Ordinarily, students are required to terminate graduate study after two terms on probation. A student who does not meet the GPA or credit requirements will be dismissed from the School of Education, unless serious extenuating circumstances exist. The request for continuation must include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

Statute of Limitations

All requirements for a master's degree must be completed within a period of four consecutive calendar years from the student's initial registration for master's study in an MA or MS degree program or within five years in an MAT or MEd program.

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Plan of Studies

Before completion of 15 credits, students, in consultation with their academic advisor, should complete a Plan of Studies that conforms to program requirements. The plan of studies, approved by the academic advisor and the program coordinator, is filed in the Office of Admissions and Enrollment Services.

Any changes in the Plan of Studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed in the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved Plan of Studies.

Basic Areas of Education Requirement

All master's degrees conferred by the School of Education require a minimum of 9 credits of study from the Basic Areas of Education (BAE), 3 credits each from courses offered in the content areas of psychological perspectives on education, social and cultural perspectives on education, and research methods. A maximum of 6 credit hours of BAE courses may be taken from those offered within a single department. The courses in each area that may be used to meet this requirement are listed below.

Additional Requirements
Master's Comprehensive Examination

The School of Education requires a comprehensive examination for all master's degrees. The comprehensive examination is designed to assess the student's mastery of the general field of graduate study. The comprehensive examination is constructed, administered, and scored by the program or department to which the student has been admitted. Procedures and schedules of administration are available from the program or department. *The student must be enrolled to take the comprehensive examination.

*See also Comprehensive Examination under Regulations Pertaining to Master of Arts and Master of Science Degrees. The University-wide regulations on comprehensive examinations detailed there apply to all School of Education master's programs.

Some MA and MS degree programs within the School of Education are offered with a thesis requirement while others are offered with the option of completing either a thesis or a thesis equivalent. All MAT degree programs and some MEd programs require the completion of a research paper.

Master's Degree with Thesis

The master's degree with thesis is intended for graduate students who have pursued advanced graduate study in at least one field of education specialization and have demonstrated through the master's thesis the capability to plan and carry through a project of original research. The plan of studies should include at least 6 credits in thesis work.

Thesis Overview

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

Approval of Research with Human Subjects

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.

Advancement to Master's Candidacy

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
- have passed the comprehensive examination;
- have an approved overview on file in the Office of Admissions and Enrollment Services; and
- if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.
Thesis Preparation

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

Final Oral Examination

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

Master's Degree with Thesis Equivalent Option/Research Paper

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

Research Paper Requirements

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

Master of Education Degree with TESOL Certificate

This option permits qualified individuals for the MEd with a specialization in foreign language education to be considered upon application by the Department of Instruction and Learning and by the Department of Linguistics for admission to the University of Pittsburgh certificate program in the Teaching of English to Speakers of Other Languages (TESOL). If accepted, students combine course work for the MEd in foreign language education with required courses for the TESOL certificate. Students complete a minimum of 37 credits in this combined specialization. The University of Pittsburgh TESOL certificate is not to be confused with state certification for teaching in the public elementary or secondary schools. The degree is ideal for individuals seeking positions as English language teachers in other countries or in university English Language Institutes. Each applicant who is not a native speaker of English must: (1) achieve a score of 100 or higher on the internet-based TOEFL (Skill Requirements: Reading and Listening - High; Speaking and Writing - one skill must be at the level of Good) or 7.5 or higher on the IELTS (Skills Requirement: Speaking and Writing - combined minimum of 13) and (2) have good spoken English skills.

Social and Cultural Perspectives on Education

Choose 3.0 credits from the following courses:

- IL 2405 - INTRO ACTION RESEARCH METHODS
- IL 2256 - ISSUES IN FOREIGN LANGUAGE ED
Foreign Language Education Elective

- IL 2253 - PRIN/PRA FRGN LANG TESTNG
- LING 1000 - INTRODUCTION TO LINGUISTICS
- LING 2738 - LINGUISTIC STRUCTRS OF ENGLISH
- LING 2142 - SECOND LANGUAGE TEACHING
- LING 2146 - SECOND LANGUAGE ACQUISITION
- LING 2143 - SEM LANG TCH MATLS DEVELOPMNT
- LING 2195 - PRACTICUM ESL TEACHING
- IL 2290 - RSRCH SEMINR FOR MED STUDENTS

Department of Psychology in Education

Programs within the Department of Psychology in Education prepare graduates for professional careers in teaching, research, and professional practice. Doctoral studies are offered with areas of concentration in applied developmental psychology and in research methodology. Graduates receiving doctoral degrees serve in academic and research capacities in universities, government agencies, public and private research, and testing centers.

Master's degrees are offered with areas of concentration in applied developmental psychology and research methodology. Master's study in research methodology prepares personnel for positions in testing and research. Master's study in applied developmental psychology prepares students for professional roles as program administrators, directors, and supervisors, child development specialists, child and youth workers, child life specialists, behavior/developmental specialists, mobile therapists, and research associates.

The department offers the following degrees in psychology in education:

- Master of Arts (MA)
- Master of Science (MS)
- Master of Education (MEd)
- Doctor of Philosophy (PhD)

Admissions

The program has a rolling admissions policy that assures that all completed applications will be reviewed regularly. However, priority for admissions and financial aid decisions will be given to those applications that are sent in by established deadlines.

Application materials should be directed to the University of Pittsburgh, Office of Admissions and Enrollment Services, 5500 Wesley W. Posvar Hall, Pittsburgh, PA 15260, or telephone 412-648-2230.

Admissions Information

http://www.education.pitt.edu/FutureStudents/AdmissionsProcedures.aspx

Application for Admission

https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=up-ed
Financial Aid

http://www.education.pitt.edu/FutureStudents/TuitionFinancialAid.aspx

Programs in psychology in education offer financial aid in the form of teaching assistantships and fellowships, research assistantships, and tuition remission. Applicants may apply through the departmental office.

Additional information on admissions, financial aid, registration, and other student services may be found at the Student Service Center.

Financial Aid

Program Information

Applied Developmental Psychology Program

(Area of Concentration)

The program offers the Master of Science (MS) and Doctor of Philosophy (PhD) in Psychology in Education with an area of concentration in applied developmental psychology. A minor is also offered in applied developmental psychology.

Degree Options and Requirements

For additional degree requirement information for the following degrees, refer to the school section on Master’s Degree Requirements or Doctoral Degree Requirements.

Research Methodology Program

(Area of Concentration)

The Research Methodology Program prepares professionals in the areas of psychometrics and test design, and scholars who contribute to the study of the quantitative methods used in empirical studies. Graduate students of the research methodology program acquire skills in the interrelated areas of measurement, research design, and statistical methods. Graduates are prepared for positions in colleges, universities, research centers, testing agencies, school systems, ministries of education and other government agencies, and industry.
This program offers the Master of Education (MEd), Master of Arts (MA), and Doctor of Philosophy (PhD) in Psychology in Education with an area of concentration in research methodology. A minor in quantitative research methodology is also available.

Degree Options and Requirements

For additional degree requirement information for the following degrees, refer to the school section on Master's Degree Requirements or Doctoral Degree Requirements.

Master's

Psychology in Education - Applied Developmental Psychology Concentration - Applied Research Methods for Child and Youth Serving Organizations Specialization , MS

Master's Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under general academic regulations. Students should review the general academic regulations section in addition to the specific school information detailed below. School-wide master's degree requirements integrated with the University-wide master's degree requirements are available by accessing the above Web site link.

Common Requirements

All master's degrees awarded by the School of Education require the completion of an approved plan of studies consisting of a minimum of 36 credits (including 9 credits in Basic Areas of Education) and the passing of a comprehensive examination.

Acceptance of Transfer Credits

For University-wide rules, see Acceptance of Transfer Credits under General Academic Regulations. School-specific detail follows.

A maximum of 6 transfer credits may be counted toward an MA or MS degree. A maximum of 12 transfer credits may be counted toward an MAT or MEd degree.

Grade Point Average/Academic Probation
All students enrolled in master's degree programs are required to maintain a grade point average (GPA) of at least 3.00. The cumulative GPA is based on all course work taken after enrollment in the appropriate graduate program. A student is automatically placed on academic probation when the cumulative GPA after 6 credits or more, exclusive of transfer credits, falls below 3.00. Although the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for the graduate degree, the grades earned in such courses are not included in GPA computations.

While on probation students are limited to registering only for courses in which a letter grade is given. To be removed from probation status, a student must achieve a 3.50 GPA in 6 credits or more. A student can only be placed on academic probation status once during their program of study. Students placed on academic probation status will receive notification in the form of a letter from the School of Education, and they will be recommended to seek guidance from their academic advisor.

Ordinarily, students are required to terminate graduate study after two terms on probation. A student who does not meet the GPA or credit requirements will be dismissed from the School of Education, unless serious extenuating circumstances exist. The request for continuation must include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

**Statute of Limitations**

All requirements for a master's degree must be completed within a period of four consecutive calendar years from the student's initial registration for master's study in an MA or MS degree program or within five years in an MAT or MEd program.

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

**Plan of Studies**

Before completion of 15 credits, students, in consultation with their academic advisor, should complete a Plan of Studies that conforms to program requirements. The plan of studies, approved by the academic advisor and the program coordinator, is filed in the Office of Admissions and Enrollment Services.

Any changes in the Plan of Studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed in the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved Plan of Studies.

**Basic Areas of Education Requirement**

All master's degrees conferred by the School of Education require a minimum of 9 credits of study from the Basic Areas of Education (BAE), 3 credits each from courses offered in the content areas of psychological perspectives on education, social and cultural perspectives on education, and research methods. A maximum of 6 credit hours of BAE courses may be taken from those offered within a single department. The courses in each area that may be used to meet this requirement are listed below.

**Additional Requirements**

**Master's Comprehensive Examination**

The School of Education requires a comprehensive examination for all master's degrees. The comprehensive examination is designed to assess the student's mastery of the general field of graduate study. The comprehensive examination is constructed, administered, and scored by the program or department to which the student has been admitted. Procedures and schedules of administration are available from the program or department. *The student must be enrolled to take the comprehensive examination.*

*See also Comprehensive Examination under Regulations Pertaining to Master of Arts and Master of Science Degrees. The University-wide regulations on comprehensive examinations detailed there apply to all School of Education master's programs.*

Some MA and MS degree programs within the School of Education are offered with a thesis requirement while others are offered with the option of completing either a thesis or a thesis equivalent. All MAT degree programs and some MEd programs require the completion of a research paper.

Master's Degree with Thesis

The master's degree with thesis is intended for graduate students who have pursued advanced graduate study in at least one field of education specialization and have demonstrated through the master's thesis the capability to plan and carry through a project of original research. The plan of studies should include at least 6 credits in thesis work.

Thesis Overview

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

Approval of Research with Human Subjects

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.

Advancement to Master's Candidacy

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
- have passed the comprehensive examination;
- have an approved overview on file in the Office of Admissions and Enrollment Services; and
- if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.

Thesis Preparation

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

Final Oral Examination

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along
with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

Master's Degree with Thesis Equivalent Option/Research Paper

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

Research Paper Requirements

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

Master of Science Degree

This program of study emphasizes the integration of knowledge of human development with the skills and competencies essential for effectively working with children, youth and families. Specialization options are Behavioral Health in Schools and Communities (BHSC), Child and Youth Work (CYW), Children with Special Healthcare Needs (CShCN; with Child Life option), or Applied Research Methods for Child and Youth Serving Organizations (ARMO). In addition, the program offers a specialization option for students who hold the Professional Year (Post-Baccalaureate) teaching certificate.

Degree Requirements: The Master of Science degree requires 36 credits distributed as follows: Applied Developmental Psychology (ADP) Core courses (18 credits), Specialization courses (12 credits), and Community-Based Practice Learning (with capstone project) courses (6 credits).

Psychology in Education - Applied Developmental Psychology Concentration - Behavioral Health in Schools and Communities Specialization, MS

Master's Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under general academic regulations. Students should review the general academic regulations section in addition to the specific school information detailed below. School-wide master's degree requirements integrated with the University-wide master's degree requirements are available by accessing the above Web site link.

The plan of studies should include at least 6 credits in thesis work.

Thesis Overview

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

Approval of Research with Human Subjects

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.

Advancement to Master's Candidacy

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
• have passed the comprehensive examination;
• have an approved overview on file in the Office of Admissions and Enrollment Services; and
• if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.

**Thesis Preparation**

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

**Final Oral Examination**

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

**Master's Degree with Thesis Equivalent Option/Research Paper**

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

**Research Paper Requirements**

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

**Master of Science Degree**

This program of study emphasizes the integration of knowledge of human development with the skills and competencies essential for effectively working with children, youth and families. Specialization options are Behavioral Health in Schools and Communities (BHSC), Child and Youth Work (CYW), Children with Special Healthcare Needs (CSHCN; with Child Life option), or Applied Research Methods for Child and Youth Serving Organizations (ARMO). In addition, the program offers a specialization option for students who hold the Professional Year (Post-Baccalaureate) teaching certificate.

Degree Requirements: The Master of Science degree requires 36 credits distributed as follows: Applied Developmental Psychology (ADP) Core courses (18 credits), Specialization courses (12 credits), and Community-Based Practice Learning (with capstone project) courses (6 credits).

**Psychology in Education - Applied Developmental Psychology Concentration - Children with Special Healthcare Needs Specialization with Child Life Option, MS**
Master's Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under general academic regulations. Students should review the general academic regulations section in addition to the specific school information detailed below. School-wide master's degree requirements integrated with the University-wide master's degree requirements are available by accessing the above Web site link.

Common Requirements

All master's degrees awarded by the School of Education require the completion of an approved plan of studies consisting of a minimum of 36 credits (including 9 credits in Basic Areas of Education) and the passing of a comprehensive examination.

Acceptance of Transfer Credits

For University-wide rules, see Acceptance of Transfer Credits under General Academic Regulations. School-specific detail follows.

A maximum of 6 transfer credits may be counted toward an MA or MS degree. A maximum of 12 transfer credits may be counted toward an MAT or MEd degree.

Grade Point Average/Academic Probation

All students enrolled in master's degree programs are required to maintain a grade point average (GPA) of at least 3.00. The cumulative GPA is based on all course work taken after enrollment in the appropriate graduate program. A student is automatically placed on academic probation when the cumulative GPA after 6 credits or more, exclusive of transfer credits, falls below 3.00. Although the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for the graduate degree, the grades earned in such courses are not included in GPA computations.

While on probation students are limited to registering only for courses in which a letter grade is given. To be removed from probation status, a student must achieve a 3.50 GPA in 6 credits or more. A student can only be placed on academic probation status once during their program of study. Students placed on academic probation status will receive notification in the form of a letter from the School of Education, and they will be recommended to seek guidance from their academic advisor.

Ordinarily, students are required to terminate graduate study after two terms on probation. A student who does not meet the GPA or credit requirements will be dismissed from the School of Education, unless serious extenuating circumstances exist. The request for continuation must include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

Statute of Limitations

All requirements for a master's degree must be completed within a period of four consecutive calendar years from the student's initial registration for master's study in an MA or MS degree program or within five years in an MAT or MEd program.

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Plan of Studies

Before completion of 15 credits, students, in consultation with their academic advisor, should complete a Plan of Studies that conforms to program requirements. The plan of studies, approved by the academic advisor and the program coordinator, is filed in the Office of Admissions and Enrollment Services.
Any changes in the Plan of Studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed in the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved Plan of Studies.

### Basic Areas of Education Requirement

All master's degrees conferred by the School of Education require a minimum of 9 credits of study from the Basic Areas of Education (BAE), 3 credits each from courses offered in the content areas of psychological perspectives on education, social and cultural perspectives on education, and research methods. A maximum of 6 credit hours of BAE courses may be taken from those offered within a single department. The courses in each area that may be used to meet this requirement are listed below.

### Additional Requirements

### Master's Comprehensive Examination

The School of Education requires a comprehensive examination for all master's degrees. The comprehensive examination is designed to assess the student's mastery of the general field of graduate study. The comprehensive examination is constructed, administered, and scored by the program or department to which the student has been admitted. Procedures and schedules of administration are available from the program or department. *The student must be enrolled to take the comprehensive examination.

*See also Comprehensive Examination under Regulations Pertaining to Master of Arts and Master of Science Degrees. The University-wide regulations on comprehensive examinations detailed there apply to all School of Education master's programs.*

### Thesis, Thesis Equivalent, and Research Paper Requirements

Some MA and MS degree programs within the School of Education are offered with a thesis requirement while others are offered with the option of completing either a thesis or a thesis equivalent. All MAT degree programs and some MEd programs require the completion of a research paper.

### Master's Degree with Thesis

The master's degree with thesis is intended for graduate students who have pursued advanced graduate study in at least one field of education specialization and have demonstrated through the master's thesis the capability to plan and carry through a project of original research. The plan of studies should include at least 6 credits in thesis work.

#### Thesis Overview

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

### Approval of Research with Human Subjects

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.
Advancement to Master's Candidacy

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
- have passed the comprehensive examination;
- have an approved overview on file in the Office of Admissions and Enrollment Services; and
- if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.

Thesis Preparation

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

Final Oral Examination

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

Master's Degree with Thesis Equivalent Option/Research Paper

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

Research Paper Requirements

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

Master of Science Degree

This program of study emphasizes the integration of knowledge of human development with the skills and competencies essential for effectively working with children, youth and families. The comprehensive examination is constructed, administered, and scored by the program or department to which the student has been admitted. Procedures and schedules of administration are available from the program or department. *The student must be enrolled to take the comprehensive examination.*

*See also Comprehensive Examination under Regulations Pertaining to Master of Arts and Master of Science Degrees. The University-wide regulations on comprehensive examinations detailed there apply to all School of Education master's programs.*

Some MA and MS degree programs within the School of Education are offered with a thesis requirement while others are offered with the option of completing either a thesis or a thesis equivalent. All MAT degree programs and some MEd programs require the completion of a research paper.

**Master's Degree with Thesis**
The master's degree with thesis is intended for graduate students who have pursued advanced graduate study in at least one field of education specialization and have demonstrated through the master's thesis the capability to plan and carry through a project of original research. The plan of studies should include at least 6 credits in thesis work.

**Thesis Overview**

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

**Approval of Research with Human Subjects**

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.

**Advancement to Master's Candidacy**

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
- have passed the comprehensive examination;
- have an approved overview on file in the Office of Admissions and Enrollment Services; and
- if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.

**Thesis Preparation**

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

**Final Oral Examination**

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

**Master's Degree with Thesis Equivalent Option/Research Paper**

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in
education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

Research Paper Requirements

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

Master of Arts Degree

Degree Requirements: The MA degree requires 39 credits of coursework and completion of a thesis option.

Master's Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under general academic regulations. Students should review the general academic regulations section in addition to the specific school information detailed below. School-wide master's degree requirements integrated with the University-wide master's degree requirements are available by accessing the above Web site link.

Common Requirements

All master's degrees awarded by the School of Education require the completion of an approved plan of studies consisting of a minimum of 36 credits (including 9 credits in Basic Areas of Education) and the passing of a comprehensive examination.

Acceptance of Transfer Credits

For University-wide rules, see Acceptance of Transfer Credits under General Academic Regulations. School-specific detail follows.

A maximum of 6 transfer credits may be counted toward an MA or MS degree. A maximum of 12 transfer credits may be counted toward an MAT or MEd degree.

Grade Point Average/Academic Probation

All students enrolled in master's degree programs are required to maintain a grade point average (GPA) of at least 3.00. The cumulative GPA is based on all course work taken after enrollment in the appropriate graduate program. A student is automatically placed on academic probation when the cumulative GPA after 6 credits or more, exclusive of transfer credits, falls below 3.00. Although the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for the graduate degree, the grades earned in such courses are not included in GPA computations.

While on probation students are limited to registering only for courses in which a letter grade is given. To be removed from probation status, a student must achieve a 3.50 GPA in 6 credits or more. A student can only be placed on academic probation status once during their program of study. Students placed on academic probation status will receive notification in the form of a letter from the School of Education, and they will be recommended to seek guidance from their academic advisor.

Ordinarily, students are required to terminate graduate study after two terms on probation. A student who does not meet the GPA or credit requirements will be dismissed from the School of Education, unless serious extenuating circumstances exist. The request for continuation must
include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

Statute of Limitations

All requirements for a master's degree must be completed within a period of four consecutive calendar years from the student's initial registration for master's study in an MA or MS degree program or within five years in an MAT or MEd program.

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Plan of Studies

Before completion of 15 credits, students, in consultation with their academic advisor, should complete a Plan of Studies that conforms to program requirements. The plan of studies, approved by the academic advisor and the program coordinator, is filed in the Office of Admissions and Enrollment Services.

Any changes in the Plan of Studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed in the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved Plan of Studies.

Basic Areas of Education Requirement

All master's degrees conferred by the School of Education require a minimum of 9 credits of study from the Basic Areas of Education (BAE), 3 credits each from courses offered in the content areas of psychological perspectives on education, social and cultural perspectives on education, and research methods. A maximum of 6 credit hours of BAE courses may be taken from those offered within a single department. The courses in each area that may be used to meet this requirement are listed below.

Additional Requirements

Master's Comprehensive Examination

The School of Education requires a comprehensive examination for all master's degrees. The comprehensive examination is designed to assess the student's mastery of the general field of graduate study. The comprehensive examination is constructed, administered, and scored by the program or department to which the student has been admitted. Procedures and schedules of administration are available from the program or department. *The student must be enrolled to take the comprehensive examination.*

*See also Comprehensive Examination under Regulations Pertaining to Master of Arts and Master of Science Degrees. The University-wide regulations on comprehensive examinations detailed there apply to all School of Education master's programs.*

Some MA and MS degree programs within the School of Education are offered with a thesis requirement while others are offered with the option of completing either a thesis or a thesis equivalent. All MAT degree programs and some MEd programs require the completion of a research paper.

Master's Degree with Thesis
The master's degree with thesis is intended for graduate students who have pursued advanced graduate study in at least one field of education specialization and have demonstrated through the master's thesis the capability to plan and carry through a project of original research. The plan of studies should include at least 6 credits in thesis work.

**Thesis Overview**

The thesis overview is a written proposal for the thesis. The overview is presented to the master's committee, which consists of a minimum of three faculty members (at least one from another program or department) selected in consultation with the student by the research advisor and approved by the department. The student must submit a form for approval of the thesis committee. A student must be registered in the term during which the thesis overview meeting is scheduled. A unanimous vote of the master's committee is required for approval of the overview. The outcome of the overview meeting is submitted on the appropriate form along with a corrected copy of the overview to the Office of Admissions and Enrollment Services.

**Approval of Research with Human Subjects**

If the research proposed in the overview involves human subjects, the proposed research must be approved by the University Institutional Review Board (IRB) for the Protection of Human Subjects before it may be carried out. Information on materials that must be submitted and the procedures that must be followed for an IRB review are available in departmental offices and the Office of Admissions and Enrollment Services.

**Advancement to Master's Candidacy**

To be advanced to candidacy for the master's degree with thesis a student must:

- be admitted to full graduate status;
- have a minimum grade point average of 3.00 (transfer credits not considered);
- have an approved plan of studies on file in the Office of Admissions and Enrollment Services;
- have passed the comprehensive examination;
- have an approved overview on file in the Office of Admissions and Enrollment Services; and
- if the proposed research involves human subjects, have a letter on file in the Office of Admissions and Enrollment Services from the IRB approving the proposed research.

**Thesis Preparation**

The thesis research is completed and the thesis is prepared under the direction of the research advisor according to the approved overview. In preparing the thesis, the student must follow the University's ETD Format Guidelines, and specific departmental or program requirements.

**Final Oral Examination**

The completed thesis is submitted to the master's committee for the final oral examination. The student must be registered in the term during which the final oral examination is scheduled. The final oral examination is devoted primarily to the thesis, and an affirmative vote by a majority of the committee members is required to pass the examination. One corrected copy of the thesis as approved by the master's committee must be filed, along with one copy of a research advisor approved abstract and the form showing a passed final oral examination, no later than one week before the end of the term during which the student expects to graduate. The dean/associate dean must approve any exception to this requirement.

**Master's Degree with Thesis Equivalent Option/Research Paper**

Master's degrees with the thesis equivalent option or research paper requirement are intended for graduate students who have pursued advanced study in at least one field of educational specialization and have demonstrated capability of presenting information relevant to an issue or problem in
education. The plan of studies should include at least 3 credits in a research seminar, supervised research, or directed study involving research in the student's focus area.

**Research Paper Requirements**

Each candidate for the master's degree with the thesis equivalent option or research paper requirement must complete, in acceptable form, a research paper that demonstrates the ability to locate, organize, and summarize information bearing on an issue or problem in education. This project is usually initiated and completed in the research seminar of the student's major. For certain majors, this requirement may be met by other means, such as successful exhibits or demonstrations.

**Master of Education Degree**

Degree Requirements: The Master of Education degree requires 39 credits of coursework and a research project.

Doctoral

Psychology in Education - Applied Developmental Psychology Concentration, PhD

Doctoral Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under General Academic Regulations. Students should review the general academic regulations section (in particular the regulations pertaining to doctoral study) in addition to the school-specific information detailed below. School-wide doctoral requirements integrated with the University-wide doctoral requirements are available by accessing the above Web site link.

Doctoral Programs

Doctor of Education (EdD) and Doctor of Philosophy (PhD) degree programs are offered by the School of Education to provide advanced graduate study and professional specialization in education. Each recipient must show evidence of superior scholarship, mastery of a special field of knowledge, and ability to do significant and relevant research. In doctoral study in the School of Education, a distinction is made between the preparation of education professionals resulting in the EdD degree and the preparation of education professionals resulting in the PhD degree. While EdD and PhD degrees produce experts in critical inquiry, the School of Education distinguishes the degrees according to, among other factors, the focus of the area of inquiry, the type of knowledge advanced, and the career path chosen by the individual student.

PhD research focuses on the study of basic problems arising primarily from behavioral and social science theory with the goal of advancing such theory and knowledge. Individuals pursuing this degree often seek academic positions in universities or research institutes. EdD research focuses on the study of applied, practical problems with the goal of contributing to solutions. Careers for these individuals often center on professional positions as administrators, curriculum developers, or specialists in schools and clinical settings.

Credit Requirements

Doctoral degrees require a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree.

Grade Point Average

All doctoral students are required to maintain a grade point average (GPA) of at least 3.30. The cumulative GPA is based on all course work taken after enrollment in the appropriate doctoral program. A doctoral student is automatically placed on academic probation when the cumulative GPA, exclusive of transfer credits, falls below 3.30. Ordinarily, students are required to terminate graduate study after two terms on probation. Although
the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for a graduate degree, the grades earned in such courses are not included in quality point computations.

Doctor of Philosophy (PhD) Degree Requirements

The Doctor of Philosophy degree in the School of Education is a research-intensive training model that prepares students to be nationally competitive for research careers in both academic and non-academic institutions.

Admissions requirements include the GRE for both national and international applicants. International students require a minimum of 100 or higher TOEFL composite score with sub-scores of 21 or higher or 7.0 IELTS with sub-scores of 6.0 or higher. After screening, a small group of applicants will be interviewed prior to a final decision. Only applicants committed to full-time study will be considered (except in unusual circumstances where the applicant works in a setting where research opportunities are available such as a research assistant on a funded project at a research institute).

The students are admitted into one of the following areas of concentration:

- Applied Developmental Psychology
- Education Leadership
- Health and Physical Activity
- Higher Education Management
- Language, Literacy & Culture
- Learning Sciences and Policy
- Mathematics Education
- Research Methodology
- Science Education
- Social and Comparative Analysis in Education
- Special Education - Early Intervention
- Special Education - Education of Students with Mental & Physical Disabilities
- Vision Studies

Plan of Studies

Prior to advancement to the formal stage called Doctoral Study, the student, in consultation with the academic advisor, must complete a plan of studies that conforms to program requirements. The plan of studies, approved by the academic advisor, the program coordinator, and department is filed in the Office of Admissions and Enrollment Services.

PhD students are required to file a Plan of Studies during the first year in the program. In formulating the doctoral Plan of Studies, both the student and the academic advisor must pay close attention to these School of Education requirements as well as requirements specific to the particular program or department in which the degree specialization is taken. It is the responsibility of the student to learn particular requirements from the academic advisor. The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh.

Courses approved for transfer credit must be listed individually on the plan of studies. Also, when a student plan of studies lists directed study credits, a directed study agreement form must be completed, signed by both the student and faculty supervisor, and submitted for each directed study at the time of registration. Forms are available from the department.

Any changes in the plan of studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed with the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved plan of studies.

Credit Requirements

The PhD degree requires a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses
numbered in the 2000 series may also be appropriate for doctoral study if approved on a plan of studies. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree. Department and program websites list specific degree requirements.

**Acceptance of Transfer Credits**

PhD students apply a maximum of 30 post-baccalaureate credits for transfer from other institutions in keeping with University-wide requirements (see Acceptance of Transfer Credits). Both applicants for admission and continuing University of Pittsburgh doctoral students seeking acceptance of transfer credits toward a doctoral degree must submit their transcripts with a completed "Course Credits Accepted" form, available on the School of Education website. When approved, transfer credits must appear on the student's Plan of Studies. The registrar, after notification of acceptance of transfer credits, will enter the individual transfer credits on the student's transcript. Grades (and quality points) are not recorded for credits accepted by transfer.

Each course transferred must meet the following conditions:

- The course grade must be at least B or its equivalent.
- The course must be judged relevant to a student's doctoral Plan of Studies by the program or department.
- The course must be approved for equivalent graduate degrees at the accredited institution, extension, or off-campus center of other institutions at which the course was taken.

The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh. However, under certain circumstances, a student may earn in an accredited graduate institution other than the University of Pittsburgh a limited number of credits toward a doctoral degree.

Doctoral students desiring to take courses at another institution following admission to the University of Pittsburgh should review the course descriptions and receive approval from their academic advisors and program or department prior to registering for those courses if they wish to ensure that these credits will be acceptable for transfer.

**Residency**

PhD students are required to be enrolled for full-time study, including involvement in research activities.

**Supporting Field**

PhD students are required to complete a minimum of nine credits in an academic discipline outside of education. This requirement may be met in one of three ways:

1. For a student who does not have a bachelor's degree or an equivalent number of credits to that for a bachelor's degree in an appropriate academic discipline, a minimum of 18 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration (e.g., Latin American studies or psycholinguistics) as approved by the program or department. No more than 6 of these credits may be used to satisfy research methodology requirements.

2. For a student who has a bachelor's degree or an equivalent number of credits for a bachelor's degree in an academic discipline, a minimum of 9 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration as approved by the program or department. None of the 9 credits may be used to satisfy research methodology requirements.

3. For a student who has a master's degree or an equivalent number of credits toward a master's degree in a relevant academic discipline outside of education, no additional credits outside the School of Education need to be taken.

**Supervised Research**

PhD students are required to complete a supervised research experience that results in a written report of the experience. Enrollment for six credits of supervised research, internship, practicum, or directed study is required.
Statute of Limitations

From the student's initial registration for doctoral study at the University of Pittsburgh, all requirements for the PhD must be completed within a period of 10 years (or 8 years if the student has received credit for a master's degree appropriate to the field of study).

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Doctoral Preliminary Evaluation

Each doctoral student is required to take a preliminary evaluation designed to assess the breadth of the student's knowledge of the discipline, the student's achievement during the initial phase of graduate study, and the student's potential to apply research methods independently. The preliminary evaluation is administered by the program or department to which the student has been admitted. Procedures of administration are available from the program or department.

Advancement to Doctoral Study

To advance to doctoral study, a student must:

- be admitted to full graduate status;
- have completed at least 15 post-master's graduate credits at the University of Pittsburgh;
- have earned a GPA of at least 3.30 (transfer credits not considered) in post-master's graduate study at the University of Pittsburgh;
- have a Plan of Studies approved by the academic advisor and the program coordinator on file in the Office of Admissions and Enrollment Services; and
- have passed the doctoral preliminary evaluation.

Comprehensive Examination

After advancement to doctoral study, each doctoral student is required to take a comprehensive examination. The comprehensive examination is constructed, administered, and scored by the department or program to which the student has been admitted. Procedures and schedules of administration are available from the department or program.

A student must be registered in the term during which the comprehensive examination is taken. In no case may the student be graduated in the same term in which the comprehensive examination is taken. After the comprehensive examination is passed, the student has the remaining time specified by the statute of limitations to complete all remaining doctoral degree requirements. Satisfactory completion of the doctoral comprehensive examination requirement is part of the demonstration of doctoral competency.

Ordinarily, students do not register for dissertation credits until they have passed the comprehensive examination.

Doctoral Competency

Each doctoral student is required to demonstrate doctoral competency by satisfactorily completing the supervised research requirement and doctoral comprehensive examination. The form certifying that a student has demonstrated doctoral competency is initiated by the student's academic advisor, signed by the academic advisor, the program coordinator, and the department chairperson, and then sent to the Office of Admissions and Enrollment Services. The dean/associate dean notifies the student that doctoral competency has been demonstrated.

Doctoral Committee
For the PhD student, the doctoral committee consists of the research advisor and at least three other members, including one member from another department outside the School of Education at the University of Pittsburgh or from an appropriate graduate program outside education at another academic institution.

The research advisor and a majority of the total committee must be full or adjunct members of the graduate faculty of the University of Pittsburgh. Current graduate faculty membership may be found on the University's Institutional Research website.

The program faculty, the department chairperson, and the dean/associate dean must approve membership on and subsequent changes in the doctoral committee. After the program has approved the doctoral committee, the research advisor initiates the "Proposed Doctoral Committee" form to obtain the signatures of the program coordinator, the department chairperson, and the dean/associate dean. The dean/associate dean must give final approval of the doctoral committee before the overview examination may be scheduled.

**Dissertation Overview**

The dissertation overview is a written proposal and must be presented to the doctoral committee for approval after doctoral competency has been demonstrated. The dissertation overview includes three components: the final version of the statement of problem of practice, review of supporting scholarship and professional knowledge, and applied inquiry plan. The Applied Inquiry Plan guides the development of the Dissertation in Practice. Students develop a potential solution to their problem of practice, such as an intervention or policy change and a plan to study the implementation and predicted outcomes OR collect and analyze data to identify underlying causes and associated factors related to their problem of practice.

**The Overview Examination**

The overview examination is conducted by the doctoral committee, is chaired by the research advisor, and is open to any faculty member of the graduate faculty of the University wishing to attend. Although any faculty member may participate in the examination, only members of the doctoral committee may be present during the final deliberation and vote on approving the overview. Each member of the doctoral committee must sign the overview form and vote on approving the overview. The committee must unanimously approve the overview in order for the student to be advanced to doctoral candidacy.

**Dissertation**

*Students should review the information detailed under Dissertation and Abstract and Final Oral Examination for University-wide regulations regarding dissertations and dissertation defenses. School of Education-specific rules follow:*

**The Dissertation Defense**

The same rules apply here as detailed under The Overview Examination above.

**Vote on the Dissertation Defense**

Each member of the doctoral committee must sign the dissertation defense form and vote to pass or fail the student on the dissertation defense. If the decision of the committee is not unanimous, the case is referred to the dean/associate dean for resolution.

**Submission Requirements and Fees**

For general information concerning preparation of the dissertation, refer to the ETD website.

At least one week prior to the end of the term, the dissertation is submitted in final form to the Office of Admissions and Enrollment Services along with the following materials:
Signed dissertation defense form
Signed ETD approval form
Two copies of the dissertation abstract initialed by the research advisor
Completed ProQuest Agreement forms
Completed Survey of Earned Doctorate form
Receipt from the Student Payment Center for payment of the dissertation processing fee
Two copies of the title page

Information concerning requirements for preparing the abstract, the forms to be completed, and the amount of the fees to be paid is available in the Office of Admissions and Enrollment Services. The dissertation and abstract will be examined there to see that they are prepared in an acceptable form and style. For dissertation preparation style information refer to the ETD Format Guidelines. Questions not answered in these documents regarding form and/or style will be referred to the dean/associate dean for review and final decision.

Doctor of Philosophy Degree

This program of study provides advanced training in research, education, and professional practice in applied developmental psychology.

Degree Requirements: The PhD degree requires 90 credits distributed as follows: 27 credits in core developmental course work, 9 credits in professional practice course work, 18 credits in research methodology, and 9 credits in a supporting field of study. The program also requires two terms of supervised research, a research project, a practicum in college teaching, and a dissertation.

A redesigned Doctor of Philosophy degree starts Fall 2014. For additional degree information, refer to the introductory school section on Doctoral Degree.

Psychology in Education - Research Methodology Concentration, PhD

Doctoral Degree Requirements

The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under General Academic Regulations. Students should review the general academic regulations section (in particular the regulations pertaining to doctoral study) in addition to the school-specific information detailed below. School-wide doctoral requirements integrated with the University-wide doctoral requirements are available by accessing the above Web site link.

Doctoral Programs

Doctor of Education (EdD) and Doctor of Philosophy (PhD) degree programs are offered by the School of Education to provide advanced graduate study and professional specialization in education. Each recipient must show evidence of superior scholarship, mastery of a special field of knowledge, and ability to do significant and relevant research. In doctoral study in the School of Education, a distinction is made between the preparation of education professionals resulting in the EdD degree and the preparation of education professionals resulting in the PhD degree. While EdD and PhD degrees produce experts in critical inquiry, the School of Education distinguishes the degrees according to, among other factors, the focus of the area of inquiry, the type of knowledge advanced, and the career path chosen by the individual student.

PhD research focuses on the study of basic problems arising primarily from behavioral and social science theory with the goal of advancing such theory and knowledge. Individuals pursuing this degree often seek academic positions in universities or research institutes. EdD research focuses on the study of applied, practical problems with the goal of contributing to solutions. Careers for these individuals often center on professional positions as administrators, curriculum developers, or specialists in schools and clinical settings.

Credit Requirements

Doctoral degrees require a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree.

Grade Point Average

All doctoral students are required to maintain a grade point average (GPA) of at least 3.30. The cumulative GPA is based on all course work taken after enrollment in the appropriate doctoral program. A doctoral student is automatically placed on academic probation when the cumulative GPA, exclusive of transfer credits, falls below 3.30. Ordinarily, students are required to terminate graduate study after two terms on probation. Although the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for a graduate degree, the grades earned in such courses are not included in quality point computations.

Doctor of Philosophy (PhD) Degree Requirements

The Doctor of Philosophy degree in the School of Education is a research-intensive training model that prepares students to be nationally competitive for research careers in both academic and non-academic institutions.

Admissions requirements include the GRE for both national and international applicants. International students require a minimum of 100 or higher TOEFL composite score with sub-scores of 21 or higher or 7.0 IELTS with sub-scores of 6.0 or higher. After screening, a small group of applicants
will be interviewed prior to a final decision. Only applicants committed to full-time study will be considered (except in unusual circumstances where the applicant works in a setting where research opportunities are available such as a research assistant on a funded project at a research institute).

The students are admitted into one of the following areas of concentration:

- Applied Developmental Psychology
- Education Leadership
- Health and Physical Activity
- Higher Education Management
- Language, Literacy & Culture
- Learning Sciences and Policy
- Mathematics Education
- Research Methodology
- Science Education
- Social and Comparative Analysis in Education
- Special Education - Early Intervention
- Special Education - Education of Students with Mental & Physical Disabilities
- Vision Studies

**Plan of Studies**

Prior to advancement to the formal stage called Doctoral Study, the student, in consultation with the academic advisor, must complete a plan of studies that conforms to program requirements. The plan of studies, approved by the academic advisor, the program coordinator, and department is filed in the Office of Admissions and Enrollment Services.

PhD students are required to file a Plan of Studies during the first year in the program. In formulating the doctoral Plan of Studies, both the student and the academic advisor must pay close attention to these School of Education requirements as well as requirements specific to the particular program or department in which the degree specialization is taken. It is the responsibility of the student to learn particular requirements from the academic advisor. The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh.

Courses approved for transfer credit must be listed individually on the plan of studies. Also, when a student plan of studies lists directed study credits, a directed study agreement form must be completed, signed by both the student and faculty supervisor, and submitted for each directed study at the time of registration. Forms are available from the department.

Any changes in the plan of studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed with the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved plan of studies.

**Credit Requirements**

The PhD degree requires a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study if approved on a plan of studies. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree. Department and program websites list specific degree requirements.

**Acceptance of Transfer Credits**

PhD students apply a maximum of 30 post-baccalaureate credits for transfer from other institutions in keeping with University-wide requirements (see Acceptance of Transfer Credits). Both applicants for admission and continuing University of Pittsburgh doctoral students seeking acceptance of transfer credits toward a doctoral degree must submit their transcripts with a completed "Course Credits Accepted" form, available on the School of
Education website. When approved, transfer credits must appear on the student's Plan of Studies. The registrar, after notification of acceptance of transfer credits, will enter the individual transfer credits on the student's transcript. Grades (and quality points) are not recorded for credits accepted by transfer.

Each course transferred must meet the following conditions:

- The course grade must be at least B or its equivalent.
- The course must be judged relevant to a student's doctoral Plan of Studies by the program or department.
- The course must be approved for equivalent graduate degrees at the accredited institution, extension, or off-campus center of other institutions at which the course was taken.

The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh. However, under certain circumstances, a student may earn in an accredited graduate institution other than the University of Pittsburgh a limited number of credits toward a doctoral degree.

Doctoral students desiring to take courses at another institution following admission to the University of Pittsburgh should review the course descriptions and receive approval from their academic advisors and program or department prior to registering for those courses if they wish to ensure that these credits will be acceptable for transfer.

Residency

PhD students are required to be enrolled for full-time study, including involvement in research activities.

Supporting Field

PhD students are required to complete a minimum of nine credits in an academic discipline outside of education. This requirement may be met in one of three ways:

1. For a student who does not have a bachelor's degree or an equivalent number of credits to that for a bachelor's degree in an appropriate academic discipline, a minimum of 18 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration (e.g., Latin American studies or psycholinguistics) as approved by the program or department. No more than 6 of these credits may be used to satisfy research methodology requirements.

2. For a student who has a bachelor's degree or an equivalent number of credits for a bachelor's degree in an academic discipline, a minimum of 9 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration as approved by the program or department. None of the 9 credits may be used to satisfy research methodology requirements.

3. For a student who has a master's degree or an equivalent number of credits toward a master's degree in a relevant academic discipline outside of education, no additional credits outside the School of Education need to be taken.

Supervised Research

PhD students are required to complete a supervised research experience that results in a written report of the experience. Enrollment for six credits of supervised research, internship, practicum, or directed study is required.

Statute of Limitations

From the student's initial registration for doctoral study at the University of Pittsburgh, all requirements for the PhD must be completed within a period of 10 years (or 8 years if the student has received credit for a master's degree appropriate to the field of study).

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Doctoral Preliminary Evaluation
Each doctoral student is required to take a preliminary evaluation designed to assess the breadth of the student's knowledge of the discipline, the student's achievement during the initial phase of graduate study, and the student's potential to apply research methods independently. The preliminary evaluation is administered by the program or department to which the student has been admitted. Procedures of administration are available from the program or department.

**Advancement to Doctoral Study**

To advance to doctoral study, a student must:

- be admitted to full graduate status;
- have completed at least 15 post-master's graduate credits at the University of Pittsburgh;
- have earned a GPA of at least 3.30 (transfer credits not considered) in post-master's graduate study at the University of Pittsburgh;
- have a Plan of Studies approved by the academic advisor and the program coordinator on file in the Office of Admissions and Enrollment Services; and
- have passed the doctoral preliminary evaluation.

**Comprehensive Examination**

After advancement to doctoral study, each doctoral student is required to take a comprehensive examination. The comprehensive examination is constructed, administered, and scored by the department or program to which the student has been admitted. Procedures and schedules of administration are available from the department or program.

A student must be registered in the term during which the comprehensive examination is taken. In no case may the student be graduated in the same term in which the comprehensive examination is taken. After the comprehensive examination is passed, the student has the remaining time specified by the statute of limitations to complete all remaining doctoral degree requirements. Satisfactory completion of the doctoral comprehensive examination requirement is part of the demonstration of doctoral competency.

Ordinarily, students do not register for dissertation credits until they have passed the comprehensive examination.

**Doctoral Competency**

Each doctoral student is required to demonstrate doctoral competency by satisfactorily completing the supervised research requirement and doctoral comprehensive examination. The form certifying that a student has demonstrated doctoral competency is initiated by the student's academic advisor, signed by the academic advisor, the program coordinator, and the department chairperson, and then sent to the Office of Admissions and Enrollment Services. The dean/associate dean notifies the student that doctoral competency has been demonstrated.

**Doctoral Committee**

For the PhD student, the doctoral committee consists of the research advisor and at least three other members, including one member from another department outside the School of Education at the University of Pittsburgh or from an appropriate graduate program outside education at another academic institution.

The research advisor and a majority of the total committee must be full or adjunct members of the graduate faculty of the University of Pittsburgh. Current graduate faculty membership may be found on the University's Institutional Research website.

The program faculty, the department chairperson, and the dean/associate dean must approve membership on and subsequent changes in the doctoral committee. After the program has approved the doctoral committee, the research advisor initiates the "Proposed Doctoral Committee" form to obtain the signatures of the program coordinator, the department chairperson, and the dean/associate dean. The dean/associate dean must give final approval of the doctoral committee before the overview examination may be scheduled.
**Dissertation Overview**

The dissertation overview is a written proposal and must be presented to the doctoral committee for approval after doctoral competency has been demonstrated. The dissertation overview includes three components: the final version of the statement of problem of practice, review of supporting scholarship and professional knowledge, and applied inquiry plan. The Applied Inquiry Plan guides the development of the Dissertation in Practice. Students develop a potential solution to their problem of practice, such as an intervention or policy change and a plan to study the implementation and predicted outcomes OR collect and analyze data to identify underlying causes and associated factors related to their problem of practice.

**The Overview Examination**

The overview examination is conducted by the doctoral committee, is chaired by the research advisor, and is open to any faculty member of the graduate faculty of the University wishing to attend. Although any faculty member may participate in the examination, only members of the doctoral committee may be present during the final deliberation and vote on approving the overview. Each member of the doctoral committee must sign the overview form and vote on approving the overview. The committee must unanimously approve the overview in order for the student to be advanced to doctoral candidacy.

**Dissertation**

*Students should review the information detailed under Dissertation and Abstract and Final Oral Examination for University-wide regulations regarding dissertations and dissertation defenses. School of Education-specific rules follow:*

**The Dissertation Defense**

The same rules apply here as detailed under The Overview Examination above.

**Vote on the Dissertation Defense**

Each member of the doctoral committee must sign the dissertation defense form and vote to pass or fail the student on the dissertation defense. If the decision of the committee is not unanimous, the case is referred to the dean/associate dean for resolution.

**Submission Requirements and Fees**

For general information concerning preparation of the dissertation, refer to the ETD website.

At least one week prior to the end of the term, the dissertation is submitted in final form to the Office of Admissions and Enrollment Services along with the following materials:

- Signed dissertation defense form
- Signed ETD approval form
- Two copies of the dissertation abstract initialed by the research advisor
- Completed ProQuest Agreement forms
- Completed Survey of Earned Doctorate form
- Receipt from the Student Payment Center for payment of the dissertation processing fee
- Two copies of the title page

Information concerning requirements for preparing the abstract, the forms to be completed, and the amount of the fees to be paid is available in the Office of Admissions and Enrollment Services. The dissertation and abstract will be examined there to see that they are prepared in an acceptable form and style. For dissertation preparation style information refer to the ETD Format Guidelines. Questions not answered in these documents regarding form and/or style will be referred to the dean/associate dean for review and final decision.
Doctor of Philosophy Degree

Degree Requirements: The PhD degree requires a minimum of 90 credits and a dissertation.

A redesigned Doctor of Philosophy degree starts Fall 2014. For additional degree information, refer to the introductory school section on Doctoral Degree.

Minor

Applied Developmental Psychology Minor

Requirements

A minor in applied developmental psychology is granted when a student completes a minimum of 18 credits in course work in the Department of Psychology in Education with a minimum grade point average of 3.25. A comprehensive examination for the minor is not required.

Quantitative Research Methodology Minor

Requirements

A minor in Quantitative Research Methodology is awarded to students who successfully complete a minimum of 18 credits in intermediate and advanced quantitative research methodology course work in the Department of Psychology in Education with a minimum grade point average of 3.25. A comprehensive examination for the minor is not required.
Learning Sciences and Policy Program

The Learning Sciences and Policy program is based on the belief that understanding learning, teaching, and organizations is best undertaken as an interactive system, and that an integrated and coordinated interdisciplinary approach is best suited to understand, design and implement educational change. The program combines disciplines in learning sciences, teaching in the content disciplines, and organization and policy studies with the goal of improving instruction at scale, and is predicated on the idea that successful policy solutions will require learning on the part of educational professionals at all levels of the system.

Phone: 412-624-7677
Fax: 412-624-7439

Admissions

Applicants to the Learning Science and Policy program must meet all of the requirements in addition to specific departmental requirements. Application material should be directed to the University of Pittsburgh, Office of Admissions and Enrollment Services, 5500 Posvar Hall, Pittsburgh, PA 15260 or telephone 412-648-2230. Application is January 1 for the following Fall cohort.

Learning Sciences and Policy, PhD

Doctoral Degree Requirements
The requirements presented in this section are primarily school-wide requirements that have been established in addition to the University-wide requirements detailed under General Academic Regulations. Students should review the general academic regulations section (in particular the regulations pertaining to doctoral study) in addition to the school-specific information detailed below. School-wide doctoral requirements integrated with the University-wide doctoral requirements are available by accessing the above Web site link.

**Doctoral Programs**

Doctor of Education (EdD) and Doctor of Philosophy (PhD) degree programs are offered by the School of Education to provide advanced graduate study and professional specialization in education. Each recipient must show evidence of superior scholarship, mastery of a special field of knowledge, and ability to do significant and relevant research. In doctoral study in the School of Education, a distinction is made between the preparation of education professionals resulting in the EdD degree and the preparation of education professionals resulting in the PhD degree. While EdD and PhD degrees produce experts in critical inquiry, the School of Education distinguishes the degrees according to, among other factors, the focus of the area of inquiry, the type of knowledge advanced, and the career path chosen by the individual student.

PhD research focuses on the study of basic problems arising primarily from behavioral and social science theory with the goal of advancing such theory and knowledge. Individuals pursuing this degree often seek academic positions in universities or research institutes. EdD research focuses on the study of applied, practical problems with the goal of contributing to solutions. Careers for these individuals often center on professional positions as administrators, curriculum developers, or specialists in schools and clinical settings.

**Credit Requirements**

Doctoral degrees require a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree.

**Grade Point Average**

All doctoral students are required to maintain a grade point average (GPA) of at least 3.30. The cumulative GPA is based on all course work taken after enrollment in the appropriate doctoral program. A doctoral student is automatically placed on academic probation when the cumulative GPA, exclusive of transfer credits, falls below 3.30. Ordinarily, students are required to terminate graduate study after two terms on probation. Although the credits allowed for acceptable work completed elsewhere by students enrolled in the School of Education count toward the total number of credits required for a graduate degree, the grades earned in such courses are not included in quality point computations.

**Doctor of Philosophy (PhD) Degree Requirements**

The Doctor of Philosophy degree in the School of Education is a research-intensive training model that prepares students to be nationally competitive for research careers in both academic and non-academic institutions.

Admissions requirements include the GRE for both national and international applicants. International students require a minimum of 100 or higher TOEFL composite score with sub-scores of 21 or higher or 7.0 IELTS with sub-scores of 6.0 or higher. After screening, a small group of applicants will be interviewed prior to a final decision. Only applicants committed to full-time study will be considered (except in unusual circumstances where the applicant works in a setting where research opportunities are available such as a research assistant on a funded project at a research institute).

The students are admitted into one of the following areas of concentration:

- Applied Developmental Psychology
- Education Leadership
- Health and Physical Activity
- Higher Education Management
- Language, Literacy & Culture
Plan of Studies

Prior to advancement to the formal stage called Doctoral Study, the student, in consultation with the academic advisor, must complete a plan of studies that conforms to program requirements. The plan of studies, approved by the academic advisor, the program coordinator, and department, is filed in the Office of Admissions and Enrollment Services.

PhD students are required to file a Plan of Studies during the first year in the program. In formulating the doctoral Plan of Studies, both the student and the academic advisor must pay close attention to these School of Education requirements as well as requirements specific to the particular program or department in which the degree specialization is taken. It is the responsibility of the student to learn particular requirements from the academic advisor. The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh.

Courses approved for transfer credit must be listed individually on the plan of studies. Also, when a student plan of studies lists directed study credits, a directed study agreement form must be completed, signed by both the student and faculty supervisor, and submitted for each directed study at the time of registration. Forms are available from the department.

Any changes in the plan of studies must be approved by the academic advisor and the program coordinator, conform to program requirements, and be filed with the Office of Admissions and Enrollment Services. At the time of graduation, completed courses must comply with the approved plan of studies.

Credit Requirements

The PhD degree requires a minimum of 90 credits in a degree program beyond the baccalaureate, distributed as follows: a minimum of 72 course credits (including transfer credits) and a minimum of 18 dissertation credits. Doctoral-level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study if approved on a plan of studies. Generally, courses numbered below 2000 do not meet the minimum requirements for doctoral study. Exceptions require the approval of the program or department. No lower-level undergraduate course (numbered 0001-0999) may be applied toward a doctoral degree. Department and program websites list specific degree requirements.

Acceptance of Transfer Credits

PhD students apply a maximum of 30 post-baccalaureate credits for transfer from other institutions in keeping with University-wide requirements (see Acceptance of Transfer Credits). Both applicants for admission and continuing University of Pittsburgh doctoral students seeking acceptance of transfer credits toward a doctoral degree must submit their transcripts with a completed "Course Credits Accepted" form, available on the School of Education website. When approved, transfer credits must appear on the student's Plan of Studies. The registrar, after notification of acceptance of transfer credits, will enter the individual transfer credits on the student's transcript. Grades (and quality points) are not recorded for credits accepted by transfer.

Each course transferred must meet the following conditions:

- The course grade must be at least B or its equivalent.
- The course must be judged relevant to a student's doctoral Plan of Studies by the program or department.
- The course must be approved for equivalent graduate degrees at the accredited institution, extension, or off-campus center of other institutions at which the course was taken.
The completion of requirements for the doctorate must be satisfied through registration at the University of Pittsburgh. However, under certain circumstances, a student may earn in an accredited graduate institution other than the University of Pittsburgh a limited number of credits toward a doctoral degree.

Doctoral students desiring to take courses at another institution following admission to the University of Pittsburgh should review the course descriptions and receive approval from their academic advisors and program or department prior to registering for those courses if they wish to ensure that these credits will be acceptable for transfer.

Residency

PhD students are required to be enrolled for full-time study, including involvement in research activities.

Supporting Field

PhD students are required to complete a minimum of nine credits in an academic discipline outside of education. This requirement may be met in one of three ways:

1. For a student who does not have a bachelor's degree or an equivalent number of credits to that for a bachelor's degree in an appropriate academic discipline, a minimum of 18 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration (e.g., Latin American studies or psycholinguistics) as approved by the program or department. No more than 6 of these credits may be used to satisfy research methodology requirements.

2. For a student who has a bachelor's degree or an equivalent number of credits for a bachelor's degree in an academic discipline, a minimum of 9 credits must be taken outside the School of Education in one field or in an interdisciplinary concentration as approved by the program or department. None of the 9 credits may be used to satisfy research methodology requirements.

3. For a student who has a master's degree or an equivalent number of credits toward a master's degree in a relevant academic discipline outside of education, no additional credits outside the School of Education need to be taken.

Supervised Research

PhD students are required to complete a supervised research experience that results in a written report of the experience. Enrollment for six credits of supervised research, internship, practicum, or directed study is required.

Statute of Limitations

From the student's initial registration for doctoral study at the University of Pittsburgh, all requirements for the PhD must be completed within a period of 10 years (or 8 years if the student has received credit for a master's degree appropriate to the field of study).

Under certain conditions, the dean/associate dean may grant an extension of a student's statute of limitations.

Doctoral Preliminary Evaluation

Each doctoral student is required to take a preliminary evaluation designed to assess the breadth of the student's knowledge of the discipline, the student's achievement during the initial phase of graduate study, and the student's potential to apply research methods independently. The preliminary evaluation is administered by the program or department to which the student has been admitted. Procedures of administration are available from the program or department.

Advancement to Doctoral Study
To advance to doctoral study, a student must:

- be admitted to full graduate status;
- have completed at least 15 post-master's graduate credits at the University of Pittsburgh;
- have earned a GPA of at least 3.30 (transfer credits not considered) in post-master's graduate study at the University of Pittsburgh;
- have a Plan of Studies approved by the academic advisor and the program coordinator on file in the Office of Admissions and Enrollment Services; and
- have passed the doctoral preliminary evaluation.

Comprehensive Examination

After advancement to doctoral study, each doctoral student is required to take a comprehensive examination. The comprehensive examination is constructed, administered, and scored by the department or program to which the student has been admitted. Procedures and schedules of administration are available from the department or program.

A student must be registered in the term during which the comprehensive examination is taken. In no case may the student be graduated in the same term in which the comprehensive examination is taken. After the comprehensive examination is passed, the student has the remaining time specified by the statute of limitations to complete all remaining doctoral degree requirements. Satisfactory completion of the doctoral comprehensive examination requirement is part of the demonstration of doctoral competency.

Ordinarily, students do not register for dissertation credits until they have passed the comprehensive examination.

Doctoral Competency

Each doctoral student is required to demonstrate doctoral competency by satisfactorily completing the supervised research requirement and doctoral comprehensive examination. The form certifying that a student has demonstrated doctoral competency is initiated by the student's academic advisor, signed by the academic advisor, the program coordinator, and the department chairperson, and then sent to the Office of Admissions and Enrollment Services. The dean/associate dean notifies the student that doctoral competency has been demonstrated.

Doctoral Committee

For the PhD student, the doctoral committee consists of the research advisor and at least three other members, including one member from another department outside the School of Education at the University of Pittsburgh or from an appropriate graduate program outside education at another academic institution.

The research advisor and a majority of the total committee must be full or adjunct members of the graduate faculty of the University of Pittsburgh. Current graduate faculty membership may be found on the University's Institutional Research website.

The program faculty, the department chairperson, and the dean/associate dean must approve membership on and subsequent changes in the doctoral committee. After the program has approved the doctoral committee, the research advisor initiates the "Proposed Doctoral Committee" form to obtain the signatures of the program coordinator, the department chairperson, and the dean/associate dean. The dean/associate dean must give final approval of the doctoral committee before the overview examination may be scheduled.

Dissertation Overview

The dissertation overview is a written proposal and must be presented to the doctoral committee for approval after doctoral competency has been demonstrated. The dissertation overview includes three components: the final version of the statement of problem of practice, review of supporting scholarship and professional knowledge, and applied inquiry plan. The Applied Inquiry Plan guides the development of the Dissertation in Practice. Students develop a potential solution to their problem of practice, such as an intervention or policy change and a plan to study the implementation and predicted outcomes OR collect and analyze data to identify underlying causes and associated factors related to their problem of practice.
The Overview Examination

The overview examination is conducted by the doctoral committee, is chaired by the research advisor, and is open to any faculty member of the graduate faculty of the University wishing to attend. Although any faculty member may participate in the examination, only members of the doctoral committee may be present during the final deliberation and vote on approving the overview. Each member of the doctoral committee must sign the overview form and vote on approving the overview. The committee must unanimously approve the overview in order for the student to be advanced to doctoral candidacy.

Dissertation

*Students should review the information detailed under Dissertation and Abstract and Final Oral Examination for University-wide regulations regarding dissertations and dissertation defenses.* School of Education-specific rules follow:

The Dissertation Defense

The same rules apply here as detailed under The Overview Examination above.

Vote on the Dissertation Defense

Each member of the doctoral committee must sign the dissertation defense form and vote to pass or fail the student on the dissertation defense. If the decision of the committee is not unanimous, the case is referred to the dean/associate dean for resolution.

Submission Requirements and Fees

For general information concerning preparation of the dissertation, refer to the ETD website.

At least one week prior to the end of the term, the dissertation is submitted in final form to the Office of Admissions and Enrollment Services along with the following materials:

- Signed dissertation defense form
- Signed ETD approval form
- Two copies of the dissertation abstract initialed by the research advisor
- Completed ProQuest Agreement forms
- Completed Survey of Earned Doctorate form
- Receipt from the Student Payment Center for payment of the dissertation processing fee
- Two copies of the title page

Information concerning requirements for preparing the abstract, the forms to be completed, and the amount of the fees to be paid is available in the Office of Admissions and Enrollment Services. The dissertation and abstract will be examined there to see that they are prepared in an acceptable form and style. For dissertation preparation style information refer to the ETD Format Guidelines. Questions not answered in these documents regarding form and/or style will be referred to the dean/associate dean for review and final decision.

Degree Requirements

The Learning Sciences and Policy (LSAP) PhD program brings three groups of faculty expertise together into a collaborative research and training environment: learning sciences in education; content-based educational research; and education policy and organizational change. The goal for the new program is to produce a yearly cohort of 5 to 8 nationally-competitive research scholars who have the training, track-record, and vision to become leaders in understanding and promoting educational change.
Degree Requirements: Doctoral students in the Learning Sciences and Policy program who enter the program without a master's degree in a relevant field are required to take six core courses, a minimum of six research methods courses, and eight advanced seminars in an area of specialization. Students also participate as part of a faculty member's research team throughout their time in the program. As part of that research team, students engage in every phase of the research process, apprenticing under the active mentoring of the faculty member. Additionally, doctoral students are expected complete at least two independent research projects under the supervision of the faculty. Students are required to take two one-semester practica/internships, the purposes of which are to expose students to a range of kinds and forms of research and build students' professional skills. Students with a Masters degree in a related field can transfer credits toward the PhD with approval by the LSAP faculty.

A redesigned Doctor of Philosophy degree starts Fall 2014. For additional degree information, refer to the introductory school section on Doctoral Degree.

John A. Swanson School of Engineering

Mission: The mission of the Swanson School of Engineering is to produce highly qualified engineers and creative new technology through academic excellence.

Vision: The faculty and staff at the University of Pittsburgh Swanson School of Engineering will be recognized for providing excellent educational programs, for conducting leading-edge research, and for creating innovative industrial partnerships.

Swanson School of Engineering leaders are committed to:

- Scholarship and creativity
- Collegiality and open-mindedness
- Student satisfaction with their University experience
- Diversity in the school's staff, faculty, and student body
- Accountability for their performance
- Quality in teaching and research
- Academic freedom
- Shared governance and responsibility
- Interdisciplinary collaboration

Graduate study in engineering is designed for those professionals who wish to further develop the ability to apply engineering principles to the solution of the problems of modern society. The programs are flexible and can be used by those interested in industrial production, research, design, management, teaching, and related technical positions in both the public and private sectors.

The University of Pittsburgh Swanson School of Engineering offers graduate education leading to the Master of Science degree in bioengineering, chemical engineering, computer engineering, civil engineering, electrical engineering, industrial engineering, materials science and engineering, mechanical engineering, and petroleum engineering. All Swanson School of Engineering MS degree programs have two tracks: a professional track and a research track. The school offers PhD degrees in chemical engineering, civil engineering, computer engineering, electrical engineering, industrial engineering, materials science and engineering, and mechanical engineering. Also offered are several dual degree and certificate programs and a joint degree program.

Contact Information

The Swanson School of Engineering is housed in the Michael L. Benedum Hall of Engineering. Inquiries and correspondence concerning graduate study should be addressed to the graduate coordinator of the appropriate department or program. Inquiries of a general nature can be sent to:

University of Pittsburgh
Swanson School of Engineering
Senior Associate Dean for Academic Affairs
152 Benedum Engineering Hall
Pittsburgh, PA 15261
E-mail: deanssoe@pitt.edu
www.engineering.pitt.edu

Admissions

All applicants will be judged on their own merits. For recent graduates of an ABET-accredited program, admission will be based primarily on the undergraduate academic record. Typically a B average (cumulative grade point average of 3.0 on a 4.0 scale) or better is required for admission, and most programs require the Graduate Record Examination (GRE). Applicants should check each program's specific requirements.

Applicants from non-ABET accredited programs also are considered on an individual basis with emphasis given to academic achievement, area of study, career orientation, and work experience. Depending on the program, applicants who do not have an engineering degree may have to take
certain prerequisite courses before beginning their graduate engineering degree program. Applicants may be admitted provisionally until specified prerequisites are completed and/or a 3.00 grade point average is achieved.

Graduate Special Student - A student not currently enrolled at the University of Pittsburgh will be granted temporary admission typically only for one term but at most for a total of six credits. Students in this classification cannot earn credits toward the completion of degree requirements at the University of Pittsburgh with the following exception: Students who are unable to meet the deadline for filing an official application for admission may be granted temporary admission status by the appropriate graduate coordinator. Regular admission must be granted within the first term of registration as a Special Student. Graduate credits earned during temporary admission period can be applied toward the degree. Approval from the appropriate graduate coordinator is required.

Admissions Procedures

1. U.S. citizens or permanent residents should:
   1. See the Swanson School of Engineering Web site for the online application, or contact a departmental graduate coordinator for the application material.
   2. Apply online or return the completed application material with a check or money order for $40 payable to the University of Pittsburgh. This application fee is not refundable.
   3. Ask the registrars of all undergraduate and graduate schools attended to send transcripts of records to the University of Pittsburgh; Swanson School of Engineering Office of Administration; 749 Benedum Engineering Hall; Pittsburgh, PA 15261. An official transcript of the undergraduate record is required unless the applicant is a graduate of the University of Pittsburgh.

Once all application material, including the application fee and complete transcripts, are received, the application will be reviewed. The deadline for the fall term is March 1; the spring term deadline is July 1; and the summer term deadline is February 1. All applications for financial assistance should be received by February 1 for admission the following fall term.

Please see Graduate Admissions of International Students in the front section of this bulletin for University regulations on admissions of international students.

2. International Students: In addition to academic review by the Swanson School of Engineering, the admissions officer, Office of International Services (OIS) will also process international student applications for non-academic qualifications. The document needed to apply for a non-immigrant visa will be issued only after the applicant has been admitted and has provided evidence of adequate financial support and English language proficiency. The procedure for international applicants is as follows:
   1. Preliminary inquiries concerning graduate programs, research, and financial aid may be directed to the departmental graduate coordinator. Applications for graduate study are available from www.engineering.pitt.edu, the graduate coordinator, or the University of Pittsburgh, Swanson School of Engineering, Office of Administration, 749 Benedum Hall, Pittsburgh, PA 15261. The non-refundable application fee for international students is $50.
   2. Following review (and acceptance) by the department based upon the applicant's academic qualifications, the international student admissions officer will review the applicant's financial and language qualifications to determine eligibility for a visa document.
   3. Prior to completion of registration, entering engineering graduate students with TOEFL scores of less than 100 on the iBT (or equivalent) must take an additional test of English language proficiency administered by the English Language Institute (ELI). International students who are citizens of countries where English is the official language, international students who have completed degrees at regionally accredited institutions in the U.S., and international students who have results on the TOEFL above 100 on the iBT (or equivalent) may be exempted from taking the additional test of English language proficiency by the student's academic department.

This procedure applies also to international applicants who are already in the United States.

The University reserves the right, even after the arrival and enrollment of a student from another country, to require, at the student's expense, individual curricular adjustments whenever particular deficiencies or needs are found. This may include enrollment without credit in English as a Foreign Language or other prerequisite courses. New international students are encouraged to use the services of OIS for help in adjusting to the United States and to facilitate their total educational experience.

Financial Aid
The Swanson School of Engineering provides a considerable amount of financial assistance to highly qualified, full-time graduate students. Applicants interested in being considered for financial assistance including teaching and research assistantships must also complete a graduate assistantship application available at www.engineering.pitt.edu and should check with the department of their choice for any additional information concerning applications for assistantships. All applications for financial assistance should be received by February 1 for admission the following fall term.

Financial aid includes:

1. Fellowships awarded to students of outstanding ability, usually as an unrestricted grant.
2. Traineeships awarded to students for training in selected areas.
3. Teaching assistantships and teaching fellowships awarded to exceptionally well-prepared students in return for assistance in laboratories, recitation sections, and other instructional duties. Partial to full tuition scholarships are provided with these assistantships.
4. Research assistantships awarded to students for assistance on research programs. Partial to full tuition scholarships are provided as part of the assistantship.

Advisors

Three types of advisors are primarily responsible for guiding engineering students through their program:

Graduate Coordinator

The graduate coordinator is the faculty member responsible for the operation of the department's graduate program. The coordinator supervises the operations of admissions, registration, course scheduling, assignment of advisors, graduation, and academic disciplinary procedures. The graduate coordinator generally is the best source of information and advice when questions arise or problems are encountered during graduate study.

Faculty Advisor

Each student is assigned a faculty advisor when admitted into a graduate program. This advisor assists the student in planning a course of study and is responsible for approving the student's registration and all course changes. Once the student begins thesis or dissertation research, the duties of the faculty advisor are assumed by the student's major research advisor.

Major Research Advisor(s)

The major research advisor (or advisors if joint advisors are designated) is the graduate faculty member who directs the student's research and supervises the preparation of the thesis or dissertation. Generally, the major advisor also serves as the chair of the final oral examination (defense) committee for the student's thesis or dissertation.

Responsibility for Academic Progress

It is the responsibility of students to check their academic progress by contacting either the departmental graduate coordinator or their faculty advisor. The student should also become familiar with the program degree requirements and pertinent academic regulations.

Probation, Suspension and Dismissal

A graduate student whose cumulative GPA falls below 3.00 will be placed on academic probation for the following term. If the student's cumulative GPA remains below 3.00 for the next academic year term (i.e., the cumulative GPA is below 3.00 for two successive academy year terms), he or she can be suspended or dismissed. Students will normally be suspended for one calendar year; students who are dismissed will not be re-admitted to the
Course Work for Graduate Credit

Only graduate courses will count for graduate credit (i.e., 2000 or 3000 level courses). Students may not use undergraduate courses taken at either the University of Pittsburgh, or another university to satisfy a graduate requirement.

Online courses:

No more than two online courses (six credits total) may be taken for graduate credit. These course must be:

1. Offered by an appropriate academic graduate program.
2. Suitable for the student's academic program and typically not available on the University of Pittsburgh campus
3. Approved by the graduate coordinator and then approved by the Associate Dean for Academic Affairs.

Residency and Statute of Limitations Requirements

A graduate student may complete all requirements for the MS degree on a part-time basis. All degree requirements for the Research MS degree, must be fulfilled within a period of four calendar years after the student's first registration for graduate study; within five calendar years for a Professional MS degree.

Master of Science Programs

All departments in the Swanson School of Engineering offer MS degree programs that have two tracks: a professional track and a research track. The differences are detailed below. Students may transfer no more than six credits of appropriate graduate course work from another graduate program at the discretion of the graduate coordinator in satisfying the course requirements of both the professional and research MS degrees.

Professional MS Track

The professional track consists of 30 credits (10 courses). The faculty of the degree-granting unit determines the actual course content and requirements. These programs typically have a set of required core courses. Students may have an opportunity for more in-depth study in a particular area of interest through a two- or three-course concentration. As a professional degree, while no thesis or comprehensive examination is required, the department may require a special projects course.

The professional MS programs are oriented toward full-time students seeking a career in industry, and part-time students currently working in industry. Certain programs may be offered off campus at industrial sites. Although students who have an undergraduate degree in a technical area (e.g., mathematics, physics, computer science, or chemistry) may be accepted, depending on the particular program, they may be required to take certain prerequisite courses. Interested students should contact the appropriate graduate coordinator for specific details.

Research MS Track

The research track is primarily for those students who wish to pursue the PhD. Students in this track will be advised to take those courses best suited for a research degree. The MS research track requires a minimum of 24 course credits, depending on the selected option and six credits of thesis. The department may also specify credit distribution requirements for courses in the major and related areas. The student should see his or her major advisor for detailed information. Students working under the MS research option may be required to present a thesis that demonstrates marked attainment in some area of the student's major subject. Acquisition of the methods and techniques of scientific investigation should also be demonstrated. Some programs may permit a project to be completed in place of the thesis. The University transcript will include an entry indicating...
that the student is in the research MS track. A comprehensive examination or equivalent is required. Normally the final oral exam for the thesis meets the requirements of the MS comprehensive exam.

A graduate student may commence MS thesis work only after obtaining full graduate status.

A graduate student should initiate preliminary thesis and research work as early as possible. Once research and thesis work has begun, the student must register for thesis credits in each succeeding term until successful completion of the thesis and the final oral examination. Exceptions to this rule can be made only upon the recommendation of the student's major advisor.

Only 6 credits of MS thesis may be used as partial fulfillment of the requirements for the MS degree. Before completion of the thesis, the student will receive a grade of I (incomplete) at the end of each term. After successful completion of the thesis and the final oral examination, all I grades will be changed to S grades.

**MS Thesis Oral Examination (Defense)**

The purpose of this examination is to evaluate the student's MS thesis and is part of the MS thesis requirements as specified by the program. For additional information on the thesis exam, see Thesis Option under Regulations Pertaining to Master of Arts and Master of Science Degrees.

**Residency and Statute of Limitations Requirements**

A graduate student may complete all requirements for the MS degree on a part-time basis. All degree requirements for the MS degree, however, must be fulfilled within a period of four calendar years after the student's first registration for graduate study.

**Electronic Thesis and Dissertation (ETD)**

http://www.pitt.edu/~graduate/dissertation.html

All graduate students preparing a thesis or dissertation must complete a participation form. The signed participation form and the necessary payment receipt documentation are to be submitted to the Swanson School of Engineering Office of Administration. After receiving approval the student will go to the ETD Online System and follow the instructions in the Format Guidelines Manual for submission of an ETD. Questions and problems can be addressed by contacting the School of Engineering Office of Administration.

**Joint MD/PhD Degree Program**

The MD/PhD program offers selected students an opportunity to earn MD and PhD degrees simultaneously from the School of Medicine and certain departments in the Swanson School of Engineering. Interested applicants should contact the MD/PhD program at M211 Scaife Hall, 412-648-2324 for further information.

**Joint MBA/MS Degree Program**

The Swanson School of Engineering and the Joseph M. Katz Graduate School of Business have established joint MBA/MS programs with each of the seven engineering departments. These programs are designed to meet the clear and growing need felt by various industry sectors for managers with sophisticated business and engineering skills. In today's environment, such cross-functional skills are essential in addressing multifaceted problems involving issues related to product development, quality, information systems, modeling and quantitative analysis, finance and accounting, international relations, and marketing.

Both full-time and part-time options are available. The full-time option can be completed in two academic years, whereas the part-time option may typically require a period of four to five years. The programs generally consist of 64.5 credits full time (or 69 credits part time). It is designed for students with undergraduate degrees in engineering and, in some cases, the physical sciences, preferably with industry work experience. Candidates must meet the admissions criteria of both the MBA program and the specific MS engineering program of interest.
Students accepted into the program will be expected to complete both degrees concurrently and pay full tuition. Courses will be scheduled in such a manner as to preclude students from receiving one degree before the other.

This program is only for those students seeking a professional MS engineering degree. Students interested in the research MS engineering degree track will not be admitted. Further, because of the high credit demand, students in the program will not be able to hold either research or teaching assistant positions. Students who enrolled in the joint degree program are expected to complete both degrees.

Full-time students will register for the program through the Joseph M. Katz Graduate School of Business for four semesters at the one-year MBA tuition rate.

Doctor of Philosophy Programs

The general PhD requirements of the Swanson School of Engineering are listed below. Further information concerning departmental requirements and options can be found under each departmental program description.

Entrance to the PhD Program

A graduate student who has received the Master of Science degree in one engineering program area or has equivalent preparation is eligible to enter a doctoral program in that same area. To be accepted for a doctoral program, a graduate student must have achieved a superior scholastic record and shown great promise for conducting independent research. A prospective doctoral student should have a cumulative graduate grade point average of at least 3.00 in graduate course work. Evidence of research aptitude, including favorable recommendations, is required. Exceptionally well-qualified students may be permitted to enter the PhD program without an MS degree according to the established criteria and qualifications set by each department. Admission to a doctoral program does not include any implication concerning admission to candidacy for the PhD degree.

Course and Dissertation Credit Requirements

An objective of the PhD program is to attain a high degree of competence in the student's chosen field of specialization. Completion of the PhD program requires a total of 72 credits, of which at least 18 must be for dissertation research. The graduate faculty determines the minimum course requirements for each PhD program. Typically each program has a core of well-coordinated courses followed by advanced course work in one or more specialty areas, with the number of course credits varying among programs. Additional course work may be prescribed in accord with the student's specific needs. However, all PhD students must take a minimum of 24 credits of graduate level didactic coursework (2000 or 3000 level). A student may further attain the required degree of competence beyond these 24 credits by other means including independent study under faculty supervision. Regardless of how the required competence is obtained, it must be certified by passing the appropriate series of examinations.

Students who have been formally admitted to PhD candidacy may register for dissertation research. Preliminary dissertation research can be done as part of an appropriate departmental course. The number of dissertation credits for which a student registers should be commensurate with the independent research effort to be undertaken during the term. Minimum registration is 3 credits per term. Of the minimum 18 credits of dissertation research, at least 12 credits must be for the program's PhD dissertation research course (3999). These may be taken only after admission to candidacy; the other 6 credits may be in the department's pre-candidacy PhD research course.

Doctoral students who have completed all credit requirements for the degree, including any minimum dissertation credit requirements, and are working full time on their dissertations may register for Full-Time Dissertation Study, which carries no credits or letter grade but provides students full-time status. Students so enrolled are assessed a special tuition fee.

Once a student registers for dissertation research (3999), he or she must continue to register for dissertation research in successive terms (not including the summer term) until the final oral examination has been passed, unless the student is eligible to register for Full Time Dissertation credit. (In special cases the major advisor may request that this requirement be waived.) Upon successful completion of the final oral examination, all I grades will be changed to S grades.

Doctor of Philosophy Evaluation/Examinations
To complete the PhD program, students must pass the preliminary evaluation and the comprehensive and final oral examinations. Students who have less than a 3.00 cumulative GPA are considered to be on probation and will not be permitted to take any of these examinations.

**Preliminary Evaluation (Qualifier)**

*See Preliminary Evaluation under Regulations Pertaining to Doctoral Degrees for an overview of the purpose of this examination, and then review the school-specific information below.* This examination is usually taken within the first two to four terms of graduate study and is a first step toward the student’s formal admission to candidacy for the Doctor of Philosophy degree. Each program determines the exact format and content of this examination, which usually consists of written and oral components. Qualifier examinations are usually given once a year at a time specified by the program.

**Comprehensive Examination**

*See Comprehensive Examination under Regulations Pertaining to Doctoral Degrees for an overview of the purpose and regulations regarding this examination, and then review the school-specific information below.* The nature and timing of this examination is determined by the department; it may be combined with students' formal presentation of their dissertation proposal. However, the Comprehensive Examination cannot be taken until at least one full term after successfully completing the Preliminary Examination. The formal thesis proposal should be scheduled as soon as the candidate is prepared to present his/her topic and research plan, since there must be at least two full terms between its successful completion and the Final Oral Examination.

**Final Oral Examination (Defense)**

*See Final Oral Examination under Regulations Pertaining to Doctoral Degrees for an overview of the purpose and regulations regarding this examination, and then review the school-specific information below.* The final oral examination determines the acceptability of students' dissertations and their ability to comprehend, organize, and contribute to their chosen field of research. One copy of the dissertation must be submitted to each member of the doctoral committee at least two weeks before the date set for the final oral examination. Because a portion of the defense is open to the public, the student should ensure that the dissertation defense is formally announced on both the School's webpages and its video monitors, at least two weeks prior to the defense date. Further, this examination cannot occur sooner than two full terms following the formal thesis proposal.

**Admission to PhD Candidacy**

*See Admission to Candidacy for the Doctor of Philosophy Degree under Regulations Pertaining to Doctoral Degrees for the requirements for admission. An Application for Admission to Candidacy for the Doctoral Degree must be filed after these requirements have been met.*

In order to have the dissertation topic approved, the student must prepare, in consultation with the major advisor, a dissertation proposal. A formal dissertation proposal conference will then be held in which the members of the doctoral committee will review the proposal and either accept, revise, or reject it. Depending on the department's procedure, this conference may be held in conjunction with the comprehensive examination. Approval of the proposal does not imply either the acceptance of a dissertation prepared in accord with the proposal or the restriction of the dissertation to this original proposal.

If the dissertation proposal is accepted by the doctoral committee, the student is formally admitted to candidacy for the Doctor of Philosophy degree. Such admittance to PhD candidacy must be accomplished at least two terms before the student plans to graduate.

**Doctoral Committee**

*See Doctoral Committee under Regulations Pertaining to Doctoral Degrees for an overview of the committee's make up and responsibilities. In addition, the following school-specific rules apply in the School of Engineering:*  

Faculty who hold a secondary appointment but actively participate in the department will be considered as internal rather than external members of the doctoral committee. Hence, they may serve as the major advisor. Faculty members whose secondary appointment within the department is
viewed as a courtesy appointment may be considered as an external committee member, but cannot serve as the student's sole committee chair (major advisor).

The composition of the Doctoral Committee must be approved by the department's graduate coordinate and either the Associate Dean for Academic Affairs or the Associate Dean for Research prior to the presentation of the formal dissertation proposal. In certain cases the graduate coordinator or associate dean may recommend one or more additional members of the committee if appropriate. Once the dissertation proposal is approved, the student is expected to meet annually with his/her Doctoral Committee.

If a committee member leaves the University, that member can continue to serve as an internal committee member provided that he/she has an adjunct appointment in the student's home department. If the major advisor (committee chair) leaves the University, then a new major advisor must be appointed by the graduate coordinator and approved by the associate dean. The new major advisor will typically be selected from among the remaining committee members. The former major advisor may remain on the committee as a member, but only if he/she has an adjunct appointment. The graduate coordinator and School administration must be informed of any proposed committee changes in the term they occur.

A major advisor has an obligation to assist the student to the successful completion of his/her dissertation. In those rare cases where the major advisor no longer feels that he/she can adequately work with the student, then it is incumbent on the department chair and graduate coordinator to meet with the committee and, if it is decided that the student is able to complete the dissertation, then select a new major advisor, typically from among the remaining members of the committee, and a replacement committee member appointed.

**PhD Dissertation**

Each student must prepare a dissertation embodying an extended original, independent investigation of a problem of significance in the student's field of specialization. The dissertation must add to the general store of knowledge or understanding of that field. Dissertations must be written in English.

A dissertation submitted to the Swanson School of Engineering in partial fulfillment of the requirements for an advanced degree must be free from any restriction, other than the author's copyright, concerning its publication by any agency outside the University. Any publication of a dissertation must be with appropriate acknowledgment to the University of Pittsburgh. After the dissertation has been prepared and approved by the major advisor, the final oral examination can be held.

**Electronic Thesis and Dissertation (ETD)**

All graduate students preparing a thesis or dissertation must complete a participation form. The signed participation form and the necessary payment receipt documentation are to be submitted to the Swanson School of Engineering Office of Administration. After receiving approval the student will go to the ETD Online System and follow the instructions in the Format Guidelines Manual for submission of an ETD. Questions and problems can be addressed by contacting the Swanson School of Engineering Office of Administration.

**Departmental Requirements**

The policies enumerated above represent minimum requirements. In certain cases, individual departments may have stricter requirements. It is the ultimate responsibility of the student to understand the policies/requirements of his/her graduate program.

**Cooperative Education**

The Swanson School of Engineering has had a longstanding co-op program for the undergraduates, and in 2011 a program for graduate level students was approved, due to a number of requests from graduate students and employers. With the renewed emphasis on professional master degree programs and the development of such initiatives as the MS/MBA, GEL (Global Engineering Leadership) and 3+1+1 (first three years at a home institution, a fourth year at the SSoE to earn the BS degree, and a fifth year at the SSoE to earn an MS degree) programs, there is a strong need to provide graduate students, including international graduate students with a work opportunity that is an essential part of their education. This also includes PhD students who desire to take a term off in order to obtain industrial experience and perspective. Not only does the program provide them with needed experience, but it enables them to earn a reasonable amount of money over a 15 week work rotation. For more information, please visit [http://www.engineering.pitt.edu/coop/](http://www.engineering.pitt.edu/coop/).
Swanson School of Engineering Faculty Roster

STEVEN D. ABRAMOWITCH, Associate Professor, Bioengineering, PhD, University of Pittsburgh

MURAT AKCAKAYA, Assistant Professor, Electrical and Computer Engineering, PhD, Washington University

MOHAMMAD M. ATAAI, Professor, Chemical and Petroleum Engineering, PhD, Cornell University

ANNA C. BALAZS, Distinguished Professor of Chemical and Petroleum Engineering and Robert von der Luft Professor, Chemical and Petroleum Engineering, PhD, Massachusetts Institute of Technology

IPSITA BANERJEE, Associate Professor, Chemical and Petroleum Engineering, PhD, Rutgers University

AARON P. BATISTA, Professor, Bioengineering, PhD, California Institute of Technology

ERIC J. BECKMAN, George M. Bevier Chair Professor, Chemical and Petroleum Engineering, PhD, University of Massachusetts

MOSTAFA BEDEWY, Assistant Professor, Industrial Engineering, PhD, University of Michigan

MARY BESTERFIELD-SACRE, Professor, Industrial Engineering, PhD, University of Pittsburgh

KYLE BIBBY, Assistant Professor, Civil and Environmental Engineering, PhD, Yale University

BOPAYA BIDANDA, Chair and Ernest E. Roth Professor, Industrial Engineering, PhD, Pennsylvania State University

HODA BIDKHORI, Assistant Professor, Industrial Engineering, PhD, Massachusetts Institute of Technology

MELISSA M. BILEC, Associate Professor, Civil and Environmental Engineering, PhD, University of Pittsburgh

HARVEY S. BOROVETZ, Professor and Former Chair, Bioengineering, PhD, Carnegie Mellon University

J. ROBERT BOSTON, Professor, Electrical and Computer Engineering, PhD, Northwestern University

JOHN C. BRIGHAM, Associate Professor, Civil and Environmental Engineering, PhD, Cornell University

BRYAN N. BROWN, Assistant Professor, Bioengineering, PhD, University of Pittsburgh

DANIEL D. BUDNY, Associate Professor, Civil and Environmental Engineering; Director, Freshman Engineering Program, PhD, Michigan State University

ANDREW P. BUNGER, Assistant Professor, Civil and Environmental Engineering, Chemical and Petroleum Engineering, PhD, University of Minnesota

KAREN BURSIC, Associate Professor and Undergraduate Program Director, Industrial Engineering, PhD, University of Pittsburgh

LEONARD W. CASSON, Associate Professor, Civil and Environmental Engineering, PhD, University of Texas at Austin

RAKIE CHAM, Associate Professor, Bioengineering, PhD, University of Pittsburgh

MARKUS CHMIELUS, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Technical University, Berlin, Germany

KEVIN P. CHEN, Professor, Electrical and Computer Engineering, PhD, University of Toronto

YIRAN CHEN, Assistant Professor, Electrical and Computer Engineering, PhD, Purdue University

SUNG KWON CHO, Associate Professor, Mechanical Engineering and Materials Science, PhD, Seoul National University, Korea

YOUNGJAE CHUN, Assistant Professor, Industrial Engineering, PhD, University of California, Los Angeles
MINKING CHYU, Associate Dean for International Initiatives; Leighton E. and Mary N. Orr Chair Professor, Mechanical Engineering and Materials Science, PhD, University of Minnesota

WILLIAM W. CLARK, Professor, Mechanical Engineering and Materials Science, PhD, Virginia Polytechnic Institute and State University

 DANIEL G. COLE, Associate Professor, Mechanical Engineering and Materials Science, PhD, Virginia Polytechnic Institute and State University

XINYAN CUI, Professor, Bioengineering, PhD, University of Michigan

LANCE A. DAVIDSON, Associate Professor, Bioengineering, PhD, University of California at Berkeley

ANTHONY J. DEARDO, Professor, Mechanical Engineering and Materials Science, PhD, Carnegie Mellon University

RICHARD E. DEBSKI, Associate Professor, Bioengineering, PhD, University of Pittsburgh

SAMUEL J. DICKERSON, Assistant Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

AMRO EL-JAROUDI, Associate Professor, Electrical and Computer Engineering, PhD, Northeastern University

MAHMOUD EL NOKALI, Interim Chair and Associate Professor, Electrical and Computer Engineering, PhD, McGill University

ROBERT M. ENICK, Covestro Professor and Vice Chair for Research, Chemical and Petroleum Engineering, PhD, University of Pittsburgh

WILLIAM FEDERSPIEL, Professor, Graduate Coordinator, Bioengineering, PhD, University of Rochester

SUSAN FULLERTON, Assistant Professor, Chemical and Petroleum Engineering, PhD, The Pennsylvania State University

GIOVANNI P. GALDI, Leighton E. and Mary N. Orr Professor, Mechanical Engineering and Materials Science, PhD, University of Naples, Italy

NEERAJ J. GANDHI, Associate Professor, Bioengineering, PhD, University of California, San Francisco

DI GAO, Associate Professor and William Kepler Whiteford Faculty Fellow, Chemical and Petroleum Engineering, PhD, University of California at Berkeley

LEEANNE GILBERTSON, Assistant Professor, Civil and Environmental Engineering, PhD, Yale University

PEYMAN GIVI, Distinguished Professor and James T. MacLeod Professor, Mechanical Engineering and Materials Science, PhD, Carnegie Mellon University

BRIAN M. GLEESON, Chair and Harry S. Tack Professor, Mechanical Engineering and Materials Science PhD, University of Los Angeles

BRANDON GRAINGER, Visiting Research Assistant Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

KILICHAN GURLEYIK, Assistant Professor, Bioengineering, DSc, Washington University in St. Louis

JOEL M. HAIIGHT, Associate Professor, Industrial Engineering, PhD, Auburn University

KENT A. HARRIES, Associate Professor, Civil and Environmental Engineering, PhD, McGill University

ALAN HIRSCHMAN, Professor, Bioengineering, PhD, Carnegie Mellon University

GERALD D. HOLDER, USX Dean, Swanson School of Engineering; Professor, Chemical and Petroleum Engineering, PhD, University of Michigan

TIN-KAN HUNG, Professor, Bioengineering, PhD, University of Iowa

ANTHONY T. IANNACCHIONE, Associate Professor, Civil and Environmental Engineering, PhD, University of Pittsburgh

TAMER S. IBRAHIM, Associate Professor, Bioengineering, PhD, The Ohio State University

STEVEN P. JACOBS, Assistant Professor, Electrical and Computer Engineering, DSc, Washington University

TEVIS D. B. JACOBS, Assistant Professor, Mechanical Engineering and Materials Science, PhD, University of Pennsylvania
DANIEL R. JIANG, Assistant Professor, Industrial Engineering, PhD, Princeton University

J. KARL JOHNSON, William Kepler Whiteford Professor, Chemical and Petroleum Engineering, PhD, Cornell University

ALEX K. JONES, Associate Professor and COE Undergraduate Program Director, Electrical and Computer Engineering, PhD, Northwestern University

IRVIN R. JONES, JR, Assistant Professor and EE Undergraduate Program Director, Electrical and Computer Engineering, PhD, University of Colorado at Boulder

VIKAS KHANNA, Assistant Professor, Civil and Environmental Engineering, PhD, The Ohio State University

JOHN A. KEITH, Assistant Professor, Chemical and Petroleum Engineering, PhD, California Institute of Technology

JEFFREY P. KHAROUFEH, Professor, Industrial Engineering, PhD, The Pennsylvania State University

HONG KOO KIM, Professor, Electrical and Computer Engineering, PhD, Carnegie Mellon University

GEORGE E. KLINZING, Professor, Chemical and Petroleum Engineering, PhD, Carnegie Mellon University

TAKASHI DANIEL YOSHIDA KOZAI, Assistant Professor, Bioengineering, PhD, University of Michigan

GEORGE L. KUSIC, Associate Professor, Electrical and Computer Engineering, PhD, Carnegie Mellon University

PRASHANT N. KUMTA, Edward R. Weidlein Chair Professor, Bioengineering, PhD, University of Arizona

ALEXIS KWASINSKI, Associate Professor, Electrical and Computer Engineering, PhD, University of Illinois at Urbana-Champaign

JUNG-KUN LEE, William Kepler Whiteford Faculty Fellow, Associate Professor, MSE Graduate Director, Mechanical Engineering and Materials Science, PhD, Seoul National University, Korea

SANGYEOP LEE, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Massachusetts Institute of Technology

PAUL LEU, Associate Professor, Industrial Engineering, PhD, Stanford University

CHING CHUNG LI, Professor, Electrical and Computer Engineering, PhD, Northwestern University

GUANGYONG LI, Associate Professor, Electrical and Computer Engineering, PhD, Michigan State University

HAI (HELEN) LI, Associate Professor, Electrical and Computer Engineering, PhD, Purdue University

LEI LI, Assistant Professor, Chemical and Petroleum Engineering, PhD, University of Michigan

XU LIANG, Professor, Civil and Environmental Engineering, PhD, University of Washington

JEEN-SHANG LIN, Associate Professor, Civil and Environmental Engineering, ScD, Massachusetts Institute of Technology

STEVEN LITTLE, Chair and William Kepler Whiteford Professor, Chemical and Petroleum Engineering, PhD, Massachusetts Institute of Technology

PATRICK J. LOUGHLIN, Professor, Bioengineering, PhD, University of Washington

NIATIKUN LOUIS LUANGKESORN, Assistant Professor, Industrial Engineering, PhD, Northwestern University

SPANDAN MAITI, Assistant Professor, Bioengineering, PhD, University of Illinois, Champaign

LISA M. MAILLART, Associate Professor, Industrial Engineering, PhD, University of Michigan

SCOTT X. MAO, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, Tohoku University

ZHI-HONG MAO, Associate Professor, Electrical and Computer Engineering, PhD, Massachusetts Institute of Technology
MARK MAGALOTTI, Professor of Practice, Civil and Environmental Engineering, PhD, University of Pittsburgh

JOSEPH J. McCARTHY, William Kepler Whiteford Professor and Vice Chair for Education, Chemical and Petroleum Engineering, PhD, Northwestern University

JAMES R. MCKONE, Assistant Professor, Chemical and Petroleum Engineering, PhD, California Institute of Technology

RAVI S. MEENAKSHISUNDARAM, Associate Professor, Industrial Engineering, PhD, Purdue University

GERALD H. MEIER, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, Ohio State University

IRENE MENA, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Purdue University

NATASA MISKOV-ZIVANOV, Assistant Professor, Electrical and Computer Engineering, PhD, Carnegie Mellon University

KARTIK MOHANRAM, Assistant Professor, Electrical and Computer Engineering, PhD, University of Texas at Austin

BADIE I. MORSI, Professor, Chemical and Petroleum Engineering, PhD, ScD, Institut National Polytechnique de Lorraine-Ecole Nationale Superieure des Industries Chimiques

SEYED MOHAMMAD MOUSAVI, Assistant Professor, Industrial Engineering, PhD, Stanford University

GIANNIS MPOURMPAKIS (Ioannis Bourmpakis), Assistant Professor, Chemical and Petroleum Engineering, PhD, University of Crete, Greece (Heraklion)

IAN NETTLESHP, Associate Professor, Mechanical Engineering and Materials Science, PhD, University of Leeds

CARLA NG, Assistant Professor, Civil and Environmental Engineering, PhD, Northwestern University

BRYAN A. NORMAN, Associate Professor, Industrial Engineering, PhD, University of Michigan

ROBERT S. PARKER, Professor and B.P. America Faculty Fellow, Chemical and Petroleum Engineering, PhD, University of Delaware

JOHN F. PATZER II, Associate Professor and Undergraduate Coordinator, Bioengineering, PhD, Stanford University

OLEG A. PROKOPYEV, Associate Professor, Industrial Engineering, PhD, University of Florida

JAYANT RAJGOPAL, Professor and Graduate Program Director, Industrial Engineering, PhD, University of Iowa

MARK S. REDFERN, Vice Provost for Research, Swanson School of Engineering; Professor, Bioengineering, PhD, University of Michigan

GREGORY F. REED, Associate Professor, Electrical and Computer Engineering, PhD, University of Pittsburgh

PIERVINCENZO RIZZO, Associate Professor, Civil and Environmental Engineering, PhD, University of California at San Diego

ANNE M. ROBERTSON, William Kepler Whiteford Professor, Mechanical Engineering and Materials Science, PhD, University of California at Berkeley

PARTHA ROY, Associate Professor, Bioengineering, PhD, University of Texas, Southern Medical Center

JOSEPH T. SAMOSKY, Assistant Professor, Bioengineering, PhD, Massachusetts Institute of Technology

WISSAM SAIDI, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Ohio State University

DAVID SCHMIDT, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Carnegie Mellon University

JOHN SEBASTIAN, Professor of Practice, Civil and Environmental Engineering, MBA, University of Pittsburgh

ERVIN SEJDIC, Assistant Professor, Electrical and Computer Engineering, PhD, Columbia University

NITIN SHARMA, Assistant Professor, Mechanical Engineering and Materials Science, PhD, University of Florida
JASON SHOEMAKER, Assistant Professor, Chemical and Petroleum Engineering, PhD, University of California, Santa Barbara

SANJEEV G. SHROFF, Chair, Distinguished Professor of and Gerald E. McGinnis Chair, Bioengineering, PhD, University of Pennsylvania

LARRY J. SHUMAN, Senior Associate Dean, Swanson School of Engineering; Distinguished Professor, Industrial Engineering, PhD, The Johns Hopkins University

WILLIAM S. SLAUGHTER IV, Associate Professor and Undergraduate Director, Mechanical Engineering and Materials Science, PhD, Harvard University

PATRICK SMOLINSKI, Associate Professor, Mechanical Engineering and Materials Science, PhD, Northwestern University

WILLIAM E. STANCHINA, Professor, Electrical and Computer Engineering, PhD, University of Southern California

GEORGE DEWITT STETTEN, Professor, Bioengineering, PhD, University of North Carolina

ALBERT C. F. TO, Associate Professor, Mechanical Engineering and Materials Science, PhD, University of California at Berkeley

MORTEZA A.M. TORKAMANI, Associate Professor, Civil and Environmental Engineering, PhD, University of California at Los Angeles

GELSY TORRES, Assistant Professor, Bioengineering, PhD, Georgia Institute of Technology and Emory University

LUIS E. VALLEJO, Professor, Civil and Environmental Engineering, PhD, University of Wisconsin

JONATHAN VANDE GEEST, Professor, Bioengineering, PhD, University of Pittsburgh

JULIE M. VANDENBOSSCHE, Associate Professor, Civil and Environmental Engineering, PhD, University of Minnesota

SACHIN S. VELANKAR, Associate Professor, Chemical and Petroleum Engineering, PhD, University of Delaware

GÖTZ VESER, Nickolas A. DeCecco Professor, Chemical and Petroleum Engineering, PhD, Fritz-Haber-Institute of the Max-Planck-Society

NATASA VIDIC, Assistant Professor, Industrial Engineering, PhD, University of Pittsburgh

RADISAV D. VIDIC, Chair and Professor, Civil and Environmental Engineering, PhD, University of Cincinnati

JUAN PABLO VIELMA, Assistant Professor, Civil and Environmental Engineering, PhD, Georgia Institute of Technology

JEFFREY S. VIPPERMAN, Professor and Vice Chair, Mechanical Engineering and Materials Science, PhD, Duke University

DAVID VORP, Associate Dean for Research, Professor, Bioengineering, PhD, University of Pittsburgh

GUOFENG WANG, Associate Professor, Mechanical Engineering and Materials Science, PhD, California Institute of Technology

QING-MING WANG, Professor and ME Graduate Director, Mechanical Engineering and Materials Science, PhD, Pennsylvania State University

YADONG WANG, Professor, Bioengineering, PhD, Stanford University

DOUGLAS WEBER, Associate Professor, Bioengineering, PhD, Arizona State University

JOHN WHITEEFFOT, Assistant Professor, Mechanical Engineering and Materials Science, PhD, University of Michigan-Ann Arbor

JÖRG M. WIEZOREK, Professor, Mechanical Engineering, PhD, University of Cambridge

CHRISTOPHER E. WILMER, Assistant Professor, Chemical and Petroleum Engineering, PhD, Northwestern University

SAVIO L.Y. WOO, University Professor of Bioengineering, PhD, University of Washington

SYLVANUS N. WOSU, Associate Dean for Diversity; Associate Professor, Mechanical Engineering and Materials Science, PhD, University of Oklahoma
WEI XIONG, Assistant Professor, Mechanical Engineering and Materials Science, PhD, Massachusetts Institute of Technology

JUDITH C. YANG, Nickolas A. DeCecco Professor, Chemical and Petroleum Engineering, PhD, Cornell University

JUN YANG, Associate Professor, Electrical and Computer Engineering, PhD, University of Arizona

QIANG YU, Assistant Professor, Civil and Environmental Engineering, PhD, Northwestern University

MIN HEE YUN, Associate Professor, Electrical and Computer Engineering, PhD, Arizona State University

BO ZENG, Assistant Professor, Industrial Engineering, PhD, Purdue University

XUDONG ZHANG, Associate Professor, Mechanical Engineering and Materials Science, PhD, University of Michigan

Contact information and research interests of faculty members can be found on the Swanson School of Engineering faculty page.

Program and Course Offerings

Department of Bioengineering

Contact Information

Department Chair: Sanjeev Shroff, PhD
Main Office: 302F Benedum
412-624-6445
Fax: 412-383-8788
E-mail: sshroff@pitt.edu
http://www.engineering.pitt.edu/bioengineering/

Additional information concerning the department's graduate program may be obtained from the Department of Bioengineering, 306 Center for Bioengineering; 412-624-6445; e-mail: ngm8@pitt.edu; http://engineering.pitt.edu/bioengineering/.

More information on the Bioengineering Graduate Programs can be found on the website, which can be found here: http://engineering.pitt.edu/bioengineering/

Graduate Degree Programs

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/)

The Department of Bioengineering offers the degrees of Master of Science in Bioengineering, Doctor of Philosophy (PhD) in Bioengineering, and a Professional Masters in Medical Product Engineering. In addition, the department has a certificate program in Medical Product Innovation and participates in the MD/PhD program with the School of Medicine and the MBA/MS program with the Katz Graduate School of Business.

The graduate program in bioengineering incorporates five programmatic tracks:

- Bioimaging and Signals
- Biomechanics
- Molecular, Cellular, and Systems Engineering
- Neural Engineering
- Medical Product Engineering*
- Tissue Engineering and Regenerative Medicine
*(Please note this track has separate tracks for the MS and PhD).

The department has an active, interdisciplinary graduate bioengineering program in conjunction with faculty from the School of Medicine, the School of Health and Rehabilitation Sciences, the School of Dental Medicine, the clinical staffs at the University of Pittsburgh Medical Center hospitals, and other schools and departments at the University of Pittsburgh and Carnegie Mellon University.

The graduate program is directed toward engineering and life science education and research, with particular emphasis on the PhD. Its scope is broadly defined to incorporate the application of engineering principles, methods, and technology in two broad areas: (1) scientific queries into fundamental biological phenomena and (2) the development of instrumentation, materials, devices, and systems relative to application in the biological sciences and medicine. Thus, the bioengineering faculty are applying various forms of engineering principles, mathematics, computation, technology, and methodology to a broad variety of medical and life sciences problems.

**Admissions**

http://www.engineering.pitt.edu/BioGraduateAdmissions/

Applicants for admission are expected to have a minimum GPA of 3.5 from an accredited BS program. They must submit transcripts of all college-level work, three letters of recommendation, a statement of purpose, and scores on the verbal, quantitative, and writing assessment-analytical sections of the Graduate Record Examination. International applicants whose first language is not English are required to submit the TOEFL, administered by the Educational Testing Service, with a minimum score of 550 (213 computer-based, 80 internet-based). In addition to these basic requirements, evidence of significant research and/or industrial experience is very important as further evidence of ability to perform well at the graduate level.

Students with a non-engineering background may be admitted provisionally on a case-by-case basis, and often are required to take undergraduate engineering and math courses considered as prerequisite for graduate course work in these areas. These undergraduate courses do not count toward their graduate degree credit requirements. Likewise, an undergraduate knowledge of physiology and basic biology and chemistry is assumed. In addition to the above basic requirements, evidence of significant research and/or industrial experience is very important as further evidence of ability to perform well at the graduate level. These experiences should be detailed clearly in recommendation letters, as well as in the student's statement of purpose. Please note that incomplete applications will not be considered.

**Financial Assistance**

All doctoral students in the Department of Bioengineering are currently supported either by research or departmental funds. Financial assistance is typically arranged between a student and a faculty advisor. Students with exceptional qualifications will be considered for additional departmental support and fellowships.

**Master's**

**Bioengineering - Medical Product Engineering, MS**

**Requirements**

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs--accordion/

The Professional Master of Science degree program in Medical Product Engineering is suitable for those students who have industry-driven career goals, or who are already working in the industry. The students participating in the program can choose to complete their curricular requirements either as full-time students in a shorter period, or as part-time students over a longer period. (Note: Foreign students should consult their OIS advisors as it is often required for a foreign exchange student to maintain a full-time student status while studying in the USA.) For detailed information, interested students should contact the CMI Program's Educational Director, Dr. Kilichan Gurleyik. The student in the Professional MS program must maintain a 3.0 GPA to remain in good standing within the program. Students who are accepted and enroll in the Professional MS program and who subsequently wish to enter the PhD program must complete the entire PhD application process.
The degree program emphasizes preparation for a career in the medical device industry through hands-on, practical experience in medical product design and development, development of advanced engineering skills, and instruction in professional affairs and practices in medical engineering. In essence, the program focuses on the application of engineering innovation to the identification of and solution to challenges in health care delivery in the medical industry.

The Professional MS in Bioengineering - Medical Product Engineering is designed to assure mastery of specific knowledge and skills, rather than random accumulation of a specified number of courses. A thorough grounding in the principles of medical device innovation and development compliant with regulatory requirements is provided through a three-semester sequence that starts with immersion in the medical/hospital environment and ends with a first generation prototype. The curriculum also provides a strong foundation in ethics, analysis, design principles, and principles of entrepreneurship as applied to medical device innovation. The degree still requires a total of 30 credits as follows:

- Medical Product Engineering Core Curriculum (12 credits)
- Electives (18 credits as follows):
  - Medical Ethics (3 credits)
  - Graduate Engineering Mathematics or Statistics (3 credits)
  - Advanced Graduate Engineering Electives (12 credits)

More detailed information on the Professional Masters in Medical Product Engineering can be found at the following website: http://engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

### Bioengineering - Research - Biomechanics Track, MS

**Research MS Program**

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The Research MS program requires a total of 31 credits, which includes:

- Graduate Engineering Mathematics-credits (approved math courses)
- Statistics for Bioengineers-3 credits (approved statistics courses)
- Societal, Political, and Ethical Issues in Bioengineering-3 credits
- Life Sciences-3 credits (approved life science courses)
- Track Courses-9 credits (from menu of courses for specific track)
- MS Thesis-6 credits
- Teaching Practicum-1 credit
- Bioengineering Seminar-3 credits

Typically, completion of the Research MS program requires two years. Within the first year of enrollment (preferably within the first semester), the MS candidate is expected to finalize the general area in which he/she will write a thesis and an advisor who will guide the work. After completing degree requirements and the research project the student is to prepare a Master's Thesis. The student (under the guidance of his/her advisor) selects a thesis committee of three or more persons. The committee should consist of the student's advisor (who will act as the Chairman of this committee), at least one additional faculty member from within the Department of Bioengineering and at least one faculty member from outside the department. The committee meets at least once a year. All students must maintain a 3.0 GPA to remain in good standing in the program.

### Bioengineering - Research - Biosignals and Imaging Track, MS

**Research MS Program**

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The Research MS program requires a total of 31 credits, which includes:

- Graduate Engineering Mathematics-credits (approved math courses)
- Statistics for Bioengineers-3 credits (approved statistics courses)
• Societal, Political, and Ethical Issues in Bioengineering-3 credits
• Life Sciences-3 credits (approved life science courses)
• Track Courses-9 credits (from menu of courses for specific track)
• MS Thesis-6 credits
• Teaching Practicum-1 credit
• Bioengineering Seminar-3 credits

Typically, completion of the Research MS program requires two years. Within the first year of enrollment (preferably within the first semester), the MS candidate is expected to finalize the general area in which he/she will write a thesis and an advisor who will guide the work. After completing degree requirements and the research project the student is to prepare a Master's Thesis. The student (under the guidance of his/her advisor) selects a thesis committee of three or more persons. The committee should consist of the student's advisor (who will act as the Chairman of this committee), at least one additional faculty member from within the Department of Bioengineering and at least one faculty member from outside the department. The committee meets at least once a year. All students must maintain a 3.0 GPA to remain in good standing in the program.

Bioengineering - Research - Cellular and Organ Engineering Track, MS

Research MS Program

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The Research MS program requires a total of 31 credits, which includes:

• Graduate Engineering Mathematics-credits (approved math courses)
• Statistics for Bioengineers-3 credits (approved statistics courses)
• Societal, Political, and Ethical Issues in Bioengineering-3 credits
• Life Sciences-3 credits (approved life science courses)
• Track Courses-9 credits (from menu of courses for specific track)
• MS Thesis-6 credits
• Teaching Practicum-1 credit
• Bioengineering Seminar-3 credits

Typically, completion of the Research MS program requires two years. Within the first year of enrollment (preferably within the first semester), the MS candidate is expected to finalize the general area in which he/she will write a thesis and an advisor who will guide the work. After completing degree requirements and the research project the student is to prepare a Master's Thesis. The student (under the guidance of his/her advisor) selects a thesis committee of three or more persons. The committee should consist of the student's advisor (who will act as the Chairman of this committee), at least one additional faculty member from within the Department of Bioengineering and at least one faculty member from outside the department. The committee meets at least once a year. All students must maintain a 3.0 GPA to remain in good standing in the program.

Bioengineering - Research - Neural Engineering Track, MS

Research MS Program

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The Research MS program requires a total of 31 credits, which includes:

• Graduate Engineering Mathematics-credits (approved math courses)
• Statistics for Bioengineers-3 credits (approved statistics courses)
• Societal, Political, and Ethical Issues in Bioengineering-3 credits
• Life Sciences-3 credits (approved life science courses)
• Track Courses-9 credits (from menu of courses for specific track)

Bioengineering, MS

PhD Requirements

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The course requirements for the PhD in Bioengineering include the following:

• Graduate Engineering Mathematics-3 credits (from an approved list of math courses)
• Statistics for Bioengineers-3 credits (from an approved list of statistics courses)
• Societal, Political, and Ethical Issues in Bioengineering-3 credits
• Life Sciences-6 credits (from an approved list of life science courses)
• Teaching Practicum-2 credits
• Seminar-6 credits total, 4 credits must be the Bioengineering Seminar
• Track Courses-9 credits (from a menu of courses for specific track)
• Graduate Electives-6 credits
• Grant Writing in Bioengineering-1 credit
• Doctoral Dissertation Research-33 credits
Total number of credit hours: 72 credits (plus the credits associated with the remedial courses, as applicable.) Students typically take the PhD preliminary exam after their first year in the program, and PhD proposal (comprehensive examination) is presented generally at the end of the second year. A final public PhD defense is made by each PhD candidate based on the student's research work. All students must maintain a 3.0 GPA at all times to remain in good standing in the program.

* Please note that the total of 33 credits is not necessarily the total number of credits of BIOENG 3997 that must be taken, as other courses/credits in other areas may be taken as long as the total number of credits adds up to 72 total. Students are required to take a minimum of 12 credits of BIOENG 3999 after their PhD proposal defense, as these credits cannot be taken before. Total number of credit hours: 72 credits.

**Doctoral**

**Bioengineering - Research - Biomechanics Track, PhD**

PhD Requirements

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/)

The course requirements for the PhD in Bioengineering include the following:

- Graduate Engineering Mathematics-3 credits (from an approved list of math courses)
- Statistics for Bioengineers-3 credits (from an approved list of statistics courses)
- Societal, Political, and Ethical Issues in Bioengineering-3 credits
- Life Sciences-6 credits (from an approved list of life science courses)
- Teaching Practicum-2 credits
- Seminar-6 credits total, 4 credits must be the Bioengineering Seminar
- Track Courses-9 credits (from a menu of courses for specific track)
- Graduate Electives-6 credits
- Grant Writing in Bioengineering-1 credit
- Doctoral Dissertation Research-33 credits

Total number of credit hours: 72 credits (plus the credits associated with the remedial courses, as applicable.) Students typically take the PhD preliminary exam after their first year in the program, and PhD proposal (comprehensive examination) is presented generally at the end of the second year. Certificate

Bioengineering - Medical Product Innovation Certificate
Requirements

The Graduate Certificate in Medical Product Innovation (CMI), offered by the Department of Bioengineering in conjunction with CMI is multi-faceted, reflecting the multidisciplinary nature of medical innovation, with the objectives:

1. To educate engineering graduate students at the MS and PhD levels in clinical, engineering, business, and legal aspects of the medical device design and development process;
2. To educate students of the health sciences (residents, fellows and clinicians) in engineering, business, and legal methodologies in identifying and developing innovative solutions to their problems;
3. To educate law students in engineering methodology, regulatory constraints, medical device intellectual property, and commercialization aspects of medical innovation;
4. To educate business (MBA) students in clinical, engineering, regulatory, and legal aspects of medical innovation and entrepreneurship; and
5. To train all of the above disciplines in the art of working in multi-disciplinary teams to accomplish the medical innovation process, from medical technology ideation, through development, to realization and commercialization.

Certificate candidates must complete a minimum of 5 courses (15 credits) drawn from the following areas:

- Medical Product Innovation Core Curriculum (6 credits)
- Electives (9 credits - from each of the following subgroups)
- Medical Ethics (3 credits)
- Entrepreneurship/Engineering Management (3 credits)
- Legal Aspects of Medical Product Engineering (3 credits)
- More information and details on credit requirements for the Certificate Program can be found here: http://www.engineering.pitt.edu/Sub-Sites/Centers/CMI/_Content/Education/Graduate-Certificate-in-Medical-Product-Innovation/

Students currently enrolled in any graduate program in the University (MS, MBA, JD, PhD, etc.) are eligible to obtain the C-MPI upon completion of the Certificate requirements. No formal admissions process is required. Post-baccalaureate and post-professional students interested only in obtaining the C-MPI need to apply to the Department of Bioengineering for admission to the Certificate program.

Joint Degree

Bioengineering - Research - Biomechanics Track, MD/PhD

MD/PhD Requirements

The University MD/PhD program supports well-integrated basic and clinical sciences pre-doctoral training program. The training program links 30 PhD programs in twelve graduate schools within the University of Pittsburgh and Carnegie Mellon University. For more information on this MD/PhD Program, visit the following web site: https://www.mdphd.pitt.edu/

The course requirements for the MD/PhD in bioengineering include the following:

- Graduate Engineering Mathematics-3 credits (from list of approved math courses)
- Statistics for Bioengineers-3 credits (from list of approved statistics courses)
- Track Courses-9 credits (from menu of courses for specific track)
- Graduate Electives-6 credits
- Teaching Practicum-2 credits
- Bioengineering Seminar-6 credits, 4 credits must be the Bioengineering Seminar
- Grant Writing in Bioengineering - 1 credits
- Doctoral Dissertation Research - 42 credits

Total number of credit hours: 72 credits (plus the credits associated with the remedial courses, as applicable).

Bioengineering - Research - Neural Engineering Track, MD/PhD

MD/PhD Requirements

http://www.engineering.pitt.edu/Departments/Bioengineering/_Content/Programs/Graduate/Programs---accordion/

The University MD/PhD program supports well-integrated basic and clinical sciences pre-doctoral training program. The training program links 30 PhD programs in twelve graduate schools within the University of Pittsburgh and Carnegie Mellon University. For more information on this MD/PhD Program, visit the following web site: https://www.mdphd.pitt.edu/

The course requirements for the MD/PhD in bioengineering include the following:

- Graduate Engineering Mathematics-3 credits (from list of approved math courses)
- Statistics for Bioengineers-3 credits (from list of approved statistics courses)
- Track Courses-9 credits (from menu of courses for specific track)
- Graduate Electives-6 credits
- Teaching Practicum-2 credits
- Bioengineering Seminar-6 credits, 4 credits must be the Bioengineering Seminar
- Grant Writing in Bioengineering - 1 credits
- Doctoral Dissertation Research - 42 credits

Total number of credit hours: 72 credits (plus the credits associated with the remedial courses, as applicable).

Bioengineering - Research - Physiology and Biophysics Track, MD/PhD

MD/PhD Requirements
The University MD/PhD program supports well-integrated basic and clinical sciences pre-doctoral training program. The training program links 30 PhD programs in twelve graduate schools within the University of Pittsburgh and Carnegie Mellon University. For more information on this MD/PhD Program, visit the following web site: https://www.mdphd.pitt.edu/

The course requirements for the MD/PhD in bioengineering include the following:

- Graduate Engineering Mathematics-3 credits (from list of approved math courses)
- Statistics for Bioengineers-3 credits (from list of approved statistics courses)
- Track Courses-9 credits (from menu of courses for specific track)
- Graduate Electives-6 credits
- Teaching Practicum-2 credits
- Bioengineering Seminar-6 credits, 4 credits must be the Bioengineering Seminar
- Grant Writing in Bioengineering - 1 credits
- Doctoral Dissertation Research - 42 credits

Total number of credit hours: 72 credits (plus the credits associated with the remedial courses, as applicable).

**Bioengineering/Business Administration, MS/MBA**

The Department of Bioengineering and the Katz Graduate School of Business offer a dual MBA/MS program, with the following requirements:

**Foundation Courses**

- BQOM 2401 - STATISTICAL ANALYSIS: UNCERT
- BIOENG 2242 - SOCTL, POL & ETHCL ISS BIOT 2 or another approved Ethics course
- Graduate Engineering Mathematics (3 credits)
- Life Sciences (6 credits)
- Bioengineering Seminar (2 credits)

**Bioengineering Track Courses**

- BIOENG 2150 - MEDICAL PRODUCT IDEATION
- BIOENG 2151 - MEDICAL PRODUCT DEVELOPMENT
- BIOENG 2170 - CLINICAL BIOENGINEERING
- BIOENG 2171 - MEDICAL PRODUCT PROTOTYPING

**Projects Courses**

- Joint with KGSB (3 credits)

Please note that all students must maintain a 3.0 GPA at all times to remain in good standing in the program.

**Department of Chemical and Petroleum Engineering**

**Contact Information**
Graduate Degree Programs

The Department of Chemical and Petroleum Engineering awards Master of Science degrees in chemical and petroleum engineering and the Doctor of Philosophy degree in chemical engineering; offers several dual degree programs; and participates in joint degree programs with the Katz Graduate School of Business and the School of Medicine. The general objective of all programs is to develop the ability of the chemical or petroleum engineer to carry out original research at advanced levels. The aim of the doctoral program is to develop individuals for careers in academic and industrial research. The program is flexible. Its primary emphasis is on innovative and distinctive research on the cutting edge of engineering science. Students wishing to pursue the PhD should have an outstanding academic background and a desire and ability to carry out original research. PhD students here are given independence and responsibility. They are not only encouraged but are expected to develop research ideas, which they propose and defend. They work closely with their faculty research advisors and often participate in a research group attacking relevant engineering problems. To supplement their research, students take advanced courses in areas related to their research work. Candidates for the PhD achieve a high level of proficiency through this advanced course work and individual study in their research area and related areas.

The graduate program offers MS and PhD students the opportunity to pursue independent research in five research focus areas in which the department has developed national and international reputations: biotechnology, catalysis, multi-scale modeling, materials, and environment and energy. Additional research areas exist in programs that have exploited opportunities at the interface between disciplines. The department's recognized research activities impact the following boundaries between established disciplines: biotechnology/environment; biology/engineering; energy/environment; polymer chemistry/physics; catalysis/chemistry/materials; catalysis/energy; and catalysis/environment.

Admissions

Chemical Engineering: For admission to full graduate status, students should have an undergraduate degree in chemical engineering with high academic standing in an ABETaccredited curriculum.

Petroleum Engineering: For admission to full graduate status, students should have an undergraduate degree in engineering or geology, and high academic standing.

Students from chemistry or from another engineering discipline who desire to pursue a graduate degree in chemical engineering must have a high grade point average and prepare for graduate course work by taking selected undergraduate courses in chemical engineering. See MS and PhD Requirements for Students with Non-Chemical Engineering BS Degree. Each case for admission will be evaluated individually, and applications are encouraged.

