produced. Students will also be exposed to advanced printing methods and mural printing techniques.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0201; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1201 - VIEW CAMERA TECHNIQUES

Minimum Credits: 3
Maximum Credits: 3
View camera photography is a large format single exposure technique which can be used to produce high quality, fine grained images. Students will learn to use view cameras under a variety of circumstances. This is an advanced course in which there is an emphasis on creating a personal vision" and the effective presentation of furnished images."
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1205 - ADVANCED PHOTO SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to help advanced photography students create a portfolio suitable for exhibition and view it in the context of contemporary art photography. Emphasis on producing a cohesive body of work by shooting, developing and printing their work as an ongoing assignment. Course will provide a blue print for a working artist.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1210 - COLOR PHOTOGRAPHY 2

Minimum Credits: 3
Maximum Credits: 3
This is an advanced color techniques course. Students will learn color posterization utilizing black and white high contrast film and negative manipulations such as reticulations, etching and recoloring. Other areas that will be covered include print manipulation techniques and the polaroid transfer process.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1220 - THE ZONE SYSTEM

Minimum Credits: 3
Maximum Credits: 3
This course will explore the zone system in photography. The zone system is a concise method of exposure and development of photographic materials which enables the photographer to have the complete control and predictability necessary for conveying a particular feeling or emotion about the subject. Students will achieve this through a series of exposure and development tests.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1225 - NON-SILVER PRINTING 2

Minimum Credits: 3
Maximum Credits: 3
This course will allow the student to work within the whole photographic process, that is, the student will be mixing the chemicals and applying the photo-sensitive emulsion to the support/base that he/she chooses. The course will also consider the 19th century process in which the photographer was both picture-maker and chemist.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1230 - EXPERIMENTAL DARKROOM

Minimum Credits: 3
Maximum Credits: 3
Experimental darkroom will deal with a variety of techniques utilizing different photographic materials in the darkroom. Black and white posterization plus a series of other darkroom manipulations that use both continuous tone and graphic arts film will be discussed and demonstrated. Students will re-work the surface of their prints. Techniques explored are hand coloring, collage and multiple imaging.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1235 - EXPERIMENTAL CAMERA

Minimum Credits: 3
Maximum Credits: 3
This will be a workshop course dealing with a variety of techniques utilizing the camera as a tool for visual information outside of its normal use and function. The course will look at the history of cameras and the many image making devices that were invented to date. Students will make their own pinhole cameras and purchase a Holga camera for their assignments.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1500 - FILM PRODUCTION 2

Minimum Credits: 3
Maximum Credits: 3
This course is intended for sophomore and junior students who have taken an intermediate course in film production, but do not have advanced skills in the methods of film production. This advanced course in a new film production curriculum is designed to optimize the ways in which students' skills and knowledge reflect changes in the field. For students who decide to pursue filmmaking over video production, this course is an advanced level course. There is less stress on mechanical film editing, and students are encouraged to release their final film projects on video rather than film prints.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0500; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1550 - FILM THESIS 1

Minimum Credits: 3
Maximum Credits: 3
This course is intended for senior students, who have taken advanced courses in film production and have advanced skills in the methods of film production. The first in a two-semester thesis sequence is the final part of a new film production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. Along with lecture courses such as cinematography, this curriculum should give students thorough knowledge of the aesthetics, techniques, and technologies of film production. Students should create a finished film of high enough quality to show in film festivals.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 1156 and FILMST 1500; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1575 - FILM THESIS 2

Minimum Credits: 3
Maximum Credits: 3
This course is intended for senior students, who have taken advanced courses in film production and have advanced skills in the methods of film production. The second of a two-semester thesis sequence is the final part of a new film production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. Along with lecture course such as cinematography, this curriculum should give students thorough knowledge of the aesthetics, techniques, and technologies of film production. Students should create a finished film of high enough quality to show in film festivals.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 1500; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1580 - ELECTRONIC CINEMATOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course is intended for advanced students, who have previously completed video production 2. This course is an advanced course in a new video production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. It is an advanced level course that offers instruction in the most sophisticated techniques used in film production, but translates those techniques and their application to the realm of high-end digital video production.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1600 - VIDEO PRODUCTION 2

Minimum Credits: 3
Maximum Credits: 3
This course is intended for sophomore and junior students, who have taken video production 1. This is an intermediate course in a new video production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. This course is similar to

advanced video production, but students will work at a slightly more advanced level. Students will edit video on a computer workstation using final cut pro HD, motion, DVD studio and soundtrack.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 0601; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1650 - VIDEO THESIS 1

Minimum Credits: 3
Maximum Credits: 3
This course is intended for senior students, who have taken advanced courses in video production and have advanced skills in the methods of video production. The first in a two-semester thesis sequence it's the final part of a new film production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. Along with lecture courses such as cinematography, this curriculum should give students thorough knowledge of the aesthetics, techniques, and technologies of video production. Students should create a finished video of high enough quality to show in film festivals.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FILMST 1580 and FILMST 1600; PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1675 - VIDEO THESIS 2

Minimum Credits: 3
Maximum Credits: 3
This course is intended for senior students, who have taken advanced courses in video production and have advanced skills in the methods of video prod. The second in a two-semester thesis sequence it's the final part of a new film production curriculum designed to optimize the ways in which students' knowledge and skills reflect changes in the field. Along with lecture courses such as cinematography, this curriculum should give students thorough knowledge of the aesthetics, techniques, and technologies of video production. Students should create a finished video of high enough quality to show in film festivals.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1900 - INTERNSHIP IN FILM

Minimum Credits: 3
Maximum Credits: 6
Working in consultation with faculty, advanced students wishing to pursue careers in film have the opportunity to work with independent media artists or production companies. This course offering is designed to give students valuable experience in their chosen field of study outside the college and classroom environment.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1901 - INDEPENDENT STUDY IN FILM

Minimum Credits: 3
Maximum Credits: 3
Under certain circumstances students may elect to study film production on an independent basis. Such independent study will be closely supervised by an instructor and will entail the writing of a contract prior to beginning the course. Independent study will involve a minimum of eight meetings (between student and teacher) per term.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1910 - INTERNSHIP IN PHOTOGRAPHY

Minimum Credits: 3
Maximum Credits: 6
Working in consultation with faculty, advanced students wishing to pursue careers in photography have the opportunity to work with independent photographers or photographic studios. This course offering is designed to give students valuable experience in their chosen field of study outside the college and classroom environment.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1911 - INDEPENDENT STUDY PHOTOGRAPHY
Minimum Credits: 3
Maximum Credits: 3
Under certain circumstances students may elect to study photography on an independent basis. Such independent study will be closely supervised by an instructor and will entail the writing of a contract prior to beginning the course. Independent study will involve a minimum of eight meetings (between student and teacher) per term.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1920 - INTERNSHIP IN VIDEO
Minimum Credits: 3
Maximum Credits: 6
Working in consultation with faculty, advanced students wishing to pursue careers in video or television have the opportunity to work with independent media artists or television production companies. This course offering is designed to give students valuable experience in their chosen field of study outside the college and classroom environment.
Academic Career: UGRD
Course Component: Internship
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

FILMST 1921 - INDEPENDENT STUDY IN VIDEO
Minimum Credits: 3
Maximum Credits: 3
Under certain circumstances students may elect to study video production on an independent basis. Such independent study will be closely supervised by an instructor and will entail the writing of a contract prior to beginning the course. Independent study will involve a minimum of eight meetings (between student and teacher) per term.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Dietrich Sch Arts and Sciences or College of General Studies

Finance

BUSFIN 1030 - INTRODUCTION TO FINANCE
Minimum Credits: 3
Maximum Credits: 3
Provides a survey and analysis of the problems and tools of financial decision-making by individuals and firms. The firm's role in the market system and the nature of its objective with reference to the welfare of investors and society is also treated. An analysis of the implications of this role to decisions regarding choice among alternative investment projects and capital budgeting decisions as well as an introduction to the structure of capital asset prices and the implications for financial policies of firms and individuals are also included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (BUSACC 0030 or BUSERV 1920 or CDACCT 6030 or MGMT 0022 or BUS 0115 or ACCT 0201) and (STAT 1000 or 1100 or MGMT 0024 or STAT 1040 or ECON 0204 or STAT 1131); PROG: College of Business Admin; LVL: So, Jr or Sr

BUSFIN 1031 - INT TO FINANCE HONORS + 1
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSFIN 1311 - CORPORATE FINANCE
Minimum Credits: 3
Maximum Credits: 3
Investigates the investment and financing decisions of firms from the perspective of the corporate manager. The pedagogical format combines conceptual and case analyses so as to provide both a theoretical and practical foundation. Specific topics to be considered include the following: capital budgeting, cost of capital determination, capital structure decisions and dividend policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRADE 'C'); PLAN: Accounting, FInance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1316 - ADVANCED CORPORATE FINANCE

Minimum Credits: 3
Maximum Credits: 3
Examines a variety of applied topics in corporate finance, including mergers and acquisitions, corporate restructuring, leasing, pensions, short term financial management, and the use of derivatives in corporate finance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1311; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1321 - INVESTMENT MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Emphasizes the development of tools required for investment decision-making. Reviews various financial instruments, examines their historical performance for evidence of risk return trade-off, presents basic portfolio theory and its implications for diversification, discusses the capital asset pricing model, and empirical estimation of beta riskiness. Other topics include mutual fund performance and the theory of efficient markets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1326 - EFFICIENCY OF CAPITAL MARKETS

Minimum Credits: 3
Maximum Credits: 3
This course covers a central issue in finance: the Efficient Market Hypothesis (EMH). The EMH states that security prices reflect all relevant information and implies that investors cannot earn excess profits. Evidence in support of the EMH and contrary to it is studied. The implications of efficiency impact all financial managers and individuals in their financial decisions. Topics include: what actions can a financial manager take to maximize shareholder wealth, why do prices fluctuate, and technical versus fundamental analysis. The course focuses on valuation methods like DCF and CAPM.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1327 - FUTURES AND OPTIONS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the growing area of derivatives. It describes the attributes of futures and options and the markets in which they are traded. The course develops techniques for valuation of futures and options and describes ways in which futures and options are used for risk management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1328 - CAPITAL MARKETS

Minimum Credits: 3
Maximum Credits: 3
This course provides an in-depth analysis of stock and bond valuation. The analysis of bonds covers bond pricing principals, the term structure of interest rates, and fixed income portfolio management. The analysis of stocks focuses on earnings and dividend-based valuation models, and a discussion of value investing" and indexing."
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1329 - FIXED-INCOME SECURITIES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1331 - FINANCL INSTITUTIONS & MARKETS

Minimum Credits: 3
Maximum Credits: 3
Analysis of the behavior of financial intermediaries in the capital market. The performance of capital markets and examination of the role of regulations of financial markets, and the effects of decision-making by individuals and firms are covered. Sources of short-term and long-term financing will also be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1341 - INTERNATIONAL FINANCE

Minimum Credits: 3
Maximum Credits: 3
This course applies the principles of finance to international issues in financial management. It deals in topics such as the valuation of foreign subsidiaries, estimating the cost of capital of foreign investments, investing in foreign multinational firms, the correlation of returns across international security markets, hedging foreign exchange risk, and the use of foreign securities markets.
Academic Career: UGRD
Course Component: Lecture

BUSFIN 1347 - MERGERS ACQISTN & CORPR STRUCT

Minimum Credits: 3
Maximum Credits: 3
This course examines the major structural transactions that corporations experience from an internal perspective, based on sound financial analysis conducted with an understanding of corporate governance, firm strategy, law, accounting, and organizational behavior. Particular emphasis will be on mergers and acquisitions (M&A), and include topics in venture capital, initial public offerings, buyouts, divestitures, and bankruptcy. Readings, case study analysis, and active class discussion are emphasized. Teams of students will put the M&A process into practice by searching out and analyzing potential target firms for a major corporation and presenting their analyses and recommendations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1311 and BUSFIN 1321; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1351 - FINANCIAL MODELING

Minimum Credits: 3
Maximum Credits: 3
The course applies economic theories to solve various problems in financial management and investments. Using a hands-on approach in building financial spreadsheet models, the student will gain knowledge of numerical and graphical practices. These include but are not limited to asset return calculations, portfolio theory, index models, and the capital asset pricing model, option pricing models, bond pricing and investment performance analysis. MS excel is the primary tool to implement these financial models, however the course will also make use of statistics and probability.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRADE 'C') and BUSFIN 1311 and BUSFIN 1321; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1355 - VALUATION
Minimum Credits: 3
Maximum Credits: 3
This course examines the topic of value ' what it is, how to measure it, and how to use it to guide managerial decisions. This is done by accomplishing three objectives: 1) provide students with a conceptual framework for thinking about value; 2) provide students with tools for estimating value and measuring value creation and destruction; and 3) teach students how to apply valuation models in different settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1311 and BUSFIN 1321; PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSFIN 1380 - GLOBAL FINANCIAL SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
This course will examine the history and development of the global economy. It will examine the structure and principal operations of the global financial system. In doing so it will explore the impact of these operations in terms of trade, financial assets, capital movements and economic growth, putting into evidence the new global processes and its impact especially over the Brics and European markets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSFIN 1390 - FINANCE INTERNSHIP
Minimum Credits: 3
Maximum Credits: 3
The finance internship provides business credits for project assignments that augment a professional finance work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD 'C'); PLAN: Finance (BSB)

BUSFIN 1391 - SPECIAL TOPICS IN FINANCE
Minimum Credits: 3
Maximum Credits: 3
Focuses on a variety of finance issues related to international business transactions. Issues addressed will vary by instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSFIN 1395 - FINANCE INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of finance issues or problems to which they have been introduced in other finance courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: BUSFIN 1030 (MIN GRAD: 'C'); PLAN: Finance (BSB)

BUSFIN 1396 - TOPICS IN FINANCE
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Directed Studies

French & Italian Languages and Literatures

FR 0001 - ELEMENTARY FRENCH 1
Minimum Credits: 5
Maximum Credits: 5

This course will introduce the student to the oral-aural and reading-writing skills in the language. From the outset, students learn to use the spoken language and begin to work on good pronunciation, while at the same time developing the listening comprehension, reading, and writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0002 - ELEMENTARY FRENCH 2

Minimum Credits: 5
Maximum Credits: 5
This course introduces the students to the oral-aural and reading-writing skills in the language. From the outset, students learn to use the spoken language and begin to work on good pronunciation, while at the same time developing the listening comprehension, reading, and writing skills. This course is a logical continuation of elementary French 0001.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0003 - INTERMEDIATE FRENCH 1

Minimum Credits: 3
Maximum Credits: 3
This course is a logical continuation of the first-year sequence. Emphasis continues to be placed on the oral aural skills, but the reading and writing skills become increasingly stressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

FR 0004 - INTERMEDIATE FRENCH 2

Minimum Credits: 3
Maximum Credits: 3
This course is a continuation of French 0003. Reading skill is emphasized even more than in FR 0003 but continues to be accompanied by oral-aural and written work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

FR 0005 - FRENCH FOR TRAVELERS

Minimum Credits: 3
Maximum Credits: 3
This course provides fundamentals of survival spoken French most likely to facilitate elementary communication for the tourist who has not previously studied the language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0006 - SPECIAL TOPICS IN CONVR & CULT

Minimum Credits: 1
Maximum Credits: 6
Designed for students at the second-year level of proficiency (French 3 or French 4), this course will treat topics in French and/or francophone cultures, with a focus on oral communication.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

FR 0007 - INTENSIVE FRENCH FOR READING 1

Minimum Credits: 4
Maximum Credits: 4
This beginning course is designed solely to teach the basic vocabulary and grammar of written French in order to develop a good reading knowledge of the language in the shortest possible time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0008 - INTENSIVE FRENCH FOR READING 2

Minimum Credits: 4
Maximum Credits: 4

This course consists of translation and discussion in English of a variety of non-literary readings. It is a logical continuation of French 0007.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0007 (MIN GRADE: 'C')

FR 0012 - FRENCH KISS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0015 - ELEMENTARY FRENCH REVIEW

Minimum Credits: 5
Maximum Credits: 5
Elementary French review is an accelerated language course for students who 1) already are familiar with some elementary-level French vocabulary and structures and 2) desire to complete the typical two-semester elementary French sequence in one semester. This intensive review course is both communicative, allowing students to interact in the target language with classmates and their instructor, and integrated, meaning language-learning skills will be used together to speak, read, listen, and write about university life, family and friends, pastimes, future goals, and personal opinions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0020 - FRANCE IN THE 21ST CENTURY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to lead students to a better understanding of France today. We shall pay particular attention to the perceptions the French have of themselves, and to the major aspects of contemporary French life and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 or 0021 or 0027 or 0055 or 0056 (MIN GRADE: 'C' for all listed Courses)

FR 0021 - APPRCHES TO FRENCH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
The goal of this course is to illustrate ways of looking at literary texts. We shall examine plays, short prose works and poems focusing on textural elements such as narrative technique, characterization, societal factors and language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 or 0020 or 0027 or 0055 or 0056 (MIN GRADE: 'C' for all listed Courses)

FR 0027 - THE FRENCH ATLANTIC

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 or FR 0020 or FR 0021 or FR 0055 or FR 0056 (MIN GRADE: 'C' for all listed Courses)

FR 0031 - ELEMENTARY FRENCH 1 FOR MBAS

Minimum Credits: 1.5
Maximum Credits: 1.5
French 0031 is designed for business students who have no previous knowledge of French. It is an elementary language acquisition course and aims to teach students how to carry out basic functions likely to be necessary in dealing with others in the target language. The course aims to develop very basic abilities in all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0032 - ELEMENTARY FRENCH 2 FOR MBAS

Minimum Credits: 1.5
Maximum Credits: 1.5
French 0032 is designed for business students who have successfully completed French 0031 or who have placed into the course on the basis of the

department placement test. It continues with the presentation of the basic French functions, grammatical structures and vocabulary begun in French 0031. It emphasizes all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0055 - FRENCH CONVERSATION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to help students already familiar with the basic grammatical structure of the language to improve their facility in oral expression.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 or 0020 or 0021 or 0027 or 0056 (MIN GRADE: 'C' for all listed Courses)

FR 0056 - WRITTEN FRENCH 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to enable students to improve their understanding and use of essential elements of written French.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 or 0020 or 0021 or 0027 or 0055 (MIN GRADE: 'C' for all listed Courses)

FR 0057 - WRITTEN FRENCH 2

Minimum Credits: 3
Maximum Credits: 3
This course is a sequel to FR 0056. Emphasis will continue to be placed on the mastery of essential elements of written French and on techniques of expository writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0058 - ADVANCED FRENCH CONVERSATION

Minimum Credits: 1
Maximum Credits: 1
An advanced conversation course in French for majors and non-majors who wish to maintain or improve their command of the French language through a discussion of contemporary topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0055

FR 0080 - MODERN FRENCH NOVEL

Minimum Credits: 3
Maximum Credits: 3
The French novel is to a great extent a genre in which psychological analysis has been brought to a high level of sophistication. This shall be studied through close analyses of approximately six works in English translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0081 - FRENCH THEATRE

Minimum Credits: 3
Maximum Credits: 3
This course will explore comedy and tragedy of the classical period in relation to more recent developments in the 19th and 20th centuries in France. Close readings of selected plays by major authors will be stressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0085 - FRENCH FILM 1930-1960

Minimum Credits: 3
Maximum Credits: 3
A survey of the French sound film through the early new wave films. All films will be shown with English subtitles and no knowledge of French is

necessary.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 0100 - FRENCH FOR THE PROFESSIONS

Minimum Credits: 3
Maximum Credits: 3
This course is designed for students interested in learning French for professional purposes. As an introductory course, students will learn the language practices necessary to initiate, carry out, and conclude basic professional transactions in the geographic and virtual French-speaking worlds.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: (College of Business Admin) or (School of Nursing) or (Swanson School of Engineering)

FR 1001 - POETRY

Minimum Credits: 3
Maximum Credits: 3
The study of poetry cannot be divorced from the special requirements of versification, we shall begin by examining the general aspects of French prosody. Then, the regular work of the class will be devoted to the close reading of poems by a number of poets, including Ronsard, Victor Hugo, Baudelaire, Rimbaud, Mallarme, Veraline and Apollinaire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1002 - FRENCH THEATRE

Minimum Credits: 3
Maximum Credits: 3
In this course we shall consider the distinctive characteristics of French drama from the seventeenth century to the mid-Twentieth Century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1003 - NOVEL 1

Minimum Credits: 3
Maximum Credits: 3
This course will trace the development of the French novel from the mid-17th to the mid-19th century. We shall study the novel as a literary genre in process of change, reflecting or exploring in literary language moral, esthetic, social, intellectual and material forces at work in French society at different periods.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis

FR 1012 - 17TH CENTURY TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of the literature of the 17th century in France.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1014 - 18TH-CENTURY TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of the literature of the 18th century in France.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1016 - 19TH CENTURY TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of the literature of the 19th century in France.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1018 - 20TH CENTURY TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of the literature of the 20th century in France.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1020 - 21ST CENTURY TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of literature and/or culture of the 21st century in France.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1024 - THE MARVELOUS & THE FANTASTIC

Minimum Credits: 3
Maximum Credits: 3
In this course we read literary texts from the seventeenth to the twentieth century from two related genres--the marvelous and the fantastic. In texts considered here as marvelous (e.g., fairy tales) supernatural elements provoke no special reaction on the part of readers and characters. In the fantastic genre, readers and sometimes characters hesitate between natural and supernatural explanations of events. We apply a number of critical tools to understanding the texts we read stylistically and thematically and to exploring their relationship to one another, to historical events, to developments in psychology (including children's psychology) and the natural sciences, to major intellectual and literary movements, such as romanticism and social realism, and to children's literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1031 - FRENCH PHONETICS

Minimum Credits: 3
Maximum Credits: 3
A systematic study of the sounds and sound patterns of French in theory and in practice. Emphasis is placed on oral work designed to perfect the student's pronunciation of the language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1032 - ADV GRAMMAR AND STYLISTICS

Minimum Credits: 3
Maximum Credits: 3
This course focuses on reading and writing as complementary communicative acts. Students engage in practical and theoretical study of French grammar, the analysis and imitation of stylistic and grammatical features found in selected French prose texts, and comparative stylistic analysis of English and French. Writing assignments include original compositions in French and short translations from French to English and English to French. Conducted in French.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1033 - BUSINESS FRENCH

Minimum Credits: 3
Maximum Credits: 3
This course is a course in French language and francophone culture with a focus on business. Students will continue to perfect their general language skills and cultivate those special skills necessary to carry out commercial activities in French-speaking places.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0004 and (FR 0020 or FR 0021 or FR 0055 or FR 0056); PROG: School of Arts and Sciences (UA-S) or College of Business Admin (UCBA)

FR 1038 - STRUCTURE OF MODERN FRENCH

Minimum Credits: 3
Maximum Credits: 3
This course will offer a problem-solving approach to the syntax of modern French and will focus on rule discovery and methods of syntactic argumentation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1040 - FRENCH LANGUAGE PAST & PRESENT

Minimum Credits: 3
Maximum Credits: 3
This course is designed to show how the language, as we know it today, has emerged, after two thousand years of change and reconstruction, from the language once known as Latin in the area once known as Gaul.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1050 - POWER, POLITICS AND AESTHETICS

Minimum Credits: 3
Maximum Credits: 3
This course will follow the evolution of French culture with the ultimate objective of illustrating the ways in which contemporary France has been formed by its rich heritage. In this first part of a two course sequence, the evolution of French society and culture from the middle ages to the French revolution will be surveyed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1051 - FRENCH CIVILIZATION 2

Minimum Credits: 3
Maximum Credits: 3
This course surveys the evolution of French society and culture from the revolution to the present. The course focuses mainly on the social, intellectual and artistic history of nineteenth and Twentieth-Century France.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1052 - SPEC TOPICS IN FR CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
This course, offered infrequently, will treat some aspect of French civilization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1053 - GLOBAL FRENCH

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1059 - 20THC FR CIVILZTN: SPEC TOPIC
Minimum Credits: 3
Maximum Credits: 3
This course will treat some aspect of 20th century French civilization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1072 - REPRESENTING JUSTICE
Minimum Credits: 3
Maximum Credits: 3
How can one represent" the concept of justice? What are the "narratives of justice" which have been used in the past to explain this notion? What are the ones which talk to us most vividly today? This course will attempt to answer such questions by confronting philosophical definitions of justice with literary ones. From Aristotle's to Lyofard and from Sophocles to Camus, students will reflect on the way Western culture has approached and invented its notion of justice."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1073 - CULTURES OF LAW AND JUSTICE
Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to help the students understand the broadest philosophical and cultural principles on which the laws of a nation are built. In order to do so, there will be a comparison of the overall politico-legal structures of France (based on civil law) with its American counterpart (based on common law), as well as with the new institutions emerging within the European Union, and the Swiss model of direct democracy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1076 - FRENCH INTELLECTUALS
Minimum Credits: 3
Maximum Credits: 3

From environmental issues to gender politics, from the culture of capitalism to universal human rights, from media encroachment to esthetic values, French intellectuals had something to say about it all! In this class, we will discuss the tradition and the contemporary practice of public intervention on the part of writers, artists, sociologists and philosophers in modern France. The class starts with the contemporary figure of French economist Thomas Piketty, and then goes through a chronological review of the significance of enlightenment thinkers such as Voltaire and Rousseau, early critics of capitalist society such as the writers Balzac and Stendhal, Emile Zola's famous denunciation of anti-Semitism in the French military establishment at the turn of the 19th/20th century, 20th-century French existentialist Jean-Paul Sartre, feminist thinkers such as Simone de Beauvoir and Monique Wittig, environmental critics such as the un-growth advocate Serge Latouche and postmodern sociologist Jean Baudrillard.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1079 - CINEMA AND THE POSTCOLONIAL

Minimum Credits: 3
Maximum Credits: 3
This course draws on films from areas formerly colonized by France to explore the complex and frequently contested notion of the postcolonial. Through theoretical readings and analysis of films from North and sub-Saharan Africa and Vietnam, we will explore the shift from a binary model of colonizer/colonized to a recognition of the uneven, unsettled relations both within and between former colonies and the metropole. Introduction to concepts of film analysis and critical writing practice will encourage interrogation of your own viewing expectations along with the films on view.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1081 - SPEC TOPICS IN LIT (ENGLISH)

Minimum Credits: 3
Maximum Credits: 3
This course taught in English will treat some aspect of French literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1082 - CITZN STATE ERLY MOD FR THGHT

Minimum Credits: 3
Maximum Credits: 3
Course in English about French political thought of the 16th, 17th and 18th century. The aim is not only to introduce students to the evolution of French society and philosophy but also to show what the echoes are today of the philosophical problems discussed in the past centuries. Beyond the specifics of French history, the underlying questions are: what should be the role of the state? And what is a citizen?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1084 - POLITICS IN MODERN FR LITRATUR

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the close relation between literature and politics in modern France. We will concentrate on the study of literary narratives and their role in popularizing as well as invalidating political movements. Through the readings we will investigate such concepts as the relation of the citizen, the state, the rise of the proletarian movement in France and the temptations of totalitarianism around World War II. Authors read include Hugo, Sand, Zola and Malraux. Students should come to a better understanding of the place of literature in society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1085 - WOMEN'S VOICES IN FRENCH LIT

Minimum Credits: 3
Maximum Credits: 3
We will read texts written by women authors in France from the middle ages to the 20th century. By following the evolution of the issues faced by women writers we will discover how a good number of the current claims were already clearly expressed several centuries ago. We will also be able to understand better what is specific to our period, and to reflect upon what it means today for a woman to inscribe her voice in a male dominated society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: FR 0021 (Min Grade 'C')

FR 1088 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3

Period and literary topics are determined by the instructor.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1089 - FRANCOPHONE AFRCNA LITERATURE

Minimum Credits: 3
Maximum Credits: 3
An examination for the cultural, social and political relationships of French-speaking African and the Caribbean as reflected through different genres from the 1900's. Reading poetry, folklore, and novels produced by African writers sheds light on the issues confronting them such as polygamy, urbanization, assimilation, rituals, and the marginal man and woman.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1090 - INTRO TO TRANSLATION STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course serves as a foundation course for the professional translation certificate program, and for related fields. It deals with translation theory and the general problematics of the translation process, providing a theoretical framework for translation and systematically linking theory and practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1095 - FR PROFESSIONAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3
The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under on the job" situations. Emphasis is on practical translation skills. Introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial, legal, scientific, and technical texts."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FR 1096 - FR PROFESSIONAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
This course continues development of skills begun in professional translation 1. As in professional translation 1, emphasis is on practical translation skills, basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial, legal, scientific and technical texts of a progressively greater degree of complexity and difficulty.
Academic Career: UGRD

Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

Freshman Program

FP 0001 - INTRO TO THE ARTS & SCIENCES

Minimum Credits: 1
Maximum Credits: 1
This course is designed especially for freshmen as an introduction to the Dietrich School of Arts and Sciences. Topics of discussion include: (1) the city and the campus; (2) academic skills and services; (3) academic honesty; (4) academic communication; and (5) educational goals. Through class work and out-of-class activities, students will gain knowledge of the educational opportunities at the University, the cultural events on and off campus and an understanding of what it means to be a liberal arts student. All students who enroll in this course will receive a free academic planner on the first day of class compliments of the Office of Freshman Programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

FP 0003 - FRESHMAN SEMINAR

Minimum Credits: 4
Maximum Credits: 4
Freshman seminar fulfills the seminar in composition requirement and includes Introduction to the Arts and Sciences (FP 0001), an introduction to academic life in the School of Arts and Sciences. Topics of discussion include: (1) the city and the campus; (2) academic skills and services; (3) academic honesty; (4) academic communication; and (5) educational goals. Because freshman seminar is a four-credit course, students spend at least 10 additional hours during the term on out-of-class activities that complement and enrich coursework. All students who enroll in this course will receive a free academic planner on the first day of class compliments of the Office of Freshman Programs.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or 0150 or 0152 or ENG 0101

FP 0005 - IDENTITY AND ALIENATION

Minimum Credits: 3
Maximum Credits: 3
This course is about alienation, both as a literary theme and an authorial tool. Course readings loosely have a common theme: characters are thrown into unknown lands and situations without a map. The course examines the way the characters, as well as humans generally, one way or another are in the wilderness, with identity always at stake. The course examines how finding ways through requires emotional, ethical and actual navigation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0006 - FRESHMAN SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This introductory writing seminar, open to freshmen only, fulfills the seminar in composition requirement. In this seminar, students have the opportunity to improve as writers by developing their understanding of how they and others use writing to interpret and share experience, affect behavior, and position themselves in the world. Each seminar has its own theme, and students may elect the theme they find most interesting. In all seminars, student writing is the primary focus.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: ENGCMP 0002 or 0003 or 0005 or 0010 or ENGCMP 0150 or ENGCMP 0152 or ENG 0101

FP 0007 - ANTISOCIAL BEHAVIOR AND CRIME

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0009 - ORIENTATION FOR TRANSFERS

Minimum Credits: 1
Maximum Credits: 1
This course is designed especially for transfer students as an introduction to the school of arts and sciences. Through class work and out-of-class activities, students will gain knowledge of the educational opportunities at the University, the cultural events on and off campus, and an understanding of what it means to be a liberal arts student. Topics of discussion include: (1) transition to Pitt; (2) academic skills and services; (3) academic honesty; (4) thinking about the liberal arts; (5) polite and professional communication; and (6) educational goals. All students who enroll in this course will receive a free academic planner compliments of the office of freshman programs on the first day of class.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Satisfactory/No Credit

FP 0010 - LITERATURE OF SPORTS

Minimum Credits: 3
Maximum Credits: 3
This course places the literature of sports in various intellectual contexts. Students read novels by major American writers like Malamud, Roth, Coover, DeLillo, Exley and Harris, as well as serious" popular novels (North Dallas 40 and Semi-Tough) and personal reminiscences."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0012 - GROWING UP IN JAPAN

Minimum Credits: 3
Maximum Credits: 3
This freshman seminar will use literature by anthropologists who study Japan to look at growing up in Japan. Documentary films and commercial films, novels and memoirs will also be used. Modern Japan from the 1950's to the present will be emphasized. All materials in English or in English translation. No knowledge of Japanese required.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0013 - LOVE AND ROMANCE IN CHINA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0015 - THE FRENCH LIEUTENANT'S WOMAN

Minimum Credits: 3
Maximum Credits: 3
This freshman seminar is devoted to a study of John Fowles' The French Lieutenant's Woman. Students will also do readings in Darwin, Freud, Marx, and Existentialism. These readings will provide the context for understanding the novel as part of the emergence of modernist thought and modernist literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0018 - CONTEMPORARY EUROPEAN NOVEL

Minimum Credits: 3
Maximum Credits: 3
This seminar introduces students to a number of trends and ideas expressed in European novels written after World War II.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0020 - POPULAR RELIGION IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
A survey of religious behavior and religious beliefs in the United States outside of the formal institutional structures of religion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0025 - ANTHROPOLOGY OF THE PACIFIC

Minimum Credits: 3
Maximum Credits: 3
In this freshman seminar students will be introduced to a number of fundamental anthropological concepts through the study of the peoples and cultures of the pacific basin countries.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0028 - WORLD HUNGER

Minimum Credits: 3
Maximum Credits: 3
The topic of world hunger will be explored through the study of cross-cultural materials which will be examined with a critical eye toward contemporary global patterns of food distribution. Particular attention will be paid to the development of an international geographic perspective.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0030 - INTRODUCTION TO MODERN ART

Minimum Credits: 3
Maximum Credits: 3
The course will present a chronological survey of Western European, Russian, and American art from the mid-nineteenth century to the present (impressionism to post-modernism). In addition to charting the dramatic stylistic and conceptual changes in art during this time period, the course will consider the historical circumstances which caused a disintegration in accepted notions of what constituted a significant work of art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0032 - PEACE AND MILITARISM

Minimum Credits: 3
Maximum Credits: 3
This seminar looks at issues of peace and militarism in German culture from a historical perspective. Students should gain greater appreciation of the significance of historical experience for contemporary politics as well as a better understanding of American perceptions of war and peace.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0033 - THE LANGUAGES OF EUROPE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0034 - EMERGING EUROPE

Minimum Credits: 3
Maximum Credits: 3
Students in this seminar will study the exciting changes occurring in the European community as it becomes the world's largest trading block. Readings and discussions will address such questions as: which historical events led w. Europe to pursue the strategy of integration? How should this new govt be structured? How will these changes affect the US & E. Europe? We will look at post-WWII history leading to formation of the European community, economic aspects of integration, governing institutions, and policy areas such as defense, monetary, social, & foreign policy.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0035 - MAKING ART HIST IN 17THC ROME

Minimum Credits: 3
Maximum Credits: 3
Students study and compare the two most important artists of the 17th century: Michelangelo Merisi Caravaggio (1571 1610) and Gian Lorenzo Bernini (1598-1680). In addition to studying the lives and works of these artists within the context of their own society, efforts will be made to understand why they made art history and how later artists absorbed and used their ideas.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0036 - PILGRIMAGE

Minimum Credits: 3
Maximum Credits: 3
This seminar uses primary source texts in English translation and visual materials in the form of maps, photographs and slides to analyze pilgrim journeys across Europe to three major sites of pilgrimage: Jerusalem, Rome and Santiago de Compostela.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0038 - CONTEMPORARY CHINESE CINEMA

Minimum Credits: 3
Maximum Credits: 3
Students in this seminar will view a number of Chinese films as a way of increasing their understanding of contemporary Chinese culture and society.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0040 - MASS MEDIA IN THE SOVIET UNION

Minimum Credits: 3
Maximum Credits: 3
This seminar examines the specific role played in USSR mass media by the communist party, the soviet government, and soviet public organizations. What is the structure of soviet propaganda apparatus? How does soviet censorship operate? Are there any similarities--and what are the differences--between soviet and American mass media?
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0045 - MEN & WOMEN: IMAGES MDRN JAPAN

Minimum Credits: 3
Maximum Credits: 3
In the 1850s, Japanese women led restricted lives in a society controlled by traditional Confucian concepts of human relations. A hundred years later, women had become the legal equal to men and were on the way to finding their rightful place in many important spheres of Japanese life- in the workplace, socially, artistically, and intellectually. These changes in Japanese society will be explored by reading in translation a number of modern Japanese stories and novels written during the past eighty years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0046 - DRUGS & SOCIETY: PERSPECTIVES

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0047 - WOMEN IN CENTRAL & EAST EUROPE

Minimum Credits: 3
Maximum Credits: 3
This seminar provides an overview of the current situation of women in several countries in central and eastern Europe. The seminar includes an historical overview of the countries of this area and a discussion of recent developments. The role of women in these countries will be studied and compared to the US.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0048 - HUSB, WIVES, SONS & DAUGHTERS

Minimum Credits: 3
Maximum Credits: 3
This seminar considers the history of the family in Western Europe. Students will study primary sources such as letters and diaries that deal with the relationships between husbands and wives and parents and children in the medieval and early modern period.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0050 - LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course will stress the contrasts between the different cultures, the contradictions that have characterized the region for centuries, the relations between Latin America and the U.S. And the problems of reform and revolution. It begins with a survey of the conquest of Latin America and the main Indian cultures as well as the nature and goals of Spanish and Portuguese colonization. The differences between 19th century rural and urban society and different aspects of Latin American society in the mid-20th century will also be studied.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0053 - CONQUEST AND CULTURE CLASH

Minimum Credits: 3
Maximum Credits: 3
This seminar focuses on the Spanish conquest of each of the three major civilizations of the ancient Americas, stressing culture conflict, the significance of religion, and the quest for sovereignty.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0055 - MALAYSIA

Minimum Credits: 3
Maximum Credits: 3
This is an interdisciplinary seminar which combines sociology, anthropology, creative literature, religious studies, political science, and some economic analysis to understand contemporary and historical developments in Malaysia.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0060 - SELF AND OTHERS

Minimum Credits: 3
Maximum Credits: 3
Considering the writings of educators and philosophers, this orientation course will introduce freshmen to the relationship between the self and the academic community within the context of reading, writing, speaking, and critical skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

FP 0062 - CHILDREN LEARNING LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This seminar considers children's language learning. Specifically, students will study the impact of adult behaviors on children's language learning and ways in which these behaviors vary across societies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0063 - PERSONAL NETWORKS

Minimum Credits: 3
Maximum Credits: 3
This seminar examines a person's environment as a personal network of relations with other people. Basic principles of data collection and analysis will be conveyed during the course.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0065 - MYTH AND SELF

Minimum Credits: 3
Maximum Credits: 3
This seminar explores the role of myth in people's representations of themselves and their place in the world. Students read and discuss selections from ancient near eastern and Greek literature that present myths of the hero and his quest for self understanding. The course also considers contemporary treatments and uses of myth such as the work of Sigmund Freud and Joseph Campbell.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0068 - MYTHICAL JOURNEYS

Minimum Credits: 3
Maximum Credits: 3
After decades of being dismissed as trivial and mindless amusement, videogames have finally arrived as a unique form of contemporary art and entertainment, a form worthy of critical discussion on its own merits. In this course, we will set out to lay the groundwork for such discussion, examining a diverse range of titles from pong to half-life, from abstract puzzles to melodramatic role-playing, from simcity to liberty city, and everywhere in-between.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0069 - GREEK TRAGEDY AND ITS PEOPLE

Minimum Credits: 3
Maximum Credits: 3
Students in this seminar read one play a week and will view several films. Discussions will consider the plays from a literary viewpoint and will also examine the culture that produced the plays.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0070 - AMER ART & CULTURE: PITTSBURGH

Minimum Credits: 3
Maximum Credits: 3
This course is designed as an intensive introduction to American painting, sculpture, and architecture, with emphasis on painting. Students will learn to look at art and to think about its social functions, its political meanings, and its role in establishing cultural identities. Through frequent writing assignments and visits to Pittsburgh's museums and outdoor resources, students will get a hands-on" experience of art not possible in a large lecture class dependent on slides."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

FP 0075 - WOMEN AND MUSIC

Minimum Credits: 3
Maximum Credits: 3
This seminar explores the relationship of women to the music of Western culture. Study includes women composers and the reception of their work as well as the role played by women as performers, music educators, patrons, and impresarios. The seminar will also consider women as the subjects of musical works, and the role of musical works in gender construction.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0080 - SOME PLATONIC DIALOGUES

Minimum Credits: 3
Maximum Credits: 3
This is an intensive seminar for a small, select group of talented and highly motivated freshmen. Philosophical issues discussed vary considerably from year to year, but tend to be narrowly focused and topical.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0090 - AMERICAN FOREIGN POLICY

Minimum Credits: 3
Maximum Credits: 3
This seminar is an historical analysis of major events in the world since WWII. An examination of political, economic, and diplomatic developments will be emphasized and related to the social, cultural and intellectual events during the period 1945-present. Particular attention will be paid to the impact of imperialism throughout the world.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0095 - MATHEMATICS OF TIME AND MAPS

Minimum Credits: 3
Maximum Credits: 3
This seminar covers those aspects of mathematics needed for a more complex understanding of maps and calendars. The seminar is taught in an interactive fashion using the computer program Mathematica.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

FP 0100 - SP TOPICS: SUCCEEDING IN ARTSC

Minimum Credits: 1
Maximum Credits: 1
This course helps individual students develop strategies for success by focusing on opportunities and academic options, which will assist them in identifying and achieving their educational goals. Students will work in a classroom setting and with academic resources on campus to define goals, strengthen communication skills, and plan for sophomore year.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

Gender, Sexuality, and Women's Studies

GSWS 0001 - WOMEN AND LEADERSHIP

Minimum Credits: 1
Maximum Credits: 1
Students residing in the women lead LLC enroll in this course, which is a one-credit experiential course in the fall term. This seminar will expose students to information about women leaders and the challenges they experience during their ascension to, and acceptance of, various leadership positions. The course will include discussion, reflection, and attendance at speakers and events within the Pitt and Pittsburgh community.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

GSWS 0040 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This lower-level course addresses a current topic in women's studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 0100 - INT TO GENDER, SEXTY, & WOMNST

Minimum Credits: 3
Maximum Credits: 3
What is sex? What is gender? What is sexuality? How are these concepts related to culture? To nature? To help you answer these important questions, this course will introduce you to the exciting field of gender and sexuality studies. We will use a range of interdisciplinary concepts, tools, and methods to understand and analyze sex, gender, femininity, masculinity, and sexuality. Through readings, multimedia, and class discussion, we will study how gender and sexuality are socially and culturally constructed. In addition, we will consider how gender intersects with other identity categories such as race, class, ethnicity, nation, age, ability, and sexuality. Because we all have a gender, this course is crucial for any profession and for understanding the world around us. It is also a great opportunity for you to develop your written and oral skills. The course is open to all students regardless of background. As a prerequisite for more advanced courses in the program and as the intro course for current or future students in the "certificate in the study of women, gender, and sexuality," this course will prepare you for more advanced courses in the program. Also, you will learn to apply the critical vocabulary used in gender studies to your major and minor fields of study.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 0200 - SEX, RACE, & POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
Popular culture is often defined as a collection of ideas, images, beliefs and practices that have become an essential component of peoples' daily lives. While popular culture is dismissed by some as merely a mass consumer culture, others acknowledge that contemporary popular cultural forms may, in keeping with a history of once contemporary popular art, culture, and literature (e.g. Dickens, Warhol, etc.) Come to be understood as essential, canonical and elite. Ultimately, these materials may be read as a texts that inform our understanding of culture and social life and prompt such questions as: how does popular culture (re)construct our sense of "ordinary" life as something extraordinary? Why are some cultural forms dismissed and others more readily accepted? What social processes bring cultural forms into the public domain? This course will examine popular culture in a variety of forms such as: music, art, television, collectibles, internet, and social media. Students will consider examples from Western, non-Western, and "global" culture, but will use sex and sexuality, gender, and ideas of race to understand the relationship between popular culture, material culture, representation, and consumerism, and power and resistance. It will also address these phenomenon over time. This course will make especially strong use of contemporary and popular media such as video clips, internet media and images, and music.

Maximum Credits: 1
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 0500 - INTRO TO FEMINIST THEORY

Minimum Credits: 3
Maximum Credits: 3
This course is an interdisciplinary introduction to the feminist ideas and debates concerning gender, women and men, and their political, social and economic positions over the last two hundred years. While we will focus on the United States, there will be some engagement with global feminist perspectives on gender, race, class, and sexuality. In keeping with the activist nature of feminist theory, this course will approach 'theory' as attempts to answer fundamental questions about the power relations that structure our everyday lives and consciousness. Theory in this sense is a tool for thinking systematically about how the world works, and for constructing arguments about how it should work. Consequently, we will pay particular attention to the (de)construction of power in both public and private relations as we critically analyze texts, discuss and present ideas in class, and complete written analyses. Students will have opportunities to apply feminist theories to their work in their home disciplines.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 0550 - SEX AND SEXUALITIES

Minimum Credits: 3
Maximum Credits: 3
How and why did sex and sexuality become subjects of study? How are our experiences of sex and sexuality shaped by a history of 'scientific' explorations of desire? Why has sexuality become so central to our understandings of identity? What was sex like before 'sexuality' was invented? This seminar explores these questions by approaching sex and sexuality as socially, historically, and culturally contingent concepts. We will consider sex and sexuality as they are related to other categories of identity, including race, class, ethnicity, nation, and ability. Our theoretical and historical investigations will create the groundwork for understanding and rethinking how sexuality is understood in culture today.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 0600 - GLOBAL LGBTQ LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

GSWS 1026 - STATES AND SEX IN THE AMERICAS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GSWS 1140 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This upper-level course addresses a current topic in gender, sexuality, or women's studies. Topic varies by instructor.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GSWS 0100 or GSWS 0200 or GSWS 0500 or GSWS 0550

GSWS 1141 - SP TOPCS GENDER, SEXTY, WOMNST

Minimum Credits: 3
Maximum Credits: 3
This course will treat a specific topic in gender, sexuality, and/or women's studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 1142 - FEMINIST THEORY

Minimum Credits: 3
Maximum Credits: 3
This course will provide a critical analysis of gender from a variety of feminist perspectives, with particular attention to shifts and changes in this and related categories.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 1150 - GLOBAL FEMINISMS

Minimum Credits: 3
Maximum Credits: 3
This class will look at the situation of women in international perspective. We will examine how feminist organizations operate in difficult national and local contexts and how women's rights have been addressed through international organizations such as the united nations and the world court. Through case studies, we will consider a number of contentious issues in global feminism, including sexual assault, sex tourism, and the global assembly line, and the role of feminism in national liberation movements.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1160 - RACE, GENDER, AND CLASS

Minimum Credits: 3
Maximum Credits: 3
Social diversity is a key item across academic disciplines as well as cultures at large. This course will examine the relationships among race, class, and gender in society, providing students with an understanding of how these terms get defined and mobilized in various contexts.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1170 - QUEER THEORY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to theories of how people think about and enact genders and sexualities. The course edicts both the assumption that people are naturally or normally heterosexual and the idea that being seen as "normal" should be the political or personal goal of sexual minorities. The course calls into question the idea of normal exploring how gender aims to "normalize" people by categorizing them. In recognizing the ruse of normality, the course examines sexual practices and gender expressions not attempting to dignify, deny or apologize for them.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1180 - POLITICS OF GENDER AND FOOD

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1190 - MASCULINITIES

Minimum Credits: 3
Maximum Credits: 3
An interdisciplinary examination of theories and select cultural constructs of masculinity, as related to and distinct from male bodies. Masculinity will be considered in its relation to race, ethnicity, nation, class, ability, and sex. Readings will likely come from literary studies, film studies, cultural studies, sociology, anthropology, linguistics, history, and other fields.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1235 - LANGUAGE, GENDER AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
As a field of research, language and gender studies is interdisciplinary and relatively new. These studies seem to discover the nature of gender-related differences in language and their causes and effects. Gender here refers to social categories based on sex but encompassing behavior, roles and images that, although not biologically determined, are regarded by a society as appropriate to its male or female members. What is seen as appropriate to each gender thus differs in different societies and eras. Explanations for gender thus differ in different societies and eras. Explanations for almost all observed male/female language differences are to be found less in the biological constitution of the human body and more in the social and psychological formation of the human subject. These are the issues we will be concerned with in this course. Is women's language use in systematic ways different from that of men? If it is different, how is it different? Why is it different, what sorts of explanations are there? And maybe most important, does a difference of language use matter?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 1450 - GENDER AND SUSTAINABILITY
Minimum Credits: 3
Maximum Credits: 3
This course treats a special topic in gender, sexuality, and women's studies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

GSWS 1522 - SEX AND RACISM
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 1620 - WOMEN AND RELIGION
Minimum Credits: 3
Maximum Credits: 3
This course will examine the role of women in the Bible, the way in which such roles were constructed and reinforced in the Western tradition, and the contemporary viability of this tradition as a meaningful one in our own world. Specifically, we will consider the polarity of "mother" vs. "fallen woman," as the prototypical models of female behavior and social acceptance, and the way in which "salvation" is construed for each type.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GSWS 1622 - WOMEN AND POLITICAL THEORY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GSWS 1900 - INTERNSHIP
Minimum Credits: 3
Maximum Credits: 3
An opportunity to extend academic training to a practical work experience in an area where the student has gained some expertise.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

GSWS 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 3
A variety of individual research and reading projects may be undertaken under the supervision of a core faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

GSWS 1910 - CAPSTONE
Minimum Credits: 3
Maximum Credits: 3
Designed as a capstone, this course is a seminar that allows students to explore feminist theory and methodology in greater depth. We will pay particular attention to the current state of feminist theory as we consider future directions and challenges, and address the ways in which feminist theories and methodologies can inform research in other disciplines. Students will respond to a series of intense readings that focus on the intersections of feminist theory with other theoretical approaches, such as queer theory, environmental ethics, and critical race theory, among others. Using this theoretical foundation, students will construct a research project of their own design that will apply academic work to a "real world" setting and prepare students for careers and/or graduate study.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GSWS 0100 or GSWS 0500

Geology & Planetary Science

GEOL 0040 - PHYSICAL GEOLOGY

Minimum Credits: 3
Maximum Credits: 3
Geology is the study of how the earth works. This class covers the classification and origin of basic rocks and minerals; examines the role of plate tectonics in shaping the earth and producing such hazards as earthquakes and volcanoes; and examines the forces that shape beaches and rivers and sometimes threaten our lives and property. We also survey the evidence for changing climate and the future of such resources as groundwater, fossil fuels, and ores.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GEOL 0050 - PHYSICAL GEOLOGY

Minimum Credits: 4
Maximum Credits: 4
This lab class provides hands-on exercises related to rock and mineral identication, geologic time, geologic structures, geologic maps, and the analysis of landforms as revealed by topographic maps, satellite images, and air photos.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0055 - GEOLOGY LABORATORY

Minimum Credits: 2
Maximum Credits: 2
The course consists of a laboratory structured to give students an overview as well as hands-on experience with the methodology used by earth scientists to study geologic processes.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: CREQ: GEOL 0800 or 0820 or 0860 or 0840

GEOL 0060 - HISTORY OF THE EARTH

Minimum Credits: 4
Maximum Credits: 4
This course surveys the evolution of the earth and its inhabitants from its origins to the present. Lectures and lab emphasize the identification and interpretation of rocks, geologic features, and geologic maps. Lab work also includes fossil identification, stratigraphic correlation, and sedimentary facies analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0055

GEOL 0800 - GEOLOGY

Minimum Credits: 3
Maximum Credits: 3
Geology is the study of how the earth works. This class covers the classification and origin of basic rocks and minerals; examines the role of plate tectonics in shaping the earth and producing such hazards as earthquakes and volcanoes; and examines the forces that shape beaches and rivers and sometimes threaten our lives and property. We also survey the evidence for changing climate and the future of such resources as groundwater, fossil fuels, and ores.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0802 - GEOLOGY OF THE NATIONAL PARKS

Minimum Credits: 3
Maximum Credits: 3
The magnificent scenery of the national parks provides a backdrop to an exploration of the basic geological principles that govern the creation and development of landscapes. The geological history of the North American continent will be explored in order to provide a framework in which to understand the development of the landscapes of our country.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0820 - NATURAL DISASTERS

Minimum Credits: 3
Maximum Credits: 3
The geologic, hydrologic and atmospheric processes that impact the human environment in catastrophic ways are examined in this course. Natural disasters surveys energy cycles, plate tectonics with an emphasis on how they produce earthquakes, volcanic eruptions, tornadoes, hurricanes,

tsunamis, wildfires, flooding, landslides, climate change and mass extinctions. Students will get hands on experience in recitation. This course serves as an introductory course for three majors in geology and planetary science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0840 - ENVIRONMENTAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This class is an interdisciplinary introduction to the science underlying environmental issues. Focusing on the principles of geology, biology, and chemistry and in their application to human impacts on the environment, strategies for sustainable management of environment and natural resources, and global change.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0842 - PLANET EARTH

Minimum Credits: 3
Maximum Credits: 3
Our home planet is a vast, interconnected machine whose study requires an interdisciplinary approach. This is a comprehensive overview of the workings of planet earth in the light of recent scientific discoveries. Topics will include geology from a plate tectonic perspective (the solid earth), interactions between continents and oceans and atmosphere, including aspects of oceanography and climatology (the fluid earth), what we have learned from space probes and how we can apply that knowledge to our own planet and the limits of our planet as a sustainer of life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0850 - NATURAL SCIENCES 1

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell; genetics; evolution. Emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0851 - NATURAL SCIENCES 2

Minimum Credits: 3
Maximum Credits: 3
This 2-semester course will present non-science majors with a comprehensive picture of the natural world. Topics will include: the solar system; laws of motion; energy; structure of matter; the earth; cosmology; the science of living things; the living cell; genetics; evolution. Emphasis will be on fundamental concepts that underlie our present understanding. Connections will be made to historical developments and to scientific and technological issues that impact individuals and society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0860 - ENVIRONMENTAL GEOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course takes an integrated earth systems approach to understanding our planet and its resources. We will investigate geologic processes and hazards (e.g., earthquakes, volcanoes, landslides, and weather hazards), geologic resources (water, soil, minerals, energy) and the local and global ramifications of human interaction with the earth (e.g., air, soil and water pollution, ozone depletion, and climate change). This course also serves as an introductory course for three majors in the department of geology and planetary science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0870 - THE PLANETS

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the worlds of our solar system. We will make extensive use of the most recent and dramatic images to discuss the nature, origin, and history of the planets and moons of our solar system
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0871 - INTELLGNT LIFE IN THE UNIVERSE

Minimum Credits: 3
Maximum Credits: 3
This course attempts to answer the question of whether intelligent life exists elsewhere in the galaxy by considerations of the origin and subsequent evolution of the universe, our solar system, terrestrial life, and the human species.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 0890 - OCEANOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
The oceans play a central role in global climate and supporting a stunning diversity of life. This survey of oceanography examine the major physical, chemical, and biological processes that shape the modern oceans and the life they contain.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GEOL 1001 - MINERALOGY

Minimum Credits: 4
Maximum Credits: 4
Physics and chemistry of minerals. Includes physical properties, crystal chemistry, crystal structure and symmetry, mineral identification using a petrographic microscope, and the processes of mineral formation and breakdown.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0110 and GEOL 0055

GEOL 1003 - IGNEOUS & METAMORPHIC PETROLGY

Minimum Credits: 4
Maximum Credits: 4
A lecture and laboratory course concerned with a study of the origin, occurrence, identification, and classification of igneous and metamorphic rocks. The primary purpose of the course is to familiarize the student with the physical and chemical processes that control the formation of the main igneous and metamorphic rock types.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 1001

GEOL 1015 - GEOLOGY COLLOQUIUM

Minimum Credits: 1
Maximum Credits: 1
Geology colloquium is open to undergraduate students in geology and planetary science. It is a formalization of the seminar series with weekly guest speakers from industry, academia and government. Each seminar will focus on a different research topic in earth sciences describing on-going projects of interest to students. The course may be taken multiple times.
Academic Career: UGRD
Course Component: Colloquium
Grade Component: Satisfactory/No Credit

GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY

Minimum Credits: 4
Maximum Credits: 4
Sedimentology is the study of the processes that produce modern and ancient sedimentary deposits. The lectures will focus on a variety of modern sedimentary systems (rivers, deltas, beaches, etc.) As well as their ancient equivalents. The class culminates with an exploration of how long-term changes in sediment supply and sea level act to shape regional-scale sedimentary sequences. The lab focuses on rock identification and interpretation and on a variety of stratigraphic problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0055

GEOL 1030 - THE ATMOSPHERE, OCEANS & CLMTE

Minimum Credits: 3
Maximum Credits: 3
This course will examine the atmospheric and oceanic interactions that determine the nature of the global climate system. Specifically, the course will explore the origin, evolution, and structure of the earth's oceans and atmosphere, the earth's energy balance, atmospheric circulation patterns, and surface and deep ocean currents. The course will also consider records of past climate, evidence for recent warming, climate change projections, and climate change policy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1051 - GROUNDWATER GEOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course focuses on physical and chemical processes controlling water movement and composition in sub-surface environments. The lab focuses on practical field methods for the characterization of groundwater.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: GEOL 0055 and CHEM 0110 and (MATH 0120 or MATH 0220)

GEOL 1052 - PALEOCLIMATOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course presents the different types of data used to study the earth's climatic history and long-term climatic variability. Particular emphasis is given to the climatic changes during the late Cenozoic -- the so called glacial ages. Topics of discussion include time scales of climatic change, types of paleoclimatic records and their limitations, numerical climate models, the causes of climatic change, and the importance of paleoclimatic research in forecasting the future.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0800 or 0820 or 0860

GEOL 1055 - ENVRL ETHCS, SCI & PBLC POLCY

Minimum Credits: 3
Maximum Credits: 3
This course examines the interrelationships among environ mental science, ethics, and policy. It covers such topics as origin and development of the environmental movement, environmental values and attitudes, enactment and mechanics of environmental regulations and statutes, environmental economics and politics, and future environmental scenarios. The various socio-economic, legal, and political implications will be scrutinized within the context of specific case studies of environmental/ecological concern, ranging from local to global.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH) or Environmental Science (BS)

GEOL 1056 - UHC ENV ETHCS, SCI & PBLC POLC

Minimum Credits: 3
Maximum Credits: 3
This course examines the interrelationships among environmental science, ethics, and policy. It covers such topics as origin and development of the environmental movement, environmental values and attitudes, enactment and mechanics of environmental regulations and statutes, environmental economics and politics, and future environmental scenarios.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH) or Environmental Science (BS)

GEOL 1060 - GEOMORPHOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course is a survey of the major landform features found on the earth's surface. Each landform type is first described qualitatively and then examined in terms of the processes, such as stream flow or glacial activity, which cause its development. The purpose of the course is to familiarize students with geomorphic principles.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0055

GEOL 1079 - FIELD METHODS

Minimum Credits: 1
Maximum Credits: 1
Hands-on practical experience in using a variety of geological mapping tools. This course is designed as a preclude for students going on to field camp.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit

GEOL 1080 - GEOARCHEOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is an examination of geological methods applied to the study of archeology. The first part of the course examines location of sites by familiarization with the physical environment, maps and air photos. Second, characteristics of site sediments and artifacts are examined with emphasis on stratigraphic principles. Finally, specific sites selected from different environmental settings are discussed. Field and laboratory methods applicable to the study of archeological materials and sites are introduced wherever Germane.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1100 - STRUCTURAL GEOLOGY

Minimum Credits: 4
Maximum Credits: 4
A course devoted to the study of folded, faulted, flowed, sheared, and jointed rocks with the aim of preparing a student to recognize and interpret deformed rocks. The evolution of mountain belts and deformation related to this process are emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0055; CREQ: GEOL 1003 and (GEOL 1020 or ANTH 1520)

GEOL 1200 - UHC PALEONTOLOGY

Minimum Credits: 3
Maximum Credits: 3
Nothing endures but change.' We cannot understand the world we live in, nor any of a host of predicted future trends, without exploring the past. That's where paleontology comes in - the fossil record provides a wealth of insight into the evolution (and revolution) of life on earth. In this class we will explore both the methods and the limitations of using fossils to interpret past environments, ecologies, systematic relationships, and the events that have fundamentally reorganized the earth's biota. Short in-class labs will provide hands-on access to fossil specimens of plants and invertebrate and vertebrate animals. We'll also examine paleontology's role in society ' its historical development, how and why it captures the public imagination, and its portrayal in the news and popular media.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1201 - INVERTEBRATE PALEONTOLOGY

Minimum Credits: 3
Maximum Credits: 3
This class covers the biology, evolution, paleoecology, and extinction of the major marine invertebrate groups of the fossil record. Activities will include hands-on identification and interpretation of fossil specimens.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1240 - EVOLUTION OF THE VERTEBRATES

Minimum Credits: 3
Maximum Credits: 3
This class focuses on the evolution and extinction of vertebrates. The class may take a broad view (e.g. all vertebrates) or a narrower focus that allows a deeper exploration of the paleo biology and paleoecology of selected groups of vertebrates (e.g. dinosaurs and mammals).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1309 - PHYSICOCHEMICAL GEOLC LIMN

Minimum Credits: 3
Maximum Credits: 3
This course will explore the physicochemical and geological aspects of inland waters (lakes, rivers, springs, and wetlands). Specifically, the course will examine the origin and evolution of lakes, the physical and chemical properties of fresh and saline waters, watershed hydrology, and the biogeochemical cycling of major elements and nutrients.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: CHEM 0110 and (GEOL 0055 or GEOL 0800); LVL: Jr or Sr