Interested students may apply online (preferred method) or, if necessary, interested students may request a complete application package in one of the three following ways:

1. Send e-mail to che@engr.pitt.edu. Be sure to include your name and complete mailing address.
2. Send surface mail to:
University of Pittsburgh
Department of Chemical and Petroleum Engineering
Graduate Coordinator
1249 Benedum Hall
Pittsburgh, PA 15260

Financial Assistance
While admission to the graduate program does not imply the granting of financial aid, most fulltime graduate students are supported. All students who qualify for financial assistance are awarded departmental fellowships. In addition, a select few top students receive supplementary dean's fellowships. An applicant interested in obtaining financial aid should request information directly from the department. Applications for admission and financial aid should be submitted by January 15 for the following fall term.

Master's

Chemical Engineering (Professional Engineer Program), MSCHe

Engineers working full-time outside the University who wish to continue advanced study in chemical engineering may apply for admission to the Professional Engineer Program. It differs from the regular MS program in two important respects:

1. Admission to the program is limited to engineers working full-time outside the University in chemical engineering or a related area.
2. Course work replaces the MS thesis requirement.
3. The student completes a 3-credit special project course, CHE 2910, during their last term in the program. This course could be satisfied, for example by a project with a faculty member, or a project based on their professional work for which a faculty member agrees to serve as advisor. Submission of a term paper, which is completed under the advisement of a member of the faculty, is required.

A minimum of 31 credit hours of course work is required.

These must include the five core courses and elective courses listed below.

- CHE 2301 - FUNDAMNTL TRANSPORT PROCES 1
- CHE 2101 - FUNDAMENTALS OF THERMODYNAMICS
- CHE 2201 - FUNDAMNTL OF REACTN PROCESSES
- CHE 2410 - MATHMTCL METHD IN CHMCL ENGR 1
- CHE 2910 - SPECIAL PROJECTS
- ChE 2XXX - Chemical Engineering Elective (Graduate Level)
- ENGR 2/3XXX - Engineering Elective (Graduate Level)
- ENGR 2/3XXX - Engineering Elective (Graduate Level)
- XX 2/3XXX - Elective (Graduate Level)
- XX 2/3XXX Elective (Graduate Level)

Note:

Up to 6 credit hours may be elected in approved graduate course offerings outside the department. Students who wish to enter this program should first apply for admission to graduate study in chemical engineering. Once admitted, students can then request admission to the Professional Engineering Program.

Chemical Engineering (Research-Oriented Program), MSCHe

Requirements

The candidate for the Master of Science degree must demonstrate proficiency in basic chemical engineering subjects by successfully taking the following required 3-credit courses:

- CHE 2101 - FUNDAMENTALS OF THERMODYNAMICS
- CHE 2201 - FUNDAMNTL OF REACTN PROCESSES
- CHE 2301 - FUNDAMNTL TRANSPORT PROCES 1
In addition to these 15 credits, the student must satisfactorily complete the following courses:

- At least 9 additional credits of graduate-level course work, at least 3 of which must be in chemical engineering. Approved courses can be taken outside the department.
- Six credits of thesis must also be taken.
- Three credits for Research Methodology (see below).

A full-time student will normally take 33 credits.

Full-time students are required to register each term for Research Methodology, a 1-credit course. In Research Methodology, a letter grade will be given each term based upon the student's research performance. Full-time students are also required to attend the graduate seminar during the fall and spring terms. It should be emphasized that the preceding course requirements are minimum requirements, and additional work may be necessary for an individual student, especially if the student's undergraduate degree is not in chemical engineering.

A student who does not maintain a B (3.00 GPA) average in all MS-level courses or obtain a B or better in the five required courses is put on academic probation. The graduate faculty of the Department of Chemical and Petroleum Engineering will review all cases of probation each term and determine whether the student will be permitted to continue to pursue graduate study. Should a student receive a B- grade or lower in a required MS course, the student will be required to repeat that course and receive a B grade or better before being permitted to graduate.

A student with full-time status should discuss possible thesis topics with at least three members of the departmental faculty and then submit a written request to the faculty for assignment of a thesis advisor. After the faculty assigns an advisor, the student can begin the thesis. The MS thesis oral examination is given at the completion of the thesis. All full-time master's students must participate in teaching a course during one term as a master's student.

Students wishing to continue into the PhD program after the MS degree should take the oral qualifying examination during the summer of their first year. Failure to do so will forfeit one of two opportunities to pass this examination.

**Petroleum Engineering, MSPE**

The candidate for the degree of non-thesis Master of Science in Petroleum Engineering must demonstrate proficiency in petroleum engineering by passing the following:

**Mandatory Courses:**

- PETE 2160 - PETROLEUM RESERVOIR ENGRNRG
- PETE 2201 - RECOVRY OF OIL BY WATRFLOODING
- PETE 2204 - ENHANCED OIL RECOVERY PROCES
- PETE 2205 - PETROLEUM PRODUCTION ENGRNRG
- PETE 2207 - PET AND NATURAL GAS PROCESSING
- PETE 2208 - PET DRILNG & WELL CMPLTN DSGN
- CHE 2410 - MATHMTCL METHD IN CHMCL ENGR 1
- One Geology or Civil Engineering course from the accepted electives list - 3 Credits

**Note:**

In addition to these 24 credits, the student must satisfactorily complete two other courses from the accepted electives list in order to fulfill the 30 credits required for the MS degree.

**Accepted Electives:**
• GEOL 1100 Structural Geology - 4 Credits
• GEOL 1410 Exploration Geophysics - 3 Credits
• ME 2055 - COMPUTR ANAL TRANSPRT PHENOMNA
• ME 2060 - NUMERICAL METHODS
• CEE 2405 - GROUNDWATER HYDROLOGY
• CEE 2801 - ADVANCED SOIL MECHANICS
• CEE 2717 - CMPNTS, PROPRTS & DSGN OF PCC
• CEE 2800 - ENGINEERING GEOLOGY
• ENGR 2633 - MINERALS INDUSTRY RISK MGMNT

Note:

No single course (e.g. Geol 1100) can be used to satisfy both a core requirement and elective requirement.

Students without a BS degree in engineering must take, in addition, either the online "bridging course" offered in Jan (1st class) and May (2nd class) by Michigan State University (See http://www.egr.msu.edu/ for details about the bridging courses CHE 804 and 805) or CHE 0100 (sophomore-level) "Foundations of Chemical Engineering" class offered during the Fall term. Neither of these classes can serve as an elective nor core course substitute in the MS in Petroleum Engineering required classes.

Doctoral

Chemical Engineering, PhD

The following special regulations pertain to the Department of Chemical and Petroleum Engineering. For additional requirements, review the school-wide information in the Doctor of Philosophy Programs section as well as the Regulations Pertaining to Doctoral Degrees.

Entry to the PhD Program

In order to enter the PhD program, a student must have completed an MS degree and passed the PhD oral qualifying preliminary examination. Especially well-prepared students may petition the department faculty, in writing, for permission to obtain the PhD degree directly without obtaining an MS degree. This eliminates the required completion of the MS thesis. All MS-level course work is still required.

During the summer of the first year as a graduate student in the department, the student wishing to continue into the PhD program must take the oral preliminary examination. Failure to take this examination at this time will forfeit one of two opportunities to pass this examination. The structure and content of the PhD oral qualifying examination is subject to change in order to meet the requirements of the faculty and PhD program.

PhD Course Requirements

A student's course series will be designed by the student and his thesis advisor, approved by the PhD committee, and signed off by the graduate coordinator. This sequence should include courses in the student's research area as well as courses not related to his research area. Forty-two credits beyond the MS degree are required and must include the following courses:

• XX 2/3XXX Electives (Science, Math, or Engineering) 12 credits
• CHE 2982 - ISSUES IN RESEARCH & TEACHING (if not taken at MS level)
• CHE 3990 - ADVANCED GRADUATE PROJECTS (minimum)
• CHE 3999 - PH.D. DISSERTATION (taken after PhD proposal defense), 12 credits (minimum)

Additional course requirements may include the following, if the student has not previously completed courses in these areas at the master's level:
CHE 2101 - FUNDAMENTALS OF THERMODYNAMICS
CHE 2201 - FUNDAMNTL OF REACTN PROCESSES
CHE 2301 - FUNDAMNTL TRANSPORT PROCES 1
CHE 2410 - MATHMTCL METHD IN CHMCL ENGR 1

Note:

Students must also register for one credit in PhD research methodology each term. A minimum of 72 graduate credit hours, including MS courses and thesis credits, are required. All full-time students must fulfill a two-term teaching requirement during their course of study and attend the departmental graduate seminar series during the fall and spring terms.

Dissertation Requirement

A dissertation topic should be selected after passing the PhD oral qualifying examination. This is done by submitting a formal request in writing to the departmental graduate faculty for appointment of a faculty advisor (or advisors). Preliminary work can be done on the dissertation by registering for CHE 3990. After being admitted to PhD candidacy, the student should concentrate on the dissertation, registering for CHE 3999. Eighteen credits of these two courses are required with at least 12 of these 18 being in CHE 3999. Most students complete more than 18 credits of these courses.

PhD Comprehensive Examination and Proposal Conference

This is an oral examination covering chemical engineering at the PhD level and is based upon a written dissertation proposal. If this examination is passed, a doctoral committee will be officially appointed. This exam should be taken at least 18 months before completion of the dissertation and preferably within the first year beyond the MS.

PhD Final Oral Examination

A final review (defense) of the thesis must be conducted by the dissertation committee in order to determine the acceptability of the dissertation.

Off-Campus Research

Occasionally, a research program can be conducted at a government or industrial site. In those situations the student should submit a proposal for such research to the graduate coordinator for approval by the faculty. The faculty advisor must be actively involved in the research.

Joint Degree

Chemical and Petroleum Engineering Dual Degree, MS

Requirements

A program of study is available in which a student may pursue a dual degree between chemical engineering and petroleum engineering. In general, 42 credits are required, including the fundamental courses in the two areas. Both thesis and non-thesis options are possible. The required chemical engineering courses are:

- CHE 2101 - FUNDAMENTALS OF THERMODYNAMICS
- CHE 2201 - FUNDAMNTL OF REACTN PROCESSES
- CHE 2301 - FUNDAMNTL TRANSPORT PROCES 1
- CHE 2410 - MATHMTCL METHD IN CHMCL ENGR 1
and the required petroleum engineering courses are:

- PETE 2201 - RECOVRY OF OIL BY WATRFLOODING
- PETE 2204 - ENHANCED OIL RECOVERY PROCES
- PETE 2205 - PETROLEUM PRODUCTION ENGNRNG
- PETE 2207 - PET AND NATURAL GAS PROCESSING
- PETE 2208 - PET DRILNG & WELL CMPLTN DSGN
- GEOL 1413
- one course from GEOL or CEE, as specified above in the Master of Science in Petroleum Engineering

Note:

The remaining 9 credits may be taken from graduate offerings in engineering or geology (see the accepted electives list for recommended courses). All other departmental regulations listed previously apply to the Master of Science dual-degree program.

Department of Civil and Environmental Engineering

Graduate Degree Programs

http://www.engineering.pitt.edu/Civil/Graduate/Default/

The Department of Civil and Environmental Engineering offers graduate study and research leading to the Master of Science in Civil Engineering and Doctor of Philosophy degrees. Also offered is a joint degree program resulting in a second Master of Science degree in mathematics, and a joint degree program with the Katz Graduate School of Business resulting in a MBA degree. The MS in Civil Engineering and the PhD in engineering may be pursued in one of the following four areas:

The Master of Science degree in Civil and Environmental Engineering is primarily designed for students with an undergraduate degree in engineering, although students with other backgrounds can be accommodated with specially designed programs. An MS degree can be pursued by either a full-time or part-time student in one of the following areas:

- Construction Management and Green Construction
- Environmental Engineering
- Geotechnical and Pavement Engineering
- Structural Engineering and Mechanics
- Sustainability and Green Design
- Transportation Engineering
- Water Resources Engineering
- Mining Certificate
The areas of study for the Ph.D. in Civil Engineering in the Department of Civil and Environmental Engineering within the Swanson School of Engineering are divided into two integrated research areas and sub-component specialty areas as follows:

- **Sustainability and the Environmental (SEE):**
  - Environmental Engineering;
  - Sustainability and Green Design; and
  - Water Resources Engineering

- **Advanced Infrastructure Systems (AIS).**
  - Geotechnical and Pavements;
  - Structural Engineering and Mechanics; and
  - Transportation Engineering.

**Master's**

**Civil and Environmental Engineering - Construction Management and Green Construction Area, MSCE**

Requirements for Master of Science in Civil Engineering

http://www.engineering.pitt.edu/Departments/Civil-Environmental/_Content/Graduate/Civil-Graduate-Programs/

The general requirements for the two options for the Master of Science in Civil Engineering degree (thesis and professional) are detailed below:

**Thesis Option:** 24 course credits (eight courses) minimum and thesis (6 credits), with comprehensive and final examinations

**Professional Option:** 30 course credits (10 courses) minimum

Students supported as graduate research assistants and all students intending to continue for a PhD degree are required to pursue the thesis option. The professional option is not available to students supported as graduate research or teaching assistants.

**MS Final Examination**

Students pursuing the thesis and project MS options must take and pass both a comprehensive examination and a final oral examination.

**Comprehensive Examination**

This examination is given to all students during the last term of the program. It may be either an oral examination or, at the recommendation of the area faculty, a written examination. It is administered by an MS committee made up of the faculty advisor (as chair), plus a minimum of two other faculty members from fields related to the student's interest. If the result of the examination is unsatisfactory, subsequent action is at the discretion of the MS committee.

**Final Oral Examination**

The purpose of this examination is to evaluate the student's MS thesis or project and/or related course work. The examination is administered by the MS committee, chaired by the student's major advisor.

**Civil and Environmental Engineering - Environmental Engineering Area, MSCE**
Requirements for Master of Science in Civil Engineering

Doctoral

Civil and Environmental Engineering - Advanced Infrastructure Systems - Geotechnical and Pavements Specialty, PhD

Requirements for Doctor of Philosophy Degree

http://www.engineering.pitt.edu/Departments/Civil-Environmental/_Content/Graduate/Civil-Graduate-Programs/

Students pursuing the PhD must complete a minimum of 72 credits, including the following:

- 24 course credits (8 courses) in major area
- 15 additional course or special investigation credits in major area
- Nine course credits (three courses) in minor area
- 18 credits of dissertation research

The total number of credits above these minimum requirements will depend on the student's background, academic achievement, and dissertation topic. This decision will be made in consultation with the major advisor.
Plan of Study

The PhD Plan of Study is prepared by the student with the aid of the student's faculty advisor during the student's first two terms of graduate study. It should be approved and signed by the faculty advisor, all other faculty members in the program area, the graduate coordinator, and the department chair. Copies should be made available to the student, the faculty advisor, and the academic coordinator. Any change in the Plan of Study must be approved by the faculty advisor and the academic coordinator, and should likewise be recorded.

PhD Examination Structure

All PhD candidates must pass the preliminary, comprehensive, and final oral examinations:

Preliminary Examination

The purpose of this examination is to determine the student's potential to complete the PhD program. It is organized by the advisor and faculty from the student's program area, before or sometime during the first two terms of the program.

Comprehensive Examination

All PhD students must take this examination toward the end of their course work. The examination will be administered by the comprehensive examination committee, and will cover the student's major and minor areas. It is designed to evaluate the student's mastery of the course material needed for independent research. The examination consists of two parts: a written examination lasting several days, and an oral examination of approximately three hours' duration. Portions of the written examination may be waived by the committee. The committee will consist of at least four faculty members as follows: the major advisor as chairman, one full-time faculty member from the student's program area, one additional faculty member from the department, and one member from outside the department representing the non-civil engineering minor area.

Final Oral Examination

This is an oral defense of the student's PhD dissertation. The examination will be administered by the doctoral committee. The doctoral committee will consist of the major advisor as chair, at least two faculty members from the student's program area within the Department of Civil and Environmental Engineering (if available), and at least one faculty member from outside the Department of Civil and Environmental Engineering.

Civil and Environmental Engineering - Advanced Infrastructure Systems - Structural Engineering and Mechanics Specialty, PhD

Requirements for Doctor of Philosophy Degree

http://www.engineering.pitt.edu/Departments/Civil-Environmental/_Content/Graduate/Civil-Graduate-Programs/

Students pursuing the PhD must complete a minimum of 72 credits, including the following:

- 24 course credits (8 courses) in major area
- 15 additional course or special investigation credits in major area
- Nine course credits (three courses) in minor area
- 18 credits of dissertation research

The total number of credits above these minimum requirements will depend on the student's background, academic achievement, and dissertation topic. This decision will be made in consultation with the major advisor.
Plan of Study

The PhD Plan of Study is prepared by the student with the aid of the student's faculty advisor during the student's first two terms of graduate study. It should be approved and signed by the faculty advisor, all other faculty members in the program area, the graduate coordinator, and the department chair. Copies should be made available to the student, the faculty advisor, and the academic coordinator. Any change in the Plan of Study must be approved by the faculty advisor and the academic coordinator, and should likewise be recorded.

PhD Examination Structure

All PhD candidates must pass the preliminary, comprehensive, and final oral examinations:

Preliminary Examination

The purpose of this examination is to determine the student's potential to complete the PhD program. It is organized by the advisor and faculty from the student's program area, before or sometime during the first two terms of the program.

Comprehensive Examination

All PhD students must take this examination toward the end of their course work. The examination will be administered by the comprehensive examination committee, and will cover the student's major and minor areas. It is designed to evaluate the student's mastery of the course material needed for independent research. The examination consists of two parts: a written examination lasting several days, and an oral examination of approximately three hours' duration. Portions of the written examination may be waived by the committee. The committee will consist of at least four faculty members as follows: the major advisor as chairman, one full-time faculty member from the student's program area, one additional faculty member from the department, and one member from outside the department representing the non-civil engineering minor area.

Final Oral Examination

This is an oral defense of the student's PhD dissertation. The examination will be administered by the doctoral committee. The doctoral committee will consist of the major advisor as chair, at least two faculty members from the student's program area within the Department of Civil and Environmental Engineering (if available), and at least one faculty member from outside the Department of Civil and Environmental Engineering.

Civil and Environmental Engineering - Advanced Infrastructure Systems - Transportation Engineering Specialty, PhD

Requirements for Doctor of Philosophy Degree

http://www.engineering.pitt.edu/Departments/Civil-Environmental/_Content/Graduate/Civil-Graduate-Programs/

Students pursuing the PhD must complete a minimum of 72 credits, including the following:

- 24 course credits (8 courses) in major area
- 15 additional course or special investigation credits in major area
- Nine course credits (three courses) in minor area
- 18 credits of dissertation research

The total number of credits above these minimum requirements will depend on the student's background, academic achievement, and dissertation topic. This decision will be made in consultation with the major advisor.

Certificate

Civil and Environmental Engineering - Mining Engineering Certificate

All graduate and post-baccalaureate certificate students are required to complete five courses from a list of designated courses and must achieve an overall QPA of 2.5 or better to receive a Mining Engineering Certificate. Most of the courses will be offered via both classroom and web-based deliveries.

Joint Degree

Civil Engineering/Mathematics, MSCE/MS

A student is able to earn the Master of Science Civil Engineering degree and the Master of Science degree in mathematics at the same time. In general, 42 credits are required, and students must complete the fundamental courses in both areas.
Department of Electrical and Computer Engineering

Contact Information

Interim Department Chair: Mahmoud El Nokali
Main Office: 1238 Benedum Hall
412-624-8002
Fax: 412-624-8003
E-mail: ecemain@pitt.edu
http://www.engineering.pitt.edu/ECE/

Additional information concerning the Electrical Engineering graduate program may be obtained from Sandy Weisberg, Electrical Engineering Program Administrator while information concerning the Computer Engineering graduate program may be obtained from Dre’ Aliquo-Varela, Computer Engineering Graduate Program Administrator. Both Ms. Weisberg and Ms. Aliquo-Varela are located at 1238 Benedum Hall, 3700 O'Hara Street, Pittsburgh, PA 15261. Alternately, you may contact them via phone at 412-642-8001, fax at 412-624-8003, or email ecemain@pitt.edu.

Graduate Degree Programs

The Department of Electrical and Computer Engineering offers a program of graduate study and research for master's and doctoral degree students whose career choice is oriented toward basic or applied research in industry, government, or academic institutions. Degrees awarded are the Master of Science in Electrical Engineering, the Master of Science in Computer Engineering, the Doctor of Philosophy in Electrical Engineering, and the Doctor of Philosophy in Computer Engineering. The MSCE and PhD in Computer Engineering are jointly offered with the Department of Computer Science. Course work and faculty/student research in the graduate Electrical Engineering program are concentrated in the following four areas:

Computer Engineering
Optical and Electronic Devices
Electric Power Engineering
Signal Processing and Systems

and include research in computer architecture, computer-aided design (CAD), very-large-scale integrated (VLSI) design, optical interfacing, embedded systems, parallel processing architectures, networking, photonic and electronic devices, micro/nanorobotics and systems, fiber optics, ultrafast laser processing, nanowires and nanoparticles, semiconductor device modeling and characterization, power electronics, pattern recognition, biomedical image processing, speech processing, statistical signal processing, wavelets, intelligent and neutral control, human-centered control, networked control, radio-frequency identification (RFID) and tags, electric power systems analysis, simulation and modeling: transmission, distribution systems and technologies, real-time control of power systems, and renewable energy interconnections, and smart grid.

Graduate Admissions

http://www.engineering.pitt.edu/Departments/Electrical-Computer/_Content/Graduate/Electrical-and-Computer-Engineering-Graduate-Admissions/

Applicants for admission must submit transcripts of all college-level work, two letters of recommendation, and scores on the verbal, quantitative, and writing assessment-analytical sections of the Graduate Record Examination. International applicants whose first language is not English are required to submit the TOEFL administered by the Educational Testing Service with a minimum score of 80 (internet-based test). For awards consideration, applications must be completed by February 1.

Financial Aid
The Department of Electrical and Computer Engineering offers graduate students support in a variety of ways. Many full-time students are supported by graduate research assistantships or teaching assistantships. There are also several fellowships available for highly qualified graduate students.

**Graduate Regulations**

In addition to the general regulations of the Swanson School of Engineering, the electrical and computer engineering department has the following requirements:

**Master's**

**Computer Engineering, MSCOE**

http://www.engineering.pitt.edu/ComputerEngineering/GraduateProgram/

The Computer Engineering Program graduate degrees are offered jointly with the Department of Computer Science. Students in the program come from both departments. For more information on the program see http://engineering.pitt.edu/ComputerEngineering/GraduateProgram/.

It is not the intention that students will be admitted to the program as terminal MS students. Instead, this degree is designed as a "milepost" in the program of study for a student pursuing a PhD.

This degree requires at least 30 credits, and includes eight courses or project courses, and six thesis credits. These fall into the following categories:

**Requirements**

Four core courses required (12 credits minimum)-Each student must complete at least one course chosen from each of the following three areas, and one additional course from any one of these areas.

**Computer Architecture**

- CS 2410 - COMPUTER ARCHITECTURE
- ECE 2162 - COMPUTER ARCHITECTURE 1

**Software Systems**

- CS 2210 - COMPILER DESIGN
- CS 2510 - COMPUTER OPERATING SYSTEMS
- CS 2310 - SOFTWARE ENGINEERING

**Hardware Systems**

- ECE 2160 - EMBEDDED COMPUTER SYS DESIGN
- ECE 2192 - INTRODUCTION TO VLSI DESIGN
- ECE 2120 - HARDWARE DESIGN METHOGLIES 1

**Additional Requirements**

Four courses (12 credits minimum) must be chosen from the list of CoE graduate courses, or from pre-approved CS or ECE courses. One of these four courses may also be a research project course (2998).
Master's Thesis (6 credits): Each student must write and defend a master's thesis. The thesis should be an in-depth investigation of a research topic in computer engineering. This requirement also includes the submission of a paper to a refereed conference or journal.

Electrical & Computer Engineering, MS

Electrical and Computer Engineering - Professional Track - Computer Engineering Concentration, MSEE

Degree Requirements

http://www.engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

The Master of Science degree has both research and professional tracks. The research track provides the student the opportunity to work on a thesis (applied or basic in nature) under the close supervision of a faculty advisor. The minimum requirements for the research track are 24 credits of graduate course work and preparation and defense of a thesis (6 credits) on a topic in the student's primary area of interest. For the professional option, the minimum requirement is 30 credits of graduate course work.

Course selection for either the research or the professional tracks is developed by the student in consultation with the student's advisor and following guidelines set by the department. The course plan may include courses in and outside of the Department of Electrical and Computer Engineering. A list of courses is available to MS students and can be found at http://engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

Electrical and Computer Engineering - Professional Track - Electric Power Systems/Signal Processing and Systems Concentration, MSEE

Degree Requirements

http://www.engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

The Master of Science degree has both research and professional tracks. The research track provides the student the opportunity to work on a thesis (applied or basic in nature) under the close supervision of a faculty advisor. The minimum requirements for the research track are 24 credits of graduate course work and preparation and defense of a thesis (6 credits) on a topic in the student's primary area of interest. For the professional option, the minimum requirement is 30 credits of graduate course work.

Course selection for either the research or the professional tracks is developed by the student in consultation with the student's advisor and following guidelines set by the department. The course plan may include courses in and outside of the Department of Electrical and Computer Engineering. A list of courses is available to MS students and can be found at http://engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

Electrical and Computer Engineering - Professional Track - Optical and Electronic Devices Concentration, MSEE

Degree Requirements

http://www.engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

The Master of Science degree has both research and professional tracks. The course plan may include courses in and outside of the Department of Electrical and Computer Engineering. A list of courses is available to MS students and can be found at http://engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

Doctoral

Computer Engineering, PhD

Requirements

http://www.engineering.pitt.edu/ECE/Graduate/PhD/Curriculum/

The PhD degree in computer engineering requires at least 72 credits. These credits must include the following categories:

Four core courses required (12 credits minimum). Each student must complete at least one course chosen from each of the following three areas, and one additional course from any one of these areas.
Computer Architecture

- CS 2410 - COMPUTER ARCHITECTURE or
- EE 2410 - Computer Architecture
- EE 2162 - Computer Architecture

Software Systems

- CS 2210 - COMPILER DESIGN or
- EE 2210 - Compiler Design
- CS 2510 - COMPUTER OPERATING SYSTEMS or
- EE 2510 - Computer Operating Systems
- CS 2310 - SOFTWARE ENGINEERING or
- EE 2310 - Software Engineering
- EE 2186 - Software Engineering

Hardware Systems

- EE 2160 - Embedded Systems
- EE 2192 - Introduction to VLSI Design
- EE 2120 - Hardware Design Methodologies

Additional Requirements

Nine courses (27 credits minimum) must be chosen from the list of CoE graduate courses, or from pre-approved CS or EE courses not cross-listed as CoE courses.

1. Seven courses (21 credits minimum) are elective and may be CS, EE, or CoE courses, courses from other disciplines, or research project courses (2998).
2. The specific program of study should be approved in advance by the Student's Research Committee (described below).
3. Dissertation (12-18 credits)

Examinations: Each student must pass the following examinations:

Preliminary Examination

This is an oral examination conducted by the Student's Research Committee. The Master of Science Thesis Oral Examination will satisfy the Preliminary Examination requirements.

Comprehensive Examination

To complete the comprehensive examination, a student must satisfy both the following requirements not later than two years after entering the program:
Complete a total of five courses with a grade of A- or better. These courses must be taken from either the Core Requirements listed above or the CoE Elective categories and
- Complete the four courses that satisfy the Core Requirements category above with a grade of B or better.
The particular mix of five courses in part 1 can be any combination of core or elective courses. However, any core course requirement that is not included in the five must be completed with a B or better in order to satisfy part 2.

Dissertation Proposal

Within five years, students must present their plan for dissertation research to be approved by the Student's Research Committee. This is after the student has completed all other PhD requirements.

Dissertation Defense

Student must orally defend their dissertation research to be approved by the Student's Research Committee, the time between the dissertation proposal and the defense has to be at least eight months.

Composition and Role of the Student's Research Committee

The Student's Research Committee will consist of a primary advisor and at least three graduate faculty members from the Computer Engineering Graduate Faculty.

The Student's Research Committee has two responsibilities: the approval of the program of study and the oversight of the dissertation research. At least one member of the committee must be from a department other than the advisor or co-advisors if the co-advisors are from the same department. One additional member must be a member of the graduate faculty who is not a member of the CoE Graduate Faculty.

Electrical & Computer Engineering, PhD

Electrical Engineering, PhD

http://www.engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

A student showing unusual proficiency in graduate course work and independent research will be recommended for doctoral study. The objective of the PhD program in electrical engineering is to attain a high degree of competence in one major field, as well as some understanding of a minor or cognate field. A minimum of 72 credits beyond the BS degree is required, including 18 credits of dissertation work. In addition to the general regulations, the department has specific requirements as described below:

PhD Preliminary Evaluation

This is an oral and written presentation on a subject mutually agreed upon by the student and the advisor in the field of the student's interest. The examination is to demonstrate the student's initiative and ability to do independent work.

Program Conference

During the first year of registration in the PhD program, the student must meet with a faculty committee and present a program of study for its approval. The committee consists of the student's faculty advisor, who chairs the committee, and two other faculty members from the department.
PhD Comprehensive Examination

To complete the Comprehensive PhD exam, a student must obtain a minimum GPA of 3.3 in the four courses assigned by the PhD program conference committee no later than the first two years of enrollment in the PhD program. If the student fails to achieve this requirement, he/she must pass an oral exam that takes place at the same time as the PhD Proposal exam and answer general questions related to his/her research area. If he/she fails this oral exam, the student may take it once more three months later.

PhD Proposal Examination

In this examination, the student presents and defends a proposal for dissertation work to a doctoral committee consisting of at least five members, four of whom must be graduate faculty, with one from outside the Electrical and Computer Engineering Department.

PhD Final Oral Examination

In this examination, administered by the doctoral committee, the student defends the validity of the dissertation and the contributions that are made in the work. Results from the dissertation must be submitted to a refereed journal for publication.

Certificate

Electric Power Engineering Certificate

- Via Synchronous, Interactive, Distance-Enabled Delivery

The University of Pittsburgh Swanson School of Engineering has established an Electric Power Engineering Post-Baccalaureate/Graduate Certificate Program that rises to the challenge of meeting the nation's critical development needs for electrical energy professionals. This is the only distance enabled program in electric power engineering that allows students to attend classroom lectures in real time, and also allows synchronous participation remotely via the Internet.

The program is deeply rooted in core electric power engineering principles and focuses on the expansion and enhanced reliability of electric power grid infrastructure through application of power electronics and advanced control technologies, as well as renewable energy integration and smart grids. Program content - combined with innovative distance-enabled delivery and collaborative program components - makes this program an attractive and unique choice in graduate engineering, particularly for individuals in industry/business. For additional information and to apply: www.engineering.pitt.edu/powercertificate

http://www.engineering.pitt.edu/App_shared/GainfulEmployCert/electric/Gainful_Employment_Disclosure.html

Certificate Curriculum

Credit-hours required: 15

Students may select any five of the following courses:

- ECE 2774 - POWER SYSTEMS ANALYSIS 2 *
- ECE 2777 - POWER SYSTEMS TRANSIENTS 1 *
- ECE 2250 - POWER ELECTRONICS *
- ECE 2646 - LINEAR SYSTEM THEORY
- ECE 2795 - SPECIAL TOPICS POWER Renewable & Alternative Energy Systems
- ECE 2795 - SPECIAL TOPICS POWER Smart Grid Technologies and Applications
- ECE 2795 - SPECIAL TOPICS POWER Advanced Power Electronics: FACTS & HVDC Technologies
Note:

*prerequisite required

Additional Information

Admission Requirements

- BS in electrical engineering from an ABET-accredited university program (no industry experience required) OR
- BS in any engineering field, PLUS a minimum of three years of power industry experience
- Completed application via Apply Yourself, Pitt's online application portal
- At least two references preferred
- No GRE required
- Applications and references will be reviewed by the program director prior to admission

Joint Degree

Electrical & Computer Engineering, MBA/MSE

Electrical Engineering/Business Administration, MSEE/MBA

The program consists of 64.5 credits for full-time students or 69 credits for part-time students and leads to a Master of Business Administration (MBA) and a Master of Science in Electrical Engineering (MSEE). The joint full-time program requires students to take 39 credits minimum of business and 25.5 credits minimum in electrical and computer engineering. The full-time option can be completed in two academic years whereas the part-time option may require a period of four to five years. The program is only for those students seeking a professional MS Engineering degree. Detailed information may be located at http://www.engineering.pitt.edu/ECE/Graduate/Electrical/Programs/

Additional information concerning the department's graduate program may be obtained from the graduate secretary at the above address, or e-mail gradie@pitt.edu.

Graduate Degree Programs

The Department of Industrial Engineering's graduate programs prepare engineers to assume leadership positions in industry, government, and service organizations. With the Master of Science in Industrial Engineering, the department provides several choices of specialization areas, including:

- Operations Research
- Product Development and Manufacturing Systems
- Engineering Management and Assessment

In addition, the department also offers a dual degree (MSIE/MBA) program in cooperation with the Joseph M. Katz Graduate School of Business, and several options with the Master's program including (1) a Graduate Certificate in Safety Engineering, (2) Lean Six Sigma Certification, (3) a Graduate Certificate in Healthcare Systems Engineering in cooperation with the Graduate School of Public Health, and (4) a Graduate Certificate in Nuclear Engineering in cooperation with the Department of Mechanical Engineering and Materials Science.

The Doctor of Philosophy degree is the department's flagship graduate program. Currently, the primary areas of research include all aspects of operations research, manufacturing science and nontraditional manufacturing, and supply chains. Doctoral graduates are qualified for academic research careers as well as technical leadership positions in industry.

Admissions
Applicants must possess an undergraduate or graduate degree from an ABET-accredited program in any engineering discipline, or a degree in a complementary technical discipline, such as mathematics, physics, or computer science. The department also requires undergraduate knowledge of probability and statistics, calculus, linear algebra, and proficiency in computer programming.

Applicants for admission must submit the application form and fee, transcripts of all college-level work, three letters of recommendation, and a statement of career goals/objectives. International applicants, and all applicants to the PhD program must also submit scores on the verbal, quantitative, and writing assessment-analytical sections of the Graduate Record Examination (GRE). Applicants to the part-time master's program are generally not required to take the GRE. International applicants whose first language is not English must take the TOEFL administered by the Educational Testing Service with a minimum score of 550 (paper-based test)/213 (computer-based test) and 80 internet-based test). It is desirable for PhD applicants to have an interview with a faculty member, although this is not a requirement for admission.

Domestic applicants are considered on a rolling basis, while deadlines for international applicants are as follows: fall term - March 1 and spring term - July 1. International applicants are not accepted for enrollment beginning in a summer term.

Applications may also be completed online by going to http://www.engineering.pitt.edu/Departments/Industrial/Admissions/

Financial Assistance

It is the department's policy to provide graduate teaching or research assistantships to as many PhD students as possible. However, these awards are limited in number and highly competitive, and are awarded on the basis of merit and departmental research/teaching requirements. Financial support comes from the department, not individual faculty, and is generally restricted only to students interested in pursuing a doctoral degree. All decisions on assistantships are made centrally by the departmental graduate committee. Barring unforeseen circumstances, students who are awarded financial support will have their financial support continued as long as they maintain their level of academic excellence and make satisfactory progress toward their degree objectives. For full consideration, students must apply early for financial support and in no case later than January 31 for the fall term and August 31 for the spring term.

Master's

Industrial Engineering - Engineering Management and Assessment, MSIE

Requirements for the MSIE Degree

The Master of Science in Industrial Engineering program is very flexible and requires 30 to 31 credits of graduate study. It may be obtained with or without a thesis option. With either option, the student is required to take three core courses (IE 2001, IE 2005, and IE 2006) that count for 9 credits, and at least two courses from the elective core (IE 2003, IE 2004, IE 2007, IE 2100) that count for an additional 6 credits. In addition, students who do not have an undergraduate degree in Industrial Engineering are required to take IE 2000 (1 credit).

- With the non-thesis option, the remaining 15 credits may be freely chosen from the elective core or other departmental graduate courses based on the student's individual interests and the approval of his or her academic advisor. With the permission of the advisor, the student may also take up to 6 of the 15 credits from other relevant graduate offerings outside the department.
- With the thesis option, 9 of the 15 remaining credits may be freely chosen from the elective core or other departmental graduate offerings. In addition, the student must complete a 6 to 8-credit thesis. With this option, out-of-department electives are generally not permitted. In both cases, students who have already taken one or more of the core courses as undergraduates or as part of another graduate program are encouraged to skip such courses and substitute them with more advanced course work in the same area.

Normally the program can be completed in three terms of full-time study or two to three years of part-time study. Many graduate courses are offered in the evening for the convenience of working professionals. Courses are also offered over the summer term. Information regarding the MS program can be obtained by going to: http://www.engineering.pitt.edu/industrial/graduate/

Industrial Engineering - Operations Research, MSIE
Requirements for the MSIE Degree

The Master of Science in Industrial Engineering program is very flexible and requires 30 to 31 credits of graduate study. It may be obtained with or without a thesis option. With either option, the student is required to take three core courses (IE 2001, IE 2005, and IE 2006) that count for 9 credits, and at least two courses from the elective core (IE 2003, IE 2004, IE 2007, IE 2100) that count for an additional 6 credits. In addition, students who do not have an undergraduate degree in Industrial Engineering are required to take IE 2000 (1 credit).

- With the non-thesis option, the remaining 15 credits may be freely chosen from the elective core or other departmental graduate courses based on the student's individual interests and the approval of his or her academic advisor. With the permission of the advisor, the student may also take up to 6 of the 15 credits from other relevant graduate offerings outside the department.
- With the thesis option, 9 of the 15 remaining credits may be freely chosen from the elective core or other departmental graduate offerings. In addition, the student must complete a 6 to 8-credit thesis. With this option, out-of-department electives are generally not permitted.

In both cases, students who have already taken one or more of the core courses as undergraduates or as part of another graduate program are encouraged to skip such courses and substitute them with more advanced course work in the same area.

Normally the program can be completed in three terms of full-time study or two to three years of part-time study. Many graduate courses are offered in the evening for the convenience of working professionals. Courses are also offered over the summer term. Industrial Engineering, MSIE

Doctoral

Industrial Engineering, PhD

This is the department's flagship graduate program and prepares the student for the rigorous demands of a career in research and development, or academia. It requires a strong background in mathematics, probability theory, optimization techniques and manufacturing systems. The PhD student is expected to be a full-time student. Although it is possible to seek candidacy as a part-time student, the PhD candidate must spend at least one
academic year on campus full time. The graduate faculty typically works closely with individual doctoral students to create a flexible program tailored to individual needs.

**Entrance to the PhD Program:** To be admitted to the doctoral program, students must pass the PhD qualifying examination. The student must seek faculty approval to take this examination, which is typically given once a year in late April or early May and encompasses (1) Operations Research, (2) Probability, (3) Statistics & Data Analysis, and (4) Manufacturing Systems & Basic Industrial Engineering, and (5) either Stochastic Processes or Micro & Nano Manufacturing. A cumulative grade point average of 3.30 or better in graduate course work is required in order to be able to take the exam. The examination allows the department to assess the student's academic preparation and creative ability to conduct doctoral-level research. Students are expected to take the examination in April/May of the calendar year following the one in which they entered the graduate program, although it is acceptable to take the examination earlier.

**Doctoral Course and Dissertation Credit Requirements:** In addition to the basic core courses, doctoral students take additional courses that may be required in preparation for the PhD degree and the student's dissertation topic. These courses are selected in conjunction with a program approved by the student's advisor. According to University regulations, the PhD requires at least 72 credits beyond the bachelor's degree or 42 credits beyond the master's degree, including 18 credits for dissertation research. Currently, course credits typically include the following:

- IE 2000 (for students with non-IE undergraduate degree): 1 credit
- Other required courses (IE 2100, 2084, 2088): 9 credits
- Additional course work (at least 6 credits of which must come from offerings outside the Department of Industrial Engineering): 20-24 credits
- Dissertation research (IE 3997/IE 3999): at least 18 credits

**Additional Doctoral Requirements:** All full-time students must enroll in and attend IE 3095 (Graduate Seminar) each term they are in residence; the credits for these do not count toward the 72-credit requirement.

The comprehensive examination is taken by students after completing the course work in their concentration. The PhD comprehensive exam has a three-fold purpose: (1) to test the student's proficiency (knowledge and skills) in his or her major area of interest; (2) to identify deficiencies in the student's background and suggest remedial work; and (3) to test the student's ability to prepare an acceptable dissertation in the his or her area of concentration.

All doctoral students are expected to pursue research by working with individual faculty in areas that can lead to a potential doctoral dissertation. A PhD candidate must demonstrate the ability to conduct research of an original nature by completing a dissertation and preparing a paper of publishable quality. The dissertation topic is selected by the student in some theoretical or methodological area of interest in consultation with a faculty advisor. A faculty committee must approve the dissertation proposal before the student embarks on dissertation research. Information regarding the PhD program can be obtained by going to http://www.engineering.pitt.edu/Departments/Industrial/_Content/Graduate/Doctoral-Program/

**Certificate**

**Engineering and Technology Management Certificate**

A certificate in Engineering and Technology Management is also available. A total of 15 credits are required to complete this certificate.

**Health Care Systems Engineering Certificate**

The certificate in Health Care Systems Engineering is intended for individuals pursuing careers in health systems management and process engineering. Primarily designed for Master's degree students in the Department of Health Policy & Management and the Department of Industrial Engineering, this program will provide a rigorous and multi-disciplinary education as a complement to the core curriculum of both programs. With a focus on enhancing innovation, effectiveness and efficiency in health care and public health, the Certificate's ultimate goal is to produce well-educated professionals and leaders in their disciplines. The credits to complete this certificate program range from 16 to 22 credits.

**Nuclear Engineering Certificate**
Safety Engineering Certificate

The certificate in Safety Engineering program is intended for engineers seeking training in safety engineering to enhance their operational abilities or if they become newly assigned to positions that have higher levels of safety engineering responsibilities. It is also designed to enhance the capabilities of non-engineering based safety professionals seeking training in safety engineering, and affords the opportunity for engineers and other working professionals to maintain their certifications and licensure as safety professionals. A minimum of 15 credits are required to complete this certificate.

Joint Degree

Industrial Engineering/Business Administration, MSIE/MBA

Department of Mechanical Engineering and Material Science and Engineering

The Department of Mechanical Engineering and Materials Science offers MS and PhD degrees in both areas as well as MS degree in Nuclear Engineering, and the graduate certificate in Nuclear Engineering which is open to all graduate students within the Swanson School of Engineering. The certificate in Nuclear Engineering may also be earned by qualified post baccalaureate students who are not seeking to also earn an MS degree.

Materials Science and Engineering

The Department of Materials Science and Engineering offers broad-based educational and research programs in materials science and engineering leading to the degrees of Master of Science in Materials Science and Engineering and Doctor of Philosophy. These programs are oriented toward the application of fundamental knowledge of materials science and engineering to the solution of real-world materials problems that impede technological progress. They are designed to educate engineers, providing them with the tools to become successful in research, development, production, management, and teaching. The department also offered a joint degree program with the Katz Graduate School of Business.

Basic courses on the structure, properties, and energetics of materials are taken in common. The student, working with faculty advisors, tailors the program to suit individual interests and demands of the student's chosen field of specialization through advanced and specialty courses.

The range of research programs in the department reflects the broad spectrum of interest of the faculty. However, interest in the structure and properties of materials and their relationship to materials processing is a common thread that ties together many of the programs. Research is aimed at building an understanding of basic phenomena that will lead to solutions of materials problems at the forefront of technological and social progress.

Current research programs are centered in several areas of ceramics, and magnetic materials: metals, including corrosion and oxidation; high-temperature materials; magnetic materials; materials for energy applications; additive manufacturing; metal-forming processes; phase transformations in metals and ceramics; intermetallic phases; plastic deformation of metals; surfaces and interfaces; thermomechanical processing of steels; ceramic processing; sintering science; high-temperature superconductivity; electronic properties of ceramics; ferroelectrics and magnetorheological fluids; nanostructured materials; catalytic materials; thin film science and technology; and laser processing of materials

Master of Science Program

The Master of Science in Materials Science and Engineering degree (MSMSE) may be pursued as either a Professional MS Track program (for practicing engineers) or a Research MS Track program. Students can tailor their individual MS program to emphasize different aspects of materials science and engineering (e.g., ceramics, metallurgy, etc.).

Admissions

A bachelor's or master's degree holder applying to the program must have cumulative grade point average (QPA) equal to or higher than 3.0 (B) or equivalent. Students who do not meet this requirement may be able to enter the program based on experience demonstrating their excellence, as evaluated by the Graduate Committee.

In some cases, depending on previous background and QPA, students may be admitted initially on a provisional basis. This usually requires students to secure grades of 3.0 (B) or better in courses that are required to obtain a better background in materials science and engineering and/or other graduate-level courses as deemed necessary by the Graduate Admissions Committee.

Doctor of Philosophy Program

http://www.engineering.pitt.edu/Departments/MEMS/_Content/Graduate/Graduate-Program-Accordion-content/

The Doctor of Philosophy Program in the Department of Materials Science and Engineering is a research degree leading largely to careers in teaching and research in academia and in industry. This program is designed for excellent students. As the studies progress, students develop an understanding at the highest level in their area of specialization that must lead to an original contribution to the field in the PhD dissertation.

Admissions

A bachelor's or master's degree holder applying to the program must have a QPA equal to or higher than 3.3 (B+) or equivalent. Students who do not meet this requirement may be able to enter the program based on experience demonstrating their excellence, as evaluated by the Graduate Committee.
In some cases, depending on previous background and QPA, students may be admitted initially on a provisional basis. This usually requires students to secure grades of 3.3 (B+) or better in courses that are required to obtain a better background in materials science and engineering and/or other graduate-level courses as deemed necessary by the Graduate Admissions Committee.

Graduate Materials Science Courses

http://www.engineering.pitt.edu/Departments/MEMS/_Content/Graduate/Graduate-Program-Accordion-content/

Six core courses are offered annually and other graduate courses are offered on a two-year rotation.

Mechanical Engineering

Graduate Degree Programs

The mechanical engineering graduate program offers PhD and master of science degrees in mechanical engineering, and master of science degree in nuclear engineering. Each graduate student's program is developed individually within very broad limits and is carefully designed to meet his or her needs and objectives. The graduate faculty is committed to high-quality research and teaching. The curriculum is an integrated program of study in applied sciences, applied mathematics, and modern computational procedures that are relevant to the research emphasis in the department. The research is focused on five major areas: (1) Energy Technology: fluid mechanics, Newtonian and non-Newtonian fluid dynamics, heat transfer, combustion, fuel cells, gas turbines, advanced thermodynamics cycles and hybrid systems, thermal hydraulics in nuclear energy generation, energy accountability and sustainability in electronic equipment; transducers and control; (2) Smart Materials, Transducers, Dynamic Systems and Control: Sensors and actuators based on smart materials, adaptive structures and materials, structural acoustics, active/passive noise control, micro-electro-mechanical systems, microfluidic devices, radio-frequency energy harvesting, structural acoustics, and structural vibration control, novel actuators and mechatronics; (3) Nanotechnology: process design and modeling, tribology, composite materials, computational materials, multiscale simulation methods; micro- and nano-fabrication and characterization methods; (4) Advanced Manufacturing: 3D additive manufacturing, inkjet printing, laser manufacturing, topology optimization; and (5) Biomechanics: constitutive modeling of soft biological tissues, experimental and computational biomechanics, biomechanical modeling/simulation; musculoskeletal biomechanics, upper extremity biomechanics, joint replacement. In addition to the MS and PhD degrees, the department also offers a dual degree program with the Katz Graduate School of Business.

Admissions

https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=up-e

An application for either the MS in mechanical engineering or PhD program is judged on the student's prior academic record, GRE scores (required for PhD applicants), the accreditation of the prior degree granting school, and the capability of the department to match the applicant's interest with the program. A foreign national student who did not receive his or her Bachelor of Science or Master of Science degree from an accredited U.S. institution is required to take the TOEFL exam and receive a score of at least 550 (213 for the computer-based exam/80 internet-based exam) or the International English Language Testing System (IELTS) and receive a minimum result of Band 6.5 as well as the GRE. GRE testing may also be required for applicants of the MS program if requested by the Graduate Committee. Students with a Bachelor of Science degree in another engineering field, mathematics, or physics will also be considered for the graduate program with the possibility that prerequisite courses may be required.

A part-time program is available for students who are employed in local industries. Part-time students usually carry from 3 to 6 credits per term in either day or evening classes.

Requirements for the Master of Science Program

http://www.engineering.pitt.edu/MEMS/Graduate/Mechanical_Engineering/

The Master of Science in Mechanical Engineering degree (MSME) can be pursued as either a Professional MS Track (for practicing engineers) or a Research MS Track. The Professional Track is best suited to those currently in industry who are looking to increase their knowledge.
The Nuclear Engineering Graduate Program

The Department of Mechanical and Materials Science offers graduate studies in advanced nuclear engineering. The graduate faculty is committed to high-quality research and teaching. The curriculum is an integrated program of study in applied sciences, applied mathematics, and modern computational procedures that are relevant to the research emphasis in the department. The research is focused on three major areas: (1) Nuclear Energy Technology (2) Operations and Safety (3) Nuclear Materials (4) Nuclear Modeling and Simulations and (5) Radiology and Radiochemistry.

Degree Programs

An application for the MS program is judged on the student's prior academic record, GRE scores, the accreditation of the prior degree granting school, and the capability of the department to match the applicant's interest with the program. A foreign national student who did not receive his or her Bachelor of Science from an accredited U.S. institution is required to take the TOEFL exam and receive a score of at least 550 (213 for the computer-based exam / 79-80 internet-based exam) or the International English Language Testing System (IELTS) and receive a minimum result of Band 6.5 as well as the GRE. Students with a Bachelor of Science degree in another engineering field, mathematics, or physics will also be considered for the graduate program with the possibility that prerequisite courses may be required. A part-time program is available for students who are employed in local industries. Part-time students usually carry from three to six credits per term in either day or evening classes.

Applicants who do not meet these requirements will be considered on an individual basis with strong emphasis given to academic promise, career orientation, work experience, and preparation in engineering and related disciplines. In some cases, applicants may be admitted provisionally until certain deficiencies in either coursework or academic achievement are satisfied.

Nuclear Engineering Graduate Certificate

The Department of Mechanical Engineering and Materials Sciences is offering a certificate for students in the Swanson School of Engineering with an interest in nuclear science and technology. Students from the Bioengineering, Civil, Chemical, Industrial, Mechanical, Materials Science, and Electrical/Computer engineering programs may be most interested in obtaining this certificate.

Fifteen units are required to complete the certificate. This certificate may be combined with graduate courses in any one of the School’s seven Master of Science (MS) degree programs or the certificate may be awarded stand-alone as a post-baccalaureate certificate. Since the nuclear courses are cross-listed as Mechanical Engineering courses, they can be counted toward both a MSME degree and Nuclear Engineering Graduate Certificate.

This program provides coursework for graduate level nuclear engineering education with a focus on nuclear operations and safety. This focus on nuclear operations and safety not only fulfills a recognized educational need, but is also designed to take advantage of unique industrial resources in the Pittsburgh area which will greatly facilitate student learning.

The renaissance of nuclear science and technology in the United States has created a need in the marketplace once again for engineers with nuclear knowledge. The University of Pittsburgh aims to meet these marketplace needs by preparing engineers through the graduate certificate in nuclear engineering. Classes are taught by current and former nuclear engineers, including faculty with experience conducting commercial nuclear operations programs for Westinghouse or the Beaver Valley Nuclear Station and with certificates or operation licenses from the US Nuclear Regulatory Commission.

Objectives

The objectives of the nuclear engineering certificate are:

- To develop the basic competencies needed by science and engineering graduates to contribute quickly and effectively to the renaissance of nuclear science and technology in the United States and abroad.
- To create a benchmark educational program that can serve as a model throughout academia

Master's
Materials Science and Engineering - Professional Track, MSMSE

The professional MS track is primarily oriented toward part-time students currently working in industry.

MS Track Requirements

The professional track consists of a minimum of 30 course credits (equivalent to 10 courses). There are no thesis or comprehensive examination requirements for this degree. Up to nine (9) credits of coursework counting towards the 30 course credits requirement may consist of non-MSE courses in other Engineering, Science or Mathematics disciplines that are approved by a student's advisor. No more than six credits may be granted to a student as transfer credit for work done at another accredited graduate institution. At least 21 course credits must be obtained from MSE 2000 and 3000 courses, not including Graduate Seminar (MSE 3023 and 3024), MS Research (MSE 2997), and MS Thesis (MSE 2999). An independent graduate project (MSE 2998) can be conducted after consultation with the student's faculty advisor and may account for 3 of the 21 required MSE credits. Students with non-MSE backgrounds are strongly encouraged to take for credit introductory courses (e.g. MSE 2067, MSE 2068 or equivalent). MS degrees are conferred only on those students who have completed all course requirements with at least a 3.00 (B) GPA.

Materials Science and Engineering - Research Track, MSMSE

The research track is primarily for full-time students who have the intention to pursue a PhD or are strongly oriented toward a research career. The University transcript will include an entry indicating that a student is in the research MS track.

MS Track Requirements

The Research Track MS degree requires a minimum of 30 credits of course and research based graduate study, including at least 21 course credits. At most up to nine (9) credits of coursework counting towards the required minimum of 21 course credits may consist of technical courses in other non-MSE Engineering, Science or Mathematics disciplines that are approved by a student's advisor. No more than six (6) credits may be granted toward completion of the requirements for the Research Track MS for work completed at another accredited graduate institution. A minimum of 12 course credits must be derived from 2000- and 3000-level MSE courses, not including credits associated with Graduate Seminar (MSE 3023 and MSE 3024), MS Research (MSE 2997), and MS Thesis (MSE 2999). Students with non-MSE backgrounds are strongly encouraged to take for credit introductory courses (e.g. MSE 2067, MSE 2068 or equivalent). The student's advisor must approve the course sequence selection. In addition to coursework requirements a minimum of 3 credits of MS research (MSE 2997) and six (6) credits of MS Thesis (MSE 2999) are required. Master's degrees are conferred only on those students who have completed all courses required for the degree with an average grade of at least a 3.00 (B) GPA.

MS Thesis

An MS student should initiate research work as early as possible and then register for MS research (MSE 2997). Once thesis preparation has begun, a student must register for thesis credits (MSE 2999) in each succeeding term until successful completion of the thesis and a final oral defense and comprehensive exam. The MS thesis document is at least expected to be a report on independently conducted research and must adhere to the School of Engineering defined style and format. A Style and Form Manual for a thesis is available in the Engineering Office of Administration.

The purpose of an MS thesis oral defense is to evaluate an MS thesis and the student's command of the research subject. The successful completion of a defense is a requirement for the MS degree. The thesis examining committee consists of at least three members of the MSE faculty who are recommended by the student's advisor and approved by the department chair. After successfully completing a defense, a student must deposit an electronic and/or hard copies of the approved thesis in accordance with the current guidelines for thesis submissions available from the Office of Administration of the School of Engineering or the MSE Program Office.

Part-time students may pursue the research MS track. However, they must recognize that, although their thesis topics may be related to the broad technical area of their employment, results of work-related routine technical activities, analysis, surveys, or studies conducted for employers are not acceptable for inclusion in MS theses. Furthermore, part-time students should become aware of the University Intellectual Property Ownership Policy before undertaking theses. Prospective students must clarify all of these issues before contemplating a research-based MS degree.
Mechanical Engineering - Professional Track, MSME

Professional Master of Science Track

Students must take at least one of the following mathematics courses:

- ME 2001 - DIFFERENTIAL EQUATIONS
- ME 2002 - LINEAR AND COMPLEX ANALYSIS

- ME 2646 - LINEAR SYSTEM THEORY or
- ECE 2646 - LINEAR SYSTEM THEORY

Mechanical engineering courses are offered from the following subject areas:

Dynamic Systems and Control

- ME 2015 - HUMAN ROBOTICS AND CONTROL
- ME 2020 - MECHANICAL VIBRATIONS
- ME 2027 - ADVANCED DYNAMICS
- ME 2042 - MSRMT & ANAL VIBRO-ACUSTC SYMS
- ME 2045 - LINEAR CONTROL SYSTEMS
- ME 2046 - DIGITAL CONTROL SYSTEMS
- ME 2242 - OPTIMAL FILTERING ESTIMATION

- ME 2247 - INTRO TO NONLINEAR CTRL DESGN or
- ECE 2647 - INTRO TO NONLINEAR CTRL DESIGN

- ME 2646 - LINEAR SYSTEM THEORY or
- ECE 2646 - LINEAR SYSTEM THEORY

- ME 2671 - OPTIMIZATION METHODS or
- ECE 2671 - OPTIMIZATION METHODS

- ME 3650 - OPTIMAL CONTROL or
- ECE 3650 - OPTIMAL CONTROL

- ME 2080 - INTRO MICROELCTRMECHL SYS
- ME 2082 - ELCTRMECHL SENSORS & ACTUATORS

Fluid Mechanics

- ME 2003 - INTRO TO CONTINUUM MECHANICS
- ME 2055 - COMPUTR ANAL TRANSPRT PHENOMNA
- ME 2070 - MICROFLUIDICS
- ME 2074 - ADVANCED FLUID MECHANICS 1

MEMS/NEMS

- ME 2010 - NANOMECHANICS
• ME 2049 - THERM MGT IN ELECTRONIC SYS
• ME 2080 - INTRO MICROELECTRMECHL SYS
• ME 2082 - ELECTRMECHL SENSORS & ACTUATORS
• ME 2222 - NANSCAL MODLG SIMUL MOL DYNAMC
• ME 2223 - NANOSCALE MODELING AND SIMULS

Materials and Biomechanics

• ME 2005 - STRUCTURE OF MATERIALS
• ME 2007 - ELEMENTS OF MATRL SCI ENGR 1
• ME 2008 - Elements of Materials Science and Engineering 2 (Proposed)
• ME 2009 - PROCESSING OF MATERIALS
• ME 2010 - NANOMECHANICS
• ME 2048 - ENGR ALLOYS FOR CONSTRUCTION
• ME 2060 - NUMERICAL METHODS
• ME 2062 - ORTHOPAEDIC ENGINEERING
• ME 2064 - INTRO TO CELL MECHANOBIOLOGY
• ME 2067 - MUSCULOSKELETAL BIOMECHANICS
• ME 2069 - MATRLS SCI OF NANO-STRUCTURES
• ME 2084 - INTRO TO POLYMER SCIENCE
• ME 2086 - MECHC 3D PRNT MATLS &STRUCT
• ME 2222 - NANSCAL MODLG SIMUL MOL DYNAMC
• ME 2223 - NANOSCALE MODELING AND SIMULS

Nuclear

• ME 2100 - FUNDAMENTALS NUCLEAR ENGR
• ME 2101 - NUCLEAR CORE DYNAMICS
• ME 2102 - NUCLEAR PLANT DYNAMICS & CTRL
• ME 2103 - INTGRTN OF NUCLR PLANT SYMS
• ME 2104 - NUCLEAR OPERATIONS AND SAFETY
• ME 2105 - INTGD NUCLR POWER PLANT OPRTNS
• ME 2106 - NUCLEAR QUALITY ASSURANCE MGMT
• ME 2107 - HI PERF CMPTNG ALGRTHM & MTHS
• ME 2110 - NUCLEAR MATERIALS
• ME 2112 - NUCLR CHEM AND RADIOCHEMISTRY
• ME 2115 - HEAT TRNSF FLUD FLOW NUCLRPLNT
• ME 2116 - BOILG WATR REACTR THERM-HYRDL
• ME 2118 - COMPUTATIONAL RADIATN TRANSPRT
• ME 2120 - MATHMTL MODELING NUCLR PLANTS
• ME 2122 - MGT PRINCIPLES NUCLEAR POWER
• ME 2125 - CASE STDS NUCLR CODE STANDRDS
• ME 2130 - NUCLEAR FUEL CYCL ENVRN ISSUES

Solid Mechanics

• ME 2003 - INTRO TO CONTINUUM MECHANICS
• ME 2004 - ELASTICITY
• ME 2010 - NANOMECHANICS
Thermal Systems

- ME 2049 - THERM MGT IN ELECTRONIC SYS
- ME 2050 - THERMODYNAMICS
- ME 2053 - HEAT AND MASS TRANSFER
- ME 2055 - COMPUTR ANAL TRANSPRRT PHENOMNA
- ME 2056 - INTRO TO COMBUSTION THEORY
- ME 2074 - ADVANCED FLUID MECHANICS I
- ME 2254 - NANOSCALE HEAT TRANSFER

Note:
A student may take up to 9 graduate credits from other engineering, mathematics, or physics departments.

Mechanical Engineering - Research Track, MSME

Research Master of Science Track

The Research MS Track is designed for individuals seeking an in-depth research experience in mechanical engineering. A total of 21 course credits and a master's thesis are required for this degree. Upon entering the program, students plan a program of study with the aid of their faculty advisor.

Students must take:
- ME 2997 - RESEARCH, M.S.
- ME 2999 - M. S. THESIS (at least 6 credits)

At least one of the following mathematics courses:

- ME 2001 - DIFFERENTIAL EQUATIONS
- ME 2002 - LINEAR AND COMPLEX ANALYSIS
- ME 2646 - LINEAR SYSTEM THEORY or
- ECE 2646 - LINEAR SYSTEM THEORY

Note:
A student may take up to 9 graduate credits from other engineering, mathematics, or physics departments.

Nuclear Engineering - Non-Thesis Option (Professional Track), MSNE

Master of Science Program

Upon entering, the student plans a program of study with the aid of the faculty advisor. The course requirements can be met by either the
(1) Thesis Option (Research M.S.Track):

- 21 course credits
- ME 2997 - RESEARCH, M.S.
- ME 2999 - M. S. THESIS - 6 credits

30 Credits

Or the

(2) Non-Thesis Option (Professional M.S.Track):

- 30 course credits.

Non-Thesis Option (Professional M.S. Track)

The professional MS programs are oriented toward full-time students seeking a career in industry, and part-time students currently working in industry. Full-time GSR-supported students might change to professional M.S. track, upon request/approval by the sponsoring faculty advisor and the graduate program. Professional master's degrees are conferred upon those students who demonstrate comprehensive mastery of their general field of study. The professional master's degrees normally require the satisfactory completion of at least 30 course credits of graduate study approved by the department.

No more than six credit hours may be granted to a student as transfer credit for work done at another accredited graduate institution. (See Acceptance of Transfer Credits section for further detail.) MS/MBA students are limited to transferring six credit hours. All credits earned in the ME master's degree program must be at the graduate level (the 2000 or 3000 series courses).

Master's degrees are conferred only on those students who have completed all course requirements with at least a 3.00 QPA. (Visit http://www.bulletins.pitt.edu/graduate/index.html for further detail.

In either case, students seeking the Master of Science degree in Nuclear Engineering must take at least one of the mathematics courses, ME 2001, ME 2002 or ME 2646 / ECE 2646. Up to nine (six for MS/MBA students) graduate credits from other engineering, mathematics, or physics departments may be used in fulfilling the remaining course requirements. The MS/MBA students are also required to complete an integrated project course. Please contact the Graduate Director for a copy of the guidelines for the integrated project course.

**Nuclear Engineering - Thesis Option (Research Track), MSNE**

Master of Science Program

Upon entering, the student plans a program of study with the aid of the faculty advisor. The course requirements can be met by either the

(1) Thesis Option (Research M.S.Track):

- 21 course credits
- ME 2997 - RESEARCH, M.S.
- ME 2999 - M. S. THESIS - 6 credits

30 Credits

Or the
(2) Non-Thesis Option (Professional M.S. Track):

- 30 course credits.

**Thesis Option (Research M.S. Track)**

The research M.S. track is primarily for those students who wish to advance the technology. Students in this track will be advised to take those courses best suited for the research degree. Full time graduate students who are supported by department scholarships must choose the research M.S. track. Each candidate must provide a suitable number of copies of the thesis for review and use as designated by the thesis examining committee, consisting of at least three members of the faculty recommended by the major advisor and approved by the department chair. The major advisor must be a Mechanical Engineering or Material Science Faculty member with an appointment in the Mechanical Engineering and Materials Science Department. Nonnative English speakers are encouraged to take ENGR 2050 - TECHNICAL WRITING (however this course does not count toward graduation). The final oral examination in defense of the master's thesis is conducted by the thesis committee, and a report of this examination signed by all members of the committee must be filed in the office of the dean. After the examination, the approved ETD must be deposited to the ETD Online System where it will be reviewed by the ETD Student Services Staff in the dean's office of the student's school and submitted for microfilming and deposit in the University Library System. A receipt for the ETD processing/microfilming fees and any necessary paperwork must be submitted to the appropriate ETD Staff in the Office of Administration.

**Doctoral**

**Materials Science and Engineering, PhD**

**Requirements for the PhD Degree**

A minimum of 72 credits is required for the PhD. Of the total of 72 credits required for the PhD degree a minimum of 36 credits must be coursework beyond the Bachelor of Science (BS) degree. PhD students must maintain a minimum QPA of 3.3 (B+) in this coursework. The coursework consists of (I) a materials core (six required courses students must take in the first year of enrollment), (II) a group of courses tailored for each student's research and as required technical broadening beyond the MSE focus, (III) courses to address mathematical/numerical skills, and (IV) PhD Research and Dissertation credits. The student's advisor must approve the course sequence selection.

The 18 credits core course component must be taken within the first year of the program. Typically, PhD students will carry a course load of three courses per term until their coursework is completed. If a student's background is insufficient for a given graduate course, the student must prepare by attending appropriate undergraduate courses or through independent study. This should be arranged in consultation with the student's faculty advisor and the lecturing faculty of the relevant course(s).

A total of up to twelve (12) credits may be taken in relevant science, math, engineering disciplines outside of the MSE designation of graduate level courses and in different departments than MEMS. The selection of courses, in general, must be acceptable to the student's advisor.

Minimum credit requirements include:

**Core Courses (18 credits)**

- MSE 2067 - ELEMNS OF MATRLS SCI & ENGRG I
- MSE 2003 - STRUCTURE OF MATERIALS
- MSE 2011 - ENERGETICS
- MSE 2013 - KINETICS IN MATERIALS SCIENCE
- MSE 2015 - ELECTROMGNTC PROPS MATERIALS
- MSE 2030 - MECHANICAL BEHAVR OF MATERIALS

**Note:**
Students must score at least a B (3.0) in each of these six classes. If a student does not get at least a letter grade of B, the class must be taken a second time. These classes must be successfully completed before the student can apply for admission to PhD Candidacy.

Advanced Courses

A student must take advanced courses and technical electives. These are comprised of at least two courses (6 credits) selected by the student and his or her advisor as the best advanced preparation for research in the area of the dissertation, and two courses, as a broadening experience, to complement the student's PhD specialization and contribute significantly to career preparation.

Mathematics Courses

The student is required to take two mathematics/numerical courses for six (6) credits beyond those required for the materials science and engineering Bachelor of Science degree. They can be satisfied by many courses. This requirement may be waived if it was met in a previous program.

PhD Research and Dissertation Credits

Each student must also have:
At least six (6) credits of MSE 3997 (PhD Research);
At least 12 credits of MSE 3999 (PhD Dissertation);

Please note that registration for MSE 3999 is allowed only after the student has passed the Comprehensive Examination and defended the PhD Proposal, which qualifies the student for the status of PhD Candidacy.

The course requirements described in these guidelines are a minimum requirement. The minimum requirement of 72 credits of graduate work must be satisfied by combinations of research, course work and transfer credits for the award of a PhD degree. Students are allowed to take additional courses with the agreement of their advisors. In some cases, these courses may be suggested by the PhD Committee for better preparation for a given research area. Note that completion of the PhD degree and admission PhD candidacy require a GPA of B+ or better (≥3.3).

Mechanical Engineering, PhD

http://www.engineering.pitt.edu/MEMS/Graduate/Graduate_Information/

The goal of the Doctor of Philosophy program in the Department of Mechanical Engineering is to develop the student for the rigorous career demands of engineering research either in the industrial or academic fields. The student is educated at the pioneering edge of technical, management, systems design, and decision-making concepts. This work requires a strong background in mathematics and one of the specialty areas of mechanical engineering. The PhD student is expected to attend full time. It is possible, however, to seek candidacy as a part-time student with the stipulation that the PhD candidate must spend at least one full-time academic year on campus.

A graduate student who has completed eight course courses of the master's program in good standing can go directly into the PhD program. An applicant who has received the Master of Science in mechanical engineering from a university with an Accreditation Board for Engineering and Technology (ABET)-accredited mechanical engineering curriculum, or who has substantially equivalent preparation, is eligible to enter the Doctor of Philosophy program in the Department of Mechanical Engineering.

If deficiencies in engineering preparation are noted, as in the case of science majors from accredited institutions, admission may be granted after the completion of such designated undergraduate courses as may best correct the deficiencies. Only those individuals whose preparation has been judged satisfactory for graduate study in the Department of Mechanical Engineering will be admitted to full graduate status.

Doctoral level courses are numbered in the 3000 series, but courses numbered in the 2000 series may also be appropriate for doctoral study. Courses numbered below 2000 do not meet the minimum requirements for doctoral study, although they may be taken to supplement a doctoral program. Students must maintain a minimum cumulative QPA of 3.30 in courses to be eligible to take the preliminary and comprehensive examinations as well as to graduate.

Plan of Study
During the first term in the doctoral program the student must submit a plan of study for approval by the department. Minimum course requirements (beyond the MS or equivalent degree) include:

- 30 credits for M.S. degree (or equivalent)
- 18 course credits at an advanced graduate level (Approval is required by the student's advisor and the graduate committee. Courses may NOT include: ME 2001, ME 2002, ME 2003, ME 2004, ME 2007, ME 2020, ME 2022, ME 2047, ME 2053, ME 2060, ME 2074, ME 2100, ME 2125 and any course that is a dual graduate/undergraduate course. Non-duplicating courses from other departments may be allowed subject to approval.)
- ME 3997 - RESEARCH, PHD
- ME 3999 - PHD DISSERTATION (after admission to PhD Candidacy)
- 6 additional credits approved by advisor and graduate committee

Total Credits: 72

Certificate

Nuclear Engineering Certificate

Requirements

Students must satisfactorily complete five of the following nine courses in order to earn either the graduate or post-baccalaureate certificate in nuclear engineering:

- ENGR 2100 - FUNDAMENTALS NUCLEAR ENGR or
- ME 2100 - FUNDAMENTALS NUCLEAR ENGR Pre-req: an undergraduate degree in engineering or science.

- ENGR 2101 - NUCLEAR CORE DYNAMICS or
- ME 2101 - NUCLEAR CORE DYNAMICS Pre-req: ENGR 2100/ME 2100 or an undergraduate degree in nuclear engineering, work experience in nuclear engineering with instructor's permission.

- ENGR 2102 - NUCLEAR PLANT DYNAMICS & CTRL or
- ME 2102 - NUCLEAR PLANT DYNAMICS & CTRL Pre-req: ENGR 2101/ME 2101

- ENGR 2103 - INTGRTN OF NUCLR PLANT SYMS or
- ME 2103 - INTGRTN OF NUCLR PLANT SYMS Pre-req: ENGR 2100/ME 2100

- ENGR 2104 - NUCLEAR OPERATIONS AND SAFETY or
- ME 2104 - NUCLEAR OPERATIONS AND SAFETY Pre-req: ENGR 2100/ME 2100

- ENGR 2105 - INTGD NUCLR POWER PLANT OPRTNS or
- ME 2105 - INTGD NUCLR POWER PLANT OPRTNS Pre-req: ENGR 2102/ME 2102, ENGR 2103/ME 2103

- ENGR 2106 - NUCLEAR QUALITY ASSURANCE MGMT or
- ME 2106 - NUCLEAR QUALITY ASSURANCE MGMT

- ENGR 2107 - HI PERF CMPTNG ALGRTHM & MTHS or
- ME 2107 - HI PERF CMPTNG ALGRTHM & MTHS

- ENGR 2110 - NUCLEAR MATERIALS or
- ME 2110 - NUCLEAR MATERIALS Pre-req: an undergraduate course in materials science or instructor's permission
• ENGR 2112 - NUCLR CHEM AND RADIOCHEMISTRY or
• ME 2112 - NUCLR CHEM AND RADIOCHEMISTRY

• ENGR 2113 - RADIATION DETECTION & MSRMT or
• ME 2113 - RADIATION DETECTION & MSRMT

• ENGR 2115 - HEAT TRNSF FLUD FLOW NUCLRPLNT or
• ME 2115 - HEAT TRNSF FLUD FLOW NUCLRPLNT Pre-req: an undergraduate course in heat transfer and fluid flow or instructor's permission.

• ENGR 2116 - BOILG WATR REACTR THERM-HYRDL or
• ME 2116 - BOILG WATR REACTR THERM-HYRDL Pre-req: an undergraduate course in heat transfer and fluid flow or instructor's permission.

• ENGR 2118 - COMPUTATIONAL RADIATN TRANSPRT or
• ME 2118 - COMPUTATIONAL RADIATN TRANSPRT

• ENGR 2120 - MATHMTL MODELING NUCLR PLANTS or
• ME 2120 - MATHMTL MODELING NUCLR PLANTS

• ENGR 2122 - MGT PRINCIPLES NUCLEAR POWER or
• ME 2122 - MGT PRINCIPLES NUCLEAR POWER

• ENGR 2125 - CASE STDS NUCLR CODE STANDRDS or
• ME 2125 - CASE STDS NUCLR CODE STANDRDS

• ENGR 2130 - NUCLEAR FUEL CYCL ENVRN ISSUES or
• ME 2130 - NUCLEAR FUEL CYCL ENVRN ISSUES

Additional Information

The program will be sufficiently flexible to accommodate students from a wide spectrum of engineering disciplines.

Who may apply

• Practicing engineers currently in or aspiring to a leadership role in the nuclear industry,
• Engineering professionals who desire graduate level education in nuclear engineering with a focus on safe nuclear plant operations,
• New graduates with a minimum of a bachelor's degree in a technical discipline, and
• Professionals who manage multidisciplinary teams for project design or management in the nuclear industry

How to apply

At the University of Pittsburgh, any student pursuing a Master's degree in the Swanson School of Engineering may pursue the graduate certificate in nuclear engineering as a focus track. It is also possible for individuals who wish to achieve the certificate only to apply to the program.

Questions
Inquires regarding the graduate certificate in nuclear engineering can be directed to:

Daniel G. Cole, PhD, P.E.: Director of Steven R. Tritch Program in Nuclear Engineering
636 Benedum Hall
dgcole@pitt.edu

Inquires regarding registration can be directed to:

Carolyn Chuhu: Mechanical Engineering Graduate Administrator
636 Benedum Hall
Cac90@pitt.edu
412-624-9722

Medical Scientist Training Program

Joint Degree

Chemical Engineering, MD/PhD

The MD/PhD program in chemical engineering is administered through the Medical Scientist Training Program (MSTP). This physician-scientist training program is tailored to a student's specific research interests. Intended for students who have a clearly defined interest in biomedical research, the MSTP links various PhD programs with the School of Medicine.
School of Health and Rehabilitation Sciences

Welcome to The School of Health and Rehabilitation Sciences (SHRS)

The School of Health and Rehabilitation Sciences (SHRS) offers educational programs leading to the following graduate degrees and certificates:

**Master's Programs:**

- Master of Science in Nutrition and Dietetics (Coordinated Master)
- Master of Occupational Therapy (MOT)
- Master of Arts (MA)/Master of Science (MS) in Communication Science and Disorders with concentrations in:
  - Speech-Language Pathology
  - Audiology
- Master of Science degree program in Health and Rehabilitation Sciences with concentrations in:
  - Health Information Systems
  - Health Care Supervision and Management
  - Occupational Therapy
  - Physical Therapy
  - Rehabilitation Counseling
  - Rehabilitation Science and Technology
  - Sports Medicine
  - Wellness and Human Performance
- Master of Science in Physician Assistant Studies
- Master of Science in Prosthetics & Orthotics

**Doctoral Programs:**

- Professional doctoral degrees:
  - Doctor of Audiology (AuD)
  - Doctor of Occupational Therapy (OTD)
  - Doctor of Physical Therapy (DPT)
  - Doctor of Clinical Science (CScD) in Medical Speech-Language Pathology
  - Doctor of Clinical Science (CScD) in Occupational Therapy

- Doctor of Philosophy
  - Communication Science and Disorders
  - Rehabilitation Science

**Certificate Programs:**

SHRS offers two certificate programs for graduate students or for professionals who hold graduate degrees.

- Advanced certificates through the Department of Rehabilitation Science and Technology
  - Certificate in Assistive Technology
  - Certificate in Disability Studies

The School of Health and Rehabilitation Sciences is affiliated with the University of Pittsburgh Schools of the Health Sciences and also shares a close affiliation with the world-class University of Pittsburgh Medical Center (UPMC). The medical center comprises a variety of hospitals and clinical facilities that affords students a wealth of opportunities for professional experience.
The mission of the school is to advance the theoretical base of knowledge underlying the practice of health and rehabilitation disciplines and professions through research, teaching and professional service.

The SHRS faculty ground their teaching upon research studies, clinical service and participation in their respective professional associations. Faculty research and service typically occurs within a multi-disciplinary collaboration in diverse health care and research environments. Consequently, both entry-level and advanced students are exposed to state-of-the-art curricula, which are continually reviewed from the perspective of new research findings, technological developments, changing public policy and accepted clinical and management practice.

Our students interact with role models and mentors who demonstrate the core values of their respective professions including commitment to:

- Respect for the inherent value, dignity and integrity of the patient, client and/or research subject;
- A service-oriented and personalized approach to health care and rehabilitation;
- Ethical behavior in all clinical, service and research interactions with patients, colleagues, employees and others.

### Philosophy of Graduate Education

The faculty of the School of Health and Rehabilitation Sciences (SHRS) believes that it has a major responsibility in graduate education to broaden the perspectives and awareness of students in the health professions toward high standards of scholarship and recognition of its relevance to technological and human needs.

Graduate programs provide depth in a substantial area of the student's profession and foster critical thinking through a variety of scholarly and creative activities thereby generating an atmosphere of scientific inquiry. These substantive areas include the knowledge of the scientific basis for the development of advanced clinical expertise within the professions represented in the School. An equally important function is to encourage health professionals to be sensitive to the needs of the human beings they are serving and to adapt their methods to the changing social, economic and technological environments in which they practice. Accordingly, these professionals should develop the capability to perform newly emerging and expanding roles of advanced clinical services, research, teaching and administration in the health care systems, advancing the frontiers of their particular field of expertise.

On the assumption that the accumulation and mastery of basic factual knowledge have been accomplished, graduate education focuses on synthesis and integration to allow for new systemic insights into the application and extension of that knowledge. The linkage of various educational experiences with research projects enhances problem-solving skills. Through interdisciplinary and multi-disciplinary didactic, clinical and research experiences, individual professional identity is fostered, while the ability to function both on an independent and collaborative level with colleagues from other disciplines is enhanced.

### Contact Information

Office of Admissions  
School of Health and Rehabilitation Sciences  
4020 Forbes Tower  
412-383-6558  
Fax: 412-383-6535  
E-mail: admissions@shrs.pitt.edu

### Admission Information

**Application Procedures**

Each graduate and doctoral program at SHRS has its own specific list of application requirements and instructions. We utilize various application portals for admission including the ApplyYourself Application Network, which is operated through the university, and various CAS portals (centralized application systems) which are unique application portals for specific professions.
The SHRS programs that utilize CAS are:

Communication Science and Disorders (MA/MS and AuD) (CSDCAS https://portal.csdcas.org/)
Doctor of Physical Therapy (PTCAS http://www.ptcas.org/)
Doctor of Occupational Therapy (OTCAS https://otcas.liaisoncas.com/applicant-ux/#/login)
Physician Assistant Studies (CASPA https://caspa.liaisoncas.com)
Prosthetics & Orthotics (OPCAS https://portal.opcas.org/)

The remaining SHRS graduate and doctoral programs utilize the Apply Yourself Application Network

Clinical Rehabilitation and Mental Health Counseling
Coordinated Master in Nutrition and Dietetics
Master of Science in Health and Rehabilitation Sciences:
  - Health Care Supervision and Management
  - Health Information Systems
  - Neuromuscular or Musculoskeletal Physical Therapy
  - Occupational Therapy
  - Rehabilitation Science and Technology
  - Rehabilitation Counseling
  - Sports Medicine
  - Wellness and Human Performance
Doctor of Clinical Science in Medical Speech-Language Pathology
Doctor of Clinical Science in Occupational Therapy
PhD in Communication Science
PhD in Rehabilitation Science

*Applicants for the Master of Occupational Therapy (MOT) program should contact the OT Department

Admissions Process for International Students:

SHRS is a globally diverse community with students from over 20 countries, including Argentina, Brazil, China, Greece, India, Indonesia, Korea, Saudi Arabia, Taiwan, and the United Kingdom.

As noted above, because each program has its own specific requirements, it is encouraged that international applicants review these requirements (including CAS programs).

In addition to general admission requirements, SHRS has specific requirements for international applicants which are noted below.

Application Deadlines

Fall admission: March 1*
Spring admission: September 1
Summer admission: February 1

*Please note that if a program deadline is prior to the deadline above you must submit your application by the program deadline.

Academic Credential Evaluations

International applicants applying to the School of Health and Rehabilitation Sciences (SHRS) are required to have their academic credentials evaluated by one of the agencies listed below:

International Consultants of Delaware, Inc. (ICD)
3600 Market Street, Suite 450
Philadelphia, PA 19104
Phone: (215) 387-6950 Ext.603
The Academic Credential Evaluation must be submitted along with your application. A course by course evaluation including a grade point average equivalent is required. A final transcript or diploma showing completion of the undergraduate degree must be submitted prior to starting the program.

If an international student has earned an undergraduate or graduate degree in the United States, this evaluation is not required.

Verification of English Language Proficiency

The University of Pittsburgh accepts TOEFL or IELTS test scores to verify English Language Proficiency.

TOEFL

Minimum TOEFL scores accepted* are:

- 80 on the internet based test
- 550 on the paper based test

TOEFL scores must be sent electronically through ETS to institution code 2927.

IELTS

The minimum IELTS score accepted* is Band 6.5

IELTS scores must be mailed to the address below:

SHRS Admissions Office
4020 Forbes Tower
University of Pittsburgh
Pittsburgh, PA 15260

IELTS score reports must be submitted in the original sealed envelope to be considered official.

*Minimum scores required for the PhD Program in Rehabilitation Science are 100 on the TOEFL ibt, 600 on the TOEFL pbt, or Band 7.0 on the IELTS (reading and writing modules).

Verification of English Language Proficiency is required unless the following apply:

- The applicant is a citizen of a country whose official language is English
- The applicant has completed a degree at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English

Process of Issuing Visa Documents
For future international students - Once you have confirmed your admission to the School of Health and Rehabilitation Sciences (SHRS) at the University of Pittsburgh, SHRS will notify the Office of International Services (OIS) of your future attendance. OIS will then email you to complete the information required to either create or verify your immigration documents. This email will also include information about the timeline for receiving a new immigration document and international student orientation.

All international students should refer to the University's Office of International Services (OIS) website at http://www.ois.pitt.edu for information on admissions, orientation, immigration and visas, and life in Pittsburgh.

**Admission Status**

**Full Status**

The student has been admitted into a SHRS degree program. To maintain full graduate status, the student must achieve a minimum cumulative GPA of 3.000 (based on 4.000) in his/her graduate study. Students whose cumulative GPA drops below a 3.000 while in the program will be placed on academic probation (please see the Academic Probation policy in this handbook).

**Non-Degree Status**

Individuals who are seeking advanced degrees but who are unable to meet the deadline for filing all required credentials for admission may be granted temporary admission as non-degree students provided they present acceptable evidence concerning their qualifications for graduate study. Regular admission must be accomplished within the first term of registration as a non-degree student.

Applicants who do not wish to enroll in a degree program may apply for admission as non-degree students to take one or more courses of particular interest, if written permission is obtained from the course instructor. Non-degree students are permitted to take a total of six (6) credits. A non-degree student wishing to register for more than 6 credits must receive approval from the Department Chair/Program Director. Information concerning such requests should be directed first to the Director of Admissions, 4020 Forbes Tower, University of Pittsburgh, Pittsburgh, PA 15260 or via email at admissions@shrs.pitt.edu.

**Active Status**

Graduate students are required to register for at least 1 credit in the fall and spring terms. PhD students who have completed their course work and have successfully proposed their dissertation, must be enrolled in dissertation credits or FTDI (Full time Dissertation Study) in the fall and spring terms to maintain active status. All graduate students need to be enrolled in the term in which they plan to graduate.

**Inactive Status**

A student who has not registered for at least 1 credit or for full-time dissertation study during a 12-month period will be transferred automatically to inactive status. Inactive students cannot apply to graduate or take Preliminary or Comprehensive Examinations. While on inactive status, a student is not eligible to use University facilities and should not expect to receive counseling by the faculty or active supervision by his/her advisor and committee.

**Reinstatement**

Readmission is not automatic nor does it necessarily reinstate the student to the academic status enjoyed prior to becoming inactive. Students must formally re-apply for admission and pay the application fee. If the requirements for successful completion of the specific graduate program in which the student was enrolled have changed during the period of non-enrollment, the re-admitted student may be required to meet the revised requirements of the program that are in effect at the time of readmission. This will be decided by the Department Chair of the student's particular program; for the doctoral program the decision will be made by the Associate Dean of Graduate Studies.

Upon readmission, the student's Plan of Study will be adjusted to meet the requirements at the time of readmission.

**Financial Information**

**Tuition and Fee Rates**
Tuition and fee rates are available on the Financial Information page.

**Additional Fees**

Lab Fees: Lab courses may incur an additional fee to cover laboratory expenses. These fees will be charged to the student directly and will appear on the invoice generated by Student Accounts in addition to tuition and other fees each semester.

Liability Insurance: Students enrolled in a clinical education or practicum must carry liability insurance. Liability insurance is required for SHRS students and will automatically be included on the tuition bill.

**Scholarships, Grants and Financial Aid**

If you are interested in applying for loans, scholarships, grants, or work study, you should call, write or visit the University of Pittsburgh, Office of Admissions and Financial Aid, Alumni Hall, Pittsburgh, PA 15260, 412-624-PITT. See also the SHRS website financial information page.

**Financial Obligation of Students**

The University of Pittsburgh has the right to withhold services if a student defaults on any financial obligation until repayment arrangements have been made that are satisfactory to the office or department to which the debt is owed.

**Graduate Student Funding**

Information on graduate student funding as well as teaching assistant and research assistant positions for graduate students is available at the University's Graduate Studies Financial Information website: [http://www.pitt.edu/~graduate/financial.html](http://www.pitt.edu/~graduate/financial.html).

**SHRS Academic Regulations**

**Academic Integrity Policy**

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in the SHRS Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.

**Student Roles and Responsibilities**

**University of Pittsburgh Nondiscrimination Policy Statement**

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability. Further, the University will continue to take affirmative steps to support and advance these values consistent with the mission of the University. This policy applies to admissions, employment, access to and treatment in University programs and activities. This is a commitment made by the University and is in accordance with federal, state, and/or local laws and regulations.

*University and SHRS Rules and Regulations*

Students should understand and know how to access University, SHRS and individual program rules and regulations. Students should complete the SHRS new student orientation, and review the most updated online version of the University Graduate Catalog, handbook and their program's
**Policy Information.** Students should be aware of and meet important academic deadlines, e.g., registration, add/drop, and monitored withdrawal. See the Academic Calendar.

*Communicate with SHRS Faculty and Staff*

Students should stay in regular communication with their academic advisor and faculty members. To facilitate this, the student should:

- check Pitt email regularly
- inform academic advisor, faculty or department chair of difficulties that may impact academic standing
- seek help as needed
- make and keep regular advising/registration appointments with academic/faculty advisor

**Name and Social Security Number Changes**

Students are required to notify the University Registrar (G-3 Thackeray) to process changes in name and social security number. Please visit http://www.registrar.pitt.edu/personalinfo.html for more information. Students should also notify the SHRS Dean's office and their academic department of any changes to their contact information.

**Plan of Study**

Every student in SHRS must have a Plan of Study, signed by academic/faculty advisor, on file with Student Services by the end of the first semester in SHRS and as revised. Any changes to the Plan of Study must be approved by the academic/faculty advisor or Department Chair. To be certified for graduation, students must have successfully completed all courses outlined in their final Plan of Study as well as any other requirements for the degree. A final Plan of Study must be on file in Student Services 4019 Forbes Tower.

**Minimum Academic Standard**

It is the student's responsibility to review her/his academic standing, to identify graduate program requirements and prerequisites for intended graduate program(s) and to monitor their completion.

All required and prerequisite coursework must be taken for a grade, when letter grade option is available, unless approved by the Department Chair/Program Director. Students must receive a grade of C or better in all courses required by their program curriculum. Students who receive a grade below a C in a required course must repeat that course and attain a grade of C or better to graduate.

Note: University regulations state that a student may repeat any course in which a grade of B- or lower is received if an authorization to repeat the course is given by the student's adviser/faculty.

Students will not be permitted to register for a course until they attain a C or better in its prerequisites.

Failure to receive an acceptable grade after the second opportunity to complete a required course may result in the student being dismissed from the program and SHRS.

**Advising**

**Master and Clinical Doctorates**

Master's students are assigned an advisor who must be a member of the SHRS faculty holding a regular, research, clinical, or adjunct appointment, and having at least a master's degree. The director of the program to which the student has been accepted selects advisors for SHRS graduate students. Students are notified of their advisor after their enrollment. It is the student's responsibility to contact the advisor to schedule an initial meeting.
Doctor of Philosophy

PhD students are assigned and academic advisor in the students main area of specialization. The academic advisor and student will plan course work and other experiences to enable the student to meet program requirements and her/his academic goals.

Change of Advisor

If either the student or his or her assigned advisor prefers, the student can choose another advisor. The student must obtain a Change of Advisor form, located on the SHRS website under forms. The student must complete the form and secure the required signatures, and return the form to the Office of Student Services. As a general rule, students who have more than 50% of the credits required for graduation should not initiate change of advisor procedures.

Initial Responsibilities of the Advisor

Meet with each student advisee as soon as possible after admission to review goals, policies and procedures of the program, to assist the student in clarifying his or her educational goals, and to design a preliminary Plan of Study. The preliminary Plan of Study must be on file in Student Services by the end of the first term and then as revised.

Assist the student in selecting courses for the first term registration, sign all completed enrollment forms.

Ongoing Responsibilities of the Advisor

The student's advisor should continue to provide support by:

- being available to the student on a regular basis
- meeting with the student as needed prior to each registration and reviewing academic progress
- signing all completed necessary forms in a timely manner
- helping the student meet important deadlines, e.g. registration, application for graduation
- meeting with the student upon his/her notification of probationary status
- assisting the student to access resources as needed
- assist the student in creating, reviewing, and updating his/her Plan of Study according to undergraduate program and intended graduate program or professional requirements
- help ensure that that Plan of Study is submitted to Student Services and updated as necessary
- assist the student in planning internships or research projects
- ensure that the student takes the comprehensive examination (if required) at the earliest appropriate time. The term the student anticipated taking the examination should be included I the Plan of Study.

Allowable Credits

Transfer Credits

The completion of requirements for advanced degrees must be satisfied through registration at the Oakland Campus of the University of Pittsburgh. Graduate students already enrolled may, when approved in advance by their Department Chair and the Dean, spend a term or more at another graduate institution to obtain training or experience not available at the University of Pittsburgh and transfer those credits toward the requirements for an advanced degree at the University of Pittsburgh. In such instances, neither the University nor any of its components are responsible for providing any financial assistance to the graduate student.

Transcripts certifying graduate courses completed at another institution prior to admission to the University of Pittsburgh should be submitted at the time of application, and will be evaluated for acceptability as transfer credits early in the student's graduate career by the advisor and Department Chair.

For Master of Arts and Master of Science degrees, no more than six (6) credits may be transferred. The Office of Student Services will enter the transfer credits on the student's transcript. Grades (and quality points) are not recorded for credits accepted by transfer.
For **Professional Master and Clinical Doctorate Degrees**, no more than one-third of the total number of required credits may be granted to a student as transfer credit for work done at another accredited graduate institution.

For all **Master and Clinical Doctorate** a maximum of six (6) credits in undergraduate courses (numbered 1000 and above) may be included in the Plan of Study.

For **Doctor of Philosophy** up to 30 credits taken at the graduate level (2000 & 3000 level courses) toward a master's degree may be transferred. In all cases, at least 36 credits must be completed as a PhD student at the University of Pittsburgh. No Undergraduate credits (1000 level course) may be applied towards the doctoral degree. All transfer credits must be submitted to and approved by the Associate Dean of Graduate Studies.

Transfer credits will not be accepted for courses in which a grade lower than B (GPA = 3.000), or its equivalent, has been received. No credit is granted toward an advanced degree for work completed in extension courses, correspondence courses, or in the off-campus center or another institution unless those credits are approved for the equivalent graduate degrees at the institution, and provided that the institution has an accredited program.

**Undergraduate Courses in the Graduate Program**

A maximum of six (6) credits in undergraduate courses (numbered 1000 and above) may be included in the **Plan of Study**.

**Internships**

**Overview:**

An internship is a period of supervised, planned, practical experience providing an opportunity to apply previously learned skills or theories designed to complement the didactic phase of the academic program. The internship may be primarily clinical, teaching, or administrative in nature. Many programs require internship experiences, coordinated by the student's advisor or an identified Clinical Coordinator, who provides oversight regarding internship objectives and activities, administrative and contractual relationships with the site, and ensures that students meet all SHRS and site criteria.

**Core Requirements:**

Across all internship types and academic programs, internships share these requirements:

1. All internship sites must have a formal contract between SHRS and the site in place before a student participates in internship.
2. Prior to beginning the internship, students must meet all criteria required by the internship site and all relevant requirements specified by SHRS (e.g., legal and medical clearances, HIPAA training, documentation of health care coverage). The advisor or clinical coordinator will advise the student on specific requirements to be completed.
3. All students must register for the internship using the appropriate class number and number of credits specified within their plan of studies.
4. Programs may require students to complete an Internship Proposal Form before registering for the internship. This form documents the internship site, the site and SHRS supervisor, the internship objectives and activities, and the time commitment; it needs to be signed by both supervisors.
5. All registered SHRS graduate students are covered by University Liability Insurance, and are assessed an annual fee; the specific amount of the fee is subject to change.
6. Students must adhere to all applicable SHRS, departmental, and program policies regarding the internship.

**Grading of Internships:**

The advisor or clinical coordinator ensures that a timely process of evaluation of the student's progress occurs during the internship experience and considers this evaluation in assigning a final grade. Depending on departmental and program requirements, grades may either be Letter Grades or Honors/Satisfactory/Unsatisfactory (H/S/U).

**Detailed Information:**

Please see specific SHRS program information for additional information and requirements on internships.

**Clinical Internships:**
Clinical learning experiences are an integral part of SHRS professional programs. Clinical learning experiences provide the student with the opportunity to apply his/her knowledge in a supervised environment to develop clinical skills and judgment.

**General Policies:**

- Students must follow all policies of the University, SHRS, the department/program, and the assigned clinical site.
- Each program's Clinical Education Coordinator will assign students to their clinical education sites.
- All clinical education sites must have a current contract with the University of Pittsburgh.
- Students will follow the same procedure to register for clinical education courses as for other courses.
- Students should expect to travel during clinical education and are responsible for arranging/providing their own transportation. Students may be required to travel a distance or to relocate outside the area for his/her clinical education assignments.
- All expenses for transportation, parking, housing, meals, and cost of clinical education prerequisites associated with clinical education are the student's responsibility.
- Any student who misses clinical time for any reason must meet with his/her Clinical Education Coordinator to discuss any needed make-up time.

**Clinical Education Prerequisites:**

The following are required by all SHRS programs in which students participate in clinical education. Each program's Clinical Education Coordinator will advise the students of the deadlines for completion.

**Students are required to have a physical examination, including specific immunizations, completed prior to beginning clinical education and repeated annually or as required by the clinical site.** The student must submit the completed form according to the requirements of the department (e.g. Certified Profile, Clinical Education Coordinator).

**SHRS Initial Health Appraisal Form**

The Initial Health Appraisal Form must include the healthcare provider's printed name, credentials (circled), signature, date, and phone number. Download the Initial Health Appraisal Form from [http://www.studentaffairs.pitt.edu/shsforms](http://www.studentaffairs.pitt.edu/shsforms) Some departments have customized this form and will make the form available to students. Several requirements involve time for completion (i.e. titers for immunizations may take 4 weeks; Tuberculosis Screening/2 step PPD takes ~2 weeks).

NOTE: The majority of fieldwork sites require completion of the Hepatitis B vaccination. If you choose not to get the Hepatitis B vaccination, your ability to be assigned to fieldwork sites is restricted which, in turn, may delay your graduation from the program.

**SHRS Annual Health Appraisal Form**

The SHRS Annual Health Appraisal Form can be downloaded from [http://www.studentaffairs.pitt.edu/shsforms](http://www.studentaffairs.pitt.edu/shsforms) with customized versions available for individual departments.

**Students must provide proof of HIPAA training and certification.** The procedure for completing HIPAA certification titled UPMC Information Privacy and Security Awareness Training for Physicians, Mid-level Providers, and Staff working in University of Pittsburgh Covered Entities is as follows:

Go to [https://cme.hs.pitt.edu/servlet/IteachControllerServlet?actiontotake=displaymainpage&site=atoz](https://cme.hs.pitt.edu/servlet/IteachControllerServlet?actiontotake=displaymainpage&site=atoz); successfully complete the module; save/print your certificate; submit certificate per departmental instructions.

**Students must provide proof of Bloodborne Pathogen (BBP) training and certification.**

Go to [https://cme.hs.pitt.edu/servlet/IteachControllerServlet?actiontotake=displaymainpage&site=atoz](https://cme.hs.pitt.edu/servlet/IteachControllerServlet?actiontotake=displaymainpage&site=atoz); successfully complete the module; save/print your certificate; submit certificates per departmental instructions.

**Students must carry professional student liability insurance coverage while participating in clinical education.** This coverage is provided by the SHRS group insurance plan and the cost will be automatically included in the student's tuition bill each fall term.

**Students are required to carry personal health insurance while participating in clinical education.**

(Note: The Student Health Service fee does not constitute health insurance coverage.) For those interested, the University has joined with UPMC Health Plan to provide the UPMC Health Plan for Pitt Students. For information on this insurance plan please go to
Students are required to have a Pennsylvania Criminal Record Check completed prior to beginning any clinical education.

1. Complete on-line. The current address is: https://epatch.state.pa.us/Home.jsp
2. Click on “Submit a New Record Check”
3. Reason for request: EDUCATION
4. A social security number is not required.
5. The Criminal Abuse clearance form is not submitted until you enter credit card information.

Students are required to have a Pennsylvania Child Abuse Clearance completed prior to beginning any clinical education. Go to the following website: www.dhs.pa.gov. Scroll down to find and then print the Pennsylvania Child Abuse History Clearance Form (CY-113) form and fill it out.

1. The purpose of the clearance is "Employment with a significant likelihood of regular contact with children."
2. Be sure to sign it - this is a common mistake and it delays the process by 1 month
3. Make sure you enclose the money order made out to "Department of Public Welfare".
4. Beware - this can take up to 8 weeks even though the website says 14 days!

Students are required to obtain CPR Training and Certification prior to any clinical education. If a student's CPR certification expires prior to the end of clinical education, the student will need to re-certify. Certification can be obtained from numerous organizations including the Center for Emergency Medicine (http://www.centerem.org) or the American Heart Association (http://www.americanheart.org).

Students must comply with their program's and the assigned clinical facility's dress/appearance code.

Some SHRS programs or clinical sites may have additional requirements that must be met to be eligible to participate in clinical education. Each program's Clinical Education Coordinator will advise the students of these requirements and the deadlines for completion. These requirements may include:

1. Completion of a FBI Background Check or Criminal Record Check from another state
2. Drug screening
3. Attendance at a clinical facility orientation session
4. Any other requirements as specified by the clinical facility

Registration and Add/Drop Process

A student must be registered for at least one credit in a twelve (12) month period from the time of admission until the degree is granted in order to maintain active status. Those students who fail to observe this rule will be placed on inactive status and will have to seek formal readmission in order to continue in the program. If active status is not maintained, the student is not permitted to use University facilities or receive counseling or active supervision by a faculty member, advisor, or committee.

Student Enrollment Process

Prior to enrolling you must meet with your academic advisor within your department to determine your courses, complete enrollment form if required by your department (signed by you & advisor). The schedule of Classes can be found on the University Registrar's website at http://www.registrar.pitt.edu/courseclass.html.

Be sure to pay attention to any Special Indicators noted for the course (@, R, etc.) and go to the Schedule of Classes Guide on p.4 to see what they mean. Most of these are here to inform you of courses that require special permission. If courses require permission, please seek permission from the instructor of the course. You may do so via email with the instructor. If it is a course within SHRS see the Student Services Coordinator with proof of permission for a "permission number." If it is a course outside of SHRS you will need to receive a "permission number" from the school in which the course is offered. You will need this "permission number" in order to register for a closed/restricted course in PeopleSoft.

Resolve any holds that you may have on your account with the respective departments that have placed the holds or they will prevent you from registering for your classes.
Demos/handouts on how to do your Self-Enrollment are available in PeopleSoft. Go to the Portal www.my.pitt.edu, University Services & Information tab, and then click on Self Service Enrollment. Handouts/demos are available on the following:

- Preparation Steps
- Adding a Class
- Dropping a Class
- Editing a Class
- Swap a Class
- Waitlist a Class

**Add/Drop Process**  

Students are allowed to add or drop classes until the end of the second week of classes each fall and spring term. Add/drop during the summer sessions is dependent on the length of the class session. (See University Academic Calendar for specific dates.) The following is a typical add/drop process:

- Students should make an appointment with their advisor to discuss adding/dropping courses
- Once approved by the advisor, students will make the enrollment changes online

**Problem with Enrollment After the Add/Drop Deadline**  

Should a student find an error in their enrollment after the add/drop period had ended, a formal memo is required from the student's advisor to the SHRS, Director of Student Services, Registrar. This memo will need to include the student name, PeopleSoft number, the course(s) to be added or dropped (subject, name & section), the number of credits, and the reason for the error. If the error is the student's fault, the student will be charged a late fee at the discretion of the main University of Pittsburgh Registrar. If the fault is with the Department the student is enrolled, that department Chair can provide an account number in which the late charge is to be paid from.

Upon approval from the SHRS Director of Student Services, Registrar the memo will be submitted to the University of Pittsburgh Registrar to process the exception.

**Monitored Withdrawal**  

After the add/drop deadline has passed, the student must process a Monitored Withdrawal Request form to drop a class. (See University Academic Calendar for deadlines to process a Monitored Withdrawal.) Student should consult with academic/faculty advisor before withdrawal from course(s). The form must be signed by the instructor of the course and be returned to the Director of Student Services, Registrar, 4024 Forbes Tower within the first nine weeks of the term in the fall and spring.

Because summer sessions vary in length, students should check the summer Schedule of Classes for those deadlines. The grade W will appear on the student's grade report and transcript. There is no tuition adjustment associated with a course withdrawal. Please note, withdrawing from a course may jeopardize satisfactory academic progress, financial aid, and assistantships or fellowships.

**Resignation from All Courses and SHRS**  

If you are considering resigning for the term (academic withdrawal from all of your classes), please discuss your situation with your academic advisor, a Financial Aid counselor, or a staff member in the Office of Student Appeals to be certain you understand all of your options and obligations.

The effective date of your resignation determines if you are eligible for an adjustment in the tuition and fees you were charged for the term. The effective date of your resignation will normally be the date you notify the University by one of the methods listed on the Student Payment Website under Resignation. You are responsible for satisfying all financial obligations accumulated until the time you officially resign. The timing of your resignation also has an impact on how grades are recorded on your transcript. The last day to resign from a term is when sixty percent of the term has passed.

Please visit the Student Payment center resignation page on the University of Pittsburgh website for more information.
Grading Policy and Records

Grade Point Average (GPA)
The GPA is a numerical indication of a student's academic achievement based on a 4.000 grade point scale. The University letter grade system identified below will be followed without exception:

<table>
<thead>
<tr>
<th>Grade Quality Points</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>

Course Grading
The method of evaluation and grading is the prerogative of the course instructor and is based on the course objectives and expectations. SHRS faculty have the option of issuing "+" or "-" grades. SHRS faculty have the option of assigning letter grades or HSU evaluations, as printed in the course catalog and determined at student's enrollment.

Students will be apprised of the evaluation procedure by the instructor at the beginning of each course. It is the student's responsibility to request clarification of any evaluation or grading policy.

SHRS Policy and Procedure for G and I Grades

G Grade Policy
Student's assigned G (incomplete) grades due to course work unfinished because of extenuating personal circumstances, are required to complete course requirements no later than one year after the term in which the course was taken. Once the deadline has passed, the G grade will remain on the record, and the student will be required to re-register for the course if it is needed to fulfill requirements for graduation. Students will not be permitted to register for courses in which a prerequisite course resulted in a 'G' grade, unless approval has been obtained by the Department/Program Chair, or their designee.

I Grade Policy
The I grade indicates that the work of the course for which it is awarded has not been completed due to the nature of the course, clinical work, or incomplete research work in individual guidance courses or seminars. It is to be awarded only to students who have been doing the regular work of the course but who need more time than the term allows to complete the course work. That is, the extenuating circumstances ought to arise from the nature of the course work rather than from the student's personal difficulties (in which case a G grade is appropriate; see above).

Starting the fall of 2016, all incomplete grades are expected to be completed by no later than the end of the next consecutive semester. It is the responsibility of the faculty member to clearly state to the student the expected due date.

- If the incomplete grade is given in the spring, it is expected to be completed by the end of the summer term in August.

Action required by the student and faculty member for a "G" or "I" grade:

1. If the incomplete grade is given in the spring, it is expected to be completed by the end of the summer term in August.
2. If the incomplete grade is given in the fall, it is expected to be completed by the end of the next consecutive semester.

745
The student, faculty and advisor are to fill out a Completion Agreement of Incomplete Credits Form (Form can be found on the SHRS website)

A copy of this agreement will need to be submitted to Student Services, no later than the end of the add/drop period for the current semester. Failure to submit this form before the end of the add/drop period will result in an automatic change to a failing grade. Student Services, will be following up on any Incompletes or G grades that are not changed within the expected timeframe at the end of every term.

**Satisfactory/No Credit (S/NC) grading option**

Prerequisite and required courses must be taken for a letter grade when available, and a student must earn a C or better.

**Repeating Courses**

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The grade earned by repeating a course is used instead of the grade originally earned. Withdrawal (W), Repeat (R), and Audit/Non-Credit (N) grades reported for the repeated course will not be identified as a course repeat, and therefore the original grade earned will continue to be counted in the GPA.
- Incomplete grades (G and I) are not identified as repeated courses until the coursework is completed.
- Students are only permitted to repeat a course once. Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.
- Students seeking to repeat other non-SHRS (prerequisites, electives, etc.) courses will be permitted to do so at the discretion of the program director.

**Statute of Limitations on Allowable Coursework**

The purpose of the statute of limitations is to ensure that a graduate degree from the University of Pittsburgh represents mastery of current knowledge in the field of study. All requirements for MA and MS degrees must be completed within a period of four consecutive calendar years from the student's initial registration for graduate study; all professional master's within five years (includes both full time and part time students). Dual degrees and joint degrees that require course work in excess of 50 credit hours may be granted a longer statute of limitations by the University Council on Graduate Study.

From the student's initial registration for graduate study, all requirements for the PhD degree must be completed within a period of 10 years or within eight years if the student has received transferr credits. A student who is unable to complete all degree requirements within a five-year period after passing the comprehensive examination may be re-examined at the discretion of the department or school. Programs for professional doctoral degrees, for which the majority of candidates pursue part-time study while working full-time within their chosen disciplines, may be granted a longer statute of limitations by the schools offering the degrees.

Under exceptional circumstances, a candidate for an advanced degree may apply for an extension of the statute of limitations. The request must be approved by the department or departmental committee (master's or doctoral) and submitted to the Associate Dean of Graduate Studies for final action. Requests for an extension of the statute of limitations must be accompanied by a departmental assessment of the work required of the student to complete the degree as well as documented evidence of the extenuating circumstances leading to the requested extension. Students who request an extension of the statute of limitations must demonstrate proper preparation for the completion of all current degree requirements.

**Leave of Absence**

Under special conditions, graduate students may be granted one leave of absence. A maximum leave of two years may be granted to doctoral students or one year to master's students. All requests for a Leave of Absence should be put in writing to the Associate Dean of Graduate Studies. The length
and rationale for the leave of absence must be approved by the Associate Dean. If approved, the time of the leave shall not count against the total time allowed for the degree being sought by the student.

Probation, Suspension and Dismissal Policy

Graduate students who have completed at least 9 credits and whose cumulative GPA falls below a 3.000 will be placed on academic probation and/or suspension and will receive written notification of this status. At this point it is the student's responsibility to meet with his or her advisor.

To be removed from academic probation, the student will need to achieve a cumulative GPA of 3.000 within his or her next two terms of study. Failure to do so may subject the student to recommendation for immediate dismissal from the program by the Department Chair, in collaboration with the Associate Dean of Graduate Studies.

Students who fail to demonstrate progress toward meeting graduation requirements in a timely manner may be placed on academic probation or recommended for dismissal from the program by the Department Chair, in collaboration with the Associate Dean of Graduate Studies. SHRS reserves the right to terminate a student at any time for academic or other reasons.

Dismissal from the program is at the discretion of the SHRS Dean. Notwithstanding the foregoing, in the event it is not mathematically possible for a student to remediate their cumulative program GPA within their next two terms of study the student may be immediately dismissed.

A student may appeal their dismissal with the University of Pittsburgh Provost office.

Graduation Requirements

Graduation Requirements for a Graduate degree from the School of Health and Rehabilitation Sciences are as follows:

- satisfactory completion of required credits
- minimum cumulative GPA 3.000
- the GPA will be calculated as a composite of all courses taken at the University of Pittsburgh and counting toward completion of the degree
- completion of all requirements for the program in which student has enrolled
- no outstanding D, F, G or I grades in a required course
- updated and approved Plan of Study on file in Student Services, 4019 Forbes Tower
- An application for graduation must be filed in the SHRS Office of Student Services, based on the deadlines determined for that term. Email notification of theses deadlines will be sent to students in the prior term. The graduation application is available on the SHRS website under forms.
- no unresolved financial obligations to the University
- student must be considered an "active student" at time of graduation; s/he must have been registered for at least one credit at the University of Pittsburgh within the last three terms or sessions
- students may not enroll in courses outside the University of Pittsburgh in the semester they are graduating

Graduate and Professional Student Association

The SHRS Graduate and Professional Student Organization (SHRS GPSO) is a member of the Graduate and Professional Student Government (GPSG) of the University of Pittsburgh. All full- time and part-time graduate students of the School of Health and Rehabilitation Sciences who have active status, as defined by the School, and who are in good standing, as defined by the University, are members of the SHRS GPSG. Information on this organization is located at the website given below. Further information on becoming active in this organization can be obtained by sending an email to: shrssab@shrs.pitt.edu.

The GPSG of the University represents the interests of all graduate and professional students at the University of Pittsburgh. It also serves as the umbrella organization for graduate and professional student organizations within the University. The Assembly Board governs GPSG, and is made up of four executive officers in addition to representatives from each graduate school and the six Assembly Board groups. Held on a monthly basis, Assembly Board meetings are open to all graduate and professional students.
Disability Resources and Services

Students with disabilities who require special testing, accommodations or other classroom modifications should notify no later than the 4th week of the term:

- their Department Chair
- their instructor(s)
- the Office of Disability Resources and Services (DRS)

Students will be asked to provide documentation of any necessary accommodations as prescribed by DRS. For more information, go to: http://www.studentaffairs.pitt.edu/drswelcome.

Veteran Benefits

Veterans and dependents of disabled or deceased veterans may be eligible for benefits according to federal administration guidelines. The University has an Office of Veterans Services located on the fourth floor of the Cathedral of Learning (www.veterans.pitt.edu). For additional information on Veterans Education Benefits, visit www.gibill.va.gov.

School of Health and Rehabilitation Sciences Faculty

SHRS Faculty

Programs and Course Offerings

Department of Communication Science and Disorders

Master of Arts and Master of Science Degrees in Communication Science and Disorders

The Communication Science and Disorders program provides students with a specialized academic education in communication processes and disorders, including disorders of speech, language, swallowing, and hearing; the anatomical, physiological and cognitive mechanisms that subtend these pathologies; the knowledge and skills needed to critically evaluate empirical research; and clinical expertise in the diagnosis and treatment of individuals having communicative disorders.

The master's degree program has two concentrations: One in speech-language pathology and one in audiology. There is also an option for meeting public school practice requirements. For students interested in the clinical practice degree in audiology, please see the section on the Doctor of Audiology (AuD) degree in this bulletin.

A research track (resulting in the Master of Science degree) in audiology and speech-language pathology is also available.
The Master of Arts and Master of Science degree education programs in speech-language pathology at the University of Pittsburgh are accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Contact Information

Department of Communication Science and Disorders

http://www.shrs.pitt.edu/CSD/

General Admission Requirements (CSD MA/MS) Degree

- A baccalaureate degree from an accredited institution. Applicants who do NOT have a CSD major will need to satisfactorily complete the prerequisite coursework listed below.
- A minimum overall and prerequisite GPA of 3.0 is required. However, a GPA of 3.5 or higher is strongly recommended.
- A grade below C- in a CSD major or prerequisite course is not acceptable and should be repeated. Applicants who do not meet the minimum requirements for admission may be considered if strong evidence of their ability to complete a graduate program is provided.
- Ability to satisfactorily perform all of the technical standards required for this profession.
- Graduate Record Examination scores (GRE-general). The GRE MUST be within the past 5 years

Prerequisite Coursework

Applicants should have a minimum of one 3-credit course in each of the following topic areas:

- Anatomy and Physiology of Speech and Hearing
- Language Development
- Speech and Hearing Science
- Transcription Phonetics
- Linguistics

ASHA Requirements

Please note that, in order to be eligible for clinical certification by the American Speech-Language-Hearing Association, you must meet the standards specified by the Association's Council for Clinical Certification. This includes satisfactory completion of at least one 3-credit course in each of the following areas prior to starting the graduate program: Biological Sciences (Human Biology, Anatomy & Physiology), Physical Sciences (Physics, Chemistry), Behavioral Sciences (Sociology, Psychology), Statistics (not research design).

Information for International Applicants

All international degrees will need a credential evaluation. We only accept a 4 year bachelor's degree or those international degrees that are equivalent as determined by one of the following transcript evaluators: International Consultants of Delaware, Educational, Credential Evaluators or Joseph Silny & Associates. **We do NOT accept evaluations by World Education Services (WES).** The program's foreign transcript policies do not apply to study abroad coursework that is itemized on a US college or university transcript. (Study Abroad is processed in the same way as US coursework.) International applicants that have earned an undergraduate or graduate degree in the United States do not need a transcript evaluation.

International applicants whose native language is not English must complete a test of English Language Proficiency within 12 months of the due date of the application. Applicants from Quebec Province are required to submit TOEFL or IELTS scores, otherwise Canadian applicants are exempt from the English language proficiency requirement.

Your application for admission will not be reviewed until your credential evaluation and TOEFL scores are received by CSDCAS.
Doctor of Clinical Science (CScD) Degree in Speech-language Pathology

The CScD is an advanced clinical doctorate recommended for the student or clinician seeking to employ state of the art clinical excellence and leadership as a speech-language pathologist in settings such as modern primary, tertiary, or rehabilitation medical centers and academic institutions.

The primary objectives of the CScD program are to provide new and continuing graduate students and returning clinicians with advanced academic course work, clinical skills, case based learning experiences, medical team rotations, and extensive mentored clinical practice. Graduates of this program will excel in their medical specialties and assume leadership roles. Graduates will be prepared for independent clinical practice in the medical setting and clinical faculty positions.

Students are expected to meet the eligibility requirements for application for both American Speech Language and Hearing Association certification (Certificate of Clinical Competence CCC-SLP) and Pennsylvania state licensure over the course of their studies. There is no dissertation project required for the CScD degree, however, students will demonstrate expertise in the critical analysis and application of scientific information.

Contact Information

CScD Administrator
Department of Communication Science and Disorders
School of Health and Rehabilitation Sciences
6035 Forbes Tower
412-383-6540
Fax: 412-383-6555
Email: csdadmissions@shrs.pitt.edu
www.shrs.pitt.edu/csd

Admission Requirements

A CSD MS/MA is required in order to fulfill the clinical component of this program.

Once your application is complete, it will be forwarded to the CSD Department for review by the CScD Admissions Committee.

Applicants will be required to participate in interviews addressing content knowledge and discussions of the program.

The department has a rolling admissions process with an application deadline of December 1st to begin the program the following summer term. All application materials must be received by the SHRS Admissions office (4020 Forbes Tower, Pittsburgh, PA 15260) by the deadline. Applicants are encouraged to apply early due to the length of time required to secure a clinical position. Rolling admissions means the department will review and admit qualified applicants until a class is full.

All applicants considering the CScD must email CSD admissions before starting the application process.

Students with master's or doctoral degrees in speech-language pathology, with or without a completed clinical fellowship, may apply for advanced academic and clinical standing. All students must complete a minimum of 87 credits to satisfy didactic and clinical requirements for this degree. Eight credits of advanced standing toward CSD 2520 will be awarded to those entering the program with their Certificate of Clinical Competence (CCC). No more than one-third of the total number of required credits (87) may be granted to a student as transfer credit for work done at another institution. These credits must be appropriate substitute coursework taken beyond what was required for the MA/MS degree. Where a course and/or clinical/teaching experience is/are being considered as a substitute for a CScD requirement, the candidate must show evidence of having attained the CScD course objectives. The request will be considered by the CScD Plan of Study Committee. Approval by both members of the committee and the course instructor of record (for CScD courses) are required for approval of the course substitute.

A successful applicant will be offered conditional admission contingent upon:
• Securing a one-half time clinical fellowship or post clinical fellowship position as a speech-language pathologist in a facility with which the academic department has a working relationship. The department will help locate possible positions, but it is the responsibility of the candidate to successfully secure the position following normal hiring practices at the specific facility.
• Engaging in unsupervised clinical practice in Pennsylvania. To engage in unsupervised clinical practice, you must obtain a Pennsylvania state license.
• Please be advised that maintenance of the clinical practice above and the State License are mandatory throughout your time in the program. Failure to maintain these requirements is grounds for dismissal from the program, as they are essential components of the academic program.

All applicants are advised to ensure that they meet the certification and licensing requirements before applying to the program. Queries must be addressed by ASHA or the PA State Board - the University of Pittsburgh cannot address these queries.

University of Pittsburgh SHRS requires that applicants have the equivalent of a master's degree in Communication Science and Disorders from a regionally accredited institution in the US.

**Doctor of Audiology (AuD) Degree**

The primary objectives of the AuD program are to provide students with academic course work as well as the clinical skills and experience (beyond that obtained with the master's degree) to enter the professional community and assume independent leadership roles. Graduates will be prepared for independent clinical practice and academic positions upon graduation and will be immediately eligible for professional licensure and for Certification of the American Speech-Language and Hearing Association and American Board of Audiology Certification.

The AuD is the required entry-level degree for audiologists. This AuD program prepares entry-level audiologists to assume independent clinical and leadership roles within the professional communities of the region, state, and nation.

The Doctor of Audiology degree education program in audiology at the University of Pittsburgh is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Fax: 412-383-6555  
E-mail: csdadmissions@shrs.pitt.edu  
www.shrs.pitt.edu/aud/

**General Admission Requirements AuD Degree**

• A baccalaureate degree from an accredited institution. Applicants who do NOT have a CSD major will need to satisfactorily complete the prerequisite coursework listed below.
• A minimum overall and prerequisite GPA of 3.0 is required. However, a GPA of 3.5 or higher is strongly recommended.
• A grade below C- in a CSD major or prerequisite course is not acceptable and should be repeated.
• Applicants who do not meet the minimum requirements for admission may be considered if strong evidence of their ability to complete a graduate program is provided.
• Ability to satisfactorily perform all of the technical standards required for this profession.
• Graduate Record Examination scores (GRE-general). The GRE MUST be within the past 5 years.