GEOL 1313 - COM ENVIRONMNTAL PROFESSIONALS

Minimum Credits: 3
Maximum Credits: 3
This course serves as a w-course for environmental studies. We will sample various tools and methods (typical professional" tasks such as memos and letters, building into comprehensive assignments such as case studies), all while concentrating on how audience and purpose affect communication."
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: ANY ENGCMP Course; PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH) or Environmental Science (BS)

GEOL 1331 - HEALTH AND SAFETY (HAZWOPER)

Minimum Credits: 3
Maximum Credits: 3
HAZWOPER (hazardous waste operations and emergency response) is a 40-hour course that promotes awareness of safety and response plans for those who may work with chemical and other hazards in the work-site. Students will learn how hazardous materials are handled and identified; human responses to exposure; learn what to do in case of site emergencies; use appropriate safety methods and work practice controls; and understand labels that are used to alert personnel of danger involving hazardous material. (Many employers in environmental consulting firms and other industries require 40-hour OSHA training.) The course will count as an elective in the environmental studies major.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1332 - MGT ENVIRONMENTAL NPRF ORGS

Minimum Credits: 3
Maximum Credits: 3
It's true that a little enthusiasm goes a long way in the nonprofit world, but those who get involved need to have real skills if they're going to make a lasting impact. The goal of this course is to introduce students to nonprofit environmental organizations & issues, & to provide them with the tools to effectively participate in & organize environmental campaigns. The course covers the "inner workings" of environmental organizations & campaigns, what it takes to succeed, & why effectively communicating environmental issues at the grassroots level is so important & so difficult.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1333 - SUSTAINABILITY

Minimum Credits: 3
Maximum Credits: 3
Sustainability is a term that has many meanings, and we will cover most them in this class, from green rooftops to "green-washing". The class will feature guest speakers from the academic, governmental, nonprofit and business sectors to offer as many perspectives as possible on sustainability topics. The real focus of the class, though, is the development of new and the continuation of existing sustainability projects at the local and campus levels. Students will have the opportunity to participate in a variety of sustainability-oriented events and field trips
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1334 - ENVIRONMENTAL POLICY

Minimum Credits: 3
Maximum Credits: 3
Environmental public policy, 3.0 - Focus on environmental ethics and its application in real-world context, including the regulatory and policy interface in the public arena. Discusses ethics surrounding national and global environmental issues, consumer choices, and ongoing public debate.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1335 - ENVIRON ISSUES: AIR QUALITY

Minimum Credits: 3
Maximum Credits: 3
Pittsburgh has had a checkered past when it comes to air quality issues, and faces an uncertain future. Once known as "hell with the lid off" due to industrial emissions, Pittsburgh and its environs once had some of the worst air in the nation. In 1948, a noxious cloud killed 22 in nearby Donora and sickened thousands. But Pittsburgh also became one of the first American cities to pass legislation aimed at cleaning its air. Today it faces a new threat from emissions from coal-burning utilities in Ohio and West Virginia. This course is one in a series that focuses on the history, progress and current events of environmental issues in southwestern Pennsylvania that also have application throughout the region and U.S. Emphasis is on a balanced presentation of the issues, discussions of various approaches to solving problems and development of writing skills. To accomplish this, the course will (1) focus on a single environmental issue, (2) structure individual classes around a single aspect of that issue, (3) feature guest lectures and presentations by government regulators and policymakers, interest groups, corporate leaders and experts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1336 - ENVRL ISS:AIR QUALT/WRIT LEC

Minimum Credits: 3
Maximum Credits: 3
Pittsburgh has had a checkered past when it comes to air quality issues, and faces an uncertain future. Once known as "hell with the lid off" due to industrial emissions, Pittsburgh and its environs once had some of the worst air in the nation. In 1948, a noxious cloud killed 22 in nearby Donora and sickened thousands. But Pittsburgh also became one of the first American cities to pass legislation aimed at cleaning its air. Today it faces a new threat from emissions from coal-burning utilities in Ohio and West Virginia. This course is one in a series that focuses on the history, progress and current events of environmental issues in southwestern Pennsylvania that also have application throughout the region and U.S. Emphasis is on a balanced presentation of the issues, discussions of various approaches to solving problems and development of writing skills. Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1337 - ENVRL ISSUES: WATER QUALITY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on environmental issues related to water quality, including the effects of Marcellus shale waste water on public and private drinking water supplies. The emphasis will be on southwestern Pennsylvania, but we'll look at the effects of Marcellus shale industry operations on a state and regional basis too. Emphasis is placed on a balanced, in depth presentation of the issues that must be addressed to realistically solve modern environmental problems. This will be accomplished by (1) focusing on a single environmental issue of relevance to southwestern Pennsylvania (2) structuring weekly sessions around a single aspect of that issue, and (3) giving students an opportunity to learn about the issues from local professionals and community leaders active in these fields.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1338 - ENVRL ISSUES: WATER QUALITY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on environmental issues related to water quality, including the effects of Marcellus shale waste water on public and private drinking water supplies. The emphasis will be on southwestern Pennsylvania, but we'll look at the effects of Marcellus shale industry operations on a state and regional basis too. Emphasis is placed on a balanced, in depth presentation of the issues that must be addressed to realistically solve modern environmental problems. This will be accomplished by (1) focusing on a single environmental issue of relevance to southwestern Pennsylvania (2) structuring weekly sessions around a single aspect of that issue, and (3) giving students an opportunity to learn about the issues from local professionals and community leaders active in these fields.
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1339 - ENVIRL ISSUES: MINING AND GAS

Minimum Credits: 3
Maximum Credits: 3

This term's focus is on mining issues. Mining and oil and gas extraction has a long, important and sometimes dark history in Pennsylvania. Almost since the first black chunk was pried from the first mine, coal has been king in the keystone state. It has fueled industries, heated homes, and powered trains and river tugs. It has been politically powerful. It has also colored streams, creeks and rivers orange and left them dead. It has scarred the rolling Allegheny hills, first with strip mines and now with "valley fills." How is mining's environmental legacy being addressed? How effective are current laws in regulating the industry? What's the latest, best, mining technique, and what is its public impact? What has been industry's response? What impacts,
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1340 - ENVRL ISSUES: MINING AND GAS

Minimum Credits: 3
Maximum Credits: 3
This term's focus is on mining issues. Mining and oil and gas extraction has a long, important and sometimes dark history in Pennsylvania. Almost since the first black chunk was pried from the first mine, coal has been king in the keystone state. It has fueled industries, heated homes, and powered trains and river tugs. It has been politically powerful. It has also colored streams, creeks and rivers orange and left them dead. It has scarred the rolling Allegheny hills, first with strip mines and now with "valley fills." How is mining's environmental legacy being addressed? How effective are current laws in regulating the industry? What's the latest, best, mining technique, and what is its public impact? What has been industry's response? What impacts, what's different and the same about the latest extractive industry in the state: Marcellus shale natural gas development. Guest speakers from industry will be scheduled.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1341 - ENVRL ISSUES: PARKS & FORESTS

Minimum Credits: 3
Maximum Credits: 3
This course is one in a series that focuses on environmental issues in southwestern Pennsylvania. Forests are made up of trees. "Timber"" is what they yell when the trees are cut and fall. With maturing forests scraping the sky in Pennsylvania and other parts of the Northeastern United States, and controversial restrictions on national forest timbering in the pacific Northwest, there is tremendous pressure to cut the local hardwood forests. But unlike the turn of the century when all of Penn's woods was clear-cut, there is a growing ethic that believes trees are more valuable growing than cut - for recreation and environmental reasons. This course on forest and parks issues is the fourth in a series that focuses on environmental and public policy issues in South Western Pennsylvania. Through newspaper articles, field trips and guest speakers, the course will explore the issues and conflicts that abound in our wild lands and urban woods. Emphasis is on a balanced presentation of the issues, discussions of various approaches to solving problems and development of writing skills through a number of short assignments based on readings and presentations of guest speakers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1342 - ENVRL ISSUES: PARKS & FORESTS

Minimum Credits: 3
Maximum Credits: 3
This course is one in a series that focuses on environmental issues in southwestern Pennsylvania. Forests are made up of trees. "Timber"" is what they yell when the trees are cut and fall. Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH)

GEOL 1400 - INTRO TO SOLID-ERTH GEOPHYSICS

Minimum Credits: 3
Maximum Credits: 3
This introduction to solid-earth geophysics includes geodesy, information from meteorites, seismology, determination of the composition and structure of earth's interior, heat flow within the earth, geomagnetism, paleomagnetism, and plate tectonics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1410 - EXPLORATION GEOPHYSICS
Minimum Credits: 3
Maximum Credits: 3
An introduction to the theory, methods, and instrumentation used in exploration geophysics. Topics include gravity, magnetics, electromagnetics, and seismic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1413 - GEOPHYSICAL WELL LOGGIN'
Minimum Credits: 3
Maximum Credits: 3
An introduction to the interpretation of open-hole logs and their use in estimating rock parameters useful to both the geologist and to the petroleum engineer.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
Minimum Credits: 3
Maximum Credits: 3
The goals of this course are to gain expertise in spatial analysis and geographical information systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1446 - ADV GEOGRAPHICAL INFORMTN
Minimum Credits: 3
Maximum Credits: 3
Using advanced geographical information systems technologies and geospatial analysis techniques students will extend their knowledge of geographical information systems to include raster, geostatistical, network, model, and 3d/4d based analysis completing complex analysis of real world data sets.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 1445

GEOL 1460 - INTRODUCTION TO REMOTE SENSING
Minimum Credits: 3
Maximum Credits: 3
This course provides a foundation in the theory, techniques and applications of remote sensing and geospatial data visualization spanning the electromagnetic spectrum. Topics include light/matter interaction, optics and sensor design, image analysis, as well as current applications of remote sensing to science and engineering problems facing local and global populations. The course and integrated image-processing laboratory are designed to provide the student with a strong foundation of remote sensing science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1500 - CHEM OF ERTH & ITS ENVIRONMENT
Minimum Credits: 3
Maximum Credits: 3
An examination of the uses of chemistry in geology. Includes distribution of elements, radioactivity and isotope geology, basic thermodynamics, and their applications to rocks, the hydrosphere, and the atmosphere.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
Minimum Credits: 3
Maximum Credits: 3
This course explores the complex interactions of earth's rock, water, air, and life systems that determine the chemical characteristics of our environment. We will examine the distribution, cycling, and transport of chemical compounds in the atmosphere, hydrosphere, and terrestrial environment on local and global scales. Topics will include water chemistry, organic and inorganic pollution and related toxicology, hazardous wastes, acid rain, acid mine drainage, photochemical smog, ozone depletion, and global climate change. A class project involves chemical analysis of student-provided water samples.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: CHEM 0110 AND GEOL 0055; PLAN: Geology or Environmental Studies or Environmental Geology or Environmental Science (BS)

GEOL 1601 - ECONOMIC GEOLOGY OF ORES

Minimum Credits: 3
Maximum Credits: 3
Deposits of economic value of metal-bearing rocks are studied to determine their modes of origin. Sources of the metals, geochemistry, structural controls, and distribution of the ore bodies are included in this lecture-laboratory course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1602 - MINERAL AND ENERGY RESOURCES

Minimum Credits: 3
Maximum Credits: 3
This course deals with the geology of the fossil fuels - oil, gas, and coal -- and the more important industrial rocks and minerals such as evaporites, phosphate rocks, crushed stone, clay, sand and gravel, and building stone. Emphasis is on the processes which form the commercial accumulations of these materials and the geological setting in which they occur. Their geographic distribution is also considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1640 - GEOHAZARDS

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to different types of geological processes and environmental conditions that can produce hazardous conditions in the modern world. Topics covered include earthquakes; subsidence; landslides; volcanic hazards; acid rain, ozone and radon; forest fires; erosion, and desertification; tornadoes and hurricanes; flooding, coastal problems; extinctions; and extraterrestrial impacts. Students will learn how a specific hazard is studied and monitored and the process of communicating scientific data to policy and safety organizations and to the public.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GEOL 1701 - GEOLOGY OF THE PLANETS

Minimum Credits: 3
Maximum Credits: 3
An introduction to the geological processes and resulting landforms occurring on the surfaces of the planets of our solar system. We will make extensive use of recent spacecraft imagery and data.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GEOL 0055

GEOL 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 4
This course places the student in an on-the-job" setting in which he/she receives practical experience in a supervised training environment."
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

GEOL 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 4
This course permits undergraduates to explore specific topics in the geological sciences. The course is designed in a more flexible format than a directed study, stressing a higher degree of independent library research.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

GEOL 1902 - DIR RDNG: MGT NONPRF ENV ORGNS

Minimum Credits: 3
Maximum Credits: 3

It's true that a little enthusiasm goes a long way in the nonprofit world, but those who get involved need to have real skills if they're going to make a lasting impact. The goal of this course is to introduce students to nonprofit environmental organizations & issues, & to provide them with the tools to effectively participate in & organize environ mental campaigns. The course covers the inner workings" of environmental organizations & campaigns, what it takes to succeed, & why effectively communicating environmental issues at the grassroots level is so important & so difficult."
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH) or Environmental Science (BS)

GEOL 1903 - UNDERGRADUATE RESEARCH

Minimum Credits: 1
Maximum Credits: 4
This course provides the opportunity for undergraduates to obtain hands on" experience in geology by actively inter acting with faculty members on research projects."
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

GEOL 1904 - DIRECTED READING

Minimum Credits: 4
Maximum Credits: 4
This course explores in-depth topics in geology and environmental studies. Topics and structure vary from term to term.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis
Course Requirements: PLAN: Environmental Geology (BS, BPH) or Environmental Studies (BA, BPH) or Geology (BS, BPH) or Environmental Science (BS)

GEOL 1910 - UNDERGRADUATE THESIS

Minimum Credits: 1
Maximum Credits: 3
This course is the culmination of an Undergraduate research project. Students will write a formal thesis under the supervision of a faculty mentor and give an oral presentation on their research.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

GEOL 1960 - FIELD CAMP

Minimum Credits: 4
Maximum Credits: 8
A geology summer field camp is four to eight weeks long and includes a substantial component of geologic mapping and report writing. Field camp is the traditional capstone experience for geology and environmental geology majors. You should enroll at any accredited field camp offering at least four semester units of credit and transfer the credits to the University of Pittsburgh.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

GEOL 2054 - SOILS: GEOBIOCHEMICAL LANDSCAPES

Minimum Credits: 4
Maximum Credits: 4
An overview of soils with a strong emphasis on landscape scale process. The course consists of lecture and laboratory/field work. The lecture will include description of physical and chemical soil properties and processes, discussion of major soil classifications and description of ramifications at the landscape scale.
Academic Career: GRAD
Course Component: Lecture
Grade Component: Grad LGSNC

GEOL 2525 - STABLE ISOTOPE GEOCHEMISTRY

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with a thorough introduction to the stable isotope systematics of light elements (hydrogen, carbon, nitrogen, oxygen, and sulfur). The course examines the fundamental concepts of isotope equilibrium and kinetics, physiochemical and biogenic mechanisms of isotope exchange, and the principles of mass spectrome try and stable isotope extraction techniques.
Academic Career: GRAD
Course Component: Lecture

Grade Component: Grad LGSNC
Course Requirements: PREQ: GEOL 2520

GEOL 2853 - WATERSHED HYDROLOGY AND BIOGEOCHEMISTRY
Minimum Credits: 3
Maximum Credits: 3
Understanding the science of watersheds is critical to improving water quality. This course will examine surface water hydrology, biogeochemistry, and management of watersheds. In addition, we will focus on how varying land uses influence the dynamics of hydrology and biogeochemistry across these systems. Student will develop an understanding of the biogeochemistry of various major elements in watersheds, including nitrogen, carbon, sulfur, and mercury, and how these elemental fluxes are exchanged through atmospheric-terrestrial-aquatic interactions. Students will be expected to demonstrate critical thinking, communication, and analytical skills through student-led lectures, journal discussions, and projects.
Academic Career: GRAD
Course Component: Lecture
Grade Component: GradLG/SU3

Germanic Languages & Literatures

GER 0001 - ELEMENTARY GERMAN 1
Minimum Credits: 5
Maximum Credits: 5
This is an elementary language acquisition course and aims to teach students how to carry out various functions likely to be necessary in dealing with others in the target language. The course aims to develop all four language skills--speaking, listening, reading, and writing, and deals with culture as an integral part of each skill. The language acquisition exercises are supplemented by an integrated and systematic presentation of grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0002 - ELEMENTARY GERMAN 2
Minimum Credits: 5
Maximum Credits: 5
This course completes the introduction of the basic structures of German begun in German 0001. It emphasizes all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill. The language acquisition exercises are supplemented by an integrated and systematic presentation of grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0001 or Online Test Score equal/greater 281 or Paper Test Score equal/greater 6

GER 0003 - INTERMEDIATE GERMAN 1
Minimum Credits: 3
Maximum Credits: 3
Conducted entirely in German, this course provides structured practice in understanding, speaking, reading (unedited texts), and writing. The language-acquisition exercises are supplemented by an integrated and systematic review of grammar, emphasizing those structures that are needed for practical communication in authentic German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0002 or Online Test Score equal/greater 381 or Paper Test Score equal/greater 22

GER 0004 - INTERMEDIATE GERMAN 2
Minimum Credits: 3
Maximum Credits: 3
Conducted entirely in German, this course enables students to describe in past, present, and future time, and to initiate and sustain a conversation. They discuss contemporary texts and topics, participate in small group activities, and strengthen their writing skills through journal writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0003 or Online Test Score equal/greater 481 or Paper Test Score equal/greater 41

GER 0011 - CONVERSATION 1
Minimum Credits: 3
Maximum Credits: 3
This course is intended to assist novice level students to strengthen their communicative proficiency. Students learn to handle their needs adequately for travel in Germany or a German-speaking country. In order to encourage oral communication, there is extensive use of audio-visual teaching aids.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0012 - CONVERSATION 2

Minimum Credits: 3
Maximum Credits: 3
Like its companion course, German 0011, this course emphasizes oral proficiency. The course enables students to converse in formal and informal situations, resolve problems, deal with unfamiliar topics, provide explanations, describe in detail, offer supported opinions, and hypothesize. Areas of context are practical, social, professional, and abstract topics, particular interests, and special fields of competence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0021 - GERMAN READING 1

Minimum Credits: 4
Maximum Credits: 4
The objective of this course is to develop a basic reading knowledge of German. It is a beginning course which introduces all the structures of German grammar. German 0021 is designed for students who wish to acquire basic reading skills in the shortest possible time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0022 - GERMAN READING 2

Minimum Credits: 4
Maximum Credits: 4
This course is designed to help students obtain an intermediate reading knowledge of German. Students read unedited texts from general fields and from their own areas of specialization. The course includes a systematic review of grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0031 - ELEMENTARY GERMAN 1 FOR MBAS

Minimum Credits: 1.5
Maximum Credits: 1.5
It is an elementary language acquisition course and aims to teach students how to carry out basic functions likely to be necessary in dealing with others in the target language. The course aims to develop very basic abilities in all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

GER 0032 - ELEMENTARY GERMAN 2 FOR MBAS

Minimum Credits: 1.5
Maximum Credits: 1.5
Course continues with the presentation of the basic German grammatical structures and vocabulary begun in German 0031. It emphasizes all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

GER 0033 - INTRO TO YIDDISH LANG AND CULT

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GER 0101 - BEGINNING GERMAN 1

Minimum Credits: 3
Maximum Credits: 3
This is an elementary language acquisition course and aims to teach students how to carry out various functions likely to be necessary in dealing with others in the target language. The course aims to develop all four language skills- speaking, listening, reading, and writing, and deals with culture as an integral part of each skill. The language acquisition exercises are supplemented by an integrated and systematic presentation of grammar. This course covers in three semesters the same material that is covered in two semesters in German 0001 and 0002.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0102 - BEGINNING GERMAN 2

Minimum Credits: 3
Maximum Credits: 3
This course continues the introduction of the basic structures of German begun in German 0101. It emphasizes all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill. The language acquisition exercises are supplemented by an integrated and systematic presentation of grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 0103 - BEGINNING GERMAN 3

Minimum Credits: 4
Maximum Credits: 4
This course completes the introduction of the basic structures of German begun in German 0101, and continued in German 0102. It emphasizes all four language skills--speaking, listening, reading, and writing and deals with culture as an integral part of each skill. The language acquisition exercises are supplemented by an integrated and systematic presentation of grammar.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1000 - READING LITERARY TEXTS

Minimum Credits: 3
Maximum Credits: 3
Students are lead through a selection of recent stories and three short novels. Extensive and intensive reading skills are practiced. Assignments focus on both global comprehension and fine details. Relationship between meaning and grammatical structure is emphasized throughout.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1001 - GERMAN WRITING

Minimum Credits: 3
Maximum Credits: 3
This course is designed to strengthen the student's composition skills through constant practice in writing, revising, and editing. The goal is to be able to express thoughts effectively in correct and well-structured German prose, including business correspondence. Strong emphasis is put on problems of stylistics, including punctuation, sentence structure, word usage, and figures of speech.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1002 - GERMAN PHONETICS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the phonetics of the German language as well as improve on their pronunciation by means of exercises. Mastering the pronunciation of German is a must for anyone who wishes to speak and understand the language. Students study the rules of 'Hochlautung' and 'Umgangslautung', listen to recordings (including plays and dialects), record their own readings, and participate in conversation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1003 - PROFESSIONAL GERMAN 1

Minimum Credits: 3
Maximum Credits: 3
This is an advanced language acquisition course and aims to familiarize students with specialized vocabulary and practices of German-speaking countries in professional environments of such areas as communications, advertisement, international trade, engineering, and law. The course will focus on oral and aural proficiency, appropriate written discourse and reading. The course integrates economic geography the legal and political system of German-speaking countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1004 - PROF GERMAN 2: GER BUS WRLD

Minimum Credits: 3
Maximum Credits: 3
Subject-oriented, authentic texts and videos serve as the vehicle for an efficient and accelerated introduction to business German. The course emphasizes both receptive (reading and listening) and productive (speaking and writing) skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1005 - GERMAN MEDIA

Minimum Credits: 3
Maximum Credits: 3
In this course, students will strengthen their knowledge of existing grammatical structures and will examine the specific aspects of daily life in Germany via contemporary electronic and print genres. The latter will include online articles and hard copy news sources and a range of daily and weekly news sources. Class discussions, debates, oral reports, and short written assignments will also be based on topics derived from current podcasts, social networking sites, television advertisements and online series, and from new documentary and feature films.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score Equal/Greater 550 or Paper Test Score Equal/Greater 55

GER 1051 - INTRO TO LITERARY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Competing methods of literary investigation are analyzed in terms of (1) their underlying assumptions about the nature of art and the relationship between literature and reality and (2) their usefulness as tools for practical criticism. Each approach is examined as a coherent model and then evaluated with reference to actual critical practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1052 - THE MAJOR CULTURAL PERIODS

Minimum Credits: 3
Maximum Credits: 3
In this course, we study outstanding cultural developments in the German-speaking countries from antiquity to the 20th century. By acquiring a solid foundation of historical knowledge, students significantly expand their vocabulary (German as a Kultursprache"), acquaint themselves with many important figures, and develop a basic understanding of the political and cultural geography of central Europe, the turning points of intellectual history, and the shaping of the German cultural tradition."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 0004 (MIN GRADE: B-) or Online Test Score equal/greater 550 or Paper Test Score equal/greater 55

GER 1053 - MAJOR CULTURAL PERIODS 2

Minimum Credits: 3
Maximum Credits: 3
This course, a continuation of GER 1052, is the second in a two-course sequence required for German majors and intended to give them a broad overview of the major periods/topics of the culture, history, and literature in the German-speaking countries, from the middle ages to the 20th century. Students will read and analyze a variety of texts (including examples of poetry, drama, and narrative prose), and they will also examine other authentic texts, including work of art, music, architecture, politics and psychology.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GER 1000 or GER 1001 or GER 1051 or GER 1052

GER 1101 - ADVANCED GERMAN 1-MEDIA

Minimum Credits: 3
Maximum Credits: 3
Intended to be a challenging upper-level language course, advanced German 1 strengthens students' linguistic skills primarily in speaking and listening, but also in reading and writing. We examine specific aspects of daily life (for example, work, housing, leisure, education, youth, and family) via contemporary print, audio, and video media.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any 1000-level German class

GER 1102 - ADVANCED GERMAN 2: STRUCTURES

Minimum Credits: 3
Maximum Credits: 3
Students who wish to use German as an effective professional tool or enroll at a German university benefit most from this course. They investigate and practice the structure and style of written German, participate in discussions on a variety of public and academic issues, listen to German lectures and broadcasts, and present German papers on topics of their choice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any 1000 Level German Course

GER 1103 - ADVANCED GERMAN 2: CREDIT LAB

Minimum Credits: 1
Maximum Credits: 1
This course supplements advanced German 2 by providing authentic language exercises and practical information about everyday life in Germany. It is designed specifically for students preparing to matriculate into a German University, but will also prove useful to those with other travel goals.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

GER 1104 - GERMAN FOR SOCIAL SCIENTISTS 1

Minimum Credits: 3
Maximum Credits: 3
This course has a three-part teaching objective: a) it analyzes how the historical experience of the weimar republic and World War II shaped the politico-economic system and national identity in West Germany; b) it reviews major grammatical structures (of German passive voice, subjunctive I and II) necessary to comprehend scholarly materials in the social sciences; and c) it allows students to practice their German language skills in all four areas: reading writing, listening and speaking.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any 1000-Level German Course

GER 1105 - LITERARY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
General content, purposes, and methods of this course: students will learn the characteristic features of poetry, prose, and drama and will develop a technical vocabulary to interpret literary works in German. We will also learn about some of the different methodologies and theoretical approaches that literary critics employ to analyze texts. We will build upon and expand the reading techniques and strategies learned in 1000-level courses to prepare students for the more advanced literature and culture seminars at the 1200-level. Readings, class discussions, tests, oral reports and written assignments, including a journal, will be in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: Any 1000 level German Course

GER 1106 - GERMAN CULTURAL HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to major developments and figures in European cultural history from the German tribes to the enlightenment (CA. 750 AD to 1785). It weaves together texts and artifacts from the time period covered and current print as well as audio-visual materials in order to analyze how past cultural history informs German and European collective identity today. This course will be conducted entirely in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: Any 1000 Level German Class

GER 1190 - INTRO TO TRANSLATION STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course serves as a foundation course for the professional translation certificate program, and for related fields. It deals with translation theory and the general problematics of the translation process, providing a theoretical framework for translation and systematically linking theory and practice.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1195 - GER PROFESSIONAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to train translators to gain experience in translating the type of material professional translators handle under actual on the job" situations."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1196 - GER PROFESSIONAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
This course is designed to train translators to gain experience in translating the type of material professional translators handle under actual on the job" situations."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1197 - GERMAN LEGAL TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
A course in the professional translation certificate program, this course provides concentrated practice in translating legal documents from German to English. Emphasis is on an overview of the German legal system, basic legal principles and terminology, and the acquisition of advanced skills in the translation of German legal texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1198 - PROF TRANSLATION INTRNSHIP-GER

Minimum Credits: 3
Maximum Credits: 3
This course provides on the job training for translators.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

GER 1199 - GER SCIENTFC/TECH TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course provides training in the various text styles found in scientific and technical literature, including work with linguistic features and idiosyncrasies pertinent to such literature and the acquisition of basic linguistic skills with regard to word formation for new concepts and new terms. Areas of concentration for the course therefore include concept specifications, terminology issues and lexicography.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1204 - GERMAN FOR SOCIAL SCIENTISTS 2

Minimum Credits: 3
Maximum Credits: 3
This course has a three-part teaching objective: 1) it analyzes historical development and institutional structures of the European union and asks the question to which extent this supranational union was able to engender a collective identity; 2) it allows students to practice their German language skills in all four areas: reading, writing, listening and speaking; 3) it teaches students how to write an analytic seminar paper in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: Any 1100 level German course

GER 1210 - INTRO TO HISTORY OF GERMN LANG

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce advanced undergraduate students to the history of the German language, i.e., The IndoEuropean and Germanic roots of the language, the development of the sound system and grammar, the emergence of the modern written language, and the historical foundations of the current German dialects. The course will acquaint students with those methods of historical German philology which enable them

to recognize semantic problems and different stylistic levels of language in new high German texts from Luther to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1220 - LITERATURE & CULTURE 1750-1830

Minimum Credits: 3
Maximum Credits: 3
The production of a cultural canon during the latter part of the 18th and first part of the 19th centuries is examined as a problematic project. Literary and non-literary texts of the period acquaint students with the dominant images through which a German national culture began to identify itself. Such governing attitudes as Aufklaerung, Autonomie, Genie, Humanitaet, Bildung, Natur, Kunst, and Klassik are explored in the works of Lessing, Goethe, Herder, Kant, Schiller, Kleist, Novalis, Hoelderlin, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 1000 or 1001

GER 1224 - SPECIAL TOPICS 1750-1830

Minimum Credits: 3
Maximum Credits: 3
An in-depth analysis of a specific literary or cultural problem from the period between about 1750 and 1830. As the topics change, this course may be repeated for credit.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1228 - LITERATURE & CULTURE 1830-1890

Minimum Credits: 3
Maximum Credits: 3
Major literary and cultural documents from between about 1830 and 1890 are analyzed both formally and thematically in order to understand them in their social and historical contexts. Primary readings are in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 1000 OR 1001

GER 1230 - CHLDREN'S LITERATURE IN GERMAN

Minimum Credits: 3
Maximum Credits: 3
This course provides a chronological and thematic introduction to children's literature written in the German language from 1845 to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Two 1000-level German Courses

GER 1234 - LITERATURE & CULTURE 1890-1918

Minimum Credits: 3
Maximum Credits: 3
Major literary and cultural documents from between about 1890 and 1918 are analyzed both formally and thematically in order to understand them in their social and historical contexts. Primary readings are in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1240 - 20TH CENTURY LIT AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
Major literary and cultural documents of the Twentieth Century are analyzed both formally and thematically in order to understand them in their social and historical contexts. Primary readings are in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Two 1000-level German Courses

GER 1242 - PEACE/MILITARISM IN GER CULTUR

Minimum Credits: 3
Maximum Credits: 3
Using literary and non-literary documents, this course examines the perception of peace and war in German culture since the 19th century. The historical approach provides the framework for understanding such diverse issues as the specific structure of the (West-)German armed forces, the strong peace movements and the debate on Germany's role in today's international security system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: Any Two 1000-level German Courses

GER 1246 - LITERATURE & CULTURE 1918-1933

Minimum Credits: 3
Maximum Credits: 3
This course examines tensions within Weimar culture across a wide range of cultural practices: expressionist poetry; Dadaist performance; the plays of Kaiser and Brecht; the theater of Reinhardt and Piscator, the paintings by Grozs and Dix; the architecture of the Bauhaus; the films of Lange and Murnau. Readings and discussions focus on the experience of the big city and mass society, the impact of modern technology on all aspects of everyday life, the interrelation of art and politics, and the changing role of artists and intellectuals in society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1252 - CURRENT LIT AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
In this course, students concentrate on the most recent trends in German literature and culture. Readings from a variety of genres and authors are discussed in the larger context of cultural trends and traditions which have a bearing on current literary and other issues. All readings are in German.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GER 1001 or 1001

GER 1324 - SPECIAL TOPICS IN GERMAN PROSE

Minimum Credits: 3
Maximum Credits: 3
An in-depth investigation of a literary or cultural problem related to prose fiction. As the topic changes, this course may be repeated for credit.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1325 - DURRENMATT'S DETECTIVE FICTION

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1328 - THE NOVELLE

Minimum Credits: 3
Maximum Credits: 3
This course introduces the students to one of the most individual and highly developed genres in German literature, the novelle. The development of this genre is traced from its classical and metaphysical formulation and understanding through the transformation it undergoes during the 19th century and into the 20th century with changes in texture, mood and style of this genre, where it has to contend with the short story and is no longer a typically German phenomenon.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1350 - GERMAN DRAMA

Minimum Credits: 3
Maximum Credits: 3
An overview, crossing several literary-historical periods, of the development of German drama.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1354 - MAJOR PLAYWRIGHT(S)

Minimum Credits: 3
Maximum Credits: 3
An in-depth study of a major playwright (or group of playwrights). As the subject changes, this course may be repeated for credit.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1380 - TOPICS IN GERMAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
A survey of the new German cinema. This course examines the cultural and social conditions that made possible and shaped the diversity of West German films since the sixties and continue to do so in the eighties. With the emphasis on the work of internationally renowned directors such as Fassbinder, Herzog, and Wenders, the course also pays tribute to the lesser known but equally important work of women directors and experimental filmmakers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1381 - GERMAN CINEMA

Minimum Credits: 3
Maximum Credits: 3
A survey of the new German cinema. This course examines the cultural and social conditions that made possible and shaped the diversity of West German films since the sixties and continue to do so in the eighties. With the emphasis on the work of internationally renowned directors such as Fassbinder, Herzog, and Wenders, the course also pays tribute to the lesser known but equally important work of women directors and experimental filmmakers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1384 - FILM AND FASCISM

Minimum Credits: 3
Maximum Credits: 3
Fascism is a topic that challenges the aesthetics and ethics of cinematic representation. The course examines the complicated and often problematic connections between film and propaganda, history and narrative, memory and representation. This includes an overview of the historical relationship between film and fascism as well as close readings of a representative group of American and European films from the forties to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1390 - MINORITIES IN POST-WAR GERMANY

Minimum Credits: 3
Maximum Credits: 3
This course analyzes the complex nature of the relationship between the native and foreign population in Germany today. Topics include the history of immigration to Germany, the legal inscription of otherness, and the constitution of identity by the immigrant minority. Using literary and non literary documents as well as different media, students will be introduced to the manifold forces which shape collective images and cultural identities in Germany.
Academic Career: UGRD

Course Requirements: PREQ: Any Two 1000-level German Courses

GER 1399 - SENIOR CAPSTONE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course is for senior German majors. It will require students to write a senior thesis on a German topic, drawn from their own interests but also related to the focus of the seminar. The specific focus of the seminar will change each year, depending on the instructor, but will be constructed to highlight the intersections between multiple epochs, genres, themes, and/or disciplines. Every version of the seminar will require a senior thesis or project that allows the student to pursue his/her own interests within the topic of the seminar. Seminar readings will be in German.

Grade Component: Letter Grade
Course Requirements: PREQ: Any 1000 Level German Course and Any 1100 Level German Course; LVL: Senior

GER 1409 - EURPN INTELCL HIST 2 1870-1940

Minimum Credits: 3
Maximum Credits: 3

A course of readings and discussions focused on major texts in the European intellectual tradition from the age of positivism to the second World War. There will be occasional lectures, especially on the social and institutional contexts, but the predominant emphasis will be on class discussions of primary readings. Students who wish to take the course for the German major will be asked to write their papers, and do a substantial portion of the reading, in German.

Grade Component: LG/SNC Elective Basis
Course Requirements: Any Two 1000-level German Courses

GER 1410 - KAFKA AND THE MODERN WORLD

Minimum Credits: 1
Maximum Credits: 1
Kafka's major works are examined both formally and thematically with reference to the modernist tradition. Recurring issues include authority, alienation, mass society, guilt and punishment, truth, and writing. Regular assignments from the secondary literature introduce students to central questions of literary criticism and theory. Essays by Kierkegaard, Marx, Nietzsche, and Freud further elaborate the cultural context in which Kafka's texts were produced. All readings are in German.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: CREQ: GER 1510 or ENGLIT 1510

GER 1490 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 5
An in-depth investigation of a literary or cultural problem that lies outside of traditional literary-historical or genre classifications. As the topics change, this course may be repeated for credit.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Satisfactory/No Credit

GER 1500 - GERMANIC MYTHS LEGENDS SAGAS

Minimum Credits: 3
Maximum Credits: 3
This course presents a survey of Northern European cultural values from about 500 B.C. To about 1500 A.D. Sources include archaeological finds, sagas, ballads, legends, customs, superstitions, place names, and language expressions. Topics include social organization, distribution of labor and wealth, the position of women and children in family and society, and the uses of supernatural beliefs to achieve worldly goals. Where appropriate, parallels will be drawn between modern Northern European values and their formative myths from the distant past.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1502 - INDO-EUROPEAN FOLKTALES

Minimum Credits: 3
Maximum Credits: 3
German 1502 is a study of the esthetic, psychological, and social values reflected in a variety of European folklore genres, including magic tales, legends, proverbs, superstitions, and jests. The Grimms' pioneering collections constitute the course's nucleus, but it draws numerous supporting examples from other European countries as well.

GER 1512 - GERMAN LIT/EUROPEAN PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
This course analyzes Goethe's Faust in its entirety with reference to its epistemological, ethical, and aesthetic investments. Students explore how this masterpiece of German literature staged and re-articulated important conceptual issues within the European philosophical tradition with supplementary readings from Plato, Aristotle, Spinoza, Leibniz, and Kant, as well as Whitehead and Deleuze. The goal of the readings is to construct a conceptual apparatus that can serve as framework of interpretive analysis as well as a reconfiguration of the perennial questions of philosophy and literature regarding their own essence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GER 1518 - BERTOLT BRECHT

Minimum Credits: 3
Maximum Credits: 3
The course discusses Bertolt Brecht in his various roles as playwright, poet, dramaturg, and critic. His theory of the epic theater is used as a backdrop to interpret his plays. His polemic against traditional theater is viewed not merely within the narrow constraints of Marxism, but in the wider context of Avant Garde theater. His influence on theater of the Twentieth Century outside of the German-speaking world is also analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1522 - GERMANY TODAY

Minimum Credits: 3
Maximum Credits: 3
In this course the current cultural, political, and social situation in the German speaking countries is assessed. What are the concerns of Germans, Austrians, the Swiss? By concentrating on current conditions and changes of public consciousness, issues important to German speakers are debated. Materials include articles from journals and newspapers, documentaries, slides, and contemporary works of literature. All materials are in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1524 - GERMAN CONTRIBUTIONS WORLD LIT

Minimum Credits: 3
Maximum Credits: 3
This course investigates the esthetic qualities and the cultural backgrounds of those German writers of the past 200 years who have genuinely become members of the world literature community. Authors discussed include Goethe, Nietzsche, Kafka, Brecht, and Mann. All materials are in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1526 - DRAMA OF IDEAS

Minimum Credits: 3
Maximum Credits: 3
Although it has been argued that a poem should not mean, but be", many writers have unashamedly given their art a didactic function. This course identifies the types of causes that literary artists traditionally have championed, and then focuses on the literary techniques that they used to achieve their end. The course is thus a study of "the art of moral persuasion". The principal works investigated are "dramas of ideas" by such playwrights as Ibsen, Shaw, and Brecht, although supplemental prose writings are also included."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1528 - VIENNA

Minimum Credits: 3
Maximum Credits: 3
Viennese culture in the age of modernism anticipates crucial issues, concerns, and debates of our time. The present lecture series introduces students to the multifaceted Viennese developments in art, literature, music, philosophy, and science from the late nineteenth century to World War II. Among the major figures discussed in this course are: Mach, Wittgenstein, Freud, Schnitzler, Kraus, Klimt, Schiele, Loos, Schonberg, Alban Berg. Readings are in English.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1530 - WEIMAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
The twenties were one of the most exciting periods in Germany's cultural history. At the same time, they were a time of great political and economic instability. This course examines Weimar culture across a range of cultural practices (literature, theater, painting, architecture, and film). Selected works from the period will be analyzed in the context of the artistic and political avant-garde, and the productive exchanges between high and popular culture. Special emphasis will be placed on the impact of technology on everyday life.

GER 1535 - OUTSIDERS IN GERMAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys major works of German literature of the 18th, 19th and 20th centuries and develops literary analytical skills. Students will learn about various aspects of German culture by focusing on outsiders"-individuals who live on the margins of a social order and, by their very marginality, help define accepted social norms. Readings include texts by Goethe, Kleist, Hoffmann, Buchner, Mann, Kafka, Borchert, Bachmann, Plenzdorf, and Wolf."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1540 - NIETZSCHE AND THE NIETZSCHEANS

Minimum Credits: 3
Maximum Credits: 3
Friedrich Nietzsche (1844-1900) continues to be one of the most influential modern philosophers, yet controversy surrounds almost every aspect of his life and work. This course will help students go beyond the controversy in order to consider Nietzsche's texts discerningly and how he approached the problems of truth, power, and morality. Close examination of his most important writings will be complemented by inquiry into Nietzsche's effects on Twentieth-Century philosophy, literature, and culture. The course will also survey major influences of Nietzsche's approaches on subsequent philosophers and scholars.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Jr or Sr

GER 1542 - MARX AND MARXISM

Minimum Credits: 3
Maximum Credits: 3
Having recently passed the 150th anniversary of the publication of capital volume 1, we recognize that our world has changed a great deal since its publication. Yet, in reviewing many of these changes, it is not overstated to say that the works of Karl Marx have provided the transformational impulse. Who was this person, Karl Marx? Why is it that in this post-cold war world his writings continue both to inspire and threaten contemporary readers? How have those inspired by Marx further developed his ideas to constitute the discourse of Marxism? These are some of the questions that this course will raise and try to answer. We will begin with discussions of key works by Marx. Concentrating on the question of culture and cultural analysis, we will then move on to examine some significant contributions to Marxism. The course will end by looking at contemporary attempts at rethinking Marxism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: LVL: Jr or Sr

GER 1544 - FREUD AND FREUDIANS
Minimum Credits: 3
Maximum Credits: 3
Freud is one of the most influential thinkers of the 20th century. His groundbreaking work on dreams, the Oedipus complex, and psychoanalytic method have profoundly changed our understanding of the psyche and social interaction. This course provides a basic survey of Freud's most important and often controversial writings/discoveries within their historical context and with regards to significant criticisms of his work. It includes a brief survey of various branches of psychoanalysis to develop after Freud, especially those of Lacan and Kristeva.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

GER 1546 - NAZI CULTURE
Minimum Credits: 3
Maximum Credits: 3
This course relies on primary cultural sources of the third Reich, especially film, but also literary, visual, architectural, musical, etc. To examine the parameters of Nazi culture. It will examine such diverse aspects as the leader principle, gender roles, racial hygiene, anti-semitism, mass culture, propaganda, and visions of history. The cultural artifacts will be analyzed both in terms of their aesthetics as well as the social and historical context of their production.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GER 1548 - NEW GERMAN CINEMA
Minimum Credits: 3
Maximum Credits: 3
Devastated after World War II, starting in the 1960s a number of German directors like Herzog, Fassbinder, Wenders, Kluge, Annders-Abrahms managed to bring international attention back to German cinema. They competed against the film industry of Hollywood under difficult conditions of production, and in many instances made the difficult transition out of the art house and into the mainstream movie theater. Yet these names only represent a small portion of those directors active in the new German cinema. This class will examine the aesthetic and technical contributions of new German cinema as well as the historical and social context of its production. The technological, financial, and intellectual destruction caused by the experience of national socialism and World War II required creative responses that have led to a solid and symbolically rich body of work. In examining the themes and experimental forms of various filmmakers, students will gain insight into the issues that occupied the German public sphere from the 1960s onward.

Maximum Credits: 1
Writing practicum for students taking Greek 1302 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: GREEK 0210 and 0220

GREEK 1400 - ADV READINGS IN GREEK EPIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Greek epic poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1402 - ADV READINGS IN GREEK TRAGEDY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected Greek tragedies. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1404 - ADV READINGS IN GREEK COMEDY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected Greek comedies. The specific authors and works vary from term to term; the course may be repeated for credit

when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1406 - ADV READINGS IN GREEK LYRIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Greek lyric poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1416 - ADV READINGS IN GREEK HISTNS

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Greek historians. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1418 - ADV READINGS IN GREEK ORATORY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Greek orators. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1420 - ADV READINGS IN GREEK PHIL

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Greek philosophers. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1430 - SPECIAL TOPICS IN GREEK LIT

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected Greek texts. The course may be repeated for credit provided the specific material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: GREEK 1300 or 1302

GREEK 1600 - TOPICS IN GREEK LITERATURE

Minimum Credits: 3
Maximum Credits: 3
In this course students study selected topics in Greek literature. The course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

GREEK 1700 - GREEK PROSE COMPOSITION

Minimum Credits: 3
Maximum Credits: 3

This course provides students with a thorough review of Greek grammar and practice in the writing of Greek prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

GREEK 1800 - HONORS COURSE/MAJORS
Minimum Credits: 3
Maximum Credits: 3
In this course undergraduate majors in classics who wish to graduate with honors (and are otherwise qualified) write an honors paper, usually in conjunction with a Greek reading course at the 1300 or 1400 level.
Academic Career: UGRD
Course Component: Thesis Research
Grade Component: Satisfactory/No Credit

GREEK 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes study in Greek in consultation with a member of the faculty.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

GREEK 1902 - DIRECTED STUDY FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 6
In this course a student undertakes directed study in Greek under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

GREEK 1903 - DIRECTED RSRCH FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes directed research in the field of classical civilization under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

Health and Physical Activity

HPA 0030 - BASKETBALL OFFICIATING
Minimum Credits: 1
Maximum Credits: 1
The course in basketball officiating includes: classroom instruction and hands on officiating experiences in the basketball program. Instruction includes: rule knowledge, officiating techniques, methods of scoring, court coverage and evaluation of performance.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0031 - MODERN DANCE 1
Minimum Credits: 1
Maximum Credits: 1
Introduces the college student to modern dance as a point of view, rather than a particular technique. There will be exercises to increase strength, and flexibility, as well as to teach techniques of movement, exploration and improvisation. Emphasis is on developing a sensitive awareness of one's own body movement in time and space.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade

HPA 0032 - MODERN DANCE 2
Minimum Credits: 1
Maximum Credits: 1

HPA 0042 - JAZZ 2
Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HPA 0044 - DANCE PRODUCTION
Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

HPA 0050 - SPORTS AND DRUGS
Minimum Credits: 1
Maximum Credits: 1
This course presents medical and scientific information about the use of drugs in sports. It is especially designed for college athletes, but should also be of interest to students preparing for careers in athletic training, coaching, exercise science, health and physical education, physical therapy, and sports medicine.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HPA 0060 - INTRODUCTION TO DANCE
Minimum Credits: 3
Maximum Credits: 3
A comprehensive overview of dance as an art form and physical activity, covering the history and philosophy of dance. Dance will be examined as a means of communication and expression, and its relationship to other art forms. A particular emphasis will be placed on Western dance forms and its multicultural roots.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 0098 - FOUNDTNS OF SPORT ADMINSTRTN
Minimum Credits: 3
Maximum Credits: 3

Understanding the organization and operation of physical activities which provide healthful experiences for students are competencies for teachers of physical education, recreation and coaches. This course provides opportunities to attain these basic competencies through classroom and clinical leadership experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 0099 - LEADERSHIP INTRAMURAL SPORT

Minimum Credits: 2
Maximum Credits: 2
This course provides the opportunity to apply the know ledge of scheduling and administering the intramural program on a sport manager's level. Direct supervision is provided by the co-directors of the intramural and recreational program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 0196 - FIRST AID AND CPR

Minimum Credits: 2
Maximum Credits: 2
A 2-credit lab/lecture discussion course in which American Red Cross techniques of cardiopulmonary resuscitation (CPR) for the professional rescuer and community first aid and safety are presented. In addition to these skills, current methods of management and treatment of emergency illnesses and injuries are also taught. American Red Cross certification available to all students who meet the standards.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0240 - AEROBICS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course will prepare the student to teach various components of aerobic exercise, i.e., Aerobic fitness boxing (Tae Bo), hi-low impact, step aerobics, circuit training, interval bench, water aerobics, and the like. The course will not certify instructors, however, it will prepare the student to obtain certification from national organizations with written and practical exams.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0244 - DANCE PRODUCTION 2

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Workshop
Grade Component: Letter Grade

HPA 0462 - CREATIVE MOVEMENT

Minimum Credits: 1
Maximum Credits: 1
This course is designed for physical education majors, education majors and all students with a desire to learn the how and why of teaching dance in an educational program. Through the lectures the students will cover the educational components of dance, i.e., Dance and education, dance for elementary and secondary schools, dance history and dance resources. In the movement lab fundamentals of movement, rhythms and creative movement activities will be covered.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0463 - DANCE SURVEY

Minimum Credits: 1
Maximum Credits: 1
This course is designed for physical education majors and all students with a desire to learn dance basics and their application in an educational program. The movement lab will introduce the students to the various forms of dance such as modern, jazz, ballet, square dance and dance fundamentals such as rhythm, rhythmic analysis, alignment, vocabulary, composition and movement improvisation.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0464 - INDIVIDUAL SPORTS

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective teachers of health and physical education. Includes studies and experiences in archery, bowling, golf, and other individual sport activities. Also covers topics such as history, rules, safety, strategies, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0465 - DUAL SPORTS

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective teachers of health and physical education. Includes studies and experiences in fencing, karate, wrestling, and other dual sport activities. Also covers topics such as history, rules, safety, strategies, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0468 - OUTDOOR PURSUITS

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective teachers of health and physical education. Includes studies and experiences in backpacking, camping, fishing, rock climbing, and other outdoor adventure activities. Also covers topics such as history, strategies, safety, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0470 - TRACK AND FIELD

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective teachers of health and physical education. Includes studies and experiences in basic track and field events. Also covers topics such as history, rules, safety, strategies, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0471 - RACQUET SPORTS

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective teachers of health and physical education. Includes studies and experiences in badminton, tennis, racquetball, and squash. Also covers topics such as history, rules, safety, strategies, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0472 - FUNDM MOTOR PATTERN ACTIVTS

Minimum Credits: 1
Maximum Credits: 1
The content of the course includes classroom lecture and videotape analysis of the stages of fundamental motor patterns. The laboratory component of the class includes analysis of children performing fundamental motor patterns and then intervention with activities to improve the process of the pattern.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0473 - DANCE PEDAGOGY

Minimum Credits: 2
Maximum Credits: 2
This course is designed for physical education majors and all students with a desire to learn the how and why of teaching dance in an educational program. Through the lectures the students will cover the educational components of dance, i.e., Dance in education, dance for elementary and secondary schools, dance history and dance resources. The movement lab will introduce the students to the fundamentals of movement.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0474 - LIFETIME ACTIVITIES 1

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective instructors of health and physical activity. Includes experiences in the following: group exercise focused on aerobic, resistance, and flexibility; aquatic exercise, dance, yoga, Pilates, and others. Also covers topics such as history, safety, and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 0475 - LIFETIME ACTIVITES 2

Minimum Credits: 1
Maximum Credits: 1
An introductory course for prospective instructors of health and physical activity that expands on the content taught in HPA 0474 (lifetime activities 1). Includes experiences in the following: group exercise focused on aerobic, resistance, and flexibility; aquatic exercise, dance, yoga, Pilates, and others. Also covers topics such as history, safety and methods of training and conditioning.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 0476 - GYMNASTICS

Minimum Credits: 1
Maximum Credits: 1
Skills and exercises are done in the following events: floor exercise, trampoline, pommel horse, rings, horizontal bar, parallel bars, rope climb, tumbling, and mini trampoline.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0481 - INTERSCHOLASTIC TRACK COACHING

Minimum Credits: 2
Maximum Credits: 2
This course provides theory and techniques important to coaching men's and women's track and field. Topics covered include: year round conditioning program, techniques for each event, film analysis, and equipment needs.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0482 - INTRSCHOLASTIC FOOTBLL COACHNG

Minimum Credits: 2
Maximum Credits: 2
This course is designed to introduce the student to the various aspects and responsibilities of becoming a high school football coach. Student must work with a high school football program during the semester, attend a minimum of 8-10 team practices, interview the head coach, and submit a paper discussing his/her ideas on the various topics presented.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0483 - INTRSCHOLASTIC WRESTLNG COCHNG

Minimum Credits: 2
Maximum Credits: 2
This course is designed to introduce the student to the various aspects and responsibilities of becoming a high school wrestling coach. Student must work with a high school wrestling program during the semester, attend a minimum of 8-10 team practices, interview the head coach, and submit a paper discussing his/her ideas on the various topics presented.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0484 - INTRSCHOLASTIC VOLLYBLL CCHNG

Minimum Credits: 2
Maximum Credits: 2
This course is designed to introduce the student to the various aspects and responsibilities of becoming a high school volleyball coach. Student must work with a high school volleyball program during the semester, attend a minimum of 8-10 team practices, interview the head coach, and submit a paper discussing his/her ideas on the various topics presented.
Academic Career: UGRD

Course Component: Practicum
Grade Component: Letter Grade

HPA 0485 - INTERSCHOLASTIC SOCCER COACHNG

Minimum Credits: 2
Maximum Credits: 2
This course is designed to introduce the student to the various aspects and responsibilities of becoming a high school soccer coach. Student must work with a high school soccer program during the semester, attend a minimum of 8-10 team practices, interview head coach, and submit a paper discussing his/her ideas on the various topics presented.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0486 - INTRSCHOLASTIC BASEBALL COCHNG

Minimum Credits: 2
Maximum Credits: 2
This course provides theory and techniques important to coaching baseball. Topics include: technique evaluation, offensive and defensive strategy and psychology of coaching.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0487 - INTERSCHOLASTIC BSKTBL COACHNG

Minimum Credits: 2
Maximum Credits: 2
An advanced course in basketball techniques, individual skills, officiating and scouting designed to further prepare the student for physical education teaching of basketball, intramural basketball programs and basic coaching techniques for inter-school competition. Specific course content includes: program organization and administration; philosophy and psychology of coaching; conditioning the athlete; defensive strategy; offensive strategy; scouting; teaching individual skills.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0491 - GYMNASTICS COACHING

Minimum Credits: 2
Maximum Credits: 2
This course provides theory and techniques for coaching of men's and women's gymnastics. Examples of topical areas are warm-ups and dance, coaching women's events, coaching men's events, organization and management of meets, judging, psychology of gymnastics coaching, liability and litigation, private gymnastic school programs, purchase and care of equipment and supplies, video and film viewing and analysis, U.S.G.S.A. Certification program, flexibility and conditioning, public relations and publicity.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0496 - INTERSCHOLASTIC SWIM COACHING

Minimum Credits: 2
Maximum Credits: 2
This course provides theory and techniques important to coaching swimming. Topics include: skill development, techniques evaluation, year round fitness development, practice schedule, physical management and psychological aspects.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 0497 - WATER SAFETY INSTRUCTOR

Minimum Credits: 2
Maximum Credits: 2
The water safety instructor course is designed to earn certification to teach American Red Cross swimming and water safety courses. The course focuses on planning, organizing, sequencing, skill development, and Red Cross operational policies and procedures.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1011 - APPLIED HUMAN ANATOMY

Minimum Credits: 3
Maximum Credits: 3
This is a non-laboratory lecture discussion course in which all body systems are investigated. Primary emphasis is placed on the skeletal, articular,

muscular, cardiovascular and nervous systems. In addition, the basic mechanical principles underlying human movement and an understanding of human structure are used to analyze movement and physical skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1012 - APPLIED HUMAN ANATOMY LAB

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1021 - HEALTH THEORIES & PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
The course introduces students to the major health theories that are used to plan, implement, and evaluate health promotion and disease prevention interventions for schools, workplaces, healthcare organizations and communities. Using the theories students design a health intervention.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1031 - RESEARCH IN SPORTS SCIENCE

Minimum Credits: 3
Maximum Credits: 3
A course designed to provide the student an understanding of the role of measurement and evaluation in the educational process, the ability to select and/or develop and administer appropriate tests, and the ability to use appropriate mathematical and statistical techniques in data analysis. Additionally the student will gain an introduction to the research process as practiced in health, physical education and sport.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1032 - SOCIO-CULTL ASPCT OF MOVEMENT

Minimum Credits: 3
Maximum Credits: 3
This course is devoted to examining sport, exercise and play in culture. We approach the study of movement from historical, psychological, sociological and philosophical perspectives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1033 - HUMAN PHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Develops knowledge of the functions of the human body. Covers the major systems (e.g., Circulatory, digestive, endocrine, excretory, nervous, reproductive, thermoregulatory). Introduces key concepts for understanding the physiological basis of human performance in sport, dance, and exercise.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1034 - EXERCISE SCIENCE SEMINAR 1

Minimum Credits: 2
Maximum Credits: 2
This one credit course will provide an introductory overview of the academic discipline and profession of exercise science and its related fields. The course will also provide established guidelines and procedures necessary for those students enrolled in the university of Pittsburgh movement science undergraduate program.
Academic Career: UGRD
Course Component: Seminar

Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS

HPA 1035 - EXERCISE SCIENCE SEMINAR 2

Minimum Credits: 1
Maximum Credits: 1
This one credit course will provide final exposure to the profession of exercise science and its related fields. The course will also provide established guidelines and procedures necessary for professional interviews, resume, and other requirements necessary for job or graduate school application in an exercise or other health related field.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1041 - MOTOR LEARNING

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the student who will be involved in professions dealing with instruction and/or research in motor skills with a foundation of motor skill learning and performance theory that can be applied to decisions related to instruction and/or research on motor skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1042 - PHYSIOLOGY OF EXERCISE

Minimum Credits: 3
Maximum Credits: 3
A lecture and laboratory class in which the effects of exercise and sport upon body systems will be investigated. Reviews knowledge concerning physiological mechanisms which relate to improvements of physical performance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1043 - MOTOR DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
This course acquaints the student with adult/child differences in motor skill development. Topics included are: factors influencing growth and development, physiological changes from infancy through maturity, stages of fundamental differences in skilled learning and performance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1044 - BIOMECHANICS

Minimum Credits: 3
Maximum Credits: 3
Required course for undergraduate students in athletic training, exercise science, and teacher education. Provides studies to develop knowledge of biomechanical concepts and principles. Includes experiences to develop proficiency in the diagnosis of motor performance errors. Also places emphasis on applications of biomechanics in making curriculum and instruction decisions in physical education programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1045 - DIRECTED RESEARCH PRACTICUM

Minimum Credits: 2
Maximum Credits: 2
Students complete a comprehensive review of literature on a movement-related problem and then, under the guidance of a faculty member, design, conduct, and report an original research project.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

HPA 1141 - FITNESS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2

Fitness for instructors will teach the student the major elements of fitness. How to assess fitness levels, determine fitness goals, design fitness programs and facilities. The course will be a combination of classroom, exercise, and practical experiences.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1142 - PHYSIO BASIS - FITN SPRT CONDG

Minimum Credits: 3
Maximum Credits: 3
This course is aimed at developing an understanding of the physiological adaptations to fitness or long term physical training with emphasis on metabolic, strength and conditioning principles. Through the awareness of the body's responses to chronic and acute exercise, the student will be able to organize and design a physical training or fitness program for young adults, athletes and special populations. This course provides preparation for the American college of sports medicine health fitness instructor or national strength and conditioning exams.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1143 - TEACHING MIND/BODY EXERCISE

Minimum Credits: 2
Maximum Credits: 2
This is a course designed to prepare students to become instructors for mind/body classes including pilates and yoga. The course will begin with a brief overview of the history behind various mind/body formats and then move to practical application. Students will learn basic anatomy related to exercise as well as how to properly teach exercises and breathing techniques. Upon completion of the course, students should be capable of instructing pilates and yoga classes, as well as have a comprehensive understanding of the theories and principles behind the disciplines. No prior instructing experience is necessary.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1170 - HEALTH FITNESS PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: H/S/U Basis

HPA 1171 - RESISTANCE TRAINING INSTRUCTOR

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1172 - GROUP FITNESS INSTRUCTOR

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1173 - AEROBICS INSTRUCTOR

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1174 - YOGA AND PILATES INSTRUCTOR

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1211 - ATHLETIC INJURY PREVENTION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide the student with an introduction to the athletic training profession. Topics to include medical terminology, mechanisms of injury, and recognition and treatment of common athletic injuries to major body parts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: HPA 1212

HPA 1212 - ATHLETIC INJURY PREVENTION LAB

Minimum Credits: 1
Maximum Credits: 1
An introduction to basic taping techniques and injury evaluation techniques used in the profession of athletic training. Basic supportive strappings and paddings for immediate care and competition are presented as well as basic joint evaluation procedures, massage, and crutch fitting.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: CREQ: HPA 1211

HPA 1221 - INJURY EVAL AND TREATMENT 1

Minimum Credits: 3
Maximum Credits: 3
The course includes anatomy, recognition, and commonly accepted techniques and procedures for clinical evaluation of common athletic injuries to the foot, ankle, leg, thigh, hip and pelvis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1222 - INJURY EVAL AND TREATMENT 2

Minimum Credits: 3
Maximum Credits: 3
The course includes anatomy, recognition, and commonly accepted techniques and procedures for clinical evaluation of common athletic injuries to the shoulder, arm, elbow, forearm, wrist, hand, head, face, spinal column and internal organs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1223 - AEROBICS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course will prepare the student to teach various components of aerobic exercise, i.e., Aerobic fitness boxing (Tae Bo), hi-low impact, step aerobics, circuit training, internal bench, water aerobics, and the like. The course will not certify; however, it will prepare the student to obtain certification from national organizations with written and practical exams. There will be mandatory auditions the semester prior to the course being offered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1224 - FITNESS ASSMNT & EXRCS PRESCRP