**Prerequisite Coursework**

Applicants should have a minimum of one 3-credit course in each of the following topic areas:

• Anatomy and Physiology of Speech and Hearing
ASHA Requirements

Please note that, in order to be eligible for clinical certification by the American Speech-Language-Hearing Association, you must meet the standards specified by the Association's Council for Clinical Certification. This includes satisfactory completion of at least one 3-credit course in each of the following areas prior to starting the graduate program: Biological Sciences (Human Biology, Anatomy & Physiology), Physical Sciences (Physics, Chemistry), Behavioral Sciences (Sociology, Psychology), Statistics (not research design).

Information for International Applicants

All international degrees will need a credential evaluation. We only accept a 4 year bachelor degree or those international degrees that are equivalent as determined by one of the following transcript evaluators: International Consultants of Delaware, Educational Credential Evaluators or Joseph Silny & Associates. We do NOT accept evaluations by World Education Services (WES). The program's foreign transcript policies do not apply to study abroad coursework that is itemized on a US college or university transcript. (Study Abroad is processed in the same way as US coursework.) International applicants that have earned an undergraduate or graduate degree in the United States do not need a transcript evaluation.

International applicants whose native language is not English must complete a test of English Language Proficiency within 12 months of the due date of the application. Applicants from Quebec Province are required to submit TOEFL or IELTS scores, otherwise Canadian applicants are exempt from the English language proficiency requirement.

Your application for admission will not be reviewed until your credential evaluation and TOEFL scores are received by CSDCAS.

Graduate students must have a 3.000 cumulative GPA to be eligible to graduate.

Graduate students who have completed at least 9 credits and whose cumulative GPA falls below a 3.000 will be placed on academic probation and will receive written notification of this status. At this point it is the student's responsibility to meet with his or her advisor. In order to be removed from academic probation, the student will need to achieve a cumulative GPA of 3.000 within his or her next two terms of study. Failure to do so may subject the student to immediate dismissal from the program at the discretion of the Department Chair. Students who fail to demonstrate progress toward meeting graduation requirements in a timely manner may be placed on academic probation or be dismissed from the program at the discretion of the Department Chair.

Academic Standards

In addition to following the University-wide academic rules and regulations as detailed in the General Academic Regulations section of this bulletin, the AuD program is regulated by the SHRS Academic Standards, as well as the departmental Student Handbook on Academic and Clinical Requirements.

Doctor of Philosophy Degree in Communication Science and Disorders

Contact Information

Michael Walsh Dickey, PhD
Associate Professor
6077 Forbes Tower
Phone: 412-383-6721
Email: mdickey@pitt.edu

The PhD program in Communication Science and Disorders is oriented toward the basic scientific questions in the discipline, with an emphasis on basic and applied research.
The expectations of graduating PhD students are that they are able to conduct a program of independent, creative, scholarly research and that they can plan and execute effective teaching at all levels of pedagogy.

**Admission Requirements**

Applicants will apply online using the SHRS Apply Yourself application. It is the responsibility of the applicant to complete all admission requirements prior to enrollment.

Applicants should submit their GRE scores to institution code 2927. For PhD applicants who have taken the GRE 5-10 years prior to their application, the Communication Science and Disorders PhD program will accept a copy of the official GRE scores that were sent to the applicant. After 10 years, all applicants will need to retake the examination.

For PhD applicants who completed a graduate program in the Communication Science and Disorders Department at the University of Pittsburgh, the only official transcript required at the time of application for the PhD program is the transcript that confirms completion of the first CSD graduate degree.

No one will be admitted to the CSD PhD program without a suitable adviser in their main area of specialization. Thus, anyone interested in PhD education are encouraged to contact individual faculty members whose research interests mesh most closely with theirs.

PhD applications are evaluated on a rolling basis. Applicants will be interviewed by faculty members as part of the admissions process. A final admission decision depends on the availability of a suitable research adviser and a vote of the CSD faculty.

Foreign transcript evaluation must be completed by International Consultants of Delaware, Educational Credential Evaluators, Inc. or Joseph Silney & Associates. We do NOT accept transcript evaluations by WES. The program's foreign transcript policies do not apply to study abroad coursework that is itemized on a US college or university transcript.

International applicants must also submit official TOEFL scores.

**Financial Aid**

Acceptance into the PhD program does not guarantee financial aid, but each admitted student is automatically put into a merit-based competition for available teaching assistantships, doctoral traineeships, and positions on research grants. Financial assistance is often available from a variety of sources, including teaching assistantships, PhD traineeships, targeted Clinical Fellowship Years, and graduate research assistantships. Such appointments typically require 20 hours each week of teaching, research, and/or clinical service, in exchange for a monthly stipend. A scholarship based on merit covers at least partial tuition remission, fees, and health insurance. The Department's Financial Aid Committee works with each admitted student's adviser to secure a funding opportunity that is rewarding academically and financially. Prospective applicants who are interested in financial support should indicate this on their application for admission.

**Master's**

**Communication Science and Disorders - Audiology Concentration, MA/MS**

Communication Science and Disorders Program Requirements

**Proseminar Requirement**

All students must complete the proseminar requirement, which consists of attending a specified number of scientific and professional presentations that have relevance to communication science and disorders.
Clinical Practicum

Clinical practicum requirements are met in Communication Science Disorders Clinical Network which consists of more than 100 facilities in Western Pennsylvania with which the program is affiliated. These include hospitals, home based services, specialty clinics, not-for-profit clinics, early intervention, and private practices in the area, as well as public and private schools. All course work and practicum credits must be completed with a minimum grade of C to satisfy requirements for the degree.

Comprehensive Exam for MA

All students in the Master of Arts program are required to pass an oral comprehensive examination in the spring of their second year. The comprehensive examination assesses students' ability to think critically, to communicate their thoughts in oral form, and to demonstrate their grasp of the major academic and clinical content provided in their graduate program.

Students seeking the Doctor of Audiology (AuD) degree must complete a second comprehensive examination including a written and oral component. Details about that comprehensive examination can be found in the section on the AuD degree.

Thesis Option for Master of Science (MS) degrees

Students pursuing the Master of Science degree in audiology must successfully complete a thesis project. Students who complete a Master's thesis are exempt from the comprehensive examination. Thesis students will have an examining committee of at least three University of Pittsburgh faculty members, including the research director, who serves as chair.

Additional requirements are outlined in the academic handbook, which is distributed to students at the beginning of their academic programs.

Concentration

This program is designed for those students who do not plan to provide clinical services, but would like to pursue a research track in audiology. Students pursuing the AuD degree (Clinical Doctorate) may also pursue a research track. The audiology concentration for the master's degree requires 68 credits of coursework. All credits must be passed with a B grade or better in order to count for graduation.

Audiology Curriculum

- CSD 2021 - CLINICAL PROCEDURES LAB 1-1
- CSD 2022 - CLINICAL PROCEDURES LAB 2-2
- CSD 2038 - PHYSLGCL & PSYCHLGCL ACOUSTCS
- CSD 2040 - AUDIOLOGICAL ASSESSMENT
- CSD 2041 - MANAGEMENT OF ADLT HEARNG LOSS
- CSD 2042 - AUDIOLOGICAL ASSESSMENT LAB
- CSD 2044 - DIFFERENTIAL DIAGNOSIS
- CSD 2045 - PHYSIOLOGICAL ASSESSMENT
- CSD 2046 - PEDIATRIC EVALUATION
- CSD 2047 - AMPLIFICATION 1
- CSD 2048 - SOUND & VIBRATION: MSRMT & MGT
- CSD 2049 - AGING AUDITORY SYSTEMS
- CSD 2051 - CLINICAL PROCEDURES LAB 1-2
- CSD 2052 - CLINICAL PROCEDURES LAB 2-3
- CSD 2053 - CLINICAL PROCEDURES LAB 2-1
- CSD 2055 - PEDIATRIC AUDIOLOGIC REHAB
Communication Science and Disorders - Speech-Language Pathology
Concentration, MA/MS

Communication Science and Disorders Program Requirements

Proseminar Requirement

All students must complete the proseminar requirement, which consists of attending a specified number of scientific and professional presentations that have relevance to communication science and disorders.

Clinical Practicum

Clinical practicum requirements are met in Communication Science Disorders Clinical Network which consists of more than 100 facilities in Western Pennsylvania with which the program is affiliated. These include hospitals, home based services, specialty clinics, not-for-profit clinics, early intervention, and private practices in the area, as well as public and private schools. All course work and practicum credits must be completed with a minimum grade of C to satisfy requirements for the degree.

Comprehensive Examination

Comprehensive Examination for the Master of Arts (MA) degree

All students in the Master of Arts program are required to pass a comprehensive examination. The comprehensive examination assesses students' ability to think critically, to communicate their thoughts in written and oral form, and to demonstrate their grasp of the major academic and clinical content provided in their graduate program.

Students pursuing the Master of Arts (MA) degree in communication disorders with a concentration in speech-language pathology must satisfactorily complete a one-credit course, typically taken in the fall or spring term of their last year in the graduate program. The course includes a final oral examination which consists of a brief presentation by the student followed by an extended question and answer session by selected members of the faculty. Requirements for passing the comprehensive examination course are provided in the course syllabus.

Thesis Option for Master of Science (MS) degrees

Students pursuing the Master of Science degree in speech-language pathology must successfully complete a thesis project. Students who complete a Master's thesis are exempt from the comprehensive examination. Thesis students will have an examining committee of at least three University of Pittsburgh faculty members, including the research director, who serves as chair.

Additional requirements are outlined in the academic handbook, which is distributed to students at the beginning of their academic programs.
Concentration

The master's degree program with a concentration in speech-language pathology has a generally predefined curriculum with some options for electives. Students have the option to take either an adult or pediatric hearing management course. Students participate in at least 10 credits of practicum and have the option to complete a School Practicum making them eligible for State of Pennsylvania Educational Certification in Speech-Language Impaired.

Program Requirements

The program is designed to be completed within 6 terms, with the majority of students completing the requirements in 5 terms. Course work must be passed with a C grade or better in order to count for graduation and to qualify the student for the comprehensive examination.

General Clinical Track

This track requires 60 credits distributed as follows: Required Coursework (50 credits) and Clinic Practicum (10 credits).

Public School Option

For school certification, students must complete the regular master's degree requirements plus the following: a 3 credit child/human development course (typically taken as an undergraduate); a Language Development course (typically taken through the CSD undergraduate program); a one credit School-based Services course; and CSD 2067 School Practicum (4 days per week for a full semester). Additionally, the student must pass specific Praxis examinations as required by the Pennsylvania Department of Education (PDE).

The progression of courses for the general clinical requirements and the public school option are outlined on the Department's web site. Includes the following Program Curriculum.

Curriculum

- CSD 2020 - AUDIOLOGICAL ASSESSMENT SLP STUDENTS
- CSD 2042 - AUDIOLOGICAL ASSESSMENT LAB
- CSD 2039 - MOTOR SPEECH DISORDERS
- CSD 2041 - MANAGEMENT OF ADLT HEARING LOSS or
- CSD 2055 - PEDIATRIC AUDIOLOGIC REHAB
- CSD 2060 - PROSEMINAR - MA
- CSD 2062 - INTRO CLINCN-CLIENT COMNCTNS
- CSD 2063 - DVLPNG CLINCN-CLIENT COMNCTNS
- CSD 2064 - INTRO CLINICAL DECISION-MAKING
- CSD 2070 - ARTICLTN & PHONOLOGICAL DISORDR
- CSD 2071 - CHILD LANGUAGE DISORDERS
- CSD 2072 - FLUENCY DISORDERS
- CSD 2073 - VOICE DISORDERS
- CSD 2074 - CLEFT PALATE
- CSD 2075 - APHASIA
- CSD 2076 - DYSPHAGIA
- CSD 2077 - AUGMENTATIVE COMMUNICATION
- CSD 2081 - RESEARCH STRATEGIES & TACTICS
- CSD 2082 - PROFESSIONAL ISSUES
• CSD 2250 - CHILD LANGUAGE DISORDERS 2
• CSD 2275 - COGNITIVE COMMUNICATIVE DISORDERS

Optional

• CSD 2500 - MEDICAL SPEECH PATHOLOGY
• CSD 2514 - SCHOOL BASED SERVICE DELIVERY

Clinical Practice

(variable, minimum of 10 credits)

• CSD 2059 - AUDIOLOGY PRACTicum NETWORK - SLP
• CSD 2065 - SPEECH PRACTicum NETWORK
• CSD 2066 - SPEECH PRACTicum OUTPLACEMENT
• CSD 2067 - CLINIC PRACTice IN SCHOOLS

Other Requirements:

• CSD 2069 - SLP MASTERS COMPREHENSIVE

Thesis Option

• CSD 2000 - RESEARCH & THESIS MASTR'S DEGR

Doctoral

Communication Science and Disorders, PhD

Program Requirements

A minimum of 72 credits beyond the bachelor's degree level is needed for the PhD degree in communication science and disorders at the University of Pittsburgh. For further detail on allowable credits, see Credit Requirements under Regulations Pertaining to Doctoral Study.

All CSD PhD students are required to take the PhD Research Seminar (CSD 3048) and a minimum of three additional departmental PhD seminars: one in speech/language/voice/swallowing, one in hearing, and one in the student's major area of study.

CSD PhD students also take a minimum of 12 credits of coursework in statistics and experimental design, and 6 credits of PhD research practicum. Until they begin their comprehensive examinations, PhD students are required to attend the departmental Proseminar (CSD 3060), to participate in poster sessions, attend invited colloquium talks, and present "think aloud" talks about their own research, at whatever stage it is in its development. After they begin the comprehensive examination, students are welcome but not required to participate in these experiences. Students also have the opportunity to take courses in teaching and grant preparation, and to complete teaching practica.

Four formal degree requirements must be satisfied before a student initiates PhD dissertation work:

1. No later than the second term of study, students, with the help of their major advisers, develop a proposed Plan of Study that specifies their background, goals, and tentative plans for their program of study. Students schedule a Plan of study meeting with a faculty committee, to review this document and their plans (see Major Adviser and Advising Committees, below).
2. Annually after the initial plan of study meeting, the student compiles an academic portfolio, until the time at which the student takes the comprehensive examination. The portfolio consists of at least three new pieces of scholarly work that are provided to the student's Plan of Study Committee prior to an annual review meeting. The student's Plan of Study will also be reviewed at these annual meetings.
3. The student must complete a pre-dissertation research project, culminating in a publishable data-based manuscript resulting from a research practicum experience. This project must be completed prior to initiating the comprehensive examination.

4. The student must pass a comprehensive examination consisting of two substantive written projects and an open-ended oral examination.

   Students on provisional or special status, or on probation, are not eligible to take the comprehensive exam. Students must then successfully complete both the written dissertation overview (prospectus document) and oral examination of their prospectus. After the prospectus is passed, students file an application for admission to candidacy for the Doctor of Philosophy degree. For details see below and also Admission to Candidacy for the Doctor of Philosophy Degree in this bulletin for details.

**Major Adviser and Advising Committees**

Students admitted to the PhD program are assigned a major adviser in their main area of specialization. The adviser is primarily responsible for providing assistance and advice to the student throughout all facets of the PhD program, and typically serves as the chair of the Plan of Study, Comprehensive Examination, and Dissertation Committees. Either PhD students or their advisers may initiate a change of adviser, but no student may remain in the program without an adviser.

The student, upon consultation with the major adviser, secures the agreement of at least two other departmental faculty members with graduate faculty status to serve with the adviser on the student's Plan of Study Committee. This committee initially convenes to review and make recommendations about the student's Plan of Study. Thereafter, the committee meets annually with the student to review and make recommendations about the student's portfolio and general progress in the PhD program. This committee, with or without changes in faculty membership, also administers and evaluates the student's comprehensive examination.

*See Doctoral Committee under Regulations Pertaining to Doctoral Degrees for an overview of the dissertation committee's makeup and responsibilities.*

**Overview or Prospectus Meeting**

*See Overview or Prospectus Meeting under Regulations Pertaining to Doctoral Study for the regulations pertaining to this meeting and then read the following information that is specific to the PhD program in Communication Science and Disorders. After securing the adviser's approval, each PhD student must submit a written dissertation proposal to the Dissertation Committee at least two weeks prior to a formal overview meeting with that committee. (See Dissertation and Abstract section for details on the characteristics of an appropriate dissertation.)*

**Final Oral Examination**

*See Final Oral Examination under Regulations Pertaining to Doctoral Study and then note the following additional program-specific information. After securing the adviser's approval, the student submits copies of the complete document to the dissertation committee at least two weeks prior to the final oral examination in defense of the dissertation.*

**PhD Curriculum**

For the CSD PhD degree, a minimum of 72 credits beyond the bachelor's degree is needed.

Required coursework includes: the departmental PhD Research Seminar (CSD 3048); a minimum of 3 additional PhD seminars (one in speech and language, one in hearing, and one in the student's major area of study (speech/language/voice/swallowing); a minimum of 12 credits in research design and statistics; and attendance each fall and spring term at the weekly departmental Proseminar (CSD 3060). The proseminar includes student and faculty poster sessions, a colloquium series, and a student-centered research roundtable that allows participation and problem-solving by students at various stages of their research training.

Otherwise, coursework and other experiences are individually tailored for each student, in consultation with the student's adviser and the adviser-chaired Plan of Study committee.

**Doctor of Audiology, AuD**
Degree Requirements

Students with bachelor's degrees in communication science and disorders can complete the program in four years while students with a master's degree in CSD can complete the program in approximately two years. Students applying to the AuD program with a completed master's degree will be required to complete two years of study with approximately 51 credits to satisfy academic and clinical requirements for the degree. A review of successfully completed graduate coursework in the master's degree in CSD (focus in Audiology) will be conducted after being admitted to the AuD Program. Students applying to the AuD program with a completed bachelor's degree (major in CSD) will require four years of study with a minimum of 115 credits to satisfy academic and clinical requirements for the degree. Students with a bachelor's degree without a CSD major will have to complete an additional year of post-baccalaureate study. Other requirements include the successful completion of two comprehensive examinations, a mentored research project, and a full-time clinical externship.

Comprehensive Examinations

Students in the AuD program are required to successfully complete two comprehensive examinations before the Doctor of Audiology degree can be awarded. The Comprehensive Exam I is a formative examination that will identify strengths and/or weaknesses in the student's knowledge base. An ad hoc committee of audiology faculty members administers this comprehensive examination.

In addition, students pursuing the AuD are required to successfully complete Comprehensive Exam II. During this examination, the student will demonstrate an ability to apply theoretical knowledge to a real clinical case with which the student has been extensively involved during clinical training. Comprehensive Exam II will have both written and oral portions. The student will identify a case from the student's own clinical experience in which they have been primarily responsible for case management. This case will be thoroughly presented, together with in-depth background information, including relevant clinical research on all aspects of the case. A panel of three faculty members will be constituted to evaluate each individual student's examination performance.

All audiology students in good academic standing are expected to pass their comprehensive examination(s). However, and regardless of academic standing, failure to pass either of the above examinations within three examination cycles will result in the student's dismissal from the audiology training program.

AuD Curriculum

- CSD 2021 - CLINICAL PROCEDURES LAB 1-1
- CSD 2022 - CLINICAL PROCEDURES LAB 2-2
- CSD 2038 - PHYSLGCL & PSYCHLGCL ACOUSTCS
- CSD 2040 - AUDIOLOGICAL ASSESSMENT
- CSD 2041 - MANAGEMENT OF ADULT HEARING LOSS
- CSD 2042 - AUDIOLOGICAL ASSESSMENT LAB
- CSD 2044 - DIFFERENTIAL DIAGNOSIS
- CSD 2045 - PHYSIOLOGICAL ASSESSMENT
- CSD 2046 - PEDIATRIC EVALUATION
- CSD 2047 - AMPLIFICATION 1
- CSD 2048 - SOUND & VIBRATION: MSRMT & MGT
- CSD 2049 - AGING AUDITORY SYSTEMS
- CSD 2051 - CLINICAL PROCEDURES LAB 1-2
- CSD 2052 - CLINICAL PROCEDURES LAB 2-3
- CSD 2053 - CLINICAL PROCEDURES LAB 2-1
- CSD 2054 - IMPLANTABLE HEARING DEVICES
- CSD 2055 - PEDIATRIC AUDIOLOGIC REHAB
- CSD 2056 - AUDIOLOGY PRAC NETWORK - AUD (3 terms) - Variable credits
- CSD 2057 - AUDIOLOGY PRACTICUM OUTPLACEMENT (5 terms) - Variable credits
- CSD 2060 - PROSEMINAR - MA (6 terms)
- CSD 2068 - SPEECH PRACTICUM NETWORK - AUD
Speech-Language Pathology, CScD

Degree Requirements and Curriculum

All students enrolled in the Post Masters CScD program are required to complete 87 credits. Eight credits of advanced standing toward CSD 2520 will be awarded to those entering the program with their Certificate of Clinical Competence (CCC). Courses are chosen with the advisor and a Plan of Study will be developed to design an in-depth program of study taking into account the student's previous academic preparation and experience.

Please note that you will have required classes each Summer term in the program. Most of our courses are only offered once per academic year. If a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Comprehensive Examinations

Students in the CScD program are required to successfully complete oral and written comprehensive examinations. These are cumulative examinations covering the core clinical sciences and theoretical basis supporting diagnosis and intervention. Students are required to be engaged in clinical practice throughout their program. Students are also required to demonstrate clinical decision-making and clinical practice knowledge and skills using principles of evidence-based practice.
Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this bulletin, the CScD program is regulated by the SHRS Academic Standards, as well as the departmental Student Handbook on Academic and Clinical Requirements.

Department of Health Information Management

Master of Science Degree in Health and Rehabilitation Science with a Concentration in Health Information Systems or Health Care Supervision and Management

The Department of Health Information Management (HIM) offers two concentrations leading to the Master of Science degree in Health and Rehabilitation Science, Health Information Systems (HIS) which also offers an RHIA option and Health Care Supervision and Management (HSM).

Contact Information:

Mervat Abdelhak, PhD, RHIA, FAHIMA, Chair
Department of Health Information Management
6051 Forbes Tower
412-383-6650
Fax: 412-383-6655
E-mail: him@pitt.edu
http://www.shrs.pitt.edu/HIM/

Prerequisites and Admission Requirements

Health Information Systems (HIS)

HIS Prerequisites
Healthcare professionals from various disciplines are encouraged to apply to this program. Applicants with other relevant training and career experience who wish to develop competencies in health information system applications also will be given admission consideration.

Admission Requirements

- A baccalaureate degree from an accredited institution and completion of the following prerequisite courses:
  - Computer Programming, 3 credits
  - Statistics, 3-4 credits
- A minimum grade point average (GPA) of 3.0 (on a 4.0 scale) is required. Admission may be considered for applicants with a GPA of less than 3.0 if other supporting evidence of their ability to complete the graduate program is provided.

Health Care Supervision and Management (HSM)
HSM Prerequisites
Healthcare professionals from various disciplines are encouraged to apply to this program. Applicants with other relevant training and career experience who wish to develop competencies in health care supervision and management also will be given admissions consideration.

Admission Requirements

- A baccalaureate degree from an accredited institution.
- A minimum grade point average (GPA) of 3.0 (on a 4.0 scale) is required. Admission may be considered for applicants with a GPA of less than 3.0 if other supporting evidence of their ability to complete the graduate program is provided.

Application Process for HIS & HSM

- Complete the SHRS ApplyYourself online application.
- Application fee of $50 - You may pay the application fee online or elect to pay by check or money order. Make check or money order payable to the University of Pittsburgh. You will be prompted to choose your payment type at the end of the ApplyYourself application process.
- Three Letters of Recommendation are required. These recommendations should be from college level instructors or employers/professionals who have supervised your work in a paid or volunteer capacity. These individuals should be able to comment on your academic, professional and interpersonal abilities. People submitting recommendation letters on your behalf are encouraged to send their letters to our admissions office electronically through our application system. For those people who wish to submit their letter of recommendation on paper, please forward them a copy of our Recommendation Form and follow the directions for paper recommendations.
- Statement of Purpose/Essay
- Transcript(s) - Submit official transcript(s) from each college or university you have attended even if only one course was taken at that particular college or university. Course(s) posted for advanced standing on transcripts are not considered official. Please mail to the SHRS Office of Admissions, 4020 Forbes Tower, University of Pittsburgh, Pittsburgh, PA 15260.

Applications accepted on a rolling basis.
Applications can be submitted when course requirements are in progress.

Financial Aid

There are scholarships and loan opportunities available to graduate students from the American Health Information Management Association (AHIMA). Further information can be obtained from the AHIMA web site at www.ahima.org under the career and student center tab. Additionally, the Pennsylvania Health Information Management Association (PHIMA) awards scholarships to qualified students in Pennsylvania. Further information can be obtained from PHIMA's web site at http://www.phima.org/members/scholarships/.

The Healthcare Information and Management Systems Society (HIMSS) also awards scholarships to HIMSS student members who have achieved academic excellence and have the potential to be future leaders in the health care information and management systems industry. Visit the HIMSS site at http://www.himss.org/ and navigate to "Scholarships" under the Professional Development menu.

Master's

Health Information Management - Health Care Supervision and Management Concentration, MS
Health Care Supervision and Management (HSM), a concentration in the Master of Science in Health and Rehabilitation Sciences program, is housed in the Department of Health Information Management, School of Health and Rehabilitation Sciences (SHRS). Pitt and SHRS are currently ranked the #1 college in the US to student health professions according to College Factual as listed in a recent article in USA Today.

The Health Care Supervision and Management (HSM) concentration provides health professionals an opportunity for career advancement. Qualified students with interests in administration and supervisory management in health care, long-term care, and rehabilitation may pursue a 41-42 credit concentration in Health Care Supervision and Management.

This program is designed for professionals in health care who wish to attain knowledge and skills at the graduate level to prepare for a supervisory management position or to upgrade competencies developed earlier in his/her career.

Students with a special interest in long-term care for the aging or disability studies may pursue additional courses offered within SHRS and/or the Graduate School of Public Health (GSPH).

Program Requirements

All students enrolled in the Health Care Supervision and Management concentration are required to complete 41-42 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Care Supervision and Management taking into account student's previous academic preparation and experience.

Most of our courses are only offered once per academic year. Please also note that you will have a required class that is offered during Summer. If a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

HSM Curriculum and Course Descriptions

The Health Care Supervision and Management curriculum allows students to choose from required core courses and elective courses. Elective courses can be chosen from SHRS or other academic programs within the University.

**Foundation & Core Courses (17 credits)**
- HRS 2434 - BUS ISSS DATA ANALYTIC HLTH CRE *
- HRS 2435 - FINCL MGT FDS HEALTH CARE & PH *
- HRS 2445 - HUMAN RESOURCE MGT/LABOR RELTN *
- HRS 2465 - LEADERSHIP SKILL DEVELOPMENT *
- HRS 2421 - SECURITY PRIVACY LEGAL ISSUES *
- HRS 2920 - ADMINISTRATIVE INTERNSHIP *

**Health Informatics Courses (select 6 credits)**
- HRS 2420 - INTRO HEALTH INFORMATN SYSTEMS
- HRS 2490 - ELECTRONIC HEALTH RECORDS *
- HRS 2423 - CLOUD CMPTNG, HL7 & ANLYTCS HC
- HRS 2424 - DATA BASE MANAGEMENT HLTH CARE
- HRS 2432 - TELEMED, TELEREHAB, & E-HEALTH

* Required Course for All Students
Electives (select 12-13 credits - selected with advisor from SHRS and other departments within the University)

- HRS 2431 - EVAL METHS IN HLTH INFORMATICS
- HRS 2454 - 6 SIGMA & IMPROVMNT METHDLG HC
- HRS 2901 - INTRO TO RESEARCH METHODOLOGY
- HRS 2903 - ISSUES IN THE HEALTH SYSTEM
  OR
- HRS 2902 - TOPICS IN HEALTH CARE
- HRS 2910 - STATSTCL APPLCS/HEALTH & REHAB
  OR (BIOST 2011, 2041, 2042; PSYED 2018)
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE
- HRS 2428 - CONC SOFTWR PROJ ENGR HLTH CRE
- HRS 2482 - LEGAL ASPECTS OF HEALTH CARE
- HRS 2480 - DIMENSNS OF AGING: CULT & HLTH
- HRS 2708 - INDIV, SCL&CLTL EXPRN OF DISAB
- LAW 5339 - LAW OF DISABLTY DISCRIMINATION
- HRS 2425 - DATA ANALYTICS
- HRS 2426 - EVAL OF CLASSIFICATION SYSTEMS
- HRS 2457 - QUALITY MANAGEMENT

Thesis Option

- HRS 2924 - GRADUATE RESEARCH PROPOSAL
- HRS 2925 - GRADUATE RESEARCH

Non-Thesis Option

Students are required to take six credits in an area in which they want to further develop their professional skills, selected from the following list of electives or from other offerings within the School and University.

Please note: All students are required to take at least 30 credits within SHRS

** A comprehensive examination is required and should be scheduled by the advisor and student **

Internships for Graduate Students

Graduate students in the Department of Health Information Management in the areas of Health Information Systems and Health Care Supervision & Management are required to complete an internship as part of their curriculum. The overall goal of the internship is to provide students with practical experiences to apply their knowledge and skills that they learn in their respective graduate programs.

The HIM department has affiliation agreements with approximately 200+ clinical sites for student internships. The following list provides a sample of these sites:

- Center for Connected Medicine
- Children's Hospital of Pittsburgh - IS Department
- Children's Institute of Pittsburgh
- Excela Health
- Highmark
- M*Modal
- McKesson
- Oman HIM Institute
- United Cerebral Palsy of Pittsburgh
Prerequisites for Graduate Internships

The following are required in order for students to be eligible to participate in an internship. The student's advisor will provide detailed information and time guidelines for completion of the requirements once the student matriculates into the graduate program.

- Physical examination including proof or completion of specific immunizations
- TB test, 2-step
- Pennsylvania Criminal Record Check
- Pennsylvania Child Abuse Clearance
- FBI Background Check (includes fingerprinting)
- HIPAA Training and Certification
- Students must carry personal health insurance while participating in an internship
- Students must carry professional student liability insurance coverage while participating in an internship. This coverage is provided by the SHRS group insurance plan and will appear as a charge on the students' tuition bill.
- Some sites may have additional requirements (i.e. drug screen, influenza vaccine, or orientation programs specific to their organization).
- Internship sites may not allow a student to participate in an internship at their site if the background check reports that they have been convicted of a misdemeanor; a felony; or a felonious or illegal act associated with alcohol and/or substance abuse.

Additional Information:

- Travel to internship sites is the responsibility of the student. Students are expected to have a car or to provide their own transportation to all remote sites; no exceptions will be made. Not all sites are accessible by public transportation.
- All expenses for transportation, parking, meals, and costs of prerequisites associated with clinical education are the responsibility of the student.
- Approximate cost for clearances is $100, and costs for physical exam and immunization status are dependent on health insurance coverage and provider costs.
- Approximate cost for drug screen is $40.
- The internship is 3 credits, and requires a minimum of 180 hours of student participation.

For more information on internships students are encouraged to contact their academic advisor.

Health Information Management - Health Information Systems Concentration, MS

The Health Information Systems (HIS) concentration leading to a Master of Science degree in Health and Rehabilitation Sciences prepares professionals responsible for the development and management of health information systems consistent with the clinical, fiscal, administrative, ethical, and legal requirements of healthcare institutions. Graduates of this program analyze, design, implement, and evaluate health information systems. As members of the healthcare team, they interact with other healthcare professionals and administrators, and provide healthcare data for patient care, research, quality improvement, strategic planning, reimbursement, and related managerial functions.

HIS graduates work in a variety of settings, such as hospitals, health planning agencies, computer companies, consulting firms, information systems vendors, ambulatory care centers, research centers, rehabilitation facilities, and insurance companies.
Why choose HIS at PITT!:

- PIT and SHRS are currently ranked a top ten college in the US to study health professions according to College Factual as listed in a recent article in USA Today.
- Our Health Information Systems Masters program is ranked among the best in the nation for its quality and affordability by MBA Healthcare Management.

The HIS Concentration Registered Health Information Administrator (RHIA) Option

We offer specialized courses within the HIS concentration for students who are seeking eligibility to sit for the American Health Information Management (AHIMA) credentialing examination to become a Registered Health Information Administrator (RHIA).

The Health Information Systems concentration leading to a Master of Science degree in Health and Rehabilitation Sciences is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Results from the 2015 outcomes assessment reported to CAHIIM in the 2016 Annual Program Report (APAR) indicate:

- A 100% employer satisfaction rate
- A 100% graduate satisfaction rate
- A 93% pass rate National Certification Exam

Program Requirements - HIS

All students enrolled in the Health Information Systems concentration are required to complete 41-42 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Informatics taking into account student's previous academic preparation and experience.

Most of our courses are only offered once per academic year. Please also note that you will have required classes offered during the Summer. If a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

**Health Informatics & Foundation Courses (select 29-30 credits)**

- HRS 2420 - INTRO HEALTH INFORMATN SYSTEMS *
- HRS 2421 - SECURITY PRIVACY LEGAL ISSUES *
- HRS 2422 - COMPUTER PRGMRG HLTH INFRMTCS *
- HRS 2423 - CLOUD CMPTNG, HL7 & ANLYTCS HC
- HRS 2424 - DATA BASE MANAGEMENT HLTH CARE *
- HRS 2425 - DATA ANALYTICS
- HRS 2426 - EVAL OF CLASSIFICATION SYSTEMS
- HRS 2428 - CONC SOFTWR PROJ ENGR HLTH CRE *
- HRS 2431 - EVAL METHS IN HLTH INFORMATICS
- HRS 2432 - TELEMED, TELEREHAB, & E-HEALTH
- HRS 2434 - BUS ISSS DATA ANALYTIC HLTH CRE

- HRS 2910 - STATSTCL APPLCS/HEALTH & REHAB OR (BIOST 2011, 2041, 2042; PSYED 2018)
- INFSCI 2150 - INFORMATION SECURITY & PRIVACY ^
Health Management Courses (select 6 credits)

- HRS 2435 - FINCL MGT FDS HEALTH CARE & PH
- HRS 2445 - HUMAN RESOURCE MGT/LABOR RELTN
- HRS 2465 - LEADERSHIP SKILL DEVELOPMENT
- HRS 2454 - 6 SIGMA & IMPROVMT METHDLG HC
- HRS 2903 - ISSUES IN THE HEALTH SYSTEM
  OR
- HRS 2902 - TOPICS IN HEALTH CARE
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE

* Required Course for All HIS Students
  ^ Additionally required courses for students interested in enhanced Security & Privacy content.

Thesis Option (6 credits)

- HRS 2924 - GRADUATE RESEARCH PROPOSAL
- HRS 2925 - GRADUATE RESEARCH

Non-Thesis Option (select 6 credits)

Electives to be taken from above or at other schools within the University.

Please note: All students are required to take at least 30 credits within SHRS

**A comprehensive Examination is required and should be scheduled by the advisor and student.**

Program Requirements - HIS, RHIA Option

All students enrolled in the Health Information Systems/RHIA Option concentration are required to complete 41-42 credits. Courses are chosen with the advisor and a Plan of Study will be developed to enable each student to design an in-depth study of Health Informatics taking into account student's previous academic preparation and experience.

Most of our courses are only offered once per academic year. Please also note that you will have required classes offered during the Summer. If a student fails to successfully complete a course, the student must retake the course the next academic year. Furthermore, this may also prevent the student from registering for the advanced-level courses and delay the date of graduation.

Health Informatics & Foundation Courses (23-24 credits)

- HRS 2421 - SECURITY PRIVACY LEGAL ISSUES *
- HRS 2422 - COMPUTER PRGMG HLTH INFRMTCS *
- HRS 2424 - DATA BASE MANAGEMENT HLTH CARE *
- HRS 2428 - CONC SOFTWR PROJ ENGR HLTH CRE *

- Approximate cost for drug screen is $40.
- The internship is 3 credits, and requires a minimum of 180 hours of student participation.

For more information on internships students are encouraged to contact their academic advisor.

Department of Occupational Therapy

Doctor of Occupational Therapy (OTD)

The Doctor of Occupational Therapy (OTD) Program is an entry-level educational program, which prepares students for careers as occupational therapists.

Admission to the OTD Program is only available on a full-time basis. The OTD Program begins the first week in June of each year.
The OTD Program has applied for accreditation by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. ACOTE's telephone number c/o AOTA is 301-652-AOTA and its Web address is www.acoteonline.org. The program must have a preaccreditation review, complete an on-site evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

The OTD Program requires that students complete fieldwork education at facilities external to the University of Pittsburgh and such facilities will or may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether you are qualified to participate in fieldwork education. Additionally, to become licensed, many states inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Admission Requirements and Application Process

Baccalaureate Degree

Students are admitted into the OTD Program after successful completion of a baccalaureate degree with a minimum cumulative GPA of 3.00 (based on a 4.00 scale).

Prerequisite Courses

Complete the following prerequisite courses within the past 5 years with a minimum grade of B and a minimum GPA in these prerequisites of 3.00 (based on a 4.00 scale).

- Human Anatomy & Physiology (with a laboratory component), 8 credits
- Lifespan Human Development, 3 credits
- Abnormal Psychology, 3 credits
- Statistics, 3 credits

*Note: AP credits are not accepted as fulfillment of prerequisite courses*

Graduate Record Examination (GRE)

GRE ® General Test scores within the past 5 years at or above the 50th percentile. Please arrange to send your GRE scores to the "University of Pittsburgh OTCAS" using institution code 1894. Visit the GRE Web site for more information about the GRE.

Experience in Occupational Therapy

Complete a minimum of 40 hours of volunteer or paid work experience in at least two different occupational therapy practice areas (e.g., pediatrics, geriatrics, medical rehabilitation, psychiatric rehabilitation, home healthcare, school system).

Letters of Recommendation

Submit three letters of recommendation attesting to the applicant's academic and professional abilities (including one from an occupational therapist and one from a college-level instructor). Letters of recommendation are submitted through the OTCAS application.

Self-Evaluation Essays
Demonstrate evidence of graduate level writing skills in responses to essay questions. Submit an essay (personal statement), discussing your strengths, skills, and experiences that will contribute to your success in the OTD Program and your professional goals for becoming an occupational therapist, and submit responses to Pitt-OT essay questions. All essays are submitted through the OTCAS application.

Technical Standards/Essential Skills

Attest to satisfactory performance of the technical standards/essential skills required for successful completion of the OTD curriculum. Students admitted to the OTD Program must review the Technical Standards and submit a signed form at the time of matriculation.

Technical Standards/Essential Skills

Application Information

Applicants to the OTD Program should apply online using the Occupational Therapy Centralized Application Service (OTCAS). To learn more about the OTCAS application process and to create your OTCAS account, please visit the OTCAS portal.

We encourage applicants to apply early in the application cycle, which begins in mid-July each year. Prerequisite courses must be completed by January 1. Official transcripts must be sent directly to OTCAS. OTCAS does not accept paper recommendations. Letters of recommendation are submitted electronically through the OTCAS system. The deadline for applying to the OTD Program is February 1; however, we encourage applicants to apply before this deadline as the Department of Occupational Therapy will begin reviewing applications in November. Applications are reviewed when all materials, including transcripts and letters of recommendation, have been received and verified by OTCAS and GRE scores are available. OTCAS uses a verification process that can take several weeks. OTCAS will verify your documents before releasing them to the University of Pittsburgh. Applicants should confirm their status as verified with OTCAS. The Department of Occupational Therapy begins reviewing complete and verified applications and offering admission in November for the program starting the following June.

For questions about the receipt, processing, and verification of your application, please contact OTCAS Customer Service at 617-612-2860, otcasinfo@otcas.org.

International Applicants

- Academic Credential Evaluation Information - The Academic Credential Evaluation must include a course by course evaluation and be submitted with your application to OTCAS. If an international applicant has earned an undergraduate or graduate degree in the United States, the Academic Credential Evaluation is not required.
- Verification of English Language Proficiency - Applicants for whom English is not their first language must take the iBT (the Internet-based version) of the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), or have a master's degree from an English-speaking university. The minimum TOEFL score accepted is 90 and the minimum IELTS score is Band 7.0. TOEFL scores must be sent electronically through Educational Testing Service (ETS) to institution code 2927. IELTS scores must be mailed to the Department of Occupational Therapy, University of Pittsburgh, 5012 Forbes Tower, Pittsburgh, PA 15260.

The School of Health and Rehabilitation Sciences has specific requirements for international applicants which are noted here.

PLEASE NOTE. Applicants who already have a baccalaureate degree in occupational therapy and are interested in obtaining a master's degree should apply to the Master of Science (MS) in Health and Rehabilitation Sciences with a concentration in Occupational Therapy.

Master of Science (MS) in Health and Rehabilitation Science with a Concentration in Occupational Therapy

The Occupational Therapy concentration leading to a Master of Science (MS) in Health and Rehabilitation Sciences is a one-year graduate program housed within the Department of Occupational Therapy. This program is designed for those with a baccalaureate degree in occupational therapy.

Post-professional graduate studies in this field enable occupational therapists to pursue an area of interest in clinical practice, management, education, research, or health and disability policy.
Admission Requirements and Application Process

Note: The Master of Science (MS) in Health and Rehabilitation Sciences with a concentration in Occupational Therapy is currently undergoing revision and will not be accepting students for the 2016-2017 academic year.

There are no prerequisite courses required for this degree.

U.S. Educated Occupational Therapists

- Baccalaureate or entry-level master's degree in occupational therapy from an accredited occupational therapy program;
- Required GPA: 3.00 (based on a 4.00 scale);
- A brief statement discussing your interest in the field of study, reasons for applying to the University of Pittsburgh, and academic, professional, and research goals;
- Demonstrated knowledge of rehabilitation through previous work experiences, internships or field experiences, or volunteer experiences;
- Three letters of reference, preferably from individuals who have taught you in academic settings and/or supervised clinical research activities. These letters should address your academic, professional and personal attributes, and potential for meaningful graduate study; and
- Official transcripts from all colleges/universities attended.

Internationally Educated Occupational Therapists

- Baccalaureate degree (or equivalent) from a school/university approved by the World Federation of Occupational Therapists (WFOT) in the year that the applicant graduated and/or national governmental institutions that approve/accredit occupational therapy programs to grant a degree in occupational therapy (e.g. Ministry of Health);
- Required GPA: 3.00 (based on a 4.00 scale);
- A brief statement discussing your interest in the field of study, reasons for applying to the University of Pittsburgh, and academic, professional, and research goals;
- Demonstrated knowledge of rehabilitation through previous work experiences, internships or field experiences, or volunteer experiences;
- Three letters of reference, preferably from individuals who have taught you in academic settings and/or supervised clinical research or activities. These letters should address the applicant academic, professional and personal attributes, and potential for meaningful graduate study;
- Original or certified (notarized) copies of all original language academic records (mark sheets, transcripts) from all post-secondary institutions attended. Where the official original documents are issued in a language other than English, certified English translations must also be submitted. Certified copies of the original certificates or diplomas awarded at the completion of studies must also be submitted;
- Academic Credential Evaluations; and
- An official Test of English as a Foreign Language (TOEFL) score report (from ETS), with a minimum score of 550 on the written test or 80 on the internet-based test, is required from all applicants whose native language is not English and/or who have not completed an academic degree from a college or university in the U.S. where the method of instruction is English. The TOEFL Institution code for the University of Pittsburgh is 2927. International English Language Testing System (IELTS) scores are also accepted and must be mailed directly from the test provider to School of Health and Rehabilitation Sciences, Office of Admissions, 4020 Forbes Tower, University of Pittsburgh, Pittsburgh, PA 15260. The minimum IELTS score is 6.5.
  - Exemption: 1) applicants who have completed an undergraduate or graduate degree from a regionally accredited institution in the U.S., or 2) citizens of a country where the official language is English.
- The School of Health and Rehabilitation Sciences has specific requirements for international applicants which are noted here.

Application Information

All applicants must:

- Complete the School of Health and Rehabilitation Sciences ApplyYourself online application;
- Submit the application fee of $50 (U.S.); and
Submit required documents (Admission Requirements).
We encourage international student applications.

Application Deadlines

- U.S. educated occupational therapists: Applications are accepted on a rolling basis until courses begin for the Fall, Spring, and Summer terms.
- Internationally educated occupational therapists are accepted for Fall term only. The deadline is March 1.

For information about our program, please contact the Department of Occupational Therapy at OTpitt@shrs.pitt.edu.

Doctor of Clinical Science (CScD) in Occupational Therapy

The Doctor of Clinical Science (CScD) Program in Occupational Therapy provides training in advanced practice, clinical education, and professional leadership. The CScD Program offers six areas of concentration: Master Practitioner (Geriatric, Musculoskeletal, Neurologic, or Pediatric Practice), Clinical Education, and Professional Leadership. Core courses focus on assessment, intervention, evidence-based protocols and guidelines, and data-based decision making. Each core course is paired with a colloquium or clinical rotation that provides students with mentored opportunities to apply their skills in the appropriate setting. Cognate courses focus on theory, evidence, and data collection in the student's chosen area of concentration.

Admission Requirements and Application Process

The CScD in Occupational Therapy is an advanced practice doctoral degree designed for occupational therapists who are seeking advanced knowledge and skills. There are no prerequisite courses for this degree however, applicants must have an entry-level baccalaureate or master's degree in occupational therapy from a program accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) or approved by the World Federation of Occupational Therapy (WFOT).

Occupational Therapists with Baccalaureate Degrees

Occupational therapists with a baccalaureate degree in occupational therapy, and no additional graduate degrees, should apply to the Master of Science (MS) in Health and Rehabilitation Sciences Program with a Concentration in Occupational Therapy. Credits in the MS program will satisfy the requirements for the first 30 credits of the required 72 credits of the CScD Program.

Occupational Therapists with Master's Degrees

Occupational therapists with 1) an entry-level master's degree in occupational therapy, or 2) a baccalaureate degree in occupational therapy and an advanced master's degree in occupational therapy (or another field) may be able to transfer up to 30 credits from their master's degree, providing that these credits meet requirements in the CScD curriculum.

All Applicants

In addition to the admission requirements, applicants must provide evidence of:

- National certification in occupational therapy (NBCOT) or eligibility
- Pennsylvania state licensure in occupational therapy or eligibility
- Minimum cumulative graduate GPA of 3.00 on a 4.00 point scale
- Successful completion (3.00 on a 4.00 point scale) of a statistics or research methods course within the past 5 years
- Graduate Record Examination (GRE) General Test scores at or above the 50th percentile within the past 5 years
- Graduate level writing skills in an essay that addresses (a) rationale for pursuing an advanced practice doctorate, (b) chosen area of concentration, and (c) how the program is likely to change the applicant's practice
- Professional skills and conduct, collegiality, oral and written communication skills, and leadership through two letters of recommendation
Application Information

All applicants must:

- Complete the School of Health and Rehabilitation Sciences ApplyYourself online application;
- Submit the application fee of $50 (U.S.);
- Submit required documents (Admission Requirements).

International Applicants

Applicants for whom English is not their first language must take the iBT (the Internet-based version of the TOEFL [Test of English as a Foreign Language]) or have a master's degree from an English-speaking university. TOEFL scores must meet or exceed a total score of 90. The School of Health and Rehabilitation Sciences has specific requirements for international applicants which are noted here.

Application Deadlines

Applications are accepted on a rolling basis for students intending to start the program in July of the same calendar year.

For More Information

Contact the Department of Occupational Therapy at (412) 383-6620 or OTpitt@shrs.pitt.edu.

Master of Occupational Therapy (MOT)

The Department of Occupational Therapy now offers a Doctor of Occupational Therapy (OTD) Program.

The Master of Occupational Therapy (MOT) Program is only available to candidates with a University of Pittsburgh Freshman Guarantee for Occupational Therapy who began undergraduate studies at the University of Pittsburgh in Fall of 2013, 2014, 2015, or 2016. Candidates with Freshman Guarantee status should contact the Department of Occupational Therapy at OTpitt@shrs.pitt.edu or 412-383-6620 to inquire about the MOT application process.

The MOT Program prepares students for entry-level practice as occupational therapists. The MOT Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. ACOTE's telephone number, c/o AOTA, is 301-652-AOTA and its Web address is www.acoteonline.org.

Admission Requirements and Application Process

Admission Requirements

The MOT Program is only available to candidates with a University of Pittsburgh Freshman Guarantee for Occupational Therapy who began undergraduate studies at the University of Pittsburgh in Fall of 2013, 2014, 2015, or 2016.

Baccalaureate Degree

Students are admitted into the MOT Program after successful completion of a baccalaureate degree and successfully maintaining the Freshman Guarantee requirements.

Prerequisite Courses
Complete the following prerequisite courses with a minimum grade of C:

- Human anatomy & physiology (with a laboratory component), 4 credits
- Behavioral sciences (psychology, sociology, and/or anthropology), 6 credits
- Statistics, 3 credits

*Note: AP credits are not accepted as fulfillment of prerequisite courses*

**Graduate Record Examination (GRE)**

Complete the GRE ® General Test. Please arrange to send your GRE scores to the University of Pittsburgh using institution code 1894. Visit the GRE Web site for more information about the GRE.

**Experience in Occupational Therapy**

Complete a minimum of 20 hours of volunteer or paid work experience in at least two different occupational therapy practice areas (e.g., pediatrics, geriatrics, medical rehabilitation, psychiatric rehabilitation, home healthcare, school system).

**Letters of Reference**

Submit three letters of reference (one from an occupational therapist, and preferably one from a college-level instructor). Letters of Reference must be submitted directly to the Department of Occupational Therapy by the recommender. References can be emailed to OTpitt@shrs.pitt.edu or mailed to:

Department of Occupational Therapy
5012 Forbes Tower
Pittsburgh, PA 15260

**Self-Evaluation Essays**

Demonstrate evidence of graduate level writing skills in an essay (personal statement), discussing your strengths, skills, and experiences that will contribute to your success in the MOT Program and your professional goals for becoming an occupational therapist. The Self-Evaluation Essay is submitted to the Department of Occupational Therapy with the application.

**Technical Standards/Essential Skills**

Attest to satisfactory performance of the technical standards/essential skills required for successful completion of the MOT curriculum. Students admitted to the MOT Program must review the Technical Standards and submit a signed form at the time of matriculation.

**Application Information**

Applicants to the MOT Program apply by contacting the Department of Occupational Therapy at OTpitt@shrs.pitt.edu and requesting an application.

The MOT Program begins in June each year. To be considered for admission your application must be submitted by October 15. Prerequisite courses must be completed by January 1. The Department of Occupational Therapy begins reviewing complete applications and offering admission in November for the program starting the following June. Applications are complete when all materials, including letters of recommendation, have been received and GRE scores are available.

Official transcripts must be sent directly to the Department of Occupational Therapy at:
Department of Occupational Therapy
5012 Forbes Tower
Pittsburgh, PA 15260

For questions about the receipt, and processing of your application, please contact OTpitt@shrs.pitt.edu.

PLEASE NOTE: The MOT Program requires that students complete fieldwork education at facilities external to the University of Pittsburgh and such facilities will or may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether you are qualified to participate in fieldwork education. Additionally, to become licensed, many states inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Program Requirements

The MOT Program is a two-year professional course of study requiring 78 credits, including fieldwork education. The MOT Program begins in June each year.

Certification

Graduates of the program will be eligible to sit for the National Certification Examination for the Occupational Therapist, administered by the National Board for Certification in Occupational Therapy, Inc. (NBCOT). After successful completion of this examination, the graduate will be an Occupational Therapist, Registered (OTR). In addition, most states require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. A felony conviction may prevent a graduate's ability to sit for the NBCOT Certification Examination or attain a state licensure.

Contact Information

Department of Occupational Therapy
School of Health and Rehabilitation Sciences
5012 Forbes Tower
Pittsburgh, PA 15260
412-383-6620
Fax: 412-383-6613
E-mail: OTpitt@shrs.pitt.edu

Master's

Master of Occupational Therapy (MOT)

The Department of Occupational Therapy now offers a Doctor of Occupational Therapy (OTD) degree program.

The Master of Occupational Therapy (MOT) degree program is only available to candidates with a University of Pittsburgh Freshman Occupational Therapy Guarantee who began undergraduate studies at the University of Pittsburgh in Fall of 2013, 2014, 2015, or 2016. Candidates with Freshman Occupational Therapy Guarantee status should contact the Department of Occupational Therapy at OTpitt@shrs.pitt.edu or 412-383-6620.

Degree Requirements

The entry-level MOT Program is a two-year professional course of study requiring 78 credits, including fieldwork education.

Certification
Graduates of the program will be eligible to sit for the National Certification Examination for the Occupational Therapist, administered by the National Board for Certification in Occupational Therapy, Inc. (NBCOT). After successful completion of this examination, the graduate will be an Occupational Therapist, Registered (OTR). In addition, most states require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. A felony conviction may prevent a graduate's ability to sit for the NBCOT Certification Examination or attain a state licensure.

Curriculum and Course Descriptions

There are a total of 78 credits for the MOT Program and a minimum GPA of 3.00 (based on a 4.00 scale) is required for graduation. Most courses in the MOT curriculum require the successful completion of one or more prerequisite courses (see individual course descriptions for prerequisites).

Plan of Study

Term 1* - Summer Term - 7 Credits

- OT 2100 - Foundations of Occupation Science and Occupational Therapy**
- HRS 2022 - Human Anatomy**

Term 2 - Fall Term - 15 Credits

- OT 2101 - Human Movement Analysis**
- OT 2102 - Group Theory and Practice**
- OT 2103 - Occupation Across the Lifespan
- OT 2104 - Clinical Psychiatry
- OT 2105 - Clinical Medicine
- OT 2113 - Rehabilitation Theory and Practice**

Term 3 - Spring Term - 15 Credits

- OT 2107 - Psychosocial/Cognitive Theory and Practice**
- OT 2108 - Clinical Neurology and Orthopedics
- OT 2109 - Neurobehavioral Science**
- OT 2110 - Biomechanical Theory and Practice 1**
- OT 2111 - Occupational Therapy and the Health Care System

Term 4 - Summer Term - 6 Credits

- OT 2112 - Neurorehabilitation Theory and Practice**
- OT 2106 - Clinical Research for Occupational Therapy

Term 5 - Fall Term - 15 Credits

- OT 2114 - Biomechanical Theory and Practice 2**
- OT 2115 - Developmental Theory and Practice**
- OT 2116 - Integrative Capstone Seminar
- OT 2117 - Management of Occupational Therapy Practice
- OT 2118 - Special Topics in Occupational Therapy Theory and Practice

Terms 6 & 7 - Spring and Summer Terms - 20 Credits***
OT 2119 - OT Fieldwork Education A (FW 2)
OT 2120 - OT Fieldwork Education B (FW 2)

* Term 1 begins in early June.
** Includes laboratory component with associated fee.
*** Fieldwork A and B must be completed within 3 years of completing didactic coursework. A misdemeanor or felony charge or conviction may affect a student's ability to complete courses with a fieldwork component.

PLEASE NOTE: The MOT Program requires that students complete fieldwork education at facilities external to the University of Pittsburgh and such facilities will or may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether you are qualified to participate in fieldwork education. Additionally, to become licensed, many states inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the MOT Program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the departmental Student Manual.

MOT Student Manual - 2016

Master of Science (MS) in Health and Rehabilitation Sciences with a Concentration in Occupational Therapy

Program Requirements

The program requires the completion of 30 credits (12 credits of core courses, 18 credits in area of focus). A Comprehensive Examination is required following completion of the four core courses.

Curriculum and Course Descriptions

Core Courses

- HRS 2501 - Functional Assessment
- HRS 2502 - Human Performance Analysis
- HRS 2503 - Human Performance Adaptation
- HRS 2504 - Directed Readings in OT

Comprehensive Examination

Each student must successfully complete the Comprehensive Examination. This examination is used to determine mastery of the content in the core courses of the curriculum.

Plan of Study:

United States Educated Occupational Therapists

The program requires the completion of 30 credits (12 credits of core courses, 18 credits in area of focus). The largest component of the curriculum is designed to meet the individual needs of the student. Working with an advisor, students select courses from the Department of Occupational Therapy, from within the School of Health and Rehabilitation Sciences, or from departments throughout the University.
Plan of Study:
Internationally Educated Occupational Therapists

The following is a typical plan of study for internationally educated students enrolled in the MS in Health and Rehabilitation Sciences with a concentration in Occupational Therapy program.

**Fall Term - 15 Credits**

- HRS 2501 - Functional Assessment
- HRS 2504 - Directed Readings
- HRS 2514 - Human Performance: Compensation
- HRS 2592 - Specialized Preceptorship: Management
- HRS 2590 - Specialized Preceptorship: Clinical

**Spring Term - 15 Credits**

- HRS 2502 - Human Performance Analysis
- HRS 2503 - Human Performance Adaptation
- HRS 2525 - Special Topics Seminar
- HRS 2579 - OT and Health Policy
- HRS 2590 - Specialized Preceptorship: Clinical

**Preceptorship**

Preceptorships provide experiential learning in a specialized area of occupational therapy clinical practice for the purpose of advancing skills and knowledge in that specialized practice area. For internationally educated occupational therapists, a clinical preceptorship can also be customized for the purpose of developing familiarity with the U.S. health care system.

MS students have taken advantage of preceptorships to upgrade clinical skills (e.g., burns rehabilitation), participate in program development activities (e.g., designing an energy conservation and work simplification program for individuals with chronic respiratory diseases), develop teaching modules for entry-level program courses (e.g., assistive technology, neuroscience and neurorehabilitation), and design and implement research studies.

For all preceptorship experiences, students are assigned a faculty mentor who guides them through the preceptorship. The student and faculty mentor meet prior to the start of the preceptorship to discuss goals for the preceptorship, a plan of action for achieving the goals, and the evaluation process. The student and faculty mentor meet throughout the preceptorship to discuss the student's progress. Students find the preceptorships to be a rewarding experience that advances their clinical practice and career development.

**Doctoral**

**Doctor of Clinical Science (CScD)**

**Program Requirements**

The Doctor of Clinical Science (CScD) Program in Occupational Therapy requires 72 post-baccalaureate credits. Students with an entry-level master's degree in occupational therapy or a baccalaureate degree in occupational therapy and a master's degree in occupational therapy or another field may be eligible to transfer 30 credits from their master's degree, leaving a remaining 42 credits, thus being able to complete the program in 4 terms or 13 months. Students without a master's degree will be required to take all 72 credits, culminating in two full years of study.
Curriculum and Course Descriptions

The program requires the completion of 72 credits (30 credits may be transferred from a master's degree, potentially leaving a remaining 42 credits in the CScD program). Each student will be advised and evaluated by a doctoral committee who will oversee the development, implementation and grading of Preliminary and Comprehensive Examinations necessary to complete the program. The plan of study will be customized to each student based on his or her preferred area of concentration, and will be comprised of core courses and cognate courses. Required courses are held in the summer, fall, and spring terms.

Clinical Science Doctorate Committee

Each student will be supervised by a doctoral committee that will be formed by the end of the first term in the program. The doctoral committee will be comprised of 3 faculty, and at least 2 faculty must be appointed in the Department of Occupational Therapy. This committee will oversee the development, implementation and grading of the preliminary and comprehensive examinations.

Preliminary Examination

The preliminary examination is a written examination posed by members of the doctoral committee. Questions will address assessment concepts, intervention/education concepts, and evidence in the student's chosen area of concentration. Students must successfully pass the preliminary examination before they can propose and receive approval for their capstone project.

Comprehensive Examination

The capstone project will be developed and implemented in collaboration with the doctoral committee. The comprehensive examination is the culminating written summary and oral defense of the capstone project. Students must successfully pass both the written and oral components of the comprehensive examination to complete the CScD program.

Plan of Study

Core Courses

All students will take the following eight core courses:

- OT 3000 - Advancements in Functional Assessment
- OT 3001 - Advancements in Functional Assessment Colloquium
- OT 3100 - Evidence Analysis for Improving Clinical Interventions
- OT 3101 - Evidence Analysis for Improving Clinical Interventions Colloquium
- OT 3200 - Evidence-Based Protocols and Practice Guidelines
- OT 3201 - Evidence-Based Protocols and Practice Guidelines: Clinical Rotation
- OT 3300 - Data-Based Decision Making for Clinical Practice
- OT 3301 - Data-Based Decision Making for Clinical Practice: Clinical Rotation

Cognate Courses

Cognate courses are specific to the student's chosen area of concentration or track.

Area of Concentration: Master Practitioner (Geriatrics, Pediatrics, Musculoskeletal, Neurological)
• OT 3400 - Master Practitioner Cognate Seminar 1
• OT 3500 - Master Practitioner Cognate Seminar 2
• OT 3600 - Master Practitioner Cognate Seminar 3
• OT 3700 - Master Practitioner Cognate Practicum and Capstone

Area of Concentration: Clinical Educator

• OT 3401 - Clinical Educator Cognate Seminar 1
• OT 3501 - Clinical Educator Cognate Seminar 2
• OT 3601 - Clinical Educator Cognate Seminar 3
• OT 3701 - Clinical Educator Cognate Practicum and Capstone

Area of Concentration: Professional Leadership

• OT 3402 - Professional Leadership Cognate Seminar 1
• OT 3502 - Professional Leadership Cognate Seminar 2
• OT 3602 - Professional Leadership Cognate Seminar 3
• OT 3702 - Professional Leadership Cognate Practicum and Capstone

Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the CScD program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the departmental Student Handbook on Academic and Clinical Requirements.

**Doctor of Occupational Therapy (OTD)**

Degree Requirements

The OTD Program is a three-year (9 term) professional course of study requiring 112 credits, including fieldwork education, an experiential preceptorship, and a capstone project. Students in the OTD Program must successfully complete all didactic coursework, Level II fieldwork, and pass a competency examination prior to the commencement of the experiential preceptorship. Students must complete Level II fieldwork and the experiential preceptorship within 24 months following completion of the didactic portion of the program.

Curriculum and Course Descriptions

**Plan of Study**

Term 1 - Summer Term - 8 Credits

Foundational Skills

• OT 2200 - Foundations of Occupation
• OT 2201 - Body Functions and Structures: Anatomy**
• OT 2202 - Therapeutic Approaches 1**
• OT 2203 - Clinical Seminar 1
Term 2 - Fall Term - 15 Credits

Assessment and Analysis

- OT 2204 - Human Performance Analysis**
- OT 2205 - Neurobehavioral Science**
- OT 2206 - Clinical Conditions 1
- OT 2207 - Principles of Assessment**
- OT 2208 - Critical Appraisal of Evidence
- OT 2209 - Clinical Seminar 2

Term 3 - Spring Term - 15 Credits

Intervention I

- OT 2210 - Psychosocial/Cognitive Theory and Practice**
- OT 2211 - Rehabilitation Theory and Practice**
- OT 2212 - Clinical Conditions 2
- OT 2213 - Project Development 1
- OT 2214 - Therapeutic Approaches 2**
- OT 2215 - Fieldwork Education A (FW 1)**
- OT 2216 - Clinical Seminar 3

Term 4 - Summer Term - 8 Credits

Intervention II

- OT 2217 - Neurorehabilitation Theory and Practice**
- OT 2218 - Biomechanical Theory and Practice**
- OT 2219 - Fieldwork Education B (FW 1)**
- OT 2220 - Clinical Seminar 4

Term 5 - Fall Term - 15 Credits

Intervention III

- OT 2221 - Developmental Theory and Practice**
- OT 2222 - Productive Aging Theory and Practice**
- OT 2223 - Occupational Therapy and the Health System
- OT 2224 - Management of Occupational Therapy Practice
- OT 2225 - Project Development 2
- OT 2226 - Fieldwork Education C (FW 1)**
- OT 2227 - Clinical Seminar 5

Term 6 - Spring Term - 14 Credits

Clinical Synthesis I

- OT 2228 - Fieldwork Education D (FW 2)**
- OT 2229 - Fieldwork Education E (FW 2)**
- OT 2230 - Clinical Seminar 6
Term 7 - Summer Term - 8 Credits

Clinical Synthesis II

- OT 2229 - Fieldwork Education E (FW 2)**
- OT 2231 - Clinical Seminar 7

Term 8 - Fall Term - 15 Credits

Leadership I

- OT 3202 - Advanced Concepts in Clinical Reasoning
- OT 3204 - Advanced Concepts in Health Policy and Advocacy
- OT 3205 - Leadership Development
- OT 3206 - Advanced Theory and Practice**
- OT 3207 - Project Development 3

Term 9 - Spring Term - 14 Credits

Leadership II

- OT 3208 - Experiential Preceptorship (FW 3)**
- OT 3209 - Professional Development Seminar

**Course includes laboratory, fieldwork, or experiential component with associated term fee.

PLEASE NOTE: The OTD Program requires that students complete fieldwork education at facilities external to the University of Pittsburgh and such facilities will or may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether you are qualified to participate in fieldwork education. Additionally, to become licensed, many states inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Fieldwork and Experiential Preceptorship

Fieldwork education and the Experiential Preceptorship are essential parts of professional doctoral preparation and are integrated as components of the curriculum design. They are an extension of the OTD Program within the clinical/community setting. The fieldwork experience provides the OTD student with the opportunity to learn professional responsibilities by having them modeled by qualified and experienced personnel and to practice these responsibilities under supervision. The Experiential Preceptorship provides an in-depth professional experience and the completion of a culminating (capstone) project. Fieldwork education and the Experiential Preceptorship are only conducted in sites that have a signed agreement (Memorandum of Understanding) with the School of Health and Rehabilitation Sciences. This agreement formally identifies the responsibilities of the University and the fieldwork site.

Fieldwork education includes Level I and Level II experiences. Level I fieldwork is related to theory and practice courses during Term 3 (OT 2215 - Fieldwork Education A), Term 4 (OT 2219 - Fieldwork Education B), and Term 5 (OT 2226 - Fieldwork Education C). Level I fieldwork is designed to enrich didactic coursework through direct observation and participation in selected aspects of the occupational therapy process. Level I fieldwork is supervised by qualified personnel (e.g., currently licensed or otherwise regulated occupational therapy practitioners, psychologists, physician assistants, teachers, social workers, nurses, and others). OTD students are assigned to Level I fieldwork sites in the Greater Pittsburgh Area by the Academic Fieldwork Coordinator in collaboration with the course instructors. The qualifications of individuals supervising students during Level I fieldwork are reviewed by the Academic Fieldwork Coordinator to ensure that a meaningful learning experience can be provided.

Level II fieldwork is completed in Terms 6 and 7 (OT 2228 - Fieldwork Education D; OT 2229 - Fieldwork Education E). Level II fieldwork is distinct from Level I fieldwork. Students must successfully complete three Level I fieldwork experiences prior to enrolling in Level II fieldwork. Level II fieldwork is an in-depth experience in delivering occupational therapy services to clients in traditional and/or emerging settings consistent with our OTD Program's curriculum design. Each OTD student is assigned to specific Level II fieldwork sites to ensure exposure to a variety of clients across the life span and to a variety of settings. Students can complete Level II fieldwork in a minimum of one setting if it is reflective of more than one practice area, or in a maximum of four different settings. The OTD Program only uses sites within the United States that allow for...
supervision by an occupational therapist who meets state regulations and has a minimum of one year of practice experience, subsequent to the requisite initial certification. Level II fieldwork is a minimum of the equivalent of 24 full-time work weeks. Level II fieldwork may be completed on a part-time basis as long as it is at least 50% of a full-time equivalent at the site. The OTD student is assigned to a Level II fieldwork site by the Academic Fieldwork Coordinator and signs the Level II Fieldwork Acknowledgment Agreement. The performance of a student who does not successfully complete Level II fieldwork is critically reviewed by the Academic Fieldwork Coordinator and occupational therapy faculty. Satisfactory completion of targeted interventions by the student may be required prior to enrolling in a subsequent Level II fieldwork. The faculty reserves the right to place a student at a site in the Greater Pittsburgh Area based on the student's academic performance and/or professional behavior.

After successful completion of OT 2228 and OT 2229, the OTD student engages in didactic coursework and training of advanced skills beyond the generalist level of an occupational therapist. OTD students enroll in OT 3208- Experiential Preceptorship (doctoral experiential component) (Term 9) after they have successfully completed all didactic coursework, Level I and Level II fieldworks, and a competency requirement. The Experiential Preceptorship (OT 3208) is a 16 week (640 hour) in-depth experience in clinical practice skills, research skills, administration, leadership, program and policy development, advocacy, and/or education and includes the completion of a culminating (capstone) project. The Experiential Preceptorship is distinct from Level I and II fieldwork and is the final step in the preparation of the OTD student for entry-level practice. These learning experiences (Fieldwork education and Experiential Preceptorship) prepare the OTD student to assume the roles of practitioner, manager, and contributor upon graduation from the academic program. Prior fieldwork, volunteer, and/or work experience hours cannot be applied towards the Experiential Preceptorship hours, and a student's current work setting cannot serve as a site for his/her Experiential Preceptorship. The Experiential Preceptorship may be completed on a part-time basis.

The culminating (capstone) project is a multi-faceted investigative assignment that students begin in Term 2. It is designed to encourage students to think critically, solve challenging problems, collaborate with other professionals, and to develop advanced skills in communication, research, teamwork, planning, leadership, self-reliance, professionalism, and advocacy - skills that will prepare them to respond positively and confidently to the many opportunities and challenges in today's evolving and increasing complex practice settings. Although, the learning objectives for the Experiential Preceptorship and culminating project address all three roles of the occupational therapist - practitioner, manager, and contributor - the focus is on the development of skills for increased autonomy as a contributor to advancing occupational therapy practice. The projects address community issues or problems, and are implemented in novel practice settings.

Level II fieldwork (OT 2228; OT 2229) and the Experiential Preceptorship (OT 3208) must be completed within 24 months following completion of the didactic portions of the OTD Program. OTD students are responsible for securing any and all required resources in preparation for and during Level I and II fieldwork and the Experiential Preceptorship including but not limited to transportation, physical examinations and associated testing (e.g., drug screen), health insurance, liability insurance, background checks and clearances, parking, housing, food, and clothing.

### Academic Standards

In addition to following University-wide academic rules and regulations as detailed in the General Academic Regulations section of this Catalog, the OTD Program is regulated by the School of Health and Rehabilitation Sciences Academic Standards, as well as the policies and procedures in the SHRS Graduate Student Handbook and the OTD Student Manual.

### Department of Physical Therapy

The Department of Physical Therapy offers three academic programs of study:

- DPT program leading to the DPT degree
- Joint DPT/PhD program leading to a DPT degree and a PhD in Bioengineering
- M.S. in Health & Rehabilitation Sciences with a concentration in neuromuscular or musculoskeletal physical therapy

### Master's

**Physical Therapy - Musculoskeletal Physical Therapy Concentration, MS**
This program is designed for the practicing physical therapy professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Health and Rehabilitation Science program offers a choice of concentrations in Physical Therapy: Musculoskeletal Physical Therapy and Neuromuscular Physical Therapy. This program is designed to provide advanced clinical skills in the areas of musculoskeletal and neuromuscular physical therapy. The program leads to a professional clinical degree at the post baccalaureate level. The program is 12 months in length and 33 credit hours.

Contact Information

Program Director
Department of Physical Therapy
School of Health and Rehabilitation Sciences
Bridgeside Point 1
100 Technology Drive Room 242
Pittsburgh, PA 15219
Phone: 412-383-8169
Fax: 412-648-5970
E-mail: ptinfo@shrs.pitt.edu

Application Process

All applicants must:

- Apply online using the SHRS ApplyYourself application
- Submit the application fee of $50 (US)
- Submit an essay—a description of educational and long-term professional goals
- Submit three letters of recommendation. These references can be from a college instructor/professor, academic advisor, supervisor or employer, etc. The letters should address the applicant's academic, professional and personal attributes and potential for successful graduate study
- Submit official transcripts/marksheets from all colleges and universities attended.

Admission Requirements

For admission to full graduate status an applicant must demonstrate:

- A minimum grade point average (GPA) of 3.0 from their entry-level professional physical therapy program (equivalent GPA determined via credential evaluation)
- Evidence of potential for success in a graduate program that can be demonstrated through past work experiences, continuing education, and letters of recommendation

Admissions decisions will be based on an overall evaluation of all credentials submitted and the availability of space in the class.

Additional requirements for International Applicants:

Academic Credential Evaluation

- Evaluations are accepted from International Consultants of Delaware, Inc. (ICD), Educational Credential Evaluators, Inc. (ECE) or Joseph Silney & Associates, Inc. (JS&A)
- A course by course evaluation including a grade point average equivalent is required
- A final transcript/marksheet and diploma (degree certificate) showing completion of the undergraduate degree must be submitted prior to starting the program
- If an international student has earned an undergraduate or graduate degree in the United States, this evaluation is not required
- If you are a US Citizen who earned their degree outside the US an academic credential evaluation IS required
- We do not accept WES evaluations

English Language Proficiency Scores

The University of Pittsburgh will the following as verification of english language proficiency:

785
TOEFL - minimum scores accepted are 80 ibt (internet based test) or 550 pbt (paper based test). TOEFL scores must be sent via ETS to the University of Pittsburgh, institution code 2927

IELTS - minimum score accepted is Overall Band 6.5. IELTS scores must be mailed directly from the testing center to SHRS Office of Admissions, 4020 Forbes Tower, University of Pittsburgh, Pittsburgh, PA, 15260

Verification of English Language Proficiency is required unless the following apply:

- The applicant is a citizen of a country whose ONLY official language is English
- The applicant has completed a degree at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English

For detailed information about these requirements and additional helpful information for international applicants please visit the International Applicants information on the SHRS website.

Note: Application can be submitted while undergraduate degree is in progress provided the applicant will be able to provide evidence of successful degree completion prior to starting the program.

Application deadline: March 1st. Applications submitted and/or completed after the deadline will be reviewed on a case by case basis. Please contact admissions@shrs.pitt.edu.

We encourage international student applications.

Program Requirements

Examination and Testing

Throughout the plan of study, a series of written and/or oral-practical examinations are integrated within the formal course work. These examinations are used to determine mastery of the core elements of the plan of study.

The written examination will cover the levels of "application and analysis" and "synthesis and analysis" so as to gauge the student's ability to utilize information in their clinical decision making.

The practical examinations will focus on the clinical application of therapeutic assessment and treatment techniques. Students will be expected to demonstrate appropriate patient handling, awareness of safety issues, application of technique, and decision-making rationale at the level of an advanced clinician.

Failure to meet any of the above requirements may result in the student not being recommended for graduation from the program.

Curriculum and Course Descriptions

Students in the MS in Health and Rehabilitation Sciences can choose from either a Musculoskeletal PT concentration or a Neuromuscular PT concentration. Upon completion of either one, students will be awarded a Master of Science (MS) degree in Health and Rehabilitation Sciences.

The MS in Health and Rehabilitation Sciences requires the minimum completion of 33 credits. A comprehensive examination sequence is required following completion of the core coursework in each of the separate concentrations. Students must maintain an overall 3.0 GPA in order to be considered a candidate for graduation.

Musculoskeletal Concentration Curriculum

Fall

- HRS 2314 - Fundamentals of Neuroscience for the Orthopedic Clinician, 4 credits
- HRS 2362 - Evidence Based Practice - Clinical Considerations for the Lower Extremity, 3 credits
- HRS 2372 - Advanced Clinical Practice, The Lower Quarter, 3 credits
• HRS 2907 - Clinical Investigations, 2 credit

Spring

• HRS 2307 - Falls & Balance Dysfunction: PT Management and Intervention, 3 credits
• HRS 2309 - Analysis Neuromusculoskeletal Signs/Symptoms in Clinical Decision Making, 3 credits
• HRS 2361 - Evidence Based Practice - Clinical Considerations for the Lumbo Pelvic Spine, 3 credits
• HRS 2373 - Advanced Clinical Practice: The Upper Quarter, 3 credits

Summer

• HRS 2308 - Clinical Practice Seminar, 2 credits
• HRS 2374 - Clinical Rounds and Case Presentations, 1 credit
• HRS 2380 - Evidence Based Practice - Clinical Considerations for the Cervical and Thoracic Spine, 3 credits
• HRS 2381 - Evidence Based Practice - Clinical Considerations for the Upper Extremity, 3 credits
• Comprehensive Exam Sequence

*Note that each course in the plan of study is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence, (e.g. failure to receive a passing grade of 'C' or better; leave of absence from program) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Physical Therapy - Neuromuscular Physical Therapy Concentration, MS

This program is designed for the practicing physical therapy professional who has already earned an entry-level degree in physical therapy. This post-professional graduate plan of study enables physical therapists to improve their clinical knowledge and clinical skills through a specific program of advanced physical therapy practice and scholarship. The Master of Science in Health and Rehabilitation Science program offers a choice of concentrations in Physical Therapy: Musculoskeletal Physical Therapy and Neuromuscular Physical Therapy. This program is designed to provide advanced clinical skills in the areas of musculoskeletal and neuromuscular physical therapy. The program leads to a professional clinical degree at the post baccalaureate level. The program is 12 months in length and 33 credit hours.

Application Process

All applicants must:

• Apply online using the SHRS ApplyYourself application;
• Submit the application fee of $50 (US);
• Submit an essay-a description of educational and long-term professional goals;
• Submit three letters of recommendation. These references can be from a college instructor/professor, academic advisor, supervisor or employer, etc. The letters should address the applicant's academic, professional and personal attributes and potential for successful graduate study;
• Submit official transcripts/marksheets from all colleges and universities attended.
Admission Requirements

For admission to full graduate status an applicant must demonstrate:

- A minimum grade point average (GPA) of 3.0 from their entry-level professional physical therapy program (equivalent GPA determined via credential evaluation)
- Evidence of potential for success in a graduate program that can be demonstrated through past work experiences, continuing education, and letters of recommendation

Admissions decisions will be based on an overall evaluation of all credentials submitted and the availability of space in the class.

Additional requirements for International Applicants:

Academic Credential Evaluation

- Evaluations are accepted from International Consultants of Delaware, Inc. (ICD), Educational Credential Evaluators, Inc. (ECE) or Joseph Silney & Associates, Inc. (JS&A)
- A course by course evaluation including a grade point average equivalent is required
- A final transcript/marksheet and diploma (degree certificate) showing completion of the undergraduate degree must be submitted prior to starting the program
- If an international student has earned an undergraduate or graduate degree in the United States, this evaluation is not required
- If you are a US Citizen who earned their degree outside the US an academic credential evaluation IS required
- We do not accept WES evaluations

English Language Proficiency Scores

The University of Pittsburgh will the following as verification of english language proficiency:

- TOEFL - minimum scores accepted are 80 ibt (internet based test) or 550 pbt (paper based test). TOEFL scores must be sent via ETS to the University of Pittsburgh, institution code 2927
- IELTS - minimum score accepted is Overall Band 6.5. IELTS scores must be mailed directly from the testing center to SHRS Office of Admissions, 4020 Forbes Tower, University of Pittsburgh, Pittsburgh, PA, 15260

Verification of English Language Proficiency is required unless the following apply:

- The applicant is a citizen of a country whose ONLY official language is English
- The applicant has completed a degree at a regionally accredited institution in the U.S.
- The applicant is not a citizen of a country whose official language is English but has completed a degree program at an institution outside of the U.S. where the language of instruction is English and where the official national language of the country in which the institution is located is English

For detailed information about these requirements and additional helpful information for international applicants please visit the International Applicants information on the SHRS website.

Note: Application can be submitted while undergraduate degree is in progress provided the applicant will be able to provide evidence of successful degree completion prior to starting the program.

Application deadline: March 1st. Applications submitted and/or completed after the deadline will be reviewed on a case by case basis. Please contact admissions@shrs.pitt.edu.

We encourage international student applications.

Program Requirements

Examination and Testing

Throughout the plan of study, a series of written and/or oral-practical examinations are integrated within the formal course work. These examinations are used to determine mastery of the core elements of the plan of study.
The written examination will cover the levels of "application and analysis" and "synthesis and analysis" so as to gauge the student's ability to utilize information in their clinical decision making.

The practical examinations will focus on the clinical application of therapeutic assessment and treatment techniques. Students will be expected to demonstrate appropriate patient handling, awareness of safety issues, application of technique, and decision-making rationale at the level of an advanced clinician.

Failure to meet any of the above requirements may result in the student not being recommended for graduation from the program.

Curriculum and Course Descriptions

Students in the MS in Health and Rehabilitation Sciences can choose from either a Musculoskeletal PT concentration or a Neuromuscular PT concentration. Upon completion of either one, students will be awarded a Master of Science (MS) degree in Health and Rehabilitation Sciences. The MS in Health and Rehabilitation Sciences requires the minimum completion of 33 credits. A comprehensive examination sequence is required following completion of the core coursework in each of the separate concentrations. Students must maintain an overall 3.0 GPA in order to be considered a candidate for graduation.

Neuromuscular Concentration Curriculum

Fall

- HRS 2305 - Advanced Neuroscience, 4 credits
- HRS 2306 - Motor Learning and Control of Movement/Health Promotion, 3 credits
- HRS 2372 - Advanced Clinical Practice: The Lower Quarter, 3 credits
- HRS 2907 - Clinical Investigations, 2 credits

Spring

- HRS 2307 - Falls & Balance Dysfunction: PT Management and Intervention, 3 credits
- HRS 2309 - Analysis Neuromusculoskeletal Signs/Symptoms in Clinical Decision Making, 3 credits
- HRS 2356 - Concepts and Principles Related to Sensorimotor Control, 3 credits
- HRS 2373 - Advanced Clinical Practice: The Upper Quarter, 3 credits

Summer

- HRS 2312 - Seminar in Neurologic PT, 2 credits
- HRS 2364 - Evidence Based Medical & Physical Therapy Interventions for Persons with Neuromuscular Disease, 3 credits
- HRS 2365 - Case Studies of Persons with Neuromuscular Disorders, 3 credits
- HRS 2374 - Clinical Rounds and Case Presentations, 1 credit
- Comprehensive Exam Sequence

* 

Note that each course in the plan of study is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence, (e.g. failure to receive a passing grade of "C" or better; leave of absence from program) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Doctoral

Physical Therapy, DPT

Doctor of Physical Therapy (DPT) Degree
The Doctor of Physical Therapy (DPT) program is the entry-level educational program which prepares students for careers as physical therapists. Upon successful completion of the curriculum, a student is eligible for the licensure examination, which is required to be a practicing physical therapist. The goal of the DPT curriculum is to prepare students to become self-directed, self-accountable physical therapists who can function in a cost-effective manner in all settings, and with persons of all ages. Graduates of the program will be prepared to enhance human movement and function through the use of evidence-based practice principles. Physical therapy graduates will have a foundation on which to base further knowledge and skills in specialty areas and to contribute to development of the art and science of physical therapy.

Contact Information

M. Kathleen Kelly, PhD, PT
Vice Chair, DPT Program
Department of Physical Therapy
School of Health and Rehabilitation Sciences
Bridgeside Point 1, Suite 210
Pittsburgh, PA 15219-3130
412-383-6637
Fax: 412-648-5970
E-mail: ptinfo@shrs.pitt.edu
www.shrs.pitt.edu/dpt/

Application Process

Admission to the Doctor of Physical Therapy program is only available on a full-time basis. The DPT program begins the first week of June each year. All applicants must apply to the program through the PT Centralized Application Service (PTCAS). This information is located on the Department website.

Admissions Requirements

To be eligible to apply to the DPT program, applicants must have earned a bachelor's degree, taken and successfully passed all prerequisite coursework, taken the Graduate Record Exam (GRE-general) within the last five years, and must demonstrate evidence of experience in a physical therapy setting in either a volunteer or paid capacity.

- Graduate Record Examination - (GRE -general). GRE scores must be sent to institution code 7754
- Minimum GPA of 3.0 (based on a 4.0 scale)
- 3 letters of recommendation: 1 from a licensed physical therapist (from applicant's volunteer or work experience in a PT setting); 1 from a college level professor; 1 from either of the following: a licensed physical therapist or a supervisor/employer.
- Demonstrated evidence of adequate exposure to the field of physical therapy and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a physical therapy setting; there is no minimum number of hours required. It is preferable for applicants to show evidence of the willingness to work with a variety of patients in different physical therapy settings
- The Department faculty have outlined the Technical Standards deemed essential for successful completion of the DPT curriculum. Students admitted to the DPT program must review the Technical Standards and submit a signed form at the time of matriculation
- Please note that many clinical sites will require a Child Abuse clearance (Act 33), Criminal Background check (Act 34), and a drug screen prior to participation in a clinical education experience. If you do not have a clean background check for either Act 33/34 clearance, or a clean drug screen you may not be able to participate in Clinical Education and therefore will not be able to meet the DPT requirements for graduation.

Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act and if you have a record you may not be able to become licensed to practice your profession after graduation.

Prerequisite Coursework (minimum credit hours listed is based on a semester system equivalent)

- Chemistry I and II sequence with labs, 8 credit hours
- Physics I and II sequence with labs, 8 credit hours
• Biology I and II sequence with labs, 8 credit hours
• Anatomy (human, vertebrate, comparative or anatomical kinesiology), 3 credit hours
• Physiology (human physiology preferred), 3 credit hours
  *A two course sequence of anatomy/physiology may meet the anatomy and physiology requirements as long as there is a total of 6 credit hours
• Two courses in Psychology: should include a general psychology course and a specialized psychology course such as: developmental psychology, abnormal psychology, psychology of disability, sports psychology - 6 credit hours
• Statistics, 3 credit hours
• English Writing (English composition or an upper-division writing course), 3 credit hours

At the time of application no more than 2 courses can be outstanding and must be completed prior to starting the program. Courses MUST BE completed within the past 5 years.

**Academic Standards**

In addition to the University-wide academic rules and regulations as detailed in the General Academic Regulations section of this bulletin, the DPT program is regulated by the SHRS Academic Standards.

**Statute of Limitations**

All requirements of the DPT must be completed within three years. Extension of the statute of limitations may be granted if there are extenuating circumstances. Such requests, listing reasons for the extension and the amount of additional time needed, must be approved by the department chair.

**Comprehensive Examinations**

Students in the DPT program are required to pass a written comprehensive examination before the Doctor of Physical Therapy degree can be awarded. The written comprehensive examination is a cumulative examination covering the core clinical sciences and focusing on physical therapy practice.

**Degree Requirements**

The Doctor of Physical Therapy program is a three-year (9 semester) professional course of study including clinical internships.

**DPT Curriculum**

Our rigorous curriculum is built around 4 key areas: basic science, clinical science, leadership & professional development, and critical inquiry. The DPT plan of study integrates the basic sciences and clinical practice, emphasizes evidence based practice and includes a comprehensive array of course offerings in musculoskeletal, neuromuscular, integumentary, cardiopulmonary, geriatric, and pediatric physical therapy, as well as course content related to leadership & professional development.

We want to make sure our graduates are well prepared to enter the workforce so we complement our didactic education program with a clinical program that includes more than 90 weeks of clinical internships. The curriculum is designed to emphasize early and intensive integration of our students into the clinical environment throughout their educational program. Our students begin their clinical affiliations during the 2nd semester in the program and have a 1 year internship at the end of their didactic phase of the plan of study. Students receive a monthly scholarship during the year-long internship.

**Joint Degree**
Physical Therapy/Bioengineering, DPT/PhD

The Doctor of Physical Therapy (DPT) - PhD in Bioengineering program combines the entry-level DPT leading to licensure as a physical therapist, with a PhD in Bioengineering that will prepare the student to become an independent researcher. The program will integrate clinical and research experiences, with students receiving mentorship from faculty in the departments of Physical Therapy and Bioengineering. Students should have a Bachelor's degree or higher in engineering or engineering-related discipline, with a strong interest in physical therapy.

Contact Information

Patrick Sparto, PhD, PT
Co-Director, DPT-PhD Program
Department of Physical Therapy
Bridgeside Point 1, Suite 210
Pittsburgh, PA 15219-3130
Phone: 412-647-8069
Fax: 412-648-5970
E-mail: psparto@pitt.edu

Application Process

Applications will need to be submitted through the PT Centralized Application Service (PTCAS) by mid November for admission to the program the following June. The application is reviewed by faculty in both departments.

Admission Requirements

Students will need to meet the admission requirements of both programs. Applicants must have a minimum of a Bachelor's degree in a field of engineering or closely related (e.g. physics, or applied mathematics, kinesiology). Applicants must demonstrate evidence of exposure to the field of PT through volunteer or work experience. Applicants must submit 4 letters of reference: one physical therapist with whom the student has volunteered or worked for, two academic advisors, and one work supervisor. A minimum GPA of 3.0 is required but competitive applicants typically have a 3.5 GPA or greater. Applicants must take the GRE exam; typically, admitted students have GRE scores greater than the 50th percentile.

Prerequisite Coursework (minimum credit hours listed is based on a semester system equivalent)

- Chemistry I and II sequence with labs, 8 credit hours
- Physics I and II sequence with labs, 8 credit hours
- Biology I and II sequence with labs, 8 credit hours
- Anatomy (human, vertebrate, comparative or anatomical kinesiology), 3 credit hours
- Physiology (human physiology preferred), 3 credit hours
  *A two course sequence of anatomy/physiology may meet the anatomy and physiology requirements as long as there is a total of 6 credit hours
  **Science courses must be for science majors or pre-med majors. Introductory or remedial courses are not accepted as prerequisites.
- Two courses in Psychology: should include a general psychology course and a specialized psychology course such as: developmental psychology, abnormal psychology, psychology of disability, sports psychology - 6 credit hours
- Statistics, 3 credit hours
- English Writing (English composition or an upper-division writing course), 3 credit hours

At the time of application no more than 2 courses can be outstanding and must be completed prior to starting the program. Courses MUST BE completed within the past 5 years.

Academic Standards

In addition to the University-wide academic rules and regulations as detailed in the General Academic Regulations section of this bulletin, the DPT program is regulated by the SHRS Academic Standards.

Curriculum Overview
Students will follow the typical plan of study for DPT students for the initial seven terms (i.e. 2 1/3 years) of the program. Then students will follow the plan of study for PhD students in Bioengineering. Clinical internships and research experiences will be performed throughout the program. At a minimum, the program will take 6 years to complete. After completing the didactic and clinical requirements of the DPT program, the student will be allowed to take the licensing exam. Students are required to write and orally defend a dissertation to complete their PhD degree.

DPT Curriculum

The course requirements for the DPT include the following:

- Basic Science (Anatomy, Neuroscience, Exercise Physiology, Pharmacology)-17 credits
- Clinical Science (Kinesiology, Musculoskeletal PT, Neuromuscular PT, Cardiopulmonary PT, Patient Management, Human Disease, Geriatrics Growth and Development)-54 credits
- Critical Inquiry (Research Methods, Evidence-Based Practice) -9 credits
- Leadership and Professional Development-7 credits
- Clinical Education-36 credits

Total number of credit hours: 123 credits. Students are required to pass a written comprehensive examination before the Doctor of Physical Therapy degree can be awarded. The written comprehensive examination is a cumulative examination covering the core clinical sciences and focusing on physical therapy practice.

PhD Requirements

The course requirements for the PhD in bioengineering for the combined program include the following:

- Bioengineering Track Courses-9 credits
- Graduate Electives-6 credits
- Seminar-5 credits total-4 credits must be Bioengineering Seminar
- Graduate Engineering Mathematics-3 credits
- Statistics for Bioengineers-3 credits
- Societal, Political, and Ethical Issues in Bioengineering-3 credits
- Teaching Practicum-2 credits
- Grant Writing in Bioengineering-1 credit
- Doctoral Dissertation Research-40 credits

Total number of credit hours: 72 credits minimum (plus the credits associated with the remedial courses, as applicable.) Students typically take the PhD preliminary exam after their first year in the program, and PhD proposal (comprehensive examination) is presented generally at the end of the second year. A final public PhD defense is made by each PhD candidate based on the student's research work.

Department of Rehabilitation Science and Technology

Master of Science in Clinical Rehabilitation and Mental Health Counseling & Master of Science Degree in Health and Rehabilitation Sciences with a Concentration in Rehabilitation Counseling

Contact Information

Michael McCue, PhD
Professor, Counseling Program Director
Program 1: Master of Science in Clinical Rehabilitation and Mental Health Counseling

http://www.shrs.pitt.edu/mscrmhc/

Overview

Clinical Rehabilitation and Mental Health Counseling is a program that blends the important concepts of rehabilitation and mental health counseling to provide a strong, cohesive training program for clinical and professional counselors. Clinical Rehabilitation and Mental Health Counselors are uniquely qualified to work with individuals with disabilities, particularly those who are experiencing psychiatric disabilities or other mental and behavioral health concerns.

The mission of our program is to improve individual and community mental health and rehabilitation outcomes through the clinical education and training of outstanding professional counselors. Our program integrates counseling, clinical services, research, and advocacy with a strengths-based, empowerment focus.

This program prepares students for clinical practice in rehabilitation and mental health counseling. The two-year, 60-credit hour curriculum includes courses on foundations of rehabilitation and mental health counseling, human development across culture and the lifespan, individual, group, family and couples counseling, substance abuse, evidence based practice in counseling, crisis management, risk assessment and disaster preparedness, clinical assessment and diagnosis, case conceptualization and treatment planning, medical and psycho-social aspects of disability, case management, vocational and career development, job development and placement, and assistive technology. Individualized and group professional mentorship over a students to years of study is a hallmark of the program.

Graduates meet eligibility criteria for national certification in rehabilitation counseling (i.e., certified rehabilitation counselor, CRC), professional counseling (National Counselor Certification, NCC and satisfy the educational requirements for licensure as a professional counselor (LPC).

Prerequisites

The curriculum of study for clinical rehabilitation and mental health counseling relies upon having experienced a strong undergraduate education that has provided a sound foundation in knowledge, methods, and attitudes. Students must possess foundational knowledge of the concepts and terminology in medical, psychological, and sociological sciences on which to build the knowledge and skills of the rehabilitation and mental health counseling curriculum.

Students must have the ability to communicate in a clear, organized, and logical fashion with appropriate grammar, both verbally and in writing.

Admission is available on a full-time or part-time basis. Exceptions may be granted to outstanding students who do not meet all of the prerequisite requirements.

Admission Requirements

- Baccalaureate degree in psychology, human services, rehabilitation sciences, social sciences, or related field of study from an accredited post-secondary institution
- Minimum overall undergraduate GPA of 3.00.
Applicants must demonstrate that they possess foundation knowledge of the concepts and terminology in medical, psychological, and sociological sciences on which to build the rehabilitation counseling curriculum. Students must have the ability to communicate in a clear, organized, and logical fashion with appropriate grammar, both verbally and in writing.

All applicants must:

- Complete the SHRS ApplyYourself online application
- Submit the $50 application fee (U.S.)
- Submit official transcripts from all colleges and universities attended
- Submit a minimum of three letters of recommendation - Preferably from individuals who have instructed you in academic settings and/or supervised research activities
- Submit a personal statement - Description of educational and long-term professional goals
- Curriculum Vitae or Resume
- Participate in an interview - Applicants may be required to complete a group interview with the counseling faculty as a part of the application process. Face to face interviews are preferred but other means can be arranged if indicated.

This program requires that student's complete clinical internships at facilities external to the University, and such facilities may require a criminal background check, an Act 33/34 clearance, and a drug screen to determine whether the student is qualified to participate in the clinical internships. Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Program 2: Master of Sciences in Health and Rehabilitation Sciences with a Concentration in Rehabilitation Counseling

Admission Requirements and Application Process

https://www.shrs.pitt.edu/RST/msrc.aspx?id=325

The curriculum of study for rehabilitation counseling is based upon having experienced a strong undergraduate education that has provided a sound foundation in knowledge, methods, and attitudes.

Specific requirements for admission to rehabilitation counseling are:

1. A Baccalaureate degree. (No specific major is mandated; however, prerequisite study for post baccalaureate advanced education should include a well-rounded general education that includes a distribution of studies in psychology, counseling and social sciences) Computer literacy is essential.
2. Prerequisite coursework includes foundation courses in the following areas:
   - Psychology, counseling, or human development (2 courses)
   - Statistics or research design
   - English composition or Technical Writing
3. Students must possess foundation knowledge of the concepts and terminology in medical, psychological, and sociological sciences on which to build the rehabilitation counseling curriculum.
4. The applicant must have a minimum overall GPA of 3.00, and a 3.00 in the prerequisite courses
5. The applicant should demonstrate knowledge of rehabilitation through previous work experiences, internships or field experience, or volunteer work experience.

Applications are accepted on a rolling basis.

Curriculum and Course Descriptions

The program curriculum is designed to permit the student to obtain the essential knowledge, skills, and attitudes necessary to function effectively as a professional rehabilitation counselor.
Master of Science Degree in Health and Rehabilitation Sciences with a Concentration in Rehabilitation Science and Technology (RST)

Contact Information

Dan Ding, PhD
University of Pittsburgh
Human Engineering Research Laboratories (HERL)
6425 Penn Avenue, Suite 400
Pittsburgh, PA 15206
412-822-3684
E-mail: dad5@pitt.edu
http://www.shrs.pitt.edu/RST/

Admission Requirements and Application Process

https://www.shrs.pitt.edu/RST/MSRST.aspx?id=324

Required credits/degrees: Bachelor's degree

Required quality point average (QPA): 3.0

Other admission criteria: The applicant must demonstrate knowledge of rehabilitation science and technology through volunteer or work experience.

Prerequisites:

- Statistics- 3 credits
- English Composition- 3 credits
- Human Anatomy and Physiology- 3 credits
- College Physics- 3 credits

*prerequisite waivers are permitted, pending applicants can demonstrate proof of equivalent knowledge/experience

Application Procedures

The applicant must:

- Present a description of professional and educational goals that are realistically attainable
- Forward 3 letters of recommendation addressing the applicant's academic, professional, and personal attributes and potential for meaningful graduate study

Master of Science Degree in Physician Assistant Studies

The Physician Assistant Degree program prepares students to become highly qualified physician assistants. The University of Pittsburgh graduates will go on to serve as tomorrow's leaders in patient centered care, education and professional service.

Physician Assistants (PAs) are health care professionals licensed to practice medicine with physician supervision. PAs practice primary and specialty patient care in medical and surgical settings throughout the United States and worldwide. In order to practice, Physician Assistants must graduate
from an accredited educational program and become certified through an examination by the National Commission on Certification of Physician Assistants (NCCPA).

The University of Pittsburgh Physician Assistant Studies Program received Accreditation by the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) in March of 2012, following a site visit in September 2011. This program was awarded continuing accreditation through March of 2018. Students are admitted into the program upon successful completion of: an undergraduate degree at an accredited institution and fulfillment of all prerequisites.

Admission Requirements/Application Process

https://www.shrs.pitt.edu/PA/PAProgram.aspx?id=755&nav=756

Applications are accepted through CASPA each year from mid April to November 1. Students are admitted each spring semester.

Master of Science in Prosthetics and Orthotics

Contact Information

Meghan Wander
Department of Rehabilitation Science and Technology
6425 Penn Ave., Ste. 401
Pittsburgh, PA 15206
412-624-6214
Fax: 412-624-6501
E-mail: mew135@pitt.edu
http://www.shrs.pitt.edu/po/

Program Overview

Orthotics and Prosthetics is the evaluation, fabrication and custom fitting of artificial limbs and orthopedic braces. Orthopedic braces, or orthoses, are used to stabilize or unload joints, normalize motion and stresses on tissue, substitute for muscle weakness or paralysis, and assist in normal growth, development and function. Orthoses can be applied to the head, neck, trunk, or limbs. Artificial limbs, or prostheses, are used to replace missing limbs or portions of limbs, and to restore more normal function of the upper or lower extremities.

Orthotists and prosthetists work in a variety of settings, including private practice, hospitals, rehabilitation facilities, nursing homes, and home health settings. Orthotists and prosthetists are currently in high demand, and the demand is expected to increase in the future.

Orthotists and prosthetists are part of the health care team, and as such, work with physicians, therapists, and other health care professionals to provide the orthotic and prosthetic needs of patients. Orthotists and prosthetists are responsible for 1) performing a comprehensive assessment of the
patient's orthotic/prosthetic needs, 2) creating a comprehensive orthotic/prosthetic treatment plan to meet the needs and goals of the patient, 3) performing the necessary procedures to deliver the appropriate orthotic/prosthetic services, which may include fabrication of the orthosis/prosthesis, 4) providing continuing patient care and periodic evaluation to assure/maintain document optimal fit and function of the orthosis/prosthesis, 5) participating in personal and professional development through continuing education, training, research and organizational affiliations, and 6) developing, implementing and/or monitoring policies and procedures regarding human, business, and organizational management.

The MSPO Program is five consecutive terms in length, including one summer term, and requires a total of 66 credits. It is designed to meet all standards for accreditation by the National Commission on Orthotic and Prosthetic Education (NCOPE) and for preparing students to complete residencies and take the American Board of Certification in Orthotics and Prosthetics examinations.

The curriculum includes clinical internships at various internship sites which are available in the Pittsburgh area and throughout the country. The first set of internships are integrated into the curriculum and are completed within the Pittsburgh area. During the last term of the Program, the student completes a more extensive internship, and the student may have to relocate out of the Pittsburgh area during this term. We can work with the student to set up additional internship sites for this final term if necessary.

**Accreditation Status**

The Master of Science Program in Prosthetics and Orthotics has been granted accreditation by the National Commission on Orthotic and Prosthetic Education (NCOPE). Our graduates are fully eligible for NCOPE residencies, and, upon successful completion of an NCOPE residency, they are fully eligible to take the certification examinations of the American Board for Certification in Orthotics, Prosthetics & Pedorthics (ABC).

**Admission Requirements and Application Process**

https://www.shrs.pitt.edu/RST/MSPO.aspx?id=681&SBP=4876

Prerequisite courses

1. Baccalaureate Degree. No specific major is mandated; however, the degree should include a well-rounded general education with a distribution of courses in the sciences, mathematics, psychology, social sciences, and humanities.

2. Prerequisite coursework includes foundation courses in the following areas:

   - Physics with lab 4 credits
   - Biology with lab 4 credits
   - Chemistry with lab 4 credits
   - General Psychology 3 credits
   - Mathematics (algebra or higher) 3 credits
   - Human anatomy 3 credits
   - Human physiology 3 credits
   - Statistics 3 credits

3. *These courses may not be taken in an online or e-learning setting. Candidates who apply to the program with the latter will be asked to retake said courses prior to enrolling in the program.

4. Recommended minimum overall grade point is a 3.0 grade-point average in all college-level courses and a 3.0 average in prerequisite courses. Applicants with less than a 3.0 but with other outstanding qualifications will be considered.

5. Demonstration of knowledge of the profession of orthotics and/or prosthetics through volunteer or work experience. We suggest 250 hour minimum of O&P shadowing to allow the practitioner plenty of time to write a recommendation.
6. Recommendations: (Three): At least one academic reference from a college instructor, and at least two references from a health-care professional (preferably a certified orthotist or prosthetist).
7. Essay describing background leading to the choice of this profession and long-term goals.
8. Completed Application form.
9. Official transcriptions from all college level course work.
10. Graduate Record Exam General Test (institution code - 2927).

Applicants applying to the Prosthetics and Orthotics (MS) program will apply online using the Orthotics & Prosthetics Centralized Application Service, known as OPCAS, https://portal.opcas.org and submit one copy of their official transcript, letters of recommendation, and other required information directly to OPCAS.

To be assured inclusion in the review process, applications should be completed by the date posted on the MSPO website (http://www.shrs.pitt.edu/po. Application information which must be submitted includes:

- Completed application form
- Official transcriptions of all college-level courses
- Letters of recommendation (three)
  - At least one from a college instructor
  - At least two from a health care professional (preferably a certified orthotist or prosthetist)
- Essay describing background leading to your choice of this profession and your long-term goals.
- Graduate Record Exam Scores (General GRE) (Institution Code 2927)
- Record of work, shadowing, or volunteer experience related to the profession of orthotics and prosthetics

Please note that the University of Pittsburgh's program requires that you complete clinical internships at facilities external to the University, and such facilities will or may require a criminal background check, an Act 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the clinical internships. Additionally, in order to become licensed, many states will inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Admissions process, application deadline and prerequisites requirements are available on the Prosthetics and Orthotics webpage.

The School of Health and Rehabilitation Sciences does not require a supplemental application. It is the responsibility of the applicant to complete all admission requirements prior to enrollment.

**Tuition and Fees**

Tuition and Fee rates for the MSPO program can be found at the following websites:

Tuition

- Pennsylvania Residents: http://www.ir.pitt.edu/tuition/pghpugrad.php
- Out-of-State Students: http://www.ir.pitt.edu/tuition/pghosgrad.php

**University Fees:**

- http://www.ir.pitt.edu/tuition/reqfees.php

In addition to University Fees, some of the MSPO courses have lab fees associated with them. Current Fees are available on the Prosthetics and Orthotics webpage.

**Master's**
Rehabilitation Science and Technology - Clinical Rehabilitation and Mental Health Counseling Concentration, MS

Clinical Rehabilitation and Mental Health Counseling is a program that blends the important concepts of rehabilitation and mental health counseling to provide a strong, cohesive training program for clinical and professional counselors. Clinical Rehabilitation and Mental Health Counselors are uniquely qualified to work with individuals with disabilities, particularly those who are experiencing psychiatric disabilities or other mental and behavioral health concerns.

This program prepares students for clinical practice in rehabilitation and mental health counseling. The two-year, 60-credit hour curriculum includes courses on foundations of rehabilitation and mental health counseling, human development across culture and the lifespan, individual, group, family and couples counseling, substance abuse, evidence based practice in counseling, crisis management, risk assessment and disaster preparedness, clinical assessment and diagnosis, case conceptualization and treatment planning, medical and psycho-social aspects of disability, case management, vocational and career development, job development and placement, and assistive technology. Individualized and group professional mentorship over a student's years of study is a hallmark of the program.

This program prepares students to practice the profession of rehabilitation and mental health counseling. The two-year, 60-credit hour curriculum is accredited by the Council for Accreditation of Counseling and Related Education Programs (CACREP) and the Council on Rehabilitation Education (CORE) through October 2023.

Graduates meet eligibility criteria for national certification in counseling (i.e., national certified counselor, NCC or certified rehabilitation counselor, CRC) and the educational requirements for licensure as a professional counselor (LPC).

Requirements:

Clinical Capstone Examination

All Counseling students are required to pass a clinical competency examination. The Clinical Capstone Exam requires student demonstration of knowledge and skills that reflect entry-level competencies of a rehabilitation and mental health counselor. Students are assessed on knowledge and skills accumulated through coursework and clinical experiences. The Capstone requires students to synthesize and apply advanced concepts into clinical practice.

The Capstone employs a clinical case study approach. Students are charged with researching and completing a written review on a client issue or population with the expectation of developing expertise. Students are provided with real and/or simulated clients in their area of expertise to demonstrate their knowledge and skills. Students are expected to analyze and synthesize case materials for case conceptualization and then develop appropriate, realistic, and evidence-based intervention plans. Students are expected to apply appropriate counseling techniques included in their intervention plan via role-play simulations. Successful completion of the Capstone is needed for the student to demonstrate mastery of graduate study and to advance to the final phase of their graduate training - internship.

Curriculum and Course Descriptions

Fall Term - Year 1

- HRS 2731 - FDS OF REHAB & MNTL HLTH CNSLG
- HRS 2732 - HUMN DVLP ACROSS CULT LIFESPAN
- HRS 2733 - CNSLG THEORIES & TECHNIQUES 1
- HRS 2738 - DIAG&REHAB COG BHVR&MNTL DISAB

Spring Term - Year 1

- HRS 2734 - COUNSLNG THEORIES & TECHNQS 2
- HRS 2737 - CLN DIAGC & FUNCT ASMNT CNSLG
Summer Term - Year 1

- HRS 2746 - COUNSELING PRACTICUM

Fall Term - Year 2

- HRS 2704 - FUNDMS REHAB ENGR AND TECHN 1
- HRS 2715 - MEDICAL ASPECTS OF DISABILITY
- HRS 2740 - CLN APPLICATION IN COUNSELING
- HRS 2741 - CSE CONCPTL,TRMNT PLN&CSE MGT
- HRS 2744 - EVIDENCE BASED PRACTICE
- HRS 2750 - CLINICAL COUNSELING CAPSTONE 1

Spring Term - Year 2

- HRS 2735 - CAREER & VOCATIONAL COUNSELING
- HRS 2736 - CRISIS COUNSELING
- HRS 2743 - FAMILY AND COUPLES COUNSELING
- HRS 2745 - SUBS ABUSE ADDICTIONS CNSLG
- HRS 2751 - CLINICAL CAPSTONE EXAM

Summer Term - Year 2

- HRS 2749 - REHAB COUNSELING INTERNSHIP

Rehabilitation Science and Technology - Physician Assistant Studies, MS

Program Requirements

Prerequisite course work

- Anatomy and Physiology, two semesters*
  - This requirement may be met by taking either one semester of Anatomy with lab and one semester of Physiology or two semesters of Anatomy & Physiology combined.
- Biology with lab designed for Science Majors, two semesters*
- Chemistry with lab designed for Science Majors, two semesters*
- English Composition/Writing, two semesters
- Microbiology with lab, one semester*
- Organic Chemistry with lab, one semester*
- Psychology, Introduction, one semester
- Psychology, Upper Level, one semester
- Statistics, one semester
- Medical Terminology, one semester, at least one college credit

*Prerequisite Science Courses GPA of 3.0 or higher is required
Other admission criteria

Successful completion of an undergraduate degree at an accredited institution

- A valid Healthcare Provider BLS course certification from AHA. CPR certification must be maintained throughout the two year program.
- Overall grade-point average (GPA) of 3.0 (based on a 4.0 scale) in all college-level course work and a minimum (GPA) of 3.0 (based on a 4.0 scale) in the prerequisite science courses marked above with an asterisk (*).
- Three letters of recommendation, one from a former college/university instructor and one from a supervisor of the required clinical experience.
- A minimum of 500 hours of hands-on patient care experience.

The patient care experience must be direct, "hands-on" patient contact e.g., RN, EMT or paramedic, health educator, patient care attendant or nurse's aide, clinic assistant, Peace Corps volunteer or other cross-cultural health care experience, technologist, therapist, clinical research assistant, respiratory therapist/aide, medical assistant, PT/OT assistant, therapist.

The GRE is required for applicants seeking seats. The Program Code in CASPA is 0452.

All coursework, requirements, and degree must be completed by August 31st each year in order to be considered for a seat in the class that will begin the following January.

Although not required, the following will be considered when determining the applicant's candidacy score:

- Biochemistry with lab, one semester
- Advanced Biology Courses
- Calculus, one semester
- Nutrition, one semester
- Shadowing a PA

The program is two full years (six consecutive semesters) and classes start each January (spring semester). Applications will be considered until the class is filled. Students are highly encouraged to apply early. The program does not offer advanced standing. All courses within the curriculum are required. No credit is granted for pre-admission experiential learning. Only full-time students are admitted.

Interview Process

Applications for admission will be reviewed by the PA Program Admission's Committee. Candidates selected will be required to meet with the Admissions Committee. The University of Pittsburgh's PA program finds the personal interview to be a necessary and important component to the admission process. The faculty looks for such personal attributes as maturity, empathy, compassion, motivation, ability to communicate, cultural sensitivity, critical thinking skills and the potential to achieve career fulfillment within the PA role. Interviews will be conducted on campus to provide the candidate and faculty an opportunity to meet and discuss the program objectives, student's goals, rationale for choosing the PA profession and more specifically the program at the University of Pittsburgh.

Plan of Study

The Physician Assistant curriculum is comprised of a rigorous 24 month Master of Science Program. The goals and objectives of our program are guided by the criteria set forth in the Standards and Guidelines for an Accredited Educational Program for the Physician Assistant as established by ARC-PA. The first three semesters (12 months) are made up of classroom instruction. Course content is presented through traditional lecture, integrated instruction, case based and hands on skills labs. The clinical year is comprised of rotations in internal medicine, primary care, emergency medicine, general surgery, women's health, pediatrics, geriatrics and behavioral health. The curriculum is presented by practicing physician assistants, medical and surgical physicians and providers who have the expertise in their respective specialty.

Each course in the program is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence (e.g. failure to receive a passing grade of ‘C’ or better; leave of absence from program) will result in the delay of completion of program requirements and graduation from the program.
Didactic Year 1:

Semester 1:

Course Credits

- PAS 2101 - INTRODUCTION TO PAS
- PAS 2102 - ANATOMY
- PAS 2103 - MEDICAL PHYSIOLOGY
- PAS 2105 - HEALTH POLICY
- PAS 2106 - INTRPTG EVALUATING MEDICAL LIT
- PAS 2205 - PATHOPHYSIOLOGY

Semester Total Credits: 15

Semester 2:

Course Credits

- PAS 2104 - GENTC & MOL MECH OF HLTH & DS
- PAS 2107 - PATIENT EDUCATION & COUNSELING
- PAS 2201 - HIST TAKING & PHYSCL EXAM 1
- PAS 2202 - CLINICAL MEDICINE 1
- PAS 2203 - DIAG & THERAPEUTIC PROC 1
- PAS 2204 - PHARMACOLOGY

Semester Total Credits: 15

Semester 3:

Course Credits

- PAS 2301 - HIST TAKING & PHYSICAL EXAM 2
- PAS 2302 - CLINICAL MEDICINE 2
- PAS 2303 - DIAGC & THRPUTIC PROCDR 2
- PAS 2304 - PHARMACOLOGY 2
- PAS 2305 - HEALTH ISSUES ACROSS LIFESPAN
- PAS 2306 - FUNDAMENTALS OF SURGERY

Semester Total Credits: 15

Year 1 Total Credits: 45

Clinical Year 2:

Clinical Year 2

The schedules presented in Semesters 4, 5, and 6 are an example. The actual clinical schedule and order a student will complete the identified clinical rotation may vary.
Semester 4:

Course Credits

- PAS 2701 - CLINICAL ROTATION 1
- PAS 2702 - CLINICAL ROTATION 2
- PAS 2703 - CLINICAL ROTATION 3

Semester Total Credits: 12

Semester 5:

Course Credits

- PAS 2704 - CLINICAL ROTATION 4
- PAS 2705 - CLINICAL ROTATION 5
- PAS 2706 - CLINICAL ROTATION 6

Semester Total Credits: 12

Semester 6:

Course Credits

- PAS 2707 - CLINICAL ROTATION 7
- PAS 2708 - CLINICAL ROTATION 8
- PAS 2709 - CLINICAL ROTATION 9
- PAS 2712 - SUMMATIVE EVALUATION

Semester Total Credits: 13

Year 2 Total Credits: 37

Program Credits Total: 82

Certification

Graduates of the professional program are eligible to sit for the Physician Assistant National Certification Exam (PANCE) administered by the National Commission on Certification of the Physician Assistant (NCCPA). All States and the District of Columbia have legislation governing the qualifications or practice of physician assistants. All jurisdictions require physician assistants to pass the Physician Assistant National Certifying Examination. Only those successfully completing the examination may use the credential "Physician Assistant-Certified." To remain certified, PAs must complete 100 hours of continuing medical education every 2 years. Every 10 years, they must pass a recertification examination.

Rehabilitation Science and Technology - Prosthetics & Orthotics Concentration, MS

Program Requirements/Minimum Credits
Students enrolled in the MSPO Program are required to complete 65 credits to meet degree requirements. The curriculum meets all requirements for students to do NCOPE residencies and take the American Board of Certification in Prosthetics, Orthotics, and Pedorthics certification examinations. Specific courses include:

**Fall term, year one**
- HRS 2771 - FUNCTIONAL ANATOMY KINESIOLOGY
- HRS 2772 - PATHOLOGY ORTHOTICS /PROSTHTCS
- HRS 2773 - INTRO MATERIALS EQUIPMENT
- HRS 2901 - INTRO TO RESEARCH METHODOLOGY
- HRS 2776 - PROFESSIONAL ISSUES IN P & O
- HRS 2779 - PATNT MGMT ORTHOTICS & PROSTC
- HRS 2774 - REHABILITATION BIOMECHANICS

**Spring term, year one**
- HRS 2883 - TRANS-TIBIAL PROSTHETICS
- HRS 2785 - LOWER EXTREMIT Y ORTHOTICS 1
- HRS 2926 - SCHOLARLY PAPER
- HRS 2775 - INTRO EVIDENCE BASED PRA O & P
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE

**Summer term, year one**
- HRS 2786 - LOWER EXTREMIT Y ORTHOTICS 2
- HRS 2783 - SPINAL ORTHOTICS
- HRS 2921 - CLINICAL INTERNSHIP (4 hours/week) = 56 hours, 1 credit
- HRS 2885 - TRANS-FEMORAL PROSTHETICS

**Fall term, year two**
- HRS 2781 - UPPER EXTREMIT Y ORTHOTICS
- HRS 2881 - UPPER EXTREMIT Y PROSTHETICS
- HRS 2708 - INDIV, SCL&CLTL EXPRN OF DISAB
- HRS 2903 - ISSUES IN THE HEALTH SYSTEM
- HRS 2704 - FUNDMS REHAB ENGR AND TECHN 1
- HRS 2921 - CLINICAL INTERNSHIP (4 hours/week) = 60 hours, 1 credit

**Spring term, year two**
- HRS 2921 - CLINICAL INTERNSHIP (280 hours)
- HRS 2926 - SCHOLARLY PAPER
- HRS 2777 - PRACTICE MANAGEMENT IN P & O

**Program Total = 65 credits**
Each course is offered only once during the academic year, therefore, any departure from completing a course in its planned sequence (for example: failure, for any reason, to satisfactorily complete a required course; an unresolved "G" or "Incomplete" grade) will result in a one year delay in completing the course, the remaining program requirements, and the year of graduation.

Comprehensive Exam

At the beginning of the final term of study, a comprehensive examination will be given, covering all aspects of the Program. Students will be required to pass this examination prior to graduation.

Thesis/Non-thesis Options

All MSPO students are required to complete at least a Capstone Project, under the direction of a faculty advisor and an additional faculty reader. However, as a substitute for the Capstone Project, the student may elect to complete a master's thesis, under the direction of a faculty advisor and thesis committee. Students electing to pursue the thesis option will complete 3 credits of Graduate Research Proposal (HRS 2924) in place of the 3 credit Capstone Project (HRS 2926) and will also complete 3 credits of Graduate Research (HRS 2925).

Rehabilitation Science and Technology - Rehabilitation Counseling Concentration, MS

Program Requirements

Students participate in the equivalent of full-time graduate study for two academic years (i.e., a minimum of 60 semester hours). The emphasis in rehabilitation counseling requires two practicum experiences (minimum of 100 field hours each) and an internship (minimum of 600 hours). One practicum is recommended in the area of counseling or job placement and the other in assistive technology. The internship must be in rehabilitation counseling.

Clinical Capstone Examination

All Counseling students are required to pass a clinical competency examination. The Clinical Capstone Exam focuses on student demonstration of knowledge and skills that reflect the competencies of the rehabilitation and mental health counselor. Students will be assessed on their knowledge and skills accumulated through coursework and clinical experiences. The course requires students to synthesize and apply advanced concepts into clinical practice.

The course implements a case study approach. Students are provided real and/or simulated clients to demonstrate their knowledge and skills. Students are expected to analyze and synthesize case materials for case conceptualization and then develop appropriate and realistic intervention plans. Students are expected to apply appropriate counseling techniques included in their intervention plan via role-play simulations. Successful completion is needed for the student to demonstrate mastery of graduate study.

Curriculum and Course Descriptions

The program curriculum is designed to permit the student to obtain the essential knowledge, skills, and attitudes necessary to function effectively as a professional rehabilitation counselor.

Rehabilitation Science and Technology - Rehabilitation Science and Technology (RST) Concentration, MS
Program Requirements/Minimum Credits

All students enrolled in the RST concentration are required to complete 44 credits to meet degree requirements. Students must complete a common set of core courses

- HRS 2704 - FUNDMS REHAB ENGR AND TECHN 1
- HRS 2705 - PRACT REHAB ENGR & ASSTV TECHN
- HRS 2706 - INTRO REHAB ENGR DESIGNS
- HRS 2708 - INDIV, SCL&CLTL EXPRN OF DISAB
- HRS 2715 - MEDICAL ASPECTS OF DISABILITY
- HRS 2718 - PROJEC BASED TECHNOLOGY DSGN
- HRS 2724 - ASSISTV TECHN FUNDING & POLICY
- HRS 2901 - INTRO TO RESEARCH METHODOLOGY
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE
- HRS 2921 - CLINICAL INTERNSHIP
- A set of relevant electives

Note:

The curriculum covers basic science, engineering principles, assistive technology, pathology, rehabilitation, and consumer advocacy.

Students must complete all core courses. Other units may be taken as electives to meet the required number of credits for graduation.

Thesis/Non-Thesis Options

Students in the rehabilitation science and technology program are encouraged to pursue graduate research by completing a master's thesis under the direction of a faculty advisor and thesis committee. However, a non-thesis option of a scholarly paper is also available.