Minimum Credits: 3
Maximum Credits: 3
Fitness for instructors will teach the student the major elements of fitness. How to assess fitness levels, determine fitness goals, design fitness programs and facilities. The course will be a combination of classroom, exercise, and practical experiences.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1226 - ASSMNT & PRESCRP FOR SP POPLTN

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1231 - THERAPEUTIC MODALITIES/LAB

Minimum Credits: 4
Maximum Credits: 4
The course presents the theoretical basis for use of superficial heat and cold, ultrasound, electrical muscle stimulation, tens, and other current modalities. Laboratory experiences are included in the use of these modalities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1232 - THERAPEUTIC EXERCISE/LAB

Minimum Credits: 4
Maximum Credits: 4
The course includes basic components of a comprehensive rehabilitation program and theory and principles associated with the use of special evaluation/therapeutic exercise techniques. Laboratory experiences include practical use of manual testing techniques, goniometry, and the application of selected types of manual exercises.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade

HPA 1233 - PRIN OF STRENGTH & CONDITNING

Minimum Credits: 2
Maximum Credits: 2
Instruction is provided describing the principles for development of pre-season, in-season and off-season strength and conditioning programs. Laboratory experiences will include the theory and techniques of operating strength training equipment.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1234 - ORTHOPEDIC PROBLEMS

Minimum Credits: 2
Maximum Credits: 2
The course includes common orthopedic problems encountered by the athletic trainer and orthopedic surgeon. Students are exposed to commonly used techniques of primary and reconstructive surgery through lecture, operating room, clinic, and orthopedic rounds experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1235 - COACHNG INTERSCHOLASTIC SPORTS

Minimum Credits: 2
Maximum Credits: 2
This course provides clinical opportunity and research experience at the interscholastic level. The student will visit high schools and junior high schools to obtain information about their specific sport. Information includes: rules, safety, training methods, practice formats and game day preparation with the high school or junior high school coach.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1240 - AEROBICS FOR INSTRUCTORS

Minimum Credits: 2
Maximum Credits: 2
This course will prepare the student to teach various components of aerobic exercise, i.e., Aerobic fitness boxing (Tae Bo), hi-low impact, step aerobics, circuit training, interval bench, water aerobics, and the like. The course will not certify instructors, however, it will prepare the student to obtain certification from national organizations with written and practical exams.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1241 - TEACHING EXPERIENCE 1

Minimum Credits: 1
Maximum Credits: 1
One term clinical teaching experience with an instructor in basic instruction physical education". Responsibilities include: teaching undergraduate students basic skills, physical fitness, and safety."
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1242 - TEACHING EXPERIENCE 2
Minimum Credits: 1
Maximum Credits: 1
One term clinical teaching experience with an instructor in basic instruction physical education". Responsibilities include teaching undergraduate students basic skills, physical fitness, and safety."
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1300 - NUTRITION IN EXERCISE & SPORT
Minimum Credits: 1
Maximum Credits: 1
This course will provide the student with basic nutritional information as it pertains to sport and exercise performance. Topics of discussion include weight reduction and management, nutritional requirements for athletic performance and maintenance of a healthy lifestyle, proper eating habits, diet fads, disordered eating, and supplementation.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1431 - DRUGS, ALCOHOL IN SOCIETY
Minimum Credits: 2
Maximum Credits: 2
This course provides a broad overview of drug and alcohol usage in America. Topics covered include: substance use and abuse pharmacology, prescription and over-the-counter drugs, drunk driving, at-risk populations, athletes, and sexuality. The role of social support, personal responsibility, decision making, assertiveness and self-esteem as prevention strategies are examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1432 - COMMUNITY HEALTH
Minimum Credits: 3
Maximum Credits: 3
This course explores the role of the community in providing a healthy living environment. Topics include environmental protection, effects of cultural and social patterns on health, world health concerns, and health agencies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1433 - INTRO TEACHING H&PE
Minimum Credits: 3
Maximum Credits: 3
A course for prospective teachers of health and physical education. Introduces students to the professional roles and responsibilities of teachers. Includes basic studies of curriculum, instruction, and evaluation. Provides opportunities to observe experienced master teachers at cooperating school sites, practice basic teaching skills in a micro-teaching laboratory, and investigate various socio cultural forces that affect curricular decision making. Also covers persistent issues/problems in school health and physical education.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1485 - NUTRITION AND HEALTH
Minimum Credits: 3
Maximum Credits: 3
Nutrition and energy intake have been linked to health related outcomes. The focus of this course will be on educating students on the basic principles of proper nutrition, and how nutrition plays a role in the prevention and treatment of chronic diseases.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1486 - BEHAVIOR CHANGE STRATEGIES
Minimum Credits: 3
Maximum Credits: 3
This course will focus on behavioral strategies for modifying health related behaviors. Primary focus will be placed on physical activity, eating behaviors, and weight control. Emphasis will be placed on practical application of behavioral principles in health related environments.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1487 - CHRONIC DISEASE AND OBESITY

Minimum Credits: 3
Maximum Credits: 3
This course will focus on treatment approaches to obesity including behavioral, pharmacological, and surgical procedures. This will involve expanding on existing knowledge of energy balance, physical activity, nutrition, and behavior modification. The application of this knowledge will encompass the development of interventions to address the obesity epidemic and provide practical knowledge in this area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1488 - WEIGHT MGT & PHYSICAL ACTIVITY

Minimum Credits: 2
Maximum Credits: 2
This course is designed for students who meet the clinical criteria for being overweight (body mass index > 25 kg/m2) and who desire to lose weight, improve their nutrition, and increase their exercise. This course will combine instruction on behavioral techniques to lose and maintain weight loss along with supervised cardiovascular and resistance exercise. Students will be assessed at the beginning and end of the course to monitor changes in weight, body composition, fitness and other factors.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

HPA 1490 - HLTH & PHYSICAL ED-ELEM SCHLS

Minimum Credits: 1
Maximum Credits: 1
Topics include the importance of elementary school physical education, developmental sequences of motor skills, develop mentally appropriate activities, and development of physical fitness.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1491 - TCH HLTH & WELLNESS ELEM SCHLS

Minimum Credits: 3
Maximum Credits: 3
This class will focus on those factors that affect the health and well-being of children and how teachers may, through their work, promote the health of children both in and outside the educational setting. We will learn the importance of both promoting a healthy lifestyle within the young and the importance of advocating for a healthy environment in which all children and adults may flourish. Students will plan learning activities that will enhance the health knowledge, skills, attitudes and experience of young children.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPA 1995 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
A flexible curriculum oriented to special research topics of interest to faculty or current issues of concern to educators. Focused on areas within either developmental movement and sport studies or exercise physiology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PLAN: Health and Physical Activity (BS)

HPA 1996 - CLINICAL INTERNSHIP

Minimum Credits: 12
Maximum Credits: 12
Supervised clinical experience for the B.S. Degree student. The student is placed in a clinical setting appropriate to his/her degree interests and career goals and must complete a minimum of 25 hours of clinical work per credit hour. Supervision is provided by both a cooperating clinical supervisor and the university clinical advisor.
Academic Career: UGRD
Course Component: Internship
Grade Component: Letter Grade

HPA 1997 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
The student registers for this when the student must maintain active registration and needs to extend work on an uncompleted task or project from a previous term or when preparing for special examinations.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

HPA 1998 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 6
The student proposes and carries out an independent study project under the direction and supervision of an appropriate member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: H/S/U Basis

Health and Rehabilitation Scs

HRS 1000 - INTRODUCTION TO RESEARCH
Minimum Credits: 3
Maximum Credits: 3
The study of the nature of research and the applications of the scientific approach in the research procedures. The course focuses on concepts, design techniques and interpretations, as well as limiting factors and ethical considerations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0010 or 0031 or 0200; PROG: Sch Hlth & Rehabilitation Scs

HRS 1005 - ADMINISTRATION & SUPERVISION
Minimum Credits: 3
Maximum Credits: 3
Discussion of the principles and practice of supervision and administration. Designed to incorporate experience with the responsibilities specific to health professionals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1006 - INTRO TO HUMAN NUTRITION
Minimum Credits: 3
Maximum Credits: 3
This course will cover an overview of the scientific principles of nutrition and application of these principles to humans throughout the life cycle. Major focuses of the course are the classification and function of the six major nutrients, review of current nutrition standards, safety of the food supply, and nutrition misinformation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1008 - APPLC OF STATCL CONCPTS IN HIM
Minimum Credits: 3
Maximum Credits: 3
Designed to present student with the understanding of the research process. Student learns to analyze scientific reports to communicate with statisticians when research problems arise.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1009 - ORGANIZATIONAL THEORY & BEHAVR
Minimum Credits: 3
Maximum Credits: 3
The primary purpose of this course is to facilitate the student's attaining a more comprehensive, integrated and useful understanding of organizational culture, systems and behavior. The overall emphasis will be on formal organizations in both the public and private sector, however, the theory and concepts will be transferable to any type of organization.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PLAN: Clinical Dietetics-Nutrition (BS)

HRS 1017 - INTRO TO EPIDEMIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course will introduce basic concepts of epidemiology for professionals in health and rehabilitation. Descriptive epidemiology, morbidity and mortality studies, and experimental epidemiology will be some of the topics explained and addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1018 - SURVEY HLTH & REHAB PROSSNLS

Minimum Credits: 2
Maximum Credits: 2
An interdisciplinary faculty team will introduce students to health science professions in physical therapy and athletic training, occupational therapy, speech-language pathology and audiology, rehabilitation counseling, health information management, rehabilitation technology, emergency medicine, and disability studies. Classes will feature lectures and hands-on activities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HRS 1020 - ANATOMY AND PHYSIOLOGY

Minimum Credits: 4
Maximum Credits: 4
Introduces the structure of human cells, tissues, organs and organ systems, and functions associated with them. Range of topics extends from gross anatomical features to considerations of chemical processes that serve as the basis for cellular controls, gene expression and energy metabolism. Emphasis on relationship of structure to function and on understanding how structural or functional disturbances can become the basis for disease processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1022 - HUMAN ANATOMY

Minimum Credits: 4
Maximum Credits: 4
The musculoskeletal and peripheral nervous systems are studied in-depth; attention is also given to the cardiopulmonary system. Learning is facilitated through directed laboratory experience using prosecuted cadavers, skeletal materials and models, and audiovisual tapes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1023 - HUMAN PHYSIOLOGY

Minimum Credits: 4
Maximum Credits: 4
This course has been designed in an effort to provide pre-clinical students with a foundational scientific knowledge base and conceptual understanding of physiological processes. Each organ system, and its contribution to the maintenance of homeostasis, will be discussed. Further, the essential components of each system will be explored, to the extent that life is supported. Some disease states will be discussed, in order to exhibit certain processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Clinical Dietetics-Nutrition(BS or BSH or BPH)

HRS 1024 - INTRO TO NEUROSCIENCES

Minimum Credits: 4
Maximum Credits: 4
Considers gross and cellular organization of central nervous system and its relationship to peripheral somatic and visceral systems; the physiological properties of neurons, their associated structures; and the problem mechanisms for reception, transmission, and integration of information at spinal, supraspinal, and cortical levels. Concepts of normal sensory-motor integration, to include influence of neural centers on motor activity and postural control, and clinical manifestations of dysfunctions of major neural elements will be discussed.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1025 - INTRODUCTION TO MICROBIOLOGY

Minimum Credits: 3
Maximum Credits: 3
An overview of medical microbiology introduces the student to medically important bacteria, fungi, viruses, parasites and to immunity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1026 - PATHOPHYSIOLOGY (HRS)

Minimum Credits: 4
Maximum Credits: 4
This course will consider the causes of diseases generally, as well as, specific common diseases that occur in the various systems of the human body.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1027 - PATHOPHYSIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide a general overview of the predisposing factors and direct causes of disease, as well as their effects on the human body. It will also include a systemic approach to the basic disease processes, in terms of etiology, symptomatology, general pathological changes, diagnostic procedures, and types of treatment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1052 - TOPICS IN CLINICAL PSYCHOLOGY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: Sch Hlth & Rehabilitation Scs

HRS 1095 - COMMUNITY CONNECTOR COURSE

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1099 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Provides advanced students an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

HRS 1102 - EMERGENCY MEDICAL TECHNICIAN

Minimum Credits: 4
Maximum Credits: 4
This course provides the students with the cognitive know ledge and values to develop as an emergency medical professional at the basic life support level. This course meets all of the minimum training requirements as established by the U.S. Department of transportation in the EMT-basic; national standard curriculum. Course provides the student with the opportunity to develop basic life support psycho motor skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1421 - SECURITY, PRIVACY & LGL ISSUES

Minimum Credits: 3
Maximum Credits: 3
Students in this course will explore legal, security, and privacy issues related to health information systems. Data availability, integrity and confidentiality of databases and networks, computer security, public key infrastructure, encryption/decryption techniques, and data recovery will be addressed as well as risk assessment, security policies, hippa, privacy, applicable health laws, and ethical issues in the management of health information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1422 - COMPUTER PRGMG HLTH INFRMTCS

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce advanced computer programming technologies. The course will provide students with skills of solving real health informatics problems using computer programs. This course is not designed as first computer programming class. The instructor assumes that students have taken and are familiar with one or a few programming languages (such as basic, c/c++, java, c#, perl, python, ruby) prior to taking this class. One or multiple programming languages may be used in this class to solve health informatics problems. This course is hands-on and project-oriented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1424 - DATA BASE MANAGEMENT HLTH CARE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1425 - GENOMICS AND PERSONALIZED CARE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1490 - ELECTRONIC HEALTH RECORD TECHN

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (HIM-BS)

HRS 1700 - COLL ACHIEV & CARR PREP SEM

Minimum Credits: 1
Maximum Credits: 1
This course will focus on career development and job-placement theories, legislation, constructs, and research for persons with disabilities. Through this lens, the course will cover the history of and current practices related to self-advocacy, success strategies, and rights and responsibilities of persons with disabilities. The course will cover time management and goal setting, development of an individual educational plan and identification of services and programs that will lead to college success, and career planning including job-search and employer-negotiation strategies and identification of community, state, and national resources of employment assistance. Using enablement and disablement models, leaders in the disability community will be invited to discuss their career pathways. The course will specifically focus on occupational and labor market information related to assistive technology and related health science and engineering. This course may be of interest to students with disabilities; students pursuing careers related to disability support, policy, or legislation; special education; and vocational/rehabilitation counseling.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HRS 1701 - INTRO ORTHOTICS & PROSTHETICS

Minimum Credits: 2
Maximum Credits: 2

This will be a lecture, seminar, and laboratory course introducing some of the applied science and clinical aspects of the orthotics and prosthetics professions. Topics include: an overview of the profession; introduction to some basic anatomy, kinesiology and biomechanics related to orthotics and prosthetics; some pathologies, disabilities, injuries treated with orthoses or prostheses; introduction to patient evaluation and measurement; and introduction to fabrication of custom orthotics and prosthetics, using laboratory equipment. The course will be taught using hypothetical or actual case studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1704 - INTRO TO ASSISTIVE TECHNOLOGY

Minimum Credits: 3
Maximum Credits: 3
Introduction to fundamental principles and practices related to multiple areas of assistive technology. Technology areas include: seating and wheelchair mobility, augmentative communication, environmental control, computer access, transportation safety, prosthetics, worksite ergonomics, and man/ machine modeling. In addition, common terminology, disability ethics and models of service delivery related to assitive technology are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1706 - INTRO REHAB ENGR DESIGNS

Minimum Credits: 4
Maximum Credits: 4
Material at introductory graduate level. Fundamentals of biomechanics with specific application to rehabilitation. Basic mechanics (newton's laws, statics, dynamics) and vector algebra (forces, moments, equilibrium) will form the first part of the course. The middle section focuses on kinematics and kinetics applied to biomechanics. The final section examines work/energy methods and stress/strain problems. Sets are assigned regularly and there are lab exercises/demonstrations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1709 - DSGN/FABRICATION ENGR MATLS

Minimum Credits: 1
Maximum Credits: 1
Course designed to teach students basic skills of designing and fabricating mechanical mechanisms and components. Solely lab based and will use learn by doing" approach. Students gain experience working with engineering materials such as wood, plastics, aluminum, brass and steel. Fabrication techniques of turning, milling, cutting, drilling, tap ping and welding will be used. Participate in the design and fabrication of various devices with increasing complexity. Shop safety, tool section, and equipment maintenance will be an important component of the course."
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: H/S/U Basis
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1710 - INTRO TO REHABILITATION ENGR

Minimum Credits: 3
Maximum Credits: 3
Course geared towards junior/senior students who have a working knowledge of engineering concepts and how these concepts relate to rehabilitation engineering. Specific topics to be covered are analysis/design of sensory aids for vision and hearing, theory of electrical nerves stimulation, accessible accommodations design, analysis/design of prosthetics, biomechanics of wheelchair propulsion, ethical considerations of designing technology and solutions appropriate for people with disabilities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: School of Health and Rehabilitation Sciences students only.

HRS 1718 - PROJ BASED TECHNLGY DESIGN

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HRS 1730 - INTRO TO REHAB COUNSELING

Minimum Credits: 3
Maximum Credits: 3
Introduction to the profession and practice of rehabilitation counseling

Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HRS 1732 - COMMUNITY REHAB PROGRAMS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HRS 1746 - FLD STUDY IN REHAB COUNSELING
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PREQ: HRS 1730 or HRS 1732; MIN GRADE: 'C-' for listed Courses

Health Information Management

HIM 1405 - MEDL TRMNLGY PHCOL PATHPHYLGY
Minimum Credits: 1
Maximum Credits: 1
This course is a basic study of the professional language of medicine. It is designed to include word construction, pronunciation, spelling, definition, and use of terms related to all areas of medical science, hospital service, and health related professions. This ONLINE course is designed to give the student a knowledge of words frequently used in the medical field and provides examples through the review of basic anatomy, physiology, surgical procedures, diagnostic procedures, and symptomatology. Coverage of the pathology of each body system is will take place along with an introduction to pharmacology, and the pharmacological treatment of frequently occurring conditions of each body system.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1406 - DATABASE MGT AND ANALYTICS
Minimum Credits: 2
Maximum Credits: 2
The major emphasis of this course is to teach students the process of transferring data into information. This is achieved through a study of database theory, analysis and design, and the teaching of skills in database management systems in the health information environment. Other software tools will be presented in this course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1407; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1407 - DATABASE MGT & ANALYTICS LAB
Minimum Credits: 1
Maximum Credits: 1
Students will work extensively with Microsoft Excel, Access, and SQL to gain practical experience in design and implementation of databases. Students will also learn important business/consulting skills that include presenting data as information, writing, executive summaries, preparing professional reports that highlight data findings.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1406; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1415 - INTRO HEALTH INFOR & HLTH CARE
Minimum Credits: 3
Maximum Credits: 3
An introduction to Health Information Management and the historical development of the health care field with emphasis on the organizational structure of health institutions, as well as federal, state, and local agencies and allied health associations. Student will be introduced to Health Information Management operations and key functions, with an overview of the American Health Information Management Association (AHIMA). Emphasis will be placed on the use of technology in health care, Electronic Health Record, and data quality. An in-depth look at privacy, confidentiality and security will occur.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1416; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1416 - INTRO HEALTH INFOR LAB 1

Minimum Credits: 1
Maximum Credits: 1
The laboratory experience provides students with hands-on opportunities to apply the theory and concepts of health information. The content, format, purpose, confidentiality, adherence to regulations/standards and technology applications for health information will be emphasized. Laboratory activities, group discussions, and case studies will supplement basic instructions.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1415; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1420 - ORGANIZATIONAL THEORY & BEHAVR

Minimum Credits: 3
Maximum Credits: 3
The primary purpose of the course is to facilitate the student in attaining a better, i.e., more comprehensive, well integrated and more useful, understanding of the organizations in which she/he will be spending considerable time and energy for her/his career. The emphasis will be on formal organizations both in health care and other sectors of the economy. Models and concepts developed within the closely related disciplines of organization theory and organization behavior will be addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BS)

HIM 1435 - CLASSIFICATION SYMS HEALTH CRE

Minimum Credits: 3
Maximum Credits: 3
An introduction to the principles of taxonomy, purposes of classifying diseases and operations. An in-depth study of ICD-10-CM, ICD-10-PCS and CPT-4 will be undertaken along with a summary review of ICD-9-CM. The interaction of Diagnosis Related Groups (DRG's) with classification systems will be emphasized. Data quality, the Uniform Hospital Discharge Data Set as well as coding/sequencing guidelines for both inpatient and outpatient coding will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: 1436 and 1438 and 1440; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1436 - CLASSIFICATION SYSTEMS LAB 2

Minimum Credits: 2
Maximum Credits: 2
This course is designed to provide students with practical experience in the design, development, performance and administration of various types of research databases. Primary focus is the organizational and operational functions of a cancer registry. Medical management of patient, physiology of disease process methodology used in evaluation extent of disease and assessing outcome through patient follow-up, use of ICD-O classification system is presented. Impact of data quality and availability in relation to utilization of the registry is stressed.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: 1435 and 1438 and 1440; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1438 - CANCER REGISTRY THRY & PRA LAB

Minimum Credits: 2
Maximum Credits: 2
Designed to provide students with practical experience in the design, development, performance and administration of various types of research databases. Primary focus is the organizational and operational functions of a cancer registry. Medical management of patient, physiology of disease process methodology used in evaluation extent of disease and assessing outcome through patient follow-up, use of ICD-O classification system is presented. Impact of data quality and availability in relation to utilization of the registry is stressed.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1435 and HIM 1436; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1440 - HIM CLINICAL EDUCATION 1

Minimum Credits: 2
Maximum Credits: 2
Designed to provide students with practical experience in the design, development, performance and administration of various types of research

databases. Primary focus is the organizational and operational functions of a cancer registry. Medical management of patient, physiology of disease process methodology used in evaluation extent of disease and assessing outcome through patient follow-up, use of ICD-O classification system is presented. Impact of data quality and availability in relation to utilization of the registry is stressed.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: 1435 and 1436; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1442 - APPLC OF STATCL CONCPTS IN HIM

Minimum Credits: 3
Maximum Credits: 3
Designed to provide students with a practical understanding of the use of statistics in health information management (HIM). This course will focus on management and organization of health information data and the appropriateness of using specific statistical techniques with data. Descriptive statistics, inferential statistics, and non-parametric methods will be discussed and utilized with HIM data or concepts. Database development, research articles and projects will be used to learn the meaning of statistics and its use in the field of HIM.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1445 - HUMAN RELATIONS IN HLTH CARE

Minimum Credits: 2
Maximum Credits: 2
This course discuses principles of effective communication and interpersonal relationships. Course material will include information concerning communication skills, group therapy, diversity, conflict management, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1455 - QUALITY MANAGEMENT

Minimum Credits: 2
Maximum Credits: 2
This course focuses on principles and approaches to assessment of quality in health care and how this impacts the role of the health information manager. Theoretical and pragmatic issues related to quality management, utilization review, and risk management is addressed. Responsibilities of the governing board, medical staff and other health care personnel in relation to quality management and improvement is examined. Requirements of accrediting and licensing agencies related to quality management are presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1456; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1456 - QUALITY MANAGEMENT LAB

Minimum Credits: 1
Maximum Credits: 1
This quality management laboratory focuses on the practical applications of managing the quality of health care, resource use, and risk. Students will design, implement, and present a quality management project at designated clinical facilities. Also, several in-class/online assignments will be required.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: CREQ: HIM 1455; PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1460 - HIM CLINICAL EDUCATION 2

Minimum Credits: 1
Maximum Credits: 1
Practice and introduction to areas of impact for health information: revenue cycle management, quality assessment, case and care management, data analysis and business intelligence and information security areas.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H); PREQ: 1455 and 1456; CREQ: 1465

HIM 1462 - EPIDEMIOLOGY

Minimum Credits: 2
Maximum Credits: 2

This course is an introductory course in epidemiology and epidemiologic methodology for the HIM student. It includes types and purposes of epidemiology, measures of risk, and sources of data. There will be an emphasis on epidemiological student designs related to HIM and Health Informatics. Students will design an epidemiological research proposal as part of the course requirements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1465 - REIMBURSEMENT SEMINAR

Minimum Credits: 1
Maximum Credits: 1
An introduction to topics relating to reimbursement in the health care environment. The course will build on topics covered in Classification Systems including the role of coding in reimbursement and minimizing health care fraud. Additional areas include payment methodologies, revenue, and payment cycle management, claims audits, compliance, value-based purchasing and outpatient prospective payment systems. Clinical Documentation Improvement Programs and the increased use of CAC programs will also be explored.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1470 - SUPERVISION HUMAN RESOURCES HC

Minimum Credits: 3
Maximum Credits: 3
This course discusses the principles and methods practiced in human resource management in the health care environment. The role of the supervisor is emphasized, and practical applications in con junction with theory are presented to the student.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H); PREQ: 1420

HIM 1475 - HIM NON-TRADITIONAL SETTING

Minimum Credits: 3
Maximum Credits: 3
An overview of health information systems in community-based facilities emphasizing information requirements of ambulatory-care centers, behavioral health, substance abuse, rehabilitation, emergency medicine, occupational health, long-term care, sub-acute care, home health care, hospice, dialysis, managed care, correctional facilities, dental care, and veterinary care settings. The role of the health information manager as a consultant in these settings is discussed. HIM consultants/professionals in these areas are invited to lecture as guest speakers from each of these settings. A 20-hour project is a major component and entails having the student conduct the project as a consultant in one of the health care areas listed above.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H); CREQ: 1480

HIM 1480 - HIM CLINICAL EDUCATION 3

Minimum Credits: 2
Maximum Credits: 2
This clinical education experience provides students the opportunity to observe and participate in health information management activities in a variety of non-acute settings such as long-term care, ambulatory care, behavioral health, rehabilitation, home health, outsourcing companies, IT departments, and telemedicine.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H); CREQ: 1475

HIM 1482 - LEGAL ASPECTS OF HEALTH CARE

Minimum Credits: 2
Maximum Credits: 2
This course discusses principles of hospital law and aspects of hand ling confidential and health records information. Actual cases and statutes are discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1485 - SYSTEMS ANALYSIS IN HLTH CARE

Minimum Credits: 3
Maximum Credits: 3
The presentation of concepts of systems analysis and their relationship to health record management is a major emphasis of this course. Case problems and individual projects from health-care settings are assigned to develop proficiency.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1486 - FINANCIAL MANAGEMENT FOR HIM

Minimum Credits: 2
Maximum Credits: 2
This course is designed as an intro level course to principles, concepts and issues of financial management in a health care organization. Focus on financial management viewed from the perspective of department/credit manager and supervisor. Institution-wide accounting and budgeting systems are discussed primarily as a framework for understanding how financial re porting, planning and control is linked to organizational effectiveness and how financial management responsibilities of the departmental manager relate to organization-level financial goals.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1490 - ELECTRONIC HEALTH RECORDS

Minimum Credits: 3
Maximum Credits: 3
This course addresses theoretical and pragmatic issues related to EHR technology, such as design and development, standards and clinical terminologies, privacy and security issues, model EHR systems, evaluation of EHR software systems, and outcomes research using the EHR will be addressed. The responsibilities of the health information management professional, as well as the requirements of accrediting and licensing agencies related to EHR, will also be discussed. The responsibilities and involvement of various members of the health care team in the development, use, evaluation, and dissemination of EHR technology will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1495 - HIM CLINICAL EDUCATION 4

Minimum Credits: 4
Maximum Credits: 4
This clinical experience involves a six-week clinical affiliation at contracted health care sites or health-related organizations under the supervision of qualified practitioners or health information management professionals. Student assignments are structured to provide actual experiences in the administrative, managerial, technical and project-oriented areas of health information management, such as electronic health records development and training, project management, systems analysis, human resource management, health information systems, database management, and other similar experiences.
Academic Career: UGRD
Course Component: Clinical
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1496 - CAPSTONE COURSE IN HIM

Minimum Credits: 3
Maximum Credits: 3
This is the final capstone course where the faculty will assess students' attainment of all the required professional competencies in health information management (HIM). This will be determined by completing the senior project, an independent project in which the student serves as a consultant to a particular health care facility in order to solve a problem. It will also be determined by completing a poster presentation of the senior project, the study preparation, taking both a mock exam developed by the HIM department based upon its curriculum and taking an entry-level nationally validated exam administered by AHIMA.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade
Course Requirements: PLAN: Health Information Management (BPH or BS or BS-H)

HIM 1499 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
Provides student an opportunity to explore in depth an area of particular interest to them. It is the student's responsibility to find a faculty member willing to undertake such a tutorial.
Academic Career: UGRD

Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

Hispanic Languages & Literatures

PORT 0001 - ELEMENTARY PORTUGUESE 1

Minimum Credits: 5
Maximum Credits: 5
Basic elements of Brazilian Portuguese emphasizing a development of speaking, reading and writing skills. Introductory course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 0002 - ELEMENTARY PORTUGUESE 2

Minimum Credits: 5
Maximum Credits: 5
The second half of this introductory course continues to develop skills in the speaking, reading and writing of Portuguese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0001 or PORT 1001 (MIN GRADE 'C' for Listed Courses)

PORT 0003 - INTERMEDIATE PORTUGUESE 3

Minimum Credits: 3
Maximum Credits: 3
A continuation of the development of conversational as well as writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0002 or PORT 1002 or PORT 1010 (MIN GRADE 'C' for Listed Courses)

PORT 0004 - INTERMEDIATE PORTUGUESE 4

Minimum Credits: 3
Maximum Credits: 3
Follows PORT 0003. A consolidation of speaking, reading and writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0003 or PORT 1003 (MIN GRADE 'C' for Listed Courses)

PORT 0005 - INTENSIVE PORTUGUESE

Minimum Credits: 6
Maximum Credits: 6
An accelerated course that presents the material of both PORT 0001 and PORT 0002, the two elementary offerings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 0020 - CONVERSATION

Minimum Credits: 3
Maximum Credits: 3
An intermediate course in Portuguese conversation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0004 or PORT 1004 (MIN GRADE 'C' for Listed Courses)

PORT 0025 - GRAMMAR AND COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
An intermediate course in grammar and composition for those who have completed PORT 0004 or the equivalent.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0004 or PORT 1004 (MIN GRADE 'C' for Listed Courses)

PORT 0051 - BRAZILIAN CIVILIZATION
Minimum Credits: 3
Maximum Credits: 3
A general course on selected aspects of Brazilian civilization and culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1001 - ELEMENTARY PORTUGUESE 1
Minimum Credits: 5
Maximum Credits: 5
Basic elements of Brazilian Portuguese emphasizing a development of speaking, reading and writing skills. Introductory course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: MIN CUM GPA: 2.0

PORT 1002 - ELEMENTARY PORTUGUESE 2
Minimum Credits: 5
Maximum Credits: 5
The second half of this introductory course continues to develop skills in the speaking, reading and writing of Portuguese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0001 or PORT 1001; MIN GRADE: 'C' FOR ALL LISTED COURSES

PORT 1003 - INTERMEDIATE PORTUGUESE 3
Minimum Credits: 3
Maximum Credits: 3
A continuation of the development of conversational as well as writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0002 or PORT 1002 or PORT 1010; MIN GRADE: 'C' FOR ALL LISTED COURSES

PORT 1004 - INTERMEDIATE PORTUGUESE 4
Minimum Credits: 3
Maximum Credits: 3
Follows PORT 1003. Consolidation of speaking, reading and writing skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: PORT 0003 or PORT 1003; MIN GRADE: 'C' FOR ALL LISTED COURSES

PORT 1005 - INTENSIVE PORTUGUESE
Minimum Credits: 6
Maximum Credits: 6
An accelerated course that presents the material of both PORT 0001 and PORT 0002, the two elementary offerings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1010 - PORT FOR SPANISH SPEAKERS 1
Minimum Credits: 3
Maximum Credits: 3
Portuguese for Spanish speakers is designed as an accelerated introductory course for native speakers of Spanish or English speakers with fluency in Spanish. It will be the equivalent of PORT 0001/PORT 1001 and PORT 0002/PORT 1002. This course concentrates on aspects of the Portuguese language that are most difficult for Spanish speakers, such as pronunciation, vocabulary, idioms and grammatical structures particular to Portuguese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1031 - ELEM PORTUGUESE 1 FOR MBAS
Minimum Credits: 2
Maximum Credits: 2

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1032 - ELEM PORTUGUESE 2 FOR MBAS

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1052 - LUSO-BRAZILIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course studies various Portuguese or Brazilian literary topics according to the needs and interests of the students. Taught in Portuguese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

PORT 1053 - LUSO-BRAZILIAN TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with literary, linguistic or cultural topics, or a combination of these, relating to Portugal, brazil or other Portuguese speaking areas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1054 - MACHADO DE ASSIS

Minimum Credits: 3
Maximum Credits: 3
This course is a survey of the works of Brazilian novelist, poet, playwright, short story writer Machado de Assis
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1060 - SURVEY OF PORTUGUESE LITRATUR

Minimum Credits: 3
Maximum Credits: 3
A general overview of Portuguese literature from the period of colonization to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1061 - SURVEY OF BRAZILIAN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
A general overview of Brazilian literature from the middle ages to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

PORT 1902 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
This course allows students to work in depth in areas of their choice, with the approval and supervision of a faculty member, who meets regularly with the student. Evaluation is by examination or by the production of a term paper or series of papers.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SPAN 0001 - ELEMENTARY SPANISH 1

Minimum Credits: 5
Maximum Credits: 5
This course is designed to develop the student's communicative proficiency through an integrated approach to the teaching of all four language skills: listening, speaking, reading and writing. Grammatical structures; vocabulary and readings are presented as tools for developing good communication

skills. The course also aims to foster cultural awareness of the Spanish-speaking world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0002 - ELEMENTARY SPANISH 2

Minimum Credits: 5
Maximum Credits: 5
A continuation of SPAN 0001, the course builds on the skills acquired in the first term as students continue to develop their communicative language skills in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0001 (MIN GRADE 'C')

SPAN 0003 - INTERMEDIATE SPANISH 3

Minimum Credits: 3
Maximum Credits: 3
This course builds on the skills acquired during the elementary sequence (either SPAN 0001 and SPAN 0002 or SPAN 0015). It includes a functional review of the basic language structures and introduces even more complex structures. The course has a strong cultural component.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0002 or SPAN 0015 (MIN GRADE 'C' for Listed Courses) or Spanish Placement Test Score equal/greater 3

SPAN 0004 - INTERMEDIATE SPANISH 4

Minimum Credits: 3
Maximum Credits: 3
A continuation of SPAN 0003. Students continue to refine their language abilities and enhance their communicative competence. The course has a strong cultural component.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0003 (MIN GRADE 'C') or Spanish Placement Test Score equal/greater 4

SPAN 0007 - ELEMENTARY SPANISH FOR READING

Minimum Credits: 3
Maximum Credits: 3
This is an introductory, independent course, primarily for graduate students who need to quickly acquire the basic vocabulary and grammar of written Spanish. Tapes are available for those who wish to practice the oral skills. Students begin to read increasingly more demanding passages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0008 - INTERMEDIATE SPANISH READINGS

Minimum Credits: 3
Maximum Credits: 3
This is an independent study course, primarily for graduate students who wish to advance their reading skills in Spanish while reading increasingly more advanced materials. Students concentrate on language structures and vocabulary. A knowledge of the basic grammar is prerequisite.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0015 - INTENSIVE ELEMENTARY SPANISH

Minimum Credits: 5
Maximum Credits: 5
This is a condensed version of the first two courses of the Spanish language program (SPAN 0001 and SPAN 0002), and it has been designed for students who have taken at lEast two years of high school Spanish or its equivalent. Spanish 0015 follows a communicative approach: from the first day of class you will interact in Spanish in a meaningful context with your instructor and classmates. By the end of this course you will have a general knowledge of the grammar of the Spanish language and you will be able to communicate effectively in Spanish according to this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0020 - CONVERSATION

Minimum Credits: 3
Maximum Credits: 3
The goal of this fifth-semester course is to enhance fluency and the development of oral proficiency in Spanish. Although the emphasis is on speaking and listening skills, reading and writing assignments are an important part of the syllabus. This course helps students to improve their fluency, pronunciation, and strategic competence such as paraphrasing skills, and increases their vocabulary through readings, films, digital recordings and other authentic materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0004 (MIN GRADE 'B+') or Spanish Placement Test Score equal/greater 20

SPAN 0025 - GRAMMAR AND COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This course reviews Spanish grammar, and, in addition, is designed to aid the students in vocabulary building, improving their knowledge of idiomatic usage, and their ability to translate from English to Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0004 (MIN GRADE 'B+') or Spanish Placement Test Score equal/greater 20

SPAN 0050 - SPANISH CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
Span 0050 offers a comprehensive survey of Spanish history and civilization from the early prehistory period to the present. Readings and lectures are in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: [PREQ: SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA or BPH)] or [CREQ: SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (MN)]

SPAN 0051 - LATIN AMERICAN CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
Readings, lectures, films and class discussions in Spanish on the historical development of Latin American civilization and its major social, economic and cultural features.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 0055 - INTRO HISPANIC LITERATURE 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to the study of Spanish and Latin American literatures, while dealing with concepts and terms that can be applied to all literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses)

SPAN 0082 - LATIN AMERICA TODAY

Minimum Credits: 3
Maximum Credits: 3
This course is an overview of contemporary Latin America and its people and is designed to be an introduction for students who have no previous knowledge of the area. Students will be exposed to several aspects of Latin America. A special attempt will be made to show contemporary social reality as interpreted by some of the region's most gifted writers. In English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1020 - ADVANCED CONVERSATION

Minimum Credits: 3
Maximum Credits: 3
This course develops advanced oral skills in small class groups. Students work to build vocabulary and gain a control of the essential structures. Both Spanish majors and non-majors who wish to improve their fluency enroll in this course.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1025 - ADVANCED GRAMMAR

Minimum Credits: 3
Maximum Credits: 3
An advanced study of Spanish grammar designed for students who have already taken SPAN 0025 or equivalent knowledge. While the emphasis is on practical usage, theoretical aspects of the finer points of syntax will also be considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1031 - ELEMENTARY SPANISH 1 FOR MBAS

Minimum Credits: 2
Maximum Credits: 2
This is an introductory conversational course specifically designed for business students who do not know Spanish. The student will be presented with the basic structures of the language, as well as the necessary vocabulary to be able to understand simple Spanish and converse on everyday ("survival skills") topics. The course, conducted in Spanish, will be relatively fast-paced, and will require students to participate actively in a variety of exercises, group activities, and exchange of information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1032 - ELEMENTARY SPANISH 2 FOR MBAS

Minimum Credits: 2
Maximum Credits: 2
Spanish 0032, designed specifically for business majors, is a continuation of 0031 at the elementary level. Emphasis is on improving listening and speaking skills, with consider able in-class conversational practice. New grammatical structures and increased vocabulary are introduced. Limited business language will be included, along with selected cultural information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1090 - INTRO TO TRANSLATION STUDIES 1

Minimum Credits: 3
Maximum Credits: 3
This course serves as a foundation course for the professional translation certificate program, and for related fields. It deals with translation theory and the general problematics of the translation process, providing a theoretical framework for translation and systematically linking theory and practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1191 - LITERARY TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course is intended to develop translating skills in other than legal, business or industrial uses of Spanish, namely the language of literary (including scholarly and critical), journalistic and advertising texts. It involves the discussion of translation problems and the ways to solve (or circumvent) them through the actual task of translating selected passages from fiction, poetry, plays, articles and publicity blurbs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1192 - TOPICS IN TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course will deal in depth with specific techniques and procedures for translating specific types of material, including literary, technical and scientific texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1195 - SPAN PROFESSNAL TRANSLATION 1

Minimum Credits: 3
Maximum Credits: 3

The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under "on the job" situations. Emphasis is on practical translation skills, introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial and technical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1196 - SPAN PROFESSNAL TRANSLATION 2

Minimum Credits: 3
Maximum Credits: 3
The course is intended for those translators in training who want to gain experience in translating the types of material professional translators handle under "on the job" situations. Emphasis is on practical translation skills, introducing basic principles, pertinent technical terminology, and idiomatic expressions as they occur in original commercial and technical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1240 - LANGUAGE AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
This course explores some of the ways in which linguistic science can shed light on the use and misuse of language in the legal system. After an introduction to the origins and special characteristics of written English legal language ("legalese"), we will study the layman's (non-) understanding of technical legal language; the language of persuasion (e.g. exploitation of such linguistic features of ambiguity, implicit "rules of conversation" and socially stigmatized dialect features); and arguments for and against the participation of linguists as expert witnesses in the courtroom.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1250 - HISPANIC CIVILIZATIONS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: [PREQ: SPAN 0020 and SPAN 0025 (Min Grade 'C') PLAN: Spanish BA or BPH] or [PREQ: SPAN 0020 or SPAN 0025 (Min Grade 'C'); PLAN: SPAN MN] or CREQ: SPAN 0020 or SPAN 0025 (Min Grade 'C'); PLAN: All other students]

SPAN 1255 - INT TO HISP LITRY & CLTL CRITM

Minimum Credits: 3
Maximum Credits: 3
Introduction to hispanic literary and cultural criticism
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1260 - OVERVIEW OF SPANISH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Overview of Spanish literature
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0055 (Min Grade 'C')

SPAN 1280 - OVERVIEW OF LATIN AMERICAN LIT

Minimum Credits: 3
Maximum Credits: 3
Overview of Latin American literature
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0055 (Min Grade 'C')

SPAN 1300 - SPANISH PHONETICS & PHONEMICS

Minimum Credits: 3
Maximum Credits: 3

This course is an introduction to the study and practice of the sounds of Spanish. The overall objective of this course is to understand the sound system of Spanish as compared to English. Successful students will develop good auditory perception of Spanish and awareness of their own pronunciation, which could help to improve it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1301 - STRUCTURE OF MODERN SPANISH

Minimum Credits: 3
Maximum Credits: 3
This course teaches the structure of the Spanish language, including components which address Spanish phonology, morphology and syntax.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1302 - ADV COMPOSITION AND STYLISTICS

Minimum Credits: 3
Maximum Credits: 3
This writing course builds upon the student's knowledge of Spanish grammar and composition. In particular attention will be given to the many syntactical and lexical usages that the foreign language learner needs to incorporate in advanced writing. The teacher will help the student improve and polish his/her individual style, with some imitation of literary models.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1303 - SEMINAR IN LANGUAGE & CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course will deal in depth with various cultural and linguistic topics.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA); LVL: Sr

SPAN 1304 - METHODS OF TEACHING SPANISH

Minimum Credits: 3
Maximum Credits: 3
A course designed for those who plan to teach Spanish. Main focus is on practical information of how best (method and technique) to teach the language. Topics include: theory of learning, approaches, activities, dialogs and drills, the role of grammar, the lab, testing, vocabulary, and the like. Practice teaching, including videotaping.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1305 - SPANISH APPLIED LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
A thorough analysis of the linguistic problems in teaching Spanish to speakers of English. Particular emphasis on problems of interference by transfer from the native to the target language, using contrastive analysis as a method of problem solving. Study of phonology and grammar, with attention also to certain techniques in foreign language teaching. Included is a brief survey of the teaching of Spanish in the United States and elsewhere.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses)

SPAN 1306 - SPEC TOPICS APPLD LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3

The goal of this course is to further develop the oral proficiency of students through authentic materials including but not limited to interviews, movies, music, newspaper articles and role-playing. Emphasis on fluency and speaking skills, although reading and writing skills will not be ignored. We will review certain grammar points but communicative competence is not measured by grammatical competence alone. Pronunciation, comprehension skills, strategic competence such as paraphrasing skills, and an extensive active vocabulary are all equally important when it comes to becoming proficient in a foreign language. Students will often work in groups and pairs so it is imperative that they be willing to interact with one another and be tolerant of one another's opinions. The instructor will rate students' oral proficiency at the beginning and end of the semester based on the ACTFL speaking proficiency guidelines. These guidelines are used nation-wide as an assessment tool to identify an individual's level of speaking competence in a foreign language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1307 - APPLIED SOCIO PRAGMATICS

Minimum Credits: 3
Maximum Credits: 3
This course concentrates on the aspects of second-language acquisition that are typically overlooked in foreign language classes, a knowledge of which is crucial, if students are trying to become native-like in their mastery of the second language. The course focuses on 1) intercultural communication, 2) cross-cultural speech acts (e.g., requests apologies, compliments), 3) politeness phenomena, 4) nonverbal communication (e.g. gesture, proxemics, gaze), 5) discourse in second language acquisition, 6) interlanguage, 7) special jargons (legal, medical, business).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1309 - HISTORY OF THE LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course will trace the development of the Spanish language from its earliest stages to its modern form. Though selected Latin examples will be included, a working knowledge of Latin will not be needed. Primary emphasis will be placed on the evolution of the phonological and grammatical components, but some semantic considerations will also be included. The class will look at several early Spanish texts in order to identify samples of the diachronic linguistic changes at work. This course is intended for advanced Spanish students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1310 - LINGUISTIC SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course allows students to work on various linguistic topics in depth; these may be theoretical or applied in nature. Students are expected to do original research and to present it both orally in class and as a written research document. Taught in Spanish.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1315 - BUSINESS SPANISH

Minimum Credits: 3
Maximum Credits: 3
This course offers students a linguistic and cultural background enabling them to conduct basic commercial transactions in the Spanish-speaking world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses)

SPAN 1321 - BUSINESS SPANISH 1

Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint students with the essential forms and documents utilized in the Spanish business world.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1323 - MEDICAL SPANISH

Minimum Credits: 3
Maximum Credits: 3
This course is intended for translators in training who desire experience in translating the types of medical documents professional translators handle "on-the-job". Course emphasizes acquisition of practical translation skills, and introduces basic medical principles and terminology, as they are used in medical texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses)

SPAN 1325 - LEGAL SPANISH

Minimum Credits: 3
Maximum Credits: 3
This is a course for students who desire experience in translating legal documents from Spanish to the equivalent English forms. The course emphasizes both the theoretical knowledge of basic legal principles and terminology and the acquisition of advanced skills in the translation of legal texts. Documents for translation--drawn from business, corporate and commercial fields--include power of attorney, leases, insurance policies, legislation, contracts, by-laws, articles of incorporation, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [SPAN 0020 and SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (BA, BPH)] or [SPAN 0020 or SPAN 0025 (MIN GRADE 'C' for Listed Courses) PLAN: Spanish (MN)]

SPAN 1400 - SURVEY LATIN AMERCN LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the development of Latin American literature from the Cronistas to the present. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0055 (MIN GRADE 'C')

SPAN 1401 - PRE-COLUMBN LITERATURE & CULT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the literatures of the Mayan, Aztec and Quechuan regions, with emphasis on basic symbolism in mythology and religious poetry, and mythological aspects of pre-Columbian art, architecture and the painted codices.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1402 - DISCOVERY AND CONQUEST

Minimum Credits: 3
Maximum Credits: 3
This course offers an introductory survey of the Spanish and Latin American literature of the sixteenth and early seventeenth centuries through some of the main texts of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1403 - LATIN AMERICAN NARRATIVE

Minimum Credits: 3
Maximum Credits: 3
This course deals with the development of Latin American prose narrative as it moves from 19th century realism and naturalism in the direction of modernista and vanguardista innovations, culminating in the narrative of the boom and the post-boom. Taught in Spanish.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1260 or SPAN 1280 or SPAN 1400 or SPAN 1600) and (SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses; PLAN: Spanish (BA, BPH)] or [SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses) and PLAN: Spanish (MN)]

SPAN 1404 - LATIN AMERICAN TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course deals with literary, linguistic or cultural topics, or a combination of these. Its primary emphasis is on developing an understanding of contemporary cultures in Latin America. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1260 or SPAN 1280 or SPAN 1400 or SPAN 1600) and (SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses; PLAN: Spanish (BA, BPH)] or [SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses) and PLAN: Spanish (MN)]

SPAN 1405 - SEM: LATIN AMER LIT & CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course studies various cultural and literary topics according to the needs and interests of the students. Its purpose is to allow students to do original research on their own on topics of interest in the field of Latin American literature and culture. Taught in Spanish.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1406 - U.S. LATINO LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course will focus on U.S. Latino literature. While Mexican-Americans have roots in North America that go back to colonial times, the Latino explosion has happened mainly in the last thirty years, giving rise to new processes and forms of cultural expression, including an emerging literature that is neither a subset of U.S. Literature nor an ex tension of modern Latin American literature, though it has connections to both. To get an idea of what this literature involves and where it is going, we will look at some representative novels, poetry, memoirs, plays and films.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1407 - U.S. LATINO FILM

Minimum Credits: 3
Maximum Credits: 3
The major purpose of the course consists of illustrating and analyzing the role of the audiovisual media film (fiction and documentary) and video (and television, to a certain degree) for an understanding of the socio-cultural and conceptual status that Latina/o identities have acquired in today's society. Thematically, the course will focus on themes of modernity vs. tradition in U.S. Latino culture. The course uses a selection of audiovisual materials which is fairly innovative in its variety. Chicano films and videos will constitute the major part of the material.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1600 - SURVEY OF SPANISH LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the development of Spanish literature from the twelfth century to the present. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: SPAN 0055 (MIN GRADE 'C'); PLAN: Spanish (BA,BPH) or PREQ: SPAN 0050 (MIN GRADE 'C'); PLAN: Spanish (MN)

SPAN 1601 - PENINSULAR LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course studies the various stages of development of peninsular culture and literature in the 20th century, ranging from the 40-year period of the Franco dictatorship to the relatively recent transition to democracy. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1602 - IBERIAN REGIONAL IDENTITIES

Minimum Credits: 3
Maximum Credits: 3
No other courses deal with Iberia from a transnational or regional standpoint. It is becoming increasingly relevant, particularly in the European context, to articulate the study of culture in relationship to new forms of political and communitarian identities, thus moving away from the traditional focus on the nation-state. The present course will examine the cultural, political, and economic role of the regions within the Iberian peninsula in shaping the European and trans-Atlantic components of both Spanish and Portuguese history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1603 - PENINSULAR TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course looks at various cultural and literary topics according to the needs and interests of the students. Its major purpose is to allow students to do research on topics of interest in the field of peninsular literature and culture. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses); PLAN: Spanish (BA, BPH)] or [SPAN 0050 (MIN GRADE 'C') and PLAN: Spanish (MN)]

SPAN 1700 - COMPARATIVE HISPANIC TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course looks at various cultural and literary topics according to the needs and interests of the students. Its major purpose is to allow students to do research on topics of interest in the field of Latin American and peninsular literature and culture. Taught in Spanish.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 1400 or SPAN 1600) and SPAN 0050 (MIN GRADE 'C' for Listed Courses)

SPAN 1705 - SEM: HISPANIC LIT & CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course studies various cultural and literary topics according to the needs and interests of the students. Its purpose is to allow students to do research on topics of interest in the field of Hispanic literature and culture. Taught in Spanish.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (SPAN 1400 or SPAN 1600) or SPAN 0050 (MIN GADE 'C' for Listed Courses)

SPAN 1707 - AFRCN PRSEN LAT AMERN LIT/CULT

Minimum Credits: 3
Maximum Credits: 3
This course is a chronological and topical introduction to afro-Latin American culture, making use of literary texts, historical documents, feature films, etc. It aims at providing students with a concrete frame of reference for the African presence in Latin America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: [(SPAN 1260 or SPAN 1280 or SPAN 1400 or SPAN 1600) and (SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses; PLAN: Spanish (BA, BPH)] or [SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses) and PLAN: Spanish (MN)]

SPAN 1801 - DON QUIJOTE AND THE NOVEL

Minimum Credits: 3
Maximum Credits: 3
This course deals in depth with Cervantes' Don Quijote as the first modern novel and its profound influence on European literatures. Taught in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: [PREQ: (SPAN 1400 or SPAN 1600) and SPAN 0050; MIN GRADE: 'C' for all listed Courses; PLAN: Spanish (BA or BPH)] or [SPAN 0050; MIN GRADE: 'C'; PLAN: Spanish (MN)]

SPAN 1805 - CONTEM HISPANIC LIT & SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course deals with contemporary Spanish and Latin American societies as revealed in short stories, novels and poetry in an effort to ascertain the cultural values and concepts of these societies. Taught in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1806 - CAPSTONE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: (SPAN 1260 or SPAN 1280 or SPAN 1400 or SPAN 1600) and (SPAN 0050 or SPAN 1250) (MIN GRADE 'C' for Listed Courses; LVL: Sr; PLAN: Spanish (BA, BPH)

SPAN 1807 - HISPANIC SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course deals in depth with such topics as mass media, sexual roles, social structures and political institutions in Hispanic society as revealed in various literary works, films, documents and other sources. Taught in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1810 - SPAN CULT DICTRSHIP TO DEMOC

Minimum Credits: 3
Maximum Credits: 3
The course will deal with cultural manifestations of life in Spain since the death of Franco and the abolition of censorship. It will concentrate on fiction, criticism, journalism, historical writing, cinema, the theatre, television and the fine arts, attempting to clarify new cultural and societal directions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1890 - THE NEW NOVEL IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Lectures, textual analysis and class discussions in English on the major novelists of the Latin American "boom" of the sixties, with reference to techniques of literary analysis and the social, ideological and cultural background of the works in question.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

SPAN 1900 - PROF TRANSLTN INTRNSHIP-SPAN

Minimum Credits: 1
Maximum Credits: 6
This course is intended to provide on-the-job training for translators in training on a one-to-one basis in an office situation.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

SPAN 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
This course allows students to work in-depth in areas of their choice; evaluation is by examination or by the production of a term paper.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

SPAN 1902 - DIRECTED STUDY
Minimum Credits: 1
Maximum Credits: 6
This course allows students to work in depth in areas of their choice, with the approval and supervision of a faculty member, who meets regularly with the student.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

SPAN 1906 - SPANISH INTERNSHIP FOR CREDIT
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

History

HIST 0010 - PROFESSIONAL DEVELOPMENT SEM
Minimum Credits: 1
Maximum Credits: 1
You are at a family function and one of your relatives over hears what your major is asks you "do you know what you call a BA in history?" Then before you can answer or walk away, he/she responds with "waiter!" While this is the accepted wisdom of what happens to a history, is this the reality of life after college? The answer to that is an emphatic "no!" Therefore, in this class you will find out why this is false. Then you will prepare for the real world by practicing and implementing the skills needed to navigate your way through the process of finding a job or going on to graduate school.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: History (BA)

HIST 0014 - INTRODUCTION TO AFRICA
Minimum Credits: 3
Maximum Credits: 3
Multidisciplinary introduction to Africa emphasizing the richness, diversity and dynamism of the African experience and presented through lecture discussions of culture, social structure, history, economy, politics and other aspects of Africa's development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0050 - SOCIAL CHANGE
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0089 - MAGIC, MEDICINE AND SCIENCE
Minimum Credits: 3
Maximum Credits: 3
Dietary purges, ritualistic spells, mystical transformation, and the balance of self with nature. In each of these approaches is the presence of magic. Magic is a phenomenon common to all societies. In this course, we will study how it has contributed to religion, medicine, the healing arts, and to the emergence of modern scientific thought. Also the extent to which similar systems of belief have given birth to science, religion, magic and therapeutic practice will be explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0100 - WESTERN CIVILIZATION 1

Minimum Credits: 3
Maximum Credits: 3
The study of others leads back to ourselves. We learn about men and women from the past in order to compare their experience to our own, hoping that the comparison will make us more aware of the opportunities and limitations of present-day life. As an introduction to history, this course tries to suggest the excitement and uncertainties of studying the past. We begin at the time of the crusades, and continue through Renaissance and Reformation to the eve of Industrial Revolution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0101 - WESTERN CIVILIZATION 2

Minimum Credits: 3
Maximum Credits: 3
A history of the West from the Industrial Revolution to the late Twentieth Century, the period when Europe and its overseas extensions dominated world history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

HIST 0102 - WESTRN CIVLIZATION 1/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
This writing section adds one more hour, and an additional fourth credit to the standard Western Civilization 1 course. Students meet with an experienced teaching fellow to plan, discuss, and criticize their papers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 0103 - EUROPE IN THE 18TH CENTURY

Minimum Credits: 3
Maximum Credits: 3
It was the best of times, it was the worst of times; it was the age of wisdom, it was the age of foolishness; it was the epoch of belief, it was the epoch of incredulity; it was the season of light, it was the season of darkness. There was a king with a large jaw and a queen with a plain face on the throne of England; there was a king with a large jaw and a queen with a fair face on the throne of France. In both countries it was clearer than crystal to the lords of state, preservers of loaves, and fishes that things in general were settled forever. This course surveys the political, economic, social, and cultural history of Europe in the eighteenth century. Focusing on the major transformations of European society from the Age of Absolutism through the Age of Enlightenment to the Age of Revolution, the course explores local and interconnected histories of Britain, France, Spain, Denmark, Sweden, Russia, Austria, and the Dutch Republic. The course engages five major themes: 'Power, Politics, and Warfare', 'Social, Demographic, and Economic Change', 'Culture, Religion, and the Public Sphere', 'European Expansion Overseas', and 'Revolutionary Europe.' Readings include primary and secondary sources. The course is open to students of all levels.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0123 - UHC WESTERN CIVILIZATION 1

Minimum Credits: 3
Maximum Credits: 3
Honors Western Civilization 1 seeks to introduce the excitement, the uncertainty, and the skills that the study of history can provide. The period is from the Ancient World to the Enlightenment of the Eighteenth Century. Primary sources begin with Greek texts such as the odyssey, and continue through Voltaire. Emphasis is on the relationship between ideals and change. The course stresses the skills of reading sources critically, framing questions carefully, posing productive hypotheses, and arguing persuasively, both orally and in writing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0124 - UHC WESTERN CIVILIZATION 2

Minimum Credits: 3
Maximum Credits: 3
This course studies major ideas and events of the past two hundred years through the reading and discussion of significant European and American authors. It seeks to provide students with the knowledge to enable them to make their own evaluation of the history of the West. In the process, it will provide practice in critical reading, argumentative writing, and verbal expression, skills that are hallmarks of the Western tradition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0125 - RELIGIONS OF THE WEST
Minimum Credits: 3
Maximum Credits: 3
Tenets of Judaism, Christianity and Islam.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0126 - FRENCH REVOLUTION
Minimum Credits: 3
Maximum Credits: 3
This course will consider various theories of the social sources of Revolutions and evaluate them in the light of historical research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0139 - VIKING AGE SCANDINAVIA
Minimum Credits: 3
Maximum Credits: 3
The Viking Age, the period from 800 to 1050 AD marks Scandinavia's transition from prehistoric to historic times. This course will reassess Viking activities as constructive as well as destructive. Raids, commerce and colonization are best illuminated by a blending of written and physical evidence. Through the sagas, secondary readings and an assessment of archaeological sources such topics as state formation, trade, technology, rise of cities, religion and the voyages to Greenland and America will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0150 - HISTORY OF MODERN IRELAND
Minimum Credits: 3
Maximum Credits: 3
This class will examine how britain came to Ireland and why in the context of that period (16th and 17th centuries). It will also examine the very complex relationships between the Catholic church and the British crown in the 17th century, as these relationships played a great role in the Cromwellian era. This will lead us to the heart of the class where we will trace the very complex relationship between modern Irish republicanism and Cromwell.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0187 - WORLD WAR II-EUROPE
Minimum Credits: 3
Maximum Credits: 3
The causes of WW II are surveyed, including World War I, the Russian Revolution, the Great Depression, and the rise of fascist regimes. The determinants of German expansionism will be discussed and related to the outbreak of war in 1939. The military struggle receives attention, but such topics as economic mobilization, propaganda, occupation policies, resistance movements and the Holocaust are also discussed. The course concludes with an analysis of war time diplomacy, the Postwar settlement, and the onset of the Cold War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0190 - THE DICTATORS
Minimum Credits: 3
Maximum Credits: 3
This course examines and compares the dictatorships of Hitler's Germany and Stalin's soviet union. We shall investigate the official methods and media that transmitted the ideologies and aimed to manufacture consent for national socialism and Stalinist communism. On the basis of myths, public art, films, spectacle, and mass culture of the regimes, we shall discuss such topics as leader cults, construction of utopias, cultural revolutions, identities, and the role of propaganda and entertainment.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 0200 - EAST EUROPE CIVILIZATION
Minimum Credits: 3
Maximum Credits: 3
This course is devoted to the exploration of the historical experience of the lands between Germany and Russia from the time the region was first settled by Nomadic tribes to the present. During these one thousand years Eastern Europe was transformed from feudalism to communism and our emphasis will be to understand the ways in which the interaction of social, economic, intellectual, cultural, demographic and political processes

contributed to this metamorphosis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0220 - MODERN POLISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course covers the period from Poland's final partition (1795) until the present day. The themes for the 1795-1914 era will be nationalism, economic growth and shifting cultural developments. The interwar period will stress the assaults on the attempt to foster economic growth and a democratic government. The last section deals with the impact of World War II and the relationship between the post-war communist system and the polish society.
Academic Career: UGRD

HIST 0401 - MODERN EAST ASIAN CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
This survey of Chinese and Japanese history in the nineteenth and twentieth centuries compares and contrasts the development of these two East Asian nations through a format that includes lectures, discussions, films, and readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0402 - HISTORY OF EAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the history and culture of East Asia, and particularly China and Japan. A number of faculty members from

disciplines such as history, music, anthropology, fine arts, East Asian language and literature, and classics will lecture. The course covers the time period from prehistory to 1600.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0403 - HIST OF MODERN SOUTHEAST ASIA

Minimum Credits: 3
Maximum Credits: 3
This is an introductory survey course in the political and cultural history of modern Southeast Asia from 1815 through 1978 or roughly from the growth of European colonialism within the region through the end of the Khmer Rouge regime in Cambodia. It will emphasize the expansion of European influence in the political and economic spheres, the growth of nationalism, and the process of decolonization in Southeast Asia. It will also focus on the new political and cultural forces that transformed the region over the course of the 19th and 20th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0430 - JAPAN & THE WEST, 1600 - PRES

Minimum Credits: 3
Maximum Credits: 3
This course considers the historical development of two very distinctive societies at opposite ends of the Eurasian continent: Japan and Western Europe. It focuses on the contrasting development of the early modern period-Europe's age of expansion and Japan's age of isolation, the course compares systems of thought, social and political institutions, and the importance of foreign influences in the two societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0475 - RELIGION & CULTUR IN EAST ASIA

Minimum Credits: 3
Maximum Credits: 3
As East Asia becomes more and more central to the world's modern commodity culture, some have predicted a decline in traditional religious values and practices. In fact, the reverse is true: from Taiwan and Hong Kong through mainland China to Korea and Japan, increasing prosperity is resulting in an increased investment" in religion. This course presents a thematic survey of popular religion in contemporary East Asia, informed by religious, cultural, and political history, and takes a look at how religion participates in shaping the respective worldviews, behaviors, and practices of modern East Asian societies. It further reviews the various responses to the dilemma of self-identity and self-representation suggested by the changing role religion sees for itself in contemporary East Asia and explores the relationship between religion and politics, class, and gender. The course treats the changes we see within East Asian cultures not so much as breaks with tradition but as responses to older themes and behaviors that have been reinterpreted to make themselves relevant to the needs of modern society. We approach this course through lectures, discussions, readings, and films."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0487 - WORLD WAR II IN ASIA

Minimum Credits: 3
Maximum Credits: 3
The history of the war, 1937-1945, between Japan on the one hand and China, the United States, the soviet union and great Britain on the other. The course stresses the ideological, economic, political, social, diplomatic and military forces in those five countries, and how these forces led to a disastrous war beginning in the late 1930s. The course concludes with a discussion of the allied occupation of Japan and Japan's postwar recovery.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0500 - COLONIAL LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
History of Latin America during the period of Spanish and Portuguese Colonial Rule, from 1500 to 1825.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0501 - MODERN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
History of the Latin American republics from independence, in 1825, to the present.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0502 - AFRO-LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
A survey of black history in the countries of Latin America, from the period of European conquest (c. 1500) to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0506 - SPANISH PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
This course is offered in conjunction with HIST 0501, modern Latin America. It is a supplementary, one-credit Spanish-language recitation, where issues raised each week in HIST 0501 will be discussed in greater detail in a Spanish-immersion format. This practicum offers an opportunity for students to utilize, reinforce, and deepen the skills they have acquired in foreign language courses. We will listen to Latin American music, read primary sources from political manifestoes to poetry, and generally enrich our understanding of Latin America's diverse past even as we improve our Spanish-language conversational fluency. This practicum is a great option for students hoping to study abroad in the future.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HIST 0521 - CARIBBEAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
Examines historical roots of modern Caribbean. Examines major historical developments from period of subjugation of indigenous population through era of slavery to rise of modern nationalism and impact of American intervention. Also analyzes related socioeconomic systems and institutions. Selected country case studies included.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0600 - UNITED STATES TO 1877

Minimum Credits: 3
Maximum Credits: 3
This is an introductory, lower division, course that develops the history of United States from the 1400s through the 1880s.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0601 - UNITED STATES 1865-PRESENT

Minimum Credits: 3
Maximum Credits: 3
An introduction to American history from the Civil War to the present which emphasizes selected topics on changes in American society and politics as an earlier agrarian society became an industrial-urban one and as the nation took up an ever larger role in world affairs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0606 - MARITIME HIST & GREAT LAKES

Minimum Credits: 4
Maximum Credits: 4
This course surveys maritime power and the role of wooden sailing ships in the great lakes during the 18th and 19th centuries. It examines European exploration and colonization in this region and the struggles for control of North American waterways. The class uses traditional means of readings and lectures, and hands-on training aboard a traditionally-rigged historic wooden warship, the U.S. Brig Niagara. Students will learn by direct experience the arts of a tall-ship sailor and the inter-relationship between humans and the inland seas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 0612 - ORIGINS OF AMERICAN CAPITALISM

Minimum Credits: 3
Maximum Credits: 3
This course surveys the history of North American capitalism from the time of the first European settlements up through the emergence of a recognizably modern economy in the aftermath of the Civil War. It focuses in particular on the ways in which ordinary people made a living, how

and why those ways changed over time, and what those changes in turn can tell us about the evolving structural determinants of the system as a whole.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0663 - 20THC AFRICAN AMER WOMEN HIST

Minimum Credits: 3
Maximum Credits: 3
Using both a chronological and topical format, this course will investigate the history, culture, and activism of African American women in the Twentieth Century through readings of historical texts and articles, autobiography, and oral testimony. The content of the course includes an exploration of the responses of African American women to racism, sexism, and class and color consciousness within different historical periods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0670 - AFRO-AMERICAN HISTORY 1

Minimum Credits: 3
Maximum Credits: 3
This course surveys the history of Afro-Americans from their African origins to their emancipation during the Civil War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0671 - AFRO-AMERICAN HISTORY 2

Minimum Credits: 3
Maximum Credits: 3
This course surveys the development of black Americans from the time of the Civil War to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0673 - JEWISH AND BLACK HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course will examine aspects of the historical experience which have shaped the consciousness of blacks and Jews today. The relationship between blacks and Jews particularly from the 1960s on will be explored and discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0675 - WITCHES TO WALDEN POND

Minimum Credits: 3
Maximum Credits: 3
A survey of American religious history from the colonial period through the civil war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0676 - RELIGION IN MODERN AMERICA

Minimum Credits: 3
Maximum Credits: 3
An examination of the major developments in American religion from the Civil War to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0678 - US AND THE HOLOCAUST

Minimum Credits: 3
Maximum Credits: 3
With increasing interest in the Holocaust in Europe, this course focuses on the American side of the Atlantic - on issues of anti-Semitism and anti-immigrant sentiment in this country and on America's response to the Holocaust. We will also look at some post-Holocaust issues as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0685 - UNITED STATES FORGN RELATIONS

Minimum Credits: 3
Maximum Credits: 3
The course emphasizes three significant periods of development: (a) the period of origins, 1775-1825, (b) the period of hesitant entry onto the international scene, 1890-1941, and (c) the period of full participation in international affairs, 1941-present. In the process the course endeavors to demonstrate the changing role of such concepts as security, neutrality, isolationism, expansionism, and intervention in the evolution of the nation's conduct of foreign affairs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0688 - AMERICAN WAY OF WAR

Minimum Credits: 3
Maximum Credits: 3
This is a course on the American way of war and covers the American Revolution, the War of 1812, the Mexican War, the Civil War, the Spanish American War, World War I, World War II, the Korean War, and the Vietnam conflict. It looks at the American way of war from the perspective of four themes: society, technology, military thought, and leadership.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0700 - WORLD HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course is an introductory survey of world history, by which is meant an overview of major processes and interactions in the development of human society since the development of agriculture some 10,000 years ago. It is a selective overview, emphasizing large-scale patterns and connections in political, social, cultural, technological, and environmental history, yet it also provides balance among regions of the world. It encourages students to apply historical techniques to issues of their own interest.