RST students who choose the scholarly paper option may take about one year to complete the program. The scholarly paper may take the format of a literature review, program development, or other product as approved by members of the student's Scholarly Paper Committee.

Certificate

Assistive Technology Certificate

The Department of Rehabilitation Science and Technology has developed an innovative program that prepares individuals to be well-versed in assistive technology, and able to either work directly with persons with disabilities or participate in a research environment related to assistive technology and rehabilitation.

Eligibility

To be eligible for admission into the certificate program, a student must:

- currently be enrolled in a Master of Science or PhD program in RST, physical or occupational therapy, communication science and disorders, or engineering program or
- possess an MS, PhD, or MD degree in an appropriate health-related or technology field.

Program Requirements
The certificate will be awarded upon completion of a Master's or higher degree and completion of 15 credits. The following courses are required:

- HRS 2704 - FUNDMS REHAB ENGR AND TECHN 1
- HRS 2705 - PRACT REHAB ENGR & ASSTV TECHN
- HRS 2708 - INDIV, SCL&CLTL EXPRN OF DISAB

- HRS 2921 - CLINICAL INTERNSHIP or
- HRS 2748 - ASSISTIVE TECHNOLOGY PRACTICUM

And at least three credits must be completed from any combination of the following courses:

(or other courses if approved by the Chair of the Department of Rehabilitation Science and Technology)

- HRS 2709 - WHEELCHAIRS 1
- HRS 2711 - COMPUTER ACCESS
- HRS 2723 - HOME & WORK MODIFCTNS EMMLYMN
- HRS 2724 - ASSISTV TECHN FUNDING & POLICY
- HRS 3705 - WHEELCHAIR BIOMECHANICS
- HRS 3702 - SOFT TISSUE BIOMECHANICS
- HRS 3710 - CLINICAL APPLICATNS & SEATING

**Disability Studies Certificate**

The School of Health and Rehabilitation Sciences offers a 15-credit certificate program in disability studies. This multidisciplinary field of inquiry examines how psychosocial and societal participation issues potentially affect the estimated 45 million people with disabilities.

**Eligibility**

Students enrolled in MS, PhD, or MD degree programs in health-related or technology fields and professionals working in a variety of fields (minimum of bachelor degree required) are eligible to apply for this certificate program. Admission is offered on a rolling basis.

**Program Requirements**

The certificate will be awarded upon completion of the following courses. These 15 credits can be taken over two or more semesters:

- HRS 2708 - INDIV, SCL&CLTL EXPRN OF DISAB
- LAW 5339 - LAW OF DISABLTY DISCRIMINATION or
- ADMPS 2114 - DISABILITY LAW AND SOCIETY
- HRS 2474 - DIR STDY DISAB POLICY & SERVS
- HRS 3412 - DIR RDG PSYSOC SOC/CLTL ASPCT or
- HRS 2905 - ETHICAL ISSUES IN HEALTH CARE or
- HRS 2902 - TOPICS IN HEALTH CARE
- HRS 2475 - DISAB RLTNS & SERVICES INTSHIP
Department of Sports Medicine and Nutrition

Coordinated Master in Nutrition and Dietetics/Master of Science

Preparation for a career in dietetics as a Registered Dietitian requires the completion of an approved 4-year college degree program, completion of an accredited supervised practice experience (providing a minimum of 1200 hours), and successful performance on the National Registration Examination for Dietitians. Effective January 1, 2024 the requirement for dietitian registration eligibility will require a minimum of a graduate degree from an ACEND-accredited program.

The Coordinated Master in Nutrition and Dietetics is currently granted continuing accreditation by the Accreditation Council for Education in Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 312/899-5400.

Contact Information

Deborah Hutcheson, DCN, RDN, LDN
Department of Sports Medicine and Nutrition
School of Health and Rehabilitation Sciences
4036 Forbes Tower
412-383-6747
Fax 412-383-6636
E-mail: dhutches@pitt.edu
http://www.shrs.pitt.edu/cmd/

Admissions Requirements/Application Process

Prerequisites:

- Foundations of Biology 1 with Lab, 4 credits
- Genetics or Foundations of Biology 2, 3 credits
- Human Physiology, 4 credits
- Introduction to Microbiology, 3 credits
- General Chemistry 1 with Lab, 4 credits
- General Chemistry 2 with Lab, 4 credits
- †Organic Chemistry 1, 3 credits
- †Organic Chemistry 2, 3 credits
- *Biochemistry, 3 credits
- Public Speaking, 3 credits
- Economics, 3 credits
- Introduction to Sociology, 3 credits
- Introduction to Psychology, 3 credits
- English Composition/Writing, 6 credits
- Algebra, 2-4 credits
- *Introduction to Nutrition, 3 credits
- Introduction to the Profession of Dietetics, 1 credit
- Social Cultural Determinants of Food Behavior, 3 credits
- Nutrition Assessment 1, 3 credits
- Nutrition Education and Counseling, 3 credits
Macronutrient Metabolism, 3 credits
Micronutrient Metabolism, 3 credits
Food Science 1 with Lab, 4 credits
Food Service Management, 3 credits
Nutrition in the Life Cycle, 3 credits
Nutrition Therapy 1, 3 credits
Nutrition Therapy 2, 3 credits

*These courses need to have been completed within the past five years.

†CHEM 0350 (3 cr.) offered each Spring Term will satisfy the Organic Chemistry requirement. Students who do not take CHEM 0350 must take OCHEM 1 & 2 (6 cr.).

+Genetics is preferred; however, a Biology 2 course with a strong genetics component will fulfill the requirement.

**Application Deadline:**

March 15; however, we encourage students to apply prior to the deadline as the program will begin reviewing applications in January.

**All applicants must:**

- Complete the SHRS ApplyYourself online application;
- Submit a self-evaluation essay, discussing strengths, skills, and experiences that will contribute to success in the CMD Program and your professional goals as a registered dietitian;
- Submit resume demonstrating evidence of adequate exposure to the field of dietetics and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a nutrition and dietetics related settings; there is no minimum number of hours required;
- Submit three letters of recommendation: one from a registered dietitian, one from a supervisor in volunteer or work experience and one form a college professor. These letters should address the applicant’s academic, professional and personal attributes and potential for meaningful graduate study. At least one letter should speak to your leadership experience and commitment to service;
- Submit official transcripts from all colleges and universities attended;
- Submit Graduate Record Exam (GRE) score to the University of Pittsburgh institution code 2927. Achieve minimum scores at the 50th percentile on the verbal and quantitative sections and a score of 3.5 or better on the analytical writing section of the Graduate Record Examination (GRE).

Applications can be submitted when course requirements are in progress.

Admission is for the fall term only.

**International Applicants**

International applicants who have not completed a Didactic Program in Dietetics (DPD) in the US please visit the Post Baccalaureate Year for the Coordinated Master in Nutrition and Dietetics.

**Technical Standards**

All candidates and graduates must possess the essential physical, cognitive, and behavioral abilities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level dietitian. Candidates with disabilities will be considered on a case by case basis. The following link provides detailed information on the technical standards.

Please note that this program requires students to complete portions of their education (e.g., supervised practice experiences) at facilities external to the University to meet requirements for graduation. Many of these external facilities require screening measures such as, but not limited to, criminal background check, child abuse clearance, health appraisal, fingerprint-based background check and/or drug test prior to placement at the facility. The results of these requirements may limit and potentially eliminate placement options for the student which can, in turn, result in an inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act abuse may prevent the student from becoming credentialed and/or licensed to practice in the field.
The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability, or status as a disabled veteran or a veteran of the Vietnam era. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. For information on University equal opportunity and affirmative action programs and complaint/grievance procedures, contact the Office of Affirmative Action, 901 William Pitt Union, University of Pittsburgh, Pittsburgh, PA 15260, 412-648-7860.

The Coordinated Master in Nutrition and Dietetics is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (A.N.D.), (ACEND@eatright.org), phone (1-800-877-1600 or 1-800-877-1600 x5400), or mail (120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995).

Registration

This graduate curriculum provides students with a Master of Science degree and the accredited supervised practice component. The MS program will offer supervised experiences in a variety of major health care and community settings including the renowned University of Pittsburgh Health Care System (UPMC). Upon successful completion of the MS program, graduates are eligible for the National Registration Examination for Dietitians.

Graduation Requirements

Graduation from the Coordinated Master in Nutrition and Dietetics requires completion of 53 credits as follows:

- 26 credit hours of core academic requirements.
- 20 credit hours of supervised practice. This will provide the minimum of 1200 hours of supervised practice as specified by ACEND.
- 7 credit hours of research requirements.

Program Mission and Goals

The mission of the Coordinated Master in Nutrition and Dietetics program is to prepare entry-level registered dietitians at the master's level with increased competence and advanced skills to better meet the needs of the complex evolving health care environment of today.

The program goals are:

1. To prepare registry-eligible master's degree graduates who will have attained both the competence required of all dietitians upon entry into practice and the additional entry-level competence in the emphasis area of Nutrition Therapy (NT).
2. To prepare graduates who will meet the needs of consumers in Western Pennsylvania and other regions of the country for entry-level master's prepared Registered Dietitians with additional entry-level competence in the emphasis area of nutrition therapy.

Program outcomes are available upon request.

Master of Science Degree in Health and Rehabilitation Science with a Concentration in Wellness and Human Performance

The Advanced MS in HRS will focus on wellness and human performance for those students seeking graduate training to develop knowledge and skills related to nutrition and exercise in maintaining and improving health and physical performance. The Advanced Program will include the integration of course work, clinical education, and research pertaining to nutritional aspects of health, fitness, and athletic training/performance. This Advanced MS Program in HRS with a concentration in wellness and human performance will parallel the Advanced MS with a concentration in sports medicine and provide students with access to the sports medicine research facilities and faculty.

Contact Information
Admission Requirements and Application Process

Prerequisites

Students must have a bachelor's degree in any field and the following prerequisites or their equivalents in order to be eligible to apply:

- Physiology, 4 credits
- Introduction to Nutrition, 3 credits

Admission Requirements

For admission to full, unrestricted status, the applicant must have completed an undergraduate degree program with an overall quality point average (QPA) of 3.0 or better (based on a 4.0 scale).

An applicant with a QPA of less than 3.0 in overall undergraduate and professional programs but with favorable professional credentials may be admitted on provisional status upon recommendation of the admissions committee.

Application Deadline: March 15.

Application Requirements

All applicants must:

- Complete the SHRS ApplyYourself online application
- Submit the application fee of $50 (U.S.)
- Submit an essay-a description of professional and educational goals that are realistically attainable during enrollment in the graduate program
- Submit three letters of reference, preferably from individuals who have instructed you in academic settings and/or supervised research activities. These letters should address the applicant's academic, professional and personal attributes and potential for meaningful graduate study
- Submit official transcripts from all colleges/universities you have attended
- International Applicants are required to submit an Academic Credential Evaluation. View more information on the SHRS website
- A visit to the school for an interview may be required if requested by the Admissions Committee.

Note: Application can be submitted when course requirements are in progress

Master of Science Degree in Health and Rehabilitation Sciences with a Concentration in Sports Medicine

The Master of Science in Sports Medicine is a two-year intensive program focused on enhancing the knowledge base in the prevention, assessment, treatment, and rehabilitation of athletic injuries and illness. The program accomplishes this by providing a core curriculum that is central to the pathokinesiology of joint injury and the principles by which restoration of joint function is accomplished.
Students are provided with a research experience within the Neuromuscular Research Laboratory. A clinical experience is available for some students through graduate student assistantships in exchange for providing certified athletic training services. The research experience in the Neuromuscular Research Laboratory (home of the Warrior Human Performance Research Center) focuses on issues central to clinical research in orthopedics and sports medicine. Research includes the use of electromyography, motion analysis, isokinetic dynamometry, physiological, proprioceptive, and balance assessment modalities for the purpose of defining and restoring function as well as optimizing performance in military personnel, injured athletes, and in physically active individuals. Weekly seminars sponsored by the Departments of Orthopaedic Surgery and Sports Medicine provide students with access to the most current research and clinical developments related to patient care. Master's degree candidates must successfully defend a thesis research project or scholarly paper (non-thesis track) in the second year for completion of the program.

Admission Requirements and Application Process

All applicants must:

- Complete the SHRS ApplyYourself online application
- Submit the application fee of $50 (U.S.)
- Submit a self-evaluation essay addressing your purpose for applying to the program, your ability to successfully complete the program, and your goals (short and long term)
- Submit three letters of reference, preferably from individuals who have instructed you in academic settings and/or supervised research activities. These letters should address the applicant's academic, professional, clinical (as appropriate) and personal attributes; as well as potential for meaningful graduate study
- Submit official transcripts from all colleges/universities attended
- Additional requirements for international applicants can be found on the SHRS website

Application deadline is March 15.

Applicants (certified athletic trainers) applying for Assistantship must apply by January 15. There is a mandatory, on-campus, interview with program faculty for the assistantship. You will be contacted by the department to schedule if qualified.

Both MS and PhD students may be eligible for the following Scholarships

George I. Carson Graduate Fellowship of the University of Pittsburgh

Funds from the George I. Carson Graduate Fellowship are awarded to graduate students who are or were affiliated with an athletics program at the University of Pittsburgh as undergraduate and are or will be students at a University of Pittsburgh graduate or professional school. The recipients must be of high moral character, or outstanding undergraduate academic achievement, and demonstrate the potential for outstanding graduate study. Deadline for application will be approximately May 1 for the upcoming fall term and spring term. Students may apply for both the fall and the spring at the same time using the May deadline.
Sports Medicine Resource Fund

This graduate scholarship was created to help defray the cost of professional development activities. Eligible students are those individuals who have completed their undergraduate Athletic Training degree at the University of Pittsburgh and are now continuing their education at Pitt through the Master's in Sports Medicine Program. This $1000 scholarship can be used toward travel and attendance at a professional meeting.

Freddie H. Fu, MD Graduate Research Award

The award is named for and presented in honor of Freddie H. Fu, MD for continued support of research in the field of Sports Medicine. The purpose of this award is to encourage graduate research activity by recognizing exceptional student research projects and defraying some of the expenses associated with the student research. Up to three Graduate Student Awards will be presented. In addition, one Dissertation Award is available to a Doctoral Student. The number of awards presented each year will be contingent on the number of quality proposals submitted and monies available.

Francis J. George Scholarship Award

The Francis J. George Scholarship Award will be awarded to Doctoral students (clinical as well as educational) who have displayed the same passion and commitment to the profession of athletic training as Frank did throughout his career. The amount of the scholarship is $4000.00. Deadline: October.15.

American College of Sports Medicine

Provides research grants and scholarships from the endowments and funds listed below, the American College of Sports Medicine Foundation helps provide the additional support for the College in areas such as education, minority scholarships, Foundation Research Grants, and much more.

NATA Research and Education Foundation Graduate/Doctoral Scholarship

The National Athletic Trainers' Association provides a number of scholarships to eligible students on the basis of academic and clinical excellence as well as participation in campus and community activities that demonstrate qualities of leadership and service. Applicants must be student members of the NATA by November 1 of the year preceding submission of the application, be enrolled in an accredited curriculum program and intend to pursue the profession of athletic training as their means of livelihood and have a minimum GPA of 3.2 or higher. Completed applications must include a statement of support by a certified athletic trainer and verification of academic standing. The amount of each scholarship is $2300.00. Applications will be posted on the NATA website approximately September 1. Go to NATA Foundation for additional application information. Deadlines for portions of the application begin in January. Learn more about this scholarship.

NATA Research & Education Foundation Master's/Doctoral Research Grant

View more about this grant.

Financial Aid

Graduate assistantships are available to master's candidates who are athletic trainers and include appointments at the University of Pittsburgh. The yearly assistantships include tuition remission and stipend.

Academic Standards

An average of at least B (GPA=3.00) is required in all courses that make up the MS emphasis in sports medicine. A student who receives a grade lower than a B is required to retake the course according to School of Health and Rehabilitation Sciences policy.

Student Scholarship Appointment Standards

The Department of Sports Medicine and Nutrition, in accordance with the University of Pittsburgh and School of Health and Rehabilitation Sciences, defines a student scholarship as a teaching assistant, teaching fellow, graduate student assistant, or student employee trainee (TA/TS/GSA/SET). Although student scholarship appointments may not be made for more than one year, a student may be reappointed. While it is impossible to guarantee reappointments, most students making satisfactory progress toward a graduate degree and whose teaching or other service performance is satisfactory will receive at least one renewal of their appointment or an offer of other financial assistance. If it is impossible to offer renewal or other appointments, priority will be given to those with superior academic, teaching, and service qualifications.
The criteria for reappointment are the quality of assigned work and academic achievement. Unsatisfactory academic performance is a cumulative GPA below 3.00 or completion of fewer than 9 credits of graduate work per term. As such, students who have a cumulative GPA below 3.00 at the time of scholarship reappointment will not receive reappointment of their scholarship. This policy is in accordance with the University of Pittsburgh Policy Statement for Teaching Assistants, Teaching Fellows, and Graduate Student Assistants.

Master's

Coordinated Master in Nutrition and Dietetics, MS

Students who choose to pursue Pitt's Coordinated Master in Nutrition and Dietetics degree are ahead of the game! In 2024, all Registered Dietitian/Nutritionists (RDNs) entering the field will be required to have a master's level degree to enter the profession.

The Masters curriculum is a combination of didactic coursework and supervised practice which includes required competencies and student elective courses affording graduates a strong foundation in medical nutrition therapy and eligibility to sit for the Registration Exam for Dietitians.

About

The Coordinated Master in Nutrition and Dietetics program is a two-year Master of Science program housed within the Department of Sports Medicine and Nutrition.

Preparation for a career in dietetics as an Registered Dietitian/Nutritionist (RDN) requires the following:

- completion of an approved 4-year college degree program (accredited by ACEND) such as our Pitt undergraduate program*
- completion of an accredited supervised practice experience (providing a minimum of 1200 hours)**
- successful performance on the national Registration Examination for Dietitians

No matter your professional goals in the Dietetics profession, this program offers an entry level advanced degree option to provide a competitive edge for today's health care environment. Upon successful completion of the Masters program graduates are eligible to take the national registration examination for Dietitians. Graduates passing the registration exam are eligible for licensure in Pennsylvania by the Board of Nursing. For licensing information please visit Instructions for Licensed Dietitian-Nutritionist (LDN) Applicants.

*Students applying to this program must have an ACEND-accredited nutrition undergraduate degree. Please see information on our Post-Baccalaureate Year for the Coordinated Master in Nutrition and Dietetics program if you have an undergraduate in another field or discipline.

**This program provides the 1200 hours of supervised practice required to become an RDN. The supervised practice sites are randomly assigned and public transportation is not available to all sites. All students should anticipate the necessity of having a car accessible to them for both years of the program. Please review the supervised practice information.

For more information on becoming an RDN, visit www.eatright.org.
Program Requirements

The Coordinated Master in Nutrition and Dietetics is a two-year Master of Science course of study requiring 53 credits including supervised practice.

Curriculum

First Year

Fall Term

- HRS 2008 - ENTRPRNR SKILLS FOR NUTRnish PROF
- HRS 2631 - NUTRITION ASSESSMENT 2
- HRS 2999 - INDEPENDENT STUDY
- HRS 2004 - PATHPHYLGY ACROSS LIFE SPAN
- PSYED 2018 - STATISTICS 1

Total Credits: 15

Spring Term

- HRS 2633 - PROFESSIONAL TRENDS & ISSUES
- HRS 2634 - FOOD SERVICE MANAGEMENT
- HRS 2625 - ADVANCED NUTRITION COUNSELING
- HRS 2901 - INTRO TO RESEARCH METHODOLOGY
- HRS 2640 - SUPV PRA: COMMUNITY NUTRITION

Total Credits: 14

Second Year

Fall Term

- HRS 2623 - ADV MEDICL NUTRITION THERAPY 1
- HRS 2600 - NUTRITION RESEARCH SEMINAR
- HRS 2641 - SUPV PRACT: FOOD SERVICE MGT
- HRS 2642 - SUPRVSD PRACTICE: CLINICAL 1
- HRS 2637 - PRACL APPLC MEDL NUTRN THRPY 1

- HRS 2645 - SUPV PRACT MGT LONG-TERM CARE
- HRS 2638 - PRATCL APPLICATIONS OF MNT 2
Sports Medicine and Nutrition - Sports Medicine Concentration, MS

The Sports Medicine (SM) program focuses on enhancing the knowledge base in the prevention, assessment, treatment and rehabilitation of athletic injuries and illness. Athletic Trainers, other health care professionals and individuals interested in sports medicine will find the curriculum well-suited to meet their post-professional goals and objectives. Several graduate assistantships are available for applicants who are Certified Athletic Trainers.

About

The Sports Medicine (SM) concentration leading to a Master of Science degree in Health and Rehabilitation Sciences is a two-year graduate program housed within the Department of Sports Medicine and Nutrition.

<table>

</tr>
<tr>
<td>Program starts fall term only</td>
</tr>
</tbody>
</table>

Sports medicine is a multidisciplinary field that focuses on health care issues for athletes and physically active individuals. The SM program has a research focus and provides a core curriculum that is central to the pathokinesiology of joint injury and the principles by which restoration of joint function is accomplished. Graduates of the program seek appointments in both clinical and educational settings at colleges and universities, high schools and private sports medicine clinics. Individuals who have successfully completed our program include physical therapists, bioengineers and exercise physiologists.

Graduate assistantships are available to applicants who are athletic trainers and include appointments at the University of Pittsburgh. The yearly assistantships include tuition remission and stipend.

Research

Students are provided with a research experience within the Neuromuscular Research Laboratory/Warrior Human Performance Research Center that focuses on issues central to clinical research in orthopedics and sports medicine. Research includes the use of electromyography, motion analysis, isokinetic dynamometry, physiological, proprioceptive, and balance assessment modalities for the purpose of defining and restoring function as well as optimizing performance in military personnel, injured athletes, and in physically active individuals. Monthly seminars provide students with access to the most current research and clinical developments related to patient care.

The NMRL boasts:
- 30 years of comprehensive, relevant sports medicine research as part of the University of Pittsburgh
- A 10-year history of Department of Defense (DoD) Human Performance Operation and Injury Prevention Research
- Lab leadership with over 75 years of sports medicine experience and 55 years of military experience
- Unique understanding of DoD Human Performance Operation and Injury Prevention needs
- Multi-disciplinary, team-centric approaches to research
- Cutting-edge and innovative research capabilities

Program Requirements

The concentration in sports medicine requires a student to successfully complete a minimum of 36 credits and is available with a thesis and non-thesis option. Master's degree candidates must successfully defend a thesis research project or scholarly paper (non-thesis track) in the second year for completion of the program.

Curriculum and Course Descriptions

In addition to the course work, students who are certified athletic trainers and are awarded graduate student assistantships are provided with clinical experiences in athletic training and sports medicine settings. All students are provided the opportunity for research experience within the Neuromuscular Research Laboratory.

Sports Medicine Core (Required)

- HRS 2867 - PATHOKIN ORTHOPAD/ATHLTIC
- HRS 2868 - SEMINAR IN SPORTS MEDICINE
- HRS 3896 - RESEARCH SEMINAR SPORTS MEDICN
- HRS 2869 - ANATOMCL BASIS SPORTS MEDICINE
- HRS 3898 - LAB TECHNIQUES SPORTS MEDICN 1
- HRS 3897 - LAB TECHNIQUES SPORTS MEDICN 2
- HRS 2908 - MUSCULSK ASSMNT INJURY PREVN
- HRS 2017 - INJURY EPIDEMIOLOGY

Electives (Highly Recommended - Others Available)

- PHARM 5114 - ANATOMY AND PHYSIOLOGY 1
- PHARM 5115 - ANATOMY AND PHYSIOLOGY 2
- HRS 2650 - EXERCISE PHYSIOLOGY
- HRS 2628 - NUTRITION & PERFORMNC WITH LAB
- HRS 2629 - DIETARY SUPPLEMENTS HLTH PERF
- HRS 2706 - INTRO REHAB ENGR DESIGNS
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- HRS 2901 - INTRO TO RESEARCH METHODOLOGY

Thesis Track

- HRS 2999 - INDEPENDENT STUDY
- HRS 2925 - GRADUATE RESEARCH

Nonthesis Track
Note:

Thesis and non-thesis tracks are available. Master's degree candidates must successfully defend a thesis research project or scholarly paper (non-thesis track) in the second year for completion of the program.

Sports Medicine and Nutrition - Wellness and Human Performance Concentration, MS

The Advanced MS in HRS will focus on wellness and human performance for those students seeking graduate training to develop knowledge and skills related to nutrition and exercise in maintaining and improving health and physical performance. The Advanced Program will include the integration of course work, practical applications, and research pertaining to nutritional aspects of health, fitness, and athletic training/performance. This Advanced MS Program in HRS with a concentration in wellness and human performance will parallel the Advanced MS with a concentration in sports medicine and provide students with access to the sports medicine research facilities and faculty.

The Wellness and Human Performance (WHP) program is designed for students seeking graduate training to develop knowledge and skills related to nutrition and exercise in maintaining and improving health and physical performance. Primary areas of focus pertain to education and training in sports nutrition, health and wellness coaching, and the use of nutrition and exercise for the prevention and management of obesity and related chronic diseases.

Research: 6 Credits

- HRS 2901 - INTRO TO RESEARCH METHODOLOGY *
- HRS 2910 - STATSTCL APPLCS/HEALTH & REHAB **

* Required

** Alternate selections require approval.

Additional Requirements: 6 Credits

- HRS 2999 - INDEPENDENT STUDY
- Electives in a designated specialty area (3)

Rehabilitation Science Doctor of Philosophy (PhD)
Doctor of Philosophy Degree in Rehabilitation Science

The mission of the PhD program in Rehabilitation Science is to advance the frontiers of knowledge underlying the practice of rehabilitation disciplines and professions through research, teaching, and professional development.

This PhD is an interdisciplinary degree. Students enter the program through the following SHRS departments or programs: Health Information Management, Occupational Therapy, Physical Therapy, Rehabilitation Counseling, Rehabilitation Science and Technology, and Sports Medicine. Upon degree completion you will have mastered a specific area of expertise in rehabilitation science and carry an expansive core of related knowledge.

About

Program Summary:

Program starts fall, spring or summer terms

- 8 years (with approved credit transfer) or 10 years (without credit transfer)
- 72 credits total required to graduate (some areas of focus may require more credits)

The Primary Goals of the PhD program in Rehabilitation Science are to:

1. Provide core content in theories and models of rehabilitation, disability and/or assistive technology that underpin rehabilitation science;
2. Provide in-depth, state of the science, content in basic, clinical, social, medical and/or engineering sciences that support the dissertation research;
3. Provide mentorship opportunities for immersion in rehabilitation science research laboratories, projects, and/or ongoing studies;
4. Prepare students to conduct and disseminate original research that will advance rehabilitation science;
5. Promote interdisciplinary research in preparation for becoming a research team member;
6. Promote knowledge, behaviors and skills consistent with the responsible conduct of research;
7. Provide opportunities to teach content in an area of expertise.

The doctoral degree in Rehabilitation Science is an interdisciplinary research degree offered by the School of Health and Rehabilitation Sciences and not by individual Departments within the School. Graduates of this Program will have a specific area of expertise in rehabilitation science as well as a core of interdisciplinary knowledge related to this specific area. They will become the researchers, scholars, teachers, thinkers, and planners in the demanding and changing field of rehabilitation science.

Areas of Study

- Assistive technology
Admission Requirements/ Application Process

Applicants should have a strong interest in rehabilitation research as well as a master's degree in an area related to rehabilitation science. The exceptional student with a bachelor's degree, six or more credits of graduate course work, and compelling clinical/research experience in rehabilitation science will be considered.

Resources, including research mentors, must be available to enable the student to engage in a plan of study and research in the student's major area of interest in rehabilitation research. Therefore, it is important that there is a match between the research interests of an applicant and an SHRS Rehabilitation Science graduate faculty member.

Admission Requirements

Successful applicants will have a minimum GPA of 3.0 (based on a 4.0 scale) in all college work; minimum scores at the 50th percentile on the revised verbal and quantitative GRE® revised General Test, and a minimum score of 3.5 on the Analytical Writing section of the GRE® revised. Students for whom English is a foreign language must have a minimum TOEFL score of 100 (internet), 600 (paper); or Band 7.0 on the IELTS (reading and writing modules).

Application Requirements

Applicants are required to submit the following:

- Completed SHRS online application form
- An essay stating career goals, specific research interests and experience, and clinical interests and experience;
- Three to five academic or work related letters of recommendation (at least one academic reference must be included as well as a letter of support from the identified Research Mentor);
- A résumé, including work history, formal education, continuing education, licensing and certification, professional organizations, honors and awards, publications, presentations, and grants;
- Official Transcripts from all colleges attended; transcripts must be sent directly fro the instituiton to the University of Pittsburgh
- GRE® revised General Test scores
- Test of English as a Foreign Language(TOEFL or IELTS scores (for candiates whoe native language is not English)
- At least one example of written work (class project, course assignment, publication for which candidate is first author, etc.)
- See the SHRS website for additional requirements for international applicants

Applications are accepted at any time and are evaluated by the PhD admissions committee.

Applicants are evaluated by the PhD Admissions Committee. Admission to the program requires (1) the applicant to meet the standards for a PhD student in SHRS, and (2) that a faculty member of the PhD program has an opening for an additional PhD student and agrees to be the Academic Advisor for that applicant.

Applicants are encouraged to apply at least 6 months prior to the term in which they will begin classes.

For more information about admission to the PhD program contact:

Office of Admissions
School of Health and Rehabilitation Science
University of Pittsburgh
Financial Aid

Financial assistance is often available from a variety of sources, including graduate student assistantships and teaching assistantships. These assistantships typically require 20 hours per week of research, teaching, or clinical service in exchange for a tuition, health insurance, and an annual salary. Other forms of financial assistance, including fellowships, may be available through individual faculty grants. Applicants interested in financial support should indicate this on their applications for admission. Acceptance into the PhD program does not assure that a student will be offered financial aid. Depending on the availability of financial aid, the offer of financial support to an applicant may be deferred until a later date. Since financial aid is limited, applicants who desire financial aid are encouraged to apply early.

Transfer Credits

If a student wishes to transfer credits, the student and the student's Academic Advisor must submit a Credit Transfer Request Form to Student Services during the first year of study. Transcripts verifying the graduate courses and course descriptions must accompany the petition. The student and student's Academic Advisor will be informed by the Associate Dean of Graduate Studies which courses are acceptable as transfer credits, and this information will be placed in the student's file. Based on University guidelines, students who transfer any credits from a master's degree must complete the PhD within 8 years; students who do not transfer credits must complete the PhD within 10 years.

Academic Advisor

Students admitted to the PhD program are assigned an Academic Advisor who is a member of the Graduate Faculty in SHRS. He/she will have research interests similar to the student's interests and will have agreed to be the student's Research Mentor.

The Academic Advisor and student will determine the Plan of Study for the student. They will also plan course work or other experiences to enable the student to demonstrate competency in the proposed content supporting the dissertation, as well as statistics/research methodology content in preparation for the Comprehensive Examination and Dissertation Proposal Defense. It is the responsibility of the Academic Advisor to provide advice to the student during the PhD program, especially with the following steps.

1. Petitioning the Associate Dean of Graduate Studies for transfer of credits
2. Preparing a Plan of Study outlining course work and dissertation credits leading to the PhD Degree
3. Locating research opportunities
4. Revising the Plan of Study as needed as the dissertation topic is formulated
5. Finding a Primary Research Mentor

If either the student or his or her assigned advisor prefers, the student can choose another Academic Advisor, assuming that this faculty member agrees to advise the student. The student must obtain a Change of Advisor form online on the SHRS website. Complete the form and secure the required signatures, and return the form to the Office of Student Services. As a general rule, students who have more than 50% of the credits required for graduation should not initiate change of advisor procedures.

Plan of Study

The student and Academic Advisor will prepare a tentative Plan of Study within the first term of enrollment. If a Plan of Study has not been submitted by the end of the first term, the student will not be permitted to enroll in the subsequent term. The Plan of Study Form can be obtained online on the SHRS website. The Plan of Study should include transfer credits, course work to date, future course work, and dissertation credits leading to the PhD degree. A copy of the Plan of Study will be placed in the student's file. The Plan of Study should be reviewed each term at registration and updated as needed by the student and Academic Advisor. A final updated Plan of Study must be on file in the student's permanent file in Student Services in the term in which the student graduates, or the student cannot be certified by the Registrar for graduation.

More information regarding the following can be found in the PhD handbook on the SHRS website:

- SHRS Student Statistical Support
Doctoral

Rehabilitation Science, PhD

Program Requirements

A minimum of 72 credits beyond the bachelor's degree level is needed for the PhD degree at the University of Pittsburgh. Some areas of focus within the PhD Program may require more than 72 credits. Up to 30 credits taken at the graduate level (2000 & 3000 level courses) toward a master's degree may be transferred. In all cases, at least 36 credits must be completed as a PhD student at the University of Pittsburgh. No undergraduate credits (1000 level courses) may be applied towards the doctoral degree.

The overall form and content of each student's program is the responsibility of the Graduate Faculty of SHRS. To carry out this responsibility, each student has an Academic Advisor who, in consultation with the student, plans a program of study and research in accord with SHRS guidelines.

Course and Competency Requirements

The following requirements apply to all PhD in Rehabilitation Science students:

HRS 3000 - Doctoral Seminar: 4 credits

A grade of B or better for each term of the Methods of Inquiry for Rehabilitation Scientists Core and Core Concepts in Rehabilitation and Disability Core (2 terms, 2 credits)

- HRS 3002 - Methods of Inquiry I - 1 credit
- HRS 3003 - Core Concepts I - 1 credit
- HRS 3004 - Methods of Inquiry II - 1 credit
- HRS 3005 - Core Concepts II - 1 credit

HRS 3001 - Dissertation Research: 18 credits

An unconditional PASS on the Preliminary Examination for the Methods of Inquiry Core and the Core Concepts in Rehabilitation and Disability Core

An unconditional PASS on the Comprehensive Written and Oral Examinations in the content area of the dissertation

Content in the areas of research design and statistics: 9 credits

Participate in the teaching of at least one course (Teaching Participation Form)
Successful completion of manuscript submission requirement

Successful completion of grant application submission requirement

Successful defense of the dissertation research

Note: PhD students are required to maintain a 3.000 Cumulative GPA and receive a grade of C or better in all courses required by their program curriculum.

Students who receive a grade below a C in a required course must repeat that course and attain a grade of C or better to graduate. (Note: University regulations state that a student may repeat any course in which a grade of B- or lower is received if an authorization to repeat the course is given by the student's adviser/faculty.) Students will not be permitted to register for a course until they attain a C or better in its prerequisites. Failure to receive an acceptable grade after the second opportunity to complete a required course may result in the student being dismissed from the program and SHRS.

During the first month of enrollment, incoming students need to:

Complete a module on plagiarism and forward the certificate indicating successful completion to Student Services. The module is available at: http://www.umuc.edu/writingcenter/plagiarism/index.cfm

Thoroughly read (1) the Handbook of the PhD Program in Rehabilitation Science and (2) the SHRS Graduate Handbook. Both Handbooks are available on the SHRS website under "Current Students - Student Handbooks".

- By September 30th, students need to forward the Handbook Acknowledgment Form (see the last Appendix in each Handbook) to Student Services acknowledging that they have read the policies and procedures and will adhere to them.

Manuscript Submission Requirements

Prior to scheduling the dissertation defense, each PhD student will demonstrate a minimum amount of experience in manuscript writing and submission by completing:

- 1 co-author manuscript accepted for publication
- 1 first author manuscript submitted and reviewed by a peer-reviewed journal

Data-based manuscripts are strongly preferred.

Grant Submission Requirement

Prior to scheduling the dissertation defense, each PhD student will demonstrate a minimum experience with grant writing and submission by completing one of the following:

- Submission and peer-review of a Doctoral Research or Research Fellowship Grant applications (Can be NIH or Private Foundations)
- Submission and peer-review of Pilot study grant applications (e.g., foundations, professional societies, the UPMC Rehab Institute Pilot Award)
- Completion of a grant writing course
- Submission of a provisional and non-provisional patent application
- Submission and peer-review of an SBIR like applications, or other options to secure funding for technology development (pitching an idea for commercial development, etc.)

Note: The peer-review may be internal or external peer review. A copy of the summary report from the review should be submitted with a copy of the grant application to Debby Keelan (dkeelan@pitt.edu) to be kept in the student's file.

Also note: Submission to the $1,000.00 SHRS scholarship award will NOT qualify for satisfying the grant submission requirement. There will be a new SHRS Doctoral Scholarship Award available in the future that will satisfy this requirement.

Core Areas

There are two Core Areas which are required for all students in the PhD in the Rehabilitation Science Program - Methods of Inquiry for Rehabilitation Sciences and Core Concepts in Disability and Rehabilitation Sciences.
All students pursuing a Doctor of Philosophy in Rehabilitation Science degree will be required to demonstrate basic competency in designing and appraising research studies and to demonstrate basic competency in understanding the fundamentals of disability and rehabilitation sciences.

**CORE: Methods of Inquiry for Rehabilitation Sciences**

Upon completion of the courses, students will be able to design a research study to answer a specific research question, including the best design for the question asked, sampling, controls for bias or confounding, and basic statistical analysis. They will be able to critically appraise research and apply it to clinical practice.

**CORE: Core Concepts in Disability and Rehabilitation Sciences**

Upon completion of the modules, students will be able to describe and discuss core concepts in disability and rehabilitation sciences, and analyze and synthesize multiple perspectives on the current and future state-of-the science.

School of Information Sciences

The School of Information Sciences (iSchool) is one of the nation's pioneering schools in the education of information professionals, with a rich history that reaches back more than 100 years. Throughout that century, the School has built and maintained a tradition of excellence and innovation in the Information Sciences. As one example, our Master of Library and Information Science degree is ranked tenth in the nation by U.S. News & World Report. This School, with a national and international reputation for quality, will prepare students for careers in the information, telecommunications, archival and library professions.

The School of Information Sciences offers programs of study leading to masters' and doctoral degrees, as well as certificates of advanced study (post-bachelor's and post-master's). The iSchool is composed of the Information Science and Technology Program, the Library and Information Science Program, and the Telecommunications and Networking Program. Degrees and certificates offered by each are outlined under the individual program headings. The iSchool's faculty, staff, students and programs—uniquely interdisciplinary, multicultural, and international by design—are dedicated to building a global society and an informed citizenship based upon access to reliable and useful information.

Mission of the School

The Mission of the School of Information Sciences is to support and advance the broader education, research, and service mission of the University by educating students, furthering knowledge, and contributing our expertise to advance humankind's progress through information.

This mission is achieved through specific actions:

- Offering superior graduate programs in Library and Information Science, Information Science, and Telecommunications
- Engaging in research and scholarly activities that advance learning through the extension of the frontiers of knowledge and creative endeavors
- Cooperating with industry and government to transfer knowledge
- Extending our expertise to local communities and public agencies to contribute to social, intellectual, and economic development in Pennsylvania, the nation, and the world. In addition, the School works with industry, government, and local communities to provide unique opportunities for students and to advance the fields within the Information Sciences.

Goals of the iSchool

The goals of the School of Information Sciences are to:

- Promote excellence in education at the master's and doctoral levels in the information sciences.
- Advance knowledge in the Information Sciences as an internationally-recognized center for high-quality, innovative, and leading edge research.
- Provide strong professional, technical, and policy leadership by the faculty at the local, state, national and international levels.
- Promote recognition of the School of Information Sciences for its production of seminal research, curricular leadership, superior professional and PhD students, and service to professional and regional communities.
- Foster intellectual vitality in the iSchool community.

Major and Degree Options

The School of Information Sciences offers the following graduate degrees:

- Master of Science in Information Science (MSIS)
- Master of Science in Telecommunications (MST)
- Master of Library and Information Science (MLIS)
  - On-campus program
The iSchool also has a joint agreement with the Graduate School of Public and International Affairs (GSPIA), allowing students to complete the MSIS degree and one of three degrees in GSPIA simultaneously. The course of study for the MSIS degree under the joint agreement consists of a minimum of 30 credits in graduate Information Science and Technology courses, plus an additional 30-39 credits at GSPIA depending on the selected area of study. To be admitted fully into the joint program, students must be accepted by both GSPIA and the Master of Information Science Program. More information is available at www.ischool.pitt.edu/ist/degrees/joint-degree-programs.php

Contact Information

School of Information Sciences
135 North Bellefield Avenue
412-624-3988 or 800-672-9435
Fax: 412-624-5231
E-mail: sisinq@sis.pitt.edu
www.ischool.pitt.edu

Admissions Information

http://www.ischool.pitt.edu/admissions/

The School of Information Sciences seeks students with diverse interests and abilities for its graduate degree and certification programs. All applicants will be judged on their own merits. Applicants for master's study must have earned a bachelor's degree from an accredited college or university with a scholastic average of B (3.0 on a 4.0 scale) or better; the doctoral programs have more stringent requirements. For those who have been in the workforce, admission will be based upon academic achievement, area of study, career orientation, and work experience. Each program has specific prerequisites for admission—see links at the bottom of the page for details specific to each degree.

Please note that there may be different language requirements for specific programs. The general requirements are as follows: a minimum score of 550 (paper-based), or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.

Prior to registration, students with TOEFL scores less than 600 (paper) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students who do not achieve a score of Band 6.5. Students who do not achieve a score of Band 7.0 score or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study. Other admission requirements vary depending upon the chosen program.

Application Fee

Submission of an application fee as determined by the School of Information Sciences is required of all applicants. This fee is non-refundable.

Financial Assistance
The School of Information Sciences provides a limited amount of financial assistance to highly qualified, full-time graduate students. Please note that financial assistance provided by the iSchool differs from financial aid provided by the University, government, or other private organization. Applications wishing to apply for financial assistance from the iSchool, including teaching and research assistantships, should visit this Financial Aid & Financial Support Web site for more details and applications. All applications for financial assistance must meet the deadlines indicated here.

Financial assistance opportunities include:

1. Graduate student assistantships awarded to highly-qualified master's-level or doctoral-level students
2. Teaching assistantships and teaching fellowships awarded to exceptionally well-prepared doctoral students in return for assistance in laboratories, recitation sections, and other instructional duties
3. Research assistantships awarded to doctoral students for assistance on funded research programs
4. Fellowships and scholarships awarded to students of outstanding ability, usually as an unrestricted grant

Financial assistance is awarded each term. Student assistantships are available only to full-time students (full-time is defined as a minimum of 9 credits and a maximum of 15 credits per term). Decisions are contingent upon availability of funds and satisfactory academic performance during completed terms.

Financial assistance priority is given to U.S. citizens in evaluating financial assistance applications. All international students are expected to come fully funded for the entirety of their degree, advanced study certificate or additional program of study. International students may be granted financial aid in such exceptional circumstances as the awarding of a Graduate Student Research Assistantship for a funded project.

**Academic Standards**

The following section details school-specific academic rules and regulations. *These are in addition to the University-wide rules detailed under General Academic Regulations.*

**Academic Integrity**

A student has an obligation to exhibit honesty, and to respect the ethical standards of the information professions in carrying out his or her academic assignments. All students are responsible for adhering to policies on academic integrity, which are available on this site. Please see guidelines for details.

**Transfer of Credits**

A maximum of 6 graduate credits earned with a grade of B or better may be transferred toward either the Master's or PhD degree from institutions fully accredited for graduate study, provided that these credits have not been applied to any other degree or certificate, that they are applicable to the students' program of study, and that they are not older than the statute of limitations for the degree. Approval of transfer credits is determined by the faculty via a petition submitted by the student during their first term of study. Detailed instructions and forms are available on the school's intranet.

**Satisfactory/No-Credit (S/NC) Grading System (formerly the S/N option)**

In addition to the standard University letter grade system, the Satisfactory/No-Credit (S/NC) option (formerly the S/N option) is offered at the master's level for a limited number of courses. Under this option, a student who does satisfactory work receives the grade of S. If the student's work is unsatisfactory, an NC is assigned. Courses for which an S is received are counted toward graduation but are not utilized in computing the GPA. A limit of 6 credits of Satisfactory (S) grades may be applied at the master's level. Doctoral programs may have more stringent requirements.

**Advising**
Academic advising provides the foundation upon which students plan their studies. It is the policy of the School for each student to have an official advisor whose responsibilities include providing guidance in developing the student's career goals and academic programs, approving course selections, and advising as needed on issues affecting the student's academic and professional careers. The goal of academic advising is to develop a consistent academic program coordinated to meet general program requirements and specific needs of individual students. Ideally, the student and faculty advisor function as a team working toward the objective of career preparation by means of the strongest possible academic experiences for the student. Students are matched with an advisor upon admission; they may, however, change advisors at any time. Students should meet each term with their advisors to ensure timely progress through their program.

Special Academic Opportunities/Programs

In addition to the degree offered, the School of Information Sciences offers other academic opportunities and programming to its students:

Colloquiums

Throughout the year, nationally and internationally recognized speakers from the information professions present research colloquiums, which are open to all faculty and students at the iSchool. Colloquiums further enrich the iSchool's educational programs.

Student Organizations

http://www.ischool.pitt.edu/resources/student-organizations.php

The School encourages students to become members of-and to participate actively in-the student chapters of several professional associations: Student Chapter of the American Library Association (SCALA), American Society for Information Science and Technology (ASIS&T), Special Libraries Association (SLA), and the Society of American Archivists (SAA). The iSchool cooperates with local chapters and special divisions of these organizations and other professional associations, such as the Institute of Electrical and Electronics Engineers (IEEE), the Association for Computing Machinery (ACM), and the Data Processing Management Association (DPMA), in promoting meaningful programs of interaction with practicing professionals.

Alumni Association

The alumni of the School meet each year at professional associations, assist with recruitment efforts, and offer career/skill development opportunities. For more information, please visit www.ischool.pitt.edu/alumni.

Beta Phi Mu

Graduates who achieve a grade point average of at least 3.75 on a 4.0 scale in their work for the MLIS degree and are nominated by a member of the faculty are eligible for election to membership.

Program and Course Offerings

Department of Information Science and Technology

Information Science and Technology
The School of Information Sciences (iSchool) offers a Master of Science in Information Science (MSIS) and a PhD in Information Science. In addition, the iSchool offers Certificates of Advanced Study in Information Science to post-bachelor's and post-master's level students who wish to continue their education. Students may also pursue a joint degree between the iSchool and the Graduate School of Public and International Affairs.

Research Focus

Members of the faculty are active researchers with funding from governmental and/or corporate sources. Both master's and doctoral students have an opportunity to work with faculty on research projects, and doctoral students conduct independent research for their dissertations. Some major areas of research interest are systems analysis and design, information retrieval, database and networking, human-centered computing, social computing, intelligent systems, geoinformatics security assured information systems, big data analytics, and cognitive science.

www.ischool.pitt.edu/ist

The MSIS Degree

Connecting people, information, and technology is the mission of the School of Information Sciences. The Master of Science in Information Science (MSIS) degree builds on that mission by preparing students for careers as information professionals, including systems analysts and designers, database developers and managers, information security experts, and more. This 36-credit program can be completed in three semesters (depending upon course schedules) of full-time study or as many as four years of part-time study. For more details about this program, please visit www.ischool.pitt.edu/ist/degrees/msis-program.php.

Our Curriculum

The curriculum has been designed to provide our students with a rigorous program that is also flexible, so that the specific needs of individual students can be met. The MSIS Program offers several options to carefully target your studies. For those not ready to specialize, the School allows you to design a course of study under the direction of your advisor that meets your individual needs, while conforming to the general distribution guidelines found in the MSIS Plan of Study. Many students use this option to sample multiple areas of the curriculum, such as cognitive systems, human-centered computing, systems design and implementation, networks and security, and database management. The program has developed a series of specializations, in consultation with industry, that ensure that students have the critical expertise in specific areas in high demand by employers. Specializations are described here.

Admissions

http://www.ischool.pitt.edu/ist/degrees/msis-admissions.php

Applicants for graduate study must have earned a bachelor's degree from an accredited college or university with a scholastic average of B (3.0 on a 4.0 scale) or better. The program seeks students with diverse interests and abilities; an undergraduate computer science major is not a prerequisite. Although many successful students have entered the program with a background in mathematics, engineering, or computer science, many other outstanding students entered with undergraduate degrees in business, music, history, philosophy, or chemistry.

Prerequisites
Prerequisites for admission to the Master of Science in Information Science (MSIS) program include one 3-credit college course in each of the following:

- A structured programming language
- Statistics
- Mathematics - discrete mathematics or calculus

Students who lack some of the prerequisite courses may be admitted provisionally pending completion of the prerequisites during the first 12 credits of study. Any coursework that the student is asked to meet as a condition of their admission must be completed with a grade of B or better.

Graduate Record Examination (GRE)

All Master of Science in Information Science (MSIS) applicants are required to submit a recent score (within three years of the date of application) on the Graduate Record Examination as part of their admission credentials. Scores on all three sections (verbal, quantitative, and analytical) of the General Section should be submitted. While submission of the GRE scores are preferred, a recent and strong performance on the GMAT will be accepted in lieu of taking the GRE exam. The University code for the GRE is 2927. The program code is 0404.

International Applicants

There are different documentation requirements for international students. They are described here.

English Language Proficiency

Graduate students must possess sufficient knowledge of English in order to study, to understand lectures, and to participate successfully in class discussion without being hindered by language. The Test of English as a Foreign Language (TOEFL) must be taken if the applicant's native language is not English. The institution code for the University of Pittsburgh is 2927 and the department code is 90.

A minimum score of 550 (paper-based), or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.

Prior to registration, students with TOEFL scores less than 600 (paper) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students must receive a score of Band 6.5. Students who do not achieve a score of Band 7.0 score or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study. Other admission requirements vary depending upon the chosen program.

Application Fee

Submission of an application fee as determined by the School of Information Sciences is required of all applicants. This fee is non-refundable.

Deadlines

Admissions occur on a rolling basis throughout the year. See the iSchool's Web site for Application Deadlines.

School-Based Financial Assistance
The Graduate Information Science and Technology Program awards School-based financial support on the basis of qualification to full-time graduate students with full admission status (all prerequisites completed). Please visit www.ischool.pitt.edu/ist/degrees/financial-aid.php for the most current information.

**Academic Advising**

Each student is assigned an academic advisor at the time of admission to graduate study. These assignments are made primarily on the basis of the student's background and interests as shown in the application. The student may at any time elect to change advisors—any such change requires the consent of the new advisor and must be reported to the program. Forms for changing advisors are available at the school's administrative offices, Fifth Floor, IS Building.

At the time of initial registration, the student is encouraged to fill out a Plan of Study and discuss it with their advisor. The Plan of Study forms are available here. A Plan of Study is a series of courses designed to meet the minimum exit competencies judged by the faculty to be necessary for employment as an information professional. All Plans of Study must have the approval of the advisor and will be used to ensure that the student has met all requirements for graduation.

**Statute of Limitations**

The master's degree must be completed within four years of the first term in which courses were taken after admission. The normal full-time course load is 9 to 12 credits per term; thus, a full-time student will complete the program in three or four terms. The normal part-time course load is 6 credits per term, which permits the part-time student to complete the program in six terms. The faculty, in response to a student petition, may approve exceptions to the four-year limit if extenuating circumstances exist.

**Registration and Residence Requirements**

To maintain active student status, students must register for at least 3 credits during one of the three terms of the calendar year. It is recommended, however, that part-time students register for at least 6 credits during two of the three terms of the academic year to maintain reasonable progress through the program. In addition, international students are responsible for meeting the registration requirements dictated by their visa.

**The PhD in Information Science Degree**

The Doctor of Philosophy degree provides research-oriented graduate study and professional specialization in the science of information. The candidate must give evidence of superior scholarship, mastery of a specialized field of knowledge, and demonstration of ability to do significant and relevant research. Students interested in the PhD degree should consult this Web site.

The candidate for the PhD program should also have a broad knowledge of the field as a profession as well as a specialization in an area of major interest. Every candidate should possess a strong background in the foundations of information science and research methodologies.

The advisor and student should design a Plan of Study at the time of registration.

The iSchool also offers a Doctor of Philosophy degree in Information Science with a focus in Telecommunications. Details are available at www.bulletins.pitt.edu/graduate/tele.htm.

**Residence Requirement**

Full-time residency, in addition to requiring full-time study, affords the student the opportunity for daily professional interaction with faculty and other PhD students. This interaction is a major component in the student's preparation for research. Despite the benefits that full-time residency affords, it is recognized that students may have off-campus responsibilities as well.

The PhD degree, therefore, can be completed by a combination of full-time and part-time study. Two terms of full-time study are required. Full-time is defined as nine or more graduate credits per term. All students, whether on campus or away, must maintain active status by registering according to
the requirements stated below. No matter their status, they must meet with their advisor at least once per year. Students will submit an annual progress report to the PhD Program Chair, the Program Secretary and the advisor. This will take place on the second Friday of January.

### Registration Requirement

Students must register each term for the number of credits of course work, independent study, or research equivalent to the anticipated use of faculty time and University facilities. A student who has not registered for at least one credit during a 12-month period will be transferred automatically to inactive status and must file an application for readmission to graduate study (and pay the application fee) before being permitted to register again. Upon readmission, the student is required to adjust the program of studies to meet current PhD program, school, and University requirements.

In keeping with University policy, all graduate students must be enrolled for a minimum of 1 credit in the term in which they graduate.

Doctoral students who have completed all credit requirements for the PhD degree, including minimum dissertation credit requirements, and are working full time on their dissertation, are encouraged to register for "Full-time Dissertation Study," with a fixed fee registration per term, currently $500 plus fees. (Enrollment in this course fulfills the University requirements for registration in the term of graduation.)

Please note that international students may be required to register for credits beyond the minimums stated above, as they are also responsible for meeting the registration requirements dictated by their immigration visa.

### PhD Statute of Limitations

All requirements for the PhD degree in IS must be completed in not more than six calendar years from the time of first registration. Students may in extenuating circumstances submit a formal request for extension of their statute of limitation or for a leave of absence from the program. The request must be submitted to the advisor and then presented to the Faculty Committee on Doctoral Studies for a decision.

### Admission Requirements

Applicants for admission to the PhD program are required to have earned a master's degree from an accredited university and should have a grade point average (GPA) of 3.3 or better (on a 4.0 scale) for any graduate studies they have pursued.

Students must submit at least three references from persons in the professional and academic communities. The PhD Admissions Committee may, on occasion, require additional references.

Applications will not be considered without the submission of the iSchool's application fee.

As evidence of their ability to undertake doctoral work students must submit an essay (not to exceed 1,000 words) indicating, as specifically as possible, the student's academic and professional goals in relation to the Information Science and Technology doctoral program, and identify potential areas and/or topics in which the student expects to pursue dissertation research. This essay is a critical component of the admissions process, and will be used in assigning the student's initial program advisor.

PhD applicants must either have or demonstrate the following prerequisite knowledge. These courses (or their equivalents) should be taken before seeking admission, but may be taken during the first four terms of study. All courses must be at the graduate level and may have been taken while pursing another graduate degree:

- Statistics or Discrete Math (e.g., IS 2060 Statistics or IS 2020 Mathematical Foundations)
- Cognitive Psychology (e.g., IS 2300 Human Info Processing or IS 2350 Human Factors)
- Systems Analysis and Design (e.g., IS 2510 Information Systems)
- Data Structures (e.g., IS 2500 Data Structures)
- Database Management (e.g., IS 2710 Database Management)

All applicants must submit scores from a predictor test (if not taken previously) such as the Graduate Record Examination (GRE) or equivalent examination. Scores on all three sections (verbal, qualitative, and analytical) of the GRE must be submitted.
There are different documentation requirements for international students. They are described here.

**English Language Proficiency**

Graduate students must possess sufficient knowledge of English in order to study, to understand lectures, and to participate successfully in class discussion without being hindered by language. The Test of English as a Foreign Language (TOEFL) must be taken if the applicant's native language is not English. The institution code for the University of Pittsburgh is 2927 and the department code is 90.

A minimum score of 550 (paper-based), or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.

Prior to registration, students with TOEFL scores less than 600 (paper) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students must receive a score of Band 6.5. Students who do not achieve a score of Band 7.0 score or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study. Other admission requirements vary depending upon the chosen program.

**Application Fee**

Submission of an application fee as determined by the School of Information Sciences is required of all applicants. This fee is non-refundable.

**Library and Information Science Program**

The School of Information Sciences (iSchool) offers a Library of Information Science (LIS) program, which consists of the Master of Library and Information Science degree (MLIS) and the Doctor of Philosophy in Library and Information Science degree, as well as certification programs for school library media specialists. Students enrolled in LIS programs, under the mentorship of the program faculty, prepare for careers in the information professions as digital content managers, librarians, archivists, records managers, college and university faculty members, supervisors in diverse information centers, and as information specialists.

The MLIS degree, which requires completion of 36 credits of course work is offered both on campus and through the MLIS: Pitt Online Program, which is a fully online program accredited by the American Library Association that can be completed in six terms of study.

The core curriculum (12 credits) is enriched by advanced courses in management, technology, resources and services for specific patron groups, and organization of information. Upon award of the MLIS degree, graduates are prepared to make contributions to the profession at the local, national, and international levels. On-campus students may target their career goals by enrolling in one of our top-ranked specializations.

The Doctor of Philosophy in Library and Information Science degree prepares students for advanced work in research, teaching, and administration. The program will give students the opportunity to gain skills in teaching or research appropriate for careers at major research universities, teaching institutions, and library systems.

Beyond curricular offerings, educational experiences available to students in the program include colloquiaums, practical experience in professional settings, participation in national conferences, and attendance at professional association meetings.

**Research Focus**

Members of the LIS faculty are active researchers, with records of funding from governmental agencies and private sources. While both master's and doctoral students have opportunities to work with faculty on research projects, doctoral students are most involved in the research process.
Some areas of research interest include (but are not limited to) archives, health resource, children's information, digital libraries, interactive information retrieval, library management, organization of information, cyberscholarship, social information tools, science and technology studies, digital humanities, and school library media center management.

Master of Library and Information Science (MLIS) Degree

The role of information professionals has changed dramatically as the volume of available information has increased and technology for information search and retrieval has advanced. The ability to manage the growing array of information tools has led to new opportunities for those who want to work in the information field, which is a discipline that bridges the management of both traditional and emerging information sources. The MLIS program is responsive to the information marketplace and encourages the development of creativity, professionalism, and a proactive attitude to the needs of various clienteles in traditional and digital information service environments.

The program is accredited by the Committee on Accreditation of the American Library Association. The MLIS Program is ranked tenth in the nation by U.S. News & World Report and many of its specializations are also highly ranked.

Admissions

The Library and Information Science Program seeks students with diverse educational and career backgrounds. Applicants for graduate study must have earned a bachelor's degree from an accredited college or university with a scholastic average of B (3.0 on a 4.0 scale) or better. Submission of scores from a standardized predictor test is required for admission to the MLIS program. Applicants with post-bachelor's advanced degrees are exempt from this requirement. Students who have not worked in libraries may elect to do a 3 credit Field Experience.

A maximum of 6 credits earned with a grade of B or better may be transferred toward either the master's or PhD degree from institutions fully accredited for graduate study, provided that these credits have not been applied to any other degree or certificate, that they are applicable to the students' program of study, and that they are not older than the statute of limitations for the degree.

International Applicants

There are different documentation requirements for international students. These are explained here.

English Language Proficiency

Graduate students must possess sufficient knowledge of English in order to study, to understand lectures, and to participate successfully in class discussion without being hindered by language. The Test of English as a Foreign Language (TOEFL) must be taken if the applicant's native language is not English. The institution code for the University of Pittsburgh is 2927 and the department code is 90.

A minimum score of 550 (paper-based), or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.
Prior to registration, students with TOEFL scores less than 600 (paper) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students must receive a score of Band 6.5. Students who do not achieve a score of Band 7.0 score or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study. Other admission requirements vary depending upon the chosen program.

Application Fee

All applicants are required to submit an application fee as determined by the School of Information Science. This fee is non-refundable.

School-based Financial Assistance

Financial assistance is available at www.ischool.pitt.edu/admissions/financial-aid.php.

Doctor of Philosophy in Library and Information Science (PhD) Degree

The Doctor of Philosophy in Library and Information Science degree prepares students for advanced work in research, teaching, and administration. The primary purpose of this 54-credit degree is to develop an understanding of library and information science beyond the master's degree, with particular emphasis on the conduct of original research, the production of significant and generalizable research findings, and the contribution of such findings to public knowledge.

The advisor selected by the student for the period prior to the dissertation stage of the program is the program advisor; before the dissertation proposal is prepared, the student should select a dissertation advisor. The program advisor and the dissertation advisor may be the same person, but the student has the option to select a different advisor for the dissertation. The advisor must be a member of the graduate faculty in the Library and Information Science Program who is able to spend the time and effort necessary for the advising role, be available for examinations, and with whom a productive and comfortable working relationship can be established.

For complete information on the PhD program, consult Statement of Requirements for the Degree of Doctor of Philosophy at http://www.ischool.pitt.edu/lis/degrees/phd.php.

PhD Admission Requirements

The following are requirements for admission to the program:

- A master's degree from a program accredited by the American Library Association, a recognized international program, or the equivalent in a closely related field of study.
- Attainment in graduate work of a minimum grade point average of 3.50 (on a scale where A=4.00). An international student's grade point average will be calculated on the basis of equivalency from universities that use a different scale.
- Submission of scores from a predictor test, such as the GRE, GMAT, MCAST, LSAT or MAT, taken within the last three years. Institutional/program codes may be found here.
- At least three references from persons in the professional and academic communities.
- An interview may be required.

As evidence of the ability to undertake doctoral work, the student's application must be accompanied by:

- An essay (not exceeding 1,000 words) indicating, as specifically as possible, the student's academic and professional goals in relation to the Library and Information Science doctoral program and identifying potential areas and/or topics in which the student expects to pursue dissertation research.
- A complete curriculum vitae that provides an overview of education, work, publication, and other professional activities.
At least one example of scholarly research or professional writing in any format (print or electronic). The student should describe fully any published or unpublished research, thesis, contributions to the professional or scholarly literature, and other professional or academic experience relevant to an assessment of capacity to pursue doctoral study successfully.

If the candidate has had appropriate professional work experience, a brief description should be provided.

Credentials of prospective students are reviewed by the Admissions and Review Committee and voted upon by the LIS Committee on Doctoral Studies throughout the year. However, students who are applying for financial aid should be aware that they must be admitted and meet financial aid deadlines to ensure consideration for funding. PhD students may begin their studies only in the fall term in order to ensure a coherent program of study.

International Applicants

There are different documentation requirements for international students. These are explained here.

English Language Proficiency

Graduate students must possess sufficient knowledge of English in order to study, to understand lectures, and to participate successfully in class discussion without being hindered by language. The Test of English as a Foreign Language (TOEFL) must be taken if the applicant's native language is not English. The institution code for the University of Pittsburgh is 2927 and the department code is 90.

A minimum score of 550 (paper-based), or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.

Prior to registration, students with TOEFL scores less than 600 (paper) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students must receive a score of Band 6.5. Students who do not achieve a score of Band 7.0 score or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the test, the student must complete the remedial course during the first two terms of study. Other admission requirements vary depending upon the chosen program.

Proficiency program: Students may choose to take the International English Language Testing System exam (ELTS) in place of the TOEFL. Students should receive a minimum result of Band 7.0 on the IELTS.

Statute of Limitations

All requirements for the PhD degree must be completed in not more than six calendar years from the time of first registration. Students may, in extenuating circumstances, submit a formal request for extension of their statute of limitations or for a leave of absence from the program.

PhD Research Areas

http://www.ischool.pitt.edu/lis/degrees/phd.php

Telecommunications and Networking

The School of Information Sciences offers a Master's degree, Certificate of Advanced Study in Telecommunications and a PhD degree in Information Sciences with a focus in Telecommunications. This program prepares students for careers in a variety of arenas including industry, business, government, health care, education, and the nonprofit sector in positions such as network engineers or analysts, network administrators or managers, consultants, systems engineers, and research and development engineers (with appropriate undergraduate education).
Research Focus

Members of the faculty are active researchers with funding from governmental and/or corporate sources. Both master's and doctoral students have an opportunity to work with faculty on research projects, and doctoral students conduct independent research for their dissertations. Faculty members and students conduct research on a wide variety of topics including (but not limited to) wireless networks and security, network design and survivability, computer networks, network policy, and economics of the telecommunications industry.

Contact Information

Telecommunications Program
School of Information Sciences

www.ischool.pitt.edu/tele

Master of Science in Telecommunications Degree Program

The Telecommunications and Networking program offers hands-on learning opportunities in telecommunications systems, computer networks, policy and management, wireless systems, and network security so that you will find a rewarding career in industry, government, education or the nonprofit sector. The MST program is a 37-credit program that can be completed in one year of full-time study or as many as four years of part-time study.

For complete program details, visit www.ischool.pitt.edu/tele/degrees/mst-program.php

Admissions

http://www.ischool.pitt.edu/tele/degrees/mst-admissions.php

To qualify for admission, an applicant must be a graduate of an accredited college or university. Preference will be given to candidates with a scholastic average B (3.0 on a 4.0 scale) or better.

All MST applicants are required to submit a recent score (within three years of the date of application) on the Graduate Record Examination as part of their admission credentials. Scores on all three sections (verbal, quantitative, and analytical) of the General Section should be submitted.

While submission of the GRE scores are preferred, a recent and strong performance on the GMAT will be accepted in lieu of taking the GRE exam. The institutional number for the University of Pittsburgh is 2927 and the department code is 0404.

The student must have completed the following course work (at the undergraduate or graduate level), with a grade of B or better, prior to admission to the MST program:

- Computer programming skill in at least one scientific programming language
- Probability (a 3-credit course)
- Calculus (a 3-credit course).

The following courses (or their equivalent), while not counting towards the 37-credit degree, may be required depending upon previous educational background:

- Introduction to Telecommunications (TELCOM 2000)
- Physical Layer of Communications I (TELCOM 2200)
- Software Tools and Techniques (TELCOM 2300)
English Language Proficiency

Graduate students must possess sufficient knowledge of English to study without being hindered by language problems, to understand lectures, and to participate successfully in class discussion. The Test of English as a Foreign Language (TOEFL) must be taken if the applicant's native language is not English. The institution code for the University of Pittsburgh is 2927 and the department code is 90.

A minimum score of 550 (paper-based) or 80 (Internet-based) on the TOEFL is required for admission to graduate study in this program. The requirement to take the TOEFL may be waived if the applicant has received a degree from an accredited institution in the United States.

Prior to registration, students with TOEFL scores less than 600 (paper-based) or 100 (Internet-based) will be given the on-campus administered English Language Proficiency Test (The Michigan Test). If remedial courses in English as a second language are recommended as an outcome of the Michigan Test of English Proficiency, the student must complete the remedial course during the first two terms of study.

Students may choose to take the International English Language Testing System exam (IELTS) in place of the TOEFL. Students must receive a score of Band 6.5. Students who do not achieve a score of Band 7.0 or better will be given the on-campus administered English Language Proficiency Test. If remedial courses in English as a second language are recommended as an outcome of the Michigan Test of English Proficiency, the student must complete the remedial course during the first two terms of study.

Academic Advising

Each student is assigned an academic advisor at the time of admission to graduate study. These assignments are made primarily on the basis of the student's background and interests as shown in the application. The student may at any time elect to change advisors—any such change requires the consent of the new advisor and must be reported to the Program Chair.

In consultation with the advisor, the student must complete a Plan of Study at the time of registration. The Plan of Study forms are available here. A Plan of Studies is a series of courses designed to meet the minimum exit competencies judged by the faculty to be necessary for employment as an information professional. All Plans of Study must have the approval of the advisor and will be used to ensure that the student has met all requirements for graduation.

Statute of Limitations

The Master's Degree program must be completed within four years of the first term in which courses were taken after admission. The normal full-time course load is 9 to 12 credits per term; thus, a full-time student will complete the program in three or four terms. The normal part-time course load is 6 credits per term, which permits the part-time students to complete the program in six terms. The faculty, in response to a student petition, may approve exceptions to the four-year limit if extenuating circumstances exist.

Registration and Residence Requirements

To maintain active student status, students must register for at least 1 credit during one of the three terms of the calendar year. It is recommended, however, that part-time students register for at least 6 credits during two of the three terms of the academic year to maintain reasonable progress through the program.

The PhD in Information Science with a Focus in Telecommunications

The Doctor of Philosophy degree program provides research-oriented graduate study and professional specialization in telecommunications. The candidate must give evidence of superior scholarship, mastery of a specialized field of knowledge, and demonstration of ability to do significant and relevant research. Students interested in the PhD degree should consult the Web site, www.ischool.pitt.edu/tele/degrees/phd.php.

Admission Requirements
Students seeking admission to the PhD program with a focus in Telecommunications must:

- Hold a master's degree from an accredited university, a recognized international program, or the equivalent.
- Have maintained in graduate work of a minimum grade point average of 3.3 (on a scale with A having a value of 4 points per credit). An international student's grade point average will be calculated on the basis of equivalency from universities that use a different scale.
- Submit scores from a predictor test (if not taken previously) such as the Graduate Record Examination (GRE) or equivalent examination. Scores on all three sections (verbal, quantitative, and analytical) of the GRE must be submitted.
- Provide evidence of the ability to undertake doctoral work, in an essay (not exceeding 1,000 words) indicating, as specifically as possible, the student's academic and professional goals in relation to the Telecommunications doctoral program and identifying potential areas and/or topics in which the student expects to pursue dissertation research.
- Provide at least three references from persons in the profession and academic communities.
- Have successfully completed:
  - Two different scientific computer programming language classes
  - Coursework in probability and statistics
  - Differential and integral calculus classes

**Statute of Limitations**

All requirements for the PhD degree must be completed in not more than six calendar years from the time of first registration. Students may, in extenuating circumstances, submit a formal request for extension of their statute of limitations or for a leave of absence from the program.

**Journal Requirement**

All PhD students are mandatorily required to submit an article of publishable quality to a journal before the degree is awarded.

**PhD Research Areas**

http://www.ischool.pitt.edu/tele/degrees/phd-advising.php

**Master's**

**Information Science and Technology, MSIS**

**MSIS Degree Requirements**

A minimum of 36 credits is required to complete the MSIS degree. Basic course requirements are as follows:

- 6 credits of course work in the Formal or Applied Foundations area
- 18 credits of course work in the Systems and Technology areas (INFSCI 2500 required)
- 6 credits of course work in the Cognitive Science or Cognitive Systems areas
- 6 credits of electives--students may pursue a thesis or a practicum as one of the elective options. Students should know that a thesis is not a requirement of the MSIS degree

**Master Degree Program with GSPIA**

The School of Information Sciences (SIS) has entered into a joint agreement with Graduate School of Public and International Affairs (GSPIA). The program allows for students to complete the Master of Science in Information Science (MSIS) degree and one of three degrees in GSPIA simultaneously. To be admitted fully into the joint program, students must be accepted by both GSPIA and SIS.
Admission Process

Students wishing to enter this program need to submit the regular application form, along with two recommendation letters, an official transcript, and a copy of GRE or GMAT. International students have additional submission requirements.

All students are expected to have completed the prerequisite courses in

- mathematics,
- statistics (or comparable coursework),
- structured programming language (C or C++ recommended)

Course of Study

The course of study for the Master of Science in Information Science (MSIS) degree under the joint agreement consists of a minimum of 30 credits in the Graduate Information and Technology Program, plus an additional 30-39 credits at GSPIA depending the selected area of study. Students may register under either the GSPIA or SIS school code during any given semester, but must have registered under each school code for at least 24 credits by the completion of the degree. Please be aware that there is a small tuition differential between the two schools.

The 30 credits taken in SIS are to be distributed as follows:

- 3 credits in the Mathematical and Formal Foundations area.
- 6 credits in the Cognitive Science area or Cognitive Systems area. INFSCI 2300 and INFSCI 2350 are recommended.
- 18 credits in the Systems and Technology area or Cognitive Systems area, including INFSCI 2500.
- 3 credits as Electives from any remaining course in the Information Science program.

Note:

Any changes to the distribution above must be requested, in advance, through petition to the faculty.

City of Opportunities

Pittsburgh is big enough that opportunities-for internships, jobs, and access to a rich cultural scene as well as the outdoors-abound.

Library of Information Science, MLIS

MLIS Degree Requirements

Students seeking the MLIS (both on-campus and MLIS: Pitt Online) must complete the following requirements:

- Complete a minimum of 36 credits of graduate-level course work
- Complete core courses of the pathway in which the student is enrolled with a grade of "B" or better in each
- Maintain a B (3.00) average for the required 36 credits of graduate-level course work

Requirements for the MLIS degree must be completed within a period of four calendar years from the student's initial registration.

MLIS Pathways

The pathways below have been developed in response to needs expressed by the profession. In addition to the core knowledge of librarianship, you'll gain specific skill sets pertinent to your career goals.
Archives and Information Science Pathway

Archives and Information Science  
*(will appear on transcript)*

Records are created and maintained for purposes of evidence and accountability as well as for personal, social and corporate memory. Archives serve a crucial cultural function, providing society with a sense of identity and memory. Records Management programs help organizations to be compliant with regulatory agencies, responsible to constituent groups, and effective and efficient in the use of informational resources. Graduates of the Archives and Information Science Pathway will have the skills and knowledge to work as archivist, special collections librarians, records managers, corporate archivist, digital asset coordinators, and more.

Data Stewardship Pathway

Data Stewardship  

The Data Stewardship Pathway will provide an introduction to data curation, digital preservation and data science, and will frame these topics within the broader context of data informatics, digital scholarship, research integrity, disciplinary diversity and cultural change. In addition to setting the scene from a policy perspective, the Pathway will provide the practical skills needed to carry out effective research data management and preservation, and will situate these practices in the wider landscape of open science and open scholarship. This Pathway will equip graduate students with the necessary knowledge, skills and competencies to work in a range of data stewardship roles located in libraries, archives, data centers, government, industry and business.

Library and Information Services Pathway

Library and Information Services  

While information professionals traditionally have worked in cultural heritage institutions such as the library, today their skills are needed in all sectors of the economy. Now, more than ever, the world needs highly qualified specialists in libraries and information services. The Library and Information Sciences Pathway will prepare students for leadership roles in the identification, organization, preservation and effective use of information and cultural artifacts. Graduates of this pathway will be prepared for careers as web content managers, digital asset coordinators, librarians, information architects, and more.

Telecommunications and Networking, MST

The Telecommunications and Networking program offers hands-on learning opportunities in telecommunications systems, computer networks, policy and management, wireless systems, and network security so that you will find a rewarding career in industry, government, education or the nonprofit sector.

The MST program is a 37-credit program that can be completed in one year of full-time study or as many as four years of part-time study. Prerequisites for admission to the MST program include:

- baccalaureate degree
- computer programming experience in at least one scientific programming language
- completion of a 3-credit course in probability
- and a 3-credit course in calculus.

The following courses are pre-requisites for a number of graduate-level Telecommunications courses. If you have not taken these, or their equivalent, you will need to do so.
Introduction to Telecommunications (TELCOM 2000)
Physical Layer of Communications 1 (TELCOM 2200)
Software Tools & Techniques (TELCOM 2300)

MST Degree Requirements

Completion of the Master of Science in Telecommunications degree requires a minimum of 37 credits. Three credits may be in practicum (a structured supervised employment situation) or a thesis. For research-oriented students, the faculty strongly recommends a 3-credit thesis in lieu of course work.

The 37-credit minimum of course work should include the following:

- 19 credits of required courses, including the one-credit telecommunications seminar course.
- 3 credits selected from the management/policy group.
- 15 credits of elective course work.

Students may choose to take more than the 37 credits required for the MST degree. However, the iSchool is not able to extend any financial aid beyond the required number of courses; any visa issues pursuant to extended study would have to be resolved by the student.

Specializations

Students who wish to focus on one of our specializations are encouraged to take as many courses as possible in that area of specialization as part of the 15 credits of electives.

Students can specialize in more than one area by taking offered courses in those particular areas, again as part of their 15 credits of electives.

Telecommunications Systems

Telecommunications systems are built on an infrastructure, similar to that classically used for telephony. In this specialization, you will investigate the physical technologies (copper and fiber) used for information transmission, the enabling transmission processes (such as multiplexing, synchronization, and noise filtering), and the systems that provide telephony (classic circuit switched and VOIP). If you pursue this track, you would likely be hired by a carrier, equipment manufacturer, consultant, or business for a career as a system engineer, network designer or manager, switching system designer, or telecom manager.

Computer Networks

Computer networking enables efficient communication and information sharing to take place among widely dispersed participants. The recent emergence of the global Internet-and the availability of ever cheaper, more powerful computation and communication devices-is paving the way for a new generation of ubiquitous and pervasive networks.

In this specialization, you will explore a variety of problems encountered in designing computer networks and learn common techniques to solve these problems. Courses are designed to equip graduates with the knowledge and skills required to contribute to the field of data communication and networking. The focus is on network models and architectures, protocol design and implementation, resource management, quality of service support, and security. You will acquire a solid conceptual and practical understanding of how computer network technologies operate and the ability to analyze the benefits and limitations of current and future networking technologies. You will also gain valuable insights into the design, management, and security of computer networks, and have an opportunity to take additional electives from the Department of Computer Science, depending on your interests.

Policy and Management
Telecommunications systems exist in social and organizational contexts. In this specialization, you will explore the relationships among telecommunications technologies, service providers, end users, and governmental entities. In telecommunications, industry structure and government regulation is closely tied to the details of technology, so it is important that students forging a career in this area have a thorough understanding of not only the technology, but also the historical and existing economic and political structures. In this specialization you may take additional courses from the Katz Graduate School of Business or the Graduate School of Public and International Affairs, depending on your interests. Upon graduation, you will be prepared for a career as a policy analyst or network manager.

**Wireless**

Wireless systems have become a vital infrastructure in today's society, and significant professional opportunities exist in this growing field. In this area, you will investigate the physical technology and enabling processes; the systems that provide cellular telephony, wireless LANs, and sensor networks; and mobile applications. You may select additional electives from the Department of Electrical and Computer Engineering. Graduates of this track have been hired by wireless carriers, manufacturers, and other organizations as system engineers and wireless network designers.

**Security**

Just as we safeguard data within computers, we must also assure that the information flowing over networks is protected. In this specialization you will investigate firewalls, encryption, fault tolerant network design, and other procedures for information assurance. Additional electives may be taken from both the Department of Computer Science and the Department of Mathematics. If you follow this track, you will be prepared for a career as a network security specialist with carriers, manufacturers, consulting firms, the government, financial institutions, and other enterprises.

**Internet of Things**

Information regarding this new specialization is forthcoming.

**General**

If you choose not to specialize in one particular area, the general course of study allows you to sample courses from all the specializations in preparation for dealing with the constant changes in telecommunications technology. Since change is the only constant in the telecommunications industry, your versatility as a generalist will enable you to handle challenges as they arise in the industry. Employers such as carriers, manufacturers, consultants, and other organizations (especially smaller ones) are seeking those graduates with a broad set of skills for careers as system engineers, network designers or managers, and telecommunications managers.

A generalist can take courses from any of the areas of specialization in consultation with the faculty advisor.

**Doctoral**

**Information Science - Telecommunications Focus, PhD**

**PhD Degree Requirements**

The Telecommunications PhD program requires a minimum of 72 credits beyond the Bachelor's degree. The 72 credits must include the required courses (or their equivalent) for the MST degree at the University of Pittsburgh. Also included in the 72 credits are:

- 12 credits of required courses
- 12 credits of doctoral seminars
6 credits of minor courses
At least 18 credits of dissertation research and writing

48 of the 72 credits must be advanced coursework beyond the MST degree (or its equivalent).

Graduation depends upon meeting the minimum credit requirements and all other requirements. Graduate degrees are conferred only on those students who have completed all courses required for the degree with at least a 3.3 GPA. Grades of C or lower are unacceptable for graduation credit.

All students who are candidates for doctoral degrees are governed by the regulations of the University Council on Graduate Study, which establishes minimum standards for graduate work throughout the University as well as by those regulations established by the iSchool faculty.

Residency Requirements:

Full-time study on campus is considered most beneficial to students, but it is recognized that students may have off-campus responsibilities as well. The PhD degree, therefore, can be completed by a combination of full-time and part-time study. Three terms of full-time study are required, two of which must be consecutive and must be taken after successful completion of the preliminary examination. Full-time study is defined as nine or more graduate credits per term.

Preliminary Examination Requirement

The preliminary examination, according to Regulations Governing Graduate Study at the University of Pittsburgh, is held:

...to assess the breadth of the student's knowledge of the discipline, the student's achievement during the first year of graduate study, and the potential to apply research methods independently.... The evaluation is used to identify those students who may be expected to complete a doctoral program successfully and also to reveal areas of weakness in the student's preparation.

The Telecommunications and Networking faculty has clarified further that the overall objectives of the preliminary examination are:

- To test the PhD students for breadth of knowledge
- To evaluate their skills, and their ability to apply them
- To evaluate their ability to do research, and

The prelim will consist of undertaking a research project, submitting a research paper, and an oral presentation and defense. For more details, see http://www.ischool.pitt.edu/tele/documents/PhD_description.pdf.

With the successful completion of the preliminary examination, the student is fully admitted to doctoral study in telecommunications. The Program Chair will notify the student, in writing, of admission to doctoral study. After admission, the student must complete the remaining coursework including doctoral level seminars; probability and statistics, research design, and information science course requirements; and the residency requirement.

Comprehensive Exam

The student must satisfactorily pass a comprehensive examination designed to assess mastery of the general field of telecommunications, acquisition of both depth and breadth in the area of specialization within the field, and ability to use the research methods of the discipline. The purpose of the comprehensive examination is to assess the student's ability to understand a subarea of telecommunications in depth. In order to do research, a student must be able to read, understand, present, and criticize research papers in the field. It is also important that the student be able to explain such papers in depth to someone who is unfamiliar with that area. Thus, this examination centers on the development of a tutorial as well as a lecture in which the student must explain the subject to the satisfaction of the faculty. From a learning perspective, this provides the student with an experience of structuring and explaining a technical topic in detail. It is expected that a student has completed the minimum 30 credits of coursework before taking the comprehensive exam.

Candidacy and Dissertation Requirements
Doctoral students are required to take a minimum of 18 dissertation credits as part of their study. After successfully completing the comprehensive examination, the student will select a dissertation advisor and a committee. Then, the student in consultation with the dissertation advisor, must prepare a dissertation proposal which is then presented to the committee in a public session. The dissertation committee must unanimously approve the dissertation topic and research plan before the student may be admitted to candidacy for the doctoral degree. When the proposal has been successfully defended, the chair of the student's dissertation committee shall notify the Chair of the PhD Committee, the Telecommunications Program Chair, and the Dean of the School of Information Sciences that the student has achieved formal candidacy.

Information Science and Technology, PhD

PhD Degree Requirements

http://www.ischool.pitt.edu/ist/degrees/phd-details.php

There are three stages of admission to the doctoral program: (1) admission to graduate study when the student first matriculates, (2) admission to doctoral study following successful completion of the preliminary examination, and (3) admission to candidacy following successful completion of the comprehensive examination and the approval of the dissertation proposal. A minimum of 48 credits, including 30 course and seminar credits beyond the master's degree, and at least 18 dissertation credits are required. Students without a master's degree will be required to take a minimum 24 additional credits of coursework or seminars, for a total of 72 credits beyond the bachelor's degree. Students who did not take the prerequisite courses as part of earlier studies should expect to complete admission requirements or equivalent courses.

Graduate degrees are conferred only on those students who have completed all courses required for the degree with at least a 3.3 GPA. Courses numbered below 2000 do not meet the minimum requirements for doctoral study, although they may be taken to supplement a doctoral program.

Preliminary Examination Requirement

The Preliminary Examination is composed of an oral presentation related to a research oriented publication. In preparation for the preliminary examination, which is usually taken in the third semester of study, PhD students will complete the following course work.

- Four graduate-level courses, one in each of the following areas: Research methods, foundations, design, and information
- Six credits of independent study focused on a research project, which will result in an original, publishable quality research paper (the basis for the preliminary exam)
- Three doctoral seminars (9 credits) are required, including an Introduction to Doctoral Program (INFSCI 3005). Advanced doctoral seminars will be focused on single research themes.

While the preliminary examination can be taken before the completion of the core courses and doctoral seminar, the preliminary examination requirement will not be considered satisfied until all core courses and doctoral seminars are completed.

Research Project and Paper

During the first year of doctoral study, under the direction of your advisor (or another full or adjunct member of the department graduate faculty), students will design and complete a research project. The project should reflect only those activities undertaken during the first year of study. A previous master's thesis or other work completed prior to the start of doctoral study may not be submitted for this requirement. While much research involves working in a larger team, your role in the project and in writing the paper should be significant. You must be the primary author, and ideally you will be the sole author. You should seek a project or a part of a project in which you take the lead in conducting the research and writing up the results under the direction of your advisor. However, unlike a dissertation or thesis, the research paper submitted for the preliminary evaluation may include co-authors. In this case, the role of each co-author should be clearly stated in writing by the student and submitted along with the research paper. Furthermore, the paper may be integrated with other work and later submitted for publication with a longer list of authors.

Comprehensive Examination Requirement
The comprehensive examination requires successful completion of the preliminary exam. The student will choose three areas of concentration and three faculty members for the comprehensive examination committee, one of whom is the advisor. In preparation for the comprehensive exam, it is expected that the student will complete 3 credits of advanced statistics. Once the committee and the topic areas are selected, the student will prepare an activity and reading list with the advice and approval of the committee members. The student will then conduct whatever preparation is necessary. When the student is ready, he/she will inform the advisor who will ask each member of the committee to submit one or more questions to the advisor. The advisor will be responsible for constructing the exam with an appropriate balance over the three topic areas. The student will be given the questions and allowed one week to prepare written answers to the questions. After review of the written answers, an oral examination will be scheduled. The oral questions will cover the answers on the written examination, and more broadly, knowledge of the material in the three areas of concentration. The result of the comprehensive examination will be a pass or fail. If a student fails, they may retake the exam one more time.

**Candidacy and Dissertation Requirements**

Doctoral students are required to take a minimum of 18 dissertation credits as a part of their study. Dissertation credits should be taken during terms when a student is actively working on the dissertation. In any term in which a student is enrolled for dissertation credits, the student should meet with their advisor on a regular basis to monitor that appropriate progress is being made towards the completion of the dissertation proposal or the dissertation. The specific activities in a given term should depend on the current stage of the dissertation process. In addition to writing the proposal and dissertation itself, other appropriate activities may include reviewing the literature, programming, prototyping, running preliminary studies, writing grant proposals, preparing journal articles related to the dissertation or presenting preliminary results at conferences.

Once the comprehensive examination is successfully completed, the student is officially a doctoral candidate. After becoming a doctoral candidate, the student can propose and defend a dissertation topic.

**Library of Information Science, PhD**

**PhD Degree Requirements**

This PhD degree requires a minimum of 54 credits beyond the master's degree with a total credit minimum of 72. A minimum of 36 credits must be taken in advanced course work. The student must receive a letter grade in each course taken in this 36-credit requirement (except for the teaching practicum course). An additional 18 credits are required, which must be applied to dissertation research and writing. However, regardless of the number of credits taken, no more than 18 credits for dissertation research and writing may be applied toward graduation.

The minimum of 36 credits of course work, all of which must be on the graduate level, must be distributed as follows:

- 3 credits: LIS 3000 INTRODUCTN TO DOCTORAL STUDIES
- 9 credits: 3000-level doctoral seminars in SIS
- 3 credits: LIS 3950 TEACHING PRACTICUM or FACDEV 2200 PRACTCM ON UNIVERSITY TEACHING
- 6 credits: Courses in research methodology and statistics
- 6 credits: Courses in cognate field
- 9 credits: Courses may be:
  - 3000-level independent studies or doctoral seminars at the iSchool
  - Additional 3000-level doctoral seminars at the iSchool
  - Additional cognate courses (up to 6 credits)
  - Additional research methodology courses
Additional Requirements

PhD degrees are conferred only on those students who have completed all courses required for the degree with at least a 3.50 GPA.

Doctoral students are required to devote some portion of their studies to work on other disciplines in order to broaden their perspectives and deepen their understanding of library and information science. To fulfill the cognate requirement, students are required to take a minimum of 6 credits and a maximum of 12 credits in some area of graduate study outside the field of library and information science. These credits may be from more than one department or school.

The research methodology course requirement must be fulfilled prior to taking the preliminary examination. Research methodology courses may include courses in statistical analysis, general research methodology, and specific research methods or research methods used in specific fields of study such as historiography, ethnography, or case and field study.

A three-credit teaching practicum is required for all doctoral students in order to provide the student with teaching experience that may become part of the student's professional vita. The teaching practicum is usually taken after completion of two terms of study. The student is responsible for identifying an appropriate course related to his or her areas of interest and obtaining the agreement of the instructor of record.

Residence and Registration Requirements

According to University of Pittsburgh policy, students seeking the PhD degree are required to engage in a minimum of one term of full-time doctoral study, which excludes any other employment except as approved by their departments. Doctoral students must register for at least 3 credits in each term until they have achieved candidacy. To maintain active status, all doctoral candidates must be registered for a minimum of 3 credits in each 12-month period (3 credits in one term or 1 credit in each of three terms) from the time of admission to candidacy until receipt of degree.

School-Based Financial Support

Preliminary Examination

Upon completion of 24 credit hours of course work, each student submits for review a portfolio comprising the best representation of work completed thus far. The student presents this portfolio orally to the Doctoral Studies Committee (DSC) as a whole, which votes on its acceptability. The Preliminary Examination is based on the breadth and depth of knowledge as addressed through course work, as well as whether the course work taken will support the research plan the student submits and defends to the DSC.

Comprehensive Examination

The Comprehensive Examination is conducted by a three person committee the- faculty advisor and two faculty members chosen by the student and the faculty advisor. The examination consists of a written take-home exam over two weeks and an oral examination conducted by the student's committee. The take-home exam has two parts: a broad perspective on current issues in the field of library science, information science, or archives, depending on the student's general area, and the area of the student's research specialization.

Language Requirement

Students are required to be proficient in any languages necessary for completion of doctoral work. Depending upon the student's course of study, proficiencies in modern languages, linguistics, and/or computer languages may be required.
Candidacy and Dissertation

For admission to formal candidacy for the PhD degree, a student must have:

- Passed the preliminary evaluation
- Completed a minimum of 36 credits beyond the master's degree with a GPA of 3.50 or higher
- Passed the comprehensive examination
- Successfully defended the dissertation proposal and received permission from the Dissertation Committee to begin research

Students demonstrate their ability to complete a sound project of original research by presenting and defending the dissertation proposal to their Dissertation Committee. The Dissertation Committee must unanimously approve the dissertation topic and research plan before the student may be admitted to candidacy for the doctoral degree.

Public Presentation Requirement

During the course of the PhD program, each student is required to make a public presentation on a research project in which the student is engaged.

Certificate

Big Data Analytics, ADVCT

Certificate of Advanced Study in Information Science

The iSchool provides several options for advanced study in information science beyond a bachelor's or master's degree. The Certificate of Advanced Study (CAS) offers a highly-concentrated curriculum on the theory and application of the most current information field trends.

Students can follow a 15-credit or 24-credit plan of study.

15-credit post-bachelor's certificates

- Big Data Analytics
- Security Assured Information Systems (SAIS)*
  * eligible for Committee on National Security (CNSS) Certifications

15-credit post-master's certificates

- Big Data Analytics
- Security Assured Information Systems (SAIS)*
  * eligible for Committee on National Security (CNSS) Certifications

Course work must be completed within a period of four calendar years from the student's initial registration in the certificate program. Students interested in the CAS should consult this Web site.

Information Science and Technology - Big Data Analytics, ADVCT

Certificate of Advanced Study
The iSchool provides several options for advanced study in information science beyond a bachelor's or master's degree. The Certificate of Advanced Study (CAS) offers a highly concentrated curriculum on the theory and application of the most current information field trends.

  * eligible for Committee on National Security (CNSS) Certifications

**15-credit post-master's certificates**

- Big Data Analytics
- Security Assured Information Systems (SAIS)*
  * eligible for Committee on National Security (CNSS) Certifications

**24-credit post-master's certificate**

CAS Requirements

The 15-credit certificate program in Big Data Analytics is designed to address the needs of professionals with a Bachelor of Science or a Master of Science degree in Information Science or a related field in order to expand their professional skills and qualifications in effectively handling large amounts of disparate data.

Big data involves three major dimensions: data size, data rate, and data diversity. Students completing the certificate will gain essential, in-depth knowledge of techniques and technologies relevant for big data management.

The courses offered allow students to tailor the certificate program of study to their individual interests.

Download a copy of our information sheet and application checklist.

**Core courses**

Post-bachelor's students must complete three of the following courses with a grade of C or better:

Post-mastor's students must complete three of the following courses with a grade of B or better:

- INFSCI 2160 - DATA MINING
- INFSCI 2591 - ALGORITHM DESIGN
- INFSCI 2711 - ADV TOPICS IN DATABASE MGT
- INFSCI 2725 - DATA ANALYTICS

**Electives**

Post-bachelor's students must complete two of the following courses with a grade of C or better:

Post-mastor's students must complete two of the following courses with a grade of B or better:

- INFSCI 2130 - DECISION ANAL & DECISION SUPRT SYS
• INFSCI 2140 - INFORMATN STORAGE & RETRIEVAL
• INFSCI 2410 - INTRO TO NEURAL NETWORKS
• INFSCI 2430 - SOCIAL COMPUTING
• INFSCI 2801 - GEOSPATIAL INFO SYSTEMS (GIS)
• INFSCI 2802 - LOCATION-BASED SERVICES
• INFSCI 2809 - SPATIAL DATA ANALYTICS
• TELCOM 2125 - NETWORK SCIENCE AND ANALYSIS
• LIS 2690 - INFORMATION VISUALIZATION

City of Opportunities

Pittsburgh is big enough that opportunities for internships, jobs, and access to a rich cultural scene as well as the outdoors abound.

Core courses

Post-bachelor's students must complete the following three courses with a grade of B- or better:

Post-master's students must complete the following three courses with a grade of B or better:

- INFSCI 2150 - INFORMATION SECURITY & PRIVACY
- INFSCI 2170 - CRYPTOGRAPHY
- TELCOM 2821 - NETWORK SECURITY

Elective courses

Post-bachelor's students must complete one Networking or Systems and Technology course and one SAIS course available at the iSchool with a grade of B- or better:

Post-master's students must complete one Networking or Systems and Technology course and one SAIS course available at the iSchool with a grade of B or better:

Examples of these courses include but are not limited to:

- INFSCI 2540 - SOFTWARE ENGINEERING
- INFSCI 2620 - DEVELOPING SECURE SYSTEMS
- INFSCI 2621 - SECURITY MANAGEMENT
- INFSCI 2731 - SECURITY IN E-COMMERCE
- INFSCI 2955 - SPECIAL TOPICS: SYSTEMS
- TELCOM 2120 - NETWORK PERFORMANCE
- TELCOM 2813 - SECURITY MANAGEMENT
- TELCOM 2825 - INFO SYS & NTWRK INFRA PROTCTN
CNSS Certifications

Students completing the SAIS CAS will be eligible for the following Committee on National Security Systems (CNSS) Certifications:

- CNSS 4011 (Information Security Professionals - INFOSEC),
- CNSS 4012 (Designated Approving Authority - DAA), and
- CNSS 4013 (System Administrators in Information Security Systems - INFOSEC).

Students who chose TELCOM 2813 - SECURITY MANAGEMENT and TELCOM 2825 - INFO SYS & NTWRK INFRA PROTCTN additionally receive the following CNSS certificates:

- CNSS 4014 (Information Security Officers - Advanced Level) or
- CNSS 4015 (System Certifiers).

City of Opportunities

Pittsburgh is big enough that opportunities—for internships, jobs, and access to a rich cultural scene as well as the outdoors—abound.

Telecommunications and Networking, ADVCT

Requirements

Students who have graduated from a master's program may pursue a certificate in Telecommunications.

In consultation with an advisor, students project a Plan of Studies to meet their specific interests or needs, and these plans may change as the program proceeds. Students may select graduate-level courses in other departments within the University as well as at Pittsburgh Council on Higher Education-cooperating institutions. Admission to all courses is contingent upon meeting course prerequisites and is subject to the advisor's approval.

Candidates for the Telecommunications certificate must complete the following requirements:

- A total of 24 credits in graduate-level courses acceptable to the advisor and passed with a grade point average of at least B (3.00 on a 4.00 scale)
- Fifteen of the 24 credits must be taken from among the approved courses for the MST degree program.

Course work must be completed within a period of four calendar years from the student's initial registration in the certificate program. Program details are available at: www.ischool.pitt.edu/tele/degree/cas.php

- Programs and Course Offerings

The essential mission of the University of Pittsburgh School of Law is to help lawyers and legal institutions to meet the demands of a rapidly changing legal and professional environment. Pitt Law excels in teaching the next generation of diverse legal professionals; producing research of impact and contributing to society through public service.

In serving its students, the school is committed to an active and inclusive spirit of community and to the effective, efficient, and congenial provision of service. In teaching, research, and public service, the School of Law aspires to conduct all of its programs at a nationally prominent level of quality that adds luster to the legal and business communities of Pittsburgh; that makes the school relevant to the key needs of this region's private, public, and nonprofit sectors; and that distinguishes it as one of the finest public urban law schools in the United States.

For more than 110 years, the School of Law has prepared students to become excellent attorneys and leaders in both the legal profession and in society. Today, Pitt Law builds on this proud history by training lawyers to take on the opportunities and challenges of 21st century legal practice in the United States and around the world.

At Pitt Law we turn out practice-ready lawyers by providing students with both traditional law school classroom experiences designed to develop and hone analytical and communication skills and with experiential learning opportunities in one of our six clinics, which range in subject area from Environmental Law to Family Law to Health Law. Students who wish to focus their studies can enjoy the numerous benefits of enrolling in one of our five certificate programs, with their opportunities for international externships, instruction in litigation skills by teams of top practicing litigators, or membership on an intellectual property moot court team. Seven joint degree programs, including two partnerships with Carnegie Mellon University, permit students to craft discipline-bridging courses of study in areas including public health, business administration, and international affairs. And Pitt Law students can serve as editors at the award-winning website JURIST, the world's only Web-based, student-powered legal news source, which is viewed weekly by 100,000 viewers and is based right here at the School of Law.

Among its first-professional degrees, the School of Law offers the Juris Doctor (JD) degree; a number of joint degree programs with other schools of the University and Carnegie Mellon University, leading to both a JD and a master's degree; and LLM degrees for foreign law graduates as well as several certificate programs. The School of Law also offers graduate programs leading to a Master of Studies in Law (MSL) and a Doctor of Jurisprudence (SJD) degree. For further information on the graduate programs, see the School of Law-Graduate Programs section of this bulletin.

Contact Information

Financial Aid and Admissions are located in the same office at the University of Pittsburgh School of Law.

Office of Admissions and Financial Aid
Barco Law Building
3900 Forbes Avenue
Pittsburgh, PA 15260

Website: www.law.pitt.edu

General Information: (412) 648-1413
Admissions Information: (412) 648-1805
Financial Aid Information: (412) 648-1415
Fax: (412) 648-1318
Admissions

Pitt Law is highly competitive, and we base admissions decisions on many factors. Our admissions committee will carefully evaluate your graduate work, professional experience, and undergraduate GPA and make a decision on a rolling basis, or you may request a priority decision within 14 business days. Each program, degree and certificate has various requirements. Please see each program's requirements.

Qualifications for Admission to the Bar: In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

Transfer Students

The University of Pittsburgh School of Law will accept transfer students after those students have successfully completed the first year of academic study at another law school. Applicants must complete the law school application and submit the following:

- Application fee
- Official LSDAS report
- Letter of good standing from the current law school dean
- Certified law school transcript
- Letter of recommendation from a current law school professor
- Final official undergraduate transcript

The deadline for submitting an application is June 1st of every year. Decisions made on transfer students depends on the number of seats available at Pitt Law, the QPA from the current law school and the competitiveness of the current law school.

If admission is granted, the transfer student's completed law school work will be evaluated for transfer credit in light of the curricular offerings at Pitt Law. Only up to 32 transfer credits will be accepted. However, only up to 29 credits will be accepted in the case of (1) a transfer student admitted from a U.S. law school that is not approved by the American Bar Association, (2) a transfer student who is a graduate of a foreign law school and who is admitted after completion of the Pitt Law LL.M. program, or (3) a transfer student who has not completed the Pitt Law LL.M. program and who is a graduate of a foreign law school for law school work done outside of the United States. All transferred credits must comply with the restrictions in ABA Standard 505.

In keeping with the requirements of The Order of the Coif, students are eligible for Coif membership only if they complete at least 75% of their law studies in graded courses. For transfer students, any credits transferred without grades will not count toward this requirement.

Visiting Students

A student may apply to visit at Pitt Law if he/she has completed two years of law study at another law school and has the permission of the dean of their current school. Applicants must complete the law school application and submit the following:

- Application fee
- Copy of your LSDAS report
- Letter from the dean stating the third year at Pitt Law will count toward a degree from the previous school
- Certified law school transcript.
The deadline for submitting an application is June 1st of every year. Decisions made on visiting students depends on the number of seats available at Pitt Law, the QPA from the current law school and the competitiveness of the current law school.

Scholarships and Financial Aid

All admitted students are reviewed for merit scholarship awards at time of admissions to Pitt Law. The merit scholarships are renewable for the second and third years of law school provided the recipient maintains a cumulative grade point average of 3.0 in their legal studies. Scholarship renewal review is conducted at the end of the academic year. Students whose scholarship is not renewed may request to have their scholarship reinstated at any time based upon earning the cumulative 3.0 grade point average in their legal studies.

Approximately 70 percent of the student body receives scholarship funds from the School of Law in the form of merit or need-based scholarship awards. The Law School offers various merit scholarships at the time of admissions. Some scholarship require an additional application and others are based on the materials submitted in your admissions application. If admitted, you will be emailed any scholarship application that requires additional materials.

Please visit the Pitt Law website for more details on available scholarships or contact the Financial Aid office.

Loans

For most students the major portion of law school costs are met through the Federal Stafford Loan, Federal Graduate PLUS Loan, and alternative educational loan programs.

Generally, to be considered for an educational loan as a law student, you must:

- Complete the Free Application for Federal Student Aid (FAFSA)
- Be a U.S. Citizen, permanent resident, or other eligible non-citizen
- Enrolled at least half-time in a degree program
- Registered with the Selective Service, if required
- Not owe a refund on a federal grant or be in default on a prior federal loan
- Maintain Satisfactory Academic Progress.

Loan Counseling

Before federal loan funds can be released, all incoming students must complete a Stafford Loan Entrance Counseling session, regardless of whether they have borrowed in the past. This counseling session is a federal requirement for all students to insure that they understand their rights and responsibilities as a borrower. Loan counseling can be completed online at www.studentloans.gov.

All students who have borrowed through the Stafford Loan Program are required to attend a Stafford Loan Exit Counseling session before they graduate or drop below half time. The counseling sessions will be schedule in April for all third year students. All third year students will receive notification of the time of the counseling sessions. The counseling sessions informs students of their rights and responsibilities as a borrower as well as giving students information on their repayment options.

Flex-time Program

The flex-time program is offered to students whose outside obligations necessitate a more flexible program of study than is traditionally available. All classes are still held during the daytime; however, hours may be planned according to personal needs and interests. The pace is intended to be less strenuous than the regular program. Course loads are optimally designed to result in graduation in four years rather than three with no fewer than 10 credits per semester. The option to accelerate is also available to flex-time students after the first year of study. Flex-time students are still required to pay full tuition. Applicants to the flex-program must include a letter with their application explaining their individual circumstances. The application process is otherwise the same.
Please note that flex-time is not a part-time program.

**Academic Standards**

The School of Law Policy on Written Work for Credit, its Standards of Academic Integrity, the Grading Guidelines, and other academic policies of the school are included in the Academic Rules section of the School of Law's web site.

**Professional and Career Development**

The Office of Professional and Career Development is dedicated to providing students and graduates with the information and tools necessary for successful career development and advancement. Our office assists students and graduates in their pursuit of careers in a wide variety of settings, including private law firms, public interest organizations, government agencies, corporate and business environments, judicial clerkships, academia, and non-traditional careers.

Through an extensive array of services including individual counseling, educational programming, interviewing opportunities, printed and online resources, job posting databases, and a substantial alumni network, the OPCD helps educate students and graduates for a lifetime of successful career management.

The OPCD also serves as an intermediary between prospective employers and law students. By posting job vacancies, scheduling on-campus interviews, sponsoring programs, and participating in and promoting off-campus job fairs, we provide a range of employment prospects. Through ongoing outreach, the OPCD Staff endeavors to create ever-increasing employer interest in Pitt Law students and graduates.

Each student will meet with a Career Counselor during their first year and is encouraged to meet with the counselor as often as needed. As a students begins to develop his or her legal career path they are able to work with an OPCD counselor whose background mirrors the student's desired path. Our office is open Monday- Friday 8:30 a.m. - 5:00 p.m. Additionally, OPCD has daily walk-in hours and hosts "Facetime" in the student lounge.

**School of Law's Programs**

You expect the Juris Doctor (JD) program at Pitt Law to offer a solid foundation in the basics of legal education. You might not expect the opportunity to specialize in areas like environmental and energy law; health law; and intellectual property, technology, and innovation law.

You might not expect to be able to pursue both a JD and a second master's degree at another Pitt school-in an area such as bioethics, business, public health, and social work-or at nearby Carnegie Mellon University in less time than it would normally take to complete two consecutive degrees.
You might not expect a 30-credit Master of Studies in Law advanced degree designed for graduates and mid-career professionals seeking to enhance their careers with a versatile alternative to the traditional three-year Juris Doctor degree. Or a Master of Laws degree to provide foreign law graduates with critical training in the common law legal tradition and the U.S. legal system during an academic year. Or even a completely-online Health Care Compliance Online Graduate Certificate Program developed by experts in compliance, law, and online education.

And you might not expect how quickly and the extent to which you'll get to apply those classroom lessons. Assisting the public through work with a clinic (health law, elder law, the environment, immigration, and more); serving as a full-time extern on Capitol Hill or throughout Washington, D.C., as part of the Semester in D.C. Program; interning with a federal agency, nonprofit, or corporation; and participating in a national or international moot court competition are just some of the opportunities you'll have to practice your skills and hone your expertise even before you graduate.

Master's

Law - Foreign Law Graduates, LLM

The Master of Laws (LLM) degree provides foreign law graduates with critical training in the common law legal tradition and the U.S. legal system during an academic year at the University of Pittsburgh, located in Pittsburgh's vibrant Oakland neighborhood. Pitt Law's LLM program provides lawyers who have completed their law degree outside the United States with an opportunity to study the common law legal tradition and the U.S. legal system in the United States.

Degree Requirements

Students must complete a minimum of 24 credits to graduate. The program is completed in one academic year from August to May. Part-time admission is considered on a case-by-case basis. The CILE Academic Director, Executive Director and Program Administrator take an active role in personally counselling each LLM student on their course choices, helping you to plan a course of study that is uniquely tailored to your personal needs. Courses taken must include:

- LAW 5977 - INTRODUCTION TO AMERICAN LAW
- LAW 5813 - U.S. LEGAL ANALYSIS & WRITING
- LAW 5820 - LL.M COLLOQUIUM
- Writing Requirement - Choose one of the following:
  - LAW 5902 - INDEPENDENT STUDY
  - or a Seminar Course (Usually 3 credits-various courses are offered each semester). In seminars, the class will meet once a week for two hours with the guidance of a faculty member. The students will conduct research on the seminar topic and prepare drafts of their paper throughout the semester. Each student will present their paper in class and submit a final paper at the end of the semester.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Master of Studies in Law (MSL)

The Master of Studies in Law at the University of Pittsburgh School of Law is a 30-credit advanced degree designed for graduates and mid-career professionals seeking to enhance their careers with a versatile alternative to the traditional three-year Juris Doctor degree. The MSL degree can be earned in one academic year (August to May) full-time or two to four years in a flexible part-time schedule.

MSL scholars seek to gain foundational and specialized knowledge of laws and legal systems. Law is a pervasive influence on almost all aspects of life across the globe, but higher education often ill-prepares students and professionals for navigating laws and legal dynamics in business and life. The MSL degree addresses this critical knowledge gap.

Pitt Law commands one of the oldest Master of Studies in Law programs in the country. Only a handful of students are admitted per year. Pitt Law is unique in that it offers its MSL students the opportunity for specialization in 22 areas of studies.

884
This is not an online program. MSL students take the same vast array of courses as Juris Doctor candidates taught by world-class legal scholars, judges and attorneys, and they gain the advantages and benefits of attending the University of Pittsburgh.

Degree Requirements

Pitt Law's Master of Studies in Law is a graduate-level advanced degree from the University of Pittsburgh. Those applying must have completed at least an undergraduate bachelor of arts or sciences degree. Those desiring to apply to the Master of Studies in Law program will need to provide official transcripts of all college, graduate and professional studies, whether a degree was obtained or not.

International students are welcome and encouraged to apply. They must have completed the equivalent of a US bachelor of arts or sciences degree, and they must submit a TOEFL score. The minimum acceptable TOEFL scores are 600 paper, 250 computer, 110 internet. IELTS scores are also accepted in lieu of TOEFL. International students are encouraged to apply as early as possible because of greater amount of time needed to process the application, obtain visas, and obtain housing.

Students must complete 30 course credits in the School of Law to receive the MSL degree. Students are required to take Introduction to Law and Legal Reasoning, one first-year course, and a minimum of 12 credits in their selected area of specialization.

The areas of specialization from which students may choose are as follows:

Business Law
Commercial Law
Corporate Law
General Business Law
International Business Law
Tax Law
Constitutional Law and Civil Rights
Criminal Law and Justice
Disability Law
Education Law
Elder and Estate Planning Law
Employment and Labor Law
Energy Law
Environmental and Real Estate Law
Family Law
Health Law
International Property and Technology Law
International and Human Rights Law
Jurisprudence
Personal Injury and Civil Litigation
Regulatory Law
Sports and Entertainment Law
Self-Designed Concentration

Students may also design their own unique concentration.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Doctoral

Law - Juridical Science, SJD
Program Information

The Doctor of Juridical Science (SJD) is the Law School's most advanced degree, which is designed for legal academics who wish to pursue advanced independent study, research and writing. The Law School's SJD program offers candidates the opportunity to become active members of a vibrant legal community.

Degree Requirements

The SJD is a research degree. There is no formal requirement for candidates to pursue course work, whether for credit or otherwise, other than required participation in a non-credit, ungraded colloquium for SJD students during their first year in the program. However, a candidate may be required by his advisor to take or audit courses and participate in seminars and discussions which will further the student's understanding of his or her field of knowledge and its relation to other fields. Each candidate will be allowed 2-4 years to complete the program, the first year of which must be spent in residency at the University of Pittsburgh School of Law. The year of residency is in addition to the LLM year for Pitt Law LLM graduates. A candidate is required to conduct rigorous research and produce an original dissertation that will contribute significantly to legal scholarship and further understanding of the law. Specifically, a candidate is required to submit a dissertation overview, defend that overview, submit a doctoral dissertation, and successfully defend the dissertation. The SJD degree must be completed under the supervision of a faculty member who has consented to serve as the faculty advisor.

Certificate

Law - Certificate in Disability Legal Studies

The law exerts a powerful and direct impact on the lives of persons with disabilities. It is estimated that close to 20 percent of the US population, nearly 54 million people, have a disability, with a dramatic increase in the proportion since 1970. People with disabilities comprise one of the largest, least employed, and most disenfranchised minority groups in society.

This 15-credit certificate program is a unique effort to provide legal education to those working in the administration of and provision of services in disabilities programs. Administrators, educators, health practitioners, advocates, social workers, architects, city planners, attorneys, and business leaders, among others, could potentially benefit from the program's instructional content.

Requirements

Students enrolled in the certificate program are required to take four core courses.

- LAW 2814 - INTRO LAW AND LEGAL REASONING
- LAW 5395 - HEALTH LAW AND POLICY
- LAW 5339 - LAW OF DISABILITY DISCRIMINATION
- LAW 5028 - Torts

Or another first-semester required course if the Certificate Director deems it preferable for a particular student's interest.

The remaining 3 credits (minimum) may be satisfied by any of the following (or similar) courses which are offered as instructor availability permits:

- LAW 5464 - BIOETHICS AND LAW
- LAW 5347 - ELDER LAW
- LAW 5216 - EMPLOYMENT DISCRIMINATION
- LAW 5290 - EMPLOYMENT LAW
- LAW 5283 - MENTAL HEALTH LAW
- LAW 5355 - NON-PROFIT ORGANIZATIONS
- LAW 5973 - VETERAN'S PRACTICUM

886
LAW 5297 - WORKERS' COMPENSATION
In addition, students may select any other School of Law course with the permission of the instructor and the Certificate Director.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Health Care Compliance Online Graduate Certificate Program

The Health Care Compliance Graduate Certificate Program is a fully online, accelerated 10-month graduate certificate program designed for working professionals. This advanced, accelerated program will support you as you take on more strategic compliance roles. In this program, you will:

- Learn the relevant law, practical applications of compliance, best practices and explore current issues;
- Interact with expert faculty-professors from the School of Law and Graduate School of Public Health, current and former federal regulators, and compliance industry experts;
- Network and collaborate with your peers in other industries and locations through innovative online applications; and
- Work on weekly assignments when and where you choose.

This program is designed for:

- Compliance professionals who wish to enhance their understanding and professional development;
- Attorneys who wish to acquire an appreciation of the compliance industry, client needs, and issues;
- Health care professionals who must understand compliance;
- Industry administrators and leaders; and/or
- Those interested in an exciting career change.

HCC Online course work is asynchronous, meaning there are no scheduled meeting times or locations. You will complete each course in the program within eight weeks, working through weekly modules, based on your own schedule and from any location.

The objectives of the Health Care Compliance Online program are to:

- Provide an understanding of the laws that shape the health care industry in general, and compliance in particular;
- Help students acquire a deeper understanding of the regulatory context of compliance;
- Help students develop the skills and knowledge necessary to identify compliance issues, guide change, and navigate complexity while supporting an ethical culture;
- Identify best practices in compliance management;
- Enhance critical thinking and problem solving skills in a compliance context;
- Help students acquire knowledge and skills to manage conflict;
- Improve students' communication and presentation skills; and
- Facilitate peer-to-peer learning and networking opportunities.

Requirements

Applicants must have earned a baccalaureate degree at an accredited institution. Admissions decisions will be made based on professional experience, academic credentials, and a personal statement. In some instances an interview (online or via phone) may be required.

To apply for the program, complete the Health Care Compliance Online Application available at Pitt Online's website.

Note: Please visit the Pitt Online State Authorization page to be sure your state is authorized to enroll students online. Currently, pursuant to state laws and regulations, online programs at the School of Law are authorized to enroll students from all states with the exception of: Arkansas, Kentucky, Minnesota, Missouri, Oregon, Washington State. Maryland Residents: the University of Pittsburgh is registered with the Maryland Higher Education Commission.
Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Health Law Certificate

Students enrolled in a degree program at the University of Pittsburgh School of Law can develop an expertise in the rapidly changing, steadily growing field of health law through the Law School's new Health Law Certificate Program.

Pitt Law's Health Law Program, one of the oldest in the country, is intended to give students interested in health law a basic grounding in the field, complemented by clinical experience and more in-depth study of advanced topics and closely related areas of law. Students are encouraged to obtain the same broad background in law expected of all graduates for the University of Pittsburgh School of Law.

The health care industry comprises more than one-sixth of the entire economy-larger even than the automobile industry. It is also a large consumer of legal services. Law firms ranging from the largest to the smallest provide legal services to hospitals, health insurance companies, nursing homes, physicians' practices, home health agencies, and pharmaceutical and device manufacturers, to name some of the more prominent. In addition, many federal and state agencies and many of the larger providers of health care goods and services employ a large number of lawyers in house. Although there are a few areas that are substantively unique-such as Medicare and Medicaid reimbursement, certificate of need requirements, and fraud and abuse prohibitions-much of health law involves the application of other areas of law, such as corporate law, employment law, and real estate law to the health care industry's special circumstances.

The Health Law Program provides students with a strong foundation in health law that will enable them to practice in a variety of contexts, including law firms, health care management firms and insurers, government, and health care institutions. A combination of classroom and skills components acquaints students with everything from complex business and legal transactions, to bioethics and patient care issues, to the variety of legal issues that arise in the operation of a health care institution. Students gain hands-on experience in these areas through their work in the Law School's clinics and practicums, and in externships and summer jobs available in the health care setting.

In addition to courses taught by regular law school faculty, leading practitioners in various fields of health law such as fraud and abuse, business transactions, compliance, disabilities law, nonprofit organizations, and privacy teach courses designed to relate theory to practice. In addition, Current Issues in Health Law, a required course for all Health Law Certificate Program students, is taught by renown practitioners of health law and by health care professionals and executives.

Requirements

The Health Law Certificate Program is an educational program of concentration in health law for students in their second and third years of the JD curriculum. Admission is available to all students entering their second year in the JD program.

Students must complete the following requirements to receive a Certificate in Health Law:

- Complete a minimum of 18 credits in courses in health law, including Health Law and Policy, Current Issues in Health Law I and II, and Business Organizations
- Write their faculty-supervised paper on a topic in health law
- Complete a clinic, externship, or practicum
- Take a minimum of three health law electives

All Pitt Law students may take a maximum of 6 credits of graduate level courses outside the School of Law for credit toward the Health Law Certificate Program with permission of the program director. Courses that are especially relevant are those offered by the Department of Health Services Administration in the Graduate School of Public Health, the Center for Bioethics and Health Law, and the Heinz School of Public Policy and Management at Carnegie-Mellon University. See http://my.pitt.edu, PeopleSoft, Self-Service, Browse Catalog for a listing of all Pitt courses. For advice about taking courses outside the law school, you may wish to consult the Health Law Certificate Program Director.

In addition to the courses below, you may also choose an Upper Level Writing Requirement course as an elective. Your paper must be on a topic in health law; however, the course or seminar in which it is written need not be a health law course. For more information, consult the program director.
Foundational Courses

- LAW 5731 - CURRENT ISSUES IN HEALTH LAW 1
- LAW 5395 - HEALTH LAW AND POLICY

Core Elective Courses (register for at least 2 courses)

- LAW 5464 - BIOETHICS AND LAW
- LAW 5811 - HLTH CARE BUS TRANSACTIONS *
- LAW 5284 - HEALTH CARE COMPLIANCE *
- LAW 5089 - PUBLIC HEALTH LAW *

Skills Course (register for at least 2 credits)

- LAW 5393 - CIVIL PRACTICE CLINIC - HEALTH
- LAW 5972 - EXTERNSHIP (in Health)
- LAW 5497 - HEALTH LAW PRACTICUM: ADR
- PUBHLT 2017 - PUBLIC HLTH TEACHING PRACTICUM
- LAW 5538 - MEDICARE & MEDICAID PRACTICUM

Health Care Transactional Competition Health Care Regulatory and Compliance Competition

- LAW 5955 - D.C. EXTERNSHIP
- LAW 5875 - SOCL SECU DISAB PRACTICUM
- LAW 5973 - VETERAN'S PRACTICUM
- LAW 5251 - BIOTECHNOLOGY LAW
- LAW 5212 - BUS PLANNING, ENTREP & TECHN
- LAW 5135 - COMMERCIALIZING NEW TECS
- LAW 5347 - ELDER LAW
- LAW 5330 - EMPLOYEE BENEFITS
  Federalism & Health Policy Seminar (5503)
- LAW 5300 - FOOD AND DRUG LAW
- LAW 5408 - HEALTH CARE FRAUD AND ABUSE
- LAW 5430 - INFO PRIVACY LAW AND PRACTICE
- HPM 2133 - LAW IN PUBLIC HEALTH PRACTICE
  Law in Public Health Practicum (GSPH)
- LAW 5339 - LAW OF DISABLY DISCRIMINATION

- LAW 5355 - NON-PROFIT ORGANIZATIONS
- LAW 5313 - REPRDCTV LAW & POLICY

* This course may be used to satisfy the Additional Electives requirement or the Core Elective requirement, but not both.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Holocaust and Crimes Against Humanity Studies Emphasis

The Holocaust was the pivotal cause of the transformation of international law from a law of states that excluded individuals as subjects, to a system that henceforth included individuals as subjects. Among the post-war documents it spawned are the Universal Declaration of Human Rights and the European Convention on Human Rights. Drenched not just in blood but also in law, or the mimicry of law, the Holocaust also was the epitome of the interdisciplinary event that cannot be studied effectively from a single field. Conversely, modern international law cannot be understood without an understanding of the Holocaust.