HIST 0751 - ANCIENT WORLDS

Minimum Credits: 3
Maximum Credits: 3
This is a lecture course on the earliest cultures of Egypt, Mesopotamia and China. The approach is comparative. The course will focus on the similarities and the differences in the cultural development of these ancient civilizations, and will stress their contributions and legacies to the civilizations of today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0755 - RELIGION IN ASIA

Minimum Credits: 3
Maximum Credits: 3
This course serves as an introduction to the major religious traditions of South and East Asia. During the course of the semester, we encounter Hinduism and Jainism, the native Confucian, Daoist (Taoist), and popular traditions of China, and the Shint, folk and new religions of Japan. Buddhism, which originated in India but later spread to East Asia, is examined in its relation to the history of both Chinese and Japanese religions. We approach these traditions through lectures and discussion based on Chinese classical and popular literature, secondary scholarship, and films, which inform us about cultural and historical context, beliefs, practices, and personal experience. In the process we expect to learn something about the ways in which non-Western religious traditions see themselves and their world on their own terms, and to see how/if they can complement our own worldviews.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0756 - INTRO TO ISLAMIC CIVILIZATION

Minimum Credits: 3
Maximum Credits: 3
This course aims to introduce students to Islamic and Middle Eastern History from the time of the Prophet (ca. 600 C.E.) to the Iranian Revolution in 1979. We will proceed chronologically, focusing mainly on political events. However, a special emphasis will be given to the formation of the Islamic tradition, its evolution across different regions and cultures in time, and its interaction with other traditions. In the modern era, we will particularly explore the Islamic societies' political, cultural, and military encounter with the rising power of the West in the Middle East. In addition to the several historical processes and developments such as modernization, nation-building, Islamic fundamentalism and globalization, which have shaped the history of the Middle East in the last two centuries, our class discussions will also touch on the main theoretical perspectives that have stamped the studies of Islam and the Middle East. Here, concepts such as orientalism, defensive development, and modernity will constitute our main

focus.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0788 - WOMEN & MEN IN ANCNT MEDIT

Minimum Credits: 3
Maximum Credits: 3
This course examines ancient Mediterranean society, particularly that of Greece and Rome, from the perspective of male and female gender roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 0789 - WOMEN MEN ANCT MEDT/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HIST 0788 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 0795 - HISTORY OF AFRICA BEFORE 1800

Minimum Credits: 3
Maximum Credits: 3
Surveys history of Africa from earliest times to eve of European civilization. Looks at Africa from the inside out and aims at promoting an appreciation of Africa's contribution to world civilization and an understanding of the historical processes that have shaped modern Africa. Major themes and topics include ancient kingdoms, Islam the slave trade and the European contact.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1000 - CAPSTONE SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course seeks to acquaint history majors with proper techniques of historical research and writing.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: HIST 1001; PLAN: History (BA)

HIST 1001 - INTRODUCTORY SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course introduces its students to the ways historians work. Either by focusing on various interpretations of a common event or series of events, or by looking at historiographical literature in general, the course demonstrates the diversity of historical interpretation.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PLAN: History (BA)

HIST 1003 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the historical and present impact of Islamic culture in the city and environs of Sarajevo, Bosnia, by taking students to Sarajevo. The students will participate in formal seminars on the topic and tours of appropriate places conducted by a university faculty member, scholar and native speaker.
Academic Career: UGRD
Course Component: Workshop
Grade Component: LG/SNC Elective Basis

HIST 1004 - THE MIDDLE AGES: A LIVNG LEGCY

Minimum Credits: 4
Maximum Credits: 4
The course has a double objective. It examines some outstanding achievements and achievers of the European middle ages, particularly in the arts and sciences, ideas and institution. It also scrutinizes connections between this period and our own, to demonstrate how firmly 20th-century American culture is rooted in pre-modern Western and Eastern Europe. Foci are the university, the liberal arts, Romanesque and gothic architecture,

the rise of cities and the middle class, Greek and Roman Christianity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1005 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
This course entails the exploration of a special topic chosen by the instructor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

HIST 1006 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
This course entails the exploration of a special topic chosen by the instructor.
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis

HIST 1007 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
This course entails the exploration of a special topic chosen by the instructor.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

HIST 1009 - HISTORY THROUGH ARTIFACTS
Minimum Credits: 3
Maximum Credits: 3
This course is designed to introduce students to various historical aspects of a society (religious, cultural, economic, political, architectural, etc.) By visiting a specific country after having taken a course on the society. The course provides an experiential dimension to historical understanding.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

HIST 1014 - COMPARATIVE WITCH HUNTS
Minimum Credits: 3
Maximum Credits: 3
This course examines the European witch hunts of the 16th and 17th Centuries, the anti-Trotskyist witch hunt" within the Soviet communist party in 1934-1939, and the anti-communist "witch hunt" in the U.S. In 1946-58 to determine if all three qualify as witch hunts. The course's purpose is to have students determine if the three cases are comparable, and why they are or are not."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1015 - UHC-COMPARATIVE WITCH HUNTS
Minimum Credits: 3
Maximum Credits: 3
This course examines the European witch hunts of the 16th and 17th Centuries, the anti-Trotskyist witch hunt" within the Soviet communist party in 1934-1939, and the anti-communist "witch hunt" in the U.S. In 1946-58 to determine if all three qualify as witch hunts. The course's purpose is to have students determine if the three cases are comparable, and why they are or are not."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1016 - THE IRISH IN AMERICA
Minimum Credits: 3
Maximum Credits: 3
This course will discuss the causes and consequences of Irish immigration to the United States, from the 17th century to the present. We will discuss the cultural and political effects of Irish immigration, not only upon the United States, but upon Ireland and Ireland's long-time master, Great Britain. We will also examine in detail the experience of Irish immigrants, and compare it to that of other immigrant groups.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1017 - GLOBALIZATION AND HISTORY

Minimum Credits: 3
Maximum Credits: 3
Growing global connections affect all of us. This course explores events and social forces in history that operate at global perspective by examining selected events that occurred simultaneously in many parts of the world such as student protests of the late 1960s, economic downturns and social crises of the mid 1970s, and the effects of the end of the cold war. Students will be 'assigned' different countries and learn how that society interacted with others inter- nationally. The class includes lectures but will have an emphasis on discussion sections and small group projects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1018 - GLOBAL INEQUALITY

Minimum Credits: 3
Maximum Credits: 3
Why are some places so rich and others so poor? Do climate-based, geographic, or other natural factors account for the deep disparities between world regions? Or do these reflect human choices and hierarchies of power, within countries or between them? In this course we debate the causes of global inequality and ask what can be done about it. Are international efforts to shape economic growth in the world's poorest countries triumphing over poverty or making the problem much worse? Is 'international development' a success story, a failure, or a fraud?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1019 - CITIES HISTORICAL PERSPECTIVE

Minimum Credits: 3
Maximum Credits: 3
This course examines five inter-related themes. We begin by exploring how cities have been, are, and continue to be shaped and assembled. We examine urban space and design, and how culture, economics, and technology affect them. We also focus on the evolution of urban center over time, especially from the industrial revolution. Problem created by industrialization gave rise to utopian urban planning, some of the ideas of which have shaped modern cities. We also explore issues relating to racial and class segregation. We end by examining the recent restoration/gentrification of cities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1020 - CITIES OF CULTURAL CONQUEST

Minimum Credits: 3
Maximum Credits: 3
This course will take place in Istanbul, turkey, and Cordoba and Granada, Spain. Each of these cities witnessed fundamental remaking of its identity following conquest by forces that adhered to a different religion. The course focuses on the impact of the ensuing transformation and its impact on the built environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1021 - ANGLO-DUTCH ACHEVMNT 1550-1750

Minimum Credits: 3
Maximum Credits: 3
This course examines the (primarily supranational) historical forces by which two neighboring early modern European states-the united provinces and Great Britain-were created and formed. It also examines the interaction of these states both thematically and chronologically. It suggests that the result was a transition to modernity of not simply European but also global importance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1026 - STATES AND SEX THE AMERICAS

Minimum Credits: 3
Maximum Credits: 3
This course will trace the evolution of official interest in popular reproductive practice in the United States, Latin America, and the Caribbean from 1800 to 2000. How and why have states sought to regulate sex and its consequences? How have regulations treated people differently on the basis of race, class, marital status, and sexual orientation? And what rights and protections have women and men sought to demand from states? When have they been successful? This course analyzes the Americas-wide history through which the personal became political.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

HIST 1027 - EXODUS AND PASSOVER

Minimum Credits: 3
Maximum Credits: 3
Study of Exodus story and Passover holiday that develops from it including interpretations in Jewish and non-Jewish sources, development of the holiday and the ritual meal (Seder), changes in the rituals over time, and adaptations and uses of the story and holiday by different modern Jewish and non-Jewish movements and groups.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1030 - COMPUTATIONAL METHS IN HUMANIT

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1040 - WORLD WAR I-COMPARTV PERSPECTV

Minimum Credits: 3
Maximum Credits: 3
The great war shaped 20th century Europe and the world. So, in section 1 of this class, you will engage with the how and why the war began and the lively debate taking place in Europe today over the origins of the war. In section 2 you will analyze the war itself and the West's 'descent into barbarism.' In section 3 you will analyze the impact of the war on the arts, revolution and women's roles in society. Finally, in section 4, you will analyze how Europeans dealt with memory and mourning after the war as well as how they 'constructed memory' of the war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1042 - THEORY & PRACTICE OF NATNALISM

Minimum Credits: 3
Maximum Credits: 3
After a review of the most prominent theories of nationalism, the emphasis is on their explanatory powers and limitations in understanding the real" world. Questions examined include: why does nationalism have such extraordinary appeal and mobilizing power? Is it a singular phenomenon or a single name applied to diverse ones? What are the historical, socio-political and social-psychological functions of nationalism and the nation-state? Is there any preferable and viable alternative to the nation-state?"
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1043 - REVOLUTIONARY SOCIAL MOVEMENTS

Minimum Credits: 3
Maximum Credits: 3
A broad survey of social revolutionary movements of the past, such as those leading to the French and Russian Revolutions, and their influence on various movements taking place in third world countries of today. Emphasis will be placed on movements presently underway in Latin America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1044 - TWO CNTURIES DEMOCRATIZATION

Minimum Credits: 3
Maximum Credits: 3
Democratization has advanced in modern history in several great multicontinental bursts from the late eighteenth century to the present. This course will explore why certain historical eras are such moments of democratization and how the very conception of democracy has developed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1045 - SOCIALISM VERSUS CAPITALISM

Minimum Credits: 3
Maximum Credits: 3
The course covers the economic changes that produced capitalism; the attempts to understand capitalism which culminated in the theories of Adam Smith; the problems of communist societies and their attempts to return to some form of capitalism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1046 - NATIONALISM

Minimum Credits: 3
Maximum Credits: 3
Theories of nationalism, ethnicity, and race are examined and are contrasted with theories of modernization and socialism. Particular emphasis is placed on ethnonationalism in developed Western countries, such as Britain, France, Spain, Belgium, and Canada, and on ethnic politics in the U.S. Comparisons are drawn with nationalism in other types of political systems, particularly the USSR, Yugoslavia, and selected Middle East and African countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1048 - MASS VIOLENCE IN 20TH CENTURY

Minimum Credits: 3
Maximum Credits: 3
A crucial phenomenon of 20th century history, mass violence and genocide grab the imagination of the public and call for explanations. This course will examine roots of mass violence and discuss various explanatory approaches. We will focus on three case studies (Nazi Germany, the late ottoman empire, Indonesia), each time covering various forms of mass violence against several different groups (including enforced resettlement, forced labor, and organized starvation). Topics include political, economic, social, and religious contexts; imperialism and nation-building; the role of political systems as well as of popular participation; and the interaction between victim groups, state and society. The course also gives students an understanding of different existing explanatory concepts (genocide, holocaust, ethnic cleansing, and mass violence). Background in history is beneficial but the course is designed to serve the entire student community.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1050 - INTELCLS & POLIT 2OTHC EUROPE

Minimum Credits: 3
Maximum Credits: 3
Intellectuals have been involved with politics whether they have wished or not throughout this turbulent century. In this seminar we will grapple with different social theories about modern intellectuals, their political and ethnical responsibility, and their production. We will also consider ways of doing intellectual history and practice doing intellectual history in written assignments. We will also do case studies, examining the role of intellectuals in several settings during periods of political crises and conflict such as revolution, Nazism, communism, the Cold War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1051 - CATHOLICISM IN THE NEW WORLD

Minimum Credits: 3
Maximum Credits: 3
The course will examine the history of the roman Catholic church since 1492 in the Americas using various moments of internal crisis or external conflict as focal points for study. Topics will include: missionary and military contact with new world indigenous populations after 1492; the minority situation of Catholics in the new United States; the Irish famine and its consequences; conflicts between Catholic ethnics; the impact of Catholic support for fascist regimes in the 1930s and 1940s; counter-cultural forms of Catholicism (conscientious objectors, civil rights activists, pacifists); Vatican ii and its impact; liberation theology, Marxism and structural reform in Latin America; shifting theological positions on social and moral issues; the current sexual abuse crisis. While the emphasis will rest upon the social, economic, and political dimensions of Catholic history, the course will also address the aesthetic and cultural legacy of Catholicism including sacred architecture, music, and the arts, in elite and vernacular forms.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1055 - HISTORY OF DANCE

Minimum Credits: 3
Maximum Credits: 3
Does dancing have a history? This course investigates the most popular and controversial dances from the 16th-20th centuries, from the Volta to the Waltz to the Tango to the Grind. We will explore how a dance's initial reception and subsequent development reveal assumptions about class, race, gender, youth culture, sexuality, and the body. The course will focus on social dancing in Europe and North America, but we will also discuss parallel developments in theatrical dance and the significant influence of African dance traditions on Western dance. Assignments will include video

clips as well as readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1056 - HISTORY OF DANCE PRACTICUM

Minimum Credits: 1
Maximum Credits: 1
This course gives a "hands on" introduction to the dances of the past 400 years, from the stately Pavane of Shakespeare's day to 20th-century tango, swing, and hip hop. Instruction manuals enable us to reconstruct the early dances with some degree of accuracy, while film and video have preserved more recent forms. In addition to learning how to do these dances, we will also consider how choreographies and dance floor etiquette reflected and challenged gender expectations, class divisions, and race relations. No prior dance experience is needed, but students are expected to participate fully in all class exercises and activities.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 1060 - THE GLOBAL HISTORY OF PIRACY

Minimum Credits: 3
Maximum Credits: 3
This is an exploration of the ancient and global history of piracy. Using primary historical documents (written by and about pirates) as well as the accounts of modern historians, we will discuss a range of topics such as the role of piracy in the building of empires, the later struggle of merchants and their allies to eradicate piracy through bloody campaigns of capital punishment, and the meanings of the pirate as represented in popular culture through the ages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY

Minimum Credits: 3
Maximum Credits: 3
Human rights in world history, will provide a historical overview of the human rights movement, focusing on the 18th-20th centuries. The course will lay out the parameters of the struggle to define and implement human rights in the Western and non-Western world, and engage with the different resulting viewpoints. The course will explore controversial aspects of the implementation of human rights internationally, including calls for the respect of cultural differences. Finally, the course will examine case studies of the racial/ethnic/caste dimension of the human rights struggle, looking at the US, Brazil, Israel, and India as countries with quite different cultural traditions, political makeups, and demographic compositions. The course will enroll 40 students, and will meet once per week in the evening.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1065 - COMPARATIVE MILITARY SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This course deals comparatively with the nature of military systems and their relationships with the societies they serve (or dominate). Topics include: early mankind's record of warfare, the social origins of military personnel, their training, inter- and intra-service rivalries, mutinies, war crimes, civil-military relations, and coups d'etat.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1070 - THE RISE MOD PAN-AFRCN MOVEMNT

Minimum Credits: 3
Maximum Credits: 3
This course will survey the current of pan-Africanist thought from the partitioning of Africa to the independence movements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1076 - COMPARATIVE SLAVERY

Minimum Credits: 3
Maximum Credits: 3
This course will compare slave societies and slave systems in the old world (Europe and Africa) with the new world (U.S. And Latin America).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1083 - HISTORY OF SPORTS

Minimum Credits: 3
Maximum Credits: 3
The course will survey the history of sports, focusing primarily on the 20th century. We will balance consideration of professional sports with that of the games the people play. We will look both at the impact of television as well as the new fitness (revolution). Topics considered will include women in sports, the commercialization of culture and collegiate sports. A major focus will be the role in sports in Pittsburgh in the past 50 years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1084 - FOOD AND HISTORY

Minimum Credits: 3
Maximum Credits: 3
The subject of food production, preparation, and consumption is examined from a variety of disciplinary perspectives in this reading seminar. The course contrasts pre-industrial and modern diets and food systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1086 - NUCLEAR AGE-NUCLEAR WAR

Minimum Credits: 3
Maximum Credits: 3
This course surveys the threat to mankind's continued existence posed by the arms race and the possibility of nuclear war. Among the topics covered are the origins of the nuclear age during World War II, the dropping of the atomic bomb on Hiroshima and Nagasaki, the first Cold War and arms race, the military strategies of political elites, attempts at arms control through negotiations, mass protest against nuclear weapons, the new arms race, and the prospects of avoiding a third World War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1089 - KNOWLEDGE AND POWER

Minimum Credits: 3
Maximum Credits: 3
This course will investigate Russian, Japanese, and North American explorations in the North Pacific in the eighteenth and nineteenth centuries. Students will analyze the ways in which nation states used information gathered by explorers to build competing world empires. They will analyze the political, economic, and intellectual motives of the states and private individuals that invested and participated in these expeditions, and address such questions as: what was the purpose of an expedition? Who participated and what did they hope to find?
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1090 - HISTORY MEDICINE & HEALTH CARE

Minimum Credits: 3
Maximum Credits: 3
Provides an overview of the social history of medicine from prehistory to the present. Focuses on the emergence of medical institutions, education, theories, practices and the Orthodox and irregular medical sects. Describes the growth of the separate health disciplines of nursing, pharmacy and public health. Examines the impact of socioeconomic factors, religions and war on the evolution of medical science. Discusses the changing roles of government in the development of the American health care system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1091 - GLOBAL HEALTH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course explores the history of global public health from 1850-present. It focuses on the social, political, economic, environmental, and cultural factors that have influenced the development of global health generally and also shaped specific interventions and policies. What are the political and economic roots of health disparities? Why do interventions succeed or fail and what are their long-term consequences? What can we learn from studying the continuities and disparities between modern global health policies and past programs? Historical analysis of theory and practice provides crucial perspective on the field.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1095 - SPORT AND GLOBAL CAPITALISM

Minimum Credits: 3
Maximum Credits: 3
The history of sport and global capitalism is designed for students seeking to make their way as professionals and/or for those interested in global sport as a social and political force both in the US and around the world. Focusing on the evolution of sport as a global industry and the creation of an imposing scholastic, community, and non-profit infrastructure, it equips students to understand and navigate those arenas. If, after graduation, students venture into the sports industry, scholastic sport, or sport for development, they should do so with their eyes wide open.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1102 - THE IDEA OF EUROPE 1914-2004

Minimum Credits: 3
Maximum Credits: 3
This course deals with European integration, from the first attempts to create supranational structures after WWI to the creation of a European constitution and the eastward enlargement of the European Union in 2004. In addition to providing students with an overview of the history of the European integration and of the institutions of the European Union today, this course focuses on the various ideas and concepts under lying the integration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1108 - COMPARATIVE EUROPEAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
This non-honors course compares two European states in the Twentieth Century. The focus is on social history.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1109 - FRANCE, SPAIN & ITALY IN 20THC

Minimum Credits: 3
Maximum Credits: 3
This course will compare three European countries, as a way of identifying the distinctive traits in each. We shall also hypothesize as to which of these traits are most likely to survive, and which even to thrive, in the Europe of the future. Although there are no prerequisites, students who can read a foreign language relevant to one of the three countries are particularly welcome.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1110 - MEDIEVAL HISTORY 1

Minimum Credits: 3
Maximum Credits: 3
Survey course in the social, political, economic and religious history of Europe from the Diocletian reforms to the year one thousand. Special attention to interpreting the primary documents and to integrating various areas of activity (e.g. economic and religious). Focus on France, England, Germany, and Italy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1111 - MEDIEVAL HISTORY 2

Minimum Credits: 3
Maximum Credits: 3
Survey course in the social, political, economic and religious history of Europe from the year 1000 to the Black Death. Special attention to interpreting the primary documents and to integrating various areas of activity (e.g. economic and religious). Focus on France, England, Germany, and Italy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1112 - MEDIEVAL WORLD

Minimum Credits: 3
Maximum Credits: 3
Subject: cultural, intellectual, and political activity in the European Middle Ages. The course concentrates on a few significant aspects of the medieval world, taking them as centers from which to explore interrelated phenomena; a court, a cathedral, the crusades, the divine comedy.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1114 - MEDIEVAL SPAIN

Minimum Credits: 3
Maximum Credits: 3
The course medieval iberia stresses the conflicts and encounters between Christians, Muslims, and Jews. Through the analysis of a wide variety of selected and translated primary sources as well as modern historiography, the course presents the main entities and processes evolving in Iberia from 711 to 1492. The major cultural entities approached are: Al-andalus, Hispania, and Sefarad. The main processes are: the consolidation of states, the unfolding of military campaigns, the development of cultural interactions, and the transformations of the economic and social life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1115 - THE WEST AND THE WORLD

Minimum Credits: 3
Maximum Credits: 3
From the time of Columbus to that of William Pitt, Europe developed its knowledge and power in a way that enabled it progressively to dominate the world. Around the globe, Europeans reshaped, or destroyed, or failed to affect, the peoples whom they discovered". This course attempts to explain Europe's rise to dominance, by comparing the West to the societies of Islamand of East Asia. It also explores the various kinds of cultural contact between Europeans, and Africans, Asians, and Amer-Indians, from the 15th to the 18th century."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1116 - INTRO TO THE RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
The idea of the Renaissance is central to Western culture. Many of our values and tastes devolve from--or consciously react against--patterns that were established or reinterpreted five hundred years ago. The student who explores the renaissance, therefore, gains hold of one of the keys of Western civilization. He or she also acquires practice in critical reading, discussion, and the written expression of ideas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1117 - RENASNC AND REFORMTN EUROPE

Minimum Credits: 3
Maximum Credits: 3
Are history and biography friends or enemies? Does the study of individuals lead us towards, or away from, an understanding of the society in which they lived? This course uses the lives of six men and women from different parts of Europe as a way to consider major historical issues. The six are our guides to a Western world that was more complex, more sophisticated, and more divided than ever before.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1120 - BRITISH ISLES

Minimum Credits: 3
Maximum Credits: 3
The history of Great Britain and Ireland is normally divided into the various national histories of England, Wales, Ireland and Scotland. In the belief that it makes better historical sense to see these histories as part of a wider framework, this course will concentrate upon their interaction within the British Isles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1121 - TUDOR ENGLAND

Minimum Credits: 3
Maximum Credits: 3
The Tudor period - the age of Henry VIII and Elizabeth I is generally looked upon as a Golden Age of English culture. It was also a period of considerable social and political change when, under the impact of the Renaissance and reformation, as well as an economic revolution, the traditional medieval world gave way to one which was recognizably modern. Shakespeare's Hamlet, Bacon's advancement of learning all emerge from this culture. This was also the century during which London came to control the destinies of Wales, Scotland and Ireland.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1122 - STUART ENGLAND
Minimum Credits: 3
Maximum Credits: 3
In 1603 England and Scotland were united under a common monarch, James I and VI. At the same date the conquest of Ireland was completed. Political and religious tensions within the three kingdoms led to Civil War, the execution of Charles I, the establishment of a republic and the conquest by Cromwell of Ireland and Scotland. The restoration of the monarchy took place in 1660 but further political change continued, culminating in the revolution of 1688, when limited monarchy took the place of divine right kingship.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1123 - MODERN BRITAIN
Minimum Credits: 3
Maximum Credits: 3
Political, economic and social change in Britain from the early 18th century to the present are examined in depth. Topics include the pre-industrial social structure, the origins of political stability, the making of the Industrial Revolution, popular protest and political reform, Britain's supremacy during the Victorian era, imperialism and the rise of labor, the impact of total war, and the emergence of the welfare state. A discussion of Britain's future prospects concludes the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1124 - IRELAND
Minimum Credits: 3
Maximum Credits: 3
Ex-republicans and loyalists: you've been in Belfast for 2 weeks. Do you understand the conflict any better now?" Pitt students: "no. We are more confused now than when we arrived." Ex-prisoners: "good! You've learned something." Contradictory? Confusing? Confusing? All of the above? If you say, ""all of the above" then you will find this class "intriguing." You will move beyond the "inherited histories" concerning the conflict in Ireland and investigate the roots of the Irish conflict. By the end, you will come to realize that history is rarely black and white and that there are many "truths" and shades of grey."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1125 - SCOTLAND
Minimum Credits: 3
Maximum Credits: 3
The pre-modern history of Scotland revolves around the interaction of several cultures-Pictish, British, Irish, Saxon and Scandinavian. Early modern Scotland begins with the reformation. Modern Scotland dates from the Industrial Revolution. The course concludes with contemporary issues, including Scottish nationalism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1126 - FRENCH REVOLUTION
Minimum Credits: 3
Maximum Credits: 3
This course will consider various theories of the social sources of revolutions and evaluate them in the light of historical research.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1128 - MODERN FRANCE-1 1780-1880
Minimum Credits: 3
Maximum Credits: 3
A history of France between the fall of the old regime and the foundation of the third republic.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1129 - MODERN FRANCE-2 1880-1980
Minimum Credits: 3
Maximum Credits: 3
A history of France from the foundation of the third republic through the fifth republic.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1131 - MODERN GERMANY

Minimum Credits: 3
Maximum Credits: 3
A lecture course on German history from the foundation of the North German federation to the end of World War II. While the structure of the course is shaped by the main political changes, considerable attention is given to the evolution of society, and to cultural and intellectual life as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1132 - CONTEMPORARY GERMANY

Minimum Credits: 3
Maximum Credits: 3
This course examines the history of Germany from the first World War to the present by studying German history in its international context. Students will learn to distinguish between political, social, economic and cultural trends that were specific to Germany from those that were common throughout Europe and beyond. Topics include WWI's impact on European societies, the economic and political crisis of the interwar years and the explosion of creativity, the establishment of the Nazi State, WWII as turning point of European and global history, Germany's cold war division and the unexpected reunification of 1990, as well as European integration as the game-changing innovation of the postwar years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1133 - IS FASCISM BACK

Minimum Credits: 3
Maximum Credits: 3
In this course we will look at Europe's two strongest and most typical fascist regimes; Mussolini's Italy and Hitler's Germany. We will analyze and compare the factors that made it possible for far-right anti-liberal, para-military groups to take power; contrast the ways in which the regimes functioned; and study their racist, cultural and gender politics. After establishing a historically rooted definition of fascism, we will look at several modern fascist (?) movements; France's Le Pen, Germany's neo-Nazis, Italy's neo fascist party and the far-right nationalists in modern Russia.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1135 - BERLIN - WINDOW TO GERMAN HIST

Minimum Credits: 3
Maximum Credits: 3
Berlin is not just the capital of Germany. It is a city that is shaped more than any other place in Germany by this nation's dramatic past during the 19th and 20th century. All the ups and downs of Germany's modern history have left their traces especially in berlin. This course looks at the German past from the 19th century to the present by using berlin as an exemplary place. Besides giving an overview of the history of Germany in general and berlin in particular, this course investigates to what degree the history of a place can be read through its visual appearance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1138 - FULBRIGHT SEMI ITALIAN STUDIES

Minimum Credits: 3
Maximum Credits: 3
The Fulbright seminar in Italian studies is the spring-term undergraduate-level course offered by the visiting Fulbright distinguished scholar from Italy. This course is typically offered in the fields of art history, cultural studies, film, history, literature, museum studies, political science, or urban studies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1144 - IBERIAN EMPR ERLY MOD GLBLZATN

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the study of the Portuguese overseas empire in the early modern period by adopting a non-conventional perspective. In addition to offering a chronological and geographical framework of Portuguese expansion, the course will focus on the political, social and cultural interactions that emerged from the permanent contact of Europeans with non-European societies in Africa, Asia and the Americas. The course considers Portuguese overseas expansion within the broader context of the early modern world and investigates notions of globalization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1145 - INTELLCL FOUNDTNS OF CAPITLISM

Minimum Credits: 3
Maximum Credits: 3
This course explores the salient features of European economic development from the black plague of the Middle Ages to the Great Depression of the 1930's. The emphasis will be to understand how social, demographic, and economic processes interacted and ultimately culminated in one of the most momentous events in the history of mankind, the Industrial Revolution. We shall venture an explanation for why Europe was the first continent and England the first country to industrialize. The social changes in the aftermath of the Revolution will also be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1146 - WELFR STATE IN COMP PERSPCTV

Minimum Credits: 3
Maximum Credits: 3
This course will examine the debates and events that have shaped Europe's welfare states. Topics discussed include the effect of total war on welfare policies in Britain and Germany; attitudes towards women in Nazi Germany, fascist Italy and Franco's Spain; modern protests against welfare for immigrants and aliens (which inform much neo-Nazi activity), and Eastern Europeans' search for capitalism with a human face". Students should have a grasp on ideological debates that have surrounded the welfare state and how policies promote ways of viewing peoples."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1147 - HISTORY OF POLITICAL THOUGHT 1

Minimum Credits: 3
Maximum Credits: 3
An examination of Western social and political ideas from antiquity to the renaissance. Emphasis on contextualized reading of a range of thinkers including Plato, Augustine, and Thomas More.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1148 - HISTORY OF POLITICAL THOUGHT 2

Minimum Credits: 3
Maximum Credits: 3
A survey of social and political thinking in early Modern Europe. Authors to be considered include Machiavelli, Bodin, and Locke.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1149 - HISTORY OF POLITICAL THOUGHT 3

Minimum Credits: 3
Maximum Credits: 3
Europeans political thought and thinkers from the enlightenment to the nineteenth century. Readings will include texts by Rousseau, Hegel and Marx.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1150 - UHC ENGLISH REPUBLICANISM

Minimum Credits: 3
Maximum Credits: 3
The establishment of an English republic in 1649 had its practical context in the fiscal and military collapse of British monarchy. To understand the revolution which resulted, however, we must recover the mental world, both Protestant and humanist, which equipped some contemporaries to reject the failed system of monarchy altogether. Our source for the recovery of this ideology is the writing of authors such as John Milton, Marchamont Nedham, James Harrington, John Streater, Henry Vane Jr, Henry Neville, and Algernon Sidney. Stylistically, this constitutes one of the finest bodies of political literature in the English language. Intellectually it requires us to familiarize ourselves with, a range of ideas from classical antiquity, the late medieval period, the renaissance, reformation, and the seventeenth century itself.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1152 - EURPN INTELLCL HIST 1750-1930

Minimum Credits: 3
Maximum Credits: 3
A course of readings and discussions focused upon selections from major texts in the European intellectual tradition from the enlightenment to the 1930s. There will be occasional lectures on the social and intellectual context; but the predominant emphasis will be on class discussions of primary

readings. Examples of possible topics are: Hume and the enlightenment, Rousseau and democratic theory, Kant and the German tradition, Burke and conservatism, Mill and liberalism, the Romantic critique, Hegel, Marx, Comte and positivism, Durkheim and the new societism, Freud, Max Weber.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1153 - EURPN INTELCL HIST 2 1870-1940

Minimum Credits: 3
Maximum Credits: 3
A course of readings and discussions focused on major texts in the European intellectual tradition from the age of positivism to World War II. There will be occasional lectures, especially on the social and institutional contexts, but the predominant emphasis will be on class discussions of primary readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1154 - EUROPEAN FAMILIES

Minimum Credits: 3
Maximum Credits: 3
This course examines the way in which European men and women lived and worked before and after the Industrial Revolution.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1155 - EUROPEAN UNIONS 800-2000

Minimum Credits: 3
Maximum Credits: 3
Looking at four periods of Europe's past, the course will examine the idea of a single state or confederation, as well as examining how pan-European political institutions functioned in practice. The course will consider the resurrection of the Empire of Charlemagne, the Renaissance Holy Roman Empire, Napoleon Bonaparte's Empire, and finally the effect of two World Wars and the consequent moves toward European federation during the Twentieth Century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1156 - BRITISH LABOR 1

Minimum Credits: 3
Maximum Credits: 3
The emergence of the world's first modern working class is explored. Themes include popular protest in the 18th century and the ideology of the free-born Englishman. The Industrial Revolution and its impact on the lives and living standards of workers are discussed. Responses to industrialization are examined, including luddism, trade unions, the farm laborers revolt of 1830-32, the political crisis of 1830-32, the new poor law of 1834 and Chartism. The course concludes with Victorian liberalization and the passage of the Reform Act of 1867.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1157 - GEOGRAPHY AND EMPIRE

Minimum Credits: 3
Maximum Credits: 3
This course traces the development of the idea of Britain as an island nation. It offers intensive engagement with some of the most important English language writings of the early modern period (1500-1800), including prose, poetry, drama, history, natural philosophy, political thought and travel writing. In relation to each work its focus is upon the deployment of geographical imagery and arguments for political purposes and the construction of a geographical articulation of national identity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1159 - GREAT SOUTH SEA

Minimum Credits: 3
Maximum Credits: 3
This course follows Britain's feats of pacific exploration from the global circumnavigation by Sir Francis Drake to those of James Cook two centuries later. It sets these in the contexts of the Polynesian migrations which brought the first human inhabitants to the island pacific and the voyages of Britain's European rivals Spain, the united provinces and France. It examines the context furnished by the world's largest ocean for the development of British geographical knowledge, maritime expertise and the establishment of empire in Australasia, Polynesia and Melanesia.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

HIST 1160 - HISTORY OF THE EUROPEAN UNION

Minimum Credits: 3
Maximum Credits: 3
This course will examine the motives, significance and progress of the post-World War II movement toward economic and political integration in Europe. We will use methodologies derived from a variety of academic disciplines to look at why Europeans in 1945 were ready for unification; at the progress of the unification movement; at the institutions created and their workings; at the limits and probable future of European integration both for Europe and for the wider world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1164 - SMALL COUNTRIES & THE EU

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the modern history of three representative small countries of the European Union--Denmark, Latvia and Greece'and upon their relationships with larger countries of the EU, and with the European Union as a whole. We will look at the long process, beginning in the 19th century, which brought each country to its present state, and at each one's current condition and problems as a member of the EU. We will use this knowledge to generalize the experience of all the 21 small countries of the EU, and to critique current models of governance and power in the European Union.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1165 - IMMIGRATION AND EUROPE

Minimum Credits: 3
Maximum Credits: 3
Since the second World War, an intense and diverse immigration has changed the face of every West European nation migrants may have come from the far corners of their own nations as well as from former colonies, and other continents. Our course will offer a coherent if necessarily selective history of Western Europe since 1945. We will focus on, and compare, Italy, France, the Netherlands, and Britain, issues include: the Islamic diaspora; the rise of nativism; the third generation of immigrants; and the future of the European union.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1166 - FRENCH TRAILER - UHC HIST 1165

Minimum Credits: 1
Maximum Credits: 1
This is a one-credit voluntary French language 'trailer' or addition to UHC HIST 1165. Weekly discussions examine a variety of issues raised in the larger course that are specifically relevant to France, such as the arrival in the country of large new communities of Arab immigrants from North Africa, of immigrants from sub-Saharan Africa, and of Jews. We consider integration, racial prejudice, and, in general, the ways that immigration is re-shaping France.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: Satisfactory/No Credit

HIST 1169 - APPROACHES TO ANTISEMITISM

Minimum Credits: 3
Maximum Credits: 3
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1172 - BRITN:CONTEM SCENE HISTL PERSP

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to introduce a historical dimension to the study of contemporary Britain and Ireland. In recent decades issues of national identity have begun to move from the cultural field into politics. In the context of Europe, Britain provides a case study of trends which are affecting other members of the E.U. Today, problems concerned with ethnicity and national identity are very much to the fore but in order to understand them a historical perspective is necessary.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1173 - HIST & MEMRY IN JEWSH TRADTN

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to the manner in which historians have studied and understood the Jewish experience from antiquity through the modern age. The role of historical study in the formation of Jewish identity will be especially highlighted.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1175 - XENOPHOBIA IN MODERN EUROPE

Minimum Credits: 3
Maximum Credits: 3
This course will examine Europe's post-war xenophobic, racist and exclusionary policies. We will use memoirs, photo-journalism, film and interviews to understand recent discrimination against refugees, guest workers, Jews, linguistic and religious minorities. We will also put the question into scholarly context, as we examine how historians, sociologists, psychologists and anthropologists try to understand the way in which Europeans construct the categories of us" and the "others"."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1180 - 19TH CENTURY BRITAIN

Minimum Credits: 3
Maximum Credits: 3
Political, economic and social change in Britain from the early 18th century to the present are examined in depth. Topics include the pre-industrial social structure, the origins of political stability, the making of the industrial revolution, popular protest and political reform, Britain's supremacy during the Victorian era, imperialism and the rise of labor, the impact of total war, and the emergence of the welfare state. A discussion of Britain's future prospects concludes the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1181 - TWENTIETH CENTURY BRITAIN

Minimum Credits: 3
Maximum Credits: 3
Political, economic and social change in Britain from the early 18th century to the present are examined in depth. Topics include the pre-industrial social structure, the origins of political stability, the making of the industrial revolution, popular protest and political reform, Britain's supremacy during the Victorian era, imperialism and the rise of labor, the impact of total war, and the emergence of the welfare state. A discussion of Britain's future prospects concludes the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1182 - ROMANTIC MOVEMENTS 19C EUROPE

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to analyze and define the concept and major assumptions of romanticism. Students read some major "romantic" writers and study their contributions to political theory, philosophy, religious thought and literature. Writers studies include Burke, Novalis, Hegel, Goethe and Wordsworth.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1184 - ASTROLOGY AND WITCHCRAFT

Minimum Credits: 3
Maximum Credits: 3
This course deals with both intellectual currents and popular culture in 17th Century England, exploring the relationship between magic, science, and religion, as well as the social forces that led to the belief in astrology and witchcraft.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1185 - THE DICTATORS

Minimum Credits: 3
Maximum Credits: 3
This course examines and compares the dictatorships of Hitler's Germany and Stalin's Soviet union. We shall investigate the official methods and media that transmitted the ideologies and aimed to manufacture consent for national socialism and Stalinist communism. On the basis of myths, public art, films, spectacle, and mass culture of the regimes, we shall discuss such topics as leader cults, construction of utopias, cultural revolutions, identities, and the role of propaganda and entertainment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1190 - MEDIEVAL GOVERNMENT & SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course deals with the emergence of the medieval state and its institutions, for example, systems of law (Roman, canon, and common law) and representative institutions. The course also focuses on certain aspects of intellectual life (for example, theories of kingship and constitutionalism) and forms of social, political, and economic organization (for example, feudalism and manorialism).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1191 - ENGLISH ORIGINS OF AMERCN LAW

Minimum Credits: 3
Maximum Credits: 3
This course examines the origins and development of English law with a view toward understanding the foundations of the American legal system. Keeping in mind that law is shaped by social, economic, and political considerations, we attempt to answer the question, how did medieval and early modern English society solve certain problems with which all societies must eventually cope?""
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1197 - BLACK DEATH: PLAGUE & HISTORY

Minimum Credits: 3
Maximum Credits: 3
The black death, the great epidemic of 1347-1350's was the most profound epidemiological-ecological crisis Europe had ever experienced. Between 30 and 70% of the population of the Western world vanished. In the wake of this demographic disaster economic, psychological, social, literary and even artistic processes were profoundly altered. This epidemic can be traced through extensive primary sources ranging from literature to art history - from population statistics through village desertions. This course will introduce these data and examine the consequences of the black death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1220 - MODERN POLISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course covers the period from Poland's final partition (1795) until the present day. The themes for the 1795-1914 era will be nationalism, economic growth and shifting cultural developments. The interwar period will stress the assaults on the attempt to foster economic growth and a democratic government. The last section deals with the impact of World War II and the relationship between the post-war communist system and the polish society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1225 - BALKAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course examines the history of the Balkan peninsula (Greece, Bulgaria, Romania, Albania, and the countries of the former Yugoslavia) and its peoples from the ottoman empire through to the collapse of Yugoslavia in the 1990s. It places particular stress on the dynamic experience of daily life against a background of regularly shifting political ideologies through the prisms of class, gender, and health. Additionally, it analyzes the conceptualization of what is meant by the term 'balkans' as discussed by historians, philosophers, journalists, and writers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1240 - POLITICAL EAST EUROPE

Minimum Credits: 3
Maximum Credits: 3

The lives and times of the people and states of the lands between" of Eastern Europe are examined in terms of three forces that have shaped their contemporary cultures, their chronic and multi-dimensional "between-ness" on the political and cultural map of Europe, and the influence of a succession of modern ideologies (from nationalism and liberalism to fascism and communism) on their institutions and behavior."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1250 - INDP STUDY: CZECH REP & POLAND

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1250IS - INDP STDY:CZECH REP/POLAND-IS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Practicum
Grade Component: No Grade Required

HIST 1250OS - INDP STDY:CZECH REP/POLAND-OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Practicum
Grade Component: No Grade Required

HIST 1270 - MODERN EASTERN EUROPEAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This upper level undergraduate course surveys the history of the historically most numerous portion of European Jewry from the medieval period to the present, emphasizing the modernization of east-central European Jews as minorities in the context of their host societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1313 - HISTORY OF RUSSIAN REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
This course examines the origins, contours, and dynamics of the Russian Revolution of 1917, as well, as the period 1918-1921 during which the new Soviet State fought for its survival.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1314 - USSR 1918-1932

Minimum Credits: 3
Maximum Credits: 3
This course examines the first 15 years of Soviet rule during which the fate of the Revolution of 1917 was determined. The Civil War, new economic policy, collectivization of agriculture, five-year plan, and cultural revolution receive concentrated attention.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1315 - STALIN

Minimum Credits: 3
Maximum Credits: 3
This course examines the USSR during Stalin's reign, 1929-53. Each facet of his reign--industrial development, collectivization, class war, and repression--receive detailed attention as does WWII and the Cold War.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1325 - UHC RUSSIA AND THE WORLD

Minimum Credits: 3
Maximum Credits: 3
This course addresses itself to the following question: why societies outside the American and West European sphere find it difficult, impossible and/or undesirable to adopt (or adapt) the liberal-democratic-individualistic socio-political system (China, Iran, etc.), which Western opinion deems optimal?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1343 - CNTMPRY DEVELP IN THE USSR

Minimum Credits: 3
Maximum Credits: 3
This undergraduate seminar is designed primarily for undergraduate certificate candidates in Russian and East European studies. The course focuses on contemporary political, social, economic, and cultural developments in the USSR and is designed to demonstrate how Soviet published materials can be used to understand the Soviet Union. All reading materials will be in English.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HIST 1344 - RUSSIAN REVOLUTION MOVEMENTS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to examine the two major revolutionary movements of the second half of the 19th century in Russia: populism and Marxism. Readings include secondary and primary sources. The objective is to train students to analyze and evaluate different sorts of historical evidence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1366 - SOVIET CITIES 1860-1980

Minimum Credits: 3
Maximum Credits: 3
This course examines the process of urbanization and the development of cities from 1860 in what is today the USSR. The changing roles of cities, the changing nature of the urbanization process, and urban planning, government, and life are the course's unifying themes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1377 - SOVIET JEWRY

Minimum Credits: 3
Maximum Credits: 3
We focus on the Jewish community in the USSR since the Revolution of 1917.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1378 - RUSSIAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This course examines the experience of Russian Jewry during the 145 year period from its entrance into Russian political life to the end of the empire. We will treat both the internal dynamics within the community as it came to be transformed from a religiously based and clerically dominated leadership to a national-cultural entity that developed a variety of political movements and expressions in order to articulate its new found modern identity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1380 - ART AND SOCIETY 19THC RUSSIA

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to study 19th century Russia's major literary works in the context of Russia's social, political and intellectual history. Works studied include Pushkin, Gogol, Turgenev, Dostoevsky and Chekhov.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1385 - EUROPE SINCE 1945
Minimum Credits: 3
Maximum Credits: 3
History of Western and Eastern Europe: the Postwar reconstruction, communism in Eastern Europe; Europe in the Cold War; economic, social and cultural changes; the Revolutions of 1989.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HIST 1390 - STALIN AND WESTERN HISTORIANS
Minimum Credits: 3
Maximum Credits: 3
This course uses Western studies of the great terror 1936-1939 to demonstrate to students the problems, pitfalls, and biases common to Western treatments of Soviet history. Students read several interpretations of the terror and devote considerable analysis to the problems and contradictions of each.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1418 - FORMS OF JAPANESE THEATRE
Minimum Credits: 3
Maximum Credits: 3
This course will provide a survey of various major forms of Japanese theatre using English language materials. Students will have access to relatively ancient forms of Japanese theatre such as Kagura and no, kabuki drama and the Bunraku puppet theatre through film and videocassette. The modern and avant-garde theatre are also accessible through translation and videocassette material. This course is designed for upper class majors in theatre arts and non-majors in related fields.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1420 - ANCIENT CHINA
Minimum Credits: 3
Maximum Credits: 3
Comprehensive survey on development of ancient civilization in china from pre-historic time to the unification of China into an Empire. Archaeological evidence and literary materials are both sources of information. The main themes include urbanization, feudalism, evolution of state, social changes, and development of various schools of thought.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1421 - MEDIEVAL CHINA
Minimum Credits: 3
Maximum Credits: 3
This course covers the period of disunity in Chinese history (3rd to 6th centuries AD). The focus is on the process of transformation of Chinese culture during that period; the course will cover changes in social economic, and political aspects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1422 - LATE IMPERIAL CHINA
Minimum Credits: 3
Maximum Credits: 3
From the sixteenth century, China was gradually drawn into the global economy. The effect of this economic change on China's traditional polity, culture, and society, 1550 to 1800, will be studied through lectures and classroom discussions of assigned readings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1423 - MODERN CHINA
Minimum Credits: 3
Maximum Credits: 3
China's abandonment of its traditional political culture and its emergence in the Twentieth Century as a modern nation-state ruled by the Chinese communist party is the primary theme of this course, which will include lectures, readings, films, and classroom discussion.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1425 - HISTORY OF MEDICINE IN CHINA

Minimum Credits: 3
Maximum Credits: 3
This course examines the history of medicine in China in two parts. The first part examines the development of concepts and practices of health and medicine up to the mid-nineteenth century. The second part examines how the introduction of Western medicine changed the healthcare field, forced reforms, and created a dual system of institutionalized tcm and biomedicine.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1431 - HISTORY OF JAPAN TO 1868

Minimum Credits: 3
Maximum Credits: 3
This course surveys the history of Japan from the earliest beginnings to 1868. It is concerned with the creation of the Yamato state, the influence of Chinese institutions, the emergence of warrior rule, and the consolidation of power under the Tokugawa Shoguns. The course focuses on social and economic change and the adaptability of Japanese institutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1432 - THE WORLD OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course covers the period between 1570 and 1870, beginning with the unification of Japan under sixteenth century military war lords and ending with the collapse of the Tokugana Shogunate. Students will read selections from the major scholarly literature on the period.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1433 - MODERN JAPAN

Minimum Credits: 3
Maximum Credits: 3
The history of Japan since 1800. This course stresses the modernization and economic development of Japan into the industrial giant it has become today. It also investigates the major by-product of that development, World War II, and the events that led to the war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1437 - EXPLORING THE SAMURAI

Minimum Credits: 3
Maximum Credits: 3
Samurai is a Japanese word that has entered the English language. It emblazons everything from car models to china patterns. The very popularity of the concept of the warrior lifestyle has obscured its meaning. Through directed reading and writing the students will undertake an in-depth examination of the social, political, and economic world in which the samurai lived as a lens to understanding Japanese culture and Western perceptions of it.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1447 - ECONOMIC HISTORY OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course investigates the industrialization of Japan from 1868 to the present. The course first looks at the early modern precursors to industrialization, 1600-1850. It then turns to the actual process of economic growth in the late nineteenth century, the impact of this process on the outbreak of World War II, and Japan's recovery and rise to economic preeminence after the war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1460 - HISTORY OF JAPANESE WOMEN

Minimum Credits: 3
Maximum Credits: 3
After a brief survey of traditional women, the course will focus on the modern era. Topics will include the role of the state in the social construction

of women's lives; women in rebellion against social constraint and the state; women's sense of self and gender roles in the family; development of a feminist consciousness; political and social activism before and after World War II; political and social liberation in myth" and "truth"; women's roles in Japan's industrial "miracle"; and women's creative expression."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1470 - EURASIAN CURRENTS

Minimum Credits: 3
Maximum Credits: 3
This course investigates the transmission and adaptation of three categories of human culture (material technology, ideas, and images) across the great landmass of Eurasia from approximately 3,000 BC to the present century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1475 - EAST ASIAN BUDDHISM

Minimum Credits: 3
Maximum Credits: 3
Beginning with an introduction to the basic concepts of Indian Buddhism, this course traces the philosophic and meditative development of Buddhism (in historical perspective) as it moves East into China and Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1476 - CHINESE RELIGIOUS TRADITIONS

Minimum Credits: 3
Maximum Credits: 3
This course serves as a historical, doctrinal and practical introduction to the major religious traditions of China-both classical and modern-day.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1477 - RELIGION IN JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course serves as a historical, doctrinal and practical introduction to the major religious traditions of Japan - both classical and modern-day.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1478 - CONFUCIANISM: BASIC TEXTS

Minimum Credits: 3
Maximum Credits: 3
The eighth through second centuries BCE were an era of extraordinary creativity worldwide (axial age). In China, the Analects of Confucius, the Mencius, and the writings of Hsun Tzu and Lao Tzu played the formative role that the Greek Philo classics played in Western society. Over the next two millennia, these texts would play an influential role throughout East Asia. We will study a number of these texts in their entirety, supplementing them with relevant works of scholarship. Also seek to understand the foundational role of these texts by analyzing their assumptions and strategies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1479 - LAW AND LITERATURE IN CHINA

Minimum Credits: 3
Maximum Credits: 3
Course will study interaction of law and literature in Late Imperial and Modern China, starting in the Fifteenth Century when Chinese law codes reached a stable maturity that would keep them relatively unchanged until the 20th century. Topics: relationship between law in the human realm and legal judgments meted out to the dead in the ten courts of hell; penalties of the Ming and Qing codes; fantastic tortures of fiction and drama; huge cultural efforts in establishing modern and civil codes; marriage laws in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1480 - CHINESE THOUGHT

Minimum Credits: 3
Maximum Credits: 3

Designed for honors college students to discern and to appreciate the Chinese way of thinking by reading English translations of text by relevant thinkers. Class discussion will be to compare and contrast Chinese thinking with that of America today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1481 - UHC HISTORY OF CHINESE THOUGHT

Minimum Credits: 3
Maximum Credits: 3
This course is designed for honors college students to discern and to appreciate the Chinese way of thinking by reading English translations of text by relevant thinkers. Reading materials are selected from William Theodore Debary's sources of Chinese tradition. Class discussion will be to compare and contrast Chinese thinking with that of America today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1484 - DEATH BEYOND BUDDHIST CULTS

Minimum Credits: 3
Maximum Credits: 3
Death and beyond in Buddhist cultures mortality is the human condition. This seminar focuses on the philosophical discourse, beliefs and practices relating to death, dying and the afterlife in Buddhist cultures, both traditionally and in modern times. We explore Buddhist cosmology, karmic causality, death tales, postmortem journeys, ancestor rites, mortuary practices and ghost placation. Through primary texts in translation, secondary scholarship, discussion and film, we see how dealing with death tells us as much about life as it does about what lies beyond.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1485 - HISTORY TIBET/TIBETAN BUDDHISM

Minimum Credits: 3
Maximum Credits: 3
The course will compare and evaluate different versions of Tibetan history, using criteria such as: when was the work written? Who was the author? For whom was the work intended? What primary sources were used to support the interpretations of the work? In addition, students will read on Tibetan Buddhism and its interaction with the Western world, which provides supporters of a free Tibet with a platform to obtain Western attention, sympathy, and support for their movement.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1510 - VIO & HUMN RIGH MOD LATN AMERC

Minimum Credits: 3
Maximum Credits: 3
This course provides a critical perspective on human rights struggles in modern Latin America. Our primary focus is the 1960s, 1970s, and 1980s, when Latin America suffered the rule of extraordinarily violent military dictatorships that waged a 'dirty war' against the civilian population. The course considers the origins of these authoritarian governments, their forms of rule, and use of violence. It also explores resistance to the massive violation of human rights; the eventual downfall of the dictatorships; and the types of justice, truth-telling, and commemoration that characterized the turn to democratic forms of governance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1511 - VIO & MEMORY IN LATIN AMERICA

Minimum Credits: 3
Maximum Credits: 3
How do societies that have endured state terror deal with the memory of that collective trauma? In multiple cases, 20th c. Latin American governments used violence against civilians to silence opposition and defend entrenched privilege. What factors make state terror possible? How do people make sense of 'unspeakable' events? Students will focus on case studies from central America, the Caribbean, and South America. Analyzing materials including novels, films, family stories, documentaries, and museums, we will explore the making of historical memory, and assess its political consequences.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HIST 1522 - BRAZIL

Minimum Credits: 3
Maximum Credits: 3
The course begins with an overview of Brazilian culture and of the country's enormous resource base. Cultural change is traced through the pre-

Columbian, colonial, imperial, and republican periods. A major theme throughout is the evolution of a Portuguese heritage into today's distinctive Brazilian national culture. The country is then divided into five regions as a means of understanding its internal diversity. Popular American ideas about subjects like carnival, the Amazon Rainforest, coffee, Copacabana Beach, and the huge foreign debt are also dealt with.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1525 - MEXICO, AZTECS TO THE PRESENT

Minimum Credits: 3
Maximum Credits: 3
Mexican history from the Aztecs to the present. We will discuss the conquest, the Colonial Era, the struggle for independence, nineteenth-century liberalism, the porfirian dictatorship, the Twentieth-Century Revolution, the formation of a single party state, the temptations of socialism, the oil boom, the debt crisis, and the crisis of the system" now being experienced by Mexico."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1526 - CUBA, COLUMBUS TO CASTRO

Minimum Credits: 3
Maximum Credits: 3
A study of Cuba since its discovery. Treatment will be chronological. The 20th century will be stressed. Texts such as Suchlicki, Cuba or Perez, Cuba will be read.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1527 - MEXICO AND CUBA

Minimum Credits: 3
Maximum Credits: 3
Students will examine the divergent historical paths traveled by Mexico and Cuba from colonial times onward. Special emphasis is placed upon comparisons of their wars for independence, and national revolutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1540 - THE CUBAN REVOLUTION

Minimum Credits: 3
Maximum Credits: 3
A study of Cuba's Revolution (1959-present), the nature of socialism and of Castroism, the Soviet and U.S. Role, Cuba's foreign interventions, and the current crisis of regime.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1541 - HIST EARLY CARIBBEAN TO EMAN

Minimum Credits: 3
Maximum Credits: 3
This course will consider the early history of the Caribbean.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1545 - RISE FALL NATNL CPTLSM LAT AM

Minimum Credits: 3
Maximum Credits: 3
This course covers the onset of the Great Depression and the consolidation of authoritarian regimes in the late 1970's. Major purpose is to discern the main features in the evolution of national capitalism" during this period, focusing on the history of economic change, expansion of the state, and social conflicts within the broad context of the regions connection to the global economy and the impact of United States policy in the region."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1550 - THE TROPICS IN MODERN HISTORY

Minimum Credits: 3
Maximum Credits: 3
This seminar will explore the history of tropical commodities from the early modern period to the present. Focusing on the role of sugar, coffee,

tobacco, and other products in the economy, politics, and culture of producing areas in the tropics and in the consuming North Atlantic. The course will expose students to a variety of historical interpretations and methodologies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1560 - WOMEN IN LATIN AMER HISTORY

Minimum Credits: 3
Maximum Credits: 3
A course tracing the history of women in Latin America from the conquest to the modern day.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1585 - US-LATIN AMERICAN RELATIONS

Minimum Credits: 3
Maximum Credits: 3
A survey of US-Latin American from 1800 to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1586 - LATIN AMERICAN REVOLUTIONS

Minimum Credits: 3
Maximum Credits: 3
A comparative examination of instances of social and political revolution in Latin American history. Cases considered include the Haitian Revolution (1791-1804), the Mexican Revolution (1910-1917), the Bolivian Revolution (1952), the Cuban Revolution (1959).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1604 - RACE AND RELIGION IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1610 - UNITED STATES COLONIAL

Minimum Credits: 3
Maximum Credits: 3
This is an upper division course that develops the history of the North American English colonies from around 1400 through the early 1760s.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1611 - AMERICAN REVOLUTION 1763-1791

Minimum Credits: 3
Maximum Credits: 3
This is an upper division course that considers the history of Revolutionary America between the 1750s and the 1790s.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1612 - UNITED STATES 1789-1840

Minimum Credits: 3
Maximum Credits: 3
A history of ideas -- social, literary, scientific, political -- that expressed and shaped the culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1614 - CIVIL WAR HISTORY

Minimum Credits: 3
Maximum Credits: 3

This is an upper division course that considers the impact of the Civil War upon the development of the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1617 - UNITED STATES IN THE 1960'S

Minimum Credits: 3
Maximum Credits: 3
This course explores American politics, culture, and society in the 1960s. Topics include the "Camelot's" years of the Kennedy administration, the great society, the Vietnam war at home, the civil rights movement and the rise of the new left and women's liberation movements, rock and roll, the sexual revolution and the counterculture, and the emergence of new age spirituality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HIST 1619 - UNITED STATES SINCE 1945

Minimum Credits: 3
Maximum Credits: 3
Social, economic, and political changes in American society since World War II. Topics include the post-industrial economy, urbanization, women, minorities, education, political movements, government, parties, and political participation. Emphasis is on the massive changes during those years and the impact on people, institutions and government.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1621 - HIST OF THE SOUTH THRGH 1880S

Minimum Credits: 3
Maximum Credits: 3
This class will give students experience of dealing with the history of a region within the United States and will permit them to place the history of the South within the context of developments within the nation as a whole. It will also play an important role in expanding our knowledge dealing with slavery and the history of a broadly defined Atlantic region which includes Western Europe, Africa, and North and Latin America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1622 - IMMIGRATION & AMERICAN DIVRSTY

Minimum Credits: 3
Maximum Credits: 3
This course examines the long history of migration to North America, with a special focus on relations among immigrants and the often equally mobile minority populations of the USA. Students will read both immigrants' stories about their lives and scholars' analyses of migration and mobility. They will be encouraged to consider the importance of mobility and migration in their own family and community histories. Through a series of short papers, students will practice thinking and writing as historians.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1625 - HISTORY OF THE AMERCN FRONTIER

Minimum Credits: 3
Maximum Credits: 3
This course explores the settlement and development of frontier regions across the continent, emphasizing 19th century experiences. Diverse and distinctive frontier societies emerged from the processes associated with land acquisition, exploration, Indian relations, Westward migration, economic development, social organization, governance, and urbanization. The different and conflicting interpretations of the frontier experience raise important questions and perspectives about the character of American society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1626 - HISTORY OF U.S. LANDSCAPE

Minimum Credits: 3
Maximum Credits: 3
This course explores the emergence, evolution and diversity of the American vernacular landscape from colonial origins to the mid-Twentieth Century. The changing landscape, which includes buildings, land use, and other settlement features, is examined in relation to economic development, cultural diffusion, social change, and technological innovation. Despite standardizing processes distinctive regional, often folk, landscapes have endured and impart a diversity to the landscape visible to those who wish to take the time to observe and comprehend.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1627 - RELIGION AND LAW

Minimum Credits: 3
Maximum Credits: 3
Religion and law examines the role of religious freedom in American history, from colonial days to the present, focusing on documents that predate the first amendment of 1791, as well as upon central supreme court cases that helped define what "legal religion" means as a category in the United States. Students will read court cases and become familiar with arguments for and against the ideal of religious freedom, including court cases involving the Amish, Mormons, Santeria, and the use of religious symbols in public places
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1631 - THE AMERICAN LEFT 20TH CNTUR

Minimum Credits: 3
Maximum Credits: 3
An upper division undergraduate writing and research seminar on the history of the American left.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1640 - UNITED STATES POLITICAL PRTY 1

Minimum Credits: 3
Maximum Credits: 3
In the United States political parties were not the result of invention or adoption, but of an evolutionary process. This course analyses the English roots and colonial experience which provided the ingredients for embryonic national parties after 1789. From that point the course traces the milestones, procedures, and techniques that led to the two-party system we know today. This maturity was not reached until the Civil War era (1854-1874), the final period covered by the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1641 - MODERN AMERICAN POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines four party systems: (a) years of party rivalry (1854-1894) in which civil rights and property rights successively dominated the national scene, (b) years of republican dominance (1894-1930) in which sweeping domestic reforms and emerging world responsibilities held the limelight, (c) years of democratic dominance (1930 1968) in which an economy of abundance and responsible internationalism provided the major challenges, and (d) years of participatory democracy (1968-present).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1645 - AMERICAN ECONOMIC HISTORY

Minimum Credits: 3
Maximum Credits: 3
The course presents a survey of the strategic factors in the economic development of the United States from colonial times to the great depression. The topics covered include the record of economic growth, the process industrialization and its major phases, British mercantilism, the role of technological change, demographic history, the slave economy, distribution of income, urbanization, and the financial sector.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1646 - ECONMC & BUSINSS HISTORY U.S.