From the Nuremberg trials to the trials of accused concentration camp guards currently taking place, to civil restitution lawsuits, to narratives of memory and the emerging scholarship on collective and cultural memory, the Holocaust poses a critical backdrop for comparison and contrast with subsequent mass crimes throughout the world, and the social, legal and political resolutions that follow in their wake. Issues meriting study include
the appropriate role of law; the limits of both law and justice in the aftermath of crimes against humanity; law's intersection with history; historical justice; individual, collective and cultural memory; and narrative.

This emphasis will allow law students to examine these issues in any appropriate discipline, including but not limited to Law, Political Science, History, Jewish Studies and Literature. Courses dealing with subjects such as international human rights; slavery; the Rwandan genocide and the history of the Holocaust are examples of those which would qualify.

Requirements

Students must complete eight credits, two of which can be in satisfaction of the upper-level writing requirement. Up to four credits can be taken outside of the Law School. (Any non-Law School credits will be part of the total of six non-Law School credits students may apply to their J.D. degrees).

Completion of the emphasis requirements will be acknowledged in an official Law School letter to the student, a copy of which will be kept in the student's file. The Studies Emphasis is not at present an official university program, and as such will not be reflected on the student's university transcript. However, it is expected that students will want to include reference to their successful completion of this course of studies on their résumés. The Law School will confirm the student's completion of the course of studies to potential employers and others.

- LAW 5653 - INTERNATIONAL HUMAN RIGHTS
- AFRICNA 1039 - HISTORY OF CARIBBEAN SLAVERY
- AFRICNA 0385 - CARIBBEAN HISTORY
- HIST 1338 - WEIMAR AND NAZI GERMANY
- HIST 1367 - 20TH CENTURY EUROPE
- HIST 1381 - EUROPE 1914-1945
- HIST 1769 - HISTORY OF THE HOLOCAUST
- PIA 2359 - ETHNIC CONFLICT AND CIVIL WAR
- PIA 2324 - PEACEMAKING AND PEACEKEEPING
- PIA 2506 - SEX AND HUMAN SECURITY
- PIA 2307 - HUMAN SECURITY
- PIA 2742 - HUMANITARIAN CRISIS
- PIA 2355 - WWII, COLD WAR & IMPCT DVLPNG

Note

Law - Intellectual Property, Technology & Innovation Law

The School of Law is transitioning its longstanding Intellectual Property & Technology Law Certificate Program into a new Intellectual Property & Innovation Law Area of Concentration:

Students who were admitted with the Class of 2017 or earlier classes can choose to pursue either the Certificate or the Area of Concentration. Whichever choice a student makes, the student must register for, and complete the requirements of, the chosen program in order to have completion of that program reflected on their transcripts.

Students who are admitted with the Class of 2018 or later classes may only enroll in the Area of Concentration.

The Intellectual Property and Innovation Law Area of Concentration is designed to allow students to obtain a focused introduction to these bodies of law and practice while simultaneously getting a broad grounding in modern law practice generally. No scientific or technical background is required to pursue the Area of Concentration or to practice law in any of the related fields, though students who wish to practice law as a patent prosecutor do need to have an engineering degree or other, similar technical qualification.

Certificate Requirements
All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, students must have a minimum of 14 credits and meet the below course requirements. In addition, students can opt to use one of the following as a Skills Component:

- Giles Sutherland Rich Moot Court Competition
- Cardozo/BMI Moot Court Competition
- Externships with government agencies or other organizations that focus on intellectual property and/or technology law, practice, and/or policy
- Semester in DC externship with a focus on intellectual property and/or technology law, practice, and/or policy.

**Foundational Courses (2 courses totaling 5-6 credits required)**

- LAW 5260 - INTELLECTUAL PROPERTY
- LAW 5328 - COPYRIGHT *
- LAW 5694 - TRADE MARK LAW *
  * may be taken as elective if not taken as a foundational

**Elective Courses (5-6 credits required)**

- LAW 5895 - ARTIFICIAL INTEL & LGL RES SEM
- LAW 5251 - BIOTECHNOLOGY LAW
- LAW 5212 - BUS PLANNING, ENTREP & TECHN
- LAW 5620 - CYBERSECURITY & PRIVACY REGLN
- LAW 5404 - CYBERSPACE AND THE LAW
- LAW 5862 - FDS INTELCL PROPERTY LAW SEM
- LAW 5631 - LAW AND ENTREPRENEURSHIP
- LAW 5717 - TELECOMMUNICATIONS LAW
- LAW 5984 - TRADE SECRETS LAW

**Skills Component (4-6 credits required)**

- LAW 5135 - COMMERCIALIZING NEW TECS
- LAW 5481 - INTELLCTL PROPERTY LICENSING
- LAW 5839 - LAW ENTRTTAINMNT SCL ENTRP PRAC
- LAW 5242 - PATENT LAW PRACTICE
- LAW 5276 - PATENT LITIGATION
- LAW 5695 - TRADEMARK LAW PRACTICE

**Note**

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

**Law - International and Comparative Law Certificate**

The International & Comparative Law Certificate program is intended to provide a foundation for careers and further study in the application of legal regimes to transnational and international relationships. Students should keep in mind that in order to be a good international or comparative lawyer, one must first be a good domestic lawyer. Thus, students in the certificate program are expected and encouraged to obtain the same broad background in law expected of all graduates of the University of Pittsburgh School of Law.

**Requirements**

To receive the International & Comparative Law Certificate upon graduation, students must complete:

- the required courses (below);
- satisfy the Upper Level Writing Requirement (ULW) with a paper focused on international or comparative law content;
- complete twelve credits of elective courses (below);
and attenda two designated CILE programs in each of the candidate's 2L and 3L years at the School of Law. The courses that qualify as international and comparative law electives for purposes of the Certificate requirements are determined annually. In general, a course will satisfy the elective requirement if at least 25 percent of its content is in the areas of international or comparative law. Listed below are courses offered in recent years that have satisfied this elective requirement - you should consult the schedule of courses for any given term to determine what courses are being offered and the credits awarded. For new course offerings, you should contact CILE to determine if a given course will satisfy the elective requirement. Courses in the School of Law that do not have a predominantly international or comparative law subject matter may be approved for elective purposes on a case-by-case basis at the discretion of the CILE Academic Director if, in practice, the student's work in the class included that element in a particularly substantial manner; for example, the student satisfies the written requirement of a "W" course with a paper using a comparative law approach. (Note this would not be permitted if the given paper was also being used to satisfy the ULW requirement.)

Coursework outside the School of Law may also be eligible to satisfy up to 3 elective credits if the CILE Academic Director determines that at least 25 percent of its content is in international topics, that it otherwise is an appropriate course for these purposes, and the use of these credits has been approved by the Associate Dean of the School of Law as qualifying under School policy for the six credits of non-School of Law coursework permitted to be credited towards the JD degree. Proposed elective courses outside the School of Law must be approved in advance by the CILE Academic Director as well as in accordance with general School of Law policies.

**Required Courses**
- LAW 5226 - INTERNATIONAL LAW
- LAW 5225 - INTERNATNL BUSINESS TRANSACTIONS

**Example Electives**
- LAW 5618 - ARABIC FOR LAWYERS 1
- LAW 5619 - ARABIC FOR LAWYERS 2

- LAW 5253 - TRANAT LITIGATN CRT AROND WRLD

**Note**

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.
Law - Public Policy Concentration

You can earn the Public Policy Concentration by completing the Policy Track of the Semester in DC Program in the spring semester of your 2L or 3L year.

While law students learn many skills that are useful for policy-related work, they do not typically learn how to apply those skills in a policy context, for example by analyzing a government agency report, mapping the stakeholders on a particular issue, preparing questions for a Senate hearing, writing a short policy brief, or developing an advocacy campaign.

The Semester in DC Program Policy Track is designed to fill this gap by teaching you how to apply your legal advocacy, research, and writing skills in the policy context, so that you can successfully engage in policy-related work after graduation. The Policy Track is offered each spring semester jointly with the Graduate School of Public and International Affairs (GSPIA) at Pitt's Washington Center in downtown Washington, DC.

Highlights of the Semester in DC Program Policy Track include:

- A policy-related externship with a government or nonprofit organization in Washington, DC
- Classes that are focused on learning from policy experts who regularly visit as guest speakers and on attaining pragmatic policy advocacy, analysis, and writing skills
- Joint classes with GSPIA students, so that both policy and law perspectives are represented in each class
- An individual alumni mentor for each student, as well as connections with Law and GSPIA's alumni network of hundreds of attorneys and policy practitioners in the Washington, DC area

Semester in DC Program alumni have gone on to do all kinds of policy work after graduation, including positions:

- With the U.S. Departments of State and Health and Human Services
- With U.S. Senate and House offices
- In healthcare policy for Johnson & Johnson, the Maryland Department of Health, and the Legal Resource Center for Public Health Policy
- In environmental policy for the Sierra Club, the Environmental Investigation Agency, and Voices for Progress
- In child/family policy for the Children's Law Center and First Focus
- In labor policy for the AFL-CIO

Requirements

You can earn the Public Policy Concentration by completing the Policy Track of the Semester in DC Program after taking the required 1L Legislation and Regulation course.

The Public Policy Concentration requires students to earn 15 credits in the policy-related classes listed below. Students will have already completed the 3-credit foundational course in Legislation and Regulation in their 1L year. Students can complete the 12 remaining credits by participating in the Semester in DC Program Policy Track, which offers the listed courses. Only the courses listed below may be used to fulfill the requirements of this concentration; other courses may not be substituted.

**Foundational Course**
- LAW 5032 - LEGISLATION AND REGULATION

**Electives (up to 7 credits)**
- LAW 5877 - LAW MAKING SEMINAR
- LAW 5666 - LOBBYING AND ADVOCACY
- LAW 5668 - POLICY COLLOQUIUM
  or
- LAW 5954 - D.C. SEMINAR
  (Students may apply 1 credit from the DC Seminar to the Public Policy Concentration if their seminar papers are approved in advance as policy-focused.)

**Skills Component (6 credits required)**
- LAW 5667 - POLICY EXTERNSHIP *
- LAW 5955 - D.C. EXTERNSHIP *

893
* must be approved in advance as policy focused.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Professional

Law - Environmental and Energy Law Programs

The School of Law is currently in the process of transitioning its longstanding Environmental Law, Science & Policy Certificate Program into a new Energy & Environmental Law Area of Concentration:

Students who were admitted with the Class of 2016 or earlier classes can choose either to pursue the Certificate or the Area of Concentration. Whichever choice a student makes, the student must register for, and complete the requirements of, the chosen program in order to have completion of that program reflected on their transcripts.

Students who are admitted with the Class of 2017 or later classes may only enroll in the Area of Concentration.

The law around the development, sale, use and preservation of natural resources is the practice framework for energy and environmental lawyers. Pitt Law offers a flexible concentration that allows students to pursue transactional, regulatory, litigation, or policy-based courses in the area of energy & environmental law. Students pursuing this concentration may explore the law of shale plays, utility law, international commercial transactions, pollution control laws, conservation statutes, renewable energy incentives, and climate law and policy.

Energy and environmental law is often practiced in or through interactions with administrative agencies and tribunals. The Concentration exposes students to administrative decisionmaking, statutory interpretation, rulemaking and adjudication, and judicial review of agency decisions.

Area of Concentration

All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, students may pursue this concentration by taking foundational courses in environmental or energy law, 5-6 credits of electives, and 4-6 skills-based credits.

Please note that this program may require that you complete an internship, externship, or other field work at a facility or facilities external to the University and that such facility or facilities may require a criminal background check, an Act 33/34 clearance (if applicable), and perhaps a drug screen to determine whether you are qualified to participate.

- LAW 5340 - ENVIRONMENTAL LAW
- LAW 5038 - ENERGY LAW AND REGULATION
  Elective Courses (5-6 credits required)
- LAW 5201 - ADMINISTRATIVE LAW
- LAW 5082 - CLIMATE CHANGE AND THE LAW
- LAW 5295 - EXPERT WITNESS
- LAW 5919 - PGH JOURNAL TECH LAW & POLICY
- LAW 5143 - WATER & SHALE GAS DEVELOPMENT
  Energy & Environment
  * may be alternately used as a Skills Component
- Skills Component (4-6 credits required)
- LAW 5883 - ENVIRONMENTAL LAW CLINIC
  Environmental Moot Court Competition
  Energy Law Moot Court Competition
  Externship in the area of Environmental Law or Energy Law
Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - J.G. Civil Litigation Certificate Program

Are you drawn to the real life drama of the courtroom? Do you have dreams of becoming a trial attorney? If so, then the University of Pittsburgh School of Law (PittLaw) may just be the place for you. Through its unique John P. Gismondi Civil Litigation Certificate Program, PittLaw can provide you with a unique curriculum devoted exclusively to training the trial lawyers of tomorrow.

During the first year of law school, all students take the same courses. Those students who wish to register for the Gismondi program, do so at the beginning of their second year of law school. During their second and third years, all students enrolled in the certificate program will take certain required foundational core courses, a clinic or practicum, as well as a number of specialized classes. The heart of the Gismondi program is a collection of specialized courses taught exclusively by a pre eminent group of practicing trial attorneys whose insight and experience offer an invaluable perspective in the classroom. Together with our core courses, these select courses provide a level and depth of litigation training unlike that available at most any other law school.

In each of these specialized skills courses, class size is kept small so as to enrich the learning experience. Students not only are taught legal rules and principles in a typical lecture format, but more importantly, they are assigned to “role play” in a variety of real world litigation scenarios, each designed to develop specific skills which are essential to successful trial work.

Students complete their training by taking a required litigation skills clinic or practicum selected from this group of options: Civil Practice Clinic (Health Law or Elder Law), Tax Clinic, Immigration Clinic, Environmental Law Clinic, PA Practice Practicum, Lawyering III Clinic, Unemployment Compensation Practicum, Criminal Prosecution Practicum, Veterans Practicum or Family Law Clinic. In all of these clinics, students have the potential of representing real clients in actual court proceedings.

The students in the John P. Gismondi Civil Litigation Certificate Program will complete their law school education having developed a set of skills which better prepares them to do courtroom work than traditional law school graduates, and that advantage, in turn, makes the Gismondi certificate students more attractive to law firms seeking to hire young and enthusiastic litigation associates.

Certificate Requirements

All students must follow the JD degree requirements in order to graduate. To qualify for this certificate, students must complete the Core Courses and Required Specialized Skills Courses listed below. In addition, students must take a litigation skills clinic or practicum, or a combination thereof, approved by the Director of Civil Litigation Program for a minimum of four credits.

Students must participate in the Murray S. Love Trial Moot Court Program during their second or third year or the Interscholastic Mock Trial Team (enroll in the attendant seminar Mock Trial Strategy and Practice).

Students must participate in the Program's Court Observation. Students will spend a day organized by the Academy of Trial Lawyers of Allegheny County observing court proceedings. Students will fulfill this requirement in their third year. Students must sign up with the Program Director in order to participate on one of these dates.

Students are required to complete an Upper Level Writing Requirement of 2 credits. Students may satisfy this requirement by taking any seminar or undertaking an independent study project if the paper they write is on an unresolved litigation related issue and the issue is approved by the Director of the Civil Litigation Certificate Program and the faculty member supervising the seminar or independent study project. The paper must comply also with applicable requirements of the professor and the Student Handbook relating to the Upper Level Writing Requirement.

- LAW 5103 - EVIDENCE
- LAW 5407 - TRIAL ADVOCACY
  Or
LAW 5616 - MOCK TRIAL STRATEGY AND PRA
LAW 5129 - FEDL COURTS & FEDL LITIGATION
Or
Students must take four of these five courses:
LAW 5320 - LITIGATION STRATEGY & PLANNING
LAW 5295 - EXPERT WITNESS
LAW 5236 - PRE-TRIAL PRA-PLEADINGS DISCV
LAW 5223 - ADVANCED TRIAL EVIDENCE
LAW 5197 - ADVANCED TORTS

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law - Juris Doctor (JD)

Pitt Law offers the Juris Doctor (JD) degree as well as a number of joint degree programs with other Pitt schools, which lead to both a JD and a second master's degree.

In all of these programs, Pitt Law's essential mission is to help lawyers and legal institutions to meet the demands of a rapidly changing legal and professional environment.

The program's first-year curriculum offers a solid foundation in legal analysis and reasoning through courses in subject areas traditionally viewed as basic for legal education.

Pitt Law JD students enjoy a large degree of latitude in designing courses of study that meet their individual goals and interests, with only a handful of graduation requirements beyond the first year.

Pitt Law offers particularly rich opportunities in:

- International law, featuring prominent international/comparative law faculty, a rich international and comparative law curriculum, several courses each year taught by visiting foreign law professors, internships abroad, internationally focused scholarships and fellowships, Languages for Lawyers courses, strong University programs (including area studies certificate programs), and international moot law competitions.
- "Live-client" clinics in a range of substantive areas and practice settings, giving students opportunities to develop valuable lawyering skills in the context of real-life, not simulated, legal disputes and transactions. Students grapple with legal, ethical, and practical issues, under the supervision of - and in close counsel with - a seasoned attorney faculty member.
- The Semester in D.C. Program, during which students spend a semester in Washington, D.C., earning a full semester's worth of academic credit while working full-time as an extern with a non-profit organization or government agency.
- Seven certificate programs/areas of concentration enabling students to concentrate their studies in particular areas of law. These programs include specialized advanced courses that incorporate lawyering skills relevant to particular areas of practice.
- Cross-disciplinary learning - Pitt Law students may take courses in other schools at Pitt or other local colleges and universities (up to six non-law graduate credits can be used toward the JD requirements).

Some Pitt Law courses incorporate multiple disciplines, such as Law & Human Behavior and Law & Economics Seminar, or are jointly taught by law faculty and faculty from other disciplines to classes comprising both law and other graduate/professional students - for example, Commercializing New Technologies.

Pitt Law joint degree programs enable students to earn the JD as well as a master's degree in another discipline through an integrated program, more quickly than earning the two degrees separately.

Degree Requirements
Admission applications for the Pitt Law JD program will be accepted starting September 1 through our deadline of April 1. Applications are considered only for the current year for the fall semester. We require all applicants submit their applications on-line through the Law School Admission Council (LSAC). Pitt Law is highly competitive and decisions are based upon many factors. Once your application is complete, our Admissions Committee will review your application. Once we are able to make a decision, you will be notified by mail within several weeks. You can also verify your application status on-line with a user name and password, which will be sent to you electronically once you apply. We ask for your patience during the admissions cycle as it can become very busy during key times of the year.

Application Requirements:

- Applicants must submit a $65 application fee
- Applicants must have completed a bachelor's degree from a regionally accredited college or university in the United States before the first day of law school.
- In cases where an applicant has completed studies outside the United States, the requirement is education deemed by the University of Pittsburgh to be comparable to a bachelor's degree from a regionally accredited college or university in the United States. Click here for more information
- When evaluating an undergraduate degree, the committee pays careful attention to the strength of the major field of study, as evidenced by the courses listed on the undergraduate transcript. Pitt Law is looking for applicants who have demonstrated the discipline and ability to handle a rigorous and demanding program. The admissions committee carefully evaluates graduate work and professional experience, although utilizes the undergraduate GPA.
- Applicants are required to register with the Credential Assembly Service (CAS) through LSAC and must take the LSAT. If an applicant takes the LSAT more than one time the highest score is considered by the admissions committee when making a decision. The latest test score that will be considered for all entrance is the score from the previous February examination. Scores from tests taken more than four years prior to the current admissions year will not be considered. More information can be obtained from the Law School Admission Council (LSAC).
- A required personal statement gives the committee a view into the non-academic world of the applicant and serves as the interview. This is critical in our ability to enroll a diverse class. We ask that you keep your personal statement to no more than two pages, typed, double spaced.
- Letters of recommendation play an equally important role in this process as they can reveal the strengths of the academic achievements of the applicant. We recommend three letters, although none are required. Letters should be submitted through the LSAC letter of recommendation service.
- We encourage applicants to submit a Resume, as they highlight for the admissions committee a broader view of your achievements.
- In addition to a bar examination, there are character, fitness, and other qualifications for admission to the bar in every U.S. jurisdiction. Applicants are encouraged to determine the requirements for any jurisdiction in which they intend to seek admission by contacting the jurisdiction. Addresses for all relevant agencies are available through the National Conference of Bar Examiners.

In order to graduate, a student pursuing a JD must complete 88 credits, including the following:

- A prescribed first-year curriculum (Contracts, Criminal Law, Legislation and Regulation, Torts, Civil Procedure, Constitutional Law, Lawyering (not applicable to students entering in the Fall 2013 or 2014), Property, and Legal Analysis and Writing as well as attendance at a minimum of six programs in the Pitt Law Academy speaker series)
- The upper-level writing requirement
- A course in Legal Profession
- Two credits in a course designated as satisfying the professional skills requirement
- The one-credit Foundations of Legal Research course
- A course designated as satisfying the international/comparative law requirement
- A course designated as satisfying the writing ("W") requirement

Additional graduation requirements apply for those students whose grade point averages place them in the bottom 15% of their class at the end of their first or second year. The upper-level writing requirement and other academic requirements are described in the Academic Rules and Graduation sections of the School of Law's web site.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.
First-Year Curriculum

The first-year curriculum is comprised of the following required courses, as well as attendance at a minimum of 6 programs in the Pitt Law Academy:

**Fall:**
- LAW 5020 - CONTRACTS
- LAW 5046 - CRIMINAL LAW
- LAW 5720 - LEGAL ANALYSIS AND WRITING
- LAW 5032 - LEGISLATION AND REGULATION
- LAW 5028 - TORTS

**Spring:**
- LAW 5033 - CIVIL PROCEDURE
- LAW 5076 - LEGAL ANALYSIS AND WRITING
- LAW 5024 - PROPERTY

**Year Long Program**
- LAW 5061 - PITT LAW ACADEMY

Law - Tax Law Program

The Area of Concentration in Tax Law is intended to provide students with a solid foundation in tax law that can be used either to enter a career in tax law, as a basis for pursuing further study in tax law, or as an adjunct to a career in another area of law. Tax law is unique in that it intersects with every area of the law—from energy and environmental law to corporate law to health law to personal injury law, just to name a few examples. Knowledge of tax law is thus important whether one wishes to specialize in tax law or whether one wishes to gain a deeper knowledge of tax law to improve skills in another area of law (e.g., in advising corporations, partnerships, and other businesses).

Students may pursue this concentration by taking a foundational course in tax law, six credits of elective courses, and three credits of skills-based courses.

Area of Concentration

All students must follow the JD degree requirements in order to graduate. To qualify for this concentration, the Tax Law Area of Concentration requires a minimum of 13 credits. The requirements for the program are divided into three categories—foundational, elective, and skills. Students must take a foundational course in tax law, 6 credits from among the listed elective courses, and 3 credits from among the listed skills courses.

**Foundational Course (Required)**
- LAW 5105 - FEDERAL INCOME TAXATION

**Elective Courses (6 credits required)**
- LAW 5817 - CORPORATE TAXATION
- LAW 5371 - PARTNERSHIP TAXATION
- LAW 5259 - ESTATE AND GIFT TAX
- LAW 5841 - INTERNATIONAL TAX *
- LAW 5325 - FEDERAL TAX PRACTICAL & PROCEDURE
- LAW 5355 - NON-PROFIT ORGANIZATIONS
- LAW 5273 - STATE AND LOCAL TAX
- LAW 5511 - TAX LAW & POLICY SEMINAR
- LAW 5931 - PITTSBURGH TAX REVIEW

**Skills Component (3 credits required)**
- LAW 5425 - LOW-INCOME TAX CLINIC
- Tax Law Moot Court Competition
- LAW 5955 - D.C. EXTERNSHIP
* may be alternately used as a Skills Component

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Joint Degree

Law and Arts Management (Carnegie Mellon), JD/MAM

The University of Pittsburgh School of Law and Heinz College offer a joint degree program designed to train students for careers in which arts management and law overlap. This program, spanning four years, prepares you for careers in which arts management and law overlap. You must satisfy both schools' degree requirements, but some credit is given by each school for completing the other school's program.

The joint degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

Law Arts Management Requirements

The Heinz School of Public Policy and Management and the Law School have different degree requirements. Carnegie Mellon courses are counted in units and University of Pittsburgh courses are counted in credits. A 12-unit course is the equivalent of a 4-credit course. To fulfill the program requirements for the Law School, students have to complete 88 credits while the Heinz School requires 198 units for the MAM degree. Students in the joint degree program are able to transfer 30 units to the Heinz School degree after completing their JD degree and 14 credits to the JD degree after completing their MAM degree.
Students are required to register for a minimum of one class per semester at Heinz College during years 3 and 4 in order to qualify for the transfer of credits between institutions. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Before selecting courses for each program, students are required to meet with their Academic Advisors at both programs to map out a course of study. In addition to the course work for both programs, Heinz School students are required to complete a summer internship after their first year at the Heinz School. Students can receive assistance from the Career Services Office in securing an internship.

Since degrees in the joint programs are awarded concurrently, it is important to note that a student who resigns from one program will be subject to all the requirements for graduation from the remaining degree program.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Bioethics, JD/MA

JD/MA, University of Pittsburgh School of Arts and Sciences and the Center for Bioethics and Health Law

The School of Law and the School of Arts and Sciences (A&S) offer a joint degree program in law and bioethics. Graduates of the program receive the Juris Doctor (JD) degree, the basic professional degree in law, and the Master of Arts (MA) degree from FAS, in bioethics. The joint degree program is directed by Alan Meisel, JD, in cooperation with Lisa S. Parker, PhD, who directs the interdisciplinary Master of Arts in Bioethics.

The joint degree program has been established in recognition of the extensive and increasing overlap between law and bioethics. The objective of this educational program is to prepare graduates with an interdisciplinary background in law and bioethics so they can address those issues and situations that require knowledge of and expertise in both. Graduates will be academically prepared for professional roles as bioethicists in health care institutions, in public policy working for government or philanthropic organizations, or in the practice of law, for example, giving counsel to health care institutions.

Contact Information

University of Pittsburgh School of Law
Professor Alan Meisel
3900 Forbes Avenue
Pittsburgh, PA 15260
(412) 648-7120
meisel@law.pitt.edu

Requirements

The sequence of the curriculum is designed to allow students maximum flexibility. Students may either take the entire first-year School of Law curriculum intact, or they may take one bioethics course - Theoretical Foundations of Applied Ethics - in place of Criminal Law (which would then be taken in their second year of law school). Students should discuss this plan of study with Prof. Alan Meisel, Director of this joint program.

Writing Requirements

The writing requirements for both degrees are simultaneously satisfied by completion of the master's thesis requirement in a subject in the field of law and bioethics.

Practica
The Clinical Practica ensure that students will be comfortable in and knowledgeable about the clinical setting by learning how to identify the normative issues in clinical cases and to be able to give practical advice regarding difficult bioethical dilemmas. Students are scheduled for six credits of clinically-based work, which may be reduced to three for students with previous health care training. In Clinical Practica I and II students acquire familiarity with the clinical setting by

- rounding in specified services with residents, attending physicians, and other health care professionals, including one night on call per service
- participating in twice weekly seminars on medical sociology and clinical ethics and to fulfill those seminar requirements of reading, writing, discussion, and case presentations
- observing ethics consultations and clinical ethics teaching sessions
- completing a self-paced programmed text covering basic medical terminology

In Clinical Practicum II, students participate in an intensive four-week rotation in the clinical area of their choice, allowing in-depth development in an area of clinical medicine. Students should relate this intensive clinical experience to their thesis topic.

In addition to meeting the specifically required coursework for the JD degree and the MA degree, students will select electives from among an array of courses available in the two separate degree programs and in other parts of the University. For an up-to-date list of law school courses considered to be especially appropriate for students in this joint degree program, students should consult the courses listed as electives for the Health Law Certificate Program.

Students in the joint law and bioethics program will ordinarily fulfill the requirements of the Health Law Certificate Program in the law school and may obtain this certificate concurrent with the joint degree.

Advising

Students are required to consult with the Director of the Joint Degree Program during or prior to the spring registration period each year in order to assure that they meet all requirements of the Joint Degree program.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in this joint degree program unless they limit the number of credits from outside the Law School that count toward their JD degree to no more than 12. See New York Rules of Court § 520(c)(5).

Credits

Students enrolled in the joint degree program accomplish in three to four years what would take four or more years if the two degrees were obtained separately. The total required number of credits 100, as compared with 118 credits if the two degrees were taken separately. The 100 credits include 34 credits of specifically prescribed* law courses, the Bioethics and Health Law Clinical Practicum (3 credits), and 18 specifically prescribed credits in bioethics. Within the remaining 45 credits, students must satisfy requirements for their law degree, take a course from the list of Restricted Elective courses for the bioethics degree, and take at least 3 credits in a course relevant to bioethics (either in the law school or not).

Taken as a joint degree program, the two degrees are ordinarily earned in 7 semesters and one summer.

During at least 5 semesters, joint degree students must be coded by the University Registrar as "primary law." During these semesters, they pay tuition at the Law School rate. They must enroll in at least 10 credits of law school courses.

Specifically Prescribed Law Courses

- LAW 5020 - CONTRACTS
- LAW 5046 - CRIMINAL LAW
- LAW 5720 - LEGAL ANALYSIS AND WRITING (Fall Term)
- LAW 5076 - LEGAL ANALYSIS AND WRITING (Spring Term)
- LAW 5028 - TORTS
- LAW 5033 - CIVIL PROCEDURE
• LAW 5032 - LEGISLATION AND REGULATION
• LAW 5024 - PROPERTY
• LAW 5061 - PITT LAW ACADEMY (Fall Term)
• LAW 5062 - PITT LAW ACADEMY (Spring Term)
• BIOETH 2604 - CLINICAL PRACTICUM 1
• BIOETH 2904 - MA THESIS IN BIOETHICS
• BIOETH 2606 - CLINICAL PRACTICUM 2
• BIOETH 2664 - BIOETHICS
• BIOETH 2658 - PHILOSOPHY OF MEDICINE
• BIOETH 2661 - THEORETICAL FOUNDATIONS

Additional credits to complete the graduation requirement may include courses service as a bioethics restricted elective or a bioethics elective.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Business Administration (Carnegie Mellon), JD/MBA

The daily interaction of Law and Business in our society presents attorneys, entrepreneurs, and other professionals with a diverse set of challenges arising from public and private institutions, policies, and practices. A joint degree program can provide valuable interdisciplinary skills to tackle these challenges. To prepare the next generation of leaders, the University of Pittsburgh School of Law offers an outstanding joint degree program in Law and Business with a unique option.

Students may combine a Juris Doctor (JD) degree with a Master in Business Administration (MBA) from Carnegie Mellon University Tepper School of Business, which is in the top 20 of all U.S. business schools according to the the U.S. News rankings. The JD/MBA program enables students to receive integrated training in Law and Business while reducing the amount of time ordinarily necessary to earn the two degrees from five years to four years.

Requirements

Students in the JD/MBA program complete the joint degree in either eight (8), nine (9), or ten (10) semesters. During the first four (4) semesters of the program, students must enroll full-time for one (1) entire year at the School of Law and for one (1) entire year at the appropriate School of Business. Students have an option of enrolling either at the School of Law or the School of Business for the first-year of the program. During the third- and fourth-years of the program students enroll in courses at both schools, subject only to availability and each school's respective upper-level requirements. To graduate from the Law School, students in the JD/MBA program must have five semesters of full-time enrollment (minimum of 10 credits per semester) at the Law School (rather than the six that is normally required).

School of Law

Details about the first-year program at the School of Law can be found on the First-Year Curriculum page. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Tepper School of Business

To graduate with a JD/Tepper MBA degree students must acquire a total 88 credits from the School of Law and 64 credits (or 192 units) from Tepper. However, completing the MBA degree entitles the student to 15 credits of advanced standing at the School of Law, resulting in an actual total of 73 credits; and completing the JD degree entitles the student to 10 credits (or 30 units) at Tepper, resulting in an actual total of 54 credits (or 162 units). This means that, after a year at the School of Law and a year at Tepper, a student must acquire at least 40 additional credits from the School of Law and 22 credits (or 66 units) in electives from Tepper to graduate with a JD/MBA.
For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in a joint degree program that entitles the student to more than 12 credits of advance standing at the Law School (i.e., the JD/MBA with the Tepper School of Business). See New York Rules of Court § 520.3(c)(5).

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Business Administration, JD/MBA

The daily interaction of Law and Business in our society presents attorneys, entrepreneurs, and other professionals with a diverse set of challenges arising from public and private institutions, policies, and practices. A joint degree program can provide valuable interdisciplinary skills to tackle these challenges. To prepare the next generation of leaders, the University of Pittsburgh School of Law offers an outstanding joint degree program in Law and Business with a unique option.

Students may combine a Juris Doctor (JD) degree with a Master in Business Administration (MBA) from the University of Pittsburgh Katz Graduate School of Business, which is in the top 30 of U.S. public business schools according to the U.S. News rankings. The JD/MBA program enables students to receive integrated training in Law and Business while reducing the amount of time ordinarily necessary to earn the two degrees from five years to four years.

Requirements

Students in the JD/MBA program complete the joint degree in either eight (8), nine (9), or ten (10) semesters. During the first four (4) semesters of the program, students must enroll full-time for one (1) entire year at the School of Law and for one (1) entire year at the appropriate School of Business. Students have an option of enrolling either at the School of Law or the School of Business for the first-year of the program. During the third- and fourth-years of the program students enroll in courses at both schools, subject only to availability and each school's respective upper-level requirements. To graduate from the Law School, students in the JD/MBA program must have five semesters of full-time enrollment (minimum of 10 credits per semester) at the Law School (rather than the six that is normally required).

School of Law

Details about the first-year program at the School of Law can be found on the First-Year Curriculum page. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Katz School of Business

To graduate with a JD/Katz MBA degree students must acquire a total of 76 credits from the School of Law and 39 credits from Katz. This means that, after a year at the School of Law and a year at Katz, a student must normally acquire at least 43 additional credits from the School of Law and 3 credits from Katz to graduate with a JD/MBA.

More information can be found on their website.

For Students Interested in Practicing in New York
Please be advised that students who wish to be admitted to practice in New York should not enroll in a joint degree program that entitles the student to more than 12 credits of advance standing at the Law School (i.e., the JD/MBA with the Tepper School of Business). See New York Rules of Court § 520.3(c)(5).

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Information Security Policy (Carnegie Mellon), JD/MSISPM

Building on their longstanding and successful partnership, the University of Pittsburgh School of Law and Heinz College offer a joint degree program designed to train students for careers in which management, information security, and law overlap. This joint degree offering is particularly beneficial to many students’ careers because legal considerations affect many management and policy decisions, and the practice of law is enhanced by a clear understanding of the policy and security concerns facing the public, private, and nonprofit sectors. Participants in the program will emerge with a broad knowledge of the fundamental intersections of law, government, privacy and information security, and management. The fields of cybersecurity, information privacy, intellectual property law, cybercrime, and other IT-related sectors are growing rapidly. There are many job opportunities in this emerging space. Many of those jobs have legal dimensions and will be filled by people with legal training. Graduates of the joint degree program will be better prepared to compete for those jobs and to succeed in them because of their broader, interdisciplinary training. Furthermore, the interdisciplinary nature of this program allows for practical skill sets to solve economic and social problems that require technological, managerial, and legal expertise.

The joint-degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

**Law and International Affairs, JD/MPIA**

This program provides rigorous, integrated training for students preparing for a professional career that combines law and public and international affairs. Increasingly, lawyers in the public and nonprofit private sectors work in managerial and policy-making capacities for which legal training alone does not prepare them. At the same time, legal considerations impinge more than ever on the work of public managers and planners, although most of them have had no exposure to legal training. Students in the joint-degree program gain a broadened knowledge base and a cross disciplinary approach to solving problems involving the intersection of law, policy, and management. They also develop more marketable professional skills than are usually acquired through single-degree programs. Professionals trained in both law and public and international affairs thus enjoy expanded career opportunities. The University of Pittsburgh's program is unique because of the range of master's degree options available.

Students in the MPIA degree program pursue majors in Global Political Economy or Security and Intelligence Studies. Students interested in international development have a choice of two major fields, which include Development Planning and Environmental Sustainability or Non-Governmental Organizations (NGOs) and Civil Society.

Curriculum & Requirements

The structuring of this four-year degree program is flexible. A student may begin study in either school. The only requirement in this connection is that the first year in the School of Law be taken in its entirety, with no outside courses. GSPIA also expects joint-degree program students to complete the required master's degree core courses early in their program in GSPIA.

Degrees in the joint-degree program are awarded concurrently. Therefore, it is important to note that a student who resigns from one program and elects to remain in the other will be subject to all the requirements of that particular degree program. The previously described arrangement for awarding advanced-standing credits will no longer be in effect.

Each student must satisfy both schools' requirements as modified by participation in the joint-degree program. The credit requirements are as follows:

<table>
<thead>
<tr>
<th>Program</th>
<th>Joint Degree Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Juris Doctor (JD)</td>
<td>79 Credits</td>
</tr>
<tr>
<td>Master of Public and International Affairs</td>
<td>36 Credits</td>
</tr>
<tr>
<td>Total Credits for Joint Degree</td>
<td>115 Credits</td>
</tr>
</tbody>
</table>

Law and Public Health, JD/MPH

The Graduate School of Public Health, Health Policy & Management and the School of Law at the University of Pittsburgh offer a cooperative educational program, through which students may earn both the Juris Doctor (JD) degree, the first professional degree in law, and the Master of Public Health (MPH) degree, the primary professional degree in public health. Students have the option of selecting between two areas of concentration pursuing their MPH degree: health policy and management or public health sciences. The joint-degree program has been established in recognition of extensive and increasing connections between law and the broad range of health services, both public and private, in the United States.
The objective of this specialized educational program is to provide graduates with an inter-disciplinary education to prepare them to address issues and situations that affect personal and public health. Graduates of this joint-degree program are academically prepared for the practice of law with private clients, serving as house counsel with health organizations and systems, and as attorneys representing state, county and local health departments. The threat of bioterrorism and the need to balance both individual rights and public protection in establishing public health preparedness has made public health law an even more vital professional focus for attorneys.

For Additional Information

For information regarding entrance examinations, tuition and financial aid, writing requirements and field experience, please visit the GSPH website.

Requirements

Students enrolled in the joint-degree program receive integrated training in law and public health. Students must complete 37 credits in the MPH curriculum, and 8 JD credits will be applied toward the MPH degree in order to meet the required 45 credits for the MPH degree. Students must complete 76 credits in the JD curriculum, and 12 MPH credits will be applied toward the JD degree in order to meet the required 88 credits for the JD degree. The first year of law school must be completed in a single academic year before embarking on studies in public health. Neither degree may be granted prior to the fulfillment of all requirements for the joint-degree program.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

Law and Public Policy and Management (Carnegie Mellon), JD/MSPPM

The University of Pittsburgh School of Law and Heinz College offer a joint-degree program designed to train students for careers in which management, public policy and law overlap. A successful partnership that has been in existence for over a decade, this program offers students a comprehensive education that marries the analytic and quantitative strength of the Heinz School with the rigorous legal training afforded by the School of Law. This joint degree offering is particularly beneficial to many students’ careers since legal considerations affect many public management and policy decisions, and the practice of law is enhanced by a clear understanding of public policy and management concerns. Participants of the program emerge with a broad knowledge of the fundamental intersections of law, government, policy analysis and management. Furthermore, the interdisciplinary nature of this program allows for practical skill sets to solve economic and social problems that require technological, managerial, and legal expertise.
The joint-degree program is designed to be completed in eight semesters over four academic years instead of the five years required if pursued separately. Students interested in the joint degree program can pursue both programs simultaneously. During the first year, students study at either the Heinz School or the School of Law, taking the standard first-year curriculum of the respective school. The second year involves full-time study at the other school. For the third and fourth years, students take courses at both schools. In order to graduate with both degrees, students have to fulfill both schools' degree requirements.

Curriculum & Requirements

The Heinz School of Public Policy and Management and the Law School have different degree requirements. Carnegie Mellon courses are counted in units and University of Pittsburgh courses are counted in credits. A 12-unit course is the equivalent of a 4-credit course. To fulfill the program requirements for the Law School, students have to complete 88 credits while the Heinz School requires 198 units for the MSPPM degree. Students in the joint degree program are able to transfer 30 units to the Heinz School degree after completing their JD degree and 14 credits to the JD degree after completing their MSPPM degree.

Students are required to register for a minimum of one class per semester at Heinz College during years 3 and 4 in order to qualify for the transfer of credits between institutions. A full listing of the requirements for graduation from the University of Pittsburgh School of Law can be found on the Graduation Requirements page.

Before selecting courses for each program, students are required to meet with their Academic Advisors at both programs to map out a course of study. In addition to the course work for both programs, Heinz School students are required to complete a summer internship after their first year at the Heinz School. Students can receive assistance from the Career Services Office in securing an internship.

Since degrees in the joint programs are awarded concurrently, it is important to note that a student who resigns from one program will be subject to all the requirements for graduation from the remaining degree program.

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.
Law and Social Work, JD/MSW

The School of Social Work (SSW) and the School of Law offer a cooperative educational program through which students may earn both the Master of Social Work (MSW), the primary professional degree in social work, and the Juris Doctor (JD) degree, the first professional degree in law. The MSW-JD program will enable students with interests in a wide range of areas where law and social work converge - such as child welfare, aging, health, mental health, juvenile and criminal justice, family issues, and housing - to engage in a highly integrative educational experience that will include academic courses, field placements, and research opportunities at the intersection of both professions. The joint degree program allows one to earn both degrees in four years rather than five.

Increasingly, social work professionals and attorneys are working together to promote the well-being of their clients. These areas of convergence exist in practice with individuals, families, and groups as well as with communities and organizations. The intersection of legal and social work concerns is also evident at the policy level, and research from both professional disciplines has been used to inform these activities. It is not uncommon for practitioners from both fields to work in concert to draft, implement, and/or advocate for legislation at the local, state, and federal levels.

The MSW-JD program is one among several programs that the Schools of Social Work and Law have jointly established throughout their long and rich history of collaboration.

Professor Jeffrey Shook, MSW, JD, PhD
2117 Cathedral of Learning
Pittsburgh, PA 15260
(412) 648-9365
jes98@pitt.edu

Requirements

Students enrolled in the joint degree program will receive integrated training in social work and law over a four year period. The combined credit-hour requirements for the MSW and JD degrees obtained separately is 148 credits (60 for the MSW, usually completed in four full-time semesters, and 88 for the JD, usually completed in six full-time semesters). In the joint degree program, the two degrees are awarded for a combined total of 121 credits (46 in Social Work and 75 in Law). This reduction in credit-hour requirements is achieved through the acceptance of up to 14 credit hours of JD course work receiving a grade of C or higher toward the MSW degree and the acceptance of up to 13 credit hours of MSW work receiving a grade of B or higher toward the JD degree. All didactic foundation SW courses must be completed in a single academic year; likewise, all first-year JD courses must be completed in a single academic year. Neither degree may be granted prior to the fulfillment of all requirements for the joint degree program.

For Students Interested in Practicing in New York

Please be advised that students who wish to be admitted to practice in New York should not enroll in a joint degree program that entitles the student to more than 12 credits of advance standing at the Law School (i.e., the JD/MSW with the School of Social Work). See New York Rules of Court § 520(c)(5).
Integrative seminar

All students must complete an Integrative Seminar, to be jointly presented by the School of Social Work and Law School, during each Fall and Spring semester of their enrollment in the MSW-JD program. The integrative seminar will meet twice each Fall and Spring semester. The goal of the seminar will be to allow students the space to discuss issues related to integration and to listen to and have a dialogue with outside speakers who have integrated law and social work in their practice, research, and/or teaching.

Required electives in the Law School

Students must complete at least 2 courses from the Law School menu of MSW-JD "required electives."

Note

For detailed term-specific course descriptions, please go to the Schedule of Classes Course Lists on the Law School web site.

School of Law Faculty

Full Time

Jessie Allen, Associate Professor of Law
JSD, Columbia University School of Law
JD, Brooklyn Law School

Kevin D. Ashley, Professor of Law
JD, Harvard Law School

Elena A. Baylis, Associate Professor of Law
JD, Yale Law School

Deborah L. Brake, John E. Murray Faculty Scholar and Professor of Law
JD, Harvard Law School

Ronald A. Brand, Professor of Law
Academic Director, CILE
Chancellor Mark A. Nordenberg University Professor and John E. Murray Faculty Scholar
JD, Cornell University

Glasley M. Branson, W. Edward Sell Professor of Business Law
LL.M, University of Virginia
JD, Northwestern University

Ben Bratman, Professor of Legal Writing
JD, Vanderbilt University Law School

Teresa Kissane Brostoff, Professor of Legal Writing
JD, University of Pittsburgh

Tomar Brown, Clinical Assistant Professor of Law
Director - Health Law Clinic
JD, Case Western Reserve University School of Law, 2006
LL.M, University of the District of Columbia, David A. Clarke School of Law
Nancy M. Burkoff, Associate Professor of Legal Writing
Associate Dean for Academic Affairs
JD, University of Pittsburgh

John M. Burkoff, Professor of Law
LL.M, Harvard University
JD, University of Michigan

William M. Carter, Jr., Professor of Law
Dean of the University of Pittsburgh School of Law
JD, Case Western Reserve University School Of Law, 1998, Magna Cum Laude, Order of the Coif

Pat K. Chew, Judge J. Quint Salmon and Anne Salmon Chaired Professor
JD, University of Texas
M.Ed, University of Texas

Mary Crossley, Professor of Law
JD, Vanderbilt University

School of Medicine

The mission of the University of Pittsburgh School of Medicine is to improve the health and well-being of individuals and populations through cutting-edge biomedical research, innovative educational programs in medicine and biomedical science, and leadership in academic medicine. We strive to implement this mission with the highest professional and ethical standards, in a culture of diversity and inclusiveness, and in an environment that enables each individual to develop to his or her fullest potential.

School of Medicine Faculty

First Professional Program (MD)

The mission of the University of Pittsburgh School of Medicine is to improve the health and well-being of individuals and populations through cutting-edge biomedical research, innovative educational programs in medicine and biomedical science, and leadership in academic medicine. We strive to implement this mission with the highest professional and ethical standards, in a culture of diversity and inclusiveness, and in an environment that enables each individual to develop to his or her fullest potential.

UPSOM has a well-developed curricular infrastructure that combines a lecture- and problem-based curriculum with early and in-depth clinical experiences and an integrated organ systems approach to the preclinical sciences. The clinical years are characterized by an integrated clerkship structure and an emphasis on student flexibility.

The current UPSOM curriculum was implemented in 2004 and features active, participatory learning; a problem-based approach; an early introduction to the patient and the community; and the integration of a rigorous foundation in basic and clinical biomedical sciences with the social and behavioral aspects of medicine. Key subject matter is longitudinally integrated throughout the curriculum, building upon a foundation of prior learning while providing a level-appropriate and well-synchronized introduction of new content.

Scheduled instructional time in the first two years of the curriculum is apportioned approximately as one-third lecture; one-third small group learning (much of which is problem-based learning; the remainder includes demonstrations, faculty-directed problem-solving exercises, skill-practice sessions, and other activities); and one-third activities (which includes observation of and appropriate participation in patient care, community-site visits, experiences with standardized patients, high-fidelity simulations, laboratory exercises, and other activities). Student achievement of course objectives is supported by a host of technologies, including the online curriculum and podcasts. A longitudinal performance-based assessment program provides formative support as students hone their clinical skills.

The patient focus of the UPSOM curriculum begins on day one, in the Introduction to Being a Physician course. Students interview patients about their experience of illness and experiences with their physicians, to develop an understanding of their roles as medical professionals. Medical interviewing and physical examination courses follow, along with exercises examining the many facets of physician life-in society, ethical and legal settings, and at the patient bedside.

Throughout the first two years, students apply their new skills in local practices and hospitals one afternoon per week. The Basic Science block runs through three-fourths of the first year and provides language and concepts that underlie the scientific basis of medical practice. Organ Systems block courses integrate physiology, pathophysiology, pharmacology, and introduction to medicine with concurrent courses in the Introduction to Patient Care and Patient, Physician and Society blocks. Weekly discussions, patient interviews, and examination of hospitalized patients reinforce essential clinical skills.

The third-year curriculum consists of ten required clerkships. They are designed to optimize the balance between out-of-hospital and inpatient learning opportunities, eliminate unintentional curriculum redundancy, and optimize opportunities for student-designed curricula in the junior and senior years. The third year is punctuated by three one-week clinical focus courses.

Every student engages in a mentored scholarly project conducted longitudinally throughout the four-year curriculum. Completion and presentation of the scholarly project is due in the spring of the senior year and is a requirement for graduation. Students pursue their projects through several program options, which may include areas of specialization. An innovative system of web-based learning portfolios facilitates learner-mentor communication and enriches the possibilities for collaboration within and beyond the University.
Many key topics are integrated throughout the curriculum as longitudinal themes. These topics include communication skills; cultural competence; critical thinking skills; geriatric medicine; evidence-based medicine; interprofessional education and team communications; palliative care; population medicine and public health; prevention; professionalism; public health preparedness; and substance abuse.

The information above details the school's MD program.

Requirements for Admission

Admission Process

The admissions process is described in great detail on the Office of Admissions and Financial Aid web site.

The by-laws of the Admissions Committee specifically state the school's criteria for selecting students for admissions. The by-laws are reviewed and updated at the year-end business meeting of the UPSOM Admissions Committee.

Financial Aid

Financial aid for medical students is available in the form of scholarships, need-based grants, and loans (federal, private, and institutional resources). For maximum consideration of all resources, students should complete the "Need Access Application" and the Free Application for Federal Student Aid (FAFSA). These applications should include the student's information, his/her spouse's information (if applicable), and his/her parents' information. Signed copies of federal tax returns (for student/spouse and parents) must be provided to the financial aid office. Aid is awarded on the basis of financial need, as determined from the financial aid applications and supporting documentation.

Newly admitted students should apply no later than either one month after acceptance or by April 1 to ensure that an award letter is provided prior to the national decision date of April 30th.

Upperclassman should provide all required information no later than April 16. The Free Application for Federal Student Aid (FAFSA) should be submitted prior to April 1 to ensure results are available prior to the deadline.

Students who do not wish to provide parental information are still considered for Federal Stafford loans, Federal Graduate PLUS loans, and private loans; these students should complete the FAFSA and provide a signed copy of their federal tax return.

The financial aid process is described in detail on the Office of Financial Aid's website.

Academic Standards

The University of Pittsburgh School of Medicine offers a centrally governed, integrated, interdisciplinary curriculum that emphasizes problem solving and self-directed learning. The academic year is in session between 10 and 12 months, depending on the level of study. Academic calendars specific to each year can be found on the Office of Medical Education's web site. The first three years is a set curriculum and the fourth year is a
combination of both set and elective offerings. To be considered to be making satisfactory academic progress, the student must complete the first two years of the curriculum by the end of the third year after initial enrollment. The full text of the guidelines for student promotion can be found in the medical student handbook on the Office of Student Affairs web site. Students are governed by an Honor Code, which seeks to support and sustain respect for each other as well as for patients. The full text of the Honor Code can be found in the student handbook.

Grading

The UPSOM makes use of a 2 tiered grading system.
The first two years of the curriculum are graded as Satisfactory/Unsatisfactory.
The last two years are graded using a five point narrative grading system that includes Honors, High Satisfactory, Satisfactory, Low Satisfactory and Unsatisfactory grades.

Degree Requirements

To receive the MD degree, students must:

1. Successfully complete curricular requirements for each of the four years.

First year: Courses in basic science including medical anatomy, cellular and pathologic basis of disease, human genetics, fuel metabolism, immunology in health and disease, medical microbiology; organ systems including pharmacology, neuroscience, introduction to psychiatry; scientific reasoning in medicine including introduction to medical decision making and methods and logic in medicine; patient, physician and society courses including introduction to being a physician; ethics, law, and professionalism, behavioral medicine, and the introduction to patient care courses.

Second year: Course work in organ systems including body fluid homeostasis, digestion and nutrition, hematology, endocrine, reproductive and developmental biology, skin and musculoskeletal diseases, pharmacology, and integrated case studies; methods and logic in medicine, population health, and introduction to patient care courses.

Third year: Rotations in inpatient medicine; family medicine; inpatient pediatrics; obstetrics and gynecology; clinical neurosciences (psychiatry and neurology); surgery and anesthesiology; and outpatient experiences in pediatrics; medicine; emergency medicine; otolaryngology; and ophthalmology. The third and fourth year schedule is viewed as a continuum and designed so students may enroll in clinical or research electives at any time during the third or fourth years.

Fourth year: An acting internship in either internal medicine, pediatrics, family medicine or surgery; four weeks of an integrated life science course of the student's selection; and eight to nine months of clinical and/or research elective experiences.

2. Pass the United States Medical Licensing Examination, both Steps 1 and 2 (CK and CS).

3. Meet accepted standards of professional conduct and emotional stability.

Degree Options

In addition to the MD program, the UPSOM offers a structured MD/PhD dual degree program, an MD/MA in Bioethics, a certificate program in Clinical Research, and a five–year non-degree–granting program for physician-scientists.

Bioethics, MD/MA

Students enrolled in the University of Pittsburgh School of Medicine may elect to earn the Master's Degree in Bioethics in conjunction with their medical degree. This allows the MA degree to be earned in an accelerated program, taking a year away from the MD program, usually between the
second and third years of medical school. During this year, the student will follow the University calendar for the fall and spring terms. The calendar is available at the Office of the University Registrar's Web site. For additional information about the MD/MA degree consult the program's Web site.

Clinical Science Training Program, MD/MS

A structured five--year degree program for eligible Clinical Scientist Training Program (CSTP) scholarship recipients. This program allows students to pursue a Master of Science in Clinical Research during a one year leave of absence from medical school, typically this is taken between years three and four before returning to complete their MD degree. The majority of the Master of Science degree requirements are met during this year. A detailed curricular calendar that contains the degree requirements can be found on the program's Web site. For additional information, consult the program's Web site.

Medical Scientist Training Program, MD/PhD

The Medical Scientist Training Program (MSTP) offers exceptionally talented individuals the opportunity to undertake a physician-scientist training program tailored to their specific research interests. Our primary directive is to create future biomedical investigators by providing the highest quality graduate medical training. This program offers a range of special services and opportunities to facilitate the completion of a dual degree (MD/PhD). In addition to efficiency, the close integration of clinical and basic science training better reflects the future careers of biomedical scientists. Information regarding the application process can be found on the MSTP web site.

The MSTP program has many unique aspects of the curriculum, designed to integrate MSTP education through courses such as molecular medicine, the research basis of medical knowledge, professional development, ethics, and longitudinal clinical clerkships. MSTP students begin training to become physician-scientists from the very first week, and are well advised about possible courses and research opportunities. Descriptions of additional MSTP courses are available on the MSTP website under Additional Courses.

Given the breadth of research and clinical programs available in the MSTP, it is impossible to define a single path to the combined degree. Nevertheless, the timeline available on the program's web site is an example of the efficiency gained by a well-integrated program.

Physician Scientist Training Five-Year Non-Degree Program

The Physician Scientist Training Program (PSTP) at the University of Pittsburgh School of Medicine is a five-year tuition assistance non-degree granting program through which students with a strong research interest and background can start to build careers as physician scientists. The program involves paid research rotations during the summer before and after the first year of medical school, and a paid research year between the second and third years of medical school. The PSTP program has an enrichment curriculum of research-oriented classes for its participants and provides close career mentoring and research mentoring throughout. Medical school tuition is partially covered while students matriculate through the program. Throughout the program, students will follow the medical school calendar for the fall and spring terms. The calendar is available at the Office of Medical Education's Web site. For more information consult the program's Web site.

Graduate Programs

The University of Pittsburgh School of Medicine has a long tradition of research excellence and training by world-class faculty committed to mentoring the next generation of scientists. The School of Medicine offers a variety of programs leading to the Doctor of Philosophy, the Master of Science, or a certificate. In addition, it works with other schools of the University through collaborative graduate programs. The School of Medicine also offers an MD degree as well as a joint MD/PhD program enabling exceptionally able students to earn both degrees simultaneously. These programs are described in the First Professional Program section of the School of Medicine catalog.

Degree Requirements

In addition to School of Medicine requirements, all University requirements as detailed in the Regulations Governing Graduate Study at the University of Pittsburgh section of this catalog apply.

Graduate Programs (PhD, MS, Certificate)

Biomedical Informatics (PhD, MS, Certificate)

Biomedical Sciences (MS)

Computational Biology (PhD)

Institute for Clinical Research Education

Clinical & Translational Science (PhD)
Clinical Research (MS, Certificate)
Comparative Effectiveness Research (Certificate)
Medical Education (MS, Certificate)

Integrative Systems Biology (PhD)

Interdisciplinary Biomedical Graduate Program

Cell Biology & Molecular Physiology (PhD)
Cellular & Molecular Pathology (PhD)
Immunology (PhD)
Molecular Genetics & Developmental Biology (PhD)
Molecular Pharmacology (PhD)
Molecular Virology & Microbiology (PhD)

Molecular Biophysics and Structural Biology (PhD)

Neurobiology/Neuroscience (PhD)

Biomedical Informatics (PhD, MS, Certificate)

Biomedical informatics is the science and engineering of information handling in health care delivery and biomedical research, studying and developing models of the various aspects of health care delivery and biomedical research in order to better understand how they operate. Those models suggest interventions that may improve health care delivery and biomedical research, including new methods for capturing, organizing, analyzing, and conveying clinical information to clinicians and researchers. Experiments are performed in which the effect of promising interventions on health care delivery or biomedical research are observed and compared to existing methods, which serve as controls. The analysis of the results of such experiments can lead to greater understanding of health care delivery and biomedical research, and thereby to methods with which to improve them.

Example areas of investigations in biomedical informatics at the University of Pittsburgh include the development and evaluation of new computer-based methods for (1) analyzing proteomic data to diagnosis disease, (2) supporting clinical trials, (3) providing clinical information to patients, (4) understanding the mechanism of diseases from genomic data, (5) natural language processing of electronically available medical text to extract
important clinical features, (6) alerting clinicians when patient care appears atypical, (7) real-time detection and assessment of outbreaks of infectious disease and (8) teaching clinical trainees.

This program offers both master's and doctoral degrees. Most students choose to follow a general course of study in biomedical informatics; some, however, elect a specialization in one of the following areas: bioinformatics, clinical informatics, image informatics, or biosurveillance/infectious disease informatics. The specific curricula for the specializations, which are variations of the general course of study in biomedical informatics, can be found on the Training Program Web site at http://dbmi.pitt.edu.

Individuals who want a less intensive exposure to informatics may seek a 15-credit certificate in lieu of an academic degree. The biomedical informatics certificate can be a means of augmenting professional training in fields related to informatics and/or fulfilling educational needs associated with a professional position. Trainees across all health professions are welcome.

More information on Admissions, Financial Aid, Curriculum, Courses, Degree Requirements, and Faculty, can be found at http://dbmi.pitt.edu.

PhD Requirements

Credits: To earn the PhD degree in biomedical informatics, a student must complete a program of study approved by a committee of biomedical informatics faculty. This program requires must include a minimum of 72 credits consisting of required Foundation Series (9 credits); Research Methods Series (9 credits); Research Skills Series (7 credits); BIOINF 3998 Teaching Practicum (3 credits); electives (9 or more); successful completion of a written preliminary evaluation followed by an oral exam; an MS-level research project involving significant research, design, or development work and a written report; successful completion of a doctoral comprehensive examination composed by a doctoral committee; and research work leading to an acceptable dissertation. All required courses must be taken for a letter grade, with the exception of the Journal Clubs/Colloquiums and some independent and/or dissertations studies (to be determined by the faculty advisors). A minimum "B" grade is required in all graduate courses.

Admission to Candidacy/Dissertation: To qualify for admission to candidacy, a student must have completed formal coursework with a 3.3 GPA or higher, successfully completed the master's level project, passed the comprehensive examination, and received approval of the proposed subject and plan for the dissertations from their dissertation committee following a prospectus meeting. The dissertation committee usually includes the principal dissertation advisor and four additional University graduate faculty (a majority of the committee must be biomedical informatics core faculty).

An appropriate dissertation project involves a substantive piece of original and independent biomedical informatics research, grounded in an appropriate mode of literature and providing a significant contribution to the field. The dissertation must be successfully defended in a public oral defense. The dissertation process will follow the applicable regulations and procedures of the University and the School of Medicine, as described in the Regulations Pertaining to Doctoral Degrees section of this document.

MS Requirements

Credits: The Master of Science in Biomedical Informatics requires a minimum of 36 credits consisting of required biomedical informatics core Foundation Series (9 credits); required computational competency Research Methods Series (6 credits); biomedical informatics distribution Research Skills Series (7 credits minimum); electives (11 or more credits); and Master's Thesis/Project Research (BIOINF 2480 3 or more credits).

All required courses must be taken for a letter grade, with the exception of the Journal Clubs/Colloquiums and some independent and/or dissertation studies (to be determined by faculty advisors). A minimum "B" grade is required in all graduate courses.
Research Project or Thesis: A key element of the program is a research project with two key deliverables: (1) the writing and submission of a paper of publishable quality based upon the research and (2) the completion of an oral examination on its contents. A master's project committee will oversee the student's research progress, including the oral comprehensive examination. Students have the option of developing their projects into a formal master's thesis.

Successful completion of the oral examination on the research project satisfies the comprehensive examination requirement of the University's Committee on Graduate Studies. Final certification of the completion of the master's degree requires submission of the hard copy of the master's research project to the program coordinator.

Certificate Requirements

The biomedical informatics certificate is a 15-credit (minimum) experience. The curriculum of all students in this program will have the following general structure: required Foundation Series (7 credits); electives (minimum 6 credits); and BIOINF 2480 research project (2-3 credits)

Research Project: The research project should be summarized in a report commensurate with its scope, one copy of which must be submitted to the training program coordinator after approval by the student's research advisor.

Additional Requirements for Doctoral, Master's, and Certificate Students in Biomedical Informatics

Instruction in the Responsible Conduct of Research: This Web-based set of instructions and evaluation modules may be accessed at http://www.ctsi.pitt.edu/RCR/index.shtml.

Attendance at and participation in the Department of Biomedical Informatics' invited lectures, symposia, conferences, etc. (particularly the Annual Training Program Retreat and special departmental lectures). Such lectures are considered important educational experiences, as well as introducing students to primary researchers and their work in the field of biomedical informatics.

Biomedical Sciences (MS)

The 2017-2018 academic year is the inaugural year for this new Biomedical Master's Program (BMP). This graduate program is designed to develop critical scientific thinking skills and train students for successful application to professional degree programs in the health sciences. Biomedicine is the centerpiece of the health sciences, interconnecting everything from medicine, dentistry and pharmacy, to clinical and biomedical research. The field of Biomedicine ultimately studies and advances understanding of the human body, how it works in health and how it goes awry in disease. The BMP at the University of Pittsburgh School of Medicine offers educational and experiential training in Biomedicine as preparation for successful careers in the health sciences within a faculty mentored community individualizing each student's success.

Admissions

Admissions Criteria:
• The BMP welcomes candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold a J-1, H1-B, or F1 transfer visa.

• The program is designed for applicants with long-term goals of entering careers in the health sciences, particularly by successful application to MD, DMD, and PhD degree programs.

• Candidates must have distinguished personal qualifications of past academic ability, research efforts or publications, and references. Application requirements include a bachelor's degree with a 3.2 or better GPA and completion of courses required for application to a professional degree program. MCAT, DAT, PCAT, or GRE scores will be considered as well in the prioritization process. Candidates with community service, physician or dentist shadowing, patient volunteering, clinical or basic research experiences will be viewed very favorably.

• Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English Language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 600 (paper) or 100 (iBT), or IELTS score of at least 7.00 is required for admission to the Program. We actively seek qualified applicants from underrepresented minorities and students with disabilities.

Application Process:

• The online application process will start July 2016, with rolling admissions until the class is full, for matriculation in late August 2017. A strong focus on promoting diversity of successful applicants will be employed in the admissions process.

• Admissions are based upon the student's academic record, standardized test scores, letters of recommendation, previous professional or research experience, written statement of interest, and a personal online interview.

• The online application is available at: https://admissions.gradbiomed.pitt.edu

Financial Assistance

Financial guidance is available through the University of Pittsburgh Office of Admissions and Financial Aid: http://oafa.pitt.edu/learn-about-aid/. All students are responsible for their own tuition.

Degree Requirements

All requirements detailed in the Regulations Governing Graduate Study at the University of Pittsburgh will be met. The MS in Biomedical Sciences requires the completion of a minimum of 32 credits with a GPA of 3.0 or higher. Maximum credits allowed per term will be 18, and a typical course load will be 12-15 credits for the fall and spring terms and 6-8 credits for the summer term.

Foundational Components:

The Curriculum. The BMP employs science-based instruction designed to improve student preparation for professional degree programs in medicine, dentistry, pharmacy, and research. The BMP, by emphasizing understanding and how to think in addition to what to know, promotes the development of study habits that enable our students to excel and thrive in the first two years of these demanding professional degree programs. These goals will be achieved through an integrated series of required core courses and elective courses and experiential training opportunities together with dedicated one-on-one advising and mentorship that will enable students to successfully apply to and perform well in his or her chosen professional school.

Experiential Training. The BMP will afford opportunities for experiential training specifically tailored to the strengths and weaknesses of each individual student. The areas selected correspond to the typical aspects considered in the review of standard professional school applications: community service, patient volunteering, physician or dentist shadowing, and research training.

Mentoring. The BMP program will provide one-on-one mentoring to all students. Each student will initially meet with an advisory team (the four BMP Directors and the Mentoring Coordinator) during the initial phase of the program in order to identify strengths and weaknesses of the previous training received by the student. The student and his/her committee will prepare a preliminary set of career goals, identifying areas that require special attention for success in medical school. Periodic assessments of each student's progress towards these goals will follow. The students will
also receive mentoring during the preparation of applications to professional and graduate schools, emphasizing standardized test preparation, and honing interviewing skills, as needed. As the program evolves, each student will be assigned a primary faculty mentor and a mentoring team, comprised of BMP program faculty and staff. The faculty mentor will provide a detailed and personalized letter of recommendation.

Expanding on these three components, the BMP enables the student to differentiate with elective courses and experiential opportunities and mentoring to focus on specialized interests. These so-called Areas of Concentration (AOCs) are in Medicine, Dentistry, or Biomedical Research. The AOCs are designed to individualize the program for students seeking future professional programs leading to the MD, DMD, or PhD degree, respectively.

Successful completion of the BMP results in conferral by the University of Pittsburgh of the Master of Science (MS) degree in the major of Biomedical Sciences. The BMP can be completed in one year or in a more flexible two-year option, but must be completed within two years.

Curriculum

The BMP curriculum includes three major components: core, electives, and experiential activities. A common "core" has been designed to provide the foundational sciences for students who have a minimal level of basic science training as well as advanced education in health science thinking skills to serve students well into the first two years of professional degree programs. These courses are complemented by electives and experiential activities that are chosen on the basis of each student's interests in his/her AOC.

**Core Courses:** Biochemistry and Physiology; Cell Biology Pathways in the Treatment of Disease; Methods and Logic in the Health Sciences; Cell Signaling and Pharmacology; Comprehensive Analysis of Disease; Foundations of Successful Career Planning and Development

**Elective Courses:** Human Anatomy; Histology and Cell Function in Health and Disease; Human Genetics and Genomics in the Health Sciences; Biomedical Literature Research

**Additional Elective Courses:** Additional courses are available through the School of Medicine Molecular Pharmacology and Cell Biology & Molecular Physiology Graduate Programs, and the School of Dental Medicine at the University of Pittsburgh.

**Experiential Courses:** The BMP will provide ample pre-clinical opportunities in community service, hospital volunteering, and physician shadowing. Available opportunities are matched each term to optimize the experiential benefit for all students during their tenure in the program. Research training experiences are also available in a wide range of biomedical and clinical research laboratories. Students are expected to take the initiative, guided by their faculty advisor, to find suitable matches and schedule experiential education and training sessions during the Fall, Spring, and/or Summer terms.

**Training in Ethics:** Ethical conduct and scientific integrity is an essential aspect of the health sciences. The BMP program instructs students on the significance and practice of ethical conduct in an annual workshop.

Academic Standards

Students must maintain a minimum cumulative GPA of 3.0. In addition, a minimum of a B grade must be earned in each of the required courses and in each of the program core courses.

Cell Biology and Molecular Physiology (PhD)

The graduate program in Cell Biology and Molecular Physiology has a rich tradition of scientific training and discovery. For example, members of this program were first to identify the hormonal mechanisms that regulate the female menstrual cycle. Graduates of the PhD program are now chairs of departments at six major U.S. medical schools. Today, the program combines basic and clinical research faculty who are dedicated to their research programs and to the training of students. Among the medical school programs, this faculty is uniquely focused on integrative biology: using the tools of cellular imaging, genetics, biochemistry and molecular biology to understand the integrated functions of cells, tissues and organisms post-genomic era. The program is home to the Center for Biologic Imaging, a world-class, state-of-the-art imaging center. Through this unique facility, advances in laser confocal microscopy, live cell multicolor fluorescence microscopy, electron microscopy, and computer-assisted image processing have facilitated University-wide research efforts and collaborations. Areas of research interests in the program include the trafficking of proteins and lipids in cells, genetic disorders of ion channels, regulation of gene expression during development, signal transduction in diabetes, cell biology and physiology of renal diseases, and the regulation of male and female reproduction systems.
Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, students take at least two of the following core courses for the Cell Biology and Molecular Physiology program:

- MSCBMP 2880 - CLLR BIOL NORMAL DISEA STATES and
- MSCBMP 2885 - IMAGNG CELL BIOL LIVING SYMS
  or
- MSCBMP 2840 - REGULATION OF MEMBRANE TRAFFIC and
- MSCBMP 2830 - CELL AND MOLECULAR PHYSIOLOGY

Other electives include:

- MSCBMP 2860 - MULTIPARM MICROSCPC IMAGNG
- MSCBMP 2870 - HISTOLOGY

Cellular and Molecular Pathology (PhD)

The cellular and molecular pathology program integrates cellular and molecular biology with the study of human diseases, often in the context of Regenerative Medicine with translational goals. Utilizing the latest technologies, the program combines both basic science and clinical research to explore fundamental questions related to the biology of normal tissue growth and embryonic development, current best practices in tissue engineering, and the cellular and molecular pathways leading to disease development in both human and animal models. Active research programs investigate diverse topics such as liver development, disease and transplantation, developmental neuroscience and neurological diseases, mechanisms of gene regulation, cancer biology, angiogenesis, pulmonary disease, inflammation and autoimmunity, genetics, bioinformatics, and molecular diagnostics. Research laboratories are located throughout the medical center campus and research studies involve both basic research scientists (PhD's) and clinician scientists (MD/PhD's).

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses for the Cellular and Molecular Pathology program:

- MSCMP 2730 - MOLEC MECHS TIS GRWTH & DIFFRN and either
- MSCMP 3710 - CANCER BIOLOGY & THERAPEUTICS or
- MSCMP 2740 - MOLECULAR PATHOBIOLOGY or
- MSCMP 3790 - BASICS OF PERSONALIZED MEDICN

Additionally we require at least 5 terms of:

- MSCMP 2750 - RESEARCH SEMINAR

As well as two electives

From courses throughout the SOM on diverse topics of interest to students such as the following CMP courses:

- MSCMP 2770 - BIOMATRLS & BIOCOMPATIBILITY or
- MSCMP 3740 - STEM CELLS or
- MSCMP 3770 - CELL THERAPY
Clinical and Translational Science (PhD)

The University of Pittsburgh requires the successful fulfillment of a minimum of 72 credits for awarding a PhD degree. To receive the PhD in Clinical and Translational Science, trainees must complete the Core Curriculum, Advanced "Selectives," Research Specialization, completion and successful defense of a Comprehensive Examination, completion of the Doctoral Prospectus and defense of the Doctoral Dissertation. A minimum "B" grade is required in all graduate courses.

Contact Information

Institute for Clinical Research Education

Admissions

Admissions Criteria

- Candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold a J-1, H1-B, or F1 transfer visa.
- Candidates who possess a high level of interest and potential for the pursuit of innovative clinical and translational research as a major focus of career plan.
- Candidates with long-term goals of entering a clinical research career.

Along with the candidate's individual qualifications, preference will be given to the following:

- Candidates with departments that provide the staff, research support, and facilities to create a high quality environment for the conduct of clinical research during and after the candidates complete their training.
- Candidates with distinguished personal qualifications of past academic and research efforts, publications, and references.
- Candidates with departments or program directors assuring that the candidates will be able to engage in 50-75% protected time for at least two years in order to participate in their program.
- Candidates with an advanced clinical degree (MD, DMD, PharmD, etc.)

Financial Assistance

All students are responsible for their own tuition.

Degree Requirements

Credit Requirements

Core Curriculum Courses

Required courses include 17 credits of coursework, including:

- CLRES 2005 - CMPTR METH FOR CLIN RSRCH
- CLRES 2010 - CLINICAL RESEARCH METHODS
- CLRES 2020 - BIOSTATISTICS
Advanced "Selective" Courses

Advanced "Selective" courses focus on advancing methodological or analytic tops that will be most useful to the student's chosen area of research. At least 6 credits must be in advanced analytic methods (i.e. statistics or epidemiology) and at least 8 credits must be in research methods (i.e. clinical trial design, imaging methodology, or pharmacogenomics).

Research Specialization Courses

Research Specialization courses focus on making the student flexible in selecting training experiences in areas specific to their research area. Research Specialization courses should total 23 credits, and may either be directed research credits (maximum 12 credits) or coursework selected by the student and mentor.

Non-credit Requirements/Milestones

Responsible Conduct of Research (RCR) Requirement

Responsible Conduct of Research (RCR) Requirement: Clinical Research Degree Program students are required to attend 8, 1-hour Responsible Conduct in Research workshops. These workshops are offering through the Clinical and Translational Science Institute (CTSI).

Comprehensive Examination

Individuals pursuing the PhD in Clinical and Translational Science are required to complete a Comprehensive exam. This exam consists of a written examination in the form of an NIH R01-style proposal (including, at a minimum, specific research aims, background and significance, and research methods) and an oral defense of the written portion.

Doctoral Prospectus and Dissertation

Individuals pursuing the PhD in Clinical and Translational Science must complete both a Doctoral Prospectus and successfully complete and defend a Doctoral Dissertation.

- Dissertation Prospectus Meeting-Individuals must prepare a dissertation proposal for presentation to a doctoral dissertation committee at a formal dissertation overview meeting. At this meeting, the dissertation committee members will provide guidance in shaping the conceptualization and methodology for the individual's Doctoral Dissertation.
- Doctoral Dissertation-The proposal, writing, and defense of a culminating research project. The written work must conform to the University of Pittsburgh style manual (www.pitt.edu/~graduate/etd/formatguidelineshtml.html) The Final Oral Defense is a public defense of the Doctoral Dissertation. The entirety of the dissertation committee must be in attendance at the Final Oral Defense.

More information:
Clinical Research (Certificate)

The Certificate program in Clinical Research aims to teach trainees the skills necessary to design and conduct high quality clinical research involving human subjects.

Degree Requirements

Coursework Requirement:

To receive the Certificate in Clinical Research, trainees must complete 15 credits of coursework, including CLRES 2005 - CMPTR METH FOR CLIN RSRCH, CLRES 2010 - CLINICAL RESEARCH METHODS, CLRES 2020 - BIOSTATISTICS, CLRES 2040 - MEASURMT IN CLINCAL RESEARCH, and 6 additional credits of coursework that have been approved by the student's advisor or program director or core curriculum director.
A minimum "B" grade is mandatory for all required coursework and a minimum of a "B-" grade is required to receive credit for any elective courses. To remain in good academic standing, students must also maintain a 3.0 or better QPA.

**Responsible Conduct of Research (RCR) Requirement:**

Clinical Research Degree Program students are required to attend 8, 1-hour Responsible Conduct in Research workshops. These workshops are offering through the Clinical and Translational Science Institute (CTSI).

**Clinical Research (MS)**

The Masters program in Clinical Research aim to teach trainees the skills necessary to design and conduct high quality clinical research involving human subjects.

**Contact Information**

Institute for Clinical Research Education
200 Meyran Ave, Suite 300
Pittsburgh, PA 15213
412-586-9632
Fax: 412-586-9672
www.icre.pitt.edu/degrees/degrees.html

The University of Pittsburgh requires the successful fulfillment of a minimum of 30 credits for awarding a Master of Science degree. To receive the Master of Science in Clinical Research, trainees must complete the Responsible conduct of Research requirement, 6 required courses detailed below totaling 13 credits, the requirements for one of the specialty tracks that focus on research methodologies, a thesis or substantive research project, and additional elective credits that have been approved by the student's advisor. Trainees who are interested may take additional coursework in an optional specialization. A minimum "B" grade is mandatory for all required coursework and a minimum of a "B-" grade is required to receive credit for any elective courses. To remain in good academic standing, students must also maintain a 3.0 or better QPA.

Depending on the clinical responsibilities of the trainee, it will take 2 or 3 years to fulfill the requirements for the Master of Science degree. The directors of the program have scheduled many of the courses in a way that allows trainees to balance coursework with clinical and other responsibilities.

**Admissions**

**Admissions Criteria**

- Candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold a J-1, H1-B, or F1 transfer visa.
- Candidates who possess a high level of interest and potential for the pursuit of innovative clinical and translational research as a major focus of career plan.
- Candidates with long-term goals of entering a clinical research career.

Along with the candidate's individual qualifications, preference will be given to the following:

- Candidates with departments that provide the staff, research support, and facilities to create a high quality environment for the conduct of clinical research during and after the candidates complete their training.
- Candidates with distinguished personal qualifications of past academic and research efforts, publications, and references.
• Candidates with departments or program directors assuring that the candidates will be able to engage in 50-75% protected time for at least two years in order to participate in their program.
• Candidates with an advanced clinical degree (MD, DMD, PharmD, etc.)

Financial Assistance

All students are responsible for their own tuition

Degree Requirements

Required courses

Required courses include 13 credits of coursework, including:

CLRES 2005 - CMPTR METH FOR CLIN RSRCH
CLRES 2010 - CLINICAL RESEARCH METHODS
CLRES 2020 - BIOSTATISTICS
CLRES 2040 - MEASURMNT IN CLINCAL RESEARCH
CLRES 2071 and CLRES 2072 - ADVANCED GRANT WRITING PART 2, and
CLRES 2080 - MASTERS THESIS RESEARCH.

Students must also complete the requirements for a specialty track.

Specialty Track Requirements:

Trainees in the Master of Science in Clinical Research must complete the requirements of one of the four specialty tracks listed below:

• Clinical Trials Research Track
• Comparative Effectiveness Research Track
• Health Services Research Track
• Translational Research Track

Thesis or Substantive Research Project:

Individuals pursuing the Master of Science in Clinical Research are required to complete a formal thesis or substantive research project. The project will count for up to 3 credits and must satisfy the following requirements: (1) be primarily independent work by the trainee, (2) receive preliminary approval from both the trainee's advisor and the ICRE Leadership, and (3) form the basis for a comprehensive review of competence by a formal review committee. The three standard mechanisms for the substantive project are:

• A grant proposal for an R01, K-award, or equivalent grant application
• Peer review publications
• A standard University thesis

Students must successfully defend their research project to a review committee as required by the University's Committee on Graduate Studies. Final certification of the completion of the master's degree requires submission of the hard copy of the master's research project to the program coordinator.
Comparative Effectiveness Research (Certificate)

The certificate in Comparative Effectiveness Research aims to teach trainees the skills necessary to design and conduct high quality comparative effectiveness research.

Computational Biology (PhD)

Computational biology is defined as the development and application of data-analytical and theoretical methods, mathematical modeling, and computational simulation techniques to the study of biological, behavioral, and social systems.* It is an interdisciplinary approach that draws from specific disciplines such as mathematics, physics, computer science and engineering, biology, and behavioral science.

The Joint Pitt-CMU PhD Program in Computational Biology is an intensive, interdisciplinary training program that provides students with a deep understanding of the current state of the art in computational biology. Students in this program acquire the quantitative background and research skills needed to advance the field of computational biology. In addition, they develop the critical thinking skills needed to appreciate the potential, strength, and limitations of computational, mathematical, and engineering tools for tackling biological problems.

Admissions

The interdisciplinary character of the program is unique and distinct from many other programs that are focused toward a specific discipline. The program seeks outstanding students from the biological, physical and computational sciences, and engineering. For example, computational biology majors, or double majors in biology and quantitative sciences are ideal candidates.

Recommended Prerequisites

For students planning their undergraduate course schedules in anticipation of applying for the PhD in computational biology, prerequisites in life sciences, computer science, physical sciences, mathematics, statistics, and computational biology are recommended. Students whose background does not include these courses may be admitted with the additional requirement to take appropriate compensating classes. For more information on prerequisites, see www.compbio.pitt.edu/Admissions/prerequisites.html.

Application

REQUIRED MATERIALS - Deadline December 15, 2016

- The Online Application
- Statement of Purpose
- Three letters of Recommendation
- Unofficial Transcripts (submitted online)
- Conversion of GPA (for international students only)
- Unofficial GRE Scores (submitted online)
- Unofficial TOEFL Scores (submitted online)
- Application Fee
Applications are reviewed by the Joint CMU-Pitt PhD Program in Computational Biology. Each admitted student is assigned an initial university of matriculation, and receives an admissions offer letter from that university. Incoming students can be placed directly in a laboratory (if mutual interest exists between a student and an advisor), or go through a period of three rotations, after which the student chooses an advisor. Students have the ability to change advisors (subject to agreement of the new advisor and availability of support) and to transfer between the two universities to reflect advisor changes.

For more information on application process, see www.compbio.pitt.edu/?page_id=163

Financial Aid

All students are provided with a stipend and full tuition remission. Assistance is also provided for health insurance.

Teaching Assistantships

Although all students are supported as research assistants throughout their time in the program, students are required to TA for one semester. There are also opportunities to assist in the teaching courses of the program. Students are also encouraged to develop teaching skills by mentoring other students and passing on their knowledge to lab mates and fellow students.

Curriculum

The curriculum is designed to train students who will shape the next generation of discovery in computational biology in academia and industry. Students are required to complete 72 credit hours of academic work toward partial fulfillment of the requirements for completion of dissertation study. Of these, 30+ are formal coursework, and the remaining to be completed with full-time research.

All students are required to take five core graduate courses. The core courses aim at providing a strong common background in computational biology before they specialize in particular research areas

Core Courses

- Machine Learning
- Introduction to Computational Structural Biology
- Computational Genomics
- Cellular and Systems Modeling
- Laboratory Methods for Computational Biologists

In addition, all students are required to take four graduate elective courses: a life science/physical science course; an advanced interdisciplinary elective specified for the student's chosen area of specialization; a quantitative elective from a program-wide menu; and one general elective.

Specialization Areas

- Computational Genomics
- Computational Structural Biology
- Cellular and Systems Modeling
- Bioimage Informatics

For more information on the curriculum, see www.compbio.pitt.edu/?page_id=87

Other Courses

In addition to core and elective courses, students take complementing courses, if needed, and participate in program seminar, journal clubs, ethics courses and directed studies toward their dissertation projects.
Program Seminar Series

Students enrolled in the program are expected to attend scientific seminars during all years of training. Beginning in their second year and ending in the year before their thesis defense, students present their research progress to fellow students and the faculty on at least an annual basis.

Journal Club

Effective presentation of scientific data is an invaluable aspect of graduate training. Therefore, all first- and second-year students must present a scientific article on a topic (selected by a faculty member) that introduces students to the methodology and applications of computational biology. The talk is made in a format that allows the student to develop basic presentation skills. Students subsequently receive feedback on their talks, thereby improving their presentations skills as their graduate training advances.

Training in Ethics

Ethical conduct and scientific integrity is an essential aspect of research. This is especially important given the competitive nature of funding processes and the high demand for productivity. Hence, the program instructs students on the significance and practice of ethical conduct.

Directed Study

Credits are given for laboratory projects (wet or computer labs) under the direction of the dissertation advisor prior to admission to candidacy for the doctorate.

Scheduling

We anticipate two types of course schedules for students in the program. The default for students who have taken the prerequisites will be to take three courses in each of the first two terms (50-75% time) and spend the remaining time on research. Such students would normally take the core courses in the first year along with one additional course. The third and fourth terms would be split between taking electives and doing research.

Students who enter with some biology or computer science or physical science background but not with sufficient background to take all of the core courses would take a mix of missing prerequisites and core courses in each of the first two terms (approx. 90% time) and spend 10% time on research. These students would then take a mix of remaining core courses and electives in the third and fourth terms (along with 30% research) and finish electives in the fifth and/or sixth terms.

Comprehensive Examination

Students are required to pass a comprehensive examination after completion of their courses, prior to being officially admitted to candidacy to the PhD degree. Students are expected to complete this examination no later than the beginning of the spring term of their third year. The comprehensive examination consists of two parts: a 12-page "grant-style" written proposal of the proposed research, followed by an oral defense of the proposed research.

Post-Comprehensive Qualifying Examination

Students who have been accepted to PhD candidacy conduct research on a full time basis, and are required to complete a minimum of 40 credit hours (9-14 credits per term) of full-time dissertation study in order to meet the criteria for dissertation defense. Hence, all students will have completed at least 72 credit hours of study prior to graduation, including 29 credit hours of core + elective courses, and at least 40 credit hours of dissertation research.

Completion of Degree
The program is structured in such a way that students can finish their degree within four years of entering their dissertation laboratory. However, it is recognized that the actual time required to attain the degree depends on the specific type of research undertaken and how quickly progress is made in completing the experimental program.

**Terminal Master's Degree**

The Program does not admit students whose goal is to attain a MS degree. However, it might become necessary for a PhD student to transfer to an MS track for academic reasons or reasons beyond the student's control, e.g., medical circumstances or a change in family circumstances necessitating a long-distance move.

For more information on the program, such as list of training faculty, please see [www.compbio.cmu.edu/?page_id=31615](http://www.compbio.cmu.edu/?page_id=31615)

**Immunology (PhD)**

The immunology program focuses on six areas of research: cancer immunology, transplantation immunology, infectious disease immunology, autoimmunity, immunology of barrier surfaces, and basic immunologic mechanisms.

Tumor immunology studies include tumor antigen discovery and presentation, vaccination strategies to develop safe and effective treatments for cancer, and the search for underlying genetic or biochemical defects that lead to cell transformation and tumorigenesis that may also influence tumor immunogenicity. These studies emphasize intracellular signal transduction, programmed cell death, and oncogene function.

Transplantation immunology concentrates on weakening both the acute and chronic phases of immune responses, to facilitate the acceptance of foreign organ and tissue transplants. Program members focus on the basic biology of immune cell non-reactivity (tolerance) to foreign organs and tissues, as well as on the use of new immunomodulatory drugs to promote transplant acceptance without endangering patients' abilities to resist infections.

Studies of the immune response to infectious disease focus on mechanisms the immune system uses to eliminate viral, bacterial, or parasitic infections as well as the immune evasion mechanisms employed by pathogens. Investigation of autoimmune diseases such as rheumatoid arthritis, multiple sclerosis, systemic lupus erythematosis, and type-I diabetes involve detailed analysis of the molecular mechanisms underlying the autoimmune response and of the development of novel therapeutic and preventive measures for these often-fatal diseases.

Immunology of barrier surfaces studies both basic mechanisms of host defense with a focus on the lung, gut and skin which form major physical barriers to infection. These organs are the main portal of entry for a variety of air and food borne pathogens, allergens and other environmental pollutants. Mechanisms of dendritic cell maturation and their influence on T-cell differentiation and the relevance of these interactions in disease second in tolerance. Some foci of basic immunologic mechanisms include cell and organ development and homeostasis, cellular activation and inactivation signaling cascades, and the use of gene therapy to modulate immune responses.

**Core Courses**

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in Immunology:

- MSIMM 2210 - COMPREHENSIVE IMMUNOLOGY
- MSIMM 2230 - EXPERIMENTAL BASIS OF IMMUNOLOGY
- MSIMM 3220 - CNTMPRY TOPICS - IMMUNOLOGY
- MSIMM 3230 - IMMUNOLOGY AND HUMAN DISEASE

**Institute for Clinical Research Education**

The Institute for Clinical Research Education (ICRE) is the home for the University of Pittsburgh's premier clinical and translational research training programs. [http://www.icre.pitt.edu/](http://www.icre.pitt.edu/)
Graduate Training Programs:

- Clinical and Translational Science (PhD)
- Clinical Research (MS)
- Clinical Research (Certificate)
- Comparative Effectiveness Research (Certificate)
- Medical Education (MS)
- Medical Education (Certificate)

Integrative Systems Biology (PhD)

ISB is an innovative program in graduate training that rapidly immerses students into a research environment, then mentors them to become independent scientific practitioners, skilled not only in the art of technical execution but in the creative multidisciplinary thinking required to address important questions in systems biology. Students receive a PhD in Integrative Systems Biology.

Integrative Systems Biology is a field of study that has emerged within the last decade as a unifying discipline that focuses on placing the molecules that comprise living systems within functional and organism contexts. The goal of ISB is to utilize all of our available resources to create a training and research environment to answer challenging questions of fundamental importance in biomedical and life sciences. The ISB faculty are drawn from cellular, developmental, molecular and systems biologists across the University of Pittsburgh campus and are distributed between four research foci:

- Cell, Development, and Molecular Biology
- Quantitative Biology
- Translational Medicine
- Genes and Evolution

Admission Requirements and Procedures
Students most likely to gain admittance will have a baccalaureate degree from a natural science, physical science, or engineering program, a grade point average of 3.5 (on a scale of 4), combined average GRE scores (Quantitative and Verbal sections) greater than the 80th percentile, and three letters of recommendation. As this is an accelerated program, students should have prior immersive experience in research studies. Scores from a GRE subject test are strongly encouraged, but not required. Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 650 (paper), IELTS score of at least 7.50 or iBT score of at least 114 is required for admission to the Program.

Additional information and a link to the online application can be found at http://www.isb.pitt.edu/apply/apply.html

Financial Assistance

All full-time students receive a stipend, educational enrichment fund, computing and network service, and individual health insurance (with option to purchase additional family coverage) during their graduate training.

Degree Requirements

This is an accelerated program that provides the opportunity for students to complete their degrees in approximately 4 years. Students enter the program in the summer or fall sessions, and after performing three rotations identify an advisor and area of research dissertation research project. Areas of research focus include Cell, Development, and Molecular Biology, Quantitative Biology, Translational Medicine, and Genes and Evolution. Required course work is completed during the first year and a half. During the first half of the second year students take a comprehensive examination that includes the generation of a research proposal ready for submission to national fellowship programs. Students receive career mentoring during the third and fourth years to ensure a seamless transition to the postdoctoral level. Additional information can be found at the following Web site: www.isb.pitt.edu/training/training.html

A minimum of 72 credits beyond the baccalaureate degree is required for the PhD degree. 32 of these credits are completed taking required and elective course work, and 40 of these credits are taken as dissertation research credits upon completing the comprehensive examination and advancing to candidacy. Required course work includes the following:

- ISB 2000 - LABORATORY RESEARCH ROTATION
- MSCBIO 2025 - INTRO TO BIOINF PSRMG PYTHON
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- ISB 2020 - GENOMICS FOR SYSTEMS BIOLOGY
- ISB 2030 - QUANTITATIVE IMAGING
- ISB 2035 - MODEL SYSTEMS
- ISB 2050 - ISB RESEARCH SEMINAR
- ISB 2060 - ISB JOURNAL CLUB
- ISB 2055 - SCIENCE WRITING

Advanced Elective Courses (6 Credits Total)

A large number of courses are available and are listed on the following Web site: http://www.isb.pitt.edu/training/training/elective_courses.html. Students are required to may select courses in more than any one of the following disciplines: computational biology, structural biology, molecular genetics, pharmacology, biochemistry, cell biology, and developmental biology.

Interdisciplinary Biomedical Graduate Program

Through the Interdisciplinary Biomedical Science Graduate Program,, students may be admitted into one of the following 6 PhD degree-granting programs in the School of Medicine:
- Cell Biology and Molecular Physiology (PhD)
- Cellular and Molecular Pathology (PhD)
- Immunology (PhD)
- Molecular Genetics and Developmental Biology (PhD)
- Molecular Pharmacology (PhD)
- Molecular Virology and Microbiology (PhD)

Students will not be admitted to pursue a master's degree. However, students who cannot complete the PhD program due to extenuating personal, financial, academic, or medical reasons may be awarded a master's degree.

The Interdisciplinary Biomedical Science Graduate Program is flexible and accommodates students whose research interests are still evolving by introducing them to a variety of fields through interdisciplinary courses and laboratory experiences. For those students who have a clearly defined research interest, the program offers the opportunity to move quickly into a laboratory and accelerate their study.

Academic Standards

Students must maintain a minimum cumulative GPA of 3.00 in courses. In addition, a minimum of a B grade must be earned in each of the required courses and in each of the degree-granting program core courses.

General Degree Requirements - All Interdisciplinary Biomedical Graduate Students

The first term core course, Foundations of Biomedical Science, is required of all students and is followed by increasingly specialized course work in the program the student has chosen. A course in biomedical experimental design and analysis and a course in research ethics are also required of all students. The first year includes three laboratory research rotations. (See listing of Required Courses below.) Students are guided through their first year of graduate study by a faculty mentor assigned by the program.

The mentor helps to identify rotation laboratories, provides advice on classes, and ensures that students reach appropriate milestones in the first year of the program. At the end of the first year, a preliminary student performance evaluation is conducted by the Program Steering Committee. When a student has successfully completed the preliminary evaluation and chosen a dissertation advisor, the student transfers into one of the degree-granting programs.
Evaluation following the first year is undertaken by the degree-granting program and includes course performance and a comprehensive exam at the end of the second year of study. The comprehensive exam is in the form of an original research proposal followed by an oral examination before a faculty committee composed of three program training faculty members with one appointed as chair. Upon successful completion of the comprehensive exam, the student presents a dissertation proposal to a dissertation advisory committee and is admitted to candidacy. The training program is completed by execution of an original and independent research project and defending a dissertation. Please see Regulations Pertaining to Doctoral Degrees.

**Required Courses-All Students**

The following courses are required of all students in the Interdisciplinary Biomedical Science Program:

- INTBP 2000 - FOUNDTS OF BIOMEDICAL SCIENCE
- INTBP 2005 - FOUNDATIONS CONFERENCE
- INTBP 2013 - D2K: FROM DATA TO KNOWLEDGE
- INTBP 2290 - SCNTFC ETHCS RESPONSIBLE RES
- INTBP 2010 - LABORATORY RESEARCH ROTATION

A minimum of 72 credits beyond the baccalaureate degree is required for the PhD degree.

**Medical Education (Certificate)**

This program is designed for a diverse group of individuals whose career focus is on medical education and clinical teaching. These individuals include, but are not limited to, fellows and faculty in general medicine, sub-speciality medicine, pediatrics, surgery, family medicine, and psychiatry. For individuals who do not want to pursue a Master of Science but who desire to take specific courses for added knowledge and skills in teaching and/or research, the Certificate in Medical Education may be appropriate.

Institute for Clinical Research Education  
200 Meyran Ave., Suite 300  
412-586-9632  
Fax: 412-586-9672  
www.icre.pitt.edu/degrees/degrees.html

**Admissions**

**Admissions Criteria**

- Candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold a J-1, H1-B, or F1 transfer visa.
- Candidates who have completed one of the following degrees: MD, DDS, DMD, DC, OD, ND, PharmD, PhD in nursing, and other disciplines involved in clinical teaching.
- Candidates who possess a high level of interest and potential for the pursuit of long-term career focus in teaching and leadership positions in medical education programs.

**Financial Assistance**

All students are responsible for their own tuition.
Degree Requirements

In most cases, it is expected that individuals pursuing this option will typically choose courses in teaching and learning to enhance skills as a clinician-educator at either a university or community-based program. The Certificate in Medical Education requires the completion of 15 credits, the majority of these credits (minimum of 9) must be Medical Education courses. A minimum "B" grade is mandatory for all required coursework and a minimum of a "B-" grade is required to receive credit for any elective courses. To remain in good academic standing, students must also maintain a 3.0 or better QPA.

More information on training faculty can be found at http://www.icre.pitt.edu/faculty.html and on courses can be found at http://www.icre.pitt.edu/courses/courses.aspx

Medical Education (MS)

This program is designed for a diverse group of individuals whose career focus is on medical education and clinical teaching. These individuals include, but are not limited to, fellows and faculty in general medicine, sub-specialty medicine, pediatrics, surgery, family medicine, and psychiatry.

Institute for Clinical Research Education
200 Meyran Ave., Suite 300
412-586-9632
Fax: 412-586-9672
www.icre.pitt.edu/degrees/degrees.html

Admissions

Admissions Criteria

- Candidates who are U.S. Citizens, non-citizen nationals, or lawfully admitted permanent residents of the U.S., or individuals who already hold a J-1, H1-B, or F1 transfer visa
- Candidates who have completed one of the following degrees: MD, DDS, DMD, DC, OD, ND, PharmD, PhD in nursing, and other disciplines involved in clinical teaching.
- Candidates who possess a high level of interest and potential for the pursuit of long-term career focus in teaching and leadership positions in medical education programs.

Financial Assistance

All students are responsible for their own tuition.

Degree Requirements

The University requires the successful fulfillment of a minimum of 30 credits for awarding a Master of Science in Medical Education. The degree is granted upon the completion of a tightly integrated curriculum with three components: (1) coursework plus observed teaching activities focusing on adult learning, classroom and clinical teaching skills, curriculum development, innovation in medical education, professional development, and medical administration; (2) additional courses to provide trainees with fundamental research skills; and (3) a project on curriculum development or a mentored research project.

Core Curriculum

Required courses include 20 credits of coursework, including:
A minimum "B" grade is mandatory for all required coursework and a minimum of a "B-" grade is required to receive credit for any elective courses. To remain in good academic standing, students must also maintain a 3.0 or better QPA.

**Research Project, Project in Curriculum Development, or Thesis**

Individuals pursuing the Master of Science in Medical Education are required to complete a formal thesis or substantive research project that applies towards the 30-credit requirement for the degree. Three (3) credits will be awarded for successful completion of this component of the curriculum. The project must meet the following requirements: (1) be primarily independent work by the trainee, (2) be reported to the respective sponsoring faculty in written form, and (3) form the basis for a comprehensive review of competence by a committee of at least three training faculty recommended by the major advisor and approved by the Program Director. The four standard mechanisms for the project are:

- Curriculum development project
- Peer-reviewed publication
- A major grant application (R01, K award, or equivalent award)
- A standard University thesis

Students must successfully defend their research project to a review committee as required by the University's Committee on Graduate Studies.

**Molecular Biophysics and Structural Biology (PhD)**

The Molecular Biophysics and Structural Biology graduate program at the University of Pittsburgh and Carnegie Mellon University educates students to conduct research at the interface between biology, chemistry, and physics. The disciplines of Molecular Biophysics and Structural Biology aim to unravel and explain biological phenomena and processes in atomic and molecular detail. Research carried out by program faculty covers a diverse range of topics in Molecular Biophysics and Structural Biology. Areas of study focus on understanding fundamental principles involved in reactions and regulatory interactions in biological systems. Our research projects attempt to answer key questions, such as: How do proteins fold and can we prevent misfolding? Can we design proteins with novel functions? How does the coordinated interaction between proteins and nucleic acids lead to cellular differentiation and the formation of an organism? How do macromolecules assemble into molecular machines and viruses? How do these assemblies operate? How do signals traverse membranes?

**Contact Information**

University of Pittsburgh and Carnegie Mellon University
Molecular Biophysics and Structural Biology Graduate Program
Admission Requirements and Procedures

Students with at least a baccalaureate degree in physics, chemistry and mathematics or cellular and molecular biology are encouraged to apply. Admissions are based upon the student's academic record, GRE scores, letters of recommendation, previous research experience, written statement of interest, and a personal interview. Applicants who are citizens of countries where English is not the official language (and the Province of Quebec in Canada) are required to submit evidence of English Language proficiency by submitting the official results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). A minimum TOEFL score of 600 (paper) or 100 (iBT), or IELTS score of at least 7.00 is required for admission to the Program. We actively seek qualified applicants from underrepresented minorities and students with disability.

Additional information and a link to the online application can be found at http://www.mbsb.pitt.edu.

Financial Assistance

All students receive complete financial support in the form of stipend, tuition, and health insurance.

Degree Requirements

All students enter the Program in the fall session and after performing three rotations identify an advisor and area of research. Areas of research focus include: Macromolecular recognition; Virus, lipid and protein structure and interactions; Principles of protein structure and dynamics; Membrane proteins; Gene regulation and signaling; Cellular biophysics; Chemical structure and dynamics. Methodologies employed comprise NMR spectroscopy, X-ray crystallography, cryo electron microscopy, atomic force microscopy, mass spectrometry, infrared spectroscopy and computational molecular biology. Required coursework is completed during the first year. Students are required to complete the Comprehensive Exam by August 31 of their second year in the graduate program.

A minimum of 72 credits beyond the baccalaureate degree is required for the PhD degree. The 72 credits are completed by taking required and elective course work as well as dissertation research credits upon being admitted to candidacy.

- MSMBPH 2000 - LABORATORY RESEARCH ROTATIONS or
- MOLBPH 2000 - LABORATORY RESEARCH ROTATIONS - taken during the first fall, spring & summer term of the first year
- INTBP 2000 - FOUNDTNS OF BIOMEDICAL SCIENCE - taken during the fall term of the first year
- MSMBPH 2001 - MOL BIOPHYS 1: STRUCTURE or
- MOLBPH 2001 - MOL BIOPHYS 1: STRUCTURE - taken during the fall term of the first year
- MSMBPH 2012 - MB2: BIOMOL INTERC & DYNAMICS or
- MOLBPH 2012 - MB2: BIOMOL INTERC & DYNAMICS - taken during the spring term of the first year
- MSMBPH 2013 - MOL BIOPHYS 3: THEORY & SIMUL or
- MOLBPH 2013 - MOL BIOPHYS 3: THEORY & SIMUL - taken during the fall term of the second year
- INTBP 2290 - SCNTFC ETHCS RESPONSIBLE RES - taken during the summer term of the first year
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1 - taken during the first summer semester of the first year
- MSMBPH 2020 - STRUCL BIOL/MOL BIOPHYS SEM or
  MOLBPH 2020 - STRUCL BIOL/MOL BIOPHYS SEM - taken every fall and spring term through graduation
- MSMBPH 2030 - DATA AND LITERATURE CLUB or
  MOLBPH 2030 - DATA AND LITERATURE CLUB - beginning with the spring term of the first year, D&L Club is taken every fall and spring term through graduation

Advanced Elective Courses (6 Credits Total)

A number of courses are available and are listed on the following Web site: www.mbsb.pitt.edu/site/curr_electives.php with permission of his/her advisor, students are permitted to choose from a number of courses offered at Pitt as well as CMU

Additional information on the core curriculum can be found at http://www.mbsb.pitt.edu/index.php/people/faculty

**Molecular Genetics and Developmental Biology (PhD)**

The Molecular Genetics and Developmental Biology (MGDB) graduate program provides an exciting and vigorous academic environment for highly motivated and qualified students to prepare for a rewarding career in biomedical research. The MGDB program brings together faculty in both basic and applied sciences, including researchers from the School of Medicine, the School of Arts and Sciences, the University of Pittsburgh Cancer Institute, the Children's Hospital of Pittsburgh, the Magee-Womens Research Institute and the Department of Biological Sciences. MGDB faculty have a wide diversity of interests and are pursuing research projects that address fundamental, contemporary issues in biology and medicine. MGDB research is at the cutting edge of many emerging fields, including developmental and reproductive biology, stem cell biology, proteomics, computational biology, genomics and DNA replication, damage and repair. Our work has direct relevance to acute injury, cancer, diabetes, muscular dystrophy, heart disease, kidney disease, fertility/infertility, congenital disorders and other genetic diseases and regenerative medicine. We are committed translating lab bench discoveries to the bedside and graduate students are fully integrated in all aspects of our investigative work.

**Core Courses**

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in the Molecular Genetics and Developmental Biology program:

- MSMGDB 2525 - DEVELM MECHANISMS HUMN DISEASE
- MSMGDB 2535 - MODEL ORGANISMS
- MSMGDB 2550 - RESEARCH SEMINAR

**Molecular Pharmacology (PhD)**

Biomedical research in the Molecular Pharmacology program is focused on cutting-edge discovery of molecular and cellular mechanisms of intracellular signaling using a combination of biochemical, molecular biological, biophysical, ultra structural, and imaging approaches. Basic research into cellular communication in health and disease is the main emphasis of the program with the added advantage of an array of translational opportunities into the development and testing of novel therapeutic agents. Applications of this common theme are directed toward research in molecular biology of cancer, neuropharmacology, cell and organ system pharmacology, signal transduction, neurodegenerative diseases and drug discovery. Formal collaborative interactions with the Pittsburgh Cancer Institute, the Center for Neuroscience, the Pittsburgh Institute for Neurodegenerative Diseases (PIND), the Division of Clinical Pharmacology, the University of Pittsburgh Drug Discovery Institute, University of Pittsburgh Structural Biology Imaging Center, the Vascular Medicine Institute and the Center for Biological Imaging provide a broad multidisciplinary approach to training in modern molecular pharmacology.
Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in the molecular pharmacology program:

- MSMPHL 2310 - PRINCIPLES OF PHARMACOLOGY
- MSMPHL 3360 - MOLECULAR PHARMACOLOGY
- MSMPHL 2360 - BIOLOGY OF SIGNAL TRANSDUCTION
- MSMPHL 3310 - CANCER BIOLOGY & THERAPEUTICS
- MSMPHL 3375 - NEUROPHARMACOLOGY
- MSMPHL 2370 - DRUG DISCOVERY

Molecular Virology and Microbiology (PhD)

The molecular virology and microbiology program faculty address a diverse array of contemporary issues ranging from elucidation of the molecular mechanisms governing pathogen-host interactions to the epidemiology underlying infectious diseases. Research topics include the study of gene expression, mechanisms of persistence and pathogenesis, the host immune response, and molecular-based strategies to combat infectious disease. As a result, students in the program gain a comprehensive interdisciplinary background in modern molecular virology and microbiology with a strong underpinning in molecular biology, immunology, and biochemistry. This program acts as a network to coordinate and promote collaborative basic and clinical advancement of microbiology and virology, enabling transfer of new ideas and technologies among faculty laboratories to the clinical arena.

Core Courses

Apart from the general degree requirements for all Interdisciplinary Biomedical Science Graduate students, the following are core courses in molecular virology and microbiology:

- MSMVM 2410 - MOLECULAR VIROLOGY
- MSMVM 2430 - TA: MEDICAL MICROBIOLOGY
- MSMVM 2450 - RESEARCH SEMINAR
- MSMVM 3410 - MICROBIAL PATHOGENESIS

Neurobiology/Neuroscience (PhD)

The Center for Neuroscience (CNUP) Training Program is an interschool PhD degree-granting program offered cooperatively by the School of Medicine (Neurobiology, MSNBIO) and the Dietrich School of Arts and Sciences (Neuroscience, NROSCI). The program introduces students to the fundamental issues and experimental approaches in neuroscience and trains them in the theory and practice of laboratory research. Research interests of the training faculty focus on several prominent themes, including behavioral/systems/cognitive, cell and molecular, development/plasticity/repair, and the neurobiology of disease.

This large research-based training program offers outstanding opportunities for students to pursue research in laboratories within more than 30 different departments and University centers. Major features of the program include extensive collaborative interactions among its faculty members and its affiliation with the Auditory Research Group, the Brain Institute, the Center for the Neural Basis of Cognition (a joint program with Carnegie Mellon University), Conte Center for the Neuroscience of Mental Disorders, Pittsburgh Institute for Neurodegenerative Diseases, Pittsburgh Center for Pain Research, and other on-campus research centers

Contact Information

Center for Neuroscience
E1440 Thomas E. Starzl Biomedical Science Tower
200 Lothrop Street
Admission Requirements and Procedures

Students are admitted into the CNUP training program on the assumption that they will be able to meet all requirements for the PhD degree. Those who are selected show evidence of a high level of intellectual talent, a strong interest in neuroscience, and a commitment to scholarship and research.

Admission decisions are based on many factors including the candidate's statement of interest and goals in the field of neuroscience, evidence of research experience and accomplishment, letters of recommendation, test scores, grades, and personal interviews. An outstanding record in one of these areas may compensate for poorer performance in another area. In general, successful applicants have a BS degree in biology, chemistry, computer science, mathematics, neuroscience, or psychology with a cumulative grade point average (GPA) of at least 3.40 (on a 4.00 scale) and a cumulative Graduate Record Exam (GRE) score greater than (160 verbal and 155 quantitative) and a 4.5 in analytical writing. Applicants with a GPA below 3.0 will not be considered.

Additional information and a link to our on-line application can be found at: www.cnup.neurobio.pitt.edu/training/phd/admissions.aspx

Financial Assistance

All students receive full stipend support and individual health benefits. This support is derived from University fellowships and numerous grants funded by the federal government and private agencies. Students in the program also have access to sponsorship on NIH training grants.

PhD Degree Requirements

http://cnup.neurobio.pitt.edu/training/phd/prog_requirements.aspx

Credits: A minimum of 72 credit hours, including a 23-credit course requirement covering fundamental material in cellular and molecular neurobiology, systems neuroscience, and several elective courses.

Core courses:

- BIOST 2014 - INTRO BIOST FOR BIOMD SCINTST
- MSNBIO 2010 - SCIENTIFIC ETHICS or
- NROSCI 2010 - SCIENTIFIC ETHICS
- MSNBIO 2100 - CLLR & MOLECULAR NEUROBIOI 1 or
- NROSCI 2100 - CLLR & MOLECULAR NEUROBIOI 1
- MSNBIO 2101 - CLLR & MOLECULAR NEUROBIOI 2 or
- NROSCI 2101 - CLLR & MOLECULAR NEUROBIOI 2
- MSNBIO 2102 - SYSTEMS NEUROBIOLOGY or
- NROSCI 2102 - SYSTEMS NEUROBIOLOGY
- MSNBIO 2624 - GRANT WRITING
Other requirements:

In addition to University requirements for graduate degrees, students are also required to obtain research experience in at least two separate laboratories; attend journal clubs and research seminars; pass a reprint exam following their first year of study, a comprehensive exam, and a doctoral dissertation and defense; and, to serve as a teaching assistant for at least one term (or course).

A list of CNUP Training Faculty may be viewed at: http://cnup.neurobio.pitt.edu/people/faculty.aspx?by=x1

A complete list of courses may be viewed at: http://cnup.neurobio.pitt.edu/training/phd/courses.aspx

The School of Nursing was established as an independent school of the University by action of the Board of Trustees in April 1939 and was opened in September of the same year. The University conferred the degree Bachelor of Science in Nursing Education for the first time in August 1939. The University conferred the first Bachelor of Science in Nursing degrees in February 1942.

The first Master's degree was awarded in 1944, and the first Doctor of Philosophy degree in 1957. The first Doctorate of Nursing Practice degree was awarded in 2008.

Mission

The University of Pittsburgh School of Nursing, founded in 1939, is one of the oldest programs in baccalaureate and doctoral education in nursing in the United States. As one of the nation's distinguished schools of nursing, the resources of the School constitute an invaluable asset for the intellectual, scientific, and economic enrichment of health care in Pennsylvania, the nation, and throughout the world.

The School of Nursing's mission is to:

- provide high-quality undergraduate education in nursing;
- maintain and develop superior graduate programs in nursing that respond to the needs of health care in general and nursing in particular within Pennsylvania, the nation, and the world;
- engage in research and other scholarly activities that advance learning through the extension of the frontiers of knowledge in health care;
- cooperate with health care, governmental, and related institutions to transfer knowledge in health sciences and health care;
- offer continuing education programs adapted to the professional upgrading and career advancement interests and needs of nurses in Pennsylvania; and
- make available to local communities and public agencies the expertise of the School of Nursing in ways that are consistent with the primary teaching and research functions and contribute to the intellectual and economic development in health care within the commonwealth, the nation, and the world.

Master's Program Admission Process and Admission Criteria

Applications are available online at www.nursing.pitt.edu. Admission criteria are described on the school's Web site (http://www.nursing.pitt.edu/degree-programs/master-science-nursing-msn/msn-applicationadmission). Complete applications will be reviewed and interviews (face to face or by telephone) will be conducted prior to an admission decision. The School offers master's admission to only the Clinical Nurse Leader, Informatics, Neonatal Nurse Practitioner and Nurse Anesthesia (the last cohort of master's students will start August, 2016) majors/areas of concentration. The University of Pittsburgh School of Nursing admits a FALL COHORT ONLY to all MSN Program areas of
concentration. The application deadlines for all areas are February 15th and May 1st. International students are advised to apply by the February 15th deadline. Complete applications received by February 15th will be reviewed and an admission decision will be made by June 1. Complete application received by the May 1st deadline will be reviewed and admission decisions made by June 30th. Applicants must apply online at https://app.applyyourself.com/?id=up-nurs

Applications to the Master Program in nursing are reviewed by the faculty in the applicant's Major/Area of Concentration. Applicants must meet the criteria listed below. Qualified applicants are considered without regard to race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability, or status as a disabled veteran or a veteran of the Vietnam era.

**Applicants must have:**

- A baccalaureate degree in nursing from an ACEN (NLN), ACICS, or CCNE accredited program.
- A current license to practice nursing in a state or territory of the United States. All students must obtain a Pennsylvania license prior to beginning clinical courses.
- A GPA of 3.0 or higher in the undergraduate degree.
- Relevant clinical experience (specified by the Major/Area of Concentration).
- A pre-admission interview. If the applicant resides at a great distance, a telephone interview may be conducted.
- Official scores on the Graduate Record Examination (GRE). The GRE may be waived if the GPA is 3.5 or higher.
- A prerequisite undergraduate statistics course of at least three credits, with a minimum of a C grade.
- Three letters of recommendation attesting to the applicant's capacity and potential for master's study from each of the following (these can be uploaded into the online application) (/apply-now): The director or a faculty member from the most recent academic program attended (if applicant has been a nursing student in the last 5 years); a recent employer; and a person who can speak to the applicant's professional work.
- A typed essay (500-word minimum) stating your philosophy of nursing; reasons for wanting to study in a particular area of concentration; what you expect from the master's program; and your future career goals.

**Doctor of Nursing Practice (DNP) Admission Process and Admission Criteria**

http://www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp

The DNP Program has multiple points of entry and allows for three types of prospective students: post-baccalaureate RNs, including: current master's degree nursing students; RN Options students; and advanced practice nurses and nursing administrators who have completed a master's degree from an CCNE, ACICS or ACEN [NLN] accredited program of nursing. Nurses with a PhD can also seek a DNP.

The University of Pittsburgh School of Nursing admits a **FALL COHORT ONLY** to all DNP Program areas of concentration except the Nurse Anesthesia BSN to DNP major. The application deadlines for all areas except the BSN to DNP Nurse Anesthesia major are February 15th and May 1st. International students are advised to apply by the February 15th deadline. Complete applications received by February 15th will be reviewed and an admission decision will be made by June 1. Complete application received by the May 1st deadline will be reviewed and admission decisions made by June 30th. The Nurse Anesthesia BSN to DNP major admits a **SPRING TERM COHORT** only; the application deadline is January 15th.

Applicants must apply online at https://app.applyyourself.com/?id=up-nurs.

**Admission to the DNP Program**

The DNP Program admits BSN graduates, advanced practice nurses and nursing administrators who have completed a graduate degree in nursing from a CCNE, ACICS, or ACEN [NLN] accredited program in nursing.*

* BSN graduates with a master's in other areas may be considered for admission.

**BSN to DNP**
• Current RN license in U.S. state/territory or locale where student will complete clinical requirements
• ≥ 3.0 GPA in BSN (from ACEN [NLN], ACICS, or CCNE accredited program)
• GRE: Verbal & Quantitative sections (competitive score), Analytical Writing (≥ 3)
• Prerequisite statistics course (within 10 years) with grade of B or higher
• Clinical experience for select focus areas ** preferred for selected majors and concentrations

**Clinical Experience for Select Focus Areas**

- Neonatal NP: Equivalent of 2 years full time (within last 5 years) nursing care of critically ill newborns, infants, and children in critical care inpatient settings (preferably Level III NICU) Students may enroll in pre-clinical courses while obtaining practice experience
- Nursing Administration: 2 years management experience
- Nurse Anesthesia BSN to DNP:
  Minimum 1 year full-time ICU/critical care nursing experience (within last 5 years) by start of program (may apply if employed in ICU/critical care and will have required experience before admission term)
- Nurse-Midwife: One year nursing experience in a Labor and Delivery unit preferred, but will consider applicants demonstrating other interest/experience in women's health.

**Doctor of Philosophy (PhD) Admission Process and Admission Criteria**

http://www.nursing.pitt.edu/degree-programs/doctor-philosophy-phd

Admission to the PhD program is assessed through interviews, references, standardized testing, and a written statement of goals. Prerequisites include parametric statistics courses that prepare the student in descriptive and inferential statistical analysis. The PhD program follows a FALL TERM ONLY COHORT ADMISSIONS process. Applicants to the PhD program must submit their completed applications by February 1. Complete applications received by February 1 will be reviewed and admission decisions made prior to June 1. Application decisions (except for international applicants) will be communicated electronically (by e-mail). Applicants must apply online at https://app.applyyourself.com/?id=up-nurs. The School offers BSN-PhD and MSN-PhD options. Applicants are expected to be RN's. The School of Nursing offers a BSN to PhD option, in which a student with a BSN can be admitted directly into the PhD program. In addition to completing all of the requirements for the traditional PhD program, the BSN to PhD student completes 30-33 credits at the master's level prior to beginning doctoral level course work. Detailed requirements for this program are included in the section describing the Doctor of Philosophy degree. This program is particularly appealing to nurses who wish to pursue a career in nursing research. Interested applicants should contact the Student Affairs & Alumni Relations Office at 412-624-4586 for further information.

Admission to the PhD Program
Admission to the PhD program is assessed through interviews, references, standardized testing, a written statement of goals, and a second writing sample. Documentation of academic success and achievement of competitive scores on the Graduate Record Examination (GRE) taken within the last five years are required.

Prerequisites to the advanced statistical courses in the program plan include two parametric statistical courses, which are to prepare the student in descriptive and inferential statistical analysis. If the student does not possess such a statistics background when entering the program, then the parametric statistics sequences offered in the Department of Biostatistics (BI OST 2041 and BI OST 2042) or in the Department of Psychology in Education (PSYED 2018 and PSYED 2019) must be taken and completed with a minimum of a B- grade. Students may fulfill these prerequisites at other universities. An evaluation of the content of a course taken elsewhere must be made by the Director of the PhD Program to determine its comparability with the prerequisite knowledge base needed by all students. Prerequisite statistics course work is reinforced by additional required courses during the student's doctoral program: a 3-credit course in regression analysis (BI OST 2049 or PSYED 2410) and an elective course in either advanced statistics or research methods. The doctoral faculty strongly recommends that students develop knowledge of and experience with word processing, database management, and computerized literature searches prior to applying to the PhD program.

Length of Program

The post-master's full-time student (MSN to PhD) may complete the program in approximately three to four years. Full-time enrollment is strongly encouraged. The PhD Program requires a minimum of 94 credits (this includes a maximum of 30 credits transferred from a master's degree). The part-time student may complete the program in four to six years. The statute of limitations for completion of the MSN to PhD track is eight consecutive calendar years from the first term of registration for credits that are in the required curriculum plan for the doctoral degree. (See Statute of Limitation/Leaves of Absence in the University bulletin for more information.)

In addition to the requirements for the traditional post MSN to PhD track, the BSN to PhD track (minimum of 94 credits) requires selected coursework from the master's program. These courses do not lead to a master's degree. Students admitted to the BSN to PhD track are expected to enroll full-time. The statute of limitations for completion of this track is 10 consecutive calendar years from the first term of registration for credits that are in the required curriculum plan for the doctoral degree. For more information, see School of Nursing Policy 208. Students in the BSN to PhD track are encouraged to pursue a master's degree in nursing.

Admission of Students from Other Countries (MSN, DNP, and PhD)

Students from other countries applying to the School of Nursing should apply using the same admissions process and admissions criteria described above. The application should be completed in English and be accompanied by official academic credentials with notarized English translations. Applicants must successfully complete the TOEFL or IELTS if English is a second language. Applicants must also have a professional nursing license. The following links specify the licensure requirement for the MSN, DNP, and PhD programs. Applicants who need to apply for a professional nursing license are encouraged to visit the Pennsylvania State Board website which contains information for internationally educated nurses applying to take the NCLEX-RN examination.

Insurance and Health Care Requirements

All students admitted with full or provisional status are required to participate in a University liability insurance policy annually and to have a physical examination upon admission. All admitted students are required to submit Act 33, 34 and 73 clearances completed within 3 months of admission. Individual students must meet additional health requirements of clinical agencies, such as drug testing and annual testing for tuberculosis. CPR certification will be validated in each clinical course. Students are required to carry health insurance for the duration of their study, which will cover payment for treatment and follow-up procedures related to injury or medical problems incurred during graduate study.

Financial Assistance

http://www.nursing.pitt.edu/scholarship-opportunities
The sources of awards and aid may include: professional nurse traineeships, graduate student assistant positions, graduate student researcher positions, teaching assistant positions, teaching fellow positions, school scholarships, pre- and postdoctoral training grant fellowships, federal Stafford Loans, private loans, and emergency aid.

Academic Policies

http://www.nursing.pitt.edu/resources-students/policies

All students in the School of Nursing are governed by School of Nursing and University policies. Therefore, it is essential that students regularly review and familiarize themselves with those policies, both general and graduate. Questions about policies should be directed to the academic advisor or to their respective program, major or area of concentration director/coordinator. Policies of particular importance deal with admission criteria, registration processes, transfer of credits, acceptable academic status, warning and probation, readmission, requirements for degree completion, academic integrity, unsafe clinical performance, and impaired clinical performance.

Advising

Each new student who is admitted to the graduate program is assigned a faculty advisor from the specific major area to which the student is admitted. The faculty advisor provides some initial orientation to the school, the University, and the program requirements. Each student meets at least once a term with the advisor for course selection and other academic advising, although students and advisors can meet additionally as needed. The advisor is actively involved if there are academic concerns.

Each student also can use the staff in the Student Affairs & Alumni Relations Office in the School of Nursing to obtain information about sources of financial aid, scholarships, school policies, registration, course availability, University resources, and community resources for help with personal problems. An online general orientation program is mandatory for all new students.

General Degree Requirements

To earn the Master of Science in Nursing (MSN), the Doctor of Nursing Practice (DNP) and Doctor of Philosophy (PhD) the student must demonstrate satisfactory academic achievement in required coursework prescribed by the curriculum with an overall academic achievement of a minimum Grade Point Average (GPA) of 3.00. Successful completion of a written comprehensive examination is also required for the MSN, BSN to DNP and PhD in nursing. The DNP requires a DNP project and the PhD requires successful defense of an original dissertation.

Application for Graduation

Each candidate for graduation must file an official Application for Graduation in the Nursing Student Affairs & Alumni Relations Office at least three months before the degree is to be completed, otherwise there is a fee assessment after the deadline. Students are required to be register for at least 1 credit at the University during the term in which they are graduating.

Major and Degree Options

The School of Nursing offers the following graduate degrees:

- The Master of Science in Nursing with majors and areas of concentration in the following areas:
  - Nurse Anesthesia*
  - Nurse Practitioner
  - Neonatal Nurse Practitioner
  - Clinical Nurse Leader
  - Nursing Administration*
Nursing Informatics

*not currently accepting applications

- The Doctor of Nursing Practice (DNP)
  - MSN to DNP Options
    - Nurse Practitioner
      - Adult-Gerontology Acute Care Nurse Practitioner
      - Adult Gerontology Primary Care Nurse Practitioner
      - Family (Individual Across the Lifespan) Nurse Practitioner
      - Pediatric Primary Care Nurse Practitioner
      - Neonatal Nurse Practitioner
      - Psychiatric Mental Health Nurse Practitioner
    - Clinical Nurse Specialist
      - Psychiatric Mental Health Nursing
      - Adult-Gerontology (CNS)
    - Nurse Specialty Role
      - Health Systems Executive Leadership
    - Nurse Anesthesia
  - BSN to DNP Options
    - Nurse Practitioner
      - Adult-Gerontology Acute Care Nurse Practitioner
      - Adult Gerontology Primary Care Nurse Practitioner
      - Family (Individual Across the Lifespan) Nurse Practitioner
      - Pediatric Primary Care Nurse Practitioner
      - Neonatal Nurse Practitioner
      - Psychiatric Mental Health Nurse Practitioner
    - Clinical Nurse Specialist
      - Adult-Gerontology (CNS)
    - Nurse Specialty Role
      - Health Systems Executive Leadership
    - Nurse Anesthesia
    - Nurse-Midwife

The Doctor of Philosophy (PhD) in Nursing (including the BSN to PhD and MSN to PhD options.)

*not currently accepting applications

Special Academic Opportunities/Programs

The School of Nursing offers a variety of special programs within its master's and doctoral programs:

Minors

Students in the Master's program, the DNP program and the PhD program have the option of completing a minor in nursing education, nursing informatics, nursing research, nursing administration, gerontology for nurse practitioners, or health care genetics. The minimum credits required to obtain a minor is 9-12 credits.

Post-MSN/DNP Certificates

Post-MSN/DNP certificates are available in nursing education, health care genetics, nursing informatics, nursing research, gerontology for nurse practitioners, adult-gerontology acute care nurse practitioner, neonatal nurse practitioner, and psychiatric mental health nurse practitioner. The certificate options require a minimum of 15 credits; additional credits may be required depending on the certificate program and previous graduate
course work. All students admitted to a nurse practitioner certificate programs must meet all curriculum requirements of the full graduate degree program, either through previous course work or credits earned during the certificate program. Individual review of transcripts will determine the exact number of credits needed to meet curriculum requirements.

The School of Nursing also offers coursework that allows students to obtain level-one school nurse certification through the Pennsylvania Department of Education.

Admission criteria for master's level certificate programs include:

Evidence of successful completion of MSN, DNP or other relevant first professional degree
Relevant work experience
Three letters of recommendation
Satisfactory interview with program faculty
Current RN license if the certificate program includes clinical experiences.

**RN Option (Early Admission to MSN/DNP)**

http://www.nursing.pitt.edu/degree-programs/rn-options-early-admission-msn-or-dnp

RN to MSN/DNP options provide a quality affordable way for registered nurses to earn their advanced degrees. Detailed requirements for these programs are included in the RN Option section of the undergraduate bulletin.

**Master's Degree Program**

The master's program leads to the Master's of Science in Nursing (MSN) degree, and consists of three majors: Nurse Specialty Role (Clinical Nurse Leader and Nursing Informatics), Nurse Anesthesia (currently not accepting applications), and Nurse Practitioner (currently only accepting applications to the Neonatal Nurse Practitioner area of concentration). The majors can be completed in full or part-time study. The curriculum design includes core courses, advanced practice specialty courses, and role development courses. Students in any of the majors may also elect to earn a minor in nursing administration, nursing education, nursing informatics, nursing research, or health care genetics.

**Doctoral Degree Programs**

School of Nursing-Doctoral Degree Programs

With one of the oldest nursing doctoral programs in the country, the School offers two programs to develop nursing leaders who can fulfill the expectations and demands of today's evolving health care system. Doctor of Philosophy

**Doctor of Philosophy (PhD)**

Doctor of Philosophy

The Doctor of Philosophy (PhD) program prepares nurse scholars who will discover and extend scientific knowledge that advances the science and practice of nursing and contributes to other disciplines. Graduates can assume leadership roles within research teams, health care systems, and schools of nursing in academic institutions.

The PhD program provides a coherent series of courses, seminars, and discussions designed to develop in the student a mature understanding of content, methods, and values of the discipline of nursing and its relation to other fields. The curriculum includes courses in history and philosophy of science, theoretical foundations for research and the structure of knowledge. Additional courses include advanced statistics; quantitative and qualitative research methods; and advanced quantitative methods; research emphasis seminars; instrumentation; and several research practica with experienced research mentors. Students work with faculty nurse researchers and researchers in other disciplines. The dissertation is the culminating requirement in the course of study.
Doctor of Nursing Practice (DNP)

http://www.nursing.pitt.edu/degree-programs/doctor-nursing-practice-dnp

The Doctor of Nursing Practice (DNP) program prepares nurses within a clinical focus (nurse practitioner, clinical nurse specialist, or nurse anesthesia) or a systems focus (nursing administration). Graduates are prepared for advanced practice at a new level of state-of-the-art science expertise with grounding in evidence based practice.

This practice-focused doctoral program will prepare nursing leaders for the highest level of clinical nursing practice. Throughout the program students will develop the clinical, organizational, economic, and leadership skills to design and implement programs of care delivery which significantly impact health care outcomes and have the potential to transform health care delivery. Graduates with this terminal clinical degree will be prepared for roles in direct care or indirect, systems-focused care.

In today's health care environment advanced practice nurses require complex clinical skills and sophisticated knowledge of the evidence-base for practice. Graduates of the DNP will be able to affect the health care delivery system by being superb clinicians, by evaluating the evidence base for nursing practice, by becoming leaders in the clinical arenas, by establishing standards and policies, and by meeting the needs of today's diverse health care systems.

Application Procedure

Pitt Nursing accepts applications for admission to all graduate programs via Apply Yourself. Each applicant must complete and submit the following:

1. A non-refundable application fee of $50.00
2. Complete official transcripts of all undergraduate and graduate education (sent by the institution at which courses were taken)
3. Competitive GRE Scores
4. Three letters of professional recommendation indicating the reviewer's support of the student's ability to successfully complete a demanding graduate level academic and clinical program. At least one recommendation should come from a current or recent direct supervisor. Before you submit your application, ask your references in which form they wish to submit their recommendation -- by paper or electronically. For both paper and electronic submission of recommendation letters, please follow the instructions outlined on Apply Yourself.
5. Personal essay stating one's philosophy of nursing, reasons for wanting to study in a particular major or concentration, expectation of the DNP program, and future career goals. This should include a proposed area of interest for the DNP project.
6. Current CV or resume

Admission of International Students

http://www.nursing.pitt.edu/admissions/international-applicants

Application is made through Student Affairs & Alumni Relations, School of Nursing, University of Pittsburgh, 239 Victoria Building, Pittsburgh, PA 15261, USA. Applications from international students are reviewed according to the DNP programs admission criteria stated above and are admitted as stated above. The application must be completed in English and accompanied by official academic credentials with notarized English translations.

Applicants to the Post-Master's DNP Program must have a degree comparable to the U.S. master's degree in nursing.

Applicants to the BSN to DNP Program must have a degree comparable to the U.S. baccalaureate degree in nursing or entry level master's degree in nursing. The official transcripts must show all high school and post-high school work, including grades in each course, examination grades and standing in examinations and classes, and whatever other credentials are available to give a clear description of the student's academic accomplishments. "Applicants to the DNP Programs from other countries should review Policy 201 INTERNATIONAL STUDENT ADMISSION, GRADUATE PROGRAM for additional admission criteria for international students."

Important Information for DNP Applicants from Other Countries

International students may not register until non-academic clearance has been issued by the University Office of International Services. It is especially important that the student have proof of adequate financial support and a current Visa.
After admission, the School of Nursing reserves the right, even after arrival and enrollment, to require, at the student's expense. Individual curriculum adjustments whenever particular deficiencies or needs are found. This could include enrollment in courses prerequisite to the regular course of study or additional course work in English as a second language.

To facilitate the educational experience and to help the student adjust to the United States, the University offers the support of the Office of International Services, 706 William Pitt Union, University of Pittsburgh, Pittsburgh PA 15260.

For international applicants whose native language is not English, successful achievement on the TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) is required.

After admission to the DNP program has been granted, actual enrollment in courses is contingent upon successful completion of the NCLEX-RN (National Council Licensure Examination for Registered Nurses) and licensure as a registered nurse in the state of Pennsylvania or the state or U.S. territory where the clinical practice requirements will be completed. To be eligible to take the NCLEX in Pennsylvania, a candidate must have passing scores on the CGFNS (Commission on Graduates of Foreign Nursing Schools) examination.

### Length of Program

A BSN is required for those applicants with MSN or PhD in nursing degree. The duration of the full-time program will depend on the student's preparation prior to entry: (1) Following a Bachelor's Degree in Nursing approximately 3 years full time; (2) Following a Master's Degree in nursing approximately 1-2 years full time. The applicant's master's transcript will be compared with the DNP curriculum and their previous coursework will be reviewed for permissible transfer credits in keeping with University policy and program requirements. (3) Following a PhD Degree in Nursing the length of the program is approximately 1-2 years full time. The applicant's PhD transcripts will be compared with the DNP curriculum. Academic credit for comparable coursework will be granted in keeping with University policy.

### Curriculum

Coursework and clinical practice are required in the DNP curriculum. The core theory content and set of core competencies for all DNP graduates are aligned with The Essentials of Doctoral Education for Advanced Nursing Practice, defined by the American Association of Colleges of Nursing [AACN].

The DNP focuses on evaluating evidence and using evidence in clinical decision-making, developing leadership skills, implementing viable clinical innovations, and applying research and theoretical understanding to plan and make changes in practice. There is also emphasis on a population perspective, assessment of populations, use of data to make programmatic decisions, and program evaluation.

Core courses of this curriculum focus on advanced evidence-based practice, organizational and systems leadership, clinical research and analytical methods for evidence-based practice, informatics and patient care technology for the transformation of health care, health care policy and finance, ethics, clinical prevention and population health, and inter-professional collaboration for improving patient and population health outcomes. The DNP educational experience culminates in a DNP Project that reflects the practice interest of the student and the synthesis and application of knowledge gained through the curriculum.

### School of Nursing Faculty

School of Nursing Faculty

### Program and Course Offerings

**Master's**

**Neonatal Nurse Practitioner**
The Neonatal Nurse Practitioner (NNP) is prepared to manage the health care of high-risk infants within families and children up to 2 years of age. This expanded clinician role is performed in collaboration with neonatologists and other pediatric clinicians. Graduates assume leadership roles in a variety of clinical settings including intensive care nurseries of various levels, newborn nurseries and high-risk follow-up clinics. Course work and clinical experiences focus on the care and management of critically ill and convalescent premature and full-term infants. Graduates select and perform diagnostic and therapeutic invasive procedures on newborns in the intensive care setting. Students are also prepared to participate in research.

The NNP area of concentration offers both full and part time study on the main campus in Pittsburgh. A post master's option is also available. Selected core courses may be transmitted to distance students (additional fees apply). Graduates are eligible to take the NNP certification examination offered by the National Certification Corporation (NCC) and for legal certification as a CRNP and prescriptive privileges through the State Board of Nursing of the Commonwealth of PA.

Applicant Requirements

A baccalaureate degree in nursing from a CCNE, ACICS or ACEN [NLN] accredited program in nursing An RN-Option, Early Admission to MSN/DNP is available for this Area of Concentration. Other requirements for admission include an application, transcripts, professional references, an essay, a resume/CV, a prerequisite undergraduate statistics course of at least three credits, with a minimum of a C grade, and a copy of a current license to practice nursing in a state or territory of the United States. All students must obtain a Pennsylvania license prior to beginning clinical courses. Official scores on the Graduate Record Examination (GRE). The GRE may be waived if the BSN GPA IS 3.5 or higher.

Relevant clinical experience: Equivalent of 2 year full time recent (within past 5 years) practice experience as a registered nurse in the care of critically ill newborns, infants, or children in critical care inpatient settings, primarily Level III or IV NICU is required before a student begins the clinical courses.

NNP Full-Time Sample Curriculum Plan:

Fall Term (YR 1)

- NUR 2044 - NUR GRAD ORIENTATION MODULE
- NUR 2004 - PATHPHYLGY ACROSS LIFE SPAN or
  NUR 2400 - RES FOR EBP 1 *
- NUR 2010 - HEALTH PROMO/DISEASE PRVNTN or
  NUR 2410 - HEALTH PROMO/DISEASE PRVNTN *
- NUR 2011 - APPLIED STATISTICS FOR EBP or
  NUR 2411 - APPLIED STATISTICS FOR EBP *
- NURNP 2026 - ROLE SEMINAR 1 or
  NURNP 2406 - ROLE SEMINAR 1 *
Spring Term (YR 1)

- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
  or
- NUR 2400 - RES FOR EBP 1 *

- NUR 2034 - ADVANCED PHARMACOLOGY
  or
- NUR 2434 - ADVANCED PHARMACOLOGY *

- NURNP 2540 - PEDIATRIC WELL CHILD CARE THRY
  or
- NURNP 2440 - PEDIATRIC WELL CHILD CARE THRY *

- NURNP 2570 - CMPRHNSV NEONATAL ASSMNT THRY

Summer Term (YR 1)

- NUR 2007 - RESEARCH FOR EBP 2
  or
- NUR 2407 - RES FOR EBP 2 *

- NUR 2031 - DIAGC PHYSCL EXAM LIFE SPAN

Fall Term (YR 2)

- NUR 2032 - DIFFERENTIAL DIAGNOSIS CLN
  or
- NUR 2432 - DIFFERENTIAL DIAGNOSIS CLN *

- NUR 2033 - DFFRNCL DIAG ACROSS LIFE SPAN
  or
- NUR 2433 - DIFFRNCL DIAG ACROSS LIFE SPAN *

- NURNP 2571 - GEN MGT OF SICK NEONATE-THEORY
- NURNP 2572 - GEN ASSMNT & MGT SICK NEONATE

Spring Term (YR 2)

- NURNP 2573 - NEONATAL DISEASE PROCESS 1
- NURNP 2028 - ROLE PRACTICUM

Summer Term (YR 2)

- NUR 2008 - ETHICS FOR ADV PRACTICE NUR
- NUR 2009 - POLICY/ORG/FINCG/ OF HLTH CARE
- NURNP 2574 - NEONATAL DISEASE PROCESS 2
- NURNP 2028 - ROLE PRACTICUM
Nurse Anesthesia Major (Last cohort will be admitted in September 2016)

http://www.nursing.pitt.edu/degree-programs/master-science-nursing-msn/msn-program-majors/nurse-anesthesia-msn

(Last cohort will be admitted in September 2016. Those interested in future terms should visit our DNP-Nurse Anesthesia page.)

The Nurse Anesthesia MSN Degree Program prepares registered nurses for entry into anesthesia practice. Through an integrated program of classroom and clinical instruction, students develop the didactic knowledge base and clinical skills necessary for safe and effective practice. Graduates are prepared to administer a full range of anesthetics to a wide variety of patients across the life span.

Students rotate through numerous clinical sites in Pittsburgh, the surrounding region and now more distant sites to enhance clinical experiences. Specialty rotations in cardiothoracic, neurosurgical, dental, organ transplantation, pediatrics, obstetrics, and electroconvulsive therapy enrich the program. The clinical program also incorporates rotations to community hospitals to more broadly prepare the graduate for practice in diverse settings. This is a time-intensive course of study and prospective students should consult the department for further details.

Nurse Anesthesia Curriculum

This major is offered in a full-time format over 28 months, and classes begin each August and January. Part-time study is also available. The curriculum design integrates classroom and clinical courses and consists of 20 nursing core credits and 32 anesthesia specialty credits. Clinical practice begins at two days a week in the first term and increases in both intensity and frequency throughout the course of study. Clinical practice in the last term is five days per week and is interspersed with clinical conferences and preparation sessions for the Certification Examination.

Nurse Anesthesia Sample Full Time Curriculum Plan for Students Beginning in the Fall Term:

http://www.nursing.pitt.edu/nurse-anesthesia-msn-fall-curriculum

Fall Term (YR 1)

- NUR 2044 - NUR GRAD ORIENTATION MODULE
- NUR 2004 - PATHPHYLGY ACROSS LIFE SPAN
  or
- NUR 2404 - PATHOPHYS ACROSS LIFE SPAN *
- NURSAN 2700 - BASIC PRINCIPLES OF ANESTHESIA
- NURSAN 2701 - CHEM & PHYSICS OF ANESTHESIA
- NURSAN 2791 - CLINICAL PRACTICUM (hours equivalent to 3 credits)

Spring Term (YR 1)
• NURSAN 2720 - APPLIED PHYSIOLOGY & PATHOPHYSIOLOGY

• NUR 2034 - ADVANCED PHARMACOLOGY
  or
• NUR 2434 - ADVANCED PHARMACOLOGY *

• NUR 2010 - HEALTH PROMOTION/DISEASE PREVENTION
  or
• NUR 2410 - HEALTH PROMOTION/DISEASE PREVENTION *

• NUR 2008 - ETHICS FOR ADVANCED PRACTICE NUR
• NURSAN 2792 - CLINICAL PRACTICUM (hours equivalent to 8 credits)

Summer Term (YR 1)

• NUR 2031 - DIAGNOSTIC PHYSICAL EXAMINATION OF THE LIFESPAN
• NURSAN 2730 - ADVANCED PRINCIPLES OF ANESTHESIA 1
• NURSAN 2731 - APPLIED PHARMACOLOGY
• NURSAN 2793 - CLINICAL PRACTICUM (hours equivalent to 8 credits)

Fall Term (YR 2)

• NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
  or
• NUR 2400 - RES FOR EBP 1 *

• NURSAN 2740 - ADVANCED PRINCIPLES OF ANESTHESIA 2
• NUR 2009 - POLICY/ORGANIZATION/Financing of Health Care

• NUR 2011 - APPLIED STATISTICS FOR EBP
  or
• NUR 2411 - APPLIED STATISTICS FOR EBP *

• NUR 2025 - PHYSICAL DIAGNOSIS-AN
• NURSAN 2794 - CLINICAL PRACTICUM (hours equivalent to 8 credits)

Spring Term (YR 2)

• NUR 2002 - RESEARCH PRACTICUM
• NURSAN 2750 - ADVANCED PRINCIPLES OF ANESTHESIA 3

• NUR 2007 - RESEARCH FOR EBP 2
  or
• NUR 2407 - RES FOR EBP 2 *

• NURSAN 2751 - TEAM TRAINING IN PATIENT SAFETY
• NURSAN 2795 - CLINICAL PRACTICUM (hours equivalent to 8 credits)

Summer Term (YR 2)
- NURSAN 2760 - CRNA ROLE SEMINAR
- NURSAN 2796 - CLINICAL PRACTICUM (hours equivalent to 13 credits)

Fall Term (YR 3)

- NURSAN 2797 - CLINICAL PRACTICUM (hours equivalent to 13 credits)

Comprehensive Examination

Total Credits: 52 credits

(+ 61 equivalent credits)

* These courses are available via distance education for qualified students per Policy 438 All anesthesia courses (NURSAN) must be taken sequentially.

Nurse Anesthesia Sample Full Time Curriculum Plan for Students Beginning in the Spring Term: (Applications will not be accepted for Spring 2017)

Spring Term (YR 1)

- NUR 2044 - NUR GRAD ORIENTATION MODULE

- NUR 2004 - PATHPHYLGY ACROSS LIFE SPAN
  or
- NUR 2404 - PATHOPHYS ACROSS LIFE SPAN *

- NURSAN 2700 - BASIC PRINCIPLES OF ANESTHESIA
- NURSAN 2701 - CHEM & PHYSICS OF ANESTHESIA
- NURSAN 2791 - CLINICAL PRACTICUM (hours equivalent to 3cr.)

Summer Term (YR 1)

- NURSAN 2720 - APPLD PHYSLGY & PATHPHYLGY

- NUR 2034 - ADVANCED PHARMACOLOGY
  or
- NUR 2434 - ADVANCED PHARMACOLOGY *

- NURSAN 2730 - ADV PRINCIPLES OF ANESTHESIA 1
- NUR 2008 - ETHICS FOR ADV PRACTICE NUR
- NURSAN 2792 - CLINICAL PRACTICUM (hours equivalent to 8cr.)

Fall Term (YR 1)

- NUR 2031 - DIAGC PHYSCL EXAM LIFE SPAN
- NURSAN 2740 - ADV PRINCIPLES OF ANESTHESIA 2
- NUR 2025 - PHYSICAL DIAGNOSIS-AN
• NURSAN 2731 - APPLIED PHARMACOLOGY
• NURSAN 2793 - CLINICAL PRACTICUM (hours equivalent to 8 cr.)

Spring Term (YR 2)

• NURSAN 2750 - ADV PRINCIPLES OF ANESTHESIA 3
• NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
  or
• NUR 2400 - RES FOR EBP 1 *
• NUR 2011 - APPLIED STATISTICS FOR EBP
  or
• NUR 2411 - APPLIED STATISTICS FOR EBP *
• NURSAN 2751 - TEAM TRAINING IN PATIENT SAFETY
• NUR 2009 - POLICY/ORG/FINCG/ OF HLTH CARE
• NURSAN 2794 - CLINICAL PRACTICUM (hours equivalent to 8 cr.)

Summer Term (YR2)

• NURSAN 2760 - CRNA ROLE SEMINAR
• NUR 2007 - RESEARCH FOR EBP 2
  or
• NUR 2407 - RES FOR EBP 2 *
• NUR 2002 - RESEARCH PRACTICUM
• NURSAN 2795 - CLINICAL PRACTICUM (hours equivalent to 8 cr.)

Fall Term (YR 2)

• NUR 2010 - HEALTH PROMO/DISEASE PRVNTN
• NURSAN 2796 - CLINICAL PRACTICUM (hours equivalent to 13 cr.)

Spring Term (YR 3)

• NURSAN 2797 - CLINICAL PRACTICUM (hours equivalent to 13 cr.)

Comprehensive Examination

Total Credits 52 Credits

(+61 equivalent cr.)

* These courses are available via distance education for qualified students per Policy 438

All anesthesia courses (NURSAN) must be taken sequentially.
Nurse Specialty Role

- Clinical Nurse Leader Concentration
- Nursing Administration Concentration
- Nursing Informatics Concentration

Doctoral

DNP

- Clinical Nurse Specialist
- Nurse Practitioner
- Nurse Specialty Role
- Nurse-Midwife, BSN to DNP
- Nursing Anesthesia

PhD

- Nursing - BSN to PhD Track
- Nursing - Post-MSN to PhD Track

Minor

Gerontology for Nurse Practitioners

A 9-credit Gerontology Minor for Nurse Practitioners (NP) can be obtained by DNP students who are enrolled in the Family (Individual Across the Lifespan) Nurse Practitioner (FNP) or the Psychiatric Mental Health Nurse Practitioner (PMHNP) programs. The NP functions in an expanded role that includes the diagnoses and management of health care needs of a specific population and this gerontology minor will prepare the NP to develop expertise in the care of older adults.

Health Care Genetics

Genetic based medicine is routinely becoming a part of daily health care, having major impacts on patient diagnosis, prognosis and treatment. Nurses need to understand how genetics impacts these facets of their patient care. This minor program will prepare them for the medical advances that are occurring in the field of genetics. The minor involves the completion of a minimum of 12 credits of coursework.

Nursing Administration

Courses in the Nursing Administration minor focus on management in complex social and operational systems for healthcare delivery. Attention is given to applying role-related knowledge and skills in diverse settings and populations, including acute care, long term care, psychiatric, and community. The minor in Nursing Administration requires 12 credits, including a 3-credit practicum.

Nursing Education

The Nursing Education Minor is available to students majoring in a clinical practice area or advanced specialty role e.g., informatics, and will provide a foundation of knowledge and skills related to teaching and learning. This minor will enable students to apply instructional theory and
research in the following types of educational settings and roles: schools of nursing, health care agency staff development, continuing education departments, advanced practice nursing and patient and community education agencies. The minor involves the completion of a minimum of 12 credits of identified coursework.

**Nursing Informatics**

The onsite Nursing Informatics Minor is available to other graduate (MSN, DNP and PhD) students and will appear on the transcripts of graduates, giving evidence of the fact that they had a concentration of courses in the area of Nursing Informatics. Students who complete the program will have specialized Nursing Informatics training that will increase their marketability. The minor requires the completion of a minimum of 10.5 credits of coursework.

**Nursing Research**

The Minor in Nursing Research is available to students pursuing education in advanced clinical specialty roles who want the opportunity to also obtain training pertinent to the coordination and conduct of clinical research. The minor requires the completion of a minimum of 12 credits of coursework focusing on research methodology and statistics.

**Certificate**

**Adult-Gerontology Acute Care Nurse Practitioner**

**Post-MSN/DNP Adult-Gerontology Acute Care Nurse Practitioner**

Post-MSN/DNP Adult-Gerontology Acute Care Nurse Practitioner

This non-degree certificate curriculum is designed for nurse practitioners or clinical nurse specialists with a previous Master of Nursing or Doctor of Nursing Practice (DN) degree who are seeking to expand their roles via nurse practitioner certification in Adult-Gerontology Acute Care. This certificate requires 23 credits.

**Genetics**

This curriculum is designed for Bachelor's Degree prepared individuals who are seeking focused, graduate-level education in the specialty of genetics. Knowledge gained through coursework will enable health care workers to better care for and educate their patients. The curriculum consists of two courses (6 credits) taught through the School of Nursing (Introduction to Genetics and Molecular Therapeutics and Advanced Topics in Human Genetics) and 9 credits taught through other departments in the Schools of the Health Sciences (selected to meet the student's career goals or interests) A total of 15 credits are required for this certificate.

In addition to the courses, learning experiences may be enriched through the availability of Clinical Genetics Case Conferences, Human Genetics Research Seminar, Human Genetics Journal Club, Genetics Grand Rounds, and a Research Practicum in a molecular genetics laboratory.

**Gerontology for Nurse Practitioners**

This certificate is intended for nurse practitioners who are seeking to increase their knowledge about the care of older adults. Content on the diagnosis and management of health problems in older adults is offered through a combination of didactic and clinical learning experiences.

**Health Care Genetics**
This curriculum offers the course work necessary to fulfill the educational requirement for credentialing as an Advanced Practice Nurse in Genetics, which is offered through the American Nurses Credentialing Center. The certificate can be completed on a part-time basis. A total of 15 credits are required for this certificate.

**Neonatal Nurse Practitioner**

http://www.nursing.pitt.edu/degree-programs/certificates/post-msndnp-certificate-neonatal-nurse-practitioner-nnp

This non-degree certificate is designed for nurses with previous Masters or DNP preparation as a family or pediatric nurse practitioner who are seeking to expand their role to practice as neonatal nurse practitioners. This certificate requires a minimum of 25 credits.

**Nursing Education**

This curriculum is a combination of didactic, preceptorship, and web-supported learning, offering flexibility for individualized learning. Part-time study is possible. A total of 15 credits are required for this certificate.

**Nursing Informatics**

This onsite curriculum offers flexibility in individualized learning. A total of 15 credits are required for the certificate and can be completed in four academic terms.

**Nursing Research**

**Post-Baccalaureate Certificate and Post-Master/DNP in Nursing Research**

This curriculum provides a multidisciplinary non-degree certificate for Bachelor's prepared nurses who are seeking focused education in the field of research. Non-BSN prepared registered nurses with a Bachelor's degree in a non-nursing field are eligible to apply for the certificate, but will be evaluated individually for admission. Current graduate students and those who have completed a graduate degree are also eligible. This certificate can be completed on a part-time basis. A total of 17 credits are required for this certificate.

**Psychiatric Mental Health Nurse Practitioner**

This certificate provides the theory content and skill development for a Nurse Practitioner role with a focus on individuals' psychiatric illnesses and their management across the lifespan. This certificate requires a minimum of 34 credits.

School of Pharmacy

The School of Pharmacy has been developing leaders who have been driving the future of pharmacy for over 135 years. We investigate, discover, and create ways to improve patient health and, through partnerships, change practice and improve efficiency of care. Pitt Pharmacy ranks in the top ten in NIH funded research and in US News and World Report among schools of pharmacy. The School of Pharmacy leads the way in education, personalizing education and getting students to expert faster. Chartered in 1878, the School of Pharmacy is among the oldest pharmacy schools in the country.

Doctor of Pharmacy (PharmD) Program

The professional curriculum is configured in a course of study requiring two years (62 credits) of pre-professional study followed by four years of professional courses. The four-year professional curriculum emphasizes problem solving and critical thinking, blending classroom and laboratory learning with experiential learning practice. The required component of experiential learning is designed to facilitate progress from initial stages of making meaningful connections with patients to caring for complex patients with acute and chronic diseases. Experiences include patient care in communities, in hospitals, and during transitions of care. This experiential education begins in the first weeks of your P1 year.

Through our commitment to personalizing education, PittPharmacy inspires students to use their unique interests and talents to improve the lives of people through the safe, effective, and responsible use of medications and other interventions.

The PharmD program prepares students to be practitioners who advance the profession by fostering innovation, leadership, interprofessional collaboration, civic engagement, advocacy, life-long learning, and a professional attitude of inclusion.

Contact Information

School of Pharmacy
904 Salk Hall
Admissions: 412-383-9000
Fax: 412-383-9996
E-mail: rxschool@pitt.edu
www.pharmacy.pitt.edu

Admissions

The School of Pharmacy admits students to its programs under one of two statuses—guarantee or open. Those two admission statuses are detailed below:

Pharmacy Guarantee Freshman Admission

All students should first submit an application to the University of Pittsburgh, Office of Admissions and Financial Aid. The School offers a guaranteed acceptance to a limited number of high school seniors who enroll at one of the University of Pittsburgh campuses. The number of guaranteed offers is limited and offered on a rolling basis. Students who have demonstrated academic success in high school, score 1360 or higher on the SAT I (Math and Critical Reading sections), with a minimum of 690 in the Math section, and specify Pharmacy on the application will be offered the guaranteed admission, if available.

Students who receive the guaranteed admission are expected to perform well in their pre-professional courses regardless of SAT I scores. In order to secure a place in the PharmD Program, students must earn:

- a letter grade of a C or better in all pre-professional courses with no repeat of pre-professional courses
- a 3.25 or greater overall GPA in pre-professional courses
- a 3.25 or greater GPA in the required Math and Science courses
• Note: Math and Science required courses must be taken at the University of Pittsburgh (AP credits are acceptable)

To exercise the guaranteed admission, all applicants, must:

• Submit the Pharmacy College Admissions Test (PCAT) scores
• Submit a completed PharmCAS application and fee
• Submit a completed Supplemental Application and fee
• Participate in a satisfactory interview prior to the School of Pharmacy admission
• Students who meet these performance criteria will be admitted into the PharmD Program.

Open Admission

All other students admitted to the program through open admission compete for remaining spaces in the class. The requirements to be considered a competitive applicant for the School of Pharmacy's professional program are:

• completion of the preprofessional requirements
• science GPA of at least 3.0
• submission of the Pharmacy College Admission Test (PCAT) scores
• submit a completed PharmCAS application and fee
• completion of a Supplemental Application and fee
• selected applicants will be required to participate in a satisfactory interview (Interviews are by invitation only)

More information about PharmCAS and deadlines for application can be found at www.pharmcas.org.

Students applying for admission must apply through PharmCAS, the Web-based Pharmacy College Application Service.

Visit the School of Pharmacy Web site at www.pharmacy.pitt.edu.

Application Procedures and Deadlines

All applicants must file an application through PharmCAS, a Web-based Pharmacy College Application Service, by December 1, 2016 and submit the Supplemental Application by January 5, 2017.

The application process, application deadlines, and other admission requirements are summarized on the School of Pharmacy Web site.

For all steps in the application process, it is your responsibility to follow all instructions and meet all deadlines. Failure to do so might result in your application being canceled. It is highly recommended that you apply early to ensure that all of your application materials are received by the December deadline.

Preparing to Complete the Application

We recommend that you review the application process completely before entering data or filling out forms so that you're aware of all the information you need to gather and how much time the entire process will take. Visit the PharmCAS Web site at www.pharmcas.org and review the "Before You Apply" tab. Then review the Checklist, PharmCAS Instructions, and the Applicant Code of Conduct links. Review the time line for the application process: Admissions Calendar

Complete Pre-professional Courses and Minimum Eligibility Requirements: Math & Science course requirements must be completed by the end of spring term of year of admission and all other courses must be completed before the fall term. NOTE: Early Decision applicants must have all of the preprofessional required course work completed and letter grades recorded on official transcripts by the PharmCAS Early Decision deadline of September 9, 2016.

Register to take the PCAT (Pharmacy College Admission Test): Visit the PCAT web site for registration deadlines for test dates and register as early as possible since the test sites have a limited number of examinee seats for each exam date. Register to take the PCAT (recommended test dates include July and/or September, October/November) and have your scores sent to PharmCAS, code 104. Applications are not complete until PCAT
scores are received. Only completed applications are eligible for review for an interview invitation. NOTE: January PCAT scores will not be received until after interviews are offered.

Completing the Application Process

The application process consists of 2 applications. Both applications are required.

PharmCAS (Pharmacy College Application Service): This is a service that enables you to generate one primary application that can be submitted to multiple PharmD degree programs. For the University of Pittsburgh School of Pharmacy the application must be electronically submitted on or before midnight Eastern Standard Time on December 1.

To eliminate any unforeseen problems, it is recommended that you submit your application early; i.e., November 1. This will ensure eligibility to update fall grades and if any issues arise, they can be investigated and resolved before the December deadline.

Supplemental Application: This is an online application that the University of Pittsburgh School of Pharmacy requires. The supplemental application must be submitted online by January 5. A supplemental application fee of $65.00 must be submitted to the School of Pharmacy via credit card, check or money order by January 5. Check or money order must be made payable to the University of Pittsburgh and mailed to:

University of Pittsburgh School of Pharmacy
Curran Center for Pharmacy Students
3501 Terrace Street
904 Salk Hall
Pittsburgh PA 15261

It is beneficial to submit an application early so that any problems or discrepancies can be resolved before the deadline. NOTE: Late supplemental applications are not accepted under any circumstances.

After electronically submitting the PharmCAS application and the Supplemental application and fee for the PharmD program, there are follow-up steps that applicants must address to be certain that all the required documents (such as transcripts to PharmCAS) have been received on time.

Tuition and Financial Aid

The University offers scholarships, grants-in-aid, tuition loans, and student employment for undergraduate students. Students should investigate with the University of Pittsburgh's financial advisors their eligibility for federal and state programs by calling the Office of Admissions and Financial Aid at 412-624-PITT or e-mail oafa@pitt.edu.

The University's financial advisors are the best source of information about local grants or scholarships that go beyond federal and state programs. Students are encouraged to look outside of the health professions for additional support. Students may be able to compete successfully for economically or academically awarded scholarships from private groups and associations.

In addition, the School of Pharmacy has a number of general scholarships provided through the generosity of the school's alumni and friends. These are described in detail on the school's Web site at http://www.pages.pharmacy.pitt.edu/pharmdhandbook/the-pharmd-student-handbook/admissions/scholarships/

Academic Year 2016-2017 Tuition Rates:

Academic and Professional Standards
Academic Integrity

School of Pharmacy students are responsible for upholding the standards of behavior outlined in the University's Guidelines on Academic Integrity, the University's policy on sexual harassment, and other policies related to student behavior.

Enrollment in the School of Pharmacy carries with it obligations of conduct within and outside of the classroom. Professional students are expected to have the highest standards of personal integrity and conduct themselves in a manner that is a credit to themselves, the school, and the profession.

Each year, students will be asked to sign a copy of the University of Pittsburgh School of Pharmacy Code of Conduct that reaffirms their commitment to ethical and professional behavior. Details of the Code are outlined on the school's Web site.

Grading System

Doctor of Pharmacy students are subject to the provisions of the Guidelines and Regulations for the Promotion of Students in force at the time. All students will be given a copy of these guidelines and regulations upon entry into the program.

Calculation of grade point average (GPA) will include all required professional courses and approved electives taken while enrolled in the PharmD program. Cumulative GPA will be calculated at the end of each term. All PharmD students must maintain a cumulative GPA of 2.00. Students who fail to maintain a cumulative GPA of 2.00 or above will be placed on academic probation and given one opportunity to repeat selected courses in order to raise their cumulative GPA above 2.00. Students failing to increase their cumulative GPA above a 2.00 during this period of academic probation will be dismissed from the PharmD program. Term GPA will be calculated at the end of each term. Students with a term GPA under 2.00 will be placed on academic probation and must achieve a GPA of 2.00 or above during the following term. Students failing to achieve a term GPA of 2.00 or above during this period of academic probation will be dismissed from the PharmD program.

Immunization Policy

The School of Pharmacy requires proof of immunization against measles, mumps, rubella, varicella, hepatitis B, tetanus, diphtheria, and polio. In addition, all students are required to provide the results of a two-step tuberculin skin test prior to enrollment and each year thereafter. In order to ensure that students will be able to participate in experiential learning at pharmacy practice sites, students must complete all of the immunization requirements by two weeks prior to the start of classes. Affiliation agreements between the School and sites providing experiential rotations require that all students must comply with public health policies in effect for persons involved in patient care activities at those sites. Therefore, the School cannot place students in experiential learning sites without having documentation of the immunization history as outlined above.

Program Accreditation

University of Pittsburgh's Doctor of Pharmacy Program is accredited by the Accreditation Council for Pharmacy Education, 135 South LaSalle Street, Suite 4100, Chicago, IL 60603, 312/664-3575; FAX 312/664-4652, web site www.acpe-accredit.org.

PhD or MS in Pharmaceutical Sciences

The School of Pharmacy offers training at the graduate level to highly motivated individuals. Our mission is to train the next generation of leaders and decision makers seeking to improve the health of the community through outstanding basic and clinical research. Major strengths include highly accomplished, well funded research faculty, multidisciplinary training opportunities, and cutting edge technologies.

Training consists of required core courses, elective courses, journal clubs, research presentations, and an original faculty-advised research project leading to a final thesis or dissertation. Students may select to enroll in one of five Primary Tracks: medicinal chemistry, biochemical pharmacology, pharmaceutics, clinical pharmaceutical sciences, or health outcomes and policy research.

Contact Information
Lori Altenbaugh
Graduate Program Coordinator
University of Pittsburgh
School of Pharmacy
904 Salk Hall
Pittsburgh, PA 15261
412-648-1014
altenbaughlm@pitt.edu

Application Process

Applications must be submitted electronically. Application to our program requires a $75.00 fee which cannot be waived.

Applications for the fall term must be submitted no later than January 6. Applications are reviewed on a first-come, first-served basis so it is wise to apply as early as possible. No applications are accepted for spring term admission.

It is highly recommended that applicants to the PhD program have research experience. It is also recommended that students mention specific faculty in the Personal Statement.

Students applications are reviewed once the application has been completed. No preliminary assessments are made on individuals applying to the program until all application requirements are complete. The GRE is required in order to submit your application. Subject-specific tests are not required. GRE scores are good for five years; the ETS will not release GRE scores after 5 years from the date of the exam. We do not state a minimum GRE or GPA as we prefer to look at the entire representation of the applicant. The average GRE score for those students admitted for 2016 is 160 (85th percentile).

We require three references that MUST be submitted online. Written references are not accepted.

IMPORTANT: WE DO NOT ACCEPT ANY DOCUMENTS SENT VIA MAIL TO OUR DEPARTMENT. You will be notified if your application is reviewed and you are invited for an interview. At that time you will need to supply an official copy of your transcript.

International Students

For the Test of English as a Foreign Language (TOEFL), a minimum result of 100 on the iBT (Internet-based test) is required. For IELTS the minimum acceptable score is 7.0. You must submit GRE and TOEFL (or IELTS) scores to the University of Pittsburgh, institution code is 2927. You do not need a department code. TOEFL scores are good for two years; the ETS will not release TOEFL scores after 2 years from the date of the exam. If you have graduated from a U.S. institution OR if English is the official language of your country then proof of English proficiency is not required.

Financial Assistance and Tuition

Most students accepted to our PhD program are offered full tuition scholarship plus a teaching assistant stipend. Teaching assistant experience is not necessary as you will be trained upon acceptance into the program.

For the 2016-2017 academic year we granted scholarships and TA positions to eight new admissions from pool of approximately 100 applications. No financial assistance is available to MS students. For the MS degree the estimated costs for tuition, fees, REQUIRED health insurance, and living expenses are here (based on 2016-1017 tuition; subject to change):

Tuition $25,500 (in-state) $26,484 (out-of state)

Fees $830.00 (in-state and out of state)

Living Expences $16,000.00
Insurance $3,500.00 (student only)

Total/Year $42,912.00 (in-state) $44,294.00 (out-of-state)

All fees are the same for the PhD program for those students who are not offered a scholarship.

**Length of Programs**

The PhD Program requires a minimum of 72 credits. Most students complete the PhD degree within five years. The statute of limitations for completion of the PhD degree is ten years. (See Statute of Limitation/Leaves of Absence in the University catalog for more information.)

The MS (thesis-based) program requires a minimum of 30 credits. Most students complete the MS degree in two academic years. The statute of limitations for completing the MS degree is four consecutive calendar years from the first term of registration.

The Non-Thesis MS program requires a minimum of 34 credits and is usually completed within one calendar year (three semesters). The statute of limitations for completing the MS degree is four consecutive calendar years from the first term of registration.

**Academic Standards**

School of Pharmacy students are responsible for upholding the standards of behavior outlined in the University's Guidelines on Academic Integrity, the University's policy on sexual harassment, and other policies related to student behavior.

**MS Pharmacy Business Administration**

The 12-month executive style Master of Science in Pharmacy Business Administration (MSPBA) program consists of 36 credits that build critical skills and expertise for pharmacy professionals seeking to substantially increase their business acumen and marketability.

**Contact Information**

Amy Giles  
Program Coordinator  
University of Pittsburgh  
School of Pharmacy  
724 Salk Hall  
Pittsburgh, PA 15261

Amy.Giles@pitt.edu

**Application and Requirements**

**Prerequisite**

- Two years of professional experience is recommended.
- Candidates with a PharmD or BS in Pharmacy will receive preferential admission.

To apply to the program, you must complete the following requirements:

- Completed Application Form (Application PDF)
- Résumé or CV
- One self-nomination letter describing:
  - Current job responsibilities and assignments
  - Finest achievements and greatest disappointments
  - Challenges met within current organization
  - Civic and community activities and any offices held
  - Reasons and motivations for entering the MSPBA program
  - Professional and personal goals and plans
  - Two letters of professional reference
  - College or university transcripts
  - Graduate school admission exam scores (recommended)
  - GMAT
  - TOEFL or the IELTS examination (for anyone who speaks English as a second language)
  - In-person interview with MSPBA program representatives.

Applicants will be contacted for scheduling of an on-site interview following receipt of complete packet of information

Tuition and Financial Aid

Tuition

The investment for the University of Pittsburgh MSPBA program is $58,050, paid in equal parts of $19,350 per term.

Students traveling in from out of town are responsible for all travel expenses.

The MSPBA faculty will have a list of hotels and University pricing from which students can select and reserve rooms for the scheduled days of class.

Financial Aid

Federal Stafford loans are available to U.S. citizens for up to $20,500 per academic year. Refer to the University’s Office of Admissions and Financial Aid for information on how to apply. U.S. citizens who are funding the degree in full, in part, or whose employer reimburses only after the end of a term, may consider financing. Furthermore, students may also finance their costs through standard loans.

Tuition Covers

- All books, cases, and simulations; meals during class sessions
- Microsoft Windows and Program Bundle software packages
- Access to all University of Pittsburgh student resources such as libraries, fitness facilities, and public transportation while on campus

School of Pharmacy Faculty

Dean Patricia D. Kroboth, PhD, (University of Pittsburgh)

Senior Associate Dean, Professor Randall B. Smith, PhD (University of Texas)

Associate Dean for Community Partnerships, Associate Professor Melissa A. McGivney, PharmD (University of Pittsburgh)

Associate Dean for Education, Professor Susan M. Meyer, PhD (Purdue University)

Associate Dean for Graduate and Postdoctoral Programs, Professor Samuel M. Poloyac, PhD (University of Kentucky)
Associate Dean For Business Innovation, Associate Professor Gordon J. Vanscory, MBA (University of Pittsburgh)

Associate Dean for Research Innovation, Professor Xiang-Qun Xie, MD, PhD (Second Military Medical University in Shanghai China; University of Connecticut)

Assistant Dean of Students, Professor Sharon E. Corey, PhD (West Virginia University)

Assistant Dean for Academic Affairs, Associate Professor Denise L. Howrie, PharmD (University of Cincinnati)

Chair of Pharmaceutical Sciences, Professor Barry Gold, PhD (University of Nebraska-Lincoln)

Chair of Pharmacy and Therapeutics, Associate Professor Amy L. Seybert, PharmD (University of Pittsburgh)

Assistant Professor Olufunmilola Abraham, PhD (University of Wisconsin-Madison)

Instructor Ameer Ali, PharmD (University of Pittsburgh)

Associate Professor Sherrie L. Aspinall, PharmD (Duquesne University)

Associate Professor Neal J. Benedict, PharmD (Duquesne University)

Assistant Professor Lucas A. Berenbrok, PharmD (University of Pittsburgh)

Associate Professor Jan H. Beumer, PhD (University of Utrecht, Netherlands)

Professor Kim C. Coley, PharmD (University of the Sciences in Philadelphia)

Assistant Professor Sharon E. Connor, PharmD (Creighton University)

Associate Professor James C. Coons, PharmD (University of Pittsburgh)

Assistant Professor Colleen M. Culley, PharmD (Butler University)

Associate Professor Amy C. Donihi, PharmD (The State University of New York at Buffalo)

Associate Professor Scott R. Drab, PharmD (Duquesne University)

Assistant Professor Kerry M. Empey, PhD (University of Kentucky)

Assistant Professor Philip E. Empey, PhD (University of Kentucky)

Assistant Professor Christopher E. Ensor, PharmD (University of Rhode Island)

Associate Professor Tanya J. Fabian, PhD (University of Pittsburgh)

Assistant Professor Bonnie A. Falcione, PharmD (Duquesne University)

Assistant Professor Roberta M. Farrah, PharmD (University of Pittsburgh)

Assistant Professor Christian A. Fernandez, PhD (University of Iowa)

Assistant Professor Mary M. Folan, PhD (University of Pittsburgh)

Clinical Assistant Professor Carl Gainor, JD, PhD (University of Pittsburgh)

Professor Robert B. Gibbs, PhD (University of California, Irvine)

Associate Professor Sandy Kane Gill, PharmD (University of Toledo)

Instructor Lorin B. Grieve, PharmD (University of Pittsburgh)
Associate Professor Deanne L. Hall, PharmD (University of Pittsburgh)
Assistant Professor Inmaculada Hernandez, PhD (University of Pittsburgh)
Research Professor Donna Huryn, PhD (University of Pennsylvania)
Research Assistant Professor Prema C. Iyer, PhD (University of Mumbai, India)
Assistant Professor Heather Johnson, PharmD (University of Minnesota)
Research Associate Professor Paul A. Johnston, PhD (University of East Anglia, England)
Lecturer Stanton Jonas, MPH (University of Pittsburgh)
Assistant Professor Lauren Jonkman, PharmD (University of Pittsburgh)
Research Assistant Professor Galina P. Kirillova, PhD (Moscow State University)
Professor Levent Kirisci, PhD (University of Pittsburgh)
Assistant Professor Amanda S. Korenoski, PharmD (University of Pittsburgh)
Research Assistant Professor Jiang Li, MD, PhD (Hunan Medical School, China)
Professor Song Li, MD, PhD (Fourth Military Medical University, China)
Associate Professor Xiaochao Ma, PhD (Chinese Academy of Sciences, China)
Assistant Professor Lee A. McDermott, PhD (Brown University)
Research Assistant Professor Terrance F. McGuire, PhD (University of Pittsburgh)
Assistant Professor M. Beth Minnigh, PhD (University of Pittsburgh)
Associate Professor Thomas D. Nolin, PhD (University of Pittsburgh)
Assistant Professor Karen S. Pater, PharmD (University of Tennessee)
Associate Professor Brian A. Potoski, PharmD (University of Pittsburgh)
Associate Professor Janice L. Pringle, PhD (University of Pittsburgh)
Assistant Professor Jennifer A. Pruskowski, PharmD (Wilkes University)
Assistant Professor James J. Pschirer, PharmD (University of Arkansas)
Assistant Professor Bridget T. Reagan, MBA (University of Pittsburgh)
Research Assistant Professor Maureen D. Reynolds, PhD (University of Pittsburgh)
Professor Lisa C. Rohan, PhD (University of Pittsburgh)
Assistant Professor Shilpa Sant, PhD (Univeristy of Montreal, Canada)
Assistant Professor Vinayak Sant, PhD (University of Mambai, India)
Assistant Professor Christine M. Scelsci, PharmD (University of Pittsburgh)
Professor Paul L. Schiff, PhD (The Ohio State University)
Assistant Professor Kristine S. Schonder, PharmD (Duquesne University)
Program and Course Offerings

Master's

Pharmaceutical Sciences - Biochemical Pharmacology Track, MS

Biochemical Pharmacology

The biochemical pharmacology track focuses on the biochemical mechanisms responsible for drug and other xenobiotic, and gene actions on living systems, both healthy and compromised.

- You will have the opportunity to study with faculty in multiple areas including behavioral, cardiovascular and endocrine pharmacology, neuropharmacology, immunopharmacology, chemotherapy, toxicology, and metabolic diseases.
- Your research opportunities include studying the biochemical mechanism of drugs and genes in cell cultures and/or healthy and compromised animal models.
- You will have the opportunity to create and/or use genetically engineered animals that include transgenic and knockout mice, as well as to integrate disease models into the animal models in order to study the gene function in diseases.
- You will develop a broad knowledge of the regulation of drug metabolizing enzymes and transporters and the implications of this regulation in drug metabolism.
MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3036 - DRUG DELIVERY & TISSUE ENGR

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Clinical Pharmaceutical Scientist Track, MS
Clinical Pharmaceutical Scientist

The clinical pharmaceutical scientist is a specialty track in which students with expertise in pharmacotherapeutics investigate both the clinical and mechanistic elements of drug therapy issues.

- You will learn experimental design, experimental methods, data analysis, and data interpretation of human-based research projects.
- You will study how research discoveries are translated into practices that promote health and prevent disease.
- You will learn the process required to implement new therapies as standards of care through human-based research projects.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3036 - DRUG DELIVERY & TISSUE ENGR

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Medicinal Chemistry Track, MS

Medicinal Chemistry

The medicinal chemistry track is a complex scientific discipline whose focus is to develop molecules that can impact human health by discovering, designing, synthesizing and characterizing safe and effective agents for disease therapy and diagnosis. The research involves a multidisciplinary approach encompassing chemistry and biology, and includes organic synthesis, protein and nucleic acid chemistry, natural product chemistry, computational chemistry, molecular biology, cell biology, structural biology, pharmacology and proteomics.

- You will learn to design, synthesize and characterize new medicinal agents and enhance the biological activity of existing pharmaceutical agents.
- You will learn to use computational, biophysical, structural biology and cell-based screening technologies to identify natural and synthetic compounds for pharmacological activity and to conduct structure-based drug design.
- You will isolate, characterize, and synthesize compounds based on natural products, as well as target identification for biologically active natural products.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
- PHARM 3036 - DRUG DELIVERY & TISSUE ENGR

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
Choose one of the following Journal Club Courses:

- PHARM 3000 - TOPICS IN NEUROSCIENCE
- PHARM 3009 - ADVANCES IN PHARMACY SCIENCES
- PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmaceutical Sciences - Non-Thesis, MS

The Graduate Program in Pharmaceutical Sciences is pleased to offer the new Non-Thesis MS degree to qualified students.

Why choose the non-research based thesis?

Students will be able to complete the MS degree in one calendar year. Our MS in Pharmaceutical Sciences attracts students interested in drug discovery, delivery, and metabolism in addition to pharmacology, pharmacokinetics, and pharmacodynamics. Graduating with the MS in Pharmaceutical Sciences will prepare you for employment in pharmaceutical manufacturing plants and labs. Pharmacologically-trained professionals are involved in biotechnology, research, synthesizing and testing new compounds, in marketing and sales of pharmaceuticals and biomedical devices, and in pharmaceutical benefit management. Some areas where graduates with degrees in Pharmaceutical Sciences are sought after are Cosmetic Science, Industrial Pharmacy, and University-based laboratory areas.

Non-Thesis MS Academic Requirements for Acceptance

- A BS or BA in biochemistry, biology, chemistry, pharmacy, pharmaceutical sciences or a related field is required.
- Applications must be submitted electronically.
- We require three references that MUST be submitted online. Written references are not accepted.
- Successful applicants will be admitted for fall 2012. We do not accept Spring Admissions.
- The Graduate Record Examination (GRE) is required and must have been taken within the past three years. Subject specific tests are not required.
- International applicants with English as a second language must complete the TOEFL or IELTS. For TOEFL a minimal score of 80 (Internet-based test), 550 (Paper-based test), or 213 (Computer-based test) is required. For IELTS the minimum acceptable score is 6.5.
- You must submit GRE and TOEFL (or IELTS) scores to the University of Pittsburgh, institution code is 2927. You do not need a department code. TOEFL scores are good for two years; the ETS will not release TOEFL scores after 2 years from the date of the exam.
- If you have graduated from a U.S. institution OR if English is the official language of your country then TOEFL or IELTS scores are not required.
- IMPORTANT: WE DO NOT ACCEPT ANY DOCUMENTS SENT VIA MAIL TO OUR DEPARTMENT. You will be notified if your application is reviewed and you are invited for an interview. At that time you will need to supply an official copy of your transcript.
Application to our program requires a $50.00 fee which cannot be waived. Credit cards are accepted. To apply, go to: http://www.pharmacy.pitt.edu/programs/grad/ms_nonthesis.php; click Apply On-line!

Program Requirements for Graduation

- 30 credits are required for graduation. A minimum of 10 credits must be taken in any given semester.
- In lieu of an original research study the student would complete a written project consisting of a comprehensive literature review of a topic of current interest in pharmaceutical sciences. The student would defend the project as an oral examination before their MS committee and major advisor.
- The MS committee will consist of the Director of the Graduate Program in Pharmaceutical Sciences, the student's major advisor and one other member of the faculty chosen by the student and major advisor and approved by the Program Director and Senior Associate Dean.
- Students would be required to attend the training courses offered by the University.
  - Small Animal Training
  - Bloodborne Pathogens Training
  - Chemical Hygiene Plan & Formaldehyde Awareness
  - Radiation Safety Course

Sample Curriculum for Non-Thesis MS

Fall Term

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS
- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-4 credits

Spring Term

- PHARM 3005 - ADVANCED PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS
- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-4 credits

Summer Term

- PHARM 3042 - RESEARCH PRACTICUM
- Optional Electives - 0-9 credits

Pharmaceutical Sciences - Pharmaceutics Track, MS

Pharmaceutics
The pharmaceutics track is concentrated on the study of the design of pharmaceutical dosage forms and their interaction with the human body. Topics included are physical pharmacy, bioanalysis, drug delivery and targeting, drug metabolism, drug transport, pharmacokinetics and pharmacodynamics.

- You will develop a thorough understanding of how to apply principles of physical pharmacy to dosage form design and optimization of drug product performance.
- You will develop the fundamentals required for design of both traditional and complex state-of-the-art drug delivery systems and skills essential for the advancement of targeted drug therapeutics using small molecules, proteins, peptides and other biomolecules, probiotics, and tissue engineered platforms.
- You will gain knowledge of the human body and the interaction of medications with the human body including metabolism, pharmacokinetics and pharmacodynamics.
- Your research opportunities include formulation of dosage forms, development of novel delivery systems and development of complex new therapies for site specific action, establishing novel markers for disease, study of metabolic pathways, development of bioanalytical techniques, and evaluation of absorption, distribution, and elimination of drug substances and their regulation.

MS Core Curriculum

Requirements:

Students must complete a total of 30 credit hours to fulfill the requirements for the MS. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3036 - DRUG DELIVERY & TISSUE ENGR

1st Year: Spring

- PHARM 2001 - PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTICAL SCIENCES SEMINAR
- PHARM 3042 - RESEARCH PRACTICUM
  Choose one of the following Journal Club Courses:
  - PHARM 3000 - TOPICS IN NEUROSCIENCE
  - PHARM 3009 - ADVANCES IN PHARMACEUTICAL SCIENCES
  - PHARM 3027 - TOPICS IN BIOPHARM/PHARMCKNTCS

2nd Year: Fall

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits
2nd Year: Spring

- PHARM 2010 - MASTER OF SCIENCE THESIS
- Track-Specific and/or Electives. - 3-4 credits

MS Comprehensive Exam and Thesis

The thesis for the MS must represent an original research project or a comprehensive and detailed survey of some topic of current interest in the pharmaceutical sciences. It must be defended in an oral examination.

Pharmacy Business Administration, MSPBA

MS Pharmacy Business Administration

The 12-month executive style Master of Science in Pharmacy Business Administration (MSPBA) program consists of 36 credits that build critical skills and expertise for pharmacy professionals seeking to substantially increase their business acumen and marketability.

MSPBA Value

- Designed for emerging pharmacy professionals seeking executive positions.
- Obtain an in-depth understanding of the business of medicines.
- Learn to innovate and solve real-world problems.
- Focus in specialized area of either Specialty or Community Pharmacy.

MSPBA Fit

- Synergistically fusing the expertise of the Schools of Pharmacy and Business
- Efficiently formatted for working professionals
- Friday and Saturday every other week for 12 months.

Requirements

1st Semester

- BOAH 2421 - HUMN RESORC COMPETITIVE ADVNTG
- BOAH 2409 - ORGANIZATIONAL BEHAVIOR
- BACC 2401 - FINANCIAL ACCOUNTING
- BMKT 2409 - MARKETING MANAGEMENT
- BMIS 2409 - INFORMATION SYSTEMS
- PHARM 5915 - EXECUTIVE HEALTHCARE INNOV
- PHARM 5914 - GRADUATE EXECUTIVE BOARDROOM

2nd Semester

- BFIN 2409 - FINANCIAL MANAGEMENT 1
- PHARM 5911 - HC SALES & MARKETING
Doctoral

Pharmaceutical Sciences - Biochemical Pharmacology Track, PhD

Biochemical Pharmacology

The biochemical pharmacology track focuses on the biochemical mechanisms responsible for drug and other xenobiotic, and gene actions on living systems, both healthy and compromised.

- You will have the opportunity to study with faculty in multiple areas including behavioral, cardiovascular and endocrine pharmacology, neuropharmacology, immunopharmacology, chemotherapy, toxicology, and metabolic diseases.
- Your research opportunities include studying the biochemical mechanism of drugs and genes in cell cultures and/or healthy and compromised animal models.
- You will have the opportunity to create and/or use genetically engineered animals that include transgenic and knockout mice, as well as to integrate disease models into the animal models in order to study the gene function in diseases.
- You will develop a broad knowledge of the regulation of drug metabolizing enzymes and transporters and the implications of this regulation in drug metabolism.

PhD Comprehensive Exam and Dissertation

Requirements:

Students must complete a total of 72 credit hours to fulfill the requirements for the PhD. Required courses for all PhD students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and dissertation research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area. PhD Comprehensive Exam and Dissertation

Each student follows a program of study developed in conjunction with the major advisor with input from the student's doctoral committee. The program of study must contain all of the program core courses as well as elective courses specific to the student's focus area.

Following completion of course work, students are required to complete a comprehensive examination. To be eligible for the comprehensive examination, students must be in full graduate status and have completed didactic course work with a minimum grade point average (GPA) of 3.00. To qualify for advancement to candidacy for the Doctor of Philosophy degree the student must pass the comprehensive examination.

Admission to PhD candidacy constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to research and writing of the dissertation.

Each PhD student must write a dissertation that presents the results of research carried out by the student. An appropriate research project involves a substantive piece of original and independent research grounded in an appropriate body of literature. It is relevant to an identifiable field as it is currently practiced. It represents a hypothesis tested by collection and analysis of data and provides a significant contribution or advancement to that field.

See Regulations Pertaining to Doctoral Degrees for a full overview of regulations and procedures for PhD candidates.
Further information is available on the School of Pharmacy website: http://www.pharmacy.pitt.edu/programs/grad/grad_index.php.

It is relevant to an identifiable field as it is currently practiced. It represents a hypothesis tested by collection and analysis of data and provides a significant contribution or advancement to that field.

See Regulations Pertaining to Doctoral Degrees for a full overview of regulations and procedures for PhD candidates.

Further information is available on the School of Pharmacy website: http://www.pharmacy.pitt.edu/programs/grad/grad_index.php.

Pharmaceutical Sciences - Medicinal Chemistry Track, PhD

Medicinal Chemistry

The medicinal chemistry track is a complex scientific discipline whose focus is to develop molecules that can impact human health by discovering, designing, synthesizing and characterizing safe and effective agents for disease therapy and diagnosis. The research involves a multidisciplinary approach encompassing chemistry and biology, and includes organic synthesis, protein and nucleic acid chemistry, natural product chemistry, computational chemistry, molecular biology, cell biology, structural biology, pharmacology and proteomics.

- You will learn to design, synthesize and characterize new medicinal agents and enhance the biological activity of existing pharmaceutical agents.
- You will learn to use computational, biophysical, structural biology and cell-based screening technologies to identify natural and synthetic compounds for pharmacological activity and to conduct structure-based drug design.
- You will isolate, characterize, and synthesize compounds based on natural products, as well as target identification for biologically active natural products.
PhD Comprehensive Exam and Dissertation

Requirements:

Students must complete a total of 72 credit hours to fulfill the requirements for the PhD. Required courses for all PhD students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and dissertation research. The specific plan of study is developed by the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area. For students interested in the Clinical Pharmaceutical Scientist Track, you may find the curriculum here: http://www.pharmacy.pitt.edu/research/clinical_pharma_science.php

1st Year: Fall

- PHARM 3040 - STATISTICAL METHODS
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3043 - TEACH ME TO TEACH YOU
- PHARM 3027 - TOPCS IN BIOPHARM/PHARMCKNTCS
- PHARM 3042 - RESEARCH PRACTICUM

1st Year: Spring

- PHARM 3005 - ADVANCED PHARMACEUTICAL ANALYSIS
- PHARM 3023 - FOUNDATIONS PHARMACEUTICAL SCI
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
- PHARM 3027 - TOPCS IN BIOPHARM/PHARMCKNTCS
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Fall

- PHARM 3028 - PHARMACOLOGY AND THERAPEUTICS
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
- PHARM 3027 - TOPCS IN BIOPHARM/PHARMCKNTCS
- PHARM 3038 - ESSENTIALS COMPV GRANT WRITNG 1
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

2nd Year: Spring

- PHARM 3039 - ESSENTIALS COMPV GRANT WRITNG 2
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
- PHARM 3027 - TOPCS IN BIOPHARM/PHARMCKNTCS
- PHARM 3042 - RESEARCH PRACTICUM
- Track-Specific and/or Electives. - 3-4 credits

3rd Year: Fall
PhD Comprehensive Exam and Dissertation

Each student follows a program of study developed in conjunction with the major advisor with input from the student's doctoral committee. The program of study must contain all of the program core courses as well as elective courses specific to the student's focus area.

Following completion of course work, students are required to complete a comprehensive examination. To be eligible for the comprehensive examination, students must be in full graduate status and have completed didactic course work with a minimum grade point average (GPA) of 3.00. To qualify for advancement to candidacy for the Doctor of Philosophy degree the student must pass the comprehensive examination.

Admission to PhD candidacy constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to research and writing of the dissertation.

Each PhD student must write a dissertation that presents the results of research carried out by the student. An appropriate research project involves a substantive piece of original and independent research grounded in an appropriate body of literature. It is relevant to an identifiable field as it is currently practiced. It represents a hypothesis tested by collection and analysis of data and provides a significant contribution or advancement to that field.

See Regulations Pertaining to Doctoral Degrees for a full overview of regulations and procedures for PhD candidates.

Further information is available on the School of Pharmacy website: http://www.pharmacy.pitt.edu/programs/grad/grad_index.php.

Pharmaceutical Sciences - Pharmaceutical Outcomes and Policy Research Track, PhD

Pharmaceutical Outcomes and Policy Research

Pharmaceutical Outcomes and Policy Research (POPR) is a specialty track/program in Pharmaceutical Sciences. The POPR track will train students to investigate the impact and outcomes of pharmaceutical products, pharmacy services, and pharmaceutical policies across health care systems. The core mission of POPR is the advancement of knowledge about the safety and effectiveness of medicines, and pharmacy's role in improving population health. POPR students most often focus on patient-centered outcomes such as access, safety, quality of care, costs, and patient-reported health. Graduates will be trained to work in a broad range of settings, including: academia; pharmaceutical industry; government organizations such as FDA, AHRQ, NIH; contract research organizations; and health care systems

- You will learn epidemiological study designs, data management, data analysis, and data interpretation.
- You will develop strong quantitative methodological skills in pharmaceutical outcomes and health services research.
- You will apply social/behavioral theory to the study of patient, provider, and organizational behaviors as it relates to pharmaceuticals and pharmacy practice.
- You will learn how pharmaceutical outcomes research is used to inform clinical practice and guide health policy decisions.

PhD Comprehensive Exam and Dissertation

Requirements

Students must complete a total of 72 credit hours to fulfill the requirements for the PhD. Required courses for all MS students are listed below. Students who have had prior course work or extensive experience in a given area may be exempted from the required course at the discretion of the faculty. The remaining credit requirements are completed through elective courses and thesis research. The specific plan of study is developed by
the student and their faculty advisor and committee. Courses should be selected to assure an adequate breadth of knowledge as well as depth in the student's focus area.

1st Year: Fall

- BOST 2041 - INTRO TO STATISTICAL METHODS 1
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- EPIDEM 2185 - INTRODUCTION TO SAS
- HPM 2821 - CURRENT TOPICS HLT H ECONOMICS
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
  Journal Club
  Electives

1st Year: Spring

- BOST 2042 - INTRO TO STATISTICAL METHODS 2
- BOST 2049 - APPLIED REGRESSION ANALYSIS
- EPIDEM 2180 - EPIDEMIOLOGICAL METHODS 1
- PHARM 2003 - INTRO TO PHARMACOEPIDEMIOLOGY
- PHARM 3024 - PHARMACEUTCL SCIENCES SEMINAR
- CLRES 3140 - INTRO TRANLTAL RES HLT SCIS

3rd Year: Fall

- PHARM 3042 - RESEARCH PRACTICUM
  Track-Specific and/or Electives

Pharmaceutical Sciences - Pharmaceutics Track, PhD
Pharmaceutics

The pharmaceutics track is concentrated on the study of the design of pharmaceutical dosage forms and their interaction with the human body. Topics included are physical pharmacy, bioanalysis, drug delivery and targeting, drug metabolism, drug transport, pharmacokinetics, and pharmacodynamics.

- You will develop a thorough understanding of how to apply principles of physical pharmacy to dosage form design and optimization of drug product performance.
- You will develop the fundamentals required for design of both traditional and complex state-of-the-art drug delivery systems and skills essential for the advancement of targeted drug therapies using small molecules, proteins, peptides and other biomolecules, probiotics, and tissue engineered platforms.
- You will gain knowledge of the human body and the interaction of medications with the human body including metabolism, pharmacokinetics, and pharmacodynamics.
- Your research opportunities include formulation of dosage forms, development of novel delivery systems and development of complex new therapies for site-specific action, establishing novel markers for disease, study of metabolic pathways, development of bioanalytical techniques, and evaluation of absorption, distribution, and elimination of drug substances and their regulation.

Professional

Doctor of Pharmacy, PharmD

Doctor of Pharmacy (PharmD) Program

The professional curriculum is configured in a course of study requiring two years (62 credits) of pre-professional study followed by four years of professional courses. The four-year professional curriculum emphasizes problem solving and critical thinking, blending classroom and laboratory learning with experiential learning practice. The required component of experiential learning is designed to facilitate progress from initial stages of making meaningful connections with patients to caring for complex patients with acute and chronic diseases. Experiences include patient care in communities, in hospitals, and during transitions of care. This experiential education begins in the first weeks of your P1 year.
Through our commitment to personalizing education, PittPharmacy inspires students to use their unique interests and talents to improve the lives of people through the safe, effective, and responsible use of medications and other interventions.

The PharmD program prepares students to be practitioners who advance the profession by fostering innovation, leadership, interprofessional collaboration, civic engagement, advocacy, life-long learning, and a professional attitude of inclusion.

Program Accreditation

University of Pittsburgh's Doctor of Pharmacy Program is accredited by the Accreditation Council for Pharmacy Education, 135 South LaSalle Street, Suite 4100, Chicago, IL 60603, 312/664-3575; FAX 312/664-4652, web site www.acpe-accredit.org.

Pre-Professional Requirements

Applicants to the professional pharmacy program must have successfully completed, or be in the process of completing, all prerequisite mathematics and science subjects no later than the spring term of the year of admission. All other pre-professional courses should be completed no later than the first day of the fall term of admission. Pre-professional courses must be taken for a letter grade.

Pre-Professional Courses:

- General Biology (with lab) - 8 credits
- General Chemistry (with lab) - 8 credits
- Organic Chemistry (with lab) - 8 credits
- English Composition - 6 credits
- Calculus - 3-4 credits
- Statistics - 3-4 credits
- Elective courses+ - 24 credits

Total: 60-62 credits

*Freshman Studies, 1 credit, is recommended for University of Pittsburgh freshmen.

+At least 12 credits must be in the humanities and 12 credits in the social sciences. A course in Public Speaking is recommended.

Non-native English-speaking applicants must supply evidence of their proficiency in the English language.

Degree Requirements

To earn the degree of Doctor of Pharmacy, the student must demonstrate satisfactory achievement in required course work prescribed by the curriculum (detailed below under Program Description), earning an overall GPA of 2.00 or higher. Refer to the school's Student Handbook for the guidelines for academic progress.

Program Description

The professional curriculum leads to the Doctor of Pharmacy (PharmD) degree and requires completion of 132.5 credits (note: this curriculum is subject to change):

Fall Term-First Professional Year (P-1)

- PHARM 5110 - PHARMACIST PATIENT CARE 1: PROCESS AND SKILLS
- PHARM 5112 - COMMUNITY HEALTH 1
• PHARM 5114 - ANATOMY AND PHYSIOLOGY 1
• PHARM 5116 - BIOCHEMISTRY 1
• PHARM 5118 - PRINCIPLES OF DRUG ACTION
• PHARM 5120 - THE EMERGING PROFESSIONAL

Total: 15 credits

Spring Term-First Professional Year (P-1)

• PHARM 5111 - PHARMACIST PATIENT CARE 2: SKILLS AND ENVIRONMENTS
• PHARM 5113 - COMMUNITY HEALTH 2
• PHARM 5115 - ANATOMY AND PHYSIOLOGY 2
• PHARM 5117 - BIOCHEMISTRY 2
• PHARM 5219 - DOSAGE FORM DESIGN AND DELIVERY

Total: 15 credits

Fall Term-Second Professional Year (P-2)

• PHARM 5210 - NONPRESCRIPTION THERAPIES AND SELF-CARE PRACTICE
• PHARM 5212 - COMMUNITY PHARMACIST PRACTICE 1: PATIENT-CENTERED CARE AND SILVER SCRIPTS
• PHARM 5214 - PHARMACOTHERAPY OF INFECTUS DS 1
• PHARM 5216 - PHARMACOTHERAPY OF CRDVSCLR DISEA
• PHARM 5218 - PHARMCKNTC & DRUG RESPONSE
• PHARM 5220 - CASE CONFERENCE SERIES 3

Total: 16 credits

Spring Term-Second Professional Year (P-2)

• PHARM 5211 - DRUG LITERATURE ANALYSIS AND EVALUATION
• PHARM 5213 - COMMUNITY PHARMACIST PRA 2
• PHARM 5215 - PHARMACOTHERAPY OF INFECTUS DS 2
• PHARM 5219 - DOSAGE FORM DESIGN AND DELIVERY
• PHARM 5223 - GASTROENTEROLOGY/NUTRITION
  Case Conference Series 4

Total: 15 credits

Fall Term-Third Professional Year (P-3)

• PHARM 5312 - HEALTH SYSTEM PHARMACY 1
• PHARM 5314 - IMMUNOLOGY
• PHARM 5316 - PULMONOLOGY/RHEUMATOLOGY
• PHARM 5318 - ENDOCRINOLOGY
• PHARM - Professional Elective - 3 credits
• PHARM 5320 - POPULATION HEALTH AND MANAGEMENT
• PHARM 5322 - PHARMACY LAW
- PHARM 5324 - CASE CONFERENCE SERIES 5

Total: 16.5 credits

Spring Term-Third Professional Year (P-3)

- PHARM 5311 - SAFE MEDICATION USE AND PHARMAECONOMICS
- PHARM 5313 - HEALTH SYSTEM PHARM 2
- PHARM 5315 - ONCOLOGY/HEMATOLOGY
- PHARM 5319 - NEUROLOGY/PSYCHIATRY
- PHARM 5321 - CRITICAL CARE & NEPHROLOGY
- PHARM - Professional Electives - 3 credits
  Case Conference Series 5

Total: 15 credits

Fourth Professional Year (P-4)

Spans 3 semesters (SUMMER, FALL, SPRING) with several options for credits earned per semester, for a total of 40 weeks

- PHARM 5401 - PHARMD ADV PHARM PRACT EXPRN 1
- PHARM 5402 - PHARMD ADV PHARM PRACT EXPRN 2
- PHARM 5403 - PHARMD ADV PHARM PRACT EXPRN 3
- PHARM 5404 - PHARMD ADV PHARM PRACT EXPRN 4
- PHARM 5405 - PHARMD ADV PHARM PRACT EXPRN 5
- PHARM 5406 - PHARMD ADV PHARM PRACT EXPRN 6
- PHARM 5407 - PHARMD ADV PHARM PRACT EXPRN 7
- PHARM 5408 - PHARMD ADV PHARM PRACT EXPRN 8
- PHARM 5400 - PHARMD SEMINAR

Total: 40 credits
Total Professional Credits: 132.5 credits
Graduate School of Public and International Affairs

The mission of the Graduate School of Public and International Affairs (GSPIA) is to prepare students to make substantive contributions to society through careers as managers, advisors, and policy analysts in government and nonprofit organizations in a multitude of geographic locations throughout the world. This mission is accomplished through dedication to quality teaching that builds skills and commitments to the core values, challenges, and rewards of public service. It is supported through basic and applied research on timely issues of public management; international, regional, and urban affairs; and policy making. The school and faculty are committed to making a difference in the world by drawing on diverse skills and knowledge to improve the performance of public and nonprofit organizations that contribute to free and just societies in the United States and abroad. To accomplish these ends, GSPIA teaches, conducts research, and performs public service in the following areas:

- The management and administration of public and nonprofit agencies
- The growth and sustainable development of urban metropolitan regions throughout the world
- The economic and social development of newly independent and developing states
- The emerging dynamics that are shaping today's international political economy
- Threats to and issues in international security

The mission of GSPIA stresses the importance of democratic responsibilities and personal integrity in the management of human affairs as well as the professional qualifications required for managing constructive change. Students and faculty alike are required to:

- Demonstrate the highest standards of ethical and professional conduct
- Use critical thinking and problem solving skills in addressing public policy issues
- Consider the international and intersectoral aspects of public affairs
- Develop partnerships with others both internal and external to the University of Pittsburgh

GSPIA offers the following degree programs as well as several joint programs:

Contact Information

Office of Student Services
Suite 3601 Posvar Hall
412-648-7640
Fax: 412-648-7641
E-mail: gspia@pitt.edu
www.gspia.pitt.edu

Admissions

http://www.gspia.pitt.edu/Prospective-Students

GSPIA admits persons who have demonstrated intellectual competence and high motivation in an academic and/or professional environment and who will enrich the quality of life in the school. Individuals from varied cultural, academic, and social backgrounds provide an exciting frame of reference for the stimulating exchanges so vital to a dynamic academic process. The following are required of all applicants: transcripts, application and fee, GRE score, TOEFL or IETS score (if international), letters of recommendation, essays, and resume.

Admission Prerequisites

Though not required for admission, applicants to GSPIA's master's programs are strongly encouraged to take courses in microeconomics, macroeconomics, and statistics prior to enrolling in GSPIA. In addition, it is suggested that applicants have prior experience with statistical, spreadsheet, and presentation software packages. Students who have not had formal course work in the above may take preparatory courses offered in GSPIA or the University early in their programs.
It is desirable, but not mandatory, that PhD applicants have an earned master's degree in public and international affairs or a degree in one of the social sciences and work experience prior to undertaking doctoral study.

**Application/Admission Requirements**

All applicants must have earned a bachelor's degree from a regionally accredited U.S. institution or a degree that is equivalent to a four-year U.S. bachelor's degree. Applicants are expected to have a B+ or better average (3.2 GPA) in their work to date. To be competitive for merit scholarships, applicants normally need at least a 3.5 GPA. The admissions committee also takes into consideration GPA within the major, GPA within the last two years, extenuating circumstances, length of time since graduation from college, rigor of the undergraduate program, and other factors.

Doctoral applicants are only eligible for admission to full-time status in the Fall Term.

**Test of English as a Foreign Language (TOEFL) and the International English Language Testing System (IELTS)**

TOEFL/IELTS Scores (international students only). International applicants must submit either the TOEFL or the IELTS. Contact Educational Testing Services directly to request that an official score report be sent to GSPIA. The minimum TOEFL score required for admission is 80 on the Internet-based test, although 90 or above is strongly preferred. The minimum IELTS score required for admission is 7.0 (overall, and in each of the subsections). GSPIA's institutional code is 2574.

Exceptions: International students who completed a degree at a regionally accredited college or university in the United States are not required to submit a TOEFL/IELTS score. Students from certain English-speaking countries are also exempt (see this link for a list of exempt countries). All US citizens and permanent residents are exempt.

**Graduate Record Examination (GRE)**

GRE or GMAT Scores (not required for MPPM and non-degree applicants). All applicants to the MPA, MPIA, MID, and PhD programs must have taken the GRE or GMAT within five years of the date of their application. It is not necessary to take both exams; either test score may be submitted. Official score reports must be sent directly from the testing agency to GSPIA. (GRE test takers can order score reports online at www.gre.org. GMAT test takers can order reports at www.mba.com). Copies of your own score report are not acceptable. GSPIA's institutional code is for the GRE 2574.

Exceptions: Students applying to GSPIA's joint-degree program with the University of Pittsburgh School of Law may substitute an LSAT score in lieu of the GRE.

Résumé. All applicants should upload a current résumé/curriculum vitae, showing relevant awards, academic achievements, full- and part-time job experience, internships, and volunteer work.

Personal Essay. Introduce yourself to the admissions committee. Discuss your professional goals and why you feel a GSPIA degree can help you attain them. Describe your background, interests, and motivation for pursuing graduate work in public & international affairs. There is a 5,000 character limit (approximately two double-spaced, typed pages).

Second Essay (PhD applicants only - not required for master's or non-degree candidates). Identify the broad topic and research questions you envision as the focus of your doctoral dissertation research, as well as the methodologies you intend to use. There is a 5,000 character limit (approximately two double-spaced, typed pages).

Optional Essay. If there are any special circumstances you would like the admissions committee to consider, highlight them in the optional essay. Use this essay to include any information that you feel is important, but that you were not able to include elsewhere on the application. There is no penalty for leaving this blank.
Application Fee

The non-refundable $50 application fee may be paid by check or credit card. You will be prompted to pay the fee at the end of the online application process. The application fee is waived for Returned Peace Corps Volunteers, AmeriCorps Volunteers, Truman Scholars, Pickering Fellows, Coro Fellows, Rangel Fellows, McNair Fellows, Teach for America alumni, City Year alumni, Payne Fellows, Catholic Volunteer Network alumni, and veterans/active duty members of the US Armed Forces.

Early Application Discount: Prospective students who submit a complete online application for fall-term admission by December 31 of the previous year pay a reduced application fee of $25.

Résumé

All applicants should upload a current résumé/curriculum vitae, showing relevant awards, academic achievements, full- and part-time job experience, internships, and volunteer work.

Personal Essay

Introduce yourself to the admissions committee. Discuss your professional goals and why you feel a GSPIA degree can help you attain them. Describe your background, interests, and motivation for pursuing graduate work in public & international affairs. There is a 5,000 character limit (approximately two double-spaced, typed pages).

Second Essay (PhD applicants only - not required for master's or non-degree candidates)

Identify the broad topic and research questions you envision as the focus of your doctoral dissertation research, as well as the methodologies you intend to use. There is a 5,000 character limit (approximately two double-spaced, typed pages).

Optional Essay

If there are any special circumstances you would like the admissions committee to consider, highlight them in the optional essay. Use this essay to include any information that you feel is important, but that you were not able to include elsewhere on the application. There is no penalty for leaving this blank.

Academic Transcripts

When completing the online application, you will be asked to upload copies of official transcripts from all colleges and universities you have attended, whether or not you earned a degree. You should upload a scanned copy of an official transcript generated by your university's registrar's office. Self-reported transcripts, student grade reports, or copies of unofficial transcripts are not acceptable.

It is not necessary to submit hard copies of your transcripts at the time of application, as long as your scanned copies have uploaded successfully. If you are admitted, you will then be required to submit final, official transcripts directly from your university's registrar's office to GSPIA. The official copy must exactly match the scanned copy that you submitted at the time of application.

If you do not have access to technology that will allow you to submit a scanned copy of your transcript at the time of application, you may submit an official copy instead. The official copy must be sent by mail directly from your university's registrar's office to GSPIA (3601 Posvar Hall; Pittsburgh, PA 15260).
Two Letters of Recommendation

Letters should be written by professors who have taught you or supervisors who have overseen your work, either professionally or in a volunteer capacity. If you graduated from college less than three years ago, at least one, if not both, of your letters should be from professors. Letters written by friends, family members, work colleagues, or anyone who has not taught or supervised you are not acceptable.

All letters must be submitted online. When you complete the online application, you will be prompted to enter the names and email addresses of your recommenders. The system will automatically send them an email explaining how they can upload their letters.

Admission Deadlines

GSPIA does not consider applications on a rolling basis. International students are strongly encouraged to submit application materials at least one month prior to the stated deadlines.

Application Deadlines: Fall Term

US Citizens/Permanent Residents:

January 15 - PhD applicants
February 1 - MPA, MPIA, MID
June 1 - MPPM applicants
August 1 - Non-degree applicants

International Students:

January 15 - MPA, MPIA, MID, PhD, and MPPM applicants

Early Application Discount: Prospective students who submit a complete online application for fall-term admission by December 31 of the previous year pay a reduced application fee of $25.

Application Deadlines: Spring Term

US Citizens/Permanent Residents:

November 1 - MPA, MPIA, MID, and MPPM applicants
December 1 - Non-degree applicants

International Students:

August 1 - MPA, MPIA, MID, and MPPM applicants
Application Deadlines: Summer Term

US Citizens/Permanent Residents:

March 1 - MPPM applicants
April 1 - Non-degree applicants

International Students:

January 15 - MPPM applicants

School-Based Funding

GSPIA offers competitive, merit-based scholarships to its most outstanding master's degree applicants. All applicants for fall admission are automatically considered for merit funding, as long as they are planning to pursue full-time study and have submitted a complete application by the February 1 deadline. There is no separate application for GSPIA merit funding.

Typically, awards are renewed for the student's second year, as long as the student has earned at least 24 credits and maintained an overall GPA of 3.5 or better.

Academic Standards

Students are in good academic standing when they earn acceptable grades for graduate work and make normal progress toward the degree. Specifically, full-time students must earn a minimum of 9 credits per term with a minimum cumulative GPA of 3.5 in all courses. Part-time students are held to the same standards. However, they are expected to do so while carrying less than 9 credits per term. Full- or part-time students admitted with provisional status must maintain a minimum cumulative GPA of 3.0 in all courses in their first 12 credits.

Students receiving school-based funding are held to higher standards. Master's students must earn, after two terms, 24 credits and a cumulative GPA of 3.5. Doctoral students must earn 24 credits and a cumulative GPA of 3.0.

Probation

Students are automatically placed on academic probation when they fail to maintain a minimum GPA of 3.00 and earn the appropriate number of credits for their status. Students are also placed on academic probation automatically if they receive two G or I grades in one term and/or earn a grade of U, C- or lower.

Dismissal

Students who fail to correct the deficiencies of their academic probation within a specified time period (normally one term) are subject to dismissal. Should a student be dismissed, students may appeal the decision to the associate dean.

For additional information on academic standards and procedures, students are referred to GSPIA's Handbook of Academic Policies and Procedures for Master's Degree Programs, GSPIA's Handbook of Academic Policies and Procedures for the Doctor of Philosophy, and the University's Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.
Advising and Career Services

**Academic Advising:** Each student is assigned a faculty advisor based on, whenever possible, the compatibility of student and faculty academic interests. Faculty advisors assure that students, through proper course selection, can make productive use of the resources of the school and the University during their period of residence. In addition, faculty advisors are responsible for counseling their advisees about career opportunities in the student's area of study; for counseling advisees who have been placed on probation; and for approving the advisee's school-wide required and elective courses, proposed thesis or dissertation topics, and supervised internships. Advisors and students monitor academic progress and identify areas where corrective action on the part of students may be required. It is essential, therefore, that students consult periodically with their advisors. Unless students subsequently request a change, faculty members originally assigned will continue as advisors throughout the students' program of study. If, however, a change in faculty advisor is requested, students must obtain the signed approval of the new advisors. Based on a student-focused approach, we provide students with a Graduate Enrollment Counselor who serves as the first point of contact for class registration, financial aid application and preparation for graduation. Additionally, graduate enrollment counselors support students by providing information necessary to navigate the logistical challenges of graduate school and connect students to resources at the University of Pittsburgh.

**Professional Development and Career Services:** GSPIA places great emphasis on assisting students in determining the best and most appropriate positions available. In addition to faculty advisors, the school provides resources and guidance for students throughout their course of study as they devise strategies to identify professional opportunities. Among the many services offered through the Office of Career Services are individual career advising, internship and job search assistance, and a series of career-related workshops and special events. Extensive reference materials on jobs, fellowships, and internships are made available in a variety of ways, including Career Connections, GSPIA's online career management system for students and alumni. Workshops cover such topics as resume preparation, job search strategies, negotiation skills, networking, and using technology in securing employment. Special events include Foreign Service information sessions, mock interviews for the Presidential Management Fellowship Program, an internship fair, and networking events with alumni, foundations, and agency representatives on campus and in Washington, D.C. All students are required to participate in the Professional Development Program. In this course, students will gain the knowledge and resources necessary to begin to plan their career and internship searches. This graduation requirement covers job search techniques, resume and cover letter review, interviewing skills, internship and company searches and much more.

Major and Degree Options

**GSPIA offers the following degrees:**

**Master of Public Administration (MPA), including majors in:**

Energy & Environment  
Governance & International Public Management  
Policy Research & Analysis  
Public & Nonprofit Management  
Urban Affairs & Planning

**Master of Public and International Affairs (MPIA), including majors in:**

International Political Economy  
Security and Intelligence Studies  
Human Security

**Master of International Development (MID), including majors in:**

Human Security  
Urban Affairs & Planning  
Governance and International Public Management  
Energy & Environment  
Nongovernmental Organizations & Civil Society
Master of Public Policy and Management (MPPM) - accelerated mid-career master program
Doctor of Philosophy (PhD)
Joint degrees

Minors

Students have the flexibility to customize their education as any major can be taken as a minor. Adding a minor will help differentiate your education, deepen your knowledge base and broaden professional marketability. Each minor consists of a 9-credit sequence of courses within your chosen subject area. This is taken in addition to general required courses and courses for your major area of study. Any course taken to fulfill a requirement for your degree or major cannot count towards your minor. A course may not be double-counted. An approved course must be substituted.

MID, MPIA, and MPA students may select a minor from among the nine listed below.

Civil Security & Disaster Management
Governance & International Public Management
Energy & Environment
International Political Economy
Nongovernmental Organizations & Civil Society
Policy Research & Analysis
Public & Nonprofit Management
Security & Intelligence Studies
Urban Affairs & Planning

Joint Degrees

GSPIA students may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements (including entrance exams like the GRE, GMAT, and LSAT, where applicable). If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed on year 9 or, in the case of current law students, two years) of full-time study.

Full-time students in the MPA, MPIA, or MID programs are eligible to participate in the following joint programs:

**Juris Doctor** with University of Pittsburgh School of Law: The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

**Master of Business Administration** with University of Pittsburgh Katz Graduate School of Business - MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

**Master of Public Health** with University of Pittsburgh Graduate School of Public Health: Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.
Master of Social Work with University of Pittsburgh School of Social Work: Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Master of Science in Information Science with University of Pittsburgh School of Information Science: The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

International Organizations MBA with University of Geneva, Switzerland - MPIA and MID students only: In this unique program, students spend one year in Pittsburgh followed by a year in Switzerland. There, they pursue an internship in Geneva's thriving diplomatic community while completing the requirements for the University of Geneva's IO-MBA, a unique management program which focuses on the needs of international organizations. After returning to Pittsburgh for one semester, students receive degrees from both universities. Both degrees are taught in English.

Joint Degrees at Kobe University, Japan: Through a special partnership, students may combine their GSPIA degrees with one of several degrees offered by the Graduate School of International Cooperative Studies at Kobe University: the Master of International Affairs, Master of Laws, Master of Economics, or Master of Political Science. The Kobe GSICS curriculum is in English.

Early Admission Program for Pitt undergraduate students to complete their bachelor's degree while working on a master's degree at GSPIA. Once a student has completed 24 credits in GSPIA, they may apply and obtain their bachelor's degree.

To be eligible undergraduate University of Pittsburgh students must be enrolled in The Dietrich School of Arts and Sciences or the College of General Studies. be in good academic standing with a minimum overall GPA of 3.5, have a minimum of 96 credits, have completed all Skills and General Education requirements and have no "I" or "G" grades.

Applicants must submit an online application through www.gspia.pitt.edu, in essay #3 make reference that you are applying for the Early Admission Program, submit a letter from your Academic/Faculty Advisor stating that you have completed all courses in your major(s). Dietrich SAS applicants must submit a letter from Ms. Susan Crain, Dietrich SAS office of the Dean, stating that they satisfy the above eligibility requirements and may enter our masters program. CGS applicants must submit a letter from Timothy Carr, 459A Cathedral of Learning, stating that they satisfy the above eligibility requirements and may enter our masters program.

Special Academic Opportunities/Programs

GSPIA offers a variety of academic programs to complement the degree programs offered, including area studies, exchange programs, and research and travel grants.

Centers, Institutes and Initiatives

The Matthew B. Ridgway Center for International Security Studies - educates the next generation of security analysts and produces scholarship and impartial analysis that informs the options available to policymakers who must confront diverse challenges to international and human security on a global scale.

The Ford Institute for Human Security - conducts research that focuses on a series of transnational threats to the human rights of civilian populations and makes independent research and policy papers available to both domestic and international policymakers.

The Center for Metropolitan Studies - connects the academic programs at GSPIA with state and local governments, federal agencies, regional governance institutions, and nonprofit organizations in the United States to address real time problems they are confronting.

Johnson Institute for Responsible Leadership - reaffirms GSPIA's commitment to creating ethical leaders and provides an institutional platform from which to launch an innovative program of teaching, research, and public service on issues of ethics and accountability in all areas of public life.
Center for Disaster Management - provides a school-wide focus to support research, education, and training projects that focus on extreme events. The goal of the Center is to develop a coherent approach for research and analysis on policy issues related to disaster risk reduction and management that cross inter-organizational, interdisciplinary, and inter-jurisdictional boundaries.

The Roscoe Robinson Jr. Memorial Lecture Series - promotes discussion and understanding of key issues related to diversity in public service. The series features at least two lectures per year in honor of the late Roscoe Robinson Jr, the first African American, U.S. Army four-star general.

The Philanthropy Forum - provides a university-based platform for national dialogue with leading thinkers and practitioners in the field of philanthropy and engages in significant research on the history and contemporary contributions of philanthropy to our local, national, and global communities.

International Political Economy Colloquium (IPEC) - provides a forum for IPE scholars to present their best new works in progress.

Pittsburgh International Trade and Development Seminar Series - is a joint undertaking sponsored by the University of Pittsburgh's Department of Economics, Graduate School of Public and International Affairs and Carnegie Mellon University of Pittsburgh's Heinz College.

The Governance Group is an interdisciplinary research center at the University of Pittsburgh, focusing on governance, institutional design and program evaluation. A joint initiative of the Graduate School of Public and International Affairs (GSPIA) and the Department of Political Science, the Group is comprised of over a dozen faculty members from five different departments with the University.

The Symposium on Political Violence is a joint undertaking sponsored by the Graduate School of Public and International Affairs (GSPIA), the Department of Political Science, and the Matthew B. Ridgway Center for International Security at the University of Pittsburgh. The Symposium provides a forum both for external scholars and for faculty and graduate students in GSPIA and the Department of Political Science at Pitt to present their research on political science.

Area Studies

The University of Pittsburgh is home to several internationally recognized area studies centers. Many of these centers have been designated National Resource Centers (NRCs) by the US Department of Education, certifying their status as leading centers of their kind in the United States. The NRCs sponsor numerous programs and offer Foreign Language and Area Studies (FLAS) Fellowships for which GSPIA students (U.S. citizens only) are eligible. The area studies centers and programs include:

- African Studies
- Asian Studies Center
- Center for Latin American Studies
- Center for Russian and East European Studies
- European Studies Center

In addition, UCIS is home to a European Union Center of Excellence, one of only ten so designated and partially funded by the European Union in the United States. The Study Abroad Office and the Nationality Rooms and Intercultural Exchange Programs round out the UCIS component programs.

UCIS offers graduate certificates that GSPIA students can pursue concurrently with their degrees, allowing them to focus their studies on a particular region or theme. UCIS's constituent units offer nine certificate programs. It is normally possible to complete the requirements for a GSPIA master's degree and a UCIS certificate in two years. For further information, see UCIS' section of this catalog.

GSPIA Programs Abroad

GSPIA has developed a number of international partnerships that offer students the possibility to study abroad for a regular academic term, during the summer, or-in a double degree program-for an entire year or more:

International Organizations MBA in Geneva, Switzerland

This program provides students with the opportunity to earn a master's degree from GSPIA as well as an IO-MBA from the University of Geneva (Switzerland) in 28 months. Students spend a year in Geneva and normally pursue an internship in Europe at an international organization. This is an
ideal option for anyone interested in working at the United Nations or a similar multilateral body. Coursework is in English.

Summer Studying the EU in Brussels, Belgium

This program enables GSPIA students to earn credits toward their degree while studying EU policies and interacting with EU officials at the Free University of Brussels (ULB). Courses are taught in English.

International Development and Asian Affairs in Kobe, Japan

This program enables students to earn a Certificate in International Development and Asian Affairs from GSICS at Kobe University while completing their masters degree from GSPIA.

Public Administration and/or International Studies in Seoul, Korea

This program enables students to earn credits toward their GSPIA degree by taking courses in the Graduate School of Public Administration and/or the Graduate School of International Studies at Seoul National University. Coursework can be completed in English or Korean.

Public Policy and International Affairs in Paris, France

This program enables students to earn credits toward their GSPIA degree by taking courses at the Institut d'Etudes Politiques de Paris (in French), or at its English-language wing, the Paris School of International Affairs.

Government or Political Science in Bogota, Colombia

This program enables students to earn credits toward their GSPIA degree by taking courses at the Department of Political Science at the University of the Andes, one of Latin America's leading institutions. Coursework is in Spanish.

Public Management in Nanjing, China

This program enables students to earn credits toward their GSPIA degree by taking courses at Nanjing University's School of Public Management. Coursework is in Chinese.

International Relations, Madrid, Spain

This program allows students to earn credits toward their GSPIA degree by taking courses at the School of International Relations, IE University. Coursework is in English.

Budget permitting, each year the Office of the Dean and the school's academic programs make available small grants to students. Uses for these grants can include attending professional development conferences, presenting papers, and supporting internships and study abroad activities. These grants are awarded through a highly competitive selection process.

Faculty

Lisa S. Alfredson, Professor, PhD, London School of Economics

Ariel Armony, Professor, PhD, University of Pittsburgh

Carolyn Ban, Professor, PhD, Stanford University
Louise Comfort, Professor, PhD, Yale University
Luke Condra, Assistant Professor, PhD, Stanford University
Sabina E. Deitrick, Associate Professor, PhD, University of California, Berkeley
George W. Dougherty, Assistant Professor, PhD, University of Georgia
William N. Dunn, Professor, PhD, Claremont Graduate University
Muge Kokten Finkel, Assistant Professor, PhD, University of Virginia
Shanti Gamper-Rabindra, Associate Professor, PhD, Massachusetts Institute of Technology
Marcela Gonzalez Rivas, Assistant Professor, PhD, University of North Carolina, Chapel Hill
Ryan Grauer, Assistant Professor, PhD, University of Pennsylvania
Kevin Kearns, Professor, PhD, University of Pittsburgh
John T.S. Keeler, Dean and Professor, PhD, Harvard University
Michael Kenney, Associate Professor, PhD, University of Florida
Michael Lewin, Lecturer, PhD, Johns Hopkins University
Sera Linardi, Assistant Professor, PhD, California Institute of Technology
Jerome B. McKinney, Professor, PhD, University of Missouri, Columbia
John Mendeloff, Professor, PhD, University of California, Berkeley
David Y. Miller, Professor, PhD, University of Pittsburgh
Kevin M. Morrison, Assistant Professor, PhD, Duke University
Jennifer B. Murtazashvili, Assistant Professor, PhD, University of Wisconsin, Madison
Ilia Murtazashvili, Assistant Professor, PhD, University of Wisconsin, Madison
Lisa Nelson, Associate Professor, PhD, University of Wisconsin, Madison
Paul J. Nelson, Associate Dean, PhD, University of Wisconsin
Louis A. Picard, Professor, PhD, University of Wisconsin, Madison
Michael Poznansky, Assistant Professor, PhD, University of Virginia
Taylor Seybolt, Associate Professor, PhD, Massachusetts Institute of Technology
Martin Staniland, Professor, PhD, University of Cambridge
Nuno Themudo, Associate Professor, PhD, London School of Economics
Jeremy Weber, Assistant Professor, PhD, University of Wisconsin, Madison
Lee S. Weinberg, Associate Professor, PhD, University of Pittsburgh
Meredith Wilf, Assistant Professor, PhD, Princeton University
Phil Williams, Wesley W. Posvar Chair for International Security Studies, University of Southampton
Part-time and Visiting Faculty

Kathleen Buechel, Senior Lecturer, MA, Kennedy School of Government, Harvard University
Dennis M. Gormley, Senior Lecturer, MA, University of Connecticut
Frank Hofmann, Visiting Senior Lecturer, Johns Hopkins University

Program and Course Offerings

Doctoral

Public and International Affairs, PhD

Requirements

The PhD program requires the completion of 72 credits of course work and 6 credits for the dissertation for a total of 78 credits. The curriculum for doctoral students is outlined as follows:

Doctoral Core Courses (see detail below): 15 credits

- PIA 3000 - INTERMEDT QUANTITATIVE METHS
- PIA 3004 - SEM IN RESEARCH DSGN & METHODS
- PIA 3015 - SYSTEMS THEORY
- PIA 3050 - QUALITATIVE RSRCH DSGN & MTHS
- PIA 2025 - MICROECONOMICS 1
  or
- PIA 2026 - MICROECONOMICS 2
  or
- PIA 2202 - BEHAVIORAL ECON & GAME THEORY

Integrative Field Seminars: 9 credits

Students must take three (3) of the following four field seminars.

- PIA ---- IA FIELD SEMINAR
- PIA ---- ID FIELD SEMINAR
- PIA ---- PA FIELD SEMINAR
- PIA ---- PP FIELD SEMINAR

Fields of Specialization: 18 credits

Students must select six (6) courses from two of the following fields:

- Energy & the Environment (E&)
- Governance & International Public Management (GIPM)
- Human Security (HS)
PIA 3099 Dissertation: 6 credits

Minimum Required Credits: 78 credits

Students must complete 72 credits of course work, excluding the 6 dissertation credits, with a minimum GPA of 3.0. Students must meet this requirement in order to qualify for final approval of their comprehensive examinations. Students are required to maintain full-time status while completing the 72 credits of coursework.

Doctoral Milestones

Plan of study Meeting

After electing field and subfields early in the first term of study, students will meet with the faculty advisers representing their field and primary subfield. This meeting's aim is to structure a program that best serves the student's interests and ensures that the degree requirements are met in a timely and stipulated manner. At this meeting, the acceptance of course credits from previous graduate studies is also discussed.

Annual Progress Evaluation: First and Second Years

Held with the student's field and primary subfield advisers, the review serves the following purposes:

- To identify any necessary adjustments to the student's original plan of study
- In exceptional circumstances, to signal that a student's performance points to a reconsideration of his/her doctoral status.

The annual review should be scheduled near the end of each academic year. The student is responsible for scheduling this meeting, and should be fully aware that many professors may be unavailable after the end of the term. Failure to schedule this meeting in a timely manner may lead to the review being undertaken without student participation.

It is expected that the two faculty advisers will solicit comments from those faculty with whom the student has taken coursework during the year, especially in relation to courses in which the student did not perform adequately (i.e., received a G, I or lower than B grade).

Annual Dissertation Progress Evaluation: Third and Later Years

At the end of the third and later years, the student must undergo an annual evaluation of their progress toward the dissertation. As stated in the Regulations Governing Graduate Study at the University of Pittsburgh, "meetings of the doctoral candidate and his/her dissertation committee must occur at least annually from the time the student gains admission to doctoral candidacy. During these meetings, the committee should assess the student's progress toward the degree and discuss objectives for the following year and a timetable for completing degree requirements.

The student's dissertation committee, or academic advisers if a dissertation committee has not been approved by the end of the third year of studies, will undertake the evaluation. Unjustified failure to make sufficient progress toward the dissertation will be grounds for suspension of funding and, possibly, dismissal from the program.
Comprehensive Examinations

The Comprehensive Examinations are designed to assess the student's mastery of the scholarly literature, as well as the ability to choose a relevant research question and an appropriate research design for its study.

Unless an exception is granted by the Doctoral Program Director, Comprehensive Examinations are taken in the third year of study, after the student completes all required courses and earns at least 72 credits (including advanced standing credits). In addition, all incomplete grades must be removed by meeting the requirements to complete the courses; even if the course is viewed by the student as not being relevant to his or her degree program.

Two Comprehensive Exams must be taken, one in the student's field and another in the student's primary subfield. Students can combine any field exam with any subfield exam with two exceptions: a) students taking Public Policy as a field exam cannot take Policy Research Analysis as a subfield exam and b) students taking Public Administration as a field exam, cannot take Public and Nonprofit Management as a subfield exam.

The written component of each exam will be taken in-house and last 6 hours. The format will vary slightly by field and subfield. The exam will be given in early September following the second year of full-time study. Students may change their chosen field and primary subfield up until the registration for the Comprehensive Exams in the spring term of their second year. Changes are allowed only if students fulfill the coursework requirements of the newly declared primary subfield.

After taking the written exams, the student will take an oral exam attended by members of the exam committees for the field and primary subfield. In the oral exam, the readers will have the opportunity to clarify written responses that were ambiguous or otherwise problematic and to assess the student's ability to respond comfortably in the context of real-time intellectual debate and discourse. Also during the oral exam, the student will be expected to present a 2-3 page dissertation abstract, which lays out the student's proposed dissertation research question, justifies its importance within the context of scholarly inquiry and identifies a suitable methodology for its study. Faculty readers will have the opportunity at the oral exam to give feedback to the student on their research ideas, offering guidance and suggestions prior to the student preparing a formal dissertation overview prospectus.

The comprehensive examination for each field/subfield will be graded High Pass, Pass or Fail. All faculty readers will submit one evaluation to the Doctoral Program Director and the respective Exam Committee Chair. In all cases, the results of comprehensive examinations will be communicated to students within 4 weeks of the oral exam.

A student has two chances to pass each comprehensive exam. The second attempt must be taken in the makeup round, which typically takes place early in the Spring term. Failure to pass on the second attempt will be grounds for dismissal from the program.

Establishing the Dissertation Committee

During the third year of studies, and before admission to candidacy for the PhD degree, the major academic adviser (i.e., committee chair) proposes, for the approval of the director of the school's doctoral program and the dean, a committee of four or more persons, including at least one from another department in the University of Pittsburgh or from an appropriate graduate program at another academic institution, to serve as the dissertation committee. The majority of the committee, including the major adviser, must be full or adjunct members of the Graduate Faculty. This committee must review and approve the proposed research project before the student may be admitted to candidacy. A published Graduate Faculty Membership Roster is updated three times a year. Only a GSPIA faculty member is eligible to serve as the chair of the committee.

This dissertation committee has the responsibility to advise the student on his/her research and has the authority to require high-quality research and/or the rewriting of any portion or the entire dissertation. It conducts the final oral examination and determines whether the dissertation meets accepted standards.

The student must meet with his/her dissertation committee at least once a year (see Annual Dissertation Progress Evaluation above).

The membership of the dissertation committee may be changed whenever it is appropriate or necessary, subject to the approval of the Doctoral Program Director and the Dean.

When a dissertation committee member leaves the University, the member must be replaced unless the dissertation is almost complete or the member has an essential role on the committee. In the latter case, the dean's approval should be obtained. When the chair of a committee leaves and cannot be conveniently replaced, a co-chair must be appointed from within the department, and the restructured committee requires the approval of the dean.
and either the department chair or the director of the school's doctoral program. If the defense takes place within a few months of the chair's
departure, the requirement of the co-chair is usually waived.

Retired faculty members may remain as members or chairs of committees if they are spending considerable time in Pittsburgh or the vicinity and are
still professionally active. Retired faculty who meet these criteria may also be appointed as a member or as a co-chair (but not chair) of a newly
formed committee. Retired faculty who leave the Pittsburgh area and/or do not remain professionally active should be replaced on committees and
the revised committee approved by the dean and either the department chair or the school's director of doctoral programs.

The completed and signed Dissertation Committee Approval Form and/ or the Change in Dissertation Committee Form should be submitted to the
Office of Student Services for posting and filing.

All coordination between Dissertation Committee members is the responsibility of the student.

Dissertation Proposal

Immediately after passing the comprehensive examinations, and establishing the dissertation committee, the students should meet with the chair to
discuss the development of a dissertation proposal, which outlines the goals and objectives, theoretical argument, policy implications, literature,
research design, and timetable for the dissertation research.

The student will submit the Announcement of Dissertation Proposal Meeting Form, available from the Office of Student Services, to the Doctoral
Program Director ten days prior to the proposal meeting. The announcement will be sent to the faculty and graduate student email lists. Proposal
defense meetings are open to all faculty and students.

There must be a minimum of three members present for the meeting to be convened, and the absent member is required to submit a written
evaluation of the proposal to the Committee Chair. Under no circumstances can the meeting be held without the Chair. If the Committee accepts the
proposal, all Committee members will sign the Approval of Dissertation Proposal Form, available from the Office of Student Services. The
completed and signed form is then submitted along with a copy of the approved proposal to the Ph.D. Program Director, who has final approval.
According to University guidelines, only after the proposal has been accepted as final by the Doctoral Program Director does the student advance to
candidacy. The signed and completed form is to be returned to the Office of Student Services for posting and filing.

Dissertation

The Dissertation Committee must meet a minimum of once a year; however, students are strongly encouraged to schedule more frequent committee
meetings.

An appropriate dissertation should be a substantive piece of original and independent research grounded in an appropriate body of literature. The
characteristics which a dissertation should demonstrate are:

- the establishment of a historical context for the presentation of an innovative and creative approach to the problem analysis and solution,
- a clear understanding of the problem area as revealed by analysis and synthesis of a broad literature base,
- a well-defined research design,
- clarity in composition and careful documentation,
- results of sufficient merit to be published in refereed journals or to form the basis of a book or monograph,
- sufficient detail so that other scholars can build on it in subsequent work, and
- the preparation of the author to assume a position within the profession.

Oral Defense of the Dissertation

At the oral defense, the student will be asked to explain and justify dissertation research and to assess its relation and contribution to the literature and
policy in the field. The final oral examination in defense of the doctoral dissertation is conducted by the dissertation committee and need not be
confined to materials in and related to the dissertation. Any member of the Graduate Faculty of the University may attend and participate in the examination. The date, place, and time of the examination should be published well in advance in the University Times. Other qualified individuals may be invited by the committee to participate in the examination. Only members of the dissertation committee may be present during the final deliberations and may vote on the passing of the candidate. A report of this examination, signed by all the members of the dissertation committee, must be sent to the Office of Student Services for posting and filing. If the decision of the committee is not unanimous, the case is referred to the dean for resolution. The chair of the dissertation committee should ensure that the dissertation is in final form, i.e., all required changes have been made, before requesting signatures of the members of the committee.

After approval of the dissertation, all candidates are required to publish the document electronically via d-scholarship. For access to more information on ETD and training, go to www.pitt.edu/~graduate/etd/training.html.

Department of Public Administration

Master of Public Administration (MPA)

Public administration is a field practiced at the intersection of the government, nonprofit, and private sectors. GSPIA's MPA program trains managers to balance the needs of each community with its resources, promoting neighborhood development, effective local government, ethical leadership, and responsible business practices. Students acquire an incredibly diverse and flexible set of professional skills appropriate for careers in nonprofit agencies, government offices, and private businesses worldwide.

The 48-credit MPA degree is designed to advance the core value of social equity fundamental to today's public management. GSPIA's programs in urban affairs and nonprofit management are consistently ranked among the very best in the country. Additionally, GSPIA's Center for Metropolitan Studies and the Johnson Institute for Responsible Leadership bridge the gap between theory and practice, allowing students to work directly with local government and nonprofit leaders. In 2012 US News ranked GSPIA #19 among all MPA programs for "City Management and Urban Policy." A major reason for this strength is GSPIA's relationship with Pitt's University Center for Social and Urban Research (UCSUR), where students and faculty engage in scholarly analysis of urban and regional issues. UCSUR promotes a multidisciplinary research agenda centered on economic, demographic, and social change in cities and regions.

Degree Requirements and Majors

MPA students may choose one of five majors: Energy and Environment, Public & Nonprofit Management, Urban Affairs & Planning, Governance & International Public Management or Policy Research & Analysis. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MPA students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MPA/law degree (JD), MPA/Master of Public Health (MPH), MPA/Master of Science in Information Science (MSIS), and MPA/Master of Social Work (MSW). They may also pursue a joint master's degree through the Graduate School of International Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.

Area Studies Certificate Options
MPIA students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies, specializing in Africa, Asia, western Europe, eastern Europe, the European Union, Latin America, or Russia.

**Accreditation**

GSPIA's Master of Public Administration degree is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). NASPAA accreditation recognizes that a master's program in public affairs has gone through a rigorous process of voluntary peer review conducted by the Commission on Peer Review and Accreditation (COPRA), and has met NASPAA’s Standards for Professional Master's Degree Programs in Public Affairs, Policy, and Administration.

**Master's**

**Energy and Environment, MPA**

**Energy & Environment (E&E)**

Energy & Environment explores the politics and policies of the worldwide energy industry, examining ways to meet global energy needs in a sustainable, environmentally conscious way. Pittsburgh is a global epicenter of one of the biggest energy revolutions of the 21st century - the shale gas boom. New technologies like "fracking" are making billions of dollars of natural gas accessible to world markets for the first time, generating thousands of new jobs from Europe to North America. Western Pennsylvania sits atop one of the largest and most productive shale deposits anywhere on the planet, raising major questions about how to extract the gas responsibly, how to protect communities from environmental harm, and how to tax and regulate the rapid growth. GSPIA Students study the economics of the global energy industry, environmental sustainability, and regulatory policy in one of the world's best living laboratories. Graduates are prepared for jobs at environmental protection agencies, energy corporations, and a host of local, state, and national government offices that make energy policy.

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2117 - PROGRAM EVALUATION (pre-requisite: PIA 2022)
- PIA 2104 - FINANCIAL MANAGEMENT
- PIA 2096 - CAPSTONE SEMINAR:
  - OR
- PIA 2099 - THESIS (student must take PIA 2003 & prior approval from graduate enrollment counselor)

Major Courses: 12 credits

- PIA 2xxx - Approved E&E Major Course

Three of the following five courses:

- PIA 2231 - CONTEMPORARY US ENERGY POLICY
- PIA 2523 - GLOBAL ENERGY POLICY
- PIA 2115 - ENVIRONMENTAL ECONOMICS
- PIA 2502 - GLOBAL ENVIRONMENTAL POLICY
- PIA 2164 - NATRL RESORCS GVRNC AND MGT

Electives: 9 credits
Minimum Required Credits: 48 credits

**Governance & International Public Management, GIPM/MPA**

Governance and International Public Management provides a comparative perspective on international development, focusing on the ways in which public and nonprofit organizations must adapt to meet the different cultural, political, and economic circumstances of the communities they serve.

It explores how public agencies around the globe, faced with similar problems like poverty, illiteracy, and inequality, have addressed those issues differently in different countries. Students confront the challenges of implementing complex policies in a global, multicultural context. This major focuses on developing the management and analytical skills necessary to take leadership roles in the multilateral sector, governments abroad, or any organization that delivers services internationally. Graduates are well-prepared to pursue careers at the United Nations, the U.S. Agency for International Development, and similar organizations.

**Core: Governance & International Public Management(GIPM)**

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 3393 - COMPARATIVE PUBLIC ADMINISTRTN
  - OR
- PIA 2501 - DEVELP POLICY & ADMINISTRATION

Electives: 9 credits

Minimum Required Credits: 48 credits
Policy Research and Analysis, MPA

Policy Research and Analysis (PRA)

Today's policymakers require analytical skills from a variety of disciplines: quantitative, economic, political, and organizational. Students in the policy research & analysis major enjoy access to a rich array of resources to help them prepare for careers in both the public and private sectors. Recent graduates of our program have gone on to work in such careers as budget examiners for the state of New York, analysts for the Government Accountability Office and the U.S. Mint and consultants for the leading firm Booz Allen Hamilton.

Motivated and inquisitive people looking to acquire the technical skills and knowledge to contribute to research and policymaking decisions will appreciate our curriculum. It is infused with a rich variety of interdisciplinary viewpoints to give students a well-informed view of policy analysis that is both national and international in scope.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

Major Courses: 12 credits

- PIA 2023 - INTERMEDT QUANTITATIVE METHS (pre-requisite PIA 2022)
- PIA XXXX Approved PRA major course
- PIA XXXX Approved PRA major course
- PIA XXXX Approved PRA major course

Electives: 9 credits

Minimum Required Credits: 48 credits

Public and Nonprofit Management, MPA

Public and Nonprofit Management (PNM)

Public service is a discipline practiced at many levels: local, national and international often with ripple effects across each. Through grassroots contributions and global applications, GSPIA students pursuing a public & nonprofit management major acquire a deep understanding of the many contexts in which public and nonprofit organizations operate. Many look forward to the opportunity to leverage change in a mixed economy.

Our curriculum stresses responsible leadership and our students develop the skills to diagnose leadership challenges and opportunities from a variety of ethical and moral frameworks. Our interdisciplinary approach draws from a variety of fields such as philosophy, law, organizational design and political science. Our approach gives students the skills they need to meet the challenges of a world in which services increasingly span boundaries among business, government and nonprofit organizations.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits
Major Courses: 12 credits

- PIA 2103 - MGNG PEPL PBL/C/NONPROFT SECT
- PIA 2185 - STRATEGIC MANAGEMENT (pre-req. PIA 2020 or PIA 2170)
- PIA XXXX Approved PNM major course
- PIA XXXX Approved PNM major course

Electives: 9 credits

Minimum Required Credits: 48 credits

Urban Affairs & Planning, MPA

Urban Affairs & Planning (UAP)

The major in Urban Affairs and Planning takes a city-focused perspective on international development. More than half of the world's people now live in urban areas, raising important questions about how governments should meet the public's needs for transportation, health and sanitation, education, and other essential services.