Minimum Credits: 3
Maximum Credits: 3
The historical background of current major economic issues. Covers boom and bust; industrialization; productivity trends; changes in business organization; relations between business and society; ideological battles over the free market system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1653 - COLD WAR AMERICA IN THE WORLD

Minimum Credits: 3
Maximum Credits: 3

This course explores the impact of the Cold War on the American home front during its years of peak influence, 1945-1965. We will investigate the postwar division of the world into two opposing camps, and then take up topics such as McCarthyism, American reactions to the atomic bomb, the culture of consumption, suburbanization, and youth culture. We will ask how the cold war climate fostered (or hindered) social movements for racial equality, participatory democracy, and women's rights. At its close, the course asks which hallmarks of the early cold war - from lonely crowds to paranoid politics - persist today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1655 - AMERICAN WORKERS 19TH CENTURY

Minimum Credits: 3
Maximum Credits: 3
This course examines American working class formation, development, and recomposition during the nineteenth century, and workers' impact on American economic, political, and cultural development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1656 - AMERICAN WORKERS 20TH CENTURY

Minimum Credits: 3
Maximum Credits: 3
This course examines the experiences of American workers during the second Industrial Revolution of the early Twentieth Century, the emergence of a government-sponsored national system of labor relations in the 1930s and 1940s, the structural changes in the economy and labor force since 1950, and the subsequent breakdown of the new deal formula for class relations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1660 - GENDER & SEXTY IN US TO 1865

Minimum Credits: 3
Maximum Credits: 3
This upper-level course is part of a two-course sequence which surveys the history of women in the United States. Part 1 focuses on women's experiences from the 1600s to the 1880s with special attention to class, ethnic, and geographic differences among women.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1661 - US GENDER/SEXUALITY SINCE 1865

Minimum Credits: 3
Maximum Credits: 3
This upper-level course is part of a two-course sequence which surveys the history of women in the United States. Part 2 focuses on women's experiences from 1865 to the present with special attention to class, ethnic, and geographic differences among women.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1662 - TOPICS IN WOMEN'S HISTORY

Minimum Credits: 3
Maximum Credits: 3
This upper-level seminar is devoted to discussing and researching topics in women's history in the United States.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1665 - HISTORY OF THE AMERICAN CITY

Minimum Credits: 3
Maximum Credits: 3
This course examines the development of the American city from its colonial origins to its postindustrial expression after the mid-20th century. The growth of an urban system across the nation is briefly addressed. Most attention is focused on the evolution of the city's economy, geography, social organization, and governance under the forces of rural in-migration, foreign immigration, industrialization, and changing technologies of transportation, communication, and energy.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1668 - HISTORY OF PITTSBURGH

Minimum Credits: 3
Maximum Credits: 3
This course explores the development of Pittsburgh's life and landscape from its frontier origins in the 18th century to its Renaissance of the mid-20th century. The city and its region are addressed as a case study in American social history and urbanization. Pittsburgh offers the opportunity to examine the transformation from a commercial city to an industrial metropolis with the attendant social, political, labor, and redevelopment issues which characterize American urban life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1669 - HISTORY OF BLACK PITTSBURGH

Minimum Credits: 3
Maximum Credits: 3
This course will explore the role and experiences of black Pittsburghers over the past 200 years of the city's history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1670 - 19TH CENTURY AFRICAN AMER HIST

Minimum Credits: 3
Maximum Credits: 3
An examination of the intellectual and social history of black people in the United States between 1817 and 1861. It discusses the life and contributions of the major black political milieu out of which these leaders emerged. This approach will require an examination of the demographic and socio-economic characteristics of black population concentrations throughout the USA during the ante-bellum years in the 19th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1671 - REL AND CULTURE IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
This course will cover issues related to religion and how it intersects with American culture particularly in modern time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1674 - PRIDE AND PREJUDICE

Minimum Credits: 3
Maximum Credits: 3
In a chronological survey the course looks at some of the great political traditions and social movements in the sweep of American history while at the same time exploring the counterpoint of discrimination and bigotry that has occurred as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1675 - MIGRATION IN AMERICAN RELIGION

Minimum Credits: 3
Maximum Credits: 3
An exploration of the role of religion as a force for ethnic solidarity and cultural resistance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1676 - POPULAR RELIGION IN AMERICA

Minimum Credits: 3
Maximum Credits: 3
A survey of religious behavior and religious beliefs in the United States outside of the formal institutional structures of religion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1677 - AMERICAN JEWISH EXPERIENCE

Minimum Credits: 3
Maximum Credits: 3
We analyze the Jewish experience in America since the middle of the 18th century.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1683 - NRTH AMRCN INDANS TRADTNL CULT

Minimum Credits: 3
Maximum Credits: 3
This course examines the effects of European conquest upon North American Indian cultures (1550-1900).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1684 - NATIVE AMERICANS TODAY

Minimum Credits: 3
Maximum Credits: 3
This course examines the origins of dependency among 20th century Native Americans.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1685 - U.S. POPULAR CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course examines the development and social impact of mass-produced and mass-consumed forms of culture in Twentieth Century America.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1686 - WAR & MILITRY IN UNITED STATES

Minimum Credits: 3
Maximum Credits: 3
A lecture-discussion course on the roles military systems play in international and national affairs, as well as in the social and economic life of the U.S. the effects that wars and military service have on the individual, the family, the economy, and politics are also addressed. This is not a course on battles, tactics, logistics, strategy, and command. It is concerned with recruitment and social origins of military personnel; training and value inculcation; combat behavior and morale; war crimes and the laws of war; civil military relations; veterans; and inter-service rivalry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1687 - U.S. FOREIGN POLICY IN AFRICA

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the increasing engagement of the United States in Africa from the late 19th century until the present. Using a case study approach, students will analyze American foreign policy in Africa and explore the varied effects of those policies. These case studies will include the political realities of decolonization, the Cold War, and economic aid and the social and cultural ties of black Americans to Africa. The course will identify specific crises in American and African history as focal points for study, but will also provide a larger narrative about American involvement in both the colonial and post-colonial development of Africa.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1690 - AMERICAN LEGAL HISTORY

Minimum Credits: 3
Maximum Credits: 3
A lecture-discussion course on the creation, transformation, and administration of the common law and equity from the 17th century to the present, its devolution from England and its evolution in America. Courts, the bar, legislatures, regulatory agencies, police, prisons, and the Constitution are all addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1695 - ENVIRONMENTAL HISTORY

Minimum Credits: 3
Maximum Credits: 3
Environmental affairs since World War II with an emphasis on policy controversies. Topics include air and water pollution, public lands, wildlife, energy, toxic chemicals, urban environment, facility siting and more. Emphasis on the rise of environmental values in American society, the resulting policies, opposition to them, and the role of science, economic analysis, technology and management in the public debate.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1700 - INTERNATIONAL URBANISM SEMINAR

Minimum Credits: 3
Maximum Credits: 3
It is undeniable that the world has become integrated through the globalization of social, political, cultural and economic activity. Cities worldwide have been markedly affected by globalization, but in turn have played a role in the process. By utilizing published material, films, slides and the internet, this course will compare the economic, social, political, historical and cultural differences between different global cities as they struggle to survive in the twenty-first century.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1705 - MAJOR WORKS IN WORLD HISTORY

Minimum Credits: 3
Maximum Credits: 3
Students will read and debate significant portions of twelve major works in world history, addressing issues such as technology, migration, trade, law, gender, environment, and globalization. This reading, plus writing and discussing papers on it, will provide students with a solid basis in global historical studies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HIST 1706 - GLOBAL PHARMACEUTICALS

Minimum Credits: 3
Maximum Credits: 3
This course examines the global development of the modern "pharmaceutical era" through historical, anthropological, and sociological analyses. It traces the ever-increasing role played by chemical substances in shaping conceptions of health, treatment, and society itself from the early modern period until the present day. Topics include pharmaceuticals as an arena for competing and complimentary interests, the social character of drugs (both legal and illegal), the blurred lines between medicinal and recreational use, and the evolvement of government and scientific regulation of medications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1707 - GENDER IN GLOBAL HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course examines world history from 1500 through the present from the perspective of gender. It provides an introduction to modern world historical patterns and processes, with a focus on issues of women, gender, and sexuality. The course considers the construction of gender in pre-feminist and post-feminist contexts, and explores how global historical developments have shaped ideologies and politics of gender. The course emphasizes topics including slavery, colonialism, imperialism, industrialization, nationalism, and environmentalism, through the lens of gender.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1709 - GLOBAL HISTORY AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Entails the exploration of a fairly new sub-field within world history: the study of long-distance, transnational, inter-cultural circuits of scientists, texts, instruments, and discourses between approximately 1500 and the present. Focusing on scientific developments in the Americas, Asia, and Africa, this course interrogates Eurocentric accounts of the history of knowledge.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1710 - JEWISH MYSTICISM

Minimum Credits: 3
Maximum Credits: 3
Mystical traditions and practices including Kabbalicism in Judaism through the early modern period are introduced and discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1711 - GENDER AND JEWISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course will highlight the impact of gender in modern Jewish history, revealing the divergent experiences of Jewish women and Jewish men as they adapted to the modern world. We will take an international approach to theis history, tracing the ways in which circumstances in Europe, America, and the Middle East shaped how Jews understood and responded to gender roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1714 - DEATH IN MEDITERRANEAN WORLD

Minimum Credits: 3
Maximum Credits: 3
In many cultures, people sometimes ask fundamental questions about their existence, including, "what happens after we die?" This course will focus on the evolution of beliefs and rituals related to death and the afterlife in and around the ancient Mediterranean Basin, including Egyptian, Greek, Etruscan, and Roman cultures. Using an interdisciplinary approach, we will combine methodologies from anthropology, classics, history, and religious studies. Topics to be covered include myths of the afterlife, books of the dead, magic and death rituals, funeral practices and paraphernalia (disposal of the dead), cults of the dead, divinization, heaven and hell, judgment, and the impact of christianization on the ancient understanding of death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1715 - EMPIRES IN THE MODERN WORLD

Minimum Credits: 3
Maximum Credits: 3
Through lecture and discussion, this course reviews empires in world historical context. Themes of governance, economy, war, culture, social organization, and colonies and decolonization are explored in three segments: empires 1400-1800, 1800-2000, and the future of empire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1716 - INDIAN OCEAN WORLD HISTORY

Minimum Credits: 3
Maximum Credits: 3
Explores the Indian Ocean world from the rise of Islam through the 19th century age of imperialism. Shows how global networks and connections created a vibrant system of economic, technological, and cultural exchange. Begins with interactions of the various peoples, states, and religions of the Indian ocean from the 8th to 15th century; then focuses on contributions of Europeans, showing how the Indian Ocean world became entwined in a global community. The course provides background to the centrality of the Indian Ocean in the world of today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1720 - WEST AFRICA/ERA OF SLAVE TRADE

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the history the societies of West and West-central Africa. It explores the enormous linguistic and cultural variation among these societies and examines their political, economic and social evolution during the centuries of the trans-Atlantic slave trade (roughly 1600 to 1850). Students are encouraged to think about how complex historical processes occurring around the entire Atlantic ocean basin affected the development of states and societies in Western Africa.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1721 - HISTORY OF SOUTHERN AFRICA

Minimum Credits: 3
Maximum Credits: 3
Surveys the history of Southern Africa in order to provide an introduction to the region's multicultural history from the pre-colonial era to the 1990s. Particular attention is given to environmental crises, economic development, European colonization, African resistance movements and the apartheid era in South Africa. The course prepares students to analyze issues of race, ethnicity, colonialism, economic development, immigration, and globalization in both regional and transnational perspectives. Teaching will be a combination of lecture and discussion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1722 - MODERN SOUTH AFRICAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
The course will be organized chronologically and use specific conflicts (strikes, political demonstrations, repression, etc.) to focus on various key moments in South African history. The course will utilize both secondary readings from books and articles and a large number of primary materials (ranging from manifestos to novels to film) to generate discussion and further an understanding of the roots of conflict and creation of identity in modern South Africa. Labor and the organization of the work and production processes will be one lens through which ethnic and racial antagonism can be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1740 - CHAN/ZEN BUDDHISM

Minimum Credits: 3
Maximum Credits: 3
This seminar examines the relationships between doctrine, practice and institution and the culture(s) in which they grow through examination of major themes and sources of authority in Chan/Zen Buddhism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1741 - POPLR RELIGION IN CHANGNG JAPN

Minimum Credits: 3
Maximum Credits: 3
This seminar, through a thematic treatment of popular and civil religion, informed by religious and cultural history, looks at the process through which religion participates in shaping and reshaping worldviews, behaviors, and practices in modern Japan.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1746 - ATHLETICS OF THE ANCIENT WORLD

Minimum Credits: 3
Maximum Credits: 3
This course examines athletic competition, popular games, gladiatorial and other exhibitions of the ancient Greeks and Romans. Much emphasis on the social/cultural context and underlying values. Attention to relevant artistic archaeological, and historical settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1751 - NOMADIC EMPIRES CENTRAL ASIA

Minimum Credits: 3
Maximum Credits: 3
The age of nomadic prestige in Central Asia and Middle East is often seen as a period of cultural and economic decline of the large areas conquered by Genghis Khan and Timur Lenk. This course goes beyond the picture of nomadic military enterprise of that period (late medieval times to the early 16th century) to examine the nomadic state; building, patterns of migration, culture and society, and economy of the Genghisid and Timurid states.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1752 - UTOPIAS 19TH & 20TH CENTURIES

Minimum Credits: 3
Maximum Credits: 3
Examination of utopian thinking and writing in the 19th and 20th centuries. The search for the ideal social form which will provide the full satisfaction of all human needs. Is this possible?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1753 - THE OTTOMAN EMPIRE (1300-1923)

Minimum Credits: 3
Maximum Credits: 3
This course traces the history of the ottoman empire from its origins as an obscure band of frontier warriors, to the highpoint of its geopolitical power in the sixteenth century, and on to its further evolution as an increasingly complex and peaceful society, down to the opening of the period of European imperialism and nation building. It will address not only the ottomans' political power, but also those economic, social, and cultural factors that helped explain that power and gave the empire such a distinctive place in the history of Western Europe, Balkans and the middle east.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1754 - RELIGION AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course will be to consider the public and political implications of religion in several different political systems. We will begin with an overview of the implications for politics of various types of religious systems. Religious beliefs and institutions have wide ranging implications for civic norms, public policy, political leadership, and the treatment of various social groups, including women and minorities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1755 - UHC COMP VIEWS OF FREDM 19-20C

Minimum Credits: 3
Maximum Credits: 3
An in-depth investigation of the conceptions and meanings of freedom" as they developed in and out of the contexts of various societies in the 19th and 20th centuries."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1756 - COMPARATIVE CIVILIZATIONS

Minimum Credits: 3
Maximum Credits: 3
This course is offered to students in their freshman and sophomore years. It compares and contrasts the characteristics of major clusters of civilizations that are either continuously active from the early days to the present time, or have been transmitted from one cluster to another through its historical development. The choice of these clusters is based on the specialties of faculty members who are jointly teaching the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1757 - RELIGION IN INDIA 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the religious traditions that have developed in the Indian subcontinent and their role in shaping the cultures of India.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1758 - RELIGION IN INDIA 2

Minimum Credits: 3
Maximum Credits: 3
Focusing on the modern period and on Hinduism, we examine recent developments in the history of religion in India.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1759 - JEWS IN THE ISLAMIC WORLD

Minimum Credits: 3
Maximum Credits: 3
A survey of Jewish life in Spain, North Africa and the Middle East in medieval and early modern times.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1760 - JEWS & JUDM IN THE MEDEVL WRLD

Minimum Credits: 3
Maximum Credits: 3
An introduction to the facets of medieval and early modern Jewish life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1761 - CONTEM ISLAM: INTERNAL DEBATES

Minimum Credits: 3
Maximum Credits: 3
From the second part of the 19th century, Muslim intellectuals have been involved in an intensive ideological/theological debate. While this debate was prompted by the strong presence and influence of the West, it has not been simply a debate between the Islamic fundamentalism and the Western world. The modernist and fundamentalist debates of the last century are primarily the internal debates around historically significant issues that transformed Islamic intellectual traditions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1762 - RELIGION & POLITICS MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the role of religion in the politics of the contemporary Middle East. A general survey of the role of religion in the history of the region, and a cross regional historical-comparative view of the relationship between religious phenomena and political movements and institutions set the context for an investigation of the politics of religion in recent developments in the region.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1763 - POLITICS OF CNTMPRY MIDDL EAST

Minimum Credits: 3
Maximum Credits: 3
The main emphasis of the course will be on conflict and conflict resolution in the Middle East. Conflict has been a constant feature of the region since 1945. This course will be primarily concerned with how and why these conflicts are generated, escalate, become protracted, and are resolved.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1764 - ISRAEL: STATE/SOCIETY 1948-88

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the impact of immigration and its role in the shaping of the state, the interaction between religion and politics (state), and the experiences of the Arab citizens of the Jewish state.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1765 - ISRAEL IN THE BIBLICAL AGE

Minimum Credits: 3
Maximum Credits: 3
This course explores the history and development of the people of Israel in ancient times. What do we know about the Israelites and how do we know it? Students will read both biblical and extra-biblical materials and study the remains of key archaeological sites. They will learn about everyday life in ancient Israel, the role of class and gender, life-cycle events, religious festivals, political institutions, systems of belief, and famous personages in history and lore. The trajectory of the course will begin with the Near Eastern origins of the people, continue through the rise of the Israelite and Judahite monarchies, and end with the post-exilic reestablishment of the Second Temple commonwealth in the Persian period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1766 - MODERN ISRAEL

Minimum Credits: 3
Maximum Credits: 3
We trace the history of modern Israel from the idea of the return in the second half of the 19th century through the state of Israel today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1767 - JEWS & JUDAISM IN MODERN WORLD

Minimum Credits: 3
Maximum Credits: 3
Here we examine the specific challenges that the modern period posed to existing Jewish life and the nature of the responses made by Judaism to those challenges.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1768 - CHRISTIANS, MUSLIMS, JEWS

Minimum Credits: 3
Maximum Credits: 3
The emergence of Christianity from Judaism and the implications of the relationship between Christianity and Judaism have been of critical importance in the history of Europe and the world and both Christians and Jews continue to grapple with the theological, political, and cultural impacts of that relationship in today's world. This course surveys the relationships between Jews and Christians from the time of Jesus through the modern era, as viewed by Jews, Christians, and sometimes those in neither category. Topics include the Jewish origins of Christianity; rabbinic views of Christianity and church fathers' views of Judaism; the status of Jews and Jewish communities in the Roman Empire and in Medieval Europe, medieval persecution of Jews; interreligious disputations and polemics; the impact of the reformation and the enlightenment; Jewish-Christian relations in modern 'secular' states; the rise of new forms of anti-Semitism; the Holocaust; and post-Holocaust dialogue and new theologies of interreligious encounter. We will discuss not only the significance of Jewish-Christian interactions for European and American history but also assess Jewish-Christian relations as a case study in the broader history of religious diversity, pluralism, and conflict.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1769 - HOLOCAUST HISTORY & MEMORY

Minimum Credits: 3
Maximum Credits: 3
The Holocaust, that is, the genocide of six million Jews in Nazi-occupied Europe during World War II -- was a critical event of the early twentieth-century that continues to resonate today. Our historical survey will look at the Holocaust primarily through the experiences of its Jewish victims, though we will discuss some of the other groups, such as the Roma, disabled people, and gays and lesbians, who were also targeted and systematically murdered by the Nazis. Additionally, we will think about the perpetrators of the Holocaust and the ideologies that led to the genocide, such as racism, nationalism, and anti-Semitism. Finally, we will move beyond the history of the Holocaust to think about the ways that this event has been remembered and reconstructed by survivors, nations, institutions, museums, the arts, popular culture and the media. Looking at how institutions here in Pittsburgh commemorate the Holocaust will offer us local, concrete examples of how people continue to grapple with this history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1770 - AFTER THE HOLOCAUST

Minimum Credits: 3
Maximum Credits: 3
A survey of the impact of the Holocaust on Jewish life in the Soviet Union, the Middle East, and the United States in the period 1945-1985.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1772 - RACE, CASTE ETHNY GLBL PERSP

Minimum Credits: 3
Maximum Credits: 3
This course will compare and contrast the ways in which race, caste and ethnicity operate in a variety of national, economic, demographic and cultural settings, notably Cuba, Brazil, South Africa, India, China, and the U.S. The course will include films, readings and slides obtained for a semester-at-sea voyage to those countries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1773 - SLAVERY/ANTI-SLAVRY GLBL PERSP

Minimum Credits: 3
Maximum Credits: 3
This course traces the modern cycles of an institution that flourished in all areas of the globe for thousands of years. During the past 500 years, the very European states that had already eliminated slavery from their own communities expanded and then abolished the institution in their overseas dominions. Finally, just as Europeans ending slavery throughout the rest of the world new and more virulent forms of bondage emerged in the Twentieth Century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1775 - ORIGINS OF CHRISTIANITY

Minimum Credits: 3
Maximum Credits: 3
This course presents a historical-critical investigation of Christian origins. Special attention is paid to varieties of 1st century Hellenistic and Palestinian Judaism within the Greco-Roman world. Primary readings include selected Biblical passages and apocrypha, 1st century historians and philosophers (Josephus, Tacitus, Suetonius, and Philo), the New Testament corpus (including Paul and the Pastorals), and selected readings from the

Dead Sea Scrolls. In addition there will be assignments from various modern New Testament critics, historians, and theologians.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1776 - VARIETIES OF EARLY CHRISTNITY

Minimum Credits: 3
Maximum Credits: 3
An examination of the diverse strands of Christianity as developed both in the Christian bible and outside of it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1777 - CATHOLICISM & GLOBAL MODERNITY

Minimum Credits: 3
Maximum Credits: 3
The course focuses on the changing relationship between catholicism and the modern world in the 19th and 20th century. It will look at culture wars, Catholic revival and colonialism. It investigates how the globalization of the Catholic community affected European Catholicism and how the church tried to adapt to these changes, most visibly during the II Vatican council (1962-65). The course also deals with the tensions between Catholicism and revolutionary movements in Europe, South America and Asia, particularly at the impacts of liberation theology and the opposition against communism.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1778 - WOMEN IN JUDAISM

Minimum Credits: 3
Maximum Credits: 3
This course explores the image and legal status of women in Judaism, from antiquity to the present.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1779 - HISTORY AND IMAGINATION

Minimum Credits: 3
Maximum Credits: 3
This course examines the political, religious, and cultural history of Jerusalem, focusing primarily on Jerusalem as a concrete and conceptual phenomenon in the premodern period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1780 - JEWS AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
This course will trace the eastern European Jewish diaspora to urban destinations around the world, before training its lens on the Jewish encounter with American cities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1781 - ROMAN HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course surveys the history of Rome from the earliest times through the late empire, with particular emphasis on political and social developments during the late republic and early empire.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1782 - EMERG OF GRECO-ROMAN CIVILZTN

Minimum Credits: 3
Maximum Credits: 3
This course attempts to isolate those elements which are particularly characteristic of Greco-Roman civilization, to identify the components out of which each characteristic element grew, and to understand the process of its evolution in light of various models and explanatory hypotheses.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1783 - GREEK HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course surveys the history of ancient Greece, with special emphasis on political and social developments during the fifth century B.C.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1784 - GREEK HISTORY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HIST 1783 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 1785 - EMERG GRECO-ROMAN/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HIST 1782 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 1786 - ROMAN HISTORY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HIST 1781 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HIST 1787 - CHRISTIAN-MUSLIM RELATIONS

Minimum Credits: 3
Maximum Credits: 3
This course surveys the historical interaction between Christian and Muslim communities over the past 1400 years and focuses on the art of polemic as an important tool in the human construction of religious concepts. We will begin by understanding the evolution of Islam in the seventh century, and continue with the encounters between Islam and the byzantine empire, and the medieval caliphate's encounters with the West, including the crusades. We will then consider specific elements of the interaction between Christian and Muslim communities, drawing from a variety of Muslim communities in Europe and the United States.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HIST 1788 - ALEXANDER & HELLENISTIC AGE

Minimum Credits: 3
Maximum Credits: 3
This course deals both with the career of Alexander the Great and with political, social, and intellectual developments in the several successor states into which Alexander's Empire dissolved after his death.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1789 - LAW & SOCIETY IN GREECE & ROME

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course examines the legal systems of Ancient Greece and Rome with particular attention to interrelations with contemporary society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1790 - MEDITERRANEAN WORLD

Minimum Credits: 3
Maximum Credits: 3
With uniformity and diversity in the Mediterranean world as its overarching theme, this course examines the singularly important role of the sea between the lands" from the fall of Rome to the present day. Concentrating on the lands and people of the Northern shore from Gibraltar to Anatolia, the focus alternates between thematic approaches to the Mediterranean region as a whole and specific attention to the sub-regional histories of Iberia, Italy, and the Balkans."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1791 - JEWSH CULTUR IN MEDIEVAL SPAIN

Minimum Credits: 3
Maximum Credits: 3
Medieval Spain was the scene of varied interactions among Jews, Christians, and Muslims. Jews participated vigorously in this culture as they did nowhere else at the time, producing an enduring heritage that is universal in its appeal.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1792 - NAVIGATING WORLD HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course surveys the content of world history and approaches of world historians, at an advanced undergraduate level. It provides both a comprehensive narrative and a critical analysis of world history by asking how best to teach world history. Through lecture, discussion, and group work, it emphasizes global conceptualization, world geography, social change over time, and such major themes as flows of goods, ideas, and peoples. It provides guidance to students preparing to teach world history at the high school level and to graduate students preparing to teach college world history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1796 - HISTORY OF AFRICA SINCE 1800

Minimum Credits: 3
Maximum Credits: 3
Surveys history of Africa from 1800 to the present day. Major themes include African statecraft, European colonization, African nationalism and postindependence problems. Processes of African institutional growth within the perspectives of resiliency, change and adaptation will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HIST 1900 - HISTORY INTERNSHIP

Minimum Credits: 1
Maximum Credits: 6
This course enables students to combine academic training and practical work experience related to the major.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

HIST 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 9
Individual project administered under the supervision of a faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

HIST 1902 - WRIT: HISTORY HONORS SEMINAR

Minimum Credits: 3
Maximum Credits: 3
The content of the course will vary according to the faculty member teaching it. It will center on a theme involving historical writing/research, developing skills required for primary historical research. Students will complete a number of writing requirements. Attention will be directed towards style, structure, and issues of academic presentation, as well as historical content. Seminar forms a part of the departmental honors program.
Academic Career: UGRD

Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HIST 1903 - HONORS THESIS/MAJORS
Minimum Credits: 1
Maximum Credits: 9
This course is only for students writing an honors thesis.
Academic Career: UGRD
Course Component: Thesis Research
Grade Component: Letter Grade

HIST 1904 - UNDERGRADUATE RESEARCH ASST
Minimum Credits: 1
Maximum Credits: 6
This course offers students the opportunity to participate in a research project, working as a research assistant under the guidance of a history professor. The aim of the course is to give the student training in historical research methods, and also to promote mentoring relationships between students and faculty. Subject to faculty approval more than one enrollment is possible.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

History and Philosophy of Science

HPS 0410 - EINSTEIN: MDRN SCI & SURPRISES
Minimum Credits: 3
Maximum Credits: 3
Do astronauts age more slowly? Can a finite universe have no edge? Is time travel possible? Can time have a beginning? Does the moon change because a mouse looks at it? Surprisingly, modern science answers yes to all these questions. This course provides simple-to-understand explanations of these and other related questions, their broader philosophical significance and their histories. The course is suitable for students with no science background but with an interest in the world of modern science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0419 - REVOLUTIONS & REVOLUTIONARIES
Minimum Credits: 3
Maximum Credits: 3
This course examines revolutionary change in all of its aspects: social, political, historical, cultural, and scientific. Revolutions will be considered in terms of their intrinsic context as well as in terms of the explanatory theories advanced to explain them. Change, and the identification of change, in all its manifestations is the core subject of this course. The ways in which the inter play between the past and the present conditions our social and intellectual outlook is the main focus. In this connection we study the notions of progress and progressiveness.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0427 - MYTH AND SCIENCE
Minimum Credits: 3
Maximum Credits: 3
The Greeks in the sixth to fourth century B.C. Initiated forms of thinking we have from then on called scientific" and "philosophical". This course examines the question of how science is distinguished from "non-science" by studying the role of myth and science in ancient Greece. The aim is to understand what distinguishes the ideas of the first scientists and philosophers from those earlier beliefs called myth."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0430 - GALILEO & CREATN MDRN SCIENCE
Minimum Credits: 3
Maximum Credits: 3
Galileo is the father of modern science. This course explores his revolutionary discoveries, his attack on Aristotle's natural philosophy, and his transformation of the notion of science, and his epoch-making clash with the religious authorities of the time.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0437 - DARWINISM AND ITS CRITICS

Minimum Credits: 3
Maximum Credits: 3
Charles Darwin's ideas have had an enormous impact on biology and on culture generally. These ideas have been criticized within biology, by philosophers, social theorists and religious fundamentalists. This course studies the historical growth of Darwinism and the criticisms mentioned, and evaluates those criticisms and their impact on the theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0515 - MAGIC, MEDICINE AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course introduces students from all backgrounds to humanistic ecology, an interdisciplinary method of learning which combines the humanities with science. Humanistic ecology teaches how to integrate scientific research, philosophy, pedagogy, literature, and health in a holistic framework. Students will learn about classical forms of self-transformation, healing, and knowing that will help them find original pathways to knowledge and wellbeing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0517 - THINKING ABOUT THE ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
The goal of HPS 0517, thinking about the environment, is to promote clear and rigorous thinking about environmental issues such as nuclear power, global warming, acid rain, or the use of chemical pesticides. Deciding where to stand on such issues depends on being able to evaluate both scientific and philosophical arguments. We aim to help students develop the skills needed to find the best available information on an environmental issue, and to make informed judgments about what conclusions, and what actions, are warranted on the basis of that information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0545 - SPACE-TIME-MATTER ANTIQU-20THC

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course for students with either scientific or non-scientific backgrounds. It examines the development of the concepts of space, time and matter from the crucible of ancient Greece to the 17th century scientific revolution and foreshadows the revolutionary modifications of the 19th and 20th centuries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0546 - SPACE-TIME-MATTER/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HPS 0545 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0605 - THE NATURE OF THE EMOTIONS

Minimum Credits: 3
Maximum Credits: 3
This course will examine selected historically important theories and portrayals of the human emotions and passions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0608 - PHILOSOPHY AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
An introductory course in philosophy of science
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0609 - PHILOSOPHY & SCIENCE/WRIT PRAC

Minimum Credits: 4
Maximum Credits: 4
This practicum is the special writing recitation for the lecture course `philosophy and science'
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0610 - CAUSAL REASONING

Minimum Credits: 3
Maximum Credits: 3
Do school vouchers really help inner city students become better educated? Do gun control laws really make society safer? This course examines how scientists reason about causal claims like these. It considers use of scientific statistical data that informs our public policy debates. The course uses an interactive, web-based text and exams. In addition, there is an on-line virtual causality lab" in which students will set up, run, and then analyze simulated experiments. They will construct causal theories, use the lab to derive predictions from these theories, and then test the predictions against the simulated data. While course materials are delivered on-line."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0611 - PRINCPL OF SCIENTIFIC REASNING

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with the skills to understand and assess scientific claims that confront them in daily life. Special attention will be given to reasoning based on samples, evaluating hypotheses and causal claims, as well as common mistakes in scientific reasoning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0612 - MIND AND MEDICINE

Minimum Credits: 3
Maximum Credits: 3
Mind and medicine deals with fundamental problems and questions that arise in considering the nature of mental health, mental illness, and branches of medicine that aim to promote mental health and treat mental illness. We will begin by considering the concepts of 'health', 'disease' and 'illness' in general, and several different models of medicine. From there we will move on to a consideration of the nature of explanation in medicine generally. We will examine some explanatory successes in the domain of physical health and disease, and consider how those successes were achieved. In the second half of the course we will look at controversies over the question of whether there is such a thing as mental illness, and if so, how one is to define, diagnose and treat it. In order to better understand what is at stake, we will explore these controversies by focusing on a specific mental illness, schizophrenia. Looking at recent research on schizophrenia will allow us to see the extent to which the kind of understanding we have achieved in physical medicine is or is not to be expected with serious mental illness. Students who successfully complete this course will be able to identify and analyze different philosophical approaches to selected issues in medicine and psychiatry; have gained insight into how to read and critically interpret philosophical arguments; and have developed skills that will enable them to think clearly about foundational questions as future or current health care providers, policy makers, and consumers. This course is also part of a core sequence leading to certification in the Conceptual Foundations of Medicine Certificate Program, and is a companion course to HPS 0613 (Morality and Medicine) but may be taken independently. The course is of particular interest to pre-medical and pre-health care students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0613 - MORALITY AND MEDICINE

Minimum Credits: 3
Maximum Credits: 3
Ethical dilemmas in the practice of health care continue to proliferate and receive increasing attention from members of the health care profession, ethicists, policy makers, and the general public as health care consumers. In this course we will examine a number of ethical issues that arise in the context of contemporary medical practice and research by analyzing articles and decision scenarios. Topics to be covered typically include the physician-patient relationship; informed consent; medical experimentation; termination of treatment; genetics; reproductive technologies; euthanasia; resource allocation; and health care reform. Students who successfully complete this course will be able to identify and analyze different philosophical approaches to selected issues in medical ethics; have gained insight into how to read and critically interpret philosophical arguments; and have developed skills that will enable them to think clearly about ethical questions as future or current health care providers, policy makers, and consumers. This course is part of a core sequence leading to Certification in the Conceptual Foundations of Medicine Certificate Program, and is a companion course to HPS 0612 (Mind and Medicine) but may be taken independently. The course is of particular interest to pre-medical and pre-health care students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0614 - MIND & MEDICINE/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HPS 0612 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0616 - ARTFCL INTELGNC & PHIL OF SCI

Minimum Credits: 3
Maximum Credits: 3
Artificial intelligence has been and still is one of the core disciplines of contemporary cognitive science. It raises fascinating questions: can robots think? Is artificial intelligence really intelligence? Could artifacts be conscious? What can we learn about the human mind from building robots? How should intelligent robots be built? We will survey the main controversies that artificial intelligence has provoked.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0620 - SCIENCE AND RELIGION

Minimum Credits: 3
Maximum Credits: 3
This advanced undergraduate course addresses two questions: does the scientific understanding of the world suffer from a kind of incompleteness that can be remedied by the supernaturalist religions? Or is there even a clash between contemporary science and such religion?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0621 - PROB SOLVING: HOW SCI WORKS

Minimum Credits: 3
Maximum Credits: 3
This course provides a gentle introduction to quantitative methods in science, showing how these methods are designed to control our natural tendencies to misread nature. It uses the examples of the science of energy and statistics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0623 - EXPLANS OF HUMANS & SOCIETY

Minimum Credits: 3
Maximum Credits: 3
This course will look at some of the original writings of the three giants" of modern psychology: Freud, Skinner and Piaget. The three movements of psychoanalysis, behaviorism and developmental cognition will be explored through their most articulate and well known proponents. Topics to be discussed include the nature of the emotions, the structures of behavior and the forms of human thought. Specifically, we will discuss how the concepts of desire, love, jealousy, homosexuality, skilled actions, language, and logical and moral reasoning can be used to understand human beings."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0624 - EXPLAN HUMNS & SOCTY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HPS 0623 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0626 - DEVELOPMENT OF MODERN BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course is an alternative second" course in the two course sequence constituting an introduction to the biological sciences. (Currently it is an alternative to Biological Sciences 0160.) The subject matter includes classical and molecular genetics, evolutionary theory and ecology. This course includes historical and methodological readings in addition to those from the standard first-year biology text."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0628 - PARADOX

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to use the natural appeal of paradoxes to introduce students to the methods of philosophical analysis and to give them a taste of the basic content of a wide range of branches of philosophy of science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0630 - SCIENCE AND PSEUDOSCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course probes the distinction between genuine and pseudo-science using a number of case studies, including ESP and other paranormal phenomena, scientific creationism, UFO's and extraterrestrial life, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0633 - SCIENCE, PHIL & PUBLIC POLICY

Minimum Credits: 3
Maximum Credits: 3
The course studies problems that arise in making public policy decisions. Topics studied include the nature of science, the nature of technology, our system of values, relations between science, values, and technology. Case studies include teaching creation science in public schools, genetic engineering, legislating sexual morality, and other policy issues on which scientific knowledge has some bearing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0634 - SCI, PHIL & POLCY/WRIT PRAC

Minimum Credits: 0
Maximum Credits: 0
Writing practicum for students taking HPS 0633 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0635 - SCI, PHIL & POLCY/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking HPS 0633 as a writing course.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HPS 0682 - FREEDOM AND DETERMINISM

Minimum Credits: 3
Maximum Credits: 3
This course analyzes three concepts of determinism- theological determinism, logical determinism or fatalism, and physical determinism -- and examines the various philosophical arguments designed either to show that determinism and free will do clash or alternatively that they are reconcilable.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0685 - MATHEMATICS AND CULTURE

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to the role of mathematical ideas in various cultural settings. It focuses on the use of math in everyday life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 0700 - HISTORY PHILOSOPY MUSICAL SCI

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 1410 - CHANGE, PROGRESS AND IDEOLOGY

Minimum Credits: 3
Maximum Credits: 3
How and why do human societies change? How do we determine that change is progressive? In what ways do scientific change interact? How do ideological currents within societies affect social and scientific change? These questions are at the heart of the issues that concern this course. Its focus is on the nature of societies and on the causes that shape and change relations of authority and social power.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1501 - ANCIENT SCIENTIFIC ASTRONOMY

Minimum Credits: 3
Maximum Credits: 3
In this course we examine Babylonian and Greek mathematical astronomy and the relationship to Greek and near eastern religions and cosmologies. Transmission to other cultures will be noted.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1502 - ASTROLOGY AND WITCHCRAFT

Minimum Credits: 3
Maximum Credits: 3
This course deals with both intellectual currents and popular culture in 17th century England, exploring the relationship between magic, science, and religion, as well as the social forces that led to the belief in astrology and witchcraft.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1508 - CLASSICS IN HISTORY OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Four hundred years ago Galileo Galilei aimed a telescope at the sky. He revolutionized astronomy. Equally revolutionary were his theories and experiments in physics, published in his masterpiece two new sciences. In this course we will learn why Galileo's theories and experiments in physics were revolutionary. We will read Galileo's two new sciences, setting it in the context of the history and philosophy of Western science and civilization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1528 - EURPN INTELLCL HIST 1750-1930

Minimum Credits: 3
Maximum Credits: 3
A course of readings and discussions focused upon selections from major texts in the European intellectual tradition from the enlightenment to the 1930s. There will be occasional lectures on the social and intellectual context; but the predominant emphasis will be on class discussions of primary readings. Examples of possible topics are: Hume and the enlightenment, Rousseau and democratic theory, Kant and the German tradition, burke and conservatism, mill and liberalism, the Romantic critique, Hegel, Marx, Comte and positivism, Durkheim and the new societism, Freud, Max Weber.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1530 - EURPN INTELCL HIST 2 1870-1940

Minimum Credits: 3
Maximum Credits: 3
A course of readings and discussions focused on major texts in the European intellectual tradition from the age of positivism to the second World War. There will be occasion al lectures, especially on the social and institutional contexts, but the predominant emphasis will be on class discussions of primary readings.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1531 - MAN & COSMOS IN RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
An exploration of the intellectual and scientific activity of the European Renaissance and its influence in shaping modern man and the discoveries of modern science.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1551 - HISTORY OF SCIENCE 1

Minimum Credits: 3
Maximum Credits: 3
This is the first of two core" seminars designed to survey the development of scientific thought in Western civilization. In this first seminar, Greek medicine, astronomy, mathematics, biology and physics, its disappearance in the West, its preservation and development in Islam, and finally the emergence of modern science in the renaissance, are the main focus."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1552 - HISTORY OF SCIENCE 2

Minimum Credits: 3
Maximum Credits: 3
This course is the second part of the two-part series. It will provide an overview of major developments in the sciences from the second half of the seventeenth century to the beginning of the Twentieth Century, considering principally the physical, biological and geological sciences. It will deal with the work of individuals, of general movements and their institutional and national settings.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1553 - WRITING WORKSHOP FOR HPS MAJS

Minimum Credits: 1
Maximum Credits: 1
This writing workshop is designed to introduce HPS majors to the methods and standards of good scholarly writing in history and philosophy of science. It will be offered to HPS majors only in conjunction with either of the history and philosophy of science core seminars, HPS 1551 or HPS 1552.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: LVL: So, Jr, or Sr; PLAN: History and Philosophy of Science (BA)

HPS 1600 - PHILOSOPHY & RISE MDRN SCIENCE

Minimum Credits: 3
Maximum Credits: 3
It is generally agreed that what happened in the 17th century changed the human landscape irrevocably. The religious reformation was consolidated; divinely ordained kingship was decisively uprooted; upheavals across Europe ushered in non-traditional political and constitutional formations; and the forces of transformation forged new sociocultural contexts in which life was lived. Lying at the core of these transformations was the impact of early modern science as it emerged in the 17th century. This course will examine the dynamics of the `scientific revolution' paying close attention to such figures as Kepler, Galileo, Descartes, Hobbes, Leibniz, and Newton. We will be concerned with the philosophical consequences of their thought within the context of their period, but also with the affect it had on the scientific world-picture of the 18th century enlightenment
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1602 - RACE; HIST BIOL PSY PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 1605 - AESTHETICS AND SCIENCE

Minimum Credits: 3
Maximum Credits: 3
How does one appreciate painting, literature or music? Is knowing about art useful or, even, necessary? Is beauty in the eye of the beholder? The course deals with psychological and social science attempts to explain human responses to art. Also the question of how art is like and unlike science will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1610 - PHILOSOPHY OF ANTHROPOLOGY

Minimum Credits: 3
Maximum Credits: 3
This course studies the nature of anthropological knowledge. Topics covered include: the possibility of a human science; classification, description, and the nature of anthropological evidence; laws and explanation in anthropology; and various forms of relativism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1612 - PHIL OF 20TH CENTURY PHYSICS

Minimum Credits: 3
Maximum Credits: 3
An examination of the fascinating philosophical problems to which modern physical theories have given rise. No previous formal training in physics or mathematics will be presupposed, since the basic physical ideas needed will be introduced largely qualitatively with an emphasis on concepts rather than equations. Topics will vary from year to year with instructor, but center around classical mechanics, quantum mechanics, and relativity theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1615 - PHILOSOPHY OF SOCIAL SCIENCE

Minimum Credits: 3
Maximum Credits: 3
The central theme of this course is whether or not there can be a genuine social science on the model of the physical sciences. Topics to be discussed include laws of human behavior, the role of idealization in social science, predictability and human freedom, methods for studying social phenomena, functionalism, and cognitive relativism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1616 - ARTFCL INTELGNC & PHIL OF SCI

Minimum Credits: 3
Maximum Credits: 3
This course investigates the problem of mechanizing reasoning. For the case of deductive inference, it draws on work in symbolic logic and computation theory. For the case of inductive inference, it draws on work in confirmation theory from philosophy of science and learning theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1620 - PHILOSOPHY OF BIOLOGY

Minimum Credits: 3
Maximum Credits: 3
Philosophy of biology will consider foundational conceptual issues in biology like the nature and structure of biological explanation, the possibility of laws in evolutionary theory, the relationship between different causal components of biological processes (genetics and development), the problem of species reality and classification, the explanatory character of ascription of biological function, and the extension of biological explanations to human psychology and culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1625 - PHILOSOPHY OF MEDICINE
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to philosophical and yet practical issues in medical science. Students will examine the concepts of health", "normality", and "disease", and also some representative theories in clinical biochemistry, microbiology and physiology."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1626 - NEUROETHICS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 1627 - LIVING WITH TECHNOLOGY
Minimum Credits: 3
Maximum Credits: 3
Examination of the role of technology in the modern world. What are the cultural and psychological implications of technology? What are its limits, its dangers, its promises? What do concerned citizens need to know about technology to be responsible?
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1630 - MUSIC, CULTURE AND TECHNOLOGY
Minimum Credits: 3
Maximum Credits: 3
In this course, we will explore the history of sound reproduction technology from the end of the nineteenth century into the present day, analyzing the way sonic technologies have shaped the creation, consumption, and social politics of music in North America. This is not a course about how to make sonic technology, or how to use it; instead, it engages with sound reproduction technology as a social, historical, and cultural artifact. Although the course is roughly chronological, it is not comprehensive the purpose is not to learn a single, continuous history of audio technology. We will be exploring various perspectives from more than a century of historical and technological change, moving from the use of sound in 19th-century laboratories to the culture of the iPod. By thinking critically about technology's broader social and intellectual contexts, this class sheds light on the historical and material stakes of sonic technology for listeners in the 21st
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE
Minimum Credits: 3
Maximum Credits: 3
This course provides a broad, introductory survey of current issues in philosophy of science and treats philosophical problems such as confirmation, which are common to all sciences, as well as problems peculiar to individual sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1660 - PARADOX
Minimum Credits: 3
Maximum Credits: 3
This course explores paradoxes both for the fun of untangling an intriguing puzzle and for the more serious reason of the easy access they provide to some of the most important foundations issues in philosophy and the sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr

HPS 1670 - PHILOSOPHY OF NEUROSCIENCE
Minimum Credits: 3
Maximum Credits: 3
This course will serve as in introduction to the conceptual problems around neuroscience for students with and without a background in experimental

neuroscience.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HPS 1682 - FREEDOM AND DETERMINISM

Minimum Credits: 3
Maximum Credits: 3
This course analyzes three concepts of determinism--theological determinism, logical determinism or fatalism, and physical determinism--and examines the various philosophical arguments designed either to show that determinism and free will do clash or alternatively that they are reconcilable.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr, So, or Sr

HPS 1690 - TOPICS IN PHILOSPHY OF SCIENCE

Minimum Credits: 3
Maximum Credits: 3
Discussion, at the advanced undergraduate level, of selected problems such as confirmation, concept formation, the nature of theories. In any given term, the course might focus on problems in physical, biological, or social sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr; PLAN: History and Phil of Science (BA)

HPS 1702 - JR/SR SEMINAR FOR HPS MAJORS

Minimum Credits: 3
Maximum Credits: 3
The goal of this seminar (HPS 1702) will be to introduce you to the cutting-edge research in history and philosophy of science. The seminar is designed to complement the knowledge you have acquired about the classic debates in history and philosophy of science. We will focus on the recent debates in contemporary philosophy of science and on some debates in the history of science that are relevant for philosophy. We will read articles that have been published in the last ten years in the major philosophy of science and history of science journals. We will also read some classic papers that provide a background for the current debates.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (HPS 0427 or 0430 or 0515) and (HPS 0611 or PHIL 0500) and HPS 1653; CREQ: HPS 1703; LVL: Jr or Sr; PLAN: History and Philosophy of Science (BA)

HPS 1703 - WRITING WORKSHOP FOR HPS MAJS

Minimum Credits: 1
Maximum Credits: 1
This writing workshop is designed to introduce HPS majors to the methods and standards of good scholarly writing in history and philosophy of science. It will be offered to HPS majors only in conjunction with HPS 1702, Jr./Sr. seminar. Evaluation will be based on two short papers that will be rewritten on the basis of the instructor's comments. Must be an HPS major in junior or senior year.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: (HPS 0427 or 0430 or 0515) and (HPS 0611 or PHIL 0500) and HPS 1653; CREQ: HPS 1702; LVL: Jr or Sr; PLAN: History and Philosophy of Science (BA)

HPS 1800 - SPEC TOPICS HIST & PHIL OF SCI

Minimum Credits: 3
Maximum Credits: 3
A major topic in history and philosophy of science will be developed in this course. The student will acquire an understanding of the topic and its significance in the field. The special topic covered will vary.
Academic Career: UGRD
Course Component: Lecture

HPS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 6
This is an opportunity for a student and instructor to determine a topic in history and/or philosophy of science which is of special interest.

Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: So, Jr, or Sr; PLAN: History and Philosophy of Science (BA)

History of Art & Architecture

HAA 0010 - INTRODUCTION TO WORLD ART

Minimum Credits: 3
Maximum Credits: 3
This course is intended to introduce the student to major monuments of Western art from Egypt to the 20th century, and to demonstrate the tools of analysis with which one may approach a work of art as an aesthetic object and as a historic document.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0011 - INTRO TO ART/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0010 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HAA 0020 - INTRODUCTION TO ASIAN ART

Minimum Credits: 3
Maximum Credits: 3
This base level survey is meant, on the one hand, to introduce the student to the arts of Japan, China, and India and on the other, to teach some fundamental techniques of visual analysis. The course considers the development of Chinese bronzes, Chinese Buddhist sculpture, Indian Hindu and Buddhist sculptures, and Japanese temples, sculptures, and paintings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0021 - INTRO TO ASIAN ART/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0020 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HAA 0030 - INTRODUCTION TO MODERN ART

Minimum Credits: 3
Maximum Credits: 3
The course will present a chronological survey of Western European, Russian, and American art from the mid-nineteenth century to the present (impressionism to post-modernism). In addition to charting the dramatic stylistic and conceptual changes in art during this time period, the course will consider the historical circumstances which caused a disintegration in accepted notions of what constituted a significant work of art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0033 - INTRO MODERN ART/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0030 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HAA 0040 - INTRO TO WESTERN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3

Introduces students to the conscious observation and analysis of architecture and to a broad survey of the major masterpieces of architecture in Western civilization. Formative concepts behind the designs, structural principles involved in the construction, and societal values promoted and reinforced by the formal character of buildings will be considered along with the analysis of style. Required for the architectural studies major and recommended as a beginning course for others interested in architecture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0041 - INTRO TO ARCHITEC/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0040 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HAA 0045 - INTRO TO MODERN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the cultural and visual analysis of architecture. It treats the principle theoretical, formal, and technological developments in the formation of progressive architecture of the Twentieth Century, chiefly that of Europe and America. The course material will focus on pivotal buildings and their architects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0050 - INTRODUCTION TO MEDIEVAL ART

Minimum Credits: 3
Maximum Credits: 3
A survey of the architecture, painting, sculpture and minor arts of the medieval world from ca. 300 To ca. 1450 With the emphasis on visual analysis of period styles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0051 - INTRO TO MEDIEVL ART/WRIT PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0050 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

HAA 0055 - SPECIAL TOPICS: MEDIEVAL ART

Minimum Credits: 1
Maximum Credits: 1
Special topics in medieval art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0060 - MASTRPIECES OF WESTERN PAINTNG

Minimum Credits: 3
Maximum Credits: 3
This course will help students with no experience in the arts feel comfortable when they visit a museum or discuss paintings, upon completing this course a student should not only have an easy familiarity with some of the greatest masterpieces of European and American painting, but he or she should also have attained the background and skill to understand and to discuss paintings they might discover in a gallery, antique shop or home. This course is especially intended for students without background in the arts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0061 - INTRODUCTION TO PAINTINGS

Minimum Credits: 3
Maximum Credits: 3
This course will help students with no experience in the arts feel comfortable when they visit a museum or discuss paintings. Upon completion of this course a student should not only have an easy familiarity with some of the greatest masterpieces of painting, but he or she should also have attained the background and skill to understand and to discuss paintings they might discover, in a gallery, antique shop or home. This course is especially intended for students without a background in the arts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0070 - EURPN VISL TRADTN RENASNC-PRES

Minimum Credits: 3
Maximum Credits: 3
An introduction to European art and architecture from the early Renaissance to the present. The course will also include American works from the 18th century onwards.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0080 - WORLD RELIGIOUS ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
From Buddhist stupas and Gothic cathedrals to Shinto torii arches and the natural sites sacred to tribal practice, the search for spirituality through history has led to a rich variety of sacred spaces and places. This introductory course studies religious sites and monuments around the globe and through history through an examination of the cultural and historical factors behind their development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0090 - INTRO TO CONTEMPORARY ART

Minimum Credits: 3
Maximum Credits: 3
This course explores the latest developments in contemporary art in the context of changes in world visual cultures since the 1960s. The first weeks will concentrate on the transformations of artistic practice that occurred initially in pop art, and on the minimal-conceptual shift in Western art. This will be followed by a survey of the diversification of artistic practice in the 1980s and 1990s, including the emergence of new internationalisms reflecting postcoloniality, global contemporary art and digital media.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0100 - SPECIAL TOPICS-ANCIENT

Minimum Credits: 3
Maximum Credits: 3
Special topics in ancient art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0101 - FOUNDATIONS OF ART HISTORY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HAA 0102 - PROSEM FOR UG MAJS IN ART HIST

Minimum Credits: 1
Maximum Credits: 1
This one-credit course is required of all majors in art history who must enroll at least twice, in two consecutive fall semesters. 1) Helping students to envision the relationship between their Undergraduate studies in art history and the range of career and advanced degree options for which their studies will make them eligible 2) how to conduct research in the field - a basic introduction to the practice and ethos of research in the discipline will be offered 3) how to maximize progress through the program by setting broader goals with advice on qualifying for internships, independent research, teaching assistantships, fellowship opportunities, and conference participation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HAA 0110 - SPECIAL TOPICS - ART HISTORY
Minimum Credits: 1
Maximum Credits: 1
This is a special 1 credit lecture section attached to a regular HAA course that is designated specifically for an honors course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0150 - ANCIENT ART
Minimum Credits: 3
Maximum Credits: 3
The Mediterranean Sea is a lake and its shores have produced many important cultures and artistic traditions. The course will survey the artistic and cultural traditions of Mesopotamia, Egypt, and the Aegean, from the Neolithic to the end of the Bronze Age (ca. 6000-1200 BCE), a formative period for the cultures that developed in these regions. Special attention will be paid to: 1) the relationship between the artistic traditions of these areas and the societies which produced them, and 2) the way in which influences from one culture were transformed by another.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0160 - ANCIENT EMPIRES
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0200 - SPECIAL TOPICS-MEDIEVAL
Minimum Credits: 3
Maximum Credits: 3
Special topics in medieval art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0201 - SPECIAL TOPICS-ROMANESQUE
Minimum Credits: 3
Maximum Credits: 3
Special topics in Romanesque art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0202 - SPECIAL TOPICS-GOTHIC
Minimum Credits: 3
Maximum Credits: 3
Special topics in Gothic art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0210 - MEDIEVAL PAINTING
Minimum Credits: 3
Maximum Credits: 3
This course introduces the history of medieval painting. It begins with the ways in which the institution of the Christian church fashioned a new pictorial vocabulary out of classical and Jewish antecedents, in terms of form, techniques and subject matter. It follows the evolution of painting during the early Christian, Hiberno-Saxon, Byzantine, Carolingian, Romanesque and Gothic periods in the media of fresco, mosaic and book illumination, culminating with the triumph of oil painting in Flanders in the 15th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0220 - THE MEDIEVAL BOOK
Minimum Credits: 3
Maximum Credits: 3

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0221 - MEDIEVAL ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
This course will treat the development of architecture in Europe from about ad 300 to 1500. It will focus primarily upon the building designed to serve Christian culture, especially churches. Lectures will include the social and political background as well as the liturgical, archaeological and aesthetic aspects of the great monuments.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0240 - THE MEDIEVAL PATRON

Minimum Credits: 3
Maximum Credits: 3
This is a survey of medieval art focusing on the major ecclesiastical and secular patrons of the period. The works of art and architecture are studied in relation to contemporary writings - chronicles, inventories, descriptions that provide documentary evidence for their creation and appreciation. Specific patrons include Justinian, Charlemagne, the Cluniac order, Henry the Lion, Jean de Berry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0300 - SPECIAL TOPICS-RENAISSANCE

Minimum Credits: 3
Maximum Credits: 3
Special topics in Renaissance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0301 - SPECIAL TOPICS-BAROQUE

Minimum Credits: 3
Maximum Credits: 3
Special topics in baroque art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0302 - RENAISSANCE ART

Minimum Credits: 3
Maximum Credits: 3
We will explore the arts - painting, sculpture, architecture, and the decorative arts - that flourished in Italy between 1250 and 1590. The renaissance is one of the great epochs of western culture; this course offers an introduction to the visual evidence that reveals the development of new attitudes about human life and its meaning. Emphasis will be on works of those revolutionary individuals who transformed the arts - Giotto, Donatello, Brunelleschi, Michelangelo, Leonardo, Raphael, Bellini, titian, and Palladio, to name only the most important.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0303 - LANDSCAPE PAINTING, 1500-1700

Minimum Credits: 3
Maximum Credits: 3
This course will study the history of landscape painting in the centuries when it finally emerged as a recognized genre capable of artistic achievements as great as those hitherto reserved for history painters. The cultural context from which landscape painting emerged in Antwerp, Regensburg, and Venice in the early 16th century, its early Renaissance precedents, its ambiguous status in Renaissance art theory will be examined. The role of Patenir, Giorgione, Altdorfer, Titian, Elsheimer, Rubens, Jan van Goyen, Ruisdael, Claude and Poussin will be emphasized.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0305 - RENAISSANCE ART/WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Students enroll in HAA 0302 and may add this section and earn an additional one credit. It is taken in addition to the regular recitation and provides

an opportunity to complete an A&S writing requirement.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SNC Elective Basis

HAA 0310 - NORTHERN RENAISSANCE ART

Minimum Credits: 3
Maximum Credits: 3
This class will feature art produced in Northern Europe during the Renaissance period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0320 - SPECIAL TOPICS-NORTHERN EURPAN

Minimum Credits: 3
Maximum Credits: 3
Special topics in European art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0350 - BAROQUE ART

Minimum Credits: 3
Maximum Credits: 3
This course will consider the careers of the major painters and sculptors of Italy (Caravaggio, the Carracci, Bernini, Cortona, Gaulli), Spain (Ribera, Zurbaran, Velazquez, Montanes, Murillo), France (G. De la Tour, P. De Champaigne, Poussin, Claude, le Brun, Puget), Flanders (Rubens, van Dyck, Jordaens) and Holland (Hals, Rembrandt, Vermeer, Ruisdael) in the 17thC. It will also consider definitions of the term baroque" in relation to the history of taste and later responses to 17thC artistic achievement."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0370 - REMBRANDT

Minimum Credits: 3
Maximum Credits: 3
This core level art history course, intended for a beginning student with no background in art history (but also open to devotees and majors), offers an introduction to Rembrandt by an intensive examination of his life, and his art; paintings, drawings, and etchings. The course is arranged chronologically, so that as the term proceeds we follow Rembrandt from his earliest training and his fascination with baroque dynamism through his greatest success as Amsterdam's most popular portraitist to his moving and universal final works.

Grade Component: LG/SNC Elective Basis

HAA 0402 - WOMEN ARTISTS, 1550-1800
Minimum Credits: 3
Maximum Credits: 3
This course will focus on women artists from the late renaissance, when they first emerged and achieved some success, to the present. The social context in which women artists functioned and the roles played by the most successful women of each century in opening opportunities for the succeeding generation will be considered. Sofonisba Anguissola, Artemisia Gentileschi, Elisabetta Sirani, Judith Leyster, Rachel Ruysch, Rosalba Carriera, Angelica Kauffman, e\E. Vigee Lebrun, Rosa Bonheur, Mary Cassatt, Berthe Morisot and many 20thC women artists will be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0420 - VAN GOGH
Minimum Credits: 3
Maximum Credits: 3
This introductory course will study one major artist as a means of approaching the methodology of art history. The major periods of his career will be presented in the context of European art of the nineteenth century, particularly impressionism and post-impressionism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0425 - DIGITAL HUMANITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0440 - FRANK LLOYD WRIGHT
Minimum Credits: 3
Maximum Credits: 3
This course will deal with the life of the man who was America's greatest architect and one of the principal world figures in the art of building in the Twentieth Century. The lectures will treat his formation as an architect as well as the development of his career and will focus upon a theoretical analysis of wright's work in comparison with that of his great contemporaries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0450 - TWENTIETH CENTURY ARCHITECTURE
Minimum Credits: 3
Maximum Credits: 3
This course deals with the major developments in European and American architecture from the 1890s to the present day. It will treat changes in theory, technology, and concepts of style - in other words, the ideas involved in the creation of architecture. The goal is to identify the significant ways in which the built environment has been transformed during this century for the purpose of serving society in ways not previously imagined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0460 - PUBLIC ART
Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the social, political, and artistic issues surrounding the creation and interpretation of public monuments and public art. We will focus on our local urban environment, particularly the rich collection of works in and around Oakland, but we will also put these local works in larger national and global contexts. The course emphasizes hands-on learning, through multiple site visits, encounters with the works of art in their real urban contexts, and individual and group exercises building on these encounters.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0470 - PHOTOGRAPHY AND ART
Minimum Credits: 3
Maximum Credits: 3
This introductory course is intended to provide a thorough familiarity with the history of photography from its development in the 19th century to the present day, and to link that history to major trends in the history of modern art, such as realism, impressionism, cubism, surrealism, abstract art, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0480 - MODERN ARCHITECTURE
Minimum Credits: 3
Maximum Credits: 3
The development of architecture in Europe and America from around 1800 to the present, involving a number of revolutionary changes; the appearance of many new building types, the availability of new materials produced by industry, the transformation of structural design by technology, and the emergence of strikingly new ideas about how a building should be conceived.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0490 - CONTEMPORARY ART
Minimum Credits: 3
Maximum Credits: 3
This course provides a survey of the important painting, sculpture and intermedia art from 1945 to the present. Special attention will be given to European art (surrealism and realist currents) before WW II and to their impact on America. Abstract expressionism, pop art, color field, minimal and conceptional art, and neo-expressionism will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0500 - SPECIAL TOPICS-AMERICAN
Minimum Credits: 3
Maximum Credits: 3
Special topics in American art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0501 - AMERICAN ART
Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to American painting, sculpture, and architecture, with an emphasis on painting, from the colonial period to the post-World War II era. Students will also learn the vocabulary of visual analysis and become familiar with the scope of art historical methodology. Students should leave the class with a broad understanding of the contexts in which American artists worked, a fund of information about artists and monuments of art in the American heritage, skills in visual analysis, and the capability to focus several types of critical questions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0502 - SPEC TOPC: LATIN AMERICAN ART
Minimum Credits: 3
Maximum Credits: 3
Special topics in Latin American art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0510 - PITTSBURGH ARCHITEC/URBANISM
Minimum Credits: 3
Maximum Credits: 3
The course studies the physical environment of Pittsburgh; the topography, early settlement, the expansion of its industrial center, the post-war renewal, and the current shift from production to a service-based economy. A parallel study in the architectural history of Pittsburgh focuses on images of individual buildings from fort Pitt to the new skyscrapers. Student papers will integrate an analysis of a Pittsburgh building with an analysis of the neighborhood around it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0520 - ART & POLITICS IN MOD LAT AM
Minimum Credits: 3
Maximum Credits: 3
This course examines artistic developments in modern Latin America in relation to broader political forces. Latin America offers rich opportunities to study cases of artists and architects who worked in the service of governmental regimes during the twentieth century, such as Diego Rivera in Mexico and Oscar Niemeyer in Brazil. At the same time, we will consider historical moments in which artists employed their artworks to challenge or subvert political repression, as occurred in Ecuador in the 1930s and in Chile during the dictatorship of Augusto Pinochet. Beyond politics, this

course focuses on the tensions indigenous vs. cosmopolitan, urban vs. rural, rich vs. poor, and the international dialogues that have informed the production and reception of art and architecture in Latin America from the age of independence to the present day.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Minimum Credits: 3
Maximum Credits: 3
Special topics in Asian art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0620 - ART OF CHINA

Minimum Credits: 3
Maximum Credits: 3
One way of learning about the cultural history of china is to look at the visual arts produced there. This course offers a chance to examine both traditional and modern expressions. Such topics as Neolithic pottery, bronze art of the first dynastic period (Shang and Chou), tomb sculpture and burial practices, Buddhism and the state, landscape painting and attitudes toward nature, poster art and crafts in new china will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0640 - ART OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
This course introduces the visual arts of Japan, prehistory to the 19th century, focusing on selected works of painting, sculpture, architecture, and gardens under the broader themes of patronage, Buddhist worship and practice, and function.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0690 - CHINA: LANDSCAPE PTG & NATURE

Minimum Credits: 3
Maximum Credits: 3
The famous Chinese landscape painter named Kuo Hsi of the Song Dynasty (960-1126) asked, Why the virtuous man takes delight in landscapes?" He reasoned that contemplation of a painting of landscape could refresh the mind and heart in as compelling a fashion as wandering among the mountains themselves. The Chinese landscape painter who in his pictures satisfies this longing depicts not merely the outward and visible forms of nature, but the inner life and harmony that pervade them. This course attempts to discover the sources of the symbolic language."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0700 - SPECIAL TOPICS-INDIA

Minimum Credits: 3
Maximum Credits: 3
Special topics in Indian art.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0701 - ART OF INDIA

Minimum Credits: 3
Maximum Credits: 3
The major religions of India, Buddhist, Hindu, Jain and Islamic, will be examined against the background of architecture, sculpture and paintings. We will see how various art expressions have been deeply influenced by major religious trends in India. Buddhist caves, Hindu temples and images of mugal court paintings and Himalayan miniatures will be discussed. By the end of the semester students will be able to recognize some aspects of Indian art and will have some understanding of religious traditions of India.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0710 - AFRICAN ART

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the art produced on the West coast and central part of sub-Sahara Africa. Through the use of slides, films and artifacts, the wide range of style groups will be examined and studied. Particular attention will be paid not only to the artifacts but to the functional use of the art object in the particular society. Since many of the art objects are used in religious ceremonies, the nature of these ceremonies and the associated religion will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0720 - HINDU ART

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the Hindu beliefs, myths and philosophical ideas from the earliest to the modern times. These will be studied and understood in relation to Hindu architecture, sculpture and paintings, the course will contain lectures, slide presentations and readings. The influence of Buddhism, Islamand Christianity on Hinduism will be analyzed and the eclectic nature of Hinduism discussed. By the end of the term students will have some understanding of Hinduism and Hindu art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0730 - ISLAMIC ART

Minimum Credits: 3
Maximum Credits: 3
This course will study the development of the art and architecture which came to be associated with the territories ruled by Muslims, from the origins in the seventh century A.D. To the eighteenth century. The mosque, the Islamic book, the arts of the princely life (carpets, metalwork, textiles), Islamic Spain, and the impact of Islamic art on the West are among the topics surveyed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0800 - SPECIAL TOPICS-FILM

Minimum Credits: 3
Maximum Credits: 3
Special topics in the history of film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0801 - FILM ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the art of the cinema, and to the techniques for its formal and iconographic analysis. It examines the nature of shot composition and visual framing, the use of color, the role of lighting as a pictorial element, the potentials of camera movement, the modes of editing and the nature of image/sound montage. It also introduces students to dominant cinema forms- narrative, experimental, documentary, etc.--And connects the cinema to such visual arts as painting and sculpture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0810 - EXPERIMENTAL CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course examines the development of experimental cinema beginning in Europe in the 1920s with dada and surrealist films by Marcel Duchamp, Luis Bunuel and others, and continuing in the U.S. and elsewhere after World War II. The films, many of which are non-narrative and some of which are abstract", will be examined for the ways in which cinema is used for the filmmakers' personal expression. Consideration will be given to the artistic and cultural contexts in which the films were made, and comparisons will be made with other media, especially painting and sculpture."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0820 - WORLD FILM HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course both introduces students to techniques of film analysis and acquaints them with major works and movements in international cinema. The course pays particular attention to the evolution of film narrative and visual style and landmarks in film development--European avant-garde films, the British documentary, the classic Hollywood film, etc.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0900 - SPEC TOPICS-ARCHTCTRL STUDIES

Minimum Credits: 3
Maximum Credits: 3
Special topics in architectural studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 0940 - APPROACHES TO BUILT ENVIRNMNT

Minimum Credits: 3
Maximum Credits: 3
This foundational course for architectural studies majors seeks to acquaint students with contemporary ideas that affect our understanding of the built environment across the globe through a series of units dealing with different architectural issues and building types. The course engages in intensive reading of canonical texts in the field and current studies of issues shaping the built environment today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1000 - SP TOPICS: ART HISTORY 1

Minimum Credits: 1
Maximum Credits: 1
Special topics in art history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1009 - RESEARCH SEMINAR

Minimum Credits: 3
Maximum Credits: 3
This course was developed to expand the capstone research experience of undergraduate students in the History of Art and Architecture department. It is conceived as a supplement to HAA 1010: approaches to art history, which is the official writing seminar required of all HAA majors. It provides faculty with the opportunity to teach one of their topics courses or a newly developed course to fewer students in a given semester, and mentor these students through a more significant research experience than is typically possible in a regular lecture-based class.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1010 - APPROACHES TO ART HISTORY

Minimum Credits: 3
Maximum Credits: 3
HAA 1010 is the capstone research seminar required of all HAA majors and is an official w-course. Students in this class will conduct extensive readings on a special topic devised by the course instructor. Each student in the class will be required to produce a substantive research paper under the guidance of the instructor. Students will work to master the skills that are fundamental to the discipline and broader arts related professions: critical thinking, research, and written and oral communication.
Academic Career: UGRD
Course Component: Seminar

Grade Component: Letter Grade
Course Requirements: PLAN: History of Arts and Architecture (BA) or Architectural Studies (BA)

HAA 1020 - MUSEUM STUDIES EXHIBITION SEM

Minimum Credits: 4
Maximum Credits: 4
This course teaches museum practice through practical experience with the permanent collection and with special exhibitions. Students will help in all aspects of exhibitions, from writing labels and/or catalogue copy, deciding how to best display the works, participating in the actual installation of exhibitions and planning related events such as tours.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HAA 1025 - HIST AND ETHICS OF COLLECTING

Minimum Credits: 3
Maximum Credits: 3
This course will critically examine the history of public and private collecting practices, the cultural and scholarly rationales behind collecting, and the legal and ethical challenges that collections face. Case studies will include the british museum and the louvre, Pittsburgh's private collectors frick and mellon, the fate of art in Europe during World War II, the antiquities trade, and ethnographic collections. Using these and other examples, we will evaluate the arguments for and against universal art museums, the repatriation of works to source nations or original owners, and the protection of cultural heritage during times of conflict.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1030 - SPECIAL TOPICS- MUSEUM STUDIES

Minimum Credits: 3
Maximum Credits: 3
This course will discuss specific subjects in museum studies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HAA 1040 - ARCH: IMAGE, TEXT, THEORY

Minimum Credits: 3
Maximum Credits: 3
This course treats the historical development of aesthetic theories employed in the conception of architectural design through the course of Western civilization. It focuses on Vitruvius in antiquity, the re-writings of Vitruvius in the renaissance, and the key theorists - both moralists and rationalists - of the modern era (including Ruskin, Viollet le-Duc, Le Corbusier).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: HAA 0040; PLAN: Architectural Studies (BA)

HAA 1078 - FULBRIGHT SEMINAR ITAL STUDIES

Minimum Credits: 3
Maximum Credits: 3
The Fulbright seminar in Italian studies is the spring-term undergraduate-level course offered by the visiting Fulbright distinguished scholar from Italy. This course is typically offered in the fields of art history, cultural studies, film, history, literature, museum studies, political science, or urban studies.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HAA 1100 - SPECIAL TOPICS-ANCIENT

Minimum Credits: 3
Maximum Credits: 3
Special topics in ancient art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1103 - RELIGIONS OF ANCIENT EGYPT

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to ancient Egyptian religious thought and practices with its massive temples, multitude of gods and goddesses, and

fascinating funeral rites. The course includes a group project to design a hypothetical Egyptian exhibit for a museum and sessions at the Carnegie museum of natural history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1105 - JERUSALEM HISTRY & IMAGINATION

Minimum Credits: 3
Maximum Credits: 3
Jerusalem was and remains both a magnet for cultic devotion and an epicenter of religious conflict. This course examines the political, religious, and cultural history of Jerusalem, focusing primarily on Jerusalem as a concrete and conceptual phenomenon in the premodern period. Beginning our story in the bronze age, we will explore a wide range of sources-literary, archaeological, and iconographical-that bear witness to the remarkable transformation of a small, backwater village in the hills of Canaan to a sacred center for millions of Jews, Christians, and Muslims today. We will study the political, physical, and conceptual development of this urban space through its multiple destructions and reconstructions, considering the emergence of Jerusalem as a sacred space, an apocalyptic space, and a contested space.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HAA 1106 - PRE-COLUMBIAN ART

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the art and culture of pre-Columbian peoples of MesoAmerica and Peru from the time of the earliest foraging societies to the conquest by Spain. The goal is to integrate artistic expression with the cultural structures which inspired it. Students will become aware of the achievements of pre-Columbian civilizations and develop appreciation for artistic traditions native to the Western hemisphere.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1110 - GREEK ART

Minimum Credits: 3
Maximum Credits: 3
The study of Greek art begins ca. 3000 B.C. In the so-called age of bronze" and traditionally ends in 30 B.C. With the completion of the Roman conquest of the eastern Mediterranean. The course will trace the development of architecture, sculpture and painting in mainland Greece and to a lesser extent in the Greek colonies of Asia minor and Italy, emphasizing the changes in style and taste which took place over this period."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1130 - ROMAN ART

Minimum Credits: 3
Maximum Credits: 3
Roman art served as the funnel through which the principles of Greek art passed into European culture, but the principles were transformed in the process of transmission. The course will trace the beginnings and subsequent development of the arts of painting, sculpture, and architecture in Italy from the period of the kings to the middle years of the empire (ca. 150 A.D.).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1150 - ROMAN SCULPTURE

Minimum Credits: 3
Maximum Credits: 3
The Romans were influenced throughout their history by Greek models in relief and sculpture in the round. Nevertheless, they chose their models selectively and according to tastes and social needs which were distinctly Italian or Roman. The course will examine the development of the sculptural arts in Italy from the regal period to the middle empire (ca. 150 A.D.), Emphasizing the problems involved in the reconstruction of this development as a continuous history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1160 - ROMAN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
The course will examine the development of Roman architecture from its origins in Etruria and Central Italy to the Middle Empire (ca. 150 AD). Special attention will be given to the relationship of architectural forms, types and functions to changes in Roman politics and society and the significance of materials and outside influences on the development of local Italian traditions and forms. The interaction between Roman

architectural forms and local traditions in the provinces to create a Roman imperial Koine" will be treated only in passing."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1200 - SPECIAL TOPICS-MEDIEVAL

Minimum Credits: 3
Maximum Credits: 3
Special topics in medieval art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1201 - SPECIAL TOPICS-ROMANESQUE

Minimum Credits: 3
Maximum Credits: 3
Special topics in Romanesque art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1202 - SPECIAL TOPICS: GOTHIC

Minimum Credits: 3
Maximum Credits: 3
Special topics in gothic art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1203 - SPECIAL TOPICS: BYZANTINE

Minimum Credits: 3
Maximum Credits: 3
In this course special topics in byzantine art will be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1210 - MEDIEVAL ICONOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course examines the major themes of the art of the middle ages, including subject matter from the old and new testaments, biblical commentary and exegesis, from the classical tradition, and from the vernacular literature of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1212 - PALAEOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to the history of hand writing in the West from antiquity through the sixteenth century and a practical introduction to reading the scripts of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1215 - MEDIEVL MANUSCRPT ILLUMINATION

Minimum Credits: 3
Maximum Credits: 3
A survey of the illuminated books of the middle ages from late antique times to the late 15thc. With particular emphasis on the art of Western Europe. Methodological approach includes fundamentals of codicology, palaeography and minor decoration, with the emphasis on chronological development of types of book, style and iconography. In addition to material presented in class using slides, extensive use will be made of originals in local collections and facsimiles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1220 - EARLY CHRISTIAN/BYZANTINE ARCH

Minimum Credits: 3
Maximum Credits: 3
This course on early Christian and Byzantine architecture balances modern scholarship on the origins and development of church-building with a conceptual study of what worship is and how it has been housed. Individual topics of study vary from Rome and Constantinople, to underground" churches, to the splendor of the basilicas built for Constantine and Justinian. Field trips to analyze a church and synagogue service complement the lectures and readings."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1230 - PAGANS & CHRST:ERLY MIDL AGES

Minimum Credits: 3
Maximum Credits: 3
This course examines the art of the early middle ages, paying particular attention to the slow disintegration of the Roman empire, the rapid rise of Christianity, and the evolving identity of Europe and the Mediterranean in a period of migration, crisis, and transformation. Special attention will be paid to the roles played by emperors and kings in this period, including Constantine, Justinian, Clovis and Charlemagne, and the peculiar blend of pagan and Christian cultures that defined early medieval art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1235 - ENGLISH MEDIEVAL ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
This course treats selected examples of English medieval architecture from the seventh through the fifteenth centuries. While attention will be given to fortification and residential structures, emphasis will be placed on ecclesiastical buildings. Discussion will be directed to rationale of plan (particularly liturgical requirements), structural formulation, and style, in the light of historical context.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1240 - ROMANS AFTER ROME

Minimum Credits: 3
Maximum Credits: 3
Romanesque architecture, evolving from the building practices of about A.D. 800 In the Carolingian empire, marks the coming of age of European culture in the post-antique era. Most of what survives was ecclesiastical in purpose and consists predominantly of monastery churches and their claustral structures. This course will treat both formal and functional issues in the development of the Romanesque tradition and will emphasize the mature period, 1050-1140.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1250 - CONSTRUCTING THE GOTHIC

Minimum Credits: 3
Maximum Credits: 3
Treats the development of gothic architecture from the beginning, in 1140, to the death of St. Louis, in 1270, with emphasis on Northern France. Focuses on liturgical requirements, structural rationale, stylistic formulation, and decorative programs. Includes analysis of major documents.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1255 - GOTHIC ART

Minimum Credits: 3
Maximum Credits: 3
The survey of the architecture, painting and sculpture of the period circa 1140 to 1500 with an emphasis on French art and its influence in the rest of Europe.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1258 - ITALIAN GOTHIC ART

Minimum Credits: 3
Maximum Credits: 3
This course, which might well be sub-titled the beginnings of the Renaissance in Italy, will explore the painting and sculpture created in Tuscany between about 1250 and 1400. What makes this period so exciting is that this is the moment when art begins to be more closely related to the realities

of life. Artists begin to represent not only physical reality, but emotional and psychological reality as well, and slowly one moves toward the great rebirth which the Italians of the fifteenth century dubbed the renaissance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1300 - SPECIAL TOPICS-RENAISSANCE
Minimum Credits: 3
Maximum Credits: 3
Special topics in Renaissance art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1301 - SPECIAL TOPICS-BAROQUE
Minimum Credits: 3
Maximum Credits: 3
Special topics in baroque art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1303 - ITAL RENAISSANCE PORTRAITURE
Minimum Credits: 3
Maximum Credits: 3
Topics in Italian Renaissance portraiture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1304 - LEONARDO, MICHELANGELO,RAPHAEL
Minimum Credits: 3
Maximum Credits: 3
This course will cover painting and sculpture in Italy from 1480 to 1580, emphasizing major figures (Leonardo, Raphael, Michelangelo, Giorgione, titian, Veronese, Andrea del Sarto, Salviato, Vasari) and consider relevant art theory and historiography (High Renaissance, Maneria and Mannerism).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
Minimum Credits: 3
Maximum Credits: 3
The early Renaissance (1420-1500) marked a fundamental change in the way mankind saw and thought about the world. This course examines the buildings, cities, projects, and theories of that period through its major designers. It concentrates on the new acceptance of rationality and modular linkage in building, which prefigures the rationality and scientific method so characteristic of the modern world.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1306 - HIGH RENAISSANCE ARCHITECTURE
Minimum Credits: 3
Maximum Credits: 3
The architecture of the high Renaissance and mannerism (from about 1500 to about 1580 in Rome and other centers of Italy) changed forever the face of architecture. This course focuses on the Roman projects of Bramante, Raphael, Michelangelo and Leonardo da Vinci. It then follows the mutation of high Renaissance ideals into mannerism and the spread of both styles in Northern Italy, particularly in town planning and in the villas and churches of Andrea Palladio around Venice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1307 - PAINTING IN 17TH CNTUR HOLLAND
Minimum Credits: 3
Maximum Credits: 3
This course will focus on key figures such as Frans Hals, Rembrandt, Vermeer, and Jacob van Ruisdael, and will also examine the development of portraiture, landscape, and genre painting. Though the primary concern will be with painting, drawings and prints will also be introduced when

relevant. The historical and social context for the "golden age" of Dutch art will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1308 - ITALIAN 17TH CENTURY PAINTING

Minimum Credits: 3
Maximum Credits: 3
The course will focus on the major painters working in Florence, Rome, Lombarby and Venice and the history and definition of the terms high Renaissance and mannerism. The evolution of artistic theory and its relation to practice and styles in major centers will also be covered. The artists discussed include Raphael, G. Romano, Michelangelo, A. Del Sarto, R. Fiorentino, Pontormo, Correggio, Parmigianino, Primaticcio, Giorgione, Lotto, S. Del Piombo, Titian, Tintoretto and Veronese.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1320 - SPECIAL TOPICS-NORTHERN EURPAN

Minimum Credits: 3
Maximum Credits: 3
Special topics in Northern European art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1400 - SPECIAL TOPICS-MODERN

Minimum Credits: 3
Maximum Credits: 3
Special topics in modern art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1401 - SPECIAL TOPICS-CONTEMPORARY

Minimum Credits: 3
Maximum Credits: 3
Special topics in contemporary art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1404 - MODERN SCULPTURE

Minimum Credits: 3
Maximum Credits: 3
The course analyzes the major figures in modern sculpture from Rodin to the present. Special attention will be given to the inter-relationships between modern painting and sculpture, particularly in the cubist period, surrealism and in the post-World War II era.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1405 - EIGHTEENTH CENTURY ART

Minimum Credits: 3
Maximum Credits: 3
The course surveys the painting, sculpture and decorative arts of Europe in the 18th century. Special attention will be given to trends in painting in France, from Watteau to David. In addition, major figures in prints such as Goya, Hogarth and Piranesi will be studied. The course will emphasize the social and philosophical writers of the enlightenment and suggest the ways art and ideas mingle.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1406 - HISTORY OF GRAPHIC ART

Minimum Credits: 3
Maximum Credits: 3
This study of the graphic arts media as they developed historically will focus on several major innovators such as Durer, Rembrandt, Goya, Daumier, Hayter and Picasso.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1407 - ARCHITECTURE AND ENLIGHTENMENT

Minimum Credits: 3
Maximum Credits: 3
This course will examine architecture, city planning, interior design, and gardening in eighteenth-century Europe as the product of social, industrial, administrative, and intellectual transformations that began to radically challenge traditional spatial configurations and conventional approaches to building. In cosmopolitan centers like London and Paris, an unprecedented explosion of print media, rapid rises in literacy, and the development of a public sphere outside official power structures opened debate in the arts to previously marginal figures. A range of new voices thus emerged that impacted policy decisions in the urban realm and proffered advice and guidance in thinking about aesthetics and artistic production. The rise of science held out the possibility that cities and institutions could be reshaped to improve human welfare through better hygiene and the expansion of commerce. Influential new classes defined by wealth or specialized knowledge generated the creation of building types for a range of new activities. Elite domestic space in particular reflects a wholesale transformation of social priorities motivated by the novel concept of privacy. Narrowly defined Renaissance discourses on the arts founded exclusively on the model of ancient Rome collapsed under an avalanche of data gathered in remote sites around the Mediterranean and through contact with more far-flung civilizations around the world. New intellectual paradigms reconfigured the relationship between individual and nature, between modern present and historical past. Consequently, the purpose of architecture mutated in the course of the eighteenth century as a bewildering range of new possibilities for shaping building and reshaping social relations were explored. Well before political revolution rocked European governments and toppled traditional hierarchies, the built environment served as a laboratory for experimentation and as a forum for reimagining society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1408 - CLASSICAL TRAD IN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
This course deals with classical Greek architecture and the subsequent reinterpretations of that tradition in Western culture, in the Roman, renaissance, and neo-classical eras. The course will explore the significance of the classical aesthetic qualities of order, harmony, symmetry and rational proportion in a variety of cultural climates and the changing roles which the classical order has played in projecting the meaning of a building.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1410 - REALISM AND IMPRESSIONISM

Minimum Credits: 3
Maximum Credits: 3
These movements in 19th century European art were important in the formation of later modern art currents. The course will consider the major developments in Romanticism, then study Courbet, Manet and Degas, and finally move to the major impressionist masters, Monet, Renoir, Sisley, and Pissarro. Much attention will be given to the literary and scientific framework for the art of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1411 - MODERNISM

Minimum Credits: 3
Maximum Credits: 3
Something happened in the history of art around the time of Manet which set painting upon a new course. This change has been described as a kind of skepticism or uncertainty about the nature of representation in art, characterized by an attention to the material means by which illusions and likenesses are made. This course will examine several monuments in the history of modernism, in an attempt to define the political ambitions of modernism and to confront the issue of whether modernism has become simply an aesthetic or is still a viable artistic strategy in the post-modern" era."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1440 - EXPRESSIONISM

Minimum Credits: 3
Maximum Credits: 3
A history of the development of modernist art in Germany from the founding of the bridge" group in 1905 to the "death" of German expressionism in 1920. Although primarily focused on the art of the "bridge" and "blue rider" groups, the course will also situate this art within the broader context of German art production during these years (academic art, jugendstil, secession, dada)."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1441 - DADA AND SURREALISM
Minimum Credits: 3
Maximum Credits: 3
This course provides an international history of dada and surrealism between the two World Wars. Special attention will be devoted to art and politics in these two movements. We will examine dada and surrealist work in a variety of media, including collage, painting, photography, film, and fashion.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1450 - ART IN THE WEIMAR REPUBLIC
Minimum Credits: 3
Maximum Credits: 3
The course will examine art and architecture in Germany from the end of World War I to the rise of the national socialist dictatorship in 1933. Emphasis will be on a chronological study of the ways in which art developed in Germany under democratic social concepts and a new internationalist outlook in the early years of the republic, and the ways art became embedded in the political structures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1455 - ART IN THE THIRD REICH
Minimum Credits: 3
Maximum Credits: 3
This course examines national socialist art and the fate of modernism under Hitler in the years between 1933 and 1945. As we will explore, Hitler's regime enlisted the arts and architecture, through party rallies, art exhibitions, building programs, and film, in enforcing its dictatorial policies on everything from the extermination of the Jews to sexuality and the war effort. We shall also consider the impact of the purge of modern art under Hitler on the work of such noted modernists as Otto Dix and Käthe Kollwitz, who chose to remain in Germany, and on the art of those who fled into exile, among them John Heartfield, George Grosz, and Max Beckmann. The final weeks of the course will consider critical issues involved in recent--and invariably controversial--attempts in museum building, sculpture, and site-specific installations to memorialize the Holocaust and examine Germany's Nazi past.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1470 - PHOTGRPHR PHOTGRPHY SINC WWII
Minimum Credits: 3
Maximum Credits: 3
This course explores the tremendous range of photographic expressions and examines the contributions of significant post-World War II image-makers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HAA 1475 - MODERNITY, MODERNISM & HOUSING
Minimum Credits: 3
Maximum Credits: 3
This course offers multiple perspectives on architectural modernism and modernity through the perspective of dwelling. We will consider examples of modern architecture from the Americas, Europe, Africa, the middle East and Asia from the late 19th century (starting with the debates regarding tenements in this country and working-class housing in England) and end with the demolition of the Pruitt-Igoe housing projects in St. Louis in 1972. The lens of housing will allow us to consider modernism in different geographic contexts (East and West); under different political conditions (in the colonial periphery, in the heart of empire, as part of state-sponsored redevelopment projects, and as part of the nation-building process in the developing world) and through a range of theoretical vectors (i.e. The modernist house as a manifesto for a new way of living; the attention received by vernacular building traditions and various schemes to replicate them as part of the modern project; the role of post-war technology in prefabricated housing; and the role of museums, such as the MOMA and other institutions such as the united nations in calcifying modernism in various locales around the world). This course is designed to give students a strong foundation in the theoretical, aesthetic and historical expressions of architectural modernism. It is also designed to expand the range of architectural modernism beyond the traditional Euro-Ameri-centric canon to include alternative modernisms across global geographies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1480 - ARCHITECTURE SINCE 1945
Minimum Credits: 3
Maximum Credits: 3
Treats the key developments in architecture throughout the world since World War II, including theory as well as practice. The course will focus on such figures as Frank Lloyd Wright, Miles van der Rohe, le Corbusier, James Stirling, Eeko Saarinen, Louis Kahn, Kenzo Tange, Robert Venturi,

Richard Rogers, and Norman Foster.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1490 - ART SINCE 1945

Minimum Credits: 3
Maximum Credits: 3
This course will present a review of art movements in America and Europe form 1905 - 1945 in the introduction, followed by a more intensive study of post-World War II art movements in Western Europe and America from 1945 to the 1980's. We will give special attention to: a) different styles of art which fit into the label "abstract expressionism' b) different styles under "pop(ular) art" c) conceptual art movements d) issues in critical evaluations of contemporary art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1500 - SPECIAL TOPICS-AMERICAN

Minimum Credits: 3
Maximum Credits: 3
Special topics in American art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1502 - SPEC TOPCS: LATIN AMERICAN ART

Minimum Credits: 3
Maximum Credits: 3
Special topics in Latin American art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1510 - PITTSBURGH ARCHITEC/URBANISM

Minimum Credits: 3
Maximum Credits: 3
The course studies the physical environment of Pittsburgh; the topography, early settlement, the expansion of its industrial center, the post-war renewal, and the current shift from production to a service-based economy. A parallel study in the architectural history of Pittsburgh focuses on images of individual buildings from fort Pitt to the new skyscrapers. Student papers either expand research in building categories (industrial, domestic, etc.) Or integrate the physical development of the region with its political and social history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1512 - AMERICAN SCULPTURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys American sculpture from the founding of the nation to the present, with special attention paid to the role played by sculpture in public life. Through a combination of lectures, readings, and frequent visits to local sculptural sites we will explore such themes as the nature and function of monuments, the politics of race and gender in the representation of the human body, and the transformation of public space in modern times.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1530 - EARLY AMERICAN ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
Architecture often serves as a prime document and indicator of America's past and future. The theme of this course is the search for identity in American architecture in the centuries from the colonial settlements to the Civil War. The course studies both the recorded history of American architecture and the unrecorded millennium before that, to show its surprising cohesion in the fact of great cultural and territorial diversity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1531 - AMER ARCH SINCE INDSTRLZTN

Minimum Credits: 3
Maximum Credits: 3
By 1880 traditional American architectural values had broken down under a barrage of ornament and imported European styles. But at the same moment a new American architecture was taking shape to express the new wealth of post-Civil War America and its new social order. The next hundred years would see a succession of brilliant architects in Sullivan, Wright, Mies, Johnson and the pluralists of today. These individual successes only partially mask some major problems; both constitute the underlying themes of this course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1533 - THOMMAS JEFFERSON, ARCHITECT

Minimum Credits: 3
Maximum Credits: 3
Expert in politics, music, archaeology, agriculture, foreign and ancient languages, drawing, writing and surveying, Thomas Jefferson also educated himself from a conventional dilettante to the status of a formidable power in architecture. Creator of three unquestioned building masterpieces, Jefferson was the prime mover in style in architecture. The course alternates lectures on the significant monuments with students' reports on individual research topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1600 - SPECIAL TOPICS-CHINESE

Minimum Credits: 3
Maximum Credits: 3
Special topics in Chinese art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1601 - SPECIAL TOPICS-JAPANESE

Minimum Credits: 3
Maximum Credits: 3
Special topics in Japanese art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1602 - SPECIAL TOPICS-ASIAN

Minimum Credits: 3
Maximum Credits: 3
Special topics in Asian art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1605 - EARLY CHINA: POWER & IDENTITY

Minimum Credits: 3
Maximum Credits: 3
The course is designed to look carefully at the ancient culture of the Chinese. The first task is to learn more about how and where they lived and to gain an understanding of the changes in culture throughout the period dating from c. 2500 BC-C. 200 A.D. It is hoped that the participants in the class will be able to distinguish various periods in Chinese history through study of the material culture; jade, bone, ivory, and bronze artifacts of all kinds. As each period is discussed significant art historical problems will be noted and examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1610 - EARLY CHINESE PAINTING

Minimum Credits: 3
Maximum Credits: 3
Illusionistic painting developed in china as an independent art form at a time contemporary with the rise of Confucian humanism. Although the craft of painting can be traced to the Neolithic period. Its real beginnings can be studied in relation to the art of writing. This course will examine paintings form c. 2500 B.C. To the tang dynasty (618-907 A.D.).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1620 - LATER CHINESE PAINTING
Minimum Credits: 3
Maximum Credits: 3
A lecture and a discussion course on secular painting in china during the T'ang, Sung, Ming, and Ch'ing periods--form the VIIth century through the early XIXth century. Pre T'ang works will be used mainly as introductory information, although attention will be given to the development of the literary and critical evidence of earlier eras. Buddhist painting and wall-painting will be dealt with only when these can be shown to relate to studio painting.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1630 - CHINA: ARCHITECTURE
Minimum Credits: 3
Maximum Credits: 3
The design of Chinese cities is guided by philosophical principles established in the early dynastic period. Imperial cities follow a regular grid pattern that faces south, and includes an inner city, open only to the imperial leaders and aristocrats, and an outer city in which the business is carried out. The design and use of the city is guided by Confucian and Daoist ideals. Religious centers follow palace designs, but are tied to Buddhist, Confucian and Daoist practice. Village centers are arranged according to Daoist ideas about nature called Fengshui.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1640 - 20TH CENTURY CHINESE ART
Minimum Credits: 3
Maximum Credits: 3
The 20th century in china was a period of tremendous change. Artists and the society in which they lived crashed into the modern world to struggle with the weight of tradition as well as the draw of the new. We will consider this period and artistic visions of it by looking at arts including printmaking, painting, film, installation and other synthetic and combined forms. All artistic production will be contextualized within the political and cultural history of the period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1650 - CHINA'S ARCHAEOLOGICAL PAST
Minimum Credits: 3
Maximum Credits: 3
An introduction to Chinese archaeology from the earliest known beginnings through the Han civilization of the second century A.D. Attention will be given to innovations of people in this part of the world and to agriculture beginnings, the first cities and states, the formation of an empire. Emphasis will be placed on such topics as the role of archaeology in the study of history and art as well as in understanding china today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1652 - JAPAN: BUDDHIST ART & RITUAL
Minimum Credits: 3
Maximum Credits: 3
The course will examine pre-modern Japanese Buddhist art, including architecture, sculpture, and painting, and the relationship of these images to ritual practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1653 - ANCT EAST ASIAN VISUAL TRADTNS
Minimum Credits: 3
Maximum Credits: 3
This course is designed to look at early cultures of East Asia through the study of material culture. It is arranged in chronological order, beginning with the Paleolithic and including the Neolithic, through the formation of states and empires in China, Korea and Japan. We will consider the artifacts as cultural documents and learn how to explain why they look the way they do based on an understanding of their patron's input, their function, use and time of manufacture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1654 - EARLY JAPAN: MATERIAL & RITUAL
Minimum Credits: 3
Maximum Credits: 3

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1655 - THE WORLD OF JAPAN

Minimum Credits: 3
Maximum Credits: 3
Students will receive a grounding in basic principles of Japanese classical literature, poetry and aesthetics. They will read the entire text in English of the tale of Genji and examine important works in Japanese literature composed in later periods.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HAA 1656 - JAPAN: ARCH PERFORMATIVE SPACE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1659 - LANGUAGE OF JAPANESE AESTHTCS

Minimum Credits: 3
Maximum Credits: 3
For over a thousand years, aesthetic values have been seen by the Japanese as central in defining the particular significance of their civilization and the driving force of these insights into the beauty of truth remains powerful even today. Learning to appreciate the development of traditional Japanese aesthetic sensibilities and their historical manifestations in a variety of art forms such as poetry and painting to theatre and folk art not only helps one to understand Japanese culture but provides a nonWestern model to consider creativity, beauty, and life. Readings in English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1660 - JAPAN: HANDSCROLLS

Minimum Credits: 3
Maximum Credits: 3
The course begins by considering how handscroll paintings, as the first secular art of Japan, developed out of earlier religious painting. It seeks the source of this development in changes in religion itself, showing how as religion in Japan became increasingly philosophical, the making of religious art creased to be the ritual creation of "magic objects" and became little more than the illustration of sutra texts. The course shows how these notions of art were codified into a "classic" tradition by the imperial court and ends with a look at how this aesthetic influenced ink ptg.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1675 - JAPAN: LANDSCAPE PTG & NATURE

Minimum Credits: 3
Maximum Credits: 3
This course is a topical survey of 15-16th century Japanese ink painting and garDening. The course considers how these two art forms depicted nature and attempts to understand the nature of nature in Japan as presented in these art forms. Finally, this course relates these arts to the philosophy of zen, the aesthetics of the tea ceremony, the politics of rising individualism among warriors, and other influences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1680 - JAPAN: ARTIST AND CITY

Minimum Credits: 3
Maximum Credits: 3
This course will examine the dichotomy in aesthetic tastes and values visible in the arts of the Edo period (1615-1868), focusing primarily on the imperial city of Kyoto and the urban milieu of Edo. Topics to be covered include paintings, prints, performance arts, and architecture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1700 - SPECIAL TOPICS-INDIA

Minimum Credits: 3
Maximum Credits: 3
Special topics in Indian art.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1800 - SPECIAL TOPICS - FILM

Minimum Credits: 3
Maximum Credits: 3
Special topics in film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1805 - EARLY FRENCH FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines the first three decades of film in France, from turn-of-the century 'primitive' experiments to the first films with sound by Jean Vigo and Jean Renoir in the early 1930s. The works considered include narrative films from the 'teens and twenties', as well as experimental works by artists such as Marcel Duchamp, Ferdinand Leger, Man Ray, Jean Cocteau, Luis Bunuel and Salvador Dali. The course emphasizes the extraordinarily innovative contributions of French film during these years.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1806 - AMERICAN INDEPENDENT FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines the development in the U.S. Of independently produced film as an art form, and the filmmaker as an artist, from World War II to the present. Filmmakers to be considered include Maya Deren, Kenneth Anger, Stan Brakhage, Bruce Baillie, Hollis Frampton and others. An examination will be made of the relationships between the films studied and other forms of modern art, such as "abstract expressionism", "structuralism" and "postmodernism". This course does not include "independent" Hollywood and other commercial feature filmmaking.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1810 - EXPERIMENTAL VIDEO

Minimum Credits: 3
Maximum Credits: 3
This course will examine a variety of new uses of video as a means of individual artistic expression. The course does not include commercial broadcast or cable television, or music television". The course begins with the early experiments and video sculptures of the 1960s. Topics will include the use of video by performance artists, and video works which use computer technology to create abstract imagery. Consideration will be given to single channel tapes and to three-dimensional video "installations". Comparisons will be made with other contemporary art forms."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1820 - DOCUMENTARY FILM

Minimum Credits: 3
Maximum Credits: 3
This course examines the development of documentary film from the late 19th century to the present. The films to be considered include such classics as Nanook of the North, Man with a Movie Camera, Triumph of the Will, and Titicut Follies. The premise of the course is that documentaries are never objective" in any absolute sense. The course will demonstrate, rather, that the forms and strategies employed in a documentary film invariably reveal the thinking of the filmmaker as an individual, and reveal the era and context in which the film was made."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1880 - WORLD CITIES

Minimum Credits: 3
Maximum Credits: 3
This course establishes a set of issues and a chronological context through which to understand the main patterns of city development. Thus the paring of St. Petersburg and Brasilia, London and loss Angeles, Amsterdam and Chicago, points out similarities and differences in their shape and social context. Student reports on individual cities are an integral element of the course, and influence the choice of cities to be studied in detail.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1900 - ARCHTCTRL STUDIES INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Academic credit is awarded for practical professional experience gained through a directed internship. The internship is arranged by the student through the university internship office in consultation with the director of architectural studies.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: Architectural Studies (BA)

HAA 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Independent reading and research with one faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

HAA 1903 - HISTORY ART & ARCH INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Academic credit is awarded for practical professional experience gained through a directed internship. The internship is arranged by the student through the University internship office in consultation with the undergraduate advisor in art history.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PLAN: History of Art & Architecture (BA)

HAA 1904 - UG TEACHING ASSISTANTSHIP

Minimum Credits: 1
Maximum Credits: 3
This course enables advanced majors to partner with a faculty member as a teaching assistant in a pre-existing departmental course. This collaborative project will result in the enrichment of the course and improve the teaching-learning enterprise for all parties (faculty, Undergraduate teaching assistants, and students enrolled in the course).
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

HAA 1905 - MUSEUMS STUDIES INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Museum studies minors are required to complete a 3-credit academic internship under the course number haa 1905. this is both an academic course and an internship placement. Students receive substantive mentoring from a site supervisor at a local museum, collection or historic site, and engage in projects with learning outcomes, whether in curatorial, educational, communications or development departments. Students also participate in monthly cohort meetings with the other interns enrolled in the course, under the guidance of an haa faculty member, and are required to produce a final product. Note: academic internships through HAA 1905 are also available to HAA majors as an optional elective. the student must apply for the internship through the HAA department.

Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

HAA 1906 - INTEGRATED FIELD TRIP ABROAD

Minimum Credits: 2
Maximum Credits: 2
This is a course that students can take while studying abroad.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1907 - ARCH & THE CITY CENTRAL EURP

Minimum Credits: 3
Maximum Credits: 3
This course will enable students to investigate the modernization of three important central European cities and the impact of new ideas about design, technology, and social organization on the development of new building types and urban infrastructure in the 19th and 20th centuries.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1909 - UNDGR RESEARCH ASSISTANTSHIP

Minimum Credits: 1
Maximum Credits: 3
This course enables students to receive academic credit for serving as assistants to faculty members who are conducting pre-existing research projects (i.e. Preparing work for publication or a conference). This collaboration will result in a meaningful experience for the student that introduces them to and gives them grounding in the ethos and mechanics of research and publication.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

HAA 1910 - SPECIAL TOPICS-ARCHITECTURE

Minimum Credits: 3
Maximum Credits: 3
Special topics in architecture. Course varies from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1911 - ARCHTCRL SEM: MONOGRPHIC TOPCS

Minimum Credits: 3
Maximum Credits: 3
A seminar for senior architectural studies majors, with changing topics: treats single architects, buildings, or cities.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

HAA 1912 - ARCHITECTURE & DIGITAL MEDIA 1

Minimum Credits: 3
Maximum Credits: 3
An introduction to the graphic communication of architectural documents utilizing computer aided drafting (CAD) techniques. This introductory cad course is designed to give students a working knowledge of the AutoCAD drafting system. The course has been designed to better acquaint students with concepts, processes and skills required by professionals in the field to create and modify computer-generated drawings. Students will learn the commands and functions necessary to input, process and output two dimensional working drawings in the form of plans, elevations and sections. Three-dimensional visualization will also be covered as a means to explore massing and proportion. In addition to the fundamental design methods and practices for the creation of architectural drawings, exercises will focus on fundamental concepts such as scaling, dimensioning, annotating as well as maintenance of CAD drawing files through the use of operating system commands.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1913 - FOUNDATIONS STUDIO 1

Minimum Credits: 6
Maximum Credits: 6
The architectural studies seminar is intended to provide experience working on an advanced level with a specialized topic in architecture. In some years the seminar will deal with history or theory, in others with conceptual issues. For this offering it will focus on several particular problems in the development of Frank Lloyd wright's career in architecture.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

HAA 1914 - ARCHITCTR AND DIGITAL MEDIA 2

Minimum Credits: 3
Maximum Credits: 3
The architecture, engineering, construction and operations industry has well documented inefficiencies stemming primarily from fragmentation in the project delivery process. At the same time, the industry faces significant challenges such as the demand to deliver projects more economically, the desire for more environmentally responsible projects, and the expectation of more predictability in performance -- all of which call for more integration and collaboration throughout a project's lifecycle. New technologies such as building information modeling (BIM) are revolutionizing architecture and construction, providing a platform that allows project information to be captured, structured and analyzed throughout the entire lifecycle of a project, enabling a more integrated, collaborative process that supports more informed decision making and higher levels of efficiency. In this course, students will learn the principles of BIM using Revit software.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Arts and Sciences (ARTSC)

HAA 1916 - ARCHITECTURE DESIGN STUDIO 1

Minimum Credits: 6
Maximum Credits: 6
At the core of every nationally accredited school of architecture is the design studio. The design studio integrates skills learned in other architecture courses in the production of a design project. This course prepares students for the rigor of the architectural design process and exposes them to the unique pedagogical experience of a design studio. This course is designed to give students who are majoring in architectural studies and who intend to pursue a professional degree in architecture at the graduate level exposure to a sophisticated conceptual framework for thinking about three-dimensional composition and architectural problem solving. The course is also intended to emphasize the necessity of excellent graphic skills and technical skills in model-making to communicating design ideas. This course is meant to serve as an intermediary step between the /architectural studies seminar/ (HAA 1913) and the studio arts requirements for the architectural studies major, and the more advanced architectural design work in HAA 1917.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: HAA 1913

HAA 1917 - ARCHITECTURE DESIGN STUDIO 2

Minimum Credits: 6
Maximum Credits: 6
This course is designed to give students who are majoring in architectural studies and who intend to pursue a professional degree in architecture at the graduate level exposure to a sophisticated conceptual framework for thinking about three-dimensional composition and architectural problem solving known as /system-based design/. The course is also intended to emphasize the necessity of excellent graphic skills and technical skills in model-making to communicating design ideas. This course is meant to serve as a capstone for the architectural studies major.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: HAA 1916

HAA 1918 - DESIGN STUDIO 3

Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1919 - DESIGN STUDIO 4

Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1920 - INTRO TO HISTORIC PRESERVATION

Minimum Credits: 3
Maximum Credits: 3
This course explores the goals, methods, and practice of historic preservation in the United States through a variety of historical, theoretical, and practical points of view. Through intensive reading, class discussion, field trips, case studies, and guest speakers representing various sectors of the preservation community in Pittsburgh, the course investigates such topics as: (1) the influence of historic preservation in the built environment; (2) philosophies and politics of preservation; (3) 'reading' buildings and landscapes for their cultural meanings; (4) protecting historic places and documenting their significance.*
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: School of Arts and Sciences (ARTSC)

HAA 1921 - DOCUMENTATION AND CONSR STUDIO

Minimum Credits: 6
Maximum Credits: 6
This course is intended to provide an intensive foundation in the proper techniques of working in the field of architectural conservation. Primary emphasis is on learning directly from specific buildings and sites, with secondary emphasis on placing these findings within a practical preservation planning context. Background knowledge for analysis and for developing preservation recommendations will come from intensive reading, guest speakers, case studies, class discussions, field trips and exercises in building materials conservation. Concurrent with the development of approaches to conservation, students will also acquire or sharpen a variety of academic skills such as the ability to conduct historical research; graphic

representation techniques; and professional writing and public presentation skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HAA 1922 - PRESERVATION - TEXTS & THEORY
Minimum Credits: 3
Maximum Credits: 3
This course is the capstone writing seminar for architectural studies majors pursuing the track in preservation planning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HAA 1923 - GLOBAL PRESERVATION
Minimum Credits: 3
Maximum Credits: 3
The late-nineteenth and early-twentieth century debates regarding the role of the architectural monument as a signifier of the past, as a container of memory and more importantly authenticity, were the definitive moment in the institutionalization and professionalization of architectural preservation around the world. In a 1903 essay titled 'The Modern Cult of Monuments,' art historian Alois Reigl claimed that while the creation of monuments (i.e. structures built to memorialize certain events or persons) had a long history that predates modernity, the 'cult of the monument' (i.e. the allocation of the monument as a unique and original object in a pre-ordained historical narrative of social and cultural evolution) came about as recently as the nineteenth-century. It is this coupling of the advent as well as the progress of modernity along with the formalization of systems of historic preservation that this course seeks to explore.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HAA 1950 - SENIOR THESIS
Minimum Credits: 3
Maximum Credits: 3
In this course a senior major in the history of art will research and write a research paper and present it as if for publication. The area and topic will be decided upon in consultation with a specific faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

HAA 1951 - HONORS RESEARCH SEMINAR
Minimum Credits: 3
Maximum Credits: 3
This seminar is intended for undergraduate students pursuing an honors thesis project in the department of the History of Art and Architecture. Students will devise and carry out research for their thesis paper under the direct supervision of a qualified faculty member in the department, depending on the student's specialized interest. That faculty member will guide the student through the production of the paper in accordance with stipulated deadlines for outlines and drafts leading up to the final work.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

HAA 1990 - 20THC RUSS ART:BETWN EAST/WEST
Minimum Credits: 3
Maximum Credits: 3
This course surveys Russian art of the 20th century - including painting, graphic design, handicrafts, stage design, and architecture spanning the period from the world of art/Mirisskustva (1890s) to the present day. It (1) acquaints students with major art groups, movements and their key representatives, (2) traces the role of icons and folklore traditions in works throughout the century, (3) elucidates the system of patronage and museums and galleries, and (4) examines the symbiosis between Russian art and ideology.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Honors

HONORS 0001 - UNIVERSITY ORIENTATION
Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to honors-qualified freshmen. Students gain a better understanding of university services, functions and policies as well as the opportunities available through the honors college.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0002 - UHC TRANSFER STUDENT ORIENTATN

Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to honors-qualified transfer students. Students gain a better understanding of university services, functions and policies as well as the opportunities available through the honors college.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0010 - CHANCELLOR SCHOLAR ORIENTATION

Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to freshmen chancellor scholars. Students will gain a better understanding of university services, functions and policies as well as the opportunities available through the honors college.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0021 - SEMINAR: HUMANITIES

Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to honors-qualified sophomores considering majors in the humanities. Students will explore majors in greater depth, how to conduct research in the disciplines, and preparation for post-graduate opportunities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0022 - SEMINAR: SOCIAL SCIENCES

Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to honors-qualified sophomores considering majors in the social sciences (including psychology). Students will explore majors in greater depth, how to conduct research in the disciplines, and preparation for post-graduate opportunities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0023 - SEMINAR: NATURAL SCIENCES

Minimum Credits: 1
Maximum Credits: 1
An informational seminar open to honors-qualified sophomores considering majors in the natural sciences. Students will explore majors in greater depth, how to conduct research in the disciplines, and preparation for post-graduate opportunities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0080 - BRACKENRIDGE RESEARCH SEMINAR

Minimum Credits: 1
Maximum Credits: 1
This seminar will provide Brackenridge research fellows with the opportunity to develop their summer research projects further, culminating in an abstract, a research paper and a poster.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0082 - SEMINAR IN CONDUCTING RESEARCH

Minimum Credits: 1
Maximum Credits: 1
This seminar is intended for students wishing to learn about research, particularly the kind of research intended to result in a significant project, e.g., A research monograph, a thesis written for a senior project for the BPhil degree. Students at any point of their research process will benefit from this seminar. Topics will include how to do research from an interdisciplinary perspective, how to focus in on a suitable research topic, how to approach faculty to engage their assistance, and the various research opportunities available.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0101 - CHANCELLOR SCHOLAR FRESHMN SEM

Minimum Credits: 1
Maximum Credits: 1
A forum for a variety of scholarly discussions for freshman chancellor scholars.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0102 - CHANCELLOR SCHOLAR SOPHMR SEM

Minimum Credits: 1
Maximum Credits: 1
A forum for a variety of scholarly discussions for sophomore chancellor scholars.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0103 - CHANCELLOR SCHOLAR JUNIOR SEM

Minimum Credits: 1
Maximum Credits: 1
A forum for a variety of scholarly discussions for junior chancellor scholars.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0104 - CHANCELLOR SCHOLAR SENIOR SEM

Minimum Credits: 1
Maximum Credits: 1
A forum for a variety of scholarly discussions for senior chancellor scholars.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 0510 - WORLD OF MONGOLIA

Minimum Credits: 3
Maximum Credits: 3
An introductory course to the culture, arts, history, politics and economics of Mongolia in the context of their relations with Russia and china.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

HONORS 1010 - SPECIAL TOPICS SEMINAR

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

HONORS 1020 - SPECIAL TOPICS SEMINAR 2

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

HONORS 1110 - COMPARATIVE STUDIES-LEADERSHIP

Minimum Credits: 3
Maximum Credits: 3
This course examines comparatively the nature of leadership in different areas such as business, government, the arts, education, the military and politics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HONORS 1120 - HUMAN SCIENCES
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1130 - DISCOURSES IN THE HUMANITIES
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: MIN CUM GPA: 3.25

HONORS 1131 - GREAT BOOKS, PART 1
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

HONORS 1132 - GREAT BOOKS, PART 2
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

HONORS 1133 - GREAT BOOKS AND MODERNITY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SU3 Elective Basis

HONORS 1140 - DISCOURSES IN SOCIAL SCIENCES
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1150 - DISCOURSES IN NATURAL SCIENCES
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1160 - DISCOURSES IN HUMAN KNOWLEDGE
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1210 - SPECIAL TOPICS: HUMANITIES
Minimum Credits: 3
Maximum Credits: 3
A course offering a special topic in the humanities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HONORS 1310 - SPECIAL TOPICS: SOCIAL SCIS
Minimum Credits: 3
Maximum Credits: 3
A course offering a special topic in the social sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HONORS 1410 - SPECIAL TOPICS: NATRL SCIENCES
Minimum Credits: 3
Maximum Credits: 3
A course offering a special topic in the natural sciences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

HONORS 1510 - SPECIAL TOPICS
Minimum Credits: 3
Maximum Credits: 3
This course focuses on a special topic which will vary from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1520 - HONORS FIELD STUDIES MONGOLIA
Minimum Credits: 3
Maximum Credits: 12
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

HONORS 1520IS - HONORS FIELD STDS MONGOLIA -IS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

HONORS 1520OS - HONORS FIELD STDS MONGOLIA -OS
Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

HONORS 1530 - HONORS FIELD STUDIES-S AFRICA
Minimum Credits: 9
Maximum Credits: 9
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Satisfactory/No Credit

HONORS 1540 - HONORS FIELD STUDIES - WYOMING
Minimum Credits: 6
Maximum Credits: 6
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

HONORS 1541 - HNRS FIELD STDS SPRING CREEK
Minimum Credits: 5
Maximum Credits: 5

Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

HONORS 1542 - HONORS FLD STUDIES IN WY-ARTS

Minimum Credits: 3
Maximum Credits: 3
This summer field study program will be conducted at the Allen l. Cook spring creek preserve near Rock River, Wyoming. The course will focus on studio arts topics.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

HONORS 1544 - READING THE EARTH

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

HONORS 1610 - CONCEPTS & VALUES IN MEDICINE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1611 - CONCEPTS & VALUES IN MED-WRTG

Minimum Credits: 1
Maximum Credits: 1
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

HONORS 1620 - CLINICAL AND MEDICAL RESEARCH

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1630 - CRITL EVAL OF SCIENTIFIC LIT

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1640 - MEDICINE AND SOCIETY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

HONORS 1905 - BPHIL THESIS RESEARCH

Minimum Credits: 1
Maximum Credits: 6
Undergraduates pursuing the bachelor of philosophy degree through the honors college may register for this course only after their thesis proposal has been approved and they have been admitted to honors college candidacy.
Academic Career: UGRD
Course Component: Thesis Research
Grade Component: Satisfactory/No Credit

HONORS 1910IS - HONORS SUMMER EDGE - IN-STATE

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for in-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

HONORS 1910OS - HONORS SUMMER EDGE - OS

Minimum Credits: 0
Maximum Credits: 0
Non-graded course for out-of-state tuition.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: No Grade Required

Human Resources Management

BUSHRM 1050 - HUMAN RESOURCES MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Provides an introduction to the management of human resources at the organizational level. HRM is viewed as an integral part of the basic management process and the orientation of the course is toward developing managerial skills useful in establishing organizational personnel policy. Specific topics include the role of HR in the management process, HR planning and forecasting, job information systems, recruitment and selection, HR development, compensation, legal framework and evaluation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: College of Business Admin; LVL: So, Jr, Sr

BUSHRM 1447 - TOPCS IN INT'L HUMN RESORC MGT

Minimum Credits: 3
Maximum Credits: 3
This course explores topics of current interest in international human resources management. Topics covered will vary by instructor in areas such as HRM planning, selection, recruitment, appraisal, compensation and benefits, training and development, labor relations, and organization culture and structure.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

BUSHRM 1665 - NEGOTIATING IN BUSINESS

Minimum Credits: 3
Maximum Credits: 3
Negotiating permeates human interactions. It affects balance and distribution of resources among nations, organizations, families and individuals. In business, outcomes of negotiations influence bottom-line. Students will understand theory behind successful negotiations; recognize situations that call for negotiation; explore use of alternative negotiating strategies and tactics; and be able to analyze, plan, and carry out a successful negotiation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: BUSHRM 1050 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1670 - GLOBAL WORKFORCE MGT & CHANGE

Minimum Credits: 3
Maximum Credits: 3
This course provides a framework for understanding business and legal challenges associated with effective workforce management around the world. We will examine how labor markets in the Americas, Europe and Asia compare in terms of labor costs and supply, workplace culture, and employment law. News events will be used to illustrate the complex cultural and regulatory environment that multi-international firms face in such areas as talent and performance management, offshore outsourcing, downsizing and industrial relations. Finally, we will focus on successful expatriate assignments and globally-oriented careers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1675 - HUMAN RESOURCES STAFFING

Minimum Credits: 3
Maximum Credits: 3
Provides an in-depth examination of the organizational staffing process. Procedures for human resource needs assessment such as personnel audits and forecasting are discussed. Recruitment strategies and recruitment sources are explored. The process of organizational choice by candidates may be covered. Emphasis on understanding basic types of assessment tools and procedures for choosing new employees. Core concepts in measurement and validity are discussed. Issues relating to organizational entry and socialization may also be covered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1677 - TRAINING AND DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
In 2012 U.S. Firms spent $62 billion on training and development programming for their employees. Such programs address the diversity of skills and demographic characteristics of the workforce, the complex technologies that workforce utilizes in the workplace and the competition resulting from ongoing globalization. This course is designed to provide students with an understanding of the strategic advantage gained by a firm as it designs and implements training and development programs. Topics covered include needs assessment, training design, training methods, and evaluation of training. In addition, employee, career and management development and the use of technology in training will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRADE 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1680 - COMPENSATION & PERFORM MGMNT

Minimum Credits: 3
Maximum Credits: 3
Examines the general structure of an organization and the rewards employees seek in exchange for the efforts and contributions they provide. Topics include: rewards and motivating work environment; government and union influences; job content analysis, description and evaluation; determining competitive relationships, developing pay structures; measuring performance and paying for performance; employee benefits; administration of the compensation plan; executive, managerial, professional, and sales compensation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1685 - EMPLOYMENT AND LABOR RELATIONS

Minimum Credits: 3
Maximum Credits: 3
Provides a close examination of the day-to-day labor-management relationship and processes. Considers contract negotiations, contract administration, discipline and grievance procedures, and third-party conflict resolution assistance such as mediation, fact-finding and arbitration. Emphasis is placed on the structure, organization, and objectives of the parties. The similarities and differences between private and public-sector bargaining are also considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1687 - HR STRATEGY & PLANNING

Minimum Credits: 3
Maximum Credits: 3
The role of human resources in creating a sustainable competitive advantage is covered in detail. Topics often include organizational factors (e.g. cultures, values) that impact HR planning and strategy, HR environmental analysis and competitor analysis, internal analysis of the HR system for competitive initiatives, HR contributions to business strategy formulation, human resources forecasting and planning, HR strategy implementation, succession planning, facilitating organizational change, downsizing and restructuring the organization, and HR aspects of mergers and acquisitions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: BUSHRM 1050 (MIN GRAD 'C'); PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, Undeclared CBA majors

BUSHRM 1689 - SPORTS MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
Many students aspire to careers in the NFL, NBA, and major league baseball. But, as we all know, employment prospects in those organizations are decidedly limited. However, a February, 2014 forbes.Com post indicates that the sports industry as a whole will grow by $145.3 billion between 2010 and 2015. This course recognizes that the sports industry is much broader than just professional sports teams including firms in sports clothing, sports equipment, sports drink, sports medicine, venue management, food and beverage, sports media, and sports marketing. The sports industry is a labor intensive industry with human resource and project management skills as key success factors. This class is designed to examine these administrative skills which will serve well you in any of your career pursuits while satisfying your passion for sports. Planned topics, exercises and activities in the course include a look at game day preparations, facilities management including a behind the scenes tour of a facility, player selection (through a draft simulation) and retention, coaching, licensing, sports media, and sports marketing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Accounting, Finance, General Management, Global Management, Marketing, Business Information Systems, Human Resources Management, Supply Chain Management, or Undeclared.