As the developing world urbanizes, booming cities like Shanghai, Mumbai, Buenos Aires, and Johannesburg face critical challenges, including poverty, homelessness, and pollution. The major prepares students to confront those problems on an international scale, while developing valuable skills in Geographic Information Systems (GIS), regional economic planning, and sustainable development management. Students take advantage of GSPIA's highly regarded Center for Metropolitan Studies, participating in cutting-edge research alongside faculty experts.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

Major Courses: 12 credits

- PIA 2125 - CITY & REGION THEORY & PRACTC
- PIA 2715 - GIS FOR PUBLIC POLICY
- PIA 2740 - PLN & ANAL SUSTAINABLE REGIONS
- PIA 2xxx - Approved UAP Major Course

Electives: 9 credits

Minimum Required Credits: 48 credits

Minor

Energy and Environment Minor

The required courses for the Energy & Environment Minor are:
With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

**Policy Research and Analysis Minor**

The requirements for the Policy Research and Analysis minor are:

- PIA 2023 Intermediate Quantitative Methods (3cr)
- PIA 2025 Microeconomics (3cr)
- PIA 2117 Program Evaluation (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

**Public and Nonprofit Management Minor**

The requirements for the Public and Nonprofit Management minor are:

- PIA 2103 Managing People in the Public/Nonprofit Sector (3cr)
- PIA 2117 Program Evaluation (3cr)
- PIA 2185 Strategic Management (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

**Urban Affairs & Planning Minor**

The requirements for the Urban Affairs and Planning minor are:
PIA 2025  Microeconomics (3cr)
PIA 2125  City & Regional Theory & Practice (3cr)
PIA 2715  GIS for Public Policy (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

Joint Degree

Energy and Environment, JD/MPA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/JD

GSPIA Core Requirements: 18 credits

- PIA 2020 - ADMINSTRTN OF PUBLIC AFFAIRS
- PIA 2021 - GLOBAL GOVERNANCE *

1108
- PIA 2022 - QUANTITATIVE METHODS
- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS *

- PIA 2025 - MICROECONOMICS 1 or
- PIA 2026 - MICROECONOMICS 2

- PIA 2028 - PUBLIC POLICY ANALYSIS
- PIA 2094 - PROFESSIONAL DEVELOPMENT PROGM
- PIA 2098 - INTERNSHIP

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Energy and Environment, MPA/MPH

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA’s partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA’s GRE
requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Social Work

Today’s community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the
community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note
Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.
Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/MIS

GSPIA Core Requirements: 18 credits

- PIA 2020 - ADMINISTRN OF PUBLIC AFFAIRS
- PIA 2021 - GLOBAL GOVERNANCE *
- PIA 2022 - QUANTITATIVE METHODS
- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS *
- PIA 2025 - MICROECONOMICS 1 or
- PIA 2026 - MICROECONOMICS 2
- PIA 2028 - PUBLIC POLICY ANALYSIS
- PIA 2094 - PROFESSIONAL DEVELOPMENT PROGM
- PIA 2098 - INTERNSHIP

Degree Core Courses: 9 credits

- PIA 2104 - FINANCIAL MANAGEMENT
- PIA 2117 - PROGRAM EVALUATION
  (pre-requisite: PIA 2022)
- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & have prior approval from graduate enrollment counselor)

Major Courses: 9-12 credits

(see Major-Specific requirements)

Minimum Required GSPIA Credits: 36 credits
Master of Information Science requirements: 30 credits

(see Information Science website for requirements)

Total Number of Credits for Joint Degree: 66

Major Specific Requirements:

Policy Research & Analysis

- PIA 2023 - INTERMEDT QUANTITATIVE METHS
  (pre-requisites: PIA 2022)
- PIA 2xxx - Approved PRA Major Course
- PIA 2xxx - Approved PRA Major Course
- PIA 2xxx - Approved PRA Major Course

Policy Research and Analysis, MPA/MPH

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Master of Public Administration and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that
require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public Administration and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPA/MPH

GSPIA Core Requirements: 18 credits

- PIA 2020 - ADMINSTRTN OF PUBLIC AFFAIRS
- PIA 2021 - GLOBAL GOVERNANCE *
- PIA 2022 - QUANTITATIVE METHODS
- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS *
Degree Core Courses: 9 credits

- PIA 2104 - FINANCIAL MANAGEMENT
- PIA 2117 - PROGRAM EVALUATION
  (pre-requisite: PIA 2022)
- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & prior approval from graduate enrollment counselor)

Major Courses: 9-12 credits

(see Major-Specific requirements)

Minimum Required GSPIA Credits: 36 credits

Master of Public Health requirements: 42 credits

(see Public Health website for requirements)

Total Number of Credits for Joint Degree: 78

Major Specific Requirements:

Urban Affairs & Planning (UAP)

- PIA 2125 - CITY & REGION THEORY & PRACTC
- PIA 2715 - GIS FOR PUBLIC POLICY
- PIA 2740 - PLN & ANAL SUSTAINABLE REGIONS
- PIA 2xxx - Approved UAP Major Course

Urban Affairs & Planning, MPA/MSW

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.
To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

**Master of Public Administration and Master of Social Work**

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

- PIA 2740 - PLN & ANAL SUSTAINABLE REGIONS
- PIA 2xxx - Approved UAP Major Course

Department of Public and International Affairs

Master of Public and International Affairs (MPIA)

From the halls of the United Nations to the streets of war-torn conflict zones, the modern international system is in a state of rapid flux that demands versatile, well-educated professionals. The MPIA degree is a multidisciplinary program designed to prepare students for careers of influence in the international arena - as government policymakers, diplomats, intelligence officials, global business leaders, nonprofit managers, and policy researchers. The program emphasizes practical skills and knowledge necessary to participate in the world policy process and shape its future. The MPIA curriculum includes traditional courses on world history, economics, and international relations theory, along with practical courses on intelligence collection and analysis, diplomacy, and international finance. It also includes one of the country's only graduate specializations in Human Security - a unique field that focuses on the security of civilian populations and human rights.

Degree Requirements and Majors

Students must complete at least 48 credits in public and international affairs and may choose one of three majors: International Political Economy, Human Security, or Security & Intelligence Studies. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MPIA students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MPIA/law degree (JD), MPIA/Master of Business Administration (MBA), MPIA/Master of Public Health (MPH), MPIA/Master of Science in Information Science (MSIS), and MPIA/Master of Social Work (MSW). They may also pursue a joint master's degree through the University of Geneva in Switzerland or the Graduate School of International and Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.
Area Studies Certificate Options

MPIA students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies, specializing in Africa, Asia, western Europe, eastern Europe, the European Union, Latin America, or Russia.

Master's

Human Security, MPIA

Human Security

Because the globalization process has made the world seem exponentially smaller, threats from tsunamis, earthquakes, disease and starvation are arriving faster and in more dramatic fashion than ever before. One of the most innovative, forward-thinking disciplines in international affairs today, the human security major covers a wide swath of issues critical to the safety of people worldwide.

GSPIA's program, one of the first of its kind in the United States, emphasizes the development of peacekeeping and peace-building skills. Students study threats to individuals from nongovernmental, nonmilitary sources. Examples of threats include civil wars, international migration and crime, global climate changes and natural disasters. We teach students to focus on the human condition as a planet, resulting in a new generation of leaders able to guide our global community through some of the most perilous times is has ever experienced.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2307 - HUMAN SECURITY
- PIA 2363 - INTERNATIONAL HISTORY
- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & have prior approval from graduate enrollment counselor)

HS Major Courses: 12 credits

- PIA XXXX Approved HS major course
- PIA XXXX Approved HS major course
- PIA XXXX Approved HS major course
- PIA XXXX Approved HS major course

Electives: 9 credits

Minimum Required Credits: 48 credits

International Political Economy, MPIA
International Political Economy

From the Euro to the yen, today's global economy operates in a climate of change. The international global political economy (IPE) major teaches students to understand globalization and the role the state plays, as well as market strategies for corporations and their corporate identities. Courses target competencies in finance, economics, international trade and development. Specific topics range from the work of nongovernmental organizations (NGOs) to political climates in post-Communist states and the role of women in developing countries.

GSPIA IPE students are idealistic, curious about the world and eager to put their vision into practice. Recent IPE graduates include a treasury expert with the Republic of Turkey, a project manager specialist for the U.S. Agency for International Development's Mission in Moscow, a presidential management fellow with the U.S. Department of Commerce, and a United Nations Fulbright Fellow with the Department of Social and Economic Affairs.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2301 - INTERNATIONAL POLITICAL ECONOMY
- PIA 2363 - INTERNATIONAL HISTORY
- PIA 2096 - CAPSTONE SEMINAR: OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & have prior approval from graduate enrollment counselor)

Major Courses: 12 credits

- PIA 2xxx - Approved IPE Major Course
- PIA 2xxx - Approved IPE Major Course
- PIA 2xxx - Approved IPE Major Course

Electives: 9 credits

Minimum Required Credits: 48 credits

Security and Intelligence Studies, MPIA

Security and Intelligence Studies

The post-9/11 world has brought remarkable change to national and international security. Issues of strategy, weapons systems, national defense and the role of government are being redefined every day. GSPIA's major in security & intelligence studies (SIS) approaches issues within an international context and covers a variety of topics including transnational organized crime, terrorism, weapons of mass destruction and competition for natural resources.

SIS students are interested in the use of technology, investigation and discovery and often have a desire to travel internationally. Our program prepares students for careers in the security or intelligence fields with various think tanks or intelligence agencies, such as the FBI or CIA.
The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2303 - SECURITY & INTELLGNC STUDIES
- PIA 2363 - INTERNATIONAL HISTORY

- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & have prior approval from graduate enrollment counselor)

- PIA XXXX Approved SIS major course

Electives: 9 credits

Minimum Required Credits: 48 credits

Minor

Civil Security and Disaster Management Minor

The required courses for the Civil Security & Disaster Management Minor are:

PIA 2101 Managing Emergencies & Disasters (3cr.)
PIA 2129 Law & Civil Society (3cr.)
PIA 2096 Early Warning & Contemporary Threats (3cr.)
  or
PIA 2742 NGO's & Humanitarian Disasters (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

Security and Intelligence Studies Minor

The requirements for the Security and Intelligence minor are:
With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. **Joint Degree**

**Human Security, JD/MPIA**

**Joint Degree**

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA’s partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master’s degrees in just three years, or a master’s degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA’s GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

**Master of Public & International Affairs and Juris Doctor**

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Master of Public & International Affairs and Master of Business Administration

For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master of Public and International Affairs and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/JD

GSPIA Core Requirements: 18 credits

- PIA 2020 - ADMINSTRTN OF PUBLIC AFFAIRS
- PIA 2021 - GLOBAL GOVERNANCE *
- PIA 2022 - QUANTITATIVE METHODS
- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS *
- PIA 2025 - MICROECONOMICS 1 (recommended) or
- PIA 2026 - MICROECONOMICS 2 (recommended) or
- PIA 2027 - MACROECONOMICS
- PIA 2028 - PUBLIC POLICY ANALYSIS
- PIA 2094 - PROFESSIONAL DEVELOPMENT PROGM
- PIA 2098 - INTERNSHIP

Degree Core Courses: 9 credits

- PIA 2363 - INTERNATIONAL HISTORY
- PIA 2096 - CAPSTONE SEMINAR: or
- PIA 2099 - THESIS (pre-req. PIA 2028 + PIA 2003 + approval)

One of the following based on major:

- PIA 2301 - INTERNATIONAL POLITICAL ECONMY or
• PIA 2303 - SECURITY & INTELLIGENCE STUDIES or
• PIA 2307 - HUMAN SECURITY

Major Courses: 9-12 credits

(see Major-Specific requirements)

Minimum Required GSPIA Credits: 36 credits

Juris Doctor requirements: 79 credits

(see Law website for requirements)

Total Number of Credits for Joint Degree: 115

Major Specific Requirements:

Security & Intelligence Studies

• PIA 2xxx - Approved SIS Major Course
• PIA 2xxx - Approved SIS Major Course
• PIA 2xxx - Approved SIS Major Course
• PIA 2xxx - Approved SIS Major Course

Security and Intelligence Studies, MBA/MPIA

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Business Administration
For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

**Master of Public & International Affairs and Master of Social Work**

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Department of International Development

Master of International Development (MID)

MID students promote respect for human life and human rights, often working behind the scenes to bring real improvements to the human condition through hands-on careers in public service. They work face-to-face with underprivileged and vulnerable populations, in the front offices of aid agencies, and in international organizations dedicated to protecting those who need help most.

The 48-credit MID degree is designed to prepare students to make a difference locally, nationally, and globally by emphasizing intellectual rigor and practical skills. Students study development theoretically, but also learn concrete technical and managerial skills necessary to work in organizations that promote equality in the developing world. Graduates exit the program prepared for professional work in the United Nations, public aid agencies, and charities of all sizes. Often, they pursue work in the private sector, research groups, and prominent nongovernmental organizations.

Degree Requirements and Majors

Students must complete at least 48 credits in international development and may choose one of five majors: Energy & Environment, Human Security, Nongovernmental Organizations & Civil Society, Urban Affairs & Planning, or Governance & International Public Management. Students may also pursue a minor in any of these fields, or in any of the following fields offered by GSPIA's other degree programs.

Prior to graduation, students must also complete a 300-hour internship with an approval from GSPIA career services.

Joint Degree Options

MID students are eligible to pursue one of several joint degrees at the University of Pittsburgh, including a joint MID/law degree (JD), MID/Master of Business Administration (MBA), MID/Master of Public Health (MPH), MID/Master of Science in Information Science (MSIS), and MID/Master of Social Work (MSW). They may also pursue a joint master's degree through the University of Geneva in Switzerland or the Graduate School of
International Cooperative Studies at Kobe University in Japan. An accelerated, five-year bachelor's/master's degree program is available to select University of Pittsburgh undergraduates.

Area Studies Certificate Options

MPIA students are eligible to combine their master's degree with a graduate certificate from the University Center for International Studies, specializing in Africa, Asia, western Europe, eastern Europe, the European Union, Latin America, or Russia.

Master's

Energy & Environment, MID

Energy and Environment explores the politics and policies of the worldwide energy industry, examining ways to meet global energy needs in a sustainable, environmentally conscious way. Pittsburgh is a global epicenter of one of the biggest energy revolutions of the 21st century - the shale gas boom. New technologies like "fracking" are making billions of dollars of natural gas accessible to world markets for the first time, generating thousands of new jobs from Europe to North America. Western Pennsylvania sits atop one of the largest and most productive shale deposits anywhere on the planet, raising major questions about how to extract the gas responsibly, how to protect communities from environmental harm, and how to tax and regulate the rapid growth. GSPIA Students study the economics of the global energy industry, environmental sustainability, and regulatory policy in one of the world's best living laboratories. Graduates are prepared for jobs at environmental protection agencies, energy corporations, and a host of local, state, and national government offices that make energy policy.

Energy & Environment (E&E)

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2501 - DEVELOP POLICY & ADMINISTRATION
- PIA 2510 - ECONOMICS OF DEVELOPMENT
- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & prior approval from graduate enrollment counselor)

Major Courses: 12 credits

- PIA 2xxx - Approved E&E Major Course

Three of the following five courses:

- PIA 2231 - CONTEMPORARY US ENERGY POLICY
- PIA 2523 - GLOBAL ENERGY POLICY
- PIA 2115 - ENVIRONMENTAL ECONOMICS
- PIA 2502 - GLOBAL ENVIRONMENTAL POLICY
- PIA 2164 - NATURAL RESOURCES AND MGT

Electives: 9 credits
Minimum Required Credits: 48 credits

**Governance & International Public Management, GIPM/MID**

Governance and International Public Management provides a comparative perspective on international development, focusing on the ways in which public and nonprofit organizations must adapt to meet the different cultural, political, and economic circumstances of the communities they serve.

It explores how public agencies around the globe, faced with similar problems like poverty, illiteracy, and inequality, have addressed those issues differently in different countries. Students confront the challenges of implementing complex policies in a global, multicultural context. This major focuses on developing the management and analytical skills necessary to take leadership roles in the multilateral sector, governments abroad, or any organization that delivers services internationally. Graduates are well-prepared to pursue careers at the United Nations, the U.S. Agency for International Development, and similar organizations.

**Core: Governance & International Public Management (GIPM)**

The major curriculum, comprising 12 credits, follows:

GSPIA core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

- PIA 2501 - DEVELOP POLICY & ADMINISTRATION
- PIA 2510 - ECONOMICS OF DEVELOPMENT (pre-requisites: PIA 2024 & 2025 or 2026 or 2027)
- PIA 2096 - CAPSTONE SEMINAR:
  OR
- PIA 2099 - THESIS (student must have PIA 2003 & prior approval from graduate enrollment counselor)

Major Courses: 12 credits

- PIA 2xxx - Approved GIPM Major Course
- PIA 2xxx - Approved GIPM Major Course
- PIA 2528 - GOVRNC LOCAL GVRNT CIVIL SOCTY
  OR
- PIA 2124 - COMP METROPOLITAN GOVERNANCE
- PIA 2552 - MANGNG ORGNIZTN IN DEVELOPMNT
  OR
- PIA 2199 - ADV SEM: INT'L PBLC MANAGEMENT
  OR
- PIA 2011 - MANAGING INTERNATIONAL ORGNS
  OR
- PIA 3393 - COMPARATIVE PUBLIC ADMINISTRTN

Electives: 9 credits

Minimum Required Credits: 48 credits

**Human Security, MID**
Human Security (HS)

Because the globalization process has made the world seem exponentially smaller, threats from tsunamis, earthquakes, disease and starvation are arriving faster and in more dramatic fashion than ever before. One of the most innovative, forward-thinking disciplines in international affairs today, the human security major covers a wide swath of issues critical to the safety of people worldwide.

GSPIA's program, one of the first of its kind in the United States, emphasizes the development of peacekeeping and peace-building skills. Students study threats to individuals from nongovernmental, nonmilitary sources. Examples of threats include civil wars, international migration and crime, global climate changes and natural disasters. We teach students to focus on the human condition as a planet, resulting in a new generation of leaders able to guide our global community through some of the most perilous times is has ever experienced.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements: 18 credits

(See Master's Degree Requirements)

Degree Core Courses: 9 credits

HS Major Courses: 12 credits

- PIA 2307 - HUMAN SECURITY
- PIA XXXX Approved HS major course
- PIA XXXX Approved HS major course
- PIA XXXX Approved HS major course

Electives: 9 credits

Minimum Required Credits: 48 credits

Nongovernmental Organizations and Civil Society, MID

NGOs and Civil Society (NGOCS)

Much of the work that has defined change around the world has been the domain of nongovernmental organizations (NGO's). The nongovernmental organizations and civil society (NGOCS) major prepares students for a future in a world where NGO's are committed to social change in the shifting landscape of the human condition. Students acquire knowledge in management strategies and politics and courses cover such topics as alleviating hunger, advocating for human rights and promoting public health.

GSPIA NGOCS students have the opportunity to develop experience through internships, both domestic and international, as well as the change to build expertise in issues such as grant writing, education or health care that will serve them well following graduation. Our approach is to act as advocates of change with our courses and faculty inspiring and empowering students to make a difference. Graduates go on to work with individual governments, regions and communities around the globe to improve the quality of life.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements: 18 credits

(See Master's Degree Requirements)
Degree Core Courses: 9 credits

NGOCS Major Courses: 12 credits

- PIA 2526 - NGOS CIVIL SOCIETY & DVLP or
- PIA 2528 - GOVRNC LOCAL GVRNT CIVIL SOCTY
- PIA XXXX Approved NGOCS major course
- PIA XXXX Approved NGOCS major course
- PIA XXXX Approved NGOCS major course

Electives: 9 credits

Minimum Required Credits: 48 credits

Urban Affairs & Planning, MID

Urban Affairs & Planning (UAP)

Urban Affairs and Planning takes a city-focused perspective on international development. More than half of the world's people now live in urban areas, raising important questions about how governments should meet the public's needs for transportation, health and sanitation, education, and other essential services.

As the developing world urbanizes, booming cities like Shanghai, Mumbai, Buenos Aires, and Johannesburg face critical challenges, including poverty, homelessness, and pollution. The major prepares students to confront those problems on an international scale, while developing valuable skills in Geographic Information Systems (GIS), regional economic planning, and sustainable development management. Students take advantage of GSPIA's highly regarded Center for Metropolitan Studies, participating in cutting-edge research alongside faculty experts.

The major curriculum, comprising 12 credits, follows:

GSPIA Core Requirements (See Master's Degree Requirements): 18 credits

Degree Core Courses: 9 credits

Major Courses: 12 credits

- PIA 2125 - CITY & REGION THEORY & PRACTC
- PIA 2715 - GIS FOR PUBLIC POLICY
- PIA 2740 - PLN & ANAL SUSTAINABLE REGIONS
- PIA 2xxx - Approved UAP Major Course

Electives: 9 credits

Minimum Required Credits: 48 credits

Minor
Nongovernmental Organizations and Civil Society Minor

The requirements for the Nongovernmental Organizations & Civil Society Minor are:

PIA 2526 Micropolitics: NGO's, Development & Civil Society (3cr)
PIA 2528 Governance, Local Government, & Civil Society (3cr)
PIA 2552 Managing Organizations in Development (3cr)

With approval, appropriate courses may be substituted for those listed above. No course may be double-counted. Any course taken to fulfill a requirement for your degree or major cannot also count toward your minor. In such cases, an approved course must be substituted. Please consult with your graduate enrollment counselor.

Joint Degree

Energy & Environment, JD/MID

Requirements for the joint degree MID/JD

Human Security, JD/MID

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA’s partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Business Administration
For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. **Master of International Development and Master of Public Health**

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Master of International Development and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban
Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted.   OR
- PIA 2099 - THESIS
  (student must take PIA 2003 & have prior approval from graduate enrollment counselor)

Major Courses: 9-12 credits
Minimum Required GSPIA Credits: 36 credits

Master of Social Work requirements: 51 credits

Total Number of Credits for Joint Degree: 87

Nongovernmental Organizations and Civil Societies, JD/MID

Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

**Master of International Development and Master of Business Administration**

For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Science in Information Science
The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of International Development and Master of Social Work

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Department of Public Policy and Management

Master of Public Policy & Management (MPPM)

- Traditional Master of Public Policy and Management (MPPM)

The accelerated, 30-credit Master of Public Policy and Management (MPPM) degree provides mid-career professionals an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners. The program is designed to help enhance and advance the careers of professionals in the public and nonprofit sectors. It is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service. Degree requirements can be completed within one year of full-time study or two years of part-time study.

- Online Master of Public Policy and Management (MPPM)

The online Master of Public Policy and Management (MPPM) degree is a part-time, 30-credit program for mid-career professionals with at least five years of full-time work experience. It is an online version of the MPPM program that GSPIA has offered to talented mid-career students for more than a decade. Students who apply to the MPPM program may now choose whether they want to pursue the degree in its traditional, on-campus format or in a 100% online format.

Special Admissions Requirements

The MPPM program seeks applicants with a bachelor's degree and a minimum of five or more years of experience beyond an entry-level position. Candidates' experience should demonstrate increasing levels of responsibility, leadership, and professional competence, particularly in areas such as budgeting and finance, human resource management, or policy formulation or implementation. Candidates with fewer than five years of such experience should not apply to the MPPM program, but should apply instead to one of GSPIA's other, 48-credit master's degree programs. The flexible curriculum of the MPPM program is ideal for full-time and part-time students, as it allows them to take any of the courses offered at GSPIA. Students are free to study international affairs, international development, or public administration, and may focus their course selection on any of the fields of study offered under GSPIA's traditional, 48-credit master's degree programs.

Master's

International Political Economy Minor

The requirements for the International Political Economy major are:

- PIA 2301 International Political Economy (3cr)
- PIA 2302 International Financial Policy (3cr)
- PIA 2310 States & Markets (3cr)
  or
- PIA 2319 International Trade (3r)
Public Policy and Management, MPPM

Master of Public Policy and Management (MPPM)

Accelerated Mid-Career Masters (Traditional)

The accelerated mid-career, 30-credit Master of Public Policy and Management (MPPM) degree provides mid-career professionals an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners.

The program is designed to help enhance and advance the careers of professionals in the public and nonprofit sectors. It is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service. Degree requirements can be completed within one year of full-time study or two years of part-time study. Students may specialize in security & intelligence, global political economy, human security, development planning & environmental sustainability, non-governmental organizations & civil society, urban & regional planning, public & nonprofit management, and policy research & analysis.

The MPPM program seeks applicants with a bachelor's degree and a minimum of five or more years of experience beyond an entry-level position. Candidates' experience should demonstrate increasing levels of responsibility, leadership, and professional competence, particularly in areas such as budgeting and finance, human resource management, or policy formulation or implementation. Candidates with fewer than five years of such experience should not apply to the MPPM program, but should apply instead to one of GSPIA's other, 48-credit master's degree programs.

Online Accelerated Mid-Career Masters

The online Master of Public Policy and Management (MPPM) degree is a part-time, 30-credit program for mid-career professionals with at least five years of full-time work experience. It is an online version of the MPPM program that GSPIA has offered to talented mid-career students for more than a decade. Students who apply to the MPPM program may now choose whether they want to pursue the degree in its traditional, on-campus format or in a 100% online format.

The program provides mid-career professionals with an opportunity to expand their knowledge, develop new analytic tools and professional skills, explore new ideas and theories, and interact with experienced faculty and practitioners. It is designed to help enhance and advance the careers of working professionals in the public and nonprofit sectors, but is also ideal for professionals in other fields looking to change careers, and begin a new, rewarding life in public service.

Online Program Structure

As an online MPPM student, you will enroll in two web-based courses (for a total of 6 credits) per term. You will be able to complete the 30-credit degree in just five terms. By taking courses during the spring, summer, and fall terms, you can earn your degree in just 20 months. You may, if you prefer, complete the program at a slower pace by taking just one course at a time.

You will follow a set curriculum of online courses, all of which are taught by regular GSPIA faculty who are dedicated to your success, wherever you are. You will complete your coursework using the Pitt Online Website, where you can login at your convenience to view course material and submit assignments.

In addition to the professors teaching your courses, you will be assigned to a faculty advisor and a full-time enrollment counselor who will be able to assist you by phone, Skype, or email with any questions you may have. Your advisor and enrollment counselor will help you navigate the registration process and work with you throughout your time at GSPIA to ensure your success.

Traditional Requirements:

MPPM Core Courses: 12 credits
• PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS

• PIA 2020 - ADMINISTRATN OF PUBLIC AFFAIRS
  OR
• PIA 2021 - GLOBAL GOVERNANCE
  OR
• PIA 2501 - DEVELOP POLICY & ADMINISTRATION

• PIA 2117 - PROGRAM EVALUATION (strongly recommended that students take PIA 2022: Quantitative Methods, prior to PIA 2117)
• PIA 2896 - MPPM POLICY SEMINAR

Specialization Courses (six courses): 18 credits

• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course

Minimum Required Credits: 30 credits

Online Requirements

Online MPPM Core Courses: 12 credits

• PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS
• PIA 2020 - ADMINISTRATN OF PUBLIC AFFAIRS
• PIA 2117 - PROGRAM EVALUATION
• PIA 2896 - MPPM POLICY SEMINAR

Online specialization courses (six courses): 18 credits

Online MPPM students must take an additional 18 credits beyond the core. Below are courses that are expected to be offered online to allow students to fulfill this requirement. Actual courses may vary.

• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course
• PIA 2xxx - MPPM specialization course

Minimum Required Credits: 30 credits

Joint Degree

International Political Economy, JD/MPIA
Joint Degree

Full-time GSPIA students in the MPA, MPIA, or MID programs may pursue two graduate degrees simultaneously, through GSPIA's partnerships with other professional schools at the University of Pittsburgh (and two foreign universities). Joint programs reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years, or a master's degree and a law degree in just four years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements. Those applying to the joint JD program with the University of Pittsburgh School of Law may submit an LSAT score as a substitute for GSPIA's GRE requirement. Those applying to the joint MBA program may submit the GMAT as a substitute for the GRE. If admitted to both schools, students spend one full year in GSPIA followed by a second full year in the other program (or vice versa). During the third and/or fourth year, they spend a minimum of one additional term in GSPIA, earning a total of 36 GSPIA credits.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public and International Affairs and Juris Doctor

The joint JD allows students to combine the study of law and policy, preparing them equally well for employment in the judicial or executive branches of government. Graduates are positioned to work in international law firms, nonprofit advocacy, and in public or nonprofit agencies that require knowledge of legal issues, such as refugee services and the Department of Justice. Pitt Law School also partners with GSPIA in the University of Pittsburgh's Washington Center.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Joint degree students should contact their GSPIA Graduate Enrollment Counselor once a term for advising. Graduate Enrollment Counselors advise for GSPIA programs only. Joint degree students must meet with an advisor from both schools.

Requirements for the joint degree MPIA/JD

GSPIA Core Requirements: 18 credits

- PIA 2020 - ADMINSTRN OF PUBLIC AFFAIRS
- PIA 2021 - GLOBAL GOVERNANCE *
- PIA 2022 - QUANTITATIVE METHODS
- PIA 2024 - ECONOMICS FOR PUBLIC AFFAIRS *
- PIA 2025 - MICROECONOMICS 1 (recommended) or
- PIA 2026 - MICROECONOMICS 2 (recommended) or

Master of Public and International Affairs and Master of Business Administration

For MPIA and MID students only: Combining a GSPIA degree with an MBA opens many opportunities for a career in international finance, government financial regulation, or multinational corporations. Students with both degrees are highly marketable in the fields of international business and international economic policy.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Science in Information Science

The joint MSIS degree allows GSPIA students to combine the study of public management and information technology management, at a time when both fields are increasingly interconnected. Students are prepared to pursue public or nonprofit-sector careers that require strong knowledge of modern information systems.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Any course taken to fulfill a requirement for the degree in one program cannot also count toward the degree in the other program. Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year (or, in the case of current law students, two years) of full-time study.

Master of Public & International Affairs and Master of Public Health

Students pursuing a joint MPH gain a unique perspective on public management, government responses to epidemics, and the effect of sanitation on international development. They study health policy and the science behind it, both at the local level and on the world stage, where disease recognizes no borders. Graduates are employed by medical relief agencies, nonprofit organizations that distribute vaccines, and government authorities responsible for protecting society from epidemics.

Note

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. **Master of Public & International Affairs and Master of Social Work**

Today's community building arena demands well-trained professionals across a wider array of skills and systems than one degree program may offer. That's why the joint degree program between GSPIA and School of Social Work provides students with focused professional education in the community building arena to prepare them for careers in non-profit and government organizations, community development, social policy, and urban and regional affairs.

**Note**

Joint-degree students take a minimum of 36 credits and must have 3 terms of GSPIA residency. Students must graduate from both schools at the same time. No course may be double-counted. Graduate School of Public Health

The Graduate School of Public Health consists of programs offered by the Departments of Behavioral and Community Health Sciences, Biostatistics, Environmental and Occupational Health, Epidemiology, Health Policy and Management, Human Genetics, and Infectious Diseases and Microbiology, the multidisciplinary MPH program for doctoral-level health professionals, and nine certificates. Programs and specialty tracks, including joint programs, are detailed under individual department sections.

The mission of the Graduate School of Public Health (Pitt Public Health) is to promote health, prevent disease, and achieve health equity for everyone through leadership in education, research, and service. Visit our Web site, www.publichealth.pitt.edu, for more information.

Admissions

GSPH Admissions Requirements

GSPH Admissions Requirements

If You Are Applying for a Degree Program
All new degree-seeking applicants, except those applying for non-degree study, only a certificate program, Genetic Counseling MS, and/or dual-degree Genetic Counseling MS/MPH, must apply through SOPHAS, the online, centralized application service for CEPH-accredited schools of public health. SOPHAS submits applications to the Pitt Public Health only after all required materials are received.

Apply online through SOPHAS.  
Pay application fee directly to SOPHAS.  
Submit personal statement through SOPHAS.  
Submit three recommendations directly to SOPHAS.  
Submit official transcripts for all education in the United States directly to SOPHAS.  
Submit a course-by-course WES evaluation for all education outside of the United States (not including study abroad) directly to SOPHAS.  
Submit official GRE scores to the Graduate School of Public Health code 4234, with no department code.  
Submit official TOEFL scores (if applicable) to SOPHAS code 5688.  
Track the status of your completed application online.

Note: Pitt Public Health holds its applicants and students to the high ethical standards expected of public health professionals. Any form of misrepresentation or plagiarism discovered in an application will result in immediate rejection of the applicant. The incident also will be reported to SOPHAS, the public health shared application service, which will notify other participating schools.

If You Are Applying for Genetic Counseling MS or dual-degree Genetic Counseling MS/MPH Programs

All new Genetic Counseling MS and/or dual-degree Genetic Counseling MS/MPH applicants must apply through SOPHAS Express.

Apply online through SOPHAS Express  
Pay application fee directly to SOPHAS Express  
Submit personal statement through SOPHAS Express  
Submit three recommendations through SOPHAS Express  
Submit official transcripts for all education in the United States and/or in Canada directly to the Pitt Public Health Student Affairs Office.  
Official e-transcripts can also be emailed to satemp5@pitt.edu  
Submit a course-by-course WES evaluation for all education outside of the United States (excluding study abroad but including non-English speaking Canadian institutions) directly to the Pitt Public Health Student Affairs Office.  
Submit official GRE scores to the University of Pittsburgh code 2927, with no department code  
Submit official TOEFL scores (if applicable) to University of Pittsburgh code 2927

Note: Pitt Public Health holds its applicants and students to the high ethical standards expected of public health professionals. Any form of misrepresentation or plagiarism discovered in an application will result in immediate rejection of the applicant. The incident also will be reported to SOPHAS Express, the public health shared application service, and the Genetic Counseling program.

If You Are Applying for Non-Degree Study

Interested applicants may enroll in 12 credits of non-degree study before applying to a degree-seeking program.

Apply online through SOPHAS Express and complete required sections only  
Pay application fee online directly to SOPHAS Express  
Submit official transcripts for all education in the United States to Pitt Public Health Office of Student Affairs  
Submit a course-by-course WES evaluation for all education outside of the United States (not including study abroad) to Pitt Public Health Office of Student Affairs  
Submit official TOEFL scores (if applicable) to the University of Pittsburgh institution code 2927, with no department code.

Note: Non-degree applicants are not required to submit recommendations, upload transcripts through SOPHAS Express, submit test scores, or submit any non-required sections of the SOPHAS Express application.

More information about the non-degree option
If You Are Applying for a Certificate Only

If you are only applying to a Pitt Public Health certificate, you may apply through the abbreviated application below. If you also plan to apply for a degree program, do not apply through SOPHAS Express for the certificate. You will only be required to apply through SOPHAS following the instructions above.

- Apply online through SOPHAS Express
- Pay application fee online directly to SOPHAS Express
- Submit a personal statement through SOPHAS Express
- Submit three recommendations through SOPHAS Express
- Submit official transcripts for all education in the United States to Pitt Public Health Office of Student Affairs
- Submit a course-by-course WES evaluation for all education outside of the United States (not including study abroad) to Pitt Public Health Office of Student Affairs
- Submit official GRE scores to the University of Pittsburgh code 2927, with no department code
- Submit official TOEFL scores (if applicable) to the University of Pittsburgh institution code 2927, with no department code.

Note: Applicants who are interested in only pursuing a certificate should contact the program before applying to confirm the availability of courses. International applicants are not eligible to apply for only a certificate program due to the full-time registration requirements of the student visa.

Current Pitt Public Health Students Applying to a New Degree or Certificate Program

Current degree-seeking students interested in transferring to another program or adding another academic program/certificate must:

- E-mail a brief statement including name, current program, details on the plans to transfer or add a program, and the term in which you would like to begin the program to the admissions manager.
- Submit official GRE scores (if applicable) to the University of Pittsburgh code 2927, with no department code.

Further instruction will be forwarded to you once the admissions manager receives your email of intent, depending on the department's requirements.

Note: Pitt Public Health non-degree students are required to apply through SOPHAS if they are interested in being considered for a degree program. See above for the application instructions.

Admissions Review Process

Pitt Public Health processes new applications on Tuesdays and Thursdays. Once the school has received your verified application from SOPHAS or SOPHAS Express and has processed internally, you will be notified by email. If your application is complete by our school-specific requirements, it will be sent to the department for their review. If your application is incomplete, you will receive an initial email about the missing items and then you will be sent periodic e-mail reminders about the incomplete status. Applicants are not considered for admission until all required application materials have been received. Please be sure to add donotreply@webadmit.org and @sendgrid.me to your safe-senders list in your e-mail account.

Your application will be reviewed by the departmental committees. Departmental review generally takes four to six weeks, but the timing may vary by department or by season. As soon as the department has submitted a decision on your application to the Office of Student Affairs, you will be notified of the admissions committee's decision by e-mail. If your application is accepted, an official offer of admission will be mailed to you.

Note: A departmental committee evaluates applications and makes a recommendation to the assistant dean for Student Affairs. Admission is not final until the assistant dean for Student Affairs issues a letter of acceptance.

In the following circumstances, application materials will be kept for one year from the date the application was received and then be destroyed:
Application remains incomplete.
Application is not accepted.
Application is accepted, but applicant does not respond.
Application is accepted, but the applicant declines admission.

**Financial Aid**

Almost all Pitt Public Health doctoral students and many master's students receive financial aid. Most financial aid is provided through the departments, and the amount of aid available varies among programs. Applicants should contact departments directly for information about available financial aid.

GSPH Tuition & Financial Aid

**GSPH Tuition & Financial Aid**

Tuition and fees are set by the University and the official postings should be consulted for current information.

Learn more about GSPH Tuition Costs and Billing

**Financial Aid**

Pitt Public Health cannot guarantee funding to every student, but last year the school provided more than $5 million in financial aid to graduate students. Almost all Pitt Public Health doctoral students and many master's students receive some type of financial aid, whether in the form of full or partial scholarships, fellowships, student assistantships, student employment, or student loans.

Students who receive aid generally receive it through their department, and the amount of aid available varies among the programs. Priority consideration is given to doctoral students. Departments may award graduate student research positions to international students. Important: At the time of admission, international applicants who have not been offered financial aid are required to submit an affidavit indicating that they have sufficient funds to cover their tuition and living expenses for the duration of the program. Visa documents are issued on the basis of these affidavits, and the expectation of self-support continues throughout the entire period of enrollment.

More information on financial aid for international students

For more information on financial aid available through the departments, check your department's financial aid Web page.

**Contacts for Financial Aid**
Contact your department student services staff or academic advisor first with questions about student assistantships, scholarships, and hourly employment.

**University of Pittsburgh Student Loans**

Pitt Office of Admissions and Financial Aid  
412-624-7488

**Student Hourly Employment**

Contact your department student services staff or your departmental academic advisor.  
Contact the University's Office of Human Resources at 412-624-7000.

**Scholarships, Assistantships, Fellowships**

Contact your department student services staff or academic advisor.

**Key Deadlines**

**Loan Applications**

Student loan applications are processed for Pitt Public Health students by the University's Office of Admissions and Financial Aid (OAFA; 412-624-7488). See complete instructions for applying for a student loan on the University's Office of Admissions and Financial Aid page.

Students are encouraged to submit application documents as soon as possible before the start of the term for which a loan is requested.

For information about student loans, view the University's Office of Admission and Financial Aid's PowerPoint presentation.

**Invoice Payment and Refund Deadlines**

**Invoice Payment**

Electronic invoices (eBills) are posted on the student's account after registration for classes, on or about the 20th of every month, and are due on the 17th of the next month.

**Add/Drop**

Students who drop courses by the term's deadline for add/drop may have their tuition for the term adjusted if they are part-time students, or if the drop changes their status from full-time to part-time.

**Resignation Refunds**
Adjustments to tuition charges resulting from official resignation (dropping of all courses for the term) are based on the effective date of resignation and in accordance with the federally mandated calculation. Contact the Student Payment Center (412-624-7520) for information on the amount of tuition adjustment.

Optional Payment Plan

Under some circumstances, students may be approved for installment payments in the Fall or Spring terms. Learn more about the Optional Payment Plan, including dates of payments.

Types of Aid

Student Loans

Student loan applications are processed by the University's Office of Admissions and Financial Aid (OAFA). Click on Types of Financial Aid and then review Student Loans sections for information on available loans, application instructions, prerequisites, and forms. Generally, applicants must be U.S. citizens or permanent residents. Contact OAFA for information on loan options, availability, and to apply.

Call 412-624-7488 to check the status of your loan application.

Suggested Deadlines

While there is no strict deadline for application, the suggested filing dates are June 1 (fall term), October 1 (spring term), and February 1 (summer term). Students are encouraged to apply early.

Free Application for Federal Student Aid (FAFSA)

The Free Application for Federal Student Aid (FAFSA) is required for all students who wish to be considered for loans or Pitt Public Health aid. The University of Pittsburgh federal school code is 008815.

Federal Regulations on Student Loans: Satisfactory Academic Progress (SAP)

Institutions participating in Title IV Federal Student Aid programs must monitor satisfactory academic progress of students receiving any federal loans or other aid (e.g. scholarships).

To demonstrate satisfactory progress, students must maintain a 2.0 GPA and complete at least 67% of the total credits attempted at any point and must complete the degree with no more than 150% of the required credits. If progress is not met, students may be ineligible to receive loans or other aid. Students may appeal, in which case they will have one term to achieve the SAP standards. See Mary Derkach in the Office of Student Affairs, A519 Crabtree Hall, to submit an appeal of determination of no progress.

If you receive federal aid, you should read the entire SAP policy. In particular, FTDR registration is counted as 9 credits for the purposes of this law; retaking courses and receiving course grades of W, I, G, F, N (audit) and R all count towards the stated totals. Advanced standing credits also count toward the total number of credits taken. Also, carrying a large number of I, G, W, R, and F graded credits may potentially violate the 67% completion rule. Contact your instructor(s) about filing real grades on a term-by-term basis, where appropriate.

Student Load Deadlines
While there is no strict deadline for application, the suggested filing dates are...
- June 1 (fall term)
- October 1 (spring term)
- February 1 (summer term)

Students are encouraged to apply early.

**Emergency Loans**

The University may provide loans of up to $200 for students in emergency financial need. Interested students should contact the Student Organization Resource Center (SORC) on the first floor of the William Pitt Union, 412-624-7116.

Short-term student loans of up to $500 may be available through the Pitt Public Health Office of Student Affairs for students with unexpected emergencies who have paid their tuition for the term. Students should contact Assistant Dean for Student Affairs Mary Derkach for more

**Grants and Scholarships**

**Important Note on Loan Eligibility with Regard to Grants and Scholarships**

The University recalculates a student's loan eligibility whenever additional financial aid appears in the student financial system. New aid may result in a reduction or total cancellation of loan eligibility, including an obligation to immediately repay all or part of a loan already disbursed. If you receive a scholarship, you may want to schedule a meeting with a loan counselor in the Office of Admissions and Financial Aid and ask for a recalculation of your loan eligibility.

**University Aid**

The University offers several scholarships throughout the year that are suitable for graduate students. These scholarships will be announced to departments and students will be invited to apply.

**Pitt Alumni Association Graduate Scholarship**
A one-time $5,000 scholarship awarded to graduate students who also completed their undergraduate degree at Pitt. Read more...

**The George L. Carson Graduate Fellowship for Pitt Alumni**
Awarded to a graduate student who was affiliated with a Pitt athletics program as an undergraduate. Applications will be available in February and are typically due May 1. Contact the Student Life and Compliance Office in the Athletics Department with questions.

**Owens Fellowship**
A needs-based, $6,000 per year fellowship that can be used for tuition, books, and living expenses. Copies of GRE scores or other standardized test scores may be required. Applications are available in February. Contact the University's Office of Admissions and Financial Aid in Alumni Hall, 412-624-7488 for applications and information.

**Provost's Development Fund**
A needs- and merit-based grant for doctoral students intended to provide financial support and professional development for women and disadvantaged students. Applicants must be U.S. citizens or permanent residents. Applicants must also be in the final year of their doctoral program, having completed all required coursework and working on their dissertation. Contact Linda Williams-Moore for more information.

**K. Leroy Irvis Fellowships**
Graduate schools receive one award each year to provide first-year support of an outstanding, full-time doctoral student who supports the University's and school's diversity mission. The Irvis Fellowship provides a stipend, tuition remission, and health insurance for the first year; the academic department provides the same level of support for years two and three. Nominations are made by departments.
Pitt Public Health Aid

Pitt Public Health awards the following partial scholarships annually, generally at the start of the fall term. Students may contact their departments and request to be nominated.

**Dean's Public Health Scholars Award**
During the early spring term each department can nominate one outstanding incoming master's student for the Dean's Public Health Scholars Award, which provides a 50% tuition scholarship for up to two years of full-time graduate studies.

In addition, two scholarship awards are reserved for direct application by newly accepted applicants for Fall 2016. Applicants who wish to be considered for one of these awards must send a request to Mary Derkach, Office of Student Affairs, at derkach@pitt.edu. Selected applicants must plan to enroll as full-time master's students, and be U.S. citizens or permanent residents, with verbal GRE scores in the 70th percentile or better, and quantitative scores in the 60th percentile or better. In addition, requests must be accompanied by a statement describing the applicant's academic achievements to date as well as her/his ability to enhance or contribute to the diversity and inclusiveness of the Pitt Public Health student body. Second-year funding is available, contingent upon a GPA of 3.3 or higher in the first year.

**Campaign for the Next 5,000 Alumni**
Financial support based on need, merit, and diversity. Although preference may be given to master's students, doctoral students are also eligible.

**Dean's Endowed Doctoral Scholarship**
Support for doctoral students based on need, merit, and community service.

**Dr. Edgar and Lauraine Duncan Scholarship**
Financial support for disadvantaged students that can be used for student fees, stipend, books, or travel expenses.

**Bernard D. Goldstein Student Award in Environmental Health Disparities and in Public Health Practice**
For students or postdoctoral fellows studying either the environmental causes of health disparities or the practice of public health. This award is administered in alternate years by the Center for Health Equity (even-numbered years) and the Center for Public Health Practice (odd-numbered years). Apply (doc) by November 18, 2016.

**Wintersteen Scholarship**
Financial support based on need, merit, diversity.

**Departmental Awards**

**Behavioral and Community Health Sciences**

**Carol McAllister Award**
Based on need and merit, awards can be used for books, fees, stipends, or travel expenses.

**Karen S. Peterson Memorial Research Award for Women's Health**
Research or practice support for work in women's health.

**Joseph and Brigida Ricci Scholarship**
Needs-based support for an outstanding student.

**Myrna Silverman Scholarship**
Needs-based support for an outstanding doctoral student.
Evans Fellowship
Joint MPH/MSW students pursing the MSW Community Organizing and Social Administration (COSA) and MPH degrees are eligible for a $10,000 Evans Fellowship. For more information contact evansf@pitt.edu.

Biostatistics

Biostatistics Endowed Scholarship Fund
Tuition support.

Department of Biostatistics Endowment Fund
Resource support including travel and registration for academic and professional conferences.

Epidemiology

Arlene W. Caggiula Student Award in Nutrition
Tuition support for students studying nutrition.

Katherine Detre Scholarship
Awarded to promising first-year students who demonstrate the strengths and spirit of Katherine Detre. Established to supplement graduate student support in the Epidemiology Data Center.

Lewis H. Kuller Scholarship Award
Resource support that can be used for tuition, books, fees, research, and travel.

Evelyn H. Wei Memorial Fund
Resource support for travel to professional conferences.

Evelyn H. Wei Scholarship Award in Epidemiology
Tuition assistance.

Health Policy and Management

Nathan Hershey Endowment in Health Administration
Tuition support based primarily on merit and potential to contribute to the profession, but may also reflect need.

Professor Emeritus Thomas B. Fitzpatrick Scholarship
Needs-based tuition support for outstanding HPM students.

Thomas and Judy Priselac Endowed Fund for Health Care Leadership
Provides support for MHA students participating in selected professional and leadership development activities nationally, including professional association conferences, academic team competitions, professional networking, and other health management career path opportunities.

Human Genetics

George Qi Wang Memorial Student Assistance Fund in Pharmacogenetics
Tuition support for students pursuing research studies in pharmacogenetics; open to students in any of the Schools of the Health Sciences or Arts and Sciences.

Robert Ferrell Student Resource Fund
Income shall be used to provide support for books, lab fees, travel or other educational expenses for students in the Department of Human Genetics at Pitt Public Health. Shall be administered by the Chair of the Dept of Human Genetics.
Infectious Diseases and Microbiology

Bob Yee Student Award
Tuition support.

Other Financial Support - Resources for Research and Professional Development

Russell Rule Rycheck Award for a Promising MPH Student
A $500 award for MPH students committed to the practice of public health. Funds can be used for books, coursework, travel, or professional development. Applications due to Mary Derkach, assistant dean for student affairs, A519 Crabtree Hall, by December 4 each year. If December 4 falls on a Saturday or a Sunday, applications are due the following Monday.

William T. Green Jr. Award in Public Health Studies
A $500 award to support research and special projects for currently enrolled Pitt Public Health students. Funds can be used for direct research costs, books, travel, or professional memberships. Applications due to Mary Derkach, assistant dean for student affairs, A519 Crabtree Hall, by December 4 each year. If December 4 falls on a Saturday or Sunday, applications are due the following Monday.

Other Financial Support - Travel Awards for Conferences and International Study

Pitt Public Health Support

Office of Student Affairs
The Office of Student Affairs provides departments with $500 each year to use for student travel grants. To apply for a travel grant, please see the student services staff member in your department. Awards are allocated on a first-come, first-served basis and travel must take place no later than mid-May. Receipts for reimbursement must be submitted to your department as soon as you return from your conference/meeting.

Awards can be applied only to future travel. Travel must take place during the student's enrollment in a degree program at Pitt Public Health. Students may request only one award per academic year. Awards will be processed as a travel expense reimbursement (TBE) by the student's department upon submission of receipts for travel. In no case can the amount of the award exceed expenses. Students applying for travel awards from more than one source should prepare one reimbursement form for all of the sources, since original receipts are required for all sources.

Contact your department student services staff with questions.

Student Government Association
Students can apply for a travel awards (up to $150) from the Student Government Association. Applications are available from the Office of Student Affairs.

Global Health
Donald S. Burke, dean of Pitt Public Health and associate vice chancellor for global health, sponsors a grant program for graduate students in the health sciences who want to conduct international research to address global health issues. Availability of grants can be found annually in the Weekly Update.

UNIVERSITY SUPPORT

Foreign Language Area Studies (FLAS)
Funded by the U.S. Department of Education with the intent of promoting the study of a modern, European foreign language within a cultural,
scientific, or historical framework. Fellowships are awarded annually for summer and academic year study. Submit an application to Pitt Public Health, and we will then select nominees and forward them to the University Center for International Studies.

**Graduate and Professional Student Government**
Grants support for travel to academic and professional conferences. Applicants are eligible for one grant per fiscal year (July 1- June 30), and funds are awarded on a first-come, first-served basis.

**Nationality Rooms Scholarships**
These scholarships reflect decades of work honoring education through cultural exchange. After the Nationality Rooms were built in Pitt's Cathedral of Learning, committees stayed together to raise funds enabling eligible Pitt students to study abroad, thereby experiencing another culture in depth. There are several different awards available.

**University Center for International Study Scholarships**
The Pitt Study Abroad Office offers a central listing of the range of scholarship possibilities available to help defray the cost of a study abroad program. Scholarships are managed by academic departments and schools such as the Center for Global Health or the College of General Studies.

**Women's Studies Student Research Fund**
Awards of up to $1,000 to support travel expenses, secretarial costs, research materials, or other direct costs for research related to the study of women, gender, and/or sexuality.

**EXTERNAL SUPPORT**

The following external sources also provide travel support for conferences and international study:

**Fulbright Fellowship Program**
Grants for individually designed study/research projects or for English Teaching Assistantships. During their program, Fulbrighters will meet, work, live with, and learn from the people of a host country, sharing daily experiences.

**Fulbright Hays**
Funding for students wishing to conduct their doctoral dissertations abroad.

**George Mitchell Scholarship**
National scholarship for students interested in pursuing one year of graduate work in an institution of higher education in Ireland or Northern Ireland.

**International Education Financial Aid**
Information on financial aid for U.S. and international students wishing to study abroad.

**Jack Wilson Fund**
Scholarship for students pursuing international opportunities that promote peace and community development.

**Katie Memorial Foundation**
Supports outstanding work in international public health by providing a one-time scholarship of up to $3,000 towards a fieldwork project. U.S. citizenship required.

**External Funding Opportunities**

These organizations may have financial aid programs for public health students. Students can find listings of internship, fellowship, and post-doc opportunities in Pitt Bridges.

- Public Health Air Force
- American Heart Association
- Federal Student Financial Assistance
- American Association of University Women
- Ford Foundation
- American Society for Microbiology

1223
Graduate student assistants, graduate student researchers, teaching assistants, and teaching fellows are students who receive support in return for specified duties while gaining teaching, teaching-related, or research experience under the guidance of a faculty mentor.

Whenever available, assistantships and traineeships are awarded by the departments. There are no assistantships available through the Office of Student Affairs or the Dean's Office. Students may receive an assistantship from any department in the University, but there is no central listing of assistantships available.

**Descriptions**

**Traineeships**
A traineeship is money from a training grant allocated to students to support advanced study in a specified field. A traineeship may provide full or partial tuition and/or living expenses. Usually, there is no service requirement. Several departments have traineeships available for students in particular concentrations.

**Assistantships**
An assistantship provides a full or partial tuition scholarship, a stipend, and individual health insurance coverage in exchange for performance of specified duties, usually in support of a faculty member's research project. Assistantship appointments can be full or part-time. Each department may
award a limited number of student assistantships, usually to doctoral students. Students may also be awarded an assistantship by another University department. There is no central listing of University assistantships.

**Teaching Assistants**
A teaching assistant (TA) is a student who holds a teaching or teaching-related appointment made within the University regulations pertaining to teaching assistants. No teaching assistant shall be employed to teach post baccalaureate courses.

**Teaching Fellows**
A teaching fellow (TF) is the same as a teaching assistant except that the teaching fellow is more educationally advanced or experienced, typically holding the equivalent of a master's degree. TFs should not be assigned to teach graduate courses. Exceptions may be made only in rare cases where in the individual shows clear evidence of outstanding skills in specialized areas and when the individual is directly supervised by faculty.

**Eligibility**
Students must be enrolled in a degree or certificate program at Pitt Public Health.

**Effort**
Full-time GSRs are expected to devote twenty hours per week to the research project they are assisting. GSRs may be required to work more hours if the research pertains to their thesis or dissertation. Time expenditure of part-time GSRs is proportional to this standard of twenty hours (i.e. half-time GSRs must devote ten hours per week to their research project, and more if the research pertains to their thesis).

TAs and GSAs have the same work obligation of twenty hours a week. However, their assignments will differ from a GSR and will not likely relate directly to their research interests.

**Appointments**
GSR, GSA, and TA appointments may be made annually for one to no more than three terms at a time (one academic year). Renewals are subject to satisfactory job performance and availability of funding.

**Evaluation**
At least once each year, the faculty supervisor must provide a written evaluation of a GSR/TA/GSA's performance to the student and to the department. A suggested evaluation form is available from the department administrator, who should request the evaluation in the spring term. A copy of the completed evaluation should be provided to the department administrator.

**Stipend**
The monthly stipend amount is set by the department within a range established by the University. Monthly stipend payments for part-time GSR positions will be proportional to this standard. The University does not set a different stipend level for TA and GSA positions.

**Tuition Scholarships**
Full-time GSR/GSA/TAs are eligible to receive full tuition scholarships to cover up to and including 15 credits per term. Part-time positions are eligible for partial tuition scholarships in accord with their appointments, i.e., a half appointment receives a scholarship for six credits and a quarter appointment covers three credits per term.

**Health Insurance**
GSRs, GSAs, and TAs are provided individual coverage under the UPMC Health Plan for graduate students. Family coverage is available at an additional cost to the student.

**University Policies**
Learn about University policies regarding student assistantships.

**Student Employment**

Registered students can work in part-time student positions for a maximum of 20 hours per week in the fall and spring terms, and 37.5 hours per week in the summer term. Graduate students do not generally receive funding through the federal work-study program.

After creating a PittSource account (free of charge), students have access to postings for summer jobs and regular student employment. Postings include positions within Pitt Public Health, at other University departments, and through off-campus employers.
GSPH Tuition Costs and Billing

The tuition and fees listed below reflect current information at the time of posting. Rates are set by the University and the official postings should be consulted for current information.

## Billing Information

Contact the Student Payment Center, 412-624-7520, with billing questions.

Students are billed electronically and eBills are sent to the student's Pitt email address after registration for classes. Students must pay tuition by the due date on the invoice or else be liable for late fees. The University may also place a financial hold on overdue accounts.

EBills are posted on or about the 20th of every month, and are due on the 17th of the following month.

**Optional Payment Plan** Under some circumstances, students may be approved for three- or four-installment payments in the fall or spring term. Click here for more information, including dates of payments.

**Add/Drop**
Students who drop courses by the term's add/drop deadline may have their tuition for the term adjusted if they are part-time students, or if the drop changes their status from full-time to part-time.
Withdrawal
To withdraw from a class after the official add/drop period while still enrolled in other classes, you must process a Monitored Withdrawal Request Form through the dean's office of the school offering the class. If you wish to drop all of your classes after the end of the add/drop period, you must resign from the term. See Resignation information.

After the deadline for submitting a Monitored Withdrawal form, you will have to ask the instructor of the course to assign a W grade at the end of the term. The instructor will have to post an interim grade (usually a G) on the course roster, and then change the G to a W using a Grade Change Form. W grades do not count toward a student's degree, grade point average, or academic progress for purposes of financial aid eligibility. There is no tuition adjustment associated with a class withdrawal.

Resignation Refunds
Adjustments to tuition charges resulting from official resignation (dropping of all courses for the term) are based on the effective date of resignation and in accordance with the federally mandated calculation. If you decide to resign, call the resignation hotline immediately to leave your name and contact information (412-624-7585), as the refund amount is calculated from the date of resignation.

Academic Standards and Academic Integrity

Students are expected to exhibit academic honesty and to uphold the ethical standards of public health professionals. A student who is not in satisfactory academic standing will be placed on probation and may be subject to dismissal. Students should refer to the Pitt Public Health academic handbook for complete information on the school's academic performance standards.

Grading Policies

The Graduate School of Public Health follows the University's letter grade system in evaluating student performance in course work, though a variety of options are detailed below.

Pitt Public Health school-wide core courses are graded A, B, C, etc.

Students electing to audit a course must register for the course as for any other course, and must also complete a grade option form in the Office of Student Affairs and obtain the instructor's permission to audit the course. Students receive a grade of N for audited courses and receive no academic credit for the course.

See the Grading and Records section of this bulletin for detailed discussion of University Grading System and Grading Options.

Course Repeat

A student may repeat a course in which a grade of B- or lower is received if authorized by the student's advisor. Students may not repeat a school-wide core course or required departmental course more than once (i.e., course may only be taken twice), and students who fail a school-wide core course or required departmental course twice are subject to dismissal. (See Pitt Public Health academic dismissal and probation guidelines. See also Repeating Courses for more information.)

GPA Calculation

In general, a student's Grade Point Average (GPA) is obtained by dividing the total number of letter grade credits taken in the graduate program into the total number of quality points earned in the graduate program.

Courses taken to correct undergraduate course deficiencies and courses taken at other institutions are not included in the calculation of the GPA.

Advanced Standing and Transfer Credits
For details on advanced standing and transfer credits, students should consult the Pitt Public Health academic handbook. Acceptance of transfer credits is at the discretion of the program.

Acceptance of a maximum of 12 credits taken as a non-degree student at Pitt Public Health is at the discretion of the program.

Students enrolled at Pitt Public Health may take credits in another school or institution, providing that their department has approved application of those credits to the degree requirements. In all cases, any combination of advanced standing credits and credits taken from another school or institution during enrollment at Pitt Public Health may not exceed the limits established by the University or the Regulations Governing Graduate Study at the University of Pittsburgh.

### Academic Advising

The Graduate School of Public Health considers effective academic advising an essential component of educating students. Departments have the primary responsibility for identifying and assigning to each student a major advisor, who, in consultation with the student, plans a program of study and research in accord with school and departmental guidelines. Departments are expected to provide students with a copy of school and departmental regulations appropriate for their program, and students are expected to become familiar with University, Pitt Public Health, and department regulations concerning graduate study and to accept responsibility for the completion of all degree requirements.

The student's academic advisor is to direct and assist the student in the selection of classes and the conduct of research. Waivers from program requirements are processed at the program level, and waivers from school requirements by the Office of Student Affairs. The Application for Graduation is processed through the Pitt Public Health Office of Student Affairs after clearance has been received from the academic advisor. A student will be certified for graduation only after the academic advisor has confirmed that all degree requirements have been met.

For students required to take preliminary, comprehensive, or defense examinations, the academic advisor, in consultation with the student, designates faculty members to act as the examining committee.

Each doctoral student is required to complete an Individual Development Plan per year and to submit it to his/her advisor.

Each doctoral student, together with the student's doctoral committee, is responsible for assuring accomplishment of all elements of the student's course of studies, including the core requirements, the research tools requirement, course work in the field of specialization, advanced standing, the qualifying and comprehensive examinations, and the dissertation overview and its final oral defense.

### Placement

Pitt Public Health - The Career Services office offers programs, services and resources to help master's and doctoral students as they prepare for employment or additional training in their chosen field of study. These services include Pitt Bridges, an online job board where jobs and training positions are posted weekly. Career counseling appointments are available to help with resume/CV critiques, cover letters, and mock interviews. Students can also register for skills- based workshops that are held regularly on a variety of topics. Networking functions and public health job fairs are also sponsored by this office.

### Faculty

GSPH Primary Faculty

### Pitt Public Health Course Offerings

http://www.publichealth.pitt.edu/home/academics/courses

A number of courses of general interest to all departments are offered. Descriptions may be found at www.publichealth.pitt.edu/home/prospective-students/academics/classes/course-descriptions.
Program and Course Offerings

Master's

Multidisciplinary, MPH

Program Requirements

The mission of the Multidisciplinary Master of Public Health (MMPH) degree program is to prepare doctoral level health professionals to practice in community, public, and global health settings. They will use population-based concepts, health education, health promotion and the preventive components of public and personal health care and practice. The educational program provides these individuals who have varied health science backgrounds with the advanced public health training in which they can incorporate and apply the public health knowledge and skills in a public or private setting. The program is designed to foster a comprehensive overview to bridge the gaps among public health disciplines and subdisciplines. The MMPH is uniquely designed for individuals with advanced degrees (MD, RN, DDS, DO...) and allows them the freedom to self-design their MPH. Comprised of the Pitt Public Health core curriculum (17-19 credits) the students are encouraged to choose electives from varied public health departments to form an area of focus of relevance to them. This self-designed degree gives the student the flexibility necessary to work around busy clinical schedules. Upon completion of the MMPH, students will have an understanding of statistics, health policy, research design and the ability to contribute to new research in their chosen fields of interest.

In addition to the Public Health core courses, students must complete a master's essay under the guidance of a faculty committee and register for a practicum experience. The curriculum consists of 42 credits and can be completed in a year.

Although the program has a 42 credit requirement, six credits of advanced standing or transfer credits may be applied, making it possible for an eligible student to complete 36 credits.

Note:

Aside from the core requirements, the MMPH curriculum is flexible. The student should work with the program director upon admission to identify competencies (goals) for his or her program, and suggested courses for achieving those competencies. Additionally, students must complete a 200 hour practicum and a final essay.

* No more than six credits may be taken in other university graduate programs.

Pitt Public Health Core Requirements

- BCHS 2509 - SOCL BEHVRL SCI & PUBLC HLTH
- BION 2011 - PRINCIPLS STATISTICAL REASNING
- BION 2041 - INTRO TO STATISTICAL METHODS 1
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS

*Can be waived if student has a clinical degree

*Must register for two terms

Certificate
Global Health Certificate

This program educates students about current health patterns and transitions occurring globally, as well as about the role of dynamic global environmental, political, economic, health care, and social changes to these patterns.

Coursework consists of 7 credits of core courses and 8 credits of additional coursework aligned with the individual student's specific area of interest and intended skillset. Students must complete a field experience, which can be combined with the required practicum for the degree program provided the experience is relevant to global health. Students have the opportunity to complete this global health practicum in the form of local opportunities or in an international setting.

Required Courses

The certificate core courses cannot overlap with any other departmental requirement. Overlap is permitted for the remaining required courses and these may also fulfill departmental requirements.

- PUBHILT 2025 - CONCEPTS/METHODS GLOBAL HEALTH
- PUBHILT 2027 - TRNSFRMING GLBL HLTH ED ACTN

One course from the Graduate School of Public and International Affairs is required from the list of approved classes (3 credits)

Department of Biostatistics

Biostatistics is an innovative field that involves the design, analysis, and interpretation of data for studies in public health and medicine. Biostatistics experts arrive at conclusions about disease and health risks by evaluating and applying mathematical and statistical formulas to the factors that impact health.

Students at Pitt Public Health benefit from collaboration with UPMC, Pennsylvania's largest academic medical center, and have access to extensive University computing facilities. Through rigorous courses, students gain a comprehensive understanding of statistical methods in the context of public health and medical problems; work with faculty on developing new and innovative methodologies and analytical techniques; and have the opportunity through both research and service to apply these methods to current and pressing concerns in biomedicine and public health.

Pittsburgh, PA 15261
Admissions

In addition to the GSPH Admissions Requirements, admission to all Biostatistics degree programs requires two semesters of calculus, a course in biology, and a basic computing course. In some cases, course deficiencies can be satisfied the first term. The MPH degree also requires 6 credits in biology, 6 credits in social science and a professional degree and/or background in health.

Financial Assistance

The Department of Biostatistics provides full financial aid for approximately 55 PhD students per year. The most common form of financial aid is as a graduate student researcher (GSR). A GSR is expected to work on one of the many funded research projects maintained by either the Department of Biostatistics or their collaborators in other departments. Currently the stipend is $1975.00 per month and includes a tuition waiver and medical benefits. A limited number of Teaching Assistantships (TA) are also available. The current stipend for a TA is $2238.00 per month and includes a tuition waiver. To be eligible for a TA position, a first year student must pass the oral English competency exam given by the University of Pittsburgh.

The department does not provide funding for MS or MPH students except in rare circumstances. Many MS/MPH students obtain jobs in the University or surrounding area performing data analysis and other statistical tasks. The department circulates job advertisements when available to all students.

Master's

Biostatistics, MPH

The MPH in biostatistics is a professional degree program that prepares students with a prior professional degree (physicians, nurses, dentists, pharmacists, veterinarians or health administrators) to understand and apply statistical methods to health problems in their field. The MPH degree emphasizes the appropriate application of statistical methods, with less emphasis on statistical theory as compared to the MS degree.

Program Objectives

Students successfully completing the MPH Program in Biostatistics will be able to:

- Quantitatively address health problems by appropriate statistical design
- Communicate the results of biostatistical analyses to individuals with varying degrees of statistical knowledge
- Demonstrate understanding of basic statistical applications

All MPH graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

General Requirements for Master's Degrees

For an overview of University-wide regulations for master's students, see Regulations Pertaining to Master's Degrees.

Requirements

Coursework

A minimum of 44 credits are required.
Core Courses

Students must complete all other core courses before taking Capstone (PUBHLT 2016), although exceptions can be made for students who need to take one remaining core course simultaneously with the Capstone course. Exceptions are by permission of the Capstone instructor.

- BCHS 2509 - SOCL BEHVRL SCI & PUBLC HLTH *
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE *
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY *
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH *
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY *
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH *
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS * (2 terms required)
- BIOST 2016 - SAMPLING DESIGN AND ANALYSIS
- BIOST 2021 - SPECIAL STUDIES (2 credits required)
- BIOST 2025 - BIOSTATISTICS SEMINAR (2 terms required)
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1 *
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2

- BIOST 2062 - CLINCAL TRIALS: METHDS & PRACT
- BIOST 2094 - STATISTICAL COMPUTING IN R

MPH Comprehensive Examination

MPH students must pass a written comprehensive examination that is given annually at the end of the first year of study in early May. The MPH comprehensive examination consists of an applied methods short answer problem solving section. The examination is a proctored closed book exam.

Eligible students who fail the examination on the first attempt will be permitted to take the examination a second time during the summer. The summer examination is only for eligible first-year students who did not pass the examination on the first attempt in order not to delay graduation or decisions about continuation in the program. Eligible students who fail the examination on the first attempt may also choose to wait until the following May to retake the exam. Students who do not pass the examination on the second attempt will be released from the MPH Program in accordance with the Pitt Public Health Probation and Dismissal Guidelines.

Once a student passes the preliminary examination, the student may begin working on his/her essay or thesis. Students should not begin essay or thesis work before they pass the comprehensive examination.

Eligibility
A student is eligible to take the comprehensive examination if the student:

- is enrolled in the Department of Biostatistics MPH Program with good standing (3.00 QPA or greater)
- did not fail the comprehensive examination more than once
- completed the required courses (listed below) with a B or better, or equivalent coursework which the student has obtained transfer credits or exemption for

**Required Coursework**

- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- BIOST 2049 - APPLIED REGRESSION ANALYSIS

**Practicum Requirements**

All MPH students are required to complete a practicum of at least 200 hours. The practicum is a structured and educationally supervised practice experience providing students an opportunity to learn how biostatistics is applied in a public health setting. The practicum site choice is based upon recommendations by the faculty advisor and the career goals of the student. MPH students are encouraged to visit the Pitt Public Health MPH Practicum/Internship Opportunities before meeting with their faculty advisor to discuss practicum options.

MPH students must submit a practicum proposal to the Biostatistics MS/MPH Program Committee for their review and approval prior to the start of the practicum. The practicum proposal must include a detailed description of the proposed work to be performed during the practicum period, the institution or site for the internship along with documentation of who will precept the experience on site. The proposal should have signed approval from the primary advisor and the practicum preceptor.

Together with the Biostatistics MS/MPH Program Committee, the primary advisor and practicum preceptor will oversee the satisfactory completion of the practicum and MPH essay requirement.

**MPH Essay**

MPH students are required to complete an MPH essay or master's thesis. An MPH student can begin work on his/her essay only after successful completion of the MPH Comprehensive Examination requirement. MPH students must register for a minimum of two Special Studies (BIOST 2021) credits and meet the MPH essay requirement.

MPH students who choose the essay option are required to write an MPH essay detailing their practicum experience. The MPH essay must be in accord with specifications stipulated in the Format Instructions for Pitt Public Health Essays, Theses, and Dissertations.

Before completion of the MPH practicum, the student's academic advisor proposes for the approval of the Department Chair and Assistant Dean for Student Affairs, an MPH essay committee.

The MPH essay committee will judge the adequacy of the MPH essay. Successful completion of the MPH essay requires unanimous agreement by the MPH essay committee.

**MPH Thesis**

MPH students have the option to complete a master's thesis in place of the MPH essay requirement. An MPH student can begin work on his/her thesis only after successful completion of the MPH Comprehensive Examination requirement. MPH students must register for a minimum of two Special Studies (BIOST 2021) credits and meet the master's thesis requirement.

MPH students who choose the thesis option are required to write and defend a master's thesis. The master's thesis must be in accord with specifications stipulated in the Format Guidelines for Electronic Thesis and Dissertation Preparation at the University of Pittsburgh.

Before the student's thesis defense, the student's thesis advisor proposes for the approval of the Department Chair and Assistant Dean for Student Affairs, a master's thesis committee.
The MPH thesis committee will judge the adequacy of the master's thesis by an open oral examination covering the subject of the thesis. Successful completion of the master's thesis requires unanimous agreement by the MPH thesis committee.

Graduation

All MPH students must register for at least one credit during the term in which they intend to graduate.

Please visit the Pitt Public Health Graduation page for detailed information on applying for graduation and graduation requirements.

Biostatistics, MS

The MS in biostatistics degree program is for students with a background in mathematics and a strong interest in biology and public health. The program emphasizes statistical theory and methods so that students are prepared to be effective statistical collaborators in interdisciplinary studies; and lead the design and execution of studies.

Program Objectives

Students successfully completing the MS Program in Biostatistics will be able to:

- Address health problems by appropriate problem definition, study design, data collection, data management, statistical analysis, and interpretation of results
- Demonstrate mastery of the theory underlying statistical methods
- Understand and implement innovative statistical approaches
- Communicate biostatistical analyses to individuals with varying degrees of statistical knowledge
- Apply research design principles to problems in public health
- Recognize strengths and weaknesses of approaches, including alternative designs, data sources, and analytic methods
- Determine the data best suited to address public health issues, program planning, and program evaluation

General Requirements for Master's Degrees

For an overview of University-wide regulations for master's students, see Regulations Pertaining to Master's Degrees.

Requirements

Coursework

A minimum of 40 credits are required.

Core Courses

- BIOST 2021 - SPECIAL STUDIES (2 credits required)
- BIOST 2025 - BIOSTATISTICS SEMINAR (2 terms required)
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1 *
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- BIOST 2043 - INTRO TO STATISTICAL THEORY 1
- BIOST 2044 - INTRO TO STATISTICAL THEORY 2
- BIOST 2046 - ANALYSIS OF COHORT STUDIES
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- BIOST 2066 - APLD SURVIVAL ANAL METHS & PRA
- BIOST 2087 - BIOST CONSULTING PRACTICUM
BIOST 2093 - SAS DATA MANAGEMENT & ANALYSIS  
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY *  
PUBHIL 2011 - ESSENTIALS OF PUBLIC HEALTH *  
PUBHILT 2022 - THE DEAN'S PH GRAND ROUNDS * (2 terms required)

Note:

* Pitt Public Health Core Course

Electives

In situations where a student's special interests or needs indicate an alternative course is more appropriate it may be substituted with the permission of the student's academic advisor and department chair.

Department Electives

Students must complete at least four elective credits to bring the total number of credits to 40.

BIOST 2016 - SAMPLING DESIGN AND ANALYSIS  
BIOST 2052 - MULTIVARIATE ANALYSIS  
BIOST 2055 - INTROD Gnomc Anal 1: AppLcs  
BIOST 2058 - SCIENTFC COMMUNICATION SKILLS  
BIOST 2062 - CLINICAL TRIALS: METHODS & PRACT  
BIOST 2094 - STATISTICAL COMPUTING IN R  
BIOST 2096 - NUMERICAL METHODS BIOSTSTC

Master's Comprehensive Examination

MS students must pass a written comprehensive examination that is given annually at the end of the first year of study in early May. The MS comprehensive examination consists of two short answer components: one for theory and one for applied methods. The examination is a proctored closed book exam.

Eligible students who fail the examination on the first attempt will be permitted to take the examination a second time during the summer. The summer examination is only for eligible first-year students who did not pass the examination on the first attempt in order not to delay graduation or decisions about continuation in the program. Eligible students who fail the examination on the first attempt may also choose to wait until the following May to retake the exam. Students who do not pass the examination on the second attempt will be released from the MS Program in accordance with the Pitt Public Health Probation and Dismissal Guidelines.

Once a student passes the preliminary examination, the student may begin working on his/her thesis. Students should not begin thesis work before they pass the comprehensive examination.

Eligibility

A student is eligible to take the comprehensive examination if the student:

- is enrolled in the Department of Biostatistics MS Program with good standing (3.00 QPA or greater)  
- did not fail the comprehensive examination more than once  
- completed the required courses (listed below) with a B or better, or equivalent coursework which the student has obtained transfer credits or exemption for

Required Coursework
Master's Thesis

MS students can begin work on his/her thesis only after successful completion of the MS Comprehensive Examination requirement. MS students must register for a minimum of two Special Studies (BIOST 2021) credits (these credits DO NOT count toward the elective credit requirement) and meet the master's thesis requirement.

MS students are required to write and defend a master's thesis. The master's thesis must be in accord with specifications stipulated in the Format Instructions for Pitt Public Health Essays, Thesis, and Dissertations.

Before the student's thesis defense, the student's thesis advisor proposes for the approval of the Department Chair and Assistant Dean for Student Affairs, a master's thesis committee.

The MS thesis committee will judge the adequacy of the MS thesis by an open oral examination covering the subject of the thesis. Successful completion of the MS thesis requires unanimous agreement by the MS thesis committee.

The final copy of the thesis must be prepared and submitted according to University Guidelines for Electronic Theses and Dissertations (ETD).

Graduation

All MS students must register for at least one credit during the term in which they intend to graduate.

Please visit the Pitt Public Health Graduation page for detailed information on applying for graduation and graduation requirements.

Doctoral

Biostatistics, PhD

The PhD in Biostatistics degree program is for students with a background in mathematics and a strong interest in biology and public health. The program emphasizes statistical theory and methods so that students are prepared to be effective statistical collaborators in interdisciplinary studies; lead the design and execution of studies; and develop biostatistics methodology.

Program Objectives

Students successfully completing the PhD Program in Biostatistics will be able to:

- Quantitatively address a novel or complex health problem by developing an innovative statistical methodology or adapting existing methods to a new problem
- Demonstrate mastery of advanced statistical theory and applications
- Understand and implement innovative statistical approaches emerging in the literature to biomedical and public health issues
- Communicate the results of biostatistical analyses to individuals with varying degrees of statistical knowledge
- Recognize strengths and weaknesses of proposed approaches, including alternative designs, data sources, and analytic methods
- Determine the data best suited to address public health issues, program planning, and program evaluation
- Contribute to the body of knowledge in the field of biostatistics by submitting an article for publication in peer-reviewed journal, or preparing a book chapter or book for publication
General Requirements for Doctoral Degrees

For an overview of University-wide regulations for doctoral students, see Regulations Pertaining to Doctoral Degrees.

Requirements

Coursework

A minimum total of 72 credits are required.

Core Courses

- BIOST 2025 - BIOSTATISTICS SEMINAR (3 terms required)
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1 *
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- BIOST 2043 - INTRO TO STATISTICAL THEORY 1
- BIOST 2044 - INTRO TO STATISTICAL THEORY 2
- BIOST 2046 - ANALYSIS OF COHORT STUDIES
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- BIOST 2051 - STATISTICAL ESTIMATION THEORY
- BIOST 2054 - SURVIVAL ANALYSIS
- BIOST 2061 - LIKELIHOOD THEORY & APPLICATN
- BIOST 2083 - LINEAR MODELS
- BIOST 2086 - APPLIED MIXED MODELS ANALYSIS
- BIOST 2087 - BIOSTATISTICS PRACTICUM
- BIOST 2093 - SAS DATA MANAGEMENT & ANALYSIS
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY *
- PUBHILT 2011 - ESSENTIALS OF PUBLIC HEALTH *
- PUBHILT 2022 - THE DEAN'S PH GRAND ROUNDS * (2 terms required)

Note:

*Pitt Public Health Core Courses

Electives

In situations where a student's special interests or needs indicate an alternative course is more appropriate it may be substituted with the permission of the student's academic advisor and department chair.

Department Electives

Students must complete six of the following courses:

- BIOST 2016 - SAMPLING DESIGN AND ANALYSIS
- BIOST 2040 - ELEMNS OF STOCHASTIC PROCESSES
- BIOST 2052 - MULTIVARIATE ANALYSIS
- BIOST 2055 - INTROD GNOMC ANAL 1: APPLCS
- BIOST 2056 - INTRO TO DIAG TEST EVAL & ROC
- BIOST 2058 - SCIENTFC COMMUNICATION SKILLS
- BIOST 2062 - CLINCAL TRIALS: METHDS & PRACT
- BIOST 2065 - ANALYSIS OF INCOMPLETE DATA
- BIOST 2078 - INT GNOMC ANAL 2: THRY ALGRTHM
Outside Electives

*Students must complete at least three credits outside of the Department of Biostatistics.*

Dissertation Research Credits

*Students must complete three credits of BIOST 3010 or one term of FTDR 3999. Please see guidelines for both courses below.*

Independent Study (BIOST 2021/3010) Guidelines

It is recommended that students should give priority to completing core and elective coursework before registering for independent study (BIOST 2021/BIOST 3010). Specifically, no more than 3 credits of independent study (BIOST 2021/BIOST 3010) should be taken in terms when core and elective courses are offered that a student needs take to complete coursework requirements.

Before passing the dissertation overview and comprehensive examination, a doctoral student can register for BOST 2021 for his/her independent PhD level research. After passing the dissertation overview and comprehensive examination, a student is permitted to take BOST 3010 which can fulfill the dissertation research credit requirement while providing credits toward the 72 credit requirement for the PhD degree.

In situations where a student's special interests or needs indicate more credits of independent study (BIOST 2021/BIOST 3010) appropriate approval must be obtained from the student's academic advisor and department chair.

FTDR 3999 Guidelines

Upon enrollment in 72 credits and successful completion of all required coursework, PhD students are required to register for Full-time Dissertation Study (FTDR 3999). FTDR 3999 carries no credits or letter grade, but provides students with fulltime status. Students enrolled in FTDR 3999 are assessed a special tuition fee.

Preliminary (Qualifying) Examination

The preliminary examination is designed to assess the breadth of the student's knowledge of the discipline, the student's achievement during the first year(s) of graduate study, and the potential to apply research methods independently. The preliminary examination is used to identify those students who may be expected to complete the doctoral program successfully and also to reveal areas for improvement in the student's preparation.

The Biostatistics PhD preliminary examination is typically offered annually in June. The examination consists of three separate components: applications, theory, and public health based on epidemiology. In order to pass the preliminary examination, students must receive passing scores for all three components of the examination. Eligible students are permitted to retake the portions of the examination they did not pass when the examination is offered again the following year. Students who do not pass the examination on the second attempt will be released from the PhD Program in accordance with the Pitt Public Health Probation and Dismissal Guidelines.

Once a student passes the preliminary examination, the student may begin working on his/her dissertation. Students should not begin dissertation work before they pass the preliminary examination.

Eligibility

A student is eligible to take the preliminary examination if the student:

- is enrolled in the Department of Biostatistics PhD Program with good standing (3.00 QPA or greater)
- did not fail the preliminary examination more than once; and
completed the required courses (listed below) with a B or better, or equivalent coursework which the student has obtained transfer credits or exemption for

Required Coursework

Application

(Part 1 of 3)

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- BIOST 2046 - ANALYSIS OF COHORT STUDIES
- BIOST 2049 - APPLIED REGRESSION ANALYSIS
- BIOST 2086 - APPLIED MIXED MODELS ANALYSIS

Theory

(Part 2 of 3)

- BIOST 2043 - INTRO TO STATISTICAL THEORY 1
- BIOST 2044 - INTRO TO STATISTICAL THEORY 2
- BIOST 2051 - STATISTICAL ESTIMATION THEORY
- BIOST 2061 - LIKELIHOOD THEORY & APPLICATN
- BIOST 2083 - LINEAR MODELS

Public Health

(Part 3 of 3)

- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

Doctoral Dissertation

Students must write a dissertation that presents the results of a research project carried out by the student. An appropriate research project involves a substantive piece of original and independent research grounded in an appropriate body of literature. The PhD dissertation should consist of material sufficient for at least two publications in peer-reviewed journals. At least one of the manuscripts, based on the dissertation and first authored by the student, must be submitted before the PhD dissertation defense. For PhD students matriculated prior to fall 2015, it is recommended that at least one of the manuscripts be submitted before the PhD dissertation defense. It is the responsibility of the student's dissertation committee to evaluate the dissertation in these terms and to recommend the awarding of the doctoral degree only if the dissertation is judged to demonstrate these qualities.

Before the student's dissertation overview and comprehensive examination, the student's dissertation advisor proposes for the approval of the Department Chair and Assistant Dean for Student Affairs, a doctoral dissertation committee.

Dissertation Overview & Comprehensive Examination

Doctoral students must prepare and present a dissertation proposal. The dissertation proposal consists of two parts: (i) a presentation of a dissertation overview to members of the student's doctoral committee and all interested members of the Department of Biostatistics and (ii) a comprehensive examination attended only by the student and his/her doctoral committee. The purposes of the overview and the comprehensive exam are for a student to demonstrate that he/she is prepared to complete a dissertation by showing a general breadth of biostatistical knowledge and deep understanding of particular area(s) of biostatistics, demonstrating the ability to use biostatistical research methods and presenting a carefully formulated plan of novel dissertation research. An announcement advertising the time and location of the dissertation overview should be disseminated to the Department at least one week prior to the presentation. The doctoral committee must unanimously approve the dissertation topic and research plan before the student is admitted to candidacy for the doctoral degree. Approval of the overview does not imply either the acceptance
of a dissertation prepared in accord with the overview or the restriction of the dissertation to its original overview. The dissertation overview and comprehensive examination should be passed at least one academic term before scheduling the dissertation defense.

Admission to Candidacy

Admission to candidacy for a doctoral degree constitutes a promotion of the student to the most advanced stage of graduate study and provides formal approval to devote essentially exclusive attention to the research and the writing of the dissertation.

Eligibility

To qualify for admission to candidacy a student must:

- be in full graduate status
- have satisfied the requirement of preliminary examination
- have completed all required coursework with a minimum quality point average (QPA) of 3.00
- shown proficiency in a research or investigative tool
- have received approval of the proposed dissertation subject and plan following successful completion of the dissertation overview and comprehensive examination requirements

Students are informed of admission to candidacy by written notification from the Assistant Dean for Student Affairs.

Admission to candidacy should occur at least one academic term before the defense of the dissertation in order to provide an opportunity for the dissertation committee members to review, criticize, and monitor the proposed research.

Meetings of the dissertation committee and student must occur at least annually from the time the student gains admission to doctoral candidacy. During these meetings, the dissertation committee should assess the student's progress toward the completion of degree requirements and discuss objectives for the following year and a timetable for completing degree requirements.

Doctoral Dissertation Defense

The final oral examination in defense of the doctoral dissertation is conducted by the student's dissertation committee. One copy of the dissertation must be submitted to each member of the dissertation committee at least two weeks before the scheduled doctoral defense. The defense may not be scheduled earlier than two weeks following submission of the dissertation, but must be held at least two weeks before the degree is conferred.

At least one month before the scheduled defense, the student must provide the department registrar with the defense time, date, place, dissertation title and abstract for school-wide advertisement. The student must also provide these details to the University Times and Pitt Chronicle for advertisement at least one month before the scheduled defense.

The final copy of the dissertation must be prepared and submitted according to University Guidelines for Electronic Theses and Dissertations (ETD). Detailed dissertation rules can be found in the Pitt Public Health Handbook.

Graduation

All PhD students must register for at least one credit during the term in which they intend to graduate.

Please visit the Pitt Public Health Graduation page for detailed information on applying for graduation and graduation requirements.

Department of Behavioral and Community Health Sciences

The Department of Behavioral and Community Health Sciences at the University of Pittsburgh examines social and behavioral factors as these interact to promote or threaten public health. The primary educational mission of the Department is to prepare students for positions of responsibility and leadership in public health practice, research, and training. Our students learn to employ the most current health behavior theories and
community development strategies in approaching public health challenges. They develop applied research skills in community health assessment and planning, program implementation and evaluation, health education, and health communication. They learn how to design programs and policies and conduct community-based research, and to work as part of interdisciplinary teams examining behavioral interventions and community assessment strategies. These educational and practice experiences prepare our graduates to move into leadership positions at the local, national, and international levels.

The department has a world-class faculty that is involved in teaching, research, and community service on the local, national, and international level. We collaborate with local and regional public health systems, and many of the leadership staff in these organizations also have faculty appointments and teach classes in the department.

Admission: All Applicants

Financial Assistance

Although resources for master's students are limited, the program makes every effort to assist students in accessing some level of financial aid. Small grants and awards are available from the Department, the Graduate School of Public Health, and from the University, and many BCHS students have been successful in competing for these awards. In addition, there is typically a small number of Graduate Student Assistant and Graduate Student Researcher positions available for full-time doctoral students. There are also opportunities for paid field practicum positions, and many students are able to supplement their income through part-time employment on public health-related service or research projects conducted within the Graduate School, the University, or in the community.

Graduate Programs

Educational programs of the Department of Behavioral and Community Health Sciences build upon a common body of public health knowledge and social/behavioral science concepts, theories and applied research methods. The Master of Public Health (MPH) Program prepares students to assess the health status and needs of populations, develop public health interventions, and evaluate these interventions as well as develop recommendations for improvement. Students learn and put into practice assessment and research skills in the context of social and behavioral change at the individual, organizational, and community levels with an emphasis on social ecology and social justice. Three joint program options are also available. Two programs with the School of Social Work, the MPH/PhD and the MPH/MSW in Public Health Social Work, train social workers for leadership positions in public health systems and prepare them for research and teaching posts. Students also have the option to receive the MPH and the Master of Public Administration (MPA), the Master of Public and International Affairs (MPIA), or the Master of International Development (MID) through a joint program with the Graduate School of Public and International Affairs. Finally, students can earn an MPH and a PhD in anthropology in cooperation with the Dietrich School of Arts and Sciences.

Research Focus
The Department of Behavioral and Community Health Sciences has an extensive array of funded research and training projects. BCHS faculty and staff are skilled in the use of both quantitative and qualitative research methods, and the Department is particularly well known for its community-based participatory research strategies and modeling-simulation efforts designed to improve the health and welfare of communities.

Areas of research strengths include:

- Diabetes and Chronic Disease Prevention
- Cancer Screening Behavior
- Health Equity
- Public Health and Aging
- HIV/AIDS and Sexually Transmitted Diseases
- Maternal and Child Health
- Evaluation Science
- Global Health
- Modeling of health behavior and linked disease dynamics

Research and training projects are funded by organizations such as:

- National Institutes of Health (NIH)
- Centers for Disease Control and Prevention (CDC)
- National Cancer Institute (NCI)
- National Institute on Aging (NIA)
- National Institute of Nursing (NINR)
- Health Resources and Services Administration, U.S. Department of Health & Human Services (HRSA)
- Pennsylvania Department of Health
- Local and National Philanthropic Organizations

**Doctoral Programs**

The Doctor of Public Health (DrPH) Program trains individuals for positions of senior responsibility and leadership in public health practice settings. Students develop skill in the seven core areas identified by the Association of Schools of Public Health for DrPH degree programs. This includes coursework and practical experience in the following areas: 1) theory and research methods that facilitate-critical analysis, 2) community orientation, 3) communication, 4) management, 5) leadership, 6) advocacy and 7) professionalism and ethics. These skills position students to assume leadership positions in public health agencies, health departments, nongovernmental organizations, foundations, and agencies in the human services sector.

The Doctor of Philosophy (PhD) Program prepares students to conduct research in the social and behavioral sciences areas of public health in a variety of settings as well as teach in academic settings. The PhD curriculum is formed by a social-ecological perspective regarding the determinants of health and opportunities for intervention. Within this overarching framework, the curriculum also emphasizes theory-driven research, addressing health issues across the developmental life span of populations, examining variation across socio-demographic categories such as gender, age, and sociocultural status as it affects health and health disparities. The curriculum addresses the following areas: individual behavior, population health, research design and methods, statistical analysis; behavioral interventions; and the integration of public health research and practice.

Students may also pursue a certificate program to complement their area of study. (See section on degree requirements for list of certificate programs.)

**Master's Degree**

The MPH Program is a 45-credit program requiring students to complete the Pitt Public Health core courses (18-19 credits), the departmental core courses (17-18 credits), and elective courses. The departmental core courses cover social/behavioral theory and concepts; applied social/behavioral research methods; program planning, implementation and evaluation; health communication; community development approaches and experience in applying social/behavioral theories and methods through the completion of a 200 hour practicum/internship. School core courses include Biostatistics, Epidemiology, Public Health Biology, Environmental and Occupational Health, Health Policy and Management, and Capstone.

Electives are selected from a range of courses that have a social/behavioral emphasis or that pertain to a student's area of concentration or interest. Students are required to complete a practicum in a public health setting and prepare an essay or thesis that demonstrates the ability to synthesize information from numerous sources that addresses an issue of public health significance.
A number of joint degrees programs are also offered. See joint degree information below.

Certificates/Specialized Study

The Department of Behavioral and Community Health Sciences offers opportunities for certificates or specialized study in the following areas:

- Lesbian, Gay, Bisexual, and Transgender Health and Wellness
- Health Equity
- Evaluation of Public Health Programs
- Community-Based Participatory Research and Practice (CBPRP)

Master's

Behavioral and Community Health Sciences, MPH

http://www.publichealth.pitt.edu/behavioral-and-community-health-sciences/academics/mph

The MPH Program is a 45-credit program requiring students to complete the Pitt Public Health core courses (18-19 credits), the departmental core courses (17-18 credits), and elective courses. The departmental core courses cover social/behavioral theory and concepts; applied social/behavioral research methods; program planning, implementation and evaluation; health communication; community development approaches and experience in applying social/behavioral theories and methods through the completion of a 200 hour practicum/internship. School core courses include Biostatistics, Epidemiology, Public Health Biology, Environmental and Occupational Health, Health Policy and Management, and Capstone.

Electives are selected from a range of courses that have a social/behavioral emphasis or that pertain to a student's area of concentration or interest. Students are required to complete a practicum in a public health setting and prepare an essay or thesis that demonstrates the ability to synthesize information from numerous sources that addresses an issue of public health significance.

GSPH Core Requirements

Required coursework for the BCHS MPH degree

- BIOST 2011 - PRINCIPLES STATISTICAL REASNING or
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS

BCHS MPH Core Requirements

- BCHS 2521 - ESSAY
- BCHS 2503 - PRACTICUM
- BCHS 2504 - OVERVIEW HEALTH COMMUNICATION
- BCHS 2520 - THEORIES HLTH BHVR & HLTH ED
- BCHS 2523 - PH PRGM PLNNG & PROPSL WRITNG
- BCHS 2525 - INTRO TO APPLIED RESEARCH
- BCHS 2554 - INTRO TO COMMUNITY HEALTH
Electives

Doctoral

Behavioral and Community Health Sciences, DrPH

The Doctor of Public Health (DrPH) Program trains individuals for positions of senior responsibility and leadership in public health practice settings. Students develop skill in the seven core areas identified by the Association of Schools of Public Health for DrPH degree programs. This includes coursework and practical experience in the following areas: 1) theory and research methods that facilitate-critical analysis, 2) community orientation, 3) communication, 4) management, 5) leadership, 6) advocacy and 7) professionalism and ethics. These skills position students to assume leadership positions in public health agencies, health departments, nongovernmental organizations, foundations, and agencies in the human services sector.

The minimum-credit requirement for the DrPH Program is 72 credits of completed coursework and independent research. Twenty-four credits may be awarded for a previously earned master's degree. Six (transfer or advance standing) credits may be allowed for graduate work taken after earning the master's degree. All students must complete a common core of courses in the following categories:

- Community/Cultural Orientation in Public Health (6 credits)
- Critical Analysis (24 credits)
- Communication (3 credits)
- Management (3 credits)
- Integration of Research and Public Health Practice (3-8 credits)
- Competency area elective
  A minimum of 1 dissertation credit must be earned.

An important element of the DrPH degree is the Executive Management Practicum, which requires that students work in a setting where they will have an opportunity to develop and refine skills in leadership, advocacy and ethics. While doing so, students will also have opportunities to apply content from coursework in the other competency areas: community/cultural orientation, critical analysis, communication and management.

BCHS DrPH Requirements

Community/Cultural Orientation (6 credits)

- BCHS 2554 - INTRO TO COMMUNITY HEALTH
- BCHS 2558 - HEALTH PROGRAM EVALUATION
- BCHS 2608 - INTRODUCTION TO CBPR
- BCHS 2609 - TRANSLATING RESEARCH FOR POLIC
- BCHS 2610 - CONCEPT MAPPING

Critical Analysis (24 credits)

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1 or
  PSYED 2018 - STATISTICS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2 or
  PSYED 2019 - STAT 2: ANALYSIS OF VARIANCE
- BIOST 2049 - APPLIED REGRESSION ANALYSIS or
  PSYED 2410 - APPLIED REGRESSION ANALYSIS
- BCHS 2525 - INTRO TO APPLIED RESEARCH
- BCHS 2558 - HEALTH PROGRAM EVALUATION
- BCHS 3003 - SEM IN ADVANCED EVAL TECHNIQUES
- BCHS 3007 - ETHNOGRAPHIC QUALITATIVE METHS
Communication (3 credits)

BCHS 3504 - DCTRL SEM ON HLTH COMNCTNS

Management (3 credits)

HPM 2081 - PUBLIC HEALTH AGENCY MGMNT

Integration of Public Health Research and Practice (3-8 credits)

BCHS 3503 - PREVN SCI TRANLTNG KNOWL PRAC
BCHS 3004 - INTGRTV RES SEM: GRANT WRITING
*Students enroll in two semesters of BCHS 3004.
BCHS 3703 - EXECUTIVE MANAGEMENT PRACTICUM
PUBLHIL 2022 - THE DEAN'S PH GRAND ROUNDS

Competency Area Elective (choose one out of three courses below)

Leadership

BCHS 2135 - LEADERSHIP or
ADMPS 2128 - LEADERSHIP or
PIA 2131 - LEADERSHIP

Advocacy

HPM 2063 - THE POLITICS OF HEALTH POLICY

Professionalism and Ethics

HPM 2131 - PUBLIC HEALTH LAW AND ETHICS

Electives

Milestones (0-4 credits)

BCHS 3888 - PREP FOR COMPREHENSIVE EXAM

FTDR 3999 - FULL-TIME DISSERTATION STUDY or
BCHS 3010 - RESEARCH AND DISSERTATION PHD

Additional Requirements

Both DrPH and PhD students take a preliminary (qualifying) examination at the end of the first year of full-time course work and a comprehensive examination when the student has completed all of the required course work. Following successful completion of the dissertation overview, the student is admitted into candidacy and begins dissertation study under the direction of a dissertation committee. The dissertation and oral defense of
the dissertation must be completed within five years of the comprehensive examination. See General Requirements for Doctoral Degrees for further information.

Behavioral and Community Health Sciences, PhD

http://www.publichealth.pitt.edu/behavioral-and-community-health-sciences/academics/phd

The Doctor of Philosophy (PhD) Program prepares students to conduct research in the social and behavioral sciences areas of public health in a variety of settings as well as teach in academic settings. The PhD curriculum is formed by a social-ecological perspective regarding the determinants of health and opportunities for intervention. Within this overarching framework, the curriculum also emphasizes theory-driven research, addressing health issues across the developmental life span of populations, examining variation across socio-demographic categories such as gender, age, and sociocultural status as it affects health and health disparities. The curriculum addresses the following areas: individual behavior, population health, research design and methods, statistical analysis; behavioral interventions; and the integration of public health research and practice.

The minimum credit requirement for the PhD program is 72 credits of completed course work and independent research. Twenty-four credits may be awarded for a previously earned master's degree. Twelve (transfer or advance standing) credits may be allowed for graduate work taken after earning the master's degree. All students must complete a common core of courses in the following categories:

- Theories of behavior and community (6 credits)
- Research design and methods (11 credits)
- Elective theory and methods (3 credits)
- Statistical analysis (12 credits)
- Interventions (6 credits)
- Integration of public health research and practice (3-8 credits)
- Milestones (0-4 credits)

PhD students will typically earn 3 credits preparing for their comprehensive exam and a minimum of 1 dissertation credit must be earned. All PhD students must be enrolled as a full-time student at least 1 semester during their program. Registration for FTDR (i.e. Full-time Dissertation Research) after completion of 48 credits of coursework will fulfill this requirement.

BCHS PhD Requirements

Behavior & Community (6 credits)

- BCHS 2554 - INTRO TO COMMUNITY HEALTH
- BCHS 3555 - DCTRL SEM BCHS THEORIES/MODELS

Research Design & Methods (11 credits)

- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- BCHS 2525 - INTRO TO APPLIED RESEARCH
- BCHS 3007 - ETHNOGRAPHIC QUALITATIVE METHS
- BCHS 3030 - MEASURMNT IN SOCL & BEHVRL SCI

Elective: Theory & Methods (Choose any 3 credit graduate course at Pitt)

- BCHS 3002 - HEALTH SURVEY METHODS
- BCHS 3003 - SEM IN ADVANCED EVAL TECHNIQUES
- BCHS 3504 - DCTRL SEM ON HLTH COMNCTNS
- Advanced Methods in CBPR series
- BCHS 2608 - INTRODUCTION TO CBPR
- BCHS 2609 - TRANSLATING RESEARCH FOR POLIC
- BCHS 2610 - CONCEPT MAPPING
HPM 2010 - ORG STDTS:THRY/APPLCS HLTH CRE
TBD: Students may choose any graduate course at the University - 3 credits

Statistical Analysis (12 credits)

BIOST 2041 - INTRO TO STATISTICAL METHODS 1 or
PSYED 2018 - STATISTICS 1

BIOST 2042 - INTRO TO STATISTICAL METHODS 2 or
PSYED 2019 - STAT 2: ANALYSIS OF VARIANCE

The dissertation and oral defense of the dissertation must be completed within five years of the comprehensive examination. See General Requirements for Doctoral Degrees for further information.

Certificate
Community-Based Participatory Research and Practice Certificate

In the past 10 years, Community-based Participatory Research and Practice (CBPRP) has emerged as a core discipline in behavioral and social science departments within schools of public health. CBPRP is a collaborative process of research and practice that includes both researchers and community representatives. Communities are generally defined as those that share a unit of identity (e.g., social ties, geographical locations). The CBPRP process involves engaging community members, using local knowledge in the understanding of health problems, and a long-term commitment to partnership. CBPRP is oriented towards holistic interventions informed by social ecology modeling, a widely recognized approach that not only targets knowledge, attitudes, and behaviors of individuals, but also includes social factors such as family and friendship ties, community norms, and the structure of community services.

University-wide certificates are available as well, such as Gerontology, Global Health, Women's Studies and Latin American Studies.

Requirements for the Certificate

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

This program provides a comprehensive set of courses that will prepare students for a career in community-based participatory research and practice. As part of the program, student interns will work with local community agencies to collaboratively address identified community public health issues.

Applicants must meet the requirements for admission to the MPH program.

Students must complete 15 credits, including 9 credits of coursework and a six-credit internship/practicum.

Required Courses

- BCHS 2554 - INTRO TO COMMUNITY HEALTH
- BCHS 2135 - LEADERSHIP
- BCHS 2608 - INTRODUCTION TO CBPR
- BCHS 2609 - TRANSLATING RESEARCH FOR POLIC
- BCHS 2610 - CONCEPT MAPPING
- BCHS 2503 - PRACTICUM

Evaluation of Public Health Promotion and Health Education Programs Certificate

Demand for comprehensive program evaluations is rising in a range of public and private organizations dealing with the health and social welfare needs of populations in the United States as well as worldwide. Graduates with a specialization in program evaluation in public health have expanded opportunities for employment in organizations such as health departments and ministries of health, health and hospital systems, educational programs, philanthropic foundations, and consulting firms. Students in the BCHS program evaluation certificate study under expert faculty and research staff. Students are trained in the application of both quantitative and qualitative methods for evaluation, and have the opportunity to participate directly on interdisciplinary evaluation teams on actual community-based projects. The evaluation concentration typically involves taking courses in basic and advanced evaluation methods, qualitative approaches, health survey methods, and the evaluation practicum.

Requirements for the Certificate

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

This program trains students to apply both quantitative and qualitative methods for interdisciplinary evaluation of a range of community-based public health projects.
Applicants must meet the requirements for admission to the department's MPH program.

Students must complete 15 graduate credits, including a 3-credit (400 hours) applied evaluation internship under the supervision of a designated faculty member, and 6 credits of electives.

## Required Courses

- BCHS 2525 - INTRO TO APPLIED RESEARCH
- BCHS 2558 - HEALTH PROGRAM EVALUATION
- BCHS 2503 - PRACTICUM

  Doctoral students enrolled in the certificate are required to take as 3 of the elective credits:
  - BCHS 3003 - SEM IN ADVANCED EVAL TECHNIQUES

## Certificate Electives

Students choose 6 credits from the following courses for their evaluation electives requirement:

- BCHS 3002 - HEALTH SURVEY METHODS
- BCHS 3007 - ETHNOGRAPHIC QUALITATIVE METHODS

- PIA 2730 - COMMUNITY DEVELOP & FOCUS GROUPS

  OR

- NUR 3055 - COMM DVLP: PREP FACLN APPLC

- BCHS 3003 - SEM IN ADVANCED EVAL TECHNIQUES
- BCHS 3030 - MEASUREMENT IN SOCIAL & BEHAVIORAL SCI
- BCHS 2610 - CONCEPT MAPPING
- BCHS 2608 - INTRODUCTION TO CBPR
- BCHS 2511 - INDEPENDENT STUDY

  Some students may qualify for independent study in evaluation as determined by the certificate program director.

## Health Equity Certificate

This innovative certificate program was created to address the systemic root causes of health disparities. While racial and ethnic health disparities are examples of the consequences of social and economic disadvantages, disparities may also be related to sexual orientation, religion, gender, native language, age, and disability status. The certificate provides students with an academic foundation for achieving health equity through: assessing the complexity of inequities among diverse groups of marginalized populations, mobilizing communities where disparities exist, developing/evaluating culturally tailored interventions, and advocating for healthy public policy. The program is designed to increase the cultural competency of public health and other professionals and provide an interdisciplinary vehicle for individuals to pursue and strengthen their career interests relevant to health equity.

## Requirements for the Certificate

This program addresses the systemic root causes of health disparities by providing trainees with an academic foundation for the promotion of health equity through: conducting/evaluating culturally tailored community-based interventions, mobilizing communities where disparities exist, and advocating for healthy public policy.

Applicants must meet the requirements for admission to the MPH program.
Students must complete 15 credits, including Overview of Health Equity, Introduction to Community Health, Health Equity: Research and Interventions (or approved methods class substitute), and the Integrative Seminar in Health Equity. A field experience such as the MPH practicum or participation in the Health Equity Journal Club is required.

**Required Courses**

- BCHS 2554 - INTRO TO COMMUNITY HEALTH
- BCHS 2524 - OVERVIEW OF HEALTH EQUITY
- BCHS 2528 - INTGRTV SEM IN HEALTH EQUITY
- BCHS 2526 - HLTH EQUITY RES: METH & INTRV

**Methods Course Substitute**

Students may substitute BCHS 2526 Health Equity Research: Methods and Interventions for one of the approved methods courses.

- BCHS 2523 - PH PRGM PLNNG & PROPSL WRITNG (non-BCHS students)
- BCHS 2525 - INTRO TO APPLIED RESEARCH (non-BCHS students)
- BCHS 2558 - HEALTH PROGRAM EVALUATION
- BCHS 3003 - SEM IN ADVANCED EVAL TECHNIQUES
- BCHS 3007 - ETHNOGRAPHIC QUALITATIVE METHS

- BCHS 2608 - INTRODUCTION TO CBPR

  and

- BCHS 2609 - TRANSLATING RESEARCH FOR POLIC

  and

- BCHS 2610 - CONCEPT MAPPING

- BCHS 3030 - MEASURMT IN SOC. & BEHVRL SCI
- BCHS 3002 - HEALTH SURVEY METHODS
- BCHS 3015 - MAPPING & SPATIAL ANALYSIS
- BCHS 3503 - PREVN SCI TRANLTNG KNOWL PRAC
- BIOST 2016 - SAMPLING DESIGN AND ANALYSIS
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2062 - CLINICAL TRIALS: METHODS & PRACT
- BIOST 2098 - AGENT BASED MODELING
- EPIDEM 2023 - PARTCPTRY MODLN & SIMUL IN PH
- EPIDEM 2161 - METHODS INFECTIOUS DISEASES EPID
- EPIDEM 2180 - EPIDEMIOLOGICAL METHODS 1
- EPIDEM 2187 - EPIDEMIOLOGICAL METHODS 2
- EPIDEM 2181 - DESIGN/CONDUCT OF CLIN TRIALS
- EPIDEM 2220 - APLD SPATIAL/COMMUNITY EPIDEM
- EPIDEM 2981 - EPIDEMIOLOGY OF AGING-METHODS
- HPM 2064 - HEALTH POLICY ANALYSIS (master's students)
- HPM 3064 - HEALTH POLICY ANALYSIS (doctoral students)
- HPM 2063 - THE POLITICS OF HEALTH POLICY
- HPM 2028 - MICROECONOMICS APPLED TO HEALTH
- HPM 2220 - COST EFFECTVNS ANAL HLTH CARE
- HPM 2905 - QUASI-EXPRML DSGN HSR
- HPM 3125 - INTERMEDIATE HEALTH ECONOMICS
- PIA 2730 - COMMUNITY DEVELOP & FOCUS GROUPS

**Certificate Electives**
Lesbian, Gay, Bisexual, and Transgender (LGBT) Health and Wellness Certificate

The interdepartmental (BCHS, EPID, IDM) Certificate Program will prepare students to collaborate and conduct independent research designed to improve the understanding of unique health concerns among lesbian, gay, bisexual, and transgender (LGBT) populations; participate in agency or organization planning, training, and delivery of health care for LGBT populations; work with local, state, and federal agencies in developing LGBT competent health care providers; provide leadership in public and private sector organizations serving the health and wellness needs of LGBT populations; and evaluate the effectiveness of health care delivery systems to meet the needs of LGBT populations.

In the United States, public health professionals seek to address health disparities. Students enrolled in this program will be prepared to address health disparities affecting subpopulations who may be experiencing a lower quality of health and wellness, due in part, to historic discrimination, with a focus on lesbian women, gay men, bisexuals, and transgender/transsexual individuals. As such, the certificate will offer courses that include information on identifying and documenting health disparities; impact of historical stigmatizing politics that contribute to development of health disparities; impact of politics and policy to improve means of addressing health disparities; design of appropriate research programs to address health disparities; theories behind intervention programs that work among disparate populations; and means to develop competency skills in working with stigmatized populations.

Requirements for the Certificate

Note: Some additional credits that do not apply to any degree or other certificate must be completed for each certificate program.

This interdepartmental (BCHS, Epid, IDM) certificate program prepares students to conduct research designed to improve the understanding of unique health concerns among lesbian, gay, bisexual, and transgender populations, to participate in organized planning and delivery of health care for LGBT populations, and to provide leadership in organizations serving the health and wellness needs.

Applicants must meet the requirements for admission to the MPH program.

Students must complete 15 graduate credits, a practicum, and a thesis or project related to LGBT health and wellness and oral presentation of the thesis or project for peers and members of the Center for LGBT Health Research, or at approved scientific meeting.

Required Courses

- PUBHILT 2018 - OVERVIEW LGBT HLTH DISPARITIES
- BCHS 3503 - PREVN SCI TRANLTNG KNOWL PRAC
- PUBHILT 2020 - ADVNCD TOPICS IN LGBT RESEARCH

Certificate Electives
A minimum of seven credits in elective courses must be completed. For a list of approved electives see below. Other electives may be taken with the approval of one of the certificate directors.

BCHS 2520 - THEORIES HLTH BHVR & HLTH ED
BCHS 2525 - INTRO TO APPLIED RESEARCH
BCHS 2558 - HEALTH PROGRAM EVALUATION
BCHS 3002 - HEALTH SURVEY METHODS
BCHS 2598 - SOCIAL INEQUALITIES IN HEALTH
EPIDEM 2160 - EPIDEMIOLOGY INFECTIOUS DISEASES
EPIDEM 2400 - PSYCHOSOCIAL FACTORS IN DISEASE
HPM 2010 - ORG STDS/THRY/APPLCS HLTH CRE
HPM 2135 - HEALTH POLICY
HPM 2142 - MANAGING HEALTH OF POPULATIONS
IDM 2032 - HUMAN DIVERSITY & PUBLIC HEALTH
IDM 2034 - CONTRO & PREVENTN OF HIV/AIDS
IDM 2161 - METHODS INFECTIOUS DISEASES EPID
PUBHILT 2019 - PUBLIC HEALTH SPECIAL STUDIES

**Joint Degree**

**Behavioral and Community Health Sciences, MPH/MID; MPH/MPA; MPH/MPIA**

Students in the BCHS MPH program may pursue two graduate degrees simultaneously, through Pitt Public Health's partnerships with other professional schools at the University of Pittsburgh. Joint programs typically reduce the number of credits needed for each degree, allowing students to earn two master's degrees in just three years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements (including entrance exams like the GRE). If admitted to both schools, students alternate their primary program of study by semester or by year.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year of full-time study.

The MPH/MID, MPH/MPA and MPH/MPIA joint degree programs prepare students for careers as public health practitioners in emerging economies where health issues are closely linked to social, political, and economic problems.

The MPH/MPA, MPH/MPIA and MPH/MID joint degree requirements are listed below. Students should refer to the Graduate School of Public and International Affairs page for the most current program checklists.

- 78 credits, including coursework and one 300 contact hour field placement
- Foundational public health courses
- Advanced courses in health communications, program planning, and behavioral theories
- Advanced courses in public and international affairs; international development; or public administration
- Health-related field placement experiences
- Advanced thesis or essay research synthesizing public health core concepts with issues relevant to public and international affairs

**GSPH Core Requirements**

BIOST 2011 - PRINCIPLES STATISTICAL REASONING or
BIOST 2041 - INTRO TO STATISTICAL METHODS 1

EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
BCHS MPH/MID; MPH/MPA; MPH/MPIA Core Requirements

BCHS 2521 - ESSAY
BCHS 2503 - PRACTICUM
BCHS 2504 - OVERVIEW HEALTH COMMUNICATION
BCHS 2520 - THEORIES HLTH BHVR & HLTH ED
BCHS 2523 - PH PRGM PLNNG & PROPSL WRITNG
BCHS 2525 - INTRO TO APPLIED RESEARCH
BCHS 2554 - INTRO TO COMMUNITY HEALTH

Behavioral and Community Health Sciences, MPH/MSW

What is the MPH/MSW joint degree program?

The joint degree program is collaboration between the School of Social Work and the Graduate School of Public Health, Department of Behavioral and Community Health Sciences. Students graduate with both a Master of Social Work and Master of Public Health degrees and are prepared to pursue a wide range of social work and public health careers to improve the health of a target population and/or community. Students participate in class work, field placements, and leadership seminars to acquire the knowledge and skills to address health problems.

What principles guide this program?

The program has a strong commitment to social justice, the elimination of health disparities, and a holistic definition of community and population health, including individuals' physical health conditions and the behavioral and social ecological determinants of health. Moreover, both social work and public health share a commitment to involving consumers/community members in the development of policies and in the planning, delivery and evaluation of health promotion interventions, health behavior change, and health education.

What are the advantages of the program?

Students develop knowledge, values and skills for both professional social work practice and (e.g. direct practice or community organization/social administration) and community public health practice (e.g. primary, secondary, and tertiary prevention). Advising and mentoring focuses on supporting students to achieve their professional goals (e.g., selection of field placements, papers written as part of course-work, leadership training activities, focus of final thesis/essay in the MPH program).

Students increase their career marketability as a result of being able to work from a cross disciplinary perspective. Students have gone on to jobs, for example, in various social service organizations, health departments, other government agencies, academic institutions, think tanks, and the Centers for Disease Control and Prevention.

Juanita C. Evans Fellowship Program: All MPH/MSW students who have completed their foundation field placements, pursuing a Direct Practice with Individuals, Families, and Small Groups (Direct Practice) or a Community, Organization, and Social Action (COSA) concentration in the Graduate School of Social Work are eligible to participate in the Juanita C. Evans Fellowship Program. This HRSA funded program is intended to produce leaders in public health social work. Students are expected to develop skills in administration and management, policy development and analysis, research and evaluation, and/or program planning. Students engage in a leadership training program. Field placements focus on developing leadership skills while working at sites that serve disadvantaged communities. Students enrolled in the program receive the Evans Fellowship of $10,000 associated with the fellowship internship.

What competencies will individuals gain as a result of the program?

Application of theoretical principles to primary, secondary, and tertiary health interventions targeting the promotion of health behavior change, enhancement of the environment, and the elimination of risk factors in neighborhoods and communities that contribute to disease and poor health status outcomes

Application of principles of community-based participatory research and practice to community health assessment

Application of quantitative and qualitative skills to program planning and evaluation research
Processes involved in community health planning, program implementation, and program evaluation
Written communication to inform the public, policymakers, and other key-stakeholders
Develop other leadership skills in micro practice with individuals, families, and groups or macro practice (See Evans Fellowship Program above).

What are the requirements of the program?

The BCHS MPH/MSW joint degree typically is completed with a three-year curriculum plan for Direct Practice or COSA (2.5 years for advanced standing students). The BCHS MPH/MSW in Social Work requirements are listed below. Students should refer to the School of Social Work for the most current program checklist.

- 38 Social Work credits (plus 12 field placement credits)
- 36 Public Health credits

Some highlights of the program are:

- 12 field placement credits representing two separate field placement experiences, foundation and concentration, coordinated by the School of Social Work, Office of Field Education.
- Leadership Seminars for students participating in the Juanita C. Evans Fellowship Program
- Final essay or thesis

What types of careers do graduates of the MSW/MPH joint degree program engage in?

- Patient Services Managers
- Research Scientist
- Policy Advocates
- Program Directors
- Communication Directors
- Adjunct and part-time faculty in MSW and BSW degree programs
- Bridging the gap between the public's health and social work practice
- Program Planners

Application Process

Students must apply separately to the School of Social Work and the Graduate School of Public Health's Office of Admissions (GSPH). The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use the online application, and to apply to the Master's Degree of Public Health in Behavioral and Community Health Sciences, Graduate School of Public Health (GSPH) use the online application through SOPHAS.

Juanita C. Evans Fellowship Program

As a joint degree student, pursuing your MSW in Direct Practice or COSA and your MPH in Behavioral and Community Health Sciences, you are eligible to apply for the Juanita C. Evans Fellowship Program of $10,000. After completing the above applications to the joint degree program, students can apply here to the fellowship program.

GSPH Core Requirements

BIOST 2011 - PRINCIPLES STATISTICAL REASONING or  
BIOST 2041 - INTRO TO STATISTICAL METHODS I  
EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE  
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY  
HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH  
PUBHLT 2015 - PUBLIC HEALTH BIOLOGY  
PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH

BCHS MPH/MSW Core Requirements

BCHS 2521 - ESSAY  
BCHS 2503 - PRACTICUM or  
BCHS 2511 - INDEPENDENT STUDY  
BCHS 2504 - OVERVIEW HEALTH COMMUNICATION  
BCHS 2520 - THEORIES HLTH BHVR & HLTH ED  
BCHS 2523 - PH PRGM PLNNG & PROPSL WRITNG  
BCHS 2525 - INTRO TO APPLIED RESEARCH  
BCHS 2554 - INTRO TO COMMUNITY HEALTH

Behavioral and Community Health Sciences, MPH/PhD, Anthropology

Students in the BCHS MPH program can pursue two graduate degrees simultaneously, through Pitt Public Health's partnerships with other professional schools at the University of Pittsburgh. Joint programs typically reduce the number of credits needed for each degree, allowing students to earn a master's degree and a PhD in about five years.

To participate in a joint degree program, students apply separately to both schools, and must meet all of the usual admissions requirements (including entrance exams like the GRE). If admitted to both schools, students must designate Pitt Public Health as their primary program of study for at least one semester.

Although it is possible to apply to both schools at the same time, currently enrolled students may still apply for a joint degree as long as they have not yet completed one year of full-time study.

This joint degree program with the Department Anthropology in the Dietrich School of Arts and Sciences prepares anthropologists for research, teaching, and program planning/evaluation for specialization in the cultural, social, and behavioral aspects of health and health care in either a domestic or international setting.

Competencies

Graduates will be able to:

- Demonstrate ability to apply principles of community-based participatory research and practice to community health assessment
- Develop quantitative and qualitative skills that can be applied to program planning and evaluation
- Communicate in writing information to the public, stakeholders and policymakers
- Apply theory to program planning and evaluation

All graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

The MPH/PhD joint degree requirements are listed below. Students should refer to the Department of Anthropology for the most current program checklist.
87 credits, including coursework, research and fieldwork
Foundational public health courses
Courses in health communication, program planning, methods, community development and behavioral theories
Advanced courses in anthropology
Advanced dissertation research that includes at least one year of fieldwork in an area of specialization

MPH students enrolled in the MPH/PhD program in anthropology fulfill the course work requirements for both BCHS and anthropology and earn both degrees for a total of 87 credits. The MPH essay/thesis requirement is met by the PhD dissertation. The practicum requirement is met through fieldwork.

GSPH Core Requirements

- BIOST 2011 - PRINCIPS STATISTICAL REASNING or
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1

- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH

BCHS MPH/PhD Anthropology Core Requirements

- BCHS 2504 - OVERVIEW HEALTH COMMUNICATION
- BCHS 2520 - THEORIES HLTH BHVR & HLTH ED
- BCHS 2523 - PH PRGM PLNNG & PROPSL WRITNG
- BCHS 2525 - INTRO TO APPLIED RESEARCH
- BCHS 2554 - INTRO TO COMMUNITY HEALTH

Behavioral and Community Health Sciences, MPH/PhD, Social Work

This joint program with the University of Pittsburgh School of Social Work prepares students to fulfill leadership roles in public health systems or academic settings. Students in this program, have opportunities to work with local organizations on a variety of planning, evaluation, and research activities.

Competencies
Graduates will be able to:

- Demonstrate ability to apply principles of community-based participatory research and practice to community health assessment
- Develop quantitative and qualitative skills that can be applied to program planning and evaluation
- Demonstrate process of planning, implementing, and evaluating programs and policies
- Communicate in writing information to the public, to stakeholders and to policymakers
- Apply theory to program planning and evaluation

All graduates also achieve the core and cross-cutting competencies for Pitt Public Health MPH students.

The BCHS MPH/PhD in Social Work requirements are listed below. Students should refer to the School of Social Work for the most current program checklist.