BUSHRM 1690 - HUMN RESOURCES MGMNT INTRNSHIP
Minimum Credits: 3
Maximum Credits: 3
The human resources management internship provides business credits for project assignments that augment a professional HRM work experience.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit
Course Requirements: PREQ: BUSHRM 1050 (MIN GRAD 'C')

BUSHRM 1695 - HUMN RESOURCS MGMNT INDP STUDY
Minimum Credits: 1
Maximum Credits: 3
An independent study course for students desiring to pursue in greater depth a specific set of human resources management issues or problems to which they have been introduced in other human resources management courses. The course involves directed reading and research under the guidance of a full-time faculty member.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade
Course Requirements: PREQ: BUSHRM 1050 (MIN GRAD 'C')

BUSHRM 1711 - ITALIAN HOSPITALITY & TOURISM
Minimum Credits: 3
Maximum Credits: 3
The course will explore the history, culture and heritage of Italy including food, wine and coffee. Museums, historical and religious landmarks will also be explored. Tourism is an important aspect of the Italian culture. Students will take an objective view on agritourism, wine tourism and ecotourism and analyze the impact and benefit to Italian tourism industry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

BUSHRM 1712 - INTRO TO SPA MANAGEMENT
Minimum Credits: 3
Maximum Credits: 3
This course will provide a contemporary look at the SPA industry and importance of SPA operations and management by providing site visits, guest speakers and hands-on experiences in the SPA industry. It will also address the SPA industry basics, how to establish the business, operations and management, business skills and knowledge, and future trends in the industry. This course will help students understand what it takes to manage a SPA and succeed in this evolving industry.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Human Sexuality

CURPBS 0016 - HUMAN SEXUALITY
Minimum Credits: 3
Maximum Credits: 3
This course aims at providing a clearer understanding of the sexual attitudes that exist in one's self, peers, parents and society and how they interrelate. It deals with the issue of how sexual attitudes are developed and the changes they undergo.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

Industrial Engineering

IE 0015 - INTRO INFORMATION SYS ENGINRNG

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to systems thinking and information management. Students learn to identify the risks of system sub-optimization created by silo oriented operations in organizations. They practice how to define, design, and develop databases needed to satisfy the information requirements of their customers and the entire organization. Using object based data models students design a conceptual model to discuss with customers (end users) and then convert the concepts to relational models for database developments using normalization methods. To practice the database development process students are assigned a project that requires research and preparation for customer interviewing, conceptual design, customer verification, logical design, prototype development using ms-access, testing and presentation of results. This course serves as a primer for advanced courses in information management and systems optimization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0012 or 0016 or 0711; PLAN: Industrial Engineering (BSE or BEH)

IE 1010 - COMMUNICTN SKILLS FOR ENGINRS

Minimum Credits: 3
Maximum Credits: 3
Utilizing a variety of spoken, written, and audio-video activities, the students learn how to give instructions, use feedback, listen, conduct the job and appraisal interview, run meetings, use groups, make presentations, manage crises...Most of the skills they need to strengthen their personal, interpersonal, group and organizational communicative skills. The instructing-learning process emphasizes motivation, concentration, participation, organization, comprehension, repetition, articulateness, and confidence.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1012 - MANUFACT STRUCTRL NANOMATRLS

Minimum Credits: 3
Maximum Credits: 3
Description: this course covers contemporary research topics on the design and manufacture of nanostructured materials. In addition to design and manufacturing, this course would also emphasize the nanometer-scale phenomena that make nanostructured materials particularly attractive for structural applications. Topics such as dislocation theory, large strain plasticity phenomena, super plasticity and kinetics of coarsening will be discussed in the context of structural nanomaterials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1013 - MFG PROCESS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
The objective of this course is to instill a fundamental understanding of manufacturing processes by focusing on the processes, metallurgy and mechanics of deformation in metal forming. To this end, analysis techniques will be developed from solid mechanical principles (stress-strain relationship, deformation and failure) which would then be applied bulk deformation and material removal processes. The course assumes no prerequisites except basic concepts of stress, strain and strength of materials.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1014 - DATA BASE DESIGN

Minimum Credits: 3
Maximum Credits: 3
This course introduces the fundamental aspects of database design and management within the context of a relational data base management system (DBMS). Covered topics include: relational model, database design life-cycle, database design optimization, client/server architecture, data modeling, SQL, database security, database management, data warehousing, internet database environment. Students will gain hands-on experience in analysis, design, implementation, and management of relational data base systems.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1015 - GEOGRAPHIC INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Explore the concepts and history of geographic information systems and learn to effectively use the most utilitarian GIS software, ArcGIS.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1021 - MODELING WITH COMPUTR APPLCTNS

Minimum Credits: 3
Maximum Credits: 3
Review of personal computer fundamentals, including descriptions of hardware, operating system, and operating procedures. Use of the university's mainframe computers. Review of spreadsheets. Intermediate-level Fortran, including interactive programming applications. Select numerical methods of interest to industrial engineers. Introduction to database concepts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1022 - SOFTWARE ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course will cover the fundamentals of software engineering to include development, user interfaces, project management and life cycles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1029 - KNOWLEDGE ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course covers artificial intelligence (AI) techniques that are based heavily on expert knowledge and how they can be used to improve decision making. Ai systems to be explored may include neural networks, fuzzy systems, symbolic AI, etc. This course will concentrate on model building given the issues and needs of the expert system and the richness of the data.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1030 - BEHAVIORAL SYSTEMS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Organization theory, effectiveness, structure and design; individual and group behavior; motivation; leadership; human behavior in organizations; communication and decision systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1032 - CASES IN SYSTEMS MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course involves case analysis with emphasis on design and execution of strategist for technical and scientific organizations. Students are expected to use concepts, knowledge and understanding gained in previous project and engineering management courses to critically evaluate various case situations and participate in classroom discussion. Topics include: introduction and basic project and engineering mgt. concepts, scope/integration mgt., schedule/time mgt., cost mgt., quality mgt., contract/procurement mgt., risk mgt., human resources mgt., and communications management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1033 - BOARD GOVERNANCE & MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course captures the new era in enterprise governance, where performance of an organization is shaped and ultimately determined by the characteristics and management of its board of directors. It utilizes the study of boards of directors in contemporary profit and non-profit organizations in conjunction with students' experiences in leadership roles. Topics covered will include foundation of boards, board structure, info management, communication, and relations with senior management and the function of boards. The course will include case studies and group projects.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1035 - ENGINEERING MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
This course focuses on management theory applied to engineering and technical organizations. Topics include: the management process and management functions (planning, organizing, leading, and controlling); project management; managing technical people; engineering ethics, globalization, and other contemporary management concepts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Industrial Engineering (BS)

IE 1038 - INTEGRATED PRODUCT DEVELOPMENT

Minimum Credits: 3
Maximum Credits: 3
The aim of this course is to familiarize students with the current principles and philosophies of product development and realization. Topics will span product specification and conceptual design through detailed and domain specific design, including manufacturing process development. Students will learn the principles of product data management and value of capturing product information and implications explicitly. In addition, cutting-edge technologies and tools will be introduced to students to give hands-on experience with a true collaborative engineering & design environment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1039 - ENTREPRENEURSHIP FOR ENGINEERS

Minimum Credits: 3
Maximum Credits: 3
This course considers the development of a new technology company from ideation and opportunity evaluation to capital generation and launch. It includes an understanding of accounting principles, budgeting, capital markets, venture capital, operating in the development stage, executive and employee requirements, product development, and growing the company.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1040 - ENGINEERING ECONOMIC ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Discusses cost estimation, time value of money, interest rate calculations, economic equivalence concepts, comparison of alternative investments, evaluating economic life and replacement alternatives, depreciation, the impact of taxes on engineering economic decisions, and dealing with uncertainty.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0140 or 0220 or 0221 or 0235; PROG: Swanson School of Engineering (UENGR)

IE 1042 - ENGINEERING DERIVATIVES MARKET

Minimum Credits: 3
Maximum Credits: 3
The basic building blocks for engineering futures contracts, call and put options, and swaps are studied within the context of real-world environments. By the end of this course learners will have a good understanding of how these tools are built for the purposes of hedging risks and formulating portfolio strategies, all within the goal of managing financial risk.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071 and IE 1081; PLAN: Industial Engineer (BEH or BSE)

IE 1044 - INVESTMENT SCIENCE

Minimum Credits: 3
Maximum Credits: 3
This course is an introduction to basic concepts of modern quantitative finance and investment. Group projects involving financial market data. Topics: basic interest rate; evaluating investments: scenario-based analysis and Monte Carlo simulation; fixed-income markets: bonds, yield, duration, and portfolio immunization; measuring risk: volatility and value at risk; the concept of investment diversification in the presence of uncertainty; designing optimal security portfolios; the capital asset pricing model, practical implementation of the concepts, including comparison of loan (e.g., house and auto) terms, credit card financial terms; derivative market and option pricing. No prior knowledge of finance required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or ENGR 0020 ; PLAN: Industrial Engineering (BSE or BEH)

IE 1049 - E-MFG STRATEGIES & APPLICATNS

Minimum Credits: 3
Maximum Credits: 3
This course will provide an introduction to e-business in the context of product design and manufacturing. It will show how modern manufacturing environments utilize information systems to achieve global competitiveness and world-class status. Case studies will also be analyzed to provide a pragmatic perspective. Teaching methods will include lectures, case discussions, problem-solving exercises and class projects. This course should enable you to expand your understanding of modern manufacturing. It is intended to equip engineering, business and other students with concepts, knowledge and strategies for success in the new e-product development and manufacturing era.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1050 - MANUFACTURING INFORMTN SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
This interdisciplinary course considers the diverse aspects of the product realization process. Aspects include defining user requirements, design concepts, selection of the best concept, design details, and development of a working prototype. Teams of 3-4 students from engineering and business disciplines work with an industrial advisor and faculty mentor to develop a product from concept to realization, addressing issues of market analysis, design, manufacturing, and commercialization.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1051 - ENGINEERING PRODUCT DESIGN

Minimum Credits: 3
Maximum Credits: 3
Lectures will cover the following: cad functions and cad systems; design process; hardware issues; software issues; use of commercial software; graphics primitives; mathematical transformations; solid modeling; database management systems; relational databases; adding intelligence to cad systems. Laboratory sessions will deal with a diversity of design projects utilizing commercial software packages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1052; PROG: Swanson School of Engineering

IE 1052 - MFG PROCESSES AND ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Introduction to manufacturing principles and their importance in product development. Traditional and emerging processes are covered, including additive manufacturing, micro manufacturing, and nonmanufacturing. The integration of manufacturing, design, and materials is presented as a key to rapid product realization. Unit manufacturing processes are considered in work cell organization, flexible flow lines, and quality control. The course laboratory involves examination of the details of manufactured products, using various manufacturing processes, and learning the importance of material and process selection in product development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0022; PROG: School of Engineering

IE 1053 - AUTOMATION IN MFG & PRODC DSGN

Minimum Credits: 3
Maximum Credits: 3
The goal of this course is to gain knowledge in the principles of automating product design and manufacture. Design conceptualization; design for x: manufacturability, assimilability, testability, use, etc. Will be presented. Process planning automation and rapid prototyping will be studied. Students will examine design and manufacturing integration issues as well as typical automated manufacturing equipment. Issues in concurrent engineering and necessary communication networks will also be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1054 - PRODUCTIVITY ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Introduction to industrial engineering concepts and thought process mapping, operations analysis, and design, 6s, lean systems, root cause analysis, methods engineering, standards development, predetermined time systems, computerized work measurement, motivation and incentives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0020 or IE 1070; PROG: Swanson School of Engineering

IE 1055 - FACLT LAYOUT & MATRL HANDLING

Minimum Credits: 3
Maximum Credits: 3
Introduction to facility layout and location topics including activity relationships, space and personnel requirements, layout types, manual and computer algorithms for constructing layouts, single facility location methodologies, and warehouse operations. Material handling methods and equipment including conveyors, lift trucks, carousels, automated guided vehicles, and automated storage and retrieval systems are also discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or IE 1081 or ENGR 0020; CREQ: IE 1052; PLAN: Industrial Engineering(BSE)

IE 1056 - PRODUCTION & INVENTORY CONTROL

Minimum Credits: 3
Maximum Credits: 3
Course uses operations research techniques to solve problems related to production and manufacturing. Particular emphasis is placed on modern methods of forecasting, inventory and production control, including material requirements planning and just-in-time manufacturing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1057 - COMPUTER AIDED MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
Overview of traditional manufacturing systems; control and analysis of flow lines; basics of automation and NC/CNC machines; computer aided process planning; introduction to industrial robots and their applications in industrial engineering; flexible manufacturing systems; integration of computers and one or more of the above concepts in automated manufacturing systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1051 and 1052; PROG: Swanson School of Engineering

IE 1058 - AUTOMATIC DATA COLLECTION

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course teaching basic knowledge and skills in various automatic data collection technologies. It includes barcodes, magnetic stripe, computer vision, voice recognition, and radio frequency. Laboratory component includes exercises in barcode printing and analysis, barcode application development, magnetic stripe encoding and decoding, radio frequency application development, inspection using voice recognition, and machine vision.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1059 - AUTOMATC IDENTFCTN PROJECT

Minimum Credits: 3
Maximum Credits: 3
This is a course in the development of automatic identification hardware and software development. Students work in small teams to learn these technologies, assemble and test equipment, and develop a project or experiment for various automatic identification technologies. Projects may be in areas of barcoding, magnetic stripe, vision, voice, and radio frequency.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1061 - HUMAN FACTORS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
A study of human abilities, characteristics, behavior, and motivation in the design, development and operation of components and systems designed for human use.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: ENGR 0020 or IE 1070; PROG: School of Engineering

IE 1062 - DATA MINING

Minimum Credits: 3
Maximum Credits: 3
Introductory course on data mining. Topics covered include: knowledge representation, classification methods such as decision trees, naive Bayesian, covering algorithms, neural networks, and instance based learning; association rules; clustering; applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1068 - INDUSTRL ROBOT PRIN & APPLCTNS

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the industrial robot as part of a flexible and automated manufacturing system. It will introduce students to the basic elements of industrial robots and will emphasize knowledge needed to integrate these robots into a larger manufacturing system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1070 - PROBLTY, RANDOM VARBLS, DISTBS

Minimum Credits: 3
Maximum Credits: 3
The main objective of this course is to introduce IE majors to probability and probabilistic modeling as a foundation for motivating statistics and statistical methods.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0150 or MATH 0230 or 0231 or MATH 0235

IE 1071 - STATSTCL TESTING & REGRESSION

Minimum Credits: 3
Maximum Credits: 3
Hypotheses testing; multiple regression; empirical model building; analysis of variance and design of experiments; goodness-of-fit tests and contingency tables; introduction to statistical quality control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0020 or IE 1070 (MIN GRADE 'C'); PROG: School of Engineering

IE 1072 - DSGN OF EXPRMT & QUALT ASSUR

Minimum Credits: 3
Maximum Credits: 3
This elective course serves as a continuation of the second course to provide IE majors with background in designed experiments and quality assurance methods.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1071

IE 1073 - MODELING IN SPORTS AND GAMES

Minimum Credits: 3
Maximum Credits: 3
This course will cover fundamental stochastic and statistical modeling concepts arising in the context of sports prediction and strategy. The course will rely heavily on tools such as statistical analysis and Markov processes. Elementary concepts from game theory, decision theory and Markov decision processes will be introduced. We will consider examples arising in baseball, basketball, football and ice hockey, as well as other sports and games. Students will present a project on a topic of their choosing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1081 and IE 1082 and IE 1083; PROG: Swanson School of Engineering

IE 1074 - CMPTL METH INFOMTCS DSGN & MFG

Minimum Credits: 3
Maximum Credits: 3
This is an introduction to popular constructs and techniques in computational geometry. It covers topics such as polygon triangulation and partitioning, convex hulls, proximity algorithms, geometric duality and transformations, search, and intersections. Various applications of these techniques in informatics, design and manufacturing will be discussed in detail.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1075 - E-COMMERCE TOOLS PRODUCTIVITY

Minimum Credits: 3
Maximum Credits: 3
Enterprise software technology, Java technology, enterprise systems development life cycle, it project management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1076 - TOTAL QUALITY MANAGEMENT

Minimum Credits: 3
Maximum Credits: 3
The total quality management philosophies of Dening, Juran, and Crosby are the basis for exploring modern concepts of kaizen, quality control, Taguchi, Evop, etc. The course will include learning the techniques used in TQM as well as gaining an understanding of how major corporations implement TQM programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1077 - INT MATRX NUMRC METH SYMS ENGR

Minimum Credits: 3
Maximum Credits: 3
This is an introductory course to the theory and applications of vector, matrix and other numerical methods. The topics covered in this course include solution of systems of linear and nonlinear equations, polynomial interpolation, numerical integration, characteristic values, error analysis, and discrete methods. We will discuss implementation of numerical methods using matlab.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1078 - ADV MODLING TECHNQ OPRATNS RES

Minimum Credits: 3
Maximum Credits: 3
This course introduces advanced operations research techniques to model and solve complex real-world problems. Particular emphasis is placed on formulating and solving integer programs and stochastic optimization problems. Application areas include sports scheduling, medical decision making and logistics.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1079 - LOGISTC & SUPPLY CHAIN ENGRNG

Minimum Credits: 3
Maximum Credits: 3
Modern supply chains are based on networks with a number of actors from manufacturer to distributor to retailer. This course covers the use of modeling for coordinating production, inventory, distribution, and transportation across a supply chain network.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PREQ: (ENGR 0020 or IE 1070) and IE 1081; PROG: Swanson School of Engineering

IE 1080 - SUPPLY CHAIN ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
An overview of supply chain management with an emphasis on operations and strong quantitative orientation. Supply chain strategies; sourcing decisions; demand forecasting; aggregate planning; managing supply and demand; production and inventory control systems including MRP and JIT; dealing with uncertainty; distribution networks; coordination and integration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1055 or IE 1082; PROG: Swanson School of Engineering

IE 1081 - OPERATIONS RESEARCH

Minimum Credits: 3
Maximum Credits: 3
Introduction to the decision-making process and mathematical modeling; theory and methodology of the simplex algorithm; duality theory, complementary slackness, post-optimality analysis; transportation and assignment problems; introduction to integer programming application to real-life case problems; computer codes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: MATH 0250 or 0280 or 0206 or 0135 or 1181; PROG: Swanson School of Engineering

IE 1082 - PROBLSTC METH IN OPERATNS RES

Minimum Credits: 3
Maximum Credits: 3
Stochastic decision modeling techniques including discrete-time Markov chains, continuous 'time Markov chains and queuing theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (IE 1070 or ENGR 0020) and (IE 1071 or 1081); PROG: Swanson School of Engineering

IE 1083 - SIMULATION MODELING

Minimum Credits: 3
Maximum Credits: 3
Random number generation; distribution functions and random variates; game of chance; applications of discrete event simulation methods of queuing, inventory control, and production planning problems. Introduction to special-purpose simulation languages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: ENGR 0020 or IE 1070; PROG: Swanson School of Engineering

IE 1084 - OPERATIONS RES SERVICE SECTOR

Minimum Credits: 3
Maximum Credits: 3
The service sector covers 70-80% of U.S. Employment and 60 -70% of GNP, yet has received little attention from engineers relative to much smaller sectors such as manufacturing. The course will expose students to modeling and optimizing various problems arising in the service sector. Applications of interest include medical decision making (liver transplantation, treatment for HIV patients), financial engineering, transportation, and hospitality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1085 - DEPARTMENTAL SEMINAR

Minimum Credits: 0
Maximum Credits: 0
Departmental seminars present the engineering viewpoint by prominent speakers from industry and government. Also serves as an organizational forum for the university chapter of the institute of industrial engineers.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1086 - DECISION MODELS

Minimum Credits: 3
Maximum Credits: 3
Methodologies for use by decision makers to tackle problems that consider a range of issues. Covers both quantitative and behavioral methods. Topics include multiple-objective methods, decision making under uncertainty, risk and uncertainty management, expert judgement, and scenario planning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1070 or ENGR 0020; PROG: Swanson School of Engineering

IE 1087 - FINITE ELEMENT ANAL PRODC DSGN

Minimum Credits: 3
Maximum Credits: 3
This course investigates the growing trend of utilizing virtual design and analysis tools in the product development process. A brief overview of the product development process will be given, with particular emphasis on the role of virtual prototyping techniques. In this regard, the underlying theory of the finite element method will be demonstrated through the fundamental concepts of material models, stiffness matrices, loading and boundary conditions, and the generation of stress and displacement results. In addition, utilizing the commercial finite element software package ANSYS, potential consumer products will be virtual analyzed in an effort to rapidly change and obtain feedback on specific design solutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1089 - ADDITIVE MANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
In this course we will analyze the seven primary types of additive manufacturing, their materials, and machines, highlighting their benefits and limitations. Examples of industrial applications will be given along with ongoing research trends and future directions. Labs will focus on design for additive manufacturing, data capture and input, machine setup, and post processing. Field trips will include observation of machine building and part production at some local industries.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1090 - SENIOR PROJECTS

Minimum Credits: 4
Maximum Credits: 4
Analytical investigation techniques for total project problems in technical organizations. Involves solving of client problems utilizing industrial engineering capabilities acquired by students during program of study. Provides students with project team experience, report writing and seminar presentation of team results. Students must be enrolled in this course at least one month prior to the start of the semester.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: CREQ: IE 1035 or 1080 or 1083; PROG: Swanson School of Engineering

IE 1091 - UNSTRUCTURED PROBLEM SOLVING

Minimum Credits: 3
Maximum Credits: 3
This course consists of two successive projects. Each running for about seven weeks. The projects will be in the form of detailed, unstructured case-studies and require the integration of ie skills and their synthesis with other proficiencies. The first project will address a problem within a local context, the second within a global context. Students will work in teams on the same two projects.
Academic Career: UGRD
Course Component: Lecture

Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1092 - FINITE ELEMENT ANAL PRODC DSGN

Minimum Credits: 3
Maximum Credits: 3
This course investigates the growing trend of utilizing virtual design and analysis tools in the product development process. A brief overview of the product development process will be given, with particular emphasis on the role of virtual prototyping techniques. In this regard, the underlying theory of the finite element method will be demonstrated through the fundamental concepts of material models, stiffness matrices, loading and boundary conditions, and the generation of stress and displacement results. In addition, utilizing the commercial finite element software package ANSYS, potential consumer products will be virtual analyzed in an effort to rapidly change and obtain feedback on specific design solutions.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1098 - SPECIAL PROJECTS

Minimum Credits: 1
Maximum Credits: 4
Independent study projects in specialized industrial engineering topics. Students must have the permission of a faculty member who agrees to mentor the independent study. Independent study is not permitted for subject areas that are part of the regularly scheduled coursework.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

IE 1099 - WAREHOUSE SYSTEM ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
This is an independent study course focusing on the analysis of real time location systems in warehouses. The purpose of this independent study will be for students to become familiar with real time location systems and conduct analysis concerning the potential application and benefits of employing them. Students will meet on a regular basis with dr. Norman and will work directly with engineers from local industry utilizing real time location systems in warehousing operations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1101 - FACILITY LOGISTICS

Minimum Credits: 3
Maximum Credits: 3
This aim of this course is to study and analyze key factors affecting the productivity of logistics operations and material flows in facilities. In particular, the course focuses on warehouse and distribution center design and operation including: material handling equipment and system design, order picking, sortation systems, and cross docking. There is also an investigation of the use of different labor strategies such as bucket brigades.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1055; PROG: Swanson School of Engineering

IE 1102 - LEAN SIX SIGMA I (GREEN BELT)

Minimum Credits: 3
Maximum Credits: 3
This course provides an introduction to lean and six sigma principles with an emphasis on the application of statistics to quality control. Topics include value stream mapping, various lean tools, DMAIC methodology, data collection and measurement, and applications of ANOVA and doe. A project is required and the student should be prepared for green belt certification at the end of the course.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1054 and IE 1071; PROG: Swanson School of Engineering

IE 1103 - LEAN SIX SIGMA II (BLACK BELT)

Minimum Credits: 3
Maximum Credits: 3
This is a follow up course in lean and six sigma covering topics such as influence principles and techniques, systems analysis, design for six sigma, lean enterprise analysis and response surface methods. Several projects are required and the student should be prepared for green belt certification at the end of the course.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1102; PROG: Swanson School of Engineering

IE 1106 - OPERNS IMPROVEMENT IN HC

Minimum Credits: 3
Maximum Credits: 3
This course leads students to apply basic industrial engineering tools to healthcare. This includes fact gathering through interviews & observation, process mapping, system analysis and modeling, work sampling, work study and workflow improvement. Using the health operations laboratory, students learn to model core operations of key hospital departments, and are required to develop expertise in one of the following areas: work measurement in healthcare, quality improvement in healthcare, department productivity management, supply chain management, patient workflow through a department.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (IE 1040 and IE 1054) and (ENGR 0020 or IE 1070); PLAN: Industial Engineer (BEH or BSE)

IE 1107 - HEALTHCARE INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1108 - HEALTH SYSTEMS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course uses the systems approach to lead students to understand the forces that drive the healthcare industry in the continuum of care and the role i.e. plays in improving healthcare delivery performance. The course focuses on the theme of i.e. in healthcare organizations as a catalyst of innovation and change. Students learn about the applications of i.e. in the bio-manufacturing, public health, and health care organization sectors; leaders in the field will discuss the different healthcare sectors from an i.e. perspective. Students will learn how the i.e. tools and methodologies which they already understand can be used in healthcare and how the performance improvements they generate relate to quality systems including the Baldrige performance excellence program.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (IE 1040 and IE 1054) and (ENGR 0020 of IE 1070); PLAN: Industial Engineer (BEH or BSE)

IE 1110 - HEALTH SYMS ENGINEERING SEMINR

Minimum Credits: 0
Maximum Credits: 0
The seminar supplements the education provided by health policy and management and industrial engineering departments by creating a forum for exposure and discussion of healthcare systems engineering issues. Students become aware and are exposed to the role of vendors/consultants that bring solutions for healthcare delivery processes. The standards for professional leadership required for health management are reinforced.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis
Course Requirements: PROG: Swanson School of Engineering

IE 1122 - FUNDAMENTALS OF SYSTEMS ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
This course will focus on the fundamentals of systems engineering, including technical processes (e.g., requirements definition, architecture design, system verification), technical management processes (e.g., project planning, risk management), agreement processes (acquisition and supply) and project-enabling processes (e.g., life-cycle model management, quality management). Key systems engineering techniques and methods (e.g., system modeling and simulation, function-based systems engineering) will also be discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PLAN: Industrial Engineering (BSE or BEH); LEVEL: Senior

IE 1123 - PROJECT MANAGEMENT FOR ENGNRS

Minimum Credits: 3
Maximum Credits: 3
The focus of the course will be to understand professional project management in achieving strategic organizational objectives and mitigating risks.

The process for obtaining professional project management (PMP) certification will be the foundation. The six domains of project management that will be addressed include: initiating the project planning the project, executing the project, monitoring and controlling the project, project transition and closure, professional and social responsibility.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1035; PROG: Swanson School of Engineering

IE 1180 - OPERATIONS ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Industrial engineers apply production concepts in manufacturing, retail, and healthcare settings. In today's increasingly competitive marketplace, companies must be efficient to remain in business. Many factors influence a company's efficiency but one key area is operational effectiveness. The purpose of this course is to enhance students' knowledge of several key aspects of operational effectiveness including just-in-time (JIT) and pull systems, fundamentals of factory dynamics, scheduling of machines and personnel, change management, and MRP and ERP systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1081 and IE 1082

IE 1201 - BIOMATRL AND BIOMANUFACTURING

Minimum Credits: 3
Maximum Credits: 3
The purpose of this course is to provide students having a background in biomaterials and biomanufacturing with an opportunity to learn about the many modern aspect of biomaterials from basic science to clinical applications, across the formulations and chemistry of polymers, ceramics, metals and their use in various biomedical devices and implants, as well as their clinical performance and host responses. Students will also gain knowledge and experiences with designing and manufacturing biomedical devices through team projects. This one-semester, graduate course is intended for students majoring in the industrial engineering, or those who contemplating such a major (or minor). Students enrolled in the class should have an understanding of various biomaterials, and the ability to understand biological phenomena and manufacturing processes.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1207 - SUSTNBLY: APPLCS OPERATIONS

Minimum Credits: 3
Maximum Credits: 3
This course covers the use of operations research techniques for the design and optimization of sustainable systems in natural resource management and other areas. Through specific examples and case studies students will learn and apply advanced operations research techniques for these problems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: IE 1081; PROG: Swanson School of Engineering

IE 1301 - INTRO TO SAFETY ENGR

Minimum Credits: 3
Maximum Credits: 3
"Introduction to safety engineering" provides a basis to assist students in understanding and applying the scientific and engineering principles associated with the field of safety engineering. Specifically, the course will provide a background in, information on and application exercises in the natural, chemical and physical laws and forces associated with safe design and implementation of work-related tasks and industrial and construction projects. These involve soils and excavation, trenching and shoring, permanent and temporary work platforms and scaffolding, cranes, rigging, ropes, slings and chains, fall protection, pressure vessels, confined space entry, energy isolation and preparation of equipment, hot work, welding, personal protective equipment and non-destructive testing. The course will also address safety related issues associated with building and facility design and layout, job, task and work setting layout. The course will stress the importance of safety engineering as part of both the corrective process and the design process.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1302 - ENGR FOR PROCESS SAFETY

Minimum Credits: 3
Maximum Credits: 3
"Engineering for process safety" provides for a basic understanding of the quantitative and qualitative analysis methods of process safety engineering and process safety management. The course also provides guidance in planning, implementing and managing an overall process safety management

program. It includes coverage of such applicable science and engineering principles as risk, human reliability, fault logic, failure modes, incident cost and prediction. The course is presented in an applied format where several different types of industries are discussed such as oil and chemical, pharmaceuticals, defense, nuclear, aerospace, paper, information technology and manufacturing industries. Regulatory influence on process safety is discussed. Quantitative aspects of the course include application of risk analysis, fault tree analysis, hazard and operability analysis, vapor-cloud dispersion modeling, human reliability analysis, failure modes and effects analysis, etc. This course is also intended to provide a background in managing an overall system safety program and its application to several industries, therefore, cost and effectiveness measurement are covered in the material.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1601 - GLOBAL MFG SYSTEMS ENGINEERING
Minimum Credits: 3
Maximum Credits: 3
This course will focus on the application of modern engineering principles, methods, and tools associated within a global context. Students will first acquire a knowledge of basic manufacturing process and principles. It will provide students with ability to analyze and visualize manufacturing engineering challenges and opportunities world-wide. Plant visits and interfaces with practicing engineers will allow students to appreciate the following professional characteristics: team-work, an appreciation for other disciplines, adaptability, and an appreciation for life-long learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

IE 1602 - MANUFACTURING CULTURES
Minimum Credits: 3
Maximum Credits: 3
This course will focus on studying manufacturing and distribution organizational hierarchies with a view towards understanding unique organizational dynamics within different organizations and different cultures. It will allow students to gain an understanding of the unique manufacturing culture of each country visited both at the organizational level and the policy level. This course will also focus on the complexities of problems in global operations and supply chain management. One region of the world will be chosen and manufacturing case studies (of regions and organizations) will be studied.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PROG: Swanson School of Engineering

Information Science

INFSCI 0010 - INTRO TO INFORM, SYS & SOCIETY
Minimum Credits: 3
Maximum Credits: 3
Introduction to the concepts, principles, and skills of information science for students with no programming experience. Topics include: the need for information and the use of information, data collection, coding, storage and retrieval, information processing, information display, and the evaluation of information.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 0011 - INTRO TO INF SCI ADVANCED
Minimum Credits: 3
Maximum Credits: 3
THIS COURSE WILL INTRODUCE BOTH INFORMATION THEORY AND THE DESIGN AND STRUCTURE OF INFORMATION SYSTEMS. YOU WILL LEARN HOW COMPUTERS AND NETWORKS WORK AT A FUNDAMENTAL LEVEL. YOU WILL EXPLORE HOW SOCIAL NETWORKS, COLLECTION OF INFORMATION (DATABASES), AND PROGRAMMING LANGUAGES WORK. THE COURSE WILL SPEND PARTICULAR ATTENTION ON SECURITY AND PRIVACY ISSUES. THE COURSE WILL PROVIDE YOU WITH BASIC SKILLS SUCH AS BUILDING WEB PAGE, PROGRAMMING USING SIMPLE JAVASCRIPT ON WEB PAGES, DESIGN AND USE OF SIMPLE DATABASES, AND MANIPULATION OF DIGITAL MEDIA. THE COURSE MEETS THE QUANTITATIVE REQUIREMENT FOR THE COLLEGE OF ARTS & SCIENCES, IS DESIGNED FOR STUDENTS WITH MINIMAL PRIOR TECHNICAL COURSEWORK, AND DOES NOT REQUIRE PREVIOUS PROGRAMMING EXPERIENCE.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: College in High School - UGRD - students only.

INFSCI 0012 - INTRODUCTION TO PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
Introduction to concepts, principles, and skills of programming, including compilers, algorithms, and problem solving using a high level programming language such as c. Intended for students with little or no programming experience who seek an information science major.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 0013 - COMPUTER METHODS IN HUMANITIES

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the use of computational modeling and programming to conduct text-based research in the humanities. Course goals include 1) learning how to identify research questions in the humanities that are amenable to computational analysis and processing and 2) designing and implementing xml-based computational systems to explore those questions. No prior programming experience or knowledge of foreign languages required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

INFSCI 0015 - DATA STRUCT & PROGRMMNG TECHNQ

Minimum Credits: 3
Maximum Credits: 3
Definition, description, and implementation of several information structures such as linked lists, stacks, and queues, using a scientific programming language (e.g., C).
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 0017 - FUNDAMNTLS OF OBJ-ORIEN PRGMG

Minimum Credits: 3
Maximum Credits: 3
First programming course for is majors, designed for students with little or no programming experience. Basic principles and concepts of object-oriented programming using java. Classes, interfaces, operators, program control, arrays, testing, debugging, inheritance, polymorphism, and event handling. Techniques for simplifying the programming process and improving code quality. Activity-based learning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 0018 - FILE PROCESSING

Minimum Credits: 3
Maximum Credits: 3
The design of file organizations and their utilization in an integrated data processing system; utilizing COBOL programming language to implement sequential, indexed sequential, and random access file processing systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 0020 - PROGRAM DESGN & SOFTWARE TOOLS

Minimum Credits: 3
Maximum Credits: 3
Introduction to developing programs using c++. Emphasis on development of program modules that can function independently. Further theory of data structures and programming language design.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1000 - STATISTICAL ANALYSIS OF DATA

Minimum Credits: 3
Maximum Credits: 3
A first course in applied statistics; the collection, organization, and reduction of data. Measurement and presentation of data, measures of central tendency and variability, introduction to probability theory, sampling theory, Bayesian analysis, normal and other theoretical distributions, significance tests, and hypothesis testing; chi-square, regression and correlation analyses. Introduction to non-parametric analysis, time permitting.

Emphasizes statistical programming utilizing canned statistical packages on the VAX/VMS.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1002 - ARCHITEC & ASSEMBLY LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
Uses assembly language as focus for a deeper understanding of computer architecture. Treats the relationship of higher-level languages to assembly language and its implementation in hardware.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1012 - LISP AND SYMBOLIC PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
Introduction to the lisp programming language and the basic concepts of symbolic programming. Programming examples include several basic techniques used in artificial intelligence such as: search in a symbolic problem space, the use of rule based inference systems, and the representation of knowledge in frames.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1014 - GRAPHICS

Minimum Credits: 3
Maximum Credits: 3
Techniques for producing graphical displays using computers. How to design and create computer graphics. Overview of artistic and technical knowledge needed to create graphics. What makes a good graphical display will be investigated.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0017 or 0015 or CS 0401

INFSCI 1016 - DESIGN OF OPERATING SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Detailed treatment of the design and implementation of operating systems. Treats the concepts of scheduling, context switching, memory allocation and protection, file handling, and I/O.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1017 - IMPLEMENTATION OF INFO SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
Second programming course for is majors. Advanced java language features required for professional software development. Data structures, oo design, graphical user interfaces, exception handling, multithreading, i/o, web and network programming.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0017 or INFSCI 0015 or CS 0401; CREQ: INFSCI 1022

INFSCI 1018 - DESIGN OF COMPUTER LANGUAGES

Minimum Credits: 3
Maximum Credits: 3
General aspects of programming languages; data types, control structures, scope of variables, functions and procedures, and definitions of languages. Comparisons are made across pascal, c, Fortran, basic, COBOL, and lisp. Implementation of language (compiler, interpreter) is examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
The design, implementation, and utilization of database management systems. Contrasts the methodologies of file systems, data management systems, and database management systems. Various data structures (e.g., Tree, network, linked list) and several database models (e.g., The Codasyl database task group model and the relational database model). Administrative tasks required in database management are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 1024 - ANALYSIS OF INFORMTN SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
Requirements management; best practices in eliciting, documenting and verifying requirements; writing effective use cases; constructing uml-compliant models (class, state and activity diagrams); specification of user interface and data layers; rapid prototyping.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 0010

INFSCI 1025 - DESIGN OF INFORMATION SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
Object-oriented design best practices; principles of system architecture; design patterns; requirements traceability; construction of UML-compliant models (class, sequence, communication and package diagrams); refactoring; iterative development of system prototype. Requires knowledge of fundamental oo programming concepts including abstract classes, interfaces, inheritance, polymorphism, and message passing.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 OR INFSCI 0015 or CS 0401) and INFSCI 1024; CREQ: INFSCI 1022

INFSCI 1026 - MGMNT OF INFORMATION SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
This course identifies the IT management practices that distinguish high-performing organizations and how students can leverage that knowledge to maximize their career potential. Students deliver a series of presentations on critical issues in it management suitable for inclusion in their professional IT portfolio. Topics include leading management frameworks (e.g., CMM, COBIT, ITIL), popular agile methodologies, financial analysis techniques, and how to write a professional resume.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

INFSCI 1030 - INFORMATN STORAGE & RETRIEVAL
Minimum Credits: 3
Maximum Credits: 3
Basic principles and tools for analysis and retrieval of documents in bibliographic information systems; acquisition of information, subject analysis, terminology control, coding and recording of results of analysis on a searchable medium, and question analysis and search strategy development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1032 - ONLINE RETRIEVAL SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
An introduction to hardware, software, and other resources required for interactive system development and the searching capabilities of an interactive textual retrieval system. Dialog, BRS and various CD-ROMs are presented as models of interactive textual retrieval systems. Students will create small databases utilizing available software.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1034 - DESIGN OF INFORMATION CENTERS

Minimum Credits: 3
Maximum Credits: 3
Investigation of the operational and procedural techniques for information handling utilized by specialized information centers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1038 - MANAGEMENT INFORMATION SYSTEMS

Minimum Credits: 3
Maximum Credits: 3
To provide students with an appreciation of the actual working environment of the typical misdepartment within the business community, including organizational structure and communication, budgeting issues, personnel issues, equipment acquisition and installation, planning for daily operations, and system evaluation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1042 - HUMAN INFORMATION PROCESSING

Minimum Credits: 3
Maximum Credits: 3
Introduction to research and theory on topics in human cognition including: perception, attention, pattern recognition, memory, representation of knowledge, language, problem solving, reasoning, and learning, with emphasis on the relationship to computer models of these processes and implications of this body of knowledge for building information systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN

Minimum Credits: 3
Maximum Credits: 3
Examines human-machine designs with special emphasis on human-computer interaction. Topics center on how to analyze, create, and improve equipment and environment to be compatible with human capabilities and expectations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 1050 - BEHAVIORAL MODELS

Minimum Credits: 3
Maximum Credits: 3
Examines the roles of models and theories in science, and surveys several approaches to modeling cognitive and behavioral phenomena. Topics include: mathematical modeling, representational modeling, expert/novice differences and user models, psychological and computer simulation methods, the roles of analogy, metaphor, learning, and other cognitive processes in the development and use of cognitive models, and the role of models in the development of science and scientific theory.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1052 - USER CENTERED DESIGN

Minimum Credits: 3
Maximum Credits: 3
Introduces principles and programming of interactive systems. Interaction techniques are surveyed and incorporated in the design of interfaces.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1044

INFSCI 1054 - ARTIFICIAL INTELLIGENCE

Minimum Credits: 3
Maximum Credits: 3
An overview of the basic concepts of AI including: search and problem solving, knowledge representation techniques, system architectures, natural language processing and machine learning.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1056 - COMPTR MODLS HUMN INF PROCSSNG

Minimum Credits: 3
Maximum Credits: 3
Presents the historical background of cognitive science and the computational approach to intelligence. Programs that simulate human activities in language, problem solving, memory, learning, and vision will be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1059 - WEB PROGRAMMING

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the PHP scripting language. Students will download and install the apache web server, PHP, and MYSQL database. In addition, PHP installation in the sis labs will be utilized. The course will cover programming concepts, client server architecture, database access and XHTMLl/cascading style sheets. Students will write a full scale web application as their final project.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: (INFSCI 0017 or INFSCI 0015 or CS 0401) and INFSCI 1022; LVL: Jr or Sr; PROG: School of Information Sciences

INFSCI 1062 - MATHMTCL COMMUNICATION THEORY

Minimum Credits: 3
Maximum Credits: 3
Treats the mathematical theory of communication. Applies the general model to natural language, both spoken and written, electrical and mechanical transmission of messages, and behavior of machines in relation to information and communication channels. Topics include: the properties of codes and messages, the methods of dealing with noise in communication messages, channel capacities, and channel reliabilities. Transmission of messages is considered at the level of physical transmission and the transmission of meaning.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1064 - SIMULATION METHODOLOGIES

Minimum Credits: 3
Maximum Credits: 3
The use of simulation in representing both physical and social processes. Treats the analysis of the system, collection of data (e.g., Arrival times, service times, number of service facilities, the representation of the data in terms of theoretical distributions, implementing the system with a simulation package, and the analysis of results in terms of comparative benefits -- e.g., Average queue length, maximum queue length) versus comparative costs of providing these benefits.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1065 - INTERNET ENGINEERING

Minimum Credits: 3
Maximum Credits: 3
Telecommunications technologies of the internet including routing and how to use routers, real time traffic (VOIP), performance analysis, use of sniffers to collect data, differences between wired and wireless networks, use of wireless access points and performance of wireless networks, network management and SNMP software, network security and firewalls.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Science

INFSCI 1068 - GEOSPATIAL INFO SYSTEMS (GIS)

Minimum Credits: 3
Maximum Credits: 3
Introduction to geographic information system (GIS) concept and technology including spatial data sources, spatial data models and structures,

spatial database management, map projection systems, geocoding and Georeferencing, spatial analysis, spatial data visualization (maps), GIS applications (e.g., Address-location finding, navigation, routing), and commercial GIS software packages.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 or 0015 or CS 0401) and INFSCI 1022

INFSCI 1070 - INTRO TO TELCOM & NETWORKS

Minimum Credits: 3
Maximum Credits: 3
Introduction to telecommunications and networks. Top-down orientation relates networking technologies to organizational goals and needs. Data communications and internet technologies and basic system performance analysis. TCP/IP, lans, wans, internetworking, and signals and communications media.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: CREQ: INFSCI 0010

INFSCI 1071 - APPLICATIONS OF NETWORKS

Minimum Credits: 3
Maximum Credits: 3
Second course in telecommunications and networks. Network architecture, protocols, performance, design, and analysis based on application needs, organizational requirements, user requirements, and performance objectives.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 or INFSCI 0015 or INFSCI 0401) and (INFSCI 1070 or 1004)

INFSCI 1072 - INTRO TO WIRELESS NETWORKS

Minimum Credits: 3
Maximum Credits: 3
Introductory broad overview for students with a basic background in telecommunications. Not for telecom majors. Principles of wireless communications and how they differ from wired communications. Fundamental concepts including: transmission and mitigation techniques (e.g., Modulation and coding, propagation, interference and antennas) for wireless systems, multiplexing techniques, wireless system architectures, mobility management, security, protocols and location technology. Systems include: cellular phone networks (e.g., Cdma2000, umts), wireless local area networks (e.g., Ieee 802.11G), personal area networks (e.g., Bluetooth), fixed point broadband wireless (e.g., WiMAX) and satellite systems.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1070 or 1004

INFSCI 1073 - APPLC DEVELP MOBILE DEVICES

Minimum Credits: 3
Maximum Credits: 3
Focus on information system applications that run on top of wireless infrastructure such as multimedia messaging, mobile inventory control, location aware services including wireless technologies (GSM, cdma2000, umts, 802.11, Bluetooth), mobile information systems and applications (m-business, location-based services, wireless CM), wireless information system challenges and architectures (security, reliability, mobility, power conservation, gateways, proxies), mobile application protocols (SMS, ems, mms, WAP), thin and thick client mobile application development (WML, vSMLl, Java, J2me, J2ee, .Netcf, c+), and business case studies of mobile applications.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 or INFSCI 0015 or CS 0401) and (INFSCI 1070 or 1004)

INFSCI 1074 - COMPUTER SECURITY

Minimum Credits: 3
Maximum Credits: 3
Overview of information security. Principles of security including confidentiality, integrity, and availability. Operating systems and database security concepts. Basic cryptography and network security concepts. Secure software design and application security. Evaluation standards, security management. Social, legal and ethical issues. Human factors in security.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 or INFSCI 0015 or CS 0401) and (INFSCI 1070 or INFSCI 1004)

INFSCI 1075 - NETWORK SECURITY

Minimum Credits: 3
Maximum Credits: 3
Network security and cryptographic protocols. Network vulnerabilities, attacks on TCP/IP, network monitoring, security at the link, network and transport layers. Cryptography, e.g., Secret and public key schemes, message authentication codes and key management. Wlan security, ipsec, ssl, and vpns. E-mail security (pgp, s/mime); kerberos; x.509 Certificates; AAA and mobile IP; SNMP security; firewalls; filters and gateways. Policies and implementation of firewall policies; stateful firewalls; firewall appliances. Network related physical security, risk management and disaster recovery/contingency planning issues and housekeeping procedures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 0017 or INFSCI 0015 or CS 0401) and (INFSCI 1004 or INFSCI 1070)

INFSCI 1076 - PHYSICAL LAYER OF COMMNCTNS 1

Minimum Credits: 3
Maximum Credits: 3
Fundamental phenomena, components, and concepts related to electricity and electronics required for TELCOM 2210, as well as for other courses in the graduate telecommunications curriculum. Covers TELCOM applications of AC circuits and bandwidth, semiconductors and amplifiers, digital electronics and logic design, Fourier theory and frequency analysis.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: (INFSCI 1070 or 1004) and (MATH 0400 or MATH 0120)

INFSCI 1077 - NETWORK ANALYSIS

Minimum Credits: 3
Maximum Credits: 3
Analysis of network traffic and flows and network management. Methods and tools for monitoring and analyzing network traffic and performance including data mining and visualization. Techniques of planning, controlling, organizing, and decision making for a communications work; accounting, security, fault management, configuration, and maintenance.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: INFSCI 1070 and STAT 0200; PROG: School of Information Science

INFSCI 1079 - COMPUTER NETWORKING LABORATORY

Minimum Credits: 3
Maximum Credits: 3
The objective of this lab-based course is to gain knowledge of fundamental computer networking issues through hands-on experiments with network equipment and services. The sequence of labs start at the physical layer and progress up the protocol stack to the application layer. Topics covered are signal generation and analysis at the physical layer, ethernet and wlan performance and management, ip address planning and management, ip router configuration including rip, ospf, bgp, mpls protocols, tcp connection control, stateful packet filtering, network monitoring and management, signaling protocols for voip services, and web-based services configuration.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade
Course Requirements: PREQ: INFSCI 1070 and INFSCI 1071; PROG: School of Information Sciences

INFSCI 1080 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 3
Development of readings, research, and practical implementation of a system or other forms of study as arranged between student and instructor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis
Course Requirements: PROG: School of Information Sciences; LVL: Jr or Sr

INFSCI 1085 - INTERNSHIP

Minimum Credits: 3
Maximum Credits: 3
Supervised work in an information environment providing a frame of reference for understanding and an opportunity to apply the skills, methodologies, and theories presented in information science courses.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Satisfactory/No Credit
Course Requirements: PROG: School of Information Sciences; LVL: Jr or Sr

INFSCI 1090 - SPECIAL TOPICS: PROGRAMMING
Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on current or specialized topic in programming area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: School of Information Sciences

INFSCI 1091 - SPECIAL TOPICS: BEHAVIORAL
Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on current or specialized topic in behavioral area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: School of Information Science

INFSCI 1092 - SPECIAL TOPICS: SYSTEMS
Minimum Credits: 3
Maximum Credits: 3
Advanced class focusing on current or specialized topic in systems area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: LVL: Jr or Sr; PROG: School of Information Science

Instruction and Learning

IL 0210 - COLLEGE READING & STUDY SKILLS
Minimum Credits: 3
Maximum Credits: 3
This is a computer based course designed to provide assistance for students in achieving academic success. Course content includes self-management, vocabulary development, reading comprehension, study strategies, and preparation for examinations. Additionally, students study and practice using online databases and other resources.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

IL 1000 - INTRODUCTION TO TEACHING
Minimum Credits: 3
Maximum Credits: 3
Introduction to teaching explores contemporary perspectives of education. It provides a basic introduction to instructional planning, curriculum, and classroom management. Additionally, the class provides opportunities for practice of proven teaching strategies designed to meet individual student needs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1041 - INTRO TO EARLY CHILDHOOD ED
Minimum Credits: 3
Maximum Credits: 3
The course is a general introduction to the theoretical, political, economic, and social issues that are inherent in the conduct and development of services for young children. The primary thrust is intended to provide students with both an overview of current issues and a basis for assessment.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1042 - LANGUAGE & LIT FOR YOUNG CHILD
Minimum Credits: 3
Maximum Credits: 3
An introduction to language and literacy for children birth through grade 4. Includes applied theories and stages of language development, transitions from oral to written expression, family literacy, and guidelines for the selection and use of quality literature.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1043 - EARLY CHLDHOOD ED INTEGRTV SEM

Minimum Credits: 3
Maximum Credits: 3
For early childhood majors during student teaching term. Will examine philosophy, program evaluation, child progress, roles of cooperating teacher and teacher candidate. Will simulate parent conferences and employment interviews, review advocacy, special-needs learner, team membership, and teacher empowerment.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1045 - YOUNG ENGLISH LANGUAGE LEARNRS

Minimum Credits: 3
Maximum Credits: 3
Prospective early childhood education teachers will identify, investigate and assess impacts of a variety of social agencies, organizations and current issues in early child hood education through planned interviews as well as class lectures, discussions and reports.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1047 - INTEGRATED CURRCLM PRE-K - 4

Minimum Credits: 3
Maximum Credits: 3
Engagement with general and specific issues related to the development of content and lessons that cross a broad range of curricular areas for children in pre-k through grade 4.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1048 - SPECIAL TOPICS: ELEMENTARY ED

Minimum Credits: 1
Maximum Credits: 3
A flexible curriculum oriented to special research topics of interest to faculty and students or to current practice and policy issues of concern to teachers and teacher educators.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

IL 1049 - SEM RELTD PRE-STDNT TCH PRE-K

Minimum Credits: 1
Maximum Credits: 1
This a weekly seminar that supports students during their pre-k practicum. This course is designed to facilitate student learning as they make connections between theory and practice. Students will receive guidance in the completion of required field practicum competencies and the preparation of the on-line pre-k portfolio.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1070 - PROF ISSUES IN ELEMENTARY EDUC

Minimum Credits: 1
Maximum Credits: 3
Examines local, national, and international issues in elementary education. Topics include curriculum censorship, professionalism, job opportunities, and teaching in multi-cultural settings.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

IL 1071 - CURRENT ISSUES IN EDUCATION

Minimum Credits: 2
Maximum Credits: 2
Students analyze educational reform movements, the school environment, and instructional research findings as related to classroom strategies and the development of a profession al identity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1207 - READING & WRTNG IN CONTNT CURR

Minimum Credits: 3
Maximum Credits: 3
Reading and writing skills for effective work in secondary school subjects. Examines student achievement differences and problems of illiteracy. Offers techniques for developing vocabulary, comprehension, and skills in thinking, content writing, and study. Weekly workshop experiences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1208 - RDG/WRIT METHS 1:PREK-GRADE 1

Minimum Credits: 3
Maximum Credits: 3
This course is intended for teacher candidates who are pursuing prek-4 certification. It is the first in a two-course sequence that focuses on classroom teaching methods for literacy. It is also part of a set of courses that focus on literacy development and instruction. Other courses in the set include reading/writing methods 2: grades 2-4, language and literature for the young child, and literacy assessment and instruction for children with disabilities in inclusive settings. Teacher candidates in reading/writing methods 1 will have opportunities to build their knowledge about specific aspects of literacy, including: (a) oral language development, (b) emergent literacy, (c) concepts about print, (d) comprehension, and (e) writing. In addition, candidates will learn about specific instructional approaches and resources for supporting students in developing those aspects of literacy in pre-kindergarten - grade 1.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1209 - RDG/WRIT METHODS 2: GRADES 2-4

Minimum Credits: 3
Maximum Credits: 3
This course is intended for teacher candidates who are pursuing prek-4 certification. It is the second in a two-course sequence and builds on concepts introduced in reading/writing methods 1. It is also part of set of courses that focus on literacy development and instruction. Other courses in the set include language and literature for the young child, and literacy assessment and instruction for children with disabilities in inclusive settings. Teacher candidates in reading/writing methods 2 will have opportunities to build their knowledge about specific aspects of literacy, including: (a) word study--decoding, spelling, and vocabulary, (b) comprehension, and (d) composition, including handwriting. In addition, candidates will learn about specific instructional approaches and resources for supporting students in developing those aspects of literacy in grades 2-4.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1230 - INTRO INQUIRY IN ENGLISH EDUC

Minimum Credits: 3
Maximum Credits: 3
The course is designed to introduce students to basic issues in the teaching of writing, literature, and language with special emphasis on class discussions.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1246 - THRY & PRA: MULTI-CULTURAL LIT

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide teachers with a multi-cultural philosophical perspective, criteria for selecting multicultural literature, and strategies and techniques for infusing literature from diverse cultures into a literature program.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1252 - INTRO TO FOREIGN LANG EDUC

Minimum Credits: 3
Maximum Credits: 3
A basic introduction course dealing with the most current issues in foreign language education in elementary, middle and secondary schools.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1257 - TEACHING ENGLISH LANG LEARNERS

Minimum Credits: 3
Maximum Credits: 3
This course will explore strategies for teaching English language learns (ell's) in formal and informal education settings. Students will be introduced

to foundational theories and current research on the social and academic factors that influence ells learning experiences. The class will include a video component so students can observe instructional approaches for working with linguistically and culturally diverse ells.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1260 - INTRO TO SOCIAL STUDIES EDUC

Minimum Credits: 3
Maximum Credits: 3
A basic introductory course; primary focus is upon secondary schools as institutions in contemporary society and the role of social studies programs and teachers within this context.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1264 - INTRNATNAL RESOURCES TUTORIAL

Minimum Credits: 2
Maximum Credits: 2
Through working with international students at the university, the student develops a curriculum unit focusing on a selected country, providing extensive background on the global perspective; to be used by the student teacher upon assuming teaching responsibilities.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: Letter Grade

IL 1268 - SOCIAL STUDIES METHS PRE-K-4

Minimum Credits: 3
Maximum Credits: 3
This course is designed to provide a theoretical background in social studies education and to exemplify the appropriate principles and practices necessary to deliver effective social studies instruction in pre-k through grade 4.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1270 - INTEGRTG ART & MUSC ELEM CLSSR