Requirements

- 72 credits, including coursework and research
- Foundational public health courses
- Advanced courses in health communications, program planning, and behavioral theories
- Advanced courses in research methods and statistics
- Advanced dissertation research in an area of specialization

Department of Environmental and Occupational Health

The mission of the Department of Environmental and Occupational Health (EOH) is to study and elucidate the health effects of exposure to chemical, physical, and biological agents encountered in the workplace or general environment. Intrinsic to this research mission is that fundamental information regarding actions of environmental toxicants will provide insight into basic human biology in health and disease. Accordingly, current research includes fundamental studies on free radical biology and especially oxidative lipidomics and mitochondrial function, genetic basis of susceptibility to injurious agents including gene x environment approaches, cellular and molecular regulation of reparative response to injury including mesenchymal stem cells as modifying biological therapeutic agents, cardiopulmonary toxicology of heavy metals and particulate matter including nanoparticles, molecular carcinogenesis including metabolism of telomeres and DNA damage and repair, genetic and epigenetic contributions to neurodegenerative disease with focus on cholesterol dyshomeostasis and integrated studies in complex disorders such as environmental induced interstitial pulmonary fibrosis. In addition, a focus on exposure science and environmental epidemiology supports efforts into the health effects of air pollution and public health concerns associated with energy procurement including unconventional natural gas development. Translation of these collective efforts in basic and applied research is in part provided by members of EOH active in environmental policy, risk assessment, and community behavioral sciences. These efforts coincide and are coordinated with mentoring and educational programs for pre-doctoral (PhD, MS) and (DrPH, MPH) students.

Contact Information

Departmental Chair
Bruce R. Pitt, PhD
Admissions

Course work in mathematics and the physical, chemical, and biological sciences must be documented in the undergraduate transcript. Acceptable undergraduate training includes a bachelor's degree in the physical, chemical, or biological sciences with a minimum of two courses each in organic chemistry, biology, physics, and calculus.

Applicants for admission must also take the Graduate Record Examination (GRE). The MPH and DrPH programs also accept MLATS and DATS. If the candidate already has a graduate or professional degree a waiver may be approved by the department. Consistent with Pitt Public Health requirements, students are ordinarily required to have at least a 3.00 (on a 4.00 scale) overall undergraduate GPA, and a 3.00 GPA in the basic science courses (chemistry, physics, biology, mathematics).

Financial Assistance

Financial support is available for tuition and stipend for PhD students through a graduate research assistance program from the University of Pittsburgh Graduate School of Public Health. Stipends are made available from the Department of Environmental and Occupational Health, and from individual research laboratories. Although DrPH and master's students in the environmental health and/or environmental health risk assessment programs are eligible for support, in general it is expected that tuition and stipends for these students will be derived from external sources.

Graduate Degree Programs

PhD and MS Programs

The PhD in Environmental Health Sciences is designed to provide a broad theoretical and practical education for individuals who desire positions in academic, industrial or government laboratories as teachers and/or researchers in the multifaceted discipline of Environmental Health Science with an emphasis on environmental impact on human disease and disease susceptibility. The Environmental Health Sciences program is an integrated modern curriculum combining training in the toxicological and environmental biophysics disciplines that are traditional to the Department of Environmental and Occupational Health with the new and continually developing fields of cellular and molecular pathobiology of environmental disease and gene environment interactions. The program provides an understanding of how relevant environmental exposures, laboratory based model systems, and gene-environment responses can be interpreted and applied to the study of disease etiology in exposed and potentially exposed human populations. Master of Science degree in Environmental Health Sciences may be pursued and obtained along the way or independently.

MPH and DrPH Programs

The Master of Public Health in Environmental and Occupational Health is a key component of Public Health. Local environmental health professionals are the "front line troops" in the public health battle to prevent disease. The Department of Environmental and Occupational Health offers an MPH degree program to provide professional education for individuals who desire positions in environmental health or who already have environmental health positions and are seeking to strengthen their professional competency. The Doctor of Public Health in Environmental and Occupational Health provides further advanced professional education for those individuals who desire leadership positions in public health practice, policy analysis, professional communication, program management, high-level administration, and/or decision-making in an environmental health setting.

Certificate Programs
The certificate in **Environmental Health Risk Assessment** is offered for interested students and for professionals currently employed in environmental health positions. The risk assessment certificate program provides concentrated coursework relevant to human health risk evaluation and is an efficient means for achieving proficiency in this area of environmental health.

**Master's**

**Environmental and Occupational Health, MPH**

**Program Requirements -47 credits**

**MPH students** must complete the prescribed coursework. In addition, they must complete an independent study under the supervision of a faculty member and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree. MPH students are also required to write an essay that is submitted to an examination committee for approval. The curriculum consists of 47 credits and the degree normally takes two years.

**GSPH Core Requirements**

*Required coursework for EOH MPH degree*

- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2016 - CAPSTONE: PROBLEM SOLVING IN PH
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS
- BCHS 2509 - SOCL BEHVRL SCI & PUBLC HLTH
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY

**EOH Core Requirements**

- EOH 2180 - INTRODUCTION TO RISK SCIENCES
- EOH 2181 - RISK ASSESSMENT PRACTICUM
- EOH 2175 - PRINCIPLES OF TOXICOLOGY
- EOH 2504 - PRINCIPLES OF ENVIRONMENTAL EXPOSURE
- EOH 2122 - TRANSPRT & FATE ENVIRON AGENTS
- EOH 2309 - ENVIRONMNTL HLTH CHEMISTRY
- EOH 2108 - ENVIRON & OCUPTNL HEALTH PRAC
- EOH 2021 - SPECIAL STUDIES 2 Credit Essay

**Electives - Total 10 Credits**

Students are required to take 10 credits of electives (school wide graduate level)

**Environmental and Occupational Health, MS**
Program Requirements

**MS students** will follow the same coursework as the PhD students. They will, however, finish their program with 42 credits and a thesis. The degree takes approximately two years to complete. Students are also subject to a comprehensive exam. PhD students who do not progress to admission to candidacy may obtain a Master of Science with the completion of the MS requirements including a thesis.

**MS Course Requirements**

- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS 2 Semesters
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- EOH 2175 - PRINCIPLES OF TOXICOLOGY
- EOH 2109 - MOLECLR TOXICOLOGY JOURN CLUB Minimum 4 Semesters
- EOH 2504 - PRIN OF ENVIRONMENTAL EXPOSURE
- EOH 3210 - PATHOPHYSIOLOGY ENVRL DISEASE
- EOH 2310 - MOLECULAR FUNDAMENTALS
- EOH 2110 - ROTATION/PRACTICUM At Least 2 Semesters
- EOH 2021 - SPECIAL STUDIES

**Doctoral**

**Environmental and Occupational Health, DrPH**

Program Requirements - 72 credits

**DrPH students** must complete the MPH curriculum to satisfy the preliminary qualifying requirements for the program. Students spend the remainder of the program completing their research projects for a total of 72 credits. During the research project, students will meet with their dissertation committee to present an overview of their planned dissertation and be orally examined in areas broadly relevant to their chosen specialty. Preparation and submission of the written manuscript followed by its oral presentation to the dissertation committee completes the program.

**EOH Required Course Work**

- EOH 2021 - SPECIAL STUDIES 2 Credits Essay
- EOH 2108 - ENVIRON & OCUPTNL HEALTH PRAC
- EOH 2122 - TRANSPRT & FATE ENVIRON AGENTS
- EOH 2175 - PRINCIPLES OF TOXICOLOGY
- EOH 2180 - INTRODUCTION TO RISK SCIENCES
- EOH 2181 - RISK ASSESSMENT PRACTICUM
- EOH 2309 - ENVIRONMNTL HLTH CHEMISTRY
- EOH 2504 - PRIN OF ENVIRONMENTAL EXPOSURE

**GSPH Core Requirements**

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- BCHS 2509 - SOCL BEHVRL SCI & PUBLIC HLTH
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH
Environmental and Occupational Health, PhD

Program Requirements

PhD students must complete coursework and research for a total of 72 credits. Attendance and participation in departmental seminars and journal clubs is required. During the first two years of study, students will take the majority of their coursework and have an opportunity to rotate in three different research laboratories. After the first year, students are expected to engage in independent research projects oriented towards their thesis research. Preliminary qualifying examinations for the PhD degree occur in the second year after all core courses have been taken. Students spend the remainder of the graduate program completing the research project and taking selected elective courses. Dissertation preparation and defense complete the PhD requirements. See General Requirements for Doctoral Degrees and Regulations Pertaining to Doctoral Degrees for more information.

EOH PhD Core Requirements

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- EOH 2110 - ROTATION/PRACTICUM
- EOH 2504 - PRIN OF ENVIRONMENTAL EXPOSURE
- EOH 3210 - PATHOPHYSIOLOGY ENVRL DISEASE
- EOH 2310 - MOLECULAR FUNDAMENTALS
- EOH 2175 - PRINCIPLES OF TOXICOLOGY
- EOH 2109 - MOLECLR TOXICOLOGY JOURN CLUB
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS
- EOH 2021 - SPECIAL STUDIES

Electives

Students must take 10 credits in Electives from University wide graduate level courses

Certificate

Environmental Health Risk Assessment Certificate

This program provides concentrated coursework relevant to human health risk evaluation.

General Requirements

Students must have a graduate degree or be pursuing one concurrently. Students must complete 15 credits: 11 credits of required courses (EOH 2122, EOH 2175, EOH 2181, and EOH 2504) plus 4 elective credits.

Required Core

- EOH 2175 - PRINCIPLES OF TOXICOLOGY
- EOH 2181 - RISK ASSESSMENT PRACTICUM
- EOH 2504 - PRIN OF ENVIRONMENTAL EXPOSURE

Suggested Electives

Electives 4 credits

- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- EOH 2180 - INTRODUCTION TO RISK SCIENCES
- EOH 2309 - ENVIRONMENTAL HEALTH CHEMISTRY

Department of Epidemiology

Epidemiology is the application of the scientific method to the study of disease in populations for the purpose of prevention or control. It is a key basic science of public health and preventive medicine. Epidemiologists play a fundamental role in public health and preventive medicine by identifying variabilities in human situations that may have a critical influence on the occurrence of disease within populations.

The epidemiological method for studying a problem involves three approaches:

- Description of the frequency and determinants of a disease in a defined population;
- Evaluation of factors that may cause a disease; and
- Experimental studies of the effects of modifying risk factors on the subsequent frequency of a disease.

Admissions

http://www.publichealth.pitt.edu/epidemiology/admissions-aid/admissions

The department accepts students with a variety of prior health-related professional degree backgrounds, prior graduate degrees, and superior students who have completed a bachelor's degree. Students may matriculate for the MPH, MS, DrPH, or PhD degree. A joint MD/PhD program is also available. Major areas of emphasis within the department are aging, psychiatric, cancer, injury prevention, applied public health cardiovascular and diabetes, clinical trials and methods, infectious disease, molecular and genetic epidemiology, environmental epidemiology, global health, prevention lifestyle and physical activity, neuroepidemiology, obesity and nutritional epidemiology, reproductive, perinatal, and pediatric epidemiology, and women's health.

Financial Assistance

Financial Assistance: http://www.publichealth.pitt.edu/home/prospective-students/admissions/financial-aid

Minority Student Support Information: http://www.healthequity.pitt.edu/funding-opportunities

Research

In fiscal year 2015-2016, the faculty within the Department of Epidemiology received approximately $20 million in research funds. These projects, mostly federally funded, included activity in the major areas of focus within the department. For additional information on research projects, see http://www.publichealth.pitt.edu/epidemiology/research-and-practice and http://www.publichealth.pitt.edu/epidemiology/academics/courses/areas-of-emphasis concerning our numerous research Areas of Emphasis.

Degree Requirements: Master's and Doctoral Curricula

http://www.publichealth.pitt.edu/home/academics/courses

http://www.publichealth.pitt.edu/epidemiology/academics/student-handbook

The student's course of study includes Graduate School of Public Health core courses, department core courses, electives drawn from our frequently used courses, and other appropriate selections throughout the University. The sequencing of courses is developed in conjunction with the major advisor, taking into account background, area of focus, degree program, and Pitt Public Health requirements. The minimum credit requirement is 30 for the master's programs for health professionals and 72 for the doctoral programs. A 45-credit MPH or MS is available for students who are not health professionals. This is a 16-month or 20-month program; MPH students will be involved in a hands-on internship. Master's students must complete a (MS) thesis or essay (MPH) and doctoral students (PhD or DrPH) must complete a dissertation and one-semester Teaching Practicum experience. DrPH students must also fulfill a practicum requirement.

The following are the required departmental courses for students pursuing degrees in the Department of Epidemiology.

Master's

Epidemiology, MPH

Pitt Public Health Requirements

EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
Department of Epidemiology Requirements

EPIDEM 2160 - EPIDEMIOLOGY INFECTIOUS DISEASES
EPIDEM 2170 - CHRONIC DISEASE EPIDEMIOLOGY
EPIDEM 2180 - EPIDEMIOLOGICAL METHODS 1
EPIDEM 2181 - DESIGN/CONDUCT OF CLINICAL TRIALS
EPIDEM 2210 - SPECIAL STUDIES - ESSAY
EPIDEM 2214 - PUBLIC HEALTH INTERNSHIP
EPIDEM 2250 - SEMINAR IN EPIDEMIOLOGY
BIOST 2042 - INTRO TO STATISTICAL METHODS 2

Internal Review Board (IRB) Training
Presentation Training - Complete at least one poster or oral presentation. Advisor sign-off is required.

Electives

Add electives as recommended by academic advisors to earn total credits required for the program. All Pitt Public Health course descriptions may be found here: http://www.publichealth.pitt.edu/home/academics/courses/printable-course-schedules

Add electives as recommended by academic advisors to earn total credits required for the program. All Pitt Public Health course descriptions may be found here: http://www.publichealth.pitt.edu/home/academics/courses/printable-course-schedules

Department of Health Policy and Management

http://www.publichealth.pitt.edu/hpm/_rdr

The Department of Health Policy and Management prepares individuals to assume roles of leadership, policy development, and management within the health care system and public health. Its educational programs are grounded in the faculty's contributions in advancing the state of knowledge and professional practice in institutional and system health care management and the development, advocacy, analysis, and implementation of health policy. The HPM Faculty are engaged in interdisciplinary research addressing a range of problems relevant to public policy, organization, and management as applied to health care organizations and systems and in various professional and community service activities.

The leadership of the Department of Health Policy and Management includes Mark S. Roberts, MD, MP, Chair, and Tina Grossett, Departmental Administrator.

**Graduate Degree Programs**

The Department of Health Policy and Management offers the following graduate degree programs: Master of Health Administration (MHA), Master of Public Health (MPH), Master of Health Administration and Master of Business Administration (MHA/MBA), Juris Doctor/Master of Public Health (JD/MPH), Master of Science in Health Services Research and Policy (MS), a PhD in Health Services Research and Policy, a Graduate Certificate in Health Care Systems Engineering, and a Graduate Certificate in Health Systems Leadership and Management.
The MHA program offers a graduate education relevant to both the aspiring and already practicing health care management/policy professional; a curriculum that anchors the program in its public health tradition while also providing the students with necessary tools, technologies, and knowledge in organizational and system management and policy analysis. Career and professional development activities are provided through the professional practice component of the curriculum which includes a Management Residency, the Executive in Residence program, professional mentorship, and participation in the HPMA Student Chapter and other networking and professional development opportunities.

The MPH Program in the Department of Health Policy and Management in the Graduate School of Public Health at the University of Pittsburgh provides advanced education for recent graduates, entry-level, and mid-career professionals to facilitate their career development as leaders and managers, health professionals, policy analysts, and advocates for various roles and contexts in public health and health care.

The MHA/MBA joint degree program with KATZ Graduate School of Business provides an outstanding opportunity to become highly skilled in the management of health care processes, quality and finances. The program is designed to create future leaders in the management of health care organizations, and blends outstanding training in management and finance from the Katz school with the content expertise in outcomes measurement, health care quality improvement and analytics from the Graduate School of Public Health.

The MHA/MBA offers an outstanding opportunity to become highly skilled in the management of health care processes, quality, and finances. The joint degree program is designed to create future leaders in the management of health care organizations. Uniting the strengths of the University of Pittsburgh's Graduate School of Public Health and Joseph M. Katz Graduate School of Business, the program blends outstanding training in management and finance with the content expertise in health care quality improvement, outcomes measurement, and analytics.

The department also offers a joint degree program with the School of Law, the JD/MPH program in law and health policy. This joint degree program was developed in recognition of the important area of intersection between the practice of law, health policy and health care delivery in the United States. Graduates of this program are provided the academic foundation for professional roles in public policy analysis and development, the practice of law for private clients with specialization in health law, and as inhouse counsel for health care organizations and systems and regulatory agencies. Applicants must be admitted to both the Graduate School of Public Health and the School of Law.

The Master of Science in Health Services Research and Policy program prepares graduates for positions in health services research and policy, analytics and also prepares them for higher level education (such as a PhD). Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The PhD in Health Services Research and Policy provides advanced educational and professional development opportunities for individuals entering a career in health services research and policy. The program meets an ongoing need for public health researchers who focus on cost, access, and quality of the health care system. Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services. The goals of the program are to provide graduates with contemporary training in research design and methods appropriate for studying the health care system, experience in developing an NIH style grant proposal, and experience writing for publication, presenting results at a scientific meeting, and teaching. Students identify an area of focus that informs the substance and provides the theoretical framework for their research. Upon completing the program, graduates will be prepared for positions in academia, government or the private sector as experts in health services research and policy.

The Graduate Certificate in Health Care Systems Engineering is offered jointly by the Graduate School of Public Health and the Swanson School of Engineering. This certificate is designed for students in the Department of Health Policy & Management (Pitt Public Health) and the Department of Industrial Engineering (Swanson) and provides students with specific experiences and analytical tools required for effective problem solving relative to quality improvement and process engineering in the health care industry. Students are equipped to serve as leaders in addressing the challenges health care faces in the twenty-first century. Health care management students will learn engineering principles, models, and tools following a systems approach to analysis, problem solving, and project implementation, while engineering students gain knowledge of health care operations, the organizational culture, and the strategic issues facing the industry. With a focus on innovation, effectiveness, and efficiency in health care and public health, the certificate nurtures well-educated professionals and leaders in their disciplines. Contact Jessica Dornin for more information.

The Graduate Certificate in Health Systems Leadership and Management provides rigorous training for healthcare clinicians and providers looking to enhance their careers and improve healthcare delivery through strengthened leadership and management skills. The certificate is primarily designed for physicians, but is open to all healthcare clinicians and providers. The curriculum of 15-16 total credits consists of coursework in the following areas: Leadership Theory and Practice, Strategic Management, Financial Management, Health Policy, Quality and Patient Safety, and an applied project. Contact Jessica Dornin for more information.

**Admission Requirements**
Masters Degree Programs: The Graduate School of Public Health requires that students apply online for all degree programs. Requirements for admission include a bachelor's degree from an accredited college or university; acceptable scores on the Graduate Record Examination (GRE) for the MS, MHA and MPH and acceptable scores on the GRE and/or LSAT for the JD/MPH; and successful completion of: three postsecondary (college/university)-level semester credits in biology; three post-secondary (college or university) level semester credits in mathematics (algebra or higher); and 6 post-secondary (college/university) level semester credits in social and behavioral sciences, preferably including one course in economics.

In addition, the Admissions Committee cites the following as important factors in the admissions decision: undergraduate performance, GRE scores, letters of recommendation, relevant work (or volunteer) experience, and good interpersonal and communication skills. Most applicants are interviewed as part of the application review process. Students enroll in August of each year. Although a rolling admissions process is in place, applicants are encouraged to apply as soon as possible and prior to the end of May. International University of Pittsburgh students should apply by February 1.

Doctoral Degree Program: Applicants to the PhD Program in Health Services Research and Policy must hold a baccalaureate degree with a GPA of at least 3.3 desirable; college level coursework in calculus with a grade of 3.0 or better is a prerequisite; applicants must submit scores on the verbal, quantitative and critical thinking and analytical writing portion of the Graduate Record Examination (GRE)-a quantitative score of 720 or higher, verbal score of 560 or higher, and analytical writing of 5.0 or higher are desirable. Applicants for whom English is not their first language must submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam. Students must score a minimum of 213 on the computerized TOEFL (or 550 on the paper-based version). The minimum score for the IELTS is 65.

In addition, applicants must demonstrate in their personal statement that they have a clear understanding of how the program of study will benefit them in achieving their career goals. Three letters of recommendation are required from individuals who are in a position to judge the applicant's professional and or academic abilities. At least one recommendation should be from an individual who can comment on the applicant's academic qualifications (e.g., former instructor or advisor).

Certificate Program in Health Care Systems Engineering: Applicants to this program must be admitted to or enrolled in the MHA program, the HPM-MPH program, or the MS program in industrial engineering.

Certificate Program in Health Systems Leadership and Management: All Certificate applicants, except those already enrolled in GSPH, need to apply through SOPHAS. In addition, the Certificate applicant will submit a brief statement addressing: interest in health systems leadership and management; previous experience; areas of interest; and the relation of the Certificate to career goals.

The admission requirements for applicants are based on completion of at least an advanced health care provider degree (e.g. MD, RN, PharmD, PT, OT) or appropriate job experience.

Financial Assistance

The Department of Health Policy and Management has limited scholarship funds and these funds are allocated separate from admission decisions. The scholarship funds are mainly awarded to incoming high caliber students on an annual basis. Graduate student assistantship and research positions are periodically available on a competitive basis.

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

- Complete the school-wide core courses required for their program, and complete and submit the thesis or essay (see below).
- Fulfill the program's core course requirements, including required courses, and any field work, and examinations.
- Register for two terms of Public Health Grand Rounds.
- Complete the online Academic Integrity Module in the first semester.
- Submit a master's thesis or essay (see: [http://www.publichealth.pitt.edu/home/academics/academic-handbook-degree-requirements/graduation](http://www.publichealth.pitt.edu/home/academics/academic-handbook-degree-requirements/graduation))

Thesis or Essay

All master's students must complete a minimum of two essay/special study credits and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to Joanne Pegher by the deadline posted for that graduation term.
MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MHA Degree:

The MHA program offers students a competency-based curriculum and an array of professional development resources and activities to prepare graduates for managerial roles in health care systems and networks, managed care, health insurance, and long-term care organizations. The broad curriculum provides students with a foundation of knowledge, analytical and communication skills, and core values for ongoing career growth and professional and leadership development. Upon completion of the MHA program, our graduates obtain post-graduate fellowships or full-time employment in hospitals, academic medical centers, physician practices, long-term care facilities, health plans, and consulting firms.

The mission of the Masters in Health Administration (MHA) Program is to provide students with the competencies necessary for early to mid-level management positions and provide the foundation for subsequent professional development, leadership and executive management in organizations involved in the delivery or financing of health care services. The Program's curriculum is based on evidence-based practice enriched by the research activity of the faculty.

In order to be eligible for graduation, students must complete 60 credit hours with a B average or better including a supervised management residency, which is typically scheduled during the summer term, and prepare a scholarly master's essay relating to the culminating experience. The curriculum includes select Pitt Public Health core courses, the required health management core, and elective credits offered within and outside the schools of the health sciences.

2016-2017 MHA Curriculum

**Health Policy and Management, MPH**

**Program Requirements**

**MPH students** must complete the prescribed coursework. In addition, they must complete a capstone intellectual product (master's essay) under the guidance of a faculty committee and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree. The curriculum consists of 45 credits typically completed over two years.

**Pitt Public Health Core Requirements**

- BCHS 2509 - SOCL BEHVRL SCI & PUBLIC HLTH
- BIOST 2011 - PRINCIPS STATISTICAL REASNING
  *Students must take either BIOST 2011 or BIOST 2041
- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH
- PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS
  *Must register for two terms

**HPM Core Requirements**

- HPM 2025 - HPM PRACTICUM
- HPM 2028 - MICROECONOMICS APPLD TO HEALTH
- HPM 2037 - ESSAY-HA

1273
Requirements for the MPH Degree:

The MPH in Health Policy and Management (HPM) prepares students for careers as public policy analysts, advocates for public health and high quality care, and professionals engaged in the development and implementation of health policies. The program provides professional development through a combination of coursework, a health policy or management related practicum, a Public Health Leader-in-Residence, and other curricular activities.

This two-year, 45-credit Program prepares students for careers in both health policy development, analysis and advocacy and program and organization management in public health agencies, foundations, other nonprofits and the private sector. Graduates of our MPH Program should be well-prepared to pass the Certification in Public Health (CPH) exam, pursue related Doctoral studies and/or obtain professional employment in public health and related sectors, nationally and globally.

Upon graduation, students must complete 45 credit hours with a B average or better including a supervised practicum, and prepare a scholarly master's essay relating to culminating experience. The curriculum includes the GSPH core courses, the required MPH core and elective courses offered within and outside of the schools of health sciences.

2016-2017 MPH Curriculum

Health Services Research and Policy, MS

Required Public Health Core Courses

BIOST 2041 - INTRO TO STATISTICAL METHODS 1
BIOST 2042 - INTRO TO STATISTICAL METHODS 2

BCHS 2520 - THEORIES OF HEALTH BEHAVIOR AND HEALTH EDUCATION
BCHS 3002 - HEALTH SURVEY METHODS
BIOSH 2046 - ANALYSIS OF COHORT STUDIES
HPM 3125 - INTERMEDIATE HEALTH ECONOMICS
HPM 3501 - SEMI-QUALITATIVE RESEARCH METHODS 1
HPM 3505 - ADVANCED MICROECONOMIC METHODS IN HEALTH CARE
PIA 2028 - PUBLIC POLICY ANALYSIS
PIA 2117 - PROGRAM EVALUATION
PIA 2133 - ADVANCED SEMINAR IN SYMBIOSIS IN PUBLIC POLICY

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

- Complete the school-wide core courses required for their program, and complete and submit the thesis or essay (see below).
- Fulfill the program's core course requirements, including required courses, and any field work, and examinations.
- Register for two terms of Public Health Grand Rounds.
- Complete the online Academic Integrity Module in the first semester.
- Submit a master's thesis or essay (see: http://www.publichealth.pitt.edu/home/academics/academic-handbook-degree-requirements/graduation)

Thesis or Essay

All master's students must complete a minimum of two essay/special study credits and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to Joanne Pegher by the deadline posted for that graduation term.

MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.
Requirements for the MS Degree:

The Master of Science in Health Services Research and Policy program prepares graduates for positions in health services research and policy, analytics and also prepares them for higher level education (such as a PhD). Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The MS requires a minimum of 42 credits. The program includes coursework in statistics and research methods as well as foundations in public health. Students must successfully pass a comprehensive exam given during the second year and submit and successfully defend a master's thesis.

MS Decision Sciences Area of Emphasis

MS Health Policy and Economics Area of Emphasis

Doctoral

Other Requirements

*HPM 3064: Health Policy Analysis is the prerequisite to this course and must be taken during the spring term of the first year. In addition to required courses, students must have a minimum of 72 credits to graduate. Full Time Dissertation Study (b) Current Topics; Must attend all semesters and register for at least 2 Semesters Teaching (1 credit); Must serve as teaching assistant at least one semester (c) Area of Focus (Minimum 12, including electives)

Note:

(a) Students without previous experience in health care are expected to take HPM 2105: Health and Medical Care Organization
(b) Students must register for 3 dissertation credits or one semester of Full Time Dissertation Research (FTDR).
(c) Students may optionally take the PUBHILT 2013 and PUBHILT 2017 sequence (2 credits total).

General Requirements for Doctoral Degrees
For an overview of University-wide regulations for doctoral students, see Regulations Pertaining to Doctoral Degrees. All Pitt Public Health doctoral students must:

- Complete specific courses as determined by the program or the school, including at least 3 credits of 3100 (dissertation) or one term of FTDR (full-time dissertation research).
- Fulfill the University's residency requirement.
- Satisfactorily complete the preliminary/qualifying examination, the comprehensive examination, the dissertation overview, the dissertation defense, and the annual Individual Development Plan.
- Meet the requirement for proficiency in tools of research.
- Register for two terms of Public Health Grand Rounds.
- Complete the online Academic Integrity Modules in the first semester.

Individual programs will provide specific information on fulfillment of these requirements.

A student pursuing the Doctor of Public Health degree cannot take the preliminary/qualifying examination until all the core course requirements-as interpreted by the department-for the Master of Public Health degree have been completed.

Requirements for the Ph.D. Degree:

The Health Services Research and Policy (HSRP) PhD program meets an ongoing need for public health researchers who focus on cost, access and quality of the health care system. Graduates will be prepared to conduct research on policy issues affecting the organization, financing, and delivery of health care and public health services.

The PhD requires a minimum of 72 credits. Students will work with their academic advisors to develop an area of focus with at least 12 credits (included in the 72 credit total) that focuses on a discipline or area of interest. The area of focus is the opportunity for students to gain specialized skills and knowledge relevant to their chosen research area. The courses for the area of focus can be based in a traditional discipline, an established field, or can be thematically linked based on the students' interests and goals. For example, students may choose from a traditional discipline such as economics, psychology, sociology or bioethics. Others may choose to focus on a technical area such as quantitative or qualitative research methods or survey design, or a substantive area such as quality and patient safety, gerontology, pharmacoconomics, substance abuse, or mental health.

Students must successfully pass a preliminary exam given after the first year, a comprehensive exam given after the second year, and typically present their dissertation overview towards the end of the third year. The doctoral dissertation will take the form of three thematically linked manuscripts of publishable quality.

2016 PhD Curriculum

Certificate

Health Care Systems Engineering Certificate

Offered jointly by the University of Pittsburgh Swanson School of Engineering and Pitt Public Health, this program provides students with specific competencies and analytical tools required for effective problem solving relevant to quality improvement and process engineering in the health care industry. Students are equipped to serve as quality champions and agents of change in addressing the challenges health care faces in the twenty-first century. Engineering students gain knowledge of health care operations, the organizational culture, and the strategic issues facing the industry. Health care management students will learn engineering principles, models, and tools within a systems approach to analysis, problem-solving, and project implementation.

This certificate is intended for individuals pursuing careers in the management, redesign, and improvement of the health care industry. Designed for master's students in the Department of Health Policy and Management and the Department of Industrial Engineering, this program provides a rigorous and multidisciplinary education as a complement to the core curriculum of both programs. With a focus on innovation, effectiveness, and efficiency in health care and public health, the certificate nurtures well-educated professionals and leaders in their disciplines.

Students in this certificate program will be able to:
Demonstrate knowledge of the structures, performance, quality, policy and environmental context of health and health care to formulated solutions for health policy problems,
Design and implement projects, including collecting, analyzing, interpreting data and offering sound evidence-based recommendations, and Summarize and present health care engineering-related research orally and in writing.

Required Courses

IE 2000 - FUNDAMNTLS OF INDUSTRIAL ENGR
IE 2001 - OPERATIONS RESEARCH
BIOST 2011 - PRINCIPLS STATISTICAL RESASONING
or
BIOST 2041 - INTRO TO STATISTICAL METHODS 1
HPM 2105 - INTRO TO US HC DELIVERY SYST 1
HPM 2207 - QUALITY ASSMNT PATIENT SAFETY
HPM 2050 - HEALTH SYMS ENGINEERING SEMINR
HPM 2017 - QUAN MTH-DEC TEC/OPRTNS MGT HC
HPM 2220 - COST EFFCTVNS ANAL HLTH CARE
IE 2106 - OPERATIONS IMPROVEMENT IN HC
or
IE 2076 - TOTAL QUALITY MANAGEMENT
IE 2998 - GRADUATE PROJECTS/PRACTICUM
IE 2102 Lean/Six Sigma
HPM 2107 US Health Care System II

Health Systems Leadership and Management Certificate

General Requirements

This graduate certificate will provide rigorous training for health care clinicians and providers looking to enhance their careers and improve health care delivery through strengthened leadership and management skills. The certificate was initially designed for physicians in the School of Medicine, but is open to all health care clinicians and providers.

The admission requirements for applicants are based on completion of at least an advanced health care provider degree (e.g. MD, RN, PharmD, PT, OT), job experience, and career plans.

The proposed curriculum requires 15-16 total credits and will consist of coursework in leadership theory and practice; strategic management; financial management; health policy; quality and patient safety; and one applied project.

Required Courses

HPM 2012 - FINCL MGT FDS HEALTH CARE & PH
or
HPM 2014 - APPLCS/ISS FINCL MGT HC INSTN
HPM 2135 - HEALTH POLICY
HPM 2207 - QUALITY ASSMNT PATIENT SAFETY
HPM 2150 - STRATGC MGT HLTH SERVC ORGN
HPM 2700 - SEMINAR IN HLTH SYMS LDRS
HPM xxxx Applied Project

Joint Degree

Health Policy and Management, JD/MPH
Program Requirements

**MPH students** must complete the prescribed coursework. In addition, they must complete a capstone intellectual product (master's essay) under the guidance of a faculty committee and register for a practicum experience. Students will take the school-wide core courses as part of the required credits to complete their degree.

Pitt Public Health requires the completion of 45 credits to receive a Master of Public Health (MPH) degree, including 40 hours of required courses and 5 elective credits. However, joint degree participants may cross-count up to 8 hours of law school credits towards their MPH.

The School of Law requires 88 credits for the Juris Doctor. Of these, 12 credits may be cross-counted from Pitt Public Health. Overall a total of 113 credit hours is required for completing the joint degree program, which is 20 fewer than completing all the coursework independently.

**Pitt Public Health Core Requirements**

- **BCHS 2509** - SOCIONICAL SCI & PUBLIC HLTH
- **BIOST 2011** - PRINCIPLES STATISTICAL REASONING
  *Students must take either BIOST 2011 or BIOST 2041*
- **BIOST 2041** - INTRO TO STATISTICAL METHODS 1

- **HPM 2012** - FINCL MGT FDS HEALTH CARE & PH
- **HPM 2025** - HPM PRACTICUM
- **HPM 2028** - MICROECONOMICS APLD TO HEALTH
- **HPM 2049** - HUMN RESORC MGT HC & PH PROF
- **HPM 2055** - MGNG HLTH PROGS & PROJECTS
- **HPM 2063** - THE POLITICS OF HEALTH POLICY
- **HPM 2064** - HEALTH POLICY ANALYSIS
- **HPM 2081** - PUBLIC HEALTH AGENCY MGMNT
- **HPM 2133** - LAW IN PUBLIC HEALTH PRACTICE
- **LAW 5089** - PUBLIC HEALTH LAW

**Requirements for the JD/MPH Degree:**

For the JD/MPH degree, students enrolled in the joint-degree program receive integrated training in law and public health over a three-and-one-half-year period. Students must apply to and be accepted by the School of Law and then can apply to the Graduate School of Public Health. Once admitted, the student completes the first year of law school before registering for courses in public health. During subsequent semesters students are encouraged to integrate coursework between the schools to best accommodate the students learning objectives. If obtained separately, the combined credit-hour requirements for the JD and MPH degrees is 123 credits (88 for the JD, and 45 for the MPH). Students enrolled in this joint-degree program, however, are able to apply a number of courses toward fulfillment of both degrees simultaneously thereby reducing the total required credits to 113.

2016-2017 JD/MPH Curriculum

**Health Policy and Management, MHA/MBA**
Required Public Health Core Courses

BACC 2401 - FINANCIAL ACCOUNTING
BECN 2401 - ECON ANAL MGRL DEC FIRM & MRKT
BSEO 2401 - BUSINSS ETHCS & SOCIAL PERFORM
BQOM 2401 - STATISTICAL ANALYSIS: UNCERT
HPM 2105 - INTRO TO US HC DELIVERY SYST 1
HPM 2108 - LDRS, PROFISM AND CAREER DVLP
PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS
BFIN 2409 - FINANCIAL MANAGEMENT 1
BMIS 2409 - INFORMATION SYSTEMS
HPM 2106 - HLTH SYSM LDRS & PROF DVLP 2
HPM 2141 - MANAGERIAL EPIDEMIOLOGY
HPM 2216 - HLTH INSURANCE: FINCG HLTH CRE
HPM 2115 - HPM MANAGEMENT RESIDENCY
BHRM 2023 - HUMN RESOURCES PLNNG/STRATGY 1
OR
BHRM 2024 - HUMN RESOURCES PLNNG/STRATGY 2
BMKT 2409 - MARKETING MANAGEMENT
BSPP 2409 - STRATEGIC MANAGEMENT
HPM 2012 - FINCL MGT FDS HEALTH CARE & PH
HPM 2028 - MICROECONOMICS APPLD TO HEALTH
HPM 2130 - HEALTH LAW AND ETHICS
BOAH 2409 - ORGANIZATIONAL BEHAVIOR
BQOM 2421 - DECISN TECHN IN MFG & OPER MGT

HPM 2145 - MKTG HLTH SVCS STRAT BUS PLANS
HPM 2207 - QUALITY ASSMNT PATIENT SAFETY
HPM 2220 - COST EFFCTVNS ANAL HLTH CARE
HPM 2150 - STRATGC MGT HLTH SERVC ORGNS
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH

General Requirements for Master's Degrees

(Note: This is not a complete list of requirements)

All master's degree-seeking students must:

Complete the school-wide core courses required for their program, and complete and submit the thesis or essay (see below).
Fulfill the program's core course requirements, including required courses, and any field work, and examinations.
Register for two terms of Public Health Grand Rounds.
Complete the online Academic Integrity Module in the first semester.
Submit a master's thesis or essay (see: http://www.publichealth.pitt.edu/home/academics/academic-handbook-degree-requirements/graduation)

Thesis or Essay

All master's students must complete a minimum of two essay/special study credits and meet the master's thesis/essay requirement. Program listings will specify the type of master's paper required. The form of the essay or thesis must be in accord with specifications stipulated in the University's Style and Form Manual or the ETD Format Guidelines Manual. The electronic copy of the thesis/essay must be uploaded and all required paperwork submitted to Joanne Pegher by the deadline posted for that graduation term.
MPH students who have been permitted to submit an article accepted for publication in lieu of the essay must meet the margin requirements and submit a committee signature sheet and title page patterned after that in the Style and Form Manual or the ETD Format Guidelines Manual. If there are multiple authors, a statement should be included explaining the role of each author. All essays must be read and approved by two faculty representing two different University of Pittsburgh Pitt Public Health departments. MS theses require approval by three readers.

Requirements for the MHA/MBA Degree:

An outstanding opportunity to become highly skilled in the management of health care processes, quality, and finances, the MHA/MBA joint degree program is designed to create future leaders in the management of health care organizations. Unitling the strengths of the University of Pittsburgh's Graduate School of Public Health and Joseph M. Katz Graduate School of Business, the program blends outstanding training in management and finance with the content expertise in health care quality improvement, outcomes measurement, and analytics.

Our highly trained graduates will be fully prepared to assume fast-track leadership positions in a variety of health care organizations. The Bureau of Labor Statistics estimates that the demand for health care managers will grow by 17 percent in the next decade. The U.S. health care system is the largest industry in the United States, currently consuming nearly 18 percent of GDP. At the same time, there remain significant problems with access and quality. The joint training in business and health care management should provide a strong foundation for a variety of positions in health care finance, insurance, operations, disease and population health management.

The standard full-time curriculum is a three-year, 78-credit course of study leading to the joint degree. The competency-based curriculum emphasizes both professional and leadership development, as well as functional management skills, blending courses across both the Katz School (MBA) and Pitt Public Health's Department of Health Policy and Management (MHA) in six academic terms.

Students are required to complete a management residency in the first summer term that may be extended into the second summer term. These supervised placements in health care services or health-related practice sites are an invaluable experience for professional development and networking. The student must also complete a master's essay and an applied management project at the residency site.

MHA/MBA Curriculum

Admissions

Students must complete applications for, and be accepted into, both the Graduate School of Public Health and the Joseph M. Katz Graduate School of Business. Application to Pitt Public Health must be submitted through SOPHAS at www.sophas.org. Application to the Katz Graduate School of Business should be made at www.business.pitt.edu/katz/apply.

Department of Human Genetics

http://www.publichealth.pitt.edu/hugen/_rdr

The Department of Human Genetics provides graduate training in the fields of human genetics, public health genetics, and genetic counseling. The mission of the department is to discover new knowledge about the genetic determinants of human health and disease through basic and applied research; to educate students, trainees, and other interested persons in that knowledge; and to apply that knowledge to improve the health of populations, families, and patients.

Contact Information

ATTN: Noel Harrie
Department Office: A302 Crabtree Hall
412-624-3066
Fax: 412-624-3020
E-mail: nce1@pitt.edu
http://publichealth.pitt.edu/hugen
Admission

http://www.hgen.pitt.edu/admissions.php

In addition to meeting the Graduate School of Public Health's general admission requirements, applicants to the MS and PhD programs should have completed courses in calculus and genetics. For the Genetic Counseling program, the preferred undergraduate background includes courses in each of the following: genetics, organic chemistry-general biochemistry, calculus, statistics, and a behavioral or social science. In some cases, deficiencies can be made up after admission. For applicants to the MPH program, these courses are suggested but not required. For information on admission and registration contact the Department of Human Genetics at 412-624-3066 or nce@pitt.edu.

Financial Assistance

Financial aid in the form of graduate student assistantships is often available for PhD students. For other degree programs, aid is not usually available, although it is often possible to arrange for hourly wage/stipend support from research mentors or other faculty.

Major Educational Areas and Programs

Courses offered by the department address the areas of human population and quantitative genetics, biochemical and molecular genetics, cytogenetics, bioinformatics, genome sequence analysis, public health genetics, and genetic counseling. In addition, courses aimed at genetic counseling students provide training in clinical genetics, cytogenetics/molecular diagnostics techniques, risk communication, counseling, and ethics.

The principle objective of the courses in human genetics is to train students to critically examine the role of genes and genetic variation in determining the distribution of health and disease in the general population.

To achieve this objective, training is provided in both experimental and statistical approaches to the direct detection or estimation of the impact of genes on the health of individuals, families and populations. Such approaches include the evaluation of the relative roles of genetic and environmental factors and their interaction in determining the distribution of disease in the population. The department offers degree programs in three areas: human genetics (MS, PhD), genetic counseling (MS), and Public Health Genetics (MPH)

Human Genetics-PhD and MS

This area is concerned with the study of the mechanisms of genetic variability and its impact on health at the individual and population level. An important component is the study of the fraction of genetic variability that leads directly to disease or determines an individual's susceptibility to diseases caused by pathogens or adverse environments.

A PhD track in human genetics with an emphasis on genetic counseling is available to applicants with three to five years of work experience as a genetic counselor and who are certified in genetic counseling by the American Board of Genetic Counseling (ABGC) or the American Board of Medical Genetics (ABMG).

Genetic Counseling-MS

The objectives of the program are:

To provide a balanced program of study integrating courses in molecular genetics, medical genetics, and psychosocial and multicultural counseling including biomedical ethics.

To provide extensive direct patient contact experience in a variety of clinical placements so that the student gains an appreciation of how the practicing genetic counselor functions in different work settings.

To prepare students at the Master of Science level for entering the profession of genetic counseling and assuming the role of a professional in medical, research, and academic settings.

This is a full-time, two-year program. Course work occurs in the first year and is followed by a ten-month clinical rotation at nearby hospitals. The clinical internship involves laboratory experience and direct patient contact.
Public Health Genetics-MPH

The MPH program integrates genetics and the public health science disciplines of epidemiology, biostatistics, environmental health, and health services research, focusing on phenotypic disease prevention in populations.

Research

Research in the Department of Human Genetics includes studies of basic genetic mechanisms of segregation and recombination; family and population studies of normal and disease phenotypes; chromosome structure and chromosomal mechanisms in disease; physical and genetic mapping of genes; interaction of genes with the environment; bioinformatics and sequence analysis; assessment of genetic risk; community outreach regarding genetics; educational projects for the public health care professionals; the process of genetic counseling including decision making, communication, and satisfaction with clinical service; and the detection of genetic disease. Application of this research is explored with research in ethics, genetic counseling and screening. The focus of faculty research is on human genetics but includes experimental studies in appropriate non-human animals and methodological work in statistical genetics.

Master's

Genetic Counseling, MS

The Genetic Counseling Graduate Program at the University of Pittsburgh is committed to providing cutting edge training in the complex science of genetics while fostering a strong foundation in counseling. This unique program is constantly evolving to ensure the continued success of graduates entering a dynamic workforce. Each year between 10 and 12 students are welcomed into the incoming class to be trained by world-renowned faculty. The Genetic Counseling Program is grounded in three important elements: scientific training in human genetics and genomics, comprehensive clinical experience, and understanding the psychological and social aspects of counseling—with an added focus on integrating up to the minute discoveries in genetics and genomics as well as valuable concepts from other academic disciplines.

The Genetic Counseling Program is fully accredited by the Accreditation Council for Genetic Counseling (ACGC). Our comprehensive program helps students to achieve and often surpass the practice based competencies outlined by the ACGC.

Please explore our website (http://www.publichealth.pitt.edu/gcprogram) to learn more about what sets our program and our graduates apart! We hope you will consider joining our challenging and exciting program.

CORE VALUES

The University of Pittsburgh Genetic Counseling Program's core values are:

- **Speak with Integrity and Compassion** - We are committed to honesty, transparency and respect in every interaction.
- **Commit Everyday** - We take personal responsibility to achieve excellence in everything we do.
- **Reach Out** - We embrace collaboration and partnership to enhance professional possibilities
- **Embrace the Unknown** - We believe that curiosity leads to lifelong learning.
- **Be Bold** - We are inspired by innovation and change.

Required Human Genetics Courses

A minimum total of 38 credits is required for the M.S. in Genetic Counseling.

- HUGEN 2022 - HUMAN POPULATION GENETICS
- HUGEN 2025 - HUMAN GENETICS SEMINAR
  (must be taken two times)
- HUGEN 2031 - CHROMOSOMES AND HUMAN DISEASE
- HUGEN 2032 - GENETIC TECHNIQUES
School Core Course Requirements

BIOST 2041 - INTRO TO STATISTICAL METHODS 1  
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY  
PUBHILT 2011 - ESSENTIALS OF PUBLIC HEALTH  
PUBHILT 2022 - THE DEAN'S PH GRAND ROUNDS  
(must be taken for the first two semesters)

Clinical Rotations

Genetic counseling students have the opportunity to participate in patient care at world-renowned medical facilities. They typically see 200 cases or more and are exposed to a variety of genetic referral types as well as diverse medical systems.

Rotation schedules are divided into 11 blocks, with each block lasting three to four weeks. All students will spend three blocks in Cancer genetics, three blocks in Prenatal genetics, three blocks in Pediatric genetics and one block in Adult genetics. In addition, students spend three to four weeks (one block) at an optional rotation site. This allows students the opportunity to select specific training experiences to develop a higher level of expertise based on their interests.

Thesis Project

Designing, conducting, and interpreting research studies are important skills for success as a genetic counselor. The completion of a thesis project is an integral component of a student's education in the Pitt Genetic Counseling Program. The thesis project allows students to understand the research process, develop their research skills, and collaborate with faculty across diverse disciplines.

Students are encouraged to develop a project according to their interests and research goals. Many previous students have published their thesis projects in peer-reviewed journals and have presented their research at conferences both nationally and internationally.

Human Genetics, MS

The Master of Science program in human genetics prepares students for careers as contributing members of genetics and genomics research teams in academia or industry. Graduates of the program often go on to PhD level study and become independent scientists. The flexible curriculum provides a broad background in the field while allowing customized emphasis on laboratory genetics or genetic data analysis. In addition to core coursework and advanced classes in a chosen area of concentration, MS students pursue mentored research projects culminating in the production and defense of a thesis. The Master of Science program is accredited by the Council for Education on Public Health (CEPH).

MS Program Requirements

COMPETENCIES

The goal of the Master of Science program is to prepare students for careers as contributing members of genetics and genomics research teams in academia or industry. Toward this end, students will gain proficiency in the knowledge, skills, and abilities required to begin a career as a scientist.
These educational goals are organized into six MS program competencies. After successful completion of the Master of Science program, students will be able to:

Describe basic genetic mechanisms and how they affect proteins, chromosomes, cells, individuals, and populations of organisms in normal and disease states

Describe mechanisms by which genes and the environment interact to affect the distribution of health and disease in human populations

Demonstrate familiarity with a broad range of molecular, clinical, and analytical methodologies for genetic studies, and demonstrate mastery of a subset of methods

Analyze published research in human genetics

Use their in-depth experience with a specific research project in genetics to generate and test research hypotheses, design experiments, analyze data, and interpret research results

Summarize and present a research project orally and in writing

**COURSEWORK**

Coursework for MS students is typically undertaken during the first year in the program, although advanced courses may be taken in the second year. All MS students will complete the core Human Genetics courses as well as the core Public Health curriculum. Advanced courses offered through Human Genetics and other departments will provide students instruction in their chosen area of concentration. Certificate programs offered through the Graduate School of Public Health can be pursued to further customize the education of MS students.

**Required Human Genetics Courses**

- HUGEN 2021 - SPECIAL STUDIES  
  2 credits minimum
- HUGEN 2022 - HUMAN POPULATION GENETICS
- HUGEN 2025 - HUMAN GENETICS SEMINAR  
  (must be taken two times)
- HUGEN 2028 - HUGEN JOURN CLUB & PEER REVW  
  *MS students must make at least one Journal Club presentation during the course of their degree program.
- HUGEN 2031 - CHROMOSOMES AND HUMAN DISEASE
- HUGEN 2034 - BIOCHEM MOLEC GENET CPLX DS
- HUGEN 2040 - MOL BASIS OF HUMN INHERITED DS

**School Core Course Requirements**

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BIOST 2042 - INTRO TO STATISTICAL METHODS 2
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- PUBHILT 2011 - ESSENTIALS OF PUBLIC HEALTH
- PUBHILT 2022 - THE DEAN'S PH GRAND ROUNDS  
  (must be taken for the first two semesters)
- PUBHILT 2030 - RESEARCH ETHICS

**Public Health Genetics, MPH**

This MPH program integrates genetics and the public health science disciplines of epidemiology, pathobiology, biostatistics, environmental health, and health services research, with ethics, social sciences, public affairs, economics and law. Public health genetics focuses on phenotypic disease prevention in populations, not just individual patients and their families. It addresses society's legal, ethical, financial, regulatory, and organizational responsibilities in offering genetic services, and devising environmental and occupational interventions to prevent disease in populations.
MPH Requirements

The MPH in Public Health Genetics curriculum is designed to give students a strong knowledge base in Human Genetics with a broad understanding of the field of public health. Through the coursework, students are immersed in current topics in human genetics, public health, and the ethical, legal and social issues important to the field of public health genetics. The curriculum, practicum experience, and public health essay focus on the development of skills that are desirable to employers after graduation including critical thinking, scientific writing, and statistical analysis.

A minimum of 47 credits is required for the M.P.H. This total is made up of school core courses, a core of required courses in the department of Human Genetics, and electives relevant to the student's program goals. The entire program can be completed in 1 1/2 years, although most students prefer to spread it out over two years. There is also the option to complete the program on a part-time basis.

The MPH in Public Health Genetics course schedule can be customized to meet individual student goals, interests, and circumstances.

Required Human Genetics Courses

- HUGEN 2022 - HUMAN POPULATION GENETICS
- HUGEN 2025 - HUMAN GENETICS SEMINAR
  (must be taken two times)
- HUGEN 2034 - BIOCHEM MOLEC GENET CPLX DS
- HUGEN 2040 - MOL BASIS OF HUMN INHERITED DS
- HUGEN 2049 - INTRO PUBLIC HEALTH GENETICS
- HUGEN 2050 - PUBLIC HEALTH GENETICS PRACTCM
- HUGEN 2051 - INBORN ERRORS OF DEVELOPMENT

School Core Course Requirements

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BCHS 2509 - SOCL BEHRL SCI & PUBLC HLTH
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- HPM 2001 - HLTH POLC & MGT IN PUBLC HLTH
- PUBHLT 2015 - PUBLIC HEALTH BIOLOGY
  *Students in the Public Health Genetics program with adequate prior background may apply to be exempted from the requirements to take PUBHLT 2015. Most students do this.
- PUBHLT 2016 - CAPSTONE:PROBLEM SOLVING IN PH
- PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS
  (must be taken for the first two semesters)

Public Health Essay and Practicum

Students must write a master's essay, which may be based on the practicum experience or on another topic related to public health genetics. All essays must include analysis of data. The essay topic must be approved by the Director of the M.P.H. in Public Health Genetics program. The essay is read and approved by an M.P.H. Essay Committee that must consist of at least one of the Public Health Genetics faculty members in Human Genetics and one from outside the department. The M.P.H. Essay Committee must be approved by the Office of Student Affairs. The essay must be approved by unanimous vote of the committee.

All students in the MPH in Public Health Genetics program are required to complete a Practicum. The Practicum is a supervised practice experience of at least 200 hours, providing students an opportunity to learn how genetics is applied in a public health setting and in the formulation and application of public health policy. MPH students are encouraged to seek out opportunities that fit their interests and goals with guidance provided by program leadership. Students may choose to complete their practicum in the city of Pittsburgh or in a location outside of the city. Many students will complete the practicum during their summer semester, but scheduling is flexible based on student needs.

Doctoral
Human Genetics, PhD

The doctoral program in human genetics prepares students for careers leading genetics and genomics research in academia or industry. The flexible curriculum provides a broad background in the field while allowing customized emphasis on molecular genetics/genomics, statistical genetics and genetic epidemiology, or genetic counseling. Typically four to ten doctoral students are admitted each year, including external applicants and internal applicants currently pursuing Master's degrees within the department. In addition to core coursework and advanced classes in a chosen area of concentration, doctoral students pursue mentored research projects culminating in the production and defense of a dissertation. The doctoral program is accredited by the Council for Education on Public Health (CEPH).

AREAS OF STRENGTH

The doctoral program offers training in molecular genetics, statistical genetics and genetic epidemiology, and genetic counseling. This includes advanced coursework and outside-of-the-classroom training and research experiences. For example, during the second year and beyond, doctoral students will choose advanced courses in Human Genetics and elective courses across the Schools of the Health Sciences pertaining to their area of interest. Across all years, students will participate in workshops, laboratory meetings, and scientific conferences, and attend seminars offered to the University community, that enhance knowledge and skills in their chosen area of study. Research experiences including dissertation research will provide in-depth, hands-on training in the chosen area.

Students entering the doctoral program can tailor their training based on their research interests and career goals:

Molecular Genetics

Students pursuing training in molecular genetics or cytogenetics will carry out research projects performing benchtop experimental studies in laboratories within the department or across the Schools of the Health Sciences. Students can further customize their training by choosing among many elective courses in Cell Biology and Molecular Physiology, Cellular and Molecular Pathology, Immunology, Molecular Genetics and Developmental Biology, Molecular Pharmacology, and Molecular Virology and Microbiology.

Statistical Genetics and Epidemiology

Students pursuing training in statistical genetics and genetic epidemiology will carry out applied analysis or methodological research projects related to clinical or epidemiological studies. Students will work as members of statistical and computational research groups within the department or across the School of the Health Sciences. Students can further customize their training by choosing advanced coursework in Biostatistics, Biomedical Informatics, Computational and Systems Biology, and Epidemiology.

Genetic Counseling

Students holding a MS-GC degree who wish to pursue a doctoral degree with a focus in genetic counseling will carry out original research in their area(s) of interest. In addition to addressing basic science or clinical research questions, students' projects will explore the medical, psychological, and familial implications of genetic contributors to human health and disease. Students can further customize their training by choosing elective courses from across the Schools of the Health Sciences in consultation with the Director and Assistant Director of the Genetic Counseling Program.

DOCTORAL COMPETENCIES

The goal of the doctoral program is to prepare students for careers leading genetics and genomics research in academia or industry. Toward this end, students will gain proficiency in the knowledge, skills, and abilities required to begin a career as an independent scientist. These educational goals are organized into eight doctoral program competencies. After successful completion of the doctoral program, students will be able to:

- Describe basic genetic mechanisms and how they affect proteins, chromosomes, cells, individuals, and populations of organisms in normal and disease states
- Describe mechanisms by which genes and the environment interact to affect the distribution of health and disease in human populations
- Demonstrate familiarity with a broad range of molecular, clinical, and analytical methodologies for genetic studies, and demonstrate mastery of a substantial subset of methods
- Analyze published research in human genetics at the level needed for effective research and teaching
- Use their in-depth experience with a specific research project in genetics to generate and test research hypotheses, design experiments, analyze data, and interpret research results
- Communicate their own research ideas and results, orally and in publishable written form
- Apply fundamental principles of grant-writing

1287
Apply fundamental principles of laboratory and research program management, and of ethical practice

VALUES

Integrity: Commit to honest and ethical conduct in research and scholarship

Scientific Rigor: Dedicate to excellence in the pursuit of knowledge

Cooperation: Commit to collaboration, mentorship, and academic-private partnerships

Collegiality: Respect independence of thought

Cultural Competency: Embrace diversity; respect and value differences and individuality

Required Human Genetics Courses

COURSEWORK

Coursework for doctoral students is typically undertaken during the first two years in the program, although advanced courses may be taken in later years. All doctoral students will complete the four core Human Genetics courses as well as the core Public Health curriculum. Advanced courses offered through Human Genetics and other departments will provide students instruction in their chosen area of concentration. Certificate programs offered through the Graduate School of Public Health can be pursued to further customize the education of doctoral students.

A minimum of 72 credits is required.

HUGEN 2022 - HUMAN POPULATION GENETICS
HUGEN 2025 - HUMAN GENETICS SEMINAR
(must be taken four times)
HUGEN 2028 - HUGEN JOURN CLUB & PEER REVW
HUGEN 2031 - CHROMOSOMES AND HUMAN DISEASE
HUGEN 2034 - BIOCHEM MOLEC GENET CPLX DS
HUGEN 2040 - MOL BASIS OF HUMN INHERITED DS

Human Genetics Research Credits, under one or both of the following courses designations:

HUGEN 2021 - SPECIAL STUDIES Variable
HUGEN 3010 - RESEARCH & DISSERTATION PH.D. Variable

*In addition, two advanced courses are required, one of which must be HUGEN 2029 or HUGEN 2070, and the other must be HUGEN 2051 or HUGEN 2080. Students may select another advanced course with permission of the Graduate Director.

Advanced Human Genetics Courses

HUGEN 2029 - INTRODUCTION TO GENE MAPPING
HUGEN 2051 - INBORN ERRORS OF DEVELOPMENT
HUGEN 2070 - BIOINF FOR HUMAN GENETICS
HUGEN 2080 - STATISTICAL GENETICS

School Core Course Requirements

BIOST 2041 - INTRO TO STATISTICAL METHODS 1
BIOST 2042 - INTRO TO STATISTICAL METHODS 2
EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
PUBHLT 2011 - ESSENTIALS OF PUBLIC HEALTH
PUBHLT 2022 - THE DEAN'S PH GRAND ROUNDS

(must be taken for the first two semesters)
PUBHLT 2030 - RESEARCH ETHICS

Certificate
Public Health Genetics Certificate

Advances in genetics are occurring at a pace that challenges our collective ability to respond to the many social, legal, ethical, and public health policy implications generated by this revolution of knowledge. Consequently, there is a compelling need to prepare future public health professionals in the biology, technology, applications, responsibilities, and issues of genetics information, which will play an increasing role in our understanding of health and disease. All areas of public health can be improved and expanded by examining the role of genetics in public health issues.

The purpose of the Certificate in Public Health Genetics is to provide graduates with a basic grounding in public health genetics that will enable them to function as public health professionals at the cutting edge of this important new area. Students enrolled in this certificate program are trained to incorporate knowledge of how genes, together with the environment and behavior, influence health and apply this insight into their area of practice or research. Students will be able to...

- Demonstrate basic knowledge
- Identify ethical, legal, medical, and/or societal limitations to genetic testing
- Identify the role of cultural, social, behavioral, environmental, and genetic actors in development and prevention of genetic-related diseases

Certificate Requirements

The curriculum consists of 15 credits, of which at least 12 must be traditional classroom courses. The remaining three credits can be seminar, project, or practicum work.

All students receiving the certificate must give one presentation at the Human Genetics Journal Club, regardless of whether they register for the journal club course for credit.

Other courses must be approved by the director of graduate studies for the Department of Human Genetics.

Students enrolled in Human Genetics degree programs other than the MPH in Public Health Genetics may receive the certificate, with the stipulation that the certificate curriculum must include at least six credits of coursework that is not part of the coursework for their degree. These six credits will consist of the Public Health Genetics course and at least 3 additional credits of work that is specifically focused on ethics or public health genetics (as opposed to the basic science of genetics), such as a practicum, a biomedical ethics course, or the Clinical Genetics Case Conference course.

1) All students must take:
   HUGEN 2049 - INTRO PUBLIC HEALTH GENETICS

2) Students must take at least two of the following four courses to achieve competency in the basic science of genetics.
   HUGEN 2022 - HUMAN POPULATION GENETICS
   HUGEN 2031 - CHROMOSOMES AND HUMAN DISEASE
   HUGEN 2034 - BIOCHEM MOLEC GENET CPLX DS
   HUGEN 2040 - MOL BASIS OF HUMN INHERITED DS

3) A maximum of 3 credits may come from the following courses.
   HUGEN 2026 - SPECIAL STUDIES HUMAN GENETICS
   HUGEN 2028 - HUGEN JOURN CLUB & PEER REVW
   HUGEN 2047 - CLIN GENETICS CASE CONFERENCE

4) Additional courses permitted for the certificate include the following.
   EPIDEM 2601 - MOLECULAR EPDMLGY LABORTRY
   BCHS 2572 - RISK COMMUNICATION
   *Other courses must be approved by the Director of Graduate Studies for the Department of Human Genetics. Please note that HUGEN 2028 can be taken more than once.

Competencies

Graduates will be able to:

- Demonstrate basic knowledge of the role that genetics plays in the development of disease
- Identify the limits of his/her genetic expertise and make appropriate referrals to those with more genetic expertise
- Identify interactions among genes, environmental factors, and behaviors and their effects on public health

- Evaluate how genetic principles/technologies apply to diagnosis, screening, and interventions for disease prevention and health promotion programs, and how they intersect with other public health disciplines.

**Joint Degree**

**Genetic Counseling and Public Health Genetics Dual-Degree Program, MS/MPH**

The University of Pittsburgh established the MPH in Public Health Genetics and MS in Genetic Counseling dual degree program in 2004, which was the first program of its kind to be offered to students pursuing a genetic counseling degree. The dual degree program enables students to build upon the clinical skills that they acquire through the Genetic Counseling Program to understand the importance of genetics, genomics, and genetic counseling in the field of public health.

Given the rapid expansion of available genetic and genomic testing, the current focus on precision medicine, and the increasing interest of national organizations, state public health offices, and hospitals in the application of genomics to public health, there is a growing need for professionals with skills in both disciplines. Graduates of the dual degree program are well-prepared to integrate public health genetics into clinical, research, public health, and industry settings. The dual degree program also benefits students by broadening their areas of expertise and career qualifications in other areas of public health including program development, evaluation, and policy.

There are a variety of options for completing the dual degree, which depend in part on the timing of the student entering the program. However, most students are able to complete the dual degree program in 22 months, which is one additional summer session beyond the typical completion time for the MS in Genetic Counseling degree program.

More information regarding the program can be found here: [http://www.publichealth.pitt.edu/human-genetics/academics/joint-degrees/dual-mph-ms-genetic-counseling](http://www.publichealth.pitt.edu/human-genetics/academics/joint-degrees/dual-mph-ms-genetic-counseling)

**Dual-Degree Course Requirements**

Students interested in both genetic counseling and public health genetics can pursue both degrees in a combined 62-credits (2.5 to 3 year) program. All requirements for each individual program must be completed.

All required courses for both degrees must be taken by dual degree students, with the exception of PUBHLT 2011, Essentials of Public Health. Given that some of the curriculum overlaps, the dual degree requires the completion of 62 credits. In addition to completing all of the requirements for the MS in Genetic Counseling degree, students enrolled in the dual degree will take an additional seven courses and fulfill the MPH practicum and MPH essay requirements.

The schedule below illustrates one possible schedule that would allow students to complete the Dual Degree Program in 22 months. Schedules are discussed on an individual basis with the Program Directors of the MPH in Public Health Genetics and MS in Genetic Counseling Programs.

**Required Human Genetics Courses**

- HUGEN 2022 - HUMAN POPULATION GENETICS
- HUGEN 2025 - HUMAN GENETICS SEMINAR
  (Must be taken two times)
- HUGEN 2031 - CHROMOSOMES AND HUMAN DISEASE
- HUGEN 2032 - GENETIC TECHNIQUES
- HUGEN 2034 - BIOCHEM MOLEC GENET CPLX DS
- HUGEN 2035 - PRINCIPLES OF GENETIC COUNSLNG
- HUGEN 2036 - GENETIC COUNSELING INTERNSHIP
- HUGEN 2038 - INTERVNTN SKILL GENETIC CNSLG
- HUGEN 2039 - RISK CALCULATION GENETIC CNSLG
School Core Course Requirements

- BIOST 2041 - INTRO TO STATISTICAL METHODS 1
- BCBS 2509 - SOCL BEHVRL SCI & PUBLIC HLTH
- EPIDEM 2110 - PRINCIPLES OF EPIDEMIOLOGY
- EOH 2013 - ENVIRONMENTAL HEALTH & DISEASE
- HPM 2013 - FINANCL MGT HLTH CRE ORGNIZTN
- PUBHILT 2015 - PUBLIC HEALTH BIOLOGY
  (Students in the Public Health Genetics program with adequate prior background may apply to be exempted from the requirement to take
  PUBHILT 2015. Most students do this)
- PUBHILT 2016 - CAPSTONE: PROBLEM SOLVING IN PH
- PUBHILT 2022 - THE DEAN'S PH GRAND ROUNDS
  (Must be taken for the first two semesters)

Thesis and Essay

Students in the dual degree program will complete both the thesis requirement for the MS in Genetic Counseling degree and the Essay requirement for the MPH in Public Health Genetics degree. Depending on the thesis and essay topics, sometimes these documents can be combined into one document comprising the student's thesis project with additional background on public health genetics relevance and, at least, one additional, extensive chapter focusing on an application of public health genetics. The student's thesis committee and the Program Director for the MPH in Public Health Genetics will work with the student to identify the additional components or topics that are needed to satisfy the MPH Essay requirement.

Human Genetics and Medicine, PhD/MD

The joint MD/PhD program is a unique arrangement between the Department of Human Genetics and the Medical Scientist Training Program (MSTP), a collaboration between the University of Pittsburgh and Carnegie Mellon University. The program provides the opportunity for students to undertake a physician-scientist training program tailored to specific research interests, provided by the wide range of research that primary and secondary Human Genetics faculty are involved in within Pitt Public Health and the University of Pittsburgh School of Medicine.

Students in this program begin by completing two years of the MD program in the School of Medicine. Then they come to Pitt Public Health for three years to complete the PhD program. Students then return to the School of Medicine to finish the last two years of medical training.

The required core curriculum for the joint PhD/MD program is the same as the requirements for the PhD in Human Genetics.

Department of Infectious Diseases and Microbiology

The mission of the Department of Infectious Diseases and Microbiology is to conduct research, teaching, and service that will enhance the control of infectious diseases in the human population. Our goals to accomplish this mission include:

- Research programs that focus on understanding the mechanisms of pathogenesis of microbial infections at the cellular and molecular level as they relate directly to developing methods for disease prevention and treatment.
- Integrated teaching programs that are devoted to the education and training of graduate students in various molecular, immunologic and biologic aspects of microbial pathogenesis, as well as disease control and prevention.
- Programs that focus on population-based education and prevention for control of infectious diseases.
We have a commitment to high quality graduate education that is consistent with our leading cutting-edge research and behavioral health and community education programs. The degree programs draw upon the disciplines of molecular biology, immunology, epidemiology, medicine, health education, and community intervention to provide our students with opportunities to participate in cross-disciplinary research into multiple aspects of infectious diseases. As a graduate of our program you will be prepared for careers in academia, industry, government, and community service sectors. Our graduates have obtained professional positions with prestigious employers in the USA and worldwide. Examples include the National Institutes of Health, the Centers for Disease Control and Prevention, state and local health departments, pharmaceutical companies, hospitals, and major universities and other academic institutions.

The Department offers Master of Public Health (MPH), Doctor of Philosophy (PhD), and Master of Science (MS) degree programs. Students in the MPH program can pursue one of two concentrations: Infectious Disease Pathogenesis, Eradication, and Laboratory Practice (PEL) or Infectious Disease Management, Intervention, and Community Practice (MIC).

Contact Information

412-624-3331
idm@pitt.edu

For more information on admissions and registration contact the department at 412-624-3331 or idm@pitt.edu.

Admission

Admission to all of our graduate programs is for the fall semester only. Your application will be evaluated based on your undergraduate academic performance, Graduate Record Exam (GRE) test scores, letters of recommendation, relevant research or professional experience and personal statement.

The application deadline for admissions for the fall of 2017 is January 15, 2017. The IDM Graduate Admissions Committee strongly recommends that you submit all materials by this deadline to ensure prompt review.

Application materials, as well as tips for submitting materials on time, are available on the IDM web site www.idm.pitt.edu.

Early admission into the MS or MPH program

Outstanding applicants who are enrolled in an undergraduate program at the University of Pittsburgh may apply for early admission if they meet the following requirements as defined on Pitt Public Health's web site.

Financial Assistance

Financial support (through stipends and tuition waives) is available for full-time doctoral students. A limited number of partial scholarships are available to outstanding new MS and MPH students.

Master's

Infectious Diseases and Microbiology, MPH
MPH Program Requirements:

Students complete the MPH program with 42 credits of coursework, a practicum, and a written thesis/essay. Most students complete the MPH program within one and half to two years. For an up-to-date list of required courses and rules for other requirements, please see the IDM Handbook. Coursework and other requirements for both Infectious Disease Pathogenesis, Eradication, and Laboratory Practice (PEL) and Infectious Disease Management, Intervention, and Community Practice (MIC) concentrations are available in this handbook.

Infectious Diseases and Microbiology, MS

MS Program Requirement:

Students complete the MS program with 36 credits of coursework, a comprehensive exam, and a thesis defense. Most students complete the MS program within two years. For an up-to-date list of required courses and rules for other requirements, please see the IDM Handbook on the MS webpage.

Examination: Comprehensive Examination at the end of the first two terms

Thesis Overview: Usually within five to six months after completion of the comprehensive examination

Thesis Defense: Final oral examination in defense of the thesis by the thesis committee

MS Program Requirements: The required courses for the MS degree are available on the IDM Degrees Web page at: www.idm.pitt.edu/.

Doctoral

Infectious Diseases and Microbiology, PhD

PhD Program Requirements:

Students complete the PhD program with 72 credits of coursework, a preliminary exam, comprehensive exam, dissertation overview, a first author publication, and a dissertation defense. Most students complete the PhD program within five-six years. For an up-to-date list of required courses and rules for other requirements, please see the IDM Handbook on the PhD webpage.

Qualifying (Preliminary) Examination: At the end of the first year.

Comprehensive Examination: At the end of the second year.

Dissertation Overview: A dissertation committee is formed usually within nine months after completion of the comprehensive examination to approve the proposed topic for the student's research.

School of Social Work

The School of Social Work, successor to the Division of Social Work in the Department of Sociology of the University, was founded in September 1918. The school shares with the University a commitment to the advancement and application of knowledge. Students in Pitt's School of Social Work learn the knowledge, skills, and values to engage in culturally competent practice with diverse populations and communities. They learn to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques, and to advocate for those who confront barriers to fulfilling their potential.

The school's students and faculty members also engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems. In addition, school students, alumni, and personnel serve local, national, and international communities by developing and participating in collaborations with social agencies, community-based organizations, government, and foundations.

The mission of the School of Social Work is to advance knowledge and to apply that knowledge for the fulfillment of human potential through the prevention and amelioration of social problems. The school is committed to promoting the values of social and economic justice. Recognizing the complexities of contemporary society, the school dedicates itself through its educational, research, and public service activities to advocating for a society that respects the dignity and achievement of all individuals, families, and communities.

In furtherance of its mission, the School of Social Work strives to:

- Educate professional social workers with the knowledge, skills, and values needed to engage in culturally competent practice with diverse populations and communities; to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques; and to advocate for those who confront barriers to maximizing the achievement of their fullest potential.
- Engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems.
- Provide service to local, national, and international communities through the development of and participation in collaborations with social agencies, community-based organizations, government, and foundations.

The school offers a full continuum of social work educational programs at the undergraduate, master's, and doctoral levels (as well as a continuing education program for practicing social workers). The school's bachelor's and master's programs in social work are accredited by the Council on Social Work Education, and graduates are eligible for full membership in the National Association of Social Workers.

Degree Options

The School of Social Work offers the Master of Social Work (MSW) and the Doctor of Philosophy (PhD) degrees. MSW students may combine their degree work with course work leading to a certificate. In addition, the School of Social Work has joint and cooperative degree options with other schools in the University as well as external institutions. The degree options include:

Master of Social Work

http://www.socialwork.pitt.edu/academics/master-social-work-msw

- Skill Concentrations (one is required)
  - Direct Practice with Individuals, Families, and Groups
  - Community, Organization, and Social Action (COSA)
- Direct Practice Certificate Programs
  - Gerontology Certificate
  - Home and School Visitor/School Social Worker Certificate
  - Children Youth and Families Certificate
  - Mental Health Certificate
  - Integrated Healthcare Certificate
- Community, Organization, and Social Action (COSA) Certificate Programs:
  - Human Services Management Certificate
**Doctor of Philosophy**

http://www.socialwork.pitt.edu/academics/doctorate-social-work-phd

**Joint and Cooperative Degrees**

http://www.socialwork.pitt.edu/academics/msw/dualjoint-cooperative-degrees

**MSW**
- Master of Social Work/Master of Divinity
- Master of Social Work/Master of Public Administration
- Master of Social Work/Master of Public and International Affairs
- Master of Social Work/Master of International Development
- Master of Social Work/Doctor of Philosophy (PhD) in Social Work
- Master of Social Work/Master of Public Health
- Master of Social Work/Juris Doctorate
- Master of Social Work/Certificate of Advanced Study in Teaching

**PhD**
- Master of Social Work/Doctor of Philosophy (PhD) in Social Work
- Master of Public Health/Doctor of Philosophy (PhD) in Social Work

Specific details regarding course requirements are described in this bulletin and on the School of Social Work Web site and in the Student Handbook.

**Admissions**

Admission to the MSW and PhD programs is for fall term (September) only. Applicants seeking full-time or part-time admission should submit the application far in advance of their expected entry into the program; all application materials are due no later than April 30 for the MSW program and December 31 for the PhD program of the year in which entry is expected. Applications are reviewed only upon receipt of all required materials. Application forms are available from:

School of Social Work
Office of Admissions
2104 Cathedral Of Learning
412-624-6302
E-mail: sswadmissions@pitt.edu
www.socialwork.pitt.edu/admissions/

Online applications are accepted via the MSW or PhD sections of our website located at http://www.socialwork.pitt.edu

For more specifics on admissions requirements for the MSW or the PhD, consult the description of the relevant degree program.

**Admission of Students from Other Countries**

The School of Social Work welcomes applications from students in other countries whose credentials meet the requirements and the standards of the School of Social Work and the Office of International Services of the University.

MSW and PhD applicants from other countries must apply directly to the School of Social Work. Applicants must submit the completed application form, additional required forms, and other required materials in English. Additional University of Pittsburgh application procedures for international students are described at www.umc.pitt.edu/bulletins/graduate/application.htm. Other information and assistance for international students can be found online at www.ois.pitt.edu/intladmissions.html.
For MSW applicants only: International students who hold a baccalaureate degree in social work from a program that is not accredited by the Council on Social Work Education and who are interested in obtaining advanced standing credit must submit their transcript to the council for a determination of equivalency. Further Information can be found online at www.cswe.org.

**Financial Assistance**

Students interested in financial assistance to meet tuition and/or living costs should direct inquiries to both the Office of Admissions of the School of Social Work and the University's Office of Admissions and Financial Aid.

Students should be advised that limited resources often preclude any one funding source from granting awards that meet total financial needs. As a result, students are strongly encouraged to seek financial aid packages consisting of partial awards (including loans and scholarships) from a variety of sources, including the Office of Admissions and Financial Aid in Alumni Hall (412-624-PITT) and the School of Social Work Financial Aid Sources, Office of Admissions, Room 2104 Cathedral of Learning (412-624-6302; http://www.socialwork.pitt.edu/admissions-aid/financial-aid. See also the University-wide information on Financial Aid.

Applications for financial assistance are accepted only after an admissions decision has been made. Awards are made for a one-year period. New applications are required for each succeeding period.

**Academic Standards**

The School of Social Work's expectations for student and faculty conduct are described in school policies and embody the standards of professional social work. Students in the School of Social Work are required to adhere to the NASW Code of Ethics.

**Academic Review Policy**

The school maintains an academic review policy that applies to all degree students in the school and that seeks to ensure academic standards of achievement (i.e., satisfactory performance in the field, satisfactory grades for academic course work, and reasonable rates of progress toward completion of degree requirements). The policy statement on academic review appears in the Student Handbook.

**Academic Integrity Policy**

The school also has an academic integrity policy that applies to all students and faculty members in the school and seeks to ensure that students and faculty members respect the ethical standards expected of them in the performance of their duties and responsibilities. The policy statement on academic integrity appears in the School of Social Work Student Handbook.

**Statute of Limitations for School of Social Work Degrees and Leaves of Absence**

**MSW Program**

There is a four-year limitation on the earning of the MSW degree. The four-year period is counted from the date of entry into the program for four full academic calendar years. Under extenuating circumstances (listed below), an advisor can recommend an extension of time to the MSW program director and the associate dean for academic affairs. If approved, the period of extension and the conditions for completing the program will be recorded in the student's folder, with a copy sent to the student. Extenuating circumstances include the following:

- extended illness of the student,
- extended personal emergency,
- involuntary mobilization into a U.S. military unit,
death of a close family member. Under special conditions, MSW students may be granted one leave of absence. A maximum leave of one full academic year may be granted to master's students. A student wishing to take a leave of absence must submit in advance to the MSW program director a written request that indicates the length and rationale for the leave. The MSW program director and the associate dean for academic affairs will review the request. If approved, the time of the leave will not count against the total time allowed for the degree being sought by the student. Readmission following an approved leave of absence is a formality.

**PhD Program**

There is an eight-year statute of limitations for the completion of the PhD for students who enter with an MSW and who are not pursuing an MPH. There is a 10-year statute of limitations for students in the MSW/PhD program or the MPH/PhD program. Course work and the comprehensive examinations should be completed within three years and the dissertation within five. Under exceptional circumstances, a candidate for the PhD may apply for an extension of the statute of limitations. Requests for an extension of the statute of limitations must be submitted to the doctoral program director and must be approved by the doctoral committee and the dean. The request must be accompanied by a program assessment of the work required of the student to complete the degree and evidence of the extenuating circumstances leading to the requested extension. Students who request an extension of the statute of limitations must demonstrate proper preparation for the completion of all current degree requirements.

Under special conditions, doctoral students may be granted one leave of absence. A maximum leave of two academic calendar years may be granted to doctoral students. A student wishing to take a leave of absence must submit in advance to the doctoral program director a written request that indicates the length and rationale for the leave. The doctoral program director and the associate dean for academic affairs will review the request. If approved, the time of the leave will not count against the total time allowed for the degree being sought by the student. Readmission following an approved leave of absence is a formality.

**NASW Code of Ethics**

Professional ethics are at the core of social work. The profession has an obligation to articulate its basic values, ethical principles, and ethical standards. The NASW Code of Ethics sets forth these values, principles, and standards to guide social workers' conduct. The Code is relevant to all social workers and social work students, regardless of their professional functions, the settings in which they work, or the populations they serve. The NASW code of ethics can be viewed online at www.naswdc.org/pubs/code/default.asp.

**Advising**

Students are assigned a faculty advisor at the beginning of the student's matriculation into the MSW or PhD program. Students in the MSW program are assigned an advisor from among the faculty and professional staff. The assignment is made by the MSW program director and remains in effect until changed after a request by an advisor or advisee, as indicated by field assignment or program change, or due to a change in the advisor's assignment.

**Special Academic Opportunities**

The school offers several academic resources and programs for its students, as detailed below:

**Student Participation on School Committees**

Students have opportunities to participate in the governance of the School of Social Work by serving on school committees. Information about the purposes and functions of the committees is distributed during the beginning of each fall term. Through the Office of the Associate Dean for Admissions and Student Affairs, students can volunteer to serve on committees and become full members of those committees.

**Student Executive Council (SEC)**
All degree students in the School of Social Work comprise the membership of the student organization that elects the Student Executive Council. The council concerns itself with student life and serves as a liaison with the administration and faculty.

The Student Executive Council relies heavily on student participation and it endeavors to be of service to the student body. Activities include the publication of a student newsletter, the development of discussion sessions around critical social issues, the provision of opportunities for social action, the participation in planning for orientation, and the planning of a variety of social events.

In addition, SEC members, representing the student body, are appointed to serve in the following organizations and/or committees: Black Action Society; Student Chapter, NASW; Student Chapter, NABSW; Alumni Association (Liaison); BASW Club; and Graduate and Professional Student Association (GPSA).

Buhl Library

The Buhl Library of Social Work is a special collection of books, journals, and other resource materials specifically focused on social work. The Buhl Library is located on the first floor of Hillman Library and is staffed by a full-time social work librarian. Additionally, students at the School of Social Work have full access to the wide range of services provided by the University of Pittsburgh library system.

Program and course Offerings

Master of Social Work Program

The leadership required from social work professionals demands an MSW practitioner who possesses a repertoire of specialized knowledge and skills and whose practice is informed by the values and ethics of the profession. Social workers in the 21st century confront a variety of new challenges, as well as many that have long existed. MSW practitioners, who work with and on behalf of individuals, families, groups, organizations, and communities, are faced with the need to develop innovative interventions in a rapidly changing practice environment. Such new, creative solutions to society's problems will be realized only if social work professionals have had a rigorous and thorough education. The goal of the MSW program is to prepare graduates with the specialized knowledge and skills needed to engage in empirically supported and culturally competent advanced social work practice—either direct practice with individuals, families, and small groups, or community organization and social administration—that reflects the social work profession's values, traditions, and philosophy. To accomplish this goal, the MSW program faculty have identified specific program objectives. Graduates of the MSW program will be able to:

- Demonstrate Ethical and Professional Behavior
- Engage Diversity and Difference in Practice
- Advance Human Rights and Social, Economic, and Environmental Justice
- Engage In Practice-informed Research and Research-informed Practice
- Engage in Policy Practice
- Engage with Individuals, Families, Groups, Organizations, and Communities
- Assess Individuals, Families, Groups, Organizations, and Communities
- Intervene with Individuals, Families, Groups, Organizations, and Communities
- Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

MSW Admissions

http://www.socialwork.pitt.edu

The following section details admissions information particular to applicants to the MSW program.

Persons seeking admission to the Master of Social Work (MSW) program must exhibit the leadership potential and professional capabilities essential to function effectively in the profession and must meet minimum academic requirements. An applicant must meet the following requirements:
A bachelor’s degree from an accredited college or university.
It is recommended that all new applicants have a minimum of a B average (3.00 GPA on a 4.00 scale) in all undergraduate work. Applicants whose GPA is below 3.00 may be considered for admission under provisional status (see http://www.socialwork.pitt.edu/admissions/msw/admission-qualifications).
It is recommended that all MSW applicants have a minimum of 60 undergraduate (or undergraduate plus graduate) credits in the liberal arts, of which 30 credits must be in the social and behavioral sciences and 30 credits must be distributed between the humanities and natural sciences. Course credits are counted from among the following:
- The Humanities: English, fine arts, languages, literature, philosophy, religious studies, speech.
- Social and Behavioral Sciences: anthropology, black studies, child development, economics, geography, history, legal studies, political science, psychology*, social
- Natural Sciences: biology, computer science, mathematics, psychology*, statistics.
*Note: Psychology courses may be counted as either natural or social science credits.
Successful completion of a course in descriptive statistics.
Field and field education credits are not granted in the MSW program for life, volunteer, or employment experience.

Readmission
Persons who were once enrolled as degree students in the graduate program and who have voluntarily withdrawn from the program for more than one year must submit an application for readmission. The application process in these instances is the same as for new applicants. The statute of limitations may prevent the student from applying some graduate credits already completed as progress toward graduation.

Application and Admission Materials
Completed applications include the school online application form, transcripts, three letters of reference, a written statement, a resume, an agreement to participate in field education form and a $40 application fee. Applicants may request an interview, but this is not required. The director of admissions and student affairs may also request an interview.

Applications and other admissions information are available from:
Office of Admissions
School of Social Work
412-624-6302
E-mail: sswadmissions@pitt.edu
Online applications are accepted at:
http://www.socialwork.pitt.edu/admissions/msw/application-process
Application materials may also be downloaded from the School of Social Work Web site or applications may be completed directly online. These materials are available at www.socialwork.pitt.edu/admissions/.

Selection of Skill Concentration
Applicants are required to designate one skill concentration chosen from either Community, Organization, and Social Action (COSA) or Direct Practice with Individuals, Families, and Groups. The appropriateness of the concentration selection is evaluated on the basis of the applicant's resume and written statement. If the applicant is uncertain about which concentration to select, the matter should be discussed with the director of admissions before an application is submitted.

Students indicate in their application to the MSW program the skill concentration they intend to complete. To request a change to these concentrations after beginning the MSW program, students must show that the change would contribute directly to their educational goals and career plans. Students also must be able to demonstrate in a projected plan of study that they will be able to complete all classes and field requirements in the new skill concentration within four years of their date of entry into the MSW program, as specified by the Council on Social Work Education. Such requests should be made and finalized during registration for the second semester of matriculation for full-time students and the third semester of matriculation for part-time students.
Admissions Interview

Admissions interviews may be initiated by the admissions officer of the school in some special circumstance. Decisions on applications for admission are usually made without such an interview. All applicants are welcome to seek information-sharing interviews.

Financial Assistance for MSW Students

Financial assistance for MSW students is very limited. Scholarships and grants (as opposed to loans) are available directly from the School of Social Work and are awarded to full-time graduate MSW students on the basis of academic achievement. The school administers a select number of awards that include both merit and need-based criteria. Each year the School awards merit scholarships to students who have a minimum 4 year GPA of 3.40 (full-time applicants only) and complete their MSW application by the priority admissions deadline of December 31st. Loans are administered by the University's Financial Aid Office. For more information please visit the University's Web site at www.pitt.edu.

Additionally, the Master of Social Work program has a variety of paid field placements that are available on a very limited basis.

MSW Degree Requirements

The MSW curriculum is designed to be a two-year, full-time program. The MSW degree requires the satisfactory completion of a minimum of 60 credits—42 in class work and 18 in field practica—with a minimum GPA of 3.00. Although MSW students must take their required courses for a letter grade, elective courses offered and taken in the graduate program of the School of Social Work may be taken for a letter grade or an H/S/U grade. All graduate field instruction courses shall be taken for S/NC grades. No student will be permitted to graduate with a C, F, or U grade in a required course or an NC grade in the field practicum. Specific requirements for each of the skill concentrations are detailed in the student handbook and on the school's Web page, http://www.socialwork.pitt.edu/academics/policies-handbooks.

MSW Academic Standards: Probation

A student in the MSW program will be placed on academic probation if:

- after completing at least nine (9) quality point credits, the student's cumulative GPA falls below 3.00;
- the student receives a grade lower than a B- in a required course (including the five foundation courses, the required concentration skill courses, the second-level human behavior, policy, and research courses, and any specific courses needed to fulfill specialization or certificate requirements), or
- the student receives an NC grade for field placement (SWGEN 2099, SWINT 2099, or SWCOSA 2099).

The MSW program director will send a letter to the student and the student's advisor notifying them of the student's placement on academic probation. The letter will advise the student and the student's advisor of the date and location of an academic review meeting, to be convened by the MSW program director, to discuss the terms of the student's academic probation. A copy of this letter will be placed in the student's folder.

Depending on the outcome of the meeting, a student placed on academic probation may be required to modify the student's course of study in the MSW program, including changing the academic courses for which the student is registered and/or delaying entry into or suspending field placement.

Part-Time MSW Students

Students pursuing a part-time course of study must complete the MSW degree in four academic years. Part-time students are expected to take their foundation courses (the equivalent of the first fall term for full-time students) on a part-time basis during the first year and then begin concentration courses and field instruction, on either a part-time or a full-time basis. Part-time students who have completed 21 credits of course work must begin their first field placement; enrollment in further courses after 21 credits is contingent on the initiation of the field placement. Part-time students doing field instruction must complete a minimum of 12 clock hours each week, with at least eight of those hours done during the regular work day of the agency. In order to earn their MSW degree in four years, all part-time students must recognize that they will need to enroll for a minimum of two courses per term in each of the three terms during the academic year. The following options are acceptable:

- Two courses (3 credits per course) or
- One course (3 credits) plus a minimum of 3 field credits or
- A minimum of 6 field credits (equivalent to two courses)
Advanced Standing and Exemptions for MSW Course Work

Students entering the MSW program may be granted advanced standing, receive transfer credit, or be exempt from specific course requirements if their coursework was completed within the past 7 years. The definition for each is:

**Advanced Standing** is defined as the awarding of academic credit toward a degree by the School of Social Work for prior baccalaureate course or field work completed at an undergraduate social work program accredited by the Council on Social Work Education when such work is evaluated as entirely comparable. A maximum of 12 course credits and 6 field work credits may be considered.

**Transfer Credit** is defined as the awarding of academic credit toward a degree by the School of Social Work for post-baccalaureate course or field work completed at an accredited academic institution when such work is evaluated as entirely comparable.

**Exemption** is defined as the waiving of a required academic course by the School of Social Work following an evaluation of the student's previous course work that is determined to be essentially identical to the required course being waived. Such an exemption does not, however, reduce the number of credits required for graduation.

Specific details and limitations regarding this policy and related procedures are described in the Student Handbook and on the School of Social Work Web site, http://www.socialwork.pitt.edu/academics/policies-handbooks.

Consistent with the Council on Social Work Education's (CSWE's) Educational Policies and Accreditation Standards, the School of Social Work's MSW program does not grant advanced standing, transfer credit, or exemption for prior life, volunteer, or employment experience.

Organization of the MSW Curriculum

The MSW program entails both class and field requirements distributed across foundation and skills concentration curricula. The MSW foundation curriculum is the same for all MSW degree students. All students must complete the school's designated class and field requirements for one of two skills concentrations: Community, Organization, and Social Action (COSA) or Direct Practice with Individuals, Families, and Groups. Students must complete the MSW Foundations requirements before being permitted to take concentration courses.

A change in concentration after matriculation is not advisable. *(See Selection of Skill Concentration for further details on changing concentrations.)*

**Master's**

**Social Work - Community, Organization, and Social Action Concentration, Community Organization Track, MSW**

**Community, Organization, and Social Action (COSA) Concentration Curriculum Requirements**

COSA offers concentration courses in Human Behavior and the Urban Environment, Organizational Policy Analysis, and a social work research course related to either of the two COSA specialization tracks from which students may choose: Community Organization or Social Administration. Students must take one of the required specialization core skill courses; however, many students prefer to pursue both COSA specializations. Students fulfill their remaining credits from a range of COSA skill elective courses, which include such topics as Supervision and Personnel Management, Financial Management, Public Relations/Marketing, Issue-Based Organizing, Community and Economic Development, and Grants, Proposals and Social Work, Social Work and the Law, and Race and Social Problems. Students may also pursue elective courses in other related professional schools. All students must complete six credits of foundation field work followed by twelve credits of concentration field placement in a range of organizational settings across an array of social work issues and program areas.

**Required Skill Courses**

SWCOSA 2084 - SOCIAL ADMINISTRATION
SWCOSA 2088 - COMMUNITY ORGANIZING
Second-Level HBSE Course

SWBEH 2008 - HUMN BHVR: URBAN ENVIRONMENT

Second-Level HBSE Course

SWWEL 2087 - ORGANIZATIONS & PUBLIC POLICY

Second-Level Research Course

Select one of the two courses below based on your specialized track (CO or SA)

SWRES 2009 - ORGNZTNL & COMNY DVLPMNT RSRCH (SA)
SWRES 2023 - DIRECTED STUDY IN RESEARCH (CO)

Electives and Field Placement

COSA Skill Electives - 6 credits (two courses related to CO or SA track - see below)
General Electives - 6 credits
SWCOSA 2099 - FIELD WORK - 12 credits (related to CO or SA track)

Community Organizing Electives

SWCOSA 2090 - WRKNG W/GROUP & INTERGRP RLTNS **
SWCOSA 2092 - ORGANIZING COMMUNITY CHANGE
SWCOSA 2096 - COMMUNTY PLANNING & DEVELOPMNT

Note:

*Courses required for Human Services Management Certificate (COSA or DP)

**Courses can count for either Social Administration or Community Organizing

Social Work - Community, Organization, and Social Action Concentration, MSW

Foundation Requirements

All MSW students must complete the MSW Foundation requirements listed below before being permitted to take concentration skill courses; second-level human behavior and the social environment, social welfare, or research courses; skill electives; and concentration field practicum, unless they are exempted via Advanced Standing credit or examination or an academic plan that is approved by the advisor and the program director.

The foundation course requirements (15 credits total) are:

SWRES 2021 - FOUNDS SOCIAL WORK RESEARCH
SWBEH 2063 - HUMAN BEHAVR & SOCIAL ENVRNMNT
SWWEL 2081 - SOCIAL WELFARE
SWGEN 2098 - GENERLIST FDS SOCL WRK PRACT
SWGEN 2034 - FDS SOCL WRK PRA DIVRS POPLTNS
Note:

In addition to the five courses listed above, students must complete 6 credits of Foundation Field Work. Students entering with advanced standing may be exempted from part or all of the Foundation Field Work requirement.

Skill Concentration Curricula

Upon completion of the foundation requirements, students begin course work in either of the two skill concentrations: Direct Practice with Individuals, Families, and Groups or Community, Organization, and Social Action (COSA). In each skill concentration, students can opt to choose a University of Pittsburgh certificate program, or a School of Social Work certificate program.

Community, Organization, and Social Action

The Community Organization and Social Action (COSA) concentration prepares socially active and civically engaged students for leadership careers in community service, community change, and community development organizations. Students can pursue specialized course work along one of two tracks-community organization or social administration-but many prefer to combine studies in both specialization areas. Many courses incorporate service learning and applied research that draw on field internships to enhance learning experience and build a professional portfolio. The COSA concentration also provides opportunities for networking with other students through a COSA student group and with faculty, field faculty, alumni, and seasoned community leaders from the greater Pittsburgh region, both in the field and at the school. Information about curriculum requirements is available on the school's Web site, http://www.socialwork.pitt.edu/academics/msw/concentrations/cosa

MSW students in the COSA concentration can elect as part of their graduate studies to obtain a certificate in human service management. Information about the human services certificate program is available on the school's Web site, http://www.socialwork.pitt.edu/academics/msw/concentrations/direct-practice/certificates/human-services-management

Electives:

MSW Courses

Social Work - Community, Organization, and Social Action Concentration, Social Administration Track, MSW

Community, Organization, and Social Action (COSA) Concentration Curriculum Requirements

COSA offers concentration courses in Human Behavior and the Urban Environment, Organizational Policy Analysis, and a social work research course related to either of the two COSA specialization tracks from which students may choose: Community Organization or Social Administration. Students must take one of the required specialization core skill courses; however, many students prefer to pursue both COSA specializations. Students fulfill their remaining credits from a range of COSA skill elective courses, which include such topics as Supervision and Personnel Management, Financial Management, Public Relations/Marketing, Issue-Based Organizing, Community and Economic Development, and Grants, Proposals and Social Work, Social Work and the Law, and Race and Social Problems. Students may also pursue elective courses in other related professional schools. All students must complete six credits of foundation field work followed by twelve credits of concentration field placement in a range of organizational settings across an array of social work issues and program areas.

Required Skill Courses

SWCOSA 2084 - SOCIAL ADMINISTRATION
SWCOSA 2088 - COMMUNITY ORGANIZING

Second-Level HBSE Course
Second-Level HBSE Course

SWWEL 2087 - ORGANIZATIONS & PUBLIC POLICY

Second-Level Research Course

Select one of the two courses below based on your specialized track (CO or SA)

SWRES 2009 - ORGNZTNL & COMNY DVLPMNT RSRCH (SA)
SWRES 2023 - DIRECTED STUDY IN RESEARCH (CO)

Electives and Field Placement

COSA Skill Electives - 6 credits (two courses related to CO or SA track - see below)
General Electives - 6 credits
SWCOSA 2099 - FIELD WORK - 12 credits (related to CO or SA track)

Social Administration Electives

SWCOSA 2014 - DISABILITY LEADERSHIP **
SWCOSA 2038 - HUMN RESORC MGMNT & SUPRVSN *
SWCOSA 2040 - GRANT PROPOSAL WRITING */**
SWCOSA 2053 - COMMUNICATIONS PBLCL RELATIONS
SWCOSA 2054 - LEADERSHIP ** (cross-listing with GSPIA)
SWCOSA 2085 - FINCL MGT HUMN SERVC INSTTNS *

Note:

*Courses required for Human Services Management Certificate (COSA or DP)
** Courses can count for either Social Administration or Community Organizing

Social Work - Direct Practice with Individuals, Families, and Groups Concentration, MSW

Foundation Requirements

All MSW students must complete the MSW Foundation requirements listed below before being permitted to take concentration skill courses; second-level human behavior and the social environment, social welfare, or research courses; skill electives; and concentration field practicum, unless they are exempted via Advanced Standing credit or examination or an academic plan that is approved by the advisor and the program director.

The foundation course requirements (15 credits total) are:

SWRES 2021 - FOUNDS SOCIAL WORK RESEARCH
SWBEH 2063 - HUMAN BEHAVR & SOCIAL ENVRNMNT
SWWEL 2081 - SOCIAL WELFARE
SWGEN 2098 - GENERLIST FDS SOCL WRK PRACT
Note:

In addition to the five courses listed above, students must complete 6 credits of Foundation Field Work. Students entering with advanced standing may be exempted from part or all of the Foundation Field Work requirement.

Skill Concentration Curricula

Upon completion of the foundation requirements, students begin course work in either of the two skill concentrations: Direct Practice with Individuals, Families, and Groups or Community, Organization, and Social Action (COSA). In each skill concentration, students can opt to choose a University of Pittsburgh certificate program, or a School of Social Work certificate program.

Direct Practice with Individuals, Families, and Groups

Direct practice skills form the basis of service in family and children's agencies, mental health and mental retardation programs, health services, work with juvenile delinquents and adult offenders, and substance abuse treatment. Through course work and field practicum, students in the direct practice concentration acquire the knowledge and skills needed to engage in direct practice with diverse populations of individuals, families, and small groups. Practice approaches include psychodynamic-psychosocial, cognitive-behavioral, and social systems. Consistent with an emphasis on client strengths and the values and traditions of the social work profession, students become skilled at mobilizing a variety of formal and informal support systems to assist clients in addressing their needs and realizing their potential.

Direct practice certificates entail a specific array of courses and field placement experiences that permit students to tailor their education and professional preparation.

Six certification programs are available to direct practice students. Direct practice students in the MSW program can elect to pursue a certificate in:

- Children, Youth and Families Certification (School of Social Work Certificate)
- Gerontology (University of Pittsburgh Certificate)
- Home and School Visitor (School of Social Work, School of Education, and PA Department of Education Certificate)
- Integrated Health Certificate (University of Pittsburgh Certificate)
- Mental Health Certification (School of Social Work Certificate)

Students are not required to pursue a certificate. Those who choose to do so, must declare their choice of a certificate program no later than the end of the first term of full-time study. Individuals intending to complete the Home and School Visitor certificate must declare their interest in their application for admission to the MSW program. Information about curriculum requirements, specialization, and certificate programs are available on the school's Web site, http://www.socialwork.pitt.edu/academics/msw/concentrations/direct-practice

Electives:

MSW Courses

Social Work, MSW

MSW Degree Requirements

The Master of Social Work (MSW) degree can be completed in two academic calendar years of full-time study and requires the satisfactory completion of a minimum of 60 credits-42 class and 18 field practicum. Candidates for the MSW degree must demonstrate successful completion of the required foundation courses, concentration-specific courses, and field practicum, and must have a minimum overall GPA of 3.00.

Certificate
Children, Youth and Families Certificate

The Children Youth and Families Certificate is designed to prepare graduates of the MSW program to provide services to children and families across a wide range of public and private agencies. Through specialized coursework and internship opportunities, students are prepared for professional practice in settings such as family service agencies, child protection, the courts, early intervention, community-based treatment, and other child and family-focused programs. The Children, Youth and Families Certificate is awarded by the School of Social Work, and provides students with the opportunity to enhance professional competency in providing services to young persons and their families.

Gerontology Certificate

The gerontology certificate enhances MSW students' understanding of the aging process and provides students with relevant skills to practice with and/or on behalf of the elderly. Knowing how to work with the elderly as a social work professional offers many opportunities at a time when this population is steadily increasing. A background in gerontology provides students with the tools to enter an occupation field with an expected growth rate of 22 percent over the next 10 years.

Home and School Visitor Certificate

Post-master's degree social work students interested in obtaining Pennsylvania Home and School Visitor certification must apply to the School of Social Work as continuing education students. Post-master's social work students seeking certification must also submit a completed application package, have an admissions interview with the program director, and pay the admission processing fee of $40 to the University of Pittsburgh, School of Social Work. For more information please contact Deborah Robinson, Director Home & School Visitor Program at (412) 624-3844 or email dcr16@pitt.edu.

Home and School Visitor/School Social Worker Certificate

The Home and School Visitor/School Social Worker (H&SV/SSW) certificate, a joint effort with the University of Pittsburgh School of Education that is accredited by the Pennsylvania Department of Education, prepares students for professional practice in both public and private educational settings throughout Pennsylvania. The H&SV/SSW certificate program is designed to enhance professional competency in the development and delivery of high-quality social work services to diverse student populations in elementary and secondary schools.

Human Services Management Certificate

Many MSW's often find themselves moving up quickly into supervisor, management, and even executive positions. The generalist perspective and systems knowledge from their social work education provides a strong basis for leadership growth in a range of social work settings. However, to better prepare macro practice/COSA students to take advantage of leadership opportunities and enhance their personal and professional development, the School now offers the Human Services Management Certificate in collaboration with the Network of Social Work Management.

This national Human Services Management Certificate can be completed by COSA students in the course of their MSW. Students pursuing this certification option must complete twelve credits through the following COSA core and skill electives course work covering areas of: Social Administration/Human Services Management, Human Resources/Supervision Management, Financial Management, Grant and Funding Development, and other management and leadership skills in keeping with the Network of Social Work Management competencies, which are offered in the COSA concentration. In addition, COSA students in Social Administration/Human Services Management must also complete a COSA concentration field placement in a community-based or human services organization to apply their course knowledge, values, and skills in the organizational setting.

For more information on the Human Services Management Certificate, please contact the Community Organization, and Social Action Concentration Chairperson, Tracy M. Soska, at 412-624-3711 or tsssw@pitt.edu.

Integrated Healthcare Certificate
The Integrated Healthcare Certificate Program prepares graduate social work students specializing in direct practice with the knowledge and skills necessary to work with individuals, families, groups, and communities in a variety of institutional and community-based health-related settings. The goal of the certificate program, which emphasizes leadership and advocacy, is to increase the number of students focused on health and social work. Students completing the Integrated Health Certificate Program will have a deeper understanding of the relationship between behavioral health (e.g., mental health, substance use) and physical health. New opportunities abound in health care for social workers trained in an interdisciplinary approach who are prepared to bridge the gap between health care providers and patient needs within a coordinated system of care.

Mental Health Certificate

The Certificate in Mental Health is designed to prepare MSW graduates for professional practice with individuals, families, and/or groups with mental and/or behavioral health challenges through a wide range of social and human service agencies. The certificate program places a special emphasis on the needs of those who are the most vulnerable and disadvantaged. Direct practice social workers in mental health services have a wide array of career opportunities across a range of public and private settings, including psychiatric inpatient services, outpatient psychotherapy services, child and family services, partial hospitalization and case management services, drug and alcohol services, and private practice. This curriculum best prepares students to pursue independent clinical licensure in Pennsylvania and most other states.

Doctorate in Social Work Program

Social work doctoral education prepares people for leadership roles in social work research, social work education, social policy and planning, and administration. The goal of the doctoral program of the School of Social Work is to provide students with advanced research and policy analysis skills based on a foundation of social science theory and social welfare. The doctoral program is committed to the school's mission to address human worth and dignity, social justice, and social equity for diverse populations. Program graduates will be able to conduct research that addresses social work and social welfare and policy problems and to disseminate knowledge to researchers, social work educators, social work practitioners, and policy makers.

The University of Pittsburgh has one of the oldest social work doctoral programs in the United States, awarding its first DSW degrees in 1949. In 1963, the program's degree was changed to a PhD. Information regarding the Doctor of Philosophy Program is available online at www.socialwork.pitt.edu/academic-programs/phd/.

In addition to the description of the PhD in Social Work given below, doctoral students should consult the Regulations Pertaining to Doctoral Degrees in the General Academic Regulations section of this document.

Admission to Doctoral Program

http://www.socialwork.pitt.edu/admissions-aid

Contact Information

Ms. Theresa Fabrizio  
Office of Admissions  
School of Social Work  
Room 2104 Cathedral of Learning  
412-624-6302  
E-mail: tfab@pitt.edu  
www.socialwork.pitt.edu

Applications should be received no later than December 31 of each year. Admission to the program is on a full-time basis for the Fall Term only. The doctoral program is strongly committed to a policy of equal educational opportunity for people of all races, creeds, and ethnic origins.
Program Transfer Credits

Students who have earned doctoral-level credits at the University of Pittsburgh or at another accredited institution within seven years preceding entry to the doctoral program may be eligible for advanced standing. Advanced standing consists of awarding academic credit toward the degree for post-master's work completed when such work is evaluated as entirely comparable. Official transcripts certifying graduate course work completed in a degree-granting graduate program should be submitted at the time of application. The maximum number of credits that can be transferred and accepted for advanced standing is 12.

See Allowable Credits in the General Academic Regulations section of this bulletin for more details on requirements for transfer credits.

Financial Support for Doctoral Students

Financial Support for Doctoral Students Doctoral students are supported in years one and two by research-based graduate student assistantships (GSAs), and in years three and four by teaching assistantships (TAs). Exceptional students with teaching experience and two years post-MSW experience may apply for our teaching fellowships (TFs). Both GSAs and TAs/TFs provide tuition remission and stipends for the fall, spring, and summer terms. There is a 20-hour-per-week work requirement.

Typically the student receives their GSA or TA support for four years as long as the student is making satisfactory progress toward the degree. If a fifth year is required, it usually is supported by adjunct teaching. Students also are encouraged to apply for predoctoral research traineeships and other awards.

Doctoral Curriculum Objectives

The program curriculum strongly emphasizes social problem areas, as well as coordinating themes in theory, research methodology, and social policy courses. The overall goal is to integrate the acquisition of basic advanced knowledge, methods of empirical testing, and application to real-world situations. Course materials draw heavily on several priority areas of social work concern, including aging, mental health, income maintenance, child welfare, women's issues, child and family policy, and health services, and social justice, diversity issues.

By the time students have completed the program, they should have acquired the following:

- Knowledge of relevant social science theory
- Advanced skills in research methodology and statistics
- Advanced knowledge of social welfare policy (historical and contemporary) and policy analysis
- Knowledge of relevant fields of practice, theoretical and policy perspectives, and research findings
- Exposure to an interdisciplinary frame of reference through mechanisms provided internally by the doctoral program and externally through access to other disciplines and professions in the wider University

Although entering students are not required to have completed course work or other experience relevant to computer literacy, possessing basic computer skills will be an asset to students beginning the program.

Doctoral

Social Work, PhD

PhD Degree Requirements

The PhD program requires 10 core courses, one policy elective, plus a minimum of five electives, which may be 2-, 3- or 4-credit courses. During their first year, all students are required to take the Doctoral Seminar (0 credits). Students will spend two years meeting their course requirements. Full-time status is defined as nine or more credit hours per semester. Fifty (50) credit hours must be completed before students are permitted to take the comprehensive examination.
Doctoral Requirements

During the first two academic years in the program, full-time students are primarily involved in taking the required courses in the four essential areas of study: social welfare, social science theory, research methods, and social policy. Students take courses in the fall and spring terms of their first and second years; summer courses are necessary if a student is enrolled in one of our joint degree programs or desires a nine-credit schedule for the fall and spring terms.

Curriculum

Courses are taken in the fall and spring terms during the student's first and second years; summer courses are needed if a student desires a nine-credit schedule for fall and spring terms and/or is enrolled in one of the joint degree programs (no more than 12 credits are recommended for the student's first semester in the program). Learn more about our curriculum.

Comprehensive Examination

Students take a comprehensive examination after completion of all required and elective courses. The Comprehensive examination is taken in the summer of the second year. For students in the MSW/PhD program, the comprehensive examination is taken in the summer of the 3rd year.

Doctoral Dissertation

The doctoral dissertation involves:

- Dissertation Research: begins after passing the comprehensive examination
- Defense of a Dissertation Overview: occurs after a committee review of the dissertation overview and includes an introduction to the problem, a literature review, and a detailed methodology (admission to PhD candidacy)
- Final Dissertation Defense: occurs at least one year following admission to candidacy

Grades in Course Work

It is required that students will maintain an average grade point average of 3.00 or better in all course work. If a student receives a grade lower than B- in a required course, the course will have to be repeated. Whether the courses are required or elected, more than one grade of C+ or lower will be the basis for a formal Academic Review.

Program Flexibility and Individualization

An individual student's program should reflect the student's developing professional expertise, career goals, and personal interest. This program, therefore, maintains as much flexibility and individualization as possible.

This individualization is built upon the core curriculum through planning for elective course work and enrichment experiences, including teaching and research assistantships. The PhD program provides a set of structured and integrated core courses that can be applied to each students' area of specialization. This core curriculum is supplemented by six elective courses that allow students to obtain more depth in their specialization areas. Faculty advisors work closely with students in planning their course work and progress through the doctoral program.

A minimum of three years of full-time study is required for doctoral program completion. The curriculum is distributed between a nine-course core curriculum and elective courses followed by the comprehensive examination and doctoral dissertation.

Core Doctoral Curriculum
During the first two academic years in the program, students are primarily involved in taking the required courses in the four essential areas of study: social welfare, social science theory, research methods and statistics, and social policy. These core courses are provided by the doctoral program. A brief description of each area of study follows with a listing of credits awarded and terms offered. All 1st year students are required to take the non-credit Doctoral Seminar. More information on each doctoral course is available in the Student Handbook.

Required (Core) Courses

Research Methods (17 total credits)

- SWRES 3020 - RESEARCH METHODS 1
- SWRES 3029 - INFERNTL STAT SOCAL WORKERS
- SWRES 3021 - MULTIVARIATE ANALYSIS
- SWRES 3022 - RESEARCH METHS: CAPSTONE SEM 1
- SWRES 3023 - RES METHODS: CAPSTONE SEM 2
- SWRES 3066 - SEMINAR IN SOCIAL WORK EDUCATION - 3 credits
- Doctoral Seminar - 0 credits

Theory (6 total credits)

- SWGEN 3044 - THEORY 1
- SWGEN 3053 - THEORY 2

Policy (6 total credits)

- SWWEL 3030 - EVAL OF AMERCN SOCIAL WELFARE
- SWWEL 3037 - SOCIAL POLICY ANALYSIS

Elective Courses (21 credits)

In addition to the above core course requirements, the student selects seven elective courses to pursue more specialized interests. All electives must be at least 2 credit graduate level courses with a credit total = 21 credits. Elective options available in the program, including the Joint Public Health Master's/Social Work PhD option and the graduate certificate in women studies offer particular advantages but tend to restrict the number of electives open to students. Although some doctoral elective courses are offered within Social Work, students are encouraged to take relevant course work in other schools and departments of the University. Many social welfare-related fields are open: sociology, economics, women's studies, political science, law, urban affairs, public health, and others. The student can choose his or her courses from all graduate programs in the University. The students may take no more than two MSW courses for elective credit. All electives must be approved by the student's advisor as contributing to the student's area of specialization.

Interdisciplinary Components of Doctoral Curriculum

In addition to the core doctoral courses, the student has seven elective course selections to pursue more specialized interests. Certain options available in the program, especially the Joint Public Health Master's/Social Work PhD option and the graduate certificate in women's studies, offer particular advantages but tend to restrict the number of electives open to students. Students are encouraged to take graduate-level course work in other schools and departments of the University insofar as this is feasible within their program requirements. Many social welfare-related fields are open: sociology, economics, women's studies, social psychology, political science, law, urban affairs, public health, and others. The student can choose his or her courses from all graduate programs in the University. The student may take no more than two MSW courses as electives.

Cooperative Degrees Program
In addition to the MSW and PhD degrees, graduate students in the School of Social Work have the opportunity to select from several unique dual degree programs. MSW students can avail themselves of one of the eight joint or cooperative degree programs; two joint degree programs are available to PhD students.

Detailed below are joint degree programs offered by the School of Social Work in tandem with the Graduate School of Public and International Affairs, the Graduate School of Public Health, the School of Law, the School of Education, and the Pittsburgh Theological Seminary.

**MSW/Master of Public Administration, MSW/Master of Public and International Affairs, and MSW/Master of International Development**

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

The easiest way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

University of Pittsburgh
Graduate School of Public and International Affairs
Office of Admissions
3601 Wesley W. Posvar Hall
Pittsburgh, PA 15260
412-648-7640
www.gspia.pitt.edu

**MSW/Master of Public Health program**

The MSW/MPH program requires a three year curriculum plan. Students will complete the required core courses in both the MSW and the MPH program. Selected required courses from each program will count as elective courses toward the degree in the other program. A reciprocal agreement between both programs with regards to the acceptance of student electives will facilitate effective curriculum planning.

The total number of credits to be taken will be 86 (50 in Social Work, and 36 in GSPH). Students will be required to complete two field placements (one in the first year and one in the second) as required by the MSW program, and as is consistent with the practicum requirements of the MPH program.

The second field placement will have a public health emphasis and count as the required MPH practicum experience. All students will be required to complete the GSPH Capstone course, and complete an essay as required by the MPH program. Students will be assigned faculty advisors from both SSW and GSPH and these advisors will work collaboratively with the student to plan the academic course of study.
Upon completion of the joint degree program, the student would receive the Master of Public Health and the Master of Social Work degrees from the respective schools. The curriculum is established in an effort to have the requirements for both degrees met by having certain classes at one school fulfill requirements at the other.

The efficient way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

MSW/Juris Doctorate

The School of Social Work (SSW) and the School of Law offer a cooperative educational program through which students may earn both the Master of Social Work (MSW), the primary professional degree in social work, and the Juris Doctor (JD) degree, the first professional degree in law. The MSW-JD program will enable students with interests in a wide range of areas where law and social work converge - such as child welfare, aging, health, mental health, juvenile and criminal justice, family issues, and housing - to engage in a highly integrative educational experience that will include academic courses, field placements, and research opportunities at the intersection of both professions. The joint degree program allows one to earn both degrees in four years rather than five.

Increasingly, social work professionals and attorneys are working together to promote the well-being of their clients. These areas of convergence exist in practice with individuals, families, and groups as well as with communities and organizations. The intersection of legal and social work concerns is also evident at the policy level, and research from both professional disciplines has been used to inform these activities. It is not uncommon for practitioners from both fields to work in concert to draft, implement, and/or advocate for legislation at the local, state, and federal levels.

The MSW-JD program is one among several programs that the Schools of Social Work and Law have jointly established throughout their long and rich history of collaboration.

Neither degree may be granted prior to fulfillment of all requirements for the joint degree program.

Joint Degree Programs with the Graduate School of Public and International Affairs

Master of Social Work/Master of Public Administration
Master of Social Work/Master of Public and International Affairs
MSW/Master of International Development

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

Graduate School of Public and International Affairs

We live in a world both illuminated by great hope and darkened by great conflict. Make a difference and take the lead. Prepare yourself with a comprehensive education from the Graduate School of Public and International Affairs (GSPIA) at the University of Pittsburgh.

Your academic options begin with GSPIA’s integrated academic structure of three distinct master's degree programs offering eight different majors. Click on the links below to learn more about GSPIA’s academic programs and related learning and research opportunities at GSPIA and the University of Pittsburgh. And-as always-we're ready to answer any questions you may have! Contact the Office of Student Services at 412-648-7640 or by email, gspia@pitt.edu.

Joint Degree Programs with the Graduate School of Public and International Affairs

Master of Social Work/Master of Public Administration
Master of Social Work/Master of Public and International Affairs
MSW/Master of International Development

Three unique joint degree programs are offered by the University of Pittsburgh School of Social Work, through its COSA concentration, and the Graduate School of Public and International Affairs. These joint programs provide students with a broad professional education to prepare them for eventual service in urban non-profit and government organizations, community development policy, and social and urban planning. They provide experienced students with opportunities to expand their knowledge base and enable other students to develop more marketable professional skills than are usually acquired through single-degree programs. Students in these joint programs earn a Master of Social Work from the School of Social Work and a Master of Public Administration, Master of Public and International Affairs or a Master of International Development from the Graduate School of Public and International Affairs.

Students must be admitted to both programs in order to qualify for admission to the joint degree program. Degree candidates must meet the minimum foundation, concentration, and specialized requirements of both schools, except where substitutions are appropriate and approved by the faculty advisors. Depending upon which joint degree program the student elects, the total number of credits required for graduation ranges from 72 to 88 credits. For most students, this means that individual programs can be completed within six to seven terms of full-time residency. Students electing to terminate the joint degree program before its completion must complete all the work required by the respective schools for either degree in order to receive that degree separately.

Graduate School of Public and International Affairs

We live in a world both illuminated by great hope and darkened by great conflict. Make a difference and take the lead. Prepare yourself with a comprehensive education from the Graduate School of Public and International Affairs (GSPIA) at the University of Pittsburgh.

Your academic options begin with GSPIA's integrated academic structure of three distinct master's degree programs offering eight different majors. Click on the links below to learn more about GSPIA's academic programs and related learning and research opportunities at GSPIA and the University of Pittsburgh. And-as always-we're ready to answer any questions you may have! Contact the Office of Student Services at 412-648-7640 or by email, gspia@pitt.edu

MSW/MPH

MSW/Master of Public Health Program

The MSW/MPH program requires a three year curriculum plan. Students will complete the required core courses in both the MSW and the MPH program. Selected required courses from each program will count as elective courses toward the degree in the other program. A reciprocal agreement between both programs with regards to the acceptance of student electives will facilitate effective curriculum planning.

The total number of credits to be taken will be 86 (50 in Social Work and 36 in GSPH). Students will be required to complete two field placements (one in the first year and one in the second) as required by the MSW program, and as is consistent with the practicum requirements of the MPH program.

The second field placement will have a public health emphasis and count as the required MPH practicum experience. All students will be required to complete the GSPH Capstone course and complete an essay as required by the MPH program. Students will be assigned faculty advisors from both SSW and GSPH and these advisors will work collaboratively with the student to plan the academic course of study.

Upon completion of the joint degree program, the student would receive the Master of Public Health and the Master of Social Work degrees from the respective schools. The curriculum is established in an effort to have the requirements for both degrees met by having certain classes at one school fulfill requirements at the other.

The efficient way to apply to the Master's Degree in Social Work Program at the University of Pittsburgh School of Social Work is to use our online application.

Social Work, MPH/PhD
The joint MPH/PhD program is designed for social workers seeking administrative, policy, and/or academic positions. The overall training program clearly emphasizes leadership training rather than basic professional preparation. All trainees must possess a Masters of Social Work (MSWs) with at least two years of professional practice experience.

Students in the joint Master of Public Health/PhD program must be admitted to the Graduate School of Public Health as well as to the doctoral program in the School of Social Work. Course requirements for both programs must be fulfilled.

Requirements:

This joint degree requires the completion of a minimum of 81 credits, a comprehensive examination and successful defense of a dissertation. Graduate Students in the joint MPH/PhD program generally apply 12 credits from the MPH curriculum toward their elective course work for the PhD.

Social Work, MSW/MDiv

Social work and theology have many historical, philosophical, and applied commonalities. In an effort to integrate the two educational experiences and prepare professionals competent to integrate their practice skills, the School of Social Work, in cooperation with the Pittsburgh Theological Seminary, has developed a cooperative degree program leading to the Master of Social Work and Master of Divinity degrees.

This program provides a full social work and theological education that may be completed in four years by virtue of mutual and reciprocal educational planning between the institutions. Candidates for the degrees normally enter the seminary and concentrate on theological studies during the first two years of the program. The third and fourth years are spent primarily in the School of Social Work with approximately one course each term being taken at the seminary. Students electing to terminate the cooperative degree program before its completion must complete all the work required by the respective institutions for either degree in order to receive that degree separately. Applications for admission are processed independently by each institution.

Requests for further information concerning the Pittsburgh Theological Seminary and its various programs may be addressed to the Director of Admissions, Pittsburgh Theological Seminary, 616 North Highland Avenue, Pittsburgh, PA 15206, or call 412-362-5610, ext. 2116. The seminary's Web site is www.pts.edu.