Minimum Credits: 3
Maximum Credits: 3
To introduce preservice classroom teachers to art and music contents and processes with relevance to their expected role in integrating authentic arts learning experiences in their instruction. Emphasis is placed on developmental aspects of children's' responsive and expressive skills in art and music.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1298 - DIRECTED STUDY

Minimum Credits: 1
Maximum Credits: 6
The student proposes and carries out an independent study project under the direction and supervision of an appropriate member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

IL 1348 - SP TOPC: KOREAN TRADTN & CULT

Minimum Credits: 1
Maximum Credits: 3
A flexible curriculum oriented to special topics of interest to faculty or current issues of concern to educators, focused on areas within programs.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

IL 1398 - DIRECTED STUDY IN IDT

Minimum Credits: 1
Maximum Credits: 9
An independent study contract is negotiated. The student proposes and carries out an independent study project under the direction and supervision of an appropriate member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

IL 1430 - INTRO TO SCIENCE EDUCATION

Minimum Credits: 3
Maximum Credits: 3
The goal of the course is to (a) encourage prospective teachers to become critical and reflective in thinking about science, students and the practice of teaching; and (b) provide an overview of various components of the science teaching/learning process. Course activities are structured to promote reflective thinking, and to assist students who are considering the teaching profession by providing experiences with classroom settings. The course is very intensive, requiring a good deal of reading & writing. It also requires time outside of class for observing & interviewing students.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1433 - MATH/SCI INSTC YOUNG LRNRS 1

Minimum Credits: 3
Maximum Credits: 3
The first half of a two-semester course sequence in which pre-service teachers learn about young (pre-k through grade 4) children's thinking related to core ideas in mathematics and science and gradually, through a series of scaffolded tasks, develop pedagogical skills for designing and implementing math and science instruction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1434 - MATH AND SCIENCE METHODS 2

Minimum Credits: 3
Maximum Credits: 3
The second half of a two-semester course sequence in which pre-service teachers learn about young (pre-k through grade 4) children's thinking related to core ideas in mathematics and science and gradually, through a series of scaffolded tasks, develop pedagogical skills for designing and implementing math and science instruction.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1473 - MATH FOR ELEMENTARY TEACHERS

Minimum Credits: 3
Maximum Credits: 3
Students will improve their mathematics knowledge and skills in numeration systems, integers, rationales, geometry, probability/statistics, and other selected topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1479 - INTRO TO MATHEMATICS EDUC

Minimum Credits: 3
Maximum Credits: 3
Basic orientation to the issues, lectures, and resources in the field of mathematics education. Issues currently affecting the teaching and learning of mathematics focused on middle and secondary schooling.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1497 - INDEPNDNT STUDY MATH & SCI ED

Minimum Credits: 1
Maximum Credits: 9
Registration for independent study when the student must maintain active registration and needs to extend work on an uncompleted task or project from a previous term or when preparing for special examinations.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

IL 1498 - DIRCTED STUDY IN MATH & SCI ED

Minimum Credits: 1
Maximum Credits: 9
The student proposes and carries out a study project under the direction and supervision of an appropriate member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

IL 1505 - AUTISM: CHARACT AND INTERVNTN

Minimum Credits: 3
Maximum Credits: 3
This course will present information on the characteristics of and intervention approaches for children with autism spectrum disorders (ASDS). Introductory material will include diagnosis criteria and characteristics of ASDS. Current research on theories of etiology will be explored and analyzed. Screening tools and assessments specific to this population will be examined in detail. Intervention approaches (e.g. IBI/discrete trial, ABBLs, precision teaching, teacch) will be described and analyzed in terms of basic premises, research base, associated curricula, and evaluative guidelines from the autism society of America and national institute of mental health. Representatives from local education and behavioral health systems serving children with ASDS will present services/intervention models available in the area.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1543 - BRAILLE

Minimum Credits: 2
Maximum Credits: 2
Reviews research and literature on systems for reading and writing braille. Emphasizes proficiency in reading and writing grades i and ii braille, as well as teaching pre braille and braille readiness to individuals who are visually disabled.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1553 - SIGN LANGUAGE 3

Minimum Credits: 3
Maximum Credits: 3
Designed to provide intermediate-level proficiency in American sign language and signed English, and the ability to converse with deaf people.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1554 - ASL IN THE CLASSROOM

Minimum Credits: 1
Maximum Credits: 3
Designed to provide advanced-level proficiency in American sign language. Focuses on the use of ASL in teaching deaf students.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

IL 1557 - SIGN LANGUAGE 1

Minimum Credits: 3
Maximum Credits: 3
Designed to develop vocabulary and receptive and expressive skills in American sign language and signed English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1558 - SIGN LANGUAGE 2

Minimum Credits: 3
Maximum Credits: 3
Designed to develop vocabulary and receptive and expressive skills in American sign language and signed English.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1561 - EDUCL PRGMG: YNG CHILD DISABS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1562 - ASSMNT: YOUNG CHILD W/DISABS

Minimum Credits: 3
Maximum Credits: 3

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1563 - INCLUSION PRE-K

Minimum Credits: 3
Maximum Credits: 3
This course will cover the rationale, service delivery methods, teaming components, family considerations and curriculum development that are a part of inclusive pre-k settings. In addition, it will cover adaptations, accommodations, and individualized instructional strategies for creating early childhood programs that meet the needs of children without disabilities in inclusive pre-k settings.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1580 - FOUNDATIONS OF SPECIAL EDUC

Minimum Credits: 3
Maximum Credits: 3
Course provides an overview of the field of special education. It includes such topics as 1) identification; 2) placement; 3) programming; 4) inclusion; 5) advocacy; and other topics relating to individuals with disabilities, and gifted and talented individuals. The course examines the various philosophical views of exceptionality.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1582 - WRKNG W/FAML: CHILD W/DISABS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1610 - METHDS TECHNG SHRTHND & TYPWRT

Minimum Credits: 3
Maximum Credits: 3
Procedures, strategies and methods are presented in short hand and typewriting. Development, evaluation, speed, accuracy and application are addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1614 - TEACHING METH BASC BUS SUBJCTS

Minimum Credits: 3
Maximum Credits: 3
Students develop materials and procedures appropriate for teaching students basic business. Lesson plans, evaluation and community resources are among the topics discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1615 - METHODS OF TEACHING ACCOUNTING

Minimum Credits: 3
Maximum Credits: 3
Students develop methods to present material in an accounting curriculum. Grade placement, lesson plans, evaluation, and lab experiences are also addressed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1624 - COORDINATION OF COOPERTV EDUC

Minimum Credits: 3
Maximum Credits: 3
Students are provided the principles and practices of cooperative education coordination. Instruction includes coordination, planning, implementation and evaluation problems and techniques, and legal and professional responsibilities. Students are required to complete a term that evidences school/community involvement as they demonstrate the attainment of teaching competencies.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Letter Grade

IL 1700 - EARLY FIELD EXPERIENCE-ELEM

Minimum Credits: 3
Maximum Credits: 3
Introductory field experience for undergraduate students who plan to enter the teaching profession. Offers opportunities to observe young children and assist master teachers in elementary school classrooms and early childhood education centers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

IL 1701 - ERLY FIELD EXPERNC-SECONDARY

Minimum Credits: 3
Maximum Credits: 3
This is an introductory field experience class for undergraduate students who plan to enter the teaching profession. The course provides opportunities for students to observe adolescent learners in middle and high school settings through observations in a classroom, talking with school personnel and meeting in student seminars at Pitt to reflect on what they have seen and heard. Students are provided with guidelines that will assist them in analyzing their observations.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

IL 1704 - CURRENT ISSUES SECONDARY EDUC

Minimum Credits: 3
Maximum Credits: 3
This course is an exploration of public schools and their programs with an emphasis on analyses of current trends, issues, influences, and problems that impact teaching theory and practice. The purpose of this course is to provide Undergraduate students with a well-rounded grounding in issues, influences, problems, and potential solutions related to 21st century learning environments. This course facilitates students' development as academics and scholars by compelling them to engage in rich readings and discourse on these and related topics.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1710 - LITERACY IN CONTEXT

Minimum Credits: 3
Maximum Credits: 3
This course will provide students with the opportunity to learn about literacy tutoring strategies, basic reading instruction and behavior management techniques. These skills will be implemented in an afterschool setting at a local public school. One hour of tutoring per week is a requirement of this class. All students must bring act 33 and 34 clearances to class or they will not be able to go to school sites.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1761 - PRACTICUM BUSINESS EDUCATION

Minimum Credits: 2
Maximum Credits: 2
This pre-student teaching activity is designed to provide prospective teachers learning experiences in the secondary high school business education classroom where they will observe and assist a model classroom teacher.
Academic Career: UGRD
Course Component: Practicum
Grade Component: H/S/U Basis

IL 1762 - TEACHING LAB-BUSINSS EDUCATION

Minimum Credits: 2
Maximum Credits: 2
Laboratory practicum for teacher certification candidates. Provides opportunities to observe and practice basic teaching skills, analyze videotaped teaching episodes, and receive feedback from instructors and peers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

IL 1800 - PRE-STUDENT TEACHING PRE-K

Minimum Credits: 2
Maximum Credits: 2
Full-time practicum for teacher certification candidates. Provides opportunities to observe, plan, conduct, and evaluate instruction in the school

setting and receive professional feedback from university supervisors and experienced master teachers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

IL 1801 - STDNT TCH & SEM ELEM/MIDL SCHL

Minimum Credits: 1
Maximum Credits: 10
Full-time practicum for teacher certification candidates. Provides opportunities to observe, plan, conduct, and evaluate instruction in the school setting and receive professional feedback from university supervisors and experienced master teachers.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

IL 1802 - PROFESSIONAL DEVELP WORKSHOP

Minimum Credits: 1
Maximum Credits: 2
Series of workshops and seminars on such topics as: classroom management, computer literacy, creative dramatics, individualized instruction, multicultural education, and teaching learners with special needs. Includes small group discussion of professional problems encountered at cooperating school sites.
Academic Career: UGRD
Course Component: Clinical
Grade Component: H/S/U Basis

IL 1850 - PRESCH/PRIM LIFE SKILLS PRAC

Minimum Credits: 2
Maximum Credits: 2
For this practicum, which is part of the case program, students will be placed in either a primary life skills classroom or a preschool special education program and will be mentored by a classroom teacher, co-teacher, or itinerant teacher depending on the placement. Students will be expected to complete specific requirements in these settings to fulfill state competencies and program requirements.
Academic Career: UGRD
Course Component: Practicum
Grade Component: LG/SU3 Elective Basis

IL 1852 - SEM PRESCH/PRIM LIFE SKILLS

Minimum Credits: 1
Maximum Credits: 1
Seminar for preschool special education/primary life skills practicum. This course is the seminar that accompanies the preschool special education/primary life skills practicum.
Academic Career: UGRD
Course Component: Seminar
Grade Component: H/S/U Basis

IL 1862 - STUDNT TEACHING - BUSINSS EDUC

Minimum Credits: 10
Maximum Credits: 10
On-site practical experience within assigned schools. Involves all aspects of teaching business education.
Academic Career: UGRD
Course Component: Practicum
Grade Component: Letter Grade

IL 1864 - STUDNT TEACHING SEM - BUS EDUC

Minimum Credits: 2
Maximum Credits: 2
Students are given the opportunity to discuss their student teaching experiences and share any concerns they may have.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

IL 1901 - NATURE OF THE YOUNG CHILDREN

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the nature of the child so as to enable the student to develop an informed philosophical frame work with which to make educational considerations about the role of the teacher. Students will read from a variety of sources to establish a knowledge base with regard to the young child. Practical, guided activities will enable students to develop the basis for subsequent work in theoretical and practical venues with regard to the young child, the development of self-esteem, the role of play in development, the teacher's observational skills and teaching philosophy.

Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1904 - TCH YNG CHILD INCLUSIVE CLSSRS
Minimum Credits: 5
Maximum Credits: 5
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1906 - COMMUNITY RESOURCES
Minimum Credits: 2
Maximum Credits: 3
This interdisciplinary course focuses on the role of the professional in supporting families of young children with and without disabilities by linking them with formal and in formal community resources. The course explores rationale; family-centered principles; models and practices for supporting families; and considerations in the development of community resources. It surveys available resources through guest speakers, on-site visits, and the development of a resource directory.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

IL 1907 - COLLAB PARTNRSHPS FAML CMMNTYS
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

IL 1948 - SPECIAL TOPICS TEACHER DVLP
Minimum Credits: 3
Maximum Credits: 3
A flexible curriculum oriented to special research topics of interest to faculty or to current issues of concern to educators. Focused on areas within programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SU3 Elective Basis

IL 1997 - INDEPENDENT STUDY ELEMNARY ED
Minimum Credits: 1
Maximum Credits: 9
The student registers for this when the student must maintain active registration and needs to extend work on an un completed task or project from a previous term or when pre paring for special examinations.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

IL 1998 - DRCTD STDY TEACHER DEVELOPMENT
Minimum Credits: 1
Maximum Credits: 6
The student proposes and carries out an independent study project under the direction and supervision of an appropriate member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SU3 Elective Basis

Jewish Studies

JS 0013 - ELEMENTARY HEBREW 1
Minimum Credits: 5
Maximum Credits: 5
This course introduces students to the fundamentals of the Hebrew language. We study basic vocabulary, grammar and sentence structure, and learn to read and write Hebrew. Emphasis is learning to speak the language.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0014 - ELEMENTARY HEBREW 2
Minimum Credits: 5
Maximum Credits: 5
Continuation of the introductory work begun in Hebrew 1. Students further develop their reading, writing and speaking skills with the greatest emphasis being placed on oral communication.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0025 - INTERMEDIATE HEBREW 3
Minimum Credits: 3
Maximum Credits: 3
Students continue to develop the skills acquired in Hebrew 2 with emphasis on speaking and on understanding the spoken language. Readings this term include short stories and articles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0026 - INTERMEDIATE HEBREW 4
Minimum Credits: 3
Maximum Credits: 3
Students continue to develop their Hebrew reading and speaking skills. Sophisticated Hebrew texts are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0037 - ADVANCED HEBREW COMP & CONV 1
Minimum Credits: 3
Maximum Credits: 3
This course is for advanced level students and uses Hebrew language literature, print and electronic media, film, and TV shows. Emphasis is placed on conversation, modern Hebrew literature, and composition.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0045 - HEBREW BIBLE
Minimum Credits: 3
Maximum Credits: 3
An introduction to the religion of Israel through an examination of Hebrew scriptures.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0067 - FAMILY AND THE BIBLE
Minimum Credits: 3
Maximum Credits: 3
An examination of kingship, prophecy, cultic sacrifices and community as they were understood by the ancient Israelites.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0090 - MYTH IN THE ANCIENT NEAR EAST
Minimum Credits: 3
Maximum Credits: 3
The myths of the ancient near East are among the earliest written interpretations of the world and human existence. They are also among the most enduring, although they have only been unearthed in the last 200 years. In this course, we read myths from ancient Mesopotamia, Ugarit, and Israel. We study the myths as literary works, representative of the ideas and issues of the original cultural context in which they were shaped. These myths offer insight into the religious mentality of the ancient near east, as well as societal and political issues. We examine themes such as the presentation of the life of the gods, the relationship between the human and divine worlds, the issues of mortality and immortality, existence, fertility, kingship, and ethics. The primary goal of this course is to better understand these myths as they existed and developed in their ancient settings. Of course, because the myths are expressions of human thought, we may find that in studying them we also come to better understand ourselves.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0205 - INTRODUCTION TO JUDAISM
Minimum Credits: 3
Maximum Credits: 3
Major themes of the Jewish tradition from biblical to modern times are explored.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0215 - ETHICS IN THE JEWISH TRADITION
Minimum Credits: 3
Maximum Credits: 3
This course introduces students to Jewish texts drawn from the classical through the contemporary period on a variety of issues ranging from abortion and business practices to suicide and war.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0225 - TOPICS: MEDIEVAL JEWISH HISTRY
Minimum Credits: 3
Maximum Credits: 3
Jewish experiences in the Christian West and the Muslim East are reviewed and compared.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0255 - MODERN JUDAISM
Minimum Credits: 3
Maximum Credits: 3
The growth and development of Jewish religious movements after the enlightenment are assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0265 - MODERN JEWISH THINKERS
Minimum Credits: 3
Maximum Credits: 3
We examine the work of significant Jewish thinkers and writers in the 19th and 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0283 - US AND THE HOLOCAUST
Minimum Credits: 3
Maximum Credits: 3
With increasing interest in the Holocaust in Europe, this course focuses on the American side of the Atlantic - on issues of anti-Semitism and anti-immigrant sentiment in this country and on America's response to the Holocaust. We will also look at some post-holocaust issues as well.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 0285 - JEWISH AND BLACK HISTORY
Minimum Credits: 3
Maximum Credits: 3
This course will examine aspects of the historical experience which have shaped the consciousness of blacks and Jews today. The relationship between blacks and Jews particularly from the 1960s on will be explored and discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1065 - BIBLICAL HEBREW
Minimum Credits: 5
Maximum Credits: 5
This course introduces students to the grammar, syntax and vocabulary of Biblical Hebrew.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1100 - ISRAEL IN THE BIBLICAL AGE

Minimum Credits: 3
Maximum Credits: 3
This course explores the history and development of the people of Israel in ancient times. What do we know about the Israelites and how do we know it? Students will read both biblical and extra-biblical materials and study the remains of key archaeological sites. They will learn about everyday life in ancient Israel, the role of class and gender, life-cycle events, religious festivals, political institutions, systems of belief, and famous personages in history and lore. The trajectory of the course will begin with the Near Eastern origins of the people, continue through the rise of the Israelite and Judahite monarchies, and end with the post-exilic reestablishment of the Second Temple commonwealth in the Persian period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1110 - SPECIAL TOPICS-ANCIENT

Minimum Credits: 3
Maximum Credits: 3
Special topics in ancient art.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1160 - JERUSALEM: HISTORY AND IMAGN

Minimum Credits: 3
Maximum Credits: 3
This course examines the political, religious, and cultural history of Jerusalem, focusing primarily on Jerusalem as a concrete and conceptual phenomenon in the premodern period.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1210 - JEWS & JUDAISM IN ANCNT WORLD

Minimum Credits: 3
Maximum Credits: 3
This course covers the development of Classical Judaism from the Second Temple Period, beginning with the end of the Babylonian Exile in the 6th century BCE, and continues up through the emergence of Rabbinic Judaism, culminating with the redaction of the Babylonian Talmud in the 6th century CE. We cover both the major historical trends as well as the major religious developments. The course also introduces students to the major Jewish texts of both the Second Temple Period and the Rabbinic Period, emphasizing close readings of primary texts.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1214 - RABBINIC TEXTS AND TRADITIONS

Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to the various genres of rabbinic literature. It also serves to demonstrate the transition from the religion of biblical Israel to rabbinic or classical Judaism.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1220 - JEWS & JUDM IN THE MEDEVL WRLD

Minimum Credits: 3
Maximum Credits: 3
An introduction to the facets of medieval and early modern Jewish life.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1222 - JEWISH MYSTICISM

Minimum Credits: 3
Maximum Credits: 3
Mystical traditions in Judaism through the early modern period are assessed.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1225 - JEWSH CULTUR IN MEDIEVAL SPAIN

Minimum Credits: 3
Maximum Credits: 3
Medieval Spain was the scene of varied interactions among Jews, Christians, and Muslims. Jews participated vigorously in this culture as they did nowhere else at the time, producing an enduring heritage that is universal in its appeal.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1227 - MEDIEVAL SPAIN

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1228 - EXODUS AND PASSOVER

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1230 - ASHKENAZI JEWRY

Minimum Credits: 3
Maximum Credits: 3
Jewish communal life and interactions with Christian society in France, Germany, Poland and Russia through the 20th century are considered.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1232 - MODERN EASTERN EUROPEAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This upper level undergraduate course surveys the history of the historically most numerous portion of European Jewry from the medieval period to the present, emphasizing the modernization of east-central European Jews as minorities in the context of their host societies.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1240 - JEWS AND THE CITY

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1241 - GENDER AND JEWISH HISTORY

Minimum Credits: 3
Maximum Credits: 3
This course will highlight the impact of gender in modern Jewish history, revealing the divergent experiences of Jewish women and Jewish men as they adapted to the modern world. We will take an international approach to this history, tracing the ways in which circumstances in Europe, America, and the Middle East shaped how Jews understood and responded to gender roles.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1250 - JEWS & JUDAISM IN MODERN WORLD

Minimum Credits: 3
Maximum Credits: 3
Here we examine the specific challenges that the modern period posed to existing Jewish life and the nature of the responses made by Judaism to those challenges.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1252 - HOLOCAUST HISTORY & MEMORY

Minimum Credits: 3
Maximum Credits: 3
We take a long-range view of the holocaust as we examine it within the contexts of both European and Jewish history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1253 - INTRO TO HOLOCAUST LITERATURE

Minimum Credits: 3
Maximum Credits: 3
This course surveys the central texts of the literature of the holocaust, while introducing students to the main issues and preoccupations of holocaust testimony in literature and film.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1254 - AFTER THE HOLOCAUST

Minimum Credits: 3
Maximum Credits: 3
A survey of the impact of the holocaust on Jewish life in the soviet union, the middle east, and the United States in the period 1945-1985.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1255 - HOLOCAUST E EURPN FILM & LIT

Minimum Credits: 3
Maximum Credits: 3
Conceiving the holocaust as the most important event of the Twentieth Century, this course examines the verbal and visual texts that involve some form of testimony as to events and experiences directly or indirectly related to the Nazi holocaust 1939-47. Rather than allowing the extermination of millions of people to stand as an absence", writers, artists and filmmakers felt compelled to fill the void and the horrible silence with testimony, with voices, images and works."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1256 - MODERN ISRAEL

Minimum Credits: 3
Maximum Credits: 3
We trace the history of modern Israel from the idea of the return in the second half of the 19th century through the state of Israel today.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1257 - RUSSIAN JEWRY

Minimum Credits: 3
Maximum Credits: 3
This course examines the experience of Russian Jewry during the 145 year period from its entrance into Russian political life to the end of the empire. We will treat both the internal dynamics within the community as it came to be transformed from a religiously based and clerically dominated leadership to a national-cultural entity that developed a variety of political movements and expressions in order to articulate its new found modern identity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1258 - SOVIET JEWRY

Minimum Credits: 3
Maximum Credits: 3
We focus on the Jewish community in the USSR since the revolution of 1917.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1260 - AMERICAN JEWISH EXPERIENCE
Minimum Credits: 3
Maximum Credits: 3
We analyze the Jewish experience in America since the middle of the 18th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1266 - ISRL: STATE & SOCIETY, 1948-88
Minimum Credits: 3
Maximum Credits: 3
This course focuses on the impact of immigration and its role in the shaping of the state, the interaction between religion and politics (state), and the experiences of the Arab citizens of the Jewish state.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1270 - GERMANY TODAY
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1274 - MODERN JEWISH WRITERS
Minimum Credits: 3
Maximum Credits: 3
The creative efforts of Jewish secular and non-secular thinkers in the post-enlightenment era are assessed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1290 - TOPICS IN CINEMA
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Satisfactory/No Credit

JS 1295 - JEWS AND THE AMERICAN CINEMA
Minimum Credits: 3
Maximum Credits: 3
This course will introduce students to: the prominent roles 0f Jews in the American cinema (as producers, directors and performers); the manner in which issues of Jewish identity (including the negative aspect of ethnic stereotypes) and topics such as anti-Semitism and the holocaust have been treated in the American cinema; and the way in which film genre intersects with issues of Jews in American film (e.g. Comedy and so-called Jewish humor", the appeal to Melo drama in the social problem film, etc.)."
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis

JS 1383 - POLITICS OF CNTMPRY MIDDL EAST
Minimum Credits: 3
Maximum Credits: 3
The main emphasis of the course will be on conflict and conflict resolution in the middle east. Conflict has been a constant feature of the region since 1945. This course will be primarily concerned with how and why these conflicts are generated, escalate, become protracted, and are resolved.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1624 - WOMEN IN JUDAISM
Minimum Credits: 3
Maximum Credits: 3
This course explores the image and legal status of women in Judaism, from antiquity to the present.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1640 - JEWS IN THE ISLAMIC WORLD

Minimum Credits: 3
Maximum Credits: 3
A survey of Jewish life in Spain, North Africa and the middle East in medieval and early modern times.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1644 - CHRST MUSLIMS JEWS MIDDLE AGES

Minimum Credits: 3
Maximum Credits: 3
The emergence of Christianity from Judaism and the implications of the relationship between Christianity and Judaism have been of critical importance in the history of Europe and the world and both Christians and Jews continue to grapple with the theological, political, and cultural impacts of that relationship in today's world. This course surveys the relationships between Jews and Christians from the time of Jesus through the modern era, as viewed by Jews, Christians, and sometimes those in neither category. Topics include the Jewish origins of Christianity; rabbinic views of Christianity and church fathers' views of Judaism; the status of Jews and Jewish communities in the Roman empire and in medieval Europe, medieval persecution of Jews; interreligious disputations and polemics; the impact of the reformation and the enlightenment; Jewish-Christian relations in modern 'secular' states; the rise of new forms of anti-Semitism; the holocaust; and post-holocaust dialogue and new theologies of interreligious encounter. We will discuss not only the significance of Jewish-Christian interactions for European and American history but also assess Jewish-Christian relations as a case study in the broader history of religious diversity, pluralism, and conflict.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1645 - JESUS AND JUDAISM

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1646 - RABBINIC APPRCH-NON-JEWSH WRLD

Minimum Credits: 3
Maximum Credits: 3
This course explores how biblical religion became Judaism. It also introduces students to various genres of classical Jewish texts, and traces the development of ideas from the biblical period to modernity.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1648 - GENDER & THE JEWISH TRADITION

Minimum Credits: 3
Maximum Credits: 3
Gender and Jewish tradition treats the theme of gender as it is introduced and discussed in Jewish legal literature.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1650 - APPROACHES TO ANTISEMITISM

Minimum Credits: 3
Maximum Credits: 3
We survey historical, sociological, psychological, religious and political approaches to expressions of antisemitism as we study scholarly treatment of the phenomenon in the 20th century.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1675 - READING THE HEBREW BIBLE

Minimum Credits: 3
Maximum Credits: 3
An introduction to the various methods used by scholars studying the Hebrew bible in both medieval and modern times. Methods will include text criticism, source criticism, feminist criticism, and others.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1680 - HIST & MEMRY IN JEWSH TRADTN

Minimum Credits: 3
Maximum Credits: 3
Students will be introduced to the manner in which historians have studied and understood the Jewish experience from antiquity through the modern age. The role of historical study in the formation of Jewish identity will be especially highlighted.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

JS 1762 - THE GUIDE TO THE PERPLEXED

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

JS 1800 - SPECIAL TOPICS

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

JS 1900 - INTERNSHIP

Minimum Credits: 1
Maximum Credits: 3
Internships for credit with community organizations can be arranged.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

JS 1901 - INDEPENDENT STUDY

Minimum Credits: 1
Maximum Credits: 4
Jewish Studies Certificate students write their capstone thesis under this section and should register for 3 credits. Permission of the Jewish Studies coordinator is required.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

JS 1902 - DIRECTED STUDY-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Allows for courses or tutorials on topics not covered in other courses.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

JS 1903 - DIRECTED RES-UNDERGRADUATE

Minimum Credits: 1
Maximum Credits: 4
Allows students Undergraduates to develop semester-length original research projects under supervision of a faculty member.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

JS 1904 - UNDGR RES ASSISTANTSHIP

Minimum Credits: 1
Maximum Credits: 4
Allows students to earn academic credit by assisting faculty members in their research projects.
Academic Career: UGRD

Course Component: Internship
Grade Component: Satisfactory/No Credit

JS 1905 - UNDGR TEACHING ASSISTANT
Minimum Credits: 1
Maximum Credits: 4
To allow students to serve as an undergraduate teaching assistant in Jewish studies courses under the supervision of a faculty member.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

Korean

KOREAN 0001 - FIRST YEAR KOREAN 1
Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 0002 - FIRST YEAR KOREAN 2
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0001 or 1001 (MIN GRADE 'C-')

KOREAN 0003 - SECOND YEAR KOREAN 1
Minimum Credits: 4
Maximum Credits: 4
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0002 or 1002; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 0004 - SECOND YEAR KOREAN 2
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0003 or 1003; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 0005 - THIRD YEAR KOREAN 1
Minimum Credits: 4
Maximum Credits: 4
Students will build on previously learned material and learn increasingly complex grammar patterns and build more sophisticated vocabulary for everyday interactions in all learning skill areas: speaking, listening, reading, and writing. Will read texts that focus on Korean society and history.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0004 or 1004; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 0006 - THIRD YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
Students will build on previously learned material and learn increasingly complex grammar patterns and build more sophisticated vocabulary suitable for everyday interactions, and apply them in all language skill areas (speaking, listening, reading, and writing). By reading texts that focus on Korean society and history, students will learn some representative aspects of Korean culture. Approximately two hours per week to develop aural/oral skills using a communicative method.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0005 or KOREAN 1005; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 0070 - WORLD OF KOREA: PAST & PRESENT

Minimum Credits: 3
Maximum Credits: 3
Intro to Korean society/culture through study of acclaimed film Chunhy-ang, based on famous 18thc Korean literature work, providing complex window to late Korean traditional culture, literature and performing arts. Students will ac quire tools to understand diversity in aspects of many cultures, as well as a changing political system. Topics include: family structure and marriage, gender issues, class system, agricultural life of Korean society, education, relations to other neighboring cultures and various forms of art expression."
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 0075 - INTRO TO KOREA THROUGH FILMS

Minimum Credits: 3
Maximum Credits: 3
Introduces Korean cinema to students in broader (and at times narrow) cultural, social, and aesthetic contexts to investigate transnational media production and circulation, globalization, consumer culture, commercialization, and construction of national, ethnic and gender identities. Through this course, students will learn more about specific issues pertaining to Korea and its people, as well as gain familiarity with some prominent film directors of Korea's. They will develop a critical and historical consciousness of Korean visual culture, assessing the worth and content of the films.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 1001 - FIRST YEAR KOREAN 1

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 1002 - FIRST YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0001 or KOREAN 1001

KOREAN 1003 - SECOND YEAR KOREAN 1

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0002 or KOREAN 1002; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 1004 - SECOND YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0003 or KOREAN 1003; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 1005 - THIRD YEAR KOREAN 1

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0004 or KOREAN 1004; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 1006 - THIRD YEAR KOREAN 2

Minimum Credits: 4
Maximum Credits: 4
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0005 or KOREAN 1005; MIN GRADE: 'C-' FOR LISTED COURSES

KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
This course will examine and explore essential topics in Korean linguistics such as the Korean scripts and sounds, genetic affiliation, historical development, word structure, grammatical structure, discourse, honorific and speech styles, and first/second language acquisition. Upon completion of this course, students will i) understand how the Korean language developed, and what kind of relationship the Korean language has with other languages, ii) have an ability to critically analyze basic word, phrasal and sentence structures as well as discourse structures, iii) have a general understanding of how the Korean language works as a communication system.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 1050 - FOURTH YEAR KOREAN

Minimum Credits: 3
Maximum Credits: 3
Designed to advance students to greater strengths in reading and writing skills and socio-cultural knowledge of Korean beyond high intermediate level. Students will develop skills in reading and listening to various authentic materials, and enhance speaking and writing skills to discuss issues of contemporary Korean society and culture. The goals of the course also include furthering aural comprehension of contemporary television documentaries, news and drama with decreased reliance on pedagogical aids. This course is student centered and students will develop their knowledge of Korean lexicon (including Chinese characters of Sino-Korean) and grammar through their own readings/writings and class discussions. Students will write short research papers throughout the semester. Class will be conducted in Korean exclusively, and uses a combination of lectures and discussions. Both lectures and discussions are based on assigned readings and discussion topics that will be distributed through bi-weekly schedules.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 0006 or KOREAN 1006 (MIN GRADE 'C-')

KOREAN 1051 - FOURTH YEAR KOREAN 2

Minimum Credits: 3
Maximum Credits: 3
Goals: advance students to greater strengths in reading and writing skills and socio-cultural knowledge of Korean beyond high intermediate level; develop skills in reading and listening to authentic materials; enhance speaking and writing skills to discuss issues of contemporary Korean society and culture; furthering aural comprehension of contemporary television documentaries, news and drama with decreased reliance on pedagogical aids. Course is student centered class and students will develop their knowledge of Korean lexicon (including Chinese characters of Sino-Korean) and grammar. Class will be conducted in Korean exclusively.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: KOREAN 1050 (MIN GRADE 'C-')

KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA

Minimum Credits: 3
Maximum Credits: 3
Focus on fundamental knowledge of sociolinguistics, language variations, varieties and codes of inherent sociality cultural implements. With substantial differences between eastern and Western cultures, students will study linguistic behavior and social groups, social class, effects of gender, address and reference terms, politeness strategies and style of language form used both in English and Korean in comparative study. Materials arranged to explain and evaluate the interaction of language, society and culture, the process of how people use language to construct social meaning and how those processes influence linguistic structure as well as cross-cultural communication.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 1065 - METAPHOR KOREAN LANG & THOUGHT
Minimum Credits: 3
Maximum Credits: 3
Metaphor in Korean language and thought is an introduction course to the study of meaning, which focuses on the basic findings in the field of conceptual metaphor research. Metaphor is pervasive in everyday life, not just in lg but also in thought and culture. Metaphors also play a role in ethnic and cultural identity. In this course, we will examine how metaphor differences across cultures affect how people in different cultures think and consequently use lg differently. Korean will be the main LG to be studied throughout the course but other LGs such as English, Japanese and Chinese will also be discussed in order to maintain cross-linguistic and cross-cultural comparisons.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

KOREAN 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Student will undertake a specific research topic regarding language, literature, or culture of Korea. Faculty will approve an independent study agreement and student will make a midterm and final report to instructor.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SU3 Elective Basis

Latin

LATIN 0011 - BEGINNING LATIN 1
Minimum Credits: 5
Maximum Credits: 5
This course is the first half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LATIN 0021 - BEGINNING LATIN 2
Minimum Credits: 5
Maximum Credits: 5
This course is the second half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0011

LATIN 0030 - MEDIEVAL LATIN AUTHORS 1
Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by medieval Latin authors. The specific authors and works vary from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LATIN 0031 - MEDVL LATN AUTHRS 1 WRIT PRAC
Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students who are taking LATIN 0030 as a writing course
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis

LATIN 0210 - INTERMEDIATE LATIN: PROSE
Minimum Credits: 3
Maximum Credits: 3
In this course students consolidate their grasp of Latin grammar and develop their skills of comprehension through close reading of selected prose texts, most usually drawn from Caesar and Cicero.

Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0021 or 1021

LATIN 0220 - INTERMEDIATE LATIN: VERSE

Minimum Credits: 3
Maximum Credits: 3
In this course students are introduced to Latin verse through close reading of selected portions of Virgil's Aeneid.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210

LATIN 1011 - BEGINNING LATIN 1

Minimum Credits: 5
Maximum Credits: 5
This course is the first half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LATIN 1021 - BEGINNING LATIN 2

Minimum Credits: 5
Maximum Credits: 5
This course is the second half of a two-term sequence introducing students to the morphology and syntax of classical Latin. Its purpose is to move students as quickly as possible to the reading of simple Latin prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LATIN 1030 - MEDIEVAL LATIN AUTHORS 1

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by medieval Latin authors. The specific authors and works vary from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220

LATIN 1032 - MEDIEVAL LATIN AUTHORS 2

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by medieval Latin authors. The specific authors and works vary from term to term.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 or LATIN 0220

LATIN 1300 - LATIN AUTHORS 1

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman authors. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220

LATIN 1301 - LATIN AUTHORS 1: WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking Latin 1300 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220

LATIN 1302 - LATIN AUTHORS 2

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman authors. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220

LATIN 1303 - LATIN AUTHORS 2: WRITING PRAC

Minimum Credits: 1
Maximum Credits: 1
Writing practicum for students taking Latin 1302 as a writing course.
Academic Career: UGRD
Course Component: Credit Laboratory
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LATIN 0210 and 0220

LATIN 1400 - ADV READINGS IN LATIN EPIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman epic poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1402 - ADV READINGS IN LATIN DRAMA

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman dramatists. The specific authors and works read vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1406 - ADV READINGS IN LATIN LYRIC

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman lyric poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1410 - LATIN READING: SATIRE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or LATIN 1302

LATIN 1412 - ADV READING IN LATIN ELEGY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman elegiac poets. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD

Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1416 - ADV READINGS IN LATIN HISTNS

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman historians. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1418 - ADV READINGS IN LATIN ORATORY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman orators. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1420 - ADV READGS IN LATIN PHILOSOPHY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman philosophers. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1422 - ADV RDGS LATN EPISTOLOGRAPHY

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected works by Roman epistolographers. The specific authors and works vary from term to term; the course may be repeated for credit when the material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade

LATIN 1430 - SPECIAL TOPICS IN LATIN LIT

Minimum Credits: 3
Maximum Credits: 3
In this course students read selected Greek texts. The course may be repeated for credit provided the specific material covered is different.
Academic Career: UGRD
Course Component: Seminar
Grade Component: Letter Grade
Course Requirements: PREQ: LATIN 1300 or 1302

LATIN 1700 - LATIN PROSE COMPOSITION

Minimum Credits: 3
Maximum Credits: 3
This course provides students with a thorough review of Latin grammar and practice in the writing of Latin prose.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LATIN 1800 - HONORS COURSE/MAJORS

Minimum Credits: 3
Maximum Credits: 3
In this course undergraduate majors in classics who wish to graduate with honors (and are otherwise qualified) write an honors paper, usually in conjunction with a Latin reading course at the 1300 or 1400 level.
Academic Career: UGRD

Course Component: Thesis Research
Grade Component: Satisfactory/No Credit

LATIN 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes independent study in Latin in consultation with a member of the faculty.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

LATIN 1902 - DIRECTED STUDY FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 6
In this course a student undertakes directed study in Latin under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: LG/SNC Elective Basis

LATIN 1903 - DIRECTED RSRCH FOR UNDERGRADS
Minimum Credits: 1
Maximum Credits: 9
In this course a student undertakes directed research in the field of classical civilization under the close guidance of a member of the faculty.
Academic Career: UGRD
Course Component: Directed Studies
Grade Component: Letter Grade

Leadership

LDRSHP 1100 - THEORIES OF LEADERSHIP
Minimum Credits: 3
Maximum Credits: 3
This course is designed to acquaint students with multiple theories and practices associated with effective leadership. In answering the question, "what is leadership," it examines such theories as situational, participative, transformational, and servant leadership. It also addresses those leadership and administrative skills and practices usually associated with effective community organization and professional management.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LDRSHP 1100 or PUBSRV 1390

LDRSHP 1200 - LEADERSHIP SEMINAR
Minimum Credits: 3
Maximum Credits: 3
This course is designed to develop in students an understanding of the conceptual and practical strategies of leadership. Through the use of readings, in-class activities and guest presenters, students are exposed to four factors that play a role in the development or modification of a leader. These include: appreciation of the concept of organizational life; understanding the process of change; comprehending the impact of leadership style, delivery, and strategy; and finally, developing an awareness of individual strengths and weaknesses and how to most effectively match individual style to the leadership process. The course is required of all students pursuing the Undergraduate certificate in leadership. Students should have successfully completed both the emerging leaders program and the theories of leadership course prior to registering.
Academic Career: UGRD
Course Component: Seminar
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LDRSHP 1100 or PUBSRV 1390

Learning Skills

UCEP 0820 - LEARNING SKILLS
Minimum Credits: 2
Maximum Credits: 2
This course is designed and taught by UCEP professional staff and develops learning skills and study skills for academic success and personal growth. This course covers social systems management, time management, notetaking, testwiseness, study reading, word power development systems, and library use.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

UCEP 0820 - LEARNING SKILLS
Minimum Credits: 2
Maximum Credits: 2
This course is designed and taught by UCEP professional staff and develops learning skills and study skills for academic success and personal growth. This course covers social systems management, time management, notetaking, testwiseness, study reading, word power development systems, and library use.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

Legal Studies

LEGLST 0020 - PUBLIC LAW AND MORAL REASONING
Minimum Credits: 3
Maximum Credits: 3
The course is designed to provide the intellectual tools to analyze moral and legal dilemmas which face professionals in their respective fields of work, and the society in which all of us must live. The course will help students to develop the skill of moral reasoning so that they may better identify, analyze, deliberate, and resolve moral dilemmas.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 0080 - INTRODUCTION TO LEGAL STUDIES
Minimum Credits: 3
Maximum Credits: 3
Provides students with an overview of the structure and operation of American law and legal systems. Offers examples of the type of topics treated in depth in substantive legal studies courses. Introduces the student to the nature, functions, limitations, and operations of law as an institution in modern society. Various jurisprudential approaches are examined, and selected problems of law, power, morality and social and economic stratification are studied. Heavy emphasis is placed on the institution. Various empirical studies of the law in action will be examined.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1140 - INTRODUCTION TO CRIMINAL LAW
Minimum Credits: 3
Maximum Credits: 3
Acquaints the student with basic principles of criminal law derived from our English common law heritage and from more recent statutory penal code revisions in the American states. Course examines the meaning of crime and of criminal responsibility; criminal complicity and conspiracy; sentencing alternatives; and the decriminalization of some offenses.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1141 - INTRO TO CRIMINAL PROCEDURE
Minimum Credits: 3
Maximum Credits: 3
This course examines the procedural effects of criminal law, including constitutional rights, state criminal procedure, and appellate decisions and rules.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1145 - CIVIL LAW
Minimum Credits: 3
Maximum Credits: 3
This course acquaints the student with the substance, under lying rationales and changing character of the most massive area of legal regulation, the civil law. The course distinguishes each substantive civil law area and explores the myriad ways in which civil law is both a cause and a consequence of social change.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1150 - LAWYERS AND LEGAL PROFESSION
Minimum Credits: 3
Maximum Credits: 3
This course offers a multi-disciplinary examination of lawyers and their role in society, with an emphasis on the relationship of lawyers to courts,

judges, clients, and other lawyers. Topics to be covered in the course include: the philosophy of advocacy, the psychological and ethical aspects of practicing law, the role of law schools in the creation of professional identity, societal attitudes towards lawyers and the legal system, the involvement of lawyers in government, politics, and policy making, and evolving concepts of legal practice.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1152 - LEGAL ISSUES IN PUBLIC SERVICE

Minimum Credits: 3
Maximum Credits: 3
This course examines the impact of law on public administration and manner in which legal implications condition formulation, adoption, and the implementation of programs.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LEGLST 1155 - LAW AND SOCIAL CHANGE

Minimum Credits: 3
Maximum Credits: 3
This course investigates the interrelationships between change in society and change in legal rules. Legal change is studied as an outcome of social change; directed social change as a result of legal change, or social engineering, is also examined; and the mutual ongoing interactions between legal and social change are investigated. Classical and contemporary theories related to these areas are introduced.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1210 - LAW AND POLITICS

Minimum Credits: 3
Maximum Credits: 3
This course examines the relationships between law and values, law and power, law and discretion. The nature of legal reasoning is illustrated and analyzed as it is applied to statutory law, case law, and constitutional law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1230 - PSYCHOLOGY AND LAW

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the contributions of psychiatry and psychology to the legal process. The role of the psychology expert in criminal proceedings, the problem of criminal insanity, the process of civil commitment, and the rights of those deemed to be mentally ill, are among topics to be examined. Students will be asked to read and analyze legal cases and scholarly discussions of these and other related issues. Actual observance of relevant courtroom proceedings will be arranged.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1240 - ANTHROPOLOGY OF LAW

Minimum Credits: 3
Maximum Credits: 3
This course examines anthropological analyses of law and law-like phenomena in a number of societies, including the United States. Particular attention is given to the various ways that disputes are resolved in different social and cultural settings, and to the theoretical analyses used to ex plain these differences.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1260 - LAW, LITERATURE, AND CINEMA

Minimum Credits: 3
Maximum Credits: 3
This course will introduce the student to literary treatments of basic issues of law and justice. Through an examination of plays, novels, essays, and short stories, the student will be able to see competing conceptions of law, justice, and morality. Legal themes as they appear in literature can then be used to analyze and evaluate selected areas of civil and criminal law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1261 - LANGUAGE AND THE LAW

Minimum Credits: 3
Maximum Credits: 3
Course will examine the role of language in legal and related bureaucratic settings. It will look first at written legal language analyzing the debate between proponents of "legalese" and supporters of the "plain English" movement. In addition to written legal language, spoken legal language will be studied in depth. The languages of judges, lawyers, and testifying witnesses and defendants will be examined from various linguistic vantage points; attention will be given to semantics, pragmatics, syntax, and the turn taking system at work when witnesses are questioned.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1310 - CONSTITUTIONAL CHOICES

Minimum Credits: 3
Maximum Credits: 3
This is an introductory level political science tele course on constitutional rights and public policy. The heart of the tele course is a series of thirteen televised seminars on controversial constitutional issues like capital punishment, affirmative action, abortion, executive privilege, and national security vs. Freedom of the press. The seminars are dramatic confrontations between a skilled moderator and a distinguished group of professors, journalists, lawyers, judges and politicians.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1315 - SEX, LAW AND MARRIAGE

Minimum Credits: 3
Maximum Credits: 3
Surveys the socio-legal aspects of marriage, marital alternatives, and related modes of sexual expression. Laws in these areas have been changing dramatically, reflecting, if not causing, fundamental shifts in the values and norms surrounding intimate behavior. The following topics are covered: ceremonialized marriage, commonlaw marriage, "open" marriage, "contract" marriage, homosexual and transsexual "marriage", unwed cohabitation, annulment, separation, divorce, artificial insemination, test tube fertilization, abortion, illegitimacy, alimony and property settlements.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1318 - SEPARATION, DIVORCE & CUSTODY

Minimum Credits: 3
Maximum Credits: 3
A structural analysis of the causes and consequences of divorce. The process of divorce in its various psychological, legal, economic and social components is examined. The impact of divorce on the spouses, children and relatives is discussed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1320 - LAW AND ENVIRONMENT

Minimum Credits: 3
Maximum Credits: 3
This course introduces the student to the role of law in regulating environmental pollution. Included will be an examination of water pollution, air pollution and noise pollution. Major federal statutes such as the national environmental protection act, and the Clean Air Act will be studied along with judicial and administrative cases and rules governing these areas. Emphasis will be upon the interaction of law, politics, economics and psychology in environment control.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1325 - CONSUMER LAW

Minimum Credits: 3
Maximum Credits: 3
This course introduces students to the laws governing their rights as consumers. The evolution of consumer rights is traced from the common law to our present statutes. Students are introduced to state and federal laws, among them: truth in lending act, fair debt collection practices act, fair credit reporting act, equal credit opportunity act, unfair trade practices and consumer protection law and auto mobile lemon law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1326 - GLOBALIZATION AND LAW

Minimum Credits: 3
Maximum Credits: 3

This course considers the efforts underway to globalize ideas of rule of law and democracy. In the movement to promote rule of law governments, human rights, and market economies, conflicts regarding culture, identity and local politics arise. The course explores the global ideas of democracy and rule of law within the context of local identity, culture and politics of emerging nation-states.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LEGLST 1327 - INTERNATIONAL LAW

Minimum Credits: 3
Maximum Credits: 3
This course focuses on the nature of international law and how it differs from law within states. Topics covered include the following: treaties, enforcement mechanisms, international courts, human rights issues, the law of war, and international law of the environment, and prospects for the future of international law.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LEGLST 1330 - LAW AND BUSINESS CORPORATIONS

Minimum Credits: 3
Maximum Credits: 3
Explores basic commercial law applicable to the business environment. Areas covered include the law of contracts, sales, negotiable instruments, property, agency, and forms of business organizations. References will be made to both common-law principles and to federal and state statues, with emphasis on the uniform commercial code.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1340 - INTRODUCTION TO CIVIL RIGHTS

Minimum Credits: 3
Maximum Credits: 3
The individual rights protected by the bill of rights form the basis for this course. Specifically, the right to privacy, sexual equality, educational equality, religious freedom, and issues surrounding freedom of the press will be studied. In addition, the civil rights of specific groups including students, blacks, Indians, poor people, mental patients, members of the armed forces, teachers and public officials will be analyzed.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1345 - EMERGING TECOLOGIES & THE LAW

Minimum Credits: 3
Maximum Credits: 3
This course considers the societal, political and legal dimensions of emerging technologies. The course will focus on the treatment of biometrics, identification technologies, cybercrime and the internet within a regulatory framework of constitutional law, federal legislation and international law. Here we explore the interaction between emerging technologies, society and law, with a focus on privacy, anonymity and civil liberties.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1355 - EMERGING ISS LEGL & SOCL POLC

Minimum Credits: 3
Maximum Credits: 3
This course explores several issues with which the law is now wrestling. Topics explored include assisted reproductive technologies, assisted suicide and right to die movements, intellectual property in the internet age, immigration law, environmental and climate change, same-sex marriage, aids law, freedom of expression and advanced communication technologies, international law and universal jurisdiction, and the future of American law. With all of these topics, we will explore how the law struggles to keep pace with advances in science and technology, as well as how the law reacts to a changing society.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1410 - INTRODUCTION TO LEGAL RESEARCH

Minimum Credits: 3
Maximum Credits: 3
Deals with the development of law library research skills and some basic research skills in the social sciences. It provides the students with an understanding of the law library and will assist in developing research skills through the use of primary and secondary sources of the law. The student will become familiar with the use of the University of Pittsburgh libraries and the paralegal law library collection.
Academic Career: UGRD

Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LEGLST 1430 - TRIAL ADVOCACY 1
Minimum Credits: 3
Maximum Credits: 3
This course examines the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include basic case analysis, effective advocacy skills, appropriate professional conduct, trial preparation, direct and cross examination of lay witnesses, and an introduction to the legal concepts of relevance and hearsay within the context of the federal rules of evidence. Students will participate in intensive class discussions and in-class presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LEGLST 1435 - TRIAL ADVOCACY 2
Minimum Credits: 3
Maximum Credits: 3
This course further examines more advanced topics relating to the mechanics of American civil and criminal litigation in both nonjury and jury trials. Topics include the authentication and use of evidentiary exhibits such as documents, real evidence and demonstratives, the direct and cross examination of expert witnesses, character evidence, opening statements, and closing arguments. Students will participate in intensive class discussions and in-class presentations.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Letter Grade

LEGLST 1900 - INTERNSHIP
Minimum Credits: 1
Maximum Credits: 6
Course is supervised placement with specific agency or firm in some part of the legal system.
Academic Career: UGRD
Course Component: Internship
Grade Component: Satisfactory/No Credit

LEGLST 1901 - INDEPENDENT STUDY
Minimum Credits: 1
Maximum Credits: 6
Allows advanced students to pursue topics and research of special interest which are not otherwise available. Course requires construction of plan of study of research on topics selected and approval of instructor who will supervise work.
Academic Career: UGRD
Course Component: Independent Study
Grade Component: LG/SNC Elective Basis

ARABIC 0211 - IRAQI ARABIC 1
Minimum Credits: 2
Maximum Credits: 2
The first semester will be devoted to the presentation and practice of the basic sound patterns of the Iraqi dialect, its fundamental sentence patterns, and sufficient vocabulary for basic conversation. Cultural information will accompany language instruction to prepare students for a possible journey abroad.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: CREQ: LING 0132; MIN GRADE: 'C'

ARABIC 0212 - IRAQI ARABIC 2
Minimum Credits: 2
Maximum Credits: 2
The second term will introduce more elaborate conversations that include a more advanced level of grammar such as tenses and conjugations. By creating an interesting story line that follows the experience of two Americans in Baghdad. Students will be able to listen to more authentic samples of the dialect and participate in more sophisticated conversations through class activities.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: LING 0711 (MIN GRADE: 'C'); CREQ: LING 0133 (MIN GRADE: 'C')

ARABIC 0213 - IRAQI ARABIC 3
Minimum Credits: 2
Maximum Credits: 2
The third term will engage students more fully in authentic speech by giving them an insider's view of life in Iraq. Students will listen to authentic Egyptian conversations involving everyday problems, entertainment and professional life. This level introduces the colloquialisms of the modern Iraqi dialect.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: LING 0712 (MIN GRADE: 'C'); CREQ: LING 0134 (MIN GRADE: 'C')

Minimum Credits: 2
Maximum Credits: 2
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC

ARABIC 1115 - READINGS IN ARABIC
Minimum Credits: 3
Maximum Credits: 3
This course improves the proficiency of students of Arabic at the high intermediate level and above through reading and discussion of authentic Arabic texts. These texts will include both fiction (e.g. Excerpts from novels, short stories, etc.) And non-fiction (e.g. Newspaper articles, essays, political speeches, etc.) And will cover major areas of interest in Arabic writing, be they political, social or literary, and reflect the opinions of major Arabic authors on these issues.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC

Course Requirements: PREQ: LING 0143 or LING 0153 or ARABIC 0103 or ARABIC 0123 (MIN GRADE 'B'); CREQ: LING 0144 or LING 0154 or ARABIC 0104 or ARABIC 0124 (MIN GRADE 'B'); PROG: Dietrich Sch Arts and Sciences

ARABIC 1615 - ARABIC LIFE AND THOUGHT

Minimum Credits: 3
Maximum Credits: 3
The primary objective of the course is to introduce students to the cultures of the Arab world in order for them to understand the Arab character apart from stereotypes. The course will also examine the wide variety of ethnicities that are summarily defined as Arab. The main foci of the course will be the understanding of the contemporary Arab mind, the experiences that shaped it, and how Arabs convey it.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC

ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: ANY ENGCMP COURSE

ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS

Minimum Credits: 3
Maximum Credits: 3
In the first half of this course, students will learn about the linguistic structure of modern standard Arabic and related dialects with a special focus on the phonology, morphology and syntax. Material in the second half of the course will focus primarily on social issues related to the Arabic language including discourse, dialectology and language variation, diglossia and language contact.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: LING 1000 or CSD 1020

ARABIC 1909 - SPECIAL TOPICS IN ARABIC

Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC
Course Requirements: PREQ: LING 0133 or LING 0143 or LING 0153; PROG: Dietrich Sch Arts and Sciences

LING 0007 - ESL WRITING INTERMEDIATE

Minimum Credits: 3
Maximum Credits: 3
This is an intermediate writing skills course for non-native speakers of English, covering (a) the process and mechanics of writing a research paper (b) composition writing, with a focus on expository writing for college work (c) selected grammar skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0008 - ESL SPEAKING AND LISTENING

Minimum Credits: 3
Maximum Credits: 3
This is an advanced conversation course for non-native speakers of English to improve speaking and listening skills while gaining experience in the organization and oral presentation of material for academic work. Pronunciation exercises are done in class, while fluency and comprehensibility are the objectives of the student led discussions and presentations. The student will also learn how to prepare and present speeches and discussions. Note-taking skills are practiced. Some language lab work is required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

LING 0009 - ESL WRITING ADVANCED

Minimum Credits: 3
Maximum Credits: 3
This course is intended for foreign students who need work on advanced composition skills in English covering (a) the process and mechanics of writing a research paper (b) composition writing, with a focus on expository writing for college work (c) selected grammar skills.
Academic Career: UGRD

Course Component: Lecture
Grade Component: Satisfactory/No Credit

LING 0010 - ESL READING AND VOCABULARY

Minimum Credits: 3
Maximum Credits: 3
This is an advanced reading skills course for non-native speakers of English, emphasizing the type of reading required in University-level course work. The course includes intensive reading of passages from the course text, extensive reading of academic or other material selected by the student or instructor, speed improvement and vocabulary development.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

LING 0018 - ESL ORAL TA/TF

Minimum Credits: 3
Maximum Credits: 3
In this course teaching assistants and fellows will a) strengthen their English comprehensibility and listening skill, b) develop effective teaching techniques, and c) gain an understanding of American undergraduate culture.
Academic Career: UGRD
Course Component: Lecture
Grade Component: Satisfactory/No Credit

LING 0080 - ASPECTS OF LANGUAGE

Minimum Credits: 3
Maximum Credits: 3
Nothing characterizes human beings better than their ability to use language. One aim of this course is to introduce you to what languages are like, how they are used, and how they change. Another aim is to show you some connections between linguistics and other fields; psychology, anthropology, sociology and computer science. We will discuss how children learn languages, how brain damage can impair the ability speak, how animal communication compares with human language, and how programming languages are used to communicate with computers.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0085 - MACHINE AIDS TO TRANSLATION

Minimum Credits: 3
Maximum Credits: 3
This course is designed to give students familiarity with a broad range of technological tools which can be of value in translation, including various word-processing packages, formatting tools, grammar and spelling checkers, file transfer protocols, on-line language services and bulletin boards, and developments in machine translation. Instruction will focus on applications of such resources in professional translation.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0090 - LANGUAGE AND COMPUTATION

Minimum Credits: 3
Maximum Credits: 3
An introduction to the science of linguistics and to symbol computation. This course, which has no prerequisites, will develop programming skills in prolog, a programming language used in artificial intelligence, and will introduce students to grammatical structures by developing simple programs for natural language understanding. The course serves as a general introduction to grammar as practiced by linguists, to the problems of artificial intelligence, and to computation in non-numerical domains.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0131 - MODERN STANDARD ARABIC 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0132 - MODERN STANDARD ARABIC 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0131; MIN GRADE: 'C'

LING 0133 - MODERN STANDARD ARABIC 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0132; MIN GRADE: 'C'

LING 0134 - MODERN STANDARD ARABIC 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0221; MIN GRADE: 'C'

LING 0223 - IRISH (GAEILGE) 3

Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting are cognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0222; MIN GRADE: 'C'

LING 0224 - IRISH (GAEILGE) 4

Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0223; MIN GRADE: 'C'

LING 0231 - GREEK (MODERN) 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0232 - GREEK (MODERN) 2

Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0231; MIN GRADE: 'C'

LING 0233 - GREEK (MODERN) 3

Minimum Credits: 3
Maximum Credits: 3

Grade Component: LG/SNC Elective Basis

LING 0471 - AMERICAN SIGN LANGUAGE 1

Minimum Credits: 4
Maximum Credits: 4
In this course, students are taught American sign language (ASL) vocabulary and grammatical structures. Students will also learn and ASL fingerspelling system, the use of gestural devices and how to appropriately use the signing space in ASL. Further, students will learn about deaf culture in the United States. Out-of-class participation in deaf community events in required.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0472 - AMERICAN SIGN LANGUAGE 2

Minimum Credits: 4
Maximum Credits: 4
Students will learn more difficult vocabulary (signs) and how to use them in one-to-one, small group, and large group communication. Students will also be exposed to classifier constructions. This course is a continuation of ASL I (LING 0471) and it utilizes a similar curriculum.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0471; MIN GRADE: 'C'

LING 0473 - AMERICAN SIGN LANGUAGE 3

Minimum Credits: 3
Maximum Credits: 3
This course continues the study of ASL. The students will work on developing intermediate communication skills and will concentrate on production skills. Linguistic and cultural features will be presented in the context of the language learning experiences. This level will also examine and discuss its use and effect on and in the deaf culture.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0472; MIN GRADE: 'C'

LING 0474 - AMERICAN SIGN LANGUAGE 4

Minimum Credits: 3
Maximum Credits: 3
This advanced course of ASL concentrates on developing more precise skills and competencies by using appropriate variations of ASL (regional, racial/ethnic, stylistic and age related) vocabulary. Students will also be given the opportunity to use ASL by volunteering in the deaf community.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0473; MIN GRADE: 'C'

LING 0491 - SLOVENIAN 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0501 - SWAHILI 1

Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patters, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture

Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0513; MIN GRADE: 'C'

LING 0515 - SWEDISH 5
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis
Course Requirements: PREQ: LING 0514 (MIN GRADE 'C')

LING 0516 - SWEDISH 6
Minimum Credits: 3
Maximum Credits: 3
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0531 - TAGALOG 1
Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0532 - TAGALOG 2
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0533 - TAGALOG 3
Minimum Credits: 3
Maximum Credits: 3
The first term of the second year will concentrate on the further development of fluency in oral production and the improvement in the student's ability to understand the flow of speech as uttered by a native speaker. Increased attention will be paid to reading as a means of augmenting a recognition vocabulary and writing as a drill and as a means of consolidating and communicating the knowledge gained.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0534 - TAGALOG 4
Minimum Credits: 3
Maximum Credits: 3
At the end of the second term of the second year the student should be able to converse comfortably with a native speaker on a variety of non-specialized subjects. The student will be offered an opportunity to experience and more fully understand the culture of the people who use the language through readings of various types. More complex writing tasks will be expected at this level.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0541 - TAMIL 1
Minimum Credits: 4
Maximum Credits: 4
The greatest part of the first term will be devoted to the presentation and practice of the basic sound patterns of the language, its fundamental sentence patterns, and sufficient vocabulary to illustrate and practice them. An introduction to the writing system will be offered together with the opportunity to acquire elementary writing and reading skills.
Academic Career: UGRD
Course Component: Lecture
Grade Component: LG/SNC Elective Basis

LING 0542 - TAMIL 2
Minimum Credits: 4
Maximum Credits: 4
At the end of the second term of the first year of study the student should be able to produce all the significant sound patterns of the language, to recognize and use the major grammatical structures within a limited core vocabulary. The student should be able a) to engage in simple conversations with native speakers about a limited number of everyday situations and b) to read and write simple material related to the situations presented.
